

Letter to Attorney General Crawford from Town Doctor

Letter from local observer to Attorney General: Department of Justice file. (Original document on page 2)

Mr. A.M. Crawford
Attorney General, State of Oregon

Dear Sir:

The recent visit to this place of Gov. West's Secretary, Miss Hobbs, has had such a salutary effect on the memorie (sic) powers of our City Council that they have been able to bring to light an anti-bootlegging ordinance, the existence of which has been for years denied by some of them and ignored by the others, so that the case which I submitted to you yesterday as one of facts has now become merely a hypothetical case and I need not trouble you further with it.

Very respectfully yours

C.M. Ramsdell M.D.
