Question 5. Description of Trade or Service Mark

Environmental Management Systems, Inc. (EMS) seeks to protect both its business logo and trade name as a service mark related to the services the company has offered since 1999 in Oregon.

The EMS logo related to its service mark is the capitalized letter of each word of the company's descriptive name – "E", "M", and "S", stylized in block letters where each letter is framed with a black outline, further framed with a white matted buffer between the black outline and the filled color, and with each letter more fully filled with a dark blue color. The letters do not touch. From the letter "M" is a fading blue water droplet that is depicted as dropping from the tip of the bottom of the middle of the letter "M" and that fades from the same dark blue in the EMS letters to a more translucent blue at the largest point in the water droplet.

Under the EMS stylized artistic logo described above are the words ENVIRONMENTAL MANAGEMENT SYSTEMS, INC. The letters are completely capitalized in a black block letter font. The words "SYSTEMS" and "INC." are separated by a comma. The word "INC." is the shortened form of the word "INCORPORATED" and is abbreviated with a period at the end of the "INC." abbreviation.

Please see the included copy of the logo as included with this application.

The stylized logo and the business trade name as aforementioned and described are used as a service mark to represent the trade services offered by Environmental Management Systems, Inc. These trade services that comprise the service mark include but are not limited to:

- Civil and environmental engineering
- Design, wetland, geologic, and home siting services;
- Sewage and stormwater treatment systems;
- Septic maintenance monitoring and reporting;
- Mapping and design services;
- Stormwater mitigation and management;
- Business services including support for permitting, environmental testing and sampling;
- Production of geotechnical reports for clients;
- Landslide hazard studies; and
- General consulting services and expert testimony of the aforementioned services.

Please see the included copy of the EMS services brochure for additional reference.
