No further business appearing, the meeting was adjourned to the Oregon State Hospital.

Secretary,

Salem, Oregon, June 19, 1945.

The Oregon State Board of Eugenics met in Salem, Oregon, Tuesday, June 19, 1945, at the Oregon State Hospital at 1:00 p.m. Those present were: Doctors Thomas Robertson, D. C. Burkes, G. E. Hunt, H. E. Irvine, O. T. Wherry, and Harold M. Erickson. Dr. John Evans, Superintendent of the Oregon State Hospital was also present.

The meeting was called to order by the President, Dr. Thos. Robertson. Minutes of the meeting of December 7, 1943, were read and approved.

The cases of [redacted] (not in custody) and [redacted] were briefly discussed and tabled, since they could not appear before the Board. Dr. Erickson was instructed by the President to ask legal advice regarding authorizing sterilization without the Board's seeing the patient. A motion was made by Dr. Wherry and seconded by Dr. Irvine that duplicate records should be kept of all sterilization cases, the original to be kept in the institution and the duplicate copy in the office of the State Board of Health. This motion was carried unanimously.

[redacted] (alias [redacted] from the Oregon State Penitentiary was presented to the State Board of Eugenics. A motion was made by Dr. Burkes, on basis that [redacted] has had two commitments to the Penitentiary, that castration be approved. This motion was seconded by Dr. Hunt, and unanimously passed.

[redacted] from the Oregon State Penitentiary was presented to the Board of Eugenics. His case was reviewed with him, after which the Board unanimously agreed they would not recommend anything but castration, to which the patient did not agree. He was instructed to return to the Penitentiary and reconsider the matter. No action was taken by the Board.

The following cases had been operated on and the action of the Superintendent in these cases was submitted to the Board for confirmation. It was moved by Dr. Irvine and seconded by Dr. Wherry that confirmation of cases listed below be granted by the Board. Motion carried unanimously.

The Pre-Marital Form, in its new simplified one-sheet form, was presented to the Board for adoption. Dr. Wherry moved that Dr. Erickson's recommendations for the change be approved. Dr. Hunt seconded the motion. Carried unanimously. Dr. Hunt made a motion to eliminate notarization of doctor's signature on pre-marital form, if this is found to be legal. Dr. Irvine seconded this motion. Carried unanimously.

There being no further business, it was moved and seconded that the meeting be adjourned.

Secretary,

Portland, Oregon, August 18, 1945.

The Oregon State Board of Eugenics met in the Oregon Building, August 18, 1945 at 4:00 P. M. Those present were: Doctors Thos. D. Robertson, D. C. Burkes, L. D. Inskeep, N. E. Irvine, C. E. Hardwick, O. T. Wherry and Harold M. Erickson.

The case of [redacted] was reconsidered. [redacted] appeared before the Board accompanied by her father. After careful review of the case, the recommendations of Doctors Lena Kenin and Herman A. Dickel, and interview of [redacted] and her father, Doctor Burkes moved and Doctor Irvine seconded a motion that authorization be given for resection of Fallopian tubes on [redacted] for the purpose of sterilization.

There being no further business, the meeting adjourned.

Secretary,

1946

January 8, 1946.

The Oregon State Board of Eugenics met in Salem, Oregon, Tuesday, January 8, 1946, at the Oregon State Hospital at 1:45 pm. Those present were:

D. C. Burkes, M. D.
 L. D. Inskeep, M. D.
 O. T. Wherry, D.M.D.
 O. C. Hagmeier, M. D.
 C. E. Hunt, M. D.
 A. K. Berman, B. S.
 Lawrence Lister, Legal Consultant
 John C. Evans, M.D., Superintendent of
 Oregon State Hospital
 Gerhard B. Haugen, M.D., Director,
 Division of Mental Hygiene
 Harold M. Erickson, M. D.

The meeting was called to order by the President, Dr. Burkes. After some discussion it was agreed that duplicate originals of all records required by law be forwarded to Dr. Erickson by Dr. Evans. This, in order to maintain complete records in the office of the secretary as well as at the State Hospital.

After general discussion of disposal of old records of incomplete cases by the Board and at the suggestion of Mr. Lister, Dr. Inskeep moved and Dr. Wherry seconded that incomplete records now on file in the office of the secretary be referred to the proper institutions and those records of individuals no longer institutionalized be destroyed. Motion carried.

Dr. Inskeep moved and Dr. Hagmeier seconded that completed sterilization records of adults be held for a period of five years following the operation; and that in the case of minors the records be held five years after the patient reaches his or her majority. Motion carried.

The following cases had been operated on and the action of Superintendent Evans in these cases was submitted to the Board for confirmation. It was moved by Dr. Wherry and seconded by Dr. Inskeep that confirmation of these cases be granted by the Board. Motion carried unanimously.

.....Salpingectomy
Salpingectomy

There being no further business, the meeting was adjourned.

Harold M. Erickson
 Secretary,

April 27, 1946.

The Oregon State Board of Eugenics met in Portland on Saturday, April 27, 1946, in the office of the Secretary at 2:00 P.M. The following members of the Board were present:

D. C. Burkes, President
 L. D. Inskeep, M.D.
 O. T. Wherry, D.M.D.
 O. C. Hagmeier, M.D.
 C. E. Hunt, M.D.
 N. E. Irvine, M.D.
 C. E. Hardwick, M.D.
 H. M. Erickson, M.D.

Gerhard B. Haugen, M.D., Director, Mental Hygiene Section and H. Lawrence Lister, Legal Consultant, Oregon State Board of Health, also were present.

The meeting was called to order by the President, Dr. Burkes.

The case of [redacted] age 36, was reviewed. [redacted] appeared before the Board accompanied by Miss Ruth Ranson, Multnomah County Case Worker. After careful consideration of the case and of the recommendations of the Doctors of Multnomah County Hospital, Dr. Irvine moved that a bilateral salpingectomy be performed. This was seconded by Dr. Inskeep, and motion carried.

The case of [redacted] was presented to the Board by Dr. Haugen. From evidence submitted it was felt that this individual with or without an operation, if at liberty, would be a menace to the public. Dr. Hunt moved, Dr. Wherry seconded, motion carried that no action be taken on this case.

Dr. Haugen presented for confirmation the data on [redacted] age 18, epileptic. This received Board approval.

A letter from Mr. Lister was read to the Board in which it was pointed out the inadvisability of some of the procedures of the Board. Mr. Lister's letter also stated that he is not Attorney for the Board of Eugenics, but is Attorney for the Board of Health. Dr. Inskeep moved, Dr. Wherry seconded, motion carried that the Board request Mr. Lister's help in this matter of drawing up procedures according to statute, and that all state institutions be notified that no operations be done until such time as new procedures are adopted by the Board.

There being no further business, the meeting was adjourned.

 Secretary

July 31, 1946

The Oregon State Board of Eugenics met at Oregon Fairview Home, Wednesday, July 31, 1946, at 10:30 A.M. The following members of the Board were present:

D. C. Burkes, M.D., President
 L. D. Inskeep, M.D.,
 O. T. Wherry, D. M.D.
 O. C. Hagmeier, M.D.
 C. E. Hunt, M.D.
 Harold M. Erickson, M.D., Secretary

Gerhard B. Haugen, M.D., Director, Mental Hygiene Division, Oregon State Board of Health, and H. Lawrence Lister, Legal Consultant, to the Board of Health also were present. Doctors Hardwick and Irvine were unable to attend.

The meeting was called to order by President Barker. A discussion of the use of and completion of present Eugenics Forms was held. It was Mr. Lister's opinion that a careful record be made of the consent of the guardian for any operation performed. He also brought to the attention of the Board the fact that it is unwise and illegal for an operation to be performed until the case has been reviewed by the Board and has been completed, including the properly signed consents.

It was unanimously agreed that all institutions be advised that no sterilizations or castrations be undertaken which would require the Board's approval until the case has been presented to the Board for review and necessary action.

The following cases, each one having been diagnosed as mental deficiency, were presented for consideration of the Board by Doctor Irvin B. Hill, Superintendent, Oregon Fairview Home:

██████████ female, age 17. Dr. Hagmeier moved, Dr. Hunt seconded, motion carried, that she be sterilized by resection of Fallopian tubes as recommended by Dr. Hill.

██████████ female, age 16. Dr. Hagmeier moved, Dr. Hunt seconded, motion carried, that she be sterilized by resection of Fallopian tubes as recommended by Dr. Hill.

██████████ female, age 19. Dr. Hagmeier moved, Dr. Hunt seconded, motion carried, that she be sterilized by resection of Fallopian tubes as recommended by Dr. Hill.

██████████ female, age 16. Dr. Hagmeier moved, Dr. Hunt seconded, motion carried, that she be sterilized by resection of Fallopian tubes as recommended by Dr. Hill.

██████████ female, age 19. Dr. Inskeep moved, Dr. Hunt seconded, motion carried, that she be sterilized by resection of Fallopian tubes as recommended by Dr. Hill, providing consent is obtained.

██████████ female, age 20. Dr. Inskeep moved, Dr. Wherry seconded, motion carried, that she be sterilized by resection of Fallopian tubes as recommended by Dr. Hill.

██████████ female, age 18. Dr. Inskeep moved, Dr. Hagmeier seconded, motion carried, that she be sterilized by resection of Fallopian tubes as recommended by Dr. Hill.

██████████ female, age 15. Dr. Wherry moved, Dr. Inskeep seconded, motion carried, that she be sterilized by resection of Fallopian tubes as recommended by Dr. Hill.

██████████ female, age 19. Dr. Hagmeier moved, Dr. Hunt seconded, motion carried, that she be sterilized by resection of Fallopian tubes as recommended by Dr. Hill.

██████████ female, age 34. Dr. Wherry moved, Dr. Inskeep seconded, motion carried, that she be sterilized by resection of Fallopian tubes as recommended by Dr. Hill.

██████████ female, age 16. Dr. Inskeep moved, Dr. Hunt seconded, motion carried, that she be sterilized by resection of Fallopian tubes as recommended by Dr. Hill.

██████████ female, age 17. Dr. Inskeep moved, Dr. Hunt seconded, motion carried, that she be sterilized by resection of Fallopian tubes as recommended by Dr. Hill.

██████████ female, age 15. Dr. Hagmeier moved, Dr. Wherry seconded, motion carried, that she be sterilized by resection of Fallopian tubes as recommended by Dr. Hill.

██████████ female, age 25. Dr. Inskeep moved, Dr. Wherry seconded, motion carried, that she be sterilized by resection of Fallopian tubes as recommended by Dr. Hill providing consent is obtained.

██████████ female, age 14. Dr. Hagmeier moved, Dr. Burkes seconded, motion carried, that she be sterilized by resection of Fallopian tubes as recommended by Dr. Hill.

██████████ female, age 11. Dr. Hagmeier moved, Dr. Burkes seconded, motion carried, that she be sterilized by resection of Fallopian tubes as recommended by Dr. Hill when growth is reached.

██████████ female, age 14. Dr. Burkes moved, Dr. Hagmeier seconded, motion carried, that she be sterilized by resection of Fallopian tubes as recommended by Dr. Hill.

██████████ female, age 13. Dr. Burkes moved, Dr. Hagmeier seconded, motion carried, that she be sterilized by resection of Fallopian tubes as recommended by Dr. Hill.

██████████ female, age 17. Dr. Burkes moved, Dr. Hunt seconded, motion carried, that she be sterilized by resection of Fallopian tubes as recommended by Dr. Hill.

██████████ female, age 14. Dr. Wherry moved, Dr. Burkes seconded, motion carried, that she be sterilized by resection of Fallopian tubes as recommended by Dr. Hill.

██████████ male, age 15. Dr. Hunt moved, Dr. Hagmeier seconded, motion carried, that he be sterilized by vasectomy as recommended by Dr. Hill.

██████████ male, age 16. Dr. Wherry moved, Dr. Hunt seconded, motion carried, that he not be released until castration is performed. If permission cannot be obtained, then he should be sterilized by vasectomy.

██████████ male, age 14. Dr. Burkes moved, Dr. Hunt seconded, motion carried, that he be sterilized by vasectomy as recommended by Dr. Hill.

██████████, male, age 15. Dr. Hunt moved, Dr. Hagmeier seconded, motion carried, that he be sterilized by vasectomy as recommended by Dr. Hill.

██████████ male, age 16. Dr. Burkes moved, Dr. Hagmeier seconded, motion carried, that he be sterilized by vasectomy as recommended by Dr. Hill.

██████████ male, age 15. Dr. Wherry moved, Dr. Hagmeier seconded, motion carried, that he be sterilized by vasectomy as recommended by Dr. Hill.

██████████ male, age 14. Dr. Burkes moved, Dr. Hunt seconded, motion carried, that he be sterilized by vasectomy as recommended by Dr. Hill.

██████████ male, age 16. Dr. Hagmeier moved, Dr. Wherry seconded, motion carried, that he be sterilized by vasectomy as recommended by Dr. Hill.

██████████ male, age 19. Dr. Burkes moved, Dr. Hunt seconded, motion carried, that he be sterilized by vasectomy as recommended by Dr. Hill.

██████████ male, age 14. Dr. Hunt moved, Dr. Wherry seconded, motion carried, that he be sterilized by vasectomy as recommended by Dr. Hill.

██████████ male, age 16. Dr. Burkes moved, Dr. Wherry seconded, motion carried, that he be sterilized by vasectomy as recommended by Dr. Hill.

██████████ male, age 14. Dr. Burkes moved, Dr. Hunt seconded, motion carried, that he be sterilized by vasectomy as recommended by Dr. Hill.

██████████, male, age 15. Dr. Hagmeier moved, Dr. Burkes seconded, motion carried, that he be sterilized by vasectomy as recommended by Dr. Hill.

██████████ male, age 16. Dr. Hunt moved, Dr. Burkes seconded, motion carried, that he be sterilized by vasectomy as recommended by Dr. Hill.

██████████ male, age 22. Dr. Hunt moved, Dr. Wherry seconded, motion carried, that he be sterilized by vasectomy as recommended by Dr. Hill.

██████████, male, age 20. Dr. Burkes moved, Dr. Hagmeier seconded, motion carried, that he be sterilized by vasectomy as recommended by Dr. Hill.

██████████, male, age 14. Dr. Hunt moved, Dr. Inskip seconded, motion carried, that he be sterilized by vasectomy as recommended by Dr. Hill.

In all instances, it was unanimously moved, seconded and carried that sterilization operations be performed on each of these patients after proper consent is obtained.

The following patients were presented to the Board for consideration at the Oregon State Hospital at 3:30 p.m., by Doctors J. C. Evans and Paul S. Wolfe:

██████████ female, age 21. Diagnosis: Manic Depressive Psychosis; mixed type

██████████ female, age 37. Diagnosis: Dementia Praecox

██████████ female, age 42. Diagnosis: Manic Depressive Psychosis.

Dr. Wherry moved and Dr. Inskip seconded that sterilization operations be performed on these three patients. Motion carried.

After discussion, Dr. Inskip moved and Dr. Wherry seconded that the Board seek an opinion from the Attorney General relative to a change in law to enable sterilization operations to be performed without the prolonged delay necessary under present procedures, due to the infrequent meetings of the Board. Motion carried.

There being no further business, the meeting was adjourned.

Harold M. Erickson
Secretary

November 2, 1946

The Oregon State Board of Eugenics met in the office of the Secretary Saturday, November 2, 1946, at 1:30 P.M. Those present were:

D. C. Burkes, M.D., President
L. D. Inskip, M.D.
O. T. Wherry, D.M.D.
O. C. Hagnmeler, M.D.
N. E. Irvine, M.D.
Harold M. Erickson, M.D., Secretary

C. E. Hunt, M.D., Mr. A. K. Berman and C. E. Hardwick, M.D., were unable to be present. Gerhard B. Haugen, M.D., Director Mental Hygiene Section and H. Lawrence Lister, Legal Consultant to the Oregon State Board of Health also were present.

The meeting was called to order by President Burkes. It was requested that the Secretary mail the minutes of the previous meeting to Board members instead of reading them. The President called for discussion of old business. The problem of expediting the formal procedure of securing the Board's consent preceding sterilization operations was discussed. It was suggested that Doctor John C. Evans or the Mental Hygiene Society sponsor legislation modifying the present Eugenics Law in order to provide that sterilizations may be done with the consent of the patients and relatives and on the recommendation of the Superintendents of the State Hospitals without prior consent of the State Board of Eugenics.

██████████ age 18, diagnosis epilepsy, was presented to the Board by representatives of the Oregon State Hospital. Doctor Hagnmeler moved, Doctor Wherry seconded, motion carried that she be sterilized by salpingectomy as recommended by Doctor Evans.

██████████ age 22, a patient from Multnomah County Hospital, was presented to the Board. Doctor Irvine moved, Doctor Wherry seconded, motion carried that

she be sterilized by whatever method is indicated at the time of the operation.

██████████ age 32, a patient from the Oregon State Hospital, was presented to the Board. Doctor Irvins moved, Doctor Inskip seconded that sterilization operation be performed as recommended by Doctor Evans. Motion carried.

There being no further business, the meeting adjourned.

Joseph W. Carahan
Secretary

1947

January 14, 1947

The Oregon State Board of Eugenics met at the Oregon Fairview Home, January 14, 1947, at 10:30 A.M. Present were:

D. C. Burkes, M.D.
L. D. Inskeep, M.D.
O. T. Wherry, D.M.D.
C. E. Hunt, M.D.
Mr. A. K. Berman
Harold M. Erickson, M.D.

Also present were Lawrence Lister, Legal Consultant to the Board of Health, and Gerhard B. Haugen, M.D. Doctors Irvine, Hagnmeler and Hardwick were unable to be present.

The meeting was called to order by President Burkes. Minutes of the November 2, 1946, meeting were approved as submitted by mail.

Dr. Hill presented the following patients for consideration by the Board:

██████████ age 13. It was moved by Dr. Hunt, seconded by Dr. Inskeep that this patient be sterilized by resection of Fallopian tubes as recommended by Dr. Hill. Motion carried.

██████████ age 19. Dr. Inskeep moved, Dr. Wherry seconded, motion carried that this patient be sterilized by resection of Fallopian tubes as recommended by Dr. Hill. Motion carried.

██████████ age 16. Dr. Wherry moved, Mr. Berman seconded, motion carried that this patient be sterilized by vasectomy as recommended by Dr. Hill.

██████████ age 23. Dr. Inskeep moved, Dr. Hunt seconded and motion carried that this patient be sterilized by vasectomy as recommended by Dr. Hill.

██████████ age 12. Dr. Wherry moved, Dr. Hunt seconded, motion carried that this patient be sterilized by vasectomy as recommended by Dr. Hill.

Dr. John C. Evans, Superintendent, Oregon State Hospital, presented the following cases for consideration by the Board:

██████████ age 25, diagnosis, dementia praecox. Dr. Inskeep moved, Dr. Hunt seconded, motion carried that this patient be sterilized by resection of Fallopian tubes as recommended by Dr. Evans.

██████████ age 64, diagnosis, manic depressive psychosis. Inasmuch as the patient refused to give consent to the castration operation as recommended by Dr. Evans, Dr. Inskeep moved, Dr. Hunt seconded, motion carried that the patient be confined at the hospital and that he not be released without a sterilization operation as recommended.

There being no further business, the meeting was adjourned.

Harold M. Erickson
Secretary

February 27, 1947

The Oregon State Board of Eugenics met at Oregon Fairview Home in Salem on Thursday, February 27, 1947, at 3:00 P.M. Present were:

D. C. Burkes, M.D., President
L. D. Inskeep, M.D.
O. T. Wherry, D.M.D.
O. C. Hagmeier, M.D.
C. E. Hunt, M.D.
N. E. Irvine, M.D.
H. M. Erickson, M.D., Secretary

Also present were Horace G. Miller, M.D., Oregon State Hospital; Irvin E. Hill, M.D., Fairview Home; Gerhard B. Haugen, M.D., Director Mental Hygiene Section, Oregon State Board of Health; and H. Lawrence Lister, attorney for the Board of Health.

The meeting was called to order by President Burkes. Minutes of the January 14, 1947, meeting were read and approved.

Doctor H. G. Miller presented the following patient to the Board:

██████████ age 37, diagnosis, dementia praecox. Doctor Irvine moved, Doctor Inskeep seconded and motion carried that patient be sterilized by resection of Fallopian tubes as recommended by Dr. Miller.

The following patients were presented to the Board by Doctor Hill:

██████████ age 16. Doctor Wherry moved, Dr. Hunt seconded that patient be sterilized by resection of Fallopian tubes as recommended by Dr. Hill. Motion carried.

██████████ age 23. Doctor Hagmeier moved, Dr. Wherry seconded, motion carried that patient be sterilized by resection of Fallopian tubes as recommended by Dr. Hill.

██████████ age 18. Doctor Hagmeier moved, Dr. Inskeep seconded, motion carried that patient be sterilized by resection of Fallopian tubes as recommended by Dr. Hill.

██████████ age 19. It was moved by Dr. Hagmeier, seconded by Dr. Hunt, and carried that patient be sterilized by resection of Fallopian tubes as recommended by Dr. Hill.

██████████ age 16. It was moved by Dr. Hunt, seconded by Dr. Wherry that the patient be sterilized by resection of Fallopian tubes as recommended by Dr. Hill.

██████████ age 13. Doctor Irvine moved, Dr. Hagmeier seconded, motion carried that patient be sterilized by resection of Fallopian tubes as recommended by Dr. Hill.

██████████ age 14. Dr. Inskeep moved, Dr. Irvine seconded, motion carried that patient be sterilized by resection of Fallopian tubes as recommended by Dr. Hill.

██████████ age 33. Doctor Irvine moved, Dr. Hunt seconded, motion carried that patient be sterilized by resection of Fallopian tubes as recommended by Dr. Hill.

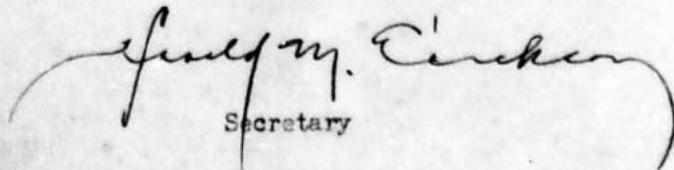

██████████ age 18. Confirmation of sterilization of this patient by resection of Fallopian tubes as recommended by Dr. Hill was given in a motion by Dr. Wherry, seconded by Dr. Hunt. Prior to the meeting, patient and relatives had signed waivers of appearance before the Board.

██████████ age 19. Confirmation of sterilization of this patient by resection of Fallopian tubes as recommended by Dr. Hill was given in a motion by Dr. Hagmeier, seconded by Dr. Irvine and carried. Patient and relatives had signed waivers of appearance before the Board prior to the meeting.

██████████ age 16. Confirmation of sterilization of this patient by vasectomy as recommended by Dr. Hill was given in a motion stated by Dr. Hunt, seconded by Dr. Wherry. Patient and relatives had signed waivers of appearance before the Board prior to the meeting.

As there was no further business to come before the Board, the meeting adjourned.

Respectfully submitted,

Secretary

June 24, 1947

The Oregon State Board of Eugenics met at Oregon Fairview Home, Tuesday, June 24, 1947, at 10:00 a.m. Present were:

D. C. Burkes, M.D., President
 L. D. Inskip, M.D.
 O. T. Wherry, D. M. D.
 O. C. Hagmeier, M.D.
 C. E. Hardwick, M.D.
 C. E. Hunt, M.D.
 H. M. Erickson, M.D., Secretary

Others present were G. B. Haugen, M.D., Irvin B. Hill, M.D., and H. Lawrence Lister.

The meeting was called to order by President Burkes. Minutes of the February meeting were read and approved.

Dr. Hill presented the following patients to the Board:

██████████, age 15. Dr. Inskip moved, Dr. Hunt seconded, motion carried that patient be sterilized by resection of Fallopian tubes as recommended by Dr. Hill.

██████████, age 14. Dr. Hagmeier moved, Dr. Wherry seconded, motion carried that patient be sterilized by resection of Fallopian tubes as recommended by Dr. Hill.

██████████, age 21. Dr. Inskip moved, Dr. Wherry seconded, motion carried that patient be sterilized by resection of Fallopian tubes as recommended by Dr. Hill.

██████████, age 17. Dr. Inskip moved, Dr. Hagmeier seconded, motion carried that patient be sterilized by vasectomy as recommended by Dr. Hill.

██████████, age 23. Dr. Hagmeier moved, Dr. Wherry seconded, motion carried that patient be sterilized by vasectomy as recommended by Dr. Hill.

██████████, age 15. Dr. Wherry moved, Dr. Hardwick seconded, motion carried that patient be sterilized by vasectomy as recommended by Dr. Hill.

██████████, age 18. Dr. Inskip moved, Dr. Hunt seconded, motion carried that patient be sterilized by vasectomy as recommended by Dr. Hill.

██████████, age 15. Dr. Hunt moved, Dr. Inskip seconded, motion carried that patient be sterilized by vasectomy as recommended by Dr. Hill.

The Board of Eugenics meeting was continued at the Oregon State Hospital at 3:30 p.m. Mr. A. K. Berman was present at this meeting.

John Evans, M.D., Superintendent, Oregon State Hospital, Horace G. Miller, M.D., and Ruth S. Jens, M.D., presented the following patients for the Board's consideration.

██████████, age 27, diagnosis manic depressive psychosis, manic type. Dr. Hagmeier moved, Dr. Hunt seconded, motion carried that patient be sterilized by resection of Fallopian tubes as recommended by Dr. Ruth S. Jens.

██████████ age 27, diagnosis manic depressive, mixed type. This patient did not appear. After a review of her history, Dr. Hunt moved, Dr. Hardwick seconded motion carried that patient be sterilized by resection of Fallopian tubes as recommended by Dr. Lidbeck.

██████████ age 28, diagnosis manic depressive psychosis, manic type. Dr. Inskeep moved, Dr. Hardwick seconded, motion carried that patient be sterilized by resection of Fallopian tubes as recommended by Dr. Ruth S. Jens.

██████████ age 27, diagnosis dementia praecox, catatonic type. Dr. Harmeier moved, Dr. Hunt seconded, motion carried that patient be sterilized by resection of Fallopian tubes as recommended by Dr. Ruth S. Jens.

██████████ age 30, diagnosis dementia praecox, mixed type. Dr. Wherry moved, Dr. Inskeep seconded, motion carried that patient be sterilized by resection of Fallopian tubes as recommended by Dr. Ruth S. Jens.

██████████ age 17, diagnosis psychosis with mental deficiency, sex perversion. Dr. Harmeier moved, Dr. Hardwick seconded, motion carried that the patient be sterilized by castration as recommended by Dr. Bates.

██████████ age 45, diagnosis dementia praecox, paranoid type. Dr. Harmeier moved, Dr. Inskeep seconded, motion carried that this patient be sterilized by castration as recommended by Dr. Challenger.

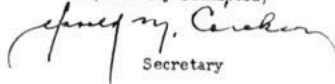

██████████ age 30, diagnosis mental deficiency with psychosis. Dr. Inskeep moved, Dr. Harmeier seconded, motion carried that this patient be sterilized by castration, as recommended by Dr. Ruth S. Jens.

██████████ age 18, diagnosis psychosis with mental deficiency. Dr. Harmeier moved, Dr. Hardwick seconded, motion carried that this patient be sterilized by resection of Fallopian tubes as recommended by Dr. Paul Wolfe.

██████████ age 23, diagnosis paranoid schizophrenic. Dr. Hunt moved, seconded by Dr. Hardwick and carried that this patient be sterilized by resection of Fallopian tubes as recommended by Dr. Horace Miller.

As there was no further business, the meeting was adjourned.

Respectfully submitted,

Secretary

November 1, 1947

The Oregon State Board of Eugenics met in the office of the Secretary on November 1, 1947, at 2:00 P.M. Present were:

D. C. Purkes, M. D., President
L. D. Inskeep, M. D., First Vice-President
O. T. Wherry, D.M.D., Second Vice-President
O. C. Harmeier, M. D.
C. E. Hardwick, M. D.
C. E. Hunt, M. D.
N. E. Irvine, M. D.
Harold M. Erickson, M. D., Secretary

Mr. A. K. Berman was absent. Others present were Gerhard B. Hausen, M. D., Director, Mental Hygiene Section, and Mr. H. Lawrence Lister, Legal Consultant.

The meeting was called to order by the President. Minutes of the previous meeting were approved as mailed to the Board members.

The following cases from Oregon Fairview Home were presented, with waivers of appearance:

██████████ age 19, feeble-minded. Recommended surgery, resection of Falloopian tubes. Dr. Wherry moved, Dr. Hunt seconded, motion carried that Dr. Hill's recommendation be approved.

██████████ age 28, feeble-minded. Recommended surgery of resection of Falloopian tubes was approved in a motion by Dr. Hagmeier, seconded by Dr. Irvine and carried.

██████████ age 16, feeble-minded. Recommended surgery of resection of Falloopian tubes was approved in a motion by Dr. Hunt, seconded by Dr. Hagmeier and carried.

██████████ age 16, feeble-minded. Recommended surgery, resection of Falloopian tubes, was approved in a motion by Dr. Irvine, seconded by Dr. Inskeep, and carried.

The Secretary called the attention of the Board to a stipulation in the law which governs the granting of marriage licenses. This law requires that a committee of three, appointed by the Board, should review all cases in which there is doubt as to the advisability of granting a license because of the existence of epilepsy, feeble-mindedness, mental illness, etc., in the history of one of the applicants. After discussion, Dr. Wherry moved, Dr. Hunt seconded, that in accordance with the law, a committee of three be appointed to review such cases as outlined above, and that the President of the Board be empowered to appoint such a committee. Motion carried:

Meeting adjourned.

1948

January 13, 1948

The Oregon State Board of Eugenics met in the offices of the Superintendent of Oregon Fairview Home, Salem, Oregon, on January 13, 1948, at 10:00 A.M.
Present were:

D. C. Burkes, M. D., President
L. D. Inskip, M. D., First Vice-President
O. T. Wherry, D. M. D., Second Vice-President
C. C. Hagmeier, M. D.
C. E. Hunt, M. D.
N. E. Irvine, M. D.
A. K. Berman, B. S.

C. E. Hardwick, M. D., was absent. Others present were Gerhard B. Haugen, M. D., Director, Mental Hygiene Section, Irvin B. Hill, M. D., Superintendent, Oregon Fairview Home, and Mr. H. Lawrence Lister, Legal Consultant.

The meeting was called to order by the President. Minutes of the previous meeting were approved as mailed to the Board members.

The following cases from Oregon Fairview Home were presented:

██████████ age 16, feeble-minded. Recommended surgery, castration. Dr. Hargmeier moved, Mr. Berman seconded, motion carried that Dr. Hill's recommendation be approved.

██████████ age 16, feeble-minded. Recommended surgery, vasectomy. Dr. Inskeep moved, Dr. Hunt seconded that recommended surgery be performed. Motion carried.

██████████ age 21, feeble-minded. Recommended surgery of vasectomy was approved in a motion by Dr. Inskeep, seconded by Dr. Irvine and carried.

██████████ age 16, feeble-minded. Recommended surgery of resection of Fallopian tubes was approved in a motion by Dr. Inskeep, seconded by Dr. Hunt, and carried.

██████████ age 14, feeble-minded. Recommended surgery of resection of Fallopian tubes was approved in a motion by Dr. Wherry, seconded by Dr. Hunt and carried.

██████████ age 16, feeble-minded. Recommended surgery of resection of Fallopian tubes was approved in a motion by Dr. Hunt, seconded by Dr. Inskeep and carried.

██████████ age 21, feeble-minded. Recommended surgery of resection of Fallopian tubes was approved in a motion by Dr. Inskeep, seconded by Dr. Hunt, and carried.

██████████ age 19, feeble-minded. Recommended surgery of resection of Fallopian tubes was approved in a motion by Dr. Hunt, seconded by Dr. Hargmeier and carried.

██████████ age 21, feeble-minded. Recommended surgery of resection of Fallopian tubes was approved in a motion by Dr. Hargmeier, seconded by Dr. Wherry, and carried.

The following case from the Multnomah County Hospital was presented, with waiver of appearance:

██████████ age 19, feeble-minded, epileptic. The Board unanimously approved the performance of a sterilization operation.

The Board of Eugenics meeting temporarily adjourned, and was re-convened at 1:30 P.M., at the Oregon State Hospital. The following 3 cases were presented with waivers of appearance: ██████████ age 27, mental deficiency; ██████████, age 40, mental deficiency; ██████████ age 29, reactive depression. Dr. Inskeep moved, Dr. Hargmeier seconded, motion carried, that recommended resection of Fallopian tubes be approved.

██████████ age 26, dementia praecox, mixed type. Recommended surgery of resection of Fallopian tubes was approved in a motion by Dr. Irvine, seconded by Mr. Berman and carried.

██████████ age 36, dementia praecox, paranoic type. Recommended surgery of resection of Fallopian tubes was approved in a motion by Dr. Hunt, seconded by Mr. Berman and carried.

██████████, age 39, dementia praecox. The case history of this patient was presented. The Board recommended that no action be taken until waiver of appearance is signed and presented at a Board of Eugenics meeting.

██████████ age 20, dementia praecox. Recommended surgery of resection of Fallopian tubes was approved in a motion by Dr. Irvine, seconded by Dr. Wherry.

██████████ age 27, manic depressive psychosis. Recommended surgery of resection of Fallopian tubes was approved in a motion by Dr. Irvine, seconded by Dr. Wherry, and carried.

██████████ age 37, mental deficiency with psychosis. Recommended surgery of resection of Fallopian tubes was approved by the Board in a motion by Dr. Inskeep, seconded by Dr. Harmeier and carried.

██████████, age 23, manic depressive psychosis. Recommended surgery, resection of Fallopian tubes, was approved by the Board in a motion by Dr. Irvine, seconded by Dr. Harmeier and carried.

██████████ age 28, dementia praecox. Recommended surgery of resection of Fallopian tubes was approved by the Board in a motion by Dr. Wherry, seconded by Dr. Hunt and carried.

██████████ age 21, dementia praecox. Recommended surgery, resection of Fallopian tubes was approved by the Board in a motion by Dr. Inskeep, seconded by Dr. Harmeier, and carried.

██████████ age 26, dementia praecox. Recommended surgery, resection of Fallopian tubes, was approved in a motion by Dr. Irvine, seconded by Dr. Inskeep, and carried.

██████████ age 14, psychosis with epidemic encephalitis. Recommended surgery, resection of Fallopian tubes was approved by the Board in a motion by Dr. Wherry, seconded by Dr. Inskeep and carried.

██████████ age 54, dementia praecox. Recommended surgery, castration, was approved by the Board in a motion by Dr. Hunt, seconded by Dr. Harmeier, and carried.

██████████ age 37, alcoholism. Recommended surgery of castration was approved by the Board in a motion made by Dr. Inskeep, seconded by Dr. Wherry and carried.

As there was no further business, the meeting was adjourned.

Respectfully submitted,

Secretary

March 20, 1948

The Oregon State Board of Eugenics met in the Jackson County Health Department offices, Medford, Oregon at 1:30 P.M., March 20, 1948. Those present were:

O. T. Wherry, D.M.D., President
 N. E. Irvine, M. D., First Vice-President
 L. D. Inskeep, M. D.
 D. C. Burkes, M. D.
 C. E. Hardwick, M. D.
 H. M. Erickson, M. D., Secretary

The meeting was called to order by the President. It was moved, seconded, and motion carried that the minutes as submitted by mail be approved without further reading.

There was then some discussion on possible legislation in regard to the Eugenics law. It was agreed that no action should be initiated by the Board at this time.

The Secretary then presented a memorandum from Dr. Haugen in regard to interpretation of the pre-marital law. Motion was made, seconded, and carried that no action be taken in regard to the matter now.

The Secretary then presented a report on [REDACTED]. After careful review of the history, the findings of Dr. Robert A. Coen, consultant to the State Parole Board, it was moved, seconded, and motion carried that on the basis of the consulting psychiatrist's recommendation no action be taken and that it be recommended that the usual course of law be followed.

There being no further business, the meeting was adjourned.

Respectfully submitted,

 Secretary

June 9, 1948

The meeting was called to order by the Vice-President, Dr. Irvine, in the office of the Secretary at 2:00 P.M. Minutes of the previous meeting were read and approved.

Dr. Gerhard S. Haugen, Mental Hygiene Director, presented for Board action the following case: histories from the Oregon State Hospital complete with waivers of appearance:

[REDACTED], age 27, diagnosis of psychoneurosis, reactive depression, with a recommendation for resection of Fallopian tubes.

[REDACTED], age 36, diagnosis of manic-depressive psychosis, depressive type, recommendation for resection of Fallopian tubes.

██████████ are 35, diagnosis of dementia praecox, paranoid type, recommendation for resection of Falloplan tubes.

██████████ are 29, diagnosis of manic-depressive psychosis, manic type, recommended surgery, resection of Falloplan tubes.

██████████ are 19, diagnosis of dementia praecox, hebephrenic, recommendation for resection of Falloplan tubes.

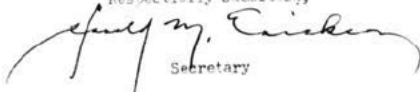

██████████ are 43, diagnosis of psychosis with epidemic encephalitis. Recommended surgery, castration.

It was unanimously moved, seconded and carried that approval be given the recommendations for surgery as made by the Superintendent of the Oregon State Hospital and as read by Dr. Haugen.

The matter of furnishing more complete information on cases from the Superintendent of the Oregon State Hospital presented to the Board with waivers of appearance was discussed. It was felt desirable that the Director of Mental Hygiene and the Secretary request that additional specific information be furnished in such instances.

It was moved, seconded and carried that the meeting be adjourned.

Respectfully submitted,

Secretary

November 1, 1948

The meeting was called to order by Dr. Wherry, President, in the conference room of the State Hospital at 10:00 A.M. Minutes of the previous meeting were approved as submitted by mail.

The Secretary called on Dr. McNutt for a report of action taken by the Pre-marital Law Committee (Dr. Burkes, Dr. Hardwick, Dr. Erickson). Dr. McNutt reported that ██████████ epileptic, had been referred to the Committee and had been examined by Dr. Burkes himself. It was recommended that ██████████ be referred to the epilepsy clinic at the U. of O. Medical School for more detailed diagnostic study and treatment, and that considering ██████████ medical history in relation to her family history, in which there is no evidence of convulsive disorder in other members, there was no necessity to forbid her marriage on medical grounds.

Dr. McNutt reported that the case of ██████████ manic depressive psychosis, had been referred to the Committee. The members of the Committee were unanimous in approving this application for marriage license. It was the feeling of the Committee that the history was not entirely consistent with a diagnosis of manic depressive psychosis and approval of the marriage application was given.

██████████ age 55, recommendation, castration. Dr. Burkes moved, Dr. Inskeep seconded, motion carried that the recommendation be approved.

██████████ age 23, recommendation, vasectomy. After the patient appeared before the Board and the case history was reviewed, Dr. Bates altered the recommended surgery to castration. Dr. Inskeep moved, Dr. Burkes seconded, motion carried that the altered recommendation of castration be approved.

██████████ age 43, recommendation, castration. Dr. Hagmeier moved, Dr. Burkes seconded, motion carried that the recommendation of castration be approved.

██████████ age 68, recommendation, castration. Dr. Hagmeier moved, Dr. Burkes seconded, motion carried that the recommendation of castration be approved.

██████████ age 31, diagnosis, schizophrenic, recommendation, resection of Fallopian tubes. Dr. Hagmeier moved, Dr. Burkes seconded that the recommendation be approved. Motion carried.

██████████ age 35, diagnosis, dementia praecox, mixed type, recommendation, resection of Fallopian tubes. Dr. Burkes moved, Dr. Hagmeier seconded, motion carried that the recommendation be approved.

██████████ age 22, diagnosis, dementia praecox, catatonic type, recommendation, resection of Fallopian tubes. Dr. Inskeep moved, Dr. Hagmeier seconded, motion carried that the recommendation be approved.

██████████ age 32, diagnosis, schizophrenia, paranoid type, recommendation, resection of Fallopian tubes. Dr. Hagmeier moved, Dr. Inskeep seconded, motion carried that the recommendation be approved.

██████████ age 29, diagnosis, schizophrenia, catatonic type, recommendation, resection of Fallopian tubes. Dr. Hagmeier moved, Dr. Burkes seconded, motion carried that the recommendation be approved.

██████████ age 18, diagnosis, epileptic seizures, convulsive type, recommendation, resection of Fallopian tubes. Dr. Burkes moved, Dr. Hagmeier seconded, motion carried, that the recommendation be approved.

The meeting adjourned and re-convened at 1:30 p.m., at Oregon Fairview Home.

The following patients were presented by Dr. Irvin B. Hill. In each case the diagnosis given was "mental deficiency".

██████████ age 14, recommendation, vasectomy. Dr. Hagmeier moved, Dr. Burkes seconded, motion carried that the recommendation be approved.

██████████ age 16, recommendation, vasectomy. Dr. Burkes moved, Dr. Inskeep seconded, motion carried that the recommendation be approved.

██████████ age 16, recommendation, vasectomy. Dr. Hagmeier moved, Dr. Burkes seconded, motion carried that the recommendation be approved.

██████████ age 17, recommendation, vasectomy. Dr. Inskeep moved, Mr. Berman seconded, motion carried that the recommendation be approved.

██████████ age 16, recommendation, vasectomy. Dr. Burkes moved, Dr. Inskeep seconded, motion carried that the recommendation be approved.

██████████ age 16, recommendation, vasectomy. Dr. Hagmeier moved, Mr. Berman seconded, motion carried that the recommendation be approved.

██████████ age 32, recommendation, vasectomy. Dr. Hagmeier moved, Mr. Berman seconded, motion carried that the recommendation be approved.

██████████ age 14, recommendation, vasectomy. Dr. Inskeep moved, Dr. Hagmeier seconded, motion carried that the recommendation be approved.

██████████ age 15, recommendation, vasectomy. Dr. Inskeep moved, Dr. Hagmeier seconded, motion carried that the recommendation be approved.

██████████ age 36, recommendation, vasectomy. Dr. Hagmeier moved, Mr. Berman seconded, motion carried that the recommendation be approved.

██████████ age 15, recommendation, vasectomy. Dr. Burkes moved, Dr. Inskeep seconded, motion carried that the recommendation be approved.

██████████ age 16, recommendation, vasectomy. Dr. Inskeep moved, Dr. Hagmeier seconded, motion carried that the recommendation be approved.

██████████ age 14, recommendation, vasectomy. Dr. Inskeep moved, Dr. Burkes seconded, motion carried that the recommendation be approved.

██████████ age 14, recommendation, vasectomy. Dr. Inskeep moved, Mr. Berman seconded, motion carried that the recommendation be approved.

██████████ age 24, recommendation, vasectomy. Dr. Burkes moved, Dr. Inskeep seconded, motion carried that the recommendation be approved.

██████████ recommendation, vasectomy. Dr. Hagmeier moved, Mr. Berman seconded, motion carried that the recommendation be approved.

██████████ recommendation, vasectomy. Dr. Inskeep moved, Dr. Burkes seconded, motion carried that the recommendation be approved.

██████████ age 15, recommendation, vasectomy. Dr. Hagmeier moved, Dr. Inskeep seconded, motion carried that the recommendation be approved.

██████████ age 17, recommendation, vasectomy. Mr. Berman moved, Dr. Burkes seconded, motion carried that the recommendation be approved.

██████████ age 26, recommendation, resection of Fallopian tubes. Dr. Inskeep moved, Dr. Burkes seconded, motion carried, that the recommendation be approved.

██████████ age 17, recommendation, resection of Fallopian tubes. Dr. Hagmeier moved, Dr. Inskeep seconded, motion carried, that the recommendation be approved.

██████████ age 14, recommendation, resection of Fallopian tubes. Dr. Hagmeier moved, Dr. Inskeep seconded, motion carried, that the recommendation be approved.

██████████ age 15, recommendation, resection of Fallopian tubes.
Dr. Burkes moved, Dr. Hagmeier seconded, motion carried, that the recommendation be approved.

██████████ age 25, recommendation, resection of Fallopian tubes.
Dr. Inskeep moved, Dr. Burkes seconded, motion carried, that the recommendation be approved.

██████████ age 19, recommendation, resection of Fallopian tubes.
Dr. Hagmeier moved, Dr. Inskeep seconded, motion carried, that the recommendation be approved.

██████████ age 15, recommendation, resection of Fallopian tubes. Dr. Hagmeier moved, Dr. Burkes seconded, motion carried, that the recommendation be approved.

██████████ age 16, recommendation, resection of Fallopian tubes.
Dr. Burkes moved, Dr. Inskeep seconded, motion carried, that the recommendation be approved.

██████████ age 17, recommendation, resection of Fallopian tubes.
Dr. Burkes moved, Dr. Inskeep seconded, motion carried, that the recommendation be approved.

██████████ age 19, recommendation, resection of Fallopian tubes.
Dr. Hagmeier moved, Dr. Inskeep seconded, motion carried, that the recommendation be approved.

██████████ age 16, recommendation, resection of Fallopian tubes. Dr. Burkes moved, Dr. Hagmeier seconded, motion carried, that the recommendation be approved.

██████████ age 33, recommendation, resection of Fallopian tubes.
Dr. Hagmeier moved, Mr. Berman seconded, motion carried, that the recommendation be approved.

██████████ recommendation, resection of Fallopian tubes. Dr. Burkes moved, Dr. Hagmeier seconded, motion carried that the recommendation be approved.

██████████ age 17, recommendation, resection of Fallopian tubes.
Dr. Burkes moved, Dr. Hagmeier seconded, motion carried, that the recommendation be approved.

██████████ age 14, recommendation, resection of Fallopian tubes.
Dr. Inskeep moved, Dr. Hagmeier seconded, motion carried, that the recommendation be approved.

██████████ age 16, recommendation, resection of Fallopian tubes.
Dr. Inskeep moved, Mr. Berman seconded, motion carried that the recommendation be approved.

██████████ age 15, recommendation, resection of Fallopian tubes. Dr. Inskeep moved, Dr. Hagmeier seconded, motion carried that the recommendation be approved.

██████████ age 16, recommendation, resection of Fallopian tubes. Dr. Burkes moved, Mr. Berman seconded, motion carried that the recommendation be approved.

██████████ age 22, recommendation, resection of Fallopian tubes. Dr. Hagmeier moved, Mr. Berman seconded, motion carried, that the recommendation be approved.

██████████ age 14, recommendation, resection of Fallopian tubes. Dr. Hagmeier moved, Mr. Berman seconded, motion carried, that the recommendation be approved.

██████████ age 14, recommendation, resection of Fallopian tubes. Dr. Hagmeier moved, Mr. Berman seconded, motion carried that the recommendation be approved.

██████████ age 20, recommendation, resection of Fallopian tubes. Dr. Burkes moved, Mr. Berman seconded, motion carried that the recommendation be approved.

██████████ age 21, recommendation, resection of Fallopian tubes. Dr. Hagmeier moved, Dr. Inskeep seconded, motion carried that the recommendation be approved.

It was moved, seconded and carried that the meeting be adjourned.

Respectfully submitted,

Secretary

1949

January 11, 1949

The meeting was called to order by Dr. Wherry, President, in the conference room of the State Hospital at 10:00 a.m. Minutes of the previous meeting were approved as submitted by mail.

Board members present were:

O. T. Wherry, D.M.D., President
D. C. Burkes, M. D.
C. E. Hardwick, M. D.
O. C. Hagmeier, M. D.
C. E. Hunt, M. D.
N. E. Irvine, M. D.
H. M. Erickson, M. D., Secretary

Others present included: Harlan P. McNutt, M. D., Director, Mental Health Section, Oregon State Board of Health, and Doctors Bates and Miller of the State Hospital, and Dr. Sislser, Acting Marion County Health Officer, and Mr. H. Lawrence Lister, Legal Consultant.

The following patients were presented by the staff of the State Hospital:

██████████, age 68, diagnosis, psychopathic personality with sexual perversion, recommendation, castration. Dr. Hardwick moved, Dr. Burkes seconded, motion carried that the recommendation be approved.

██████████ are 34, diagnosis, dementia praecox, catatonic type. recommendation, resection of Fallopian tubes. Dr. Hardwick moved, Dr. Burkes seconded, motion carried, that the recommendation be approved.

██████████ age 20, diagnosis, psychosis with psychopathic personality; recommendation, resection of Fallopian tubes. Dr. Burkes moved, Dr. Hagmeier seconded that the Board approve the recommendations as outlined by Dr. Hill for both Bertha and Willard Nichols. Motion carried.

██████████ age 20, diagnosis, psychopathy with mental deficiency, recommendation, vasectomy.

██████████ age 28, diagnosis, dementia praecox, paranoid type, recommendation, resection of Fallopian tubes. Dr. Hagmeier moved, Dr. Irvine seconded, motion carried that the recommendation be approved.

██████████ age 22, diagnosis, feeble-minded; recommendation, resection of Fallopian tubes. Dr. Burkes moved, Dr. Hardwick seconded, motion carried that this recommendation be approved.

██████████ age 17, diagnosis, psychosis with mental deficiency, recommendation, resection of Fallopian tubes. Dr. Burkes moved, Dr. Hagmeier seconded, motion carried that the recommendation be approved.

The following case was presented by Dr. McNutt with a waiver of appearance:

██████████ age 31, diagnosis, schizophrenia, recommendation, resection of Fallopian tubes. Dr. Burkes moved, Dr. Hagmeier seconded, motion carried that the recommendation be approved.

The meeting adjourned to Oregon Fairview Home and re-convened at 1:30 p.m.

The following patients were presented by Dr. Hill:

██████████ age 31, diagnosis, mental deficiency, recommendation, castration. Dr. Hagmeier moved, Dr. Hunt seconded, motion carried that the recommendation be approved.

██████████ age 14, diagnosis, mental deficiency, recommendation, vasectomy. Dr. Irvine moved, Dr. Hagmeier seconded, motion carried that the recommendation be approved.

██████████ age 16, diagnosis, mental deficiency, recommendation, vasectomy. Dr. Irvine moved, Dr. Erickson seconded, motion carried that the recommendation of this patient be tabled pending Dr. Hill's further observation and consideration.

██████████ age 16, diagnosis, mental deficiency, recommendation, resection of Fallopian tubes. Dr. Hunt moved, Dr. Burkes seconded, motion carried that this recommendation be approved.

As there was no further business, the meeting adjourned.

Respectfully submitted

Secretary

July 9, 1949
Eugene, Oregon

The Oregon State Board of Eugenics met in the Lane County Health Department offices at 10:00 a.m., standard time, on July 9th. Present were:

C. E. Hunt, M. D., President
O. C. Hagmeier, M. D., First Vice-President
L. D. Inskeep, M. D., Second Vice-President
Thomas E. Griffith, M. D., Member
D. C. Burkes, M. D., Member
O. T. Wherry, D.K.D., Member
N. E. Irvine, M. D., Member
Irvin B. Hill, M. D.
Harold M. Erickson, M. D., Secretary

The meeting was called to order by Doctor Hunt. Minutes of the previous meeting were approved as submitted by mail.

Dr. Irvin B. Hill presented the following patients to the Board:

██████████ age 27, diagnosis, feeble-minded. After consideration of the patient and conversation with both him and his father, Dr. Burkes moved, Dr. Hagmeier seconded, motion carried, that the recommendation of a vasectomy operation be approved. Motion carried.

██████████ age 19, diagnosis, mental deficiency - borderline. After consideration and presentation of waiver of appearance Dr. Burkes moved, Dr. Griffith seconded, motion carried that the recommendation of vasectomy be approved.

██████████ age 40 years, diagnosis, mental deficiency with psychosis. After consideration and presentation of waiver of appearance, Dr. Burkes moved, Dr. Hagmeier seconded, motion carried that the recommendation for resection of the Fallopian tubes be approved.

██████████ age 17, diagnosis, psychosis due to convulsive disorder. Undifferentiated epilepsy. After consideration and presentation of waiver of appearance Dr. Inskeep moved, Dr. Griffith seconded, motion carried that the recommendation of resection of the Fallopian tubes be approved.

██████████ age 30, diagnosis, dementia praecox - catatonic type. After consideration and presentation of waiver of appearance Dr. Hagmeier moved, Dr. Irvine seconded, motion carried that the recommendation of resection of the Fallopian tubes be approved.

██████████ age 20, diagnosis, mental deficiency with psychosis. After consideration and presentation of the waiver of appearance Dr. Burkes moved, Dr. Hill seconded, motion carried that the recommendation of resection of the Fallopian tubes be approved.

██████████ age 16, psychotic manifestations. After consideration and presentation of waiver of appearance, Dr. Wherry moved, Dr. Hagmeier seconded, motion carried that the recommendation of resection of the Fallopian tubes be approved.

Inasmuch as there was no further business to come before the Board, the meeting was adjourned.

Respectfully submitted,

Secretary

September 17, 1949

The Oregon State Board of Eugenics met in the Conference Room of the Oregon State Board of Health at 5:30 P.M., D.S.T., on September 17, 1949. Those present were:

C. E. Hunt, M. D., President
 C. C. Hagmeier, M. D., First Vice-President
 L. D. Inskeep, M. D., Second Vice-President
 O. T. Wherry, D.M.D., Member
 N. E. Irvine, M. D., Member
 D. C. Burkes, M. D., Member
 T. E. Griffith, M. D., Member
 Harold M. Erickson, M. D., Secretary

A. E. Berman, B. S., was absent.

The meeting was called to order by the President, Dr. Hunt. Minutes of the previous meeting were approved as submitted by mail.

The following patients were presented to the Board:

██████████ age 24, diagnosis, psychosis due to convulsive disorder (epilepsy), idiopathic epilepsy. After consideration and presentation of waiver of appearance, Dr. Hagmeier moved, Dr. Wherry seconded, motion carried that the recommendation for resection of the Fallopien tubes be approved.

██████████ age 38, diagnosis, dementia praecox, simple type. After consideration and presentation of waiver of appearance, Dr. Hagmeier moved, Dr. Wherry seconded, motion carried that recommendation of a vasectomy operation be approved.

██████████ age 43, diagnosis, dementia praecox, paranoid type. After consideration and presentation of waiver of appearance, Dr. Hagmeier moved, Dr. Wherry seconded, motion carried that the recommendation of a vasectomy operation be approved.

Inasmuch as there was no further business to come before the Board, the meeting was adjourned.

Respectfully submitted,

Secretary

November 21, 1949

The Oregon State Board of Eugenics met in the offices of the Superintendent of the Oregon Fairview Home, Salem, Oregon, on November 21, 1949, at 10:00 a.m. Present were:

C. E. Hunt, M.D., President
 O. C. Hagmeier, M.D., First Vice-President
 L. D. Inskip, M.D., Second Vice-President
 O. T. Wherry, D.M.D., Member
 A. K. Berman, B.S., Member
 D. C. Burkes, M.D., Member
 T. E. Griffith, M.D., Member
 Irvin B. Hill, M.D., Member
 C. E. Bates, M.D., Member
 George Alexander, Member
 Harold M. Erickson, M.D., Secretary

N. E. Irvine, M. D., was absent. Others present were Harlan P. McNutt, Jr., M.D., Director, Mental Hygiene Section, and Mr. H. Lawrence Lister, Legal Consultant.

The meeting was called to order by the President. Minutes of the previous meeting were approved as read to the Board members in a motion made by Dr. Burkes and seconded by Dr. Inskip.

The Board reviewed and accepted the pre-marital examination and application of [redacted] for a marriage license and approved the subcommittee's report that the applicant be granted such a license. The President appointed Dr. Wherry to replace Dr. Hardwick on the committee.

Dr. Irvin B. Hill presented the following patients to the Board:

[redacted] age 18, diagnosis, mentally deficient. Dr. Burkes moved, Dr. Wherry seconded, motion carried, that he be sterilized by vasectomy as recommended by Dr. Hill.

[redacted] age 19, diagnosis, mentally deficient. Dr. Hagmeier moved, Dr. Burkes seconded, that he be sterilized by vasectomy as recommended by Dr. Hill.

[redacted] age 18, diagnosis, mentally deficient. Dr. Griffith moved, Dr. Wherry seconded, that he be sterilized by vasectomy as recommended by Dr. Hill.

[redacted] age 18, diagnosis, mentally deficient. Dr. Hagmeier moved, Mr. Berman seconded, that he be sterilized by vasectomy as recommended by Dr. Hill.

[redacted] age 19, diagnosis, mentally deficient. Dr. Hagmeier moved, Dr. Inskip seconded, that vasectomy not be performed.

[redacted] age 17, diagnosis, mentally deficient. Dr. Griffith moved, Dr. Wherry seconded, that she be sterilized by resection of fallopian tubes as recommended by Dr. Hill.

[redacted] age 14, diagnosis, mentally deficient. Dr. Inskip moved, Dr. Wherry seconded, that she be sterilized by resection of fallopian tubes as recommended by Dr. Hill.

██████████ age 18, diagnosis, mentally deficient - spastic hemiplegia. Dr. Hagmeier moved, Dr. Inskeep seconded, that she be sterilized by resection of fallopian tubes as recommended by Dr. Hill.

██████████ age 20, diagnosis, mentally deficient - epileptic. Dr. Griffith moved, Dr. Hagmeier seconded, that she be sterilized by resection of fallopian tubes as recommended by Dr. Hill.

██████████ age 29, diagnosis, mentally deficient. Dr. Wherry moved, Dr. Hagmeier seconded, that she be sterilized by resection of fallopian tubes as recommended by Dr. Hill.

██████████ age 19, diagnosis, mentally deficient. Dr. Inskeep moved, Dr. Griffith seconded, that she be sterilized by resection of fallopian tubes as recommended by Dr. Hill.

██████████ age 37, diagnosis, mentally deficient. Dr. Inskeep moved, Dr. Wherry seconded, that she be sterilized by resection of fallopian tubes as recommended by Dr. Hill.

██████████ age 15, diagnosis, mentally deficient. Dr. Hagmeier moved, Dr. Inskeep seconded, that she be sterilized by resection of fallopian tubes as recommended by Dr. Hill.

Dr. C. E. Bates, Superintendent, Oregon State Hospital, presented the following cases with waivers of appearance:

██████████ age 36, diagnosis, mental deficiency with psychosis. Dr. Burkes moved, Dr. Hagmeier seconded, that he be sterilized by vasectomy as recommended by Dr. Bates.

██████████ age 18, diagnosis, psychosis with mental deficiency. Dr. Inskeep moved, Dr. Wherry seconded, that he be sterilized by vasectomy as recommended by Dr. Bates.

██████████ age 34, diagnosis, manic-depressive psychosis. Dr. Hagmeier moved, Dr. Burkes seconded, that she be sterilized by resection of fallopian tubes as recommended by Dr. Bates.

██████████ age 26, diagnosis, dementia praecox, simple type. Dr. Inskeep moved, Dr. Griffith seconded, that she be sterilized by resection of fallopian tubes as recommended by Dr. Bates.

██████████ age 43, diagnosis, Psychopathic personality with asocial or amoral trends. Dr. Burkes moved, Dr. Inskeep seconded, that she be sterilized by resection of fallopian tubes as recommended by Dr. Bates.

Dr. Mellett reviewed the case of ██████████ a prisoner in the Oregon State Penitentiary. It was recommended that he be sterilized by castration, since he is a sexual psychopath, having committed sodomy and many other sex offenses (eighteen at least).

Warden Alexander appeared before the Board with the prisoner, who stated that he realized the type of operation that was to be performed and that he wished to have it if it would cure his ailment. He spoke briefly of his early childhood and also described several accidents that he had suffered, among them

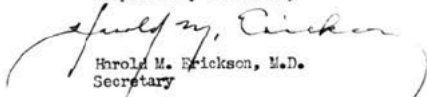

being an automobile accident on July 9, 1942, at which time he suffered a possible skull fracture. At Dr. Hagmeier's suggestion the prisoner was excused.

Dr. Inskeep moved, Dr. Griffith seconded, that [REDACTED] be sterilized by castration as recommended.

The meeting adjourned at 12:00 a. m. for lunch and reconvened at 1:00 p.m., at which time T. Lawson McCall appeared before the Board to discuss the matter of sexual psychopaths. No formal action was taken.

There being no further business, the meeting was adjourned.

Respectfully submitted,

Harold M. Erickson, M.D.
Secretary

O. C. Hagsmier, M.D., First Vice-President
L. D. Inskip, M.D., Second Vice-President
O. T. Wherry, D.M.D., Member
H. E. Irvine, M.D., Member
D. C. Burkes, M.D., Member
T. E. Griffith, M.D., Member
Irvin B. Hill, M.D., Member
C. E. Bates, M.D., Member
Harold M. Erickson, M.D., Secretary

A. K. Berman was absent. Others present were Harlan P. McNutt, Jr., M.D., Director, Mental Hygiene Section, and Dr. H. Lawrence Lister, Legal Consultant.

The meeting was called to order by the President. Minutes of the previous meeting were approved as mailed to the Board members in a motion made by Dr. Griffith and seconded by Dr. Irvine.

In a motion made by Dr. Inskip, seconded by Dr. Wherry, it was recommended that the Board of Eugenics make a request of the Board of Health to grant Dr. McNutt permission to conduct a follow-up study of patients previously presented to the Board of Eugenics, using names for a ten-year period, 1928 to 1938.

Dr. C. E. Bates, Superintendent, Oregon State Hospital, presented the following patients to the Board:

██████████ age 20, diagnosis, immaturity reaction with psychosis, psychopathic personality. Dr. Hagmeier moved, Dr. Wherry seconded, that she be sterilized by resection of fallopian tubes as recommended by Dr. Bates.

██████████ age 27, diagnosis, dementia praecox, paranoid type. Dr. Irvine moved, Dr. Griffith seconded, that she be sterilized by resection of fallopian tubes as recommended by Dr. Bates.

██████████ age 22, diagnosis, dementia praecox, simple type. Dr. Hagmeier moved, Dr. Irvine seconded, that she be sterilized by resection of fallopian tubes as recommended by Dr. Bates.

Dr. Bates presented the following case with waiver of appearance:

██████████ age 38, diagnosis, manic-depressive psychosis, manic type. Dr. Hagmeier moved, Dr. Wherry seconded, that she be sterilized by resection of fallopian tubes as recommended by Dr. Bates.

Dr. Irvin B. Hill, Superintendent, Oregon Fairview Home, presented the following patients to the Board:

██████████ age 19, mentally deficient. Dr. Irvine moved, Dr. Wherry seconded, that she be sterilized by resection of fallopian tubes as recommended by Dr. Hill.

██████████ age 19, mentally deficient. Dr. Hagmeier moved, Dr. Inskip seconded, that he be sterilized by vasectomy as recommended by Dr. Hill.

The Secretary read a letter from Governor McKay, who had forwarded a copy of a letter which he had received from District Attorney Mix, Benton County, in regard to two prisoners who were confined in the Benton County Jail, both having entered pleas of guilty to charges involving sex crimes. The district attorney was requesting action by the State Board of Eugenics.

Dr. McNutt, who had visited these prisoners in the Benton County Jail, first presented the case of ██████████ age 40, who had pleaded guilty to a charge of "contributing to the delinquency of a minor" involving his nine-year-old stepdaughter. The prisoner's signature had been secured on the waiver of appearance, and he had agreed to be sterilized by castration. However, since the information which Dr. McNutt was able to secure was so meager, he did not wish to make a diagnosis nor a recommendation.

After further consideration of District Attorney Mix's letter and further discussion, Dr. Hagmeier made a motion, seconded by Dr. Griffith, that the prisoner be sterilized by castration.

Dr. McNutt then presented the case of ██████████ age 57, who had pleaded guilty to a charge of "rape involving his fourteen-year-old daughter." The prisoner's signature had been secured on the waiver of appearance, and he had agreed to be sterilized by castration. Dr. Hagmeier moved, Dr. Irvine seconded, that the prisoner be sterilized by castration.

Dr. McClutt reviewed the case of [REDACTED] age 57, who was referred to the Board by Circuit Judge Ralph S. Hamilton, Deschutes County, Oregon. This man had been sentenced to the Oregon State Penitentiary for one year on a charge of contributing to the delinquency of a seven-year-old girl. Dr. McClutt had visited the prisoner, who denied having committed the crime for which he was sentenced and refused to be sterilized by castration. It was Dr. McClutt's recommendation, after examining the prisoner, that he be referred for further surgical consultation, since his findings indicated that surgery was necessary.

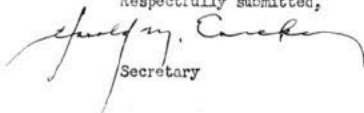

The prisoner, accompanied by a guard from the penitentiary, appeared before the Board. After being questioned by Drs. McClutt and Bates, he was excused.

Dr. Inskeep made a motion, Dr. Wherry seconded, that the Circuit Judge Hamilton be advised by letter that the Board would make a request to the Warden of the Oregon State Penitentiary that the prisoner be given a physical examination and that the matter should be presented to the Board again at its next meeting.

Mr. Lister recommended that the Board authorize the Secretary to direct a letter to all circuit judges and county clerks (copies to be sent to the Governor and district attorneys) requesting complete reports on all convicted sex offenders so that the Board might have more adequate information on those cases. Dr. Inskeep made a motion, Dr. Hagaeier seconded, that Mr. Lister's recommendation be followed.

There being no further business, the meeting was adjourned.

Respectfully submitted,

Secretary

March 13, 1950
Portland, Oregon

The Oregon State Board of Eugenics met in the Conference Room of the State Board of Health, Portland, Oregon, on March 13, 1950, 3:30 p.m. Present were:

L. D. Inskeep, M.D., President
O. C. Hagaeier, M.D., First Vice-President
T. E. Griffith, M.D., Second Vice-President
C. E. Hunt, M.D., Member
O. T. Wherry, D.M.D., Member
N. E. Irvine, M.D., Member
D. C. Burkes, M.D., Member
Harold M. Erickson, M.D., Secretary

A. K. Berman was absent. Mr. H. Lawrence Lister, Legal Consultant, was also present.

The Meeting was called to order by the President. Minutes of the previous meeting were approved as mailed to the Board members in a motion made by Dr. Hunt and seconded by Dr. Burkes.

The following cases from the Oregon State Hospital were presented with waivers of appearance:

██████████ age 20; diagnosis, mentally deficient, sexual psychopathy. Dr. Hunt made a motion, which was seconded by Dr. Burkes and carried, that he be sterilized by castration.

██████████ age 31; prognosis, manic-depressive psychosis, manic type. Dr. Wherry made a motion, which was seconded by Dr. Hunt and carried, that she be sterilized by resection of fallopian tubes.

██████████ age 25; diagnosis, psychoneurosis, reactive type. Dr. Hagmeier made a motion, which was seconded by Dr. Wherry and carried, that she be sterilized by resection of fallopian tubes.

██████████ age 31; diagnosis, dementia praecox, paranoid type. Dr. Hunt made a motion, which was seconded by Dr. Wherry, that she be sterilized by resection of fallopian tubes.

██████████ age 32; diagnosis, dementia praecox, paranoid type. Dr. Hunt made a motion, which was seconded by Dr. Griffith and carried, that he be sterilized by vasectomy.

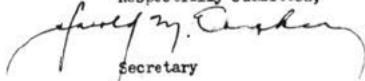

██████████ age 36; diagnosis, chronic alcoholism without psychosis. Dr. Wherry made a motion, which was seconded by Dr. Burkes, that he be sterilized by vasectomy.

The following out-patient was presented with waiver of appearance:

██████████ age 23; diagnosis, mentally deficient. This patient had been referred to the Board of Eugenics by Dr. Leland V. Belknap. The history as given was incomplete, but since Dr. Burkes was familiar with the case, he made a motion that the patient be sterilized by resection of the fallopian tubes. This motion was seconded by Dr. Hagmeier and carried.

There being no further business, the meeting was adjourned.

Respectfully submitted,

Secretary

May 20, 1950
The Dalles, Oregon

The Oregon State Board of Eugenics met at the Eastern Oregon State Tuberculosis Hospital, The Dalles, Oregon, on May 20, 1950, at 9:30 a.m. Present were:

L. D. Inskip, M.D., President
T. E. Griffith, M.D., Second Vice-President
C. E. Hunt, M.D., Member
O. T. Wherry, D.M.D., Member
N. E. Irvine, M.D., Member
D. C. Burkes, M.D., Member
Harold M. Erickson, M.D., Secretary

O. C. Hagmeier, M.D., and A. K. Berman were absent. Harlan P. McNutt, Jr., M.D., Director, Mental Hygiene Section, and Mr. H. Lawrence Lister, Legal Consultant were also present.

The meeting was called to order by the President. Minutes of the previous meeting were approved as mailed to the Board members in a motion made by Dr. Hunt and seconded by Dr. Wherry.

Dr. McNutt gave a brief report on the progress being made on the study of Board of Eugenics cases. He stated that a number of the cases had been reviewed but that a little more time would be required to complete the study.

Dr. McNutt reported on the Governor's Committee on Psychiatrically Deviated Sex Offenders, to which he has been appointed chairman. The purpose of this Committee, which has been functioning for the past two months, is to look into all matters pertaining to sex offenders. One recommendation made by the Committee was that the Board of Eugenics be designated as the major agency to handle these cases.

The matter of need for an increased budget and field staff if the Board of Eugenics increases its service to the courts and agencies other than the State institutions was discussed. The proposed budget for the 1951-53 biennium as drawn up by Dr. McNutt was reviewed. This budget, which would include psychiatrists' services on a fee basis, social investigators, part-time stenographer, travel expenses, and supplies including pre-marital forms, totals \$10,620.00. After some discussion of this budget, it was suggested that the matter be referred back to Dr. McNutt and that any action taken by the Board should take place in Salem so that the other members of the Board of Eugenics could be present. This suggestion was approved in a motion made by Dr. Burkes, seconded by Dr. Griffith and carried.

The Secretary reported on the case of [redacted] an epileptic, who had been referred to the Premarital Law Committee for consideration. After careful study by the Committee, it was felt that there was no necessity to forbid his marriage on medical grounds. It was therefore recommended that he be permitted to marry. The recommendation of the Committee was accepted in a motion made by Dr. Burkes, seconded Dr. Hunt and carried.

The following cases from the Oregon State Hospital were presented on waiver of appearance:

[redacted] age 38; diagnosis, dementia praecox, simple type; recommended operation, resection of fallopian tubes.

[redacted] age 35; diagnosis, dementia praecox, paranoid type; recommended operation, resection of fallopian tubes.

[redacted] age 32; diagnosis, schizophrenia, simple type; recommended operation, vasectomy.

[redacted] age 28; diagnosis, dementia praecox, paranoid type; recommended operation, vasectomy.

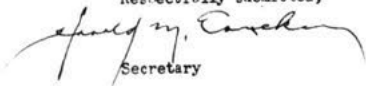

Since careful consideration had been given to the cases prior to the Board meeting, a motion was made by Dr. Burkes, seconded by Dr. Wherry and carried, that the operations be performed as recommended.

The Secretary called on Dr. McNutt to present the case of [redacted] nineteen

years of age, who was arrested in March, 1950, on the charge of committing an act of sodomy on a twelve-year-old boy. [redacted] is now confined in the Clackamas County Jail. This case was referred to the Board of Eugenics by the Clackamas County Circuit Court. Dr. McNutt reported on the findings of his examination of the prisoner, stating that the young man is of dull normal intelligence, is sexually confused, although not a confirmed homosexual, and is a religious fanatic. Dr. McNutt did not feel that this prisoner would be benefited by castration or any other form of sterilization but did feel that he might be rehabilitated if given proper supervision. Since sentence has been postponed pending pre-sentence investigation by the Board of Parole and Probation and a report from the Board of Eugenics, a motion was made by Dr. Burkes, seconded by Dr. Griffith and carried, to recommend to the Judge of the Circuit Court, Clackamas County, that the prisoner be committed to the Oregon State Hospital rather than be sentenced to a prison term.

There being no further business, the meeting was adjourned.

Respectfully submitted,

Secretary

July 29, 1950
Oregon Fairview Home

The Oregon State Board of Eugenics met at the Oregon Fairview Home, Salem, Oregon, on July 29, 1950, at 9:30 a.m. (D.S.T.) Present were:

L. D. Inskoop, M.D., President
O. C. Hagmeier, M.D., First Vice-President
T. E. Griffith, M.D., Second Vice-President
O. T. Wherry, D.M.D., Member
N. E. Irvine, M.D., Member
D. C. Burkes, M.D., Member
Irvin B. Hill, M.D., Member
C. E. Bates, M.D., Member
Harold M. Erickson, M.D., Secretary

C. E. Hunt, M.D., and A. K. Berman were absent. Harlan P. McNutt, Jr., M.D., Director, Mental Hygiene Section, and Mr. H. Lawrence Lister, Legal Consultant, were also present.

The meeting was called to order by the President. Minutes of the previous meeting were approved as mailed to the Board members in a motion made by Dr. Hagmeier and seconded by Dr. Wherry.

A further discussion was held regarding the need to increase the budget of the Board of Eugenics in order to expand its services. In a motion made by Dr. Wherry, seconded by Dr. Griffith and carried, it was recommended that the matter be referred to the sub-committee with power to act after the recommendations of the Governor's Committee on Psychiatrically Deviated Sex Offenders were made known.

The following case was presented on waiver of appearance by Dr. McNutt:

██████████ a ward of the Lane County Court, who is now an inmate of Louise Home. She is sexually promiscuous; has given birth to two illegitimate children. Since the patient and her maternal aunt with whom she formerly lived have consented to the operation, Dr. Burkes made a motion, seconded by Dr. Hagmeier and carried, that she be sterilized by resection of fallopian tubes.

Dr. Bates presented the following case to the Board:

██████████ age 66, an alcoholic, who had been confined in Rocky "utte Jail on a charge of attempted rape and was sent to the Oregon State Hospital under court order. The patient wishes to be released and has agreed to be sterilized by castration. Since his difficulty is the result of his alcoholism and there is no assurance that he will not resume his drinking when released, Dr. Burkes made a motion, which Dr. Wherry seconded, that the patient be sterilized by castration.

Dr. Hill presented the following cases to the Board:

██████████ age 15, feeble-minded. Dr. Hagmeier made a motion, Dr. Burkes seconded, that he be sterilized by vasectomy.

██████████ age 18, feeble-minded. Dr. Wherry made a motion, Dr. Burkes seconded that he be sterilized by vasectomy.

██████████ age 16, feeble-minded. Dr. Burkes made a motion, Dr. Hagmeier seconded, that he be sterilized by vasectomy.

██████████ age 18, feeble-minded. Dr. Burkes made a motion, Dr. Griffith seconded that he be sterilized by vasectomy.

██████████, ██████████ and ██████████ ages 17, 16, 13, and 14 respectively, feeble-minded. Dr. Burkes made a motion, seconded by Dr. Irvine that ██████████ and ██████████ be sterilized by vasectomy and that ██████████ be sterilized by resection of fallopian tubes.

██████████ age 18, feeble-minded. Dr. Griffith made a motion, seconded by Dr. Burkes, that he be sterilized by vasectomy.

██████████ age 16, feeble-minded. Dr. Irvine made a motion, seconded by Dr. Wherry, that he be sterilized by vasectomy.

██████████ age 25, feeble-minded. Patient had formerly been an inmate of Fairview Home and was sterilized by vasectomy. He was released to his mother against medical advice, and she is now requesting that he be castrated. Dr. Burkes made a motion, seconded by Dr. Irvine, that he be castrated.

██████████ age 17, feeble-minded. Dr. Wherry made a motion, seconded by Dr. Griffith that he be sterilized by vasectomy.

██████████ age 17, feeble-minded. Dr. Irvine made a motion, seconded by Dr. Wherry, that she be sterilized by resection of fallopian tubes.

██████████ age 14, feeble-minded. Dr. Hagmeier made a motion, seconded by Dr. Griffith, that she be sterilized by resection of fallopian tubes.

██████████ age 17, feeble-minded. Dr. Burkes made a motion, seconded by Dr. Wherry, that she be sterilized by resection of fallopian tubes.

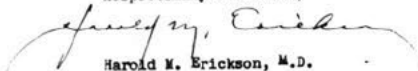

██████████ age 17, feeble-minded. Dr. Burkes made a motion, seconded by Dr. Irvine, that she be sterilized by resection of fallopian tubes after she has recovered from confinement.

██████████ age 15, feeble-minded. Dr. Burkes made a motion, seconded by Dr. Griffith, that no action be taken and that the matter be tabled for the time being.

██████████ age 18, feeble-minded. Dr. Burkes made a motion, seconded by Dr. Griffith that she be sterilized by resection of fallopian tubes.

There being no further business, the meeting was adjourned.

Respectfully submitted,

Harold M. Erickson, M.D.
Secretary

October 9, 1950
Portland, Oregon

The Oregon State Board of Eugenics met in the Conference Room of the Oregon State Board of Health on October 9, 1950 at 1:30 p.m. Present were:

L. D. Inskip, M.D., President
O. C. Hagmeier, M.D., First Vice-President
T. E. Griffith, M.D., Second Vice-President
C. E. Hunt, M.D., Member
O. T. Wherry, D.M.D., Member
N. E. Irvine, M.D., Member
A. K. Berman, B.S., Member
D. C. Burkes, M.D., Member
Harold M. Erickson, M.D., Secretary

Gerhard B. Haugen, M.D., Part-time Director, Mental Hygiene Section, and Mr. H. Lawrence Lister, Legal Consultant, were also present.

The meeting was called to order by the President. Minutes of the previous meeting were approved as mailed to the Board members in a motion made by Dr. Wherry, seconded by Dr. Hagmeier and carried.

The cases of ██████████ age 50, and ██████████ age 59, were discussed. These men, who are now inmates of the Clackamas County Jail, are each charged with contributing to the delinquency of a minor. Arrangements had been made for them to be seen by Dr. Burkes, since the district attorney of Clackamas County had requested that they be examined by a psychiatrist in order to determine whether or not they would benefit by treatment or sterilization. Dr. Burkes reported on his findings and stated, as the result of his examinations of these men, that neither sterilization nor castration was indicated. He felt that a jail sentence would be more effective, and Dr. Haugen concurred in Dr. Burkes' opinion. In a motion made by Dr. Wherry, seconded by Dr. Griffith and carried, Dr. Burkes' recommendation on disposition of these cases was accented.

The matter of reimbursing Dr. Burkes for his services in connection with the above cases was discussed, and in a motion made by Dr. Irvine, seconded by Dr. Wherry and carried, it was agreed that he should be allowed a fee of \$15.00 for each case.

The following case was presented on waiver of appearance by Dr. Haugen:

██████████ age 23, feebleminded, resection of fallopian tubes recommended. This case was referred to the Board by the Multnomah County Public Welfare Commission. This patient, who is now being cared for at the Volunteers of America Home, has recently given birth to an illegitimate child. Dr. Burkes made a motion, seconded by Dr. Wherry and carried, that she be sterilized by resection of fallopian tubes.

The following cases were presented from the Oregon State Hospital on waiver of appearance:

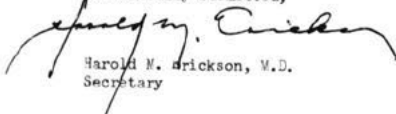

██████████ age 22; diagnosis, Huntington's Chorea, recommended operation, resection of fallopian tubes. Dr. Hagmeier made a motion, seconded by Dr. Burkes and carried, that she be sterilized by resection of fallopian tubes.

██████████ age 26; diagnosis, dementia praecox; recommended operation, resection of fallopian tubes. Dr. Hagmeier made a motion, seconded by Dr. Wherry and carried, that she be sterilized by resection of fallopian tubes.

██████████ age 32; diagnosis, psychoneurosis; recommended operation, vasectomy. Dr. Irvine made a motion, seconded by Dr. Burkes and carried that he be sterilized by vasectomy.

There being no further business, Dr. Hagmeier made a motion, seconded by Dr. Wherry and carried, that the meeting be adjourned.

Respectfully submitted,

Harold M. Erickson, M.D.
Secretary

December 4, 1950
Portland, Oregon

The Oregon State Board of Eugenics met in the Conference Room of the Oregon State Board of Health on December 4, 1950, at 1:30 p.m. Present were:

L. D. Inskeep, M.D., President
O. C. Hagmeier, M.D., First Vice-President
T. E. Griffith, M.D., Second Vice-President
C. E. Hunt, M.D., Member
O. L. Wherry, D.M.D., Member
N. E. Irvine, M.D., Member
A. K. German, B.S., Member
D. C. Burkes, M.D., Member
C. E. Bates, M.D., Member
Harold M. Erickson, M.D., Secretary

Gerard B. Haugen, M.D., Part-time Director, Mental Hygiene Section, and Mr. H. Lawrence Lister, Legal Consultant, were also present.

The meeting was called to order by the President. Minutes of the previous meeting were approved as mailed to the Board members in a motion made by Dr. Hagmeier, seconded by Dr. Griffith and carried.

The Board considered reinstatement of a driver's license for [REDACTED]. After reviewing very carefully the facts of the situation and on the basis of the reports which had been received by the Board, it was the opinion of the members that [REDACTED] driver's license should not be reinstated. Approval of this decision was given in a motion made by Dr. Irvine, seconded by Dr. Burkes and carried.

The marriage license application of [REDACTED] was considered. [REDACTED] age forty-six, had been treated for dementia praecox, simple type, at the Oregon State Hospital in 1949. The case had been referred to the subcommittee of the Board of Eugenics by Dr. C. A. Downs, [REDACTED] physician. It was the recommendation of the subcommittee that a vasectomy be performed prior to a marriage and this information was given to the private physician. A letter received from Dr. Downs under date of November 24, 1950, states that a vasectomy was performed following approval of the marriage on this basis from the subcommittee. In a motion made by Dr. Irvine, seconded by Dr. Hagmeier and carried, the action of the subcommittee of the Board of Eugenics was approved.

The case of [REDACTED] age twenty-five, feeble-minded, was considered. At the time the case was referred to the Board, [REDACTED] was a patient in the Multnomah Hospital awaiting termination of her second pregnancy by Caesarean section. The physician on the case had recommended that she be sterilized immediately following the birth of the baby. [REDACTED] had been deserted by her husband and was living with her parents. Her father, as her guardian, had given his consent to have her sterilized. The recommended surgery of resection of fallopian tubes was approved by the Board in a motion by Dr. Hagmeier, seconded by Dr. Griffith and carried.

The following cases were presented by Dr. Bates:

[REDACTED] age 25; diagnosis, manic depressive psychosis; recommended operation, resection of fallopian tubes. The operation as recommended by Dr. Bates was approved in a motion by Dr. Burkes seconded by Dr. Hagmeier and carried.

[REDACTED] age 70; diagnosis, senile psychosis; recommended operation, castration. The operation as recommended by Dr. Bates was approved in a motion by Dr. Hagmeier, seconded by Dr. Griffith and carried.

[REDACTED] age 44; diagnosis, dementia praecox; recommended operation vasectomy. The operation as recommended by Dr. Bates was approved in a motion by Dr. Hagmeier, seconded by Dr. Burkes and carried.

[REDACTED] age 39; diagnosis, feeble-minded; recommended operation resection of fallopian tubes. The operation as recommended by Dr. Bates was approved in a motion made by Dr. Irvine, seconded by Dr. Griffith and carried.

[REDACTED] age 24; diagnosis, manic depressive psychosis; recommended operation, resection of fallopian tubes. The operation as recommended by

Dr. Bates was approved in a motion made by Dr. Irvine, seconded by Dr. Hagmeier and carried.

Since there was no further business to come before the Board, a motion was made by Dr. Hagmeier, seconded by Dr. Wherry and carried, to adjourn the meeting.

Respectfully submitted,

Secretary

January 9, 1951
Oregon Fairview Home

1951

January 9, 1951
Oregon Fairview Home

The Oregon State Board of Eugenics met at the Oregon Fairview Home, Salem, on January 9, 1951, at 2:00 p.m. Present were:

L. D. Inskip, M.D., President
T. E. Griffith, M.D., Second Vice-President
C. E. Hunt, M.D., Member
O. T. Wherry, D.M.D., Member
D. C. Burkes, M.D., Member
L. L. Riggs, B.S., Member
Irvin B. Hill, M.D., Member
C. E. Bates, M.D., Member
Harold M. Erickson, M.D., Secretary

O. C. Hagmeier, M.D., and N. E. Irvine, M.D., were absent.

The meeting was called to order by the President. Minutes of the previous meeting were approved as mailed to the Board members in a motion made by Dr. Hunt, seconded by Dr. Griffith and carried.

The marriage license application of [redacted] age seventeen, was considered. This case had been referred to the subcommittee of the Board of Eugenics by Dr. S. J. Simons. Dr. Simons reported that the patient had a history of convulsions from the sixth grade on, these occurring approximately once a year, although she had not had any within the last year. He stated that the seizures did not appear to be typically epileptic and that he had given a favorable recommendation so that the girl could obtain a marriage license. Dr. Simons had been informed that the matter would be presented to the Board of Eugenics. In a motion made by Dr. Hill, seconded by Dr. Hunt and carried, approval was given to Dr. Simons' decision to grant the patient permission to be married.

The following cases were presented by Dr. Hill:

[redacted] age 18; diagnosis, feeble-minded; recommended operation, resection of fallopian tubes. The operation as recommended was approved in a motion by Dr. Burkes, seconded by Dr. Wherry and carried.

[redacted] age 19; diagnosis, feeble-minded; recommended operation, resection of fallopian tubes. The operation as recommended was approved in a motion by Dr. Burkes, seconded by Dr. Griffith and carried.

[redacted] age 15; diagnosis, feeble-minded; recommended operation, resection of fallopian tubes. The operation as recommended was approved in a motion by Dr. Burkes, seconded by Dr. Wherry and carried.

[redacted] age 20; diagnosis, feeble-minded; recommended operation,

resection of fallopian tubes. The operation as recommended was approved in a motion by Dr. Burkes, seconded by Dr. Hunt and carried.

██████████ age 14; diagnosis, feebleminded; recommended operation, resection of fallopian tubes. The operation as recommended was approved in a motion by Dr. Hunt, seconded by Dr. Griffith and carried.

██████████ age 16; diagnosis, feebleminded; recommended operation, resection of fallopian tubes. The operation as recommended was approved in a motion by Dr. Burkes, seconded by Dr. Hunt and carried.

██████████ age 16; diagnosis, feebleminded, recommended operation, resection of fallopian tubes. The operation as recommended was approved in a motion by Dr. Burkes, seconded by Dr. Hunt and carried.

██████████ age 18; diagnosis, feebleminded; recommended operation, resection of fallopian tubes. The operation as recommended was approved in a motion by Dr. Wherry, seconded by Dr. Hunt and carried.

██████████ age 19; diagnosis, feebleminded; recommended operation, vasectomy. The operation as recommended was approved in a motion by Dr. Burkes, seconded by Dr. Wherry and carried.

██████████ age 18; diagnosis, feebleminded; recommended operation, vasectomy. The operation as recommended was approved in a motion by Dr. Hunt, seconded by Dr. Burkes and carried.

██████████ age 18; diagnosis, feebleminded; recommended operation, vasectomy. The operation as recommended was approved in a motion by Dr. Hunt, seconded by Dr. Burkes and carried.

██████████ age 17; diagnosis, feebleminded; recommended operation, vasectomy. The operation as recommended was approved in a motion by Dr. Burkes, seconded by Dr. Griffith and carried.

██████████ age 17; diagnosis, feebleminded; recommended operation, vasectomy. After considering the case carefully, a motion was made by Dr. Wherry, seconded by Dr. Griffith and carried, that he not be sterilized.

The following cases were presented by Dr. Bates:

██████████ age 22; diagnosis, manic depressive psychosis; recommended operation, resection of fallopian tubes. The operation as recommended was approved in a motion by Dr. Burkes, seconded by Dr. Wherry and carried.

██████████ age 35; diagnosis, epileptic deterioration; recommended operation, resection of fallopian tubes. The operation as recommended was approved in a motion by Dr. Burkes, seconded by Dr. Hunt and carried.

██████████ age 19; diagnosis, psychopathic personality; recommended operation, resection of fallopian tubes. The operation as recommended was approved in a motion by Dr. Burkes, seconded by Dr. Griffith and carried.

██████████ age 26; diagnosis, psychopathic personality, with pathologic emotionality, without mental disorder; recommended operation, vasectomy. The operation as recommended was approved in a motion by Dr. Burkes, seconded by Dr. Hunt and carried.

Since there was no further business to come before the Board, a motion was made by Dr. Wherry, seconded by Dr. Burkes and carried, to adjourn the meeting.

Respectfully submitted,

Secretary

March 31, 1951
Portland, Oregon

The Oregon State Board of Eugenics met in the Conference Room of the Board of Health on March 31, 1951, at 1:30 p.m. Present were:

T. E. Griffith, M.D., President
O. C. Hagmeier, M.D., First Vice-President
O. T. Wherry, D.M.D., Member
N. E. Irvine, M.D., Member
D. C. Burkes, M.D., Member
L. D. Inskip, M.D., Member
L. L. Riggs, B.S., Member
Harold V. Erickson, M.D., Secretary

C. E. Hunt, M.D., Second Vice-President, was absent. Gerhard B. Haugen, M.D., Part-time Director, Mental Hygiene Section, and Mr. H. Lawrence Lister, Legal Consultant, were present.

The meeting was called to order by the President. Minutes of the previous meeting were approved as mailed to the Board members in a motion made by Dr. Inskip, seconded by Dr. Burkes and carried.

The following case from the Eastern Oregon State Hospital was presented on waiver of appearance:

 age 21; diagnosis, behavior disorder with mental deficiency; intelligence quotient, 76; recommended operation, resection of fallopian tubes. The operation as recommended was approved in a motion by Dr. Wherry, seconded by Dr. Hagmeier and carried.

Since there was no further business to come before the Board, a motion was made by Dr. Inskip, seconded by Dr. Hagmeier and carried, to adjourn the meeting.

Respectfully submitted,

Secretary

 W. E. Irvine, M.D., Member
 D. C. Burkes, M.D., Member
 L. D. Inskeen, M.D., Member
 L. L. Riggs, B.S., Member
 C. E. Bates, M.D., Member
 Harold W. Erickson, M.D., Secretary

O. T. Wherry, D.M.D., Member, was absent. Mr. W. Lawrence Lister, Legal Consultant, was also present.

The meeting was called to order by the President. Minutes of the previous meeting were approved as mailed to the Board members in a motion made by Dr. Hagmeier, seconded by Dr. Inskeen and carried.

The marriage application of [redacted] was considered. This case had been referred to the Board of Eugenics by Dr. Philip Arling, McMinnville. The patient, age twenty, had had a pregnancy terminated and tubes ligated on February 26, 1951, on the recommendation of a recognized neuropsychiatrist. It was the consensus of the Board members that no action by the Board of Eugenics was indicated, since the physician had made a favorable recommendation. This matter had been previously cleared with the Legal Consultant.

The following cases were presented on waiver of appearance by Dr. Bates, Oregon State Hospital:

[redacted] age 39; undiagnosed psychosis, vasectomy recommended. The patient had been sent to the Oregon State Hospital by the Court, since he was charged with contributing to the delinquency of a minor, his eleven-year-old daughter. A motion was made by Dr. Inskeep that the patient be castrated; that if he refuses to submit to this type of operation, the case be referred back to the Court for further action. The motion was seconded by Dr. Hagmeier and carried.

[redacted] age 52; diagnosis, psychopathic personality; recommended operation, castration. In a motion made by Dr. Hagmeier, seconded by Mr. Riggs and carried, it was recommended that he be sterilized by castration.

[redacted] age 24; diagnosis, mental deficiency; recommended operation, castration. In a motion made by Dr. Inskeep, seconded by Dr. Hagmeier and carried, it was recommended that he be sterilized by castration.

[redacted] age 25; diagnosis, dementia praecox; recommended operation, castration. In a motion made by Dr. Inskeep, seconded by Dr. Hagmeier and carried, it was recommended that he be sterilized by castration.

[redacted] age 49; diagnosis, psychosis with other brain disease; recommended operation, vasectomy. In a motion made by Dr. Inskeep, seconded by Dr. Burkes and carried, it was recommended that he be sterilized by vasectomy.

age 39; diagnosis, paranoid state; recommended operation, resection of fallopian tubes. In a motion made by Dr. Burkes, seconded by Dr. Hagmeier and carried, it was recommended that she be sterilized by resection of fallopian tubes.

age 25; diagnosis, schizophrenia; recommended operation, resection of fallopian tubes. In a motion made by Dr. Hagmeier, seconded by Mr. Riggs and carried, it was recommended that she be sterilized by resection of fallopian tubes.

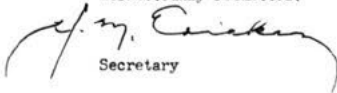

age 25; diagnosis, anxiety hysteria; recommended operation, resection of fallopian tubes. In a motion made by Dr. Inskeep, seconded by Dr. Burkes and carried, it was recommended that she be sterilized by resection of fallopian tubes.

age 26; diagnosis, schizophrenia; recommended operation, resection of fallopian tubes. In a motion made by Dr. Burkes, seconded by Mr. Riggs and carried, it was recommended that she be sterilized by resection of fallopian tubes.

Dr. Inskeep brought up for discussion the matter of sex deviates and made the following proposals on the subject: Construction of an institution employing maximum security for all persons, male and female, found guilty of an aggressive sex crime; establishment of a minimum sentence of ninety-nine years for such crimes; provision for parole after having served one-third of the sentence (33 years), after which time it was felt that the offender would be beyond the age where he might recommit the same offense. It was pointed out that the Board's request for additional funds to carry on activities in this field as prescribed by law had been turned down by the 1951 legislature. The activities of the Committee for Study of the Psychonath Problem were presented to the Board members by the Secretary. It was agreed that a copy of this report should be furnished each Board member. It was anticipated that some formal action on the Psychonath Problem might be taken by the Board at the next meeting.

There being no further business, the meeting was adjourned.

Respectfully submitted,

Secretary

July 28, 1951
Eugene, Oregon

The Oregon State Board of Eugenics met in the Erb Memorial Union, University of Oregon, Eugene, Oregon, on July 28, 1951, at 1:30 p.m. (D.S.T.). Present were:

T. E. Griffith, M.D., President
O. C. Hagmeier, M.D., First Vice-President
C. E. Hunt, M.D., Second Vice-President
O. T. Wherry, D.M.D., Member
N. E. Irvine, M.D., Member
D. C. Burkes, M.D., Member
L. L. Riggs, B.S., Member
Harold M. Erickson, M.D., Secretary

L. D. Inskeep, M.D., Member, was absent. Mr. H. Lawrence Lister, Legal Consultant, was present.

The meeting was called to order by the President. Minutes of the previous meeting were approved as called to the Board members in a motion made by Dr. Harmeier, seconded by Dr. Wherry and carried.

The Secretary presented the procedures as outlined by Dr. Haugen for handling cases referred by judges under the Eugenics law. Under this plan, the judge, in referring cases of persons who had committed sex crimes, would contact the Board directly and would be given the name of the nearest psychiatrist who could examine the prisoner. It would be the responsibility of the sheriff or other court official to bring the person in question to the psychiatrist's office for the examination. It was agreed that the fee to be charged for the services of the psychiatrist should be decided upon by the Mental Health Committee of the Oregon State Medical Society. The Board's decision would be made on the basis of the psychiatrist's report, provided the prisoner agreed to sign a waiver of appearance. However, if he should demand a personal appearance before the Board, this would be granted. The Board members reviewed the proposed letters to be sent to the county judges and to the county clerks outlining the procedures to be followed and the form to be sent to the county clerks for reporting such cases to the Board of Eugenics. In a motion made by Dr. Wherry, seconded by Dr. Harmeier and carried, approval was given to the program as outlined.

The report made by the Committee for the Study of the Psychonath Problem in August, 1950, was brought to the attention of the Board members. After this report was discussed at some length, it was the consensus of the Board members that no action should be taken to adopt it at this time; that it should be accepted for further study and that copies should be presented to the other members of the Board of Eugenics for their study. In a motion made by Dr. Wherry, seconded by Dr. Hunt and carried, receipt of the report for further study was acknowledged, and it was further recommended that any action of the Board to adopt the report should be based on further study of it by all of the Board of Eugenics members.

The following cases from the Oregon State Hospital were presented by Dr. Burkes on waiver of appearance:

██████████, age 18; diagnosis, dementia praecox; recommended operation, resection of fallonian tubes. The recommended operation was approved in a motion made by Dr. Wherry, seconded by Mr. Riggs and carried.

██████████, age 28; diagnosis, dementia praecox; recommended operation, resection of fallonian tubes. The recommended operation was approved in a motion made by Dr. Hunt, seconded by Dr. Burkes and carried.

██████████, age 36; diagnosis, psychosis with mental deficiency; recommended operation, resection of fallonian tubes. The recommended operation was approved in a motion made by Dr. Burkes, seconded by Mr. Riggs and carried.

██████████, age 31; diagnosis, psychosis undifferentiated; recommended operation, resection of fallonian tubes. The recommended operation was approved in a motion made by Dr. Wherry, seconded by Dr. Burkes and carried.

██████████, age 35; diagnosis, psychosis with alcoholism; recommended operation, resection of fallonian tubes. The recommended operation was approved in a motion made by Dr. Burkes, seconded by Dr. Hunt and carried.

There being no further business to come before the Board, the meeting was adjourned.

Respectfully submitted,

Secretary

The Oregon State Board of Eugenics met in the Conference Room of the State Board of Health, Portland, Oregon, on September 21, 1951, at 4:30 p.m. (D.S.T.) Present were:

T. E. Griffith, M.D., President
 C. E. Hunt, M.D., Second Vice-President
 O. T. Wherry, D.M.D., Member
 N. E. Irvine, M.D., Member
 D. C. Burkes, M.D., Member
 L. D. Inskeep, M.D., Member
 L. L. Riggs, B.S., Member
 Harold M. Erickson, M.D., Secretary

O. C. Hagsler, M.D., First Vice-President, was absent. Mr. H. Lawrence Lister, Legal Consultant, and Gerhard B. Haugen, M.D., Part-time Director, Mental Hygiene Section, were also present.

The meeting was called to order by the President. Minutes of the previous meeting were approved as mailed to the Board members in a motion made by Dr. Inskeep, seconded by Dr. Hunt and carried.

The Board considered the marriage application of [redacted], who has a history of epilepsy. Dr. Haugen recommended that the application be approved, since a letter from the private physician indicated that [redacted] seizures were controlled by medication. [redacted] and [redacted] his fiancée, appeared before the Board and were informed that, since the doctor had made a favorable recommendation, their marriage application was being approved. This action was accepted in a motion made by Dr. Inskeep, seconded by Dr. Burkes and carried.

The marriage application of [redacted] was considered by the Board. The Secretary reported that Dr. Iwle C. Ham, Enterprise, Oregon, had informed the Board that a maternal aunt of [redacted] had become mentally deranged following the birth of a baby but that it was believed the mental aberration was from child birth. Dr. Ham stated that he had signed the permit and was forwarding this information to the Board for approval. This action was approved in a motion made by Dr. Inskeep, seconded by Dr. Burkes and carried.

Dr. Haugen presented the case of [redacted] who had been convicted for contributing to the delinquency of a minor and was now an inmate of the Oregon State Penitentiary. After interviewing the prisoner, Dr. Haugen felt that no action by the Board of Eugenics was indicated, as it was his opinion that sterilization would not benefit the man. A motion was made by Dr. Irvine, seconded by Dr. Burkes and carried, that the prisoner be granted the privilege of appearing before the Board, if he so desired, when a meeting is held in Salem.

Reconsideration was given to the case of [redacted] who was presented to the Board on waiver of appearance at the meeting on May 26, 1951, at which time it was recommended that he be sterilized by castration. A letter had been received from Dr. Bates indicating that the patient had refused to submit to this type of operation but would consent to be sterilized by vasectomy. Dr. Bates further stated that

arrangements could be made whereby [redacted] would continue to live at the hospital but would seek outside employment in order to support his family. Dr. Bates recommended that the patient be sterilized by vasectomy. In a motion made by Dr. Burkes, seconded by Dr. Hunt and carried, the recommendation of Dr. Bates was approved.

The following cases from the Oregon State Hospital were presented on waiver of appearance:

[redacted] age 38; diagnosis, psycho-neurosis; recommended operation, resection of fallopian tubes.

[redacted] age 37; diagnosis, psychosis with mental deficiency; recommended operation, resection of fallopian tubes.

[redacted] age 26; diagnosis, psychopathic personality; recommended operation, resection of fallopian tubes.

[redacted] age 36; diagnosis, schizophrenia; recommended operation, resection of fallopian tubes.

[redacted] age 16; diagnosis, epilepsy; recommended operation, resection of fallopian tubes.

[redacted] age 26; diagnosis, psychosis; recommended operation, resection of fallopian tubes.

The recommended operations were approved in a motion made by Dr. Burkes, seconded by Dr. Irvine and carried.

The following cases from the Oregon Fairview Home were presented on waiver of appearance:

[redacted], [redacted], and [redacted] ages 14, 16, and 17, respectively; diagnosis, feeble-minded; recommended operations, vasectomy.

[redacted] age 17; diagnosis, feeble-minded; recommended operation, vasectomy.

[redacted] age 18; diagnosis, feeble-minded; recommended operation, vasectomy.

[redacted] age 15; diagnosis, feeble-minded; recommended operation, vasectomy.

[redacted] age 20; diagnosis, feeble-minded; recommended operation, vasectomy.

[redacted] age 22; diagnosis, feeble-minded; recommended operation, vasectomy.

[redacted] age 18; diagnosis, feeble-minded; recommended operation, resection of fallopian tubes.

[redacted] age 14; diagnosis, feeble-minded; recommended operation, resection of fallopian tubes.

[redacted] age 16; diagnosis, feeble-minded; recommended operation, resection of fallopian tubes.

The recommended operations were approved in a motion made by Dr. Wherry, seconded by Dr. Burkes and carried.

The following case from the University of Oregon Medical School was presented on waiver of appearance:

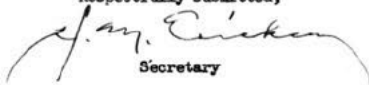

██████████ age 21; diagnosis, epilepsy with mental deficiency; recommended operation, resection of fallopian tubes. The operation was recommended by Dr. Herman A. Dickel; the original recommendation had come from the Court of Domestic Relations. The recommended operation was approved in a motion made by Dr. Burkes, seconded by Dr. Wherry and carried.

The following case from Albertina Kerr Homes was presented on waiver of appearance:

██████████ age 23; diagnosis, borderline intelligence; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Dr. Irvine, seconded by Dr. Burkes and carried.

There being no further business, the meeting was adjourned in a motion made by Dr. Wherry, seconded by Dr. Inskeep and carried.

Respectfully submitted,

Secretary

The Oregon State Board of Eugenics met in the Conference Room of the State Board of Health, Portland State Office Building, on November 17, 1951, at 1:15 p.m. Present were:

T. E. Griffith, M.D., President
 C. E. Hunt, M.D., Second Vice-President
 O. T. Wherry, D.M.D., Member
 N. E. Irvine, M.D., Member
 D. C. Burkes, M.D., Member
 L. D. Inskeep, M.D., Member
 L. L. Riggs, B.S., Member
 Harold M. Erickson, M.D., Secretary

Mr. E. Lawrence Lister, Legal Consultant, was also present. O. C. Hagmeier, M.D., First Vice-President, was absent.

The meeting was called to order by the President. Minutes of the previous meeting were approved as mailed to the Board members in a motion made by Mr. Riggs, seconded by Dr. Hunt and carried.

The following case from the Oregon State Hospital was presented on waiver of appearance:

██████████ age 19; I.Q., 97; diagnosis, behavior disorder (patient was transferred from the Hillcrest School, where she had been unable to make an adjustment. She was committed there on August 2, 1950, because of delinquency, refusing parental control, unwillingness to work, and sexual promiscuity); recommended operation, resection of fallopian tubes.

In a motion made by Dr. Irvine, seconded by Dr. Hunt and carried, the recommended operation was approved.

There being no further business, the meeting was adjourned.

Respectfully submitted,

J. M. Eichen

1952

The Oregon State Board of Eugenics met at the Oregon Fairview Home, Salem, on January 8, 1952, at 10:30 a.m. Present were:

T. E. Griffith, M.D., President
C. E. Hunt, M.D., 2nd Vice-President
O. T. Wherry, D.M.D., Member
N. E. Irvine, M.D., Member
D. C. Burkes, M.D., Member
L. D. Inskip, M.D., Member
L. L. Riggs, B.S., Member
Irvin B. Hill, M.D., Member
C. E. Bates, M.D., Member
Harold M. Erickson, M.D., Secretary

Mr. H. Lawrence Lister, Legal Consultant, was also present. O. C. Hagmeier, M.D., 1st Vice-President, was absent.

The meeting was called to order by the President. Minutes of the previous meeting were approved as mailed to the Board members in a motion made by Dr. Hunt, seconded by Dr. Irvine and carried.

The pre-marital application of [redacted] age 17, was considered. This young woman, an epileptic, has had grand mal seizures since the age of ten. The Secretary stated that the private physician had explained that the applicant was contemplating sterilization prior to marriage. In a motion made by Dr. Wherry, seconded by Dr. Burkes and carried, it was recommended that the applicant be sterilized prior to marriage.

The following cases were presented by Dr. Bates, Oregon State Hospital:

[redacted] age 22; diagnosis, manic depressive; I.Q., 77; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Dr. Irvine, seconded by Dr. Hunt and carried.

[redacted] age 62; diagnosis, psychopathic personality with pathologic sexuality; I.Q., 111; recommended operation, castration. The recommended operation was approved in a motion made by Dr. Burkes, seconded by Dr. Hunt and carried.

[redacted] age 27; diagnosis, mentally defective; I.Q., 65; recommended operation, castration. [redacted] was formerly a patient of the Oregon Fairview Home, where he had been sterilized. Recently he was arrested on a charge of rape and committed to the Oregon State Hospital with a recommendation that he was unsafe to be at large. In a motion made by Dr. Inskip, seconded by Dr. Wherry and carried, the recommended operation was approved.

The following cases were presented by Dr. Hill, Oregon Fairview Home:

██████████ age 19; diagnosis, feeble-minded; I.Q., 54; recommended operation, vasectomy. The recommended operation was approved in a motion made by Dr. Inskeep, seconded by Dr. Burkes and carried.

██████████ age 15; diagnosis, feeble-minded; I.Q., 67; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Dr. Burkes, seconded by Dr. Hunt and carried.

██████████ age 24; diagnosis, feeble-minded; I.Q., 71; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Mr. Riggs, seconded by Dr. Wherry and carried.

██████████ age 21; diagnosis, feeble-minded; I.Q., 74; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Dr. Wherry, seconded by Dr. Burkes and carried.

██████████ age 17; diagnosis, feeble-minded; I.Q., 72; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Dr. Wherry, seconded by Dr. Hunt and carried.

██████████ age 15; diagnosis, feeble-minded; I.Q. 72; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Dr. Hunt, seconded by Dr. Wherry and carried.

██████████ age 16; diagnosis, feeble-minded; I.Q., 63; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Dr. Burkes; seconded by Dr. Inskeep and carried.

██████████ age 13; diagnosis, feeble-minded; I.Q., 73; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Dr. Wherry, seconded by Dr. Burkes and carried.

██████████ age 16; diagnosis, feeble-minded; I.Q., 63; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Dr. Hunt, seconded by Dr. Inskeep and carried.

██████████ age 18; diagnosis, feeble-minded; I.Q., 80; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Dr. Inskeep, seconded by Dr. Griffith and carried.

██████████ age 32; diagnosis, feeble-minded; I.Q., 71; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Dr. Hunt, seconded by Dr. Wherry and carried.

██████████ age 25; diagnosis, feeble-minded; I.Q., 62; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Dr. Hunt, seconded by Dr. Wherry and carried.

There being no further business, the meeting was adjourned in a motion made by Dr. Hunt, seconded by Dr. Wherry and carried.

Respectfully submitted,

Secretary

The Oregon State Board of Eugenics met at the Oregon Fairview Home, Salem, on March 7, 1952, at 9:30 a.m. Present were:

N. E. Irvine, M.D., Acting President
L. L. Riggs, B.S., Second Vice-President
T. E. Griffith, M.D., Member
C. E. Hunt, M.D., Member
O. T. Wherry, D.M.D., Member
D. C. Burkes, M.D., Member
L. D. Inskeep, M.D., Member
Tom H. Dunham, M.D., Member
Irvin B. Hill, M.D., Member
C. E. Bates, M.D., Member
Harold M. Erickson, M.D., Secretary

Mr. H. Lawrence Lister, Legal Consultant, was also present.

The meeting was called to order by the Acting President. Minutes of the previous meeting were approved as mailed to the Board members in a motion made by Mr. Riggs, seconded by Dr. Burkes and carried.

The Board considered the cases of [redacted] and [redacted], both of whom had plead guilty to contributing to the delinquency of a minor and were being held in the Clackamas County jail awaiting sentence. After carefully reviewing the findings on these cases, it was the consensus of the Board members that neither medical nor surgical treatment would render these prisoners less dangerous to the public and that the matter should be referred back to the court for disposition; that if the court wished to bring them before the Board for parole, the cases could be considered further. This action was approved in a motion made by Dr. Hill, seconded by Mr. Riggs and carried.

A discussion was held on the function of the subcommittee on premarital applications, particularly on those individuals suffering from epilepsy who are referred to the Board in accordance with the law. It was the consensus of the Board members that in the future more emphasis should be placed on feebleminded cases than on epileptic ones.

The Board then considered the following premarital applications which had been approved by the subcommittee: [redacted]

[redacted] and [redacted]. In a motion made by Dr. Inskeep, seconded by Dr. Hunt and carried, the action of the subcommittee on these cases was approved.

The Board discussed the need for revising the various Board of Eugenics forms. The Acting President appointed a committee (consisting of Dr. Hill, Dr. Bates, and Mr. Lister) to study these forms and present their recommended revisions at the next meeting.

The following case was presented by Dr. Bates, Oregon State Hospital:

██████████ age 27; diagnosis, dementia praecox; I.Q., 76; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Dr. Burkes, seconded by Dr. Hunt and carried.

The following cases were presented by Dr. Hill, Oregon Fairview Home:

██████████ age 17; diagnosis, feeble-minded; I.Q., 50; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Dr. Burkes, seconded by Mr. Riggs and carried.

██████████ age 21; diagnosis, feeble-minded; I.Q., 59; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Dr. Hunt, seconded by Dr. Wherry and carried.

██████████ age 17; diagnosis, feeble-minded; I.Q., 63; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Dr. Wherry, seconded by Mr. Riggs and carried.

██████████ age 17; diagnosis, feeble-minded; I.Q., 80; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Dr. Burkes, seconded by Dr. Wherry and carried.

██████████ age 17; diagnosis, feeble-minded; I.Q., 51; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Dr. Burkes, seconded by Dr. Hunt and carried.

██████████ age 23; diagnosis, feeble-minded; I.Q., 59; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Dr. Burkes, seconded by Mr. Riggs and carried.

██████████ age 11; diagnosis, feeble-minded; recommended operation, resection of fallopian tubes. Action was tabled on this case, but it was recommended that the patient should be brought before the Board again prior to being released from the institution.

██████████ age 39; diagnosis, feeble-minded; I.Q., 62; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Dr. Burkes, seconded by Dr. Hunt and carried.

██████████ age 16; diagnosis, feeble-minded; I.Q., 57; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Dr. Burkes, seconded by Mr. Riggs and carried.

██████████ age 17; diagnosis, feeble-minded; I.Q., 53; recommended operation, vasectomy. The recommended operation was approved in a motion made by Dr. Burkes, seconded by Dr. Hunt and carried.

██████████ age 18; diagnosis, feeble-minded; I.Q., 60; recommended operation, vasectomy. The recommended operation was approved in a motion made by Dr. Wherry, seconded by Mr. Riggs and carried. It was further recommended that the patient not be released from the institution until sterilization has been performed.

██████████ age 35; diagnosis, feeble-minded; I. Q., 52; recommended operation, vasectomy. The recommended operation was approved in a motion made by Dr. Burkes, seconded by Dr. Hunt and carried.

██████████ age 23; diagnosis, feeble-minded; I.Q., 55; recommended operation, vasectomy. The recommended operation was approved in a motion made by Dr. Burkes, seconded by Mr. Riggs and carried.

██████████ age 34; diagnosis, feeble-minded; I.Q., 69; recommended operation, vasectomy. The recommended operation was approved in a motion made by Dr. Burkes, seconded by Dr. Griffith and carried.

██████████ age 33; diagnosis, feeble-minded; I.Q., 52; recommended operation, vasectomy. The recommended operation was approved in a motion made by Dr. Burkes, seconded by Dr. Hunt and carried.

██████████ age 19; diagnosis, feeble-minded; I.Q., 51; recommended operation, vasectomy. The recommended operation was approved in a motion made by Dr. Burkes, seconded by Dr. Wherry and carried.

██████████ age 18, diagnosis, feeble-minded; I.Q., 68; recommended operation, vasectomy. The recommended operation was approved in a motion made by Dr. Wherry, seconded by Dr. Burkes and carried.

██████████ age 19; diagnosis, feeble-minded; I.Q., 51; recommended operation, vasectomy. The recommended operation was approved in a motion made by Dr. Hunt, seconded by Dr. Burkes and carried.

██████████ age 25; diagnosis, feeble-minded; I.Q., 70; recommended operation, castration. The recommended operation was approved in a motion made by Dr. Burkes, seconded by Mr. Riggs and carried.

██████████ age 21; diagnosis, feeble-minded; I.Q., 71; recommended operation, vasectomy. Dr. Hill explained that this patient had been presented to the Board on November 21, 1949, at which time it was recommended that vasectomy not be performed; that he had not made a satisfactory adjustment after he was released from the institution, having been arrested on vagrancy and forgery charges. The recommended operation was approved in a motion made by Dr. Burkes, seconded by Dr. Griffith and carried.

There being no further business to come before the Board, the meeting was adjourned.

Respectfully submitted,

Secretary

The Oregon State Board of Eugenics met at the Oregon Fairview Home, Salem, on May 2, 1952, at 9:30 a.m. Present were:

N. E. Irvine, M.D., President
 L. L. Riggs, B.S., First Vice-President
 L. D. Inskip, M.D., Second Vice-President
 C. E. Hunt, M.D., Member
 O. T. Wherry, D.M.D., Member
 D. C. Burkes, M.D., Member
 Tom H. Dunham, M.D., Member
 Irvin B. Hill, M.D., Member
 C. E. Bates, M.D., Member
 Harold M. Erickson, M.D., Secretary

Mr. H. Lawrence Lister, Legal Consultant, was also present. T. E. Griffith, M.D., Member, was absent.

The meeting was called to order by the President. Minutes of the previous meeting were approved as mailed to the Board members in a motion made by Dr. Wherry, seconded by Mr. Riggs and carried.

The Board considered the case of [redacted] who has plead guilty to contributing to the delinquency of a minor and was being held in the Clackamas County jail. The prisoner had been examined by a psychiatrist, who made the following diagnosis: Psychopathic personality, inadequate type; is incapable of adequate restraint; has become very definitely an alcoholic and cannot be treated. The psychiatrist stated "it could only be recommended that the prisoner be isolated from society in a penal institution, preferably for a very long period of time". After considering the information presented by the psychiatrist, it was the opinion of the Board members that neither sterilization nor castration would make this man an acceptable citizen, and it be recommended to the court that he be kept in an institution. Approval to this action was given in a motion made by Dr. Wherry, seconded by Mr. Riggs and carried.

The Board considered the following premarital applications which had been approved by the subcommittee: [redacted] [redacted] [redacted] and [redacted]. In a motion made by Dr. Inskeep, seconded by Dr. Hill and carried, the action of the subcommittee was approved.

In accordance with the action taken at the last meeting in regard to revising the various Board of Eugenics forms, Dr. Hill discussed the proposed revisions. It was suggested that he prepare drafts of the forms incorporating the proposed revisions, clear them with Mr. Lister, and present them to the Board at the next meeting.

The following cases were presented by Dr. Hill, Oregon Fairview Home:

[redacted] age 18; diagnosis, mentally deficient; I.Q., 46; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Mr. Riggs, seconded by Dr. Burkes and carried:

[redacted] age 15; diagnosis, mentally deficient; I.Q., 62; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion by Dr. Burkes, seconded by Dr. Hunt and carried.

[redacted] age 14; diagnosis, mentally deficient; I.Q., 46, recommended operation was approved in a motion made by Dr. Wherry, seconded by Dr. Burkes and carried. (Recommended operation: resection of fallopian tubes)

[redacted] age 15; diagnosis, mentally deficient; I.Q., 67; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Dr. Inskeep, seconded by Dr. Hunt and carried.

[redacted] age 16; diagnosis, mentally deficient; I.Q., 67; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Dr. Burkes, seconded by Mr. Riggs and carried.

██████████, age 18; diagnosis, mentally deficient; I.Q., 50; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Dr. Dunham, seconded by Dr. Hunt and carried.

██████████, age 17; diagnosis, mentally deficient; I.Q., 50; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Dr. Wherry, seconded by Dr. Inskeep and carried.

██████████, age 36; diagnosis, mentally deficient; I.Q., 47; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Dr. Burkes, seconded by Dr. Wherry and carried.

██████████, age 22; diagnosis, mentally deficient; I.Q., 53; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Dr. Burkes, seconded by Dr. Hunt and carried.

██████████, age 16; diagnosis, mentally deficient; I.Q., 66; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Dr. Inskeep, seconded by Mr. Riggs and carried.

██████████, age 20; diagnosis, mentally deficient; I.Q., 70; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Dr. Burkes, seconded by Dr. Inskeep and carried.

██████████, age 15; diagnosis, mentally deficient; I.Q., 80; recommended operation, vasectomy. The recommended operation was approved in a motion made by Dr. Wherry, seconded by Mr. Riggs and carried.

██████████, age 14; diagnosis, mentally deficient; I.Q., 77; recommended operation, vasectomy. Since this boy has made a very good adjustment in the Home, a motion was made by Dr. Burkes, seconded by Dr. Inskeep and carried, that no action be taken at this time.

██████████, age 15; diagnosis, mentally deficient, I.Q., 73; recommended operation, vasectomy. In a motion made by Dr. Inskeep, seconded by Dr. Wherry and carried, it was recommended that no action be taken at this time and that the boy appear before the Board again in one year.

██████████, age 15; diagnosis, mentally deficient; I.Q., 68; recommended operation, vasectomy. The recommended operation was approved in a motion made by Dr. Burkes, seconded by Dr. Inskeep and carried.

██████████, age 14; diagnosis, mentally deficient; I.Q., 87; recommended operation, vasectomy. In a motion made by Dr. Inskeep, seconded by Dr. Dunham and carried, it was recommended that no action be taken at this time.

██████████, age 15; diagnosis, mentally deficient; I.Q., 62; recommended operation, vasectomy. The recommended operation was approved in a motion made by Dr. Burkes, seconded by Dr. Inskeep and carried.

██████████ age 15; diagnosis, mentally deficient; I.Q., 35; recommended operation, vasectomy. The recommended operation was approved in a motion made by Dr. Wherry, seconded by Mr. Riggs and carried.

██████████ age 33; diagnosis, mentally deficient; I.Q., 72; recommended operation, vasectomy. The recommended operation was approved in a motion made by Dr. Dunham, seconded by Dr. Hunt and carried.

██████████ age 16; diagnosis, mentally deficient; I.Q., 57; recommended operation, vasectomy. The recommended operation was approved in a motion made by Dr. Wherry, seconded by Dr. Hunt and carried.

██████████ age 15; diagnosis, mentally deficient; I.Q., 70; recommended operation, vasectomy. The recommended operation was approved in a motion made by Dr. Burkes, seconded by Dr. Dunham and carried.

██████████ age 15; diagnosis, mentally deficient; I.Q., 66; recommended operation, vasectomy. The recommended operation was approved in a motion made by Dr. Burkes, seconded by Dr. Wherry and carried.

██████████ age 15; diagnosis, mentally deficient; I.Q., 64; recommended operation, vasectomy. The recommended operation was approved in a motion made by Dr. Burkes, seconded by Dr. Wherry and carried.

The following cases were presented by Dr. Bates, Oregon State Hospital:

██████████ age 65; diagnosis, simple adult maladjustment; recommended operation, castration. The recommended operation was approved in a motion made by Dr. Burkes, seconded by Dr. Inskeep and carried.

██████████ age 25; diagnosis, psychoneurosis; I.Q., 73; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Dr. Wherry, seconded by Dr. Inskeep and carried.

██████████ age 28; diagnosis, dementia praecox; I. Q., 74; recommended operation, resection of fallopian tubes. This patient was presented on waiver of appearance. The recommended operation was approved in a motion made by Dr. Burkes, seconded by Mr. Riggs and carried.

██████████ age 21; diagnosis, psychosis; recommended operation, vasectomy. The recommended operation was approved in a motion made by Dr. Burkes, seconded by Dr. Inskeep and carried.

██████████ age 36; diagnosis, Schizophrenic reaction; I.Q., 116; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Dr. Burkes, seconded by Dr. Hunt and carried.

██████████ age 22; diagnosis, Schizophrenic reaction; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Dr. Burkes, seconded by Dr. Wherry and carried.

██████████ age 32; diagnosis, Schizophrenia; I.Q., 98; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Mr. Riggs, seconded by Dr. Dunham and carried.

██████████ age 38; diagnosis, Schizophrenic reaction; I.Q., 94; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Dr. Inskeep, seconded by Dr. Burkes and carried.

██████████ age 32; diagnosis, Schizophrenic reaction; I.Q., 115; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Dr. Burkes, seconded by Mr. Riggs and carried.

██████████ age 27; diagnosis, Schizophrenia; I.Q., 115; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Dr. Burkes, seconded by Mr. Riggs and carried.

██████████ age 38; diagnosis, Schizophrenia; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Dr. Inskeep, seconded by Dr. Wherry and carried.

██████████ age 16; diagnosis, acute brain syndrome associated with intracranial neoplasm - mental deficiency, idiopathic severe; I.Q., 52; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Dr. Wherry, seconded by Dr. Inskeep and carried.

██████████ age 21; diagnosis, Schizophrenic reaction, early catatonic type; I.Q., 94; recommended operation, resection of fallopian tubes. The recommended operation was approved in a motion made by Dr. Burkes, seconded by Dr. Wherry and carried.

There being no further business to come before the Board, the meeting was adjourned.

Respectfully submitted,

Secretary

The Oregon State Board of Eugenics met at the Oregon Fairview Home, Salem, on July 11, 1952, at 10:00 a.m. (D.S.T.). Present were:

N. E. Irvine, M.D., President
 L. L. Riggs, B.S., First Vice-President
 C. E. Hunt, M.D., Member
 O. T. Wherry, D.M.D., Member
 D. C. Burkes, M.D., Member
 T. E. Griffith, M.D., Member
 Tom H. Dunham, M.D., Member
 Irvin B. Hill, M.D., Member
 C. E. Bates, M.D., Member
 Harold M. Erickson, M.D., Secretary

Mr. H. Lawrence Lister, Legal Consultant, was also present. L. D. Inskeep, M.D. Second Vice-President, was absent.

The meeting was called to order by the President. Minutes of the previous meeting were approved as mailed to the Board members in a motion made by Dr. Griffith, seconded by Dr. Hunt and carried.

Dr. Hill presented drafts of the proposed revisions to the Board of Eugenics forms. These were turned over to Mr. Lister for study and will be considered at the next meeting.

The Secretary reviewed the procedure which has been followed in handling sex deviation cases referred by the courts in the interim between Board meetings. A discussion was held as to the advisability of setting up a subcommittee to review the psychiatrist's report and recommendation before forwarding them to the court. In a motion made by Dr. Burkes, seconded by Dr. Dunham and carried, it was recommended that a subcommittee of three be established to review these cases prior to referring them to the court and district attorney, this committee to be composed of Drs. Burkes, Wherry, and Erickson, members of the present subcommittee which considers premarital applications.

The Board considered the case of [REDACTED] a prisoner in the Malheur County jail convicted on a charge of statutory rape. The psychiatrist who made the examination reported that the prisoner's problem is that of chronic alcoholism; that if this could be controlled, either voluntarily or by aid of treatment, the sex deviations would not likely occur. The Secretary pointed out that a letter had been written to the Judge of the Circuit Court, Malheur County, stating it was the opinion of the Board that no special treatment nor procedures are indicated, since the prisoner is a chronic alcoholic and his sex deviation occurs as the result of this. In a motion made by Dr. Dunham, seconded by Dr. Burkes and carried, the action already taken was confirmed.

The Board then considered the case of [REDACTED], an inmate of the Oregon State Penitentiary convicted on a charge of statutory rape. The psychiatrist who made the examination reported that the prisoner might overcome his schisoid tendencies and sexual perversions if treatment facilities were available and a rehabilitation program could be provided; that if these were not possible, the prisoner should be isolated from society, since sterilization would not offer help. After considering the recommendations of the psychiatrist, a motion was made by Dr. Burkes, seconded by Dr. Wherry and carried, that the prisoner should be castrated before being released from the penitentiary.

The Board considered the premarital application of [REDACTED], since the private physician had indicated on the form that she appeared to be feeble-minded. The Secretary stated that [REDACTED] had been requested to appear before the Board at 10:00 a.m. Accordingly, [REDACTED] came into the meeting and was interviewed by Dr. Burkes. She was informed that the Board would consider the matter and would let her know its decision. After discussing the case somewhat, Dr. Burkes made a motion recommending that no license be granted unless sterilization was first performed. Motion seconded by Dr. Wherry and carried. Dr. Burkes informed [REDACTED] of the Board's decision.

The following cases were presented by Dr. Hill, Oregon Fairview Home:

[REDACTED] age 17; diagnosis, mentally deficient; I.Q., 55; recommended operation, vasectomy. Approval was given to the recommended operation in a motion made by Dr. Dunham, seconded by Dr. Wherry and carried.

[REDACTED] age 19; diagnosis, mentally deficient; I.Q., 50; recommended operation, vasectomy. Approval was given to the recommended operation in a motion made by Dr. Wherry, seconded by Dr. Hunt and carried.

██████████ age 15; diagnosis, mentally deficient; I.Q., 51; recommended operation, vasectomy. Approval was given to the recommended operation in a motion made by Dr. Wherry, seconded by Dr. Griffith and carried.

██████████ age 17; diagnosis, mentally deficient; I.Q., 72; recommended operation, vasectomy. Approval was given to the recommended operation in a motion made by Dr. Burkes, seconded by Dr. Dunham and carried.

██████████ age 31; diagnosis, mentally deficient; I.Q., 60; recommended operation, vasectomy. Dr. Hill pointed out that this patient appeared before the Board in October, 1936, but that sterilization was not performed. Approval was given to the recommended operation in a motion made by Dr. Burkes, seconded by Dr. Dunham and carried.

██████████ age 16; diagnosis, mentally deficient; I.Q., 77; recommended operation, vasectomy. Approval was given to the recommended operation in a motion made by Dr. Burkes, seconded by Dr. Griffith and carried.

██████████ age 16; diagnosis, mentally deficient; I.Q., 55; recommended operation, vasectomy. Approval was given to the recommended operation in a motion made by Dr. Burkes, seconded by Dr. Dunham and carried.

██████████ age 17; diagnosis, mentally deficient; I.Q., 72; recommended operation, vasectomy. Approval was given to the recommended operation in a motion made by Dr. Griffith, seconded by Dr. Dunham and carried.

██████████ age 21; diagnosis, mentally deficient; I.Q., 71; recommended operation, vasectomy. Approval was given to the recommended operation in a motion made by Dr. Wherry, seconded by Dr. Hunt and carried.

██████████ age 19; diagnosis, mentally deficient; I.Q., 77; recommended operation, vasectomy. Approval was given to the recommended operation in a motion made by Dr. Wherry, seconded by Dr. Hunt and carried.

██████████ age 18; diagnosis, mentally deficient; I.Q., 50; recommended operation, resection of fallopian tubes. Approval was given to the recommended operation in a motion made by Dr. Wherry, seconded by Dr. Hunt and carried.

██████████ age 15; diagnosis, mentally deficient, I.Q., 55; recommended operation, resection of fallopian tubes. Approval was given to the recommended operation in a motion made by Dr. Burkes, seconded by Dr. Wherry and carried.

██████████ age 15; diagnosis, mentally deficient; I.Q., 40; recommended operation, resection of fallopian tubes. Approval was given to the recommended operation in a motion made by Dr. Burkes, seconded by Dr. Wherry and carried.

██████████ age 16; diagnosis, mentally deficient; I.Q., 56; recommended operation, resection of fallopian tubes. Approval was given to the recommended operation in a motion made by Dr. Griffith, seconded by Dr. Dunham and carried.

age 15; diagnosis, mentally deficient; I.Q., 70; recommended operation, resection of fallopian tubes. Approval was given to the recommended operation in a motion made by Dr. Burkes, seconded by Dr. Dunham and carried.

age 15; diagnosis, mentally deficient; I.Q., 45; recommended operation, resection of fallopian tubes. Approval was given to the recommended operation in a motion made by Dr. Dunham, seconded by Dr. Hunt and carried.

age 19; diagnosis, mentally deficient; I.Q., 82; recommended operation, resection of fallopian tubes. Approval was given to the operation in a motion made by Dr. Burkes, seconded by Dr. Dunham and carried.

age 34; diagnosis, mentally deficient; I.Q., 40; recommended operation, resection of fallopian tubes. Approval was given to the recommended operation in a motion made by Dr. Dunham, seconded by Dr. Hunt and carried.

age 15; diagnosis, mentally deficient; I.Q., 56; recommended operation, resection of fallopian tubes. Approval was given to the recommended operation in a motion made by Dr. Burkes, seconded by Dr. Dunham and carried.

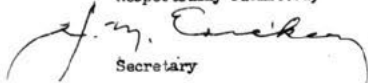

age 17; diagnosis, mentally deficient; I.Q., 50; recommended operation, resection of fallopian tubes. Approval was given to the recommended operation in a motion made by Dr. Burkes, seconded by Dr. Wherry and carried.

The following case was presented by Dr. Bates, Oregon State Hospital:

age 29; diagnosis, schizophrenic reaction; I.Q., 87; recommended operation, resection of fallopian tubes. Approval was given to the recommended operation in a motion made by Dr. Burkes, seconded by Dr. Griffith and carried.

There being no further business to come before the Board, the meeting was adjourned in a motion made by Dr. Dunham, seconded by Dr. Hunt and carried.

Respectfully submitted,

Secretary

The Oregon State Board of Eugenics met in the Conference Room, State Office Building, Portland, on September 6, 1952, at 1:30 p.m. (D.S.T.). Present were:

N. E. Irvine, M.D., President
 L. L. Riggs, B.S., First Vice-President
 C. E. Hunt, M.D., Member
 O. T. Wherry, D.M.D., Member
 D. C. Burkes, M.D., Member
 T. E. Griffith, M.D., Member
 Tom H. Dunham, M.D., Member
 Harold M. Erickson, M.D., Secretary

Mr. H. Lawrence Lister, Legal Consultant, was also present. L. D. Inskip, M.D. Second Vice-President, was absent.

The meeting was called to order by the President. Minutes of the previous meeting were approved as mailed to the Board members in a motion made by Dr. Griffith, seconded by Dr. Hunt and carried.

Mr. Lister reported that he had studied the proposed revisions to the Board of Eugenics forms but stated that he would like to discuss the suggested changes further with Dr. Hill before making any recommendations.

A report was given on the action taken by the subcommittee relative to the case of [redacted] who had pleaded guilty to contributing to the delinquency of a minor. The psychiatrist who made the examination reported that the prisoner was definitely homosexual; that there would be recurrence of these activities if he continued to live in society. The Secretary stated that the subcommittee, after reviewing the findings of the psychiatrist, had directed that a letter be written to the judge of the circuit court recommending that the prisoner be castrated but that the operation not be substituted for any penalties which might be indicated. The action of the subcommittee was confirmed in a motion made by Dr. Burkes, seconded by Dr. Dunham and carried.

The Secretary reported that the subcommittee had approved premarital applications on the following cases: [redacted] [redacted] and [redacted]. The action of the subcommittee was confirmed in a motion made by Dr. Dunham, seconded by Dr. Burkes and carried.

The following cases from the Oregon State Hospital were presented on waiver of appearance:

[redacted] age 25; diagnosis, sexual deviate; I.Q., 69; recommended operation, vasectomy. In a motion made by Dr. Wherry, seconded by Dr. Dunham and carried, approval was given to the recommended operation with a further recommendation that the patient be castrated, since, under the influence of alcohol, he perpetrated a sexual act upon a three-year-old girl.

[redacted] age 34; diagnosis, schizophrenia, catatonic type; I.Q., 93; recommended operation, resection of fallopian tubes. Approval was given to the recommended operation in a motion made by Dr. Burkes, seconded by Dr. Wherry and carried.

[redacted] age 21; diagnosis, sex deviate, sociopathic personality disturbance; I.Q., 75; recommended operation, resection of fallopian tubes. Approval was given to the recommended operation in a motion made by Dr. Burkes, seconded by Dr. Griffith and carried.

[redacted] age 32; diagnosis, dementia praecox (paranoid); I.Q., 109; recommended operation, resection of fallopian tubes. Approval was given to the recommended operation in a motion made by Dr. Burkes, seconded by Dr. Wherry and carried.

[redacted] age 19; diagnosis, dementia praecox, catatonic type; I.Q., 71; recommended operation, resection of fallopian tubes. Approval was given to the recommended operation in a motion made by Dr. Burkes, seconded by Dr. Wherry and carried.

The following case from the University of Oregon Medical School was presented on waiver of appearance:

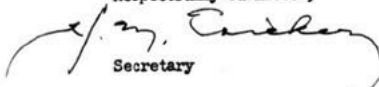

██████████ age 28; diagnosis, idiopathic epilepsy, psychopathic personality; I.Q., borderline; recommended operation, resection of fallopian tubes. Approval was given to the recommended operation in a motion made by Dr. Wherry, seconded by Dr. Dunham and carried.

The following case from the Oregon Fairview Home was presented on waiver of appearance:

██████████ age 29; diagnosis, mentally deficient; recommended operation, vasectomy. This patient had appeared before the Board previously on December 7, 1943, at which time the recommended operation had been approved. Approval was again given in a motion made by Dr. Burkes, seconded by Dr. Wherry and carried.

There being no further business to come before the Board, the meeting was adjourned.

Respectfully submitted,

Secretary

The Oregon State Board of Eugenics met at the Oregon Fairview Home, Salem, on November 7, 1952, at 9:30 a.m. Present were:

L. L. Riggs, B.S., First Vice-President
 L. D. Inskoop, M.D., Second Vice-President
 C. E. Hunt, M.D., Member
 T. E. Griffith, M.D., Member
 Tom H. Dunham, M.D., Member
 Irvin B. Hill, M.D., Member
 C. E. Bates, M.D., Member
 Harold M. Erickson, M.D., Secretary

Mr. H. Lawrence Lister, Legal Consultant, was also present. N. E. Irvine, M.D., President; D. C. Burkes, M.D., Member; and O. T. Wherry, D.M.D., Member, were absent.

The meeting was called to order by the First Vice-President. Minutes of the previous meeting were approved as mailed to the Board members in a motion made by Dr. Griffith, seconded by Dr. Dunham and carried.

The proposed revisions to the Board of Eugenics forms were again discussed. Since Mr. Lister had not as yet had an opportunity to review all of the proposed revisions, it was recommended that he and Dr. Hill confer further on them; that the completely revised forms be mailed to the Board members and be considered at the next meeting.

The Secretary reported that the subcommittee had approved premarital applications on the following cases: ██████████ and ██████████. He further reported that they did not approve the premarital application for ██████████ a parolee from the Oregon State Hospital (ruling having been received from the Attorney General on this case). In a motion made by Dr. Inskoop, seconded by Dr. Griffith

and carried, the action of the subcommittee was confirmed.

The alleged falsification of premarital application by [redacted] was brought to the attention of the Board members. The Secretary stated that a letter had been received from W. P. Goulding, D.O., Corvallis, Oregon, reporting that [redacted] had withheld information regarding his epileptic condition when he was given his premarital examination; that his father, [redacted], evaded a direct answer when questioned regarding his son's condition but that the wife and mother informed the doctor that both [redacted] and [redacted] suffered from epilepsy. The Secretary stated that the matter had been referred to Mr. Lister, who felt that the only thing which could be done would be to report all the facts and circumstances to the district attorney of Benton County for whatever action he deems advisable. However, Mr. Lister felt that the district attorney would probably not take any affirmative action in the case. The matter has also been called to the attention of the Drivers' License Division. The Board considered the facts of the case, and in a motion made by Dr. Inskip, seconded by Dr. Griffith and carried, it was recommended that a copy of Dr. Goulding's letter should be sent to the Secretary of State in order to clear the responsibility of the Board of Eugenics in the matter.

In regard to the [redacted] case, on which the Board had recommended castration at the previous meeting, the Secretary reported that the Circuit Judge of Clackamas County, upon being informed of this action, immediately turned the case over to the State Health Officer for handling in accordance with the law. It was pointed out that since, according to law, Board of Eugenics funds could not be used for this purpose, the matter was discussed with the Attorney General, who gave a verbal opinion authorizing the use of Board of Health funds to finance the surgery and hospitalization of [redacted]. Arrangements were thereby made for Dr. Edward H. McLean, Oregon City, to perform the operation at a cost of \$150.00. A discussion was held on the possibility of amending the Board of Eugenics law to provide for this service, but it was felt that, since this type of situation occurs only occasionally, this would not be advisable. A motion was made by Dr. Inskip, seconded by Dr. Griffith and carried, recommending that funds for this purpose be sought under the State Board of Health budget. It was further recommended that the Secretary secure written confirmation of the Attorney General's opinion authorizing the use of Board of Health funds for this purpose.

The following cases from the Oregon State Hospital were presented by Dr. Bates:

[redacted] age 33; diagnosis, schizophrenia; recommended operation, resection of fallopian tubes. In a motion made by Dr. Hunt, seconded by Dr. Dunham and carried, the recommended operation was approved. (Presented on waiver of appearance.)

[redacted] age 34; diagnosis, schisoid personality; I.Q., 64; recommended operation, resection of fallopian tubes. In a motion made by Dr. Griffith, seconded by Dr. Dunham and carried, the recommended operation was approved.

[redacted] age 19; diagnosis, schizophrenia; I.Q., 95; recommended operation, resection of fallopian tubes. In a motion made by Dr. Inskip, seconded by Dr. Hunt and carried, the recommended operation was approved. (Presented on waiver of appearance.)

██████████ age 32; diagnosis, schizophrenic reaction, paranoid type; I.Q., 131; recommended operation, vasectomy. In a motion made by Dr. Dunham, seconded by Dr. Inskeep and carried, the recommended operation was approved. (Presented on waiver of appearance.)

Dr. Bates then presented the ██████████ case, which had been considered at the previous meeting on waiver of appearance and on which the Board had recommended sterilization by castration. Dr. Bates stated that he had fully explained the operation to the patient, who had consented to have it performed, but that he had brought the patient before the Board in order that he might express his own opinion on the matter. ██████████ was brought into the meeting and explained that he wished to see his parents in order to discuss the operation with them and that he wished to contact the judge regarding the matter. He was informed that this was his privilege; that the Board would go ahead and recommend the operation, if this was agreeable with him, and that in the meantime he could see his parents and correspond with the judge. The patient was satisfied with this arrangement and was excused from the meeting. In a motion made by Dr. Dunham, seconded by Dr. Hunt and carried, the former recommendation of the Board was reaffirmed.

The following case from the Volunteers of America was presented on waiver of appearance:

██████████ age 25; diagnosis, schizophrenia, simple type, I.Q., 88; recommended operation, resection of fallopian tubes. In a motion made by Dr. Hill, seconded by Dr. Dunham and carried, the recommended operation was approved.

The following cases were presented from the Oregon Fairview Home by Dr. Hill:

██████████ age 18; diagnosis, mentally deficient; I.Q., 45; recommended operation, vasectomy. In a motion made by Dr. Griffith, seconded by Dr. Dunham and carried, the recommended operation was approved.

██████████ age 16; diagnosis, mentally deficient; I.Q., 57; recommended operation, resection of fallopian tubes. In a motion made by Dr. Dunham, seconded by Dr. Inskeep and carried, the recommended operation was approved.

██████████ age 16; diagnosis, mentally deficient, I.Q., 63; recommended operation, resection of fallopian tubes. In a motion made by Dr. Griffith, seconded by Dr. Inskeep and carried, the recommended operation was approved.

██████████ age 21; diagnosis, mentally deficient, I.Q., 41; recommended operation, resection of fallopian tubes. In a motion made by Dr. Inskeep, seconded by Dr. Dunham and carried, the recommended operation was approved.

██████████ age 31; diagnosis, mentally deficient; I.Q., 60; recommended operation, resection of fallopian tubes. In a motion made by Dr. Inskeep, seconded by Dr. Dunham and carried, the recommended operation was approved.

A copy of the Budget Justification and Analysis for the Board of Eugenics, 1953-1955 Biennium, was furnished each Board member. It was pointed out that the budget includes an item of 1/4 of the salary of the Public Health Physician and Clerk Stenographer II, Mental Hygiene Program, the balance of which will be paid from

the Board of Health budget; that the request for 1953-55 is approximately the same as the amount appropriated for 1951-53; except that the salaries and wages request is increased while the proposed GOM expenditures are decreased. The budget was approved in a motion made by Dr. Hunt, seconded by Dr. Inskip and carried.

There being no further business to come before the Board, the meeting was adjourned.

Respectfully submitted,

A handwritten signature in cursive script, appearing to read "J. M. Erickson". The signature is written in dark ink and is positioned above the typed name "Secretary".

Secretary

Salem, Oregon
January 11, 1953

1953

Salem, Oregon
January 13, 1953

The Oregon State Board of Eugenics met at the Oregon Fairview Home, Salem, on January 13, 1953, at 9:45 a.m. Present were:

N. E. Irvine, M.D., President
L. L. Riggs, B.S., First Vice-President
O. T. Wherry, D.M.D., Member
T. E. Griffith, M.D., Member
D. C. Burkes, M.D., Member
C. E. Hunt, M.D., Member
Tom H. Dunham, M.D., Member
Irvin B. Hill, M.D., Member
C. E. Bates, M.D., Member
Harold M. Erickson, M.D., Secretary

Mr. H. Lawrence Lister, Legal Consultant, was also present. L. D. Inskip, M.D., Second Vice-President, was absent. The Secretary introduced John H. Waterman, M.D., new Director of the Mental Hygiene Section.

The meeting was called to order by the President. Minutes of the previous meeting were approved as mailed to the Board members in a motion made by Dr. Griffith, seconded by Dr. Wherry and carried.

A discussion was held on the matter of reconsidering cases on which considerable time had elapsed between approval by the Board of Eugenics and actual sterilization of the patient and also on the length of time the forms on such cases should be retained in our files. In a motion made by Dr. Wherry, seconded by Dr. Hunt and carried, it was recommended that the action of the Board of Eugenics should stand for five years, after which time the forms should be cleared from the files; that the institution which referred the individual should be informed of this action. In addition, it was agreed that if any of the conditions changed from those originally reported to the Board within this five-year period, the matter should be presented again.

The Board considered the case of [REDACTED] sixty-four years of age, who had pleaded guilty to contributing to the delinquency of a minor (involving two small girls) and is confined in the Clackamas County Jail. The case had been referred to the Board of Eugenics by the District Attorney of Clackamas County

in accordance with the law. Dr. Waterman reported that the psychiatrist who examined the prisoner did not recommend sterilisation but did recommend very careful supervision, probably on an institutional level. In a motion made by Dr. Burkes, seconded by Dr. Hill and carried, it was recommended that the Board concur in the psychiatrist's recommendation and that the case be referred back to the court for disposition.

Mr. Lister stated that he had reviewed the modified Board of Eugenics forms, which he feels will be more useful and acceptable, and suggested that the present forms be changed accordingly. In a motion made by Dr. Hill, seconded by Dr. Hunt and carried, it was recommended that the modified forms, as approved by Mr. Lister, be adopted and that a supply of these be printed.

Dr. Waterman reported that the subcommittee had approved premarital applications on the following cases: [REDACTED], [REDACTED], and [REDACTED]. In a motion made by Mr. Riggs, seconded by Dr. Griffith and carried, the action of the subcommittee was confirmed.

The following cases from the Oregon Fairview Home were presented by Dr. Hill:

[REDACTED] age 29; diagnosis, mentally deficient; I.Q., 73; recommended operation, vasectomy. In a motion made by Dr. Wherry, seconded by Dr. Burkes and carried, the recommended operation was approved. (Case presented on waiver of appearance.)

[REDACTED] age 17; diagnosis, mentally deficient; I.Q., 57; recommended operation, vasectomy. In a motion made by Dr. Burkes, seconded by Dr. Wherry and carried, the recommended operation was approved.

[REDACTED] age 16; diagnosis, mentally deficient, I.Q., 66; recommended operation, vasectomy. In a motion made by Dr. Burkes, seconded by Dr. Hunt and carried, the recommended operation was approved.

[REDACTED] age 18; diagnosis, mentally deficient; I.Q., 65; recommended operation, vasectomy. In a motion made by Dr. Hunt, seconded by Dr. Burkes and carried, the recommended operation was approved.

[REDACTED] age 16; diagnosis, mentally deficient; I.Q., 50; recommended operation, vasectomy. In a motion made by Mr. Riggs, seconded by Dr. Burkes and carried, the recommended operation was approved.

[REDACTED] age 13; diagnosis, mentally deficient; I.Q., 57; recommended operation, resection of fallopian tubes. In a motion made by Dr. Wherry, seconded by Dr. Hunt and carried, the recommended operation was approved.

[REDACTED] age 25; diagnosis, mentally deficient; I. Q., 50; recommended operation, resection of fallopian tubes. In a motion made by Dr. Wherry, seconded by Dr. Dunham and carried, the recommended operation was approved.

The following cases from the Oregon State Hospital were presented by Dr. Bates:

[REDACTED] age 58; sociopathic personality, sexual deviation (the patient denied the charge of molesting little girls);

I.Q., 106; recommended operation, castration. Dr. Bates pointed out that, in the majority of these cases, it was felt that this type of operation would decrease the sexual drive. In a motion made by Dr. Burkes, seconded by Mr. Riggs and carried, the recommended operation was approved.

██████████ age 30; diagnosis, chronic brain syndrome, epilepsy; recommended operation, resection of fallopian tubes. In a motion made by Dr. Burkes, seconded by Dr. Griffith and carried, the recommended operation was approved. (Case presented on waiver of appearance.)

██████████ age 31; diagnosis, mentally deficient; recommended operation, resection of fallopian tubes. In a motion made by Dr. Burkes, seconded by Dr. Hunt and carried, the recommended operation was approved.

██████████ age 27; diagnosis, schizophrenia; I.Q., 53; recommended operation, resection of fallopian tubes. In a motion made by Dr. Burkes, seconded by Dr. Hunt and carried, the recommended operation was approved.

██████████ age 20; diagnosis, epileptic deterioration; I.Q., 72; recommended operation, vasectomy. In a motion made by Dr. Burkes, seconded by Dr. Hill and carried, the recommended operation was approved.

██████████ age 28; diagnosis, schizophrenic reaction, paranoid type; recommended operation, resection of fallopian tubes. In a motion made by Dr. Burkes, seconded by Dr. Griffith and carried, the recommended operation was approved.

Dr. Waterman discussed a letter which had been received from E. O. Muhs, M.D., Prison Physician, regarding sterilization of an inmate of the Oregon State Prison. It was agreed that this was no concern of the Board of Eugenics and should be handled on an individual basis. This decision was acceptable to Dr. Muhs.

There being no further business to come before the Board, the meeting was adjourned.

Respectfully submitted,

Secretary

STATE OF OREGON

STATEMENT OF COMPLIANCE

I hereby certify that the fine grain film on which the above documents are taken is the slow burning cellulose acetate type, known as safety film and identified by the manufacturer's mark of the word "safety" followed by a small solid triangle printed at intervals along the edge of the film, and which the manufacturer states does not contain more than 0.15 percent nitrogen as cellulose nitrate. In processing this film, it was developed by use of the usual organic developing agents such as "Metol", hydroquinone, glycin, etc., compounded to produce a silver image essentially black. Developers producing stained or colored images have not been used. The film has been fixed in sodium thiosulphate, no fixing bath containing ammonium thiosulphate was used. The hypo (sodium thiosulphate) content of the processed film after washing does not exceed 0.005 mg per square inch of film. No intensification or reduction of the developed image was attempted in the processing of this film. All tests of this film were made according to methods and standards recommended by the National Bureau of Standards.
