DESCRIPTION

The Azul Oro porcelain series is inspired by a natural stone quarried in Turkiye. It is known for its distinctive blue-grey color interlaced with copper-toned veins. Also, thanks to the application of "Custom Vein Technology" a supremely natural realistic look is achieved through the synchronized bas-relief effect indenting the veins.

Azul Oro is available in 129" x 64" and is completed with the ultrathin. Thanks to this variety of formats and thicknesses, Blue Roma is a hugely versatile collection, which makes it an excellent option for use on countertops, floors, walls and other décor projects.
