### Determination of Guardianship Assistance Payments and Medical Benefits

(1) The guardianship assistance benefits are negotiated when a guardianship assistance application is approved by the Department's Adoption and Guardianship program. The total amount of the guardianship assistance payment may not exceed the amount of the base foster care rate the child is eligible to receive while in foster care and, when applicable, the current level of care payment for enhanced supervision as determined by a CANS screening under Child Welfare Policy I-E.5.1, "Payment for Foster Care Base Rate, Chafee Housing, and Independent Living Housing Subsidy" OAR 413-090-0000 to 413-090-0050.

(2) The base guardianship assistance payment for a child residing outside of the State of Oregon may not exceed the base foster care rate determined by Child Welfare Policy I E.5.1, "Payment for Foster Care Base Rate, Level of Care, Chafee Housing, and Independent Living Housing Subsidy" OAR 413-090-0000 to 413-090-0050.

(3) The base guardianship assistance payment is determined by negotiation between the Adoption and Guardianship program and the prospective guardian prior to the completion of the Guardianship Assistance Agreement. The payment is established and paid as follows:

(a) The monthly guardianship assistance negotiation takes into consideration relevant factors which include, but are not limited to:

(A) The needs of the child;

(B) The services required to meet the needs of the child;

(C) The cost of the services required to meet the needs of the child;

(D) The guardian's ability to provide the services required to meet the needs of the child; and

(E) The community resources available to the child and guardian.

(b) Medicaid coverage, private insurance, public education, and all community resources must be considered as resources for the child and the guardian when determining the amount of the guardianship assistance payment.

(c) The Department considers all sources of income, except child support and tribal dividend payments, available to the child when negotiating the monthly guardianship assistance payment.

(4) The guardianship assistance payment must be reduced by other financial benefits received by the child with the exception of child support and tribal dividend payments.

(5) When the child is receiving a level of care payment, as indicated by a Child and Adolescent Needs and Strengths (CANS) screening under Child Welfare Policy I-E.5.1, "Payment for Foster Care Base Rate, Level of Care, Chafee Housing, and Independent Living Housing Subsidy" OAR 413-090-0000 to 413-090-0050, at the time of negotiation, the full amount of the level of care payment is provided as part of the guardianship assistance payment.

(6) The Department may complete a CANS screening for a child residing outside the State of Oregon as part of the determination of the guardianship assistance payment.

(7) Except for child support and tribal dividend payments, the guardian must be the designated payee for any benefit the child receives, such as social security benefits.

(8) The guardianship assistance payment is contingent upon the guardian's continued compliance with the requirements of the Department of Justice, Division of Child Support under OAR 413-070-0925(4).

(9) The guardianship assistance payment begins when:

# ADMINISTRATIVE RULES

- (a) All parties have signed the Guardianship Assistance Agreement; and
- (b) The court has issued an order of guardianship.

(10) A guardianship assistance payment to a guardian who was a Department certified foster parent for the child prior to becoming a court designated guardian is inalienable, not assignable or transferable, and exempt from execution, levy, attachment, garnishment, and other legal process under the laws of Oregon, as long as the payment can be identified as a Guardianship Assistance program payment and is kept separate from other money in the guardian's possession.

(11) A child eligible for guardianship assistance with a relative caretaker is eligible for medical benefits in the child's state of residence. If a child is eligible for guardianship assistance, resides in a state other than Oregon with a non-relative guardian, and is not able to obtain medical benefits in his or her state of residence the Department provides medical benefits under Child Welfare Policy I-E.6.2, "Title XIX and General Assistance Medical Eligibility" OAR 413-100-0400 to 413-100-0610.

(4) If a contested case notice was sent by regular mail, and the party or party's representative indicates that neither the party nor the party's representative received or had actual knowledge of the contested case notice, the Department must advise the party or party's representative of the right to request a hearing under section (5) of this rule.

### Notice

(1) When the Department takes any of the actions described in OAR 413-010-0500(2), the Department issues a written notice as described in OAR 137-003-0505 to the person that has the right to a contested case hearing.

(2) In addition to the information required by OAR 137-003-0505, when the Department takes any of the actions described in OAR 413-010-0500(2)(a)-(c), the written notice also must:

(a) Specify the date the notice is mailed or personally delivered;

(b) Specify the action the Department intends to take and the effective date of the action. If benefits are reduced or closed to reflect cost-of-living adjustments in benefits or other mass change under a program operated by a federal agency or to reflect a mass change to payments in another program operated by the Department, it is sufficient to meet this requirement that the notice state all of the following:

(A) The general nature of the change.

(B) Examples of how the change affects the benefits of the group of affected clients.

(C) The month in which the change will take place.

(c) Specify the circumstances under which payments or benefits are continued if a hearing is requested and whether continued benefits may be subject to recovery by the Department if the Department's action is upheld; and

(d) If the Department intends to terminate benefits or payments because the individual is ineligible for the benefits or payments or the program is terminated, state that the individual may reapply for assistance if circumstances affecting the eligibility of the individual change.

(3) Department notices indicate that the Department designates the record of the proceeding, including information in the Department's file or files and materials added by a party, as the record upon default. The Department's notice becomes a final order:

(a) The day after the date prescribed in the notice as the deadline for requesting the hearing if the party fails to request a hearing; or

(b) The day the Department or OAH mails an order dismissing the hearing request because the party withdraws the request or fails to appear on the date and at the time set for the hearing.

(4) When the Department terminates or reduces benefits or services under subsections (2)(a) to (2)(c) of OAR 413-010-0500, the Department must send the notice:

(a) At least 10 calendar days before the effective date of the action, except as provided in subsection (b) of this section.

(b) When the Department changes a benefit standard that results in the reduction, suspension or closure of a grant of public assistance:

(A) At least 30 days before the effective date of the action; or

(B) At least 10 working days before the effective date of the action when the Department has fewer than 60 days before the effective date to implement the proposed change.

(c) For purposes of this rule, the term "changes a benefit standard" means a change to the applicable inflation-adjusted contribution, income, or payment standard. It does not include the annual adjustment to a standard based on a federal or state inflation rate.

Continuing benefits are not available to maintain benefits or services at a level for which the only issues in the contested case hearing are issues of state or federal law or policy or change in state or federal law or policy.

(2) To be entitled to continuing benefits under section (1) of this rule:

(a) When a Department hearing request form gives a party choice of whether or not to receive continuing benefits, the party must indicate that the party wants continuing benefits on the hearing request form received by the Department; and

(b) If the notice indicates that the Department is setting as the deadline to request continuing benefits the date the Department intends to terminate or reduce services, the Department must receive the completed hearing request by that deadline.

(3) To the extent the Department's action is sustained by the final order, a dismissal of the hearing request, or the withdrawal of a hearing request by the party, the Department may institute recovery procedures to recoup the cost of any continuing or reinstated benefits to the extent they were furnished solely by reason of this rule.

**Subject:** These rules about payments to foster parents and relative caregivers eligible to receive assistance on behalf of an eligible child and eligible young adults for housing assistance are being adopted, amended, and repealed because the Department is redesigning the rates and structures for these payments (rate redesign). These rules set the requirements and responsibilities for the Department and foster parents and relative caregivers of an eligible child or young adult around assistance payments, payment structure, eligibility requirements for enhanced supervision and personal care services payments, and housing subsidy payments. These rules also are being amended, adopted, and repealed so that the Department will be in compliance with federal requirements and timelines in response to a federal audit, to clarify the use of Title XIX personal care services payments, to comply with federal requirements regarding case planning and length of time a child can be away from a substitute care placement while the payment continues, and to implement the new payment structure for foster care maintenance payments when a child is in a home certified by the Department. These rules also clarify Department responsibilities for monitoring the safety of a child who needs enhanced supervision. These rule changes make permanent rule changes made through the temporary rulemaking process on July 1, 2009, August 12, 2009, and September 1, 2009.

### Developing a Supervision Plan

(1) After the caseworker has reviewed a CANS screening results form that indicates a level of care, the caseworker must:

(a) Contact the certified family to explain the identified needs and the supervision requirements necessary to maintain the safety and support the well-being of the child or young adult; and

(b) During a meeting with the certified family, the child or young adult, as appropriate, and others who may participate in a supervision plan, develop a supervision plan that meets the supervision needs of the child or young adult when the results of the CANS screening indicate a level of care.

(A) Level 1 (moderate needs) means the certified family must provide an environment with the additional support, direction, observation, and guidance from the certified family to ensure a child or young adult's safety and well-being, beyond the level of supervision that typically is required for a child or young adult of the same age.

(B) Level 2 (intermediate needs) means the certified family must provide a structured environment, additional support, direction, observation, and guidance to ensure a child or young adult's safety and well-being, beyond the level of supervision that typically is required for a child or young adult of the same age.

(C) Level 3 (advanced needs) means the certified family must provide a highly structured environment, additional support, direction, observation, and guidance to ensure a child or young adult's safety and well-being, beyond the level of supervision that typically is required for a child or young adult of the same age.

(2) The supervision plan must include:

(a) The supervision actions or activities that are to be provided by the certified family and other individuals to meet the child or young adult's identified needs, such as proactive use of space, routine, structure of the environment, positive reinforcement, and de-escalation techniques;

(b) The actions and assistance the Department is to provide to support the certified family in addressing the needs of the child or young adult and maintaining the child or young adult in the home;

(c) The actions the child or young adult is to take to support the supervision plan;

(d) The persons responsible for monitoring the child or young adult's supervision needs and supervision actions and activities;

(e) How the persons responsible for monitoring the supervision plan are to communicate with each other; and

(f) When the supervision plan is to be reviewed, which must be at the next face-to-face contact with the certified family described in OAR 413-080-0059(1)(c) after the date the supervision plan is signed by the caseworker and the certified family.

(3) The supervision plan must be signed by:

(a) The caseworker and the certified family; and

(b) The child or young adult, if able, and other individuals who are to provide specific actions or activities in the supervision plan.

(4) The supervision plan must be approved by the caseworker's supervisor.

(5) Before a supervision plan may include physical restraint as a supervision action or activity:

(a) The certified family must have completed the physical restraint training requirements described in OAR 413-020-0255;

(b) The certified family must agree to document each use of physical restraint in writing on a Physical Restraint Incident Report as soon as reasonably possible after each use; and

(c) The certified family must agree to orally report the circumstances of each physical restraint to the caseworker or the caseworker's supervisor within one business day and submit the Physical Restraint Incident Report to the caseworker within two business days.

(6) A supervision plan that includes the use of physical restraint as a supervision action and activity must:

(a) Focus on intervention strategies designed to modify a child or young adult's behavior without the need for physical restraint;

(b) Explain that a physical restraint is to be used only when the child or young adult's behavior poses an imminent danger to self or others, and when no alternate actions are sufficient to stop a child or young adult's behavior; and

(c) Be approved by the Child Welfare program manager.

(7) The caseworker must provide a copy of the signed supervision plan to the certified family, provide a copy to the certified family's certifier, and file a copy in the child or young adult's case file.

(8) The caseworker must summarize the supervision plan in the Department's information system in the child or young adult's case notes and in the provider notes.

### Use of Physical Restraint

(1) A physical restraint may only be used if the behavior of a child or young adult places the child or young adult or others in imminent risk of harm, and only if good judgment indicates that a physical restraint may safely be implemented.

(a) The certified family may use a physical restraint under the circumstances described in this section even if:

(A) The certified family has not attended Behavior and Crisis Management Training; or

(B) The child or young adult does not have a supervision plan.

(b) Physical restraint must be implemented with the least force necessary to prevent the risk of harm to self or others and should end as soon as the risk of harm no longer exists.

(2) Any time a physical restraint is used, the certified family must:

(a) Document the use of the physical restraint in writing on a Physical Restraint Incident Report as soon as reasonably possible after the incident;

(b) Report the circumstances of the physical restraint to the caseworker or the caseworker's supervisor within one business day; and

(c) Submit the written documentation of the circumstances of each physical restraint to the caseworker within two business days.

(3) If the behavior of a child or young adult places the child or young adult or others in imminent risk of harm, and good judgment indicates that a physical restraint cannot be implemented, the certified family must call the local law enforcement agency to request intervention. The certified family must:

(a) Orally report the incident to the caseworker and the caseworker's supervisor as soon as reasonably possible; and

(b) Document the incident in writing on a Physical Restraint Incident Report and submit written documentation to the caseworker within two business days.

(4) If the child or young adult is injured during the incident, whether or not a physical restraint is used, the certified family immediately must notify the Department's emergency 24-hour contact.

(5) Mechanical restraint or seclusion of a child or young adult is prohibited in an emergency or at any other time. For the purposes of this rule:

(a) "Mechanical restraint" means the use of any physical device to involuntarily restrain the movement of all or a portion of a child's body as a means of controlling his or her physical activities in order to protect the child or other persons from injury. Mechanical restraint does not apply to movement restrictions stemming from medicinal, dental, diagnostic, or surgical procedures which are based on widely accepted, clinically appropriate methods of treatment by qualified professionals operating within the scope of their licensure.

(b) "Seclusion" means the involuntary confinement of a child alone in a specifically designed room from which the child is physically prevented from leaving.

### Responsibilities in Monitoring a Child or Young Adult's Supervision Needs

(1) During each face-to-face contact described in OAR 413-080-0059, the caseworker must determine:

(a) Whether the certified family is meeting the supervision needs of the child or young adult;

(b) Whether the supervision needs of the child or young adult have changed.

(2) If the supervision needs of the child or young adult are not being met, the caseworker must assess the safety of the child or young adult as required by OAR 413-080-0059(2)(b).

(3) If, after assessing the safety of the child or young adult, the caseworker determines that the child or young adult currently is safe in the home but his or her supervision needs are not being met, the caseworker must:

(a) Consult with the certifier or the certifier's supervisor to determine if available resources or training are able to provide the additional support the certified family may need to meet the child or young adult's supervision needs;

(b) Review the supervision plan to determine whether the plan needs to be revised or, if a supervision plan is not in place, determine whether a supervision plan needs to be developed as outlined in OAR 413-020-0233; and

(c) Meet with the certified family to revise or develop a supervision plan according to OAR 413-020-0236 or, if the caseworker determines that a supervision plan is not necessary, to discuss the supervision requirements necessary to meet the child or young adult's needs or additional resources available to the certified family.

(4) When there is a current supervision plan, the caseworker must:

(a) Review the supervision plan within the timeline agreed to in the plan;

(b) Assess the effectiveness of the supervision actions and activities provided by the certified family in meeting the child or young adult's supervision needs; and

(c) Continue, end, or revise the supervision plan as appropriate.

(A) The supervision plan may end when the plan successfully has reduced or eliminated the need for enhanced supervision and the child or young adult is no longer exhibiting the supervision needs identified in the CANS screening results.

(B) The supervision plan must be revised when additional supervision actions or activities are needed to meet the child or young adult's supervision needs. The caseworker must follow OAR 413-020-0236 when revising a supervision plan.

(5) If the supervision needs of the child or young adult have changed, the caseworker must determine whether a new CANS screening is required, as provided in OAR 413-020-0230(2).

### Training and the Planned Use of Physical Restraint

(1) The Department has approved Behavior and Crisis Management Training as the standard training curriculum for any certified family who requires training on crisis management and the use of physical restraint. The training curriculum focuses on strengthening a certified family's supervision skills and instructs the certified family in the use of a physical restraint as a supervision action.

(2) When a supervision plan includes the planned use of physical restraint the caseworker must consult with the certifier to confirm that the certified family has completed Behavior and Crisis Management Training prior to the implementation of a supervision plan that includes the use of physical restraint as a supervision action or activity.

(3) A foster care coordinator or designee may approve comparable behavior and crisis management training obtained by a certified family for a specific child or young adult in place of Behavior and Crisis Management Training if:

(a) The training was selected by a school district and used in the school; or

(b) The training was approved by the Department of Human Services, Addictions and Mental Health Division and used in a Children's Intensive Mental Health Treatment Services program.

## 413-040-0005

### Definitions

The following definitions apply to OAR 413-040-0000 to 413-040-0032:

(1) "Action agreement" means a written document between the Department and a parent or legal guardian that identifies one or more of the services or activities provided by the Department or other community partners, in which the parent or legal guardian will participate to achieve an expected outcome.

(2) "CANS screening" means Child and Adolescent Needs and Strengths screening, a process of integrating information on a child or young adult's needs and strengths for the purposes of case planning, service planning, and determining the supervision needs of the child or young adult. The Department uses two versions of the CANS Comprehensive Screening Tool, one version for an individual birth through five years old and another version for an individual six through twenty years old.

(3) "Case plan" means a written goal oriented, time limited individualized plan for the child and the child's family, developed by the Department and the parents or legal guardians, to achieve the child's safety, permanency, and well-being.

(4) "Child" means a person under 18 years of age.

(5) "Concurrent permanent plan" means the alternate permanency plan whenever the child has been placed in substitute care when the goal of the permanency plan is to return the child to the parents. The concurrent permanent plan is developed simultaneously with the plan to return the child to the parents or legal guardians.

(6) "Conditions for return" mean a written statement of the specific behaviors, conditions, or circumstances that must exist within a child's home before a child can safely return and remain in the home with an in-home ongoing safety plan.

(7) "Department" means the Department of Human Services, Child Welfare.

(8) "Expected outcome" means an observable, sustained change in a parent or legal guardian's behavior, condition, or circumstance that, when accomplished, will increase a parent or legal guardian's protective capacity and reduce or eliminate an identified safety threat, and which, when accomplished, will no longer require Child Welfare intervention to manage a child's safety. It is a desired end result and takes effort to achieve.

(9) "Expert evaluation" means a written assessment prepared by a professional with specialized knowledge of a particular subject matter such as physical health, psychological health, mental health, sexual deviancy, substance abuse, and domestic violence. The assessment provides information regarding an individual's functioning in the area of the professional's specialized knowledge, and when the expert is evaluating a parent or legal guardian, whether the individual's functioning impacts his or her protective capacity.

(10) "Family member" means any person related to the child by blood, marriage, or adoption, including, but not limited to the parents, grandparents, stepparents, aunts, uncles, sisters, brothers, cousins, or great-grandparents. Family member also includes the registered domestic partner of a person related to the child, a child 12 years of age or older, and when appropriate, a child younger than 12 years of age. In a case involving an Indian child under the Indian Child Welfare Act (ICWA), a "family member" is defined by the law or custom of the child's tribe.

(11) "Family plan" means a written document developed at the OFDM that includes family recommendations on planning for the child and may include a permanency plan, concurrent permanent plan, placement recommendations, or service recommendations. The family plan also includes expectations of the parents of the child and other family members; services the Department will provide; time lines for implementation of the plan; benefits of compliance with the plan; consequences of noncompliance with the plan; and a schedule of future meetings if appropriate. The family plan described in ORS 417.375(1) is incorporated into the case plan to the extent that it protects the child, builds on family strengths, and is focused on achieving permanency for the child within a reasonable time.

# ADMINISTRATIVE RULES

(12) "Ongoing safety plan" means a documented set of actions or interventions that manage a child's safety after the Department has identified one or more safety threats to which the child is vulnerable and determined the parent or caregiver is unable or unwilling to protect the child. An ongoing safety plan can be in-home or out-of-home and is adjusted when necessary to provide the least intrusive interventions.

(13) "Parent" means the biological or adoptive mother or the legal father of the child. A legal father is a man who has adopted the child or whose paternity has been established or declared under ORS 109.070, ORS 416.400 to 416.465, or by a juvenile court. In cases involving an Indian child under the Indian Child Welfare Act (ICWA), a legal father includes a man who is a father under applicable tribal law. "Parent" also includes a putative father who has demonstrated a direct and significant commitment to the child by assuming or attempting to assume responsibilities normally associated with parenthood unless a court finds that the putative father is not the legal father.

(14) "Permanency plan" means a written course of action for achieving safe and lasting family resources for the child. Although the plan may change as more information becomes available, the goal is to develop safe and permanent family resources with the parents, relatives, or other people who will assume legal responsibility for the child during the remaining years of dependency and be accessible and supportive to the child in adulthood.

(15) "Personal care services" means the provision of or assistance with those functional activities described in OAR 413-090-0120 consisting of mobility, transfers, repositioning, basic personal hygiene, toileting, bowel and bladder care, nutrition, medication management, and delegated nursing tasks that a child or young adult requires for his or her continued well-being.

(16) "Protective capacity" means behavioral, cognitive, and emotional characteristics that can specifically and directly be associated with a person's ability and willingness to care for and keep a child safe.

(17) "Registered domestic partner" means an individual joined in a domestic partnership that has been registered by a county clerk in accordance with the Oregon Family Fairness Act.

(18) "Reunification" means placement with a parent or legal guardian.

(19) "Substitute care" means the out-of-home placement of a child or young adult who is in the legal or physical custody and care of the Department.

(20) "Young adult" means a person aged 18 through 20 years who remains in the care and custody of the Department, and lives in substitute care or lives independently through the Department's Independent Living Subsidy Program.

### Requirements for the Protective Capacity Assessment

(1) The Department uses the protective capacity assessment to engage the child's parents or legal guardians in a collaborative process to:

(a) Examine and understand the behaviors, conditions, or circumstances that made the child unsafe and the parent or legal guardian's strengths that build protective capacity;

(b) Examine and understand how the behavioral, cognitive and emotional characteristics of the parents or legal guardians impact their ability to care for and keep the child safe;

(c) Determine the changes (expected outcomes) in the behaviors, conditions, or circumstances of the parents or legal guardians that will increase protective capacity and reduce or eliminate the identified safety threat; and

(d) Identify services or activities that are likely to achieve the expected outcomes.

(2) Whenever possible, the Department and the parents or legal guardians come to agreement on expected outcomes and the actions, services, and activities to achieve the expected outcomes.

(3) The caseworker must:

(a) Complete the following activities within five days of receipt of the case from the CPS worker:

(A) Review the Child Welfare case history, case documentation, and the actions and decisions of the most recent CPS assessment.

(B) Review the ongoing safety plan by contacting all participants in the safety plan to determine whether the ongoing safety plan assures the safety of the child.

(C) Document the review of the ongoing safety plan in the Department's information system.

(b) Complete the following activities:

(A) Conduct reasonable inquiries for the purpose of identifying individuals who may contribute to the caseworker's understanding of the protective capacity of the parents or legal guardians and the safety of the child. Such individuals may include parents or legal guardians, grandparents, extended family, an Indian child's tribe, and any other family members, persons with significant attachments to the child, other professionals, substitute caregivers, neighbors, and friends of the family. Reasonable inquiries mean, as defined in ORS 417.371(4)(b), efforts that include reviewing the case file for relevant

information, contacting the parents or guardians, and contacting additional sources of information for the purpose of ascertaining the whereabouts of family members, if necessary.

(B) Gather information from these individuals through individual interviews or meetings for the purpose of identifying and understanding the needs, concerns, strengths, and limitations associated with the protective capacity of parents or legal guardians and assessing the impact on the child's safety.

(C) Evaluate the relationship between:

(i) The existing protective capacities of parents or legal guardians that contribute to child safety;

(ii) The diminished protective capacities of parents or legal guardians that must change for the parents or legal guardians to care for and keep the child safe; and

(iii) The parents' or legal guardians' readiness to change.

(D) Whenever possible, collaboratively identify with the parents or legal guardians:

(i) Other family members, persons with significant attachments to the child, community members, and members of an Indian child's tribe who will contribute to and actively participate in the ongoing safety plan or enhancing the protective capacity of the parents or legal guardians; and

(ii) Actions and services that will reduce or eliminate identified safety threats or enhance the protective capacity of the parents or legal guardians.

(E) Inform the parents or legal guardians of the Department's actions and decisions regarding identified safety threats, protective capacity, and the ongoing safety plan.

(F) Enter the findings of the protective capacity assessment, the information obtained by conducting the activities required in paragraphs (A) to (D) of this subsection, in the Department's information system.

(4) The caseworker must include the findings of the protective capacity assessment in the case plan.

### Requirements for a Family Decision-making Meeting

(1) "OFDM" as used in this rule means the family decision-making meeting as defined in ORS 417.365, and is a family-focused intervention facilitated by professional staff that is designed to build and strengthen the natural care giving system for the child. These meetings may include family group conferences, family unity meetings, family mediation, or other professionally recognized interventions that include extended family and rely upon the family to make decisions about planning for its children. The purpose of the family decision-making meeting is to establish a plan that provides for the safety, attachment, and permanency needs of the child. The role of the OFDM is described in ORS 417.365 to 417.375.

(2) When the child has been placed in substitute care for more than 30 days, the Department must consider scheduling an OFDM. When considered appropriate, the meeting is scheduled, whenever possible, between the 30th and 60th day of the out-of-home care placement.

(3) When a decision has been made by the Department and the family to use the OFDM, the Department will conduct and document reasonable inquiries to promptly locate and notify the parents, grandparents, an Indian child's tribe, and any other family member who has had significant, direct contact with the child in the year prior to the substitute care placement. Other participants in the meeting may include the child, if the child is 12 years of age or older, or it is otherwise appropriate to include the child, other professionals, foster parents, neighbors, and friends of the family as appropriate.

(4) Family members or an Indian child's tribe who are located after reasonable inquiries will be notified by the Department of the OFDM in a timely manner to allow them the opportunity to prepare for and attend the meeting.

(5) Other participants will be jointly identified by the parents, legal guardians, Indian custodian of the child, and the Department, and the Department will notify identified participants in a timely manner to allow them the opportunity to prepare for and attend the meeting.

(6) To assist the family in developing the family's plan for the child, the Department must provide participants with information regarding the federal timeline for determining permanency for the child and the Oregon Administrative Rules that govern the sufficiency of a safety plan, conditions for return, and reunification.

(7) The located family members may attend the OFDM unless the other participants determine that a family member may threaten or place other participants at risk. The Department may exclude family members it determines are violent, unpredictable, or abusive or an alleged perpetrator of sexual abuse, domestic violence, or severe physical assault.

(8) Family members who are not invited or allowed to participate may submit written information and recommendations to the caseworker prior to the scheduled meeting concerning the subjects of the OFDM, including concerns regarding the placement of the child, permanency plan, concurrent permanent plan, and services.

(9) During the OFDM, family members will develop a family plan for the child.

# ADMINISTRATIVE RULES

(10) Any family member or tribal representative participating in an OFDM must sign a written acknowledgment of the content of the family plan developed at the meeting and of his or her attendance at the meeting.

(11) The Department will send a copy of the family plan developed at the OFDM within 21 days after the date of the meeting to family participants, including those who participated by submitting written information and recommendations.

(12) The Department will incorporate the family plan developed at the OFDM into the Department's case plan to the extent that the family plan protects the child, builds on family strengths, and focuses on achieving permanency for the child within a reasonable time. If the family's plan developed at the meeting cannot be incorporated into the Department's case plan, the reasons shall be documented in the Department's case plan.

(13) The Department is responsible for confirming that any family plan developed at an OFDM is sufficient to ensure the safety or permanency of the child before implementing a family plan developed at an OFDM.

(2) The conditions for return are documented in the case plan and must describe:

(a) The specific behaviors, conditions, or circumstances that must exist before the Department may develop an in-home ongoing safety plan that assures a child's safety, as described in OAR 413-015-0450(2)(b)(A)(i)-(iii); and

(i) When the child or young adult is in substitute care, the case plan must also include:

(A) Current placement information including:

(8) "Provider" means a person approved by a licensed private child-caring agency to provide care for a child or young adult, or an employee of a licensed private child-caring agency approved to provide care for a child or young adult.

### Identifying and Assessing the Child or Young Adult's Needs when Placement in Substitute Care is Required

(1) To select a substitute care placement that will meet a child or young adult's safety, permanency, and well-being needs, the caseworker must:

(a) Involve the child or young adult's parent or legal guardian in identifying substitute care placement resources whenever possible.

(b) Assess the ability of each potential substitute caregiver to provide safety for the child or young adult.

(c) Assess the potential substitute care placements in the order of preference under OAR 413-070-0220 and 413-070-0320, when the child or young adult is an Indian or refugee child.

(d) Except as provided in subsection (c) of this section, assess the potential substitute care placements in the following order of preference:

(A) A relative of the child or young adult who can be certified by the Department;

(B) A person who has a caregiver relationship with the child or young adult and can be certified by the Department;

(C) An unrelated person to whom the child or young adult has significant attachment or who has significant attachment to the child or young adult, and can be certified by the Department; or

(D) A foster parent who is certified by the Department, or a provider who is certified through a licensed child-caring agency.

(e) Consider the use of a family meeting to seek the family's placement preferences if more than one person requests to have the child placed with them; and

(f) Consider whether the potential substitute care placement --

(A) Has the ability to provide safety for the child or young adult and the siblings when consideration is being given to placing siblings together;

(B) Is willing to cooperate with any restrictions placed on contact between the child or young adult, and others;

(C) Has the ability to prevent anyone from influencing the child or young adult in regard to the allegations of the case;

(D) Has the ability to support the efforts of the Department to implement the permanent plan for the child or young adult; and

(E) Has the ability to meet the child or young adult's physical, emotional, and educational needs, including the child or young adult's need to continue in the same school or educational placement.

(g) Ensure that the substitute care placement is the most home-like, least restrictive available to meet the child or young adult's needs.

(h) Assure that the race, color, or national origin of the child, young adult, or substitute care placement is not a consideration when assessing a substitute care placement.

(2) When a child or young adult is placed in substitute care and has a sibling who is currently in or also needs substitute care, the caseworker must make diligent efforts to place siblings together unless placing the siblings together is not in the best interests of the child or young adult or the child or young adult's sibling and, if the child or young adult is under the jurisdiction of the juvenile court, the juvenile court makes such a finding.

(3) Within 30 days of the child or young adult's placement in a substitute care setting, the caseworker must reconsider whether the substitute caregiver is able to meet the considerations in subsection (1)(f) of this rule and assess whether the substitute caregiver meets the following placement preferences:

(a) Is in close proximity to the child or young adult's parents or legal guardians;

(b) Is in close proximity to the child or young adult's community;

(c) Can keep siblings together; and

(d) Can support the child or young adult's culture and family identity.

(4) When the caseworker determines the substitute care placement does not meet one or more of the placement considerations in subsection (1)(f) or section (3) of this rule, the caseworker must determine whether remaining in the substitute care placement is in the best interests of the child or young adult.

(a) If the caseworker determines that remaining in the current substitute care placement is in the best interests of the child or young adult, the child or young adult should remain in the placement.

(b) If the caseworker determines that remaining in the current substitute care placement is not in the best interests of the child or young adult, the caseworker must work with Department staff to secure another substitute care placement for the child or young adult.

(5) The caseworker must document the section (4) determination in the Department's information system and explain the basis for the determination as it relates to the best interests of the child or young adult.

(b) Develop and maintain a good working relationship with the child or young adult;

(c) Observe the child or young adult in an age-appropriate and comfortable setting;

(d) Gather updated information on the child or young adult's physical and mental health as well as educational, behavioral, and developmental progress;

### Review of the Substitute Care Placement During Case Plan Review

(1) When the child or young adult is in substitute care at the time of each 90 day case plan review, the caseworker must include in the review written documentation of the extent to which the child or young adult's substitute care placement meets the child or young adult's ongoing need for safety, permanency, and well-being.

(a) To determine the extent to which the placement meets the child or young adult's needs for physical and emotional safety, the caseworker must determine whether the following conditions exist in the home.

(A) The substitute caregiver has the skill level or willingness to acquire the skills necessary to meet the physical, emotional and supervisory needs for each child or young adult in the placement;

(B) The substitute caregiver has the skill level to care for the age, number, and gender of the children or young adults currently in the placement;

(C) The behavioral characteristics of children or young adults currently in the placement are such that the substitute caregiver protects the child or young adult from further victimization and from harming self or others;

(D) The substitute caregiver has the ability to protect the child or young adult from inappropriate contact with those who may harm the child or young adult; and

(E) The physical layout of the home permits the substitute caregiver to safely supervise the children or young adults in the home.

(b) To determine the extent to which the placement meets the need of the child or young adult to preserve existing attachment to his or her family, the caseworker must consider whether:

(A) The child or young adult's family has expressed a preference in placement;

(B) The child or young adult has requested a particular placement;

(C) The relative caregiver, foster parent, or provider has demonstrated the ability --

(i) To support the attachment of the child or young adult through visitation and other types of contact with the child or young adult's family;

(ii) To accommodate the placement of the child or young adult's siblings in the substitute caregiver's home;

(iii) To accommodate regular contact between the child or young adult and his or her siblings when the child or young adult is not placed with his or her siblings and regular contact is in the best interests of the child or young adult; and

(iv) To provide mutual care when both the child and parent require placement. As used in this rule, "mutual care" means the out-of-home placement of a parent and child together where one or both are in the legal custody of the Department.

(c) To determine the extent that the placement meets the need of the child or young adult for continuity and familiarity, the caseworker must consider:

(A) The extent of the child or young adult's pre-existing relationship with the relative caregiver, foster parent, or provider;

(B) The proximity of the placement to the child or young adult's neighborhood, school or educational placement, and parent or legal guardian; and

(C) Whether the relative caregiver, foster parent, or provider can provide a permanent home or facilitate transition to a permanent home for the child or young adult.

(d) To determine the extent that a particular placement meets the need of the child or young adult for appropriate educational, developmental, emotional, and physical support, the caseworker must consider:

(A) Whether the relative caregiver, foster parent, or provider demonstrates competency in meeting the child or young adult's specific and unique needs or is acquiring the skills necessary to meet the child or young adult's specific and unique needs;

(B) Whether the ability of the relative caregiver, foster parent, or provider to meet the child or young adult's specific and unique needs is influenced by the number and type of children in the placement; and

(C) Whether the relative caregiver, foster parent, or provider is willing and able to assist with, participate in, and act as an advocate for the child or young adult in his or her education and treatment plan.

(e) To determine the extent to which the placement meets the need of the child or young adult for stability, the caseworker must consider:

(A) Whether the relative caregiver, foster parent, or provider has expressed a desire to provide permanency for a particular child or young adult;

(B) Whether the ability of the relative caregiver, foster parent, or provider to provide support and to nurture the child or young adult is influenced by the number of children or young adults in placement;

(C) Whether the capacity of the relative caregiver, foster parent, or provider to recognize the child or young adult's needs and build on the child or young adult's strengths is sufficient to meet the long-term placement needs of the child or young adult.

(f) To determine whether the placement can support the child or young adult's identity, development, and cultural and religious background, the caseworker must consider:

(A) Whether the relative caregiver, foster parent, or provider has the ability to appreciate, nurture, support, and reinforce the identity and cultural and religious background of the child or young adult;

(B) Whether the relative caregiver, foster parent, or provider has the ability to support the development of the child or young adult, and help the child or young adult with problems that the child or young adult may encounter. (Refer to Child Welfare Policies I-E.2, "Multiethnic Placements" OAR 413-070-0000 to 413-070-0033 and I-E.2.1, "Placement of Indian Children" 413-070-0100 to 413-070-0260);

(C) Whether the relative caregiver, foster parent, or provider has the ability to communicate effectively with the child or young adult; and

(D) Whether the child or young adult has adjusted to the placement.

(2) After making the determinations in section (1) of this rule, the caseworker must document the extent to which the child or young adult's relative caregiver, foster parent, or provider meets the child or young adult's need for safety and well-being and the actions taken when the child or young adult's placement does not meet one or more of the child or young adult's needs:

(a) In the Department's information system at the 90-day case plan review; or

(b) In the case plan (0333a), Child Description, Their Needs and Well Being section, at the six-month case plan review.

### Involving the Substitute Caregiver in the Concurrent Permanency Plan

(B) Whether the parent or legal guardian states that he or she is:

(i) Agreeable to the services in the ongoing safety plan;

(ii) Cooperating in services provided as prescribed by the ongoing safety plan;

(f) The services are the least intrusive available to assure the child's safety.

(4) Whenever a participant in the ongoing safety plan or a safety service provider reports information indicating that there is a new safety threat,

# ADMINISTRATIVE RULES

the caseworker must determine whether the information has been reported to a screener. If the information has not been reported, the caseworker must:

- (a) Immediately report the information to a screener; and
  - (b) Consult with his or her supervisor to determine whether an immediate protective action is required to assure the child's safety.
- (5) The caseworker must determine whether:
- (a) Behaviors, conditions, or circumstances within the family require an increase in the level of safety intervention;
  - (b) A less intrusive ongoing safety plan can assure the safety of the child; or
  - (c) The ongoing safety plan is keeping the child safe and provides the appropriate level of safety intervention.
- (6) If the caseworker determines the level of intervention of the in-home ongoing safety plan must be revised, the caseworker must:
- (a) Reduce the level of intervention whenever --
  - (A) The improved protective capacity of the parent or legal guardian is sufficient to impact his or her ability to control safety threats as they are occurring within the family; and
  - (B) A safety threat can be managed with less intrusive actions or services.

- (b) Increase the level of intervention whenever --
- (A) A parent or legal guardian is unable or unwilling to control the safety threats to the child as they are occurring within the family with the ongoing safety plan; or

- (B) Any identified safety threat cannot be managed with the current ongoing safety plan.

- (c) When the assessment of the behaviors, conditions, or circumstances occurring within the family results in a determination to revise the ongoing safety plan, the revised ongoing safety plan must comply with the criteria of OAR 413-015-0450(2)(d)(A) - (H).

- (d) The revised ongoing safety plan must be approved by the caseworker's supervisor.

- (7) The caseworker must document in the Department's information system:

- (a) The date, type, and location of each contact with the child, parents, or legal guardians;

- (b) The date and type of each contact with each participant in the in-home ongoing safety plan;

- (c) Observations and condition of the child during the home visit;

- (d) Observations and condition of each parent or legal guardian during the home visit;

- (e) Changes in the ability of each parent or legal guardian to parent and provide protective care;

- (f) Observations or reports from ongoing safety plan participants and service providers;

- (g) How the ongoing safety plan continues to manage the safety threats as they are occurring within the family, or any revised ongoing safety plan and the facts supporting that revision;

- (h) How any revision in the ongoing safety plan is the most suitable, least intrusive action available; and

- (i) Any immediate protective action if required to assure the safety of the child.

### Contact Requirements and Exceptions; Required Face-to-Face Contact

(1) The caseworker may make scheduled or unscheduled face-to-face contacts with the child or young adult, parent, legal guardian, certified family or provider.

(2) The caseworker's supervisor may approve and designate a Child Welfare supervisor, the Child Welfare program manager, or another caseworker to make the contact required by these rules (OAR 413-080-0040 to 413-080-0067) when a caseworker's schedule or special circumstances prevent the caseworker from making the contact.

(a) Prior to arranging the required face-to-face contact, the designee must have information regarding the ongoing safety plan, the parents or legal guardians, and the child or young adult, including any special needs of the child or young adult.

(b) The staff person making the contact is responsible for assessing the safety of the child or young adult and completing the contact requirements set forth in these rules (OAR 413-080-0040 to 413-080-0067).

(3) The caseworker's supervisor or the Child Welfare program manager may approve an exception to the requirement of caseworker face-to-face contact with the child or young adult, parent, legal guardian, foster parent, relative caregiver, or provider when:

(a) The safety and well-being of the child or young adult has been confirmed by another responsible adult who has face-to-face contact with the child or young adult and confirms the child or young adult is safe, without a face-to-face contact by the caseworker.

(b) Approval for the exception is documented in the case file, including:

(A) The reason for approval of the exception;

(B) The length of time the exception is in effect, which shall be no longer than 90 days unless the caseworker obtains the approval of the Child Welfare program manager or designee (for purposes of this section, "designee" means a person under the direct and immediate supervision, or a person equal or higher in management position and responsibility to the designator); and

(C) The supervisor or Child Welfare program manager's determination that the child or young adult is safe without the required face-to-face contact.

(c) Reasons for granting an exception to the face-to-face contact requirements include but are not limited to:

(A) The child or young adult is unavailable.

(B) The child or young adult has been placed in a planned permanent living arrangement that has been approved by the court (an exception may be allowed, if appropriate, for face-to-face caseworker contact every 90 days with the child or young adult and the relative caregiver, foster parent, or provider).

(C) The child or young adult has been placed in residential care (an exception may be allowed, if appropriate, for face-to-face caseworker contact with the child or young adult every 60 days).

(D) The parent or legal guardian of the child or young adult is unavailable.

(E) A parent or legal guardian of the child or young adult presents a safety risk to the caseworker or Department staff, which has been documented in the case file.

# ADMINISTRATIVE RULES

(F) A young adult is receiving only Independent Living Services. (An exception may be allowed, when appropriate, for face-to-face contact every 60 days. Face-to-face contact with a young adult confirms the appropriateness of services, not safety.)

(G) A child or young adult is placed in another state through the ICPC. The child or young adult's caseworker must request that officials from the receiving state have face-to-face contact with the child a minimum of once every 30 days to monitor child safety and well-being. If the receiving state declines the caseworker's request for 30 day face-to-face contact, the caseworker must document in the case file the type and level of contact the receiving state will provide and how the contact is sufficient to confirm the child or young adult's safety and well-being. To meet federal standards face-to-face contact must be made at a minimum of once every six months. If the receiving state is unwilling or unable to have face-to-face contact with the child or young adult at least once every six months, a plan must be developed to meet this requirement.

### Eligibility for Payments

(1) Family Foster Care.

(a) The Department reimburses a foster parent or relative caregiver a base rate on behalf of an eligible child or young adult in the Department's physical or legal custody and placed in the foster parent or relative caregiver's home. Payment for the base rate is made on a monthly basis, or prorated for a portion of a month, after the month in which the care has been provided. The reimbursement period includes the day the child or young adult enters the home, but excludes the day the child or young adult leaves the home.

(b) The base rate payment is:

- (A) \$639 per month for a child five years or younger;
- (B) \$728 per month for a child 6 through 12 years of age; and
- (C) \$823 per month for a child or young adult 13 through 20 years of age.

(c) The base rate is designed to reimburse the foster parent or relative caregiver for the costs of providing the child or young adult with the following:

(A) Food — including the cost to cover a child or young adult's special or unique nutritional needs;

(B) Clothing — including purchase and replacement;

(C) Housing — including maintenance of household utilities, furnishings, and equipment;

(D) Daily supervision — including teaching and directing to ensure safety and well-being at a level which is appropriate based on the child or young adult's chronological age;

(E) Personal incidentals — including personal care items, entertainment, reading materials, and miscellaneous items; and

(F) The cost of providing transportation — including local travel associated with expenditure for gas and oil, and vehicle maintenance and repair associated with transportation to and from extracurricular, child care, recreational, and cultural activities.

(2) Shelter care. The Department reimburses a foster parent or relative caregiver a shelter care rate on behalf of an eligible child or young adult during the first 20 days of substitute care after the Department has obtained physical or legal custody of the child or young adult. The daily shelter care payment is:

(a) \$24.60 for a child five years or younger;

(b) \$28.00 for a child 6 through 12 years of age; and

(c) \$31.60 for a child or young adult 13 through 20 years of age.

(3) Enhanced shelter care. The Department reimburses a foster parent or relative caregiver an enhanced shelter care rate on behalf of an eligible child or young adult during the first 20 days of substitute care in the first foster care or relative caregiver home after a child or young adult has resided in a residential treatment placement unless an enhanced supervision level of care has been determined. The daily enhanced shelter care payment is:

(a) \$29.40 for a child five years or younger;

(b) \$33.50 for a child 6 through 12 years of age; and

(c) \$37.90 for a child or young adult 13 through 20 years of age.

(4) Level of care. The Department reimburses a foster parent or relative caregiver on behalf of an eligible child or young adult when the CANS screening results indicate the child or young adult needs enhanced supervision. A CANS screener rates each element of a child or young adult's behavior and functioning through the CANS screening on a scale of zero to three and the ratings determine whether a child or young adult meets the criteria for one of three levels of care. The levels of care are set forth as Exhibit 1. The

# ADMINISTRATIVE RULES

CANS manuals used to conduct the CANS screening are maintained by the Department. The Department maintains the current manuals, DHS 9601 and 9602, on the Department's website: <http://dhsforms.hr.state.or.us/forms/databases/FMPRO>, or, for a hard copy, contact the Office of Safety and Permanency for Children.

- (a) The payment for Level 1 (moderate needs) is \$212 per month.
- (b) The payment for Level 2 (intermediate needs) \$414 per month.
- (c) The payment for Level 3 (advanced needs) is \$850 per month.

(5) The Department reimburses a foster parent or relative caregiver for room and board at the applicable base rate in subsection (1)(b) of this rule for the child of a dependent parent unless the dependent parent receives benefits under programs administered by the Department of Human Services under chapter 461 of the Oregon Administrative Rules or has other means of financial support.

(6) The Department reimburses an eligible individual a Chafee housing or an independent living housing subsidy payment up to a maximum of \$600 per month of eligibility.

(7) Payments prohibited. The Department may not authorize payment for the care of a child or young adult to more than one certified family per day.

(8) A payment by the Department under this rule is inalienable by any assignment or transfer and exempt from execution, levy, attachment, and garnishment under the laws of the state of Oregon.

(5) The responsibilities set forth in section (4) of this rule may be conducted by another medical professional employed by or under contract with the Department when the Personal Care RN Manager is unavailable.

**Subject:** These rules about payments to adoptive parents on behalf of an eligible child are being changed because the Department is redesigning the rates and structures for these payments (rate redesign). These rules, OAR 413-130-0000 to 413-130-0130 set the requirements and responsibilities for the Department and adoptive parents of an eligible child around adoption assistance benefits, including cash payments, medical coverage, an Agreement Only, reimbursement of nonrecurring expenses, and special payments. These rules also are being adopted, amended, and repealed so that the Department will be in compliance with federal requirements and timelines in response to a federal audit, to clarify the use of Title XIX personal care services payments, to comply with federal requirements addressing limitations for reducing adoption assistance payments, and to implement the new payment structure for foster care maintenance payments when a child is in a home certified by the Department. These rules also are being adopted, amended, and repealed to make permanent the temporary rule changes filed effective July 1, 2009.

(1) "Adoption assistance" means financial assistance and medical coverage granted to an adoptive family or pre-adoptive family, on behalf of an eligible adoptive child, to offset the costs associated with adopting and meeting the on-going needs of the child. Adoption assistance may include cash payments, medical coverage, an Agreement Only, reimbursement of nonrecurring expenses, or special payments.

(2) "Adoption assistance agreement" means a written agreement, binding on the parties to the agreement, between the Department and the adoptive family or pre-adoptive family of a minor child.

(3) "Adoption assistance payment" means a payment paid by the Department to the adoptive family or pre-adoptive family on behalf of the adoptive child.

(7) "CANS screening" means the Child and Adolescent Needs and Strength screening, a process of integrating information on a child or young adult's needs and strengths for the purposes of case planning, service planning, and determining the supervision needs of the child or young adult. (12) "Legally free" means that, with respect to a child, the legal rights of all parents with legal standing have been judicially terminated, voluntarily relinquished, or otherwise terminated by operation of law, thus allowing for the child to be adopted.

(13) "Level of care" means the payment for enhanced supervision needs of a child or young adult to a certified family.

(14) "Licensed adoption agency" means an adoption agency licensed by the state of Oregon to place children for adoption, or an adoption agency that holds a license from another state and is authorized under the laws of that state to place children for adoption.

Nonrecurring adoption expenses are the reasonable and necessary adoption fees which may include the cost of a home study, court costs, attorney fees, physical and psychological examinations, travel to visit with the adoptive child prior to the placement, and other expenses which are related directly to the legal adoption of a child with special needs, are not incurred in violation of state or federal law, and have not been reimbursed from other sources or funds.

### Eligibility for Adoption Assistance

A child in the custody of the Department, a tribe with a Title IV-E Agreement, or a licensed adoption agency in Oregon is eligible for adoption assistance when the requirements of all of the following sections are met:

(1) The state has determined that the child cannot or should not be returned to the home of his or her parents. This decision is based on one of the following:

(a) An order from a court of competent jurisdiction terminating parental rights;

(b) The existence of a petition for termination of parental rights;

(c) For a child under the jurisdiction of the court, a signed relinquishment;

(d) For a child not under the jurisdiction of the court, a signed relinquishment and a subsequent court finding signed within six months of the date the child was last living with the parent that it would be contrary to the welfare of the child to return home at that time; or

(e) In the case of an orphan, verification of the death of the parent or parents.

(2) The Department determines the child has special needs, meaning the child has at least one of the following factors or conditions which make adoptive placement difficult to achieve:

# ADMINISTRATIVE RULES

(a) A documented medical, physical, mental, emotional condition or other clinically diagnosed disability, or a documented history of abuse or neglect or other identified predisposing factor that places the child at risk for future problems that need treatment;

(b) Is a member of a sibling group which will be placed together and is difficult to place because there are three or more children, or if in a sibling group of two, at least one of the children is six years of age or older;

(c) Is a member of an ethnic, racial, or cultural minority (such as African American, Hispanic, Asian, Indian, or Pacific Islander); or

(d) Is eight years of age or older.

(3) A reasonable but unsuccessful effort to place the child with an appropriate adoptive family for adoption without assistance has been made, unless such effort is not in the best interests of the child.

(2) A child being adopted by an Oregon resident who is not the responsibility of the Department or an Oregon licensed adoption agency also is eligible for reimbursement of nonrecurring expenses if all other eligibility requirements under OAR 413-130-0020 are met.

### Eligibility for Adoption Assistance Payments

(1) The Department makes efforts to establish Title IV-E eligibility under OAR 413-100-0335 for any child eligible for adoption assistance under OAR 413-130-0020. Licensed adoption agencies must make all requested efforts to assist the Department in establishing Title IV-E eligibility. A child eligible for an adoption assistance payment under OAR 413-130-0020 who is determined ineligible for Title IV-E, is eligible for state-funded adoption assistance.

(2) A child determined eligible for an adoption assistance payment with respect to a prior adoption who becomes available for adoption again and continues to meet the special needs criteria set forth in OAR 413-130-0020, is eligible for an adoption assistance payment in the subsequent adoption when:

(a) The prior adoption has been dissolved, and the parental rights of the adoptive parents have been terminated or relinquished; or

(b) The child's adoptive parents have died.

(3) In addition to the adoption assistance eligibility criteria under OAR 413-130-0020 and section (2) of this rule, a child must meet the following requirements, as applicable:

(a) For adoption through a licensed adoption agency, the child must have been placed voluntarily with the licensed adoption agency in out-of-home care in the month the voluntary agreement was signed.

(b) Judicial Determination Criteria. A "contrary to the welfare" or "best interest" ruling is not required for a child receiving SSI, or for a child whose eligibility is based on a foster care payment being made for the child's minor parent with whom the child is placed, while in foster care. For any other child, a judicial determination that it is "contrary to the welfare of the child to remain in the home" or is in the "best interest of the child to be removed from the home" must be contained in one of the following:

(A) The first court order of removal for a child removed by court order;

(B) A court order signed within six months of the month the child last lived with a specified relative if the child's removal was via parental relinquishment only. Documentation of the date of the signing of the court order is necessary; or

(C) A court order with a finding made within 180 days of the date that the child voluntarily entered care, and signed within six months of the date the child was last living with the parent.

(c) The child must be a United States citizen or a qualified alien pursuant to OAR 413-100-0210(2).

### Child's Immigrant Status

(1) The Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (PRWORA), Public Law 104-193, as amended, limited federal

public benefits to qualified aliens. Adoption assistance under Title IV-E of the Act is considered a federal public benefit for the purposes of the PRWORA and, therefore, limited to U.S. citizens and qualified aliens.

(2) If a substitute caregiver or adoptive parent is not a qualified alien, a child who is otherwise eligible under section 473 of PRWORA must meet the five-year residency requirement to receive Title IV-E adoption assistance as Section 403 of PRWORA requires a qualified alien entering the United States on or after the date of enactment of PRWORA (August 22, 1996), unless excepted, to live in the United States for five years before becoming eligible for certain federal public benefits. In accordance with section 403(c)(2)(F) of PRWORA, however, a federal payment for adoption assistance is excluded from the five-year residency requirement if the child and the foster or adoptive parent with whom the child is placed are qualified aliens under OAR 413-130-0050.

### Availability of New Adoption Assistance and Adoption Assistance Payment Adjustments

(1) The availability of state funds governs the adoption assistance payments which may be obligated. If all available adoption assistance funds are obligated, the Department continues to accept and process new applications and requests for adjustments in adoption assistance payments and establishes a waiting list. Adoption assistance agreements are granted in the order of the date of approval as funds become available. For a new adoption assistance application, an adoptive family is offered the opportunity to sign an Agreement Only to prevent delay in finalizing the adoption.

(2) Substitute care payments end when adoption assistance payments begin. Medical coverage continues until the adoption assistance payment is negotiated, agreements are signed, and adoption assistance benefits begin. Medical coverage as provided by Medicaid may continue as an adoption assistance benefit when requested by the adoptive family or pre-adoptive family.

(3) When a child is legally free for adoption, the Department's local office staff completes the adoption assistance application with the pre-adoptive family and submits the application to the Adoption Program no later than 60 days from the date the pre-adoptive family is selected. No later than 60 days after receipt of the completed adoption assistance application, the Department's Adoption Program staff must begin negotiation of the adoption assistance agreement.

### Agreement Only

(1) An Agreement Only between the Department and the pre-adoptive family or adoptive family is signed when there is no current need for an adoption assistance payment or medical coverage, the adoptive family requests such an agreement, and the child is eligible for adoption assistance under OAR 413-130-0020.

(2) The Agreement Only becomes effective on the date the completed adoption assistance agreement is approved and signed by the Department, and automatically terminates when the child reaches 18 years of age.

(3) The adoptive family must make a written request to the Department to initiate any adoption assistance benefits subsequent to completing an Agreement Only. The adoptive family must provide documentation to the Department describing the child's need for services at the time an adoption assistance benefit is requested as provided in OAR 413-130-0075.

(4) The pre-adoptive family must notify the Department in writing if the family chooses not to accept any form of adoption assistance benefits, including an Agreement Only.

### Determination of the Adoption Assistance Payment

(1) The rate of a monthly adoption assistance payment must be negotiated between the Department and the pre-adoptive family, taking into consideration relevant factors which include, but are not limited to:

(a) The special needs of the child;

(b) The services required to meet the child's special needs;

(c) The cost of the required services for the child;

(d) The family's ability to provide the required services to the child; and

(e) The resources available to the adoptive family and child in the community.

# ADMINISTRATIVE RULES

(2) The adoption assistance payment is negotiated prior to completion of the adoption assistance agreement. The adoption assistance payment may not exceed the foster care base rate the child would receive if he or she continued in substitute care plus, effective September 1, 2009, any applicable level of care payment for enhanced supervision as determined by a CANS screening.

(3) If a child under the age of eight years meets special needs status under OAR 413-130-0020(2) and has no documented medical, physical, mental, or emotional condition, or other clinically diagnosed disability, he or she receives an adoption assistance payment that may not exceed the foster care base rate the child would receive if he or she continued in substitute care, unless the pre-adoptive family enters into an Agreement Only.

(4) An initial adoption assistance payment begins when all of the following criteria are met:

- (a) The child is legally free for adoption;
- (b) The Department or licensed adoption agency has designated the pre-adoptive family as the designated adoptive placement;
- (c) An adoption assistance agreement has been signed by the pre-adoptive family and by the Department representative.

(5) Medicaid coverage, private insurance, public education, and all community resources must be considered as resources for the child and the pre-adoptive family or adoptive family when determining the amount of an adoption assistance payment. A child's income from sources such as Social Security and Veterans benefits are considered in determining the adoption assistance payment, but are not necessarily deducted dollar for dollar from the amount of the adoption assistance payment.

(6) When adoptive parents divorce, legally separate, or are party to a judicially recognized modification of custody, the Department may request updated information, including financial information, to reflect the change in family circumstances.

(7) Within 30 days of receipt of a request from an adoptive parent for change of payee due to a divorce, legal separation, or other judicially recognized modification of custody, the Department must notify the other adoptive parent of the request. It is the responsibility of the requestor to provide the Department with the other adoptive parent's current address and telephone number. Failure to provide such information may cause a delay in processing the request. The adoptive parents have 60 days from the date the Department sends the notice to challenge the change of payee request. If the change of payee is challenged, the Department requires a valid legal document describing physical custody of the child. Any change of payee is determined based on legal documentation describing the physical custody of the child.

(8) An adoptive family who moves out-of-state continues to be eligible for adoption assistance benefits. Medical coverage for the child may change under OAR 413-130-0100.

(9) An adoption assistance payment may be retroactive to the date of the signed adoption assistance application if the child was legally free for adoption and in the designated adoptive placement on that date, and no foster care base rate, enhanced supervision, or personal care services payment was made for the same period.

(10) An adoption assistance payment is issued at the end of each month of eligibility.

(11) An adoption assistance payment made to an adoptive family by the Department is inalienable by any assignment or transfer and exempt from execution, levy, attachment, or garnishment under the laws of this state.

### Renegotiation of an Adoption Assistance Payment

(1) An adoptive family may request an increase of an adoption assistance payment through the Department's adoption assistance coordinator. The request for renegotiation of adoption assistance must be made in writing by the adoptive family and be based on significant change in one or more of the relevant factors set forth in OAR 413-130-0070(1).

(2) Effective September 1, 2009, renegotiation may include the consideration of:

- (a) The results of a CANS screening which is conducted prior to the renegotiation of adoption assistance when the adoptive family requests a payment higher than the child's foster care base rate; and
- (b) The adoptive family demonstrates the child's physical, mental health, behavioral, or developmental needs have worsened or required escalated care and treatment.

(3) A renegotiated adoption assistance payment must be initiated pursuant to OAR 413-130-0070.

(4) A renegotiated adoption assistance payment may not exceed the total foster care base rate plus any applicable enhanced supervision payment that would be paid for the child in substitute care.

(5) When the adoption assistance payment is renegotiated, a new adoption assistance agreement with the revised adoption assistance payment must

be signed by the adoptive family and the Department prior to a change in the payment.

(6) A renegotiated adoption assistance payment becomes effective on the first of the month in which the written request to renegotiate was received by the Department's Adoption Program. In no case may a renegotiated adoption assistance payment be paid for more than 12 retroactive months.

(7) If, after renegotiation, the adoptive family does not agree with the renegotiated adoption assistance payment amount, the adoptive family may appeal the decision as provided in OAR 413-130-0115.

### Payment for Nonrecurring Expenses

(1) The Department may make a one-time payment of up to \$1,500 to a pre-adoptive family for nonrecurring expenses to assist with the costs incurred in legally finalizing the adoption of a special needs child. Nonrecurring expenses for adoption are the reasonable and necessary adoption fees, court costs, attorney fees, mediation costs, and other expenses which are directly related to the legal adoption of a special needs child. Other nonrecurring expenses may include the cost of a home study, health and psychological examinations, travel to visit with the adoptive child prior to the placement, supervision of the placement prior to adoption, and other expenses which are directly related to the legal adoption of a child with special needs, which are not incurred in violation of State or Federal law.

(2) Payment for nonrecurring expenses may not duplicate expenses covered by the Interstate Compact for Placement of Children, a Department contract with a licensed adoption agency, or already covered by some other resource available to the adoptive family.

(3) Documentation of the nonrecurring expenses is required and must be submitted prior to execution of the adoption assistance agreement. The agreement, indicating the nature and amount of the nonrecurring expenses, must be signed prior to the final decree of adoption.

(4) The legal fees, when reimbursement is requested, are included in the nonrecurring expenses. It is the responsibility of the pre-adoptive family to choose a privately retained attorney or enter into a legal fees agreement with a qualified vendor attorney. The Department makes payment directly to the qualified vendor attorney after the adoption is finalized. For privately retained attorneys, the pre-adoptive family is responsible for payment, and after the adoption is finalized the Department will reimburse the family for reasonable charges. Reasonable charges are the current qualified vendor attorney rate, and only in extraordinary circumstances may a higher amount be considered.

(5) Payments for nonrecurring expenses are made when the Department receives the final decree of adoption.

### Special Payments

A special payment may be approved in exceptional cases as negotiated between the Department and the adoptive family. The Department may authorize a special payment for a limited duration, subject to the Department's discretion and availability of resources. An adoptive family making a request for a special payment must make documentation available to the Department when requested. A special payment is made to the adoptive family who then is responsible to reimburse the provider for the services.

### Medical Assistance

(1) An adoptive child who meets the requirements of OAR 413-130-0020 is eligible for Medicaid coverage as provided by the Department of Human Services, Division of Medical Assistance Programs (DMAP) under the requirements of Oregon Health Plan.

(2) An adoptive child for whom Medicaid eligibility has been established is issued a medical identification card through DMAP. Payment for medical services will be in accordance with Department of Human Services administrative rules.

(3) Medical coverage for a Title IV E eligible child is provided by the medical assistance program in the state where the child resides:

(a) If the child is placed outside the adoptive home and is eligible for federal funding through Title IV E or SSI, the state in which the child resides

# ADMINISTRATIVE RULES

will provide medical coverage in accordance with the rules of that state even if the adoptive family resides in a separate state.

(b) If the adoptive family moves to another state or the child is placed for adoption in a state other than Oregon, the Department provides the documentation necessary to assist the adoptive family to obtain Medicaid coverage.

(c) The Department provides written verification of the child's Title IV E eligibility to the appropriate coordinator of the adoption assistance program in the state where the adoptive family is residing to facilitate Medicaid medical coverage.

(4) Medical coverage for a child who is not eligible for Title IV E is provided by DMAP under the rules of the Oregon Health Plan. If the child is placed in another state, or the adoptive family moves from Oregon to another state, the child may continue to receive medical coverage from Oregon, except in those cases where the other state will provide the Medicaid coverage (see section (3) of this rule).

(5) An adoption assistance agreement must be signed by the adoptive family and the Department which documents that the child is eligible for adoption assistance, and that medical coverage has been requested.

### Administration of Approved Adoption Assistance

(1) It is the responsibility of Department and licensed adoption agency staff to:

(a) Notify or advise the pre-adoptive family of the availability of adoption assistance for an eligible child;

(b) Provide the pre-adoptive family with a copy of OAR 413-130-0000 to 413-130-0130; and

(c) Assist the pre-adoptive family in making an application for adoption assistance, if appropriate.

(2) A pre-adoptive family must submit a written application for adoption assistance to the Adoption Program through the family's respective Department local office worker or licensed adoption agency worker.

(3) A pre-adoptive family applying for adoption assistance must be approved by the respective licensed adoption agency as being a suitable adoptive family who meets all state standards including certification standards as provided in Child Welfare Policy I-G.1.1, "Current Caretaker Adoption" OAR 413-120-0500 to 413-120-0550.

(a) A licensed adoption agency recommending adoption assistance for an adoptive family is responsible to verify and document on the adoption assistance application that efforts were made to place the child without adoption assistance.

(b) The Department local office submitting an adoption assistance application must assure that the adoptive placement status has been approved by the Department's Adoption Program.

(4) Prior to the finalization of an adoption and issuance of any benefits, a written adoption assistance agreement must be completed that meets all of the following requirements. The agreement must:

(a) Be signed by each pre-adoptive parent and the Department.

(b) State the duration of the agreement.

(c) State the amount of adoption assistance benefits, if any, and specify:

(A) The amount of the adoption assistance monthly payment, if any; and

(B) The nature and amount of any other payments, services, and assistance to be provided, including nonrecurring expenses.

(d) State that the agreement remains in effect regardless of the state of residence of the pre-adoptive family or adoptive family and the child.

(e) State whether the child is to receive medical benefits, and specify the child's eligibility for Title XIX and Title XX.

(f) State that Oregon Law ORS 192.520 allows the Department of Human Services' Oregon Health Plan (OHP) and OHP managed care plans to exchange the following protected health information without authorization from the pre-adoptive or adoptive parent for the purpose of treatment activities related to behavioral or physical health:

(A) Name and Medicaid recipient number;

(B) Name of the hospital provider or attending physician;

(C) The performing provider's Medicaid number;

(D) Diagnosis;

(E) Each date of service;

(F) Procedure or Revenue code;

(G) The quantity of units or services provided; and

(H) Information about prescription medication and monitoring.

(g) State that the pre-adoptive family or adoptive family has the right to a contested case hearing under Child Welfare Policy I-A.5.2, "Contested Cases" OAR 413-010-0500 to 413-010-0535 for any denial, reduction, or suspension of adoption assistance benefits.

(5) The initial effective date of the adoption assistance agreement is determined by the Department's Adoption Program, taking into consideration the request of the pre-adoptive family and the recommendations of the licensed adoption agency or the Department's local office. The effective date may not be prior to the completion of a signed adoption assistance application, and must be effective no later than the date the adoption is finalized.

(6) Annually, the Department's Adoption Program sends a letter to adoptive families requiring assurance that each child receiving a Title IV-E or non-IV-E adoption assistance payment is a full-time elementary or secondary school student, or is incapable of attending school due to a documented medical condition.

(7) No adoption assistance may be provided to an adoptive parent if the adoptive parent is no longer legally and financially responsible for the support of the child, or the child is no longer receiving support from the adoptive parent. An adoptive parent is considered no longer legally responsible for the support of a child when parental rights have been terminated or when the child becomes an emancipated minor, marries, or enlists in the military.

(8) In the case of an adopted child who becomes legally free for adoption due to the adoptive parent or parents' relinquishment of the child, the termination of the adoptive parent or parents' parental rights to the child, or the death of the adoptive parent or parents, the determination of eligibility of the adopted child for adoption assistance remains based on the eligibility of the child as if the child were in the same financial and other circumstances the child was in the last time the child was determined eligible for adoption assistance benefits. The child must meet special needs criteria under OAR 413-130-0020 at the time the child again becomes available for adoption. (This rule is intended to meet the requirements of Sec. 473 (a)(2)(C) of the Social Security Act, 42 USC 673.)

(9) If a child receiving adoption assistance benefits is placed in substitute care, adoption assistance benefits may be adjusted, continued, or suspended. If the adoptive family is involved in the child's treatment, and the plan is for the child to return home, the family may ask to have the adoption assistance suspended, continued, or adjusted to reflect current expenses. The Department may suspend, continue, or adjust adoption assistance benefits to reflect current expenses. When the child returns to the care of the adoptive family, adoption assistance benefits may be reviewed upon request by the adoptive family.

(10) An adoptive family must immediately inform the Department's Adoption Program when a change in circumstances indicates that there is no longer a need for adoption assistance as provided in OAR 413-130-0110(7).

(11) The Department may terminate the adoption assistance agreement upon 30 days written notice to the adoptive family when the child is no longer in the home, and the adoptive family is no longer providing support for the child.

(12) An adoption assistance agreement automatically terminates, as required by Oregon law, when the child is 18 years old.

### Adoption Assistance Review Committee and Appeals Procedure

(1) The Adoption Assistance Review Committee serves as a consultation and review body for the adoption assistance program.

(a) Adoption Program staff may refer unusual or exceptionally costly benefit requests to the Adoption Assistance Review Committee for consultation; or

(b) If, during negotiations of adoption assistance benefits, Adoption Program staff and the adoptive family or pre-adoptive family are unable to reach agreement, the matter may be referred to the Adoption Assistance Review Committee for review at the request of either Adoption Program staff or the adoptive family or pre-adoptive family.

(2) The adoptive family or pre-adoptive family and the assigned caseworker must provide written documentation for the Committee's consideration.

(3) The caseworker for the pre-adoptive family may participate in an Adoption Assistance Review Committee meeting by phone.

(4) The Adoption Assistance Review Committee reviews relevant materials and provides a recommendation regarding level of benefits to the Department's adoption assistance coordinator. The Adoption Assistance Review Committee takes into consideration the special needs of the child and the financial circumstances of the adoptive family or pre-adoptive family.

(5) If the adoptive family or pre-adoptive family is unsatisfied with the adoption assistance offer made by the Adoption Assistance Review Committee, the family may request further review by the Department's Adoption Program Manager.

(6) Requests for further review must be made in writing and received by the Department's Adoption Program Manager within 14 days from the date of the Adoption Assistance Review Committee recommendation.

# ADMINISTRATIVE RULES

(7) The Adoption Program Manager reviews the material and makes a decision within 60 days from the date of the Adoption Assistance Review Committee recommendation.

(8) After receipt of the Adoption Program Manager's decision, the adoptive family or pre-adoptive family may request a contested case hearing as provided in Child Welfare Policy I-A.5.2, "Contested Case Hearings" OAR 413-010-0500 to 413-010-0535.

### Post Finalization Applications for Adoption Assistance

After the adoption has been finalized:

(1) An adoptive family may request the opportunity to apply for adoption assistance based on the following extenuating circumstances:

(a) Relevant facts regarding the child, the biological family, or child's background were known, but not shared with the adoptive family prior to legal finalization of the adoption;

(b) Adoption assistance was denied based on an assessment of the financial need of the adoptive family;

(c) The Department determined the child was ineligible for adoption assistance, but information becomes known which indicates it would be appropriate to review this determination; or

(d) The Department failed to advise the adoptive family of a special needs child of the availability of adoption assistance.

(2) An adoptive family must submit a written request to the Department's adoption assistance coordinator indicating the desire to apply for adoption assistance after an adoption has been legally finalized.

(3) Upon receipt of the written request, the Department determines, within thirty days, whether the child meets Title IV E eligibility requirements.

(4) When an adoptive family requests that the Department provide historic information regarding the child to determine eligibility for adoption assistance, the Department may obtain non-identifying genetic, social, and health history information as provided by ORS 109.425 through 109.507. In addition, the Department may request a court order to review the sealed adoption file.

(5) If the Department determines that a child meets Title IV E eligibility requirements, federal policy requires a contested case hearing be held before the state may provide adoption assistance benefits:

(a) The Department's adoption assistance coordinator must write a summary of the situation and submit a hearing referral and appropriate documentation to the Office of Administrative Hearings within 45 days of receipt of the request for a contested case hearing.

(b) An adoptive family has the burden of proof to show that extenuating circumstances exist. The Department may provide corroborating facts to both the adoptive family and the administrative law judge.

(c) The contested case hearing is conducted under Child Welfare Policy I-A.5.2, "Contested Case Hearings" OAR 413-010-0500 to 413-010-0535.

(d) If the contested case hearing decision finds that extenuating circumstances exist, an adoption assistance application may be signed, effective the date of the contested case hearing request.

(6) If the Department determines that a child does not meet Title IV E eligibility requirements, the Department's adoption assistance coordinator must prepare information for the Adoption Program Manager's review including information submitted by the adoptive family and information from Department records. The Adoption Program Manager decides if extenuating circumstances under section (1) of this rule exist which justify accepting an adoption assistance application from the adoptive family.

(a) A written finding will be sent to the adoptive family within 30 days.

(b) If the Adoption Program Manager finds that extenuating circumstances do not exist, the adoptive family may request a contested case hearing under Child Welfare Policy I-A.5.2, "Contested Case Hearings" OAR 413-010-0500 to 413-010-0535. The administrative law judge in such a hearing reviews whether extenuating circumstances exist so that the adoptive family may submit an application for adoption assistance. Whether the adoption assistance application is approved is a separate determination by the Department.

(7) If the decision, through a contested case hearing or Adoption Program Manager review, is that the adoptive family is eligible to apply for

adoption assistance on behalf of the child, and the adoption assistance application results in the award of adoption assistance:

(a) The adoption assistance payments (in the form of a one time lump sum payment) may not be retroactive for more than 12 months from the date of the signed adoption assistance application; and

(b) If after negotiation, the adoptive family does not agree with the amount negotiated, the family may appeal the decision under Child Welfare Policy I-A.5.2, "Contested Case Hearings" OAR 413-010-0500 to 413-010-0535.

(b) The CPS worker must contact and work with other entities as follows:

(A) Child Care Division. The CPS worker must notify and coordinate with the Child Care Division when a report involves a registered day-care home or a licensed day-care center, as required by ORS 418.747(2)(e) and 419B.020(1).

(ii) Family cooperation. When the CPS worker has information that the family may not allow the CPS worker to observe the alleged victim or other children in the home.

(iii) Protective custody. When the CPS worker has information that a child may need to be placed in protective custody.

(iv) Child interview. When the CPS worker and the LEA officer must each interview a child, it is preferable to coordinate the interviews to reduce the number of interactions with the child.

(v) Worker safety. When the CPS worker has information that indicates the family behavior, circumstances, or situation could pose a danger to the CPS worker.

(vi) Crime committed. When the CPS worker suspects or receives a report that a crime may have been committed.

(H) Public or Private Schools. The CPS worker may interview a child at school when the worker believes it will be the best environment in which to assure a child's safety when making contact with the child. ORS 419B.045 provides requirements for CPS investigations that are conducted on school premises. The CPS worker must do following:

(i) Notify the school administrator that a CPS assessment must be conducted. If the school administrator is a subject of the CPS assessment, then notification is not required.

(ii) Report to the school office, provide identification, inform school personnel of the CPS assessment, and provide the name of the child to be interviewed.

(iii) Request information from school personnel regarding the disabilities of the child, if any, prior to an interview with the affected child.

(iv) Interview the child out of the presence of other persons, unless the CPS worker believes the presence of a school employee or other person would facilitate the interview. If the CPS worker believes that a school employee does not need to be present, but the school employee insists on being present during the interview, the worker should confer with the CPS supervisor for assistance in handling the situation.

(v) Discuss further actions with the child at the conclusion of the interview.

(vi) Inform school personnel when the interview has been completed.

(vii) Inform school personnel if the child is taken into protective custody.

(viii) Inform school personnel that the CPS worker will notify parents of the interview.

(ix) Contact the CPS supervisor if school officials refuse to allow the assessment to take place on school property.

(I) Multi-Disciplinary Teams (MDTs). Department district managers must develop interagency agreements regarding assessment of child abuse and neglect, as necessary, with local MDTs. Requirements for MDT protocols are set out in ORS 418.747.

(6) Obtain Interpreters and Translation. The CPS worker must obtain the services of a competent interpreter and competent written translation service for families, including hearing-impaired family members, who have limited or no means of communicating in or reading English.

(7) Determine ICWA Status and Comply with ICWA, if Applicable. The CPS worker must initiate the process to determine the child's ICWA status and notify the Indian child's tribe if ICWA applies. To initiate this process, the CPS worker must:

(a) Complete a form CF 1270, "Verification of ICWA Eligibility," to assist in determining ICWA eligibility.

(b) Contact the child's tribe when an Indian child is the subject of a CPS assessment. Federally recognized tribes must be notified within 24 hours after information alleging abuse or neglect is received by Child Welfare.

(c) If the Indian child is enrolled or eligible for enrollment in a federally recognized tribe, notify the child's tribe if the child may be placed in protective custody.

(d) Consult with the local Department ICWA liaison, a supervisor, or the ICWA manager if the worker has questions regarding the involvement of a tribe or the ICWA status of a child.

(e) Make a diligent attempt to address the following when determining the placement resource:

(A) Contact the Tribe's social services department;

(B) Search for relative resources;

(C) Search for available Indian homes; and

(D) Contact other Indian tribes and other Indian organizations with available placement resources; and

(f) Unless the Indian child's tribe has established a different order of preference, comply with the ICWA placement preference, which is:

(A) Placement with a member of Indian child's extended family.

(B) Placement with a foster family that is licensed, approved or specified by the Indian child's tribe.

(C) Placement with an Indian foster home licensed or approved by an authorized non-Indian licensing authority.

## ADMINISTRATIVE RULES

(D) Placement with an institution for children approved by an Indian tribe or operated by an Indian organization which has a program suitable to meet the Indian child's needs.

(8) Determine Refugee Status and Comply with the Refugee Children Act, if applicable. During a CPS assessment, the CPS worker must consider whether the child is a refugee child. Under ORS 418.925, a "refugee child" is a "person under 18 years of age who has entered the United States and is unwilling or unable to return to the person's country because of persecution or a well-founded fear of persecution on account of race, religion, nationality, membership in a particular group or political opinion, or whose parents entered the United States within the preceding 10 years and are or were unwilling or unable to return to their country because of persecution or a well-founded fear of persecution on account of race, religion, nationality, membership in a particular group or political opinion."

(a) If it appears that a child is a refugee child:

(A) The CPS worker must ask about the child or parents' country of origin, length of time the child or parents have been in the United States, and the reasons why the child or parents came to the United States. The CPS worker does not have to make a legal determination that the child and parent are refugees, but if the child or the parents indicate they are refugees, then the CPS worker must proceed as if they are, until or unless it is known that they are not refugees.

(B) The CPS worker is not required to determine whether the child is a refugee child, but if the child appears to be a refugee child the CPS worker must proceed as if they are, until or unless it is known that the child is not a refugee child.

(b) The CPS worker may not take a refugee child into protective custody unless, in addition to the other requirements for taking a child into custody, the CPS worker determines that:

(A) Removal is necessary to prevent imminent serious emotional or physical harm to the child; and

(B) Reasonable efforts to alleviate the harm through remedial or preventive services do not alleviate the harm, have failed, or are not practical in an emergency situation.

(c) No refugee child may remain in placement more than five days unless there has been a judicial determination, supported by clear and convincing evidence that:

(A) Preventative or remedial services provided by the Department have failed to alleviate the need for removal; and

(B) Return to the home will likely result in psychological or physical damage to the child.

(d) When a refugee child is placed in care, the juvenile court petition must include, in addition to the information required by ORS 419B.809, the following information:

(A) A specific and detailed account of the circumstances that led the Department to conclude that the child was in imminent danger of serious emotional or physical harm;

(B) Specific actions the Department has taken or is taking to alleviate the need for removal;

(C) Assurance that the Department has complied with placement preferences listed in ORS 418.937 and listed in subsection (e) of this section; and

(D) Assurance that the Department is making or has made diligent efforts to locate and give notice to all affected refugee family members and to the Refugee Child Welfare Advisory Committee that the petition has been filed.

(e) The CPS worker must consider the refugee child's culture and tradition when making any placement decision for a refugee child and, unless shown to be inappropriate and inconsistent with the best interests of the child, place the child with the following in order of preference:

(A) Natural parents.

(B) Extended family member.

(C) Members from the same cultural heritage.

(D) Persons with knowledge and appreciation of the child's cultural heritage.

(f) The CPS worker may determine that placement under subsection (e) of this section is inappropriate and inconsistent with the best interests of the child if:

(A) The preferred placement presents safety threats to the child;

(B) The extreme medical, physical, or psychological needs of the child cannot be met in the placement; or

(C) There is an informed request from either of the child's biological parents not to use a placement, if the request is consistent with stability, security, and the individual needs of the child.

(g) The CPS worker must staff the case with the Refugee Child Welfare Advisory Committee (RCWAC). The CPS worker must contact the Cultural Competency Coordinator for Child Welfare to arrange a time for the staffing. In preparation for the staffing, the CPS worker must:

(A) Invite the CPS supervisor to the staffing; and

(B) Be prepared to discuss the reasons for the CPS referral, the information indicating that family members are refugees, and their country of origin.

(9) Take Photographs. The CPS worker must, during the CPS assessment, take photographs and document, as necessary, child abuse, neglect, and observable safety threats.

(a) As provided in ORS 419B.028, a law enforcement officer or the CPS worker may take photographs for the purpose of documenting the child's condition at the time of the CPS assessment.

(b) As provided in ORS 419B.028, if the CPS worker conducting a CPS assessment observes a child who has suffered suspicious physical injury and the CPS worker is certain or has a reasonable suspicion that the injury is or may be the result of abuse, the CPS worker, in accordance with the protocols and procedures of the county multi-disciplinary team described in ORS 418.747, will immediately photograph or cause to have photographed the suspicious physical injuries. Regardless of whether the child has previously been photographed or assessed during a CPS assessment, the CPS worker will photograph or cause to be photographed any suspicious injuries if the CPS worker is certain or has a reasonable suspicion the suspicious injuries are the result of abuse:

(A) During the assessment of a new allegation of abuse; and

(B) Each time, during the assessment, an injury is observed that was not previously observed by the assigned CPS worker.

(c) When a child is photographed pursuant to subsection (b) of this section:

(A) The person taking the photographs or causing to have the photographs taken must, within 48 hours or by the end of the next regular business day, whichever occurs later:

(i) Provide hard copies or prints of the photographs and, if available, copies of the photographs in an electronic format to the designated medical professional; and

(ii) Place hard copies or prints of the photographs and, if available, copies of the photographs in an electronic format in the child welfare record labeled with the case name, case number, sequence number, person letter, child's name, and date taken.

(B) If a county multidisciplinary team staffing of the case is held, photographs of the injury will be made available to each team member involved in the case staffing at the first meeting regarding the child's case.

(d) The CPS worker must document injuries, hazardous environments, and any observable safety threats in the assessment narrative by use of photographs, written description, or illustrations.

(e) Photographs of the anal or genital region may be taken only by medical personnel.

(10) Obtain Medical Assessment. The CPS worker must, during the CPS assessment as required in this section, facilitate a medical assessment of the child and obtain the child's medical history when necessary to assure child safety, determine treatment needs, reassure the child and family, or assist in analyzing safety threats.

(a) When the CPS worker determines that the child is in need of a medical assessment as part of a CPS assessment, the CPS worker must consult with a CPS supervisor as soon as possible, but not at the expense of delaying medical treatment.

(b) If a person conducting an assessment under ORS 419B.020 observes a child who has suffered suspicious physical injury and the person is certain or has a reasonable suspicion that the injury is or may be the result of abuse, the person must, in accordance with the protocols and procedures of the county multi-disciplinary team described in ORS 418.747, ensure that:

(A) A designated medical professional conducts a medical assessment within 48 hours of the observation of the suspicious physical injury, or sooner if dictated by the child's medical needs; or

(B) An available physician conducts a medical assessment if, after reasonable efforts to locate a designated medical professional, a designated medical professional is not available to conduct a medical assessment within 48 hours. The CPS worker is required to document in FACIS efforts to locate the designated medical professional when an available physician is used.

(c) The CPS worker must facilitate an assessment by a medical professional if the alleged child abuse or neglect involves injury to the anal or genital region.

(d) When there are indications of severe physical trauma to the child, the CPS worker must make arrangements to immediately transport the child to a medical facility, which may include calling 911. The CPS worker must also make arrangements for medical examination of a child for mild or moderate physical trauma.

(e) To make arrangements for the medical examination of a child, the CPS worker must do the following, unless completing the action would delay medical treatment for the child:

(A) Discuss with the parent or caregiver the need for medical examination or treatment.

(B) Ask the parent or caregiver to take the child to a medical facility for a medical examination or treatment.

(C) Request that the parent sign a form DHS 2099, "Authorization for Use and Disclosure of Information."

(D) Contact an LEA immediately and seek a juvenile court order to obtain protective custody of the child for the purpose of obtaining a medical examination or treatment when:

# ADMINISTRATIVE RULES

(i) The parent or caregiver refuses to obtain needed medical examination or treatment;  
(ii) The parent or caregiver may flee with the child;  
(iii) Delaying medical examination or treatment could harm the child;

or

(iv) The CPS worker has reason to believe medical examination will reveal evidence of child abuse or neglect.

(E) Immediately seek medical care and consultation when the child may have a life-threatening condition, or a deteriorating condition that may become life-threatening.

(F) As soon as possible and not later than 24 hours after learning of the exposure, make arrangements to have the child tested for chemical exposure to harmful substances when there is reason to believe a child has been exposed to dangerous chemicals such as those found in a chemical drug lab.

(f) When a report of suspected medical neglect of an infant with a disability and with life-threatening conditions is referred for CPS assessment, the assigned CPS worker must comply with Child Welfare Policy I-B.2.2.2, "Investigation of Suspected Medical Neglect-Infants", OAR 413-030-0600 to 413-030-0650.

(g) When it is medically indicated to subject a child in the custody of the Department to HIV testing, the CPS worker must comply with Child Welfare Policy I-B.5.1, "HIV Testing of Children in Custody and HIV Confidentiality", OAR 413-040-0400 to 413-040-0450.

(h) As provided in ORS 147.425, a child who is the victim of a person crime and is at least 15 years of age at the time of the abuse may have a personal representative present during a medical examination. If a CPS worker believes that a personal representative would compromise the CPS assessment, a CPS worker may prohibit a personal representative from being present during the medical examination.

(i) When the CPS worker is assessing a CPS allegation of medical neglect, the CPS worker must consult with a health care professional as part of the assessment.

(11) Obtain Psychological and Psychiatric Evaluations.

(a) The CPS worker must make a referral for a psychological or psychiatric evaluation of the parent, caregiver, or child by a mental health professional to assure child safety, determine treatment needs, or assist in analyzing safety threats when during the CPS assessment the CPS worker identifies a specific condition or behavior that requires additional professional evaluation. This includes but is not limited to:

(A) Unusual or bizarre forms of punishment;

(B) Mental illness;

(C) Suicidal ideation;

(D) Homicidal ideation; or

(E) Unusual or bizarre child or parental behavior that is indicative of emotional problems.

### Hearing Requests

(1) A *claimant* (see OAR 461-025-0305) has the right to a contested case hearing in the following situations upon the timely completion of a request for hearing:

(a) Except as provided in subsection (o) of this section, the Department has not approved or denied a request or application for public assistance within 45 days of the application.

(b) The Department has not acted timely on an application as follows:

(A) An application for SNAP program benefits — within 30 days of the filing date.

(B) An application for a JOBS support service payment — within the time frames established in OAR 461-115-0190(3).

(c) The Department acts to deny, reduce, close, or suspend SNAP program benefits, a *grant of public assistance*, a *grant of aid*, a support service payment authorized in the JOBS program by OAR 461-190-0211, medical assistance, or child care benefits authorized under Division 160 or 165 of this chapter of rules in the ERDC or TANF child care programs. When used in this subsection, *grant of public assistance* and *grant of aid* mean the grant of cash assistance calculated according to the client's need.

(d) The Department claims that an earlier public assistance payment was an overpayment, or that an earlier issuance of SNAP program benefits was an overissuance.

(e) The *claimant* claims that the Department previously underissued public assistance or SNAP program benefits and the Department denies the claim.

(f) The household disputes its current level of SNAP program benefits.

(g) The *filing group* (see OAR 461-110-0370) is aggrieved by any action of the Department that affects the participation of the filing group in the SNAP program.

(h) The *claimant* asks for a hearing to determine if the waiver of an Intentional Program Violation hearing was signed under duress.

(i) The Department establishes or changes the client's premium for the Oregon Health Plan.

(j) In the Pre-TANF program, the Department denies payment for a basic living expense (see OAR 461-135-0475) or other support service payment in the JOBS program (see subsection (c) of this section).

(k) In the TA-DVS program, when OAR 461-135-1235 provides a right to a hearing.

(l) A service re-assessment of a client conducted in accordance with OAR Division 411-015 has resulted in a reduction or termination of nursing facility services or *Waivered Services* (defined at OAR 461-001-0030).

(m) The *claimant's* benefits are changed to vendor, protective, or two-party payments.

(n) Department has issued a notice seeking repayment under ORS 411.892 to an employer participating in the JOBS program.

(o) In the OSIP and OSIPM programs, when the Department has not approved or denied an application within the time frames established in OAR 461-115-0190.

(p) The right to a hearing is otherwise provided by statute or rule.

(2) A client is not entitled to a hearing on the question of the contents of a *case plan* (defined in OAR 461-190-0151) unless the right to hearing is specifically authorized by the Department's rules. For a dispute about an activity in the JOBS program, the client is entitled to use the Department's re-engagement process (see OAR 461-190-0231). In the TA-DVS program, a dispute about the contents of a TA-DVS case plan (see OAR 461-135-1205) is resolved through re-engagement if there is no right to a hearing under OAR 461-135-1235.

(3) A request for hearing is complete:

(a) In public assistance programs, when the Department's Administrative Hearing Request form (form DHS 443) is completed and signed by the *claimant* or the claimant's representative and is received by the Department.

(b) In the SNAP program when:

(A) The Department receives the claimant's oral or written statement that he or she wishes to appeal a decision affecting the claimant's SNAP program benefits to a higher authority; or

(B) The Department's Administrative Hearing Request form (form DHS 443) is completed and signed by the *claimant* or the claimant's representative and is received by the Department.

(c) In the case of a provider of child care, when a written request for hearing from the provider is received by the Department.

(4) In the event a request for hearing is not timely, the Department will determine whether the failure to timely file a request for hearing was beyond the reasonable control of the party and enter an order accordingly. The Department may refer an untimely request to the Office of Administrative Hearings for a hearing on the question of timeliness.

(5) In the event the *claimant* has no right to a contested case hearing on an issue, the Department may enter an order accordingly. The Department may refer a hearing request to the Office of Administrative Hearings for a hearing on the question of whether the *claimant* has the right to a contested case hearing.

(6) To be timely, a completed hearing request must be received by the Department not later than:

(a) Except as provided in subsection (b) of this section, the 45th day following the date of the *decision notice* (see OAR 461-001-0000) in public assistance and medical programs.

(b) The 90th day following the effective date of the reduction or termination of benefits in a public assistance program if the reduction or termination of aid is a result of a JOBS disqualification (see OAR 461-130-0330) or a penalty for failure to seek treatment for substance abuse or mental health (see OAR 461-135-0085).

(c) The 90th day following the date of the *decision notice* in the SNAP program, except:

(A) A *filing group* may submit a hearing request at any time within a *certification period* (see OAR 461-001-0000) to dispute its current level of benefits.

(B) A *filing group* may submit a hearing request within 90 days of the denial of a request for restoration of benefits if not more than twelve months has expired since the loss of benefits.

(d) The 30th day following the date of notice from the Oregon Department of Revenue in cases covered by ORS 293.250.

(e) In a case described in subsection (1)(h) of this rule, the request must be made within 90 days of the date the waiver was signed.

(7) In determining timeliness under section (6) of this rule, delay caused by circumstances beyond the control of the *claimant* is not counted.

(8) In computing the time periods provided by this rule, see OAR 461-025-0300(1).

(9) In the REF and REFM programs, a client is not eligible for a contested case hearing when assistance is terminated because the eligibility time period imposed by OAR 461-135-0900 has been reached. If the issue is the date of entry into the United States the Department provides for prompt resolution of the issue by inspection of the individual's documentation issued by the US Citizenship and Immigration Services (USCIS) or by information obtained from USCIS, rather than by contested case hearing.

### Program Acronyms and Overview

(1) Acronyms are frequently used when referring to a program. There is an acronym for each umbrella program (for instance, OSIP) and acronyms for each subprogram (for instance, OSIP-AB, OSIP-AD, and OSIP-OAA).

(2) When no program acronym appears in a rule in Chapter 461 of these rules, the rule with no program acronym applies to all programs listed in this rule. If a rule does not apply to all programs, the rule uses program acronyms to identify the programs to which the rule applies.

(3) Wherever an umbrella acronym appears, that means the rule covers all the subprograms under that code (for instance, OSIP means OSIP-AB, OSIP-AD, and OSIP-OAA).

(4) ADC; Aid to Dependent Children. Financial aid to low-income families when children are deprived of parental support because of continued absence, death, incapacity, or unemployment. When used alone, ADC refers to all ADC programs. Use of the acronym, ADC, which stands for Aid to Dependent Children, and use of the phrase, Aid to Dependent Children, refer to the state's Temporary Assistance for Needy Families Program, and its acronym, TANF. The following codes are used for ADC subprograms:

(a) ADC-BAS; Aid to Dependent Children — Basic (includes eligibility based on continued absence, death, incapacity, or unemployment). ADC with deprivation based on unemployment is also denoted by ADC-BAS/UN.

(b) EA; Aid to Dependent Children — Emergency Assistance. Emergency cash to families without the resources to meet emergent needs.

(5) ADCM; Aid to Dependent Children Medical. Medical aid to low-income families when children are deprived of parental support, as for ADC. Use of the acronym ADCM, which stands for Aid to Dependent Children Medical, and use of the phrase Aid to Dependent Children Medical refer to EXT, MAA, MAF, and SAC programs. When used alone, ADCM refers to all ADC-related medical programs. The following codes are used for ADCM subprograms:

(a) ADCM-BAS; Aid to Dependent Children Medical — Basic.

(b) ADCM-EXT; Aid to Dependent Children Medical — Extended. ADCM-EXT provides extended medical benefits to families after their ADC benefits end.

(c) ADCM-SAC; Aid to Dependent Children Medical — Substitute or Adoptive Care. ADCM-SAC gives medical coverage to children in substitute or adoptive care.

## 461-105-0006

### Business Continuity Provisions

(1) The use of this rule by any CAF *branch office* (see OAR 461-001-0000) requires the approval for that site by:

(a) The Deputy Assistant Director for CAF Field Services or the designee of this official; and

(b) The Administrator of the Office of Self Sufficiency Programs or the designee of this official.

(2) The Department will only approve the use of this rule after considering the feasibility of avoiding the use of the rule by moving enough employees who are able to perform the needed tasks to the sites that have too few employees.

(3) For purposes of this rule:

(a) “Business continuity disruption” refers to an emergency event or a work stoppage that causes the absence of most of the employees in at least one *branch office* for an expected time period of sufficient duration that compliance with applicable administrative rules in Chapter 461 is not feasible. A “business continuity disruption” continues until a sufficient number of employees return to work to permit compliance at the *branch office* with the administrative rules in Chapter 461.

(b) “Emergent need”.

(A) In the ERDC program, the term “emergent need” refers to an individual who requires child care in order to work and who will lose this child care unless the application is processed promptly.

(B) In the SNAP program, the term “emergent need” refers to an individual who qualifies for expedited services under OAR 461-135-0575.

(C) In the medical assistance programs:

(i) The term “emergent need” refers to an individual reporting either of the following:

(I) A medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that the absence of immediate medical attention or medication may reasonably be expected to result in placing the health of the patient in serious jeopardy, serious impairment to bodily functions, or serious dysfunction of any bodily organ or part.

(II) A need for prompt processing of an application to secure provider services for mental health, substance abuse, or long-term care.

(ii) An individual does not need to document the “emergent need”.

(D) In the REF and TANF programs, the term “emergent need” refers to a household that meets the requirements of one of the following subparagraphs:

(i) Countable income less than \$150 a month, and liquid resources that do not exceed \$100.

(ii) Gross income and resources that combined are less than the total of the household’s monthly rent or mortgage, plus its utilities.

(iii) Liquid resources (see subsection (c) of this section) that do not exceed \$100 as well as being a destitute household of migrant and seasonal farmworkers (see OAR 461-001-0015) with little or no income at the time of application.

(E) In the TA-DVS program, the term “emergent need” refers to an individual with an immediate safety need.

(c) “Liquid resources” refers to cash on hand, a checking or savings account, a savings certificate, and a lump sum payment.

(4) During a *business continuity disruption*, a *branch office* issues DSNAP benefits as provided in OAR 461-135-0491 to 461-135-0497 if the *branch office* is in a location authorized by the Food and Nutrition Service (FNS) during a disaster benefit period. This rule does not otherwise apply to the DSNAP program.

(5) Notwithstanding any other administrative rule in Chapter 461, during a *business continuity disruption* under the authorization required in section (1) of this rule, a CAF *branch office* may use any or all of the following special provisions:

(a) Application process.

(A) Individuals qualifying as *emergent need*.

(i) In the ERDC, medical assistance, REF, and TANF programs, acceptance or processing by the Department of applications may be limited to individuals in *emergent need*.

(ii) In the SNAP program, processing of applications for new clients may be limited to individuals in *emergent need*.

(iii) In the TA-DVS program, waive the requirement to jointly staff an application for TA-DVS benefits under OAR 461-135-1230(3).

(B) Application process for individuals without an *emergent need*.

(i) In the ERDC, REF, and TANF programs, each *branch office* using this provision may document a request for benefits by maintaining a dated list of the names of these new clients as well as social security numbers (if available). The Department will use these lists to establish the date of request for those clients who request assistance during the *business continuity disruption* and complete the application within 30 days after the conclusion of the *business continuity disruption* or by the deadline that applies under another program rule, whichever occurs later.

(ii) In the SNAP program, for a new client, each *branch office* using this provision may document a filing date by maintaining a file of completed filing pages (DHS 415Y or DHS 539F). The Department will schedule and conduct interviews with each client after the conclusion of the *business continuity disruption*.

(iii) In the medical assistance programs, each *branch office* should establish a date of request using OAR 461-115-0030.

(iv) In the TA-DVS program, the Department may document a request for benefits by maintaining a dated list of the names of the applicants as well as social security numbers (if available). The Department will use this list to establish a date of request for those clients who request assistance during the *business continuity disruption*. The Department will schedule and conduct interviews with each client within two business days after the conclusion of the *business continuity disruption* or when an immediate safety need arises, whichever occurs sooner.

(b) Benefit levels. In the ERDC, REF, SFPSS, and TANF programs:

# ADMINISTRATIVE RULES

(A) Except as provided for REF in OAR 461-135-0900(4), a client, including a client in the monthly reporting system (MRS) or in the Simplified Reporting System (SRS), may continue to receive benefits at the level in effect the day before the special provisions of this rule applied to the *branch office*.

(B) In the ERDC, SFPSS, and TANF programs, the Department may authorize a *branch office* to automatically extend certification periods for the duration of the *business continuity disruption*.

(C) Payments for *support services* (see OAR 461-001-0025) listed in a *case plan* (see OAR 461-001-0025) may continue at the level in effect the day before the special provisions of this rule applied to the *branch office*. The Department approves or denies any new request for a support services payment on a case by case basis.

(D) In the REF and TANF programs, for an *emergent need* household, the Department may issue a temporary benefit in the following amounts:

- (i) \$200 for a single individual.
- (ii) \$100 for each additional individual to a maximum payment of \$900.

(E) In the TA-DVS program, payments will be made to address immediate safety needs.

(c) Processing changes for current recipients. Except in the SNAP program, a *branch office* may suspend the processing of changes during the *business continuity disruption*.

(d) Redetermination of benefits issued in accordance with this rule; payments for supplemental benefits and establishment of overpayments. For each client who receives a benefit under the provisions of this rule, after the *business continuity disruption* ends:

(A) The Department will determine the correct benefit amount and either provide a supplemental payment or assess an overpayment as appropriate.

(B) In the SNAP program, the Department will make the determination about supplemental payments under paragraph (A) of this subsection within 10 days of the end of the *business continuity disruption*.

(e) In the SNAP program, in addition to the other processes described in this rule, the policies under this subsection may be implemented upon authorization by the Food and Nutrition Service (FNS). The Department notifies each affected *branch office* of the authorization and its effective dates prior to implementation.

(A) For a telephone request for a SNAP program application, the *filing date* (see OAR 461-115-0040) is the same as the *date of request* (see OAR 461-115-0030).

(B) A SNAP program applicant may receive a telephone interview without a Department determination that a *branch office* visit is a hardship to the applicant.

(C) An applicant requesting a SNAP program application via the telephone, meeting the expedited service criteria under OAR 461-115-0690, and whom the *branch office* must be able to identify may be interviewed and may provide an oral signature via the telephone after affirming all of the provided information is true and correct.

(i) If eligible for SNAP program benefits, the applicant is certified until the last day of the following month.

(ii) The applicant must sign and return a completed SNAP program application along with any requested verifications to the local *branch office* within 30 days.

(D) SNAP program benefits may be maintained at the current level and extended for two additional months when the Department receives FNS approval within any month described in the following situations:

- (i) The last month of a *certification period* (see OAR 461-001-0000).
- (ii) The month an Interim Change Report is due.
- (iii) The month a Transitional Benefit Alternative period ends.
- (iv) The month a Monthly Change Report is due.

(E) A client must report changes described in OAR 461-170-0011 by the last day of the month following the month in which the change occurred.

(6) Notwithstanding any other administrative rule in Chapter 461, during a *business continuity disruption* with the approval of the Manager of Field Services for the Seniors and People with Disabilities Division (SPD) or the designee of this official:

(a) A *branch office* may limit acceptance or processing of applications for long-term services to individuals in *emergent need* who do not yet have a placement or are at risk of losing their current one.

(b) An SPD or AAA office may apply any exception in this rule for SNAP and Medicaid programs to the extent authorized.

## 461-110-0210

### Household Group

(1) The household group consists of the individuals who live together with or without benefit of a dwelling. For homeless people, the household group consists of the individuals who consider themselves living together.

(2) A separate household group is established for all the individuals who live in a dwelling. A separate dwelling is not recognized for the purpose of determining the members of a household group unless the living space

has—separate from other dwellings—an access to the outside that does not pass through another dwelling, a sleeping area, a bathroom, and a kitchen facility.

(3) For all programs except the SNAP program, a separate household group is established for individuals who live in the same dwelling as another household group, if all the following are true:

(a) There is a landlord-tenant relationship between the two groups in which the tenant is billed by the landlord at *fair market value* (see OAR 461-001-0000) for housing.

(b) The tenant lives independently from the landlord.

(c) The tenant:

(A) Has and uses sleeping, bathroom, and kitchen facilities separate from the landlord; or

(B) Shares bathroom or kitchen facilities with the landlord, but the facilities are in a commercial establishment that provides room or board or both for compensation at *fair market value*.

(4) Individuals who live with more than one household group during a calendar month are members of the household group in which they spend more than half of their time, except as follows:

(a) In the ERDC program, if a *child* (see OAR 461-001-0000) lives with different caretakers during the month, the child is considered a member of both household groups.

(b) In the MAA, MAF, and TANF programs:

(A) If a *parent* (see OAR 461-001-0000) sleeps at least 30 percent of the time during the calendar month in the home of the *dependent child* (see OAR 461-001-0000), the parent is in the same household group as the *dependent child*.

(B) A *dependent child* is included in the group with the *caretaker relative* (see OAR 461-001-0000), who usually has the major responsibility for care and control of the *dependent child*, if the *dependent child* lives with two household groups in the same calendar month for at least one of the following reasons:

(i) Education.

(ii) The usual *caretaker relative* is gone from the household for part of the month because of illness.

(iii) A family emergency.

(c) In the SNAP program:

(A) The individual is a member of the household group that provides the individual more than half of his or her 21 weekly meals. If the individual is a *child*, the *child* is a member of the household group credited with providing the *child* more than half of his or her 21 weekly meals. A household group is credited with providing breakfast and lunch for each day the *child* departs that group's home for school, even if the child eats no breakfast or lunch at that home.

(B) During the month in which a resident of a *domestic violence shelter* (see OAR 461-001-0000) enters the shelter, the resident may be included both in the household he or she left and in a household group in the shelter.

(5) In the OSIPM program, individuals receiving waived care or nursing facility care are each an individual household group.

(6) In the QMB program, the household group consists of the client and the client's *spouse* (see OAR 461-001-0000), even if the *spouse* does not meet all nonfinancial eligibility requirements.

(7) The individuals in the household group who apply for benefits are called applicants. The household group and applicants form the basis for determining who is in the remaining eligibility groups.

(8) Individuals absent from the household for 30 days or more are no longer part of the household, except for the following:

(a) In all programs except the SNAP program, individuals in a general hospital for 30 days or more remain in the household group unless they go into long-term care. In the SNAP program, these individuals are no longer in the household group.

(b) In the CEC, CEM, ERDC, EXT, MAA, MAF, OHP, REF, REFM, SAC, and TANF programs:

(A) A *caretaker relative* who is absent for up to 90 days while in a residential alcohol or drug treatment facility is in the household group.

(B) A *child* who is absent for 30 days or more is in the household group if the *child* is:

(i) Absent for illness (unless the *child* is in a long-term care Title XIX facility), social service, or educational reasons;

(ii) In foster care, but expected to return to the household within the next 30 days; or

(iii) For OHP only, in a residential alcohol or drug treatment facility. If the household of the *child* is ineligible because of income, the *child* is a separate household.

(c) In the ERDC and OHP programs, an individual who is absent because of education, training, or employment, including long-haul truck driving, fishing, and active duty in the U.S. armed forces.

(d) In the MAA, MAF, REF, REFM, and TANF programs, a *parent* who is absent for 30 days or more is in the household group if:

(A) The *parent* is absent because of education, training or employment — including absence while working or looking for work outside the area of their residence, such as long-haul truck driving, fishing and active duty in the U.S. armed forces; and

# ADMINISTRATIVE RULES

(B) The other *parent* remains in the home.

(9) In the OSIP-EPD and OSIPM-EPD programs, the household group consists only of the individual applying for or receiving benefits.

## 461-110-0370

### Filing Group; SNAP

In the SNAP program:

(1) Except as provided in this rule, the filing group is composed of members of a *household group* (see OAR 461-110-0210) who customarily purchase and prepare meals together.

(2) Except as provided in sections (3) and (8) of this rule, the following individuals, if in the same *household group*, must be in the same filing group, even if they do not customarily purchase and prepare meals together:

(a) Each *spouse* (see OAR 461-001-0000).

(b) A *parent* (see OAR 461-001-0000) and his or her child under age 22 living with the *parent*.

(c) A *household group* member and child under age 18 who lives with and is under *parental control* of that *household group* member. (3) Notwithstanding sections (1) and (2) of this rule:

(a) An individual is excluded from the filing group if, during the month the group applied for SNAP program benefits, the individual received SSI benefits through the state of California that included SNAP program benefits. This exclusion applies only in the initial month and, if necessary to meet notice requirements, in the month following the initial month. This exclusion does not apply to an individual who was the head of household in the prior household.

(b) An individual is excluded from the filing group if during the initial month the group applied for SNAP program benefits the individual received SNAP program benefits in another household and was not the head of household in the prior household.

(c) An *elderly* (see OAR 461-001-0015) individual and his or her *spouse* may be considered a separate filing group from others with whom the *elderly* individual purchases and prepares meals, if:

(A) The *elderly* individual is unable to purchase or prepare food because of a permanent and severe disabling condition; and

(B) The combined income of the other members of the *household group* does not exceed the following limit: [Table not included. See ED. NOTE]

(4) A paid live-in attendant and the attendant's minor child may choose not to be in the filing group with the recipient of the services provided, unless required by section (2) of this rule to be in the same filing group.

(5) An individual in foster care, the individual's *spouse*, and each child under age 22 living with the individual are not eligible to participate in the SNAP program independently of the care or service provider's filing group, but may be included in the provider's filing group if the provider applies for benefits.

(6) Notwithstanding section (2) of this rule, the following *household group* members may form a separate filing group from other members of the *household group*:

(a) A resident of an alcohol or drug treatment and rehabilitation program certified by the Department for which an employee of the facility is the authorized representative (see OAR 461-135-0550). A resident's *spouse* in the same facility may be in a separate filing group, but a child of a resident must be in the same filing group as the resident.

(b) A resident in *group living* (see OAR 461-001-0015).

(c) A resident of a public or private non-profit homeless or *domestic violence shelter* (see OAR 461-135-0510).

(7) A member of the *household group* who pays the filing group for room and board (lodger) is treated as follows:

(a) A lodger cannot participate in the SNAP program independently of the *household group* when the lodger pays a reasonable amount for room and board. A reasonable amount is:

(A) An amount that equals or exceeds the Thrifty Food Plan for the individual and anyone in that individual's filing group (see OAR 461-155-0190(2)), if more than two meals per day are provided; or

(B) An amount that equals or exceeds two-thirds of the Thrifty Food Plan for the individual and anyone in the individual's filing group, if two or fewer meals per day are provided.

## 461-115-0030

### Date of Request

(1) For all programs covered by Chapter 461 of the Oregon Administrative Rules, the client or someone authorized to act on behalf of the client must contact the Department or use another appropriate method to request benefits (see OAR 461-115-0150). The request may be oral or in writing. The request starts the application process.

(2) The *date of request* is one of the following:

(a) In the EA, ERDC, GA, OSIP, REF, and TANF programs and for support service payments in the JOBS program authorized by OAR 461-190-0211, the *date of request* is the day the request for benefits is received by the Department.

(b) In the SNAP program, this section does not apply. See OAR 461-115-0040.

(c) In the GAM, MAA, MAF, OHP, OSIPM, REFM, and SAC programs, the *date of request* is determined as follows:

(A) For a new applicant:

(i) The day the request for medical benefits is received by a Department representative, except as described in subparagraphs (ii) and (iii) of this paragraph.

(ii) If the request for medical benefits is received by a Department representative no later than the next business day after medical services are received, the *date of request* is the day these medical services were received.

(iii) An individual's request to be placed on the *OHP Standard Reservation List* (see OAR 461-135-1125) does not establish a *date of request* for medical benefits.

# ADMINISTRATIVE RULES

(B) For a current recipient, the *date of request* is one of the following:

(i) The date the client reports a change requiring a redetermination of eligibility.

(ii) The date the Department initiates a review, except that the automatic mailing of an application does not constitute a Department-initiated review.

(iii) The date the client establishes a *date of request* by contacting the Department orally or in writing or by submitting an application.

(d) In the SFPSS program:

(A) Except as provided in paragraph (B) of this subsection, the *date of request* is the day the client signs the program's Interim Assistance Agreement.

### When an Application Must Be Filed

(1) A client must file an application, or may amend a completed application, as a prerequisite to receiving benefits as follows:

(a) A client may apply for the TA-DVS program as provided in OAR 461-135-1220.

(b) In all programs except the TA-DVS program:

(A) Except as provided otherwise in this rule, a client wishing to apply for program benefits must submit a complete application on a form approved by the Department.

(B) An application is complete if all of the following requirements are met:

(i) All information necessary to determine the individual's eligibility and benefit amount is provided on the application for each individual in the filing group.

(ii) The applicant, even if homeless, provides a mailing address.

(iii) The application is signed. An individual required but unable to sign the application may sign with a mark, witnessed by another individual.

(iv) The application is received by the Department, except an *electronic application* (see OAR 461-001-0000) meets the requirements of this paragraph only when submitted to and received by the Department with an electronic signature.

(2) A new application is not required in the following situations:

(a) In the SNAP program, when a single application can be used both to determine a client is ineligible in the month of application and to determine the client is eligible the next month. This can be done when:

(A) Anticipated changes make the *filing group* (see OAR 461-110-0370) eligible the second month; or

(B) The *filing group* provides verification between 30 and 60 days following the filing date (see OAR 461-115-0040), under OAR 461-180-0080.

(b) In all programs except the SNAP program, when a single application can be used both to determine a client is ineligible on the *date of request* (see OAR 461-115-0030) and to determine the client is eligible when anticipated changes make the *filing group* eligible within 45 days from the date of request.

(c) When the case is closed and reopened during the same calendar month.

(d) When benefits were suspended for one month because of the level of income, and the case is reopened the month following the month of suspension.

(e) When reinstating medical benefits for a pregnant woman covered by OAR 461-135-0950.

(f) When the Department determines a child under the age of 19 years with a *date of request* from July 1, 2009 through December 31, 2009 is not eligible for EXT, MAA, MAF, OHP, OSIPM, QMB, or SAC program benefits for a reason other than failure to complete the application requirements under OAR 461-115-0020, and the Department chooses to redetermine the child's eligibility for EXT, MAA, MAF, OHP, OSIPM, QMB, and SAC program benefits under the administrative rules in effect on October 1, 2009 and January 1, 2010.

(3) When a client establishes a new *date of request* (see OAR 461-115-0030) prior to the end of the month following the month of case closure, unless the Department determines a new application is required, a new application is not required in the following situations:

(a) In the OSIPM program, when the client's case closed due to failure to make a liability payment required under OAR 461-160-0610.

(b) In the OSIPM-EPD program, when the client's case closed due to failure to make a participant fee payment required under OAR 461-160-0800.

(4) A new application is required to add a newborn child to a *benefit group* (see OAR 461-110-0750) according to the following requirements:

(a) For the REF and TANF programs:

(A) A new application is not required if the child is listed on the application as "unborn" and there is sufficient information about the child to establish its eligibility.

(B) A new application is required if the child is not included on the application as "unborn."

(b) In the EXT, MAA, MAF, OHP, and REFM programs, no additional application is required to add the child to the *benefit group* of the child's mother. The child may be added to a *benefit group* other than the *benefit group* of the child's mother if eligibility can be determined without submission of a new application.

(c) In the ERDC and SNAP programs, an application is not required to add the child to the *benefit group*.

(d) In all programs other than ERDC, EXT, MAA, MAF, OHP, REF, REFM, SNAP, and TANF, an application is required.

(5) A new application is required to add an individual, other than a newborn child, to a *benefit group* according to the following requirements:

(a) In the ERDC and SNAP programs, a new application is not required.

(b) In the EXT, MAA, MAF, OHP, REF, REFM, SAC, and TANF programs, an individual may be added by amending a current application if the information is sufficient to determine eligibility; otherwise a new application is required.

(c) In all programs other than the ERDC, EXT, MAA, MAF, OHP, REF, REFM, SAC, SNAP, and TANF programs, a new application is required.

(6) A client whose TANF grant is closing may request ERDC orally or in writing.

(7) Except for an applicant for the SNAP program, a client may change between programs administered by the Department using the current application if the following conditions are met:

(a) The client makes an oral or written request for the change.

(b) The Department has sufficient evidence to determine eligibility and benefit level for the new program without a new application.

(c) The program change can be effected while the client is eligible for the first program.

(8) In the EXT, MAA, MAF, OHP, OSIP, OSIPM, and QMB programs, a new application is not required to redetermine eligibility if the following conditions are met:

(a) The client is currently receiving benefits from one of these programs; and

(b) The Department has sufficient evidence to redetermine eligibility for the same program or determine eligibility for the new program without a new application or by amending the current application.

### Requirement to Provide or Apply for SSN

(1) In the CAWEM, ERDC, REF, and REFM programs, a member of a *need group* (see OAR 461-110-0630) or a *benefit group* (see OAR 461-110-0750) is not required to provide or apply for a social security number (SSN). In these programs, the Department may request that a member of the filing or *need group* provide an SSN on a voluntary basis.

(2) In the EA and TA-DVS programs, an individual must provide his or her SSN if the individual can.

(3) Except as provided in section (5) of this rule, in the OSIP, OSIPM, and QMB programs, to be included in the *benefit group*, an individual must:

(a) Provide a valid SSN for the individual; or

(b) Apply for a number if the individual does not have a valid one and provide the SSN when it is received.

(4) Except as provided in sections (5) to (7) of this rule, in all programs not covered by sections (1) to (3) of this rule, to be included in the *need group*, an individual (other than an unborn) must:

(a) Provide a valid SSN for the individual; or

(b) Apply for a number if the individual does not have one and provide the SSN when it is received.

(5) In the BCCM, CEC, CEM, EXT, GA, GAM, MAA, MAF, OHP, OSIP, OSIPM, QMB, SAC, and SNAP programs, an individual is not required to apply for or provide an SSN if the individual is:

(a) A member of religious sect or division of a religious sect that has continuously existed since December 31, 1950; and

(b) Adheres to its tenets or teachings that prohibit applying for or using an SSN.

(6) The requirement to apply for or provide the SSN is delayed as follows:

(a) In the BCCM, CEC, CEM, EXT, MAA, MAF, OHP, and SAC programs, a newborn who is assumed eligible based on the eligibility of the mother of the newborn may receive benefits until one year of age without meeting the SSN requirements of section (4) of this rule.

(b) In the SNAP program:

(A) An applicant eligible for expedited services may receive his or her first full month's allotment without meeting the SSN requirement but must meet the requirement before receiving a second full month's allotment.

(B) Before applying for or providing an SSN, a newborn may be added to an existing *benefit group* (see OAR 461-110-0750) for six months following the date the baby is born or until the group's next recertification, whichever is later.

(7) In the SNAP program:

(a) An individual who refuses or fails without good cause to provide or apply for an SSN when required by this rule is ineligible to participate. This period of ineligibility continues until the individual provides the SSN to the Department.

(b) An individual may participate in SNAP for one month in addition to the month of application, if the individual can show good cause why the application for an SSN has not been completed. To continue to participate, the individual must continue to show good cause each month until the application for an SSN is complete with Social Security Administration.

(c) An individual meets the good cause requirement in subsections (a) and (b) of this section if the individual provides evidence or collateral information that the individual applied for or made every effort to supply the Social Security Administration with the necessary information to complete the application process. Delays due to illness not associated with a *disability* (see OAR 461-001-0015), lack of transportation, or temporary absence do not qualify as good cause under this rule.

(8) This rule authorizes or requires the collection of an SSN for each of the following purposes.

(a) The determination of eligibility for benefits. The SSN is used to verify income and other assets, and match with other state and federal records such as the Internal Revenue Service (IRS), Medicaid, child support, Social Security benefits, and unemployment benefits.

(b) The preparation of aggregate information and reports requested by funding sources for the program providing benefits.

(c) The operation of the program applied for or providing benefits.

(d) Conducting quality assessment and improvement activities.

(e) Verifying the correct amount of payments, recovering overpaid benefits, and identifying any individual receiving benefits in more than one household.

### Medical Assignment

(1) In the CEC, CEM, EXT, GAM, MAA, MAF, OHP, OSIPM, QMB, REFM, and SAC programs, by signing the application for assistance, clients agree to turn over their rights to reimbursement for medical care costs to the Department.

(a) If a client or the client's *authorized representative* (see OAR 461-115-0090) refuses to assign the rights to reimbursement for medical care costs to the Department, the filing group is ineligible until the client complies with this requirement. This includes a client eligible for *long term care* (see OAR 461-001-0000) insurance payments who fails to comply as described in subsection (b) of this section.

(b) In all programs except the Program for All-Inclusive Care for the Elderly (PACE, see OAR 411-045-0000 to 411-045-0140), when a client has *long term care* insurance, the client complies with the requirements of this rule by reducing the Department's share of the *long term care* service costs by taking the following actions for the entire period of time that the client is eligible for Department-covered *long term care* services:

(A) For a client in a nursing facility:

(i) Submitting the necessary paperwork to receive the *long term care* insurance payments and designating the *long term care* facility as the payee for the *long term care* insurance benefits; or

(ii) When the insurance company will not pay the *long term care* insurance benefits directly to the *long term care* facility, submitting the necessary paperwork to receive insurance payments and then promptly turning over the *long term care* insurance payments to the *long term care* facility upon receipt.

(B) For a client in community based care (see OAR 461-001-0000):

(i) Submitting the necessary paperwork to receive the *long term care* insurance payments and designating the Department as the payee for the *long term care* insurance benefits; or

(ii) When the insurance company will not pay the *long term care* insurance benefits directly to the Department, submitting the necessary paperwork to receive the insurance payments and then promptly turning over the *long term care* insurance payments to the Department upon receipt.

(2) The Department may refuse to pay medical expenses for anyone in the *benefit group* (see OAR 461-110-0750) when another party or resource should pay first.

(3) The amount the Department may collect in reimbursement is limited to the amount of medical services paid by the Department on the client's behalf.

(4) The Department establishes an overpayment if it is discovered after-the-fact that during any period of time a client or another individual submitting a *long term care* insurance claim on the client's behalf received a *long term care* insurance payment that was not turned over to the *long term care* facility or Department as required by subsection (1)(b) of this rule.

(b) Health care coverage for that *child*.

(2) Each adult client must make a good faith effort to obtain available coverage under Medicare.

(3) To be eligible for the EXT, GAM, MAA, MAF, OHP (except OHP-CHP and OHP OPU), OSIPM, and SAC programs, once informed of the requirement, an individual who is able to must apply for, accept, and maintain cost-effective, employer-sponsored health insurance (see OAR 461-155-0360). In the GAM and OSIPM programs, the client is not required to incur a cost for the health insurance.

(4) In the OHP-OPU program:

(a) An individual who can obtain health insurance through his or her employer must cooperate in determining eligibility for the Family Health Insurance Assistance Program (FHIAP). Rules for FHIAP are at OAR 442-004-0000 and following. If eligible for FHIAP, the individual must:

(B) Enroll the other OHP-OPU recipients who are eligible for insurance through FHIAP.

(b) The requirements of subsection (a) of this section do not apply to:

(5) An individual who fails to meet an applicable requirement in sections (1), (2), (3), or (4) of this rule is removed from the *need group* (see OAR 461-110-0630) except that in the OHP program the individual is removed from the *benefit group* (see OAR 461-110-0750).

(6) In the case of an individual failing to meet the requirements of section (1) of this rule, the Department applies the penalty after providing the client with notice and opportunity to show the provisions of OAR 461-120-0350 apply.

(7) The penalty provided by this rule ends when the client meets the requirements of this rule.

### Specific Requirements; EXT

(1) To be eligible for EXT benefits, at least one member of the filing group must have been eligible for and received MAA or MAF, and then become ineligible because of:

- (a) An increase in the earnings of the caretaker relative;
- (b) An increase in child support received; or
- (c) A combination of an increase in both the earnings of the caretaker relative and child support received.

(2) If the filing group becomes ineligible for MAA or MAF when another change occurs in conjunction with the increase in earned income or child support, the filing group is not eligible for EXT if the other change, by itself, makes the group ineligible for MAA or MAF.

(3) Eligibility for EXT is limited to the members of the MAA or MAF benefit group at the time that those benefits end.

(4) Subject to the time periods established in OAR 461-135-0096(1):  
(a) Once eligibility for EXT is established, members of the benefit group are ineligible if the filing group contains no dependent child.

(b) A benefit group may regain EXT eligibility after becoming ineligible, even if eligibility was lost due to moving out of state, whenever the group again meets EXT eligibility requirements.

(c) Persons who have lost EXT eligibility because they leave the household during the EXT eligibility period may regain eligibility when they return to the household.

### Eligibility Period; EXT

(1) For a client who meets the eligibility requirements for EXT, the period of eligibility is one of the following:

- (a) If eligibility for EXT results from increased child support, the period of eligibility is four months.
- (b) If eligibility for EXT results from an increase in the caretaker relative's earnings, the period of eligibility is twelve months.

(2) The period of eligibility for EXT is based on the increase in the caretaker relative's earnings and is described in subsection (1)(b) of this rule in each of the following situations:

(a) A client meets the eligibility requirements for EXT based on an increase in the caretaker relative's earnings and also meets the eligibility requirements based on an increase in child support in the same month.

(b) A client meets the eligibility requirements for EXT based on a combination of increased income from the caretaker relative's earnings and child support, although either increase by itself does not make the filing group ineligible for MAA or MAF.

(3) The EXT eligibility period begins the first of the month following the month eligibility for MAA or MAF ends. If a benefit group received MAA or MAF benefits when they were eligible for EXT, the MAA or MAF benefits are not an overpayment. However, any month in which the client receives MAA or MAF benefits when eligible for EXT is counted as a month of EXT eligibility.

## 461-135-0835

### Limits on Estate Claims

(1) In the BCCM, GA, GAM, OHP, OSIP, OSIPM, and QMB programs:

- (a) The Department has a priority claim against the property or any interest therein belonging to the estate of any deceased person as provided in ORS Chapters 411 and 414. The Estate Administration Unit of the Department (EAU) is authorized to present and file such claim against the estate. It will be treated as a preferred claim and filed in a like manner as the claims of other creditors.

# ADMINISTRATIVE RULES

(b) In determining the extent of the estate resources subject to the Department's claim, except as provided in subsection (c) of this section, the Department must disregard resources in an amount equal to the value of resources excluded in the most recent eligibility determination under OAR 461-160-0855, based on payments received under a *qualified partnership policy* (see OAR 461-001-0000). The disregard of resources specific to the estate recovery claim applies to Medicaid benefits received after the effective date of the Medicaid eligibility determination in which a *qualified partnership policy* was considered and approved. The amount of any Medicaid assistance incurred in a prior Medicaid eligibility period where *qualified partnership policy* benefits were not considered would not be subject to the estate resource disregard.

(c) There is no disregard of resources under subsection (b) of this section if the client, or the spouse of the client, at any time transferred the value of the *qualified partnership policy* excluded resource amount to another individual for less than fair market value prior to the death of the client or the client's surviving spouse, or exhausted the disregarded resource amount by purchasing things of value to the client or the client's surviving spouse while either was living.

(d) For a recipient who died prior to October 1, 2008:

(A) If there is a surviving spouse, the Department has a claim against the estate of the surviving spouse for public assistance paid to the surviving spouse.

(B) In addition, the Department has a claim against the estate of the surviving spouse for public assistance paid to the pre-deceased spouse, but only to the extent that the surviving spouse received property or other assets from the pre-deceased spouse through any of the following:

- (i) Probate.
- (ii) Operation of law.

(C) If estate recovery is deferred until the surviving spouse dies, the fair market value of the property subject to the Department's claim is determined based on the current *value* (see OAR 461-135-0832) of the property in the surviving spouse's estate.

(D) However, neither claim is enforceable until after the death of the surviving spouse (if any) and only when there is no surviving *child under age 21* (see OAR 461-135-0832), no surviving *blind child* (see OAR 461-135-0832) of any age, and no surviving *disabled child* (see OAR 461-135-0832) of any age.

(e) For a recipient who died on or after October 1, 2008:

(A) If there is a surviving spouse, the Department has a claim against the estate of the surviving spouse for public assistance paid to the surviving spouse.

(B) In addition, the Department has a claim against the estate of the surviving spouse for public assistance paid to the pre-deceased spouse, but only to the extent that the surviving spouse received property or other assets from the pre-deceased spouse through any of the following:

- (i) Probate.
- (ii) Operation of law.

(iii) An interspousal transfer, including one facilitated by a court order, which occurs:

(I) Before, on, or after October 1, 2008; and

(II) No earlier than 60 months prior to the first *date of request* (see OAR 461-135-0832) established from the pre-deceased spouse's and the surviving spouse's applications, or at any time thereafter, whether approved, withdrawn, or denied, for the public assistance programs referenced in section (2) of this rule.

(C) If estate recovery is deferred until the surviving spouse dies, the fair market value of the property subject to the Department's claim is determined based on the current *value* of the property in the surviving spouse's estate.

(D) However, neither claim is enforceable until after the death of the surviving spouse (if any) and only when there is no surviving *child under age 21*, no surviving *blind child* of any age, and no surviving *disabled child* of any age.

(2) The amount of the claim is as follows:

(a) Any payments made at any age under the General Assistance provisions of ORS Chapter 411, categorized as GA, are recoverable from the estate of any deceased recipient or the estate of the recipient's spouse. In the GA and GAM programs, the amount of the claim will not exceed the total amount of cash and medical benefits paid. The claim will include benefits provided under the Home and Community-Based Care Waiver program. This applies to all General Assistance programs, even those that are no longer active.

(b) In the BCCM, OSIP AD, OSIP OAA, OSIPM AD, OSIPM OAA, and QMB programs, the amount of the claim includes all GA category benefits paid at any age and all Title XIX benefits provided after the recipient reached age 55, except any QMB program payment. If the recipient was *permanently institutionalized* (see OAR 461-135-0832), the claim includes the total amount of all GA category benefits and Title XIX benefits paid at any age. This applies to all Old Age Assistance and Aid to the Disabled recipients, including those served by Home and Community-Based Care Waiver programs. It also includes recipients covered by programs that are no longer active.

(c) In the OHP, OSIP AB, and OSIPM AB programs, the claim includes the total amount of GA category benefits paid at any age and all Title XIX

benefits provided after the recipient reached age 55. If the recipient was *permanently institutionalized*, the claim includes the total amount of GA category and Title XIX benefits paid at any age. The claim shall include benefits provided under the Home and Community-Based Care Waiver program.

## 461-135-1125

### Reservation Lists and Eligibility; OHP-OPU

(1) The "OHP Standard Reservation List" means a list of individuals who may be considered for the OHP-OPU program as a new applicant at such times as the Department determines that new applicants may be added into the program. This list is used to manage enrollment of new applicants as defined by OAR 461-135-1102 into the program within the limits of program authority and funding.

(2) An "OHP Standard Reservation List Applicant" means an individual who has been selected randomly under section (6) of this rule and establishes a date of request (see OAR 461-115-0030) within 45 days from the date the Department mails notification that the individual's reservation number has been selected randomly.

(3) When the Department specifies that the OHP Standard Reservation List is open, an individual is placed on the OHP Standard Reservation List if all of the following requirements are met:

(a) The individual, or someone acting on behalf of the individual, may request placement on the OHP Standard Reservation List by calling the designated telephone number for the OHP Standard Reservation List or in writing. A written request must arrive through one of the following methods:

(A) By mail to the designated mailing address for the OHP Standard Reservation List.

(B) By fax or hand delivery to a local Department office that receives client applications for the Oregon Health Plan.

(C) By electronic submission from the OHP website or by e-mail to the OHP Standard Reservation List e-mail address.

(b) The full name, date of birth, and mailing address of each individual requesting placement on the OHP Standard Reservation List must be provided to the Department and received by the Department as described in subsection (a) of this section before the request is considered complete.

(c) If the address of an individual changes after the individual makes a request, the individual must provide an updated address to the Department using a method described in subsection (a) of this section. If the individual

reports an address change to the Department in a way other than that outlined in subsection (a) of this section, the Department cannot guarantee the address change will be reflected in the reservation list, but will make reasonable efforts to incorporate that address change.

(4) The following procedures apply to the OHP Standard Reservation List:

(a) Individuals completing a request for placement on the OHP Standard Reservation List are assigned a reservation number. All members of an OHP filing group (see OAR 461-110-0400 for filing group composition) requesting placement on the OHP Standard Reservation List are assigned the same reservation number.

(b) The Department may request that individuals voluntarily provide their social security number (prior to the OHP 7210R Application). The Department may use the social security number for purposes of identification to help prevent duplicate reservations. The Department may not deny placement on the OHP Standard Reservation List because an individual does not provide a social security number.

(c) The Department sends confirmation to individuals who are placed on the OHP Standard Reservation List. If there is already a reservation established, individuals who have received confirmation from the Department need not make an additional request unless the reservation was removed (see section (8) of this rule), already used, or withdrawn.

(5) Requesting placement on the OHP Standard Reservation List, receiving a reservation number, or being placed on the OHP Standard Reservation List does not constitute an application for OHP-OPU or any other medical program administered by the Department. Individuals placed or refused placement on the OHP Standard Reservation List are not evaluated for DHS medical program eligibility.

(6) At such times that the Department determines that it has the requisite authority and funding and that new applicants can be added to the OHP-OPU program, and after the Department determines the number of new applicants that can be added, a designated number of individuals on the OHP Standard Reservation List are selected randomly. Once an individual has been selected randomly, the reservation number assigned to that individual and its position on the list has been used and is no longer available.

(7) An OHP Standard Reservation List Applicant must file a Department application or amend a completed application (see OAR 461-115-0050) as a prerequisite of receiving OHP-OPU program benefits.

(8) When the Department determines that the OHP Standard Reservation List should be discontinued, all individuals currently on the list are removed except as provided in section (9) of this rule. If the Department establishes a new OHP Standard Reservation List, the Department determines when an individual may again request placement on the list according to sections (3) and (4) of this rule.

(9) The Department may opt to use the reservation number of an individual not selected randomly from a discontinued list to create a new OHP Standard Reservation List. To be added to the new OHP Standard Reservation List, the Department may require each individual not selected randomly from the discontinued OHP Standard Reservation List to request placement on the new OHP Standard Reservation List and be assigned a new reservation number.

(10) Nothing in this rule prevents any individual from applying for medical assistance at any time. However, new applicants as defined in OAR 461-135-1102 for OHP-OPU are managed by the OHP Standard Reservation List.

### Home

(1) **Home defined:** A home is the place where the filing group lives. A home may be a house, boat, trailer, mobile home, or other habitation. A home also includes the following:

(a) Land on which the home is built and contiguous property.

(A) In all programs except the GA, GAM, OSIP, OSIPM, QMB, and SNAP programs property must meet all the following criteria to be considered contiguous property:

(i) It must not be separated from the land on which the home is built by land owned by people outside the *financial group* (see OAR 461-110-0530).

(ii) It must not be separated by a public right-of-way, such as a road.

(iii) It must be property that cannot be sold separately from the home.

(B) In the GA, GAM, OSIP, OSIPM, QMB, and SNAP programs, contiguous property is property not separated from the land on which the home is built by land owned by people outside the *financial group*.

(b) Other dwellings on the land surrounding the home that cannot be sold separately from the home.

(2) **Exclusion of home and other property:**

(a) For a client who has an *initial month* (see OAR 461-001-0000) of long-term care on or after January 1, 2006:

(A) For purposes of this subsection:

(i) The definition of "child" in OAR 461-001-0000 does not apply.

(ii) "Child" means a biological or adoptive child who is:

(I) Under age 21; or

(II) Any age and meets the Social Security Administration criteria for blindness or disability.

(B) The equity value of a home is excluded if one of the following requirements is met:

(i) The equity in the home is \$500,000 or less and one of the following:

(I) The client occupies the home.

(II) The spouse of the client occupies the home.

(III) The child of the client occupies the home.

(IV) The home equity is excluded under OAR 461-145-0250.

(V) The home is listed for sale per OAR 461-145-0420.

(ii) The equity in the home is more than \$500,000 and one of the following:

(I) The spouse of the client occupies the home.

(II) The child of the client occupies the home.

(III) Notwithstanding OAR 461-120-0330, the client is legally unable to convert the equity value in the home to cash.

(b) For all other filing groups, the value of a home is excluded when the home is occupied by any member of the filing group.

(c) In the SNAP program, the value of land is excluded while the group is building or planning to build their home on it, except that if the group owns

# ADMINISTRATIVE RULES

(or is buying) the home they live in and has separate land they intend to build on, only the home in which they live is excluded, and the land they intend to build on is treated as real property in accordance with OAR 461 145 0420.

(3) **Exclusion during temporary absence:** If the value of a home is excluded under section (2) of this rule, the value of this home remains excluded in each of the following situations:

(a) In all programs except the GA, GAM, OSIP, OSIPM, and QMB programs, during the temporary absence of all members of the filing group from the property, if the absence is due to illness or uninhabitability (from casualty or natural disaster), and the filing group intends to return home.

(b) In the SNAP program, when the *financial group* is absent because of employment or training for future employment.

(c) In the GA, GAM, OSIP, OSIPM, and QMB programs, when the client is absent to receive care in a medical institution, if one of the following is true:

(A) The absent client has provided evidence that he or she will return to the home. The evidence must reflect the subjective intent of the client, regardless of the client's medical condition. A written statement from a competent client is sufficient to prove the intent.

(B) The home remains occupied by the client's spouse, child, or a relative dependent on the client for support. The child must be less than 21 years of age or, if over the age of 21, blind or an individual with a disability as defined by SSA criteria.

(d) In the MAA, MAF, REF, REFM, SAC, and TANF programs, when all members of the filing group are absent because:

(A) The members are employed in seasonal employment and intend to return to the home when the employment ends; or

(B) The members are searching for employment, and the search requires the members to relocate away from their home. If all members of the filing group are absent for this reason, the home may be excluded for up to six months from the date the last member of the filing group leaves the home to search for employment. After the six months, if a member of the filing group does not return, the home is no longer excluded.

## 461-145-0405

### Plan for Self-support

(1) This rule covers two types of plans for self support.

(a) A plan for self support approved by the Social Security Administration.

# ADMINISTRATIVE RULES

(C) The client will be able to return home within six months of leaving, according to a written statement from a primary practitioner, RN, or PAS (pre-admission screening) RN; and

(D) The home will accommodate the service plan of the client when the client returns.

(b) The allowance may be authorized for six months. If, after six months, the client continues to meet the criteria in subsection (a) of this section, an extension may be approved in writing by a supervisor.

(c) The accommodation allowance equals the total of the client's housing cost, including taxes and insurance, plus the limited standard utility allowance for the SNAP program provided in OAR 461-160-0420.

(3) Additional cost for accommodation. A client meeting the criteria in section (1) of this rule may receive an accommodation allowance if the client's shelter cost exceeds the shelter standard in OAR 461-155-0250(2) and the requirements of one of the following subsections are met:

(a) The client has a documented increase in rent associated with access by an individual with a disability; or

(b) The client has been assessed to need a live-in provider, has accepted the services of a live-in provider, and requires an additional bedroom for the live-in provider.

(4) The accommodation allowance is determined as follows:

(a) For a client who receives an accommodation allowance based on increased costs associated with access by an individual with a disability, only the additional increase in cost for the accommodation is allowed.

(b) For a client who receives an accommodation allowance based on the need for an additional bedroom for a live-in provider, the amount of the accommodation allowance is the limited standard utility allowance for the SNAP program under OAR 461-160-0420 plus:

(A) One-third of the monthly rental cost; or

(B) One-third of the monthly payment on the property agreement (including mortgage, trust deed, or land sale contract). The property agreement is the agreement existing at the time the client is approved for the accommodation allowance. The accommodation allowance for the housing portion ends if the debt is refinanced, unless the refinancing was done only to reduce the original property agreement's interest rate or total monthly payment amount and the owner realized no direct or indirect payment of the home's equity value from the refinancing.

(i) If the refinancing requirement under this paragraph is met, the amount of the accommodation allowance is one-third of the refinanced property agreement amount plus the limited standard utility allowance under OAR 461-160-0420.

(ii) If the refinancing requirement under this paragraph is not met and the housing portion of the accommodation allowance ends, the client remains eligible only for the limited standard utility allowance portion under OAR 461-160-0420.

(5) Special requirements.

(a) A client who rents and qualifies for an allowance under section (3) of this rule must take the steps necessary to obtain subsidized housing under any federal or state housing program. A client who fails, at any time, to take the steps necessary to obtain subsidized housing reasonably available is ineligible for the allowance. A client, who has been denied or revoked from participation in any rent subsidy program based on the client's own actions is ineligible for benefits under this rule.

(b) A client who rents housing and refuses subsidized housing will no longer be eligible for an accommodation allowance, except that if the housing that is offered is not suitable, related to accommodations, and the client continues to have increased costs related to accommodations in the client's current living situation, the accommodation allowance may continue until such time as appropriate subsidized housing is found.

### Special Need; Special Diet Allowance

(1) In the EXT, GA, GAM, MAA, MAF, OSIP, OSIPM, REF, REFM, SAC, SFPSS, and TANF programs, a client is not eligible for a special diet allowance if receiving any of the following:

(a) Room and board.

(b) Residential care facility services or assisted living facility services.

(d) Adult foster care services.

(e) An allowance for restaurant meals.

(a) The client would be in an imminent life-threatening situation without the diet, as verified by medical documentation from a Department-approved medical authority (see OAR 461-125-0830); and

(b) A nutritionist verifies that the special diet needed exceeds the cost of a regular diet.

(3) The amount of a special diet allowance is calculated as follows:

(a) In the EXT, MAA, MAF, REF, REFM, SAC, SFPSS, and TANF programs, the difference between the actual cost of the special diet and a prorated share of the SNAP program benefit for the appropriate number of clients in the *benefit group* (see OAR 461-110-0750).

(b) In the GA, GAM, OSIP, and OSIPM programs, the lesser of the following:

(A) The difference between the actual cost of the special diet and the amount provided in the basic standard for food (see OAR 461-155-0250).

(B) A maximum of \$300 per month, or an exceptional amount, authorized by the SPD Program Assistance Section, which will not exceed the cost of home IV therapy.

(4) Local management staff must approve the request for a special diet allowance.

### Special Need — Supplemental Telephone Allowance; OSIPM

In the OSIPM program:

(1) The Department provides a telephone allowance for a client receiving SSI, a client with an adjusted income less than the OSIPM program standard under OAR 461-155-0250, and a client receiving in-home services if the client is unable to leave his or her residence without assistance due to a documented medical condition.

(2) The telephone allowance may cover the following costs:

(a) The least expensive appropriate telephone service or the basic rate, whichever is less.

(b) The cost of telephone adaptive equipment, if the client has a medically documented need (for instance, TDD, a special headset, dialing mechanism, or emergency response system).

(c) Necessary installation charges.

(3) An SSI-eligible client or a client with an adjusted income less than the OSIPM program standard granted a telephone allowance must apply for a payment through the Oregon Telephone Assistance Program (OTAP). In addition, an SSI-eligible client or a client with an adjusted income less than the OSIPM program standard requesting payment for telephone installation must apply for Link-Up America. If the Link-Up America credit does not cover the installation cost, the Department provides the difference up to a maximum supplement payment of \$30.

## 461-160-0580

### Excluded Resource; Community Spouse Provision (OSIPM except OSIPM-EPD)

In the OSIPM (except OSIPM-EPD) program:

(1) This rule applies to an *institutionalized spouse* (see OAR 461-001-0030) who has applied for benefits because he or she is in or will be in a *continuous period of care* (see OAR 461-001-0030).

(2) Whether a *legally married* (see OAR 461-001-0000) couple lives together or not, the determination of whether the value of the couple's resources exceeds the eligibility limit for the institutionalized spouse for OSIPM program is made as follows:

(a) The first step is the determination of what the couple's combined countable resources were at the beginning of the most recent *continuous period of care*. (The beginning of the *continuous period of care* is the first month of that continuous period.)

(A) Division 461-140 and 461-145 rules applicable to OSIPM describe which of the couple's resources are countable resources, and are applicable to determine whether a community spouse's resources are countable, even if the rule only applies to OSIPM clients.

(B) The countable resources of both spouses are combined.

(C) At this point in the computation, the couple's combined countable resources are considered available equally to both spouses.

(b) The second step is the calculation of one half of what the couple's combined countable resources were at the beginning of the *continuous period of care*. The community spouse's half of the couple's combined resources is treated as a constant amount when determining eligibility.

(c) The third step is the determination of the community spouse's resource allowance. The community spouse's resource allowance is the largest of the four following amounts:

(A) The community spouse's half of what the couple's combined countable resources were at the beginning of the *continuous period of care*, but not more than \$109,560.

(B) \$21,912 (the state community-spouse resource allowance).

(C) A court-ordered community spouse resource allowance. In this paragraph and paragraph (2)(f)(C) of this rule, the term *court-ordered community spouse resource allowance* means a court-ordered community spouse resource allowance that, in relation to the income generated, would raise the community spouse's income to a court-approved monthly maintenance needs allowance. In cases where the client became an institutionalized spouse on or after February 8, 2006, this resource allowance must use all of the client's available income and the community spouse's income to meet the community spouse's monthly maintenance needs allowance before any resources are used to generate interest income to meet the allowance.

(D) After considering the income of the community spouse and the income available from the institutionalized spouse, an amount which, if invested, would raise the community spouse's income to the monthly maintenance needs allowance. The amount described in this paragraph is considered only if the amount described in subparagraph (i) of this paragraph is larger than the amount described in subparagraph (ii); it is the difference between the following:

(i) The monthly income allowance computed in accordance with OAR 461-160-0620.

(ii) The difference between:

(I) The sum of gross countable income of the community spouse and the institutionalized spouse; and

(II) The applicable need standard under OAR 461-160-0620(3)(c).

(d) The fourth step is the determination of what the couple's current combined countable resources are when a resource assessment is requested or the institutionalized spouse applies for OSIPM. The procedure in subsection (2)(a) (first step) of this rule is used.

(e) The fifth step is the subtraction of the community spouse's resource allowance from the couple's current combined countable resources. The resources remaining are considered available to the institutionalized spouse.

(f) The sixth step is a comparison of the value of the remaining resources to the OSIPM resource standard for one person (under OAR 461-160-0015(4)(a)). If the value of the remaining resources is at or below the standard, the institutionalized spouse meets this eligibility requirement. If the value of the remaining resources is above the standard, the institutionalized spouse cannot be eligible until the value of the couple's combined countable resources is reduced to the largest of the four following amounts:

(A) The community spouse's half of what the couple's combined countable resources were at the beginning of the *continuous period of care* (but not more than \$109,560) plus the OSIPM resource standard for one person.

(B) \$21,912 (the state community-spouse resource allowance), plus the OSIPM resource standard for one person.

(C) A *court-ordered community spouse resource allowance* plus the OSIPM resource standard for one person. (See paragraph (2)(c)(C) of this rule for a description of the *court-ordered community spouse resource allowance*.)

(D) The OSIPM resource standard for one person plus the amount described in the remainder of this paragraph. After considering the income of the community spouse and the income available from the institutionalized spouse, add an amount which, if invested, would raise the community spouse's income to the monthly maintenance needs allowance. Add this amount only if the amount described in subparagraph (i) of this paragraph is larger than the amount described in subparagraph (ii); it is the difference between the following:

(i) The monthly income allowance computed in accordance with OAR 461-160-0620.

(ii) The difference between:

(I) The sum of gross countable income of the community spouse and the institutionalized spouse; and

(II) The applicable need standard under OAR 461-160-0620(3)(c).

(3) Once eligibility has been established, resources equal to the community spouse's resource allowance (under subsection (2)(c) of this rule) must be transferred to the community spouse if those resources are not already in that spouse's name. The institutionalized spouse must indicate his or her intent to transfer the resources and must complete the transfer to the community spouse within 90 days. This period may be extended for good cause. These resources are excluded during this period. After this period, resources owned by the institutionalized spouse but not transferred out of that spouse's name will be countable and used to determine ongoing eligibility.

# ADMINISTRATIVE RULES

(4) The provisions of paragraph (2)(c)(C) of this rule requiring income to be considered first may be waived if the Department determines that the resulting community resource allowance would create an undue hardship on the spouse of the client.

If the client's adjusted income exceeds the cost of care or service, the client must pay the full cost of care but has no additional liability.

(2) A client who receives SSI, or is deemed to receive SSI under section 1619(b) of the Social Security Act (42 U.S.C. § 1382h(b)), is eligible for OSIPM program benefits without having to make a payment.

(3) The IC service payment of a client in the OSIPM-IC program is reduced by the amount of his or her liability.

- (A) A mental health adult foster home.
- (B) A mental health residential treatment home.
- (C) A mental health residential treatment facility.
- (D) A mental health secure residential treatment facility.

(6) In the initial month of placement, a client may be exempt from payments required under this rule if the Department determines that the client's income has been exhausted prior to placement. If any income remains, the client must contribute to the cost of care or service.

(7) A client residing in an acute care hospital is exempt from payments required by this rule while residing in the acute care hospital. If a service benefit was received prior to admission to the acute care hospital, payment must be made for that service.

### Use of Income; OHP

Income is used to determine eligibility for OHP as follows:

(1) The average countable income of the *financial group* (see OAR 461-110-0530) assigned to the *budget month* (see OAR 461-001-0000) is determined in accordance with OAR 461-150-0055.

(2) For each member of the *need group* (see OAR 461-110-0630), the average *countable* (see OAR 461-001-0000) income of the *financial group* assigned to the budget month is compared to the applicable OHP program income standard. If the average *countable* income of the *financial group* is below the applicable income standard for the *need group* size and all other financial and non-financial eligibility requirements are met, the *need group* member is eligible for OHP program benefits. If the average *countable* income of the *financial group* equals or exceeds the applicable OHP program income standard, the *need group* member is ineligible for OHP program benefits except as provided by section (3) of this rule.

(3) The following members of the *need group* who are not eligible under section (2) of this rule are eligible for OHP program benefits if all other

financial and non-financial eligibility requirements are met and the *countable* income of the *financial group*, received or anticipated to be received in the *budget month*, is below the applicable OHP program income standard:

- (a) OHP-CHP program clients.
- (b) OHP-OPC program clients.
- (c) OHP-OP6 program clients.
- (d) OHP-OPP program clients.
- (e) Victims of domestic violence.

### Legal Status of Benefit Payments

(1) Under Oregon law, cash benefits are not subject to assignment, transfer, garnishment, levy, or execution, as long as they can be identified as program payments and are separate from other money in the client's possession.

(2) A cash payment accrues to and becomes vested in the client when issued.

(3) Except for EBT, the Department considers a benefit issued if the check has been handed to the client in the branch office, or mailed to the client. The Department considers a benefit issued, and received by the client, when a direct check deposit is made to the client's bank account.

(4) For EBT, the Department considers benefits issued and received when an EBT card and personal identification number (PIN) have been issued in person to the client, or the EBT card and PIN have been received by the client in the mail during conversion, and the benefits have been deposited to the client's EBT account.

(5) FS benefits issued by EBT remain available for client access for 12 calendar months from the date of issuance. The EBT system expunges unused benefits after 12 calendar months.

(6) Benefits to the client are unrestricted and do not require accountability for individual expenditures or amounts.

(7) In the TA-DVS program, a payment issued on behalf of a client as a vendor or dual payee payment or directly to the client becomes vested in the client when issued. The Department considers the benefit to be issued if the Department has mailed the payment to the vendor or has hand delivered or mailed a dual payee check to the client. Benefits in the TA-DVS program are restricted to uses outlined in OAR 461-135-1230.

### Restoring Benefits

(1) A client is entitled to a supplemental payment of benefits for the current month or restoration of benefits lost in a previous month if the client received a lower benefit than he or she was entitled to for the reasons given in this rule. A client may receive a restoration of lost benefits even if no longer eligible.

(2) A client may receive a supplemental payment if there was a change in the client's circumstances that would cause an increase in benefits, if the report of change was made before the first day of the payment month but too late for the Department to adjust the next payment.

(3) A client may receive a supplemental or restorative benefit if the Department caused an administrative underpayment. An administrative underpayment includes, but is not limited to, an underpayment caused by the following:

- (a) Failure to take action on information reported to the Department.
- (b) Use of an incorrect effective date.
- (c) Denial, closure or reduction of benefits in error and a failure to send the client a required notice of proposed action.
- (d) Making a calculation error.
- (4) A client is entitled to a restoration of lost benefits if:
  - (a) The restoration results from a final order in a contested case.
  - (b) The Department withheld too much of the client's grant in the collection of an overpayment.
  - (c) The restoration results from a court order.
  - (d) SNAP program benefits deposited in an EBT account were returned because the benefits aged off.
  - (e) After receiving proper notification, the Department failed to cancel the EBT card of an individual leaving a SNAP program household and that individual continues to access the household's SNAP program benefits in subsequent months.

(5) Restored benefits are added to the benefits of a currently eligible client. In the SNAP program, the Department will honor a reasonable request by a client to restore benefits in monthly installments.

# ADMINISTRATIVE RULES

(6) A client who moves from Oregon remains eligible for a restoration of benefits.

### Calculating Restored and Supplemental Benefits

(1) Supplemental and restorative benefits are calculated and paid as follows:

- (a) The effective date of the lost benefits is determined.
- (b) The benefit group is not eligible for restored benefits in any month that eligibility for the benefits cannot be established. The benefit group has an opportunity to prove eligibility for any months in question.
- (c) The correct benefits for the months in question are calculated.
- (d) The amount the benefit group actually received is subtracted from the amount they should have received.
- (e) The restoration amount for EBT aged-off FS benefits is the full amount of inaccessible benefits, if the request for restoration is made within nine months of the date the benefits were aged off.
- (f) The amount of restored benefits is offset against overdue or suspended overpayments.

(g) The group with the largest number of people who were in the benefit group at the time the loss occurred is entitled to the restorative payment. If the location of that group is unknown, the benefit is paid to the benefit group containing the primary person at the time the loss occurred.

(2) When, after receiving proper notification, the Department failed to cancel the EBT card of an individual leaving a SNAP program household and that individual continues to access the household's SNAP program benefits in subsequent months, the amount of SNAP program benefits to be restored is the amount used by the former household member.

### Replacing FS Benefits and EBT Cards

(1) The Department does not replace SNAP program benefits after they are delivered to the EBT account unless the Department failed to cancel the EBT card of an individual leaving a SNAP program household and that individual continues to access SNAP program benefits in subsequent months.

(2) The Department will replace the value of food purchased with SNAP program benefits if the food is destroyed by a verified household misfortune and the benefit group reports the loss within ten days of occurrence. The amount of the replacement may not exceed one month's allotment. The Department will replace the loss within ten days after the household provides sufficient verification.

(3) The Department will replace an EBT card reported lost, stolen, or not received only after the current card has been deactivated. An EBT card that is damaged or not functioning properly is replaced only after the card's status is changed to "card damaged" and the card is destroyed.

### Notice Situation; MRS, SRS, or TBA

(1) When a *benefit group* (see OAR 461-110-0750) is entered into the MRS (see OAR 461-170-0100), the Department sends a *basic decision notice* (see OAR 461-001-0000) for the GA, GAM, OSIP, OSIPM, and QMB programs and a *continuing benefit decision notice* (see OAR 461-001-0000) for all other programs.

(2) When the Department takes action on information reported on the Monthly Change Report or Interim Change Report form, the Department sends a *continuing benefit decision notice* for clients in the ERDC, MAA, MAF, OSIP, OSIPM, QMB, REF, REFM, SNAP, and TANF programs. The notice includes the amount of income used to determine the benefits or ineligibility.

(3) For all changes not reported on the Monthly Change Report or Interim Change Report form, which result in a closure or reduction in benefits, the Department sends a *timely continuing benefit decision notice*.

(4) For a *benefit group* in the MRS, when ending TANF benefits because of information acquired through the information match with the Child Support program, the Department sends a *continuing benefit decision notice*.

(5) When the Department changes the reporting system from one reporting system to another reporting system, the Department provides a *continuing benefit decision notice* if the change occurs at a time other than at the start of a *certification period* (see OAR 461-001-0000).

### Effective Dates; Redeterminations of CEC, CEM, EXT, MAA, MAF, OHP, OSIPM, QMB, SAC

In the CEC, CEM, EXT, MAA, MAF, OHP, OSIPM, QMB, and SAC programs, when the Department initiates a redetermination of eligibility, the Department must review each individual in the filing group for eligibility for the other medical programs listed in this rule prior to reducing or ending medical benefits. If additional information is needed to redetermine eligibility, members of the benefit group (see OAR 461-110-0750) remain eligible from the date the review is initiated until the Department determines their eligibility in accordance with the application processing time frames in OAR 461-115-0190.

### Effective Dates; Initial Month Medical Benefits

The effective date for starting medical benefits for an eligible client is as follows:

(1) In the CEC and CEM programs, it is the first of the month following the month that eligibility for Child Welfare medical, EXT, MAA, MAF, OHP, OHP-CHP, OSIPM, or SAC program benefits ends.

(2) In the EXT program, it is the first of the month following the month that MAA or MAF program eligibility ends.

(3) In the GAM, MAA, MAF, OHP, OSIPM, QMB-DW, REFM, and SAC programs:

(a) Except as provided for in sub-section (b) of this section:

(A) If the client meets all eligibility requirements on the *date of request* (see OAR 461-115-0030), it is the *date of request*. An OSIPM client who is *assumed eligible* under OAR 461-135-0010(7) meets "all eligibility requirements" for the purposes of this section as follows:

(i) Effective the first day of the month of the initial SSI payment if the client is age 21 or older.

(ii) Effective the first day of the month prior to the month of the initial SSI payment if the client is under the age of 21.

(B) If the client does not meet all eligibility requirements on the *date of request*, it is the first day following the *date of request* that all eligibility requirements are met.

(b) If the client does not complete the application within the time period described in OAR 461-115-0190 (including the authorized extension), the determination of an effective date requires a new *date of request*.

(4) In the QMB-BAS program, it is:

(a) The first of the month after the *benefit group* (see OAR 461-110-0750) has been determined to meet all QMB-BAS eligibility criteria and the Department receives the required verification; or

(b) The first of the month after the Low Income Subsidy (LIS) information is received, if the QMB-BAS application was generated by the electronic transmission of LIS data from the Social Security Administration.

(5) In the QMB-SMB and QMB-SMF programs, it is:

(a) The first of the month in which the *benefit group* meets all program eligibility criteria and the Department receives the required verification; or

(b) The first of the month in which the Low Income Subsidy (LIS) information is received, if the SMB or SMF application was generated by the electronic transmission of LIS data from the Social Security Administration.

(6) Retroactive eligibility is authorized under certain circumstances in some medical programs (see paragraph (2)(a)(A) of this rule, OAR 461-135-0875, and 461-180-0140).

### Parents as Scholars

(1) Parents as Scholars (PAS) is a JOBS program component that assists TANF parents who are or will be undergraduates to begin or continue their education at a two- or four-year educational institution.

(2) The following definitions apply to PAS:

# ADMINISTRATIVE RULES

(a) "Educational institution" means any post-secondary educational institution approved or accredited by the Northwest Commission on Colleges and Universities, by its regional equivalent, or by the appropriate official, department, or agency of the state or nation in which the institution is located and that is:

- (A) A four-year college or university;

(3) The number of participants in PAS in a calendar year is limited as follows:

(a) The number of participants in PAS in a calendar year may not exceed one percent of the number of households receiving TANF on January 1 of that calendar year.

(b) If one percent of the number of households receiving TANF on January 1 of the current calendar year is less than one percent of the number of households receiving TANF on January 1 of the previous calendar year, the Department will not fill PAS slots vacated on or after January 1 of the current calendar year until the total number of slots is equal to one percent of the households receiving TANF for the current calendar year.

(4) A PAS participant receives TANF cash assistance as well as necessary support services provided through the JOBS program. JOBS support services:

(a) May not be used to pay for the cost of tuition and fees associated with enrollment by a participant at an educational institution.

(b) Notwithstanding OAR 461-190-0211, may be used to pay for books and supplies associated with enrollment by a participant at an educational institution subject to the following provisions:

(A) The books and supplies are required for completion of the participant's coursework at an educational institution;

(B) There is no other funding available to the PAS participant for books and supplies; and

(C) No more than \$100 per academic term or semester may be paid per PAS participant for books and supplies.

(5) Applying for PAS. A parent who is applying for or receiving TANF may apply for PAS by completing and signing the PAS application and submitting it to the Department. The application and other documentation required by this rule must be submitted to Department of Human Services JOBS Unit (PAS), 2nd Floor, 500 Summer Street NE E48, Salem, Oregon 97301.

(6) PAS Selection Process; Wait List.

(a) PAS applications received from PAS applicants will be processed in the order in which the Department receives the applications.

(b) If the maximum number of PAS slots for a calendar year has not been filled, the Department will notify an applicant when he or she has been approved.

(c) When the maximum number of PAS slots for a calendar year has been filled and there is a wait list, the Department will notify an applicant when he or she has been added to the wait list.

(d) Once each year, the Department will contact PAS applicants on the wait list to determine if the PAS applicant's name should be removed from the wait list.

(e) When the maximum number of PAS slots for a calendar year has been filled and there is a wait list and a PAS slot becomes available, the Department will notify the next applicant on the wait list that an opening has become available.

(f) The Department will inform an applicant for PAS who does not qualify or no longer qualifies for placement on the wait list because the applicant becomes ineligible for TANF or no longer meets the requirements of this rule.

(7) Selection Requirements.

(a) A PAS applicant must meet the financial and nonfinancial eligibility requirements for TANF.

(b) A PAS applicant who is not applying for or receiving TANF at the time of selection may not participate in PAS or remain on the wait list.

(c) A PAS applicant must include documentation that the PAS applicant is an undergraduate who has been accepted for full-time attendance into or is enrolled full-time at an educational institution.

(d) A PAS applicant must demonstrate as part of the PAS application that completion of the educational program is likely to result in employment that provides the wages and benefits necessary for the applicant to support the applicant's family without TANF.

(8) Requirements of Participants; Limitations.

(a) A participant must provide documentation to the Department quarterly, or following completion of each academic term at the *educational institution*, that the participant is making satisfactory academic progress, as defined by the *educational institution*, toward a degree.

(b) A participant must provide documentation to the Department, prior to the start of each new academic term or semester, that the PAS applicant is an undergraduate who is enrolled full-time at an educational institution.

(c) A participant must attend classes full-time as defined by the *educational institution*, unless there is *good cause* (see OAR 461-130-0327) to limit attendance to less than full-time.

(d) Unless there is *good cause* for not attending year round, a participant must either:

(A) Attend classes year round, including during the summer if classes are offered by the *educational institution*; or

(B) If not attending classes year round, participate in work experience related to the field of study of the participant when not attending classes. If a work experience related to the participant's field of study is not available, participate in another appropriate work experience.

(e) During the first twelve months of participation in PAS, a participant must record attendance and homework time weekly and must provide this information to the Department no less frequently than monthly.

(f) Except as provided in subsection (g) of this section, a participant must remain eligible for TANF.

(g) If a participant becomes temporarily ineligible for TANF during a period of four or fewer months due to income from a paid work experience, the applicant may retain their PAS slot when school resumes if:

(A) The participant regains TANF eligibility; and

(B) PAS is still an appropriate activity for the participant.

(9) Ending PAS. PAS is ended for a PAS participant when:

(a) The PAS participant completes his or her degree program;

(b) Except as provided in subsection (8)(g) of this rule, the PAS participant becomes ineligible for TANF; or

(c) All of the following are true:

(A) The PAS participant fails to meet one or more of the requirements of subsections (8)(a) through (8)(e) of this rule;

(B) Attempts to re-engage the PAS participant pursuant to OAR 461-190-0231 are unsuccessful; and

(C) There is a determination that the PAS participant does not have *good cause* (see OAR 461-130-0327) for failure to meet one or more requirements of subsections (8)(a) through (8)(e) of this rule.

### Exemption From Participating; New Arrival Employment Services (NAES)

(1) Participation in the NAES program is limited to RCSP program adult clients and refugees who would be eligible for the RCSP program, but have been in the U.S. for more than eight months and less than 13 months. A RCSP program client who meets the requirements of OAR 461-120-0120(8) may not be in the NAES program beyond his or her first eight months in the United States.

# ADMINISTRATIVE RULES

(2) An adult client is exempt from participation in or disqualification from the NAES program when the requirements of one of the following subsections are met:

(a) In the ninth month of pregnancy or when experiencing medical complications due to pregnancy that prevent participation in the NAES program.

(b) During the first six months after giving birth, except that the client may be required to participate in parenting classes or family stability activities.

(c) Under 20 years of age during the first 16 weeks after giving birth, except that the client may be required to participate in suitable activities with a preference for educational activities, parenting classes, and family stability activities.

(d) A parent providing care for a family member who lives in the home and has a *disability* (see OAR 461-001-0000).

(e) Sixty-five years of age or older.

(f) Receiving supplemental security income (SSI) from the Social Security Administration.

(g) Participation likely would cause undue hardship or is contrary to the best interest of a child or needy caretaker relative.

(h) Volunteering, except that a client may not be disqualified for conduct that occurred while a volunteer. Volunteering, as used in the NAES program rules, means that a client who is otherwise exempt from participating in the NAES program chooses to participate in an employment program nevertheless.

(i) A medical condition documented by a licensed medical professional.

(3) An adult client is exempt from disqualification from the NAES program when participating more than 10 hours per week during the seventh and eighth months of pregnancy.

## 461-193-1380

### Standards for NAES Support Service Payments

(1) The Department helps an individual comply with the individual's *case plan* (see OAR 461-001-0025) by providing payments for child care, housing, transportation, and other needs to make participation in required activities (see OAR 461-001-0025) successful. These payments are provided for costs directly related to participation in *activities*, for costs necessary to obtain and retain a job, and for enhancing wages and benefits.

(a) In approving NAES support service payments, the Department must consider lower-cost alternatives.

(b) It is not the intent of the Department or of this rule to use Department funding when other funding is available in the community. It is the Department's expectation that case managers and clients work collaboratively to seek resources that reasonably are available to the client to facilitate participation in required *activities*.

(c) An NAES program client is not eligible to receive any support service payment, except for child care or transportation, during his or her first 30 days in the United States.

(2) An NAES program support service payment must be authorized in advance and is subject to the limitations of this rule.

(3) Subject to the limitations of state funding and this rule, an NAES program *support services* (see OAR 461-001-0025) payment is made available to an individual if all of the following requirements are met:

(a) The individual is an NAES participant.

(b) The individual has agreed to participate in a NAES *activity* or other approved *activities* as specified in the individual's *case plan*.

(4) **Denials and Reductions.** The Department may reduce, close, or deny in whole or in part an individual's request for an NAES support service payment in each of the following circumstances:

(a) If the individual is disqualified for failing to comply with a *case plan*, unless the payment in question is necessary for the client to comply with his or her *case plan*.

(b) If the purpose for the payment is not related to the individual's *case plan*.

(c) If the client disagrees with a support service payment offered or made by the Department as outlined in the client's *case plan*.

(5) **Required Verification.**

(a) The Department may require the individual to provide verification of a need for the support service prior to approval and issuance of payment if verification is reasonably available.

(b) The Department may require the individual to provide verification of costs associated with a support service if verification is reasonably available.

(6) **Child Care.** Payments for child care are authorized, as limited by OAR 461 160 0040, if necessary to enable the individual to participate in NAES program *activities* or other approved *activities* specified in the individual's *case plan*. If authorized, payment for child care will be made for:

(a) The lesser of the actual rate charged by the care provider and the rate established in OAR 461-155-0150. The Department rate for children in care less than 158 hours in a month is limited by OAR 461-155-0150, except that the cost of child care may be paid up to the monthly maximum when a child is in care less than 158 hours per month and:

(A) Appropriate care is not accessible to the individual at the hourly rate; or

(B) The individual is a teen parent using on-site care while attending education *activities*.

(b) The minimum hours necessary, including meal and commute time, for the individual to participate in NAES program *activities*, other approved *activities*, or to obtain and maintain employment.

(7) Child care payments may be provided when an individual is not participating in NAES program *activities* or other approved *activities* if payment is necessary for the client to retain his or her child care provider. Only the minimum amount necessary to maintain the child care slot with the provider may be covered as established in OAR 461-155-0150. Not more than 30 days between scheduled NAES program *activities* or other approved *activities* may be covered.

(8) Unless good cause (see OAR 461-193-0890) has been determined, an NAES program client must attend an NAES program child care orientation to receive on-going child care payments.

(9) **Housing and Utilities.** In addition to a payment for basic living expenses under OAR 461-135-0475, a payment may be provided to an NAES program participant to secure or maintain housing and utilities in the following situations:

(a) To prevent an eviction or utility shut-off, secure housing to find or maintain employment, or participate in *activities* listed in the individual's *case plan*. Payment is available when all of the following requirements are met:

(A) The individual cannot make a shelter or utility payment due to a lack of assets.

(B) The lack of assets did not result from an NAES program or Child Support disqualification, a reduction due to an IPV recovery, overpayment recovery (other than administrative error), or failure by the individual to pay shelter or utility expenses when funds were reasonably available.

(C) The individual's *case plan* addresses how subsequent shelter or utility payments are to be made.

(b) The shelter need results from *domestic violence* (see OAR 461-001-0000) and all of the following requirements are met:

(A) The individual is not eligible for the TA-DVS program.

(B) The individual is able to pay all subsequent shelter costs, either through the individual's own resources or through other resources available in the community.

(C) The individual's *case plan* addresses how subsequent shelter costs are to be paid.

(c) An NAES program client who receives a cash grant through the RCSP program is expected to meet the housing and utility expenses out of the amount received each month in the cash grant. A NAES program client who receives an RCSP program cash grant may receive a housing and utility support services payment on a case-by-case basis, if the client otherwise meets the support service payment eligibility criteria of this section.

(10) **Transportation.** The Department provides support services payments for transportation costs incurred in travel to and from NAES program *activities* or other approved *activities*. Payment is made only for the cost of public transportation or the cost of vehicle insurance, repairs, and fuel for a personally owned vehicle. The Department may not authorize payment for repair of a vehicle owned by an individual who is not in the *filing group* (see OAR 461-110-0330). A transportation support service payment is subject to the following considerations:

(a) A payment for public transportation is given priority over a payment for a privately owned vehicle.

(b) A payment for a privately owned vehicle is provided if the client or driver has a valid license and one of the following requirements is met:

(A) No public transportation is available or the client is unable to use public transportation because of a verifiable medical condition or disability for which no accommodation is available; or

(B) Public transportation is available but is more costly than the cost of car repair or fuel.

(11) Unless *good cause* has been determined, an NAES program client must attend an NAES program mass transit training to receive on-going transportation payments.

(12) **Other Payments.** The Department provides support services payments for other items directly related to participation in NAES program *activities*. A payment under this section may be authorized for:

(a) Reasonable accommodation of a client's *disability* (see OAR 461-001-0000).

(b) Costs necessary in obtaining and retaining a job or enhancing wages and benefits, such as:

(A) Clothing and grooming for participation in NAES program *activities* or job interviews.

(B) Moving expenses necessary to accept employment elsewhere.

# ADMINISTRATIVE RULES

(C) Tools, bonding, and licensing required to accept or retain employment.

(c) Tuition for *vocational training* (see OAR 461-001-0025) through the NAES program only:

(A) After the client has been approved for *vocational training*;

(B) When no other funding is available;

(C) To the extent that Department funding designated for this purpose is available; and

(D) When the training is necessary for a job leading to a higher wage and high demand occupation, as defined by the Workforce Investment Act (WIA).

(f) A cash benefit received by an individual in the GA or SFPSS programs for each month for which the client receives a retroactive SSI lump sum payment.

(g) In the TA-DVS program, only when an IPV in the TA-DVS program is established.

(a) The filing group, ineligible student, or *authorized representative* (see OAR 461-115-0090) withheld information;

(c) The Department fails to use income reported as received or anticipated in determining the benefits of the filing group; or

(d) The error was due to an error in computation or processing by the Department.

(3) Overpayments are categorized as follows:

(a) An administrative error *overpayment* is an *overpayment* caused by any of the following circumstances:

(A) The Department fails to reduce, suspend, or end benefits after timely reporting by the filing group, ineligible student, or *authorized representative* of a change covered under OAR 461-170-0011 and that reported change requires the Department to reduce, suspend, or end benefits;

(B) The Department fails to use the correct benefit standard;

(C) The Department fails to compute or process a payment correctly based on accurate information timely provided by the filing group, ineligible student, or *authorized representative*;

(D) In the GA and SFPSS programs, the Department fails to require a client to complete an interim assistance agreement; or

(E) The Department commits a procedural error that was no fault of the filing group, ineligible student, or *authorized representative*.

(b) A client error *overpayment* is:

(A) An *overpayment* caused by the failure of a filing group, ineligible student, or *authorized representative* to declare or report information or a change in circumstances as required under OAR 461-170-0011, including information available to the Department, that affects the client's eligibility to receive benefits or the amount of benefits;

(B) A client's unreduced liability or receipt of unreduced benefits pending a contested case hearing decision or other final order favorable to the Department;

(C) A client's failure to return a benefit known by the client to exceed the correct amount;

(F) A payment for child care when the client was not eligible for child care benefits; or

(G) The failure of a client to pay his or her entire share of the cost of services or the participant fee (see OAR 461-160-0610 and 461-160-0800) in the month in which it is due.

(c) A fraud *overpayment* is an *overpayment* determined to be an intentional program violation (see OAR 461-195-0601 and 461-195-0611) or substantiated through a criminal prosecution.

(d) In the SNAP program, a provider error *overpayment* is an *overpayment* made to a drug or alcohol treatment center or residential care facility that acted as a client's *authorized representative*.

(e) In the child care program, a provider error *overpayment* is a payment made by the Department on behalf of a client to a child care provider when:

(A) Paid to an ineligible provider;

(B) The payment exceeds the amount for which a provider is eligible.

(4) When an *overpayment* is caused by both an administrative and client error in the same month, the Department determines the primary cause of the *overpayment* and assigns as either an administrative or client error *overpayment*.

(5) In the SNAP program, the trading of a controlled substance (as defined in section 102 of the Controlled Substances Act in 21 U.S.C. 802) is the buying or selling of SNAP program benefits for cash or consideration other than eligible food; or the exchange for SNAP program benefits of firearms, ammunition, explosives, or controlled substances.

(6) In the TANF program, when an *overpayment* puts the client at greater risk of *domestic violence* (see OAR 461-001-0000), the *overpayment* is waived (see OAR 461-135-1200).

## 461-195-0521

### Calculation of Overpayments

This rule specifies how the Department calculates an *overpayment* (see OAR 461-195-0501).

(1) The Department calculates an *overpayment* by determining the amount the client received or the payment made by the Department on behalf of the client that exceeds the amount for which the client was eligible.

(2) When a filing group, ineligible student, or *authorized representative* (see OAR 461-115-0090) fails to report income, the Department calculates and determines the *overpayment* by assigning unreported income to the applicable budget month without averaging the unreported income, except a client's earned income reported quarterly from the Employment Department is considered received by the client in equal amounts during the months identified in the report.

(3) When using prospective budgeting (see OAR Division 461-150) and the actual income differs from the amount determined under OAR 461-150-0020(2), there may be a *client error overpayment* only when the filing group, ineligible student, or *authorized representative* withheld information, failed to report a change, or provided inaccurate information. In such a case, the Department uses the actual income to determine the amount of an *overpayment*.

(4) When a filing group, ineligible student, or *authorized representative* fails to report all earned income within the reporting time frame, the earned income deduction (see OAR 461-145-0930, 461-160-0160, 461-160-0190, 461-160-0430, 461-160-0550, and 461-160-0552) is applied as follows:

(a) In the ERDC, OSIP, OSIPM, QMB, and REFM programs, the Department allows the earned income deduction.

(b) In the MAA, MAF, REF, and TANF programs, the Department allows the earned income deduction when *good cause* (see section (5) of this rule) exists.

(c) In the SNAP program, no deduction is applied to earned income not timely reported.

(5) For the purposes of OAR 461-195-0501 to 461-195-0561, "good cause" means circumstances beyond the client's reasonable control that caused the client to be unable to report income timely and accurately.

(6) When the Department retains support:

(a) In the TANF program, the amount of support (other than cash medical support) the Department retains as a current reimbursement each month is added to other income to determine eligibility. When a client is not eligible

# ADMINISTRATIVE RULES

for TANF program benefits, the *overpayment* is offset by the support the Department retains as a current reimbursement.

(b) In the medical programs, the amount of the cash medical support the Department retains each month is excluded income and not used to determine eligibility for medical program benefits. When a client has incurred a medical program *overpayment*, the *overpayment* is offset by the amount of the cash medical support the Department retains during each month of the *overpayment*.

(7) In the REF and TANF programs, when a client directly receives support used to determine eligibility or calculate benefits, the *overpayment* is:

(a) If still eligible for REF or TANF program benefits, the amount of support the client received directly; or

(b) If no longer eligible for REF or TANF program benefits, the amount of program benefits the client received.

(8) When an *overpayment* occurs due to the failure of an individual to reimburse the Department, when required by law to do so, for benefits or services (including cash medical support) provided for a need for which that individual is compensated by another source, the *overpayment* is limited to the lesser of the following:

(a) The amount of the payment from the Department;

(b) Cash medical support; or

(c) The amount by which the total of all payments exceeds the amount payable for such a need under the Department's rules.

(9) Benefits paid during a required *notice period* (see OAR 461-175-0050) are included in the calculation of the *overpayment* when:

(a) The filing group, ineligible student, or *authorized representative* failed to report a change within the reporting time frame under OAR 461-170-0011; and

(b) Sufficient time existed for the Department to adjust the benefits to prevent the *overpayment* if the filing group, ineligible student, or *authorized representative* had reported the change at any time within the reporting time frame.

(10) In the SNAP program:

(a) If the *benefit group* (see OAR 461-110-0750) was categorically eligible, there is no *overpayment* based on resources.

(b) For a *filing group* (see OAR 461-110-0370) found eligible for SNAP program benefits under OAR 461-135-0505(1)(a) to (c), and the actual income made the group ineligible for the related program, the group remains categorically eligible for SNAP program benefits as long as the eligibility requirement under OAR 461-135-0505(1)(d) is met. A *benefit group* of one or two individuals would be entitled to at least the minimum SNAP program benefit allotment under OAR 461-165-0060.

(c) For a *filing group* found eligible for SNAP program benefits only under OAR 461-135-0505(1)(d), and the actual income equals or exceeds 185 percent of the Federal Poverty Level, the *filing group* is no longer categorically eligible. The *overpayment* is the amount of SNAP program benefits incorrectly received.

(11) In the OSIP and OSIPM programs, when a client does not pay his or her share of the cost of services or the EPD program participant fee (see OAR 461-160-0610 and 461-160-0800) in the month in which it is due, an *overpayment* is calculated as follows:

(a) All payments made by the Department on behalf of the client during the month in question are totaled, including but not limited to any payment for:

(A) Capitation;

(B) Long term care services;

(C) Medical expenses for the month in question;

(D) Medicare buy-in (when not concurrently eligible for an MSP);

(E) Medicare Part D;

(F) Mileage reimbursement;

(G) Special needs under OAR 461-155-0500 to 461-155-0710; and

(H) Waivered services, including home delivered meals and non-medical transportation.

(12) When a client's liability is unreduced pending the outcome of a contested case hearing about that liability the *overpayment* is the difference between the liability amount determined in the final order and the amount, if any, the client has repaid.

(13) When a client was not eligible for benefits under his or her medical program during the period in question, but during the period in question was eligible for another medical program with a lesser benefit level, the *overpayment* is the amount of medical program benefit payments made on behalf of the client exceeding the amount for which the client was eligible.

(14) When an *overpayment* is caused by *administrative error* (see OAR 461-195-0501), any *overpayment* of GA, OSIP, REF, SFPSS, or TANF program benefits is not counted as income when determining eligibility for the EXT, GAM, MAA, MAF, OSIPM, REFM, and SAC programs.

(b) In the SNAP program, if the *overpayment* was caused by unreported earned income, verified child care costs are allowed as a credit to the extent the costs would have been deductible under OAR 461-160-0040 and 461-160-0430.

(c) In the SFPSS and TANF programs, if the *overpayment* is caused by reported earned income, a credit is allowed for the Post-TANF grant if the client meets eligibility under OAR 461-135-1250 and the client has received less than 12 months of Post-TANF program benefits.

(d) In all programs, for an underpayment of benefits.

## 461-195-0551

### Methods of Recovering Overpayments

(1) In addition to judicial process, the Department may recover an *overpayment* (see OAR 461-195-0501) through an agreed repayment plan, reduction in benefits, voluntary payment from the client or *authorized representative* (see OAR 461-115-0090), and offset of the debt.

(2) The Department reduces current benefits to collect an *overpayment* only as follows:

(a) In the GA and OSIP programs, the Department may recover an *overpayment* by reducing cash benefit payments by the lesser of the following:

(A) The total *overpayment* amount;  
(B) The total benefit amount; or  
(C) Ten percent of the client's total benefit requirement at the standard of need.

(b) In the REF, SFPSS, and TANF programs, the Department:  
(A) Allows only half of the 50 percent earned income deduction described in OAR 461-160-0160.

(B) Reduces the benefit payment by 10 percent of the total benefit requirement of the *benefit group* (see OAR 461-110-0750) at the adjusted income payment standard. The reduced benefit payment after such reduction, when combined with all other income may not be less than 90 percent of the benefit group's adjusted income payment standard for a family with no income. In the TANF program, the cooperation incentive (see OAR 461-135-0210) is not included in the calculations prescribed by this paragraph.

(c) In the SNAP program, unless the Department and the client agree to a repayment plan and the *filing group* (see OAR 461-110-0370) meets the terms of the plan, the Department collects an *overpayment* from a liable member of a *filing group* participating in the SNAP program by reducing the SNAP program benefit allotment of the *benefit group* each month as follows:

(A) For an *overpayment* caused by *client error* (see OAR 461-195-0501) or *administrative error* (see OAR 461-195-0501), 10 percent of the group's monthly allotment or \$10 a month, whichever is greater.

(B) For an *overpayment* caused by an IPV (see OAR 461-195-0601), 20 percent of the group's monthly entitlement or \$20 a month, whichever is greater.

(3) In the child care programs:  
(a) The Department may not recover an *overpayment* through reduction of a client's child care program benefits.

(b) When a child care program provider is liable for a *child care overpayment* (see OAR 461-195-0501) the Department may recover the *child care overpayment* by reducing up to 100 percent any future child care payment for which the provider bills the Department.

(4) The Department may recover an *overpayment* by offset as follows:

(a) Using the collection services provided by the Department of Revenue and any other state or federal agency to collect a liquidated claim established by:

(A) A court judgment.  
(B) A confession of judgment.  
(C) A document signed or acknowledged by the debtor that acknowledges the debt, such as:

(i) The Department-designated form to acknowledge an IPV.  
(ii) A plea bargain agreement.  
(iii) Any other document acknowledging the *overpayment*.

(D) A written notification of *overpayment* from the Department to the debtor, advising the debtor of the basis and amount of the *overpayment* and the right to request a hearing, if the debtor has exhausted his or her rights of administrative appeal.

(E) A written communication from the debtor acknowledging the debt.

(b) The amount of any retroactive payment or restoration of lost benefits otherwise payable to the client, when the retroactive payment corrects a prior underpayment of benefits in the program in which the *overpayment* occurred.

(c) Through use of a warrant authorized by ORS 411.703. Upon issuance of the warrant, the Department may issue a notice of garnishment in accordance with ORS 18.854.

(d) In the SNAP program, by offsetting the full amount of the *overpayment* against restored benefits owed to the *benefit group* or to another *benefit group* that a liable member of the overpaid group has joined.

(5) A confession of judgment is used in the case of a *client error* (see OAR 461-195-0501) *overpayment*. The Department may not file a confession of judgment while the client receives public assistance and may file one only if the client has refused to agree to or has defaulted on a repayment plan.

(6) The Department may not take collection action against a filing group while a member of the filing group is working under a JOBS Plus agreement.

(F) A child care provider *overpayment* claim if the provider, currently or in the previous 12 months, received a direct provider payment for child care under division 165 of this chapter of rules.

### Program Acronyms and Overview

(1) Acronyms are frequently used when referring to a program. There is an acronym for each umbrella program (for instance, OSIP) and acronyms for each subprogram (for instance, OSIP-AB, OSIP-AD, and OSIP-OAA).

(2) When no program acronym appears in a rule in Chapter 461 of these rules, the rule with no program acronym applies to all programs listed in this rule. If a rule does not apply to all programs, the rule uses program acronyms to identify the programs to which the rule applies.

(3) Wherever an umbrella acronym appears, that means the rule covers all the subprograms under that code (for instance, OSIP means OSIP-AB, OSIP-AD, and OSIP-OAA).

(4) ADC; Aid to Dependent Children. Financial aid to low-income families when children are deprived of parental support because of continued absence, death, incapacity, or unemployment. When used alone, ADC refers to all ADC programs. Use of the acronym, ADC, which stands for Aid to Dependent Children, and use of the phrase, Aid to Dependent Children, refer to the state's Temporary Assistance for Needy Families Program, and its acronym, TANF. The following codes are used for ADC subprograms:

(a) ADC-BAS; Aid to Dependent Children — Basic (includes eligibility based on continued absence, death, incapacity, or unemployment). ADC with deprivation based on unemployment is also denoted by ADC-BAS/UN.

(b) EA; Aid to Dependent Children — Emergency Assistance. Emergency cash to families without the resources to meet emergent needs.

(5) ADCM; Aid to Dependent Children Medical. Medical aid to low-income families when children are deprived of parental support, as for ADC. Use of the acronym ADCM, which stands for Aid to Dependent Children Medical, and use of the phrase Aid to Dependent Children Medical refer to EXT, MAA, MAF, and SAC programs. When used alone, ADCM refers to all ADC-related medical programs. The following codes are used for ADCM subprograms:

(a) ADCM-BAS; Aid to Dependent Children Medical — Basic.

(b) ADCM-EXT; Aid to Dependent Children Medical — Extended. ADCM-EXT provides extended medical benefits to families after their ADC benefits end.

(c) ADCM-SAC; Aid to Dependent Children Medical — Substitute or Adoptive Care. ADCM-SAC gives medical coverage to children in substitute or adoptive care.

# ADMINISTRATIVE RULES

## 461-110-0210

### Household Group

(1) The household group consists of the individuals who live together with or without benefit of a dwelling. For homeless people, the household group consists of the individuals who consider themselves living together.

(2) A separate household group is established for all the individuals who live in a dwelling. A separate dwelling is not recognized for the purpose of determining the members of a household group unless the living space has—separate from other dwellings—an access to the outside that does not pass through another dwelling, a sleeping area, a bathroom, and a kitchen facility.

(3) For all programs except the SNAP program, a separate household group is established for individuals who live in the same dwelling as another household group, if all the following are true:

(a) There is a landlord-tenant relationship between the two groups in which the tenant is billed by the landlord at *fair market value* (see OAR 461-001-0000) for housing.

(b) The tenant lives independently from the landlord.

(c) The tenant:

(A) Has and uses sleeping, bathroom, and kitchen facilities separate from the landlord; or

(B) Shares bathroom or kitchen facilities with the landlord, but the facilities are in a commercial establishment that provides room or board or both for compensation at *fair market value*.

(4) Individuals who live with more than one household group during a calendar month are members of the household group in which they spend more than half of their time, except as follows:

(a) In the ERDC program, if a *child* (see OAR 461-001-0000) lives with different caretakers during the month, the child is considered a member of both household groups.

(b) In the MAA, MAF, and TANF programs:

(A) If a *parent* (see OAR 461-001-0000) sleeps at least 30 percent of the time during the calendar month in the home of the *dependent child* (see OAR 461-001-0000), the parent is in the same household group as the *dependent child*.

(B) A *dependent child* is included in the group with the caretaker relative (see OAR 461-001-0000), who usually has the major responsibility for care and control of the *dependent child*, if the *dependent child* lives with two household groups in the same calendar month for at least one of the following reasons:

(i) Education.

(ii) The usual *caretaker relative* is gone from the household for part of the month because of illness.

(iii) A family emergency.

(c) In the SNAP program:

(A) The individual is a member of the household group that provides the individual more than half of his or her 21 weekly meals. If the individual is a *child*, the *child* is a member of the household group credited with providing the child more than half of his or her 21 weekly meals. A household group is credited with providing breakfast and lunch for each day the child departs that group's home for school, even if the *child* eats no breakfast or lunch at that home.

(B) During the month in which a resident of a *domestic violence shelter* (see OAR 461-001-0000) enters the shelter, the resident may be included both in the household he or she left and in a household group in the shelter.

(5) In the OSIPM program, individuals receiving waived care or nursing facility care are each an individual household group.

(6) In the QMB program, the household group consists of the client and the client's *spouse* (see OAR 461-001-0000), even if the spouse does not meet all nonfinancial eligibility requirements.

(7) The individuals in the household group who apply for benefits are called applicants. The household group and applicants form the basis for determining who is in the remaining eligibility groups.

(8) Individuals absent from the household for 30 days or more are no longer part of the household, except for the following:

(a) In all programs except the SNAP program, individuals in a general hospital for 30 days or more remain in the household group unless they go into long-term care. In the SNAP program, these individuals are no longer in the household group.

(b) In the CEC, CEM, ERDC, EXT, HKC, MAA, MAF, OHP, REF, REFM, SAC, and TANF programs:

(A) A *caretaker relative* who is absent for up to 90 days while in a residential alcohol or drug treatment facility is in the household group.

(B) A *child* who is absent for 30 days or more is in the household group if the *child* is:

(i) Absent for illness (unless the *child* is in a long-term care Title XIX facility), social service, or educational reasons;

(ii) In foster care, but expected to return to the household within the next 30 days; or

(iii) For OHP only, in a residential alcohol or drug treatment facility. If the household of the child is ineligible because of income, the *child* is a separate household.

(c) In the ERDC, HKC, and OHP programs, an individual who is absent because of education, training, or employment, including long-haul truck driving, fishing, and active duty in the U.S. armed forces.

(d) In the MAA, MAF, REF, REFM, and TANF programs, a *parent* who is absent for 30 days or more is in the household group if:

(A) The *parent* is absent because of education, training or employment—including absence while working or looking for work outside the area of their residence, such as long-haul truck driving, fishing and active duty in the U.S. armed forces; and

(B) The other *parent* remains in the home.

(9) In the OSIP-EPD and OSIPM-EPD programs, the household group consists only of the individual applying for or receiving benefits.

## 461-120-0210

### Requirement to Provide or Apply for SSN

(1) In the CAWEM, ERDC, REF, and REFM programs, a member of a *need group* (see OAR 461-110-0630) or a *benefit group* (see OAR 461-110-0750) is not required to provide or apply for a social security number (SSN). In these programs, the Department may request that a member of the filing or need group provide an SSN on a voluntary basis.

(2) In the EA and TA-DVS programs, an individual must provide his or her SSN if the individual can.

(3) Except as provided in section (5) of this rule, in the OSIP, OSIPM, and QMB programs, to be included in the *benefit group*, an individual must:

(a) Provide a valid SSN for the individual; or

(b) Apply for a number if the individual does not have a valid one and provide the SSN when it is received.

(4) Except as provided in sections (5) to (7) of this rule, in all programs not covered by sections (1) to (3) of this rule, to be included in the *need group*, an individual (other than an unborn) must:

(a) Provide a valid SSN for the individual; or

(b) Apply for a number if the individual does not have one and provide the SSN when it is received.

(5) In the BCCM, CEC, CEM, EXT, GA, GAM, HKC, MAA, MAF, OHP, OSIP, OSIPM, QMB, SAC, and SNAP programs, an individual is not required to apply for or provide an SSN if the individual is:

(a) A member of religious sect or division of a religious sect that has continuously existed since December 31, 1950; and

(b) Adheres to its tenets or teachings that prohibit applying for or using an SSN.

(6) The requirement to apply for or provide the SSN is delayed as follows:

(a) In the BCCM, CEC, CEM, EXT, MAA, MAF, OHP, and SAC programs, a newborn who is assumed eligible based on the eligibility of the mother of the newborn may receive benefits until one year of age without meeting the SSN requirements of section (4) of this rule.

(b) In the SNAP program:

(A) An applicant eligible for expedited services may receive his or her first full month's allotment without meeting the SSN requirement but must meet the requirement before receiving a second full month's allotment.

(B) Before applying for or providing an SSN, a newborn may be added to an existing *benefit group* (see OAR 461-110-0750) for six months following the date the baby is born or until the group's next recertification, whichever is later.

(7) In the SNAP program:

(a) An individual who refuses or fails without good cause to provide or apply for an SSN when required by this rule is ineligible to participate. This period of ineligibility continues until the individual provides the SSN to the Department.

(b) An individual may participate in SNAP for one month in addition to the month of application, if the individual can show good cause why the application for an SSN has not been completed. To continue to participate, the individual must continue to show good cause each month until the application for an SSN is complete with Social Security Administration.

(c) An individual meets the good cause requirement in subsections (a) and (b) of this section if the individual provides evidence or collateral information that the individual applied for or made every effort to supply the Social Security Administration with the necessary information to complete the application process. Delays due to illness not associated with a *disability* (see OAR 461-001-0015), lack of transportation, or temporary absence do not qualify as good cause under this rule.

(8) This rule authorizes or requires the collection of an SSN for each of the following purposes.

(a) The determination of eligibility for benefits. The SSN is used to verify income and other assets, and match with other state and federal records such as the Internal Revenue Service (IRS), Medicaid, child support, Social Security benefits, and unemployment benefits.

(b) The preparation of aggregate information and reports requested by funding sources for the program providing benefits.

(c) The operation of the program applied for or providing benefits.

(d) Conducting quality assessment and improvement activities.

(e) Verifying the correct amount of payments, recovering overpaid benefits, and identifying any individual receiving benefits in more than one household.

(c) The individual's private health insurance premium was reimbursed under OAR 461-135-0990;

(a) Healthy KidsConnect Employer Sponsored Insurance (ESI);

(b) Healthy KidsConnect subsidy; or

(c) Healthy KidsConnect full pay.

(7) The eligibility period for the HKC program is a 12-month period. Once a child is approved as eligible for the HKC program, the child is referred to OPHP for enrollment. The enrollment period begins on the date OPHP enrolls the child and may continue through the remainder of the 12-month eligibility period.

(8) A child found eligible for the HKC program under this rule becomes ineligible if any of the following occur:

(a) The child reaches 19 years of age.

(b) The child begins coverage under *private major medical health insurance* and the insurance is not provided through a contract with OPHP.

(c) The child becomes a resident of a state other than Oregon.

(2) When a pregnant non-CAWEM child is eligible for and receiving OHP-CHP program benefits loses this eligibility, her medical assistance continues through the CEC program through the last day of the month in which the pregnancy ends as long as she is not a recipient of *private major medical health insurance* (see OAR 461-135-1100).

(3) To be eligible for the CEC program, a client must meet the requirements of all of the following subsections:

# ADMINISTRATIVE RULES

(a) Diphtheria/Tetanus/Pertussis containing vaccine (DTaP) — Five doses must be received unless:

(A) The fourth dose was given at or after the fourth birthday, in which case the child is complete with four doses; or

(B) The third dose of Diphtheria/Tetanus containing vaccine was received on or after the seventh birthday, in which case the child is complete with three doses.

(b) Polio — Four doses must be received unless:

(A) The third dose was given at or after the fourth birthday, in which case the child is complete with three doses of polio vaccine; or

(B) The student is 18 years of age or older. Polio vaccination at or after the 18th birthday is not required.

(c) Measles — Two doses must be received at or after 12 months of age, or in the same month and year as the child's first birthday. Second dose must be received at least 28 days after first dose.

(d) Rubella — One dose must be received at or after 12 months of age, or in the same month and year as the child's first birthday.

(e) Mumps — One dose must be received at or after 12 months of age, or in the same month and year as the child's first birthday.

(f) Hepatitis B — Up to three doses must be received. If the first dose was received at or after 11 years of age and the second dose is received at least four months after dose one, the child is complete with two doses.

(g) Varicella — Up to two doses must be received, depending on the child's age when the first dose was administered. The first dose must be received at or after 12 months of age or in the same month and year as the child's first birthday, and after March 1995, the date the vaccine was licensed in the United States. Second dose, if required, must be received at least 28 days after first dose.

(h) Hepatitis A — Two doses must be received at or after 12 months of age, or in the same month and year as the child's first birthday. Beginning school year 2008–2009, the requirement for Hepatitis A vaccine will be phased in by grade. (See Primary Review Table.) [Table not included. See ED. NOTE.]

(i) Tetanus/Diphtheria/Pertussis booster (Tdap) — One dose must be received at or after 10 years of age, unless the last Diphtheria/Tetanus containing vaccine was given less than five years ago. Beginning school year 2008–2009, the requirement for Tdap will be phased in by grade. (See Primary Review Table.) [Table not included. See ED. NOTE.]

(3) Interrupted series: If there is a lapse of time between doses longer than that recommended by the standard described in OAR 333-050-0120, the schedule should not be restarted. Immunization may resume with the next dose in the series.

(4) Partial doses: Because the efficacy of immunizing with partial doses of the vaccines listed in this rule is not known, this procedure does not satisfy the requirements of these rules.

(5) A child shall not be excluded from school for failing to receive a required vaccine if the State Health Officer has determined that there is a vaccine shortage and that is the reason the child has not received the vaccine. Any vaccine that has been waived due to a vaccine shortage will be required at the next review cycle, once the shortage has been lifted. The Public Health Division shall notify local health departments, schools and facilities of any shortages that affect their procedures under these rules.

(6) The local public health officer, after consultation with the Public Health Division, may allow a child to attend a school or facility without meeting the minimum immunization requirements in case of temporary local vaccine shortage.

(a) The local health department shall provide a letter signed by the local health officer to the parent of the affected student detailing which vaccines the student is being exempted from. The letter must state that the student will receive an Exclusion Order if the student's record is not updated with the missing doses prior to the next exclusion cycle.

(b) A copy of the letter must be attached to the student's Certificate of Immunization Status on file at the school or facility.

(c) A photocopied form letter signed by the local health officer may be used by the local health department when the shortage is expected to affect more than one child.

(d) If the vaccine is still unavailable at the next exclusion cycle, the local health department, with the agreement of the Public Health Division, will not issue Exclusion Orders for the unavailable vaccine.

(7) The following immunity exemptions satisfy the immunization requirements for the specified vaccines:

(a) Exemption for Measles, Mumps or Rubella vaccination due to a disease history may be certified by a physician or an authorized representative of the local health department for a child who has immunity based on a health care practitioner's diagnosis;

(b) Exemption for Measles, Mumps or Rubella vaccination due to a documented immune titer may be certified by a physician or an authorized representative of the local health department;

(c) Exemption for Hib conjugate vaccination may be certified by a physician or authorized representative of the local health department for a child who experienced invasive Haemophilus influenzae Type b disease at 24 months of age or older;

(d) Exemption for Varicella vaccine may be signed by the parent for history of varicella. The date of the disease is not required. This exemption will be automatically authorized by the local health department.

(e) Exemption for Varicella based on laboratory confirmation of immunity may be certified by a physician or authorized representative of the local health department;

(f) Exemption for Hepatitis B vaccination based on laboratory confirmation of immunity or confirmation of carrier status may be certified by a physician or authorized representative of the local health department; and

(g) Exemption for Hepatitis A vaccination based on laboratory confirmation of immunity may be certified by a physician or authorized representative of the local health department.

(8) Children possessing the following medical exemptions are susceptible to the diseases for which they are exempt from vaccination:

(a) Exemption for measles, mumps, rubella or varicella vaccination may be certified by a physician or an authorized representative of the local health department for a post-pubertal female when she is currently pregnant or there is a significant risk of her becoming pregnant within one month; and

(b) Exemption for one or more immunizations shall be established by a diagnosis based on a specific medical contraindication certified in a letter from the physician or an authorized representative of the local health department. The vaccines, medical diagnosis, practitioner's name, address and phone number must be documented and attached to the record.

(9) Exemptions submitted to the school or facility must be in English.

(10) A child may attend a school or facility under ORS 433.267(1) if the child is up-to-date and remains up-to-date and in compliance with immunization schedules for spacing between doses presented in OAR 333-050-0120.

(11) If evidence is presented to the local health department that an Exclusion Order was issued in error because a vaccine was given within the four-day grace period recommended by the Advisory Committee on Immunization Practices as published in the General Recommendations on Immunization, the local health department shall rescind the Exclusion Order. The local health department shall notify the child's school or facility when an Exclusion Order is rescinded.

(12) In situations where a child's vaccine history presents an unusual problem not covered by these rules, the local health department may use its judgment to make a final determination of the child's immunization status.

(13) Religious exemption from immunization requirement is allowed for one or more of the vaccines. Parents must select which vaccines a child is being exempted from by checking the appropriate boxes on the Certificate of Immunization Status.

(14) A child may not be excluded from school until kindergarten for not having the fifth dose of Diphtheria/Tetanus/Pertussis containing vaccine, fourth dose of Polio vaccine or second dose of Measles vaccine.

(15) A child may not be excluded from school until seventh grade for not having Tdap vaccine.

**Subject:** The Department of Human Services, Public Health Division is permanently repealing Oregon Administrative Rules chapter 333, division 92 related to Long Term Care Facilities, Nursing Homes for the Mentally Retarded. The authority over long term care facilities was transferred from the Health Division to the Seniors and People with Disabilities (SPD) Division in 1986. Consequently, SPD promulgated administrative rules in 1994 (chapter 309, division 43) relating to Intermediate Care Facilities for Mentally Retarded and Other Developmentally Disabled Persons that supercede the rules in chapter 333, division 92.

In addition, the Division is permanently repealing OAR chapter 333, division 300 related to Tissues, Organs or Fluids for Diagnostic, Research or Transplantation Purposes. OAR 333-300-0000 applies to the State Medical Examiner's Office that used to fall under the Health Division, but now falls under State Police. Therefore, the Public Health Division no longer needs this rule in the chapter 333 administrative rules. State Police was contacted regarding their need for this rule and they stated that OAR 333-300-0000 no longer applies to any program operated by the State Police.

These changes to the state administrative rules bring the OARs into parallel compliance with the Federal Virginia Graeme Baker Pool and Spa Safety Act and clear up any discrepancies between state and federal regulations.

The revisions update Oregon Administrative Rules into parallel compliance with current federal standards and provide direction for new pool construction. The adoption and amendment of rules will address the issue of differences between the two sets of requirements.

### Submerged Suction Outlets and Drains

The provisions in this rule are consistent with the requirements of the federal Virginia Graeme Baker Pool and Spa Safety Act (VGBPSSA), 15 USC 8001. Public swimming pools, wading pools and spas that operate year-round were expected to be in compliance by December 19, 2008. Seasonal public pools and spas that were closed when the law went into effect are expected to be in compliance with the federal law on the day that they reopen in 2009. The U.S. Consumer Product Safety Commission (CPSC) is responsible for enforcing the VGBPSSA. Sections (1) and (2) of this rule will not be

# ADMINISTRATIVE RULES

enforced by the state or a county delegated authority under ORS 448.100 against public swimming pools, wading pools and spas built prior to the effective date of this rule as the state is not responsible for enforcement of the VGBPSSA. However, any public swimming pool, wading pool or spa not in compliance with the VGBPSSA could be subject to an enforcement action by the CPSC.

(1) Two Outlets. There must be at least two outlets located at the lowest point of the pool floor to drain the entire floor area. Exceptions to this include:

(a) Reverse Flow Pools, where the drain is not connected to the recirculation system, but is provided for drainage of the pool through an air-gap connection to the sanitary sewer.

(b) Other suction-fitting arrangement that allows the drainage of the pool through an air-gap connection to the sanitary sewer, or other approved location, while also providing entrapment protection.

(c) Pools with no drain system, with provisions to completely drain the pool to the sanitary sewer or other approved location, by other means that have entrapment protection.

(2) MAIN DRAINS AND SUBMERGED SUCTION FITTINGS. All submerged suction fittings must be installed according to the standards below.

(a) Pool main drains must be installed in the deepest part of the pool and designed to minimize tripping and toe stubbing hazards. Suction fittings must be installed to minimize tripping, toe stubbing and scrape hazards.

(b) Main drain and submerged suction outlets must be designed with sufficient open area that the maximum velocity through the cover does not exceed the cover's listed flowrate.

(c) All hardware and fittings must be supplied by the manufacturer and installed according to the manufacturer's directions.

(d) Main drain and submerged suction fitting systems must provide ENTRAPMENT, HAIR ENTANGLEMENT and EVISCERATION protection.

(A) Main drains and submerged suction fittings and sumps must be compliant with the requirements of ANSI/ASME A112.19.8 (2007). The cover must be labeled and include: "VGB 2008," the logo of the third party listing agency, the standard for which it was tested, the gallons for which it was approved and the location it is to be placed.

(B) All submerged suction fittings must be installed with a sump designed and approved by the manufacturer for that outlet cover.

(C) All field built sumps must be designed by an Oregon registered engineer and must be built so the opening of the suction pipe is no closer than 1.5 times the pipe's inside diameter from the bottom of the listed suction cover/plate.

(D) Main drains and submerged suction fittings must be separated by at least three feet (measured from the main drain connector pipe centerlines) between the furthest fittings, or be on separate planes, placed so the floor and wall suction fittings cannot be easily blocked at the same time.

(i) The outlets must be sized to handle an equal portion of at least 200 percent of the recirculation flow.

(ii) The outlets must be installed so that they cannot be isolated from one another; no intervening valves.

(iii) The piping going back to the pump must be located in the hydraulic middle of the connector piping, and must be the same size as the connector piping.

(3) BROKEN OR MISSING GRATE FITTINGS. If the pool operator finds that a suction fitting is broken or missing, they must close the pool immediately, shut down the recirculation system and remain closed until the fitting has been replaced.

## 333-060-0505

### New Wading Pool Construction

(1) RECIRCULATION. All public wading pools that have submerged outlets must have at least two outlets for each pump. Each public wading pool, except those in subsection (1)(c) of this rule, must have a recirculation rate that meets or exceeds subsection (1)(a) or (1)(b) of this rule, whichever is greater:

(a) A 60-minute turnover time; or

(b) When skimmers are used, each skimmer must be designed to skim between 30 to 45 gpm water flow, when 70 percent of the recirculation flow is through the skimmers ( $(\# \text{ of skimmers}) \times (30 \text{ to } 45 \text{ gpm design flow}) / 0.70 = \text{gpm recirculation rate}$ ). The skimmer piping must be designed to handle 100 percent of the recirculation rate.

(c) Spray pools, water playgrounds and interactive fountains that do not pond water and that use potable water once and dispose of it without recirculating it are not regulated or licensed by the Division.

(2) SEPARATE SYSTEM. Each public wading pool must have its own separate recirculation system.

(3) SURFACE SKIMMING. The pool must be designed to skim the water surface continuously. The Division may consider overflow structures such as intermittent fixed weir overflow and trench drains, if shown to be

comparably compliant to gutter systems. The Division or its agent may consider alternate overflow designs if the designer shows that adequate skimming and water mixing occur when non-traditional designs are proposed.

(a) SKIMMERS must be listed as meeting ANSI/NSF Standard 50 requirements by a nationally recognized testing organization approved by the Division. A skimmer must be provided for every 400 square feet (37 m<sup>2</sup>) of water surface area or fraction thereof and provide flow in the amount determined in subsection (1)(b) of this rule.

(b) GUTTERS AND TRENCH DRAINS. Gutters allow skimming along the entire edge of the gutter. Generally the gutter extends completely around the perimeter of the pool. A TRENCH DRAIN is used much like a gutter, and is installed in zero-depth areas where an overflow lip cannot be provided. Trench drains are installed at the same angle as the floor. To skim properly, the bottom edge of the trench drains must be level to a very small tolerance and slightly below the water surface.

(A) To determine the minimum amount of surge capacity needed for the pool, add subparagraphs (3)(b)(A)(i) and (ii) of this rule and provide this capacity by installing a surge tank, or any combination of surge tank, gutter, or trench drain:

(i) Provide a minimum surge capacity equal to an amount determined by calculating eight minutes of recirculation flow (8 x recirculation rate = surge capacity); then

(ii) Add the surge needs of any spray feature or water activity system. Allow an amount equal to at least two minutes of feature recirculation flow, or as recommended by the manufacturer, whichever is greater.

(B) Install an automatic fill device, to maintain the water level, on all wading pools with gutters or trench drains.

(4) INLETS. Locate the inlets to evenly distribute treated water to all parts of the wading pool and to move debris to the overflow and drain systems. The designer is responsible for demonstrating that the inlet system will provide adequate circulation to all portions of the wading pool:

(a) Use floor inlets on all wading pools more than 30 feet wide (9.1m), and on zero-depth pools.

(b) In-floor cleaning systems, or other products that may cause a tripping or stubbing hazard, are not allowed.

(c) All inlet fittings must have tamper-proof screws or attachments that cannot be removed except with tools. Inlet fittings will be in place whenever the pool is in use.

(5) SUBMERGED SUCTION FITTINGS AND MAIN DRAINS. All submerged suction fittings must be installed according to the standards below.

(a) Wading pool main drains must be installed in the deepest part of the pool and be designed to minimize tripping and toe stubbing hazards.

(b) Main drain and submerged suction outlets must be designed with sufficient open area that the maximum velocity through the cover does not exceed the cover's listed flowrate.

(c) All hardware and fittings must be supplied by the manufacturer and installed according to the manufacturer's directions.

(d) Main drain and submerged suction fitting systems must provide ENTRAPMENT, HAIR ENTANGLEMENT and EVISCERATION protection.

(A) Main drains and submerged suction fittings and sumps must be compliant with the requirements of ANSI/ASME A112.19.8 (2007). The cover must be labeled and include: "VGB 2008," the logo of the third party listing agency, the standard for which it was tested, the gallons for which it was approved and the location it is to be placed.

(B) Maintain any documentation about your main drain or suction fitting.

(C) All submerged suction fittings must be installed with a sump designed and approved by the manufacturer for that outlet cover.

(D) All field built sumps must be designed by an Oregon registered engineer and must be built so the opening of the suction pipe is no closer than 1.5 times the pipe's inside diameter from the bottom of the listed suction cover/plate.

(E) Two or more outlets must be provided. They must be separated by at least three feet (measured from the midpoint of the main drain connector pipe centerlines) between the furthest fittings, or be on separate planes, placed such that they cannot be blocked by one person.

(i) The outlets must be sized to handle an equal portion of at least 200 percent of the recirculation flow.

(ii) The outlets must be installed so that they cannot be isolated from one another; no intervening valves.

(iii) The main drain or submerged suction fitting-piping going back to the pump must be located in the hydraulic middle of the fitting connector piping, and must be the same size as the connector piping.

(6) BROKEN OR MISSING GRATE FITTINGS. If the pool operator finds that a suction fitting is broken or missing, they must close the wading pool immediately, shut down the recirculation system and remain closed until the fitting has been replaced.

(7) BASIN DESIGN. The slope of the pool bottom can be no more than 1 in 12. Eight inches (200 mm) is the maximum water depth allowed at any edge of the pool accessible from the deck. When perimeter water depths exceed eight inches (200mm) at the edge of the pool, stairs and handrails

# ADMINISTRATIVE RULES

complying with the requirements of OAR 333-060-0080(1), (3), (4)(b), (7), (8), and (9), must be provided at the designated entry points.

(8) DECKING. Unobstructed decking, five feet (1.5 m) or more in width must be provided around the wading pool perimeter. When a wading pool is adjacent to a swimming pool, it must be located near the shallow end of the swimming pool, with a minimum of nine feet (2.7 m) of deck between the pools.

(9) ENCLOSURE. Enclose the wading pool area, as required by OAR 333-060-0105. Spray pools, water playgrounds, and fountains that do not pond water may comply with paragraph (11)(c)(E) of this rule in lieu of providing an enclosure.

(10) DEPTH MARKING:

(a) The operator must indicate the maximum pool depth in feet and inches, with a sign near each entrance to the wading pool.

(b) Depth markings must be placed around the pool perimeter indicating the water depth at the edge, following the requirements in OAR 333-060-0065.

(c) Pools with a zero-depth edge are not required to have perimeter depth markings, but are still required to provide the maximum depth signs.

(d) Pools and fountains that do not pond water are not required to have depth markings or maximum depth signs.

(11) SPRAY FEATURES AND PLAY EQUIPMENT. Fountains, sprays, slides and similar features may be installed, if specifically designed for aquatic installation:

(a) WATER SOURCE. Water-using features must be designed and installed to draw their water supply from the main drain or similar fitting, surge tank, trench drains or gutters, but not from the skimmers. The main drain fittings and the related piping must be sized for 100 percent of the pool recirculation rate plus 100 percent of the capacity of any feature pump routed through the fittings. The sizing of the feature pump must be based on 20 ft. TDH (59,000 Pa), unless the actual TDH is calculated.

(b) EQUIPMENT DESIGN AND INSTALLATION. Play equipment shall be designed and installed to meet all applicable standards of the CPSC Handbook for Playground Safety (1997 edition), and ASTM F1487, Standard for Public Playground Equipment:

(A) Applicable requirements include equipment design and construction, proper anchoring, entrapment protection, protrusion safety, and safety use-zone sizing. All equipment shall be designed for use in pools.

(B) Play equipment must be designed to be difficult to climb, unless the equipment is specifically designed for climbing and provided with safety zones and impact attenuating surfaces acceptable to the Division.

(C) Swings are not allowed.

(D) Obstructions extending from the walls or the bottom of the wading pool are not permitted, unless a designed part of the play equipment, with provisions made for safety and good water circulation.

(E) "Children's Activity Slides" are small, low exit velocity slides designed for use by small children in shallow water. They must be designated by the manufacturer for use in 24 inches (0.6 m) or less of water, and installed as recommended by the manufacturer. Other types of slides are not allowed.

(F) Spray pools, using potable water, must comply with all requirements concerning basin design, materials, entrapment protection, fall protection, and safety during construction of the pool, and must be maintained and operated in a safe and healthy manner.

(c) SPRAY POOLS or WATER PLAYGROUNDS. Spray pools or water playgrounds are basins containing spray features intended for recreational use, but that do not collect water in the basin. If the water is captured and recirculated, the pool shall meet the requirements of OAR, chapter 333, division 60. If potable water is used once and drained to waste, the spray pool or water playground is not regulated or licensed under these rules:

(A) Design spray pools with a zero-depth design, with no walls in the basin.

(B) Spray pools do not require devices for skimming.

(C) All water recirculated through the spray features shall be filtered and sanitized, or from a potable water source. Equipment capable of continuously supplying at least 0.25 ppm additional chlorine to the line returning water to the spray features must be provided, except when potable water is supplied, used once and drained to waste, or all the water is filtered and treated before being sent back to the water features.

(D) Slip-resistant, easy to clean and water impervious surfaces must be installed in the spray basin. Impact attenuating surfaces, basin surfacing materials with shock absorbing properties, for use with equipment addressed in subsection (11)(b) of this rule, will be considered, but must be water impervious, not conducive to bacteria and algae growth, and resistant to vandalism and damage. All impact cushioning materials must be approved by the Division for use in a wet environment.

(E) Spray pools do not require a security enclosure. At least six feet (1.9 m) of deck around the perimeter of the pool basin and sloped away from the basin must be provided.

### Existing Wading Pools

The requirements in this rule apply to all wading pools built before July 13, 2006.

### Submerged Suction Fittings and Drains

The provisions in this rule are consistent with the requirements of the federal Virginia Graeme Baker Pool and Spa Safety Act (VGBPSSA), 15 USC 8001. Public swimming pools, wading pools and spas that operate year-round were expected to be in compliance by December 19, 2008. Seasonal public swimming pools, wading pools and spas that were closed when the law went into effect are expected to be in compliance with the federal law on the day that they reopen in 2009. The U.S. Consumer Product Safety Commission (CPSC) is responsible for enforcing the VGBPSSA. This rule will not be enforced by the state or a county delegated authority under ORS 448.100 against public swimming pools, wading pools and spas built prior to the effective date of this rule as the state is not responsible for enforcement of the VGBPSSA. However, any public pool or spa not in compliance with the VGBPSSA could be subject to an enforcement action by the CPSC.

#### (1) ALL POOLS

(a) Every spa pool must have an easy and effective means of draining the pool.

(b) Main drain and submerged suction outlets must be designed with sufficient open area that the maximum velocity through the cover does not exceed the cover's listed flowrate. Drains and suction fittings must be installed to minimize tripping, toe stubbing and scrape hazards.

(c) All hardware and fittings must be supplied by the manufacturer and installed according to the manufacturer's directions.

(d) **BROKEN OR MISSING GRATE FITTINGS.** If the pool operator finds that a suction fitting is broken or missing, the operator must close the pool immediately, shut down the recirculation system and remain closed until the fitting has been replaced.

(2) **NEW CONSTRUCTION.** Main drain and submerged suction fitting systems must provide ENTRAPMENT, HAIR ENTANGLEMENT AND EVISCERATION protection.

(a) Main drains and submerged suction fittings and sumps must be compliant with the requirements of ANSI/ASME A112.19.8 (2007). The cover must be labeled and include; "VGB 2008," the logo of the third party listing agency, the standard for which it was tested, the gallons per minute for which it was approved and the location it is to be placed.

(b) Maintain any documentation about your main drain or suction fitting.

(c) All submerged suction fittings must be installed with a sump designed and approved by the manufacturer for that outlet cover.

(d) All field built sumps must be designed by an Oregon registered engineer and must be built so the opening of the suction pipe is no closer than 1.5 times the pipe's inside diameter from the bottom of the listed suction cover/plate.

(e) Main drains and submerged suction fittings must be separated by at least three feet (measured from the main drain connector pipe centerlines) between the furthest fittings, or be on separate planes, placed so the floor and wall suction fittings cannot be easily blocked at the same time.

(A) The outlets must be sized to handle an equal portion of at least 200 percent of the recirculation flow.

(B) The outlets must be installed so that they cannot be isolated from one another; no intervening valves.

(C) The piping going back to the pump must be located in the hydraulic middle of the connector piping, and must be the same size as the connector piping.

(a) Applications received between the tenth day of a month and the ninth day of the following month will constitute the total number of claims eligible for reimbursement in that month;

(d) If funds available and on hand at the close of the accounting period exceed the total amount of claimants' itemized statements or a maximum of \$650 per claim, the remaining funds will carry forward to the next accounting period and made available for funding future claims up to the allowable maximum reimbursement.

### Signs

(1) An employer or entity in charge, except in those places described in OAR 333-015-0035(6) and (8), shall post signs prohibiting smoking. Signs shall use either the "no smoking" symbol (a cigarette with a diagonal slash through it within a circle) and the words "within 10 feet," or the words "No Smoking within 10 feet," or both. Nothing in these rules shall prevent an employer from increasing the amount of property where smoking is prohibit-

Signage may be used without specifically including the words "within 10 feet" if the signage specifies some other restriction greater than 10 feet or designates the entire premises as smokefree. Signs shall be posted prominently at each entrance and exit to the place of employment or public place.

(2) In addition to requirements under this rule, an owner or entity in charge of a hotel or motel shall comply with signage requirements as described in OAR 333-015-0035(5).

(3) An owner or entity in charge of tables or outdoor seating or dining areas within 10 feet of entrances, exits, windows that open, or ventilation intakes that serve an enclosed area of any public place or workplace shall clearly mark the tables or outdoor seating or dining areas as non-smoking with signs that use either the "no smoking" symbol (a cigarette with a diagonal slash through it within a circle), the words "No Smoking," or both.

### Complaint Response

DHS or the LPHA shall respond to complaints as follows:

(1) Initial complaint:

(a) DHS or the LPHA shall assess whether the site in question is required to be smokefree under the provisions of ORS 433.835 through 433.850.

(b) If DHS or the LPHA determines that the place of employment (or some portion) or public place is required to be smokefree, DHS or the LPHA shall send a letter ("initial response letter") to the place of employment or public place named in the complaint within 10 business days after receipt of the complaint of violation. The letter shall contain notification that the employer or public place has been reported as being in violation of the Act or these rules, educational materials about how to comply with the Act and these rules, and information on whom to contact for further information and assistance in compliance.

(c) DHS or the LPHA shall send a form letter to the complainant, if the complainant has supplied their name and contact information, notifying them that the complaint has been received and is being investigated, or that the workplace is not required to be smokefree under ORS 433.835 through 433.850.

(2) Second or subsequent complaint:

(a) If DHS or the LPHA receives additional complaint(s) about the site within five business days after the "initial response letter" was sent, DHS or the LPHA shall send a form letter to the complainant, if the complainant has supplied their name and contact information, telling them that the complaint has been received and the investigation process begun.

(b) If DHS or the LPHA receives a second or subsequent complaint about the site more than five business days after the "initial response letter" was sent, a representative of DHS or the LPHA shall make an unannounced site visit within 30 days of complaint receipt, to determine whether the employer or public place is in violation of the Act or these rules.

(c) Failure of an employer or entity in charge to permit DHS or the LPHA access to the place of employment or public place is a violation and may result in the imposition of civil penalties, or other action under sections (5) and (6) of this rule. If an employer or entity in charge does not permit access for a site visit, DHS or the LPHA shall notify the Assistant Director of the Public Health Division or designee for further enforcement activity.

(3) Finding of violation:

(a) A violation of indoor smoking prohibitions is deemed to have occurred if during a site visit pursuant to a second or subsequent complaint, the DHS or LPHA representative:

(A) Observes any person smoking or carrying a lighted smoking instrument in an area where smoking is prohibited;

(B) Observes cigar or cigarette butts in an area where smoking is prohibited;

(C) Observes ashtrays intended for use in an area where smoking is prohibited;

(D) Observes no signs or insufficient signs as required under these rules;

(I) Obtains signed written statements from at least two individuals who have personally witnessed smoking, the carrying of a lighted smoking instrument, or the smoking of a prohibited tobacco product at a time and in an area where smoking is prohibited.

(b) A violation of outdoor smoking prohibitions is deemed to have occurred if during a site visit pursuant to a second or subsequent complaint, DHS or the LPHA representative:

(A) Observes any person smoking or carrying a lighted smoking instrument within 10 feet of entrances, exits, accessibility ramps that extend beyond 10 feet from an entrance or exit, windows that open, or ventilation intakes that serve an enclosed area of any public place or workplace;

(B) Observes ashtrays intended to be used for smoking within 10 feet of entrances, exits, accessibility ramps that extend beyond 10 feet from an entrance or exit, windows that open, or ventilation intakes that serve an enclosed area of any public place or workplace; or

(C) Observes tables or outdoor seating or dining areas within 10 feet of entrances, exits, windows that open, or ventilation intakes that serve an enclosed area of any public place or workplace that are not clearly marked as nonsmoking.

(4) Remediation plan:

(a) After a finding of violation, DHS or the LPHA representative and the employer or entity in charge will jointly develop a remediation plan. All remediation plans must be completed within 15 days of the site visit.

(b) An employer or entity in charge may request in writing an extension of time in which to complete the remediation plan in special circumstances. An extension may be granted only by the Assistant Director of the Public Health Division or designee.

(c) A DHS or LPHA representative shall make a follow-up visit within 30 days of the remediation plan completion date to confirm completion.

(d) If an employer or entity in charge does not cooperate in developing a remediation plan, DHS or the LPHA shall notify the Assistant Director of the Public Health Division or designee for further enforcement activity.

(e) If additional complaint(s) are received within three years after the date DHS or the LPHA confirmed completion of the remediation plan, a representative of DHS or the LPHA shall make an unannounced post-completed remediation plan visit within 15 business days of complaint receipt, to determine whether the employer or entity in charge is in violation of the Act or these rules. If a violation is found, the matter will be referred for enforcement under section (5) of this rule.

(f) If an additional complaint is received more than three years from the date DHS or the LPHA confirmed completion of the remediation plan, and no other complaints were received in that three year period, a representative of DHS or the LPHA shall make an unannounced site visit within 30 days of complaint receipt to determine whether the employer or entity in charge is in violation of the Act or these rules. If a violation is found, a remediation plan will be developed under section (4) of this rule.

(5) Notice of violation:

(a) If, during the follow-up visit or the post-completed remediation plan visit, DHS or the LPHA representative finds that the remediation plan has not been completed or finds additional evidence of violations, DHS or the LPHA shall notify the Assistant Director of the Public Health Division or designee for further enforcement activity.

(b) Once notified under subsection (2)(c), (4)(d), (4)(e) or (5)(a) of this rule, the Assistant Director of the Public Health Division or designee shall issue a notice of violation and, if applicable, notice of intent to impose civil penalties to the employer or entity in charge of a public place. Such notices shall comply with the notice and civil penalty provision in ORS Chapter 183 and OAR 333-015-0085.

(c) The notice of violation and notice of intent to impose civil penalty forms shall be provided by DHS. This form shall be used for all citations.

(d) The citation shall be personally delivered to the employer or entity in charge of a public place or mailed to the place of employment or the address of the entity in charge of a public place by both first class mail and certified mail, return receipt requested.

### Statement of Purpose and Principles

(1) The rules in OAR chapter 411, division 308 prescribe standards, responsibilities, and procedures for providing long-term support for children with developmental disabilities to prevent out-of-home placement, or to return a child with developmental disabilities back to the family home from a residential setting other than the child's family home.

(2) Long-term supports are provided to children with developmental disabilities who are eligible for crisis diversion services. Long-term supports are designed to increase the family's ability to care for the child with developmental disabilities in the family home. Long-term supports resolve the crisis by providing supports to prevent the need for the child to be placed or remain in a residential setting other than the child's family home.

### Eligibility for Long-Term Support

(1) ELIGIBILITY. The CDDP of a child's county of residence may find a child eligible for long-term support when the child:

(a) Is determined eligible for developmental disability services by the CDDP;

(b) Is under the age of 18;

(c) Is experiencing a crisis and may be safely served in the family home; and

(d) Is at risk of out-of-home placement, requires long-term support to be maintained in the family home, and does not receive or will stop receiving other DHS-paid in-home or community living services other than state Medicaid plan services, adoption assistance, or short-term assistance, including crisis services provided to prevent out-of-home placement; or

(e) Requires long-term support to return to the family home and resides in a DHS-paid residential service.

(2) CONCURRENT ELIGIBILITY. Children are not eligible for long-term support from more than one CDDP unless the concurrent service:

(a) Is necessary to affect transition from one county to another with a change of residence;

(b) Is part of a collaborative plan developed by both CDDPs; and

(c) Does not duplicate services and expenditures.

## 411-308-0070

### Long-Term Support Entry, Duration, and Exit

(1) ENTRY. An eligible child may enter long-term support only when long-term support funds are authorized through a regional process specifically to provide supports required to prevent out-of-home placement of the eligible child, or to provide supports required for an eligible child to return to the family home from a community placement. Funds for a child for whom SPD designated funds in family support services to the CDDP by written contract prior to June 30, 2009 that specified the child by name do not need to be reauthorized through a regional process.

(2) DURATION OF SERVICES. Once a child has entered long-term support, the child and family may continue receiving services from that CDDP through the last day of the month during which the child turns 18, as long as the supports continue to be necessary to prevent out-of-home placement, the child remains eligible for long-term support, and long-term support funds are available at the CDDP to continue services. The child's Annual Support Plan must be developed each year and kept current.

(3) CHANGE IN SUPPORTS. All increases in the child's Annual Support Plan, excluding statewide cost of living increases, must be approved through a regional process. Redirection of more than 25% of the long-term support funds in the child's Annual Support Plan to purchase different supports than those originally authorized must be approved through a regional process.

(4) CHANGE OF COUNTY OF RESIDENCE. If a child and family move outside the CDDP's area of service, the originating CDDP must arrange for services purchased with long-term support funds to continue, to the extent possible, in the new county of residence. The originating CDDP must:

(a) Provide information about the need to apply for services in the new CDDP and assist the family with application for services if necessary; and

(b) Contact the new CDDP to negotiate the date on which the long-term support, including responsibility for payments, shall transfer to the new CDDP.

(5) EXIT. A child must leave a CDDP's long-term support:

(a) When the child no longer resides in the family home;

(b) At the written request of the child's parent or guardian to end the long-term supports;

(c) When the long-term supports are no longer necessary to prevent out-of-home placement;

(d) At the end of the last day of the month during which the child turns 18;

(e) When the child and family moves to a county outside the CDDP's area of service, unless transition services have been previously arranged and authorized by the CDDP as required in section (4) of this rule; or

(f) No less than 30 days after the CDDP has served written notice, in the language used by the family, of intent to terminate services because:

(A) The child's family either cannot be located or has not responded to repeated attempts by CDDP staff to complete the child's Annual Support Plan development and monitoring activities and does not respond to the notice of intent to terminate; or

(B) The CDDP has sufficient evidence that the family has engaged in fraud or misrepresentation, failed to use resources as agreed upon in the child's Annual Support Plan, refused to cooperate with documenting expenses, or otherwise knowingly misused public funds associated with long-term support.

## 411-308-0080

### Annual Support Plan

(1) The CDDP must provide or arrange for an annual planning process to assist families in establishing outcomes, determining needs, planning for supports, and reviewing and redesigning support strategies for all children eligible for long-term support. The planning process must occur in a manner that:

(a) Identifies and applies existing abilities, relationships, and resources while strengthening naturally occurring opportunities for support at home and in the community; and

(b) Is consistent in both style and setting with the child's and family's needs and preferences, including but not limited to informal interviews, informal observations in home and community settings, or formally structured meetings.

(2) The CDDP, the child (as appropriate), and the child's family must develop a written Annual Support Plan for the child as a result of the planning process prior to purchasing supports with long-term support funds and annually thereafter. The child's Annual Support Plan must include but not be limited to:

(a) The eligible child's legal name and the name of the child's parent (if different than the child's last name), or the name of the child's guardian;

(b) A description of the supports and the reason the support is necessary to prevent out-of-home placement or to return the child from a community placement outside the family home;

(c) Beginning and end dates of the plan year as well as when specific activities and supports are to begin and end;

(d) The type of provider, quantity, frequency, and per unit cost of supports to be purchased with long-term support funds;

(e) Total annual cost of supports;

(f) The schedule of the child's Annual Support Plan reviews; and

(g) Signatures of the child's services coordinator, the child's parent or guardian, and the child (as appropriate).

(3) The child's Annual Support Plan or records supporting development of each child's Annual Support Plan must include evidence that:

(a) Long-term support funds are used only to purchase goods or services necessary to prevent the child from out-of-home placement, or to return the child from a community placement to the family home;

(e) The CDDP must obtain written authorization from the owner of a rental structure before any environmental accessibility adaptations are made to that structure. This does not preclude any reasonable accommodation required under the Americans with Disabilities Act.

- (1) "Abuse" in a non-facility setting for incidents occurring on or before December 31, 2009, means a range of actions or inactions, including abandonment, financial exploitation, neglect, physical abuse, emotional or verbal abuse, self-neglect, and sexual abuse.
  - (a) "Abandonment" means the desertion or intentional forsaking of an older adult or an adult with a disability for any period of time by a person who has assumed responsibility for providing care, when that desertion or forsaking would place the adult at serious risk of harm.

- (b) "Emotional or verbal abuse" means the intentional infliction of anguish, distress, or intimidation through verbal or non-verbal acts or denial of civil rights.

- (c) "Financial exploitation" means the illegal or improper use, by means including, but not limited to, deceit, coercion, fraud, or undue influence, of the resources (including medications) of an older adult or individual with a disability. This includes causing alarm by conveying a threat to wrongfully take or appropriate money or property, which would be expected to cause an older adult to believe the threat shall be carried out.

- (d) "Neglect" means the failure (whether intentional, careless or due to inadequate experience, training or skill) to provide basic necessary care or services when agreed to by legal, contractual, or otherwise assumed responsibility when such failure leads to actual or serious potential for physical or emotional harm. This includes failure of a person who has fiduciary responsibility to assure the continuation of necessary care (for example, failure to pay for necessary care resulting in the withdrawal of services).

- (e) "Physical abuse" means the use of physical force that may result in bodily injury, physical pain, or impairment. Physical abuse may include, but is not limited to:

- (A) Such acts of violence as striking (with or without object), hitting, beating, punching, shoving, shaking, slapping, kicking, pinching, and burning;

- (D) The use of force-feeding or physical punishment.

- (f) "Sexual abuse" means non-consensual sexual contact or behavior that includes, but is not limited to, sexual harassment, inappropriate or unwanted sexual comments, and threats. These activities are considered non-consensual if a person does not make, or is incapable of making, an informed choice.

- (2) "Abuse" in a facility setting for incidents occurring on or before December 31, 2009, means abuse or neglect of care, as defined in the applicable licensing or certification rules, that occurs in facilities that are licensed (such as Residential Care Facilities, Assisted Living Facilities, Nursing Facilities, Commercial or Limited License Adult Foster Homes); or Room and Board Facilities that are registered, when the reported perpetrator is the facility itself or is an employee or agent of the facility. Relative Foster Homes are to be treated as non-facility settings.

- (3) "Abuse" for incidents that occur on or after January 1, 2010, means any of the following:

- (a) Physical abuse, including:

- (A) The use of physical force that may result in bodily injury, physical pain, or impairment.

- (ii) Physical abuse is presumed to cause physical injury, including pain, to adults in a coma or adults otherwise incapable of expressing injury or pain.

- (b) Neglect, including:

- (A) The failure of a person who is responsible to provide care or services to make a reasonable effort to protect and adult from abuse; or

- (B) Failure to provide the care, supervision, or services necessary to maintain the physical and mental health of an adult that results in, or creates a serious risk of, physical harm or significant emotional harm to the adult.

- (i) Such failure may occur whether intentional, careless, or due to inadequate experience, training, or skill, and may include the administration of an incorrect medication or dose of medication by other than accidental means.

- (ii) The expectation for care, supervision, or services may exist as a result of an assumed responsibility or a legal or contractual agreement, including but not limited to where a person has a fiduciary responsibility to assure the continuation of necessary care.

- (iii) A failure to maintain the mental health of an adult, for the purposes of this definition, may mean active or passive failure to maintain the emotional well-being of the adult, including but not limited to causing unreasonable discomfort or serious loss of personal dignity, but is not intended to establish an expectation for providing professional mental health services where such services are not expected or intended.

- (c) Abandonment, including:

- (A) Desertion or willful forsaking of an adult for any period of time by a person who has assumed responsibility for providing care, when that desertion or forsaking would place the adult at serious risk of harm; or

- (B) The withdrawal or neglect of duties and obligations owed an adult by a person who is responsible to provide care or services, when that withdrawal or neglect of duties would place the adult at serious risk of harm.

- (d) Verbal abuse.

### Definitions

For the purpose of these rules, authorized under ORS 443.705 to 443.825, the following definitions apply:

(1) "AAA" means an Area Agency on Aging (AAA) which is an established public agency within a planning and service area designated under Section 305 of the Older Americans Act which has responsibility for local administration of programs within the State of Oregon's Department of Human Services, Seniors and People with Disabilities. For the purpose of this rule, Type B AAAs contract with the Department to perform specific activities in relation to licensing adult foster homes including processing applications, conducting inspections and investigations, issuing licenses, and making recommendations to the Division regarding adult foster home license denial, revocation, suspension, non-renewal and civil penalties.

(2) "Abuse" for incidents that occur on or before December 31, 2009, means any of the following:

(a) Any physical injury to a resident that has been caused by other than accidental means. This includes injuries that a reasonable and prudent person would have been able to prevent, such as those resulting from hitting, pinching, striking, rough handling or corporal punishment. These instances of abuse are presumed to cause physical harm, including pain, to all residents, including those in a coma or otherwise incapable of expressing harm.

(b) Failure to provide basic care or services to a resident, which failure results in physical harm, unreasonable discomfort or serious loss of human dignity. Abuse under this definition includes abandonment, improper use of restraints and the deprivation by an individual, including a caregiver, of goods or services that are necessary to attain or maintain physical, mental and psychosocial well-being.

(c) Sexual contact with a resident, including fondling, by an employee or agent of a long-term care facility by: use of physical force, physical or verbal threat of harm, or deprivation to the resident or others; use of position, authority or misinformation to compel the resident to do what that resident would not otherwise do; or where the resident has no reasonable ability to consent. For the purpose of this rule, consent means a voluntary agreement or concurrence of wills and may be demonstrated by resident behavior as well as by verbal acknowledgment. Mere failure of the resident to object does not, in and of itself, constitute an expression of consent.

(d) Theft or diversion of a resident's property, including money, personal property and medications; illegal or improper use of a resident's resources for the personal profit or gain of another person; borrowing resident funds; spending resident funds without the resident's consent; if the resident is not capable of consenting, spending resident funds for items or services from which the resident cannot benefit or appreciate; spending resident funds to acquire items for use in common areas when such purchase is not initiated by the resident; or acting as a resident's guardian, conservator, trustee or attorney in fact unless related by birth, marriage or adoption, to the resident as follows: parent, child, brother, sister, grandparent, grandchild, aunt, uncle, niece or nephew. Nothing in this rule shall be construed to prevent an owner, administrator or employee from acting as a representative payee for the resident.

(e) Verbal or mental abuse, as prohibited by federal law, which includes in extreme forms: the use of oral, written or gestured communication that willfully includes disparaging and derogatory terms to the resident, or within their hearing distance, regardless of their age, ability to comprehend or disability; humiliation; intimidation; harassment; threats of punishment or deprivation directed toward the resident; and unwanted or inappropriate crude or sexual language, questions, comments or other communication. Examples of verbal and mental abuse include, but are not limited to: threats of harm; saying things to frighten a resident, such as telling a resident that he or she shall never be able to see his or her family again; and making unwanted sexual comments about a resident's body. Verbal or mental abuse is distinguished from a resident rights violation by the extreme or offensive nature of the communication.

(f) Involuntary seclusion for convenience or discipline. Involuntary seclusion is defined as the separation of a resident from other residents or from his or her room, or confinement to his or her room (with or without roommates) against the resident's will or the will of the resident's legal representative. Emergency or short-term, monitored separation from other residents may not be considered involuntary seclusion and may be permitted if used: for a limited period of time as a therapeutic intervention to reduce agitation until professional staff may develop a plan of care to meet the resident's needs; or as part of an inter-disciplinary care plan after other interventions have been attempted.

(3) "Abuse" for incidents that occur on or after January 1, 2010, means any of the following:

(a) Physical abuse, including:

(A) The use of physical force that may result in bodily injury, physical pain, or impairment.

(B) Any physical injury to a resident caused by other than accidental means, or which appears to be at variance with the explanation given of the injury.

(i) Conduct resulting in a physical injury caused by other than accidental means may include but is not limited to:

(I) Acts of violence such as striking (with or without an object), hitting, beating, punching, shoving, shaking, kicking, pinching, choking, or burning; or

(II) The use of force-feeding or physical punishment.

(ii) Physical abuse is presumed to cause physical injury, including pain, to residents in a coma or residents otherwise incapable of expressing injury or pain.

(b) Neglect, including:

(A) The failure of a person who is responsible to provide care or services to make a reasonable effort to protect a resident from abuse; or

(B) Failure to provide the care, supervision, or services necessary to maintain the physical and mental health of a resident that results in, or creates a serious risk of, physical harm or significant emotional harm to the resident.

(i) Such failure may occur whether intentional, careless, or due to inadequate experience, training, or skill, and may include the administration of an incorrect medication or dose of medication by other than accidental means.

(ii) The expectation for care, supervision, or services may exist as a result of an assumed responsibility or a legal or contractual agreement, including but not limited to where a person has a fiduciary responsibility to assure the continuation of necessary care.

(iii) A failure to maintain the mental health of a resident, for the purposes of this definition, may mean active or passive failure to maintain the emotional well-being of the resident, including but not limited to causing unreasonable discomfort or serious loss of personal dignity, but is not intended to establish an expectation for providing professional mental health services where such services are not expected or intended.

(c) Abandonment, including:

(A) Desertion or willful forsaking of a resident for any period of time by a person who has assumed responsibility for providing care, when that desertion or forsaking would place the resident at serious risk of harm; or

(B) The withdrawal or neglect of duties and obligations owed a resident by a person who is responsible to provide care or services, when that withdrawal or neglect of duties would place the resident at serious risk of harm.

(d) Verbal abuse.

(A) Verbal abuse includes threatening significant physical or emotional harm to a resident through the use of:

(ii) The emotional harm that may result from verbal abuse may include but is not limited to anguish, distress, or fear.

(e) Financial exploitation, including:

(A) Wrongfully taking, by means including but not limited to deceit, trickery, subterfuge, coercion, harassment, duress, fraud, or undue influence, the assets, funds, property, or medications belonging to or intended for the use of a resident;

(B) Alarming a resident by conveying a threat to wrongfully take or appropriate money or property of the resident if the resident would reasonably believe that the threat conveyed would be carried out;

(C) Misappropriating, misusing, or transferring without authorization any money from any account held jointly or singly by a resident; or

(D) Failing to use the income or assets of a resident effectively for the support and maintenance of the resident;

(i) Effectively, for the purposes of this definition, means in a manner that is for the benefit of the person;

(ii) In a facility, such failure includes but is not limited to:

(I) An owner or employee borrowing from a resident;

(II) If the resident is not capable of consenting, spending resident funds for items or services that the resident cannot benefit from or appreciate; or

(III) Spending resident funds to acquire items for use in common areas when such purchase is not initiated by the resident.

(f) Sexual abuse, including:

(A) Sexual contact with a non-consenting resident or with a resident considered incapable of consenting to a sexual act. Consent, for purposes of this definition, means a voluntary agreement or concurrence of wills. Mere failure to object does not, in and of itself, constitute an expression of consent;

(B) Sexual harassment or sexual exploitation of a resident, or inappropriately exposing a resident to, or making a resident the subject of, sexually explicit material or language;

## ADMINISTRATIVE RULES

The Department may determine a national criminal records check is not required if the subject individual, according to the Department's Criminal Records Check, passed a national check within the previous three years and has not lived outside of Oregon during those three years.

(6) An Authorized Designee (AD) shall make the fitness determination on all licensee applicants, all licensed providers and all subject individuals.

### Operational Standards

(1) General Practices.

(a) Licensees must own, rent or lease the home to be licensed, however the local licensing authority may grant exception to churches, hospitals, non-profit associations or similar organizations. If a licensee rents or leases the premises where the adult foster home is located, the licensee must not enter into a contract that requires anything other than a flat rate for the lease or rental. A licensed provider of a building in which an adult foster home is located must not allow the owner to interfere with the admission, discharge or transfer of any resident in the adult foster home unless the owner is a licensee or co-licensee named on the license.

(b) The licensee must cooperate with Division personnel in inspections, complaint investigations, planning for resident care, application procedures and other necessary activities. Department personnel have to all resident and facility records and may conduct private interviews with residents. The State Long-Term Care Ombudsman has access to all resident and facility records. Certified Ombudsman volunteers may have access to resident records with written permission from the resident and facility records relevant to caregiving.

(c) Information related to resident(s) must be kept confidential, except as may be necessary in the planning or provision of care or medical treatment, or related to an investigation or sanction action under these rules.

(d) Licensees must be able to arrange or provide for appropriate transportation for residents when needed.

(e) Staffing Standards. A licensee may not employ a resident manager or shift caregiver who does not meet or exceed the experience and training classification standard for the adult foster home.

(f) If a resident manager, or shift caregiver, changes during the period the license covers, the licensee must notify the Division immediately and identify who shall be providing care. This includes circumstances when the licensee assumes the role as the primary caregiver or shift caregiver when there has been a change in staff, in which case the licensee must submit an updated plan of 24-hour coverage to the Division. Otherwise:

(A) The licensee must submit a request for a change of resident manager, or shift caregiver as applicable, to the Division along with the Department's completed resident manager application form, a completed Health History and Physician or Nurse Practitioner's Statement (form SDS 903), the Department's Criminal Records Request form and a \$10 non-refundable fee.

(B) Upon a determination by the Division that the applicant meets the requirements of a resident manager, and the applicant has obtained the required training and passed the test, a revised license shall be issued with the name of the new resident manager or shift caregiver(s). The classification of the home shall be reevaluated based on the qualifications of the new resident manager or shift caregivers, and changed accordingly.

(g) Unexpected and Urgent Staffing Need. If the Division determines an unexpected and urgent staffing need exists, the Division may authorize a person who has not completed the Basic Training or passed the test to act as a resident manager or shift caregiver until training and testing are completed, or for 60 days, whichever period is shorter. The licensee must notify the Division of the situation in writing, satisfactorily demonstrate his or her inability to find a qualified resident manager, or shift caregiver as applicable, that the person is 21 years of age and meets the requirements of a substitute caregiver for the adult foster home.

(h) A licensee is responsible for the supervision, training and overall conduct of resident managers, other caregivers, family members and friends when acting within the scope of their employment, duties, or when present in the home.

(i) Sexual relations between residents and any employee of the adult foster home, licensee or any member of the licensee's household is prohibited unless a pre-existing relationship existed.

(j) A licensee must notify the Division in writing prior to any change of his or her residence or mailing address.

(2) Sale or Lease of Existing Adult Foster Homes and Transfer of Licenses:

(a) A license is not transferable and does not apply to any location or person(s) other than the location and the person(s) indicated on the license obtained from the Division.

(b) The licensee must inform real estate agents, prospective buyers, lessees, and transferees in all written communication including advertising and disclosure statements that the license to operate an adult foster home is not transferable and must refer them to the Division for information about licensing.

(c) When a home is to be sold or otherwise transferred or conveyed to another person who intends to operate the home as an adult foster home, that person must apply for and obtain a license from the Division prior to the transfer of operation of the home.

(d) The licensed provider must promptly notify the local Division's licensing program in writing about the licensee's intent to close or intent to convey the adult foster home to another individual. The licensee must provide written notice to the residents, their representatives and case managers as applicable, according to OAR 411-050-0444(12)(a).

# ADMINISTRATIVE RULES

(e) The licensed provider must inform an individual intending to assume operation of an existing adult foster home that residents currently residing in the home must be given at least 30 days' written notice of the licensee's intent to close the adult foster home for the purpose of conveying the home to another person.

(f) The licensee must remain licensed and responsible for the operation of the home and care of the residents in accordance with these rules until the home is closed and the residents have been relocated, or the home is conveyed to a new licensee who is licensed by the Division at a level appropriate to the care needs of the residents in the home.

(3) Sanitation and Safety Precautions in the Adult Foster Home:

(a) Commodes and Incontinence Garments – If used, commodes must be emptied frequently and cleaned daily, or more frequently if necessary. Incontinence garments must be disposed of in closed containers.

(b) Laundry — Soiled linens and clothing must be stored in closed containers prior to laundering in an area that is separate from food storage, kitchen and dining areas. Pre-wash attention must be given to soiled and wet bed linens. Sheets and pillowcases must be laundered at least weekly and more often if soiled.

(c) Pets or Other Animals — Sanitation for household pets and other domestic animals on the premises must be adequate to prevent health hazards. Proof of rabies vaccinations and any other vaccinations that are required for the pet by a licensed veterinarian must be maintained on the premises. Pets not confined in enclosures must be under control and must not present a danger to residents or guests.

(d) Infection Control — Standard precautions for infection control must be followed in resident care. Hands and other skin surfaces must be washed immediately and thoroughly if contaminated with blood or other body fluids.

(e) Disposal of Sharps — Precautions must be taken to prevent injuries caused by needles, scalpels, and other sharp instruments or devices during procedures. After they are used, disposable syringes and needles, scalpel blades, and other sharp items must be placed in a puncture-resistant, red container for disposal. The puncture-resistant container must be located as close as practical to the use area. Disposal must be according to local regulations and resources (ORS 459.386 through 459.405).

(f) Water Temperature — Residents who are unable to safely regulate the water temperature must be supervised.

(g) Resident access to or use of swimming or other pools, hot tubs, saunas, or spas on the premises must be supervised. (See also General Conditions, 411-050-0445(1)(f))

(h) There must be current, basic first-aid supplies and a first-aid manual readily available in the home.

(4) Meals:

(a) Three nutritious meals must be served daily at times consistent with those in the community. Each daily menu must include food from the basic food groups according to the United States Department of Agriculture (USDA's) food pyramid and include fresh fruit and vegetables when in season. Consideration must be given to residents' cultural and ethnic background in food preparation.

(b) A schedule of meal times and menus for the coming week must be prepared and posted weekly in a location accessible to residents and families. Meal substitutions in compliance with subsection (4)(a) of this rule and with resident approval are acceptable.

(d) Food must not be used as an inducement to control the behavior of a resident.

(e) Home-canned foods must be processed according to the current guidelines of the Oregon State University Extension Service. Freezing is the most acceptable method of food preservation; milk must be pasteurized.

(g) Adequate storage must be available to maintain food at a proper temperature, including a properly working refrigerator.

(h) The household utensils, dishes, glassware and household food must not be stored in resident bedrooms, bathrooms, or living areas.

(i) Meals must be prepared and served in the home where residents live. Payment for meals eaten away from home for the convenience of the licensee (e.g., restaurants, senior meal sites) is the responsibility of the licensee. Meals and snacks, as part of an individual recreational outing by choice, are the responsibility of the resident.

(j) Utensils, dishes and glassware must be washed in hot soapy water, rinsed, and stored to prevent contamination. A dishwasher with a sani-cycle is recommended.

(k) Food preparation areas and equipment, including utensils and appliances, must be clean, free of offensive odors and in good repair.

(l) Reasonable precautions must be taken to prevent pests (e.g., ants, cockroaches, other insects and rodents).

(5) Telephone:

(a) The home must have a working, landline telephone with a listed number that is separate from any other number the home has, such as but not limited to, Internet or fax lines, unless the system includes features that notify the caregiver of an incoming call, or automatically switches to the appropriate mode. If the licensee has a caller identification service on the home number, the blocking feature must be disabled to allow incoming calls to be received unhindered. A licensee may have only one phone line as long as it complies with the requirements of these rules.

(b) The licensee must notify the Division, residents, the residents' families, legal representatives and case managers, as applicable, of any change in the adult foster home's telephone number within 24 hours of the change.

(c) Restrictions on the use of the telephone by residents are to be specified in the written house policies and must not violate residents' rights. Individual restrictions must be well documented in the care plan.

(6) As approved by law, the complainant shall have immunity from any civil or criminal liability with respect to the making or content of a complaint made in good faith. Immunity under this subsection does not protect self-reporting licensees from liability for the underlying conduct that is alleged in the complaint.

(7) Standards must be followed for investigations related to abuse, neglect, or injury.

(b) Each rule that has been violated;

(c) A specific time frame for correction, not to exceed 30 days after receipt of the notice, except in cases of imminent danger;

(g) The right of the licensee to request an exception as provided in OAR 411-050-0430.

(4) At any time after receipt of a notice of violation or an inspection report, the applicant, the licensee or the Division may request a meeting. The meeting shall be scheduled within 10 days of a request by either party.

(a) The purpose of the meeting is to discuss the violation(s) stated in the notice of violation, provide information and to assist the applicant or licensee in achieving compliance with the requirements of these Administrative Rules.

(b) The request for a meeting by an applicant or licensee or the Division may not extend any previously established time frame for correction.

(5) The applicant or licensee must notify the Division of correction of the violation(s) no later than the date specified in the notice of violation.

(7) For violation(s) that present an imminent danger to the health, safety or welfare of residents, the licensee must correct the violation(s) and abate the conditions no later than 24 hours after receipt of the notice of violation. The Division may inspect the home after the 24-hour period to determine if the violation(s) has been corrected as specified in the notice of violation.

(8) If residents are in immediate danger, the license may be immediately suspended and arrangements made to move the residents.

(3) If the license is revoked for the reason of abuse, neglect or exploitation of a resident, the licensee may request a review in writing within 10 days after receipt of the notice of the revocation. If a request is made, the Division administrator or designee shall review all material relating to the allegation of abuse, neglect or exploitation and the revocation within 10 days. The administrator or designee shall determine, based on a review of the material, whether to sustain the decision. (4) If a license is revoked or not renewed, the licensee must be entitled to a contested case hearing preceding the effective date of the revocation or non-renewal if the licensee requests a hearing in writing within 21 days after receipt of the notice. ### Definitions

For the purpose of these rules, the following definitions apply:

(1) “Area Agency on Aging (AAA)” as defined in ORS 410.040 means the Department of Human Services designated agency charged with the responsibility to provide a comprehensive and coordinated system of services to seniors or individuals with disabilities in a planning and service area. For the purpose of these rules, the term Area Agency on Aging is inclusive of both Type A and B Area Agencies on Aging that contract with the Department of Human Services to perform specific activities in relation to residential care and assisted living facilities including:

- (a) Conducting inspections and investigations regarding protective service, abuse, and neglect;
- (b) Monitoring; and
- (c) Making recommendations to the Seniors and People with Disabilities Division regarding facility license approval, denial, revocation, suspension, non-renewal, and civil penalties.

(2) “Abuse” for incidents that occur on or before December 31, 2009, means:

(a) Any physical injury to a resident that has been caused by other than accidental means. This includes injuries that a reasonable and prudent person would be able to prevent, such as those resulting from hitting, pinching, striking, rough handling, or corporal punishment. These instances of abuse are presumed to cause physical injury, including pain, to all residents, including those in a coma or those who are otherwise incapable of expressing injury or pain.

(b) Failure to provide basic care or services to a resident that results in physical harm, unreasonable discomfort, or serious loss of human dignity. Abuse under this definition includes abandonment.

(c) Sexual contact with a resident, including fondling, by an employee or agent of a facility by:

- (A) Physical force;
- (B) Physical or verbal threat of harm or deprivation to the resident or others;

(C) Use of position, authority, or misinformation to compel a resident to do what the resident would not otherwise do; or

(D) Where the resident has no reasonable ability to consent. For the purpose of this rule, consent means a voluntary agreement or concurrence of wills. Mere failure of the resident to object does not, in and of itself, constitute an expression of consent.

(d) Theft or diversion of a resident’s property, including:

- (A) Money, personal property, and medications;
- (B) Illegal or improper use of a resident’s resources for the personal benefit, profit, or gain of another person;

(C) Borrowing resident funds;

(D) Spending resident funds without the resident’s consent;

(E) if the resident is not capable of consenting, spending resident funds for items or services that the resident cannot benefit from or appreciate; or

(F) Spending resident funds to acquire items for use in common areas when such purchase is not initiated by the resident.

(e) Verbal or mental abuse.

(A) Verbal or mental abuse includes, in extreme forms:

(i) The use of oral, written, or gestured communication that willfully includes disparaging and derogatory terms to the resident, or within their hearing distance, regardless of their age, ability to comprehend, or disability;

(ii) Humiliation;

(iii) Intimidation;

(iv) Harassment;

(v) Threats of punishment or deprivation directed toward the resident; and

(vi) Unwanted or inappropriate crude or sexual language, questions, comments, or other communication.

(B) Examples of verbal and mental abuse include but are not limited to:

(i) Threats of harm;

(ii) Saying things to frighten a resident, such as telling a resident that the resident may never be able to see the resident’s family again; and

(iii) Making unwanted sexual comments.

(C) Verbal and mental abuse is distinguished from resident rights violations by the extreme or offensive nature of the communication.

(f) Involuntary seclusion for convenience or discipline.

(A) Involuntary seclusion is defined as the separation of a resident from other residents or from their room or confinement to their room (with or with-

out roommates) against the resident’s will or the will of the resident’s legal representative.

(B) Emergency or short-term, monitored separation from other residents may not be considered involuntary seclusion and may be permitted if used for a limited period of time as a therapeutic intervention until professional staff develop a plan of care to meet the resident’s needs, or as part of an inter-disciplinary care plan after other interventions have been attempted.

(3) “Abuse” for incidents that occur on or after January 1, 2010, means any of the following:

(a) Physical abuse, including:

(A) The use of physical force that may result in bodily injury, physical pain, or impairment.

(B) Any physical injury to a resident caused by other than accidental means, or which appears to be at variance with the explanation given of the injury.

(i) Conduct resulting in a physical injury caused by other than accidental means may include but is not limited to:

(I) Acts of violence such as striking (with or without an object), hitting, beating, punching, shoving, shaking, kicking, pinching, choking, or burning; or

(II) The use of force-feeding or physical punishment.

(ii) Physical abuse is presumed to cause physical injury, including pain, to residents in a coma or residents otherwise incapable of expressing injury or pain.

(b) Neglect, including:

(A) The failure of a person who is responsible to provide care or services to make a reasonable effort to protect a resident from abuse; or

### Statement of Purpose, Principles, and Philosophy

(1) PURPOSE. The rules in OAR chapter 411, division 305 prescribe standards, responsibilities, and procedures for providing family support services to children with developmental disabilities and their families within the principles and philosophy that are the foundation of all developmental dis-

ability services. Family support services are a social benefit provided to all children with developmental disabilities who are eligible to receive case management services through a community developmental disability program. Family support services and available funding are intended to reach as many children and families as possible and are individualized to each family. Family support services foster and strengthen flexible networks of community-based, private, public, formal, informal, family-centered, and family-directed supports designed to increase families' abilities to care for children with developmental disabilities and to support the integration and inclusion of children with developmental disabilities into all aspects of community life.

(2) PRINCIPLES AND PHILOSOPHY. Family support services are individualized and built on the principles of family support and self-determination. The principles of family support are based on the belief that all individuals, regardless of disability, chronic illness, or special need, have the right to a permanent and stable family and that supporting families in caring for their children at home is in the best interest of the children, families, and communities. The principles of self-determination are based on the belief that the surest, most cost effective ways to foster and preserve family and community membership may be constructed and managed by those receiving services.

In addition to, or in lieu of a hearing, the applicant or certificate holder may request an administrative review by the SPD Assistant Director. An administrative review does not preclude the right of the applicant or certificate holder to a hearing.

### Using Support Services Funds to Purchase Supports

(1) A brokerage may use support services funds to assist individuals to purchase supports in accordance with an ISP when:

(a) Supports are necessary for an individual to live in the individual's own home or in the family home;

(b) Cost-effective arrangements for obtaining the required supports, applying public, private, formal, and informal resources available to the eligible individual are specified in the ISP;

(c) An individual is receiving crisis diversion services according to OAR 411-320-0160 and:

(A) Crisis diversion services are not allowed by OAR 411-320-0160 to provide the necessary support;

(B) The support was identified as necessary prior to the onset of the crisis;

(C) Support services funds are not expended to such an extent that the support services funds that may be required to purchase the remainder of necessary supports following the termination of crisis diversion services shall be unavailable; and

(D) Support services funds are used for no more than 90 days following the determination that the individual shall enter a comprehensive service.

(d) The ISP projects the amount of support services funds, if any, that may be required to purchase the remainder of necessary supports that are within the benefit level; and

(e) The ISP has been authorized for implementation.

(2) Goods and services purchased with support services funds on behalf of individuals are provided only as social benefits.

(3) LIMITS OF FINANCIAL ASSISTANCE. Assistance with purchase of individual supports in any plan year is limited to the individual's annual benefit level.

(a) Individuals must have access throughout the plan year to the total annual amount of support services funds for which they are eligible that are determined to be necessary to implement an authorized ISP, even if there is a delay in implementation of the ISP, unless otherwise agreed to in writing by the individual or the individual's legal representative.

(b) SPD may require that annual benefit level amounts be calculated and applied on a monthly basis when an individual's eligibility for Medicaid changes during a plan year, an individual's benefit level changes, or when an individual's ISP is developed and written to be in effect for less than 12 months.

(A) Except in the case of an individual whose benefit level changes as the result of a change in eligibility for the Support Services Waiver, when an individual's benefit level changes, the monthly benefit level shall be 1/12 of the annual benefit level for which the individual would be eligible should the change in benefit level remain in effect for 12 calendar months. The monthly benefit level shall be applied each month for the remainder of the plan year in which the individual's change in benefit level occurred, from the date the change occurred.

(B) In the case of an individual whose Support Services Waiver eligibility changes, the new monthly benefit level is calculated based on the remainder of the General Fund contribution to the individual benefit level being evenly distributed across the remaining months of the plan year. The monthly benefit level shall be applied each month for the remainder of the plan year in which the individual's change in Support Services Waiver eligibility occurred, from the date the change occurred.

(C) In the case of an individual with an ISP developed for a partial plan year, the monthly benefit level shall be 1/12 of the annual benefit level for which the individual would be eligible should the individual's ISP be in effect for 12 calendar months. The monthly benefit level shall be applied each month during which the ISP of less than 12 months' duration is in effect.

(c) Estimates of individual plan costs must be based on the SPD rate guidelines for costs of frequently used services.

(A) SPD rate guidelines notwithstanding, final costs may not exceed local usual and customary charges for these services as evidenced by the brokerage's own documentation.

(B) The brokerage must establish a process for review and approval of all budgets based on estimates exceeding SPD rate guidelines and must monitor the authorized ISP involved for continued cost effectiveness.

(4) EXCEPTIONS TO BASIC BENEFIT FINANCIAL LIMITS. Exceptions to the basic benefit annual support services fund limit may be only as follows.

(a) Individuals with extraordinary long-term need as demonstrated by a score of 60 or greater on the Basic Supplement Criteria Inventory (Form DHS 0203) may have access to a basic supplement in order to purchase necessary supports.

(A) For Medicaid recipients choosing services under the Support Services Waiver, the basic supplement must result in a plan year cost that is not greater than the individual cost limit.

(B) For individuals who are not Medicaid recipients choosing services under the Support Services Waiver, the basic supplement must result in a plan year cost that is not greater than the state's General Fund contribution to the individual cost limit, calculated according to the Medicaid match rate current at the beginning of the plan year, and adjusted annually to correspond to changes in the Medicaid match rates.

(C) The brokerage director, or a designee from brokerage management and administration, must administer the Basic Supplement Criteria Inventory only after receiving SPD-approved training. The brokerage director or designee must score basic supplement criteria according to written and verbal instruction received from SPD.

(D) The trained brokerage director or a designee from a brokerage's management or administration must administer the Basic Supplement Criteria Inventory within 30 calendar days of the documented request of the individual or the individual's legal representative.

(E) The brokerage director or designee must send written notice of findings regarding eligibility for a basic supplement to the individual and the individual's legal representative within 45 calendar days of the written request for a basic supplement. This written notice must include:

(i) An offer for the individual and the individual's legal representative to discuss the findings in person with the director and with the individual's personal agent in attendance if desired;

(ii) A notice of the complaint process under OAR 411-340-0060; and

(iii) A notice of planned action.

(F) Annual ISP reviews for recipients of the basic supplement must include a review of circumstances and resources to confirm continued need according to the instructions included with the Basic Supplement Criteria Inventory.

(b) Individuals who have been assessed as in need of, and meeting criteria for, crisis diversion services by the CDDP of the individual's county of residence according to OAR 411-320-0160, may receive short-term assistance with purchase of support in excess of the individual's benefit level. Use of crisis diversion services may only be authorized by the CDDP of the individual's county of residence or by the Regional Crisis Diversion Program responsible for the individual's county of residence.

(A) Length of emergent status may be authorized only by the CDDP of the individual's county of residence, or the Regional Crisis Diversion Program responsible for the individual's county of residence, depending on the source of the crisis diversion funds. Emergent status for an individual shall not exceed 270 consecutive days.

(B) Funds associated with crisis diversion services may be used to pay the difference in cost between the authorized ISP and the supports authorized by either the CDDP of the individual's county of residence or the Regional Crisis Diversion Program responsible for crisis diversion services in the individual's county of residence, depending on the source of crisis diversion services funds required to meet the short-term need.

(C) Although costs for crisis diversion services may bring the individual's total plan year cost temporarily above the individual cost limit, the individual's costs may not exceed the cost of the state's current ICF/MR daily cost per individual nor shall plan year expenses at or above the individual cost limit make the individual eligible for comprehensive services.

(i) Individuals placed in emergent status due to receiving crisis diversion services authorized and provided according to OAR 411-320-0160 may remain enrolled in, and receive support services from, the brokerage while both crisis diversion services and support services are required to stabilize and maintain the individual at home or in the family home. In no case, may the individual remain enrolled in the brokerage under emergent status for more than 270 consecutive days.

(ii) Support services provided during emergent status are subject to all requirements of this rule.

(iii) The individual's personal agent must participate with CDDP or Regional Crisis Diversion Program staff in efforts to stabilize supports and return costs to the individual's benefit level, documenting reviews of effectiveness at least every 90 days while the individual is receiving crisis diversion services.

(c) Individuals whose source of support funds are, in whole or in part, an individual-specific redirection of funds through SPD contract from a SPD-regulated residential, work, or day habilitation service to support services funds, or to comprehensive in-home support funds regulated by OAR chapter 411, division 330 prior to enrollment in a brokerage, may have access to the amount specified in the SPD contract as available for the individual's use. This provision is only applicable when each transition is separate and specific to the individual and the services being converted are not subject to statewide service transitions.

(A) Individual plan year costs must always be less than the individual cost limit; and

(B) The brokerage must review the need for supports and their cost-effectiveness with the individual and the individual's legal representative at least annually and must make budget reductions when allowed by the ISP.

# ADMINISTRATIVE RULES

(d) Individuals whose support funds were specifically assigned through SPD contract to self-directed support services prior to the date designated by SPD for transfer of the individual from self-directed support services to a brokerage may have access to the amount specified in the SPD contract as available for the individual's use.

(A) Individual plan year costs must always be less than the individual cost limit; and

(B) The brokerage must review the need for supports and their cost-effectiveness with the individual and the individual's legal representative at least annually and must make budget reductions when allowed by the ISP.

(e) Individuals transferring from SPD's Home and Community-Based Waiver Services for the Aged and Adults with Physical Disabilities who have been determined ineligible for those waiver service funds in accordance with OAR 411-015-0015(4)(c), shall have limited access to support services funds as described in these rules. The amount of support services funds available shall be equal to SPD's previous service costs for the individual for no more than 365 calendar days. The 365 calendar days begins the date the individual starts receiving support services exclusively through a brokerage.

(f) For Medicaid recipients eligible for and choosing services under the Support Services Waiver, individuals may have access to a basic supplement for ADLs to purchase needed support services under the following conditions:

(A) The individual must have additional assistance needs with ADLs after development of their ISP within the basic benefit, extraordinary long-term need fund limit, or other exceptions provided in this rule. The services include:

- (i) Basic personal hygiene;
- (ii) Toileting, bowel, and bladder care;
- (iii) Mobility, transfers, and comfort;
- (iv) Planning and preparing nutritious meals and assuring adequate fluid intake;

(v) Assisting with administration of medications, assuring medication is taken as ordered by physician, observing for reactions, and reminding appropriate persons when prescriptions need to be filled;

- (vi) Maintaining clean oxygen equipment and supply; and
- (vii) Delegated nursing tasks.

(B) ADL services may include the following activities if they are incidental to the provision of ADLs, essential for the health and welfare of the individual, and provided solely for the individual receiving support services:

- (i) Light housekeeping tasks necessary to maintain a healthy and safe environment;
- (ii) Arranging for necessary medical appointments;
- (iii) Observation of an individual's status and reporting of significant changes to appropriate people;
- (iv) First aid and handling emergencies; and
- (v) Extra support due to developmental disability.

(C) Activities and goals related to the provision of ADL services must be sufficiently documented in the individual's ISP.

(D) Planned expenses must be based upon the least costly means of providing adequate services and must only be to the extent necessary to meet the documented ADL needs.

(E) The supplement for ADLs may not cause the cost per any plan year to exceed the individual cost limit. There is an exception for individuals receiving both support services under these rules who had a benefit level at the individual cost limit and state plan personal care services under OAR chapter 411, division 034, as of June 30, 2005. These individuals may continue to access the basic supplement and the supplement for ADLs until the individual terminates their receipt of support services or becomes ineligible for one of the supplements. The combined basic benefit, the basic supplement, and supplement for ADLs must remain above the individual cost limit to remain eligible for this exception.

(F) For Medicaid recipients receiving state plan personal care services under OAR chapter 411, division 034 entering support services after June 30, 2005, the Medicaid Personal Care Assessment (Form SDS 0531A) shall serve as the individual's authorized ISP for a period not to exceed 90 days.

(G) The supplemental ADL services are not intended to replace the resources available to an individual receiving support services under these rules from their natural support system of relatives, friends, neighbors, or other available sources of support.

## (5) AMOUNT, METHOD, AND SCHEDULE OF PAYMENT.

(a) The brokerage must disburse, or arrange for disbursement of, support services funds to qualified providers on behalf of individuals up to the amount agreed upon in an authorized ISP. The brokerage is specifically prohibited from reimbursement of individuals or individuals' families for expenses related to services and from advancing funds to individuals or individuals' families to obtain services.

(b) The method and schedule of payment must be specified in written agreements between the brokerage and the individual or the individual's legal representative.

(6) TYPES OF SUPPORTS PURCHASED. Supports eligible for purchase with support services funds are:

(a) Chore services. Chore services may be provided only in situations where no one else in the household is capable of either performing or paying

(k) Specialized medical equipment and supplies as well as the following provisions:

(A) When specialized medical equipment and supplies are primarily and customarily used to serve a medical purpose, the purchase, rental, or repair of specialized medical equipment and supplies with support services funds must be limited to the types of equipment and supplies permitted under the State Medicaid Plan and specifically those that are not excluded under OAR 410-122-0080.

(B) Support services funds may be used to purchase more of an item than the number allowed under the State Medicaid Plan after the limits specified in the State Medicaid Plan have been reached, requests for purchases have been denied by the State Medicaid Plan or private insurance, and the denial has been upheld in an applicable hearing or private insurance benefit appeals process.

(C) Devices, aids, controls, supplies, or appliances primarily and customarily used to enable an individual to increase the individual's abilities to perform ADLs or to perceive, control, or communicate with the environment in which the individual lives, may be purchased with support services funds when the individual's developmental disability otherwise prevents or limits the individual's independence in these areas. ### Scope and Limitations of MFC Services

(1) MFC services are intended to support, not supplant, the natural supports supplied by the primary caregiver. The primary caregiver is expected to provide a minimum of 40 hours per week of the child's care. MFC services are not available to replace services provided by the primary caregiver or to replace other governmental or community services.

(2) MFC services may include, for a child on the Hospital Model Waiver, a combination of the following services based upon the needs of the child as determined by the service coordinator and as consistent with the child's plan of care:

- (a) In-home daily care;
- (b) Environmental accessibility adaptations; or
- (c) Goods, services, and supplies.

(3) IN-HOME DAILY CARE (IHDC). IHDC services may include a combination of assistance with ADLs, nursing services, or other supportive services provided by qualified providers. The extent of the IHDC services may vary, but the extent of service is limited as described in this rule.

(a) SPD shall only authorize IHDC service hours that support a parent in their primary caregiving role.

(b) IHDC services include:

(A) Basic personal hygiene — Assistance with bathing and grooming;

(B) Toileting, bowel, and bladder care — Assistance in the bathroom, diapering, external cleansing of perineal area, and care of catheters, ostomies, and bags;

(E) Skin care — Dressing changes and ostomy care;

(F) Respiratory — Monitoring and administering oxygen, applying and adjusting ventilators and other respiratory equipment, providing inhalation therapies, and monitoring and responding to apnea monitors and oximeters;

(G) Cardiovascular — Monitoring of vital signs, and monitoring, replacement, and flushing of vascular access sites;

(H) Neurological — Monitoring of seizures, administering medication, and observing status; and

(I) Other nursing or personal care tasks or services.

(c) When any of the IHDC services listed in section (3)(b) of this rule are essential to the health and welfare of the child and listed in the job description signed by the parent and paid provider, the provider may provide the following supportive services:

(A) Housekeeping tasks necessary to maintain a healthy and safe environment for the child;

(B) Arranging for necessary medical equipment, supplies, or medications;

(C) Arranging for necessary medical appointments;

(D) Accompanying the child to appointments, outings, or community-based activities; or

(E) Participating in activities with the child to enhance development or learning.

(d) The service coordinator shall base the number of IHDC service hours upon the projected amount of time to perform the specified assistance for the child, for which the child must be physically present. IHDC service hours may be spread throughout the time authorized in the billing form or used in large blocks of time as the parent determines. IHDC service hours may only be used when the child is physically residing in the family home.

(e) IHDC services must:

(A) Be previously authorized by SPD before services begin;

(B) Be based on the assessed service needs of the child consistent with, and documented in, the plan of care as determined by the service coordinator;

(C) Be delivered through the most cost effective method as determined by the service coordinator; and

(f) SPD does not authorize IHDC service hours:

(A) That supplant the IHDC services available from family, community, other government or public services, insurance plans, schools, philanthropic organizations, friends, or relatives.

(B) For the purpose of allowing a parent to work or attend school.

(4) ENVIRONMENTAL ACCESSIBILITY ADAPTATIONS.

(a) SPD shall authorize environmental accessibility adaptations when:

(A) Necessary to ensure the health, welfare, and safety of the child in the family home, or to enable the child to function with greater independence in the family home;

(B) Determined to be the most cost effective solution; and

(C) Provided in accordance with applicable state or local building codes by licensed contractors.

(b) Environmental accessibility adaptations exclude:

(A) Adaptations or improvements to the family home that are of general utility and are not of direct medical or remedial benefit to the child; and

(B) Adaptations that add to the total square footage of the family home.

(c) For environmental accessibility adaptations that singly or together exceed \$5,000, SPD may protect its interest for the entire amount of the adaptations through liens or other legally available means.

(d) Environmental accessibility adaptations that are provided in a rental structure must be authorized in writing by the owner of the structure prior to initiation of the work. This does not preclude any reasonable accommodations required under the Americans with Disabilities Act.

(5) GOODS, SERVICES, AND SUPPLIES. Goods, services, and supplies may include any combination of the following:

(a) Specialized medical equipment and supplies. Specialized medical equipment and supplies may include, among others, communication devices, adaptive clothing, adaptive eating equipment, or adaptive sensory or habilitation devices or supplies. (2) “Assignee” means the Department of Human Services (DHS), the Oregon Health Authority (OHA), the Division of Child Support, Oregon Youth Authority (OYA) or equivalent agencies in any other state or Tribe to which support rights for a person are assigned.

(3) “Assignment” or “Assigned” means all or a portion of support payments owed to a person will be kept by the state if the person or a beneficiary of the person is receiving Temporary Assistance for Needy Families (TANF) cash assistance, foster care, or OYA services. Support payments will be distributed as provided in OAR 137-055-6022. Additionally, if a person receives Title XIX medical assistance, medical support rights are assigned.

(9) “Court ordered Amount”, or “COA”, means the periodic payment amount, usually monthly, ordered by the administrator, an administrative law judge or by a court for support. A support order may include related costs and fees, interest, income withholding, attorney fees and other relief.

(30) “TANF” means “Temporary Assistance for Needy Families”, a public assistance program which provides case management and cash assistance to low income families with minor children. It is designed to promote personal responsibility and accountability for parents. Applicants for assistance from IV-A programs are automatically referred to their state IV-D agency in order to identify and locate the non-custodial parent, establish paternity or a child support order, and obtain child support payments.

(33) “Title IV-D” refers to Title IV-D of the Social Security Act, which requires each state to create a program to locate noncustodial parents, establish paternity, establish and enforce child support obligations, and collect, distribute and disburse support payments. Recipients of IV-A (TANF), IV-E (foster care), XIX (Medicaid), and Oregon Youth Authority (OYA) assistance are referred to their state’s IV-D child support program. States must also accept applications from families who do not receive assistance, if requested, to assist in collection of child support. Title IV-D also established the federal Office of Child Support Enforcement.

(34) “Title IV-E” refers to Title IV-E of the Social Security Act which established a federal-state program known as Foster Care that provides financial support to a person, family, or institution that is raising a child or children that is not their own. The funding for IV-E foster care programs is primarily from federal sources.

(35) “Title XIX”, known as Medicaid, refers to Title XIX of the Social Security Act which mandates health care coverage by states for TANF recipients and certain other means-tested categories of persons. Within broad national guidelines which the federal government provides, each state: establishes its own eligibility standards; determines the type, amount, duration, and scope of services; sets the rate of payment for services; and administers its own program. In Oregon, the program is administered by OHA.

## 137-055-1090

### Good Cause

(1) For the purposes of OAR chapter 137, division 055, “good cause” means the Child Support Program (CSP) is exempt from providing services as defined in ORS 25.080. Specifically excluded from this definition is good cause for not withholding as defined in ORS 25.396 and OAR 137-055-4060 and good cause found for not disbursing support to a child attending school under ORS 107.108 and OAR 137-055-5110.

(2) If an obligee believes that physical or emotional harm to the family may result if services under ORS 25.080 are provided, the obligee may

# ADMINISTRATIVE RULES

request, either verbally or in writing, that the administrator discontinue all activity against the obligor. Upon such a request by an obligee, the administrator will:

(a) On an open TANF or Medicaid case, immediately suspend all activity on the case, notify DHS or OHA to add good cause coding, and send a safety packet to the obligee requesting a response be sent to DHS; or

(b) On any other case, immediately suspend all activity on the case, add good cause coding pending a final determination, and send a Client Safety Packet on Good Cause to the obligee requesting a response within 30 days.

(3) Good cause must be determined by:

(a) The Department of Human Services (DHS), pursuant to OAR 413-100-0830, 461-120-0350, 461-120-0360, 461-135-1200 or 461-135-1205, if TANF or Title IV-E benefits are being provided;

(b) The Oregon Health Authority (OHA) if Medicaid benefits are being provided;

(c) The Oregon Youth Authority (OYA), pursuant to OAR 416-100-0020 and Policy Statement II-E-1.5, if the child is in OYA's custody;

(d) The Director of the CSP when the provisions of OAR 137-055-3080 apply; or

(e) The administrator when the provisions of subsections (a) through (d) of this section do not apply.

(4) When the provisions of subsection (3)(e) apply and the obligee makes a written claim that the provision of services may result in emotional or physical harm to the child or obligee or completes and returns the good cause form, the administrator will:

(a) Make a finding and determination that it is in the best interests of the child not to provide services;

(b) Proceed with case closure pursuant to OAR 137-055-1120; and

(c) Except for arrears permanently assigned to the Oregon Youth Authority, satisfy any and all permanently assigned arrears as defined in OAR 137-055-6010.

(5) In determining whether providing services is in the best interest of the child under section (3)(d), the CSP Director will consider:

(a) The likelihood that provision of services will result in physical or emotional harm to the child or obligee, taking into consideration:

(A) Information received from the obligee; or

(B) Records or corroborative statements of past physical or emotional harm to the child or obligee, if any.

(b) The likelihood that failure to provide services will result in physical or emotional harm to the child or obligee;

(c) The degree of cooperation needed to complete the service;

(d) The availability and viability of other protections, such as a finding of risk and order for non-disclosure pursuant to OAR 137-055-1160; and

(e) The extent of involvement of the child in the services sought.

(6) A finding and determination by the CSP Director that good cause does not apply, may be appealed as provided in ORS 183.484.

(7) A finding and determination of good cause applies to any case which involves the same obligee and child, or any case in which a child is no longer in the physical custody of the obligee, but there is a support order for the child in favor of the obligee.

(8) When an application for services is received from an obligee and TANF, Title IV-E or Medicaid benefits are not being provided, the child is not in OYA's custody, and there has been a previous finding and determination of good cause, the administrator will:

(a) Notify the obligee of the previous finding and determination of good cause and provide a Client Safety Packet;

(b) Allow the obligee 30 days to retract the application for services or return appropriate documents from the Client Safety Packet; and

(c) If no objection to proceeding or good cause form is received from the obligee, document CSEAS, remove the good cause designation and, if the case has been closed, reopen the case.

(9) When an application for services is received from a physical custodian of a child, the physical custodian is not the obligee who originally claimed good cause and TANF, Title IV-E or Medicaid benefits are not being provided, the child is not in OYA's custody and there is no previous support award, the administrator will open a new case without good cause coding with the physical custodian as the obligee.

(10)(a) When an application for services is received from a physical custodian of a child, the physical custodian is not the obligee who originally claimed good cause and TANF, Title IV-E or Medicaid benefits are not being provided, the child is not in OYA's custody, and the case in which there has been a finding and determination of good cause has a support award in favor of the obligee who originally claimed good cause, the administrator will:

(A) Notify the obligee who originally claimed good cause that an application has been received and provide a Client Safety Packet; and

(B) Advise the obligee who originally claimed good cause that the previous good cause finding and determination will be treated as a claim of risk as provided in OAR 137-055-1160; and

(C) Allow the obligee 30 days to provide a contact address as provided in OAR 137-055-1160.

(b) If an objection or good cause form is received from the obligee who originally claimed good cause, or if the location of the obligee who original-

ly claimed good cause is unknown, the administrator will forward the objection, form or case to the Director of the CSP for a determination of whether to proceed;

(c) If no objection or good cause form is received from the obligee who originally claimed good cause, the administrator will document CSEAS, make a finding of risk and order for non-disclosure pursuant to OAR 137-055-1160 for that obligee, remove the good cause designation, and, if the case has been closed, reopen the case.

(11)(a) If a request for services under ORS Chapter 110 is received from another state and TANF, Title IV-E or Medicaid benefits are not being provided by the State of Oregon, the child is not in OYA's custody and there has been a finding and determination of good cause, the administrator will:

(A) Notify the referring state of the finding and determination of good cause and request that the state consult with the obligee to determine whether good cause should still apply; and

(B) If the location of the obligee is known, notify the obligee that the referral has been received, provide a Client Safety Packet and ask the obligee to contact both the referring state and the administrator if there is an objection to proceeding; and

(C) Advise the obligee who originally claimed good cause that the previous good cause finding and determination will be treated as a claim of risk as provided in OAR 137-055-1160; and

(D) Allow the obligee 30 days to provide a contact address as provided in OAR 137-055-1160.

(b) If an objection or good cause form is received from the obligee, the administrator will forward the objection, form or case to the Director of the CSP for a determination of whether to proceed.

(c) If there is no objection or good cause form received from the obligee, or if the obligee's address is unknown, and the referring state advises that the finding and determination of good cause no longer applies, the administrator will document CSEAS, remove the good cause designation and, if the case has been closed, reopen the case.

(12) If a referral for services under ORS 25.080 is received because TANF, Title IV-E or Medicaid benefits are being provided or the child is in OYA's custody, and there has been a previous finding and determination of good cause, the administrator will notify the appropriate state agency of the previous finding and determination of good cause and:

(a) If TANF, Title IV-E or Medicaid benefits are being provided, DHS will, in consultation with the office which made the good cause finding and determination and as provided in DHS policy SS-PT-05-005, decide whether good cause still applies pursuant to OAR 413-100-0830, 461-135-1200, 461-135-1205, 461-120-0350 or 461-120-0360; or

(b) If the child is in OYA's custody, OYA will, in consultation with the office which made the good cause finding and determination and as provided in OYA Policy II-E-1.5, determine if the circumstances that created the good cause still exist and, if they do not, request that the agency which determined good cause remove the coding.

(13) When the provisions of section (12) apply, the administrator will not provide services unless and until good cause coding is removed by the agency who made the good cause finding and determination.

(14) Notwithstanding any other provision of this rule, when a case has not previously had a good cause finding and determination and TANF, Title IV-E or Medicaid benefits are being provided or the child is in OYA's custody, and DHS, OHA or OYA makes a current good cause finding and determination on a related case, the administrator will not provide services on the case or related cases unless and until good cause coding is removed by DHS, OHA or OYA.

(15) In any case in which a good cause finding and determination has been made and subsequently removed, past support under ORS 416.422 and OAR 137-055-3220 may not be sought for any periods prior to the determination that good cause no longer applies.

(16) In any case in which a good cause finding and determination has been made, and a child attending school as defined in ORS 107.108 and OAR 137-055-5110 is a party to the case, the child attending school may file an application for services pursuant to OAR 137-055-1060, 137-055-1070 and 137-055-5110.

## 137-055-1120

### Case Closure

(1) The administrator may close a child support case, whenever the case meets at least one of the following criteria for case closure:

(a) There is no longer a current support order, and arrears are under \$500 and there are no reasonable expectations for collection or the arrears are uncollectible under state law. For the purposes of this subsection, "no longer a current support order" means the support order is not currently accruing or there never was a support order. This subsection specifically includes but is not limited to cases in which:

(A) Action to establish support has not been initiated and the child is at least 18 years old;

(B) The child has been adopted;

# ADMINISTRATIVE RULES

(C) The child is deceased; or  
(D) Parental rights for the child have been terminated;  
(b) The non-custodial parent or putative father is deceased and no further action, including a levy against the estate, can be taken;  
(c) Paternity cannot be established because:  
(A) A parentage test, or a court or administrative process, has excluded the putative father and no other putative father can be identified;  
(B) The identity of the biological father is unknown and cannot be identified after diligent efforts, including at least one interview by the administrator with the recipient of services;  
(C) Action to establish paternity has not been initiated and the child is at least 18 years old; or  
(D) In a case involving incest or forcible rape, or where legal proceedings for adoption are pending, the administrator has determined that it would not be in the best interests of the child to establish paternity. For the purposes of this paragraph, a determination by the Department of Human Services (DHS) or the Oregon Youth Authority (OYA) that paternity establishment is not in the best interests of the child is sufficient for the administrator to make the same finding.  
(d) The location of the non-custodial parent is unknown, and the state parent locator service has made regular attempts using multiple sources, all of which have been unsuccessful, to locate the non-custodial parent:  
(A) Over a three-year period when there is sufficient information to initiate an automated locate effort; or  
(B) Over a one-year period when there is not sufficient information to initiate an automated locate effort;  
(e) When paternity is not at issue and the non-custodial parent cannot pay support for the duration of the child's minority because the parent is both:  
(A) Institutionalized in a psychiatric facility, is incarcerated with no chance for parole, or has a medically verified total and permanent disability with no evidence of support potential; and  
(B) Without available income or assets which could be levied or attached for support;  
(f) The non-custodial parent:  
(A) Is a citizen of, and lives in, a foreign country;  
(B) Does not work for the Federal government or for a company or state with headquarters in or offices in the United States;  
(C) Has no reachable income or assets in the United States; and  
(D) Oregon has been unable to establish reciprocity with the country;  
(g) The state parent locator service has provided location-only services based upon a request under 45 CFR 302.35(c)(3);  
(h) The custodial parent or recipient of services requests closure, and:  
(A) There is no assignment to the state of medical support; and  
(B) There is no assignment of arrears that have accrued on the case;  
(i) Another state requests closure and:  
(A) The state requesting closure is currently providing child support services; or  
(B) Oregon is providing child support services at the request of that state.  
(j) The custodial parent or recipient of services is deceased and no trustee or personal representative has requested services to collect arrears;  
(k) DHS, OYA, the Oregon Health Authority or the administrator pursuant to OAR 137-055-1090, has made a finding of good cause or other exceptions to cooperation and has determined that support enforcement may not proceed without risk or harm to the child or caretaker;  
(l) In a non-TANF case (excluding a Medicaid case), the administrator is unable to contact the custodial parent, or recipient of services, within 60 calendar days, despite an attempt of at least one letter sent by first class mail to the last known address;  
(m) In a non-TANF case, the administrator documents the circumstances of non-cooperation by the custodial parent, or recipient of services, and an action by the custodial parent, or applicant for services, is essential for the next step in providing enforcement services; or  
(n) The administrator documents failure by the initiating state to take an action which is essential for the next step in providing services.  
(2)(a)(A) Except as otherwise provided in this section, if the administrator elects to close a case pursuant to subsection (1)(a), (1)(e), (1)(f), (1)(j) or (1)(l) through (1)(n) of this rule, the administrator will notify all parties to the case in writing at least 60 calendar days prior to closure of the case of the intent to close the case.  
(B) If the administrator elects to close a case pursuant to subsection (1)(b) through (1)(d) of this rule, the administrator:  
(i) Will notify the obligee and any child attending school in writing at least 60 days prior to closure of the case of the intent to close the case;  
(ii) Is not required to notify the obligor of the intent to close the case; and  
(iii) If the provisions of paragraph (1)(c)(D) apply, is not required to notify any other party.  
(C) If the administrator elects to close a case pursuant to subsection (1)(g) or (1)(i) of this rule, the administrator is not required to notify any party of the intent to close the case. However, if the case is closed pursuant to paragraph (1)(i)(A), the administrator will send a courtesy notice to the parties advising:

(i) The reason for closure is that another state is providing services; and  
(ii) The state that is providing services, along with a contact address for that state, if known.  
(D) If the administrator elects to close a case pursuant to subsection (1)(h) of this rule, the administrator will notify all parties to the case in writing at least 60 calendar days prior to closure of the case of the intent to close the case, except:  
(i) When the case is a Child Welfare or Oregon Youth Authority case in which the child has left state care, an order under OAR 137-055-3290 is not appropriate, and a notice and finding has not been initiated, the case will be closed immediately; and  
(ii) No closure notice will be sent to the parents unless a parent had contact with the Child Support Program, Child Welfare or the Oregon Youth Authority regarding the child support case.  
(E) If the administrator elects to close a case pursuant to subsection (1)(k) of this rule, the administrator will:  
(i) Notify the obligee and any child attending school in writing at least 60 days prior to closure of the case of the intent to close the case; and  
(ii) Not notify the obligor of the intent to close the case.

(d) The content of the notice in paragraph (2)(a)(A) must include, but is not limited to, the specific reason for closure, actions a party can take to prevent closure, and a statement that an individual may reapply for services at any time.

(b) All parties agree to waive the remainder of the 60-day objection period when the notice of intent to close has already been sent.

(a) The applicant or recipient of services:  
(A) Supplies information which could lead to the establishment of paternity or of a support order, or enforcement of an order; or  
(B) Reestablishes contact with the administrator, in cases where the administrator proposed to close the case under subsection (1)(l) of this rule; or  
(b) The party who is not the applicant or recipient of services completes an application for services.  
(5) A party may request at a later date that the case be reopened if there is a change in circumstances that could lead to the establishment of paternity or a support order, or enforcement of an order, by completing a new application for services.  
(6) The administrator will document the justification for case closure by entering a narrative line or lines on the child support computer system in sufficient detail to communicate the basis for the case closure.

### Obligor Chapter 7 and Chapter 11 Bankruptcy Situations

This rule details the Child Support Program's responsibilities in situations of obligor bankruptcy and applies to Chapter 7 and Chapter 11 bankruptcies filed on or after October 17, 2005. For bankruptcies filed prior to October 17, 2005, the Bankruptcy Code in effect at the time the bankruptcy was filed applies, as does the prior version of OAR 137-055-2360 in effect at the time the bankruptcy was filed.

(1) Upon receiving notification of bankruptcy, the administrator will:

(a) Stop any legal action that is pending, except:

(A) Initiating or proceeding with the establishment of paternity;

(B) Initiating or proceeding with the establishment or modification of a child support order; or

(C) Changing the support award based on a change in the child's physical custody as authorized by ORS Ch 416 (2009 HB 2277).

# ADMINISTRATIVE RULES

(b) Not file any document in circuit court in a county in which the debtor owns real property which creates a lien by its terms or by operation of law without first obtaining relief from the automatic stay.

(c) Leave any existing income, unemployment, or workers' compensation withholding orders in place, if the order is not in violation of the stay. In a Chapter 7 bankruptcy, withholding may continue against post-petition earnings for both current support and for both pre-petition and post-petition arrears. In a Chapter 11 bankruptcy, collections may continue for current support and post-petition arrears, unless otherwise provided in the debtor's plan. If no withholding order is in place, the administrator will obtain a withholding order, as appropriate, upon receipt of obligor's employment information.

(d) Determine if there are any other enforcement actions in process which may need to be stopped due to the stay or which may involve property of the bankruptcy estate, such as a writ of garnishment or contempt of court action; and

(e) Terminate any action that involves property of the bankruptcy estate and is not excepted from the automatic stay and send any such property of the estate that has not been distributed to the bankruptcy trustee.

(2) The administrator will not file a Proof of Claim if no assets are involved in a Chapter 7 bankruptcy.

(3) If there are assets available for distribution to creditors in a Chapter 7 bankruptcy, the administrator will file a Proof of Claim, if applicable, even if the time period for filing a Proof of Claim has passed.

(4) In a Chapter 11 bankruptcy, the administrator will file a Proof of Claim for current support and arrears owed at the time the petition was filed, if any.

(5) The administrator will respond to any objections filed to the Proof of Claim.

(6) If the automatic stay prevents a support enforcement action that is otherwise appropriate under applicable bankruptcy and nonbankruptcy law, unless there is evidence that the bankruptcy will close or the Plan will be confirmed before the relief from stay can be granted, the administrator will petition the bankruptcy court for a Relief from Stay.

(7) If in a Chapter 11 bankruptcy, the debtor proposes a bankruptcy Plan that does not provide for the payment of current or past child support, the administrator may request the bankruptcy court reject the Plan.

(8) The administrator will continue to certify a case for federal and state tax refund intercept unless otherwise provided by the bankruptcy Plan. However, if it is determined that an intercepted tax refund is the property of the estate and the bankruptcy trustee requests the money, the administrator will forward the money to the bankruptcy trustee and notify the parties.

### Obligor Chapter 12 and Chapter 13 Bankruptcy Situations

This rule details the Child Support Program's responsibilities in situations of obligor bankruptcy and applies to Chapter 12 and Chapter 13 bankruptcies filed on or after October 17, 2005. For bankruptcies filed prior to October 17, 2005, the Bankruptcy Code in effect at the time the bankruptcy was filed applies, as does the prior version of OAR 137-055-2380 in effect at the time the bankruptcy was filed.

(1) Upon receiving notification of bankruptcy, the administrator will:

(a) Stop any legal action that is pending, except:

(A) Initiating or proceeding with the establishment of paternity;

(B) Initiating or proceeding with the establishment or modification of a child support order; or

(c) Leave any existing income, unemployment, or workers' compensation withholding orders for current support only in place. If there is an ongoing support obligation and income withholding is in place that includes arrears, the administrator will send an amended withholding order for current support only. When the bankruptcy plan is confirmed, the administrator may issue a withholding order for current support and arrears to the extent authorized in the bankruptcy plan.

(d) Determine if there are any other enforcement actions in process that may need to be stopped due to the stay or which may involve property of the bankruptcy estate, such as a writ of garnishment or contempt of court action; and

(e) Terminate any action that involves property of the bankruptcy estate and is not excepted from the automatic stay and send any such property of the estate that has not been distributed to the bankruptcy trustee.

(2) The administrator will file a Proof of Claim for current support and arrears owed at the time the petition was filed, in any, if the time period for

filing a Proof of Claim has not passed. However, if it will not be feasible for the debtor to pay the entire support obligation during the duration of the bankruptcy plan, the administrator may negotiate with the debtor a stipulation in the bankruptcy plan to collect a lesser amount of support through the plan. Any such stipulation will specify that the remaining debt will be paid outside the plan and the support is nondischargeable.

(3) The administrator will respond to any objections filed to the Proof of Claim.

(4) The administrator will review the Summary of Plan or proposed Plan and the Debtor's Schedule J, if available, for the repayment of arrears and for payment of ongoing support; and

(a) If the time period for filing objections has not passed, the administrator may file an objection to a Plan if the Plan is not feasible.

(b) If the Plan does not provide for pre-petition arrears, the administrator may file an objection to have the pre-petition arrears included in the plan if the time period for filing an objection has not passed.

(5) After confirmation, if the property of the estate has reverted in the debtor, the administrator will resume collection on current support and post-petition arrears. If the Plan provides for the pre-petition arrears, collection of the pre-petition arrears will be governed by the terms of the Plan.

(6) If the debtor fails to make timely support payments after filing the bankruptcy petition, the administrator may petition the bankruptcy court for relief from the automatic stay or move for dismissal of the bankruptcy.

(7) The administrator will continue to certify a case for federal and state tax refund intercept unless otherwise provided by the bankruptcy plan. However, if it is determined that an intercepted tax refund is the property of the estate and the bankruptcy trustee requests the money, the administrator will forward the money to the bankruptcy trustee and notify the parties.

(2)(a) When initiating legal proceedings to establish paternity for a child conceived in Oregon, the administrator will use ORS Chapter 109 or ORS Chapter 416.

(b) Except for proceedings filed under ORS Chapter 109, past support will be established as provided by ORS Chapter 416 and OAR 137-055-3220.

(3) When the administrator initiates legal proceedings to establish paternity, if the child was born in this state, the administrator will file the Notification of Filing of Petition in Filiation Proceedings with the Center for Health Statistics.

(4) The administrator will seek to establish paternity against the man named by the mother to be the most likely alleged father except as provided in sections (5) and (6).

(5) If the husband and mother are still married and the husband is on the child's birth record:

(a) If only one party disputes paternity, the administrator will give notice to the parties that:

(A) The parties have the right to challenge paternity under ORS 109.070 by filing a petition in the circuit court;

(B) The administrator will delay any initiated support action for 30 days;

(C) If a party provides proof within 30 days that he or she filed a petition, the administrator will suspend the support action pending the outcome of the court's decision.

(a) If a written objection is received from the husband within 30 days of the date of the notice, an action to establish paternity will be initiated against the husband.

(b) If no written objection is received from the husband within 30 days of the date of the notice, an action to establish paternity will be initiated against the most likely alleged father named in the mother's paternity affidavit.

(7) In all cases in which the mother states that more than one man could be the biological father of the child and parentage tests have excluded a man as the father of the child, the following provisions apply:

# ADMINISTRATIVE RULES

(a) If there is only one remaining untested possible biological father, that man is constructively included as the father by virtue of the other man's exclusion as the father.

(b) If there are more than one remaining untested possible biological fathers, the administrator will initiate action against each man, either simultaneously or one at a time, to attempt to obtain parentage tests which either exclude or include the man.

(8) In all cases in which the mother states that more than one man could be the biological father of the child and parentage tests have included a man as the father of the child at a cumulative paternity index of at least 99, any other untested possible father(s) will be considered to be constructively excluded by virtue of the first man's inclusion.

(9)(a) The Child Support Program may initially pay the costs of parentage tests, and will seek reimbursement of those costs, but may agree to waive the costs.

(b) If an alleged father fails to appear as ordered for parentage tests, but the mother and child have appeared, reimbursement will be sought from the alleged father for the costs incurred.

(c) The maximum amount allowed to be entered as a parentage test judgment against a party is the amount the Child Support Program agrees to pay a parentage testing laboratory used to perform the tests.

(d) A judgment for parentage test costs reimbursement will not be sought:

(A) Against a person who has been excluded as a possible father of a subject child;

(B) If the mother stated that more than one man could be the father of the child, and has been unable to name a most likely alleged father, and the man tested has not objected to the entry of an order establishing paternity;

(C) If the alleged father has applied for services under ORS 25.080 and requested paternity establishment in accordance with OAR 137-055-3080; or

(D) Except as provided in section (11) of this rule, against any individual who is a recipient of Temporary Assistance to Needy Families (TANF) benefits or Medicaid assistance.

(10) A judgment for parentage test costs reimbursement will not be sought against any person found to be the legal father for costs attributable to testing other alleged fathers in any case in which the mother stated that more than one man could be the father of the child.

(11) When a party requests additional parentage testing as provided in ORS 109.252(2), the following provisions apply:

(a) The laboratory selected for additional testing must be a laboratory approved by accreditation bodies designated by the Oregon Health Authority; and

(b) The party making the request must advance the costs of the additional tests to the accredited laboratory.

(12) Upon receipt of a party's request for additional parentage testing and proof that payment has been advanced to an accredited laboratory, the administrator or the court will order additional testing.

(13) If a non-requesting party fails to appear for the additional parentage testing, the administrator will take appropriate steps to compel obedience to the order for additional testing.

(14) If a requesting party fails to appear for the additional parentage testing, the administrator may enter an order in accordance with OAR 137-055-3100.

(15) The administrator may dismiss or terminate a proceeding to establish paternity after sending written notice to the parties that the case is being considered for dismissal or termination and that any comments or objections must be made within 10 days.

## 137-055-3080

### Responsibility of Administrator to Establish Paternity at Request of Self-Alleged Father

(1) For purposes of this rule, self-alleged father means a man who both:

(a) Claims that he is, or possibly is, the biological father of a child born out of wedlock as defined in ORS 109.124; and

(b) Wishes to have paternity legally established for the child, establishing himself as the legal father.

(2) The administrator is responsible for pursuing establishment of paternity at the request of a self-alleged father, subject to all of the following:

(a) The self-alleged father must either:

(A) Be eligible for services under ORS 25.080, because he is receiving TANF cash assistance or Medicaid assistance for the child born out of wedlock; or

(B) Complete an application for services as provided under ORS 25.080.

(b) Unless otherwise prohibited under this rule, the administrator will:

(A) Take all appropriate steps to determine if the self-alleged father is the biological father; and

(B) Pursue appropriate action to legally establish paternity unless evidence indicates that he is not the biological father.

(c) The administrator will not pursue action to establish paternity under this section in any case where:

(A) Adoption of the child is final;

(B) Paternity has already been established for the child, or;

(C) Paternity is presumed under ORS 109.070, the husband and wife are cohabiting and they do not consent to the challenge.

(d) The administrator will not pursue action to establish paternity under this rule if the Child Support Program (CSP) Director has determined that such action would not be in the best interests of the child, in accordance with section (5) of this rule.

(3) For purposes of this rule, legal proceedings for adoption of the child are pending if either of the following provisions is true:

(a) The mother or legal guardian of the child has released or surrendered the child to the adoptive parent(s) for adoption, and such release or surrender has become irrevocable because the child has been placed in the physical custody of the adoptive parent(s) and the other conditions of ORS 109.312 have been met;

(b) The mother or legal guardian of the child has released or surrendered the child to the Department of Human Services (DHS) or an incorporated child-caring agency for adoption, and such release or surrender has become irrevocable because the child has been placed by the agency in the physical custody of a person or persons for the purpose of adoption, in accordance with ORS 418.270(4).

(4)(a) When a self-alleged father requests the administrator establish his legal paternity for a child, the administrator will send written notification by first class mail to the last-known address of the mother and (if a separate party) legal guardian of the child. Further, if the administrator knows or is informed that legal proceedings for adoption of the child are pending, the administrator will also send written notification to the licensed private agency handling the adoption, or if none exists, to DHS;

(b) If the mother and (if a separate party) legal guardian cannot readily be found, the enforcing agency administrator will make a diligent attempt to locate the party. A diligent attempt includes but is not limited to submitting the case to the Division of Child Support for state parent locator services. If unable to locate the mother and legal guardian within 30 days, the administrator will proceed to process the case as described in section (8) of this rule without the notice described in this section;

(c) The written notification must state the following:

(A) That the self-alleged father has asked the administrator for establishment of paternity services;

(B) That if legal proceedings for adoption of the child are pending, or if the child's mother (or legal guardian if a separate party) alleges that the child was conceived due to rape or incest, the CSP Director will determine whether establishing paternity is in the best interests of the child, on the basis of the responses the CSP Director receives to the written notification;

(C) That a copy of any response to the notification the CSP Director receives will be sent to the self-alleged father, and that the self-alleged father will then have an opportunity to respond to the allegations. The administrator will ensure that the address of the mother and/or guardian is deleted from any written material it sends to the self-alleged father;

(D) The factors the CSP Director will consider, set out in section (5) of this rule, in determining whether establishing paternity would be in the best interest of the child;

(E) That the mother, legal guardian, and adoption agency or DHS child welfare program if appropriate under this rule, has 15 days to respond in writing to the written notification;

(F) That the self-alleged father has 15 days to respond to an allegation or response received by the CSP Director;

(G) That if any of the parties listed in paragraph (D) or (E) of this subsection does not respond to the written notice or allegation within 15 days, the CSP Director will make a determination based on the responses received;

(H) That if the CSP Director determines that establishing paternity would not be in the best interests of the child, this decision:

(i) Means only that the administrator will not pursue action to establish paternity; and

(ii) Does not preclude the self-alleged father from pursuing establishment of paternity on his own, without the assistance of the administrator.

(5) In any case where legal proceedings for adoption of the child are pending, or where the child was conceived due to alleged rape or incest, the CSP Director is responsible for determining whether action to establish paternity would be in the best interests of the child.

(a) If the CSP Director determines that action to establish paternity would not be in the best interests of the child, the administrator will take no further action to establish paternity for the self-alleged father;

(b) A signed written statement from the mother or legal guardian of the child, stating that the child was conceived as a result of rape or incest, is sufficient reason for the CSP Director to determine that establishing paternity would not be in the best interests of the child, unless such statement is disputed or denied by the self-alleged father, subject to the following:

# ADMINISTRATIVE RULES

(A) If the self-alleged father does not respond to the copy of the allegation or response the CSP Director receives as provided in subsections (4)(a) through (4)(c) of this rule, the CSP Director will make a determination by default based on the mother's or legal guardian's statement;

(B) If the self-alleged father does respond and acknowledges that the child was conceived by rape or incest, the CSP Director must determine that establishing paternity would not be in the best interests of the child;

(C) If the self-alleged father does respond and denies that the child was conceived by rape or incest, the CSP Director will decide whether to pursue action to establish paternity. The CSP Director will consider factors including, but not limited to:

(i) Whether a police report was filed;

(ii) Whether the self-alleged father was convicted or acquitted of rape or incest charges;

(iii) Whether other persons have information that the child was conceived due to rape or incest;

(iv) Any other factors known or provided to the CSP Director that would support or refute the veracity of the rape or incest allegation;

(v) Whether establishing paternity would be in the best interest of the child, considering the factors listed in subsection (c) of this section;

(vi) The CSP Director's decision in this matter is limited to only whether the administrator will pursue action to establish paternity, and is in no way to be construed or intended as a determination or accusation of whether the self-alleged father is in fact guilty or not guilty of rape or incest;

(c) When the CSP Director finds that legal proceedings for adoption of the child are pending, the CSP Director will consider the following factors in determining whether establishing paternity would be in the best interests of the child:

(A) The nature of the relationship or contacts between the child and the self-alleged father. This determination may consider whether the child has lived with the self-alleged father or has had frequent visitation with the self-alleged father, thereby establishing a substantial parent-child relationship;

(B) The degree of parental commitment by the self-alleged father to the child. This determination may consider whether the self-alleged father has attempted to stay in contact with the child, and if such attempts would continue or increase in the future;

(C) The degree to which the self-alleged father has contributed or attempted to contribute, consistent with his ability, to the support of the child. This determination may consider the nature and extent of such support, and if such support would continue or increase in the future;

(D) If there is a legal relationship between the child and the self-alleged father, or if there has been an attempt to establish such a legal relationship through filiation proceedings, custody actions, voluntary acknowledgment of paternity, or similar actions. This determination may consider whether the self-alleged father has had an opportunity to establish a legal relationship prior to the initiation of adoption proceedings;

(E) Whether good reasons exist that would excuse the self-alleged father's failure to establish a relationship, or stay in contact with the child, or contribute to the support of the child, or attempt to establish a legal relationship with the child. Such reasons may include, but are not limited to, the self-alleged father's late awareness of the mother's pregnancy or of the child's birth.

(6) Absent judicial review, the decision of the CSP Director is final with regard to any responsibility of the administrator to pursue establishment of paternity.

(7) No provision of this rule prohibits the self-alleged father from pursuing establishing paternity on his own, without the assistance of the administrator.

(8) If the CSP Director determines (when a determination by the CSP Director is necessary under this rule) that the administrator may pursue action to establish paternity at the request of a self-alleged father, or if the administrator does not receive a written assertion requiring such a determination by the CSP Director under this rule, the administrator will proceed on the case as follows:

(a) The administrator will make diligent efforts to provide the mother of the child, unless she is deceased, with actual notice of the action to establish paternity. Notice must be by personal service upon the mother. Diligent efforts include mailing of the notice or petition and summons by first class mail to all reasonably known recent addresses with a request that the mother acknowledge service on the form provided and also mailing the same notice to one or more of the maternal grandparents, if known, addressed to them individually and requesting that they forward the notice and acknowledgment form to the mother;

(b) Notwithstanding the requirement of subsection (a) of this section, no action to establish paternity under this section may be delayed more than 60 days from the self-alleged father's initial request because of the enforcing agency's inability to provide actual notice to the mother of the child or children;

(c) If the mother of the child or children cannot be served with notice of the action or if the mother is deceased, the enforcing agency will not take an order establishing paternity unless parentage tests have been completed which fail to exclude the self-alleged father, and have a cumulative paternity index of at least 99;

(d) In any action to establish paternity in which the administrator cannot serve the child's mother, or when the mother is deceased, the administrator will request that the court appoint a willing, qualified and suitable person to be a guardian ad litem for the child. If no relative or other person agrees to such appointment, the administrator will request that an attorney be appointed for this purpose;

(e) When an order establishing paternity has been taken in accordance with this section without service of the notice or petition and summons on the mother, the administrator will mail a copy of the final order to the mother by first class mail to the most recent contact addresses in the case record, DHS' TANF files and Oregon Driver and Motor Vehicle files marked please forward, address correction requested. In addition to such mailing, the administrator will, for a period of six months from the date of the final order, continue attempts to locate the mother and personally serve her with a copy of the final order establishing paternity.

(9) All other provisions of this rule notwithstanding, the administrator cannot require the child's mother (or other custodial adult) to cooperate with efforts to establish paternity, and the administrator will not assess a penalty for not cooperating, in any case where a finding that the child's mother (or other custodial adult) is exempt from cooperating due to good cause, pursuant to federal law at 42 U.S.C. 654(a)(29) and 42 U.S.C. 666(a)(5)(B)(i), is either currently in effect or is pending. In any such case, the administrator need not proceed further on behalf of the self-alleged father if it determines that there is no further effective action the administrator can take on behalf of the self-alleged father.

### Establishment of Past Support Orders

(1) For purposes of this rule the following definitions apply:

(a) "Past support" means the amount of child support that could have been ordered based on the Oregon Child Support Guidelines (OAR 137-050-0700 through 137-050-0765, referred to hereafter as "guidelines") and accumulated as arrears against a parent for the benefit of a child for any period of time during which the child was not supported by the parent and for which period no support order was in effect.

(b) "Supported by the parent" in subsection (1)(a) means payments in cash or in kind in amounts or in-kind value equal to the amount that would have accrued under the guidelines from the non-custodial parent to the custodial parent or other custodial adult for purposes of support of the child(ren).

(2) The administrator may establish past support when establishing a child support order under ORS 416.400 through 416.470.

(3) When a non-custodial parent has made payments in cash or in kind to a custodial parent or other custodial adult for the support of the child(ren) during the period for which a judgment for past support is sought, and providing that those payments were in amounts equal to or exceeding the amount of support that would have been presumed correct under the guidelines, no past support will be ordered.

(4) When such payments as described in section (3) were made in amounts less than the amount of support presumed correct under the guidelines, the amount of the past support judgment will be the correct amount presumed under the guidelines minus any amounts of support paid.

(5) The non-custodial parent must provide evidence of such payments as described in sections (3) and (4) by furnishing copies of:

(a) Canceled checks;

(b) Cash or money order receipts;

(c) Any other type of funds transfer records;

(d) Merchandise receipts;

(e) Verification of payments from the custodial parent or other custodial adult;

(f) Any other record of payment deemed acceptable by the administrator.

(6) It will be within the discretion of the administrator to determine whether to accept evidence of such cash or in-kind support payments for purposes of giving credit for them. If any party disagrees with this determination, the support determination may be appealed to an administrative law judge per ORS 416.427.

(7) Past support may not be ordered for any period of time prior to the later of:

(a) October 1, 1995; or

(b) The date of the initiation of IV-D services from any state by application for services; or in case of a mandatory referral based on the receipt of TANF cash assistance, Medicaid, foster care or Oregon Youth Authority services, the date of the referral to the Child Support Program (CSP).

(8) If the support case was initiated from another state, the date of application for services will be considered to be either:

# ADMINISTRATIVE RULES

(a) The date the initiating state requests past support to begin but not before October 1, 1995; or

(b) If the initiating state requests that past support be established for multiple periods of time, the beginning date of the most recent period but not before October 1, 1995; or

(c) If the initiating state does not specify a beginning date for past support, the date of the initiating petition but not before October 1, 1995.

(9) Where CSP services did not produce a support order and CSP services were terminated by the applicant or by the CSP agency per state and federal regulations and subsequently CSP services were initiated again, the administrator will not establish past support prior to the date of the most recent initiation of CSP services. If an initiating state requests that past support be established for two or more periods of time, past support will be established only for the most recent period.

(10) If there is or was a child support judgment in existence in any state for the non-custodial parent to pay support to the obligee for the same child(ren), no order for past support will be entered for a period of time before entry of the child support judgment already or previously existing except as provided in OAR 137-055-3200.

(11) Where the order to be entered is for past support only and does not include current support and the past support would be owed only to the State of Oregon or another state, the administrator will not enter an order for past support for a period of less than four months.

(12) Past support will be calculated per the guidelines and will use current income for the parties in calculating past support monthly amounts. Parties may rebut use of current income by presenting evidence of income in differing amounts for the months for which past support is being ordered.

(a) "Correctional facility" means any place used for the confinement of persons charged with or convicted of a crime or otherwise confined under a court order, and includes but is not limited to a youth correction facility.

(A) "Correctional facility" applies to a state hospital only as to persons detained therein charged with or convicted of a crime, or detained therein after acquittal of a crime by reason of mental defect;

(B) "Correctional facility" includes alternative forms of confinement, such as house arrest or confinement, where an obligor is not permitted to seek or hold regular employment.

(b) "Incarcerated obligor" means a person who:

(A) Is or may become subject to an order establishing or modifying child support; and

(B) Is, or is expected to be, confined in a correctional facility for at least six consecutive months from the date of initiation of action to establish a support order, or from the date of a request to modify an existing order pursuant to this rule.

(2) For purposes of computing a monthly support obligation for an incarcerated obligor, all provisions of the Oregon child support guidelines, as set forth in OAR 137-050-0700 through 137-050-0765, will apply except as otherwise specified in this rule.

(3) The incarcerated obligor's income and assets are presumed available to the obligor, unless such income or assets are specifically restricted, assigned, or otherwise inaccessible pursuant to state or federal laws or rules regarding the income and assets of incarcerated obligors.

(4) If the incarcerated obligor has gross income less than \$200 per month, the administrator shall presume that the obligor has zero ability to pay support.

(5) If the provisions of section (4) of this rule apply, the administrator will not initiate an action to establish a support obligation if the obligor is an

incarcerated obligor, as defined in subsection (1)(b) of this rule, until 61 days after the obligor's release from incarceration.

(6) The administrator will not initiate an action to modify a support obligation because of incarceration unless the obligor is an incarcerated obligor, as defined in subsection (1)(b) of this rule, and a party to the current order has requested a modification due to incarceration.

(7) An order entered pursuant to ORS 416.425 and this rule, that modifies a support order because of the incarceration of the obligor, is effective only during the period of the obligor's incarceration and for 60 days after the obligor's release from incarceration. The previous support order is reinstated by operation of law on the 61st day after the obligor's release from incarceration.

(a) An order that modifies a support order because of the obligor's incarceration must contain a notice that the previous order will be reinstated on the 61st day after the obligor's release from incarceration;

(b) Nothing in this rule precludes an obligor from requesting a modification based on a change of circumstances, pursuant to OAR 137-055-3420.

(8) The provisions of this rule do not apply to an obligor who is incarcerated because of nonpayment of support.

### District Attorney Case Assignment for Modification or Suspension of Support

(1)(a) The purpose of this rule is to provide criteria for determining which Oregon District Attorney will have responsibility for initiating action to review and modify an Oregon judgment, or administrative order, that requires payment of child support. This rule applies only when both of the following conditions exist:

(A) An Oregon District Attorney has responsibility for providing support enforcement services under ORS 25.080; and

(B) Either of the following is true:

(i) A party to the case has requested a review and modification, as provided in OAR 137-055-3420, for purposes of changing the amount of the monthly support obligation; or

(ii) The obligor is presumed entitled to a suspension of the support obligation as a recipient of certain cash assistance, as provided in ORS 25.245.

(b) This rule does not apply to a Division of Child Support (DCS) office that is performing district attorney functions.

(2) For purposes of this rule, the following definitions apply:

(a) "Requesting party" means the party requesting the district attorney to review and modify the support obligation;

(A) The requesting party may be the obligor, the obligee, or the child attending school;

(B) An obligor deemed presumptively eligible for a suspension under ORS 25.245 will be considered the "requesting party";

(b) "Non-requesting party" means any party that is not the party as defined in subsection (2)(a), above.

(3) In any case where there are arrears, the district attorney responsible under OAR 137-055-2020 for enforcing the case will, if the support order is in another Oregon county, transfer in the order for review and modification under ORS 25.100.

(4) In any case where there are no arrears:

(a) If all the parties reside in the same Oregon county, but the support order is in another county:

(A) The district attorney for the county of residence of the parties will be responsible for review and modification action;

(B) The district attorney for the county of residence may transfer in the support order for review and modification under ORS 25.100, as the county of residence for the non-requesting party.

(b) If any of the parties reside in the same Oregon county that is the county of the support order, the district attorney for that county will be responsible for review and modification action;

(c) If the support order, the requesting party, and the non-requesting party(ies) are all in different counties:

(A) If the district attorney for the county of the requesting party has previously transferred the support order to the requesting party's county for enforcement, the district attorney for the enforcing county will be responsible for review and modification action;

(B) If the case is not currently open as an enforcement case under ORS 25.080, or if the district attorney for the requesting party's county has never transferred the support order for enforcement:

(i) That district attorney will refer the requesting party to the district attorney for the county of the support order;

(ii) The district attorney for the county of the support order will then be responsible for review and modification action;

(C) If the case is currently open as an enforcement case under ORS 25.080:

# ADMINISTRATIVE RULES

(i) The district attorney for the enforcing county will transfer the enforcement case to the district attorney for the county of the support order;

(ii) The district attorney for the county of the support order will then be responsible for review and modification action;

(iii) Once the review and modification is completed, the district attorney for the county of the support order will transfer the enforcement case back to the proper enforcement county under OAR 137-055-2020.

(5) If the requesting party does not reside in Oregon, and regardless of whether the case has arrears or not:

(a) If the requesting party's case is already being enforced, the administrator will advise the requesting party to direct the request to the child support program in that other state. The other state's child support program may then ask the administrator to pursue action under appropriate state and federal statutes;

(b) If the requesting party's support case is not being enforced under the child support program in another state, the administrator will handle the request under sections (3) and (4) of this rule.

(6) If the non-requesting party(ies) does not reside in Oregon, the district attorney will handle the request under sections (3) and (4) of this rule.

(7) The matrix set out in **Table I**, is included in this rule as an aid, and incorporates preceding sections of this rule: [Table not included. See Ed. Note.]

(8) Notwithstanding subsection (1)(b), all functions and responsibilities assigned to Oregon District Attorneys under this rule will also be considered assigned to DCS, for those counties where DCS has assumed responsibility from the district attorney for providing support enforcement services.

### Periodic Review and Modification of Child Support Order Amounts

(1) In addition to the definitions found in ORS 25.321 and OAR 137-050-0750, for the purposes of this rule, the following definitions apply:

(a) "Determination" means an order resulting from a periodic review, which finds that the current order of support is in "substantial compliance" with the Oregon guidelines (OAR 137-050-0700 through 137-050-0765) and appropriate health care coverage or cash medical support is ordered against one or both parties.

(b) "Periodic Review" means proceedings initiated under ORS 25.287.

(c) "Review" means an objective evaluation by the administrator of the information necessary for application of the guidelines to determine:

(A) The presumptively correct child support amount; and

(B) The need to provide in the order for the child's health care needs through appropriate health care coverage or cash medical support regardless of whether an adjustment in the amount of child support is necessary.

(d) "Substantial compliance" means that the current support order is within at least 15 percent or \$50, whichever is less, of the presumptively correct child support amount as calculated using the guidelines. When making this determination, the 15 percent or \$50 formula will be applied to the currently ordered support amount.

(2) For all child support cases receiving support enforcement services under ORS 25.080, the Child Support Program (CSP) will annually notify the parties:

(a) Of their right to request a periodic review of the amount of support ordered; and

(b) That the CSP will perform a mandatory periodic review and adjustment if the family is currently receiving TANF.

(3) The purpose of a periodic review is to determine, based on information from the parties and other sources as appropriate, whether the current child support order should be modified to ensure substantial compliance with Oregon's child support guidelines, or to order appropriate health care coverage or cash medical support for the child(ren).

(4) The administrator will initiate a periodic review if a written request is received from any party and 35 months have passed since the date the most recent support order took effect, or the date of a determination that the most recent support order should not be adjusted. For purposes of calculating the 35-month time period, a suspension and temporary modification order entered pursuant to ORS 416.425(13)(2009 HB 2275) will not be considered.

(5) The administrator will initiate a periodic review when 35 months have passed since the date the most recent support order took effect, or the date of a determination that the most recent support order should not be adjusted, and the family is currently receiving TANF. For purposes of calculating the 35-month time period, any suspension and temporary modification order entered pursuant to ORS 416.425(13)(2009 HB 2275) will not be considered.

(6) The administrator must complete the determination that the order is in substantial compliance with the guidelines and appropriate health care coverage or cash medical support is ordered, or complete the modification of the

existing order within 180 days of receiving a written request for a periodic review, initiating the mandatory review, or locating the non-requesting party(ies), if necessary, whichever occurs later.

(7) The administrator is responsible for conducting a periodic review in this state or for requesting that another state conduct a review pursuant to OAR 137-055-7190. As provided in ORS 110.429 and 110.432, the law of the state reviewing the order applies in determining if a basis for modification exists.

(8) Upon receipt of a written request for a periodic review or when a mandatory periodic review is required, the administrator will notify the parties of the review in writing, allowing the parties 30 days to provide information which may affect the support calculation.

(9) The administrator will notify the parties in writing of the presumed correct support amount under the child support guidelines and the need to order appropriate health care coverage or cash medical support. Notification may be by motion for modification or a proposed determination that the existing order is in substantial compliance and appropriate health care coverage or cash medical support is already ordered, and will include a request for hearing form.

(10) If the administrator determines that the support order should be modified and there is an adult child on the case, the proposed modification will be a tiered order as defined in OAR 137-055-1020.

### Physical Custody Changes: Adjusting Orders

(1) This rule applies when physical custody of a child changes as described in ORS ch 416 (Oregon Laws 2009, chapter 353). For purposes of this rule, "non-custodial" party means the party without physical custody of the minor child.

(2) The provisions of this rule apply only when all of the children in the support order change physical custody from one parent to another, and the change is not for the purpose of exercising parenting time or visitation.

(3) Specifically excluded from adjustments for physical custody are an adult child as defined in OAR 137-055-5110 and a child attending school, as defined in OAR 137-055-5110, because neither are considered to be in the physical custody of anyone.

(4) When a support order has language sufficient to change the support award when a change in physical custody occurs, a party may submit a sworn affidavit or court order to the administrator which includes the date the party obtained physical custody. The administrator will notify the parties that support will be changed 14 days from the date of mailing to the parties' last known addresses. The notice must include:

(a) A copy of the affidavit or court order;

(b) The amount of support the non-custodial party will be ordered to pay, as previously determined in the support order;

(c) A statement that a hearing may be requested under ORS 416.427; and

(d) A statement that the only issue to be considered in a hearing is whether there has been a change in physical custody.

(5) If an objection is received, the administrator will forward it, along with the requesting party's affidavit, to the Office of Administrative Hearings for a final determination about physical custody.

(6) If no objection is received, the administrator will file a money award to provide notice of the ending of the obligation of the former non-custodial parent, and of beginning the obligation of the new non-custodial parent.

(7) Nothing in this rule prohibits a party from requesting a review and adjustment of a support order under OAR 137-055-3420, or a change of circumstances modification under OAR 137-055-3430.

### Multiple Child Support Judgments

(1) When the administrator finds that two or more child support judgments exist involving the same obligor and child for the same time period and each judgment was issued in this state, the administrator may:

# ADMINISTRATIVE RULES

(a) Issue a proposed governing child support order, as defined in ORS 25.010;

(b) Petition the court in the county where a child who is subject to the judgment resides for a governing child support judgment; or

(c) Move to set aside any one of the support judgments if the judgment was entered in error.

(2) For purposes of a governing child support proceeding, there is a presumption that the terms of the last-issued child support judgment are the controlling terms and supersede contrary terms of each earlier-issued child support judgment, except that:

(a) When the last-issued child support judgment is silent about non-medical child support, the non-medical child support terms of an earlier-issued child support judgment continue; and

(b) When the last-issued child support judgment is silent about medical support, the medical support terms of an earlier-issued child support judgment continue.

(3) The presumption may be rebutted if the last issued child support judgment:

(a) Should be set aside under the provisions of ORCP 71;

(b) Was issued without prior notice to the issuing court, administrative law judge or administrator that another support proceeding involving the child was pending or another support judgment involving the child already existed;

(c) Was issued after an earlier child support judgment and did not enforce, modify or set aside the earlier child support judgment; or

(d) Was issued without service on the administrator as required in ORS 107.087, 107.135, 107.431, 108.110, 109.103 and 109.125, when support rights are assigned to the state and the state's interests were not adequately protected.

(4) The administrator may issue a proposed governing child support order as provided in subsection (1)(a), only if the presumption in section (2) is applied.

(5) When determining which support judgment was the "last-issued" for purposes of determining a governing child support judgment, the issue date for any support judgment will be:

(a) The date the support judgment was entered into the circuit court register; or

(b) If the support judgment is an administrative modification of a court judgment the date the order approving the modification was entered into the circuit court register.

(6) When the court issues a governing child support judgment or when an administrative governing child support order is approved by the court, the noncontrolling terms of each earlier child support judgment regarding non-medical child support or medical support are terminated. However, the issuance of the governing child support judgment does not affect any support payment arrearage or any liability related to medical support that has accrued under a child support judgment before the governing child support judgment is issued.

(7) A proposed governing child support order or petition for governing child support judgment will include:

(a) A reconciliation of any child support arrears or credits for overpayments under all of the child support judgments; or

(b) An order or motion to reconcile any child support arrears or credits for overpayments under all of the child support judgments in a separate proceeding under ORS 25.167 or 416.429.

(8) When reconciling any child support arrears or credits for overpayments under all of the child support judgments included in the governing child support proceeding for time periods prior to entry of a governing child support judgment:

(a) The obligor is expected to pay the total amount of current support due under the highest judgment; and

(b) Payment made toward any one of the judgments must be credited against the obligation owed under the others.

(9) This rule does not apply if the later-issued child support judgment was entered in circuit court before January 1, 2004, the administrator was providing services under ORS 25.080, and the administrator treated a later-in-time court judgment as superseding an earlier entered administrative order.

(10) For purposes of this rule, "Support Judgment" means an administrative order for child support that has been entered into the circuit court register under ORS 416.440 or a judgment of the court for child support.

### Withholder Penalties

(1) Notwithstanding the provisions of ORS 25.424, the provisions of this rule apply to a party's request to bring an action to recover amounts pursuant to ORS 25.424, when a withholder has failed to properly withhold or pay.

(2) A party's request may be verbal, but prior to commencing legal action, the party must provide the administrator with documentation of the withholder's failure, which must include at least:

(a) A check stub or other pay document showing the amount not properly withheld or not paid, if the act alleged is improper withholding; or

(b) An affidavit or other sworn or affirmed statement describing the action taken by or omission of the withholder.

(3) Upon receipt of the document required by section (2) of this rule, the administrator may initiate legal action to recover amounts not withheld or paid under ORS 25.424, and, if appropriate, penalties.

(4) The administrator acts only as a facilitator to bring the action, and does not represent the party for whom the action is initiated.

(5) Nothing in this rule precludes a party from seeking damages, penalties and attorney fees as provided in ORS 25.424.

### License Suspension for Child Support

(1) For the purposes of this rule, "license" means any of the licenses, certificates, permits or registrations that a person is required by state law to possess in order to engage in an occupation or profession, all annual licenses issued to individuals by the Oregon Liquor Control Commission, all driver licenses and permits issued by the Department of Transportation under ORS Chapter 807, and all permanent and fee-based annual hunting and fishing licenses issued by the Oregon Department of Fish and Wildlife.

(2) The administrator may begin the process to suspend an obligor's licenses if:

(a) The obligor has an order or judgment to pay child support, regardless of whether that order or judgment is currently accruing support;

(b) The administrator is providing services on the case pursuant to ORS 25.080;

(c) The obligor owes arrears in an amount equal to the greater of three months of support or \$2500;

(d) The obligor and administrator have not entered into an agreement as described in section (10), or there is an agreement but the obligor is not in compliance with the agreement; and

(e) The obligor has not made voluntary payments, or payments by income withholding, in each of the last three months greater than the current support amount, or if there is no longer an order or judgment for current support, equal to the amount of the most recent order for current support. This criterion does not apply to payments resulting from garnishment, tax offset, or any other enforcement action other than income withholding;

(3) The administrator will consider the obligor's employment and payment history, the obligor's current ability to pay, the likely benefit to the child, and any other pertinent factor in determining whether to initiate or continue the license suspension process.

(4) The administrator will begin the license suspension process by giving written notice to the obligor by regular mail. The administrator will notify any other parties that the action has begun. If the issuing agency or agencies have addresses listed for the obligor other than the address in the administrator's records, the administrator will send copies of the notice to the address in the administrator's records and to each address in the records of the agencies holding licenses. The notice to the obligor will specify:

(a) The obligor's name, Social Security number, if available, and date of birth, if known;

(b) The license(s) subject to suspension, and a statement that any license not specified in the notice will also be subject to suspension without a separate notice;

(c) The obligor's child support case number(s);

(d) The basis for the suspension, including amount of the arrears and the amount of the monthly support obligation(s), if any;

(e) The procedure and grounds for contesting the suspension;

(f) A statement that the obligor can prevent suspension of the license(s) by entering into and complying with an agreement with the administrator; and

(g) A statement that unless the obligor contacts the administrator within 30 days of the date of the notice and contests the license suspension or enters into an agreement, the administrator may notify the issuing agency or agencies to suspend the license(s) without further notice.

(5) The obligor may contest the suspension within 30 days of the notice described in section (4) of this rule only on the grounds that:

(a) The obligor owes arrears less than or equal to the greater of three months of support or \$2,500; or

(b) There is a mistake in the obligor's identity.

(6) Any of the following events ends the license suspension process. The administrator will stop all license suspension action and notify the issuing agency to release any license already suspended, subject to that agency's requirements, if, on timely receipt of a contest from the obligor under section (5), on the obligor's subsequent request for a review of the case, or at any time upon review of the case, the administrator determines that:

(a) The administrator is no longer providing services under ORS 25.080;

(b) The obligor owes arrears less than or equal to the greater of three months of support or \$2,500;

# ADMINISTRATIVE RULES

(c) The individual whose license(s) are to be suspended is not the obligor or who owes the support arrears that are the basis for the suspension;

(7) If the obligor contests license suspension under section (5), the administrator will make a determination based on the criteria in section (6) and notify the parties in writing of the determination. If the administrator determines that the suspension process will continue, the obligor may object within 30 days of the date of the administrator's determination by requesting an administrative hearing. Upon receipt of the hearing request, the administrator will take no further action to suspend pending receipt of the hearing order.

(8) Not less than thirty days after issuing the notice that the obligor's license is subject to suspension, as described in section (4), the administrator will review the case. If the case continues to qualify for suspension, and no contest has been received from the obligor, the administrator may notify the issuing agency to suspend the obligor's license(s).

(9) If an obligor holds more than one license, any determination regarding suspension of one license is sufficient to suspend any other license.

(10) The administrator may enter into an agreement with the obligor, the obligor's compliance with which will preclude suspension of the obligor's license.

(a) The standard monthly payment amount for a compliance agreement is the amount that could be obtained through income withholding under ORS 25.414. In determining this amount, the obligor's actual earnings will be used, but no less than the equivalent of full-time work at Oregon minimum wage. An agreement under this subsection may be for any period of time agreed to by the administrator and obligor.

(b) If the obligor demonstrates inability to pay the full amount described in subsection (10)(a), the administrator may agree to a temporary hardship exception for a lesser amount, including, where appropriate, no amount. The administrator may condition the hardship exception on receipt of a modification request from the obligor, including any evidence needed to substantiate the request. A hardship exception may also require that the obligor take specific steps to enhance the obligor's ability to pay, such as job search, job training or substance abuse treatment. A hardship exception under this subsection may be for no longer than six months. At the end of the hardship period, the agreement must automatically change to a standard payment amount under subsection (10)(a). However, at the end of the hardship period, the administrator may agree to a subsequent hardship exception under this subsection if the administrator determines such an exception remains appropriate.

(11) Any agreement entered into under section (10) must include:

(a) The amount and due date of the payment. The due date in the payment agreement is solely for the purposes of the license suspension process and does not affect the monthly due date in the support order;

(b) If the agreement is based on a hardship exception under subsection (10)(b), a standard payment amount determined under subsection (10)(a) that will automatically go into effect at the end of the specified hardship exception period;

(c) The duration of the agreement, including the duration of the subsequent payment agreement if the initial agreement is based on a hardship exception under subsection (10)(b) of this rule;

(d) A statement that payments may be made through income withholding;

(e) A statement that failure to comply with the agreement may result in immediate notification to the issuing agency to suspend the license(s) without further notice to the obligor;

(f) A statement that the agreement may be terminated if the support order or judgment is modified;

(g) A statement that the administrator may terminate the agreement and suspend the license at any time if the obligor fails to comply with the agreement, if the obligor's income changes, or if the obligor has under-reported income;

(h) A statement that the obligor's compliance with the agreement does not preclude any enforcement action by the administrator other than license suspension, and that other collection actions will continue to occur;

(i) A statement that the obligor is required to inform the administrator within 10 days of any change in employment;

(j) A statement that information provided by the obligor may be used for other enforcement actions, including contempt actions; and

(k) The signatures of the obligor and the administrator.

(12) When the administrator enters into an agreement with the obligor, the administrator will send courtesy copies of the agreement to the parties on the case.

(13) If the obligor complies with the agreement, the administrator will not notify the issuing agency to suspend the obligor's license(s), or, if the license has already been suspended, the administrator will notify the issuing agency to reinstate the license.

(14) If the obligor fails to comply with an agreement, the administrator may notify the issuing agency to suspend the obligor's license(s). The administrator will notify the parties to the case that the action has been taken. If the obligor has complied with the agreement for at least one year and then stops complying, the administrator will send the obligor written notice 30 days

prior to issuing the notice to suspend to provide the opportunity for the obligor to comply.

(15) If an obligor has more than one child support case, the Child Support Program Director or designee will determine and assign a single branch office that will be responsible for services relating to that obligor under this rule. Any enforcement services other than license suspension will be provided by the office(s) otherwise assigned to the obligor's case(s).

(3) A support arrearage lien remains attached to real property until:

(a) The judgment lien expires; or

### Enforcing Health Care Coverage and Cash Medical Support

(1) If services are being provided pursuant to ORS 25.080 and private health care coverage is ordered the administrator will issue a medical support notice to enforce orders for health care coverage within two business days of receiving information that an employer has hired or rehired a providing party, as defined in ORS 25.321, or at any time when the administrator determines it is necessary; and

(a) An obligor or obligee is ordered to provide appropriate health care coverage for a child as required by ORS 25.321, OAR 137-050-0750;

(b) The providing party has failed to provide appropriate health care coverage, either personally or through a spouse's or domestic partner's coverage; and

(c) The employer offers or may offer a health benefit plan to its employees.

(2) Notwithstanding the provisions of section (1), if the party ordered to provide appropriate health care coverage is an active duty or retired member of the military, the administrator will not issue a medical support notice to the military.

(3) If the conditions in section (2) apply:

(a) The administrator will inform the obligee, if the obligee is not the providing party, of the process to initiate military health care coverage enrollment for the dependent child; and

(b) If the medical child support rights for the dependent child are currently assigned to the state, the administrator will require either party to make all reasonable efforts to enroll the child in military health care coverage.

(4) When a medical support notice has been served and the providing party is not enrolled in a health benefit plan or is not enrolled in a plan that offers dependent coverage that is and available pursuant to ORS 25.323, and if more than one plan is offered, the administrator will select a plan in accordance with OAR 137-055-4640.

(5) A party can contest the medical support notice as set out in ORS 25.333.

(6) When the administrator is notified by the employer that the amount to be withheld for premiums is greater than is permissible under ORS 25.331 the administrator will review the circumstances and, if appropriate, modify the order to provide for cash medical support pursuant to OAR 137-050-0750, or activate contingent provisions, if any, as provided in OAR 137-055-3340.

(7) When an employer notifies the administrator that the amount to be withheld for the health care coverage premium is greater than permissible under ORS 25.331:

(a) An obligee who is a recipient of TANF cash assistance may not elect to receive health care coverage over monetary child support. In these cases, the administrator will select monetary child support over health care coverage unless health care coverage would be in the best interests of the child.

(b)(A) Except as provided in section (7)(b)(B), an obligee, who is not a recipient of TANF cash assistance and who selects health care coverage over monetary child support, may change the selection:

(i) No more than once per year;

(ii) In conjunction with a medical support notice being issued to a new employer; or

(iii) When a child becomes seriously ill and health care coverage is needed.

(B) An obligee who is not a recipient of TANF cash assistance may not select health care coverage over monetary child support if such a selection conflicts with the requirements of any bankruptcy plan.

(8) A request to select health care coverage over monetary child support may be made verbally or in writing.

(9) When multiple cases for an obligor are being enforced and the employer receives notice that one or more cases have selected health care coverage over monetary child support, the employer must withhold in the following manner:

(a) First withhold the full amount listed on withholdings issued on the cases that have not selected health care coverage over monetary child support;

(b) Withhold the premium for health care coverage, up to the maximum allowed by law;

(c) If the maximum is not reached, withhold support for the case(s) requesting health care coverage, up to the full amount of the withholding order or the maximum allowed by law, whichever is less;

(d) Identify which payment goes with which case and submit the monetary support payments to the Division of Child Support as directed in the withholding orders.

(10) A providing party may select a different health benefit plan during any applicable open enrollment period, providing the health benefit plan provides appropriate health care coverage, or other coverage if the order so requires.

(11) If the providing party changes to a health benefit plan that does not meet the criteria in section (10) of this rule, the administrator will issue a medical support notice as provided in section (1) of this rule and may pursue modification of the support order for an amount towards cash medical support pursuant to OAR 137-050-0750, or activate contingent provisions, if any, as provided in OAR 137-055-3340.

### Medical Support Notice — Plan Selection

For the purposes of this rule, the definitions found in ORS 25.321 and OAR 137-050-0750 apply.

(1) When a medical support notice has been served and the providing party as defined in ORS 25.321, is not enrolled in a health benefit plan or is not enrolled in a plan that offers and available dependent coverage as defined in ORS 25.323, and if more than one plan with appropriate dependent coverage is offered, the plan administrator will notify the enforcing agency and the enforcing agency will forward the health benefit plan information to the obligee, if the obligee is not the providing party.

(2) The notice sent by the enforcing agency with the health benefit plan descriptions and documents will advise the obligee that:

(a) If the obligee identifies a plan and contacts the enforcing agency within 10 calendar days of the date the plan information was mailed, except as provided in section (4) of this rule, the enforcing agency will notify the plan administrator of the selection made.

(b) If the obligee fails to notify the enforcing agency of a plan selection within 10 calendar days of the date the plan information was mailed, except as provided in section (4) of this rule, the enforcing agency will select the default plan if the plan administrator has indicated there is such a plan or, if there is not a default plan indicated by the plan administrator, the least costly plan available that provides appropriate health care coverage.

(3) Notwithstanding any other provisions of this rule, and except as provided in section (4) of this rule, if the providing party has more than one case with an order to provide appropriate health care coverage, the enforcing agency will select a plan using the following criteria:

(a) If there is only one health benefit plan that provides appropriate health care coverage on all cases, that plan will be selected;

(b) If there is more than one health benefit plan that provides appropriate health care coverage on all cases, the least costly plan will be selected;

(c) If there is a health benefit plan that provides appropriate health care coverage for some but not all of the children on the cases, then:

(A) If the medical support notices were issued on all cases on or about the same date, such as would occur when the providing party has a new employer, the least costly plan that is appropriate to the child(ren) on at least one of the cases will be selected; or

(B) If the medical support notices were issued at different times, such as would occur when there is an existing order with a provision for appropriate health care coverage on one case and a new order with a provision for appropriate health care coverage is established on a second case, the existing plan or the least costly plan that is appropriate to the child(ren) on the case in which the first medical support notice was issued will be selected.

(4) If a providing party's current family is covered by a health benefit plan, the enforcing agency may not select a plan that eliminates the current family's coverage.

(5) The enforcing agency will notify the plan administrator of the selection within 20 business days of the date the plan administrator forwarded the health plan descriptions and documents to the enforcing agency.

### Child Attending School

The purpose of this rule is to provide additional information as to how the Child Support Program (CSP) will apply the provisions of ORS 107.108 when the order or modification provides for support until the child is age 21, so long as the child is a child attending school in accordance with ORS 107.108.

(1) In addition to the definitions found in ORS 107.108, as used in OAR 137-055, the following terms have the meanings given below:

(a) "Active member of the military" means:

(A) A member of the Army, Navy, Air Force, Marine Corps, or Coast Guard (collectively known as the "armed forces"), who is serving on active duty; or

(B) A member of the National Guard who is serving full-time National Guard state or federal active duty; or

(C) A cadet at a federal service academy.

(b) "Adult child" means a child over the age of 18 and under the age of 21, who is not married or otherwise emancipated, and is not currently a child attending school.

(c) "Child attending school" has the meaning given in ORS 107.108, except a child attending school does not include an active member of the military.

(d) "Satisfactory academic progress" means:

(A) For a child attending high school who is over age 18 but under age 21, enrollment in school and meeting attendance requirements or as defined by the school; or

(B) For a child attending post high school classes, as defined by the higher educational institution.

(2) If the obligor has not provided the child attending school with an address to send the documents required by ORS 107.108 to, the administrator, pursuant to OAR 137-055-1140(8), may release the contact address of the obligor to the child attending school. If the obligor does not provide an address to the CSP or to the child, the obligor's failure to receive required documents is not a basis for objecting that a child does not qualify as a child attending school.

(3) If there has been a finding and order of nondisclosure on behalf of the child attending school pursuant to ORS 25.020;

(a) The child may send the obligor's copy of the initial notice of intent to attend or continue to attend school to the administrator for the administrator to forward to the obligor. The child must submit a copy of the documents to the administrator within the time periods set out in ORS 107.108. The administrator will redact the following information prior to sending a copy of the documents otherwise required to be provided to the obligor:

(A) Residence, mailing or contact address including the school name and address;

(B) Social security number;

(C) Telephone number including the school telephone number;

(D) Driver's license number;

(E) Employer's name, address and telephone number; and

(F) Name of registrar or school official.

(b) The child attending school must contact the school each term or semester and submit to the administrator the information that the obligor could obtain from the school if there wasn't a finding and order of nondisclosure on the case. The administrator will redact the information set out in subsection (a) of this section prior to sending a copy of the documents to the obligor.

(4) If a child attending school is in the care of the Oregon Youth Authority (OYA), any and all reporting duties of the child attending school will be the duty of OYA.

(5) The Department of Justice will distribute and disburse support directly to the child attending school, unless good cause is found to distribute and disburse support in some other manner. For purposes of this section "good cause" may include:

(a) The child is in the care of OYA;

(b) The child provides written notarized authorization for distribution and disbursement to the obligee;

(c) The court, administrative law judge or administrator orders otherwise; or

(d) The administrator is enforcing the Oregon order at the request of another state and that state has indicated they are unable to distribute and disburse support directly to the child.

(6)(a) If the administrator makes a finding that the support payment should be distributed and disbursed to the obligee under subsection (5)(b), the administrator will send a notice of redirection of support to the parties.

(b) A party may contest the administrator's finding as provided in ORS 183.484.

(7) An objection based on the requirements of ORS 107.108 may be made by any party to the support order.

(a) Unless new supporting documentation can be provided, an objection can only be made once per semester or term as defined by the school, or three months from the date of a previous objection if the school does not have semesters or terms.

(b) A party may contest the administrator's finding from the objection as provided in ORS 183.484.

(8) When support has been suspended under ORS 107.108, if the case has been closed pursuant to OAR 137-055-1120 and the adult child subsequently complies with the requirements for reinstatement, the adult child must submit the written confirmation of compliance, proof of written consent and an application for services as described in OAR 137-055-1060. The written confirmation and application for services may be combined as one document.

(9) When the administrator has suspended or reinstated a support obligation pursuant to ORS 107.108, a party may request an administrative review of the action within 30 days after the date of the notice of suspension or reinstatement.

(a) The only issues which may be considered in the review are whether:

(A) The child meets the requirements of a child attending school;

(B) The written notice of the child's intent to attend or continue to attend school was sent to the parent ordered to pay support;

(C) The written consent was sent or proof of written consent was received.

(b) The burden of proof for the administrative review is on the requesting party to provide documentation supporting the allegation(s).

(10) When support has been suspended under ORS 107.108, the adult child may request to receive notice of future modifications and may request to be a party to the modification as outlined in ORS 107.108 and OAR 137-055-3430. The adult child does not have any party status on the case until the request has been received by the administrator.

(11) In addition to the rights afforded under ORS 107.108, if the obligee claims good cause under OAR 137-055-1090, the child attending school may apply for services to enforce the existing support obligation on behalf of the child attending school only.

(a) The application will be handled in the same manner as outlined in OAR 137-055-1090(10)(a)-(c).

(b) If the child attending school applies for services, and services are provided under ORS 25.080, all arrears for that child will accrue to the child attending school as provided for in OAR 137-055-6021, until the child's 21st birthday or is otherwise emancipated and then will be file credited off the case.

(12) If a court orders payment from a higher education savings plan in lieu of support under ORS 107.108;

(a) The administrator will cease collection and billing actions on behalf of that child at age 18. If the support order is for a single or last remaining child the department will close the case unless there are arrears on the case.

(b) If payments are ordered from a higher education savings plan and the court has not provided for a modification of the support amount for any remaining children of the order, this is a substantial change of circumstances for purposes of modifying the support order.

(c) If payment from a higher education savings plan has been ordered, the administrator will not take action to subsequently modify the support order to include child attending school support provisions for that child.

(13) Except for support orders originally issued by a state other than Oregon and being enforced under the provisions of ORS 110.303 to 110.452, if the most recent order or modification for support cites ORS 107.108 or otherwise provides for support of a "child attending school," the administrator will follow the provisions of ORS 107.108 and this rule, regardless of other child attending school provisions that may be in the support order.

### Satisfaction of Support Awards

The purpose of this rule is to define how the Division of Child Support (DCS) will credit "satisfactions of support award" in certain circumstances. This rule must not be construed as limiting the authority of DCS to approve or credit a satisfaction of support award in other lawful circumstances not specified in this rule.

(1) When support payment records are kept by the Department of Justice, an obligee may satisfy amounts indicated on the case records as past due by filing a properly-completed "satisfaction of support award" form with the administrator, subject to approval by DCS under the provisions of this rule; or in accordance with OAR 137-055-5240.

(2) When current support or arrears are assigned to the State of Oregon or to another state, and the obligor is seeking credit for support payments not made through DCS:

# ADMINISTRATIVE RULES

(a) DCS and its attorneys have authority to approve and sign satisfactions.

(b) This authority may be exercised only when the obligee has signed a satisfaction of support award form which acknowledges that the support payment was received.

(3) DCS and its attorneys have authority to sign and approve satisfactions of support award for money paid through DCS as payment of assigned support.

(4) DCS will record, on the case record, all properly-completed satisfactions of support award not assigned, and all satisfactions ordered by a court or a hearing order, and all satisfactions for assigned support that are approved in accordance with this rule. DCS will also promptly forward the satisfaction form to the appropriate court administrator, together with a certificate stating the amount of support satisfaction entered on the case record.

(5) Except when satisfied and approved by DCS and its attorneys or by a court or hearing order, DCS will not enter a satisfaction on a case record for support that has been assigned to the State of Oregon or another state.

(6) When DCS rejects a satisfaction in part or in full as provided in section (5) above, DCS will send written notice to the obligor and obligee, by regular mail to the most recent address. Such notice will indicate the reason for the rejection.

(7) All satisfactions must contain the following:

(a) The full names of both the obligor and the obligee;

(b) The name of the Oregon county where the support award was entered;

(c) The Oregon Child Support Program support case number, or the circuit court case number;

(d) Either:

(A) The total dollar amount to be satisfied; or

(B) The period of time for which past due support is satisfied;

(e) A statement that the satisfaction is only for child support or spousal support;

(f) The signature of the obligee, except for those satisfactions approved under sections (2) and (3) of this rule, where the obligee's signature is not required; and

(g) The date the form is signed.

(8) All signatures on "satisfactions of support award" must be notarized, except on court orders.

(9) Notwithstanding any other provision of this rule, DCS has the authority to file and execute a satisfaction, without the need to notarize such satisfaction, when all of the following are true:

(a) The obligor provides a sworn affidavit that the support award has been paid in full, and

(b) DCS certifies that it has a complete payment record for the support award and that the payment records shows no arrears. DCS will be considered to have a complete pay record if DCS has kept the pay record for the support judgment from the date of the first support payment required under the award, or if the obligee or the administrator established arrears for the time period when DCS did not keep the pay record on the case.

(10) When DCS receives a sworn affidavit under the provisions of subsection (9)(a) of this rule, DCS will examine its support records and determine if it has the authority under section (9) of this rule to execute and file a satisfaction of support award. DCS will promptly notify the obligor if DCS determines that it does not have authority to execute and file a satisfaction of support award. DCS will also determine if any amounts due for support were not assigned to the state. If DCS determines that any amounts were not assigned to the state, DCS will give notice to the obligee in the manner provided by ORS 25.085. The notice must inform the obligee that DCS will execute and file the satisfaction of support award unless DCS receives an objection and request for hearing within 30 days after the date of mailing the notice.

(11) If the obligee requests a hearing under section (10) of this rule, a contested case hearing will be conducted under ORS 183.310 to 183.502 before an administrative law judge.

(12) If support is owed to a child attending school the obligee may only satisfy arrears as defined in OAR 137-055-5120.

The terms used in this rule have the meanings set out in OAR 137-055-1020 and 137-055-6010.

(1) Except as provided in OAR 137-055-6021, 137-055-6023, 137-055-6024 and section (4) of this rule, the Department of Justice (DOJ) will dis-

tribute and, as appropriate, disburse support payments received on behalf of a family receiving Temporary Assistance for Needy Families (TANF) cash payments in the following sequence:

(a) Current support to the state, not to exceed the amount of unreimbursed assistance;

(b) State's permanently-assigned arrears, excluding advance payment (AVP) amounts owed to the state under OAR 137-055-6210, not to exceed the amount of unreimbursed assistance;

(c) State's temporarily-assigned arrears, not to exceed the amount of unreimbursed assistance;

(d) AVP amounts;

(e) Family's unassigned arrears during assistance period;

(f) Family's unassigned arrears;

(g) Family's conditionally-assigned arrears;

(h) If the total amount received is sufficient to pay the arrears in full, any remaining funds may be disbursed to a parentage testing fee if the support payment is from a state tax refund intercept, or if the payment meets the provisions in OAR 137-055-6023 (1) & (2).

(2) Except as provided in OAR 137-055-6021, 137-055-6023, 137-055-6024 and section (4) of this rule, the Department of Justice (DOJ) will distribute and, as appropriate, disburse support payments received on behalf of a family with a child(ren) in foster care or in Oregon Youth Authority (OYA) custody in the following sequence:

(a) Current support to the state;

(b) State's permanently-assigned arrears, excluding AVP amounts;

(c) State's temporarily-assigned arrears;

(d) AVP amounts;

(e) Family's unassigned arrears during assistance period;

(f) If the total amount received is sufficient to pay the arrears in full, any remaining funds may be disbursed to a parentage testing fee if the support payment is from a state tax refund intercept, or if the payment meets the provisions in OAR 137-055-6023(1) & (2).

(g) If the state is making foster care maintenance payments on behalf of the child(ren), support payments in excess of the maintenance payments, up to the total support obligation owed, will be reported as excess and be paid to Department of Human Services (DHS) to be used in the manner it determines will serve the best interests of the child(ren).

(h) If the child is in OYA custody, support payments in excess of unreimbursed assistance, up to the total support obligation owed, will be reported as excess and be paid to OYA.

(3) Except as provided in section (4) of this rule, DOJ will distribute and, as appropriate, disburse support payments received on behalf of a family who formerly received assistance in the following sequence:

(a) Current support to the family;

(b) Family's unassigned arrears;

(c) Family's conditionally-assigned arrears;

(d) State's permanently-assigned arrears, not to exceed the amount of unreimbursed assistance;

(e) Family's unassigned arrears during assistance period.

(f) If the total amount received is sufficient to pay the arrears in full, any remaining funds may be disbursed to a parentage testing fee if the support payment is from a state tax refund intercept, or if the payment meets the provisions in OAR 137-055-6023(1) & (2).

(4) DOJ will distribute and, as appropriate, disburse support payments received from federal tax refund intercepts in the following sequence:

(a) State's permanently-assigned arrears, excluding AVP amounts, not to exceed the amount of unreimbursed assistance;

(b) State's temporarily-assigned arrears, not to exceed the amount of unreimbursed assistance;

(c) Family's conditionally-assigned arrears not to exceed the amount of unreimbursed assistance;

(d) AVP amounts;

(a) Disbursed to DHS if funds were expended to provide foster care assistance to the family;

(b) Disbursed to OYA if funds were expended by OYA to provide assistance to a member of the family; or

(c) Retained by DOJ if funds were expended to provide TANF cash assistance to the family, except:

(A) As payments are received each month, DOJ will pass through to the obligee no more than \$50 for each dependent child, up to a maximum of \$200 per month, not to exceed the current support due that month.

(B) Current support collected from each obligor may only be passed through for the child(ren) of that obligor, even if the maximum pass-through has not been met.

(6) Whenever support payments are assigned to a Tribe, the Tribe's share of the payments will be disbursed to the Tribe as provided in 42 USC 657.

### Distribution and Disbursement on Multiple Cases

The terms used in this rule have the meanings set out in OAR 137-055-1020 and 137-055-6010.

(1) When an obligor has multiple support cases, the distribution and, as appropriate, disbursement sequence for each case will be as provided in OAR 137-055-6022, but DOJ will distribute and, as appropriate, disburse support payments to each of the multiple cases as follows:

(2) When withholder remits a single payment that is a combined payment intended to comply with more than one income withholding order against the obligor, and the obligor's income is sufficient for the withholder to fully comply with each order to withhold income issued pursuant to ORS Chapter 25, DOJ will ensure that the amount distributed and, as appropriate, disbursed to each case is consistent with the withholding order's limitations. However, when the obligor is paid on a weekly basis, for those months in which there is an extra pay period due to the manner in which weeks fall during the year, the weekly amount may be distributed and, as appropriate, disbursed to each case when it is received, even if the monthly withholding limitation has already been reached.

(3) When withholder remits a single payment that is a combined payment intended to comply with more than one income withholding order against the obligor, but the obligor's income is not sufficient for the withholder to fully comply with each order to withhold income issued pursuant to ORS Chapter 25, DOJ will distribute and, as appropriate, disburse the amount received as follows:

(a) If the amount is not sufficient to pay the current support due on all of the obligor's support cases for which an order to withhold is in effect, each withholding case will receive a proportionate share of the total amount withheld. For each case, DOJ will determine this amount by dividing the amount ordered as current monthly support on the case by the total combined amount ordered as current support on all of the obligor's support cases for which an order to withhold is in effect, and then multiplying the resulting percentage by the total amount withheld.

(b) If the amount withheld from the obligor's income is sufficient to pay the current support due on all cases, but is not enough to fully comply with the order to withhold on all cases where arrears are owed, the amount received will be distributed and, as appropriate, disbursed as follows:

(A) Current support to each withholding case;

(B) Equally to each withholding case where arrears are owed. However, no case may receive more than the maximum allowable withholding amount for that case pursuant to ORS 25.414 or, as appropriate, under an expanded income withholding pursuant to ORS 25.387. Any remaining funds will be equally distributed and, as appropriate, disbursed to the obligor's other cases. No case may receive more than the total amount of current support and arrears owed on that case at the time this distribution and disbursement is made.

(4) When support payments are received from federal tax refund intercepts the payment will first be processed under OAR 137-055-6021(9). If the payment is not sufficient to pay the full arrears amount on each case certified for federal offset, DOJ will distribute and, as appropriate, disburse the amount received as follows:

(a) If the total amount received is not sufficient to pay the state's permanently-assigned arrears on all of the obligor's certified cases, each certified case will receive an equal share. However, no case may receive more than the state's permanently-assigned arrears on that case.

(b) If the total amount is sufficient to pay the state's permanently-assigned arrears on all certified cases, but is not enough to pay in full all the state's temporarily-assigned or the family's conditionally-assigned arrears on all of the obligor's certified cases, the amount received will be distributed and, as appropriate, disbursed as follows:

(A) State's permanently-assigned arrears to each certified case;

(B) An equal share of the remaining funds for each certified case. However, no case may receive more than the state's temporarily-assigned or the family's conditionally-assigned arrears on that case.

(c) If the total amount is sufficient to pay the state's permanently assigned arrears and the state's temporarily-assigned or the family's conditionally-assigned arrears on all certified cases, but is not enough to pay in full the family's unassigned arrears on all of the obligor's certified cases, the amount received will be distributed and, as appropriate, disbursed as follows:

(A) State's permanently-assigned arrears to each certified case;

(B) State's temporarily-assigned or the family's conditionally-assigned arrears to each certified case;

(C) An equal share of the remaining funds for each certified case. However, no case may receive more than the total amount of arrears owed on that case at the time this distribution or disbursement is made.

(5) When a single writ of garnishment is issued for two or more cases as provided in ORS 18.645, DOJ will distribute and, as appropriate, disburse support payments only among the cases listed in the writ of garnishment and in the manner provided in section (6) of this rule.

(6) Except as provided in OAR 137-055-6023, DOJ will distribute and, as appropriate, disburse all other support payments received, including support payments received from state tax refund intercepts, as follows:

(a) When support payments are received from state tax refund intercepts, the payment will first be processed under OAR 137-055-6021(10).

(b) If the total amount is not sufficient to pay the current support due on all of the obligor's support cases, each case will receive a proportionate share of the total amount received. For each case, DOJ will determine this amount by dividing the amount ordered as current monthly support on the case by the total combined amount ordered as current support on all of the obligor's support cases, and then multiplying the resulting percentage by the total amount received.

(c) If the amount received is sufficient to pay the current support due on all cases, but is not enough to pay in full all cases where arrears are owed, the amount received will be distributed and, as appropriate, disbursed as follows:

(A) Current support to each case;

(B) Equally to each case where arrears are owed. However, no case may receive more than the total amount of current support and arrears owed on that case at the time this distribution and disbursement is made. Any remaining funds will be equally distributed and disbursed to the obligor's other cases.

(d) If the total amount received is sufficient to pay the arrears in full on all cases, any remaining funds may be distributed to parentage testing fees if the support payment is from a state tax refund intercept, or if the payment meets the provisions in OAR 137-055-6023(1) & (2).

## 137-055-6260

### Return of Overcollected Support Amounts

(1) When the Division of Child Support (DCS) receives a support payment on an account for which no current order exists for ongoing support, DCS will apply the payment to any arrears the obligor may owe on the account. If any excess funds remain from the payment after any arrears are paid in full, and DCS has not forwarded the excess amount to the payee, DCS will return the excess amount to the obligor within 30 days of discovering the overcollection.

(2) On any account for which an ongoing support obligation exists, and DCS receives a payment that exceeds the total amount due for current support and arrears and has not forwarded the excess amount to the payee, DCS will return the excess amount to the obligor under the following circumstances:

(a) When an income withholding order exists and the withholder does not receive or implement a notice from the administrator to reduce withholding to the amount of the current ongoing support obligation in a timely manner, such as may occur after all arrears are collected or after the ongoing support obligation is modified downward;

(b) When a state or federal tax refund is intercepted in an amount exceeding the amount owed for arrears; or

(c) When TANF cash assistance is being granted to the obligee or children on the support case, unless the obligor and the administrator agree otherwise.

(3) Notwithstanding section (1), on any account for which no current order exists for ongoing support, when a withholder sends a payment that exceeds the total amount that should have been withheld under ORS 25.414(1)(d), there is no order for expanded withholding under ORS 25.387, and DCS has not forwarded the excess amount to the obligee, DCS will return the excess amount to the obligor.

(4) When DCS receives a payment that exceeds the total amount due for current support and arrears and has forwarded the excess amount to the payee, DCS will notify the parties in writing within 30 days of discovering the overcollection that:

(a) A credit balance in the obligor's favor has resulted from the overcollection; and

(b) The obligee or child attending school under ORS 107.108 and OAR 137-055-5110 may, within 14 days of the date of the notice from DCS, submit a written request to DCS for an administrative review to determine if DCS's record-keeping and accounting related to calculation of the credit balance is correct.

(5) DCS will conduct the administrative review within 30 days of receiving the party's written request, and will send written notification to the parties of the results of the review.

(6) In any case where DCS is required to return overcollected funds to an obligor under section (2) of this rule, the obligor may elect to forego the return of some or all of the overcollected funds and to instead use any credit balance amount thus established under this rule to offset the obligor's future ongoing support obligation, genetic test fees or arrears. An obligor wishing to elect this option must notify DCS before DCS has returned such funds to the obligor.

(b) "Limited services case" means a case in which the provisions of ORS 25.080 do not apply and one or more collection, accounting, distribution and disbursement or enforcement services are provided pursuant to state or federal law;

(c) An "establishing paternity only" case means a case in which the only service requested under ORS 25.080 by a party is the establishment of paternity for a minor child.

(2) When any Oregon judgment or support order for child and/or spousal support is received, the administrator will:

(a) If the order requires payment of child support or child and spousal support and seeks collection, accounting, distribution, disbursement and enforcement services:

(A) Create a full services case on the Child Support Enforcement Automated System (CSEAS) if one does not already exist;

(B) Initiate appropriate enforcement action;

(C) Unless the order contains the signed request of a party, send the parties a standardized application form; and

(D) Send the parties the information required in OAR 137-055-1060(3);

(b) If the order requires payment of spousal support only and seeks collection, accounting, distribution, disbursement and enforcement services, process the order pursuant to OAR 137-055-2045.

(c) If the order is silent, unclear or contradictory on the services to be provided and no application or other written request for support enforcement services has been received:

(A) Create an information only case on the CSEAS for the state case registry if one does not already exist; and

(B) Send the parties a letter explaining that no services will be provided and why. The letter must include a statement that the parties may apply for support enforcement services at any time if the order includes a provision for child support.

(d) If the order seeks only payment through the Department of Justice and no application or other written request for support enforcement services has been received:

(A) Create an information only case on the CSEAS for the state case registry, if one does not already exist, to receive and disburse payments in accordance with OAR 137-055- 6021; and

(B) Send the parties a letter explaining that the program will only provide disbursement of support payments and why. The letter must include a statement that a party may apply for support enforcement services at any time if the order includes a provision for child support.

(e) If the order seeks only services sufficient to permit establishment of income withholding for child support or child and spousal support as provided in ORS 25.381(2)(a):

(A) Create a limited services case on the CSEAS if one does not already exist;

(B) Establish income withholding under ORS 25.378; and

(C) Receive and disburse payments in accordance with OAR 137-055-6021.

(f) If the provisions of subsection (c) or subsection (d) apply and a party subsequently completes an application or other written request for support enforcement services, the administrator will process the application or request in accordance with OAR 137-055-1060.

(3) When a person applies for services under OAR 137-055-1060 for establishment or enforcement of a child support order, the case is a full services case.

(a) The administrator will perform all mandated services under state and federal law; and

(b) The administrator will determine which non-mandated services will be provided, but may consider input from the applicant in making that determination.

(4)(a) When a person applies for services under OAR 137-055-1060 and there is more than one parent who may be obligated to pay support, the applicant may apply for services:

(A) To establish and collect support from only one parent; or

(B) To establish and collect support from more than one parent.

(b) A separate application under OAR 137-055-1060 is required for each parent the applicant wishes to pursue.

(5) When a parent or alleged parent applies for "establishing paternity only" services as defined in subsection (1)(c), the program will accept the case and provide only paternity establishment services if:

(a) The child was born in Oregon;

(b) The administrator has jurisdiction to establish paternity;

(c) There is no legal presumption of paternity under ORS 109.070, or if there is, the husband and wife are seeking to add the husband to the birth record;

(d) Paternity is not already established;

(e) The child does not receive public assistance; and

(f) The program is not already providing full services.

### Requests for Hearing

(1) A request for hearing must be in writing and signed by the party, the party's authorized representative, or the administrator.

(2) A request for hearing may be made on a form provided by the Child Support Program (CSP) and must contain the party's residence, mailing or contact address, a telephone number where the party can be contacted and the reasons for objection to the contested case notice.

(3) A request for hearing must be received by the CSP office which issued the action within the time provided by law or notice in order to be considered timely.

(4) A new or amended request for hearing is not required from the requesting party to obtain a hearing if the administrator amends the order being appealed, unless the administrator notifies the requesting party that an additional request is required.

(5) When a party requests a hearing after the time specified by the administrator, the administrator will handle the request pursuant to OAR 137-003-0528, except that the administrator may accept the late request only if:

(a) The request is received before or within 60 days after entry of a final order by default;

(b) The circuit court has not approved the final order or there is no appeal of the final order pending with the circuit court, and

(c) The cause for failure to timely request the hearing was beyond the reasonable control of the party, unless other applicable statutes or Oregon Child Support Program administrative rules provide a different time frame or standard.

(6) Notwithstanding the provisions of section (5) of this rule, a request for hearing is not considered a late hearing request when:

(a) Parentage testing has been conducted pursuant to ORS 109.252 and 416.430 which includes the man as the biological father of the child, and a request for hearing has been received from a party within 30 days from the date of service of the Notice of Intent to Enter Order/Judgment establishing paternity and the notice of parentage testing results; or

(b) A party has denied paternity and failed to appear for parentage tests, an order establishing paternity has been entered, and a request for hearing has been received from a party within 14 days from the date the order establishing paternity was mailed to the parties.

(7) For the purpose of computing any period of time under this rule, except as otherwise provided, any response period begins to run on the following date:

(a) If service is by certified mail, on the date the party signs a receipt for the mailing;

(b) If service is by regular mail:

(A) Three days after the mailing date if mailed to an address in Oregon;

(B) Seven days after the mailing date if mailed to an address outside Oregon; or

(c) The date evidence shows the party received the mailing.

(8) The dates in section (7) are computed based on calendar days, not business days.

# ADMINISTRATIVE RULES

(9) The provisions of subsection (7)(b) do not apply to service on a party by regular mail to complete substitute service. For substitute service, the service date is the date the document is postmarked.

**Subject:** The amendments to OAR 257 division 050 delete the references to “approved tow business,” “authorized tow business,” and “registered tow business” and replaces those words with the defined term of “qualified tow business.” The amendments further delete the word “applicant” and replaces it with “authorized agent or representative” of a tow business in reference to applications for a letter of appointment to the non-preference tow rotational list from the Department. The amendments create clearer distinctions between “tow businesses” in general and “qualified tow businesses” in particular and clarifies that “qualified tow businesses,” upon receiving a letter of appointment from the Department, are required to comply with the Department’s administrative rules governing the non-preference tow rotational list and are subject to suspension and revocation for failing to do so. The amendments further delete the requirement that “tow businesses” (when their registered agents or representatives apply for a letter of appointment), or “qualified tow businesses” (when complying with the administrative rule requirements), must be licensed as a “separate legal entity” and replaces it with the requirement that such businesses must be separately registered with the Secretary of State Corporate Division. Finally, the amendments delete the requirement that oral proceedings in Department suspension or revocation hearings must be recorded on tape. The amendment allows the Department to record suspension or revocation hearings by any means, including digital recording.

### 257-050-0020

#### Policy and Purpose

It is the policy and purpose of the Oregon State Police that:

(1) To further the Oregon State Police’s interest in the prompt and orderly removal of disabled or abandoned vehicles from the highways of the State of Oregon, and to meet the towing needs of the Department, the Department has established a non-preference tow program as defined in Oregon Administrative Rules (OAR) 257-050-0020 to 257-050-0200. The program, in part, consists of a non-preference tow rotational list comprised of qualified tow businesses. The non-preference tow rotational list is computer generated and does not favor any one qualified tow business. The non-preference tow rotational list is not a guarantee of business to the towing industry by the Department. Qualified tow businesses participating in the non-preference tow rotational list understand that they may be called upon to conduct vehicle tows at the operational need of the Oregon State Police, as may be determined by the requesting State Police Officer or Department member.

(2) Because the non-preference tow rotational list is designed to meet the towing needs of the Department, tow businesses do not need to be on the list to conduct business with the general public in the State of Oregon.

(3) The Oregon State Police do not charge any fees to the owner or driver of a vehicle towed under its non-preference tow program. Therefore, the Department does not require any qualified tow business participating in the non-preference tow rotational list to charge any fees to the owner or driver of a vehicle towed under the Department’s non-preference tow program. Accordingly, the Department shall not establish, recommend, or in any way dictate the cost of a non-preference tow conducted by a qualified tow business under the Department’s non-preference tow program. It is also the policy of the Department that qualified tow businesses that participate in the Department’s non-preference tow rotational program shall not represent to any person or business that a particular fee has been or will be charged by the Oregon State Police.

(4) Qualified tow businesses called upon by the Oregon State Police to conduct non-preference tows must reflect the highest standards of professionalism. Qualified tow businesses that, through their conduct or actions, abuse the non-preference tow system or the integrity, trust or security of the

Oregon State Police shall be removed from the non-preference tow rotational list through the suspension and/or revocation processes.

#### Authority

(1) These Administrative Rules are promulgated pursuant to ORS 181.440, which permits the Superintendent of the Oregon State Police to make rules governing the eligibility of tow businesses to be placed and remain on any list of qualified tow businesses used by the Department when it requests towing services on behalf of any person.

(2) All qualified tow businesses providing service to the public and the Department through calls received from the Oregon State Police shall conduct their operation in accordance with all applicable federal, state, and local laws, rules, or their equivalent.

(3) In the event the Oregon State Police enters into an agreement with any other state agency, allowing that state agency the use of the non-preference tow rotational list, then these rules shall apply to tow requests made by that state agency.

In case of a tow business that is a partnership, each partner will apply on the form prescribed by the Department. In the case of a tow business that is a corporation, the Department may require that each of the present, and any subsequent officers, managers, and stockholders holding 10% or more of the total issued and outstanding stock of the applicant corporation complete an application form.

(2) The application form will be assigned a document number by the Patrol Services Division which shall be its yearly identification number for all matters relating to appointments, granted or denied, and any other correspondence thereafter.

(3) The filing of an application for a letter of appointment to provide towing to the Department from a non-preference list does not in itself authorize a tow business to provide towing services pursuant to these regulations until a letter of appointment has been granted by the Department. The Department shall not call a towing business for non-preference towing unless a current/valid yearly appointment letter has been issued in connection with such tow business by the Department. Nothing herein shall prohibit the Department from calling a towing business upon a specific request of the person responsible for the vehicle or his agent. An appointment letter will not be granted until all application sections of the application form have been completed by the authorized agent or representative of a tow business.

(4) During implementation of the Administrative Rules, the present non-preference tow list system will be in effect until such time that the Administrative Rules are in place at the Patrol Services Division of the Department.
