Adm. Order No.: PH 14-2010(Temp)

Certified to be Effective: 7-6-10 thru 12-31-10

Notice Publication Date:

Rules Amended: 333-008-0020

Subject: The Department of Human Services, Public Health Division, Oregon Medical Marijuana Program (OMMP) is temporarily amending OAR 333-008-0020 in order to clarify the procedures regarding acceptable documentation accompanying an application for the registry. Current administrative rules require Oregon identification and proof of Oregon residency in order to get an OMMP card. The Oregon Department of Justice has advised the OMMP that the Oregon Medical Marijuana Act (OMMA) is not limited to residents of Oregon and that the OMMP cannot, in rule, have an Oregon residency requirement. In order to fully comply with the OMMA, the OMMP must immediately amend its rules to accept identification from non-residents.

Rules Coordinator: Brittany Sande—(971) 673-1291

New Registration Application and Verification

(1) A person may apply for a registry identification card on a form prescribed by the Department. In order for an application to be considered complete, an applicant must submit the following:

- (a) An application form signed and dated by the applicant;
- (b) Copies of legible, current, and valid U.S. government issued photographic identification from the applicant, the designated primary caregiver, and grower, as applicable. Acceptable forms of government issued photographic identification include but are not limited to:

- (A) Driver's license;
- (B) State identification card;
- (C) Passport; or
- (D) Military identification card;

(c) Documentation, which may consist of relevant portions of the applicant's medical record, signed by the applicant's attending physician within 90 days of the date of receipt by the Department, which describes the applicant's debilitating medical condition and states that the use of marijuana may mitigate the symptoms or effects of the applicant's debilitating medical condition;

(d) A completed "Declaration of Person Responsible for Minor" form for any person under 18 years of age, signed and dated by the person responsible for the minor; and

(e) An application fee in the form of cash, bank check, or personal check. The Department will place a 10-day hold on the issuance of a registry identification card for an application accompanied by a personal check. An applicant will be given 14 days from Department receipt of non-sufficient funds (NSF) or stop payment notification to submit payment in the form of a bank check or cash.

(2) An applicant may only name, and the Department will only register, one designated primary caregiver and one grower.

(3) For applications received on or after December 1, 2005, the fee for a new application is \$100.00, unless an applicant can demonstrate current eligibility in the OHP, receipt of current food stamp benefits, or receipt of current SSI benefits, in which case the application fee is \$20.00.

(a) To qualify for a reduced fee on the basis of current eligibility in the OHP, an applicant must provide a copy of the applicant's current eligibility statement.

(b) To qualify for a reduced fee on the basis of receipt of current SSI benefits, an applicant must provide a copy of a current monthly SSI benefit card, showing dates of coverage.

(c) To qualify for a reduced fee on the basis of receipt of current food stamp benefits, an applicant must be current in the Food Stamp Management Information System database system or provide a current copy of food stamp benefit identification card.

(4) The Department may verify information on each application and accompanying documentation, including:

(a) Contacting each applicant by telephone or by mail. If proof of identity is uncertain, the Department may require a face-to-face meeting and may require the production of additional identification materials;

(b) Contacting a minor's parent or legal guardian;

(c) Contacting the Oregon Board of Medical Examiners to verify that an attending physician is licensed to practice in the state and is in good standing;

(d) Contacting the attending physician to request further documentation to support a finding that the physician is the applicant's attending physician. The Department will notify the applicant of the intent to review the medical records and request the applicant's authorization to conduct the review. Failure to authorize a review of medical records may result in the application being declared incomplete, or denial of an application;

(e) Contacting the OHP, DHS-Self Sufficiency, or Social Security Administration (SSA) to verify eligibility for benefits; and

(f) Conducting criminal records check under ORS 181.534 of any person whose name is submitted as a grower.

(5) The Department will notify an applicant who submits a reduced fee for which the applicant is not eligible and will give the applicant 14 days from the date of notice to pay the correct fee, submit a current, valid eligibility determination statement for the OHP, current copy of food stamp benefit identification card, or to submit a copy of a receipt for current SSI monthly benefit, as applicable. The Department will continue to process the application pending receipt of an eligibility statement. The Department will not grant an application fee refund for any eligibility determination made on or after the date of issuance of the applicant's registry identification card.

(6) If an applicant does not provide all the information required and the application is considered incomplete, the Department shall notify the applicant of the information that is missing, and shall give the applicant 14 days to submit the missing information.

(7) If the Department is unable to verify that the applicant's attending physician meets the definition under OAR 333-008-0010(3) the applicant will be allowed 30 days to submit written documentation or a new attending physician's declaration from a physician meeting the requirements of these rules. Failure to submit the required attending physician documentation is grounds for denial under ORS 475.309 and OAR 333-008-0030.

(8) If an applicant does not provide the information necessary to declare an application complete, or to complete the verification process within the timelines established in subsections (6) and (7) of this rule, the application will be returned to the applicant as incomplete, along with the application fee. An applicant whose application is returned as incomplete may reapply at any time.

(9) The application forms referenced in this rule may be obtained by contacting the: Oregon Medical Marijuana Program (OMMP) at PO Box 14450, Portland, OR 97293-0450 or calling 971-673-1226.

Client-Employed Provider Program

The Client-Employed Provider Program contains systems and payment structures to employ both hourly and live-in providers. The live-in structure assumes the provider shall be required for activities of daily living and self-management tasks and twenty-four hour availability. To ensure continuity of service for the client, live-in service plans must include at least one homecare worker providing twenty-four hour availability for a minimum of five days in a calendar week. The hourly structure assumes the provider shall be required for activities of daily living and self-management tasks during specific substantial periods. Except as indicated, all of the following criteria apply to both hourly and live-in providers.

(1) **EMPLOYMENT RELATIONSHIP.** The relationship between the provider and the client is that of employee and employer.

(2) **CLIENT-EMPLOYER JOB DESCRIPTIONS.** Each client-employer is responsible for creating and maintaining a job description for the potential employee in coordination with the services authorized by the client's case manager.

(3) **HEMOCARE WORKER LIABILITIES.** The only benefits available to homecare workers are those negotiated in the bargaining agreement and as provided in Oregon Revised Statute. This agreement does not include participation in the Public Employees Retirement System or the Oregon Public Service Retirement Plan. Homecare workers are not state employees.

(4) **CLIENT-EMPLOYER ABSENCES.** When a client-employer is absent from the home due to an illness or medical treatment and is expected to return to the home within a 30 day period, a live-in provider, that is the only live-in provider for that client, may be retained to ensure the live-in provider's presence upon the client-employer's return or to maintain the client's home for up to 30 days at the rate of pay immediately preceding the client's absence. Spousal pay providers are not eligible for payment during the absence of the client-employer.

(5) **SELECTION OF HEMOCARE WORKER.** The client-employer carries primary responsibility for locating, interviewing, screening, and hir-

ADMINISTRATIVE RULES

ing his or her own employees. The client-employer has the right to employ any person who successfully meets the provider enrollment standards described in section (8) of this rule. The SPD/AAA office shall determine whether the employee meets minimum qualifications to provide the authorized services paid by SPD.

(6) **EMPLOYMENT AGREEMENT.** The client-employer retains the full right to establish the employer-employee relationship at any time after Bureau of Citizenship and Immigration Services papers have been completed and identification photocopied. SPD may not guarantee payment for those services until all acceptable enrollment standards have been verified and both the employer and homecare worker have been formally notified in writing that payment by SPD is authorized.

(7) **TERMS OF EMPLOYMENT.** The terms of the employment relationship are the responsibility of the client-employer to establish at the time of hire. These terms of employment may include dismissal or resignation notice, work scheduling and absence reporting, as well as any sleeping arrangements or meals provided for live-in or hourly employees.

(8) **PROVIDER ENROLLMENT.**

(a) **ENROLLMENT STANDARDS.** A homecare worker must meet all of the following standards to be enrolled with SPD's Client-Employed Provider Program:

(A) The homecare worker must maintain a drug-free work place.

(B) The homecare worker must complete the criminal records check process described in OAR 407-007-0200 to 407-007-0370 with an outcome of approved or approved with restrictions. SPD/AAA may allow a homecare worker to work on a preliminary basis in accordance with OAR 407-007-0315 if the homecare worker meets the other provider enrollment standards described in section (8) of this rule.

(C) The homecare worker must have the skills, knowledge, and ability to perform, or to learn to perform, the required work.

(D) The homecare worker's U.S. employment authorization must be verified.

(E) The homecare worker must be 18 years of age or older. SPD Central Office may approve a restricted enrollment, as described in section (8)(d) of this rule, for a homecare worker who is at least sixteen years of age.

(F) The homecare worker must complete an orientation as described in section (8)(e) of this rule.

(b) SPD/AAA may deny an application for provider enrollment in the Client-Employed Provider Program when:

(A) The applicant has a history of violating protective service and abuse rules;

(B) The applicant has committed fiscal improprieties;

(C) The applicant does not have the skills, knowledge, or ability to adequately or safely provide services;

(D) The applicant has an unacceptable criminal records check;

(E) The applicant is not 18 years of age;

(F) The applicant has been excluded by the Health and Human Services, Office of Inspector General, from participation in Medicaid, Medicare, and all other Federal Health Care Programs; or

(G) SPD/AAA has information that enrolling the applicant as a homecare worker may put vulnerable clients at risk.

(c) **CRIMINAL RECORDS RECHECKS.** Criminal records rechecks shall be conducted at least every other year from the date the homecare worker is enrolled. SPD/AAA may conduct a recheck more frequently based on additional information discovered about the homecare worker, such as possible criminal activity or other allegations.

(A) When a homecare worker is approved without restrictions following a criminal records check fitness determination, the approval must meet the homecare worker provider enrollment requirement statewide whether the qualified entity is a state-operated SPD office or an AAA operated by a county, council of governments, or a non-profit organization.

(B) Criminal records check approval is effective for two years unless:

(i) Based on possible criminal activity or other allegations against the homecare worker, a new fitness determination is conducted resulting in a change in approval status; or

(ii) The approval has ended because DHS has inactivated or terminated the homecare worker's provider enrollment for one or more reasons described in this rule or OAR 411-031-0050.

(C) Prior criminal records check approval for another DHS provider type is inadequate to meet criminal records check requirements for homecare worker enrollment.

(d) **RESTRICTED PROVIDER ENROLLMENT.**

(A) SPD/AAA may enroll an applicant as a restricted homecare worker. A restricted homecare worker may only provide services to specific individuals.

(i) Unless convicted of a disqualifying crime described in OAR 407-007-0275, SPD/AAA may approve a homecare worker with prior criminal records under a restricted enrollment to provide services only to specific individuals who are family members, neighbors, or friends after conducting a weighing test as described in OAR 407-0200 to 407-007-0370.

(ii) Based on the applicant's lack of skills, knowledge, or abilities, SPD/AAA may approve an applicant as a restricted homecare worker to provide services only to specific individuals who are family members, neighbors, or friends.

(iii) Based on an exception to the age requirements for provider enrollment approved by SPD Central Office as described in section (8)(a)(E) of this rule, a homecare worker who is at least 16 years of age may be approved as a restricted homecare worker.

(B) To remove restricted homecare worker status and be designated as a career homecare worker, the applicant must complete a new application and criminal records check and be approved by SPD/AAA.

(e) **HEMOCARE WORKER ORIENTATION.** Homecare workers must participate in an orientation arranged through a SPD/AAA office. The orientation shall occur within the first 30 days after becoming enrolled in the Client-Employed Provider Program and prior to beginning work for any specific SPD/AAA clients. When completion of an orientation is not possible within those timelines, orientation must be completed within 90 days of being enrolled. If a homecare worker fails to complete an orientation within 90 days of provider enrollment, their provider number shall be inactivated and any authorization for payment of services shall be discontinued.

(f) A homecare worker's provider enrollment may be inactivated when:

(A) The homecare worker has not provided any paid services to any client in the last 12 months;

(B) The homecare worker's criminal records check results in a closed case pursuant to OAR 407-007-0325;

(C) The homecare worker informs SPD/AAA they will no longer be providing homecare worker services in Oregon;

(D) The provider fails to participate in a homecare worker orientation arranged through an SPD/AAA office within 90 days of provider enrollment; or

(E) The homecare worker, who at the time is not providing any paid services to clients, is being investigated by Adult Protective Services for suspected abuse that poses imminent danger to current or future clients.

(9) **PAID LEAVE.**

(a) **LIVE-IN HEMOCARE WORKERS.** Irrespective of the number of clients served, SPD shall authorize one 24-hour period of leave each month when a live-in homecare worker or spousal pay provider is the only live-in provider during the course of a month. For any part of a month worked, the live-in homecare worker shall receive a proportional share of that 24-hour period of leave authorization. A prorated share of the 24-hours shall be allocated proportionately to each live-in when there is more than one live-in provider per client.

(A) **ACCUMULATION AND USAGE FOR LIVE-IN PROVIDERS.** A provider may not accumulate more than 144 hours of accrued leave. The employer, homecare worker, and case manager shall coordinate the timely use of these hours. Live-in homecare workers must take vacation leave in 24-hour increments or in hourly increments of at least 4 but not more than 12 hours. Accrued leave must be taken while employed as a live-in.

(B) **THE RIGHT TO RETAIN LIVE-IN PAID LEAVE.** The homecare worker retains the right to access earned paid leave when terminating employment with one employer, so long as the homecare worker is employed with another employer as a live-in within one year of separation.

(C) **TRANSFERABILITY OF LIVE-IN PAID LEAVE.** Live-in homecare workers who convert to hourly or separate from live-in service and return as an hourly homecare worker within one year from the last day of live-in services shall be credited with their unused hours of leave up to a maximum of 32 hours.

(D) **CASH OUT OF PAID LEAVE.**

(i) DHS shall pay live-in homecare workers 50 percent of all unused paid leave accrued as of January 31 of each year. The balance of paid leave is reduced 50 percent with the cash out.

(ii) Vouchers requesting payment of paid leave received after January 31 may only be paid up to the amount of remaining unused paid leave.

(iii) Effective November 6, 2009, a live-in homecare worker providing live-in services seven days per week for one client-employer may submit a request for payment of 100 percent of unused paid leave if:

ADMINISTRATIVE RULES

(I) The live-in homecare worker's client-employer is no longer eligible for in-home services described in OAR chapter 411, division 030; and

(II) The live-in homecare worker does not have alternative residential housing.

(iv) If a request for payment of 100 percent of unused paid leave based on sections (9)(a)(D)(iii)(I) and (II) of this rule is granted, the homecare's paid leave balance is reduced to zero.

(b) **HOURLY HOMECARE WORKERS.** On July 1st of each year, active homecare workers who worked 80 authorized and paid hours in any one of the three months that immediately precede July (April, May, June) shall be credited with one 16 hour block of paid leave to use during the current fiscal biennium (July 1 through June 30) in which it was accrued. On February 1st of each year, active employees who worked 80 authorized and paid hours in any one of the three months that immediately precede February (November, December, January) shall be credited with 16 hours of paid time off. One 16 hour block of paid leave shall be credited to each eligible homecare worker, irrespective of the number of clients they serve. Such leave may not be cumulative from biennium to biennium.

(A) **UTILIZATION OF HOURLY PAID LEAVE.**

(i) Time off must be utilized in one eight hour block subject to authorization. If the homecare worker's normal workday is less than eight hours, such time off may be utilized in blocks equivalent to the normal workday. Any remaining hours that are less than the normally scheduled workday may be taken as a single block.

(ii) Hourly homecare workers may take unused paid leave when their employer is temporarily unavailable for the homecare worker to provide services.

(B) **LIMITATIONS OF HOURLY PAID LEAVE.** Homecare workers may not be compensated for paid leave unless the time off work is actually taken except as noted in section (9)(b)(D) of this rule.

(C) **TRANSFERABILITY OF HOURLY PAID LEAVE.** An hourly homecare worker who transfers to work as a live-in homecare worker (within the biennium that their hourly leave is earned) shall maintain their balance of hourly paid leave and begin accruing live-in paid leave.

(D) **CASH OUT OF PAID LEAVE.**

(i) DHS shall pay hourly providers for all unused paid leave accrued as of January 31 of each year. The balance of paid leave is reduced to zero with the cash out.

(ii) Vouchers requesting payment of paid leave received after January 31 may not be paid if paid leave has already been cashed out.

(10) **SPD FISCAL AND ACCOUNTABILITY RESPONSIBILITY.**

(a) **DIRECT SERVICE PAYMENTS.** SPD shall make payment to the provider on behalf of the client for all in-home services. This payment shall be considered full payment for the services rendered under Title XIX. Under no circumstances is the homecare worker to demand or receive additional payment for these Title XIX-covered services from the client or any other source. Additional payment to homecare workers for the same services covered by Oregon's Title XIX Home and Community Based Services Waiver is prohibited.

(b) **TIMELY SUBMISSION OF CLAIMS.** In accordance with OAR 410-120-1300, all claims for services must be submitted within 12 months of the date of service.

(c) **ANCILLARY CONTRIBUTIONS.**

(A) **FEDERAL INSURANCE CONTRIBUTIONS ACT (FICA).** Acting on behalf of the client-employer, SPD shall apply any applicable FICA regulations and shall:

(i) Withhold the homecare worker-employee contribution from payments; and

(ii) Submit the client-employer contribution and the amounts withheld from the homecare worker-employee to the Social Security Administration.

(B) **BENEFIT FUND ASSESSMENT.** The Workers' Benefit Fund pays for programs that provide direct benefits to injured workers and their beneficiaries and that assist employers in helping injured workers return to work. The Department of Consumer and Business Services sets the Workers' Benefit Fund assessment rate for each calendar year. SPD calculates the hours rounded up to the nearest whole hour and deducts an amount rounded up to the nearest cent. Acting on behalf of the client-employer, SPD shall:

(i) Deduct the homecare worker-employees' share of the Benefit Fund assessment rate for each hour or partial hour worked by each paid homecare worker;

(ii) Collect the client-employer's share of the Benefit Fund assessment for each hour or partial hour of paid services received; and

(iii) Submit the client and homecare worker's contributions to the Workers' Benefit Fund.

(C) SPD shall pay the employer's share of the unemployment tax.

(d) **ANCILLARY WITHHOLDINGS.** For the purposes of section 10(d) of this rule, "labor organization" means any organization that has, as one of its purposes, representing employees in their employment relations.

(A) SPD shall deduct from the homecare worker's monthly salary or wages the specified amount for payment to a labor organization.

(B) In order to receive this payment, the labor organization must enter into a written agreement with SPD to pay the actual administrative costs of the deductions.

(C) SPD shall pay the deducted amount monthly to the designated labor organization.

(e) **STATE AND FEDERAL INCOME TAX WITHHOLDING.**

(A) SPD shall withhold state and federal income taxes on all payments to homecare workers, as indicated in the bargaining agreement.

(B) Homecare workers must complete and return a current Internal Revenue Service W-4 form to the local office. SPD shall apply standard income tax withholding practices in accordance with the Code of Federal Regulations, Title 26, Part 31 (26 CFR 31).

(11) **HOMECARE WORKER EXPENSES SECONDARY TO PERFORMANCE OF DUTIES.**

(a) Providers may be reimbursed at \$0.485 cents per mile effective October 1, 2007 when they use their own car for service plan related transportation, if prior authorized by the case manager. If unscheduled transportation needs arise during non-office hours, an explanation as to the need for the transportation must be provided and approved prior to reimbursement.

(b) Medical transportation through the DHS, Division of Medical Assistance Programs (DMAP), volunteer transportation, and other transportation services included in the service plan shall be considered a prior resource.

(c) DHS is not responsible for vehicle damage or personal injury sustained while using a personal motor vehicle for DMAP or service plan-related transportation, except as may be covered by workers' compensation.

(12) **BENEFITS.** Workers' compensation as defined in Oregon Revised Statute and health insurance are available to eligible homecare workers as defined in the bargaining agreement. In order to receive homecare worker services, the client-employer must provide written authorization and consent to SPD for the provision of workers' compensation insurance for their employee.

(13) **OVERPAYMENTS.** An overpayment is any payment made to a homecare worker by SPD that is more than the person is authorized to receive.

(a) Overpayments are categorized as follows:

(A) **Administrative error overpayment.** Occurs when SPD failed to authorize, compute, or process the correct amount of in-home service hours or wage rate.

(B) **Provider error overpayment.** Occurs when SPD overpays the homecare worker due to a misunderstanding or unintentional error.

(C) **Fraud overpayment.** "Fraud" means taking actions that may result in receiving a benefit in excess of the correct amount, whether by intentional deception, misrepresentation, or failure to account for payments or money received. "Fraud" also means spending payments or money the provider was not entitled to and any act that constitutes fraud under applicable federal or state law (including 42 CFR 455.2). SPD shall determine, based on a preponderance of the evidence, when fraud has resulted in an overpayment. The Department of Justice, Medicaid Fraud Unit shall determine when a Medicaid fraud allegation shall be pursued for prosecution.

(b) Overpayments are recovered as follows:

(A) Overpayments shall be collected prior to garnishments, such as child support, Internal Revenue Service back taxes, and educational loans.

(B) Administrative or provider error overpayments shall be collected at no more than 5 percent of the homecare worker's gross wages.

(C) SPD shall determine when a fraud overpayment has occurred and the manner and amount to be recovered.

(D) Providers no longer employed as homecare workers shall have any remaining overpayment deducted from their final check. The provider is responsible for repaying the amount in full when the final check is insufficient to cover the remaining overpayment.

Statement of Purpose, Principles, and Philosophy

(1) PURPOSE. The rules in OAR chapter 411, division 305 prescribe standards, responsibilities, and procedures for providing family support services to children with developmental disabilities and their families within the principles and philosophy that are the foundation of all developmental disability services. Family support services are a social benefit provided to all children with developmental disabilities who are eligible to receive case management services through a community developmental disability program. Family support services and available funding are intended to reach as many children and families as possible and are individualized to each family. Family support services foster and strengthen flexible networks of community-based, private, public, formal, informal, family-centered, and family-directed supports designed to increase families' abilities to care for children with developmental disabilities and to support the integration and inclusion of children with developmental disabilities into all aspects of community life.

(2) PRINCIPLES AND PHILOSOPHY. Family support services are individualized and built on the principles of family support and self-determination. The principles of family support are based on the belief that all person, regardless of disability, chronic illness, or special need, have the right to a permanent and stable family and that supporting families in caring for their children at home is in the best interest of the children, families, and communities. The principles of self-determination are based on the belief that the surest, most cost effective ways to foster and preserve family and community membership may be constructed and managed by those receiving services.

Using Support Services Funds to Purchase Supports

(1) A brokerage may use support services funds to assist individuals to purchase supports in accordance with an ISP when:

(a) Supports are necessary for an individual to live in the individual's own home or in the family home;

(b) Cost-effective arrangements for obtaining the required supports, applying public, private, formal, and informal resources available to the eligible individual are specified in the ISP;

(c) An individual is receiving crisis diversion services according to OAR 411-320-0160 and:

(A) Crisis diversion services are not allowed by OAR 411-320-0160 to provide the necessary support;

(B) The support was identified as necessary prior to the onset of the crisis;

(C) Support services funds are not expended to such an extent that the support services funds that may be required to purchase the remainder of necessary supports following the termination of crisis diversion services shall be unavailable; and

(D) Support services funds are used for no more than 90 days following the determination that the individual shall enter a comprehensive service.

(d) The ISP projects the amount of support services funds, if any, that may be required to purchase the remainder of necessary supports that are within the benefit level; and

(e) The ISP has been authorized for implementation.

(2) Goods and services purchased with support services funds on behalf of individuals are provided only as social benefits.

(3) LIMITS OF FINANCIAL ASSISTANCE. Assistance with purchase of individual supports in any plan year is limited to the individual's annual benefit level.

(a) Individuals must have access throughout the plan year to the total annual amount of support services funds for which they are eligible that are determined to be necessary to implement an authorized ISP, even if there is a delay in implementation of the ISP, unless otherwise agreed to in writing by the individual or the individual's legal representative.

(b) The Division may require that annual benefit level amounts be calculated and applied on a monthly basis when an individual's eligibility for Medicaid changes during a plan year, an individual's benefit level changes, or when an individual's ISP is developed and written to be in effect for less than 12 months.

(A) Except in the case of an individual whose benefit level changes as the result of a change in eligibility for the Support Services Waiver, when an individual's benefit level changes, the monthly benefit level shall be 1/12 of the annual benefit level for which the individual would be eligible should the change in benefit level remain in effect for 12 calendar months. The monthly benefit level shall be applied each month for the remainder of the plan year in which the individual's change in benefit level occurred, from the date the change occurred.

(B) In the case of an individual whose Support Services Waiver eligibility changes, the new monthly benefit level is calculated based on the remainder of the General Fund contribution to the individual benefit level being evenly distributed across the remaining months of the plan year. The monthly benefit level shall be applied each month for the remainder of the plan year in which the individual's change in Support Services Waiver eligibility occurred, from the date the change occurred.

(C) In the case of an individual with an ISP developed for a partial plan year, the monthly benefit level shall be 1/12 of the annual benefit level for which the individual would be eligible should the individual's ISP be in effect for 12 calendar months. The monthly benefit level shall be applied each month during which the ISP of less than 12 months' duration is in effect.

(c) Estimates of individual plan costs must be based on the Division rate guidelines for costs of frequently used services.

(A) Division rate guidelines notwithstanding, final costs may not exceed local usual and customary charges for these services as evidenced by the brokerage's own documentation.

(B) The brokerage must establish a process for review and approval of all budgets based on estimates exceeding Division rate guidelines and must monitor the authorized ISP involved for continued cost effectiveness.

(4) EXCEPTIONS TO BASIC BENEFIT FINANCIAL LIMITS. Exceptions to the basic benefit annual support services fund limit may be only as follows.

(a) Individuals with extraordinary long-term need as demonstrated by a score of 60 or greater on the Basic Supplement Criteria Inventory (Form DHS 0203) may have access to a basic supplement in order to purchase necessary supports.

(A) For Medicaid recipients choosing services under the Support Services Waiver, the basic supplement must result in a plan year cost that is not greater than the individual cost limit.

(B) For individuals who are not Medicaid recipients choosing services under the Support Services Waiver, the basic supplement must result in a plan year cost that is not greater than the state's General Fund contribution to the individual cost limit, calculated according to the Medicaid match rate current at the beginning of the plan year, and adjusted annually to correspond to changes in the Medicaid match rates.

(C) The brokerage director, or a designee from brokerage management and administration, must administer the Basic Supplement Criteria Inventory only after receiving Division-approved training. The brokerage

ADMINISTRATIVE RULES

director or designee must score basic supplement criteria according to written and verbal instruction received from the Division.

(D) The trained brokerage director or a designee from a brokerage's management or administration must administer the Basic Supplement Criteria Inventory within 30 calendar days of the documented request of the individual or the individual's legal representative.

(E) The brokerage director or designee must send written notice of findings regarding eligibility for a basic supplement to the individual and the individual's legal representative within 45 calendar days of the written request for a basic supplement. This written notice must include:

(i) An offer for the individual and the individual's legal representative to discuss the findings in person with the director and with the individual's personal agent in attendance if desired;

(ii) A notice of the complaint process under OAR 411-340-0060; and

(iii) A notice of planned action.

(F) Annual ISP reviews for recipients of the basic supplement must include a review of circumstances and resources to confirm continued need according to the instructions included with the Basic Supplement Criteria Inventory.

(b) Individuals who have been assessed as in need of, and meeting criteria for, crisis diversion services by the CDDP of the individual's county of residence according to OAR 411-320-0160, may receive short-term assistance with purchase of support in excess of the individual's benefit level. Use of crisis diversion services may only be authorized by the CDDP of the individual's county of residence or by the Regional Crisis Diversion Program responsible for the individual's county of residence.

(A) Length of emergent status may be authorized only by the CDDP of the individual's county of residence, or the Regional Crisis Diversion Program responsible for the individual's county of residence, depending on the source of the crisis diversion funds. Emergent status for an individual shall not exceed 270 consecutive days.

(B) Funds associated with crisis diversion services may be used to pay the difference in cost between the authorized ISP and the supports authorized by either the CDDP of the individual's county of residence or the Regional Crisis Diversion Program responsible for crisis diversion services in the individual's county of residence, depending on the source of crisis diversion services funds required to meet the short-term need.

(C) Although costs for crisis diversion services may bring the individual's total plan year cost temporarily above the individual cost limit, the individual's costs may not exceed the cost of the state's current ICF/MR daily cost per individual nor shall plan year expenses at or above the individual cost limit make the individual eligible for comprehensive services.

(i) Individuals placed in emergent status due to receiving crisis diversion services authorized and provided according to OAR 411-320-0160 may remain enrolled in, and receive support services from, the brokerage while both crisis diversion services and support services are required to stabilize and maintain the individual at home or in the family home. In no case, may the individual remain enrolled in the brokerage under emergent status for more than 270 consecutive days.

(ii) Support services provided during emergent status are subject to all requirements of this rule.

(iii) The individual's personal agent must participate with CDDP or Regional Crisis Diversion Program staff in efforts to stabilize supports and return costs to the individual's benefit level, documenting reviews of effectiveness at least every 90 days while the individual is receiving crisis diversion services.

(c) Individuals whose source of support funds are, in whole or in part, an individual-specific redirection of funds through a Division contract from a Division-regulated residential, work, or day habilitation service to support services funds, or to comprehensive in-home support funds regulated by OAR chapter 411, division 330 prior to enrollment in a brokerage, may have access to the amount specified in the Division contract as available for the individual's use. This provision is only applicable when each transition is separate and specific to the individual and the services being converted are not subject to statewide service transitions.

(A) Individual plan year costs must always be less than the individual cost limit; and

(B) The brokerage must review the need for supports and their cost-effectiveness with the individual and the individual's legal representative at least annually and must make budget reductions when allowed by the ISP.

(d) Individuals whose support funds were specifically assigned through a Division contract to self-directed support services prior to the date designated by the Division for transfer of the individual from self-directed support services to a brokerage may have access to the amount specified in the Division contract as available for the individual's use.

(A) Individual plan year costs must always be less than the individual cost limit; and

(B) The brokerage must review the need for supports and their cost-effectiveness with the individual and the individual's legal representative at least annually and must make budget reductions when allowed by the ISP.

(c) Individuals transferring from the Division's Home and Community-Based Waiver Services for the Aged and Adults with Physical Disabilities who have been determined ineligible for those waiver service funds in accordance with OAR 411-015-0015(4)(c), shall have limited access to support services funds as described in these rules. The amount of support services funds available shall be equal to the Division's previous service costs for the individual for no more than 365 calendar days. The 365 calendar days begins the date the individual starts receiving support services exclusively through a brokerage.

(f) For Medicaid recipients eligible for and choosing services under the Support Services Waiver, individuals may have access to a basic supplement for ADLs to purchase needed support services under the following conditions:

(A) The individual must have additional assistance needs with ADLs after development of their ISP within the basic benefit, extraordinary long-term need fund limit, or other exceptions provided in this rule. The services include:

(i) Basic personal hygiene;

(ii) Toileting, bowel, and bladder care;

(iii) Mobility, transfers, and comfort;

(iv) Planning and preparing nutritious meals and assuring adequate fluid intake;

(v) Assisting with administration of medications, assuring medication is taken as ordered by physician, observing for reactions, and reminding appropriate persons when prescriptions need to be filled;

(vi) Maintaining clean oxygen equipment and supply; and

(vii) Delegated nursing tasks.

(B) ADL services may include the following activities if they are incidental to the provision of ADLs, essential for the health and welfare of the individual, and provided solely for the individual receiving support services:

(i) Light housekeeping tasks necessary to maintain a healthy and safe environment;

(ii) Arranging for necessary medical appointments;

(iii) Observation of an individual's status and reporting of significant changes to appropriate people;

(iv) First aid and handling emergencies; and

(v) Extra support due to developmental disability.

(C) Activities and goals related to the provision of ADL services must be sufficiently documented in the individual's ISP.

(D) Planned expenses must be based upon the least costly means of providing adequate services and must only be to the extent necessary to meet the documented ADL needs.

(E) The supplement for ADLs may not cause the cost per any plan year to exceed the individual cost limit. There is an exception for individuals receiving both support services under these rules who had a benefit level at the individual cost limit and state plan personal care services under OAR chapter 411, division 034, as of June 30, 2005. These individuals may continue to access the basic supplement and the supplement for ADLs until the individual terminates their receipt of support services or becomes ineligible for one of the supplements. The combined basic benefit, the basic supplement, and supplement for ADLs must remain above the individual cost limit to remain eligible for this exception.

(F) For Medicaid recipients receiving state plan personal care services under OAR chapter 411, division 034 entering support services after June 30, 2005, the Medicaid Personal Care Assessment (Form SDS 0531A) shall serve as the individual's authorized ISP for a period not to exceed 90 days.

(G) The supplemental ADL services are not intended to replace the resources available to an individual receiving support services under these rules from their natural support system of relatives, friends, neighbors, or other available sources of support.

(5) AMOUNT, METHOD, AND SCHEDULE OF PAYMENT.

(a) The brokerage must disburse, or arrange for disbursement of, support services funds to qualified providers on behalf of individuals up to the amount agreed upon in an authorized ISP. The brokerage is specifically prohibited from reimbursement of individuals or individuals' families for expenses related to services and from advancing funds to individuals or individuals' families to obtain services.

ADMINISTRATIVE RULES

(b) The method and schedule of payment must be specified in written agreements between the brokerage and the individual or the individual's legal representative.

(6) TYPES OF SUPPORTS PURCHASED. Supports eligible for purchase with support services funds are:

(a) Chore services. Chore services may be provided only in situations where no one else in the household is capable of either performing or paying for the services and no other relative, caregiver, landlord, community, volunteer agency, or third-party payer is capable of or responsible for providing these services;

(i) Temporary respite must be provided on less than a 24-hour basis.

(ii) Twenty-four hour overnight care must be provided in segments of 24-hour units that may be sequential but may not exceed 14 consecutive days without permission from the Division.

(k) Specialized medical equipment and supplies as well as the following provisions:

(A) When specialized medical equipment and supplies are primarily and customarily used to serve a medical purpose, the purchase, rental, or repair of specialized medical equipment and supplies with support services funds must be limited to the types of equipment and supplies permitted under the State Medicaid Plan and specifically those that are not excluded under OAR 410-122-0080.

(B) Support services funds may be used to purchase more of an item than the number allowed under the State Medicaid Plan after the limits specified in the State Medicaid Plan have been reached, requests for purchases have been denied by the State Medicaid Plan or private insurance, and the denial has been upheld in an applicable hearing or private insurance benefit appeals process.

(C) Devices, aids, controls, supplies, or appliances primarily and customarily used to enable an individual to increase the individual's abilities to perform ADLs or to perceive, control, or communicate with the environment in which the individual lives, may be purchased with support services funds when the individual's developmental disability otherwise prevents or limits the individual's independence in these areas. Equipment and supplies that may be purchased for this purpose must be of direct benefit to the individual and include:

(i) Adaptive equipment for eating, (i.e., utensils, trays, cups, bowls that are specially designed to assist an individual to feed him or herself);

(A) Individuals who choose to combine support services funds to purchase group services must receive written instruction from the brokerage about the limits and conditions of such arrangements;

(B) Combined support services funds cannot be used to purchase existing, or create new, comprehensive services;

(E) Combined arrangements for residential supports must include a plan for maintaining an individual at home after the loss of roommates.

The primary caregiver is expected to provide a minimum of 40 hours per week of the child's care. MFC services are not available to replace services provided by the primary caregiver or to replace other governmental or community services.

(2) MFC services may include, for a child on the Hospital Model Waiver, a combination of the following services based upon the needs of the child as determined by the services coordinator and as consistent with the child's Plan of Care:

(a) The Division shall only authorize IHDC service hours that support a parent in their primary caregiving role.

(b) IHDC services include:

(A) Basic personal hygiene — Assistance with bathing and grooming;

(B) Toileting, bowel, and bladder care — Assistance in the bathroom, diapering, external cleansing of perineal area, and care of catheters, ostomies, and bags;

(C) Arranging for necessary medical appointments;

(D) Accompanying the child to appointments, outings, or community-based activities; or

(d) The services coordinator shall base the number of IHDC service hours upon the projected amount of time to perform the specified assistance for the child, for which the child must be physically present. IHDC service hours may be spread throughout the time authorized in the billing form or used in large blocks of time as the parent determines. IHDC service hours may only be used when the child is physically residing in the family home.

(B) For the purpose of allowing a parent to work or attend school.

(4) ENVIRONMENTAL ACCESSIBILITY ADAPTATIONS.

(2) Effective July 28, 2009, public funds may not be used to support, in whole or in part, a provider in any capacity who has been convicted of any of the disqualifying crimes listed in OAR 407-007-0275.

(3) Section (2) of this rule does not apply to employees of a parent or billing provider who were hired prior to July 28, 2009 and remain in the current position for which the employee was hired.

ADMINISTRATIVE RULES

(4) Service budgets shall be individually negotiated by the Division, based on the individual needs of the child.

(5) Authorization must be obtained prior to the delivery of any MICP services for those services to be eligible for payment.

(6) Providers must request payment authorization for MICP services provided during an unforeseeable emergency on the first business day following the emergency service. The services coordinator must determine if the service is eligible for payment.

(7) The Division shall make payment to the individual employee of the parent on behalf of the parent. The Division shall pay the employer's share of the Federal Insurance Contributions Act (FICA) and withhold the employee's share of FICA as a service to the parent as the provider's employer.

(8) The delivery of authorized MICP services must occur so that any individual employee of the parent does not exceed 40 hours per work week. The Division shall not authorize services that require the payment of overtime, without prior written authorization by the supervisor of children's intensive in-home services.

(9) The Division shall not pay for any hours of MICP services provided by a provider beyond 16 hours in any 24-hour period unless the hours are part of a 24-hour service budget negotiated by the Division and there is evidence the child may be safely served with a 24-hour service budget. Exceptions require written authorization by the supervisor of children's intensive in-home services.

(10) Holidays are paid at the same rate as non-holidays.

(11) Travel time to reach the job site is not reimbursable.

(12) In order to be eligible for payment, requests for payments must be submitted to the Division within three months of the delivery of MICP services.

(13) Payment by the Division for MICP services is considered full payment for the services rendered under Title XIX. Under no circumstances may the provider or billing provider demand or receive additional payment for these services from the parent or any other source.

(14) Medicaid funds are the payor of last resort. The provider or billing provider must bill all third party resources until all third party resources are exhausted.

(15) The Division reserves the right to make a claim against any third party payer before or after making payment to the provider of MICP services.

(16) The Division may void without cause prior authorizations that have been issued.

(18) All billings must be for MICP services provided within the provider's licensure.

(19) The provider must submit true and accurate information on the billing form. Use of a billing provider does not replace the provider's responsibility for the truth and accuracy of submitted information.

(20) No individual shall submit to the Division:

(a) A false billing form for payment;

(b) A billing form for payment that has been or is expected to be paid by another source; or

Diagnosis and Eligibility Determination

(1) ELIGIBILITY SPECIALIST. Each CDDP must identify at least one qualified eligibility specialist who has met performance qualifications and training expectations for determining developmental disability eligibility according to OAR 411-320-0030 that shall act as a designee of the Division in regards to making determinations of eligibility.

(2) QUALIFIED PROFESSIONAL DIAGNOSIS. For the purpose of this rule, diagnosis and evaluation information must be completed by professionals qualified to make a diagnosis of developmental disabilities in accordance with the American Association on Mental Deficiency, 1977.

(3) ELIGIBILITY FOR MENTAL RETARDATION.

ADMINISTRATIVE RULES

(a) A history demonstrating mental retardation must be in place by the individual's 18th birth date. Diagnosing mental retardation is done by measuring intellectual functioning and adaptive behavior as assessed by standardized tests administered by a qualified professional as described in section (2) of this rule.

(A) Mental retardation is defined as IQ's under 70 with significant impairment in adaptive behavior directly related to mental retardation. Individuals with an IQ pattern of 70 to 75 with significant impairment to adaptive behavior as defined in OAR 411-320-0020 directly related to the issues of mental retardation may be considered as having mental retardation.

(B) For individuals who have a consistent pattern of IQ results of 65 and under, no adaptive behavior assessment as, described in section (10) of this rule, may be needed if current documentation continues to support eligibility.

(C) Verification of mental retardation for individuals with IQ patterns of 66-75 require an adaptive behavior assessment as described in section (10) of this rule indicating significant impairment in adaptive behavior as defined in OAR 411-320-0020.

(b) Eligibility for mental retardation must include all historical information and requires documentation of significant impairment in adaptive behavior as defined in OAR 411-320-0020.

(A) The adaptive impairments cannot be primarily attributed to mental or emotional disorders, sensory impairments, substance abuse, personality, disorder, learning disability, or ADHD.

(B) The condition or impairment must be expected to last indefinitely.

(4) ELIGIBILITY FOR OTHER DEVELOPMENTAL DISABILITIES.

(a) A history of a developmental disability other than mental retardation must be in place prior to the individual's 22nd birth date. IQ scores are not used in verifying the presence of a non-mental retardation developmental disability. Diagnosing a developmental disability requires a medical or clinical diagnosis of a developmental disability with significant impairment in adaptive behavior, as defined in OAR 411-320-0020, related to the diagnosis.

(A) The disability must have originated in and directly affect the brain; and

(B) The individual must require supports similar to those required by individuals with mental retardation.

(b) Eligibility for developmental disabilities must include all historical information and requires documentation of significant impairment in adaptive behavior as defined in OAR 411-320-0020.

(A) The adaptive impairments must be primarily related to the developmental disability and cannot be primarily attributed to mental or emotional disorders, sensory impairments, substance abuse, personality disorder, learning disability, or ADHD.

(B) The condition or impairment must be expected to last indefinitely.

(5) ELIGIBILITY FOR CHILDREN 5 YEARS OF AGE OR YOUNGER. Eligibility for children 5 years of age or younger is always provisional. This means eligibility may change in the future when new information is obtained. Eligibility documentation for children 5 years of age or younger must be no more than three years old and must include:

(a) Standardized testing that demonstrates at least two standard deviations below the norm in two or more of the following areas including but not limited to:

- (A) Self-care;
- (B) Receptive and expressive language;
- (C) Learning;
- (D) Mobility; and
- (E) Self-direction; OR

(b) A medical statement by a licensed medical practitioner of a neurological condition or syndrome that originates in and directly affects the brain and causes or is likely to cause significant impairment in at least two or more of the following areas:

- (A) Self-care;
- (B) Receptive and expressive language;
- (C) Learning;
- (D) Mobility; and
- (E) Self-direction.

(c) The condition or syndrome must not be primarily attributed to mental or emotional disorders, sensory impairments, substance abuse, personality disorder, learning disability, or ADHD.

(d) The condition or impairment must be expected to last indefinitely.

(6) ELIGIBILITY FOR CHILDREN 6 YEARS OF AGE AND OLDER. Eligibility for children 6 years of age and older is always provisional. This means eligibility may change in the future when new information is obtained. Eligibility documentation for children 6 years of age and older must be based on school age documents that are no more than three years old and must include:

(a) Documentation of mental retardation as described in section (3) of this rule; or

(b) A diagnosis and documentation of a developmental disability as described in section (4) of this rule

(7) ELIGIBILITY FOR ADULTS. Eligibility determination for individuals under 21 years of age must be based on information no more than three years old. Eligibility determination for individuals 21 years of age or older must be based on information obtained after the individual's 17th birth date. At or after age 18, adult evaluation instruments must be used to determine eligibility for adults. Eligibility for adults must include:

(a) Documentation of mental retardation as described in section (3) of this rule; or

(b) A diagnosis and documentation of a developmental disability as described in section (4) of this rule.

(8) ABSENCE OF DATA IN DEVELOPMENTAL YEARS.

(a) In the absence of sufficient data during the developmental years, current data may be used if:

(A) There is no evidence of head trauma;

(B) There is no evidence or history of significant mental or emotional disorder; or

(C) There is no evidence or history of substance abuse.

(b) If there is evidence or a history of head trauma, significant mental or emotional disorder, or substance abuse, then a clinical impression by a qualified professional regarding how the individual's adaptive functioning may be impacted by the identified condition must be obtained in order to determine if the individual's need for support is directly related to a developmental disability and not primarily related to a head trauma, significant mental or emotional disorder, or substance abuse.

(9) REDETERMINATION OF PROVISIONAL ELIGIBILITY.

(a) The CDDP must notify the individual or the individual's representative that a redetermination of eligibility shall occur within the next 90 calendar days. Notification must be on forms prescribed by the Division.

(b) Eligibility for school age children must be redetermined no later than age 7.

(c) Eligibility for adult services must be redetermined by age 18 for mental retardation and by age 22 for developmental disabilities other than mental retardation.

(d) Eligibility must be redetermined using the criteria established in this rule.

(10) ADAPTIVE BEHAVIOR ASSESSMENT.

(a) For individuals who have a consistent pattern of IQ results of 65 and under, no adaptive behavior assessment may be needed if current documentation continues to support eligibility. However, there may be a need for an adaptive behavior assessment to verify mental retardation if there is an inconsistent IQ pattern, mental or emotional issues, sensory impairments, or substance abuse that may have an effect on cognitive functioning.

(b) IQ patterns of 66-75 require an adaptive behavior assessment indicating significant impairment in adaptive behavior as defined in OAR 411-320-0020.

(c) An informal adaptive behavior assessment may be completed for individuals who have been diagnosed with a developmental disability, who obviously have a significant impairment in adaptive behavior, and who require an adaptive behavior assessment to redetermine eligibility.

(A) A services coordinator or a trained eligibility specialist with at least two years experience working with individuals with developmental disabilities may record their observations of the adaptive behavior impairments in the individual's progress notes.

(B) A standardized measurement of adaptive behavior such as a Vineland Adaptive Behavior Scale or Adaptive Behavior Assessment System may be administered and scored by a psychologist, social worker, or other professional with a graduate degree and specific training and experience in individual assessment, administration, and test interpretation of adaptive behavior scales for individuals with developmental disabilities.

(11) SECURING EVALUATIONS. In the event that the services coordinator has exhausted all local resources to secure the necessary evaluations for an eligibility determination, the Division shall assist in obtaining additional testing if required to complete the eligibility determination.

ADMINISTRATIVE RULES

(12) PROCESSING ELIGIBILITY DETERMINATION. The CDDP in the county of origin is responsible for making the eligibility determination.

(a) The CDDP must process eligibility for developmental disability services in the following time frames.

(A) The CDDP must begin the process to determine eligibility within 10 working days after receiving an application for services from an individual or the individual's representative.

(B) The CDDP must begin the process for redetermining eligibility for children within 30 calendar days after notifying the individual or the individual's representative that a redetermination of eligibility must be completed.

(C) The CDDP must make an eligibility determination within 15 working days of receipt of information from which eligibility may be determined.

(D) The CDDP must complete an eligibility determination within 90 calendar days of either receiving the initial application for services, or of notifying the family that a redetermination shall be occurring, except in unusual circumstances, for example:

(i) The CDDP cannot make an eligibility determination because the individual or the individual's representative fails to complete an action;

(ii) There is an emergency beyond the CDDP's control; or

(iii) More time is needed to obtain additional records by the CDDP, the individual, or the individual's representative.

(b) The CDDP must make an eligibility determination unless the following applies and is documented in the individual's progress notes:

(A) The individual or the individual's representative voluntarily withdraws the individual's application;

(B) The individual dies; or

(C) The individual cannot be located.

(c) The process of making an eligibility determination may be extended 90 calendar days by mutual agreement among all parties with written notice sent to the individual or the individual's representative. The CDDP must document the reason for the delay in the individual's record.

(d) The CDDP may not use the time frames established in section (12)(a) of this rule as:

(A) A waiting period before determining eligibility; or

(B) A reason for denying eligibility.

(13) FINANCIAL STATUS. The services coordinator must verify the financial status of individuals during the eligibility or intake process. All sources of income are to be identified. Adults with no unearned income benefits must be referred to Social Security for a determination of financial eligibility. Children or their custodial parent or legal guardian (if not a state agency), must be referred to the appropriate resources if it appears that the child or the child's parent or legal guardian may be eligible for financial assistance.

(14) NOTICE OF ELIGIBILITY DETERMINATION. Within 10 working days of making an eligibility determination or re-determination, the CDDP, based upon a review of the documentation used to determine eligibility, must issue a written notice of the eligibility determination to the individual or the individual's representative. The notice must be on forms prescribed by the Division. The notice must include:

(a) The eligibility determination;

(b) The specific date the notice is mailed or hand delivered;

(c) Notification of the effective date of the action proposed;

(d) The rationale for the eligibility determination, including what reports, documents, or other information that were relied upon in making the eligibility determination;

(e) Notice that the documents relied upon may be reviewed by the individual or the individual's representative;

(f) The specific rules that were used in making the eligibility determination;

(g) Notice that if the individual or the individual's representative disagrees with the Division's eligibility determination, the individual or the individual's representative has the right to request a hearing on the individual's behalf, as provided in ORS chapter 183 and OAR 411-320-0175. Notice must include:

(A) The timeline for requesting a hearing;

(B) Where and how to request a hearing; and

(C) The right to receive assistance from the CDDP in completing and submitting a request for hearing.

(h) Notice of the individual's right to receive continuing services at the same level during the hearing and at the request of the individual including:

(A) Notification of the time frame within which the individual must request continuing services;

(B) Notification of how and where the individual must submit a request for continuing services; and

(C) Notification that an overpayment shall be written for the benefits and the individual may be required to pay back any benefits if the eligibility determination is upheld following a review process or final order.

(15) REQUESTING A HEARING. An individual or an individual's representative may request a hearing as described in OAR 411-320-0175(2) if they disagree with the eligibility decision made by the CDDP. The request for a hearing must be requested within the timeframe identified on the notice of eligibility determination.

(16) CONTINUING SERVICES DURING A HEARING. If an individual is determined no longer eligible following a redetermination of their eligibility, the individual has the right to request continuing services and supports during the hearing process. If the hearing is not in the individual's favor, the individual may be required to pay back any benefits received during the hearing process.

(17) TRANSFERABILITY OF ELIGIBILITY DETERMINATION. An eligibility determination made by one CDDP must be honored by another CDDP when an individual moves from one county to another. If the receiving county has reason to question the eligibility determination and cannot resolve it between the two CDDPs, the receiving CDDP must promptly refer the matter to the Division for review and consultation of the eligibility determination. The receiving county must continue services for the individual while the review is occurring. The receiving CDDP must complete any eligibility determination activities as required by the Division. If the individual is not eligible for developmental disability services, the CDDP that determined the individual was eligible for developmental disability services may be responsible for the services authorized on the basis of that eligibility determination.

Purpose and Scope of Program

(1) RESPONSIBILITY. The Department of Human Services (Department), Seniors and People with Disabilities Division (Division) has responsibility to provide Adult Protective Services (APS) to older adults and to adults with physical disabilities whose situation is within the Division's jurisdiction to investigate.

(2) INTENT. The intent of the APS Program is to provide protection and intervention for older adults and adults with physical disabilities who are unable to protect themselves from harm and neglect.

(3) SCOPE OF SERVICES. The scope of services includes:

(a) Receiving reports of abuse, neglect, or self-neglect;

(b) Providing and documenting risk assessment of reported victims;

(c) Conducting and documenting investigations of reported wrongdoing; and

(d) Providing appropriate resources for victim safety.

(4) AVAILABILITY. Adult protective services are available from the Division to any adult resident of a Department-licensed facility, to nursing facility residents regardless of age and to any adult residing in the community who meets the eligibility criteria listed in OAR 411-020-0015.

(5) INTERVENTION MODEL.

(a) As a human services agency, the Division embraces a social model of intervention with a primary focus on offering safety and protection to the reported victim. The over-arching ethical value in adult protective services is the obligation to balance the duty to protect older adults and adults with physical disabilities with the duty to protect their rights to self-determination.

(b) The Division relies upon other key sources, such as law enforcement, legal, medical, and regulatory professionals, to assist in responding to the overall problems associated with abuse and neglect, and encourages active participation and sharing of appropriate information by APS staff on multidisciplinary teams.

(c) The Division supports efforts to promote education and outreach services that help identify and prevent abuse and neglect of older adults and adults with physical disabilities.

Reporting of Abuse and Neglect

(1) Mandatory reporters must report instances of suspected elder abuse (as defined in ORS 124.050) or abuse of residents in nursing facilities (as defined in ORS 441.630) to a Division designated local office or a local law enforcement agency. A psychiatrist or psychologist does not have to report privileged information covered under ORS 40.225 to 40.295.

(2) Reporting of instances involving abuse or neglect of older adults and adults with physical disabilities is highly encouraged for non-mandatory reporters. Anyone participating in the making of a report of elder abuse on reasonable grounds and good faith shall have immunity from any civil liability. The same immunity applies to participating in any judicial proceeding resulting from the report.

(3) The identity of the individual reporting the suspected abuse shall be confidential and may be disclosed only with the consent of that individual, by judicial process (including administrative hearing), or as required to perform the investigation by the Division or a law enforcement agency.

Multidisciplinary Team (MDT)

(1) The local Division or AAA office must participate in their county MDT to coordinate and collaborate on allegations of abuse and self-neglect of older adults and adults with physical disabilities. Adult protective services, when provided by the local office in conjunction with their participation on their county MDT, shall be provided as described in OAR 411-020-0040.

(2) All confidential information protected by federal and state law that is shared or obtained by the MDT members in the exercise of their duties on the MDT is confidential and may not be further disclosed except by law, authorization by the adult, or by court order.

(3) The local office must annually provide the MDT with the number of substantiated allegations of abuse of adults investigated by APS and also the number of APS cases referred to law enforcement in the county.

Confidentiality

(1) Oregon and federal statutes provide for the confidentiality of the identity of certain individuals and information obtained as a result of an APS intervention. Confidentiality of information is important to protect the privacy of individuals, to encourage the reporting of abuse and neglect, and to facilitate the obtaining of information.

(2) All information involving non-facility based investigations is confidential except for disclosure of the conclusion under OAR 411-020-0100(6) and may be disclosed only by judicial process, or as required by specific exceptions under state and federal law, or with the consent of the victim, but no names may be released without the consent of the individual named except as provided in section (4) of this rule.

(3) If the investigation involves a licensed care facility, information regarding the complaint and subsequent findings shall be made available to the general public upon request. On these types of complaints, information regarding the identity of the complainant, the reported victim, all witnesses, and the protected health information of any party shall remain confidential, unless release is specifically authorized by the affected individual or otherwise dictated by judicial process.

(4) Where the Division deems it is appropriate, the names of the complainant, reported victim, witnesses, and any investigative report may be made available to the following sources:

(a) Any law enforcement agency;

(b) An agency that licenses or certifies a facility where the reported abuse occurred, or licenses or certifies the individual who practices there;

(c) The Long Term Care Ombudsman;

(d) Any governmental or private non-profit agency providing adult protective services to the reported victim when that agency meets the confidentiality standards of ORS 124.090, including any federal law enforcement agency that has jurisdiction to investigate or prosecute for abuse defined in these rules, including but not limited to the Federal Bureau of Investigation (FBI), the Federal Trade Commission, or the U.S. Postal Inspection Service; or

(e) The MDT for the purpose of adult protective services for the abuse and self-neglect of older adults and adults with physical disabilities.

Services Provided

(1) Local Division designated offices must follow procedural guidelines consistent with Division policies guiding APS response activities. Although the role of APS is civil rather than criminal investigation, cooperative agreements with regulatory and enforcement agencies, such as local law enforcement, district attorneys, and licensing agencies are desirable.

(2) The Division shall establish and maintain agreements and understandings with other key agencies having a role in protecting the interests and rights of individuals who are the subject of these rules, including the Oregon State Police and the Department of Justice.

(3) The adult protective services function consists of a standard series of activities, including screening, triage or consultation, on-site assessment, investigation, intervention, documentation, and APS risk management. Deviations from these activities may be appropriate in order to protect the reported victim, but the reasons for these deviations must be staffed and properly documented in the investigative record.

(4) Adults have the right to make informed choices (as defined in 411-020-0002) that do not conform to societal norms as long as those decisions are not harmful to others. This includes the right to refuse participation in APS assessments, investigation, or intervention.

Screening

(1) All calls or contacts involving the possibility of abuse or neglect must be directed to APS screening.

ADMINISTRATIVE RULES

(2) Screening is the skilled interviewing process used to gather and assess information in order to determine eligibility for adult protective services. This activity includes a determination of whether the complaint meets the definition of abuse as contained in administrative rules.

(3) If the complaint meets the definition of abuse, screening activities may include but are not limited to:

(a) Gathering information about the reported victim's current level of functioning;

(b) Gathering demographic information and the history of the current problem;

(c) Reviewing any agency records related to the complaint; or

(d) Gathering information from collateral sources.

(4) If the complaint does not meet the definition of abuse but requires intervention, response shall include referral to other resources, including case management, licensing, or other services as appropriate.

(5) If the complaint does not meet the definition of abuse or require intervention but may be addressed by specialized information or assistance, a referral to APS consultation may be appropriate.

(6) If the complaint involves a client who is currently receiving case management or eligibility services, the worker assigned to the client must be notified. If the complaint involves a commercial adult foster home, the local licenser must be notified.

(7) Each local office must develop a protocol for tracking the outcome of every APS screening referral. A call number or other identifier must be assigned and shared with the complainant at the time of screening so that the complainant may re-contact the office and determine the disposition of the report.

(8) Each local office must establish an after hours reporting system.

Consultation

(1) Consultation is the process by which APS provides specialized information or assistance, enhanced referral, or technical assistance via electronic means, including telephone, fax, or e-mail, to assist in harm reduction.

(2) Consultation as an alternative to assessment or investigation is only appropriate when the report does not meet eligibility criteria for abuse or neglect or for investigation of licensing violation.

(3) The local office must maintain a record of reports resolved by consultation.

Triage

(1) Triage is the APS process of determining the nature and severity of risk to individuals and the immediacy of response required.

(2) The Division shall provide for a prompt and timely initial response to all APS referrals meeting the eligibility criteria established in these rules. The specific times for response are governed by the nature and severity of the complaint and the rules and laws related to the category of complaint.

(3) General time frames for response as determined by the Division are as follows:

(a) COMMUNITY CASES (Non-facility, elder abuse, and APS).

(A) IMMEDIATELY: Contact 911 when an emergency situation exists. An emergency is a situation in which evidence suggests that a human life is in jeopardy. The individual is in the process of being harmed due to criminal activity, medical emergency, fire, etc., or is a clear and present danger to self or others;

(B) WITHIN TWO HOURS OF RECEIPT OF COMPLAINT: Initiate investigation within two hours when the reported victim is identified as being in imminent danger;

(C) BY THE END OF THE NEXT DIVISION WORKING DAY: Initiate investigation by the end of the next working day when the individual is identified as being in a hazardous situation that is one that could lead to increased harm or risk; or

(D) WITHIN FIVE DIVISION WORKING DAYS: When screening determines that the situation is problematic, one that is chronic or ongoing, or is a general complaint that an immediate response is unlikely to change the reported victim's risk level, an investigation should be initiated within five working days.

(b) FACILITY CASES.

(A) NURSING FACILITY CASES.

(i) WITHIN TWO HOURS:

(I) If the resident's health or safety is in imminent danger; or

(II) The resident has recently died, been hospitalized, or been treated in an emergency department as a result of suspected abuse or neglect.

(ii) PRIOR TO THE END OF THE NEXT WORKING DAY: If circumstances exist that may result in abuse.

(B) ADULT FOSTER HOMES.

(i) WITHIN TWO HOURS:

(I) If the complaint alleges the resident has been injured, abused, or neglected and that any resident's health or safety is in imminent danger; or

(II) That the resident has died or been hospitalized due to abuse or neglect.

(ii) BY THE END OF THE NEXT DIVISION WORKING DAY: If circumstances exist that may result in injury, abuse, or neglect.

(C) ASSISTED LIVING FACILITY, RESIDENTIAL CARE FACILITY, ROOM AND BOARD FACILITY.

(i) IMMEDIATELY: If circumstances exist that may result in injury, abuse, or neglect and may place the resident's health or safety in imminent danger; or

(ii) BY THE END OF THE NEXT WORKING DAY: In all other cases.

Law Enforcement Notification

(1) The Division shall immediately notify law enforcement if any of the following conditions exist and proceed collaboratively in a way that does not further endanger the reported victim. Any law enforcement officer accompanying the investigator must be identified as such to any party interviewed. Conditions include:

(a) There is reasonable cause to believe a crime has been committed;

(b) Access to the reportedly abused individual is denied and legal assistance is needed in gaining access;

(c) The situation presents a credible danger to the Department worker or others and police escort is advisable; or

(d) Forensic photographic or other evidence is needed.

(2) Written notice, regardless of any verbal notice given, shall be provided to law enforcement for all instances when the Division finds that there is reasonable cause to believe a crime has been committed.

(3) When the local Division or AAA office notifies a law enforcement agency of suspected crime committed against a reported victim, the local office must track the progress as reported from the law enforcement agency on the investigation and the district attorney's office on the prosecution of the crime.

Assessment

(1) Assessment is the process by which the APS worker determines the reported victim's degree of risk, level of functioning, adequacy of information, and ability to protect his or her own interests. Assessment additionally determines the reported victim's ability to reduce the risk of harm in his or her environment and to make informed choices and understand the consequences of those choices. These factors are evaluated in relation to the allegation of abuse or neglect.

(2) Assessment in APS cases shall be conducted in person with the reported victim, usually in the reported victim's home or the facility where the reported victim lives.

(3) The assessment may include:

(a) Consultation with family, neighbors, law enforcement, mental health, hospice, in-home services, medical practitioners, domestic violence providers, etc. in keeping with Department confidentiality guidelines.

(b) The use of accepted screening tools as well as the worker's professional judgment to determine the reported victim's safety and functional abilities.

(4) If there is evidence that the reported victim's cognitive abilities may be impaired, recognized assessment tools may be administered to gauge those abilities. The initial assessment results shall be used as a screening to determine the need for professional diagnostic or clinical evaluation of the reported victim's capacity to make informed choices, and to

ADMINISTRATIVE RULES

determine an appropriate course of action if clinical evaluation is not available.

(5) Upon completion of the initial APS assessment, the complaint shall be continued for investigation where there is a reported perpetrator, or shall proceed directly to intervention where self-neglect is established. Where there is no perpetrator and self-neglect is not established, the reported victim shall be offered resource information, and the case shall be documented and closed.

(6) Results of the APS assessment of the reported victim's cognitive and functional abilities shall be recorded in the relevant portions of the Client Assessment and Planning System or other Department-approved system. A summary of the relevant portions shall be included in the APS report.

Community Investigation, Documentation and Notification

(1) Investigation is the process of determining whether abuse or neglect occurred. The investigation results in a finding as to whether the initial complaint is substantiated or unsubstantiated, or whether the results of the investigation are inconclusive.

(2) An investigation shall be completed and documented when a perpetrator is reported to have abused or neglected a victim.

(3) Investigations are to be objective, professional, and complete.

(4) In completing the investigation, the APS worker must:

(a) Identify the reported victim, the reported perpetrator, and any parties reported to have information relevant to proving or disproving the allegation;

(b) Conduct unannounced interviews with the parties described in section (a) above to gather all relevant available evidence. All interviews must be private unless the individual being interviewed requests the presence of someone else. Any individuals sitting in must be advised of the confidential nature of the investigation;

(c) Obtain and review any available and relevant documentary or physical evidence;

(d) Create additional investigatory aids, such as maps or drawings that may aid in proving or disproving the allegation;

(e) Maintain a record of interviews and evidentiary review, in notes, tape recordings, copies, photographs, or other appropriate means;

(f) Determine the facts of the case based on a fair and objective review of the available relevant evidence; and

(g) Conclude whether the preponderance (majority) of the evidence indicates whether the incident occurred and whether abuse or neglect is substantiated or unsubstantiated, or determine that the evidence is inconclusive.

(5) The local office must document the investigation in a timely manner and in a standard report format consistent with Division policy.

(a) Documentation of community assessments and investigations must include but not necessarily be limited to:

(A) A summary of the findings;

(B) Conclusions; and

(C) Any plans of action that are recommended or taken.

(b) Data in the report must include:

(A) Characteristics of the reported victim;

(B) Relationship of the reported victim to the complainant, witnesses, and reported perpetrator;

(C) Type of reported mistreatment or abuse;

(D) Conclusion; and

(E) Outcome.

(c) Reports must be written and closed on a Department-approved system, (e.g., Oregon ACCESS).

(6) When a community complaint investigation has been completed, the complainant, the reported victim, and the reported perpetrator may be informed (verbally, unless notification in writing is requested) that appropriate action is being taken, and that no abuse was found (unsubstantiated), abuse was found (substantiated), or the investigation was 'inconclusive'.

(7) The Department or the law enforcement agency may photograph, or cause to have photographed, any reported victim for the purposes of preserving evidence of the reported victim's condition observed at the time of the investigation. The photographs shall be considered records and subject to confidentiality rules.

Community Intervention

(1) Intervention is the process by which APS assists the victim to reduce or remove the threat of harm that has placed the victim at risk.

(2) Intervention may include but is not necessarily limited to:

(a) Arranging for emergency services such as law enforcement, emergency medical care, etc. as needed;

(b) Providing education and counseling to the individual at risk and other parties as appropriate;

(c) Facilitating the delivery of additional available support services, including legal, medical, and other services, and helping to arrange for possible alternative living arrangements or alternate decision makers as needed; or

(d) Providing advocacy to assure the rights of the reported victim are protected.

(3) Intervention may happen one or more times during the assessment or investigation process, or as an end result of the assessment or investigation. The initial APS intervention is designed to be short-term crisis response. Longer term intervention may be made available through APS risk management or through non-APS case management.

(4) An individual who can make an informed choice may refuse assistance or intervention. In this case, the worker must provide the individual with appropriate resource information and a way to re-contact APS should a threat of harm recur or reach a level unacceptable to the individual.

(5) If the individual at risk is unable to make an informed choice due to a lack of capacity, appropriate intervention must include medical assessment to determine whether capacity may be improved or restored.

(6) If the individual at risk is unable to consent to assessment or treatment, consideration must be given to involuntary intervention, including as appropriate, guardianship, conservatorship, protective orders, or civil commitment. In all such cases the intervention initiated must be the least restrictive available, must respect the values of the individual at risk, and must be sought only when it has been determined that there is no surrogate decision maker in place, or that such individual is not acting responsibly in that role.

(7) If the individual lacks appropriate information, the worker must provide or arrange for the provision of all relevant information in a manner that is timely, accessible to the individual, and balanced, in order to support the individual's right to make an informed choice.

(8) When the assessment or investigation is complete, the case shall be either:

(a) Documented and referred to APS risk management for further monitoring and intervention if the situation meets the criteria in OAR 411-020-0130, or

(b) Closed and documented because:

(A) The situation is resolved or has been referred to appropriate services for resolution; or

(B) The individual at risk, having the ability to do so, decides not to have further adult protective services.

Facility Investigation, Documentation and Notification

(1) Investigations shall be objective, professional, and complete.

(2) In completing the investigation, the APS worker must:

(a) Identify the reported victim, the reported perpetrator, and any parties reported to have information relevant to proving or disproving the allegation;

(b) Conduct interviews with the parties described in section (a) above to gather all relevant available evidence. Interviews shall be unannounced whenever possible. All interviews must be private unless the individual being interviewed requests the presence of someone else. Any individuals sitting in must be advised of the confidential nature of the investigation;

(c) Obtain and review any available and relevant documentary or physical evidence;

(d) Create additional investigatory aids, such as maps or drawings that may aid in proving or disproving the allegation;

(e) Maintain a record of interviews and evidentiary review, in notes, tape recordings, copies, photographs, or other appropriate means;

(f) Determine the facts of the case based on a fair and objective review of the available relevant evidence; and

ADMINISTRATIVE RULES

(g) Conclude whether the preponderance (majority) of the evidence indicates the incident occurred and whether wrongdoing was substantiated or unsubstantiated, or determine that the evidence is inconclusive. The determination as to whether substantiated wrongdoing meets the definitions of abuse shall be determined by the Division's Central Office.

(3) In conducting facility abuse investigations, the Division protocols governing activities of investigations further include:

(a) Notifying the Division's Client Care Monitoring Unit (CCMU) if:

(A) A situation exists in a nursing facility that meets criteria for CCMU to complete the investigation. Where CCMU shall conduct the investigation, the local office must provide coordination to assure victim safety; or

(B) A situation exists in a residential care facility or an assisted living facility that may cause CCMU to conduct a survey. This includes reports of facility-wide issues.

(b) Providing an opportunity for the complainant or a designee of the complainant, or both, to accompany the investigator to the site of the reported violation for the sole purpose of identifying individuals or objects relevant to the investigation;

(c) Conducting an unannounced site visit to the facility; and

(d) Arranging for immediate protection. The worker must direct the provider to correct any substantiated problem immediately.

(4) The local office must submit detailed investigation reports written on the Division's Facility Report Writing System to the Office of Licensing and Quality of Care in Central Office. The local office must refer these reports to the appropriate office within 60 days of the receipt of the complaint for a community based care facility and within 62 days for a nursing facility.

(a) Facility investigations must be written at the local office on the Division's Facility Report Writing System. Documentation of facility investigations must include for each allegation:

(A) A statement of the allegation;

(B) Summary of witness statements;

(C) Investigator observations, including documentary review;

(D) Findings of fact; and

(E) Conclusion.

(b) When wrongdoing is substantiated, findings in the investigation may be used to support civil or criminal sanctions against the perpetrator or care facility.

(c) The local office must retain hard copies of facility investigation reports for a period of 10 years after last activity.

(5) When a facility investigation has been completed, notification to the complainant and other appropriate parties must be done according to procedures as specified in the relevant facility licensing rules or policy.

(6) If the reported abuse is also the subject of a law enforcement report or criminal prosecution, copies of investigation reports must be forwarded to the law enforcement agency having jurisdiction.

(7) The Division may collect standardized statewide data on all types of adult protective services including but not limited to information on the number of cases, types of incidents, individual characteristics, and outcomes.

(8) The Department or the law enforcement agency may photograph, or cause to have photographed, any reported victim for the purposes of preserving evidence of the reported victim's condition observed at the time of the investigation. The photographs shall be considered records and subject to confidentiality rules.

Exceptions

(1) An applicant or licensee may request an exception to the provisions of these rules. The request must be in writing and must include clear and convincing evidence that such an exception:

(a) May not jeopardize the care, health, welfare, or safety of the residents and all of the residents' needs shall be met; and

(b) Must assure that all residents, in addition to other occupants in the home, may be evacuated in three minutes or less.

(2) EXCEPTIONS NOT ALLOWED. Notwithstanding section (1) of this rule, no exception shall be granted from a regulation or provision of these rules pertaining to:

(a) Resident capacity (See OAR 411-050-0408);

(3) Exceptions may not be granted to any rule that is inconsistent with Oregon Revised Statutes.

(4) Exception requests related to fire and life safety may not be granted by the Division without prior consultation with the State Fire Marshal or the State Fire Marshal's designee.

(5) In making its determination to grant an exception, the Division shall consider the licensee's history of compliance with rules governing adult foster homes or other long-term care facilities for the elderly or physically disabled in Oregon or any other jurisdiction, if appropriate. The Division must determine that the exception is consistent with the intent and purpose of these rules prior to granting an exception. (See OAR 411-050-0401)

Contracts and Refunds

(1) MEDICAID CONTRACTUAL AGREEMENT.

(a) Applicants or licensees who intend to care for Medicaid eligible clients must enter into a contractual agreement with the Department, sign a completed provider enrollment form and follow Department rules and contract terms.

(b) A valid contractual agreement is not a guarantee that Medicaid eligible individuals shall be placed in an adult foster home.

(c) No Medicaid eligible individuals shall be admitted into an adult foster home unless and until:

(A) The Division has approved a provider enrollment agreement. The Department may not issue a Medicaid payment to a licensee without a current provider enrollment agreement in place;

(B) The client has been screened according to OAR 411-050-0447; and

(C) The Division has authorized the placement. The authorization must be clearly documented in the resident's record with other required admission materials. (See OAR 411-050-0447(2))

(d) The rate of compensation established by the Division is considered payment in full and licensees may not accept additional funds or in-kind payment.

(e) The Department shall not make payment for the date of discharge or for any time period thereafter.

(f) A licensee who elects to provide care for a Medicaid recipient is not required to admit more than one Medicaid recipient. However, if the licensee has a valid Medicaid contract for that home, private-pay residents who become eligible for Medicaid assistance may not be asked to leave solely on the basis of Medicaid eligibility.

(g) Either party may terminate a Medicaid contract according to the terms of the contract.

(h) DEATH OF MEDICAID RESIDENT WITH NO SURVIVING SPOUSE. The licensee must forward all personal incidental funds (PIF) to the Estate Administration Unit, P. O. Box 14021, Salem, Oregon 97309-5024, within 10 business days of the death of a Medicaid resident with no surviving spouse. (See Limits on Estate Claims, OAR 461-135-0835)

(2) PRIVATE CONTRACT. Licensees who care for private-pay residents must enter into a written contract, which is an admission agreement with the resident or person paying for care. A copy of the contract is subject to review by the Division prior to licensure.

(a) The contract must include but not be limited to:

(A) Services to be provided and the rate to be charged. A payment range may not be used unless the contract plainly states when an increase in rate may be expected based on increased care or service needs;

(B) Conditions under which the rates may be changed;

(C) The home's refund policy in instances of a resident's hospitalization, death, discharge, transfer to a nursing facility or other care facility, or voluntary move. The refund policy must be in compliance with OAR 411-050-0435(3);

(D) The home's policies on voluntary moves and whether or not the licensee requires written notification of a resident's intent not to return;

(E) Charges for storage of belongings that remain in the adult foster home for more than 15 calendar days after the resident has left the home, if any; and

(F) A statement indicating that residents are not liable for damages considered normal wear and tear on the adult foster home and its contents.

(b) The licensee may not charge or ask for application fees or non-refundable deposits. Fees to hold a bed are permissible.

(c) The licensee must give a copy of the signed contract to the resident or the resident's representative, which must be documented in the resident's record.

(d) The licensee may not include any illegal or unenforceable provision in a contract with a resident and may not ask or require a resident to waive any of the resident's rights or licensee's liability for negligence.

(e) Thirty calendar days prior to any general rate increases, additions, or other modifications of the rates, the licensee must give written notice of the proposed changes to private-pay residents and their family or other representatives, unless the change is due to the resident's increased care or service needs, and the agreed upon rate schedule in the resident's contract has specified charges for those changes.

(3) REFUNDS.

(a) If a resident dies, the licensee may not retain nor require payment for more than 15 calendar days after the date of the resident's death, or the time specified in the licensee's contract, whichever is less.

(b) If a resident leaves an adult foster home for medical reasons and the resident or the resident's representative indicates the intent to not return, the licensee may not charge the resident for more than 15 calendar days or the time specified in the licensee's contract, whichever is less, after the date the licensee receives notification from the resident or the resident's representative.

(c) The licensee has an obligation to act in good faith to reduce the charge to the resident who has left the home, by seeking a new resident to fill the vacancy.

(d) The licensee must refund any unused advance payments to the resident, or the resident's representative as appropriate, within 30 calendar days after the resident dies or leaves the home.

(e) If the adult foster home closes or the licensee gives written notice for the resident to leave, the licensee waives the right to collect any fees beyond the date of closure or the resident's departure, whichever is sooner.

ADMINISTRATIVE RULES

(f) If a resident dies or leaves an adult foster home due to neglect or abuse at the adult foster home that is substantiated by a Department investigator, or due to conditions of imminent danger of life, health, or safety, the licensee may not charge the resident beyond the resident's last day in the home.

(g) Refund policies must also apply to the sections in these rules on moves, transfers, and discharges. (See OAR 411-050-0444(9)(10)(11)).

(a) Each year after the first year of licensure, licensees, resident managers, and shift caregivers must complete at least 12 hours of Division-approved training related to the care of adults who are elderly or physically disabled. Up to four of those hours may be related to the business operation of an adult foster home.

(b) Licensees, resident managers, and shift caregivers, as applicable, must maintain their CPR certification.

(c) Registered nurse delegation or consultation, CPR certification and First Aid training, or consultation with an accountant do not count toward the 12 hours of the annual training requirement.

The Workbook must be completed by the substitute caregiver without the help of any other person and be considered part of the required orientation to the home and residents.

(C) Substitute caregivers left in charge of an adult foster home for any period that exceeds 48 continuous hours, may be required to meet the education, experience, and training requirements of a resident manager if the licensing authority determines that such qualifications are necessary based on the resident impairment levels in the home.

(D) The Division may grant an exception to the Caregiver Preparatory Training Study Guide and Workbook requirement in section (8)(g)(B) of this rule for a substitute caregiver who holds a current Oregon license as a health care professional such as a physician, registered nurse, or licensed practical nurse who demonstrates the ability to provide adequate care to

Operational Standards

(1) GENERAL PRACTICES.

(a) Licensees must own, rent, or lease the home to be licensed, however the local licensing authority may grant exception to churches, hospitals, non-profit associations, or similar organizations. If a licensee rents or leases the premises where the adult foster home is located, the licensee may not enter into a contract that requires anything other than a flat rate for the lease or rental. A licensed provider of a building in which an adult foster home is located may not allow the owner to interfere with the admission, discharge, or transfer of any resident in the adult foster home unless the owner is a licensee or co-licensee named on the license.

(b) COOPERATION AND ACCESS. The licensee must cooperate with Division personnel in inspections, complaint investigations, planning for resident care, application procedures, and other necessary activities.

(A) Department personnel have access to all resident and facility records and may conduct private interviews with residents.

(B) The State Long-Term Care Ombudsman has access to all resident and facility records. Deputy Ombudsman and Certified Ombudsman Volunteers have access to facility records and, with written permission from the resident or the resident's legal representative, may have access to resident records. (See OAR 114-005-0030)

(c) Information related to residents must be kept confidential, except as may be necessary in the planning or provision of care or medical treatment, or related to an investigation or sanction action under these rules.

(d) Licensees must be able to arrange or provide for appropriate transportation for residents when needed.

(e) STAFFING STANDARDS. A licensee may not employ a resident manager or shift caregiver who does not meet or exceed the experience and training classification standard for the adult foster home.

(f) If a resident manager, or shift caregiver, changes during the period the license covers, the licensee must notify the Division immediately and identify who shall be providing care. This includes circumstances when the licensee assumes the role as the primary caregiver or shift caregiver when there has been a change in staff, in which case the licensee must submit an updated plan of 24-hour coverage to the Division. Otherwise:

(A) The licensee must submit a request for a change of resident manager, or shift caregiver as applicable, to the Division along with the Department's completed resident manager application form, a completed Health History and Physician or Nurse Practitioner's Statement (form SDS 903), the Department's Criminal Records Request form, and a \$10 non-refundable fee.

(B) Upon a determination by the Division that the applicant meets the requirements of a resident manager, and the applicant has obtained the required training and passed the test, a revised license shall be issued with the name of the new resident manager or shift caregiver. The classification of the home shall be reevaluated based on the qualifications of the new resident manager or shift caregivers, and changed accordingly.

(g) UNEXPECTED AND URGENT STAFFING NEED. If the Division determines an unexpected and urgent staffing need exists, the Division may authorize a person who has not completed the Basic Training or passed the test to act as a resident manager or shift caregiver until training and testing are completed, or for 60 calendar days, whichever period is shorter. The licensee must notify the Division of the situation in writing and satisfactorily demonstrate his or her inability to find a qualified resident

ADMINISTRATIVE RULES

manager, or shift caregiver as applicable, and that the person is 21 years of age and meets the requirements of a substitute caregiver for the adult foster home.

(h) A licensee is responsible for the supervision, training, and overall conduct of resident managers, other caregivers, family members, and friends when acting within the scope of their employment, duties, or when present in the home.

(i) Sexual relations between residents and any employee of the adult foster home, licensee, or any member of the licensee's household is prohibited unless a pre-existing relationship existed.

(j) A licensee must notify the Division in writing prior to any change of his or her residence or mailing address.

(k) COMMUNICATION.

(A) Applicants for an initial license must obtain an active electronic mail address prior to obtaining a license.

(B) A licensee must notify the Division within 24 hours upon a change in the home's business address for electronic mail and telephone number for the licensee and the adult foster home. (See also section (5) of this rule)

(2) SALE OR LEASE OF EXISTING ADULT FOSTER HOMES AND TRANSFER OF LICENSES.

(a) A license is not transferable and does not apply to any location or person other than the location and the person indicated on the license obtained from the Division.

(b) The licensee must inform real estate agents, prospective buyers, lessees, and transferees in all written communication including advertising and disclosure statements that the license to operate an adult foster home is not transferable and must refer them to the Division for information about licensing.

(c) When a home is to be sold or otherwise transferred or conveyed to another person who intends to operate the home as an adult foster home, that person must apply for and obtain a license from the Division prior to the transfer of operation of the home.

(d) The licensed provider must promptly notify the local Division's licensing program in writing about the licensee's intent to close or intent to convey the adult foster home to another individual. The licensee must provide written notice to the residents and the resident's representatives and case managers as applicable, according to section (12)(a) of this rule.

(e) The licensed provider must inform a person intending to assume operation of an existing adult foster home that residents currently residing in the home must be given at least 30 calendar days' written notice of the licensee's intent to close the adult foster home for the purpose of conveying the home to another person.

(f) The licensee must remain licensed and responsible for the operation of the home and care of the residents in accordance with these rules until the home is closed and the residents have been relocated, or the home is conveyed to a new licensee who is licensed by the Division at a level appropriate to the care needs of the residents in the home.

(3) SANITATION AND SAFETY PRECAUTIONS IN THE ADULT FOSTER HOME.

(a) **COMMUNES AND INCONTINENCE GARMENTS.** If used, commodes must be emptied frequently and cleaned daily, or more frequently if necessary. Incontinence garments must be disposed of in closed containers.

Pre-wash attention must be given to soiled and wet bed linens. Sheets and pillowcases must be laundered at least weekly and more often if soiled.

(c) **PETS OR OTHER ANIMALS.** Sanitation for household pets and other domestic animals on the premises must be adequate to prevent health hazards. Proof of rabies vaccinations and any other vaccinations that are required for the pet by a licensed veterinarian must be maintained on the premises. Pets not confined in enclosures must be under control and must not present a danger to residents or guests.

(d) **INFECTION CONTROL.** Standard precautions for infection control must be followed in resident care. Hands and other skin surfaces must be washed immediately and thoroughly if contaminated with blood or other body fluids.

(e) **DISPOSAL OF SHARPS.** Precautions must be taken to prevent injuries caused by needles, scalpels, and other sharp instruments or devices during procedures. After they are used, disposable syringes and needles, scalpel blades, and other sharp items must be placed in a puncture-resistant, red container for disposal. The puncture-resistant container must be located

as close as practical to the use area. Disposal must be according to local regulations and resources (ORS 459.386 through 459.405).

(f) **WATER TEMPERATURE.** Residents who are unable to safely regulate the water temperature must be supervised.

If the licensee has a caller identification service on the home number, the blocking feature must be disabled to allow incoming calls to be received unhindered. A licensee may have only one phone line as long as it complies with the requirements of these rules.

(b) The licensee must notify the Division, residents, the residents' families, legal representatives, and case managers, as applicable, of any change in the adult foster home's telephone number within 24 hours of the change.

Facility Standards

In order to qualify for or maintain a license, an adult foster home must comply with the following provisions:

(1) GENERAL CONDITIONS.

(a) Each adult foster home must meet all applicable local business license, zoning, building, and housing codes, and state and local fire and safety regulations for a single family residence.

(b) **INTERIOR AND EXTERIOR PREMISES.** The building and furnishings must be clean and in good repair. The interior and exterior premises must be well maintained and accessible according to the individual needs of the residents. There must be no accumulation of garbage, debris, rubbish, or offensive odors. Walls, ceilings, and floors must be of such character to permit washing, cleaning, or painting, as appropriate.

(c) Adequate lighting, based on the needs of the individual, must be provided in each room, stairway, and exit way. Incandescent light bulbs and fluorescent tubes must be protected with appropriate covers.

(d) **TEMPERATURE.** The heating system must be in working order. Areas of the home used by residents must be maintained at a comfortable temperature. Minimum temperatures during the day will be no less than 68 degrees, no higher than 85 degrees, and no less than 60 degrees during sleeping hours. Variations from the requirements of this rule must be based on resident care needs or preferences and must be addressed in their individual care plan.

(A) During times of extreme summer heat, the licensee must make reasonable effort to keep the residents comfortable using ventilation, fans, or air conditioning. Precautions must be taken to prevent resident exposure to stale, non-circulating air.

(B) If the facility is air-conditioned, the system must be functional and the filters must be cleaned or changed as needed to ensure proper maintenance.

(C) If the licensee is unable to maintain a comfortable temperature for residents during times of extreme summer heat, air conditioning or another cooling system may be required.

(e) **COMMON USE AREAS.** Common use areas for the residents must be accessible to all residents. There must be at least 150 square feet of common living space and sufficient furniture in the home to accommodate the recreational and socialization needs of all the occupants at one time. Common space may not be located in an unfinished basement or garage unless such space was constructed for that purpose or has otherwise been legalized under permit. There may be additional space required if wheelchairs are to be accommodated. An additional 40 square feet of common

ADMINISTRATIVE RULES

living space shall be required for each day care person, room and board occupant, or relative receiving care for remuneration that exceeds the limit of five.

(f) **SAFETY BARRIERS.** Swimming pools, hot tubs, spas, saunas, and stairways, as appropriate, must also be equipped with safety barriers and devices designed to prevent injury.

(g) **VIDEO MONITORS.** Use of video monitors detracts from a home-like environment and licensees may not use them in any area of the home that would violate a resident's privacy unless requested by the resident.

(2) SANITATION.

(a) **NON-MUNICIPAL WATER SOURCE.** A public water supply must be utilized if available. If a non-municipal water source is used, the licensor, a sanitarian, or a technician from a certified water-testing laboratory must collect a sample annually. The water sample must be tested at the licensee's expense for coliform bacteria and action taken to ensure potability. Test records must be retained for three years.

(b) Septic tanks or other non-municipal sewage disposal system must be in good working order.

(c) Garbage and refuse must be suitably stored in readily cleanable, rodent-proof, covered containers, pending weekly removal.

(d) **VENTILATION.** All doors and windows that are used for ventilation must have screens in good condition.

(c) Be clean and free of objectionable odors (See also Commodes and Incontinence Garments, OAR 411-050-0444(3)(a));

(d) Have bathtubs, showers, toilets, and sinks in good repair. A sink must be located near each toilet, and a toilet and sink must be available for the resident's use on each floor with resident rooms. There must be at least one toilet, one sink, and one bathtub or shower for each six household occupants (including residents, day care persons, room and board occupants, licensee, and licensee's family);

(e) Have hot and cold water at each bathtub, shower, and sink in sufficient supply to meet the needs of the residents;

(f) Have nonporous surfaces for shower enclosures. Glass shower doors, if applicable, must be tempered safety glass, otherwise, shower curtains must be clean and in good condition and non-slip floor surfaces must be provided in bathtubs and showers;

(g) Have grab bars for each toilet, bathtub, and shower to be used by resident's for safety, and have barrier-free access to toilet and bathing facilities; and

(h) Have adequate supplies of toilet paper and soap supplied by the licensee. Residents must be provided with individual towels and washcloths, which, are laundered in hot water at least weekly or more often if necessary. Residents must have appropriate racks or hooks for drying bath linens. If individual hand towels are not provided, roller-dispensed hand towels or paper towels in dispenser must be provided for residents' use.

(4) BEDROOMS.

(a) Bedrooms for all household occupants must:

(c) There must be an individual bed at least 36 inches wide for each resident consisting of a mattress and springs, or equivalent, in good condition. Cots, rollaways, bunks, trundles, daybeds with restricted access, couches, and folding beds may not be used for residents. Each bed must

have clean bedding in good condition consisting of a bedspread, mattress pad, two sheets, a pillow, a pillowcase, and blankets adequate for the weather. Waterproof mattress covers must be used for incontinent residents. (f) Resident bedrooms must be in close enough proximity to the licensee or caregiver in charge to alert him or her to nighttime needs or emergencies, or the bedrooms must be equipped with a call bell or intercom. Intercoms may not violate the resident's right to privacy and must have the capability of being turned off by the resident or at the resident's request.

(5) SAFETY.

(a) Buildings must meet all applicable state and local building, mechanical, and housing codes for fire and life safety. The home may be inspected for fire safety by the State Fire Marshal's Office at the request of the licensing authority or Division staff using the standards in these rules, as appropriate.

(b) **HEAT SOURCES.** Heating in accordance with manufacturer's specifications and electrical equipment, including wood stoves and pellet stoves, must be installed in accordance with all applicable fire and life safety codes. Such equipment, including fireplaces, must be in good repair, used properly, and be well maintained according to the recommended maintenance schedule of the manufacturer or a qualified inspector.

(A) Licensees who do not have a permit verifying proper installation of an existing woodstove or pellet stove must have it inspected by a qualified inspector, Certified Oregon Chimney Sweep Association member, or Oregon Hearth Products Association member and follow their recommended maintenance schedule.

(B) Fireplaces must have approved and listed protective glass screens or metal mesh screens anchored to the top and bottom.

(C) The installation of a non-combustible, heat-resistant safety barrier may be required to be installed 36 inches around woodstoves to prevent residents with ambulation or confusion problems from coming in contact with the stove.

(D) Unvented, portable oil, gas, or kerosene heaters are prohibited. Sealed electric transfer heaters or electric space heaters with tip-over, shut-off capability may be used when approved by the authority having jurisdiction.

(e) Extension cord wiring and multi-plug adaptors may not be used in place of permanent wiring.

(d) Hardware for all exit doors and interior doors must have simple hardware that may not be locked against exit and must have an obvious method of operation. Hasps, sliding bolts, hooks and eyes, and double key deadbolts are not permitted. Homes with one or more residents who have impaired judgment and are known to wander away from their place of residence must have an activated alarm system to alert a caregiver of an unsupervised exit by a resident.

(e) Bedrooms must have at least one window or exterior door that readily opens from the inside without special tools and which provides a clear opening of not less than 821 square inches (5.7 sq. ft.), with the least dimensions not less than 22 inches in height or 20 inches in width. Sill height may not be more than 44 inches from the floor level or there must be approved steps or other aids to the window exit that may be used by residents. Windows with a clear opening of not less than 5.0 square feet or 720 square inches with sill heights of 48 inches may be accepted when approved by the State Fire Marshal or designee.

(f) **CONSTRUCTION.** Interior and exterior doorways used by residents must be wide enough to accommodate wheelchairs and walkers if used by residents. Interior and exterior stairways must be unobstructed, equipped with handrails, and appropriate to the condition of the residents. (See also section (5)(r) of this rule)

(A) Buildings must be of sound construction with wall and ceiling flame spread rates at least substantially comparable to wood lath and plaster or better. The maximum flame spread of finished materials may not

ADMINISTRATIVE RULES

exceed Class III (76-200) and smoke density may not be greater than 450. If more than 10 percent of combined wall and ceiling areas in a sleeping room or exit way is composed of readily combustible material such as acoustical tile or wood paneling, such material must be treated with an approved flame retardant coating. Exception: Buildings supplied with an approved automatic sprinkler system.

(i) **MANUFACTURED HOMES.** Manufactured home (formerly mobile homes) units must have been built since 1976 and designed for use as a home rather than a travel trailer. The unit must have a manufacturer's label permanently affixed on the unit itself which states the unit meets the requirements of the Department of Housing and Urban Development (HUD). The required label must read as follows:

"As evidenced by this label No. ABC000001, the manufacturer certifies to the best of the manufacturer's knowledge and belief that this mobile home has been inspected in accordance with the requirements of the Department of Housing and Urban Development and is constructed in conformance with the Federal Mobile Home Construction and Safety Standards in effect on the date of manufacture. See date plate."

(ii) If such a label is not evident and the licensee believes the unit meets the required specifications, the licensee must take the necessary steps to secure and provide verification of compliance from the manufacturer.

(iii) Mobile homes built since 1976 meet the flame spread rate requirements and do not have to have paneling treated with a flame retardant coating.

(B) **STRUCTURAL CHANGES.** The licensee must notify the Division in writing at least 15 calendar days prior to any remodeling, renovations, or structural changes in the facility that require a building permit. Such activity must comply with building and housing codes and fire and safety regulations applicable to a single-family residence. The licensee must forward to the Division within 30 calendar days of completion copies of all required permits and inspections, an evacuation plan, and a revised floor plan. (See sections (5)(m) and (5)(p) of this rule)

(g) **FIRE EXTINGUISHERS.** At least one fire extinguisher with a minimum classification of 2A-10BC must be in a visible and readily accessible location on each floor, including basements, and be checked at least once a year by a qualified person who is well versed in fire extinguisher maintenance. All recharging and hydrostatic testing must be completed by a qualified agency properly trained and equipped for this purpose.

(h) **SMOKE ALARMS.** Smoke alarms must be installed in accordance with the manufacturer's instructions in each bedroom, in hallways or access areas that adjoin bedrooms, the family room or main living area where residents congregate, any interior designated smoking area, and in basements. In addition, in multi-level homes, smoke alarms must be installed at the top of all stairways. Ceiling placement of smoke alarms is recommended. Alarms must be equipped with a device that warns of low battery when battery operated or with battery back-up if hard wired. Bedrooms used by hearing-impaired occupants who may not hear the sound of a regular smoke alarm must be equipped with an additional smoke alarm that has visual or vibrating capacity.

(i) All smoke alarms must contain a sounding device or be interconnected to other alarms to provide, when actuated, an alarm that is audible in all sleeping rooms. The alarms must be loud enough to wake occupants when all bedroom doors are closed. Intercoms and room monitors may not be used to amplify alarms.

(j) The licensee must maintain smoke alarms and fire extinguishers in functional condition. If there are more than two violations in maintaining battery operated alarms in working condition, the Division may require the licensee to hard wire the alarms into the electrical system.

(k) **COMBUSTIBLES AND FIREARMS.** Flammables, combustibles, liquids, and other combustible materials must be safely and properly stored in their original, properly labeled containers or safety containers and secured in areas to prevent tampering by residents or vandals. Firearms must be stored, unloaded, in a locked cabinet. The firearms cabinet must be located in an area of the home that is not accessible to residents. Ammunition must be secured in a locked area separate from the firearms.

(l) **HAZARDOUS MATERIALS.** Cleaning supplies, medical sharps containers, poisons, insecticides, and other hazardous materials must be properly stored in their original, properly labeled containers in a safe area that is not accessible to residents, food preparation and food storage areas, dining areas, and medications.

(m) **EVACUATION PLAN.** An emergency evacuation plan must be developed, and revised as necessary to reflect the current condition of the residents in the home. The plan must be rehearsed with all occupants.

(n) **ORIENTATION TO EMERGENCY PROCEDURES.** Within 24 hours of arrival, any new resident or caregiver must be shown how to

respond to a smoke alarm, shown how to participate in an emergency evacuation drill, and receive an orientation to basic fire safety. New caregivers must also be oriented in how to conduct an evacuation.

(o) **EVACUATION DRILL.** Evacuation drills must be held at least once every 90 calendar days, with at least one per year conducted while the residents are in bed. Records of drills must be maintained according to OAR 411-050-0444(6)(a)(G). Licensees and all other caregivers must be able to demonstrate the ability to evacuate all occupants from the facility to the closest point of safety, which is exterior to and away from the structure, and has access to a public sidewalk or street within three minutes or less. If there are problems in demonstrating this evacuation time, conditions may be applied to the license which include but are not limited to reduced capacity of residents, additional staffing, or increased fire protection. Continued problems shall be grounds for revocation or non-renewal of the license.

(p) **FLOOR PLAN.** The licensee must develop a current and accurate floor plan that indicates:

(A) The size of rooms;

(B) Which rooms are to be resident bedrooms and which are to be caregiver bedrooms;

(C) The location of all the exits on each level of the home, including emergency exits such as windows;

(D) The location of wheelchair ramps, if applicable;

(E) Where the fire extinguishers and smoke alarms are located; and

(F) The planned evacuation routes.

(q) Licensees may not place residents, who are unable to walk without assistance or not capable of self-preservation, in a bedroom on a floor without a second ground level exit. (See also section (4)(e) of this rule)

(r) Stairs must have a riser height of between 6 to 8 inches and tread width of between 8 to 10.5 inches. Lifts or elevators are not an acceptable substitute for resident's capability to ambulate stairs (See also section (5)(f) of this rule).

(s) **EXIT WAYS.** All exit ways must be barrier free and the corridors and hallways must be a minimum of 36 inches wide or as approved by the authority having jurisdiction. Interior doorways used by residents must be wide enough to accommodate wheelchairs and walkers if used by residents. Any bedroom window or door identified as an exit must be free of obstacles that would interfere with evacuation.

(t) **RAMPES.** There must be at least one wheelchair ramp from a minimum of one exterior door if non-ambulatory persons are in residence. Wheelchair ramps must comply with the Americans with Disabilities Act (ADA), have non-skid surfaces, handrails, and have a maximum slope of 1 inch rise in each 12 inches of distance. The maximum rise for any run must be 30 inches. Licensees may need to bring existing ramps into revised compliance if necessary to meet the needs of new residents or current residents with increased care needs.

(u) **EMERGENCY EXITS.** There must be a second safe means of exit from all sleeping rooms. Providers whose sleeping rooms are above the first floor may be required to demonstrate an evacuation drill from that room, using the secondary exit, at the time of licensure, renewal, or inspection.

(v) Adult foster homes located more than five miles distance from the nearest fire station or those of unusual construction characteristics may be required to have a complete fire alarm system meeting the requirements of the National Fire Prevention Association (NFPA) 72 with approved automatic reporting to the local jurisdiction providing fire protection.

(w) There must be at least one plug-in, rechargeable flashlight in good functional condition available on each floor for emergency lighting.

(x) Smoking regulations must be in accordance with the Oregon Indoor Clean Air Act, OAR 333-015-0025 to 333-015-0090. If smoking is allowed in a home, the licensee must adopt house policies that restrict smoking to designated areas. Smoking is prohibited in any bedroom including that of residents, licensee, resident manager, any other caregiver, occupant, or visitor, any room where oxygen is used and anywhere flammable materials are stored. Ashtrays of noncombustible material and safe design must be provided in areas where smoking is permitted.

(y) Providers whose homes are located in areas where there is a danger of natural disasters which require rapid evacuation such as forest fires, flash floods, or tsunami waves must be aware of community resources for evacuation assistance.

ADMINISTRATIVE RULES

411-050-0447

Standards and Practices for Care and Services

(1) SCREENING AND ASSESSMENT.

(a) Prior to admission of a resident, the licensee must conduct and document a screening to determine that the prospective resident's care needs do not exceed the license classification. The screening must evaluate the ability of the prospective resident to evacuate the home within three minutes along with all occupants of the home. The screening must also determine if the licensee and caregiver is able to meet the prospective resident's needs in addition to meeting the needs of the other residents of the home. The screening must include medical diagnoses, medications, personal care needs, nursing care needs, cognitive needs, communication needs, night care needs, nutritional needs, activities, lifestyle preferences, and other information as needed to assure the prospective resident's care needs will be met.

(b) The screening interview process must include interviews with the prospective resident, the resident's family, prior care providers, and case manager as appropriate. The interview must also include as necessary, any physician, nurse practitioner, registered nurse, pharmacist, therapist, or mental health or other health care professional involved in the care of the resident. A copy of the screening document must be given to the prospective resident or the resident's representative. If the prospective resident becomes a resident in the home, a copy of the screening document must be placed in the resident's record.

(c) The licensee is required to disclose to a prospective resident any house policies that may limit the resident's activities or preferences while living in the adult foster home. Examples include but are not limited to the use of tobacco or alcohol, pets, religious practices, dietary restrictions, and the use of intercoms. Licensed providers must disclose the home's policy regarding the legal presence and use of medical marijuana. (See OAR 411-050-0444(8)(b))

(2) PRIOR TO ADMISSION.

(a) GENERAL INFORMATION. The licensee must obtain and document general information regarding the resident prior to the resident's admission. The information must include names, addresses, and telephone numbers of relatives, significant persons, case managers, and medical or mental health providers. The record must also include the date of admission and, if available, the resident's social security and medical insurance numbers, birth date, prior living facility, and mortuary;

(b) The licensee must have made every effort to obtain physician or nurse practitioner's written orders for medications, treatments, therapies, and special diets, as applicable, prior to the admission of the resident. Any telephone orders must be followed with written orders. A physician, nurse practitioner, or pharmacist review of the resident's preferences for over-the-counter medications and home remedies must also be obtained at that time. The licensee must also obtain and place in the record any medical information available including history of accidents, illnesses, impairments, or mental status that may be pertinent to the resident's care;

(c) The licensee must ask for copies of the following documents, if the resident has them: Advance Directive for Health Care, Physician's Order for Life Sustaining Treatment (POLST), proof of court-appointed guardianship and proof of conservatorship, whichever may be applicable. Copies of these documents must be placed in a prominent place in the resident's record and sent with the resident if the resident is transferred for medical care;

(d) Prior to admission, the licensee must inform the resident or the resident's representative if the home serves Medicaid clients;

(e) The licensee must inform private-pay residents, or their representatives if appropriate, of the availability of long-term care assessment services provided through the Department or a certified assessment program. The licensee must document on the Department's form (SDS 913) that the individual has been advised of their right to receive a long-term care assessment. The facility must maintain a copy of the form in the resident's record and make a copy available to the Division upon request; and

(f) The licensee must discuss the Residents' Bill of Rights, and the home's current house policies with the resident and the resident's representative as appropriate. The discussion must be documented by having the resident sign and date a copy of the house policies, which have been approved by the Division, and the Residents' Bill of Rights, form SDS 305A. Copies of the signed house policies and Residents' Bill of Rights must be maintained in the resident's record.

(3) CARE PLAN.

(a) During the initial 14 calendar days following the resident's admission to the home, the licensee must continue the assessment process which includes documenting the resident's preferences and care needs. The

assessment and care plan must be completed by the licensee and documented within the initial 14-day period. The care plan must describe the resident's needs and preferences, the resident's capabilities, and what assistance the resident requires for various tasks. The care plan must also include by whom, when, and how often care and services shall be provided. Specific information must include:

(A) The resident's ability to perform activities of daily living (ADLs);

(B) Special equipment used by the resident;

(C) Communication needs (Examples may include but are not limited to hearing or vision, such as eraser boards or flash cards, or language barriers such as sign language or non-English speaking);

(D) Night needs;

(E) Medical or physical health problems, including physical disabilities, relevant to care and services;

(F) Cognitive, emotional, or impairments relevant to care and services;

(G) Treatments, procedures, or therapies;

(M) Dietary needs and preferences;

(b) The care plan must be reviewed and updated every six months and as the resident's condition changes. A review note with the date and licensee's signature must be documented in the record at the time of the review. If the care plan contains many changes and becomes less legible, a new care plan must be written.

(4) REGISTERED NURSE CONSULTATION.

(a) RN CONSULTATION AND ASSESSMENT. The licensee must obtain a medical professional consultation and assessment to meet the care needs of the resident as required in these rules. A registered nurse consultation must be obtained when a skilled nursing care task, as defined by the Oregon State Board of Nursing, has been ordered by a physician or other qualified practitioner.

(b) The licensee must also request a registered nurse consultation under the following conditions:

(A) When the resident has a health concern or behavioral symptoms that may benefit from a nursing assessment and provider education.

(B) When written parameters are needed to clarify the physician or nurse practitioner's p.r.n. order for medication and treatment. (See section (5)(g) of this rule)

(C) Prior to the use of physical restraints when not assessed, taught, and reassessed, according to section (5)(m) of this rule, by the physician, nurse practitioner, Christian Science practitioner, mental health clinician, physical therapist, or occupational therapist.

(D) Prior to the use of new psychoactive medications when not assessed, taught, and reassessed according to section (5)(h) of this rule, by the physician, nurse practitioner, or mental health practitioner, and prior to requesting psychoactive medications to treat behavioral symptoms.

(E) When care procedures have been ordered, which are new for a specific resident, the licensee, or other caregivers.

(c) RN DELEGATIONS. The registered nurse may determine that a nursing care task is to be taught utilizing the delegation process. Delegations are not transferable to other residents or caregivers. (Refer to OAR chapter 851, division 047)

(a) The licensee and caregivers must demonstrate an understanding of each resident's medication administration regimen. The reason the medication is used, medication actions, any specific instructions, and common side effects must be referenced by medication resource material readily available at the facility.

(b) WRITTEN ORDERS. The licensee must obtain and place a signed order in the resident's record for any medications, dietary supplements, treatments, or therapies which have been prescribed by the physician or nurse practitioner. Orders must be carried out as prescribed unless the resident or the resident's legal representative refuses to consent.

ADMINISTRATIVE RULES

(A) CHANGED ORDERS. Changes may not be made without a physician or nurse practitioner's order and the physician or nurse practitioner must be notified if a resident refuses to consent to an order. Order changes obtained by telephone must be followed-up with signed orders. Changes in the dosage or frequency of an existing medication require a new pharmacy label. If a new pharmacy label is not obtained, the change must be written on the existing pharmacy label and match the new medication order. (See section (5)(e)(D) of this rule)

(B) DOCUMENTATION. Attempts to obtain the written changes must be documented and readily available for review in the resident's record. Over-the-counter medications or home remedies requested by the resident must be reviewed by the resident's physician, nurse practitioner, or pharmacist as part of developing the initial care plan and at time of care plan review.

(B) Identify any treatments and therapies given by the caregiver. The record must indicate the type of treatment or therapy and the time the procedure is to be performed;

(C) Be immediately initialed by the person administering the medication, treatment, or therapy as it is completed. Each medication administration record must contain a legible signature that identifies each set of initials;

(D) Document changed and discontinued orders on the medication administration record immediately showing the date of the change or discontinued order. Changed orders must be written on a new line with a line drawn to the start date and time; and

(D) Reason for disposal;

(E) Method of disposal;

(F) Signature of person disposing of the medication; and

(G) For controlled medications, signature of witness to the disposal according to section (5)(i)(E) of this rule.

(g) P.R.N. MEDICATIONS. Prescription medications ordered to be given "as needed" or "p.r.n." must have specific parameters indicating what the medication is for and specifically when, how much, and how often the medication may be administered. Any additional instructions must be available for the caregiver to review before the medication is administered to the resident.

(A) P.R.N. DOCUMENTATION. As needed (p.r.n) medication must be documented on the resident's medication administration record with the time, dose, the reason the medication was given, and the outcome.

(B) P.R.N. ADVANCE SET-UP. As needed (p.r.n.) medications may not be included in any advance set-up of medication.

(h) PSYCHOACTIVE MEDICATIONS.

(A) A licensee may use psychoactive medications to treat a resident's behavioral symptoms only after a consultation with the physician, nurse practitioner, registered nurse, or mental health professional has been obtained. The consultation must identify a probable cause of the behavior and include behavioral and environmental interventions to be used instead of or in addition to medication. The alternative interventions must be tried and the resident's response to them must be documented prior to the use of medication.

(B) Prescriptions or orders for psychoactive medication must specify the dose, frequency of administration, and the circumstance for use, (i.e., specific symptoms). The licensee and all caregivers must be aware of these parameters.

(C) The licensee and all caregivers must know the intended effect of a medication for a particular resident, the common side effects, as well as the circumstances for reporting to the physician or nurse practitioner.

(D) The care plan must identify and describe the behavioral symptoms for which psychoactive medications are being used and list all interventions, including behavioral, environmental, and medication.

(E) A plan for reassessment of psychoactive medication usage must be individually determined for each resident. The reassessment must be completed by the physician or nurse practitioner.

(F) Psychoactive medications must never be given to discipline a resident or for the convenience of the caregivers.

(i) MEDICATION CONTAINERS, STORAGE, AND DISPOSAL.

(A) Each of the resident's medication containers, including bubble packs, must be clearly labeled by the pharmacy. Over-the-counter medication purchased for a specific resident's use must be in the original labeled container and marked with the resident's name.

(B) Over-the-counter medications in stock bottles (with original labels) may be used for multiple residents in the home.

(C) All medications must be kept in a locked, central location, separate from medications of the caregiver or caregiver's family.

(D) Residents may not have access to medications of the licensee, caregivers, or other household members.

(E) Unused, outdated, or discontinued medications may not be kept in the home and must be disposed of. Licensees must contact the local DEQ waste management company in their area for instructions on proper disposal of unused or expired medications. Disposal of all medications may be documented on the medication administration record but must be readily available in the resident's record. Disposal of all controlled substances must be documented and witnessed by at least one other individual who is 18 years of age or older.

(j) ADVANCED SET-UP. The licensee may set up each resident's medications for up to seven calendar days in advance (excluding p.r.n. medications) by using a closed container manufactured for that purpose. If used, each resident must have his or her own container with divisions for the days and times of the day the medications are to be given. The container must be clearly labeled with the resident's name, name of each medication, time to be given, dosage, amount, route (if other than oral), and description of the medications. The container must be stored in the locked area with the medications.

(k) SELF-ADMINISTRATION OF MEDICATION. Residents must have a physician or nurse practitioner's written order of approval to self-medicate. Residents able to handle their own medical regimen may keep medications in their own room in a small storage area that may be locked. The licensee must notify the physician or nurse practitioner if the resident show signs of no longer being able to self-medicate safely.

(l) INJECTIONS. Subcutaneous, intramuscular, and intravenous injections may be self-administered by the resident or administered by a relative of the resident, or an Oregon licensed registered nurse (RN). An Oregon licensed practical nurse (LPN) may also give subcutaneous and intramuscular injections. A caregiver who has been delegated and trained by a registered nurse under provision of the Oregon State Board of Nursing (OAR chapter 851) may give subcutaneous injections. Intramuscular and intravenous injections may not be delegated.

(m) PHYSICAL RESTRAINTS. Physical restraints may only be used when required to treat a resident's medical symptoms, or to maximize a resident's physical functioning. Licensees and caregivers may use physical

ADMINISTRATIVE RULES

restraints in adult foster homes only in compliance with these rules, including the Residents' Bill of Rights. (See section (7) of this rule) Prior to the use of any type of physical restraint, the following must be completed:

(A) **ASSESSMENT.** A physician, nurse practitioner, registered nurse, Christian Science practitioner, mental health clinician, physical therapist, or occupational therapist must complete an assessment, which includes consideration of all other alternatives. If, following the assessment and trial of other measures, it is determined that a restraint is necessary, the least restrictive restraint must be used and as infrequently as possible and the licensee must obtain a written order from the resident's physician, nurse practitioner, or Christian Science practitioner.

(B) **CONSENT.** Physical restraints may not be used without first obtaining written consent of the resident or the resident's legal representative.

(C) **REASSESSMENT.** The frequency for reassessment of the physical restraint's use must be determined based on the recommendations made in the initial assessment. A physician, nurse practitioner, registered nurse, Christian Science practitioner, mental health clinician, physical therapist, or occupational therapist may perform the reassessment.

(D) **DOCUMENTATION.** The following must be kept in the resident's record pertaining to physical restraints:

(i) The assessment completed by a medical professional according to section (5)(m)(A) above. The assessment must include:

(I) Documentation of all other alternatives and less restrictive measures which were considered;

(II) Identification of alternative, less restrictive measures that must be used in place of the restraint whenever possible;

(III) A written procedural guidance for correct use of the restraint;

(IV) The frequency and procedures for nighttime use (if applicable); and

(V) Dangers and precautions related to the use of the restraint.

(ii) A written order authorizing the use of the physical restraint from the resident's physician, nurse practitioner, or Christian Science practitioner. The order must include specific parameters including type, circumstances, and duration of the use of the restraint. (P.R.N. orders for restraints are not allowed.);

(iii) Written consent of the resident or the resident's legal representative to use the specific type of physical restraint;

(iv) The use of any type of physical restraint must be recorded on the resident's care plan showing why and when the restraint is to be used, along with instructions for periodic release. Any less restrictive, alternative measures planned during the assessment and cautions for maintaining safety while restrained must also be recorded on the care plan; and

(v) The reassessments completed by a medical professional according to section (5)(m)(C) above.

(E) **DAYTIME USE.** Residents physically restrained during waking hours must have the restraints released at least every two hours for a minimum of 10 minutes and be repositioned, offered toileting, exercised, or provided range-of-motion exercises during this period.

(F) **NIGHTTIME USE.** The use of physical restraints at night is discouraged and must be limited to unusual circumstances. If used, the restraint shall be of the design to allow freedom of movement with safety. The frequency of night monitoring to address resident safety and care needs must be determined in the assessment. Tie restraints of any kind may not be used to keep a resident in bed.

(G) If any physical restraints are used in an adult foster home, they must allow for quick release at all times. Use of restraints may not impede the three-minute evacuation of all household members.

(H) Physical restraints may not be used for the discipline of a resident or for the convenience of the adult foster home.

(6) RESIDENT CARE.

(a) Care and supervision of residents must be in a home-like atmosphere and must be appropriate to the needs, preferences, age, and condition of the individual resident. The training of the licensee and staff must be appropriate to the age, care needs, and condition of the residents. (See OAR 411-050-0440(1)(g)) Additional staff may be required if day care or respite residents are in the home.

(b) If a resident has a medical regimen or personal care plan prescribed by a licensed health care professional, the provider must cooperate with the plan and ensure that it is implemented as instructed.

(c) **NOTIFICATION.** The licensee must notify emergency personnel, the resident's physician, registered nurse, family representative, and case manager, as applicable, under the following circumstances:

(A) **EMERGENCIES (MEDICAL, FIRE, POLICE).** In the event of an emergency, the licensee or other caregiver with the resident at the time

of the event must first call 911 or the appropriate emergency number for their community. This does not apply to residents with medical emergencies who practice Christian Science. Caregivers must follow written instructions from the hospice nurse, if applicable. If the resident has a completed Physician's Orders for Life Sustaining Treatment (POLST) form, or other legal documents such as an Advance Directive for Health Care and Do Not Resuscitate (DNR) orders, copies must be available to the emergency personnel when they arrive.

(B) **HOSPITALIZATION.** In the event the resident is hospitalized.

(C) **HEALTH STATUS CHANGE.** When the resident's health status or physical condition changes.

(D) **DEATH.** Upon the death of the resident.

(d) Licensees shall not inflict, or tolerate to be inflicted, abuse or punishment, financial exploitation, or neglect of residents.

(e) Licensees must exercise reasonable precautions against any conditions that could threaten the health, safety, or welfare of residents.

(f) A qualified caregiver must always be present and available at the home when residents are in the home. A resident may not be left in charge in lieu of a caregiver.

(g) **ACTIVITIES.** Licensees must make available at least six hours of activities per week which are of interest to the residents, not including television and movies. (Information regarding activity resources is available from the Division). Activities must be oriented to individual preferences as indicated in the resident's care plan (See section (3)(a)(J) of this rule). Documentation of each resident's activity participation must be recorded in the resident's records.

(h) **DIRECT INVOLVEMENT OF CAREGIVERS.** Licensees or caregivers must be directly involved with residents on a daily basis. If the physical characteristics of the adult foster home do not encourage contact between caregivers and residents and among residents, the licensee must demonstrate how regular positive contact shall occur.

(i) **RESIDENT MONEY.** If the licensee manages or handles a resident's money, a separate account record must be maintained in the resident's name. The licensee may not under any circumstances commingle, borrow from, or pledge any funds of a resident. The licensee may not act as a resident's guardian, conservator, trustee, or attorney-in-fact unless related by birth, marriage, or adoption to the resident as follows: parent, child, brother, sister, grandparent, grandchild, aunt, uncle, niece, or nephew. Nothing in this rule shall be construed to prevent a licensee or a licensee's employee from acting as a representative payee for the resident. (See also OAR 411-020-0001(3)(e))

(A) Personal incidental funds (PIF) for Department clients must be used at the discretion of the client for such things as clothing, tobacco, and snacks (not part of daily diet).

(B) Licensees and other caregivers may not accept gifts from residents through undue influence or accept gifts of substantial value. Caregivers and family members of caregivers may not accept gifts of substantial value or loans from the resident or the resident's family. Licensees or other caregivers may not influence, solicit from, or suggest to any of the residents or their representatives that the residents or their representatives give the caregiver or the caregiver's family money or property for any purpose.

(C) The licensee may not subject the resident or the resident's representative to unreasonable rate increases.

(j) Licensees and other caregivers may not loan money to residents.

(7) **RESIDENTS' BILL OF RIGHTS.** Licensees, their families, and employees of the home must guarantee not to violate these rights and to help the residents exercise them. The Residents' Bill of Rights provided by the Division must be explained and a copy given to residents at admission. The Residents' Bill of Rights states each resident has the right to:

(a) Be treated as an adult with respect and dignity;

(b) Be informed of all resident rights and all house policies;

(c) Be encouraged and assisted to exercise constitutional and legal rights, including the right to vote;

(d) Be informed of their medical condition and the right to consent to or refuse treatment;

(e) Receive appropriate care and services and prompt medical care as needed;

(g) Complete privacy when receiving treatment or personal care;

(h) Associate and communicate privately with any person of choice and send and receive personal mail unopened;

(i) Have access to and participate in activities of social, religious, and community groups;

(j) Have medical and personal information kept confidential;

ADMINISTRATIVE RULES

(k) Keep and use a reasonable amount of personal clothing and belongings, and to have a reasonable amount of private, secure storage space;

(l) Be free from chemical and physical restraints except as ordered by a physician or other qualified practitioner. Restraints are used only for medical reasons, to maximize a resident's physical functioning, and after other alternatives have been tried. Restraints are not used for discipline or convenience;

(m) Manage their own financial affairs unless legally restricted;

(n) Be free from financial exploitation. The licensee may not charge or ask for application fees or non-refundable deposits or solicit, accept, or receive money or property from a resident other than the amount agreed to for services;

(o) A written agreement regarding services to be provided and the rates to be charged. The licensee must give 30 days' written notice before any change in the rates or the ownership of the home;

(p) Not be transferred or moved out of the adult foster home without 30 calendar days' written notice and an opportunity for a hearing. A licensee may transfer a resident only for medical reasons or for the welfare of the resident or other residents, or for nonpayment;

(q) A safe and secure environment;

(r) Be free of discrimination in regard to race, color, national origin, gender, sexual orientation, or religion; and

(s) Make suggestions or complaints without fear of retaliation.

(c) LAW ENFORCEMENT AGENCY. The local law enforcement agency must be called first when the suspected abuse is believed to be a crime (e.g., rape, murder, assault, burglary, kidnapping, theft of controlled substances, etc.).

(2) IMMUNITY AND PROHIBITION OF RETALIATION.

(a) The licensee may not retaliate against any resident after the resident or someone acting on the resident's behalf has filed a complaint in any manner including but not limited to:

(A) Increasing or threatening to increase charges;

(B) Decreasing or threatening to decrease services;

(C) Withholding rights or privileges;

(D) Taking or threatening to take any action to coerce or compel the resident to leave the facility; or

(c) Anyone who, in good faith, reports abuse or suspected abuse shall have immunity, as approved by law, from any civil liability that might otherwise be incurred or imposed with respect to the making or content of an abuse complaint.

(3) Immunity under this section does not protect self-reporting licensees from liability for the underlying conduct that is alleged in the complaint.

(4) The Division shall furnish each adult foster home with a Complaint Notice which states the telephone number of the Division, the Long-Term Care Ombudsman, and the procedure for making complaints.

(5) Any person who believes these rules have been violated may file a complaint with the Division.

(6) The Division shall investigate complaints in accordance with the adult protective services rules in OAR chapter 411, division 20.

(8) NOTIFICATION OF FINDINGS. The Division, through its local offices, shall provide, by written communication or electronic mail, a copy of the preliminary investigation report to the licensee and complainant within seven business days of the completion of the investigation:

(a) The report shall be accompanied by a notice informing the licensee and complainant of their right to give additional information about the content of the report to the Division's local office within 10 calendar days of receipt of the report.

(b) The Division's local office shall review the responses and reopen the investigation or amend the report if the additional evidence warrants a change.

(c) A copy of the entire report shall be sent to the Division upon completion of the investigation report, whether or not the investigation report concludes the complaint is substantiated or wrongdoing occurred.

(9) Upon completion of substantiation of abuse or rule violation, the Division shall immediately provide written notification of its findings to the licensee.

(a) CONTENT. The written notice shall:

(A) Explain the nature of each allegation;

(F) State that the complainant, any person reported to have committed wrongdoing, and the facility have 15 calendar days to provide additional or different information; and

(G) For each allegation, explain the applicable appeal rights available.

(b) APPORTIONMENT. If the Division determines there is substantiated abuse, the Division may determine that the licensee, an individual, or both the licensee and an individual were responsible for abuse. In determining responsibility, The Division shall consider intent, knowledge and ability to control, and adherence to professional standards, as applicable.

(A) LICENSEE RESPONSIBLE. Examples of when the Division shall determine the licensee is responsible for the abuse include but are not limited to the following:

(iii) Callous disregard for resident rights or safety; or

(iv) Intentional acts against a resident's property (e.g., theft or misuse of funds).

(C) An individual shall not be considered responsible for the abuse if the individual demonstrates the abuse was caused by factors beyond the individual's control. "Factors beyond the individual's control" are not intended to include such factors as misuse of alcohol or drugs or lapses in sanity.

Procedures for Correction of Violations

(1) If, as a result of an inspection or investigation, the Division determines that abuse has occurred, the licensee shall be notified verbally to immediately cease the abusive act. The Division shall follow-up with a written confirmation of the warning to cease the abusive act and shall include notification that further sanctioning may be imposed.

(2) If an inspection or investigation indicates a violation of these rules other than abuse, the Division shall notify the licensee of the violation in writing.

(3) The notice of violation may not include information that may be used to identify a resident in accordance with OAR 411-020-0030, Confidentiality, and federal HIPAA Privacy Rules. Notices placed in the public file must be in compliance with OAR 411-050-0450(10) and must include the following:

(a) A description of each condition that constitutes a violation;

(b) Each rule that has been violated;

(c) A specific time frame for correction, not to exceed 30 calendar days after receipt of the notice. The Division may approve a reasonable time in excess of 30 calendar days if correction of the violation within that time frame is not practical. If the licensee requests more than 30 calendar days to correct the violation, such time will be specified in the licensee's plan of correction and found acceptable by the Division;

(d) Sanctions that may be imposed against the home for failure to correct the violation;

(e) The right of the licensee to contest the violation if an administrative sanction is imposed; and

(f) The right of the licensee to request an exception as provided in OAR 411-050-0430.

(4) At any time after receipt of a notice of violation or an inspection report, the applicant, the licensee, or the Division may request a meeting. The meeting shall be scheduled within 10 business days of a request by either party.

(a) The purpose of the meeting is to discuss the violation stated in the notice of violation, provide information, and to assist the applicant or licensee in achieving compliance with the requirements of these rules.

(b) The request for a meeting by an applicant, licensee, or the Division may not extend any previously established time frame for correction.

(5) The applicant or licensee must notify the Division of correction of the violation no later than the date specified in the notice of violation.

(6) The Division may conduct a reinspection of the home after the date the Division receives the report of compliance, or after the date by which the violation must be corrected as specified in the notice of violation.

(7) For violations that present an imminent danger to the health, safety, or welfare of residents, the licensee must correct the violation and abate the conditions no later than 24 hours after receipt of the notice of violation. The Division may inspect the home after the 24-hour period to determine if the violation has been corrected as specified in the notice of violation.

(8) If residents are in immediate danger, the licensee may be immediately suspended and arrangements made to move the residents.

(9) If, after inspection of a home, the violations have not been corrected by the date specified in the notice of violation or if the Division has not received a report of compliance, the Division may institute one or more administrative sanctions.

Application for Initial Licensure and License Renewal

(1) APPLICATION. Applicants for initial licensure and license renewal must complete an application on a form provided by the Division. The form must be signed by the applicant's legally authorized representative, dated, contain all information requested by the Division, and be accompanied by the required licensing fee.

(a) Applicants must provide all information and documentation as required by the Division including but not limited to identity financial interest of any person, including stockholders who have an incident of ownership in the applicant representing an interest of 10 percent or more, or 10 percent of a lease agreement for the facility.

(b) If the owner of the assisted living or residential care facility is a different entity from the operator or management company of the facility, both the operator and the owner must complete an application for licensure. Only one license fee is required.

(c) The application shall require the identification of any individual with 10 percent incident of ownership that has ever been convicted of a crime associated with the operation of a long-term, community-based, or health care facility or agency under federal law or the laws of any state.

(d) The application shall require the identification of all states where the applicant, or person having a 10 percent or more incident of ownership in the facility, currently or previously has been licensed as owner or opera-

ADMINISTRATIVE RULES

tor of a long-term, community-based, or health care facility or agency under the laws of any state including any facility, currently or previously owned or operated, that had its license denied or revoked or received notice of the same under the laws of any state.

(e) The Division may deny, revoke, or refuse to renew the license if the applicant fails to provide complete and accurate information on the application and the Division concludes that the missing or corrected information is needed to determine if a license should be granted.

(f) Each application for a new license (excludes license renewal) must include a completed and signed credit history and criminal records request form for the applicant and for each person with 10 percent incident of ownership in the applicant.

(g) The Division may require financial information as stated in OAR 411-054-0016(3) (New Applicant Qualifications), when considering an applicant's request for renewal of a license.

(2) LICENSE RENEWAL. Application for a license renewal must be made at least 45 days prior to the expiration date of the existing license. Filing of an application for renewal and payment of the required non-refundable fee before the date of expiration extends the effective date of expiration until the Division takes action upon such application.

(a) The Division shall refuse to renew a license if the facility is not substantially in compliance with all applicable laws and rules or if the State Fire Marshal or authorized representative has given notice of noncompliance.

(b) An applicant for license renewal must provide the Division with a completed criminal records request form for the applicant and for each person with incident of ownership in the applicant when required by the Division.

Statement of Purpose

The rules in OAR chapter 411, division 360 prescribe the standards and procedures for the licensure and provision of care and services to individuals in Department of Human Services' adult foster homes for individuals with developmental disabilities (AFH-DD) in a homelike environment that is safe and secure. The goal of the AFH-DD is to provide necessary care while emphasizing the individual's independence. This goal is reached through a cooperative relationship between the provider, the individual, the individual's guardian if applicable, and the community developmental disability program in a setting that protects and encourages the individual's independence, dignity, choice, and decision making. The individual's needs are to be addressed in a manner that supports and enables the individual to function at the highest level of independence possible.

General Practices

The provider must:

- (1) Conspicuously post the state license where it can be seen by individuals;

ADMINISTRATIVE RULES

(2) Explain and document in the individual's file that a copy of the Individual's Bill of Rights is given to each individual at admission, and is posted in a conspicuous place including the name and phone number of the office to call in order to report complaints;

(3) Develop written house rules regarding hours, visitors, use of tobacco, alcohol, use and presence of medical marijuana, meal times, use of telephones and kitchen, monthly charges and services to be provided, and policies on refunds in case of departure, hospitalization, or death. House rules must be discussed with individuals and their families at the time of admission, reviewed annually, and be posted in a conspicuous place in the AFH-DD. House rules are subject to review and approval by the Division or the Division's designee and may not violate individual's rights as stated in ORS 430.210, 443.739, and OAR 411-360-0170(9)(a-s). If the individual intends to use medical marijuana in the AFH-DD, the individual's record must include the home's medical marijuana house rules signed and dated by the individual or the individual's legal representative;

(4) Cooperate with Department personnel or the Department's designee in complaint investigation procedures, abuse investigations and protective services, planning for individual care, application procedures, and other necessary activities, and allow access of Department personnel, or the Department's designee, to the AFH-DD, its individuals, and all records;

(5) Give care and services, as appropriate to the age and condition of the individuals, and as identified in the ISP. The provider must be responsible for ensuring that physicians' orders and those of other medical or health professionals are followed, and that the individual's physicians and other health professionals are informed of changes in health status and if the individual refuses care;

(6) In the provider's absence, have a substitute caregiver on the premises who can provide care or services as required by the age and condition of the individuals. An AFH-DD service recipient may not be a substitute caregiver. For provider absences beyond 72 hours, the CDDP must be notified of the name of the caregiver;

(7) A provider, resident manager, or caregiver must be present in the home at all times individuals are present, unless specifically stated in the ISP, and granted as a variance by the Division;

(8) Allow individuals to exercise all civil and human rights accorded to other citizens;

(9) Not allow or tolerate physical, sexual, or emotional abuse or punishment, exploitation, or neglect of individuals;

(10) Provide care and services as agreed to in the ISP;

(11) Keep information related to individuals confidential as required under ORS 179.050;

(12) Assure that the number of individuals requiring nursing care does not exceed the provider's capability as determined by the CDDP and Division;

(13) Not admit individuals without developmental disabilities prior to the express permission of the Division or the Division's designee. The provider must notify the CDDP prior to admitting an individual not referred for placement by the CDDP;

(14) Notify the Division and CDDP prior to announcing a planned closure to individuals and families. The provider must give individuals, families, and the CDDP staff 30 days written notice of the planned change except in circumstances where undue delay might jeopardize the health, safety, or well-being of individuals, providers, or caregivers. If a provider has more than one AFH-DD, individuals may not be shifted from one AFH-DD to another without the same period of notice unless prior approval is given and agreement obtained from individuals, family members, and the CDDP;

(15) Exercise reasonable precautions against any conditions that may threaten the health, safety, or welfare of individuals;

(16) Immediately notify the appropriate ISP team members (in particular the services coordinator and family or guardian) of any unusual incidents that include the following:

- (a) Any significant change in medical status;
- (b) An unexplained or unanticipated absence from the AFH-DD;
- (c) Any alleged or actual abuse of the individual;
- (d) Any major behavioral incident, accident, illness, or hospitalization;

- (e) If the individual contacts or is contacted by the police; or
- (f) The individual dies.

(17) Write an incident report for any unusual incident and forward copy of the incident report to the CDDP within five working days of the incident unless the incident must be referred immediately for a protective services investigation. Copies of incident reports not involving a protective

services investigation must be provided to the guardian or personal agent, when applicable; and

(18) Notify the Division and the Division's designee within 24 hours upon a change in the business address for electronic mail and the telephone number for the provider and the AFH-DD.

(b) Individuals who object to the transfer by the AFH-DD provider must be given the opportunity for hearing as provided in ORS 443.738(1)(b) and OAR 411-088-0080. Participants may include the individual, and at the individual's request, the provider, a family member, and the CDDP. If a hearing is requested to appeal a transfer, the individual must continue to receive the same services until the appeal is resolved.

(7) RESPITE. Providers may not exceed the licensed capacity of their AFH-DD. However, respite care of no longer than 14 days duration may be provided to one or more individuals if the addition of the respite individual does not cause the total number of individuals to exceed five. Thus, a provider may exceed the licensed number of individuals by one or more respite individuals, for 14 days or less, if approved by the CDDP or the Division, and:

(a) If the total number of individuals does not exceed five;

The provider must give at least 30 days written notice to an individual, the CDDP services coordinator, and the Department or the Department's designee before termination of residency, except where undue delay might jeopardize the health, safety, or well-being of the individual or others. If an individual requests a hearing to appeal the exit from an AFH-DD, the individual must receive the same services until the grievance is resolved.

(b) The provider must promptly notify the CDDP in writing if an individual gives notice or plans to leave the AFH-DD or if an individual abruptly leaves. An individual is not required to give notice to an AFH-DD provider if they choose to exit the AFH-DD.

General Provisions

(1) ORS 25.270 through ORS 25.280 require that child support be calculated according to a formula. The formula is known as the "Oregon Child Support Guidelines" and is contained in OAR 137-050-0700 through

OAR 137-050-0765 and in the "Obligation Scale" which is located in the appendix.

(2) Any change to the guidelines applies to all judicial or administrative actions which are pending as of the date of the change or initiated thereafter.

(3) Changes to these rules do not constitute a substantial change in circumstances for purposes of modifying a support order.

(4) "Pending" as used in section (2) means any matter that has been initiated before the effective date of a rule change but requires amendment, modification or hearing before a final judgment can be entered.

(5) The method of calculating child support described in OAR 137-050-0710 presumes that a child lives with one parent and an order is sought to determine the support obligation between the child's parents. When a child does not reside with either parent and an order is sought to reimburse a third party for support of the child, follow OAR 137-050-0710 with the following exceptions: calculate each obligated parent's support obligation separately, using the obligated parent's information and the caretaker's child care costs, if any. For the other parent in the calculation, use the same amounts shown for the obligated parent's income, spousal support, union dues and number of additional children.

137-050-0710

Calculating Support

(1) Apply standard rules of rounding to perform a child support calculation under the guidelines. Round to the hundredth place (two decimal places). For example, if the number beyond the one to be used is less than five, round the number down (2.443 becomes 2.44). If the number beyond the one to be used is equal to or greater than five, round up (2.445 becomes 2.45).

(2) Although reliable and comprehensive data is not available for costs of children between the ages of 18 and 21, the guidelines are used to calculate appropriate support amounts for a child attending school as defined in ORS 107.108. The presumption that the amounts are appropriate may be rebutted under OAR 137-050-0760.

(3) Determine an appropriate amount of support by following the steps in sections (4) through (16).

(4) Determine each parent's income as defined in OAR 137-050-0715.

(5) Determine each parent's adjusted income, as provided in OAR 137-050-0720.

(6) Determine each parent's income share by dividing the total combined income into each parent's individual adjusted income.

(7) Determine the basic support obligation and the parents' shares, as provided in OAR 137-055-0725.

(8) Determine parenting time credit, if any, as provided in OAR 137-050-0730.

(9) Determine each parent's costs for child care, as provided in OAR 137-050-0735.

(10) Determine the credit to be applied to the support obligation as a result of any Social Security or veterans' benefits as provided in OAR 137-050-0740.

(11) Determine each parent's support obligation before medical support by adding the parent's basic support obligation, subtracting the parenting time credit, adjusting for child care expenses, and subtracting the amount of credit given for Social Security or veterans' benefits. If the total is less than zero, use zero.

(12) Determine each parent's support obligation after application of the self-support reserve as provided in OAR 137-050-0745. Round the result to the nearest dollar.

(13) Determine each parent's medical support obligation, as provided in OAR 137-050-0750. Round the result to the nearest dollar.

(14) Determine whether the provisions of OAR 137-050-0755 (minimum order) apply, and if appropriate, enter the amount of the minimum order.

(15) If the support amount is unjust or inappropriate, as authorized in ORS 25.280, apply any appropriate rebuttal as provided in OAR 137-050-0760. Round the result to the nearest dollar.

(16) Determine whether an agreed support amount is appropriate as provided in OAR 137-050-0765.

ADMINISTRATIVE RULES

137-050-0715

Income

(1) "Income" means the actual or potential gross income of a parent, as determined in this rule.

(2) "Actual income" means all earnings and income from any source, except as provided in section (4). Actual income includes but is not limited to:

(a) Employment-related income including salaries, wages, commissions, advances, bonuses, dividends, severance pay, pensions, and honoraria;

(b) Return on capital, such as interest, trust income and annuities;

(c) Income replacement benefit payments including Social Security benefits, workers' compensation benefits, unemployment insurance benefits, disability insurance benefits;

(d) Gifts and prizes, including lottery winnings;

(e) Income from self-employment, rent, royalties, proprietorship of a business, or joint ownership of a partnership or closely held corporation, minus costs of good sold, minus ordinary and necessary expenses required for self-employment or business operation. Specifically excluded from ordinary and necessary expenses are amounts allowable by the Internal Revenue Service for the accelerated component of depreciation expenses, investment tax credits, or any other business expenses determined by the fact finder to be inappropriate or excessive for determining gross income; and

(f) Expense reimbursements or in kind payments received by a parent in the course of employment, self employment, or operation of a business are income to the extent they reduce personal living expenses.

(3) To determine average monthly income when wages are paid weekly, multiply the weekly earnings by 52 and divide by 12. To determine average monthly income when wages are paid every two weeks, multiply the bi-weekly income earnings by 26 and divide by 12.

(4) Child support, adoption assistance, guardianship assistance, and foster care subsidies are not considered income for purposes of this calculation.

(5) "Potential income" means the greater of:

(a) The parent's probable full-time earnings level based on employment potential, relevant work history, and occupational qualifications in light of prevailing job opportunities and earnings levels in the community; or

(b) The amount of income a parent could earn working full-time at the current state minimum wage.

(6) Income is presumed to be the amount determined as potential income in the following scenarios:

(a) An unemployed parent;

(b) A parent employed on less than a full-time basis;

(c) A parent with income less than Oregon minimum wage for full-time employment; or

(d) A parent with no direct evidence of any income.

(7) Income is presumed to be the parent's actual income in the following scenarios.

(a) A parent working full-time at or above the state minimum wage;

(b) A parent unable to work full-time due to a verified disability;

(c) A parent receiving workers' compensation benefits;

(d) An incarcerated obligor as defined in OAR 137-055-3300; or

(e) When performing a calculation for a temporary modification pursuant to ORS 416.425(13), except as provided in section (9) of this rule.

(8) The presumptions in sections (6) and (7) of this rule may be rebutted by a finding that the presumption is inappropriate in light of the parent's probable full-time earnings level based on employment potential, relevant work history, and occupational qualifications in light of prevailing job opportunities and earnings levels in the community.

(9) Notwithstanding any other provision of this rule, if the parent is a recipient of Temporary Assistance for Needy Families, the parent's income is presumed to be the amount which could be earned by full-time work at the current state minimum wage. This income presumption is solely for the purposes of the support calculation and not to overcome the rebuttable presumption of inability to pay in ORS 25.245.

(10) As used in this rule, "full-time" means 40 hours of work in a week except in those industries, trades or professions in which most employers, due to custom, practice or agreement, utilize a normal work week of more or less than 40 hours in a week.

137-050-0730

Parenting Time Credit

(1) For the purposes of this rule, "split custody" means that there are two or more children and each parent has at least one child more than 50 percent of the time.

(2) If there is a current written parenting time agreement or court order providing for parenting time, the percentage of overall parenting time for each parent must be calculated as follows:

(a) Determine the average number of overnights using two consecutive years.

(b) Multiply the number of children by 365 to arrive at a total number of child overnights. Add together the total number of overnights the parent is allowed with each child and divide the parenting time overnights by the total number of child overnights.

(c) Notwithstanding the calculation provided in subsections (2)(b) and (2)(c), the percentage of parenting time may be determined using a method other than overnights if the parents have an alternative parenting time schedule in which a parent has significant time periods where the child is in the parent's physical custody but does not stay overnight. For example, in lieu of overnights, 12 continuous hours may be counted as one day. Additionally, four-hour up to 12-hour blocks may be counted as half-days, but not in conjunction with overnights. Regardless of the method used, blocks of time may not be used to equal more than one full day per 24-hour period.

(3) If the parents have split custody but no written parenting time agreement, determine each parent's percentage share of parenting time by dividing the number of children with the parent by the total number of children.

(4) If there is no written parenting time agreement or court order providing for parenting time, the parent or party having primary physical custody will be treated as having 100 percent of the parenting time, unless a court or administrative law judge determines actual parenting time.

(5) If the court or administrative law judge determines actual parenting time exercised by a parent is different than what is provided in a written parenting plan or court order, the percentage of parenting time may be calculated using the actual parenting time exercised by the parent.

(6) If each parent's parenting time is at least 25 percent, or the child resides with a caretaker or is in the care of a state agency and the obligated parent has at least 25 percent parenting time, a parenting time credit will be calculated as follows:

(a) Multiply the combined basic child support obligation by 1.5 (150 percent); and

(b) Except as provided in subsection (c), multiply each parent's percentage share of parenting time by the combined basic child support obligation in subsection (a). The result is the amount of credit to be subtracted from the obligation determined in subsection (a) for each parent;

(c) If the child resides with a caretaker or is in the care of a state agency, multiply the obligated parent's percentage share of parenting time by the combined basic child support obligation in subsection (a). The result is the amount of credit to be subtracted from the obligation determined in subsection (a).

(7) The parenting time credit is applied to the entire support obligation, including any support obligation for a child attending school.

Rebuttals

(1) The presumed support amount may be rebutted by a finding that sets out the presumed amount, concludes that this amount is unjust or inappropriate, and states the reason the presumed amount is unjust or inappropriate. The rebuttal factors may be applied by adjusting the income of a parent, the costs for the child or the presumed support amount. The rebuttal factors include but are not limited to:

(a) Evidence of the other available resources of the parent;

(b) The reasonable necessities of the parent;

(c) The net income of the parent remaining after withholding required by law or as a condition of employment;

(d) A parent's ability to borrow;

(e) The number and needs of other dependents of a parent;

Requests for Hearing

(1) A request for hearing must be in writing and signed by the party, the party's authorized representative, or the administrator.

(2) A request for hearing may be made on a form provided by the Child Support Program (CSP) and must contain the party's residence, mailing or contact address, a telephone number where the party can be contacted and the reasons for objection to the contested case notice.

(3) A request for hearing must be received by the CSP office which issued the action within the time provided by law or notice in order to be considered timely.

(4) A new or amended request for hearing is not required from the requesting party to obtain a hearing if the administrator amends the order being appealed, unless the administrator notifies the requesting party that an additional request is required.

(5) When a party requests a hearing after the time specified by the administrator, the administrator will handle the request pursuant to OAR 137-003-0528, except that the administrator may accept the late request only if:

(a) The request is received before or within 60 days after entry of a final order by default;

(b) The circuit court has not approved the final order or there is no appeal of the final order pending with the circuit court, and

(c) The cause for failure to timely request the hearing was beyond the reasonable control of the party, unless other applicable statutes or Oregon Child Support Program administrative rules provide a different time frame or standard.

(6) Notwithstanding the provisions of section (5) of this rule, a request for hearing is not considered a late hearing request when:

(a) Parentage testing has been conducted pursuant to ORS 109.252 and 416.430 which includes the man as the biological father of the child, and a request for hearing has been received from a party within 30 days from the date of service of the Notice of Intent to Enter Order/Judgment establishing paternity and the notice of parentage testing results; or

(b) A party has denied paternity and failed to appear for parentage tests, an order establishing paternity has been entered, and a request for hearing has been received from a party within 14 days from the date the order establishing paternity was mailed to the parties.

(7) For the purpose of computing any period of time under this rule, except as otherwise provided, any response period begins to run on the following date:

(a) If service is by certified mail, on the date the party signs a receipt for the mailing;

(b) If service is by regular mail:

(A) Three days after the mailing date if mailed to an address in Oregon;

(B) Seven days after the mailing date if mailed to an address outside Oregon; or

(c) The date evidence shows the party received the mailing.

(8) Except as provided in subsection (9)(b) the dates in section (7) are computed based on calendar days, not business days.

(9)(a) In computing any period of time under this rule, do not count the date of mailing as the first day; and

(b) If the last day falls on a Saturday, Sunday or legal holiday, do not count that day as a calendar day.

(10) The provisions of sections (7) through (9) do not apply to service on a party by regular mail to complete substitute service. For substitute service, the service date is the date the document is mailed.

Confidentiality — Finding of Risk and Order for Nondisclosure of Information

(1) For the purposes of this rule in addition to the definitions found in OAR 137-055-1020, the following definitions apply:

(a) "Claim of risk for nondisclosure of information" means a claim by a party to a paternity or support case made to the administrator, an administrative law judge or the court that there is reason to not contain or disclose the information specified in OAR 137-055-1140(6)(a) because the health, safety or liberty of a party or child would unreasonably be put at risk by disclosure of such information;

(b) "Finding of risk and order for nondisclosure of information" means a finding and order by the administrator, an administrative law judge or the court, which may be made ex parte, that there is reason to not contain or disclose the information specified in OAR 137-055-1140(6)(a) because the health, safety or liberty of a party or child would unreasonably be put at risk by disclosure of such information.

(2) A claim of risk for nondisclosure of information may be made to the administrator by a party at any time that a child support case is open. Forms for making a claim of risk for nondisclosure of information will be available from all child support offices and be made available to other community resources. At the initiation of any legal process that would result in a judgment or administrative order establishing paternity or including a provision concerning support, the administrator will provide parties an opportunity to make a claim of risk for nondisclosure of information.

(3)(a) When a party makes a written and signed claim of risk for nondisclosure of information pursuant to section (2) of this rule, the administrator will make a finding of risk and order for nondisclosure of information unless the party does not provide a contact address pursuant to section (5) of this rule;

(b) When a party is accepted into the Address Confidentiality Program (ACP), the administrator will make a finding of risk and order for

ADMINISTRATIVE RULES

nondisclosure of information. The party's contact address will be the ACP substitute address designated by the Attorney General pursuant to OAR 137-079-0150.

(4) An administrative law judge will make a finding of risk and order for nondisclosure of information when a party makes a claim of risk for nondisclosure of information in a hearing unless the party does not provide a contact address pursuant to section (5) of this rule.

(5) A party who makes a claim of risk for nondisclosure of information under subsection (3)(a) or section (4) must provide a contact address that is releasable to the other party(ies) in legal proceedings. The claim of risk for nondisclosure of information form provided to the party by the administrator must have a place in which to list a contact address. If a requesting party does not provide a contact address, a finding of risk and order for nondisclosure of information will not be made.

(6) When an order for nondisclosure of information has been made, the administrator must ensure that all pleadings, returns of service, orders or any other documents that would be sent to the parties or would be available as public information in a court file does not contain or must have deleted any of the identifying information specified in OAR 137-055-1140(6)(a). Any document sent to the court that contains any of the information specified in OAR 137-055-1140(6)(a) must be in a sealed envelope with a cover sheet informing the court of the confidential nature of the contents or in the manner provided by UCR 2.130.

(7) A finding of risk and order for nondisclosure of information entered pursuant to this rule will be documented on the child support case file and will remain in force until such time as the ACP participant or party who requested a claim of risk retracts the claim or requests dismissal in writing.

(8) A party who requested a claim of risk may retract the claim on a form provided by the administrator. When a signed retraction form is received by the administrator, the administrator will enter, or will ask the court to enter, a finding and order terminating the order for nondisclosure of information.

(9) Any information previously protected under an order for nondisclosure of information will be subject to disclosure when the order for nondisclosure of information is terminated. The retraction form provided by the administrator will advise the requestor that previously protected information may be released to the other party(ies).

(10) In cases where the administrator is not involved in the preparation of the support order or judgment establishing paternity, or when child support services under ORS 25.080 are not being provided, any claim of risk for nondisclosure of information pursuant to ORS 25.020 must be made to the court.

(11) Notwithstanding section (5) of this rule, where the court has made a finding of risk and order for nondisclosure of information and the case is receiving or subsequently receives child support services pursuant to ORS 25.080, the administrator will implement the court's finding pursuant to this rule. In such a case, the administrator will use, in order of preference, the party's contact address as contained in the court file, or the party's contact address previously provided to the Child Support Program. If no contact address is available through either of these sources, the administrator will send a written request to the party, asking that the party provide a contact address. The written request from the administrator must advise the party that if no contact address is provided within 30 days, the administrator will use, in order of preference, the party's mailing or residence address as the contact address, and the new contact address may be released to the other party(ies).

Substantial Change in Circumstance Review and Modification of Child Support Order Amounts

(1) For purposes of this rule:

(a) The definitions provided in ORS 25.321, OAR 137-050-0750 and 137-055-3420 apply;

(b) A "temporary modification" is an order entered under ORS 416.425(13), which suspends and temporarily modifies a support order based on a party's employment-related change of income; and

(c) "Employment-related change of income" includes but is not limited to reduced work hours, unpaid furloughs, loss of job and wage reductions. Employment-related change of income does not include a voluntary reduction of income or self-imposed curtailment of earning capacity, if it is shown that such action was not taken in good faith but was for the primary purpose of avoiding the support obligation. A party's employment-related change of income is considered to take place "during a period of significant unemployment" even if the change occurred prior to the Attorney General's determination under ORS 416.425(13)(b), as long as the effects of the employment-related change of income continue into the time period covered by the determination.

(2) Notwithstanding OAR 137-055-3420, proceedings may be initiated at any time to review and modify a support obligation based upon a substantial change in circumstance.

(3) The administrator will conduct a review based upon a request for a change of circumstance modification when:

(a) Oregon has jurisdiction to modify;

(b) The administrator:

(A) Receives a request for modification based upon a change of circumstance and at least 60 days have passed from the date the existing support order was entered, except for those cases where a review is requested pursuant to paragraphs (3)(c)(H) or (I);

(B) Determines that a temporary modification should be initiated based on receipt of a request from a party who has experienced an employment-related change of income; or

(C) Determines that a modification should be initiated based on the administrator's own motion; and

(c) At least one of the following criteria are met:

(A) A change in the written parenting time agreement or order has taken place;

(B) The financial or household circumstances of one or more of the parties are different now than they were at the time the order was entered;

(C) Social Security benefits received on behalf of a child due to a parent's disability or retirement were not previously considered in the order or they were considered in an action initiated before May 12, 2003;

(D) Veterans' benefits received on behalf of a child due to a parent's disability or retirement were not previously considered in the order or they were considered in an action initiated before May 12, 2003;

(E) Survivors' and Dependents' Education Assistance benefits received by the child or on behalf of the child were not previously considered in the order;

(F) Since the date of the last order, the obligor has been incarcerated, as defined in OAR 137-055-3300;

(G) The needs of the child(ren) have changed;

(H) There is a need to add or change medical support provisions for a child;

(I) A change in the physical custody of a minor child has taken place;

(J) An order is being modified to include a subsequent child of the parties or to remove a child of the parties; or

(K) A child between 18 and 20 years old does not qualify as a child attending school under ORS 107.108 and OAR 137-055-5110 and, pursuant to ORS 107.108(10), tiered order provisions must be added, removed or changed. Tiered order has the meaning given in OAR 137-055-1020.

(d) And the requesting party (if other than the administrator):

(A) Completes a written or verbal request for modification based upon a substantial change of circumstance;

(B) Pursuant to ORS 416.425, provides appropriate documentation for the criteria in subsection (c) of this section showing that a substantial change of circumstance has occurred; and

(C) Completes a Uniform Income Statement or Uniform Support Affidavit or, if a temporary modification, provides employment status and

ADMINISTRATIVE RULES

income information sufficient to permit the administrator to have a reasonable basis to make a determination.

(4) Sections (5) through (9) do not apply to temporary modifications.

(5) Upon receipt of a request for a review and modification, or upon the administrator's own initiative, the administrator will notify the parties of the review in writing, allowing the parties 30 days to provide information which may affect the support calculation.

(6) A request for review will be granted unless:

(a) The conditions in section (3) have not been met; or

(b) The review was requested due to one of the criteria in paragraphs (3)(c)(A) through (3)(c)(G), and the order is in substantial compliance with the guidelines. The determination of substantial compliance will be made as outlined in OAR 137-055-3420(1)(d), except as provided in section (7).

(7) The provisions of subsection (6)(b) do not apply if the new calculation:

(a) Includes consent by the parties as provided in OAR 137-050-0765;

(b) Includes compelling factors in the reasonable-in-cost limitation, as provided in OAR 137-050-0750(2)(a);

(c) Includes application of rebuttals, as provided in OAR 137-050-0760; or

(d) Is for a modification to consider receipt of Social Security or Veterans' benefits as provided in paragraphs (3)(c)(C) or (D).

(8) If the request for review is granted, the administrator will advise the parties of the presumed correct support amount. Notification may be by motion for modification and will include a request for hearing form. If there is an adult child on the case, the proposed modification will be a tiered order as defined in OAR 137-055-1020.

(9) If the order is found to be in substantial compliance, and at least 35 months have passed since the date the most recent support order took effect, the administrator will complete the request as provided in OAR 137-055-3420(9).

(10) Sections (11) and (12) apply only to temporary modifications.

(11) The administrator will, to the extent possible, gather information from the parties which could affect the support calculation by phone or other electronic means, including facsimile and e-mail. Parties may agree to accept service by e-mail, regular mail or any other method.

(12) The administrator will advise the parties of the presumed correct support amount and may seek a consent order. Notification may be by motion for modification and will include a request for hearing form.

(13) If a request under this rule is denied, the administrator will notify the requesting party of the denial in writing within 30 days and inform the party of their right to file a motion for modification as provided in ORS 416.425. The administrator will advise the party on how to obtain the Oregon Judicial Department packet that has been prescribed for this purpose.

(14) No provision of this rule precludes the parties from obtaining the services of private legal counsel at any time to pursue modification of the support order pursuant to all applicable laws.

(15) If a request for review and modification is received because a change in the physical custody of the minor child(ren) has taken place, a party may also request a credit back to the date the change in physical custody took place in accordance with OAR 137-055-5510.

Rules Amended: 257-010-0015, 257-010-0020, 257-010-0025, 257-010-0045, 257-010-0050

Subject: Pursuant to ORS 181.030, each member of the Department is authorized and empowered to prevent crime, pursue and apprehend offenders, obtain legal evidence necessary to ensure criminal con-

victions of offenders, institute criminal proceedings, and execute any lawful warrant or order of arrest issued against any person or persons for any violation of law. Regional Information Sharing Systems (RISS) are inter jurisdictional intelligence entities designed to identify, target, and remove criminal conspiracies and activities and terrorist conspiracies and activities that span jurisdictional boundaries, pursuant to 42 USC section 3796(h) and 28 CFR Part 23. While membership in RISSs is limited to law enforcement agencies, how an RISS functions as an entity differs across the United States. In some cases, the RISS is operated and managed by a criminal justice agency. In other cases, the RISS is created as a distinct legal entity, i.e. a non-profit corporation. While the Department's current administrative rules allow criminal justice agencies to access criminal offender information for criminal justice purposes, its rules do not allow RISSs created as distinct legal entities to access criminal offender information. Allowing RISSs, even when they are created as distinct legal entities, clearly advances the duties and responsibilities placed on OSP by the Oregon legislature. The amendments to OAR 257-010-0015, 257-010-0020, 257-010-0025, 257-010-0045, and 257-010-0050 allow all RISSs to access the Department's criminal offender information so that both the RISSs and the Department can carry out their missions of stopping criminal and terrorist conspiracies and activities that occur across state jurisdictional lines.

Subject: Deletes the undefined term "owner" and inserts the word "principal" in its place. Defines "principal" to include an owner. Gives the department continuing jurisdiction over pending suspension or revocation proceedings by authorizing it to revoke or suspend the right to apply for a letter of appointment. Gives the department continuing jurisdiction over pending suspension or revocation proceedings by authorizing it to revoke or suspend the right to re-apply for a letter of appointment. The department's current administrative rules only allow it to suspend or revoke an existing letter of appointment of either a "qualified tow business" or any owner or employee of a "qualified tow business" that commits a violation of law chargeable as a violation or crime. "Owner" is not defined. Additionally, the department's current administrative rules only allows it to suspend or revoke a tow vehicle, tow equipment, or a "qualified tow business" that already has a letter of appointment from being on the department's non-preference tow program for a violation of law other than a law chargeable as a violation or a crime. The department's current administrative rules do not allow it suspend or revoke either the right of a tow business or its principals to apply for a letter of appointment, or the right of a "qualified tow business" or its principals to re-apply for a letter of appointment once that business' current letter of appointment expires. Under Oregon law, an administrative agency loses jurisdiction over a revocation proceeding once a license expires unless the agency's statutory authority provides otherwise. The department has administrative proceedings pending that involve the revocation or suspension of qualified tow businesses from its non-preference tow program. These rules give the department con-

tinuing jurisdiction in those cases where the letter of appointment for a tow business, tow truck, “qualified tow business,” or principal or employee thereof, will expire prior to the department completing its administrative suspension or revocation action and issuing a final order. (i) If the initial period of ineligibility for the individual was for a period of less than the maximum period identified in section (4) of this rule, and the Board determines that an individual must remain ineligible to apply for certification, then the individual may not reapply for certification under the provisions of this rule until the maximum initial period of ineligibility identified in (5) of this rule has been satisfied.

(ii) If the individual has satisfied the maximum initial period of ineligibility and the Board determines that an individual must remain ineligible to apply for certification, then the individual may not submit any further requests for an eligibility determination, and the original denial or revocation remains permanent.

(a) The vehicle is repaired, rebuilt or is issued a certificate of title; or

(b) It is determined that:

(A) The vehicle will not be rebuilt or repaired; and

Rules Adopted: 735-032-0065

Subject: In pertinent part, ORS 801.040, 801.041, 801.042, 802.110, and 803.445 authorize Oregon counties and districts to impose vehicle registration fees that are in addition to state vehicle registration fees. ORS 803.445 requires DMV to implement these statutes through adoption of an administrative rule. A county or district that chooses to impose its own vehicle registration fees must adopt an ordinance establishing the fees, and enter into an intergovernmental agreement with DMV. DMV is required to collect vehicle registration fees on behalf of any county or district that has established registration fees, and to transfer collected fee amounts to the county or district after deducting DMV's expenses for the collection, transfer and administration of the fees.

Chapter 865, Oregon Laws 2009, which became effective September 28, 2009, amended ORS 801.041 to authorize Oregon counties with a population of 350,000 or more to impose county vehicle registration fees to fund the construction of a bridge that crosses the Willamette River in the City of Portland. For this purpose, Multnomah County has adopted Multnomah County Ordinance MCC §§ 11.250-11.256 to impose Multnomah County vehicle registration fees on certain vehicles within Multnomah County pursuant to amended ORS 801.041. The ordinance becomes effective September 1, 2010. DMV will collect these fees for Multnomah County as required by ORS 801.041, 802.110 and 803.445. Multnomah County is the only county to adopt an ordinance for collection of county or district vehicle registration fees.

DMV proposes the temporary adoption of OAR 735-032-0065 to implement the collection and transfer of county or district vehicle registration fees in order to begin collection of the fees authorized by the Multnomah County ordinance.

General Requirements

(1) The Applicant must apply in writing on the form provided by the Department to the DM for the District in which the section of highway requested to be adopted is located. When noxious weed removal is a desired work activity, the Applicant must also provide the DM with a plan approved in writing by the Oregon Department of Agriculture or the appropriate county governing body. The plan shall include the species of plant to be removed, the method of removal that does not include the use of pesticides, herbicides, or machine powered equipment, and the timing and frequency of noxious weed removal.

(2) An “Adopt-A-Highway” permit will be executed by the Applicant and the DM under the authority of OAR Chapter 734, Division 55 and Division 29. In the event of a conflict, Division 29 rules will prevail. The Permit will list the specific requirements and obligations of both the Applicant and its Participants, and the Department.

(3) An application is not a Permit until it is approved and signed by the DM. No work is to be done along the highway until the Applicant has

obtained a valid Permit. The approved Permit must be physically at the work site when the work is being performed.

(4) The section of highway adopted will be at least two miles in length for litter pickup or noxious weed removal. This minimum may be modified at the discretion of the DM where there are unique or unusual situations or features having to do with allowed work activities on a specific highway section.

(5) The term of the permit will be for a period of one, two, or three years.

(6) A section of highway may be adopted by more than one Applicant with only one Applicant for litter pick up and one Applicant for noxious weed removal. If more than one Applicant requests the same section of highway for the same work activity, the DM may make the selection by earliest date of application or by a random drawing.

(7) Assignment of a specific section of highway shall be at the discretion of the DM.

(8) The DM may consider factors such as width of right-of-way, geometrics, congestion, and sight distance in determining which highways or sections of highway will be eligible for adoption under Division 29 rules.

(9) Subcontracting or assigning work, or hiring or paying a wage or salary for work on the adopted section by the Applicant to any party is prohibited and will result in cancellation of the permit.

(10) The DM may cancel a Permit for any reason including, but not limited to safety considerations concerning highway operations, failure of the Applicant to perform the work described in the Permit, or failure of the Applicant to comply with provisions of the Permit. This cancellation will be issued in writing.

(11) The Applicant may cancel the permit with 30 days written notice to the DM.

(12) An Applicant has the option of renewing the permit for subsequent terms subject to the approval of the DM. Such request must be submitted in writing, signed by the Applicant and submitted to the DM at least 30 days prior to the permit expiration date.

(13) The Applicant shall not use state highways to display advertising signs or display or sell merchandise of any kind.

(e) The DM will be responsible for removal of litter that is large, heavy or potentially hazardous that has been flagged by the Applicant. The removal and disposal of filled litter bags, landscape debris, and noxious weeds will be as described in the Permit.

Notice Publication Date: 5-1-2010

Rules Adopted: 734-035-0150

Subject: HB 2235 of the 2009 legislative session (Chapter 130, OL 2009) grants the Department of Transportation authority to go on private property without notifying the property owner when the Department determines that a tree creates an immediate and substantial risk of damage or injury to the state highway. This rule describes how the Department will attempt to locate and notify the private property owner of its actions.

Rules Coordinator: Lauri Kunze—(503) 986-3171

734-035-0150

Notification of Hazardous Tree Removal from Private Property

(1) Pursuant to ORS 366.365, when the Department determines that any tree located on private property creates an immediate and substantial risk of damage or injury by obstructing, hanging over or otherwise encroaching or threatening to encroach in any manner on a state highway, and the property owner isn't readily available, it may go upon such property to cut down or remove such tree.

(2) For the purposes of this rule, a tree creates an immediate and substantial risk of damage or injury when it is determined by the District Manager, or designee, that such tree interferes with the safe, unrestricted movement of traffic; is encroaching on the state highway; or is in a condition that creates a reasonable likelihood it will, in the foreseeable future, encroach on the state highway to a degree that traffic should be restricted or prohibited from using the highway.

(3) The Department, when cutting down or removing any tree from private property, will take measures reasonable under the circumstances to protect the property upon which such tree is located and the value of the cut or removed tree.

(4) After cutting down or removing any tree as described in this rule, the Department will notify the owner of the private property by sending written notice by certified mail to the property owner listed in the county tax records.

(5) The written notice will include:

(a) A general description of the location of the private property and the date any tree was cut down or removed from the private property; and

(b) Information concerning the location of the tree or how such location can be obtained.

(6)(a) The tree will be left on the private property if it is reasonable to do so and can be accomplished in a safe manner.

(b) If the tree can not reasonably be left on the private property, the notice will also include Department contact information such as a telephone number or address and a contact name to claim any tree removed from the private property.

(A) The property owner will have 30 days from the date of the written notice to claim and recover the tree. Any cost incurred to claim or recover the tree is at the property owner's expense.

(B) The person claiming the tree must be able to show a right to possess the tree; such as a copy of the certified letter sent by the Department. Any tree not claimed within 30 days becomes the property of the Department to be disposed of at the Department's discretion following standard Department practices.

Rights for Review and Contested Case Hearings

(1) CCD shall conduct contested case hearings per ORS 183.413 to 183.470 and afford subject individuals the right to appeal a decision made by CCD that the subject individual may not be enrolled in or has been removed from the Central Background Registry. Therefore, a contested case hearing cannot be held by CCD for that purpose. Challenges to the accuracy or completeness of the information provided by the Department of State Police, the FBI and agencies reporting information to CCD must be made through those departments, bureaus or agencies and not through the contested case process.

(3) CCD is entitled to rely on the criminal records information supplied by OSP or the FBI or child protective services information supplied by the Department of Human Services until OSP, the FBI, or the Department of Human Services notifies CCD that information has been changed or corrected in a manner that would alter the CCD decision. If a subject individual has requested a contested case hearing, CCD will stay the hearing until the subject individual has been afforded a reasonable time to correct or complete the record or has declined to do so.

(4) To preserve the confidentiality of the records and the privacy of the subject individual, any contested case hearing will not be open to the public unless requested by the subject individual.

(2) Registration is required for persons who provide child care:

(f) To children from only one family other than the person's own family if that person's enrollment in the Central Background Registry has been denied or the person has been removed for cause, or suspended; or their child care facility certification or registration has been denied or revoked for cause, or suspended, or the person has voluntarily withdrawn their application or closed their registration or certification while under investigation by CCD.

(3) These rules do not apply to care provided:

(a) In the home of the child;

(2) Application for certification shall be made on forms provided by CCD.

(3) A completed application is required:

- (a) For the initial certification;
- (b) For the annual renewal of certification; and
- (c) Whenever there is a change of provider or location.

(C) An application for certification shall be accompanied by a non-refundable filing fee.

(D) For the initial application, a change of provider, the reopening of a facility after a lapse in certification, or a change of location, the fee is \$25 plus \$2 for each certified space (e.g., the fee for a certified family child care home certified to care for 12 children is \$24 + \$25 = \$49).

(8) The applicant shall provide verification to CCD that the home meets all applicable building codes and zoning requirements that apply to certified family child care homes:

- (a) Before the initial certification is issued; and
- (b) Whenever the home is remodeled.

(10) The home may be inspected by the local fire jurisdiction when local ordinances require a fire life safety survey as part of a business license or when CCD determines there is a need to do so.

(11) If the provider applies to care for more than 12 children, the provider must complete a fire life safety self evaluation. CCD staff and the provider will review the self evaluation. If fire safety concerns are identified, CCD staff may consult with the fire marshal and after consultation, may request that the fire marshal complete a fire life safety inspection.

(12) Upon receipt of a completed application, a representative of CCD shall evaluate the home and all aspects of the proposed operation to determine if certification requirements (OAR 414-350-0000 through 414-350-0405) are met.

Issuance of a Child Care Certificate

(1) A certification shall be issued by CCD when it has been determined the home is in compliance with OAR 414-350-0000 through 414-350-0405. There are two types of certification. These are:

(a) A regular certification which, except as provided in OAR 414-350-0020(4)(b)(A), is valid for no more than one year; and

(b) A temporary certification. A certified family child care home may not operate under a temporary certification for more than 180 days in any 12-month period. A temporary certification is issued when:

(A) The home is in compliance with most requirements;

(B) There are no deficiencies identified by CCD that are hazardous to children; and

(C) The provider demonstrates an effort to be in full compliance.

(2) Certification is not transferable to any other location or to another organization or individual.

(3) A certification is granted in the name of the operator/provider. An operator/provider is limited to one certification at one address.

(4) An owner can have multiple sites under the following conditions:

(a) If the owner is the provider/operator in one of the homes, the owner can have two certified family child care homes; or

(b) If the owner does not directly care for any children, the owner can have more than two certified family child care homes.

(c) If the owner is the provider/operator in a home certified for more than 12 children, the owner may be the provider for only that certified family child care home. The provider may be the owner of other facilities. See OAR 414-350-0100 (5).

(5) Any changes in the conditions of certification shall be requested in writing to CCD and approved by CCD before the condition(s) of the current certification may be changed. Changes include, but are not limited to, facility capacity, age range of children, or hours of operation.

General Requirements

(1) As required by Oregon civil rights law, ORS Chapter 659, the provider shall not discriminate in employment on the basis of race, color, gender, marital status, religion, national origin, age, or because of a mental or physical handicap unrelated to specific job performance.

(2) All caregivers, including the provider, shall:

(a) Have competence, sound judgment, and self-control in working with children;

(b) Be mentally, physically, and emotionally capable of performing assigned duties related to child care; and

(c) Have the required training and/or experience for the positions they hold, as specified in OAR 414-350-0100 and 0110.

(3) If there is evidence that casts doubt on the physical or mental competence of a person to care for children or have access to children, CCD may require that the provider provide CCD with an evaluation or other information, as specified by CCD.

(4) No one shall have access to child care children who has demonstrated behavior that may have a detrimental effect on a child. Residents of the home are considered to have access to the child care children even if they are not generally at home during hours of operation. This does not apply to parents of children in care when they drop off and pick up their children.

(a) The owner, the provider, all caregivers and other residents of the home 18 years of age or older must be enrolled in CCD's Central Background Registry prior to the issuance of an initial or renewal certification. (b) Prior to any new caregiver caring for children or prior to an individual residing in the home, visiting the home on a regular basis, or substituting for or assisting the provider, the caregiver/individual shall be enrolled in the Central Background Registry and the provider shall receive verification from CCD of the enrollment. This does not apply to parents of children in care unless they are residing in the home or assisting in the provision of child care.

(c) When a provider is notified by CCD that a caregiver or other individual has been removed from the Central Background Registry, the provider shall not permit the caregiver or other individual to be in the home during hours the child care business is conducted or to have access to child care children.

(d) If any person listed in section (4)(a) & (b) of this rule has been charged with, arrested for, or a warrant is out for any of the crimes which CCD has determined indicate behavior which may have a detrimental effect on a child, with final disposition not yet reached, certification may be denied or suspended until the charge, arrest, or warrant has been resolved if the person continues to operate, be employed in or reside in the home, or have access to children in the home.

(e) If a criminal record check shows that a warrant has been issued for any person checked, CCD will inform the originating law enforcement agency of the person's name, employment address and telephone number.

(f) Any visitor to the home or other adult who is not enrolled in the Central Background Registry shall not have unsupervised access to children.

(5) Volunteers must meet the following requirements:

(a) If volunteers are counted in determining the staff/child ratios, they must meet the qualifications of the position they are filling and be enrolled in the Central Background Registry.

(b) If volunteers may have unsupervised access to children, they must be enrolled in the Central Background Registry.

(6) "Staff" means any individual 18 years and older who works in, and has contact with children in the program

(7) "Youth development activities" means care, supervision or guidance that is intended for enrichment, including but not limited to teaching skills or proficiency in physical, social or educational activities such as tutoring, social activities, and recreational activities.

(8) "Volunteer" means any individual 18 years or older who intends to perform uncompensated duties for the program and who may have unsupervised contact with the children in the program or who is in the facility more than four hours per year and has contact with children in the program.

Land Conservation and Development Department Chapter 660

Rule Caption: Amending department rules to comply with Religious Land Use and Institutionalized Persons Act (RLUIPA) requirements.

Adm. Order No.: LCDD 6-2010

Filed with Sec. of State: 6-17-2010

Certified to be Effective: 6-17-10

Notice Publication Date: 5-1-2010

Rules Amended: 660-033-0120, 660-033-0130

Subject: OAR-660-033-0130 describes the standards applicable to permitted and conditional non-farm uses on agricultural lands. Subsection 2 prohibits certain new uses within three miles of an urban growth boundary (UGB), unless an exception is taken to Statewide Planning Goal 3 (Agricultural Lands). OAR 660-033-0120 (Uses Authorized on Agricultural Lands) describes, in a table format, which uses are allowed (with or without conditions, additional restrictions or exceptions) or disallowed altogether on agricultural lands. Churches and certain other uses in the Parks/Public/Quasi-public category (including schools) are the sole uses subject to the 3-mile limitation as described above. The reason for this limitation was to protect the integrity of UGBs. *Young v. Jackson County*, 58 Or LUBA 64 (2008) (affirmed without opinion by the Oregon Court of Appeals, *Young v. Jackson County*, 227 Or App 290, 205 P3d 890 (2009)) requires that LCDC revisit its division 33 rules. The LUBA opinion concluded that the application of the 3-mile rule with regard to the proposed church violates the "equal terms" provision of RLUIPA. The "equal terms" provision prohibits government from implementing a land-use regulation in a manner that treats religious assemblies and institutions less favorably than secular assemblies and institutions.

The amended rules limit the permitted design capacity for enclosed structures on EFU-zoned property within three miles (outside) of a UGB, with regard to identified uses in the Parks/Public/Quasi-Public category of OAR 660, division 033-0120, Table 1.

Uses Authorized on Agricultural Lands

The specific development and uses listed in the following table are permitted in the areas that qualify for the designation pursuant to this divi-

ADMINISTRATIVE RULES

sion. All uses are subject to the general provisions, special conditions, additional restrictions and exceptions set forth in this division. The abbreviations used within the schedule shall have the following meanings:

(1) A — Use may be allowed. Authorization of some uses may require notice and the opportunity for a hearing because the authorization qualifies as a land use decision pursuant to ORS chapter 197. Minimum standards for uses in the table that include a numerical reference are specified in OAR 660-033-0130. Counties may prescribe additional limitations and requirements to meet local concerns as authorized by law.

(2) R — Use may be approved, after required review. The use requires notice and the opportunity for a hearing. Minimum standards for uses in the table that include a numerical reference are specified in OAR 660-033-0130. Counties may prescribe additional limitations and requirements to meet local concerns as authorized by law.

(3) * — Use not permitted.

(4) # — Numerical references for specific uses shown on the chart refer to the corresponding section of OAR 660-033-0130. Where no numerical reference is noted for a use on the chart, this rule does not establish criteria for the use.

Minimum Standards Applicable to the Schedule of Permitted and Conditional Uses

The following standards apply to uses listed in OAR 660-033-0120 where the corresponding section number is shown on the chart for a specific use under consideration. Where no numerical reference is indicated on the chart, this division does not specify any minimum review or approval criteria. Counties may include procedures and conditions in addition to those listed in the chart as authorized by law:

(1) A dwelling on farmland may be considered customarily provided in conjunction with farm use if it meets the requirements of OAR 660-033-0135.

(2)(a) No enclosed structure with a design capacity greater than 100 people, or group of structures with a total design capacity of greater than 100 people, shall be approved in connection with the use within three miles of an urban growth boundary, unless an exception is approved pursuant to ORS 197.732 and OAR chapter 660, division 4, or unless the structure is described in a master plan adopted under the provisions of OAR chapter 660, division 34.

(b) Any enclosed structures or group of enclosed structures described in subsection (a) within a tract must be separated by at least one-half mile. For purposes of this section, "tract" means a tract as defined by ORS 215.010(2) that is in existence as of the effective date of this section.

(c) Existing facilities wholly within a farm use zone may be maintained, enhanced or expanded on the same tract, subject to other requirements of law, but enclosed existing structures within a farm use zone within three miles of an urban growth boundary may not be expanded beyond the requirements of this rule.

(3)(a) A dwelling may be approved if:

(A) The lot or parcel on which the dwelling will be sited was lawfully created and was acquired and owned continuously by the present owner as defined in subsection (3)(g) of this rule:

(i) Since prior to January 1, 1985; or

(ii) By devise or by intestate succession from a person who acquired and had owned continuously the lot or parcel since prior to January 1, 1985.

(B) The tract on which the dwelling will be sited does not include a dwelling;

(C) The lot or parcel on which the dwelling will be sited was part of a tract on November 4, 1993, no dwelling exists on another lot or parcel that was part of that tract;

(D) The proposed dwelling is not prohibited by, and will comply with, the requirements of the acknowledged comprehensive plan and land use regulations and other provisions of law;

(E) The lot or parcel on which the dwelling will be sited is not high-value farmland except as provided in subsections (3)(c) and (d) of this rule;

(F) When the lot or parcel on which the dwelling will be sited lies within an area designated in an acknowledged comprehensive plan as habi-

tat of big game, the siting of the dwelling is consistent with the limitations on density upon which the acknowledged comprehensive plan and land use regulations intended to protect the habitat are based.

(b) When the lot or parcel on which the dwelling will be sited is part of a tract, the remaining portions of the tract are consolidated into a single lot or parcel when the dwelling is allowed;

(c) Notwithstanding the requirements of paragraph (3)(a)(E) of this rule, a single-family dwelling may be sited on high-value farmland if:

(A) It meets the other requirements of subsections (3)(a) and (b) of this rule;

(B) The lot or parcel is protected as high-value farmland as defined in OAR 660-033-0020(8)(a); and

(C) A hearings officer of a county determines that:

(i) The lot or parcel cannot practicably be managed for farm use, by itself or in conjunction with other land, due to extraordinary circumstances inherent in the land or its physical setting that do not apply generally to other land in the vicinity. For the purposes of this section, this criterion asks whether the subject lot or parcel can be physically put to farm use without undue hardship or difficulty because of extraordinary circumstances inherent in the land or its physical setting. Neither size alone nor a parcel's limited economic potential demonstrate that a lot or parcel cannot be practicably managed for farm use. Examples of "extraordinary circumstances inherent in the land or its physical setting" include very steep slopes, deep ravines, rivers, streams, roads, railroad or utility lines or other similar natural or physical barriers that by themselves or in combination separate the subject lot or parcel from adjacent agricultural land and prevent it from being practicably managed for farm use by itself or together with adjacent or nearby farms. A lot or parcel that has been put to farm use despite the proximity of a natural barrier or since the placement of a physical barrier shall be presumed manageable for farm use.

(ii) The dwelling will comply with the provisions of ORS 215.296(1);

(iii) The dwelling will not materially alter the stability of the overall land use pattern in the area by applying the standards set forth in paragraph (4)(a)(D) of this rule.

(D) A local government shall provide notice of all applications for dwellings allowed under subsection (3)(c) of this rule to the State Department of Agriculture. Notice shall be provided in accordance with the governing body's land use regulations but shall be mailed at least 20 calendar days prior to the public hearing before the hearings officer under paragraph (3)(c)(C) of this rule.

(d) Notwithstanding the requirements of paragraph (3)(a)(E) of this rule, a single-family dwelling may be sited on high-value farmland if:

(A) It meets the other requirements of subsections (3)(a) and (b) of this rule;

(B) The tract on which the dwelling will be sited is:

(i) Identified in OAR 660-033-0020(8)(c) or (d); and

(ii) Not high-value farmland defined in OAR 660-033-0020(8)(a); and

(iii) Twenty-one acres or less in size; and

(C)(i) The tract is bordered on at least 67 percent of its perimeter by tracts that are smaller than 21 acres, and at least two such tracts had dwellings on January 1, 1993; or

(ii) The tract is not a flaglot and is bordered on at least 25 percent of its perimeter by tracts that are smaller than 21 acres, and at least four dwellings existed on January 1, 1993, within 1/4 mile of the center of the subject tract. Up to two of the four dwellings may lie within an urban growth boundary, but only if the subject tract abuts an urban growth boundary; or

(D) The tract is a flaglot and is bordered on at least 25 percent of its perimeter by tracts that are smaller than 21 acres, and at least four dwellings existed on January 1, 1993, within 1/4 mile of the center of the subject tract and on the same side of the public road that provides access to the subject tract. The governing body of a county must interpret the center of the subject tract as the geographic center of the flaglot if the applicant makes a written request for that interpretation and that interpretation does not cause the center to be located outside the flaglot. Up to two of the four dwellings may lie within an urban growth boundary, but only if the subject tract abuts an urban growth boundary:

(i) "flaglot" means a tract containing a narrow strip or panhandle of land providing access from the public road to the rest of the tract.

(ii) "Geographic center of the flaglot" means the point of intersection of two perpendicular lines of which the first line crosses the midpoint of the longest side of a flaglot, at a 90-degree angle to the side, and the second line crosses the midpoint of the longest adjacent side of the flaglot.

(e) If land is in a zone that allows both farm and forest uses is acknowledged to be in compliance with both Goals 3 and 4 and may qual-

ADMINISTRATIVE RULES

ify as an exclusive farm use zone under ORS chapter 215, a county may apply the standards for siting a dwelling under either section (3) of this rule or OAR 660-006-0027, as appropriate for the predominant use of the tract on January 1, 1993;

(f) A county may, by application of criteria adopted by ordinance, deny approval of a dwelling allowed under section (3) of this rule in any area where the county determines that approval of the dwelling would:

(A) Exceed the facilities and service capabilities of the area;

(B) Materially alter the stability of the overall land use pattern of the area; or

(C) Create conditions or circumstances that the county determines would be contrary to the purposes or intent of its acknowledged comprehensive plan or land use regulations.

(g) For purposes of subsection (3)(a) of this rule, "owner" includes the wife, husband, son, daughter, mother, father, brother, brother-in-law, sister, sister-in-law, son-in-law, daughter-in-law, mother-in-law, father-in-law, aunt, uncle, nephew, stepparent, stepchild, grandparent or grandchild of the owner or a business entity owned by any one or a combination of these family members;

(h) The county assessor shall be notified that the governing body intends to allow the dwelling.

(i) When a local government approves an application for a single-family dwelling under section (3) of this rule, the application may be transferred by a person who has qualified under section (3) of this rule to any other person after the effective date of the land use decision.

(4) Requires approval of the governing body or its designate in any farmland area zoned for exclusive farm use:

(a) In the Willamette Valley, the use may be approved if:

(A) The dwelling or activities associated with the dwelling will not force a significant change in or significantly increase the cost of accepted farming or forest practices on nearby lands devoted to farm or forest use;

(B) The dwelling will be sited on a lot or parcel that is predominantly composed of Class IV through VIII soils that would not, when irrigated, be classified as prime, unique, Class I or II soils;

(C) The dwelling will be sited on a lot or parcel created before January 1, 1993;

(D) The dwelling will not materially alter the stability of the overall land use pattern of the area. In determining whether a proposed nonfarm dwelling will alter the stability of the land use pattern in the area, a county shall consider the cumulative impact of possible new nonfarm dwellings and parcels on other lots or parcels in the area similarly situated. To address this standard, the county shall:

(i) Identify a study area for the cumulative impacts analysis. The study area shall include at least 2000 acres or a smaller area not less than 1000 acres, if the smaller area is a distinct agricultural area based on topography, soil types, land use pattern, or the type of farm or ranch operations or practices that distinguish it from other, adjacent agricultural areas. Findings shall describe the study area, its boundaries, the location of the subject parcel within this area, why the selected area is representative of the land use pattern surrounding the subject parcel and is adequate to conduct the analysis required by this standard. Lands zoned for rural residential or other urban or nonresource uses shall not be included in the study area;

(ii) Identify within the study area the broad types of farm uses (irrigated or nonirrigated crops, pasture or grazing lands), the number, location and type of existing dwellings (farm, nonfarm, hardship, etc.), and the dwelling development trends since 1993. Determine the potential number of nonfarm/lot-of-record dwellings that could be approved under subsections (3)(a), (3)(d) and section (4) of this rule, including identification of predominant soil classifications, the parcels created prior to January 1, 1993 and the parcels larger than the minimum lot size that may be divided to create new parcels for nonfarm dwellings under ORS 215.263(4). The findings shall describe the existing land use pattern of the study area including the distribution and arrangement of existing uses and the land use pattern that could result from approval of the possible nonfarm dwellings under this subparagraph;

(iii) Determine whether approval of the proposed nonfarm/lot-of-record dwellings together with existing nonfarm dwellings will materially alter the stability of the land use pattern in the area. The stability of the land use pattern will be materially altered if the cumulative effect of existing and potential nonfarm dwellings will make it more difficult for the existing types of farms in the area to continue operation due to diminished opportunities to expand, purchase or lease farmland, acquire water rights or diminish the number of tracts or acreage in farm use in a manner that will destabilize the overall character of the study area;

(E) The dwelling complies with such other conditions as the governing body or its designate considers necessary.

(b) In the Willamette Valley, on a lot or parcel allowed under OAR 660-033-0100(11) of this rule, the use may be approved if:

(A) The dwelling or activities associated with the dwelling will not force a significant change in or significantly increase the cost of accepted farming or forest practices on nearby lands devoted to farm or forest use;

(B) The dwelling will not materially alter the stability of the overall land use pattern of the area. In determining whether a proposed nonfarm dwelling will alter the stability of the land use pattern in the area, a county shall consider the cumulative impact of nonfarm dwellings on other lots or parcels in the area similarly situated and whether creation of the parcel will lead to creation of other nonfarm parcels, to the detriment of agriculture in the area by applying the standards set forth in paragraph (4)(a)(D) of this rule; and

(C) The dwelling complies with such other conditions as the governing body or its designate considers necessary.

(c) In counties located outside the Willamette Valley require findings that:

(A) The dwelling or activities associated with the dwelling will not force a significant change in or significantly increase the cost of accepted farming or forest practices on nearby lands devoted to farm or forest use;

(B)(i) The dwelling is situated upon a lot or parcel, or a portion of a lot or parcel, that is generally unsuitable land for the production of farm crops and livestock or merchantable tree species, considering the terrain, adverse soil or land conditions, drainage and flooding, vegetation, location and size of the tract. A lot or parcel or portion of a lot or parcel shall not be considered unsuitable solely because of size or location if it can reasonably be put to farm or forest use in conjunction with other land; and

(ii) A lot or parcel or portion of a lot or parcel is not "generally unsuitable" simply because it is too small to be farmed profitably by itself. If a lot or parcel or portion of a lot or parcel can be sold, leased, rented or otherwise managed as a part of a commercial farm or ranch, then the lot or parcel or portion of the lot or parcel is not "generally unsuitable". A lot or parcel or portion of a lot or parcel is presumed to be suitable if, in Western Oregon it is composed predominantly of Class I-IV soils or, in Eastern Oregon, it is composed predominantly of Class I-VI soils. Just because a lot or parcel or portion of a lot or parcel is unsuitable for one farm use does not mean it is not suitable for another farm use; or

(iii) If the parcel is under forest assessment, the dwelling shall be situated upon generally unsuitable land for the production of merchantable tree species recognized by the Forest Practices Rules, considering the terrain, adverse soil or land conditions, drainage and flooding, vegetation, location and size of the parcel. If a lot or parcel is under forest assessment, the area is not "generally unsuitable" simply because it is too small to be managed for forest production profitably by itself. If a lot or parcel under forest assessment can be sold, leased, rented or otherwise managed as a part of a forestry operation, it is not "generally unsuitable". If a lot or parcel is under forest assessment, it is presumed suitable if, in Western Oregon, it is composed predominantly of soils capable of producing 50 cubic feet of wood fiber per acre per year, or in Eastern Oregon it is composed predominantly of soils capable of producing 20 cubic feet of wood fiber per acre per year. If a lot or parcel is under forest assessment, to be found compatible and not seriously interfere with forest uses on surrounding land it must not force a significant change in forest practices or significantly increase the cost of those practices on the surrounding land;

(C) The dwelling will not materially alter the stability of the overall land use pattern of the area. In determining whether a proposed nonfarm dwelling will alter the stability of the land use pattern in the area, a county shall consider the cumulative impact of nonfarm dwellings on other lots or parcels in the area similarly situated by applying the standards set forth in paragraph (4)(a)(D) of this rule. If the application involves the creation of a new parcel for the nonfarm dwelling, a county shall consider whether creation of the parcel will lead to creation of other nonfarm parcels, to the detriment of agriculture in the area by applying the standards set forth in paragraph (4)(a)(D) of this rule; and

(D) The dwelling complies with such other conditions as the governing body or its designate considers necessary.

(d) If a single-family dwelling is established on a lot or parcel as set forth in section (3) of this rule or OAR 660-006-0027, no additional dwelling may later be sited under the provisions of section (4) of this rule;

(e) Counties that have adopted marginal lands provisions before January 1, 1993, shall apply the standards in ORS 215.213(3) -- (8) for nonfarm dwellings on lands zoned exclusive farm use that are not designated marginal or high-value farmland.

ADMINISTRATIVE RULES

(5) Approval requires review by the governing body or its designate under ORS 215.296. Uses may be approved only where such uses:

(a) Will not force a significant change in accepted farm or forest practices on surrounding lands devoted to farm or forest use; and

(b) Will not significantly increase the cost of accepted farm or forest practices on lands devoted to farm or forest use.

(6) Such facility shall not seriously interfere with accepted farming practices and shall be compatible with farm uses described in ORS 215.203(2). Such facility may be approved for a one-year period which is renewable and is intended to be only portable or temporary in nature. The primary processing of a forest product, as used in this section, means the use of a portable chipper or stud mill or other similar methods of initial treatment of a forest product in order to enable its shipment to market. Forest products as used in this section means timber grown upon a tract where the primary processing facility is located.

(7) A personal use airport as used in this section means an airstrip restricted, except for aircraft emergencies, to use by the owner, and on an infrequent and occasional basis, by invited guests, and by commercial aviation activities in connection with agricultural operations. No aircraft may be based on a personal use airport other than those owned or controlled by the owner of the airstrip. Exceptions to the activities permitted under this definition may be granted through waiver action by the Oregon Department of Aviation in specific instances. A personal use airport lawfully existing as of September 13, 1975, shall continue to be permitted subject to any applicable rules of the Oregon Department of Aviation.

(8)(a) A lawfully established dwelling is a single family dwelling which:

(A) Has intact exterior walls and roof structure;

(B) Has indoor plumbing consisting of a kitchen sink, toilet and bathing facilities connected to a sanitary waste disposal system;

(C) Has interior wiring for interior lights; and

(D) Has a heating system.

(b) In the case of replacement, the dwelling to be replaced shall be:

(i) Removed, demolished, or converted to an allowable use within three months of the completion of the replacement dwelling. A replacement dwelling may be sited on any part of the same lot or parcel. A dwelling established under this section shall comply with all applicable siting standards. However, the standards shall not be applied in a manner that prohibits the siting of the dwelling. If the dwelling to be replaced is located on a portion of the lot or parcel not zoned for exclusive farm use, the applicant, as a condition of approval, shall execute and record in the deed records for the county where the property is located a deed restriction prohibiting the siting of a dwelling on that portion of the lot or parcel. The restriction imposed shall be irrevocable unless a statement of release is placed in the deed records for the county. The release shall be signed by the county or its designee and state that the provisions of this section regarding replacement dwellings have changed to allow the siting of another dwelling. The county planning director or the director's designee shall maintain a record of the lots and parcels that do not qualify for the siting of a new dwelling under the provisions of this section, including a copy of the deed restrictions and release statements filed under this section; and

(ii) For which the applicant has requested a deferred replacement permit, is removed or demolished within three months after the deferred replacement permit is issued. A deferred replacement permit allows construction of the replacement dwelling at any time. If, however, the established dwelling is not removed or demolished within three months after the deferred replacement permit is issued, the permit becomes void. The replacement dwelling must comply with applicable building codes, plumbing codes, sanitation codes and other requirements relating to health and safety or to siting at the time of construction. A deferred replacement permit may not be transferred, by sale or otherwise, except by the applicant to the spouse or a child of the applicant.

(c) An accessory farm dwelling authorized pursuant to OAR 660-033-0130(24)(a)(B)(iii), may only be replaced by a manufactured dwelling.

(9)(a) To qualify, a dwelling shall be occupied by persons whose assistance in the management and farm use of the existing commercial farming operation is required by the farm operator. The farm operator shall continue to play the predominant role in the management and farm use of the farm. A farm operator is a person who operates a farm, doing the work and making the day-to-day decisions about such things as planting, harvesting, feeding and marketing.

(b) Notwithstanding ORS 92.010 to 92.190 or the minimum lot or parcel requirements under ORS 215.780, if the owner of a dwelling described in OAR 660-033-0130(9) obtains construction financing or other financing secured by the dwelling and the secured party forecloses on the

dwelling, the secured party may also foreclose on the homesite, as defined in ORS 308A.250, and the foreclosure shall operate as a partition of the homesite to create a new parcel. Prior conditions of approval for the subject land and dwelling remain in effect.

(c) For the purpose of OAR 660-033-0130(9)(b), "foreclosure" means only those foreclosures that are exempt from partition under ORS 92.010(7)(a).

(10) A manufactured dwelling, or recreational vehicle, or the temporary residential use of an existing building allowed under this provision is a temporary use for the term of the hardship suffered by the existing resident or relative as defined in ORS chapter 215. The manufactured dwelling shall use the same subsurface sewage disposal system used by the existing dwelling, if that disposal system is adequate to accommodate the additional dwelling. If the manufactured home will use a public sanitary sewer system, such condition will not be required. Governing bodies shall review the permit authorizing such manufactured homes every two years. Within three months of the end of the hardship, the manufactured dwelling or recreational vehicle shall be removed or demolished or, in the case of an existing building, the building shall be removed, demolished or returned to an allowed nonresidential use. A temporary residence approved under this section is not eligible for replacement under ORS 215.213(1)(q) or 215.283(1)(p). Oregon Department of Environmental Quality review and removal requirements also apply. As used in this section "hardship" means a medical hardship or hardship for the care of an aged or infirm person or persons.

(11) Subject to the issuance of a license, permit or other approval by the Department of Environmental Quality under ORS 454.695, 459.205, 468B.050, 468B.053 or 468B.055, or in compliance with rules adopted under ORS 468B.095, and with the requirements of ORS 215.246, 215.247, 215.249 and 215.251, the land application of reclaimed water, agricultural process or industrial process water or biosolids for agricultural, horticultural or silvicultural production, or for irrigation in connection with a use allowed in an exclusive farm use zones under this division.

(12) In order to meet the requirements specified in the statute, a historic dwelling shall be listed on the National Register of Historic Places.

(13) Such uses may be established, subject to the adoption of the governing body or its designate of an exception to Goal 3, Agricultural Lands, and to any other applicable goal with which the facility or improvement does not comply. In addition, transportation uses and improvements may be authorized under conditions and standards as set forth in OAR 660-012-0035 and 660-012-0065.

(14) Home occupations and the parking of vehicles may be authorized. Home occupations shall be operated substantially in the dwelling or other buildings normally associated with uses permitted in the zone in which the property is located. A home occupation shall be operated by a resident or employee of a resident of the property on which the business is located, and shall employ on the site no more than five full-time or part-time persons.

(15) New uses that batch and blend mineral and aggregate into asphalt cement may not be authorized within two miles of a planted vineyard. Planted vineyard means one or more vineyards totaling 40 acres or more that are planted as of the date the application for batching and blending is filed.

(16)(a) A utility facility is necessary for public service if the facility must be sited in an exclusive farm use zone in order to provide the service. To demonstrate that a utility facility is necessary, an applicant must show that reasonable alternatives have been considered and that the facility must be sited in an exclusive farm use zone due to one or more of the following factors:

(A) Technical and engineering feasibility;

(B) The proposed facility is locationally dependent. A utility facility is locationally dependent if it must cross land in one or more areas zoned for exclusive farm use in order to achieve a reasonably direct route or to meet unique geographical needs that cannot be satisfied on other lands;

(C) Lack of available urban and nonresource lands;

(D) Availability of existing rights of way;

(E) Public health and safety; and

(F) Other requirements of state and federal agencies.

(b) Costs associated with any of the factors listed in subsection (16)(a) of this rule may be considered, but cost alone may not be the only consideration in determining that a utility facility is necessary for public service. Land costs shall not be included when considering alternative locations for substantially similar utility facilities and the siting of utility facilities that are not substantially similar.

ADMINISTRATIVE RULES

(c) The owner of a utility facility approved under this section shall be responsible for restoring, as nearly as possible, to its former condition any agricultural land and associated improvements that are damaged or otherwise disturbed by the siting, maintenance, repair or reconstruction of the facility. Nothing in this subsection shall prevent the owner of the utility facility from requiring a bond or other security from a contractor or otherwise imposing on a contractor the responsibility for restoration.

(d) The governing body of the county or its designee shall impose clear and objective conditions on an application for utility facility siting to mitigate and minimize the impacts of the proposed facility, if any, on surrounding lands devoted to farm use in order to prevent a significant change in accepted farm practices or a significant increase in the cost of farm practices on surrounding farmlands.

(e) In addition to the provisions of subsections 16(a) to (d) of this rule, the establishment or extension of a sewer system as defined by OAR 660-011-0060(1)(f) in an exclusive farm use zone shall be subject to the provisions of OAR 660-011-0060.

(f) The provisions of subsections 16(a) to (d) of this rule do not apply to interstate natural gas pipelines and associated facilities authorized by and subject to regulation by the Federal Energy Regulatory Commission.

(17) A power generation facility shall not preclude more than 12 acres from use as a commercial agricultural enterprise unless an exception is taken pursuant to OAR chapter 660, division 4.

(18)(a) Existing facilities wholly within a farm use zone may be maintained, enhanced or expanded on the same tract, subject to other requirements of law. An existing golf course may be expanded consistent with the requirements of sections (5) and (20) of this rule, but shall not be expanded to contain more than 36 total holes.

(b) In addition to and not in lieu of the authority in ORS 215.130 to continue, alter, restore or replace a use that has been disallowed by the enactment or amendment of a zoning ordinance or regulation, a use formerly allowed pursuant to ORS 215.213 (1)(a) or 215.283 (1)(a), as in effect before the effective date of 2009 Or Laws Chapter 850, section 14, may be expanded subject to:

(A) The requirements of subsection (c) of this section; and

(B) Conditional approval of the county in the manner provided in ORS 215.296.

(c) A nonconforming use described in subsection (b) of this section may be expanded under this section if:

(A) The use was established on or before January 1, 2009; and

(B) The expansion occurs on:

(i) The tax lot on which the use was established on or before January 1, 2009; or

(ii) A tax lot that is contiguous to the tax lot described in subparagraph

(i) of this paragraph and that was owned by the applicant on January 1, 2009.

(19)(a) Except on a lot or parcel contiguous to a lake or reservoir, private campgrounds shall not be allowed within three miles of an urban growth boundary unless an exception is approved pursuant to ORS 197.732 and OAR chapter 660, division 4. A campground is an area devoted to overnight temporary use for vacation, recreational or emergency purposes, but not for residential purposes and is established on a site or is contiguous to lands with a park or other outdoor natural amenity that is accessible for recreational use by the occupants of the campground. A campground shall be designed and integrated into the rural agricultural and forest environment in a manner that protects the natural amenities of the site and provides buffers of existing native trees and vegetation or other natural features between campsites. Campgrounds authorized by this rule shall not include intensively developed recreational uses such as swimming pools, tennis courts, retail stores or gas stations. Overnight temporary use in the same campground by a camper or camper's vehicle shall not exceed a total of 30 days during any consecutive 6 month period.

(b) Campsites may be occupied by a tent, travel trailer, yurt or recreational vehicle. Separate sewer, water or electric service hook-ups shall not be provided to individual camp sites except that electrical service may be provided to yurts allowed for by subsection (19)(c) of this rule.

(c) Subject to the approval of the county governing body or its designee, a private campground may provide yurts for overnight camping. No more than one-third or a maximum of 10 campsites, whichever is smaller, may include a yurt. The yurt shall be located on the ground or on a wood floor with no permanent foundation. Upon request of a county governing body, the Land Conservation and Development Commission may provide by rule for an increase in the number of yurts allowed on all or a portion of the campgrounds in a county if the Commission determines that the increase will comply with the standards described in ORS 215.296(1). As

used in section (19) of this rule, "yurt" means a round, domed shelter of cloth or canvas on a collapsible frame with no plumbing, sewage disposal hook-up or internal cooking appliance.

(20) "Golf Course" means an area of land with highly maintained natural turf laid out for the game of golf with a series of 9 or more holes, each including a tee, a fairway, a putting green, and often one or more natural or artificial hazards. A "golf course" for purposes of ORS 215.213(2)(f), 215.283(2)(f) and this division means a 9 or 18 hole regulation golf course or a combination 9 and 18 hole regulation golf course consistent with the following:

(a) A regulation 18 hole golf course is generally characterized by a site of about 120 to 150 acres of land, has a playable distance of 5,000 to 7,200 yards, and a par of 64 to 73 strokes;

(b) A regulation 9 hole golf course is generally characterized by a site of about 65 to 90 acres of land, has a playable distance of 2,500 to 3,600 yards, and a par of 32 to 36 strokes;

(c) Non-regulation golf courses are not allowed uses within these areas. "Non-regulation golf course" means a golf course or golf course-like development that does not meet the definition of golf course in this rule, including but not limited to executive golf courses, Par 3 golf courses, pitch and putt golf courses, miniature golf courses and driving ranges;

(d) Counties shall limit accessory uses provided as part of a golf course consistent with the following standards:

(A) An accessory use to a golf course is a facility or improvement that is incidental to the operation of the golf course and is either necessary for the operation and maintenance of the golf course or that provides goods or services customarily provided to golfers at a golf course. An accessory use or activity does not serve the needs of the non-golfing public. Accessory uses to a golf course may include: Parking; maintenance buildings; cart storage and repair; practice range or driving range; clubhouse; restrooms; lockers and showers; food and beverage service; pro shop; a practice or beginners course as part of an 18 hole or larger golf course; or golf tournament. Accessory uses to a golf course do not include: Sporting facilities unrelated to golfing such as tennis courts, swimming pools, and weight rooms; wholesale or retail operations oriented to the non-golfing public; or housing.

(B) Accessory uses shall be limited in size and orientation on the site to serve the needs of persons and their guests who patronize the golf course to golf. An accessory use that provides commercial services (e.g., pro shop, etc.) shall be located in the clubhouse rather than in separate buildings.

(C) Accessory uses may include one or more food and beverage service facilities in addition to food and beverage service facilities located in a clubhouse. Food and beverage service facilities must be part of and incidental to the operation of the golf course and must be limited in size and orientation on the site to serve only the needs of persons who patronize the golf course and their guests. Accessory food and beverage service facilities shall not be designed for or include structures for banquets, public gatherings or public entertainment.

(21) "Living History Museum" means a facility designed to depict and interpret everyday life and culture of some specific historic period using authentic buildings, tools, equipment and people to simulate past activities and events. As used in this rule, a living history museum shall be related to resource based activities and shall be owned and operated by a governmental agency or a local historical society. A living history museum may include limited commercial activities and facilities that are directly related to the use and enjoyment of the museum and located within authentic buildings of the depicted historic period or the museum administration building, if areas other than an exclusive farm use zone cannot accommodate the museum and related activities or if the museum administration buildings and parking lot are located within one quarter mile of an urban growth boundary. "Local historical society" means the local historical society, recognized as such by the county governing body and organized under ORS chapter 65.

(22) A power generation facility shall not preclude more than 20 acres from use as a commercial agricultural enterprise unless an exception is taken pursuant to ORS 197.732 and OAR chapter 660, division 4.

(23) A farm stand may be approved if:

(a) The structures are designed and used for sale of farm crops and livestock grown on the farm operation, or grown on the farm operation and other farm operations in the local agricultural area, including the sale of retail incidental items and fee-based activity to promote the sale of farm crops or livestock sold at the farm stand, if the annual sales of the incidental items and fees from promotional activity do not make up more than 25 percent of the total annual sales of the farm stand; and

ADMINISTRATIVE RULES

(b) The farm stand does not include structures designed for occupancy as a residence or for activities other than the sale of farm crops and livestock and does not include structures for banquets, public gatherings or public entertainment.

(c) As used in this section, "farm crops or livestock" includes both fresh and processed farm crops and livestock grown on the farm operation, or grown on the farm operation and other farm operations in the local agricultural area. As used in this subsection, "processed crops and livestock" includes jams, syrups, apple cider, animal products and other similar farm crops and livestock that have been processed and converted into another product but not prepared food items.

(d) As used in this section, "local agricultural area" includes Oregon or an adjacent county in Washington, Idaho, Nevada or California that borders the Oregon county in which the farm stand is located.

(24) Accessory farm dwellings as defined by subsection (24)(e) of this section may be considered customarily provided in conjunction with farm use if:

(a) Each accessory farm dwelling meets all the following requirements:

(A) The accessory farm dwelling will be occupied by a person or persons who will be principally engaged in the farm use of the land and whose seasonal or year-round assistance in the management of the farm use, such as planting, harvesting, marketing or caring for livestock, is or will be required by the farm operator; and

(B) The accessory farm dwelling will be located:

(i) On the same lot or parcel as the primary farm dwelling; or

(ii) On the same tract as the primary farm dwelling when the lot or parcel on which the accessory farm dwelling will be sited is consolidated into a single parcel with all other contiguous lots and parcels in the tract; or

(iii) On a lot or parcel on which the primary farm dwelling is not located, when the accessory farm dwelling is limited to only a manufactured dwelling with a deed restriction. The deed restriction shall be filed with the county clerk and require the manufactured dwelling to be removed when the lot or parcel is conveyed to another party. The manufactured dwelling may remain if it is reappraised under these rules; or

(iv) On a lot or parcel on which the primary farm dwelling is not located, when the accessory farm dwelling is limited to only attached multi-unit residential structures allowed by the applicable state building code or similar types of farm labor housing as existing farm labor housing on the farm or ranch operation registered with the Department of Consumer and Business Services, Oregon Occupational Safety and Health Division under ORS 658.750. A county shall require all accessory farm dwellings approved under this subparagraph to be removed, demolished or converted to a non-residential use when farm worker housing is no longer required; or

(v) On a lot or parcel on which the primary farm dwelling is not located, when the accessory farm dwelling is located on a lot or parcel at least the size of the applicable minimum lot size under ORS 215.780 and the lot or parcel complies with the gross farm income requirements in OAR 660-033-0135(5) or (7), whichever is applicable; and

(C) There is no other dwelling on the lands designated for exclusive farm use owned by the farm operator that is vacant or currently occupied by persons not working on the subject farm or ranch and that could reasonably be used as an accessory farm dwelling.

(b) In addition to the requirements in subsection (a) of this section, the primary farm dwelling to which the proposed dwelling would be accessory, meets one of the following:

(A) On land not identified as high-value farmland, the primary farm dwelling is located on a farm or ranch operation that is currently employed for farm use, as defined in ORS 215.203, and produced in the last two years or three of the last five years the lower of the following:

(i) At least \$40,000 in gross annual income from the sale of farm products. In determining the gross income, the cost of purchased livestock shall be deducted from the total gross income attributed to the tract.

(ii) Gross annual income of at least the midpoint of the median income range of gross annual sales for farms in the county with the gross annual sales of \$10,000 or more according to the 1992 Census of Agriculture, Oregon. In determining the gross income, the cost of purchased livestock shall be deducted from the total gross income attributed to the tract; or

(B) On land identified as high-value farmland, the primary farm dwelling is located on a farm or ranch operation that is currently employed for farm use, as defined in ORS 215.203, and produced at least \$80,000 in gross annual income from the sale of farm products in the last two years or three of the last five years. In determining the gross income, the cost of pur-

chased livestock shall be deducted from the total gross income attributed to the tract; or

(C) On land not identified as high-value farmland in counties that have adopted marginal lands provisions under ORS 197.247 (1991 Edition) before January 1, 1993, the primary farm dwelling is located on a farm or ranch operation that meets the standards and requirements of ORS 215.213(2)(a) or (b) or 660-033-0130(24)(b)(A); or

(D) It is located on a commercial dairy farm as defined by OAR 660-033-0135(11); and

(i) The building permits, if required, have been issued and construction has begun or been completed for the buildings and animal waste facilities required for a commercial dairy farm; and

(ii) The Oregon Department of Agriculture has approved a permit for a "confined animal feeding operation" under ORS 468B.050 and 468B.200 to 468B.230; and

(iii) A Producer License for the sale of dairy products under ORS 621.072.

(c) The governing body of a county shall not approve any proposed division of a lot or parcel for an accessory farm dwelling approved pursuant to this section. If it is determined that an accessory farm dwelling satisfies the requirements of OAR 660-033-0135, a parcel may be created consistent with the minimum parcel size requirements in OAR 660-033-0100;

(d) An accessory farm dwelling approved pursuant to this section cannot later be used to satisfy the requirements for a dwelling not provided in conjunction with farm use pursuant to section (4) of this rule.

(e) For the purposes of OAR 660-033-0130(24), "accessory farm dwelling" includes all types of residential structures allowed by the applicable state building code."

(25) In counties that have adopted marginal lands provisions under ORS 197.247 (1991 Edition) before January 1, 1993, an armed forces reserve center, if the center is within one-half mile of a community college. An "armed forces reserve center" includes an armory or National Guard support facility.

(26) Buildings and facilities shall not be more than 500 square feet in floor area or placed on a permanent foundation unless the building or facility preexisted the use approved under this section. The site shall not include an aggregate surface or hard surface area unless the surface preexisted the use approved under this section. An owner of property used for the purpose authorized in this paragraph may charge a person operating the use on the property rent for the property. An operator may charge users of the property a fee that does not exceed the operator's cost to maintain the property, buildings and facilities. As used in this section, "model aircraft" means a small-scale version of an airplane, glider, helicopter, dirigible or balloon that is used or intended to be used for flight and controlled by radio, lines or design by a person on the ground.

(27) Insect species shall not include any species under quarantine by the State Department of Agriculture or the United States Department of Agriculture. The county shall provide notice of all applications under this section to the State Department of Agriculture. Notice shall be provided in accordance with the county's land use regulations but shall be mailed at least 20 calendar days prior to any administrative decision or initial public hearing on the application.

(28) The farm on which the processing facility is located must provide at least one-quarter of the farm crops processed at the facility. The building established for the processing facility shall not exceed 10,000 square feet of floor area exclusive of the floor area designated for preparation, storage or other farm use or devote more than 10,000 square feet to the processing activities within another building supporting farm use. A processing facility shall comply with all applicable siting standards but the standards shall not be applied in a manner that prohibits the siting of the processing facility. A county shall not approve any division of a lot or parcel that separates a processing facility from the farm operation on which it is located.

(29)(a) Composting operations and facilities allowed on high-value farmland are limited to those that are exempt from a permit from the Department of Environmental Quality (DEQ) under OAR 340-093-0050, only require approval of an Agricultural Compost Management Plan by the Oregon Department of Agriculture, or require a permit from the DEQ under OAR 340-093-0050 where the compost is applied primarily on the subject farm or used to manage and dispose of by-products generated on the subject farm. Excess compost may be sold to neighboring farm operations in the local area and shall be limited to bulk loads of at least one unit (7.5 cubic yards) in size. Buildings and facilities used in conjunction with the composting operation shall only be those required for the operation of the subject facility.

ADMINISTRATIVE RULES

(b) Composting operations and facilities allowed on land not defined as high-value farmland shall be limited to the composting operations and facilities allowed by subsection (29)(a) of this rule or that require a permit from the Department of Environmental Quality under OAR 340-093-0050. Buildings and facilities used in conjunction with the composting operation shall only be those required for the operation of the subject facility. Onsite sales shall be limited to bulk loads of at least one unit (7.5 cubic yards) in size that are transported in one vehicle.

(30) The County governing body or its designate shall require as a condition of approval of a single-family dwelling under ORS 215.213, 215.283 or 215.284 or otherwise in a farm or forest zone, that the landowner for the dwelling sign and record in the deed records for the county a document binding the landowner, and the landowner's successors in interest, prohibiting them from pursuing a claim for relief or cause of action alleging injury from farming or forest practices for which no action or claim is allowed under ORS 30.936 or 30.937.

(31) Public parks including only the uses specified under OAR 660-034-0035 or 660-034-0040, whichever is applicable.

(32) Utility facility service lines are utility lines and accessory facilities or structures that end at the point where the utility service is received by the customer and that are located on one or more of the following:

(a) A public right of way;

(b) Land immediately adjacent to a public right of way, provided the written consent of all adjacent property owners has been obtained; or

(c) The property to be served by the utility.

(34) Any gathering subject to review by a county planning commission under the provisions of ORS 433.763. These gatherings and any part of which is held in open spaces are those of more than 3,000 persons which continue or can reasonably be expected to continue for more than 120 hours within any three-month period.

(35)(a) As part of the conditional use approval process under ORS 215.296 and OAR 660-033-0130(5), for the purpose of verifying the existence, continuity and nature of the business described in ORS 215.213(2)(w) or 215.283(2)(y), representatives of the business may apply to the county and submit evidence including, but not limited to, sworn affidavits or other documentary evidence that the business qualifies; and

(b) Alteration, restoration or replacement of a use authorized in ORS 215.213(2)(w) or 215.283(2)(y) may be altered, restored or replaced pursuant to ORS 215.130(5), (6) and (9).

(36) For counties subject to ORS 215.283 and not 215.213, a community center authorized under this section may provide services to veterans, including but not limited to emergency and transitional shelter, preparation and service of meals, vocational and educational counseling and referral to local, state or federal agencies providing medical, mental health, disability income replacement and substance abuse services, only in a facility that is in existence on January 1, 2006. The services may not include direct delivery of medical, mental health, disability income replacement or substance abuse services.

(37) For purposes of this rule a wind power generation facility includes, but is not limited to, the following system components: all wind turbine towers and concrete pads, permanent meteorological towers and wind measurement devices, electrical cable collection systems connecting wind turbine towers with the relevant power substation, new or expanded private roads (whether temporary or permanent) constructed to serve the wind power generation facility, office and operation and maintenance buildings, temporary lay-down areas and all other necessary appurtenances. A proposal for a wind power generation facility shall be subject to the following provisions:

(a) For high-value farmland soils described at ORS 195.300(10), the governing body or its designate must find that all of the following are satisfied:

(A) Reasonable alternatives have been considered to show that siting the wind power generation facility or component thereof on high-value farmland soils is necessary for the facility or component to function properly or if a road system or turbine string must be placed on such soils to achieve a reasonably direct route considering the following factors:

(i) Technical and engineering feasibility;

(ii) Availability of existing rights of way; and

(iii) The long term environmental, economic, social and energy consequences of siting the facility or component on alternative sites, as determined under OAR 660-033-0130(37)(a)(B).

(B) The long-term environmental, economic, social and energy consequences resulting from the wind power generation facility or any components thereof at the proposed site with measures designed to reduce adverse impacts are not significantly more adverse than would typically result from the same proposal being located on other agricultural lands that do not include high-value farmland soils.

(C) Costs associated with any of the factors listed in OAR 660-033-0130(37)(a)(A) may be considered, but costs alone may not be the only consideration in determining that siting any component of a wind power generation facility on high-value farmland soils is necessary.

(D) The owner of a wind power generation facility approved under OAR 660-033-0130(37)(a) shall be responsible for restoring, as nearly as possible, to its former condition any agricultural land and associated improvements that are damaged or otherwise disturbed by the siting, maintenance, repair or reconstruction of the facility. Nothing in this subsection shall prevent the owner of the facility from requiring a bond or other security from a contractor or otherwise imposing on a contractor the responsibility for restoration.

(E) The criteria of OAR 660-033-0130(37)(b) are satisfied.

(b) For arable lands, meaning lands that are cultivated or suitable for cultivation, including high-value farmland soils described at ORS 195.300(10), the governing body or its designate must find that:

(A) The proposed wind power facility will not create unnecessary negative impacts on agricultural operations conducted on the subject property. Negative impacts could include, but are not limited to, the unnecessary construction of roads, dividing a field or multiple fields in such a way that creates small or isolated pieces of property that are more difficult to farm, and placing wind farm components such as meteorological towers on lands in a manner that could disrupt common and accepted farming practices; and

(B) The presence of a proposed wind power facility will not result in unnecessary soil erosion or loss that could limit agricultural productivity on the subject property. This provision may be satisfied by the submittal and county approval of a soil and erosion control plan prepared by an adequately qualified individual, showing how unnecessary soil erosion will be avoided or remedied and how topsoil will be stripped, stockpiled and clearly marked. The approved plan shall be attached to the decision as a condition of approval; and

(C) Construction or maintenance activities will not result in unnecessary soil compaction that reduces the productivity of soil for crop production. This provision may be satisfied by the submittal and county approval of a plan prepared by an adequately qualified individual, showing how unnecessary soil compaction will be avoided or remedied in a timely manner through deep soil decompaction or other appropriate practices. The approved plan shall be attached to the decision as a condition of approval; and

(D) Construction or maintenance activities will not result in the unabated introduction or spread of noxious weeds and other undesirable weeds species. This provision may be satisfied by the submittal and county approval of a weed control plan prepared by an adequately qualified individual that includes a long-term maintenance agreement. The approved plan shall be attached to the decision as a condition of approval.

(c) For nonarable lands, meaning lands that are not suitable for cultivation, the governing body or its designate must find that the requirements of OAR 660-033-0130(37)(b)(D) are satisfied.

(d) In the event that a wind power generation facility is proposed on a combination of arable and nonarable lands as described in OAR 660-033-0130(37)(b) and (c) the approval criteria of OAR 660-033-0130(37)(b) shall apply to the entire project.

ADMINISTRATIVE RULES

Subject: The temporary rule supplements existing provisions for private campgrounds on lands designated for exclusive farm use. Existing private campground provisions contemplate recreational users and limit campground stays to a total of 30-days during any consecutive 180-day period. The temporary rule is intended to support large scale construction projects by allowing extended stays in existing and new private campgrounds and providing for the establishment of temporary camping facilities under certain circumstances.

Minimum Standards Applicable to the Schedule of Permitted and Conditional Uses

The following standards apply to uses listed in OAR 660-033-0120 where the corresponding section number is shown on the chart for a specific use under consideration. Where no numerical reference is indicated on the chart, this division does not specify any minimum review or approval criteria. Counties may include procedures and conditions in addition to those listed in the chart as authorized by law:

(1) A dwelling on farmland may be considered customarily provided in conjunction with farm use if it meets the requirements of OAR 660-033-0135.

(2)(a) No enclosed structure with a design capacity greater than 100 people, or group of structures with a total design capacity of greater than 100 people, shall be approved in connection with the use within three miles of an urban growth boundary, unless an exception is approved pursuant to ORS 197.732 and OAR chapter 660, division 4, or unless the structure is described in a master plan adopted under the provisions of OAR chapter 660, division 34.

(b) Any enclosed structures or group of enclosed structures described in subsection (a) within a tract must be separated by at least one-half mile. For purposes of this section, “tract” means a tract as defined by ORS 215.010(2) that is in existence as of the effective date of this section.

(c) Existing facilities wholly within a farm use zone may be maintained, enhanced or expanded on the same tract, subject to other requirements of law, but enclosed existing structures within a farm use zone within three miles of an urban growth boundary may not be expanded beyond the requirements of this rule.

(3)(a) A dwelling may be approved if:

(A) The lot or parcel on which the dwelling will be sited was lawfully created and was acquired and owned continuously by the present owner as defined in subsection (3)(g) of this rule:

(i) Since prior to January 1, 1985; or

(ii) By devise or by intestate succession from a person who acquired and had owned continuously the lot or parcel since prior to January 1, 1985.

(B) The tract on which the dwelling will be sited does not include a dwelling;

(C) The lot or parcel on which the dwelling will be sited was part of a tract on November 4, 1993, no dwelling exists on another lot or parcel that was part of that tract;

(D) The proposed dwelling is not prohibited by, and will comply with, the requirements of the acknowledged comprehensive plan and land use regulations and other provisions of law;

(E) The lot or parcel on which the dwelling will be sited is not high-value farmland except as provided in subsections (3)(c) and (d) of this rule;

(F) When the lot or parcel on which the dwelling will be sited lies within an area designated in an acknowledged comprehensive plan as habitat of big game, the siting of the dwelling is consistent with the limitations on density upon which the acknowledged comprehensive plan and land use regulations intended to protect the habitat are based.

(b) When the lot or parcel on which the dwelling will be sited is part of a tract, the remaining portions of the tract are consolidated into a single lot or parcel when the dwelling is allowed;

(c) Notwithstanding the requirements of paragraph (3)(a)(E) of this rule, a single-family dwelling may be sited on high-value farmland if:

(A) It meets the other requirements of subsections (3)(a) and (b) of this rule;

(B) The lot or parcel is protected as high-value farmland as defined in OAR 660-033-0020(8)(a); and

(C) A hearings officer of a county determines that:

(i) The lot or parcel cannot practicably be managed for farm use, by itself or in conjunction with other land, due to extraordinary circumstances inherent in the land or its physical setting that do not apply generally to other land in the vicinity. For the purposes of this section, this criterion asks whether the subject lot or parcel can be physically put to farm use without

undue hardship or difficulty because of extraordinary circumstances inherent in the land or its physical setting. Neither size alone nor a parcel’s limited economic potential demonstrate that a lot or parcel cannot be practicably managed for farm use. Examples of “extraordinary circumstances inherent in the land or its physical setting” include very steep slopes, deep ravines, rivers, streams, roads, railroad or utility lines or other similar natural or physical barriers that by themselves or in combination separate the subject lot or parcel from adjacent agricultural land and prevent it from being practicably managed for farm use by itself or together with adjacent or nearby farms. A lot or parcel that has been put to farm use despite the proximity of a natural barrier or since the placement of a physical barrier shall be presumed manageable for farm use.

(ii) The dwelling will comply with the provisions of ORS 215.296(1);

(iii) The dwelling will not materially alter the stability of the overall land use pattern in the area by applying the standards set forth in paragraph (4)(a)(D) of this rule.

(D) A local government shall provide notice of all applications for dwellings allowed under subsection (3)(c) of this rule to the State Department of Agriculture. Notice shall be provided in accordance with the governing body’s land use regulations but shall be mailed at least 20 calendar days prior to the public hearing before the hearings officer under paragraph (3)(c)(C) of this rule.

(d) Notwithstanding the requirements of paragraph (3)(a)(E) of this rule, a single-family dwelling may be sited on high-value farmland if:

(A) It meets the other requirements of subsections (3)(a) and (b) of this rule;

(B) The tract on which the dwelling will be sited is:

(i) Identified in OAR 660-033-0020(8)(c) or (d); and

(ii) Not high-value farmland defined in OAR 660-033-0020(8)(a); and

(iii) Twenty-one acres or less in size; and

(C)(i) The tract is bordered on at least 67 percent of its perimeter by tracts that are smaller than 21 acres, and at least two such tracts had dwellings on January 1, 1993; or

(ii) The tract is not a flaglot and is bordered on at least 25 percent of its perimeter by tracts that are smaller than 21 acres, and at least four dwellings existed on January 1, 1993, within 1/4 mile of the center of the subject tract. Up to two of the four dwellings may lie within an urban growth boundary, but only if the subject tract abuts an urban growth boundary; or

(D) The tract is a flaglot and is bordered on at least 25 percent of its perimeter by tracts that are smaller than 21 acres, and at least four dwellings existed on January 1, 1993, within 1/4 mile of the center of the subject tract and on the same side of the public road that provides access to the subject tract. The governing body of a county must interpret the center of the subject tract as the geographic center of the flaglot if the applicant makes a written request for that interpretation and that interpretation does not cause the center to be located outside the flaglot. Up to two of the four dwellings may lie within an urban growth boundary, but only if the subject tract abuts an urban growth boundary:

(i) “flaglot” means a tract containing a narrow strip or panhandle of land providing access from the public road to the rest of the tract.

(ii) “Geographic center of the flaglot” means the point of intersection of two perpendicular lines of which the first line crosses the midpoint of the longest side of a flaglot, at a 90-degree angle to the side, and the second line crosses the midpoint of the longest adjacent side of the flaglot.

(e) If land is in a zone that allows both farm and forest uses is acknowledged to be in compliance with both Goals 3 and 4 and may qualify as an exclusive farm use zone under ORS chapter 215, a county may apply the standards for siting a dwelling under either section (3) of this rule or OAR 660-006-0027, as appropriate for the predominant use of the tract on January 1, 1993;

(f) A county may, by application of criteria adopted by ordinance, deny approval of a dwelling allowed under section (3) of this rule in any area where the county determines that approval of the dwelling would:

(A) Exceed the facilities and service capabilities of the area;

(B) Materially alter the stability of the overall land use pattern of the area; or

(C) Create conditions or circumstances that the county determines would be contrary to the purposes or intent of its acknowledged comprehensive plan or land use regulations.

(g) For purposes of subsection (3)(a) of this rule, “owner” includes the wife, husband, son, daughter, mother, father, brother, brother-in-law, sister, sister-in-law, son-in-law, daughter-in-law, mother-in-law, father-in-law, aunt, uncle, nephew, stepparent, stepchild, grandparent or grandchild of the

ADMINISTRATIVE RULES

owner or a business entity owned by any one or a combination of these family members;

(h) The county assessor shall be notified that the governing body intends to allow the dwelling.

(i) When a local government approves an application for a single-family dwelling under section (3) of this rule, the application may be transferred by a person who has qualified under section (3) of this rule to any other person after the effective date of the land use decision.

(4) Requires approval of the governing body or its designate in any farmland area zoned for exclusive farm use:

(a) In the Willamette Valley, the use may be approved if:

(A) The dwelling or activities associated with the dwelling will not force a significant change in or significantly increase the cost of accepted farming or forest practices on nearby lands devoted to farm or forest use;

(B) The dwelling will be sited on a lot or parcel that is predominantly composed of Class IV through VIII soils that would not, when irrigated, be classified as prime, unique, Class I or II soils;

(C) The dwelling will be sited on a lot or parcel created before January 1, 1993;

(D) The dwelling will not materially alter the stability of the overall land use pattern of the area. In determining whether a proposed nonfarm dwelling will alter the stability of the land use pattern in the area, a county shall consider the cumulative impact of possible new nonfarm dwellings and parcels on other lots or parcels in the area similarly situated. To address this standard, the county shall:

(i) Identify a study area for the cumulative impacts analysis. The study area shall include at least 2000 acres or a smaller area not less than 1000 acres, if the smaller area is a distinct agricultural area based on topography, soil types, land use pattern, or the type of farm or ranch operations or practices that distinguish it from other, adjacent agricultural areas. Findings shall describe the study area, its boundaries, the location of the subject parcel within this area, why the selected area is representative of the land use pattern surrounding the subject parcel and is adequate to conduct the analysis required by this standard. Lands zoned for rural residential or other urban or nonresource uses shall not be included in the study area;

(ii) Identify within the study area the broad types of farm uses (irrigated or nonirrigated crops, pasture or grazing lands), the number, location and type of existing dwellings (farm, nonfarm, hardship, etc.), and the dwelling development trends since 1993. Determine the potential number of nonfarm/lot-of-record dwellings that could be approved under subsections (3)(a), (3)(d) and section (4) of this rule, including identification of predominant soil classifications, the parcels created prior to January 1, 1993 and the parcels larger than the minimum lot size that may be divided to create new parcels for nonfarm dwellings under ORS 215.263(4). The findings shall describe the existing land use pattern of the study area including the distribution and arrangement of existing uses and the land use pattern that could result from approval of the possible nonfarm dwellings under this subparagraph;

(iii) Determine whether approval of the proposed nonfarm/lot-of-record dwellings together with existing nonfarm dwellings will materially alter the stability of the land use pattern in the area. The stability of the land use pattern will be materially altered if the cumulative effect of existing and potential nonfarm dwellings will make it more difficult for the existing types of farms in the area to continue operation due to diminished opportunities to expand, purchase or lease farmland, acquire water rights or diminish the number of tracts or acreage in farm use in a manner that will destabilize the overall character of the study area;

(E) The dwelling complies with such other conditions as the governing body or its designate considers necessary.

(b) In the Willamette Valley, on a lot or parcel allowed under OAR 660-033-0100(11) of this rule, the use may be approved if:

(A) The dwelling or activities associated with the dwelling will not force a significant change in or significantly increase the cost of accepted farming or forest practices on nearby lands devoted to farm or forest use;

(B) The dwelling will not materially alter the stability of the overall land use pattern of the area. In determining whether a proposed nonfarm dwelling will alter the stability of the land use pattern in the area, a county shall consider the cumulative impact of nonfarm dwellings on other lots or parcels in the area similarly situated and whether creation of the parcel will lead to creation of other nonfarm parcels, to the detriment of agriculture in the area by applying the standards set forth in paragraph (4)(a)(D) of this rule; and

(C) The dwelling complies with such other conditions as the governing body or its designate considers necessary.

(c) In counties located outside the Willamette Valley require findings that:

(A) The dwelling or activities associated with the dwelling will not force a significant change in or significantly increase the cost of accepted farming or forest practices on nearby lands devoted to farm or forest use;

(B)(i) The dwelling is situated upon a lot or parcel, or a portion of a lot or parcel, that is generally unsuitable land for the production of farm crops and livestock or merchantable tree species, considering the terrain, adverse soil or land conditions, drainage and flooding, vegetation, location and size of the tract. A lot or parcel or portion of a lot or parcel shall not be considered unsuitable solely because of size or location if it can reasonably be put to farm or forest use in conjunction with other land; and

(ii) A lot or parcel or portion of a lot or parcel is not "generally unsuitable" simply because it is too small to be farmed profitably by itself. If a lot or parcel or portion of a lot or parcel can be sold, leased, rented or otherwise managed as a part of a commercial farm or ranch, then the lot or parcel or portion of the lot or parcel is not "generally unsuitable". A lot or parcel or portion of a lot or parcel is presumed to be suitable if, in Western Oregon it is composed predominantly of Class I-IV soils or, in Eastern Oregon, it is composed predominantly of Class I-VI soils. Just because a lot or parcel or portion of a lot or parcel is unsuitable for one farm use does not mean it is not suitable for another farm use; or

(iii) If the parcel is under forest assessment, the dwelling shall be situated upon generally unsuitable land for the production of merchantable tree species recognized by the Forest Practices Rules, considering the terrain, adverse soil or land conditions, drainage and flooding, vegetation, location and size of the parcel. If a lot or parcel is under forest assessment, the area is not "generally unsuitable" simply because it is too small to be managed for forest production profitably by itself. If a lot or parcel under forest assessment can be sold, leased, rented or otherwise managed as a part of a forestry operation, it is not "generally unsuitable". If a lot or parcel is under forest assessment, it is presumed suitable if, in Western Oregon, it is composed predominantly of soils capable of producing 50 cubic feet of wood fiber per acre per year, or in Eastern Oregon it is composed predominantly of soils capable of producing 20 cubic feet of wood fiber per acre per year. If a lot or parcel is under forest assessment, to be found compatible and not seriously interfere with forest uses on surrounding land it must not force a significant change in forest practices or significantly increase the cost of those practices on the surrounding land;

(C) The dwelling will not materially alter the stability of the overall land use pattern of the area. In determining whether a proposed nonfarm dwelling will alter the stability of the land use pattern in the area, a county shall consider the cumulative impact of nonfarm dwellings on other lots or parcels in the area similarly situated by applying the standards set forth in paragraph (4)(a)(D) of this rule. If the application involves the creation of a new parcel for the nonfarm dwelling, a county shall consider whether creation of the parcel will lead to creation of other nonfarm parcels, to the detriment of agriculture in the area by applying the standards set forth in paragraph (4)(a)(D) of this rule; and

(D) The dwelling complies with such other conditions as the governing body or its designate considers necessary.

(d) If a single-family dwelling is established on a lot or parcel as set forth in section (3) of this rule or OAR 660-006-0027, no additional dwelling may later be sited under the provisions of section (4) of this rule;

(e) Counties that have adopted marginal lands provisions before January 1, 1993, shall apply the standards in ORS 215.213(3) -- (8) for nonfarm dwellings on lands zoned exclusive farm use that are not designated marginal or high-value farmland.

(5) Approval requires review by the governing body or its designate under ORS 215.296. Uses may be approved only where such uses:

(a) Will not force a significant change in accepted farm or forest practices on surrounding lands devoted to farm or forest use; and

(b) Will not significantly increase the cost of accepted farm or forest practices on lands devoted to farm or forest use.

(6) Such facility shall not seriously interfere with accepted farming practices and shall be compatible with farm uses described in ORS 215.203(2). Such facility may be approved for a one-year period which is renewable and is intended to be only portable or temporary in nature. The primary processing of a forest product, as used in this section, means the use of a portable chipper or stud mill or other similar methods of initial treatment of a forest product in order to enable its shipment to market. Forest products as used in this section means timber grown upon a tract where the primary processing facility is located.

(7) A personal use airport as used in this section means an airstrip restricted, except for aircraft emergencies, to use by the owner, and on an

ADMINISTRATIVE RULES

infrequent and occasional basis, by invited guests, and by commercial aviation activities in connection with agricultural operations. No aircraft may be based on a personal use airport other than those owned or controlled by the owner of the airstrip. Exceptions to the activities permitted under this definition may be granted through waiver action by the Oregon Department of Aviation in specific instances. A personal use airport lawfully existing as of September 13, 1975, shall continue to be permitted subject to any applicable rules of the Oregon Department of Aviation.

(8)(a) A lawfully established dwelling is a single family dwelling which:

(A) Has intact exterior walls and roof structure;

(B) Has indoor plumbing consisting of a kitchen sink, toilet and bathing facilities connected to a sanitary waste disposal system;

(C) Has interior wiring for interior lights; and

(D) Has a heating system.

(b) In the case of replacement, the dwelling to be replaced shall be:

(i) Removed, demolished, or converted to an allowable use within three months of the completion of the replacement dwelling. A replacement dwelling may be sited on any part of the same lot or parcel. A dwelling established under this section shall comply with all applicable siting standards. However, the standards shall not be applied in a manner that prohibits the siting of the dwelling. If the dwelling to be replaced is located on a portion of the lot or parcel not zoned for exclusive farm use, the applicant, as a condition of approval, shall execute and record in the deed records for the county where the property is located a deed restriction prohibiting the siting of a dwelling on that portion of the lot or parcel. The restriction imposed shall be irrevocable unless a statement of release is placed in the deed records for the county. The release shall be signed by the county or its designee and state that the provisions of this section regarding replacement dwellings have changed to allow the siting of another dwelling. The county planning director or the director's designee shall maintain a record of the lots and parcels that do not qualify for the siting of a new dwelling under the provisions of this section, including a copy of the deed restrictions and release statements filed under this section; and

(ii) For which the applicant has requested a deferred replacement permit, is removed or demolished within three months after the deferred replacement permit is issued. A deferred replacement permit allows construction of the replacement dwelling at any time. If, however, the established dwelling is not removed or demolished within three months after the deferred replacement permit is issued, the permit becomes void. The replacement dwelling must comply with applicable building codes, plumbing codes, sanitation codes and other requirements relating to health and safety or to siting at the time of construction. A deferred replacement permit may not be transferred, by sale or otherwise, except by the applicant to the spouse or a child of the applicant.

(c) An accessory farm dwelling authorized pursuant to OAR 660-033-0130(24)(a)(B)(iii), may only be replaced by a manufactured dwelling.

(9)(a) To qualify, a dwelling shall be occupied by persons whose assistance in the management and farm use of the existing commercial farming operation is required by the farm operator. The farm operator shall continue to play the predominant role in the management and farm use of the farm. A farm operator is a person who operates a farm, doing the work and making the day-to-day decisions about such things as planting, harvesting, feeding and marketing.

(b) Notwithstanding ORS 92.010 to 92.190 or the minimum lot or parcel requirements under ORS 215.780, if the owner of a dwelling described in OAR 660-033-0130(9) obtains construction financing or other financing secured by the dwelling and the secured party forecloses on the dwelling, the secured party may also foreclose on the homesite, as defined in ORS 308A.250, and the foreclosure shall operate as a partition of the homesite to create a new parcel. Prior conditions of approval for the subject land and dwelling remain in effect.

(c) For the purpose of OAR 660-033-0130(9)(b), "foreclosure" means only those foreclosures that are exempt from partition under ORS 92.010(7)(a).

(10) A manufactured dwelling, or recreational vehicle, or the temporary residential use of an existing building allowed under this provision is a temporary use for the term of the hardship suffered by the existing resident or relative as defined in ORS chapter 215. The manufactured dwelling shall use the same subsurface sewage disposal system used by the existing dwelling, if that disposal system is adequate to accommodate the additional dwelling. If the manufactured home will use a public sanitary sewer system, such condition will not be required. Governing bodies shall review the permit authorizing such manufactured homes every two years. Within three months of the end of the hardship, the manufactured dwelling or recre-

ational vehicle shall be removed or demolished or, in the case of an existing building, the building shall be removed, demolished or returned to an allowed nonresidential use. A temporary residence approved under this section is not eligible for replacement under ORS 215.213(1)(q) or 215.283(1)(p). Oregon Department of Environmental Quality review and removal requirements also apply. As used in this section "hardship" means a medical hardship or hardship for the care of an aged or infirm person or persons.

(11) Subject to the issuance of a license, permit or other approval by the Department of Environmental Quality under ORS 454.695, 459.205, 468B.050, 468B.053 or 468B.055, or in compliance with rules adopted under ORS 468B.095, and with the requirements of ORS 215.246, 215.247, 215.249 and 215.251, the land application of reclaimed water, agricultural process or industrial process water or biosolids for agricultural, horticultural or silvicultural production, or for irrigation in connection with a use allowed in an exclusive farm use zones under this division.

(12) In order to meet the requirements specified in the statute, a historic dwelling shall be listed on the National Register of Historic Places.

(13) Such uses may be established, subject to the adoption of the governing body or its designate of an exception to Goal 3, Agricultural Lands, and to any other applicable goal with which the facility or improvement does not comply. In addition, transportation uses and improvements may be authorized under conditions and standards as set forth in OAR 660-012-0035 and 660-012-0065.

(14) Home occupations and the parking of vehicles may be authorized. Home occupations shall be operated substantially in the dwelling or other buildings normally associated with uses permitted in the zone in which the property is located. A home occupation shall be operated by a resident or employee of a resident of the property on which the business is located, and shall employ on the site no more than five full-time or part-time persons.

(15) New uses that batch and blend mineral and aggregate into asphalt cement may not be authorized within two miles of a planted vineyard. Planted vineyard means one or more vineyards totaling 40 acres or more that are planted as of the date the application for batching and blending is filed.

(16)(a) A utility facility is necessary for public service if the facility must be sited in an exclusive farm use zone in order to provide the service. To demonstrate that a utility facility is necessary, an applicant must show that reasonable alternatives have been considered and that the facility must be sited in an exclusive farm use zone due to one or more of the following factors:

(A) Technical and engineering feasibility;

(B) The proposed facility is locationally dependent. A utility facility is locationally dependent if it must cross land in one or more areas zoned for exclusive farm use in order to achieve a reasonably direct route or to meet unique geographical needs that cannot be satisfied on other lands;

(C) Lack of available urban and nonresource lands;

(D) Availability of existing rights of way;

(E) Public health and safety; and

(F) Other requirements of state and federal agencies.

(b) Costs associated with any of the factors listed in subsection (16)(a) of this rule may be considered, but cost alone may not be the only consideration in determining that a utility facility is necessary for public service. Land costs shall not be included when considering alternative locations for substantially similar utility facilities and the siting of utility facilities that are not substantially similar.

(c) The owner of a utility facility approved under this section shall be responsible for restoring, as nearly as possible, to its former condition any agricultural land and associated improvements that are damaged or otherwise disturbed by the siting, maintenance, repair or reconstruction of the facility. Nothing in this subsection shall prevent the owner of the utility facility from requiring a bond or other security from a contractor or otherwise imposing on a contractor the responsibility for restoration.

(d) The governing body of the county or its designee shall impose clear and objective conditions on an application for utility facility siting to mitigate and minimize the impacts of the proposed facility, if any, on surrounding lands devoted to farm use in order to prevent a significant change in accepted farm practices or a significant increase in the cost of farm practices on surrounding farmlands.

(e) In addition to the provisions of subsections 16(a) to (d) of this rule, the establishment or extension of a sewer system as defined by OAR 660-011-0060(1)(f) in an exclusive farm use zone shall be subject to the provisions of OAR 660-011-0060.

ADMINISTRATIVE RULES

(f) The provisions of subsections 16(a) to (d) of this rule do not apply to interstate natural gas pipelines and associated facilities authorized by and subject to regulation by the Federal Energy Regulatory Commission.

(17) A power generation facility shall not preclude more than 12 acres from use as a commercial agricultural enterprise unless an exception is taken pursuant to OAR chapter 660, division 4.

(18)(a) Existing facilities wholly within a farm use zone may be maintained, enhanced or expanded on the same tract, subject to other requirements of law. An existing golf course may be expanded consistent with the requirements of sections (5) and (20) of this rule, but shall not be expanded to contain more than 36 total holes.

(b) In addition to and not in lieu of the authority in ORS 215.130 to continue, alter, restore or replace a use that has been disallowed by the enactment or amendment of a zoning ordinance or regulation, a use formerly allowed pursuant to ORS 215.213 (1)(a) or 215.283 (1)(a), as in effect before the effective date of 2009 Or Laws Chapter 850, section 14, may be expanded subject to:

(A) The requirements of subsection (c) of this section; and

(B) Conditional approval of the county in the manner provided in ORS 215.296.

(c) A nonconforming use described in subsection (b) of this section may be expanded under this section if:

(A) The use was established on or before January 1, 2009; and

(B) The expansion occurs on:

(i) The tax lot on which the use was established on or before January 1, 2009; or

(ii) A tax lot that is contiguous to the tax lot described in subparagraph (i) of this paragraph and that was owned by the applicant on January 1, 2009.

(19)(a) Except on a lot or parcel contiguous to a lake or reservoir, private campgrounds shall not be allowed within three miles of an urban growth boundary unless an exception is approved pursuant to ORS 197.732 and OAR chapter 660, division 4. A campground is an area devoted to overnight temporary use for vacation, recreational or emergency purposes, but not for residential purposes and is established on a site or is contiguous to lands with a park or other outdoor natural amenity that is accessible for recreational use by the occupants of the campground. A campground shall be designed and integrated into the rural agricultural and forest environment in a manner that protects the natural amenities of the site and provides buffers of existing native trees and vegetation or other natural features between campsites. Campgrounds authorized by this rule shall not include intensively developed recreational uses such as swimming pools, tennis courts, retail stores or gas stations. Overnight temporary use in the same campground by a camper or camper's vehicle shall not exceed a total of 30 days during any consecutive 6 month period.

(b) Campsites may be occupied by a tent, travel trailer, yurt or recreational vehicle. Separate sewer, water or electric service hook-ups shall not be provided to individual camp sites except that electrical service may be provided to yurts allowed for by subsection (19)(c) of this rule.

(c) Subject to the approval of the county governing body or its designee, a private campground may provide yurts for overnight camping. No more than one-third or a maximum of 10 campsites, whichever is smaller, may include a yurt. The yurt shall be located on the ground or on a wood floor with no permanent foundation. Upon request of a county governing body, the Land Conservation and Development Commission may provide by rule for an increase in the number of yurts allowed on all or a portion of the campgrounds in a county if the Commission determines that the increase will comply with the standards described in ORS 215.296(1). As used in section (19) of this rule, "yurt" means a round, domed shelter of cloth or canvas on a collapsible frame with no plumbing, sewage disposal hook-up or internal cooking appliance.

(d) Notwithstanding the relevant provisions of paragraphs (a), (b) or (c) above, a county may authorize new temporary campgrounds and camper stays exceeding a total of 30 days in a consecutive six month period in an existing private campground to provide temporary workforce housing opportunities for a large-scale construction project that has received all necessary land use approvals. As used in this rule a "large-scale construction project" means commercial utility facilities for the purpose of generating power for public use by sale, including wind power generation facilities, and transmission facilities including natural gas pipelines and electrical transmission lines and towers. In addition:

(A) A new temporary campground authorized under this paragraph only may include minimal physical structures for shelter and restroom facilities, the minimum amount of on-site water, wastewater and power services necessary to accommodate the use, and up to 16 campsites. All

structures and facilities in a new temporary campground must be temporary in nature.

(B) A new temporary campground must either be retired and removed, or converted to an allowed use upon completion of construction of the large-scale construction project. In addition, the authorization for extended stays in an existing private campground under this paragraph terminates upon completion of construction of the large-scale construction project.

(C) A new temporary campground of four or fewer temporary campsites does not require land use approval and may be considered an allowed temporary use subject to local siting standards so long as no permanent facilities are established, the camping activity is located within 100 yards of existing residential or agricultural structures located on the same property and the camping activity ceases when the large scale construction project has been completed.

(20) "Golf Course" means an area of land with highly maintained natural turf laid out for the game of golf with a series of 9 or more holes, each including a tee, a fairway, a putting green, and often one or more natural or artificial hazards. A "golf course" for purposes of ORS 215.213(2)(f), 215.283(2)(f) and this division means a 9 or 18 hole regulation golf course or a combination 9 and 18 hole regulation golf course consistent with the following:

(a) A regulation 18 hole golf course is generally characterized by a site of about 120 to 150 acres of land, has a playable distance of 5,000 to 7,200 yards, and a par of 64 to 73 strokes;

(b) A regulation 9 hole golf course is generally characterized by a site of about 65 to 90 acres of land, has a playable distance of 2,500 to 3,600 yards, and a par of 32 to 36 strokes;

(c) Non-regulation golf courses are not allowed uses within these areas. "Non-regulation golf course" means a golf course or golf course-like development that does not meet the definition of golf course in this rule, including but not limited to executive golf courses, Par 3 golf courses, pitch and putt golf courses, miniature golf courses and driving ranges;

(d) Counties shall limit accessory uses provided as part of a golf course consistent with the following standards:

(A) An accessory use to a golf course is a facility or improvement that is incidental to the operation of the golf course and is either necessary for the operation and maintenance of the golf course or that provides goods or services customarily provided to golfers at a golf course. An accessory use or activity does not serve the needs of the non-golfing public. Accessory uses to a golf course may include: Parking; maintenance buildings; cart storage and repair; practice range or driving range; clubhouse; restrooms; lockers and showers; food and beverage service; pro shop; a practice or beginners course as part of an 18 hole or larger golf course; or golf tournament. Accessory uses to a golf course do not include: Sporting facilities unrelated to golfing such as tennis courts, swimming pools, and weight rooms; wholesale or retail operations oriented to the non-golfing public; or housing.

(B) Accessory uses shall be limited in size and orientation on the site to serve the needs of persons and their guests who patronize the golf course to golf. An accessory use that provides commercial services (e.g., pro shop, etc.) shall be located in the clubhouse rather than in separate buildings.

(C) Accessory uses may include one or more food and beverage service facilities in addition to food and beverage service facilities located in a clubhouse. Food and beverage service facilities must be part of and incidental to the operation of the golf course and must be limited in size and orientation on the site to serve only the needs of persons who patronize the golf course and their guests. Accessory food and beverage service facilities shall not be designed for or include structures for banquets, public gatherings or public entertainment.

(21) "Living History Museum" means a facility designed to depict and interpret everyday life and culture of some specific historic period using authentic buildings, tools, equipment and people to simulate past activities and events. As used in this rule, a living history museum shall be related to resource based activities and shall be owned and operated by a governmental agency or a local historical society. A living history museum may include limited commercial activities and facilities that are directly related to the use and enjoyment of the museum and located within authentic buildings of the depicted historic period or the museum administration building, if areas other than an exclusive farm use zone cannot accommodate the museum and related activities or if the museum administration buildings and parking lot are located within one quarter mile of an urban growth boundary. "Local historical society" means the local historical society, recognized as such by the county governing body and organized under ORS chapter 65.

ADMINISTRATIVE RULES

(22) A power generation facility shall not preclude more than 20 acres from use as a commercial agricultural enterprise unless an exception is taken pursuant to ORS 197.732 and OAR chapter 660, division 4.

(23) A farm stand may be approved if:

(a) The structures are designed and used for sale of farm crops and livestock grown on the farm operation, or grown on the farm operation and other farm operations in the local agricultural area, including the sale of retail incidental items and fee-based activity to promote the sale of farm crops or livestock sold at the farm stand, if the annual sales of the incidental items and fees from promotional activity do not make up more than 25 percent of the total annual sales of the farm stand; and

(b) The farm stand does not include structures designed for occupancy as a residence or for activities other than the sale of farm crops and livestock and does not include structures for banquets, public gatherings or public entertainment.

(c) As used in this section, "farm crops or livestock" includes both fresh and processed farm crops and livestock grown on the farm operation, or grown on the farm operation and other farm operations in the local agricultural area. As used in this subsection, "processed crops and livestock" includes jams, syrups, apple cider, animal products and other similar farm crops and livestock that have been processed and converted into another product but not prepared food items.

(d) As used in this section, "local agricultural area" includes Oregon or an adjacent county in Washington, Idaho, Nevada or California that borders the Oregon county in which the farm stand is located.

(24) Accessory farm dwellings as defined by subsection (24)(e) of this section may be considered customarily provided in conjunction with farm use if:

(a) Each accessory farm dwelling meets all the following requirements:

(A) The accessory farm dwelling will be occupied by a person or persons who will be principally engaged in the farm use of the land and whose seasonal or year-round assistance in the management of the farm use, such as planting, harvesting, marketing or caring for livestock, is or will be required by the farm operator; and

(B) The accessory farm dwelling will be located:

(i) On the same lot or parcel as the primary farm dwelling; or

(ii) On the same tract as the primary farm dwelling when the lot or parcel on which the accessory farm dwelling will be sited is consolidated into a single parcel with all other contiguous lots and parcels in the tract; or

(iii) On a lot or parcel on which the primary farm dwelling is not located, when the accessory farm dwelling is limited to only a manufactured dwelling with a deed restriction. The deed restriction shall be filed with the county clerk and require the manufactured dwelling to be removed when the lot or parcel is conveyed to another party. The manufactured dwelling may remain if it is reapproved under these rules; or

(iv) On a lot or parcel on which the primary farm dwelling is not located, when the accessory farm dwelling is limited to only attached multi-unit residential structures allowed by the applicable state building code or similar types of farm labor housing as existing farm labor housing on the farm or ranch operation registered with the Department of Consumer and Business Services, Oregon Occupational Safety and Health Division under ORS 658.750. A county shall require all accessory farm dwellings approved under this subparagraph to be removed, demolished or converted to a non-residential use when farm worker housing is no longer required; or

(v) On a lot or parcel on which the primary farm dwelling is not located, when the accessory farm dwelling is located on a lot or parcel at least the size of the applicable minimum lot size under ORS 215.780 and the lot or parcel complies with the gross farm income requirements in OAR 660-033-0135(5) or (7), whichever is applicable; and

(C) There is no other dwelling on the lands designated for exclusive farm use owned by the farm operator that is vacant or currently occupied by persons not working on the subject farm or ranch and that could reasonably be used as an accessory farm dwelling.

(b) In addition to the requirements in subsection (a) of this section, the primary farm dwelling to which the proposed dwelling would be accessory, meets one of the following:

(A) On land not identified as high-value farmland, the primary farm dwelling is located on a farm or ranch operation that is currently employed for farm use, as defined in ORS 215.203, and produced in the last two years or three of the last five years the lower of the following:

(i) At least \$40,000 in gross annual income from the sale of farm products. In determining the gross income, the cost of purchased livestock shall be deducted from the total gross income attributed to the tract.

(ii) Gross annual income of at least the midpoint of the median income range of gross annual sales for farms in the county with the gross annual sales of \$10,000 or more according to the 1992 Census of Agriculture, Oregon. In determining the gross income, the cost of purchased livestock shall be deducted from the total gross income attributed to the tract; or

(B) On land identified as high-value farmland, the primary farm dwelling is located on a farm or ranch operation that is currently employed for farm use, as defined in ORS 215.203, and produced at least \$80,000 in gross annual income from the sale of farm products in the last two years or three of the last five years. In determining the gross income, the cost of purchased livestock shall be deducted from the total gross income attributed to the tract; or

(C) On land not identified as high-value farmland in counties that have adopted marginal lands provisions under ORS 197.247 (1991 Edition) before January 1, 1993, the primary farm dwelling is located on a farm or ranch operation that meets the standards and requirements of ORS 215.213(2)(a) or (b) or OAR 660-033-0130(24)(b)(A); or

(D) It is located on a commercial dairy farm as defined by OAR 660-033-0135(11); and

(i) The building permits, if required, have been issued and construction has begun or been completed for the buildings and animal waste facilities required for a commercial dairy farm; and

(ii) The Oregon Department of Agriculture has approved a permit for a "confined animal feeding operation" under ORS 468B.050 and 468B.200 to 468B.230; and

(iii) A Producer License for the sale of dairy products under ORS 621.072.

(c) The governing body of a county shall not approve any proposed division of a lot or parcel for an accessory farm dwelling approved pursuant to this section. If it is determined that an accessory farm dwelling satisfies the requirements of OAR 660-033-0135, a parcel may be created consistent with the minimum parcel size requirements in OAR 660-033-0100;

(d) An accessory farm dwelling approved pursuant to this section cannot later be used to satisfy the requirements for a dwelling not provided in conjunction with farm use pursuant to section (4) of this rule.

(e) For the purposes of OAR 660-033-0130(24), "accessory farm dwelling" includes all types of residential structures allowed by the applicable state building code."

(25) In counties that have adopted marginal lands provisions under ORS 197.247 (1991 Edition) before January 1, 1993, an armed forces reserve center, if the center is within one-half mile of a community college. An "armed forces reserve center" includes an armory or National Guard support facility.

(26) Buildings and facilities shall not be more than 500 square feet in floor area or placed on a permanent foundation unless the building or facility preexisted the use approved under this section. The site shall not include an aggregate surface or hard surface area unless the surface preexisted the use approved under this section. An owner of property used for the purpose authorized in this paragraph may charge a person operating the use on the property rent for the property. An operator may charge users of the property a fee that does not exceed the operator's cost to maintain the property, buildings and facilities. As used in this section, "model aircraft" means a small-scale version of an airplane, glider, helicopter, dirigible or balloon that is used or intended to be used for flight and controlled by radio, lines or design by a person on the ground.

(27) Insect species shall not include any species under quarantine by the State Department of Agriculture or the United States Department of Agriculture. The county shall provide notice of all applications under this section to the State Department of Agriculture. Notice shall be provided in accordance with the county's land use regulations but shall be mailed at least 20 calendar days prior to any administrative decision or initial public hearing on the application.

(28) The farm on which the processing facility is located must provide at least one-quarter of the farm crops processed at the facility. The building established for the processing facility shall not exceed 10,000 square feet of floor area exclusive of the floor area designated for preparation, storage or other farm use or devote more than 10,000 square feet to the processing activities within another building supporting farm use. A processing facility shall comply with all applicable siting standards but the standards shall not be applied in a manner that prohibits the siting of the processing facility. A county shall not approve any division of a lot or parcel that separates a processing facility from the farm operation on which it is located.

(29)(a) Composting operations and facilities allowed on high-value farmland are limited to those that are exempt from a permit from the

ADMINISTRATIVE RULES

Department of Environmental Quality (DEQ) under OAR 340-093-0050, only require approval of an Agricultural Compost Management Plan by the Oregon Department of Agriculture, or require a permit from the DEQ under OAR 340-093-0050 where the compost is applied primarily on the subject farm or used to manage and dispose of by-products generated on the subject farm. Excess compost may be sold to neighboring farm operations in the local area and shall be limited to bulk loads of at least one unit (7.5 cubic yards) in size. Buildings and facilities used in conjunction with the composting operation shall only be those required for the operation of the subject facility.

(b) Composting operations and facilities allowed on land not defined as high-value farmland shall be limited to the composting operations and facilities allowed by subsection (29)(a) of this rule or that require a permit from the Department of Environmental Quality under OAR 340-093-0050. Buildings and facilities used in conjunction with the composting operation shall only be those required for the operation of the subject facility. Onsite sales shall be limited to bulk loads of at least one unit (7.5 cubic yards) in size that are transported in one vehicle.

(30) The County governing body or its designate shall require as a condition of approval of a single-family dwelling under ORS 215.213, 215.283 or 215.284 or otherwise in a farm or forest zone, that the landowner for the dwelling sign and record in the deed records for the county a document binding the landowner, and the landowner's successors in interest, prohibiting them from pursuing a claim for relief or cause of action alleging injury from farming or forest practices for which no action or claim is allowed under ORS 30.936 or 30.937.

(31) Public parks including only the uses specified under OAR 660-034-0035 or 660-034-0040, whichever is applicable.

(32) Utility facility service lines are utility lines and accessory facilities or structures that end at the point where the utility service is received by the customer and that are located on one or more of the following:

(a) A public right of way;

(b) Land immediately adjacent to a public right of way, provided the written consent of all adjacent property owners has been obtained; or

(c) The property to be served by the utility.

(33) An outdoor mass gathering as defined in ORS 433.735 or other gathering of fewer than 3,000 persons that is not anticipated to continue for more than 120 hours in any three month period is not a "land use decision" as defined in ORS 197.015(10) or subject to review under this Division.

(34) Any gathering subject to review by a county planning commission under the provisions of ORS 433.763. These gatherings and any part of which is held in open spaces are those of more than 3,000 persons which continue or can reasonably be expected to continue for more than 120 hours within any three-month period.

(35)(a) As part of the conditional use approval process under ORS 215.296 and OAR 660-033-0130(5), for the purpose of verifying the existence, continuity and nature of the business described in ORS 215.213(2)(w) or 215.283(2)(y), representatives of the business may apply to the county and submit evidence including, but not limited to, sworn affidavits or other documentary evidence that the business qualifies; and

(b) Alteration, restoration or replacement of a use authorized in ORS 215.213(2)(w) or 215.283(2)(y) may be altered, restored or replaced pursuant to ORS 215.130(5), (6) and (9).

(36) For counties subject to ORS 215.283 and not 215.213, a community center authorized under this section may provide services to veterans, including but not limited to emergency and transitional shelter, preparation and service of meals, vocational and educational counseling and referral to local, state or federal agencies providing medical, mental health, disability income replacement and substance abuse services, only in a facility that is in existence on January 1, 2006. The services may not include direct delivery of medical, mental health, disability income replacement or substance abuse services.

(37) For purposes of this rule a wind power generation facility includes, but is not limited to, the following system components: all wind turbine towers and concrete pads, permanent meteorological towers and wind measurement devices, electrical cable collection systems connecting wind turbine towers with the relevant power substation, new or expanded private roads (whether temporary or permanent) constructed to serve the wind power generation facility, office and operation and maintenance buildings, temporary lay-down areas and all other necessary appurtenances. A proposal for a wind power generation facility shall be subject to the following provisions:

(a) For high-value farmland soils described at ORS 195.300(10), the governing body or its designate must find that all of the following are satisfied:

(A) Reasonable alternatives have been considered to show that siting the wind power generation facility or component thereof on high-value farmland soils is necessary for the facility or component to function properly or if a road system or turbine string must be placed on such soils to achieve a reasonably direct route considering the following factors:

(i) Technical and engineering feasibility;

(ii) Availability of existing rights of way; and

(iii) The long term environmental, economic, social and energy consequences of siting the facility or component on alternative sites, as determined under OAR 660-033-0130(37)(a)(B).

(B) The long-term environmental, economic, social and energy consequences resulting from the wind power generation facility or any components thereof at the proposed site with measures designed to reduce adverse impacts are not significantly more adverse than would typically result from the same proposal being located on other agricultural lands that do not include high-value farmland soils.

(C) Costs associated with any of the factors listed in OAR 660-033-0130(37)(a)(A) may be considered, but costs alone may not be the only consideration in determining that siting any component of a wind power generation facility on high-value farmland soils is necessary.

(D) The owner of a wind power generation facility approved under OAR 660-033-0130(37)(a) shall be responsible for restoring, as nearly as possible, to its former condition any agricultural land and associated improvements that are damaged or otherwise disturbed by the siting, maintenance, repair or reconstruction of the facility. Nothing in this subsection shall prevent the owner of the facility from requiring a bond or other security from a contractor or otherwise imposing on a contractor the responsibility for restoration.

(E) The criteria of OAR 660-033-0130(37)(b) are satisfied.

(b) For arable lands, meaning lands that are cultivated or suitable for cultivation, including high-value farmland soils described at ORS 195.300(10), the governing body or its designate must find that:

(A) The proposed wind power facility will not create unnecessary negative impacts on agricultural operations conducted on the subject property. Negative impacts could include, but are not limited to, the unnecessary construction of roads, dividing a field or multiple fields in such a way that creates small or isolated pieces of property that are more difficult to farm, and placing wind farm components such as meteorological towers on lands in a manner that could disrupt common and accepted farming practices; and

(B) The presence of a proposed wind power facility will not result in unnecessary soil erosion or loss that could limit agricultural productivity on the subject property. This provision may be satisfied by the submittal and county approval of a soil and erosion control plan prepared by an adequately qualified individual, showing how unnecessary soil erosion will be avoided or remedied and how topsoil will be stripped, stockpiled and clearly marked. The approved plan shall be attached to the decision as a condition of approval; and

(C) Construction or maintenance activities will not result in unnecessary soil compaction that reduces the productivity of soil for crop production. This provision may be satisfied by the submittal and county approval of a plan prepared by an adequately qualified individual, showing how unnecessary soil compaction will be avoided or remedied in a timely manner through deep soil decompaction or other appropriate practices. The approved plan shall be attached to the decision as a condition of approval; and

(D) Construction or maintenance activities will not result in the unabated introduction or spread of noxious weeds and other undesirable weeds species. This provision may be satisfied by the submittal and county approval of a weed control plan prepared by an adequately qualified individual that includes a long-term maintenance agreement. The approved plan shall be attached to the decision as a condition of approval.

(c) For nonarable lands, meaning lands that are not suitable for cultivation, the governing body or its designate must find that the requirements of OAR 660-033-0130(37)(b)(D) are satisfied.

(d) In the event that a wind power generation facility is proposed on a combination of arable and nonarable lands as described in OAR 660-033-0130(37)(b) and (c) the approval criteria of OAR 660-033-0130(37)(b) shall apply to the entire project.

Withdrawal of Decision for Reconsideration

(1) If a local government or state agency, pursuant to ORS 197.830(13)(b), withdraws a decision for the purposes of reconsideration, it shall file a notice of withdrawal with the Board on or before the date the record is due. A copy of the decision on reconsideration shall be filed with the Board within 90 days after the filing of the notice of withdrawal or within such other time as the Board may allow.

(2) The filing of a notice of withdrawal under section (1) of this rule shall suspend proceedings on the appeal until a decision on reconsideration is filed with the Board, or the time designated therefor expires, unless otherwise ordered by the Board. If no decision on reconsideration is filed within the time designated therefor, the Board shall issue an order restarting the appeal.

(3) A copy of the decision on reconsideration under section (1) of this rule shall be filed with the Board within 7 days after the local government or state agency issues the decision on reconsideration and copies of the decision on reconsideration shall be served on all parties. The first page of the decision on reconsideration, or an accompanying transmittal letter, shall indicate the title and case number of the pending appeal before the Board.

(4) Petitioner(s) may seek review of the decision on reconsideration as provided in section (5) of this rule. Any other person may file a notice of intent to appeal the decision on reconsideration as provided in OAR 661-010-0015. If such an appeal is filed, and a petitioner files an amended notice of intent to appeal or refiles the original notice of intent to appeal as provided in section (5) of this rule, any party may move to consolidate the appeals challenging the decision on reconsideration as provided in OAR 661 010-0055.

(5) After the filing of a decision on reconsideration:

(a) If the petitioner wishes review by the Board of the decision on reconsideration:

(A) Except as provided in paragraph (B) of this subsection, the petitioner shall file an amended notice of intent to appeal together with two copies within 21 days after the decision on reconsideration is received by the Board.

(B) In the event the local government or state agency affirms its decision or modifies its decision with only minor revisions, the petitioner may refile the original notice of intent to appeal, with the date of the decision on reconsideration indicated thereon, together with two copies within 21 days after the decision on reconsideration is received by the Board.

(b) Refiling of the original notice of intent to appeal or filing of an amended notice of intent to appeal is accomplished by delivery of the Notice to the Board, or receipt of the Notice by the Board, on or before the due date. Filing or refiling may also be accomplished by mailing on or before the due date by first-class, certified or registered mail.

(c) An amended notice of intent to appeal or a refiled notice of intent to appeal under paragraphs (A) and (B) of subsection 5(a) of this rule shall conform with the requirements of OAR 661-010-0015(3) and shall be served on the following:

(A) All parties to the appeal suspended pursuant to section (2) of this rule;

(B) The applicant, if any (and if other than the petitioner). If an applicant was represented by an attorney before the governing body, then the name, address and telephone number of the applicant's attorney shall also be included;

(C) Any other person to whom written notice of the original or reconsidered land use decision or limited land use decision was mailed as shown on the governing body's records. The telephone number may be omitted for any such person.

(d) No additional filing fee or deposit for costs shall be required to refile the original notice of intent to appeal or file an amended notice of intent to appeal under subsection (5)(a) of this rule.

(e) If no amended notice of intent to appeal is filed or no original notice of intent to appeal is refiled, as provided in subsection (5)(a) and (b) of this rule, the appeal will be dismissed.

(f) Parties who have already intervened in the appeal need not file new motions to intervene when an amended notice of intent to appeal is filed or the original notice of intent to appeal is refiled.

(6) The local government or state agency shall, within 21 days after service of the amended notice of intent to appeal or refiled original notice of intent to appeal under subsection (5)(a) of this rule, transmit to the Board a certified copy of the record of the proceeding under review in accordance with OAR 661-010-0025. The record submitted by the local government or

Record

(1) Contents of Record: Unless the Board otherwise orders, or the parties otherwise agree in writing, the record shall include at least the following:

(a) The final decision including any findings of fact and conclusions of law.

(b) All written testimony and all exhibits, maps, documents or other written materials specifically incorporated into the record or placed before, and not rejected by, the final decision maker, during the course of the proceedings before the final decision maker.

(c) Minutes and tape, CD, DVD or other media recordings of the meetings conducted by the final decision maker as required by law, or incorporated into the record by the final decision maker. A verbatim transcript of media recordings shall not be required, but if a transcript has been prepared by the governing body, it shall be included. If a verbatim transcript is included in the record, the media recordings from which that transcript was prepared need not be included in the record, unless the accuracy of the transcript is challenged.

(d) Notices of proposed action, public hearing and adoption of a final decision, if any, published, posted or mailed during the course of the land use proceeding, including affidavits of publication, posting or mailing. Such notices shall include any notices concerning amendments to acknowledged comprehensive plans or land use regulations given pursuant to ORS 197.610(1) or 197.615(1) and (2).

(2) Transmittal of Record: The governing body shall, within 21 days after service of the Notice on the governing body, transmit to the Board a certified copy of the record of the proceeding under review. The governing body may, however, retain any large maps, media recordings, or difficult-to-duplicate documents and items until the date of oral argument. Transmittal of the record is accomplished by delivery of the record to the Board, or by receipt of the record by the Board, on or before the due date.

(3) Service of Record:

(a) Contemporaneously with transmittal, the governing body shall serve a paper copy of the record, exclusive of large maps, media recordings, and difficult-to-duplicate documents and items, on the petitioner or the lead petitioner, if one is designated. The governing body shall also serve a paper copy of the record on any other party, including intervenors-petitioner, requesting a copy provided such other party reimburses the governing body for the reasonable expense incurred in copying the record. The governing body shall also serve a copy of any media recording included in the record, or any recording from which a transcript included in the record was prepared, on any party requesting such a copy, provided such party reimburses the governing body for the reasonable expense incurred in copying the recording.

(b) By prior agreement of the party to be served, service of the record as described in OAR 661-010-0025(3)(a) may be in an electronic format instead of a paper copy. If copies of the record are served on the parties in electronic format only, the local government may not recover copying costs under OAR 661-010-0075(1)(b)(B) for such electronic copies of the record.

(4) Specifications of Record:

(a) The record, including any supplements or amendments, shall:

(A) Be filed in a suitable folder; the cover shall bear the title of the case as it appears in the Notice or in the Board's order consolidating multiple appeals, and the Board's numerical designation for the case, and shall indicate the numerical designation given the land use decision or limited land use decision by the governing body; if the record consists of multiple volumes, the cover shall indicate the page numbers contained in each volume;

(B) Begin with a table of contents, listing each item contained therein, and the page of the record where the item begins (see Exhibit 2). Where a listed item includes attached exhibits, the exhibits shall be separately listed. Each large map, media recording, item or document retained by the governing body under section (2) of this rule shall be separately listed at the end of the table of contents;

(C) Be securely fastened on the left side;

(D) Have pages numbered consecutively, with the page number at the bottom outside corner of each page;

(E) Be arranged in inverse chronological order, with the most recent item first. Exhibits attached to a record item shall be included according to the numerical or alphabetical order in which they are attached, not the date of the exhibits. Upon motion of the governing body, the Board may allow the record to be organized differently.

(b) Where the record includes the record of a prior appeal to this Board, the table of contents shall specify the LUBA number of the prior appeal, and indicate that the record of the prior appeal is incorporated into the record of the current appeal.

(c) A record that does not substantially conform to the preceding requirements may be rejected by the Board.

(5) If no record objection is filed and the governing body transmits an amendment to the record, the date the amendment is received by the Board shall be considered the date the record is received for the purpose of computing time limits as required by these rules.

Objections to the Record

(1) Before filing an objection to the record, a party shall attempt to resolve the matter with the governing body's legal counsel. The objecting party shall include a statement of compliance with this section at the same time the objection is filed. The Board may deny any objection to the record that does not comply with this rule.

(2) An objection to the record or an objection to an amendment or supplement to the record shall be filed with the Board within 14 days of the date appearing on the notice of record transmittal sent to the parties by the Board. A party may file a record objection while continuing to resolve objections with the governing body's legal counsel. Objections may be made on the following grounds:

(a) The record does not include all materials included as part of the record during the proceedings before the final decision maker. The omitted item(s) shall be specified, as well as the basis for the claim that the item(s) are part of the record.

(b) The record contains material not included as part of the record during the proceedings before the final decision maker. The item(s) not included as part of the record during the proceedings before the final decision maker shall be specified, as well as the bases for the claim that the item(s) are not part of the record.

(c) The minutes or transcripts of meetings or hearings are incomplete or do not accurately reflect the proceedings.

(d) The record does not conform to the requirements of OAR 661-010-0025(4).

(3) An objection on grounds that the minutes or transcripts are incomplete or inaccurate shall demonstrate with particularity how the minutes or transcripts are defective and shall explain with particularity why the defect is material. Upon such demonstration regarding contested minutes, the Board shall require the governing body to produce a transcript of the relevant portion of the proceeding, if an audiotape recording or other type of recording is available. Upon such demonstration regarding contested transcripts, the Board shall require the governing body to produce a more complete or amended transcript.

(4) A party may, within 14 days from the date of service of a record objection, file a response. The governing body's legal counsel shall, within 14 days of the filing of a record objection, either file a response to the record objection or advise the Board in writing of the status of the parties' efforts to resolve the record objection.

(5) The Board may, at its discretion, conduct a telephone conference with the parties to consider any objections to the record. A party desiring a telephone conference on an objection to the record shall include a request for a telephone conference in its objection to the record or response.

(6) If an objection to the record is filed, the time limits for all further procedures under these rules shall be suspended. When the objection is resolved, the Board shall issue an order declaring the record settled and setting forth the schedule for subsequent events. Unless otherwise provided by the Board, the date of the Board's order shall be deemed the date of receipt of the record for purposes of computing subsequent time limits.

An intervenor shall be designated as either petitioner or respondent in accordance with OAR 661-010-0050;

(d) Be typewritten or word-processed in proportionately spaced font such as Times New Roman no smaller than 12 point for text and 10 point for footnotes;

(e) Be double spaced, except that quotations and footnotes may be single-spaced with double space above and below each paragraph of quotation;

(f) Have text printed on only one side of the page; however, text may be printed on both sides of the page if the paper is sufficiently opaque to prevent material on one side from showing through, and the petition is bound along the left-hand margin so that the pages lie flat when open;

(g) Be printed on 8 1/2 by 11 inch paper, with numbers for each line of text;

(h) Have inside margins of 1 1/4 inches, outside margins of 1 inch, top and bottom margins of 3/4 inch; and

(i) Be signed on the last page by the author. In cases where multiple unrepresented petitioners or intervenors-petitioner file a single petition for review, the petition for review shall be signed by all petitioners or intervenors-petitioner who wish to join the petition for review.

(3) If the Board determines that the petition for review fails to conform with the requirements of section (2) of this rule, it shall notify the author, and a brief conforming with the requirements of section (2) shall be filed within three (3) days of notification by the Board. The Board may refuse to consider a brief that does not substantially conform to the requirements of this rule.

(4) Contents of Petition: The petition for review shall:

(a) State the facts that establish petitioner's standing;

(b) Present a clear and concise statement of the case, in the following order, with separate section headings:

(A) The nature of the land use decision or limited land use decision and the relief sought by petitioner;

(B) A summary of the arguments appearing under the assignments of error in the body of the petition;

(C) A summary of the material facts. The summary shall be in narrative form with citations to the pages of the record where the facts alleged can be found. Where there is a map in the record that helps illustrate the material facts, the petitioner shall include a copy of that map in the summary of the material facts or attach it as an appendix to the petition.

(c) State why the challenged decision is a land use decision or a limited land use decision subject to the Board's jurisdiction;

(d) Set forth each assignment of error under a separate heading. Where several assignments of error present essentially the same legal questions, the argument in support of those assignments of error shall be combined;

(e) Contain a copy of the challenged decision, including any adopted findings of fact and conclusions of law; and

(f) Contain a copy of any comprehensive plan provision, ordinance or other provision of local law cited in the petition, unless the provision is quoted verbatim in the petition.

(5) The petition for review may include appendices containing verbatim transcripts of relevant portions of media recordings that are part of the record.

(6) Amended Petition: A petition for review which fails to comply with section (4) of this rule may, with permission of the Board, be amended. The Board shall determine whether to allow an amended petition for review to be filed in accordance with OAR 661-010-0005.

(7) Cross Petition: Any respondent or intervenor-respondent who desires reversal or remand of an aspect of the decision on appeal regardless of the outcome under the petition for review may file a cross petition for review that includes one or more assignments of error. The cross petition for review may also include contingent cross-assignments of error, clearly labeled as such, that the Board will address only if the decision on appeal is reversed or remanded under the petition for review. The cover page shall identify the petition as a cross petition and the party filing the cross petition. The cross petition shall be filed within the time required for filing the petition for review and must comply in all respects with the requirements of this rule governing the petition for review, except that a notice of intent to appeal need not have been filed by such party.

Respondent's Brief

(1) Filing and Service of Brief: Unless otherwise provided by the Board, respondent's brief together with four copies shall be filed within 42 days after the date the record is received or settled by the Board. See OAR 661-010-0025(2) and 661-010-0026(6). A copy of the respondent's brief shall be served on the petitioner or the lead petitioner, if one is designated, and all intervenors or the lead intervenor, if one is designated.

(2) Specifications of Brief: Respondent's brief shall conform to the specifications of the petition for review at OAR 661-010-0030(2), except that the brief shall have red front and back covers. (3) Contents of Brief:

(a) The respondent's brief shall follow the form prescribed for the petition for review, but need not contain the final decision. The statement shall be in narrative form with citations to the pages of the record where the facts alleged can be found.

(b) Respondent shall accept or challenge petitioner's statement of the Board's jurisdiction and petitioner's statement of standing. The basis for any challenge shall be stated. If respondent contends that the facts alleged by petitioner in support of standing are not true, respondent shall specify which allegations are contested.

(c) A response brief shall not include an assignment of error or cross-assignment of error.

(4) The respondent's brief may include appendices containing verbatim transcripts of media recordings that are part of the record.

(5) Amended Brief: The Board may allow the filing of an amended brief in accordance with OAR 661-010-0005.

ADMINISTRATIVE RULES

661-010-0040

Oral Argument

(1) Only parties who have submitted briefs shall be allowed to present oral argument to the Board. The Board shall not consider issues raised for the first time at oral argument.

(2) If a party waives the right to present oral argument, the Board shall consider the case based on that party's brief and the briefs and oral arguments presented by other parties. The parties may, with consent of the Board, stipulate to submit a case to the Board on briefs without oral argument. If a party fails to appear at the time set for oral argument, the Board may deem the cause submitted without oral argument as to that party. A party's failure to so appear shall not preclude oral argument by other parties.

(3) The Board shall inform the parties of the time and place of oral argument. A party shall seek the consent of other parties before requesting a change in the scheduled time or date for oral argument.

(a) Unless the board otherwise orders, petitioner(s) shall be allowed 30 minutes for oral argument. Petitioner(s) may reserve up to 10 minutes for rebuttal following respondents' oral argument, to respond to arguments made during respondents' oral argument. Multiple petitioners shall share the 30 minutes.

(b) The respondent(s) shall be allowed 30 minutes to respond. Multiple respondents shall share the 30 minutes.

(c) The Board shall record all arguments, but any party may also arrange at its own expense to record the argument in some other manner.

(4) A state agency which has filed a brief pursuant to ORS 197.830(8) may move to argue orally before the Board. The motion shall be filed with the brief.

(5) Demonstrative exhibits presented at oral argument shall be limited to copies of materials already in the record, including reductions or enlargements, or materials created during the party's presentation at oral argument.

(6) The Board may conduct oral argument by telephone conference call.

661-010-0045

Taking Evidence Not in the Record

(1) Grounds for Motion to Take Evidence Not in the Record: The Board may, upon written motion, take evidence not in the record in the case of disputed factual allegations in the parties' briefs concerning unconstitutionality of the decision, standing, ex parte contacts, actions for the purpose of avoiding the requirements of ORS 215.427 or 227.178, or other procedural irregularities not shown in the record and which, if proved, would warrant reversal or remand of the decision. The Board may also upon motion or at its discretion take evidence to resolve disputes regarding the content of the record, requests for stays, attorney fees, or actual damages under ORS 197.845.

(2) Motions to Take Evidence:

(a) A motion to take evidence shall contain a statement explaining with particularity what facts the moving party seeks to establish, how those facts pertain to the grounds to take evidence specified in section (1) of this rule, and how those facts will affect the outcome of the review proceeding.

(b) A motion to take evidence shall be accompanied by:

(A) An affidavit or documentation that sets forth the facts the moving party seeks to establish; or

(B) An affidavit establishing the need to take evidence not available to the moving party, in the form of depositions or documents as provided in subsection (2)(c) or (d) of this rule.

(c) Depositions: the Board may order the testimony of any witness to be taken by deposition where a party establishes the relevancy and materiality of the anticipated testimony to the grounds for the motion, and the necessity of a deposition to obtain the testimony. Depositions under this rule shall be conducted in the same manner prescribed by law for depositions in civil actions (ORCP 38-40).

(d) Subpoenas: the Board shall issue subpoenas to any party upon a showing that the witness or documents to be subpoenaed will provide evidence relevant and material to the grounds for the motion. Subpoenas may also be issued under the signature of the attorney of record of a party. Witnesses appearing pursuant to subpoena, other than parties or employees of the Board, shall be tendered fees and mileage as prescribed by ORS 44.415(2) for witnesses in civil actions. The party requesting the subpoena

shall be responsible for service of the subpoena and tendering the witness and mileage fees to the witness.

(3) Any party may file a response within 14 days of the date of service of the motion to take evidence. The response shall specifically state what facts alleged in the motion are contested, with references to where contrary facts are found in the record or in affidavits or documents appended to the response.

(4) If the Board grants the motion to take evidence, the Board shall so notify the parties, and indicate whether it will decide the motion on the submitted materials, whether it will allow depositions or discovery of evidence under section (2), or whether it will schedule an evidentiary hearing on the motion.

(5) Conduct of Hearing:

(a) Where the Board schedules an evidentiary hearing, the hearing shall be conducted in the following order, insofar as the Board finds it practical:

(A) The moving party shall present its evidence including that of any witnesses;

(B) The other party(ies) shall have the opportunity to present evidence rebutting that of the moving party;

(C) The moving party may present surrebuttal evidence;

(b) Any witness is subject to cross examination by opposing parties.

(c) Any member of the Board may question any witness;

(d) The burden of presenting evidence in support of a fact or proposition rests on the proponent of the fact or proposition;

(e) The Board may continue a hearing, and may set time limits for any hearing;

(f) Exhibits shall be marked to identify the party offering the exhibits. The exhibits shall be preserved by the Board as part of the record.

(6) Evidentiary Rules:

(a) Evidence of a type commonly relied upon by reasonably prudent persons in conduct of their serious affairs shall be admissible.

(b) Irrelevant, immaterial or unduly repetitious evidence shall be excluded.

(c) All evidence not objected to shall be received by the Board, subject to the Board's power to exclude irrelevant, immaterial or unduly repetitious matter.

(d) Evidence objected to may be received by the Board. Rulings on the admissibility of such evidence, if not made at the hearing, shall be made at or before the time a final order is issued.

(e) Any time 14 days or more before a hearing, any party may serve on every other party an affidavit, certificate or other document the party proposes to introduce in evidence. Unless cross-examination of the affiant, certificate preparer or other document preparer or custodian is requested within seven days prior to hearing, the affidavit or certificate may be offered subject to the same standards and received with the same effect as oral testimony. If cross-examination is requested, and the requestor is informed within seven days prior to the hearing that the requested witness will not appear for cross-examination, the affidavit, certificate or other document may be received in evidence if the Board determines that the party requesting cross-examination would not be unduly prejudiced or injured by lack of cross-examination.

(7) Prehearing Conference: The Board, on its own motion or at the request of any party, may call a prehearing conference to consider:

(a) Simplification of the issues;

(b) The possibility of obtaining admissions of fact and documents which will avoid unnecessary proof;

(c) Limitation of the number of witnesses;

(d) The form and substance of any prehearing order;

(e) Such other matters as may aid in the disposition of the appeal.

(8) Proposed Prehearing Order: The Board, with or without a prehearing conference, may require that the parties prepare and sign a proposed prehearing order to be filed with the Board on or before a date specified by the Board. The order shall contain:

(a) A statement of contentions of law of each party;

(b) A concise statement of all contentions of fact to be proved by each party;

(c) A statement of all agreed facts;

(d) A list of witnesses and a summary of their testimony;

(e) A list of exhibits and a statement of the contents of each;

(f) Such other matters as the Board may require in order to expedite the hearing and appeal.

(9) Effect on Time Limits: Unless the Board orders otherwise, the filing of a motion to take evidence shall suspend the time limits for all other events in the review proceeding, including the issuance of the Board's final

ADMINISTRATIVE RULES

order. If the Board grants the motion, the time limits for other events shall remain suspended until the Board issues its findings. Unless the parties agree otherwise, the Board shall schedule any evidentiary hearing not less than ten days after the order granting the motion to take evidence is issued. If the Board denies a motion to take evidence, the time for all other events will begin to run on the date the Board issues its order denying the motion, or on such other date as is specified in that order.

Intervention

(1) Standing to Intervene: The applicant and any person who appeared before the local government, special district or state agency may intervene in a review proceeding before the Board. Status as an intervenor is recognized when a motion to intervene is filed, but the Board may deny that status at any time.

(2) Motion to Intervene: A motion to intervene shall be filed within 21 days of the date the notice of intent to appeal is filed pursuant to OAR 661-010-0015, or the amended notice of intent to appeal is filed or original notice of intent to appeal is refiled pursuant to OAR 661-010-0021. When two or more intervenors join in a motion to intervene and are unrepresented by an attorney, a lead intervenor shall be designated as the contact person for the purpose of receiving documents from the Board and other parties. The motion to intervene (see Exhibit 3) shall:

(a) List the names, addresses, and telephone numbers of all persons moving to intervene. If an attorney represents the intervenor(s), the attorney's name, address and telephone number shall be substituted for that of the intervenor(s);

(b) State whether the party is intervening on the side of the petitioner or the respondent;

(c) State the facts which show the party is entitled to intervene, supporting the statement with affidavits or other proof;

(d) On the last page, be signed by each intervenor, or the attorney representing that intervenor, on whose behalf the motion to intervene is filed;

(e) Be served upon the Board and all parties.

(3) Filing Fee: A motion to intervene shall be accompanied by a filing fee of \$100 payable to the Land Use Board of Appeals. If a motion to intervene is received without payment of the filing fee or a check providing the filing fee is returned for insufficient funds, the intervenor will be given an opportunity to submit the required fee. If the filing fee is not paid within the time set by the Board, the Board shall deny the motion to intervene. Cash shall not be accepted.

(4) Intervention in an appeal that is consolidated with other appeals does not allow the intervenor to appear as a party with respect to those appeals in which the intervenor has not filed a timely motion to intervene.

(5) Parties who have already intervened in an appeal need not file new motions to intervene when an amended notice of intent to appeal is filed or the original notice of intent to appeal is refiled pursuant to OAR 661-010-0021.

(6) Intervenor's Brief:

(a) If intervention is sought as a petitioner, the brief shall be filed within the time limit for filing the petition for review, and shall satisfy the requirements for a petition for review in OAR 661-010-0030.

(b) If intervention is sought as a respondent, the brief shall be filed within the time for filing a respondent's brief and shall satisfy the requirements for a respondent's brief in OAR 661-010-0035.

Amicus Participation

(1) A person or organization may appear as amicus only by permission of the Board on written motion. The motion shall set forth the interest of the movant and state reasons why a review of relevant issues would be significantly aided by participation of the amicus. A copy of the motion shall be served on all parties to the proceeding.

(2) Appearance as amicus shall be by brief only, unless the Board specifically authorizes or requests oral argument. An amicus brief shall be subject to the same rules as those governing briefs of parties to the appeal, and shall be filed together with four copies. Where amicus is aligned with the interests of the petitioner(s), the amicus brief is due seven days after the date the petition for review is due. In all other circumstances, the amicus brief is due within the time required for filing respondent's brief. No filing fee is required. An amicus brief shall have green front and back covers.

Motions

(1) When Motion is Appropriate: Unless these rules or applicable statutes provide another form of application, a request for an order or relief shall be made by filing a motion in writing for such order or relief. A motion shall show proof of service on all parties.

(2) Time of Filing: A party seeking to challenge the failure of an opposing party to comply with any of the requirements of statutes or Board rules shall make the challenge by motion filed with the Board and served on all parties within 14 days after the moving party obtains knowledge of such alleged failure. However, motions to dismiss for lack of jurisdiction may be filed at any time. An opposing party may, within 14 days from the date of service of a motion, file a response.

(3) How Submitted: Parties shall submit all motions without oral argument unless otherwise directed by the Board. A party that desires a telephone conference on a motion shall include a request for a telephone conference in its motion or response. The Board may, at its discretion, conduct a telephone conference with the parties to consider any motion.

(4) Effect of Filing Motion: Except as provided in OAR 661-010-0026(6) with regard to objections to the record and OAR 661-010-0045(9) with regard to motions to take evidence, or as may otherwise be ordered by the Board on its own motion, the filing of a motion shall not suspend the time limits for other events in the review proceeding.

Extensions of Time

(1) In no event shall the time limit for the filing of the notice of intent to appeal be extended.

(2) Except as provided in this section and OAR 661-010-0045(9), in no event shall the time limit for the filing of the petition for review be extended without the written consent of all parties. Written consent may include facsimile signatures. The Board may, on a motion of a party or its own motion, extend the deadline for filing the petition for review to allow time to rule on a motion to dismiss. Written consent to extend the deadline for filing record objections shall automatically extend the deadline for filing the petition for review for the same number of days granted to extend the deadline for filing record objections, unless the consenting parties expressly provide otherwise.

(3) All other time limits may be extended upon written consent of all parties, the Board's motion or motion of a party. Written consent may include facsimile signatures.

(4) A motion for extension of time shall state the reasons for granting the extension and must be filed with the Board within the time required for performance of the act for which an extension of time is requested.

(5) Any agreement by the parties allowing an extension of time shall automatically extend the time for subsequent filings, as well as the issuance of the Board's final order by an amount of time equal to the extension agreed to by the parties.

(6) In the event the Board extends the deadline for issuance of its final order without consent of the parties, it shall enter the findings required by ORS 197.840.

If an amended notice of intent to appeal is not filed within the time set by the Board, the Board will dismiss the appeal.

(7) Lead Petitioner or Intervenor:

(a) A lead petitioner is responsible for notifying the other petitioners of documents and communications received from the Board and other parties, but each petitioner remains responsible for his or her own representation.

(11) Motion to Transfer to Circuit Court:

(a) Any party may request, pursuant to ORS 34.102, that an appeal be transferred to the circuit court of the county in which the appealed decision was made, in the event the Board determines the appealed decision is not reviewable as a land use decision or limited land use decision as defined in ORS 197.015(10) or (12).

(b) A request for a transfer pursuant to ORS 34.102 shall be initiated by filing a motion to transfer to circuit court not later than 14 days after the date a respondent's brief or motion that challenges the Board's jurisdiction is filed. If the Board raises a jurisdictional issue on its own motion, a motion to transfer to circuit court shall be filed not later than 14 days after the date the moving party learns the Board has raised a jurisdictional issue.

(c) If the Board determines the appealed decision is not reviewable as a land use decision or limited land use decision as defined in ORS 197.015(10) or (12), the Board shall dismiss the appeal unless a motion to transfer to circuit court is filed as provided in subsection (11)(b) of this rule, in which case the Board shall transfer the appeal to the circuit court of the county in which the appealed decision was made.

(12) Transfer from Circuit Court: When any appeal of a land use or limited land use decision is transferred to LUBA from circuit court, the petition for writ of review filed in the circuit court shall be treated as the notice of intent to appeal, and the case shall proceed as provided in LUBA's rules, subject to the following:

(a) No additional filing fee shall be required;

(b) After an appeal is transferred to LUBA, the Board, by letter, will establish a deadline for the petitioner to submit the deposit for costs and a deadline for the respondent to transmit the record.

(a) The date of the notice from the Director making the transfer shall begin the running of a 21-day period within which one or more parties in the proceedings before the department may file a notice of intent to appeal with LUBA. A notice filed thereafter shall not be deemed timely filed, and the appeal shall be dismissed.

(b) Except as provided in this section, the notice of intent to appeal shall conform to the requirements of OAR 661-010-0015, including payment of the filing fee and deposit for costs. The notice of intent to appeal shall identify the local government as the respondent, rather than the Oregon Department of Land Conservation and Development or the Land Conservation and Development Commission.

(c) On receipt of a notice of intent to appeal, the Board shall, by letter, establish a deadline for the respondent to file the portion of the local record necessary to review the transferred matter. In all other respects, an appeal of a transferred matter shall proceed according to LUBA's rules.

(14) All briefs and motions filed with the Board shall comply with the rules in OAR 661-010-0030(2) with respect to type size, spacing, paper size and printing, numbering and margins.

Purpose

(1) These rules apply to the administration of substances that produce general anesthesia, deep sedation, moderate sedation, minimal sedation or nitrous oxide sedation in patients being treated by licensees in facilities not accredited by the Joint Commission on Accreditation of Health Care Organizations (JCAHO/TJC), the Accreditation Association for Ambulatory Health Care (AAAHC), the American Association for Accreditation of Ambulatory Surgical Facilities (AAAASF), the American Osteopathic Association (AOA) or their successor organizations. These regulations are not intended to prohibit training programs for licensees or to prevent persons from taking necessary action in case of an emergency.

(2) Nothing in this Division relieves a licensee from the standards imposed by ORS 679.140(1)

Definitions

As used in these rules:

(1) "Anesthesia Monitor" means a person trained in monitoring patients under sedation and capable of assisting with procedures, problems and emergency incidents that may occur as a result of the sedation or secondary to an unexpected medical complication.

(2) "Anxiolysis" means the diminution or elimination of anxiety.

(3) "General Anesthesia" means a drug-induced loss of consciousness during which patients are not arousable, even by painful stimulation. The ability to independently maintain ventilatory function is often impaired. Patients often require assistance in maintaining a patent airway, and positive pressure ventilation may be required because of depressed spontaneous ventilation or drug-induced depression of neuromuscular function. Cardiovascular function may be impaired.

(4) "Deep Sedation" means a drug-induced depression of consciousness during which patients cannot be easily aroused but respond purposefully following repeated or painful stimulation. The ability to independently maintain ventilatory function may be impaired. Patients may require assistance in maintaining a patent airway, and spontaneous ventilation may be inadequate. Cardiovascular function is usually maintained.

(5) "Moderate Sedation" means a drug-induced depression of consciousness during which patients respond purposefully to verbal commands, either alone or accompanied by light tactile stimulation. No interventions are required to maintain a patent airway, and spontaneous ventilation is adequate. Cardiovascular function is usually maintained.

(6) "Minimal Sedation" means minimally depressed level of consciousness, produced by non-intravenous pharmacological methods, that retains the patient's ability to independently and continuously maintain an airway and respond normally to tactile stimulation and verbal command. When the intent is minimal sedation for adults, the appropriate initial dosing of a single non-intravenous pharmacological method is no more than the maximum recommended dose (MRD) of a drug that can be prescribed for unmonitored home use. Nitrous oxide/oxygen may be used in combination with a single non-intravenous pharmacological method in minimal sedation.

(7) "Nitrous Oxide Sedation" means an induced, controlled state of minimal sedation, produced solely by the inhalation of a combination of nitrous oxide and oxygen in which the patient retains the ability to independently and continuously maintain an airway and to respond purposefully to physical stimulation and to verbal command.

(8) "Maximum recommended dose" (MRD) means maximum Food and Drug Administration-recommended dose of a drug, as printed in Food and Drug Administration-Approved labeling for unmonitored dose.

Presumption of Degree of Central Nervous System Depression

(1) In any hearing where a question exists as to the degree of central nervous system depression a licensee has induced (i.e., general anesthesia, deep sedation, moderate sedation, minimal sedation or nitrous oxide sedation), the Board may base its findings on, among other things, the types, dosages and routes of administration of drugs administered to the patient and what result can reasonably be expected from those drugs in those dosages and routes administered in a patient of that physical and psychological status.

(2) The following drugs are conclusively presumed to produce general anesthesia and may only be used by a licensee holding a General Anesthesia Permit:

(a) Ultra short acting barbiturates including, but not limited to, sodium methohexital, thiopental, thiamylal;

(b) Alkylphenols — propofol (Diprivan) including precursors or derivatives;

(c) Neuroleptic agents;

(d) Dissociative agents — ketamine;

(e) Etomidate;

(f) Rapidly acting steroid preparations; and

(g) Volatile inhalational agents.

ADMINISTRATIVE RULES

(3) No permit holder shall have more than one person under any form of sedation or general anesthesia at the same time exclusive of recovery.

Requirement for Anesthesia Permit, Standards and Qualifications of an Anesthesia Monitor

(1) A permit holder who administers sedation shall assure that drugs, drug dosages, and/or techniques used to produce sedation shall carry a margin of safety wide enough to prevent unintended deeper levels of sedation.

(2) No dentist or dental hygienist shall induce central nervous system sedation or general anesthesia without first having obtained a permit under these rules for the level of anesthesia being induced.

(3) No dentist or dental hygienist may be granted a permit to administer sedation or general anesthesia under these rules without documentation of current training/education and/or competency in the permit category for which the licensee is applying. The applicant may demonstrate current training/education or competency by any one of the following:

(a) Current training/education or competency shall be limited to completion of initial training/education in the permit category for which the applicant is applying and shall be completed no more than two years immediately prior to application for sedation or general anesthesia permit; or

(b) Completion of initial training/education no greater than five years immediately prior to application for sedation or general anesthesia permit. Current competency must be documented by completion of all continuing education that would have been required for that anesthesia/permit category during that five year period following initial training; or

(c) Completion of initial training/education no greater than five years immediately prior to application for sedation or general anesthesia permit. Current competency must be documented by completion of a comprehensive review course approved by the Board in the permit category to which the applicant is applying and must consist of at least one-half (50%) of the hours required by rule for Nitrous Oxide, Minimal Sedation, Moderate Sedation and General Anesthesia Permits. Deep Sedation and General Anesthesia Permits will require at least 120 hours of general anesthesia training.

(d) An applicant for sedation or general anesthesia permit whose completion of initial training/education is greater than five years immediately prior to application, may be granted a sedation or general anesthesia permit by submitting documentation of the requested permit level from another state or jurisdiction where the applicant is also licensed to practice dentistry or dental hygiene, and provides documentation of the completion of at least 25 cases in the requested level of sedation or general anesthesia in the 12 months immediately preceding application; or

(e) Demonstration of current competency to the satisfaction of the Board that the applicant possesses adequate sedation or general anesthesia skill to safely deliver sedation or general anesthesia services to the public.

(4) Persons serving as anesthesia monitors in a dental office shall maintain current certification in Health Care Provider Basic Life Support (BLS)/Cardio Pulmonary Resuscitation (CPR) training, or its equivalent, shall be trained in monitoring patient vital signs, and be competent in the use of monitoring and emergency equipment appropriate for the level of sedation utilized. (The term "competent" as used in these rules means displaying special skill or knowledge derived from training and experience.)

(5) No dentist or dental hygienist holding an anesthesia permit shall administer anesthesia unless they hold a current Health Care Provider BLS/CPR level certificate or its equivalent, or holds a current Advanced Cardiac Life Support (ACLS) Certificate or Pediatric Advanced Life Support (PALS) Certificate, whichever is appropriate for the patient being sedated.

(6) When a dentist utilizes a single dose oral agent to achieve anxiolysis only, no anesthesia permit is required.

(7) The applicant for an anesthesia permit must pay the appropriate permit fee, submit a completed Board-approved application and consent to an office evaluation.

(8) Permits shall be issued to coincide with the applicant's licensing period.

Criteria and Limitations for Funding — Non-Technical Assistance Projects

(1) The intent of the Legislature was to provide funding to municipalities to assist in complying with the **Safe Drinking Water Act** and the **Clean Water Act**. Therefore, priority will be given to projects necessary to ensure that municipal water and wastewater systems comply with the requirements of:

(a) Drinking water quality standards administered by the Oregon Department of Human Services Public Health Services Drinking Water Program; or

(b) Water quality statutes, rules, orders, or permits administered by DEQ or the Environmental Quality Commission.

(2) If a municipal water or wastewater system has not been issued a notice of non-compliance by the governing regulatory authority, the Authority may determine that a proposed project is eligible for assistance upon a finding that one of the following has been met:

(a) A recent letter has been issued by the appropriate regulatory authority, typically the Department of Human Services Drinking Water Program, DEQ, or its contracted agent, which indicates a high probability that the system owner will soon be notified of non-compliance with either the **Safe Drinking Water Act** or the **Clean Water Act**; or

(b) The Authority deems it reasonable and prudent that an award from the fund will assist in bringing the drinking water, storm water or wastewater system into compliance with the requirements of the **Safe Drinking Water Act**, the **Clean Water Act**, those requirements proposed to take effect within the next two years, or the requirements of other regulatory agencies recognized by the Authority as having responsibility for the protection of water quality and the supply of clean drinking water.

(3) The Authority generally will not fund projects without the conditions of 123-043-0035(2) being met.

(4) The project must be consistent with the acknowledged local comprehensive plan.

(5) The Authority encourages regionalization whenever feasible.

(6) The Authority encourages asset management planning where possible.

(7) The Authority will apply approved prioritization when reviewing project information contained in project notification intake form.

Criteria and Limitations for Funding — Technical Assistance Projects

(1) Awards are available to municipalities with populations of less than 15,000 people for technical assistance. If the project is for a facility plan or study required by a regulatory agency, the municipality is not required to document non-compliance. Other Technical Assistance projects may be considered after consulting with and receiving documentation of project support from the regulatory agency.

(2) Technical assistance grants and loans are subject to the following limitations:

(a) A grant of up to \$20,000 may be awarded for a project.

(b) A loan of up to \$50,000 may be awarded for a project. Interest shall be at 75 percent of the annual interest rate for other loans made in accordance with the requirements of this OAR chapter 123, division 43. The loan term shall not exceed seven years; and

(c) No more than \$600,000 shall be expended from the fund on technical assistance in any biennium. When awarding a grant under this section the Authority will not first consider a municipality's ability to repay a loan.

(d) The application must meet the requirements listed in OAR 123-043-0075(2).

(3) The loan shall be a full faith and credit obligation which is payable from any taxes which the municipality may levy within the limitations of Article XI of the Oregon Constitution and all legally available revenues and other funds of the municipality. A pledge of specific revenues of the municipality may be pledged in addition to the foregoing.

Loan and Grant Information

(1) The Authority may award financing in a manner that maximizes the use of available resources and maintains the desired credit standards of the fund. The Authority shall determine the amount, type, interest rate and terms of any financing awarded. It may offer an alternate mix or lower amount of assistance than requested. The amount of the award may be the minimum amount that the department determines is necessary to enable the project to proceed, and the Authority may investigate and recommend other sources of funds for all or part of a proposed project. Projects that the Authority determines are not financially feasible will not be funded.

(2) Loans for non-technical assistance projects:

(a) The term of a loan is limited to the usable life of the contracted project, or 25 years from the year of project completion, whichever is less.

(b) Except as provided elsewhere in OAR chapter 123, division 43, the interest rate on a loan is based on market conditions for similar debt and is set at the time of the award.

(c) The interest rate on a bond funded loan is equal to the coupon rates on the state revenue bonds funding the loan. Until the state revenue bonds funding the loan are sold, the municipality will pay interest at a rate established by the Authority on loan funds disbursed to the municipality.

(d) Maximum amount for a loan for a project may be determined by the Authority on the basis of the department's financial analysis of the municipality's capacity for repaying the debt, the availability of moneys in the fund and prudent fund management.

(e) The loan shall be a full faith and credit obligation which is payable from any taxes which the municipality may levy within the limitations of Article XI of the Oregon Constitution and all legally available revenues and other funds of the municipality. A pledge of specific revenues of the municipality may be required by the Authority to be pledged in addition to the foregoing.

(3) Grants for non-technical assistance projects: When making a determination to award a grant, the Authority will apply prudent fiscal management of the fund in order to manage limited funding resources. The Authority shall determine if the project meets the criteria of a grant and make a determination on the amount of the grant based on financial need or other special circumstances. In making its determination, the Authority shall apply the following criteria:

(a) The Authority's financial analysis determines that the municipality's financial resources, including its borrowing capacity, are insufficient to finance the project;

ADMINISTRATIVE RULES

(b) The projected annual residential utility rate for the system is at least equivalent to a minimum rate as determined by the Authority's policy. The Authority's policy may include such factors as the most recent U.S. Census data on median household income and annual adjustments for inflation since the most recent census;

(c) Only a distressed community is eligible for a grant award; and

(d) Grants may be awarded up to \$750,000 based on the Department's policy, but not more than 50 percent of the financial award from the fund.

Application Review and Approval

(1) For a non-technical assistance project, the Authority must make the following determinations:

(a) The municipality shall document that a registered professional engineer has certified in an engineering report, such as a Master Plan, that the proposed project is feasible, is the most cost effective solution, and adequately serves the applicable land uses in both the short and long term;

(b) The loan is secured by the pledge of utility revenues or other revenues or payments from owners of specially benefited properties, and these revenues or payments are sufficient, when considered with other security, to assure repayment of the loan and the municipality has certified to the Authority that there will be adequate funds available to repay the loans made to the municipality from the fund;

(c) Moneys in the appropriate accounts of the fund are or will be available for the project;

(d) The municipality is willing and able to enter into a contract with the Authority;

(e) The project is consistent with the requirements governing assistance from the fund. If the Authority determines that the municipality or the proposed project does not meet the requirements of this OAR 123-043-0075, the Authority may reject an application or require further documentation from the municipality; and

(f) The project is ready to begin and the municipality has committed in writing that, if awarded the assistance it shall proceed immediately.

(2) To award assistance from the fund for a technical assistance project, the Authority must make the following determinations:

(a) The technical assistance activities must be for a project that is eligible under the criteria listed in 123-043-0041; and

(b) The municipality has, or has demonstrated the ability to secure, the administrative capacity to undertake and complete the project.

Contract Administration and Disbursement of Funds

(1) The Authority shall disburse monies from the fund only after entering into a binding contract with the municipality.

(2) The contract shall be in a form provided by the Authority, and shall include:

(a) A provision that disbursements from the fund will be according to the terms of the contract;

(b) A provision that the liability of the Authority under the contract is contingent upon the availability of moneys in the fund for use in the project;

(c) If any portion of the assistance is in the form of a loan or the purchase of a bond of a municipality, a provision granting the Authority a lien on or a security interest in the collateral as determined by the Authority to be necessary to secure repayment of the loan or bond;

(d) A provision that, for a period of up to six (6) years after project completion, the Authority may request that the municipality, at its own expense, submit data on the economic development benefits of the project, including but not limited to information on new or retained jobs resulting from the project, and other information necessary to evaluate the success and economic impact of the project;

(e) For a drinking water project, a provision requiring the municipality to install meters on all new active service connections from any distribution lines that may be included in the project;

(f) For a drinking water project with existing, active unmetered service connections, a provision requiring the municipality to install meters on such service connections no later than two years after the completion of the project; and

(g) Other provisions that the Authority considers necessary or appropriate to implement the assistance.

(3) Other funds that may be needed to complete the project must be available or the municipality must have a binding commitment for such funds at the time the contract is executed. If a portion of the other funds needed to complete the project is committed but not available at the time an award is made or the contract executed, the contract shall require that the project be fully funded prior to any disbursement from the fund.

(4) The contract for a loan or grant shall be authorized by an ordinance, order or resolution adopted by the governing body of the municipality in accordance with the municipality's requirements for public notice and authorizing debt.

Purpose and Scope

(1) The purpose of this division of administrative rules is to implement ORS 461.740, under which business firms are required to enter into a First Source Agreement if benefiting from funds derived from the Oregon State Lottery through certain economic or community development programs, as determined by the Oregon Business Development Department.

(2) Provisions of this division of administrative rules also apply to businesses benefiting under the following tax incentive programs, as provided by the relevant statutes:

(a) The “Strategic Investment Program” under ORS 285C.600 to 285C.626 and 307.123, as specified in OAR 123-623; and

(b) The standard exemption in “enterprise zones” under ORS 285C.050 to 285C.250, as specified in OAR 123-674.

(3) Requiring Benefited Businesses to enter into a First Source Agreement is intended to help individuals, who are already receiving job training and assistance supported by public funds, by linking these individuals with private sector employment opportunities of businesses that:

(a) Will be hiring in association with the receipt of public benefits; and

(b) Should make a good faith effort to hire and retain such individuals, who are presumed to have low incomes or otherwise face disadvantages in finding employment.

(4) First Source Agreements and this division of administrative rules are not intended to do the following:

(a) Guarantee employment for any such individual;

(b) Dictate the actual hiring by a Benefited Business; or

(c) Necessarily accomplish other public or social objectives associated with employment opportunities.

(5) As used in ORS 461.740(1), “good faith effort to hire and retain as employees low-income individuals who have received job training assistance from publicly funded job training providers” means the Benefited Business will reasonably honor the terms of the First Source Agreement entered into with the Contact Agency for local Providers.

Definitions

For purposes of this division of administrative rules, in addition to definitions in OAR 123-001 (Procedural Rules), unless the context demands otherwise:

(1) Contact Agency means the entity that represents publicly funded job training providers. It shall designate a Contact Person charged with interacting with Benefited Businesses and other entities and with representing the Contact Agency on matters related to First Source Agreements.

(2) First Source Agreement means the contract between a Benefited Business and Providers, as executed by a Contact Agency, under this division of administrative rules, and it has the same meaning as “first-source hiring agreement” under ORS 285C.050, 285C.606 and 461.740. It covers and is applicable to all of the Benefited Business’s hiring or job openings, except for those persons or positions that are:

(a) Hired solely to construct, renovate or install property;

(b) Excluded by a waiver in accordance with OAR 123-070-1500; or

(c) Specified in OAR 123-674 as inapplicable for enterprise zone purposes.

(3) Interagency Agreement is the agreement entered into among Providers as specified in OAR 123-070-1200.

(4) Provider has the same meaning as “publicly funded job training provider;” as used in ORS 285C.050, 285C.606 and 461.740 and means one of the following:

(a) A local office of the Oregon Department of Human Services that delivers training or employment services for low-income parents, seniors, persons with disabilities and so forth;

(b) An administrative agent for programs under the federal

Workforce Investment Act of 1998 (Public Law 105-220) or amendments thereto;

(c) A community college of this state;

(d) A government or government-supported entity, similar to those in subsections (a) to (c) of this section, that is directly or indirectly engaged in training or assisting people to perform or succeed in the workplace or in a particular occupation; or

(e) Any other entity that is a party to the Interagency Agreement as described in OAR 123-070-1200, but such inclusion is effective only insofar as the entity, including but not limited to a local office of this state’s Employment Department, remains such a party.

(5) Qualified Applicants means individuals who have received job training assistance and who meet the Benefited Business’s minimum requirements for education, experience, reliability and skills, or who are able to meet these requirements within a reasonable time period (as negotiated with the Benefited Business) with training provided either by the Benefited Business or by a Provider.

(6) As used in section (5) of this rule and OAR 123-070-1000, “received job training assistance” means the individual has received intake or other services from a Provider.

Waivers and Geographic Coverage of First Source Agreements

(1) Except in the case of the Strategic Investment Program, the Director may issue a waiver that does the following:

(a) Relieves a Benefited Business of the requirement of entering into the First Source Agreement, entirely; or

(b) Excludes professional, managerial, technical, highly skilled or seasonal positions of a Benefited Business from the First Source Agreement.

(2) The Director shall make the final decision to grant the waiver, upon written recommendation by staff that explains why:

(a) The Benefited Business’s small size or the technical, professional or unusual nature of its needs with respect to employees means that it will be unable to fill positions with persons referred by the Providers, either in general or for the excluded positions, and will thus receive little or no meaningful service through the First Source Agreement; or

(b) The waiver will further the goals or purposes of applicable and specified state policies, whether or not such policies are directly associated with the program.

(3) A Benefited Business may request a waiver by the Department under this rule at the time of application for the grant or loan assistance, or before execution of the contract for such assistance, in the case of lottery-funded programs, or at any time prior to qualifying for an enterprise zone exemption.

(4) Department staff will notify the Benefited Business and the Contact Agency for the geographic area in which the Benefited Business is located of the Director’s decision and send a copy of any approved waiver. Such notice and distribution shall also include other entities as described in OAR 123-674, as applicable for an enterprise zone exemption.

(5) Except for an enterprise zone exemption, the First Source Agreement entered into by a Benefited Business shall apply only to the Benefited Business’s operations at the site receiving the benefit, unless other locations are:

(a) Designated by the Department; or

(b) Specifically agreed to by the Benefited Business and the Contact Agency.

(3) Whenever the firm intends to fill a job opening with someone, who in a voluntary, temporary, part-time or other capacity, has been working at the business or job site for at least 30 days prior to closure date of the job opening:

(a) The firm must indicate this situation and include the name of the prospective hire in its notification to the contact agency.

(b) With receipt of such notification, the contact agency is in no way obligated to send job applicants.

Handling Exemption Claims

For purposes of the First Source Hiring Agreement and the county assessor's processing of an initial exemption claim with property schedule as described in OAR 123-674-6100, except in the case of a general waiver under ORS 285C.215(3) (see OAR 123-070):

(1) An authorized business firm may attach a copy of the agreement to the claim form.

(2) For purposes of ORS 285C.175(1)(c), the assessor shall rely principally on the zone sponsor and contact agency to inform the assessor's office under ORS 285C.215(2) if a requisite agreement is lacking.

(3) To verify the existence, effectiveness or general suitability of the agreement, the assessor may do the following:

(a) Request and receive an agreement copy from the local zone manager, contact agency or Firm/applicant; or

(b) Seek assistance under ORS 285C.230(1)(b) before approving the exemption claim, as a mandatory duty of the zone sponsor.

(4) If learning of a problem with execution of a suitable agreement by the Firm/applicant, then pending a corrective waiver by the Director, the county assessor:

(a) May deny the exemption claim, if the agreement was not executed as described in OAR 123-674-7710.

(b) Shall deny the exemption claim, if the agreement was not executed on or before December 31 directly preceding the first exemption year under ORS 285C.175, does not cover at least all years of exemption, or is otherwise deficient.

(5) The assessor shall deny the exemption under ORS 285C.175(6), if by August 31 of the first tax year of exemption, a problem as described in subsection (4) of this rule is not resolved through copies/documentation of the following:

(a) A (revised/replacement) agreement;

(b) Applicable waiver as allowed in OAR 123-070 or 123-674-7730;

or

(c) Both, as necessary.

(6) Once a business firm is qualified and approved to receive the exemption, the exemption is not subject to later revocation or disqualification for lack of an agreement, except for the case of fraudulent representations.

(7) Subject to requisite resolution of the outstanding problem, the assessor may reverse a denial as described in section (5) of this rule and grant the exemption, as otherwise allowed under the laws and rules governing the procedures and authority of the assessor.

Allowing Late Execution of First-Source Agreement

For purposes of an authorized business firm's needing to have entered into a First Source Hiring Agreement:

(1) The Director may issue a waiver that excuses the requirement until the time when the agreement is actually executed or takes effect, such that the firm is not required to have been entered into the agreement:

(a) At the time of applicable hiring; or

(b) On or before December 31 of the year when qualified property is placed in service, directly before the first exemption year, as otherwise required under ORS 285C.215(1).

(2) The Director may issue waiver as described in section (1) of this rule for the following reasons:

(a) The Firm/applicant was using first-source services in a timely fashion, without having a formal agreement;

(b) Mistaken communications, an absence of local contacts or the like hampered the ability or understanding of the Firm/applicant as to the agreement or the need to enter into it;

(c) The Firm/applicant made a good faith effort to obtain an agreement, but it was misled or otherwise unable to readily obtain it through no fault of its own; or

(d) Similar circumstances.

(3) The local zone manager, county assessor or contact agency on behalf of the authorized business firm or the firm itself may seek a waiver under this rule by contacting the Department after authorization, whether before or after an action by the county assessor as described in OAR 123-674-7720.

(4) A waiver under this rule shall take the form of a written recommendation from staff to the Director that the Director approves. The written recommendation shall describe:

(a) The justification for the waiver pursuant to this rule;

(b) The basis or source of evidence for such justification or determinations, including but not limited to verbal communications with the contact agency, the county assessor or other local parties;

(c) The status of the Firm/applicant's entering into an agreement; and

(d) The date by which the agreement must be in effect.

(5) The Department shall provide notice of the Director's decision and distribute copies of any approved waiver, as well as any waiver as described in OAR 123-070 affecting an enterprise zone exemption, to the:

(a) Firm/applicant;

(b) County assessor;

(c) Contact agency;

(d) Local zone manager; and

(e) Department of Revenue (Attention: Exemptions Specialist, Property Tax Division).

ADMINISTRATIVE RULES

123-674-0200

“Employment” Terminology

As used in OAR 123-674-0100, with respect to counting the “number of employees” for purposes of this division of administrative rules, especially OAR 123-674-4000 to 123-674-4800:

(1) It does not involve averaging based on hours worked, such as full-time equivalency, but rather relies on counting full-time, year-round jobs associated with relevant business operations throughout the enterprise zone, either at a particular time or on average over a year or 12-month period.

(2) It relates primarily to “employees of the firm” or “employment of the firm,” as used in ORS 285C.200 and 285C.210, which:

(a) Includes positions or persons who are:

(A) Employed directly by the business firm, or retained by lease or contract with the person or a third party, but the firm selected and directly manages them;

(B) Engaged a majority of their time in eligible operations under ORS 285C.135, including but not limited to persons who perform eligible activities as described in OAR 123-674-1100 or 123-674-1200(3) or (4); and

(C) Located anywhere inside the enterprise zone in terms of where they spend at least 75 percent of their time on the job, as well as official work site.

(b) Excludes positions or persons who are employed or performing work:

(A) At temporary or seasonal jobs;

(B) For 32 or fewer hours per week;

(C) Solely in the construction, modification or installation of qualified property;

(D) Regularly outside the zone boundary;

(E) The majority of their time in ineligible operations; or

(F) With any other business firm, including but not limited to affiliates or commonly owned companies.

(3) Consistent with subsection (2) of this rule, only full-time jobs with the firm that are filled indefinitely and exist year-round at the firm’s eligible operations inside the zone are normally counted. The following are exceptions:

(a) Only employees who work at the particular headquarter-type facility (see OAR 123-674-1700) matter, irrespective of paragraph (2)(a)(C) of this rule and of other eligible employees inside the zone;

(b) For the transfer of eligible operations within 30 miles of zone boundary, further requirements described in OAR 123-674-4100(4) and 123-674-4600(2) also cover employees at affected sites.

(c) The prohibition on jobs losses more than 30 miles outside the zone comprises persons employed with any business operations in Oregon, not only the eligible kind (see 123-674-4200).

(d) Jointly owned firms may combine their employment throughout the zone subject to section (4) of this rule.

(e) Temporary workers filling permanent positions are acceptable if the county assessor and the local zone manager conclude that:

(A) The qualified business firm is making every reasonable effort to fill such positions with permanent, regular hires; and

(B) The temporary workers and other potentially available job applicants do not meet reasonable, minimum standards of the firm for permanent hire, such as a high school diploma or equivalency.

(4) Under ORS 285C.135(4), two or more business firms with 100-percent common ownership may elect to be treated as a single firm for combining zone employment, irrespective of paragraph (2)(b)(F) of this rule, if authorized representative(s) of the firms or a parent company formally notify the local zone manager and county assessor to that effect before the initial exemption claim under ORS 285C.220. Such an election affects all applicable provisions under ORS 285C.050 to 285C.250 and this division of administrative rules, including but not limited to rendering moot any inter-firm lease of qualified property (which would then all be simply owned by the Firm/applicant), but it does not carry over to any subsequent authorization except in a terminated zone.

(5) Only newly created jobs may satisfy required increases in employment levels, as opposed to any employee associated with the merger or acquisition of another business firm or its existing operations or property, except positions inside the zone that were vacant for 60 or more days at the time of Application, and for which reemployment was unlikely.

(6) As used in this rule and under ORS 285C.050:

(a) “Person” may mean two or more part-time employees who together perform a single job involving more than 32 hours of work per week by virtue of an established (job-sharing) arrangement.

(b) “32 hours per week” is computed by taking the total number of hours over the course of a year, for which the person is reimbursed in the

form of wage or salary, including but not limited to paid holidays, vacation and so forth, and dividing by 52.

(c) “Temporary or seasonal jobs” are nonpermanent positions, including but not limited to persons acquired and receiving compensation through the firm or an outside agency on a short-term, ad hoc or as-needed basis, or where the firm hires, leases or contractually employs a persons for any anticipated period of less than 12 consecutive months during the course of the year.

(7) It does not relate to the method or means, by which the business firms identifies or considers persons for hire, including but not limited to there being no necessary relationship between minimum employment requirements and the requisite First Source Hiring Agreement in OAR 123-070 and 123-674-7700 to 123-674-7730.

In such cases, the Selection Committee's recommendation will be submitted for review and approval by these bodies prior to execution of any contracts for Works of Art.

(c) Informal committees established by any of the Designated Agencies, such as user groups of a Project, shall be kept informed of Selection Committee progress, but have no role in approval of the Selection Committee's recommendations. Selection Committee Procedure

(1) The Selection Committee shall meet to consider the particular needs of the Project including budget, suitable art forms, appropriate locations, and method of artist/artwork selection.

(2) The Selection Committee may use any of the following methods for selection of Works of Art for a Project:

(a) Open Competition: A prospectus will be prepared by the Oregon Arts Commission with the approval of the Selection Committee and will be made broadly available to artists. Artists will be asked to submit images or other materials to the Commission. The Selection Committee may commission new work and also may purchase available work.

(b) Two-state competition. An open competition may occur in two stages whereby a limited number of finalists selected from the first stage of competition will be asked to submit more detailed proposals. Each of the

ADMINISTRATIVE RULES

finalists may enter into a contract with the Contracting Agency that provides for payment of a professional fee for preparation of a detailed proposal or consultation interview. The Oregon Arts Commission or Selection Committee may recommend the amount of the professional fee.

(c) Prequalified Artist Roster: The Selection Committee may interview or commission proposals from one or more artists on the Prequalified Artist Roster, or may make direction selection(s) from the Roster.

(d) Nominated Pool: The Selection Committee may designate an informal panel of arts professionals to nominate artists appropriate for consideration for the Project. The resulting pool will be reviewed by the Selection Committee.

(e) The Public Art Advisory Committee may designate an informal panel of arts professionals to nominate artists appropriate for consideration to the State of Oregon Art Collection. The resulting pool(s) may be reviewed by individual Selection Committees.

(f) Limited Competition: In cases when, in the judgment of the Oregon Arts Commission, it is not feasible to conduct an open competition for a specific Work of Art, the Oregon Arts Commission will initiate a Limited Competition by inviting several artists to submit materials to the Selection Committee. If detailed proposals or consultation interviews are requested, each artist will be paid a professional fee for preparation of the detailed proposal or consultation interview. The Oregon Arts Commission or Selection Committee may recommend the amount of the professional fee.

(g) Direct Selection: When budget constraints or construction schedules are such that the Selection Committee determines that an open competition cannot be held, Direct Selection of the artist(s) or completed work will be made by the Selection Committee.

General Principles and Procedures

(1) Freedom of Expression: Because of the bold attempt to meld the imaginations and talents of so many individuals and groups, freedom to reach creative solutions must always be maintained. Artists must be sensitive to the unique qualities of public art and the guidelines and parameters which, of necessity, may be required.

(2) Integration of Art and Architecture: So that Artists and Architects can gain from each others' design insights, all parties should strive for engagement of the Artist as soon as possible after the approval of the Architect's schematic design phase.

(3) Exhibitions and Educational Outreach: Contracting Agencies should consider undertaking the following exhibition and educational outreach opportunities. The Oregon Arts Commission is available to provide consultative assistance, but these activities must be funded with monies other than Program funds, unless they are an integral part of the Final Art:

(a) Exhibition of sketches and maquettes created in limited or open competitions;

(b) Involvement of students and art instructors in workshops with Artists creating Works of Art;

(c) Tours of those sites which exhibit many Works of Art, conducted by trained docents;

(d) Use of state educational and other facilities by the Artist in developing concepts and creating the Work of Art, so that state employees and students can better understand the creative process. Such facilities might include studio space, foundries, machine, welding, and woodworking shops, printing and photographic facilities;

(e) Filming or videotaping the creation and installation of the Work of Art.

(4) Accessibility of Information: All parties will strive to publicize widely all aspects of the Program. All meetings of Selection Committees are open to the public.

(5) Community Support and Advice: While firmly committed to the principle of selection of Artists by authorities in the design professions — The Oregon Arts Commission, Department of Administrative Services, and Contracting Agencies welcome participation and advice from the interested public and employees of the Resident Agency.

(6) Conflict of Interest: All procedures will be conducted and all decisions will be made free of any conflict of interest in accordance with ORS Chapter 244.

(7) Dedication: If a dedication or "unveiling" of a Work of Art is desired, arrangements shall be the responsibility of the Contracting Agency.

(E) No Works of Art may be sold or traded to members or staff of the Arts Commission or Public Art Advisory Committee or their immediate families.

(F) Proceeds from the sale of a Work of Art shall be used to purchase artwork in keeping with the definitions and limitations of the Program and in accordance with the Oregon Arts Commission's decision to approve Deaccession. Funds may be expended with the oversight of the Public Art Advisory Committee. Any preexisting contractual agreements between the Artist and the state regarding resale shall apply.

(b) Destruction of a Work of Art that is deteriorated or damaged beyond repair, or beyond value of the Work of Art, and therefore deemed to be of negligible value. (6) Costs for Relocation or Deaccession. Unless otherwise requested by a person or agency requesting Relocation or Deaccession and approved by the Public Art Advisory Committee, costs for appraising, cleaning or minor repairs to a Work of Art as needed to be suitable for display should be charged to the original Resident Agency. Transportation to storage or a new location should be charged to the original Resident Agency. Installation or any major conservation, reframing, or similar activity should be charged to the new Resident Agency. Costs may be negotiated in the best interests of each entity.

(7) Compliance with Applicable Policies and Regulations. Decaccession of Works of Art shall be done in a manner that complies with all other applicable state and federal law. Subject: Under ORS 137.667(2), the Oregon Criminal Justice Commission (the Commission) may adopt changes to the Oregon Sentencing Guidelines. SB 570 (2009) was effective January 1, 2010. That bill contains a directive to the Commission, requiring the Commission to "adopt rules that establish disproportionate impact as an aggravating factor that a court may consider as a substantial and compelling reason to impose an upward departure from a presumptive sentence under the rules of the commission." Section 7, SB 570 (2009). The bill also defines the term "disproportionate impact." Id. This rule is needed to implement this legislative directive. This rule had been previously adopted as a temporary rule. That temporary rule is being repealed with this filing.

Departure Factors

(1) Subject to the provisions of sections (2) and (3) of this rule, the following nonexclusive list of mitigating and aggravating factors may be considered in determining whether substantial and compelling reasons for a departure exist:

(a) Mitigating factors:

(A) The victim was an aggressor or participant in the criminal conduct associated with the crime of conviction.

(B) The defendant acted under duress or compulsion (not sufficient as a complete defense).

(C) The defendant's mental capacity was diminished (excluding diminished capacity due to voluntary drug or alcohol abuse).

(D) The offense was principally accomplished by another and the defendant exhibited extreme caution or concern for the victim.

(E) The offender played a minor or passive role in the crime.

(F) The offender cooperated with the state with respect to the current crime of conviction or any other criminal conduct by the offender or other person. The offender's refusal to cooperate with the state shall not be considered an aggravating factor.

(G) The degree of harm or loss attributed to the current crime of conviction was significantly less than typical for such an offense.

(H) The offender's criminal history indicates that the offender lived conviction-free within the community for a significant period of time preceding his or her current crime of conviction.

(I) The offender is amenable to treatment and an appropriate treatment program is available to which the offender can be admitted within a

reasonable period of time; the treatment program is likely to be more effective than the presumptive prison term in reducing the risk of offender recidivism; and the probation sentence will serve community safety interests by promoting offender reformation.

(b) Aggravating factors:

(A) Deliberate cruelty to victim.

(B) The offender knew or had reason to know of the victim's particular vulnerability, such as the extreme youth, age, disability or ill health of victim, which increased the harm or threat of harm caused by the criminal conduct.

(C) Threat of or actual violence toward a witness or victim.

(D) Persistent involvement in similar offenses or repetitive assaults. This factor may be cited when consecutive sentences are imposed only if the persistent involvement in similar offenses or repetitive assaults is unrelated to the current offense.

(E) Use of a weapon in the commission of the offense.

(F) The offense involved a violation of public trust or professional responsibility.

(G) The offense involved multiple victims or incidents. This factor may not be cited when it is captured in a consecutive sentence.

(H) The crime was part of an organized criminal operation.

(I) The offense resulted in a permanent injury to the victim.

(J) The degree of harm or loss attributed to the current crime of conviction was significantly greater than typical for such an offense.

(K) The offense was motivated entirely or in part by the race, color, religion, ethnicity, national origin or sexual orientation of the victim.

(L) Disproportionate impact (for Theft I under ORS 164.055, and Aggravated Theft I under ORS 164.057).

(2) If a factual aspect of a crime is a statutory element of the crime or is used to subclassify the crime on the Crime Seriousness Scale, that aspect of the current crime of conviction may be used as an aggravating or mitigating factor only if the criminal conduct constituting that aspect of the current crime of conviction is significantly different from the usual criminal conduct captured by the aspect of the crime.

(3) Any aspect of the current crime of conviction which serves as a necessary element of a statutory mandatory sentence may not be used as an aggravating factor if that aspect is also used to impose the mandatory sentence.

(4) As used in this rule, "disproportionate impact" means:

(a) The offender caused damage to property during the commission of the theft and the cost to restore the damaged property to the condition the property was in immediately before the theft is more than three times the value of the property that was the subject of the theft; or

(b) The theft of the property creates a hazard to public health or safety or the environment.

Rules Amended: 213-017-0006

Subject: The Criminal Justice Commission (CJC) is required under ORS 137.667 to review all legislation creating new crimes or modifying existing crimes, and to adopt by rule necessary changes to the crime seriousness scale. The Oregon Legislature passed SB 1087 on February 22, 2008. The legislature referred SB 1087 to a vote of the people at the general election of November 4, 2008 through Ballot Measure 57. Ballot Measure 57 was passed by a majority of the voters at the general election. Section 10 of SB 1087 (2008 Oregon Laws chapter 14) changed the crime of Mail Theft or Receipt of Stolen Mail under ORS 164.162 from a Class A misdemeanor to a Class C felony. The Oregon Legislature voted to suspend implementation of portions of Measure 57 in HB 3508 (2009). Following HB 3508 (2009), Mail Theft or Receipt of Stolen Mail under ORS 164.162 is classified as a felony for sentences imposed prior to February 15, 2010 and for sentences imposed for crimes committed on

ADMINISTRATIVE RULES

or after January 1, 2012. During the intervening time period, that portion of Measure 57 that classified Mail Theft or Receipt of Stolen Mail under ORS 164.162 as a felony is suspended and that crime becomes a Class A misdemeanor. CJC amended the sentencing guidelines to incorporate that change. The amendment contained a typographical error, in which the date "January 1, 2010" was referenced instead of the date "January 1, 2012." This rule change corrects that typographical error.

Assignment and Direction and Supervision of Educational Assistants

(1) The educational assistant shall assist a teacher or Early Childhood Specialist or Supervisor or related service provider only in a supportive capacity. The role of the educational assistant is adaptable to many support tasks, and nothing in these rules should be interpreted as limiting assistants only to the performance of classroom duties. Educational assistant tasks may include but are not limited to:

(a) Instructional support – Tasks performed by assistants to supplement students’ basic instruction by offering students opportunities to practice and apply what they have learned, including social skills, life skills, and transition skills;

(b) Clerical support – Tasks such as preparing materials, duplicating and operating audiovisual equipment, which are primarily concerned with the physical arrangement of the learning environment; and

(c) Student control – Duties such as supervision of students in school buildings, buses, and grounds including but not limited to lunch rooms, and playground areas, assisting with fire drills, monitoring students in hallways, etc.

(d) Personal care;

(e) Translation or Parent/Family Involvement activities; and

(f) Media center or computer laboratory support.

(2) Any educational assistant assigned to instruction-related activities shall work under the supervision of an appropriately licensed teacher (or administrator, Early Childhood Specialist or Supervisor; or related service provider). Supervision means:

(a) The assigned teacher (or administrator, Early Childhood Specialist or Supervisor; or related service provider) plans the instructional activities that the educational assistant carries out;

(b) The assigned teacher (or administrator, Early Childhood Specialist or Supervisor; or related service provider) evaluates the achievement of the students with whom the educational assistant is working; and

Public Charter School Proposal Review and Approval Process

(1) An applicant must submit proposals to the local school district board and the State Board of Education.

(2) Upon receipt of a proposal from an applicant, the school district board will ensure that the proposal addresses all of the required components as set out in ORS 338.045(2). Within 15 business days of the receipt of a proposal, the school district will notify the applicant as to the completeness of the proposal. Proposals that minimally address or leave out any of the required components are not complete and may be returned to the applicant. A proposal that included, for example, a reprinting of the charter school statutes as its response to a required component, would minimally address that component and would not be complete. A proposal that addressed a required component based on an incorrect budget assumption or in a manner that is unsatisfactory to the local school district would nonetheless be complete.

(3) Within 60 days of the notification to the applicant of the school district's receipt of a complete proposal, the school district board must hold a public hearing on the proposal in accordance with Oregon public meeting laws (ORS 192.610 through 192.695, 192.710, and 192.990).

(4) The school district board must evaluate the proposal in good faith using the following criteria:

(a) Demonstrated, sustainable support for the public charter school by teachers, parents, students and other community members, including comments received at the public hearing held under section (3) above;

(b) Demonstrated financial stability of the public charter school, including the demonstrated ability of the school to have a sound financial management system in place at the time the school begins operating;

(c) Capability of the applicant, in terms of support and planning, to provide students with comprehensive instructional programs;

(d) Capability of the applicant, in terms of support and planning, to provide academically low achieving students with comprehensive instructional programs;

(e) The extent that the proposal addresses the components required in ORS 338.045, including any additional components or information required under local school district board policy;

(f) Whether the value of the public charter school is outweighed by any directly identifiable, significant and adverse impact on the quality of the public education of students residing in the school district where the public charter school is located;

(g) Whether there are arrangements for any special education and related services for children with disabilities pursuant to ORS 338.165; and

(h) Whether there are alternative arrangements for students and for teachers and other school employees who choose not to attend or who choose not to be employed by the public charter school.

(5) Within 30 days of the public hearing, the district school board must either approve or deny the proposal. Written notice of the decision must be sent to applicants. Such notice must include reasons and suggestions for remediation for all proposals that are denied.

(6) An applicant may revise and resubmit the proposal to the district school board.

(7) The local school board must approve or disapprove the revised proposal within 20 days of receipt.

(8) The applicant must forward a copy of the written notice of approval to the State Board of Education.

(9) An applicant whose proposal is not approved by the local school board may request a review of that decision by the State Board of Education under the procedure set out in OAR 581-020-0330.

(2) A public charter school must have in place a sound financial management system at the time the school begins operation.

(3) A sound financial system used by a public charter school must minimally have:

(a) Accounting and financial record keeping procedures which reflect Generally Accepted Accounting Principles (GAAP);

(b) Procedures for cash management, investment practices and financial reporting;

(c) Balance sheets reflecting assets, expenditures and liabilities;

(d) Segregation of duties for individuals performing cash management and investment practices; and

(c) An electronic copy of any balance sheet containing a summary of the assets and liabilities of the public charter school and related operating budget documents as of the closing date of the preceding annual audit period for the school.

Process to Renew Charter

(1) A public charter school governing body must request renewal of the charter (contract) by the sponsor in writing at least 180 days before expiration of the charter.

(2) When a sponsor has received a written request from a public charter school governing body, the sponsor must schedule and hold a public hearing on the renewal request within 45 days from the receipt of the request for renewal.

(3) Within 10 days after the public hearing, the sponsor must notify the public charter school governing body of the sponsor's intent to renew or not renew the charter.

(4) Within 20 days after the public hearing, the sponsor must either:

(a) Renew the charter; or

(b) State in writing the reasons for denying the renewal of the charter.

(5)(a) A sponsor must base its decision to renew or not renew a charter on a good faith evaluation of whether the charter school:

ADMINISTRATIVE RULES

- (A) Is in compliance with state and federal laws;
- (B) Is in compliance with the terms of the prior charter;
- (C) Is meeting or working toward meeting the student performance goals and agreements specified in the charter or any other written agreements between the sponsor and the public charter school governing body;
- (D) Is fiscally stable and evidence that a sound financial management system described in the proposal submitted under ORS 338.045 and incorporated into the written charter was used; and

(E) Is in compliance with any renewal criteria specified in the previous charter, if any.

(b) As used in this section, “good faith evaluation” means an evaluation of all criteria required by this section resulting in a conclusion that a reasonable person would come to who is informed of the law and the facts before that person.

(6) The sponsor must base the evaluation described in section (5) of this rule primarily on a review of the public charter school’s annual performance reports, annual audit of accounts and annual site visit and review as required by ORS 338.095 and any other information mutually agreed upon by the public charter school governing body and the sponsor.

(7)(a) If the sponsor renews the charter, the sponsor and public charter school governing body shall negotiate in good faith a new charter within 90 days after the date on which the sponsor approved the renewal of the charter, unless both parties agree to an extension of time.

(b) If the sponsor and the charter school governing body have not executed a new charter agreement within 90 days after the date on which the sponsor approved the renewal of the charter or an alternative date agreed to by both parties, the charter shall be considered not renewed and the sponsor must state in writing the reasons for denying the renewal of the charter within 100 days after the date on which the sponsor originally approved the renewal of the charter or by a specified alternative date agreed to by both parties.

(c) As used in this section, “negotiate in good faith” means to negotiate with an honest exchange of the facts of the matters under consideration with a view to obtaining agreement of each of the parties involved.

(8) If the sponsor does not renew the charter, the public charter school governing body may address the reasons for nonrenewal and resubmit its request to the sponsor within 30 days after the date on which the sponsor notified the public charter school governing body of the decision not to renew the charter. If a sponsor receives a revised request under this section, the sponsor shall review the request using the process required by sections (2) to (7) of this rule. A public charter school governing board may only submit a revised request once under this section unless otherwise specified by the sponsor.

(9) Notwithstanding sections (1) to (8) of this rule, a sponsor and a public charter school governing body may agree in the charter of the school to a timeline for renewing the charter that is different from the timeline required by sections (1) to (8) of this rule.

(10) The State Board of Education delegates to the Superintendent of Public Instruction or designee all administrative functions necessary or reasonable in order to determine if the charter of a school sponsored by the state board should be renewed. The Superintendent or designee shall follow the procedures and timelines required by this rule. This delegation to the Superintendent or designee includes, but is not limited to:

- (a) Determining the form, contents, and timelines of the renewal;
- (b) Determining the records required for determining the renewal and ordering the production of those records from the public charter school governing body and establishing timelines for the production of those records;
- (c) Requiring the charter school governing body to respond to written or oral inquiries related to the sponsorship;
- (d) Delegating the sponsorship function to Department of Education staff or a hearings officer to conduct a hearing and to issue a proposed order; and
- (e) Issuing a final order.

(11) If the sponsor does not renew the charter based on the revised request for renewal submitted under section (8) of this rule, the public charter school governing body may:

- (a) If the sponsor is a school district, appeal the decision of the sponsor to the State Board of Education under OAR 581-020-0361.
- (b) If the sponsor is the State Board of Education, seek judicial review of the final order under ORS 183.484.

Process for Sponsor to Terminate Charter

- (1) A sponsor may terminate a charter for failure to:
 - (a) Meet the terms of the approved charter or any requirement of ORS Chapter 338, unless waived by the State Board of Education;
 - (b) Meet the requirements for student performance as established in the approved charter;
 - (c) Correct any violation of a federal or state law described in ORS 338.115;

- (d) Maintain insurance as described in the approved charter;
- (e) Maintain financial stability; or
- (f) If the charter is terminated on or after July 1, 2011, failure to maintain, for two or more consecutive years, a sound financial management system described in the proposal submitted under ORS 338.045 and incorporated into the written charter under 338.065.

(2) A sponsor intending to terminate an approved charter must:

- (a) Notify the public charter school governing body in writing at least 60 calendar days prior to the proposed effective date of the termination;
- (b) Include in the notification the grounds for the termination; and
- (c) Deliver the notice to the business address of the charter school.

(3) The governing body of a public charter that has received notice from the sponsor of the sponsor’s intent to terminate the charter may request a hearing by the sponsor. Such a request must be made in writing and be delivered to the business address of the sponsor. Within 30 days of receiving the request for a hearing, the sponsor must provide the public charter school with the opportunity for a hearing on the proposed termination.

(4) If the sponsor reasonably believes that a public charter school is endangering the health or safety of the students enrolled in the public charter school, the sponsor may act to immediately terminate the approved charter and close the public charter school without providing the notice requirements set out in section (3) of this rule.

(5) The governing body of a public charter that is closed under the provisions of section (4) of this rule may request a hearing by the sponsor. Such a request must be made in writing and be delivered to the business address of the sponsor. Within 10 days of receiving the request for a hearing, the sponsor must provide the public charter school with the opportunity for a hearing on the termination.

(6) Nothing in this rule should be construed as limiting the ability of a sponsor and a public charter school to include in the charter a procedural requirement for alternative dispute resolution prior to invoking the termination process.

These statutory changes create a new certificate of approval for distilled spirits (plus grain and ethyl alcohol) which authorizes their import into Oregon for sale in the state. This new rule will clarify that a certificate of approval will be automatically issued by the Commission to all manufacturers, importers and vendors who import distilled spirits (or grain & ethyl alcohol) into Oregon, with no application process or fee. CER-Ds are also issued to vendors who import grain and ethyl alcohol into Oregon for scientific, pharmaceutical, manufacturing, mechanical or industrial use. There is no fee to obtain a CER-D.

(2) No person may import distilled spirits or grain and ethyl alcohol into Oregon who does not hold a CER-D or whose CER-D is suspended or revoked. Once a CER-D has been revoked it remains revoked until reinstated by the Commission.

(3) The holder of a CER-D is subject to and must comply with the tied house and financial assistance requirements contained in ORS 471.392-400 and Division 13 of Chapter 845 of the Commission's administrative rules. Approved Seller Training Programs

(1) ORS 471.410 provides that an employee of a liquor licensee or retail sales agent who has sold, given or otherwise made available alcohol to a minor may receive a reduced criminal penalty if the employee either holds a valid Oregon service permit or has completed a Commission-approved training program. This rule sets the standards and procedures the Commission uses when approving seller training programs and clarifies recordkeeping responsibilities.

(2) As used in this rule,

(a) "Approved seller training program" means a program approved by the Commission for the purposes of ORS 471.410.

(b) "Seller" means an employee of a liquor licensee or retail sales agent who sells or serves alcohol for on or off-premises consumption.

(3) Program Approval Standards and Process. A licensee or liquor agent may offer a Commission-approved seller training program to its employees. The licensee or agent may apply for Commission approval of their own program or use a Commission-approved seller training program from another source.

(a) To obtain Commission approval of a seller training program an applicant must:

(A) Submit a completed application packet provided by the Commission;

(B) Have a program that meets the Commission's Clerk Training Course Minimum Standards (published December 21, 1999, and available at the Commission's main office at 9079 SE McLoughlin, Portland, OR);

(C) Explain in writing how the program will provide written certification of program completion to each seller who completes the training program.

(b) Commission staff will review the application, and will:

(A) Approve a seller training program that meets the requirements in Section (3)(a) of this rule. The Commission will notify the applicant in writing if the Commission approves the course; or

(B) Return an incomplete application or one that does not meet the requirements of Section (3)(a).

(c) At its discretion, the Commission may periodically conduct a review of a Commission-approved training program to ensure it still meets the Commission's Clerk Training Course Minimum Standards. To conduct

ADMINISTRATIVE RULES

the review, the Commission may ask an approved program to submit copies of all current materials used in the program. If a training program is found to fall below minimum standards then program approval may be withdrawn.

(4) Record Keeping.

(a) The liquor licensee or retail sales agent should provide written certification of program completion to each seller who completes their Commission-approved seller training program.

(b) It is the seller's responsibility to verify that a training program, whether offered by their employer or from another source, has been Commission-approved, and they may do so by contacting the Commission.

(c) It is the seller (employee of the liquor licensee or retail sales agent) who is responsible for keeping their own records regarding completion of an approved training program. The seller should take these records with them from one employer to the next. It will be up to the seller to provide such records in order to receive the reduced criminal penalty available under ORS 471.410.

Adm. Order No.: OLCC 8-2010

Filed with Sec. of State: 6-22-2010

Certified to be Effective: 7-1-10

Notice Publication Date: 3-1-2010

Rules Amended: 845-013-0040

Subject: This rule describes the types of advertising that manufacturers or wholesalers are allowed to provide to retailers under the limited exceptions in the financial assistance statutes. The previous rule stated that such advertising must mention "no specific retailer". Wineries, breweries, and other suppliers of wine and malt beverages would like to be able to make available to their customers a listing of the retailers who carry their products. By allowing such listings, a consumer who is looking for a retail store where they can purchase a specific Oregon winery's products, for example, will be able to get that information directly from the winery. While primarily applicable to off-premises retailers, there may be some application to on-premises retailers, including for distilled spirits suppliers. Staff proposed amending this rule to allow manufacturers or wholesalers to furnish lists of all the retailers who carry their products either on the supplier's website or on lists available at the supplier's premises. The amendments include a requirement that any such lists include all retailers without discrimination, and may include only the names and addresses of the retailers. No prices or other information that could steer customers to a particular retailer are allowed. Staff believes that any benefit to a particular retailer under these amendments would be nominal and thus be consistent with the exceptions allowed by statute for items and services of nominal value.

Advertising, ORS 471.398(4)

ORS 471.398(4) allows a manufacturer or wholesaler to provide advertising to a retailer.

(1) Except as authorized under section (2) of this rule, the only advertising a supplier (manufacturer or wholesaler), or its agents, may provide under this statute is generic, off-premises references to the manufacturer or wholesaler's alcoholic beverage products that mention no specific retailer. Some examples include radio and television commercials and billboards.

(2) A supplier, or its agents, may make available to its customers, either on the supplier's website or on lists available at the supplier's premises, the names and addresses of the retail licensees that sell products made or distributed by the supplier. Any such list must include all retailers who carry the products without discrimination, for example, an alphabetical or geographical list. The lists may not include prices or any other information that would appear to promote any particular retailer over other retailers.

(3) A violation of any section of this rule is a Category III violation.

Retailer Compensation — Video LotterySM Games

(1) **General:** The compensation the Lottery shall pay a retailer for the sale of Video LotterySM game shares is calculated on a percentage of net receipts during a business year. "Net receipts" means the amount of money that is received at a retailer's premises from the sale of Video LotterySM game shares after payment for prizes.

(2) **Compensation When Net Receipts Exceed Tier Threshold:** During the course of a business year, when a Video LotterySM retailer's net receipts exceed the threshold of a tier applicable to the retailer under this rule, the Video LotterySM compensation rate shall remain unchanged for the remainder of the business day on which the threshold is exceeded. The compensation rate for that tier, as set forth in this rule shall apply at the start of the next business day.

For example, if a retailer has chosen option (a) under OAR 177-040-0026(4)(a) and on Wednesday the net receipts reach \$175,001, the retailer is compensated at 27.5% of the net receipts for the remainder of the business day. At 5:00 a.m. on the next day, Thursday, which is the start of the next business day, the compensation rate is reduced to 23% of net receipts.

(3) **Applicability:** The compensation rates for the sale of Video LotterySM game shares set forth in this rule apply to compensation for the sale of shares on all Video LotterySM game terminals at all Video LotterySM retailers effective as of the start of the business day beginning June 27, 2010.

(4) **General:** At the time a retailer signs a Retailer Contract, the retailer must choose in writing to receive compensation in accordance with either subsection (4)(a) or subsection (4)(b) of this section. If the retailer fails to choose as required, the Lottery shall compensate the retailer pursuant to subsection (4)(a) of this section for the first business year the Retailer Contract is in effect. For each subsequent business year that the Retailer Contract is in effect, no less than 60 days before the beginning of the upcoming business year, a retailer may submit a written notice to the Lottery that the retailer chooses to be compensated under the alternative compensation method for the upcoming business year. If the retailer does not submit or fails to timely submit a written notice, the Lottery shall compensate the retailer using the retailer's current compensation method for the next business year.

Purpose

(1) The primary purpose of the Student Conduct Code is to establish community standards and procedures necessary to maintain and protect an environment conducive to learning, in keeping with the educational objectives of Oregon State University. This code is based on the assumption that all persons must treat one another with dignity and respect in order for scholarship to thrive.

(2) Students are also expected to follow the academic and professional standards of the academic units.

(3) Choosing to join the Oregon State University community obligates each member to a code of responsible behavior. Individuals and Student Organizations are expected to observe the policies, rules, and requirements of Oregon State University as well as laws of municipalities and counties, the State of Oregon, the United States of America and, when in another country, that country.

If the Student refuses to leave, the instructor may call the Department of Public Safety for assistance and should submit an Incident Report Form to SCCS to initiate disciplinary proceedings.

(3) Academic or Scholarly Dishonesty:

(a) Academic or Scholarly Dishonesty is defined as an act of deception in which a Student seeks to claim credit for the work or effort of another person, or uses unauthorized materials or fabricated information in any academic work or research, either through the Student’s own efforts or the efforts of another.

Violations of the Student Conduct Code by Student Organizations

When members of a Student Organization act together in a way that violates the Student Conduct Code, the Student Organization is expected to hold itself accountable.

(1) When a potential Organization Violation of the Student Conduct Code occurs, SCCS may review the incident to determine the appropriate process for resolution. Generally, the University will expect a Student Organization to hold itself accountable for the acts of its members when those acts are related to the Student Organization's activities.

(a) The Student Organization or its governing body will notify SCCS and keep it informed at all stages of the process.

ADMINISTRATIVE RULES

(b) The University, through SCCS, reserves the right to take immediate jurisdiction at its discretion. The Student Organization or governing body may still hold its members accountable in the situation, but must do so in conjunction with SCCS.

(2) If a person affected by the alleged violation is not satisfied with the action taken by the Student Organization, that person may file a grievance with the appropriate governing body or, if none exists, with SCCS.

(3) If, in the judgment of the Director of SCCS, sufficient action is not taken in a timely manner by the Student Organization, the case will be reviewed for possible action by SCCS.

(4) In deciding whether the Student Organization is responsible for the violation, the University will consider whether one or more of the following factors are present:

(a) The violation arises out of an event sponsored, organized, financed, or endorsed by the Student Organization;

(b) The violation occurs on premises owned or controlled by the Student Organization;

(c) The leadership of the Student Organization had knowledge, or should have had knowledge, of the likelihood that a violation would occur and failed to take corrective action; or

(d) A pattern of individual violations is found to have existed without proper and appropriate group control, remedy, or sanction.

Jurisdiction

The Student Conduct Code shall apply to a Student's or Student Organization's conduct that occurs on University premises, at University sponsored or affiliated activities regardless of location, and to off campus conduct that adversely affects the University community or the pursuit of University objectives. These standards shall apply to a Student's conduct even if the Student withdraws from school while a disciplinary matter is pending. Examples of behavior that adversely impacts the University community may include but are not limited to physical or sexual assault, rape, hazing, harassment, stalking, furnishing alcohol to minors, distribution of drugs or illegal substances, or illegal weapons use. The University has sole discretion to determine what conduct occurring off campus adversely impacts the University community and/or the pursuit of University objectives.

Sanctions

The University utilizes an educational and restorative sanctioning model. The sanction applied will be commensurate with the violation committed and become progressively more demanding or severe if the Student or Student Organization repeats violations, demonstrating that learning has not taken place. An accumulation of a variety of violations may result in severe sanctions such as deferred suspension, suspension, and expulsion. Violations that affect the health, safety and well being of the community are deemed the most severe and may result, upon the first violation, in a suspension or expulsion. Students or Student Organizations exhibiting behavior that violates any part of the Student Conduct Code are subject to one or more of the following:

(1) Warning: Official notice to a Student or Student Organization exhibiting behavior that violates any part of the Student Conduct Code. The continuation of such behavior may result in further conduct action.

(2) Required Educational Activities: Mandatory participation in educational activities. Such Education Activities include but are not limited to completion of a report or attendance at a seminar or other educational program or presentation.

(3) University/Community Service Work Hours: A Student or Student Organization is required to complete a specified number of hours of service to the University or general Community.

(4) Behavior Expectations Agreement: A contract between the University and the Student outlining specific behavior expectations.

(5) Restitution: The Student or Student Organization is required to provide reimbursement by dollar amount, by transfer of property, or by provision of services to the University or a member of the University community in accordance with the nature of the violation and in an amount not in excess of actual expenses, damages, or losses incurred.

(6) Restrictions: Removal from a Student Organization, denial of entry to specific University facilities or other restrictions consistent with the violation committed. For a Student Organization, restrictions may include denial of specific University privileges including but not limited to sponsored social activities, sponsored parties or philanthropy, participation in intramurals, representing the University and any travel in connection with such representation, recruitment, membership or representation on a governing council, use of space for a meeting or event on campus, participation in competition and events, and receipt of institutional funding.

(7) No Contact Order: A No Contact Order is a directive to a Student or Students to refrain from any intentional contact, direct or indirect, with one or more designated persons through any means including personal contact, e-mail, telephone, or third parties.

(8) Academic Sanction: Students whose behavior is found to constitute Academic or Scholarly Dishonesty as defined in OAR 576-015-0020(2) are subject to additional academic sanctions, which may include but are not limited to failing the course, removal from an academic department, or removal from a college. Academic sanctions are imposed by the instructor, department chair or dean and are noted on the Academic Dishonesty Report Form in accordance with Academic Regulation 15.

(9) Removal from a Class: A Student's removal from a class may be temporary or permanent. Permanent removal from a class may be authorized by the Director of SCCS with concurrence from the Dean of the College in which the class is offered. A Student who is permanently removed from a class will receive a "W" (Withdrawal) on the academic transcript. No refunds for tuition or other class fees will be made.

(10) Conduct Probation: Placement on probationary status during which there is observation and review of behavior and the Student or Student Organization must demonstrate compliance with the Student Conduct Code. Terms of the Conduct Probation will be determined at the time the probation is imposed and may include additional sanctions including but not limited to loss of privileges, restrictions, restitution, and/or required educational activities.

(11) Conduct Suspension:

(a) Deferred Suspension: Placement on deferred suspension status during which there is observation and review of behavior. If the Student or Student Organization is found to further violate the Student Conduct Code during this period then the Student/Student Organization is suspended without further hearings. Deferred Suspension may be for a period of one term up to and including the remainder of a Student's enrollment at the University; Deferred Suspension for a Student Organization is generally for one year but may be up to three years.

(b) Suspension:

(A) Student — Exclusion from the University and all University property for a specified period of time. The Department of Public Safety will exclude the Student from OSU campus upon Suspension. Suspended Students are denied the privileges and services provided to currently enrolled Students, including residing in University-owned or recognized Student housing, attending class, or using other University services or facilities. Suspension is generally for one year, however the period of Suspension may be specified for any period of time;

(B) Student Organization — Loss of University recognition or registration for a specified period of time. The Organization must comply with all sanctions prior to being registered or recognized again. While a Student Organization is suspended it may not use University resources;

(C) The conditions of Suspension take effect immediately after the Student or Student Organization has been informed of the decision. If an appeal is filed, the imposition of the Suspension will be delayed until the conclusion of the appeal process. However, if a pending conduct hearing or appeal may result in Suspension as determined by the Director of SCCS, awarding of a Student's academic degree will be postponed pending the outcome of the conduct hearing.

(12) Expulsion: Permanent Conduct Suspension.

(13) Degree Revocation.

Record

(1) All Student Conduct Code violations incurring sanctions include the creation of a conduct record. Sanctions at the level of Conduct Probation and above place the Student or Student Organization outside of "good standing" with the University for the duration of the sanction. Multiple sanctions may be imposed where appropriate.

(2) Suspension or expulsion will be noted in a Student's general academic record within the Registrar's Office by means of a Conduct Action Form which indicates the reason for the Suspension. The suspended Student may include in the record an explanation for the action taken by the University. As stipulated in OAR-166-475-0110(38), case files involving Expulsion or Degree Revocation are retained for 75 years; case files involving Suspension are retained for 10 years; all other conduct case files are retained for 5 years.

Notice

(1) Upon receiving a complaint or report that a Student or Student Organization may have violated the Student Conduct Code, the Director of SCCS will notify the Student/Student Organization in writing of the alleged violation(s). The notice will inform the Student or Student Organization of the rule(s) said to have been violated and a description of the acts or omissions alleged to have been in violation of the Student Conduct Code.

(2) If the Director of SCCS determines the alleged violation(s) may result in Suspension or Expulsion, the notice described in subsection (1) will set a time and place for a SCCS Committee hearing. The period of time between the hearing date and the accused Student's or Student Organization's receipt of the notice must be at least 72 hours. The Director of SCCS will notify the Student/Student Organization that the SCCS Committee Hearing may be waived and, in its place, the case heard by the Director of SCCS or designee.

(3) If there is an allegation of academic dishonesty as defined in OAR 576-015-0020(2), the Director of SCCS will determine what conduct proceeding is appropriate. If there is a record of a previous incident of academic dishonesty, the Director of SCCS will send written notice to the Student of a SCCS Committee hearing, as described in subsections (1) and (2) of this rule, and OAR 576-015-0050.

(1) When an SCCS Committee hearing is called, the accused Student or Student Organization will appear before a panel of up to five faculty or staff and five students appointed by the Vice Provost for Student Affairs and the Associated Students of Oregon State University, respectively. The Bylaws of the SCCS Committee are available from the Vice Provost for Student Affairs or the SCCS office.

(2) All SCCS Committee hearings are closed and information presented along with all supporting documents is confidential. The hearing is informal and does not follow administrative contested case or courtroom procedures.

(3) If the Student or Student Organization has been properly notified and fails to appear, the SCCS Committee may proceed with the hearing and conduct action may be taken.

(4) During the hearing, the accused Student or Student Organization may be accompanied by an advisor of the Student's/Student Organization's choice. The advisor may be a faculty or staff member, fellow Student, parent, or any person of the Student's/Student Organization's choice so long as the availability of the advisor does not hamper the timeliness of the hearing. The Student/Student Organization may choose to have an attorney serve as advisor, however the advisor does not represent the Student/Student Organization in a conduct hearing and the Student/Student Organization will be expected to speak for him/herself or themselves at all times.

(5) During the hearing, the Student or Student Organization has the opportunity to offer information and testimony on his/her/its own behalf. The Student/Student Organization also has the opportunity to review and respond to all information, statements, or evidence presented.

(6) The chairperson of the SCCS Committee, or designee, will decide any questions or objections to hearing procedures that are raised during the hearing.

(7) Members of the Committee may ask questions of any person present during the hearing and the chairperson will invite questions and comments from the accused Student/Student Organization and the victim-claimant if present. The chairperson may also invite questions or comments from advisors or others present. If the chairperson decides an essential person or piece of information is missing, the chairperson may decide to reconvene the hearing at the earliest practical time that the missing information will be available.

(8) After the chairperson has determined that all necessary information has been presented and questions answered, the Committee will go into executive session and all other persons will be excused. The Committee will determine, based on a preponderance of the evidence, whether or not it believes the accused Student/Student Organization is responsible for a violation of the Conduct Code and, if so, the Committee will reconvene with the accused Student/Student Organization and a representative of SCCS to consider what sanctions may be appropriate. The accused Student/Student Organization may waive his/her/their right to be present. The Committee may consider:

(a) Evidence of any mitigating circumstances presented by the Student/Student Organization; and

(b) Other relevant information, including but not limited to, evidence of prior violations of the Student Conduct Code presented by a representative of SCCS.

(9) The Committee will again go into executive session to make a decision about appropriate sanctions. The time between the conclusion of the hearing and the delivery of the recommendation to the Director of SCCS shall be no more than three days, excluding weekends and holidays. The Committee's decision will be in the form of a written recommendation to the Director of SCCS.

(10) In cases of Academic or Scholarly Dishonesty or the reported misbehavior of an academic department Student Organization, the Committee shall make a recommendation within three days to the Associate Vice Provost for Academic Affairs, or designee, who shall make the decision. The accused Student/Student Organization will be sent a letter describing the decision and any University expectations or actions taken.

Internal University matter, however, are generally more appropriately governed by University policies, rather than administrative rules. In recognition of the fact that these rules govern internal University matters, OSU proposed to repeal the OAR 576-018-000 et seq administrative rules and replace them with OSU policies currently under development and to be adopted approximately simultaneously with this proposed repeal.

Adm. Order No.: PRD 8-2010

Filed with Sec. of State: 6-16-2010

Certified to be Effective: 6-16-10

Notice Publication Date: 1-1-2010

Rules Amended: 736-040-0055

Subject: The rule governing public use of the Owyhee River Scenic Waterway is being amended to mirror Federal public use regulations for uniform enforcement. The rules will include OPRD's policy for public use of the Owyhee River Scenic Waterway, provide definitions of terms, and set clear guidelines relative to: (1) boating and registration; (2) campfires, fuel, firepans, and smoking; (3) camping; and (4) litter and personal sanitation.

Rules Coordinator: Vanessa DeMoe—(503) 986-0719

736-040-0055

Owyhee River Scenic Waterway

Natural River Area:

(1) The entire Owyhee River Scenic Waterway, in its two segments, is classified as a Natural River Area.

(2) In order to preserve the river and related adjacent lands in an essentially primitive condition, no new structures or improvements which are visible from the river, other than those erected or made in connection with the existing agricultural uses, or those needed for public outdoor recreation or for resource protection will be permitted. Commercial public service facilities, including resorts and motels, lodges and trailer parks, and additional dwellings which are visible from the river will not be permitted.

(3) Public Use of the Owyhee River Scenic Waterway

(a) Policy: The Commission finds that it is necessary to adopt rules for public recreation use of the lands and waters within this scenic waterway area in order to protect and enhance the Owyhee River Scenic Waterway's unique aesthetic, scenic, fish and wildlife, scientific and recreational features, and because these outstanding and unique features caused the people of Oregon to designate these river segments as a scenic waterway. The Commission bases this rule upon the need to protect and preserve the waterway's outstanding scenic beauty and natural features while maintaining the river's wide range of recreational opportunities. Therefore, in accordance with the management provisions of ORS 390.845, person using the Owyhee River Scenic Waterway for recreation purposes shall comply with this rule. Where more restrictive or specific than the general rules of this division, this rule will prevail over the general rules.

(b) Definitions: For purposes of this rule, the following definitions apply:

(A) "Approved portable toilet" means any non-biodegradable, reusable, rigid, durable container designed to receive and hold human waste, in any container position without leaking, large enough to service the entire party for the length of the trip, and equipped with a dumping system that allows the container to be emptied and rinsed into a standard receiving or dump system designed for that purpose, without spills, seepage or human exposure to human waste; or at least one WAG bag manufactured by Phillips Environmental Products or other similar approved product, for each person in the boating party, carried in a leak-proof container and disposed of in a trash receptacle according to manufacturer instructions, without spills, seepage or human exposure to human waste.

(B) "Boat" means every watercraft or device used as a means of transport on the water.

(C) "Camping" means erecting a tent or shelter of natural or synthetic material, preparing a sleeping bag or other bedding material, parking a motor vehicle, motor home or trailer, or mooring of a vessel, or other action for the apparent purpose of overnight occupancy.

(D) "Designated Campsite" means a public designated campsite within a developed campground, marked with a visible number painted on a picnic table or mounted on a post or placard.

(E) "Developed Toilet Facility" means a vault type toilet provided by the Bureau of Land Management or the department.

(F) "Display Intent To Remain Overnight" means any off-loading onto the riverbank, or preparing for use, common overnight camping equipment such as tents, sleeping bags or bedding, food, cooking or dining equipment, or lighting equipment, or to prepare common camping equipment for use in or on any boat.

(G) "Group" means any number of persons affiliated together with a common goal to recreate with each other in activities such as rafting, eating, camping, or swimming.

(H) "Group Size Limit" means a boating party not to exceed 15 persons between the Idaho state line to Three Forks, and not to exceed 20 persons between Crooked Creek to Birch Creek regardless of the number of persons covered by each boater registration form.

(I) "Owyhee River Scenic Waterway" means that portion of the Owyhee River designated in ORS 390.826(15) as a State Scenic Waterway. The portion of the Owyhee River Scenic Waterway affected by this rule covers the section of the South Fork Owyhee River from the Idaho border downstream to Three Forks, and the mainstem Owyhee River from Crooked Creek downstream to Leslie Gulch. The Owyhee River Scenic Waterway also includes all water and lands within one-quarter mile of the bank on either side of the river.

(J) "Refuse" includes, but is not limited to, wastewater, sewage, litter, trash, garbage, scraps, remnants of water balloons or clay pigeons, remnants of a campfire including charcoal, ash, or burned debris, or other useless or worthless parts of things.

(K) "Remain Overnight" means human presence in the Owyhee River Scenic Waterway on a boat-in basis for any period of time from one hour after legal sunset to one hour before legal sunrise.

ADMINISTRATIVE RULES

(L) "Trip Leader" means a person who completes and signs an Owyhee River Boater Registration Form on behalf of a boating group. By signing the boater registration form, the group leader accepts legal responsibility for the leader's and group members' compliance with all applicable Department, Oregon State Marine Board, and Oregon Liquor Control Commission administrative rules; controlled substance, juvenile and criminal laws; and this rule.

(c) Boating and Registration:

(A) All boats shall carry at least one United States Coast Guard approved personal flotation device in good and serviceable condition for each person on board. Each device shall be of an appropriate size for the person for whom it is intended and shall be readily accessible whenever the boat is in use. As used in this paragraph, a personal flotation device is not "readily accessible" if it is stowed in a locked compartment or locker or is otherwise not immediately, physically available to persons on board the boat in case of an emergency.

(B) Every boater or boating group shall register their party and trip prior to launching. The boater or trip leader must completely and accurately provide all information requested on the registration form and must sign the registration form prior to launch in order to be valid.

(C) Every boater or boating group shall abide by the requirements of the registration form stipulations.

(D) The boater or group leader must carry their valid registration and it must be readily available for inspection upon request by authorized agency and law enforcement personnel.

(d) Campfires, Fuel, Firepans and Smoking:

(A) When fire is not prohibited, a person must contain fire in a firepan or similar device of metal. A firepan is a metal container with sides at least two inches high to prevent ashes or burning material from spilling onto the ground.

(B) A person may use commercially manufactured metal camp stoves and lanterns for outdoor use only when fueled with bottled liquefied petroleum gas (e.g. propane) or liquid gas. A person must operate such stove or lanterns in a responsible manner at all times.

(C) A person may not chop, saw, break, cut, burn or gather wood or other combustible material from any live or standing tree.

(D) A person must completely extinguish all fires after use. A person must take the extinguished remains, including all ash, wood or charcoal residues, partially consumed briquettes, and burned refuse out of the scenic waterway for disposal or deposit in a proper garbage receptacle provided at recreation sites or litter collection stations.

(E) A person may only smoke in non-public buildings, closed vehicles, while in boats on the water or while standing in the water.

(e) Camping:

(A) Groups occupying any campsite shall not exceed either the maximum number of persons or vehicles allowed for that campsite.

Public Utility Commission
Chapter 860

Rule Caption: In the Matter of Amendments to OAR 860-022-0041(2)(p), (2)(s)(B), and (5)(a)(B).

Adm. Order No.: PUC 3-2010

Filed with Sec. of State: 6-28-2010

Certified to be Effective: 6-28-10

Notice Publication Date: 2-1-2010

Rules Amended: 860-022-0041

Subject: The Commission adopted rules implementing SB 408 (2005) in September 2006. SB 408 requires certain public utilities to provide information about the amount of taxes paid by the utility and the amount of taxes authorized to be collected in rates during specific time periods. In auditing tax reports filed since that time, Commission Staff discovered some provisions in the implementing rules that were unclear and subject to differing interpretations, which had a significant effect on the calculation of "taxes paid" and "taxes collected" in rates. These amendments clarify those provisions.

Annual Tax Reports and Automatic Adjustment Clauses Relating to Utility Taxes

(1) This rule applies to regulated investor-owned utilities that provided electric or natural gas service to an average of 50,000 or more customers in Oregon in 2003, or to any successors in interest of those utilities that continue to be regulated investor-owned utilities.

(2) As used in this rule:

(b) "Deferred taxes" for purposes of the utility means the total deferred tax expense of regulated operations that relate to the year being reported in the utility's results of operations report or tax returns, excluding deferred taxes related to the establishment of a regulatory receivable or payable account for any rate adjustment imposed under ORS 757.268, in the year the deferred tax is established but not thereafter, to eliminate the iterative tax effect of the rate adjustment.

(c) "Income" means taxable income as determined by the applicable taxing authority, except that income means regulatory taxable income when reporting or computing the stand-alone tax liability resulting from a utility's regulated operations.

(d) "Income tax losses" means the negative taxable income of an entity in the federal taxpayer or unity group, excluding the current deduction of tax depreciation on public utility property and federal investment tax credits related to public utility property.

investment tax credits, and calculating interest expense using actual annual average weighted cost of debt derived from the actual annual average capital structure for the tax period multiplied by the annual average rate base for the tax period.

(q) "System regulated operations" means those activities of the utility, in Oregon and other jurisdictions that are subject to rate regulation by any state commission.

(i) The revenue the utility collects, as reported in the utility's results of operations report;

(ii) The ratio of the net revenues from regulated operations of the utility to gross revenues from regulated operations of the utility, calculated using the pre-tax income and revenue the Commission authorized in establishing rates and revenue requirement; and

(iii) The effective tax rate used by the Commission in establishing rates for the time period covered by the tax report as set forth in the most recent general rate order or other order that establishes an effective tax rate, calculated as the ratio of total income tax expense in revenue requirement to pre-tax income.

(B) For purposes of paragraph (2)(s)(A) of this rule, when the Commission has authorized a change during the tax year for gross revenues, net revenues, or effective tax rate, then the amount of taxes authorized to be collected in rates will be calculated by weighting the amount of energy sold during the period that rates were in effect as a percentage of the total energy sold during the tax year.

(t) "Taxes paid" has the meaning given to "taxes paid" in ORS 757.268(13)(f).

(u) "Taxpayer" means the utility, the affiliated group or the unitary group that files income tax returns with units of government.

(x) "Units of government" means federal, state, and local taxing authorities.

(3) The amount of income taxes paid that is properly attributed to regulated operations of the utility is calculated as follows:

(a) The amount of federal income taxes paid to units of government that is properly attributed to the regulated operations of the utility is the product of the values in paragraphs (3)(a)(A) and (B), subject to subsection (3)(b) of this rule:

(A) The total amount of federal income taxes paid by the federal taxpayer, to which is added:

(i) The current tax benefit, at the statutory federal income tax rate, of tax depreciation on public utility property;

(ii) The tax benefits associated with federal investment tax credits related to public utility property; and

(iii) Imputed tax benefits on charitable contributions and IRC section 45 renewable electricity production tax credits of the affiliated group, except those tax benefits or credits associated with regulated operations of the utility; and

(B) The average of the ratios calculated for the utility's gross plant, wages and salaries and sales, using amounts allocated to regulated operations of the utility as set forth in the utility's results of operations report in the numerator and amounts for the federal taxpayer in the denominator.

(b) The amount of federal income taxes paid that is properly attributed to the regulated operations of the utility under subsection (3)(a) of this rule shall not be less than the amount of the federal stand-alone tax liability calculated for the regulated operations of the utility, reduced by the product of:

(A) The imputed negative tax associated with all federal income tax losses of entities in the utility's federal taxpayer group; and

(B) The average of the ratios for the utility's gross plant, wages and salaries and sales, using amounts allocated to the regulated operations of the utility as set forth in the utility's results of operations report in the numerator and amounts for the system regulated operations in the denominator.

(c) The total amount of state income taxes paid to units of government that is properly attributed to the regulated operations of the utility is the product of the values in paragraphs (3)(c)(A) and (B), subject to paragraphs (3)(c)(C) and (D) and subsection (3)(d) of this rule:

(A) The total amount of Oregon income taxes paid by the Oregon unitary group taxpayer, to which is added:

(i) The current tax benefit, at the state statutory rate, of tax depreciation on public utility property; and

(ii) Imputed Oregon tax benefits on charitable contributions of the unitary group, except those tax benefits associated with regulated operations of the utility; and

(B) The average of the ratios calculated for the utility's gross plant, wages and salaries and sales using amounts allocated to regulated operations of the utility as set forth in the utility's results of operations report in the numerator and amounts for the unitary group taxpayer in Oregon, adjusted to reflect amounts allocated to regulated operations of the utility, in the denominator.

(C) If a utility's taxes collected in rates reflect non-Oregon state income taxes, the utility must make a one-time permanent election in its October 15, 2006, tax report filing, or in the case of a change of the majority ownership of the utility's voting shares pursuant to ORS 757.511, in the first tax report filing that includes a tax reporting period reflecting the new ownership, to either:

(i) Multiply the total amount of Oregon income taxes paid in paragraph (3)(c)(A) of this rule before adjustments by the ratio calculated as the state income tax rate used by the Commission in establishing rates divided by the Oregon statutory tax rate set forth in ORS 317.061; or

(ii) Calculate the total state taxes paid using the formula set forth in paragraphs (3)(c)(A) and (B) of this rule on a state by state basis, apportioned to Oregon by multiplying the total state taxes paid by the average of the ratios calculated for gross plant, wages and salaries and sales using amounts allocated to the regulated operations of the utility in the numerator and amounts for the system regulated operations in the denominator.

(D) When Oregon income tax attributable to system regulated operations is 100 percent allocated to Oregon in setting rates, 100 percent of the Oregon income tax of system regulated operations must be attributed to the regulated operations of the utility.

(d) The amount of state income taxes paid that is properly attributed to the regulated utility operations of the utility under subsection (3)(c) of this rule must not be less than:

(A) For a utility for which Oregon state income taxes are the only state income taxes included in rates, the amount of the Oregon state stand-alone tax liability calculated for the regulated operations of the utility, minus the imputed negative tax associated with all Oregon state income tax losses of entities in the utility's unitary group; or

(B) For a utility for which non-Oregon state income taxes are included in rates, the product of:

(i) The sum of the state stand-alone tax liability calculated for the applicable system regulated operations in each state in which the utility is a member of a unitary group, minus the sum of the imputed negative tax associated with all state income tax losses of entities in the utility's unitary group in each state; and

(ii) The average of the ratios calculated for gross plant, wages and salaries and sales using amounts allocated to the regulated operations of the utility in the numerator and amounts for the system regulated operations in the denominator.

(e) The amount of local income taxes paid to units of government that is properly attributed to the regulated operations of a utility is the product of the values in paragraphs (3)(e)(A) and (B) of this rule for each local taxing authority in Oregon:

(A) The total amount of income taxes paid by the taxpayer to the local taxing authority, as adjusted to include the imputed effect on local income taxes of:

(i) The current tax benefit of tax depreciation on public utility property; and

(ii) Imputed tax benefits on charitable contributions of the taxpayer except those associated with regulated operations of the utility; and

(B) The ratio calculated using the method for apportioning taxable income used by the local taxing authority, with the amount for the regulated operations of the utility in the local taxing authority in the numerator and the amount for the taxpayer in the local taxing authority in the denominator.

(4) On or before October 15 of each year, each utility must file a tax report with the Commission. The tax report must contain the following applicable information for each of the three preceding fiscal years:

(a) The amount of federal and state income taxes paid to units of government by the taxpayer, as adjusted pursuant to subparagraphs (3)(a)(A)(i), (ii) and (iii) of this rule;

ADMINISTRATIVE RULES

(b) The amount of the utility's federal and state income taxes paid that is incurred as a result of income generated by the regulated operations of the utility, where:

(A) The amount of federal income taxes paid is equal to the federal stand-alone tax liability calculated for the regulated operations of the utility;

(B) For a utility for which Oregon state income taxes are the only state income taxes included in rates, the utility's state income taxes paid is the Oregon state stand-alone tax liability calculated for the regulated operations of the utility; and

(C) For a utility for which non-Oregon state income taxes are included in rates, the amount of state income taxes paid is the product of:

(i) The sum of the state stand-alone tax liability calculated for the applicable system regulated operations in each state in which the utility is a member of a unitary group; and

(ii) The ratio calculated as the income of the regulated operations of the utility divided by the income of the system regulated operations;

(c) The amount of federal and state income taxes paid to units of government by the taxpayer that is properly attributed to the regulated operations of the utility, as calculated in section (3) of this rule;

(d) The lowest of the amounts in subsections (4)(a), (4)(b) and (4)(c) of this rule, after making adjustments in paragraphs (4)(d)(A), (4)(d)(B), (4)(d)(C), (4)(d)(D), and (4)(d)(E), but no less than the deferred taxes related to depreciation of public utility property for regulated operations of the utility, except the deferred tax amount must be reduced by any tax refunds recognized in the reporting period and allocated to the regulated operations of the utility:

(A) The items defined in subsection (2)(t) of this rule;

(B) A reduction equal to the current tax benefit related to tax depreciation of public utility property for regulated operations of the utility;

(C) A reduction equal to the tax benefit related to federal investment tax credits recognized by the Commission in establishing rates;

(D) An increase equal to the tax benefit of Oregon business energy tax credits, including those credits transferred pursuant to ORS 469.206 and 469.208, of the unitary group, excluding those credits covered by 757.268(13)(f)(B); and

(E) Elimination of the iterative tax effect to the extent such iterative tax effect has not been eliminated by paragraph (4)(d)(A) of this rule;

(e) The amount of federal and state income taxes authorized to be collected in rates;

(f) The amount of the difference between the amounts in subsections (4)(d) and (4)(e) of this rule;

(g) The amount of local income taxes paid to units of government by the taxpayer, calculated for each local taxing authority, and to which is added the imputed effect on local income taxes of the amount in subparagraph (3)(e)(A)(i) of this rule;

(h) The amount of local income taxes paid to units of government by the taxpayer that is incurred as a result of income generated by the regulated operations of the utility, calculated as the stand-alone tax liability in each local taxing authority;

(i) The amount of local income taxes paid to units of government by the taxpayer that is properly attributed to the regulated operations of the utility, as calculated in section (3) of this rule for each local taxing authority;

(j) The lowest of the amounts in subsections (4)(g), (4)(h) and (4)(i) of this rule, calculated for each local taxing authority, after making adjustments for:

(A) The items defined in subsection (2)(t) of this rule; and

(B) A reduction equal to the local tax effect of the current tax benefit related to tax depreciation of public utility property for regulated operations of the utility; and

(C) Elimination of the iterative tax effect to the extent such iterative tax effect has not been eliminated by paragraph (4)(j)(A) of this rule;

(k) The amount of local income taxes collected from Oregon customers, calculated for each local taxing authority;

(l) The amount of the difference between the amounts in subsection (4)(j) and (4)(k) of this rule, calculated for each local taxing authority;

(m) The proposed surcharge or surcredit rate adjustments for each customer rate schedule to charge or refund customers the amount of the differences in subsections (4)(f) and (4)(l) of this rule;

(n) If the utility claims the minimum taxes paid amount set by subsections (3)(b) and (3)(d) of this rule, the total federal and state income tax losses in the utility's affiliated and unitary groups associated with the imputed negative tax claimed; and

(o) Any adjustments, in addition to the adjustments required in section (3) and subsections (4)(a) through (4)(n) of this rule, that the utility proposes to avoid probable violations of federal tax normalization requirements.

(5) In calculating the amount of taxes paid under sections (3) and (4) of this rule:

(a) "Taxes paid" must be allocated to each tax year employed by the utility for reporting its tax liability in the following manner:

(A) For any tax return prepared for the preceding tax year and filed on or before the date the tax report is due for such tax year, the utility must allocate each reported tax liability to the tax year for which such return is filed;

(B) For each adjustment made to an originally filed federal, state, or local tax return, including adjustments resulting from an audit, the utility must include the related tax liability or tax refund in the first tax report filed after the tax liability or tax refund has been paid or received and the taxing authority has made a final determination regarding the adjustment;

(C) Taxes paid must include any interest paid to or interest received from units of government with respect to tax liabilities.

(b) When a utility's fiscal year or parent changes, and a partial year consolidated federal income tax return is filed during the year, taxes paid must be calculated in the manner defined by ORS 314.355 and OAR 150-314.355. For purposes of this rule, the amount of taxes paid must reflect a weighted average of the months in effect related to each tax return filing.

(6) The utility must explain the method used for calculating the amounts in this rule and provide copies of all work papers and documents supporting the calculations.

(7) The Commission will establish an ongoing docket for each of the October 15 tax report filings. Upon signing a protective order prepared by the Commission, any intervenor may have access to all such tax report filings, subject to the terms of the protective order.

(a) Within 20 days following the tax report filings, an Administrative Law Judge will conduct a conference and adopt a schedule.

(b) Within 180 days of the tax report filings, the Commission will issue an order that contains the following findings:

(A) Whether the taxes authorized to be collected in rates for any of the three preceding fiscal years differs by \$100,000 or more from the amount of taxes paid to units of government that is properly attributed to the regulated operations of the utility;

(B) For the preceding fiscal year, the difference between the amount of federal and state income taxes paid to units of government by the taxpayer that is properly attributed to the regulated operations of the utility and the amount of taxes authorized to be collected in rates;

(C) For the preceding fiscal year, the difference between the amount of local income taxes paid to units of government by the taxpayer that is properly attributed to the regulated operations of the utility and the amount of local taxes collected in rates; and

(c) Any other finding or determination necessary to implement the automatic adjustment clause.

(8) Upon entry of an order finding a difference of \$100,000 or more in section (7) of this rule, the utility must file an amended tariff, to be effective each June 1 unless otherwise authorized by the Commission, to implement a rate adjustment applying to taxes paid to units of government and collected from ratepayers for each fiscal year beginning on or after January 1, 2006.

(a) The utility must establish a balancing account and automatic adjustment clause tariff to recover or refund the difference determined by the Commission in paragraph (7)(b)(B) of this rule through a surcharge or surcredit rate adjustment.

(b) A utility that is assessed a local income tax must establish a separate balancing account and automatic adjustment clause tariff for each local taxing authority assessing such tax. The utility must apply a surcharge or surcredit on the bills of customers within the local taxing authority assessing the tax. The amount of the surcharge or surcredit must be calculated to recover or refund the difference determined by the Commission in paragraph (7)(b)(C) of this rule.

(c) Any rate adjustment must be calculated to amortize the difference determined by the Commission in paragraphs (7)(b)(B) and (7)(b)(C) of this rule over a period authorized by the Commission.

(d) Any rate adjustment must be allocated by customer rate schedule according to equal percentage of margin for natural gas utilities and equal cents per kilowatt-hour for electric utilities, unless otherwise authorized by the Commission.

(e) Each balancing account must accrue interest at the Commission-authorized rate for deferred accounts. For purposes of calculating interest,

ADMINISTRATIVE RULES

the amount of the difference calculated in this section of the rule will be deemed to be added to the balancing account on July 1 of the tax year.

(f) The automatic adjustment clause must not operate in a manner that allocates to customers any portion of the benefits of deferred taxes resulting from accelerated depreciation or other tax treatment of utility investment or regulated affiliate investment required to ensure compliance with the normalization method of accounting or any other requirements of federal tax law.

(g) On or before December 31, 2006, each utility must seek a Private Letter Ruling from the Internal Revenue Service on whether the utility's compliance with ORS 757.268 or this rule would cause the utility to fail to comply with any provision of federal tax law, including normalization requirements. Each utility must file a draft of its Private Letter Ruling Request with the Commission on or before November 15, 2006. While a utility's request for a Private Letter Ruling is pending, or a related Revenue Ruling is pending, no rate adjustment will be implemented, but interest will accrue according to subsection (8)(e) of this rule on the amount of any rate adjustment determined by the Commission pursuant to paragraphs (7)(b)(B) and (7)(b)(C) of this rule.

(9) No later than 30 days following the Commission's findings in section (7) of this rule, any person may petition to terminate the automatic adjustment clause on the basis that it would result in a material adverse effect on customers. In the event of a filing under this section, the applicable rate adjustment will not be implemented until the Commission makes its determination. If the Commission denies the request to terminate the rate adjustment, interest will accrue according to subsection (8)(e) of this rule on the final amount of the rate adjustment.

Definitions

For the purposes of OAR 160-010-0010 through 160-010-0014:

(1) "Distinguishable" means visually distinct, in writing, as opposed to a comparison of words as they sound. Thus, homonyms, such as "fair" and "fare" are permitted; whereas heteronyms such as "wind" and "wind" are not distinguishable.

(2) "Entity identifier" means the words "corporation", "company", "incorporated", "limited", "limited liability company", "limited liability partnership", "business trust", "professional corporation" or "limited partnership" or any abbreviation or derivation thereof. An entity identifier must be separate from other words or parts of words in the business name to be considered an entity identifier. Example: "ProCorp" does not have an entity identifier. "ProCorp, Inc." does.

(3) "Key Word" means a word other than an article, preposition, conjunction, or entity identifier at the end of a business name.

(1) Entity identifiers at the end of a name

(2) Punctuation or special characters

(3) Capitalization

(4) Spacing

(5) The presence or absence of an article, preposition, or conjunction, or a symbol for that word, including "a," "an," "and," "at," "by," "for," "in," "plus," "the," "to," and "with." Examples of symbols include "&," "@," and "+."
