Green Leaf Lab
The Northwest's Premier Cannalysis™ Laboratory

Green Leaf Lab is the Northwest's most trusted name for Cannalysis™. We provide accurate, reliable and consistent cannabis potency testing and safety screening to the Northwest's medical marijuana community.

- We understand what patients need.
- We believe that providers will succeed by ensuring the well-being of their patients.
- Our full spectrum Cannalysis™ is the answer.

WHY CANNALYSIS™ IS IMPORTANT

We believe that Cannalysis™ will educate patients and providers by giving them information about any potential compounds that could be unhealthy to ingest, as well as the effectiveness of their medicine.

We believe that Cannalysis™ will advocate for uniform standards for the medical marijuana community and create transparency by utilizing scientific methodology.

BE A PART OF THE GREEN LEAF EXPERIENCE

REAL SCIENCE. REAL TESTING. REAL RESULTS.

Cannalysis™ will provide a means for patients and providers to communicate efficiently about medical marijuana. At this time, safety standards and quality assurance for medical marijuana is not highly regulated. Only through third party testing can medical cannabis analysis be authenticated and verifiable.

WHY TEST WITH US

- ✓ We are professional and experienced
- ✓ Our prices are competitive
- ✓ Our results are accurate and reliable
- ✓ Our Strain Facts™ Cards and Stickers are user friendly

POTENCY TESTING

Potency testing allows the patients to make informed choices regarding the medical cannabis that they consume. Testing will help you and your patients find the right medical strain that fulfills individual medical needs.

PESTICIDE SAFETY SCREENING

Ingesting pesticides can be harmful to anyone, but they can have serious detrimental consequences for those who are ill or have compromised immune systems. We are committed to offering patients and providers information as to whether their medicine is safe and free of pesticide contamination.

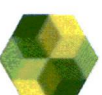

MICROSCOPIC/VISUAL MOLD INSPECTION AND MOLD CULTURE

Many individuals can have adverse reactions to the presence of mold. Screening for mold will assure that the product is essentially free of this contamination and is safe for use. Our commitment is to ensure that the medical cannabis you consume is free from dangerous mold or fungus contaminants.

CANNALYSIS™

At Green Leaf Lab, we feel that all medical cannabis should be rigorously tested utilizing Cannalysis™, our full spectrum testing process. We employ scientifically proven procedures and use Gas Chromatography - the most accurate and reliable method for analyzing cannabinoids. Our chemists are experienced and professionally trained.
