*Be It Enacted by the People of the State of Oregon:*

**Section 1.** (1) ORS 390.710 to 390.750 is added to and made a part of ORS 390.610 to 390.690.

(2) Sections 8, 9, 11, 12, 20 to 23, 25 and 27 of this Act are added to and made a part of ORS 390.610 to 390.690.

**Section 2.** ORS 390.710 is amended to read:

390.710. As used in ORS ~~{390.710 to 390.750}~~ 390.610 to 390.690, unless the context requires otherwise:

(1) An "improvement" includes a structure, appurtenance or other addition, modification or alteration constructed, placed or made on or to the land.

(2) "Ocean shore" means the land lying between extreme low tide of the Pacific Ocean and the line of vegetation as established and described by section 8 of this 1969 Act.

(3) "State recreation area" means a land or water area, or combination thereof, under the jurisdiction of the State Highway Commission, pursuant to subsection (3) of ORS 366.205, used by the public for recreational purposes.

~~{(2) "State recreation area" means a land or water area, or a combination thereof, set aside as a unit of the state parks system for recreational activities of a regional interest, with emphasis placed upon providing all the needed recreation opportunities the area affords, and so managed as to not unnecessarily impair the recreational and scenic features and values found in the area after consultation with local communities.}~~

**Note:** Section 3 was deleted by amendment.

**Section 4.** ORS 390.610 is amended to read:

390.610. (1) The Legislative Assembly hereby declares it is the public policy of the State of Oregon to forever preserve and maintain the sovereignty of the state heretofore *legally* existing over the ~~{seashore and}~~ ocean ~~{beaches}~~ shore of the state from the Columbia River on the North

to the Oregon-California line on the South so that the public may have the free and uninterrupted use thereof.

(2) The Legislative Assembly recognizes that over the years the public has made frequent and uninterrupted use of *the ocean shore* ~~[lands abutting, adjacent and contiguous to the public highways and state recreation areas]~~ and recognizes, further, that where such use has been *legally* sufficient to create *rights or easements* in the public through dedication, prescription, grant or otherwise, that it is in the public interest to protect and preserve such public *rights or easements* as a permanent part of Oregon's recreational resources.

(3) Accordingly, the Legislative Assembly hereby declares that all public rights ~~[and]~~ or easements *legally acquired* in those lands described in subsection (2) of this section are confirmed and declared vested exclusively in the State of Oregon and shall be held and administered *as state recreation areas*. ~~[in the same manner as those lands described in ORS 390.720.]~~

(4) The Legislative Assembly further declares that it is in the public interest ~~[to acquire additional rights and]~~ to do whatever is necessary to preserve and protect scenic and recreational use of Oregon's ~~[seashore and]~~ ocean ~~[beaches]~~ *shore*.

Section 5. ORS 390.620 is amended to read:

390.620. (1) No portion of ~~[these]~~ *the* lands described ~~[in subsections (2) to (4) of]~~ by ORS 390.610 or any interest either therein now or hereafter acquired by the State of Oregon or any political subdivision thereof ~~[may]~~ *shall* be alienated except as expressly provided by state law. ~~[(2)]~~ The State Highway Commission, when necessary, shall undertake appropriate court proceedings to protect, settle and confirm all such public rights and easements in the State of Oregon.

(2) *No portion of the ocean shore declared a state recreation area by ORS 390.610 shall be alienated by any of the agencies of the state except as provided by law.*

Section 6. ORS 390.630 is amended to read:

390.630. The State Highway Commission, in accordance with ORS 390.110, may acquire ownership of or interests in ~~[such]~~ *the ocean shore* or lands abutting, adjacent or contiguous to the ~~[Oregon seashore and beaches]~~ *ocean shore* as may be appropriate for ~~[recreational purposes]~~ *state recreation areas or access to such areas* where such lands are held in private ownership. *However, when acquiring ownership of or interests in lands abutting, adjacent or contiguous to the ocean shore for such recreation areas or access where such lands are held in private ownership, the commission shall consider the following:*

(1) *The availability of other public lands in the vicinity for such recreational use or access.*

(2) *The land uses, improvements, and density of development in the vicinity.*

(3) *Existing public recreation areas and accesses in the vicinity.*

(4) *Any local zoning or use restrictions affecting the area in question.*

Section 7. ORS 390.640 is amended to read:

390.640. (1) In order to promote the public health, safety and welfare, to protect the state recreation areas recognized and declared by ~~[subsections (2) to (4) of]~~ ORS 390.610 ~~[and subsection (1) of]~~ ORS 390.620, ~~[and]~~ ~~[ORS]~~ 390.720, to protect the safety of the public using such areas, and to preserve values adjacent to and adjoining such areas, the natural beauty of the ~~[seashore]~~ *ocean shore* and the public recreational benefit derived therefrom, ~~[no person shall, except]~~ *it is necessary to control and regulate improvements on the ocean shore. Unless a permit therefor is granted as provided by ORS 390.650, [erect, make or place any appurtenance, structure or] no person shall make an improvement on any property that is within the*

area described by section 8 of this 1969 Act. [along the Pacific Ocean located between the extreme low tide and the elevation of 16 feet following natural topographic contour lines. The position of the landward boundary line shall be interpolated to follow natural topographic contour lines whenever interrupted by man-made structures. However, in low-elevation areas, including but not limited to sand spits and marshes and the mouth of streams, estuaries, rivers and creeks where the 16.00 foot contour nearest the ocean, in plan view, does not substantially parallel the shore line, the boundary line is 300 feet (but not in excess of the 16.00 foot elevation) inland from the contour line nearest the ocean which describes the 5.7 foot elevation. However, at the mouths of streams, estuaries, rivers and creeks in such low-elevation areas where the 5.7 foot contour nearest the ocean does not substantially parallel the trend of the shoreline, the 5.7 foot contour line is replaced, for measurement purposes, by a straight line extending across the mouth from a point nearest the ocean on the 5.7 foot contour and proceeding in a straight line to a similar point on the opposite side. All elevations and vertical measurements are referred to the United States Coast and Geodetic Survey Sea-Level Datum of 1929 through the Pacific Northwest Supplementary Adjustment of 1947.]

[(2) This section does not apply to structures, including a 25-foot yard on all four sides of a single-family residence, existing on May 1, 1967, or to publicly owned appurtenances, structures or improvements made with the approval of the State Highway Engineer for the safety or convenience of the public.]

[(3) This section and ORS 390.650 do not apply to appurtenances, structures or improvements subject to easement or license granted by the Division of State Lands under ORS 274.075 or to rule, regulation or permit of or from the Division of State Lands under ORS 274.080.]

(2) This section does not apply to permits granted pursuant to section 22 of this 1969 Act, or to rules promulgated or permits granted under section 23 or 25 of this 1969 Act.

(3) This section does not apply to continuous extensions of densely vegetated land areas which are above the 16 foot contour and lying seaward of the line established by section 8 of this 1969 Act as of the effective date of this 1969 Act. The elevation mentioned in this subsection refers to the United States Coast and Geodetic Survey Sea-Level Datum of 1929 through the Pacific Northwest Supplementary Adjustment of 1947.

**Section 8.** Except for the areas described by section 9 of this 1969 Act, ORS 390.640 applies to all the land located along the Pacific Ocean between the Columbia River and the Oregon-California boundary between extreme low tide and the lines of vegetation as established and described according to the Oregon Coordinate System, as defined by ORS 93.330, as follows:

Section 17. ORS 390.680 is amended to read:

390.680. (1) In any court proceedings involving prescriptive rights of the public over property abutting, adjacent ~~and~~ or contiguous to ~~these~~ the lands described in ORS 390.720 or section 8 of this 1969 Act, an instrument executed and filed as provided by subsection (2) of this section shall be an act and declaration admissible as evidence of the intent of the owner or person in control of property to exercise dominion and control over his property.

(2) The declaration shall describe the property and shall be signed and acknowledged as provided by ORS 93.410. It shall state that the public is granted permission to use the property, or a specifically described portion of the property, and that the public use may be for certain purposes which shall also be described. The declaration shall be filed in the office of the county officer charged with the duty of filing and recording instruments or documents affecting title to real property.

(3) The permission granted may be revoked at any time by the grantor by a declaration revoking the permission signed, acknowledged and filed as provided by subsection (2) of this section. In any event, the permission granted shall terminate upon the assignment, grant, devise or other transfer or conveyance of the property or any interest therein by the owner or person in control of the property.

(4) Failure of the owner or person in control of property to execute and file the declaration as provided in subsection (2) of this section shall not imply an intent to relinquish dominion and control over his property.

Section 18. ORS 390.730 is amended to read:

390.730. ~~Upon the recommendation of or approval by the governing body of a county or city contiguous to any portion of the ocean shore, or upon its own motion as to such ocean shore,~~ (1) The State Highway Commission may establish ~~areas and~~ zones on the ocean ~~shore wherein there shall be no~~ shore where travel by motor vehicles or landing of any aircraft except for an emergency shall be restricted or prohibited. After the establishment of a zone ~~or area~~ and the erection of signs or markers thereon, no such use shall be made of such areas except in conformity with the rules of the commission.

(2) *Proceedings to establish a zone:*

(a) *May be initiated by the commission on its own motion; or*

(b) *Shall be initiated upon the request of 20 or more landowners or residents or upon request of the governing body of a county or city contiguous to the proposed zone.*

(3) *A zone shall not be established unless the commission first holds a public hearing in the vicinity of the proposed zone. The commission shall cause notice of the hearing to be given by publication, not less than seven days prior to the hearing, by at least one insertion in a newspaper of general circulation in the vicinity of the zone.*

(4) *Before establishing a zone, the commission shall seek the approval of the local government whose lands are adjacent or contiguous to the proposed zone.*

Section 19. ORS 390.750 is amended to read:

390.750. Nothing in ORS ~~274.075, 274.080 or~~ 390.710 to 390.750 is intended to repeal ORS 492.780 to 492.810.

Section 20. No person shall:

(1) Place any pipe line, cable line or other conduit across and under the state recreation areas described by section 21 of this 1969 Act or the submerged lands adjacent to the ocean shore, except as provided by section 22 of this 1969 Act.

(2) Remove any natural product from the ocean shore, other than fish or wildlife, agates or souvenirs, except as provided by section 23 of this 1969 Act.

**Section 21.** Except as provided by ORS 273.551, the State Highway Commission has jurisdiction over the state recreation areas designated or acquired under ORS 390.610, 390.620, 390.630 or 390.720 in order to carry out the purposes of ORS 390.610 to 390.690.

**Section 22.** (1) The State Highway Commission may issue permits under sections 10 through 12 of this 1969 Act for pipe lines, cable lines and other conduits across and under the ocean shore and the submerged lands adjacent to the ocean shore, upon payment of just compensation by the permittee. Such permit is not a sale or lease of tide and overflow lands within the scope of ORS 274.040.

(2) Whenever the issuance of a permit under subsection (1) hereof will affect lands owned privately, the State Highway Commission shall withhold the issuance of such permit until such time as the permittee shall have obtained an easement, license or other written authorization from the private owner, which easement, license or other written authority must meet the approval of the State Highway Commission, except as to the compensation to be paid to the private owner.

(3) All permits issued under this section are subject to conditions that will assure safety of the public and the preservation of economic, scenic and recreational values and to rules promulgated by state agencies having jurisdiction over the activities of the grantee or permittee.

**Section 23.** (1) No sand, rock, mineral, marine growth or other natural product of the ocean shore, other than fish or wildlife, agates or souvenirs, shall be taken from the state recreation areas described by section 21 of this 1969 Act, except in compliance with a rule of or permit from the State Highway Commission as provided by this section. Permits shall provide for the payment of just compensation by the permittee as provided in subsection (5) of this section.

(2) Rules or permits shall be made or granted by the State Highway Commission only after consultation with the Fish Commission of the State of Oregon, the State Game Commission, the State Department of Geology and Mineral Industries and the Division of State Lands. Rules and permits shall contain provisions necessary to protect the areas from any use, activity or practice inimicable to the conservation of natural resources or public recreation.

(3) On request of the governing body of any coastal city or county, the State Highway Commission may grant a permit for the removal of sand or rock from the area at designated locations on the ocean shore to supply the reasonable needs for essential construction uses in such localities if it appears sand and rock for such construction are not otherwise obtainable at reasonable cost, and if such removal will not materially alter the physical characteristics of the area or adjacent areas, nor lead to such changes in subsequent seasons. Before issuing a permit the commission shall likewise take into consideration the standards described by section 11 of this 1969 Act. The commission may grant a permit to take and remove sand, rock, mineral or marine growth from the area at designated locations. The commission shall also issue permits to coastal cities or counties to remove or authorize removal of sand from the ocean shore, under the standards provided by section 11 of this 1969 Act, if the city or county determines that the sand accumulation on the ocean shore constitutes a hazard or maintenance problem to the city or county.

(4) The terms, royalty and duration of a permit under this section are at the discretion of the commission. A permit is revocable at any time in the discretion of the commission without liability to the permittee.

(5) Whenever the issuance of a permit under this section will affect

lands owned privately, the State Highway Commission shall withhold the issuance of such permit until such time as the permittee shall have obtained an easement, license or other written authorization from the private owner, which easement, license or other written authority must meet the approval of the commission, except as to the compensation to be paid to the private owner.

**Section 24.** The repeal of ORS 274.075 and 274.080 by section 30 of this Act does not affect any easements, licenses or permits issued under such sections prior to their repeal. On and after the effective date of this Act, such easements, licenses and permits in all respects are subject to section 22 or 23 of this Act as if originally issued thereunder. Any payments due the Division of State Lands under any such easement, license or permit shall be paid to the State Highway Commission after the effective date of this Act. The rules of the Division of State Lands under ORS 274.080 in effect immediately prior to its repeal by section 30 of this Act remain in effect under section 23 of this Act until superseded by rules of the State Highway Commission promulgated under section 23 of this Act.

**Section 25.** (1) The State Highway Commission may prescribe rules and issue permits governing the exploration for, and removal of, treasure-trove, semiprecious stones, petrified wood, and archaeological and paleontological objects from the recreation areas described by section 21 of this 1969 Act. Such rules shall be designed to maximize the public benefit of these resources, and shall permit the free use of the areas for collection for non-commercial purposes of reasonable quantities of petrified wood, semiprecious stones, and archaeological and paleontological objects. Notwithstanding any other law, such rules may provide that not to exceed 25 percent of any treasure-trove shall be retained by the commission, subject to disposal by the commission as property of the State of Oregon, and that the remainder shall be retained by the finder.

(2) If any person removes treasure-trove, semiprecious stones or petrified wood from the state recreation areas in a manner contrary to rules prescribed under this section, all the materials or objects so removed shall be subject to disposal by the commission as property of the State of Oregon.

(3) Whenever the issuance of a permit under this section will affect lands owned privately, the State Highway Commission shall withhold the issuance of such permit until such time as the permittee shall have obtained an easement, license or other written authorization from the private owner, which easement, license or other written authority must meet the approval of the commission, except as to the compensation to be paid to the owner.

**Section 26.** The enactment of section 25 of this Act does not affect any permits issued under ORS 273.715 before the effective date of this Act. On and after the effective date of this Act, such permits in all respects are subject to section 25 of this Act as if originally issued thereunder. The rules of the Division of State Lands under ORS 273.715 in effect immediately before the effective date of this Act remain applicable to the ocean shore under section 25 of this Act until superseded by rules of the State Highway Commission promulgated under section 25 of this Act.

**Section 27.** (1) The State Highway Engineer is directed to periodically reexamine the line of vegetation as established and described by section 8 of this 1969 Act for the purpose of obtaining information and material suitable for a re-evaluation and re-definition, if necessary, of such line so that the private and public rights and interest in the ocean shore shall be preserved.

(2) The State Highway Commission may, from time to time, recommend to the Legislative Assembly adjustment of the line described in section 8 of this 1969 Act.

Section 28. ORS 390.990 is amended to read:

390.990. (1) Any person, firm or corporation violating any of the regulations provided in ORS 390.160 shall be punished, upon conviction, by a fine of not more than \$500 or by imprisonment in the county jail for not more than 30 days.

(2) Violation of any provision of ~~ORS 390.720,~~ section 20 of this 1969 Act, ORS 390.730 or 390.740, or any rule promulgated under such statutes, is punishable, upon conviction, by a fine not exceeding \$500 or imprisonment in the county jail for not more than six months, or both.

(3) Violation of ORS 390.640 shall be punished, upon conviction, by a fine of not more than \$500 or imprisonment in the county jail for not more than six months, or both. Each day a violation continues shall be considered a separate offense.

Section 29. ORS 273.105, as amended by section 1, chapter \_\_\_\_\_, Oregon Laws 1969 (Enrolled Senate Bill 421), is amended to read:

273.105. (1) The Distributable Income Account is established within the Common School Fund. The division shall administer this account in accordance with section 4, Article VIII, Oregon Constitution, and applicable laws.

(2) The following moneys in the Common School Fund shall be credited to the Distributable Income Account:

~~+(a)+~~ (b) Interest accruing from investments of the Common School Fund.

~~+(b)+~~ (c) Royalties arising out of leases under ORS 274.530.

~~+(e)+~~ (d) Other moneys received by the division that are required by law to be deposited in the Distributable Income Account.

## SUMMARY

The following summary is not prepared by the sponsors of the measure and is not a part of the body thereof subject to consideration by the Legislative Assembly. It is an editor's brief statement of the essential features of the measure.

Revises ocean shore provisions to describe specifically the state-owned zone as that area lying between extreme low tide and the "line of vegetation", with certain adjustments. Directs State Highway Engineer to re-examine periodically the established "line of vegetation" and recommend any necessary adjustments to Legislative Assembly.

Provides additional standards to be used by State Highway Engineer in granting or denying permits for improvements within such zoned area and requires engineer to make written findings upon denial of any such permit. Authorizes engineer to grant certain emergency permits where property or boundaries are in danger of destruction.

Gives State Highway Commission additional authority to police, maintain, regulate use of ocean shore by public and regulate motor vehicle traffic or landing of aircraft on ocean shore.

Transfers from State Land Board to State Highway Commission authority to grant easements for pipe lines and other conduits across state-owned ocean shore, or to regulate removal of sand, natural products, or other materials. Requires commission to withhold issuance of such easements until permittee has obtained written authorization from owners of any affected private property and such authorization is approved by commission.

**NOTE:** Matter in *italics* in an amended section is new; matter ~~[lined out and bracketed]~~ is existing law to be omitted; complete new sections begin with **Section**.

12 Section 2. ORS 390.710 is amended to read:

13 390.710. As used in ORS ~~390.710 to 390.750~~ 390.610 to 390.690, unless  
14 the context requires otherwise:

15 (1) An "improvement" includes a structure, appurtenance or other ad-  
16 dition, modification or alteration constructed, placed or made on or to the  
17 land.

18 (2) "Ocean shore" means the land lying between extreme low tide of

31 ~~impair the recreational and scenic features and values found in the area after~~  
32 ~~consultation with local communities.]~~

33 **Note:** Section 3 was deleted by amendment.

1 Section 4. ORS 390.610 is amended to read:

2 390.610. (1) The Legislative Assembly hereby declares it is the public  
3 policy of the State of Oregon to forever preserve and maintain the  
4 sovereignty of the state heretofore *legally* existing over the ~~{seashore and}~~  
5 ocean ~~{beaches}~~ *shore* of the state from the Columbia River on the North  
6 to the Oregon-California line on the South so that the public may have the  
7 free and uninterrupted use thereof.

8 (2) The Legislative Assembly recognizes that over the years the public  
9 has made frequent and uninterrupted use of *the ocean shore* ~~{lands abutting,~~  
10 ~~adjacent and contiguous to the public highways and state recreation areas}~~ and  
11 recognizes, further, that where such use has been *legally* sufficient to  
12 create *rights or* easements in the public through dedication, prescription,  
13 grant or otherwise, that it is in the public interest to protect and preserve  
14 such public *rights or* easements as a permanent part of Oregon's recre-  
15 ational resources.

16 (3) Accordingly, the Legislative Assembly hereby declares that all  
17 public rights ~~{and}~~ or easements *legally acquired* in those lands described  
18 in subsection (2) of this section are confirmed and declared vested ex-  
19 clusively in the State of Oregon and shall be held and administered *as*  
20 *state recreation areas*. ~~{in the same manner as those lands described in ORS~~  
21 ~~390.720.}~~

22 (4) The Legislative Assembly further declares that it is in the public  
23 interest ~~{to acquire additional rights and}~~ to do whatever is necessary to  
24 preserve and protect scenic and recreational use of Oregon's ~~{seashore and}~~  
25 ocean ~~{beaches}~~ *shore*.

26 Section 5. ORS 390.620 is amended to read:

27 390.620. (1) No portion of ~~{those}~~ *the* lands described ~~{in subsections~~  
28 ~~{(2) to (4) of}~~ by ORS 390.610 or any interest either therein now or here-  
29 after acquired by the State of Oregon or any political subdivision thereof  
30 ~~{may}~~ *shall* be alienated except as expressly provided by state law. ~~{(2)}~~  
31 The State Highway Commission, when necessary, shall undertake appro-  
32 priate court proceedings to protect, settle and confirm all such public rights  
33 and easements in the State of Oregon.

34 (2) *No portion of the ocean shore declared a state recreation area by*

1 ORS 390.610 shall be alienated by any of the agencies of the state except  
2 as provided by law.

3 Section 6. ORS 390.630 is amended to read:

4 390.630. The State Highway Commission, in accordance with ORS  
5 390.110, may acquire ownership of or interests in ~~{such}~~ the ocean shore  
6 or lands abutting, adjacent or contiguous to the ~~{Oregon seashore and}~~  
7 beaches as may be appropriate for ~~{recreational purposes}~~ state recreation  
8 areas or access to such areas where such lands are held in private owner-  
9 ship. However, when acquiring ownership of or interests in lands abutting,  
10 adjacent or contiguous to the ocean shore for such recreation areas or  
11 access where such lands are held in private ownership, the commission  
12 shall consider the following:

13 (1) The availability of other public lands in the vicinity for such rec-  
14 reational use or access.

15 (2) The land uses, improvements, and density of development in the  
16 vicinity.

17 (3) Existing public recreation areas and accesses in the vicinity.

18 (4) Any local zoning or use restrictions affecting the area in question.

19 Section 7. ORS 390.640 is amended to read:

20 390.640. (1) In order to promote the public health, safety and welfare,  
21 to protect the state recreation areas recognized and declared by ~~{subsec-~~  
22 ~~tions (2) to (4) of}~~ ORS 390.610 ~~{and subsection (1) of ORS 390.620,}~~ and  
23 ~~{ORS}~~ 390.720, to protect the safety of the public using such areas, and to

25 of the ~~{seashore}~~ ocean shore and the public recreational benefit derived  
26 therefrom, ~~{no person shall, except}~~ it is necessary to control and regulate

30 area described by section 8 of this 1969 Act. ~~{along the Pacific Ocean located}~~  
31 ~~between the extreme low tide and the elevation of 16 feet following natural topo-~~  
32 ~~graphic contour lines. The position of the landward boundary line shall be}~~  
33 ~~interpolated to follow natural topographic contour lines whenever interrupted}~~

1 by man-made structures. However, in low-elevation areas, including but not  
2 limited to sand spits and marshes and the mouth of streams, estuaries, rivers  
3 and creeks where the 16.00 foot contour nearest the ocean, in plan view, does  
4 not substantially parallel the shore line, the boundary line is 300 feet (but not  
5 in excess of the 16.00 foot elevation) inland from the contour line nearest the  
6 ocean which describes the 5.7 foot elevation. However, at the mouths of streams,  
7 estuaries, rivers and creeks in such low-elevation areas where the 5.7 foot con-  
8 tour nearest the ocean does not substantially parallel the trend of the shoreline,  
9 the 5.7 foot contour line is replaced, for measurement purposes, by a straight  
10 line extending across the mouth from a point nearest the ocean on the 5.7 foot  
11 contour and proceeding in a straight line to a similar point on the opposite side.  
12 All elevations and vertical measurements are referred to the United States  
13 Coast and Geodetic Survey Sea-Level Datum of 1929 through the Pacific North-  
14 west Supplementary Adjustment of 1947.]

15 [(2) This section does not apply to structures, including a 25-foot yard on  
16 all four sides of a single-family residence, existing on May 1, 1967, or to] <sup>△</sup>  
17 [Publicly owned appurtenances, structures or improvements made with the  
18 approval of the State Highway Engineer for the safety or convenience of the  
19 public.]

20 [(3) This section and ORS 390.650 do not apply to appurtenances, structures  
21 or improvements subject to easement or license granted by the Division of State  
22 Lands under ORS 274.075 or to rule, regulation or permit of or from the Di-  
23 vision of State Lands under ORS 274.080.]

24 (2) This section does not apply to permits granted pursuant to section  
25 22 of this 1969 Act, or to rules promulgated or permits granted under section  
26 23 or 25 of this 1969 Act.

27 (3) This section does not apply to continuous extensions of densely  
28 vegetated land areas which are above the 16 foot contour and lying sea-  
29 ward of the line established by section 8 of this 1969 Act as of the effective  
30 date of this 1969 Act. The elevation mentioned in this subsection refers to  
31 the United States Coast and Geodetic Survey Sea-Level Datum of 1929  
32 through the Pacific Northwest Supplementary Adjustment of 1947.

6 (2) Whenever the issuance of a permit under subsection (1) hereof will  
7 affect lands owned privately, the State Highway Commission shall with-

13 (4) The terms, royalty and duration of a permit under this section  
14 are at the discretion of the commission. A permit is revocable at any  
15 time in the discretion of the commission without liability to the permittee.

16 (5) Whenever the issuance of a permit under this section will affect  
17 lands owned privately, the State Highway Commission shall withhold the  
18 issuance of such permit until such time as the permittee shall have ob-

14 prescribed under this section, all the materials or objects so removed  
15 shall be subject to disposal by the commission as property of the State  
16 of Oregon.

17 (3) Whenever the issuance of a permit under this section will affect  
18 lands owned privately, the State Highway Commission shall withhold the  
19 issuance of such permit until such time as the permittee shall have obtained

# House Bill 1045

Sponsored by COMMITTEE ON HIGHWAYS (at the request of  
the Interim Committee on Highways)

## SUMMARY

The following summary is not prepared by the sponsors of the measure and is not a part of the body thereof subject to consideration by the Legislative Assembly. It is an editor's brief statement of the essential features of the measure as introduced.

Revises ocean beach provisions to specifically describe state-owned zone line instead of 16 foot elevation line with adjustments. Provides additional standards to guide State Highway Engineer in granting or denying permits for improvements within zoned area on beach. Exempts zoned area from taxation. Gives engineer additional power to police beaches and regulate motor vehicle traffic on beaches. Transfers from State Land Board to State Highway Commission authority to grant easements for pipe lines and other conduits across state-owned beach areas, or to regulate removal of sand and other natural products.

**NOTE:** Matter in *italics* in an amended section is new; matter ~~lined out and bracketed~~ is existing law to be omitted; complete new sections begin with **Section**.

21 Section 10. ORS 390.650 is amended to read:

22 390.650. (1) Any person who desires a permit to ~~erect,~~ make ~~for~~

23 ~~place~~ an ~~appurtenance, structure or~~ improvement on any property subject

24 to ORS 390.640 shall apply in writing to the State Highway Engineer, on

25 a form and in a manner prescribed by the engineer, stating the kind of

26 and reason for the ~~appurtenance, structure or~~ improvement.

27 (2) Upon receipt of ~~an~~ a properly completed application ~~satisfactory~~

28 ~~to the engineer~~, the engineer shall cause notice of the application to be

29 posted at or near the location of the proposed ~~appurtenance, structure or~~

30 improvement. At the next regular meeting of the State Highway Com-

31 mission held more than 10 days after receipt of the application, the engineer

32 shall announce the receipt of the application. The notice and announce-

33 ment shall include the name of the applicant, a description of the ~~appur-~~

1 and a statement of the time within which ~~any~~ interested ~~person~~ per-  
 2 sons may file a request with the engineer for a hearing on the application.  
 3 The State Highway Engineer shall give notice of any application, hearing  
 4 or decision to any person who files a written request with him for such  
 5 notice.

6 ~~(2)~~ (3) Within 30 days after the date of the regular meeting at which  
 7 the engineer announces the receipt of ~~a satisfactory~~ an application, the

 11 held by the engineer or his authorized representative. The engineer shall  
 12 cause notice of the hearing to be posted and announced in the manner  
 13 provided in subsection ~~(1)~~ (2) of this section. The notice shall include  
 14 the time and place of the hearing ~~(3)~~. After the hearing on an application  
 15 or, if a hearing is not requested, after the time for requesting a hearing  
 16 has expired, the engineer shall grant the permit if approval would not  
 17 be adverse to the public interest ~~in preserving the recreational and scenic~~  
 18 ~~resources~~. ORS 183.310 to 183.510 does not apply to a hearing or decision  
 19 under this section.

20 (4) In acting on an application, the engineer shall take into considera-  
 21 tion the ~~existing uses and structures and the future recreational and scenic~~  
 22 ~~needs in the vicinity of the proposed appurtenance, structure or improvement~~  
 23 matters described by section 11 of this 1969 Act. If the engineer does not  
 24 act on a satisfactory application within 90 days after the date of receipt  
 25 thereof or, if a hearing is held thereon, within 60 days after the date of  
 26 the hearing, the application shall be considered denied.

27 (5) Subsections (2) and (3) of this section do not apply to an applica-  
 28 tion for a permit for the repair, replacement or restoration, in the same  
 29 location, of an authorized improvement if the repair, replacement or  
 30 restoration is commenced within three years after the damage to or de-  
 31 struction of the improvement being repaired, replaced or restored occurs.

32 ~~(4)~~ Any person is entitled to appeal to the circuit court of the county  
 33 where the property is located for a judicial review in equity of the action or  
 34 failure to act by the engineer under this section. Any appeal taken under

 2 after the expiration of the period prescribed for action by the engineer under  
 3 subsection ~~(3)~~ of this section.

4 **Section 11.** The State Highway Engineer shall consider applications  
 5 and issue permits under ORS 390.650 in accordance with standards designed  
 6 to promote the public health, safety and welfare and carry out the policy  
 7 of ORS 390.610 to 390.690. The standards shall be based on the following  
 8 considerations, among others:

9 (1) The public need for healthful, safe, esthetic surroundings and con-  
 10 ditions; the natural scenic, recreational and other resources of the area;  
 11 and the present and prospective need for conservation and development  
 12 of these resources.

 14 acteristics of the area and the suitability of the area for particular uses  
 15 and improvements.

 20 future development of the area and the need for access to particular sites  
 21 in the area.

22 **Section 12.** Any person aggrieved by the decision of the State Highway  
 23 Engineer under ORS 390.650 is entitled to appeal to the circuit court of  
 24 the county where the property is located for a judicial review, de novo  
 25 as in equity, of the action or failure to act by the engineer. An appeal  
 26 taken under this section shall be made within 60 days after the date of  
 27 the action, or after the expiration of the period prescribed for action, by  
 28 the engineer under ORS 390.650.

29 Section 13. ORS 390.670 is amended to read:

 on or connected with the land, its conveniences to transportation lines,  
 public roads and other local advantage of a similar or different kind.  
 Where land is situated within an irrigation, drainage, reclamation or other  
 improvement district, the value of the land shall not be deemed to be  
 increased until the construction and improvement of the district have  
 been completed to the point that water may be delivered to or removed  
 from the land, as the case may be.

~~(2) For purposes of assessment and ad valorem taxation, whenever real  
 property is held subject to a public easement declared a state recreation area  
 by subsections (2) to (4) of ORS 390.610, the true cash value of the property  
 shall be taken into consideration for the restricted use imposed on the servient

 the owner or person in control of property to exercise dominion and con-  
 trol over his property.

(2) The declaration shall describe the property and shall be signed and  
 acknowledged as provided by ORS 93.410. It shall state that the public

7 *shall cause notice of the hearing to be given by publication, not less than*  
8 *seven days prior to the hearing, by at least one insertion in a newspaper*  
9 *of general circulation in the vicinity of the zone.*

10 Section 19. ORS 390.750 is amended to read:

11 390.750. Nothing in ORS ~~[274.075, 274.080 or]~~ 390.710 to 390.750 is in-  
12 tended to repeal ORS 492.780 to 492.810.

13 **Section 20.** No person shall:

14 (1) Place any pipe line, cable line or other conduit across and under  
15 the state recreation areas described by section 21 of this 1969 Act or the  
16 submerged lands adjacent to the ocean shore, except as provided by  
17 section 22 of this 1969 Act.

18 (2) Remove any natural product from the ocean shore, other than  
19 fish or wildlife, agates or souvenirs, except as provided by section 23 of  
20 this 1969 Act.

21 **Section 21.** Except as provided by ORS 273.551, the State Highway Com-  
22 mission has jurisdiction over the state recreation areas designated or ac-  
23 quired under ORS 390.610, 390.630 or 390.720 in order to carry out the  
24 purposes of ORS 390.610 to 390.690.

25 **Section 22.** (1) The State Highway Commission may grant easements  
26 and licenses for pipe lines, cable lines and other conduits across and under  
27 the state recreation areas described by section 21 of this 1969 Act, and the  
28 submerged lands adjacent to the ocean shore, upon payment of just com-  
29 pensation by the grantee. Such an easement or license is not a sale or  
30 lease of tide and overflow lands within the scope of ORS 274.040.

31 (2) All easements and licenses granted under this section are subject  
32 to conditions that will assure the safety of the public and the preservation  
33 of economic, scenic and recreational values, and to rules promulgated by  
34 state agencies having jurisdiction over the activities of the grantee or

1 licensee. An easement or license may not be granted until the commission  
2 has held a public hearing substantially in conformity with the require-  
3 ments of ORS 274.755, except that the hearing is not subject to ORS  
4 183.310 to 183.510.

5 (3) An easement or license under this section may not be granted for  
6 a term exceeding 99 years.

7 (4) Easements and licenses granted under this section are not valid  
8 unless filed for record by the grantee or licensee in the deed records of  
9 each county in which the property affected by the grant or privilege is  
10 located, not later than the 30th day after the date of execution thereof.

11 **Section 23.** (1) No sand, rock, mineral, marine growth or other natural  
12 product of the ocean shore, other than fish or wildlife, agates or souvenirs,  
13 shall be taken from the state recreation areas described by section 21 of  
14 this 1969 Act, except in compliance with a rule of or permit from the

16 (2) Rules or permits shall be made or granted by the commission only  
17 after consultation with the Fish Commission of the State of Oregon, the  
18 State Game Commission, the State Department of Geology and Mineral  
19 Industries and the Division of State Lands. Rules and permits shall con-  
20 tain provisions necessary to protect the areas from any use, activity or  
21 practice inimicable to the conservation of natural resources or public  
22 recreation.

23 (3) On request of the governing body of any county adjacent to any  
24 portion of a state recreation area, the State Highway Commission may  
25 grant a permit for the removal of sand or rock from the area at designated  
26 locations to supply reasonable needs for essential construction uses in  
27 such localities as it appears sand and rock for such construction are not  
28 otherwise obtainable at reasonable cost. The commission may grant a  
29 permit to take and remove sand, rock, mineral or marine growth from  
30 the area at designated locations.

31 (4) The terms, royalty and duration of a permit under this section  
32 are at the discretion of the commission. A permit is revocable at any  
33 time in the discretion of the commission without liability to the permittee.

34 **Section 24.** The repeal of ORS 274.075 and 274.080 by section 29 of this

1 Act does not affect any easements, licenses or permits issued under such  
 2 sections prior to their repeal. On and after the effective date of this Act,  
 3 such easements, licenses and permits in all respects are subject to section  
 4 22 or 23 of this Act as if originally issued thereunder. Any payments due  
 5 the Division of State Lands under any such easement, license or permit  
 6 shall be paid to the State Highway Commission after the effective date of  
 7 this Act. The rules of the Division of State Lands under ORS 274.080 in  
 8 effect immediately prior to its repeal by section 29 of this Act remain in  
 9 effect under section 23 of this Act until superseded by rules of the State  
 10 Highway Commission promulgated under section 23 of this Act.

11 **Section 25.** (1) The State Highway Commission may prescribe rules  
 12 governing the exploration for, and removal of, treasure-trove, semi-  
 13 precious stones, petrified wood, and archaeological and paleontological  
 14 objects from the recreation areas described by section 21 of this 1969 Act.  
 15 Such rules shall be designed to maximize the public benefit of these re-  
 16 sources, and shall permit the free use of the areas for collection for non-  
 17 commercial purposes of reasonable quantities of petrified wood, semi-  
 18 precious stones, and archaeological and paleontological objects. Notwith-

 20 percent of any treasure-trove shall be retained by the commission, sub-  
 21 ject to disposal by the commission as property of the State of Oregon,  
 22 and that the remainder shall be retained by the finder.

23 (2) If any person removes treasure-trove, semiprecious stones or petri-  
 24 fied wood from the state recreation areas in a manner contrary to rules  
 25 prescribed under this section, all the materials or objects so removed  
 26 shall be subject to disposal by the commission as property of the State  
 27 of Oregon.

28 **Section 26.** The enactment of section 25 of this Act does not affect any  
 29 permits issued under ORS 273.715 before the effective date of this Act.

AN ACT

Relating to land, including but not limited to areas along the Pacific Ocean shore, state parks, state recreation areas and highways; creating new provisions; amending ORS 273.105, 308.235, 390.610, 390.620, 390.630, 390.640, 390.650, 390.660, 390.670, 390.680, 390.710, 390.720, 390.730, 390.750 and 390.990; repealing ORS 274.075 and 274.080; and providing penalties.

Be It Enacted by the People of the State of Oregon:

Section 1. (1) ORS 390.710 to 390.750 is added to and made a part of ORS 390.610 to 390.690.

(2) Sections 8, 9, 11, 12, 20 to 23 and 25 of this Act are added to and made a part of ORS 390.610 to 390.690.

Section 2. ORS 390.710 is amended to read:

390.710. As used in ORS [390.710 to 390.750] 390.610 to 390.690, unless the context requires otherwise:

(1) An "improvement" includes a structure, appurtenance or other addition, modification or alteration constructed, placed or made on or to the land.

(2) "Ocean beaches" includes the ocean shore and the land within the area described by section 8 of this 1969 Act.

[(1)] (3) "Ocean shore" means that part of the shore of the Pacific Ocean described in ORS 390.720.

[(2)] (4) "State recreation area" means a land or water area, or a combination thereof, set aside as a unit of the state parks system for recreational activities of a regional interest, with emphasis placed upon providing all the needed recreation opportunities the area affords, and so managed as to not unnecessarily impair the recreational and scenic features and values found in the area after consultation with local communities.

Section 3. ORS 390.720 is amended to read:

390.720. Ownership of the shore of the Pacific Ocean between ordinary high tide and extreme low tide, and from the Oregon and Washington state line on the north to the Oregon and California state line on the south, excepting such portions as may have been disposed of by the state prior to July 5, 1947, is vested in the State of Oregon, and is declared to be a state recreation area. [No portion of such ocean shore shall be alienated by any of the agencies of the state except as provided by law.]

Section 4. ORS 390.610 is amended to read:

390.610. (1) The Legislative Assembly hereby declares it is the public policy of the State of Oregon to forever preserve and maintain the sovereignty of the state heretofore existing over the [seashore and] ocean beaches of the state from the Columbia River on the North to the

Oregon-California line on the South so that the public may have the free and uninterrupted use thereof.

(2) The Legislative Assembly recognizes that over the years the public has made frequent and uninterrupted use of the ocean beaches and lands abutting, adjacent [and] or contiguous to the [public highways and state recreation areas] ocean beaches and recognizes, further, that where such use has been sufficient to create easements in the public through dedication, prescription, grant or otherwise, that it is in the public interest to protect and preserve such public easements as a permanent part of Oregon's recreational resources.

(3) Accordingly, the Legislative Assembly hereby declares that all public rights and easements in those lands described in subsection (2) of this section are confirmed and declared vested exclusively in the State of Oregon and shall be held and administered as state recreation areas in the same manner as those lands described in ORS 390.720.

(4) The Legislative Assembly further declares that it is in the public interest to acquire additional rights and to do whatever is necessary to preserve and protect scenic and recreational use of Oregon's [seashore and] ocean beaches.

Section 5. ORS 390.620 is amended to read:

390.620. (1) No portion of [those] the lands described [in subsections (2) to (4) of] by ORS 390.610 or any interest either therein now or hereafter acquired by

the State of Oregon or any political subdivision thereof may be alienated except as expressly provided by state law.

[(2)] The State Highway Commission, when necessary, shall undertake appropriate court proceedings to protect, settle and confirm all such public rights and easements in the State of Oregon.

(2) No portion of the ocean shore declared a state recreation area by ORS 390.720 shall be alienated by any of the agencies of the state except as provided by law.

Section 6. ORS 390.630 is amended to read:

390.630. The State Highway Commission, in accordance with ORS 390.110, may acquire ownership of or interests in [such] the ocean beaches or lands abutting, adjacent or contiguous to the [Oregon seashore and] beaches as may be appropriate for [recreational purposes] state recreation areas or access to such areas where such lands are held in private ownership.

Section 7. ORS 390.640 is amended to read:

390.640. (1) In order to promote the public health, safety and welfare, to protect the state recreation areas recognized and declared by [subsections (2) to (4) of] ORS 390.610 [and subsection (1) of ORS 390.620,] and [ORS] 390.720, to protect the safety of the public using such areas, and to preserve values adjacent to and adjoining such areas, the natural beauty of the seashore and the public recreational benefit derived therefrom, [no person

shall, except] it is necessary to control and regulate im-  
provements on the ocean beaches. Unless a permit therefor is  
granted as provided by ORS 390.650, [erect, make or place  
any appurtenance, structure or] no person shall make an  
improvement on any property that is within the area de-  
scribed by section 8 of this 1969 Act. [along the Pacific  
Ocean located between the extreme low tide and the elevation  
of 16 feet following natural topographic contour lines.  
The position of the landward boundary line shall be inter-  
polated to follow natural topographic contour lines when-  
ever interrupted by man-made structures. However, in low-  
elevation areas, including but not limited to sand spits  
and marshes and the mouth of streams, estuaries, rivers  
and creeks where the 16.00 foot contour nearest the ocean,  
in plan view, does not substantially parallel the shore  
line, the boundary line is 300 feet (but not in excess of  
the 16.00 foot elevation) inland from the contour line  
nearest the ocean which describes the 5.7 foot elevation.  
However, at the mouths of streams, estuaries, rivers and  
creeks in such low-elevation areas where the 5.7 foot con-  
tour nearest the ocean does not substantially parallel the  
trend of the shoreline, the 5.7 foot contour line is re-  
placed, for measurement purposes, by a straight line  
extending across the mouth from a point nearest the ocean  
on the 5.7 foot contour and proceeding in a straight line  
to a similar point on the opposite side. All elevations

and vertical measurements are referred to the United States Coast and Geodetic Survey Sea-Level Datum of 1929 through the Pacific Northwest Supplementary Adjustment of 1947.]

(2) This section does not apply to: [structures, including a 25-foot yard on all four sides of a single-family residence, existing on May 1, 1967, or to]

(a) Publicly-owned [appurtenances, structures or] improvements made with the approval of the State Highway Engineer for the safety or convenience of the public.

(3) This section and ORS 390.650 do not apply to appurtenances, structures or improvements subject to easement or license granted by the Division of State Lands under ORS 274.075 or to rule, regulation or permit of or from the Division of State Lands under ORS 274.080.]

(b) Improvements subject to easement or license granted under section 22 of this 1969 Act, or subject to rule or permit issued under section 23 or 25 of this 1969 Act.

10/ Section 8. Except for the areas described by section 9 of this 1969 Act, ORS 390.640 applies to all the land located along the Pacific Ocean between the Columbia River and the Oregon-California boundary between extreme low tide and a line inland therefrom described according to the Oregon Coordinate System, as defined by ORS 93.330, as follows:

At the next regular meeting of the State Highway Commission held more than 10 days after receipt of the application, the engineer shall announce the receipt of the application. The notice and announcement shall include the name of the applicant, a description of the [appurtenance, structure or] proposed improvement and its [proposed] location and a statement of the time within which [any] interested [person] persons may file a request with the engineer for a hearing on the application. [(2)] (3) Within 30 days after the date of the regular meeting at which the engineer announces the receipt of [a satisfactory] an application, the applicant or [any] 10 or more other interested [person] persons may file a written request with the engineer for a hearing on the application. If such a request is filed, the engineer shall set a time for a hearing to be held by the engineer or his

authorized representative. The engineer shall cause notice of the hearing to be posted and announced in the manner provided in subsection [(1)] (2) of this section. The notice shall include the time and place of the hearing. [(3)] After the hearing on an application or, if a hearing is not requested, after the time for requesting a hearing has expired, the engineer shall grant the permit if approval would not be adverse to the public interest [in preserving the recreational and scenic resources]. ORS 183.310 to 183.510 does not apply to a hearing or decision under this section.

(4) In acting on an application, the engineer shall take into consideration the [existing uses and structures and the future recreational and scenic needs in the vicinity of the proposed appurtenance, structure or improvement] matters described by section 11 of this 1969 Act. If the engineer does not act on a satisfactory application within 90 days after the date of receipt thereof or, if a hearing is held thereon, within 60 days after the date of the hearing, the application shall be considered denied.

(5) Subsections (2) and (3) of this section do not apply to an application for a permit for the repair, replacement or restoration, in the same location, of an

authorized improvement if the repair, replacement or restoration is commenced within three years after the damage to or destruction of the improvement being repaired, replaced or restored occurs.

[(4) Any person is entitled to appeal to the circuit court of the county where the property is located for a judicial review in equity of the action or failure to act by the engineer under this section. Any appeal taken under this subsection shall be made within 60 days after the date of the action or after the expiration of the period prescribed for action by the engineer under subsection (3) of this section.]

6/ Section 11. The State Highway Engineer shall consider applications and issue permits under ORS 390.650 in accordance with standards designed to promote the public health, safety and welfare and carry out the policy of ORS 390.610 to 390.690. The standards shall be based on the following considerations, among others:

(1) The public need for healthful, safe, esthetic surroundings and conditions; the natural scenic, recreational and other resources of the area; and the present and prospective need for conservation and development of those resources.

(2) The physical characteristics or the changes in the physical characteristics of the area and the suitability of the area for particular uses and improvements.

(3) The land uses, including public recreational use if any, and the improvements in the area, the trends in land uses and improvements, the density of development and the property values in the area.

(4) The need for recreation and other facilities and enterprises in the future development of the area and the need for access to particular sites in the area.

21  
Section 12. Any person aggrieved by the decision of the State Highway Engineer under ORS 390.650 is entitled to appeal to the circuit court of the county where the property is located for a judicial review, de novo as in equity, of the action or failure to act by the engineer. An appeal taken under this section shall be made within 60 days after the date of the action, or after the expiration of the period prescribed for action, by the engineer under ORS 390.650.

Section 13. ORS 390.670 is amended to read:

390.670. The owner or person in control of any property subject to a public easement declared a state recreation area by [subsections (2) to (4) of] ORS 390.610 [and subsection (1) of ORS 390.620] or any property subject to ORS 390.640 shall not be liable for any injury to another person or damage to property of another resulting from a

condition of the property within [the easement or within the] either area [subject to ORS 390.640], unless the injury or damage results from a condition that he created [or] and that he knew or, in the exercise of reasonable care, should have known was likely to cause injury to persons or damage to property.

Section 14. ORS 308.235 is amended to read:

308.235. [(1)] Taxable real property shall be assessed by a method which takes into consideration the improvements on the land and in the surrounding country and also the use, earning power and usefulness of such improvements, and any rights or privileges attached thereto or connected therewith, the quality of the soil, and the natural resources in, on or connected with the land, its conveniences to transportation lines, public roads and other local advantage of a similar or different kind. Where land is situated within an irrigation, drainage, reclamation or other improvement district, the value of the land shall not be deemed to be increased until the construction and improvement of the district have been completed to the point that water may be delivered to or removed from the land, as the case may be.

[(2)] For purposes of assessment and ad valorem taxation, whenever real property is held subject to a public easement declared a state recreation area by subsections (2) to (4) of ORS 390.610, the true cash value of the

(1) In any court proceedings involving prescriptive rights of the public over property abutting, adjacent [and] or contiguous to [those] the lands described in ORS 390.720 or section 8 of this 1969 Act, an instrument executed and filed as provided by subsection (2) of this section shall be an act and declaration admissible as evidence of the intent of the owner or person in control of property to exercise dominion and control over his property.

(2) The declaration shall describe the property and shall be signed and acknowledged as provided by ORS 93.410.

It shall state that the public is granted permission to use the property, or a specifically described portion of the property, and that the public use may be for certain purposes which shall also be described. The declaration shall be filed in the office of the county officer charged with the duty of filing and recording instruments or documents affecting title to real property.

(3) The permission granted may be revoked at any time by the grantor by a declaration revoking the permission signed, acknowledged and filed as provided by subsection (2) of this section. (4) Failure of the owner or person in control of property to execute and file the declaration as provided in subsection (2) of this section shall not imply an intent to relinquish dominion and control over his property.

[Upon the recommendation of or approval by the governing body of a county or city contiguous to any portion of the ocean shore, or upon its own motion as to such ocean shore,] (1) The State Highway Commission may establish [areas and] zones on the ocean [shore wherein there shall be no] beaches where travel by motor vehicles or landing of any aircraft except for an emergency shall

be restricted or prohibited. After the establishment of a zone [or area] and the erection of signs or markers thereon, no such use shall be made of such areas except in conformity with the rules of the commission.

(2) Proceedings to establish a zone:

(a) May be initiated by the commission on its own motion; or

(b) Shall be initiated upon request of the governing body of a county or city contiguous to the proposed zone.

(3) A zone shall not be established unless the commission first holds a public hearing in the vicinity of the proposed zone. The commission shall cause notice of the hearing to be given by publication, not less than seven days prior to the hearing, by at least one insertion in a newspaper of general circulation in the vicinity of the zone.

Section 19. ORS 390.750 is amended to read:

390.750. Nothing in ORS [274.075, 274.080 or] 390.710 to 390.750 is intended to repeal ORS 492.780 to 492.810.

Section 20. No person shall:

(2) Remove any natural product from the ocean shore,

other than fish or wildlife, agates or souvenirs, except as provided by section 23 of this 1969 Act.

41 Section 21. Except as provided by ORS 273.551, the State Highway Commission has jurisdiction over the state recreation areas designated or acquired under ORS 390.610, 390.630 or 390.720 in order to carry out the purposes of ORS 390.610 to 390.690.

44 Section 22. (1) The State Highway Commission may grant easements and licenses for pipe lines, cable lines and other conduits across and under the state recreation areas described by section 21 of this 1969 Act, and the submerged lands adjacent to the ocean shore, upon payment of just compensation by the grantee. Such an easement or license is not a sale or lease of tide and overflow lands within the scope of ORS 274.040.

(2) All easements and licenses granted under this section are subject to conditions that will assure the safety of the public and the preservation of economic, scenic and recreational values, and to rules promulgated by state agencies having jurisdiction over the activities of the grantee or licensee. An easement or license may not be granted until the commission has held a public hearing substantially in conformity with the requirements of ORS 274.755, except that the hearing is not subject to ORS 183.310 to 183.510.

(3) An easement or license under this section may

not be granted for a term exceeding 99 years.

(4) Easements and licenses granted under this section are not valid unless filed for record by the grantee or licensee in the deed records of each county in which the property affected by the grant or privilege is located, not later than the 30th day after the date of execution thereof.

Section 23. (1) No sand, rock, mineral, marine growth or other natural product of the ocean shore, other than fish or wildlife, agates or souvenirs, shall be taken from the state recreation areas described by section 21 of this 1969 Act, except in compliance with a rule of or permit from the State Highway Commission as provided by this section.

(2) Rules or permits shall be made or granted by the commission only after consultation with the Fish Commission of the State of Oregon, the State Game Commission, the State Department of Geology and Mineral Industries and the Division of State Lands. Rules and permits shall contain provisions necessary to protect the areas from any use, activity or practice inimicable to the conservation of natural resources or public recreation.

(3) On request of the governing body of any county adjacent to any portion of a state recreation area, the State Highway Commission may grant a permit for the removal of sand or rock from the area at designated

locations to supply reasonable needs for essential construction uses in such localities as it appears sand and rock for such construction are not otherwise obtainable at reasonable cost. The commission may grant a permit to take and remove sand, rock, mineral or marine growth from the area at designated locations.

(4) The terms, royalty and duration of a permit under this section are at the discretion of the commission. A permit is revocable at any time in the discretion of the commission without liability to the permittee.

11  
Section 24. The repeal of ORS 274.075 and 274.080 by section 29 of this Act does not affect any easements, licenses or permits issued under such sections prior to their repeal. On and after the effective date of this Act, such easements, licenses and permits in all respects are subject to section 22 or 23 of this Act as if originally issued thereunder. Any payments due the Division of State Lands under any such easement, license or permit shall be paid to the State Highway Commission after the effective date of this Act. Such rules shall be designed to maximize the public benefit of these resources, and shall permit the free use of the areas for collection for noncommercial purposes of reasonable quantities of petrified wood, semiprecious stones, and archaeological and paleontological objects. Notwithstanding any other law, such rules may provide that not to exceed 25 percent of any treasure-trove shall be retained by the commission, subject to disposal by the commission as property of the State of Oregon, and that the remainder shall be retained by the finder.

(2) If any person removes treasure-trove, semiprecious stones or petrified wood from the state recreation areas in a manner contrary to rules prescribed under this section, all the materials or objects so removed shall be subject to disposal by the commission as property of the State of Oregon.

11
