**SHERMCO'S 6-STEP ELECTRICAL DAMAGE RESTORATION PROCESS**

Shermco's Electrical Restoration Services team helps you bring order to the chaos that inevitably follows a disaster. Our trained project managers are electrical damage restoration experts who rush manpower, assets and resources to the scene, then pursue an orderly approach to bringing your critical systems back on line fast.

**Step 1: Base Camp/Assessment**

Our first responders immediately set up shop at your site, assessing all safety issues, establishing basic services and prioritizing the recovery process.

**Step 2: Data Acquisition/Control**

Getting your facility back in order requires careful documentation, not only for re-commissioning, but for replacement and insurance purposes.

**Step 3: On-Site Clean-Up/Repair**

Our team promptly inventories your equipment. Salvageable assets are repaired on-site or sent back to our shop. Damaged assets are safely removed.

**Step 4: Installation/Testing**

Shermco works with all variety of OEMs to safely install and test replacement equipment and prepare your facility for startup.

**Step 5: Startup/Commissioning**

Following OEM and industry safety guidelines, Shermco brings your electrical assets back on line, from motors to switchgear, from substations to the factory floor.

**Step 6: Follow-Up Consulting/Services**

Once your facility is back on line, Shermco remains available to ensure your power system operates at peak efficiency and reliability, after the disaster and beyond.

**RELY ON THE LEADER: SHERMCO INDUSTRIES**

Since 1974, Shermco Industries has served customers in the field, at the shop and around the globe, with safe and reliable testing, repair, maintenance and analysis for electrical rotating equipment and power distribution systems. When disaster strikes, waste no time. Call Shermco first.
