Wolf Conservation and Management Plan

The document entitled "Oregon Wolf Conservation and Management Plan" dated October 2010 is incorporated here by reference as administrative rule. (This incorporation by reference includes the body of the Plan plus its Appendix A. Other appendices are excluded.) Copies may be obtained at the Salem headquarters office of the Oregon Department of Fish and Wildlife, 4034 Fairview Industrial Drive S.E., Salem, OR 97302. This document includes program direction, objectives and strategies to fulfill management, research, and habitat needs. It is also intended as an informational document to assist resource management agencies with their wildlife program. As of January 10, 2014, those portions of the plan which authorize harassment or take of wolves are pre-empted in a portion of Oregon by the endangered status of the gray wolf under the federal Endangered Species Act. In the portion of Oregon where federal protections are reduced to a level below that of Oregon law, this plan governs harassment and take of wolves in Oregon.

Harassment and Take of Wolves during Phase I (Conservation)

NOTE: As of January 10, 2014, these rules are pre-empted in a portion of Oregon by the endangered status of the gray wolf under the federal Endangered Species Act. In the portion of Oregon where federal protections are reduced to a level below that of Oregon law, these rules govern harassment and take of wolves in Oregon.

(1) This rule describes the types of harassment and take of wolves allowed by persons outside ODFW during Phase I — (Conservation: 0–4 breeding pairs) as called for in chapter III of the Oregon Wolf Conservation and Management Plan. Other chapters of the Plan authorize ODFW to take wolves for other specified wildlife management purposes. For OAR 635-110-0010, 635-110-0020 and 635-110-0030, "livestock" means ratites, horses, mules, jackasses, cattle, llamas, alpacas, sheep, goats, swine, domesticated fowl, any fur-bearing animal bred and maintained (commercially or otherwise) within pens, cages and hutches, bison and working dogs. "Working dogs" means guarding dogs and herding dogs.

(2) Non-injurious harassment.

(a) Subject to the conditions specified in paragraph (c), the following persons may use non-injurious harassment against wolves without a permit:

(A) Livestock producers (or their agents) on land they own or lawfully occupy; or

(B) Grazing permittees legally using public land under valid livestock grazing allotments.

(b) Non-injurious harassment means scaring off a wolf (or wolves) without doing bodily harm, and includes (but is not limited to) firing shots in the air, making loud noises or otherwise confronting the wolf (or wolves).

(c) Non-injurious harassment is allowed without a permit under this rule only if:

(A) The wolf (or wolves) is in the act of testing or chasing livestock, is attempting to test or chase livestock or is in close proximity of livestock;

(B) The person encounters the wolf (or wolves) unintentionally (i.e., the person is not stalking or searching for wolves);

(C) The harassment in fact does not result in injury to the wolf (or wolves); and

(D) The harassment is reported to ODFW within 48 hours.

(d) Any non-injurious harassment that does not meet each requirement of this rule requires a permit in advance from ODFW.

(3) Non-lethal injurious harassment.

(a) Subject to the conditions specified in paragraph (c), in addition to state or state authorized agents, the following persons may use non-lethal injurious harassment against wolves by permit:

(A) Livestock producers (or their agents) on land they own or lawfully occupy;

(B) Grazing permittees legally using public land under valid livestock grazing allotments.

(b) Non-lethal injurious harassment means scaring off a wolf (or wolves) without killing but with some injury to the wolf. Wolves may be pursued (unintentional encounters are not required).

(c) Non-lethal injurious harassment is allowed by permit from ODFW only if:

(A) ODFW confirms wolf depredation on livestock or other wolf-livestock conflict in the area. "Other wolf-livestock conflict" means loitering near, testing, chasing, or otherwise disrupting livestock;

(B) The applicant confers with ODFW to determine the most effective harassment method;

(C) ODFW considers the location of known den sites;

(D) The harassment in fact does not result in the death of a wolf;

(E) No identified circumstance exists that attracts wolf/livestock conflict; and

(F) The harassment is reported to ODFW within 48 hours.

(d) Permits for non-lethal injurious harassment remain valid for the livestock grazing season in which issued, provided the livestock operator complies with all applicable laws, including permit conditions. The agency shall inform harassment permit holders of non-lethal methods for minimizing wolf-livestock conflict and provide assistance upon request. Receiving future lethal control permits is contingent upon documentation of efforts to use non-lethal methods.

(4) Relocation. ODFW will authorize relocation by state personnel when a wolf (or wolves) becomes inadvertently involved in a situation, or is present in an area, that could result in conflict with humans or harm to the wolf, provided that ODFW has no reason to believe that the wolf actually attacked or killed livestock or pets. The relocation will be designed to prevent conflict with humans or reduce the possibility of harm to the wolf. The wolf (or wolves) would be relocated to suitable habitat at the direction of ODFW.

(5) Lethal take of wolves in the act of biting, wounding, killing or chasing livestock or working dogs.

(a) A person, or an agent as described in paragraph (b), may lethally take a wolf on land the person owns or lawfully occupies only if:

(A) The wolf is caught in the act of:

(i) Biting, wounding or killing livestock or working dogs; or

(ii) Chasing livestock or working dogs, if the person has first undertaken nonlethal actions as specified in (8)(b)(C) and (8)(c) of this rule, and the taking occurs during a time period in which ODFW has determined a situation of chronic depredation exists.; and

(B) No person has used bait or taken other intentional actions to attract wolves.

(b) A landowner or lawful occupant of land may authorize an agent to enter the land for the purpose of taking wolves pursuant to (5)(a) on the landowner or occupant's behalf. The authorization must be in writing, be carried by the agent when wolves are taken, and must include:

(A) The date of issuance of the authorization;

(B) The name, address, telephone number and signature of the person granting authorization;

(C) The name, address, and telephone number of the person to whom authorization is granted; and

(D) The expiration date of the authorization, which may not be later than one year from the issuance date.

(c) Any person who takes a wolf pursuant to (5)(a) and (5)(b) of these rules must make all reasonable efforts to preserve the scene, not remove or disturb the wolf carcass, and report the take to ODFW within 24 hours.

(6) Lethal take to address chronic livestock depredation. ODFW may authorize its personnel or authorized agents to use lethal force on a wolf or wolves it reasonably believes are responsible for chronic depredation upon livestock where each of the conditions in subsections (7) through (10) of this rule is satisfied. ODFW shall limit lethal force to the wolf or wolves it deems necessary to address the chronic depredation situation

(7) Conditions for Lethal Take by ODFW. ODFW's discretionary authority for use of lethal force pursuant to this rule may be exercised if ODFW:

(a) Designates an Area of Known Wolf Activity, the boundary of which may be adjusted as new data or information become available;

(b) Upon the designation of an Area of Known Wolf Activity, coordinates in a timely manner with potentially affected livestock producers and other relevant interests to provide information on:

(A) The provisions of the Oregon Wolf Conservation & Management Plan and associated rules,

(B) The current state of knowledge of wolf behavior, management, and conservation,

(C) Procedures for documenting and reporting wolf activity to ODFW, including depredations upon livestock, and

(D) Non-lethal measures, incentives and available assistance aimed at minimizing conflicts between wolves and livestock or domestic animals in the area of known wolf activity;

(c) Confirms an incident of depredation of livestock by a wolf or wolves;

(d) Within 14 working days of ODFW's confirmation of the first incident of depredation in an area:

(A) Designates an Area of Depredating Wolves, the boundary of which may be adjusted as new data or information become available;

(B) Concurrent with the designation of an Area of Depredating Wolves, prepares and publicly discloses an area-specific wolf-livestock conflict deterrence plan in coordination with potentially affected landowners, livestock producers and other relevant interests. The plan shall identify appropriate non-lethal measures according to which measures are likely to be most effective in a given circumstance, including the nature of the livestock operations, habitat, and landscape conditions specific to the area, as well as particular times of the year or period of livestock production. The plan shall be based on information compiled by ODFW before and/or during the planning effort on potentially successful conflict deterrence techniques, scientific research, and available financial resources and/or partnerships that may aid in the successful implementation of the plan. ODFW may update an area-specific conflict deterrence plan as new data become available.

(e) Confirms a total of at least 4 qualifying incidents of depredation of livestock within the previous 6 months by the same wolf or wolves.

(f) Issues and makes publicly available, prior to the exercise of lethal force, a written determination by the ODFW Director or director's designee to use lethal force to address a specified situation of chronic depredation, along with supporting findings that:

(A) The conditions of Sections 7, 8, and 9 of this rule have been satisfied;

(B) Livestock producers in the Area of Depredating Wolves have worked to reduce wolf-livestock conflict and are in compliance with wolf protection laws and the conditions of any harassment or take permits.

(C) The situation of wolf depredation upon livestock in the Area of Depredating Wolves is likely to remain chronic despite the use of additional non-lethal conflict deterrence measures; and

(D) The wolf or wolves identified for removal are those ODFW believes to be associated with the qualifying depredations, the removal of which ODFW believes will decrease the risk of chronic depredation in the Area of Depredating Wolves.

(8) Qualifying Contingencies and Counting Incidents:

(a) An incident of depredation is a single event resulting in the injury or death of one or more lawfully present livestock that is reported to ODFW for investigation, and upon investigation by ODFW or its agent(s), ODFW confirms to have been caused by a wolf or group of wolves.

(b) A qualifying incident of depredation is a confirmed incident of depredation for the purposes of this rule if:

(A) The depredation is outside of an Area of Known Wolf Activity or Area of Depredating Wolves. Only the first confirmed depredation by a wolf or wolves may count as a qualifying depredation,

(B) In an Area of Known Wolf Activity, the landowner or lawful occupant of the land where the depredation occurred had:

(i) At least seven days prior to the incident of depredation, removed, treated or disposed of all intentionally placed or known and reasonably accessible unnatural attractants of potential wolf-livestock conflict, such as bone or carcass piles or disposal sites, and

(ii) Prior to and on the day of the incident of depredation, been using at least one measure ODFW deems most appropriate from non-lethal deterrence measures identified pursuant to section (7)(b)(D) to protect calving operations, nursing cattle, sheep operations, or other reasonably protectable situations, not including open range situations. Once a confirmed depredation has occurred in an Area of Known Wolf Activity and while ODFW is in the process of designating an Area of Depredating Wolves and creating an area-specific conflict deterrence plan, only one additional confirmed depredation in an area may count as a qualifying depredation under this subsection.

(C) In an Area of Depredating Wolves, the landowner or lawful occupant of the land where the depredation occurred had:

(i) Complied with subsection (B) of this section, and

(ii) Prior to and on the day of the incident of depredation was implementing at least one non-lethal measure identified in the area-specific conflict deterrence plan developed under subsection (7)(d)(B) that is specific to the location, type of livestock operation, time of the year, and/or period of livestock production associated with the depredation. The conflict deterrence plan measure implemented by a landowner or lawful occupant must address wolf-livestock conflict in open range situations when that situation exists.

(c) Human presence, when used as a non-lethal measure under this rule, is presence which could reasonably be expected to deter wolf-livestock conflict under the circumstances and, regardless of the temporal

requirements of sections (7)(b)(B) and (C) of this rule, may be considered an appropriate non-lethal measure if it:

(A) Occurs at a proximate time prior to and in an area proximate to a confirmed depredation as determined by ODFW, and

(B) Indicates a timely response to wolf location information in situations of potential wolf-livestock conflict.

(9) Transparency and Public Disclosure.

(a) Except as provided in section (c) below, prior to using lethal force to address chronic wolf depredation, and in a timely fashion, ODFW shall document and make publicly available on at least its website:

(A) The determinations and supporting findings referenced in section (7)(f) of this rule;

(B) Information including but not limited to summaries of confirmed incidents of depredation and associated depredation investigation reports, maps of areas of known wolf activity and areas of depredating wolves, including changes and amendments to those maps, and area specific conflict deterrence plans; and

(C) Documentation of measures implemented pursuant to Section 8 of this rule. In documenting the removal of unnatural attractants and implementation of conflict deterrence measures, the Department may rely upon documented personal observation and/or written statements by the owner or lawful occupant of the land where qualifying incidents of depredation have occurred that confirm the non-lethal deterrence measures being utilized prior to and at the time of the qualifying depredation.

(b) In any signed statements and other information publicly disclosed pursuant to this section, the Department shall redact from public disclosure the personal information of landowners, lawful occupants, or other relevant individuals consistent with the Oregon public records law, ORS Chapter 192.

(c) In the case where the conditions in Section (7)(f) of this rule have been met but strict compliance with the public disclosure requirements of this section cannot be accomplished without a delay that impedes ODFW's ability to pursue an immediately available opportunity to remove the wolf or wolves it reasonably believes responsible for chronic depredation prior to another depredation event on livestock, this section is deemed satisfied if, prior to the use of lethal force, ODFW:

(A) Provides email or phone notification from the ODFW Director or designee to a list of interested stakeholders communicating the findings in Section 7(f) of this rule and the Department's intent to pursue immediate lethal action based on those findings,

(B) Has previously documented and disclosed, on at least the agency's website, the information referenced in subsections (a)(A)–(C) of this section with respect to all but the most recent qualifying depredation that resulted in ODFW's determination to pursue lethal action, and

(C) Provides the remaining information referenced in subsections (a)(A)–(C) of this rule in a timely manner with respect to the most recent qualifying incident that ODFW pursues with immediate lethal action.

(10) Duration of chronic depredation lethal take authority. Take authority issued pursuant to subsection (7) expires:

(a) When the wolf or wolves identified for lethal removal have been removed by ODFW or any other party.

(b) ODFW may reinstate its take authority if ODFW confirms one additional qualifying incident of depredation within two months after the last confirmed qualifying depredation by what it believes to be a member or members of the same wolf pack and non-lethal efforts specified in Section 8 have continued to be implemented by the owner or lawful occupant of land where the additional depredation occurs;

(c) 45 days after issuance of the take authority and determination referenced in section (7)(f), unless ODFW confirms, within that time period, another qualifying incident of depredation on livestock by what it believes to be the same wolf or wolves identified for lethal removal and non-lethal efforts specified in section (8) have continued to be implemented by the owner or lawful occupant of land where the additional depredation occurs; or

(d) If ODFW determines the wolf or wolves identified for lethal removal have left the Area of Depredating Wolves. To support this determination, data must show more than just a short-term or seasonal movement outside the area's boundary.

(e) Except as allowed under subsections (b) and (c) of this Section, any subsequent authorization or reinstatement of take authority by the Department must comply with sections (7) through (9) of this rule, and must be based upon at least one additional qualifying depredation.

(11) Lethal take in the case of extreme circumstances. Notwithstanding sections (7) and (8) of this rule, ODFW may authorize the use of lethal force in extreme circumstances.

(a) Extreme circumstances means:

(A) Four or more confirmed incidents of depredation of livestock by what ODFW reasonably believes to be the same wolf or wolves within seven days;

(B) ODFW determines, based on evidence it makes publicly available, that there were no intentionally placed or known and reasonably accessible unnatural attractants such as bone or carcass piles or disposal sites that contributed to the incidents of depredation, and that non-lethal measures are and will likely remain ineffective; and

(C) ODFW finds that depredation has rapidly escalated beyond the reasonable, available means of ODFW and affected livestock owners to stop additional livestock losses from occurring.

(b) A decision to utilize lethal force authority due to extreme circumstances shall be made by the ODFW director or director's designee, accompanied by the findings and determinations required in section (11)(a) made publically available on ODFW's website, and exercised within 14 days of the determination to exercise lethal force authority under this section, or of the last confirmed depredation, whichever comes later.

Harassment and Take of Wolves During Phase II (Management)

NOTE: as of January 10, 2014, these rules are pre-empted in a portion of Oregon by the endangered status of the gray wolf under the federal Endangered Species Act. In the portion of Oregon where federal protections are reduced to a level below that of Oregon law, these rules govern harassment and take of wolves in Oregon.

(1) This rule describes the types of harassment and take of wolves allowed by persons outside ODFW (or ODFW or Wildlife Services acting as their agent) during Phase II — (Management: 5-7 breeding pairs) as called for in chapter III of the Oregon Wolf Conservation and Management Plan. Other chapters of the Plan authorize ODFW to take wolves for other specified wildlife management purposes.

(2) Non-injurious harassment of wolves is allowed under the same conditions as in Phase I (OAR 635-110-0010(2)).

(3) Non-lethal injurious harassment.

(a) Non-lethal injurious harassment is allowed without a permit on private land by livestock producers or their agents on land they own or lawfully occupy. Livestock producers are encouraged to use non-injurious techniques first. There must be no identified circumstance that attracts wolf-livestock conflict, and the harassment must be reported to ODFW within 48 hours.

(b) Non-lethal injurious harassment is allowed by permit on public land by grazing permittees who are legally using public land under valid livestock grazing allotments and upon the following conditions:

(A) ODFW confirms wolf depredation on livestock or other wolf-livestock conflict in the area. "Other wolf-livestock conflict" means loitering near, testing, chasing, or otherwise disrupting livestock;

(B) ODFW considers the location of known den sites;

(C) There is no identified circumstance at the site which attracts wolf/livestock conflict; and

(D) The harassment is reported to ODFW within 48 hours.

(c) As to non-lethal injurious harassment on either private or public land, pursuing wolves is allowed.

(4) Relocation of wolves will be considered under the same circumstances as in Phase I (OAR 635-110-0010(4)).

(5) Lethal take of wolves in the act of biting, wounding, killing or chasing livestock or working dogs.

(a) A person, or an agent as described in paragraph (b), may lethally take a wolf on land the person owns or lawfully occupies only if:

(A) The wolf is caught in the act of biting, wounding, killing or chasing livestock or working dogs; and

(B) No person has used bait or taken other intentional actions to attract wolves.

(b) A landowner or lawful occupant of land may authorize an agent to enter the land for the purpose of taking wolves pursuant to 5(a) on the landowner or occupant's behalf. The authorization must be in writing, be carried by the agent when wolves are taken, and must include:

(A) The date of issuance of the authorization;

(B) The name, address, telephone number and signature of the person granting authorization;

(C) The name, address, and telephone number of the person to whom authorization is granted; and

(D) The expiration date of the authorization, which may not be later than one year from the issuance date.

(c) Any person who takes a wolf pursuant to 5(a) of these rules must make all reasonable efforts to preserve the scene, not remove or disturb the wolf carcass, and report the take to ODFW within 24 hours.

(6) Lethal take to deal with chronic depredation.

(a) ODFW may authorize its personnel, authorized agents, or Wildlife Services, to use lethal force on wolves at a property owner or permittee's request if:

(A) ODFW confirms either:

(i) Two confirmed depredations by wolves on livestock in the area; or

(ii) One confirmed depredation followed by three attempted depredations (testing or stalking) in the area;

(B) The requester documents unsuccessful attempts to solve the situation through non-lethal means;

(C) No identified circumstance exists that attracts wolf-livestock conflict; and

(D) The requester has complied with applicable laws and the conditions of any harassment or take permit.

(b) Subject to the conditions specified in paragraph (c) and with a limited duration permit from ODFW, the following persons may use lethal force to deal with chronic depredation:

(A) Livestock producers (or their agents) on land they own or lawfully occupy; or

(B) Grazing permittees legally using public land.

(c) ODFW will issue a permit to use lethal force to deal with chronic depredation only if:

(A) ODFW confirms that the area has had at least two depredations by wolves on livestock;

(B) ODFW determines that wolves are routinely present on that property and present a significant risk to livestock;

(C) There is no identified circumstance at the site which attracts wolf/livestock conflict;

(D) The applicant is in compliance with applicable laws and the terms of any previous wolf permit;

(E) The applicant documents use of non-lethal methods; and

(F) Any wolf taken is considered property of the state and reported to ODFW within 48 hours.

(7) "Identified circumstance" means a condition which:

(a) ODFW determines, based upon its investigation of the situation, attracts wolves and fosters conflict between wolves and livestock; and

(b) ODFW advises the landowner, livestock producer or grazing permittee to remedy; but

(c) The landowner, livestock producer or grazing permittee fails to remedy.

(8) "In the area" means where ODFW has determined the presence of the depredating wolves.

Harassment and Take of Wolves During Phase III

NOTE: as of January 10, 2014, these rules are pre-empted in a portion of Oregon by the endangered status of the gray wolf under the federal Endangered Species Act. In the portion of Oregon where federal protections are reduced to a level below that of Oregon law, these rules govern harassment and take of wolves in Oregon.

(1) This rule describes the types of harassment and take of wolves allowed by persons outside ODFW (or ODFW or Wildlife Services acting as their agent) during Phase III (more than 7 packs) as called for in chapter III of the Oregon Wolf Conservation and Management Plan. Other chapters of the Plan authorize ODFW to take wolves for other specified wildlife management purposes.

(2) Non-injurious harassment of wolves is allowed under the same conditions as in Phase I (OAR 635-110-0010(2)).

(3) Non-lethal injurious harassment is allowed under the same conditions as in Phase II (OAR 635-110-0020(3)), except that wolf depredation on livestock or other wolf-livestock conflict may be confirmed by either ODFW or Wildlife Services.

(4) Relocation of wolves will be considered under the same circumstances as in Phase I (OAR 635-110-0010(4)).

(5) Lethal take of wolves in the act of attacking livestock is allowed under the same conditions as for Phase II (OAR 635-110-0020(5)), except that wolf depredation on livestock may be confirmed by either ODFW or Wildlife Services.

(6) Lethal take of wolves to deal with chronic depredation is allowed under the same conditions as for Phase II (OAR 635-110-0020(6)), except that wolf depredation on livestock may be confirmed by either ODFW or Wildlife Services.

(7) The Commission will authorize controlled take of wolves by special permit in specific areas where necessary to address chronic wolf-livestock conflicts or ungulate population declines. "Chronic" means two livestock depredations have been confirmed by ODFW or Wildlife Services, or one depredation followed by three attempted depredations (testing or stalking). The Commission may also choose to authorize such controlled take on private lands where the landowner is willing to provide access.

(1) Within 60 calendar days after receipt from the Department or Authority of any proposed change or modification to the Medicaid reimbursement system, the Council shall issue a written advisory recommendation to the Department or Authority. The 60-day period begins the day following delivery to the chairperson of the Council if a proposed change or modification is faxed, hand-delivered, or e-mailed. Otherwise, the 60-day period begins the third day after the date of mailing first class.

(2) A written advisory recommendation issued by the Council must state:

(a) Whether the Council supports or opposes the proposed change or modification;

(C) Other information deemed appropriate by the Council.

(3) Timeline for written recommendation.

(a) Notwithstanding section (1) of this rule, the Department or Authority may shorten the time within which the Council must issue a written recommendation if the Department or Authority decides to adopt a proposed change or modification by temporary rule and if the Department or Authority prepares a written statement in which the Department or Authority:

(A) Finds that failure to make proposed changes or modifications promptly is likely to result in serious prejudice to the public interest or to the interests of individuals receiving Department or Authority services, providers of long term care or community-based services, or other affected parties;

(B) Specifies reasons why the Department or Authority's failure to act promptly is likely to result in serious prejudice to those interests;

(C) States the need for the proposed change or modification and how the change or modification is intended to meet the need;

Statement of Purpose

(1) The rules in OAR chapter 411, division 340 prescribe standards, responsibilities, and procedures for support services brokerages to assist adults with intellectual or developmental disabilities to identify and address support needs and for providers paid with support services funds, including resources available through the state plan and waiver, to provide services so that an adult with an intellectual or developmental disability may live in his or her own home or in the family home.

(2) Services provided under these rules are intended to identify, strengthen, expand, and where required, supplement private, public, formal, and informal support available to adults with intellectual or developmental disabilities so that an adult with an intellectual or developmental disability may exercise self-determination in the design and direction of his or her life.

An applicant for a certificate or a certificate holder may request a hearing pursuant to the contested case provisions of ORS chapter 183 upon written notice from the Department of denial, suspension, revocation, or refusal to renew a certificate. In addition to, or in lieu of a hearing, the applicant or certificate holder may request an administrative review by the Department's director. An administrative review does not preclude the right of the applicant or certificate holder to a hearing.

(a) The applicant or certificate holder must request a hearing within 60 days of receipt of written notice by the Department of denial, suspension, revocation, or refusal to renew a certificate. The request for a hearing

must include an admission or denial of each factual matter alleged by the Department and must affirmatively allege a short plain statement of each relevant, affirmative defense the applicant or certificate holder may have.

Complaints in Support Services Brokerages

(1) COMPLAINTS. Brokerages must develop and implement written policies and procedures regarding individual complaints and a formal complaint process. These policies and procedures must at minimum address:

(a) Receipt of complaints. If a complaint is associated in any way with abuse, the recipient of the complaint must immediately report the issue to the CDDP and notify the brokerage director and, if applicable, the provider organization director. The brokerage must maintain a log of all complaints regarding the brokerage, provider organization, or independent provider that the brokerage receives from individuals, others acting on the behalf of individuals, and from provider organizations acting in accordance with OAR 411-340-0170(2)(a)(C)(v).

(A) The complaint log must, at a minimum, include the following:

(i) The date the complaint was received;

(ii) The name of the person taking the complaint;

(iii) The nature of the complaint;

(iv) The name of the person making the complaint, if known; and

(v) The disposition of the complaint.

(B) Brokerage personnel issues and allegations of abuse may be maintained separately from a central complaint log. If a complaint results in disciplinary action against a staff member, the documentation on the complaint must include a statement that disciplinary action was taken.

(b) Informal complaint resolution. An individual or a person acting on behalf of the individual must have an opportunity to informally discuss and resolve any allegation that a brokerage, provider organization, or independent provider has taken action that is contrary to law, rule, policy, or that is otherwise contrary to the interest of the individual and that does not meet the criteria for an abuse investigation. Choosing an informal resolution does not preclude an individual or a person acting on behalf of the individual from pursuit of resolution through formal complaint processes.

(c) Investigation of the facts supporting or disproving the complaint.

(d) Taking appropriate actions. The brokerage must take steps to resolve the complaint within five working days following receipt of the complaint. If the complaint cannot be resolved informally, or if the individual or the person acting on behalf of the individual so chooses at any time, the individual or the person acting on behalf of the individual may request a formal resolution of the complaint and, if needed, must be assisted by the brokerage with initiating the formal complaint process.

(e) Review by the brokerage director. If a complaint involves brokerage staff or services and if the complaint is not resolved according to subsection (b) to (d) of this section or if the individual or the person acting on behalf of the individual requests one, a formal review must be completed by the brokerage director and a written response must be provided to the individual or the person acting on behalf of the individual within 30 days following receipt of the complaint.

(f) Agreement to resolve the complaint. Any agreement to resolve a complaint that has been formally reviewed by the brokerage director must be in writing and must be specifically approved by the individual or the person acting on behalf of the individual. The brokerage must provide the individual or the person acting on behalf of the individual with a copy of the agreement.

(g) Administrative review. Unless the individual is a Medicaid recipient and the individual or the person acting on behalf of the individual has elected to initiate the hearing process according to section (3) of this rule, the complaint may be submitted to the Department for administrative review when the complaint cannot be resolved by the brokerage and the complaint involves the provision of services or a provider.

(A) Following a decision by the brokerage director regarding a complaint, the complainant may request an administrative review by the Department's director.

(B) The individual or the person acting on behalf of the individual must submit to the Department a request for an administrative review within 15 days from the date of the decision by the brokerage director.

(C) Upon receipt of a request for an administrative review, the Department's director shall appoint an Administrative Review Committee and name the chairperson. The Administrative Review Committee is comprised of a representative of the Department, a CDDP representative, and a brokerage representative. The Administrative Review Committee representatives may not have any direct involvement in the provision of services to the individual or have a conflict of interest in the specific case being reviewed.

(D) The Administrative Review Committee shall review the complaint and the decision by the brokerage director and make a recommendation to the Department's director within 45 days of receipt of the complaint unless the individual or the person acting on behalf of the individual and the Administrative Review Committee mutually agree to an extension.

(E) The Department's director shall consider the report and recommendations of the Administrative Review Committee and make a final decision. The decision is in writing and issued within 10 days of receipt of the recommendation by the Administrative Review Committee. The written decision contains the rationale for the director's decision.

(F) The decision of the Department's director is final. Any further review is pursuant to the provision of ORS 183.484 for judicial review.

(h) Documentation of complaint. Documentation of each complaint and resolution of the complaint must be filed or noted in the individual's record.

(2) NOTIFICATION. Upon enrollment and annually thereafter, and when a complaint is not resolved according to section (1)(b) through (1)(d) of this rule, the brokerage must inform each individual, or as applicable the individual's legal or designated representative, orally and in writing, using language, format, and methods of communication appropriate to the individual's needs and abilities, of the following:

(a) Brokerage grievance policy and procedures, including the right to an administrative review and the method to obtain an administrative review; and

(b) The right of a Medicaid recipient to a hearing as pursuant to section (3) of this rule and the procedure to request a hearing.

(3) DENIAL, TERMINATION, SUSPENSION, OR REDUCTION OF SERVICES FOR INDIVIDUAL MEDICAID RECIPIENTS.

(a) Each time the brokerage takes an action to deny, terminate, suspend, or reduce an individual's access to services covered under Medicaid, the brokerage must notify the individual, or as applicable the individual's legal or designated representative, of the right to a hearing and the method to request a hearing. The brokerage must mail the notice by certified mail or personally serve the notice to the individual, or as applicable the individual's legal or designated representative, 10 days or more prior to the effective date of an action.

(A) The brokerage must use form SDS 0947, Notification of Planned Action, or a comparable Department-approved form for such notification.

(B) This notification requirement does not apply if an action is part of, or fully consistent with an individual's ISP, and the individual, or as applicable the individual's legal or designated representative, has agreed with the action by signature to the ISP.

(b) A notice required by section (3)(a) of this rule must include:

(A) The action the brokerage intends to take;

(B) The reasons for the intended action;

(C) The specific Oregon Administrative Rules that support, or the change in federal or state law that requires, the action;

(G) In cases of an action based upon a change in law, the circumstances under which a hearing is granted; and

(H) An explanation of the circumstances under which brokerage services are continued if a hearing is requested.

(c) If an individual, or as applicable the individual's legal or designated representative, disagrees with a decision or proposed action by the brokerage to deny, terminate, suspend, or reduce an individual's access to services covered under Medicaid, the individual, or as applicable the individual's legal or designated representative, may request a hearing as provided in ORS chapter 183. The request for a hearing must be in writing on form DHS 443 and signed by the individual or the individual's legal or designated representative (as applicable). The signed form (DHS 443) must be received by the Department within 45 days from the date the brokerage mailed the notice of action.

(d) An individual, or as applicable the individual's legal or designated representative, may request an expedited hearing if the individual, or as applicable the individual's legal or designated representative, feels that

there is immediate, serious threat to the individual's life or health if the normal timing of the hearing process is followed.

(e) If an individual, or as applicable the individual's legal or designated representative, requests a hearing before the effective date of the proposed action and requests that the existing services be continued, the Department shall continue the services.

(A) The Department must continue the services until whichever of the following occurs first:

(C) The post office returns mail directed to the individual, or as applicable the individual's legal or designated representative, but the location of the individual, or as applicable the individual's legal or designated representative, becomes known during the time that the individual is still eligible for services.

(g) The Department must promptly correct the action taken up to the limit of the original authorization, retroactive to the date the action was taken, if the hearing decision is favorable to the individual or if the Department decides in the individual's favor before the hearing.

(h) The Department representative and the individual, or as applicable the individual's legal or designated representative, may have an informal conference without the presence of an administrative law judge to discuss any of the matters listed in OAR 137-003-0575. At the Department representative's discretion, the Department representative may grant an additional conference if the additional conference facilitates the hearing process.

(j) The Department may provide the individual, or as applicable the individual's legal or designated representative, the relief sought at any time before the final order is issued.

(k) An individual, or as applicable the individual's legal or designated representative, may withdraw a hearing request at any time prior to the issuance of a final order. The withdrawal is effective on the date the Department or the Office of Administrative Hearings receives the request for withdrawal. The Department must issue a final order confirming the withdrawal to the last known address of the individual or the individual's legal or designated representative (as applicable). The individual, or as applicable the individual's legal or designated representative, may cancel the withdrawal up to 10 working days following the date the final order is issued.

The exception must be in writing and must be received by the Department no later than 10 days after service of the proposed order. The individual, or as applicable the individual's legal or designated representative, may not submit additional evidence after this period unless the Department grants prior approval.

(C) After receiving an exception, if any, the Department may adopt a proposed order as a final order or may prepare a new order. Prior to issuing the final order, the Department may issue an amended proposed order.

(D) Prior to implementation of an individual's initial ISP, the brokerage must ask the individual, or as applicable the individual's legal or designated representative, to identify any family and other advocates to whom the brokerage must provide the name, telephone number, and location of the personal agent.

(c) CHANGE OF PERSONAL AGENT. Changes of personal agents initiated by the brokerage must be kept to a minimum. If the brokerage must change personal agent assignments, the brokerage must notify the individual, or as applicable the individual's legal or designated representative, and all current providers within 10 working days of the change. The notification must be in writing and include the name, telephone number, and address of the new personal agent, if known, or of a contact person at the brokerage.

(c) ISP SCHEDULE. The schedule of the support services ISP, developed in compliance with this rule after an individual enters a brokerage, may be adjusted one time for any individual entering a brokerage in the following circumstances. An adjustment interrupts any plan year in progress and establishes a new plan year for the individual beginning on the date the first new ISP is authorized.

(A) Brokerages, with the consent of an individual, or as applicable an individual's legal or designated representative, may designate a new ISP start date.

(i) An adjustment may only occur one time per individual upon ISP renewal.

(ii) An ISP date adjustment must be clearly documented in the ISP.

(B) A new ISP start date may be designated for individuals transitioning from family support services regulated by OAR chapter 411, division 305, children's intensive in-home services (CIIS) regulated by OAR chapter 411, division 300, or medically fragile children (MFC) services regulated by OAR chapter 411, division 350, when those individuals are 18 years of age. The date of an individual's first new support services ISP after entry to the brokerage may be adjusted to correspond to the expiration date of the individual's ISP in place at the time the individual turns 18 years of age when the ISP, developed while the individual is still receiving family support, CIIS, or MFC services, has been authorized for implementation prior to, or upon, the individual's entry to the brokerage.

(C) A new ISP start date may be designated for individuals transitioning from other Department-paid services who are required by the Department to transition to support services. The date of the individual's first support services ISP may be adjusted to correspond to the expiration date of the individual's plan for services when the plan for services:

(i) Has been developed according to regulations governing Department-paid services the individual receives prior to transition;

(ii) Is current at the time designated by the Department for transition to support services; and

(iii) Is authorized for implementation prior to, or upon, the individual's entry to the brokerage.

(B) A revision to an initial or annual ISP that involves the types of support purchased with support services funds must be authorized prior to implementation.

(C) A revision to an initial or annual ISP that does not involve the types of support purchased with support services funds does not require authorization. Documented verbal agreement to the revision by the individual, or as applicable the individual's legal or designated representative, is required prior to implementation of the revision.

(D) An ISP is authorized when:

(i) The signature of the individual, or as applicable the individual's legal or designated representative, is present on the ISP or documentation is present explaining the reason an individual who does not have a legal or designated representative may be unable to sign the ISP.

(I) Acceptable reasons for an individual without a legal or designated representative not to sign the ISP include physical or behavioral inability to sign the ISP.

(II) Unavailability is not an acceptable reason for an individual, or as applicable the individual's legal or designated representative, not to sign the ISP.

(III) In the case of a revision to an initial or annual ISP that is in response to immediate, unexpected change in circumstance, and is necessary to prevent injury or harm to the individual, documented verbal agreement may substitute for a signature for no more than 10 working days.

(ii) The signature of the personal agent involved in the development of, or revision to, the ISP is present on the ISP; and

(iii) A designated brokerage representative has reviewed the ISP for compliance with Department rules and policy.

(B) At least annually, as part of preparation for a new ISP, the personal agent must:

(i) Evaluate an individual's progress toward achieving the purposes of the ISP and assess and revise goals as needed;

(ii) Note effectiveness of the use of support services funds based on personal agent observation as well as individual satisfaction;

(iii) Determine whether changing needs or availability of other resources has altered the need for continued use of support services funds to purchase supports; and

(iv) Record final support services fund costs.

(11) ANNUAL PLANS. An Annual Plan must be completed for individuals who do not access waiver or Community First Choice services.

(a) The Annual Plan must be completed within 60 days of an individual's enrollment into support services.

(C) A summary of the individual's support needs; and

(D) Actions to be taken by the personal agent and others.

(12) PROFESSIONAL OR OTHER SERVICE PLANS.

(a) A Nursing Care Plan must be attached to an ISP when support services funds are used to purchase services requiring the education and training of a licensed professional nurse.

(b) A Support Services Brokerage Crisis Addendum, or other document prescribed by the Department for use in these circumstances, must be attached to the ISP when an individual enrolled in a brokerage is in emergent status in a short-term, out-of-home, residential placement as part of the individual's crisis diversion services.

(13) TRANSITION TO ANOTHER BROKERAGE. At the request of an individual enrolled in brokerage services who has selected another brokerage, or as applicable the individual's legal or designated representative, the brokerage must collaborate with the receiving brokerage and the CDDP of the individual's county of residence to transition support services.

(a) If the Department has designated and contracted funds solely for the support of the transitioning individual, the brokerage must notify the Department to consider transfer of the funds for the individual to the receiving brokerage.

(b) The ISP in place at the time of request for transfer may remain in effect 90 days after entry to the new brokerage while a new ISP is negotiated and authorized.

Crisis Supports in Support Services

(1) The brokerage must, in conjunction with its Regional Crisis Diversion Program, attempt to provide supports that mediate a crisis risk factor for adults who are:

(a) Entered in support services; and

(b) Determined to be in crisis as described in section (2) of this rule.

(2) CRISIS DETERMINATION.

(a) An individual enrolled in support services is eligible for crisis diversion services when:

(A) A brokerage has referred an individual to the Regional Crisis Diversion Program because the brokerage has determined that one or more of the following crisis risk factors, not primarily related to a significant mental or emotional disorder or substance abuse, are present and for which no appropriate alternative resources are available:

(i) An individual is not receiving necessary supports to address life-threatening safety skill deficits;

(ii) An individual is not receiving necessary supports to address life-threatening issues resulting from behavioral or medical conditions;

(iii) An individual currently engages in self-injurious behavior serious enough to cause injury that requires professional medical attention;

(iv) An individual undergoes, or is at imminent risk of undergoing, loss of primary caregiver due to the primary caregiver's inability to provide supports;

(v) An individual experiences a loss of home due to a protective service action; or

(vi) An individual is not receiving the necessary supports to address significant safety risks to others, including but not limited to:

(I) A pattern of physical aggression serious enough to cause injury;

(II) Fire-setting behaviors; or

(III) Sexually aggressive behaviors or a pattern of sexually inappropriate behaviors.

(B) The Regional Crisis Diversion Program has determined crisis eligibility according to OAR 411-320-0160; and

(C) The individual's ISP has been revised to address the identified crisis risk factors and the revisions:

(i) May resolve the crisis; and

(ii) May not contribute to new or additional crisis risk factors.

(b) A functional needs assessment must be completed for any individual determined to be in crisis as described in this section of this rule.

(3) CRISIS SUPPORTS.

(a) An ISP for an individual in emergent status may authorize short-term, out-of-home, residential placement. Residential placement does not exit an individual from support services.

(b) The individual's personal agent must:

(A) Participate with the Regional Crisis Diversion Program staff in efforts to stabilize supports and return costs to the individual's benefit level;

(B) Assist with the identification of qualified providers who may be paid in whole, or in part, using crisis diversion funding except in the case of short-term, out-of-home, residential placements with a licensed or certified provider;

(C) Complete and coordinate the Support Services Brokerage Crisis Addendum when an individual in emergent status requires a short-term, out-of-home, residential placement; and

(D) Monitor the delivery of supports provided, including those provided through crisis funding.

(i) Monitoring is done through contact with the individual, any providers, and the individual's legal or designated representative and family (as applicable).

(ii) Monitoring is done to collect information regarding supports provided and progress toward outcomes that are identified as necessary to resolve the crisis.

(iii) The personal agent must document the information described in subparagraph (ii) of this paragraph in the individual's record and report to the Regional Crisis Diversion Program or CDDP as required.

(c) Support services provided during emergent status are subject to all requirements of this rule.

(d) All supports authorized in an ISP continue during the crisis unless prohibited by other rule, policy, or the supports contribute to new or additional crisis risk factors.

(4) TRANSITION TO COMPREHENSIVE SERVICES. When an individual eligible for crisis supports may have long-term support needs that may not be met through support services:

(a) The brokerage must immediately notify the CDDP of the individual's county of residence;

(b) The brokerage must coordinate with the CDDP and the Regional Crisis Diversion Program to facilitate a timely exit from support services and entry into appropriate, alternative services; and

(c) The brokerage must assure that information required for a potential provider of comprehensive services is available as needed for a referral to be made.

Using Support Services Funds to Purchase Supports

(1) A brokerage may use support services funds to assist individuals to purchase supports in accordance with an ISP when:

(a) Supports are necessary for an individual to live in the individual's own home or in the individual's family home;

(b) For an individual who has not had a service level determined, a functional needs assessment has determined the individual's support needs;

(c) An enrolled individual meets the criteria for level of care;

(d) An enrolled individual is eligible for OSIP-M;

(e) Cost-effective arrangements for obtaining the required supports, applying public, private, formal, and informal resources available to the eligible individual are specified in the individual's ISP;

(A) Support services funds are not intended to replace the resources available to an individual from the individual's natural supports. Support services funds may be authorized only when the individual's natural supports are unavailable, insufficient, or inadequate to meet the needs of the individual.

(B) Support services funds are not available when an individual's support needs may be met by alternative resources. Support services funds may be authorized only when alternative resources are unavailable, insufficient, or inadequate to meet the needs of the individual.

(f) For an individual who has not had a service level determined, the ISP projects the amount of support services funds, if any, that may be

required to purchase the remainder of necessary supports that are within the benefit level; and

(g) The ISP has been authorized for implementation.

(2) A brokerage may use support services funds to assist individuals that do not meet the criteria in section (1)(c) or (1)(d) of this rule in the following circumstances:

(a) The individual meets the crisis criteria described in OAR 411-340-0125; or

(b) Up to the individual's 18th birthday, the individual was receiving children's intensive in-home services as described in OAR chapter 411, division 300 or in-home supports as described in OAR chapter 411, division 308.

(3) An individual is no longer eligible to access support services funds when the individual is eligible for support services funds based on section (2)(b) of this rule and:

(a) The individual does not apply for a disability determination and OSIP-M within 10 business days of the individual's 18th birthday;

(b) The Social Security Administration or the Department's Presumptive Medicaid Disability Determination Team finds that the individual does not have a qualifying disability; or

(c) The individual is determined by the state of Oregon to be ineligible for OSIP-M.

(4) Goods and services purchased with support services funds on behalf of individuals are provided only as social benefits.

(5) LIMITS OF FINANCIAL ASSISTANCE. For individuals who have not had a service level determined, the use of support services funds to purchase individual supports in any plan year is limited to the individual's annual benefit level.

(a) An individual must have access throughout the plan year to the total annual amount of support services for which they are eligible that are determined to be necessary to implement an authorized ISP, even if there is a delay in implementation of the ISP, unless otherwise agreed to in writing by the individual or the individual's legal or designated representative (as applicable).

(b) The Department may require that annual benefit level amounts be calculated and applied on a monthly basis when an individual's eligibility for Medicaid changes during a plan year, an individual's benefit level changes, or when an individual's ISP is developed and written to be in effect for less than 12 months.

(A) When an individual's benefit level changes, except in the case of an individual whose benefit level changes as the result of a change in eligibility for access to support services funds, the monthly benefit level is 1/12 of the annual benefit level for which the individual would be eligible should the change in benefit level remain in effect for 12 calendar months. The monthly benefit level is applied each month from the date the change in benefit level occurred for the remainder of the plan year.

(B) In the case of an individual with an ISP developed for a partial plan year, the monthly benefit level is 1/12 of the annual benefit level for which the individual would be eligible should the individual's ISP be in effect for 12 calendar months. The monthly benefit level is applied each month during which the ISP developed for a partial plan year is in effect.

(6) EXCEPTIONS TO BASIC BENEFIT FINANCIAL LIMITS.

(a) Exceptions to the basic benefit annual support services fund limits described in this section do not apply to individuals who have had a service level determined. Existing individual's exceptions to the basic benefit may remain until a service level is determined for the individual. No new exceptions to the basic benefit level are allowed.

(b) Individuals whose source of support funds are in whole, or in part, an individual-specific redirection of funds through a Department contract from a Department-regulated residential, work, or day habilitation service to support services funds, or to comprehensive in-home support funds regulated by OAR chapter 411, division 330 prior to entry to a brokerage, may have access to the amount specified in the Department contract as available for the individual's use. This provision is only applicable when each transition is separate and specific to the individual and the services being converted are not subject to statewide service transitions.

(A) Individual plan year costs must always be less than the individual cost limit; and

(B) The brokerage must review the need for supports and their cost-effectiveness with the individual, and as applicable the individual's legal or designated representative, at least annually and must make budget reductions when allowed by the individual's ISP.

(c) Individuals whose support funds were specifically assigned through a Department contract to self-directed support services prior to the date designated by the Department for transfer of the individual from self-directed support services to a brokerage, may have access to the amount specified in the Department contract as available for the individual's use.

(A) Individual plan year costs must always be less than the individual cost limit; and

(B) The brokerage must review the need for supports and their cost-effectiveness with the individual, and as applicable the individual's legal or designated representative, at least annually and must make budget reductions when allowed by the individual's ISP.

(d) Medicaid recipients may have access to a basic supplement for ADLs to purchase needed support services under the following conditions:

(A) The individual must have additional assistance needs with ADLs after development of the individual's ISP within the basic benefit, extraordinary long-term need fund limit, or other exceptions provided in this rule. ADLs include:

(i) Basic personal hygiene, providing or assisting with such needs as bathing (tub, bed bath, shower), hair care, grooming, shaving, nail care, foot care, dressing, skin care, or oral hygiene;

(ii) Toileting, bowel, and bladder care, assisting to and from the bathroom, on and off toilet, commode, bedpan, urinal, or other assistive device used for toileting, changing incontinence supplies, following a toileting schedule, managing menses, cleansing an individual or adjusting clothing related to toileting, emptying a catheter drainage bag or assistive device, ostomy care, or bowel care;

(iii) Mobility, transfers, and repositioning, assisting with ambulation or transfers with or without assistive devices, turning an individual or adjusting padding for physical comfort or pressure relief, or encouraging or assisting with range-of-motion exercises;

(iv) Nutrition, preparing meals and special diets, assisting with adequate fluid intake or adequate nutrition, assisting with food intake (feeding), monitoring to prevent choking or aspiration, assisting with adaptive utensils, cutting food, and placing food, dishes, and utensils within reach for eating;

(v) Medication and medical equipment, assisting with ordering, organizing, and administering medications (including pills, drops, ointments, creams, injections, inhalers, and suppositories), monitoring for choking while taking medications, maintaining equipment, or monitoring for adequate medication supply; and

(vi) Delegated nursing tasks.

(B) Assistance means an individual requires help from another person with ADLs. Assistance may include cueing, monitoring, reassurance, redirection, set-up, hands-on, or standby assistance. Assistance may be provided through the use of electronic devices or other assistive devices. Assistance may also require verbal reminding to complete one of the tasks described in subsection (A) of this section.

(i) "Cueing" means giving verbal, audio, or visual clues during an activity to help an individual complete the activity without hands-on assistance.

(ii) "Hands-on" means a provider physically performs all or parts of an activity because an individual is unable to do so.

(iii) "Monitoring" means a provider observes an individual to determine if assistance is needed.

(iv) "Reassurance" means to offer an individual encouragement and support.

(v) "Redirection" means to divert an individual to another more appropriate activity.

(vi) "Set-up" means the preparation, cleaning, and maintenance of personal effects, supplies, assistive devices, or equipment so that an individual may perform an activity.

(vii) "Stand-by" means a provider is at the side of an individual ready to step in and take over the task if the individual be unable to complete the task independently.

(C) The supplement for ADLs must be used to meet identified support needs related to ADLs. The supplement for ADLs may also be used for the following services if they are incidental to the provision of ADLs, essential for the health and welfare of the individual, and provided solely for the individual receiving support services:

(i) Housekeeping tasks necessary to maintain the eligible individual in a healthy and safe environment, including cleaning surfaces and floors, making the individual's bed, cleaning dishes, taking out the garbage, dusting, and laundry. Only the housekeeping activities related to the eligible individual's needs may be considered in housekeeping;

(ii) Grocery and other shopping necessary for the completion of ADL and IADL tasks;

(iii) Assistance with necessary medical appointments, including help scheduling appointments, arranging medical transportation services, follow

up from appointments, or assistance with mobility, transfers, or cognition in getting to and from appointments;

(iv) Observation of an individual's status and reporting of significant changes to physicians, health care professionals, or other appropriate people;

(v) First aid and handling emergencies, including addressing medical incidents related to conditions such as seizures, aspiration, constipation, or dehydration or responding to an individual's call for help during an emergent situation or for unscheduled needs requiring immediate response ; and

(vi) Cognitive assistance or emotional support provided to an individual due to the individual's intellectual or developmental disability, including helping the individual cope with change and assisting the individual with decision-making, reassurance, orientation, memory, or other cognitive functions.

(D) The supplement for ADL support may not be used for any of the following services:

(i) Shopping;

(ii) Transportation;

(iii) Money management;

(iv) Mileage reimbursement;

(v) Social companionship; or

(vi) Relief care.

(E) Activities and goals related to the provision of ADL services must be sufficiently documented in the individual's ISP.

(F) Planned expenses must be based upon the least costly means of providing adequate services and must only be to the extent necessary to meet the documented ADL needs.

(G) The supplement for ADLs may not cause the cost per any plan year to exceed the individual cost limit. There is an exception for individuals receiving both support services under these rules who had a benefit level at the individual cost limit and state plan personal care services under OAR chapter 411, division 034, as of June 30, 2005. These individuals may continue to access the basic supplement and the supplement for ADLs until the individual terminates their receipt of support services or becomes ineligible for one of the supplements. The combined basic benefit, the basic supplement, and supplement for ADLs must remain above the individual cost limit to remain eligible for this exception.

(H) For Medicaid recipients receiving state plan personal care services under OAR chapter 411, division 034 entering support services after June 30, 2005, the Medicaid Personal Care Assessment (Form SDS 0531A) serves as the individual's authorized ISP for a period not to exceed 90 days.

(I) The supplemental ADL services are not intended to replace the resources available to an individual receiving support services under these rules from their natural supports.

(7) AMOUNT, METHOD, AND SCHEDULE OF PAYMENT.

(a) The brokerage must disburse, or arrange for disbursement of, support services funds to qualified providers on behalf of individuals in the amount required to implement an authorized ISP. The brokerage is specifically prohibited from reimbursement of individuals or individuals' families for expenses related to services and from advancing funds to individuals or individuals' families to obtain services.

(b) The method and schedule of payment must be specified in written agreements between the brokerage and the individual or the individual's legal or designated representative (as applicable).

(8) TYPES OF SUPPORTS PURCHASED. For ISPs that have not been developed based on a service level determined by a functional needs assessment, supports eligible for purchase with support services funds are:

(a) Chore services. Chore services may be provided only in situations where no one else in the household is capable of either performing or paying for the services and no other relative, caregiver, landlord, community, volunteer agency, or third-party payer is capable of or responsible for providing these services;

(B) Family training may not be provided to paid care providers.

(e) Homemaker services. Pediatric Nursing Facilities

(1) PEDIATRIC NURSING FACILITY.

(a) A pediatric nursing facility is a licensed nursing facility at least 50 percent of whose residents entered the facility before the age of 14 and all of whose residents are under the age of 21.

(b) A nursing facility that meets the criteria of subsection (1)(a) of this section is reimbursed as follows:

(A) The pediatric rate is a prospective rate and is not subject to settlement. The Department uses financial reports of facilities that have been in operation for at least 180 days and are in operation as of June 30.

(B) The facility specific pediatric cost per resident day is inflated by the annual change in the DRI Index as measured in the previous 4th quarter. The Oregon Medicaid pediatric days are multiplied by the inflated facility specific cost per resident day for each pediatric facility. The totals are summed and divided by total Oregon Medicaid days to establish the weighted average cost per pediatric resident day. The rebase relationship percentage of 93 percent is applied to the weighted average cost to determine the pediatric rate.

(c) Even though pediatric facilities are reimbursed in accordance with subsection (1)(b) of this section, pediatric facilities must comply with all requirements relating to the timely submission of Nursing Facility Financial Statements.

(2) LICENSED NURSING FACILITY WITH A SELF-CONTAINED PEDIATRIC UNIT.

(a) A nursing facility with a self-contained pediatric unit is a licensed nursing facility that provides services for pediatric residents (individuals under the age of 21) in a separate and distinct unit within or attached to the facility with staffing costs separate and distinct from the rest of the nursing facility. All space within the pediatric unit must be used primarily for purposes related to the services of pediatric residents and alternate uses may not interfere with the primary use.

(b) A nursing facility that meets the criteria of subsection (2)(a) of this section is reimbursed for pediatric residents served in the pediatric unit as described in section (1) of this rule.

(c) Licensed nursing facilities with a self-contained pediatric unit must comply with all requirements relating to the timely submission of Nursing Facility Financial Statements and must file a separate attachment, on forms prescribed by the Department, related to the costs of the self-contained pediatric unit.

Proctor care residential services were not included as a waiver or Community First Choice State plan option because of concerns regarding third party payments to proctor care providers as well as the potential for violations for the payment of bundled rates under the Social Security Act. Statement of Purpose

The rules in OAR chapter 411, division 335 prescribe administrative, policy, procedure, documentation, and personnel requirements for proctor agencies providing intensive, person focused services to individuals with developmental disabilities experiencing significant emotional, medical, or behavioral difficulties. Proctor providers are specially trained and supported by the proctor agency. Proctor providers assist the individual in a home environment to make positive changes in the individual's adaptive skills that shall enable the individual to move to a less restrictive setting. These rules, in addition to the rules in OAR chapter 411, division 323, also prescribe standards and procedures by which the Department endorses proctor agencies to safely operate and oversee proctor care homes and provide training and support to children with developmental disabilities.

Subject: The Department of Human Services is permanently amending the rules in OAR chapter 411, division 300 for the Children's Intensive In-home Services Behavior Program.
Rules Coordinator: Christina Hartman—(503) 945-6398

411-300-0100
Purpose

(1) The rules in OAR chapter 411, division 300 establish the policy of, and prescribe the standards and procedures for, the provision of children's intensive in-home services (CIIS) for children in the ICF/MR Behavioral Waiver. These rules are established to ensure that CIIS augment and support independence, empowerment, dignity, and development of children through the provision of flexible and efficient services to eligible families.

(2) CIIS are exclusively intended to enable a child with an intellectual or developmental disability and intense behaviors to have a permanent and stable familial relationship. CIIS are intended to support, not supplant, a child's natural supports and services provided by the child's family and provide the support necessary to enable the family to meet the needs of caring for a child who meets the eligibility criteria for CIIS.

Eligibility

(1) ELIGIBILITY. In order to be eligible for CIIS, a child must:

(a) Be under the age of 18;

(b) Be an Oregon resident who meets the citizenship and alien status requirements of OAR 461-120-0110;

(c) Be eligible for OSIP-M;

(d) Be eligible to receive Title XIX (Medicaid);

(e) Be determined eligible for developmental disability services by the CDDP of the child's county of residence as described in OAR 411-320-0080;

(f) After completion of an assessment, meet the level of care as defined in OAR 411-300-0110;

(g) Be accepted by the Department by scoring greater than 200 on the behavior criteria within two months of starting services. To remain eligible, a child must maintain a score above 150 as determined during an annual re-eligibility assessment;

(h) Reside in the family home; and

(i) Be capable of being safely served in the family home. This includes but is not limited to the child's primary caregiver demonstrating the willingness, skills, and ability to provide direct care as outlined in the child's ISP in a cost effective manner, as determined by the services coordinator within the limitations of OAR 411-300-0150, and participate in planning, monitoring, and evaluation of the CIIS provided.

(2) INELIGIBILITY. A child is not eligible for CIIS if the child:

(a) Resides in a hospital, school, sub-acute facility, nursing facility, intermediate care facility for individuals with intellectual or developmental disabilities (formerly referred to as ICF/MR), residential facility, foster home, or other institution;

(b) Does not require waiver services, Community First Choice state plan services, or has sufficient family, government, or community resources available to provide for his or her care; or

(c) Is not safely served in the family home as described in section (1)(i) of this rule.

(3) TRANSITION. A child whose score on the behavior criteria remains at 150 or less is transitioned out of CIIS within 90 days and at the end of the 90 day transition period must exit.

(a) When possible and agreed upon by the child's parent and the services coordinator, CIIS are incrementally reduced during the 90 day transition period.

(b) A minimum of 30 days prior to exit, the services coordinator must coordinate and attend a transition planning meeting that includes a CDDP representative, the child's parent, and any other person at the parent's request.

(4) EXIT. A child must exit from CIIS if the child no longer meets the eligibility criteria in section (1) of this rule or if the child has been transitioned out as described in section (3) of this rule, except when the child's parent appeals a notice of intent to terminate services and requests continuing services as described in OAR 411-300-0210.

(5) WAIT LIST. If the allowable numbers of children on the ICF/MR Behavioral Waiver are already receiving services, the Department may place a child eligible for CIIS on a wait list. A child on the CIIS wait list may access other waiver, state plan personal care, or Community First Choice state plan services as determined eligible.

(a) The date the initial application for service is completed determines the order on the wait list. A child who was once served by CIIS, exited CIIS, reapplies, and currently meets all other criteria for eligibility, is put on the wait list as of the date the child's original application for services was complete.

(b) The date the application is complete is the date that the Department has the required demographic data on the child and a statement of developmental disability eligibility.

(c) Children on the wait list are served on a first come, first served basis as space on the ICF/MR Behavioral Waiver allows.

Plan of Care

(1) To develop an ISP, a services coordinator must complete a functional needs assessment using a person-centered planning approach and assess the service needs of the child. The assessment must take place in person and the services coordinator must interview the child's parent, other

caregivers, and when appropriate any other person at the parent's request. The assessment must:

(a) Take place in the child's family home with both the child and the child's primary caregiver present;

(b) Identify the services for which the child is currently eligible;

(c) Identify the services currently being provided; and

(d) Identify all available family, private health insurance, and government or community resources that meet any, some, or all of the child's needs.

(2) The services coordinator must prepare, with the input of the child's parent and any other person at the parent's request, a written ISP that identifies:

(a) The service needs of the child;

(b) The most cost effective services for safely and appropriately meeting the child's service needs; and

(c) The methods, resources, and strategies that address the child's service needs;

(3) The ISP must include:

(a) A description of the supports required, including the reason the support is necessary. The description must be consistent with the needs identified in the functional needs assessment;

(b) A list of personal, community, and public resources that are available to the child and how the resources may be applied to provide the required supports. Sources of support may include waiver services, state plan services, or natural supports;

(c) The maximum hours of provider services authorized for the child;

(d) The annual and monthly service level;

(e) The number of hours of attendant care or behavior consultation authorized for the child;

(f) Additional services authorized by the Department for the child:

(g) The projected date of when specific services are to begin and end, as well as the end date, if any, of the period of service covered by the ISP;

(h) Projected costs with sufficient detail to support estimates;

(i) The manner in which services are delivered and the frequency of services;

(j) Service providers;

(k) The child's strengths and preferences;

(l) If the child has a determined service level, the clinical and support needs as identified through the functional needs assessment;

(m) Individually identified goals and desired outcomes;

(n) The services and supports (paid and unpaid) to assist the child to achieve identified goals and the providers of the services and supports, including voluntarily provided natural supports;

(o) The risk factors and the measures in place to minimize the risk factors, including back-up plans;

(p) The identity of the person responsible for case management and monitoring the ISP;

(q) The date of the next ISP review that, at a minimum, must be completed within 12 months of the last ISP;

(r) The Nursing Care Plan as a supporting document, when one exists;

(s) A provision to prevent unnecessary or inappropriate care; and

(t) If the child has a determined service level, any changes in support needs identified through a functional needs assessment.

(4) A child's ISP must be reviewed with the child's parent prior to implementation. The parent and the services coordinator must sign the ISP and a copy must be provided to the parent.

(5) The child's ISP is translated, as necessary, upon request.

(6) A services coordinator must reflect significant changes in the needs of a child in the child's ISP, as they occur, and provide a copy of the revised ISP to the child's parent. Changes in service needs funded by the Department must be consistent with needs identified in a functional needs assessment and documented in an amendment to the ISP that is signed by the parent and the services coordinator.

(7) The child's ISP must be renewed at least every 12 months. Each new plan year begins on the anniversary date of the initial or previous plan date.

Documentation Needs for Children's Intensive In-Home Services

(1) Accurate time sheets of CIIS must be dated and signed by the provider and the child's parent after the services are provided and maintained and submitted to the Department with any request for payment for services.

(2) Requests for payment of CIIS must:

(a) Include the billing form indicating prior authorization for the services;

(b) Be signed by the child's parent after the services were delivered, verifying that the services were delivered as billed; and

(c) Be signed by the provider or billing provider, acknowledging agreement with the terms and condition of the billing form and attesting that the hours were delivered as billed.

(3) Documentation of CIIS provided, including but not limited to daily activity logs as prescribed by the services coordinator, must be provided to the services coordinator upon request or as outlined in the child's ISP and maintained in the child's family home or the place of business of the provider of services. The Department does not pay for services unrelated to a child's disability as outlined in the child's ISP.

(4) Daily activity logs must be completed by the provider for each shift worked and the responsibility to complete daily activity logs must be listed in the provider's job description.

(5) The Department retains billing forms and timesheets for at least five years from the date of CIIS.

(6) Behavior consultants must submit the following to the Department written in clear, concrete language understandable to the child's parent and the provider:

(a) An evaluation of the child, the parent's concerns, the environment of the child, current communication strategies used by the child and used by others with the child, and any other disability of the child that may impact the appropriateness of strategies to be used with the child; and

(9) Access to records by the Department, including but not limited to medical, nursing, behavior, psychiatric, or financial records, and specifically including logs and records by providers and vendors providing goods and services, does not require authorization or release by the child or the child's parent.

Payment for Children's Intensive In-Home Services

(1) Payment is made after CIIS are delivered as authorized and required documentation is received by the services coordinator.

(2) Effective July 28, 2009, payment may not support, in whole or in part, a provider in any capacity having contact with a recipient of CIIS who has been convicted of any of the disqualifying crimes listed in OAR 407-007-0275.

(3) Section (2) of this rule does not apply to employees of a child's parent or a billing provider who were hired prior to July 28, 2009 that remain in the current position for which the employee was hired.

(4) Service levels are individually negotiated by the Department based on the individual needs of the child.

(5) Authorization must be obtained prior to the delivery of any CIIS for those services to be eligible for payment.

(6) Providers must request payment authorization for CIIS provided during an unforeseeable emergency on the first business day following the emergency service. The services coordinator must determine if the service is eligible for payment.

(7) The Department makes payment to the employee of the child's parent on behalf of the parent. The Department pays the employer's share of the Federal Insurance Contributions Act tax (FICA) and withholds the employee's share of FICA as a service to the parent, who is the employer.

(8) The delivery of authorized CIIS must occur so that any employee of the child's parent does not exceed 40 hours per work week. The Department does not authorize services that require the payment of overtime, without prior written authorization by the CIIS supervisor.

(9) The Department does not authorize or pay for any hours of CIIS provided by an individual provider beyond 16 hours in any 24-hour period. Exceptions require written authorization by the CIIS supervisor.

(10) Holidays are paid at the same rate as non-holidays.

(11) Travel time to reach the job site is not reimbursable.

(12) Requests for payments must be submitted to the Department within three months of the delivery of CIIS.

(13) Payment by the Department for CIIS is considered full payment for the services rendered under Medicaid. A provider or billing provider may not demand or receive additional payment for CIIS from the child's parent or any other source, under any circumstances.

(14) Medicaid funds are the payor of last resort. The provider or billing provider must bill all third party resources until all third party resources are exhausted.

(15) The Department reserves the right to make a claim against any third party payer before or after making payment to the provider of CIIS.

(16) The Department may void without cause prior authorizations that have been issued.

(17) Upon submission of the billing form for payment, the provider must comply with:

(a) All rules in OAR chapter 407 and chapter 411;

(b) 45 CFR Part 84 which implements Title V, Section 504 of the Rehabilitation Act of 1973;

(c) Title II and Title III of the Americans with Disabilities Act of 1991; and

(d) Title VI of the Civil Rights Act of 1964.

(18) All billings must be for CIIS provided within the provider's licensure.

(19) The provider must submit true and accurate information on the billing form. Use of a billing provider does not replace the provider's responsibility for the truth and accuracy of submitted information.

(20) No person shall submit to the Department:

(a) A false billing form for payment;

(b) A billing form for payment that has been, or is expected to be, paid by another source; or

(c) Any billing form for CIIS that have not been provided.

(21) The Department only makes payment to the enrolled provider who actually performs the CIIS or the provider's enrolled billing provider. Federal regulations prohibit the Department from making payment to collection agencies.

(22) Payments may be denied if any provisions of these rules are not complied with.

(23) The Department recoups all overpayments.

(a) The amount to be recovered:

(A) Is the entire amount determined or agreed to by the Department;

(B) Is not limited to the amount determined by criminal or civil proceedings; and

(C) Includes interest to be charged at allowable state rates.

(b) A request for repayment of the overpayment or notification of recoupment of future payments is delivered to the provider by registered or certified mail or in person.

(c) Payment schedules with interest may be negotiated at the discretion of the Department.

(d) If recoupment is sought from a child's parent, hearing rights in OAR 411-300-0210 apply.

Complaints

(1) COMPLAINTS. The Department shall address all complaints in accordance with the Department's written policies, procedures, and rules. Copies of the procedures for resolving complaints shall be maintained on file at the Department. At a minimum, these policies and procedures shall address:

(a) Informal resolution. The child's parent has an opportunity to informally discuss and resolve any complaint regarding action taken by the Department that is contrary to law, rule, or policy and that does not meet the criteria for an abuse investigation. Choosing an informal resolution does not preclude the parent from pursuing resolution through formal complaint processes.

(b) Receipt of complaints. The Department shall maintain a log of all complaints regarding the provision of CIIS received via phone calls, e-mails, or writing.

(A) At a minimum, the complaint log shall include:

(i) The date the complaint was received;

(ii) The name of the person taking the complaint;

(iii) The nature of the complaint;

(iv) The name of the person making the complaint, if known; and

(v) The disposition of the complaint.

(B) Child welfare and law enforcement reports of abuse or neglect shall be maintained separately from the central complaint and grievance log.

(c) Response to complaints. Department staff response to the complaint must be provided within five working days following receipt of the complaint and must include an investigation of the facts supporting or disproving the complaint. Any agreement to resolve the complaint must be in writing and must be specifically approved by the complainant. The Department shall provide the complainant with a copy of the agreement.

(d) Review. A manager of the Department must review the complaint if the complaint involves Department staff or services or if the complaint is not, or may not, be resolved with Department staff. The manager's response to the complaint must be made in writing within 30 days following receipt of the complaint and include a response to the complaint as described in subsection (1)(c) of this section.

(e) Third-party review when complaints are not resolved by a Department manager. Unless the complainant is a Medicaid recipient who has elected to initiate the hearing process according to OAR 411-300-0210, a complaint involving the provision of service or a service provider may be submitted to the Department for an administrative review.

(A) The complainant must submit to the Department a request for an administrative review within 15 days from the date of the decision by the Department manager.

(B) Upon receipt of a request for an administrative review, the Department's director shall appoint an Administrative Review Committee and name the chairperson. The Administrative Review Committee shall be comprised of two representatives of the Department. Committee representatives may not have any direct involvement in the provision of services to the complainant or have a conflict of interest in the specific case being reviewed.

(C) The Administrative Review Committee must review the complaint and the decision by the Department manager and make a recommendation to the Department's director within 45 days of receipt of the complaint, unless the complainant and the Administrative Review Committee mutually agree to an extension.

(D) The Department's director shall consider the report and recommendations of the Administrative Review Committee and make a final decision. The decision must be in writing and issued within 10 days of receipt of the recommendation by the Administrative Review Committee. The written decision must contain the rationale for the decision.

(E) The decision of the Department's director is final. Any further review is pursuant to the provision of ORS 183.484 for judicial review.

(f) Documentation of complaint. Documentation of each complaint and the resolution of the complaint must be filed or noted in the complainant's record.

(2) NOTIFICATION. Upon enrollment and annually thereafter, the Department must inform each child's parent orally and in writing, using language, format, and methods of communication appropriate to the parent's needs and abilities, of the following:

(a) The Department's complaint policy and procedures, including the right to an administrative review and the method to obtain an administrative review; and

(b) The right of a Medicaid recipient to a hearing pursuant to OAR 411-300-0210 and the procedure to request a hearing.

Denial, Termination, Suspension, Reduction, or Eligibility for Services for Individual Medicaid Recipients

(1) HEARING RIGHTS. Each time the Department takes an action to deny, terminate, suspend, or reduce a child's access to services covered under Medicaid, the Department shall notify the child's parent of the right to a hearing and the method to request a hearing. The Department shall mail the notice by certified mail or personally serve the notice to the parent 10 days or more prior to the effective date of the action.

(a) The Department shall use the Notice of Hearing Rights or a comparable Department-approved form. A notice of hearing rights is not required if an action is part of, or fully consistent with, a child's ISP, or the child's parent has agreed with the action by signature to the ISP. The notice of hearing rights shall be given directly to the parent when the ISP is signed.

(b) The child's parent may appeal a denial of a request for additional or different services only if the request has been made in writing and submitted to the address on the notice to expedite the process.

(c) A notice required by this section of this rule must include:

(A) The action the Department intends to take;

(B) The reasons for the intended action;

(C) The specific Oregon administrative rules that supports, or the change in federal or state law that requires, the action;

(D) The appealing party's right to request a hearing in accordance with OAR chapter 137, Oregon Attorney General's Model Rules, ORS Chapter 183, and 42 CFR Part 431, Subpart E;

(E) A statement that the Department files on the subject of the hearing automatically becoming part of the hearing record upon default for the purpose of making a prima facie case;

(F) A statement that the actions specified in the notice shall take effect by default if the Department representative does not receive a request for hearing from the party within 45 days from the date that the Department mails the notice of action;

(G) In cases of an action based upon a change in law, the circumstances under which a hearing shall be granted; and

(H) An explanation of the circumstances under which CIIS shall be continued if a hearing is requested.

(d) If the child's parent disagrees with the decision or proposed action of the Department to deny, terminate, suspend, or reduce a child's access to services covered under Medicaid, the parent may request a hearing as provided in ORS Chapter 183. The request for a hearing must be in writing on form DHS 443 and signed by the parent. The signed form (DHS 443) must be received by the Department within 45 days from the date of the Department's notice of action.

(e) The child's parent may request an expedited hearing if the parent feels that there is an immediate, serious threat to the child's life or health if the normal timing of the hearing process is followed.

(f) If the child's parent requests a hearing before the effective date of the proposed actions and requests that the existing services be continued, the Department shall continue the services.

(A) The Department shall continue the services until whichever of the following occurs first:

(i) The current authorization expires;

(ii) The administrative law judge issues a proposed order and the Department issues a final order; or

(iii) The child is no longer eligible for Medicaid benefits.

(B) The Department shall notify the child's parent that the Department is continuing the service. The notice shall inform the parent that if the hearing is resolved against the child, the Department may recover the cost of any services continued after the effective date of the continuation notice.

(g) The Department may reinstate services if:

(A) The Department takes an action without providing the required notice and the child's parent requests a hearing;

(B) The Department fails to provide the notice in the time required in this rule and the child's parent requests a hearing within 10 days of the mailing of the notice of action; or

(C) The post office returns mail directed to the child's parent but the location of the parent becomes known during the time that the child is still eligible for services.

(h) The Department shall promptly correct the action taken up to the limit of the original authorization, retroactive to the date the action was taken, if the hearing decision is favorable to the child or the Department decides in the child's favor before the hearing.

(i) The Department representative and the child's parent may have an informal conference, without the presence of the administrative law judge, to discuss any of the matters listed in OAR 137-003-0575. The informal conference may also be used to:

(A) Provide an opportunity for the Department and the child's parent to settle the matter;

(B) Ensure the child's parent understands the reason for the action that is the subject of the hearing request;

(C) Give the child's parent an opportunity to review the information that is the basis for that action;

(D) Inform the child's parent of the rules that serve as the basis for the contested action;

(E) Give the child's parent and the Department the chance to correct any misunderstanding of the facts;

(F) Determine if the child's parent wishes to have any witness subpoenas issued; and

(G) Give the Department an opportunity to review the Department's action.

(j) The child's parent may, at any time prior to the hearing date, request an additional conference with the Department representative. At the Department representative's discretion, the Department representative may grant an additional conference if the additional conference facilitates the hearing process.

(k) The Department may provide the child's parent the relief sought at any time before the final order is issued.

(l) A child's parent may withdraw a hearing request at any time prior to the issuance of a final order. The withdrawal shall be effective on the date the Department or the Office of Administrative Hearings receives the request for withdrawal. The Department shall issue a final order confirming the withdrawal to the last known address of the parent. The parent may cancel the withdrawal up to 10 working days following the date the final order is issued.

(2) PROPOSED AND FINAL ORDERS.

(a) In a contested case, the administrative law judge must serve a proposed order on the child and the Department.

(b) If the administrative law judge issues a proposed order that is adverse to the child, the child's parent may file an exception to the proposed order to be considered by the Department. The exception must be in writing and must be received by the Department no later than 10 days after service of the proposed order. The parent may not submit additional evidence after this period unless the Department grants prior approval.

(c) After receiving the exception, the Department may adopt the proposed order as the final order or may prepare a new order. Prior to issuing the final order, the Department may issue an amended proposed order.

(3) The provider or billing provider must submit relevant documentation to the Department within five working days at the request of the Department when a hearing has been requested.

Financial Limits of In-Home Support

(1) In any plan year, support must be limited to the amount of support determined to be necessary by a functional needs assessment and specified in a child's ISP or Annual Plan. For a child who is not Medicaid eligible, the amount of support specified in the child's Annual Plan may not exceed the maximum allowable monthly plan amount published in the Department's rate guidelines in any month during the plan year.

(2) Payment rates used to establish the limits of financial assistance for specific service in the child's Annual Plan must be based on the Department's rate guidelines for costs of frequently-used services. Department rate guidelines notwithstanding, final costs may not exceed local usual and customary charges for these services as evidenced by the CDDP's own documentation.

In-Home Support Entry, Duration, and Exit

(1) ENTRY. An eligible child may enter in-home support when in-home support needs are assessed through a functional needs assessment. In-home supports must be authorized on an annual basis, prior to the beginning of a new ISP or Annual Plan.

(2) DURATION OF SERVICES. Once a child has entered in-home support, the child and the child's family may continue receiving in-home supports from the CDDP until the child turns 18. The child must remain eligible for in-home support and in-home support funds must be available at the CDDP and authorized by the Department to continue services. The child's ISP or Annual Plan must be developed each year and kept current.

(3) CHANGE OF COUNTY OF RESIDENCE. If a child and the child's family move outside the CDDP's area of service, the originating CDDP must arrange for services purchased with in-home support funds to continue, to the extent possible, in the new county of residence. The originating CDDP must:

(a) Provide information about the need to apply for services in the new CDDP and assist the family with application for services if necessary; and

(b) Contact the new CDDP to negotiate the date on which the in-home support, including responsibility for payments, transfers to the new CDDP.

(4) EXIT. A child must leave a CDDP's in-home support --

(a) When the child no longer resides in the family home;

(b) At the written request of the child's parent or guardian to end the in-home supports;

(c) When the in-home supports are no longer necessary to prevent out-of-home placement due to either;

(A) The risk of out of home placement no longer exists due to changes in either the child's support needs or the family's ability to provide the support; or

(B) Appropriate alternative resources become available, including but not limited to supports through children's intensive in-home services as defined in OAR 411-308-0020.

(d) On the child's 18th birthday;

(e) When the child and the child's family moves to a county outside the CDDP's area of service, unless transition services have been previously arranged and authorized by the CDDP as required in section (3) of this rule; or

(f) No less than 30 days after the CDDP has served written notice, in the language used by the family, of intent to terminate services because:

(A) The child's family either cannot be located or has not responded to repeated attempts by CDDP staff to complete the child's ISP or Annual Plan development and monitoring activities and does not respond to the notice of intent to terminate; or

(B) The CDDP has sufficient evidence that the child's family has engaged in fraud or misrepresentation, failed to use resources as agreed upon in the child's ISP or Annual Plan, refused to cooperate with documenting expenses, or otherwise knowingly misused public funds associated with in-home support.

Written Plan Required

(1) The CDDP must provide an annual planning process to assist families in establishing outcomes, determining needs, planning for supports, and reviewing and redesigning support strategies for all children eligible for in-home support. The planning process must occur in a manner that:

(a) Identifies and applies existing abilities, relationships, and resources while strengthening naturally occurring opportunities for support at home and in the community;

(b) Is consistent in both style and setting with the child's and the child's family's needs and preferences, including but not limited to informal interviews, informal observations in home and community settings, or formally structured meetings; and

(c) Includes completing a functional needs assessment using a person-centered planning approach.

(2) The CDDP, the child (as appropriate), and the child's family must develop a written ISP or Annual Plan for the child as a result of the planning process prior to purchasing supports with in-home support funds and annually thereafter. The child's ISP or Annual Plan must include but not be limited to:

(a) The eligible child's legal name and the name of the child's parent (if different than the child's last name) or the name of the child's guardian;

(e) Individually identified goals and desired outcomes;

(f) The services and supports (paid and unpaid) to assist the child to achieve identified goals and the providers of the services and supports, including voluntarily provided natural supports;

(g) The risk factors and the measures in place to minimize the risk factors, including back-up plans;

(h) The identity of the person responsible for case management and monitoring the ISP or Annual Plan; and

(i) A provision to prevent unnecessary or inappropriate care.

(4) The child's ISP or Annual Plan, or records supporting development of each child's ISP or Annual Plan, must include evidence that:

(a) When the child is not Medicaid eligible, in-home support funds are used only to purchase goods or services necessary to prevent the child from out-of-home placement, or to return the child from a community placement to the family home;

(b) The services coordinator has assessed the availability of other means for providing the supports before using in-home support funds, and other public, private, formal, and informal resources available to the child have been applied and new resources have been developed whenever possible;

(c) Basic health and safety needs and supports have been addressed, including but not limited to identification of risks, including risk of serious neglect, intimidation, and exploitation;

(6) The services coordinator must obtain and attach a Behavior Support Plan to the child's written ISP or Annual Plan when the Behavior Support Plan is implemented by the child's family or providers during the plan year.

(7) In-home supports may only be provided after the child's ISP or Annual Plan is developed as described in this rule, authorized by the CDDP, and signed by the child's parent or guardian.

(8) The services coordinator must review and reconcile receipts and records of purchased supports authorized by the child's ISP or Annual Plan and subsequent ISP or Annual Plan documents, at least quarterly during the plan year.

(9) At least annually, the services coordinator must conduct and document reviews of the child's ISP or Annual Plan and resources with the child's family as follows:

(a) Evaluate progress toward achieving the purposes of the child's ISP or Annual Plan;

(b) Record actual in-home support fund costs;

(c) Note effectiveness of purchases based on services coordinator observation as well as family satisfaction;

(d) Determine whether changing needs or availability of other resources have altered the need for specific supports or continued use of in-home supports; and

(e) For children who meet the crisis eligibility under OAR 411-308-0060(2), a review of the child's continued risk for out-of-home placement and the availability of alternate resources, including eligibility for children's intensive in-home services as defined in OAR 411-308-0020.

(10) When the eligible child and the child's family moves to a county outside the area of service, the originating CDDP must assist in-home support recipients by:

(a) Continuing in-home supports authorized by the child's ISP or Annual Plan which is current at the time of the move, if the support is available, until the transfer date agreed upon according to OAR 411-308-0070; and

Services must be provided according to each child's approved ISP or Annual Plan. The funds may only be used to purchase supports described in OAR 411-308-0120. Continuing need for services must be regularly reviewed according to the Department's procedures described in these rules.

(2) No child receiving in-home support may concurrently receive services through:

(a) Children's intensive in home services as defined in OAR 411-308-0020;

(b) Direct assistance or immediate access funds under family support; or

(3) Children receiving in-home support may receive short-term crisis diversion services provided through the CDDP or region. Children receiving in-home support may utilize family support information and referral services, other than direct assistance or immediate access funds, while receiving in-home support. The CDDP must clearly document the services and demonstrate that the services are arranged in a manner that does not allow duplication of funding.

Scope and Limitations of Medically Fragile Children's Services

(1) MFC services are intended to support, not supplant, the natural supports supplied by a child's primary caregiver. MFC services are not available to replace services provided by a primary caregiver or to replace other governmental or community services.

(2) The Department only authorizes MFC services to enable a child's primary caregiver to meet the needs of caring for a child on the Hospital Model Waiver. All MFC services funded by the Department must be based on the actual and customary costs related to best practice standards of care for children with similar disabilities.

(3) When multiple children in the same family home or setting qualify for MFC services, the same primary caregiver must provide services to all qualified children if services may be safely delivered by a single primary caregiver, as determined by the services coordinator.

(4) For an initial or annual ISP, MFC services may include a combination of the following waiver and other Medicaid services based upon the needs of a child as determined by a services coordinator and as consistent with the child's functional needs assessment:

(a) Community First Choice state plan services:

(A) Specialized consultation, including behavior consultation as described in section (5) of this rule;

(B) Community nursing services as described in section (6) of this rule;

(C) Environmental accessibility adaptations as described in section (7) of this rule;

(D) Attendant care as described in section (8) of this rule;

(E) Relief care as described in section (9) of this rule;

(F) Specialized equipment and supplies as described in section (10) of this rule;

(H) Community transportation as described in section (12) of this rule.

(b) Waiver services:

(A) Family training as described in section (13) of this rule;

(B) Special diet as described in section (14) of this rule; and

(C) Translation as described in section (15) of this rule.

(c) State plan services - Direct nursing services as described in section (16) of this rule.

(5) SPECIALIZED CONSULTATION – BEHAVIOR CONSULTATION. Behavior consultation is only authorized to support a child's primary caregiver in their caregiving role. Behavior consultation is only authorized, as needed, to respond to specific problems identified by a primary caregiver or a services coordinator. Behavior consultants must:

(a) Work with the child's primary caregiver to identify:

(A) Areas of a child's family home life that are of most concern for the child and the child's parent;

(B) The formal or informal responses the child's family or the provider has used in those areas; and

(b) Assess the child. The assessment must include:

(A) Specific identification of the behaviors or areas of concern;

(B) Identification of the settings or events likely to be associated with, or to trigger, the behavior;

(C) Identification of early warning signs of the behavior;

(D) Identification of the probable reasons that are causing the behavior and the needs of the child that are being met by the behavior, including the possibility that the behavior is:

(i) An effort to communicate;

(ii) The result of a medical condition;

(iii) The result of an environmental cause; or

(iv) The symptom of an emotional or psychiatric disorder.

(E) Evaluation and identification of the impact of disabilities (i.e. autism, blindness, deafness, etc.) that impact the development of strategies and affect the child and the area of concern; and

(c) Develop a variety of positive strategies that assist the child's primary caregiver and the provider to help the child use acceptable, alternative actions to meet the child's needs in the most cost effective manner. These strategies may include changes in the physical and social environment, developing effective communication, and appropriate responses by a primary caregiver and provider to the early warning signs.

(A) Interventions must be done in accordance with positive behavioral theory and practice as defined in OAR 411-350-0020.

(B) The least intrusive intervention possible must be used.

(C) Abusive or demeaning interventions must never be used.

(D) The strategies must be adapted to the specific disabilities of the child and the style or culture of the child's family.

(d) Develop emergency and crisis procedures to be used to keep the child and the child's primary caregiver and the provider safe. When interventions in the behavior of the child are necessary, positive, preventative, non-aversive interventions that conform to the Oregon Intervention System must be utilized;

(e) Develop a written Behavior Support Plan using clear, concrete language that is understandable to the child's primary caregiver and the provider that describes the assessment, strategies, and procedures to be used;

Complaints and Grievances

(1) COMPLAINTS AND GRIEVANCES. The Department shall address all grievances in accordance with Department written policies, procedures, and rules. Copies of the procedures for resolving grievances shall be maintained on file at the Department. These policies and procedures, at a minimum, shall address:

(a) The child's parent has an opportunity to informally discuss and resolve any complaint or grievance regarding action taken by the Department that is contrary to law, rule, or policy and that does not meet the criteria for an abuse investigation. Choosing an informal resolution does not preclude the parent from pursuing resolution through formal grievance processes.

(b) The Department shall maintain a log of all complaints regarding the provision of MFC services received via phone calls, e-mails, or writing.

(A) At a minimum, the complaint log shall include:

(i) The date the complaint was received;

(ii) The name of the person taking the complaint;

(iii) The nature of the complaint;

(iv) The name of the person making the complaint, if known; and

(v) The disposition of the complaint.

(B) Child welfare and law enforcement reports of abuse or neglect shall be maintained separately from the central complaint and grievance log.

(c) Response to complaints. Department staff response to the complaint must be provided within five working days following receipt of the complaint and must include an investigation of the facts supporting or disproving the complaint. Any agreement to resolve the complaint must be in writing and must be specifically approved by the grievant. The Department shall provide the grievant with a copy of the agreement.

(d) Review. A manager of the Department must review the complaint if the complaint involves Department staff or services, or if the complaint is not or may not be resolved with Department staff. The manager's response to the complaint must be made in writing within 30 days following receipt of the complaint, and include a response to the complaint as described in subsection (1)(c) of this section.

(e) Third-party review when complaints are not resolved by a Department manager. Unless the complainant is a Medicaid recipient who has elected to initiate the hearing process according to OAR 411-350-0118, a complaint involving the provision of service or a service provider may be submitted to the Department for an administrative review.

(A) The grievant must submit to the Department a request for an administrative review within 15 days from the date of the decision by the Department manager.

(B) Upon receipt of a request for an administrative review, the Department's director shall appoint an Administrative Review Committee and name the chairperson. The Administrative Review Committee shall be comprised of two representatives of the Department. Committee representatives may not have any direct involvement in the provision of services to the grievant or have a conflict of interest in the specific case being grieved.

(C) The Administrative Review Committee must review the complaint and the decision by the Department manager and make a recommendation to the Department's director within 45 days of receipt of the complaint unless the grievant and the Administrative Review Committee mutually agree to an extension.

(D) The Department's director shall consider the report and recommendations of the Administrative Review Committee and make a final decision. The decision must be in writing and issued within 10 days of receipt of the recommendation by the Administrative Review Committee. The written decision must contain the rationale for the decision.

(E) The decision of the Department's director is final. Any further review is pursuant to the provision of ORS 183.484 for judicial review.

(f) Documentation of complaint. Documentation of each complaint and the resolution of the complaint must be filed or noted in the complainant's record.

(2) NOTIFICATION. Upon enrollment and annually thereafter, the Department must inform each child's parent orally and in writing, using language, format, and methods of communication appropriate to the parent's needs and abilities, of the following:

(a) The Department's grievance policy and procedures, including the right to an administrative review and the method to obtain an administrative review; and

(b) The right of a Medicaid recipient to a hearing pursuant to OAR 411-350-0118 and the procedure to request a hearing.

Denial, Termination, Suspension, Reduction, or Eligibility of Services for Individual Medicaid Recipients

(1) Each time the Department takes an action to deny, terminate, suspend, or reduce a child's access to services covered under Medicaid, the Department shall notify the child's parent of the right to a hearing and the method to request a hearing. The Department shall mail the notice by cer-

tified mail, or personally serve the notice to the parent 10 days or more prior to the effective date of the action.

(a) The Department shall use the Notice of Hearing Rights or a comparable Department-approved form. A notice of hearing rights is not required if an action is part of, or fully consistent with, a child's ISP, or the child's parent has agreed with the action by signature to the ISP. The notice of hearing rights shall be given directly to the parent when the ISP is signed.

(b) The child's parent may appeal a denial of a request for additional or different services only if the request has been made in writing and submitted to the address on the notice to expedite the process.

(c) A notice required by this section of this rule must include:

(A) The action the Department intends to take;

(B) The reasons for the intended action;

(C) The specific Oregon Administrative Rules that supports, or the change in federal or state law that requires, the action;

(D) The appealing party's right to request a hearing in accordance with OAR chapter 137, Oregon Attorney General's Model Rules, ORS chapter 183, and 42 CFR Part 431, Subpart E;

(E) A statement that the Department files on the subject of the hearing automatically becoming part of the hearing record upon default for the purpose of making a prima facie case;

(F) A statement that the actions specified in the notice shall take effect by default if the Department representative does not receive a request for hearing from the party within 45 days from the date that the Department mails the notice of action;

(G) In cases of an action based upon a change in law, the circumstances under which a hearing shall be granted; and

(H) An explanation of the circumstances under which MFC services shall be continued if a hearing is requested.

(d) If the child's parent disagrees with the decision or proposed action of the Department to deny, terminate, suspend, or reduce a child's access to services covered under Medicaid, the parent may request a hearing as provided in ORS chapter 183. The request for a hearing must be in writing on Form DHS 443 and signed by the parent. The signed form (DHS 443) must be received by the Department within 45 days from the date of the Department's notice of action.

(e) The child's parent may request an expedited hearing if the parent feels that there is an immediate, serious threat to the child's life or health if the normal timing of the hearing process is followed.

(f) If the child's parent requests a hearing before the effective date of the proposed actions and requests that the existing services be continued, the Department shall continue the services.

(A) The Department shall continue the services until whichever of the following occurs first:

(i) The current authorization expires;

(ii) The administrative law judge issues a proposed order and the Department issues a final order; or

(iii) The child is no longer eligible for Medicaid benefits.

(B) The Department shall notify the child's parent that the Department is continuing the service. The notice shall inform the parent that, if the hearing is resolved against the child, the Department may recover the cost of any services continued after the effective date of the continuation notice.

(g) The Department may reinstate services if:

(A) The Department takes an action without providing the required notice and the child's parent requests a hearing;

(B) The Department fails to provide the notice in the time required in this rule and the child's parent requests a hearing within 10 days of the mailing of the notice of action; or

(C) The post office returns mail directed to the child's parent but the location of the parent becomes known during the time that the child is still eligible for services.

(h) The Department shall promptly correct the action taken up to the limit of the original authorization, retroactive to the date the action was taken, if the hearing decision is favorable to the child, or the Department decides in the child's favor before the hearing.

(i) The Department representative and the child's parent may have an informal conference without the presence of the administrative law judge to discuss any of the matters listed in OAR 137-003-0575. The informal conference may also be used to:

(A) Provide an opportunity for the Department and the child's parent to settle the matter;

(B) Ensure the child's parent understands the reason for the action that is the subject of the hearing request;

(C) Give the child's parent an opportunity to review the information that is the basis for that action;

(D) Inform the child's parent of the rules that serve as the basis for the contested action;

(E) Give the child's parent and the Department the chance to correct any misunderstanding of the facts;

(F) Determine if the child's parent wishes to have any witness subpoenas issued; and

(G) Give the Department an opportunity to review the Department's action.

(j) The child's parent may, at any time prior to the hearing date, request an additional conference with the Department representative. At the Department representative's discretion, the Department representative may grant an additional conference if the additional conference facilitates the hearing process.

(k) The Department may provide the child's parent the relief sought at any time before the final order is issued.

(l) A child's parent may withdraw a hearing request at any time prior to the issuance of a final order. The withdrawal shall be effective on the date the Department or the Office of Administrative Hearings receives the request for withdrawal. The Department shall issue a final order confirming the withdrawal to the last known address of the parent. The parent may cancel the withdrawal up to 10 working days following the date the final order is issued.

(2) PROPOSED AND FINAL ORDERS.

(a) In a contested case, the administrative law judge must serve a proposed order on the child and the Department.

(b) If the administrative law judge issues a proposed order that is adverse to the child, the child's parent may file an exception to the proposed order to be considered by the Department. The exceptions must be in writing and must be received by the Department no later than 10 days after service of the proposed order. The child's parent may not submit additional evidence after this period unless the Department grants prior approval.

(c) After receiving the exceptions, if any, the Department may adopt the proposed order as the final order or may prepare a new order. Prior to issuing the final order, the Department may issue an amended proposed order.

(3) The provider or billing provider must submit relevant documentation to the Department within five working days at the request of the Department when a hearing has been requested.

Statement of Purpose

(1) The rules in OAR chapter 411, division 355 establish the policy of, and prescribe the standards and procedures for, the provision of services for children enrolled in the Medically Involved Children's Program.

(2) MICP services are exclusively intended to enable a child who meets the nursing facility level of care to return to the family home, or remain at the family home, with specialized supports and services. MICP services specifically preserve a parent's capacity to care for their child, assure the health and safety of the child within the family home, and enable a child who has been separated from their family due to their health and medical care needs to return to the family home to prevent out of home placement. MICP services complement and supplement the services that are available through the State Medicaid Plan and other federal, state, and local programs as well as the natural supports that families and communities provide.

Eligibility

(1) ELIGIBILITY. In order to be eligible for the MICP, a child must:

(a) Be under the age of 18;

(b) Be a U.S. citizen;

(c) Be eligible for OSIP-M;

(d) Be eligible to receive Title XIX (Medicaid) services;

(e) After completion of an assessment, meet the level of care as defined in OAR 411-355-0010;

(f) Be accepted by the Department by scoring 100 or greater on the medically involved criteria within four months of starting services;

(g) Require services offered under the MICP;

(h) Reside in the family home or reside in a nursing facility and wish to return to the family home; and

(i) Be capable of being safely served in the family home. This includes but is not limited to the child's primary caregiver demonstrating the willingness, skills, and ability to provide direct care as outlined in the child's ISP in a cost effective manner as determined by the service coordinator within the limitations of OAR 411-355-0040.

(2) INELIGIBILITY. A child is not eligible for the MICP if the child:

(a) Continues to reside in a hospital, school, sub-acute facility, nursing facility, intermediate care facility for individuals with intellectual or developmental disabilities (formerly referred to as ICF/MR), residential facility, foster home, or other institution;

(b) Does not require waiver services, Community First Choice state plan services, or has sufficient family, government, or community resources available to provide for his or her care; or

(c) Is not safely served in the family home as described in section (1)(i) of this rule.

(3) DISENROLLMENT. A child is disenrolled from the MICP when:

(a) The child no longer meets the medically involved criteria of section (1) of this rule; or

(b) The child's medically involved criteria score falls below 80.

(4) REDETERMINATION. The Department redetermines a child's eligibility for the MICP using the medically involved criteria at a minimum of every 12 months, or as the child's status changes.

(5) ENROLLMENT. If a child meets the criteria of section (1) of this rule and space is available in the MICP, the child's priority for enrollment is in accordance with ORS 417.345, CMS model waiver requirements, and geographical distribution for equal access to services. The date the initial application is complete is the date that the Department receives all of the required demographic and referral information on the child.

(6) WAIT LIST. If the allowable numbers of children in the MICP are already receiving services, the Department may place a child eligible for the MICP on a wait list. A child on the wait list may access other waiver, state plan personal care, or Community First Choice state plan services as determined eligible.

(a) The date the initial application for the MICP is completed determines the order on the wait list. A child previously enrolled in children's intensive in-home services that currently meets eligibility criteria and applies for the MICP is put on the wait list as of the date the child's original application for services was complete.

(b) Children on the wait list are served on a first come, first served basis according to the legislatively mandated enrollment priorities, per geographical region, and as space on the MICP allows.

(7) ASSESSMENT. Anyone may request an assessment for a child for MICP services.

Scope and Limitations of MICP Services

(1) MICP services are intended to support, not supplant, the natural supports supplied by a child's primary caregiver. MICP services are not available to replace services provided by a primary caregiver or to replace other governmental or community services.

(2) MICP services are only authorized to enable a child's primary caregiver to meet the needs of caring for a child on the Medically Involved Model Waiver. All services funded by the Department must be based on the actual and customary costs related to best practice standards of care for children with similar disabilities.

(3) When multiple children in the same family home or setting qualify for MICP services, the same provider must provide services to all qualified children if services may be safely delivered by a single provider, as determined by the services coordinator.

(4) To be authorized and eligible for payment by the Department, all MICP supports and services must be:

(a) Directly related to the child's disability;

(b) Required to maintain the health and safety of the child;

(c) Cost effective;

(d) Considered not typical for a child's parent to provide a child of the same age;

(e) Required to help the child's parent to continue to meet the needs of caring for the child; and

(f) Included in an approved ISP.

(5) For an initial or annual ISP, MICP services may include a combination of the following waiver and other Medicaid services based upon the needs of a child as determined by a services coordinator and as consistent with the child's functional needs assessment:

Payment for MICP Services

(1) The Department makes payment for MICP services, described in OAR 411-355-0040, after services are delivered as authorized and required documentation is received by the services coordinator.

(2) Effective July 28, 2009, public funds may not be used to support, in whole or in part, a provider in any capacity who has been convicted of any of the disqualifying crimes listed in OAR 407-007-0275.

(3) Section (2) of this rule does not apply to employees of a parent or billing provider who were hired prior to July 28, 2009 that remain in the current position for which the employee was hired.

(4) Service levels are individually negotiated by the Department, based on the individual needs of the child.

(5) Authorization must be obtained prior to the delivery of any MICP services for the services to be eligible for payment.

(6) Providers must request payment authorization for MICP services provided during an unforeseeable emergency on the first business day following the emergency service. The services coordinator determines if the service is eligible for payment.

(7) The Department makes payment to the individual employee of the parent on behalf of the parent. The Department pays the employer's share of the Federal Insurance Contributions Act (FICA) and withholds the employee's share of FICA as a service to the parent as the provider's employer.

(8) The delivery of authorized MICP services must occur so that any individual employee of the parent does not exceed 40 hours per work week. The Department does not authorize services that require the payment of overtime, without prior written authorization by the supervisor of children's intensive in-home services.

(9) The Department does not pay for any hours of MICP services provided by a provider beyond 16 hours in any 24-hour period unless the hours are part of a 24-hour service budget negotiated by the Department and there is evidence the child may be safely served with a 24-hour service budget. Exceptions require written authorization by the supervisor of children's intensive in-home services.

(10) Holidays are paid at the same rate as non-holidays.

(11) Travel time to reach the job site is not reimbursable.

(12) In order to be eligible for payment, requests for payments must be submitted to the Department within three months of the delivery of MICP services.

(13) Payment by the Department for MICP services is considered full payment for the services rendered under Title XIX. Under no circumstances may the provider or billing provider demand or receive additional payment for these services from the parent or any other source.

(14) Medicaid funds are the payor of last resort. The provider or billing provider must bill all third party resources until all third party resources are exhausted.

(15) The Department reserves the right to make a claim against any third party payer before or after making payment to the provider of MICP services.

(16) The Department may void without cause prior authorizations that have been issued.

(17) Upon submission of the billing form for payment, the provider must comply with:

(d) Title VI of the Civil Rights Act of 1964.

(18) All billings must be for MICP services provided within the provider's licensure.

(19) The provider must submit true and accurate information on the billing form. Use of a billing provider does not replace the provider's responsibility for the truth and accuracy of submitted information.

(20) No individual shall submit to the Department:

(a) A false billing form for payment;

(b) A billing form for payment that has been, or is expected to be, paid by another source; or

(c) Any billing form for MICP services that have not been provided.

(21) The Department only makes payment to the enrolled provider who actually performs the MICP services or the provider's enrolled billing provider. Federal regulations prohibit the Department from making payment to collection agencies.

(22) Payments may be denied if any provisions of these rules are not complied with.

(23) The Department recoups all overpayments.

(a) The amount to be recovered:

(A) Is the entire amount determined or agreed to by the Department;

(B) Is not limited to the amount determined by criminal or civil proceedings; and

(C) Includes interest to be charged at allowable state rates.

(b) A request for repayment of the overpayment or notification of recoupment of future payments is delivered to the provider by registered or certified mail or in person.

(c) Payment schedules with the interest may be negotiated at the discretion of the Department.

(d) If recoupment is sought from a parent whose child received MICP services, hearing rights in OAR 411-355-0110 apply.

(A) At a minimum, the complaint log shall include:

(i) The date the complaint was received;

(D) The Department's director shall consider the report and recommendations of the Administrative Review Committee and make a final decision. The decision must be in writing and issued within 10 days of receipt of the recommendation by the Administrative Review Committee. The written decision must contain the rationale for the decision.

(E) The decision of the Department's director is final. Any further review is pursuant to the provision of ORS 183.484 for judicial review.

(f) Documentation of each complaint and its resolution must be filed or noted in the grievant's record.

(G) In cases of an action based upon a change in law, the circumstances under which a hearing shall be granted; and

(H) An explanation of the circumstances under which MICP services shall be continued if a hearing is requested.

(d) If the parent disagrees with the decision or proposed action of the Department to deny, terminate, suspend, or reduce a child's access to services covered under Medicaid, the parent may request a hearing as provided in ORS chapter 183. The request for a hearing must be in writing on Form DHS 443 and signed by the parent. The signed form (DHS 443) must be received by the Department within 45 days from the date of the Department's notice of denial.

(e) The parent may request an expedited hearing if the parent feels that there is immediate, serious threat to the child's life or health should the normal timing of the hearing process be followed.

(f) If the parent requests a hearing before the effective date of the proposed actions and requests that the existing services be continued, the Department shall continue the services.

(h) The Department must promptly correct the action taken up to the limit of the original authorization, retroactive to the date the action was taken, if the hearing decision is favorable to the child, or the Department decides in the child's favor before the hearing.

(i) The Department representative and the parent may have an informal conference, without the presence of the administrative law judge, to discuss any of the matters listed in OAR 137-003-0575. The informal conference may also be used to:

(l) A parent may withdraw a hearing request at any time prior to the issuance of a final order. The withdrawal shall be effective on the date the Department or the Office of Administrative Hearings receives it. The Department must issue a final order confirming the withdrawal to the last known address of the child's parent. The child's parent may cancel the withdrawal up to 10 working days following the date the final order is issued.

(2) PROPOSED AND FINAL ORDERS.

The exceptions must be in writing and must be received by the Department no later than 10 days after service of the proposed order. The child's parent may not submit additional evidence after this period unless the Department grants prior approval.

(c) After receiving the exceptions, if any, the Department may adopt the proposed order as the final order or may prepare a new order. Prior to issuing the final order, the Department may issue an amended proposed order.

(3) The performing or billing provider must submit relevant documentation to the Department within five working days at the request of the Department when a hearing has been requested.

(10) ADVISORY COMMITTEE. Each CDDP must have an advisory committee.

(a) The advisory committee must meet at least quarterly.

(b) The membership of the advisory committee must be broadly representative of the community with a balance of age, sex, ethnic, socioeconomic, geographic, professional, and consumer interests represented. Membership must include advocates for individuals as well as individuals and the individuals' families.

(c) The advisory committee must advise the LMHA, CDDP director, and CDDP manager on community needs and priorities for services, and assist in planning, reviewing, and evaluating services, functions, duties, and quality assurance activities described in the CDDP's management plan.

(d) When the Department or a private corporation is operating the CDDP, the advisory committee must advise the LMHA, CDDP director, and CDDP manager on community needs and priorities for services, and assist in planning, reviewing, and evaluating services, functions, duties, and quality assurance activities described in the CDDP's management plan.

(e) The advisory committee may function as the disability issues advisory committee as described in ORS 430.625 if so designated by the LMHA.

(11) NEEDS ASSESSMENT, PLANNING, AND COORDINATION. Upon the Department's request, the CDDP must assess local needs for services to individuals and must submit planning and assessment information to the Department.

(12) CONTRACTS.

(a) If the CDDP, or any of the CDDPs services as described in the Department's contract with the LMHA, is not operated by the LMHA, there must be a contract between the LMHA and the organization operating the CDDP or the services, or a contract between the Department and the operating CDDP. The contract must specify the authorities and responsibilities of each party and conform to the requirements of the Department's rules pertaining to contracts or any contract requirement with regard to operation and delivery of services.

(b) The CDDP may purchase certain services for an individual from a qualified service provider without first providing an opportunity for competition among other service providers if the service provider is selected by the individual or the individual's family or legal or designated representative (as applicable).

(A) The service provider selected must also meet Department certification or licensing requirements to provide the type of service to be contracted.

(B) There must be a contract between the service provider and the CDDP that specifies the authorities and responsibilities of each party and conforms to the requirements of the Department's rules pertaining to contracts or any contract requirement with regard to operation and delivery of services.

(c) When a CDDP contracts with a public agency or private corporation for delivery of developmental disability services, the CDDP must include in the contract only terms that are substantially similar to model contract terms established by the Department. The CDDP may not add contractual requirements, including qualifications for contractor selection that are nonessential to the services being provided under the contract. The CDDP must specify in contracts with service providers that disputes arising from these limitations must be resolved according to the complaint procedures contained in OAR 411-320-0170. For purposes of this rule, the following definitions apply:

(A) "Model contract terms established by the Department" means all applicable material terms and conditions of the omnibus contract, as modified to appropriately reflect a contractual relationship between the service provider and CDDP and any other requirements approved by the Department as local options under procedures established in these rules.

(B) "Substantially similar to model contract terms" means that the terms developed by the CDDP and the model contract terms require the service provider to engage in approximately the same type activity and expend approximately the same resources to achieve compliance.

(C) "Nonessential to the services being provided" means requirements that are not substantially similar to model contract terms developed by the Department.

(d) As a local option, the CDDP may impose a requirement on a public agency or private corporation delivering developmental disability services under a contract with the CDDP that is in addition to or different from requirements specified in the omnibus contract if all of the following conditions are met:

(A) The CDDP has provided the affected contractors with the text of the proposed local option as it is to appear in the contract. The proposed local option must include:

(i) The date upon which the local option is to become effective; and

(ii) A complete written description of how the local option is to improve individual independence, productivity, or integration or the protection of individual health, safety, or rights;

(B) The CDDP has sought input from the affected contractors concerning ways the proposed local option impacts individual services;

(C) The CDDP, with assistance from the affected contractors, has assessed the impact on the operations and financial status of the contractors if the local option is imposed;

(D) The CDDP has sent a written request for approval of the proposed local option to the Department's director that includes:

(i) A copy of the information provided to the affected contractors;

(ii) A copy of any written comments and a complete summary of oral comments received from the affected contractors concerning the impact of the proposed local option; and

(iii) The text of the proposed local option as it is to appear in contracts with service providers, including the proposed date upon which the requirement is to become effective.

(E) The Department has notified the CDDP that the new requirement is approved as a local option for that program; and

(F) The CDDP has advised the affected contractors of their right and afforded them an opportunity to request mediation as provided in these rules before the local option is imposed.

(e) The CDDP may add contract requirements that the CDDP considers necessary to ensure the siting and maintenance of residential facilities in which individual services are provided. These requirements must be consistent with all applicable state and federal laws and regulations related to housing.

(f) The CDDP must adopt a dispute resolution policy that pertains to disputes arising from contracts with service providers funded by the Department and contracted through the CDDP. Procedures implementing the dispute resolution policy must be included in the contract with any such service provider.

(13) FINANCIAL MANAGEMENT.

(a) There must be up-to-date accounting records for each developmental disability service accurately reflecting all revenue by source, all expenses by object of expense, and all assets, liabilities, and equities. The accounting records must be consistent with generally accepted accounting principles and conform to the requirements of OAR 309-013-0120 to 309-013-0220.

(b) There must be written statements of policy and procedure as are necessary and useful to assure compliance with any Department adminis-

trative rules pertaining to fraud and embezzlement and financial abuse or exploitation of individuals.

(c) Billing for Title XIX funds must in no case exceed customary charges to private pay individuals for any like item or service.

(14) POLICIES AND PROCEDURES. There must be such other written and implemented statements of policy and procedure as necessary and useful to enable the CDDP to accomplish its service objectives and to meet the requirements of the contract with the Department, these rules, and other applicable standards and rules.

Program Responsibilities

The CDDP must ensure the provision of the following services and system supports.

(1) ACCESS TO SERVICES.

(a) In accordance with the Civil Rights Act of 1964 (codified as 42 USC 2000d et seq.), any person may not be denied community developmental disability services on the basis of race, color, creed, sex, national origin, or duration of residence. CDDP contractors must comply with Section 504 of the Rehabilitation Act of 1973 (codified as 29 USC 794 and as implemented by 45 CFR Section 84.4) that states in part, "No qualified person must, on the basis of handicap, be excluded from participation in, be denied benefits of, or otherwise be subjected to discrimination under any program or activity that receives or benefits from federal financial assistance".

(b) Any individual determined eligible for developmental disability services by the CDDP must also be eligible for other community developmental disability services unless admission to the service is subject to diagnostic or developmental disability category or age restrictions based on predetermined criteria or contract limitations.

(2) COORDINATION OF COMMUNITY SERVICES. Planning and implementation of services for individuals served by the CDDP must be coordinated between components of the CDDP, other local and state human service agencies, and any other service providers as appropriate for the needs of the individual.

(3) CASE MANAGEMENT SERVICES. The CDDP must provide case management services to individuals who are eligible for and desire services.

(a) The CDDP may provide case management to individuals who are waiting for a determination of eligibility and reside in the county at the time they apply.

(b) Case management may be provided directly by the CDDP or under a contract between the CDDP and a service provider of case management services.

(c) If an individual is receiving services in more than one county, the county of origin must be responsible for case management services unless otherwise negotiated and documented in writing with the mutually agreed upon conditions.

(d) Case management services require an impartial point of view to fulfill the necessary functions of planning, procuring, monitoring, and investigating. Except as allowed under subsection (e) of this section, the case management program must be provided under an organizational structure that separates case management from other direct services for individuals. This separation may take one of the following forms:

(A) The CDDP may provide case management and subcontract for delivery of other direct services through one or more different organizations; or

(B) The CDDP may subcontract for delivery of case management through an unrelated organization and directly provide the other services or further subcontract these other direct services through organizations that are not already under contract to provide case management services.

(e) The CDDP or other organization that provides case management services may also provide other direct services under one or more of the following circumstances:

(A) The CDDP coordinates the delivery of family support services for children under 18 years of age living at home with their family or comprehensive in-home supports for adults.

(B) The CDDP determines that an organization providing direct services is no longer able to continue providing services, or the organization providing direct service is no longer willing or able to continue providing services and no other organization is able or willing to continue operations on 30 days notice.

(C) In order to develop new or expanded direct services for geographic service areas or populations because other local organizations are unwilling or unable to provide appropriate services.

(f) If the CDDP intends to perform a direct service other than family support services or comprehensive in-home support, a variance must be prior authorized by the Department.

(A) It is assumed that the CDDP provides family support services or comprehensive in-home supports described in subsection (e)(A) of this section. If the CDDP does not provide one or both of these services, the CDDP must submit a written variance request to the Department for prior approval that describes how the services are to be provided.

(B) If the circumstances described in subsection (e)(B) of this rule exist, the CDDP must propose a plan to the Department for review, including action to assume responsibility for case management services and the mechanism for addressing potential conflict of interest.

(C) If the CDDP providing case management services delivers other services as allowed under subsection (e)(C) of this section, the CDDP must submit a written variance request to the Department for prior approval that includes the action to assume responsibility for case management services and the mechanism for addressing potential conflict of interest.

(g) If the CDDP providing case management services delivers other services as allowed under subsections (e)(B) and (e)(C) of this section, the CDDP must solicit other organizations to assume responsibility for delivery of these other services through a request for proposal (RFP) at least once every two years. When an RFP is issued, a copy must be sent to the Department. The Department must be notified of the results of the solicitation, including the month and year of the next solicitation if there are no successful applicants.

(h) If the CDDP wishes to continue providing case management and other direct services without conducting a solicitation as described in subsection (g) of this section, the CDDP must submit a written variance request to the Department for prior approval that describes how conflict of roles are to be managed within the CDDP.

(i) If the CDDP also operates a support services brokerage, the CDDP must submit a written variance request to the Department for prior approval that includes the mechanism for addressing potential conflict of interest.

(4) FAMILY SUPPORT SERVICES. The CDDP must ensure the availability of a program for family support services in accordance with OAR chapter 411, division 305.

(5) ABUSE AND PROTECTIVE SERVICES.

(a) The CDDP must assure that abuse investigations for adults with intellectual or developmental disabilities are appropriately reported and conducted by trained staff according to statute and administrative rules. When there is reason to believe a crime has been committed, the CDDP must report to law enforcement.

(b) The CDDP must report any suspected or observed abuse of a child directly to the Department or local law enforcement, when appropriate.

(6) FOSTER HOMES. The CDDP must recruit foster home applicants and maintain forms and procedures necessary to license or certify foster homes. The CDDP must maintain copies of the following records:

(a) Initial and renewal applications for a foster home;

(b) All inspection reports completed by the CDDP, including required annual renewal inspection and any other inspections;

(c) General information about the home;

(d) Documentation of references, classification information, credit check (if necessary), background check, and training for service providers and substitute caregivers;

(e) Documentation of foster care exams for adult foster home providers;

(f) Correspondence;

(g) Any meeting notes;

(h) Financial records;

(i) Annual agreement or contract;

(j) Legal notices and final orders for rule violations, conditions, denials, or revocations (if any); and

(k) Copies of the foster home's annual license or certificate.

(7) CONTRACT MONITORING. The CDDP must monitor all community developmental disability subcontractors to assure that:

(a) Services are provided as specified in the CDDP's contract with the Department; and

(b) Services are in compliance with these rules and other applicable Department rules.

(8) INFORMATION AND REFERRAL. The CDDP must provide information and referral services to individuals, individuals' families, and interested others.

(10) SERVICE DELIVERY COMPLAINTS. The CDDP must implement procedures to address individual or family complaints regarding service delivery that have not been resolved using the CDDP subcontractor's complaint procedures (informal or formal). Such procedures must be consistent with the requirements in OAR 411-320-0170.

(11) COMPREHENSIVE IN-HOME SUPPORTS. The CDDP must ensure the availability of comprehensive in-home supports for those individuals for whom the Department has funded such services. Comprehensive in-home supports must be in compliance with OAR chapter 411, division 330.

(12) EMERGENCY PLANNING. The CDDP must ensure the availability of a written emergency procedure and disaster plan for meeting all civil or weather emergencies and disasters. The emergency procedure and disaster plan must be immediately available to the CDDP manager and employees. The emergency procedure and disaster plan must:

(a) Be integrated with the county emergency preparedness plan, where appropriate;

(b) Include provisions on coordination with all developmental disability service provider agencies in the county and any Department offices, as appropriate;

Application and Eligibility Determination

(1) APPLICATION.

(a) To apply for developmental disability services, an applicant must use the Department required application and apply in the county of origin as defined in OAR 411-320-0020.

(A) If the applicant is an adult, the applicant must be an Oregon resident at the time of application.

(B) If the applicant is a minor child, the child's legal guardian and the minor child must be Oregon residents at the time of application.

(b) The application must be completed, signed, and dated before an eligibility determination is made.

(c) The date the CDDP receives the completed, signed, and dated application is the date of application for developmental disability services.

(d) A new application is required in the following situations:

(A) Following a closure, denial, or termination if the file has been closed for more than 12 months; or

(B) Following a closure, denial, or termination if the file has been closed for less than 12 months and the applicant does not meet all application requirements.

(2) FINANCIAL STATUS. The CDDP must identify whether the applicant receives any unearned income benefits.

(a) The CDDP must refer adults with no unearned income benefits to Social Security for a determination of financial eligibility.

(b) The CDDP must refer minor children to Social Security if it is identified that the minor child may qualify for Social Security benefits.

(3) ELIGIBILITY SPECIALIST. Each CDDP must identify at least one qualified eligibility specialist to act as a designee of the Department for purposes of making an eligibility determination. The eligibility specialist must meet performance qualifications and training expectations for determining developmental disability eligibility according to OAR 411-320-0030.

(4) QUALIFIED PROFESSIONAL DIAGNOSIS. Evaluation of information and diagnosis of intellectual disability and developmental disability must be completed by a qualified professional as defined in OAR 411-320-0020 who is qualified to make a diagnosis of the specific intellectual or developmental disability.

(5) INTELLECTUAL DISABILITY. A history demonstrating an intellectual disability, as defined in OAR 411-320-0020, must be in place by an individual's18th birthday for the individual to receive developmental disability services.

(a) Diagnosing an intellectual disability is done by measuring intellectual functioning and adaptive behavior as assessed by standardized tests administered by a qualified professional as described in section (4) of this rule.

(A) For individuals who have consistent IQ results of 65 and under, no assessment of adaptive behavior may be needed if current documentation supports eligibility.

(B) For individuals who have IQ results of 66-75, verification of an intellectual disability requires an assessment of adaptive behavior.

(b) The adaptive behavior impairments must be directly related to an intellectual disability and cannot be primarily attributed to other conditions, including but not limited to mental or emotional disorders, sensory impairments, substance abuse, personality disorder, learning disability, or ADHD.

(c) The condition or impairment must be expected to last indefinitely.

(6) OTHER DEVELOPMENTAL DISABILITY. A history of a developmental disability, as defined in OAR 411-320-0020, must be in place prior to an individual's 22nd birthday for the individual to receive developmental disability services.

(a) Other developmental disabilities include:

(A) Autism, cerebral palsy, epilepsy, or other neurological disabling conditions that originate in and directly affect the brain; and

(B) The individual must require training or support similar to that required by individuals with intellectual disability. For the purpose of this rule, "training or support similar to that required by individuals with intellectual disability" means an individual has a domain category or composite score that is at least two standard deviations below the mean, as measured on a standardized assessment of adaptive behavior administered by a qualified professional.

(b) IQ scores are not used in verifying the presence of a developmental disability. Diagnosing a developmental disability requires a medical or clinical diagnosis of a developmental disability with significant impairment in adaptive behavior, as defined in OAR 411-320-0020, related to the diagnosis.

(c) The adaptive behavior impairments must be directly related to the developmental disability and cannot be primarily attributed to other conditions, including but not limited to mental or emotional disorders, sensory impairments, substance abuse, personality disorder, learning disability, or ADHD.

(d) The condition or impairment must be expected to last indefinitely.

(7) PROVISIONAL ELIGIBILITY. Eligibility may be redetermined in the future when new information is obtained.

(a) Eligibility for children is always provisional.

(b) Eligibility may be provisional for adults between their 18th and 22nd birthdays if the individual's eligibility is based on an other developmental disability.

(8) ELIGIBILITY FOR CHILDREN. Eligibility documentation for children must be no more than three years old.

(a) Eligibility for children under 7 years of age must include:

(A) Standardized testing by a qualified professional or master's level trained early intervention evaluation specialist that demonstrates at least

two standard deviations below the norm in two or more areas of adaptive behavior, including but not limited to:

(iii) Learning;

(iv) Mobility;

(v) Self-direction; OR

(i) Self-care;

(ii) Receptive and expressive language;

(iii) Learning;

(iv) Mobility;

(v) Self-direction.

(b) Eligibility for school aged children.

(A) Eligibility for school aged children must include:

(i) School age documents that are no more than three years old.

(ii) Documentation of an intellectual disability as described in section (5) of this rule; or

(iii) A diagnosis and documentation of an other developmental disability as described in section (6) of this rule.

(B) School aged eligibility may be completed on individuals:

(i) Who are at least 5 years old and who have had school aged testing completed;

(ii) Up to age 18 for individuals who are provisionally eligible based on a condition of an intellectual disability; or

(iii) Up to age 22 for individuals who are provisionally eligible based on a condition of a developmental disability other than an intellectual disability.

(9) ELIGIBILITY FOR ADULTS.

(a) Eligibility for adults must include:

(A) There is no evidence of head trauma;

(B) There is no evidence or history of significant mental or emotional disorder; or

(C) There is no evidence or history of substance abuse.

(b) If there is evidence or a history of head trauma, significant mental or emotional disorder, or substance abuse, then a clinical impression by a qualified professional regarding how the individual's functioning may be impacted by the identified condition must be obtained in order to determine if the individual's significant impairment in adaptive behavior is directly related to a developmental disability and not primarily related to a head trauma, significant mental or emotional disorder, or substance abuse.

(11) REDETERMINATION OF ELIGIBILITY.

(a) The CDDP must notify the individual or the individual's legal representative anytime that a redetermination of eligibility is needed. Notification of the redetermination and the reason for the review of eligibility must be in writing and sent prior to the eligibility redetermination.

(b) Eligibility for school age children must be redetermined no later than age 7.

(c) Eligibility for adults must be redetermined by age 18 for an intellectual disability and by age 22 for developmental disabilities other than an intellectual disability.

(ii) Significant impairments in adaptive behavior that continue to be directly related to an intellectual disability; and

(iii) Current documentation continues to support eligibility.

(B) A current medical or clinical diagnosis of a developmental disability may not be needed if:

(ii) Significant impairments in adaptive behavior continue to be directly related to the developmental disability; and

(iii) Current documentation continues to support eligibility.

(C) An informal adaptive behavior assessment, as defined in OAR 411-320-0020, may be completed if all of the following apply:

(i) An assessment of adaptive behavior is required in order to redetermine eligibility;

(ii) An assessment of adaptive behavior has already been completed by a qualified professional; and

(iii) The individual has obvious significant adaptive impairments in adaptive behavior.

(12) SECURING EVALUATIONS.

(a) In the event that the eligibility specialist has exhausted all local resources to secure the necessary evaluations for an eligibility determination, the Department or the Department's designee shall assist in obtaining additional testing if required to complete the eligibility determination.

(b) In the event there is evidence that contradicts the information that an eligibility determination was based upon, the Department or the Department's designee may obtain additional information, including securing an additional evaluation for clarification purposes.

(13) PROCESSING ELIGIBILITY DETERMINATIONS. The CDDP in the county of origin is responsible for making the eligibility determination.

(a) The CDDP must work in collaboration with the individual to gather historical records related to the individual's intellectual or developmental disability.

(b) The CDDP must process eligibility for developmental disability services in the following time frames:

(A) The CDDP must complete an eligibility determination and issue a Notice of Eligibility Determination within 90 calendar days of the date that the application for services is received by the CDDP, except in the following circumstances:

(i) The CDDP may not make an eligibility determination because the individual or the individual's legal representative fails to complete an action;

(ii) There is an emergency beyond the CDDP's control; or

(iii) More time is needed to obtain additional records by the CDDP, the individual, or the individual's legal representative.

(B) The process of making an eligibility determination may be extended up to 90 calendar days by mutual agreement among all parties. Mutual agreement may be in verbal or written form. The CDDP must document the reason for the delay and type of contact made to verify the individual's agreement to an extension in the individual's service record.

(c) The CDDP must make an eligibility determination unless the following applies and is documented in the individual's progress notes:

(A) The individual or the individual's legal representative voluntarily withdraws the individual's application;

(B) The individual dies; or

(C) The individual cannot be located.

(d) The CDDP may not use the time frames established in subsection (b) of this section as:

(A) A waiting period before determining eligibility; or

(B) A reason for denying eligibility.

(14) NOTICE OF ELIGIBILITY DETERMINATION. The CDDP, based upon a review of the documentation used to determine eligibility, must issue a written Notice of Eligibility Determination to the individual and to the individual's legal representative.

(a) The Notice of Eligibility Determination must be sent or hand delivered within:

(15) REQUESTING A HEARING. As described in OAR 411-320-0175, an individual or the individual's legal representative may request a hearing if the individual or the individual's legal representative disagrees with the eligibility determination or redetermination made by the CDDP. The request for a hearing must be made by completing the DD Administrative Hearing Request (SDS 0443DD) within the timeframe identified on the Notice of Eligibility Determination.

(16) TRANSFERABILITY OF ELIGIBILITY DETERMINATION. An eligibility determination made by one CDDP must be honored by another CDDP when an individual moves from one county to another.

(a) The receiving CDDP must notify the individual, on forms prescribed by the Department, that a transfer of services to a new CDDP has taken place.

(c) In the event that the items in subsection (b) of this section cannot be located, written documentation from the sending CDDP verifying eligibility and enrollment in developmental disability services may be used. Written verification may include documentation from the Department's electronic payment system.

(d) If the receiving CDDP receives information that suggests the individual is not eligible for developmental disability services, the CDDP that determined the individual was eligible for developmental disability services may be responsible for the services authorized on the basis of that eligibility determination.

(e) If an individual submits an application for developmental disability services and discloses that he or she has previously received developmental disability services in another CDDP and the termination of case management services as described in OAR 411-320-0100(3) occurred within the past 12 months, the eligibility determination from the other CDDP shall transfer as outlined in this section of the rule.

(b) When an individual chooses case management services through a services coordinator, the CDDP must designate a services coordinator within five days following the individual's decision.

(c) When an individual is enrolled in a support services brokerage and moves from one CDDP geographic service area to another CDDP geographic service area, the new CDDP must enroll the individual in the Department's payment and reporting systems.

(E) An individual cannot be located after repeated attempts by letter and telephone.

(B) The individual dies;

(C) The individual is determined to be ineligible for developmental disability services in accordance with OAR 411-320-0080;

(D) The individual moves out of state or to another county in Oregon. Service Planning

((1) PRINCIPLES FOR SERVICE PLANNING. This rule prescribes standards for the development and implementation of an individual's ISP or Annual Plan. An ISP or Annual Plan must:

(a) Be developed using a person-centered process and in a manner that addresses issues of independence, integration, and productivity;

(b) Enhance the quality of life of the individual with intellectual or developmental disabilities; and

(c) Be consistent with the following principles:

(A) Personal control and family participation. While the service system reflects the value of family member participation in the planning process, adult individuals have the right to make informed choices about the level of family member participation. It is the intent of this rule to fully support the provision of education about personal control and decision-making to individuals who are receiving services.

(B) Choice and preferences. The planning process is critical in determining an individual's and the individual's family's preferences for services and supports. The preferences of the individual and the individual's family must serve to guide the ISP team. The individual's active participation and input must be facilitated throughout the planning process.

(C) Barriers. The planning process is designed to identify the types of services and supports necessary to achieve an individual's and the individual's family's preferences, identify the barriers to providing those preferred services, and develop strategies for reducing the barriers.

(D) Health and safety. The planning process must also identify strategies to assist an individual in the exercise of the individual's rights. This may create tensions between the freedom of choice and interventions necessary to protect the individual from harm. The ISP team must carefully nurture the individual's exercise of rights while being equally sensitive to protecting the individual's health and safety.

(E) Children in alternate living situations. When planning for children in 24-hour residential or foster care services, maintaining family connections is an important consideration. The following must apply:

(i) Unless contraindicated, there must be a goal for family reunification;

(ii) The number of moves or transfers must be kept to a minimum; and

(iii) If the placement of a child is distant from the child's family, the services coordinator must continue to seek a placement that brings the child closer to the child's family.

(2) FUNCTIONAL NEEDS ASSESSMENT. A services coordinator must complete a functional needs assessment for each individual at least annually. The functional needs assessment must be completed:

(a) Within 30 days following the assignment of an individual's services coordinator;

(b) Within 60 days prior to the authorization of a plan renewal; and

(c) Not more than 45 days from the date a functional needs assessment is requested by an individual or the individual's legal or designated representative (as applicable).

(3) INDIVIDUAL SUPPORT PLANS. Individuals enrolled in waiver or state plan services must have an ISP.

(a) A services coordinator and ISP team must develop an individual's ISP within 90 days of the individual's entry into comprehensive services and at least annually thereafter.

(b) Upon the request for a new functional needs assessment by an individual, or as applicable the individual's legal or designated representative, a services coordinator must revise the individual's ISP as needed within 30 days of the functional needs assessment. The revised ISP must be developed with the individual, the individual's legal or designated representative (as applicable), and other invited ISP team members.

(c) The CDDP must provide a written copy of the most current ISP to the individual, the individual's legal or designated representative (as applicable), and others as identified by the individual.

(d) An individual's ISP must address the individual's support needs identified in the functional needs assessment and be understandable to the individual with intellectual or developmental disabilities. The ISP or attached documents must include:

(A) The individual's name and the name of the individual's legal or designated representative (as applicable);

(B) A description of the supports required that is consistent with the individual's functional needs assessment, including the reason the support is necessary;

(C) The projected dates of when specific supports are to begin and end;

(D) A list of personal, community, and public resources that are available to the individual and how the resources may be applied to provide the required supports. Sources of support may include waiver services, state plan services, state general funds, or natural supports;

(E) The manner in which services are delivered and the frequency of services;

(F) Service providers;

(G) The setting in which the individual resides as chosen by the individual;

(H) The individual's strengths and preferences;

(I) The clinical and support needs as identified through the functional needs assessment;

(J) Individually identified goals and desired outcomes;

(K) The services and supports (paid and unpaid) to assist the individual to achieve identified goals and the providers of the services and supports, including voluntarily provided natural supports;

(L) The risk factors and the measures in place to minimize the risk factors, including back up plans;

(M) The identity of the person responsible for case management and monitoring the ISP;

(N) A provision to prevent unnecessary or inappropriate care; and

(O) The alternative settings considered by the individual.

(e) An individual's ISP must be finalized and agreed to in writing by the individual, the individual's legal or designated representative (as applicable), and others invited by the individual, including but not limited to service providers or other family members.

(f) A services coordinator must track the ISP timelines and coordinate the resolution of complaints and conflicts arising from ISP discussions.

(g) An ISP must be developed, implemented, and authorized as follows:

(A) FOSTER CARE AND 24-HOUR RESIDENTIAL SERVICES.

(i) A services coordinator must attend and assure that an annual ISP meeting is held for individuals receiving foster care or 24-hour residential services and any associated employment or alternatives to employment services.

(ii) A services coordinator must conduct the ISP for an individual receiving foster care or 24-hour residential services and any associated employment or alternatives to employment services.

(iii) If a child is in 24-hour residential services directly contracted with the Department, the child's ISP is coordinated by Department staff.

(iv) A services coordinator must ensure that the ISP for an individual receiving foster care or 24-hour residential services is developed and updated in accordance with Department guidelines.

(B) SUPPORTED LIVING SERVICES. A services coordinator must ensure the development of an annual ISP for an adult receiving supported living services and any associated employment or alternative to employment services.

(i) The services coordinator must coordinate with the individual, and as applicable the individual's family or legal or designated representative, in the development of the individual's annual ISP.

(ii) The ISP for an adult receiving supported living services and any associated employment or alternative to employment program must include the information described in subsection (d) of this section. .

(C) COMPREHENSIVE IN-HOME SUPPORTS FOR ADULTS. A services coordinator must ensure the development of an annual ISP for an individual receiving comprehensive in-home supports.

(i) The services coordinator must coordinate with the individual, and as applicable the individual's family or legal or designated representative, in the development of the individual's annual ISP.

(ii) The ISP for an individual receiving comprehensive in-home supports must be in accordance with OAR 411-330-0050.

(4) ANNUAL PLANS. Individuals enrolled in developmental disability services not accessing waiver or state plan services must have an Annual Plan.

(a) A services coordinator must complete an Annual Plan within 60 days of an individual's enrollment into case management services, and annually thereafter if the individual is not enrolled in any waiver or state plan services.

(b) An Annual Plan must be developed as follows:

(A) For an adult, a written Annual Plan must be documented in an individual's service record as an Annual Plan or as a comprehensive progress note and consist of:

(i) A review of the individual's current living situation;

(ii) A review of any personal health, safety, or behavioral concerns;

(iii) A summary of the individual's support needs; and

(iv) Actions to be taken by the services coordinator and others.

(B) For a child receiving family support services, a services coordinator must coordinate with the child and the child's family or guardian in the development of the child's Annual Plan. The Annual Plan for a child receiving family support services must be in accordance with OAR 411-305-0080.

(5) PLANS FOR IN-HOME SUPPORTS FOR CHILDREN. For a child receiving in-home supports, a services coordinator must coordinate with the child and the child's family or guardian in the development of the child's ISP or Annual Plan. The ISP or Annual Plan for a child receiving in-home supports must be in accordance with OAR chapter 411, division 308 and sections (3) and (4) of this rule, as applicable.

(6) PLAN FORMATS. An ISP or Annual Plan developed at an annual or update meeting must be conducted in a manner specified by the Department and on forms required by the Department. In the absence of a Department-mandated form, the CDDP with the affected service providers may develop an ISP format that conforms to the rules for the service provider and provides for an integrated plan across the funded developmental disability service settings.

(7) PLAN UPDATES. An ISP or Annual Plan must be kept current. A services coordinator, or the Department's Residential Services Coordinator for children in 24-hour residential services directly contracted with the Department, must ensure that a current ISP or Annual Plan is authorized and maintained for each individual receiving services.

(a) The ISP or Annual Plan must be kept in an individual's service record.

(b) ISP or Annual Plan updates must occur as required by this rule and any rules governing the operation of the service.

(c) When there is a significant change, the ISP or Annual Plan must be updated.

(8) TEAM PROCESS IN SERVICE AND SUPPORT PLANNING. This section applies to an ISP developed for an individual in comprehensive services:

(a) An ISP for an individual in comprehensive services must be developed by an ISP team. The ISP team assigns responsibility for obtaining or providing services to meet the individual's identified needs.

(A) Membership on the ISP team must at a minimum conform to this rule and any relevant service provider rules. An individual, or as applicable the individual's legal or designated representative, may include additional participants, friends, or significant others on the individual's ISP team.

(B) The individual may raise an objection to a particular person's or service provider's inclusion on the individual's ISP team. When the individual raises objections to a person, the ISP team must respect the individual's request. In order to assure adequate planning, service provider representatives are necessary informants to the ISP team.

(A) Increased certified and licensed capacity;

(B) New individuals receiving services;

(C) Newly licensed or certified and endorsed provider;

(D) An abuse investigation;

(E) A serious event;

(F) A change in the management or staff of the licensed or certified and endorsed provider;

(G) An ISP team request;

(H) Individuals receiving services are also receiving crisis diversion services; or

(I) Significant change in an individual's functioning who receives services at the site.

(e) The CDDP must develop a procedure for the conduct of the visits to these sites.

(f) The CDDP must document site visits and provide information concerning the site visits to the Department upon request.

(g) If there are no Department-funded individuals at the site, a visit by the CDDP is not required.

(h) When a service provider is a Department-contracted and licensed, certified, and endorsed 24-hour residential program for children or is a proctor agency and the Department's Children's Residential Services Coordinator is assigned to monitor services, the Department's Children's Residential Services Coordinator and the CDDP shall coordinate the site visit. If the site visit is made by Department staff, Department staff shall provide the results of the site visit to the local services coordinator.

(i) The Department may conduct site visits on a more frequent basis than described in this section based on program needs.

(2) MONITORING OF SERVICES: A services coordinator must conduct monitoring activities using the framework described in this section.

(a) For an individual residing in 24-hour residential services, supported living, foster care, or receiving employment or alternatives to employment services, an ongoing review of the individual's ISP must determine whether the actions identified by the ISP team are being implemented by the service providers and others. The review of an ISP must include an assessment of the following:

(A) Are services being provided as described in the ISP and do the services result in the achievement of the identified action plans?

(B) Are the personal, civil, and legal rights of the individual protected in accordance with these rules?

(C) Are the personal desires of the individual, and as applicable the individual's legal or designated representative or family, addressed?

(D) Do the services provided for in the ISP continue to meet what is important to, and for, the individual?

(E) Do identified goals remain relevant and are the goals supported and being met?

(b) For an individual residing in 24-hour residential services, supported living, foster care, or receiving employment or alternatives to employment, the monitoring of services may be combined with the site visits described in section (1) of this rule. In addition:

(A) During a one year period, the services coordinator must review, at least once, services specific to health, safety, and behavior, using questions established by the Department.

(B) A semi-annual review of the process by which an individual accesses and utilizes funds must occur, using questions established by the Department. The services coordinator must determine whether financial records, bank statements, and personal spending funds are correctly reconciled and accounted for.

(i) The financial review standards for 24-hour residential services are described in OAR 411-325-0380.

(ii) The financial review standards for adult foster home services are described in OAR 411-360-0170.

(iii) Any misuse of funds must be reported to the CDDP and the Department. The Department determines whether a referral to the Medicaid Fraud Control Unit is warranted.

(C) The services coordinator must monitor reports of serious and unusual incidents.

(c) For an individual receiving employment or alternatives to employment services, the services coordinator must also assess the individual's progress toward a path to employment.

(d) The frequency of service monitoring must be determined by the needs of an individual. Events identified in section (1)(d) of this rule provide indicators that may potentially increase the need for service monitoring.

(e) For an individual receiving only case management services and not enrolled in any other funded developmental disability services, the services coordinator must make contact with the individual at least once annually.

(A) Whenever possible, annual contact must be made in person. If annual contact is not made in person, a progress note in the individual's service record must document how contact was achieved.

(B) The services coordinator must document annual contact in the individual's Annual Plan as described in OAR 411-320-0120.

(C) If the individual has any identified high-risk medical issue, including but not limited to risk of death due to aspiration, seizures, constipation, dehydration, diabetes, or significant behavioral issues, the services coordinator must maintain contact in accordance with planned actions as described in the individual's Annual Plan.

(D) Any follow-up activities must be documented in a progress note.

(3) MONITORING FOLLOW-UP. A services coordinator and the CDDP are responsible for ensuring the appropriate follow-up to monitoring of services, except in the instance of children in 24-hour residential services directly contracted with the Department when the Department conducts the follow-up.

(a) If the services coordinator determines that comprehensive services are not being delivered as agreed in an individual's ISP or Annual Plan or that an individual's service needs have changed since the last review, the services coordinator must initiate action to update the individual's ISP or Annual Plan.

(b) If there are concerns regarding a service provider's ability to provide services, the CDDP, in consultation with the services coordinator, must determine the need for technical assistance or other follow-up activities such as coordination or provision of technical assistance, referral to the CDDP manager for consultation or corrective action, requesting assistance from the Department for licensing or other administrative support, or meeting with the service provider's executive director or board of directors.

(4) DEPARTMENT NOTIFICATION. In addition to conducting abuse or other investigations as necessary, the CDDP must notify the Department when:

(a) A service provider demonstrates substantial failure to comply with any applicable licensing, certification, or endorsement rules for Department-funded programs;

(b) The CDDP finds a serious and current threat endangering the health, safety, or welfare of individuals in a program for which an immediate action by the Department is required; or

(A) The date the complaint was received;

(B) The name of the person taking the complaint;

(C) The nature of the complaint;

(D) The name of the person making the complaint, if known; and

(E) The disposition of the complaint.

(b) CDDP personnel issues and allegations of abuse may be maintained separately from a central complaint log. If a complaint resulted in disciplinary action against a staff member, the documentation must include a statement that personnel action was taken.

(2) COMPLAINTS. The CDDP must address all complaints by individuals or subcontractors in accordance with CDDP policies, procedures, and these rules. Copies of the procedures for resolving complaints must be maintained on file at the CDDP offices. The complaint procedures must be available to CDDP employees who work with individuals, individuals who are receiving services from the CDDP, individuals' families, individuals' legal or designated representatives, service providers, and the Department.

(a) SUBCONTRACTOR COMPLAINTS. When a dispute exists between a CDDP and a subcontracted service provider regarding the terms of their contract or the interpretation of the Department's administrative rule and local dispute resolution efforts have been unsuccessful, either party may request assistance from the Department in mediating the dispute.

(A) The parties must demonstrate a spirit of cooperation, mutual respect, and good faith in all aspects of the mediation process. Mediation must be conducted as follows:

(i) The party requesting mediation must send a written request to the Department's director, the CDDP director, and the service provider's executive director, unless other people are named as official contact people in the specific rule or contract under dispute. The request must describe the nature of the dispute and identify the specific rule or contract provisions that are central to the dispute.

(ii) Department staff shall arrange the first meeting of the parties at the earliest possible date. The agenda for the first meeting shall include:

(I) Consideration of the need for services of an outside mediator. If the services of an unbiased mediator are desired, agreement shall be made on arrangements for obtaining these services;

(II) Development of rules and procedures that shall be followed by all parties during the mediation; and

(III) Agreement on a date by which mediation shall be completed, unless extended by mutual agreement.

(iii) Unless otherwise agreed to by all parties:

(I) Each party shall be responsible for the compensation and expenses of their own employees and representatives; and

(II) Costs that benefit the group, such as services of a mediator, rental of meeting space, purchase of snack food and beverage, etc. shall be shared equally by all parties.

(B) A written statement documenting the outcome of the mediation must be prepared. This statement must consist of a brief written statement signed by all parties or separate statements from each party declaring their position on the dispute at the conclusion of the mediation process. In the absence of written statements from other parties, the Department shall prepare the final report. A final report on each mediation must be retained on file at the Department.

(b) CONTRACT NOT SUBSTANTIALLY SIMILAR. A service provider may appeal the imposition of a disputed term or condition in the contract if the service provider believes that the contract offered by the CDDP contains terms or conditions that are not substantially similar to those established by the Department in its model contract. The service provider's appeal of the imposition of the disputed terms or conditions must be in writing and sent to the Department's director within 30 calendar days after the effective date of the contract requirement.

(A) A copy of notice of appeal must be sent to the CDDP. The notice of appeal must include:

(i) A copy of the contract and any pertinent contract amendments;

(ii) Identification of the specific terms that are in dispute; and

(iii) A complete written explanation of the dissimilarity between terms.

(B) Upon receipt of the notice of appeal, the CDDP must suspend enforcement of compliance with any contract requirement under appeal by the contractor until the appeal process is concluded.

(C) The Department's director must offer to mediate a solution in accordance with the procedure outlined in sections (2)(a)(A) and (2)(a)(B) of this rule.

(i) If a solution cannot be mediated, the Department's director shall declare an impasse through written notification to all parties and immediately appoint a panel to consider arguments from both parties. The panel must include at a minimum:

(I) A representative from the Department;

(II) A representative from another CDDP; and

(III) A representative from another service provider organization.

(ii) The panel must meet with the parties, consider their respective arguments, and send written recommendations to the Department's director within 45 business days after an impasse is declared, unless the Department's director grants an extension.

(iii) If an appeal requiring panel consideration has been received from more than one contractor, the Department may organize materials and discussion in any manner it deems necessary, including combining appeals from multiple contractors, to assist the panel in understanding the issues and operating efficiently.

(iv) The Department's director must notify all parties of his or her decision within 15 business days after receipt of the panel's recommendations. The decision of the Department is final. The CDDP must take immediate action to amend contracts as needed to comply with the decision.

(v) Notwithstanding section (2)(b)(C) of this rule, the Department's director has the right to deny the appeal or a portion of the appeal if, upon receipt and review of the notice of appeal, the Department's director finds that the contract language being contested is identical to the current language in the county financial assistance agreement with the Department.

(D) The CDDP or the contractor may request an expedited appeal process that provides a temporary resolution if it can be shown that the time needed to follow procedures to reach a final resolution would cause imminent risk of serious harm to individuals or organizations.

(i) The request must be made in writing to the Department's director. The request must describe the potential harm and level of risk that shall be incurred by following the appeal process.

(ii) The Department must notify all parties of its decision to approve an expedited appeal process within two business days.

(iii) If an expedited process is approved, the Department shall notify all parties of the Department's decision concerning the dispute within three additional business days. The decision resulting from an expedited appeal process shall be binding, but temporary, pending completion of the appeal process. All parties must act according to the temporary decision until notified of a final decision.

(c) COMPLAINTS BY, OR ON BEHALF OF, INDIVIDUALS. An individual, or as applicable the individual's legal or designated representative or family member, may file a complaint with the CDDP under the following conditions:

(A) An individual, or as applicable a person acting on behalf of the individual, must have an opportunity to informally discuss and resolve any allegation that is contrary to law, rule, policy, or that is otherwise contrary to the interest of the individual and that does not meet the criteria for an abuse investigation. Choosing an informal resolution does not preclude an individual or someone acting on behalf of the individual to pursue resolution through formal complaint processes. Any agreement to resolve the complaint must be reduced to writing and must be specifically approved by the complainant. The complainant must be provided with a copy of such agreement.

(B) A complaint may be filed regarding an inability to resolve a dispute concerning the appropriateness of services described in the service plan provided by a CDDP subcontractor or regarding dissatisfaction with services provided by the CDDP.

(i) The CDDP must follow its policies and procedures regarding receipt and resolution of a complaint.

(ii) The CDDP director must provide to the complainant a written decision regarding the complaint within 30 days following receipt of the complaint.

(I) The written decision regarding the complaint must contain the rationale for the decision and must list the reports, documents, or other information relied upon in making the decision.

(II) Along with the written decision, the complainant must also be provided a notice that the documents relied upon in making the decision may be reviewed by the individual or the person who filed the complaint.

(III) Along with the written decision, the complainant must also be provided a notice that the complainant has the right to request a review of the decision by the Department. Such notice, must be written in clear, simple language and at a minimum explain how and when to request such a review and when a final decision must be rendered by the Department's director.

(iii) Following a decision by the CDDP director regarding a complaint, the complainant may request an administrative review by the Department's director.

(I) The complainant must submit to the Department a request for an administrative review within 15 days from the date of the decision by the CDDP director.

(II) Upon receipt of a request for an administrative review, the Department's director shall appoint an administrative review committee and name the chairperson. The administrative review committee shall be comprised of a representative of the Department, a CDDP representative, and a service provider who provides a similar service as the service being reviewed, such as residential, employment, foster care, etc. Committee representatives may not have any direct involvement in the provision of services to the complainant or have a conflict of interest in the specific case being reviewed.

(III) The administrative review committee must review the complaint and the decision by the CDDP director and make a recommendation to the Department's director within 45 days of receipt of the complaint unless the complainant and the administrative review committee mutually agree to an extension.

(IV) The Department's director shall consider the report and recommendations of the administrative review committee and make a final decision. The decision must be in writing and issued within 10 days of receipt of the recommendation by the administrative review committee. The written decision must contain the rationale for the decision.

(V) The decision of the Department's director is final. Any further review is pursuant to the provisions of ORS 183.484.

(d) SPECIFIC COMPLAINTS. Individuals, or as applicable the individual's legal or designated representative, may request a review of specific decisions by the CDDP or a service provider as follows:

(A) Complaints of entry, exit, or transfer decisions within residential services may only be initiated according to OAR 411-325-0400 for 24-hour residential services and OAR 411-328-0800 for supported living services.

(1) EMPLOYEE - EMPLOYER RELATIONSHIP. The relationship between an independent provider and an individual or a person selected by an individual, or the individual's legal representative, to act on the individ-

ual's behalf to provide the employer responsibilities in this rule, is that of employee and employer.

(2) JOB DESCRIPTION. The employer is responsible for creating and maintaining a job description for potential independent providers that is in coordination with the services authorized by the individual's services coordinator.

The only benefits available to independent providers are for those who are personal support workers and negotiated in the collective bargaining agreement and provided in Oregon Revised Statute. (c) The Department or the CDDP may require intervention as defined in OAR 411-330-0020 when an employer has demonstrated difficulty meeting the employer responsibilities described in subsection (4)(a) of this section.

(d) After appropriate intervention and assistance, an individual unable to meet the employer responsibilities described in subsection (4)(a) of this section may be determined ineligible for in home support provided by an independent provider.

(A) An individual determined ineligible to be an employer of an independent provider and unable to designate an employer representative, may not request in-home support provided by an independent provider until the individual's next annual ISP. If an individual is able to demonstrate the ability to meet the employer responsibilities sooner than the next annual ISP, the individual may request the waiting period be shortened.

(B) An individual determined ineligible to be an employer of an independent provider is offered other available service options that meet the individual's service needs, including in-home support through a contracted qualified provider organization or general business provider when available. (B) Select other available services.

(6) EMPLOYER REPRESENTATIVE.

(2) DENIAL, TERMINATION, SUSPENSION, OR REDUCTION OF SERVICES.

(a) Each time the CDDP takes an action to deny, terminate, suspend, or reduce an individual's access to services covered under Medicaid, the CDDP must notify the individual, or as applicable the individual's legal or designated representative, of the right to a hearing and the method to obtain a hearing. The CDDP must mail the notice or personally serve the notice to the individual, or as applicable the individual's legal or designated representative, 10 days or more prior to the effective date of the action.

(b) The individual, or as applicable the individual's legal or designated representative, may appeal a denial of a request for additional or different services only if the request has been made in writing and submitted to the CDDP. At the time the CDDP denies a written request for additional or different services, the CDDP must notify the individual, or as applicable the individual's legal or designated representative, in writing, of the information specified in section (2)(c) of this rule.

The hearings officer must send a final order confirming the withdrawal to the last known address of the individual, or as applicable the individual's legal or designated representative. The individual, or as applicable the individual's legal or designated representative, may cancel the withdrawal up to 10 work days following the date such an order is issued.

(m) PROPOSED AND FINAL ORDERS.

(A) In a contested case, the hearings officer must serve a proposed order on the individual, or as applicable the individual's legal or designated representative, and the Department. The proposed order shall become a final order if no exceptions are filed within the time specified in subsection (B) of this section;

(B) If the hearings officer issues a proposed order that is adverse to the individual, the individual, or as applicable the individual's legal or designated representative, may file exceptions to the proposed order to be considered by the Department. The exceptions must be in writing and must reach the Department no later than 10 days after service of the proposed order. The individual, or as applicable the individual's legal or designated representative, may not submit additional evidence after this period unless the Department prior-approves. The permanent rules:

- Specify under what conditions a foster provider may transfer or exit a child involuntarily;

- Clarify that an alternate caregiver, consultant, or volunteer may not be a child's parent or legal guardian;

Determining Priority in Visit and Contact Plans

(1) Unless the court has entered an order regarding visitation by the child or young adult's parents, guardians, siblings, or grandparents, the caseworker determines a hierarchy of the child or young adult's attachments and prioritizes visits with the child or young adult's parents or guardians, and siblings. The caseworker may consider the preferences expressed by the child or young adult.

(2) When the permanency plan is reunification with a parent or guardian, the first priority of the caseworker will be to provide visits with parents or guardians, siblings, and each intervenor granted visitation by the court.

(3) When the permanency plan is a plan other than return to the parents or guardians, the visitation priority of the caseworker shall be to both preserve the child or young adult's attachment to parents or guardians and siblings and promote the child or young adult's attachment to the permanent placement resource.

(4) When appropriate, the caseworker may consider establishing visits with the child or young adult's family members.

(5) When appropriate, the caseworker may consider establishing visits with the child or young adult and non-related persons with whom the child or young adult has a significant attachment.

The caseworker may involve the child, family members, safety service or treatment providers, and the substitute caregiver to participate in facilitating visitation in the development of the visit and contact plan. A copy of the written plan is given to each participant. The visits must be in the least restrictive manner in which the child or young adult's safety can be managed.

(b) The caseworker may involve grandparents and other relatives, as identified in Child Welfare Policy I-E.1.1, "Search for and Engagement of Relatives", OAR 413-070-0060 to 413-070-0087, in the development of the Ongoing Visit and Contact Plan.

(c) The caseworker must arrange an Ongoing Visit and Contact Plan that supports child safety, the ongoing safety plan, the best interests of the child, and any orders of the court regarding visitation with a child or young adult's parents, siblings, or grandparents.

(d) When an Ongoing Visit and Contact Plan is revised, the caseworker completes a revised Ongoing Visit and Contact Plan and provides a copy of the revised plan to each participant.

(e) A plan that prohibits a parent, guardian, or sibling's visit must include the reason for each prohibition and state, if applicable, the conditions under which the Department would begin or resume contact.

(B) Meet the unique needs of the child or young adult, especially the child or young adult's chronological or developmental age and sense of time as they affect the child or young adult's attachment to a parent or guardian and other family members;

(C) Arrange visits that do not disrupt the school schedule of the child or young adult whenever possible;

(D) Arrange additional contact such as telephone calls, e-mail, and letters, and other activities the family and child or young adult may do together that support the ongoing safety plan, such as attendance by parents or guardians at doctor appointments, school events, and church;

(F) Work within each parent's or guardian's employment and treatment obligations;

(G) Ensure that the Ongoing Visit and Contact Plan considers the safety needs of any non-offending parent or guardian in cases involving domestic violence, including but not limited to different visiting schedules or arranging safe drop-off and pick-up locations;

(4) The caseworker must inform the parents or guardians of the reason for the supervision of the visits or contact, and, as resources allow, all supervision should be culturally relevant and language appropriate.

GA Medical Policy

(1) A child in paid substitute care who does not meet the eligibility requirements for Title XIX, is eligible for medical assistance through the General Assistance medical program.

(2) A form CF 190 indicates the child is eligible for GA medical when the child is no longer eligible for Title XIX. These cases are reviewed every 12 months to determine whether the child is again eligible under Title XIX due to a change in income or resources.

(3) Infrequently a non-relative foster care provider is the designated payee for a foster child's benefits. Until payee status is transferred to the agency and a foster care maintenance payment is made, the child is eligible for GA medical as long as its income is less than the standard cost of foster care for the child.

(4) Youth in non-subsidized Independent Living are eligible for GA medical unless their income exceeds the standard cost of foster care for their age level.

Non-Paid Relative Placements

(1) For the Department to determine Medicaid eligibility for a child placed with a non-paid relative, a completed form SREL 190 must be submitted to the Department. A child in this situation is not eligible to receive a GA medical card. The Federal Program Coordinator provides assistance to eligibility specialists working with non-citizen children placed with a non-paid relative.

(2) A child placed in a relative's home in another state is referred to the Title XIX agency in that state for a Title XIX determination. If that state determines there is no Title XIX eligibility, the child may be eligible for a GA medical card only if the child's income is below the foster care rate (*see* OAR 413-090-0000). The Department will not place a child in another state without following the procedures required by the rules on the Interstate Compact on the Placement of Children, OAR 413-040-0200 to 413-040-0330.

Medical Eligibility for Children in Adoptive Homes

(1) A child placed in an adoptive home prior to the entry of a final decree of adoption is eligible for a medical card.

(2) If no foster care payment is made, the child is GA eligible prior to execution of any Adoption Assistance agreements.

(3) If no medical eligibility is initially established, the medical eligibility may be determined using the criteria in section (2) of this rule any time during the adoption supervisory period.

(4) Title XIX eligibility for a child in an adoptive placement for whom Adoption Assistance has been approved is determined according to OAR 413-130-0100, " Medical Assistance."

Children in Residential Care with Payment by Another Public Agency

(1) A child in substitute care approved by a public agency of this state for whom a public agency of this state is assuming some financial responsibility may be eligible for medical coverage.

(2) A child in the custody of the Department who is placed in residential care paid by another public agency may be eligible for medical coverage.

(3) Before a medical card can be issued to a child in the Department's custody or in non-paid residential care funded by another public agency, the following must be entered on the Department's FACIS system:

The contracting and procurement functions are now centralized in the Department's Office of Contracts and Procurement, and are subject to the Public Contracting Code, Department of Administrative Services rules, and Department of Justice Model Public Contract rules. In the meantime, these rules regarding criteria for personal and professional services contracting are being suspended to eliminate any inconsistency.

Contract Principles

(1) The State utilizes contracts to pay for personal and professional services provided by an organization or private individual. State law normally prohibits payment for personal and professional services which are provided prior to there being an appropriately written, fully signed contract. Any person who authorizes services to be performed prior to entry of a contract, signed in accordance with state law, may be held personally responsible to pay for the services.

(2) The State Office for Services to Children and Families (SOSCF) contracts shall be in writing to create an enforceable means of assuring that each of the parties faithfully discharge the obligations they have assumed and receive the benefits and protections guaranteed to them by the contract.

(3) Contracts will be written prospectively. SOSCF is not bound to pay for services which were given beyond or outside of a legal contract. Contracts will not be written retroactively to cover work performed prior to the effective date of the contract.

(4) Contracts may be amended during the term of the contract to extend the contract term ending date or to modify the statement of work to be performed, the consideration to be paid, or any other provision of the contract to reflect the intentions of the parties, or to reflect the actual nature of the services being provided and the parties agreement.

(5) A contract may not be amended to change the effective date to a date prior to the date the contract was approved by the Department of Administrative Services and the Department of Justice. A contract may not be amended to authorize and pay for work not already covered by that contract and already performed without benefit of an effective contract.

Example: If a current contractor undertakes to provide SOSCF with additional kinds of services, or to develop a new program, etc., without first obtaining SOSCF approval and executing a contract for that new work, an existing contract may not be amended to retroactively authorize and pay for that work.

(6) Contracts will be written with contractors who have the power to enter into a binding agreement. For SOSCF contracts, such contractors include an individual acting for her/himself, husband and wife acting together, a partnership, a corporation; and may include others acting "jointly and severally" under certain conditions. The contracting parties will be clearly identified. Contracting individuals, partners, and the president or board chair person of a corporation are assumed to be authorized to sign contracts. If any other person is designated to sign for the contractor, the SOSCF representative obtaining the signature will require the signer to produce an official document (e.g., corporation by-laws, minutes of a board meeting, etc.) authorizing such signature.

Authority to Sign Contracts and to Represent SOSCF

(1) The agency director is the only person in SOSCF who, by virtue of the position, is authorized to sign contracts for SOSCF. The director may delegate signatory authority to others. The delegation will be in writing and will identify any conditions or limitations which may apply. A current record of such delegation shall be maintained on file in the DHR Contracts Section.

(2) SOSCF personnel may be assigned to represent SOSCF in matters related to developing and administering contracts. Such persons are agents of the state and the state is responsible for and is obligated by their actions when they act in accord with state law and pertinent agency rules and directives. Persons committing the state to pay for services rendered outside of a contract written in accordance with these rules, or acting outside their authority may be held personally responsible and liable for obligations incurred by them for the state.

Responsibility to Implement Contracts

(1) The appropriate SOSCF manager from whose budget the contract is to be funded, or designee, will be responsible to determine the need to contract, what is to be purchased, and the maximum amount which may be spent.

(2) The DHR Contracts Section will be responsible to assure compliance with SOSCF rules and policy in contractor selection and in writing and processing the contract.

(3) The DHR Contracts Section will be responsible to assure the legal sufficiency of all standard contracting forms, including the CF 44 (Emergency Contract) and the CF 996 (Family Foster Home/Shelter Care Contract). Any changes to these forms must have the approval of Management Operations.

(4) The DHR Contracts Section will prepare and process all contracts between SOSCF and another party or agency except those listed in paragraphs (5) through (7) of this rule.

(5) Family Foster Home/Shelter Care Contracts will be prepared and processed by field staff in accordance with OAR 413-330-0100, with the use of the CF 996 (Family Foster Home/Shelter Care Contract).

(6) Emergency contracts will be prepared and processed by field and/or Central Office staff as needed in accordance with OAR 413-330-0500 through 413-330-0540, with use of a CF 44 (Emergency Contract).

(7) Exceptions to OAR 413-330-0010(1), where payments would be authorized, can only be granted after a Departmental finding has been made, in consultation with the Department of Justice, that there is a substantial basis in law for the claim and a substantial risk of liability to the agency.

OAR 461-110-0210 about household groups is being amended to clarify how to determine household groups in the QMB programs as well as in the OSIPM program for individuals in non-standard living situations.

OAR 461-115-0030 about dates of request for medical programs is being amended to correct an inadvertent omission of the Qualified Medicare Beneficiary (QMB) programs from the rule. These amendments make permanent temporary rule changes adopted October 1, 2013.

OAR 461-120-0330 is being amended to indicate that any parent or caretaker relative that is exempt from JOBS (Jobs Opportunity and Basic Skills) is not required to apply unemployment benefits.

OAR 461-135-0010 about assumed eligibility for medical programs is being amended to indicate that Medicaid eligibility for individuals receiving or deemed eligible for SSI is not absolute, and is subject to additional eligibility factors, aligning with federal policy consistent with clarification from the Centers for Medicare and Medicaid Services. Individuals receiving or deemed eligible for SSI are subject to additional eligibility requirements, such as residency, pursuit of assets and/or health care coverage prior to approval of Medicaid benefits. This rule is also being amended to include the policy about continuous eligibility for certain children because the current rule in which this policy appears (OAR 461-135-1149) is being repealed.

These amendments keep Oregon in line with current federal standards for Department Medicaid programs and changes in the cost of living.

Oregon Laws 2013, Chapter 688, Section 32 has changed the statutory definition of "public assistance" to exclude "medical assistance." These particular QMB programs are subject to the same rules regarding retroactive benefits for other medical programs; therefore, a reference to the QMB-SMB and QMB-SMF programs is being added to this rule. This rule is also being amended to remove a redundant and potentially confusing reference to the QMB-BAS program, which is not subject to the same rules regarding retroactive benefits. This rule is being further amended to remove medical programs whose eligibility requirements are now covered in OAR 410-200, making permanent a temporary rule change adopted October 1, 2013.

OAR 461-135-1125 about reservation lists and eligibility is being repealed as part of the implementation of the Affordable Care Act because this policy is no longer necessary.

OAR 461-140-0020 about availability of resources is being amended to align Department policy with the Social Security Administration's (SSA) Program Operations Manual System (POMS), setting forth the rebuttable assumption that jointly-held resources are assumed to be entirely available to the client. Currently the Department considers a jointly-owned resource available to the extent that the client owns the resource. As with the POMS, the Department is

adding the provision to this amendment indicating that the assumption of full availability is rebuttable.

OAR 461-145-0250 about income-producing property is being amended to align with the Social Security Administration's (SSA) Program Operations Manual System (POMS) and to clarify in the GA, GAM, OSIP, OSIPM, and QMB programs what types of property is excluded or exempt. Without these changes, this rule can be interpreted to apply trade or business definitions to non-business property, thus creating the potential for incorrect eligibility determinations. This amendment provides clearer guidelines for determining if property is used in a trade or business and gives examples of property types. This rule is also being amended to remove programs whose eligibility requirements are now covered under OAR 410-200, making permanent temporary rule changes adopted October 1, 2013.

OAR 461-145-0580 about veterans' benefits is being amended to correct an inadvertent omission of the Oregon Supplemental Income Program Medical (OSIPM) program from the policy setting out how aid-and-attendance payments are treated in determining eligibility for clients in standard living situations. This rule is also being amended to removed eligibility requirements now set out in OAR 410-200, making permanent a temporary rule change adopted October 1, 2013.

OAR 461-150-0055 about eligibility and budgeting in the HKP and OHP programs is being repealed as part of the process to move policies about financial eligibility for medical assistance from OAR 461 (DHS) into the OAR 410-200 (under OHA), and as part of the implementation efforts for the federal Affordable Care Act (ACA). For applications for medical assistance starting on October 1, 2013, financial eligibility policies are changing and will be set out in OAR 410-200. This repeal makes permanent the temporary suspension of this rule that started October 1, 2013.

OAR 461-150-0060 about prospective budgeting and eligibility is being amended to clarify that actual income is used when there is a new or terminated source of income in the initial month of eligibility for the Temporary Assistance for Needy Families (TANF) and Refugee programs. This rule is also being amended as part of the process to move policies about financial eligibility for medical assistance from OAR 461 (DHS) into the OAR 410-200 (under OHA), and as part of the implementation efforts for the federal Affordable Care Act (ACA). For applications for medical assistance starting on October 1, 2013, financial eligibility policies are changing and will be set out in OAR 410-200. This amendment makes permanent temporary rule changes adopted on August 1, 2013 and October 1, 2013.

OAR 461-155-0180 about poverty-related income standards is being amended to reflect the 2014 poverty level standards. The poverty guidelines are updated each year by the Department of Health and Human Services. The poverty guidelines are adjusted based on the Consumer Price Index for All Urban Consumers (CPI-U). The poverty guidelines are then used to determine financial eligibility for the programs covered by this rule except OSIP, OSIPM and QMB. The Department converts the annual poverty guidelines published in the Federal Register to a monthly, rounded amount and uses the result to determine the new income limits. This rule is also being amended to make permanent a temporary rule amendment adopted August 23, 2013 setting out the standards for 300 percent of the federal poverty level instead of 201 percent.

OAR 461-160-0580 is also being amended to change the manner of computing the amount necessary to raise the community spouse's income to the monthly maintenance needs allowance. Instead of being an amount which, if invested, would raise the interest income of the community spouse to the allowance, it will be the amount required to purchase a single premium immediate annuity.

OAR 461-160-0620 about income deductions and client liability for long-term care services and home and community-based care in the Oregon Supplemental Income Program Medical (OSIPM) is also being amended to change the need standard deduction for home and community-based care in-home services from the OSIPM maintenance standard (currently $710) to the OSIPM maintenance standard plus $500.

OAR 461-160-0780 about determining adjusted income in the OSIP-EPD and OSIPM-EPD programs is being amended to remove a statement about a deduction from unearned income that is unnecessary as the only place that is available to deduct it from is earned income.

OAR 461-165-0070 about immediate issuance of benefits is being amended to remove the policy about temporary medical cards because these temporary cards are no longer issued by branch staff.

OAR 461-175-0210 about notices sent to clients when they move or their location is unknown is being amended to make permanent a temporary rule change adopted October 3, 2013 stating that no notice is needed in the SNAP program when a SNAP case is closed for returned mail and the clients whereabouts are unknown. This rule is also being amended to make permanent a temporary rule change adopted October 1, 2013 removing the policies for certain medical assistance programs from this rule because this topic is now covered in OAR 410-200-0120.

OAR 461-180-0140 about effective dates for retroactive medical benefits is being amended to clarify policy in the OSIPM, QMB, and REFM programs. This rule is also being amended to remove medical program eligibility now addressed in OAR 410-200.

OAR 461-185-0050 about the client pay-in system is being amended to correct a rule reference, remove misleading language, and to clarify current policy. The rule would no longer be subject to being interpreted to instruct staff to apply a second income deduction based on an obsolete payment standard (which was removed in 2006 from OAR 461-155-0250(3).

OAR 461-195-0301 is being amended to modify the definition of "assistance" include payments by coordinate care organizations. This rule is being amended to remove the definition of "net settlement", update cross references, and clarify the rule.

OAR 461-195-0310 is being amended to add a requirement that an assistance applicant or recipient provide notice to the coordinated care organization providing benefits about any action or claim for a personal injury the individual may have against a third party. This rule is also being amended to replace phrase "public assistance" with "assistance", to remove superfluous language, and to add that an applicant or recipient's failure to notify the individual's coordinated care organization about an action or claim against a third party for a personal injury may result in civil liability for the applicant or recipient. This amendment also adds a requirement that a coordinated care organization, a prepaid managed care plan, and the Personal Injury Lien Unit consult with each other prior to pursuing civil liability against an applicant or recipient.

OAR 461-195-0551 about methods of recovering overpayments is being amended to update its terminology consistent with HB 2859 (2013).

In addition, the above rules may also be changed to reflect new Department terminology and to correct formatting and punctuation.

Definitions; OSIP, OSIPM Long-Term Care or Home and Community-Based Care

These terms apply to rules in Chapter 461 about OSIP and OSIPM long-term care and home and community-based care clients:

(1) Community spouse: An individual who is legally married (see OAR 461-001-0000) to an institutionalized spouse and is not in a medical institution or nursing facility.

(2) Continuous period of care: Reside for a period of at least 30 consecutive days or until death in a long term care facility, home and community-based care setting, or an acute care hospital. There must be sufficient evidence to show there is a reasonable expectation that the client will remain in care for at least 30 consecutive days. For the purposes of this policy, an interruption in care (for example, leaving and then returning to a nursing home, or switching from one type of care to another) that lasts less than 30 days is not considered a break in the 30 consecutive days of care. A new period of care begins if care is interrupted for 30 or more days.

(3) Eligible dependent:

(a) For cases with a community spouse:

(A) An "eligible dependent" is the child of the institutionalized spouse or community spouse and must also be either a minor (under the age of 21) or 21 or older but still a dependent.

(B) A grandchild of the institutionalized spouse or community spouse is not considered an "eligible dependent".

(C) An "eligible dependent" is a dependent parent or sibling of the institutionalized spouse or community spouse who is residing with the community spouse and claimed as a tax dependent by either spouse.

(b) For cases without a community spouse, an "eligible dependent" is a minor (under the age of 21) or dependent child residing with and claimed as a tax dependent by the client.

(4) Home and community-based care: Title XIX services needed to keep an individual out of a long-term care facility. These services are:

(a) In-home services except for state plan personal care services.

(b) Residential care facility services.

(c) Assisted living facility services.

(d) Adult foster care services.

(e) Home adaptations to accommodate a client's physical condition.

(f) Home-delivered meals provided in conjunction with in-home services.

(g) Specialized living facility services.

(h) Adult day care services.

(i) Community transition services.

(5) Home and community-based care client: A client receiving home and community-based care for a continuous period.

(6) Institutionalized spouse: An individual who is in long-term care or receiving home and community-based care for a continuous period and is married to a community spouse.

Program Acronyms and Overview

(1) Acronyms are frequently used when referring to a program. There is an acronym for each umbrella program and acronyms for each subprogram.

(2) When no program acronym appears in a rule in Chapter 461 of these rules, the rule with no program acronym applies to all programs listed in this rule. If a rule does not apply to all programs, the rule uses program acronyms to identify the programs to which the rule applies.

(3) Wherever an umbrella acronym appears, that means the rule covers all the subprograms under that code.

(4) CAWEM; Citizen/Alien-Waived Emergent Medical. Medicaid coverage of emergent medical needs for clients who are not eligible for other medical programs solely because they do not meet citizenship and alien status requirements.

(5) DSNAP; Disaster Supplemental Nutrition Assistance Program. Following a presidential declaration of a major disaster in Oregon, DSNAP provides emergency DSNAP program benefits to victims. OAR 461-135-0491 to 461-135-0497 cover DSNAP eligibility and benefits.

(6) EA; Emergency Assistance. Emergency cash to families without the resources to meet emergent needs.

For TANF clients, JOBS Plus is a component of the JOBS Program; for SNAP clients and noncustodial parents of children receiving TANF, it is a separate employment program. Eligibility for TANF clients, SNAP clients, and noncustodial parents of children receiving TANF is determined by the Department. Eligibility for UI recipients is determined by the Oregon State Employment Department. When used alone, JOBS Plus includes only clients whose JOBS Plus program participation is through the Department of Human Services. JOBS Plus administered through the Oregon State Employment Department is known in chapter 461 of the Oregon Administrative Rules as Oregon Employment Department UI JOBS Plus. The following acronyms are used for specific categories:

(a) TANF-PLS; Clients eligible for JOBS Plus based on TANF.

(b) SNAP-PLS; Clients eligible for JOBS Plus based on SNAP.

(c) NCP-PLS; Noncustodial parents of children receiving TANF.

(3) If domestic violence has been identified in the household, section (2) of this rule does not authorize the release of information about a victim of domestic violence unless a member of the household is either wanted as a fugitive felon or is violating probation or parole.

(4) For purposes of the rules in Division 461-105, a fugitive felon is a person fleeing to avoid prosecution or custody for a crime, or an attempt to commit a crime, that would be classified as a felony

461-110-0210
Household Group

(1) This rule describes who is included in the household group. The household group generally consists of the individuals who live together with or without the benefit of a dwelling. For homeless people, the household group consists of the individuals who consider themselves living together.

(2) A separate dwelling is not recognized for the purpose of determining the members of a household group unless the living space has, separate from any other dwelling, an access to the outside that does not pass through another dwelling, a functional sleeping area, bathroom, and kitchen facility.

(3) Each individual in the household group who applies for benefits is an applicant. The household group and applicants form the basis for determining who is in the remaining eligibility groups.

(4) For all programs except the SNAP program, a separate household group is established for individuals who live in the same dwelling as another household group, if all the following subsections are true:

(a) There is a landlord-tenant relationship between the two household groups in which the tenant is billed by the landlord at fair market value (see OAR 461-001-0000) for housing.

(b) The tenant lives independently from the landlord.

(c) The tenant:

(A) Has and uses sleeping, bathroom, and kitchen facilities separate from the landlord; or

(B) Shares bathroom or kitchen facilities with the landlord, but the facilities are in a commercial establishment that provides room or board or both for compensation at fair market value.

(5) Individuals who live with more than one household group during a calendar month are members of the household group in which they spend more than half of their time, except as follows:

(a) In the ERDC program, if a child (see OAR 461-001-0000) lives with different caretakers during the month, the child is considered a member of both household groups.

(b) In the TANF program:

(A) If a parent (see OAR 461-001-0000) sleeps at least 30 percent of the time during the calendar month in the home of the dependent child (see OAR 461-001-0000), the parent is in the same household group as the dependent child.

(B) A dependent child is included in the household group with the caretaker relative (see OAR 461-001-0000), who usually has the major responsibility for care and control of the dependent child, if the dependent child lives with two household groups in the same calendar month for at least one of the following reasons:

(i) Education.

(ii) The usual caretaker relative is gone from the household for part of the month because of illness.

(iii) A family emergency.

(c) In the SNAP program:

(A) The individual is a member of the household group that provides the individual more than half of his or her 21 weekly meals. If the individual is a child, the child is a member of the household group credited with providing the child more than half of his or her 21 weekly meals. A household group is credited with providing breakfast and lunch for each day the child departs that group's home for school, even if the child eats no breakfast or lunch at that home.

(B) During the month in which a resident of a domestic violence shelter (see OAR 461-001-0000) enters the domestic violence shelter, the resident may be included both in the household group he or she left and in a household group in the domestic violence shelter.

(6) In the OSIPM program, individuals receiving or applying for home and community-based care (see OAR 461-001-0030) or nursing facility care are each an individual household group regardless of others living in the individual's dwelling or facility.

(7) Individuals absent from the household for 30 days or more are no longer part of the household group, except for the following:

(a) In all programs except the SNAP program, an individual in an acute care medical facility remains in the household group unless the individual enters long-term care.

(b) In the ERDC, REF, REFM, SAC, and TANF programs:

(A) A caretaker relative who is absent for up to 90 days while in a residential alcohol or drug treatment facility is in the household group.

(B) A child who is absent for 30 days or more is in the household group if the child is:

(i) Absent for illness (unless the child is in a long-term care Title XIX facility), social service, or educational reasons;

(ii) In foster care, but expected to return to the household within the next 30 days.

(c) In the ERDC program, an individual in the household group who is absent because of education, training, or employment, including long-haul truck driving, fishing, or active duty in the U.S. armed forces.

(d) In the REFM program, in a two-parent household, a parent remains in the household group if the requirements of both of the following paragraphs are met:

(A) The parent is absent because of education, training or employment — including absence while working or looking for work outside the area of his or her residence, such as long-haul truck driving, fishing, or active duty in the U.S. armed forces; and

(B) The other parent remains in the home.

(e) In the REF and TANF programs when a filing group includes more than one caretaker relative (see OAR 461-001-0000), a caretaker relative in the household group who is absent because of education, training, or employment -- including absence while working or looking for work outside the area of his or her residence, such as long-haul truck driving, fishing, or active duty in the U.S. armed forces.

(8) In the OSIP-EPD and OSIPM-EPD programs, the household group consists only of the individual applying for or receiving benefits.

The request may be oral or in writing. The request starts the application process.

(2) The date of request is one of the following:

(b) In the SNAP program, this section does not apply. See OAR 461-115-0040.

(c) In the GAM, OSIPM, QMB, REFM, and SAC programs, for a new applicant, the date of request is determined as follows:

(A) The day the request for medical benefits is received by a Department representative, except as described in paragraph (B) of this subsection.

(B) If the request for medical benefits is received by a Department representative no later than the next business day after medical services are received, the date of request is the day these medical services were received.

(d) In the OSIPM, QMB, REFM, and SAC programs, for a current recipient, the date of request is one of the following:

(A) The date the client reports a change requiring a redetermination of eligibility.

(B) The date the Department initiates a review.

(C) The date the client establishes a date of request by contacting the Department orally or in writing or by submitting an application.

(e) In the SFPSS program:

461-115-0050
When an Application Must Be Filed

(1) A client must file an application, or may amend a completed application, as a prerequisite to receiving benefits as follows:

(a) A client may apply for the TA-DVS program as provided in OAR 461-135-1220.

(b) In all programs except the TA-DVS program:

(A) Except as provided otherwise in this rule, a client wishing to apply for program benefits must submit a complete application on a form approved by the Department.

(B) An application is complete if all of the following requirements are met:

(i) All information necessary to determine the individual's eligibility and benefit amount is provided on the application for each individual in the filing group.

(ii) The applicant, even if homeless, provides a mailing address.

(iii) The application is signed. An individual required but unable to sign the application may sign with a mark, witnessed by another individual.

(iv) The application is received by the Department, except an electronic application (see OAR 461-001-0000) meets the requirements of this paragraph only when submitted to and received by the Department with an electronic signature.

(2) A new application is not required in the following situations:

(a) In the SNAP program, when a single application can be used both to determine a client is ineligible in the month of application and to determine the client is eligible the next month. This can be done when:

(A) Anticipated changes make the filing group (see OAR 461-110-0370) eligible the second month; or

(B) The filing group provides verification between 30 and 60 days following the filing date (see OAR 461-115-0040), under OAR 461-180-0080.

(b) In all programs except the SNAP program, when a single application can be used both to determine a client is ineligible on the date of request (see OAR 461-115-0030) and to determine the client is eligible when anticipated changes make the filing group eligible within 45 days from the date of request.

(c) When the case is closed and reopened during the same calendar month.

(d) When benefits were suspended for one month because of the level of income, and the case is reopened the month following the month of suspension.

(e) When reinstating medical benefits for a pregnant woman covered by OAR 461-135-0950, notwithstanding subsection (g) of this section.

(f) In the GAM, OSIPM, and QMB programs, when a client's medical benefits are suspended because the client lives in a public institution (see OAR 461-135-0950), if the inmate is released within 12 months of admission and the inmate provides notification to the Department within 10 days of the release.

(3) When a client establishes a new date of request (see OAR 461-115-0030) prior to the end of the month following the month of case closure, unless the Department determines a new application is required, a new application is not required in the following situations:

(a) In the OSIPM program, when the client's case closed due to failure to make a liability payment required under OAR 461-160-0610.

(b) In the OSIPM-EPD program, when the client's case closed due to failure to make a participant fee payment required under OAR 461-160-0800.

(4) A new application is required to add a newborn child to a benefit group (see OAR 461-110-0750) according to the following requirements:

(a) For the REF and TANF programs:

(A) A new application is not required if the child is listed on the application as "unborn" and there is sufficient information about the child to establish its eligibility.

(B) A new application is required if the child is not included on the application as "unborn."

(b) In the REFM program, no additional application is required to add a newborn to a benefit group receiving benefits from one of the listed programs if eligibility can be determined without submission of a new application.

(c) In the GAM, OSIPM, QMB, and REFM programs, no additional application is required to add an assumed eligible newborn to a benefit group currently receiving Department medical program benefits.

(d) In the ERDC and SNAP programs, an application is not required to add the child to the benefit group.

(e) In all programs other than ERDC, GAM, QMB, REF, REFM, SNAP, and TANF, an application is required.

(5) A new application is required to add an individual, other than a newborn child, to a benefit group according to the following requirements:

(a) In the ERDC and SNAP programs, a new application is not required.

(b) In the REF, REFM, and TANF programs, an individual may be added by amending a current application if the information is sufficient to determine eligibility; otherwise a new application is required.

(c) In all programs other than the ERDC, REF, REFM, SNAP, and TANF programs, a new application is required.

(6) A client whose TANF grant is closing may request ERDC orally or in writing.

(7) Except for an applicant for the SNAP program, a client may change between programs administered by the Department using the current application if the following conditions are met:

(a) The client makes an oral or written request for the change.

(b) The Department has sufficient evidence to determine eligibility and benefit level for the new program without a new application.

(c) The program change can be effected while the client is eligible for the first program.

(8) In the OSIP, OSIPM, and QMB programs, a new application is not required to redetermine eligibility if the following conditions are met:

(a) The client currently is receiving benefits from one of these programs; and

(b) The Department has sufficient evidence to redetermine eligibility for the same program or determine eligibility for the new program without a new application or by amending the current application.

Requirement to Pursue Assets

(1) In all programs, except the ERDC and SNAP programs, an individual must make a good faith effort to obtain any asset (other than support and medical coverage, which are covered in OAR 461-120-0340 and 461-120-0345, respectively) to which the individual has a legal right or claim, except as follows:

(a) A parent (see OAR 461-001-0000) or caretaker relative (see OAR 461-001-0000) who is exempt from participation in the JOBS program is not required to apply for unemployment insurance benefits.

(b) Except as specified by law, an individual applying for or receiving any program benefits from the Department is not required to apply for other programs it administers or for supplemental security income (SSI).

(c) An individual applying for the EA program is required to pursue, obtain, and use an asset only if the asset can be made available in time to meet the emergent need.

(d) An individual is not required to borrow money.

(e) An individual is not required to make a good faith effort to obtain any asset if the individual can show good cause for not doing so. Good cause means a circumstance beyond the ability of the individual to control.

(2) In all programs except the ERDC, SNAP, and medical assistance programs:

(a) The effect of failing to comply with this rule is that everyone in the filing group is ineligible. In addition, when a REF, SFPSS, or TANF program payment ends due to the penalty described in this subsection, eligibility for and the level of SNAP benefits are determined as if the individual were receiving benefits without the effects of this rule.

(b) The penalty provided by subsection (2)(a) of this rule is effective until all members of the filing group comply with the requirements of section (1) of this rule.

(3) In the medical assistance programs:

(a) An individual is ineligible for benefits if he or she fails to comply with the requirements of this rule.

(b) The penalty provided by section (3)(a) of this rule is effective until the individual complies with the requirements of section (1) of this rule.

Assumed Eligibility for Medical Programs

(1) This rule sets out when a client is assumed eligible for certain medical programs because the client receives or is deemed to receive benefits of another program.

(2) A pregnant woman who is eligible for and receiving benefits the day the pregnancy ends is assumed eligible for the OSIPM or SAC program until the last day of the calendar month in which the 60th day after the last day of the pregnancy falls.

(3) A pregnant woman who was eligible for and receiving medical assistance under any Medicaid program and becomes ineligible while pregnant is assumed eligible for Medicaid until the last day of the calendar month in which the 60th day after the last day of the pregnancy falls.

(4) A child (see OAR 461-001-0000) born to a mother eligible for and receiving OSIPM or SAC benefits is assumed eligible for medical benefits under this section until the end of the month the child turns one year of age.

(5) The following children are assumed eligible for SAC:

(a) A child who is the subject of an adoption assistance agreement with another state.

(b) A child in a state subsidized, adoptive placement, if an adoption assistance agreement is in effect between a public agency of the state of Oregon and the adoptive parents that indicates the child is eligible for Medicaid.

(6) The individuals described in subsection (a) and (b) of this section are assumed eligible for OSIPM (except OSIPM-EPD) unless subsection (c), (d), or (e) of this section applies:

(a) A recipient of SSI benefits.

(b) An individual deemed eligible for SSI under Sections 1619(a) or (b) of the Social Security Act (42 U.S.C. 1382h(a) or (b)), which cover individuals with disabilities whose impairments have not changed but who have become gainfully employed and have continuing need for OSIPM.

(c) An individual described in subsection (a) or (b) of this section who is in a nonstandard living arrangement (see OAR 461-001-0000) is not eligible for long-term care (see OAR 461-001-0000) services if the individual would otherwise be ineligible for OSIPM due to a disqualifying transfer of assets (OAR 461-140-0210 to 461-140-0300 regulate the effect of a transfer of assets on a client).

(d) An individual described in subsection (a) or (b) of the section who is in a nonstandard living arrangement is not assumed eligible for long-term care services if countable resources exceed the limit after performing the calculation under OAR 461-160-0580.

(e) An individual described in subsection (a) or (b) of the section who does not meet the pursuit of assets requirements (see OAR 461-120-0330), the health care coverage requirements (see OAR 461-120-0345), or the residency requirements (see OAR 461-120-0010) is not assumed eligible for OSIPM.

(7) For the purposes of this section the definition of a "child" means an unmarried individual under age 19 and includes natural, step, and adoptive children. A child found eligible for OSIPM is assumed eligible until the end of the twelfth month following the determination of the child's OSIPM eligibility unless the child:

(a) No longer meets the definition of a child given in this section;

(b) Moves out of state; or

(c) Voluntarily ends benefits.

(8) A client who receives both benefits under Part A of Medicare and SSI benefits is assumed eligible for the QMB-BAS program unless the individual does not meet the pursuit of assets requirements (see OAR 461-120-0330), the health care coverage requirements (see OAR 461-120-0345), or the residency requirements (see OAR 461-120-0010).

Categorical Eligibility for SNAP

(1) An individual is categorically eligible for SNAP benefits if the individual:

(a) Receives or is authorized to receive GA or SSI benefits;

(b) Receives or is authorized to receive cash, in-kind benefits, or services funded either under Title IV-A of the Social Security Act or by the state as part of the TANF maintenance of effort;

(c) Is deemed to be receiving SSI under Section 1619(a) or 1619(b) of the Social Security Act (42 U.S.C. 1382h(a) or (b)); or

(d) Is a member of a financial group (see OAR 461-110-0530) with countable (see OAR 461-001-0000) income less than 185 percent of the federal poverty level as described in OAR 461-155-0180(6) — and has received a pamphlet about Information and Referral Services.

(2) For an entire filing group to be categorically eligible for SNAP benefits, it must contain only clients who are categorically eligible for SNAP benefits. For the purpose of determining who is categorically eligible for SNAP benefits, in the ERDC and TA-DVS programs all members of the filing group are considered receiving the benefits of the program even if not all members receive the benefit.

(3) A filing group that is eligible for transition services or the TA-DVS program is considered receiving benefits for the entire period of eligibility even if benefits are not received during each month of that period.

(4) An individual categorically eligible for the SNAP program is presumed to meet the eligibility requirements for resources and countable and adjusted income limits. The individual is also presumed to meet the requirements for a social security number, sponsored alien information, and residency, if verified in a public assistance or medical assistance program.

(5) When a filing group contains both members who are categorically eligible for SNAP benefits and those who are not, a resource owned in whole or in part by a categorically eligible member is excluded.

(6) An individual may not be categorically eligible for SNAP benefits in either of the following circumstances:

(a) The individual is disqualified from receiving SNAP benefits because of an intentional program violation.

(b) The individual is a primary person (see OAR 461-001-0015) disqualified from receiving SNAP benefits for failure to comply with an OFSET activity or component contained in an OFSET case plan (see OAR 461-001-0020).

Eligibility for Pickle Amendment Clients; OSIPM

(1) An individual is eligible for OSIPM under this rule and the so-called Pickle amendment (Pub. L. No. 94 566, § 503, title V, 90 Stat. 2685 (1976)), if he or she meets all other eligibility requirements, and:

(a) Is receiving Social Security Benefits (SSB);

(b) Was eligible for and receiving SSI or state supplements but became ineligible for those payments after April 1977; and

(c) Would be eligible for SSI or state supplement if the SSB COLA increases paid under section 215(i) of the Social Security Act, after the last month the individual was both eligible for and received SSI or a supplement and was entitled to SSB, were deducted from current SSB benefits.

(2) The SSB amount received by the individual when he or she became ineligible for SSI or OSIP is used as the individual's countable Social Security income, for the purposes of the Pickle Amendment. If the amount cannot be determined using the information provided by the SSA, it is calculated in accordance with sections (3) and (5) of this rule.

(3) Determine the month in which the individual was entitled to Social Security and received SSI in the same month. Use the table in section (5) of this rule to find the percentage that applies to that month. Multiply the present amount of the individual's Social Security benefits by the applicable percentage. This amount, rounded down to the next lower whole dollar, is the individual's countable Social Security for purposes of this rule and the Pickle Amendment.

(4) Add the amount determined in accordance with section (2) or (3) of this rule to any other countable unearned income plus adjusted earned income of the individual, and if the total is less than the full SSI income standard for a single individual plus the $20 unearned income deduction (OAR 461-160-0550), the individual is eligible for OSIPM for purposes of this rule and the Pickle amendment.

(a) For spouses in the same financial group (see OAR 461-110-0530), determine the spouse's SSB benefit amount in the year the individual lost his/her SSI or perform the above calculation for the spouse's Social Security benefit using the same multiplier, regardless of whether or not the spouse received SSI, combine the results and add the subtotal to all other countable unearned and adjusted earned income.

(b) If the total is less than the full SSI standard for a couple plus the $20 unearned income deduction (OAR 461-160-0550), the couple is eligible for OSIPM for purposes of this rule and the Pickle amendment. All other financial and non-financial eligibility criteria must be met.

(5) The following guide contains the calculations used to determine the SSB for prior years (use this table only if you cannot determine the prior year's amount using information provided by SSA): [Calculations not included. See ED. NOTE.]

Estate Administration; Definitions

Effective July 18, 1995, for purposes of these rules (OAR 461-135-0832 to 461-135-0847) and ORS 93.268, 410.075, 411.694, 411.708, 411.795, 416.310, 416.340, and 416.350 the terms listed below have the meanings ascribed to them herein; provided, however, as used in these rules, any term has the same meaning as when used in a comparable context in the laws of the United States in effect on June 1, 1996, relating to the recovery of medical assistance paid by a state pursuant to 42 USC 1396 et. seq. relating to Grants to States for Medical Assistance Programs, unless a different meaning is clearly required or the term is specifically defined herein. The Department applies the definitions and procedures set forth in these rules to recoveries and claims made pursuant to ORS 411.708, 411.795, 416.310, 416.340, and 416.350.

(1) "Assets" means all income and resources of an individual, including any income or resources that an individual is entitled to at the time of death, including any income or resources to which the individual is entitled, but does not receive, because of action: by the individual; the individual's spouse (see OAR 461-001-0000); by a person, including a court or administrative body with legal authority to act in place of or on behalf of the individual; or by any person, including any court or administrative body, acting at the direction or upon the request of the individual.

(2) "Assign" means a person who acquires an interest in real or personal property or an asset pursuant to a written or oral assignment of such real or personal property or asset from a person with the legal right to assign it.

the monetary consideration furnished by the co-owner. The fractional share is based on the proportion the original ownership share or monetary consideration bore to the acquisition cost and, if applicable, capital additions for the property. The fractional share is not based on the dollar amount of contribution compared to the current market value of the property. For example, if one co-owner contributed $2,500 and the other $7,500 to the purchase price of a $10,000 property in 1960; in 1995, the property is appraised at $50,000. The co-owner who contributed $2,500 is considered to own 25% of the property in 1995.

(8) "Convincing evidence" includes, but is not limited to:

(a) Recorded documents of title.

(b) Unrecorded documents of title executed contemporaneously with the transaction or transfer at issue.

(ix) Other similar arrangement, such as an interspousal transfer of assets, including one facilitated by a court order, which occurred no earlier than 60 months prior to the first date of request established from the recipient's and the recipient's spouse's applications, or at any time thereafter, whether approved, withdrawn, or denied, for the assistance programs referenced in OAR 461-135-0835(2).

(22) "Ownership documents" mean any applicable documents, certificates or written evidence of title or ownership such as, but not limited to, recorded deeds, stock certificates, certificates of title, bills of sale or other similar documents evidencing ownership or legal title held by a person.

Limits on Estate Claims

(1) In the BCCTP, GA, GAM, OHP, OSIP, OSIPM, and QMB programs:

(a) The Department has a priority claim against the property or any interest therein belonging to the estate of any deceased person as provided in ORS Chapters 411 and 416. The Estate Administration Unit of the Department (EAU) is authorized to present and file such claim against the estate. It will be treated as a preferred claim and filed in a like manner as the claims of other creditors.

(b) In determining the extent of the estate resources subject to the Department's claim, except as provided in subsection (c) of this section, the Department must disregard resources in an amount equal to the value of resources excluded in the most recent eligibility determination under OAR 461-160-0855, based on payments received under a qualified partnership policy (see OAR 461-001-0000). The disregard of resources specific to the estate recovery claim applies to Medicaid benefits received after the effective date of the Medicaid eligibility determination in which a qualified partnership policy was considered and approved. The amount of any Medicaid assistance incurred in a prior Medicaid eligibility period where qualified partnership policy benefits were not considered would not be subject to the estate resource disregard.

(c) There is no disregard of resources under subsection (b) of this section if the client, or the spouse (see OAR 461-001-0000) of the client, at any time transferred the value of the qualified partnership policy excluded resource amount to another individual for less than fair market value prior to the death of the client or the client's surviving spouse, or exhausted the disregarded resource amount by purchasing things of value to the client or the client's surviving spouse while either was living.

(d) For a recipient who died prior to October 1, 2008:

(A) If there is a surviving spouse, the Department has a claim against the estate of the surviving spouse for assistance paid to the surviving spouse.

(B) In addition, the Department has a claim against the estate of the surviving spouse for assistance paid to the pre-deceased spouse, but only to the extent that the surviving spouse received property or other assets from the pre-deceased spouse through any of the following:

(i) Probate.

(ii) Operation of law.

(C) If estate recovery is deferred until the surviving spouse dies, the fair market value of the property subject to the Department's claim is determined based on the current value (see OAR 461-135-0832) of the property in the surviving spouse's estate.

(D) However, neither claim is enforceable until after the death of the surviving spouse (if any) and only when there is no surviving child under age 21 (see OAR 461-135-0832), no surviving blind child (see OAR 461-135-0832) of any age, and no surviving disabled child (see OAR 461-135-0832) of any age.

(e) For a recipient who died on or after October 1, 2008:

(A) If there is a surviving spouse, the Department has a claim against the estate of the surviving spouse for assistance paid to the surviving spouse.

(B) In addition, the Department has a claim against the estate of the recipient's spouse for assistance paid to the recipient, but only to the extent that the recipient's spouse received property or other assets from the recipient through any of the following:

(i) Probate.

(ii) Operation of law.

(iii) An interspousal transfer, including one facilitated by a court order, which occurs:

(I) Before, on, or after October 1, 2008; and

(II) No earlier than 60 months prior to the first date of request (see OAR 461-135-0832) established from the applications of the recipient and the recipient's spouse, or at any time thereafter, whether approved, withdrawn, or denied, for the assistance programs referenced in section (2) of this rule.

(C) If estate recovery is deferred until the recipient's spouse dies, the fair market value of the property subject to the Department's claim is determined based on the current value of the property in the estate of the recipient's spouse.

(D) However, neither claim is enforceable until after the death of the recipient's spouse (if any) and only when there is no surviving child under age 21, no surviving blind child of any age, and no surviving disabled child of any age.

(E) The October 1, 2010 amendment to paragraph (B) of this subsection applies to claims asserted on or after April 1, 2010.

(2) The amount of the claim is as follows:

(a) Any payments made at any age under the General Assistance provisions of ORS Chapter 411, categorized as GA, are recoverable from the estate of any deceased recipient or the estate of the recipient's spouse. In the GA and GAM programs, the amount of the claim will not exceed the total amount of cash and medical benefits paid. The claim will include home and community-based care (see OAR 461-001-0030) benefits. This applies to all General Assistance programs, even those that are no longer active.

(b) In the BCCTP, OSIP AD, OSIP OAA, OSIPM AD, OSIPM OAA, and QMB programs, the amount of the claim includes all GA category benefits paid at any age and all Title XIX benefits provided after the recipient reached age 55, except any QMB program payment. If the recipient was permanently institutionalized (see OAR 461-135-0832), the claim includes the total amount of all GA category benefits and Title XIX benefits paid at any age. This applies to all Old Age Assistance and Aid to the Disabled recipients, including recipients of home and community-based care. It also includes recipients covered by programs that are no longer active.

(c) In the OHP, OSIP AB, and OSIPM AB programs, the claim includes the total amount of GA category benefits paid at any age and all Title XIX benefits provided after the recipient reached age 55. If the recipient was permanently institutionalized, the claim includes the total amount of GA category and Title XIX benefits paid at any age. The claim includes home and community-based care benefits.

(d) In the OSIP, OSIPM-AB, OSIPM AD, and OSIPM-OAA programs, the amount of the claim also includes the total amount of GA category and Title XIX benefits provided to recipients who were age 55 to 64 on the date the GA category and Title XIX benefits were provided if the benefits were provided after July 18, 1995. GA category and Title XIX benefits will be considered to have been provided to a recipient on the day of provision of medical services for which medical assistance payments are made.

(3) The priority for payment of claims against the estate will be as established under ORS 115.125.

(4) EAU may nominate a personal representative for an estate if the Department has a claim and it appears that no person with a higher preference, as established in ORS 113.085, is willing to be the representative.

(5) Property disposal will be in accordance with OAR 461-135-0838.

Undue Hardship Waiver Criteria

(1) The Department may waive enforcement of any estate recovery claim if it finds that enforcing the claim would result in an undue hardship to the beneficiaries, heirs, or family members of the deceased client claiming entitlement to receive the assets of the deceased client.

(2) In determining whether an undue hardship exists, the Department may consider the following criteria:

(a) Whether enforcement of the claim would cause the waiver applicant to become eligible for assistance; and

(b) Whether enforcement of the claim would cause the waiver applicant, who would otherwise be eligible for assistance, to become homeless.

(3) Waiver of an estate recovery claim may include, but is not limited to, the following:

(a) Forgiveness of all or part of the claim, or any other relief the Department deems fit; or

(b) Taking a mortgage or trust deed in lieu of enforcement of the claim.

(4) No waiver will be granted if the Department finds that the undue hardship was created by resort to estate planning methods by which the waiver applicant or deceased client divested, transferred or otherwise encumbered assets, in whole or in part, to avoid estate recovery.

(5) No waiver will be granted if the Department finds that the undue hardship will not be remedied by the grant of the waiver.

Valuation of Life Estate, Reversionary Interest and Property

(1) Effective July 18, 1995, the value of an expressly created life estate or other interest in real or personal property or other asset measured by or valued with respect to a life span, including that of the relevant recipient of public assistance, is established by reference to the life estate valuation tables set forth in this rule and is valued as of the time of death of the recipient of public assistance irrespective of the actual life span of the measuring life. [Table not included. See ED. NOTE.]

(2) For assistance recovery purposes, the interest of a person in real or personal property or other asset held in joint tenancy with right of survivorship (including transfers with right of survivorship covered by ORS 93.180) or other form of concurrent ownership with one or more other persons with right of survivorship, other than a spouse or a transfer on death deed (see OAR 461-135-0832), is presumed to be the value of the fractional share held by the person. The fractional share of a person is presumed to be the share reflected in the ownership documents. Such presumption may be rebutted under the Consideration Furnished Test or by Convincing Evidence of the actual consideration contributed by another co-owner of the property or asset. In the absence of any stated fractional share on the Ownership Documents, each co-owner is presumed to have an equal fractional share of ownership of the whole, unless rebutted by the Consideration Furnished Test or as otherwise established by Convincing Evidence.

(3) With respect to Real or Personal Property or an Asset held jointly by spouses, as Tenants in Common, tenants by the entirety, with right of survivorship or otherwise, such property or asset is conclusively deemed to be owned one-half by each spouse; provided, however, that in the event the Ownership Documents expressly set forth a different fractional share of ownership, and such fractional share is lawful in the appropriate jurisdiction, then the fractional share set forth in such Ownership Documents is presumed to be the fractional share owned by each spouse. Such presumption may be rebutted by Convincing Evidence.

(4) With respect to a transfer on death deed, for assistance recovery purposes, the transferor is presumed to own the full value of the real property. If there is more than one transferor their respective interests are determined in accordance with sections (2) and (3) of this rule.

(5) The Value of Real Property at, or prior to, the Time of Death is determined by establishing the fair market value of the property to the satisfaction of the Department. The burden of proof for establishing the Real Property's fair market value to the satisfaction of the Department lies with the person or, after the Time of Death of the person, with the person's representative, and may be established by any methodology, including the provision of an appraisal performed by an appraiser certified or licensed in the applicable jurisdiction, that the Department determines most accurately reflects the Value of the Real Property. The Value of liens and other encumbrances against the Real Property that is established by Convincing Evidence, if appropriate, is subtracted from the fair market value of the Real Property in order to derive a net fair market value of the Real Property.

(6) The Value of Personal Property consisting of shares of stock or other securities traded on an exchange is evidenced by the average of the bid and ask prices on the date of the Time of Death, or the next trading day thereafter. If such bid and ask prices are unavailable for certain stocks or securities, the Value may be established by a written estimate from the corporation or other entity issuing such shares or securities of the Value, or if such estimate is unobtainable, an estimate from a broker, trader or other Person with knowledge in the field of the Value. Liens and encumbrances established by Convincing Evidence against shares of stock or other securities is subtracted from the value of such stock or securities established by the foregoing procedure.

(7) The Value of tangible Personal Property, including, but not limited to, livestock, furniture, vehicles and other tangible items may be established:

(a) By a written estimate from a Person knowledgeable in the field of appraising such items of Personal Property; or

(b) From published sources such as catalogs of antiques or collectibles, blue books or other Convincing Evidence that accurately establishes the Value of the property. Liens and encumbrances established by Convincing Evidence against tangible personal property is subtracted from the value of such property established by the foregoing procedure.

(8) The Value of intangible Personal Property not otherwise provided for in this rule, is established by a written estimate from a Person knowledgeable in the field of appraising such items of intangible Personal Property. Liens and encumbrances established by Convincing Evidence against tangible personal property is subtracted from the value of such property established by the foregoing procedure.

(9) Notwithstanding anything to the contrary contained in this rule, in cases where an inventory has been filed with the appropriate court or an estate tax return has been filed with the appropriate governmental authority, the Value of any Real or Personal Property or other Asset is presumptively established by the amounts set forth on such inventory or estate tax return. The presumptive Value established by such inventory or return may be rebutted by Convincing Evidence.

Specific Requirements; Retroactive Eligibility

(1) Clients are evaluated for retroactive eligibility as follows:

(a) Clients applying for Medicaid are evaluated for retroactive eligibility in the OSIPM, QMB-DW, QMB-SMB, QMB-SMF, REFM, and SAC programs. This includes deceased individuals who would have been eligible for Medicaid covered services had they, or someone acting on their behalf, applied.

(b) Clients found ineligible for the OSIPM or SAC program solely because they do not meet the citizenship requirements of OAR 461-120-0125. Clients eligible under this subsection are eligible only for CAWEM program benefits (see OAR 461-135-1070).

(2) If eligible for medical assistance retroactively, the client's eligibility cannot start earlier than the date indicated by OAR 461-180-0140.

(3) In the QMB-BAS program, there are no retroactive medical benefits.

Availability of Resources

(1) Except as provided in sections (2) to (4) of this rule:

(a) In the SNAP program, a resource owned jointly by a client and another person is available in its entirety to the client.

(b) In all other programs except in the OSIPM and QMB programs, jointly owned resources are available to members of a financial group (see OAR 461-110-0530) only to the extent they own the resource.

(c) In the OSIPM and QMB programs, jointly-owned liquid resources (including bank and other financial institution accounts) are assumed to be available in their entirety to the client. The client has the right to provide evidence rebutting the ownership assumption. For the purposes of this rule, "liquid resources" include cash as well as other resources that can be converted to cash within 20 business days.

(2) A resource is not available to a client in each of the following situations:

(a) The client has a legal interest in the resource, but the resource is not in the client's possession and the client is unable to gain possession of it. In the REF and REFM programs, if a resource remains in the applicant's country of origin, it is not available.

(b) The resource is jointly owned with others not in the financial group who are unwilling to sell their interest in the resource, and the client's interest is not reasonably saleable.

(c) The client verifiably lacks the competence to gain access to or use the resource and there is no legal representative available to act on the client's behalf.

(d) The client is a victim of domestic violence (see OAR 461-001-0000) and:

(A) Attempting to use the resource would subject the client to risk of domestic violence; or

(B) The client is using the resource to avoid the abusive situation.

(e) Except as provided in OAR 461-145-0540, the resource is included in an irrevocable or restricted trust and cannot be used to meet the basic monthly needs of the financial group.

(3) A resource is not considered available during the time the owner does not know he or she owns the resource.

(4) If a resource is subject to an early withdrawal penalty, the amount of the penalty is not available.

Adjustments to the Disqualification for Asset Transfer

(1) The disqualification imposed under OAR 461-140-0260 is not adjusted once applied in the SNAP program.

(2) In all other programs, the disqualification ends if the transfer that caused the disqualification is rescinded. The duration of the disqualification is recalculated if the terms of the transfer are modified.

(3) In the GA, GAM, OSIP, OSIPM, and REFM programs, the Department may waive the disqualification if the disqualification would create an undue hardship on the client. For purposes of this section, the disqualification would create an undue hardship if the requirements of subsections (a) and (b) of this section are met:

(a) The client has no other means for meeting his or her needs. The client has the burden of proving that no other means exist by---

(A) Exploring and pursuing all reasonable means to recover the assets to the satisfaction of the Department, including legal remedies and consultation with an attorney; and

(B) Cooperating with the Department to take action to recover the assets.

(b) The disqualification would deprive the client of---

(A) Medical care such that the client's health or life would be endangered; or

(B) Food, clothing, shelter, or other necessities of life without which the health or life of the client would be endangered.

(4) As authorized by ORS 411.620, the Department retains the authority to bring a civil suit or action to set aside a transfer of assets for less than fair market value and may seek recovery of all costs associated with such an action.

(5) Notwithstanding the granting of an undue hardship waiver under section (3) of this rule, the Department is not precluded from recovering public assistance or medical assistance from any assets in which the client held an interest, or in which the client previously held an interest, at the time the undue hardship waiver was granted.

461-145-0220
Home

(1) Home defined: A home is the place where the filing group lives. A home may be a house, boat, trailer, mobile home, or other habitation. A home also includes the following:

(a) Land on which the home is built and contiguous property.

(A) In all programs except the GA, GAM, OSIP, OSIPM, QMB, and SNAP programs property must meet all the following criteria to be considered contiguous property:

(i) It must not be separated from the land on which the home is built by land owned by people outside the financial group (see OAR 461-110-0530).

(ii) It must not be separated by a public right-of-way, such as a road.

(iii) It must be property that cannot be sold separately from the home.

(B) In the GA, GAM, OSIP, OSIPM, QMB, and SNAP programs, contiguous property is property not separated from the land on which the home is built by land owned by people outside the financial group.

(b) Other dwellings on the land surrounding the home that cannot be sold separately from the home.

(2) Exclusion of home and other property:

(a) For a client who has an initial month (see OAR 461-001-0000) of long-term care on or after January 1, 2006:

(A) For purposes of this subsection:

(i) The definition of "child" in OAR 461-001-0000 does not apply.

(ii) "Child" means a biological or adoptive child who is:

(I) Under age 21; or

(II) Any age and meets the Social Security Administration criteria for blindness or disability.

(B) The equity value of a home is excluded if the requirements of at least one of the following subparagraphs are met:

(i) The child of the client occupies the home.

(ii) The spouse of the client occupies the home.

(iii) The equity in the home is $543,000 or less, and the requirements of at least one of the following sub-subparagraphs are met:

(I) The client occupies the home.

(II) The home equity is excluded under OAR 461-145-0250.

(III) The home is listed for sale per OAR 461-145-0420.

(iv) Notwithstanding OAR 461-120-0330, the equity in the home is more than $543,000 and the client is unable legally to convert the equity value in the home to cash.

(b) For all other filing groups, the value of a home is excluded when the home is occupied by any member of the filing group.

(c) In the SNAP program, the value of land is excluded while the group is building or planning to build their home on it, except that if the group owns (or is buying) the home they live in and has separate land they intend to build on, only the home in which they live is excluded, and the land they intend to build on is treated as real property in accordance with OAR 461 145 0420.

(3) Exclusion during temporary absence: If the value of a home is excluded under section (2) of this rule, the value of this home remains excluded in each of the following situations:

(a) In all programs except the GA, GAM, OSIP, OSIPM, and QMB programs, during the temporary absence of all members of the filing group from the property, if the absence is due to illness or uninhabitability (from casualty or natural disaster), and the filing group intends to return home.

(b) In the SNAP program, when the financial group is absent because of employment or training for future employment.

(c) In the GA, GAM, OSIP, OSIPM, and QMB programs, when the client is absent to receive care in a medical institution, if one of the following is true:

(A) The absent client has provided evidence that he or she will return to the home. The evidence must reflect the subjective intent of the client, regardless of the client's medical condition. A written statement from a competent client is sufficient to prove the intent.

(B) The home remains occupied by the client's spouse, child, or a relative dependent on the client for support. The child must be less than 21 years of age or, if over the age of 21, blind or an individual with a disability as defined by SSA criteria.

(d) In the REF, REFM, and TANF programs, when all members of the filing group are absent because:

(A) The members are employed in seasonal employment and intend to return to the home when the employment ends; or

(B) The members are searching for employment, and the search requires the members to relocate away from their home. If all members of the filing group are absent for this reason, the home may be excluded for up to six months from the date the last member of the filing group leaves the home to search for employment. After the six months, if a member of the filing group does not return, the home is no longer excluded.

461-145-0250

Income-Producing Property

(1) Income from income producing property (see OAR 461-001-0000) is counted as follows:

(a) If a member of the financial group (see OAR 461-110-0530) actively manages the property 20 hours or more per week, the income is treated in the same manner as self-employment income (see OAR 461-145-0910, 461-145-0920, and 461-145-0930).

(b) If a member of the financial group does not actively manage the property 20 hours or more per week, the income is counted as unearned income with exclusions allowed only in accordance with OAR 461-145-0920. In the SNAP program, if the financial group owns more than one property, the exclusions for one property may not be used to offset income from a different property.

(2) The equity value (see OAR 461-001-0000) of income-producing property is treated as follows:

(a) In the EA and ERDC programs, it is excluded.

(b) In the SNAP program, it is counted as a resource except to the extent described in each of the following situations:

(A) If the property produces an annual countable income similar to other properties in the community with comparable market value, the equity value of the property is excluded.

(B) The property is excluded under OAR 461-145-0600.

(C) The equity value of income-producing livestock, poultry, and other animals is excluded.

(D) If selling the resource would produce a net gain to the financial group of less than $1,500, the equity value is excluded.

(c) In the GA, GAM, OSIP, OSIPM, and QMB programs, it is counted as a resource, except:

(A) If the non-business income-producing property (including houses or apartments for rent and land other than the primary residence) produces an annual countable income of at least six percent of its equity value, the value of the property is excluded up to a maximum of $6,000.

(B) If the annual countable income drops below six percent of the non-business property's equity value due to circumstances beyond the client's control, the client has up to 24 months from the end of the tax year in which the earnings dropped below six percent to meet the six percent requirement.

(C) The total equity value is excluded (regardless of value or rate of return) if either all the requirements of subparagraphs (i), (ii), and (iii) or subparagraph (iv) or subparagraph (v) are met:

(i) The property is used in the trade or business of a member of the financial group, as evidenced by two or more of the following:

(I) The good faith intention of making a profit.

(II) Its use is part of a regular occupation for a member of the financial group.

(III) Holding out to others as being engaged in the selling of goods or services.

(IV) Continuity of operations, repetition of transactions, or regularity of activities.

(ii) The property is in current use or, if not in use for reasons beyond the control of the financial group, there must be a reasonable expectation that the required use will resume.

(iii) The property is essential to the client's self-support.

(iv) The government has issued a permit granting the client to engage in income-producing activity on or with the property.

(v) Personal property is used by an employee for work.

(d) In the REF, REFM, and TANF programs, it is counted as a resource, except that in the TANF program, it is excluded for a self-employed client participating in the microenterprise (see OAR 461-001-0025) component of the JOBS program.

Veterans' Benefits

(1) Veterans' benefits, other than the educational and training and rehabilitation program benefits, are treated as follows:

(a) Except as specified in sections (2) and (5) of this rule, monthly payments are counted as unearned income.

(b) Other payments are counted as periodic or lump sum income (see OAR 461-140-0110 and 461-140-0120).

(2) Veterans' benefits that include aid-and-attendance payments are treated as follows:

(a) For OSIP and OSIPM clients receiving long-term care or home and community-based care (see OAR 461-001-0030):

(A) When determining eligibility, the entire veterans' benefit payment is excluded.

(B) When calculating monthly benefits or patient liability, the entire veterans' benefit payment is counted as unearned income.

(C) Payments for services not covered by the Department's programs are excluded.

(D) If the client receives a payment covering a previous period of eligibility, the client is required to turn over to the Department the full amount of the payment up to the cost of institutional and home and community-based care provided to the client during the months covered by the payment. A client's failure to reimburse the Department in this instance constitutes an overpayment of public assistance in accordance with OAR 461-195-0501 and 461-195-0521 and ORS 411.640 and 411.690. Any excess veterans' benefit payment made to the client is counted as lump sum or periodic income.

(b) For all other clients not covered under subsection (a) of this section:

(A) In the SNAP program, aid-and-attendance payments used to pay for an attendant are treated as a reimbursement and excluded (see OAR 461-145-0440). The remaining benefits, if any, are counted as unearned income.

(B) In the OSIPM and QMB programs, the aid-and-attendance payments are excluded. The remaining benefits are counted unless excluded under another rule or another section of this rule.

(C) Reimbursements paid to the client for costs and services already paid for by the Department are third-party resources and may be recovered from the client as an overpayment of public assistance pursuant to OAR 461-195-0501, 461-195-0521, and 461-195-0551. Any unrecovered third-party resource or payment above the actual cost is counted as lump-sum or periodic income (see OAR 461-140-0110 and 461-140-0120).

(3) Educational benefits from the United States Veterans Administration are treated in accordance with OAR 461-145-0150.

(4) A subsistence allowance from a training and rehabilitation program of the United States Veterans Administration is treated ---

(a) In the SNAP program, as earned income (see OAR 461-145-0130).

(b) In all other programs, as unearned income.

(5) The following payments are excluded:

(a) Payments under 38 USC 1805 to biological children of Vietnam veterans who are born with spina bifida.

(b) Payments under 38 USC 1815 to children with birth defects born to female Vietnam veterans.

Prospective or Retrospective Eligibility and Budgeting; ERDC, REF, REFM, SNAP, TANF

In the ERDC, REF, REFM, SNAP, and TANF programs, the Department determines how and when to use prospective or retrospective eligibility (see OAR 461-001-0000) and budgeting (see OAR 461-001-0000) as follows:

(1) For the initial month (see OAR 461-001-0000):

(a) In the ERDC program, income is budgeted so the anticipated amount is the same for each month, including the initial month.

(b) For a SNAP case in CRS, the Department uses actual income (see subsection (h) of this section) in the initial month.

(c) For a SNAP program case in SRS, actual income is used in the initial month if that income is not reflective of ongoing monthly income due to a new or terminated source or a significant change in ongoing income. All other income is processed under section (3) of this rule.

(d) In the REF and TANF programs, ongoing income, processed under section (2) of this rule, is used in the initial month, except when the source of income is a new or terminated source. When there is a new or terminated source of income, actual income is used in the initial month.

(e) In the REFM program, the Department uses only the initial month for eligibility and budgeting.

(f) The Department uses prospective eligibility and budgeting under OAR 461-150-0020 for cases not covered under subsections (a) to (e) of this section, including for a client who leaves a filing group because of domestic violence (see OAR 461-001-0000) and enters a domestic violence shelter (see OAR 461-001-0000) or safe home (see OAR 461-001-0000).

(g) No supplement is issued based on incorrectly anticipated information.

(h) "Actual income" is the income already received in the initial month plus all the income that reasonably may be expected to be received within the initial month.

(2) Income is budgeted so that the anticipated amount is the same for each month. The type of income is determined and calculated as follows:

(a) Income that must be annualized is calculated under OAR 461-150-0090 to arrive at a monthly figure.

(b) Educational income (see OAR 461-145-0150) is assigned to the months it is intended to cover, regardless of when it is received. The income is prorated over these months.

(c) Ongoing stable income (see OAR 461-001-0000) is anticipated under OAR 461-150-0070.

(d) Ongoing variable income (see OAR 461-001-0000) is anticipated under OAR 461-150-0080.

(e) Periodic income (see OAR 461-001-0000) is anticipated under OAR 461-140-0100 and 461-140-0110.

(f) Lump-sum income (see OAR 461-001-0000) is anticipated under OAR 461-140-0100, 461-140-0200, and 461-140-0123.

(g) In the ERDC program, for temporary income and other situations when the child care need will last two consecutive months or less, the income is anticipated to be received in the months of child care need and calculated under OAR 461-150-0080.

(3) For an ongoing month (see OAR 461-001-0000):

(a) For a benefit group (see OAR 461-110-0750), the Department uses prospective eligibility and budgeting. The type of income is determined and calculated under section (2) of this rule.

(b) If the budgeting method changes from prospective to retrospective, the Department treats income from a terminated source that was counted prospectively as follows:

(A) If the actual amount received was less than or equal to the anticipated amount, the income is excluded.

(B) If the actual amount received was greater than the anticipated amount, the Department counts the difference between actual and anticipated amounts.

(4) When an individual is added to an ongoing filing and benefit group, prospective budgeting is used to determine eligibility.

(5) In the ERDC and SNAP programs, income reported on the Interim Change Report form under OAR 461-170-0011 and 461-170-0102 is used to determine eligibility and benefit level. Income for the fifth month of the SNAP program certification period (see OAR 461-001-0000) is used to determine the income for the seventh and following months in the certification period if the client anticipates it will remain the same throughout the period. If the client anticipates the income will change, the client and the Department jointly estimate the income for the remaining months of the certification period. For a client who had self-employment income annualized, no change is made unless there is a substantial change in the revenue of the business.

Income and Payment Standard; OSIPM

(1) A client who is assumed eligible per OAR 461-135-0010(6) is presumed to meet the income limits for the OSIPM program.

(2) A client in a nonstandard living arrangement (see OAR 461-001-0000) meeting the requirements of OAR 461-135-0750, who is not assumed eligible and does not meet the income standards set out in section (4) of this rule, must have countable income that is equal to or less than 300 percent of the full SSI standard for a single individual (except OSIPM-EPD) or have established a qualifying trust as specified in 461-145-0540(9)(c).

(3) The OSIPM (except OSIPM-EPD) adjusted income standard takes into consideration the need for shelter (housing and utilities), food, and other items. The standard is itemized as follows: [Table not included. See ED. NOTE.]

(4) A client, other than one identified in section (1), (2), or (6) of this rule, must have adjusted income below the standard in this section. The Department determines the adjusted number in the household under OAR 461-155-0020. [Table not included. See ED. NOTE.]

(5) In the OSIPM program, individuals in a nursing facility or an ICF-MR are allowed the following amounts for clothing and personal incidentals:

(a) For clients who receive a VA pension based on unreimbursed medical expenses (UME), $90 is allowed.

(b) For all other clients, $30 is allowed.

(6) In the OSIPM-EPD program, the adjusted earned income limit is 250 percent of the federal poverty level for a family of one.

Resource Limits

(1) In the EA program, all countable (see OAR 461-001-0000) resources must be used to meet the emergent need.

(2) In the ERDC and REFM programs, there is no resource limit.

(3) In the GA, GAM, OSIP, and OSIPM programs, the resource limit is as follows:

(a) $2,000 for a one-person need group (see OAR 461-110-0630) and $3,000 for a two-person need group.

(b) $1,000 for an OSIP need group eligible under OAR 461 135 0771. The total cash resources may not exceed $500 for a one-person need group or $1,000 for a two-person need group.

(c) $5,000 is the limit for the OSIP-EPD and OSIPM-EPD programs (see OAR 461-001-0035 and 461-145-0025 for funds that may be excluded as approved accounts).

(4) In the REF and TANF programs, the resource limit is:

(a) $2,500 for any of the following:

(A) A new REF or TANF applicant for benefits.

(B) REF and TANF need groups which do not have at least one caretaker relative or parent who is receiving TANF.

(C) REF and TANF need groups which have at least one JOBS participant who is:

(i) Receiving TANF and not progressing in an activity (see OAR 461-001-0025) of an open JOBS case plan (see OAR 461-001-0025); or

(ii) Serving a current JOBS disqualification.

(b) $10,000 for a need group not covered under subsection (a) of this section.

(5) In the QMB program, the resource limit is amended in January of each year based on the low income subsidy for Medicare Part D as published by the Health Resources and Services Administration of the U.S. Department of Health and Human Services. Effective January 1, 2014 the resource limit is $7,160 for a one-person need group and $10,750 for a need group containing two or more individuals.

(6) In the SNAP program, the resource limit is:

(a) $3,250 for a financial group (see OAR 461-110-0530) with at least one member who is elderly (see OAR 461-001-0015) or an individual with a disability (see OAR 461-001-0015).

(b) $2,000 for all other financial groups.

461-160-0580

Excluded Resource; Community Spouse Provision (OSIPM except OSIPM-EPD)

In the OSIPM (except OSIPM-EPD) program:

(1) This rule applies to an institutionalized spouse (see OAR 461-001-0030) who has applied for benefits because he or she is in or will be in a continuous period of care (see OAR 461-001-0030).

(2) Whether a legally married (see OAR 461-001-0000) couple lives together or not, the determination of whether the value of the couple's resources exceeds the eligibility limit for the institutionalized spouse for OSIPM program is made as follows:

(a) The first step is the determination of what the couple's combined countable resources were at the beginning of the most recent continuous period of care. (The beginning of the continuous period of care is the first month of that continuous period.)

(A) Division 461-140 and 461-145 rules applicable to OSIPM describe which of the couple's resources are countable resources, and are

applicable to determine whether a community spouse's resources are countable, even if the rule only applies to OSIPM clients.

(B) The countable resources of both spouses are combined.

(C) At this point in the computation, the couple's combined countable resources are considered available equally to both spouses.

(b) The second step is the calculation of one half of what the couple's combined countable resources were at the beginning of the continuous period of care. The community spouse's half of the couple's combined resources is treated as a constant amount when determining eligibility.

(c) The third step is the determination of the community spouse's resource allowance. The community spouse's resource allowance is the largest of the four following amounts:

(A) The community spouse's half of what the couple's combined countable resources were at the beginning of the continuous period of care, but not more than $117,240.

(B) $23,448 (the state community-spouse resource allowance).

(C) A court-ordered community spouse resource allowance. In this paragraph and paragraph (2)(f)(C) of this rule, the term court-ordered community spouse resource allowance means a court-ordered community spouse resource allowance that, in relation to the income generated, would raise the community spouse's income to a court-approved monthly maintenance needs allowance. In cases where the client became an institutionalized spouse on or after February 8, 2006, this resource allowance must use all of the client's available income and the community spouse's income to meet the community spouse's monthly maintenance needs allowance before any resources are used to generate interest income to meet the allowance.

(D) After considering the income of the community spouse and the income available from the institutionalized spouse, an amount which, if invested, would raise the community spouse's income to the monthly maintenance needs allowance. The amount described in this paragraph is the amount required to purchase a single premium immediate annuity to make up the shortfall; and the amount described in this paragraph is considered only if the amount described in subparagraph (i) of this paragraph is larger than the amount described in subparagraph (ii); it is the difference between the following:

(i) The monthly income allowance computed in accordance with OAR 461-160-0620.

(ii) The difference between:

(I) The sum of gross countable income of the community spouse and the institutionalized spouse; and

(II) The applicable need standard under OAR 461-160-0620(3)(c).

(d) The fourth step is the determination of what the couple's current combined countable resources are when a resource assessment is requested or the institutionalized spouse applies for OSIPM. The procedure in subsection (2)(a) (first step) of this rule is used.

(e) The fifth step is the subtraction of the community spouse's resource allowance from the couple's current combined countable resources. The resources remaining are considered available to the institutionalized spouse.

(f) The sixth step is a comparison of the value of the remaining resources to the OSIPM resource standard for one person (under OAR 461-160-0015(4)(a)). If the value of the remaining resources is at or below the standard, the institutionalized spouse meets this eligibility requirement. If the value of the remaining resources is above the standard, the institutionalized spouse cannot be eligible until the value of the couple's combined countable resources is reduced to the largest of the four following amounts:

(A) The community spouse's half of what the couple's combined countable resources were at the beginning of the continuous period of care (but not more than $117,240) plus the OSIPM resource standard for one person.

(B) $23,448 (the state community-spouse resource allowance), plus the OSIPM resource standard for one person.

(C) A court-ordered community spouse resource allowance plus the OSIPM resource standard for one person. (See paragraph (2)(c)(C) of this rule for a description of the court-ordered community spouse resource allowance.)

(D) The OSIPM resource standard for one person plus the amount described in the remainder of this paragraph. After considering the income of the community spouse and the income available from the institutionalized spouse, add an amount which, if invested, would raise the community spouse's income to the monthly maintenance needs allowance. This amount is the amount required to purchase a single premium immediate annuity to make up the shortfall. Add this amount only if the amount described in subparagraph (i) of this paragraph is larger than the amount described in subparagraph (ii); it is the difference between the following:

(i) The monthly income allowance computed in accordance with OAR 461-160-0620.

(ii) The difference between:

(I) The sum of gross countable income of the community spouse and the institutionalized spouse; and

(II) The applicable need standard under OAR 461-160-0620(3)(c).

(3) Once eligibility has been established, resources equal to the community spouse's resource allowance (under subsection (2)(c) of this rule) must be transferred to the community spouse if those resources are not already in that spouse's name. The institutionalized spouse must indicate his or her intent to transfer the resources and must complete the transfer to the community spouse within 90 days. This period may be extended for good cause. These resources are excluded during this period. After this period, resources owned by the institutionalized spouse but not transferred out of that spouse's name will be countable and used to determine ongoing eligibility.

(4) The provisions of paragraph (2)(c)(C) of this rule requiring income to be considered first may be waived if the Department determines that the resulting community resource allowance would create an undue hardship on the spouse of the client.

461-160-0620

Income Deductions and Client Liability; Long-Term Care Services or Home and Community-Based Care; OSIPM

In the OSIPM program:

(1) Deductions from income are made for a client residing in or entering a long-term care facility or receiving home and community-based care (see OAR 461-001-0030) as explained in subsections (3)(a) to (3)(h) of this rule.

(2) Except as provided otherwise in OAR 461-160-0610, the liability of the client is determined according to subsection (3)(i) of this rule.

(3) Deductions are made in the following order:

(a) One standard earned income deduction of $65 is made from the earned income in the OSIPM-AD and OSIPM-OAA programs. The deduction is $85 in the OSIPM-AB program.

(b) The deductions under the plan for self-support as allowed by OAR 461-145-0405.

(c) One of the following need standards:

(A) A $30 personal needs allowance for a client receiving long-term care services.

(B) A $90 personal needs allowance for a client receiving long-term care services who is eligible for VA benefits based on unreimbursed medical expenses. The $90 allowance is allowed only when the VA benefit has been reduced to $90.

(C) The OSIPM maintenance standard for a client who receives home and community-based care.

(d) A community spouse monthly income allowance is deducted from the income of the institutionalized spouse to the extent that the income is made available to or for the benefit of the community spouse, using the following calculation.

(A) Step 1 — Determine the maintenance needs allowance. $1,939 is added to the amount over $582 that is needed to pay monthly shelter expenses for the principal residence of the couple. This sum or $2,931 whichever is less, is the maintenance needs allowance. For the purpose of this calculation, shelter expenses are the rent or home mortgage payment (principal and interest), taxes, insurance, required maintenance charges for a condominium or cooperative, and the full standard utility allowance for the SNAP program (see OAR 461-160-0420).

(B) Step 2 — Compare maintenance needs allowance with community spouse's countable income. The countable income of the community spouse is subtracted from the maintenance needs allowance determined in step 1. The difference is the income allowance unless the allowance described in step 3 is greater.

(C) Step 3 — If a spousal support order or exceptional circumstances resulting in significant financial distress require a greater income allowance than that calculated in step 2, the greater amount is the allowance.

(e) A dependent income allowance as follows:

(A) For a case with a community spouse, a deduction is permitted only if the monthly income of the eligible dependent is below $1,939. To determine the income allowance of each eligible dependent:

(i) The monthly income of the eligible dependent is deducted from $1,939.

(ii) One-third of the amount remaining after the subtraction in paragraph (A) of this subsection is the income allowance of the eligible dependent.

(B) For a case with no community spouse:

(i) The allowance is the TANF adjusted income standard for the client and eligible dependents.

(ii) The TANF standard is not reduced by the income of the dependent.

(f) Costs for maintaining a home if the client meets the criteria in OAR 461-160-0630.

(g) Medical deductions allowed by OAR 461-160-0030 and 461-160-0055 are made for costs not covered under the state plan. This includes the public and private health insurance premiums of the community spouse and the client's dependent.

(h) After taking all the deductions allowed by this rule, the remaining balance is the adjusted income.

(i) The client liability is determined as follows:

(A) For a client receiving home and community-based care (except a client identified in OAR 461-160-0610(4)), the liability is the actual cost of the home and community-based care or the adjusted income of the client, whichever is less. This amount must be paid to the Department each month as a condition of being eligible for home and community-based care. In OSIPM-IC, the liability is subtracted from the gross monthly benefit.

(B) For a client who resides in a nursing facility, a state psychiatric hospital, an Intermediate Care Facility for the Mentally Retarded, or a mental health facility, there is a liability as described at OAR 461-160-0610.

(4) The deduction used to determine adjusted income for a GA and GAM client receiving long-term care services or home and community-based care is as follows:

(a) One standard earned income deduction of $65 is made from the earned income for a client who is not blind; or

(b) One standard earned income deduction of $85 is made from the earned income for a client who is blind.

Immediate Issuance of Benefits

Clients whose cases are new, reopened or restored are eligible for immediate issuance of benefits if the standard procedure for issuing benefits would not meet an emergent need of the client, as provided in this rule.

(1) A client with an emergent need is entitled to immediate cash benefits.

(2) A client eligible for expedited SNAP service (see OAR 461-135-0575) is entitled to receive the benefits within seven calendar days after filing an application.

Notice Situation; Benefit Standard Changes; Not SNAP

(1) If the basis for a decision to reduce, suspend, or close a grant of public assistance or medical assistance is a change to a benefit standard, a timely continuing benefit decision notice is sent at least 30 calendar days before the effective date of the action, or if the Department has fewer than 60 days before the effective date to implement a change to a benefit standard:

(a) At least 15 working days before the effective date of the action for clients in the Address Confidentiality Program (see OAR 461-001-0000).

(b) At least 10 working days before the effective date of the action for clients not in the Address Confidentiality Program.

(2) For purposes of this rule, the term "change to a benefit standard" means a change to the applicable inflation-adjusted contribution, income, or payment standard. It does not include the annual adjustment to a standard based on a federal or state inflation rate.

(3) This rule does not apply in the SNAP program.

Notice Situation; Client Moved or Whereabouts Unknown

(1) To end benefits if a client has moved out of state, the Department sends the following decision notice (see OAR 461-001-0000):

(a) In the ERDC, GA, GAM, OSIP, OSIPM, QMB, REF, REFM, and TANF programs:

(A) The Department sends a timely continuing benefit decision notice (see OAR 461-001-0000) to clients who have moved out of state.

(B) The Department sends a basic decision notice (see OAR 461-001-0000) if the client becomes eligible for benefits in another state.

(b) In the SNAP program, no decision notice is required if the Department determines that the benefit group (see OAR 461-110-0750) has moved out of Oregon.

(2) If Department mail or benefits have been returned with no forwarding address, the Department gives the client the benefits if the client's whereabouts become known during the period covered by the returned benefits. See OAR 461-165-0130 for when SNAP benefits can be sent out of state. If the client's whereabouts are unknown, the Department ends benefits by sending the following decision notice to their last known address:

(a) In all programs except the SNAP program, a basic decision notice.

(b) In the SNAP program, no decision notice is required.

Effective Dates; Adding a New Person to an Open Case

(1) In the following programs, the effective date for adding an individual (other than an assumed eligible newborn) to the benefit group (see OAR 461-110-0750) is one of the following:

(a) In the GAM, OSIPM, and REFM programs, it is whichever occurs first:

(A) The date the client requests benefits, if the client was eligible as of that date.

(B) The date all eligibility requirements are met.

(b) In the SNAP program:

(A) If adding the individual increases benefits, it is the first of the month after the filing group (see OAR 461-110-0370) reports the person has joined the household group (see OAR 461-110-0210). If verification is requested, the effective date for the change is:

(i) The first of the month following the date the change was reported if verification is received by the Department no later than the due date for the verification.

(ii) The first of the month following the date the verification is received by the Department, if received after the verification due date.

(B) If adding the individual reduces benefits, it is the first of the month following the month in which the notice period ends (see OAR 461-175-0050).

(c) In the GA, OSIP, REF, SFPSS, and TANF programs, it is the date on which all eligibility requirements are met and verified. If benefits have been issued for the month and adding the new person would reduce benefits, the person is added the first of the month following the month in which the notice period ends (see OAR 461-175-0050).

(d) In the QMB-BAS and QMB-DW programs, it is the first of the month after the new individual has been determined to meet all QMB eligibility criteria and the Department receives the required verification.

(e) In the QMB-SMB program, it is the first of the month in which the new individual has been determined to meet all QMB-SMB eligibility criteria and the Department receives the required verification.

(f) In the SFPSS and TANF programs, for adding a child (see OAR 461-001-0000) to be covered by a provider-direct child care payment, it is the first of the month in which the child is added to the benefit group.

(2) In the following programs, the effective date for adding an assumed eligible newborn to the benefit group is one of the following:

(a) In the GAM, OSIPM, and REFM programs, it is the date of birth if all the following paragraphs are true. If any of the following paragraphs is not true, the newborn is added to the benefit group in accordance with section (1) of this rule.

(A) A request for benefits is made within one year of the birth. For purposes of this paragraph, a telephone call from the attending physician, another licensed practitioner, a hospital, or the family is considered a request for benefits.

(B) The newborn has continuously lived with the mother since the date of birth.

(C) The mother was receiving GAM or OSIPM on the date of birth, even if she is not currently eligible for benefits.

(b) In the SFPSS and TANF programs, it is:

(A) The date of birth, if all eligibility requirements are met and verified within 45 days after the birth; or

(B) The date all eligibility factors are met and verified, if the verification is completed more than 45 days after the date of birth.

(3) In the ERDC program, the effective date for adding an individual to the need group (see OAR 461-110-0630) or benefit group is as follows:

(a) If adding the individual to the need group will decrease the copay, the effective date is the first of the month after the client reports the person has joined the household.

(b) If adding the individual to the need group increases the copay — for instance, because the individual receives income--the effective date is the first of the month following the end of the decision notice period (see OAR 461-175-0050).

(c) The effective date for adding a child to the benefit group - that is, covering the cost of the child's care — is the earliest of the following:

(A) For newborns, the date of birth, if all eligibility requirements are met and verified within 45 days after the birth.

(B) For all other children, the first of the month in which the change is reported, if all eligibility requirements are met and verified within 45 days.

(C) For newborns and other children, if eligibility cannot be verified within 45 days, the effective date is the first of the month in which all eligibility factors are met and verified.

Effective Dates; Initial Month Medical Benefits

The effective date for starting medical benefits for an eligible client is as follows:

(1) In the GAM, OSIPM, QMB-DW, and REFM programs:

(a) Except as provided for in subsections (b) and (c) of this section:

(A) If the client meets all eligibility requirements on the date of request (see OAR 461-115-0030), it is the date of request. An OSIPM program client who is assumed eligible under OAR 461-135-0010(7) meets "all eligibility requirements" for the purposes of this section as follows:

(i) Effective the first day of the month of the initial SSI payment if the client is age 21 or older.

(ii) Effective the first day of the month prior to the month of the initial SSI payment if the client is under the age of 21.

(B) If the client does not meet all eligibility requirements on the date of request, it is the first day following the date of request that all eligibility requirements are met.

(b) If the client does not complete the application within the time period described in OAR 461-115-0190 (including the authorized extension), the determination of an effective date requires a new date of request.

(c) Except for OSIPM long-term care services eligibility, if an HKC program client meets all eligibility requirements for the OSIPM program, it is the first of the month following the month in which the Department makes the eligibility determination.

(2) In the QMB-BAS program, it is the first of the month after the benefit group (see OAR 461-110-0750) has been determined to meet all QMB-BAS program eligibility criteria and the Department receives the required verification.

(3) In the QMB-SMB and QMB-SMF programs, it is:

(a) The first of the month in which the benefit group meets all program eligibility criteria and the Department receives the required verification; or

(b) The first of the month in which the Low Income Subsidy (LIS) information is received by the Social Security Administration (SSA), if the SMB or SMF program application was generated by the electronic transmission of LIS data from the SSA and the benefit group meets all program eligibility criteria.

(4) Retroactive eligibility is authorized under certain circumstances in some medical programs (see paragraph (1)(a)(A) of this rule, OAR 461-135-0875, and 461-180-0140).

Effective Dates; Retroactive Medical Benefits

(1) In the OSIPM program:

(a) If an applicant requests and is eligible for retroactive medical benefits, the earliest date the applicant may be eligible is three months before the date of request (see OAR 461-115-0030). For example, if the applicant requests benefits on July 10th, eligibility may begin as early as April 10.

(b) After the earliest date is established, eligibility is determined on a month-by-month basis. The period starts on the earliest established date and

ends on the date the applicant requests benefits. For example, if the applicant requests benefits on August 10th, the earliest date is May 10. Eligibility is established separately for May 10 through May 31, June 1 through June 30, July 1 through July 31, and August 1 through August 9.

(2) If an applicant requests and is eligible for retroactive QMB DW, the earliest date the applicant may be eligible is three months before the date of request.

(3) If a QMB SMB or QMB-SMF applicant requests and is eligible for retroactive payment of Part B Medicare premiums, the earliest date the applicant may be eligible is three months before the date of request.

(4) If an applicant applying for REFM is eligible for retroactive medical benefits, the earliest the applicant may be eligible is the most recent of the following:

(a) The date the applicant arrived in the United States; or

(b) Three months before the date of request.

Client Pay-In System

(1) Except as provided in sections (2) and (3) of this rule, a client who receives home and community-based care (see OAR 461-001-0030) in-home services and has countable income above the payment standard for the benefit group must pay to the Department the lesser of the following amounts as a condition of being eligible for home and community-based care in-home services:

(a) The client's adjusted income (see OAR 461-160-0620).

(b) The actual cost of home and community-based care in-home services.

(2) The service liability of clients in the OSIP-IC and OSIPM-IC programs is calculated in accordance with section (1) of this rule. Clients in the OSIP-IC and OSIPM-IC programs do not pay the Department directly. The IC service payment of these clients will be reduced by the amount of their liability.

(3) A client exempt from payments under OAR 461-160-0610 is exempt from the payment required by this rule.

(4) Each month, the Department will send the client an invoice requesting payment based on the calculation in section (1) of this rule.

(5) Payments must be received by the Department in the month of service.

Methods of Recovering Overpayments

(1) In addition to judicial process, the Department may recover an overpayment (see OAR 461-195-0501) through an agreed repayment plan,

reduction in benefits, voluntary payment from the client or authorized representative (see OAR 461-115-0090), and offset of the debt.

(2) The Department reduces current benefits to collect an overpayment only as follows:

(a) In the GA and OSIP programs, the Department may recover an overpayment by reducing cash benefit payments by the lesser of the following:

(A) The total overpayment amount;

(B) The total benefit amount; or

(C) Ten percent of the client's total benefit requirement at the standard of need.

(b) In the REF, SFPSS, and TANF programs, the Department:

(A) Allows only half of the 50 percent earned income deduction described in OAR 461-160-0160.

(B) Reduces the benefit payment by 10 percent of the total benefit requirement of the benefit group (see OAR 461-110-0750) at the adjusted income payment standard. The reduced benefit payment after such reduction, when combined with all other income may not be less than 90 percent of the benefit group's adjusted income payment standard for a family with no income. In the TANF program, the cooperation incentive (see OAR 461-135-0210) is not included in the calculations prescribed by this paragraph.

(c) In the SNAP program, unless the Department and the client agree to a repayment plan and the filing group (see OAR 461-110-0370) meets the terms of the plan, the Department collects an overpayment from a liable member of a filing group participating in the SNAP program by reducing the SNAP program benefit allotment of the benefit group each month as follows:

(A) For an overpayment caused by client error (see OAR 461-195-0501) or administrative error (see OAR 461-195-0501), 10 percent of the group's monthly allotment or $10 a month, whichever is greater.

(B) For an overpayment caused by an IPV (see OAR 461-195-0601), 20 percent of the group's monthly entitlement or $20 a month, whichever is greater.

(3) In the child care programs:

(a) The Department may not recover an overpayment through reduction of a client's child care program benefits.

(b) When a child care program provider is liable for a child care overpayment (see OAR 461-195-0501) the Department may recover the child care overpayment by reducing up to 100 percent any future child care payment for which the provider bills the Department.

(4) The Department may recover an overpayment by offset as follows:

(a) Using the collection services provided by the Department of Revenue and any other state or federal agency to collect a liquidated claim established by:

(A) A court judgment.

(B) A confession of judgment.

(C) A document signed or acknowledged by the debtor that acknowledges the debt, such as:

(i) The Department-designated form to acknowledge an IPV.

(ii) A plea bargain agreement.

(iii) Any other document acknowledging the overpayment.

(D) A written notification of overpayment from the Department to the debtor, advising the debtor of the basis and amount of the overpayment and the right to request a hearing, if the debtor has exhausted his or her rights of administrative appeal.

(E) A written communication from the debtor acknowledging the debt.

(b) The amount of any retroactive payment or restoration of lost benefits otherwise payable to the client, when the retroactive payment corrects a prior underpayment of benefits in the program in which the overpayment occurred.

(c) Through use of a warrant authorized by ORS 411.703. Upon issuance of the warrant, the Department may issue a notice of garnishment in accordance with ORS 18.854.

(d) In the SNAP program, by offsetting the full amount of the overpayment against restored benefits owed to the benefit group or to another benefit group that a liable member of the overpaid group has joined.

(5) A confession of judgment is used in the case of a client error (see OAR 461-195-0501) overpayment. The Department may not file a confession of judgment while the client receives public assistance or medical assistance, and may file one only if the client has refused to agree to or has defaulted on a repayment plan.

(6) The Department may not take collection action against a filing group while a member of the filing group is working under a JOBS Plus agreement.

Financial Group

(1) Except as provided in section (5) of this rule, a "financial group" consists of the filing group members whose income and resources the Department considers in determining eligibility (see OAR 461-001-0000) and benefits.

(2) In the ERDC, GA, OSIPM-EPD, QMB, and SNAP programs, the financial group consists of each individual in the filing group.

(3) In the REF and REFM programs, the financial group consists of each individual in the filing group, except the following:

(a) A caretaker relative (see OAR 461-001-0000) other than a parent (see OAR 461-001-0000) who chooses not to be included in the need group (see OAR 461-110-0630); and

(b) An individual who is eligible for and receives an SSI cash payment.

(4) In the OSIPM (except OSIPM-EPD) program:

(a) For the purposes of this section of this rule, "ineligible" means an individual not eligible to receive either SSI or TANF program benefits.

(b) When an individual lives in a standard living arrangement (see OAR 461-001-0000):

(A) Except as provided in paragraph (B) of this subsection, each member of the filing group is in the financial group.

(B) When an individual is not assumed eligible (see OAR 461-135-0010) for OSIPM:

(i) The individual's spouse (see OAR 461-001-0000) who is ineligible and in the filing group is not in the financial group if the individual's adjusted income (see OAR 461-001-0000) using the deductions allowed under OAR 461-160-0550(3) is greater than the OSIPM program adjusted income standard for a need group of one under OAR 461-155-0250. The financial group consists only of the individual.

(ii) If the ineligible spouse's remaining income after allocation (see OAR 461-160-0551) to each ineligible child is equal to or less than the difference between the couple and the individual SSI standards: the spouse who is ineligible is not considered to be in the financial group when determining income eligibility; however, the spouse is considered to be in the financial group when determining resource eligibility.

(c) When an individual lives in a nonstandard living arrangement (see OAR 461-001-0000), the financial group consists only of the individual applying for benefits, except that the community spouse (see OAR 461-001-0030) is included in the financial group to determine initial eligibility. At initial eligibility, the resources of the community spouse are considered and the provisions of OAR 461-160-0580 apply. The income of the community spouse is not considered in determining initial eligibility, and the community spouse is not included in any other eligibility group.

(5) In the TANF program, the financial group consists of each individual in the filing group except the following:

(a) A caretaker relative, other than a parent, who chooses not to be included in the need group and has income less than the non-needy countable income limit standard (see OAR 461-155-0030) for the filing group of the caretaker relative;

(b) The spouse of a caretaker relative, when the caretaker relative meets the requirements under subsection (a) of this section;

(c) A dependent child of a caretaker relative when the caretaker relative meets the requirements under subsection (a) of this section;

(d) An individual in the filing group solely due to the requirements of OAR 461-110-0310(2)(b); and

(e) An individual who is eligible for and receives an SSI cash payment.

Offices Where Clients Apply

(1) For all programs, applicants must apply at the branch office (see OAR 461-001-0000) serving the area in which they live or work. Applicants temporarily in another area of the state should apply at the branch office serving that area. Applicants may also apply at other locations for the following programs:

(a) Homeless clients may apply with a Community Action Agency for the Housing Stabilization program.

(b) Applicants may apply for health coverage by:

(A) Calling the Cover Oregon toll-free number;

(B) Applying through the Cover Oregon online portal; or

(C) Contacting a federally qualified health center, a qualified hospital, a disproportionate-share hospital, or another entity authorized by rule.

(2) The Department has designated liaison branch offices for some groups of applicants (such as patients in state medical institutions and refugees). Those applicants must apply at the designated liaison branch office.

(3) SNAP applicants may apply at an office of the Social Security Administration if all members of the filing group (see OAR 461-110-0370) are applying for or are receiving SSI, and the filing group has not applied for or received SNAP benefits during the previous 30 days.

Periodic Redeterminations; Not EA, ERDC, EXT, OHP, REF, REFM, SNAP, or TA-DVS

The Department periodically redetermines the eligibility of clients for benefits and assigns a redetermination date by which the next determination is required. The Department selects the redetermination date based on the client's circumstances and according to the following requirements:

(1) In the GA and GAM programs, the Department determines eligibility each 12 months.

(2) In the SAC program, the Department redetermines eligibility at least once every 12 months.

(3) In the OSIP and OSIPM programs, the Department determines eligibility each 12 months for clients who are not eligible for SSI. No redetermination is required for clients who are eligible for SSI.

(4) In the QMB program, the Department determines eligibility each 12 months for clients who are not eligible for SSI. For QMB recipients who are also eligible for OSIPM, a redetermination for QMB is completed with the redetermination of OSIPM.

(5) In the SFPSS program, the Department redetermines eligibility at least once every 12 months. The Department redetermines program eligibility by redetermining eligibility for the TANF program.

(6) In the TANF program, benefits will end the last day of the certification period (see OAR 461-001-0000). The Department redetermines eligibility according to the following schedule:

(a) At least once every six months for each of the following:

(A) Clients not participating in an activity (see OAR 461-001-0025) of an open case plan (see OAR 461-001-0025).

(B) Clients who are currently serving a JOBS disqualification.

(b) At least once every 12 months for all other clients.

461-120-0210
Requirement to Provide Social Security Number (SSN)

(1) In the CAWEM, ERDC, REF, and REFM programs, a member of a need group (see OAR 461-110-0630) or a benefit group (see OAR 461-110-0750) is not required to provide or apply for a social security number (SSN). In these programs, the Department may request that a member of the filing group or need group provide an SSN on a voluntary basis.

(2) In the EA and TA-DVS programs, an individual must provide his or her SSN if the individual can.

(3) Except as provided in section (5) of this rule, in the OSIPM, QMB, and SAC programs:

(a) An individual is not required to apply for or provide an SSN:

(A) If the individual does not have an SSN; and

(B) May only be issued an SSN for a valid non-work reason in accordance with 20 CFR 422.104.

(b) When subsection (a) does not apply, to be included in the benefit group, an individual must:

(A) Provide a valid SSN for the individual; or

(B) Apply for a number if the individual does not have a valid one and provide the SSN when it is received.

(4) Except as provided in sections (5) to (7) of this rule, in the SNAP and TANF programs, to be included in the need group, an individual (other than an unborn) must:

(a) Provide a valid SSN for the individual; or

(b) Apply for a number if the individual does not have one and provide the SSN when it is received.

(5) In the GA, GAM, OSIPM, QMB, SAC, and SNAP programs, an individual is not required to apply for or provide an SSN if the individual is:

(a) A member of a religious sect or division of a religious sect that has continuously existed since December 31, 1950; and

(b) Adheres to its tenets or teachings that prohibit applying for or using an SSN.

(6) The requirement to apply for or provide the SSN is delayed as follows:

(a) In the SAC program, a newborn who is assumed eligible based on the eligibility of the mother of the newborn may receive benefits until one year of age without meeting the SSN requirements of section (4) of this rule.

(b) In the SNAP program:

(A) An applicant eligible for expedited services may receive his or her first full month's allotment without meeting the SSN requirement but must meet the requirement before receiving a second full month's allotment.

(B) Before applying for or providing an SSN, a newborn may be included in a benefit group (see OAR 461-110-0750) for six months following the date the child is born or until the group's next recertification, whichever is later.

(c) In the TANF program, without meeting the SSN requirements of section (4) of this rule, a newborn child born in Oregon may be added to the benefit group for six months following the child's date of birth or until the next redetermination of eligibility of the filing group (see OAR 461-110-0330), whichever is sooner.

(7) In the SNAP program:

(a) An individual who refuses or fails without good cause to provide or apply for an SSN when required by this rule is ineligible to participate. This period of ineligibility continues until the individual provides the SSN to the Department.

(b) An individual may participate in SNAP for one month in addition to the month of application, if the individual can show good cause why the application for an SSN has not been completed. To continue to participate, the individual must continue to show good cause each month until the application for an SSN is complete with Social Security Administration.

(c) An individual meets the good cause requirement in subsections (a) and (b) of this section if the individual provides evidence or collateral information that the individual applied for or made every effort to supply the Social Security Administration with the necessary information to complete the application process. Delays due to illness not associated with a disability (see OAR 461-001-0015), lack of transportation, or temporary absence do not qualify as good cause under this rule.

(8) This rule authorizes or requires the collection of an SSN for each of the following purposes.

(a) The determination of eligibility for benefits. The SSN is used to verify income and other assets, and match with other state and federal records such as the Internal Revenue Service (IRS), Medicaid, child support, Social Security benefits, and unemployment benefits.

(b) The preparation of aggregate information and reports requested by funding sources for the program providing benefits.

(c) The operation of the program applied for or providing benefits.

(d) Conducting quality assessment and improvement activities.

(e) Verifying the correct amount of payments, recovering overpaid benefits, and identifying any individual receiving benefits in more than one household.

Assignment of Support Rights; Not SNAP

In all programs except the SNAP program:

(1) To be eligible for any program funded in whole or in part with federal grants under Title IV-A (TANF) of the Social Security Act, the filing group must assign to the state its right to receive, from any other person, child support that accrues during any time period that the group receives assistance, not to exceed the total amount of assistance paid.

(2) To be eligible for any program funded in whole or in part with federal grants under Title IV-E of the Social Security Act, the filing group must

assign to the state its right to receive, from any other person, child support that has accrued or that accrues during any time period that the group receives assistance, not to exceed the total amount of assistance paid.

(3) To be eligible for the OSIPM program, a filing group must assign to the state the right of any Medicaid-eligible child in the filing group to receive any cash medical support that accrues while the group receives assistance, not to exceed the total amount of assistance paid.

(4) Cash medical support received by the Department will be retained by the Department as is necessary to reimburse the Department for OSIPM program medical assistance payments made on behalf of an individual with respect to whom such assignment was executed. Once yearly, the remainder of such amount retained will be paid to such individual.

(5) When the Department provides benefits or services for the support of a child who is in a filing group in any program funded in whole or in part with a federal grant under Title IV-A (TANF) or IV-E of the Social Security Act, the right to child support for that child that any individual may have is deemed to be assigned to the state by operation of law.

Medical Assignment

In the GAM, OSIPM, QMB, REFM, and SAC programs:

(1) By signing the application for assistance, a client agrees to turn over the rights of each member of the benefit group (see OAR 461-110-0750) to reimbursement for medical care costs to the Department.

(a) If a client or the client's authorized representative (see OAR 461-115-0090) refuses to assign the rights to reimbursement for medical care costs to the Department, the filing group is ineligible until the client complies with this requirement. This includes a client eligible for long term care (see OAR 461-001-0000) insurance payments who fails to comply as described in subsection (b) of this section.

(b) When a client has long term care insurance, the client complies with the requirements of this rule by reducing the Department's share of the long term care service costs by taking the following actions for the entire period of time that the client is eligible for Department-covered long term care services:

(A) For a client in a nursing facility:

(i) Submitting the necessary paperwork to receive the long term care insurance payments and designating the long term care facility as the payee for the long term care insurance benefits; or

(ii) When the insurance company will not pay the long term care insurance benefits directly to the long term care facility, submitting the necessary paperwork to receive insurance payments and then promptly turning over the long term care insurance payments to the long term care facility upon receipt.

(B) For a client in community based care (see OAR 461-001-0000):

(i) Submitting the necessary paperwork to receive the long term care insurance payments and designating the Department as the payee for the long term care insurance benefits; or

(ii) When the insurance company will not pay the long term care insurance benefits directly to the Department, submitting the necessary paperwork to receive the insurance payments and then promptly turning over the long term care insurance payments to the Department upon receipt.

(2) The Department may refuse to pay medical expenses for anyone in the benefit group when another party or resource should pay first.

(3) The amount the Department may collect in reimbursement is limited to the amount of medical services paid by the Department on the client's behalf.

(4) The Department establishes an overpayment if it is discovered after-the-fact that during any period of time a client or another individual submitting a long term care insurance claim on the client's behalf received a long term care insurance payment that was not turned over to the long term care facility or Department as required by subsection (1)(b) of this rule.

Clients Required to Obtain Health Care Coverage and Cash Medical Support; GAM, OSIPM

This rule explains the obligation of clients to obtain health care coverage and cash medical support for members of the benefit group (see OAR 461-110-0750) in the GAM and OSIPM programs.

(1) Unless excused from the requirements of this section for good cause defined in OAR 461-120-0350, each adult client must assist the Department and the Division of Child Support of the Department of Justice in establishing paternity for each of his or her children and obtaining an order directing the non-custodial parent (see OAR 461-001-0000) of a child (see OAR 461-001-0000) in the benefit group to provide:

(a) Cash medical support for that child; and

(b) Health care coverage for that child.

(2) Each adult client must make a good faith effort to obtain available coverage under Medicare.

(3) To be eligible for the GAM and OSIPM programs, once informed of the requirement, an individual who is able to must apply for, accept, and maintain cost-effective, employer-sponsored health insurance (see OAR 461-155-0360). In the GAM and OSIPM programs, the client is not required to incur a cost for the health insurance.

(4) An individual who fails to meet an applicable requirement in sections (1), (2), or (3) of this rule is removed from the need group (see OAR 461-110-0630).

(5) In the case of an individual failing to meet the requirements of section (1) of this rule, the Department applies the penalty after providing the client with notice and opportunity to show the provisions of OAR 461-120-0350 apply.

(6) The penalty provided by this rule ends when the client meets the requirements of this rule.

Clients Excused for Good Cause from Compliance with Requirements to Pursue Child Support, Health Care Coverage, and Medical Support

(1) A client is excused from the requirements of OAR 461-120-0340(1) and 461-120-0345(1)(a) if:

(a) The client's compliance would result in emotional or physical harm to the dependent child (see OAR 461-001-0000) or to the caretaker relative (see OAR 461-001-0000). The statement of the caretaker relative alone is prima facie evidence that harm would result;

(b) The child was conceived as a result of incest or rape and efforts to obtain support would be detrimental to the dependent child. The statement of the caretaker relative alone is prima facie evidence on the issues of conception and detrimental effect to the dependent child;

(c) Legal proceedings are pending for adoption of the needy child; or

(d) The parent is being helped by a public or licensed private social agency to resolve the issue of whether to release the child for adoption.

(2) In the GAM and REFM programs, a pregnant client is excused from the requirements of OAR 461-120-0345.

Determining Primary Wage Earner (PWE); TANF

(1) The primary wage earner (PWE) is the parent who earned the most money in the 24 months before requesting assistance.

(2) Once a parent is determined to be the PWE, their status cannot change while the family remains continuously eligible for cash assistance, unless:

(a) The other parent later provides evidence that they should have been the PWE at the time of application; or

(b) The parent who is the PWE is out of the household group for at least one full calendar month. If so, the branch office must redetermine the PWE.

Effect of Strikes

(1) For the purposes of this rule, "striker" means anyone participating in a strike or concerted stoppage of work by employees (including a stoppage by reason of the expiration of a collective-bargaining agreement) or any concerted slowdown or other concerted interruption of operations by employees. An individual is not a striker if the individual is:

(a) An employee affected by a lockout;

(b) An individual who goes on strike but who is exempt (see OAR 461-130-0305) from participating in an employment program under this division of rules the day prior to the strike, unless exempt solely on the ground that the individual is employed; or

(c) A client who is not part of a bargaining unit on strike and does not want to cross a picket line due to fear of personal injury or death.

(2) In the EA, REF, and TANF programs, a filing group is ineligible for program benefits during any month in which a parent (see OAR 461-001-0000) in the filing group is a striker. If any other member of the filing group is a striker, only that individual is ineligible.

(3) In the SNAP program:

(a) A household containing a striker is not eligible to participate in the program unless the household was eligible for benefits the day prior to the date the member became a striker.

(b) An eligible household is not entitled to an increased allotment as the result of a decrease in the income of a need group (see OAR 461-110-0630) member on strike.

(c) The eligibility of a filing group (see OAR 461-110-0370) containing a striker is determined by adding to the income of the group's members who are not strikers the greater of the striker's current income or the striker's income immediately before the strike. Deductions used to determine benefits and eligibility for a household subject to the net income eligibility standard are calculated for the month of application as for any other household.

(d) A striker is subject to the registration requirements of this division of rules unless exempt from participating in an employment program on the day of application.

(4) A need group (see OAR 461-110-0630) may not be denied TANF program benefits based on section (3) of this rule, or based on not meeting OAR 461-125-0170(1)(c) or (d), if the caretaker relative is one of the following:

(b) A teen parent (see OAR 461-001-0000) returning to high school or equivalent.

(C) The family has a caretaker relative who is not the custodial parent and at least 50 percent of the dependent children are Klamath Tribes members.

(c) The family is eligible for the Klamath Tribes TANF program or would be eligible for the Klamath Tribes TANF program if not for the failure of the family to cooperate with program requirements.

Any education or training allowable under an approved case plan must be less than one year in length. For the purposes of this rule, "higher education" means education that meets the requirements of one of the following subsections:

(a) Public and private universities and colleges and community colleges that offer degree programs regardless of whether a high school diploma is required for the program. However, GED, ABE, ESL, and high school equivalency programs at these institutions are not considered higher education.

(b) Vocational, technical, business, and trade schools that normally require a high school diploma or equivalency certificate for enrollment in the curriculum or in a particular program at the institution. However, programs at those institutions that do not require the diploma or certificate are not considered higher education.

(4) Eligibility for REF and REFM program benefits is limited to the first eight months in the United States:

(a) For an individual who meets the alien status requirements of OAR 461-120-0125(8)(a), (c), (d), or (e), the month that the individual enters the U.S. counts as the first month.

(b) For an individual who meets the alien status requirements of OAR 461-120-0125(8)(b), (f), or (g), the month that the individual was granted the individual's status counts as the first month.

(c) For an individual who meets the alien status requirements of OAR 461-120-0125(8)(h):

(A) If the individual enters the U.S. with the special immigrant status, the month that the individual enters the U.S. counts as the first month.

(B) If the individual is granted special immigrant status after they have already entered the U.S., then the month in which the special immigrant status was granted counts as the first month.

(d) Months in the United States are counted as whole months. There is no prorating of months, except as described in OAR 461-193-0320.

(5) For an individual who meets the requirements of section (4) of this rule:

(a) When the individual resides in Clackamas, Multnomah, or Washington counties:

(A) The individual is not eligible to receive REF, TANF, or TANF-related employment services through the Department. To receive benefits, the individual is required to participate in the Refugee Case Service Project (RCSP) program. This individual is referred to their local resettlement agency to be enrolled in the RCSP program and receives all other Department services through the individual's local Department office.

(B) An individual who no longer meets the requirements of section (4) of this rule is no longer eligible to receive cash or case management services through the RCSP program. If this individual has been in the United States for 12 months or less, the individual is referred to the New Arrival Employment Services (NAES) program contractor for employment services.

(b) When the individual resides in counties other than Clackamas, Multnomah, and Washington, the RCSP program is not available. The individual is served at the individual's local Department office.

(6) Except for QMB, eligibility for all Medicaid and CHIP programs must be determined prior to determining eligibility for the REFM program.

(7) Eligibility for the TANF program must be determined prior to the REF program.

(8) An REF program client may not participate in the Pre-TANF program.

Medical Coverage for Refugees; REFM

(1) REFM benefits are the same medical coverage as any Medicaid or CHIP program, except the QMB and CAWEM programs.

(2) A client is not required to meet the financial eligibility criteria for REFM if the client meets all the non-financial eligibility criteria for REFM and:

(a) The client loses eligibility for any Medicaid or CHIP program except the QMB and CAWEM programs; or

(b) The client had refugee-related medical assistance established in another state based on refugee status granted by the United States Citizenship and Immigration Services, and moved to Oregon within the client's first eight months in the United States.

(3) A client who is determined eligible for REFM will maintain eligibility for REFM for the remainder of their first eight months in the United States even if the client loses eligibility for REF due to having income equal to or over the REF countable (see OAR 461-001-0000) income and adjusted income (see OAR 461-001-0000) limits (see OAR 461-155-0030).

Eligibility for Inmates and Residents of State Hospitals

(1) This rule sets out additional restrictions on the eligibility of inmates and residents of state hospitals for programs covered by Chapter 461 of the Oregon Administrative Rules.

(2) Definition of an "inmate".

(a) An inmate is an individual living in a public institution who is:

(A) Confined involuntarily in a local, state or federal prison, jail, detention facility, or other penal facility, including an individual being held involuntarily in a detention center awaiting trial or an individual serving a sentence for a criminal offense;

(B) Residing involuntarily in a facility under a contract between the facility and a public institution where, under the terms of the contract, the facility is a public institution;

(C) Residing involuntarily in a facility that is under governmental control; or

(D) Receiving care as an outpatient while residing involuntarily in a public institution.

(b) An individual is not considered an inmate when:

(A) The individual is released on parole, probation, or post-prison supervision;

(B) The individual is on home- or work-release, unless the individual is required to report to a public institution for an overnight stay;

(C) The individual is staying voluntarily in a detention center, jail, or county penal facility after his or her case has been adjudicated and while other living arrangements are being made for the individual; or

(D) The individual is in a public institution pending other arrangements as defined in 42 CFR 435.1010.

(3) Definition of a "public institution".

(a) A public institution is any of the following:

(A) A state hospital (see ORS 162.135).

(B) A local correctional facility (see ORS 169.005): a jail or prison for the reception and confinement of prisoners that is provided, maintained and operated by a county or city and holds individuals for more than 36 hours.

(C) A Department of Corrections institution (see ORS 421.005): a facility used for the incarceration of individuals sentenced to the custody of the Department of Corrections, including a satellite, camp, or branch of a facility.

(D) A youth correction facility (see ORS 162.135):

(i) A facility used for the confinement of youth offenders and other individuals placed in the legal or physical custody of the youth authority, including a secure regional youth facility, a regional accountability camp, a residential academy and satellite, and camps and branches of those facilities; or

(ii) A facility established under ORS 419A.010 to 419A.020 and 419A.050 to 419A.063 for the detention of children, wards, youth, or youth offenders pursuant to a judicial commitment or order.

(b) As used in this rule, the term public institution does not include:

(A) A medical institution as defined in 42 CFR 435.1010 including the Secure Adolescent Inpatient Program (SAIP) and the Secure Children's Inpatient Program (SCIP);

(B) An intermediate care facility as defined in 42 CFR 440.140 and 440.150;

(C) A publicly operated community residence that serves no more than 16 residents, as defined in 42 CFR 435.1009; or

(D) A child-care institution as defined in 42 CFR 435.1009 with respect to:

(i) Children for whom foster care maintenance payments are made under title IV-E of the Social Security Act; and

(ii) Children receiving TANF-related foster care under title IV-A of the Social Security Act.

(4) Definition of serious mental illness. An individual has a serious mental illness if the individual has been diagnosed by a psychiatrist, a licensed clinical psychologist or a certified non-medical examiner as having dementia, schizophrenia, bipolar disorder, major depression or other affective disorder or psychotic mental disorder other than a substance abuse disorder and other than a disorder that is both--

(a) Caused primarily by substance abuse; and

(b) Likely to no longer meet the applicable diagnosis if the substance abuse discontinues or declines.

(5) An individual who resides in a public institution, meets the definition of a serious mental illness (see section (4) of this rule), and applies for medical assistance between 90 and 120 days prior to the expected date of the person's release from the public institution may be found eligible for medical assistance. If the individual is determined to be eligible, the effective date of the individual's medical assistance is the date the individual is released from the institution.

(6) A client who becomes a resident of a state hospital has medical benefits suspended for up to twelve full calendar months if the client is at least 22 years of age and under 65 years of age. When a client with suspended medical benefits is no longer a resident of the state hospital, medical benefits are reinstated effective the first day the client is no longer a resident, if the client continues to meet eligibility for the medical program.

(7) An individual residing in a state psychiatric institution may be eligible for OSIPM or SAC benefits if the individual is:

(a) 65 years of age or older;

(b) Under 22 years of age; or

(c) 21 years of age or older, if the basis of need is disability or blindness; eligibility was determined before the individual reached 21 years of age; and the individual entered the state hospital before reaching 21 years of age.

(8) For all programs covered under chapter 461 of the Oregon Administrative Rules:

(a) Except as provided in OAR 461-135-0750, an inmate of a public institution is not eligible for benefits.

(b) If a pregnant woman receiving medical assistance through the GAM, OSIPM, or SAC program becomes an inmate of a public institution, her medical benefits are suspended. When the Department is informed the woman is no longer an inmate, her medical benefits are reinstated--effective on the first day she is no longer an inmate--if she is still in her protected period of eligibility under OAR 461-135-0010.

(c) If an individual receiving medical assistance through the GAM, OSIPM, QMB, or SAC program becomes an inmate of a correctional facility with an expected stay of no more than 12 months, medical benefits are suspended for up to 12 full calendar months during the incarceration period.

(A) In the GAM or SAC program, when the Department is notified by a client with suspended benefits that the client has been released from incarceration, and the notification takes place within 10 days of the release or there is good cause for the late reporting, medical benefits are reinstated effective the first day the client is no longer an inmate.

(B) In the OSIPM or QMB program, when the Department is notified that an individual with suspended benefits has been released, and the notification takes place within 10 days of the release, medical benefits are reinstated effective the first day the client is no longer an inmate if the client continues to meet eligibility for the medical program.

(9) In the GA and SNAP programs, in addition to the other provisions of this rule, an inmate released from a public institution on home arrest, and required to wear an electronic device to monitor his or her activity, is ineligible for benefits if the correctional agency provides room and board to the individual.

Determining Availability of Income

(1) This rule describes the date income is considered available, what amount of income is considered available, and situations in which income is considered unavailable.

(2) Income is considered available the date it is received or the date a member of the financial group (see OAR 461-110-0530) has a legal right to the payment and the legal ability to make it available, whichever is earlier, except as follows:

(a) Income usually paid monthly or on some other regular payment schedule is considered available on the regular payment date if the date of payment is changed because of a holiday or weekend.

(b) Income withheld or diverted at the request of an individual is considered available on the date the income would have been paid without the withholding or diversion.

(c) An advance or draw of earned income is considered available on the date it is received.

(d) Income that is averaged, annualized, converted, or prorated is considered available throughout the period for which the calculation applies.

(e) A payment due to a member of the financial group, but paid to a third party for a household expense, is considered available when the third party receives the payment.

(f) In prospective budgeting, income is available in the month the income is expected to be received (see OAR 461-150-0020).

(3) The following income is considered available even if not received:

(a) Deemed income.

(b) In the ERDC, GA, GAM, OSIP, OSIPM, QMB, REF, REFM, and TANF programs, the portion of a payment from an assistance program, such as public assistance, unemployment compensation, or social security, withheld to repay an overpayment.

(c) In the SNAP program, the portion of a payment from the TANF program counted as disqualifying income under OAR 461-145-0105.

(4) The amount of income considered available is the gross before deductions, such as garnishments, taxes, or other payroll deductions including flexible spending accounts.

(5) The following income is not considered available:

(a) Wages withheld by an employer in violation of the law.

(b) Income received by another person who does not pay the client his or her share.

(c) Income received by a member of the financial group after he or she has left the household.

(d) Moneys withheld from or returned to the source of the income to repay an overpayment from that source unless the repayment is countable:

(A) In the SNAP program, under OAR 461-145-0105; or

(B) In the ERDC, GA, GAM, OSIP, OSIPM, QMB, REF, REFM, and TANF programs, under subsection (3)(b) of this rule.

(e) For a client who is not self-employed, income required to be expended on an ongoing, monthly basis on an expense necessary to produce the income, such as supplies or rental of work space.

(f) Income received by the financial group but intended and used for the care of someone not in the financial group as follows:

(A) If the income is intended both for someone in the financial group and someone not in the financial group, the portion of the income intended for the care of the individual not in the financial group is considered unavailable.

(B) If the portion intended for the care of the individual not in the financial group cannot readily be identified, the income is prorated evenly among the individuals for whom the income is intended. The prorated share intended for the care of the individual not in the financial group is then considered unavailable.

(g) In the ERDC, REF, REFM, SNAP, and TANF programs, income controlled by the client's abuser if the client is a victim of domestic violence (see OAR 461-001-0000), the client's abuser controls the income and will not make the money available to the filing group, and the abuser is not in the client's filing group.

(h) In the OSIP, OSIPM, and QMB programs, unearned income not received because a payment was reduced to cover expenses incurred by a member of the financial group to secure the payment. For example, if a retroactive check is received from a benefit program other than SSI, legal fees connected with the claim are subtracted. Or, if payment is received for damages received as a result of an accident the amount of legal, medical or other expenses incurred by a member of the financial group to secure the payment are subtracted.

(i) In the REFM program, any income used for medical or medical-related purposes.

(6) The availability of lump-sum income is covered in OAR 461-140-0120.

Availability and Treatment of Lump-Sum Income

(1) Lump-sum income (see OAR 461-001-0000) is treated as follows if it is received by a member of a financial group (see OAR 461-110-0530).

(2) In the EA, REF, REFM, SNAP, and TANF programs:

(a) Lump-sum income is a resource.

(b) In the EA, REF, REFM, and TANF programs:

(A) Lump-sum income is considered available to the financial group when a member of the group receives the income and until the income becomes unavailable for a reason beyond the group's control.

(B) Lump-sum income is considered unavailable for a reason beyond the group's control if the member who received the lump-sum income:

(i) Leaves the financial group before spending any of the lump-sum income; or

(ii) Spends the lump-sum income on an immediate basic need or emergency.

(3) In the ERDC program, lump-sum income is excluded.

(4) In the GA, GAM, OSIP (except OSIP-EPD), OSIPM (except OSIPM-EPD), and QMB programs, lump-sum income is treated as follows:

(a) Lump-sum income not excluded is unearned income in the month of receipt, and any amount remaining in future months is a resource, except that in the OSIP and OSIPM programs retroactive SSB and SSI payments are treated in accordance with OAR 461-145-0490 and 461-145-0510.

(b) The following lump-sum income is excluded:

(A) The first $20 received in a month;

(B) The income the client turns over to the Department as reimbursement for previous assistance; and

(C) The income the client uses to pay for special need items approved by the Department. Special needs are explained at OAR 461-155-0500 and following.

(5) In the OSIP-EPD and OSIPM-EPD programs, lump-sum income is counted as a resource.

(1) OAR 461-140-0210 to 461-140-0300 regulate the effect of a transfer of an asset on a client.

(2) If an asset is transferred during the periods of time listed in section (4) or (5) of this rule and if the transfer is made in whole or in part for the purpose of establishing or maintaining eligibility for benefits:

(a) In the REFM program, the filing group is disqualified if:

(A) A member of the financial group (see OAR 461-110-0530) transferred the asset; and

(B) The client is an inpatient in a nursing facility, or is an inpatient in a medical institution in which payment for the client is based on a level of care provided in a nursing facility.

(b) In the REF, SNAP, and TANF programs, the filing group is disqualified if:

(A) The asset was a resource; and

(B) A member of the financial group transferred the resource.

(c) In the GA, GAM, OSIP, and OSIPM programs, a client in a nonstandard living arrangement (see OAR 461-001-0000) is disqualified if the client or the spouse of the client transferred the asset.

(3) In all programs except the ERDC program, clients in financial groups whose members transfer an asset covered under section (2) of this rule within the time periods listed in section (4) or (5) of this rule must report the transfer as soon as practicable and must provide information requested by the Department concerning the transfer.

(4) In the REF, REFM, SNAP, and TANF programs, a transfer of an asset may be disqualifying if the transfer occurs:

(a) In the REFM program, during the three years preceding the date of request (see OAR 461-115-0030).

(b) In the SNAP program, during the three months preceding the filing date or during a certification period (see OAR 461-001-0000) if the asset was a resource.

(c) In the REF and TANF programs, during the three years preceding the date of request (see OAR 461-115-0030) if the asset was a resource.

(5) In the GA, GAM, OSIP, and OSIPM programs, for a client in a nonstandard living arrangement, a transfer of an asset may be disqualifying if the transfer occurs:

(a) On or before June 30, 2006 and as described in one of the following paragraphs:

(A) On or after the date that is 60 months prior to the date of request — for assets that are transferred without compensation equal to or greater than fair market value from a revocable trust (see OAR 461-145-0540(7)(c)).

(B) On or after the date that is 60 months prior to the date of request — for assets that are transferred without compensation equal to or greater than fair market value to an irrevocable trust (see OAR 461-145-0540(8)(a)).

(C) On or after the date that is 60 months prior to the date of request — when there is a change in circumstances that makes assets in an irrevocable trust unavailable to the client (see OAR 461-145-0540(8)(d)).

(D) On or after the date that is 36 months prior to the date of request — for assets transferred without compensation equal to or greater than fair market value from an irrevocable trust (see OAR 461-145-0540(8)(b) and (c)).

(E) On or after the date that is 36 months prior to the date of request — for other asset transfers made without compensation equal to or greater than fair market value.

(b) On or after:

(A) July 1, 2006; and

(B) The date that is 60 months prior to the date of request.

(6) The duration of the period of disqualification or ineligibility is set out in OAR 461-140-0260 to 461-140-0300.

Burial Arrangements and Burial Fund

(1) The following definitions apply to this rule:

(a) A burial arrangement is an agreement with an entity such as a funeral agreement (which means an arrangement made with a licensed funeral provider), burial insurance, or a burial trust designating a funeral director as the beneficiary that makes allowance for burial costs. A burial arrangement does not include a burial space, which is covered in OAR 461-145-0050, or a burial fund.

(b) A burial fund is an identifiable fund set aside for a client's burial costs. A burial fund does not include a burial space, which is covered in OAR 461-145-0050, or a burial arrangement.

(2) Except as provided in subsection (e) of this section, a burial arrangement is treated as follows:

(a) In the ERDC, REF, REFM, SNAP, and TANF programs, the equity value (defined in OAR 461-001-0000) of one prepaid burial arrangement for each member of the filing group is excluded.

(b) For grandfathered OSIP and OSIPM clients (see OAR 461-125-0330(2), 461-125-0370(1)(b), and 461-135-0771), up to $1,000 in combined equity value of each burial arrangement with a licensed funeral director (plus accrued interest) and life insurance policies are excluded. The amount of combined cash and equity value of all life insurance and burial arrangements that is over $1,000 is counted as a resource.

(c) In the GA, GAM, OSIP, OSIPM, and QMB programs, the amount in an irrevocable burial trust or any other irrevocable arrangement to cover burial costs is excluded.

(d) In all programs not listed in subsection (a) of this section and for OSIP and OSIPM clients not covered by subsection (b) of this section, a burial arrangement is treated in the manner as the program treats a burial fund under section (3) of this rule.

(e) Burial insurance that has cash surrender value is considered life insurance and is treated in accordance with OAR 461-145-0320 and, as applicable, subsection (b) of this section.

(3) A burial fund is treated as follows:
