INFORMATION ABOUT ADMINISTRATIVE RULES

General Information

The Administrative Rules Unit, Archives Division, Secretary of State publishes the Oregon *Administrative Rules Compilation* and the online *Oregon Bulletin*. The *Oregon Administrative Rules Compilation* is an annual print publication containing complete text of Oregon Administrative Rules (OARs) filed through November 15 of the previous year. The *Oregon Bulletin* is a monthly online supplement that contains rule text adopted or amended after publication of the print Compilation, as well as Notices of Proposed Rulemaking and Rulemaking Hearing. The Bulletin also includes certain non-OAR items when they are submitted, such as Executive Orders of the Governor, Opinions of the Attorney General and Department of Environmental Quality cleanup notices.

Background on Oregon Administrative Rules

ORS 183.310(9) defines “rule” as “any agency directive, standard, regulation or statement of general applicability that implements, interprets or prescribes law or policy, or describes the procedure or practice requirements of any agency.” Agencies may adopt, amend, repeal or renumber rules, permanently or temporarily (up to 180 days), using the procedures outlined in the *Oregon Attorney General’s Administrative Law Manual*. The Administrative Rules Unit assists agencies with the notification, filing and publication requirements of the administrative rulemaking process.

OAR Citations

Every Administrative Rule uses the same numbering sequence of a three-digit chapter number followed by a three-digit division number and a four-digit rule number (000-000-0000). For example, Oregon Administrative Rules, chapter 166, division 500, rule 0020 is cited as OAR 166-500-0020.

Understanding an Administrative Rule’s “History”

State agencies operate in an environment of ever-changing laws, public concerns and legislative mandates which necessitate ongoing rulemaking. To track changes to individual rules and organize the original rule documents for permanent retention, the Administrative Rules Unit maintains history lines for each rule, located at the end of the rule text. OAR histories contain the rule’s statutory authority, statutes implemented and dates of each authorized modification to the rule text. Changes are listed chronologically in abbreviated form, with the most recent change listed last. In the history line “OSA 4-1993, f. & cert. ef. 11-10-93,” for example, “OSA” is short for Oregon State Archives; “4-1993” indicates this was 4th administrative rule filing by the Archives in 1993; “f. & cert. ef. 11-10-93” means the rule was filed and certified effective on November 10, 1993.

Locating Current Versions of Administrative Rules

The online version of the OAR Compilation is updated on the first of each month to include all rule actions filed with the Administrative Rules Unit by the 15th of the previous month. The annual printed OAR Compilation volumes contain text for all rules filed through

November 15 of the previous year. Administrative Rules created or changed after publication in the print Compilation will appear in a subsequent edition of the online Bulletin. These are listed by rule number in the Bulletin’s OAR Revision Cumulative Index, which is updated monthly. The listings specify each rule’s effective date, rule-making action, and the issue of the Bulletin that contains the full text of the adopted or amended rule.

Locating Administrative Rule Publications

Printed volumes of the Compilation are deposited in Oregon’s Public Documents Depository Libraries listed in OAR 543-070-0000. Complete sets and individual volumes of the printed OAR Compilation may be ordered from the Administrative Rules Unit, Archives Division, 800 Summer Street NE, Salem, Oregon 97301, (503) 373-0701.

Filing Administrative Rules and Notices

All hearing and rulemaking notices, and permanent and temporary rules, are filed through the Administrative Rules Unit’s online filing system. To expedite the rulemaking process, agencies are encouraged to file a Notice of Proposed Rulemaking Hearing specifying hearing date, time and location, and to submit their filings early in the submission period. All notices and rules must be filed by the 15th of the month to be included in the next month’s Bulletin and OAR Compilation postings. Filings must contain the date stamp from the deadline day or earlier to be published the following month.

Administrative Rules Coordinators and Delegation of Signing Authority

Each agency that engages in rulemaking must appoint a rules coordinator and file an Appointment of Agency Rules Coordinator form with the Administrative Rules Unit. Agencies that delegate rule-making authority to an officer or employee within the agency must also file a Delegation of Rulemaking Authority form. It is the agency’s responsibility to monitor the rulemaking authority of selected employees and keep the forms updated. The Administrative Rules Unit does not verify agency signatures as part of the rulemaking process.

Publication Authority

The Oregon Bulletin is published pursuant to ORS 183.360(3). Copies of the original Administrative Orders may be obtained from the Archives Division, 800 Summer Street, Salem, Oregon, 97310; (503) 373-0701. The Archives Division charges for such copies.

The official copy of an Oregon Administrative Rule is contained in the Administrative Order filed at the Archives Division. Any discrepancies with the published version are satisfied in favor of the Administrative Order.

EXECUTIVE ORDERS

EXECUTIVE ORDER NO. 15 - 21

INVOCATION OF EMERGENCY CONFLAGRATION ACT FOR THE DRY GULCH FIRE IN BAKER COUNTY

Pursuant to my authority as Governor of the State of Oregon, I find that:

The fire known as the “Dry Gulch Fire” is burning in Baker County.

The resources necessary for protecting life and property from the Dry Gulch Fire is beyond local capabilities. Assistance with life, safety, and structural fire protection was requested by Travis Hampton, Baker County Fire Defense Board Chief. The State Fire Marshal concurs with that request.

In accordance with ORS 476.510-610, I have determined that a threat to life, safety, and property exists due to a fire known as the Dry Gulch Fire in Baker County and the threat exceeds the firefighting capabilities of local firefighting personnel and equipment. Accordingly, I have invoked the Emergency Conflagration Act.

These findings were made at 12:25 p.m. on September 14, 2015, and I now confirm them with this Executive Order.

NOW THEREFORE, IT IS HEREBY DIRECTED AND ORDERED:

1. The Oregon State Police and the Office of State Fire Marshal shall mobilize fire resources statewide and coordinate with all appropriate Fire Defense Chiefs for the use of personnel and equipment in accordance with the Emergency Conflagration Act to suppress and contain this fire. Resources responding to Dry Gulch Fire, burning near the towns of Pine Valley and Eagle River may be redistributed by the State Fire Marshal.
2. This emergency is declared only for the Dry Gulch Fire threatening structures in Baker County near the town of Halfway.
3. This order was made by verbal proclamation at 12:25 p.m. the 14th day of September, 2015, and signed this 30th day of September, 2015, in Salem, Oregon.

PUBLIC NOTICE

PROPOSED PROSPECTIVE PURCHASER AGREEMENT FOR FORMER CENTRAL MACHINE WORKS & CENTRAL FABRICATORS, INC.

COMMENTS DUE: 5 p.m., Tuesday, Dec. 1, 2015

PROJECT LOCATION: 8009 N. Kerby Ave. and 8138 N. Albina Ave. in Portland

PROPOSAL: The Department of Environmental Quality seeks comments on its proposed consent judgment for a prospective purchaser agreement with Opal Creek Construction for the properties located at 8009 N. Kerby Ave. and 8138 N. Albina Ave. in Portland. Opal Creek Construction is acquiring the property from the current owner and plans to renovate and use the structures for commercial use.

The property was historically used for residential purposes and later became Central Machine Works & Central Fabricators, Inc., which were used for metal fabrication. Currently, the property is vacant. Opal Creek Construction has agreed to perform additional remediation including site restrictions if necessary, investigation, contaminated materials management, and stormwater assessment. Opal Creek Construction is a for-profit entity, which plans to remodel the existing structures for various new commercial uses.

DEQ created the prospective purchaser agreement program in 1995 through amendments to the state's Environmental Cleanup Law. The prospective purchaser agreement is a tool that expedites the cleanup of contaminated property and encourages property transactions that would otherwise not likely occur because of the liabilities associated with purchasing a contaminated site.

The proposed consent judgment will provide Opal Creek Construction with a release from liability for claims by the State of Oregon under ORS 465.200 to 465.545 and 465.990, 466.640, and 468B.310 regarding existing hazardous substance releases at or from the property. The proposed consent judgment will also provide Opal Creek Construction with third party liability protection.

PROPOSED PROSPECTIVE PURCHASER AGREEMENT FOR ED'S MUFFLER SITE IN MILWAUKIE

COMMENTS DUE: 5 p.m., Wednesday, Dec. 1, 2015

PROJECT LOCATION: 17855 SE McLoughlin Boulevard, Milwaukie, OR 97267

PROPOSAL: The Department of Environmental Quality seeks comments on its proposed consent judgment for a prospective purchaser agreement with JOTZ, LLC for the property located at 17855 SE McLoughlin Boulevard in Milwaukie, Oregon. JOTZ, LLC is acquiring the property from the current owner and plans to use the property for automotive and truck repair.

HIGHLIGHTS: The property was historically used as a service station and a muffler repair shop. A release of hydraulic oil was discovered in 2012 and was eventually traced back to the shop's hydraulic lift systems. The property is in receivership due to the presence of the existing contamination and probably will become a non-remediated orphan site, if the proposed prospective purchaser agreement is not issued. JOTZ, LLC plans to complete multiple tasks, including removing the existing hydraulic lift systems and has agreed to additional remediation, site restrictions and contaminated materials management related to existing contamination at the property. JOTZ, LLC intends to employ eight to ten people at the site.

DEQ created the prospective purchaser agreement program in 1995 through amendments to the state's Environmental Cleanup Law. The prospective purchaser agreement is a tool that expedites the cleanup of contaminated property and encourages property transactions that would otherwise not likely occur because of the liabilities associated with purchasing a contaminated site.

The proposed consent order will provide JOTZ, LLC with a release from liability for claims by the State of Oregon under ORS 465.200 to 465.545 and 465.990, 466.640, and 468B.310 regarding existing hazardous substance releases at or from the property. The proposed consent judgment will also provide JOTZ, LLC with third party liability protection.

PROPOSED CLEANUP FOR BALZER PACIFIC EQUIPMENT CO. STORAGE LOT

COMMENTS DUE: 5 p.m., Monday, Nov. 30, 2015

PROJECT LOCATION: 2230 SE Grand Ave., Portland

PROPOSAL: TriMet proposes to place restrictive covenants on the future redevelopment of a former heavy equipment storage lot, east of SE Grand Ave. and north of SE Caruthers St. in Portland, which the agency acquired through condemnation for construction of the Portland-Milwaukie Light Rail (Orange) Line.

OTHER NOTICES

HIGHLIGHTS: Balzer Pacific Equipment Company operated a heavy equipment storage lot at the site from 1964 to 2012. Investigations have identified petroleum and metals in soils at the site, along with methane from decomposing wood waste. Without remediation, the contaminants pose an unacceptable risk to construction workers and future occupants of the site. The site does not pose an unacceptable risk to public health or the environment in its current state.

REQUEST FOR COMMENTS PROPOSED CLEANUP PLAN FOR EAST WHITAKER POND

COMMENTS DUE: 5 p.m., Nov. 30, 2015

PROJECT LOCATION: 5611 NE Columbia Boulevard, Portland, Oregon

PROPOSAL: The Oregon Department of Environmental Quality is proposing cleanup action for East Whitaker Pond, within the Columbia Slough watershed. The proposed remedial action includes a combination of soil removal, dredging of contaminated sediments and placing a thin layer of clean material across the majority of the pond. In some locations, the clean material will include an activated carbon amendment.

HIGHLIGHTS: During past Metro Metals Northwest, Inc. (MMNW) metal recycling operations, hazardous substance releases likely occurred to East Whitaker Pond as a result of contaminated stormwater runoff. Since 2008, stormwater from the facility is filtered and treated before discharging into the pond.

MMNW performed a stormwater source control evaluation and sediment investigation in 2012 and 2013. Metals, petroleum constituents (PAHs) and PCBs were elevated in pond sediments. Chemical concentrations decrease from east to west with distance from the outfalls, with the exception of chromium, which is generally consistent across the Pond. PCBs were detected at concentrations above the screening criteria across the Pond.

The proposed remedial action for the sediment includes:

- Excavation and off-site disposal of soils above ecological risk based concentrations.
- Excavation and off-site disposal of sediment located in the eastern 170 feet of the pond.
- Placement of activated carbon-amended material between 170 and 800 feet from the east end of the pond to address moderate concentrations of PCBs remaining after dredging.
- Placement of a thin layer of clean material across the remainder of the pond bottom to enhance natural recovery.

• Confirmation sampling and long-term monitoring to evaluate the effectiveness of the remedial action.

HOW TO COMMENT: Send comments by 5 p.m., Nov. 30, 2015 to DEQ Project Manager Sarah Miller at 2020 SW 4th Ave. Suite #400, Portland, Oregon, or miller.sarah@deq.state.or.us

REQUEST FOR COMMENTS PROPOSED CERTIFICATE OF COMPLETION FOR PORT OF TOLEDO AT FRED WAHL MARINE

COMMENTS DUE: 5 p.m., Tuesday, Dec. 1 2015

PROJECT LOCATION: 1000 Altree Ln., Toledo, OR 97391

PROPOSAL: DEQ is preparing to certify that all cleanup actions required have been satisfactorily completed. This project has resulted in both environmental and economic benefits.

HIGHLIGHTS: In December 2010 the Port of Toledo entered a Prospective Purchaser Agreement Consent Judgment with DEQ and agreed to complete a Scope of Work on the subject property, including removing of nearly 3,000 cubic yards of contaminated sediments and placing them in a disposal cell on upland property.

DEQ reviewed the requirements of the PPA and the corresponding actions, and has made a preliminary determination that all obligations of the PPA have been satisfactorily performed and that a Certification of Completion should be issued.

DEQ created the PPA program in 1995 through amendments to the state's Environmental Cleanup Law. The PPA is a tool that expedites the cleanup of contaminated property and encourages property transactions that would otherwise not likely occur because of the liabilities associated with purchasing a contaminated site.

The Certification of Completion confirms the Port of Toledo's release from liability for claims by the State of Oregon under ORS 465.200 to 465.545 and 465.990, 466.640, and 468B.310 regarding existing hazardous substance releases at or from the property. The consent judgment and Certification of Completion also provide the Port of Toledo with third-party liability protection.

REQUEST FOR COMMENTS PROPOSED CONDITIONAL NO FURTHER ACTION FOR WILLAMETTE OAKS BUILDING SITE

COMMENTS DUE: 5 p.m., Monday, Nov. 30, 2015

PROJECT LOCATION: 6270 S.W. Macadam Ave., Portland, Oregon

PROPOSAL: DEQ is soliciting public comments on the proposed conditional no further action determination for the Willamette Oaks Building site. Remedial action at the site has been in progress since April 1989 when soil contaminated with petroleum and chlorinated volatile organics was managed onsite through aeration and disposed offsite. Cleanup action for groundwater contaminated with chlorinated volatiles was initiated in July 1997 by installation of a groundwater pump and treat system. Groundwater treatment continued until March 2014 when a rebound evaluation with groundwater monitoring was initiated. Concentrations in groundwater have not rebounded significantly following a year of groundwater monitoring. DEQ has determined that site cleanup activities have been successfully completed, consistent with the 2004 Record of Decision. Contaminants remaining in groundwater do not pose an unacceptable risk to public health provided groundwater use is restricted on the Willamette Oaks Building and the adjacent Willamette Park properties. This proposed determination meets the requirements of Oregon Administrative Rules Chapter 340 Division 122, Sections 010 to 0140 for Cleanup Sites; and ORS 465.200 through 465.455.

HIGHLIGHTS: The property is approximately 0.9 acre in size, and located in a commercial area along Macadam Ave. Releases from underground tanks resulted in soil contamination with petroleum and chlorinated volatile organic compounds, commonly known as CVOCs, and groundwater contamination with CVOCs. The groundwater contamination extends offsite to the east and beneath a portion of the adjacent property, Willamette Park. DEQ issued a Record of Decision for cleanup in December 2004 selecting groundwater extraction and treatment by air stripping as the preferred remedial action to treat contaminated groundwater. Following treatment, the groundwater was discharged under an NPDES permit. Approximately 53 pounds of CVOCs have been removed from groundwater. In addition, approximately 800 cubic yards of contaminated soil were removed and either disposed offsite or aerated on site. These remedial actions have reduced the source and concentrations of contamination in the groundwater.

DEQ PROPOSES CONDITIONAL NO FURTHER ENVIRONMENTAL ACTION FORMER JONES OIL COMPANY SITE, SALEM, OREGON

PUBLISHING DATE: October 1, 2015

COMMENTS DUE: Extended to 5 p.m., November 5, 2015

PROJECT LOCATION: 650 15th St. SE, Salem, Marion County

PROPOSAL: DEQ proposes to make a conditional no further action determination for gasoline and diesel contamination found in shallow and deeper soil and groundwater from a fuel distribution facility that operated at the site until early 2009.

BACKGROUND: For detailed project information please see a copy of the final report prepared by the property owner's consultant on DEQ's website at: <http://www.deq.state.or.us/Webdocs/Forms/Output/FPCcontroller.ashx?SourceIdType=11&SourceId=209&Screen=Load>

The property has a long history of use as a fuel storage and distribution facility between 1921 and 2009, with above-ground storage tanks, underground storage tanks and distribution lines that leaked diesel and gasoline products.

Petroleum product was found on the groundwater table in one groundwater monitoring well. Dissolved petroleum contamination in shallow groundwater extends off-site in a southeasterly direction. There are no water supply wells within 1/4-mile of the property and it is not reasonably likely that groundwater will not be used in this area in the future given availability of municipal water.

Targeted excavations in three areas of the site removed the highest levels of contaminated soil. Confirmation sampling indicated that petroleum hydrocarbon contamination remains in the deeper soil and groundwater.

Petroleum hydrocarbon levels in soil and groundwater do not pose a risk to human health or the environment with current uses of the former Jones Oil Company site. In its current state, most of the property is capped with asphalt and/or concrete, and it is used for commercial purposes.

DEQ concludes that the residual petroleum contamination in soil and groundwater from past use of the former Jones Oil Company site will not pose a risk to human health and the environment if the following conditions are met:

- No use of groundwater extracted from the site;
- No excavation in areas of known contamination without notification to DEQ and adherence to a DEQ-approved Contaminated Media Management Plan; and
- No use of the site for residential or agricultural purposes.

To document these conditions for current and future property owners, DEQ will record Easement and Equitable Servitudes on the Jones Oil property at 650 15th Street SE in Salem.

DEQ proposes to make a conditional No Further Action determination for the site after deed restrictions are recorded for the site. DEQ also proposes to list the former Jones Oil site on its Inventory of contaminated sites to document the long-term implementation of an institutional control for final remedial action.

HOW TO COMMENT: Written comments must be received by 5 p.m., October 31, 2015. Comments should be submitted to DEQ's Eugene office, 165 East 7th Avenue, Suite 100, Eugene, Oregon

THE NEXT STEP: DEQ will consider all public comments before taking final action on this matter. A public meeting will be held to receive verbal comments on the proposed cleanup action upon written request by ten or more persons, or by a group with ten or more members.

REQUEST FOR COMMENTS PROPOSED NO FURTHER ACTION FOR NORTHGATE MARKETPLACE SITE

COMMENTS DUE: 5 p.m., Nov. 30, 2015

PROJECT LOCATION: 1100 Court St. (Tax Lots 700 and 800), Medford, Douglas County

PROPOSAL: The Oregon Department of Environmental Quality proposes a No Further Action determination under Oregon Environmental Cleanup Law ORS 465.200 for the property listed above. Alba Village LLC currently owns the property, formerly used by Medite lumber mill. The responsible party (Regency Centers) has requested No Further Action related to historical spills at the site, referred to as Northgate Marketplace Phase 1B (ECSI #5251).

HIGHLIGHTS: The former Medite lumber mill operated from the 1920s until 1993. The mill added plywood fabrication in the 1960's. Treatment processes created dioxin that contaminated soil and groundwater at the site. The properties associated with Northgate Marketplace (Tax Lots 700 and 800) were included with Medite mill as a suspected release under DEQ's Environmental Cleanup Program in 1997. The Medite cleanup site (ECSI #1987) was issued No Further Action in 1995, and new information on dioxin contamination was obtained through assessments in 2014 to create Northgate Marketplace Phase 1B.

Site investigations were completed in 2014 and 2015 to identify dioxin contamination, mostly in shallow soil at the properties. Concentrations of dioxin were statistically analyzed to evaluate results. Based on the calculations, there is no risk from contamination with commercial or industrial use of the property. Construction or excavation workers require no special safety equipment to prevent direct contact with soil or groundwater, though DEQ recommended a

Health and Safety Plan and Contaminated Media Management Plan as a precautionary measure.

Regency Centers requested No Further Action for the site. DEQ proposes site closure with conditions, including an Easement & Equitable Servitudes to restrict groundwater and land use. No wells should be installed without approval, and residential housing is prohibited without further investigation or cleanup. The site (ECSI #5251) will be listed on the Confirmed Release List and Inventory because institutional and/or engineering controls are required to maintain protectiveness following regulatory closure.

HOW TO COMMENT: Send comments by 5 p.m., Nov. 30 to DEQ Project Manager Cathy Rodda at 165 E. Seventh Ave., Suite 100, Eugene, OR 97401, by fax 541-686-7551, or by email rodda.cathy@deq.state.or.us. THE NEXT STEP: If no comments opposed to closure are received, no further action (investigation or remedial action) will be required by Regency Centers for the Northgate Marketplace cleanup site.

NOTICES OF PROPOSED RULEMAKING

Notices of Proposed Rulemaking and Proposed Rulemaking Hearings

The following agencies provide Notice of Proposed Rulemaking to offer interested parties reasonable opportunity to submit data or views on proposed rulemaking activity. To expedite the rulemaking process, many agencies have set the time and place for a hearing in the notice. Copies of rulemaking materials may be obtained from the Rules Coordinator at the address and telephone number indicated.

Public comment may be submitted in writing directly to an agency or presented orally at the rulemaking hearing. Written comment must be submitted to an agency by 5:00 p.m. on the Last Day for Comment listed, unless a different time of day is specified. Oral comments may be submitted at the appropriate time during a rulemaking hearing as outlined in OAR 137-001-0030.

Agencies providing notice request public comment on whether other options should be considered for achieving a proposed administrative rule's substantive goals while reducing negative economic impact of the rule on business.

In Notices of Proposed Rulemaking where no hearing has been set, a hearing may be requested by 10 or more people or by an association with 10 or more members. Agencies must receive requests for a public rulemaking hearing in writing within 21 days following notice publication in the Oregon Bulletin or 28 days from the date notice was sent to people on the agency mailing list, whichever is later. If sufficient hearing requests are received by an agency, notice of the date and time of the rulemaking hearing must be published in the Oregon Bulletin at least 14 days before the hearing.

**Auxiliary aids for persons with disabilities are available upon advance request. Contact the agency Rules Coordinator listed in the notice information.*

Summary: Proposed amendments in division 6 Definitions rules establish definitions for clinical pharmacy agreements and the practice of clinical pharmacy. Proposed amendments also clarify compounding under a shared pharmacy service agreement is only allowed by a pharmacy located in Oregon for a practitioner or dispenser located in Oregon for Oregon outlets and practitioners located in Oregon only. These amendments are primarily related to 2015 House Bill 2028.

Proposed amendments in the division 19 Pharmacist rules establish definitions for clinical pharmacy agreements and practice of clinical pharmacy. Amendments also define the type of activities that require the professional judgment of a pharmacist. Other amendments allow a pharmacist to permit an intern to perform the duties of a pharmacist under their direction and supervision after the intern has successfully completed his or her first academic year and only after successful completion of coursework corresponding to the specific duties. However, an intern may not perform final verification. State Drug Therapy Management Protocol rules are proposed for

NOTICES OF PROPOSED RULEMAKING

adoption. Rules proposed for adoption are related to 2015 House Bill 2028.

Proposed amendments in the division 19 Pharmacist rules allow a pharmacist to administer vaccines to persons who are at least seven years of age and maintain CPR certification intended for a Health-care Provider. Amendments also allow a pharmacist to prescribe immunizations, including oral vaccines, as established by written protocols approved by the Oregon Health Authority. These amendments are related to 2015 Senate Bill 520.

Proposed amendments in the division 25 Certified Oregon Pharmacy Technicians rules clarify in rule that newly licensed Certified Oregon Pharmacy Technicians do not need to complete the annual continuing education requirements prior to their first renewal. These amendments are currently a temporary rule.

The Board proposed a revised effective date change for the Division 041 Auto Refill rules. At the October 8, 2015 Board meeting, the Board considered a number of extension requests related to the 1/1/16 effective date. The Board voted to extend the effective date for the Auto Refill associated rules in OAR 855-041-1120 (5)-(8) from January 1, 2016 to July 1, 2016 to allow more time for implementation. The Board expects full compliance with these rules by July 1, 2016.

Proposed amendments in the division 43 Practitioner Dispensing Rules establish a waiver clause in the Drug Delivery and Control rule. The waiver clause allows for requests for exemption of certain requirements if the waived requirements will further public health and safety. These amendments are currently a temporary rule.

Proposed amendments in the division 62 Drug Distribution Agent rules update record keeping requirements. They also identify the information that a Drug Distribution Agent who distributes product to a Wholesaler or Pharmacy must contain in their records. Amendments also reflect that a pedigree must be maintained if a Drug Distribution Agent distributes product to another Drug Distribution Agent. These amendments are currently a temporary rule.

Division 090 Aerosol Sprays rules are proposed to be repealed. This is because all fluorocarbon aerosol sprays which contain a medication are no longer manufactured in the United States. The rules were established in 1977 as an exception to the banned use of fluorocarbon aerosol sprays which delivered a medication.

Full text of these proposed rules can be viewed on the Board's website at: www.pharmacy.state.or.us.

Summary: SB 137 modifies the definition of a public works to include a project for the construction, reconstruction, major renovation or painting of a road, highway, building, structure or improvement of any type that uses \$750,000 or more of funds of a public agency. Previously, this definition required funds of a private entity in addition to \$750,000 or more of public funds. The proposed rule amendments would conform the definition of public works in OAR 839-025-0004(20)(a)(B) to the changes made by SB 137.

Additionally, the proposed rule amendments would add section (20)(a)(F) to OAR 839-025-0004 to include projects resulting from an agreement under the terms of which a private entity constructs, reconstructs, renovates or paints an improvement of any type that occurs, with or without public funds of a public agency, on real property owned by a university with a governing board or by a nonprofit organization or other entity that a university with a governing board owns or controls exclusively. This addition would reflect changes made to ORS 352.138(4) by HB 2664. Furthermore, as a consequence of other amendments made to ORS 352.138(4)(a) by HB 2664, universities with governing boards are exempt from certain prevailing wage rate laws when the project does not result from an agreement as described above in OAR 839-025-0004(20)(a)(F). The proposed amendments would cite the particular prevailing wage statutes in the list of exemptions found in OAR 839-025-0100.

Other changes made to OAR 839, division 025 would make clarifying changes and clean up grammar and typographical errors.

Summary: Under Oregon law, licensed mortgage bankers and mortgage brokers must maintain certain records created as part of the loan application process. The purpose of the existing recordkeeping rule is to preserve records of loan transactions to assist the department in performing full and fair examinations of licensed mortgage bankers and mortgage brokers. In addition to applications, correspondence, credit reports and fee agreements, Oregon rules specified that the lender or broker keep a copy of completed federally-mandated disclosures (e.g., the Truth in Lending Disclosure Statement). But since 2011, federal has mandated that the Consumer Financial Protection Bureau (Bureau) establish a single disclosure scheme for use by lenders or creditors in complying with the disclosure requirements of both the Real Estate Settlement Procedures Act (RESPA) and the Truth in Lending Act (TILA). The Bureau issued its final rule combining the disclosures on November 20, 2013, effective October 3, 2015. This proposed rulemaking simply updates the recordkeeping requirement to accommodate the changes to federally-mandated disclosures.

Summary: Until recently, Oregon law prohibited credit unions from paying their boards of directors and supervisory committee members compensation. In the 2015 legislative session, the Assembly enacted Senate Bill 582. Among other things, SB 582 permitted the payment of "reasonable compensation." The Act did not specify what was reasonable, what would be considered (or not considered) compensation, or how to involve credit union membership in any decisions on whether to pay compensation. This rulemaking activity — undertaken under the department's general grant of authority to implement the Credit Union Act — provides definition to the inexact terms in the Act, sets up processes for bylaw change, adopting policies and procedures on compensation, and implements a public process of disclosure to keep the membership informed.

Summary: In the 2013 session, the Legislature enacted House Bill 2856. That Act provided for a limited exemption from the mortgage loan originator statutes for individuals making loans on properties they owned for investment purposes. The intent of HB 2856 was to facilitate lending by individuals not necessarily in the business of making mortgage loans, but that extended credit as part a more diversified, personal investment portfolio. The 2013 Act did not make accommodations for the individual to own the properties through limited liability companies (LLCs). In the 2015 session, the Legislature passed SB 879 to allow members of limited liability companies the ability to make loans on homes owned by the LLC without a mortgage loan originator license. This authorization raised concerns that the LLCs would need a license as a mortgage banker or mortgage broker in order to operate. This rulemaking activity clarifies that certain LLCs are exempt from the business licensing side of the Oregon Mortgage Lender Law (ORS 86A.100–86A.198), as long as certain conditions are met.

Summary: Existing rules of the Insurance Division establish the steps that a rental company with a limited license to sell rental insurance must take to educate and monitor employees selling insurance under the limited license. Enrolled House Bill 2958(2015 Legislative Session) now allows a rental company to identify a "designated agent" to sell rental insurance under the limited license of the rental company. The rental company must provide the same training and oversight to a designated agent as the rental company provides for employees. These proposed rules define "designated agent" and include designated agents in the description of the individuals who must be educated and monitored to sell rental insurance under the limited license of the rental company.

These proposed rules will replace temporary rules adopted on September 15, 2015 and are identical to the temporary rules with the exception of the addition of the new definition of "designated agent."

Summary: These proposed new rules establish limitations on the calculation of surrender charges imposed for withdrawal of funds from an individual deferred annuity insurance contract. The rules direct that withdrawals demonstrate minimum value compliance. If funds withdrawn are to be subject to surrender charges the insurer must treat the funds are to be treated on a first in first out basis to ensure fairness to the contract holder, unless an alternative more beneficial method is available.

NOTICES OF PROPOSED RULEMAKING

Last Date for Comment: 11-24-15, 5 p.m.

Summary: The primary purpose of these proposed rule amendments is to update the administrative rules for the Self-direction of Public Purpose Charges by Large Retail Electricity Customers (LECPPP) program to align with current Oregon Board of Accountancy guidelines and current agency practices. The proposed amendments would change the rules to require that a certified public accountant "attest" that project costs are accurate, rather than creating a "statement of compilation." The proposed amendments would also update the requirements for providing proof of qualified expenditures. With regard to cost recovery, the proposed amendments would eliminate a reference to the fixed annual deposit of \$1,200 to be paid by LECPPP participants, while retaining the per-project deposit of up to four percent of project costs. As program costs have declined over time, the department no longer requires participants to pay an annual deposit. The proposed amendments would also modify the process for comparing deposits received with the department's cost of services, eliminating the current true-up process in favor of an annual review to assure that costs of operating the program are recovered.

This is the second of two public hearings scheduled for this rule-making. One of the proposed rule amendments for this program, 330-140-0020, was inadvertently omitted from official notices for the first hearing scheduled for October 29, 2015.

- Establish requirements when a child or young adult in substitute care is missing
- Expand implementation of Differential Response to additional counties
- Update the BRS Rates Table
- Remove references to the Former Foster Care Youth Medical Program

Each change is described in detail below. A copy of the draft rule and exhibit can be accessed at the Child Welfare policy website: <http://www.dhs.state.or.us/policy/childwelfare/drafts/drafts.htm>.

When a Child or Young Adult in Substitute Care is Missing:

The Department is proposing to make permanent temporary rules that were adopted on October 1, 2015. The rules implement provisions of the Preventing Sex Trafficking and Strengthening Families

NOTICES OF PROPOSED RULEMAKING

Act of 2014, section 104, relating to the Department's responsibilities when a child or young adult in substitute care is missing. Specifically, the amendments do the following:

- State that when a child or young adult in substitute care is missing, the caseworker must:

- Make immediate efforts to locate the child or young adult; and
- Notify the court and legal parties to the case that the child or young adult is missing. (OAR 413-080-0053)

-State that when a child or young adult in substitute care is located, the caseworker must:

- Determine and address the primary factors that contributed to the missing status of the child or young adult;
- Determine the child or young adult's experiences while missing;
- Determine if the child or young adult is a victim of sex trafficking or is at risk of being a victim of sex trafficking; and
- Notify the court and legal parties to the case that the child or young adult has been located. (OAR 413-080-0053)

-State that monthly face-to-face contact is a required CPS (Child Protective Services) assessment activity (OAR 413-015-0415) and if a caseworker is unable to make face-to-face contact with a child or young adult because the child or young adult is missing, the caseworker must follow the protocols in OAR 413-080-0053 described above. (OAR 413-080-0054(1)(f))

-Add definitions for "monthly face-to-face contact," "sex trafficking," and "young adult." (OAR 413-080-0050(12) and (23) and OAR 413-015-0115(25) and (55))

-Clarify that reports of a missing child or young adult must be documented in the Department's electronic information system. (OAR 413-015-0211(2)(c)(D))

-Require BRS (Behavior Rehabilitation Services) providers to immediately report to the Department information about a missing child or young adult placed with a BRS program. (OAR 413-090-0087)

Differential Response:

The Department is proposing to make permanent a temporary amendment to OAR 413-015-9000 adopted on October 12, 2015, relating to Oregon's Differential Response (DR) system. DR is an approach to child protection that promotes partnering with parents, family, communities, and neighborhoods to keep children safe. Oregon began implementation of DR on a county-by-county basis in May 2014. The amendments specify DR implementation dates for additional counties, specifically:

- November 2, 2015 for Jackson and Josephine
- November 16, 2015, for Coos and Curry
- December 1, 2015, for Clackamas

BRS Rates:

The Department is proposing to make permanent a temporary amendment to OAR 413-090-0085 adopted on August 26, 2015. The temporary rule incorporated by reference and adopted as Exhibit 1 the BRS Rates Table dated July 1, 2015, which lists the rates at which the Department compensates BRS contractors, in accordance with Oregon Health Authority OAR 410-170-0110. The rates are effective as of July 1, 2015. The updated table changes rates, depending on type of service and placement model, as follows:

- The service rate per billable care day is increased from a range of \$90.34 to \$134.33 to a range of \$96.10 to \$142.02.
- The placement-related activities rate per billable care day is increased from a range of \$47.19 to \$51.99 to a range of \$49.48 to \$54.35.
- The total daily rate per billable care day is increased from a range of \$137.53 to \$186.32 to a range of \$145.58 to \$196.37.
- The absent day rate is increased from a range of \$68.76 to \$93.16 to a range of \$72.79 to \$98.19.

Former Foster Care Youth Medical Program:

The Department is proposing to remove references to the Former Foster Care Youth (FFCY) Medical Program. Effective December 1, 2015, this program will be administered by the Oregon Health

Authority under rules in chapter 410. References to the program are being removed from OAR 413-100-0000 and 413-100-0420 and the FFCY eligibility rule, OAR 413-100-0457, is being repealed.

Additional non-substantive edits may be made to these rules to: ensure consistent terminology throughout child welfare rules and policies; make general updates consistent with current Department practices; update statutory and rule references; correct formatting and punctuation; remove unnecessary language; and clarify Department rules and processes.

Summary: The Department of Human Services, Office of Self-Sufficiency Programs, is proposing rule changes to:

- Implement a three-month time limit on SNAP benefits for able-bodied adults without dependents (ABAWD)
- Clarify notice requirements for JPI payments, signed IPV waiver, and mass changes
- Include job skills training and short-term self-initiated training as JOBS activities eligible to TANF clients
- Clarify when an underpayment of benefits is credited against an overpayment of benefits

These changes are described in detail below. Rule text showing edits is available at http://www.dhs.state.or.us/policy/self_sufficiency/ar_proposed.htm.

ABAWD TIME LIMIT.

Under the Food and Nutrition Act of 2008, able-bodied adults without dependents (ABAWD) are subject to a three-month time limit for SNAP benefits unless they meet certain requirements. Oregon's statewide waiver of this requirement approved by Food and Nutrition Services of the US Department of Agriculture expires on December 31, 2015. Therefore, pending approval of a new waiver application, OAR 461-135-0520 about eligibility requirements and time limits for ABAWD is being amended to limit ABAWD to three months of SNAP benefits, unless work requirements are met or other exemptions apply. (See 7 U.S.C. 2015(o) and 7 CFR 273.24) Corresponding amendments are being made to implement federal reporting requirements for these clients:

- OAR 461-115-0651 about verification requirements in the SNAP program is being amended to add two new verification requirements for ABAWD who are subject to the three-month time limit for SNAP

NOTICES OF PROPOSED RULEMAKING

benefits. Specifically, when an ABAWD initially applies for SNAP benefits, the individual must verify work hours, if the work requirement is being satisfied by working, and the number of countable months used in another state if an ABAWD previously received food benefits in another state. (See 7 CFR 273.2(f)(1)(xiv))

- OAR 461-170-0011 about changes that must be reported is being amended to require ABAWD in the SNAP program to report a change in work hours when hours are below 20 hours per week, averaged monthly. (See 7 CFR 273.24)

- OAR 461-170-0101 about the Simplified Reporting System (SRS) is being amended to state that ABAWD may participate in SRS even with a certification period less than six months.

NOTICE REQUIREMENTS FOR JPI, SIGNED WAIVERS, MASS CHANGES.

The following updates are being made to notice requirements:

- OAR 461-170-0103 about actions resulting from changes in household circumstances and OAR 461-175-0200 about notice situations are being amended to allow JPI (Job Participation Incentive) payments to be closed with a basic notice (instead of a 10-days advance notice with a right to continuing benefits) when a client reports a change in income that results in eligibility for increased SNAP benefits. The JPI program is a \$10 food benefits. This amendment covers situations in which net benefits are increasing. This makes permanent temporary rules adopted on October 1, 2015.

- OAR 461-175-0200 about notice situations generally; OAR 461-175-0220 about notice situations for disqualifications; OAR 461-175-0340 about notice situations for voluntary actions; and OAR 461-195-0621 about intentional program violations are being amended to clarify that when a client signs an IPV waiver, that qualifies as a final order and no notice to that client is required. It is also clarified that other members of the benefit group do receive notice if the benefits of the remaining members are reduced as a result of the disqualification based on a signed IPV waiver.

- OAR 461-175-0250 is notices required when there are mass changes (such as a cost-of-living adjustment or federal government shutdown) is being amended to: state that the Department is not required to send notice of intended action to each SNAP client when the federal government changes a benefit or standard that results in the mass suspension or closure of SNAP benefits; describe the kinds of notification the Department may undertake instead; and state that there is no right to a hearing or continuing benefits in this situation. This is in compliance with 7 CFR 721.7(f), 7 CFR 273.12(e)(1), and ORS 411.095 as amended by SB 225 (Oregon Laws 2015, chapter 269).

JOBS ACTIVITIES.

OAR 461-190-0211 about case plan activities and standards for support service payments for the Temporary Assistance for Needy Families (TANF) Job Opportunity and Basic Skills (JOBS) program is being amended to include job skills training and short-term self-initiated training as available JOBS activities to eligible TANF clients and to correct the title of "supported work." To align with OAR 461-190-0211, OAR 461-001-0025 about definitions of terms, components, and activities in the JOBS, Pre-TANF, Post-TANF, and TANF programs is being amended to define "crisis intervention" as short-term services to address an immediate crisis need; correct the title of "supported work;" and update the definition of "self-initiated training" to align with changes to OAR 461-190-0211. This makes permanent temporary rules adopted on July 1, 2015.

OVERPAYMENT CREDITS.

OAR 461-195-0521 about the calculation of overpayments is being amended to clarify that an underpayment of benefits can be credited against an overpayment only when they occur in the same program. This aligns with existing practice and with OAR 461-195-0551(4)(b).

In addition, non-substantive edits may be made to the rules above to: ensure consistent terminology throughout self-sufficiency program rules and policies; make general updates consistent with current Department practices; update statutory and rule references;

correct formatting and punctuation; remove unnecessary language; improve ease of reading; and clarify Department rules and processes.

Summary: The Department of Human Services is proposing several changes to Aging and People with Disabilities (APD) medical programs. The changes:

- Remove resource limits for three of the Medicare Savings Programs (QMB-BAS, SMB, and SMF).

- Update rules to reflect annual changes to the federal poverty level (FPL) and cost of living adjustment (COLA).

- Increase the amount of in-home supplement in Oregon Supplemental Income Program Medical (OSIPM) from \$15 to \$22 per month and clarify the type of income counted in determining eligibility for the special need.

- Clarify that in the OSIPM and Qualified Medical Beneficiary (QMB) programs the \$20 deduction is not allowed to be taken from income received from a program based on need and that is federal-funded.

- Clarify policy relating to treatment of Indian (Native American) benefits in APD medical programs.

These changes are described in more detail below. Rule text showing edits is available at http://www.dhs.state.or.us/policy/selfsufficiency/ar_proposed.htm.

Remove Resource Limits for QMB-BAS, SMB, and SMF.

OAR 461-160-0015 about Resource Limits being is amended to remove resource limits for three of the Medicare Savings Programs (QMB-BAS, SMB, and SMF), which are currently based on the resource limits of the Medicare Part D Low Income Subsidy (\$7,280 for a need group of one and \$10,930 for a 2-person need group). States are authorized to use flexibility under Section 1902(r)(2) of the Social Security Act for the purposes of simplifying administrative processes. Amending this rule will facilitate more timely eligibility determinations for DHS staff as well as make the application and redetermination process less cumbersome for applicants for and recipients of Medicare Savings Programs. Note: CMS has clarified that the Department may not eliminate resource limits for the QMB-DW program, and that is reflected in these amendments. Oregon currently has no QMB-DW clients because individuals who would qualify for QMB-DW would also qualify for OSIPM-EPD (in order to qualify for QMB-DW, one must not be eligible for any other Medicaid program).

As a result of excluding all resources, a number of rules require amendments as they refer to how resources are treated and counted in the QMB-BAS, SMB, and SMF programs:

- OAR 461-115-0700 about required verifications is being amended to remove QMB-BAS/SMB/SMF programs from the section

NOTICES OF PROPOSED RULEMAKING

regarding verifying resources because resources will no longer be an eligibility factor.

- OAR 461-140-0020 about availability of resources is being amended to remove the QMB-BAS/SMB/SMF programs; whether a resource is available will no longer be relevant because resources are all excluded.

- OAR 461-140-0120 about availability and treatment of lump-sum income is being amended to account for the fact that QMB-BAS/SMB/SMF programs will no longer count lump-sum income as a resource in the month after receipt.

- OAR 461-140-0250 about determining the uncompensated value of a transferred asset is being amended to remove QMB-BAS/SMB/SMF programs for two reasons: there is no longer a resource limit and because disqualifying transfers only affect eligibility for long-term-care services, not QMB-BAS/SMB/SMF programs.

- OAR 461-145-0010 about animals is being amended to state that all animals are excluded as a resource in the QMB-BAS/SMB/SMF programs.

- OAR 461-145-0020 is being amended to remove reference to counting annuities as a resource in the QMB-BAS/SMB/SMF programs and to state that only the interest portion of annuity payments can be counted as income.

- OAR 461-145-0040 about burial arrangements and burial funds is being amended to state that these items are excluded in the QMB-BAS/SMB/SMF programs.

- OAR 461-145-0050 about burial space and merchandise is being amended to remove QMB-BAS/SMB/SMF programs from sections that refer to these items as countable resources.

- OAR 461-145-0220 about the home has been amended to remove QMB-BAS/SMB/SMF programs from sections that refer to the home as a countable resource.

- OAR 461-145-0240 about income-producing sales contracts is being amended to remove references to QMB-BAS/SMB/SMF programs in sections which address these items as countable resources.

- OAR 461-145-0310 about life estates is being amended to remove QMB-BAS/SMB/SMF programs as life estates are resources and will no longer be an eligibility factor.

- OAR 461-145-0320 about life insurance is being amended to remove QMB-BAS/SMB/SMF programs as life insurance is a resource and will no longer be an eligibility factor.

- OAR 461-145-0330 about loans and interest on loans is being amended to remove references to QMB-BAS/SMB/SMF programs in sections which address loans as a resource and to establish new rules for how to treat payments to both a lender and a borrower.

- OAR 461-145-0360 about motor vehicles is being amended to remove QMB-BAS/SMB/SMF programs as motor vehicles are a resource and will no longer be an eligibility factor.

- OAR 461-145-0380 about pension and retirement plans is being amended to remove QMB-BAS/SMB/SMF programs from sections which refer to these items as countable resources.

- OAR 461-145-0410 about program benefits is being amended to remove associations between QMB-BAS/SMB/SMF programs and benefits that are counted as a resource.

- OAR 461-145-0420 is being amended to remove QMB-BAS/SMB/SMF programs because real property is a resource.

- OAR 461-145-0460 about sale of a resource is being amended to establish new rules about how proceeds from a sale are counted, namely that they are not countable as a resource and under what conditions they are counted as income.

- OAR 461-145-0490 about Social Security benefits is being amended to remove the association between QMB-BAS/SMB/SMF programs and circumstances when these benefits are counted as a resource.

- OAR 461-145-0510 about SSI is being amended to remove any association between QMB-BAS/SMB/SMF programs and treatment of SSI as a resource.

- OAR 461-145-0540 about trusts is being amended to remove the association between QMB-BAS/SMB/SMF programs and treatment of trusts as a resource and establish that distributions from trust funds are excluded as income.

- OAR 461-145-0600 about work-related capital assets, equipment, and inventory is being amended to remove QMB-BAS/SMB/SMF programs.

- OAR 461-150-0050 about prospective eligibility and budgeting is being amended to clarify that certain monies are excluded as income and to remove the association between QMB-BAS/SMB/SMF programs and the resource provisions.

- OAR 461-160-0010 about use of resources in determining financial eligibility is being amended to establish that resources have no effect in determining eligibility for the QMB-BAS/SMB/SMF programs.

- OAR 461-170-0011 about changes that must be reported is being amended to state that a change in resources does not need to be reported for the QMB-BAS/SMB/SMF programs.

- OAR 461-175-0310 about the notice situation for asset transfer disqualifications is being amended to remove QMB-BAS/SMB/SMF programs as they have no effect on eligibility.

FPL and COLA Updates.

The standards in the rules listed below are being amended to reflect annual federal cost of living adjustments that happen every January. These amendments keep Oregon in line with current federal standards for Department Medicaid programs and changes in the cost of living. These amendments will take effect January 1.

- OAR 461-135-0780 about eligibility for Pickle Amendment clients in the OSIPM program.

- OAR 461-145-0220 about treatment of the home.

- OAR 461-155-0250 about income and payment standard for OSIPM.

- OAR 461-155-0270 about room and board standards for OSIPM.

- OAR 461-160-0580 about excluded resources (community spouse provision) OSIPM program (except OSIP-EPD and OSIPM-EPD).

- OAR 461-160-0620 about income deductions and client liability for Long Term Care Services and Waivered Services.

The standards in the rules listed below are being amended to reflect the annual updates to the Federal Poverty Level that happens every March. These amendments keep Oregon in line with current federal standards for Department Medicaid programs and changes in the Federal Poverty Level. These amendments will take effect March 1.

- OAR 461-155-0290 about income standards for QMB-BAS.

- OAR 461-155-0291 about income standards for QMB-DW.

- OAR 461-155-0295 about income standards for QMB-SMB and QMB-SMF.

OSIPM In-Home Supplement Increase.

OAR 461-155-0575 about the in-home supplement special need in Oregon Supplemental Income Program Medical (OSIPM) is being amended to increase the amount of the payment authorized by the rule from \$15 to \$22 per month. The increase may be adjusted higher or lower depending on spending patterns during the last quarter of 2015. Additionally, the rule is being amended to clarify the type of income counted in determining eligibility for the special need by stating that countable income is used in determining eligibility.

OSIPM and QMB Income Deduction.

OARs 461-160-0550, 461-160-0551, and 461-160-0552 about income deductions related to OSIPM and QMB are being amended to clarify that the \$20 deduction is not allowed to be taken from income received from a program based on need and that is federally funded.

Summary: OAR chapter 734, division 82 governs the operation of vehicles transporting loads that exceed legal limits and variance permits issued for vehicles or loads having weight or dimension greater than that allowed by statute. A request was made by Gresham Transfer during a Motor Carrier Transportation Advisory Committee meeting to allow permits to be issued for an unladen trailer over legal length (53 feet), which includes a flip axle deployed. The request was to allow single trip permits (STPs) on an individual basis for flip axle trailers which can't be reduced to 53' without special equipment. New language is added to the OARs to allow STPs and annual permits for a variety of trailers including those with flip axles deployed. Currently, the trailer is required to be reduced to 53 feet or less when operating unladen (the flip axle must be up). Not all trailers are equipped with hydraulics, and it's not always practical for carriers to get equipment onsite to assist with lifting the axle. The proposed rulemaking describes the circumstances under which permits may be issued, both laden and unladen.

Summary: HB 2407 proposed changes to the existing structure of Oregon Opportunity Grant (OOG) that focus on improving access and completion for students with the greatest financial need and stimulating achievement of Oregon's 40-40-20 goals. SB 932 expands OOG eligibility to students who are exempt from paying nonresident tuition under ORS 351.641. This new legislation requires HECC-OSAC to implement a number of changes through rulemaking. Residency now includes students who are exempted from paying nonresident tuition under ORS 351.641. Application requirements now include an alternative need analysis process for students who legally cannot file a FAFSA. Awards will be guaranteed for a second year of aid if students meet academic progress and other benchmarks. Rules now align OOG eligibility more closely with Federal Pell Grant eligibility. The agency will prioritize awards to students based on highest financial need or whose circumstances enhance promotion of the HECC's equity lens. The Student Information section has been expanded to include that OSAC must collect from schools in order to comply with legislative reporting requirements. A new section has been added to address OOG awarding priorities, as specified in HB 2407. Finally, several minor changes in wording have been added to improve clarity or to make phrasing consistent across all rules in Division 30 and Division 31.

Summary: This rule is needed to provide a baseline for monitoring disturbance in core sage-grouse habitat. Existing rules do not allow conflicting uses to exceed one percent of any core area in 10-year increments or an absolute total three percent of any core area. A disturbance baseline is necessary to allow state and local decision makers to adequately consider proposals for large-scale development in core areas of sage-grouse habitat. Failure to adopt a disturbance baseline will increase the legal vulnerability of state and local decisions.

In addition, the new and amended rules will provide interpretive guidance to provisions at ORS 197A.320 that apply to both the existing UGB process described in OAR chapter 660, division 24 and the proposed new alternative process. The agency requests public comment on whether other options should be considered for achieving the rule’s substantive goals while reducing the negative economic impact of the rule on business.

LCDC will hold a public hearing on the proposed rules at the time and locations indicated above. LCDC may adopt the rules after the hearing. The public is encouraged to provide comments prior to the hearing.

Summary: Oregon Administrative Rule 738-005-0010(129) defines “Tie-Down Area” as State-owned airport property, either pavement or turf, which is designated for parking based or transient aircraft. Tiedowns are “D” rings and chains fixed in the ground used to secure aircraft while parked to protect against winds moving the aircraft.

OAR 738-0010-0025 has required the Department of Aviation’s (ODA) Fixed Based Operator (FBO) tenants to pay 30% of the tiedown fees they collect through their commercial operations at State airports. ODA does not have the ability to monitor the use of tiedowns at our tenants’ facilities; therefore our tenants are on their honor to pay the 30% fee. However, our tenants most often do not pay us. In order to simplify this rule, and to encourage compliance, we wish to change the fee from a percentage to a flat fee.

The program will also provide expert consultants to grantees to assist them with program design, implementation and evaluation to ensure (a) that the biliteracy pathways developed under the grant are well implemented and (b) that ODE can continue to develop a solid research base on effective EL instructional practice and EL program models.

Last Date for Comment: 12-10-15, 9 a.m.

Summary: State and national data reveal an increased reliance on use of exclusionary discipline (i.e., out-of-school suspension and expulsion) under “zero tolerance” school discipline policies. In response, Oregon’s school discipline statute has been significantly revised in the last two years (HB 2912 in 2013 regular session; SB 553 & SB 556 in 2015 regular session). In general, the legislative changes represent a move away from punitive “zero tolerance” school discipline policies to those that focus on correcting behavior while striving to keep students in school. SB 553 adds to this general legislative scheme by creating more stringent requirements for the use of out-of-school suspension for students in fifth grade and younger. The proposed addition to 581-021-0065 inserts the statutory language into regulation.

Summary: The 2015 Legislative Session provided the Oregon Department of Education (ODE) with resources to support school districts with large numbers of students experiencing difficulty meeting benchmarks in achievement, growth, and graduation. ODE convened a taskforce that met several times to outline their recommendations for the selection of districts and use of the resources. As such, ODE will begin partnering with selected school districts during the 2015-2017 biennium. The partnerships will be forged to support focused improvement efforts, through a pilot approach and will be guided by the recommendations of the taskforce, the support from the state legislature, and an interest in developing the most effective and sustainable state model for comprehensive district improvement efforts moving forward.

The rules provide the criteria and process for the selection of the districts.

Summary: The Oregon Health Authority (Authority), Public Health Division is proposing to permanently adopt administrative rules in chapter 333, division 16 related to high priority chemicals of concern for children’s health.

SB 478 (Oregon Laws 2015, chapter 786) was passed by the Oregon Legislature during the 2015 legislative session. The law requires the Authority to maintain a list of high priority chemicals of concern for children’s health when used in children’s products. The law states that the initial Authority list shall “include on the list chemicals that are listed on the Washington State Department of Ecology’s Reporting List of Chemicals of High Concern to Children”. These proposed rules establish the initial list of high priority chemicals of concern for children’s health when used in children’s products that a manufacturer of children’s products sold or offered for sale in this state shall provide biennial notice to the Oregon Health Authority beginning on January 1, 2018. This rulemaking is only establishing the list of high priority chemicals of concern for children’s health when used in children’s products. No requirements are being imposed on manufacturers at this time.

Summary: HB 2567 passed in the 2015 Oregon legislative session with an effective date of June 25, 2015. It makes several changes to ORS 471.230 (the distillery license statute). The following amendments are required to align the rules with the statute changes.

- 845-005-0413 will be amended to allow a distillery licensee to hold a Special Events Distillery (SED) license at its annually licensed premises, change the number of license days for an SED at one address from a limit of 31 to a limit of 62, and allow a taste to contain liquids other than the distilled liquor manufactured by the distillery licensee.

- 845-005-0431 will be amended to allow more than one distillery to be licensed at a primary location to provide tastings.

- 845-006-0452 will be amended to allow a taste to contain liquids other than the distilled liquor manufactured by the distillery licensee.

In addition, the Commission needs to update how it controls the use of alcohol for scientific, pharmaceutical, manufacturing, mechanical, and industrial purposes.

- 845-004-0101 will be amended to change the name to an Industrial Alcohol Authority and create a process that will be less work for the industry and the Commission.

- 845-004-0105 will be repealed because creating the Industrial Alcohol Authority and clarifying its privileges eliminates the need for this rule.

Proposed Adoptions: 863-060-0011

Last Date for Comment: 12-21-15, 12 p.m.

Summary: The Oregon Real Estate Agency currently has the following statutory authority:

ORS 100.670 Fees; hourly rate; deposit. (1) A developer or other person required to file materials or information with the Real Estate Commissioner under ORS 100.005 to 100.910 shall pay to the commissioner a fee as required under subsections (2) and (3) of this section for the review, approval and handling of the filings by the commissioner at the time of the initial filing with the commissioner.

(2) A fee charged by the commissioner under subsection (1) of this section shall be determined by the commissioner to cover the costs of the commissioner's review, approval or revision activity. The fee shall be based upon an hourly rate that is subject to prior approval of the Oregon Department of Administrative Services and a report to the Emergency Board prior to adopting the fee and shall be within the budget authorized by the Legislative Assembly as that budget may be modified by the Emergency Board.

(3) The commissioner shall collect a deposit of \$100 from a developer at the time of submitting a filing described in subsection (1) of this section. The amount of the deposit shall be deducted from the final fee computed as provided in subsection (2) of this section. [Formerly 94.354; 1991 c.703 §3]

As defined in subsection (2), the fee shall cover the costs of the review and approval. Currently, our fee of \$46/per hour has not been changed in at least 10 years. There is no record of how that fee was established. It does not cover the costs of the review and approval.

The Real Estate Agency will make clear in rule the hourly rate that captures the costs of the duties charged with condominium review, approval or revision activity.

The effective date of this rule would be on or after January 1, 2016.

Suggested language for rule:

Subject: The proposed rules implement portions of Senate Bill 272 especially with respect to updating the definitions in rule of the Board of Accountancy, including the definition of attest services which was a central piece of SB 272.

In addition, the Board of Accountancy has fees set by statute and rule. The Board worked closely with its stakeholders and came to a consensus with its stakeholders on the need for significant fee increases in statute and rule. As a result, OSCP spearheaded a statutory fee increase bill (SB 581) that passed the 2015 Oregon Legislature. The proposed rules raise fees of the Board set by rule in line with the fee increases approved by statute. Both the statutory fee increases and rule-based fee increased were analyzed and negotiated together in one package between the Board and its stakeholders. All other proposed changes are housekeeping only.

(a) The candidate graduated from a high school with a four-year program, or the equivalent; and

(b) The candidate completed two years of experience in public accountancy or the equivalent satisfactory to the Board that meets the requirements of OAR 801-010-0100(2) and 801-010-0065(2).

(c) Returning candidates after January 1, 2002 who were eligible to take two sections of the CPA Exam under provisions of ORS 673.100 in effect prior to January 1, 2002, are required to sit for at least one exam section in any two testing windows each year in order to maintain eligibility under those requirements.

(5) Authorization to Test and Notice to Schedule.

(a) An ATT authorizes the candidate to test one time for those sections of the CPA exam that are specified in the ATT. An ATT is effective for six months from the date on which the corresponding NTS is issued or until the NTS expires, whichever occurs first; however, the ATT will expire ninety (90) days after it is issued if the candidate has not paid the appropriate fees to NASBA.

(b) Expiration of the ATT. Authorization to take a specified exam section will expire on any of the following events:

(A) When the candidate schedules and takes a designated exam section;

(B) If the candidate schedules a testing date for a designated exam section but fails to appear and take the section at the scheduled time;

(C) If the candidate fails to schedule a designated exam section within the six-month period defined by the NTS; or

(D) If the candidate fails to request an NTS and pay the appropriate fees to NASBA within 90 days of the date the ATT is issued.

(c) Suspension of the ATT. An ATT may be suspended by the Board of Accountancy based on a report from NASBA that a problem related to the candidate is identified on the National Candidate Database, or for other good cause as determined by the Board.

ADMINISTRATIVE RULES

(d) Payment of CPA Exam testing fees. To obtain a Notice to Schedule (NTS), the candidate must remit the CPA exam testing fees required for the CPA exam sections specified in the ATT to NASBA within ninety (90) days from the date the ATT is issued. Failure to remit the required fees and obtain the NTS will cause the ATT to expire, and the candidate must submit a re-examination application to the Board, with the appropriate CPA exam fee, to receive another ATT.

(e) NTS. When the candidate receives an ATT from the Board, the candidate is required to:

(A) Submit to NASBA payment of all fees related to testing of the CPA exam sections authorized by the ATT;

(B) Upon receipt of the NTS, contact an approved test center to schedule the time and place for testing of the exam sections authorized by the NTS. CPA exam sections do not have to be scheduled on the same date.

(C) The NTS remains valid for each exam section until the candidate schedules testing for that specific section, or for six months from the date the NTS was issued, whichever occurs first.

(D) The NTS expires as to each individual exam section when the candidate schedules testing for that section, whether or not the candidate appears at the scheduled testing appointment.

(f) Testing.

(A) A candidate may schedule testing at an approved testing center in Oregon or in another jurisdiction. A list of approved testing centers is on the Board of Accountancy website.

(B) Candidates must comply with the procedures and rules of the test center.

(g) Re-examination. A completed re-examination application and payment of the appropriate fee to the Board of Accountancy is required:

(A) To retake any exam section that the candidate does not pass;

(B) To obtain an NTS for any exam section that the candidate failed to schedule during the six-month period for which a previous NTS was issued;

(C) To obtain an NTS for any exam section for which the candidate failed to obtain an NTS during the ninety (90) day period after the date the ATT was issued.

(5) Inactive registrants or certificate holders. Registrants or certificate holders may place their license or certification on inactive status if the registrant or certificate holder has suffered a debilitating mental or physical illness, injury or disease that prevents the registrant or certificate holder from engaging in the professional practice. Registrants or certificate holders must request to be placed on inactive status. Registrants or certificate holders making such requests must provide documentation prepared by a licensed physician that the registrant or certificate holder suffers from a specific, named debilitating mental or physical illness, injury or disease that prevents the registrant or certificate holder from engaging in the professional practice, and an estimate of the period of time during when the illness, injury or disease will last or whether it is of an unlimited duration. An inactive registrant or certificate holder may, within a period of 5 years from inactive, return to active status:

(a) Upon application to the Board;

(b) Successfully pass a take at home examination on the laws and rules in Oregon;

(c) By paying the reinstatement fee required by OAR 820-010-0305(3);

Board of Psychologist Examiners Chapter 858

Rule Caption: Changes the educational requirements for psychologist and psychologist associate licensure.

Adm. Order No.: BPE 3-2015

Filed with Sec. of State: 9-30-2015

Certified to be Effective: 9-30-15

Notice Publication Date: 9-1-2014

Rules Amended: 858-010-0010, 858-010-0015

Subject: This amendment changes the educational requirements for psychologist licensure by modifying the definition of approved doctoral program in psychology. The Board will phase out its acceptance of doctoral degrees in psychology from programs at regionally accredited or provincially/territorially chartered institutions but which are not accredited by the American Psychological Association

(APA) or Canadian Psychological Association (CPA). Degrees from programs at regionally accredited institutions will qualify only if 1) the applicant enrolled in his or her program prior to July 22, 2014 and applies by July 22, 2019; or 2) the program submitted an application to the APA or CPA for accreditation prior to the date the applicant's degree was conferred, and has been granted a site visit by the APA or CPA. The amendment adds a requirement of one continuous year in-residence at the master's program as a qualification for licensure as a psychologist associate. There are some clarifying language changes as well. On November 14, 2014 the Board voted to adopt this rule amendment, and on November 17, 2014 the permanent rule was filed with the Secretary of State. ORS 183.715 requires that "a state agency that adopts a rule shall submit a copy to the Legislative Counsel within 10 days after the agency files a certified copy of the rule with the office of the Secretary of State as provided in ORS 183.355(1)." Accordingly, the Board submitted a copy by certified mail on November 25, 2015; however, it was not received by Legislative Counsel until December 1, 2015. To address any issue regarding the validity of the rule filing, the Board is refiling the permanent rulemaking in order to affirm these amendments to the education requirements for psychologist licensure.

Education Requirements — Psychologist

To meet the education requirement of ORS 675.030(1), applicants for licensure must possess a doctoral degree in psychology from an approved doctoral program in psychology, as set forth below:

(1) A program accredited by the American Psychological Association (APA) or the Canadian Psychological Association (CPA) as of the date the degree was conferred; or

(2) A program at an institution of higher learning that was accredited by a regional accrediting agency as of the date the degree was conferred, if the program submitted an application to the APA or CPA for accreditation prior to the date the degree was conferred and has been granted a site visit by the APA or CPA. The program must not have withdrawn its APA or CPA accreditation application or have been denied accreditation as of the date the licensure applicant enrolled in the program; or

(3) Effective through July 22, 2019: A program at an institution of higher learning that was accredited by a regional accrediting agency as of the date the degree was conferred, if the applicant can verify their enrollment in the program prior to July 22, 2014; or

(4) A foreign program that has been evaluated by a credentialing body recognized by the Board. Submission of foreign degree evaluation and cost of the foreign degree qualification determination are the responsibility of the applicant.

(5) An applicant who possesses a degree under section (3) or (4) must show that his or her doctoral program in psychology meets all of the following requirements:

(a) A minimum of three academic years of full-time graduate study.

(b) A minimum of one continuous year in-residence at the institution from which the degree is granted.

(A) One continuous year means two consecutive semesters or three consecutive quarters.

(B) In-residence means physical presence, in person, at an educational institution or training facility in a manner that facilitates acculturation into the profession, the full participation and integration of the individual in the educational and training experience, and includes faculty and student interaction.

(C) The doctoral program may include distance education, but a minimum of one continuous year of the program shall be in-residence. Programs that use physical presence, including face-to-face contact for durations of less than one continuous year, (e.g., multiple long weekends and/or summer intensive sessions) or that use video teleconferencing or other electronic means as a substitute for physical presence at the institution do not meet the in-residence requirement.

(D) Effective through August 12, 2015, applicants who can verify that they enrolled in their program prior to August 12, 2011 may apply under the "old rule" definition of in-residence. Under this provision, one continuous year means a minimum of 500 hours of student-faculty contact involving face-to-face individual or group educational meetings. Such educational meetings must include both faculty-student and student-student interaction, be conducted by the psychology faculty of the institution at least 90 percent

ADMINISTRATIVE RULES

of the time, be documented by the applicant and the institution, and relate substantially to the program components specified. Items such as receptions, meals, group socials and library tours may not count towards the minimum 500 hours of educational meetings. Applicants applying under this provision shall submit full documentation that they have met this requirement, which must include a detailed description of the content of the 500 hours of educational meetings and be verified by the administration of the doctoral program.

Education Requirements — Psychologist Associate

(1) To meet the education requirement of ORS 675.065(4)(c), an applicant must possess a master's degree in psychology from a program at an institution of higher learning that was accredited by a regional accrediting agency at the graduate level as of the date the degree was awarded, or for Canadian universities, an institution of higher education that was provincially or territorially chartered.

(2) The master's program must include at least 45 quarter hours or 30 semester hours of graduate credit, 30 quarter hours or 20 semester hours of which must be in graded (not "pass-no pass") courses. Hours must be from at least five of the basic areas of psychology including:

(a) Experimental psychology; Learning theory; Physiological psychology; Motivation; Perception; Comparative psychology; Statistical methods; Design of research; Developmental psychology; Individual differences; Social psychology; Organizational psychology; Personality theory; Abnormal psychology; and

(b) A minimum of one graduate level course in ethics; and

(c) A minimum of one graduate level course in psychological tests and measurements.

(3) If the master's program does not meet the coursework requirements of (2), the applicant for licensure may remedy a deficiency of up to one course or 3 semester hours or 4.5 quarter hours by completing graduate level coursework in the deficient content area at a regionally accredited institution.

(4) Effective July 26, 2016: The master's program must have included a minimum of one continuous year in-residence at the institution from which the degree is granted.

(a) One continuous year means two consecutive semesters or three consecutive quarters.

(b) In-residence means physical presence, in person, at an educational institution or training facility in a manner that facilitates acculturation into the profession, the full participation and integration of the individual in the educational and training experience, and includes faculty and student interaction.

(c) The master's program may include distance education, but a minimum of one continuous year of the program shall be in-residence. Programs that use physical presence, including face-to-face contact for durations of less than one continuous year, (e.g., multiple long weekends and/or summer intensive sessions) or that use video teleconferencing or other electronic means as a substitute for physical presence at the institution do not meet the in-residence requirement.

On November 14, 2014 the Board voted to adopt this rule amendment, and on November 17, 2014 the permanent rule was filed with the Secretary of State. ORS 183.715 requires that “a state agency that adopts a rule shall submit a copy to the Legislative Counsel within 10 days after the agency files a certified copy of the rule with the office of the Secretary of State as provided in ORS 183.355(1).” Accordingly, the Board submitted a copy by certified mail on November 25, 2015; however, it was not received by Legislative Counsel until December 1, 2015. To address any issue regarding the validity of the rule filing, the Board is refiling the permanent rulemaking in order to affirm this temporary renewal fee reduction for licensees.

Rules Amended: 858-010-0036

Subject: This amendment makes clarifications to the post-doctoral supervised work experience requirements for licensure as a psychologist. The change specifies that the 24 month time limit on the psychologist licensure requirement statutory exemption under ORS 675.090(2)(a) does not restart or reset. The amendment also reorganizes some content for clarity and makes other helpful language changes. On November 14, 2014 the Board voted to adopt this rule amendment, and on November 17, 2014 the permanent rule was filed with the Secretary of State. Post-Doctoral Supervised Work Experience

(1) Policy. One year of post-doctoral supervised work experience is required for licensure. The required work experience must take place after the doctorate degree is conferred.

(a) One year of supervised work experience is defined as 1,500 hours of psychological services performed over a period not less than twelve months.

(b) Psychological services are defined as direct psychological services to an individual or group; diagnosis and assessment; completing documentation related to services provided; client needs meetings and consultation; psychological testing; research related to client services; report writing; and receiving formal training including workshops and conferences.

(c) For the purposes of licensure, psychological services do not include business development; credentialing activities; marketing; purchasing; creating forms; administrative billing or other business management activities.

(d) A person with a doctoral degree in psychology who is employed at an “exempt site” pursuant to ORS 675.090(f) may practice psychology without a license for no more than 24 months from the time they begin practicing at an exempt site. The 24-month time limit does restart if the person ceases practicing and then begins again, and does not reset if the person begins working at a different exempt site.

(2) The following shall be used by the Board to define supervised work experience.

(a) Unless exempted from ORS 675.010 to 675.150, in order to obtain postdoctoral supervised work experience in Oregon, the candidate for licensure must be in a Board approved Resident Supervision Contract.

(b) Work experience completed in Oregon must be performed under the supervision of an Oregon licensed psychologist who has been licensed for at least two years in Oregon or in a jurisdiction with licensing standards comparable to Oregon.

(c) To receive supervised work experience credit from other jurisdictions, the experience must be a formal arrangement under the supervision of a psychologist who has been licensed for at least two years in a jurisdiction with licensing standards comparable to Oregon.

(d) The supervisor is not required to be working on-site with the resident.

(e) Frequency:

(A) If a resident works 1–20 hours in a week, the resident must at least one hour of individual face-to-face supervision during that week.

(B) If a resident works more than 20 hours in a week, the resident must receive at least two hours of supervision during that week. One hour must be individual and one hour may be group supervision. Group supervision must be:

ADMINISTRATIVE RULES

(i) A formal and on-going group of at least three mental health professionals;

(ii) Facilitated by a licensed psychologist; and

(iii) Approved by the resident's supervisor.

(C) On a non-routine basis, in the absence of the primary supervisor, individual one-on-one supervision hours may be delayed up to 14 days to accommodate vacations, illness, travel or inclement weather.

(D) Non-routine individual supervision may occur by electronic means when geographical distance, weather or emergency prohibit a face-to-face meeting.

(E) If a resident's work in a particular week does not comply with these requirements, then it may not be counted towards the supervised work experience requirement.

(3) Candidates for licensure shall be eligible to enter into a Resident Supervision Contract as described in subsection (2)(a) of this rule.

(a) Resident status shall begin the date the Board approves the Resident Supervision Contract.

(b) Duration. The resident status is a transitional step toward licensure and is not intended as a means to avoid licensure. A Resident Supervision Contract shall be effective for a period not to exceed two years from the date of Board approval. The Board may extend the contract beyond two years for good cause upon a written request from the resident and the supervisor prior to the expiration of the contract. Failure to receive a courtesy reminder notice from the Board shall not relieve the resident of the responsibility to timely request an extension.

(c) Termination of a Resident Supervision Contract will be granted by the Board at the written request of the supervisor or the resident. The termination shall be effective at the time the Board approves the request in writing, or on the date indicated by the supervisor in the final residency evaluation, whichever is later.

(d) If the supervisor is to be paid for supervision payment must be in the form of a per-hour fee.

(e) Supervision of more than three residents concurrently shall require prior approval by the Board.

(4) Resident's Responsibilities. The resident's conduct must conform to the following standards:

(a) Title. The resident must be designated at all times by the title "psychologist resident." All signed materials, letterhead, business cards, telephone directory listings, internet postings, brochures, insurance billing and any other public or private representation must include the individual's title as "psychologist resident" and the supervisor's name and designation "supervisor."

(b) Scope of Practice. The resident will only offer services in those areas that the supervisor is competent.

(c) Nature of Supervision. The resident must obtain frequent and regular supervision meetings throughout the duration of the Resident Supervision Contract. The resident must provide the supervisor with a periodic evaluation of all cases and psychological activities in which the resident is engaged. The resident's practice must comply with Oregon laws and administrative rules.

(d) Confidentiality. The resident must advise all clients orally and in their informed consent policy that the supervisor may have access to all information and material relevant to the client's case.

(e) Promptly communicate to the Board any significant interruption or expected termination of the Resident Supervision Contract.

(f) The resident must discuss with their supervisor the Supervisor Evaluation Report at the conclusion or termination of the Resident Supervision Contract.

(5) The supervisor's responsibilities are:

(a) Review, supervise and evaluate representative and problem cases with attention to diagnostic evaluation, treatment planning, ongoing case management, emergency intervention, recordkeeping and termination;

(b) Countersign all psychological reports and professional correspondence produced by the resident; and ensure that letterhead, business cards, telephone directory listings, internet postings, brochures, insurance billing and any other public or private representation includes the appropriate title of "psychologist resident" or "psychologist associate resident" and the supervisor's name and designation as "supervisor."

(c) Review with the resident, Oregon laws and administrative rules related to the practice of psychology, including the current APA "Ethical Principles of Psychologists and Code of Conduct," professional relationships and referrals, protection of records, billing practices, recordkeeping and report writing;

(d) Assist the psychologist resident in developing a plan to prepare for the national written exam and the Oregon jurisprudence examination;

(e) Promptly communicate to the Board any professional or ethical concerns regarding the resident's conduct or performance;

(f) Notify the Board within fourteen days and explain any significant interruption or expected termination of the Resident Supervision Contract;

(g) Ensure that the resident has access to supervision by telephone to discuss urgent matters, if the supervisor is unavailable during a period not to exceed fourteen days;

(h) Create and maintain for at least three years a record of hours of supervision and notes for each supervision session contemporaneously as supervision occurs, and provide it to the Board within fourteen days of request;

(i) Provide the Board with an interim Resident Evaluation Report upon request; and

(j) Provide the Board with a final Resident Evaluation Report at the conclusion or termination of the Resident Supervision Contract.

(6) Associate Supervisor. Any supervision of the resident by a person other than the primary supervisor must be identified in the Resident Contract and approved by the Board.

(a) The associate supervisor is responsible for providing supervision as described in section (5) of this rule in the event that the primary supervisor is unavailable for any reason; and

(b) The associate supervisor is responsible for reporting professional or ethical concerns regarding the resident's conduct or performance to the primary supervisor and the Board.

Certification of QHPs and Marketplace SADPs

(1) Each health benefit plan or dental plan offered through the Oregon Health Insurance Marketplace must have in effect a certification issued by the Marketplace. This certification evidences that the health benefit plan is a QHP and that the dental plan is a SADP providing pediatric dental benefits.

(2) The Marketplace will issue a request for applications. To be considered for participation and plan certification, an insurer must submit a

ADMINISTRATIVE RULES

completed application to the Marketplace in the form and manner, and within the timeframes specified by the Marketplace.

(3) For QHPs, the Marketplace will grant conditional approval to participate in the Marketplace to an insurer whose application demonstrates the insurer:

(a) Has a certificate of authority and is in good standing with the Oregon Insurance Division to offer health benefit plans in Oregon;

(b) Will offer at least one standardized QHP at the bronze, silver, and gold levels of coverage;

(c) Will contract with the Marketplace to offer QHPs and abide by the terms of the contract, including but not limited to the following provisions:

(A) Transparency in coverage standards;

(B) Accreditation requirements;

(C) Network adequacy standards;

(D) Marketplace administrative fees and assessments;

(E) Quality improvement strategies, quality reporting, and enrollee satisfaction surveys;

(F) Tribal requirements;

(G) Premium tax credit and cost sharing reductions;

(H) Performance reporting standards; and

(I) Marketplace processes and procedures, including those related to enrollment, enrollment periods, premium payment, terminations of coverage, customer service, and QHP recertification and decertification.

(4) For SADPs, the Marketplace will grant conditional approval to participate in the Marketplace to an insurer whose application demonstrates the insurer:

(a) Has a certificate of authority and is in good standing with the Oregon Insurance Division to offer dental plans in Oregon;

(b) Agrees to contract with the Marketplace to offer SADPs. Contracts will require insurers to comply with Marketplace standards and requirements, including but not limited to the following:

(A) Transparency in coverage standards;

(B) Network adequacy standards;

(C) Marketplace administrative fees and assessments; and

(D) Marketplace processes and procedures, including those related to enrollment, enrollment periods, premium payment, terminations of coverage, customer service, and SADP recertification and decertification.

(5) An insurer's approval is conditioned on certification of its health benefit or dental plans. An insurer will be approved for a two-year period, subject to a decision by the Marketplace to issue another request for applications before the end of the two-year period. An insurer that did not participate in the request for application the process may not offer coverage through the Marketplace, unless the Marketplace determines that there is a significant loss of statewide coverage.

(6) A loss of statewide coverage may include, but is not limited to:

(A) Plan discontinuance;

(B) Plan withdrawal;

(C) Plan decertification; or

(D) Enrollment closures that result in inadequate coverage choices in one or more geographic areas of the state.

(7) Every QHP or SADP offered through the Marketplace must be filed with the Oregon Insurance Division and determined to meet applicable benefit design standards and all other insurance regulations as required under state and federal law.

(8) Benefit design standards means coverage that includes, but is not limited to, the following:

(a) For QHPs, essential health benefits, or for SADPs, pediatric dental benefits;

(b) For QHPs:

(A) Cost sharing limits as defined in 45 CFR 156.130; and

(B) A bronze, silver, gold, or platinum level of coverage as defined in 45 CFR 156.140, or is a catastrophic plan as described in section 1302(e) of the Affordable Care Act.

(9) Subject to the limitation on the number of QHPs that may be offered through the Marketplace in the insurer's contract with the Marketplace, the Marketplace will recertify health benefit or dental plans that are submitted by approved insurers and with benefit design standards and legal requirements in this rule.

(10) The Marketplace may at any time decertify a QHP or SADP if the Marketplace determines that the insurer or QHP or SADP is no longer in compliance with the Marketplace's certification criteria. An insurer may appeal decertification of a QHP or SADP through the informal process specified in the insurer's contract with the Marketplace. After resolution of the informal appeal, an aggrieved insurer may seek additional review

through a contested case hearing as provided under ORS 183.411 to 183.471.

Certification of Non-Marketplace Stand-alone Dental Plans

This rule applies only to SADPs offered outside the Marketplace. The Marketplace will, upon satisfaction of the following criteria, certify as providing pediatric dental benefits a stand alone dental plan (SADP) that an insurer offers for sale outside of the Marketplace.

(1) To be considered for SADP certification, a dental plan must have its rates, form, and binder filed with and approved by the Oregon Insurance Division.

(2) For an SADP to be certified, the insurer must demonstrate to the Marketplace that the SADP:

(a) Provides pediatric dental benefits;

(b) Meets an actuarial value of 68% to 72% or 83% to 87%;

(c) For individual SADPs, imposes rates that are effective for the entire policy year;

(d) For small group SADPs, imposes rates that may be subject to increase every calendar quarter but that are effective for a specific group for the entire plan year; and

(e) Has been approved for sale in Oregon by the Oregon Insurance Division.

(3) The Marketplace will recertify an SADP that meets the criteria in paragraph (2) of this rule.

(4)(a) The Marketplace may at any time decertify an SADP if the Marketplace determines that the insurer or SADP no longer meets the Marketplace's certification criteria described in this rule.

(b) The insurer may appeal decertification. Appeal requests must be submitted within 15 days from receipt of the notice from the Marketplace informing the insurer of the decertification. The insurer's appeal request must be made in writing and must provide a thorough explanation of the grounds for appeal along with any supporting information. The Administrator of the Marketplace will rule on a valid and timely appeal request within 14 days of receipt of the request. If an insurer is unsatisfied with the Administrator's ruling, the insurer may seek additional review through a contested case hearing as provided under ORS 183.411 to 183.471.

(c) Upon decertification of an SADP, the Marketplace will provide notice of decertification to the insurer and the Insurance Division, and the insurer shall not terminate coverage before giving notice to enrollees.

Establishment of Administrative Charge Paid by Insurers

(1) After consulting with the Advisory Committee created by Section 13 of 2015 Senate Bill 1, Marketplace staff will annually provide a Report on Administrative Charges to the Director of the Department of Consumer and Business Services (Director).

(2) The report will be posted on the Marketplace's website for public review and comment.

(3) At a minimum, the report will include

(a) A projection of Marketplace operating expenses (including the Marketplace share of DCBS shared services expenses, and operating expenses borne by the Marketplace and reimbursed by another agency) based on DCBS budgets, assuming for this purpose that the operating expenses in any actual or expected biennial budget are distributed evenly over the biennium;

(b) A projection of Marketplace enrollment for the next calendar year; and

(c) A proposed administrative charge for the next calendar year.

(4) The Department will hold a public hearing on a proposed administrative charge.

(5) No later than the end of the first quarter of a calendar year the Director shall amend or approve an administrative charge for the next calendar year.

(6) Any administrative charge adopted by the Director shall be established in rule.

(7) The administrative charge shall be expressed as a per member per month figure.

(8) The annual administrative charge assessed by the Marketplace shall not exceed the limits set forth in ORS 741.105(2) on the premium or other monthly charge, prior to tax credits and cost sharing reductions, based on the number of enrollees receiving coverage in qualified health plans or stand alone dental plans through the Marketplace during the month of December preceding the report.

(9) The maximum amount permissible under ORS 741.105 will be calculated by comparing the Marketplace's fund balance at the end of each December with the Marketplace's budgeted operating expenses for the following six-month period (calculated as one-fourth of the budgeted operating expenses for the biennium that includes the six-month period). If the fund balance exceeds six months of budgeted operating expenses, the Department of Consumer and Business Services will return excess funds to carriers on a pro-rata basis, computed from the December assessments, in the form of a credit applied against future assessments. The credit will be applied no later than the end of the first quarter of the calendar year.

Subject: In November 2014, Oregon OSHA proposed to adopt Federal OSHA final rules for Electric Power Generation, Transmission, and Distribution, that were published in the April 11, 2014 Federal Register. The proposal included Oregon-initiated changes to the federal rule. Three public hearings were held during November and December of 2014 resulting in several written comments and oral testimony before the comment period closed on December 12, 2014. Most of the comments received concerned the two worker rule exceptions. As a result of the comments received, Oregon OSHA decided not to adopt the rule as proposed in 2014, but to consider an alternative approach.

Two stakeholder meetings were conducted in the first half of 2015 to discuss comments along with potential changes to the 2014 proposal. Oregon OSHA received input and support from stakeholders to combine the Electric Power Generation, Transmission, and Distribution standards in Divisions 2/R and 3/V into one rule. Oregon OSHA merged 1910.269, in Division 2/R General Industry, and Division 3/V in Construction, standards into the new Division 2/RR. Unifying language and Oregon-unique rules for Power Generation, Transmission and Distribution for General Industry and Construction were incorporated into one standard.

In July, 2015 Oregon OSHA reposed rules for Electric Power Generation, Transmission, and Distribution. Three public hearings were held during August and September 2015. Most of the oral and written comments received concerned: the duties of a Safety Watch, the

ADMINISTRATIVE RULES

exception to the two-worker rule, and helicopters. Changes to the final rule include:

Safety Watch: Safety Watch text was added to the final rule 437-002-2311(13).

Operating switches: 437-002-2311(2)(b)(B) was changed to clarify that 437-002-2311(2)(b)(E) must be followed for routine switching of load break elbows.

Helicopters: Paragraphs were removed which were already addressed by, or were in conflict with, other regulatory agencies; or were unnecessarily restrictive based upon accepted industry practices.

On October 5, 2015 Federal OSHA published in the Federal Register, minor language clarifications in rules related to Line Clearance Tree Trimming as well as correcting errors in Table R-6 (Alternative Minimum Approach Distances.) The note for enclosed spaces was removed from Appendix A-3 and placed in Appendix A-5. These corrections have been incorporated in Oregon OSHA's final rules.

Personal Protective Equipment

Application. This rule applies to personal protective equipment and other protective equipment for the eyes, face, head, extremities and torso to include protective clothing, respiratory devices, and protective shields and barriers, wherever employees encounter hazardous processes or environments, chemical hazards, radiological hazards, or mechanical irritants that are capable of causing injury or impairment in the function of any part of the body through absorption, inhalation or physical contact.

NOTE: The assessment for eyes, face, head, hands, and feet are currently in effect. The torso and extremities (e.g. arms and legs) element of the body assessment will not be enforced until July 1, 2012.

(1) Hazard assessment and equipment selection.

(a) The employer must assess the workplace to determine if hazards are present, or are likely to be present, which necessitate the use of personal protective equipment (PPE) or other protective equipment. If such hazards are present, or likely to be present, the employer must:

(A) Select, and have each affected employee use, the types of PPE that will protect the affected employee from the hazards identified in the hazard assessment;

(i) All protective equipment must be of safe design and construction for the work to be performed.

(ii) Protective equipment must be worn and used in a manner which will make full use of its protective properties.

(B) Communicate selection decisions to each affected employee; and,

(C) Select PPE that properly fits each affected employee.

NOTE: Non-mandatory Appendix B contains an example of procedures that would comply with the requirement for a hazard assessment.

(b) The employer must verify that the required workplace hazard assessment has been performed through a written certification that identifies the workplace evaluated; the person certifying that the evaluation has been performed; the date(s) of the hazard assessment; and, which identifies the document as a certification of hazard assessment.

(2) Equipment.

(a) Where employees provide their own protective equipment, the employer is responsible to assure its adequacy, including proper maintenance, and sanitation of such equipment.

(b) All personal protective equipment must be provided, used, and maintained in a sanitary and reliable condition.

(c) Defective or damaged personal protective equipment must not be used

(d) Each employer must maintain a regular system of inspection and maintenance of personal protective equipment furnished to workers.

(a) The employer must provide training to each employee who is required by this section to use PPE and each employee that is provided training must know at least the following:

(A) When PPE is necessary;

(B) What PPE is necessary;

(C) How to properly don, doff, adjust, and wear PPE;

(D) The limitations of the PPE; and,

(E) The proper care, maintenance, useful life and disposal of the PPE.

(b) Each affected employee must demonstrate an understanding of the training specified in paragraph (3)(a) of this section, and the ability to use PPE properly, before being allowed to perform work requiring the use of PPE.

(c) When the employer has reason to believe that any affected employee who has already been trained does not have the understanding and skill required by paragraph (3)(b) of this section, the employer must retrain each such employee. Circumstances where retraining is required include, but are not limited to situations where:

(A) Changes in the workplace render previous training obsolete; or

(B) Changes in the types of PPE to be used render previous training obsolete; or

(C) Inadequacies in an affected employee's knowledge or use of assigned PPE indicate that the employee has not retained the requisite understanding or skill.

(4) Payment for protective equipment.

(a) Except as provided by paragraphs (4)(b) through (4)(f) of this section, the protective equipment, including personal protective equipment (PPE), used to comply with this part, must be provided by the employer at no cost to employees.

(b) The employer is not required to pay for non-specialty safety-toe protective footwear (including steel-toe shoes or steel-toe boots) and non-specialty prescription safety eyewear, provided that the employer permits such items to be worn off the job-site.

(c) When the employer provides metatarsal guards and allows the employee, at his or her request, to use shoes or boots with built-in metatarsal protection, the employer is not required to reimburse the employee for the shoes or boots.

(d) The employer is not required to pay for:

(A) The logging boots required by OAR 437-007-0330 in division 7.

ADMINISTRATIVE RULES

(e) The employer must pay for replacement PPE, except when the employee has lost or intentionally damaged the PPE.

(f) Where an employee provides adequate protective equipment he or she owns pursuant to paragraph (2)(a) of this section, the employer may allow the employee to use it and is not required to reimburse the employee for that equipment. The employer must not require an employee to provide or pay for his or her own PPE, unless the PPE is excepted by paragraphs (4)(b) through (4)(e) of this section.

(5) Fall Protection.

(a) All employees must be protected from fall hazards when working on unguarded surfaces more than 10 feet above a lower level or at any height above dangerous equipment.

(b) The employer must ensure that fall protection systems are provided, installed, and used according to the criteria in 1926.502(d), and 437-003-0502 in Division 3/M, Construction/Fall Protection.

(7) High Visibility Garments. Employees exposed to hazards caused by on highway type moving vehicles in construction zones and street/highway traffic must wear highly visible upper body garments. The colors must contrast with other colors in the area sufficiently to make the worker stand out. Colors equivalent to strong red, strong orange, strong yellow, strong yellow-green or fluorescent versions of these colors are acceptable. During hours of darkness, the garments must also have reflective material visible from all sides for 1000 feet.

(8) Eye And Face Protection.

(c) The employer must ensure that each affected employee who wears prescription lenses while engaged in operations that involve eye hazards wears eye protection that incorporates the prescription in its design, or shall wear eye protection that can be worn over the prescription lenses without disturbing the proper position of the prescription lenses or the protective lenses.

(d) Eye and face PPE must be distinctly marked to facilitate identification of the manufacturer.

(e) The employer must ensure that each affected employee uses equipment with filter lenses that have a shade number appropriate for the work being performed for protection from injurious light radiation. The following is a listing of appropriate shade numbers for various operations. [Table not included, see ED. NOTE]

(h) Employees whose occupation or assignment requires exposure to laser beams shall be furnished laser safety goggles as required by Occupational Health Regulations which will protect for the specific wavelength of the laser and be of optical density adequate for the energy involved.

(9) Head Protection.

(a) The employer must ensure that each affected employee wears a protective helmet when working in areas where there is a potential for injury to the head from falling or flying objects.

(b) The employer must ensure that a protective helmet designed to reduce electrical shock hazard is worn by each such affected employee when near exposed electrical conductors which could contact the head.

(c) Head protection must comply with any of the following consensus standards:

(g) Authorized entrant — An employee who is authorized by the employer to enter a permit space.

(h) Barrier — A physical obstruction that blocks or limits access.

(i) Blanking or blinding — The absolute closure of a pipe, line, or duct by the fastening of a solid plate (such as a spectacle blind or a skilllet blind) that completely covers the bore and that is capable of withstanding the maximum pressure of the pipe, line, or duct with no leakage beyond the plate.

(j) Calibration — The checking of a direct-reading instrument against an accurate standard (such as a calibration gas) to determine any deviation and correct for errors.

NOTE: A similar process may also be referred to as a “bump test” in which an instrument is tested with an accurate standard to ensure it is still reading correctly. For the purposes of this rule, a “bump test” performed in accordance with the manufacturer’s instructions can be used to verify calibration.

(k) Confined space — A space that meets all of the following:

(A) Large enough and so configured that an employee can fully enter the space and perform work.

(B) Has limited or restricted means for entry and/or exit.

(C) Is not designed for continuous human occupancy.

(l) Continuous system — a confined space that meets all of the following:

(A) Part of, and contiguous with, a larger confined space (for example, storm sewers, sanitary sewers, or steam tunnels)

(B) Subject to a potential release from the larger confined space that can overwhelm control measures and/or personal protective equipment, resulting in a hazard that is immediately dangerous to life and health.

(m) Control or controlling — Authority to regulate, direct or influence.

(n) Controlling contractor — The employer that has overall responsibility for construction at a worksite.

Note: A controlling contractor who owns or manages a property is both a controlling contractor and a host employer.

(o) Double block and bleed — The closure of a line, duct, or pipe by closing and locking or tagging two in-line valves and by opening and locking or tagging a drain or vent valve in the line between the two closed valves.

(p) Emergency — Any occurrence (including any failure of hazard control or monitoring equipment) or event internal or external to the permit space that could endanger entrants.

(q) Engulfment hazard — A physical hazard consisting of a liquid or flowable solid substance that can surround and capture an individual. Engulfment hazards may cause death or serious physical harm if: the individual inhales the engulfing substance into the respiratory system (drowning, for example); the substance exerts excessive force on the individual’s body resulting in strangulation, constriction, or crushing; or the substance suffocates the individual.

(r) Entrant (see the definition of authorized entrant).

(s) Entry — The action by which any part of an employee’s body breaks the plane of an opening into a confined space. Entry (or entry operations) also refers to the period during which an employee occupies a confined space.

(t) Entry Permit — Written authorization from the employer, controlling contractor, or host employer to enter a permit-required confined space and perform work.

(u) Entry supervisor — The person (such as the employer, foreman, or crew chief, or any other designated employee) responsible for:

(A) Determining if acceptable entry conditions are present at a permit space where entry is planned; and

(B) Authorizing entry and overseeing entry operations; and

(C) Terminating entry as required.

(v) Hazard — For the purpose of this rule, hazard means a physical hazard or hazardous atmosphere.

(w) Hazard control — The action taken to reduce the level of any hazard inside a confined space using engineering methods (for example, by isolation or ventilation), and then using these methods to maintain the reduced hazard level. Hazard control also refers to the engineering methods used for this purpose. Personal protective equipment is not a hazard control.

(x) Hazard elimination — The action taken to remove a hazard from the work environment. For confined spaces, this includes isolation. For a hazard to be eliminated, the conditions that create or cause the hazard no longer exist within the confined space.

(y) Hazardous atmosphere — An existing or potential atmosphere that may expose employees to the risk of death, incapacitation, impairment of ability to escape unaided from a permit space, injury, or acute illness from one or more of the following:

(A) A flammable gas, vapor, or mist in excess of 10 percent of its lower flammable limit.

(B) An airborne combustible dust at a concentration that meets or exceeds its lower explosive limit.

NOTE: This concentration may be approximated as a condition in which the dust obscures vision at a distance of 5 feet (1.52 meters) or less.

(C) An atmospheric oxygen concentration below 19.5 percent (oxygen deficient) or above 23.5 percent (oxygen enriched).

(D) An airborne concentration of a substance that exceeds the dose or exposure limit specified by an Oregon OSHA requirement.

NOTE: An atmospheric concentration of any substance that is not capable of causing death, incapacitation, impairment of ability to escape unaided, injury, or acute illness due to its health effects is not covered by this provision. You must still follow all other applicable Oregon OSHA requirements to protect employee health.

(E) An atmosphere that presents an immediate danger to life or health (IDLH).

(z) Host employer — An employer who owns or manages the property on which confined space work is taking place.

(aa) Immediately dangerous to life or health (IDLH) — Means any condition that poses an immediate or delayed threat to life or that would

ADMINISTRATIVE RULES

cause irreversible adverse health effects or that would interfere with an individual's ability to escape unaided from a permit space.

NOTE: Some materials — hydrogen fluoride gas and cadmium vapor, for example — may produce immediate transient effects that, even if severe, may pass without medical attention, but are followed by sudden, possibly fatal collapse 12–72 hours after exposure. The victim “feels normal” from recovery from transient effects until collapse. Such materials in hazardous quantities are considered to be “immediately” dangerous to life or health.

(bb) Inerting — The displacement of the atmosphere in a permit space by a noncombustible gas (such as nitrogen) to such an extent that the resulting atmosphere is noncombustible.

NOTE: This procedure produces an IDLH oxygen-deficient atmosphere.

(cc) Isolate or isolation — The elimination or removal of a physical or atmospheric hazard by preventing its release into a confined space. Isolation includes, but is not limited to, the following methods:

- (A) Blanking or blinding.
- (B) Misaligning or removing sections of lines, pipes, or ducts.
- (C) A double block-and-bleed system.
- (D) Machine guarding;
- (E) Blocking or disconnecting all mechanical linkages;
- (F) Lockout or tagout of all sources of energy.

NOTE: When using lockout/tagout, you must follow all of the requirements of 1910.147, “The Control of Hazardous Energy”.

(dd) Mobile worker — An employee who performs work in multiple locations such as customer sites, company offices, private homes, vendor offices, or construction sites.

(ee) Monitor or monitoring — The process used to identify and evaluate the atmosphere in a permit space after an authorized entrant enters the space. This is a process of checking for changes in the atmospheric conditions within a permit space and is performed in a periodic or continuous manner after the completion of the initial testing of that space. (See also “testing.”)

(ff) Non-entry rescue — Retrieval of entrants from a permit space without entering the permit space.

(gg) Permit-required confined space (permit space) — A confined space that has one or more of the following characteristics:

- (A) Contains, or has a potential to contain, a hazardous atmosphere.
- (B) Contains a material that has the potential to engulf an entrant.
- (C) Has an internal configuration such that an entrant could become trapped or asphyxiated by inwardly converging walls or by a floor which slopes downward and tapers to a smaller cross-section.

(D) Contains any other recognized serious safety or health hazard that can inhibit an entrants ability to escape unaided.

(hh) Physical hazard — An existing or potential hazard that can cause death or serious physical harm in or near a confined space, or a hazard that has a reasonable probability of occurring in or near a confined space, and includes, but is not limited to:

(A) Explosives; mechanical, electrical, hydraulic, and pneumatic energy; radiation; temperature extremes; engulfment; noise; and inwardly converging surfaces; and

(B) Chemicals that can cause death or serious physical harm through skin or eye contact (rather than through inhalation).

(ii) Potential hazards — All reasonably anticipated conditions within the space and outside the space that can adversely affect conditions within the space.

(jj) Rescue — Retrieving employees who are unable to remove themselves from a permit space. Rescue can be entry or non-entry, and can be conducted by the employer's employees or a third-party.

(kk) Rescue service — The onsite or offsite personnel who the employer designates to engage in non-entry and/or entry rescue of employees from a permit space.

(ll) Retrieval system — The equipment, including mechanical retrieval devices, used for non-entry rescue of authorized entrants from a permit space.

(mm) Serious physical harm — An impairment in which a body part is made functionally useless or is substantially reduced in efficiency. Such impairment may include loss of consciousness or disorientation, and may be permanent or temporary, or chronic or acute. Injuries involving such impairment would usually require treatment by a physician or other licensed health-care professional while an illness resulting in serious physical harm could shorten life or substantially reduce physical or mental efficiency by impairing a normal bodily function or body part.

(nn) Simulated Permit-Required Confined Space — Is a confined space or a mock-up of a confined space that has similar entrance openings, and is similar in size, configuration, and accessibility to the permit space the authorized entrants enter. A simulated space does not need to contain any physical or atmospheric hazards.

(oo) Testing — The process of identifying and evaluating the atmospheric hazards that entrants may be exposed to in a permit-required confined space. Testing includes specifying the initial tests that are to be performed in the permit space. (See also “monitor or monitoring.”)

NOTE: Testing enables employers both to devise and implement adequate control measures for the protection of authorized entrants and to determine if acceptable entry conditions are present immediately prior to and during entry.

(pp) Ventilate or ventilation — Controlling an actual or potentially hazardous atmosphere using either powered equipment, such as fans and blowers, or reliable natural air flow, or a combination of the two, to reduce an otherwise hazardous atmosphere below the level that makes it a hazardous atmosphere. Ventilation is a method of hazard control, not hazard elimination.

(qq) You — The employer. Table.

(4) Evaluation.

(a) You must determine if any of your confined spaces are permit-required confined spaces. This evaluation must include:

(A) Any known or anticipated hazard.

NOTE: If the only hazard associated with a confined space is a fall hazard, it is not covered by the Confined Space rule. If the space contains other hazards that make it a permit space, the fall hazard must be addressed on the permit.

(B) The determination from any previous evaluation of that space.

(C) Any precautions and procedures previously implemented for entering the space.

(b) Exceptions:

(A) Employers of mobile workers (for example, contractors, electricians, plumbers) where they are not the property owner or controlling contractor are not required to perform this evaluation for the entire site. Mobile worker employers must evaluate the areas they are responsible for or where their employees will be working and must follow the requirements of (4)(e).

(B) Controlling contractors on sites with existing confined spaces are responsible for performing this determination only for the area under their control.

(C) On sites where confined spaces are being built, the host employer or controlling contractor is responsible for ensuring this determination is accomplished only when:

(i) Any of their employees enter that space.

(ii) An agent of the employer enters that space.

(iii) Employees of an employer accountable to that controlling contractor or host employer enter that space.

(iv) They assume control over that space.

(c) Before employees of another employer enter a confined space at your workplace that is under your control, and you have information related to paragraph (4)(a), you must provide it to that employer.

(d) When a space has hazards that make it a permit space:

(A) Develop and implement a means so employees can identify that space. Signs, labels, or tags are methods that can be used to accomplish this.

(B) Allow employees or their representatives to observe the evaluation or re-evaluation of the space.

(C) When conditions within a confined space or a permit space change, re-evaluate it.

(D) Take all necessary measures to prevent unauthorized employees from entering permit spaces.

(e) Prevent employees from entering any unevaluated confined space until it is fully evaluated.

(f) When your employees are mobile, you must determine if they will be exposed to permit-required confined spaces at their assigned work locations. This determination must include information, if any, from the host employer or controlling contractor.

(A) Identify any physical and atmospheric hazards that make the space a permit-required confined space.

(B) Allow employees or their representatives to observe the evaluation or re-evaluation of the space.

(C) When conditions within a confined space or a permit space change, re-evaluate it.

(D) Take all necessary measures to prevent unauthorized employees from entering permit spaces.

(E) Prevent employees from entering any unevaluated confined space until it is fully evaluated.

(5) Permit-Required Confined Space Entry Program and Permits.

(a) When employees must enter a permit space, develop and implement a written program that describes the means, practices, and procedures to safely identify and enter permit spaces.

ADMINISTRATIVE RULES

- (b) Include the following in the program:
 - (A) Documentation of entry permit procedures.
 - (B) Measures taken to prohibit unauthorized persons from entering permit spaces.
 - (C) Designation of employee roles, such as entrants, attendants, entry supervisors, rescuers, or those who test or monitor the atmosphere in a permit space.
 - (D) Identification of designated employee duties.
 - (E) Training on the written program and entry permits.
 - (F) Training employees on their designated roles.

- (c) On fixed sites, include the following additional elements:
 - (A) The location of all permit spaces.
 - (B) The reason for the classification of each permit space or each type of permit space.

NOTE: Where there are multiple permit spaces of the same type that have the same hazards, such as sewers, water vaults, or valve pits, the exact location of each space does not need to be identified so long as there is enough information so that employees can readily identify each type of space and its hazards at each location.

- (C) Exception: The locations of permit spaces at remote unmanned locations do not need to be added to the program until the first time employees go to that location after the effective date of this rule.

- (d) Provide employees and their representatives access to the written program.

- (e) Provide entrants or their authorized representatives access to the completed permit before entry so they can confirm that pre-entry preparations have been completed.

- (f) Review the permit program when there is any reason to believe that employees are not adequately protected, and revise it as necessary.

- (A) Situations that require this review include:

- (i) Unauthorized entry of a permit space.
- (ii) Discovery of a previously unrecognized hazard.
- (iii) Existence of a condition prohibited by the permit or permit program.

- (iv) An injury or near-miss during entry.
- (v) An employee reports of concerns about the effectiveness of the program.

- (vi) Any other condition that affects employee safety or health.

- (B) When revising the permit program to correct hazard-related deficiencies, do not allow entries into affected permit spaces to be made until the revisions are complete.

- (C) Provide employees and their representatives access to the revised permit program.

- (g) Review permits within one year of their cancellation to evaluate:

- (A) The permit program.
- (B) The protection provided to employees entering permit spaces.
- (6) Permit Entry.
 - (a) Develop and implement procedures for issuing permits.

Procedures must include how to:

- (A) Evaluate the hazards of the space.
- (B) Evaluate hazards of the work to be performed.
- (C) Identify safe entry conditions.

- (b) Entry permits must include the following information:

- (A) The space to be entered.
- (B) The purpose of the entry.
- (C) The date, start, and stop times of the permit.
- (D) The hazards of the space.
- (E) Acceptable entry conditions.

- (F) Results of initial tests and periodic monitoring performed to evaluate and identify the hazards and conditions of the space, or the period for continuous monitoring, accompanied by the names or initials of the testers and by an indication of when the tests were performed.

- (G) Appropriate measures used before entry to isolate the space and eliminate or control hazards.

Examples of appropriate measures include the de-energizing and lockout or tagging of equipment, and procedures for purging, inerting, ventilating, and flushing permit spaces.

- (H) Names of entrants and current attendants.
- (I) The signature of the original supervisor authorizing entry.
- (J) The current entry supervisor.

- (K) Communication procedures for entrants and attendants to maintain contact during the entry.

- (i) Personal protective equipment (PPE).
- (ii) Testing and monitoring equipment.
- (iii) Communications equipment.
- (iv) Alarm systems.
- (v) Rescue equipment.
- (M) Rescue services available, and how to contact them.

- (O) Additional permits issued for work in the space, such as for hot work.

- (P) Any problems, if any, encountered during the entry.

- (c) Perform initial testing for atmospheric hazards, where necessary, before entry is made.

- (d) Provide each entrant or their authorized representative with the results of any initial testing before they enter the space.

- (e) Maintain safe entry conditions for the duration of the entry.

- (A) When the space is too large to isolate, or is part of a continuous system, such as a sewer, ensure continuous monitoring where entrants are working for the duration of the entry.

- (B) When an entrant or their authorized representative has reason to believe that the testing or monitoring was inadequate, re-test the space.

- (f) Follow all actions and precautions identified on the permit.

- (g) When conditions require the space to be evacuated, do not allow re-entry unless you:

- (A) Re-assess the conditions of the space to ensure it is safe for re-entry and ensure the permit reflects the evacuation and subsequent re-assessment; or

- (B) Issue a new permit.

- (h) Allow entrants or their authorized representatives the opportunity to observe monitoring, testing, and all other actions taken to eliminate or control the hazards of the space.

- (7) Equipment.

- (a) When employees enter permit spaces, provide the following equipment as necessary:

- (A) Testing and monitoring equipment.

- (B) Ventilating equipment, when needed, used to obtain and maintain acceptable entry conditions.

- (C) Communication equipment, such as a two-way radio, for effective communication between the attendant and all entrants and to initiate rescue when necessary.

- (D) Lighting equipment needed to ensure employees can see well enough to work safely and exit the space quickly in the event of an emergency.

- (E) Barriers or shields to protect entrants from external hazards, such as pedestrians and vehicles.

- (F) Ladders or other equipment to safely enter and exit the space.

- (G) Rescue and emergency equipment necessary to safely and effectively rescue entrants.

- (H) Any other equipment necessary to safely enter and exit the space.

- (I) Personal protective equipment as mandated by any applicable Oregon OSHA standard or as otherwise required by the employer's assessment of the hazards.

- (b) Provide all necessary equipment at no cost to employees.

- (c) Ensure all equipment is maintained and used in accordance with the instructions from the manufacturer.

- (d) Train all employees who use equipment in the use of that equipment.

- (8) Personnel.

- (a) Before employees enter permit spaces, designate entrants, attendants, and entry supervisors.

NOTE: The entry supervisor can also be either the attendant or entrant.

- (b) Entrants must:

- (A) Know the hazards that may be faced during entry, including information on the type of hazard, as well as signs, symptoms, and consequences of exposure to those hazards.

- (B) Communicate with the attendant as necessary so the attendant can monitor the entrant's status and to enable the attendant to alert entrants of the need to evacuate the space.

- (C) Alert the attendant whenever the entrant detects a dangerous or hazardous condition or warning sign or symptom of exposure to a dangerous situation.

- (D) Exit from the permit space as quickly as possible whenever:

ADMINISTRATIVE RULES

(i) An order to evacuate is given by the attendant or the entry supervisor, or

(ii) The entrant recognizes any warning sign or symptom of exposure to a dangerous situation, or

(iii) The entrant detects a dangerous or hazardous condition, or

(iv) An evacuation alarm is activated.

(c) Attendants must:

(A) Know the hazards that may be faced during entry, including information on the type of hazard, as well as signs, symptoms, and consequences of exposure to those hazards.

(B) Be aware of possible behavioral effects of hazard exposure in authorized entrants.

(C) Continuously maintain an accurate count of authorized entrants in the permit space and ensure that the means used to identify authorized entrants accurately identifies who is in the permit space.

(D) Remain outside the permit space during entry operations until relieved by another attendant.

(E) Communicate with authorized entrants as necessary to monitor entrant status and to alert entrants of the need to evacuate the space.

(F) Monitor activities inside and outside the space to determine if it is safe for entrants to remain in the space and order the authorized entrants to evacuate the permit space immediately under any of the following conditions:

(i) If the attendant detects a dangerous or hazardous condition;

(ii) If the attendant detects the behavioral effects of hazard exposure in an authorized entrant;

(iii) If the attendant detects a situation outside the space that could endanger the authorized entrants; or

(iv) If the attendant cannot effectively and safely perform all the duties required of the attendant.

(G) Summon rescue and other emergency services as soon as the attendant determines that authorized entrants may need assistance to escape from permit space hazards.

(H) Take the following actions when unauthorized persons approach or enter a permit space while entry is underway:

(i) Warn the unauthorized persons that they must stay away from the permit space;

(ii) Advise the unauthorized persons that they must exit immediately if they have entered the permit space; and

(iii) Inform the authorized entrants and the entry supervisor if unauthorized persons have entered the permit space.

NOTE: The employer can give the attendant the authority to remove unauthorized individuals who enter or who attempt to enter the permit space during entry operations, so long as the attendant does not enter the space.

(I) Perform non-entry rescues as specified by the employer's rescue procedure; and

(J) Perform no duties that might interfere with the attendant's primary duty to monitor and protect any authorized entrant.

NOTE: An attendant may monitor more than one space at a time, but the duties in relation to one space may not interfere with the duties for any other spaces. If an attendants' attention is focused on one space, such as to initiate the rescue procedures, all other spaces that the attendant is monitoring must be evacuated or another attendant must take over those duties first.

(d) Entry supervisors must:

(A) Know the hazards that may be faced during entry, including information on the type of hazard, as well as signs, symptoms, and consequences of exposure to those hazards.

(B) Understand the means and methods to control and/or eliminate the hazards of the permit space.

(C) Verify, by checking that the appropriate entries have been made on the permit, that all tests specified by the permit have been conducted and that all procedures and equipment specified by the permit are in place before endorsing the permit and allowing entry to begin.

(D) Inform entrants and attendants of the hazards and conditions associated with the space and the methods used to eliminate and/or control those hazards.

(E) Terminate the entry and cancel the permit as required by the permit entry program.

(F) Verify that rescue services are available and that the means for summoning them are operable.

(G) Remove unauthorized individuals who enter or who attempt to enter the permit space during entry operations.

(H) Reevaluate the conditions within the space whenever responsibility for a permit space entry operation is transferred and at intervals dictated by the hazards and operations performed within the space.

(9) Rescue.

(a) Before employees enter a permit space, develop and implement procedures to remove entrants in the event of an emergency or when they are unable to evacuate without outside assistance. These procedures must include:

(A) The process for summoning rescue services.

NOTE: At a minimum, if an off-site rescue service is being considered, the employer must contact the service to plan and coordinate the evaluations required by the standard. Merely posting the service's number or planning to rely on the 911 emergency phone number to obtain these services at the time of a permit space emergency would not comply with the rescue requirements of the standard.

(B) The process for summoning emergency medical services or transporting injured entrants to a medical facility.

(C) If an injured entrant is exposed to a substance for which a Safety Data Sheet (SDS) or other similar written information is required to be kept at the worksite, that SDS or written information must be made available to the medical facility treating the exposed entrant.

(b) Ensure rescue personnel can respond to a rescue call in a timely manner. Timeliness is based on the identified hazards of the space. Rescuers must be able to reach potential victims within an appropriate time frame based on the identified hazards of the permit space.

NOTE: When there are multiple entrants in a permit space, the rescue plan needs to address how all entrants will be removed in a timely manner.

(c) Ensure all rescuers, including non-entry, entry, and third-party, are knowledgeable in basic first aid and cardiopulmonary resuscitation (CPR). At least one member must be certified in first aid and CPR.

NOTE: Additional medical training, such as oxygen administration, the use of automated external defibrillators (AEDs), and personnel decontamination should be considered.

(d) Rescuers must practice performing permit space rescues prior to entry and no more than 12 months before an entry.

(A) The practice rescue must include every type of space in which the rescue team may perform rescues.

(B) The practice rescue must include removing persons, dummies, or manikins from the actual permit spaces, or representative spaces (simulated permit-required confined spaces) that have similar opening size, configuration, and accessibility issues as the actual permit spaces where rescue may be performed.

NOTE: Reliance upon "self rescue" does not constitute an acceptable rescue program.

(e) Where feasible, use non-entry retrieval systems or methods whenever an authorized entrant enters a permit space, unless it would increase the overall risk to the entrant or would not contribute to the rescue of the entrant.

(A) Non-entry Rescue. Use a retrieval system that meets the following requirements.

(i) Each authorized entrant must use a chest or full body harness, with a retrieval line attached at the center of the entrant's back near shoulder level, above the entrant's head, or at another point which you can establish presents a profile small enough for the successful removal of the entrant. Wristlets or ankle straps or other equally effective means may be used in lieu of the chest or full body harness if you can demonstrate that the use of a chest or full body harness is infeasible or creates a greater hazard and that the use of other methods are the safest and most effective alternative.

(ii) Attach the other end of the retrieval line to a mechanical device or fixed point outside the permit space so that rescue can begin as soon as the attendant becomes aware that rescue is necessary. Ensure a mechanical device is available to retrieve personnel from vertical type permit spaces more than 5 feet (1.52 m) deep.

(B) Entry Rescue.

(i) Where non-entry rescue is not feasible or would increase the overall risk to the entrant, designate a rescue team before employees enter any permit space.

(ii) Ensure the rescue team:

(I) Can efficiently rescue employees from permit spaces.

(II) Has the appropriate equipment to rescue employees from all permit spaces employees enter.

(iii) Inform each rescue team or service about the hazards they may confront when called to perform rescue.

(iv) Provide the rescue team or service with access to all permit spaces from which rescue may be necessary.

(v) Provide rescue team members with personal protective equipment (PPE) needed for safe entry and any other equipment required to safely conduct rescues.

(vi) Rescue team personnel must have the same training and proficiencies as a permit space entrant, attendant, and/or entry supervisor.

(vii) When a third-party rescue service is used, ensure that the service is:

ADMINISTRATIVE RULES

- (I) Aware that they are so designated and agree to it prior to entry.
- (II) Capable of performing all required rescue operations.
- (III) Knowledgeable in first aid and CPR, and at least one member is certified in first aid and CPR.

(10) Alternate Entry.

(a) Permit spaces may be entered without a permit when:

(A) All hazards have been eliminated; or

(B) All physical hazards, if any, have been eliminated and all atmospheric hazards are controlled with continuous ventilation.

NOTE: For purposes of this rule, tagout alone does not eliminate a hazard.

NOTE: Continuous ventilation does not eliminate atmospheric hazards. It only controls the hazards.

(b) Exception: Alternate entry cannot be used to enter a continuous system unless you can isolate the area to be entered from the rest of the space, can demonstrate that the conditions that caused the hazard or potential hazard no longer exist within the system during the entry, or can demonstrate that engulfment cannot occur and continuous ventilation in the area to be entered is sufficient to control atmospheric hazards.

(c) When employees enter permit spaces under alternate entry, you do not need to comply with the requirements of paragraphs (5), (6), (8), (9), (12), and (13) of this rule for those entries.

(d) Develop and implement procedures for each space that can be entered with alternate entry procedures. These procedures must address:

(A) Who can authorize alternate entry procedure and is responsible for ensuring safe entry conditions.

(B) The hazards of the space.

NOTE: When fall hazards (if any) have been addressed and all other physical hazards, if any, have been eliminated and all atmospheric hazards have been eliminated, or are controlled with continuous ventilation, alternate entry is allowed.

(C) The methods used to eliminate hazards.

(D) The methods used to ensure that the hazards have been eliminated.

(E) The methods used to test the atmosphere within the space, where applicable, for all atmospheric hazards.

(F) The methods used to determine if unsafe conditions arise before or during entry.

(G) The criteria and conditions for evacuating the space during entry.

(H) The methods for training employees in these procedures.

(I) The methods for ensuring employees follow these procedures.

(e) When using ventilation to control atmospheric hazards:

(A) Use only properly calibrated direct-reading meters to test the atmosphere.

(B) Test the atmosphere for all identified atmospheric hazards before entering the space.

(C) Do not allow employees to enter until testing verifies that all identified atmospheric hazards are adequately controlled by the ventilation.

(D) Perform continuous monitoring for all atmospheric hazards during the entry.

(E) Immediately evacuate the space:

(i) When monitoring indicates the return of atmospheric hazards.

(ii) Upon any failure with the direct-reading instrument.

(iii) Upon any failure with the ventilation.

(iv) When a new hazard is introduced or conditions within the space change.

(f) Provide all employees who will conduct the entry or their representatives the opportunity to observe all activities used to comply with this section.

(g) Provide all employees who conduct entry an effective means of communication, such as a two-way radio, cell phone, or voice if other employees are present, to summon help while within the space.

(h) When a space is evacuated, it cannot be re-entered as an alternate entry unless:

(A) The conditions that necessitated the evacuation are corrected; and

(B) The re-entry is treated and documented as a new entry.

(i) Document each entry. This documentation must include:

(A) The location of the space.

(B) The hazards of the space.

(C) The measures taken to eliminate the hazards.

(D) When applicable, the measures used to control the atmospheric hazards.

(E) When applicable, the identity of the direct-reading instruments used to test the atmosphere.

(F) When applicable, the results of the atmospheric testing.

(G) The date of the entry.

(H) The duration of the entry.

(I) When applicable, any and all conditions that required the evacuation of the space.

(J) The name, title, and signature of the person responsible for ensuring the safe entry conditions.

(j) Maintain this documentation for the duration of the entry at the location of the entry.

NOTE: Additional record retention requirements may apply under 1910.1020. "Access to Employee Medical and Exposure Records."

(11) Training.

(a) Train each employee involved in permit space activities so they acquire the understanding, knowledge, and skills necessary to safely perform their duties, according to their assigned responsibilities.

(A) Provide training:

(i) For all new employees.

(ii) Before an employee is assigned permit space duties.

(iii) Before there is a change in an employee's assigned duties.

(iv) When there is a hazard for which the employee hasn't already been trained, or when there is a change in the hazards of an existing confined space.

(v) When there are changes to the permit program.

(vi) When the permit audit shows deficiencies.

(vii) Whenever there is a deviation from the established procedures or employee knowledge of the procedures is inadequate.

(B) Document employee training. Ensure the documentation:

(i) Contains the employee's name, the name and signature of the trainer, and the date of training.

(ii) Contains the responsibilities for which they were trained.

(iii) Is available for inspection by employees and their authorized representative.

(b) Ensure each employee is proficient in their assigned duties.

(c) Awareness training:

(A) Provide all employees whose work operations are or may be in an area where permit spaces are present with a basic overview of:

(i) The permit space program.

(ii) The entry permit system.

(iii) The alternate entry procedures, if used.

NOTE: Awareness training is not required for employees whose exposure is negligible, such as office workers who walk in a parking lot that has a sewer manhole or workers entering a building with a baghouse near it, as long as those employees have no other exposures to permit spaces. Similarly, when all permit spaces cannot be accessed or opened by employees, awareness training is not required.

An example of this are spaces that are locked or require a specialized tool, access to the key or tool is controlled, and access without the key or tool would require extraordinary means (such as a chop saw or cutting torch).

(B) Provide this training:

(i) For all new affected employees.

(ii) For all employees whose duties change to include work in areas with permit spaces.

(iii) When inadequacies in an employee's knowledge indicate that the employee has not retained the requisite understanding.

(iv) When there is a change in the permit program.

(v) When there are new or previously unidentified permit spaces.

(C) Ensure all employees understand how to recognize permit spaces in their work area.

(12) Multi-employer worksites.

(a) Unless you fall within an exemption under paragraph (4)(b), before employees of another employer enter permit spaces under your control, you must:

(A) Inform the employer and their employees:

(i) That the workplace contains permit spaces and can be entered only when the applicable requirements of this rule are met.

(ii) Of the identified hazards and your experience with each permit space they will enter.

(iii) Of any precautions or procedures you require to protect employees in or near spaces where the work will be performed.

(B) Coordinate entry operations with the employer, when employees of different employers will be working in or near the same permit spaces.

(C) Discuss entry operations with the employer after they are complete. This discussion must include:

(i) The program followed during permit space entry, and

(ii) Any hazards confronted or created.

(b) When your employees enter a permit space under the control of another entity, at the conclusion of entry operations, inform the controlling contractor and host employer about the precautions and procedures you followed and any hazards that were present or that developed during entry operations.

ADMINISTRATIVE RULES

(13) Records. Keep cancelled permits for at least one year from the date the permit expires for review (see paragraph (5)(g)).

NOTE: Additional record retention requirements may apply under 1910.1020 "Access to Employee Medical and Exposure Records."

(14) Effective dates. For work covered under Division 3, Construction, these rules are effective as of March 1, 2015.

437-002-2300

General

(1) Application. Division 2/RR covers the operation and maintenance of electric power generation, control, transformation, transmission, and distribution lines and equipment. These provisions apply to:

(a) Power generation, transmission, and distribution installations, including related equipment for the purpose of communication or metering that are accessible only to qualified employees;

Note to paragraph (1)(a): The types of installations covered by this paragraph include the generation, transmission, and distribution installations of electric utilities, as well as equivalent installations of industrial establishments. This includes facilities producing electric energy from other forms of energy, including but not limited to thermal, hydroelectric, photovoltaic, wind-generated, wave energy, and chemical energy from fuel cells and batteries. Division 2/S covers supplementary electric generating equipment that is used to supply a workplace for emergency, standby, or similar purposes only.

(b) Other installations at an electric power generating station, as follows:

(A) Fuel and ash handling and processing installations, such as coal conveyors,

(B) Water and steam installations, such as penstocks, pipelines, and tanks, providing a source of energy for electric generators, and

(C) Chlorine and hydrogen systems;

(c) Test sites where employees perform electrical testing involving temporary measurements associated with electric power generation, transmission, and distribution in laboratories, in the field, in substations, and on lines, as opposed to metering, relaying, and routine line work;

(d) Work on, or directly associated with, the installations covered in paragraphs (1)(a) through (1)(C) of this rule; and

(e) Line-clearance tree-trimming performed for the purpose of clearing space around electric power generation, transmission, or distribution lines or equipment and on behalf of an organization that operates, or that controls the operating procedures for, those lines or equipment, as follows:

ADMINISTRATIVE RULES

(A) Entire Division 2/RR, except paragraph (1) of 437-002-2317, applies to line-clearance tree trimming covered by the introductory text to paragraph (1)(e) of 437-002-2300 when performed by qualified employees (those who are knowledgeable in the construction and operation of the electric power generation, transmission, or distribution equipment involved, along with the associated hazards).

(B) Rules 437-002-2300(2), (3); 437-002-2301, 437-002-2302, 437-002-2306, 437-002-2310, 437-002-2315, and 437-002-2317 of Division 2/RR apply to line-clearance tree trimming covered by the introductory text to paragraph (1)(e) of 437-002-2300 when performed by line-clearance tree trimmers who are not qualified employees.

(f) Notwithstanding paragraph (1)(a) of this rule, Division 2/RR does not apply to electrical installations, electrical safety-related work practices, or electrical maintenance considerations covered by Division 2/S or Division 3/K.

Note 1 to paragraph (1)(f): Oregon OSHA considers work practices conforming to 1910.332 through 1910.335 of Division 2/S as complying with the electrical safety-related work-practice requirements of Division 2/RR identified in Table 1 of Appendix A-2 to Division 2/RR, provided that employers are performing the work on a generation or distribution installation meeting 1910.303 through 1910.308 of Division 2/S. This table also identifies provisions in Division 2/RR that apply to work by qualified persons directly on, or associated with, installations of electric power generation, transmission, and distribution lines or equipment, regardless of compliance with 1910.332 through 1910.335 of Division 2/S.

Note 2 to paragraph (1)(f): Oregon OSHA considers work practices performed by qualified persons and conforming to Division 2/RR as complying with 1910.333(c) and 1910.335 of Division 2/S.

(g) Division 2/RR applies in addition to all other applicable standards contained in Division 2. Employers covered under Division 2/RR are not exempt from complying with other applicable provisions in Division 2 by the operation of 1910.5(c) of Division 2. Specific references in Division 2/RR to other subdivisions are for emphasis only.

(h) Division 2/RR also covers the construction of electric power transmission and distribution lines and equipment. As used in this Subdivision, the term “construction” includes the erection of new electric transmission and distribution lines and equipment, and the alteration, conversion, and improvement of existing electric transmission and distribution lines and equipment. Division 2/RR applies to safety-related work practices for qualified employees.

(i) This rule applies in addition to all other applicable standards contained in Division 3, relating to construction activities. Employers engaged in construction activities covered under Division 2/RR are not exempt from complying with other applicable provisions in Division 3 by the operation of 437-003-0005 Additional Applicability, of Division 3/A. Specific references in Division 2/RR to other subdivisions of Division 3 are provided for emphasis only.

(2) Training.

(a) All employees performing work covered by this rule must be trained as follows:

(A) Each employee must be trained in, and familiar with, the safety-related work practices, safety procedures, and other safety requirements in this rule that pertain to their job assignments.

(B) Each employee must also be trained in and familiar with any other safety practices, including applicable emergency procedures (such as pole-top and manhole rescue), that are not specifically addressed by this rule but that are related to their work and are necessary for their safety.

(C) The degree of training must be determined by the risk to the employee for the hazard involved.

(b) Each qualified employee must also be trained and competent in:

(A) The skills and techniques necessary to distinguish exposed live parts from other parts of electric equipment,

(B) The skills and techniques necessary to determine the nominal voltage of exposed live parts,

(C) The minimum approach distances specified in this rule corresponding to the voltages to which the qualified employee will be exposed and the skills and techniques necessary to maintain those distances,

(D) The proper use of the special precautionary techniques, personal protective equipment, insulating and shielding materials, and insulated tools for working on or near exposed energized parts of electric equipment, and

(E) The recognition of electrical hazards to which the employee may be exposed and the skills and techniques necessary to control or avoid these hazards.

Note to paragraph (2)(b): For the purposes of this rule, a person must have the training required by paragraph (2)(b) of this rule to be considered a qualified employee.

(c) Each line-clearance tree trimmer who is not a qualified employee must also be trained and competent in:

(A) The skills and techniques necessary to distinguish exposed live parts from other parts of electric equipment,

(B) The skills and techniques necessary to determine the nominal voltage of exposed live parts, and

(C) The minimum approach distances specified in this rule corresponding to the voltages to which the employee will be exposed and the skills and techniques necessary to maintain those distances.

(d) The employer must determine, through regular supervision and through inspections conducted on at least an annual basis, that each employee is complying with the safety-related work practices required by this rule.

(e) An employee must receive additional training (or retraining) under any of the following conditions:

(A) If the supervision or annual inspections required by paragraph (2)(d) of this rule indicate that the employee is not complying with the safety-related work practices required by this rule, or

(B) If new technology, new types of equipment, or changes in procedures necessitate the use of safety-related work practices that are different from those which the employee would normally use, or

(C) If they must employ safety-related work practices that are not normally used during their regular job duties.

Note to paragraph (2)(e)(C): Oregon OSHA considers tasks that are performed less often than once per year to necessitate retraining before the performance of the work practices involved.

(f) The training required by paragraph (a)(2) of this rule must be of the classroom or on-the-job type.

(g) The training must establish employee proficiency in the work practices required by this rule and must introduce the procedures necessary for compliance with this rule.

(h) The employer must ensure that each employee has demonstrated proficiency in the work practices involved before that employee is considered as having completed the training required by paragraph (a)(2) of this rule.

Note 1 to paragraph (2)(h): Though they are not required by this paragraph, employment records that indicate that an employee has successfully completed the required training are one way of keeping track of when an employee has demonstrated proficiency.

Note 2 to paragraph (2)(h): For an employee with previous training, an employer may determine that that employee has demonstrated the proficiency required by this paragraph using the following process:

(1) Confirm that the employee has the training required by paragraph (a)(2) of this rule,

(2) Use an examination or interview to make an initial determination that the employee understands the relevant safety-related work practices before they perform any work covered by this rule, and

(3) Supervise the employee closely until that employee has demonstrated proficiency as required by this paragraph.

(3) Information transfer.

(a) Before work begins, the host employer must inform contract employers of:

(A) The characteristics of the host employer’s installation that are related to the safety of the work to be performed and are listed in paragraphs (4)(a) through (4)(e) of this rule;

Note to paragraph (3)(a)(A): This paragraph requires the host employer to obtain information listed in paragraphs (4)(a) through (4)(e) of this rule if it does not have this information in existing records.

(B) Conditions that are related to the safety of the work to be performed, that are listed in paragraphs (4)(f) through (4)(h) of this rule, and that are known to the host employer;

Note to paragraph (3)(a)(B): For the purposes of this paragraph, the host employer need only provide information to contract employers that the host employer can obtain from its existing records through the exercise of reasonable diligence. This paragraph does not require the host employer to make inspections of worksite conditions to obtain this information.

(C) Information about the design and operation of the host employer’s installation that the contract employer needs to make the assessments required by this rule; and

Note to paragraph (3)(a)(C): This paragraph requires the host employer to obtain information about the design and operation of its installation that contract employers need to make required assessments if it does not have this information in existing records.

(D) Any other information about the design and operation of the host employer’s installation that is known by the host employer, that the contract employer requests, and that is related to the protection of the contract employer’s employees.

Note to paragraph (3)(a)(D): For the purposes of this paragraph, the host employer need only provide information to contract employers that the host employer can obtain from its existing records through the exercise of reasonable diligence. This paragraph does not require the host employer to make inspections of worksite conditions to obtain this information.

ADMINISTRATIVE RULES

(b) Contract employers must comply with the following requirements:

(A) The contract employer must ensure that each of its employees is instructed in the hazardous conditions relevant to the employee's work that the contract employer is aware of as a result of information communicated to the contract employer by the host employer under paragraph (3)(a) of this rule.

(B) Before work begins, the contract employer must advise the host employer of any unique hazardous conditions presented by the contract employer's work.

(C) The contract employer must advise the host employer of any unanticipated hazardous conditions found during the contract employer's work that the host employer did not mention under paragraph (3)(a) of this rule. The contract employer must provide this information to the host employer within 2 working days after discovering the hazardous condition.

(c) The contract employer and the host employer must coordinate their work rules and procedures so that each employee of the contract employer and the host employer is protected as required by this rule.

(4) Existing characteristics and conditions. Existing characteristics and conditions of electric lines and equipment that are related to the safety of the work to be performed must be determined before work on or near the lines or equipment is started. Such characteristics and conditions include, but are not limited to:

- (a) The nominal voltages of lines and equipment,
- (b) The maximum switching-transient voltages,
- (c) The presence of hazardous induced voltages,
- (d) The presence of protective grounds and equipment grounding conductors,
- (e) The locations of circuits and equipment, including electric supply lines, communication lines, and fire-protective signaling circuits,
- (f) The condition of protective grounds and equipment grounding conductors,
- (g) The condition of poles, and
- (h) Environmental conditions relating to safety.

Medical Services and First Aid

When employees are performing General Industry activities, the employer must provide medical services and first aid as required by 437-002-0161. When employees are performing Construction activities, the employer must provide medical services and first aid as required by 1926.50. In addition to the requirements of 437-002-0161 and 1926.50, the following requirements also apply:

(1) First-aid/CPR training. When employees are performing work on, or associated with, exposed lines or equipment energized at 50 volts or more, persons with first-aid/CPR training must be available as follows:

(a) For field work involving two or more employees at a work location, at least two trained persons must be available. However, for line-clearance tree trimming operations performed by line-clearance tree trimmers who are not qualified employees, only one trained person need be available if all new employees are trained in first aid/CPR within 3 months of their hiring dates.

(b) For fixed work locations such as substations, the number of trained persons available must be sufficient to ensure that each employee exposed to electric shock can be reached within 4 minutes by a trained person. However, where the existing number of employees is insufficient to meet this requirement (at a remote substation, for example) each employee at the work location must be a trained employee.

(2) First-aid supplies. First-aid supplies required by 437-002-0161 and 1926.50 must be placed in weatherproof containers if the supplies could be exposed to the weather.

(3) First-aid kits. The employer must maintain each first-aid kit and ensure that it is readily available for use.

(a) For employers involved in general industry activities, the first aid kit must be inspected frequently enough to ensure that expended items are replaced, and at least once per year.

(b) For employers involved in construction activities, the first-aid supplies must be in individual sealed packages for each type of item, must be checked by the employer before being sent out to each job, and at least weekly to ensure expended items are replaced.

437-002-2302

Job Briefing

(1) Before each job.

(a) In assigning an employee or a group of employees to perform a job, the employer must provide the employee in charge of the job with all available information that relates to the determination of existing characteristics and conditions required by paragraph (4) of 437-002-2300.

(b) The employer must ensure that the employee in charge conducts a job briefing that meets paragraphs (2), (3), and (4) of this rule with the employees involved before they start each job.

(2) Subjects to be covered. The briefing must cover at least the following subjects:

- (a) Hazards associated with the job
 - (b) Work procedures involved
 - (c) Special precautions
 - (d) Energy-source controls
 - (e) Personal protective equipment requirements
- (3) Number of briefings.

(a) At least one job briefing must be conducted before the start of the first job of each day or shift even if the work or operations to be performed during the work day or shift are repetitive and similar.

(b) Additional job briefings must be held if significant changes, which might affect the safety of the employees, occur during the course of the work.

(4) Extent of briefing.

(a) A brief discussion is satisfactory if the work involved is routine and if the employees, by virtue of training and experience, can reasonably be expected to recognize and avoid the hazards involved in the job.

(b) A more extensive discussion must be conducted:

(A) If the work is complicated or particularly hazardous, or

(B) If the employee cannot be expected to recognize and avoid the hazards involved in the job.

(5) Working alone. An employee working alone need not conduct a job briefing. However, the employer must ensure that the tasks to be performed are planned as if a briefing were required.

Hazardous Energy Control Procedures

(1) Application. The provisions of this rule apply to the use of hazardous energy control procedures for the control of energy sources in installations for the purpose of electric power generation, including related equipment for communication or metering. Clearance procedures and hazardous energy control procedures for the deenergizing of electric energy sources that are used exclusively for purposes of transmission and distribution, and construction activities, are addressed in 437-002-2312 Deenergizing lines and equipment for employee protection.

NOTE: Installations in electric power generation facilities that are not an integral part of, or inextricably commingled with, power generation processes or equipment are covered under 1910.147 and Division 2/S, Electrical.

(2) General.

(a) The employer must establish a program consisting of energy control procedures, employee training, and periodic inspections to ensure that, before any employee performs any servicing or maintenance on a machine or equipment where the unexpected energizing, start up, or release of stored energy could occur and cause injury, the machine or equipment is isolated from the energy source and rendered inoperative.

(b) The employer's energy control program under paragraph (2) of this rule must meet the following requirements:

(A) If an energy isolating device is not capable of being locked out, the employer's program must use a tagout system.

(B) If an energy isolating device is capable of being locked out, the employer's program must use lockout, unless the employer can demonstrate that the use of a tagout system will provide full employee protection as follows:

(i) When a tagout device is used on an energy isolating device that is capable of being locked out, the tagout device must be attached at the same location that the lockout device would have been attached, and the employer must demonstrate that the tagout program will provide a level of safety equivalent to that obtained by the use of a lockout program.

(ii) In demonstrating that a level of safety is achieved in the tagout program equivalent to the level of safety obtained by the use of a lockout program, the employer must demonstrate full compliance with all tagout-related provisions of this standard together with such additional elements as

ADMINISTRATIVE RULES

are necessary to provide the equivalent safety available from the use of a lockout device. Additional means to be considered as part of the demonstration of full employee protection must include the implementation of additional safety measures such as the removal of an isolating circuit element, blocking of a controlling switch, opening of an extra disconnecting device, or the removal of a valve handle to reduce the likelihood of inadvertent energizing.

(C) After November 1, 1994, whenever replacement or major repair, renovation, or modification of a machine or equipment is performed, and whenever new machines or equipment are installed, energy isolating devices for such machines or equipment must be designed to accept a lock-out device.

(c) Procedures must be developed, documented, and used for the control of potentially hazardous energy covered in 437-002-2303.

(d) The procedure must clearly and specifically outline the scope, purpose, responsibility, authorization, rules, and techniques to be applied to the control of hazardous energy, and the measures to enforce compliance including, but not limited to, the following:

(A) A specific statement of the intended use of this procedure;

(B) Specific procedural steps for shutting down, isolating, blocking and securing machines or equipment to control hazardous energy;

(C) Specific procedural steps for the placement, removal, and transfer of lockout devices or tagout devices and the responsibility for them; and

(D) Specific requirements for testing a machine or equipment to determine and verify the effectiveness of lockout devices, tagout devices, and other energy control measures.

(e) The employer must conduct a periodic inspection of the energy control procedure at least annually to ensure that the procedure and the provisions of 437-002-2303 are being followed.

(A) The periodic inspection must be performed by an authorized employee who is not using the energy control procedure being inspected.

(B) The periodic inspection must be designed to identify and correct any deviations or inadequacies.

(C) If lockout is used for energy control, the periodic inspection must include a review, between the inspector and each authorized employee, of that employee's responsibilities under the energy control procedure being inspected.

(D) Where tagout is used for energy control, the periodic inspection must include a review, between the inspector and each authorized and affected employee, of that employee's responsibilities under the energy control procedure being inspected, and the elements set forth in paragraph (2)(g) of this rule.

(E) The employer must certify that the inspections required by paragraph (2)(e) of this rule have been accomplished. The certification must identify the machine or equipment on which the energy control procedure was being used, the date of the inspection, the employees included in the inspection, and the person performing the inspection.

Note to paragraph (2)(e)(E): If normal work schedule and operation records demonstrate adequate inspection activity and contain the required information, no additional certification is required.

(f) The employer must provide training to ensure that the purpose and function of the energy control program are understood by employees and that the knowledge and skills required for the safe application, usage, and removal of energy controls are acquired by employees. The training must include the following:

(A) Each authorized employee must receive training in the recognition of applicable hazardous energy sources, the type and magnitude of energy available in the workplace, and in the methods and means necessary for energy isolation and control.

(B) Each affected employee must be instructed in the purpose and use of the energy control procedure.

(C) All other employees whose work operations are or may be in an area where energy control procedures may be used must be instructed about the procedures and about the prohibition relating to attempts to restart or reenergize machines or equipment that are locked out or tagged out.

(g) When tagout systems are used, employees must also be trained in the following limitations of tags:

(A) Tags are essentially warning devices affixed to energy isolating devices and do not provide the physical restraint on those devices that is provided by a lock.

(B) When a tag is attached to an energy isolating means, it is not to be removed without authorization of the authorized person responsible for it, and it is never to be bypassed, ignored, or otherwise defeated.

(C) Tags must be legible and understandable by all authorized employees, affected employees, and all other employees whose work operations are or may be in the area, in order to be effective.

(D) Tags and their means of attachment must be made of materials which will withstand the environmental conditions encountered in the workplace.

(E) Tags may evoke a false sense of security, and their meaning needs to be understood as part of the overall energy control program.

(F) Tags must be securely attached to energy isolating devices so that they cannot be inadvertently or accidentally detached during use.

(h) Retraining must be provided by the employer as follows:

(A) Retraining must be provided for all authorized and affected employees whenever there is a change in their job assignments, a change in machines, equipment, or processes that present a new hazard or whenever there is a change in the energy control procedures.

(B) Retraining must also be conducted whenever a periodic inspection under paragraph (2)(e) of this rule reveals, or whenever the employer has reason to believe, that there are deviations from or inadequacies in an employee's knowledge or use of the energy control procedures.

(C) The retraining must reestablish employee proficiency and must introduce new or revised control methods and procedures, as necessary.

(i) The employer must certify that employee training has been accomplished and is being kept up to date. The certification must contain each employee's name and dates of training.

(3) Protective materials and hardware.

(a) Locks, tags, chains, wedges, key blocks, adapter pins, self-locking fasteners, or other hardware must be provided by the employer for isolating, securing, or blocking of machines or equipment from energy sources.

(b) Lockout devices and tagout devices must be singularly identified; must be the only devices used for controlling energy; may not be used for other purposes; and must meet the following requirements:

(A) Lockout devices and tagout devices must be capable of withstanding the environment to which they are exposed for the maximum period of time that exposure is expected.

(i) Tagout devices must be constructed and printed so that exposure to weather conditions or wet and damp locations will not cause the tag to deteriorate or the message on the tag to become illegible.

(ii) Tagout devices must be so constructed as not to deteriorate when used in corrosive environments.

(B) Lockout devices and tagout devices must be standardized within the facility in at least one of the following criteria: color, shape, size. Additionally, in the case of tagout devices, print and format must be standardized.

(C) Lockout devices must be substantial enough to prevent removal without the use of excessive force or unusual techniques, such as with the use of bolt cutters or metal cutting tools.

(D) Tagout devices, including their means of attachment, must be substantial enough to prevent inadvertent or accidental removal. Tagout device attachment means must be of a non-reusable type, attachable by hand, self-locking, and nonreleasable with a minimum unlocking strength of no less than 50 pounds and must have the general design and basic characteristics of being at least equivalent to a one-piece, all-environment-tolerant nylon cable tie.

(E) Each lockout device or tagout device must include provisions for the identification of the employee applying the device.

(F) Tagout devices must warn against hazardous conditions if the machine or equipment is energized and must include a legend such as the following: Do Not Start, Do Not Open, Do Not Close, Do Not Energize, Do Not Operate.

Note to paragraph (3)(b)(F): For specific provisions covering accident prevention tags, see 1910.145.

(4) Energy isolation. Lockout and tagout device application and removal may only be performed by the authorized employees who are performing the servicing or maintenance.

(5) Notification. Affected employees must be notified by the employer or authorized employee of the application and removal of lockout or tagout devices. Notification must be given before the controls are applied and after they are removed from the machine or equipment.

Note to paragraph (5): See also paragraph (7) of this rule, which requires that the second notification take place before the machine or equipment is reenergized.

(6) Lockout/tagout application. The established procedures for the application of energy control (the lockout or tagout procedures) must include the following elements and actions, and these procedures must be performed in the following sequence:

(a) Before an authorized or affected employee turns off a machine or equipment, the authorized employee must have knowledge of the type and magnitude of the energy, the hazards of the energy to be controlled, and the method or means to control the energy.

ADMINISTRATIVE RULES

(b) The machine or equipment must be turned off or shut down using the procedures established for the machine or equipment. An orderly shut-down must be used to avoid any additional or increased hazards to employees as a result of the equipment stoppage.

(c) All energy isolating devices that are needed to control the energy to the machine or equipment must be physically located and operated in such a manner as to isolate the machine or equipment from energy sources.

(d) Lockout or tagout devices must be affixed to each energy isolating device by authorized employees.

(A) Lockout devices must be attached in a manner that will hold the energy isolating devices in a "safe" or "off" position.

(B) Tagout devices must be affixed in such a manner as will clearly indicate that the operation or movement of energy isolating devices from the "safe" or "off" position is prohibited.

(i) Where tagout devices are used with energy isolating devices designed with the capability of being locked out, the tag attachment must be fastened at the same point at which the lock would have been attached.

(ii) Where a tag cannot be affixed directly to the energy isolating device, the tag must be located as close as safely possible to the device, in a position that will be immediately obvious to anyone attempting to operate the device.

(e) Following the application of lockout or tagout devices to energy isolating devices, all potentially hazardous stored or residual energy must be relieved, disconnected, restrained, or otherwise rendered safe.

(f) If there is a possibility of reaccumulation of stored energy to a hazardous level, verification of isolation must be continued until the servicing or maintenance is completed or until the possibility of such accumulation no longer exists.

(g) Before starting work on machines or equipment that have been locked out or tagged out, the authorized employee must verify that isolation and deenergizing of the machine or equipment have been accomplished. If normally energized parts will be exposed to contact by an employee while the machine or equipment is deenergized, a test must be performed to ensure that these parts are deenergized.

(7) Release from lockout/tagout. Before lockout or tagout devices are removed and energy is restored to the machine or equipment, procedures must be followed and actions taken by the authorized employees to ensure the following:

(a) The work area must be inspected to ensure that nonessential items have been removed and that machine or equipment components are operationally intact.

(b) The work area must be checked to ensure that all employees have been safely positioned or removed.

(c) After lockout or tagout devices have been removed and before a machine or equipment is started, affected employees must be notified that the lockout or tagout devices have been removed.

(d) Each lockout or tagout device must be removed from each energy isolating device by the authorized employee who applied the lockout or tagout device. However, if that employee is not available to remove it, the device may be removed under the direction of the employer, provided that specific procedures and training for such removal have been developed, documented, and incorporated into the employer's energy control program. The employer must demonstrate that the specific procedure provides a degree of safety equivalent to that provided by the removal of the device by the authorized employee who applied it. The specific procedure must include at least the following elements:

(A) Verification by the employer that the authorized employee who applied the device is not at the facility;

(B) Making all reasonable efforts to contact the authorized employee to inform him or her that his or her lockout or tagout device has been removed; and

(C) Ensuring that the authorized employee has this knowledge before he or she resumes work at that facility.

(8) Additional requirements.

(a) If the lockout or tagout devices must be temporarily removed from energy isolating devices and the machine or equipment must be energized to test or position the machine, equipment, or component thereof, the following sequence of actions must be followed:

(A) Clear the machine or equipment of tools and materials in accordance with paragraph (7)(a) of this rule;

(B) Remove employees from the machine or equipment area in accordance with paragraphs (7)(b) and (7)(c) of this rule;

(C) Remove the lockout or tagout devices as specified in paragraph (7)(d) of this rule;

(D) Energize and proceed with the testing or positioning; and

(E) Deenergize all systems and reapply energy control measures in accordance with paragraph (6) of this rule to continue the servicing or maintenance.

(b) When servicing or maintenance is performed by a crew, craft, department, or other group, they must use a procedure which affords the employees a level of protection equivalent to that provided by the implementation of a personal lockout or tagout device. Group lockout or tagout devices must be used in accordance with the procedures required by paragraphs (2)(c) and (2)(d) of this rule including, but not limited to, the following specific requirements:

(A) Primary responsibility must be vested in an authorized employee for a set number of employees working under the protection of a group lockout or tagout device (such as an operations lock);

(B) Provision must be made for the authorized employee to ascertain the exposure status of all individual group members with regard to the lockout or tagout of the machine or equipment;

(C) When more than one crew, craft, department, or other group is involved, assignment of overall job-associated lockout or tagout control responsibility must be given to an authorized employee designated to coordinate affected work forces and ensure continuity of protection; and

(D) Each authorized employee must affix a personal lockout or tagout device to the group lockout device, group lockbox, or comparable mechanism when he or she begins work and must remove those devices when he or she stops working on the machine or equipment being serviced or maintained.

(c) Procedures must be used during shift or personnel changes to ensure the continuity of lockout or tagout protection, including provision for the orderly transfer of lockout or tagout device protection between off-going and on-coming employees, to minimize their exposure to hazards from the unexpected energizing or start-up of the machine or equipment or from the release of stored energy.

(d) Whenever outside servicing personnel are to be engaged in activities covered in 437-002-2303, the on-site employer and the outside employer must inform each other of their respective lockout or tagout procedures, and each employer must ensure that his or her personnel understand and comply with restrictions and prohibitions of the energy control procedures being used.

(e) If energy isolating devices are installed in a central location and are under the exclusive control of a system operator, the following requirements apply:

(A) The employer must use a procedure that affords employees a level of protection equivalent to that provided by the implementation of a personal lockout or tagout device.

(B) The system operator must place and remove lockout and tagout devices in place of the authorized employee under paragraphs (4), (6)(d), and (7)(d) of this rule.

(C) Provisions must be made to identify the authorized employee who is responsible for (that is, being protected by) the lockout or tagout device, to transfer responsibility for lockout and tagout devices, and to ensure that an authorized employee requesting removal or transfer of a lockout or tagout device is the one responsible for it before the device is removed or transferred.

Note to 437-002-2303: Lockout and tagging procedures that comply with paragraphs (c) through (f) of 1910.147 will also be deemed to comply with 437-002-2303 if the procedures address the hazards covered by 437-002-2303.

437-002-2304

Enclosed Spaces

This rule covers enclosed spaces that may be entered by employees. It does not apply to vented vaults if the employer makes a determination that the ventilation system is operating to protect employees before they enter the space. This rule applies to routine entry into enclosed spaces in lieu of the confined space entry requirements contained in 437-002-0146 (4) through (11). If, after the employer takes the precautions given in 437-002-2304 and 437-002-2319 of Division 2/RR, the hazards remaining in the enclosed space endanger the life of an entrant or could interfere with an entrant's escape from the space, then entry into the enclosed space must meet the permit-space entry requirements of 437-002-0146 (4) through (11), Confined spaces, in Division 2/J.

(1) Safe work practices. The employer must ensure the use of safe work practices for entry into, and work in, enclosed spaces and for rescue of employees from such spaces.

ADMINISTRATIVE RULES

(2) Training. Each employee who enters an enclosed space or who serves as an attendant must be trained in the hazards of enclosed-space entry, in enclosed-space entry procedures, and in enclosed-space rescue procedures.

(3) Rescue equipment. Employers must provide equipment to ensure the prompt and safe rescue of employees from the enclosed space.

(4) Evaluating potential hazards. Before any entrance cover to an enclosed space is removed, the employer must determine whether it is safe to do so by checking for the presence of any atmospheric pressure or temperature differences and by evaluating whether there might be a hazardous atmosphere in the space. Any conditions making it unsafe to remove the cover must be eliminated before the cover is removed.

Note to paragraph (4): The determination called for in this paragraph may consist of a check of the conditions that might foreseeably be in the enclosed space. For example, the cover could be checked to see if it is hot and, if it is fastened in place, could be loosened gradually to release any residual pressure. An evaluation also needs to be made of whether conditions at the site could cause a hazardous atmosphere, such as an oxygen-deficient or flammable atmosphere, to develop within the space.

(5) Removing covers. When covers are removed from enclosed spaces, the opening must be promptly guarded by a railing, temporary cover, or other barrier designed to prevent an accidental fall through the opening and to protect employees working in the space from objects entering the space.

(6) Hazardous atmosphere. Employees may not enter any enclosed space while it contains a hazardous atmosphere, unless the entry conforms to the confined space standard, 437-002-0146 Confined spaces, in Division 2/J.

(7) Attendants. While work is being performed in the enclosed space, an attendant with first-aid training must be immediately available outside the enclosed space to provide assistance if a hazard exists because of traffic patterns in the area of the opening used for entry. The attendant is not precluded from performing other duties outside the enclosed space if these duties do not distract the attendant from: monitoring employees within the space or ensuring that it is safe for employees to enter and exit the space.

Note to paragraph (7): See 437-002-2319 Underground electrical installations, for additional requirements on attendants for work in manholes and vaults.

(8) Calibration of test instruments. Test instruments used to monitor atmospheres in enclosed spaces must be kept in calibration and must have a minimum accuracy of ± 10 percent.

(9) Testing for oxygen deficiency. Before an employee enters an enclosed space, the atmosphere in the enclosed space must be tested for oxygen deficiency with a direct-reading meter or similar instrument, capable of collection and immediate analysis of data samples without the need for offsite evaluation. If continuous forced-air ventilation is provided, testing is not required provided that the procedures used ensure that employees are not exposed to the hazards posed by oxygen deficiency.

(10) Testing for flammable gases and vapors. Before an employee enters an enclosed space, the internal atmosphere must be tested for flammable gases and vapors with a direct-reading meter or similar instrument capable of collection and immediate analysis of data samples without the need for off-site evaluation. This test must be performed after the oxygen testing and ventilation required by paragraph (9) of this rule demonstrate that there is sufficient oxygen to ensure the accuracy of the test for flammability.

(11) Ventilation and monitoring for flammable gases or vapors. If flammable gases or vapors are detected or if an oxygen deficiency is found, forced-air ventilation must be used to maintain oxygen at a safe level and to prevent a hazardous concentration of flammable gases and vapors from accumulating. A continuous monitoring program to ensure that no increase in flammable gas or vapor concentration above safe levels occurs may be followed in lieu of ventilation if flammable gases or vapors are initially detected at safe levels.

Note to paragraph (11): See the definition of "hazardous atmosphere" for guidance in determining whether a specific concentration of a substance is hazardous.

(12) Specific ventilation requirements. If continuous forced-air ventilation is used, it must begin before entry is made and must be maintained long enough for the employer to be able to demonstrate that a safe atmosphere exists before employees are allowed to enter the work area. The forced-air ventilation must be so directed as to ventilate the immediate area where employees are present within the enclosed space and must continue until all employees leave the enclosed space.

(13) Air supply. The air supply for the continuous forced-air ventilation must be from a clean source and may not increase the hazards in the enclosed space.

(14) Open flames. If open flames are used in enclosed spaces, a test for flammable gases and vapors must be made immediately before the open flame device is used and at least once per hour while the device is used in the space. Testing must be conducted more frequently if conditions present in the enclosed space indicate that once per hour is insufficient to detect hazardous accumulations of flammable gases or vapors.

Note to paragraph (14): See the definition of "hazardous atmosphere" for guidance in determining whether a specific concentration of a substance is hazardous.

Note to 437-002-2304 : Entries into enclosed spaces conducted in accordance with the requirements of 437-002-0146 (4) through (11), Confined spaces, are considered as complying with 437-002-2304 of Division 2/RR.

(D) Snaphooks must be capable of withstanding a 22-kilonewton (5,000-pound-force) tension test without failure.

Note to paragraph (2)(c)(D) of this rule: Distortion of the snaphook sufficient to release the keeper is considered to be tensile failure of a snaphook.

(E) Top grain leather or leather substitute may be used in the manufacture of body belts and positioning straps; however, leather and leather substitutes may not be used alone as a load-bearing component of the assembly.

(F) Plied fabric used in positioning straps and in load-bearing parts of body belts must be constructed in such a way that no raw edges are exposed and the plies do not separate.

(G) Positioning straps must be capable of withstanding the following tests:

ADMINISTRATIVE RULES

pass direct-current tests at equivalent voltages are considered as meeting this requirement.

(iii) Tension tests of 20 kilonewtons (4,500 pounds-force) for sections free of buckle holes and of 15 kilonewtons (3,500 pounds-force) for sections with buckle holes;

(iv) A buckle-tear test with a load of 4.4 kilonewtons (1,000 pounds-force); and

(v) A flammability test in accordance with Table RR-1, Table RR-1.

(H) The cushion part of the body belt must contain no exposed rivets on the inside and must be at least 76 millimeters (3 inches) in width.

(I) Tool loops must be situated on the body of a body belt so that the 100 millimeters (4 inches) of the body belt that is in the center of the back, measuring from D ring to D ring, is free of tool loops and any other attachments.

(J) Copper, steel, or equivalent liners must be used around the bars of D rings to prevent wear between these members and the leather or fabric enclosing them.

(K) Snaphooks must be of the locking type meeting the following requirements:

(i) The locking mechanism must first be released, or a destructive force must be placed on the keeper, before the keeper will open.

(ii) A force in the range of 6.7 N (1.5 lbf) to 17.8 N (4 lbf) must be required to release the locking mechanism.

(iii) With the locking mechanism released and with a force applied on the keeper against the face of the nose, the keeper may not begin to open with a force of 11.2 N (2.5 lbf) or less and must begin to open with a maximum force of 17.8 N (4 lbf).

(L) Body belts and positioning straps must be capable of withstanding a drop test as follows:

(i) The test mass must be rigidly constructed of steel or equivalent material with a mass of 100 kg (220.5 lbm). For work-positioning equipment used by employees weighing more than 140 kg (310 lbm) fully equipped, the test mass must be increased proportionately (that is, the test mass must equal the mass of the equipped worker divided by 1.4).

(ii) For body belts, the body belt must be fitted snugly around the test mass and must be attached to the test structure anchorage point by means of a wire rope.

(iii) For positioning straps, the strap must be adjusted to its shortest length possible to accommodate the test and connected to the test-structure anchorage point at one end and to the test mass on the other end.

(iv) The test mass must be dropped an unobstructed distance of 1 meter (39.4 inches) from a supporting structure that will sustain minimal deflection during the test.

(v) Body belts must successfully arrest the fall of the test mass and must be capable of supporting the mass after the test.

(vi) Positioning straps must successfully arrest the fall of the test mass without breaking, and the arrest force may not exceed 17.8 kilonewtons (4,000 pounds-force). Additionally, snaphooks on positioning straps may not distort to such an extent that the keeper would release.

Note to paragraph (2)(c) of this rule: When used by employees weighing no more than 140 kg (310 lbm) fully equipped, body belts and positioning straps that conform to American Society of Testing and Materials Standard Specifications for Personal Climbing Equipment, ASTM F887-12e1, are deemed to be in compliance with paragraph (2)(c) of this rule.

(d) The following requirements apply to the care and use of personal fall protection equipment.

(A) Body belts and positioning straps must never be stored with sharp or edged tools.

(B) Small tools carried in the belt must be placed so they present the least danger of coming in accidental contact with energized parts. Sharp or pointed tools must not be carried unless in scabbards, or are otherwise effectively safeguarded.

(C) Work-positioning equipment must be inspected before use each day to determine that the equipment is in safe working condition. Work-positioning equipment that is not in safe working condition may not be used.

Note to paragraph (2)(d)(C): Appendix F to Division 2/RR contains guidelines for inspecting work-positioning equipment.

(D) The use of chainsaws is prohibited on all overhead work where workers are supported by a single climbing belt or rope.

(E) Workers must not place positioning straps around the pole above the top crossarm except where adequate protection is taken to prevent it from slipping over the top of the pole. Workers must not allow either end of a strap to hang loose, either in climbing or descending poles or other structures.

(F) Gaffs and Climbers

(i) Gaffs and Climbers must be maintained according to the manufacturer's recommendations.

(ii) Workers must remove climbers before driving any vehicle.

(iii) Climbers must not be worn except when required. Workers must not continue to wear their climbers while working on the ground except for brief periods when a worker is necessarily off the pole.

(iv) While climbers are not being worn, the gaffs must be properly guarded.

(G) Safety lines must be readily available while working aloft to be used for emergency rescue such as lowering a worker to the ground. Such safety lines must be a minimum of one-half-inch diameter and three or four strand first-grade manila or its equivalent in strength (2,650 lb.) and durability.

(H) Personal fall arrest systems must be used in accordance with 1926.502(d).

Note to paragraph (2)(d)(H): Fall protection equipment rigged to arrest falls is considered a fall arrest system and must meet the applicable requirements for the design and use of those systems. Fall protection equipment rigged for work positioning is considered work-positioning equipment and must meet the applicable requirements for the design and use of that equipment.

(I) The employer must ensure that employees use fall protection systems as follows:

(i) Each employee working from an aerial lift must use a fall restraint system or a personal fall arrest system. Paragraph (c)(2)(v) of 1910.67 and paragraph (b)(2)(v) of 1926.453 do not apply.

(ii) Except as provided in paragraph (2)(d)(I)(iii) of this rule, each employee in elevated locations more than 1.2 meters (4 feet) above the ground on poles, towers, or similar structures must use a personal fall arrest system, work-positioning equipment, or fall restraint system, as appropriate, if the employer has not provided other fall protection meeting Division 2/D, Walking-Working Surfaces; or Division 3/M, Fall Protection.

(iii) Each qualified employee climbing or changing location on poles, towers, or similar structures must use fall protection equipment unless the employer can demonstrate that climbing or changing location with fall protection is infeasible or creates a greater hazard than climbing or changing location without it.

Note 1 to paragraphs (2)(d)(I)(ii) and (2)(d)(I)(iii) of this rule: These paragraphs apply to structures that support overhead electric power transmission and distribution lines and equipment. They do not apply to portions of buildings, such as loading docks, or to electric equipment, such as transformers and capacitors. Division 2/D, and Division 3/M contain the duty to provide fall protection associated with walking and working surfaces.

(J) Work-positioning equipment must be rigged so that an employee can free fall no more than 0.6 meters (2 feet).

(K) Anchorages for work-positioning equipment must be capable of supporting at least twice the potential impact load of an employee's fall, or 13.3 kilonewtons (3,000 pounds-force), whichever is greater.

Note to paragraph (2)(d)(K): Wood-pole fall-restriction devices meeting American Society of Testing and Materials Standard Specifications for Personal Climbing Equipment, ASTM F887-12e1, are deemed to meet the anchorage-strength requirement when they are used in accordance with manufacturers' instructions.

(L) Unless the snaphook is a locking type and designed specifically for the following connections, snaphooks on work-positioning equipment may not be engaged:

(i) Directly to webbing, rope, or wire rope;

(ii) To each other;

(iii) To a D ring to which another snaphook or other connector is attached;

(iv) To a horizontal lifeline; or

(v) To any object that is incompatibly shaped or dimensioned in relation to the snaphook such that accidental disengagement could occur should the connected object sufficiently depress the snaphook keeper to allow release of the object.

Portable Ladders and Platforms

(1) General. For employers involved in general industry activities, requirements for portable ladders contained in Division 2/D apply in addition to the requirements of this rule, except as specifically noted in paragraph (2) of this rule. For employers involved in construction activities, requirements for portable ladders contained in Division 3/X apply in addition to the requirements of this rule, except as specifically noted in paragraph (2) of this rule.

ADMINISTRATIVE RULES

(2) Special ladders and platforms. For general industry activities, portable ladders used on structures or conductors in conjunction with overhead line work need not meet 1910.25(d)(2)(i) and (d)(2)(iii) or 1910.26(c)(3)(iii). For construction activities, portable ladders and platforms used on structures or conductors in conjunction with overhead line work need not meet 1926.1053(b)(5)(i) and (b)(12). Portable ladders and platforms used on structures or conductors in conjunction with overhead line work must meet the following requirements:

(a) In the configurations in which they are used, portable platforms must be capable of supporting without failure at least 2.5 times the maximum intended load.

(b) Portable ladders and platforms may not be loaded in excess of the working loads for which they are designed.

(c) Portable ladders and platforms must be secured to prevent them from becoming dislodged.

(d) Portable ladders and platforms may be used only in applications for which they are designed.

(3) Conductive ladders. Portable metal ladders and other portable conductive ladders may not be used near exposed energized lines or equipment. However, in specialized high-voltage work, conductive ladders must be used when the employer demonstrates that nonconductive ladders would present a greater hazard to employees than conductive ladders.

Hand and Portable Power Equipment

(1) General. Paragraph (2) of this rule applies to electric equipment connected by cord and plug. Paragraph (3) of this rule applies to portable and vehicle-mounted generators used to supply cord- and plug-connected equipment. Paragraph (4) of this rule applies to hydraulic and pneumatic tools.

(2) Cord- and plug-connected equipment. For general industry activities, cord- and plug-connected equipment not covered by Division 2/S must comply with one of the following instead of 1910.243(a)(5); and for construction activities, cord- and plug-connected equipment not covered by Division 3/K must comply with one of the following instead of 1926.302(a)(1):

(a) The equipment must be equipped with a cord containing an equipment grounding conductor connected to the equipment frame and to a means for grounding the other end of the conductor (however, this option may not be used where the introduction of the ground into the work environment increases the hazard to an employee); or

(b) The equipment must be of the double-insulated type conforming to Division 2/S or Division 3/K; or

(c) The equipment must be connected to the power supply through an isolating transformer with an ungrounded secondary of not more than 50 volts.

(3) Portable and vehicle-mounted generators. Portable and vehicle-mounted generators used to supply cord- and plug-connected equipment covered by paragraph (2) of this section must meet the following requirements:

(a) The generator may only supply equipment located on the generator or the vehicle and cord- and plug-connected equipment through receptacles mounted on the generator or the vehicle.

(b) The non-current-carrying metal parts of equipment and the equipment grounding conductor terminals of the receptacles must be bonded to the generator frame.

(c) For vehicle-mounted generators, the frame of the generator must be bonded to the vehicle frame.

(d) Any neutral conductor must be bonded to the generator frame.

(4) Hydraulic and pneumatic tools.

NOTE: Hydraulic fluid in insulating tools. Paragraph (d)(1) of 1926.302 does not apply to hydraulic fluid used in insulating sections of hydraulic tools.

(a) Safe operating pressures for hydraulic and pneumatic tools, hoses, valves, pipes, filters, and fittings may not be exceeded.

Note to paragraph (4)(a) of this rule: If any hazardous defects are present, no operating pressure is safe, and the hydraulic or pneumatic equipment involved may not be used. In the absence of defects, the maximum rated operating pressure is the maximum safe pressure.

(b) A hydraulic or pneumatic tool used where it may contact exposed energized parts must be designed and maintained for such use.

(c) The hydraulic system supplying a hydraulic tool used where it may contact exposed live parts must provide protection against loss of insulating value, for the voltage involved, due to the formation of a partial vacuum in the hydraulic line.

Note to paragraph (4)(c) of this rule: Use of hydraulic lines that do not have check valves and that have a separation of more than 10.7 meters (35 feet) between the oil reservoir and the upper end of the hydraulic system promotes the formation of a partial vacuum.

(d) A pneumatic tool used on energized electric lines or equipment, or used where it may contact exposed live parts, must provide protection against the accumulation of moisture in the air supply.

(e) Pressure must be released before connections are broken, unless quick acting, self-closing connectors are used.

(f) Employers must ensure that employees do not use any part of their bodies to locate, or attempt to stop, a hydraulic leak.

(g) Hoses may not be kinked.

Live-line Tools

(1) Live-line tools must be used by employees when doing work on energized lines and equipment in excess of 5,000 volts.

(2) Live-line tools must be used while handling foreign objects that are in contact with high voltage equipment or conductors energized in excess of 5,000 volts.

(3) Only live-line tools that are tested and warranted by the manufacturer at the time of purchase to be adequate for the voltage involved must be used.

(4) Design of tools. Live-line tool rods, tubes, and poles must be designed and constructed to withstand the following minimum tests:

(a) If the tool is made of fiberglass-reinforced plastic (FRP), it must withstand 328,100 volts per meter (100,000 volts per foot) of length for 5 minutes, or

Note to paragraph (4)(a): Live-line tools using rod and tube that meet ASTM F711-02 (2007), Standard Specification for Fiberglass-Reinforced Plastic (FRP) Rod and Tube Used in Live Line Tools, are deemed to comply with paragraph (4) of this rule.

(b) If the tool is made of wood, it must withstand 246,100 volts per meter (75,000 volts per foot) of length for 3 minutes, or

(c) The tool must withstand other tests that the employer can demonstrate are equivalent.

(5) Condition of tools.

(a) Each live-line tool must be wiped clean and visually inspected for defects before use each day.

(b) If any defect or contamination that could adversely affect the insulating qualities or mechanical integrity of the live-line tool is present after wiping, the tool must be removed from service and examined and tested according to paragraph (5)(c) of this rule before being returned to service.

(c) Live-line tools used for primary employee protection must be removed from service every 2 years, and whenever required under paragraph (5)(b) of this rule, for examination, cleaning, repair, and testing as follows:

(A) Each tool must be thoroughly examined for defects.

(B) If a defect or contamination that could adversely affect the insulating qualities or mechanical integrity of the live-line tool is found, the tool must be repaired and refinished or must be permanently removed from service. If no such defect or contamination is found, the tool must be cleaned and waxed.

(C) The tool must be tested in accordance with paragraphs (5)(c)(D) and (5)(c)(E) of this rule under the following conditions:

(i) After the tool has been repaired or refinished; and

(ii) After the examination if repair or refinishing is not performed, unless the tool is made of FRP rod or foam-filled FRP tube and the employer can demonstrate that the tool has no defects that could cause it to fail during use.

(D) The test method used must be designed to verify the tool's integrity along its entire working length and, if the tool is made of fiberglass-reinforced plastic, its integrity under wet conditions.

(E) The voltage applied during the tests must be as follows:

(i) 246,100 volts per meter (75,000 volts per foot) of length for 1 minute if the tool is made of fiberglass, or

(ii) 164,000 volts per meter (50,000 volts per foot) of length for 1 minute if the tool is made of wood, or

(iii) Other tests that the employer can demonstrate are equivalent.

(d) Live-line tools may not be used when rain, fog, or any other factor is sufficient to reduce their insulating qualities so that leakage can be felt.

(e) Live-line tools must be kept in a dry place. When transporting, they must be kept in separate special storage compartments, or be contained in protective bags. They may not be laid directly on the ground.

ADMINISTRATIVE RULES

Note to paragraph (5) of this rule: Guidelines for the examination, cleaning, repairing, and in-service testing of live-line tools are specified in the Institute of Electrical and Electronics Engineers' IEEE Guide for Maintenance Methods on Energized Power Lines, IEEE Std 516-2009.

Materials Handling and Storage

(1) General. For general industry activities, materials handling and storage must comply with applicable material handling and material storage requirements in Division 2, including those in Division 2/N, except for Helicopters, which must comply with 437-002-2323. For construction activities, materials handling and storage must comply with applicable material handling and material storage requirements in Division 3, including those in Division 3/N and Division 3/CC, except for Helicopters, which must comply with 437-002-2323.

(2) Materials storage near energized lines or equipment.

(a) In areas to which access is not restricted to qualified persons only, materials or equipment may not be stored closer to energized lines or exposed energized parts of equipment than the following distances, plus a distance that provides for the maximum sag and side swing of all conductors and for the height and movement of material-handling equipment:

(A) For lines and equipment energized at 50 kilovolts or less, the distance is 3.05 meters (10 feet).

(B) For lines and equipment energized at more than 50 kilovolts, the distance is 3.05 meters (10 feet) plus 0.10 meter (4 inches) for every 10 kilovolts over 50 kilovolts.

(b) In areas restricted to qualified employees, materials may not be stored within the working space about energized lines or equipment.

Note to paragraph (2)(b): 437-002-2320(1) Substations; and 437-002-2321(3) Power Generation Installations; of Division 2/RR, specify the size of the working space.

437-002-2311

Working On or Near Exposed Energized Parts

This rule applies to work on or near exposed live parts.

(1) General.

(a) Only qualified employees may work on or with exposed energized lines or parts of equipment.

(b) Only qualified employees may work in areas containing unguarded, uninsulated energized lines or parts of equipment operating at 50 volts or more.

(c) Electric lines and equipment must be considered and treated as energized unless they have been deenergized in accordance with 437-002-2303 Hazardous Energy Control, or 437-002-2312, of Division 2/RR.

(2) Two worker rules.

(a) Not fewer than two qualified employees may work on lines or equipment energized at more than 600 volts while performing the following types of work:

(A) Installation, removal, or repair of lines energized at more than 600 volts,

(B) Installation, removal, or repair of deenergized lines if an employee is exposed to contact with other parts energized at more than 600 volts,

(C) Installation, removal, or repair of equipment, such as transformers, capacitors, and regulators, if an employee is exposed to contact with parts energized at more than 600 volts,

(D) Work involving the use of mechanical equipment, other than insulated aerial lifts, near parts energized at more than 600 volts, and

(E) Other work that exposes an employee to electrical hazards greater than, or equal to, the electrical hazards posed by operations listed specifically in paragraphs (2)(a)(A) through (2)(a)(E) of this section.

(b) The following exceptions to the two-worker rule in 437-002-2311(2)(a)(A) through (2)(a)(E) apply:

(A) When re-fusing circuits with a live-line tool.

(B) When operating switches by means of operating handles or live-line tools, excluding installation or removal of load break elbows with live line tools, addressed in paragraph (2)(b)(E) of this rule.

(C) When a qualified apprentice is assigned to work with a journeyman for the purpose of training.

(D) When installing or removing a live-line clamp connection with an approved live-line tool on single phase line or apparatus, providing that the connection or disconnection does not interrupt or pick up a load.

(E) Routine circuit switching, including installation or removal of a load break elbow with a live line tool on a single phase line or apparatus, with only one potential primary source.

(i) Authorized employees must conduct an inspection to determine that conditions on the site allow for safe work. Conditions include the following examples:

(I) Physical condition of the cable, elbows, apparatus, and switching equipment.

(II) Environmental and work conditions, such as limited visibility, bad weather, restricted working space, and poor lighting.

(III) Service life of the elbow, power cable, and apparatus.

(ii) When an employee requests a second worker on site, a second worker must be provided.

(F) Emergency repairs to the extent necessary to safeguard the general public.

(G) Work performed with live-line tools when the position of the employee is such that he or she is neither within reach of, nor otherwise exposed to contact with, energized parts.

(c) Proximity. Workers within reach of each other must not work on different phases of the same circuit, on different circuits, or on one energized phase and a ground conductor at the same time.

(3) Minimum approach distances.

(a) The employer must establish minimum approach distances no less than the distances computed by Table RR-2 for ac systems or Table RR-7 for dc systems.

(b) For voltages over 72.5 kilovolts, the employer must determine the maximum anticipated per-unit transient overvoltage, phase-to-ground, through an engineering analysis or assume a maximum anticipated per-unit transient overvoltage, phase-to-ground, in accordance with Table RR-8. When the employer uses portable protective gaps to control the maximum transient overvoltage, the value of the maximum anticipated per-unit transient overvoltage, phase-to-ground, must provide for five standard deviations between the statistical sparkover voltage of the gap and the statistical withstand voltage corresponding to the electrical component of the minimum approach distance. The employer must make any engineering analysis conducted to determine maximum anticipated per-unit transient overvoltage available upon request to employees and to Oregon OSHA for examination and copying.

Note to paragraph (3)(b): See Appendix B to Division 2/RR for information on how to calculate the maximum anticipated per-unit transient overvoltage, phase-to-ground, when the employer uses portable protective gaps to reduce maximum transient overvoltages.

(c) The employer must ensure that no employee approaches or takes any conductive object closer to exposed energized parts than the employer's established minimum approach distance, unless:

(A) The employee is insulated from the energized part. Rubber insulating gloves or rubber insulating gloves and sleeves worn in accordance with paragraph (4) of this rule constitutes insulation of the employee from the energized part upon which the employee is working provided that the employee has control of the part in a manner sufficient to prevent exposure to uninsulated portions of the employee's body; or

(B) The energized part is insulated from the employee and from any other conductive object at a different potential.

(C) Live-line barehand work is prohibited in Oregon.

(4) Type of insulation: Adequate barriers and clearances.

(a) Protective equipment and devices must be installed or removed with:

(A) Rubber gloves or hot sticks on conductors or equipment energized at 5,000 volts or less.

(B) Live line tools for conductors or equipment energized in excess of 5,000 volts.

(C) Rubber protective equipment may be considered as adequate barriers when used on voltages for which it is rated. Rubber gloves may be used as additional protection from accidental contact only on voltages above 5,000 and not over 15,000 volts phase to ground.

(D) Rubber gloves cannot be used as primary protection on voltages over 5,000 volts.

(E) Fixed protective guards and barriers, when installed and maintained according to the manufacturer's guidelines, may be considered as providing adequate clearance.

(b) When an employee uses rubber insulating gloves as insulation from energized parts (under paragraph (3)(c)(A) of this rule), the employer must ensure that the employee also uses rubber insulating sleeves. However, an employee need not use rubber insulating sleeves if:

(A) Exposed energized parts on which the employee is not working are insulated from the employee; and

ADMINISTRATIVE RULES

(B) When installing insulation for purposes of paragraph (4)(b)(A) of this rule, the employee installs the insulation from a position that does not expose their upper arms to contact with other energized parts.

(c) When an employee uses rubber insulating gloves or rubber insulating gloves and sleeves as insulation from energized parts (under paragraph (3)(c)(A) of this rule), the employer must ensure that the employee:

(A) Puts on the rubber insulating gloves and sleeves in a position where they cannot reach into the minimum approach distance, established by the employer under paragraph (3)(a) of this rule; and

(B) Does not remove the rubber insulating gloves and sleeves until they are in a position where they cannot reach into the minimum approach distance, established by the employer under paragraph (3)(a) of this rule.

(5) Working position.

(a) The employer must ensure that each employee, to the extent that other safety-related conditions at the worksite permit, works in a position from which a slip or shock will not bring the employee's body into contact with exposed, uninsulated parts energized at a potential different from the employee's.

(b) When an employee performs work near exposed parts energized at more than 600 volts, but not more than 72.5 kilovolts, and is not wearing rubber insulating gloves, being protected by insulating equipment covering the energized parts, performing work using live-line tools, the employee must work from a position where he or she cannot reach into the minimum approach distance, established by the employer under paragraph (3)(a) of this rule.

(6) Making connections. The employer must ensure that employees make connections as follows:

(a) In connecting deenergized equipment or lines to an energized circuit by means of a conducting wire or device, an employee must first attach the wire to the deenergized part;

(b) When disconnecting equipment or lines from an energized circuit by means of a conducting wire or device, an employee must remove the source end first; and

(c) When lines or equipment are connected to or disconnected from energized circuits, an employee must keep loose conductors away from exposed energized parts.

(7) Conductive articles. When an employee performs work within reaching distance of exposed energized parts of equipment, the employer must ensure that the employee removes or renders nonconductive all exposed conductive articles, such as keychains or watch chains, rings, or wrist watches or bands, unless such articles do not increase the hazards associated with contact with the energized parts.

(8) Protection from flames and electric arcs.

(a) The employer must assess the workplace to identify employees exposed to hazards from flames or from electric arcs.

(b) For each employee exposed to hazards from electric arcs, the employer must make a reasonable estimate of the incident heat energy to which the employee would be exposed.

Note 1 to paragraph (8)(b): Appendix E to Division 2/RR provides guidance on estimating available heat energy. Oregon OSHA will deem employers following the guidance in Appendix E to Division 2/RR to be in compliance with paragraph (8)(b) of this rule. An employer may choose a method of calculating incident heat energy not included in Appendix E to Division 2/RR if the chosen method reasonably predicts the incident energy to which the employee would be exposed.

Note 2 to paragraph (8)(b): This paragraph does not require the employer to estimate the incident heat energy exposure for every job task performed by each employee. The employer may make broad estimates that cover multiple system areas provided the employer uses reasonable assumptions about the energy-exposure distribution throughout the system and provided the estimates represent the maximum employee exposure for those areas. For example, the employer could estimate the heat energy just outside a substation feeding a radial distribution system and use that estimate for all jobs performed on that radial system.

(c) The employer must ensure that each employee who is exposed to hazards from flames or electric arcs does not wear clothing that could melt onto their skin or that could ignite and continue to burn when exposed to flames or the heat energy estimated under paragraph (8)(b) of this rule.

Note to paragraph (8)(c) of this rule: This paragraph prohibits clothing made from acetate, nylon, polyester, rayon and polypropylene, either alone or in blends, unless the employer demonstrates that the fabric has been treated to withstand the conditions that may be encountered by the employee or that the employee wears the clothing in such a manner as to eliminate the hazard involved.

(d) The employer must ensure that the outer layer of clothing worn by an employee, except for clothing not required to be arc rated under paragraphs (8)(e)(A) through (8)(e)(E) of this rule, is flame resistant under any of the following conditions:

(A) The employee is exposed to contact with energized circuit parts operating at more than 600 volts,

(B) An electric arc could ignite flammable material in the work area that, in turn, could ignite the employee's clothing,

(C) Molten metal or electric arcs from faulted conductors in the work area could ignite the employee's clothing, or

Note to paragraph (8)(d)(C): This paragraph does not apply to conductors that are capable of carrying, without failure, the maximum available fault current for the time the circuit protective devices take to interrupt the fault.

(D) The incident heat energy estimated under paragraph (8)(b) of this rule exceeds 2.0 cal/cm².

(e) The employer must ensure that each employee exposed to hazards from electric arcs wears protective clothing and other protective equipment with an arc rating greater than or equal to the heat energy estimated under paragraph (8)(b) of this rule whenever that estimate exceeds 2.0 cal/cm². This protective equipment must cover the employee's entire body, except as follows:

(A) Arc-rated protection is not necessary for the employee's hands when the employee is wearing rubber insulating gloves with protectors or, if the estimated incident energy is no more than 14 cal/cm², heavy-duty leather work gloves with a weight of at least 407 gm/m² (12 oz/yd²),

(B) Arc-rated protection is not necessary for the employee's feet when the employee is wearing heavy-duty work shoes or boots,

(C) Arc-rated protection is not necessary for the employee's head when the employee is wearing head protection meeting 437-002-0134(9) and 437-003-0134(9) if the estimated incident energy is less than 9 cal/cm² for exposures involving single-phase arcs in open air or 5 cal/cm² for other exposures,

(D) The protection for the employee's head may consist of head protection meeting 437-002-0134(9) and 437-003-0134(9), and a faceshield with a minimum arc rating of 8 cal/cm² if the estimated incident-energy exposure is less than 13 cal/cm² for exposures involving single-phase arcs in open air or 9 cal/cm² for other exposures, and

(E) For exposures involving single phase arcs in open air, the arc rating for the employee's head and face protection may be 4 cal/cm² less than the estimated incident energy.

Note to paragraph (8): See Appendix E to Division 2/RR for further information on the selection of appropriate protection.

(9) Fuse handling. When an employee must install or remove fuses with one or both terminals energized at more than 300 volts, or with exposed parts energized at more than 50 volts, the employer must ensure that the employee uses tools or gloves rated for the voltage. When an employee installs or removes expulsion-type fuses with one or both terminals energized at more than 300 volts, the employer must ensure that the employee wears eye protection meeting the requirements of Division 2/I and Division 3/E, uses a tool rated for the voltage, and is clear of the exhaust path of the fuse barrel.

(10) Covered (non-insulated) conductors. The requirements of this section that pertain to the hazards of exposed live parts also apply when an employee performs work in proximity to covered (non-insulated) wires.

(11) Non-current-carrying metal parts. Non-current-carrying metal parts of equipment or devices, such as transformer cases and circuit-breaker housings, must be treated as energized at the highest voltage to which these parts are exposed, unless the employer inspects the installation and determines that these parts are grounded before employees begin performing the work.

(12) Opening and closing circuits under load.

(a) The employer must ensure that devices used by employees to open circuits under load conditions are designed to interrupt the current involved.

(b) The employer must ensure that devices used by employees to close circuits under load conditions are designed to safely carry the current involved.

(13) Safety Watch

(a) A qualified safety watch must be provided in areas where inadvertent motions, movements, or tool use would violate Minimum Approach Distances (MAD). The safety watch's sole duty is to keep constant watch over persons working within the MAD, to warn them of danger, and to stop the work when necessary.

(b) The foreman or other worker in charge of the work being performed is responsible for the designation of the safety watch. It is the responsibility of the worker in charge to select a qualified worker who is capable and familiar with the work.

(c) The worker in charge may act as a safety watch providing no other duties interfere. If the worker in charge is distracted or must leave the immediate vicinity, that worker must either designate another qualified person as the safety watch or order the work stopped.

ADMINISTRATIVE RULES

(d) Use of vehicles, gin poles, cranes, and other equipment in restricted or hazardous areas must at all times be monitored by a qualified safety watch other than the equipment operator. Tables RR-2 through RR-8.

437-002-2312

Deenergizing Lines and Equipment for Employee Protection

(1) Application. This rule applies to the deenergizing of transmission and distribution lines and equipment for the purpose of protecting employees. See 437-002-2303 Hazardous Energy Control, Division 2/RR, for requirements on the control of hazardous energy sources used in the generation of electric energy. Conductors and parts of electric equipment that have been deenergized under procedures other than those required by 437-002-2303, as applicable, must be treated as energized.

(2) General.

(a) If a system operator is in charge of the lines or equipment and their means of disconnection, the employer must designate one employee in the crew to be in charge of the clearance and must comply with all of the requirements of paragraph (3) of this rule in the order specified.

(b) If no system operator is in charge of the lines or equipment and their means of disconnection, the employer must designate one employee in the crew to be in charge of the clearance and to perform the functions that the system operator would otherwise perform under this rule. All of the requirements of paragraph (3) of this rule apply, in the order specified, except as provided in paragraph (2)(b) of this rule.

(c) If only one crew will be working on the lines or equipment and if the means of disconnection is accessible and visible to, and under the sole control of, the employee in charge of the clearance, paragraphs (3)(b), (3)(d), and (3)(f) of this rule do not apply. Additionally, the employer does not need to use the tags required by the remaining provisions of paragraph (3) of this rule.

(d) If two or more crews will be working on the same lines or equipment, then:

(A) The crews must coordinate their activities under this rule with a single employee in charge of the clearance for all of the crews and follow the requirements of this rule as if all of the employees formed a single crew, or

(B) Each crew must independently comply with this rule and, if there is no system operator in charge of the lines or equipment, must have separate tags and coordinate deenergizing and reenergizing the lines and equipment with the other crews.

(e) The employer must render any disconnecting means that are accessible to individuals outside the employer's control (for example, the general public) inoperable while the disconnecting means are open for the purpose of protecting employees.

(3) Deenergizing lines and equipment

(a) The employee that the employer designates pursuant to paragraph (2) of this rule as being in charge of the clearance must make a request of the system operator to deenergize the particular section of line or equipment. The designated employee becomes the employee in charge (as this term is used in paragraph (3) of this rule) and is responsible for the clearance.

(b) The circuit or equipment must be considered as energized until notification from the system operator to the contrary is received.

(c) The system operator must obtain the name of the person requesting clearance and be assured that the person is qualified to receive such clearance.

(d) The person requesting the clearance must state exactly what circuit or equipment they want de-energized and the reason.

(e) The system operator must repeat the request for clearance and be certain that the request is fully understood.

(f) The employer must ensure that all switches, disconnectors, jumpers, taps, and other means through which known sources of electric energy may be supplied to the particular lines and equipment to be deenergized are open. The employer must render such means inoperable, unless its design does not so permit, and then ensure that such means are tagged to indicate that employees are at work.

(g) The employer must ensure that automatically and remotely controlled switches that could cause the opened disconnecting means to close are also tagged at the points of control. The employer must render the automatic or remote control feature inoperable, unless its design does not so permit.

(h) The employer need not use the tags mentioned in paragraphs (3)(f) and (3)(g) of this rule on a network protector for work on the primary feed-

er for the network protector's associated network transformer when the employer can demonstrate all of the following conditions:

(A) Every network protector is maintained so that it will immediately trip open if closed when a primary conductor is deenergized;

(B) Employees cannot manually place any network protector in a closed position without the use of tools, and any manual override position is blocked, locked, or otherwise disabled; and

(C) The employer has procedures for manually overriding any network protector that incorporate provisions for determining, before anyone places a network protector in a closed position, that: The line connected to the network protector is not deenergized for the protection of any employee working on the line; and (if the line connected to the network protector is not deenergized for the protection of any employee working on the line) the primary conductors for the network protector are energized.

(i) Tags must prohibit operation of the disconnecting means and must indicate that employees are at work.

(j) After the applicable requirements in paragraphs (3)(a) through (3)(i) of this section have been followed and the system operator gives a clearance to the employee in charge, the employer must ensure that the lines and equipment are deenergized by testing the lines and equipment to be worked with a device designed to detect voltage.

(k) The employer must ensure the installation of protective grounds as required by 437-002-2313 Grounding for the protection of employees, Division 2/RR.

(l) After the applicable requirements of paragraphs (3)(a) through (3)(k) of this rule have been followed, the lines and equipment involved may be considered deenergized.

(m) To transfer the clearance, the employee in charge (or the employee's supervisor if the employee in charge must leave the worksite due to illness or other emergency) must inform the system operator and employees in the crew; and the new employee in charge must be responsible for the clearance.

(n) To release a clearance, the employee in charge must:

(A) Notify each employee under that clearance of the pending release of the clearance;

(B) Ensure that all employees under that clearance are clear of the lines and equipment;

(C) Ensure that all protective grounds protecting employees under that clearance have been removed; and

(D) Report this information to the system operator and then release the clearance.

(o) Only the employee in charge who requested the clearance may release the clearance, unless the employer transfers responsibility under paragraph (3)(m) of this rule.

(p) No one may remove tags without the release of the associated clearance as specified under paragraphs (3)(n) and (3)(o) of this rule.

(q) The employer must ensure that no one initiates action to reenergize the lines or equipment at a point of disconnection until all protective grounds have been removed, all crews working on the lines or equipment release their clearances, all employees are clear of the lines and equipment, and all protective tags are removed from that point of disconnection.

437-002-2313

Grounding for the Protection of Employees

(1) Application. 437-002-2313 applies to grounding of generation, transmission, and distribution lines and equipment for the purpose of protecting employees. Paragraph (4) of this rule also applies to protective grounding of other equipment as required elsewhere in Division 2/RR.

(2) General. For any employee to work transmission and distribution lines or equipment as deenergized, the employer must ensure that the lines or equipment are deenergized under the provisions of 437-002-2312 and must ensure proper grounding of the lines or equipment as specified in paragraphs (3) through (8) below. However, if the employer can demonstrate that installation of a ground is impracticable or that the conditions resulting from the installation of a ground would present greater hazards to employees than working without grounds, the lines and equipment may be treated as deenergized provided that the employer establishes that all of the following conditions apply:

(a) The employer ensures that the lines and equipment are deenergized under the provisions of 437-002-2312 Deenergizing lines and equipment for employee protection, Division 2/RR.

(b) There is no possibility of contact with another energized source.

(c) The hazard of induced voltage is not present.

ADMINISTRATIVE RULES

(3) Equipotential zone. Temporary protective grounds must be placed at such locations and arranged to will prevent each employee from being exposed to hazardous differences in electric potential.

Note to paragraph (3): Appendix C to Division 2/RR contains guidelines for establishing the equipotential zone required by this paragraph. Oregon OSHA will deem grounding practices meeting these guidelines as complying with paragraph (3) of this rule.

(4) Protective grounding equipment.

(a) Protective grounding equipment must be capable of conducting the maximum fault current that could flow at the point of grounding for the time necessary to clear the fault.

(b) Protective grounding equipment must have an ampacity greater than or equal to that of No. 2 AWG copper.

(c) Protective grounds must have an impedance low enough so that they do not delay the operation of protective devices in case of accidental energizing of the lines or equipment.

(d) While working on circuits deenergized under clearance conditions with multi-phase lines, shorts and grounds must be established at the low-impedance available. Employees may perform work on one phase of a multi-phase line after establishing an equipotential zone that includes the phase being directly worked on. The phases outside the equipotential zone are to be treated as energized with minimum approach distance observed, unless they become part of the equipotential zone.

Note to paragraph (4): American Society for Testing and Materials Standard Specifications for Temporary Protective Grounds to Be Used on De-Energized Electric Power Lines and Equipment, ASTM F855-09, contains guidelines for protective grounding equipment. The Institute of Electrical Engineers Guide for Protective Grounding of Power Lines, IEEE Std 1048-2003, contains guidelines for selecting and installing protective grounding equipment.

(5) Testing. The employer must ensure that, unless a previously installed ground is present, employees test lines and equipment and verify the absence of nominal voltage before employees install any ground on those lines or that equipment.

(6) Grounding must be verified if an employee requests it.

(7) Connecting and removing grounds.

(a) The employer must ensure that, when an employee attaches a ground to a line or to equipment, the employee attaches the ground-end connection first and then attaches the other end by means of a live-line tool. For lines or equipment operating at 600 volts or less, the employer may permit the employee to use insulating equipment other than a live-line tool if the employer ensures that the line or equipment is not energized at the time the ground is connected or if the employer can demonstrate that each employee is protected from hazards that may develop if the line or equipment is energized.

(b) The employer must ensure that, when an employee removes a ground, the employee removes the grounding device from the line or equipment using a live-line tool before they remove the ground-end connection. For lines or equipment operating at 600 volts or less, the employer may permit the employee to use insulating equipment other than a live-line tool if the employer ensures that the line or equipment is not energized at the time the ground is disconnected or if the employer can demonstrate that each employee is protected from hazards that may develop if the line or equipment is energized.

(8) Additional precautions. The employer must ensure that, when an employee performs work on a cable at a location remote from the cable terminal, the cable is not grounded at the cable terminal if there is a possibility of hazardous transfer of potential should a fault occur.

(9) Removal of grounds for test. The employer may permit employees to remove grounds temporarily during tests. During the test procedure, the employer must ensure that each employee uses insulating equipment, must isolate each employee from any hazards involved, and must implement any additional measures necessary to protect each exposed employee in case the previously grounded lines and equipment become energized.

437-002-2314

Testing and Test Facilities

(1) Application. 437-002-2314 provides for safe work practices for high-voltage and high-power testing performed in laboratories, shops, and substations, and in the field and on electric transmission and distribution lines and equipment. It applies only to testing involving interim measurements using high voltage, high power, or combinations of high voltage and high power, and not to testing involving continuous measurements as in routine metering, relaying, and normal line work.

Note to paragraph (1): Oregon OSHA considers routine inspection and maintenance measurements made by qualified employees to be routine

line work not included in the scope of 437-002-2314, provided that the hazards related to the use of intrinsic high-voltage or high-power sources require only the normal precautions associated with routine work specified in the other paragraphs of this rule. Two typical examples of such excluded test work procedures are "phasing-out" testing and testing for a "no-voltage" condition.

(2) General requirements.

(a) The employer must establish and enforce work practices for the protection of each worker from the hazards of high-voltage or high-power testing at all test areas, temporary and permanent. Such work practices must include, as a minimum, test area safeguarding, grounding, the safe use of measuring and control circuits, and a means providing for periodic safety checks of field test areas.

(b) The employer must ensure that each employee, upon initial assignment to the test area, receives training in safe work practices, with retraining provided as required by 437-002-2300(2).

(3) Safeguarding of test areas.

(a) The employer must provide safeguarding within test areas to control access to test equipment or to apparatus under test that could become energized as part of the testing by either direct or inductive coupling and to prevent accidental employee contact with energized parts.

(b) The employer must guard permanent test areas with walls, fences, or other barriers designed to keep employees out of the test areas.

(c) In field testing, or at a temporary test site not guarded by permanent fences and gates, the employer must ensure the use of one of the following means to prevent employees without authorization from entering:

(A) Distinctively colored safety tape supported approximately waist high with safety signs attached to it,

(B) A barrier or barricade that limits access to the test area to a degree equivalent, physically and visually, to the barricade specified in paragraph (3)(c)(A) of this rule, or

(C) One or more test observers stationed so that they can monitor the entire area.

(d) The employer must ensure the removal of the safeguards required by paragraph (3)(c) of this rule when employees no longer need the protection afforded by the safeguards.

(4) Grounding practices.

(a) The employer must establish and implement safe grounding practices for the test facility.

(A) The employer must maintain at ground potential all conductive parts accessible to the test operator while the equipment is operating at high voltage.

(B) Wherever ungrounded terminals of test equipment or apparatus under test may be present, they must be treated as energized until tests demonstrate that they are deenergized.

(b) The employer must ensure either that visible grounds are applied automatically, or that employees using properly insulated tools manually apply visible grounds, to the high-voltage circuits after they are deenergized and before any employee performs work on the circuit or on the item or apparatus under test. Common ground connections must be solidly connected to the test equipment and the apparatus under test.

(c) In high-power testing, the employer must provide an isolated ground-return conductor system designed to prevent the intentional passage of current, with its attendant voltage rise, from occurring in the ground grid or in the earth. However, the employer need not provide an isolated ground-return conductor if the employer can demonstrate that both of the following conditions exist:

(A) The employer cannot provide an isolated ground-return conductor due to the distance of the test site from the electric energy source, and

(B) The employer protects employees from any hazardous step and touch potentials that may develop during the test.

Note to paragraph (4)(c)(B): See Appendix C to Division 2/RR for information on measures that employers can take to protect employees from hazardous step and touch potentials.

(d) For tests in which using the equipment grounding conductor in the equipment power cord to ground the test equipment would result in greater hazards to test personnel or prevent the taking of satisfactory measurements, the employer may use a ground clearly indicated in the test set-up if the employer can demonstrate that this ground affords protection for employees equivalent to the protection afforded by an equipment grounding conductor in the power supply cord.

(e) The employer must ensure that, when any employee enters the test area after equipment is deenergized, a ground is placed on the high-voltage terminal and any other exposed terminals.

(A) Before any employee applies a direct ground, the employer must discharge high capacitance equipment through a resistor rated for the available energy.

ADMINISTRATIVE RULES

(B) A direct ground must be applied to the exposed terminals after the stored energy drops to a level at which it is safe to do so.

(f) If the employer uses a test trailer or test vehicle in field testing, its chassis must be grounded. The employer must protect each employee against hazardous touch potentials with respect to the vehicle, instrument panels, and other conductive parts accessible to employees with bonding, insulation, or isolation.

(5) Control and measuring circuits.

(a) The employer may not run control wiring, meter connections, test leads, or cables from a test area unless contained in a grounded metallic sheath and terminated in a grounded metallic enclosure or unless the employer takes other precautions that it can demonstrate will provide employees with equivalent safety.

(b) The employer must isolate meters and other instruments with accessible terminals or parts from test personnel to protect against hazards that could arise should such terminals and parts become energized during testing. If the employer provides this isolation by locating test equipment in metal compartments with viewing windows, the employer must provide interlocks to interrupt the power supply when someone opens the compartment cover.

(c) The employer must protect temporary wiring and its connections against damage, accidental interruptions, and other hazards. To the maximum extent possible, the employer must keep signal, control, ground, and power cables separate from each other.

(d) If any employee will be present in the test area during testing, a test observer must be present. The test observer must be capable of implementing the immediate deenergizing of test circuits for safety purposes.

(6) Safety check.

(a) Safety practices governing employee work at temporary or field test areas must provide, at the beginning of each series of tests, for a routine safety check of such test areas.

(b) The test operator in charge must conduct these routine safety checks before each series of tests and must verify at least the following conditions:

(A) Barriers and safeguards are in workable condition and placed properly to isolate hazardous areas;

(B) System test status signals, if used, are in operable condition;

(C) Clearly marked test-power disconnects are readily available in an emergency;

(D) Ground connections are clearly identifiable;

(E) Personal protective equipment is provided and used as required by Division 2/I, Division 3/E, and Division 2/RR; and

(F) Proper separation between signal, ground, and power cables.

437-002-2315

Mechanical Equipment

(1) General requirements.

Note to 437-002-2315: For employers engaged in construction activities, mechanical equipment must be operated in accordance with applicable requirements in Division 3, including subdivisions N, O, and CC of Division 3, except that 1926.600(a)(6) does not apply to operations performed by qualified employees.

(a) The critical safety components of mechanical elevating and rotating equipment must receive a thorough visual inspection before use on each shift.

Note to paragraph (1)(a): Critical safety components of mechanical elevating and rotating equipment are components for which failure would result in free fall or free rotation of the boom.

(b) No motor vehicle or earthmoving or compacting equipment having an obstructed view to the rear may be operated on off-highway jobsites where any employee is exposed to the hazards created by the moving vehicle, unless:

(A) The vehicle has a reverse signal alarm audible above the surrounding noise level, or

(B) The vehicle is backed up only when a designated employee signals that it is safe to do so.

(c) Rubber-tired self-propelled scrapers, rubber-tired front-end loaders, rubber-tired dozers, wheel-type agricultural and industrial tractors, crawler-type tractors, crawler-type loaders, and motor graders, with or without attachments, must have rollover protective structures that meet the requirements of Division 3/W.

(d) The operator of an electric line truck may not leave their position at the controls while a load is suspended, unless the employer can demonstrate that no employee (including the operator) is endangered.

(2) Outriggers.

(a) Mobile equipment, if provided with outriggers, must be operated with the outriggers extended and firmly set, except as provided in paragraph (2)(c) of this rule.

(b) Outriggers may not be extended or retracted outside of the clear view of the operator unless all employees are outside the range of possible equipment motion.

(c) If the work area or the terrain precludes the use of outriggers, the equipment may be operated only within its maximum load ratings specified by the equipment manufacturer for the particular configuration of the equipment without outriggers.

(3) Applied loads. Mechanical equipment used to lift or move lines or other material must be used within its maximum load rating and other design limitations for the conditions under which the mechanical equipment is being used.

(4) Operations near energized lines or equipment.

(a) Mechanical equipment must be operated so that the minimum approach distances from exposed energized lines and equipment, established by the employer under paragraph (3)(a) of 437-002-2311, are maintained. However, the insulated portion of an aerial lift operated by a qualified employee in the lift is exempt from this requirement if the applicable minimum approach distance is maintained between the uninsulated portions of the aerial lift and exposed objects having a different electrical potential.

(b) A designated employee other than the equipment operator must observe the approach distance to exposed lines and equipment and provide timely warnings before the minimum approach distance required by paragraph (4)(a) of this rule is reached, unless the employer can demonstrate that the operator can accurately maintain the minimum approach distance.

(c) Aerial lifts must have dual controls (lower and upper) as follows:

(A) The upper controls must be within easy reach of the employee in the bucket. On a two-bucket-type lift, access to the controls must be within easy reach of both buckets.

(B) The lower set of controls must be near the base of the boom and must be designed so that they can override operation of the equipment at any time.

(C) Controls must be placed and guarded so that the equipment cannot be activated by inadvertent contact by the operator, tools, equipment, lines, or foreign objects.

(d) If, during operation of the mechanical equipment, that equipment could become energized, the operation also must comply with at least one of paragraphs (4)(d)(A) through (4)(d)(C) of this rule.

(A) The energized lines or equipment exposed to contact must be covered with insulating protective material that will withstand the type of contact that could be made during the operation.

(B) The mechanical equipment must be insulated for the voltage involved. The mechanical equipment must be positioned so that its uninsulated portions cannot approach the energized lines or equipment any closer than the minimum approach distances, established by the employer under paragraph (3)(a) of 437-002-2311.

(C) Each employee must be protected from hazards that could arise from mechanical equipment contact with energized lines or equipment. The measures used must ensure that employees will not be exposed to hazardous differences in electric potential. Unless the employer can demonstrate that the methods in use protect each employee from the hazards that could arise if the mechanical equipment contacts the energized line or equipment, the measures used must include all of the following techniques:

(i) Using the best available ground to minimize the time the lines or electric equipment remain energized,

(ii) Bonding mechanical equipment together to minimize potential differences,

(iii) Providing ground mats to extend areas of equipotential, and

(iv) Employing insulating protective equipment or barricades to guard against any remaining hazardous electrical potential differences.

Note to paragraph (4)(d)(C): Appendix C to Division 2/RR contains information on hazardous step and touch potentials and on methods of protecting employees from hazards resulting from such potentials.

437-002-2316

Overhead Lines

(1) General. This paragraph provides additional requirements for work performed on or near overhead lines and equipment.

(a) The employer must determine if elevated structures such as poles or towers are capable of withstanding the additional or unbalanced stresses of climbing or equipment. If the pole or other structure cannot withstand the

ADMINISTRATIVE RULES

expected loads, the employer must brace or otherwise support the pole or structure to prevent failure.

Note to paragraph (1)(a): Appendix D to Division 2/RR contains test methods that employers can use to determine whether a wood pole is capable of sustaining the forces imposed by an employee climbing the pole. This paragraph also requires the employer to determine that the pole can sustain all other forces imposed by the work employees will perform.

(b) When a pole is set, moved, or removed near an exposed energized overhead conductor, the pole may not contact the conductor.

(c) Raising poles, towers, or fixtures close to high voltage conductors must be done under the supervision of a worker qualified for this work.

(d) Conductive rigging (wire rope) may not be used to raise poles, transformers, and other equipment except when such rigging is below, protected, or at a sufficient distance from energized high voltage conductors to prevent hazardous contact.

(e) When a pole is set, moved, or removed near an exposed energized overhead conductor, the employer must ensure that each employee wears electrical protective equipment or uses insulated devices when handling the pole and that no employee contacts the pole with uninsulated parts of their body.

(f) To protect employees from falling into holes used for placing poles, the employer must physically guard the holes, or ensure that employees attend the holes, whenever anyone is working nearby.

(g) Suitable guards and barriers must be erected so that workers or tools and equipment will not fall into or accidentally contact energized conductors or equipment.

(h) Materials and tools other than belt tools for which the body belt is designed:

(A) Must be raised or lowered by means of a suitable container or handline.

(B) May not be thrown to or from employees working on poles or structures. When field conditions prevent the use of a handline or alternative method from being done safely, a designated drop zone must be established. Clear communication must occur to prevent employees from entering the zone while material is being dropped in a controlled manner.

(2) Installing and removing overhead lines. The following provisions apply to the installation and removal of overhead conductors or cable (overhead lines).

(a) When lines that employees are installing or removing can contact energized parts, the employer must use the tension-stringing method, barriers, or other equivalent measures to minimize the possibility that conductors and cables the employees are installing or removing will contact energized power lines or equipment.

(b) For conductors, cables, and pulling and tensioning equipment, the employer must provide the protective measures required by 437-002-2315 (4)(d) when employees are installing or removing a conductor or cable close enough to energized conductors that any of the following failures could energize the pulling or tensioning equipment or the conductor or cable being installed or removed:

- (A) Failure of the pulling or tensioning equipment,
- (B) Failure of the conductor or cable being pulled, or
- (C) Failure of the previously installed lines or equipment.

(c) If the conductors that employees are installing or removing cross over energized conductors in excess of 600 volts and if the design of the circuit interrupting devices protecting the lines so permits, the employer must render inoperable the automatic-reclosing feature of these devices.

(d) Before employees install lines parallel to existing energized lines, the employer must make a determination of the approximate voltage to be induced in the new lines, or work must proceed on the assumption that the induced voltage is hazardous. Unless the employer can demonstrate that the lines that employees are installing are not subject to the induction of a hazardous voltage or unless the lines are treated as energized, temporary protective grounds must be placed at such locations and arranged in such a manner that the employer can demonstrate will prevent exposure of each employee to hazardous differences in electric potential.

Note 1 to paragraph (2)(d): If the employer takes no precautions to protect employees from hazards associated with involuntary reactions from electric shock, a hazard exists if the induced voltage is sufficient to pass a current of 1 milliampere through a 500-ohm resistor. If the employer protects employees from injury due to involuntary reactions from electric shock, a hazard exists if the resultant current would be more than 6 milliamperes.

Note 2 to paragraph (2)(d): Appendix C to Division 2/RR rule contains guidelines for protecting employees from hazardous differences in electric potential as required by this paragraph.

(e) Conductors being strung must not be allowed to slack enough to be in reach of traffic or pedestrians, unless guarded by flaggers or other suitable safeguards.

(f) Reel-handling equipment, including pulling and tensioning devices, must be in safe operating condition and must be leveled and aligned.

(g) When stringing or removing conductors under tension, sleeves must not be pulled through the bull wheel or the puller on the tension machine unless appropriate safeguards are taken.

(h) A qualified employee, or an experienced person under the supervision of a qualified employee, must be placed in charge of the reels as the reel tender.

(i) Reel handling equipment, including pulling, braking, and sagging equipment must be firmly anchored or secured during operations.

(j) The employer must ensure that employees do not exceed load ratings of stringing lines, pulling lines, conductor grips, load-bearing hardware and accessories, rigging, and hoists.

(k) When replacing a conductor with a new or larger conductor, the conductor being removed may not be used to pull in the new one unless the one being removed has been carefully inspected for its entire length and then adjudged to have adequate strength.

(l) The employer must repair or replace defective pulling lines and accessories.

(m) Each pull must be snubbed or dead ended at both ends before subsequent pulls.

(n) The employer must ensure that employees do not use conductor grips on wire rope unless the manufacturer specifically designed the grip for this application.

(o) The employer must ensure that employees maintain reliable communications, through two-way radios or other equivalent means, between the reel tender and the pulling rig operator.

(p) Employees may operate the pulling rig only when it is safe to do so.

Note to paragraph (2)(p): Examples of unsafe conditions include: employees in locations prohibited by paragraph (2)(q) of this rule, conductor and pulling line hang-ups, and slipping of the conductor grip.

(q) While a power-driven device is pulling the conductor or pulling line and the conductor or pulling line is in motion, the employer must ensure that employees are not directly under overhead operations or on the cross arm, except as necessary for the employees to guide the stringing sock or board over or through the stringing sheave.

(3) Live-line bare-hand work is prohibited.

(4) Towers and structures. The following requirements apply to work performed on towers or other structures that support overhead lines.

(a) The employer must ensure that no employee is under a tower or structure while work is in progress, except when the employer can demonstrate that such a working position is necessary to assist employees working above.

(b) The employer must ensure that employees use tag lines or other similar devices to maintain control of tower rules being raised or positioned, unless the employer can demonstrate that the use of such devices would create a greater hazard to employees.

(c) The employer must ensure that employees do not detach the load-line from a member or rule until they safely secure the load.

(d) The employer must ensure that, except during emergency restoration procedures, employees discontinue work when adverse weather conditions would make the work hazardous in spite of the work practices required by this rule.

Note to paragraph (4)(d): Thunderstorms in the vicinity, high winds, snow storms, and ice storms are examples of adverse weather conditions that make this work too hazardous to perform even after the employer implements the work practices required by this rule.

437-002-2317

Line-clearance Tree Trimming

This rule provides additional requirements for line-clearance tree trimming and for equipment used in this type of work.

(1) Electrical hazards. This paragraph does not apply to qualified employees.

(a) Before an employee climbs, enters, or works around any tree, a determination must be made of the nominal voltage of electric power lines posing a hazard to employees. However, a determination of the maximum nominal voltage to which an employee will be exposed may be made instead, if all lines are considered as energized at this maximum voltage.

(b) There must be a second line-clearance tree trimmer within normal, unassisted voice communication under any of the following conditions:

ADMINISTRATIVE RULES

(A) If a line-clearance tree trimmer is to approach more closely than 3.05 meters (10 feet) to any conductor or electric apparatus energized at more than 600 volts or

(B) If branches or limbs being removed are closer to lines energized at more than 600 volts than the distances listed in Table RR-4, Table RR-5, Table RR-6, and Table RR-7 or

(C) If roping is necessary to remove branches or limbs from such conductors or apparatus.

(c) Line-clearance tree trimmers must maintain the minimum approach distances from energized conductors given in Table RR-4, Table RR-5, Table RR-6, and Table RR-7.

(d) Branches that are contacting exposed energized conductors or equipment, or that are within the distances specified in Table RR-4 Table RR-5, Table RR-6, and Table RR-7 may be removed only through the use of insulating equipment.

Note to paragraph (1)(d): A tool constructed of a material that the employer can demonstrate has insulating qualities meeting paragraph (3) of 437-002-2309 is considered as insulated under paragraph (1)(d) of this rule if the tool is clean and dry.

(e) Ladders, platforms, and aerial devices may not be brought closer to an energized part than the distances listed in Table RR-4, Table RR-5, Table RR-6, and Table RR-7.

(f) Line-clearance tree trimming may not be performed when adverse weather conditions make the work hazardous in spite of the work practices required by this rule. Each employee performing line-clearance tree trimming in the aftermath of a storm or under similar emergency conditions must be trained in the special hazards related to this type of work.

Note to paragraph (1)(f): Thunderstorms in the immediate vicinity, high winds, snow storms, and ice storms are examples of adverse weather conditions that are presumed to make line-clearance tree trimming too hazardous to perform safely.

(2) Brush chippers.

(a) Brush chippers must be equipped with a locking device in the ignition system.

(b) Access panels for maintenance and adjustment of the chipper blades and associated drive train must be in place and secure during operation of the equipment.

(c) Brush chippers not equipped with a mechanical infeed system must be equipped with an infeed hopper of length sufficient to prevent employees from contacting the blades or knives of the machine during operation.

(d) Trailer chippers detached from trucks must be chocked or otherwise secured.

(e) Each employee in the immediate area of an operating chipper feed table must wear personal protective equipment as required Division 2/I.

(3) Sprayers and related equipment.

(a) Walking and working surfaces of sprayers and related equipment must be covered with slip-resistant material. If slipping hazards cannot be eliminated, slip-resistant footwear or handrails and stair rails meeting the requirements of Division 2/D may be used instead of slip-resistant material.

(b) Equipment on which employees stand to spray while the vehicle is in motion must be equipped with guardrails around the working area. The guardrail must be constructed in accordance with Division 2/D.

(4) Stump cutters.

(a) Stump cutters must be equipped with enclosures or guards to protect employees.

(b) Each employee in the immediate area of stump grinding operations including the stump cutter operator) must wear personal protective equipment as required by Division 2/I.

(5) Gas powered saws. Gas powered saw operations must meet the requirements of 437-007-0405 Chain Saws, Division 7; and the following:

(a) Each power saw weighing more than 6.8 kilograms (15 pounds, service weight) that is used in trees must be supported by a separate line, except when work is performed from an aerial lift and except during topping or removing operations where no supporting limb will be available.

(b) Each power saw must be equipped with a control that will return the saw to idling speed when released.

(c) Each power saw must be equipped with a clutch and must be so adjusted that the clutch will not engage the chain drive at idling speed.

(d) A power saw must be started on the ground or where it is otherwise firmly supported. Drop starting of saws over 6.8 kilograms (15 pounds), other than chain saws, is permitted outside of the bucket of an aerial lift only if the area below the lift is clear of personnel. Drop starting chain saws is prohibited.

(e) A power saw engine may be started and operated only when all employees other than the operator are clear of the saw.

(f) A power saw may not be running when the saw is being carried up into a tree by an employee.

(g) Power saw engines must be stopped for all cleaning, refueling, adjustments, and repairs to the saw or motor, except as the manufacturer's servicing procedures require otherwise.

(6) Backpack power units for use in pruning and clearing.

(a) While a backpack power unit is running, no one other than the operator may be within 3.05 meters (10 feet) of the cutting head of a brush saw.

(b) A backpack power unit must be equipped with a quick shutoff switch readily accessible to the operator.

(c) Backpack power unit engines must be stopped for all cleaning, refueling, adjustments, and repairs to the saw or motor, except as the manufacturer's servicing procedures require otherwise.

(7) Rope.

(a) Climbing ropes must be used by employees working aloft in trees. These ropes must have a minimum diameter of 12 millimeters (0.5 inch) with a minimum breaking strength of 10.2 kilonewtons (2,300 pounds). Synthetic rope must have elasticity of not more than 7 percent.

(b) Rope must be inspected before each use and, if unsafe (for example, because of damage or defect), may not be used.

(c) Rope must be stored away from cutting edges and sharp tools. Rope contact with corrosive chemicals, gas, and oil must be avoided.

(d) When stored, rope must be coiled and piled, or must be suspended, so that air can circulate through the coils.

(e) Rope ends must be secured to prevent their unraveling.

(f) Climbing rope may not be repaired by splicing.

(g) A rope that is wet, that is contaminated to the extent that its insulating capacity is impaired, or that is otherwise not considered to be insulated for the voltage involved may not be used near exposed energized lines.

(8) Fall protection. Each employee must be tied in with a climbing rope and safety saddle when the employee is working above the ground in a tree, except when ascending into or descending from the tree.

Communication Facilities

(1) Microwave transmission.

(a) The employer must ensure that no employee looks into an open waveguide or antenna connected to an energized microwave source.

(b) If the electromagnetic-radiation level within an accessible area associated with microwave communications systems exceeds the radiation-protection guide specified by 1910.97(a)(2), the employer must post the area with warning signs containing the warning symbol described in 1910.97(a)(3). The lower half of the warning symbol must include the following statements, or ones that the employer can demonstrate are equivalent: "Radiation in this area may exceed hazard limitations and special precautions are required. Obtain specific instruction before entering."

(c) When an employee works in an area where the electromagnetic radiation could exceed the radiation protection guide, the employer must institute measures that ensure that the employee's exposure is not greater than that permitted by that guide. Such measures may include administrative and engineering controls and personal protective equipment.

(2) Power-line carrier. The employer must ensure that employees perform power-line carrier work, including work on equipment used for coupling carrier current to power line conductors, in accordance with the requirements of Division 2/RR pertaining to work on energized lines.

Underground Electrical Installations

This rule provides additional requirements for work on underground electrical installations.

(1) Access. The employer must ensure that employees use a ladder or other climbing device to enter and exit a manhole or subsurface vault exceeding 1.22 meters (4 feet) in depth. No employee may climb into or out of a manhole or vault by stepping on cables or hangers.

(2) Lowering equipment into manholes.

(a) Equipment used to lower materials and tools into manholes or vaults must be capable of supporting the weight to be lowered and must be checked for defects before use.

ADMINISTRATIVE RULES

(b) Before anyone lowers tools or material into the opening for a manhole or vault, each employee working in the manhole or vault must be clear of the area directly under the opening.

(3) Attendants for manholes and vaults.

(a) While work is being performed in a manhole or vault containing energized electric equipment, an employee with first-aid and cardiopulmonary resuscitation training must be available on the surface in the immediate vicinity of the manhole or vault entrance to render emergency assistance.

(b) Occasionally, the employee on the surface may briefly enter a manhole or vault to provide nonemergency assistance.

Note 1 to paragraph (3)(b): 437-002-2304(7) of Division 2/RR may also require an attendant and does not permit this attendant to enter the manhole or vault.

Note 2 to paragraph (3)(b): 437-002-2311(1)(b) of Division 2/RR requires employees entering manholes or vaults containing unguarded, uninsulated energized lines or parts of electric equipment operating at 50 volts or more to be qualified.

(c) For the purpose of inspection, housekeeping, taking readings, or similar work, an employee working alone may enter, for brief periods of time, a manhole or vault where energized cables or equipment are in service if the employer can demonstrate that the employee will be protected from all electrical hazards.

(d) The employer must ensure that employees maintain reliable communications, through two-way radios or other equivalent means, among all employees involved in the job.

(4) Duct rods. The employer must ensure that, if employees use duct rods, the employees install the duct rods in the direction presenting the least hazard to employees. The employer must station an employee at the far end of the duct line being rodded to ensure that the employees maintain the required minimum approach distances.

(5) All primary cables must be permanently and plainly identified by tags or other methods at both ends.

(6) Multiple cables. When multiple cables are present in a work area, the employer must identify the cable to be worked by electrical means, unless its identity is obvious by reason of distinctive appearance or location or by other readily apparent means of identification. The employer must protect cables other than the one being worked from damage.

(7) Moving cables. Except when paragraph (8)(b) of this rule permits employees to perform work that could cause a fault in an energized cable in a manhole or vault, the employer must ensure that employees inspect energized cables to be moved for abnormalities.

(8) Protection against faults.

(a) Where a cable in a manhole or vault has one or more abnormalities that could lead to a fault or be an indication of an impending fault, the employer must deenergize the cable with the abnormality before any employee may work in the manhole or vault, except when service-load conditions and a lack of feasible alternatives require that the cable remain energized. In that case, employees may enter the manhole or vault provided the employer protects them from the possible effects of a failure using shields or other devices that are capable of containing the adverse effects of a fault. The employer must treat the following abnormalities as indications of impending faults unless the employer can demonstrate that the conditions could not lead to a fault: Oil or compound leaking from cable or joints, broken cable sheaths or joint sleeves, hot localized surface temperatures of cables or joints, or joints swollen beyond normal tolerance.

(b) If the work employees will perform in a manhole or vault could cause a fault in a cable, the employer must deenergize that cable before any employee works in the manhole or vault, except when service-load conditions and a lack of feasible alternatives require that the cable remain energized. In that case, employees may enter the manhole or vault provided the employer protects them from the possible effects of a failure using shields or other devices that are capable of containing the adverse effects of a fault.

(9) Sheath continuity. When employees perform work on buried cable or on cable in a manhole or vault, the employer must maintain metallic-sheath continuity, or the cable sheath must be treated as energized.

Substations

This paragraph provides additional requirements for substations and for work performed in them.

(1) Access and working space. The employer must provide and maintain sufficient access and working space around electric equipment to permit ready and safe operation and maintenance of such equipment by employees.

Note to paragraph (1): American National Standard: National Electrical Safety Code, ANSI/IEEE C2-2012 contains guidelines for the dimensions of access and working space about electric equipment in substations. Installations meeting the ANSI provisions comply with paragraph (u)(1) of this rule. Oregon OSHA will determine whether an installation that does not conform to this ANSI standard complies with paragraph (1) of this rule based on the following criteria:

Whether the installation conforms to the edition of ANSI C2 that was in effect when the installation was made.

Whether the configuration of the installation enables employees to maintain the minimum approach distances, established by the employer under paragraph (3)(a) of 437-002-2311, while the employees are working on exposed, energized parts, and

Whether the precautions taken when employees perform work on the installation provide protection equivalent to the protection provided by access and working space meeting ANSI/IEEE C2-2012.

(2) Draw-out-type circuit breakers. The employer must ensure that, when employees remove or insert draw-out-type circuit breakers, the breaker is in the open position. The employer must also render the control circuit inoperable if the design of the equipment permits.

(3) Substation fences. Conductive fences around substations must be grounded. When a substation fence is expanded or a section is removed, fence sections must be isolated, grounded, or bonded as necessary to protect employees from hazardous differences in electric potential.

Note to paragraph (3): IEEE Std 80-2000, IEEE Guide for Safety in AC Substation Grounding, contains guidelines for protection against hazardous differences in electric potential.

(4) Guarding of rooms and other spaces containing electric supply equipment.

(a) Rooms and other spaces in which electric supply lines or equipment are installed must meet the requirements of paragraphs (4)(a) through (4)(e) of this rule under the following conditions:

(A) If exposed live parts operating at 50 to 150 volts to ground are within 2.4 meters (8 feet) of the ground or other working surface inside the room or other space,

(B) If live parts operating at 151 to 600 volts to ground and located within 2.4 meters (8 feet) of the ground or other working surface inside the room or other space are guarded only by location, as permitted under paragraph (5)(a) of this rule, or

(C) If live parts operating at more than 600 volts to ground are within the room or other space, unless:

(i) The live parts are enclosed within grounded, metal-enclosed equipment whose only openings are designed so that foreign objects inserted in these openings will be deflected from energized parts, or

(ii) The live parts are installed at a height, above ground and any other working surface, that provides protection at the voltage on the live parts corresponding to the protection provided by a 2.4-meter (8-foot) height at 50 volts.

(b) Fences, screens, partitions, or walls must enclose the rooms and other spaces so as to minimize the possibility that unqualified persons will enter.

(c) Unqualified persons may not enter the rooms or other spaces while the electric supply lines or equipment are energized.

(d) The employer must display signs at entrances to the rooms and other spaces warning unqualified persons to keep out.

(e) The employer must keep each entrance to a room or other space locked, unless the entrance is under the observation of a person who is attending the room or other space for the purpose of preventing unqualified employees from entering.

(5) Guarding of energized parts.

(a) The employer must provide guards around all live parts operating at more than 150 volts to ground without an insulating covering unless the location of the live parts gives sufficient clearance (horizontal, vertical, or both) to minimize the possibility of accidental employee contact.

Note to paragraph (5)(a): American National Standard: National Electrical Safety Code, ANSI/IEEE C2-2002 contains guidelines for the dimensions of clearance distances about electric equipment in substations. Installations meeting the ANSI provisions comply with paragraph (5)(a) of this rule. Oregon OSHA will determine whether an installation that does not conform to this ANSI standard complies with paragraph (5)(a) of this rule based on the following criteria:

Whether the installation conforms to the edition of ANSI C2 that was in effect when the installation was made,

Whether each employee is isolated from energized parts at the point of closest approach; and

Whether the precautions taken when employees perform work on the installation provide protection equivalent to the protection provided by horizontal and vertical clearances meeting ANSI/IEEE C2-2002.

(b) Except for fuse replacement and other necessary access by qualified persons, the employer must maintain guarding of energized parts within a compartment during operation and maintenance functions to prevent accidental contact with energized parts and to prevent dropped tools or other equipment from contacting energized parts.

ADMINISTRATIVE RULES

(c) Before guards are removed from energized equipment, the employer must install barriers around the work area to prevent employees who are not working on the equipment, but who are in the area, from contacting the exposed live parts.

(d) Proper identification and warning signs must be posted at all entrances to battery rooms or compartments.

(6) Substation entry.

(a) Upon entering an attended substation, each employee, other than employees regularly working in the station, must report their presence to the employee in charge of substation activities to receive information on special system conditions affecting employee safety.

(b) The job briefing required by 437-002-2302 Job Briefing, Division 2/RR; must cover information on special system conditions affecting employee safety, including the location of energized equipment in or adjacent to the work area and the limits of any deenergized work area. Job briefings apply equally to unattended and attended substations and to employees already working in a substation and employees who enter a substation.

(c) A qualified safety watch must be provided for all other work being performed in any energized substation yard except when the work is separated from all energized equipment by a barrier.

(d) Qualified nonelectrical workers will be allowed to work in substations without barriers and without a safety watch if all the following conditions are observed:

(A) Permission to enter must be obtained from the substation operator or other authorized person.

(B) Each qualified nonelectrical worker must be trained and competent as required by 437-002-2300(2)(b) Training, of Division 2/RR, and must have demonstrated proficiencies in the work practices involved as required by 437-002-2300 (2)(h) Training, Division 2/RR.

Note: Employees who have not demonstrated proficiency in the work practices involved are considered to be undergoing on-the-job training and must be under the direct supervision of a qualified employee.

(C) The worker must not work off the ground without the specific approval of the person responsible for control of entry except to operate such equipment as light motor vehicles, which have no equipment or loads that can project above the cab.

This rule provides additional requirements and related work practices for power generating plants.

(1) Interlocks and other safety devices.

(a) Interlocks and other safety devices must be maintained in a safe, operable condition.

(b) No interlock or other safety device may be modified to defeat its function, except for test, repair, or adjustment of the device.

(2) Changing brushes. Before exciter or generator brushes are changed while the generator is in service, the exciter or generator field must be checked to determine whether a ground condition exists. The brushes may not be changed while the generator is energized if a ground condition exists.

(3) Access and working space. The employer must provide and maintain sufficient access and working space around electric equipment to permit ready and safe operation and maintenance.

Note to paragraph (3) of this rule: American National Standard: National Electrical Safety Code, ANSI/IEEE C2-2012 contains guidelines for the dimensions of access and working space about electric equipment in substations. Installations meeting the ANSI provisions comply with paragraph (3) of this rule. Oregon OSHA will determine whether an installation that does not conform to this ANSI standard complies with paragraph (3) of this rule based on the following criteria:

Whether the installation conforms to the edition of ANSI C2 that was in effect when the installation was made;

Whether the configuration of the installation enables employees to maintain the minimum approach distances, established by the employer under paragraph (3)(a) of this section, while the employees are working on exposed, energized parts, and;

Whether the precautions taken when employees perform work on the installation provide protection equivalent to the protection provided by access and working space meeting ANSI/IEEE C2-2012.

(4) Guarding of rooms and other spaces containing electric supply equipment.

(a) Rooms and other spaces in which electric supply lines or equipment are installed must meet the requirements of paragraphs (4)(b) through (4)(e) of this rule under the following conditions:

(A) If exposed live parts operating at 50 to 150 volts to ground are within 2.4 meters (8 feet) of the ground or other working surface inside the room or other space,

(B) If live parts operating at 151 to 600 volts to ground and located within 2.4 meters (8 feet) of the ground or other working surface inside the room or other space are guarded only by location, as permitted under paragraph (5)(a) of this rule, or

(C) If live parts operating at more than 600 volts to ground are within the room or other space, unless:

(i) The live parts are enclosed within grounded, metal-enclosed equipment whose only openings are designed so that foreign objects inserted in these openings will be deflected from energized parts, or

(ii) The live parts are installed at a height, above ground and any other working surface, that provides protection at the voltage on the live parts corresponding to the protection provided by a 2.4-meter (8-foot) height at 50 volts.

(b) Fences, screens, partitions, or walls must enclose the rooms and other spaces so as to minimize the possibility that unqualified persons will enter.

(c) Unqualified persons may not enter the rooms or other spaces while the electric supply lines or equipment are energized.

(d) The employer must display signs at entrances to the rooms and other spaces warning unqualified persons to keep out.

(e) The employer must keep each entrance to a room or other space locked, unless the entrance is under the observation of a person who is attending the room or other space for the purpose of preventing unqualified employees from entering.

(5) Guarding of energized parts.

(a) The employer must provide guards around all live parts operating at more than 150 volts to ground without an insulating covering unless the location of the live parts gives sufficient clearance (horizontal, vertical, or both) to minimize the possibility of accidental employee contact.

Note to paragraph (5)(a): American National Standard: National Electrical Safety Code, ANSI/IEEE C2-2002 contains guidelines for the dimensions of clearance distances about electric equipment in substations. Installations meeting the ANSI provisions comply with paragraph (5)(a) of this rule. Oregon OSHA will determine whether an installation that does not conform to this ANSI standard complies with paragraph (5)(a) of this rule based on the following criteria:

Whether the installation conforms to the edition of ANSI C2 that was in effect when the installation was made;

Whether each employee is isolated from energized parts at the point of closest approach; and

Whether the precautions taken when employees perform work on the installation provide protection equivalent to the protection provided by horizontal and vertical clearances meeting ANSI/IEEE C2-2002.

(b) Except for fuse replacement and other necessary access by qualified persons, the employer must maintain guarding of energized parts within a compartment during operation and maintenance functions to prevent accidental contact with energized parts and to prevent dropped tools or other equipment from contacting energized parts.

(c) Before guards are removed from energized equipment, the employer must install barriers around the work area to prevent employees who are not working on the equipment, but who are in the area, from contacting the exposed live parts.

(6) Water or steam spaces. The following requirements apply to work in water and steam spaces associated with boilers:

(a) A designated employee must inspect conditions before work is permitted and after its completion. Eye protection, or full face protection if necessary, must be worn at all times when condenser, heater, or boiler tubes are being cleaned.

(b) Where it is necessary for employees to work near tube ends during cleaning, shielding must be installed at the tube ends.

(7) Chemical cleaning of boilers and pressure vessels. The following requirements apply to chemical cleaning of boilers and pressure vessels:

(a) Areas where chemical cleaning is in progress must be cordoned off to restrict access during cleaning. If flammable liquids, gases, or vapors or combustible materials will be used or might be produced during the cleaning process, the following requirements also apply:

(A) The area must be posted with signs restricting entry and warning of the hazards of fire and explosion; and

(B) Smoking, welding, and other possible ignition sources are prohibited in these restricted areas.

(b) The number of personnel in the restricted area must be limited to those necessary to accomplish the task safely.

(c) There must be ready access to water or showers for emergency use.

Note to paragraph (7)(c): See 1910.141 and 437-002-0141 for requirements that apply to the water supply and to washing facilities.

ADMINISTRATIVE RULES

(d) Employees in restricted areas must wear protective equipment meeting the requirements of Division 2/I and including, but not limited to, protective clothing, boots, goggles, and gloves.

(8) Chlorine systems.

(a) Chlorine system enclosures must be posted with signs restricting entry and warning of the hazard to health and the hazards of fire and explosion.

Note to paragraph (8)(a): See Division 2/Z for requirements necessary to protect the health of employees from the effects of chlorine.

(b) Only designated employees may enter the restricted area. Additionally, the number of personnel must be limited to those necessary to accomplish the task safely.

(c) Emergency repair kits must be available near the shelter or enclosure to allow for the prompt repair of leaks in chlorine lines, equipment, or containers.

(d) Before repair procedures are started, chlorine tanks, pipes, and equipment must be purged with dry air and isolated from other sources of chlorine.

(e) The employer must ensure that chlorine is not mixed with materials that would react with the chlorine in a dangerously exothermic or other hazardous manner.

(9) Boilers.

(a) Before internal furnace or ash hopper repair work is started, overhead areas must be inspected for possible falling objects. If the hazard of falling objects exists, overhead protection such as planking or nets must be provided.

(b) When opening an operating boiler door, employees must stand clear of the opening of the door to avoid the heat blast and gases which may escape from the boiler.

(10) Turbine generators.

(a) Smoking and other ignition sources are prohibited near hydrogen or hydrogen sealing systems, and signs warning of the danger of explosion and fire must be posted.

(b) Excessive hydrogen makeup or abnormal loss of pressure must be considered as an emergency and must be corrected immediately.

(c) A sufficient quantity of inert gas must be available to purge the hydrogen from the largest generator.

(11) Coal and ash handling.

(a) Only designated persons may operate railroad equipment.

(b) Before a locomotive or locomotive crane is moved, a warning must be given to employees in the area.

(c) Employees engaged in switching or dumping cars may not use their feet to line up drawheads.

(d) Drawheads and knuckles may not be shifted while locomotives or cars are in motion.

(e) When a railroad car is stopped for unloading, the car must be secured from displacement that could endanger employees.

(f) An emergency means of stopping dump operations must be provided at railcar dumps.

(g) The employer must ensure that employees who work in coal- or ash-handling conveyor areas are trained and knowledgeable in conveyor operation and in the requirements of paragraphs (11)(h) through (11)(l) of this rule.

(h) Employees may not ride a coal or ash-handling conveyor belt at any time. Employees may not cross over the conveyor belt, except at walkways, unless the conveyor's energy source has been deenergized and has been locked out or tagged in accordance with paragraph (d) of this rule.

(i) A conveyor that could cause injury when started may not be started until personnel in the area are alerted by a signal or by a designated person that the conveyor is about to start.

(j) If a conveyor that could cause injury when started is automatically controlled or is controlled from a remote location, an audible device must be provided that sounds an alarm that will be recognized by each employee as a warning that the conveyor will start and that can be clearly heard at all points along the conveyor where personnel may be present. The warning device must be actuated by the device starting the conveyor and must continue for a period of time before the conveyor starts that is long enough to allow employees to move clear of the conveyor system. A visual warning may be used in place of the audible device if the employer can demonstrate that it will provide an equally effective warning in the particular circumstances involved. However if the employer can demonstrate that the system's function would be seriously hindered by the required time delay, warning signs may be provided in place of the audible warning device. If the system was installed before January 31, 1995, warning signs may be provided in place of the audible warning device until such time as the conveyor or its control system is rebuilt or rewired. These warning signs must

be clear, concise, and legible and must indicate that conveyors and allied equipment may be started at any time, that danger exists, and that personnel must keep clear. These warning signs must be provided along the conveyor at areas not guarded by position or location.

(k) Remotely and automatically controlled conveyors, and conveyors that have operating stations which are not manned or which are beyond voice and visual contact from drive areas, loading areas, transfer points, and other locations on the conveyor path not guarded by location, position, or guards must be furnished with emergency stop buttons, pull cords, limit switches, or similar emergency stop devices. However, if the employer can demonstrate that the design, function, and operation of the conveyor do not expose an employee to hazards, an emergency stop device is not required.

(A) Emergency stop devices must be easily identifiable in the immediate vicinity of such locations.

(B) An emergency stop device must act directly on the control of the conveyor involved and may not depend on the stopping of any other equipment.

(C) Emergency stop devices must be installed so that they cannot be overridden from other locations.

(l) Where coal-handling operations may produce a combustible atmosphere from fuel sources or from flammable gases or dust, sources of ignition must be eliminated or safely controlled to prevent ignition of the combustible atmosphere.

Note to paragraph (11)(l): Locations that are hazardous because of the presence of combustible dust are classified as Class II hazardous locations. See 1910.307.

(m) An employee may not work on or beneath overhanging coal in coal bunkers, coal silos, or coal storage areas, unless the employee is protected from all hazards posed by shifting coal.

(n) An employee entering a bunker or silo to dislodge the contents must wear a body harness with lifeline attached. The lifeline must be secured to a fixed support outside the bunker and must be attended at all times by an employee located outside the bunker or facility.

(12) Hydroplants and equipment. Employees working on or close to water gates, valves, intakes, forebays, flumes, or other locations where increased or decreased water flow or levels may pose a significant hazard must be warned and must vacate such dangerous areas before water flow changes are made.

Special Conditions

(1) Capacitors. The following additional requirements apply to work on capacitors and on lines connected to capacitors.

Note to paragraph (1): See 437-002-2312 Deenergizing Lines and Equipment for Employee Protection; and 437-002-2313 Grounding for the Protection of Employees, of Division 2/RR, for requirements pertaining to the deenergizing and grounding of capacitor installations.

(a) Before employees work on capacitors, the employer must disconnect the capacitors from energized sources and short circuit the capacitors. The employer must ensure that the employee short circuiting the capacitors waits at least 5 minutes from the time of disconnection before applying the short circuit.

(b) Before employees handle the units, the employer must short circuit each unit in series-parallel capacitor banks between all terminals and the capacitor case or its rack. If the cases of capacitors are on ungrounded substation racks, the employer must bond the racks to ground.

(c) The employer must short circuit any line connected to capacitors before the line is treated as deenergized.

(2) Current transformer secondaries. The employer must ensure that employees do not open the secondary of a current transformer while the transformer is energized. If the employer cannot deenergize the primary of the current transformer before employees perform work on an instrument, a relay, or other section of a current transformer secondary circuit, the employer must bridge the circuit so that the current transformer secondary does not experience an open-circuit condition.

(3) Series streetlighting.

(a) If the open-circuit voltage exceeds 600 volts, the employer must ensure that employees work on series streetlighting circuits in accordance with 437-002-2316 Overhead Lines; and 437-002-2319 Underground Electrical Installations, of Division 2/RR, as appropriate.

(b) Before any employee opens a series loop, the employer must deenergize the streetlighting transformer and isolate it from the source of supply or must bridge the loop to avoid an open-circuit condition.

(4) Illumination. The employer must provide sufficient illumination to enable the employee to perform the work safely.

ADMINISTRATIVE RULES

(5) Protection against drowning.

(a) Whenever an employee may be pulled or pushed, or might fall, into water where the danger of drowning exists, the employer must provide the employee with, and must ensure that the employee uses, a U.S. Coast Guard approved personal flotation device.

(b) The employer must maintain each personal flotation device in safe condition and must inspect each personal flotation device frequently enough to ensure that it does not have rot, mildew, water saturation, or any other condition that could render the device unsuitable for use.

(c) An employee may cross streams or other bodies of water only if a safe means of passage, such as a bridge, is available.

(6) Employee protection in public work areas.

(a) Traffic-control signs and traffic-control devices used for the protection of employees must meet 437-003-0424 Traffic Control, of Division 3.

(b) Before employees begin work in the vicinity of vehicular or pedestrian traffic that may endanger them, the employer must place warning signs or flags and other traffic-control devices in conspicuous locations to alert and channel approaching traffic.

(c) The employer must use barricades where additional employee protection is necessary.

(d) The employer must protect excavated areas with barricades.

(e) The employer must display warning lights prominently at night.

(7) Backfeed. When there is a possibility of voltage backfeed from sources of cogeneration or from the secondary system (for example, backfeed from more than one energized phase feeding a common load), the requirements of 437-002-2311 Working On or Near Exposed Energized Parts, of Division 2/RR, apply if employees will work the lines or equipment as energized; and the requirements of 437-002-2312 Deenergizing Lines and Equipment for Employee Protection, and 437-002-2313 Grounding for the Protection of Employees, of Division 2/RR, apply if employees will work the lines or equipment as deenergized.

(2) Helicopter regulations. Helicopter cranes must comply with any applicable regulations of the Federal Aviation Administration (FAA).

(3) Hazard Analysis and Job Briefing.

(a) Before the commencement of any construction, maintenance, or lifting activity using a helicopter, a Job Hazard Analysis (JHA) must be conducted, which, at a minimum, must:

(A) Define the core tasks.

(B) Identify specific hazards.

(C) Identify mission specific tasks.

(D) Describe procedures or controls used to safely manage or mitigate the hazards.

(E) Describe the communication procedure to be used with the crew.

(A) Summarize or recap the content of the JHA as applicable to the day's duties.

(B) Communicate any site specific hazards not identified in the JHA and provide mitigation for those hazards.

(C) Identify or establish roles for each person who will be interfacing with the aircraft or its loads.

(E) Specify Minimum Approach Distances (MAD) from energized electrical lines and equipment in the work area.

(F) Describe the applicable sections of the site specific emergency action plan, such as the locations of first aid equipment and rescue gear.

(c) An additional job briefing must be held immediately if working conditions change during the course of a job. Working conditions would include weather, wind, and visibility. During the job briefing all affected employees and others, including signal persons, ground workers, pilots, must be advised of the hazards including a change of operation if needed.

(4) Sling and rigging.

(a) The pilot is responsible for the integrity of the rigging for any external load and must ensure safe delivery of the cargo by inspecting and monitoring the security of the rigging throughout the operation. Prior to operations, the pilot must check the condition and application of all rigging gear to ensure serviceability. Prior to commencing operations, determine the complete rigging requirements including slings and taglines.

(b) All personnel involved with rigging activities must receive appropriate rigging training and show proficiency, specific to helicopter operations and the work or task/s being performed.

(c) The slings used for the external load must be inspected each day before use. Slings must be inspected by an employee designated, trained and qualified as a rigger.

(d) No sling can be used unless it has a properly marked minimum tensile strength of five times the load which will be carried or is being carried.

(A) No sling can be used unless upon inspection it is determined to be in good condition and capable of the work which is to be performed, and is properly marked.

(B) Loads must be properly slung so that there will be no slippage or shifting of the load and so that the load will not accidentally be dislodged from the helicopter.

(C) Slings must be the appropriate weight, strength and length to prevent the sling from being lifted and entangled into the aircraft rotor system.

(D) Pressed sleeves, wedged eyes, or equivalent means must be used for all suspended loads using wire rope.

(5) Personal protective equipment when working on, under or in the near vicinity of helicopters:

(a) Personal protective equipment for employees must consist of complete eye protection and hard hats secured by chinstraps.

(b) Loose-fitting clothing likely to flap in the downwash must not be worn.

ADMINISTRATIVE RULES

(6) Loose gear and objects. Every practical precaution must be taken to provide for the protection of the employees from flying objects in the rotor downwash. All loose gear within 100 feet of the place of lifting the load, depositing the load, and all other areas susceptible to rotor downwash must be secured or removed.

(7) Landing Zones.

(a) When establishing the landing zone, the following items must be considered: size and type of helicopter, suitability of the planned activity, physical barriers or obstructions, helicopter touchdown area and congestion in the area.

(b) All helicopter landing, loading and unloading areas must be maintained to reduce the likelihood of flying materials, tripping, or other hazards attendant to the work being performed.

(8) Pilot's responsibility.

(a) The helicopter pilot is responsible for the size, weight and manner in which loads are connected to the helicopter.

(b) No load can be made if the helicopter pilot believes the lift cannot safely be performed. The employer must make certain that the pilot of the helicopter is able to freely exercise their prerogative and judgment as to safe operation of the helicopter itself concerning size, weight and manner by which loads are connected.

(c) The pilot must possess the appropriate ratings for the aircraft and must be competent to safely conduct the assigned tasks. The pilot has the final authority and is solely responsible for the safe operation of the helicopter loads at all times.

(9) Hooking and unhooking loads.

(a) Work performed at an elevated position and directly under hovering helicopters may be performed only by qualified employees.

(A) Work must be limited to the minimum time necessary to guide, secure, hook or unhook the loads.

(B) When an employee is working from the ground under hovering helicopters, the employee must have a safe means of ingress and egress at all times, including readily available escape route or routes in the event of an emergency.

(b) Positive guide systems must be used for the placement of large segments of a primary tower structure and must enable the heavy lift helicopter to temporarily secure and release the load.

(10) Static charge. All loads must be grounded or bonded with a device capable of discharging either the actual or potential static charge before ground personnel either touch or come close enough to touch the suspended load.

(11) Line Stringing.

(a) Weight of the external load must not exceed the manufacturer's load limit.

(b) Each helicopter operator engaged in line stringing must be authorized by the Federal Aviation Administration (FAA) for Part 133 Class C operations.

(c) All line stringing operations must be conducted according to the following requirements:

(A) Stringing tension method must enable a consistent positive control of the cable, rope, or similar lines at all times during pulling operations.

(B) During all pulling operations, the helicopter pilot must maintain an aircraft orientation that allows the pilot to maintain constant visibility in both directions on line.

(C) When pulling from the aircraft belly hook attachment point, a ballast weight of a minimum of 300 pounds must be used. At no time during the pulling operation can the load line that is attached to the helicopter's belly hook attachment point exceed a 30 degree angle from vertical. This does not apply when pulling from the helicopter's approved side pull attachment point.

(12) Visibility. Employees must keep clear of and outside the downwash of the helicopter except as necessary to perform a permitted activity.

(13) Communication.

(a) Communication must be maintained between the air crew and ground personnel at all times by a designated and qualified signal person. There must be a constant, open line of communication, using radios or head and hand signals.

(b) Signal systems must be understood by the air crew and the ground crew, including signal persons, prior to the hoisting of any load.

(c) Signaling and maintaining communications with the pilot are the sole and exclusive function of the signal person during periods of loading and unloading. The signal person must be distinguishable from other members of the ground crew by the pilot of the aircraft. This may be by way of orange-colored gloves, vest, or other apparel.

(d) The lead worker and one top person must also have an operating transmitter and receiver.

(e) Authorized and qualified employees may come within 50 feet of the helicopter when the rotor blades are turning, but no closer, other than to enter the craft or to hook or unhook the load or do other essential functions. Other employees may not come closer than 100 feet of the aircraft when it is operating.

(f) The signals between the signal person and the operator of the helicopter must be those submitted to the Federal Aviation Administration for the particular procedure or job. In the event no signals have been submitted to the Federal Aviation Administration, a system of signaling must be used that has been documented and that is capable of being clearly understood by all employees and others involved in the job. When head signals are to be used, the qualified worker must use a visually enhanced hard hat or helmet with clear markings to indicate the desired movement. Any signals other than up/down or in/out will require the use of hand signals.

(g) Should a change occur in the hazards, method of performing the job, signals to be used, or other operating conditions during the course of any particular job, a conference must immediately be held at which time all affected employees and others, including signal persons, ground personnel, and pilots, will be advised of such hazards or change of operation. No employee is permitted to work unless such employee and others fully understand the changes that have taken place.

(14) Helicopter Operation.

(a) Whenever approaching or leaving a helicopter with blades rotating, all employees must remain in full view of the pilot and remain in a crouched position while within 50 feet of the helicopter. No employee can approach the rear of the helicopter unless directly authorized and directed by the pilot of such craft. All employees when operating or working within 50 feet of the helicopter with blades turning are subject to the direction of the helicopter pilot.

(b) All materials and equipment loaded in the aircraft must be properly secured for flight.

(c) Long objects, such as shovels and live-line tools, must be carried horizontally and below the waist to avoid contact with the aircraft rotor blades.

(d) The pilot must ensure that all loads are safely secured to the helicopter, or in cargo baskets, and properly loaded with regard to weight and balance.

(e) Never throw anything while loading and unloading the helicopter. Thrown items may come in contact with the aircraft rotor blade, causing damage to the aircraft and possible injury to ground personnel.

(f) While in the helicopter, safety belts must remain fastened at all times except when pilot instructs otherwise or while entering or leaving the helicopter.

(g) Smoking in the helicopter is prohibited at all times.

(15) Helicopter Work Tasks.

(A) Human External Cargo (HEC)

(A) The sling or vertical suspension system for HEC is a vertical system suspended from the helicopter cargo hook. The sling system must comply with FAA regulation 14 CFR Part 133 Class B or D – External Load.

(B) Helicopter operations involving HEC must incorporate the use of a secondary safety device, in addition to the helicopter's primary attachment means, to prevent the inadvertent release of the load. This device must remain able to be jettisoned in accordance with class B load requirements.

(i) HEC lines must be not less than 10:1 safety ratio between the rated breaking strength and the working load.

(ii) All harnesses used for helicopter short-haul operations must meet the ANSI Z359.1-2007 standards for class III (full body) harnesses and must be equipped with both dorsal and sternal D rings.

(iii) All suspension harnesses used for HEC must be adjusted to the user, and the harness must be equipped with an orthostatic shock relief device. Such devices must be used on flights lasting over five minutes.

(b) Hover Transfer.

(A) The qualified line worker must be attached to the helicopter at all times when traveling between the ground and the aerial transfer point or worksite. There must be an FAA approved attachment point on the helicopter for the lineman's safety harness lanyard.

(B) If a platform system is used to transport crews, or if a crewmember performs work from a platform system, the platform system and all aircraft attachment points must comply with applicable FAA regulations and requirements.

(C) All platform operations must be conducted in accordance with the 14 CFR Part 133 Class A - External Load.

ADMINISTRATIVE RULES

(D) Flight and hovering capabilities of the helicopter must not be adversely affected by the design of the platform.

(E) The platform may not adversely affect the auto rotation and emergency capabilities of the helicopter.

(F) The platform and loads may affect the lateral & longitudinal center of gravity weight and balance of the helicopter in flight, therefore an engineered counter-balance system which will ensure stability must be used if the platform exceeds the lateral center of gravity limits of the manufacturer specifications for the helicopter.

(16) Fires. Open fires are not permitted in any area where fires will be affected by the downwash of the rotors, nor can any employee smoke in an area subject to the downdraft of the rotor.

(17) Refueling operations.

(a) Refueling any helicopter with either aviation gasoline or Jet B (Turbine) type fuel is prohibited while the engines are running.

(b) Fueling of helicopters using Jet A (Turbine-Kerosene) type fuel is allowed with engines running.

(c) All helicopter fueling must comply with the following:

(A) No unauthorized people are allowed within fifty feet of the refueling operation or fueling equipment.

(B) Fire extinguishers must be available and must be in compliance with FAA regulations.

(C) All fueling personnel must be thoroughly trained in the refueling operation and in the use of the available fire extinguishing equipment they may be expected to use.

(D) There must be no smoking, open flames, exposed flame heaters, flare pots, or open flame lights within fifty feet of the refueling area or fueling equipment. The refueling area or the fuel truck must be posted with "no smoking" signs.

(E) Prior to making any fueling connection to the aircraft, the fueling equipment must be bonded to the aircraft by use of a cable, thus providing a conductive path to equalize the potential between the fueling equipment and the aircraft. The bond must be maintained until fueling connections have been removed, thus allowing separated charges that could be generated during the fueling operation to reunite. Grounding during aircraft fueling is not permitted.

(F) To control spills, fuel must be pumped either by hand or power. Pouring or gravity flow is not permitted. Self-closing nozzles or deadman controls must be used and may not be blocked open. Nozzles may not be dragged along the ground.

(G) In case of a spill, the fueling operation must be immediately stopped until such time as the person in charge determines that it is safe to resume the refueling operation.

Note to the definition of "enclosed space": Oregon OSHA does not consider spaces that are enclosed but not designed for employee entry under normal operating conditions to be enclosed spaces for the purposes of this section. Similarly, Oregon OSHA does not consider spaces that are enclosed and that are expected to contain a hazardous atmosphere to be enclosed spaces for the purposes of this Subdivision. Such spaces meet the definition of permit spaces in 1910.146, and entry into them must conform to that standard.

(29) Energized (alive, live). Electrically connected to a source of potential difference, or electrically charged so as to have a potential significantly different from that of earth in the vicinity.

(30) Energy isolating device. A physical device that prevents the transmission or release of energy, including, but not limited to, the following: a manually operated electric circuit breaker, a disconnect switch, a manually operated switch, a slide gate, a slip blind, a line valve, blocks, and any similar device with a visible indication of the position of the device. (Push buttons, selector switches, and other control-circuit-type devices are not energy isolating devices.)

(31) Energy source. Any electrical, mechanical, hydraulic, pneumatic, chemical, nuclear, thermal, or other energy source that could cause injury to employees.

ADMINISTRATIVE RULES

Note to the definition of "guarded": Wires that are insulated, but not otherwise protected, are not guarded.

(40) Hazardous atmosphere. An atmosphere that may expose employees to the risk of death, incapacitation, impairment of ability to self-rescue (that is, escape unaided from an enclosed space), injury, or acute illness from one or more of the following causes:

(a) Flammable gas, vapor, or mist in excess of 10 percent of its lower flammable limit (LFL);

(b) Airborne combustible dust at a concentration that meets or exceeds its LFL;

Note to the definition of "hazardous atmosphere" (4): An atmospheric concentration of any substance that is not capable of causing death, incapacitation, impairment of ability to self-rescue, injury, or acute illness due to its health effects is not covered by this provision.

(e) Any other atmospheric condition that is immediately dangerous to life or health.

Note to the definition of "hazardous atmosphere" (5): For air contaminants for which Oregon OSHA has not determined a dose or permissible exposure limit, other sources of information, such as Safety Data Sheets that comply with the Hazard Communication Standard, 1910.1200 of Division 2, and 1926.1200 of Division 3, published information, and internal documents can provide guidance in establishing acceptable atmospheric conditions.

(42) High-voltage tests. Tests in which the employer uses voltages of approximately 1,000 volts as a practical minimum and in which the voltage source has sufficient energy to cause injury.

(43) High wind. A wind of such velocity that one or more of the following hazards would be present:

(a) The wind could blow an employee from an elevated location,

(b) The wind could cause an employee or equipment handling material to lose control of the material, or

(c) The wind would expose an employee to other hazards not controlled by the standard involved.

Note to the definition of "high wind": Oregon OSHA normally considers winds exceeding 64.4 kilometers per hour (40 miles per hour), or 48.3 kilometers per hour (30 miles per hour) if the work involves material handling, as meeting this criteria, unless the employer takes precautions to protect employees from the hazardous effects of the wind.

(44) Host employer. An employer that operates, or that controls the operating procedures for, an electric power generation, transmission, or dis-

tribution installation on which a contract employer is performing work covered by this section.

Note to the definition of "host employer": Oregon OSHA will treat the electric utility or the owner of the installation as the host employer if it operates or controls operating procedures for the installation. If the electric utility or installation owner neither operates nor controls operating procedures for the installation, Oregon OSHA will treat the employer that the utility or owner has contracted with to operate or control the operating procedures for the installation as the host employer. In no case will there be more than one host employer.

(45) Immediately dangerous to life or health (IDLH). Any condition that poses an immediate or delayed threat to life or that would cause irreversible adverse health effects or that would interfere with an individual's ability to escape unaided from a permit space.

Note to the definition of "immediately dangerous to life or health": Some materials-hydrogen fluoride gas and cadmium vapor, for example-may produce immediate transient effects that, even if severe, may pass without medical attention, but are followed by sudden, possibly fatal collapse 12-72 hours after exposure. The victim "feels normal" from recovery from transient effects until collapse. Such materials in hazardous quantities are considered to be "immediately" dangerous to life or health.

(46) Insulated. Separated from other conducting surfaces by a dielectric (including air space) offering a high resistance to the passage of current.

Note to the definition of "insulated": When any object is said to be insulated, it is understood to be insulated for the conditions to which it normally is subjected. Otherwise, it is, for the purpose of this section, uninsulated.

(47) Insulation (cable). Material relied upon to insulate the conductor from other conductors or conducting parts or from ground.

(48) Isolated. Not readily accessible to persons unless special means for access are used.

(49) Line-clearance tree trimmer. An employee who, through related training or on-the-job experience or both, is familiar with the special techniques and hazards involved in line-clearance tree trimming.

Note 1 to the definition of "line-clearance tree trimmer": An employee who is regularly assigned to a line-clearance tree-trimming crew and who is undergoing on-the-job training and who, in the course of such training, has demonstrated an ability to perform duties safely at his or her level of training and who is under the direct supervision of a line-clearance tree trimmer is considered to be a line-clearance tree trimmer for the performance of those duties.

Note 2 to the definition of "line-clearance tree trimmer": A line-clearance tree trimmer is not considered to be a "qualified employee" under Subdivision RR unless he or she has the training required for a qualified employee under 437-002-2300(2)(b), General: Training, of Subdivision RR. However, under the electrical safety-related work practices standard in Division 2/S, a line-clearance tree trimmer is considered to be a "qualified employee". Tree trimming performed by such "qualified employees" is not subject to the electrical safety-related work practice requirements contained in 1910.331 through 1910.335 of Division 2/S when it is directly associated with electric power generation, transmission, or distribution lines or equipment. (See 1910.331 for requirements on the applicability of the electrical safety-related work practice requirements contained in 1910.331 through 1910.335 to line-clearance tree trimming performed by such "qualified employees," and see the note following 1910.332(b)(3) of Division 2/S for information regarding the training an employee must have to be considered a qualified employee under 1910.331 through 1910.335 of Division 2/S.)

(50) Line-clearance tree trimming. The pruning, trimming, repairing, maintaining, removing, or clearing of trees, or the cutting of brush, that is within the following distance of electric supply lines and equipment:

(a) For voltages to ground of 50 kilovolts or less-3.05 meters (10 feet);

(b) For voltages to ground of more than 50 kilovolts-3.05 meters (10 feet) plus 0.10 meters (4 inches) for every 10 kilovolts over 50 kilovolts.

Note to the definition of "line-clearance tree trimming": This section applies only to line-clearance tree trimming performed for the purpose of clearing space around electric power generation, transmission, or distribution lines or equipment and on behalf of an organization that operates, or that controls the operating procedures for, those lines or equipment. See paragraph (1) of 437-002-2300. Tree trimming performed on behalf of a homeowner or commercial entity other than an organization that operates, or that controls the operating procedures for, electric power generation, transmission, or distribution lines or equipment is not directly associated with an electric power generation, transmission, or distribution installation and is outside the scope of this section. In addition, tree trimming that is not for the purpose of clearing space around electric power generation, transmission, or distribution lines or equipment is not directly associated with an electric power generation, transmission, or distribution installation and is outside the scope of this section. Such tree trimming may be covered by other applicable standards. See, for example, 437-002-0268 and 1910.331 through 1910.335 of Division 2.

(51) Lines.

(a) Communication lines. The conductors and their supporting or containing structures which are used for public or private signal or communication service, and which operate at potentials not exceeding 400 volts to ground or 750 volts between any two points of the circuit, and the transmitted power of which does not exceed 150 watts. If the lines are operating at less than 150 volts, no limit is placed on the transmitted power of the sys-

ADMINISTRATIVE RULES

tem. Under certain conditions, communication cables may include communication circuits exceeding these limitations where such circuits are also used to supply power solely to communication equipment.

Note to the definition of "communication lines": Telephone, telegraph, railroad signal, data, clock, fire, police alarm, cable television, and other systems conforming to this definition are included. Lines used for signaling purposes, but not included under this definition, are considered as electric supply lines of the same voltage.

(b) Electric supply lines. Conductors used to transmit electric energy and their necessary supporting or containing structures. Signal lines of more than 400 volts are always supply lines within this section, and those of less than 400 volts are considered as supply lines, if so run and operated throughout.

(52) Manhole. A subsurface enclosure that personnel may enter and that is used for installing, operating, and maintaining submersible equipment or cable.

(53) Minimum approach distance. The closest distance an employee may approach an energized or a grounded object.

Note to the definition of "minimum approach distance": 437-002-2311

(3)(a). Working on or near exposed energized parts, requires employers to establish minimum approach distances.

(54) Personal fall arrest system. A system used to arrest an employee in a fall from a working level.

(55) Power-line Carrier (PLC). An electric power transmission and distribution conductor that simultaneously carries data, such as internet broadband. Also known as power-line networking (PLN) or power-line communication.

(56) Qualified employee (qualified person). An employee (person) knowledgeable in the construction and operation of the electric power generation, transmission, and distribution equipment involved, along with the associated hazards.

Note 1 to the definition of "qualified employee (qualified person)": An employee must have the training required by 437-002-2300(2)(b) General, Training; to be a qualified employee.

Note 2 to the definition of "qualified employee (qualified person)": an employee who is undergoing on-the-job training and who has demonstrated, in the course of such training, an ability to perform duties safely at his or her level of training and who is under the direct supervision of a qualified person is a qualified person for the performance of those duties.

(57) Statistical sparkover voltage. A transient overvoltage level that produces a 97.72-percent probability of sparkover (that is, two standard deviations above the voltage at which there is a 50-percent probability of sparkover).

(58) Statistical withstand voltage. A transient overvoltage level that produces a 0.14-percent probability of sparkover (that is, three standard deviations below the voltage at which there is a 50-percent probability of sparkover).

(59) Switch. A device for opening and closing or for changing the connection of a circuit. In this section, a switch is manually operable, unless otherwise stated.

(60) System operator. A qualified person who has been designated by the employer to have authority over switching, clearances, and operation of the system and its parts.

(63) Voltage. The effective (root mean square, or rms) potential difference between any two conductors or between a conductor and ground. This section expresses voltages in nominal values, unless otherwise indicated. The nominal voltage of a system or circuit is the value assigned to a system or circuit of a given voltage class for the purpose of convenient designation. The operating voltage of the system may vary above or below this value.

(64) Voltage (low). Voltage of 600 volts or less.

(65) Voltage (high). Voltage greater than 600 volts.

(66) Work-positioning equipment. A body belt or body harness system rigged to allow an employee to be supported on an elevated vertical surface, such as a utility pole or tower leg, and work with both hands free while leaning.

Filed with Sec. of State: 10-12-2015

Certified to be Effective: 11-17-15

Notice Publication Date: 9-1-2015

Rules Amended: 436-030-0005, 436-030-0015, 436-030-0020, 436-030-0023, 436-030-0115, 436-030-0125, 436-030-0135, 436-030-0145, 436-030-0165

Subject: In general, these rules:

- Adopt May 21, 2015, temporary rules permanently;
- Implement Enrolled Senate Bill 371 regarding the right of a worker's beneficiary to request reconsideration of a Notice of Closure;
- Modify rules to be consistent with Sather v. SAIF, 357 Or 122 (2015), regarding the worker's estate's right to request reconsideration and Liberty Northwest Ins. Corp. v. Olvera-Chavez, 267 Or App 55 (2014), regarding claim closure after training; and
- Make minor housekeeping changes.

Specifically, these rules:

- Redefine "Notice of Closure" from a "notice to the worker" to a "notice to the worker, estate, or beneficiary";
- Modify the information that must be included in the Updated Notice of Acceptance at Closure consistent with statutory language;
- Modify the requirements for the Updated Notice of Acceptance and Closure issued in an instant fatality to (1) remove the requirement to include names of all known beneficiaries and instead require a statement that beneficiaries may be entitled to benefits, and (2) include in required language the right of a beneficiary to request reconsideration of the Notice of Closure;
- Modify and clarify the requirements for claim closure after an authorized training program following the Court of Appeals opinion in Liberty Northwest Ins. Corp. v. Olvera-Chavez, 267 Or App 55 (2014);
- Provide that a Notice of Closure is effective the date it is mailed to the worker or the worker's estate if the worker is deceased;
- Require the Notice of Closure to include appeal rights of beneficiaries;
- Provide to whom and how the Notice of Closure should be mailed if the worker is deceased;
- Provide for the possibility that a request for reconsideration may be filed by the worker, the worker's estate, or a beneficiary of the worker, and require the request to include the identity and name of the requester and the requester's attorney, if any, and contact information;
- Require insurers and self-insured employers to pay costs for necessary interpreter services to prepare a deposition that is submitted to the reconsideration record;
- Require the insurer to distribute a copy of the record to be used for the reconsideration proceeding to the beneficiary or the beneficiary's attorney, or the estate or the estate's attorney, if the request for reconsideration was filed by the beneficiary or estate;

ADMINISTRATIVE RULES

- Specify that a request for reconsideration must be mailed by a beneficiary within 60 days of the mailing date of the Notice of Closure if the Notice was mailed to the beneficiary, or within one year of the date the Notice of Closure was mailed to the estate of the worker if the Notice of Closure was not mailed to the beneficiary; and
- Update cross-references to the rules that apply to billing and payment of costs related to arbiter exams.

Definitions

Except where the context requires otherwise, the construction of these rules is governed by the definitions given in the Workers' Compensation Law and as follows:

(1) "Authorized Nurse Practitioner" means a nurse practitioner authorized to provide compensable medical services under ORS 656.245 and OAR 436-010.

(2) "Day" means calendar day unless otherwise specified (e.g., "working day").

(3) "Direct medical sequela" means a condition that is clearly established medically and originates or stems from an accepted condition. For example: The accepted condition is low back strain with herniated disc at L4-5. The worker develops permanent weakness in the leg and foot due to the accepted condition. The weakness is considered a "direct medical sequela."

(4) "Director" means the director of the Department of Consumer and Business Services, or the director's delegate for the matter.

(5) "Division" means the Workers' Compensation Division of the Department of Consumer and Business Services.

(6) "Instant Fatality" means a compensable claim for death benefits where the worker dies within 24 hours of the injury.

(7) "Insurer" means the State Accident Insurance Fund, an insurer authorized under ORS Chapter 731 to transact workers' compensation insurance in Oregon, a self-insured employer, or a self-insured employer group.

(8) "Mailed or Mailing Date," for the purposes of determining timeliness under these rules, means the date a document is postmarked. Requests submitted by electronic transmission (by facsimile or "fax") will be considered mailed as of the date printed on the banner automatically produced by the transmitting fax machine. Hand-delivered requests will be considered mailed as of the date stamped or punched in by the Workers' Compensation Division. Phone or in-person requests, where allowed under these rules, will be considered mailed as of the date of the request.

(9) "Notice of Closure" means a notice to the worker, estate, or beneficiary issued by the insurer to:

(a) Close an accepted disabling claim, including fatal claims;

(b) Correct, rescind, or rescind and reissue a Notice of Closure previously issued; or

(c) Reduce permanent total disability to permanent partial disability.

(10) "Reconsideration" means review by the director of an insurer's Notice of Closure.

(11) "Statutory closure date" means the date the claim satisfies the criteria for closure under ORS 656.268(1)(b) and (c).

(12) "Statutory appeal period" means the time frame for appealing a Notice of Closure or Order on Reconsideration.

(13) "Work disability," for purposes of determining permanent disability, means the separate factoring of impairment as modified by age, education, and adaptability to perform the job at which the worker was injured.

(14) "Worksheet" means a summary of facts used to derive the awards stated in the Notice of Closure.

Insurer Responsibility

(1) When an insurer issues a Notice of Closure (Form 1644, 1644c, 1644r), the insurer is responsible for:

(a) Providing the director, the parties, and the worker's attorney if the worker is represented, a copy of the Notice of Closure, a copy of the worksheet (Form 2807) upon which the Notice is based, a completed "Insurer Notice of Closure Summary" (Form 1503) and an Updated Notice of Acceptance at Closure that specifies which conditions are compensable, as prescribed in OAR 436-030-0020;

(b) Maintaining a copy of the worksheet and records upon which the Notice of Closure is based in its claim file for audit purposes under OAR 436-050; and

(c) Issuing the Updated Notice of Acceptance at Closure on the same date as the Notice of Closure.

(A) The Updated Notice of Acceptance at Closure must contain the following title, information, and language:

(i) Title: "Updated Notice of Acceptance at Closure";

(ii) Information: A list of all compensable conditions, even if a condition was denied, ordered accepted by litigation, and is under appeal. Any conditions under appeal and those which were the basis for this claim opening must be specifically identified;

(iii) Language, in bold print:

"Notice to Worker: This notice restates and includes all prior acceptances. The conditions that were the basis of this claim opening were the only conditions considered at the time of claim closure. The insurer or self-insured employer is not required to pay any disability compensation for any condition specifically identified as under appeal, unless and until the condition is found to be compensable after all litigation is complete. Appeal of any denied conditions or objections to this notice will not delay claim closure. Any condition found compensable after the Notice of Closure is issued will require the insurer to reopen the claim for processing of that condition. If you believe a condition has been incorrectly omitted from this notice, or this notice is otherwise deficient, you must communicate the specific objection to the insurer in writing."

(B) In the case of an instant fatality, the Updated Notice of Acceptance may be combined with the Notice of Closure if the following is included:

(i) Title: "Updated Notice of Acceptance and Closure";

(ii) Information: A statement that beneficiaries may be entitled to death benefits under ORS 656.204 and 656.208, and the medically stationary date.

(iii) Language, in bold print:

"Notice to Worker's Beneficiary or Estate: This notice restates any prior acceptances. The insurer is required to determine the appropriate benefits to be paid to any beneficiaries and begin those payments within 30 days of the mailing date of this notice.

If you disagree with the notice of acceptance, you may appeal the decision to the Workers' Compensation Board, (insert current address for Workers' Compensation Board) within 30 days of the mailing date.

A beneficiary who was mailed this notice may request reconsideration of the notice by the Workers' Compensation Division, Appellate Review Unit, (insert current address for Workers' Compensation Division) within 60 days of the mailing date of this notice.

Beneficiaries who were not mailed a copy of this notice may request reconsideration of this notice within one year of the date this notice was mailed to the estate of the worker.

If you have questions about this notice, you may contact the Ombudsman for Injured Workers, the Workers' Compensation Division, or consult with an attorney."

(C) If the "Initial Notice of Acceptance" is issued at the same time as the "Updated Notice of Acceptance at Closure," both titles must appear near the top of the document.

(D) When an omission or error requires a corrected Updated Notice of Acceptance at Closure, the word "CORRECTED" must appear in capital letters adjacent to the word "Updated".

(2) The insurer or self-insured employer is not required to pay any disability compensation for any condition under appeal and specifically identified as such, unless and until the condition is found to be compensable after all litigation is complete.

(3) Copies of Notices of Refusal to Close must be mailed to the director and the parties, and to the worker's attorney, if the worker is represented.

(4) In claims with a date of injury on or after January 1, 2005, where the worker has not returned to regular work and ORS 656.726(4)(f) does not apply, or in claims with a date of injury on or after January 1, 2006, when the worker has not been released to regular work and ORS 656.726(4)(f) does not apply, the insurer must consider:

(a) The worker's age at the time the notice is issued;

(b) Adaptability to return to employment;

(c) The worker's level of education; and

(d) The worker's work history, including an accurate description of the physical requirements of the worker's job held at the time of injury, for the period from five years before the date of injury to the mailing date of the notice of closure with dates or period of time spent at each position, tasks performed or level of specific vocational preparation (SVP), and physical requirements. If the insurer cannot obtain five years of work his-

ADMINISTRATIVE RULES

tory despite all reasonable efforts, the insurer must document its efforts and provide as much work history as it can obtain.

(5) In claims where the date of injury is before January 1, 2005, the worker has not returned or been released to regular work, ORS 656.726(4)(f) does not apply, and the claim involves injury to, or disease of, unscheduled body parts, areas, or systems, the insurer must consider:

- (a) The worker's age at time the notice is issued;
- (b) Adaptability to return to employment;
- (c) The worker's level of education; and
- (d) The worker's work history, including an accurate description of the physical requirements of the worker's job held at the time of injury, for the period from five years before the date of injury to the mailing date of the notice of closure with dates or period of time spent at each position, tasks performed or level of specific vocational preparation (SVP), and physical requirements.

(6) The insurer must consider any other records or information pertinent to claim determination prior to issuing a notice of closure.

(7) The insurer must notify the worker and the worker's attorney, if the worker is represented, in writing, when the insurer receives information that the worker's claim qualifies for closure under these rules.

(a) The insurer must send the written notice within three working days from the date the insurer receives the information, unless the claim has already been closed.

(b) The notice must advise the worker of his or her impending claim closure and that any time loss disability payments will end soon.

(8) The insurer must, within 14 days of closing the claim, provide the worker's attorney the same documents relied upon for claim closure.

(9) The insurer must not issue a Notice of Closure on an accepted nondisabling claim. Notices of Closure issued by the insurer in violation of this rule are void and without legal effect. Medically stationary status in nondisabling claims may be documented by the attending physician's statement of medically stationary status.

(10) When a condition is accepted after a closure and the claim has been reopened under ORS 656.262, the insurer must issue a Notice of Closure, considering only the newly accepted condition.

(11) Denials issued under ORS 656.262(7)(b), must clearly identify the phrase "major contributing cause" in the text of the denial.

(12) When a claim is closed where a designation of paying agent order (ORS 656.307) has been issued and the responsibility issue is not final by operation of law, the insurer processing the claim at the time of closure must send copies of the closure notice to the worker, the worker's attorney if the worker is represented, the director, and all parties involved in the responsibility issue.

Requirements for Claim Closure

(1) Issuance of a Notice of Closure. Unless the worker is enrolled and actively engaged in training, the insurer must issue a Notice of Closure on an accepted disabling claim within 14 days when:

(a) Medical information establishes that there is sufficient information to determine the extent of permanent disability and indicates that the worker is medically stationary;

(b) The compensable injury is no longer the major contributing cause of the worker's combined or consequential condition(s), a major contributing cause denial has been issued, and there is sufficient information to determine the extent of permanent disability;

(c) The worker fails to seek medical treatment for 30 days for reasons within the worker's control and the worker has been notified of pending actions in accordance with these rules;

(d) The worker fails to attend a mandatory closing examination for reasons within the worker's control and the worker has been notified of pending actions in accordance with these rules; or

(e) A worker receiving permanent total disability benefits has materially improved and is capable of regularly performing work at a gainful and suitable occupation.

(2) Sufficient Information. For purposes of determining the extent of permanent disability, except as provided in section (14) of this rule for closure after training, "sufficient information" requires: a qualifying statement of no permanent disability under subsection (a) of this section or a qualifying closing report under subsection (b) of this section. Additional docu-

mentation is required under subsection (c) of this section unless there is clear and convincing evidence that an attending physician or authorized nurse practitioner has released the worker to the job held at the time of injury or that the worker has returned to the job held at the time of injury.

(a) Qualifying statements of no permanent disability. A statement indicating that there is no permanent disability is sufficient if it meets all of the following requirements:

(A) Qualified providers. An authorized nurse practitioner or attending physician must provide or concur with the statement.

(B) Support by the medical record. The statement must be supported by the medical record. If the medical record reveals otherwise, a closing examination and report specified under subsection (b) of this section are required.

(C) In initial injury claims. In an initial injury claim, the statement must clearly indicate the following:

(i) There is no reasonable expectation of any permanent impairment caused in any part by an accepted condition, a direct medical sequela of an accepted condition, or a condition directly resulting from the work injury; and

(ii) There is no reasonable expectation of any permanent work restriction that:

(I) Prevents the worker from returning to the job held at the time of injury; and

(II) Is caused in any part by an accepted condition, a direct medical sequela of an accepted condition, or a condition directly resulting from the work injury.

(D) In new or omitted condition claims. In a new or omitted condition claim, the statement must clearly indicate the following:

(i) There is no reasonable expectation of any permanent impairment caused in any part by an accepted new or omitted condition or a direct medical sequela of an accepted new or omitted condition; and

(ii) There is no reasonable expectation of any permanent work restriction that:

(I) Prevents the worker from returning to the job held at the time of injury; and

(II) Is caused in any part by an accepted new or omitted condition or a direct medical sequela of an accepted new or omitted condition.

(E) In aggravation claims. In an aggravation claim, the statement must clearly indicate the following:

(i) There is no reasonable expectation of any permanent impairment caused in any part by an accepted worsened condition or a direct medical sequela of an accepted worsened condition; and

(ii) There is no reasonable expectation of any permanent work restriction that:

(I) Prevents the worker from returning to the job held at the time of injury; and

(II) Is caused in any part by an accepted worsened condition or a direct medical sequela of an accepted worsened condition.

(F) In occupational disease claims. In an occupational disease claim, the statement must clearly indicate the following:

(i) There is no reasonable expectation of any permanent impairment caused in any part by an accepted occupational disease or a direct medical sequela of an accepted occupational disease; and

(ii) There is no reasonable expectation of any permanent work restriction that:

(I) Prevents the worker from returning to the job held at the time of injury; and

(II) Is caused in any part by an accepted occupational disease or a direct medical sequela of an accepted occupational disease.

(b) Qualifying closing reports. A closing medical examination and report are required if there is a reasonable expectation of permanent disability. A closing report is sufficient if it meets all of the following requirements:

(A) Qualified providers. A type A attending physician or a chiropractic physician serving as the attending physician must provide or concur with the closing report.

(B) Release to regular work. If the worker has no permanent work restriction, the closing report must include a statement indicating that:

(i) The worker has no permanent work restriction; or

(ii) The worker is released, without restriction, to the job held at the time of injury.

(C) In initial injury claims. In an initial injury claim, the closing report must include detailed documentation of all measurements, findings, and limitations regarding:

ADMINISTRATIVE RULES

(11) An insurer may use electronically produced Notice of Closure forms if consistent with the form and format prescribed by the director.

(12) Insurers may allow adjustments of benefits awarded to the worker under the documentation requirements of OAR 436-060-0170 for the following purposes:

(a) To recover payments for permanent disability which were made prematurely;

(b) To recover overpayments for temporary disability; and

(c) To recover overpayments for other than temporary disability such as prepaid travel expenses where travel was not completed, prescription reimbursements, or other benefits payable under ORS 656.001 to 656.794.

(13) The insurer may allow overpayments made on a claim with the same insurer to be deducted from compensation to which the worker is entitled but has not yet been paid.

(14) Under ORS 656.268(10), if, after claim closure, the worker becomes enrolled and actively engaged in an approved training program under OAR 436-120, the insurer must again close the claim consistent with the following:

(a) The claim must be closed when the worker ceases to be enrolled and actively engaged in the training and:

(A) The worker is medically stationary;

(B) The worker's accepted injury is no longer the major contributing cause of the worker's combined or consequential condition or conditions; or

(C) The claim otherwise qualifies for closure under OAR 436-030-0034.

(b) If the worker is medically stationary, there must be a current (within three months before closure) determination of medically stationary status.

(c) For claims with dates of injury on or after January 1, 2005, permanent disability must be redetermined for work disability only. For claims with dates of injury before January 1, 2005, permanent disability must be redetermined for unscheduled disability only.

(d) Except for claims closed under ORS 656.268(1)(c), the insurer must have sufficient information to redetermine work disability or unscheduled disability. The requirements in section (2) of this rule regarding sufficient information apply only as necessary for the redetermination, as follows:

(A) For claims with dates of injury on or after January 1, 2005, the insurer must have sufficient information to determine work disability under OAR 436-035-0012. An evaluation of the adaptability factor of work disability under OAR 436-035-0012(7) through (13) must be based on a current (within three months before closure) medical determination of the worker's residual functional capacity.

(B) For claims with dates of injury before January 1, 2005, the insurer must have sufficient information to determine unscheduled disability under OAR 436-035-0008(2). An evaluation of unscheduled disability must be based on a current (within three months before closure) medical determination.

(15) When, after a claim is closed, the insurer changes or is ordered to change the worker's weekly wage upon which calculation of the work disability portion of a permanent disability award may be based, the insurer must notify the parties and the division of the change and the effect of the change on any permanent disability award. For purposes of this rule, the insurer must complete Form 1502 consistent with the instructions of the director and distribute it within 14 days of the change.

Correcting and Rescinding Notices of Closure

(1) An insurer may rescind or correct its Notice of Closure prior to the expiration of the appeal period for that Notice and prior to or on the same day that the director receives a request for reconsideration of the Notice of Closure.

(2) The form, format, and completion of the Correcting and Rescinding Notices of Closure are the same as those of the Notice of

Closure except that, to correct a Notice of Closure, a Form 1644c must be used and, to rescind a Notice of Closure, a Form 1644r must be used. An insurer may rescind and reissue a Notice of Closure by using a Form 1644 when such actions can be accomplished at the same time, the claim remains closed, and other provisions of these rules are met.

(3) The "Date of closure (mailing date)" on the Correcting or Rescinding Notice of Closure must be the date the correction or rescission is mailed. The mailing date of the Notice of Closure being rescinded or corrected must be identified within the body of the Correcting or Rescinding Notice of Closure.

(4) The worker's copy of the Correcting and Rescinding Notices of Closure must be mailed by both regular mail and certified mail return receipt requested, consistent with OAR 436-030-0020(8) and (10).

(5) Rescinding Notices of Closure, Form 1644r, are used to rescind the Notice of Closure and return the claim to open status. Examples of appropriate uses of Rescinding Notices of Closure include, but are not limited to:

(a) The worker was not medically stationary at the time the Notice of Closure was issued;

(b) The closure was otherwise premature;

(c) To grant PPD when the Notice of Closure being rescinded granted TTD only.

(6) The Rescinding Notice of Closure must:

(a) Advise the worker that the claim remains open and no aggravation rights end date has been established, if it is rescinding the first closure of the claim;

(b) Initiate an appeal period as provided in OAR 436-030-0145(1) during which any request for reconsideration must be received by the director;

(c) Explain the reason for the action being taken; and

(d) Be distributed and mailed to the parties consistent with these rules.

(7) When a Notice of Closure granting only time loss has been issued, if the insurer determines the worker's medically stationary status is unchanged and the worker is entitled to an award of permanent disability, the insurer must use a Notice of Closure, Form 1644, to rescind and reissue the closure. In such cases, the Notice of Closure must:

(a) Contain all required information consistent with these rules;

(b) Bear the heading "Rescind and Reissue";

(c) Explain the reason the action is being taken;

(d) Identify the permanent disability award being granted consistent with OAR 436-030 and 436-035;

(e) Establish a new appeal period as provided in OAR 436-030-0145(1);

(f) Set a new aggravation rights end date if the Notice of Closure being rescinded is the first closure of the claim; and

(g) Be distributed and mailed to the parties consistent with these rules.

(8) Correcting Notices of Closure, Form 1644c, are used to correct errors or omissions and do not change the closure status or the action taken by the Notice of Closure being corrected. Correcting Notices of Closure must not be used to grant permanent disability in claims where the Notice of Closure being corrected did not include an award of permanent disability. Examples of appropriate uses of Correcting Notices of Closure include, but are not limited to:

(a) Permanent disability award computation errors (dollars, degrees, percentages);

(b) An incorrect "mailing date";

(c) Return-to-work status errors or omissions;

(d) Incorrect or incomplete statement of temporary disability.

(9) A Correcting Notice of Closure must:

(a) Be issued when the director has instructed the insurer to do so because the Notice of Closure did not contain the information required by OAR 436-030-0020(4);

(b) Not be used to add a new condition to the claim closure, rate a new condition not considered in the Notice of Closure being corrected, or rescind a Notice of Closure;

(c) State in the body of the correcting notice only the information being corrected on the Notice of Closure and the basis for the correction;

(d) Not change the appeal period for the Notice of Closure being corrected; and

(e) Initiate a new appeal period as provided in OAR 436-030-0145(1) during which any request for reconsideration must be received, but only for those items being corrected.

Reconsideration of Notices of Closure

(1) A worker, insurer, or beneficiary may request reconsideration of a Notice of Closure as provided in ORS 656.268.

(2) Under ORS 656.218(4), a worker's estate may request reconsideration of a Notice of Closure if the worker dies before filing a request and there are no persons entitled to receive death benefits under ORS 656.204.

(3) A request for reconsideration may be made by mailing, phoning, or delivering the request to the director within the statutory appeal period as defined in OAR 436-030-0005 and 436-030-0145(1). The reconsideration proceeding begins as described in OAR 436-030-0145(2).

(4) For the purpose of these rules, "reconsideration proceeding" means the procedure established to reconsider a Notice of Closure and does not include personal appearances by any of the parties to the claim or their representatives, unless requested by the director. All information to correct or clarify the record and any medical evidence regarding the worker's condition as of the time of claim closure that should have been but was not submitted by the attending physician or authorized nurse practitioner at the time of claim closure and all supporting documentation must be presented during the reconsideration proceeding. When the reconsideration proceeding is postponed because the worker's condition is not medically stationary under OAR 436-030-0165(10), medical evidence submitted may address the worker's condition after claim closure as long as the evidence satisfies the conditions of OAR 436-030-0145(3).

(5) All parties have an opportunity to submit documents to the record regarding the worker's status at the time of claim closure. Other factual information and written argument may be submitted for incorporation into the record under ORS 656.268(6) within the time frames outlined in OAR 436-030-0145. Such information may include, but is not limited to, responses to the documentation and written arguments, written statements, and sworn affidavits from the parties.

(6) The worker may submit a deposition to the reconsideration record subject to ORS 656.268(6) and the following:

(a) The deposition must be limited to the testimony and cross-examination of a worker about the worker's condition at the time of claim closure.

(b) The deposition must be arranged by the worker and held during the reconsideration proceeding time frame unless a good cause reason is established. If a good cause reason is established, the time frame for holding the deposition may be extended but must not extend beyond 30 days from the date of the Order on Reconsideration. The deposition must be held at a time and place that permits the insurer or self-insured employer the opportunity to cross-examine the worker.

(c) The insurer or self-insured employer must, within 30 days of receiving a bill for the deposition, pay the fee of the court reporter, the costs for the original transcript and one copy for each party, and the cost of necessary interpreter services. An original transcript of the deposition must be sent to the department and each party must be sent a copy of the transcript.

(d) If the transcript is not completed and presented to the department prior to the deadline for issuing an Order on Reconsideration, the Order on Reconsideration may not be postponed to receive a deposition under this rule and the order will be issued based on the evidence in the record. However, the transcript may be received as evidence at a hearing for an appeal of the Order on Reconsideration.

(7) Only one reconsideration proceeding may be completed on each Notice of Closure and the director will review those issues raised by the parties and the requirements under ORS 656.268(1). Once the reconsideration proceeding is initiated, issues must be raised and further evidence submitted within the time frames allowed for processing the reconsideration request. When the director requires additional information to complete the record, the reconsideration proceeding may be postponed under ORS 656.268(6).

Reconsideration Procedure

(1) Within 14 days from the date of the director's notice of the start of the reconsideration proceeding, the insurer must provide, in chronological order by document date, all documents pertaining to the claim including, but not limited to, the complete medical record and all official action and notices on the claim, to:

- (a) The director;
- (b) The worker or the worker's attorney;
- (c) The beneficiary or beneficiary's attorney, if the request was made by the beneficiary; and
- (d) The estate or estate's attorney, if the request was made by the worker's estate.

(2) The request for reconsideration and all other information submitted to the director by any party during the reconsideration process must be copied to all interested parties. Failure to comply with this requirement may result in the information not being included as part of the record on reconsideration.

(3) The director may issue an order rescinding a Notice of Closure if any of the following apply:

- (a) The claim was not closed as prescribed by rule.
- (b) In a claim closed under ORS 656.268(1)(a), the worker was not medically stationary at the time of claim closure.
- (c) In a claim closed under ORS 656.268(1)(a) or 656.268(1)(b), the claim was closed without sufficient information to determine the extent of permanent disability under OAR 436-030-0020(2).
- (d) In a claim closed under ORS 656.268(1)(c), the claim was not closed in strict compliance with OAR 436-030-0034.

(4) When a worker has requested and cashed a lump sum payment, under ORS 656.230, of an award granted by a Notice of Closure, the director will not consider the adequacy of that award in a reconsideration proceeding.

(5) When a new condition is accepted after a prior claim closure, and the newly accepted condition is subsequently closed, the director and the parties may mutually agree to consolidate requests for review of the closures into one reconsideration proceeding, provided the director has jurisdiction and neither of the closures have become final by operation of law.

(6) The reconsideration order may affirm, reduce, or increase the compensation awarded by the Notice of Closure.

(7) After the reconsideration order has been issued and before the end of the 30-day appeal period for the order on reconsideration, if a party discovers that additional documents were not provided by the opposing party in accordance with this rule, the Order on Reconsideration may be abated and withdrawn to give the party an opportunity to respond to the new information.

Reconsideration Time Frames and Postponements

(1) When appealing a Notice of Closure for claims that are medically stationary or that statutorily qualified for closure on or after June 7, 1995, a request for reconsideration must be mailed within:

(a) Sixty (60) days of the mailing date of the Notice of Closure for a worker's request.

(b) Seven (7) days of the mailing date of the Notice of Closure for an insurer's request. An insurer's request for reconsideration is limited to the findings used to rate impairment.

(c) Sixty (60) days of the mailing date of the Notice of Closure for a beneficiary's request if the Notice of Closure was mailed to the beneficiary under ORS 656.268(5)(b).

(d) One year of the date the Notice of Closure was mailed to the estate of the worker if the Notice of Closure was not mailed to the beneficiary under ORS 656.268(5)(b).

(2) The reconsideration proceeding begins upon:

(a) The director's receipt of the worker's, estate's, or beneficiary's request for reconsideration, if the insurer has not previously requested reconsideration consistent with subsection (1)(b) of this rule; or

(b) The 61st day after the closure of the claim, if the insurer has requested reconsideration consistent with subsection (1)(b) of this rule, unless the director receives, within the appeal time frames in section (1) of this rule, a request for reconsideration or a statement by the worker, estate, beneficiary, or representative instructing the director to start the reconsideration proceeding.

(3) Fourteen days from the date of the director's notice of the start of the reconsideration proceeding, the reconsideration request and all other appropriate information submitted by the parties will become part of the record used in the reconsideration proceeding. Requests for a medical arbiter panel must be submitted within this time frame.

(a) Evidence received or issues raised subsequent to the 14-day deadline will be considered in the reconsideration proceeding to the extent practicable.

(b) Upon review of the record the director may request, under ORS 656.268(6), any additional information deemed necessary for the reconsideration and set appropriate time frames for response.

(c) Except as provided in sections (4), (5), and (6) of this rule, the director will either mail an Order on Reconsideration within 18 working days from the date the reconsideration proceeding begins or notify the parties that the reconsideration proceeding is postponed for not more than 60 additional days as provided under ORS 656.268(6).

(4) The director may delay the reconsideration proceeding and toll the reconsideration timeline for up to 45 days when both parties provide written notice to the director requesting the delay for settlement negotiations. The notice is only effective if the director receives it before the 18th working day after the reconsideration proceeding begins.

(a) This delay of the reconsideration proceeding expires:

(A) When the director receives a written request from either party to resume the reconsideration proceeding;

(B) When the director receives a copy of the approved settlement resolving some or all of the issues raised at the reconsideration proceeding; or

(C) On the next calendar day following the authorized delay period.

(b) The director may authorize only one delay period for each reconsideration proceeding.

(5) When the director provides notice the worker failed to attend the medical arbiter examination without good cause or failed to cooperate with the arbiter examination and suspends benefits under ORS 656.268(8), the reconsideration proceeding will be postponed for up to 60 additional days from the date the director determines and provides notice, to allow completion of the arbiter process.

(6) The reconsideration proceeding may be stayed for one of the following reasons:

(a) The parties consent to deferring the reconsideration proceeding, under ORS 656.268(8)(i)(B), when the medical arbiter examination is not medically appropriate because the worker's medical condition is not stationary; or

(b) When a claim disposition agreement (CDA) is filed, the reconsideration proceeding is stayed until the CDA is either approved or set aside.

(7) If the director fails to mail an Order on Reconsideration or a Notice of Postponement under the time frames specified in ORS 656.268, the reconsideration request is automatically deemed denied. The parties may immediately thereafter proceed as though the director had issued an Order on Reconsideration affirming the Notice of Closure.

(8) Notwithstanding any other provision regarding the reconsideration proceeding, the director may extend nonstatutory time frames to allow the parties sufficient time to present evidence and address their issues and concerns.

Medical Arbiter Examination Process

(1) The director will select a medical arbiter physician or a panel of physicians in accordance with ORS 656.268(8)(d).

(a) Any party that objects to a physician on the basis that the physician is not qualified under ORS 656.005(12)(b) must notify the director of the specific objection before the examination. If the director determines that the physician is not qualified to be a medical arbiter on the specific case, an examination will be scheduled with a different physician.

(b) When the worker resides outside the state of Oregon, a medical arbiter examination may be scheduled out-of-state with a physician who is licensed within that state to provide medical services in the same manner as required by ORS 656.268(8).

(c) Arbiters or panel members will not include any health care provider whose examination or treatment is the subject of the review.

(d) The insurer must pay all costs related to the completion of the medical arbiter process in this rule.

(2) If the director determines there are enough appropriate physicians available to create a list of possible arbiters and it is practicable, each party will be given the opportunity to agree on a physician and to remove one physician from the list through the process described below:

(a) The director will send the list to the parties electronically or by overnight mail.

(b) If the parties agree on a physician, every party must send a signed, written notice of that choice to the director.

(c) A party can remove a physician from the list, even when the parties have agreed on a physician to conduct the exam, by submitting a signed, written notice of that choice to the director.

(d) To be effective, the written notice of agreement on or rejection of a physician must be received by the director within three working days of the date the director sent the list.

(3) The worker's disability benefits will be suspended when the director determines the worker failed to attend or cooperate with the medical arbiter examination, unless the worker establishes a "good cause" reason for missing the examination or for not cooperating with the arbiter. The worker must call the director within 24 hours of the missed examination to provide any "good cause" reason.

(a) Notice of the examination will be considered adequate notice if the appointment letter is mailed to the last known address of the worker and to the worker's attorney, if the worker is represented.

(b) For the purposes of this rule, non-cooperation includes, but is not limited to, refusal to complete any reasonable action necessary to evaluate the worker's impairment. However, it does not include circumstances such as a worker's inability to carry out any part of the examination due to excessive pain or when the physician reports the findings as medically invalid.

(c) Failure of the worker to respond within the time frames outlined in statute for completion of the reconsideration proceeding may be considered a failure to establish "good cause."

(4) If a worker misses the medical arbiter examination, the director will determine whether or not there was a "good cause" reason for missing the examination.

(5) Upon determination that there was not a "good cause" reason for missing the examination, or that the worker failed to cooperate with the arbiter, the worker's disability benefits will be suspended and the reconsideration proceeding postponed for up to an additional 60 days.

(6) The suspension will be lifted if any of the following occur during the additional 60-day postponement period:

ADMINISTRATIVE RULES

(a) The worker establishes a “good cause” reason for missing or failing to cooperate with the examination;

(b) The worker withdraws the request for reconsideration; or

(c) The worker attends and cooperates with a rescheduled arbiter examination.

(7) If none of the events that end the suspension under section (6) of this rule occur before the expiration of the 60-day additional postponement, the suspension of benefits will remain in effect.

(8) The medical arbiter or panel of medical arbiters must perform a record review or examine the worker as requested by the director and perform such tests as may be reasonable and necessary to establish the worker’s impairment.

(a) The parties must submit to the director any issues they wish the medical arbiter or panel of medical arbiters to address within 14 days of the date of the director’s notice of the start of the reconsideration proceeding. The parties must not submit issues directly to the medical arbiter or panel of medical arbiters. The medical arbiter or panel of medical arbiters will only consider issues appropriate to the reconsideration proceeding.

(b) The report of the medical arbiter or panel of medical arbiters must address all questions raised by the director.

(c) The medical arbiter will provide copies of the arbiter report to the director, the worker or the worker’s attorney, and the insurer within five working days after completion of the arbiter review. The cost of providing copies of such additional reports must be reimbursed according to OAR 436-009-0060 and must be paid by the insurer.

(9) When a worker’s medical condition prevents the worker from fully participating in a medical arbiter examination that must be conducted to determine findings of impairment, the director may send a letter to the parties requesting consent to defer the reconsideration proceeding. The medical condition that prevents the worker from participating in the medical arbiter examination does not need to be related to the work injury.

(a) If the parties agree to the deferral, the reconsideration proceeding will be deferred until the medical record reflects the worker’s condition has stabilized sufficiently to allow for examination to obtain the impairment findings. The parties must notify the director when it is appropriate to schedule the medical arbiter examination and provide the necessary medical records when requested. Interim medical information that may be helpful to the director and the medical arbiter in assessing and describing the worker’s impairment may be submitted at the time the parties notify the director that the medical arbiter examination can be scheduled. The director will determine whether the interim medical information is consistent with the provisions of ORS 656.268(6) and (8).

(b) If deferral is not appropriate, at the director’s discretion either a medical arbiter examination or a medical arbiter record review may be obtained, or the director may issue an Order on Reconsideration based on the record available at claim closure and other evidence submitted in accordance with ORS 656.268(6).

(10) All costs related to record review, examinations, tests, and reports of the medical arbiter must be billed and paid under OAR 436-009-0010, 436-009-0030, 436-009-0040, and 436-009-0060.

(11) When requested by the Hearings Division, the director may schedule a medical arbiter examination for a worker who has appealed a Notice of Closure rescinding permanent total disability benefits under ORS 656.206.

Access to Department of Consumer and Business Services Workers' Compensation Claim File Records

(1) Under ORS 192.430 and OAR 440-005-0015(1) the director, as custodian of public records, promulgates this rule to protect the integrity of claim file records and prevent interference with the regular discharge of the department's duties.

(2) The department rules on Access of Public Records, Fees for Record Search and Copies of Public Records are found in OAR 440-005. Payment of fees for access to records must be made in advance unless the director determines otherwise. Workers and insurers of record, their legal representatives and service companies shall receive a first copy of any document free. Additional copies shall be provided at the rates set forth in OAR 440-005.

(3) Any person has a right to inspect nonexempt public records. The statutory right to "inspect" encompasses a right to examine original records. It does not include a right to request blind searches for records not known to exist. The director will retain or destroy records according to retention schedules published by the Secretary of State, Archives Division.

(4) Under ORS 192.502(20) workers' compensation claims records are exempt from public disclosure. Access to workers' compensation claims records will be granted at the sole discretion of the director in accordance with this rule, under the following circumstances:

(a) When necessary for insurers, self-insured employers and service companies and their legal representatives for the sole purpose of processing workers' compensation claims. The division will accept a request by telephone or facsimile transmission, but such request must include the claimant's social security number and insurer claim number in addition to the information required in section (7).

(b) When necessary for the director, other governmental agencies of this state or the United States to carry out their duties, functions or powers.

(c) When the disclosure is made in such a manner that the disclosed information cannot be used to identify any worker who is the subject of a claim. Such circumstances include when workers' compensation claims file information is required by a public or private research organization in order to contact injured workers in order to conduct its research. The director may enter into such agreements with such institutions or persons as are necessary to secure the confidentiality of the disclosed records.

(d) When a worker or the worker's representative requests review of the workers' claim record.

(5) The director may release workers' compensation claims records to persons other than those described in section (4) when the director determines such release is in the public interest.

(a) For the purpose of these rules, a "public interest" exists when the conditions set forth in ORS 192.502(20) and subsections (4)(a) through (d) of this rule have been met. The determination whether the request to release

workers' compensation claims records meets those conditions shall be at the sole discretion of the director.

(b) The director may enter into written agreements as necessary to ensure that the recipient of workers' compensation claims records under this section uses or provides the information to others only in accordance with these rules and the agreement with the director. The director may terminate such agreements at any time the director determines that one or more of the conditions of the agreement have been violated.

(6) The director may deny or revoke access to workers' compensation claims records at any time the director determines such access is no longer in the public interest or is being used in a manner which violates these rules or any law of the State of Oregon or the United States.

(7) Requests to inspect or obtain copies of workers' compensation claim records must be made in writing or in person and must include:

(a) The name, address and telephone number of the requester;

(b) The reason for requesting the records;

(c) A specific identification of the public record(s) required and the format in which they are required;

(d) The number of copies required;

(e) The account number of the requester, when applicable.

(8) Except as prescribed in subsections (4)(a) through (d), a person must submit to the division an attorney retainer agreement or release signed by the claimant in order to inspect or obtain copies of workers' compensation claims records. The director may refuse to honor any release that the director determines is likely to result in disclosed records being used in a manner contrary to these rules. Upon request, the director will review proposed release forms to determine whether the proposed release is consistent with the law and this rule.

Reporting Requirements

(1) A subject employer must accept notice of a claim for workers' compensation benefits from an injured worker or the worker's representative. The employer must provide a copy of the "Report of Job Injury or Illness," Form 801, to the worker immediately upon request; the form must be readily available for workers to report their injuries. Proper use of this form satisfies ORS 656.265.

(2) A "Worker's and Health Care Provider's Report for Workers' Compensation Claims," Form 827, signed by the worker, is written notice of an accident, that may involve a compensable injury under ORS 656.265. The signed Form 827 shall start the claim process, but shall not relieve the worker or employer of the responsibility of filing a Form 801. If a worker reports a claim electronically the insurer may require the worker to sign a medical release form, so the insurer can obtain medical records under OAR 436-010-0240, necessary to process the claim.

(3) Employers, except self-insured employers, must report the claim to their insurers no later than five days after notice or knowledge of any claim or accident, that may result in a compensable injury. The employer's knowledge date is the earliest of the date the employer (any supervisor or manager) first knew of a claim, or of when the employer has enough facts to reasonably conclude that workers' compensation liability is a possibility. The report must provide the information requested on the Form 801, and include, but not be limited to, the worker's name, address, and Social Security number, the employer's legal name and address, and the data specified by ORS 656.262 and 656.265.

(4) For the purpose of this section, "first aid" means any treatment provided by a person who does not require a license in order to provide the service. If an injured worker requires only first aid, no notice need be given the insurer, unless the worker chooses to file a claim. If a worker signs a Form 801, the claim must be reported to the insurer. If the person must be licensed to legally provide the treatment or if a bill for the service will result, notice must be given to the insurer. When the worker requires only first aid and chooses not to file a claim, the employer must maintain records showing the name of the worker, the date, nature of the injury and first aid provided, for five years. These records shall be open to inspection by the director, or any party or its representative. If an employer subsequently learns that such an injury has resulted in medical services, disability or death, the date of that knowledge will be considered as the date on which the employer received notice or knowledge of the claim for the purposes of processing under ORS 656.262.

ADMINISTRATIVE RULES

(5) The director may assess a civil penalty against an employer delinquent in reporting claims to its insurer in excess of ten percent of the employer's total claims during any quarter.

(6) An employer intentionally or repeatedly paying compensation in lieu of reporting to its insurer claims or accidents that may result in a compensable injury claim may be assessed a civil penalty by the director.

(7) The insurer must process and file claims and reports required by the director in compliance with ORS chapter 656, WCD administrative rules, and WCD bulletins. Such filings shall not be made by computer-printed forms, facsimile transmission (FAX), electronic data interchange (EDI), or other electronic means, unless specifically authorized by the director.

(8) When an insurer receives a claim and the insurer does not provide insurance coverage for the worker's employer on the date of injury, the insurer may check for other coverage or forward it to the director. The insurer must do one or the other within three days of determining they did not provide coverage on the date of injury. If the insurer finds that another insurer provides coverage, the insurer must send the claim to the correct insurer within the same three day period. If the insurer cannot find coverage, the insurer must forward the claim to the director within the same three-day period.

(9) The insurer or self-insured employer and service company, if any, must be identified on all insurer generated workers' compensation forms, including insurer name, service company name (if applicable), and the mailing address and phone number of the location responsible for processing the claim.

(10) The insurer must file all disabling claims with the director within 14 days of the insurer's initial decision either to accept or deny the claim. To meet this filing requirement, the Insurer's Report, Form 1502, accompanied by the Form 801, or its electronic equivalent, is to be submitted to the director. However, when the Form 801 is not available within a time frame that would allow a timely filing, a Form 1502, accompanied by a signed Form 827 when available, will satisfy the initial reporting requirement. If the Form 801 is not submitted at the time of the initial filing of the claim, the Form 801 must be submitted within 30 days from the filing of the Form 1502. A Form 801 prepared by the insurer in place of obtaining the form from the employer/worker does not satisfy the requirement to file the Form 801, unless the employer/worker cannot be located, or the form cannot be obtained from the employer/worker due to lack of cooperation, or the form is computer-printed based upon information obtained from the employer and worker. The insurer must submit copies of all acceptance or denial notices not previously submitted to the director with the Form 1502. Form 1502 is used to report claim status and activity to the director.

(11) When submitting a Form 1502 the minimum data elements an insurer must provide are the worker's legal name, Social Security number, insurer's claim number, date of injury, and the employer's legal name.

(12) When submitting an initial compensability decision Form 1502, the insurer must report:

- (a) The status of the claim;
- (b) Reason for filing;
- (c) Whether first payment of compensation was timely, if applicable;
- (d) Whether the claim was accepted or denied timely; and
- (e) Any Managed Care Organization (MCO) enrollment, and the date of enrollment, if applicable.

(13) The insurer must file an additional Form 1502 with the director within 14 days of:

- (a) The date of any reopening of the claim;
- (b) Changes in the acceptance or disability status;
- (c) Any litigation order or insurer's decision that causes reopening of the claim or changes the acceptance or disability status;
- (d) MCO enrollment that occurs after the initial Form 1502 has been filed;
- (e) The insurer's knowledge that a previous Form 1502 contained erroneous information;
- (f) The date of any denial; or
- (g) The date the first payment of temporary disability was issued.

(14) A nondisabling claim must be reported to the director only if it is denied, in part or whole. It must be reported to the director within 14 days of the date of denial. A nondisabling claim that becomes disabling must be reported to the director within 14 days of the date of the status change.

(15) If the insurer voluntarily reopens a qualified claim under ORS 656.278, it must file a Form 3501 with the director within 14 days of the date the insurer reopens the claim.

(16) The insurer must report a new medical condition reopening on the Form 1502 if the claim cannot be closed within 14 days of the first to

occur: acceptance of the new condition, or the insurer's knowledge that interim temporary disability compensation is due and payable.

(17) New condition claims that are ready to be closed within 14 days must be reported on the "Insurer Notice of Closure Summary," Form 1503, at the time the insurer closes the claim. The "Modified Notice of Acceptance" and "Updated Notice of Acceptance at Closure" letter must accompany the Form 1503.

(18) If, after receiving a claim from a worker or from someone other than the worker on the worker's behalf, the insurer receives written communication from the worker stating the worker never intended to file a claim and wants the claim "withdrawn," the insurer must submit a Form 1502 with a copy of the worker's communication to the director, if the claim had previously been reported.

(19) The director may issue a civil penalty against any insurer delinquent in reporting or in submitting Forms 801, 1502, 1503 or 1644 with a late or error ratio in excess of twenty percent during any quarter. For the purposes of this section, a claim or form shall be deemed to have been reported or submitted timely according to the provisions of ORS 656.726(4).

(20) Insurers must make an annual report to the director reporting attorney fees, attorney salaries, and all other costs of legal services paid under ORS chapter 656. The report must be submitted on forms furnished by the director for that purpose. Reports for each calendar year must be filed not later than March 1 of the following year.

(21) If an insurer elects to process and pay supplemental disability benefits, under ORS 656.210(5)(a), the insurer does not need to inform the director of their election. The insurer must request reimbursement, under OAR 436-060-0500, by filing Form 3504 "Supplemental Disability Benefits Quarterly Reimbursement Request" with the director for any quarter during which they processed and paid supplemental disability benefits. If an insurer elects not to process and pay supplemental disability benefits, the insurer must submit Form 3530, "Supplemental Disability Election Notification," to the director. The election remains in effect for all supplemental disability claims the insurer receives until the insurer changes its election. The election is made by the insurer and applies to all service companies an insurer may use for processing claims.

(22) An insurer may change its election made under section (21):

- (a) Annually and
- (b) Once after the division completes its first audit of supplemental disability payments made by the insurer.

Notices and Correspondence Following the Death of a Worker

(1) If a worker is deceased, regardless of the cause of death, an insurer must:

- (a) Address all future notices and correspondence to the worker's estate or qualified beneficiaries;
- (b) Provide a written notice of acceptance or denial of a claim to the estate of the worker; and
- (c) Issue a Notice of Closure, when applicable, to the estate of the worker. The insurer must mail the worker's copy of the Notice of Closure to the worker's last known address. The insurer may mail copies of the Notice of Closure to any known or potential beneficiaries.

(2) Other notices required under this chapter intended for the worker are not required when the worker is deceased.

Required Notice and Information

(1) When an injured worker's attorney has given written notice of representation, prior or simultaneous written notice must be given to the worker's attorney under ORS 656.331 when:

ADMINISTRATIVE RULES

(a) The director or insurer requests the worker to submit to a medical examination;

(b) The insurer contacts the worker regarding any matter which may result in denial, reduction or termination of the worker's benefits; or

(c) The insurer contacts the worker regarding any matter relating to disposition of a claim under ORS 656.236.

(2) The director shall assess a civil penalty against an insurer who intentionally or repeatedly fails to give notice as required under section (1) of this rule.

(3) The insurer or the service company must provide the pamphlet, "What Happens if I'm Hurt on the Job?," Form 1138, to every injured worker who has a disabling claim with the first time-loss check or earliest written correspondence. For nondisabling claims, the information page, "A Guide for Workers Hurt on the Job," Form 3283, may be provided in lieu of Form 1138, unless the worker specifically requests Form 1138.

(4) The insurer must provide Form 3283 to their insured employers. The employer must provide the Form 3283 to the worker at the time a worker files a claim for workers' compensation benefits. The Form 3283 may be printed on the back of the Form 801.

(5) The insurer must provide the "Notice to Worker," Form 3058, or its equivalent to the worker with the initial notice of acceptance on the claim under OAR 436-060-0140(7). For the purpose of this rule, an equivalent to the Form 3058 must include all of the statutory and rule requirements.

(6) Additional notices the insurer must send to a worker are contained in OAR 436-060-0018, 436-060-0030, 436-060-0035, 436-060-0095, 436-060-0105, 436-060-0135, 436-060-0140, and 436-060-0180.

(7) When an insurer changes claims processing locations, service companies, or self-administration, the insurer must provide at least 10 days prior notice to workers with open or active claims, their attorneys, and attending physicians. The notice must provide the name of a contact person, telephone number, and mailing address of the new claim processor.

(8) The insurer must provide the worker an explanation of any change in the wage used that differs from what was initially reported in writing to the insurer. Prior to claim closure on a disabling claim, the insurer must send the worker a notice documenting the wage upon which benefits were based. Work disability, if applicable, will be determined when the claim is closed. The notice must also explain how the worker can appeal the insurer's wage calculation if the worker disagrees with the wage.

Release of Claim Document

(1) For the purpose of this rule:

(a) "Documents" include, but are not limited to, medical records, vocational records, written and automated payment ledgers for both time loss and medical services, payroll records, recorded statements, insurer generated records (insurer generated records exclude a claim examiner's generated file notes, such as documentation or justification concerning setting or adjusting reserves, claims management strategy, or any privileged communications), all forms required to be filed with the director, notices of closure, electronic transmissions, and correspondence between the insurer, service providers, claimant, the division or the Workers' Compensation Board.

(b) "Possession" means documents making up, or relating to, the insurer's claim record on the date of mailing the documents to the claimant, claimant's attorney or claimant's beneficiary. Any documents that have been received by the insurer five or more working days prior to the date of mailing shall be considered as part of the insurer's claim record even though the documents may not have yet reached the insurer's claim file.

(2) The insurer must date stamp each document upon receipt with the date it is received. The date stamp must include the month, day, year of receipt, and name of the company, unless the document already contains the date information and name of recipient company, as in faxes, e-mail and other electronically transmitted communications.

(3) A request for copies of claim documents must be submitted to the insurer, self-insured employer, or their respective service company, and copied simultaneously to defense counsel, if known.

(4) The insurer must furnish, without cost, legible copies of documents in its possession relating to a claim, upon request of the claimant, claimant's attorney or claimant's beneficiary, at times other than those provided for under ORS 656.268 and OAR chapter 438, as provided in this rule. Except as provided in OAR 436-060-0180, an initial request by anyone other than the claimant or claimant's beneficiary must be accompanied by a worker signed attorney retention agreement or a medical release signed by the worker. The signed medical release must be in a form or format as the director may provide by bulletin. Information not otherwise available through this release, but relevant to the claim, may only be obtained in compliance with applicable state or federal laws. Upon the request of the claimant's attorney, a request for documents shall be considered an ongoing request for future documents received and generated by the insurer for 180 days after the initial mailing date under section (7) or until a hearing is requested before the Workers' Compensation Board. The insurer must provide such new documents to claimant's attorney every 30 days, unless specific documents are requested sooner by the attorney. Such documents must be provided within the time frame of section (7).

(5) Once a hearing is requested before the Workers' Compensation Board, the release of documents is controlled by OAR chapter 438. This rule applies subsequently if the hearing request is withdrawn or when the hearing record is closed, provided a request for documents is renewed.

(6) Upon request, the entire health information record in the possession of the insurer will be provided to the worker or the worker's representative. This includes records from all healthcare providers, except that the following may be withheld:

(a) Information that was obtained from someone other than a health-care provider under a promise of confidentiality and access to the information would likely reveal the source of the information,

(b) Psychotherapy notes,

(c) Information compiled for use in a civil, criminal, or administration action or proceeding; and

(d) Other reasons specified by federal regulation.

(7) The insurer must furnish copies of documents within the following time frames:

(a) The documents of open and closed files, or microfilmed files must be mailed within 14 days of receipt of a request, and copies of documents of archived files within 30 days of receipt of a request.

(b) If a claim is lost or has been destroyed, the insurer must so notify the requester in writing within 14 days of receiving the request for claim documents. The insurer must reconstruct and mail the file within 30 days from the date of the lost or destroyed file notice.

(c) If no documents are in the insurer's possession at the time the request is received, the 14 days within which to provide copies of documents starts when the insurer does receive some documentation on the claim if that occurs within 90 days of receipt of the request.

(d) Documents are deemed mailed when addressed to the last known address of the claimant, claimant's beneficiary, or claimant's attorney and deposited in the U.S. Mail.

(8) The documents must be mailed directly to the claimant's or beneficiary's attorney, when the claimant or beneficiary is represented. If the documents have been requested by the claimant or beneficiary, the insurer must inform the claimant or beneficiary of the mailing of the documents to the attorney. The insurer is not required to furnish copies to both the claimant or beneficiary and the attorney. However, if a claimant or beneficiary changes attorneys, the insurer must furnish the new attorney copies upon request.

(9) The director may assess a civil penalty against an insurer who fails to furnish documents as required under this rule. The matrix attached to these rules in Appendix "A" will be used in assessing penalties.

(10) Rule violation complaints about release of requested claims documents must be in writing, mailed or delivered to the division within 180 days of the request for documents, and must include a copy of the request submitted under section (3). When notified by the director that a complaint has been filed, the insurer must respond in writing to the division. The response must be mailed or delivered to the director within 14 days of the mailing date of the division's inquiry letter. A copy of the response, including any attachments, must be sent simultaneously to the requester of claim documents. If the division does not receive a timely response or the insurer provides an inadequate response (e.g. failing to answer specific questions or provide requested documents), a civil penalty may be assessed under OAR 436-060-0200 against the insurer. Assessment of a penalty does not relieve the insurer of the obligation to provide a response.

436-060-0035

Supplemental Disability for Workers with Multiple Jobs at the Time of Injury

(1) For the purpose of this rule:

(a) "Assigned processing administrator" is the company or business that the director has selected and authorized to process and pay supplemental disability benefits on behalf of the director, when the insurer has elected not to process and pay these benefits.

(b) "Primary job" means the job at which the injury occurred.

(c) "Secondary job" means any other job(s) held by the worker in Oregon subject employment at the time of injury.

(d) "Temporary disability" means wage loss replacement for the primary job.

(e) "Supplemental disability" means wage loss replacement for the secondary job(s) that exceeds the temporary disability, up to, but not exceeding, the maximum established by ORS 656.210.

(f) "Verifiable documentation" means information that provides:

(A) Identification of the Oregon subject employer(s) and the time period that establishes the worker held the secondary job, in addition to the primary job, at the time of injury; and

(B) Adequate information to calculate the average weekly wage in accordance with OAR 436-060-0025.

(g) "Insurer" includes service company.

(2) The insurer shall establish the temporary disability rate by multiplying the weekly wage, determined under OAR 436-060-0025, from the primary employer by 66 2/3% (.6667). If the result meets or exceeds the maximum temporary disability rate, the worker is not eligible for supplemental disability benefits.

(3) Within five business days of receiving notice or knowledge of employment in addition to the primary job on a claim on which the temporary disability rate for the primary job does not meet or exceed the maximum rate, the insurer must:

(a) Send the worker an initial notice informing the worker what type of information the insurer or the assigned processing administrator must receive to determine the worker's eligibility for supplemental disability.

(b) Clearly advise the worker, in the initial notice, that the insurer must receive verifiable documentation within 60 days of the mailing date of the notice or the worker shall be found ineligible for supplemental disability.

(c) Copy the assigned processing administrator, if the insurer has elected not to process and pay supplemental disability benefits. The notice must contain the name, address, and telephone number of the assigned processing administrator, and must clearly advise the worker that the verifiable documentation must be sent to the assigned processing administrator.

(4) The initial notice in section (3) must inform the worker that if the verifiable documentation is not received, the insurer will determine the worker's temporary disability rate based only on the job at which the injury occurred. Any delay in the payment of a higher disability rate because of the worker's failure to provide verifiable documentation under this paragraph will not result in a penalty under ORS 656.262(11).

(5) Within 14 days of receiving the worker's verifiable documentation, the insurer or the assigned processing administrator must determine the worker's eligibility for supplemental disability and must communicate the decision to the worker and the worker's representative, if any, in writing. The letter must also advise the worker why he/she is not eligible when that is the decision and how to appeal the decision, if the worker disagrees with the decision.

(6) A worker is eligible if:

(a) The worker was employed at the secondary job by an Oregon subject employer at the time of the injury,

(b) The worker provides notification of a secondary job to the insurer within 30 days of the insurer's receipt of the initial claim, and

(c) The worker's temporary disability rate from wages at the primary job does not meet or exceed the maximum rate under section (2) of this rule.

(7) The insurer or the assigned processing administrator must calculate supplemental disability for an eligible worker by adding all earnings the worker received from all subject employment, except the assumed wage from secondary employment for Oregon subject volunteers, under ORS 656.210(2)(a)(B). In no case shall an eligible worker receive less compen-

sation than would be paid if based solely on wages from the primary employer.

(8) If the temporary disability rate from the primary employer does not meet or exceed the maximum rate, the insurer or the assigned processing administrator must combine the weekly wages, determined under OAR 436-060-0025, for each employer and multiply by 66 2/3% (.6667) to establish the combined disability rate up to the maximum rate. This is the base amount on which the worker's combined benefits will be calculated.

(9) No three-day waiting period applies to supplemental disability benefits.

(10) The worker's scheduled days off for the job at which the injury occurred shall be used to calculate and pay supplemental disability.

(11) To establish the combined partial disability benefits when the worker has post injury wages from either job, the insurer or the assigned processing administrator must use all post injury wages from both primary and all secondary employers. The insurer or the assigned processing administrator must calculate the amount due the worker based on the combined wages at injury and combined post injury wages using the temporary partial disability calculation in OAR 436-060-0030. The insurer or the assigned processing administrator must then calculate the amount due from the primary job based only on the primary wages at injury and the primary post injury wages. That amount shall be subtracted from the amount due the worker; the remainder is the supplemental disability amount.

(12) If the worker receives post injury wages from the secondary job equal to or greater than the secondary wages at the time of injury, no supplemental disability is due.

(13) If the worker returns to a job not held at the time of the injury, the insurer or the assigned processing administrator must process supplemental disability under the same terms, conditions and limitations as OAR 436-060-0030.

(14) Supplemental disability may be due on a nondisabling claim even if temporary disability is not due from the primary job. The nondisabling claim will not change to disabling status due to payment of supplemental disability. When supplemental disability payments cease on a nondisabling claim, the insurer or the assigned processing administrator must send the worker written notice advising the worker that their supplemental disability payments have stopped and of the worker's right to appeal that action to the Workers' Compensation Board within 60 days of the notice, if the worker disagrees.

(15) If the insurer has elected to process and pay supplemental disability under ORS 656.210(5)(a), the insurer must determine the worker's on-going entitlement to supplemental disability and must pay the worker supplemental disability simultaneously with any temporary disability due. Reimbursement for supplemental disability paid will be made under OAR 436-060-0500.

(16) If the insurer has elected not to process and pay supplemental disability, the assigned processing administrator must determine the worker's on-going entitlement to supplemental disability and must pay the worker supplemental disability due once each 14 days.

(17) A worker who is eligible for supplemental disability under section (5) of this rule has an on-going responsibility to provide information and documentation to the insurer or the assigned processing administrator, even if temporary disability is not due from the primary job.

(18) If the insurer has elected not to process and pay supplemental disability, the insurer must cooperate and communicate with the assigned processing administrator and both must retain documentation of shared information, as necessary, to coordinate benefits due.

(19) Supplemental disability applies to occupational disease claims in the same manner as to injury claims. Supplemental disability benefits for an occupational disease shall be based on the worker's combined primary and secondary wages at the time there is medical verification the worker is unable to work because of the disability.

(20) When an insurer elects to pay supplemental disability under ORS 656.210(5)(a) and OAR 436-060-0010(20) and receive reimbursement under OAR 436-060-0500, the insurer must maintain a record of supplemental disability paid to the worker, separate from temporary disability paid as a result of the job at injury.

(21) If a worker disagrees with the insurer's or the assigned processing administrator's decision about the worker's eligibility for supplemental disability or the rate of supplemental disability, the worker may request a hearing before the Hearings Division of the Workers' Compensation Board. If the worker chooses to request a hearing on the insurer's decision concerning the worker's eligibility for supplemental disability, the worker must submit an appeal of the insurer's or the assigned processing administrator's decision within 60 days of the notice in section (5) of this rule. However,

ADMINISTRATIVE RULES

the insurer for the primary job is not required to contact the secondary job employer. The worker is responsible to provide any necessary documentation.

(22) An insurer who elects not to process and pay supplemental disability benefits may be sanctioned upon a worker's complaint if the insurer delays sending necessary information to the assigned processing administrator and that delay causes a delay in the worker receiving supplemental disability benefits.

(23) In the event of a third party recovery, previously reimbursed supplemental disability benefits are a portion of the paying agency's lien.

(24) Remittance on recovered benefits shall be made to the department in the quarter following the recovery in amounts determined in accordance with ORS 656.591 and ORS 656.593.

Timely Payment of Compensation

(1) Benefits are deemed paid when addressed to the last known address of the worker or beneficiary and deposited in the U.S. Mail or when funds are transferred to a financial institution for deposit in the worker's or beneficiary's account by approved electronic equivalent. Payments due on a weekend or legal holiday under ORS 187.010 and 187.020 may be paid on the last working day before or the first working day after the weekend or legal holiday. Subsequent payments may revert back to the payment schedule before the weekend or legal holiday.

(2) For the purpose of this rule, legal holidays in the State of Oregon are:

- (a) Each Sunday;
- (b) New Year's Day on January 1;
- (c) Martin Luther King, Jr.'s Birthday on the third Monday in January;
- (d) Presidents Day, for the purpose of commemorating Presidents Washington and Lincoln, on the third Monday in February;
- (e) Memorial Day on the last Monday in May;
- (f) Independence Day on July 4;
- (g) Labor Day on the first Monday in September;
- (h) Veterans Day on November 11;
- (i) Thanksgiving Day on the fourth Thursday in November; and
- (j) Christmas Day on December 25.

(k) Each time a holiday, other than Sunday, falls on Sunday, the succeeding Monday is a legal holiday. Each time a holiday falls on Saturday, the preceding Friday is a legal holiday.

(l) Additional legal holidays include every day appointed by the Governor as a legal holiday and every day appointed by the President of the United States as a day of mourning, rejoicing or other special observance only when the Governor also appoints that day as a holiday.

(3) First payment of time loss must be timely. An insurer's performance is in compliance when 90 percent of payments are timely. The director may assess a penalty against an insurer falling below these norms during any quarter.

(4) Compensation withheld under ORS 656.268(13) and (14), and 656.596(2), will not be deemed untimely if the insurer notifies the worker in writing why benefits are being withheld and the amount that must be offset before any further benefits are payable.

(5) Timely payment of temporary disability benefits means the insurer has made payment no later than the 14th day after:

(a) The date of the employer's notice or knowledge of the claim and of the worker's disability, if the attending physician or authorized nurse practitioner has authorized temporary disability. Temporary disability accrued before the date of the employer's notice or knowledge of the claim will be due within 14 days of claim acceptance;

(b) The date the attending physician or authorized nurse practitioner authorizes temporary disability, if the authorization is more than 14 days after the date of the employer's notice or knowledge of the claim and of the worker's disability;

(c) The start of authorized vocational training under ORS 656.268(10), if the insurer has previously closed the claim;

(d) The date the insurer receives medical evidence supported by objective findings that shows the worker is unable to work due to a worsening of the compensable condition under ORS 656.273;

(e) The date of any division order, including, but not limited to, a reconsideration order, that orders payment of temporary disability. If the insurer has appealed a reconsideration order, the appeal stays payment of temporary disability benefits except those that accrue from the date of the order, under ORS 656.313;

(f) The date of a notice of claim closure issued by the insurer that finds the worker entitled to temporary disability;

(g) The date a notice of closure is set aside by a reconsideration order;

(h) The date any litigation authorizing retroactive temporary disability becomes final. Temporary disability accruing from the date of the order must begin no later than the 14th day after the date the order is filed. For the purpose of this rule, the "date the order is filed" for litigation from the Workers' Compensation Board is the signature date, and from the courts, it is the date of the appellate judgment;

(i) The date the division refers a claim to the insurer for processing under ORS 656.029;

(j) The date the division refers a noncomplying employer claim to an assigned claims agent under ORS 656.054; or

(k) The date a claim disposition is disapproved by the Board or Administrative Law Judge, if temporary disability benefits are otherwise due;

(l) The date the division designates a paying agent under ORS 656.307;

(m) The date a claim is reclassified from nondisabling to disabling, if temporary disability is due and payable; and

(n) The date an insurer voluntarily rescinds a denial of a disabling claim.

(6) Temporary disability must be paid to within seven days of the date of payment at least once each 14 days. When making payments under OAR 436-060-0020(1), the employer may make subsequent payments of temporary disability concurrently with the payroll schedule of the employer, rather than at 14-day intervals.

(7) Permanent disability must be paid no later than the 30th day after:

(a) The date of a notice of claim closure issued by the insurer;

(b) The date of any litigation order that orders payment of permanent total disability. Permanent total benefits accruing from the date of the order must begin no later than the 30th day after the date the order is filed. For the purpose of this rule, the "date the order is filed" for litigation from the Workers' Compensation Board is the mailing date, and from the courts, it is the date of the appellate judgment;

(c) The date of any division order, including, but not limited to, a reconsideration order, that orders payment of compensation for permanent disability;

(d) The date any litigation authorizing permanent partial disability becomes final;

(e) The date a claim disposition is disapproved by the Board or Administrative Law Judge, if permanent disability benefits are otherwise due; or

(f) The date authorized training ends if the worker is medically stationary and any previous award remains unpaid, under ORS 656.268(10) and OAR 436-060-0040(2).

(8) Fatal benefits must be paid no later than the 30th day after:

(a) The date of a notice of acceptance issued by the insurer; or

(b) The date of any litigation order which orders fatal benefits. Fatal benefits accruing from the date of the order must begin no later than the 30th day after the date the order is filed. For the purpose of this rule, the "date the order is filed" for litigation from the Workers' Compensation Board is the mailing date, and from the courts, it is the date of the appellate judgment.

(9) The insurer must make subsequent payments of permanent disability and fatal benefits in monthly sequence. The insurer may adjust monthly payment dates, but must inform the beneficiary before making the adjustment. No payment period may exceed one month without the division's prior approval.

(10)(a) When paying temporary disability benefits the insurer must notify the worker or beneficiary in writing of the specific purpose of the payment and the time period that the payment covers.

(b) When issuing the initial payment of permanent disability or fatal benefits the insurer must notify the worker or beneficiary in writing of the specific purpose of the payment, the schedule of future payments, and the time period each payment will cover. The insurer is not required to provide an explanation in writing with each subsequent permanent disability or fatal benefit payment.

ADMINISTRATIVE RULES

(c) The insurer must provide an explanation in writing to the worker or beneficiary when the benefit amount, time period covered, or payment schedule changes.

(11) The insurer must maintain records of compensation paid for each claim where benefits are due and payable.

(12) If the worker submits a request for reimbursement of multiple items and full reimbursement is not made, the insurer must provide specific reasons for non-payment or reduction of each item.

(13) Payment of a Claim Disposition Agreement must be made no later than the 14th day after the Board or Administrative Law Judge mails notice of its approval of the agreement to the parties, unless otherwise stated in the agreement.

(14) Under ORS 656.126(6), when Oregon compensation is more than the compensation under another law for the same injury or occupational disease, or compensation paid the worker under another law is recovered from the worker for the same injury or occupational disease, the insurer must pay any unpaid compensation to the worker up to the amount required by the claim under Oregon law within 14 days of receipt of written documentation supporting the underpayment of Oregon compensation.

436-060-0155

Penalty to Worker for Untimely Processing

(1) Under ORS 656.262(11), the director may require the insurer to pay an additional amount to the worker as a penalty and an attorney fee to the worker's attorney when the insurer unreasonably delays or unreasonably refuses to pay compensation, attorney fees or costs, or unreasonably delays acceptance or denial of a claim.

(2) Requests for penalties and attorney fees under this section must be in writing, stating what benefits, attorney fees or costs have been delayed or remain unpaid, and mailed or delivered to the division within 180 days of the alleged violation. Attorney fees will be awarded under OAR 436-001-0400 to 436-001-0440.

(3) For the purpose of this section, "violation" is either:

(a) A late payment or the nonpayment of any single payment due, in which case a request for penalty must be mailed or delivered to the director within 180 days of the date payment was due; or

(b) A continuous nonpayment or underpayment such as with yearly cost of living increases for temporary disability compensation. In these instances, a request for penalty must be mailed or delivered to the director within 180 days of the date of the last underpayment. All prior underpayments will be considered as one violation, regardless of when the first underpayment occurred.

(4) When notified by the director that additional amounts may be due the worker as a penalty under this rule, the insurer must respond in writing to the division. The response must be mailed or delivered to the division within 21 days of the mailing date of the division's inquiry letter, with copies of the response, including any attachments, sent simultaneously to the worker and the worker's attorney (if represented). If an insurer fails to respond or provides an inadequate response (e.g. failing to answer specific questions or provide requested documents), the director may assess a civil penalty under OAR 436-060-0200. In addition, the director may assess a \$50.00 civil penalty under OAR 436-060-0200 if the insurer does not provide copies of the response to the worker or attorney timely.

(5) When no written reason for delay is provided by the insurer as required in section (4) and no reason for the delay is evident from the worker's or division's records, the director will consider the delay unreasonable, unless the worker has provided insufficient information to assess a penalty. In such cases, the director may assess a civil penalty under OAR 436-060-0200.

(6) The director will only consider a penalty issue where the assessment and payment of additional amounts described in ORS 656.262(11) is the sole issue of any proceeding between the parties. If a proceeding on any other issue is initiated before the Hearings Division of the Workers' Compensation Board between the same parties before the director issues an

order under this section, and the director is made aware of the proceeding, jurisdiction over the penalty proceeding before the director will immediately rest with the Hearings Division and the director will refer the proceedings to the Hearings Division. If the director has not been made aware of the proceeding before the Hearings Division and issues a penalty order that becomes final, the director's penalty will stand.

(7) The director will use the matrix attached to these rules in Appendix "B" in assessing penalties. When there are no "amounts then due" upon which to assess a penalty, no penalty will be issued under this rule.

(8) Penalties ordered under this rule must be paid to the worker no later than the 30th day after the date of the order, unless the order is appealed. If the order is appealed and later upheld, the penalty will be due within 14 days of the date the order upholding the penalty becomes final. If the insurer does not pay penalties in a timely manner the insurer will be subject to civil penalties under OAR 436-060-0200.

(9) Disputes regarding unreasonable delay or unreasonable refusal to pay compensation, attorney fees or costs or unreasonable delay in acceptance or denial of a claim may be resolved by the parties. In cases where the parties wish to resolve such disputes and the assessment and payment of additional amounts under ORS 656.262(11) is the sole issue of a proceeding between the parties, and the violation(s) occurred within the last 180 days in accordance with section (3), then the parties must submit a stipulation to the division for approval. The stipulation must specify:

(a) The benefits, attorney fees or costs delayed and the amounts;

(b) The time period(s) involved;

(c) If applicable, the name of the medical provider(s) and the date(s) of service(s) relating to medical bills;

(d) The amount of the penalty not to exceed 25 percent of the amount of compensation delayed; and

(e) The attorney fees, if applicable.

(10) Payment of the penalty is due within 14 days after the date the division approves the stipulation, unless otherwise stated in the stipulation. If the insurer does not pay penalties in a timely manner the insurer will be subject to civil penalties under OAR 436-060-0200.

(11) Any other agreements between the parties to pay a penalty or attorney fee without a stipulation approved by the division will not be acknowledged as a violation as it applies to the matrix attached to these rules.

Assessment of Civil Penalties

(1) The director through the division and under ORS 656.745 will assess a civil penalty against an employer or insurer that intentionally or repeatedly induces claimants for compensation to fail to report accidental injuries, causes employees to collect accidental injury claims as off-the-job injury claims, persuades claimants to accept less than the compensation due or makes it necessary for claimants to resort to proceedings against the employer to secure compensation due.

(2) A penalty under section (1) will only be assessed after all litigation on the matter has become final by operation of the law. For the purpose of section (1):

(a) "Intentionally" means the employer or insurer acted with a conscious objective to cause any result described in ORS 656.745(1) or to engage in the conduct described in that section; and

(b) "Repeatedly" means more than once in any twelve month period.

(3) Under ORS 656.745, the director may assess a civil penalty against an employer or insurer that does not comply with rules and orders of the director regarding reports or other requirements necessary to carry out the purposes of the Workers' Compensation Law. Except as provided in ORS 656.780, the director may assess a civil penalty against a service company only for claims processing violations identified in the director's annual audits of claims processing performance. The director may assess only one penalty for each separate violation by an employer, insurer, or service company identified in an annual audit.

(4) The director may assess a civil penalty up to \$2,000 to an employer or insurer that does not meet the time frame requirements in OAR 436-060-0010, 436-060-0017, 436-060-0018, 436-060-0030, 436-060-0060, 436-060-0147, 436-060-0155 and 436-060-0180. The director may assess a

ADMINISTRATIVE RULES

civil penalty up to \$2,000 to a service company failing to meet the time frame requirements, only for violations identified in the director's annual audits of claims processing performance. The director may assess only one penalty for each separate violation by an employer, insurer, or service company identified in an annual audit.

(5) An insurer that willfully violates OAR 436-060-0160 will be assessed a civil penalty of up to \$2,000.

(6) An insurer that does not accurately report timeliness of first payment information to the division may be assessed a civil penalty by the director of \$500 for reporting inaccurate information plus \$50 for each violation, or \$10,000 in the aggregate for all violations within any three month period. The director may assess this civil penalty to the service company processing the insurer's claims if the violations were identified in the director's annual audits of claims processing performance. The director may assess only one penalty for each separate violation by an insurer or service company identified in an annual audit. For the purposes of this section, a violation consists of each situation where a first payment was reported to have been made timely, but was found upon audit to have actually been late.

(7) Notwithstanding section (3) of this rule, an employer, insurer, or service company that does not comply with the claims processing requirements of ORS chapter 656, and rules and orders of the director may be assessed a civil penalty of up to \$2,000 for each violation or \$10,000 in the aggregate for all violations within any three month period.

(8) Any employer or insurer that misrepresents themselves in any manner to obtain workers' compensation claims records from the director, or that uses such records in a manner contrary to these rules, is subject to a civil penalty of \$1,000 for each occurrence. In addition, the director may suspend or revoke an employer's or insurer's access to workers' compensation claims records for such time as the director may determine. Any other person determined to have misrepresented themselves or who uses records in a manner contrary to these rules will have access to these records suspended or revoked for such time as the director may determine.

(9) For the purpose of section (7), statutory claims processing requirements include but are not limited to, ORS 656.202, 656.210, 656.212, 656.228, 656.234, 656.236, 656.245, 656.262, 656.263, 656.264, 656.265, 656.268, 656.273, 656.307, 656.313, 656.325, 656.331, and 656.335.

(10) In arriving at the amount of penalty, the division may consider, but is not limited to:

(a) The ratio of the volume of violations to the volume of claims reported, or

(b) The ratio of the volume of violations to the average volume of violations for all insurers or self-insured employers, and

(c) Prior performance in meeting the requirements outlined in this section.

(11) Insurer performance data is reviewed every quarter based on reports submitted by the insurer during the previous calendar quarter. Civil penalties will be issued for each of the performance areas where the percentages fall below the acceptable standards of performance as set forth in these rules. The standard for reporting claims to the division will allow insurers to report claims by filing a Form 1502 accompanied by a Form 827 where the Form 801 is not available. Penalties will be issued in accordance with the matrix set forth in Appendix "C."

(12) Under ORS 656.262(14), an injured worker's attorney that is not willing or available to participate in an interview at a time reasonably chosen by the insurer within 14 days of the request for interview may be assessed a civil penalty not to exceed \$1,000 if the director finds the attorney's actions unreasonable.

Reimbursement of Supplemental Disability for Workers with Multiple Jobs at the Time of Injury

(1) When an insurer elects to pay supplemental disability due a worker with multiple jobs at the time of injury, the director shall pay reimbursement of the supplemental amount quarterly, after receipt and approval of documentation of compensation paid by the insurer or the service compa-

ny. The director will reimburse the insurer, in care of a service company, if applicable.

(2) Requests for reimbursement must be submitted on Form 3504, "Supplemental Disability Benefits Quarterly Reimbursement Request," and must include at least:

(a) Identification and address of the insurer responsible for processing the claim;

(b) The worker's name, WCD file number, date of injury, social security number, and the insurer claim number;

(c) Whether the claim is disabling or nondisabling;

(d) The primary and secondary employer's legal names;

(e) The primary and secondary employer's WCD registration numbers;

(f) The weekly wage of all jobs at the time of the injury separated by employer;

(g) The dates for the period(s) of supplemental disability due and payable to the worker. Dates must be inclusive (e.g., 1-16-02 through 1-26-02);

(i) The quarter and year in which the payment was made;

(j) A signed payment certification statement verifying the payments; and

(k) Any other information the director requires.

(3) In addition to the supplemental disability reimbursement, the division shall calculate and the insurer shall be paid an administrative fee based on the annual claim processing administrative cost factor, as published in Bulletin 316.

(4) Periodically the division will audit the physical file of the insurer responsible for processing the claim to validate the amount reimbursed. Reimbursement will be disallowed and repayment will be required if, upon such audit, it is found:

(a) Payments exceeded statutory amounts due, excluding reasonable overpayments, as determined by the division;

(b) Compensation has been paid as a result of untimely or inaccurate claims processing; or

(c) Payments of compensation have not been documented, as required by OAR 436-050.

(5) Supplemental disability benefits due subject workers of an employer who is in a noncomplying status as defined in ORS 656.052 are not eligible for separate reimbursement under this rule, but remain a cost recoverable from the employer as provided by ORS 656.054(2).

(6) Claim Dispositions or Stipulated Settlements, under ORS 656.236 or 656.289 which include amounts for supplemental disability benefits due to multiple jobs, are not eligible to receive reimbursement from the Workers' Benefit Fund unless made with the prior written approval of the director.

(a) Requests for written approval of proposed dispositions must include:

(A) A copy of the proposed disposition or settlement that specifies the amount of the proposed contribution to be made from the Workers' Benefit Fund;

(B) A statement from the insurer indicating how the amount of the contribution was calculated; and

Criteria for Eligibility

(1) The department will issue a bulletin to notify all insurers of changes in the Retroactive Program benefit levels whenever the director determines a change is necessary under ORS 656.506(7).

(2) Eligibility for Retroactive Program benefits is based on the worker's injury date as follows:

(a) Workers or beneficiaries eligible to receive either death or permanent total disability benefits become eligible for Retroactive Program benefit increases when the benefits granted under the Retroactive Program bulletin exceed the benefits provided by the statute in effect at the time of the injury.

(b) For workers receiving temporary total disability benefits, the injury must have occurred before July 1, 1973. Workers with injuries occurring between July 1, 1973 and April 1, 1974 may qualify for benefits according to the limits defined in the Retroactive Program bulletin. Workers injured on or after April 1, 1974 are not entitled to receive Retroactive Program increases to their temporary total disability benefit.

(3) A claim is not eligible for Retroactive Program benefits if all issues except compensable medical services are disposed of under ORS 656.236 or settled under ORS 656.289 before becoming eligible under section (2) of this rule.

(4) Costs for claims of subject workers of a noncomplying employer under ORS 656.052 are not eligible for reimbursement from the program, but remain a cost recoverable from the employer under ORS 656.054(3).

Death Benefit

(1) Death benefits must be paid to eligible beneficiaries under ORS 656.204 and the Retroactive Program benefit schedules.

(2) Burial benefits must be paid under ORS 656.204(1) and the Retroactive Program benefit schedules.

(3) The statutory death benefit for injuries occurring from July 1, 1973 to April 1, 1974 will be reduced by the Social Security benefit received, up to the July 1, 1973 statutory benefit level. The amount of reduction to the statutory benefit is a Retroactive Program benefit. The insurer may request reimbursement only for the adjusted Retroactive Program benefit.

(4) Benefits payable for a partial month must be calculated by dividing the monthly benefit by the actual number of days in the month and multiplying that result by the number of days payable.

(5) Benefits for beneficiaries must be paid to the date of any status change.

(6) Remarriage allowance must be paid under ORS 656.204 and the Retroactive Program benefit schedules.

(7) At least once every two years, the insurer must verify that all beneficiaries receiving death benefits for which the insurer may request reimbursement from the Retroactive Program are alive and remain eligible for those benefits. Insurers' questions regarding beneficiaries' status must be reasonably pertinent to the continuing eligibility of those persons for benefits.

Permanent Total Disability Benefit

(1) Permanent total disability benefits must be paid under ORS 656.206 and the benefit schedules in the Retroactive Program bulletin.

(2) Benefit amounts payable for a partial month must be calculated under 436-075-0020(4).

(3) Benefits for beneficiaries must be paid to the date of any status change.

(4) Any Social Security offset determined under ORS 656.209 must first be applied against the statutory portion of the permanent total disability benefit. Any amount of the Social Security offset that exceeds the statutory benefit must be applied against the Retroactive Program benefit. The insurer may request reimbursement only for that portion of the Retroactive Program benefit that has not been offset.

(5) At least once every two years, the insurer must verify that all beneficiaries receiving benefits for which the insurer may request reimbursement from the Retroactive Program are alive and remain eligible for those benefits. Such "status checks" of beneficiaries may occur at the same time the insurer reexamines the permanent total disability claim under OAR 436-030-0065(1). Insurers' questions regarding beneficiaries' status must be reasonably pertinent to the continuing eligibility of those persons for benefits.

(1) If the injured worker dies during the period of permanent total disability, death benefits must be paid to eligible beneficiaries under ORS 656.208, 656.204, and the Retroactive Program benefit schedules.

(2) Permanent total disability benefits must be paid to the date of death, at which time death benefits will begin. Where death benefits are not due, permanent total disability benefits must be paid through the date of death.

(3) The Social Security benefit for injuries occurring between July 1, 1973 and April 1, 1974 must be applied under OAR 436-075-0020(3).

(4) Benefit amounts payable for a partial month must be calculated under OAR 436-075-0020(4).

(5) Burial benefits must be paid under ORS 656.208(1), 656.204(1), and the Retroactive Program benefit schedules. However, if the injury date is before July 1, 1973, burial benefits are due only if death results from the accidental injury causing the permanent total disability.

(6) At least once every two years, the insurer must verify that all beneficiaries receiving death benefits for which the insurer may request reimbursement from the Retroactive Program are alive and remain eligible for those benefits. Insurers' questions regarding beneficiaries' status must be reasonably pertinent to the continuing eligibility of those persons for benefits.

(2) Requests for reimbursement must be mailed or delivered to the Performance Section within 30 days after the end of each quarter to be processed in that quarterly disbursement.

(3) Requests for reimbursement mailed or delivered to the Performance Section more than 30 days after the end of the quarter will be processed with the next quarterly disbursement.

(4) A separate request for reimbursement must be submitted for each insurer and include a signed certification that the payments reported on the request have been made in the amounts reported.

(5) Requests for reimbursement must be submitted in the format prescribed by the director. Each request must accurately reflect the marital and dependency status in effect and eligible for reimbursement in the period requested.

(6) The Performance Section will not process any request that does not meet the requirements of section (4) or (5) of this rule until such requirements are met.

(7) The department will recover any overpayment made to an insurer as a result of an insurer error in reporting, or incorrect information submitted, on a quarterly request form.

(8) If a denied claim is found to be compensable by an administrative law judge, the Workers' Compensation Board, or the Court of Appeals, and that decision is reversed by a higher level of appeal, the insurer will receive reimbursement for Retroactive Program benefit payments required to be made while the claim was in an accepted status.

Department of Energy Chapter 330

Rule Caption: Updating State Home Oil Weatherization program rules.

Adm. Order No.: DOE 3-2015

Filed with Sec. of State: 9-30-2015

Certified to be Effective: 10-1-15

Notice Publication Date: 9-1-2015

Rules Amended: 330-061-0005, 330-061-0010, 330-061-0015, 330-061-0020, 330-061-0025, 330-061-0030, 330-061-0035, 330-061-0040, 330-061-0045, 330-061-0050, 330-061-0060

Subject: The permanent rules for the State Home Oil Weatherization (SHOW) program assist and improve program administration. Since 1978, the Oregon Department of Energy has administered the SHOW program, which serves Oregon households that heat with oil, propane, kerosene, butane or wood. The amended rules adjust eligible conservation measure requirements and incentive rates aligning those requirements across department programs, especially for duct sealing, envelope insulation R-values and exterior window U-factors. The amended rules remove eligibility for above ground oil tanks and blower door tests from the individual cash payment part of the program. The amended rules clarify rule language to align with statute by removing cash payments provided to tenants. The amended rules also unrestrict the matching funds requirement for projects completed by community action agencies. The rule is effective October 1, 2015.

Rules Coordinator: Elizabeth Ross—(503) 378-8534

Purpose

(1) Oregon Administrative Rules, chapter 330, division 61 prescribe how the Oregon Department of Energy will run the State Home Oil Weatherization (SHOW) program providing energy conservation measure cash payments. Operation of the program depends on availability of funds.

(2) The amendments to these rules apply to energy conservation measures completed on or after the effective date of these rules.

(2) Households at or below eligibility levels for the U.S. Department of Energy’s Low Income Weatherization Program can receive weatherization or energy conservation measure services from a Community Action Agency or other agencies serving low-income households. The agency may

ADMINISTRATIVE RULES

apply for the cash payment program for installing qualifying energy conservation measures. The cash payment for installing qualifying energy conservation measures shall not exceed the lesser of the following:

- (a) The cost of the qualifying energy conservation measures,
- (b) 50 percent of the total project costs incurred at the dwelling for weatherization and energy conservation measures by the Community Action Agency during the current State Home Oil Weatherization grant period, or
- (c) \$2,500.

(3) Any eligible dwelling owner may receive a cash payment not to exceed 50 percent of the project cost up to a cash payment of \$500 per dwelling address, for installing at least one of the qualifying energy conservation measures listed below, subject to the following limitations:

(a) Fuel oil furnace or boilers with tested steady state efficiency of at least 81 percent replacing a fuel oil heating system that is more than 20 years old or has a steady-state efficiency of 70 percent or less or as otherwise authorized by the Oregon Department of Energy.

(b) Replacement fuel oil burners, including electrical controls and combustion chamber improvements when needed, which increase combustion efficiency of oil furnaces or boilers. A replacement burner must have a tested steady state efficiency of at least 80 percent and be replacing a burner that is more than 10 years old or is in a heating systems with a tested steady state efficiency of 70 percent or less.

(c) Replacement windows including storm windows, storm doors, double pane windows, or double pane sliding doors subject to the following:

(A) Windows (including sliding doors) with a U-factor of at least 0.30 or lower replacing less energy efficient windows and sliding doors that are certified and labeled for U-factor in accordance with the simulation, testing and certification procedures of the National Fenestration Rating Council (NFRC).

(B) Storm doors covering uninsulated exterior doors; or

(C) Storm windows over single pane glass windows on an exception basis when double glazed windows are not a practical option.

(d) Insulated exterior doors with a U-factor no higher than 0.20. Subject to other limits, a cash payment for insulated exterior doors is limited to \$200.

(e) Insulation for attics and ceilings, floors or walls subject to the following:

(A) Attics and ceilings, with a preexisting insulation level of R-21 or less, must be insulated to a minimum nominal loose fill material of R-49 or cavity fill, or continuous rigid insulation of R-20 for roof decks;

(B) Floors, insulate over unheated spaces to fill framing cavity to R-30, if achievable; or

(C) Walls, fill the wall cavity with insulation. If area has unfinished walls adjacent to unheated areas, fill the wall cavity to R-21, if achievable. In areas that have finished walls with no insulation that are adjacent to unheated areas, fill up to R-15, if achievable.

(f) Weather-stripping, caulking or air sealing, seal the heated space and ducts in a dwelling. Subject to other limits, a cash payment for weather-stripping, caulking or air sealing is limited to \$200.

(g) Duct sealing and insulation, insulate supply and return air ducts in unheated spaces to at least R-8. This must be performed by a technician and certified that Bonneville Power Administration's Prescriptive Duct Sealing Specifications have been completed. Subject to other limits, a cash payment for duct sealing and insulation is limited to \$200.

(h) Programmable thermostats. Subject to other limits, a cash payment for programmable thermostats is limited to \$100.

(4) Notwithstanding OAR 330-061-0025(1), the Director may:

(a) Reduce incentive amounts or limit the number of qualifying energy conservation measures if the Director determines that cash payment applications are likely to exceed the funding allocated. This action will apply to any applications received no sooner than 30 calendar days after that determination.

(b) Allocate additional funding for financial incentives through pilot programs that the Oregon Department of Energy determines may encourage installation of energy efficiency measures.

(5) In some cases, a landlord may not wish to install energy conservation measures in all units within a building. To determine the building type, all dwelling units in the building must be counted. The cash payment is only available for those units where energy conservation measures have been installed. All dwelling units sharing a common space conditioning system shall be considered part of the same residential building.

Rule Caption: Amending Residential Energy Tax Credit rules to implement HB 2171 solar thermal changes.

Adm. Order No.: DOE 4-2015

Filed with Sec. of State: 10-5-2015

Certified to be Effective: 10-5-15

Notice Publication Date: 9-1-2015

Rules Amended: 330-070-0022

Subject: This permanent rule amendment for the Residential Energy Tax Credit program implements changes provided in Oregon Laws 2015, chapter 701, sections 26 and 37 (HB 2171). HB 2171 increases the tax credit amount available for solar radiation for domestic water heating devices and solar radiation for swimming pool heating devices certified on or after September 1, 2015. As provided in HB 2171, solar radiation for domestic water heating devices may receive tax credits equaling the lesser of the first-year energy savings of the alternative energy device in kWh multiplied by \$2.00,

up to 50 percent of the eligible cost of the alternative energy device, or \$6,000. Additionally as provided in HB 2171, solar radiation for swimming pool heating devices may receive tax credits equaling the lesser of the first-year energy savings of the alternative energy device in kWh multiplied by 20 cents, up to 50 percent of the eligible cost of the alternative energy device, or \$2,500. The certification date for solar radiation for domestic water heating devices is the system's operational date which is the date of the final inspection. The certification date for solar radiation for swimming pool heating devices is the system's operational date as reported on the RETC application form. The permanent rule provides that solar thermal devices installed at a dwelling within a five year period will be considered a single device. The rule is effective upon the effective date of HB 2171, October 5, 2015.

Amount of Tax Credit

(1) The amount of the AED tax credit is based on the first-year energy savings of an eligible AED. The department has determined first-year energy savings estimates for eligible AEDs and associated tax credit amounts, which are listed in the RETC Rate Chart. The energy savings basis for a solar tax credit may be adjusted by the department to account for less than optimal solar access.

(2) The amount of the AED tax credit may not exceed the lesser of:

(a) For AEDs used for space heating, cooling, electrical energy or domestic water heating, other than an AED using solar radiation for domestic water heating, \$1,500 or the first-year energy savings of the AED in kWh multiplied by 60 cents. The amount of the credit may not exceed 100 percent of the cost of the system components and their installation. Only one tax credit for ground source heat pump systems will be issued per year per residence.

(b) For AEDs that use solar radiation for domestic water heating:

(A) The incentive rate is based on when the system is certified as operational as of the date of the final inspection:

(i) Before September 1, 2015, \$1,500 or the first-year energy savings of the AED in kWh multiplied by 60 cents. The amount of the credit may not exceed 100 percent of the cost of the system components and their installation.

(ii) Between September 1, 2015 and December 31, 2015 and for tax years beginning on or after January 1, 2015, the first-year energy savings of the AED in kWh multiplied by \$2.00, or 50 percent of the cost of the system, not to exceed \$6,000. The maximum credit claimed per year may not exceed \$1,500.

(B) The tax credit is calculated:

(i) Prior to September 1, 2015, by multiplying the Solar Rating and Certification Corporation (SRCC) savings estimate for the appropriate zone, times the Total Solar Resource Fraction (TSRF), times the incentive rate.

(ii) On September 1, 2015 through December 31, 2016, by multiplying the Solar Rating and Certification Corporation (SRCC) savings estimate for the appropriate zone times the incentive rate.

(iii) On or after January 1, 2017, by multiplying the Solar Rating and Certification Corporation (SRCC) savings estimate for the appropriate zone, times the Total Solar Resource Fraction (TSRF), times the incentive rate.

(c) For AEDs used for swimming pool, spa or hot tub heating, other than an AED using solar radiation for swimming pool heating, the first-year energy savings of the AED in kWh multiplied by 15 cents, up to 50 percent of the eligible cost of the AED, or \$1,500.

(d) For AEDs using solar radiation for swimming pool heating:

(A) The incentive rate is based on when the system is certified as operational as of the operational date reported on the RETC application form:

(i) Before September 1, 2015, the first-year energy savings of the AED in kWh multiplied by 15 cents, up to 50 percent of the eligible cost of the AED, or \$1,500.

(ii) Between September 1, 2015 and December 31, 2015 and for tax years beginning on or after January 1, 2015, the first-year energy savings of the AED in kWh multiplied by \$0.20, or 50 percent of the cost of the system, not to exceed \$2,500. The maximum credit claimed per year may not exceed \$1,500.

(B) The tax credit is calculated:

ADMINISTRATIVE RULES

(i) Prior to January 1, 2017, by multiplying the collector area in square feet, times the number of collectors, times the solar output by zone, times the incentive rate.

(ii) On or after January 1, 2017, by multiplying the collector area in square feet, times the number of collectors, times the solar output by zone, times the Total Solar Resource Fraction (TSRF), times the incentive rate.

(C) The solar output by zone is:

(i) 30 kWh/ft² for systems located in Zone 1 which is areas not in Zone 4 of the following counties: Benton, Clackamas, Clatsop, Columbia, Lane, Lincoln, Linn, Marion, Multnomah, Polk, Tillamook, Washington and Yamhill.

(ii) 30 kWh/ft² for systems located in Zone 2 which is areas not in Zone 4 of the following counties: Coos, Curry, Douglas, Jackson and Josephine.

(g) For wind AEDs, the first-year energy savings of the AED in kWh multiplied by \$2.00, not to exceed the lesser of \$6,000 or 50 percent of the cost of the system. One tax credit may be issued per year, per residence, and the maximum credit claimed per year will not exceed \$1,500, over a four year period.

(h) For premium efficiency biomass combustion devices, the average heating need times the stove efficiency improvement times 60 cents, up to \$1,500. The department will use the EPA default efficiency as of January 1, 2015 when calculating the stove efficiency improvement for:

(A) Wood or pellet stoves without full efficiency testing listed on the EPA list of EPA Certified Wood Heaters,

(B) Wood or pellet stoves without full efficiency testing with the testing data submitted and approved by EPA, or

(C) Pellet stoves on the List of EPA Exempt Wood Heating Appliances that submitted testing certificates to the department.

(3) For photovoltaic systems:

(a) On or after January 1, 2012 and before January 1, 2014, the credit allowed under this section is equal to \$2.10 per watt of the installed capacity measured in watts of direct current at industry standard test conditions; the tax credit is claimed according to OAR 330-070-0024.

Definitions

For the purpose of this division, the following definitions apply:

(1) “Building” means any structure used or intended for supporting or sheltering any use or occupancy, as defined in Section 202 of the 2010 Oregon Structural Specialty Code.

(2) “Contracting agency” means a public body as defined in ORS 174.109 that plans to enter into a public improvement contract for the construction, reconstruction or major renovation of a public building.

(3) “Cost-effective” means an investment in green energy technology away from the site has a higher estimated economic benefit than an investment in corresponding green energy technology at the site. The comparison must include, but is not limited to, the cost of green energy technology, the cost of energy transmission infrastructure back to the public building, the value of electrical energy produced, saved or used over the life of the system, and the value of thermal energy produced, saved or used over the life of the system.

(6) “Direct use” of geothermal energy means using the geothermal resource directly for space or water heating in a building without the assistance of a heat pump. For the purpose of these rules, direct use applications employ resource temperatures of at least 140°F, except when applied to public school construction, in which case the minimum resource temperature is 128°F.

(7) “Geothermal energy” means the energy from a geothermal source including, but not limited to, indigenous steam, hot water, and hot brines.

(11) “Site” means a land parcel or a group of contiguous land parcels, controlled by the contracting agency, on which a building either is or will be located.

(12) “Total contract price” means the estimated cost to construct a building including building systems, interior finishes, site infrastructure within five feet of the building perimeter, connections to existing utilities, landscaping, and sidewalks and parking lots built for the immediate use of the building. It does not include the cost of major new utility infrastructure that needs to be brought to the site or wetland mitigation requirements.

(13) “Total solar resource fraction” (TSRF) means the percent of energy produced by a fixed axis solar energy system when compared to the annual performance of the same system with optimal tilt and orientation and no external shading.

(1) Salmon may be taken for commercial purposes from the Columbia River in Zones 4 and 5, the lower end of Zone 4 is defined as a straight line projected from the Warrior Rock Lighthouse on the Oregon shore easterly through the green navigation Buoy #1 and continuing to the Washington shore during the following fishing period:

8:00 p.m. Sunday, September 20 to 6:00 a.m. Monday, September 21, 2015 (10 hours); and

Late Fall Salmon Season

(1) Salmon may be taken for commercial purposes from the Columbia River in Zones 4 and 5, the lower end of Zone 4 is defined as a straight line projected from the Warrior Rock Lighthouse on the Oregon shore easterly through the green navigation Buoy #1 and continuing to the Washington shore during the following fishing period:

8:00 p.m. Sunday, September 27 to 6:00 a.m. Monday, September 28.

The multiple net rule is in effect for all authorized fishing periods. Nets not authorized for a specific fishery may be onboard the vessel if properly stored. A properly stored net is defined as a net on a drum that is fully covered by a tarp (canvas or plastic) and bound with a minimum of ten revolutions of rope with a diameter of 3/8 (0.375) inches or greater.

(3) For the fishing period described in section (1) above sturgeon and chum salmon may not be possessed or sold by participating vessels. Allowable sales are Chinook, coho, pink and sockeye salmon and shad.

Rules Amended: 635-042-0032

Subject: This amended rule authorizes three 12-hour fishing periods for the 2015 late fall commercial salmon drift tangle net fishery in the Columbia River mainstem. The first fishing period commences in Zones 1 through 3 and is scheduled to begin at 6:00 a.m. Thursday, October 1, 2015. Modifications are consistent with joint state action taken September 28, 2015 by the Departments of Fish and Wildlife for the states of Oregon and Washington at a meeting of the Columbia River Compact.

Coho Target Fishery

(1) Chinook, adipose fin-clipped coho, pink, and sockeye salmon, and shad may be taken in the Columbia River by tangle net for commercial purposes in all of, or portions of Zones 1–3 from the mouth of the Columbia River upstream to a line projected from Warrior Rock Lighthouse on the Oregon shore easterly through the green navigation buoy #1 and continuing to the Washington shore. An adipose fin clip salmon is defined as a hatchery salmon with a clipped adipose fin and having a healed scar at the location of the fin. The adipose fin is the small fatty fin on salmonids located between the dorsal fin and tail.

(2) Authorized Fishing Periods are as follows:

6:00a.m. to 6:00p.m. Thursday, October 1, 2015 (12 hours);

6:00a.m. to 6:00p.m. Monday, October 5, 2015 (12 hours); and

6:00a.m. to 6:00p.m. Wednesday, October 7, 2015 (12 hours).

(3) During the fall coho tangle net fishery it is unlawful to use other than a single-wall multi-filament floater net. Monofilament nets are not allowed. Maximum mesh size is 3-3/4 inches determined by placing three consecutive meshes under hand tension and the measurement is taken from the inside of one knot to the inside of the opposite knot of the center mesh. Hand tension means sufficient linear tension to draw opposing knots of meshes into contact.

(4) Nets shall not exceed 900 feet (150 fathoms) in length. A red cork must be placed on the corkline every 25 fathoms as measured from the first mesh of the net. Red corks at 25 fathom intervals must be in color contrast to the corks used in the remainder of the net.

(5) There are no restrictions on the hang ratio. The hang ratio is used to horizontally add slack to the net. The hang ratio is determined by the length of the web per length of the corkline.

(6) The use of slackers or stringers to slacken the net vertically is prohibited. Rip lines are allowed providing they do not vertically slacken the net.

(7) Nets that are fished at any time between official sunset and official sunrise must have lighted buoys on both ends of the net unless the net is attached to the boat. If the net is attached to the boat, then one lighted buoy on the opposite end of the net from the boat is required.

(8) Nets shall be fished for no longer than 30 minutes per set. The time of fishing is measured from when the first mesh of the net is deployed into the water until the last mesh of the net is fully retrieved from the water.

(9) All non-legal fish must be released unharmed immediately to the river or into an operating recovery box.

(a) One operating recovery box with two chambers or two operating recovery boxes with one chamber each must be on board each fishing vessel participating in the fishery. Recovery boxes shall be operating during any time that a net is being retrieved or picked.

(b) All non-legal salmon and all steelhead that are bleeding, in lethargic condition, or appearing lifeless (condition 2–5) must be placed in the recovery box prior to release to the river.

(c) Each chamber of the recovery box must meet the following dimensions as measured from within the box; the inside length measurement must be at or within 39 1/2 to 48 inches, the inside width measurement must be at or within 8 to 10 inches, and the inside height measurement must be at or within 14 to 16 inches.

(d) Each chamber of the recovery box must include an operating water pumping system capable of delivering a minimum flow of 16 gallons per minute not to exceed 20 gallons per minute of fresh river water into each chamber. The fisher must demonstrate to the Department and Washington Department of Fish and Wildlife employees, fish and wildlife enforcement officers, or other peace officers, upon request, that the pumping system is delivering the proper volume of fresh river water into each chamber.

(e) Each chamber of the recovery box must include a water inlet hole between 3/4 inch and 1 inch in diameter, centered horizontally across the door or wall of chamber and 1 3/4 inches from the floor of the chamber.

(f) Each chamber of the recovery box must include a water outlet that is at least 1 1/2 inches in diameter. The center of the outlet hole must be located a minimum of 12 inches above the floor of the box or chamber, on either the same or opposite end as the inlet.

(g) All fish placed in recovery boxes must be released to the river prior to landing or docking.

(10) At least one fisher on each boat engaged in the fishery must have completed training provided by the Oregon or Washington Department of Fish and Wildlife (Departments) to educate fishers on regulations and best methods for conducting live capture fisheries.

(11) Owners or operators of commercial fishing vessels must cooperate with State fishery observers, or observers collecting data for the Departments, when asked by the Departments to carry and accommodate an observer on fishing trips for observation and sampling during an open fishery.

(12) Closed areas include the following sanctuaries: Elokomin-A, Cowlitz River, Kalama-A, and the Lewis-A.

Coho Target Fishery

(1) Chinook, coho, pink, and sockeye salmon, and shad may be taken in the Columbia River for commercial purposes in all of, or portions of Zones 1–3 from the mouth of the Columbia River upstream to a line projected from Warrior Rock Lighthouse on the Oregon shore easterly through the green navigation buoy #1 and continuing to the Washington shore.

(2) Authorized Fishing Periods are as follows: 7:00 a.m. to 7:00 p.m. Monday, October 12, 2015 (12 hours).

(3) Nets are to be hung even with no strings, slackers, trammels, or riplines used to slacken nets. Riplines are allowed providing they do not slacken the net. Maximum mesh size is six inches. The multiple net rule is in effect for all authorized fishing periods. Nets not authorized for a specific fishery may be onboard the vessel if properly stored. A properly stored net is defined as a net on a drum that is fully covered by a tarp (canvas or plastic) and bound with a minimum of ten revolutions of rope with a diameter of 3/8 (0.375) inches or greater.

(4) Closed areas include the following sanctuaries: Elokomin-A, Cowlitz River, Kalama-A, and the Lewis-A.

Pikeminnow Fishing Derby

In accordance with Senate Bill 958 (2015), an organizer of a fishing derby for Northern pikeminnow (*Ptychocheilus oregonensis*) may request a free derby license from the Oregon Department of Fish and Wildlife (Department) with the following restrictions:

(1) A derby license from the Department is required. An organizer must apply for a license at least 60 days prior to the event. The license must be in possession of the organizer at the derby location, and must be shown to Oregon State Police (OSP) or Department representatives on request. ODFW shall set license conditions after consideration of the impacts on sensitive populations or habitats for fish species, as well as social impacts.

(2) The maximum duration of a fishing derby shall be three days.

(3) No more than two fishing derby licenses may be issued per year for a given body of water.

(4) An organizer of a fishing derby is required to obtain a separate fishing derby license for each fishing derby.

(5) All current angling regulations and license requirements for the location of the derby remain in effect and shall not be altered to accommodate the derby. In addition, special license conditions such as reduced bag limits may be applied in order to protect affected fish stocks.

(6) Catch and release angling is permitted, provided fish are released unharmed.

(7) The derby organizer is responsible for identifying non-profit outlets or commercial fish or bait dealers for any unwanted fish which are retained from the derby. Only Northern pikeminnow may be sold to commercial fish or bait dealers and only for charitable fund-raising purposes. The derby license exempts the licensee from any commercial licensing requirements and the wholesale fish and bait dealers are not required to report the Northern pikeminnow purchased from the derby to the Department on fish receiving tickets or pay ad-valorem fees.

(8) Derby organizers are responsible for meeting all other state and local requirements for such things as special use permits, etc.

ODFW shall set permit conditions after consideration of the condition of the resource and social impacts.

(2) Permit applications shall be accepted beginning November 1 of the year prior to the event. No more than one event on any water body shall be authorized on any single date, and no more than two tournaments shall be authorized on any single water body in any 14 days.

(3) The fee for a Game Fish Tournament Permit is \$108.00. No license agent fee is required.

(4) All current angling regulations apply and shall not be altered to accommodate any tournament. In addition, special permit conditions such as reduced bag limits may be applied in order to protect affected fish stocks.

(5) Catch and release is permitted, provided fish are released unharmed.

(6) Tournament sponsors are responsible for identifying non-profit outlets for any unwanted fish which result from the tournament.

(1) To hold a competitive hunting dog trial, a person must possess a "Competitive Hunting Dog Trial Permit" from the Department:

(a) If domestically-raised game birds are released.

(b) If wildlife is used outside the pursuit or hunting season for that species; or

(c) If the trial occurs between March 16 and August 14 (whether domestically-raised game birds are released or not).

(2) The applicant (sponsor of the competitive hunting dog trial) must apply for a Competitive Hunting Dog Trial Permit to the Department's wildlife district where the trial will take place.

(a) The fee for a Competitive Hunting Dog Trial Permit is \$26.00 (plus a \$2.00 license agent fee).

(b) The application must be received by the Department at least ten business days prior to the start of a competitive trial via hand-delivery, U.S. Mail, electronic mail, or facsimile.

(c) The District Wildlife Biologist or his or her designee will respond to permit applications within 10 business days from the received date.

(3) To issue a Competitive Hunting Dog Trial Permit, the Department must determine that the proposed trial will not:

(a) Conflict to a significant degree with other authorized activities, including but not limited to land management actions, other permitted trials, or lawful hunting.

(b) Result in significant adverse impact to wildlife or wildlife habitat, taking into consideration location, land ownership, designation of site, size, and date of the proposed trial.

(4) The Department may approve, approve with conditions, or deny a permit application.

(a) If the Department denies the issuance a permit, the Department will provide the applicant with a written explanation and an opportunity to request a hearing to appeal that action.

(b) The applicant may appeal the Department's decision by submitting a written request for a contested case hearing to the Department within 10 business days after mailing of the Department's decision.

(5) If after issuance of a Competitive Hunting Dog Trial Permit any unforeseen or emergency circumstances necessitate a change to the permit, the Department will, to the maximum extent practicable, work with permittee to exhaust other options to maintain the trial.

(6) The following species may be released under a Competitive Hunting Dog Trial Permit: common pheasant (all races of Phasianus colchicus, most commonly ring-necked); California (valley), bobwhite, and Coturnix quail; Hungarian (gray), chukar, and red-legged partridge; or mallards, provided all domestically-raised game birds were lawfully acquired and any mallard used must be a marked bird.

(7) Domestically-raised game birds released under a valid Competitive Hunting Dog Trial Permit may be pursued or taken during the course of the permitted trial.

(8) Use of recall pens to recapture domestically-raised upland game birds released under a valid Competitive Hunting Dog Trial Permit is allowed on private lands only if all released game birds were marked (except bobwhite and Coturnix quail, or if there is an exception granted as a condition of the permit) and provided that the person operating the recall pen has the original or a copy of the permit.

(9) The carcasses of domestically-raised game birds which were lawfully released under a valid Competitive Hunting Dog Trial Permit and subsequently taken during the trial may be possessed in any number by any person, provided that the person holds a copy of the Competitive Hunting Dog Trial Permit or a written note from the permittee describing when, where, and for what purpose the birds were taken.

Capture and Transportation of Raptors

A raptor capture permit is required prior to capturing or attempting to capture any raptor. The permit holder must carry the permit on their person while conducting activities related to Peregrine Capture. A non-resident falconer from a state having a federally approved falconry program may obtain a capture permit for species listed in 635-055-0020(3) with the exception of gyrfalcons. All non-resident applications must include a copy of the applicant's current state falconry license. All applicants for golden eagle capture must include a copy of the federal authorization to take and possess golden eagles. Only 20 non-resident capture permits will be issued in total each capture season. All non-resident capture permits, except for capture permits for peregrine falcons, will be issued on a first come first served basis.

(1) A nonrefundable application fee of \$23.00 (plus a \$2.00 license agent fee) will be charged for each capture permit allowing the capture of one raptor per permit.

(2) Except for take of peregrine falcons, the Department will issue capture permits in the order applications are received. The permit process will begin January 1st of each year, and applicants must hold a valid Oregon falconry license or a falconry license from a state having a federally approved falconry program. The category of species shall be listed on the permit (e.g. "golden eagle", "gyrfalcon", "peregrine falcon", or "other raptor") and the falconer is authorized to take only one raptor from the category specified. A falconer may apply for a capture permit in more than one category. The falconer whose name appears on the permit must do the capturing except for peregrine falcon nestlings; the permit is not transferable.

(3) Upon taking the raptor authorized, the permit holder shall immediately validate the permit by recording the date, species, sex, county, and capture method and signing his/her name in the space provided. At the time of capture, the permit holder shall affix the permanent plastic band, issued with the permit, to one leg of the bird. Within five business days of capture, the permit holder shall take the bird to a Department office to have the permit certified.

(4) Lost, raptors at hack, or captive bred raptors may be re-trapped at any time without a capture permit. All other raptors captured shall be immediately released.

(5) Exportation of wild caught raptors — No raptor taken from the wild in Oregon shall be transferred to another person residing outside the state except those Oregon wild caught raptors held for six months or longer may be transferred to another person residing outside the state.

(6) An Oregon licensed falconer is allowed to retain legally captured raptors in their possession if they move from Oregon.

(7) Falconers are responsible for treatment and rehabilitation costs of raptors taken for falconry and injured during trapping efforts.

(8) The Department will not issue a falconry capture permit to any person who:

(a) Is awaiting prosecution for, or has been convicted of, any violation of the animal cruelty or animal abuse laws;

635-055-0037

Peregrine Falcon Capture Permit

(1) Capture permit applications for peregrine falcons may be submitted to the Department beginning January 1st but must be received no later than March 1st of each year. The Department will issue peregrine falcon capture permits by way of a lottery draw pursuant to OAR 635-055-0037.

(2) The Department will not accept a permit application from any person who:

(a) Is awaiting prosecution for, or has been convicted of, any violation of the animal cruelty or animal abuse laws;

(b) Is awaiting prosecution for, or has been convicted of, a wildlife violation involving the illegal take of wildlife;

(c) Is awaiting prosecution for, or has been convicted of, aiding in the illegal take of wildlife; or

(d) Has had his or her hunting or fishing license suspended for a wildlife violation.

(3) A \$23.00 application fee (plus a \$2.00 license agent fee) must be submitted with the application. Application fees are nonrefundable, whether or not an applicant is successful in the drawing.

(4) Peregrine capture permit applications (including fees) must be submitted to the Department's Salem headquarters office no later than March 1 each year.

(a) If hand delivered, an application must be received at Department headquarters office (4034 Fairview Industrial Drive, SE, Salem, OR, 97302-1142) by 5:00 p.m. on March 1.

(b) If sent via postal mail, an application must be postmarked no later than March 1.

(5) If an applicant violates any of the following restrictions, the Department will remove his or her application from the drawing.

(a) An applicant may submit only one peregrine capture permit application per capture season.

(b) An applicant must submit a completed application containing name, license number, address, and phone number.

(6) The Department will conduct the lottery to award peregrine falcon capture permits by drawing names of eligible entrants at random. To participate in the lottery, a person must:

(a) If an Oregon resident possess a current Master Falconers license as per OAR 635-055-0002; or

(b) If a nonresident possess a Master Falconers license from a state having a federally approved falconry program.

(7) (a) During each year's lottery, the Department will draw nine Oregon resident applications and two alternates, plus one non-resident application and a non-resident alternate.

(b) The Department will notify successful applicants and alternates by mail. If the applicant does not reply in writing (mail, fax, or email) within 10 calendar days, the applicant will be disqualified and the Department will offer the permit to the next alternate. If neither alternate replies in the required time, the permit will not be issued. If no qualified nonresident applies for or accepts a peregrine falcon take permit, the permit will be allocated to a qualified resident applicant drawn next in sequence in the lottery draw.

(8) If a permit holder violates any of these rules or permit conditions, the Department will invalidate his or her peregrine capture permit. Taking

ADMINISTRATIVE RULES

of a peregrine falcon without a valid permit is a violation of these rules and is therefore an unlawful taking.

(a) Up to ten permits will be made available annually by the department to eligible master falconers; nine such permits will be issued to resident falconers in good standing

(b) Successful resident applicants will be authorized to take a nestling from a natural nest site, or they may also accept a young peregrine falcon taken by persons (authorized by the Department) from man-made structures (but only where nestlings need to be removed from a nest during management or operational activities on the structures). Alternatively, the permit holder may take a post-fledgling bird.

(c) Of the number of permits available for issuance annually, the Department will make one such permit available to a nonresident. The nonresident permit holder may only accept a nestling peregrine falcon taken by persons (authorized by the Department) from man-made structures (but only where nestlings need to be removed from a nest during management or operational activities on the structures). Alternatively, the permit holder may take a post-fledgling bird.

(9) Each permit will include conditions crafted by the Department on a case by case basis to address the capture proposal and include conditions considered appropriate by the Department. The following general conditions apply to all peregrine falcon capture permits:

(a) Young falcons may be removed from their eyries (nests) between May 15th and June 30th but only when between 15 and 24 days of age. At least one nestling must be left in each eyrie prior to fledging.

(A) Prior to entering any nest, a permit holder must monitor each potential nest site to assess the presence and occupancy of nesting peregrine falcons and determine the chronology of nestlings in the selected nest(s) by following a protocol and completing a form provided by the Department.

(B) Permit-holders must contact in person or by phone Falconry Program staff at Salem Headquarters at least seven (7) days prior to proposed nest entry.

(C) The permit holder must be present when the nestling is being removed from the eyrie.

(b) A post-fledgling peregrine falcon may be taken (trapped) by a permitted master falconer during the time period between when the falcon first flies from its nest through August 31st. The permit holder must be present at all times whenever a trap is in operation while attempting to take a post-fledgling peregrine falcon.

(c) Each permit holder who takes a peregrine falcon from the wild must report the sex and precise capture location to the Department within five days following capture by providing a clearly marked map with sufficient labels and information to determine location. If the falconer later determines that the sex of any peregrine falcon taken was reported incorrectly, then the falconer must submit a corrected report as soon as possible after discovering the error.

(d) Permit holders must band each peregrine falcon taken with a band provided by the Department.

(e) After a captured falcon reaches 30 days of age, the permit holder must pluck breast feathers from the falcon and submit them to the Department along with the written record of the precise location of where the bird was taken from in the wild.

(10) Upon taking the raptor authorized, the permit holder must immediately validate the permit by recording the date, species, sex, county, and capture method and signing his or her name in the space provided. At the time of capture, the permit holder must affix the permanent plastic band, issued with the permit, to one leg of the bird. Within five business days of capture, the permit holder must take the bird to a Department office to have the permit certified.

(11) Peregrine falcon capture permits are not transferable.

Controlled Fish Species

(1) Controlled Fish

(a) Grass carp (*Ctenopharyngodon idella*): Grass carp may be released into water bodies within Oregon only pursuant to the issuance of a permit from the Department. Complete permit applications shall be submitted to Department headquarters at least 60 days before proposed stocking. A fee of \$250.00 (plus a \$2.00 license agent fee) shall be charged for each Grass carp permit issued.

The following restrictions and standards will govern the issuance of grass carp permits:

(A) Stocking will occur only in water bodies which are:

(i) Completely within private land; or
(ii) On land owned or controlled by irrigation districts or drainage districts.

(B) Stocking will occur only in the following types of water bodies:

(i) Lakes, ponds, or reservoirs less than 10 acres; or
(ii) Ditches and canals.

(C) Public use of the water body must be restricted to prevent removal of grass carp (by angling or otherwise) by unauthorized persons. At a minimum, the water body must be closed to angling and other use by the general public.

(D) Stocking shall not detrimentally affect any population of species listed as threatened or endangered by the federal or state government.

(E) Stocking shall occur only in water bodies with fish screens approved by the Department. Such screens shall have screen openings 1 inch or less for fish 12–19 inches total length and screen openings 2 inches or less for fish over 19 inches total length. Screens shall be inspected and approved by the Department before a permit will be issued. The applicant must comply with fish passage requirements (OAR 635, division 412); given grass carp screening requirements, this entails applying for and receiving a waiver or exemption from passage requirements if grass carp will be stocked into waters where native migratory fish are or were historically present.

(F) Stocking will not be allowed in water bodies within 100-year floodplains (as delineated by the Federal Emergency Management Agency on federal Flood Insurance Rate Maps) during times of potential flood. Times of potential flood are January 1 through July 31 in watersheds east of the Cascades and October 15 through May 31 in watersheds west of the Cascades. Grass carp will be removed from water bodies in a 100-year floodplain and held or disposed of during times of potential flood. If grass carp will be held and not disposed of, they shall be held at a permitted site outside the 100-year floodplain. Applications for sites within a 100-year floodplain shall contain a detailed removal plan which shall receive Department approval.

(G) Grass carp may only be purchased and imported from approved suppliers outside Oregon. Grass carp may not be propagated or held for further distribution within Oregon. Department pathologists shall approve suppliers. Approval will be based on ability to provide grass carp free of Asian tapeworms and meet health and disease requirements according to OAR 635-007-0555 through 635-007-0585.

(H) Grass carp imported into Oregon shall be:

(i) Sterile triploids. Documentation from the U.S. Fish and Wildlife Service that each fish is triploid must be submitted to the Department prior to release;

(ii) At least 12 inches long;

(iii) Tagged with a Passive Integrated Transponder (PIT) tag of frequency 134.2-kilohertz. Each tag shall be programmed with a unique identification number. A list of unique tag numbers shall be submitted to the Department prior to release; and

(iv) Stocked at a rate not exceeding 22 per affected acre.

(I) In addition to documentation relating to the restrictions above, each permit application shall include:

(i) Applicant's name, address and daytime telephone number. All property owners of the water body to which grass carp will have unrestricted access must be party to the application and permit;

(ii) Location of the water body, including township, range, section and quarter section, with map including written directions for access;

(iii) Map of the water body including, vegetation present in the water body, all inlets and outlets, and screen locations;

(iv) Description of emergency procedures for responding to fish escapes from approved sites;

(v) Description of how fish will be removed and disposed of at the end of the proposed project.

(J) An application becomes the management plan upon approval. Permits and management plans shall be specific to particular sites and particular stocking projects. Permittees shall not deviate from permit conditions and management plans without prior written approval from the Department. No person may remove grass carp from one site (as identified in a management plan) and transport them to any other site without prior written approval from the Department.

(K) An Oregon Department of Fish and Wildlife fish transport permit shall accompany grass carp imported into and transported within Oregon. If transport is required within the management plan and occurs entirely on

ADMINISTRATIVE RULES

the permittee's property, a transport permit is not needed. Any other permit or documentation required for fish import, transport, or stocking shall also be obtained prior to importation and stocking.

(L) Permittees shall, as a condition of the permit, allow employees of the Department or the Oregon State Police to inspect at reasonable times the permitted water body, permit, and associated records. Inspection may take place without warrant or notice, but, unless prompted by emergency or other exigent circumstances, shall be limited to regular and usual business hours, including weekends. Nothing in these rules is intended to authorize or allow the warrantless search or inspection of property other than the water bodies or fish holding facilities on the permittee's property.

(M) Permits are revocable at any time for violation of any wildlife statute or rule of the Department. Upon revocation, if stocking has already occurred, the permittee shall remove all grass carp within two weeks at her/his own cost.

(N) Grass carp which escape a permitted water body are subject to seizure or destruction by the Department at the expense of the permit holder. The permit holder shall be held liable for incidental kill of any other species due to or during destruction of escaped grass carp.

(O) The Commission may grant an exception to OAR 635-056-0075(1)(a)(A) or (1)(a)(B). Exception requests must be submitted in writing in addition to the normal application and must address the requirements in this section. Unless the Commission determines that an alternative provides equivalent protection to fish and wildlife resources and their habitats, exceptions shall have the following additional requirements:

(i) If the water body into which grass carp will be stocked is greater than or equal to 10 acres a professional topographic survey by a licensed surveyor must be provided for the entire perimeter of the water body showing all points of water movement in and out of the water body. A topographic survey completed by a state or federal agency within five years from the date of application for the water body may be used. The Department shall determine screening requirements from the survey;

(ii) Grass carp may remain in a water body within the 100-year floodplain year-round if a professional plan or drawing that is certified by a licensed engineer is provided which indicates that the entire perimeter of the water body is protected from 100-year floods. In order to prevent grass carp escape, screens, dikes, and devices protecting the water body must be able to remain structurally sound within 100-year floods and not be overtopped by a 100-year flood. The Department reserves the right to have a licensed engineer retained by the agency review and approve or deny the plan or drawing submitted by the applicant.

(b) Tilapia (*Mozambique tilapia Oreochromis mossambicus*, Nile tilapia *O. niloticus*, Wami tilapia *O. urolepis*, Blackchin tilapia *Sarotherodon melanotheron*, and hybrids thereof): The possession, propagation, transportation, sale, purchase, exchange and disposition of these tilapia is controlled according to the following restrictions and standards:

(A) A person intending to sell, barter or exchange must apply for and receive an approved propagation license from the Oregon Department of Fish and Wildlife Fish Propagation Program prior to commencing production. A person may raise tilapia in-doors (a house, greenhouse, or other enclosed structure capable of excluding predators) for personal consumption without an Oregon Department of Fish and Wildlife-Fish Propagation license;

(B) Propagation outdoors must occur in ponds or tanks covered with nets or screens adequate to prevent the capture or transport of cultured fish by predators or other animals;

(C) Access to production facilities must be through secure locked gates;

(D) Only animals certified as disease-free by the vendor may be purchased;

(E) Permittees must provide adequate veterinary care to identify and minimize the spread of diseases originating from the animals being held;

(F) No live tilapia or their gametes, fertilized eggs, or larvae may be released into waters of this State, as defined in ORS 506.006; and

(G) An Oregon Department of Fish and Wildlife fish transport permit shall accompany live tilapia imported into and transported within Oregon. If transport occurs entirely on the permittee's property, a transport permit is not needed.

(A) Stocking will occur only in Phillips Reservoir located in Baker County. No other public or private water bodies will be stocked with tiger muskellunge unless approved by the Commission. Tiger muskellunge will

be stocked into Phillips Reservoir at a rate not to exceed the adult density required to achieve the objectives of the introduction; control abundance of yellow perch to restore the rainbow trout fishery.

(B) Tiger muskellunge may only be obtained and imported from approved suppliers outside of Oregon. Tiger muskellunge may not be propagated or held for further distribution within Oregon. Department pathologists shall approve suppliers. Approval will be based on the ability to provide tiger muskellunge which meet health and disease requirements according to OAR 635-007-0960 through 635-007-0995.

(C) Allowable catch and release only based on management objectives.

(D) Department will establish a monitoring plan and program prior to release which shall include:

(i) Creel monitoring.

(ii) Population monitoring.

(iii) Plans to eradicate or suppress any illegal introductions of pike or muskellunge introductions to Phillips Reservoir.

(iv) Education and outreach.

(E) In conjunction with fish monitoring activities all live tiger muskellunge handled of suitable marking size shall be tagged with a Passive Integrated Transponder (PIT) tag. Each tag shall be programmed with identification number. A list of the PIT tag identification numbers shall be maintained by the District Fish Biologist and submitted to the Invasive Species Wildlife Integrity Coordinator.

(F) Any permit(s) or documentation(s) required for fish import, transport, or stocking shall be obtained prior to and accompany importation and stocking.

(b) The Commission shall accommodate the following Oregon residents with military operational commitments: regular members of the United States Armed Forces (Army, Navy, Air Force, Marines, and Coast Guard), members of the United States military reserves, and members of the National Guard.

(c) The Commission authorizes the Director to make such accommodations by:

(A) Reinstating preference points existing for a series, plus an additional point for participating in the draw.

(B) Reinstating preference points lost after two consecutive years of not applying for a controlled hunt in that series.

(d) Individuals seeking accommodation pursuant to this rule (or immediate family members acting on their behalf) must make a request in writing or in person to the Salem headquarters office. Each request must include a letter from a supervising officer on official unit letterhead verifying operational commitments.

(8)(a) The Director may reinstate the preference points of a person who the Director determines did not or will not participate in a controlled hunt because of:

(A) Circumstances beyond the person's control; or

(B) Tragic personal circumstances.

(b) "Tragic personal circumstances" means:

(A) Death or life-threatening injury or illness in the person's immediate family; or

(B) The person's own serious injury or illness, which results in the person's hospitalization. The person need not be hospitalized during the hunt; this rule also applies if preparation for surgery or recovery after hospitalization renders the person incapable of participating in the hunt.

ADMINISTRATIVE RULES

(c) To apply for reinstatement, the person must provide a sworn affidavit providing adequate details and must return the unused tag if it was purchased or a signed affidavit stating the tag was not used. When relying upon tragic personal circumstances, the person must also provide a sworn affidavit by a physician. When relying upon circumstances beyond the person's control, the person must also provide documentation of the circumstances (such as an accident report or affidavit from an employer).

(d) "Circumstances beyond the person's control" excludes complaints about the quality of a hunt (including, but not limited to, road closures, inclement weather and work being conducted in the hunt area).

(e) If the Director decides that the person does not qualify for reinstatement, the person may appeal that decision to the Oregon Fish and Wildlife Commission (Commission). The Commission must review the Director's decision within 60 days after receipt of appeal. The Commission will not take verbal testimony from the person, and the Commission's decision is final.

(f) If the Director or Commission reinstates a person's preference point under this subsection, the person will be awarded a new point as when classified as "unsuccessful" in the draw and is not entitled to a refund of license or tag fees.

635-075-0005

Registration, Application and Tag Issuance Procedures and Limits for All Controlled Hunts

(1) A landowner shall submit a landowner preference registration form to be eligible for a landowner preference tag. A one-time fee of \$32.00 is required at the time of registration for new program participants. A landowner can have only one registration form on file with the Department. However, an individual who owns (through business entities, in the individual's own name or a combination thereof) more than one property eligible for the landowner preference program may register each such property. The registration form is an affidavit certifying ownership, number of acres owned, the county and Wildlife Management Unit where the property is located. This registration form registers the individual and remains valid until the individual registered no longer qualifies as a landowner as defined under OAR 635-045-0002, writes to the Department requesting the registration form be deleted, or the Department notifies the landowner that a renewal is required.

(2) In addition to having a landowner preference registration form on file with the Department, a landowner or an authorized designee identified by the landowner in writing to the Department shall submit a tag distribution form annually. The tag distribution form shall list the names of the landowner, stockholder(s), partner(s), and their immediate family members to receive tags for pronghorn antelope, and the names of the landowner, stockholder(s), partner(s), their immediate family members, and those persons of the landowners' choosing to receive landowner preference tags for deer and elk.

(3) Landowners shall submit registration forms and landowners or their designee shall submit tag distribution forms prior to September 15 for all controlled 100 series buck deer and bull elk hunts, and through the day prior to the season openings for 600 series antlerless deer, antlerless elk, and either-sex or doe/fawn pronghorn antelope hunts. A Landowner Preference Tag Redistribution fee of \$16.00 will be charged per species for amendments made to the original tag distribution forms.

(4) Registration forms and tag distribution forms are available at no charge in any office of the Department.

(5) Registration forms, tag distribution forms, and applications shall be received at the Salem headquarters office of the Department prior to issuance of any landowner preference tag, except as provided for in OAR 635-075-0007. Landowners are not required to submit proof of ownership with their registration form. Landowners shall be required to submit proof of ownership at the request of the Department or the Oregon State Police acting on behalf of the Department.

(6) A landowner, stockholder(s), partner(s), and immediate family and those persons of the landowners' choosing wishing to also apply for controlled hunt tags shall apply by the May 15 controlled hunt deadline. Listing a hunt choice other than a landowner preference choice is not required.

(7) Everyone shall follow controlled hunt application procedures and regulations as described in OAR Division 060.

(8) The number of landowner preference tags issued is based upon a landowner's acreage. Landowner Preference tags shall be allocated by the following minimum acreage requirements: [Table not included. See ED. NOTE.]

(9) Landowner preference tags for the hunting of deer or elk may be issued to any person of the landowner's choosing, and shall be used for the taking of antlerless animals except as described in OAR 635-075-0005(10). Season dates of the transferred landowner preference tags shall be the same dates as the original tag.

(10) Landowner preference tags for the hunting of antlered deer or elk may be issued to a person of the landowner's choosing who is not a member of the landowner's, partner's, or stockholder's immediate family as follows:

(a) A landowner who is issued only one tag may not transfer that tag.

(b) A landowner who is issued two or more tags may transfer not more than 50 percent of the tags to a person who is not an immediate family member as defined in ORS 496.146 (4). If calculation of the number of tags eligible for transfer under the provisions of this paragraph results in a fraction, the Commission shall round up the number of tags to the next whole number.

(11) A landowner who is qualified to receive landowner hunting preference tags may request two additional tags for providing public access and/or two additional tags for wildlife habitat programs. This request shall be made to the Access and Habitat Board with supporting evidence that the access is significant and the habitat programs benefit wildlife. The board may recommend that the commission grant the request. These tags may not be applied to the options as defined in OAR 635-075-0005(8).

ADMINISTRATIVE RULES

(12) No one shall receive both a controlled hunt tag and a landowner preference tag for the same type of hunt. Landowner hunting preference tags shall not be issued to any person successful in the controlled hunt drawing for the same type of hunt.

(13) Landowner preference tags, except as described in OAR 635-075-0007, 635-075-0010, and 635-075-0015 shall only be issued from the headquarters office of the Department following the controlled hunt drawings.

Rule Caption: Modified Angling Regulations for North Twin Lake due to Rotenone Treatment in November 2015.

Adm. Order No.: DFW 141-2015(Temp)

Filed with Sec. of State: 10-15-2015

Certified to be Effective: 10-16-15 thru 12-31-15

Notice Publication Date:

Rules Amended: 635-018-0090

Rules Suspended: 635-018-0090(T)

Subject: This amended rule postpones the previously authorized closure to angling in North Twin Lake in the Central Zone from October 20 to November 9, 2015, due to the unavailability of the fish toxicant Rotenone. Further rule modifications liberalize catch limits and harvest methods to provide sport fishers increased opportunities to salvage as many game fish as possible. This unanticipated delay in the start of the process to remove unwanted fish species also provides anglers with three additional weeks to salvage any remaining game fish.

Rules Coordinator: Michelle Tate—(503) 947-6044

635-018-0090

Inclusions and Modifications

(1) The **2015 Oregon Sport Fishing Regulations** provide requirements for the Central Zone. However, additional regulations may be adopted in this rule division from time to time and to the extent of any inconsistency, they supersede the 2015 Oregon Sport Fishing Regulations.

(2) North Twin lake is open to angling for all game species through November 8, 2015 with the following restrictions:

(a) Allowed harvest methods are by hand, dip net or angling;

(b) There are no daily catch or possession limits; and

(c) There are no minimum length requirements.

(3) North Twin Lake will be closed to angling from November 9 thru December 31, 2015.

(4) All other regulations as shown in the 2015 Oregon Sport Fishing Regulations remain in effect.

Rule Caption: Payment Limitations in Community-Based Care Settings

Adm. Order No.: APD 18-2015(Temp)

Filed with Sec. of State: 9-21-2015

Certified to be Effective: 9-21-15 thru 3-18-16

Notice Publication Date:

Rules Adopted: 411-027-0170

Rules Amended: 411-027-0005

Subject: The Department of Human Services (Department) is immediately amending OAR 411-027 to add the home and community based care facility rates as a new part of the rule. Adding the rates in to the rule will allow the Department to provide a more public process for rate changes and allow the Department to pay providers of Medicaid services. In order to add these rates into the rule, OAR 411-027-0170 was added as a new rule with the current rate table information. Rules that were impacted by this change will also be amended.

Minor grammar, formatting, and housekeeping changes were done to align the rules with other current program rule and definition changes.

(2) “Activities of Daily Living (ADL)” mean those personal, functional activities required by an individual for continued well-being, which are essential for health and safety. Activities include eating, dressing, grooming, bathing, personal hygiene, mobility (ambulation and transfer), elimination (toileting, bowel and bladder management), and cognition and behavior as described in OAR 411-015-0006.

(3) “ADL” means “activities of daily living” as defined in this rule.

(4) “Aging and People with Disabilities (APD)” means the division of Aging and People with Disabilities, within the Department of Human Services.

The term Area Agency on Aging is inclusive of both Type A and Type B Area Agencies on Aging as defined in ORS 410.040 and described in ORS 410.210-300.

(5) “Assessment” means the process of evaluating the functional impairment levels for service eligibility, including an individual’s requirements for assistance or independence in performing activities of daily living and instrumental activities of daily living and determining nursing facility services. The Department requires use of the Client Assessment and Planning System (CA/PS) as the tool used to determine service eligibility and planning.

(6) “Assistive Devices” means any category of durable medical equipment, mechanical apparatus, electrical appliance, or instrument of technology, service animals, general household items, or furniture used to assist and enhance an individual’s independence in performing any activity of daily living.

(7) “CA/PS” means the “Client Assessment and Planning System” as defined in this rule.

(C) Identifying risk factors, individual choices and preferences, and the status of service needs.

(b) The CA/PS documents the level of need and calculates the individual’s service priority level in accordance with the rules in OAR chapter 411, division 015, calculates the service payment rates, and accommodates individual participation in service planning.

(13) “Cost Effective” means being responsible and accountable with Department resources. This is accomplished by offering less costly alternatives when providing choices that adequately meet an individual’s service needs. Those choices consist of the available services under the Medicaid home and community-based service options, the utilization of assistive devices, natural supports, architectural modifications, and alternative service resources (defined in OAR 411-015-0005) not paid for by the Department.

(14) “Department” means the Department of Human Services (DHS).

The term homecare worker also includes consumer-employed providers that provide state plan personal care services to older adults and adults with physical disabilities. Relatives providing Medicaid in-home services to an individual living in the relative’s home are considered homecare workers.

(b) The term homecare worker does not include Independent Choices Program providers or personal care attendants enrolled through the Office of Developmental Disability Services or the Addictions and Mental Health Division.

(17) “Hourly Services” mean the in-home services, including activities of daily living and instrumental activities of daily living, that are provided at regularly scheduled times.

(2) The ICP is limited to a maximum of 2,600 participants.

(a) The Department establishes and maintains a waiting list for individuals eligible for in-home services requesting ICP after the ICP has reached its maximum.

(b) The Department enters eligible individual's names on the waiting list according to the date the individual applied for participation in ICP.

(c) As vacancies occur, eligible individuals on the waiting list are offered the ICP according to his or her place on the waiting list.

(d) Individuals on the waiting list may receive services through other appropriate Department programs for which they are eligible.

(E) Provide evidence of a stable living situation for the past three months; and

(F) Demonstrate the ability to manage money as evidenced by timely and current utility and housing payments.

(A) Complete a background check pursuant to OAR chapter 407, division 007 and receive a final fitness determination of approval; and

(B) Sign and adhere to the "Independent Choices Program Representative Agreement" on behalf of the participant.

(c) If a participant is unable to manage ICP cash payment accounting, tax, or payroll responsibilities and does not have a representative, the participant must arrange and purchase the ongoing services of a fiscal intermediary, such as an accountant, bookkeeper, or equivalent financial services.

(A) A participant, or the participant's representative who has met the eligibility criteria in subsection (b) of this section, may also choose to use a fiscal intermediary.

(B) The participant is responsible for any fees or payment to the fiscal intermediary and may allocate the fees or payment from discretionary or other non-ICP funds.

(4) DISENROLLMENT CRITERIA. Participants may be disenrolled from the ICP voluntarily or involuntarily. Participants who are disenrolled from the ICP may not reapply for six months. After the six month disenrollment period, an individual may re-enroll and must meet all ICP eligibility requirements. If the ICP enrollment cap has been reached, participants who were disenrolled are added to the waiting list.

(a) VOLUNTARY DISENROLLMENT. Participants or representatives must provide notice to the Department of intent to discontinue participation in the ICP. The participant or the representative must meet with the Department to reconcile remaining ICP cash payment either within 30 days of the date of disenrollment or before the termination date, whichever is sooner.

(d) A representative may not be an employee provider regardless of relationship to the participant.

(e) A participant's relative may be employed as an employee provider.

(7) **CASH BENEFIT.**

(a) The cash benefit is determined based on the participant's CA/PS assessment of need, service plan, level of assistance standards in OAR 411-030-0070, and natural supports.

(b) The cash benefit is calculated by adding the ADL task hours, the IADL task hours, and the live-in services hours that the participant is eligible for as determined in the CA/PS assessment, at the rates according to the Department's rate schedule.

(10) **DISCRETIONARY FUND.**

(b) The maximum amount of discretionary funds may be up to 10 percent of the participant's cash benefit not including employee taxes.

(c) The discretionary fund must be approved by the case manager, identified in the service budget, and related to service plan needs.

(11) **ISSUING BENEFITS.**

(b) A cash benefit is considered issued and received by the participant when the direct deposit is made to the participant's ICP bank account or a benefit check is received by the participant.

(c) The cash benefit is exempt from resource calculations for other Department programs only while in the ICP bank account and not commingled with other personal funds.

Subject: The Department of Human Services, Office of Child Welfare Programs, is amending rules in chapter 413, division 70, about substitute care to implement provisions of Oregon Laws 2015, chapters 254, 295, and 840.

Oregon Laws 2015, chapter 254 (HB 2908, which brings Oregon into compliance with the Preventing Sex Trafficking and Strengthening Families Act of 2014) requires the Department to: establish the “reasonable and prudent parent” standard to guide the Department and caregivers in making decisions about whether to allow foster youth to engage in typical and appropriate childhood activities; implement improvements to APPLA (Another Planned Permanent Arrangement); and create a new placement option known as the “fit and willing relative.” Specifically:

- OAR 413-070-0000 is amended to define “reasonable and prudent parent standard” as a standard characterized by sensible parental decision-making that protects a child or young adult, while also encouraging developmental growth, to be used when determining whether to allow a child or young adult in substitute care to participate in activities.

- OAR 413-070-0000 is amended to define “age-appropriate or developmentally appropriate activities” as activities generally suitable for the age and abilities of a child or young adult.

- OAR 413-070-0600 to 413-070-0645 about placement matching are amended to require the Department to consider whether a potential substitute care placement has the ability to support the interests of the child or young adult to participate in appropriate extracurricular activities.

-OAR 413-070-0520 to 413-070-0565 about APPLA (Another Planned Permanent Living Arrangement) are being amended to:

-- Require the Department to review Department’s efforts to ensure the child has ongoing opportunities to engage in appropriate extracurricular activities, include it in the case plan, and provide it to the court at permanency hearings;

-- Eliminate APPLA for children under the age of 16;

-- Establish new case review requirements for children on APPLA; and

-- Establish new permanency hearing requirements:

- Asking the child about the desired permanency outcome;

- Requiring a compelling reason why other permanency plan options are not in the child’s best interest; and

- Making a judicial determination regarding the Department’s efforts to ensure the child has ongoing opportunities to engage in appropriate extracurricular activities.

ADMINISTRATIVE RULES

- OAR 413-070-0990 to 413-070-1060 about the “fit and willing relative” placement are being adopted to:

-- Create the option to place a child or young adult with a relative or person with a caregiver relationship

-- State that this placement option may only be used when more preferred placements are not in the best interest of the child or young adult

-- Require an individual to meet the following requirements before being considered as a fit and willing relative:

- Be a relative of the child or a person with a caregiver relationship

- Be approved by the Department as a long-term resource

- Have a current certificate of approval

Oregon Laws, chapter 795 (SB 741) requires the Department to give equal status and priority to relatives and current caretakers as is given to prospective adoptive parents with regard to child safety, attachment, and well-being. OAR 413-070-0500 to 413-070-0519 about legal permanency, concurrent planning, and use of a permanency committee are amended to reflect those policies. This makes permanent temporary rules adopted on September 1, 2015.

Oregon Laws 2015, chapter 840, section 16 (SB 501) expands guardianship assistance eligibility to include a child who is ineligible for Title IV-E funded guardianship assistance. OAR 413-070-0909 and 413-070-0917 about funding and eligibility for guardianship assistance are amended to establish eligibility criteria. This makes permanent a temporary rule adopted on August 19, 2015. OAR 413-070-0918 is also being adopted to establish criteria for extending a guardianship assistance agreement.

Non-substantive changes were also made throughout the division to improve readability and organization; repeal unnecessary rules; correct and improve grammar; and update rule and statutory references.

ICWA Procedures at Initial Contact

This section presents the initial steps to follow in providing services and taking legal action for child custody proceedings covered by the ICWA.

(1) Determination of Indian Status:

(a) Oral inquiry must be made in every case which involves or could involve changes in custody to determine whether the case involves an Indian child. Department staff must routinely request racial or ethnic data of parents or guardian by reading aloud from the intake form the racial and ethnic categories for the client’s self-identification. If the child’s parents are unavailable or unable to provide a reliable answer regarding the Indian heritage of their child, Department staff must consider:

(A) All documentation in the file, including contact with previous caseworkers, if any;

ADMINISTRATIVE RULES

(B) Close observation of the physical characteristics of the child, parents, and other siblings or relatives accompanying the child;

(C) Consultation with relatives and collateral contacts providing information which suggests the child or parent may be Indian; and

(D) Examination of any other information bearing on the determination of the child's Indian heritage, such as communication from other sources including Indian tribes and organizations.

(b) If, in following the above steps, information obtained suggests the child may be of Indian heritage but the tribe cannot be determined, staff must contact the Department ICWA Manager to determine if:

(A) The birth place of the child or parent, or the current or former residence of the child or parent is known to be a common residence of Indian families; and

(B) The surname of the child or parent is one which is known to be common among members of Indian tribes.

(2) Determination of Indian Tribe. If it appears the child is of Indian heritage, the caseworker must determine the tribe in which the child is a member or eligible for membership. Department staff must ask the parent or custodian of the child about the tribe with which the child may be affiliated. If this inquiry does not provide the necessary information, Department staff must, at a minimum, contact the following:

(a) Relatives and extended family members.

(b) Indian tribes and organizations in Oregon, such as the Commission on Indian Services.

(c) The appropriate Bureau of Indian Affairs (BIA) Office.

(3) ICWA Eligibility. For a child to be considered an Indian under ICWA, the child must be:

(a) An unmarried person under the age of eighteen; and

(b) A person who is either a member of a federally-recognized Indian tribe or eligible for membership in a federally-recognized Indian tribe and the biological child of a member of an Indian tribe;

(c) In order for the worker to determine if the child is a tribal member or eligible for membership, the tribe or possible tribes identified must be contacted.

(4) Tribal Membership:

(a) A tribal determination of membership is conclusive because each tribe defines the criteria for membership in the tribe and determines who meets those criteria. Inquiries to the tribe must be sent "Return Receipt Requested" to a membership committee, an enrollment clerk, or individual who is accustomed to responding to questions about tribal membership.

(A) If the tribe does not respond, Department staff must contact the tribe by telephone. If the tribe cannot be reached by phone, the caseworker must contact the local Bureau of Indian Affairs Area Office and the ICWA Manager for assistance.

(B) The caseworker must request that all information given be treated confidentially.

(b) If the child is a member of one tribe and eligible for membership in others, the tribe of actual membership is the child's tribe. If the child is not now a member of a tribe, the caseworker must ascertain whether the child is eligible for membership and is the biological child of a member of a federally-recognized Indian tribe. To do this, the caseworker asks:

(A) The child, when the child is old enough to respond;

(B) The parents or relatives, including in-laws, as appropriate; and

(C) The tribe.

(5) Out-of-State Tribes. When an Indian child is a member of or eligible for membership in a federally-recognized tribe located in another state, the Act applies and all applicable provisions, including provisions governing notification of the tribe, must be followed.

(6) Multi-Tribal Membership:

(a) The child may be eligible for membership in more than one tribe. In that case the Indian child's tribe is the tribe with which the child has the most significant contacts. In considering with which tribe the child has the most significant contacts, the caseworker shall investigate:

(A) The length of residence on or near the reservation of each tribe and the frequency of contacts with each tribe;

(B) The child's participation in activities of each tribe;

(C) The child's fluency in the language of each tribe;

(D) Whether there has been a previous adjudication with respect to the child by a court of one of the tribes;

(E) Residence on or near one of the tribes' reservation of the child's relatives;

(F) Tribal membership of custodial parent or Indian custodian; and

(G) Interest asserted by each tribe in response to the notice specified in OAR 413-070-0210.

(b) Documentation of such investigation shall be submitted to the court so that it can consider the comparative interests of each tribe in the child's welfare in making its decision on the matter.

(7) Enrollment of Indian Clients. If the child is not a member of the child's tribe, but is applying to become a member, the caseworker must proceed as though the child is a member and follow the requirements of the Act. Department staff must assist the family in filling out and returning required paperwork to the appropriate tribe and, as necessary, counsel parents hesitant to enroll a child by emphasizing the positive benefits of tribal enrollment and membership.

(8) ICWA Not Applicable. Once determined, tribal status must be clearly documented in the case record, along with the date and source of documentation. An Indian child who is officially determined by the tribe not to be a member of nor eligible for membership is not subject to the requirements of the Indian Child Welfare Act. In such cases, Department staff must:

(a) Document in the case record steps taken to determine the child's Indian or tribal ancestry and the tribe's written statement declaring the child ineligible for membership; and

(b) Incorporate in any court hearing the tribe's written statement declaring the child ineligible for membership.

(9) Cultural Heritage Protection. In instances where the ICWA does not apply, but the child is biologically an Indian or considered an Indian by the Indian community, the Department must respect the child's right to participate in the culture of origin in case planning, particularly if the child is identifiably Indian by physical features or social relationship.

APPLA

The caseworker considers one of the following types of APPLA when considering APPLA as a permanency plan for a child who has reached the age of 16 or young adult:

(1) APPLA — permanent foster care. APPLA — permanent foster care is a plan in which the child or young adult remains in a substitute care placement with a substitute caregiver who has:

(a) Committed to the care and well-being of the child or young adult; and

(b) Entered into a permanent foster care agreement.

(2) APPLA — permanent connections and support. An APPLA — permanent connections and support plan is a plan in which:

(a) A child or young adult is in substitute care living with a substitute caregiver or living independently and receiving an independent living housing subsidy and the plan focus is not only on the educational, vocational, health, and treatment needs of the child or young adult, but also on the needs of the child or young adult to develop or maintain relationships with adults, including relatives and persons with a caregiver relationship, who can play a significant role in the life of the child or young adult after the child or young adult leaves substitute care; or

(b) A child or young adult is in a psychiatric residential facility, developmental disabilities placement, or residential treatment facility and is not going to be discharged from the facility while the Department maintains legal custody of the child or young adult.

Consideration of APPLA as a Permanency Plan

(1) Department consideration of APPLA as a permanency plan must be based on the individual safety, permanency, and well-being needs of a child who has reached the age of 16 or young adult. The age or disability of a child or young adult is never a disqualifier for a more preferred permanency plan.

(2) The Department may only consider APPLA as a permanency plan for a child who has reached the age of 16 or young adult only if the Department has determined it is not in the best interests of the child or young adult to implement one of the following preferred permanency plans:

(a) Placement with a parent;

(b) Placement in an adoptive home;

(c) Placement with a legal guardian; or

(d) Placement with a fit and willing relative.

(3) Prior to consideration of a foster parent as the APPLA resource, the caseworker and his or her supervisor must:

(a) Review the diligent efforts of the Department to place a child or young adult with relatives and to place siblings together as required under OAR 413-070-0060 to 413-070-0087.

(b) Confirm there are no current Department actions to identify or assess a relative of a child or young adult who has expressed an interest in being a permanency resource.

(1) When the Department is considering a change in the permanency plan of a child or young adult, the Department makes the determination pursuant to OAR 413-070-0500 to 413-070-0519.

(2) Prior to the permanency committee, when APPLA - permanent foster care is being considered as the most appropriate permanency plan for a child or young adult, the caseworker must:

(a) Meet with the substitute caregiver to:

(A) Assess interest in and commitment to a permanent foster care agreement with each substitute caregiver as long as APPLA - permanent foster care is the permanency plan for the child or young adult; and

(B) Review the requirements, responsibilities, and approval process for the permanent foster care agreement with each substitute caregiver.

(b) Meet with the child or young adult, as developmentally appropriate and, at the option of the child or young adult, up to two members of the case planning team who are chosen by the child or young adult to assess interest in APPLA - permanent foster care as the permanency plan.

(5) At the hearing, the caseworker must provide the court:

(a) The intensive, ongoing efforts by the Department to achieve reunification, adoption, guardianship, or placement with a fit and willing relative;

(b) The compelling reasons reunification, adoption, guardianship, and placement with a fit and willing relative would not be in the best interests of the child or young adult;

(c) A recommendation that the court issue an order approving the APPLA plan;

(d) The steps the Department has taken to ensure the foster parent applies the reasonable and prudent parent standard and provides opportunities for the child or young adult to engage in age-appropriate or developmentally appropriate activities;

(e) A timetable for placement of the child or young adult in another planned permanent living arrangement;

(f) The reasonable services the Department may offer each parent to meet the best interests of the child or young adult until a more preferred permanency plan is achieved, the child reaches the age of majority, reaches independence, or the juvenile court relieves the Department of legal custody of the child or young adult; and

(g) The type and amount of contact and involvement between the parent and child or young adult and between the sibling and child or young adult until a more preferred permanency plan is achieved, the child reaches age of majority, reaches independence, or the juvenile court relieves the Department of legal custody of the child or young adult.

(6) When the Department recommends contact be limited or prohibited between a parent and child or young adult or between a sibling and child or young adult, the caseworker must make the request to the court, and include the reasons contact should be limited or prohibited.

(7) Within 30 days of the Department or court decision not to approve the APPLA plan the caseworker must:

Purpose

The purpose of OAR 413-070-0800 to 413-070-0880 is to describe the Department's responsibilities in arranging frequent contact between the child or young adult in substitute care and parents or guardians of the child or young adult, siblings, and other people with whom the child or young adult has a significant connection. In all cases, the contact is intended to:

(1) Be in the best interests of the child or young adult, develop or enhance attachment with the family of the child or young adult, including siblings, and continue relationships with significant others, including siblings;

(2) Reduce the trauma to the child or young adult associated with separation from primary attachment figures; and

(3) Assure that the safety and well-being of the child or young adult are the paramount concerns in developing a child-family contact plan.

Visitation Rights

(1) The child or young adult, a parent or guardian, and each sibling have the right to visit each other while the child or young adult is in substitute care. The child or young adult, the parent or guardian, and each sibling have the right to visit as often as reasonably necessary to develop and enhance their attachment to each other.

(2) The Department will prohibit or cancel visits, unless otherwise ordered by the court, when:

(a) There is reason to believe acts or omissions of a parent or guardian would result in child abuse or neglect during the visit;

(b) The safety of the child or young adult cannot be managed by supervision;

(c) The visit does not meet the best interests of the child or young adult; or

(d) A court order prohibits visits.

(3) When Department resources alone cannot meet the family contact and visitation needs of the child or young adult, the caseworker must solicit help from family and community resources.

(4) If a parent or guardian objects to the contact and visit requirements and limitations that the Department imposes, the parent or guardian may seek juvenile court review of the requirements and limitations.

Determining Priority in Visit and Contact Plans

(1) Unless the court has entered an order regarding visitation by the parents, guardians, siblings, or grandparents of the child or young adult, the caseworker determines a hierarchy of the attachments of the child or young adult and prioritizes visits with the parents or guardians and siblings. The caseworker may consider the preferences expressed by the child or young adult.

(2) When the permanency plan is reunification with a parent or guardian, the first priority of the caseworker is to provide visits with parents or guardians, siblings, and each intervenor granted visitation by the court.

(3) When the permanency plan is a plan other than reunification with the parents or guardians, the visitation priority of the caseworker is to preserve attachment to parents or guardians and siblings and promote attachment of the child or young adult to the permanent placement resource.

(4) When appropriate, the caseworker may establish visits between the child or young adult and family members.

(5) When appropriate, the caseworker may establish visits between the child or young adult and non-related persons with whom the child or young adult has a significant attachment.

(e) Determines that the guardian has not complied with the requirements of the guardianship assistance agreement.

(2) Department review of a guardianship assistance agreement may result in a renegotiation, suspension, adjustment, or termination of the guardianship assistance agreement or guardianship assistance payments.

(3) Guardianship assistance may be adjusted at any time by mutual agreement between the guardian and the Department.

(4) When there is an across-the-board reduction or increase in the base rate payment or level of care payment that the child or young adult would be eligible to receive if the child or young adult were in foster care, the Department may, after a case-by-case review and without concurrence of the guardian, adjust the monthly guardianship assistance payment to an amount that does not exceed the new foster care payment the child or young adult would be eligible to receive if currently in foster care, as follows:

(a) In the case of a reduction, only those payments that exceed the amount the child or young adult would be eligible for if currently in foster care would be reduced, and the reduction would only be to the amount that the child or young adult would be eligible to receive if currently in foster care.

(b) In the case of an increase, the Department, considering the needs of the child or young adult and the circumstances of the guardian, may increase the guardianship assistance payment to an amount that does not exceed the new foster care payment the child or young adult would receive if currently in foster care.

(5) If, upon review under section (1) of this rule or an adjustment under section (4) of this rule, the Department intends to adjust guardianship assistance without the concurrence of the guardian, the Department will provide the guardian and the child or young adult with written notice as described in OAR 413-010-0500 to 413-010-0535.

(6) Unless terminated under sections (7) or (8) of this rule, the guardianship assistance agreement and the Department's obligation to provide guardianship assistance expires automatically on the date any of the following events occur:

(a) When the child:

(A) Reaches the age of 18 or, when an extension has been granted under OAR 413-070-0918, no later than the date identified in the guardianship assistance agreement;

(B) Is emancipated;

(C) Dies;

(D) Marries;

(E) Is adopted; or

(F) No longer meets the requirements for continued guardianship assistance if the Department has agreed to continue guardianship assistance under OAR 413-070-0918.

(b) A guardian dies, or if more than one guardian, both die.

(c) The court:

(A) Vacates the guardianship order or otherwise terminates the guardianship;

(B) Terminates wardship over the child or young adult, unless the guardianship is a tribal court guardianship and the guardianship remains in effect under tribal law; or

(C) Appoints another individual as guardian of the child or young adult.

(7) Guardianship assistance may be suspended at any time by mutual agreement between the Department and the guardian.

(8) After a review and on a case-by-case basis, the Department may terminate a guardianship assistance agreement upon ten calendar days written notice to the guardian when the Department determines that:

(a) The guardian is no longer responsible for the child or young adult;

(b) The guardian is no longer providing support to the child or young adult; or

(c) The child or young adult is no longer eligible for guardianship assistance or is eligible for guardianship assistance in a different amount.

(9) If a child receiving guardianship assistance is subsequently adopted by the guardian, the child may be eligible for adoption assistance under OAR 413-130-0000 to 413-130-0130.

Additional Screening Activities

In the specific circumstances described below, the screener must complete additional activities to complete the screening process.

(1) The screener receives information on an open CPS assessment.

(a) When a screener receives duplicate information (same alleged victim, same alleged perpetrator, same allegation of child abuse or neglect, and same incident dates) on an open CPS assessment, the screener must:

(A) Inform the reporter that a new screening report will not be documented because the information has already been received;

(B) Provide the reporter with the assigned caseworker's name and phone number; and

(C) Provide contact information about the reporter and any information the screener received to the assigned caseworker.

(b) When a screener receives information that constitutes a new report of child abuse or neglect as defined in ORS 419B.005 on an open CPS assessment, the screener must:

(A) Document the information in a new screening report form; and

(B) Notify the assigned CPS worker and their supervisor of all new information received on the same day the information is received, and document this notification in the Department's electronic information system.

(c) When a screener receives information that constitutes a closed at screening on an open CPS assessment, the screener must:

(A) Document the information in a new screening report form; and

(B) Notify the assigned CPS worker and their supervisor of all new information received on the same day the information is received, and document this notification in the Department's electronic information system.

(2) The screener receives new information on an open Department case.

(a) When a screener receives new information on an open Department case, the screener must:

(A) Consult with a CPS supervisor;

(B) Notify each assigned case worker and their respective supervisors of all new information received on the same day the information is received, and document this notification in the Department's electronic information system's case notes; and

(C) Complete notification on the same day the information is received.

(b) When a screener receives a new report of child abuse or neglect, as defined in ORS 419B.005, but there is no open CPS assessment, the screener must document the information in a new screening report form.

(c) The information received by a screener on an open Department case that will not be documented in a new screening report form but must be documented in the Department's electronic information system's case notes includes:

(A) Additional information on an open case that does not meet the criteria for a new CPS assessment or closed at screening;

(B) When an in-home protective action plan, initial safety plan, or ongoing safety plan is violated, but the violation is not a new incident of child abuse or neglect;

(C) Reports of an ongoing concern in an open case, which the Department is currently addressing;

(D) Reports of a missing child or young adult; and

(E) Any requests for case information received by the screener.

(3) When a screener receives information related to the home of a Department certified foster parent or relative caregiver, the screener must notify and document that the screener has notified each assigned case worker, assigned certifier, and their respective supervisors of all information received (see OAR 413-200-0404 to 413-200-0424).

(4) When a screener receives information related to a minor parent as an alleged perpetrator:

(a) The screener must gather information to determine if there is a report of abuse or neglect with the minor parent as an alleged victim.

(b) If the screener determines there is a report of abuse or neglect of the child of the minor parent with the minor parent as an alleged perpetrator and another report with the minor parent as an alleged victim, the screener must document the information in the following manner to determine when to use the mother or father's name as the case name:

(A) The allegation with the minor parent as an alleged perpetrator must be documented with the mother or father of the alleged victim as the case name (the mother or father being a minor does not preclude them from being the case name); and

(B) The allegation with the minor parent as an alleged victim must be documented with the mother or father of the minor parent as the case name.

(5) When a screener receives a report of a child fatality alleged to be the result of abuse or neglect or involving a child known to the Department, the screener must:

(a) Consult with a CPS supervisor;

(b) Refer to the Child Welfare "Fatality Protocol";

(c) Complete a screening report form identifying in the Department's electronic information system that the report involves a child fatality;

(d) Notify the CPS consultant; and

(e) Complete subsections (a) through (d) of this section even when there are no siblings to the deceased child and no other children in the home where the fatality occurred.

CPS Assessment Activities

The required CPS assessment activities are outlined below. The activities are described in a logical order in these rules, but the order in which they occur is controlled by the specific circumstances in a given case.

(1) Review Records.

(a) The assigned CPS worker must:

(A) Thoroughly review the documentation in the referral;

ADMINISTRATIVE RULES

(B) Thoroughly review the paper and electronic records maintained by the Department for historical information on the family and the child that may be useful in completing the CPS assessment;

(A) Present danger safety threats or impending danger safety threats;

(B) History or a pattern of abuse or neglect;

(C) Child and family support systems and protective capacity; and

(B) Consult with the district attorney or the assistant attorney general to obtain a court order for records from a collateral source, if the source is unable or unwilling to share information with the Department.

(4) Consult with CPS Supervisor.

(a) The CPS worker must consult with a CPS supervisor or designee:

(A) When the CPS worker has reasonable cause to believe the alleged perpetrator is an employee of any program, office, or division of the Department of Human Services or Oregon Youth Authority (OYA);

(B) When a referral involves the home of a Department certified foster parent or relative caregiver;

(C) When a referral involves allegations that child abuse or neglect occurred in a private child-caring agency;

(D) When a CPS worker receives notification from a screener that a closed at screening or new referral was created on an open CPS assessment;

(E) Prior to a decision to place a child in protective custody, or after placement if consultation before placement will delay the safety intervention;

(F) Prior to initiating court action, or after initiating court action if consultation before will delay the safety intervention;

(G) Prior to developing an initial safety plan with a Department certified foster parent or relative caregiver;

(H) When the referral involves a child fatality;

(J) When closing an assessment with the disposition of "unable to locate".

(b) Subject to the discretion of the CPS supervisor, the CPS worker will consult with a CPS supervisor or designee at additional key points during the assessment, such as:

(A) Before making initial contact with the family; or

(B) When a referral indicates potential danger to the worker.

(5) Contact and Work with Other Entities.

The CPS worker may need to work with representatives of other entities to gather and analyze safety-related information, develop a sufficient protective action plan, initial safety plan, or ongoing safety plan, and to complete the CPS assessment.

(a) The CPS worker may, as appropriate, notify or consult with other Department of Human Services programs or other agencies, including but not limited to the Office of Vocational Rehabilitation Services and Animal Control.

(b) The CPS worker must report to or contact and work with other entities as follows:

(A) Office of Child Care. The CPS worker must notify and coordinate with the Compliance Unit of the Office of Child Care when a report involves a registered day-care home or a licensed day-care center, as required by ORS 419B.020(1).

(B) Oregon Youth Authority (OYA). The CPS worker must notify OYA when the allegation involves an OYA certified foster home.

(C) Office of Adult Abuse Prevention and Investigation (OAAPI). The CPS worker must notify the OAAPI when an allegation involves a child with intellectual or developmental disabilities in a residential group home licensed by the Office of Developmental Disabilities Services.

(D) Office of Licensing and Regulatory Oversight. The CPS worker must notify the Office of Licensing and Regulatory Oversight Children's Care Licensing Unit when the allegation involves a licensed private child-caring agency which is not a Children's Care Provider (CCP).

(E) Community Mental Health Program, Community Developmental Disabilities Program, or Adult Protective Services. The CPS worker must make a report to the Community Mental Health Program, Community Developmental Disabilities Program, or the local Adult Protective Service office when the CPS worker has reasonable cause to believe:

(i) That any person 18 years of age or older with a mental illness, a developmental disability or a physical disability, or any person 65 years of age or older, with whom the CPS worker comes into contact while acting in an official capacity, has suffered abuse.

(ii) That any person with whom the CPS worker comes into contact, while acting in an official capacity, has abused a person 18 years of age or older with a mental illness, a developmental disability or a physical disability, or any person 65 years of age or older.

(F) Indian Tribes. If the CPS worker knows or has reason to know that the child is an Indian child, the CPS worker must give notice within 24 hours to the Indian child's tribe that a CPS assessment is being conducted unless the screener documented completion of this notification in the referral.

(G) Probation and Parole. The CPS worker must contact probation and parole when the allegation involves a parent or caregiver, or alleged perpetrator who is supervised by probation or parole.

(H) Law Enforcement. If the screener did not cross report, the CPS worker must contact one or more law enforcement agencies (LEA) in accordance with the protocols of the local MDT agreement and in accordance with cross reporting rules, OAR 413-015-0300 to OAR 413-015-0310. When there is a joint response involving a CPS worker and LEA staff, the CPS worker is still responsible for all of the activities necessary to complete a CPS assessment which are summarized in OAR 413-015-0400. The CPS worker must, in consultation with a CPS supervisor, determine whether to coordinate assessment activities with LEA in the following situations:

(i) Presence of danger. When the CPS worker has information that indicates that the child is unsafe right now.

(ii) Family cooperation. When the CPS worker has information that the family may not allow the CPS worker to observe the alleged victim or other children in the home.

(iii) Protective custody. When the CPS worker has information that a child may need to be placed in protective custody for the child's safety.

(iv) Child interview. When the CPS worker and the LEA officer must each interview a child, it is preferable to coordinate the interviews to reduce the number of interactions with the child.

(v) Worker safety. When the CPS worker has information that indicates the family behaviors, conditions, or circumstances could pose a danger to the CPS worker.

(vi) Crime committed. When the CPS worker suspects or receives a report that a crime may have been committed.

(I) Public or Private Schools. The CPS worker may interview a child at school when the worker believes it will be the best environment in which to assure a child's safety when making contact with the child. ORS

ADMINISTRATIVE RULES

419B.045 provides requirements for CPS investigations that are conducted on school premises. The CPS worker must do following:

(i) Notify the school administrator that a CPS assessment must be conducted. If the school administrator is a subject of the CPS assessment, then notification is not required.

(ii) Report to the school office, provide identification, inform school personnel of the CPS assessment, and provide the name of the child to be interviewed.

(iii) Request information from school personnel regarding the disabilities of the child, if any, prior to an interview with the affected child.

(iv) Interview the child out of the presence of other persons, unless the CPS worker believes the presence of a school employee or other person would facilitate the interview. If the CPS worker believes that a school employee does not need to be present, but the school employee insists on being present during the interview, the worker may confer with the CPS supervisor for assistance in handling the situation.

(v) Discuss further actions with the child at the conclusion of the interview.

(vi) Inform school personnel when the interview has been completed.

(vii) Inform school personnel if the child is taken into protective custody.

(viii) Inform school personnel that the CPS worker will notify parents of the interview.

(ix) Contact the CPS supervisor if school officials refuse to allow the assessment to take place on school property.

(J) Multi-Disciplinary Teams (MDTs). Department district managers must develop interagency agreements regarding assessment of child abuse and neglect, as necessary, with local MDTs. Requirements for MDT protocols are set out in ORS 418.747.

(6) Obtain Interpreters and Translation. The CPS worker must obtain the services of a competent interpreter and competent written translation service for families, including hearing-impaired family members, who have limited or no means of communicating in or reading English.

(7) Determine Indian Child Welfare Act (ICWA) Status and Comply with ICWA, if Applicable.

The CPS worker must initiate the process to determine the child's ICWA status and notify the Indian child's tribe if ICWA applies. To initiate this process, the CPS worker must:

(a) Assure completion of a form CF 1270, "Verification of ICWA Eligibility", to assist in determining ICWA eligibility.

(b) Contact the child's tribe when an Indian child is the subject of a CPS assessment. Federally recognized tribes must be notified within 24 hours after information alleging abuse or neglect is received by the Department.

(c) If the Indian child is enrolled or eligible for enrollment in a federally recognized tribe, notify the child's tribe if the child may be placed in protective custody.

(d) Consult with the local Department ICWA liaison, a supervisor, or the ICWA manager if the worker has questions regarding the involvement of a tribe or the ICWA status of a child.

(e) Make a diligent attempt to address the following when determining the placement resource:

(A) Contact the tribe's social services department;

(B) Search for relative resources;

(C) Search for available Indian homes; and

(D) Contact other Indian tribes and other Indian organizations with available placement resources.

(f) Unless the Indian child's tribe has established a different order of preference, comply with the ICWA placement preference, which is:

(A) Placement with a member of Indian child's extended family.

(B) Placement with a foster family that is licensed, approved or specified by the Indian child's tribe.

(C) Placement with an Indian foster home licensed or approved by an authorized non-Indian licensing authority.

(D) Placement with an institution for children approved by an Indian tribe or operated by an Indian organization which has a program suitable to meet the Indian child's needs.

(8) Determine Refugee Status and Comply with the Refugee Children Act, if applicable. During a CPS assessment, the CPS worker must consider whether the child is a refugee child. Under ORS 418.925, a "refugee child" is a "person under 18 years of age who has entered the United States and is unwilling or unable to return to the person's country because of persecution or a well-founded fear of persecution on account of race, religion, nationality, membership in a particular group or political opinion, or whose parents entered the United States within the preceding 10 years and are or

were unwilling or unable to return to their country because of persecution or a well-founded fear of persecution on account of race, religion, nationality, membership in a particular group or political opinion."

(a) If it appears that a child is a refugee child, the CPS worker must ask about the child or parents' country of origin, length of time the child or parents have been in the United States, reasons why the child or parents came to the United States, and ethnic and cultural information relevant to the child's status as a refugee. The CPS worker does not have to make a legal determination that the child and parent are refugees, but if the child or the parents indicate they are refugees, then the CPS worker must proceed as if they are, until or unless it is known that they are not refugees.

(b) The CPS worker may not take a refugee child into protective custody unless, in addition to the other requirements for taking a child into custody, the CPS worker determines that:

(A) Removal is necessary to prevent imminent serious emotional or physical harm to the child; and

(B) Reasonable efforts to alleviate the harm through remedial or preventive services do not alleviate the harm, have failed, or are not practical in an emergency situation.

(c) Unless it is a voluntary placement, no refugee child may remain in placement more than five days unless there has been a judicial determination, supported by clear and convincing evidence that:

(A) Preventative or remedial services provided by the Department have failed to alleviate the need for removal; and

(B) Return to the home will likely result in psychological or physical damage to the child.

(d) When a refugee child is placed in care, the juvenile court petition must include, in addition to the information required by ORS 419B.809, the following information:

(A) A specific and detailed account of the circumstances that led the Department to conclude that the child was in imminent danger of serious emotional or physical harm;

(B) Specific actions the Department has taken or is taking to alleviate the need for removal;

(C) Assurance that the Department has complied with placement preferences listed in ORS 418.937 and listed in subsection (e) of this section; and

(D) Assurance that the Department is making or has made diligent efforts to locate and give notice to all affected refugee family members and to the Refugee Child Welfare Advisory Committee that the petition has been filed.

(e) The CPS worker must consider the refugee child's culture and tradition when making any placement decision for a refugee child and, unless shown to be inappropriate and inconsistent with the best interests of the child, place the child with the following in order of preference:

(A) Natural parents.

(B) Extended family member.

(C) Members from the same cultural heritage.

(D) Persons with knowledge and appreciation of the child's cultural heritage.

(f) The CPS worker may determine that placement under subsection (e) of this section is inappropriate and inconsistent with the best interests of the child if:

(A) The preferred placement presents a threat to the child's safety;

(B) The extreme medical, physical, or psychological needs of the child cannot be met in the placement; or

(C) There is an informed request from either of the child's biological parents not to use a placement, if the request is consistent with stability, security, and the individual needs of the child.

(g) When a juvenile court petition is filed and a refugee child is placed in care, the CPS worker must staff the case with the Refugee Child Welfare Advisory Committee (RCWAC). The CPS worker must contact the International Case Consultant for the Department to arrange a time for the staffing. In preparation for the staffing, the CPS worker must:

(A) Invite the CPS supervisor to the staffing; and

(B) Be prepared to discuss the reasons for the CPS referral, the information indicating that family members are refugees, and their country of origin.

(9) Take Photographs. The CPS worker must, during the CPS assessment, take photographs and document, as necessary, child abuse or neglect and the observable nature of any present danger safety threat or impending danger safety threat.

(a) As provided in ORS 419B.028, a law enforcement officer or the CPS worker may take photographs for the purpose of documenting the child's condition at the time of the CPS assessment.

ADMINISTRATIVE RULES

(b) As provided in ORS 419B.028, if the CPS worker conducting a CPS assessment observes a child who has suffered suspicious physical injury and the CPS worker is certain or has a reasonable suspicion that the injury is or may be the result of abuse, the CPS worker, in accordance with the protocols and procedures of the county multi-disciplinary team described in ORS 418.747, will immediately photograph or cause to have photographed the suspicious physical injuries. Regardless of whether the child has previously been photographed or assessed during a CPS assessment, the CPS worker will photograph or cause to be photographed any suspicious injuries if the CPS worker is certain or has a reasonable suspicion the suspicious injuries are the result of abuse:

(A) During the assessment of a new allegation of abuse; and

(B) Each time, during the assessment, an injury is observed that was not previously observed by the assigned CPS worker.

(c) When a child is photographed pursuant to subsection (b) of this section:

(A) The person taking the photographs or causing to have the photographs taken must, within 48 hours or by the end of the next regular business day, whichever occurs later:

(i) Provide hard copies or prints of the photographs and, if available, copies of the photographs in an electronic format to the designated medical professional; and

(ii) Place hard copies or prints of the photographs and, if available, copies of the photographs in an electronic format in the Department record labeled with the case name, case number, child's name, and date taken.

(B) If a county multidisciplinary team staffing of the case is held, photographs of the injury will be made available to each team member involved in the case staffing at the first meeting regarding the child's case.

(d) The CPS worker must document injuries, hazardous environments, and the observable nature of any present danger safety threat or impending danger safety threat in the assessment narrative by use of photographs, written description, or illustrations.

(e) Photographs of the anal or genital region may be taken only by medical personnel.

(10) Obtain Medical Assessment.

The CPS worker must, during the CPS assessment as required in this section, facilitate a medical assessment of the child and obtain the child's medical history when necessary to assure child safety, determine treatment needs, reassure the child and family, or assist in analyzing safety-related information.

(a) When the CPS worker determines that the child is in need of a medical assessment as part of a CPS assessment, the CPS worker must consult with a CPS supervisor as soon as possible, but not at the expense of delaying medical treatment.

(b) If a person conducting an assessment under ORS 419B.020 observes a child who has suffered suspicious physical injury as defined in ORS 419B.023 and the person is certain or has a reasonable suspicion that the injury is or may be the result of abuse, the person must, in accordance with the protocols and procedures of the county multi-disciplinary team described in ORS 418.747, ensure that:

(A) A designated medical professional conducts a medical assessment within 48 hours of the observation of the suspicious physical injury, or sooner if dictated by the child's medical needs; or

(B) An available physician, physician assistant, or nurse practitioner conducts a medical assessment if, after reasonable efforts to locate a designated medical professional, a designated medical professional is not available to conduct a medical assessment within 48 hours. The CPS worker is required to document in the Department's electronic information system efforts to locate the designated medical professional when an available physician, physician assistant, or nurse practitioner is used.

(c) The CPS worker must facilitate an assessment by a medical professional if the alleged child abuse or neglect involves injury to the anal or genital region.

(d) When there are indications of severe physical trauma to the child, the CPS worker must make arrangements to immediately transport the child to a medical facility, which may include calling 911. The CPS worker must also make arrangements for medical examination of a child for mild or moderate physical trauma.

(e) To make arrangements for the medical examination of a child, the CPS worker must do the following, unless completing the action would delay medical treatment for the child:

(A) Discuss with the parent or caregiver the need for medical examination or treatment.

(B) Ask the parent or caregiver to take the child to a medical facility for a medical examination or treatment.

(C) Request that the parent sign a form DHS 2099, "Authorization for Use and Disclosure of Information".

(D) Contact an LEA immediately and seek a juvenile court order to obtain protective custody of the child for the purpose of obtaining a medical examination or treatment when:

(i) The parent or caregiver refuses to obtain needed medical examination or treatment;

(ii) The parent or caregiver may flee with the child; or

(iii) Delaying medical examination or treatment could result in severe harm to the child.

(E) Immediately seek medical care and consultation when the child may have a life-threatening condition, or a deteriorating condition that may become life-threatening.

(F) As soon as possible and not later than 24 hours after learning of the exposure, make arrangements to have the child tested for chemical exposure to harmful substances when there is reason to believe a child has been exposed to dangerous chemicals such as those found in a chemical drug lab.

(f) When a report of suspected medical neglect of an infant with a disability and with life-threatening conditions is referred for CPS assessment, the assigned CPS worker must comply with Child Welfare Policy I-B.2.2.2, "Investigation of Suspected Medical Neglect-Infants", OAR 413-030-0600 to 413-030-0650.

(g) When it is medically indicated to subject a child in the custody of the Department to HIV testing, the CPS worker must comply with Child Welfare Policy I-B.5.1, "HIV Testing of Children in Custody and HIV Confidentiality", OAR 413-040-0400 to 413-040-0450.

(h) As provided in ORS 147.425, a child who is the victim of a person crime and is at least 15 years of age at the time of the abuse may have a personal representative present during a medical examination. If a CPS worker believes that a personal representative would compromise the CPS assessment, a CPS worker may prohibit a personal representative from being present during the medical examination.

(i) When the CPS worker is assessing a CPS allegation of medical neglect, the CPS worker must consult with a health care professional as part of the assessment.

(11) Obtain Psychological and Psychiatric Evaluations.

(a) The CPS worker must make a referral for a psychological or psychiatric evaluation of the parent, caregiver, or child by a mental health professional to assure child safety, determine treatment needs, or assist in analyzing safety-related information when during the CPS assessment the CPS worker identifies a specific condition or behavior that requires additional professional evaluation. This includes but is not limited to:

(A) Unusual or bizarre forms of punishment;

(B) Mental illness;

(C) Suicidal ideation;

(D) Homicidal ideation; or

(E) Unusual or bizarre child or parental behavior that is indicative of emotional problems.

(b) The CPS worker must obtain consent of the parent or caregiver prior to making a referral for a psychological or psychiatric evaluation of the parent, caregiver, or child, unless the evaluation is court ordered.

(12) Make Monthly Face-to-Face Contact. The CPS worker must make a minimum of monthly face-to-face contact as described in 413-080-0054.

Subject: The Department of Human Services, Office of Child Welfare Programs, is amending rules to implement provisions of the Preventing Sex Trafficking and Strengthening Families Act of 2014 and make general updates consistent with current Department practices. Specifically:

Rules about case management (division 413-30); rules about developing the case plan (division 413-40); and rules about licensing foster care agencies and licensing residential care agencies (division 413-215) are being amended to establish the "reasonable and prudent parent" standard to guide the Department and caregivers in making decisions about whether to allow foster youth to engage in typical and appropriate childhood activities. The amendments:

- Define "reasonable and prudent parenting standard" as a standard characterized by sensible parental decision-making that protects a child or ward, while also encouraging developmental growth, to be used when determining whether to allow a child or ward in substitute care to participate in activities;

- Define "age-appropriate or developmentally appropriate activities" as activities generally suitable for the age and abilities of a child or young adult;

Definitions

The following definitions apply to OAR chapter 413, division 30:

(1) "APPLA" means Another Planned Permanent Living Arrangement, a permanency plan for a stable secure living arrangement for a child who has reached the age of 16 or young adult that includes building relationships with significant people in the child or young adult's life that may continue after substitute care. APPLA is the least preferred permanency plan of the five permanency plans for a child or young adult and is appropriate only after the permanency plans of reunification, adoption, guardianship, and placement with a fit and willing relative have been determined not in the best interest of a child or young adult.

(a) "Planned" means the arrangement is intended, designed, and deliberate.

(b) "Permanent" means enduring and stable.

(2) "Case plan" means a written, goal-oriented, time-limited individualized plan for the child and the child's family, developed by the

Department and the parents or guardians, to achieve the child's safety, permanency, and well-being.

(3) "Chafee housing" means a payment to assist in covering the costs of room and board made to an eligible individual between 18 and 20 years of age who was discharged from the care and custody of the Department or one of the federally recognized tribes on or after reaching 18 years of age.

The assessment provides information regarding an individual's functioning in the area of the professional's specialized knowledge and when the expert is evaluating a parent or guardian, whether the individual's functioning impacts his or her protective capacity.

(7) "Family support services case plan" means a goal-oriented, time-limited, individualized plan for a child and the child's family or a former foster child. The Department and the family or former foster child jointly develop a "family support services case plan" that addresses the service goals and the identified needs of the child and the child's family or the former foster child.

(8) "Former foster child" means a person under 21 years of age who was in substitute care at or after 16 years of age, including substitute care provided by federally recognized tribes, and had been in substitute care for at least 180 cumulative days after 14 years of age.

(12) "Independent living housing subsidy" means a payment to assist in covering the cost of room, board, or other monthly expenses made to an eligible individual who is at least 16 years of age and is in the care and custody of the Department and living independently.

(13) "Legal custody" means a legal relationship between a person, agency, or institution and a child that imposes on the person, agency, or institution the duties and authority of the child's legal custodian.

(14) "Parent" means the biological or adoptive mother or the legal father of the child. A legal father is a man who has adopted the child or whose paternity has been established or declared under ORS 109.070, ORS 416.400 to 416.465, or by a juvenile court. In cases involving an Indian child under the Indian Child Welfare Act (ICWA), a legal father includes a man who is a father under applicable tribal law. (15) "Permanency plan" means a written course of action for achieving safe and lasting family resources for the child or young adult. Although the plan may change as more information becomes available, the goal is to develop safe and permanent resources with the parents, relatives, or other people who may assume responsibility for the child or young adult during the remaining years of dependency and be accessible and supportive to the child in adulthood.

(16) "Registered domestic partner" means an individual joined in a domestic partnership that is registered by a county clerk in accordance with ORS 106.300 to 106.340.

Requirements for a Family Decision-making Meeting

(1) When the child has been placed in substitute care for more than 30 days, the Department must consider scheduling an OFDM. When considered appropriate, the meeting is scheduled, whenever possible, between the 30th and 60th day of the out-of-home care placement.

(2) When a decision has been made by the Department and the family to use the OFDM, the Department will conduct and document reasonable inquiries to promptly locate and notify the parents, grandparents, an Indian child's tribe, and any other family member who has had significant, direct contact with the child in the year prior to the substitute care placement. Other participants in the meeting must include the child, if the child is 12 years of age or older, and for a child 14 years of age and older, at their option, up to two members of the case planning team who are chosen by the child. Other participants in the meeting may include a child younger than 12 when appropriate, other professionals, foster parents, neighbors, and family and friends of the family as appropriate.

(3) Family members or an Indian child's tribe who are located after reasonable inquiries will be notified by the Department of the OFDM in a timely manner to allow them the opportunity to prepare for and attend the meeting.

(4) Other participants will be jointly identified by the parents, guardians, Indian custodian of the child, and the Department, and the Department will notify identified participants in a timely manner to allow them the opportunity to prepare for and attend the meeting.

(5) To assist the family in developing the family's plan for the child, the Department must provide participants with information regarding the federal timeline for determining permanency for the child and the Oregon Administrative Rules that govern the sufficiency of a safety plan, conditions for return, and reunification.

(6) The located family members may attend the OFDM unless the other participants determine that a family member may threaten or place other participants at risk. The Department may exclude family members it determines are violent, unpredictable, or abusive or an alleged perpetrator of sexual abuse, domestic violence, or severe physical assault.

(7) Family members who are not invited or allowed to participate may submit written information and recommendations to the caseworker prior to the scheduled meeting concerning the subjects of the OFDM, including concerns regarding the placement of the child, permanency plan, concurrent permanent plan, and services.

(8) During the OFDM, family members will develop a family plan for the child.

(9) Any family member or tribal representative participating in an OFDM must sign a written acknowledgment of the content of the family plan developed at the meeting and of his or her attendance at the meeting.

(10) The Department will send a copy of the family plan developed at the OFDM within 21 days after the date of the meeting to family participants, including those who participated by submitting written information and recommendations.

(11) The Department will incorporate the family plan developed at the OFDM into the Department's case plan to the extent that the family plan protects the child, builds on family strengths, and focuses on achieving permanency for the child within a reasonable time. If the family's plan developed at the meeting cannot be incorporated into the Department's case plan, the reasons shall be documented in the Department's case plan.

(12) The Department is responsible for confirming that any family plan developed at an OFDM is sufficient to ensure the safety or permanency of the child before implementing a family plan developed at an OFDM.

A residential care agency (defined in OAR 413-215-0506) must meet all of the following requirements:

(1) Minimum staffing patterns. The residential care agency must establish staff-to-child ratios that will provide adequate supervision and protection for children. The ratios must be adequate for the type of program, location of program, the age and type of children served, physical plant design, location and ability of the supervisor to respond, electronic backup systems, and other means available to ensure a high standard of supervision and protection. The minimum staffing ratios are as follows:

(a) For residents (defined in OAR 413-215-0506) who are under 30 months of age — one direct care staff (defined in OAR 413-215-0506) for each four residents.

(b) For residents who are 30 months of age or older and either less than six years of age or non-ambulatory, one direct care staff for each six residents.

(c) For residents who are six years of age or older, one direct care staff for each seven residents.

(2) Overnight staffing requirements.

(a) A residential care agency must have policies and procedures regarding overnight supervision of residents. The procedures must describe how staff must monitor and ensure the safety of residents during sleeping hours. If the residential care agency houses more than one child (defined in OAR 413-215-0506) to a bedroom or uses dormitory-type sleeping arrangements, the procedure must specifically address those living arrangements.

(c) Assure completion of a criminal records check and child abuse history background checks as outlined in OAR 413-120-0400 to 413-120-0475 whenever it becomes known that another adult is living in the household, the certified family identifies another potential respite care or child care provider, or the Department has reason to believe that a child, not in the custody of the Department, who lives in the home, a babysitter, or a person who frequents the home poses a risk to the children or young adults placed in the home.

(d) Before the home visit required under subsection (1)(b) of this rule, seek input from the caseworkers of each child and young adult placed or living in the home during the past 180 days and assess the conditions that appear to exist in the home that affect safety, health, and well-being for the child or young adult.

(1) When an application for a certification renewal is received before the current certification expires, the Department must reassess the certified family to determine whether to renew the Certificate of Approval or Child-Specific Certificate of Approval for two additional years.

(2) The Department may terminate the assessment process at any time and issue a proposed and final order denying the certification renewal for one or more of the reasons in OAR 413-200-0296 or, if the application is for approval to be a potential adoptive resource, OAR 413-120-0225(2).

ADMINISTRATIVE RULES

(d) Contact and gather information from the caseworkers of children or young adults who have been placed with the certified family during the past 180 days.

(e) Assure completion of criminal records checks on each adult member of the household; and, at the Department's discretion, any child, when there is reason to believe the child may pose a risk to children placed in the home, as described in OAR 413-120-0400 to 413-120-0475. A fingerprint-based criminal offender records check of national crime information databases is not required for an application for renewal of a Certificate of Approval or Child-Specific Certificate of Approval, unless an applicant or member of the household has lived outside of Oregon for more than 60 consecutive days within the two-year certification period or has been arrested or convicted during the two-year certification period.

(A) Assess any safety concerns regarding the fitness of the applicant or member of the household pursuant to OAR 413-120-0450 and 413-120-0455; and

(B) If appropriate, request an exception pursuant to OAR 413-120-0450(7) to complete certification of the applicant despite the new criminal offender history of an applicant or member of the household.

(C) If the applicant or a member of the household has a disqualifying conviction under OAR 413-120-0450(3) or (4) or the authorized designee makes a negative fitness determination with respect to the individual, the Department will proceed under OAR 413-120-0460 and issue a proposed and final order denying certification.

(f) Assure completion of child abuse history background checks for each adult member of the household.

(A) When the applicant or an adult member of the household has lived outside the state of Oregon for more than 60 consecutive days during the two-year certification period, a child abuse history background check must be requested from each state or country where the individual resided during the two-year certification period.

(B) Assess any safety concerns regarding the applicant or adult member of the household raised by information learned from the child abuse history background check.

(C) When the applicant or adult member of the household has been identified as the perpetrator or possible perpetrator of abuse or neglect in a child protective services assessment founded disposition, unable to determine disposition, or a similar disposition from another state, do all of the following:

(i) Consult with the certification supervisor about whether to seek approval from the District Manager or designee to continue the certification assessment and regardless of the decision document the information considered on a form approved by the Department.

(ii) If the decision in subparagraph (i) of this paragraph is to proceed with the certification assessment, the District Manager or designee may approve or deny, and documents the decision on a form approved by the Department.

(g) Review and assess whether conditions appear to exist in the home that affect the safety, health, or well-being of the child or young adult.

(h) Review and analyze the certified family's skills and abilities in maintaining conditions in the home that provide safety, health, and well-being for the child or young adult, maintaining relationships with the community and the Department, and supporting the case plan of the child or young adult.

(i) When recommending renewal of the certification, update the home study on a form approved by the Department, including results of the assessment activities completed in subsections (a) to (h) of this section, and submit to the supervisor for approval.

(4) Before the Department may renew a certification, a supervisor must:

(a) Assure the certifier has completed all assessment activities required by subsections (3)(a) to (i) of this rule and review the certifier's assessment of the certified family; and

(b) Review the updated home study.

(5) If the supervisor reviews the certifier's completed assessment activities in subsections (3)(a) to (i) of this rule as documented in the updated home study and the supervisor decides to renew the certification based on the certified family's continued qualifications and ability to provide safety, health, and well-being to a child or young adult as documented in the home study, the Department may issue a new Certificate of Approval or Child-Specific Certificate of Approval, valid for two years.

(6) If the supervisor decides not to renew the certification, the Department must proceed to deny the application as outlined in OAR 413-200-0296(5), unless the certified family voluntarily withdraws their application as provided in OAR 413-200-0314(4). The current certificate con-

tinues until its expiration date unless the Department proceeds to revoke the certificate as outlined in OAR 413-200-0296 or the certified family requests to voluntarily terminate the certificate and the Department accepts the family's request.

(7) Pursuant to ORS 183.430, if the certified family has submitted a timely Renewal Application and the Department does not complete the activities in sections (3) to (5) of this rule before the stated expiration date on the certified family's Certificate of Approval, the certified family's Certificate of Approval may not be deemed to expire until the Department has issued a new Certificate of Approval or there is a final order denying renewal.

(3) The Department must terminate a Temporary Certificate of Approval or Child-Specific Certificate of Approval 10 business days after the departure of the child or young adult from the home of the certified family, unless at least one of the following applies:

(b) Assess the family's ability to meet the safety, health, and well-being needs of a non-specific child or young adult placed in the home pursuant to the requirements of OAR 413-200-0274;

(c) Document the assessment in the provider record; and

(d) If a fitness determination had previously been made under OAR 413-200-0274, assure completion of a new fitness determination.

(b) Review the certifier's assessment of the certified family; and

(c) Determine, upon completion of the review in subsection (b) of this section, whether to approve or not approve the certified family's application to change the Temporary Certificate of Approval or Child-Specific Certificate of Approval to a type of certificate that does not limit the family to care for a specific child or young adult

(6) If the supervisor decides to approve the certified family's application to change the Temporary Certificate of Approval or Child-Specific Certificate of Approval to a type of certificate that does not limit the family to care for a specific child or young adult, the Department must issue a

(7) If the supervisor decides not to approve the certified family's application to change the type of certificate to one that does not limit the family to care for a specific child or young adult, the Department must proceed to issue a proposed and final order to deny the application as outlined in OAR 413-200-0296(5), unless the certified family voluntarily withdraws the application as provided in OAR 413-200-0314(4).

(5) The Department may initiate Inactive Referral Status for one or more of the following reasons:

(8) Inactive referral status, when requested by the certified family, ends:

(10) When the Department initiates Inactive Referral Status, the Department determines, within the time frame of the Inactive Referral Status, when the conditions that warranted the Inactive Referral Status have been resolved. The Department may revoke a certification if a certified family is unable to remedy a violation of a certification standard within the time frame of the Inactive Referral Status.

(11) When the Inactive Referral Status ends at the request of the family or because the conditions that warranted the inactive referral status have been resolved, the certifier must:

Subject: Division 120 relating to adoption placement selection and identification and consideration of potential adoptive resources is being amended to implement SB 741 (2015) which requires Department rules governing home studies and placement reports in adoption proceedings to give equal status and priority to relatives and current caretakers as is given to prospective adoptive parents with regard to child safety, attachment, and well-being.

Adoption Placement Selection 413-120-0016 to 413-120-0060.

OAR 413-120-0010 — Definitions.

- Modifies definition of current caretaker in section (8) to conform with statute.

OAR 413-120-0020 — Adoption Placement Selection Options.

- Modifies (1) to clarify the need to ensure there is no other identified relative or current caretaker who is being assessed as a potential adoptive resource.

- Modifies section (2) to clarify the local adoption committee does not make recommendation in cases involving a current caretaker.

- Modifies section (3) to remove (C) of subsection (a) since the scenario is no longer possible under the new SB 741 order of preference. Modifies new (C) to clarify that an exception to the order of preference may only be granted to a relative defined in 413-120-0010(16)(d) (and only when there is no current caretaker per modified 413-120-0760(4)).

OAR 413-120-0021 — Adoption Placement Selection by Case-worker.

- Adds current caretaker to section (6) regarding what to do when a new relative or current caretaker shows up after an adoption selection date has been scheduled.

- Adds new section (7) to provide that a program manager in consultation with the permanency manager make the determination whether to consider a relative or current caretaker under section (6).

OAR 413-120-0035 — Invitation to and Notification of Adoption Committee.

- Adds current caretaker to section (8) regarding what to do when a new relative or current caretaker shows up after an adoption committee has been scheduled and notice sent.

- Adds new section (9) to provide that a program manager in consultation with the permanency manager make the determination whether to consider a relative or current caretaker under section (8).

Foster Parent Request for Consideration as a Current Caretaker 413-120-0500 to 413-120-0595

- This section is repealed in its entirety; under the amendments described above, a foster parent will be considered a current caretaker when the foster parent is currently caring for a child who has a permanency plan or concurrent permanent plan of adoption and has cared for the child or a sibling for at least the past 12 months or for one-half of the child's or sibling's life if the child or sibling is younger than two years of age.

Identification and Consideration of Potential Adoptive Resources 413-120-0700 to 413-120-0760.

OAR 413-120-0720 — Department Efforts to Place with Relatives, Current Caretakers, and to Place Siblings Together.

- Amends (1) to declare that placement with current caretakers is a department preference.

- Amends (2) adding a requirement (c) to confirm there are no current caretakers being assessed as a potential adoptive resource.

OAR 413-120-0730 — Order of Preference for Identification of Potential Adoptive Resources.

- Amends section (1) to give current caretaker and relative equal standing, and prioritize relatives and current caretakers above general applicants.

- Adds section (4) limiting the authority of the Permanency Manager to grant exceptions to the order of preference to only cases that do not involve a current caretaker.

OAR 413-120-0760 — Identification of a Child's Potential Adoptive Resources

- Modifies (1) so it applies only to general applicants rather than all potential adoptive resources.

- Adds new provision in section (4) to permit a program manager to request an exception to increase the number of potential adoptive resources to be considered. (For example, if there are two current caretakers and two relatives).

- Deletes section (6) which provided an exception to the order of preference since it is no longer needed and is inconsistent with intent of SB 741

Makes additional non-substantive amendments to improve clarity and readability.

These changes make permanent temporary rules adopted September 1, 2015.

(a) Notify the potential adoptive resource of the additional written information; and

(b) Have the potential adoptive resource sign a release of information for the additional written information to be considered in the adoption placement selection.

(3) The Child Permanency Program Manager, at his or her discretion, may determine that any written information released under section (1) or (2) of this rule must be a summary or redacted copy when:

Adoption Placement Selection Options

When a child or sibling group has a permanency plan of adoption, the Department uses one of the three options below to make an adoption placement selection:

(1) Selection by Caseworker. After considering the input from the child’s team and following consultation with the supervisor, the caseworker may make the adoption placement selection for a child or sibling group using the process in OAR 413-120-0021 when the requirements of at least one of the following is met:

(a) An Indian child is being considered for adoption alone or as part of a sibling group and there is a single potential adoptive resource who:

(A) Meets the ICWA order of placement preference;

(B) Has been identified as the placement preference through tribal resolution; or

(C) Has been identified as the placement preference by a good cause order as provided in ICWA and OAR 413-070-0100 to 413-070-0260.

(b) The child is identified as a refugee child and the adoption placement selection complies with OAR 413-070-0300 to 413-070-0380.

(c) A relative of the child or sibling group is being considered alone as the potential adoptive resource unless subsections (c), (d), or (e) of section (3) of this rule apply. Prior to making a selection, ensure the Department has conducted a diligent search and there is no other identified relative who has expressed an interest in, or who is being assessed as a potential adoptive resource and there is no current caretaker who has expressed an interest in, or who is being assessed, as a potential adoptive resource.

(d) A current caretaker of the child or sibling group is being considered alone as a potential adoptive resource unless subsection (c), (d), or (e) of section (3) of this rule applies. Prior to making a selection, ensure the Department has conducted a diligent search and there is no relative who has expressed an interest in, or who is being assessed as, a potential adoptive resource, and there is no other current caretaker who has expressed an interest in, or who is being assessed, as a potential adoptive resource.

(e) The child is under six years of age with no extraordinary needs and each potential adoptive resource is a general applicant, unless subsection (d) of section (2) of this rule or subsection (c), (d), or (e) of section (3) of this rule applies. Prior to making a selection, ensure the Department has conducted a diligent search and there is no relative who has expressed an interest in, or who is being assessed as, a potential adoptive resource, and there is no current caretaker who has expressed an interest in, or who is being assessed, as a potential adoptive resource.

(2) Local Adoption Committee and ADS. The local adoption committee recommends an adoptive resource and the ADS makes the adoption

ADMINISTRATIVE RULES

placement selection when section (3) of this rule does not apply and at least one of the following applies:

- (a) The child is six years of age or older.
- (b) The child has extraordinary needs.
- (c) A sibling group is being placed together for the purpose of adoption and each potential adoptive resource is a general applicant.
- (d) The identified potential adoptive resources include the child's current foster parent, who is not a current caretaker, being considered as a general applicant with other general applicants.
- (3) Central Office Adoption Committee and ADS. The central office adoption committee recommends an adoptive resource, and the ADS makes the adoption placement selection when one of the following applies:
 - (a) The potential adoptive resources include:
 - (A) More than one relative as defined in OAR 413-120-0000(63)(a)-(c);
 - (B) A relative as defined in OAR 413-120-0000(63)(a)-(d) and a current caretaker; or
 - (C) A relative, as defined in OAR 413-120-0000(63)(d) for whom an exception to the order of preference has been granted under OAR 413-120-0760.
 - (b) The potential adoptive resources include more than one current caretaker being considered for siblings who will be placed together in adoption.
 - (c) A DHS staff member is a potential adoptive resource, and the requirements of the DHS-060-002, "Conflict of Interest Policy" and the "Conflict of Interest Policy Addendum for CAF Employees" apply.
 - (d) A non-DHS staff member with a potential conflict of interest with the Department is a potential adoptive resource.
 - (e) The potential adoptive resource is an individual living outside of the United States.

(4) The caseworker, following consultation with the supervisor, may request that the adoption placement selection be made by an ADS following an adoption committee recommendation based on the complexities or dynamics of a case. The request must be approved by:

- (a) The Child Welfare Program Manager or designee for the use of a local adoption committee rather than a caseworker selection; or
- (b) The Child Permanency Program Manager, Assistant Child Permanency Program Manager, or designee for the use of a central office adoption committee rather than a local adoption committee.

Adoption Placement Selection by Caseworker

(1) Before making an adoption placement selection, the child's caseworker must comply with the provisions of OAR 413-120-0700 to 413-120-0760.

(2) When the caseworker, after considering the input from the child's team and following consultation with the supervisor, has identified the potential adoptive resources to be considered for adoption placement selection, the caseworker must consult with the adoption worker for each of the identified families to --

- (a) Provide the adoption worker with written information, redacted to remove identifying information, about the history and needs of each child under consideration for adoption; and
- (b) Discuss the ability of the potential adoptive resource to meet the needs of each child under consideration for adoption.
- (3) The adoption workers must complete all of the following:
 - (a) Provide the identified potential adoptive resources with the information described in subsection (2)(a) of this rule.
 - (b) Describe the adoption placement selection process to the potential adoptive resources to:
 - (A) Inform them of the individuals who will be reviewing their adoption home study or other information during the adoption placement selection process; and
 - (B) Assure all appropriate releases of information described in OAR 413-120-0016(1) and (2) have been obtained.

(c) Confirm with the caseworker for each child who is under consideration that the potential adoptive resource is willing and available to be considered for adoption.

(4) When the caseworker has been informed that the identified potential adoptive resources are available and appropriate to be considered, the caseworker must set a date for the adoption placement selection and notify the adoption worker for each of the identified potential adoptive resources.

(5) At least ten business days before the adoption placement selection, the caseworker must complete all of the following:

(a) Notify the following individuals of the potential adoptive resources to be considered and the date the adoption placement selection will occur:

- (A) The CASA;
- (B) The child's attorney;
- (C) A tribal representative if the child is an Indian child; and
- (D) A member of the RCWAC, if the child is a refugee child.

(b) Ensure that the individuals identified in subsection (a) of this section are sent copies of the adoption home study and any additional written information released under OAR 413-120-0016 for each potential adoptive resource, unless the individual has notified the caseworker that they do not want a copy of the materials.

(c) Notify the individuals identified in subsection (a) of this section that any input regarding the ability of a potential adoptive resource to meet the current and lifelong needs of the child or sibling group must be received at least two days before the date of the adoption placement selection to assure it will be considered.

(6) When the caseworker has provided the notifications in section (5) of this rule, an adoption selection date has been scheduled by the caseworker or committee, and a child's relative or current caretaker now expresses interest in being considered as a potential adoptive resource, the Child Welfare Program Manager must:

(a) If the newly expressed interest is from a relative, review the diligent efforts to identify a child's relatives required under OAR 413-070-0060 to 413-070-0063;

(b) If the newly expressed interest is from a current caretaker, review the efforts to determine if the current caretaker was given adequate and reasonable time to request consideration as the potential adoptive resource;

(c) Consider the impact of a delay in achieving permanency on the best interests of the child; and

(d) Make a determination whether it is in the best interest of the child for an adoption home study to be conducted with a relative or current caretaker despite the delay in achieving permanency.

(7) The Child Welfare Program Manager in consultation with the Child Permanency Program Manager makes the determination whether to consider a relative or current caretaker under section (6) of this rule.

(8) When a Child Welfare Program Manager informs the caseworker of the determination to consider a relative or current caretaker identified under section (6) of this rule, the caseworker must notify each individual in subsection (5)(a) of this rule and the adoption worker for each identified potential adoptive resource that the adoption selection process has been suspended.

(9) When the adoption selection process has been suspended, the adoption workers must notify each identified potential adoptive resource that the adoption selection process has been suspended.

(10) The timelines in this rule may be changed when the caseworker, the adoption worker for each of the identified potential adoptive resources, and each individual in section (5) of this rule agree on a new timeline.

(11) After considering the input from individuals in section (5) of this rule, the caseworker — following consultation with his or her supervisor — makes the adoption placement selection for a child or sibling group under consideration for adoption when OAR 413-120-0020(1) applies.

(12) On the day that the selection is made, the child's caseworker must notify the adoption workers for each of the identified potential adoptive resources who were considered for the adoption placement selection.

(13) By the end of the next business day following the adoption placement selection, the child's caseworker must send written notification of the adoption placement selection to each of the following individuals:

- (a) The CASA;
- (b) The child's attorney;
- (c) A tribal representative if the child or young adult is an Indian child; and
- (d) A member of the RCWAC, if the child is a refugee child.

(14) By the end of the next business day following the adoption placement selection, written notification on a form approved by the Department

ADMINISTRATIVE RULES

must be sent to each identified potential adoptive resource of whether they were selected as the adoptive resource by the following individuals:

- (a) A Department adoption worker; or
- (b) The child's caseworker when the adoption worker is a private agency employee.

(15) Notifications in sections (12) and (13) of this rule must contain information on the Department's review process as described in OAR 413-120-0060, unless the identified potential adoptive resources were all general applicants.

(16) Within three days of the adoption placement selection, the caseworker must assure that:

- (a) The adoption placement selection and the basis for that selection are documented on a Department-approved form; and
- (b) The central office Adoption Program is notified of the adoption placement selection.

(17) Any individual who received a copy of an adoption home study or other written documents during the adoption selection process must return the materials to the Department within seven business days of the notice of the adoption placement selection.

(f) The mediator must make collateral contact with professionals involved in the case including, but not limited to, children's attorney, CASA, and birth and adoptive parent(s)' attorneys. If requested, the mediator must also keep informed, the Assistant Attorney General or Deputy District Attorney assigned to the case;

(See Flow Chart Box 11(a).)

(11) A contracted mediator has the following additional responsibilities:

The mediator may consult with the child's caseworker for clarification about the LAS Notice before setting the additional mediation session.

(b) If the additional mediation session results in a revised draft PACA, the mediator will repeat the processes outlined in (9)(g) through 10(c) in this rule.

(c) After the Department determines that the revised draft PACA meets the safety needs of the child, the mediator must arrange for the mediation participants and an agency representative to sign the agreement (See Flow Chart 11(b));

(d) If no agreement can be reached, the mediator must send a letter summarizing the situation to Central Office with the final invoice.

Rule Caption: Amending rules relating to children and young adults in substitute care

Adm. Order No.: CWP 22-2015

Filed with Sec. of State: 10-6-2015

Certified to be Effective: 10-6-15

Notice Publication Date: 9-1-2015

Rules Amended: 413-010-0000, 413-020-0000, 413-030-0000, 413-070-0000

Rules Repealed: 413-030-0205

Subject: The Department of Human Services is amending rules to make minor corrections to rules filed on August 4, 2015, and October 1, 2015. Specifically:

OAR 413-010-0000 is being amended to clarify that in addition to an adoptive parent, a designated adoptive resource is considered a relative. This is consistent with the definition used in other divisions of chapter 413.

OAR 413-020-0000 and 413-070-0000 are being amended to add "young adult" to the definition of "age-appropriate and developmentally appropriate activities." This clarifies that the term applies to both children and young adults in substitute care and aligns with how the term is defined in other divisions of chapter 413.

OAR 413-030-0000 is being amended to remove "such as the death of a parent" from the definition of "sibling" to align with the definition used in other divisions of chapter 413.

OAR 413-030-0205 is being repealed because these definitions are now consolidated into the overarching definitions rule, OAR 413-030-0000.

Authority, Responsibility, and Applicability

(1) ORS 418.005 provides that, in order to establish, extend, and strengthen welfare services for the protection and care of dependent or neglected children, the Department of Human Services may make all necessary rules and regulations for administering child welfare services. Among other duties outlined by ORS 409.010, the Department is responsible for the delivery and administration of programs and services relating to children and families, including child protective services (CPS).

This system is called "differential response" and includes two types of CPS assessments, traditional response assessments and alternative response assessments. These changes in the Department's practice will be implemented, over time, on a county-by-county basis.

(3) Only the Department local offices in those counties identified by the Department to implement the Differential Response system must comply with the requirements outlined in these rules, OAR 413-015-9000 through 413-015-9040. Those counties will be referred to as DR implementation counties and are listed in subsections (a) through (l) of this section. Department local offices in all other counties must comply with the rules in OAR chapter 413, but are not responsible for OAR 413-015-9000 through 413-015-9040.

- (a) Benton County, effective April 6, 2015.
- (b) Clackamas County, effective December 1, 2015.
- (c) Coos County, effective November 16, 2015.
- (d) Curry County, effective November 16, 2015.
- (e) Jackson, effective November 2, 2015.
- (f) Josephine, effective November 2, 2015.

- (j) Lincoln County, effective April 6, 2015.
- (k) Linn County, effective April 6, 2015.

(4) Except as provided in OAR 413-015-9000 through 413-015-9040, employees in the DR implementation counties remain responsible for all other rules in OAR chapter 413.

(1) The caretaker is responsible for paying the copayment to the primary provider of child care unless the Child Care Billing form was sent to the provider showing no copayment.

(2) If the client has only one provider during a month, that provider is the primary provider. If the client uses more than one provider, the client must designate one as the primary provider. Notwithstanding any designation by the client, the Department considers a provider having the copayment amount (not to exceed the client's established copayment amount) deducted from its valid billing statement the primary provider for that period.

(3) If the copayment exceeds the amount billed by the primary provider, the Department may treat a different provider as the primary provider or split the copayment among the providers who bill for care.

(4) The copayment amount due from the caretaker to the provider is the lesser of:

(a) The copayment amount determined by the Department based on family size and income.

(b) The total amount allowed by the Department on a provider claim.

(5) A client who fails to pay a copayment to or to make satisfactory arrangements with the primary provider is ineligible for ERDC if the provider notifies the Department of an overdue copayment within 60 days after the Department issues payment for the month at issue. The period of ineligibility ends under any of the following circumstances:

(a) On the first day of the month in which the client makes the copayment or makes satisfactory arrangements with the provider.

(b) On the first day of the month after three years have lapsed from the date the client failed to make the copayment.

(c) On the first day of the month in which the client provides verification that the copayment debt was discharged by a bankruptcy filing.

(6) The Department will make the payment to a provider if a Child Care Billing form is mailed to the provider prior to the notification described in section (5) of this rule.

Treatment of Periodic Income

(1) For SNAP and TANF clients in a filing group (see OAR 461-110-0310) that includes at least one member who is working under a TANF JOBS Plus agreement, periodic income (see OAR 461-001-0000) is excluded.

(2) For REF, REFM, SNAP, and TANF clients not covered under section (1) of this rule, periodic income is averaged over the applicable period.

(3) In the ERDC program, periodic income is averaged over the applicable period.

(4) In the OSIP-EPD and OSIPM-EPD programs, periodic income received during a certification period (see OAR 461-001-0000) is averaged among the months in the certification period.

(5) In all programs not covered under sections (1) to (4) of this rule, periodic income is counted in the month received.

Prospective or Retrospective Eligibility and Budgeting; ERDC, REF, REFM, SNAP, TANF

In the ERDC, REF, REFM, SNAP, and TANF programs, the Department determines how and when to use prospective or retrospective eligibility (see OAR 461-001-0000) and budgeting (see OAR 461-001-0000) as follows:

(1) For the initial month (see OAR 461-001-0000):

(a) In the ERDC program, income is budgeted so the anticipated amount is the same for each month, including the initial month.

(b) For a SNAP case in CRS, the Department uses "actual income" (see subsection (h) of this section) in the initial month.

(c) For a SNAP program case in SRS, "actual income" is used in the initial month if that income is not reflective of ongoing monthly income

ADMINISTRATIVE RULES

due to a new or terminated source or a significant change in ongoing income. All other income is processed under section (3) of this rule.

(d) In the REF and TANF programs, ongoing income, processed under section (2) of this rule, is used in the initial month, except when the source of income is a new or terminated source. When there is a new or terminated source of income, "actual income" is used in the initial month.

(e) In the REFM program, the Department uses only the initial month for eligibility and budgeting.

(f) The Department uses prospective eligibility and budgeting under OAR 461-150-0020 for cases not covered under subsections (a) to (e) of this section, including for an individual who leaves a filing group (see OAR 461-110-0310) because of domestic violence (see OAR 461-001-0000) and enters a domestic violence shelter (see OAR 461-001-0000) or safe home (see OAR 461-001-0000).

(g) No supplement is issued based on incorrectly anticipated information.

(h) "Actual income" means income already received in the initial month plus all the income that reasonably may be expected to be received within the initial month.

(2) Income is budgeted so that the anticipated amount is the same for each month. The type of income is determined and calculated as follows:

(a) Income that must be annualized is calculated under OAR 461-150-0090 to arrive at a monthly figure.

(b) Educational income (see OAR 461-145-0150) is assigned to the months it is intended to cover, regardless of when it is received. The income is prorated over these months.

(c) Ongoing stable income (see OAR 461-001-0000) is anticipated under OAR 461-150-0070.

(d) Ongoing variable income (see OAR 461-001-0000) is anticipated under OAR 461-150-0080.

(e) Periodic income (see OAR 461-001-0000) is anticipated under OAR 461-140-0110.

(f) Lump-sum income (see OAR 461-001-0000) is anticipated under OAR 461-140-0120.

(3) For an ongoing month (see OAR 461-001-0000):

(a) For a benefit group (see OAR 461-110-0750), the Department uses prospective eligibility and budgeting. The type of income is determined and calculated under section (2) of this rule.

(b) If the budgeting method changes from prospective to retrospective, the Department treats income from a terminated source that was counted prospectively as follows:

(A) If the actual amount received was less than or equal to the anticipated amount, the income is excluded.

(B) If the actual amount received was greater than the anticipated amount, the Department counts the difference between actual and anticipated amounts.

(4) When an individual is added to an ongoing filing and benefit group, prospective budgeting is used to determine eligibility.

(5) In the SNAP program, income reported on the Interim Change Report form under OAR 461-170-0011 and 461-170-0102 is used to determine eligibility and benefit level. Income for the fifth month of the SNAP program certification period (see OAR 461-001-0000) is used to determine the income for the seventh and following months in the certification period if the individual anticipates the income will remain the same throughout the period. If the individual anticipates the income will change, the individual and the Department jointly estimate the income for the remaining months of the certification period. For an individual who had self-employment income annualized, no change is made unless there is a substantial change in the revenue of the business.

Child Care Eligibility Standard, Payment Rates, and Copayments

The following provisions apply to child care in the ERDC, JOBS, JOBS Plus, and TANF programs:

(1) The following definitions apply to the rules governing child care rates:

(a) Infant: For all providers other than licensed (registered or certified) care, a child aged newborn to 1 year. For licensed care, an infant is a child aged newborn to 2 years.

(b) Toddler: For all providers other than licensed (registered or certified) care, a child aged 1 year to 3 years. For licensed care, a toddler is a child aged 2 years to 3 years.

(c) Preschool: A child aged 3 years to 6 years.

(d) School: A child aged 6 years or older.

(e) Special Needs: A child who meets the age requirement of the program (ERDC or TANF) and who requires a level of care over and above the norm for his or her age due to a physical, behavioral, or mental disability. The need for a higher level of care must be determined by the provider and the disability must be verified by one of the following:

(A) A physician, nurse practitioner, clinical social worker, or any additional sources in OAR 461-125-0830.

(B) Eligibility for Early Intervention and Early Childhood Special Education Programs, or school-age Special Education Programs.

(C) Eligibility for SSI.

(2) The following definitions apply to the types of care specified in the child care rate charts in subsections (4)(a) through (4)(c) of this rule:

(a) The Standard Family Rate applies to child care provided in the provider's own home or in the home of the child when the provider does not qualify for the enhanced rate allowed by subsection (b) of this section.

(b) The Enhanced Family Rate applies to child care provided in the provider's own home or in the home of the child when the provider meets the training requirements of the Oregon Registry, established by the Oregon Center for Career Development in Childhood Care and Education.

(c) The Registered Family Rate applies to child care provided in the provider's own home when the provider meets criteria established by the Office of Child Care.

(d) The Certified Family Rate applies to child care provided in a residential dwelling that is certified by the Office of Child Care as a Certified Family Home. To earn this designation, the facility must be inspected, and both provider and facility are required to meet certain standards not required of a registered family provider.

(e) The Standard Center Rate applies to child care provided in a facility that is not located in a residential dwelling and is exempt from Office of Child Care Certification rules (see OAR 414-300-0000).

(f) The Enhanced Center Rate applies to child care provided in an exempt center whose staff meet the training requirements of the Oregon Registry established by the Oregon Center for Career Development in Childhood Care and Education. Eligibility to receive the enhanced center rate for care provided in an exempt center is subject to the following requirements:

(A) A minimum of one staff member for every 20 children in care must meet the Oregon Registry training requirements noted in subsection (b) of this section.

(B) New staff must meet the Oregon Registry training requirements within 90 days of hire, if necessary to maintain the trained staff-to-children ratio described in paragraph (A) of this subsection.

(C) There must be at least one person present where care is provided who has a current certificate in infant and child CPR and a current American Red Cross First Aid card or an equivalent.

(g) An enhanced rate will become effective not later than the second month following the month in which the Department receives verification that the provider has met the requirements of subsection (b) or (f) of this section.

(h) The Certified Center Rate applies to child care provided in a center that is certified by the Office of Child Care.

(3) The following provisions apply to child care payments:

(a) Providers not eligible for the enhanced or licensed rate will be paid at an hourly rate for children in care less than 158 hours per month subject to the maximum full-time monthly rate.

(b) Providers eligible for the enhanced or licensed rate will be paid at an hourly rate for children in care less than 136 hours a month, unless the provider customarily bills all families at a part-time monthly rate subject to the maximum full-time monthly rate and is designated as the primary provider for the case.

(c) At their request, providers eligible for the enhanced or licensed rate may be paid at the part-time monthly rate if they provide 63 or more hours of care in the month, customarily bill all families at a part-time monthly rate, and are designated as the primary provider for the case.

(d) Unless required by the circumstances of the client or child, the Department will not pay for care at a part-time monthly or a monthly rate to more than one provider for the same child for the same month.

ADMINISTRATIVE RULES

(e) The Department will pay at the hourly rate for less than 63 hours of care in the month subject to the maximum full-time monthly rate.

(f) The Department will pay for up to five days each month the child is absent if:

(A) The child was scheduled to be in care and the provider bills for the amount of time the child was scheduled to be in care; and

(B) It is the provider's policy to bill all families for absent days.

(g) The Department will not pay for more than five consecutive days of scheduled care for which the child is absent.

(4) The following are the child care rates based on the type of provider, the location of the provider (shown by zip code), the age of the child, and the type of billing used (hourly or monthly):

(a) [Tables not included. See ED. NOTE.]

(b) [Tables not included. See ED. NOTE.]

(c) [Tables not included. See ED. NOTE.]

(5) Except to the extent provided otherwise in section (12) of this rule, this section establishes the ERDC eligibility standard and the client's copayment (copay).

(a) At initial certification, the ERDC eligibility standard is met for a need group (see OAR 461-110-0630) of eight or less if monthly countable income (see OAR 461-001-0000) for the need group is less than 185 percent of the federal poverty level (FPL), as described in OAR 461-155-0180(6). The eligibility standard for a need group of eight applies to any need group larger than eight.

(b) During the certification period (see OAR 461-001-0000) and at recertification the ERDC eligibility standard is met for a need group of eight or less if monthly countable income for the need group during the 12 month period is less than 85 percent state median income (SMI) or 250 percent FPL, whichever is higher, as described in OAR 461-155-0180(8) and (9). The eligibility standard for a need group of eight applies to any need group larger than eight.

(c) The minimum monthly ERDC copay is \$25.

(d) For a filing group (see OAR 461-110-0310) whose countable income is at or below 50 percent of the 2007 FPL, the copay is \$25 or 1.5 percent of the filing group's monthly countable income, whichever is greater.

(e) For a filing group whose countable income is over 50 percent of the 2007 FPL, the copay amount is determined with the following percentage of monthly income:

(A) Divide the filing group's countable income by the 2007 FPL, drop all digits beyond two decimal points, subtract 0.5, and multiply this difference by 0.12.

(B) Add .015 to the amount in paragraph (A) of this subsection. This sum is the percentage of monthly income used to determine the copay amount. Multiply this sum by the filing group's countable income and round to the nearest whole dollar.

(f) The 2007 federal poverty level used to determine copay amounts under subsections (d) and (e) of this section is set at the following amounts: [Table not included. See ED. NOTE.]

(6) Subject to the provisions in section (9) of this rule, the monthly limit for each child's child care payments is the lesser of the amount charged by the provider or providers and the following amounts:

(a) The monthly rate provided in section (4) of this rule.

(b) The product of the hours of care, limited by section (8) of this rule, multiplied by the hourly rate provided in section (4) of this rule.

(7) The limit in any month for child care payments on behalf of a child whose caretaker is away from the child's home for more than 30 days because the caretaker is a member of a reserve or National Guard unit that is called up for active duty is the lesser of the following:

(a) The amount billed by the provider or providers.

(b) The monthly rate established in this rule for 215 hours of care.

(8) The number of payable billed hours of care for a child is limited as follows:

(a) In the ERDC and TANF programs, the total payable hours of care in a month may not exceed the amounts in paragraphs (A) or (B) of this subsection:

(A) 125 percent of the number of child care hours authorized:

(i) Under OAR 461-160-0040(2) and (5); or

(ii) To participate in activities included in a case plan (see OAR 461-001-0025) including, for clients in the JOBS Plus program, the time the client searches for unsubsidized employment and for which the employer pays the client.

(B) The monthly rate established in section (4) of this rule multiplied by a factor of not more than 1.5, determined by dividing the number of

hours billed by 215, when the client meets the criteria for extra hours under section (10) of this rule.

(b) In the ERDC program, for a client who earns less than the Oregon minimum wage, the total may not exceed 125 percent of the anticipated earnings divided by the state minimum wage not to exceed 172 hours (which is full time).

(c) In the TANF program, for a client who earns less than the Oregon minimum wage or is self-employed, the total may not exceed 125 percent of the anticipated earnings divided by the state minimum wage not to exceed 172 hours (which is full time). The limitation of this subsection is waived for the first three months of the client's employment.

(d) In the ERDC program, employed caretakers eligible under OAR 461-135-0400 may have education hours added to the authorized work hours. Education hours may not exceed authorized work hours and combined hours may not exceed 215 hours per month. Education hours are hours required to participate in coursework that leads to a certificate, degree, or job-related knowledge or skills attainment at an institution of higher education approved to receive federal financial aid.

(9) The limit in any month for child care payments on behalf of a child whose caretaker has special circumstances, defined in section (10) of this rule, is the lesser of one of the following:

(a) The amount billed by the provider or providers; or

(b) The monthly rate established in section (4) of this rule multiplied by a factor, of not more than 1.5, determined by dividing the number of hours billed by 215.

(10) The limit allowed by section (9) of this rule is authorized once the Department has determined the client has special circumstances. For the purposes of this section, a client has special circumstances when it is necessary for the client to obtain child care in excess of 215 hours in a month to perform the requirements of his or her employment or training required to keep current employment, not including self-employment. This is limited to the following situations:

(a) The commute time to and from work exceeds two hours per day.

(b) The caretaker works an overnight shift and care is necessary for both work hours and sleep hours.

(c) The caretaker works a split shift and it is not feasible to care for the child between shifts.

(d) The caretaker consistently works more than 40 hours per week.

(11) The payment available for care of a child who meets the special needs criteria described in subsection (e) of section (1) of this rule is increased in accordance with OAR 461-155-0151 if the requirements of both of the following subsections are met:

(a) The child requires significantly more direct supervision by the child care provider than normal for a child of the same age.

(b) The child is enrolled in a local school district Early Intervention or Early Childhood Special Education program or school-age Special Education Program. The enrollment required by this subsection is waived if determined inappropriate by a physician, nurse practitioner, licensed or certified psychologist, clinical social worker, or school district official.

(12) Starting May 1, 2012:

(a) The minimum monthly ERDC copay is \$27.

(b) Except as stated in subsection (a) of this section, the Department adds 10 percent to the monthly client copay amount set under section (5) of this rule by multiplying the copay amount by 1.1 and rounding down to the nearest whole dollar.

(13) A provider caring for a child in a contracted child care slot with the Department will be paid the lesser of the monthly rate provided in section (4) of this rule or the amount charged by the provider.

Required Reports for the Simplified Reporting System (SRS) — Interim Change Report; SNAP

In the SNAP program:

(1) During the sixth month of a certification period (see OAR 461-001-0000), an individual participating in SRS and certified for benefits for longer than six months must submit to the Department, on a form designated by the Department, an Interim Change Report of household circumstances, unless the household has no earned income and each adult member is elderly (see OAR 461-001-0015) or an individual with a disability (see OAR 461-001-0015).

(2) The required Interim Change Report form is considered complete when it is received by the Department by the last day of the sixth month of the certification period and:

(a) The individual completely and accurately answers all questions necessary to determine eligibility (see OAR 461-001-0000) and benefit amounts;

(b) The individual provides all required verification; and

(c) The form contains the signature of the primary person (see OAR 461-001-0015) or the authorized representative (see OAR 461-001-0000 and 461-115-0090).

Actions Resulting From Changes in Household Circumstances; Simplified Reporting System (SRS); SNAP

In the SNAP program, benefits may be changed for an individual using SRS — based on information obtained other than through the Interim Change Report — only as follows:

(1) The benefit level is increased if the information demonstrates the individual is eligible for greater benefits.

(2) The benefits are closed or reduced if any of the following subsections apply:

(a) The household requests a closure of benefits.

(b) The action is based on information that is verified upon receipt.

Information is considered verified upon receipt if:

(A) It is not questionable and the individual making the report has first-hand knowledge of the information reported; or

(B) Verification is provided with the reported change in accordance with OAR 461-115-0651.

(c) The individual reports information that results in loss of eligibility (see OAR 461-001-0000).

(d) The individual reports financial group (see OAR 461-110-0530) income exceeding the SNAP program countable (see OAR 461-001-0000) income limit.

(3) The Department acts on information reported through computer matches when the Interim Change Report is processed, when the individual is recertified, or when the monthly match with the Department of Corrections indicates a member is incarcerated.

Failure to Submit Interim Change Report; Simplified Reporting System (SRS); SNAP

In the SNAP program:

(1) If the Department does not receive a complete Interim Change Report by the last day of the sixth month of the certification period (see OAR 461-001-0000), benefits for the seventh month of the certification period are suspended. If the Interim Change Report is not received during the month of suspension, the individual is ineligible for that month.

(2) If a completed Interim Change Report is received by the last day of the seventh month, it is used to determine eligibility (see OAR 461-001-0000) and benefit level for the seventh and remaining months of the certification period.

Notice Situation; Failure to Submit Report for SRS or ERDC Reapplication

(1) In the ERDC program, the Department sends a continuing benefit decision notice (see OAR 461-001-0000) to close benefits when the benefit group (see OAR 461-110-0750) fails to return the reapplication form. The case is closed on the last day of the last month of the certification period (see OAR 461-001-0000).

(2) In the SNAP program, the Department sends a continuing benefit decision notice when a benefit group in Simplified Reporting System (SRS) fails to return the Interim Change Report by the 10th day of the sixth month of the certification period. The notice informs the benefit group that:

(a) The report was not received by the Department by the 10th day of the sixth month in the certification period.

(b) The benefit group has until the end of the sixth month of the certification period to provide the report to receive benefits for the seventh month of the certification period.

(c) If the report is not received by the Department by the last day of the sixth month of the certification period, SNAP program benefits will be suspended effective the last day of the sixth month.

(d) The SNAP program case remains in suspended status for a month and then is closed.

(1) The effective date of a change based on an Interim Change Report is:

(a) The first day of the seventh month of the certification period (see OAR 461-001-0000); or

(b) If the change causes benefits to close, the last day of the sixth month of the certification period.

(2) The effective date of a change not based on an Interim Change Report is as follows:

(a) For a change resulting in an increase in benefits, the effective date is determined in accordance with OAR 461-180-0010 and 461-180-0020.

(b) For a change resulting in a decrease in benefits, the effective date for reducing benefits is the first of the month following the month in which the decision notice period ends.

(c) For a change resulting in a closure of benefits, the effective date is the last day of the month in which the notice period ends.

- OAR 461-130-0335 about removing disqualifications and effect on benefits is being amended to state that in the REF program, a filing group is not subject to the impact of a disqualification when a disqualified member has left the household group and that if that disqualified member joins another filing group, that group is subject to the member's most recent disqualification; and

- OAR 461-135-0900 about requirements in the REF and REFM programs is being amended to allow a benefit group who is receiving REFM benefits, but no longer meets the filing group definition of REFM, to continue to receive REFM for the remainder of their eight months if a newborn is added and the group was determined ineligible for any of the medical programs administered by OHA.

In addition, non-substantive edits were made to: ensure consistent terminology throughout self-sufficiency program rules and policies; make general updates consistent with current Department practices; update statutory and rule references; correct formatting and punctuation; remove unnecessary language; improve ease of reading; and clarify Department rules and processes.

Financial Group

(1) Except as provided in section (4) of this rule, the "financial group" consists of the filing group (see OAR 461-110-0310) members whose income and resources the Department considers in determining eligibility (see 461-001-0000) and benefits.

(2) In the ERDC, GA, OSIPM-EPD, QMB, and SNAP programs, the "financial group" consists of each individual in the filing group.

(3) In the REF and REFM programs, the "financial group" consists of each individual in the filing group, except an individual who is eligible for and receives an SSI cash payment.

(4) In the OSIPM (except OSIPM-EPD) program:

(a) For the purposes of this section of this rule, "ineligible" means an individual not eligible to receive either SSI or TANF program benefits.

(b) When an individual lives in a standard living arrangement (see OAR 461-001-0000):

(A) Except as provided in paragraph (B) of this subsection, each member of the filing group is in the "financial group".

(B) When an individual, whose eligibility is not determined under certain protected groups (see OAR 461-135-0771 to 461-135-0830), is married, not assumed eligible (see 461-135-0010) for OSIPM, and the individual's spouse (see 461-001-0000) is considered "ineligible" (see subsection (a) of this section):

(i) If the individual's adjusted income (see OAR 461-001-0000) using the deductions allowed under 461-160-0550(4) is greater than the OSIPM program adjusted income standard for a need group of one under 461-155-0250, the individual is in his or her own "financial group" and not eligible for OSIPM.

(ii) When there are children in the home, if the ineligible spouse's remaining countable (see OAR 461-001-0000) income after allocation (see 461-160-0551) to each ineligible child is equal to or less than the difference between the couple and the individual SSI standards: the spouse is not included in the "financial group" when determining income eligibility; however, the spouse is included in the "financial group" when determining resource eligibility.

(iii) When there are no children in the home, if the ineligible spouse's countable income is less than the difference between the couple and the individual SSI standards: the spouse is not included in the "financial group" when determining income eligibility; however, the spouse is included in the "financial group" when determining resource eligibility.

(c) When an individual lives in a nonstandard living arrangement (see OAR 461-001-0000), the "financial group" consists only of the individual applying for benefits, except that the community spouse (see OAR 461-001-0030) is included in the "financial group" to determine initial eligibility. At initial eligibility, the resources of the community spouse are considered and the provisions of 461-160-0580 apply. The income of the community spouse is not considered in determining initial eligibility, and the community spouse is not included in any other eligibility group.

(5) In the TANF program, the "financial group" consists of each individual in the filing group except the following:

(a) A caretaker relative, other than a parent, who chooses not to be included in the need group and has income less than the non-needy countable income limit standard (see OAR 461-155-0030) for the filing group of the caretaker relative;

(b) The spouse of a caretaker relative, when the caretaker relative meets the requirements under subsection (a) of this section;

(c) A dependent child of a caretaker relative when the caretaker relative meets the requirements under subsection (a) of this section;

(d) An individual in the filing group solely due to the requirements of OAR 461-110-0310(2)(b); and

(e) An individual who is eligible for and receives an SSI cash payment.

When an Application Must Be Filed

(1) An individual must file an application, or may amend a completed application, as a prerequisite to receiving benefits as follows:

(a) An individual may apply for the TA-DVS program as provided in OAR 461-135-1220.

(b) In all programs except the TA-DVS program:

ADMINISTRATIVE RULES

(A) Except as provided otherwise in this rule, to apply for program benefits, an individual must submit a complete application on a form approved by the Department.

(B) An application is complete if all of the following requirements are met:

(i) All information necessary to determine eligibility (see OAR 461-001-0000) and benefit amount is provided on the application for each individual in the filing group (see OAR 461-110-0310).

(ii) The applicant, even if homeless, provides a valid mailing address.

(iii) The application is signed by the individual, the authorized representative (see OAR 461-115-0090 and 461-115-0140) of the individual, or another individual applying for benefits on behalf of the individual, and received by the Department.

(I) An individual required but unable to sign the application may sign with a mark, witnessed by another individual.

(II) An individual submitting an electronic application (see OAR 461-001-0000) must submit the application with an electronic signature.

(2) A new application is not required in the following situations:

(a) In the SNAP program, when a single application can be used both to determine an individual is ineligible in the month of application and to determine the individual is eligible the next month. This may be done when:

(A) Anticipated changes make the filing group (see OAR 461-110-0370) eligible the second month; or

(B) The filing group provides verification between 30 and 60 days following the filing date (see OAR 461-115-0040), under 461-180-0080.

(b) In all programs except the SNAP program, when a single application can be used both to determine an individual is ineligible on the date of request (see OAR 461-115-0030) and to determine the individual is eligible when anticipated changes make the filing group eligible within 45 days from the date of request.

(c) When the case is closed and reopened during the same calendar month.

(d) When benefits were suspended for one month because of the level of income, and the case is reopened the month following the month of suspension.

(e) When reinstating medical benefits for a pregnant woman covered by OAR 461-135-0950, notwithstanding subsection (g) of this section.

(f) In the ERDC program, when a case closed during the certification period (see OAR 461-001-0000) and the individual reports a change in circumstances prior to the end of the month following the closure and the reported change will make the individual eligible.

(g) In the GAM, OSIPM, and QMB programs, when the medical benefits of an individual are suspended because the individual lives in a public institution (see OAR 461-135-0950), if the inmate is released within 12 months of admission and the inmate provides notification to the Department within 10 days of the release.

(3) When an individual establishes a new date of request prior to the end of the month following the month of case closure, unless the Department determines a new application is required, a new application is not required in the following situations:

(a) In the OSIPM program, when the individual's case closed due to failure to make a liability payment required under OAR 461-160-0610.

(b) In the OSIPM-EPD program, when the individual's case closed due to failure to make a participant fee payment required under OAR 461-160-0800.

(4) A new application is required to add a newborn child (see OAR 461-001-0000) to a benefit group (see OAR 461-110-0750) according to the following requirements:

(a) In the ERDC and SNAP programs, an application is not required to add the child to the benefit group.

(b) In the GAM, OSIPM, QMB, and REFM programs, an additional application is not required to add an assumed eligible newborn (see OAR 461-135-0010) to a benefit group currently receiving Department medical program benefits.

(c) In the TANF program:

(A) A new application is not required if the child is listed on the application as "unborn" and there is sufficient information about the child to establish its eligibility.

(B) A new application is required if the child is not included on the application as "unborn."

(d) In all programs other than ERDC, GAM, QMB, REF, REFM, SNAP, and TANF, an application is required.

(5) A new application is required to add an individual, other than a newborn child, to a benefit group according to the following requirements:

(a) In the ERDC and SNAP programs, a new application is not required.

(b) In the REF, REFM, and TANF programs, an individual may be added by amending a current application if the information is sufficient to determine eligibility; otherwise a new application is required.

(c) In all programs other than the ERDC, REF, REFM, SNAP, and TANF programs, a new application is required.

(6) An individual whose TANF grant is closing may request ERDC orally or in writing.

(7) Except for an applicant for the OSIPM, QMB, or SNAP program, an individual may change between programs administered by the Department using the current application if the following conditions are met:

(a) The individual makes an oral or written request for the change.

(b) The Department has sufficient evidence to determine eligibility and benefit level for the new program without a new application.

(c) The program change can be effected while the individual is eligible for the first program.

(8) In the OSIP, OSIPM, and QMB programs, a new application is not required to redetermine eligibility if the following conditions are met:

(a) The individual is currently receiving benefits from one of these programs.

(b) The Department has sufficient evidence to redetermine eligibility for the same program or determine eligibility for the new program without a new application or by amending the current application.

Who Must Sign the Application and Complete the Application Process

(1) In the ERDC and TANF programs, the following individuals must sign the application and complete the application process:

(a) In the ERDC program, a caretaker (see OAR 461-001-0000).

(b) In the TANF program, at least one caretaker relative (see OAR 461-001-0000).

(2) In the EA program:

(a) A caretaker relative must sign the application and complete the application process for a child (see OAR 461-001-0000). If the child is not living with a caretaker relative, another adult may act on behalf of the child.

(b) If the caretaker relative lives with a spouse (see OAR 461-001-0000), both must sign the application.

(c) A dependent child 18 years of age who applies must sign the application and complete the application process.

(3) In the GA, GAM, OSIPM, and QMB programs, at least one adult requesting assistance must complete the application process and sign the application, if able. If there is no adult who is able to sign the application and complete the application process, this may be done by the authorized representative (see OAR 461-115-0090). If the applicant dies prior to the determination of eligibility for OSIPM, the application may be processed if the Department receives the required verification.

(4) In the REF and REFM programs, at least one adult member of the filing group (see OAR 461-110-0430) must sign the application.

(5) In the SNAP program, the primary person (see OAR 461-001-0015), the spouse of the primary person, or another adult member of the filing group (see 461-110-0370) must sign the application and complete the application process.

ADMINISTRATIVE RULES

(6) An individual required to sign the application but unable to sign may sign with a mark, witnessed by an employee of the:

- (a) Branch office (see OAR 461-001-0000); or
- (b) Public institution (see OAR 461-135-0950), when the individual applying is an inmate (see 461-135-0950) and is applying for benefits under the OSIPM program.

Offices Where Clients Apply

(1) For all programs, applicants must apply at the branch office (see OAR 461-001-0000) serving the area in which they live or work. (b) Applicants may apply for health coverage by:

- (A) Calling the Cover Oregon toll-free number;
- (B) Applying through the Cover Oregon online portal; or
- (C) Contacting a federally qualified health center, a qualified hospital, a disproportionate-share hospital, or another entity authorized by rule.

(2) The Department has designated liaison branch offices for some groups of applicants (such as patients in state medical institutions and refugees). Those applicants must apply at the designated liaison branch office.

(3) REF and TANF applicants who meet the following requirements must apply through one of the local contracted refugee resettlement agencies:

- (a) Have been in the US for eight months or less according to OAR 461-135-0900(4);

Periodic Redeterminations; Not EA, ERDC, SNAP, or TA-DVS

The Department periodically redetermines the eligibility (see OAR 461-001-0000) of clients for benefits and assigns a redetermination date by which the next determination is required. The Department selects the redetermination date based on the client's circumstances and according to the following requirements:

(1) In the GA and GAM programs, the Department determines eligibility each 12 months.

(2) In the OSIP and OSIPM programs, the Department determines eligibility each 12 months for clients who are not eligible for SSI. No redetermination is required for clients who are eligible for SSI.

(3) In the QMB program, the Department determines eligibility each 12 months for clients who are not eligible for SSI. For QMB recipients who are also eligible for OSIPM, a redetermination for QMB is completed with the redetermination of OSIPM.

(4) The REF and REFM programs are time limited programs; therefore, no periodic redeterminations are made.

(5) In the SFPSS program, the Department redetermines eligibility at least once every 12 months. The Department redetermines program eligibility by redetermining eligibility for the TANF program.

(6) In the TANF program, benefits will end the last day of the certification period (see OAR 461-001-0000). The Department redetermines eligibility according to the following schedule:

(a) At least once every six months for each of the following:

(A) Clients not participating in an activity (see OAR 461-001-0025) of an open case plan (see 461-001-0025).

(B) Clients who are currently serving a JOBS disqualification.

(b) At least once every 12 months for all other clients.

Effect of Strikes

(1) For the purposes of this rule, "striker" means anyone participating in a strike or concerted stoppage of work by employees (including a stoppage by reason of the expiration of a collective-bargaining agreement) or any concerted slowdown or other concerted interruption of operations by employees. An individual is not a "striker" if the individual is:

(a) An employee affected by a lockout;

(b) An individual who goes on strike but who is exempt (see OAR 461-130-0305) from participating in an employment program under this division of rules the day prior to the strike, unless exempt solely on the ground that the individual is employed; or

(c) An individual who is not part of a bargaining unit on strike and does not want to cross a picket line due to fear of personal injury or death.

(2) In the EA and TANF programs, a filing group (see OAR 461-110-0310) is ineligible for program benefits during any month in which a parent (see 461-001-0000) in the filing group is a striker (see section (1) of this rule). If any other member of the filing group is a striker, only that individual is ineligible.

(3) In the REF program, a filing group (see OAR 461-110-0430) is ineligible for program benefits during any month in which a member of the filing group is a striker.

(4) In the SNAP program:

(a) A household containing a striker is not eligible to participate in the program unless the household was eligible for benefits the day prior to the date the member became a striker.

(b) An eligible household is not entitled to an increased allotment as the result of a decrease in the income of a need group (see OAR 461-110-0630) member on strike.

(c) The eligibility (see OAR 461-001-0000) of a filing group (see 461-110-0370) containing a striker is determined by adding to the income of the filing group members who are not strikers the greater of the current income of the striker or the income of the striker immediately before the strike. Deductions used to determine benefits and eligibility for a household subject to the net income eligibility standard are calculated for the month of application as for any other household.

(d) A striker is subject to the registration requirements of this division of rules unless exempt from participating in an employment program on the day of application.

Removing Disqualifications and Effect on Benefits

(1) An applicant who would be subject to an employment program disqualification under OAR 461-130-0330 but withdraws the application before benefits are approved is not subject to disqualification.

(2) In the REF, SNAP, and TANF programs, a filing group (see 461-110-0330, 461-110-0370, and 461-110-0430) is not subject to the impact of a disqualification for a disqualified member who has left the household group (see 461-110-0210). If the member joins another filing group, that group is subject to the member's most recent disqualification.

(3) In the REF and TANF programs, an individual disqualified for failure to meet the requirements of an employment program under division 190 of these rules:

(a) At the first level of disqualification must cooperate for two consecutive weeks with each activity (see OAR 461-001-0025) specified in the individual's current or revised case plan (see 461-001-0025) before the Department may remove the disqualification. Cash benefits are restored

ADMINISTRATIVE RULES

effective the date the individual completes the two consecutive week cooperation period.

(b) When the second level of disqualification ends, TANF program benefits are closed for two consecutive months, unless the individual begins two consecutive weeks of cooperation with each activity specified in the individual's current or revised case plan before the end of the second level. If the individual completes the two consecutive weeks of cooperation, cash benefits are restored effective the date the individual completes the two consecutive week cooperation period.

(c) Cash benefits are restored effective the date it is determined, by the Department, there are no appropriate activities or support services (see OAR 461-001-0025) necessary to support the activity available in order for the individual to demonstrate participation.

(4) In the REF and TANF programs, a disqualification ends when:

(a) The Department changes the participation classification of the disqualified individual to exempt (see 461-130-0305);

(b) The individual complies with the requirements of the employment program (see section (3) of this rule); or

(c) REF or TANF program benefits are closed for a reason other than described in OAR 461-130-0330(3)(d).

(5) In the SNAP program, the disqualification ends the first day of the month following the month in which information is provided to the Department justifying the change in the individual's participation classification, even if the date falls within the disqualification period provided in OAR 461-130-0330(4).

461-135-0900

Specific Requirements; REF, REFM

(1) In addition to the eligibility (see OAR 461-001-0000) requirements in other rules in OAR chapter 461, an individual must meet all of the requirements in this rule to be eligible for the REF and REFM programs.

(2) An individual must meet the alien status requirements of OAR 461-120-0125, except a child (see 461-001-0000) born in the United States to an individual in the REF or REFM program meets the alien status requirements for the REF and REFM programs as long as each parent (see 461-001-0000) in the household group (see 461-110-0210) meets the alien status requirements of 461-120-0125.

(3) An individual is not eligible to receive REF and REFM program benefits if the individual is a full-time student of "higher education", unless such education is part of a cash assistance case plan. Any education or training allowable under an approved case plan must be less than one year in length. For the purposes of this rule, "higher education" means education that meets the requirements of one of the following subsections:

(a) Public and private universities and colleges and community colleges that offer degree programs regardless of whether a high school diploma is required for the program. However, GED, ABE, ESL, and high school equivalency programs at these institutions are not considered "higher education".

(b) Vocational, technical, business, and trade schools that normally require a high school diploma or equivalency certificate for enrollment in the curriculum or in a particular program at the institution. However, programs at those institutions that do not require the diploma or certificate are not considered "higher education".

(4) Eligibility for REF and REFM program benefits is limited to the first eight months in the United States:

(a) For an individual who meets the alien status requirements of OAR 461-120-0125(8)(a), (c), (d), or (e), the month that the individual enters the U.S. counts as the first month.

(b) For an individual who meets the alien status requirements of OAR 461-120-0125(8)(b), (f), or (g), the month that the individual was granted the individual's status counts as the first month.

(c) For an individual who meets the alien status requirements of OAR 461-120-0125(8)(h):

(A) If the individual enters the U.S. with the special immigrant status, the month that the individual enters the U.S. counts as the first month.

(B) If the individual is granted special immigrant status after the individual has already entered the U.S., then the month in which the special immigrant status was granted counts as the first month.

(d) Months in the United States are counted as whole months. There is no prorating of months, except as described in OAR 461-193-0320.

(5) For an individual who meets the requirements of section (4) of this rule:

(a) When the individual resides in Clackamas, Multnomah, or Washington County:

(A) The individual is not eligible to receive REF, TANF, or TANF-related employment services through the Department. To receive benefits, the individual is required to participate in the Refugee Case Service Project (RCSP) program. This individual is referred to the individual's local resettlement agency to be enrolled in the RCSP program and receives all other Department services through the individual's local Department office.

(B) An individual who no longer meets the requirements of section (4) of this rule is no longer eligible to receive cash or case management services through the RCSP program. If this individual has been in the United States for 12 months or less, the individual is referred to the New Arrival Employment Services (NAES) program contractor for employment services.

(b) When the individual resides in a county other than Clackamas, Multnomah, and Washington, the RCSP program is not available. The individual is served at the individual's local Department office.

(6) Except for QMB, eligibility for all Medicaid and CHIP programs must be determined prior to determining eligibility for the REFM program.

(7) Eligibility for the TANF program must be determined prior to the REF program.

(8) An individual in the REF program may not participate in the Pre-TANF program.

(9) An REFM benefit group (see OAR 461-110-0750) may continue to receive REFM for the remainder of the eight months, as stated in (4) of this rule, if:

(a) A newborn is born to a benefit group member while the benefit group member was receiving REFM; and

(b) The benefit group applied for OCCS Medical and was denied.

Subject: The Department of Human Services, Office of Self Sufficiency Programs, is adopting, amending, and repealing rules in chapter 461 to align with federal policy regarding how income and resources are treated and budgeted in Aging and People with Disabilities (APD) programs and update policy regarding submitting required notices to the Department's Personal Injury Liens Unit. Specifically:

OAR 461-001-0000 about definitions is being amended to change the definition of income-producing property to make a clearer distinction between income producing property, property used in self-employment, and various other property types that previously could

ADMINISTRATIVE RULES

be addressed in more than one rule (such as animals or rooms or buildings for rent which are part of the home).

OAR 461-115-0230 about interviews is being amended to clarify that interviews are required for APD medical programs at initial application for assumed eligible individuals. The current rule suggests that no interview is needed for this population at either initial application or annual redetermination. This corrects a previous amendment which was effective July 1, 2014. The rule is also being amended to allow REF and REFM interviews to be conducted by telephone or home visit when the applicant has a hardship.

OAR 461-115-0700 about required verification in the GA, GAM, OSIP, OSIPM, and QMB programs is being amended to state that verification of liquid resources is not required, unless questionable, if the reported value is less than \$400 and that, for purposes of the rule, the cash surrender value of a life insurance policy is not considered a liquid resource.

OAR 461-120-0310 about assignment of support rights in all programs except the SNAP program is being amended to correct an inaccuracy in the current rule. The rule currently states that a refund process occurs annually; instead, expenditures should be reconciled 12 months after benefits are terminated. Division of Child Support revenue should be retained for the duration of assignment of support rights, similar to administration in other states and IV-E administration.

OAR 461-140-0020 about determining availability of resources is being amended to address situations in which resources (including an individual's ownership interest in a corporation or business entity) may not be sold or liquidated due to legal barriers or restrictions.

OAR 461-140-0040 about availability of income is being amended to clarify how certain types of earned income (such as teachers' wages) are budgeted when it is received in a different period of time than when it is earned. The income of certain teachers was considered contract income in the past and addressed in the self-employment budgeting rule, which was confusing. These types of employment arrangements are not self-employment and teachers are not outside contractors; they are paid wages by an employer under a contractual arrangement. These amendments make that clarification.

OAR 461-145-0010 about animals is being amended to clarify when animals can be considered income-producing property and align with federal regulations about their treatment.

OAR 461-145-0088 about income and resources of corporations and business entities is being amended to remove APD medical programs from this rule. Income and resources of corporations and business entities will be addressed in a new rule, OAR 461-145-0089, which is being adopted to align with federal policy regarding how income and resources of corporations and business entities are treated in the OSIP, OSIPM, and QMB programs. Individuals who incorporate businesses will not be considered self-employed; furthermore, other types of business arrangements will now be clearly addressed, including when owning a business constitutes self-employment and how to count income and resources when it does not.

OAR 461-145-0120 about defining earned income is being amended to include non-business expenditures paid by an individual's business or corporation as earned income.

OAR 461-145-0130 about the treatment of earned income is being amended to comply with federal regulations which allow net losses from self-employment to be excluded from other sources of earned income. It also aligns the Department with federal regulations regarding how income earned from an individual's corporation is counted, namely that it cannot be considered self-employment income.

OAR 461-145-0250 about income-producing property is being amended to remove APD medical programs as it will be addressed in a new rule, OAR 461-145-0252, which is being adopted to clarify what constitutes income-producing property in the OSIP, OSIPM, and QMB programs and how it should be treated. This new rule will create a much clearer distinction between income-producing prop-

erty and work-related assets, which is not present in the current versions of these rules.

OAR 461-145-0440 about reimbursements is being amended to add a reference to a proposed new rule, OAR 461-145-0915, described below, relating to self-employment income in APD medical programs.

OAR 461-145-0600 about work-related capital assets, equipment, and inventory is being amended to align with federal policy, which excludes these items.

OAR 461-145-0910 about self-employment income generally is being amended to remove APD medical programs as they will now be addressed in a new rule, OAR 461-145-0915 which is being adopted to align Department policy with federal policy regarding how self-employment is recognized and treated and to clarify that those who own or form corporations are not self-employed.

OAR 461-145-0920 about costs that are excluded to determine countable income is being amended to align with federal policy regarding excludable self-employment costs, namely that all costs listed on the IRS Schedule C are allowed.

OAR 461-150-0090 about prospective budgeting of self-employment income is being amended to remove APD medical programs as they will be addressed in a new rule, OAR 461-150-0095, which is being adopted to align with federal policy regarding how self-employment income is budgeted. The budgeting sections formerly found in 461-145-0910 have been moved to this new rule. Also, the association between self-employment and contract income has been removed as it has caused confusion in the past. An individual is either self-employed or working for another as an employee; there is no third category just because the employment may be contractual.

OAR 461-195-0310 about notices of claim or action by an applicant or recipient of assistance is being amended to: clarify that statutory notices under ORS 416.530 may be combined into one notice and sent to the Personal Injury Liens Unit; add "personal representative" as an individual required to provide notice of a claim or action; delete "prepaid managed care health services organization" as having a right to sue a recipient or applicant for failure to provide timely notice of a claim or action; and to make technical corrections

In addition, non-substantive edits were made to the rules above to: ensure consistent terminology throughout self-sufficiency program rules and policies; make general updates consistent with current Department practices; update statutory and rule references; correct formatting and punctuation; remove unnecessary language; improve ease of reading; and clarify Department rules and processes.

Definitions for Chapter 461

Defined terms are often italicized throughout this chapter of rules. If a defined term is accompanied by a cross-reference to a rule defining the term, subsequent usages of that term in the same rule refer to the same definition cross-referenced earlier in the rule. In this chapter of rules, unless the context indicates otherwise:

(1) A reference to Division, Adult and Family Services Division (or AFS), Senior and Disabled Services Division (or SDS), or any other agency formerly part of the Department of Human Services means the Department of Human Services (DHS), except:

(a) The rule in which reference occurs only regulates programs covered by OAR chapter 461.

(b) OCCS medical program eligibility rules are in OAR chapter 410, division 200.

(2) "Address Confidentiality Program" (ACP) means a program of the Oregon Department of Justice, which provides a substitute mailing address and mail forwarding service for ACP participants who are victims of domestic violence (see section (25) of this rule), sexual assault, or stalking.

(3) "Adjusted income" means the amount determined by subtracting income deductions from countable (see section (18) of this rule) income (see OAR 461-140-0010). Specific rules on the deductions are in OAR chapter 461, division 160.

(4) "Adoption assistance" means financial assistance provided to families adopting children with special needs. "Adoption assistance" may

ADMINISTRATIVE RULES

be state or federally funded. Federal adoption assistance is authorized by the Adoption Assistance and Child Welfare Act of 1980 (Pub. L. No. 96-272, 94 Stat. 500 (1980)). State adoption assistance is authorized by ORS 418.330 to 418.335.

(5) "Assets" mean income and resources.

(6) "Basic decision notice" means a decision notice (see section (21) of this rule) mailed no later than the date of action given in the notice.

(7) "Branch office" means any Department or AAA (Area Agency on Aging) office serving a program covered by this chapter of rules.

(8) "Budgeting" means the process of calculating the benefit level.

(9) "Budget month" means the calendar month from which nonfinancial and financial information is used to determine eligibility (see section (28) of this rule) and benefit level for the payment month (see section (50) of this rule).

(10) "Cafeteria plan" means a written benefit plan offered by an employer in which:

(a) All participants are employees; and

(b) Participants may choose, cafeteria-style, from a menu of two or more cash or qualified benefits. In this context, qualified benefits are benefits other than cash that the Internal Revenue Service does not consider part of an employee's gross income. Qualified benefits include, but are not limited to:

(A) Accident and health plans (including medical plans, vision plans, dental plans, accident and disability insurance);

(B) Group term life insurance plans (up to \$50,000);

(C) Dependent care assistance plans; and

(D) Certain stock bonus plans under section 401(k)(2) of the Internal Revenue Code (but not 401(k)(1) plans).

(11) "Capital asset" means property that contributes toward earning self-employment income, including self-employment income from a microenterprise (see section (43) of this rule), either directly or indirectly. A "capital asset" generally has a useful life of over one year and a value, alone or in combination, of \$100 or more.

(12) "Caretaker" means an individual who is responsible for the care, control, and supervision of a child (see section (15) of this rule). The status of "caretaker" ends once the individual no longer exercises care, control, and supervision of the child for 30 days.

(13) "Caretaker relative" means:

(a) In the Pre-TANF, SFPSS, and TANF programs, a dependent child's father, mother, grandfather, grandmother, brother, sister, stepfather, stepmother, stepbrother, stepsister, uncle, aunt, first cousin, nephew, or niece who lives in a residence maintained by one or more of the relatives as the child's or the relative's own home.

(b) In all programs not covered under subsection (a) of this section, a caretaker (see section (12) of this rule) who meets the requirements of one of the following paragraphs:

Required Verification; GA, GAM, OSIP, OSIPM, QMB

In the GA, GAM, OSIP, OSIPM, and QMB programs:

(1) Except as provided in section (2) of this rule, all eligibility (see OAR 461-001-0000) factors must be verified at initial application, when there is a change to any factor, and whenever eligibility for benefits becomes questionable.

(2) If the total reported value of gross "liquid resources" of the financial group (see OAR 461-110-0530) is less than \$400, verification of the value of "liquid resources" is only required if questionable. For the purposes of this rule, "liquid resources" include cash as well as other resources that can be converted to cash within 20 business days, except that the cash surrender value of a life insurance policy is not considered a liquid resource.

Assignment of Support Rights; Not SNAP

In all programs except the SNAP program:

(1) To be eligible for any program funded in whole or in part with federal grants under Title IV-A (TANF) of the Social Security Act, the filing group (see OAR 461-110-0310) must assign to the state its right to receive, from any other person, child support that accrues during any time period that the group receives assistance, not to exceed the total amount of assistance paid.

(2) To be eligible for any program funded in whole or in part with federal grants under Title IV-E of the Social Security Act, the filing group must assign to the state its right to receive, from any other person, child support that has accrued or that accrues during any time period that the group receives assistance, not to exceed the total amount of assistance paid.

(3) To be eligible for the OSIPM program, a filing group (see OAR 461-110-0410) must assign to the state the right of any Medicaid-eligible child (see OAR 461-001-0000) in the filing group to receive any cash medical support that accrues while the group receives assistance, not to exceed the total amount of assistance paid.

(4) Cash medical support received by the Department is retained by the Department as is necessary to reimburse the Department for OSIPM program medical assistance payments made on behalf of an individual with respect to whom such assignment was executed. To allow adequate time for reporting and payment of incurred medical services, the Department initiates reconciliation 12 months after termination of OSIPM benefits and subsequently issues any resulting refund to the individual or the individual's legal guardian.

(5) When the Department provides benefits or services for the support of a child who is in a filing group in any program funded in whole or in part with a federal grant under Title IV-A (TANF) or IV-E of the Social Security Act, the right to child support for that child that any individual may have is deemed to be assigned to the state by operation of law.

Availability of Resources

(1) Except as provided in sections (2) to (4) of this rule:

(a) In the SNAP program, a resource owned jointly by a client and another individual is available in its entirety to the client.

(b) In all other programs, jointly-owned resources are available to members of a financial group (see OAR 461-110-0530) only to the extent they own the resource; except that in the OSIPM and QMB programs, jointly-owned "liquid resources" (including bank and other financial institution accounts) are assumed to be available in their entirety to the client. The client has the right to provide evidence rebutting the ownership assumption. For the purposes of this rule, "liquid resources" means cash as well as other resources that can be converted to cash within 20 business days.

(2) A resource is not available to a client in each of the following situations:

(a) The client has a legal interest in the resource, but the resource is not in the client's possession and the client is unable to gain possession of it. In the REF and REFM programs, if a resource remains in the applicant's country of origin, it is not available.

(b) The resource is jointly owned with others not in the financial group who are unwilling to sell their interest in the resource, and the client's interest is not reasonably saleable.

(c) The client verifiably lacks the competence to gain access to or use the resource and there is no legal representative available to act on the client's behalf.

(d) The client is a victim of domestic violence (see OAR 461-001-0000) and:

(A) Attempting to use the resource would subject the client to risk of domestic violence; or

(B) The client is using the resource to avoid the abusive situation.

(e) Except as provided in OAR 461-145-0540, the resource is included in an irrevocable or restricted trust and may not be used to meet the basic monthly needs of the financial group.

(f) In the OSIP, OSIPM, and QMB programs, there is a legal bar to the sale of the resource.

(3) A resource is not considered available during the time the owner does not know he or she owns the resource.

(4) If a resource is subject to an early withdrawal penalty, the amount of the penalty is not available.

Determining Availability of Income

(1) This rule describes the date income is considered available, what amount of income is considered available, and situations in which income is considered unavailable.

(2) Income is considered available the date it is received or the date a member of the financial group (see OAR 461-110-0530) has a legal right to the payment and the legal ability to make it available, whichever is earlier, except as follows:

(a) Income usually paid monthly or on some other regular payment schedule is considered available on the regular payment date if the date of payment is changed because of a holiday or weekend.

(b) Income withheld or diverted at the request of an individual is considered available on the date the income would have been paid without the withholding or diversion.

(c) An advance or draw of earned income is considered available on the date it is received.

(d) Income that is averaged, annualized, converted, or prorated is considered available throughout the period for which the calculation applies.

(e) A payment due to a member of the financial group, but paid to a third party for a household expense, is considered available when the third party receives the payment.

(f) In prospective budgeting, income is considered available in the month the income is expected to be received (see OAR 461-150-0020).

(g) In the OSIP, OSIPM, and QMB programs, except for self-employment (see OAR 461-145-0915), wages that are earned in one period of time but paid in another are considered available when they are received, such as a teacher who works for nine months but is paid over twelve.

(3) The following income is considered available even if not received:

(a) Deemed income.

(b) In the ERDC, REF, REFM, and TANF programs, the portion of a payment from an assistance program, such as public assistance, unemployment compensation, or Social Security, withheld to repay an overpayment.

(c) In the GA, GAM, OSIPM, and QMB programs, the portion of a payment from an assistance program (such as public assistance, unemployment compensation, or Social Security) withheld to repay an overpayment of the same source:

(A) If withheld prior to July 1, 2014.

(B) If withheld on or after July 1, 2014 and:

(i) No member of the financial group was receiving GA, GAM, OSIP, OSIPM, or QMB during the period the benefit was overpaid; or

(ii) The withheld amount is not excluded under paragraph (5)(c)(A) of this rule.

(d) In the SNAP program, the portion of a payment from the TANF program counted as disqualifying income under OAR 461-145-0105.

(4) The amount of income considered available is the gross before deductions, such as garnishments, taxes, or other payroll deductions including flexible spending accounts.

(5) The following income is not considered available:

(a) Wages withheld by an employer in violation of the law.

(b) Income received by another individual who does not pay the client his or her share.

(c) Income received by a member of the financial group after the individual has left the household.

(d) Moneys withheld from or returned to the source of the income to repay an overpayment from that source unless the repayment is countable (see OAR 461-001-0000):

(A) In the SNAP program, under OAR 461-145-0105.

(B) In the ERDC, REF, REFM, and TANF programs, under subsection (3)(b) of this rule.

(e) In the GA, GAM, OSIP, OSIPM, and QMB programs:

(A) The portion of a payment from an assistance program, such as public assistance, unemployment compensation, or Social Security withheld on or after July 1, 2014 to repay an overpayment from the same source if at least one member of the financial group was receiving GA, GAM, OSIPM, or QMB during the period the benefit was overpaid. The amount considered unavailable cannot exceed the amount of the overpaid benefit

previously counted in determining eligibility (see OAR 461-001-0000) for GA, GAM, OSIP, OSIPM, or QMB.

(B) Monies withheld from or returned to a source of income, when the source is not an assistance program, to repay an overpayment of the same source.

(f) For an individual who is not self-employed, income required to be expended on an ongoing, monthly basis on an expense necessary to produce the income, such as supplies or rental of work space.

(g) Income received by the financial group but intended and used for the care of an individual not in the financial group as follows:

(A) If the income is intended both for an individual in the financial group and an individual not in the financial group, the portion of the income intended for the care of the individual not in the financial group is considered unavailable.

(B) If the portion intended for the care of the individual not in the financial group cannot readily be identified, the income is prorated evenly among the individuals for whom the income is intended. The prorated share intended for the care of the individual not in the financial group is then considered unavailable.

(h) In the ERDC, REF, REFM, SNAP, and TANF programs, income controlled by the client's abuser if the client is a victim of domestic violence (see OAR 461-001-0000), the client's abuser controls the income and will not make the money available to the filing group (see OAR 461-110-0310), and the abuser is not in the client's filing group.

(i) In the OSIP, OSIPM, and QMB programs, unearned income not received because a payment was reduced to cover expenses incurred by a member of the financial group to secure the payment. For example, if a retroactive check is received from a benefit program other than SSI, legal fees connected with the claim are subtracted. Or, if payment is received for damages received as a result of an accident the amount of legal, medical, or other expenses incurred by a member of the financial group to secure the payment are subtracted.

(j) In the REFM program, any income used for medical or medical-related purposes.

(6) The availability of lump-sum income (see OAR 461-001-0000) is covered in OAR 461-140-0120.

Animals

(1) Animals that are kept as pets or raised as food for the filing group (OAR 461-110-0310) are excluded.

(2) The treatment of an animal considered income-producing property (see OAR 461-001-0000) is covered by the income-producing property rules (see OAR 461-145-0250 and 461-145-0252).

(3) In the OSIP, OSIPM, and QMB programs:

(a) The fair market value (see OAR 461-001-0000) of animals that are kept or retained for sale or resale is a countable (see OAR 461-001-0000) resource.

(b) If an animal is a source of both food and income for the filing group:

(A) The fair market value of the animal remains excluded.

(B) The proceeds of any sales of the animal or its products are counted as unearned income.

ADMINISTRATIVE RULES

461-145-0088

Corporations and Business Entities; Income and Resources; Not OSIP, OSIPM, or QMB

(1) The value of stocks or other ownership interest in a corporation is a resource.

(2) Assets of the corporation essential to the employment of an individual are excluded. For instance, if the corporation owns equipment used by the individual to produce income for the corporation, the equipment is an excluded resource. If an individual must own stock in the corporation as a condition of working for the corporation, the stock is an excluded resource.

(3) Except as provided in OAR 461-140-0040(2) and section (4) of this rule, income of a corporation is not income of an individual with an ownership interest in the corporation until the income is distributed to the individual.

(4) In the REF, REFM, and SNAP programs:

(a) An expenditure by a business entity or corporation that benefits a principal (see subsection (b) of this section) — such as a car or housing payment — is considered available when the expenditure is made.

(b) For purposes of this rule, a “principal” means an individual with significant authority in a business entity or corporation, including a sole proprietor, a self-employed person (see OAR 461-145-0910), a partner in a partnership, a member or manager of a limited liability company, and an officer or principal stockholder of a closely held corporation.

(c) See OAR 461-145-0130, 461-145-0280, and 461-145-0470 for the treatment of earned in-kind income.

(5) In the SNAP program:

(a) Income from business entities and corporations is treated as follows:

(A) If an individual is actively working in a corporation, the income is treated as earned income.

(B) If an individual is actively working in an unincorporated business entity, refer to OAR 461-145-0910 to determine if the income is treated as earned or as self-employment.

(C) If an individual is no longer actively working to produce the income, the income is treated as unearned.

(b) Income from a limited liability company is treated as follows:

(A) If an individual is a member or a manager member, the income is treated as self-employment income.

(B) If an individual is a manager but not a member, the income is treated as earned income.

Corporations and Other Business Entities; Income and Resources, Not Self-Employment; OSIP, OSIPM, QMB

(1) For purposes of this rule:

(a) “Business entity” includes a sole proprietorship, a partnership, and an unincorporated limited liability company.

(b) “Principal” means an individual with significant authority in and responsibility for the success or failure of a corporation or “business entity” (see subsection (a) of this section), including:

(A) A sole proprietor.

(B) A general partner in a partnership.

(C) A member or manager of a limited liability company.

(D) An officer or stockholder with controlling shares in a closely-held corporation.

(2) This rule applies to an individual who has an ownership interest in:

(a) A corporation; or

(b) A business entity, but is not considered self-employed (see OAR 461-145-0915).

(3) For an individual with an ownership interest in and actively working for a corporation:

(a) The individual cannot be considered self-employed, regardless of whether or not the individual is a principal (see subsection (1)(b) of this rule). Income from actively working for the corporation is treated as earned income as provided in OAR 461-145-0130.

(b) Dividends or profits are treated as unearned income.

(c) Income not paid to an individual but retained by the corporation is not considered income of the individual.

(d) Property and resources owned by the corporation are excluded.

(e) If maintaining an ownership interest in a corporation is required for employment, the equity value (see OAR 461-001-0000) of the ownership interest is excluded; otherwise it is counted as provided in subsection (6)(a) of this rule.

(f) Except as provided in OAR 461-145-0280, a non-business expenditure — including, but not limited to, a car or housing payment — paid by the corporation that benefits the individual is treated as earned income of the individual.

(4) If the individual has an ownership interest in a business entity, is considered a principal, and is actively working in the business entity, the individual is considered self-employed (see OAR 461-145-0915).

(5) If the individual has an ownership interest in a business entity, is not considered a principal, and is actively working in the business entity:

(a) The individual’s income, not including dividends or profits from the business entity, is treated as earned income as provided in OAR 461-145-0130.

(b) Dividends or profits are treated as unearned income.

(c) If maintaining an ownership in the business entity is required for employment, the equity value of the ownership interest is excluded; otherwise it is counted as provided in subsection (6)(a) of this rule.

(d) Except as provided in OAR 461-145-0280, a non-business expenditure — including, but not limited to, a car or housing payment — paid by a business entity that benefits the individual is treated as earned income of the individual.

(6) If the individual has an ownership interest in a corporation or business entity, but is not actively working in the corporation or business entity:

(a) Except as provided in OAR 461-140-0020, the equity value of an ownership interest in a corporation or business entity, such as stock in the corporation, is treated as a resource. See OAR 461-145-0520 for how to treat stock.

(b) Except as provided in OAR 461-140-0040, income of the individual from a corporation or business entity is treated as unearned income of the individual.

(c) Except as provided in OAR 461-145-0280, a non-business expenditure — including, but not limited to, a car or housing payment — paid by a corporation or business entity that benefits the individual is treated as unearned income of the individual.

(2) JOBS Plus income is earned income and is treated as follows:

(a) In the SNAP program:

(A) JOBS Plus income earned by a TANF-PLS (see OAR 461-101-0010)(12)(a) client:

(i) Is counted in determining initial SNAP program eligibility.

(ii) Is excluded in determining ongoing eligibility.

(B) JOBS Plus wages received after the individual's last month of work under a TANF-PLS JOBS Plus agreement are counted.

(b) In the TANF program:

(A) JOBS Plus income earned by an NCP-PLS (see OAR 461-101-0010)(12)(c) client is counted in determining initial TANF eligibility.

(B) When determining the need for a TANF supplement for a TANF-PLS client, the income is treated as follows:

(i) It is excluded in determining the countable income limit and in calculating the benefit equivalency standards.

(ii) It is counted in calculating the wage supplement.

(C) JOBS Plus wages received after the individual's last month of work under a JOBS Plus agreement are counted.

(c) In the OSIPM and QMB programs, JOBS Plus wages received after the individual's last month of work under a TANF-PLS JOBS Plus agreement are counted.

461-145-0250

Income-Producing Property; Not OSIP, OSIPM, or QMB

(1) Income from income producing property (see OAR 461-001-0000) is counted as follows:

(a) If a member of the financial group (see OAR 461-110-0530) actively manages the property 20 hours or more per week, the income is treated in the same manner as self-employment income (see OAR 461-145-0910, 461-145-0920, and 461-145-0930).

(b) If a member of the financial group does not actively manage the property 20 hours or more per week, the income is counted as unearned income with exclusions allowed only in accordance with OAR 461-145-0920. In the SNAP program, if the financial group owns more than one property, the exclusions for one property may not be used to offset income from a different property.

(2) The equity value (see OAR 461-001-0000) of income-producing property is treated as follows:

(a) In the EA and ERDC programs, it is excluded.

(b) In the SNAP program, it is counted as a resource except to the extent described in each of the following situations:

(A) If the property produces an annual countable (see OAR 461-001-0000) income similar to other properties in the community with comparable market value, the equity value of the property is excluded.

(B) The property is excluded under OAR 461-145-0600.

(C) The equity value of income-producing livestock, poultry, and other animals is excluded.

(D) If selling the resource would produce a net gain to the financial group of less than \$1,500, the equity value is excluded.

(c) In the GA and GAM programs, it is counted as a resource, except:

(A) If the non-business income-producing property (including houses or apartments for rent and land other than the primary residence) produces an annual countable income of at least six percent of its equity value, the value of the property is excluded up to a maximum of \$6,000.

ADMINISTRATIVE RULES

(B) If the annual countable income drops below six percent of the non-business property's equity value due to circumstances beyond the client's control, the client has up to 24 months from the end of the tax year in which the earnings dropped below six percent to meet the six percent requirement.

(C) The total equity value is excluded (regardless of value or rate of return) if either all the requirements of subparagraphs (i), (ii), and (iii) or subparagraph (iv) or subparagraph (v) are met:

(i) The property is used in the trade or business of a member of the financial group, as evidenced by two or more of the following:

(I) The good-faith intention of making a profit.

(II) Its use is part of a regular occupation for a member of the financial group.

(III) Holding out to others as being engaged in the selling of goods or services.

(IV) Continuity of operations, repetition of transactions, or regularity of activities.

(ii) The property is in current use or, if not in use for reasons beyond the control of the financial group, there must be a reasonable expectation that the required use will resume.

(iii) The property is essential to the client's self-support.

(iv) The government has issued a permit to the client to engage in income-producing activity on or with the property.

(v) Personal property is used by an employee for work.

(d) In the REF, REFM, and TANF programs, it is counted as a resource, except that in the TANF program, it is excluded for a self-employed client participating in the microenterprise (see OAR 461-001-0025) component of the JOBS program.

(b) If the income-producing property, including houses or apartments for rent and land other than the primary residence, produces an annual countable (see OAR 461-001-0000) income of at least six percent of its equity value, the value of the property is excluded up to a maximum of \$6,000.

(c) If the annual countable income drops below six percent of the equity value of the income-producing property due to circumstances beyond the client's control, the client has up to 24 months from the end of the tax year in which the earnings dropped below six percent to meet the six percent requirement.

(1) As used in this rule:

(a) "Inventory" means goods that are in stock and available for sale to prospective customers.

(b) "Work-related equipment" means property essential to the employment or self-employment of a financial group (see OAR 461-110-0530) member. Examples are a tradesman's tools, a farmer's machinery, and equipment used to maintain an income-producing vehicle.

(2) A capital asset (see OAR 461-001-0000), other than work-related equipment (see section (1) of this rule) and inventory (see section (1) of this rule), is treated as follows:

(a) In the ERDC and GA programs, the equity value (see OAR 461-001-0000) of a capital asset is treated according to the rules for the asset.

(b) In the SNAP program, a capital asset used in a business is excluded as follows:

(A) Non-farm assets are excluded as long as the financial group is actively engaged in self-employment activities.

(B) Farm assets are excluded until one year after the date the individual quit self-employment as a farmer.

(c) In the REF, REFM, and TANF programs:

(A) For a self-employed client participating in the microenterprise component (see OAR 461-190-0197) of the JOBS program, the value of a capital asset is excluded.

(B) For all other clients, the value of a capital asset is counted according to the rules in this division of rules.

(d) In the OSIP, OSIPM, and QMB programs, a capital asset is excluded.

(3) Work-related equipment is treated as follows:

ADMINISTRATIVE RULES

(b) In the GA program, the value of equipment needed by an individual who has a disability or is blind to complete a plan for self-support (see OAR 461-135-0708) is excluded as long as the plan is in effect. For all other equipment, the equity value of the equipment is counted as a resource, except as provided at OAR 461-145-0250.

(c) In the REF, REFM, and TANF programs:

(A) For a self-employed client participating in the microenterprise component of the JOBS program, the equity value of the equipment is excluded.

(B) For all other clients, the equity value of the equipment is treated as a resource.

(4) Inventory is treated as follows:

(a) In the EA, ERDC, OSIP, OSIPM, QMB, and SNAP programs, inventory is excluded as long as the client is engaged in self-employment activities.

(b) In the GA program, the value of inventory needed by an individual who has a disability or is blind to complete a plan for self-support is excluded, as long as the plan is in effect. For all other inventory, the equity value of the inventory is counted as a resource.

(c) In the REF, REFM, and TANF programs:

(A) For a self-employed client participating in the microenterprise component of the JOBS program, the wholesale value of inventory remaining at the end of the semi-annual period covered in each income statement (see OAR 461-190-0197), less encumbrances, is counted as a resource.

(B) For all other clients, the wholesale value of inventory remaining at the end of a month, less encumbrances, is counted as a resource.

Self-Employment; General; Not OSIP, OSIPM, or QMB

(1) Self-employment income is income resulting from an individual's business, trade, or profession, rather than from a salary or wage paid by an employer. An individual is considered self-employed if the individual meets the criteria in sections (2) or (3) of this rule. Except as noted in section (3) of this rule, for all programs except SNAP, when an individual has established a corporation, determine if the individual is self-employed according to section (2) of this rule. If the individual has more than one self-employment business, trade, or profession, the income from each is determined separately.

(2) Except as provided in OAR 461-145-0250(1), an individual is self-employed for the purposes of this division of rules if the individual:

(a) Is considered an independent contractor by the business that employs the individual; or

(b) Meets at least four of the following criteria:

(A) Is engaged in an enterprise for the purpose of producing income.

(B) Is responsible for obtaining or providing a service or product by retaining control over the means and manner of providing the work or services offered.

(C) Is principally responsible for the success or failure of the business operation by assuming the necessary business expenses and profit or loss risks connected with the operation of the business, and has the authority to hire and fire employees to perform the labor or services.

(D) Is not required to complete an IRS W-4 form for an employer and is not required to have federal income tax or FICA payments withheld from a pay check.

(E) Is not covered under an employer's liability or workers' compensation insurance policy.

(3) Notwithstanding section (2) of this rule:

(a) Homecare Workers (see OAR 411-031-0020) paid by the Department are not self-employed.

(b) Child care providers (see OAR 461-165-0180) paid by the Department, adult foster home providers (see OAR 411-050-0602) paid by the Department, realty agents, and individuals who sell plasma, redeem beverage containers, pick mushrooms for sale, or engage in similar enterprises are considered to be self-employed.

(4) In the ERDC, REF, SNAP, and TANF programs, self-employment income, including income from a microenterprise (see OAR 461-001-

0000), is counted prospectively to determine eligibility (see OAR 461-001-0000) as follows:

(a) Self-employment income is annualized when it is:

(A) Received during less than a 12-month period but is intended as a full year's income.

(B) From a business that has operated for a full year and the previous year is representative of what the income and costs will be during the budget month.

(b) Self-employment income is treated as anticipated income when a financial group (see OAR 461-110-0530) begins self-employment and is unable to determine what the income and costs will be during the budget month.

(5) In the GA program, self-employment income is considered available upon receipt by a member of the financial group, except it is prorated over the period of work if the duration of the work exceeds one month.

(6) In the REFM program:

(a) Self-employment income is counted only if received in the month of application.

(b) If self-employment income counted in the month of application puts the applicant over the income limits for REFM, the income is calculated according to section (4) of this rule.

(7) When determining the amount of countable (see OAR 461-001-0000) self-employment income, use gross receipts and sales, including mileage reimbursements, before costs.

Prospective Budgeting: Annualizing and Prorating Contracted or Self-employment Income; Not OSIP, OSIPM, or QMB

In all programs except the REFM program:

(1) Income from self-employment, including contract income while self-employed, is treated in accordance with OAR 461-145-0910 unless the income meets the provisions of section (2) of this rule.

(2) If past contract income is not representative of future income or when a substantial increase or decrease is expected in countable (see OAR 461-001-0000) self-employment income (see OAR 461-145-0910) in the next year, costs as allowed under OAR 461-145-0930 and anticipated income are used to determine the countable income.

(3) In the ERDC, REF, SNAP, and TANF programs, contract income that does not meet the criteria of self-employment income (see OAR 461-145-0910) is treated as follows:

(a) Income received during a less than 12-month period but intended as a full year's income is annualized.

(b) Income received on an hourly or piecework basis or monthly over the term of the contract period is not annualized. It is treated as stable income (see OAR 461-001-0000) under OAR 461-150-0070 or variable income (see OAR 461-001-0000) under OAR 461-150-0080.

(4) Contract income that is not the annual income of the financial group (see OAR 461-110-0530) and not paid on an hourly or piecework basis is prorated over the period the income is intended to cover.

Prospective Budgeting: Averaging and Estimating Self-employment Income; OSIP, OSIPM, QMB

(1) Net earnings from self-employment are counted on a taxable year basis by dividing the total earnings by twelve to arrive at a monthly amount.

(2) Only net losses from self-employment that are documented are divided over the taxable year in the same way as net earnings and excluded only from other earned income of the financial group (see OAR 461-110-0530 and 461-145-0130).

(3) When a self-employed individual is engaged in a business or trade which is neither seasonal nor has income peaks at certain parts of the year, estimate net earnings from self-employment for the current taxable year in the following sequence:

(a) When the individual has been conducting the same trade or business for two or more years, has had fairly constant net earnings from self-employment from year-to-year, and anticipates no change or gives no convincing explanation why current net earnings would be substantially different from past net earnings, use the net earnings from the prior year as an estimate for the current taxable year.

(b) When an individual has been engaged in the same business for only the preceding taxable year, anticipates no change or gives no convincing explanation why current net earnings would be substantially different from the previous taxable year:

(A) Calculate the ratio between net profit or loss and gross receipts from the last year;

(B) Calculate the actual gross receipts from the individual's current records and project them for the remainder of the year; and

(C) Apply the gross-to-net ratio calculated in paragraph (A) of this subsection to the current year's projected gross calculated in paragraph (B) of this subsection to arrive at the estimated net earnings.

(c) When an individual is engaged in a new business, project the income received to date for the remainder of the year as follows:

(A) Calculate the net earnings from the individual's profit and loss statement or other business records for the taxable year to date; and

(B) Average the monthly net earnings by dividing the net income received to date by the number of months that have elapsed.

(d) Accept the individual's estimate for the net earnings when an individual is engaged in one of the following:

(A) A new business for which there are insufficient net earnings to date.

(B) At initial application only, an existing business for which records were not kept.

(C) An existing business with anticipated income that varies from past years and a convincing explanation is given for the variation.

(4) When a self-employed individual is engaged in a trade or business that is seasonal or has income peaks at certain parts of the year, estimate net earnings from self-employment for the current taxable year in the following sequence:

(a) When the individual has been conducting the same trade or business for at least one full taxable year, anticipates no change or gives no convincing explanation why current net earnings would be substantially different from past net earnings, use the net earnings from the prior year as an estimate for the current taxable year.

(b) Accept the individual's estimate for the net earnings when an individual is engaged in one of the following:

(A) A new business.

(B) At initial application only, an existing business for which records were not kept.

(C) An existing business with anticipated income that varies from past years and a convincing explanation is given for the variation.

(1) An applicant (see OAR 461-195-0301) for or recipient (see OAR 461-195-0301) of assistance (see OAR 461-195-0301) who has a claim (see OAR 461-195-0301) for a personal injury (see OAR 461-195-0301) or begins an action (see OAR 461-195-0301) to enforce such claim — or the attorney, personal representative (see OAR 407-014-0000), or authorized representative (see OAR 410-200-0015 and 461-115-0090) for the applicant or recipient — must notify the Department (see OAR 461-195-0301) and the CCO (see OAR 461-195-0301) of the recipient, if the recipient is receiving services from the CCO, within ten days of initiating that claim or action, unless the action was initiated prior to the application for assistance.

(a) If the action was initiated prior to the application for assistance, the applicant must notify the Department at the time of application.

(b) The notification must include:

(A) The names and addresses of all parties against whom the action is brought or claim is made;

(B) A copy of each claim demand; and

(3) Notices required by ORS 416.530 to be sent to the Oregon Health Authority (Authority) may be consolidated with similar notices to the Department and sent to the Personal Injury Liens Unit. A consolidated notice is considered notice to the Authority if the Authority's interest or claim in the matter is identified in the notice consistent with requirements in the applicable statute. (See also OAR 943-001-0020(2)(e).)

Disability as the Basis of Need

(1) In the OSIP and OSIPM programs (except OSIP-EPD and OSIPM-EPD), an individual meets the eligibility requirement to have a disability if the requirements of one of the following subsections are met:

(a) The individual is receiving Social Security Disability Income (SSDI) or Supplemental Security Income (SSI) based on disability. Eligibility continues as long as the individual remains eligible for SSDI or SSI.

(b) The individual was eligible for and received Aid to the Disabled benefits in Oregon in December 1973. These grandfathered cases continue to be eligible as long as they are continuously disabled as defined by Oregon requirements that were in effect in 1973.

(c) The Department has determined the individual meets the listing of impairments found in 20 C.F.R. Part 404, Subpart P, Appendix 1; meets the medical vocational guidelines found in 20 C.F.R. Part 404, Subpart P, Appendix 2 for SSI; or meets the definition of disability in 20 C.F.R. 404.1505 or 416.905.

(d) The Social Security Administration (SSA) has determined the individual meets the listing of impairments found in 20 C.F.R. Part 404, Subpart P, Appendix 1; meets the medical vocational guidelines found in 20 C.F.R. Part 404, Subpart P, Appendix 2; or meets the definition of disability in 20 C.F.R. 404.1505 or 416.905.

(2) If the Department finds the individual eligible for OSIPM in the absence of a disability determination by SSA, the individual remains eligible, provided that the individual continues to meet the disability criteria for eligibility for OSIPM, until SSA denies the disability claim in a final administrative decision.

(3) For OSIP and OSIPM, a disability determination made by SSA that is unfavorable to an individual is binding on the Department unless the requirements of at least one of the following subsections are met (see 42 C.F.R. 435.541(c)(1) and (c)(4)):

(a) SSA made the determination for a reason other than disability.

(b) The individual alleges a disabling condition different from, or in addition to, that considered by SSA in making its determination.

(c) More than 12 months after the most recent SSA determination denying disability, the individual alleges that his or her condition has changed or deteriorated since that SSA determination, and the individual has not made application to SSA based on these allegations.

(d) The individual alleges less than 12 months after the most recent SSA determination denying disability that the condition which SSA evaluated has changed or deteriorated since that SSA determination; and one or both of the following apply:

(A) The individual has requested reconsideration or reopening of the most recent SSA determination denying disability and SSA has declined to consider the new allegations.

(B) It is clear that the individual no longer meets SSI eligibility requirements unrelated to disability status but may satisfy comparable Medicaid eligibility requirements.

(4) If a binding SSA disability determination is not in place, the determination of disability to qualify for OSIPM is made by the Presumptive Medicaid Disability Determination Team (PMDDT), composed of a medical or psychological consultant and another individual who is qualified to interpret and evaluate medical reports, other evidence relating to the individual's physical or mental impairments, and (as necessary) to determine the capacities of the individual to perform substantial gainful activity, as specified in 20 C.F.R. Part 416, Subpart J (see 42 C.F.R. 435.541(f)(2)).

(5) The Presumptive Medicaid Disability Determination Team (PMDDT) obtains and reviews medical reports and other non-medical evidence pertaining to the individual and the claimed disability. The medical report and non-medical evidence must include diagnosis and other information in accordance with the requirements for evidence applicable to disability determinations under the SSI program specified in 20 CFR Part 416, Subpart I. The PMDDT then makes a decision about medical eligibility and whether and when a redetermination will be made (see 42 C.F.R. 435.541(f)(1) and (3)).

(6) In the OSIP-EPD and OSIPM-EPD programs, an individual is disabled (see OAR 461-001-0035) or has a disability (see OAR 461-001-0035) if the individual has a physical or mental impairment, or a combination of these impairments, that meets the definition of disability used by SSA when determining eligibility for SSI or SSDI under 20 C.F.R. Part 404. The determination is made as follows:

(a) A determination by SSA that the individual is disabled or has a disability is accepted by the Department.

(b) If the individual was determined to have a disability by SSA and lost their SSDI eligibility due to their own income, the SSA determination remains effective for one year from the date that the individual loses eligibility for SSDI.

(c) If there is no currently effective SSA determination finding the individual has a disability, the case is referred to the Department's central office for a disability determination (see OAR 461-001-0035) using the standards of 20 C.F.R. Parts 404 and 416 and considering all relevant medical and vocational information.

(d) For OSIPM-EPD, an individual is engaging in substantial gainful activity (SGA, see OAR 461-001-0035) if the earnings of the individual are at or above the EPD Income Standard.

(e) For OSIPM-EPD, any work activity engaged in during the OSIPM-EPD application process or certification period is not evaluated as past relevant work (PRW, see OAR 461-001-0035).

(7) An individual who is served by a branch office (see OAR 461-001-0000) and who has been determined by the Presumptive Medicaid Disability Determination Team (PMDDT) to have a disability (see section (1) of this rule) may receive free assistance from the Department with applications and administrative appeals for Social Security benefits based on a disability for purposes including, but not limited to, meeting the requirement to pursue assets under OAR 461-120-0330.

(8) An individual may receive free assistance from the Department with applications and administrative appeals for Social Security benefits based on a disability for purposes including, but not limited to, meeting the requirement to pursue assets under OAR 410-200-0220 if the individual:

(a) Is determined to have a disability under subsection (1)(c) of this rule;

(b) Receives benefits from one of the OCCS Medical Programs (see OAR 461-001-0000);

(c) Receives SNAP benefits; and

(d) Is served by the Aging and People with Disabilities branch office (see OAR 461-001-0000) in Estacada, Oregon.

Rules Amended: 461-170-0103, 461-175-0200

Subject: OAR 461-170-0103 about actions resulting from changes in household circumstances and 461-175-0200 about notice situations are being amended to allow JPI (Job Participation Incentive) payments to be closed with a basic notice (instead of a 10-days advance notice with a right to continuing benefits) when a client reports a change, as long as the change does not reduce SNAP benefits. (This amendment only applies when net benefits are either unchanged or increased.) The JPI program is a \$10 monthly food benefit.

Rules Coordinator: Kris Skaro—(503) 945-6067

461-170-0103

Actions Resulting From Changes in Household Circumstances; Simplified Reporting System (SRS); SNAP, JPI

In the SNAP program and JPI, benefits may be changed for an individual using SRS — based on information obtained other than through the Interim Change Report — only as follows:

(1) The benefit level is increased if the information demonstrates the individual is eligible for greater benefits.

(2) The benefits are closed or reduced if any of the following subsections apply:

(a) The household requests a closure of benefits.

(b) The action is based on information that is verified upon receipt.

Information is considered verified upon receipt if:

(A) It is not questionable and the individual making the report has first-hand knowledge of the information reported; or

(B) Verification is provided with the reported change in accordance with OAR 461-115-0651.

(c) The individual reports information that results in loss of eligibility (see OAR 461-001-0000).

(d) The individual reports financial group (see OAR 461-110-0530) income exceeding the SNAP program countable (see 461-001-0000) income limit.

(3) The Department acts on information reported through computer matches when the Interim Change Report is processed, when the individual is recertified, or when the monthly match with the Department of Corrections indicates a member is incarcerated.

Notice Situations; General Information

(1) In the EA program, a basic decision notice (see OAR 461-001-0000) is sent for all situations.

(2) In the SNAP program, a basic decision notice is sent for all actions on applications for assistance.

(3) In the JOBS program:

(a) A basic decision notice is sent whenever a request for a support service payment is denied.

(b) No decision notice is required if request for a support service is approved.

(4) A basic decision notice is sent to close JPI benefits when the filing group (see OAR 461-110-0310) reports a change during the reporting period in which SNAP benefits do not decrease.

(5) In the TANF program, a notice approving benefits informs the client, within one month following eligibility determination, of the opportunity to volunteer for JOBS participation and of the procedure for JOBS program entry.

(6) In the Pre-TANF program, a basic decision notice is sent when payment for basic living expenses is denied or when payment for other support services in the JOBS program is denied. No other notices are required for this program.

(7) In the TA-DVS program, a basic decision notice (see OAR 461-001-0000) is sent to a safe mailing address or hand delivered for all situations. This includes when the program is approved, denied, or closed (prior to the end of the 90 day eligibility period) and when a payment under the program is denied.

(8) In all programs except the Pre-TANF program, unless stated differently in this rule or another rule, the Department mails or otherwise pro-

vides the client with (sends) a decision notice (see OAR 461-001-0000) as follows:

(a) A basic decision notice is sent whenever an application for assistance, including retroactive medical assistance, is approved or denied or a request for a support service payment in the JOBS program is denied.

(b) A timely continuing benefit decision notice (see OAR 461-001-0000) is sent whenever benefits or support service payments authorized by 461-190-0211 are reduced or closed, or the method of payment changes to protective, vendor, or two-party.

(c) A decision notice is sent whenever the Department adjusts previously underissued cash assistance or SNAP benefits.

(9) In all programs:

(a) Notwithstanding any rule in Chapter 461, to the extent permitted by OAR 137-003-0530, the Department may take any of the following actions:

(A) Amend a decision notice with another decision notice or a contested case notice.

(B) Amend a contested case notice.

(C) Delay a reduction or closure of benefits as a result of a client's request for hearing.

(D) Extend the effective date on a decision notice or contested case notice.

(b) Except as provided in subsection (a) of this section or when a delay results from the client's request for a hearing, a notice to reduce or close benefits becomes void if the reduction or closure is not initiated on the date stated on the notice. If the notice is void, a new notice is sent to inform the financial group (see OAR 461-110-0530) of a new date on which their benefits will be reduced or closed.

(c) No decision notice is required in each of the following situations:

(A) Benefits are ended because there is no living person in the benefit group (see OAR 461-110-0750).

(B) A notice was sent, the client requested a hearing, and either the hearing request is dismissed or a final order is issued.

(C) The client has signed a voluntary agreement that qualifies as a final order under ORS 183.417(3)(b) (see OAR 461-175-0340(2)).

(D) A decision notice that included the eligibility begin and end dates was given for TA-DVS program benefits and the 90 day eligibility period ends.

(d) When the Department amends a decision notice with another decision notice under subsection (a) of this section, the date of the amended notice restarts the client's deadlines to request a hearing or continuing benefits, or both.

(e) When a contested case notice extends an effective date or delays a reduction or closure, the date of the amended notice restarts a client's timeline to request continuing benefits.

(f) When a client has a pending hearing request or is receiving continuing benefits, and the Department amends a notice under this section, the client need not re-file the hearing request or renew the request for continuing benefits.

Rule Caption: Amending rules relating to public assistance programs, including REF, SNAP, and TANF

Adm. Order No.: SSP 28-2015

Filed with Sec. of State: 9-29-2015

Certified to be Effective: 10-1-15

Notice Publication Date: 9-1-2015

Rules Amended: 461-110-0370, 461-115-0030, 461-115-0040, 461-155-0190, 461-160-0410, 461-160-0420, 461-160-0430, 461-180-0070

ADMINISTRATIVE RULES

Rules Repealed: 461-115-0030(T), 461-115-0040(T), 461-160-0410(T), 461-180-0070(T), 461-190-0212

Subject: OAR 461-110-0370 about filing groups in the SNAP program, OAR 461-155-0190 about income and payment standards in the SNAP program, 461-160-0420 about shelter costs in the SNAP program, and 461-160-0430 about income deductions in the SNAP program are being amended to implement the annual increase in the SNAP standards.

OAR 461-115-0030 about the date of request, OAR 461-115-0040 about the filing date, and OAR 461-180-0070 about the effective date of benefits are being amended to correct a recent filing. On June 30, 2015, the Department filed amendments to these rules to change policy in the REF and TANF programs regarding the start date of benefits. Those amendments stated that the benefits start on the filing date (the date a signed application is received by the Department) as long as all eligibility requirements are met by the 45th day after the filing date. However, the intention was to require that eligibility requirements be met by the 45th day after the date of request, the date a client originally requests benefits orally or in writing. The amendments correctly state that benefits begin on the filing date as long as all eligibility requirements are met by the 45th day after the date of request. This makes permanent temporary rules adopted on July 23, 2015.

OAR 461-160-0410 about use of income and income deductions in the Supplemental Nutrition Assistance Program (SNAP) when there are ineligible or disqualified members in the filing group is being amended to comply with federal guidance to the Department regarding calculating the income for noncitizens receiving Temporary Assistance for Needy Families (TANF) benefits. The current rule requires the TANF benefit amount to be prorated and only counted for the eligible filing group members. The amendment removes this requirement and will result in the full TANF benefit amount being used to calculate benefits for the household. This makes permanent a temporary rule adopted on July 1, 2015.

OAR 461-190-0212 about case plan activities and support services in the JOBS, Post-TANF, Pre-TANF, REF, SFPSS, TA-DVS, and TANF programs is being repealed. This rule was adopted in 2011 to indicate which Job Opportunity and Basic Skills (JOBS) program activities and services would end effective June 30, 2011. The rule was needed to deal with budget shortfalls in 2011, but the rule no longer reflects current practice as it relates to support service payments for JOBS participants.

In addition, non-substantive edits were made to: ensure consistent terminology throughout self-sufficiency program rules and policies; make general updates consistent with current Department practices; update statutory and rule references; correct formatting and punctuation; remove unnecessary language; improve ease of reading; and clarify Department rules and processes.

Filing Group; SNAP

In the SNAP program:

(1) Except as provided in this rule, the filing group (see OAR 461-110-0370) consists of members of a household group (see 461-110-0210) who choose to apply together or customarily purchase and prepare meals together.

(2) Except as provided in sections (3) and (8) of this rule, the following household group members must be in the same filing group, even if they do not customarily purchase and prepare meals together:

(a) Each spouse (see OAR 461-001-0000).

(b) A parent (see OAR 461-001-0000) and his or her child under age 22 living with the parent.

(c) A household group member and any child under age 18 who lives with and is under “parental control” of that household group member. For the purposes of this subsection, “parental control” means the adult is responsible for the care, control, and supervision of the child or the child is financially dependent on the adult.

(3) In the following specific situations, the Department forms a filing group as indicated:

(a) An individual is not included in the filing group if, during the month the group applied for SNAP program benefits, the individual received SSI benefits through the state of California. This exclusion applies only in the month the group applied and, if necessary to meet notice requirements, in the month following the month the group applied.

(b) An individual is not included in the filing group if during the month the group applied for SNAP program benefits the individual received SNAP program benefits in another household and was not the head of household in the prior household. This exclusion applies only in the month the group applied and, if necessary to meet notice requirements, in the month following the month the group applied.

(c) An elderly (see OAR 461-001-0015) individual and his or her spouse may be considered a separate filing group from others with whom the elderly individual purchases and prepares meals, if:

(A) The elderly individual is unable to purchase or prepare food because of a permanent and severe disabling condition; and

(B) The combined income of the other members of the household group does not exceed the following limit: [Table not included. See ED. NOTE.]

(4) A paid live-in attendant may choose not to be in the filing group with the recipient of the services provided, unless required by section (2) of this rule to be in the same filing group.

(5) An individual in foster care, the individual’s spouse, and each child under age 22 living with the individual are not eligible to participate in the SNAP program independently of the care or service provider’s filing group, but may be included in the provider’s filing group if the provider applies for benefits.

(6) Unless required under section (2) of this rule, the following household group members may form a separate filing group from other members of the household group:

(a) A resident of an alcohol or drug treatment and rehabilitation program certified by the Department for which an employee of the facility is the authorized representative (see OAR 461-135-0550). A resident’s spouse in the same facility may be in a separate filing group, but a child of a resident must be in the same filing group as the resident.

(b) A resident in group living (see OAR 461-001-0015).

(c) A resident of a public or private non-profit homeless or domestic violence shelter (see OAR 461-135-0510).

(d) An individual who is a resident of federally subsidized housing for the elderly, an individual with a disability, or blind recipient of benefits under Title I, II, X, XIV, or XVI of the Social Security Act.

(7) A member of the household group who pays the filing group for room and board (lodger) is treated as follows:

(a) A lodger cannot participate in the SNAP program independently of the household group when the lodger pays a reasonable amount for room and board. A reasonable amount is:

(A) An amount that equals or exceeds the Thrifty Food Plan for the individual and anyone in that individual’s filing group (see OAR 461-155-0190(2)), if more than two meals per day are provided; or

(B) An amount that equals or exceeds two-thirds of the Thrifty Food Plan for the individual and anyone in the individual’s filing group, if two or fewer meals per day are provided.

(b) A lodger may participate in the SNAP program independently of the household group when the lodger pays less than a reasonable amount for room and board.

(8) A household group member is not included in the filing group, if the member is:

(a) A resident of a commercial boarding house; or

(b) An ineligible student, as defined in OAR 461-135-0570.

(9) A household group member may be included in two filing groups in the same month, if the member:

(a) Is a resident of a domestic violence shelter (see OAR 461-001-0000) or safe home (see 461-001-0000); and

(1) For all programs covered by OAR chapter 461, an individual or someone authorized to act on behalf of an individual must contact the Department or use another appropriate method to request benefits (see OAR 461-115-0150). The request may be oral or in writing. The request starts the application process.

(2) The "date of request" is one of the following:

(a) In the EA, ERDC, GA, OSIP, REF, and TANF programs and for support service payments in the JOBS program authorized by OAR 461-190-0211, the "date of request" is the day the request for benefits is received by the Department.

(b) In the SNAP program, this section does not apply. See OAR 461-115-0040.

(c) In the GAM, OSIPM, QMB, and REFM programs, for a new applicant, the "date of request" is determined as follows:

(A) The day the request for medical benefits is received by a Department representative, except as described in paragraph (B) of this subsection.

(B) If the request for medical benefits is received by a Department representative no later than the next business day after medical services are received, the "date of request" is the day these medical services were received.

(d) In the OSIPM, QMB, and REFM programs, for a current recipient, the "date of request" is one of the following:

(A) The date the individual reports a change requiring a redetermination of eligibility (see OAR 461-001-0000).

(B) The date the Department initiates a review.

(C) The date the individual establishes a "date of request" by contacting the Department orally or in writing or by submitting an application.

(e) In the SFPSS program:

(A) Except as provided in paragraph (B) of this subsection, the "date of request" is the day the individual signs the Interim Assistance Agreement.

(B) The "date of request" for support service payments is the day the request for benefits is received by the Department.

Filing Date; REF, SNAP, TANF

(1) In the REF and TANF programs, the "filing date" is established when a signed and dated application for benefits is received by the Department.

(2) In the SNAP program:

(a) A filing group (see OAR 461-110-0370) is entitled to establish a "filing date" on the date a member of the group requests benefits. The "filing date" establishes:

(A) The date for starting the application processing time frames.

(B) The date from which some effective dates are determined.

(b) The "filing date" is the date a signed written request for benefits is received by the Department or by the Social Security Administration for filing groups applying in accordance with OAR 461-115-0150(3). The writ-

ten request may be a Department-approved form or other written material that includes the client's name, address, and signature.

Use of Income and Income Deductions When There Are Ineligible or Disqualified Group Members; SNAP

When a member of the filing group (see OAR 461-110-0370) is not in the need group (see OAR 461-110-0630), benefits in the SNAP program are calculated as follows:

(1) If the member is a qualified non-citizen (see OAR 461-120-0125(1)(a)-(g)) who does not meet the alien status requirements, the following procedure is used:

(a) Benefits are calculated as if the qualified non-citizen is eligible. Benefits are then calculated as if the qualified non-citizen is not a member of the filing group. Any income received by another member of the filing group from the qualified non-citizen is counted as income of the filing group. No expenses paid by the qualified non-citizen are deducted from gross income.

(b) The household's benefits are the lesser of the amounts calculated in subsection (a) of this section.

(2) The process described in sections (3) and (4) of this rule is used if the member is:

(a) A non-citizen but not a qualified non-citizen;

(b) Disqualified for failing to obtain or provide a Social Security Number; or

(c) Unwilling to disclose alien status.

(3) If the member is in a group described in section (2) of this rule:

(a) The member's countable (see OAR 461-001-0000) income is prorated among the members in the filing group.

(b) The pro rata share of each individual not in the benefit group (see OAR 461-110-0750) is excluded.

(c) The rest of the prorated income is countable income for the filing group.

(4) An ineligible or disqualified member covered by section (2) of this rule is entitled to all income deductions for which the member qualifies. When paid by the member, or billed to the member and unpaid, deductions for shelter, child support, medical costs, and dependent care are calculated as follows:

(a) The deductions, except deductions for the utility standard, are prorated among the members of the filing group.

(b) The prorated share of the members of the benefit group is deducted.

(c) The deduction for the utility standard is made in accordance with OAR 461-160-0420.

(5) The countable income of the following financial group (see OAR 461-110-0530) members, subject to allowable deductions, is used to determine benefits:

(a) A client disqualified for failure to comply with the requirements of the OFSET program or because of an intentional program violation.

(b) A client:

ADMINISTRATIVE RULES

(A) Fleeing to avoid prosecution, or custody or confinement after conviction, under the law of the place from which the client is fleeing, for a crime, or attempt to commit a crime, that is a felony under the law of the place from which the client is fleeing or that, in the case of New Jersey, is a high misdemeanor under the law of New Jersey; or

(B) Violating a condition of probation or parole imposed under a federal or state law.

461-160-0420 Shelter Cost; SNAP

(1) This rule explains how to calculate the shelter cost. The shelter cost is used to determine the shelter deduction (see OAR 461-160-0430). The shelter cost is the sum of the filing group's cost of housing plus an allowance for utilities, if the individual incurs a utility cost. The shelter deduction is based on the shelter cost but is subject to a limitation described in OAR 461-160-0430.

(2) Cost of housing.

(a) The following comprise the cost of housing if they are incurred with respect to the filing group's current residence or the home described in section (5) of this rule:

(A) Regular, periodic charges for the shelter of the filing group (see OAR 461-110-0370), such as rent, mortgage payments, and condominium or association fees. Late fees charged because a mortgage or rent payment was made late are not deductible.

(B) Property taxes, state and local assessments, and property insurance on the structure.

(C) Costs for repairing a home substantially damaged or destroyed by a natural disaster (such as a fire or flood), if such costs are not reimbursed.

(D) If the filing group is homeless and living in a vehicle — vehicle payments and collision and comprehensive insurance premiums for the vehicle.

(b) If housing costs are billed on a weekly or biweekly basis, the monthly cost is the weekly cost multiplied by 4.3 or the biweekly cost multiplied by 2.15.

(c) The filing group has the following choices about housing costs:

(A) The group may choose to apply the cost in the month it is billed or becomes due.

(B) The group may choose to have periodic costs averaged.

(C) For expenses that are billed less often than monthly, the group may choose to have them averaged over the period they are intended to cover.

(3) Shared housing. If the filing group shares housing costs with an individual in the dwelling who is not in the filing group, only the housing costs incurred by the filing group are included in the calculation. If the portion paid by an individual outside the filing group cannot be ascertained, the cost is apportioned among the individuals contributing to the cost. The pro rata share of those not in the filing group is deducted from the total, and the balance is considered a housing cost of the filing group.

(4) Cost for utilities.

(a) A filing group has a cost for utilities if it incurs a cost for heating or cooling; cooking fuel; electricity; water and sewerage; well installation and maintenance; septic tank system installation and maintenance; garbage and trash collection; service for a telephone, such as basic service fee, wire maintenance, subscriber line charges, relay center surcharges, 911 service, and taxes; or initial installation fees charged by a utility provider.

(b) If the group incurs no cost for utilities in either its current home or in the home described in section (5) of this rule, then the shelter cost is calculated without an allowance for utilities.

(c) If a homeless filing group uses a vehicle for shelter, the cost of fuel for the vehicle is considered a utility cost.

(d) If a filing group incurs a cost for utilities, then the utility allowance is one of the following:

(A) Allowance with heating or cooling. A full standard utility allowance of \$445 per month is used if the household group (see OAR 461-110-0210) is billed for heating or cooling costs for its dwelling. Charges for

any fuel and for electricity are considered heating costs if they are used for heating. A filing group who receives an energy assistance payment for the dwelling provided through the Low Income Energy Assistance Act of 1981 is eligible for the utility allowance established by this paragraph (A). This energy assistance payment must be greater than \$20 annually.

(B) Allowance without heating or cooling.

(i) A limited standard utility allowance of \$327 per month is used if the filing group is not billed for heating or cooling costs but is billed for at least two other costs enumerated in subsection (4)(a) of this rule.

(ii) An individual standard utility allowance of \$55 per month is used if the filing group is not billed for heating or cooling costs but is billed for only one of the costs enumerated in subsection (4)(a) of this rule other than the service cost for a telephone, including the related taxes or fees.

(iii) A telephone standard utility allowance of \$60 per month is used if the filing group is billed only for telephone service, such as basic service fee, wire maintenance, subscriber line charges, relay center surcharges, 911 service, and taxes.

(5) Housing costs for a home not occupied by the filing group. Housing and utility costs with respect to a home not currently occupied may be considered in calculating the shelter cost if:

(a) The home is temporarily unoccupied because of employment or training away from home, illness, or abandonment caused by casualty or natural disaster;

(b) The filing group intends to return to the home;

(c) No other, current occupant is claiming a deduction for shelter costs in the SNAP program; and

(d) The home is not leased during the household's absence.

461-160-0430 Income Deductions; SNAP

(1) Deductions from income are subtracted from countable (see OAR 461-001-0000) income (see 461-140-0010) in the following order to determine adjusted income (see 461-001-0000) for the SNAP program:

(a) An earned income deduction of 20 percent of countable earned income. The 20 percent deduction is not taken from the wages funded by grant diversions such as Work Supplementation wages.

(b) A standard deduction of:

(A) \$155 per month for a benefit group (see OAR 461-110-0750) of one, two, or three individuals.

(B) \$168 per month for a benefit group of four individuals.

(C) \$197 per month for a benefit group of five individuals.

(D) \$226 per month for a benefit group of six or more individuals.

(c) A dependent care deduction for dependent care costs billed to a member of the filing group (see OAR 461-110-0370) and not paid for through any other program of the Department. For the cost to be deductible under this section, the care must be necessary to enable a member of the filing group to:

(A) Accept or continue employment;

(B) Seek employment, including a job search that meets the requirements of a case plan (see OAR 461-001-0020); or

(C) Attend vocational or educational training. A student receiving educational income is entitled to a deduction only for costs not excluded from educational income by OAR 461-145-0150.

(d) The medical deduction for elderly (see OAR 461-001-0015) individuals and individuals who have a disability (see 461-001-0015) in the filing group. The deduction is calculated by determining the total of their deductible medical costs (see 461-160-0415) and subtracting \$35. The remainder is the medical deduction.

(e) A deduction for child support payments (including cash medical support) a member of the filing group makes under a legal obligation to a child (see OAR 461-001-0000) not a member of the filing group, including payments for the current month and for payments on arrearages. Child sup-

port is not deductible if collected by setoff through the Oregon Department of Revenue or by interception of a federal tax refund.

(f) A shelter deduction, calculated as follows:

(A) For SNAP filing group members required to pay room and board in a nonstandard living arrangement (see OAR 461-001-0000), the shelter deduction is:

(i) The cost of room and board, minus the payment standard for the benefit group; or

(ii) The actual room cost, if the individual can prove that the room cost exceeds the cost described in subparagraph (i) of this paragraph.

(B) For all other filing group members, the shelter deduction is calculated as follows:

(i) The standard deduction and the deductions of earned income, dependent care, court-ordered child support, and medical expenses are subtracted from countable income. Fifty percent of the remainder is subtracted from the shelter cost calculated in accordance with OAR 461-160-0420.

(ii) The rounded balance is the deduction, except the deduction is limited if the filing group has no member who has a disability or is elderly. The limit is \$490 per month.

(2) If a filing group member cannot verify a medical or court-ordered child-support expense or cannot verify any other expense when asked to do so, the unverified expense is not used to calculate the deduction. If the individual provides verification, the deduction is applied when calculating the next month's benefits. If verification is provided within the period authorized for processing applications (see OAR 461-115-0210), the benefits for the initial month (see OAR 461-001-0000) are recalculated using the deduction.

Effective Dates; Initial Month Benefits

(1) In the EA program, the effective date for opening the case is the day benefits are issued to the benefit group (see OAR 461-110-0750). For a benefit group whose only eligible child is an unborn, the effective date cannot be earlier than the first day of the calendar month preceding the month in which the due date falls.

(2) In the ERDC program, the effective date for starting benefits is one of the following:

(a) The first day of the month in which the request for benefits is made if:

(A) All eligibility (see OAR 461-001-0000) requirements are met in that month; and

(B) Verification is provided within the application processing timeframes.

(b) If all eligibility requirements are not met in the month of request, the effective date is the first day of the month in which they are met, if verification is provided within the application processing timeframes.

(c) For a benefit group that received TANF program benefits within the 30 days before applying for ERDC program benefits, the effective date is the first of the month following closure of their TANF program benefits.

(3) In the GA program, the effective date for the initial month (see OAR 461-001-0000) of benefits is whichever of the following occurs first:

(a) The day all eligibility requirements are met and verified.

(b) A prognosis, including an expected recovery time frame.

(c) Clinical findings from physical examination, psychiatric evaluation, X rays, or a laboratory procedure, including specific data supporting diagnosis of a condition that causes disability, either on a medical or psychiatric basis.

(4) The client must provide or cooperate in obtaining sufficient medical documentation for the Department to determine eligibility.

(5) In the ERDC program, in addition to the documentation outlined in this rule, the program will accept confirmation from the Office of Child Welfare Programs that supervised contact is required between the child (see OAR 461-001-0000) and a parent (see OAR 461-001-0000) or spouse (see OAR 461-001-0000) who is living in the home with the child.

461-145-0910

Self-Employment; General; Not OSIP, OSIPM, or QMB

(1) Self-employment income is income resulting from an individual's business, trade, or profession, rather than from a salary or wage paid by an employer. An individual is considered self-employed if the individual meets the criteria in sections (2) or (3) of this rule. Except as noted in section (3) of this rule, for all programs except SNAP, when an individual has established a corporation, determine if the individual is self-employed according to section (2) of this rule. If the individual has more than one self-employment business, trade, or profession, the income from each is determined separately.

(2) Except as provided in OAR 461-145-0250(1), an individual is self-employed for the purposes of this division of rules if the individual:

(a) Is considered an independent contractor by the business that employs the individual; or

(b) Meets at least four of the following criteria:

(A) Is engaged in an enterprise for the purpose of producing income.

(B) Is responsible for obtaining or providing a service or product by retaining control over the means and manner of providing the work or services offered.

(C) Is principally responsible for the success or failure of the business operation by assuming the necessary business expenses and profit or loss risks connected with the operation of the business, and has the authority to hire and fire employees to perform the labor or services.

(D) Is not required to complete an IRS W-4 form for an employer and is not required to have federal income tax or FICA payments withheld from a pay check.

(E) Is not covered under an employer's liability or workers' compensation insurance policy.

(3) Notwithstanding section (2) of this rule:

(a) Homecare Workers (see OAR 411-031-0020) paid by the Department are not self-employed.

(b) Child care providers (see OAR 461-165-0180) paid by the Department, adult foster home providers (see OAR 411-050-0602) paid by the Department, realty agents, and individuals who sell plasma, redeem beverage containers, pick mushrooms for sale, or engage in similar enterprises are considered to be self-employed.

(4) In the ERDC, REF, SNAP, and TANF programs, self-employment income, including income from a microenterprise (see OAR 461-001-0000), is counted prospectively to determine eligibility (see OAR 461-001-0000) as follows:

(a) Self-employment income is annualized when it is:

(A) Received during less than a 12-month period but is intended as a full year's income.

(B) From a business that has operated for a full year and the previous year is representative of what the income and costs will be during the budget month.

(b) Except in the ERDC program, self-employment income is treated as anticipated income when a financial group (see OAR 461-110-0530) begins self-employment and is unable to determine what the income and costs will be during the budget month.

(5) In the GA program, self-employment income is considered available upon receipt by a member of the financial group, except it is prorated over the period of work if the duration of the work exceeds one month.

(6) In the REFM program:

(a) Self-employment income is counted only if received in the month of application.

(b) If self-employment income counted in the month of application puts the applicant over the income limits for REFM, the income is calculated according to section (4) of this rule.

(7) When determining the amount of countable (see OAR 461-001-0000) self-employment income, use gross receipts and sales, including mileage reimbursements, before costs.

Dependent Care Costs; Deduction and Coverage

(1) In the SNAP program, dependent care is deductible (see OAR 461-160-0430) when all of the following are true:

(a) The dependent is a member of the filing group and is in the care, control, and custody of an individual in the group.

(b) The dependent care provider:

(A) Is not in the filing group; and

(B) Is not the parent (see OAR 461-001-0000) of the dependent.

(c) The dependent care is necessary because the client is working, commuting, on a meal break, in training, participating in pre-employment education, or participating in an OFSET case plan (see OAR 461-001-0020).

(2) In the ERDC, REF, and TANF programs, the cost of dependent child care may be paid for by the Department (is covered) only if dependent child care is necessary for the working client to perform his or her job duties, except in the ERDC program the cost of dependent care is allowed for approved educational hours and child care authorized under section (5) of this rule. For a client working under a JOBS Plus agreement, child care is covered during the time the client is engaged in work or in job search if the employer pays the client during that time.

(3) In the ERDC, JOBS, REF, and TANF programs, the cost of dependent child care is not covered by the Department when free care is available, such as during school hours for school-age children.

(4) Child care is not covered in the ERDC, REF, and TANF programs if the nature of the work of the caretaker (see OAR 461-001-0000) does not make it necessary for a person other than the caretaker to provide the care. Child care is not covered during a period of time when the caretaker:

(a) Works at home and the nature of the work allows the caretaker to provide the care without significantly affecting the work;

(b) Provides child care in a residence; or

(c) Works for a provider of child care in a residence, unless the provider is a certified family child care home under OAR 414-350-0000 to 414-350-0400.

(5) In the ERDC program the cost of dependent child care may continue to be paid for by the Department (is covered) during the certification period (see OAR 461-001-0000) with no change to the authorized child care hours subject to the following provisions:

(a) When a reduction in work hours occurs the copay may be adjusted.

(b) When a job loss occurs:

(A) When a caretaker has a permanent job loss from all employment the copay is waived for up to three months for a work search period, starting the month after the job loss occurred.

(B) The waiver ends at the end of the three month period if the caretaker becomes employed.

(C) The three month work search period does not apply when:

(i) The adult was discharged or fired without good cause (see OAR 461-135-0070(2)) for misconduct, felony, or theft. "Misconduct" means willful or wantonly negligent violation of the standards of behavior which an employer has the right to expect of an employee, including an act or series of actions that amount to a willful or wantonly negligent disregard of an employer's interest.

(ii) The adult voluntarily quit in anticipation of discharge or without good cause.

(c) For medical leave:

(A) When a caretaker is on medical leave the reason for the leave must be verified including diagnosis and prognosis under OAR 461-125-0830. Maternity leave may be authorized for three months (12 weeks) without medical documentation.

(B) For a decrease or increase in income during or at the end of medical leave see OAR 461-180-0005 and OAR 461-180-0030.

(C) Medical leave and maternity leave can be extended when new verification is received prior to the end of the month noted on the original documentation. Medical leave cannot extend beyond the certification period.

(d) For military transition:

(A) When a caretaker who is a discharged U.S. military member returns from active duty in a military war zone, the copay is waived for up to six months starting the month after the military member returns home.

(B) The copay waiver ends at the end of the six month period if the caretaker becomes employed. The copay waiver ends before the end of the six month period if the caretaker returns to active duty.

(e) Under this section child care may be used for work, work search, approved educational hours, military transition activities, or other activities to maintain a part-time or full-time slot at a child care facility.

(6) In the JOBS and REF programs, the cost of child care may be covered while the care is necessary to enable the client to participate in a case plan (see OAR 461-190-0211).

(7) In the ERDC, JOBS, JOBS Plus, REF, and TANF programs, the cost of dependent child care may be paid for (is covered) by the Department, only if all the following are true:

(a) The dependent child:

(A) In the ERDC program, is a member of the benefit group (see OAR 461-110-0750) and is in the care, control, and custody of an individual in the group.

(B) In the JOBS, JOBS Plus, REF, and TANF programs, lives with the filing group.

(b) The provider of child care is not in the filing group.

(c) The provider of child care is not the parent of a child in the filing group.

(8) Coverage of the cost of dependent care is subject to the requirements in OAR chapter 461, including OAR 461-120-0510(3), 461-135-0400, 461-155-0150, 461-160-0193, 461-165-0180, and 461-190-0211.

Use of Income to Determine Eligibility and Benefits for ERDC

The Department determines financial eligibility for ERDC and the benefit level as follows:

(1) The monthly income of the financial group (see OAR 461-110-0530) is determined in accordance with OAR 461-150-0060.

(2) The monthly income at initial certification and recertification is compared to the ERDC eligibility standards in OAR 461-155-0150(5). If monthly income equals or exceeds the eligibility standards, the need group is ineligible for ERDC. If monthly income does not exceed the eligibility standard, the client's eligibility is determined under section (3) of this rule.

(3) For a client found eligible under section (2) of this rule, the allowable child care cost and the client's copay are determined as follows:

(a) The child care costs for which the client has been billed are compared to the amount provided in the appropriate child care chart in OAR 461-155-0150. The allowable child care cost is the lesser of the two amounts.

(b) The need group's copay is determined in accordance with OAR 461-155-0150.

(4) The copay is subtracted from the allowable child care cost, and the remainder is the payment the Department makes to the provider. If the copay is equal to or greater than the allowable child care cost, the client is not eligible for ERDC. If the copay is less than the allowable child care cost, the client meets the income requirement for ERDC.

Certification Period; ERDC

In the ERDC program:

(1) The length of the certification period (see OAR 461-001-0000) may not be less than 12 months. In the following situations the certification period may be extended beyond the certification end date:

(a) Caretakers in authorized work search and medical leave are limited to no more than three months.

ADMINISTRATIVE RULES

(b) Caretakers on military transition are limited to no more than six months.

(2) A filing group (see OAR 461-110-0310 and 461-110-0350) that is determined to be homeless (see OAR 461-001-0000) or requires child care for a current foster child may receive “priority processing.” For purposes of this rule, “priority processing” means the benefits may be open for up to three months while pending for verification of income or work schedule during the application period.

When a Reapplication Form is Considered Complete or Not Received; ERDC

In the ERDC program:

(1) At the end of the certification, authorized work search, medical leave, or military transition period (see OAR 461-160-0040(5)), whichever is later, a client must complete and return to a Department branch office (see OAR 461-001-0000) a reapplication form before a new certification period may be established under OAR 461-170-0150.

(2) A reapplication form is considered complete when it is received by a Department branch office by the 10th day of the last month of the certification, authorized work search, medical leave, or military transition period, whichever is later, and:

(a) The client answers, completely and accurately, all questions necessary to determine a copay amount for the following certification period;

(b) The client provides all required verification; and

(c) The form contains the signature of the primary person (see OAR 461-001-0000) or the authorized representative (see OAR 461-115-0090).

(3) When a Department branch office receives a completed reapplication form by the deadline in section (2) of this rule, the form is used to:

(a) Determine eligibility for ERDC benefits;

(b) Establish the ERDC benefit copay amount for the next certification period; and

(c) Establish the next certification period as beginning on the first day of the month following the last month of the previous certification, authorized work search, medical leave, or military transition period, whichever is later.

(4) When a Department branch office does not receive a completed reapplication form on or before the deadline in section (2) of this rule, the case is closed effective the last day of the last month of the certification, authorized work search, medical leave, or military transition period, whichever is later.

(5) If the reapplication form is received after the deadline in section (2) of this rule, it is treated as a new application in accordance with OAR 461-115-0050.

Notice Situations — Expiration of Certification Period; ERDC, SNAP, TANF

In the ERDC, SNAP, and TANF programs:

(1) Except in the ERDC program, the Department must provide a household certified for one month or certified in the second month of a two-month certification period (see OAR 461-001-0000) a notice of expiration at the time of certification.

(2) In the ERDC program, each household must receive a notice of expiration prior to the last month of the certification period.

(3) In the ERDC program, the notice of expiration must contain:

(a) The date the certification period expires.

(b) A statement that to receive benefits, the client must reapply and be found eligible for a new benefit amount.

(c) The household’s right to request a contested case hearing if the reapplication is denied or if the household objects to the benefit amount.

(4) In the SNAP program, each household other than those covered under section (1) of this rule must receive a notice of expiration before the first day of the last month of the certification period (established per OAR 461-115-0450), but not before the first day of the next-to-the-last month.

(5) In the SNAP program, notice of expiration under this rule is provided to the filing group (see OAR 461-110-0370) and must contain all of the following:

(a) The date the certification period expires.

(b) The date by which a household must submit an application for recertification to receive uninterrupted benefits.

(c) The consequences of failure to apply for recertification in a timely manner.

(d) The right to receive an application form upon request and to have it accepted as long as it contains a signature and a legible name and address.

(e) Information on alternative submission methods available to households that are not able to come into the certification office or do not have an authorized representative and how to exercise these options.

(f) The address of the office where the application must be filed.

(g) The household’s right to request a contested case hearing if the recertification is denied or if the household objects to the benefit amount.

(h) A statement that any household consisting only of Supplemental Security Income (SSI) applicants or recipients is entitled to apply for SNAP program benefits recertification at an office of the Social Security Administration.

(i) A statement that failure to attend an interview may result in delay or denial of benefits.

(j) A statement that the household is responsible for rescheduling a missed interview and for providing required verification information.

(k) A statement that the client has no rights to continuation of benefits after the SNAP program certification period expires; and that to receive benefits, the client must reapply and be found eligible for a new benefit amount after the end of the certification period, including a client who is receiving continuation of benefits when his or her SNAP program certification period ends.

(6) In the TANF program, each household other than those covered under section (1) of this rule must be sent:

(a) Before the first day of the last month of the certification period (see OAR 461-001-0000 and 461-115-0430), but not before the first day of the next-to-the-last month, a recertification packet that contains application forms, deadlines, and information about the consequences of not reapplying on time; and

(b) A basic decision notice (see OAR 461-001-0000) about the expiration of the certification period (see OAR 461-001-0000 and 461-115-0430).

461-175-0300

Notice Situation; Prior Notice

(1) Except as provided in section (5) of this rule, when benefits in any Department program except a medical program and the SNAP program will end or be reduced after a specific period of time, the Department may issue a decision notice (see OAR 461-001-0000) informing the benefit group (see OAR 461-110-0750) of the date benefits will end or be reduced, and no further decision notice is required.

(2) Except as provided in section (5) of this rule, in any Department program except a medical program and the SNAP program, if the benefit group was informed in writing when the benefits began that the benefit group would receive benefits only for a specific period of time a basic decision notice (see OAR 461-001-0000) may be used to:

(a) Deny an application to start or continue benefits after the completion of a certification period (see OAR 461-001-0000) or to approve benefits at a level lower than the prior certification period.

(b) Indicate that benefits have been ended or reduced when no timely application is submitted.

(3) A basic decision notice is used when a special need allowance granted for a specific period of time is removed at the end of the specified period and the benefit group was informed of this in writing when the allowance began. A timely continuing benefit decision notice (see OAR 461-001-0000) is required if stopping the special need allowance results in benefit closure.

(4) In the JOBS Plus program, a basic decision notice is used if:

ADMINISTRATIVE RULES

(a) An employer submits a wage reimbursement billing and the Department calculates a supplement (see OAR 461-190-0416 about supplements);

(b) The benefit group received a timely continuing benefit decision notice that the method of payment would be changed from cash to employer-paid wages; and

(c) The notice specified the period of time that benefits would be diverted.

(5) No additional decision notice is required when:

(a) Notwithstanding OAR 461-115-0010(6), when a benefit group submits an application for a program from which they currently are receiving benefits.

(b) In the ERDC program when a filing group (see OAR 461-110-0350) is receiving priority processing (see OAR 461-170-0150(2)) but does not return postponed verification to the Department by the last day of the month in which the application period ends (see OAR 461-115-0190).

(c) In the OSIPM program:

(A) A client's liability returns to the previous higher level after the Department sent the client a continuing benefit decision notice for a decrease in the client liability due to an allowable deduction and that notice also specified when the deduction no longer would apply causing the client liability to return to the previous higher level; or

(B) A client's benefits are being closed or reduced and the Department sent the client a basic decision notice of eligibility and a simultaneous continuing benefit decision notice because the client's circumstances changed between the date of the client's application and the date of the Department's eligibility decision and the change caused the client's benefits to be reduced or closed.

(6) In the SNAP program:

(a) A basic decision notice is used to close benefits if the benefit group was informed in writing, when their benefits began, that they would receive benefits only for a specific period of time.

(b) No decision notice is required if the client is provided a decision notice at the time of application or redetermination that:

(A) The allotment of the benefit group would vary from month to month and listed the anticipated changes;

(B) In the case the client applied at the same time for both cash assistance and SNAP benefits, the SNAP benefits would be reduced or closed upon approval of the cash assistance; or

(C) In the case of a benefit group receiving benefits under expedited services with postponed verification:

(i) The expedited services benefits would close if the Department did not receive the postponed verification within the timeframe established under OAR 461-115-0690.

(ii) The expedited services benefits may be adjusted beyond the timeframe established under OAR 461-115-0690 based on the verified information provided to the Department without further notice.

Purpose and Objectives

OAR chapter 813, division 220, is promulgated to accomplish the general purpose of ORS 458.505 to 458.545, specifically ORS 458.525 to 458.530, which designates Oregon Housing and Community Services Department as the lead agency to coordinate state efforts in meeting the problem of hunger that operates through a network of local service-provider agencies. The department has designated the Oregon Food Bank as the agency responsible for administering the Emergency Food Assistance Program in Oregon within OAR chapter 813, division 220. The program's objective is to provide lower-income households with food for home and congregate meal use. OHCS believes that receiving USDA foods will not create any additional barriers between clients and their need for food that is stated in statute.

Specific terms and conditions for doing so include:

- (d) The basis for determining that the household is eligible to receive USDA foods for home consumption.

(A) No distribution site will collect social security numbers for households applying for TEFAP.

(B) No supporting documentation is required for an income eligibility determination for TEFAP.

(2) All records must be retained for a period of three (3) years from the close of the federal fiscal year to which they pertain, or longer if related to an audit or investigation in progress. Records must be reasonably accessible at all time for use during management evaluation reviews, audits or investigations. OFB and their recipient agencies shall maintain records as required by federal and state rules in accordance with federal regulations 7 CFR 251.10.

(3) OFB and their recipient agencies shall be responsible for the loss of USDA foods:

- (a) Loss of USDA foods from improper distribution or use or failure to provide proper storage, care, or handling.
- (b) Recipient agencies will need to immediately submit a claim to OFB and the department if the loss of the USDA foods value exceeds federal regulations.
- (c) Under no circumstances shall program recipients be required to make any payments in money, materials or services in connection with participation in this program.

Client Eligibility

(1) USDA foods shall be made available to low income households. Indication of participation in such programs as the Supplemental Nutrition Assistance program, Temporary Assistance to Needy Families, SSI, State General Assistance, Low-Income Home Energy Assistance and the Oregon Supplemental Income Program shall establish a household's eligibility under the program. No letter or other verifying document is required.

(2) Households may establish their eligibility to participate in the program through a self-declaration of income at or below 185 percent of the federal poverty line.

(3) Eligibility determination is made by specific eligibility screening guidelines and shall be uniform statewide. OHCS does not require any eligibility requirements other than what is required within the federal guidelines for 7 CFR 251.5. The criteria must be:

(a) Income for households meets the low-income poverty guidelines set forth by the income guidelines for the current year. Eligible households in need of food assistance because of inadequate household income may receive TEFAP USDA foods by signing a statement that declares that their income is at or below 185% of the federal poverty level.

(b) Household must reside in the geographic location served by the distribution site at the time of applying for assistance, but length of residency shall not be used as an eligibility criterion. Households should not be denied service for the reason that they are in transit from one locality to another.

(4) Each distribution site must ensure households demonstrate eligibility as described in section (3) or by self-declaration.

Purpose

ORS 147.227 et seq (“the Act”) provides that the Attorney General or the designee shall disburse a portion of the moneys that the Criminal Injuries Compensation Account receives from the Criminal Fine Account (“CFA”) to counties and cities where prosecuting attorneys maintain victims’ assistance programs approved by the Attorney General. The Act also requires the Attorney General to adopt administrative rules establishing criteria for the equitable distribution of moneys disbursed under the Act. OAR 137-078-0000 through 137-078-0050 (the “Rules”) establish the criteria for the equitable distribution of moneys disbursed under the Act, and the establishment of an advisory committee to provide consultation on the distribution of the moneys.

Approval of Funding and Duration of Funding

(1) To be eligible and approved for distribution of moneys under the Act (“Fund” or “Funding”), a city or county victims’ assistance program (“Program”) must be operational at the time an application for Funding is made. A Program is operational for the purposes of this rule if at the time of application for Funding, it is providing the core services set forth in 137-078-0030.

(2) Programs which are determined to be eligible under the Act and these rules and are approved for Funding will continue to be approved for Funding indefinitely subject to the availability of Criminal Fine Account revenues, OAR 137-078-0050 and the following:

(a) The Program shall complete an application for Funding, thereby indicating that the approved Program will continue in operation for the duration of the grant period. In the event the application indicates that the Program will not continue beyond the duration of the grant period, Funding for the Program will expire at the end of the grant period, or on the date the Program indicates it will no longer be operational, whichever is earlier. Any subsequent reactivation of a Program or initiation of a new Program will require a new application for Funding.

ADMINISTRATIVE RULES

(b) If a Program discontinues a core services as described in OAR 137-078-0030, the Administrator may require a new approval of Funding, based upon a new Program application, in order to continue Funding of the Program. The addition of services to an approved Program does not require a new approval or new Program application for continued Funding.

(3) Program Funding will be made to approved Programs according to the criteria for equitable distribution of moneys set forth in the Act and these Rules. Program Funding will commence at the beginning of the fiscal year in which application for Funding is made, and will continue for a one or two year period immediately following execution of the Grant agreement for Funding by the Administrator. Funds will be distributed on a quarterly basis or as determined by the Administrator.

Distribution of Funds

(1) The Administrator, or designee during periods of absence or unavailability, is authorized to interpret and apply the criteria for the equitable distribution of moneys disbursed under the Act and these rules. The Administrator, after consultation with the advisory committee established under these Rules (the "Committee"), shall make decisions concerning eligibility of Programs for Funding. The Administrator is also authorized, after consultation with the Committee, to make all other decisions concerning distribution of moneys to counties and cities, including but not limited to, denial of Funding, conditional allocation of Funding when necessary to establish eligibility for Funding, notices and time limits for applications, acceptance of Funding terms, conditions and reports, method of review and role of the Committee, and reallocation of moneys not applied for or disbursed by Programs.

(2) The criteria for the equitable distribution of moneys disbursed under the Act and these Rules to Programs (the "Formula") is based on the following criteria:

(a) The amount of Funding shall reflect consideration of county per capita population, county crime rates and other similar criteria.

(b) The Formula established for counties will be applied to cities, and be adjusted as necessary to reflect the current percentage of the total of Program Funding the counties have received under the current allocation per 137-078-0010(2)(a). City Programs will only be approved for Funding after consultation with the Committee and after a memorandum of understanding (MOU) between the County and City programs has been executed. The financial impact and Funding considerations associated with adding a new city Program will be considered in the context of ORS 147.227(2)(c) which requires service priority to victims of serious crimes against persons.

(3) The Formula may be revised periodically by the Administrator, following consultation with the Committee to reflect statistical updates relating to the criteria reflected in the formula, and the amount of Criminal Fine Account revenues provided to CVSD's Criminal Injuries Compensation Account.

(4) Distribution of moneys to Programs and the conditions relating thereto, including availability of monies available for Funding, shall be described in a grant agreement established by the Administrator ("Grant"). The Grant shall incorporate by reference the requirements of the Act and these Rules, and such other terms and conditions which apply. If a Program elects to accept Funding based on the terms and conditions set forth in the Grant, an authorized representative of the Program shall sign the Grant in the manner provided therein, and submit a signed Grant to the Administrator within the timeframe established in the Grant. Upon submission of the signed Grant, the Administrator shall distribute funds to the county or city upon the terms contained in the Grant.

(5) In the event the Administrator, after review of a Program, or otherwise, discovers non-compliance by a city or county with the terms of the Grant, Funds which were allocated to a non-compliant city or county may be reallocated to eligible cities or counties. This will occur by applying the Formula which is applicable to the city or county, to the monies which were originally allocated to the non-compliant Program. A reallocation of Funding shall thereafter be made to Programs which are in compliance with their respective Grants or held in reserve by the Administrator for future Grant allocations. The reallocation of funds derived from the non-compliant Program shall be made in the form of an Amended Award of Funding in the same manner as an initial award of Funding pursuant to a Grant.

(6) In the event Funds have already been disbursed to a Program which is or has been in non-compliance with the terms of the Grant, the Administrator, may adjust or reduce a Program's allocation in future fiscal years to take into account the Program non-compliance.

(7) If a Program does not expend all of its allocated Funds for the period of time described in the Grant, the Administrator may permit a Program to retain some or all the funds for use in a subsequent Grant. The Program will be required to demonstrate how those monies will be incorporated into the next year's Program.

(8) Any Program which has unexpended monies pursuant to a fully executed Grant (including an Amended Award of Funding), and which elects to file an objection to a notice of its alleged non-compliance under these rules, shall retain said monies until such time as the filed objection is resolved by the Administrator in favor of the Program. In the event the objection is not resolved in favor of the Program, the Program shall immediately return the monies to CVSD.

Maintenance and Retention of Records

(1) The Program shall maintain accurate, complete, orderly, and separate records. All records and documents must be adequately stored and protected from fire, electronic disclosure, and other damage. All record books, documents, and records related to the program must be accessible to the Administrator or his or her designee for inspection and audit. The accounting system shall insure that CFA funds are not commingled with funds from any other source. Funds specifically budgeted for/or received in connection with one grant may not be used to fund another grant. Revenues and expenditures for each grant shall be separately identified and tracked within the grantee's accounting system or records. In the event a grantee's accounting system cannot comply with this requirement, the grantee shall establish a system to provide adequate fund accountability for each grant awarded. Any carryover of CFA funds shall not revert to or be transferred to the city or county's general fund or other fund. A "carryover" is defined as any unexpended monies remaining in a Program, at the end of the term of the grant for the Program.

(2) All records must be secured and confidential and retained in accordance with the Oregon Department of Justice record retention scheduled as required in OAR 166-300-0015, 0025.

Monies expended for the purchase of equipment that is already available for use within the county or city will be considered unnecessary and unallowable Program expenses.

(4)(a) Professional services may be performed under contract with the city or county, by individuals and organizations, when such services are not readily available within the Program and are clearly consistent with the intent and purposes of the Act. Employees on the Program's payroll are not eligible to provide professional services under contract with the Program;

In light of this objective, no contract may be entered into which will allow the Program to be administered independently of the control and policy direction of the city or district attorney whose Program is the subject of the contracted service. Any allowable contract shall:

(A) Detail those specific services identified in the approved Program that are to be carried out by the contractor;

(B) Provide for coordination of the contractor's functions with those of the prosecutor's city or county office, including as appropriate, the services to be performed, the contractor's access to the prosecutor's records and personnel, and the exchange of such communications between the prosecutor's office and the contractor as are necessary to the ongoing performance of the contract services and the prosecutorial function;

Notice Publication Date: 8-1-2015

Rules Adopted: 735-032-0025

Subject: A person commits the offense of illegal display of a registration plate or improper display of validating stickers if the person displays a registration plate with registration stickers that have an expiration date that is different from the date shown on DMV's record for the vehicle.

However, there are occasions when a person renews their vehicle registration but does not receive the registration stickers from DMV for several days. For example, this can occur when renewing registration online through DMV's website.

Chapter 154, Oregon Laws, 2015 amends ORS 803.550 and 803.560 to provide that a person is not in violation of illegally displaying the registration plate or registration stickers or improper display of validating stickers, if the person has proof of vehicle registration, but has not received new registration stickers from DMV. The legislative act requires DMV to adopt rules regarding what constitutes proof of vehicle registration.

DMV has adopted OAR 735-032-0025 to specify what constitutes proof of registration for the purposes of ORS 803.550 and 803.560, as amended by Chapter 154, Oregon Laws, 2015.

(1) The vehicle registration plate number, vehicle year, vehicle make and VIN;

(2) The date the vehicle registration renewal transaction was transmitted to or received by DMV; and

(3) The new expiration date of the vehicle registration.

ADMINISTRATIVE RULES

Notice Publication Date: 8-1-2015

Rules Amended: 740-055-0020, 740-055-0110

Subject: These rules describe payments and refunds of Oregon Highway Use Tax and fuel purchase records and refunds. The amended rule sets a minimum dollar amount for which the Department will issue a refund check to a motor carrier. Motor carriers can request to apply any credits under \$100 to other taxes due, such as, Oregon Highway Use Tax, International Fuels Tax Agreement, or International Registration Plan. The Department will issue a check for less than \$100 after a motor carrier's account is audited and the account is closed. In addition, the amendment adds clarifying language to require fuel card statement to clearly identify retail and cardlock purchases. It is becoming increasingly difficult and time consuming to determine whether or not fuel tax was actually paid at the time of purchase. This rulemaking will ensure refunds are not provided to motor carriers that purchase fuel where the tax is not actually paid.

- (b) Bank Draft;
- (c) Guaranteed Draft;
- (d) Credit card, under the conditions described in ORS 825.502;
- (e) Cashier's Check; or
- (f) Travelers Check.

(3) All payments to the Oregon Department of Transportation for taxes and fees shall be in United States funds.

(4) In the event any check drawn payable to the Department for payment of taxes or fees is not honored, the motor carrier account for which the check was drawn will be assessed the maximum service charge authorized by ORS 30.701(5) for each such check and the motor carrier account for which the check was drawn may thereafter be required to remit taxes or fees by money order, bank draft, certified check, or cash.

(5) The Department will not issue a refund by cash to a motor carrier. The Department will not issue a refund by check to a motor carrier unless the dollar amount is equal to or greater than \$100.00.

(6) The Department will only issue a check for less than \$100.00 after a motor carrier's account has been audited and closed.

Fuel Purchase Records and Refunds

(1) All motor carriers must obtain an invoice covering every purchase of motor vehicle fuel and preserve the same for a period of three (3) years subject to inspection by the Department or its representatives at all reason-

able times. Fuel Card statements reflecting purchases from retail stations must clearly separate and identify retail and cardlock purchases. Purchases from retail stations require an invoice or receipt from the original seller to be accepted.

(2) Such invoice or statement must disclose:

- (a) Date and location of purchase;
- (b) From whom purchased;
- (c) Kind of fuel and number of gallons purchased;
- (d) Oregon Weight Receipt and Tax Identifier number, temporary pass number, or Special Transportation Permit of the vehicle if fuel is delivered directly into such vehicle; and
- (e) Amount of fuel tax paid.

(3) Motor carriers purchasing fuel in Oregon may claim a credit for Oregon state fuel tax paid at the pump. Carriers shall deduct the amount of fuel tax paid from the highway use tax due on the highway use tax report for the period in which the fuel was purchased. Motor carriers taking a deduction on the highway use tax report for fuel tax paid shall attach a copy of all fuel invoices for which credit is claimed. Carriers who purchase fuel in bulk shall attach to the highway use tax report for the period in which the fuel was dispensed into a motor vehicle copies of invoices from fuel suppliers indicating Oregon state fuel tax paid and fueling records showing fuel dispensed for each motor vehicle.

(4) Motor carriers may submit a written request for refund of Oregon state fuel tax paid up to three years after purchase. A written request for refund may be granted for any Oregon fuel tax paid but not deducted from the highway use tax report for the period in which the fuel was purchased. Adm. Order No.: MCTD 5-2015

Filed with Sec. of State: 9-21-2015

Certified to be Effective: 9-21-15

Notice Publication Date: 8-1-2015

Rules Adopted: 740-300-0005

Subject: In September 2014, the Department adopted rules to govern the development of automated electronic systems operated by motor carrier agents that accurately and reliably transmit, process, and store operating data from motor vehicles and allows the generation of tax reports and the transmission of taxes, fees for the use of highways under Oregon Highway Use Tax. This new rule allows the Department the option to require a motor carrier to use an automated electronic system operated by a motor carrier agent, as a condition for continuing operations, when the motor carrier is found to have repeatedly violated the laws and rules of the Department by failing to report and pay the Oregon Highway Use Tax. A request for a review of the motor carrier account can be requested after three years of compliance to relieve the requirement of the use of the automated electronic system.

Rules Coordinator: Lauri Kunze—(503) 986-3171

Failure to Report or Pay Oregon Highway Use Tax

(1) A motor carrier adjudicated to have repeatedly violated Oregon Revised Statute (ORS) Chapter 825 or the rules of the Department by failing to report and pay all operations and Oregon Highway Use Tax, as described in ORS 825.450, et seq., at the discretion of the Department may be required to implement and use an "electronic system" defined in OAR 740-065-0005(7) to report and pay its tax electronically through the "electronic system provider" defined in 740-065-0005(8) for all vehicles operating in Oregon.

(2) When notified by the Department of the requirement to use an "electronic system", the motor carrier must prove, to the satisfaction of Department, the "electronic system" is installed and operational in all registered vehicles operating in Oregon within 30 calendar days from the date of the notification.

ADMINISTRATIVE RULES

(3) As a condition of maintaining a continuing account with the Department, the motor carrier must satisfy payment requirements determined by the Department for any outstanding debt.

(4) After 36 months or the satisfaction of the debt, whichever occurs first, the motor carrier may request a review by the Department to report and pay taxes without a requirement to use an "electronic system."

(5) Failing to comply with paragraphs (1) through (3) of this rule will result in the suspension of the motor carrier authority.

Department of Veterans' Affairs Chapter 274

Rule Caption: Increases veterans' home loan processing fee because of new federal home loan disclosure requirements.

Adm. Order No.: DVA 3-2015(Temp)

Filed with Sec. of State: 10-12-2015

Certified to be Effective: 10-12-15 thru 4-8-16

Notice Publication Date:

Rules Amended: 274-020-0440

Subject: The amendment to the rule increases the veterans' home loan processing fee from \$495 to \$635. The increase is needed because the costs to third parties who originate veterans loans for the Oregon Department of Veterans' Affairs have increased beginning October 3, 2015 due to new federal loan processing requirements. These new federal requirements are found in the Truth in Lending RESPA Integrated Document (TRID) rules promulgated by the Consumer Financial Protection Bureau (CFPB) under the 2010 Dodd-Frank Wall Street Reform and Consumer Protection Act.

The loan processing fee of \$635 includes a \$35 service charge retained by the Department to cover costs of drawing the loan closing documents and \$600 that will be paid directly to the third party loan originators and compensation for originating the loan.

Rules Coordinator: Laurie Skillman—(503) 373-2016

(D) Notwithstanding the provisions of paragraph (3)(g)(C) of this rule, the director may refund all of the earnest money deposit if cancellation of the application was necessitated by some unexpected event such as redemption of the property before closing, or the death, disappearance, serious injury, serious illness, job loss, or job transfer of one or more of the parties to the transaction. (m) Dishonored Electronic Funds Transfer. Whenever an electronic funds transfer (also known as ACH) is authorized for payment of an obligation due to the Director of Veterans' Affairs and is dishonored by the bank upon which the funds transfer is drawn, a fee in the amount of \$25 will be charged. If two dishonored electronic funds transfers are received from the same borrower within a 12 month period, the director may require this borrower to make all future payments by cash, money order, cashier's check or certified check.

(4) Fees will be collected in advance (except for dishonored checks and electronic funds transfers). Where the director was not made a party to a transaction requiring payment of a fee, and the fee was not paid, the fee is due on demand. If payment is not made after 30 days written notice, it may be added to the amount due on the loan. The fee for dishonored checks may be added to the amount due on the loan when the check is returned by the bank. Any fee added to the amount due on the loan shall bear interest at the same rate as on the principal indebtedness. "Loan" means "contract" where context requires.

Higher Education Coordinating Commission Chapter 715

Rule Caption: Adopt fees to be reflected in rule and amend new school fee.

Adm. Order No.: HECC 12-2015

Filed with Sec. of State: 9-21-2015

Certified to be Effective: 9-21-15

Notice Publication Date: 8-1-2015

Rules Amended: 715-045-0007

Rules Repealed: 715-045-0007(T)

Subject: This amendment corrects one reference to OAR 715-045-0001 and clarifies language in OAR 715-045-0007. The Private Career Schools Licensing unit will adopt a licensing fee for new programs offered by a licensed private career school that were not offered at the time of initial application. The licensing fee will be \$1,000 for each new program. The fee was proposed and submitted to the Oregon State Legislature in Senate Bill 218 during the 2015 legislative session. The Private Career Schools found that in an average year the unit will experience 16 new program applications from the existing licensed career schools. The new fee requires each new program to be charged \$1,000 per program review. With this fee increase, the unit expects an additional \$32,000 in revenue over the course of the biennium. This is to help create a self-sustaining unit under the Office of Private Postsecondary. The Advisory Committee met to discuss these developments in March, 2015 and June, 2015. The committee advises the commission on policies and regulations regarding career schools and functions as the commission's rules advisory committee for rules regarding career schools.

Rules Amended: 715-045-0007

Subject: The Higher Education Coordinating Commission (Commission) is proposing to adopt fees in rule because current fees are scheduled to sunset in statute effective July, 2015. The proposed rule change in OAR 715-045-0007 would not increase the fees but adopt the existing fees in rule. The Oregon Department of Education, where the Private Career Schools unit was previously housed, was given 2 years in statute to adopt the fee schedule in rule assuming during the two years no suggested revisions were proposed. Now under the authority of the Commission, the PCS unit needs to have the fees adopted in rule prior to the scheduled sunset.

Definitions

The following definitions apply to OAR 589-002-0100 through 589-002-0130.

(1) “Total Public Resources (TPR)” is what the Community College Support Fund formula considers 100% of the next year’s imposed property tax revenue and the General Fund appropriation from the legislature. TPR does not include tuition and fees paid by students.

(2) “Base Payment” is an allocation made from the Community College Support Fund which provides funding for basic community college district operations that are essential and do not vary in direct proportion to the districts’ Full-Time Equivalent (FTE) student enrollment. The base allocation increases stability and predictability of funding for individual colleges.

(3) “Equalization” means equal public resource support per funded FTE, regardless of community college district, and exclusive of the base. Equalization is measured by dividing Total Public Resources, exclusive of the base, by funded FTE.

(4) “Property tax revenues” means the amount determined by the Department of Revenue to be imposed on local property following the application of limits imposed by sections 11(b)(1) through 11(b)(3), Article XI, of the Oregon Constitution, and those limits imposed by legislation implementing Ballot Measure 50. This amount becomes the basis for operation of the funding formula without regard to uncollectible taxes, or taxes collected from previous years. Taxes levied or imposed by a community college district to provide a public library system shall be excluded from the definition of property taxes in this rule. Property tax revenues raised through voter approval of any local option or capital construction levy are not to be included as a resource to be distributed through the funding formula.

(5) “Community College Support Fund (CCSF)” is funding received through the state’s General Fund appropriation and distributed to the community college districts for funding educational programs.

(6) “Full-Time Equivalent (FTE) student” for the purpose of receiving state reimbursement, means a student who carries 510 clock hours over three terms of instruction for all terms including a fall 12-week term. All colleges with an 11-week fall term will have their fall term clock hours increased to the equivalent 12-week hours for the purpose of calculating reimbursable FTE.

(7) “Total Reimbursable FTE” means full-time equivalent students that are eligible for state reimbursement. These students must receive instruction from community college districts through either a contracted out-of district (COD) agreement described in OAR 589-002-0600, an agreement to provide services to state penitentiary or correctional institution inmates described in OAR 589-002-0700, or are CCSF reimbursable FTE, described in Section 8 of this rule and in OAR 589-002-0110 Sections (2) through (5).

(8) “CCSF Reimbursable FTE” means full-time equivalent students that are eligible, as described in OAR 589-002-0110 Sections (2) through (5) of this rule, for state funding through the CCSF Funding Distribution Formula, before the application of the Annual Growth Factor (AGF).

(9) “Contracted Out-of-District (COD) Reimbursable FTE” means full-time equivalent students that are not residents in the community college district that they are attending and for which the community college district has a contract to provide educational services with an entity in the geographic area from which the student resides. COD reimbursable FTE must meet all other requirements of a CCSF reimbursable FTE. The community college district must have a contract in place with the Department of Community Colleges and Workforce Development in order to receive reimbursement.

(10) “Fundable FTE” is the number of full-time equivalent students that are at or below each community college district’s FTE Cap. Fundable FTE is the lesser of either the CCSF reimbursable FTE or the FTE cap. This number is used in the three-year weighted average calculation that determines a community college district’s funded FTE as described in Section 11 of this rule.

(11) “Funded FTE” is the community college district’s number of full-time equivalent students used in the formula to distribute the CCSF

funding for each community college district. This number is buffered to prevent significant changes in a community college district’s funding due to variability in student enrollment. It is calculated using a three-year weighted average of fundable FTE with the first year prior to current fundable FTE weighted at 40%, second year prior to current fundable FTE weighted at 30%, and third year prior to current fundable FTE weighted at 30%.

(12) “Total Funded FTE” is the sum of all community college districts’ funded FTE for a fiscal year.

(13) “FTE Cap” is the maximum number of CCSF reimbursable FTE per community college district, which may be included in the funding formula calculation. The FTE cap is determined by applying the annual growth factor and may be adjusted by the preliminary FTE cap as described in Section 14.

(14) “Preliminary FTE Cap” is a tool that allows a community college district to recover fundable FTE within one year, if the district’s CCSF reimbursable FTE is less than the FTE cap. There are two preliminary FTE caps. The first is based on the FTE cap from one year prior and the second is based on the prior year’s fundable FTE. The annual growth factor (as defined in Section 19 below) is applied to each. The current year’s FTE cap is the greater of these two numbers.

(15) “Growth Management” means the application of the Growth Management Component in combination with each community college district’s FTE cap.

(16) “Biennial Growth Management Component” is the percent change, from one biennium to the next, of the total number of FTE for all community college districts that could be included in the funding formula without reducing resources available per FTE. The biennial growth management component is determined by the amount of total public resources available for the current biennium compared to the prior biennium and the estimated increased cost of FTE.

(17) “State Board of Education’s Biennial Quality Growth Factor” is a policy lever that allows the number of FTE that will be counted for funding purposes to be above or below the Biennial Growth Management Component.

(18) “Total Biennial Growth Management Component” is the sum of the Biennial Growth Management Component and the State Board of Education’s Biennial Quality Growth Factor.

(19) “Annual Growth Factor (AGF)” is one-half of the Biennial Growth Management Component.

(20) “Emergency” means any catastrophe, disaster or unforeseen or unanticipated condition or circumstance, or abnormal change of conditions or circumstances, affecting the functions of a community college that result in substantial and immediate expenses.

State Board Strategic Fund

The State Board may establish a strategic fund.

(1) There are three basic categories for these funds: incentivized statewide initiatives and activities, requests from individual districts for assistance in meeting new requirements and expectations stemming from legislative change, and requests from individual districts for expenditures in the case of an emergency.

(2) The commissioner will use a committee of stakeholders and department staff to determine overall priorities for funding that considers the State Board work plan and initiatives.

(3) Strategic funds provided to incentivize statewide activities or assist community colleges in meeting legislative expectations are provided only for the biennium in which funding is approved. Strategic Funds allocated for either purpose will not be considered in the distribution of funds through the formula described in Section 6 of 589-002-0110 for the current biennium or future biennia.

(4) Any unused monies remaining in the current biennium’s strategic fund will be allocated through the formula described in Section 6 of 589-002-0110 at the end of the biennium.

(5) The commissioner will review, rank and approve proposals to incentivize statewide activities. After each proposal is approved, the commissioner will provide the State Board with a report detailing the purpose of the activity, the amount of strategic fund monies approved, and the proposal’s merit as assessed under the following parameters:

(a) Purpose of the proposal.

ADMINISTRATIVE RULES

(b) How the activity supports the initiatives and work plans of the department and the State Board.

(c) How the activity relates to the department's Key Performance Measures or other program-specific measures.

(d) If the funding one time (for this biennium) or will additional funding be needed in the future.

(e) If future funding is needed, how resources will be obtained and how the activity will be sustainable?

(f) The activity's impact on the state three years from now and five years from now.

(g) Anticipated changes.

(h) How progress will be measured.

(f) The department will bring all requests for assistance in meeting new requirements or expectations stemming from legislative change to the State Board for discussion and consideration.

(g) Explanation of the expenditure requirements in the case of an emergency.

(h) The department will assess the requests for assistance in meeting new requirements or expectations of the legislature based on the following parameters:

(A) Purpose of the proposal.

(B) How funds will be used to sustain or increase enrollment (not supplanting existing funds).

(C) If the funding is one time (for this biennium) or if additional funding will be needed in the future.

(D) If future funding is needed, how those resources will be obtained and how the activity is sustainable.

(E) The impact on the community college three years from now and five years from now.

(F) How progress will be measured.

(h) The department will provide a recommendation and reasoning to the State Board on whether the request merits funding.

Rule Caption: Allows Oregon community colleges to develop and issue non-credit training certificates.

Adm. Order No.: DCCWD 4-2015

Filed with Sec. of State: 10-13-2015

Certified to be Effective: 10-13-15

Notice Publication Date: 9-1-2015

Rules Amended: 589-006-0050, 589-006-0300

Subject: House Bill 2410 changes existing statutory language to allow community colleges to develop and issue noncredit training certificates. The certificates can be awarded for single stand-alone courses or series of courses. In order to meet the needs of local Oregon businesses and communities, the certificate content and rigor would be determined and standardized at the institutional level.

The Non-Credit Training Workgroup, represented by a majority of community colleges in the state, through careful deliberation clarified the definition, approval criteria and rigor to create an oversight system to maintain the integrity of noncredit training certificates, in deference to credit Certificates of Completion and degree programs.

Previously, Oregon community colleges were not permitted to issue certificates for noncredit trainings. Noncredit divisions of the seventeen community colleges could only issue "Recognition Awards".

Noncredit training certificates provide documentation of skill attainment for entry-level positions in a wide variety of industries. They also serve as a gateway to the resources of college, allowing less-skilled workers to attain a college credential. Segments of the workforce are increasingly seeking ways to document competencies and job skills, and many occupational fields value a workforce credential over academic documentation for initial job placement as well as for promotion or advancement. College-sponsored certification programming can also allow for credentialing to be earned in an area where there is no readily available industry standard.

Loan and Grant Information

(1) The moneys in the fund will be used primarily to provide loans to municipalities for projects. Grants may be given only when loans are not feasible due to the financial need of the municipality or special circumstances of a project. The level of loan or grant funding, if any, may be determined by the Authority on a case-by case-basis. The Authority shall determine awards in a manner that maximizes the use of available resources and maintains the desired credit standards of the fund according to the following criteria:

(a) Amount requested;

(b) Type;

(c) Interest rate;

ADMINISTRATIVE RULES

(d) Terms and conditions of an award. The Authority may offer an alternate mix or lower amount of assistance than requested, and it may investigate and recommend other sources of funds for all or part of a proposed project.

(2) Grants:

(a) If the Authority determines that a firm business commitment project meets the minimum criteria for a grant, the Authority may make a further determination on the amount of the grant. The maximum grant amount is \$500,000 per project or 85% of allowable project costs, whichever is less. In-kind materials and services cannot be included in allowable project costs.

(b) The amount of grant will be based primarily on the number of eligible commercial and industrial jobs proposed to be created or retained with a maximum of \$5,000 for each job created or retained.

(c) If a grant is for the acquisition and improvement of real property, the maximum grant amount cannot exceed the fair market value of the real property after the improvements have been made or the value placed on the real property and improvements on the assessment rolls, whichever is less.

(d) The Authority must receive, in accordance with OAR 123 division 70, a copy of the appropriate First Source Hiring Agreement or assurance from the municipality that one has been entered into before the grant is dispersed.

(e) Not less than 60 percent of the grants awarded from the Special Public Works Fund in any biennium can be used to provide assistance to distressed or rural areas.

(f) The Authority cannot expend more than \$900,000 for grants or direct assistance, if any, for planning projects to municipalities in a biennium.

(g) The Authority cannot commit more than \$2,000,000 for grants for Firm Business Commitment development projects in a biennium.

(h) A development project that qualifies as a firm business commitment project is eligible to apply for a grant. When making a determination to award a grant, the Authority will apply prudent fiscal management of the fund in order to manage constrained funding resources. In addition to the criteria and process contained in its policies on grant and loan funding, the Authority will apply the following minimum criteria for grants:

(A) The Authority's financial analysis determines that the municipality's borrowing capacity is insufficient to support the amount of the loan requested for the project;

(B) Eligible commercial jobs will be created or retained as a result of the grant being awarded; and

(C) The Authority has received confirmation that the firm business commitment project will not occur, or that the eligible commercial jobs will be lost, if the municipality does not receive a grant.

(3) Loans:

(a) Maximum loan amount for a project will be based on the Authority's financial and credit analysis of the municipality's capacity to repay, the availability of moneys in the fund, and prudent fund management. Projects that the Authority determines are not financially feasible, or loans that cannot be adequately secured, will not be funded. The maximum loan amount per project cannot exceed \$10,000,000.

(b) A development project may receive loan funding as follows:

(A) The initial or renegotiated term is limited to the usable life of the contracted project, or a maximum of 30 years from the year of project completion, whichever is less.

(B) The interest rate on a loan will be based on market conditions for similar debt, and will be set at the time of the award.

(C) The repayment terms of a loan can include deferred repayment of principal and/or interest for a specified term of the loan to address special circumstances and financial feasibility of a project.

(D) The interest rate on a state revenue bond loan will be equal to the coupon rates on the bonds. Until the state revenue bonds are sold, the municipality will pay interest on the outstanding principal balance of the loan at the rate established by the Authority.

(c) A loan amount requiring Board approval will be established by the Board.

(d) The loan will be a full faith and credit obligation, which is payable from any taxes that the municipality may levy within the limitations of Article XI, Sections 11 and 11b, of the Oregon Constitution and all legally available funds of the municipality. Additional pledges of revenue or other collateral may also be required and may include, but are not limited to:

(A) Specific revenues of the municipality may also be required to be pledged as security, including revenues of the project, special assessment revenues and other collateral.

(B) If repayment of a loan substantially depends on revenues the municipality will receive from a lessee or payments from a benefiting business, the Authority will assess the financial capacity of the payor, the adequacy of the security, the financial instrument(s) requiring such payments to the municipality, and any liens, pledge(s), or assignments of collateral from the payor to the municipality. The Authority may require an assignment of such revenue and collateral from the municipality.

(C) If repayment of the loan substantially depends on a pledge of tax increment revenues from an urban renewal agency to the borrowing municipality, the Authority's financial analysis will extend to the financial feasibility of the projected revenues and the financial and legal adequacy of the proposed pledge of tax increment revenue.

(a) The Authority will review project concepts and/or project information contained in the project intake form.

(b) Proposed projects that the Authority determines to be eligible, meet the Board approved prioritization criteria, are a high priority and address the goals of the program, will be advanced to the next step. A proposed project that is not advanced will be referred to other possible funding source(s) or referred back to the proposing municipality for further project development.

(c) High priority projects will be funded on a funds available basis.

(5) Of a marine facility project authorized under ORS 777.267, assistance from the fund can only be a loan that may not exceed the amount of the required local match.

(6) Of a project for a utility system that is functionally connected to, or anticipates connecting to, another municipality's utility system, an inter-governmental cooperation agreement that describes the duties and obliga-

Definition of Electronic Commerce

OAR 123-001 (Procedural Rules) defines terms used in this division of administrative rules, unless the context clearly indicates otherwise; in addition, for purposes of Electronic Commerce as defined under ORS 285C.050(5):

(1) E-commerce zone means any of the enterprise zones designated for electronic commerce under ORS 285C.095 or a city so designated under ORS 285C.100 in accordance with OAR 123-662-1200(4) or (5) and 123-662-2000(2).

(2) "Predominantly" means that more than 50 percent of applicable transactional activity is Internet-based in terms of receipts, number of orders, clients served or like measures, as opposed to activity handled directly or primarily through other means such as by telephone or e-mail.

(3) Applicable business activity and related investments must:

(a) Locate and occur inside the E-commerce zone;

(b) Involve dealings with customers, suppliers, clients or other transactional entities that are external to the eligible business firm, predominantly over the Internet itself or on a computer network that utilizes the Internet as a platform; and

(c) Entail, support or relate to the sale or purchase of goods, property or services, whether conducted on a wholesale, commercial, business-to-business, retail or other basis.

(4) It also includes facilities, equipment, services, networks, software, broadband infrastructure, or the like that are produced or operated inside the E-commerce zone by a third party, who facilitates, fosters or makes possible business transactions by means consistent with sections (2) and (3) of this rule. Such a third party is eligible for purposes of tax abatement if other businesses or organizations represent 75 percent or more of its customers or gross receipts as opposed to households or the general public.

(5) Beyond the initiation or consummation of the sale, purchase or arms-length exchange, it also encompasses elements of the transaction's overall completion or delivery, if that element:

(a) Is conducted in the E-commerce zone by means consistent with sections (2) and (3) of this rule, including but not limited to customer service, technical support, claims processing, client evaluation, performance measurement or the like, even if the actual sale, purchase or contract originated outside the zone or through other means; or

(b) Naturally serves, underpins or arises from the sale or purchase of goods, property or services inside the E-commerce zone by means consistent with sections (2) and (3) of this rule, including but not limited to distribution, made-to-order assemblage, direct after-sale support, shipping, warehousing, warranty service or any similar operation or order fulfillment-type activity.

(6) One way to understand subsection (5)(b) of this rule is by means of a flowchart representing the totality of Electronic Commerce operations in the zone, such that if a critical node in that flowchart is handled by means consistent with sections (2) and (3) of this rule, then:

(a) Substantially related activities both upstream and downstream of the node are also included for purposes of this rule; and

(b) Associated qualified property or investments in capital assets shall receive respective tax benefits subject to other applicable requirements.

Electronic Commerce Status

(1) An E-commerce zone may be any enterprise zone, whether urban or rural, except as described in section (3) of this rule, provided that the enterprise zone is itself already designated in accordance with OAR 123-650 or 123-656 and has not terminated.

(2) Electronic commerce status fully overlays the entire area of the enterprise zone designated as an E-commerce zone inclusive of areas added by a subsequent change to the zone's boundary.

(3) The sponsor of an enterprise zone may revoke its status as an E-commerce zone by resolution(s), at any time, pursuant to which the Department shall establish the effective date of revocation, and that that enterprise zone is never again eligible to be an E-commerce zone.

(4) To designate an E-commerce zone:

(a) The process begins with a zone sponsor's sending a formal advisory to the Department of its intent to so designate, which must occur on or after an effective date in OAR 123-662-1200 and October 5, 2015;

(b) The Department shall respond promptly to such an advisory, consulting with the sponsor about the availability of any designation and other pertinent information;

(c) Not less than 31 days after advising the Department, the sponsor may submit its E-commerce designation, consisting of an executed copy of a resolution that designates the zone an E-commerce zone, as adopted after consultation with the Department by each governing body of the zone sponsor consistent with its charter, by-laws or ordinances; and

(d) Subject to the resolution(s) in subsection (c) of this section and other procedural matters being in order, as well as E-commerce zone availability under the law, the Department shall issue a notice of positive determination confirming the designation and establishing its effective date.

(5)(a) If the Department receives advisories per subsection (4)(a) of this rule from two or more zone sponsors within 15 days of one another that exceed the number of available electronic commerce designations, and the Department receives submissions in accordance with subsection (4)(c) of this rule from those sponsors within 45 days of the first advisory, then pos-

ADMINISTRATIVE RULES

itive determination shall go to the zone with the earlier date of resolution adoption by any cosponsor.

(b) If subsection (a) of this section results in a tie, tiebreakers shall be employed in the following order:

(A) The enterprise zone that less recently had electronic commerce status;

(B) The formal advisory received on the earlier date;

(C) The zone with the greater number of cosponsors; or

(D) Special determination of the Director.

(c) If the Department receives fewer submissions than there are available E-commerce zone designations, despite excess advisories in subsection (a) of this section, then pursuant to advisories from other zone sponsors, the Department shall process additional submissions consistent with this section, until all available designations are positively determined to have been made.

(6) The Department shall promptly give written notification and explanation to any zone sponsor subject to a negative determination of its electronic commerce designation and shall counsel the sponsor about the viability and timing of resubmission.

(7) As otherwise permissible, the Department may allow a zone sponsor of an E-commerce zone to re-designate itself as an E-commerce zone at the time it re-designates the enterprise zone under ORS 285C.250, if the zone was designated for electronic commerce within one year of the enterprise zone's termination date.

Designated Areas

(1) If the Legislature allows additional electronic commerce designations under ORS 285C.095 for enterprise zones, which are currently limited to 15, the sponsor of any eligible existing enterprise zone that is not already an E-commerce zone may designate itself as an E-commerce zone in accordance with OAR 123-662-1000, pursuant to the date that the legislation took effect.

(2) The Department shall maintain and publicize information identifying which enterprise zones are currently E-commerce zones.

(3) If an enterprise zone that has been an E-commerce zone for more than one year terminates under ORS 285C.245, or if a zone sponsor revokes its electronic commerce designation, the sponsor of any eligible existing enterprise zone that is not already or is no longer an E-commerce zone may designate itself as an E-commerce zone in accordance with OAR 123-662-1000, pursuant to the date that the termination and revocation took effect.

(4) The City of North Plains in Washington County is a city designated for electronic commerce under ORS 285C.100 effective on March 4, 2002, such that

(a) All areas then or later inside the city limits or urban growth boundary of the City of North Plains are the same as an "E-commerce zone," as used in this division of administrative rules, but only for purposes of Electronic Commerce and business firms that are eligible on that basis under ORS 285C.050 to 285C.250 and 315.507.

(b) The city shall act as the effective zone sponsor and take responsibility for all duties of a zone sponsor as they apply to an Electronic Commerce business firm seeking to utilize areas of the city for special benefits.

(5) If the Legislature provides additional electronic commerce designations under ORS 285C.100 for cities, of which only one is currently allowed, the governing body of any city that is not already an E-commerce city may designate itself as an E-commerce city in a manner equivalent to OAR 123-662-1000(4) to (6), except as prescribed by the legislation, pursuant to the date that the legislation took effect.

Enterprise Zone Business Eligibility

Respective to the standard exemption from property taxes under ORS 285C.175:

(1) A business firm engaged in Electronic Commerce will likely be eligible in other ways under ORS 285C.135, but it shall not be subject to the requirements or restrictions of those other ways once the enterprise zone is effectively an E-commerce zone.

(2) If an eligible business firm that originally sought eligibility based on Electronic Commerce does not satisfy that definition, it may still receive

authorization and exemption subject to another way's requirements or restrictions, except in an area described in OAR 123-662-1200(4) or (5).

(3) The following may occur only once the enterprise zone is effectively an E-commerce zone:

(a) Authorization and qualification of a firm that is eligible only by virtue of Electronic Commerce; or

(b) Exemption of personal property permissible only under ORS 285C.185(1)(b)(B).

(4) Property that due to section (3) of this rule does not qualify for exemption by January 1 of the first year, for which a business firm may claim the exemption, is not allowed to qualify later, even if the enterprise zone becomes an E-commerce zone.

(5) After an area's status as an E-commerce zone effectively ceases, a business firm shall enjoy the following protection for exemption on qualified property respective to Electronic Commerce eligibility, notwithstanding that the firm might be eligible in another way:

(a) Under ORS 285C.245(1), consistent with applicable elements of OAR 123-674-8100 and 123-674-8200, if for whatever reason the underlying enterprise zone terminates and the location of the qualified property is outside of a subsequent enterprise zone.

(b) Only under ORS 285C.245(1)(a), consistent with OAR 123-674-8100(1)(b) regardless that the firm was already authorized or qualified, upon:

(A) Revocation of the zone's electronic commerce designation; or

(B) Termination of the underlying enterprise zone and designation of the location of qualified property in another enterprise zone without electronic commerce status.

State Income Tax Credit for E-commerce Investment

For purposes of a business firm receiving and using the credit under ORS 315.507 to offset state personal or corporate income/excise tax liabilities:

(1) Respective to an enterprise zone's designation as an E-commerce zone, relevant investments in Electronic Commerce capital assets under ORS 315.507(2) must be:

(a) Made in an income or corporate excise tax year, during or after which the designation took effect.

(b) In use, placed in service or completed in terms of construction or installation only on or after the effective date of designation.

(2) The business firm must make:

(a) Application for authorization before the effective date of revocation of the zone's electronic commerce designation or termination of the underlying enterprise zone.

(b) The relevant investment on or before the date, on which the enterprise zone terminates, irrespective of:

(A) Prior revocation of the zone's electronic commerce status; or

(B) Any continuing receipt or access to the standard property tax exemption after termination.

(3) The business firm engaged or preparing to engage in Electronic Commerce may make relevant investments only:

(a) During or after an income/excise tax year, in which the firm applies for authorization by submission of its application to the zone sponsor, that ends before July 1 of the first property tax year of exemption; or

(b) In an income/excise tax year that begins on or within less than a year's time preceding July 1 of any property tax year, in which the business firm remains qualified and associated qualified property is subject to exemption under ORS 285C.175.

(4) The third year after a credit was claimed for a year described in subsection (3)(a) of this rule must be a year described in subsection (3)(b) of this rule, in order for the firm to receive and keep the tax credit.

(5) Aside from their relation to Electronic Commerce and other requirements, the capital assets that generate the tax credit:

(a) Comprise new acquisitions, investments or costs of the business firm that are depreciable for purposes of federal income taxation, even if they are allowed to be and are, in fact, expensed on the corresponding tax return.

(b) Must, consistent with sections (3) and (4) of this rule, be associated concurrently with qualified property that is successfully claimed for exemption from property taxes under ORS 285C.175, and inasmuch as such assets are qualified property and are actually used to earn the credit, they must in general (aside from incidental oversights) also subsequently

ADMINISTRATIVE RULES

qualify for the exemption; nevertheless:

(A) Such assets may consist entirely or partially of items or costs that are not qualified property or otherwise not allowed for exemption, including but not limited to property exempt under another law such as certain intangible personal property (though not ORS 307.123 or 285C.409), as well as property previously used inside the E-commerce zone, or items located elsewhere in the zone apart from the site identified in the authorization application but connected to on-site Electronic Commerce activities; and

(B) Associated qualified property may consist entirely or partially of items or costs that are unusable for the credit, including but not limited to property distinct from Electronic Commerce activities, in excess of the annual limit in subsection (7)(c) of this rule, or subject to use and occupancy by the qualified business firm through a (non-capitalized) lease.

(6) The business firm will claim the credit as an amount entered with "other credits" on the taxpayer's state tax return for an income/excise tax year, in which it makes the Electronic Commerce investment (there is no prescribed form or worksheet). That tax year must begin before the date prescribed under section 3, chapter 913, Oregon Laws 2009, as amended in 2011 [c.730 §5] and in the future.

(7) The firm shall be responsible for maintaining tax records under ORS 315.508, including but not limited to:

(a) Annual qualification for exemption under ORS 285C.175, such as copies of forms filed with the county assessor and evidence of avoided property taxes, sufficient zone employment, and so forth;

(b) Methods used to determine the basis and extent, by which the firm/taxpayer attributes capital assets to Electronic Commerce for purposes of calculating the credit; and

(c) The actual cost of investments in terms of such calculations, as well as the annual limit under ORS 315.507(4) of effectively up to \$8 million in relevant costs in any one income/excise tax year.

(8) The tax credit is inapplicable with the exemption under ORS 285C.409 (Long-Term Rural Tax Enterprise Zone Facility Incentives).

(9) In terms of capital assets for Electronic Commerce (in contrast to property taxes, which typically relate to new physical vesting), to "make an investment" means:

(a) As a matter of timing, to financially incur costs or binding liability in payment for the asset, for example, by entering into a construction contract or by having booked an order to buy equipment.

(b) Not only capital that is new to the E-commerce zone, but it may also include the firm's acquisition of assets already existing and previously subject to use and occupancy in the enterprise zone.

Subject: Proposed changes to division 690 (Long-term Rural Enterprise Zone Facility Incentives) reflect thorough reworking of language to better address a number of different but intertwined and sometimes inherently complicated issues, given limited statutory guidance in some cases, such as:

Employment requirements for investments involving existing facilities, including cases of successive use by the same company,

Potential transfer of jobs within this state to an applicable facility,

Delineation of what constitutes facility investments by physical location,

Relationship of minimum investment criteria to the property that is or is not subject to exemption from taxes,

Updates description of annual determination of where these incentives may be offered based on county economic eligibility,

Clarity about the order of local certification procedures, respective to such

Purpose and Scope

This division of administrative rules specifies the effect of provisions under ORS 285C.400 to 285C.420, 317.124 and 317.131. As such, these administrative rules:

(1) Address determinations, procedures and requirements of the up to 15 years of exemption from property taxes and of corporate excise tax credits for a facility inside a rural enterprise zone in a county experiencing particular economic hardship.

(2) Do not control or bind the county assessor or Department of Revenue, and they do not supersede OAR chapter 150, in matters related to tax administration.

Terminology

OAR 123-001 (Procedural Rules) contains definitions that are used in this division of administrative rules, unless the context dictates otherwise. In addition:

(1) "Facility Site" means a location consisting of one or more parcels of land and buildings that:

(a) Contain the 'facility,' as used in ORS 285C.400(4), and all (but not only) property of a certified business firm subject to an exemption under ORS 285C.409; and

(b) Are contiguous or have comparable proximity to each other, inside the boundary of a single rural enterprise zone, although it may also include one or more ancillary locations of interrelated investment and operations inside the same zone that are specifically identified as such in the agreement under ORS 285C.403(3)(c) between the business firm and the zone sponsor.

(2) "In service" has the meaning described in OAR 150-285C.409, or the one used in ORS 285C.050 in the absence of an applicable permit requirement.

(3) "Sponsor" or "zone sponsor" has the same meaning as described in OAR 123-668, including but not limited to all of the zone's cosponsors' needing to jointly approve or exercise any and all actions under ORS 285C.400 to 285C.420.

Eligible Rural Enterprise Zones

In determining annually if a county meets the definition under ORS 285C.400(3) of a 'county with chronically low income or chronic unemployment':

(1) With on-line availability of revised/benchmarked annual unemployment rates for the previous year and other relevant data described in this rule, the Department shall analyze the data for all relevant prior years, ascertain which counties in the state satisfy the definition, identify existing rural enterprise zones in those counties, prepare information as appropriate, and post it on the Department web site for use by the public and business firms, as well as local zone managers and county assessors.

(2) The determination described in section (1) of this rule shall first take effect on July 1 next following on-line availability of the latest relevant annual data and shall apply until and including June 30 of the next calendar year. A correct, prior determination in accordance with this rule is not subject to retroactive change due to revisions in future years, but if during an annual data cycle, the Department learns of a significant revision or correction to relevant data, the Department will review the data to determine whether they alter the status of any county, and for any consequent change to the currently identified counties:

(a) The effective date of the change is the first day of the second month following the month in which the revised or corrected data were formally released; and

(b) The Department will notify affected county assessors and local zone managers and revise information materials, accordingly.

(3) A county is a 'county with chronically low income or chronic unemployment' if subsection (a), (b) or (c) of this section is true:

ADMINISTRATIVE RULES

(a) The median derived per subsection (4)(c) of this rule for the most recent 10 or 20 consecutive years is at least 1.3 rounded to the nearest tenth, based on unemployment rates as described in subsection (4)(a) of this rule.

(b) The median derived per subsection (4)(c) of this rule for the most recent 10 consecutive years is equal to or less than 0.75 rounded to the nearest hundredth, based on per capita income levels as described in subsection (4)(b) of this rule.

(c) The county's change in total population minus natural population change is equal to or less than negative one (-1), based on the most recent estimates available from the Portland State University Population Research Center, in comparison to the latest U.S. decennial census population count of not less than three years earlier.

(4) As used in ORS 285C.400(3):

(a) "Most recently revised annual average unemployment rate . . . available" means the estimated percent of the civilian labor force that is unemployed on average according to the Oregon Employment Department for each of the most recent calendar years available.

(b) "Most recently revised . . . annual per capita income levels available" means the average annual per capita personal income level as estimated and revised by the Bureau of Economic Analysis of the U.S. Department of Commerce for each of the most recent calendar years available.

(c) "Median ratio . . . of the county to the equivalent of the entire United States for each year" means the average for the two middlemost quotients that result from dividing the county figures described in subsection (a) or (b) of this section by each year's corresponding national figure over 10 or 20 years.

Written Agreement

For purposes of the written agreement between a business firm and the sponsor of the rural enterprise zone under ORS 285C.403(3)(c) and (d):

(1) The agreement shall consist at a minimum of the following:

(a) Acknowledgment of the planned or pending application for certification under ORS 285C.403;

(b) Concise description of the firm's proposed investments, Facility Site and workforce;

(c) Specification of the obligations that the proposed investments and workforce must satisfy under ORS 285C.412, which the agreement in no way supersedes;

(d) Identification of all the parties to the agreement and their representatives;

(e) Zone sponsor's explicit approval for the firm to receive the exemption under ORS 285C.409 on qualifying facility property;

(f) The sponsor's statement as to the number of consecutive tax years that will comprise the period of exemption beginning after facility property is placed in service, which is not less than 7 and not more than 15 years, but which is only seven years if the agreement is silent about the period of exemption. The agreement may also provide that the exemption period, at the election of the business firm or upon fulfillment of a certain local additional condition or criterion:

(A) Expires prematurely after at least seven years but before the stated number of years, such that the firm does not henceforth need to comply further with any statutory or local additional requirement; or

(B) Extends a certain number of years beyond the stated number of years, but not more than 15 years in total; and

(g) With respect to additional conditions or requirements by the zone sponsor under ORS 285C.403(2)(e) and (3)(c), either:

(A) Indication that the sponsor is not imposing or requesting any such condition or requirement; or

(B) Specification of any such condition or requirement, in accordance with OAR 123-668, including but not limited to standards and methods for demonstrating satisfaction of the condition or requirement, as well as consequences of noncompliance, such that the business firm expressly acknowledges when noncompliance shall result in retroactive disqualification of the exemption, termination of the remaining exemption period or an alternative consequence.

(2) The agreement may be:

(a) Part of a broader accord involving parties other than the business firm and the sponsor, insofar as the accord still conforms to section (1) of this rule.

(b) Preapproved or subsequently authorized by resolution or by other means of the zone sponsor, or of each cosponsor, consistent with OAR 123-668-2400.

(3) An authorized representative or representatives of the business firm and of the zone sponsor must execute the agreement:

(a) On or after the effective date on which:

(A) The zone is designated or some or all of the Facility Site is amended into the zone through a change in the boundary of the zone; and

(B) The county containing the Facility Site is determined to meet the definition under ORS 285C.400(3) consistent with OAR 123-690-0500; and

(b) Effectively before:

(A) The zone has terminated; or

(B) The county is not subject to a positive determination as described in paragraph (a)(B) of this section.

(4) The sponsor shall provide a copy of the signed and dated written agreement to the Department, which shall review the agreement, and if the following are accurate, the Department shall issue a letter for attachment to the written agreement confirming that:

(a) On the date of its execution it effectively satisfied section (3) of this rule, and one party to the agreement is the sponsor of the rural enterprise zone; and

(b) The agreement appears to satisfy section (1) of this rule.

(5) Following the effective date of the enterprise zone's termination, the agreement may not be substantially modified, replaced, amended, supplemented or terminated.

Requisite County/City Resolutions

For purposes of resolutions adopted under ORS 285C.403(3)(a):

(1) A requirement for certification is the adoption of a resolution expressly approving the exemption of facility property by the county and by any city in which the Facility Site is located, as follows:

(a) Both the county and the city must adopt such a resolution if any part of the Facility Site is located in incorporated territory, but only the county must adopt such a resolution if the Facility Site is located entirely in unincorporated territory.

(b) Authorization or approval of a written agreement described in OAR 123-690-2000 by formal resolution of the governing body of a city or county sponsor of the zone automatically fulfills this requirement for that city or county, as the case may be.

(c) If the county or city does not sponsor the zone, it may nevertheless be a party to the written agreement in accordance with OAR 123-690-2000(2), but the necessity of a formal resolution remains.

(2) Adoption may occur at any time irrespective of when the agreement is executed or of an effective date in OAR 123-690-2000(3) for the sake of then certifying the business firm. If, however, the resolution also substantially implements all or part of the agreement by the zone sponsor, as opposed to merely authorizing or endorsing execution of an otherwise operable agreement, its adoption must occur after the agreement's execution and before the zone terminates.

Applying for Certification

For purposes of the application for certification under ORS 285C.403(1) and (2):

(1) In order for a business firm to receive the exemption on facility property under ORS 285C.409:

(a) The firm must do the following before hiring new employees at the Facility Site and before commencing any physical work, as described in OAR 123-690-4000(1)(a), on property that would be subject to the exemption:

(A) Fill out the latest revision of the Department of Revenue form 150-310-073, **Certification Application: Long-Term Rural Oregon Tax Incentive**, as completely as the firm is capable of doing;

(B) Have the form signed and dated by the owner or authorized representative of the firm; and

(C) Submit a signed original of the form to either the local zone manager representing the sponsor of the enterprise zone or the county assessor of the county in which the Facility Site is located, and an executed copy to the other.

ADMINISTRATIVE RULES

(b) Submission of the application form as described in subsection (a) of this section must occur before the effective date of the rural enterprise zone's termination.

(2) Submission of the application form may occur before or after any relevant resolution, commitment, written agreement or effective date of determination that the county meets the definition under ORS 285C.400(3).

(3) Estimated numbers, anticipated dates or other expectations as indicated in the application form are not binding. The business firm shall base them on the best and most current information available to it at the time and shall inform the local zone manager and county assessor in writing of any significant changes to such expectations.

(4) The commitments made by the business firm (as required in the application form or otherwise during the certification process) shall be accepted at face value for purposes of certifying the firm, but such a commitment shall not relieve the firm of actually needing to meet any applicable requirement under ORS 285C.400 to 285C.420 and 307.124.

(a) After any facility property subject to the exemption under ORS 285C.409(1) has been placed in service;

(b) After the operational sunset date prescribed under ORS 285C.406(2)(a); or

(b) Commencement of applicable hiring or physical work on exempt facility property.

(3) Except as qualified in this rule and OAR 123-690-5200(2)(a), the local zone manager and the county assessor shall approve the certification application upon satisfaction of the criteria under ORS 285C.403(3), at which point:

(a) The business firm is "certified," such that it is eligible for any of the exemptions under ORS 285C.409(1); and

(b) The zone manager and assessor shall send copies of the signed original certification application form with all relevant attachments to the firm, the Department and the Department of Revenue.

Minimum Investment and Exempt Property

For purposes of the required minimum investment under ORS 285C.412(1)(a), (2)(a), (3)(a), (4)(b) or (5)(a) in property that is owned or leased by a certified business firm and located at the Facility Site:

(1) Subject to section (2) of this rule, the following costs count toward the minimum investment:

(a) Construction, reconstruction, modification, refurbishing, reconditioning, retrofitting, upgrading and installations that commence after the application for certification, including but not limited to the costs of materials, supplies, labor, building contractors, engineering, physical connections to utilities, on-site development or site preparation; or

(b) Property acquired or moved to the Facility Site after the application for certification. (Current fair market value substitutes for price if the property is not subject to a recent transaction, such as leased or newly transferred property in certain cases)

(2) Costs due to activities or actions described in section (1) of this rule count toward the minimum investment only if incurred for:

(a) The following types of property or change in property value, which would be subject to exemption under ORS 285C.409:

(A) One or more newly constructed buildings or structures;

(B) Additions or modifications to any previously constructed or occupied building or structure; and

(C) Newly installed or newly upgraded, reconditioned, refurbished or retrofitted real property machinery & equipment or personal property, whether or not it is inside or on a building or structure described in this subsection, including non-inventory supplies, spare parts or otherwise taxable vehicles operated within the confines of the Facility Site.

(b) Land, improvements to the land, or the existing value of any property already at the Facility Site, notwithstanding that under ORS 285C.409(5) it is not subject to exemption.

(c) Property leased by the firm and described in subsection (a) or (b) of this section, which in the case of subsection-(a) property or property value may be exempt only if the firm is fully responsible for any ad valorem tax through explicit provisions of a lease agreement.

(d) Any whole category of property as otherwise described in subsection (a) or (c) of this section, even though the certified business firm, in first claiming an exemption under ORS 285C.409(1)(a) or (c), formally and irreversibly elects to exclude it from any further exemption, including but not limited to an exclusion made pursuant to the agreement under ORS 285C.403(3)(c) with the zone sponsor.

(3) Regardless of their association with the Facility Site or exemption under ORS 285C.409, the following do not count toward the minimum investment:

(a) Cost of financing (including but not limited to debt service), legal fees (except as necessary in obtaining government permission for facility development), ongoing management and maintenance, and similar expenses;

(b) Cost or value of property that at the time of the application for certification is already owned or leased by the firm and located at the Facility Site;

(c) Cost or value of inventory, including but not limited to raw materials or work in progress; or

(d) Any vehicle or device pulled, pushed or carried by a vehicle that is designed to hold and transport people, goods or property beyond the Facility Site, including but not limited to aircraft, barges, carriages, railcars, trailers, trucks or ships (which are also not exemptible in any case); or

(e) Expenses associated with activities or actions described in section (1) of this rule that are incurred only after the calendar year in which exempt facility property is first placed in service, although the property associated with those activities or actions may be exempt for the remainder of the period under ORS 285C.409(1)(c).

(4) The firm shall provide notice to the assessor in writing as soon as possible after satisfaction of this requirement is verifiable, to be documented through existing project expense records or retrospective compilation of evidence as necessary or appropriate.

(5) In determining 'real market value of all nonexempt taxable property in the county,' as used in ORS 285C.412, the most recently available fiscal year of "Oregon Property Tax Statistics" (150-303-405) from the Department of Revenue at the time of certification shall be used.

Minimum Hiring

For purposes of the minimum hiring and employment requirements to be met and maintained under ORS 285C.412(1)(b), (2)(c), (3)(d), (4)(d) or (5)(c) by a certified business firm:

(1) Employees are persons:

(a) Working for the firm at the Facility Site more than 32 hours per week in an established, year-round position (as opposed to any form of averaging hours worked, such as full-time equivalency); and

(b) Whom the business firm, an affiliated company, or a third party fully charged with general facility operations:

(A) Employs under ORS chapter 316 respective to Oregon personal income tax withholding, contracts with or leases; or

(B) Directs on a daily basis and has significant control over personnel decisions, although an independent contractor employs the person to deliver or perform specific services at the Facility Site (as opposed, for example, to workers who are assigned at the discretion of a vendor or contractor).

(2) The number of employees located and performing their jobs at the Facility Site, less the base number of employees as calculated in sections

ADMINISTRATIVE RULES

(4) to (7) of this rule, must equal or exceed the applicable minimum under ORS 285C.412.

(3) The firm shall provide notice to the assessor in writing, with payroll records or other evidence as necessary or appropriate, as soon as possible after satisfaction of section (2) of this rule is achieved. This must occur in a calendar year that is not more than the applicable number of years set forth below after the calendar year in which exempt facility property is first placed in service:

- (a) Five years for ORS 285C.412(1) or (4); or
- (b) Three years for ORS 285C.412(2), (3) or (5).

(4) The base number of employees is one of the following figures, adjusted in accordance with sections (5) and (6) of this rule:

(a) The total number of employees working at the Facility Site on the date 12 months before the date that property subject to exemption under ORS 285C.409(1)(c) is first placed in service, if the agreement under ORS 285C.403(3)(c) with the zone sponsor does not otherwise stipulate; or

(b) As stipulated in the agreement, the total or annual average number of employees working at the Facility Site as of the date:

(A) The firm submitted its application for certification pursuant to OAR 123-690-2300;

(B) The application was fully approved and the firm certified pursuant to OAR 123-690-2400; or

(C) Specified in the agreement, which may be after the date of application but not less than 12 months before the date property is first placed in service.

(5) The base number includes employees engaged in equivalent occupations/operations of the certified business firm or any other firm under common ownership or control that are transferred to the Facility Site from another location within this state that undergoes corresponding job losses, at any time after the application is made but before the end of the applicable calendar year in section (3) of this rule.

(6) The base number excludes current or former employees of the certified business firm who are transferred or rehired, and whose employment at the Facility Site is unrelated to the transfer of existing operations or occupations from elsewhere in this state.

(7) If so specified in the agreement under ORS 285C.403(3)(c) with the zone sponsor, the base number also excludes:

(a) Employment in excess of what is required on previously exempt investment(s) as described in OAR 123-690-6200(4).

(b) Employment located within the Facility Site but engaged in distinct operations and working in separate areas that are not involved with any property subject to the exemption under ORS 285C.409.

(c) Employment to be transferred to the Facility Site as described in section (5) of this rule, if the zone sponsor formally accepts the firm's public assertion that the operations and jobs would be otherwise transferred somewhere outside this state but for the exemption, and:

(A) The existing location is within a governmental jurisdiction of the zone sponsor; or

(B) The Department concurs with the sponsor in the letter described in OAR 123-690-2000(4) for elsewhere in Oregon.

(1) Measure the distance as:

(a) A straight line; and

(b) The shortest possible gap between any part of the Facility Site and a point along the median of the highway, regardless if that point is in this state or offers access on/off the highway.

(2) Exclude any spur or bypass such as I-105 or I-205.

(3) Round distances to the nearest whole number, such that an applicable location must be effectively farther than 10.4 miles from I-5.

(1) Compensation includes total calendar-year remuneration that is:

(B) Payroll-based tax or cost mandated by federal, state or local law, such as worker's compensation or unemployment insurance or the employer's share under FICA; and

(C) Gratuities or tips.

(b) Paid to any employee located and performing work for the certified business firm at the Facility Site, consistent with OAR 123-690-4200(1), regardless of hours worked per week or the permanence or newness of the employee's position, except if excluded by OAR 123-690-4200(7)(b).

(2) Actual compensation described in section (1) of this rule shall be annualized in the case of jobs at the Facility Site, in which the employee works less than 40 hours per week or for less than the entire calendar year, by dividing 1,820 by the hours of actual time worked on the job for the calendar year and multiplying that quotient by the employee's actual compensation.

(3) The firm shall add all employees' total annual compensation under section (1) or (2) of this rule, as applicable, and divide that sum by the number of applicable (annualized) employees or positions to derive average annual compensation.

(4) In a calendar year after the calendar year in which exempt facility property is first placed in service — but in or before the fifth such year — this computed average annual compensation must equal or exceed 1.5 times the most recently finalized average annual wage by the Oregon Employment Department for all industries or ownerships in the county containing the Facility Site.

(5) The firm shall provide notice to the assessor in writing as soon as possible after satisfaction of section (4) of this rule is achieved, with payroll records or other evidence as necessary or appropriate.

Maintaining Employment and Compensation

(1) After initial satisfaction of the minimum requirement for total employment or average annual compensation, until after the final calendar year of the exemption period, the applicable employment or average annual compensation of employees of the certified business firm at the Facility Site may not be less than the mandatory minimum level. Otherwise, the exemption is disqualified consistent with OAR 150-285C.420, including but not limited to the imposition of property taxes that would have been assessed against facility property for a year in which such property was not yet in service but was exempt under ORS 285C.409(1)(a) and (b).

(2) The mandatory minimum level for average annual compensation of employees at the Facility Site remains fixed, regardless of how much:

(a) Such compensation initially exceeded the county's applicable average annual wage level; or

(b) The county's average annual wage subsequently changes during the exemption period.

(3) Notwithstanding section (1) of this rule, the applicable employment or average annual compensation of employees at the Facility Site may fall below the mandatory minimum level under certain extenuating circumstances, including but not limited to the following:

(a) A natural disaster, conflagration or the like substantially disrupting the relevant operations of the certified business firm;

(b) Six or more months of severe economic troubles or military conflict significantly affecting the United States and other major foreign economies or the certified business firm's industry;

(c) Unforeseen coincidence of vacant positions at the Facility Site, such as the case in which employees die, quit or have been fired for cause; or

(d) Temporary curtailment in operations at the Facility Site lasting no longer than twelve months to undertake major repairs in response to mechanical breakdowns that are unusual and unexpected within normal engineering parameters and maintenance program for exempt facility property.

(4) For separate exemptions at two or more separate Facility Sites of the same certified business firm in the same enterprise zone, the zone sponsor may allow that employees, who work at and regularly move between sites, to be counted proportionally among the sites according to an expli-

cated method for purposes of satisfying the respective requirements of each exemption.

Post-Certification Verification

Pursuant to certification as described in OAR 123-690-2400 for purposes of qualifying for and continuing to receive exemption under ORS 285C.409(1)(c):

(1) The firm shall submit in writing to the county assessor (and to the zone sponsor, Department or Department of Revenue) as requested, relevant, understandable documentation on the following:

(a) Property at the Facility Site as described in OAR 123-690-4000(2), including but not limited to the particulars of any leased property;

(b) The date on which facility property subject to exemption under ORS 285C.409(1) is fully permitted for occupancy/operations or is otherwise first placed in service; and

(c) The date on which and the method by which each applicable requirement under ORS 285C.412 is initially satisfied, including but not limited to the notice required to be sent to the county assessor under ORS 285C.415.

(2) For purposes of section (1) of this rule and ongoing compliance with applicable requirements under ORS 285C.412:

(a) The county assessor may agree with the business firm in writing regarding certain methods and mechanisms to be implemented by the firm, as a condition of the county assessor's approval of the certification application.

(b) The written agreement under ORS 285C.403(3)(c) with the zone sponsor may (also) contain such provisions.

(3) Any lack of the arrangements described in section (2) of this rule does not relieve the business firm of its obligation to demonstrate compliance with and satisfaction of any applicable requirement, as the assessor or Department of Revenue may demand.

(4) The Department shall prepare a worksheet, which is:

(a) Available at the Department web site; and

(b) Hereby incorporated and made part of these administrative rules by reference, in order for business firms to readily report recent employment and compensation for purposes of ongoing compliance under ORS 285C.412.

(5) The zone sponsor may annually give notice to all certified business firms in its enterprise zone that they must fill out and return the worksheet (whether in the absence of, in addition to or as part of arrangements in section (2) of this rule), whereby:

(a) The sponsor shall specify a due date for its receipt of the worksheet, which shall be between April 1 and June 1 of each year but never less than 60 days after sending notice;

(b) If the sponsor's notice also asks for additional information to corroborate the worksheet that a certified business provides with a good faith request that the information not be publicly released because of its sensitive, proprietary or similar nature, the sponsor may honor the request as otherwise allowed under ORS 192.502(4) or other applicable laws;

(c) The sponsor shall share copies of returned worksheets and corroborating information with the Department, the county assessor or other relevant officials, as appropriate and in accordance with subsection (b) of this section; and

(d) The sponsor shall report the failure by any business firm to fulfill this requirement to the Department and the county assessor.

(6) If a certified business firm fails to return a worksheet pursuant to section (5) of this rule, or if the zone sponsor strongly doubts the information reported in the worksheet and suspects noncompliance, the sponsor and county assessor may jointly demand by registered/certified mail that the firm substantiate its employment, compensation or other compliance issue under ORS 285C.412. If the firm does not respond within 60 days of such mailing, then the zone sponsor shall assume noncompliance under ORS 285C.412, and the assessor may retroactively disqualify the exemption under ORS 285C.420.

(7) This rule does not pertain to any additional local condition or requirement, for which verification of compliance is solely the responsibility of the zone sponsor pursuant to arrangements in the agreement between the zone sponsor and the certified business firm under ORS 285C.403(3)(c), consistent with OAR 123-690-2000(1)(g).

Other Enterprise Zone or Construction Exemptions

For purposes of the exemption under ORS 285C.409:

(1) An eligible business firm may seek and receive approval for authorization under ORS 285C.140 according to OAR 123-674, while applying for and being certified under ORS 285C.403, although the zone sponsor and business firm shall clarify and resolve the situation as soon as possible.

(2) However, any property exempted under ORS 285C.170 or 285C.175, whether in the same or another enterprise zone, may not concurrently or subsequently be exempt under any paragraph of ORS 285C.409(1), and exemption under ORS 285C.409(1)(a) or (b) could complicate the use of ORS 285C.175. Therefore, a certified business firm still contemplating either the exemption under ORS 285C.409(1)(c) or the one under ORS 285C.175 might best avail itself of the exemption under ORS 307.330 as applicable during construction at the Facility Site.

(3) This rule does not relieve a taxpayer of any requirement to timely file forms, evidence or notice with the county assessor for purposes of (or to reserve the taxpayer's right to) an exemption on property under ORS 285C.170 or 307.330, as well as 285C.409.

Subsequent Facility Site Investments

For property newly placed in service at the same Facility Site on or after the 'assessment date' of an ongoing exemption under ORS 285C.409(1)(c):

(1) Any such property may also receive the exemption but only for the remainder of the 7 to 15 tax years available, and neither additional operations nor the introduction of such property at the Facility Site shall lengthen or add to the ongoing period of exemption on that or any property at the Facility Site, except as addressed in OAR 123-690-6400.

(2) A certified business firm may receive another (potentially overlapping) period of exemption under ORS 285C.409(1) on such additional property constituting another facility under ORS 285C.400(4) at the same Facility Site, but only if independent of the respective actions and investments pertaining to the firm's certification or qualification for any previously granted exemption, the firm again:

(a) Applies and receives approval for certification;

(b) Respectively undertakes additional operations at the Facility Site; and

(c) Satisfies the applicable requirements to qualify for the exemption, including but not limited to the firm's having submitted the final notice under ORS 285C.415 to the county assessor of having timely met all applicable requirements under ORS 285C.412.

(3)(a) A business firm certified for another exemption on additional property, as described in subsections (2)(a) and (b) of this rule, may formally submit a formal request to the county assessor that the property revert to a preexisting exemption, and the assessor may treat the additional property as a part of that remaining period of exemption, as described in section (1) of this rule, but only if the request is made before:

(A) The end of that ongoing exemption's final tax year; and

(B) Submission of the final notice described in subsection (2)(c) of this rule.

(b) Upon fulfillment of either paragraph (a)(A) or (B) of this section, without a preceding request to the county assessor, the additional property stays exempt until the end of its own period of exemption, subject to the operation of ORS 285C.420 (retroactive disqualification for failure to meet or maintain an applicable requirement).

(4) In the case of any subsequent exemption according to section (2) of this rule that begins within seven years after the first year of the most recent ongoing exemption under ORS 285C.409(1)(c), the agreement with the zone sponsor under ORS 285C.403(3)(c) may give the certified business firm credit for some or all of its existing employees at the Facility Site, who were hired in excess of minimum requirements for a previous, ongoing exemption, in meeting the newer exemption's required hiring.

Multiple, Joint Facilities

For purposes of two or more exemptions under ORS 285C.409(1)(c) as provided under ORS 285C.412(4), for which exempt facility property in

each case is first placed in service over not more than four consecutive calendar years:

(1) Not only may the exemption periods start in different years, but their lengths may also vary respective to each agreement between the zone sponsor and certified business firm under ORS 285C.403(3)(c).

(2) If involving different Facility Sites, including but not limited to inside the same enterprise zone, the number of employees shall be determined separately subject to any base number at each Facility Site, consistent with OAR 123-690-4200, before being combined for purposes of ORS 295C.412(4)(d).

(3) If at the same Facility Site, each exemption must pertain to distinct investments or operations, but a common base number of employees shall be used.

Request for State Tax Credit

For purposes of approval for a business firm to receive the credit under ORS 317.124(3), to offset state corporate excise tax liabilities, unless otherwise directed by the Governor or by the Director:

(1) A request for the credit shall be formally submitted to the Director from an authorized executive of the corporation, preferably pursuant to relevant local approval and certification under ORS 285C.403.

(2) Official consideration of the request shall happen only after certification.

(3) The request must explicitly indicate:

- (a) That the corporation is seeking gubernatorial approval;
- (b) When it would expect to begin claiming such credits; and
- (c) Any preferred length of time during for which credits may be claimable.

(4) The request shall contain the best possible information about the corporation's future income and plans to use the credit, as necessary and appropriate to evaluate the impact and applicability of the tax credit, which may be in response to follow-up inquiry by the Department.

(5) The Director will forward the request to the Governor and may include a recommendation, and as warranted, the following:

(a) Background information and analysis about the corporation, the proposed facility, tax impacts, the local community and other relevant information; and

(b) Summary of consultations with other state agencies including but not limited to the Department of Revenue.

(6) Approval of the request may be conditioned on additional commitments by the corporation as contained in a formal agreement between the State and the business firm.

(7) Information received from the corporation as described in section (4) of this rule may be exempt from public release if otherwise allowed under ORS 192.502(17)(a) or other applicable laws.

Excise/income Tax Credit

(1) To be effective, the Governor's approval of a corporate excise or income tax credit under ORS 317.124 may take the form of a letter, memo or similarly official document that:

(a) Names the corporation and refers to its facility that is subject to certification and exemption under ORS 285C.400 to 285C.420;

(b) Simply grants the tax credit, approves the corporation's request or directs necessary action by State officials;

(c) Defines the number of years during which the tax credit may be claimed; and

(d) Is done and effective by the ultimate due date (including normal extensions) to file a tax return for the corporation's fourth income/excise tax year, in which exempt facility property is in service.

(2) To claim the tax credit, certification must occur on or before the operational sunset date prescribed under ORS 285C.406(2)(b), and the certified business firm must:

(a) Own facility property exempt under ORS 285C.409 and not lease it from other than a commonly owned company; and

(b) Fill out the latest revision of the Department of Revenue form 150-102-043, Long-Term Enterprise Zone Facilities Credit, and submit it with the tax return for each applicable income/excise tax year of the corporation, starting no later than the final year prescribed under ORS 317.124(3)(a).

(3) For a certified business firm with two or more exemptions under ORS 285C.412(4), the Governor may approve the tax credit jointly for all such facilities and provide that the apportionment factor and tax credit threshold under ORS 317.124(6) and (7) apply collectively to those facilities.

Revenue Distribution to Local Zone Sponsor

(1) As indicated in OAR 123-668-1600, the sponsor of an enterprise zone containing exempt facility property owned by a corporation that claims the tax credit under ORS 317.124 might receive funds through the Department of Revenue from the Long Term Enterprise Zone Fund established under ORS 317.127.

(2) The sponsor's receipt of such funds depends on:

- (a) The qualifying taxpayer's having claimed the credit;
- (b) The taxpayer's making applicable tax payments; and
- (c) The deposit of such payments for distribution under ORS 317.129 and 317.131.

(3) As to amounts for distribution and the current state fiscal year:

(a) If they exceed the property taxes that relevant taxing districts would otherwise have received in the corresponding property tax year, but for exemption under ORS 285C.409, then that excess goes to the zone sponsor.

(b) If there is no relevant exemption under ORS 285C.409 in the corresponding property tax year, then the entire amount goes to the zone sponsor.

(4) For purposes of section (3) of this rule, the zone sponsor is responsible for making timely arrangements, so that it:

(a) Can receive distributed funds in a way that effectively ensures the Department of Revenue of having made payment to the zone sponsor (including but not limited to a joint mechanism among all cosponsors, or a deposit account administered by a single cosponsor on behalf of the entire zone sponsorship); and

(b) Satisfies applicable provisions of ORS Chapter 294 and other state or local laws with regard to collecting, holding and using such funds.

Purpose and Scope

This division of administrative rules specifies matters related to the creation and operation of an **RREDZ**, which as used in these administrative rules, means a rural renewable energy development zone under ORS 285C.350 to 285C.370:

(1) For an eligible business firm in an RREDZ, the standard (3-5-year) enterprise zone exemption and associated provisions under ORS 285C.050 to 285C.250 apply as they would inside an enterprise zone, as addressed in OAR 123-674, for which:

(a) The firm and the firm's property qualify, however, only insofar as they relate to "renewable energy" facilities and activities under ORS 285C.350, such that for purposes of the first clause under ORS 285C.350(2), in order to be exempt, qualified property must generate electricity to a significant degree from the combustion, harnessing or utilization of the renewable energy resource, but it may also produce (even for the

ADMINISTRATIVE RULES

most part) other energy forms, including but not limited to steam, heat or mechanical power; and

(b) The sponsor of the RREDZ is equivalently responsible for the same applicable duties as a local enterprise zone sponsor, including but not limited to those covered in OAR 123-668.

(2) The primary purpose of RREDZs is the extension of this enterprise zone incentive to renewable energy projects, especially those that are far-flung or widely dispersed, in lieu of potentially infeasible or physically complex amendment to the boundary of an existing enterprise zone.

(3) These administrative rules:

(a) Have no bearing on true enterprise zones, including but not limited to an enterprise zone, or to an eligible business firm or qualified property in an enterprise zone, encompassed by an RREDZ;

(b) Do not control or bind the county assessor or Department of Revenue, and they do not supersede OAR chapter 150, in matters related to tax administration; and

(c) Utilize definitions found in OAR 123-001 (Procedural Rules) and 123-674, except where the context dictates otherwise.

123-680-1000

Basic Points about RREDZs

(1) Like an enterprise zone, an RREDZ terminates by operation of law as otherwise provided under ORS 285C.245(1) and (2), with equivalent protection and allowances for relevant business firms in the RREDZ, but it does not terminate by programmatic sunset under ORS 285C.255.

(2) An RREDZ (irrespective of OAR 123-650-1000) covers the entire territory of the designated:

(a) City including subsequent annexations; or

(b) County or counties whether outside corporate limits or not, but excluding any area inside an urban growth boundary (UGB) described in section (3) of this rule.

(3) An RREDZ is permitted anywhere in this state, except within the UGB of a city with a population of 30,000 or more, including but not limited to the entire (Portland-area) Metro UGB.

(4) RREDZs come in one of only the following three types:

(a) City RREDZ, in that the governing body of a single city applies to the Department for designation, and the city is the sponsor of the RREDZ;

(b) County RREDZ, in that the governing body of a single county applies to the Department for designation, and the county is the sponsor of the RREDZ; or

(c) Multi-county RREDZ, in that each governing body of two or more counties jointly apply to the Department for designation, for which:

(A) The counties are contiguous one to another, but do not necessarily all share a single common border in the case of three or more counties; and

(B) Only one of the counties serves as the zone sponsor.

(5) In appointing the local RREDZ manager, the sponsor is encouraged to select someone, who also serves as the local zone manager for an enterprise zone whenever possible.

(6) There is no particular limit on the number of RREDZs statewide, although a city or county may not have two or more concurrent designations, with the following distinctions:

(a) A city may have a designation, even if inside a county designated as an RREDZ; or

(b) A county may itself be designated an RREDZ and be part of an RREDZ with one or more other counties, but it may not concurrently belong to two or more different, multi-county RREDZs.

(7) The RREDZ exemption under ORS 285C.362 on the qualified property of a qualified business firm may not be derived from more than one overlapping RREDZ designation, except if there are two or more authorizations covering property in different tax lots.

123-680-1200

Designation of a RRED Zone

(1) To apply for designation of an RREDZ under ORS 285C.353, the city, county or multiple counties shall furnish the Department with:

(a) A copy of the resolution(s) requesting designation duly adopted by each jurisdiction within the past six months, which among other things, would specify the designation's exemption limitation amount under ORS 285C.353(4) as described OAR 123-680-1400;

(b) Evidence of timely notice and communication with local taxing districts consistent with OAR 123-650-5500; and

(c) A formal statement that specifies the following:

(A) The county that will serve as the sponsor in the case of a multi-county RREDZ; and

(B) The status of any previous or otherwise ongoing RREDZ designation in the jurisdiction(s), including but not limited to the unused portion of an exemption limitation for purposes of section (4) of this rule.

(2) Subject to the accuracy and completeness of the furnished materials and any other information as the Department may request, as well as applicable laws and these administrative rules:

(a) The Director will approve designation of the requested RREDZ; and

(b) The Department shall issue documentation of the designation, including but not limited to establishing its:

(A) Effective date, which may be as early as when the zone sponsor adopted its resolution in the case of a new RREDZ if so requested by the applicant; and

(B) Exemption limitation amount.

(3) Premature termination of the RREDZ under ORS 285C.245(3) to (5) shall occur only if the Director issues an order to that effect, such that with a multi-county RREDZ, all of the counties must adopt a resolution requesting termination under ORS 285C.245(4) not only the sponsor. The Director shall not approve any RREDZ that corresponds to one so terminated for the next 10 years.

(4) If the application is for a subsequent additional designation corresponding to an existing RREDZ under ORS 285C.353(4)(b) and (c), then the existing RREDZ ceases, and the new designation replaces it, effective on January 1 directly following the last date on which a resolution of application was adopted, so that:

(a) Any authorized business firm in the previously existing RREDZ belongs to the newly designated RREDZ for the initial qualification of any property first placed in service in an assessment year immediately preceding that January-1 date (regardless of the application of authorization's date of submission or approval); and

(b) Any unused portion of the previous RREDZ's exemption limitation under ORS 285C.353(4) ceases to exist, and only the new RREDZ's exemption limitation, consistent with OAR 123-680-1400(3)(c), is available for future exemptions.

123-680-1400

Limitation of Exempt Real Market Value

Under ORS 285C.353(4), each RREDZ designation has a cap on the total value in qualified property allowed, which is cumulatively exhausted with each exempt project over the life of the designation:

(1) Such value is the property's real market value (RMV) on the assessment date of the first year that the authorized business firm may claim the exemption, not the amount exempted each year.

(2) The zone sponsor shall coordinate with the county assessor to track the amount of this limitation that former/ongoing exemptions have used and the remaining, unused portion. (If the assessor later disqualifies affected property and collects the property taxes back, then the initial RMV of the disqualified property increases the unused portion for future use in the same RREDZ)

(3) The exemption limitation described in this rule equals the amount specified in the resolution(s) adopted by the city, county or counties in applying for the RREDZ, and any such specified amount must be:

(a) Less than or equal to the maximum permitted under ORS 285C.353(4)(d);

(b) Evenly divisible by \$5 million; and

(c) Greater than the unused portion of the previous RREDZ's exemption limitation with a subsequent additional RREDZ as described in OAR 123-680-1200(4).

(5)(a) If new qualified property of an authorized business firm first subject to exemption in a single year will exhaust the exemption limitation, then the exemption or exemptions are allowed only up to the point at which the property's RMV equals the unused portion; and

Further Distinctions from an Enterprise Zone Exemption

For an RREDZ exemption, in contrast to a business firms' using an enterprise zone:

(1) The application for authorization shall give special attention to characterizing the proposed investment in qualified property, clarifying how it relates to renewable energy, and estimating its real market value by January 1 of the first full calendar year of operations.

(2) To be exempt, the qualified property must effectively and substantively correspond to the description in the application.

(3) For purposes of a business firm's receiving authorization and then qualifying:

(a) An "eligible business firm" under ORS 285C.135 relates only to such operations or business activities that are engaged in renewable energy.

(b) The "employment of the firm" under ORS 285C.200 and 285C.210:

(A) Relates only to employees engaged a majority of their time in eligible renewable energy operations within the RREDZ.

(B) Satisfies requirements for the addition of one or more employees respective to the existing number of employees, who work throughout the entire city, county or counties, as applicable.

(4) The exemption is essentially the same as that under ORS 285C.175, once property has been placed in service. There is, however, no special exemption during construction like under ORS 285C.170, although the exemption under ORS 307.330 may be used as otherwise permissible.

(5) For purposes of an additional one or two years of exemption (following the basic three-year period) on qualified property to be located inside a county that is part of a multi-county RREDZ but not its sponsor:

(a) At least 21 calendar days before execution of the requisite written agreement between the sponsor and the eligible business firm, which may contain additional local requirements that the business firm would need to satisfy, the sponsor shall give the county's governing body formal notice of the potential extension to the tax abatement period; and

(b) If before the date, on which the firm and sponsor would execute the written agreement, the county's governing body adopts a resolution electing not to participate, then there shall be no extended abatement for the proposed investment in qualified property in that county.

(6) For purposes of local waivers to statutory employment requirements:

(a) Only the sponsoring county of a multi-county RREDZ needs to adopt the requisite resolution by the time of authorization, regardless of the proposed location of qualified property;

(b) Provisions under ORS 285C.155 and 285C.200(2) otherwise pertain to RREDZs, including as described in OAR 123-674-4300; and

(c) Another type of waiver unique to RREDZs is allowed under ORS 285C.362(2), if the total investment in qualified property pursuant to the application equals or exceeds \$5 million, but in this case the sponsor resolution shall not establish:

(A) An alternative minimum employment level, but rather it simply waives the requirements; or

(B) Other conditions to be imposed on the business firm.

Rules Amended: 581-015-2572

Subject: Currently OAR 581-015-2572 identifies a funding model based upon a predetermined formula which includes student counts as the basis for the allocation of state funding. HB 5016 contained a budget note which directs the department to allocate funding based upon an MSL model. This model bases the allocation of funding on

a formula related to minimum classroom support rather than student count.

Rules Coordinator: Cindy Hunt—(503) 947-5651

Long-Term Care and Treatment (LTCT) Education Program Funding Formula

(1) The Department of Education shall provide funding to LTCT education programs based on a Minimum Staffing Level (MSL) model. The MSL model is based on standard classroom staffing that addresses the educational and safety needs of the students and educational staff in eligible LTCT day and residential treatment program classrooms.

(2) The Department shall base the MSL model on a ratio of staff to students per classroom that is based upon:

(a) One teacher and two instructional assistants for up to 15 students per classroom.

(b) One teacher and three assistants for between 15-20 students per classroom.

(c) When there are more than 20 students in a classroom, the distribution may factor in opening an additional classroom staffed with one teacher and two additional assistants to bring the student number back to 10 students per classroom.

(d) Staffing levels may vary from this guideline for safety, student characteristics, or treatment needs and still meet the MSL standard as determined by the department.

(e) At the department's discretion up to 15.0 percent may be added to LTCT contracts to cover educational overhead costs such as indirect, administrative costs and other educational service related costs.

(3) If the total state funding available for all LTCT programs is less than the total state funding needed to fully fund each LTCT contract under the MSL model, the amount of state funding in each contract determined under paragraph (2) of this subsection will be prorated.

(4) LTCT education programs shall use the funding from the department based on the MSL model to implement the MSL model as described under paragraph (2) of this rule. Any variation in staff to student classroom ratios under the MSL model must be approved by the department.

(5) A special needs fund is established at the Oregon Department of Education which will be up to five percent of the total state monies made available for the LTCT program during a biennium:

(a) Individual applications may be made to the Department for this fund to cover unexpected, emergency expenses;

(b) Funds not utilized under this paragraph for the first year of the biennium will be carried forward by the Department to the next fiscal year and the remaining balance at the end of the biennium will be carried over as reserve funds into the next biennium.

Rules Amended: 581-017-0350, 581-017-0362

Subject: The 2015 legislature adopted SB 217 which amended the former Eastern Promise Replication Grant provisions to provide more flexibility to the Department of Education for administration of the grant. The legislation and Department budget also provided that the grant was intended for Regional Promise Grants and no longer to specifically fund the Eastern Promise.

The rule amendments allow for different membership in consortia applying for a grant, specify competitive priorities for grant awards, change terminology and address prior grant recipients.

(1) The Department of Education shall determine for each fiscal year the total amount available for distribution to school districts as implementation grants.

(2) The Department of Education shall determine the grant amount to be awarded to each district that is eligible to receive a grant based on the following formula: Grant Amount = school district ADMw x (the total amount available for distribution for an implementation grant in a fiscal year through the School District Collaboration Grant Program / the total ADMw of the School Districts that receive an implementation grant for the fiscal year.

(3) Notwithstanding subsection (2) of this section, a school district may receive a grant for an amount that is 10 percent more than the amount calculated under subsection (2) of this section if the Department approves a school district's supplemental plan to design and implement new approaches to improve student achievement that are in addition to the approaches identified in OAR 581-015-0110(5) and that are research-based best practices.

(4) In addition to any amounts received under subsections (2) and (3), a school district that has an average daily membership of less than 1,500 may receive a supplemental amount of up to \$50,000 if:

(a) The supplemental amount is used for expenses incurred in relation to a grant manager who:

(A) Manages the use of a grant received under this paragraph;

Subject: Currently ICD-9 is the International Classification of Diseases that is used by providers to input diagnosis codes on claims. Effective October 1, 2015 the coding will change to ICD-10. The Authority needs to amend and update these rules to reflect the change to ICD-10. The transition to ICD-10 is required for everyone covered by the Health Insurance Portability Accountability Act (HIPAA). The change to ICD-10 does not affect CPT coding for outpatient procedures and physician services.

Billing

(1) A provider enrolled with the Authority or providing services to a client in a CCO or PHP under the Oregon Health Plan (OHP) may not seek payment, from the client for any services covered by Medicaid fee-for-service or through contracted health care plans:

(a) A client may not be billed for missed appointments. A missed appointment is not considered to be a distinct Medicaid service by the federal government and as such is not billable to the client or the Division;

(b) A client may not be billed for services or treatments that have been denied due to provider error (e.g., required documentation not submitted, prior authorization not obtained, etc.).

(2) For Medicaid covered services the provider may not bill the Division more than the provider's usual charge (see definitions) or the reimbursement specified in the applicable Division program rules.

(3) Providers shall only bill a client or a financially responsible relative or representative of that client in the following situations:

(a) For any applicable coinsurance, copayments and deductibles expressly authorized in OAR chapter 410, divisions 120 and 141, or any other Division program rules;

(b) The client did not inform the provider of their OHP coverage, enrollment in a PHP or CCO, or third party insurance coverage at the time of or after a service was provided, therefore, the provider could not bill the appropriate payer for reasons including, but not limited to, the lack of prior

authorization, or the time limit to submit the claim for payment has passed. The provider must verify eligibility, pursuant to OAR 410-120-1140, and document attempts to obtain coverage information prior to billing the client;

(c) The client became eligible for benefits retroactively but did not meet all of the other criteria required to receive the service);

(d) A third party payer made payments directly to the client for services provided;

(e) The client has the limited Citizen Alien Waived Emergency Medical benefit package. CAWEM clients have the benefit package identifier of CWM. Clients receiving CAWEM benefits may be billed for services that are not part of the CAWEM benefits. (See OAR 410-120-1210 for coverage.) The provider must document that the client was informed in advance that the service or item would not be covered by the Division. A DMAP 3165 is not required for these services;

(f) The client has requested a continuation of benefits during the contested case hearing process and the final decision was not in favor of the client. The client shall pay for any charges incurred for the denied service, on or after the effective date on the Notice of Action or Notice of Appeal Resolution. The provider must complete the DMAP 3165 pursuant to section (3)(h) of this rule before providing these services;

(g) In exceptional circumstances, a client may decide to privately pay for a covered service. In this situation, the provider may bill the client if the provider informs the client in advance of all of the following:

(A) The requested service is a covered service, and the appropriate payer (the Division, PHP, CCO or third party payer) would pay the provider in full for the covered service; and

(B) The estimated cost of the covered service, including all related charges, the amount that the appropriate payer would pay for the service, and that the provider cannot bill the client for an amount greater than the amount the appropriate payer would pay; and

(C) That the client knowingly and voluntarily agrees to pay for the covered service;

(D) The provider documents in writing, signed by the client or the client's representative, indicating that the provider gave the client the information described in section (3)(g)(A-C); and that the client had an opportunity to ask questions, obtain additional information and consult with the client's caseworker or client representative; and the client agreed to privately pay for the service by signing an agreement incorporating all of the information described above. The provider must give a copy of the signed agreement to the client. A provider may not submit a claim for payment for covered services to the Division or to the client's PHP, CCO or third party payer that is subject to the agreement.

(h) A provider may bill a client for services that are not covered by the Division, PHP, or CCO (see definition of non-covered services). Before providing the non-covered service, the client must sign the provider-completed Agreement to Pay (DMAP 3165), or a facsimile containing all of the information and elements of the DMAP 3165 as shown in Table 3165 of this rule. The completed DMAP 3165, or facsimile, is valid only if the estimated fee does not change and the service is scheduled within 30 days of the client's signature. Providers must make a copy of the completed DMAP 3165, or facsimile, available to the Division, PHP or CCO upon request.

(4) Code Set requirements:

(a) Federal Code Set requirements (45 CFR 162) apply to all Medicaid Code Set requirements, including the use of diagnostic or procedure codes for prior authorization, claims submissions and payments. Code Set has the meaning set forth in 45 CFR 162.103, and it includes the codes and the descriptors of the codes. Federal Code Set requirements are mandatory, and the Division lacks any authority to delay or alter their application or effective dates as established by the U.S. Department of Health and Human Services;

(b) The Division shall adhere to the Code Set requirements in 45 CFR 162.1000–162.1011;

(c) Periodically, the Division shall update its provider rules and tables to conform to national codes. In the event of an alleged variation between a Division-listed code and a national code, the Division shall apply the national code in effect on the date of request or date of service;

(d) Only codes with limitations or requiring prior authorization are noted in rules. National Code Set issuance alone should not be construed as coverage or a covered service by the Division;

(e) The Division adopts by reference the National Code Set revisions, deletions, and additions issued and published by the American Medical Association (Current Procedural Terminology — CPT) and on the CMS website (Healthcare Common Procedural Coding System — HCPCS). This

ADMINISTRATIVE RULES

code adoption should not be construed as coverage or as a covered service by the Division.

(5) Claims:

(a) Upon submission of a claim to the Division for payment, the provider agrees that it has complied with all Division program rules. Submission of a claim, however, does not relieve the provider from the requirement of a signed provider agreement;

(b) A provider enrolled with the Division must bill using the Authority assigned provider number, or the National Provider Identification (NPI) number if the NPI is available, pursuant to OAR 410-120-1260;

(c) The provider may not bill the Division more than the provider's usual charge (see definitions) or the reimbursement specified in the applicable Division program rules;

(d) Claims must be submitted on the appropriate form as described in the individual Division program rules or electronically in a manner authorized in OAR chapter 943, division 120;

(e) Claims must be for services provided within the provider's licensure or certification;

(f) Unless otherwise specified, claims must be submitted after:

(A) Delivery of service; or

(B) Dispensing, shipment or mailing of the item.

(g) The provider must submit true and accurate information when billing the Division. Use of a billing provider does not abrogate the performing provider's responsibility for the truth and accuracy of submitted information;

(h) A claim is considered a valid claim only if all required data is entered on or attached to the claim form. See the appropriate provider rules and supplemental information for specific instructions and requirements;

(i) A provider or its contracted agency, including billing providers, may not submit or cause to be submitted:

(A) Any false claim for payment;

(B) Any claim altered in such a way as to result in a payment for a service that has already been paid;

(C) Any claim upon which payment has been made or is expected to be made by another source unless the amount paid or to be paid by the other party is clearly entered on the claim form;

(D) Any claim for furnishing specific care, items, or services that has not been provided.

(j) The provider is required to submit an Individual Adjustment Request or to refund the amount of the overpayment on any claim where the provider identifies an overpayment made by the Division;

(k) A provider who, after having been previously warned in writing by the Division or the Department of Justice about improper billing practices, is found to have continued improper billing practices and has had an opportunity for a contested case hearing shall be liable to the Division for up to triple the amount of the Division established overpayment received as a result of the violation.

(6) Diagnosis code requirement:

(a) A primary diagnosis code is required on all claims, using the ICD-10-CM diagnosis code set, unless specifically excluded in individual Division program rules;

(b) The primary diagnosis code must be the code that most accurately describes the client's condition;

(c) All diagnosis codes are required to the highest degree of specificity;

(d) Hospitals must follow national coding guidelines and bill using the 7th digit where applicable in accordance with methodology used in the Medicare Diagnosis Related Groups.

(7) Procedure code requirement:

(a) For claims requiring a procedure code the provider must bill as instructed in the appropriate Division program rules and must use the appropriate HIPAA procedure code set such as CPT, HCPCS, ICD-10-PCS, ADA CDT, NDC, established according to 45 CFR 162.1000 to 162.1011, which best describes the specific service or item provided;

(b) For claims that require the listing of a procedure code as a condition of payment, the code listed on the claim must be the code that most accurately describes the services provided. Hospitals must follow national coding guidelines;

(c) When there is no appropriate descriptive procedure code to bill the Division, the provider must use the code for "unlisted services." Instructions on the specific use of unlisted services are contained in the individual provider rules. A complete and accurate description of the specific care, item, or service must be documented on the claim;

(d) Where there is one CPT, CDT, or HCPCS code that according to CPT, CDT, and HCPCS coding guidelines or standards describes an array

of services, the provider must bill the Division using that code rather than itemizing the services under multiple codes. Providers may not "unbundle" services in order to increase the payment.

(8) Third party Liability (TPL):

(a) Federal law requires that state Medicaid agencies take all reasonable measures to ensure that in most instances the Division shall be the payer of last resort;

(b) Providers must make reasonable efforts to obtain payment first from other resources. For the purposes of this rule "reasonable efforts" include determining the existence of insurance or other resources on each date of service by:

(A) Using an insurance database such as Electronic Verification System (EVS) available to the provider;

(B) Using the Automated Voice Response (AVR) or secure provider web portal on each date of service and at the time of billing.

(c) Except as noted in section (8)(d)(A through E) below, when third party coverage is known to the provider prior to billing the Division the provider must:

(A) Bill the TPL; and

(B) Except for pharmacy claims billed through the Division's point-of-sale system, the provider must wait 30 days from submission date of a clean claim and have not received payment from the third party; and

(C) Comply with the insurer's billing and authorization requirements; and

(D) Appeal a denied claim when the service is payable in whole or in part by an insurer.

(d) In accordance with federal regulations the provider must bill the TPL prior to billing the Division, except under the following circumstances:

(A) The covered health service is provided by an Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/ID);

(B) The covered health service is provided by institutional services for the mentally and emotionally disturbed;

(C) The covered health services are prenatal and preventive pediatric services;

(D) Services are covered by a third party insurer through an absent parent where the medical coverage is administratively or court ordered;

(E) When another party may be liable for an injury or illness (see definition of Liability Insurance), the provider may bill the insurer, the liable party, place a lien against a settlement, or bill the Division. The provider may not both place a lien against a settlement and bill the Division. The provider may withdraw the lien and bill the Division within 12 months of the date of service. If the provider bills the Division, the provider must accept payment made by the Division as payment in full.

(e) The provider may not return the payment made by the Division in order to accept payment from a liability settlement or liability insurer or place a lien against that settlement:

(A) In the circumstances outlined in section (8)(d)(A) through (E) above, the provider may choose to bill the primary insurance prior to billing the Division. Otherwise, the Division shall process the claim and, if applicable, pay the Division's allowable rate for these services and seek reimbursement from the liable third party insurance plan;

(B) In making the decision to bill the Division the provider should be cognizant of the possibility that the third party payer may reimburse the service at a higher rate than the Division, and that, once the Division makes payment no additional billing to the third party is permitted by the provider.

(f) The provider may bill the Division directly for services that are never covered by Medicare or another insurer on the appropriate form identified in the relevant provider rules. Documentation must be on file in the provider's records indicating this is a non-covered service for purposes of Third Party Resources. See the individual provider rules for further information on services that must be billed to Medicare first;

(g) Providers shall submit an Individual Adjustment Request showing the amount of the third party payment or to refund the amount received from another source within 30 days of the date the payment is received. Failure to submit the Individual Adjustment Request within 30 days of receipt of the third party payment or to refund the appropriate amount within this time frame is considered concealment of material facts and grounds for recovery and sanction:

(A) When a provider receives a payment from any source prior to the submission of a claim to the Division, the amount of the payment must be shown as a credit on the claim in the appropriate field;

(B) Any provider who accepts third party payment for furnishing a service or item to a Division client after having billed the Division shall:

ADMINISTRATIVE RULES

(i) Submit an Individual Adjustment Request indicating the amount of the third party payment. Follow instructions in the individual Division program rules and supplemental billing; or

(ii) When the provider has already accepted payment from the Division for the service or item, the provider shall make direct payment of the amount of the third party payment to the Division. The check to repay the Division shall include the reason the payment is being made and either:

(I) An Individual Adjustment Request that identifies the original claim, name and number of the client, date of service and items or services for which the repayment is made; or

(II) A copy of the Remittance Advice showing the original Division payment.

(C) Any provider who accepts payment from a client, or client's representative and is subsequently paid for the service by the Division shall reimburse the client or their representative the full amount of their payment.

(h) The Division may make a claim against any third party payer after making payment to the provider of service. The Division may pursue alternate resources following payment if it deems this a more efficient approach. Pursuing alternate resources includes, but is not limited to, requesting the provider to bill the third party and to refund the Division in accordance with this rule;

(i) For services provided to a Medicare and Medicaid dual eligible client, the Division may request the provider to submit a claim for Medicare payment, and the provider must honor that request. Under federal regulation, a provider may not charge a beneficiary (or the state as the beneficiary's subrogee) for services for which a provider failed to file a timely claim (42 CFR 424) with Medicare despite being requested to do so;

(j) If Medicare is the primary payer and Medicare denies payment, Medicare appeals must be timely pursued, and Medicare denial must be obtained prior to submitting the claim for payment to the Division. Medicare denial on the basis of failure to submit a timely appeal may result in the Division reducing from the amount of the claim any amount the Division determines could have been paid by Medicare.

(9) Full use of alternate resources:

(a) The Division shall generally make payment only when other resources are not available for the client's medical needs. Full use must be made of reasonable alternate resources in the local community;

(b) Except as provided in subsection (10) of this rule, alternate resources may be available:

(A) Under a federal or state worker's compensation law or plan;

(B) For items or services furnished by reason of membership in a payment plan;

(C) For items or services provided or paid for directly or indirectly by a health insurance plan or as health benefits of a governmental entity such as:

(i) Armed Forces Retirees and Dependents Act (CHAMPVA);

(ii) Armed Forces Active Duty and Dependents Military Medical Benefits Act (CHAMPUS); or

(iii) Medicare Parts A and B.

(D) To residents of another state under that state's Title XIX or state funded medical assistance programs; or

(E) Through other reasonably available resources.

(10) Exceptions:

(a) Indian Health Services or Tribal Health Facilities. Pharmacy Based Immunization Delivery

(1) When administering immunizations for adults (ages 19+) the pharmacy can bill either:

(a) Through Point-of-Sale (POS) using the appropriate National Drug Code (NDC) for the serum and the administration fee shall automatically be applied equivalent to Current Procedural Terminology (CPT) codes 90470-90474 ; or

(b) Bill on a CMS-1500, DMAP 505, or Provider Web Portal professional claim using the appropriate immunization CPT code for the serum; or

(c) Bill as a Provider Web Portal pharmacy claim.

(2) If billing as a professional claim, you must also include:

(a) A primary diagnosis to the highest degree of specificity, and;

(b) The appropriate CPT code for the serum, code ranges 90476-90749; and

(c) The appropriate CPT code for the administration, code ranges 90470-90474.

(3) Pursuant to ORS 689.205 and the Board of Pharmacy administrative rules 855-019-0270 through 855-019-0290; pharmacists may prescribe and administer vaccines to children who are from the age of 11 through 18 years of age only if the pharmacy is enrolled in the Vaccines for Children (VFC) Program. The Division will not reimburse providers the cost of privately purchased vaccination.

(4) If the pharmacy is enrolled in the VFC Program, then only the administration fee shall be reimbursed by the Division and must be billed on a professional claim. For detailed information on billing for the VFC Program, refer to Medical Surgical Services OAR 410-130-0255.

Orders

(1) The purchase, rental or modifications of durable medical equipment, and the purchase of supplies must have an order prior to dispensing items to a client.

(2) For any durable medical equipment, prosthetics, orthotics and supplies (DMEPOS), a provider must have a written order signed and dated by the prescribing practitioner prior to submitting a claim to the Division of Medical Assistance Programs (Division).

(3) A provider may dispense some items based on a verbal order from the prescribing practitioner, except those items requiring a written order prior to delivery (see below) or as specified in a particular rule:

(a) A provider must maintain documentation of the verbal order and this documentation must be available to the Division upon request;

(b) The verbal order must include all the following elements:

(A) Client's name; and,

(B) Name of the practitioner; and,

(C) Description of the item; and,

(D) Start date of the order; and,

(E) Primary ICD-10 diagnosis code for the equipment/supplies requested.

(c) For items that are dispensed based on a verbal order, the provider must obtain a written order that meets the requirements outlined below for written orders.

(4) For an item requiring a written order prior to delivery, Medicare criteria must be met.

(5) When specified in rule, a nurse practitioner may provide the dispensing order and sign the detailed written order only when the following are met:

ADMINISTRATIVE RULES

(a) They are treating the client for the condition for which the item is needed; and

(b) They are practicing independently of a physician.

(6) The DMEPOS provider must have on file a written order, information from the prescribing practitioner concerning the client's diagnosis and medical condition, and any additional information required in a specific rule.

(7) The Division accepts any of the following forms of orders and Certificates of Medical Necessity (CMN): a photocopy, facsimile image, electronically maintained or original "pen and ink" document:

(a) An electronically maintained document is one which has been created, modified, and stored via electronic means such as commercially available software packages and servers;

(b) It is the provider's responsibility to ensure the authenticity/validity of a facsimile image, electronically maintained or photocopied order;

(c) A provider must also ensure the security and integrity of all electronically maintained orders and/or certificates of medical necessity;

(d) The written order may serve as the order to dispense the item if the written order is obtained before the item is dispensed.

(8) A written order must be legible and contain the following elements:

(a) Client's name; and,

(b) Detailed description of the item that can either be a narrative description (e.g., lightweight wheelchair base) or a brand name/model number including medically appropriate options or additional features; and,

(c) The detailed description of the item may be completed by someone other than the practitioner. However, the prescribing practitioner must review the detailed description and personally indicate agreement by his signature and the date that the order is signed;

(A) The Division requires practitioners to sign for services they order;

(B) This signature must be handwritten or electronic, and it must be in the client's medical record;

(C) The ordering practitioner is responsible for the authenticity of the signature;

(d) Primary ICD-10 diagnosis code for the equipment/supplies requested.

(9) Use of signature stamps is prohibited on any medical record.

(10) When a DMEPOS provider submits a Centers for Medicare & Medicaid Services (CMS) CMN to the Division as documentation, the following is required:

(a) The corresponding instructions for completing the specific CMN form must be followed; and

(b) Section B on the CMN cannot be completed by the DMEPOS provider;.

(11) A provider is responsible to obtain as much documentation from the client's medical record as necessary for assurance that the Division coverage criteria for an item(s) is met.

(12) Certain items require one or more of the following additional elements in the written order:

(a) For accessories or supplies that will be provided on a periodic basis:

(A) Quantity used;

(B) Specific frequency of change or use — "as needed" or "prn" orders are not acceptable;

(C) Number of units;

(D) Length of need: Example: An order for surgical dressings might specify one 4" x 4" hydrocolloid dressing which is changed one to two times per week for one month or until the ulcer heals;

(b) For orthoses: If a custom-fabricated orthosis is ordered by the practitioner, this must be clearly indicated on the written order;

(c) Length of need:

(A) If the coverage criteria in a rule specifies length of need; or,

(B) If the order is for a rental item;

(d) Any other medical documentation required by rule.

(13) For repairs: Labor for repairs, parts for durable medical equipment (DME) repairs and replacement parts for DME (e.g., batteries) do not require a written order.

(14) A new order is required:

(a) When required by Medicare (for a Medicare covered service) (www.cignamedicare.com); or,

(b) When there is a change in the original order for an item; or,

(c) When an item is permanently replaced; or,

(d) When indicated by the prescribing practitioner;

(A) A new order is required when an item is being replaced because the item is worn or the client's condition has changed; and,

(B) The provider's records should also include client-specific information regarding the need for the replacement item; and,

(C) This information should be maintained in the provider's files and be available to the Division on request; and,

(D) A new order is required before replacing lost, stolen or irreparably damaged items to reaffirm the medical appropriateness of the item;

(e) When there is a change of DMEPOS provider: In cases where two or more providers merge, the resultant provider should make all reasonable attempts to secure copies of all active CMN's and written orders from the provider(s) purchased. This document should be kept on file by the resultant provider for future presentation to the Division, if requested;

(f) On a regular or specific basis (even if there is no change in the order) only if it is so specified in a particular rule.

(15) A provider is required to maintain and provide (when required by a particular rule) legible copies of facsimile image and electronic transmissions of orders.

Respiratory Assist Devices

(1) As referenced in this policy, non-invasive positive pressure respiratory assistance (NPPRA) is the administration of positive air pressure, using a nasal and/or oral mask interface which creates a seal, avoiding the use of more invasive airway access (e.g., tracheostomy).

(2) Indications and Coverage — General:

(a) The "treating prescribing practitioner" must be one who is qualified by virtue of experience and training in non-invasive respiratory assistance, to order and monitor the use of respiratory assist devices (RAD);

(b) For the purpose of this policy, polysomnographic studies must be performed in a sleep study laboratory, and not in the home or in a mobile facility. The sleep study laboratory must comply with all applicable state regulatory requirements;

(c) For the purpose of this policy, arterial blood gas, sleep oximetry and polysomnographic studies may not be performed by a durable medical equipment, prosthetics, orthotics, and supplies (DMEPOS) provider. For purposes of this policy's coverage and payment guidelines, a DMEPOS provider is not considered a qualified provider or supplier of these tests;

(d) If there is discontinuation of usage of E0470 or E0471 device at any time, the provider is expected to ascertain this, and stop billing for the equipment and related accessories and supplies.

(3) Coverage criteria for E0470 and E0471 devices — Table 122-0205-1.

(4) Documentation:

(a) The following documentation must be submitted with the request for prior authorization (PA) and the original kept on file by the provider:

(A) An order for all equipment and accessories including the client's diagnosis, an ICD-10-CM code signed and dated by the treating prescribing practitioner;

(B) Summary of events from the polysomnogram, if required in this rule under the indications and coverage section or Table 122-0205-1;

(C) Arterial blood gas results, if required under the indications and coverage section or Table 122-0205-1;

(D) Sleep oximetry results, if required under the indications and coverage section or Table 122-0205-1;

(E) Treating prescribing practitioner statement regarding medical symptoms characteristic of sleep-associated hypoventilation, including, but not limited to daytime hypersomnolence, excessive fatigue, morning headache, cognitive dysfunction, and dyspnea;

(F) Other treatments that have been tried and failed. To be submitted in addition to the above at the fourth month review;

(b) A copy of the Evaluation of Respiratory Assist Device (Division 2461) completed and signed by the client, family member or caregiver;

(c) Clients currently using BiPapS and BiPap ST are not subject to the new criteria.

410-122-0330

Power-Operated Vehicle

(1) Indications and limitations of coverage and medical appropriateness:

(a) The Division of Medical Assistance Programs (Division) may cover a power-operated vehicle (POV) when all of the following criteria are met:

(A) The client has a mobility limitation that significantly impairs their ability to accomplish mobility-related activities of daily living (MRADLs); places the client at reasonably determined heightened risk of morbidity or mortality secondary to the attempts to perform an MRADL; or the client is unable to sustain safely the performance of MRADLs throughout the course of a regular day. See OAR 410-122-0010 Definitions for complete definition of MRADLs;

(B) An appropriately fitted cane or walker cannot resolve the client's mobility limitation;

(C) The client does not have sufficient upper extremity function to self-propel an optimally-configured manual wheelchair in the home to perform MRADLs during a typical day:

(i) Assessment of upper extremity function should consider limitations of strength, endurance, range of motion, or coordination, presence of pain, and deformity or absence of one or both upper extremities;

(ii) An optimally-configured manual wheelchair features an appropriate wheelbase, device weight, seating options, and other appropriate non-powered accessories;

(D) The client has sufficient strength, postural stability, or other physical or mental capabilities needed to safely operate a POV in the home;

(E) The client's home provides adequate maneuvering space, maneuvering surfaces, and access between rooms for the operation of the POV being requested;

(F) Use of a POV will significantly improve the client's ability to move within the home to the areas customarily used for their MRADLs to allow completion of these activities within a reasonable time frame;

(G) The client is willing to use the requested POV in the home, and the client will use it on a regular basis in the home;

(H) The Division does not cover services or upgrades that primarily allow performance of leisure or recreational activities. Such services include but are not limited to backup POVs, backpacks, accessory bags, clothing guards, awnings, additional positioning equipment if the POV meets the same need, custom colors, and wheelchair gloves;

(b) For a POV to be covered, the treating physician or nurse practitioner must conduct a face-to-face examination of the client before writing the order:

(A) The durable medical equipment, prosthetics, orthotics and supplies (DMEPOS) provider must receive a written report of this examination within 45 days after the face-to-face examination and prior to delivery of the device.

(B) When this examination is performed during a hospital or nursing facility stay, the DMEPOS provider must receive the report of the examination within 45 days after date of discharge;

(C) The physician or nurse practitioner may refer the client to a licensed/certified medical professional, such as a physical therapist (PT) or occupational therapist (OT), to perform part of this face-to-face examination. This person may not be an employee of the DMEPOS provider or have any direct or indirect financial relationship, agreement or contract with the DMEPOS provider. When the DMEPOS provider is owned by a hospital, a PT/OT working in the inpatient or outpatient hospital setting may perform part of the face-to-face examination:

(i) If the client was referred to the PT/OT before being seen by the physician or nurse practitioner, then once the physician or nurse practitioner has received and reviewed the written report of this examination, the physician or nurse practitioner must see the client and perform any additional examination that is needed. The physician's or nurse practitioner's report of the visit should state concurrence or any disagreement with the PT/OT examination. In this situation, the physician or nurse practitioner must provide the DMEPOS provider with a copy of both examinations

within 45 days of the face-to-face examination with the physician or nurse practitioner;

(ii) If the physician or nurse practitioner examined the client before referring the client to a PT/OT, then again in person after receiving the report of the PT/OT examination, the 45-day period begins on the date of that second physician or nurse practitioner visit. However, it is also acceptable for the physician or nurse practitioner to review the written report of the PT/OT examination, to sign and date that report, and to state concurrence or any disagreement with that examination. In this situation, the physician or nurse practitioner must send a copy of the note from his/her initial visit to evaluate the client plus the annotated, signed, and dated copy of the PT/OT examination to the DMEPOS provider. The 45-day period begins when the physician or nurse practitioner signs and dates the PT/OT examination;

(iii) If the POV is a replacement of a similar item that was previously covered by the Division or when only POV accessories are being ordered and all other coverage criteria in this rule are met, a face-to-face examination is not required;

(c) The Division may authorize a new POV when a client's existing POV is no longer medically appropriate; or repair and/or modifications to the POV exceed replacement costs;

(d) If a client has a medically appropriate POV regardless of payer, the Division will not reimburse for another POV;

(e) The cost of the POV includes all options and accessories that are provided at the time of initial purchase, including but not limited to batteries, battery chargers, seating systems, etc.;

(f) Reimbursement for the POV includes all labor charges involved in the assembly of the POV and all covered additions or modifications. Reimbursement also includes support services such as emergency services, delivery, set-up, pick-up and delivery for repairs/modifications, education and on-going assistance with use of the POV;

(g) If a client-owned POV meets coverage criteria, medically appropriate replacement items, including but not limited to batteries, may be covered;

(h) If a POV is covered, a manual or power wheelchair provided at the same time or subsequently will usually be denied as not medically appropriate;

(i) The Division will cover one month's rental of a POV if a client-owned POV is being repaired;

(j) The following services are not covered:

(A) POV for use only outside the home; and

(B) POV for a nursing facility client.

(2) Coding guidelines:

(a) Codes K0800 — K0802 are used only for POVs that can be operated inside the home;

(b) Codes K0800 — K0802 are not used for a manual wheelchair with an add-on tiller control power pack;

(c) A replacement item, including but not limited to replacement batteries, should be requested using the specific wheelchair option or accessory code if one exists (see 410-122-0340, Wheelchairs Options/Accessories). If a specific code does not exist, use code K0108 (wheelchair component or accessory, not otherwise specified);

(d) For guidance on correct coding, DMEPOS providers should contact the Pricing, Data Analysis and Coding (PDAC) Contractor by the Centers for Medicare and Medicaid Services. See 410-122-0180 Healthcare Common Procedure Coding System (HCPCS) Level II Coding for more information.

(3) Documentation requirements: Submit all of the following documentation with the prior authorization (PA) request:

(a) A copy of the written report of the face-to-face examination of the client by the physician or nurse practitioner:

(A) The report must include information related to the following:

(i) This client's mobility limitation and how it interferes with the performance of activities of daily living;

(ii) Why a cane or walker can't meet this client's mobility needs in the home;

(iii) Why a manual wheelchair can't meet this client's mobility needs in the home;

(iv) This client's physical and mental abilities to operate a POV (scooter) safely in the home;

(I) Besides a mobility limitation, if other conditions exist that limit a client's ability to participate in MRADLs, how these conditions will be ameliorated or compensated;

(II) How these other conditions will be ameliorated or compensated sufficiently such that the additional provision of mobility assistive equip-

ADMINISTRATIVE RULES

ment (MAE) will be reasonably expected to significantly improve the client's ability to perform or obtain assistance to participate in MRADLs in the home.

(B) The face-to-face examination should provide pertinent information about the following elements, but may include other details. Only relevant elements need to be addressed:

- (i) Symptoms;
- (ii) Related diagnoses;
- (iii) History:
 - (I) How long the condition has been present;
 - (II) Clinical progression;
 - (III) Interventions that have been tried and the results;
 - (IV) Past use of walker, manual wheelchair, POV, or power wheelchair and the results;

(iv) Physical exam:

- (I) Weight;

(II) Walking around their home — to bathroom, kitchen, living room, etc. — provide information on distance walked, speed, and balance;

(C) Although a client who qualifies for coverage of a POV may use that device outside the home, because the Division's coverage of a POV is determined solely by the client's mobility needs within the home, the examination must clearly distinguish the client's abilities and needs within the home from any additional needs for use outside the home;

(b) The physician's or nurse practitioner's written order, received by the DMEPOS provider within 30 days after the physician's or nurse practitioner's face-to-face examination, which includes all of the following elements:

(i) If this order does not identify the specific type of POV that is being requested, the DMEPOS provider must clarify this by obtaining another written order which lists the specific POV that is being ordered and any options and accessories requested;

(ii) The items on this order may be entered by the DMEPOS provider. This subsequent order must be signed and dated by the treating physician or nurse practitioner, received by the DMEPOS provider and submitted to the authorizing authority, but does not have to be received within 45 days following the face-to-face examination.

(C) Most significant ICD-10 diagnosis code that relates specifically to the need for the POV;

- (D) Length of need;
- (E) Physician's or nurse practitioner's signature;

(e) A written evaluation of the client's living quarters, performed by the DMEPOS provider. This assessment must support that the client's home can accommodate and allow for the effective use of a POV, including, but is not limited to, evaluation of door widths, counter/table height, accessibility (e.g., ramps), electrical service, etc; and

(f) All HCPCS to be billed on this claim (both codes that require authorization and those that do not require authorization); and

(g) Any additional documentation that supports indications of coverage are met as specified in this rule;

(h) The above documentation must be kept on file by the DMEPOS provider;

(i) Documentation that the coverage criteria have been met must be present in the client's medical record. This documentation and any additional medical information from the DMEPOS provider must be made available to the Division on request.

Pressure Reducing Support Surfaces

(1) Indications and limitations of coverage and medical appropriateness:

(a) Group 1 (A4640, E0180–E0182, E0184–E0189, and E0196–E0199):

(A) The Division of Medical Assistance Programs (Division) may cover a Group 1 support surface when the client meets:

(i) Criterion (I), or;

(ii) Criteria (II) or (III) and at least one of criteria (IV)–(VII):

(I) Completely immobile — i.e., client cannot make changes in body position without assistance;

(II) Limited mobility — i.e., client cannot independently make changes in body position significant enough to alleviate pressure;

(III) Any stage pressure ulcer on the trunk or pelvis;

(IV) Impaired nutritional status;

(V) Fecal or urinary incontinence;

(VI) Altered sensory perception;

(VII) Compromised circulatory status;

(B) The Durable Medical Equipment, Prosthetics, Orthotics and Supplies (DMEPOS) provider must provide a support surface in which the client does not "bottom out";

(C) The Division does not cover foam overlays or mattresses without a waterproof cover, since these are not considered durable;

(D) The Division does not cover pressure reducing support surfaces for the prevention of pressure ulcers or pain control;

(E) The allowable rental fee includes all equipment, supplies and services for the effective use of the pressure reducing support surface;

(b) Group 2 (E0193, E0277, and E0371–E0373):

(A) A Group 2 support surface may be covered for up to an initial three month rental period when the client meets:

(i) Criterion (I) and (II) and (III), or;

(ii) Criterion (IV), or;

(iii) Criterion (V) and (VI);

(I) Multiple stage II pressure ulcers located on the trunk or pelvis;

(II) Client has been on a comprehensive ulcer treatment program for at least the past month which includes the following: use of an appropriate Group 1 support surface; education of the client, if appropriate, and caregiver on the prevention and/or management of pressure ulcers; regular assessment by a nurse, physician, or other licensed healthcare practitioner (usually at least weekly for a patient with a stage III or IV ulcer); appropriate turning and positioning; appropriate wound care (for a stage II, III, or IV ulcer); appropriate management of moisture/incontinence; and nutritional assessment and intervention consistent with the overall plan of care;

(III) The ulcers have worsened or remained the same over the past month;

(IV) Large or multiple stage III or IV pressure ulcer(s) on the trunk or pelvis A large wound is generally any wound of eight square centimeters (length x width) or more. Individual client circumstances may be weighed. Undermining and/or tunneling, anatomic location on the body and the size of the client may be taken into account;

(V) Recent myocutaneous flap or skin graft for a pressure ulcer on the trunk or pelvis (surgery within the past 60 days)

(VI) The client has been on a Group 2 or 3 support surface immediately prior to a recent discharge from a hospital or nursing facility (discharge within the past 30 days);

(B) The DMEPOS provider must provide a support surface in which the patient does not "bottom out";

ADMINISTRATIVE RULES

(C) When a Group 2 surface is requested following a myocutaneous flap or skin graft, coverage generally is limited to 60 days from the date of surgery

(D) The Division may cover continued use of a Group 2 support surface if healing continues;

(E) The Division does not cover pressure reducing support surfaces for the prevention of pressure ulcers or pain control;

(F) The allowable rental fee includes all equipment, supplies and services for the effective use of the pressure reducing support surface;

(c) Division may consider coverage for bariatric pressure reducing support surfaces only coded as E1399 (durable medical equipment, miscellaneous) for a client residing in a nursing facility, subject to service limitations of Division rules, only when the following requirements are met:

(A) The client meets the conditions of coverage as specified in this rule; and

(B) The bariatric pressure reducing support surface has been assigned code E1399 by the Medicare Pricing, Data Analysis and Coding (PDAC) contractor;

(d) Group 3: Air-fluidized beds (E0194) are not covered.

(2) Definitions for Group 1 and Group 2:

(a) Bottoming out: Finding that an outstretched hand, placed palm up between the undersurface of the overlay or mattress and the patient's bony prominence (coccyx or lateral trochanter), can readily palpate the bony prominence. This bottoming out criterion should be tested with the client in the supine position with their head flat, in the supine position with their head slightly elevated (no more than 30 degrees), and in the side-lying position;

(b) Plan of care: Written guidelines developed to identify specific problems and needs of the client and interventions/regimen necessary to assist the client to achieve optimal health potential. Developing the plan of care includes establishing measurable client and nursing goals with time lines and determining nursing/caregiver/other discipline-assigned interventions to meet care objectives;

(c) The staging of pressure ulcers used in this rule is as follows:

(A) Stage I — Observable pressure related alteration of intact skin whose indicators as compared to the adjacent or opposite area on the body may include changes in one or more of the following: skin temperature (warmth or coolness), tissue consistency (firm or boggy feel) and/or sensation (pain, itching). The ulcer appears as a defined area of persistent redness in lightly pigmented skin, whereas in darker skin tones, the ulcer may appear with persistent red, blue, or purple hues;

(B) Stage II — Partial thickness skin loss involving epidermis, dermis, or both. The ulcer is superficial and presents clinically as an abrasion, blister, or shallow crater;

(C) Stage III — Full thickness skin loss involving damage to, or necrosis of, subcutaneous tissue that may extend down to, but not through, underlying fascia. The ulcer presents clinically as a deep crater with or without undermining of adjacent tissue;

(D) Stage IV — Full thickness skin loss with extensive destruction, tissue necrosis, or damage to muscle, bone, or supporting structures (e.g., tendon, joint capsule). Undermining and sinus tracts also may be associated with Stage IV pressure ulcers;

(3) Guidelines:

Ankle-Foot Orthoses and Knee-Ankle-Foot Orthoses

(1) Indications and limitations of coverage and medical appropriateness: The Division of Medical Assistance Programs (Division) may cover some ankle-foot orthotics (AFOs) and knee-ankle-foot Orthotics (KAFOs) and related services for a covered condition, for this episode, when the covered device has not been billed to the Division with a Current Procedure Terminology (CPT) code, Healthcare Common Procedure Coding System (HCPCS) code or diagnosis code by any other healthcare provider, and in addition specifically for:

(a) AFOs not used during ambulation: A static AFO (L4396) may be covered when (A)-(E) are met:

(A) The client has a plantar flexion contracture of the ankle (Internal Classification of Diseases (ICD)-10 diagnosis code M24.571, M24.572) with dorsiflexion on passive range of motion testing of at least 10 degrees (i.e., a nonfixed contracture);

(B) There is a reasonable expectation of the ability to correct the contracture;

(C) The contracture is interfering or expected to interfere significantly with the client's functional abilities;

(D) The static AFO is used as a component of a therapy program that includes active stretching of the involved muscles and/or tendons;

(E) The pre-treatment passive range of motion is measured with a goniometer and an appropriate stretching program carried out by professional staff (in a nursing facility) or caregiver (at home) is documented in the client's treatment plan;

(b) AFOs and KAFOs used during ambulation:

(A) AFOs described by codes L1900, L1902-L1990, L2106-L2116, L4350, L4360 and L4386 with weakness or deformity of the foot and ankle requiring stabilization from medical reasons and with potential to benefit functionally;

(B) KAFOs described by codes L2000-L2038, L2126-L2136 and L4370 when conditions of coverage are met for an AFO and additional knee stability is required;

(C) AFOs and KAFOs that are molded-to-patient model, or custom-fabricated when basic coverage criteria for an AFO or KAFO are met and one of the following criteria is met:

ADMINISTRATIVE RULES

(i) The client could not be fit with a prefabricated AFO;

(ii) The condition necessitating the orthotic is expected to be permanent or of longstanding duration (more than six months);

(iii) There is a need to control the knee, ankle or foot in more than one plane;

(iv) The client has a documented neurological, circulatory, or orthopedic status that requires custom fabricating over a model to prevent tissue injury;

(v) The client has a healing fracture that lacks normal anatomical integrity or anthropometric proportions;

(c) No more than one replacement interface (L4392) may be covered every six months for a covered static AFO;

(d) Evaluation of the client, measurement and/or casting and fitting of the orthotic are included in the allowance for the orthotic;

(e) Repairs/Replacement:

(A) Repairs to a covered orthotic due to wear or to accidental damage when necessary to make the orthotic functional. If the expense for repairs exceeds the estimated expense of providing another entire orthot, no payment will be made for the amount in excess;

(B) Replacement of a complete orthotic or component of an orthotic due to loss, significant change in the client's condition or irreparable accidental damage if the device is still medically appropriate and conditions of coverage are met;

(C) L4205 (Repair of orthotic device, labor component, per 15 minutes):

(i) May only bill for the actual time involved in the repair of an orthotic;

(ii) May not use this code for any labor involved in the evaluation, fabrication or fitting of a new or full replacement orthotic;

(iii) Use for the labor component of repair of a previously provided orthotic;

(D) Labor Allowance:

(i) Included in the replacement of an orthotic component coded with a specific L code;

(ii) Not included in the replacement of an orthotic component coded with L4210;

(E) Replacement items with specific HCPCS codes:

(i) Use L4392 and L4394 for replacement soft interfaces used with ankle contracture orthotics or foot drop splints;

(ii) Use L2999 (Lower extremity orthotics, not otherwise specified) for replacement components that do not have a specific HCPCS code;

(iii) Addition codes L4002 — L4130, L4392 for replacement components are not payable at initial issue of a base orthotic;

(f) The codes specified in this rule may be covered for a client residing in a nursing facility;

(g) Quantities of supplies greater than those described in the policy as the usual maximum amounts only when supported by documentation clearly and maximum amounts only when supported by documentation clearly and specifically explaining the medical appropriateness of the excess quantities.

(2) Exclusions: The following services are not covered;

(a) A static AFO and replacement interface for:

(A) A fixed contracture; or

(B) A foot drop without an ankle flexion contracture;

(C) When used solely for the prevention or treatment of a heel pressure ulcer;

(b) A component of a static AFO that is used to address positioning of the knee or hip;

(c) A foot drop splint/recumbent positioning device (L4398) or replacement interface (L4394) for a non-ambulatory client when used solely for the prevention or treatment of a pressure ulcer;

(d) An AFO or KAFO and any related addition for an ambulatory client when used solely for treatment of edema and/or prevention or treatment of a pressure ulcer;

(e) Walking boots used primarily to relieve pressure, especially on the sole of the foot or used solely for the prevention or treatment of a pressure ulcer;

(f) Elastic support garments (L1901);

(g) Socks (L2840, L2850) used in conjunction with orthotics;

(h) Replacement components (e.g., soft interfaces) that are provided on a routine basis, without regard to whether the original item is worn out;

(i) A foot pressure off-loading/supportive device (A9283);

(j) L coded additions to AFOs and KAFOs (L2180-L2550, L2750-L2768, L2780-L2830) if either the coverage criteria for the base orthotic is not met or the specific addition is not medically appropriate.

(3) Coding Guidelines:

(a) A prefabricated orthotic is one that is manufactured in quantity without a specific client in mind. A prefabricated orthotic may be trimmed, bent, molded (with or without heat), or otherwise modified for use by a specific client (i.e., custom fitted). An orthotic that is assembled from prefabricated components is considered prefabricated. Any orthotic that does not meet the definition of a custom-fabricated orthotic is considered prefabricated;

(b) A custom-fabricated orthotic is individually made for a specific client starting with basic materials including, but not limited to, plastic, metal, leather, or cloth in the form of sheets, bars, etc. It involves substantial work such as cutting, bending, molding, sewing, etc. It may involve some prefabricated components. It involves more than trimming, bending, or making other modifications to a substantially prefabricated item;

(c) A molded-to-patient model orthotic is a particular type of custom-fabricated orthotic in that an impression of the specific body part is made (by means of a plaster cast, computer-aided design and computer-aided manufacturing (CAD-CAM) technology, etc.). This impression is used to make a positive model (of plaster or other material) of the body part. The orthotic is then molded on this positive model;

(d) Ankle-foot orthotics extend well above the ankle (usually to near the top of the calf) and are fastened around the lower leg above the ankle. These features distinguish them from foot orthotics that are shoe inserts that do not extend above the ankle. A nonambulatory ankle-foot orthotic may be either an ankle contracture splint, night splint or a foot drop splint;

(e) A static AFO (L4396) is a prefabricated ankle-foot orthotic that has all of the following characteristics:

(A) Designed to accommodate an ankle with a plantar flexion contracture up to 45°;

(B) Applies a dorsiflexion force to the ankle;

(C) Used by a client who is minimally ambulatory or nonambulatory;

(D) Has a soft interface;

(f) A foot drop splint/recumbent positioning device (L4398) is a prefabricated ankle-foot orthotic that has all of the following characteristics:

(A) Designed to maintain the foot at a fixed position of 0° (i.e., perpendicular to the lower leg);

(B) Not designed to accommodate an ankle with a plantar flexion contracture;

(C) Used by a client who is nonambulatory;

(D) Has a soft interface.

(4) HCPCS Modifiers:

(a) EY — No physician or other licensed health care provider order for this item or service;

(b) GY — Item or service statutorily excluded or does not meet the definition of any Medicare benefit;

(A) If an AFO or a KAFO is used solely for the treatment of edema and/or for the prevention or treatment of a pressure ulcer, the GY modifier must be added to the base code and any related additional code;

(B) If a walking boot (L4360, L4386), static AFO (L4396) or foot drop splint/recumbent positioning device (L4398) is used solely for the prevention or treatment of a pressure ulcer, the GY modifier must be added to the base code and to the code for the replacement liner (L4392, L4394);

(C) When the GY modifier is added to a code there must be a short narrative statement indicating why the GY modifier was used — e.g., “used to prevent pressure ulcer” or “used to treat pressure ulcer” or “used to treat edema”. This statement must be entered in the narrative field of an electronic claim or attached to a hard copy claim;

(c) KX — Requirements specified in the medical policy have been met. The provider must add a KX modifier to the AFO/KAFO base and additional codes only if all the coverage criteria of this policy have been met and evidence of such is retained in the provider's files;

(d) LT — Left Side; RT — Right Side:

(A) The right (RT) and left (LT) modifiers must be used with orthotic base codes, additions and replacement parts;

(B) When the same code for bilateral items (left and right) is billed on the same date of service, bill both items on the same claim line using the LTRT modifiers and 2 units of service.

(5) Documentation Requirements:

(a) L2999 is the only code in this rule that requires prior authorization (PA): For a PA request, submit documentation for review that supports conditions of coverage as specified in this rule are met, including the plan of care, if applicable;

(b) For services that do not require PA: Documentation from the medical record that supports conditions of coverage as specified in this rule are

ADMINISTRATIVE RULES

met must be kept on file with the durable medical equipment, prosthetics, orthotics and supplies (DMEPOS) provider;

(c) Prior to billing for each new or full replacement item, the DMEPOS provider must first have received a completed written, signed and dated physician's order that includes:

(A) The treating diagnosis code that justifies the need for the orthotic device;

(B) Detailed description of the item including all options or additional features;

(C) The unique features of the base code plus every addition that will be billed on a separate claim line;

(d) For custom-fabricated orthotics, documentation must support the medical appropriateness of that type device rather than a prefabricated orthotic;

(e) For L2999:

(A) The request for PA must include the following information:

(i) A narrative description of the item (for custom fabricated items); or

(ii) The manufacturer's name and model name/number (for pre-fabricated items); and

(iii) Justification of medical appropriateness for the item;

(iv) For replacement components, a HCPCS code or the manufacturer's name and model name/number of the base orthotic;

(v) The manufacturer's name and model name/number must be entered in the narrative field of an electronic claim;

(f) Repair of orthotic devices:

(A) A physician's order is not required;

(B) A detailed description of the reason for the repair, part that is being repaired or replaced must be on file with the DMEPOS provider;

(C) The following information must be entered in the narrative field of an electronic claim:

(i) L4210 must include a description of each item that is billed;

(ii) L4205 must include an explanation of what is being repaired;

(D) All codes for repairs of orthotics billed with the same date of service must be submitted on the same claim;

(g) The provider must include the ICD-10 diagnosis code for the underlying condition on the claim for a static AFO (L4396) or replacement interface material (L4392);

(h) All codes for orthotics billed with the same date of service must be submitted on the same claim;

(i) When billing for quantities of supplies greater than those described in the policy as the usual maximum amounts, there must be documentation in the client's medical record supporting the medical appropriateness for the higher utilization;

(j) The client's medical record must support the medical appropriateness for items and all additions billed to the Division and this documentation must be made available to the Division on request.

or

(iv) The treatment has specific limitations outlined in this rule;

(B) Prosthetic treatment, including porcelain fused to metal crowns, are limited until rampant progression of caries is arrested and a period of adequate oral hygiene and periodontal stability is demonstrated; periodontal health needs to be stable and supportive of a prosthetic.

(2) ENHANCED ORAL HEALTH SERVICES IN PRIMARY CARE SETTINGS:

ADMINISTRATIVE RULES

Dental Association (ADA) CDT codebook for definitions of restorative procedures;

(E) Providers shall combine and bill multiple surface restorations as one line per tooth using the appropriate code. Providers may not bill multiple surface restorations performed on a single tooth on the same day on separate lines. For example, if tooth #30 has a buccal amalgam and a mesial-occlusal-distal (MOD) amalgam, then bill MOD, B, using code D2161 (four or more surfaces);

(F) The Division may not reimburse for an amalgam or composite restoration and a crown on the same tooth;

(G) Interim therapeutic restoration on primary dentition (D2941) is covered to restore and prevent progression of dental caries. Interim therapeutic restoration is not a definitive restoration.

(H) Reattachment of tooth fragment (D2921) is covered once in the lifetime of a tooth when there is no pulp exposure and no need for endodontic treatment.

(I) The Division reimburses for a surface not more than once in each treatment episode regardless of the number or combination of restorations;

(J) The restoration fee includes payment for occlusal adjustment and polishing of the restoration;

(b) Indirect crowns and related services:

(A) General payment policies:

(i) The fee for the crown includes payment for preparation of the gingival tissue;

(ii) The Division shall cover crowns only when:

(iii) The Division shall cover core buildup (D2950) only when necessary to retain a cast restoration due to extensive loss of tooth structure from caries or a fracture and only when done in conjunction with a crown. Less than 50 percent of the tooth structure must be remaining for coverage of the core buildup.

(iv) Reimbursement of retention pins (D2951) is per tooth, not per pin;

(IV) Rampant caries are arrested, and the client demonstrates a period of oral hygiene before prosthetics are proposed;

(vi) PFM crowns (D2751 and D2752) shall also meet the following additional criteria:

(I) The dental practitioner has attempted all other dentally appropriate restoration options and documented failure of those options;

(II) Written documentation in the client's chart indicates that PFM is the only restoration option that will restore function;

(III) The dental practitioner submits radiographs to the Division for review; history, diagnosis, and treatment plan may be requested. (See OAR 410-123-1100 Services Reviewed by the Division);

(IV) The client has documented stable periodontal status with pocket depths within 1–3 millimeters. If PFM crowns are placed with pocket depths of 4 millimeters and over, documentation shall be maintained in the

client's chart of the dentist's findings supporting stability and why the increased pocket depths will not adversely affect expected long-term prognosis;

(V) The crown has a favorable long-term prognosis; and

(VI) If the tooth to be crowned is a clasp/abutment tooth in partial denture, both prognosis for the crown itself and the tooth's contribution to partial denture shall have favorable expected long-term prognosis;

(E) Crown replacement:

(i) Permanent crown replacement limited to once every seven years;

(ii) All other crown replacement limited to once every five years; and

(iii) The Division may make exceptions to crown replacement limitations due to acute trauma, based on the following factors:

(F) Crown repair (D2980) is limited to only anterior teeth.

(6) ENDODONTIC SERVICES:

(a) Endodontic therapy:

(A) Pulpal therapy on primary teeth (D3230 and D3240) is covered only for clients under 21 years of age;

(b) Endodontic retreatment and apicoectomy:

(A) The Division does not cover retreatment of a previous root canal or apicoectomy for bicuspid or molars;

(B) The Division limits either a retreatment or an apicoectomy (but not both procedures for the same tooth) to symptomatic anterior teeth when:

(i) Crown-to-root ratio is 50:50 or better;

(ii) The tooth is restorable without other surgical procedures; or

(iii) If loss of tooth would result in the need for removable prosthodontics;

(C) Retrograde filling (D3430) is covered only when done in conjunction with a covered apicoectomy of an anterior tooth;

(c) The Division does not allow separate reimbursement for open-and-drain as a palliative procedure when the root canal is completed on the same date of service or if the same practitioner or dental practitioner in the same group practice completed the procedure;

(d) The Division covers endodontics if the tooth is restorable within the OHP benefit coverage package;

(e) Apexification/recalcification procedures:

(A) The Division limits payment for apexification to a maximum of five treatments on permanent teeth only;

(7) PERIODONTIC SERVICES:

(a) Surgical periodontal services:

(A) Gingivectomy/Gingivoplasty (D4210 and D4211) — limited to coverage for severe gingival hyperplasia where enlargement of gum tissue occurs that prevents access to oral hygiene procedures, e.g., Dilantin hyperplasia; and

(B) Includes six months routine postoperative care;

(C) The Division shall consider gingivectomy or gingivoplasty to allow for access for restorative procedure, per tooth (D4212) as part of the restoration and will not provide a separate reimbursement for this procedure;

(b) Non-surgical periodontal services:

(A) Periodontal scaling and root planing (D4341 and D4342):

(i) For clients through age 20, allowed once every two years;

(ii) For clients age 21 and over, allowed once every three years;

(iii) A maximum of two quadrants on one date of service is payable, except in extraordinary circumstances;

(iv) Quadrants are not limited to physical area, but are further defined by the number of teeth with pockets 5 mm or greater:

ADMINISTRATIVE RULES

(I) D4341 is allowed for quadrants with at least four or more teeth with pockets 5 mm or greater;

(II) D4342 is allowed for quadrants with at least two teeth with pocket depths of 5 mm or greater;

(v) Prior authorization for more frequent scaling and root planing may be requested when:

(I) Medically/dentally necessary due to periodontal disease as defined above is found during pregnancy; and

(II) Client's medical record is submitted that supports the need for increased scaling and root planing;

(B) Full mouth debridement (D4355);

(i) For clients through age 20, allowed only once every two years;

(C) For clients age 21 and older, the client shall have one or more missing anterior teeth or six or more missing posterior teeth per arch with documentation by the provider of resulting space causing serious impairment to mastication. Third molars are not a consideration when counting missing teeth;

(D) The dental practitioner shall note the teeth to be replaced and teeth to be clasped when requesting prior authorization (PA);

(e) Replacement of removable partial or full dentures, when it cannot be made clinically serviceable by a less costly procedure (e.g., reline, rebase, repair, tooth replacement), is limited to the following:

(A) For clients at least 16 years and under 21 years of age, the Division shall replace full or partial dentures once every ten years, only if dentally appropriate. This does not imply that replacement of dentures or partials shall be done once every ten years, but only when dentally appropriate;

(B) For clients 21 years of age and older, the Division may not cover replacement of full dentures but shall cover replacement of partial dentures once every ten (10) years only if dentally appropriate;

(C) The ten year limitations apply to the client regardless of the client's OHP or Dental Care Organization (DCO)/Coordinated Care Organization (CCO) enrollment status at the time the client's last denture or partial was received. For example: A client receives a partial on February 1, 2002, and becomes a FFS OHP client in 2005. The client is not eligible for a replacement partial until February 1, 2012. The client gets a replacement partial on February 3, 2012 while FFS and a year later enrolls in a DCO or CCO. The client would not be eligible for another partial until February 3, 2022, regardless of DCO, CCO, or FFS enrollment;

(D) Replacement of partial dentures with full dentures is payable ten years after the partial denture placement. Exceptions to this limitation may be made in cases of acute trauma or catastrophic illness that directly or indirectly affects the oral condition and results in additional tooth loss. This pertains to, but is not limited to, cancer and periodontal disease resulting from pharmacological, surgical, and medical treatment for aforementioned conditions. Severe periodontal disease due to neglect of daily oral hygiene may not warrant replacement;

(f) The Division limits reimbursement of adjustments and repairs of dentures that are needed beyond six months after delivery of the denture as follows for clients 21 years of age and older:

(A) A maximum of four times per year for:

(i) Adjusting complete and partial dentures, per arch (D5410-D5422);

(ii) Replacing missing or broken teeth on a complete denture, each tooth (D5520);

(iii) Replacing broken tooth on a partial denture, each tooth (D5640);

(iv) Adding tooth to existing partial denture (D5650);

(B) A maximum of two times per year for:

(i) Repairing broken complete denture base (D5510);

(ii) Repairing partial resin denture base (D5610);

(iii) Repairing partial cast framework (D5620);

(iv) Repairing or replacing broken clasp (D5630);

(v) Adding clasp to existing partial denture (D5660);

(g) Replacement of all teeth and acrylic on cast metal framework (D5670, D5671):

(A) Is covered for clients age 16 and older a maximum of once every ten (10) years, per arch;

(B) Ten years or more shall have passed since the original partial denture was delivered;

(C) Is considered replacement of the partial so a new partial denture may not be reimbursed for another ten years; and

(D) Requires prior authorization as it is considered a replacement partial denture;

(h) Denture rebase procedures:

(A) The Division shall cover rebases only if a reline may not adequately solve the problem;

(B) For clients through age 20, the Division limits payment for rebase to once every three years;

(C) For clients age 21 and older:

(i) There shall be documentation of a current reline that has been done and failed; and

(ii) The Division limits payment for rebase to once every five years;

(D) The Division may make exceptions to this limitation in cases of acute trauma or catastrophic illness that directly or indirectly affects the oral condition and results in additional tooth loss. This pertains to, but is not limited to, cancer and periodontal disease resulting from pharmacological, surgical, and medical treatment for aforementioned conditions. Severe periodontal disease due to neglect of daily oral hygiene may not warrant rebasing;

(i) Denture reline procedures:

(A) For clients through age 20, the Division limits payment for reline of complete or partial dentures to once every three years;

(B) For clients age 21 and older, the Division limits payment for reline of complete or partial dentures to once every five years;

ADMINISTRATIVE RULES

(C) The Division may make exceptions to this limitation under the same conditions warranting replacement;

(D) Laboratory relines:

(i) Are not payable prior to six months after placement of an immediate denture; and

(ii) For clients through age 20, are limited to once every three years;

(iii) For clients age 21 and older, are limited to once every five years;

(j) Interim partial dentures (D5820-D5821, also referred to as “flip-pers”):

(A) Are allowed if the client has one or more anterior teeth missing; and

(B) The Division shall reimburse for replacement of interim partial dentures once every five years but only when dentally appropriate;

(k) Tissue conditioning:

(A) Is allowed once per denture unit in conjunction with immediate dentures; and

(B) Is allowed once prior to new prosthetic placement.

(9) MAXILLOFACIAL PROSTHETIC SERVICES:

(a) Fluoride gel carrier (D5986) is limited to those patients whose severity of oral disease causes the increased cleaning and fluoride treatments allowed in rule to be insufficient. The dental practitioner shall document failure of those options prior to use of the fluoride gel carrier;

(b) All other maxillofacial prosthetics (D5900-D5999) are medical services. Refer to the “Covered and Non-Covered Dental Services” document and OAR 410-123-1220:

(b) Bill the following procedures using the professional claim format and the appropriate American Medical Association (AMA) CPT procedure and ICD10 diagnosis codes:

(A) Procedures that are a result of a medical condition (i.e., fractures, cancer);

(B) Services requiring hospital dentistry that are the result of a medical condition/diagnosis (i.e., fracture, cancer);

(c) Refer to the “Covered and Non-Covered Dental Services” document to see a list of CDT procedure codes on the Prioritized List that may also have CPT medical codes. See OAR 410-123-1220. The procedures listed as “medical” on the table may be covered as medical procedures, and the table may not be all-inclusive of every dental code that has a corresponding medical code;

(d) For clients enrolled in a DCO or CCO responsible for dental services, the DCO or CCO shall pay for those services in the dental plan package;

(e) Oral surgical services performed in an ASC or an inpatient or outpatient hospital setting:

(A) Require PA;

(B) For clients enrolled in a CCO or FCHP, the CCO or FCHP shall pay for the facility charge and anesthesia services. For clients enrolled in a Physician Care Organization (PCO), the PCO shall pay for the outpatient facility charge (including ASCs) and anesthesia. Refer to the current Medical Surgical Services administrative rules in OAR chapter 410, division 130 for more information;

(k) Surgical extractions:

(A) Include local anesthesia and routine post-operative care;

(B) The Division limits payment for surgical removal of impacted teeth or removal of residual tooth roots to treatment for only those teeth that have acute infection or abscess, severe tooth pain, and unusual swelling of the face or gums;

(C) The Division does not cover alveoplasty in conjunction with extractions (D7310 and D7311) separately from the extraction;

(D) The Division covers alveoplasty not in conjunction with extractions (D7320-D7321) only for clients under 21 years of age or who are pregnant;

(I) Frenulectomy/frenulotomy (D7960) and frenuloplasty (D7963):

(A) The Division covers either frenulectomy or frenuloplasty once per lifetime per arch only for clients under age 21;

(c) Documentation in the client’s record shall include diagnosis, length, and type of treatment;

(d) Payment for appliance therapy includes the appliance and all follow-up visits;

(e) Orthodontists evaluate orthodontia treatment for cleft palate/cleft lip as two phases. Stage one is generally the use of an activator (palatal expander), and stage two is generally the placement of fixed appliances (banding). The Division shall reimburse each phase separately;

(f) The Division shall pay for orthodontia in one lump sum at the beginning of each phase of treatment. Payment for each phase is for all orthodontia-related services. If the client transfers to another orthodontist during treatment, or treatment is terminated for any reason, the orthodontist shall refund to the Division any unused amount of payment after applying the following formula: Total payment minus \$300.00 (for banding) multiplied by the percentage of treatment remaining;

(g) The Division shall use the length of the treatment plan from the original request for authorization to determine the number of treatment months remaining;

Procedure and Diagnosis Codes

(1) The Division requires providers to use the standardized code sets adopted by the Health Insurance Portability and Accountability Act (HIPAA) and the Centers for Medicare and Medicaid Services (CMS). Unless otherwise directed in rule, providers must accurately code claims according to the national standards in effect for the date the service(s) was provided.

(2) Procedure codes:

(a) For dental services, use Current Dental Terminology (CDT) codes as maintained and distributed by the American Dental Association. Contact the American Dental Association (ADA) to obtain a current copy of the CDT reference manual. Current Dental Terminology (including procedure codes, definitions (descriptors) and other data) is copyrighted by the ADA. © 2012 American Dental Association. All rights reserved. Applicable Federal Acquisition Regulation Clauses/Department of Defense Federal Acquisition Regulation Supplement (FARS/DFARS) apply;

(b) For physician services and other health care services, use Health Care Common Procedure Coding System (HCPCS) and Current Procedural Terminology (CPT) codes.

(3) Diagnosis codes:

(a) International Classification of Diseases 10th Clinical Modification (ICD-10-CM) diagnosis codes are not required for dental services submitted on an ADA claim form;

(b) When Oregon Administrative Rule (OAR) 410-123-1260 requires services to be billed on a professional claim form, ICD-10-CM diagnosis

codes are required. Refer to the Medical-Surgical administrative rules for additional information, OAR 410 division 130.

410-124-0000

Transplant Services

(1) The Division of Medical Assistance Programs (Division) will make payment for prior authorized and emergency transplant services identified in these rules as covered for eligible clients receiving the OHP Plus benefit package and when the Division transplant criteria described in OAR 410-124-0010 and 410-124-0060 through 410-124-0160 is met. All other Benefit Packages do not cover transplant.

(2) The Division will only prior authorize and reimburse for transplants if:

(a) All Division criteria are met; and

(b) Both the transplant center's and the specialist's evaluations recommend that the transplant be authorized; and

(c) The ICD-10-CM diagnosis code(s) and CPT transplant procedure code(s) are paired on the same currently funded line on the Prioritized List of Health Services adopted under OAR 410-141-0520.

(3) Simultaneous multiple organ transplants are covered only if specifically identified as paired on the same currently funded line on the Oregon Health Plan (OHP) Prioritized List of Health Services whether the transplants are for the same underlying disease or for unrelated, but concomitant, underlying diseases.

(4) Not Covered Transplant Services: The following types of transplants are not covered by the Division:

(a) Transplants which are considered experimental or investigational or which are performed on an experimental or investigational basis, as determined by the Division;

(b) Transplant services which are contraindicated, as described in OAR 410-124-0060 through 410-124-0160;

(c) Transplants which have not been prior authorized for payment by the Division or the client's managed health care plan;

(d) Transplants which do not meet the guidelines for an emergency transplant in OAR 410-124-0040;

(e) Transplants which are not described as covered in OAR 410-141-0480 and 410-141-0520.

(5) Selection of Transplant Centers: Transplant services will be reimbursed only when provided in a transplant center that provides quality services, demonstrates good patient outcomes and compliance with all Division facility criteria. The transplant center must have provided transplant services for a period of at least two years and must have completed a minimum of 12 cases in the most recent year. The patient-and-graft-survival rates must be equal to or greater than the appropriate standard indicated in this rule. A transplant center which has had at least two years of experience in transplantation of any solid organ (heart, liver, lung, pancreas) and which has met or exceeded the appropriate standards may be considered for reimbursement for the transplantation of other solid organs and/or autologous or allogeneic bone marrow transplantation:

(a) An experienced and proficient transplant team and a well established transplant support infrastructure at the same physical location as the transplant service is required for transplant services rendered to Division clients. These transplant criteria are crucial to successful transplant outcome. Therefore, consortia will not be approved or contracted with for the provision of transplant services for Division clients. No Division transplant contract, prior approval or reimbursement will be made to consortia for transplant services where, as determined by the Division, there is no assurance that the individual facilities that make up the consortia independently meet Division criteria. The Division's transplant criteria must be met individually by a facility to demonstrate substantial experience with the procedure;

(b) Once a transplant facility has been approved and contracted for Division transplant services, it is obliged to report immediately to the Division any events or changes that would affect its approved status. Specifically, a transplant facility is required to report, within a reasonable period of time, any significant decrease in its experience level or survival rates, the departure of key members of the transplant team or any other major changes that could affect the performance of transplants at the facility. Changes from the terms of approval may lead to prospective withdraw-

ADMINISTRATIVE RULES

al of approval for Division coverage of transplants performed at the facility;

(c) Coordinated care organizations (CCOs) that contract with non-Division contracted facilities for OHP Plus clients will develop and use appropriate transplant facility criteria to evaluate and monitor for quality services at the transplant facility;

(d) Transplant centers which have less than two years' experience in solid organ transplant may be reimbursed, at the Division's discretion, for allogeneic or autologous bone marrow transplants upon completion of two years of experience in bone marrow transplantation with patient survival rates equal to or exceeding those defined in section (5) of this rule;

(e) The Division will discontinue the contract with a transplant center when the graft and/or survival rates fall below the standards indicated in this rule for a period of two consecutive years.

(6) Standards for Transplant Centers:

(a) Heart, heart-lung and lung transplants:

(A) Heart: One-year patient survival rate of at least 80%;

(B) Heart-Lung: One-year patient survival rate of at least 65%;

(C) Lung: One-year patient survival rate of at least 65%.

(b) Bone Marrow (autologous and allogeneic), peripheral stem cell (autologous and allogeneic) and cord blood (allogeneic) transplants: One-year patient survival rate of at least 50%;

(c) Liver transplants: One year patient survival rate of at least 70% and one year graft survival rate of at least 60%;

(d) Simultaneous pancreas-kidney and pancreas-after-kidney transplants: One year patient survival rate of at least 90% and one year graft survival rate of at least 60%;

(e) Kidney transplants: One year patient survival rate of at least 92% and one year graft survival rate of at least 85%.

(7) Selection of transplant centers by geographic location: If the services are available in the state of Oregon, reimbursement will not be made to out-of-state transplant centers. Out-of-state centers will be considered only if:

(a) The type of transplant required is not available in the state of Oregon and/or the type of transplant (for example, liver transplant) is available in the state of Oregon but the Oregon transplant center does not provide that type of transplant for all clients or all covered diagnoses, (e.g., pediatric transplants); and

(b) An in-state transplant center requests the out-of-state transplant referral; and

(c) An in-state transplant facility recommends transplantation based on in-state facility and Division criteria; or

(d) It would be cost effective as determined by the Division. For example, if the transplant service is covered by the client's benefit package and the client's primary insurer (i.e., Medicare) requires the use of an out-of-state transplant center; or

(e) It is a contiguous, out-of-state transplant center that has a contract or special agreement for reimbursement with the Division.

(8) Professional and other services will be covered according to administrative rules in the applicable provider guides.

(9) Reimbursement for covered transplants and follow-up care for transplant services is as follows:

(a) For transplants for fee-for-service clients:

(A) Transplant facility services — by contract with the Division;

(B) Professional services — at the Division's maximum allowable rates.

(b) For emergency services, when no special agreement has been established, the rate will be:

(A) 75% of standard inpatient billed charge; and

(B) 50% of standard outpatient billed charge; or

(C) The payment rate set by the Medical Assistance program of the state in which the center is located, whichever is lower.

(c) For clients enrolled in CCOs, reimbursement for transplant services will be by agreement between the CCO and the transplant center.

Prior Authorization for All Covered Transplants, Except Cornea and Kidney

(1) The following services require prior authorization:

(a) All non-emergency transplant services, except for kidney alone and cornea transplants which require prior authorization only if performed out-of-state;

(b) Pre-transplant evaluations provided by the transplant center (for covered transplants only).

(2) The prior authorization request for all covered transplants is initiated by the client's in-state referring physician or the transplant physician. The initial request should contain all available information outlined in subsection (3) of this rule, below:

(a) For fee-for-service clients, the request should be sent to the Division of Medical Assistance Programs (Division);

(b) For clients enrolled in a coordinated care organization (CCO), requests for transplant services should be sent directly to the CCO.

(3) A completed request for authorization must contain the following information. Failure to submit all the information will delay processing of the request. An optional form (DMAP 3084 – Request for Transplant or Transplant Evaluation) is provided on the Transplant Services Web page at www.oregon.gov/OHA/healthplan/pages/transplant.aspx for provider convenience in submitting requests:

(a) The name, age, Oregon Health ID number, and birth date of the client;

(b) A description of the medical condition and full ICD-10-CM coding which necessitates a transplant;

(c) The type of transplant proposed, with CPT code;

(d) The results of a current HIV test, (completed within 6 months of request for transplant authorization);

(e) Any other evidence of contraindications for the type of transplant being considered (see contraindications under each transplant type);

(i) If already done before requesting prior authorization, the results of any medical and/or social evaluation completed by a transplant center should be included in the prior authorization request. The completion of an evaluation by a transplant center before receiving prior authorization from the Division does not obligate the Division to reimburse that transplant center for the evaluation or for any other transplant services not prior authorized.

(4) Prior authorization approval process and requirements:

(a) For clients receiving services on a fee-for-service basis:

(i) A medical evaluation;

(ii) An estimate of the client's motivation and ability, both physical and psychological, to adhere to the post-transplant regimen;

(iii) The transplant center's assessment of the probability of a successful outcome, based on the type of transplant requested, the condition of the client, and the client's ability to adhere to the post-transplant regimen; and

(iv) A recommendation using both the transplant center's own criteria, and the Division criteria.

(b) For Oregon Health Plan (OHP) transplant eligible clients who are in an CCO: Refer to the CCO for approval process and requirements;

(c) The prior authorization request will be approved if:

(A) All Division criteria are met; and

(B) Both the transplant center's and the specialist's evaluations recommend that the transplant be authorized; and

(C) The ICD-10-CM diagnosis code(s) and CPT transplant procedure code(s) are paired on the same currently funded line on the Prioritized List of Health Services.

ADMINISTRATIVE RULES

(5) The referring physician, transplant center, and the client will be notified in writing by the Division or the CCO of the prior authorization decision.

(6) Prior authorization of a transplant does not guarantee reimbursement for the services of any provider if, at the time the transplant is performed, intercurrent events have caused the individual's medical condition to deteriorate to the point at which survival with or without transplant for a period of more than sixty days is unlikely.

Criteria and Contraindications for Simultaneous Pancreas-Kidney and Pancreas After Kidney Transplants

(1) Prior authorization for a Simultaneous Pancreas-Kidney (SPK) or Pancreas after Kidney (PAK) transplant will be approved only for a client in whom irreversible kidney and/or pancreatic disease has advanced to the point where conventional therapy offers no prospect for prolonged survival, there is no reasonable alternative medical or surgical therapy and the client's five (5) year survival rate, subsequent to the transplant, is at least 20 percent as supported by medical literature.

(2) Simultaneous pancreas-kidney (SPK) transplant is covered only for Type I diabetes mellitus with end stage renal disease (ICD-10-CM codes E10.21, E10.22, E10.29, E10.21, E10.65).

(3) Pancreas after kidney (PAK) transplantation will be considered for clients suffering from insulin dependent Type I diabetes after prior successful renal transplant. Pancreas after kidney (PAK) transplant is covered only for Type I diabetes mellitus (ICD-10-CM codes E10.8-E10.11, E10.31, E10.36, E10.39-E10.40-E10.41, E10.44, E10.49, E10.311, E10.319, E10.321, E10.329, E10.331, E10.339, E10.349, E10.351, E10.359, E10.610, E10.618, E10.620-E10.622, E10.628, E10.630, E10.638-E10.649, E10.69, T86.10-T86.13, T86.19, T86.890-T86.92, T86.898-T86.99

(4) The following are contraindications to SPK and PAK transplants:

(a) Uncorrectable severe coronary artery disease;

(b) Major irreversible disease of any other major organ system likely to limit life expectancy to five years or less;

(c) HIV positive test results.

(5) The following may be considered contraindications to the extent that the evaluating transplant center and/or the specialist who completed the comprehensive evaluation of the client believe these condition(s) may interfere significantly with the recovery process:

(a) Serious psychological disorders;

(b) Drug abuse or alcohol abuse.

(6) The Division of Medical Assistance Programs (Division) will only prior authorize and reimburse for Simultaneous Pancreas-Kidney (SPK) or Pancreas after Kidney (PAK) transplants if:

(a) All Division criteria are met; and

(b) Both the transplant center's and the specialist's evaluations recommend that the transplant be authorized; and

(c) The ICD-10-CM diagnosis code(s) and CPT transplant procedure code(s) are paired on the same currently funded line on the Prioritized List of Health Services adopted under OAR 410-141-0520.

Coverage and Limitations

In general, most medically appropriate services are covered. There are, however, some restrictions and limitations. Please refer to the Division of Medical Assistance Programs' (Division) General Rules Program for information on general scope of coverage and limitations. Some of the limitations and restrictions that apply to hospital services are:

(1) Prior authorization (PA): Some services require PA for the Oregon Health Plan (OHP) Plus Benefit Package check OAR 410-125-0080.

(2) Non-covered services:

(a) Services that are not medically appropriate, unproven medical efficacy or services that are the responsibility of another Department of Human Services (Department) or Oregon Health Authority (Authority) Division are not covered by the Division of Medical Assistance Programs;

(b) Service coverage is based on the Health Evidence Review Commission's (HERC) Prioritized List of Services and the client's benefit package;

(c) See the General Rules Program (chapter 410, division 120) and other program divisions in chapter 410 for a list of not covered services.

Further information on covered and non-covered services is found in the Revenue Code section in the Hospital Services Supplemental Information.

(3) Limitations on hospital benefit days: Clients have no hospital benefit day limitations for treatment of covered services.

(4) Dental services: Clients have dental/denturist services identified as covered on the HERC Prioritized List (OAR 410-141-520).

(5) Services provided outside of the hospital's licensed facilities; for example, in the client's home or in a nursing home, are not covered by Division as hospital services. The only exceptions to this are Maternity Case Management services and specific nursing or physician services provided during a ground or air ambulance transport.

(6) Dialysis services require a written physician prescription. The prescription must indicate the ICD-10 diagnosis code and must be retained by the provider of dialysis services for the period of time specified in the General Rules Program.

DRG Rate Methodology

(1) Diagnosis Related Groups:

(a) Diagnosis Related Groups (DRG) is a system of classification of diagnoses and procedures based on the International Classification of Diseases, 10th Revision, Clinical Modification (ICD-10-CM);

(b) The DRG classification methodology assigns a DRG category to each inpatient service, based on the patient's diagnoses, age, procedures performed, length of stay, and discharge status.

(2) Medicare Grouper: The Medicare Grouper is the software used to assign an individual claim to a DRG category. Medicare revises the Grouper program each year in October. The Division of Medical Assistance Programs (Division) uses the Medicare Grouper program in the assignment of inpatient hospital claims. The most recent version of the Medicare grouper will be installed each year within 90 days of the date it is implemented by Medicare. Where better assignment of claims is achieved through changes to the grouper logic, the Division may modify the logic of the grouper program. The Division will work with representatives of hospitals that may be affected by grouper logic changes in reaching a cooperative decision regarding changes. The Division DRG weight tables can be found on the Division web site.

(3) DRG Relative Weights:

(a) Relative weights are a measure of the relative resources required in the treatment of the average case falling within a specific DRG category;

(b) For most DRGs, the Division establishes a relative weight based on federal Medicare DRG weights. For state-specific Rehabilitation, Neonate, and Adolescent Psychiatric DRGs, Oregon Title XIX fee-for-service claims history is used. To determine whether enough claims exist to establish a reasonable weight for each state-specific Rehabilitation, Neonate, and Adolescent Psychiatric DRG, the Division uses the following methodology: Using the formula $N = \frac{Z \cdot S}{R}$ where $Z = 1.15$ (a 75% confidence level), S is the standard deviation, and $R = 10\%$ of the mean. The Division determines the minimum number of claims required to set a stable weight for each DRG (N must be at least 5). For state-specific Rehabilitation, Neonate, and Adolescent Psychiatric DRGs lacking sufficient volume, the Division sets a relative weight using:

(A) Division non-Title XIX claims data; or

(B) Data from other sources expected to reflect a population similar to the Division Title XIX caseload;

(c) When a test shows at the 90% confidence level that an externally derived weight is not representative of the average cost of services provided to the Division Title XIX population in that DRG, the weight derived from the Division Title XIX claims history is used instead of the externally derived weight for that DRG;

(d) Those relative weights based on Federal Medicare DRG weights, will be established when changes are made to the DRG Grouper logic. State specific relative weights shall be adjusted, as needed, as determined by the Division. When relative weights are recalculated, the overall Case Mix Index (CMI) will be kept constant. Reweighting of DRGs or the addition or modification of the grouper logic will not result in a reduction of overall payments or total relative weights.

ADMINISTRATIVE RULES

(4) Case Mix Index: The hospital-specific case mix index is the total of all relative weights for all services provided by a hospital during a period, divided by the number of discharges.

(5) Unit Value: Hospitals larger than fifty (50) beds are reimbursed using the Diagnosis Related Grouper (DRG) as described in (2). Effective for services on or after:

(a) August 15, 2005, the operating unit payment is 100% of 2004 Medicare and related data published in Federal Register/Vol. 68, No. 148, August 1, 2003. The unit value is also referred to as the operating unit per discharge.

(b) May 1, 2009, the operating unit payment is 108.5% of the 2004 Medicare and related data published in Federal Register/Vol. 68, No. 148, August 1, 2003. The unit value is also referred to as the operating unit per discharge.

(c) Effective October 1, 2009 the operating unit payment is 100% of the most recent version of the Medicare base payment rates. The Division will revise the base payment rates each year in October when Medicare posts the rates.

(6) DRG Payment: The DRG payment to each Oregon DRG hospital is calculated by adding the unit value to the capital amount, then multiplied by the claim assigned DRG relative weight (out of state hospitals do not receive the capital amount).

(7) Cost Outlier Payments:

(a) Cost outlier payments are an additional payment made to in-state and contiguous hospitals for exceptionally costly services or exceptionally long lengths of stay provided to Title XIX and SF (State Facility) clients;

(b) For dates of service on and after March 1, 2004 the calculation to determine the cost outlier payment for Oregon DRG hospitals is as follows:

(A) Non-covered services (such as ambulance charges) are deducted from billed charges;

(B) The remaining billed charges are converted to hospital-specific costs using the hospital's cost-to-charge ratio derived from the most recent audited Medicare cost report and adjusted to the Medicaid caseload;

(C) If the hospital's net costs as determined above are greater than 270 percent of the DRG payment for the admission and are greater than \$25,000, an additional cost outlier payment is made;

(D) Costs which exceed the threshold (\$25,000 or 270% of the DRG payment, whichever is greater) are reimbursed using the following formula:

- (i) Billed charges less non-covered charges, multiplied by;
- (ii) Hospital-specific cost-to-charge ratio equals;
- (iii) Net Costs, minus;
- (iv) 270% of the DRG or \$25,000 (whichever is greater), equals;
- (v) Outlier Costs, multiplied by;
- (vi) Cost Outlier Percentage, (cost outlier percentage is 50%), equals;
- (vii) Cost Outlier Payment;

(E) Third party reimbursements are deducted from the Division calculation of the payable amount;

(F) When hospital cost reports are audited during the cost settlement process, an adjustment will be made to cost outlier payments to reflect the actual Medicaid hospital-specific cost-to-charge ratio during the time cost outlier claims were incurred. The cost-to-charge ratio in effect for that period of time will be determined from the audited Medicare Cost Report and DMAP 42, adjusted to reflect the Medicaid mix of services.

(8) Capital:

(a) The capital payment is a reimbursement to in-state hospitals for capital costs associated with the delivery of services to Title XIX, non-Medicare persons. The Division uses the Medicare definition and calculation of capital costs. These costs are taken from the Hospital Statement of Reimbursable Cost (Medicare Report);

(b) For the dates of service on and after March 1, 2004 the Capital cost per discharge is one hundred (100) percent of the published Medicare capital rate for fiscal year 2004, see (5). The capital cost is added to the Unit Value and paid per discharge.

(c) Effective October 1, 2009 the Capital cost per discharge is one hundred (100) percent of the current year Medicare capital rate and updated every October thereafter, see (5). The capital cost is added to the Unit Value and paid per discharge.

(9) Direct Medical Education:

(a) The direct medical education payment is a reimbursement to in-state hospitals for direct medical education costs associated with the delivery of services to Title XIX eligible persons. The Division uses the Medicare definition and calculation of direct medical education costs. These costs are taken from the Hospital Statement of Reimbursable Cost (Medicare Report);

(b) Direct medical education cost per discharge is calculated as follows:

(A) The direct medical education cost proportional to the number of Title XIX non-Medicare discharges during the period from July 1, 1986 through June 30, 1987 are divided by the number of Title XIX non-Medicare discharges. This is the Title XIX direct medical education cost per discharge;

(B) The Title XIX direct medical education cost per discharge for this period is inflated forward to January 1, 1992, using the compounded HCFA-DRI market basket adjustment;

(c) Direct medical education payment per discharge:

(A) The number of Title XIX non-Medicare discharges from each hospital for the quarterly period is multiplied by the inflated Title XIX cost per discharge. This determines the current quarter's Direct Medical Education costs. This amount is then multiplied by 85%. Payment is made within thirty days of the end of the quarter;

(B) The Direct Medical Education Payment per Discharge will be adjusted at an inflation factor determined by the Department in consideration of inflationary trends, hospital productivity and other relevant factors.

(C) Notwithstanding subsection (9) of this rule, this subsection becomes effective for dates of service:

(i) On July 1, 2006 and thereafter direct medical education payments will not be made to hospitals; and

(ii) On July 1, 2008 and thereafter direct medical education payments will be made to hospitals, but will not be operative as the basis for payments until the Division determines all necessary federal approvals have been obtained.

(10) Indirect Medical Education:

(a) The indirect medical education payment is a reimbursement made to in-state hospitals for indirect medical education costs associated with the delivery of services to Title XIX non-Medicare clients;

(b) Indirect medical education costs are those indirect costs identified by Medicare as resulting from the effect of teaching activity on operating costs;

(c) Indirect medical education payments are made to in-state hospitals determined by Medicare to be eligible for such payments. The indirect medical education factor in use by Medicare for each of these eligible hospitals at the beginning of the State's fiscal year is the Division indirect medical education factor. This factor is used for the entire Oregon fiscal year;

(d) For dates of service on and after March 1, 2004 the calculation for the Indirect Medical Education quarterly payment is as follows: Total paid discharges during the quarter multiplied by the Case Mix Index, multiplied by the hospital specific February 29, 2004 Unit Value, multiplied by the Indirect Factor equals the Indirect Medical Education Payment;

(e) Effective October 1, 2009, the calculation of the Indirect Medical Education quarterly payment is as follows: Total paid discharges during the quarter multiplied by the Case Mix Index, multiplied by the hospital unit value, see (5)(c), multiplied by the indirect factor equals the Indirect Medical Education Payment.

(f) This determines the current quarter's Indirect Medical Education Payment. Indirect medical education payments are made quarterly to each eligible hospital. Payment for indirect medical education costs will be made within thirty days of the end of the quarter.

(g) Notwithstanding subsection (10) of this rule, this subsection becomes effective for dates of service:

(A) On July 1, 2006 and thereafter Indirect Medical Education payment will not be made to hospitals; and

(B) On July 1, 2008 and thereafter Indirect Medical Education payments will be made to hospitals, but will not be operative as the basis for payments until the Division determines all necessary federal approvals have been obtained.

410-125-1080 Documentation

(1) Federal regulations require Medicaid providers to maintain records that fully support the extent of services for which payment has been requested, and that such records be furnished to the Division upon request (42 CFR 431.107).

(2) When requested by the Division or its medical review contractor, hospitals must submit sufficient medical documentation to verify the emergency nature, medical necessity, quality and appropriateness of treatment, and appropriateness of the length of stay for inpatient and outpatient hospital services. The Division may request sufficient information to evaluate the accuracy and appropriateness of ICD-10-CM Coding for the claim. In addition, the Division may request an itemized billing for all services provided. The Division will specify in its request what documentation is required.

410-125-2020 Post Payment Review

(1) All services provided by a hospital in the inpatient or outpatient setting are subject to post-payment review by the Division. Both emergency and non-emergency services may be reviewed. Claims for services may be reviewed to determine:

- (a) The medical necessity of the admission or outpatient services provided;
- (b) The appropriateness of the length of stay;
- (c) The appropriateness of the plan of care;
- (d) The accuracy of the ICD-10 coding and DRG assignment;
- (e) The appropriateness of the setting selected for service delivery;
- (f) The quality of care of the services provided;
- (g) The nature of any service coded as emergent;
- (h) The accuracy of the billing;
- (i) The care furnished is appropriately documented.

(2) If the Division determines that a hospital service was not within Division coverage parameters, the hospital and attending physician shall be notified in writing and will have twenty days to provide additional written documentation to support the medical necessity of the admission and/or procedure(s).

(3) If the recommendation for denial is upheld by the Division, the hospital and/or practitioner may request a reconsideration of the denial within 30 days of the receipt of the denial.

(4) If the reconsidered decision is to uphold the denial, payment to all providers of service shall be recovered.

(5) The hospital and/or practitioner may appeal any final decision through the Division administrative appeals process.

(6) No payment shall be made by the Division for inpatient services if the Division or Medicare has determined the service is not medically necessary and/or appropriate.

410-127-0040 Coverage

(1) Home health services are made available on a visiting basis to eligible clients in their homes as part of a written "plan of care."

(2) Home health services must be prescribed by a physician and the signed order must be on file at the home health agency. The prescription must include the ICD-10-CM diagnosis code indicating the reason the home health services are requested. The orders on the plan of care must specify the type of services to be provided to the client, with respect to the professional who will provide them, the nature of the individual services, specific frequency and specific duration. The orders must clearly indicate how many times per day, each week and/or each month the services are to be provided. The plan of care must include the client's condition, the rationale for the care plan including justification for the required skill level of care, and the summary of care for additional certification periods.

(3) The plan of care must be reviewed and signed by the physician every two months to continue services.

(4) The following services or items are covered, if diagnoses are on the portion of the prioritized list above the line funded by the Legislature:

- (a) Skilled nursing services;
- (b) Skilled nursing evaluation (includes Outcome and Assessment Information Set (OASIS) assessment);
- (c) Home Health aide services;

410-129-0060 Prescription Required

(1) The prescription is the written order by the prescribing practitioner pursuant to state law governing speech-pathology, audiology and hearing aid services. Prescription must specify the ICD-10-CM diagnosis code for all speech-pathology, audiology and hearing aid services that require payment/prior authorization.

(2) The provision of speech therapy services must be supported by a written order and a therapy treatment plan signed by the prescribing practitioner. A practitioner means a person licensed pursuant to State law to engage in the provision of health care services within the scope of the practitioner's license and/or certification.

(3) A written order:

- (a) Is required for the initial evaluation;
- (b) For therapy, must specify the ICD-10-CM diagnosis code, service, amount and duration required.

(4) Written orders must be submitted with the payment (prior) authorization request and a copy must be on file in the provider's therapy record. The written order and the treatment plan must be reviewed and signed by the prescribing practitioner every six months.

(5) Authorization of payment to an audiologist or hearing aid dealer for a hearing aid will be considered only after examination for ear pathology and written prescription for a hearing aid by an ear, nose, and throat specialist (ENT) or general practitioner who has training to examine the ear and performs within the scope of his/her practice, i.e. primary care physician (not appropriate is an orthopedic specialist, chiropractor, gynecologist, etc.).

410-130-0160 Codes

(1) ICD-10-CM Diagnosis Codes:

(a) Always use the principal diagnosis code in the first position to the highest degree of specificity. List additional diagnosis codes if the claim includes charges for services that relate to the additional diagnoses.

ADMINISTRATIVE RULES

However, it is not necessary to include more than one diagnosis code per procedure code;

(b) Diagnosis codes are required on all billings including those from independent laboratories and portable radiology including nuclear medicine and diagnostic ultrasound providers;

(c) Always supply the ICD-10-CM diagnosis code to ancillary service providers when prescribing services, equipment, and supplies.

(2) CPT and HCPCS Codes:

(a) Use only codes from the current year for Current Procedural Terminology (CPT) and Healthcare Common Procedure Coding System (HCPCS) codes;

(b) Effective January 1, 2005, HIPAA regulations prohibit the use of a grace period for codes deleted from CPT or HCPCS. In the past the grace period was from January 1 through March 31;

(c) The division may consider reimbursement for CPT category III codes included under the following headings: Adaptive Behavior Assessments, Adaptive Behavior Treatment, and Exposure Adaptive Behavior Treatment With Protocol Modification. All CPT category II (codes with fifth character of "F") and all other category III codes (codes with fifth character "T") are not Division of Medical Assistance Programs' (Division) covered services;

(d) Use the most applicable CPT or HCPCS code. Do not fragment coding when services can be included in a single code (see the "Bundled Services" section of this rule). Do not use both CPT and HCPCS codes for the same procedure. This is considered duplicate billing.

(3) The Medical-Surgical Service rules list the HCPCS/CPT codes that require authorization or have limitations. The Health Evidence Review Commission's Prioritized List of Health Services (rule 410-141-0520) determines covered services.

(4) For determining the appropriate level of service code for Evaluation and Management services, read the definitions in the CPT and HCPCS codebook. Use the definitions to verify level of service, especially for office visits. Unless otherwise specified in the Medical-Surgical provider rule, use the guidelines from CPT and HCPCS.

(5) Bundled Services: Reimbursements for some services are "bundled" into the payment for another service. The Division does not make separate payment for bundled services and clients may not be billed for bundled services. The Division's Not Covered/Bundled Services rule, OAR 410-130-0220, provides more information regarding bundled services.

Tobacco Cessation

(1) Tobacco treatment interventions may include one or more of these services: basic, intensive, and telephone calls.

(2) Basic tobacco cessation treatment includes the following services:

(a) Ask — systematically identify all tobacco users — usually done at each visit;

(b) Advise — strongly urge all tobacco users to quit using;

(c) Assess — the tobacco user's willingness to attempt to quit using tobacco within 30 days;

(d) Assist — with brief behavioral counseling, treatment materials and the recommendation/prescription of tobacco cessation therapy products (e.g., nicotine patches, oral medications intended for tobacco cessation treatment and gum);

(e) Arrange — follow-up support and/or referral to more intensive treatments, if needed.

(3) When providing basic treatment, include a brief discussion to address client concerns and provide the support, encouragement, and counseling needed to assist with tobacco cessation efforts. These brief interventions, less than 6 minutes, generally are provided during a visit for other conditions, and additional billing is not appropriate.

(4) Intensive tobacco cessation treatment is on the Health Services Commission's Prioritized List of Health Services and is covered if a documented quit date has been established. This treatment is limited to ten ses-

sions every three months. Treatment is reserved for those clients who are not able to quit using tobacco with the basic intervention measures.

(5) Intensive tobacco cessation treatment includes the following services:

(a) Multiple treatment encounters (up to ten in a 3 month period);

(b) Behavioral and tobacco cessation therapy products (e.g., nicotine patches, oral medications intended for tobacco cessation treatment and gum);

(c) Individual or group counseling, six minutes or greater.

(6) Telephone calls: the Division may reimburse a telephone call intended as a replacement for face-to-face contact with clients who are in intensive treatment as it is considered a reasonable adjunct to, or replacement for, scheduled counseling sessions:

(a) The call must last six to ten minutes and provides support and follow-up counseling;

(b) The call must be conducted by the provider or other trained staff under the direction or supervision of the provider;

(c) Enter proper documentation of the service in the client's chart.

(7) Diagnosis Code ICD-10-CM (F17.200-F17.299; Nicotine Dependence):

(a) Use as the principal diagnosis code when the client is enrolled in a tobacco cessation program or if the primary purpose of the visit is for tobacco cessation services;

(b) Use as a secondary diagnosis code when the primary purpose of this visit is not for tobacco cessation or when the tobacco use is confirmed during the visit.

(8) Billing Information: Coordinated care organizations and managed care plans may have tobacco cessation services and programs. This rule does not limit or prescribe services a Prepaid Health Plan provides to clients receiving OHP benefits.

Abortion

For medically induced abortions by oral ingestion of medication use S0199 for all visits, counseling, lab tests, ultrasounds, and supplies. S0199 is a global package except for medication:

(1) Bill medications with codes S0190-S0191 and appropriate HCPCS codes.

(2) For surgical abortions use CPT codes 59840 through 59857:

(3) For services related to surgical abortion such as lab, ultrasound and pathology bill separately. Add modifier U4 (a Division of Medical Assistance Programs (Division) modifier) for surgical abortion related services.

(4) Use the most appropriate ICD-10 diagnosis code.

Prior Authorization

(1) Prior Authorization (PA) is defined in Oregon Administrative Rule (OAR) 410-120-0000 Acronyms and Definitions. Providers must obtain a PA from the:

(a) Enrolled member's Prepaid Health Plan (PHP) or Coordinated Care Organization (CCO) (See OAR 410-140-0020 and refer to 410-120-0250, PHP or CCOs.); and

(b) Division of Medical Assistance Programs (Division) for clients who receive services on a fee-for-services basis and are not enrolled with a PHP or CCO.

(2) A PA does not guarantee eligibility or reimbursement. It is the responsibility of the provider to verify the client's eligibility on the date of service and whether a PHP, CCO or the Division is responsible for reimbursement. Refer to OAR 410-120-1140 Verification of Eligibility.

(3) A PA is not required for clients with both Medicare and Division coverage when the service or item is covered by Medicare.

(4) It is the provider's responsibility to determine if a PA is required and to comply with all PA requirements outlined in these Visual Services administrative rules. See also OAR 410-120-1320 Authorization of Payment.

(5) It is the provider's responsibility to ensure:

(a) PA requests are completed and submitted correctly. The Division does not accept PA requests via the phone. Refer to the Visual Services Supplemental Information Guide found on this Division website at www.oregon.gov/OHA/healthplan/pages/vision.aspx;

(b) PA requests include:

(A) A statement of medical appropriateness showing the need for the item or service and why other options are inappropriate;

(B) Diopter information and appropriate International Classification of Diseases, 10th revision, Clinical Modification (ICD-10-CM) diagnosis codes;

(C) All relevant documentation that is needed for Division staff to make a determination for authorization of payment, including clinical data or evidence, medical history, any plan of treatment, or progress notes;

(c) The service is adequately documented. (See OAR 410-120-1360 Requirements for Financial, Clinical and Other Records.) Providers must maintain documentation in the provider's files to adequately determine the type, medical appropriateness, or quantity of services provided;

(d) The services or items provided are consistent with the information submitted when authorization was requested;

(e) The services billed are consistent with those services provided; and

(f) The services are provided within the timeframe specified on the authorization of payment document.

(6) It is the providers' responsibility to comply with the Division's PA requirements or other policies necessary for reimbursement before providing services to any OHP client who is not enrolled in a PHP. Services or items denied due to provider error (e.g., required documentation not submitted, prior authorization not obtained, etc.), cannot be billed to the client. (See OAR 410-120-1280.)

(7) Vision services requiring PA include:

(a) Contact lenses for adults (age 21 and older) and excludes a primary keratoconus diagnosis, which is exempt from the PA requirement. See OAR 410-140-0160 Contact Lens Services for service and supply coverage and limitations;

(b) Vision therapy greater than six sessions. Six sessions are allowed per calendar year without PA. See also 410-140-0280 Vision Therapy Services; and

(c) Specific vision materials (See OAR 410-140-0260 Purchase of Ophthalmic Materials for more information.);

(A) Frames not included in the Division's contract with contractor, SWEEP Optical;

(B) Deluxe frames; and

(C) Specialty lenses or lenses considered as "not otherwise classified" by Health Care Common Procedure Coding System (HCPCS);

(d) An unlisted ophthalmological service or procedure, or "By Report" (BR) procedures.

(8) The Division sends Notice of all approved PA requests for vision materials to DMAP's contractor, SWEEP Optical; who forwards a copy of the PA approval and confirmation number to the requesting provider. (See OAR 410-140-0260 Purchase of Ophthalmic Materials.)

ICD-9-CM Diagnosis, CPT/HCPCS Procedure Codes, and Modifiers

(1) The Division of Medical Assistance Program (Division) requires an International Classification of Diseases, 10th revision, Clinical Modification (ICD-10-CM) diagnosis code on all claims. Refer to OAR 410-120-1280 Billing for diagnosis code requirements.

(2) Providers are responsible to provide the client's diagnosis to ancillary service providers (e.g. SWEEP Optical Laboratories) when prescribing services, equipment, and supplies.

(3) The Division requires providers to use the standardized code sets required by the Health Insurance Portability and Accountability Act (HIPAA) and adopted by the Centers for Medicare and Medicaid Services (CMS). Providers are required to accurately code claims using the combination of Health Care Common Procedure Coding System (HCPCS) and Current Procedural Terminology (CPT) codes in effect for the date the service(s) was provided:

(a) Providers shall comply with published guidelines. Providers may not bill CPT or HCPCS procedure codes for separate procedures when a single CPT or HCPCS code includes all services provided.

(b) Intermediate and comprehensive ophthalmological services as described under the ophthalmology section of the CPT codebook shall be billed using codes included under this section and not those included under the Evaluation and Management section.

(c) When there is no appropriate descriptive procedure code to bill the Division, the provider shall use the code for "unlisted services." See OAR 410-140-0040 Prior Authorization.

(4) The Division recognizes HIPAA compliant modifiers.

Oregon Health Plan Benefit Package of Covered Services

(1) Division members are eligible to receive, subject to section (11) of this rule, those treatments for the condition/treatment pairs funded on the Health Evidence Review Commission (HERC) Prioritized List of Health Services adopted under OAR 410-141-0520 when such treatments are medically or dentally appropriate, except that services shall also meet the prudent layperson standard defined in 410-141-0140. Refer to 410-141-0520 for funded line coverage information.

(2) Medical Assistance Benefit Packages follow practice guidelines adopted by the HERC in conjunction with the Prioritized List of Health Services unless otherwise specified in rule.

(3) Diagnostic services that are necessary and reasonable to diagnose the member's presenting condition are covered services regardless of the placement of the condition on the Prioritized List of Health Services.

(4) Comfort care is a covered service for a member with a terminal illness.

(5) Preventive services promoting health and reducing the risk of disease or illness are covered services for members. These services include, but are not limited to, periodic medical and dental exams based on age, sex, and other risk factors; screening tests; immunizations; and counseling regarding behavioral risk factors (See OAR 410-141-0520 Prioritized List of Health Services).

(6) Ancillary services are covered subject to the service limitations of the OHP program rules when the services are medically or dentally appropriate for the treatment of a covered condition/treatment pair, or the provision of ancillary services will enable the member to retain or attain the capability for independence or self-care.

(7) The provision of SUD services shall comply with Addictions and Mental Health Division (AMH) administrative rules, OAR 415-012-0000 "Standards for Approval/Licensure of Alcohol and Other Drug Abuse Programs," OAR 415-020 "Standards for Outpatient Synthetic Opiate Treatment Programs," OAR 415-050 "Standards for Alcohol Detoxification Centers," OAR 309-018 "Residential Substance Use Disorders and Problem Gambling Treatment and Recovery Services," OAR 309-019 "Outpatient Addictions and Mental Health Services," OAR 309-022 "Intensive Treatment Services for Children and Adolescents and Children's Emergency Safety Intervention Specialist," and the requirements in the SUD subsection of the Statement of Work in the CCO and PCO contracts.

(8) In addition to the coverage available under section (1) of this rule, a member may be eligible to receive, subject to section (11), services for treatments that are below the funded line or not otherwise excluded from coverage:

(a) Services may be provided if it can be shown that:

(A) The OHP member has a funded condition for which documented clinical evidence shows that the funded treatments are not working or are contraindicated; and

(B) Concurrently has a medically related unfunded condition that is causing or exacerbating the funded condition; and

(C) Treating the unfunded medically related condition would significantly improve the outcome of treating the funded condition;

(D) Ancillary services that are excluded and other services that are excluded are not subject to consideration under this rule;

(E) Any unfunded or funded co-morbid conditions or disabilities shall be represented by an ICD-10-CM diagnosis code or when the condition is a mental disorder, represented by DSM-V diagnosis coding to the highest level of axis specificity; and

ADMINISTRATIVE RULES

(F) In order for the treatment to be covered, there shall be a medical determination and finding by the Division for fee-for-service OHP clients or a finding by the Prepaid Health Plan (PHP) for members that the terms of subsection (a)(A)–(C) of this rule have been met based upon the applicable:

- (i) Treating physician opinion;
- (ii) Medical research;
- (iii) Community standards; and
- (iv) Current peer review.

(b) Before denying treatment for an unfunded condition for any member, especially a member with a disability or with a co-morbid condition, providers shall determine whether the member has a funded condition/treatment pair that would entitle the member to treatment under the program, and both the funded and unfunded conditions shall be represented by an ICD- 10-CM diagnosis code, or when the condition is a mental disorder, represented by DSM-V diagnosis coding to the highest level of axis specificity.

(9) The Division shall maintain a telephone information line for the purpose of providing assistance to practitioners in determining coverage under the OHP Benefit Package of Covered Services. The telephone information line shall be staffed by registered nurses who shall be available during regular business hours. If an emergency need arises outside of regular business hours, the Division shall make a retrospective determination under this section, provided the Division is notified of the emergency situation during the next business day. If the Division denies a requested service, the Division shall provide written notification and a notice of the right to an administrative hearing to both the OHP member and the treating physician within five working days of making the decision.

(10) If a condition/treatment pair is not on the HERC Prioritized List of Health Services and the Division determines the condition/treatment pair has not been identified by the HERC for inclusion on the list, the Division shall make a coverage decision in consultation with the HERC.

(11) Coverage of services available through the OHP Benefit Package of Covered Services is limited by OAR 410-141-0500 (Excluded Services and Limitations for Oregon Health Plan Clients).

(12) General anesthesia for dental procedures that are medically and dentally appropriate to be performed in a hospital or ambulatory surgical setting may be used only for those members as detailed in OAR 410-123-1490.

ICD-9-CM Diagnosis Codes and CPT/HCPCS Procedure Codes

(1) The Division of Medical Assistance Program (Division) requires diagnosis codes on all claims, including those submitted by independent laboratories and portable radiology, including nuclear medicine and diagnostic ultrasound providers. A clinic must always provide the client's diagnosis to ancillary service providers when prescribing services, equipment, and supplies.

- (2) The appropriate ICD-10-CM code must be used to identify:
 - (a) Diagnoses;
 - (b) Symptoms;
 - (c) Conditions;
 - (d) Problems;
 - (e) Complaints; or
 - (f) Other reasons for the encounter/visit.
- (3) Clinics must list the principal diagnosis in the first position on the claim. Use the principal diagnosis code for the diagnosis, condition, problem, or other reason for an encounter/visit shown in the medical record to be chiefly responsible for the services provided. Clinics may list up to three additional diagnosis codes on the claim for documented conditions that coexist at the time of the encounter/visit and require or affect client care, treatment, or management.

(4) Clinics must list the diagnosis codes using the highest degree of specificity available in the ICD-10-CM. The Division considers a diagnosis code invalid if it has not been coded to its highest specificity.

(5) The Division requires providers to use the standardized code sets required by the Health Insurance Portability and Accountability Act (HIPAA) and adopted by the Centers for Medicare and Medicaid Services (CMS). Unless otherwise directed in rule, providers must accurately code claims according to the national standards in effect for the date the service(s) was provided.

(a) For dental services, use codes that are in effect for the date the services(s) was provided that are found in Dental Procedures and Nomenclature as maintained and distributed by the American Dental Association;

(b) For health care services, use the combination of Health Care Common Procedure Coding System (HCPCS) and Current Procedural Terminology (CPT) codes in effect for the date the services(s) was provided. These services include, but are not limited to, the following:

- (A) Physician services;
- (B) Physical and occupational therapy services;
- (C) Radiology procedures;
- (D) Clinical laboratory tests;
- (E) Other medical diagnostic procedures;
- (F) Hearing and vision services.

(6) The Division maintains unique coding and claim submission requirements for administrative exams and Death With Dignity services. Refer to OAR 410 division 150, Administrative Examination and Billing Services, and OAR 410-130-0670, Death with Dignity Services for specific requirements.

Encounter and Recognized Practitioners

(1) The Division of Medical Assistance Programs (Division) will reimburse enrolled American Indian/Alaska Native (AI/AN) providers as follows:

(a) For services, items and supplies that meet the criteria of a valid encounter in sections (5) through (7) of this rule;

(b) Reimbursement is limited to the Division's Medicaid-covered services according to a client's Oregon Health Plan (OHP) benefit package. These services include ambulatory services included in the State Plan under Title XIX or Title XXI of the Social Security Act. Other services that are not defined in this rule or the State Plan under Title XIX or Title XXI of the Social Security Act are not reimbursed by the Division.

(2) AI/AN providers reimbursed according to a cost-based rate under the Prospective Payment System (PPS) are directed to Oregon administrative rule (OAR) 410-147-0120, Encounter and Recognized Practitioners, in the Division's Federally Qualified Health Centers and Rural Health Clinics Program.

(3) AI/AN providers reimbursed according to the IHS rate are subject to the requirements of this rule.

(4) Services provided to Citizen/Alien-Waived Emergency Medical (CAWEM) and Qualified Medicare Beneficiary (QMB) only clients are not billed according to encounter criteria and not reimbursed at the IHS encounter rate (refer to OAR 410-120-1210, Medical Assistance Benefit Packages and Delivery System).

(5) For the provision of services defined in Titles XIX and XXI, and provided through an IHS or Tribal 638 facility, an "encounter" is defined as a face-to-face or telephone contact between a health care professional and an eligible OHP client within a 24-hour period ending at midnight, as documented in the client's medical record. Section (7) of this rule outlines limitations for telephone contacts that qualify as encounters.

(6) An encounter includes all services, items and supplies provided to a client during the course of an office visit, and "incident-to" services (except as excluded in section (15) of this rule). The following services are inclusive of the visit with the core provider meeting the criteria of a reimbursable valid encounter and are not reimbursed separately:

(a) Drugs or medication treatments provided during the clinic visit, with the exception of contraception supplies and medications as costs for these items are excluded from the IHS encounter rate calculation (refer to OAR 410-146-0200, Pharmacy);

ADMINISTRATIVE RULES

(b) Medical supplies, equipment, or other disposable products (e.g. gauze, band-aids, wrist brace); and

(c) Venipuncture for laboratory tests.

(7) Telephone encounters only qualify as a valid encounter for services provided in accordance with OAR 410-130-0595, Maternity Case Management (MCM) and OAR 410-130-0190, Tobacco Cessation (refer to OAR 410-120-1200). Telephone encounters must include all the same components of the service when provided face-to-face. Providers must not make telephone contacts at the exclusion of face-to-face visits.

(8) The following services may be Medicaid-covered services according to an OHP client's benefit package as a stand-alone service; however, when furnished as a stand-alone service, are not reimbursable:

(a) Case management services for coordinating care for a client;

(b) Sign language and oral interpreter services;

(c) Supportive rehabilitation services including, but not limited to, environmental intervention, supported employment, or skills training and activity therapy to promote community integration and job readiness.

(9) AI/AN providers may provide certain services, items and supplies that are prohibited from being billed under the health centers provider enrollment and that require separate enrollment (see OAR 410-146-0021, AI/AN Provider Enrollment). These services include:

(a) Durable medical equipment, prosthetics, orthotics or medical supplies (DMEPOS) (e.g. diabetic supplies) not generally provided during the course of a clinic visit (refer to OAR chapter 410, division 122, DMEPOS);

(b) Prescription pharmaceutical and/or biologicals not generally provided during the clinic visit must be billed to the Division through the pharmacy program (refer to OAR chapter 410, division 121, Pharmaceutical Services);

(c) Targeted case management (TCM) services. For specific information, refer to OAR chapter 410, division 138, TCM.

(10) Client contact with more than one health professional for the same diagnosis or multiple encounters with the same health professional that take place on the same day and at a single location constitute a single visit. For exceptions to this rule, see OAR 410-146-0086 for reporting multiple encounters.

(11) For claims that require a procedure and diagnosis code the provider must bill as instructed in the appropriate Division program rules and must use the appropriate HIPAA procedure Code Set established according to 45 CFR 162.1000 to 162.1011, which best describes the specific service or item provided (refer to OARs 410-120-1280, Billing and 410-146-0040, ICD-10-CM Diagnosis Codes and CPT/HCPCs Procedure Codes).

(12) Services furnished by AI/AN enrolled providers that may meet the criteria of a valid encounter (refer to individual program administrative rules for service limitations.):

(a) Medical (OAR chapter 410, division 130);

(b) Diagnostic: The Division covers reasonable services for diagnosing conditions, including the initial diagnosis of a condition that is below the funding line on the Oregon Health Evidence Review Commission's Prioritized List of Health Services. Once a diagnosis is established for a service, treatment or item that falls below the funding line, the Division will not cover any other services related to the diagnosis;

(c) Tobacco Cessation (OAR 410-130-0190);

(d) Dental (OAR 410-146-0380 and OAR chapter 410, division 123);

(k) Maternity Case Management (OAR 410-146-0120);

(l) Speech (OAR 410 Division 129);

(m) Hearing (OAR 410 Division 129);

(e) Nurse midwives;

(f) Dentists;

(g) Dental hygienists who hold a Limited Access Permit (LAP) — may provide dental hygiene services without the supervision of a dentist in certain settings. (14) Encounters with a registered professional nurse or a licensed practical nurse and related medical supplies (including drugs and biologicals) furnished on a part-time or intermittent basis to home-bound AI/AN clients residing on tribal land and any other ambulatory services covered by the Division are also reimbursable as permitted within the clinic's scope of services (see OAR 410-146-0080).

ICD-9-CM Diagnosis and CPT/HCPCs Procedure Codes

(1) The appropriate ICD-10-CM diagnosis code or codes from 001.0 through V99.9 must be used to identify:

(a) Diagnoses;

(b) Symptoms;

(c) Conditions;

(d) Problems;

(e) Complaints; or

(f) Other reasons for the encounter/visit.

(2) The Division of Medical Assistance Program (DMAP) requires diagnosis codes on all claims, including those submitted by independent laboratories and portable radiology, including nuclear medicine and diag-

ADMINISTRATIVE RULES

nostic ultrasound providers. A clinic must always provide the client's diagnosis to ancillary service providers when prescribing services, equipment, and supplies.

(3) Clinics must list the principal diagnosis in the first position on the claim. Use the principal diagnosis code for the diagnosis, condition, problem, or other reason for an encounter/visit shown in the medical record to be chiefly responsible for the services provided. Clinics may list up to three additional diagnosis codes on the claim for documented conditions that coexist at the time of the encounter/visit and require or affect client care, treatment, or management.

(4) Clinics must list the diagnosis codes using the highest degree of specificity available in the ICD-10-CM. Use a three-digit diagnosis code only if the diagnosis code is not further subdivided. Whenever fourth-digit or fifth-digit subcategories are provided, the provider must report the diagnosis at that specificity. DMAP considers a diagnosis code invalid if it has not been coded to its highest specificity.

(5) DMAP requires providers to use the standardized code sets required by the Health Insurance Portability and Accountability Act (HIPAA) and adopted by the Centers for Medicare and Medicaid Services (CMS). Unless otherwise directed in rule, providers must accurately code claims according to the national standards in effect for the date the service(s) was provided:

(a) For dental services, use codes that are in effect for the date the service(s) was provided that are found in Dental Procedures and Nomenclature as maintained and distributed by the American Dental Association for dental services;

(b) For health care services, use the combination of Health Care Common Procedure Coding System (HCPCS) and Current Procedural Terminology (CPT) codes in effect for the date the service(s) was provided. These services include, but are not limited to, the following:

- (A) Physician services;
- (B) Physical and occupational therapy services;
- (C) Radiology procedures;
- (D) Clinical laboratory tests;
- (E) Other medical diagnostic procedures;
- (F) Hearing and vision services.

(6) DMAP maintains unique coding and claim submission requirements for Administrative Exams and Death with Dignity services. Refer to OAR 410 division 150, Administrative Examination and Billing Services, and 410-130-0670, Death with Dignity Services, for specific requirements.

Division Encounter and Recognized Practitioners

(1) The Division of Medical Assistance Programs (Division) reimburses Federally Qualified Health Center (FQHC) and Rural Health Clinic (RHC) services according to the Prospective Payment System (PPS) as follows:

(a) When the service(s) meet the criteria of a valid encounter as defined in Sections (2) through (4) of this rule;

(b) Reimbursement is limited to the Division's Medicaid-covered services according to a client's Oregon Health Plan (OHP) benefit package. These services include ambulatory services included in the State Plan under Title XIX or Title XXI of the Social Security Act. Other services that are not defined in this rule or the State Plan under Title XIX or Title XXI of the Social Security Act are not reimbursed by the Division.

(2) For the provision of services defined in Titles XIX and XXI and provided through an FQHC or RHC, an "encounter" is defined as a face-to-face or telephone contact between a health care professional and an eligible OHP client within a 24-hour period ending at midnight, as documented in the client's medical record. Section (4) of this rule outlines limitations for telephone contacts that qualify as encounters.

(3) An encounter includes all services, items and supplies provided to a client during the course of an office visit (except as excluded in Sections (6) and (12) of this rule) and those services considered "incident-to." These services are inclusive of the visit with the core provider meeting the criteria a valid encounter and reimbursed at the PPS all-inclusive encounter rate. These services include:

(a) Drugs or medication treatments provided during a clinic visit are inclusive of the encounter, with the exception of contraception supplies and medications as costs for these items are excluded from the PPS encounter rate calculation (see OAR 410-147-0280 Drugs and OAR 410-147-0480 Cost Statement (DMAP 3027) Instructions);

(b) Medical supplies, equipment, or other disposable products (e.g. gauze, band-aids, wrist brace) are inclusive of an office visit;

(c) Laboratory and/or radiology services (even if performed on another day);

(d) Venipuncture for lab tests. The Division does not deem a visit for lab test only to be a clinic encounter;

(4) Telephone encounters only qualify as a valid encounter for services provided in accordance with OAR 410-130-0595, Maternity Case Management (MCM) and 410-130-0190, Tobacco Cessation (see also OAR 410-120-1200). Telephone encounters must include all the same components of the service when provided face-to-face. Providers must not make telephone contacts at the exclusion of face-to-face visits.

(5) Extended care services furnished under a contract between a county Community Mental Health Program (CMHP) of the FQHC and Addictions and Mental Health Division (AMH) are reimbursed outside of the PPS. Extended care services are those services provided under AMH's licensure requirements and reimbursed under AMH's terms and conditions.

(6) Some Division Medicaid-covered services are not reimbursable when furnished according to Oregon Health Plan (OHP) client's benefit package as a stand alone service. Although costs incurred for furnishing these services are inclusive of the PPS all-inclusive rate calculation, visits where these services were furnished as a stand-alone service were excluded from the denominator for the PPS rate calculation (see OAR 410-147-0480, Cost Statement (DMAP 3027) Instructions). The following services when furnished as a stand-alone service are not reimbursable:

(a) Sign language and oral interpreter services;

(b) Supportive rehabilitation services including, but not limited to, environmental intervention, supported housing and employment, or skills training and activity therapy to promote community integration and job.

(7) FQHCs and RHCs may provide certain services, items and supplies that are prohibited from being billed under the health centers provider enrollment, and requires separate enrollment (see OAR 410-147-0320(1) (b) Federally Qualified Health Center (FQHC)/Rural Health Clinics (RHC) Enrollment). These services include:

(a) Durable medical equipment, prosthetics, orthotics or medical supplies (DMEPOS) (e.g. diabetic supplies) not generally provided during the course of a clinic visit (refer to OAR chapter 410, division 122, DMEPOS);

(b) Prescription pharmaceutical and/or biologicals not generally provided during the clinic visit must be billed to DMAP through the pharmacy program (refer to OAR chapter 410, division 121, Pharmaceutical Services);

(c) Targeted case management (TCM) services (refer to OAR chapter 410, division 138).

(8) Client contact with more than one health professional for the same diagnosis or multiple encounters with the same health professional that take place on the same day and at a single location constitute a single encounter. For exceptions to this rule, see OAR 410-147-0140 for reporting multiple encounters.

(9) Providers are advised to include all services that can appropriately be reported using a procedure code on the claim and bill as instructed in the appropriate Division program rules and must use the appropriate HIPAA procedure code set such as CPT, HCPCS, ICD-10-CM, ADA CDT, NDC, established according to 45 CFR 162.1000 to 162.1011, which best describes the specific service or item provided. For claims that require the listing of a diagnosis or procedure code as a condition of payment, the code listed on the claim form must be the code that most accurately describes the client's condition and the service(s) provided. Providers must use the ICD-10-CM diagnosis coding system when a diagnosis is required unless otherwise specified in the appropriate individual provider rules (refer to OAR 410-120-1280 Billing and see OAR 410-147-0040 ICD-10-CM Diagnosis and CPT/HCPCS Procedure Codes).

(10) FQHC and RHC services that may meet the criteria of a valid encounter are (refer to individual program administrative rules for service limitations.):

(a) Medical (OAR chapter 410, division 130);

(b) Diagnostic: The Division covers reasonable services for diagnosing conditions, including the initial diagnosis of a condition that is below the funding line on the Prioritized List of Health Services. Once a diagnosis is established for a service, treatment or item that falls below the fund-

ADMINISTRATIVE RULES

ing line, the Division will not cover any other services related to the diagnosis;

- (c) Tobacco Cessation (OAR 410-130-0190);
 - (d) Dental (see to OAR 410-147-0125, and refer to OAR chapter 410, division 123);
 - (e) Vision (OAR chapter 410, division 140);
 - (f) Physical Therapy (OAR chapter 410, division 131);
 - (g) Occupational Therapy (OAR chapter 410, division 131);
 - (h) Podiatry (OAR chapter 410, division 130);
 - (i) Mental Health (Refer to the Division of Addiction and Mental Health (AMH) for appropriate OARs);
 - (j) Alcohol, Chemical Dependency, and Addiction services (see also OAR 410-147-0320). Requires a letter or licensure of approval by AMH (refer to AMH for appropriate OARs);
 - (k) Maternity Case Management (MCM) (OAR 410-147-0200);
 - (l) Speech (OAR chapter 410, division 129);
 - (m) Hearing (OAR chapter 410, division 129);
 - (n) The Division considers a home visit for assessment, diagnosis, treatment or MCM as an encounter. The Division does not consider home visits for MCM as home health services;
 - (o) Professional services provided in a hospital setting; and
 - (p) Other Title XIX or XXI services as allowed under Oregon's Medicaid and CHIP State Plan Amendments and the Division's administrative rules.
- (11) The following practitioners are recognized by the Division:
- (a) Doctors of medicine, osteopathy and naturopathy;
 - (b) Licensed Physician Assistants;
 - (c) Dentists;
 - (d) Dental Hygienists who hold a Limited Access Permit (LAP) — may provide dental hygiene services without the supervision of a dentist in certain settings. For more information, refer to the section on Limited Access Permits, ORS 680.200 and the appropriate Oregon Board of Dentistry OARs;
 - (e) Pharmacists;
 - (f) Nurse Practitioners;
 - (g) Nurse Midwives;
 - (h) Other specialized nurse practitioners;
 - (i) Registered nurses — may accept and implement orders within the scope of their license for client care and treatment under the supervision of a licensed health care professional recognized by the Division in this section and who is authorized to independently diagnose and treat according to appropriate State of Oregon's Board of Nursing OARs;
 - (j) Psychiatrists;
 - (k) Licensed Clinical Social Workers;
 - (l) Clinical psychologists;
 - (m) Acupuncturists — Refer to OAR chapter 410, division 130 for service coverage and limitations;
 - (n) Licensed professional counselor;

- (12) Encounters with a registered professional nurse or a licensed practical nurse and related medical supplies (other than drugs and biologicals) furnished on a part-time or intermittent basis to home-bound clients (limited to areas in which the Secretary has determined that there is a shortage of home health agencies — Code of Federal Regulations 42 CFR 405.2417), and any other ambulatory services covered by the Division are also reimbursable as permitted within the clinic's scope of services (see OAR 410-147-0020).
- (13) FQHCs and RHCs may furnish services that are reimbursed outside of the PPS all-inclusive encounter rate and according to the physician fee schedule. These services include:

 - (b) Death with Dignity services (refer to OAR 410-130-0670);
 - (c) Services provided to Citizen/Alien-Waived Emergency Medical (CAWEM) clients (refer to OARs 410-120-1210, 461-135-1070 and 410-130-0240);
 - (d) Services provided to Qualified Medicare Beneficiary (QMB) only clients (refer to OAR 410-120-1210, Medical Assistance Benefit Packages

and Delivery System). Specific billing information is located in the FQHC and RHC Supplemental Information billing guide; and

(e) Comprehensive environmental lead investigation (refer to OAR 410-130-0245, Early and Periodic Screening, Diagnostic and Treatment Program).

(14) OHP benefit packages and delivery system are described in OAR 410-120-1210. Most OHP clients have prepaid health services, contracted for by the Authority through enrollment in a Prepaid Health Plan (PHP). Non-PHP-enrolled clients, receive services on an "open card" or "fee-for-service" (FFS) basis.

(a) The Division is responsible for making payment for services provided to open card clients. The provider will bill the Division the clinic's encounter rate for Medicaid-covered services provided to these clients according to their OHP benefit package (see OAR 410-147-0360, Encounter Rate Determination).

(b) A PHP is responsible to provide, arrange and make reimbursement arrangements for covered services for their Division members (refer to OAR 410-120-0250, and OAR chapter 410, division 141, OHP administrative rules governing PHPs). The provider must bill the PHP directly for services provided to an enrolled client (See also OARs 410-147-0080, Prepaid Health Plans, and 410-147-0460, PHP Supplemental Payment). Clinics must not bill the Division for PHP-covered services provided to eligible OHP clients enrolled in PHPs. Exceptions include:

(A) Family planning services provided to a PHP-enrolled client when the clinic does not have a contract with the PHP, and if the PHP denies payment (see OAR 410-147-0060); and

(B) HIV/AIDS prevention provided to a PHP-enrolled client when the clinic does not have a contract with the PHP, and if the PHP denies payment (see OAR 410-147-0060).

(15) Federal law requires that state Medicaid agencies take all reasonable measures to ensure that in most instances the Division will be the payer of last resort. Providers must make reasonable efforts to obtain payment first from other resources before billing the Division (refer to OAR 410-120-1140 Verification of Eligibility).

(16) When a provider receives a payment from any source prior to the submission of a claim to the Division, the amount of the payment must be shown as a credit on the claim in the appropriate field (refer to OARs 410-120-1280 Billing and 410-120-1340 Payment).

Total Encounters for Cost Reports

(1) Federally Qualified Health Centers and Rural Health Clinics (FQHC/RHCs) are required to report the total number of encounters for furnishing services outlined in 42 USC 1396d(a)(2)(C) and 1396d(a)(2)(B), respectively.

(2) In general, the Division of Medical Assistance Programs (DMAP) calculates a FQHC or RHC's Prospective Payment System (PPS) encounter rate by dividing the total costs incurred by a clinic for furnishing services as defined in 42 USC 1396d(a)(2)(B) or (C) by the total number of all clinic visits, or "encounters." The intent of PPS is to calculate the average cost of an encounter, and not the average cost of a Medicaid billable encounter.

(3) This rule provides guidance for cost reporting of all encounters. It is the responsibility of the FQHC and RHC to report all encounters, except when expressly directed not to elsewhere in this rule. FQHCs and RHCs are required to include ALL:

(a) Encounters for all clients regardless of payor;

(b) Encounters for FQHC or RHC services that are not covered by Medicaid, Medicare, Third Party Payor or other party, but otherwise have an associated cost for providing the service whether billed to the client (e.g. uninsured, signed waiver on file) or absorbed by the clinic; and;

(c) Encounters regardless of line placement on the Health Evidence Review Commission's (HERC) Prioritized List of Health Services. For the purpose of reporting encounters according to this rule, encounters are not subject to the HERC Prioritized List, or service limitations and benefit reductions implemented by the Division of Medical Assistance Programs (DMAP).

ADMINISTRATIVE RULES

(4) FQHCs and RHCs must report all encounters furnished to all client populations irrespective of coverage or payor source. Examples of client populations include, but are not limited to:

(a) Oregon Health Plan (OHP) clients (includes both fee-for-service and prepaid health plan (PHP) clients). Refer to OAR 410-147-0120 for more information regarding OHP encounters;

(b) Citizen/Alien-Waived Emergency Medical (CAWEM) clients. Refer also to OAR 410-120-1210(3)(f).

(c) Family Planning Expansion Program (FPEP) Title X, clients;

(d) Uninsured and/or self-pay clients;

(e) Medicare clients;

(f) Third party or private pay insurance clients;

(g) County- and/or clinic-pay clients (services paid or funded by the county or clinic); and

(h) Clients funded by federal, state, local or other grants.

(5) FQHCs and RHCs must exclude from the total number of reported encounters:

(a) Encounters attributed to non-allowable costs:

(A) Services performed under the auspices of a Women, Infant and Children (WIC) program or a WIC contract;

(B) Services performed and reimbursed under separate enrollment (e.g., Targeted Case Management);

(C) Services provided by patient advocates/ombudsmen and Outstationed Outreach Workers, employed by or under contract with the FQHC or RHC, for the primary purpose of providing outreach and/or group education sessions;

(D) Provider participation in a community meeting or group session that is not designed to provide clinical services. This includes, and is not limited to, information sessions for prospective Medicaid beneficiaries, and information presentations about available health services at the FQHC or RHC; and

(E) Health services provided as part of a large-scale “free to the public” or “nominal fee” effort, such as a mass immunization program, screening program, or community-wide service program (e.g., a health fair);

(b) Encounters for specific services outlined in 42 USC 1396d(a)(2)(B) and (C), that do not meet the criteria of a valid encounter when furnished as a stand-alone service. Costs for furnishing these services is an allowed administrative program cost and should be reported on a clinic’s cost statement for calculating a clinic’s PPS encounter rate. Refer to OAR 410-147-0480, Costs Statement (DMAP 3027) Instructions. Examples include, but are not limited to:

(A) Case management services for coordinating health care for a client;

(B) Enabling services, including but not limited to, sign language and oral interpreter services;

(C) Supportive, rehabilitation services including, but not limited to, environmental intervention, and supported housing and employment; skills training and activity therapy to promote community integration and job readiness;

(D) Laboratory and radiology services, including venipuncture and tuberculosis (TB) tests (the initial visit for the TB test administered to the epidermis);

(E) Prescription refills; and

(F) Services provided without the client present, except for telephone contacts as specified in this rule section (6)(c).

(6) FQHCs and RHCs are required to include encounters for services furnished by practitioners recognized by DMAP in OAR 410-147-0120(6). Examples of encounters that may be overlooked but should be included are:

(a) Encounters below the funding line on the Health Services Commission’s Prioritized List of Health Services. All encounters are to be reported regardless of line placement;

(b) Encounters outside of the clinic by primary care practitioners (e.g. services furnished in a hospital or residential treatment setting);

(c) Telephone contacts as provided for in the Tobacco Cessation, OAR 410-130-0190; and Maternity Case Management (MCM), 410-130-0595, programs. See also 410-120-1200(2)(y);

(d) Medication management-only encounters by a behavioral health practitioner;

(e) Encounters by Registered and Licensed Practical Nurses:

(A) Home encounters in an area in which the Secretary of the Health Resources and Services Administration, Health and Human Services, has determined that there is a shortage of home health agencies (OAR 410-147-0120(10));

(B) Administration of immunizations/vaccinations encounters;

(C) “99211” encounters; and

(D) Maternity Case Management (MCM) encounters.

(7) Global procedures require attention for accurate reporting of encounters:

(a) Obstetrics procedures: Each antepartum, delivery and postpartum encounter included in a global procedure for maternity and delivery services should be reported as a separate encounter;

(b) Dental procedures: Multiple contacts for global dental procedures should be reported as a single encounter. Refer to OAR 410-147-0040(5) ICD-10-CM Diagnosis and CPT/HCPCs Procedure Codes, for more information;

(c) Surgical procedures: Refer to OAR 410-147-0040(5), ICD-10-CM Diagnosis and CPT/HCPCs Procedure Codes, for more information:

(A) Services within a surgical package and “included” in a given CPT surgical code are reported as a single encounter. Refer to OAR 410-130-0380, Surgical Guidelines, for more information; and

(B) The initial consultation or evaluation of the problem by the provider to determine the need for surgery, and separate from a preoperative appointment, is a separate encounter.

(8) A surgical procedure furnished to an OHP client and provided by more than one surgeon employed by the FQHC or RHC does not count as multiple encounters. The exception to this rule is major surgery, including a cesarean delivery, furnished to a CAWEM client. Services provided by the primary surgeon and the assistant surgeon, when both are employed with the FQHC or RHC, may be eligible as multiple encounters if medically necessary.

(9) When two or more services are provided on the same date of service:

(a) With distinctly different diagnoses, a clinic should report multiple encounters when the criteria in OAR 410-147-0140, Multiple Encounters, is met; or

(b) With similar diagnoses, a clinic must report one encounter.

(10) Clinics must maintain, for no less than five years, all documentation relied upon by the clinic to calculate the number of encounters reported on the cost statement (DMAP 3027):

(a) All documentation supporting the number of encounters reported on the cost statement must be sufficient to withstand an audit; and

(b) The total number of encounters calculated from all sources of documentation must reconcile to the total number of encounters reported on the cost statement, and subtotaled encounters must reconcile to each documentation source relied upon.

Home Enteral/Parenteral Nutrition and IV Services

(1) The Division of Medical Assistance Programs (Division) will make payment for medically appropriate goods, supplies and services for home enteral/parenteral nutrition and IV therapy on written order or prescription. (a) The order or prescription must be dated and signed by a licensed prescribing practitioner, legible and specify the service required, the ICD-10-CM diagnosis codes, number of units and length of time needed.

(b) The prescription or written physician order for solutions and medications must be retained on file by the provider of service for the period of time specified in the Division’s General Rules.

(d) Also covered are services for subcutaneous, epidural and intrathecal injections requiring pump or gravity delivery.

(2) All claims for enteral/parenteral nutrition and IV services require a valid ICD-10-CM diagnosis code. It is the provider’s responsibility to obtain the actual diagnosis code(s) from the prescribing practitioner. Reimbursement will be made according to covered services on funded lines of the Health Services Commission’s Prioritized List of Health Services, and these rules.

(3) The Division requires one initial nursing service visit to assess the home environment and appropriateness of enteral/parenteral nutrition or IV services in the home setting and to establish the client’s treatment plan.

(a) This nursing service visit for assessment purposes does not require payment authorization.

(b) The nursing service assessment visit is not required when:

ADMINISTRATIVE RULES

(A) The only service provided is oral nutritional supplementation;

(B) The services are performed in an Ambulatory Infusion Suite of the home infusion therapy provider.

(4) Nursing service visits specific to this Home Enteral/Parenteral and IV services program are provided in the home, or an Ambulatory Infusion Suite of the Home Infusion Therapy Provider (AIS) and will be reimbursed by the Division only when prior authorized, and performed by a person who is licensed by the Oregon State Board of Nursing to practice as a Registered Nurse. All registered nurse delegated or assigned nursing care tasks must comply with the Oregon State Board of Nursing, Nurse Practitioner Act and Administrative Rules regulating the practice of nursing.

(5) Payment for services identified in the Home Enteral/Parenteral Nutrition and IV Services provider rules will be made only when provided in the client's place of residence (i.e., home or nursing facility) or an Ambulatory Infusion Suite (AIS).

410-050-0700

Definitions

The following definitions apply to OAR 410-050-0700 to 410-050-0870:

(1) "Authority" means the Oregon Health Authority.

(2) "Bad Debt" means the current period charge for actual or expected uncollectible accounts resulting from the extension of credit on inpatient and outpatient hospital services. Bad debt charges shall be offset by any recoveries received on accounts receivable during that current period, subject to final assessment reporting and reconciliation processes required in these rules.

(3) "Charges for Inpatient Care" means gross inpatient charges generated from room, board, general nursing, and ancillary services provided to patients, who are expected to remain in the hospital at least overnight, and occupy a bed (as distinguished from categories of health care items or services identified in 42 CFR 433.56(a)(2)-(19) that are not charges for inpatient hospital services). Charges for inpatient care include all payors, and are not limited to Medicaid patients.

(4) "Charges for Outpatient Care" means gross outpatient charges, generated from services provided by the hospital to a patient who is not confined overnight. These services include all ancillary and clinic facility charges (as distinguished from categories of health care items or services identified in 42 CFR 433.56(a)(1) and (3)-(19) that are not charges for outpatient hospital services). Charges of outpatient care include all payors and are not limited to Medicaid charges.

(5) "Charity Care" means costs for providing inpatient or outpatient care services free of charge or at a reduced charge because of the indigence or lack of health insurance of the patient receiving the care services. Charity care results from a hospital's policy as reflected in its official financial statements to provide inpatient or outpatient hospital care services free of charge or at a reduced charge to individuals who meet financial criteria. Charity care does not include any amounts above the payments by the Authority that constitute payment in full under ORS 414.065(3), or above the payment rate established by contract with a prepaid managed care health services organization or health insurance entity for inpatient or outpatient care provided pursuant to such contract, or above the payment rate established under ORS 414.743 for inpatient or outpatient care reimbursed under that statute.

(6) "Contractual Adjustments" means the difference between the amounts charged based on the hospital's full, established charges and the amount received or due from the payer.

(7) "Declared Fiscal Year" means the fiscal year declared to the Internal Revenue Service (IRS).

(8) "Deficiency" means the amount by which the assessment, as correctly computed, exceeds the assessment, if any, reported and paid by the hospital. If, after the original deficiency has been assessed, subsequent information shows the correct amount of assessment to be greater than previously determined, an additional deficiency arises.

(9) "Delinquency" means the hospital failed to file a report when due as required under these rules or failed to pay the assessment as correctly computed when the assessment was due.

(10) "Director" means the Director of the Authority.

(11) "Hospital" means a hospital with an organized medical staff, with permanent facilities that include inpatient beds, and with medical services, including physician services and continuous nursing services under the supervision of registered nurses, to provide diagnosis and medical or surgical treatment primarily for, but not limited to, acutely ill patients and accident victims, or to provide treatment for the mentally ill. Hospital, as used in this section, does not include special inpatient care facilities as that term is defined in ORS 442.015. For purposes of these rules, the hospital shall be identified by using the federal payer identification number for the hospital.

(12) "Net Revenue" means the total amount of charges for inpatient or outpatient care provided by the hospital to patients, less charity care, bad debts, and contractual adjustments. Net revenue does not include revenue derived from sources other than inpatient or outpatient operations, including but not limited to, interest and guest meals and any revenue that is taken into account in computing a long term care assessment under the long term facility assessment.

(13) "Waivered Hospital" means a Type A or Type B hospital as described in ORS 442.470, or a hospital that provides only psychiatric care. [Publications: Publications referenced are available from the agency.]

The Hospital Assessment: Calculation, Report, Due Date

(1) The amount of the assessment equals the assessment rate multiplied by the hospital's net revenue, consistent with OAR 410-050-0750, 410-050-0860, and 410-050-0861. The assessment shall be imposed on net revenues earned by the hospital on or after January 1, 2004, based on calendar quarters. The first calendar quarter begins on January 1; the second calendar quarter begins on April 1; the third calendar quarter begins on July 1; and the fourth calendar quarter begins on October 1.

(2) The assessment rate shall be determined in accordance with OAR 410-050-0860 and 410-050-0861.

(3) The hospital shall file the quarterly report on a form approved by the Authority on or before the 75th day following the end of the calendar quarter for which an assessment is due. The quarterly payment is due and shall be paid at the same time required for filing the quarterly report. The hospital shall provide all information required on the quarterly report when due. Failure to file or pay when due shall be a delinquency.

(4) The assessment becomes operative on July 1, 2004. The first due date for a quarterly assessment and report shall be 75 days from September 30, which is December 13, 2004.

(5) The fiscal year reconciliation report, including the financial statement and reconciliation statement, is due and shall be submitted to the Authority no later than the final day of the sixth calendar month after the hospital's declared fiscal year end. The fiscal year reconciliation assessment payment is due and shall be paid at the same time required for filing the fiscal year reconciliation report. The hospital shall provide all information required on the fiscal year reconciliation report when due. Failure to file or pay when due shall be a delinquency.

(6) Any report, statement, or other document required to be filed under any provision of these rules must be certified by the hospital's chief

financial officer or designee. The certification shall attest, based on best knowledge, information, and belief, to the accuracy, completeness, and truthfulness of the document.

(7) Payments may be made electronically or by paper check. If the hospital pays electronically, the accompanying report may either be faxed to the Authority at the fax number provided on the report form or mailed to the address provided on the report form. If the hospital pays by paper check, the accompanying report shall be mailed with the check to the address provided on the report form.

(8) The Authority may charge the hospital a fee of \$100 if, for any reason, the check, draft, order, or electronic funds transfer request is dishonored. This charge is in addition to any penalty for nonpayment of the assessment that may also be due.

Reporting Total Net Revenue, Use of Estimated Revenue for Quarterly Reports

(1) A hospital shall submit quarterly reports and quarterly payments for the calendar quarters for which an assessment is due consistent with sections (2) and (5) of this rule, and shall submit a fiscal year reconciliation report that includes a reconciliation statement, audited financial statement, and any fiscal year reconciliation assessment payment based on the hospital's declared fiscal year end consistent with sections (3) and (5) of this rule.

(2) The quarterly reports and quarterly assessment payments shall be based on estimated net revenue, which shall be referred to as estimated assessment. Estimated assessment is the amount of assessment the hospital expects to owe for the current calendar quarter. The hospital shall calculate the estimated assessment based on net revenues using the hospital's interim financial results for the quarter for which the assessment is due. An estimated quarterly report is due for each calendar quarter for which an assessment is due, based on the rate of assessment applicable to that quarter. The quarterly payment is due and shall be paid at the same time required for filing the quarterly report.

(3) The fiscal year reconciliation report and fiscal year reconciliation assessment payment shall be based on the amount of assessment the hospital actually owes based on annual net revenue for all calendar quarters for which an estimated assessment payment is due during the hospital's declared fiscal year. The hospital shall calculate the annual net revenue for the hospital's declared fiscal year. The fiscal year reconciliation assessment payment due shall be the calculated assessment (using the assessment rate applicable to the appropriate quarter, described in subsection (c) below for fiscal year reconciliation assessment calculation purposes) on the annual net revenue reduced by the estimated assessment payments made for each assessment quarter of the hospital's declared fiscal year. The hospital shall provide all information required in the fiscal year reconciliation report when due, even if no fiscal year reconciliation assessment payment is owed:

(a) When the fiscal year reconciliation report is submitted, it shall be accompanied by the hospital's declared fiscal year end audited financial statement for the declared fiscal year on which the fiscal year reconciliation report and fiscal year reconciliation assessment payments are based;

(b) The fiscal year reconciliation report shall include a reconciliation statement describing the relationship between the audited financial statement and annual net revenues subject to the assessment. The reconciliation statement may be descriptive in form and shall be consistent with the accounting principles used in the audited financial statement;

(c) The rate applicable to the final assessment shall be calculated as follows:

(A) If all assessment quarters were subject to the same rate established in OAR 410-050-0160 and 410-050-0861, then the rate applicable to the final reconciliation is the assessment rate applicable to all such quarters. For example, if the hospital's declared fiscal year is July 1, 2004 to June 30, 2005, then the assessment rate is .93 percent of annual net revenue;

(B) If different assessment rates apply to calendar quarters in the hospital's declared fiscal year, the hospital shall apply a blended rate to the total annual net revenue to determine the fiscal year reconciliation assessment due. A blended rate is the average of the rates applicable to all assessment quarters. The Authority shall notify the hospital of the amount of the applicable blended rate. For example, if the hospital's declared fiscal year overlaps two quarters assessed at a rate of .93 percent and two quarters assessed at .50 percent, then the blended rate for purposes of the annual reconciliation is .715 percent. For purposes of calculating the fiscal year rec-

ADMINISTRATIVE RULES

conciliation assessment due, the hospital shall multiply the annual net revenue by the blended rate.

(d) If the total estimated assessment payments already paid by the hospital for the declared fiscal year exceed the amount of the fiscal year reconciliation assessment actually due, the fiscal year reconciliation report shall identify the difference and the hospital shall adjust the fiscal year reconciliation assessment due amount in the fiscal year reconciliation report for that assessment year;

(e) The fiscal year reconciliation report, audited financial statement, and reconciliation statement shall be due and submitted to the Authority no later than the final day of the sixth calendar month after the hospital's declared fiscal year end. The fiscal year reconciliation assessment payment (if owed) is due and shall be paid at the same time required for filing the fiscal year reconciliation report. Failure to file or pay when due shall be a delinquency;

(f) If the declared fiscal year end audited financial statement for the hospital is not available within the time required in subsection (e), a fiscal year reconciliation assessment payment (if owed) and fiscal year reconciliation report must be submitted within the time period specified under subsection (e). The hospital may use interim financial statements to determine the amount of the fiscal year reconciliation assessment due and may submit a justification statement with the fiscal year reconciliation report due no later than the date specified in subsection (e) signed by the hospital's chief financial officer informing the Authority when the audited financial statement is due and certifying that an amended fiscal year reconciliation report, including the reconciliation statement, shall be provided to the Authority within 30 days of the hospital's receipt of the audited financial statement. Reports and payments made after the time period required in subsection (e) shall be submitted in compliance with OAR 401-050-0760;

(g) If the hospital does not receive audited financial statements, then internal financial statements signed by the hospital's chief financial officer shall be submitted where these rules otherwise require audited financial statements;

(h) If the effective date of the assessment is not at the start of the hospital's declared fiscal year, then the annual net revenue for the first fiscal year reconciliation report shall be calculated based on the number of quarters subject to the assessment versus the total number of quarters in the hospital's declared fiscal year. For example, if the assessment is effective on July 1, 2004 for a hospital with a declared fiscal year ending December 31, 2004, the annual net revenues shall be calculated as follows: total net revenues for the declared fiscal year divided by two (two of four quarters subject to the assessment).

(4) The Authority may not find a payment deficiency for estimated quarterly assessments as long as the hospital paid the estimated assessments and submitted the quarterly report no later than the quarterly due date and the estimated assessment amount was not less than the equivalent of the assessment payment that would have been determined based on the hospital's annual net revenue for its most recent prior declared fiscal year divided by four and multiplied times the assessment rate for the quarter in which the actual estimated assessment is due. Annual net revenue for purposes of section (4) of this rule means the twelve month period in which the hospital's most recent prior declared fiscal year occurred, regardless of whether the prior quarters were subject to an assessment. For example, if the annual net revenue for the most recent prior declared fiscal year was \$4 million; divide that total by 4 (\$1 million) and multiply the product times the current assessment rate for the assessment quarter (.93 percent). In this example, the estimated quarterly assessment payment may not be less than \$9,300 in order to receive the benefit of section (4) of this rule:

(a) If the hospital seeks to use the process in section (4) of this rule, no later than the date on which the first quarterly estimated assessment and report is due (for example, December 13, 2004, for the first assessment quarter), the hospital shall provide the Authority with a copy of the hospital's audited financial statement for the hospital's most recent prior declared fiscal year and identify the hospital's annual net revenue amount for that declared fiscal year, regardless of whether any assessments were due for that year;

(b) If the hospital does not receive audited financial statements, then internal financial statements from the hospital's most recent prior declared fiscal year signed by the chief financial officer may be used for this purpose.

(5) All of the due dates for filing reports or paying assessments are established in OAR 410-050-0740, unless the Authority permits a later payment date. If a hospital requests an extension, the Authority, in its sole discretion, shall determine whether to grant an extension. There shall be a delinquency for each quarter the hospital fails to pay the estimated assess-

ment or file the quarterly report when due. There shall be a delinquency if the hospital fails to pay the fiscal year reconciliation assessment or file the fiscal year reconciliation report, including financial statements and reconciliation statement, when due.

(6) A hospital shall declare the date of the hospital's declared fiscal year end for purposes of establishing final assessment reporting requirements under this rule. The declaration shall be filed with the Authority no later than December 13, 2004, or the first date that an estimated quarterly report and assessment is due. The hospital shall notify the Authority within 30 days of a change to the hospital's declared fiscal year end. A change in declared fiscal year end shall be applied to the hospital's next future declared fiscal year for purposes of calculating the final assessment and filing the final report.

Filing an Amended Report

(1) A hospital that submits a fiscal year reconciliation report without an audited financial statement shall submit an amended fiscal year reconciliation report, an audited financial statement, and such additional fiscal year reconciliation payment (if owed) for assessments and deficiencies. The information shall be submitted within 180 days after the fiscal year reconciliation report due date.

(2) Claim for Refund:

(a) If the amount of the assessment in the amended fiscal year reconciliation report is less than the amount paid by the hospital, the Authority may refund the overpayment. A refund may not exceed the assessment amount actually paid by the hospital;

(b) The hospital shall provide all information required on the report. No refunds shall be made prior to the Authority receiving the hospital's audited financial statement for the declared fiscal year. The Authority may audit the hospital, request additional information, or request an informal conference prior to granting a refund or as part of its review;

(c) If there is an amount due from the hospital to the Authority for any past due assessments or penalties, any refund otherwise allowable shall first be applied to the unpaid assessments and penalties, and the hospital notified;

(d) A hospital may not deduct from current, prospective, or future assessment payments an amount to which it claims to be entitled as a refund for a prior period. The claim for refund shall be made to the Authority.

(3) Payment of Delinquency:

(a) If the amount of the annual assessment imposed is more than the amount paid by the hospital, the hospital shall file an amended fiscal year reconciliation report and pay the additional fiscal year reconciliation assessment and deficiency. The penalty under OAR 410-050-0800 shall stop accruing after the Authority receives the amended fiscal year reconciliation report, the annual audited financial statement, and payment of the total fiscal year reconciliation assessment and deficiency for year; except to the extent provided in OAR 410-050-0750(4)(a);

(b) No refunds shall be made prior to the Authority receiving the hospital audited financial statement for the declared fiscal year. The Authority may audit the hospital, request additional information, or request an informal conference prior to granting a refund or as part of its review;

(c) If there is an error in the determination of the assessment due, the hospital may describe the circumstances of the late additional payment with the filing of the amended report. The Authority, in its sole discretion, may determine that the late additional payment does not constitute a failure to file a report or pay an assessment giving rise to the imposition of a penalty. In making this determination, the Authority shall consider the circumstances, including but not limited to: nature and extent of the error; hospital explanation of the circumstances related to the error; evidence of prior errors; and evidence of prior penalties (including evidence of informal dispositions or settlement agreements). This provision only applies if the hospital has filed a timely original report and paid the assessment identified in the report.

(4) If the Authority discovers or identifies information in the administration of these assessment rules that it determines could give rise to the issuance of a notice of proposed action, the Authority shall issue notification pursuant to OAR 410-050-0810.

(1) "Action" means in the case of a Prepaid Health Plan (PHP) or Coordinated Care Organization (CCO):

(A) From any other provider (in terms of training, experience, and specialization) not available within the network;

(B) From a provider not part of the network that is the main source of a service to the member as long as the provider is given the same opportunity to become a participating provider as other similar providers. If the provider does not choose to join the network or does not meet the qualifications, the member is given a choice of participating providers and is transitioned to a participating provider within 60 days;

(C) Because the only plan or provider available does not provide the service due to moral or religious objections;

(D) Because the member's provider determines the member needs related services that would subject the member to unnecessary risk if received separately, and not all related services are available within the network; or

(E) The Authority determines that other circumstances warrant out-of-network treatment for moral or religious objections.

(2) "Adjudication" means the act of a court or entity in authority when issuing an order, judgment, or decree; as in a final CCO or MCO claims decision or OHA issuing a final hearings decision. Subject: These rules provide the framework for Coordinated Care Organization (CCO) and Managed Care Organizations (MCO) enrollment requirements, including any existing exemptions from CCO and MCO enrollment. The Authority requested stakeholder and public comment on the following: The Licensed Direct Entry Midwives (LDEM Staff Advisory Workgroup came out with recommendations related to perinatal service options for Medicaid enrollees.

The Authority Director, Suzanne Hoffman responded with a letter dated May 21, 2014, stating the Division would implement changes, necessitating the removal of the sunset date, allowing for time to make further program implementations and additional rule revisions. It has been decided to implement the CCO enrollment exemptions criteria on which to build additional program specific criteria later in 2015 outlining the detail level of the program requirements.

The member may be manually enrolled into a physical health plan as deemed appropriate by the Authority. These individuals are as follows:

(a) Children in the legal custody of the Department or Oregon Health Authority where the child is expected to be in a substitute care placement for less than 30 calendar days unless:

- (A) Access to health care on a FFS basis is not available; or
- (B) Enrollment would preserve continuity of care.

(b) Clients who are dually eligible for Medicare and Medicaid but not enrolled in a program of all-inclusive care for the elderly. The following apply to these clients:

(A) A client who is also a Medicare beneficiary and is in a hospice program may not enroll in an FCHP or PCO that is also a Medicare Advantage plan. The client may enroll in either an FCHP or PCO that does not have a Medicare Advantage plan unless exempt for some other reason listed in this rule;

(B) The client is enrolled in Medicare and the only FCHP or PCO in the service area is a Medicare Advantage plan. The client may choose not to enroll in an FCHP or PCO;

(C) Enrollment in a FCHP or PCO of a client who is receiving Medicare and who resides in a service area served by PHPs shall be as follows:

(i) If the client who is Medicare Advantage eligible selects a FCHP or PCO that has a corresponding Medicare Advantage plan, the client shall complete the 7208M or other CMS approved Medicare plan election form;

(ii) If the Medicare Advantage Plan Election form (OHP 7208M) described in this rule is signed by someone other than the client, the client's representative must complete and sign the Signature by Mark or State Approved Signature sections of the OHP 7208M;

(iii) If the client is a Medicare beneficiary who is capable of making enrollment decisions, the client's representative may not have authority to select FCHPs or PCOs that have corresponding Medicare Advantage components:

(I) If the FCHP or PCO has not received the form within ten calendar days after the date of enrollment, the FCHP or PCO shall send a letter to the member with a copy sent to the APD branch manager. The letter shall explain the need for the completion of the form; inform the member that if the form is not received within 30 days, the FCHP or PCO may request disenrollment; and instruct the member to contact their caseworker for other coverage alternatives.

(II) The FCHP or PCO shall choose whether to disenroll or maintain enrollment for all the clients from whom they do not receive a form at the end of 30 days, except as otherwise provided in this rule. The FCHP or PCO shall notify the PHP coordinator of the PHP's annual decision to disenroll or maintain enrollment for the clients in writing. This notification shall be submitted by January 31 of each year or another date specified by the Authority. If the FCHP or PCO has decided to:

(III) Disenroll the clients and has not received a client's form at the end of 30 days, the FCHP or PCO shall request disenrollment. HMU will disenroll the member effective the end of the month following the notification;

(D) Maintain enrollment. The FCHP or PCO may not request disenrollment at the end of 30 days.

(E) If the client is enrolled as a private member of a Medicare Advantage plan, the client may choose to remain enrolled as a private member or to enroll in the FCHP or PCO that corresponds to the Medicare Advantage plan:

(F) If the client chooses to remain as a private member in the Medicare Advantage plan, the client shall remain in the Medicaid FFS delivery system for physical health care services but shall select a DCO and MHO where available;

(G) If the client chooses to discontinue the Medicare Advantage enrollment and then, within 60 calendar days of disenrollment from the

Medicare Advantage plan, chooses the FCHP or PCO that corresponds to the Medicare Advantage plan that was discontinued, the client shall be allowed to enroll in the FCHP or PCO even if the FCHP or PCO is not open for Enrollment to other clients;

(H) A Fully Dual Eligible (FDE) client who has been exempted from enrollment in an MHO may not be enrolled in a FCHP or PCO that has a corresponding Medicare Advantage plan unless the exemption was done for a provider who is on the FCHP's or PCO's panel.

(6) The Authority may temporarily exempt clients from mandatory enrollment for other just causes as determined by the Authority through medical review. The Authority may set an exemption period on a case-by-case basis for those as follows:

(a) Children under 19 years of age who are medically fragile and who have special health care needs. The Authority may enroll these children in MCOs on a case-by-case basis; children not enrolled in a MCO shall continue to receive services on a FFS basis;

(b) Until December 31, 2017, women who are pregnant and meet the qualifications in sub-sections A through E below may receive OHP benefits on a FFS basis for physical health only until 60 days after the birth of her child. Women meeting the criteria for the pregnancy enrollment exemption for their physical health plan coverage will continue to be enrolled in the appropriate MCO or CCO plan in their service area for dental and mental health coverage. After the 60 day period, the member shall enroll in a plan as appropriate. Those women under consideration for a pregnancy enrollment exemption for their physical health enrollment shall receive a response from the Authority within 30 working days of request. Upon approval of the FFS pregnancy exemption for physical health enrollment only, the client shall remain FFS for as long as she continues to meet the requirements in A through E below. In order to qualify for the FFS pregnancy exemption for physical health only, there shall be no home birth option available to the client through her plan and the client shall:

(A) Be pregnant;

(B) State that her intention is to have a home birth;

(C) Have an established relationship for the purpose of home birth with a licensed qualified practitioner who is not a participating provider with the client's MCO;

(D) Make a request to change to FFS. This request can be made at any point in the pregnancy prior to delivery; and

(E) Meet all administrative rules including, but not limited to, OAR 410-141-0240 and statutory requirements that define when a home birth is eligible for reimbursement by the Authority;

(i) Should a woman become unable to meet any of the requirements specified in OAR 333-076-0650(1), Table 1, either upon initial evaluation or once the exemption is granted, the exemption shall be withdrawn, and the client will be subject to MCO enrollment requirements as stated in OAR 410-141-3060;

(ii) Conditions arising during the pregnancy as listed in subsections (I) through (V) below shall be reviewed by the Authority on a case-by-case basis for continuation of the FFS enrollment exemption:

(I) Fetal presentation other than vertex when known;

(II) Abnormal bleeding;

(III) Low-lying placenta within 2 cm. or less of cervical os;

(IV) Genital herpes, primary; secondary uncoverable at onset of labor; and

(V) Current substance abuse that has the potential to adversely affect labor and the infant.

(c) The following apply to clients and exemptions relating to organ transplants:

(A) Newly eligible clients are exempt from enrollment with an MCO if the client is newly diagnosed and under the treatment protocol for an organ transplant;

(B) Newly eligible clients with existing transplants shall enroll into the appropriate MCO for their service area;

(d) Other just causes to preserve continuity of care include the following considerations:

(A) Enrollment would pose a serious health risk; and

(B) The Authority finds no reasonable alternatives.

(7) Unless exempted above, enrollment is mandatory in all areas served by an MCO.

(8) When a service area changes from mandatory to voluntary, the member will remain with their PHP for the remainder of their eligibility period unless the member meets the criteria stated in this rule or as provided by OAR 410-141-0080.

(9) If the client resides in a mandatory service area and fails to select a DCO, MHO, PCO, or FCHP at the time of application for the OHP, the

ADMINISTRATIVE RULES

Authority shall enroll the client with a DCO, MHO, PCO, or FCHP as follows:

(a) The client shall be assigned to and enrolled with a DCO, MHO, PCO, or FCHP that meets the following requirements where MCO enrollment is not available or services are not available through the MCO:

 - (B) Serves the county in which the client resides;
 - (C) Has practitioners located within the community-standard distance for average travel time for the client.
- (b) Assignment shall be made first to an MCO;
- (c) The Authority shall send a notice to the client informing the client of the assignments and the right to change assignments within 30 calendar days of enrollment. A change in assignment shall be honored if there is another DCO, MHO, PCO, or FCHP open for enrollment in the county in which the client resides;

(10) Clients shall be enrolled with PHPs according to the following criteria:

(a) Areas with sufficient physical health service capacity through a combination of Coordinated Care Organizations (CCOs), Fully Capitated Health Plans (FCHP), and Physician Care Organizations (PCO) shall be called mandatory service areas. In mandatory service areas, a client shall select:

- (A) A CCO; or
 - (B) An FCHP or PCO;
- (i) If the client has an existing relationship with a provider who is contracted with the FCHP or PCO; and
- (ii) If approved by the Authority.

(b) Service areas without sufficient physical health service capacity shall be called voluntary service areas. In voluntary service areas, a client has the option to:

- (A) Select a CCO; or
 - (B) Select an FCHP or PCO;
- (i) If the client has an existing relationship with a provider who is contracted with the FCHP or PCO; and
- (ii) If approved by the Authority; or

(C) Remain in the Medicaid fee-for-service (FFS) physical health care delivery system.

(c) Service areas with sufficient mental health and dental care service capacity through MHOs and DCOs shall be called mandatory MHO and DCO service areas. A client shall select an MHO and DCO in a mandatory MHO and DCO service area if mental health and dental services are not available through a CCO or the client is otherwise exempt from CCO enrollment;

(d) Service areas without sufficient dental care service capacity through MHOs and DCOs shall be called voluntary MHO and DCO service areas. In voluntary MHO and DCO service areas, a client may choose to:

- (A) Select a CCO open to enrollment that offers dental services; or
 - (B) Select any MHO and DCO open for enrollment if CCO enrollment is not available; or
- (C) Remain in the Medicaid FFS mental health and dental care delivery system;

(11) Enrollments resulting from assignments shall be effective the first of the month or week after the Department enrolls the client and notifies the client of enrollment and the name of the PHP: If enrollment is initiated by an Authority worker on or before Wednesday, the date of enrollment shall be the following Monday. If enrollment is initiated by an Authority worker after Wednesday, the date of enrollment shall be one week from the following Monday. Monthly enrollment in a mandatory service area, where there is only one plan or DCO, shall be initiated by an auto-enrollment program of the Authority, effective the first of the month following the month-end cutoff. Monthly enrollment in service areas, where there is a choice of PHPs, shall be auto-enrolled by computer algorithm.

(12) The provision of capitated services to a member enrolled with a PHP shall begin as of the effective date of enrollment with the MCO except for:

(a) A newborn whose mother was enrolled at the time of birth. The date of enrollment shall be the newborn's date of birth;

(b) Persons, other than newborns, who are hospitalized on the date enrolled. The date of enrollment shall be the first possible enrollment date after the date the client is discharged from inpatient hospital services;

(c) For members who are re-enrolled within 30 calendar days of disenrollment, the date of enrollment shall be the date specified by the Authority and may be earlier than the effective date outlined above.

Enrollment Requirements in a CCO

(1) For the purposes of this rule, the following definitions apply:

(a) Client means an individual found eligible to receive OHP health services. "Client" is inclusive of members enrolled in PHPs and CCOs as stated in OAR 410-120-0000;

(b) Eligibility Determination means an approval or denial of eligibility and a renewal or termination of eligibility as stated in OAR 410-200-0015;

(c) Member means a client enrolled with a pre-paid health plan or coordinated care organization as stated in OAR 410-120-0000;

(d) Newly Eligible means recently determined, through the eligibility determination process, as having the right to obtain state health benefits, satisfying the appropriate conditions;

(e) Redetermination means a review of eligibility outside of regularly scheduled renewals. Redeterminations that result in the assignment of a new renewal date or a change in program are considered renewals as stated in OAR 410-200-0015;

(f) Renewal means a regularly scheduled periodic review of eligibility resulting in a renewal or change of program benefits, including the assignment of a new renewal date or a change in eligibility status.

(2) The following populations may not be enrolled into a CCO for any type of health care coverage including:

(a) Persons who are non-citizens and are Citizen/Alien Waivered-Emergency Medical program eligible for labor and delivery services and emergency treatment services;

(b) Clients receiving premium assistance through the Specified Low-Income Medicare Beneficiary, Qualified Individuals, Qualified Disabled Working Individuals and Qualified Medicare Beneficiary programs without other Medicaid;

(c) Persons who are dually eligible for Medicare and Medicaid and enrolled in a program of all-inclusive care for the elderly.

(3) The following populations may not be enrolled into a CCO under the following circumstances:

(a) Newly eligible clients are exempt from enrollment with a CCO but not exempt from enrollment in a DCO if they became eligible when admitted as an inpatient in a hospital. The client shall receive health care services on a fee-for-service (FFS) basis only until the hospital discharges the client. The individual will receive dental services through the DCO;

(b) The client is covered under a major medical insurance policy or other third party resource (TPR) that covers the cost of services to be provided by a PHP as specified in ORS 414.631 and except as provided for children in Child Welfare through the BRS and PRTS programs outlined in OAR 410-141-3050. A client shall be enrolled with a DCO even if they have a dental TPR.

(4) Persons who are documented American Indian and Alaskan Native (AI/AN) beneficiaries are exempt mandatory enrollment into a managed care plan, as specified in 42 USC 1932, 2 (C), but may elect to be manually enrolled.

(5) Populations specified below are exempt from mandatory enrollment into a physical health CCO but are subject to mandatory enrollment into both dental and mental health plans as available in the member's service area. The member may be manually enrolled into a physical health plan as deemed appropriate by the Authority. These populations are as follows:

(a) Children in the legal custody of the Department or where the child is expected to be in a substitute care placement for less than 30 calendar days unless:

(A) Access to health care on a FFS basis is not available; or

(B) Enrollment would preserve continuity of care;

(b) Clients who are dually eligible for Medicare and Medicaid but not enrolled in a program of all-inclusive care for the elderly. The following apply to these:

ADMINISTRATIVE RULES

(A) A client has the option to enroll in a CCO regardless of whether they are enrolled in Medicare Advantage;

(B) A client enrolled in Medicare Advantage, whether or not they pay their own premium, has the option to enroll in a CCO even if the CCO does not have a corresponding Medicare Advantage plan;

(C) A client has the option to enroll with a CCO, even if the client withdrew from that CCO's Medicare Advantage plan. The CCO shall accept the client's enrollment if the CCO has adequate health access and capacity;

(D) A client has the option to enroll with a CCO even if the client is enrolled in Medicare Advantage with another entity.

(6) The Authority may temporarily exempt clients for other just causes as determined by the Authority through medical review. The Authority may set an exemption period on a case-by-case basis for those as follows:

(a) Children under 19 years of age who are medically fragile and who have special health care needs. The Authority may enroll these children in CCOs on a case-by-case basis. Children not enrolled in a CCO shall continue to receive services on a FFS basis;

(b) Until December 31, 2017, women who are pregnant and meet the qualifications in sub-sections A through E below may receive OHP benefits on a FFS basis for physical health only until 60 days after the birth of her child. Women meeting the criteria for the pregnancy enrollment exemption for their physical health plan coverage will continue to be enrolled in the appropriate MCO or CCO plan in their service area for dental and mental health coverage. After the 60-day period the member shall enroll in a plan as appropriate. Those women under consideration for a pregnancy enrollment exemption for their physical health enrollment shall receive a response from the Authority within 30 working days of request. Upon approval of the FFS pregnancy exemption for physical health enrollment only, the client shall remain FFS for as long as she continues to meet the requirements in A through E below. In order to qualify for the FFS pregnancy exemption for physical health only, there must be no home birth option available to the client through her plan and the client must:

(A) Be pregnant;

(B) State that her intention is to have a home birth;

(C) Have an established relationship for the purpose of home birth with a licensed, qualified practitioner who is not a participating provider with the client's CCO; and

(D) Make a request to change to FFS. This request can be made at any point in the pregnancy prior to delivery; and

(E) Meet all administrative rules including, but not limited to, OAR 410-130-0240 and statutory requirements that define when a home birth is eligible for reimbursement by the Authority:

(i) Should a woman become unable to meet any of the requirements specified in OAR 333-076-0650(1) Table 1 either upon initial evaluation or once the exemption is granted, the exemption shall be withdrawn and the client will be subject to CCO enrollment requirements as stated in OAR 410-141-3060.

(ii) Conditions arising during the pregnancy as listed in subsections (I) through (V) below shall be reviewed by the Authority on a case-by-case basis for continuation of the FFS enrollment exemption:

(I) Fetal presentation other than vertex, when known;

(II) Abnormal Bleeding;

(III) Low-lying placenta within 2 cm. or less of cervical os;

(IV) Genital herpes, primary; secondary uncoverable at onset of labor; and

(V) Current substance abuse that has the potential to adversely affect labor and the infant;

(c) The following apply to clients and exemptions relating to organ transplants:

(A) Newly eligible clients are exempt from enrollment with a CCO if the client is newly diagnosed and under the treatment protocol for an organ transplant;

(B) Newly eligible clients with existing transplants shall enroll into the appropriate CCO for their service area;

(d) Other just causes to preserve continuity of care include the following considerations:

(A) Enrollment would pose a serious health risk; and

(B) The Authority finds no reasonable alternatives.

(7) Unless stated above, CCO enrollment is mandatory in all areas served by a CCO. A client who is eligible for or receiving health services must enroll in a CCO as required by ORS 414.631, except as provided in ORS 414.631(2), (3), (4), and (5) and this rule.

(8) Enrollment is voluntary in service areas without adequate access and capacity to provide health care services through a CCO or PHP.

(9) Enrollment is mandatory in service areas with adequate health care access and capacity to provide health care services through a CCO or PHP. If upon application or redetermination, a client does not select a CCO, the Authority shall auto-assign the client and the client's household to a CCO that has adequate health care access and capacity. The following outlines the priority of enrollment in service areas where enrollment is mandatory and a PHP remains available for enrollment:

(a) Priority 1: The client shall enroll in a CCO that serves that area and has adequate health care access and capacity;

(b) Priority 2: The client has the option to enroll in a PHP through a manual process if:

(A) The client has an established relationship with a provider who is only contracted with the PHP; or

(B) The PHP serves an area that a CCO serves, but the CCO has inadequate health care services capacity to accept new members. Clients will be FFS unless already established with a PHP's provider;

(c) Priority 3: The client shall receive services on a FFS basis.

(10) If a service area changes from mandatory enrollment to voluntary enrollment, the member shall remain with the PHP for the remainder of their eligibility period or until the Authority or Department redetermines eligibility, whichever comes sooner, unless otherwise eligible to disenroll pursuant to OAR 410-141-3080.

(11) Clients who are exempt from physical health services or who are enrolled with a PHP for physical health services will receive managed or coordinated mental health and oral health services as follows:

(a) The client shall be enrolled with a CCO if the CCO offers mental health and oral health services; or

(b) The client shall be enrolled with an MHO for mental health services and with a DCO for oral health services if the CCO does not offer those services; or

(c) The client shall be enrolled with a DCO for oral health services and remain FFS for mental health services if an MHO is not available; or

(d) The client shall remain FFS for both mental health and oral health services if an MHO or DCO is unavailable.

(12) The following pertains to the effective date of the enrollment. If the enrollment occurs:

(a) On or before Wednesday, the date of enrollment shall be the following Monday; or

(b) After Wednesday, the date of enrollment shall be one week from the following Monday.

(13) Coordinated care services shall begin as of the effective date of enrollment with the CCO except for:

(a) A newborn's date of birth when the mother was a member of a CCO at the time of birth;

(b) For persons other than newborns who are hospitalized on the date enrolled, the date of enrollment shall be the first possible enrollment date after the date the client is discharged from inpatient hospital services;

(c) For members who are re-enrolled within 30 calendar days of disenrollment, the date of enrollment shall be the date specified by the Authority and may be earlier than the effective date outlined above.

(d) For adopted children or children placed in an adoptive placement, the date of enrollment shall be the date specified by the Authority.

Practitioner-Managed Prescription Drug Plan

(1) The Practitioner-Managed Prescription Drug Plan (PMPDP) is a plan that ensures that OHP fee-for-service clients have access to the most effective prescription drugs appropriate for their clinical conditions at the best possible price:

(a) Licensed health care practitioners, who are informed by the latest peer reviewed research, make decisions concerning the clinical effectiveness of the prescription drugs;

(b) Licensed health care practitioners also consider the client's health condition, personal characteristics, and the client's gender, race, or ethnicity.

(2) PMPDP Preferred Drug List (PDL):

(a) The PDL is the primary tool the Division uses to inform licensed health care practitioners about the results of the latest peer-reviewed research and cost effectiveness of prescription drugs;

(b) The PDL contains a list of prescription drugs that the Division, in consultation with the Drug Use Review (DUR)/Pharmacy & Therapeutics Committee (P&T), has determined represent the most effective drugs available at the best possible price;

(c) The PDL shall include drugs that are Medicaid reimbursable and the Food and Drug Administration (FDA) has determined to be safe and effective.

(3) PMPDP PDL Selection Process:

(a) The Division shall utilize the recommendations made by the P&T that result from an evidence-based evaluation process as the basis for selecting the most effective drugs;

(b) The Division shall ensure the drugs selected in section (3)(a) that are available for the best possible price and shall consider any input from the P&T about other FDA-approved drugs in the same class that are avail-

able for a lesser relative price. The Division shall determine relative price using the methodology described in section (4);

(c) The Division shall evaluate selected drugs for the drug classes periodically:

(A) The Division may evaluate more frequently if new safety information or the release of new drugs in a class or other information makes an evaluation advisable;

(B) New drugs in classes already evaluated for the PDL shall be non-preferred until the new drug has been reviewed by the P&T;

(C) The Division shall make all revisions to the PDL using the rule-making process and shall publish the changes on the Division's Pharmaceutical Services provider rules website.

(4) Relative cost and best possible price determination:

Rules Amended: 410-121-0040

Subject: The Pharmaceutical Services Program administrative rules (Division 121) govern Division payments for services provided to certain clients. The Division needs to amend rules as follows:

The Authority is amending this rule to update the Oregon Medicaid Fee for Service Prior Authorization Criteria Guide found at <http://www.oregon.gov/oha/healthplan/Pages/pharmacy-policy.aspx> based on the P&T (Pharmacy and Therapeutic) Committee recommendations.

Rules Coordinator: Sandy Cafourek—(503) 945-6430

Prior Authorization Required for Drugs and Products

(1) Prescribing practitioners shall obtain prior authorization (PA) for the drugs and categories of drugs requiring PA in this rule, using the procedures set forth in OAR 410-121-0060.

(2) All drugs and categories of drugs including, but not limited to, those drugs and categories of drugs that require PA shall meet the following requirements for coverage:

(a) Each drug shall be prescribed for conditions funded by the Oregon Health Plan (OHP) in a manner consistent with the Health Evidence Review Commission (HERC) Prioritized List of Health Services (OAR 410-141-0480 through 410-141-0520). If the medication is for a non-covered diagnosis, the medication may not be covered unless there is a co-morbid condition for which coverage would be allowed. The use of the medication shall meet corresponding treatment guidelines and be included within the client's benefit package of covered services and not otherwise excluded or limited;

(b) Each drug shall also meet other criteria applicable to the drug or category of drug in these pharmacy provider rules, including PA requirements imposed in this rule.

(3) The Authority may require PA for individual drugs and categories of drugs to ensure that the drugs prescribed are indicated for conditions funded by OHP and consistent with the Prioritized List of Health Services and its corresponding treatment guidelines (see OAR 410-141-0480). The drugs and categories of drugs that the Authority requires PA for this purpose are found in the Oregon Medicaid Fee-for-Service Prior Authorization Approval Criteria (PA Criteria guide) dated October 9, 2015, adopted and incorporated by reference and found at: <http://www.oregon.gov/OHA/healthplan/pages/pharmacy-policy.aspx>

(4) The Authority may require PA for individual drugs and categories of drugs to ensure medically appropriate use or to address potential client safety risk associated with the particular drug or category of drug, as recommended by the Pharmacy & Therapeutics Committee (P&T) and adopted by the Authority in this rule. The drugs and categories of drugs for which the Authority requires PA for this purpose are found in the Pharmacy PA Criteria Guide.

(5) New drugs shall be evaluated when added to the weekly upload of the First Databank drug file:

(a) If the new drug is in a class where current PA criteria apply, all associated PA criteria shall be required at the time of the drug file load;

(b) If the new drug is indicated for a condition below the funding line on the Prioritized List of Health Services, PA shall be required to ensure that the drug is prescribed for a condition funded by OHP;

(c) PA criteria for all new drugs shall be reviewed by the DUR/P&T Committee.

(6) PA shall be obtained for brand name drugs that have two or more generically equivalent products available and that are not determined Narrow Therapeutic Index drugs by the DUR/P&T Committee:

(a) Immunosuppressant drugs used in connection with an organ transplant shall be evaluated for narrow therapeutic index within 180 days after United States patent expiration;

(b) Manufacturers of immunosuppressant drugs used in connection with an organ transplant shall notify the Authority of patent expiration within 30 days of patent expiration for section (5)(a) to apply;

(c) Criteria for approval are:

(A) If criteria established in section (3) or (4) of this rule applies, follow that criteria;

(B) If section (6)(A) does not apply, the prescribing practitioner shall document that the use of the generically equivalent drug is medically con-

traindicated and provide evidence that either the drug has been used and has failed or that its use is contraindicated based on evidence-based peer reviewed literature that is appropriate to the client's medical condition.

(7) PA shall be obtained for non-preferred Preferred Drug List (PDL) products in a class evaluated for the PDL except in the following cases:

(a) The drug is a mental health drug as defined in OAR 410-121-0000;

(b) The original prescription is written prior to 1/1/10;

(c) The prescription is a refill for the treatment of seizures, cancer, HIV, or AIDS; or

(d) The prescription is a refill of an immunosuppressant.

(8) PA may not be required:

(a) When the prescription ingredient cost plus the dispensing fee is less than the PA processing fees as determined by the Authority;

(b) For over-the-counter (OTC) covered drugs when prescribed for conditions covered under OHP; or

(c) If a drug is in a class not evaluated from the Practitioner-Managed Prescription Drug Plan under ORS 414.334.

Subject: The Oregon Health Authority, Public Health Division is temporarily amending Oregon Administrative Rules in chapter 333, division 8 pertaining to limited marijuana retail sales. SB 460 (Oregon Laws 2015, chapter 784), passed during the 2015 legislative session, allows medical marijuana dispensaries to sell dried cannabis, seeds and plant starts to adults 21 years of age and older starting October 1. Under SB 460 the temporary sales program will end on December 31, 2016.

SB 460 directs the Oregon Health Authority to establish administrative rules allowing for limited amounts of marijuana products to be sold to persons 21 years of age or older without an Oregon Medical Marijuana card. Beginning January 4, 2016, dispensaries must collect a tax of 25% on limited marijuana retail products sold.

In addition, HB 3400, section 173, imposes immediate residency requirements on some Oregon Medical Marijuana Program growers and persons responsible for a dispensary and these rule amendments set out the residency requirements and the process for establishing residency.

Upon receipt by the Authority of a notice of non-sufficient funds (NSF) or stop payment, an applicant will be allowed 14 days to submit payment in the form of a bank check or cash. Application fees paid in the form of cash must be hand-delivered. Applicants are advised not to make payments in cash through the United States mail or private delivery services. (c) If a grower was first registered with the Authority as a grower on or before January 1, 2015, but has not been continuously registered as a grower since first registered, the grower must have been a resident of Oregon for at least two years immediately prior to the application being submitted to the Authority.

(d) If a grower does not have an Oregon driver's license or Oregon identification card, or the grower's Oregon driver's license or Oregon identification card was not issued one or two years prior to the date of application, as applicable, the Authority will attempt to verify whether the grower has been a resident for the required length of time and may contact the grower and require the grower to submit additional information to the Authority to prove residency.

January 1, 2006, may not be issued a marijuana grow site registration card or produce marijuana for a registry identification cardholder.

(c) The Authority shall notify a patient by certified mail that the grower is ineligible and the patient will be allowed the opportunity to identify another grower.

(5) The Authority shall issue a marijuana grow site registration card to a patient who has met the requirements of section (2) of this rule, unless the grower is disqualified under section (4) of this rule.

(6) A grower must display a marijuana grow site registration card for each patient for whom marijuana is being produced, at the marijuana grow site at all times.

(7) All usable marijuana, plants, seedlings and seeds, associated with the production of marijuana for a patient by a grower, are the property of the patient and must be provided to the patient, or, if the marijuana is usable marijuana or an immature marijuana plant, transferred to a registered medical marijuana facility, upon request.

(8) All marijuana produced for a patient must be provided to the patient or designated primary caregiver when the grower ceases producing marijuana for the patient.

(9) A grower must return the grow site registration card to the patient to whom the card was issued when requested to do so by the patient or when the grower ceases producing marijuana for the patient.

(10) A patient or the designated primary caregiver of the patient may reimburse the grower for the costs of supplies and utilities associated with production of marijuana for patient. No other costs associated with the production of marijuana for the patient, including the cost of labor, may be reimbursed.

(11) A grower may produce marijuana for no more than four patients or designated primary caregivers concurrently.

Billing and Claims

(1) Only clinics providing contraceptive management services pursuant to an approved MSA, and who have been assigned a project number and site number may submit claims for CCare services.

(2) An agency may bill for contraceptive management services by submitting CVR data or by submitting the CVR form to RH. A claim is considered valid only if all required data are submitted.

(3) An agency may bill RH for supplies through the CVR at actual acquisition cost; that is, the amount or unit cost of the contraceptive supply the agency actually pays to the pharmaceutical manufacturer, supplier or distributor for the contraceptive supplies, after applying any discounts, promotions or other reductions. Shipping and handling may be included in the acquisition cost only if supported by an invoice.

(4) An agency shall include a primary diagnosis code on all claims. All billings must be coded with the most recent and appropriate International Classification of Diseases. All billings must be coded with the diagnosis codes in the Z30 Contraceptive Management series to the highest level of specificity. No other primary diagnosis code can be billed.

(5) An agency may bill RH for laboratory services related to contraceptive management through a fixed rate that includes clinical and laboratory services. The exception to this is the combined gonorrhea/Chlamydia (GC/CT) test occurring in the context of a CCare contraceptive initiation management visit. The combined GC/CT test shall be reimbursed separately from the fixed rate only if the appropriate medical service is indicated on the CVR.

(6) Birth control supplies billable to CCare must be approved by the Authority, be FDA approved, and may include intrauterine devices, cervical caps, oral contraceptives, subdermal implants, condoms, diaphragms, spermicides, patches, rings, injectibles, and emergency contraception.

(7) An agency must ensure that all laboratory tests done at the clinic site or by an outside clinic are conducted by CLIA certified laboratories.

(8) An agency enrolled with CCare must not seek payment from an eligible client, or from a financially responsible relative or representative of that client, for any services covered by CCare. The agency shall accept RH reimbursement for any CCare-covered services, pharmaceuticals, devices, or supplies as payment in full.

(a) If an agency has misrepresented client eligibility for services, the agency must assume responsibility for the full cost of services provided.

(b) A client may be billed for services that are not covered by CCare as outlined in the CCare enrollment form.

(9) Upon submission of a claim to RH for payment, the agency attests that it has complied with all rules of CCare.

(a) Except for services performed by a CLIA certified laboratory outside of the clinic, all billings must be for services provided within the agency and its provider's licensure or certification.

(b) It is the responsibility of an agency to submit true and accurate information when billing CCare.

(c) A claim may not be submitted prior to providing services.

(10) No agency shall submit to RH:

(a) Any false claim for payment;

(b) Any claim altered in such a way as to result in a payment for a service that has already been paid; or

(c) Any claim upon which payment has been made by another source unless the amount paid is clearly entered on the claim form.

(11) An agency is required to correct the billing error or to refund the amount of the overpayment, on any claim where the agency identifies an overpayment made by RH.

(12) An agency that, after having been previously warned in writing by the Authority or the Department of Justice regarding findings of improper billing practices as described in OAR 333-004-0140, is found to have continued such improper billing practices and has had an opportunity for a contested case hearing, shall be liable to RH for up to triple the amount of the established overpayment received as a result of such violation.

ADMINISTRATIVE RULES

(13) Third Party Resources. The following subsections apply only to clients with private insurance coverage.

(a) Federal law requires that all reasonable efforts be taken to ensure that CCare is the payor of last resort, unless a client requests special confidentiality which must be documented on the CCare enrollment form. A client's request for special confidentiality ensures that the agency must not bill third party resources, but instead must bill CCare directly.

(b) An agency must make reasonable efforts to obtain payment from other resources before billing CCare. For the purposes of this rule "reasonable efforts" include:

(A) Determining the existence of insurance or other resource by asking the client.

(B) When third party coverage is known to the agency, prior to billing CCare:

(i) The agency must bill the third party resource; and

(ii) Resubmit a denied claim when the service is payable in whole or in part by an insurer.

(c) If the client has private insurance that has been billed for CCare services and the reimbursement from the insurance does not cover the entire cost of the services, the balance may be billed to CCare.

(d) An agency must report the reimbursement received from insurance, including both services and supplies, on box 17A, 2 of the CVR. The exact amount received from the insurance company must be reported in total.

(e) The CCare payment to the agency after the agency has received third party payment may not exceed the total of what CCare would pay for both services and supplies. The total amount of service and supply minus the amount paid by the primary insurance is the amount the agency shall be reimbursed.

(f) If third-party payment is received after CCare has been billed, agencies are required to submit a billing correction showing the amount of the third party payment or to refund the amount received from another source within 30 days of the date the payment is received. Failure to submit a billing correction within 30 days of receipt of the third party payment or to refund the appropriate amount within this time frame is considered concealment of material facts and grounds for recovery or sanction.

Billing

(1) Only clinics providing breast and cervical cancer screening and diagnostic services pursuant to an approved medical services agreement, and who have been assigned an agency number may submit claims for BCCP services.

(2) All services must be billed by submitting claim information in the method specified by the BCCP.

(3) A primary diagnosis code is required on all claims. All billings must be coded with the most current and appropriate International Classification of Diseases, 10th Revision, Clinical Modification (ICD-10-CM) diagnosis codes and the most appropriate Current Procedural Terminology (CPT) codes as noted in the BCCP Program Manual. Claims including primary diagnosis codes that are not in the BCCP Program Manual will not be paid.

(4) The provider must use CLIA certified laboratories for all tests whether done at the clinic site or by an outside clinic.

(5) Enrolled providers with BCCP must not seek payment from an eligible client, or from a financially responsible relative or representative of that individual, for any services covered by BCCP.

(a) A client may be billed for services that are not covered by BCCP. However, the provider must inform the client in advance of receiving the specific service that it is not covered, the estimated cost of the service, and that the client or client's representative is financially responsible for payment for the specific service. Providers must document in writing that the client was provided this information and the client knowingly and voluntarily agreed to be responsible for payment. The client or client's representative must sign the documentation.

(b) Services not covered by BCCP are those outside of the scope of standard breast and cervical cancer screening and diagnosis, or those not included in the ICD-10 and CPT code lists provided in the BCCP Program Manual.

(6) Prior to submission of a claim to the Center for payment, an approved provider agreement must be in place.

(7) All claims must be submitted with data, where described in the claims section of the rules. A claim is considered a "valid claim" only when all required data is received by the BCCP.

(a) Except for services performed by a CLIA certified laboratory outside of the clinic, all billings must be for services provided within the provider's licensure or certification.

(b) Providers must submit true and accurate information when billing the Center.

(c) A claim may not be submitted prior to providing services.

(8) Diagnosis Code Requirement:

(a) A primary diagnosis code is required on all claims.

(b) Use the highest degree of specificity within ICD-10-CM codes for breast and cervical screening or diagnostic testing as defined in the program manual.

(9) No provider shall submit to the Center:

(a) Any false claim for payment;

(b) Any claim altered in such a way as to result in a payment for a service that has already been paid;

(c) Any claim upon which payment has been made by another source unless the amount paid is clearly entered on the claim form;

(10) The provider must submit a billing error edit correction, or refund the amount of the overpayment, on any claim where the provider identifies an overpayment made by the Center.

(11) A provider who, after having been previously warned in writing by the Authority or the Department of Justice about improper billing practices, is found to have continued such improper billing practices and has had an opportunity for a contested case hearing, shall be liable to the Center for up to triple the amount of the established overpayment received as a result of such violation.

(12) Third Party Resources:

(a) Providers must make all reasonable efforts to ensure that BCCP will be the payor of last resort with the exception of clinic or offices operated by the Indian Health Service (IHS) or individual American Indian tribes;

(b) Providers must make all reasonable efforts to obtain payment first from other resources. For the purposes of this rule "reasonable efforts" include:

(A) Determining the existence of insurance coverage or other resource by asking the client;

(B) Except in the case of the underinsured, when third party coverage is known to the provider, by any other means available:

(i) The provider must bill the third party resource;

(ii) Comply with the insurer's billing and authorization requirements.

(C) Providers are required to submit a billing error edit correction showing the amount of the third party payment or to refund the amount received from another source within 30 days of the date the payment is received. Failure to submit a billing error edit correction within 30 days of receipt of the third party payment or to refund the appropriate amount within this time frame is considered concealment of material facts and grounds for recovery or sanction.

Excluded Services

(1) Services and laboratory tests not directly related to heart disease, stroke and diabetes, or not included in the ICD-10 and CPT code lists provided in the WW Program Manual are not covered by the WW Program.

Claims and Billing

(1) Only an enrolling or ancillary provider providing WW Program covered services pursuant to a fully executed medical services agreement, and who has been assigned an agency number may submit claims for payment to the Center for providing WW Program covered services.

(2) An enrolling or ancillary provider shall, as applicable:

(a) Submit claim information in the manner specified by the WW Program;

(b) Include a primary diagnosis code on all claims;

ADMINISTRATIVE RULES

(c) Code all claims with the most current and appropriate International Classification of Diseases, 10th Revision, Clinical Modification (ICD-10-CM) diagnosis codes and the most appropriate Current Procedural Terminology (CPT) codes as noted in the WW Program Manual;

(d) Submit to the Center all claims for services within 12 months of the date of service;

(e) Submit a billing error edit correction, or refund the amount of the overpayment, on any claim where a provider identifies an overpayment made by the Center;

(f) Make all reasonable efforts to ensure that the WW Program is the payor of last resort with the exception of clinics or offices operated by the Indian Health Service (IHS) or individual American Indian tribes. For the purposes of this rule "reasonable efforts" include:

(A) Determining the existence of insurance coverage or other resource by asking the client; and

(B) Except in the case of the underinsured, billing any known insurer in compliance with that insurer's billing and authorization requirements.

(g) Submit to the Center a billing error edit correction if it receives a third party payment and refund to the Center the amount received from the other source within 30 days of the date the payment is received.

(3) The Center may not pay a claim older than 12 months, except as provided for in section (4) of this rule. An enrolling or ancillary provider that has a claim rejected because of an error must resolve the error within 12 months of the date of service.

(4) If the Center makes an error that makes it impossible for an enrolling or ancillary provider to bill within 12 months of the date of service, the enrolling or ancillary provider shall notify the Center of the alleged error and submit the claim to the Center. The Center shall confirm that it made an error prior to payment being made.

(5) The Center may not pay a claim that includes a primary diagnosis code that is not in the WW Program Manual.

(6) An enrolling or ancillary provider with the WW Program may not seek payment from a client, or from a financially responsible relative or representative of that client for any services covered by the WW Program.

the American National Standards Institute. Division 106 is being amended by providing better clarity relating to X-ray operator requirements and to repeal the requirement that patients being exposed to radiation from a dental X-ray device are not required to be provided a leaded apron or thyroid collar. OAR 333-116-0680 is being amended by revising one rule title for better clarity. OAR 333-118-0040, Transportation Exemptions, is being revised to meet federal compatibility requirements relating to the transportation of by-product materials. Division 120 is amended to correct rule cross references and correct an error relating to shallow dose equivalent to the skin.

Within division 120, OAR 333-120-0800, Report of Transactions Involving Nationally Tracked Sources, is being repealed and moved to the adopted division 125. Division 125 is being adopted to meet the Nuclear Regulatory Commission's requirement to have rules developed in order to be compatible with the Physical Protection of Category 1 and Category 2 Quantities of Radioactive Materials federal regulations.

Definitions

The following definitions apply to OAR chapter 333 divisions 100, 102, 103, 106, 111, 116, 118, 119, 120, 121, 122, 123, and 124. Additional definitions used only in a certain division can be found in that division.

(1) "Absorbed dose" means the energy imparted by ionizing radiation per unit mass of irradiated material. The units of absorbed dose are the gray (Gy) and the rad.

(2) "Accelerator" means any machine capable of accelerating electrons, protons, deuterons, or other charged particles in a vacuum and of discharging the resultant particulate or other radiation into a medium at energies usually in excess of 1 MeV. For purposes of this definition, "particle accelerator" is an equivalent term.

(3) "Accelerator-produced material" means any material made radioactive by a particle accelerator.

(4) "Act" means Oregon Revised Statutes 453.605 through 453.807.

(5) "Activity" means the rate of disintegration or transformation or decay of radioactive material. The units of activity are the becquerel (Bq), defined as one disintegration per second, and the curie (Ci), defined as 3.7×10^{10} disintegrations per second.

(6) "Adult" means an individual 18 or more years of age.

(7) "Agreement State" means any state with which the U.S. Nuclear Regulatory Commission or the U.S. Atomic Energy Commission has entered into an effective agreement under subsection 274b. of the Atomic Energy Act of 1954, as amended (73 Stat. 689). States not entering an agreement under the Act are considered a non-agreement state.

(8) "Airborne radioactive material" means any radioactive material dispersed in the air in the form of dusts, fumes, particulates, mists, vapors, or gases.

(9) "Airborne radioactivity area" means a room, enclosure, or area in which airborne radioactive material, composed wholly or partly of licensed material, exist in concentrations:

(a) In excess of the derived air concentrations (DACs) specified in Appendix B, Table I, column 3, to 10 CFR Part 20.1001 to 20.2401; or

(b) To such a degree that an individual present in the area without respiratory protective equipment could exceed, during the hours an individual is present in a week, an intake of 0.6 percent of the annual limit on intake (ALI) or 12 DAC-hours.

(10) "ALARA" (acronym for "As Low As Reasonably Achievable") means making every reasonable effort to maintain exposures to radiation as far below the dose limits in this part as is practical consistent with the purpose for which the licensed activity is undertaken, taking into account the state of technology, the economics of improvements in relation to state of technology, the economics of improvements in relation to benefits to the public health and safety, and other societal and socioeconomic considerations, and in relation to utilization of nuclear energy and licensed materials in the public interest.

(11) "Alert" means events may occur, are in progress, or have occurred that could lead to a release of radioactive material but that the release is not expected to require a response by offsite response organizations to protect persons offsite.

(12) "Annual" means occurring every year or within a consecutive twelve month cycle.

(13) "Annual Limit on Intake" (ALI) means the derived limit for the amount of radioactive material taken into the body of an adult worker by inhalation or ingestion in a year. ALI is the smaller value of intake of a given radionuclide in a year by the Reference Man that could result in a committed effective dose equivalent of 0.05 Sv (5 rem) or a committed dose equivalent of 0.5 Sv (50 rem) to any individual organ or tissue. ALI values for intake by ingestion and by inhalation of selected radionuclides are given in Appendix B, Table I, Columns 1 and 2, to 10 CFR Part 20.1001 to 20.2401.

(14) "As Low As Reasonably Achievable" see "ALARA."

(4) No person may, for purposes of commercial distribution, transfer radioactive material in the individual quantities set forth in 10 CFR Part 30.71 Schedule B, knowing or having reason to believe that such quantities of radioactive material will be transferred to persons exempt under this rule or equivalent regulations of the U.S. Nuclear Regulatory Commission, any Agreement State or Licensing State, except in accordance with a specific license issued by the U.S. Nuclear Regulatory Commission pursuant to section 32.18 of 10 CFR Part 32 or by the Authority pursuant to OAR 333-102-0255, which license states that the radioactive material may be transferred by the licensee to persons exempt under this rule or the equivalent regulations of the U.S. Nuclear Regulatory Commission, any Agreement State or Licensing State.

(5) No person may, for purposes of producing an increased radiation level, combine quantities of byproduct material covered by this exemption so that the aggregate quantity exceeds the limits set forth in 10 CFR Part 30.71, Schedule B, except for byproduct material combined within a device placed in use before May 3, 1999, or as otherwise permitted by the regulations in this rule.

NOTE: Authority to transfer possession or control by the manufacturer, processor or producer or any equipment, device, commodity or other product containing byproduct material whose subsequent possession, use, transfer and disposal by all other persons are exempted from regulatory requirements may be obtained only from the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

Types of Licenses

Licenses for radioactive materials are of two types: General and specific.

(1) General licenses provided in this division are granted as being effective without the filing of applications with the Authority or the issuance of licensing documents to particular persons, except Depleted Uranium subject to OAR 333-102-0106, Measuring, Gauging, and Controlling devices subject to OAR 333-102-0115, and In Vitro Clinical or Laboratory Testing subject to OAR 333-102-0130.

(2) Specific licenses require the submission of an application to the Authority and the issuance of a specific licensing document by the Authority. The licensee is subject to all applicable portions of these rules as well as any limitations specified in the licensing document. Specific licenses are issued to named persons upon applications filed pursuant to OAR 333-102-0200 and divisions 105, 113, 115, 116, 117, and 121 of this chapter.

(3) General licenses granted by OAR 333-102-0101, 333-102-0106, 333-102-0115, and 333-102-0130 require the submission of an application to the Authority for registration pursuant to 333-101-0007, payment of a fee in accordance with 333-103-0015, and the issuance of a registration (licensing document or general license acknowledgment) by the Authority.

(4) General licenses are subject to OAR 333-100-0005 (Definitions), 333-100-0025 (Exemptions), 333-100-0030 (Additional Requirements), 333-100-0055 (Records), 333-100-0060(1) and 333-100-0060(2) (Inspections), 333-100-0065 (Tests), 333-102-0305(1) through 333-102-0305(8) (Terms and Conditions of Licenses), 333-102-0330 (Transfers), 333-102-0335 (Modification, Revocation, and Termination of Licenses), and divisions 103, 111, 118, and 120 of this chapter unless indicated otherwise in the language of the general license.

NOTE: Attention is directed particularly to the provisions of the regulations in division 120 of this chapter that relate to the labeling of containers and notification of incidents.

(5) Any record required by this division must be legible throughout the retention period specified by each Authority rule. The record may be the original or a reproduced copy or a microform provided that the copy or microform is authenticated by authorized personnel and that the microform is capable of producing a clear copy throughout the required retention period. The record may also be stored in electronic media with the capability for producing legible, accurate, and complete records during the required retention period. Records such as letters, drawings, specifications, must include all pertinent information such as letters, stamps, initials, and signatures. The licensee must maintain adequate safeguards against tampering with and loss of records.

General Licenses — Small Quantities of Source Material

(1) A general license is hereby issued authorizing commercial and industrial firms, research, educational and medical institutions, and state and local government agencies to use and transfer uranium and thorium, in their natural isotopic concentrations and in the form of depleted uranium, for research, development, educational, commercial, or operations purposes in the following forms and quantities:

(a) No more than 1.5 kg (3.3 lb) of uranium and thorium in dispersible forms such as gaseous, liquid, or powder, at any one time. Any material processed by the general licensee that alters the chemical or physical form of the material containing source material must be accounted for as a dispersible form. A person authorized to possess, use, and transfer source material under this paragraph may not receive more than a total of 7 kg (15.4 lb) of uranium and thorium in any one calendar year. Persons possessing source material in excess of these limits as of August 27, 2013, may continue to possess up to 7 kg (15.4 lb) of uranium and thorium at any one time for one year beyond this date, or until the Commission takes final action on a pending application submitted on or before August 27, 2014, for a specific license for such material; and receive up to 70 kg (154 lb) of uranium or thorium in any one calendar year until December 31, 2014, or until the Commission takes final action on a pending application submitted on or before August 27, 2014, for a specific license for such material; and

(b) No more than a total of 7 kg (15.4 lb) of uranium and thorium at any one time. A person authorized to possess, use, and transfer source material under this section may not receive more than a total of 70 kg (154 lb) of uranium and thorium in any one calendar year. A person may not alter the chemical or physical form of the source material possessed under this section unless it is accounted for under the limits of subsection (1)(a) of this rule; or

(c) No more than 7 kg (15.4 lb) of uranium, removed during the treatment of drinking water, at any one time. A person may not remove more than 70 kg (154 lb) of uranium from drinking water during a calendar year under this section; or

(d) No more than 7 kg (15.4 lb) of uranium and thorium at laboratories for the purpose of determining the concentration of uranium and thorium contained within the material being analyzed at any one time. A person authorized to possess, use, and transfer source material under this section may not receive more than a total of 70 kg (154 lb) of source material in any one calendar year.

(2) Any person who receives, possesses, uses, or transfers source material in accordance with the general license in section (1) of this rule:

(a) Is prohibited from administering source material, or the radiation therefrom, either externally or internally, to human beings except as may be authorized by the Authority in a specific license.

(b) Shall not abandon such source material. Source material may be disposed of as follows:

ADMINISTRATIVE RULES

(A) A cumulative total of 0.5 kg (1.1 lb) of source material in a solid, non-dispersible form may be transferred each calendar year, by a person authorized to receive, possess, use, and transfer source material under this general license to persons receiving the material for permanent disposal. The recipient of source material transferred under the provisions of this paragraph is exempt from the requirements to obtain a license under this rule to the extent the source material is permanently disposed. This provision does not apply to any person who is in possession of source material under a specific license issued under this chapter; or

(B) In accordance with OAR 333-120-0500, Waste Disposal – General Requirements.

(c) Is subject to the provisions in OAR 333-100-0080, 333-102-0001, 333-102-0005, 333-102-0075, 333-102-0101, 333-102-0305, 333-102-0330, 333-102-0350, and 333-102-0353.

(d) Shall not export such source materials except in accordance with 10 CFR Part 110.

(3) Any person who receives, possesses, uses, or transfers source material in accordance with section (1) of this rule shall conduct activities so as to minimize contamination of the facility and the environment. When activities involving such source material are permanently ceased at any site, if evidence of significant contamination is identified, the general licensee shall notify the Authority about such contamination and may consult with the Authority as to the appropriateness of sampling and restoration activities to ensure that any contamination or residual source material remaining at the site where source material was used under this general license is not likely to result in exposures that exceed the limits in 10 CFR Parts 20.1402.

(4) Any person who receives, possesses, uses, or transfers source material in accordance with the general license granted in section (1) of this rule is exempt from the provisions of division 111 and 120 of this chapter and 10 CFR Part 21 to the extent that such receipt, possession, use, and transfer are within the terms of this general license, except that such person shall comply with the provisions of CFR 10 Parts 20.1402 and 20.2001 to the extent necessary to meet the provisions of subsection (2)(b) and section (3) of this rule. However, this exemption does not apply to any person who also holds a specific license issued under this division.

(5) No person may initially transfer or distribute source material to persons generally licensed under subsection (1)(a) or section (2) of this rule, or equivalent regulations of an Agreement State, unless authorized by a specific license issued in accordance with OAR 333-102-0102 or equivalent provisions of an Agreement State. This prohibition does not apply to analytical laboratories returning processed samples to the client who initially provided the sample. Initial distribution of source material to persons generally licensed by section (1) of this rule before August 27, 2013 without specific authorization may continue for one year beyond this date. Distribution may also be continued until the Commission takes final action on a pending application for license or license amendment to specifically authorize distribution submitted on or before August 27, 2014.

(6) A general license is hereby granted authorizing the receipt of title to source material without regard to quantity. This general license does not authorize any person to receive, possess, use or transfer source material.

(7) Persons who receive, acquire, possess or use source material pursuant to the general license granted by section (1) of this rule must develop and maintain procedures to establish physical control over the source material and prevent transfer of such source material to persons not authorized to receive the source material.

(8) A person who receives, acquires, possesses or uses source material pursuant to the general license granted by section (1) of this rule:

(a) Must not introduce such source material, in any form, into a chemical, physical, or metallurgical treatment or process;

(b) Must not abandon such source material; and

(c) Must transfer or dispose of such source material only by transfer in accordance with the provisions of OAR 333-102-0330 or 333-120-0500.

Application for Specific Licenses.

(1) Applications for specific licenses must be filed on a form prescribed by the Authority. Information contained in previous applications, statements or reports filed with the Authority, the US Nuclear Regulatory Commission, or an Agreement State or a Licensing State or the Atomic Energy Commission may be incorporated by reference, provided that the reference is clear and specific.

(2) The Authority may at any time after the filing of the original application, and before the expiration of the license, require further statements in order to enable the Authority to determine whether the application shall be granted or denied or whether a license shall be modified or revoked.

(3) Each application must be signed by the applicant or licensee or a person duly authorized to act for and on the applicant's or licensee's behalf.

(4) Each applicant for a specific license is required to have a permanent in-state office with a copy of all required records available for inspection by the Authority.

(5) An application for a license filed pursuant to the rules in this division and divisions 105, 113, 115, 116, 117, and 121 of this chapter will be considered also as an application for licenses authorizing other activities for which licenses are required by the Act, provided that the application specifies the additional activities for which licenses are requested and complies with rules of the Authority and the US Nuclear Regulatory Commission as to applications for such licenses.

(6) Each new application for a radioactive material license must be accompanied by the fee prescribed by OAR 333-103-0010. No fee will be required to accompany an application for renewal or amendment of a license, except as provided in OAR 333-103-0010.

(7) An application for a license to receive and possess radioactive material for the conduct of any activity that the Authority has determined, pursuant to Subpart A of Part 51 of 10 CFR (Environmental Protection Regulations applicable to materials licensing), will significantly affect the quality of the environment, must be filed at least nine months prior to commencement of construction of the plant or facility in which the activity will be conducted and must be accompanied by any Environmental Report required pursuant to Subpart A of 10 CFR Part 51.

(8) An application for a specific license to use byproduct material in the form of a sealed source or in a device that contains the sealed source must either:

(a) Identify the source or device by manufacturer and model number as registered with the US Nuclear Regulatory Commission under 10 CFR Part 32.210 or with an Agreement State; or for a source or a device containing radium-226 or accelerator-produced radioactive material with a state under provisions comparable to 10 CFR Parts 32.210; or

(b) Contain the information identified in 10 CFR Part 32.210(c); or

(c) For sources or devices manufactured prior to October 23, 2012 that are not registered with the Nuclear Regulatory Commission or an Agreement State which the applicant is unable to provide all categories of information specified in 10 CFR Part 32.210(c) the applicant must provide:

(A) All available information identified in 10 CFR Part 32.210(c) concerning the source and if applicable the device; and

(B) Sufficient additional information to demonstrate that there is reasonable assurance that the radiation safety properties of the source or device are adequate to protect health and minimize danger to life and property. Information must include a description of the source or device, description of radiation safety features, intended use and associated operating experience and the results of a recent leak test:

(i) For sealed sources and devices allowed to be distributed without registration of safety information in accordance with 10 CFR Part 32.210(g)(1), the applicant may supply only the manufacturer, model number, and radionuclide and quantity; or

ADMINISTRATIVE RULES

(ii) If it is not feasible to identify each sealed source and device individually, the applicant may propose constraints on the number and type of sealed sources and devices to be used and the conditions under which they will be used, in lieu of identifying each sealed source and device.

(9) As provided by OAR 333-102-0200, certain applications for specific licenses filed under this division and divisions 105, 113, 115, 116, 117, and 121 of this chapter must contain a proposed decommissioning funding plan or a certification of financial assurance for decommissioning as follows:

(10)(a) Each application to possess radioactive materials in unsealed form, on foils or plated sources, or sealed in glass in excess of the quantities in 10 CFR 30.72, "Schedule C — Quantities of Radioactive Materials Requiring Consideration of the Need for an Emergency Plan for Responding to a Release," must contain either:

(A) An evaluation showing that the maximum dose to a person offsite due to a release of radioactive materials shall not exceed one rem effective dose equivalent or five rems to the thyroid; or

(B) An emergency plan for responding to a release of radioactive material.

(b) One or more of the following factors may be used to support an evaluation submitted under paragraph (10)(a)(A) of this rule:

(A) The radioactive material is physically separated so that only a portion could be involved in an accident;

(B) All or part of the radioactive material is not subject to release during an accident because of the way it is stored or packaged;

(C) The release fraction in the respirable size range shall be lower than the release fraction shown in 10 CFR Part 30.72 (Schedule C — Quantities of Radioactive Materials Requiring Consideration of the Need for an Emergency Plan for Responding to a Release) due to the chemical or physical form of the material;

(D) The solubility of the radioactive material shall reduce the dose received;

(E) Facility design or engineered safety features in the facility shall cause the release fraction to be lower than shown in 10 CFR Part 30.72;

(F) Operating restrictions or procedures shall prevent a release fraction as large as that shown in 10 CFR Part 30.72; or

(G) Other factors appropriate for the specific facility.

(c) An emergency plan for responding to a release of radioactive material submitted under paragraph (10)(a)(B) of this rule must include the following information:

(A) Facility description. A brief description of the licensee's facility and area near the site.

(B) Types of accidents. An identification of each type of radioactive materials accident for which protective actions may be needed.

A commitment to and a brief description of the means to promptly notify offsite response organizations and request offsite assistance, including medical assistance for the treatment of contaminated injured onsite workers when appropriate. A control point must be established. The notification and coordination must be planned so that unavailability of some personnel, parts of the facility, and some equipment will not prevent the notification and coordination. The licensee also must commit to notify the Authority immediately after notification of the appropriate offsite response organizations and not later than one hour after the licensee declares an emergency.

NOTE: These reporting requirements do not supersede or release licensees of complying with the requirements under the Emergency Planning and Community Right-to-Know Act of 1986, Title III, Pub. L. 99-499 or other state or federal reporting requirements.

Quarterly communications checks with offsite response organizations must include the check and update of all necessary telephone numbers. The licensee must invite offsite response organizations to participate in the biennial exercises. Participation of offsite response organizations in biennial exercises although recommended is not required. Exercises must use accident scenarios postulated as most probable for the specific site and the scenarios must not be known to most exercise participants. The licensee must critique each exercise using individuals not having direct implementation responsibility for the plan. Critiques of exercises must evaluate the appropriateness of the plan, emergency procedures, facilities, equipment, training of personnel, and overall effectiveness of the response. Deficiencies found by the critiques must be corrected.

General Requirements for the Issuance of Specific Licenses

An application for a specific license, will be approved if:

(1) The application is for a purpose authorized by the Act;

(2) The applicant is qualified by training and experience to use the material for the purpose requested in such manner as to protect health and minimize danger to life or property;

(3) The applicant's proposed equipment and facilities are adequate to protect health and minimize danger to life or property;

ADMINISTRATIVE RULES

(4) The applicant satisfies any applicable special requirements contained in divisions 102, 105, 113, 115, 116, 117, or 121 of this chapter; and

(5) In the case of an application for a license to receive and possess radioactive material for the conduct of any activity which the Authority determines will significantly affect the quality of the environment, the Authority Manager or designee, before commencement of construction of the plant or facility in which the activity will be conducted, on the basis of information filed and evaluations made pursuant to Subpart A of Part 51 of 10 CFR, has concluded, after weighing the environmental, economic, technical, and other benefits against environmental costs and considering available alternatives, that the action called for is the issuance of the proposed license, with any appropriate conditions to protect environmental values. Commencement of construction prior to such conclusion must be grounds for denial of a license to receive and possess byproduct material in such plant or facility. As used in this rule, the term "commencement of construction" means any clearing of land, excavation, or other substantial action that can adversely affect the environment of a site. The term does not mean site exploration, necessary roads for site exploration, borings to determine foundation conditions, or other preconstruction monitoring or testing to establish background information related to the suitability of the site or the protection of environmental values. Upon a determination that an application meets the requirements of the Act, and the rules of the Authority, the Authority will issue a specific license authorizing the possession and use of radioactive material ("Radioactive Materials License").

(6) Financial assurance and recordkeeping for decommissioning following the specific requirements listed below:

(a) 10 CFR 30.35 and 30.36 for radioactive material that is not source or special nuclear material; or

(a) Plutonium, uranium 233, uranium enriched in the isotope 233 or in the isotope 235, and any other material which the NRC, pursuant to the provisions of section 51 of the act, determines to be special nuclear material, but does not include source material; or

(b) Any material artificially enriched by any of the foregoing but does not include source material.

(73) “Specific License Radioactive Material” means radioactive material that requires authorization in a specific license document pursuant to OAR 333-102-0075(2) where materials must be annotated on the specific license, and validated with a specific license fee pursuant to 333-103-0010(2)(a) through 333-103-0010(2)(hh) (see “Radioactive Materials License”).

(74) “System,” as used in this division, means multiple separate (individual) sources of radiation (sealed radioactive sources), which together, rather than independently, achieve a desired functionality. Such “system” is subject to one specific license fee or general license registration fee, as the case may be.

(75) “Tangible Net Worth” means the tangible assets that remain after deducting liabilities; such assets may not include intangibles such as goodwill and rights to patents or royalties.

(76) “Teletherapy” means a Healing Arts source-specific license issued pursuant to OAR 333-103-0010(2)(cc) authorizing teletherapy procedures in accordance with OAR 333-116-0480. This license also includes other high dose rate external beam therapy devices such as the “gamma knife.”

(77) “Temporary Job Site” means any location, where specific license material is used that is either:

(a) Not the specific location of the licensee if an in-state licensee; or

NOTE: This definition was amended to avoid confusion between the definition of “source material” in division 100 of this chapter and the specific license (billable object) in division 103 of this chapter.

(82) “Use of Xenon Gas” means a Healing Arts facility-specific license issued pursuant to OAR 333-103-0010(2)(ff) authorizing the use of Xe-133 for diagnosis pursuant to 333-116-0280.

(1) An application for a specific license to manufacture, or initially transfer devices containing radioactive material, excluding special nuclear material, to persons granted a general license by OAR 333-102-0115 or equivalent regulations of the U.S. Nuclear Regulatory Commission, an Agreement State or a Licensing State will be approved if:

(a) The applicant satisfies the general requirements of OAR 333-102-0200;

(b) The applicant submits sufficient information relating to the design, manufacture, prototype testing, quality control, labels, proposed uses, installation, servicing, leak testing, operating and safety instructions, and potential hazards of the device to provide reasonable assurance that:

(A) The device can be safely operated by persons not having training in radiological protection;

(B) Under ordinary conditions of handling, storage, and use of the device, the radioactive material contained in the device will not be released or inadvertently removed from the device; and it is unlikely that any person will receive in one year a dose in excess of ten percent of the annual limits specified in OAR 333-120-0100; and

(C) Under accident conditions (such as fire and explosion) associated with handling, storage and use of the device, it is unlikely that any person may receive an external radiation dose or dose commitment in excess of the dose to the appropriate organ as specified in Column IV of the table in 10 CFR Part 32.24:

(i) Whole body, head and trunk, active blood-forming organs, gonads, or lens of eye 150 mSv (15 rem);

(ii) Hands and forearms, feet and ankles, localized areas of skin averaged over areas no larger than one square centimeter two Sv (200 rem);

(iii) Other organs 500 mSv (50 rem).

(c) Each device bears a durable, legible, clearly visible label or labels approved by the Authority, which contain in a clearly identified and separate statement:

(A) Instructions and precautions necessary to assure safe installation, operation and servicing of the device (documents such as operating and service manuals may be identified in the label and used to provide this information);

(B) The requirements, or lack of requirement, for leak testing, or for testing of any on-off mechanism and indicator, including the maximum time interval for such testing, and the identification of radioactive material by isotope, quantity of radioactivity, and date of determination of the quantity; and

(C) The information called for in the following statement in the same or substantially similar form:

The receipt, possession, use and transfer of this device, Model _____, Serial No. _____, are subject to a general license or the equivalent and the regulations of the U.S. Nuclear Regulatory Commission or of a State with which the U.S. Nuclear Regulatory Commission has entered into an agreement for the exercise of regulatory authority. This label must be maintained on the device in a legible condition. Removal of this label is prohibited.
CAUTION — RADIOACTIVE MATERIAL

(Name of manufacturer or initial transferor)

(D) Each device having a separable source housing that provides the primary shielding for the source also bears, on the source housing, a durable label containing the device model number and serial number, the isotope and quantity, the words, "Caution-Radioactive Material," the radiation symbol described in OAR 333-120-0400, and the name of the manufacturer or initial distributor.

(E) Each device meeting the criteria of OAR 333-102-0115(9)(a), bears a permanent label, such as being embossed, etched, stamped, or engraved, affixed to the source housing if separable, or the device if the source housing is not separable, that includes the words, "Caution-Radioactive Material," and, if practicable, the radiation symbol described in OAR 333-120-0400.

(F) The device has been registered in the Sealed Source and Device Registry

(2) In the event the applicant desires that the device be required to be tested at intervals longer than six months, either for proper operation of the on-off mechanism and indicator, if any, or for leakage of radioactive material or both, the applicant must include in this application sufficient information to demonstrate that such longer interval is justified by performance characteristics of the device or similar devices, and by design features that have a significant bearing on the probability or consequences of leakage of radioactive material from the device or failure of the on-off mechanism and

indicator. In determining the acceptable interval for the test for leakage of radioactive material, the Authority will consider information that includes, but is not limited to:

(a) Primary containment (source capsule);

(b) Protection of primary containment;

(c) Method of sealing containment;

(d) Containment construction materials;

(e) Form of contained radioactive material;

(f) Maximum temperature withstood during prototype tests;

(g) Maximum pressure withstood during prototype tests;

(h) Maximum quantity of contained radioactive material;

(i) Radiotoxicity of contained radioactive material; and

(j) Operating experience with identical devices or similarly designed and constructed devices.

(3) In the event the applicant desires that the general licensee under OAR 333-102-0115, or under equivalent rules of the U.S. Nuclear Regulatory Commission, an Agreement State, or a Licensing State, be authorized to install the device, collect the sample to be analyzed by a specific licensee for leakage of radioactive material, service the device, test the on-off mechanism and indicator, or remove the device from installation, the applicant must include in the application written instructions to be followed by the general licensee, estimated calendar quarter doses associated with such activity or activities, and the bases for these estimates. The submitted information must demonstrate that performance of this activity or activities by an individual untrained in radiological protection, in addition to other handling, storage, and use of devices under the general license, is unlikely to cause that individual to receive a dose in excess of ten percent of the annual limits specified in OAR 333-120-0100.

(4) Prior to transfer of a device to a person granted a general license by OAR 333-102-0115(1), the licensee must:

(a) Furnish a copy of the general license contained in OAR 333-102-0115 to each person to whom the licensee directly, or through an intermediate person, transfers radioactive material in a device for use pursuant to the general license contained in 333-102-0115;

(b) Furnish a copy of the general license contained in the U.S. Nuclear Regulatory Commission, Agreement State or Licensing State's rules equivalent to OAR 333-102-0115. Alternatively, a copy of the general license contained in 333-102-0115 must be furnished to each person to whom directly, or through an intermediate person, is transfers radioactive material in a device for use pursuant to the general license of the U.S. Nuclear Regulatory Commission, the Agreement State or the Licensing State. If a copy of the general license in 333-102-0115 is furnished to such person, it must be accompanied by a note explaining that the use of the device is regulated by the U.S. Nuclear Regulatory Commission, an Agreement State or a Licensing State under requirements substantially the same as those in 333-102-0115;

If one or more intermediate persons will temporarily possess the device at the intended place of use prior to its possession by the user, the report must include identification of each intermediate person by name, address, contact and relationship to the intended user. If no transfers have been made to persons granted a general license by 333-102-0115 during the reporting period, the report must so indicate. The report must cover each calendar quarter and must be filed within 30 days after the end of each quarter;

(d) Furnish reports to other agencies:

(A) Report to the U.S. Nuclear Regulatory Commission all transfers of such devices to persons for use under the U.S. Nuclear Regulatory Commission general license in section 31.5 of 10 CFR Part 31. (1) An application for a specific license to manufacture industrial products or devices containing depleted uranium for use pursuant to OAR 333-102-0106 or equivalent regulations of the U.S. Nuclear Regulatory Commission or an Agreement State will be approved if:

(a) The applicant satisfies the general requirements specified in OAR 333-102-0200;

(b) The applicant submits sufficient information relating to the design, manufacture, prototype testing, quality control procedures, labeling or marking, proposed uses and potential hazards of the industrial product or device to provide reasonable assurance that possession, use or transfer of the depleted uranium in the product or device is not likely to cause any individual to receive in any period of one calendar quarter a radiation dose in excess of ten percent of the limits specified in OAR 333-120-0100; and

(c) The applicant submits sufficient information regarding the industrial product or device and the presence of depleted uranium for a mass-volume application in the product or device to provide reasonable assurance that unique benefits will accrue to the public because of the usefulness of the product or device.

(2) In the case of an industrial product or device whose unique benefits are questionable, the Authority will approve an application for a specific license under this rule only if the product or device is found to combine a high degree of utility and low probability of uncontrolled disposal and dispersal of significant quantities of depleted uranium into the environment.

(3) The Authority may deny any application for a specific license under this rule if the end use(s) of the industrial product or device cannot be reasonably foreseen.

(4) Each person licensed pursuant to section (1) of this rule must:

(a) Maintain the level of quality control required by the license in the manufacture of the industrial product or device; and in the installation of the depleted uranium into the product or device;

(b) Label or mark each unit to:

(A) Identify the manufacturer of the product or device and the number of the license under which the product or device was manufactured, the fact that the product or device contains depleted uranium and the quantity of depleted uranium in each product or device; and

(B) State that the receipt, possession, use and transfer of the product or device are subject to a general license or the equivalent and the regulations of the U.S. Nuclear Regulatory Commission or an Agreement State.

(c) Assure that the depleted uranium before being installed in each product or device has been impressed with the following legend clearly legible through any plating or other covering: Depleted Uranium.

(A) Furnish a copy of the general license contained in OAR 333-102-0106 to each person to whom he transfers depleted uranium in a product or device for use pursuant to the general license contained in 333-102-0106; or

(B) Furnish a copy of the general license contained in the U.S. Nuclear Regulatory Commission's or Agreement State's regulation equivalent to OAR 333-102-0106 and a copy of the U.S. Nuclear Regulatory Commission's or Agreement State's certificate, or alternatively, furnish a copy of the general license contained in 333-102-0106 to each person to whom depleted uranium in a product or device is transferred for use pursuant to the general license of the U.S. Nuclear Regulatory Commission or an Agreement State, with a note explaining that use of the product or device is regulated by the U.S. Nuclear Regulatory Commission or Agreement State under requirements substantially the same as those in 333-102-0106.

(d) Report to the Authority all transfers of industrial products or devices to persons for use under the general license in OAR 333-102-0106. Such report must identify each general licensee by name and address, an individual by name or position who may constitute a point of contact between the Authority and the general licensee, the type and model number of device transferred and the quantity of depleted uranium contained in the product or device. The report must be submitted within 30 days after the

The report must be submitted within 30 days after the end of each calendar quarter in which such product or device is transferred to the generally licensed person.

(C) If no transfers have been made to U.S. Nuclear Regulatory Commission licensees during the reporting period, this information must be reported to the U.S. Nuclear Regulatory Commission.

(f) If no transfers have been made to general licensees within a particular Agreement State during the reporting period, this information must be reported to the responsible Agreement State Agency upon the request of that Agency.

(g) Keep records showing the name, address and point of contact for each general licensee to whom he transfers depleted uranium in industrial products or devices for use pursuant to the general license provided in OAR 333-102-0101(4) or equivalent regulations of the U.S. Nuclear Regulatory Commission or an Agreement State. The records must be maintained until inspection by the Authority and must show the date of each transfer, the quantity of depleted uranium in each product or device transferred and compliance with the report requirements of section (9) of this rule.

(h) Licensees required to submit emergency plans by OAR 333-102-0190(10) must follow the emergency plan approved by the Commission. Expiration and Termination of Licenses and Decommissioning of Sites and Separate Buildings or Outdoor Areas

(1)(a) Except as provided in subsection (1)(b) of this rule, each specific license must expire at the end of the day on the expiration date stated in the license unless the licensee has filed an application for renewal under OAR 333-102-0315 before the expiration date stated in the existing license (or, for those licenses subject to subsection (1)(b) of this rule, before the deemed expiration date in that section). If an application for renewal has been filed before the expiration date stated in the existing license (or, for those licenses subject to subsection (2)(a) of this rule, before the deemed expiration date in that section), the existing license expires at the end of the day on which the Authority makes a final determination to deny the renewal application or, if the determination states an expiration date, the expiration date stated in the determination.

(b) Each specific license that has an expiration date after July 1, 1995, and is not one of the licenses described in subsection (1)(c) of this rule, shall be deemed to have an expiration date that is five years after the expiration date stated in the current license.

(c) The following specific licenses are not subject to, or otherwise affected by, the provisions of subsection (1)(b) of this rule:

(A) Specific licenses for which, on February 15, 1996, an evaluation or an emergency plan is required in accordance with OAR 333-102-0190(10);

(B) Specific licenses whose holders are subject to the financial assurance requirements specified in OAR 333-102-0200(6), and on February 15, 1996, the holders either:

(i) Have not submitted a decommissioning funding plan or certification of financial assurance for decommissioning; or

(ii) Have not received written notice that the decommissioning funding plan or certification of financial assurance for decommissioning is acceptable;

(C) Specific licenses who need an environmental assessment or environmental impact statement pursuant to OAR 333-102-0200(5);

(D) Specific licenses whose holders have not had at least one Authority inspection of licensed activities before February 15, 1996;

(E) Specific licenses whose holders, as the result of the most recent Authority inspection of licensed activities conducted before February 15, 1996, have been:

(i) Cited for a serious health and safety noncompliance;

(ii) Subject to an Order issued by the Authority; or

(iii) Subject to a Confirmatory Action Letter issued by the Authority.

(F) Specific licenses with expiration dates before July 1, 1995, for which the holders have submitted applications for renewal under OAR 333-102-0315.

(2) Each specific license revoked by the Authority expires at the end of the day on the date of the Commission's final determination to revoke the license, or on the expiration date stated in the determination, or as otherwise provided by Authority Order.

(3) Each specific license continues in effect, beyond the expiration date if necessary, with respect to possession of radioactive material or source material until the Authority notifies the licensee in writing that the license is terminated. During this time, the licensee must:

(a) Limit actions involving material to those related to decommissioning; and

(b) Continue to control entry to restricted areas until they are suitable for release in accordance with Authority requirements.

(4) Within 60 days of the occurrence of any of the following, consistent with the administrative directions in OAR 333-100-0045, each licensee must provide notification to the Authority in writing of such occurrence, and either begin decommissioning its site, or any separate building or outdoor area that contains residual radioactivity so that the building or outdoor area is suitable for release in accordance with Authority requirements, or submit within 12 months of notification a decommissioning plan, if required by subsection (7)(a) of this rule, and begin decommissioning upon approval of that plan if:

(a) The license has expired pursuant to sections (1) or (2) of this rule; or

(b) The licensee has decided to permanently cease principal activities, as defined in OAR 333-102-0203, at the entire site or in any separate building or outdoor area that contains residual radioactivity such that the building or outdoor area is unsuitable for release in accordance with Authority requirements; or

(c) No principal activities under the license have been conducted for a period of 24 months; or

(d) No principal activities have been conducted for a period of 24 months in any separate building or outdoor area that contains residual radioactivity such that the building or outdoor area is unsuitable for release in accordance with Authority requirements.

(5) Coincident with the notification required by section (4) of this rule, the licensee must maintain in effect all decommissioning financial assurances established by the licensee pursuant to OAR 333-102-0200(6) in conjunction with a license issuance or renewal or as required by this rule. The amount of the financial assurance must be increased, or may be decreased, as appropriate, to cover the detailed cost estimate for decommissioning established pursuant to paragraph (7)(d)(E) of this rule.

(a) Any licensee who has not provided financial assurance to cover the detailed cost estimate submitted with the decommissioning plan must do so when this rule becomes effective November 24, 1995.

(b) Following approval of the decommissioning plan, a licensee may reduce the amount of the financial assurance as decommissioning proceeds and radiological contamination is reduced at the site with the approval of the Authority.

(6) The Authority may grant a request to extend the time periods established in section (4) of this rule if the Authority determines that this relief is not detrimental to the public health and safety and is otherwise in the public interest. The request must be submitted no later than 30 days before notification pursuant to section (4) of this rule. The schedule for decommissioning set forth in section (4) of this rule may not commence until the Authority has made a determination on the request.

(7)(a) A decommissioning plan must be submitted if required by license condition or if the procedures and activities necessary to carry out decommissioning of the site or separate building or outdoor area have not been previously approved by the Authority and these procedures could increase potential health and safety impacts to workers or to the public, such as in any of the following cases:

(A) Procedures may involve techniques not applied routinely during cleanup or maintenance operations;

(B) Workers that may be entering areas not normally occupied where surface contamination and radiation levels are significantly higher than routinely encountered during operation;

(C) Procedures could result in significantly greater airborne concentrations of radioactive material or source material than are present during operation; or

ADMINISTRATIVE RULES

(D) Procedures could result in significantly greater releases of radioactive material or source material to the environment than those associated with operation.

(b) The Authority may approve an alternate schedule for submittal of a decommissioning plan required pursuant to section (4) of this rule if the Authority determines that the alternative schedule is necessary to the effective conduct of decommissioning operations and presents no undue risk from radiation to the public health and safety and is otherwise in the public interest.

(c) Procedures such as those listed in subsection (7)(a) of this rule with potential health and safety impacts may not be carried out prior to approval of the decommissioning plan.

(d) The proposed decommissioning plan for the site or separate building or outdoor area must include:

(A) A description of the conditions of the site or separate building or outdoor area sufficient to evaluate the acceptability of the plan;

(B) A description of planned decommissioning activities;

(C) A description of methods used to ensure protection of workers and the environment against radiation hazards during decommissioning;

(D) A description of the planned final radiation survey; and

(E) An updated detailed cost estimate for decommissioning, comparison of that estimate with present funds set aside for decommissioning, and a plan for assuring the availability of adequate funds for completion of decommissioning.

(F) For decommissioning plans calling for completion of decommissioning later than 24 months after plan approval, the plan must include a justification for the delay based on the criteria in section (9) of this rule.

(e) The proposed decommissioning plan will be approved by the Authority if the information therein demonstrates that the decommissioning will be completed as soon as practicable and that the health and safety of workers and the public will be adequately protected.

(8)(a) Except as provided in section (9) of this rule, licensees must complete decommissioning of the site or separate building or outdoor area as soon as practicable but no later than 24 months following the initiation of decommissioning.

(b) Except as provided in section (9) of this rule, when decommissioning involves the entire site, the licensee must request license termination as soon as practicable but no later than 24 months following the initiation of decommissioning.

(9) The Authority may approve a request for an alternative schedule for completion of decommissioning of the site or separate building or outdoor area, and license termination if appropriate, if the Authority determines that the alternative is warranted by consideration of the following:

(a) Whether it is technically feasible to complete decommissioning within the allotted 24-month period;

(b) Whether sufficient waste disposal capacity is available to allow completion of decommissioning within the allotted 24-month period;

(c) Whether a significant volume reduction in wastes requiring disposal will be achieved by allowing short-lived radionuclides to decay;

(d) Whether a significant reduction in radiation exposure to workers can be achieved by allowing short-lived radionuclides to decay; and

(e) Other site-specific factors which the Authority may consider appropriate on a case-by-case basis, such as the regulatory requirements of other government agencies, lawsuits, ground-water treatment activities, monitored natural ground-water restoration, actions that could result in more environmental harm than deferred cleanup, and other factors beyond the control of the licensee.

(10) As the final step in decommissioning, the licensee must:

(a) Certify the disposition of all licensed material, including accumulated wastes, by submitting a completed NRC Form 314 or equivalent information; and

(b) Conduct a radiation survey of the premises where the licensed activities were carried out and submit a report of the results of this survey, unless the licensee demonstrates in some other manner that the premises are suitable for release in accordance with the criteria for decommissioning in 10 CFR Part 20, Subpart E. The licensee must, as appropriate:

(A) Report levels of gamma radiation in units of millisieverts (micro-roentgen) per hour at one meter from surfaces, and report levels of radioactivity, including alpha and beta, in units of megabecquerels (disintegrations per minute or microcuries) per 100 square centimeters — removable and fixed — for surfaces, megabecquerels (microcuries) per milliliter for water, and becquerels (picocuries) per gram for solids such as soils or concrete; and

(B) Specify the survey instrument(s) used and certify that each instrument is properly calibrated and tested.

(11) Specific licenses, including expired licenses, will be terminated by written notice to the licensee when the Authority determines that:

(a) Radioactive material or source material has been properly disposed;

(b) Reasonable effort has been made to eliminate residual radioactive contamination, if present; and

(c)(A) A radiation survey has been performed that demonstrates that the premises are suitable for release or establishes the level of residual activity in accordance with the criteria for decommissioning in 10 CFR Part 20, Subpart E; or

(B) The licensee has provided sufficient financial assurance to enable an independent third party, including a governmental custodian of a site, to assume and carry out responsibilities for any necessary control and maintenance of the site. Acceptable financial assurance mechanisms are:

(i) Funds placed into an account separate from the licensee's assets and outside of the licensee's control before the start of decommissioning operations; or

(ii) A statement of intent containing a cost estimate for decommissioning or an amount based on the table in paragraph (d) of 10 CFR section 30.35(d), and indicating that funds for decommissioning will be obtained when necessary; or

(iii) An arrangement deemed acceptable by the governmental entity that is assuming custody and ownership of a site.

(C) Alternate criteria for license termination. The Authority will terminate a license using alternate criteria greater than the dose criterion of OAR 333-102-0310, if the licensee:

(i) Provides assurance that public health and safety shall continue to be protected and that it is unlikely that the total effective dose equivalent from all combined man-made sources other than medical sources shall be more than 100 millirem per year (1 millisievert per year) by submitting an analysis of possible sources of exposure;

(ii) Has employed restrictions on site use in minimizing exposures at the site;

(iii) Reduces doses to ALARA levels considering any detriments such as traffic accidents potentially expected to result from decontamination and waste disposal; and

(D) Has submitted a decommissioning or license termination plan to the Authority indicating the licensee's intent to decommission as specified in OAR 333-102-0310, and specifying that the licensee proposes to decommission by use of alternate criteria. The licensee shall document in the license termination or decommissioning plan how the advice of individuals and institutions in the community who could be affected by the decommissioning has been sought and addressed, as appropriate, following analysis of that advice in:

(i) Participation by representatives of a broad cross section of community interests who could be affected by the decommissioning;

(ii) An opportunity for a comprehensive, collective discussion on the issues by the participants represented; and

(iii) A publicly available summary of the results of all such discussions, including a description of the individual viewpoints of the participants on the issues and the extent of agreement and disagreement on the issues.

(E) The use of alternate criteria to terminate a license requires the approval of the Authority after consideration of any comments provided by the U. S. Environmental Protection Agency and any public comments submitted.

(F) Other information submitted by the licensee is sufficient to demonstrate that the premises are suitable for release in accordance with the criteria for decommissioning in 10 CFR Part 20, Subpart E.

(d) The licensee has kept records of receipt, transfer, and disposal of radioactive material or source material, pursuant to OAR 333-100-0055 that meet the following criteria:

(A) The licensee must retain each record of receipt of radioactive material or source material as long as the material is possessed and for three years following transfer or disposal of the material.

(B) The licensee who transferred the material must retain each record of transfer for three years after each transfer unless a specific requirement in another part of the rules in this chapter dictates otherwise.

(C) The licensee who disposed of the material must retain each record of disposal of byproduct material until the Authority terminates each license that authorizes disposal of the material.

Performance Requirements for Industrial Radiography Equipment

Equipment used in industrial radiographic operations must meet the following minimum criteria:

(1) Each radiographic exposure device, source assembly or sealed source, and all associated equipment must meet the requirements specified in American National Standard Institute, N432-1980 "Radiological Safety for the Design and Construction of Apparatus for Gamma Radiography," (published as NBS Handbook 136, issued January 1981). This publication may be purchased from the American National Standards Institute, Inc., 25 West 43rd Street, New York, New York 10036, Telephone (212) 642-4900.

(2) In addition to the requirements specified in section (1) of this rule, the following requirements apply to radiographic exposure devices, source changers, source assemblies and sealed sources:

(a) The licensee must ensure that each radiographic exposure device has attached to it a durable, legible, clearly visible label bearing the:

(A) Chemical symbol and mass number of the radionuclide in the device;

(B) Activity and the date on which this activity was last measured;

(C) Model or product code and serial number of the sealed source;

(D) Name of the manufacturer of the sealed source; and

(E) Licensee's name, address, and telephone number.

(b) Radiographic exposure devices intended for use as Type B packages must meet the applicable transportation requirements of division 118 of these rules.

(c) Modification of radiographic exposure devices, source changers, and source assemblies and associated equipment is prohibited, unless approved by the Authority or other approval body.

(3) In addition to the requirements specified in sections (1) and (2) of this rule, the following requirements apply to radiographic exposure devices, source assemblies, and associated equipment that allow the source to be moved out of the device for radiographic operations or to source changers;

(a) The coupling between the source assembly and the control cable must be designed in such a manner that the source assembly will not become disconnected if cranked outside the guide tube. The coupling must be such that it cannot be unintentionally disconnected under normal and reasonably foreseeable abnormal conditions.

(b) The device must automatically secure the source assembly when it is cranked back into the fully shielded position within the device. This securing system may only be released by means of a deliberate operation on the exposure device.

(c) The outlet fittings, lock box, and drive cable fittings on each radiographic exposure device must be equipped with safety plugs or covers which must be installed during storage and transportation to protect the source assembly from water, mud, sand or other foreign matter.

(d) Each sealed source or source assembly must have attached to it or engraved on it, a durable, legible, visible label with the words:

"DANGER - RADIOACTIVE."

The label may not interfere with the safe operation of the exposure device or associated equipment.

(e) The guide tube must be able to withstand a crushing test that closely approximates the crushing forces that are likely to be encountered during use, and be able to withstand a kinking resistance test that closely approximates the kinking forces that are likely to be encountered during use.

(f) Guide tubes must be used when moving the source out of the device.

(g) An exposure head or similar device designed to prevent the source assembly from passing out of the end of the guide tube must be attached to the outermost end of the guide tube during industrial radiography operations.

(h) The guide tube exposure head connection must be able to withstand the tensile test for control units specified in ANSI N432-1980.

(i) Source changers must provide a system for ensuring that the source will not be accidentally withdrawn from the changer when connecting or disconnecting the drive cable to or from a source assembly.

(4) All radiographic exposure devices and associated equipment in use after January 10, 1996, must comply with the requirements of this division; and

(5) As an exception to section (1) of this rule, equipment used in industrial radiographic operations need not comply with 8.9.2(c) of the Endurance Test in American National Standards Institute N432-1980, if the prototype equipment has been tested using a torque value representative of the torque that an individual using the radiography equipment can reasonably exert on the lever or crankshaft of the drive mechanism.

Intraoral Dental Radiographic Systems

In addition to the provisions of OAR 333-106-0010 through 333-106-0101, the requirements of this rule apply to X-ray equipment and facilities where intraoral dental radiography is conducted. Requirements for extraoral dental radiographic systems are covered in OAR 333-106-0301 through 333-106-0320. Intraoral dental radiographic systems must meet the following requirements:

(1) Source-to-Skin Distance (SSD). X-ray systems designed for use with an intraoral image receptor shall be provided with means to limit source-to-skin distance, to not less than 18cm.

(2) Beam Limitation. Radiographic systems designed for use with an intraoral image receptor shall be provided with means to limit the X-ray beam such that:

(a) If the minimum source-to-skin distance (SSD) is 18 centimeters or more, the X-ray field, at the minimum SSD, shall be containable in a circle having a diameter of no more than seven centimeters; or

(b) If the minimum SSD is less than 18 centimeters, the X-ray field, at the minimum SSD, shall be containable in a circle having a diameter of no more than six centimeters.

(3) Radiation Exposure Control (Timers). Means shall be provided to control the radiation exposure through the adjustment of exposure time in seconds, milliseconds (ms) or, number of pulses, or current/milliamperes (mA), or the product of current and exposure time (mAs) or adjustment of kVp. In addition:

(a) Exposure Initiation. Means shall be provided to initiate the radiation exposure by a deliberate action on the part of the operator, such as the depression of a switch. Radiation exposure shall not be initiated without such an action; and

(b) It shall not be possible to make an exposure when the timer is set to a "0" or "off" position if either position is provided;

(c) Exposure Indication. Means shall be provided for visual indication, observable at or from the operator's protected position, whenever X-rays are produced. In addition, a signal audible to the operator shall indicate that the exposure has terminated.

ADMINISTRATIVE RULES

(d) Timer Reproducibility. With a timer setting of 0.5 second or less, the average exposure time (T) shall be greater than or equal to five times the minimum exposure time (Tmax) minus the minimum exposure time (Tmin) when four timer tests are performed: $(T) > 5 (T_{max} - T_{min})$.

(A) Means shall be provided to terminate the exposure at a preset, time interval, mAs, number of pulses, or radiation to the image receptor.

(B) An X-ray exposure control shall be incorporated into each system such that an exposure can be terminated by the operator at any time, except for exposures of 0.5 second or less.

(C) Termination of an exposure shall cause automatic resetting of the timer to its initial setting or to "0".

(4) Radiation Exposure Control Location and Operator Protection. Each X-ray control must be located in such a way as to meet the following requirements:

(a) The exposure switch shall be able to be operated in a protected area, as defined in OAR 333-106-0005(77), and the operator shall remain in that protected area during the entire exposure; and

(b) The operator's protected area shall provide visual indication of the patient during the X-ray procedure.

(c) Mobile and portable X-ray systems which are:

(A) Used for greater than one week in the same location, such as a room or suite, shall meet the requirements of subsections (4)(a) and (4)(b) of this rule.

(B) Used for less than one week at the same location, such as a room or suite, shall be provided with:

(i) Either a protective barrier of at least 6.5 feet (2 meters) high for operator protection; or

(ii) A means to allow the operator to be at least nine feet (2.7 meters) from the tube housing assembly while making exposures; or

(iii) A full length protective apron, of not less than 0.25 millimeter lead equivalent for operator protection, when using a hand-held dental intraoral X-ray machine.

(5) Exposure Reproducibility. The coefficient of variation shall not exceed 0.05 when all technique factors are held constant. This requirement shall be deemed to have been met if, when four exposures are made at identical technique factors, the value of the average exposure (E) is greater than or equal to five times the maximum exposure (Emax) minus the minimum exposure (Emin): $E > 5 (E_{max} - E_{min})$

(6) Accuracy.

(a) Deviation of technique factors from the indicated values for kVp and exposure time (if time is independently selectable) shall not exceed the limits specified for that system by its manufacturer.

(b) kVp Limitations. Dental X-ray machines with a nominal fixed kVp of less than 55 kVp shall not be used to make diagnostic dental radiographs on humans.

(7) Administrative Controls.

(a) Patient and film holding devices shall be used when the techniques permit;

(b) The tube housing and the PID shall not be hand held during an exposure;

(c) The X-ray system shall be operated in such a manner that the useful beam at the patient's skin does not exceed the requirements of section (2) of this rule or its updated version;

(d) Dental fluoroscopy without image intensification shall not be used; and

(e) Pointed cones shall not be utilized unless specific authorization has been granted by the Authority.

(8) Hand-held X-ray systems.

(a) Registrants must provide for security and safe storage while not in use. A report must be filed with the Authority within 72 hours if the hand-held unit is lost or stolen.

(b) The image receptor used with hand-held dental X-ray systems must either be:

(A) A speed class of intra-oral film designated as "E/F", "F" or faster; or

(B) A digitally acquired image (CR or DR).

(c) The hand-held X-ray system must be equipped with a permanently attached backscatter shield of 0.25 mm Pb equivalent.

(d) The backscatter shield must be designed to appropriately protect the operator during an exposure. The manufacturer of the hand-held unit must provide documentation to the Authority of the design specifications of the backscatter shield's protection to the operator prior to sale and distribution in the State of Oregon.

(e) The hand-held unit must be capable of a minimum of 60 kVp and 2.0 mA.

(f) Hand-held units not meeting the requirements of subsections (8)(c), (8)(d) and (8)(e) of this rule may not be sold, distributed or used in the State of Oregon.

(9) Hand-held dental X-ray administrative controls.

(a) The operator must wear a whole body protective apron and thyroid collar of 0.25 mm of lead equivalent when using the unit.

(b) Hand-held units must meet the requirement of OAR 333-106-0045(5).

(A) The hand-held unit shall not be used for patient examinations in hallways and waiting rooms.

(B) The unit can only be operated in an enclosed room when possible. All individuals except the X-ray operator and the patient must leave the room and stand behind a protective barrier or be at least six feet from the X-ray source if a protective barrier is not available during radiographic exposures.

(c) Operators must complete machine specific applications training as described in OAR 333-106-0055(8) before using a hand-held unit. Training on the safe use of the unit shall be documented and include at a minimum:

(A) Proper positioning of the unit to ensure an adequate protected position;

(B) Limitations on the use of position indicating devices that require longer distances to the patient's face;

(C) Diagrams such as drawings, illustrations, or schematics of protected position and location in relationship to the unit;

(D) Diagrams such as drawings, illustrations, or schematics of the effect of improper distance or removal of shielding device; and

(E) Diagrams such as drawings, illustrations, schematics of common examples of improper positioning of the unit and or location of the operator.

(d) An appropriate receptor holder must be used during the X-ray exposure.

(e) A PID must be used during the X-ray exposure.

(f) A hand-held unit shall be held without any motion during a patient examination. A tube stand may be utilized to immobilize the hand-held unit during a patient examination.

333-125-0005

Purpose and Scope

(1) OAR 333-125-0005 through 333-125-0200 contains the physical protection program requirements for any licensees that possess an aggregated category 1 or category 2 quantity of radioactive material listed in Appendix A to 10 CFR Part 37. These requirements provide reasonable assurance of the security of category 1 or 2 quantities of radioactive material by protecting these materials from theft or diversion. Specific requirements for access to material, use of material, transfer of material, and transport of material are included. No provision of this division authorizes the possession of licensed material.

(2) Background investigations, access control program and physical protection during use requirements apply to any person who possesses or uses at any site, an aggregated category 1 or category 2 quantity of radioactive material.

(3) Physical protection in transit applies to any person who under the rules in this division:

- (a) Transports or delivers to a carrier for transport in a single shipment, a category 1 or category 2 quantity of radioactive material; or
- (b) Imports or exports a category 1 or category 2 quantity of radioactive materials. The rules that establish the physical protection program apply to the domestic portion of the transport.

Definitions

(1) "Access control" means a system for allowing only approved individuals to have unescorted access to the security zone and for ensuring that all other individuals are subject to escorted access.

(2) "Aggregated" means accessible by the breach of a single physical barrier that shall allow access to radioactive material in any form, including any devices that contain the radioactive material, when the total activity equals or exceeds a category 2 quantity of radioactive material.

(3) "Approved individual" means an individual whom the licensee has determined to be trustworthy and reliable for unescorted access in accordance with OAR 333-125-0020 through 333-125-0095 and who has completed the training required by OAR 333-125-0115.

(4) "Background investigation" means the investigation conducted by a licensee or applicant to support the determination of trustworthiness and reliability.

(5) "Category 1 quantity" means a quantity of radioactive material meeting or exceeding the category 1 threshold in Table 1 of Appendix A,

ADMINISTRATIVE RULES

Part 37. This is determined by calculating the ratio of the total activity of each radionuclide to the category 1 threshold for that radionuclide and adding the ratios together. If the sum is equal to or exceeds 1, the quantity shall be considered a category 1 quantity. Category 1 quantities of radioactive material do not include the radioactive material contained in any fuel assembly, subassembly, fuel rod, or fuel pellet.

(6) "Category 2 quantity" means a quantity of radioactive material meeting or exceeding the category 2 threshold but less than the category 1 threshold in Table 1 of Appendix A, Part 37. This is determined by calculating the ratio of the total activity of each radionuclide to the category 2 threshold for that radionuclide and adding the ratios together. If the sum is equal to or exceeds 1, the quantity shall be considered a category 2 quantity. Category 2 quantities of radioactive material do not include the radioactive material contained in any fuel assembly, subassembly, fuel rod, or fuel pellet.

(7) "Diversion" means the unauthorized movement of radioactive material subject to the physical protection program to a location different from the material's authorized destination inside or outside of the site at which the material is used or stored.

(8) "Escorted access" means accompaniment while in a security zone by an approved individual who maintains continuous direct visual surveillance at all times over an individual who is not approved for unescorted access.

(9) "Fingerprint orders" means the orders issued by the U.S. Nuclear Regulatory Commission or the legally binding requirements issued by Agreement States that require fingerprints and criminal history records checks for individuals with unescorted access to category 1 and category 2 quantities of radioactive material or safeguards information-modified handling.

(10) "Local law enforcement agency (LLEA)" means a public or private organization that has been approved by a federal, state, or local government to carry firearms and make arrests, and is authorized and has the capability to provide an armed response in the jurisdiction where the licensed category 1 or category 2 quantity of radioactive material is used, stored, or transported.

(11) "Lost or missing licensed material" means licensed material whose location is unknown. It includes material that has been shipped but has not reached its destination and whose location cannot be readily traced in the transportation system.

(12) "Mobile device" means a piece of equipment containing licensed radioactive material that is either mounted on wheels or casters, or otherwise equipped for moving without a need for disassembly or dismounting; or designed to be hand carried. Mobile devices do not include stationary equipment installed in a fixed location.

(13) "Movement control center" means an operations center that is remote from transport activity and maintains position information on the movement of radioactive material, receives reports of attempted attacks or thefts, provides a means for reporting incidents to appropriate agencies and can request and coordinate appropriate aid.

(14) "Nationally Tracked Source" means a sealed source containing a quantity equal to or greater than Category 1 or Category 2 levels of radioactive material listed in 10 CFR Part 20, Appendix E. In this context a sealed source is defined as radioactive material that is sealed in a capsule or closely bonded in a solid form and that is not exempt from regulatory control. It does not mean material encapsulated solely for disposal, or nuclear material contained in any fuel rod, or fuel pellet.

(15) "No-later-than arrival time" means the date and time that the shipping licensee and receiving licensee have established as the time to initiate an investigation if the shipment has not arrived at the receiving facility. The no-later-than arrival time may not be more than six hours after the estimated arrival time for shipments of category 2 quantities of radioactive material.

(16) "Reviewing official" means the individual who shall make the trustworthiness and reliability determination of an individual to determine whether the individual may have, or continue to have, unescorted access to the category 1 or category 2 quantities of radioactive materials that are possessed by the licensee.

(17) "Sabotage" means deliberate damage, with malevolent intent, to category 1 or 2 quantity of radioactive material, a device that contains a category 1 or 2 quantity of radioactive material, or the components of the security system.

(18) "Safe haven" means a readily recognizable and readily accessible site at which security is present or from which, in the event of an emergency, the transport crew can notify and wait for the local law enforcement authorities.

(19) "Security zone" means any temporary or permanent area determined and established by the licensee for the physical protection of category 1 or category 2 of radioactive material.

(20) "Telemetric position monitoring system" means a data transfer system that captures information by instrumentation and measuring devices about the location and status of a transport vehicle or package between the departure and destination locations.

(21) "Trustworthiness and reliability" means the characteristics of an individual considered dependable in judgment, character, and performance, such that unescorted access to category 1 or category 2 quantities of radioactive material by that individual does not constitute an unreasonable risk to the public health and safety or security. A determination of trustworthiness and reliability for this purpose is based upon the results from a background investigation.

(22) "Unescorted access" means solitary access to an aggregated category 1 or category 2 quantity of radioactive material or the devices that contain the material.

Access Authorization Program Requirements

(1) Granting unescorted access authorization. Licensees shall implement the following requirements under OAR 333-125-0020 through 333-125-0095 for granting initial or reinstated unescorted access authorization:

(a) Individuals who have been determined to be trustworthy and reliable, shall complete the security training required by OAR 333-125-0105 before being allowed unescorted access to category 1 or category 2 of radioactive material.

(b) Reviewing officials shall be the only individuals who may make trustworthiness and reliability determinations that allow individuals to have unescorted access to category 1 or category 2 of radioactive material possessed by the licensee.

(c) Each licensee shall name one or more individuals to be reviewing officials. After completing the background investigation on the reviewing official, the licensee shall provide under oath or affirmation, a certification that the reviewing official is deemed trustworthy and reliable by the licensee. The fingerprints of the named reviewing official must be taken by a law enforcement agency, federal or state agencies that provide fingerprinting services to the public, or commercial fingerprinting services authorized by a state to take fingerprints. The licensee shall recertify that the reviewing official is deemed trustworthy and reliable every 10 years in accordance with OAR 333-125-0065.

(2) Reviewing officials must be permitted to have unescorted access to category 1 or category 2 quantities of radioactive materials and access to the licensee's safeguards information or safeguards information-modified handling, if the licensee possesses safeguards information or safeguards information-modified handling.

(3) Reviewing officials cannot approve other individuals to act as reviewing officials.

(4) A reviewing official does not need to undergo a new background investigation before being named by the licensee as the reviewing official if:

(a) The individual has undergone a background investigation that included fingerprinting and an FBI criminal history records check and has been determined to be trustworthy and reliable by the licensee; or

(b) The individual is subject to a category listed in OAR 333-125-0085.

Informed Consent

(1) Licensees may not initiate a background investigation without the informed and signed consent of the subject individual. The consent must include authorization to share personal information with other individuals or organizations as necessary to complete the background investigation. Before a final adverse determination, the licensee shall provide the individual with an opportunity to correct any inaccurate or incomplete information that is developed during the background investigation. Licensees do not need to obtain signed consent from those individuals that meet the requirements of OAR 333-125-0065. A signed consent must be obtained prior to any reinvestigation.

(2) The subject individual may withdraw his or her consent at any time. Licensees shall inform the individual that:

(a) If an individual withdraws his or her consent, the licensee may not initiate any elements of the background investigation that were not in progress at the time the individual withdrew his or her consent; and

(b) The withdrawal of consent for the background investigation is sufficient cause for denial or termination of unescorted access authorization.

Determination Basis

(1) The reviewing official shall determine whether to permit, deny, unfavorably terminate, maintain, or administratively withdraw an individual's unescorted access authorization based on an evaluation of all of the information collected to meet the requirements within this division.

(2) The reviewing official may not permit any individual to have unescorted access until the reviewing official has evaluated all of the information collected to meet the requirements of this division and determined that the individual is trustworthy and reliable. The reviewing official may deny unescorted access to any individual based on information obtained at any time during the background investigation.

(3) The licensee shall document the basis for concluding whether or not there is reasonable assurance that an individual is trustworthy and reliable.

(4) The reviewing official may terminate or administratively withdraw an individual's unescorted access authorization based on information obtained after the background investigation has been completed and the individual had been granted unescorted access authorization.

(5) Licensees shall maintain a list of persons currently approved for unescorted access authorization. When a licensee determines that a person no longer requires unescorted access or has become ineligible to meet access authorization requirements, the licensee shall remove the person from the approved list as soon as possible, but no later than seven working days, and take prompt measures to ensure that the individual is unable to have unescorted access to the material.

Upon receipt of an official communication directly from the agency that contributed the original information, the FBI Identification Division makes any changes necessary in accordance with the information supplied by that agency. Licensees must provide at least 10 days for an individual to initiate action to challenge the results of an FBI criminal history records check after the record being made available for his or her review. Unless other references are not available, reference checks may not be conducted with any person who is known to be a close member of the individual's family, including but not limited to the individual's spouse, parents, siblings, or children, or any individual who resides in the individual's permanent household. Reference checks under this division must be limited to whether the individual has been and continues to be trustworthy and reliable.

(A) The licensee shall also, to the extent possible, obtain independent information to corroborate that provided by the individual such as seeking references not supplied by the individual; and

(B) If a previous employer, educational institution, or any other entity with which the individual claims to have been engaged fails to provide information or indicates an inability or unwillingness to provide information within a time frame deemed appropriate by the licensee but at the least after 10 business days of the request or if the licensee is unable to reach the entity, the licensee shall document the refusal, unwillingness or inability in the record of investigation; and attempt to obtain the information from an alternate source.

Requirements for Criminal History Records Checks of Individuals Granted Unescorted Access

(1) General Performance Objective and Requirements. Except for those individuals listed in OAR 333-125-0085 and those individuals grandfathered under OAR 333-125-0065, each licensee subject to the provision of this division shall fingerprint each individual who is to be permitted unescorted access to category 1 and category 2 quantities of radioactive material.

(2) Licensees shall transmit all collected fingerprints to the NRC for transmission to the FBI. The licensee shall use the information received from the FBI as part of the required background investigation to determine whether to grant or deny unescorted access to category 1 or category 2 quantities of radioactive material for that individual.

(3) The licensee shall notify each affected individual that their fingerprints will be used to secure a review of their criminal history record, and shall inform the individual of the procedures for revising the record or adding explanations to the record.

(4) Fingerprinting is not required if a licensee is reinstating an individual's unescorted access if:

(a) The individual returns to the same facility that granted unescorted access authorization within 365 days of the termination of the individual's unescorted access authorization; and

(b) The previous access was terminated under favorable conditions.

(5) Fingerprints do not need to be taken if an individual who is an employee of a licensee, contractor, manufacturer, or supplier has been

granted unescorted access to category 1 or category 2 radioactive material, access to safeguards information, or safeguards information-modified handling by another licensee, based upon a background investigation conducted under OAR 333-125-0020 through 333-125-0095 or the Nuclear Regulatory Commission's Fingerprint Orders or 10 CFR Part 73. An existing criminal history check file may be transferred to another licensee who is conducting a criminal history check for an individual requesting unescorted access in accordance with OAR 333-125-0090(3).

(6) Licensees shall use the information obtained as part of a criminal history records check solely for the purpose of determining an individual's suitability for unescorted access authorization to category 1 or category 2 quantities of radioactive materials, access to safeguards information, or safeguards information-modified handling.

(7) Prohibitions: Licensees may not base a final determination to deny an individual unescorted access authorization to category 1 or category 2 quantities of radioactive materials solely on the basis of information received from the FBI involving:

(a) An arrest more than one year old for which there is no information of the disposition of the case; or

(b) An arrest that resulted in dismissal of the charge or an acquittal.

(8) Licensees may not use information received from a criminal history records check obtained under this division in a manner that can infringe upon the rights of any individual under the First Amendment of the Constitution of the United States, nor shall licensees use the information in any way that can discriminate among individuals on the basis of race, religion, national origin, gender, or age.

(6) Licensees shall maintain a list of persons currently approved for access to the security and implementation plans. When a licensee determines that a person no longer needs access to the security and implementation plans, or no longer meets the access authorization requirements for access to the information, the licensee shall remove the person from the approved list as soon as possible, but no later than seven working days, and take prompt measures to ensure that the individual is unable to obtain the security plan or implementation procedures.

(7) When not in use, the licensee shall store its security and implementation plans in a manner to prevent unauthorized access. Information stored in non-removable electronic form must be password protected.

(8) The licensee shall retain as a record for three years after the document is no longer needed:

The review must include the radioactive material security program content and implementation. Each licensee shall periodically (at least annually) review the security program content and implementation procedures.

(2) The results of the review, along with any recommendations, must be documented. Each review report must identify conditions that are adverse to the proper performance of the security program, the cause of the condition(s), and, when appropriate, recommend corrective actions, and corrective actions taken. The licensee shall review the findings and take any additional corrective actions necessary to preclude repetition of the condition, including reassessment of the deficient areas where indicated.

Requirements for Physical Protection of Category 1 and Category 2 Quantities of Radioactive Material During Shipment

(1)(a) Shipments by road. Each licensee who transports, or delivers to a carrier for transport, in a single shipment, a category 1 quantity of radioactive material shall:

(A) Ensure that movement control centers are established that maintain position information from a remote location. These control centers must monitor shipments 24 hours a day, seven days a week, and have the ability to communicate immediately, in an emergency, with the appropriate law enforcement agencies.

(B) Ensure that redundant communications are established that allow the transport to contact the escort vehicle (when used) and movement control center at all times. Redundant communications may not be subject to the same interference factors as the primary communication.

(C) Ensure that shipments are continuously and actively monitored by a telemetric position monitoring system or an alternative tracking system reporting to a movement control center. A movement control center must provide positive confirmation of the location, status, and control over the shipment. The movement control center must be prepared to promptly implement preplanned procedures in response to deviations from the authorized route or a notification of actual, attempted, or suspicious activities related to the theft, loss, or diversion of a shipment. These procedures will include, but not be limited to, the identification of and contact information for the appropriate LLEA along the shipment route.

ADMINISTRATIVE RULES

(D) Provide an individual to accompany the driver for those highway shipments with a driving time period greater than the maximum number of allowable hours of service in a 24 hour duty day as established by the Department of Transportation Federal Motor Carrier Safety Administration. The accompanying individual may be another driver.

(E) Develop written normal and contingency procedures to address:

(i) Notifications to the communication center and law enforcement agencies;

(ii) Communication protocols. Communication protocols must include a strategy for the use of authentication codes and duress codes and provisions for refueling or other stops, detours, and locations where communication is expected to be temporarily lost;

(iii) Loss of communications; and

(iv) Responses to an actual or attempted theft or diversion of a shipment.

(b) Each licensee who makes arrangements for the shipment of category 1 quantities of radioactive material shall ensure that drivers, accompanying personnel, and movement control center personnel have access to the normal and contingency procedures.

(c) Each licensee that transports category 2 quantities of radioactive material shall maintain constant control and surveillance during transit and have the capability for immediate communication to summon appropriate response or assistance.

(d) Each licensee who delivers to a carrier for transport, in a single shipment, a category 2 quantity of radioactive material shall:

(A) Use carriers that have established package tracking systems. An established package tracking system is a documented, proven, and reliable system routinely used to transport objects of value. In order for a package tracking system to maintain constant control and surveillance, the package tracking system must allow the shipper or transporter to identify when and where the package was last and when it may arrive at the next point of control.

(B) Use carriers that maintain constant control and surveillance during transit and have the capability for immediate communication to summon appropriate response or assistance; and

(C) Use carriers that have established tracking systems that require an authorized signature prior to releasing the package for delivery or return.

(2)(a) Shipments by rail. Each licensee who transports, or delivers to a carrier for transport, in a single shipment, a category 1 quantity of radioactive material shall:

(A) Ensure that rail shipments are monitored by a telemetric position monitoring system or an alternative tracking system reporting to the licensee, third-party, or railroad communications center. The communications center shall provide positive confirmation of the location of the shipment and its status. The communications center shall implement preplanned procedures in response to deviations from the authorized route or to a notification of actual, attempted, or suspicious activities related to the theft or diversion of a shipment. These procedures will include, but not be limited to, the identification of and contact information for the appropriate LLEA along the shipment route.

(B) Ensure that periodic reports to the communications center are made at preset intervals.

(b) Each licensee who transports, or delivers to a carrier for transport, in a single shipment, a category 2 quantity of radioactive material shall:

(A) Use carriers that have established package tracking systems. An established package tracking system is a documented, proven, and reliable system routinely used to transport objects of value. In order for a package tracking system to maintain constant control or surveillance, the package tracking system must allow the shipper or transporter to identify when and where the package was last and when it may arrive at the next point of control.

(B) Use carriers that maintain constant control or surveillance during transit and have the capability for immediate communication to summon appropriate response or assistance; and

(C) Use carriers that have established tracking systems that require an authorized signature prior to releasing the package for delivery or return.

(3) Investigations:

(a) Each licensee who makes arrangements for the shipment of category 1 quantities of radioactive material shall immediately conduct an investigation upon the discovery that a category 1 shipment is lost or missing.

(b) Each licensee who makes arrangements for the shipment of category 2 quantities of radioactive material shall immediately conduct an investigation, in coordination with the receiving licensee, of any shipment that has not arrived by the designated no-later-than arrival time.

Subject: The Oregon Health Authority, Public Health Division is temporarily amending rules in chapter 333, division 10 pertaining to changes in program administration/operation of the Oregon Breast and Cervical Cancer Program (BCCP). These rules need to be amended promptly so that BCCP can implement new program eligibility criteria which allow women 21 and older to enter the program for clinically recommended breast and cervical cancer screening services. As currently drafted, OAR 333-010-0110 requires that women under 40 must be symptomatic and that the provider must obtain pre-authorization from BCCP in order to enroll the client in the program. These amendments will align the BCCP OARs with current program-level changes, enabling the BCCP to serve more low-income, medically underserved women in Oregon, while simplifying provider experience of working with BCCP. Related amendments include rules identifying the program's new working name, ScreenWise, and rules directing participating providers to the program website as a resource for the most current program guidance, including recently revised enrollment and data forms and provider reimbursement schedules.

Description of the Breast and Cervical Cancer Program

The Breast and Cervical Cancer Program (BCCP) is a federal screening and early detection program administered by the Oregon Health Authority to provide screening and diagnostic services to eligible Oregonians statewide. The Breast and Cervical Cancer Program provides coverage for screening and diagnostic services to Oregonians with family incomes up to 250 percent of the Federal Poverty Level through a contract network of qualified providers. OAR 333-010-0100 through 333-010-0197 apply only to providers who have an approved medical services agreement to provide screening and diagnostic services through this program. The program is limited to a finite source of funds which may restrict availability of services on an annual basis. The BCCP represents the breast and cervical cancer screening component of Oregon's ScreenWise program, which aims to reduce breast and cervical cancer, cardiovascular disease and other diseases by promoting early detection, risk factor screening, risk reduction support, and access to medical treatment.

Client Enrollment

(1)(a) Clients are determined eligible on a self-declared basis, when they submit a completed and signed BCCP enrollment form at the clinic site at the time of service.

(b) Prior to enrolling a client in BCCP, providers with access to the Medicaid Management Information System (MMIS) shall check MMIS to verify that applicant is not currently receiving Medicaid. Clients enrolled in Medicaid are ineligible for BCCP.

- (a) The presence of new symptoms; or
- (b) The necessity of short-term follow-up, as defined in the program manual.

Billing

(1) Only clinics providing breast and cervical cancer screening and diagnostic services pursuant to an approved medical services agreement, and who have been assigned an agency number may submit claims for BCCP services.

(2) All services must be billed by submitting claim information in the method specified by the BCCP.

(3) A primary diagnosis code is required on all claims. All billings must be coded with the most current and appropriate International Classification of Diseases, 10th Revision, Clinical Modification (ICD-10-CM) diagnosis codes and the most appropriate Current Procedural Terminology (CPT) codes as posted on the BCCP Program website. Claims including primary diagnosis codes that are not listed on the approved CPT code list will not be paid.

(4) The provider must use CLIA certified laboratories for all tests whether done at the clinic site or by an outside clinic.

(5) Enrolled providers with BCCP must not seek payment from an eligible client, or from a financially responsible relative or representative of that individual, for any services covered by BCCP.

(a) A client may be billed for services that are not covered by BCCP. However, the provider must inform the client in advance of receiving the specific service that it is not covered, the estimated cost of the service, and that the client or client's representative is financially responsible for payment for the specific service. Providers must document in writing that the client was provided this information and the client knowingly and voluntarily agreed to be responsible for payment. The client or client's representative must sign the documentation.

(b) Services not covered by BCCP are those outside of the scope of standard breast and cervical cancer screening and diagnosis, or those not included in the ICD-10 and CPT code lists posted on the BCCP Program website.

ADMINISTRATIVE RULES

(6) Prior to submission of a claim to the Center for payment, an approved provider agreement must be in place.

(7) All claims must be submitted with data, where described in the claims section of the rules. A claim is considered a "valid claim" only when all required data is received by the BCCP.

(a) Except for services performed by a CLIA certified laboratory outside of the clinic, all billings must be for services provided within the provider's licensure or certification.

(b) Providers must submit true and accurate information when billing the Center.

(c) A claim may not be submitted prior to providing services.

(8) Diagnosis Code Requirement:

(a) A primary diagnosis code is required on all claims.

(b) Use the highest degree of specificity within ICD-10-CM codes for breast and cervical screening or diagnostic testing as defined in the program manual.

(9) No provider shall submit to the Center:

(a) Any false claim for payment;

(b) Any claim altered in such a way as to result in a payment for a service that has already been paid;

(c) Any claim upon which payment has been made by another source unless the amount paid is clearly entered on the claim form;

(10) The provider must submit a billing error edit correction, or refund the amount of the overpayment, on any claim where the provider identifies an overpayment made by the Center.

(11) A provider who, after having been previously warned in writing by the Authority or the Department of Justice about improper billing practices, is found to have continued such improper billing practices and has had an opportunity for a contested case hearing, shall be liable to the Center for up to triple the amount of the established overpayment received as a result of such violation.

(12) Third Party Resources:

(a) Providers must make all reasonable efforts to ensure that BCCP will be the payor of last resort with the exception of clinic or offices operated by the Indian Health Service (IHS) or individual American Indian tribes;

(b) Providers must make all reasonable efforts to obtain payment first from other resources. For the purposes of this rule "reasonable efforts" include:

(A) Determining the existence of insurance coverage or other resource by asking the client;

(B) Except in the case of the underinsured, when third party coverage is known to the provider, by any other means available:

(i) The provider must bill the third party resource;

(ii) Comply with the insurer's billing and authorization requirements.

(C) Providers are required to submit a billing error edit correction showing the amount of the third party payment or to refund the amount received from another source within 30 days of the date the payment is received. Failure to submit a billing error edit correction within 30 days of receipt of the third party payment or to refund the appropriate amount within this time frame is considered concealment of material facts and grounds for recovery or sanction.

Interview and Examination

(1) In addition to all other requirements for licensure, the Board may require the applicant to appear for a personal interview regarding information received in the application process. Unless excused in advance, failure to appear before the Board for a personal interview violates ORS 677.190(17) and may subject the applicant to disciplinary action.

If an applicant fails the open-book examination three times, the applicant's application will be reviewed by the Board. An applicant who has failed the open-book examination three times must also attend an informal meeting with a Board member, a Board investigator and/or the Medical Director of the Board to discuss the applicant's failure of the examination, before being given a fourth and final attempt to pass the examination. Rule Caption: Administration of albuterol and naloxone in the scope of practice for Emergency Medical Services providers

Adm. Order No.: OMB 11-2015

Filed with Sec. of State: 10-13-2015

Certified to be Effective: 10-13-15

Notice Publication Date: 8-1-2015

Rules Amended: 847-035-0030

Subject: The rule amendment clarifies that EMTs may prepare and administer albuterol treatments and are not limited to only nebulized albuterol; clarifies that Advanced EMTs may continue to administer naloxone by any method of delivery, which is distinct from the ability of Emergency Medical Responders to administer naloxone only via intranasal device or auto-injector for suspected opioid overdose; and alphabetizes the medications or categories of medications that an Advanced EMT may prepare and administer under specific written protocols or direct orders.

Rules Coordinator: Nicole Krishnaswami—(971) 673-2667

847-035-0030

Scope of Practice

(1) The Oregon Medical Board has established a scope of practice for emergency and nonemergency care for emergency medical services providers. Emergency medical services providers may provide emergency and nonemergency care in the course of providing prehospital care as an incident of the operation of ambulance and as incidents of other public or private safety duties, but is not limited to "emergency care" as defined in OAR 847-035-0001.

(2) The scope of practice for emergency medical services providers is the maximum functions which may be assigned to an emergency medical services provider by a Board-approved supervising physician. The scope of practice is not a set of statewide standing orders, protocols, or curriculum.

(3) Supervising physicians may not assign functions exceeding the scope of practice; however, they may limit the functions within the scope at their discretion.

(4) Standing orders for an individual emergency medical services provider may be requested by the Board or Authority and must be furnished upon request.

(5) An emergency medical services provider, including an Emergency Medical Responder, may not function without assigned standing orders issued by a Board-approved supervising physician.

(6) An emergency medical services provider, acting through standing orders, must respect the patient's wishes including life-sustaining treatments. Physician-supervised emergency medical services providers must request and honor life-sustaining treatment orders executed by a physician, nurse practitioner or physician assistant if available. A patient with life-sustaining treatment orders always requires respect, comfort and hygienic care.

(7) Whenever possible, medications should be prepared by the emergency medical services provider who will administer the medication to the patient.

(8) An Emergency Medical Responder may:

(a) Conduct primary and secondary patient examinations;

(b) Take and record vital signs;

(c) Utilize noninvasive diagnostic devices in accordance with manufacturer's recommendation;

(d) Open and maintain an airway by positioning the patient's head;

(e) Provide external cardiopulmonary resuscitation and obstructed airway care for infants, children, and adults;

(f) Provide care for musculoskeletal injuries;

(g) Assist with prehospital childbirth;

(h) Complete a clear and accurate prehospital emergency care report form on all patient contacts and provide a copy of that report to the senior emergency medical services provider with the transporting ambulance;

(i) Administer medical oxygen;

(j) Maintain an open airway through the use of:

(A) A nasopharyngeal airway device;

(B) A noncuffed oropharyngeal airway device;

(C) A pharyngeal suctioning device;

(k) Operate a bag mask ventilation device with reservoir;

(L) Provide care for suspected medical emergencies, including administering liquid oral glucose for hypoglycemia;

(m) Prepare and administer aspirin by mouth for suspected myocardial infarction (MI) in patients with no known history of allergy to aspirin or recent gastrointestinal bleed;

(n) Prepare and administer epinephrine by automatic injection device for anaphylaxis;

(o) Prepare and administer naloxone via intranasal device or auto-injector for suspected opioid overdose; and

(p) Perform cardiac defibrillation with an automatic or semi-automatic defibrillator, only when the Emergency Medical Responder:

(A) Has successfully completed an Authority-approved course of instruction in the use of the automatic or semi-automatic defibrillator; and

(B) Complies with the periodic requalification requirements for automatic or semi-automatic defibrillator as established by the Authority; and

(q) Perform other emergency tasks as requested if under the direct visual supervision of a physician and then only under the order of that physician.

(9) An Emergency Medical Technician (EMT) may:

(a) Perform all procedures that an Emergency Medical Responder may perform;

(b) Ventilate with a non-invasive positive pressure delivery device;

(c) Insert a cuffed pharyngeal airway device in the practice of airway maintenance. A cuffed pharyngeal airway device is:

(A) A single lumen airway device designed for blind insertion into the esophagus providing airway protection where the cuffed tube prevents gastric contents from entering the pharyngeal space; or

(B) A multi-lumen airway device designed to function either as the single lumen device when placed in the esophagus, or by insertion into the trachea where the distal cuff creates an endotracheal seal around the ventilatory tube preventing aspiration of gastric contents.

(d) Perform tracheobronchial tube suctioning on the endotracheal intubated patient;

(e) Provide care for suspected shock;

(f) Provide care for suspected medical emergencies, including:

(A) Obtain a capillary blood specimen for blood glucose monitoring;

(B) Prepare and administer epinephrine by subcutaneous injection, intramuscular injection, or automatic injection device for anaphylaxis;

ADMINISTRATIVE RULES

Oregon Public Employees Retirement System Chapter 459

Rule Caption: Clarify the cost-of-living adjustment method for earned benefits.

Adm. Order No.: PERS 10-2015

Filed with Sec. of State: 9-25-2015

Certified to be Effective: 9-25-15

ADMINISTRATIVE RULES

Notice Publication Date: 8-1-2015

Rules Amended: 459-005-0510

Rules Repealed: 459-005-0520

Subject: On April 30, 2015, the Oregon Supreme Court issued its ruling in the Moro case, invalidating the cost-of-living adjustment (COLA) reductions enacted by Senate Bill 822 (effective May 6, 2013) and Senate Bill 861 (effective October 6, 2013) as applied to benefits earned before the effective dates of those bills. As a result, members who have earned benefits both prior to the effective dates of the bills as well as after the effective dates will receive a blended COLA based on the COLA structure in effect when the benefits were earned. While the court specifically did not provide guidance on how to blend the different COLAs, it did reference a service time ratio method as an example of how a blended COLA could be derived.

In addition, the Supreme Court ruling voided the supplementary payment provision in SB 861, so OAR 459-005-0520, Supplementary Payment is proposed for repeal.

Rules Coordinator: Daniel Rivas—(503) 603-7713

459-005-0510

Cost-of-Living Adjustment

(1) A cost-of-living adjustment (COLA) under ORS 238.360 and 238A.210 is calculated on an annual basis and may use up to three COLA methods that are blended into a COLA percentage rate, as follows:

(a) Creditable service or retirement credit earned before May 1, 2013, will receive an annual COLA based on ORS 238.360 (2011) or 238A.210 (2011).

(b) Creditable service or retirement credit earned on or after May 1, 2013, and before October 1, 2013, will receive an annual COLA based on Chapter 53, Oregon Laws 2013.

(c) Creditable service or retirement credit earned on or after October 1, 2013, will receive an annual COLA based on ORS 238.360 (2013) or 238A.210 (2013).

(2) The member's prorated periods in section (1) of this rule will be multiplied by the appropriate annual COLA percentage for the same periods to determine the blended annual COLA percentage rate that is applied to a yearly allowance, pension, or benefit. The resulting annual COLA amount is divided by 12 to determine the adjustment to the monthly allowance, pension, or benefit.

(3) A beneficiary's annual COLA percentage rate will be based on the associated member's creditable service time.

(4) COLA increases end when the recipient is no longer eligible to receive a monthly allowance, pension, or benefit.

Subject: At the July 31, 2015 PERS Board meeting, staff gave notice of rulemaking to implement any change to the assumed rate. The proposed rule sets forth the new assumed rate of 7.50% adopted by the Board.

The rule also specifies that the new assumed rate will be effective for PERS transactions with an effective date of January 1, 2016, consistent with this Board's policy decision from 2013 that changes to the assumed rate will be effective the following January 1, allowing staff ample time to perform the necessary preparation, communicate with members and employers, and giving all members who retire in a year that a change is adopted equitable treatment, no matter which month they retire. The new assumed rate will be aligned with the new actuarial equivalency factors (AEFs), which will allow for a clear effective date for all transactions that involve calculations using both the latest year-to-date rate and AEF components.

Assumed Rate

(1) The Board will review the assumed rate in odd-numbered years as part of the Board's review and adoption of actuarial assumptions and methods.

(2) The Board may adopt a change in the assumed rate at any time. A change in the assumed rate is effective the first of the year following the Board's adoption of the change.

(3) The assumed rate is set at 7.50 percent, effective on January 1, 2016.

(1) The Pick (n) Jackpot is a type of bet encompassing four or more races, the exact number of races being determined by the number substituted for (n), where, unless otherwise provided, only one, unique ticket holder designates the official winners in each of the Pick (n) Jackpot races.

(2) Except as provided in § (7) of this regulation, the net pari-mutuel pool for the Pick (n) Jackpot bet that day, together with any carryover from previous pools of the same type of bet, shall be distributed to the holder of the one, unique pari-mutuel ticket which correctly designates the official winners in each of the Pick (n) Jackpot races for that day.

(3) In the event there is more than one pari-mutuel ticket which correctly designates the official winners in each of the Pick (n) Jackpot races for that day, the net pari-mutuel pool for the Pick (n) Jackpot bets that day shall be distributed:

(a) 60%, equally, to the holders of pari-mutuel tickets which correctly designate the official winners in each of the Pick (n) Jackpot races for that day; and

Ticket Purchase, Characteristics, and Restrictions

(1) General: Oregon Megabucks is a pari-mutuel 6 of 48 lotto game. A player must select an even number set of six different numbers, between 1 and 48, for input into a terminal. Megabucks tickets can be purchased either from a terminal operated by a retailer (i.e., a clerk-activated terminal) or from a terminal operated by the player (i.e., a player-activated terminal). If purchased from a retailer, the player may select each set by marking six numbered squares in any one game board on a play slip and submitting the play slip to the retailer, or by requesting "Quick pick" from the retailer. The retailer will then issue a Megabucks ticket, via the terminal, containing the selected even number set or sets of numbers, each of which constitutes a game play. Tickets can also be purchased from a player-activated terminal by use of a touch screen or by inserting a play slip into the machine. A ticket can contain up to ten game plays lettered A through J. A player may purchase a ticket or tickets for future consecutive Megabucks drawings up to the maximum permitted by the Lottery.

(2) Kicker Option: The player must also choose whether to play "Kicker" when purchasing a Megabucks ticket. The Kicker awards larger prizes for correctly selecting three of six, four of six, and five of six numbers.

(3) Non-Cancellation: A Megabucks ticket may not be voided or cancelled by returning the ticket to the retailer, including tickets that are printed in error or purchased for a future consecutive drawing. The placing of plays is done at the player's own risk. The Lottery retailer acts on behalf of the player in entering the player's plays

Annuity Conversion Option

(1) General: A Grand prize winner has the option of receiving the advertised Grand prize in a single lump sum payment consisting of one-half of the advertised Grand prize or of receiving the full value of the Grand prize paid out in equal annual installments over a period of 30 years.

(2) Presentment: A Grand prize winner shall present the winner's ticket and completed claim form, in person, at the Salem Lottery office, pursuant to OAR 177-070-0025. Upon the Lottery's determination and validation that the winner's ticket is a winning ticket of the Grand prize, the prize winner may exercise the payment option provided in this rule.

(3) Election of Option: Within 60 days of the date of validation of the Grand prize, a winner, prior to receiving any prize payment from the Lottery, may acknowledge in writing the winner's election to receive either the single lump sum payment or the annuitized prize payments. A winner's election is irrevocable once the winner's written election is received by the Lottery subject to the limited exception provided in section (5) below.

(4) Failure to Exercise Option: In the event a winner does not exercise the above option within 60 days of the validation of the Grand prize, the winner shall receive the full value of the prize paid in equal annual installments over a period of 30 years pursuant to OAR 177-075-0020(2).

(5) Last Chance Exercise of Option: A Grand prize winner who has elected the annuitized prize payment method or who has failed to make an election and is placed on the annuitized prize payment plan according to section (4) above, may be permitted at the Lottery's sole discretion to convert to the lump sum payment provided the Lottery has not yet made any payments to the prize winner. Once the Lottery makes any payment of a Grand prize to a Grand prize winner, the choice of payment is irrevocably fixed.

(6) Multiple Winners: Multiple winners, jointly claiming ownership of a Grand prize winning ticket in accordance with OAR chapter 177, shall make individual determinations whether to exercise the option to receive their portion of the prize in the form of a single lump sum payment or annuitized payments. Each of the multiple winners exercising the option to receive a single lump sum payment or annuitized payments must do so pursuant to the terms of this rule. Each winner has the option of choosing the lump sum payment or the annuitized payments when the entire prize is more than \$100,000 even if each individual's portion of the prize is less than \$100,000.

(7) No Obligation: A winner is under no obligation to exercise the option made available by this rule.

Adm. Order No.: LOTT 2-2015

Filed with Sec. of State: 9-25-2015

Certified to be Effective: 10-7-15

Notice Publication Date: 7-1-2015

Rules Amended: 177-085-0005, 177-085-0015, 177-085-0025, 177-085-0030, 177-085-0035, 177-085-0065

Subject: The Oregon Lottery amended these administrative rules for the Powerball game to change the game matrix from a 5 of 59 plus 1 of 35 game matrix to a 5 of 69 plus 1 of 26 game matrix, which modifies the odds of winning. The Power Play multiplier has been enhanced to include a 10X multiplier. Prize levels remain the same except for the Match 4+1 prize which will increase to \$50,000 from \$10,000.

These changes are necessary to implement the changes made to the Powerball game by the Multi-State Lottery Association (MUSL), the national organization that administers this game.

The changes to the game are effective for drawings held on or after October 7, 2015, and for tickets purchased for such drawings.

Game Description

(1) General Information: Effective for drawings held on or after October 7, 2015 and for tickets purchased for such drawings, Powerball® is a five out of sixty-nine numbers plus one out of twenty-six numbers lottery game, drawn every Wednesday and Saturday as part of the Powerball® drawing event, which pays the Grand Prize, at the election of the player made in accordance with these rules or by a default election made in accordance with these rules, either on an annuitized pari-mutuel basis or as a single lump sum payment of the total funding held in the Grand Prize Pool for the winning drawing on a pari-mutuel basis. Except as provided in the rules, all other prizes are paid as a single lump sum payment. Powerball® winning numbers applicable to determine Powerball® prizes are determined in the Powerball® drawing event.

(2) Selection of Numbers: To play Powerball®, a player shall select (or computer pick) five different numbers, from one through sixty-nine and one additional number from one through twenty-six. The additional number may be the same as one of the first five numbers selected by the player, as long as it is from one through twenty-six.

(3) Purchase of Tickets: Tickets can be purchased for two dollars, including any specific statutorily-mandated tax of a selling lottery to be included in the price of a ticket, from an Oregon Lottery® approved retailer in a manner approved by the Oregon Lottery® and in accordance with these rules. A player may purchase tickets for future consecutive drawings up to the maximum permitted by the Lottery.

(4) Player's Responsibility: It is the sole responsibility of the player to verify the accuracy of the game play or plays and other data printed on the ticket. A ticket may not be voided or canceled by returning the ticket to the retailer or to the Lottery, including tickets that are printed in error. No ticket shall be returned to the Lottery for credit. The placing of plays is done at the player's own risk through the Lottery retailer, who when entering the play or plays is acting on behalf of the player.

(5) Entry of Plays: Plays may only be entered manually using a Lottery terminal keypad or touch screen or by means of a play slip provided by the Lottery and hand-marked by the player or by such other means approved by the Lottery. Retailers cannot permit the use of facsimiles of play slips, copies of play slips, or other materials that are inserted into a terminal's play slip reader that are not printed or approved by the Lottery. Retailers must not permit any device to be connected to a Lottery terminal to enter plays, except as approved by the Lottery.

(6) Determination of Winning Numbers: The winning numbers for the Powerball® game shall be determined at a drawing conducted under the supervision of the MUSL Board. The MUSL Board shall determine the frequency of Powerball® game drawings. Winning numbers shall be selected at random with the aid of mechanical drawing equipment or a random number generator. The Lottery Director shall designate a Drawing Manager who shall review and randomly observe the drawings conducted by the MUSL Board. The drawing procedures shall include procedures for randomly selecting the Powerball® game winning numbers and the Power Play® multiplier.

Powerball® Prize Pool

(1) Powerball® Prize Pool: The prize pool for all prize categories shall consist of 50 percent of each drawing period's sales, inclusive of any specific statutorily-mandated tax of a Party Lottery or a Licensee Lottery to be included in the price of a lottery ticket, after the prize pool accounts and prize reserve accounts are funded to the amounts established by the Product Group. Any amount remaining in the prize pool at the end of the Powerball® game shall be returned to all lotteries participating in the prize pool after the end of all claims periods of all Party Lotteries and Licensee Lotteries, carried forward to a replacement game or expended in a manner as directed by the members of the Product Group in accordance with state law.

(2) Powerball® Prize Pool Accounts and Prize Reserve Accounts: An amount up to five percent of a Party Lottery's sales, inclusive of any specific statutorily-mandated tax of a Party Lottery to be included in the price of a lottery ticket, shall be deducted from a Party Lottery's Grand Prize Pool and placed in trust in one or more Powerball® prize pool accounts and prize reserve accounts until the prize pool accounts and a Party Lottery's share of the prize reserve accounts reaches the amounts designated by the Product Group. The Product Group has established the following prize reserve accounts and prize pool accounts for the Powerball® game:

(a) Powerball® Prize Reserve Accounts: The Product Group has established the following prize reserve accounts for the Powerball® game:

(A) The Powerball® Prize Reserve Account, which is used to guarantee the payment of valid, but unanticipated, Grand Prize claims that may result from a system error or other reason (subject to the limitations of these rules); and

(B) The Powerball® Set Prize Reserve Account, which is used to fund deficiencies in low-tier Powerball® prize payments (subject to the limitations of these rules).

(b) Powerball® Prize Pool Accounts: The Product Group has established the following prize pool accounts for the Powerball® game:

(A) The Grand Prize Pool Account, which is used to fund the immediate Grand Prize;

(B) The Powerball® Set Prize Pool, which is used to fund the Powerball® set prize payments;

(C) The Powerball® Set-Aside Account, which is used to guarantee payment of the minimum or starting Grand Prize;

(D) The Power Play® Prize Pool and the Power Play Pool Account, which are described in OAR 177-085-0065; and

(E) The Set Prize Pool which holds the temporary balances that may result from having fewer than expected winners in the Powerball® set prize (low-tier prize) categories and the source of the Set Prize Pool is the Party Lottery's weekly prize contributions less actual Powerball® set prize liability. The source of the Set-Aside Account funding shall be the prize reserve deduction until such time as the Set-Aside Account is fully funded. Once the Powerball® prize pool accounts and a Party Lottery's share of the Powerball® prize reserve accounts exceed the designated amounts, the excess shall become part of the Grand Prize Pool Account.

(3) Balances: The Product Group, with approval of the Finance & Audit Committee, may establish a maximum balance for the Powerball® prize pool accounts and prize reserve accounts. The Product Group may determine to expend all or a portion of the funds in the Powerball® prize pool accounts (except the Grand Prize Pool Account) and the prize reserve accounts as follows:

(a) For the purpose of indemnifying the Party Lotteries and Licensee Lotteries in the payment of prizes to be made by the selling lotteries, subject to the approval of the MUSL Board; and

(b) For the payment of prizes or special prizes in the game, subject to the approval of the MUSL Finance and Audit Committee. The prize reserve shares of a Party Lottery may be adjusted with refunds to the Party Lottery from the prize reserve accounts as may be needed to maintain the approved maximum balance and shares of the Party Lotteries. A Party Lottery may contribute to its share of prize reserve accounts over time, but in the event of a draw down from the reserve account, a Party Lottery is responsible for its full percentage share of the account, whether or not it has been paid in full. Any amount remaining in the Powerball® prize pool accounts or prize reserve accounts at the end of the Powerball® game shall be returned to all lotteries participating in the accounts after the end of all claims periods of all Party Lotteries and Licensee Lotteries, carried forward to a replacement game or a replacement prize reserve account or expended in a manner as directed by the members of the Product Group in accordance with state law.

(4) Expected Powerball® Prize Payout Percentages: The Grand Prize payout shall be determined on a pari-mutuel basis. Except as otherwise pro-

ADMINISTRATIVE RULES

vided in these rules, all other prizes awarded shall be paid as set lump sum prizes with the following expected prize payout percentages effective for drawings held on or after October 7, 2015: [Table not included. See ED. NOTE.]

(a) Division of Grand Prize Among Winners: The prize money allocated to the Grand Prize category shall be divided equally by the number of game plays winning the Grand Prize.

(b) Powerball® Set Prize Pool Carried Forward: The Powerball® Set Prize Pool (for the single lump sum prizes of \$1,000,000 or less) shall be carried forward to subsequent draws if all or a portion of it is not needed to pay the Powerball® set prizes awarded in the current draw.

(c) Pari-Mutuel Powerball® Prize Determination: Except as provided in OAR 177-085-0025(4)(c)(C), for Party Lotteries:

(A) If the total of the Powerball® set prizes (as multiplied by the respective Power Play® multiplier if applicable) awarded in a drawing exceeds the percentage of the prize pool allocated to the Powerball® set prizes, then the amount needed to fund the Powerball® set prizes, including Power Play® prizes, awarded shall be drawn from the following sources, in the following order:

(i) The amount allocated to the Powerball® set prizes and carried forward from previous draws, if any;

(ii) An amount from the Set Prize Reserve Account, if available, not to exceed \$40,000,000 per drawing; and

(iii) Other amounts as agreed to by the Product Group in its sole discretion.

(B) Lack of Sufficient Prize Funds: If, after these sources are depleted, there are not sufficient funds to pay the set prizes awarded, including Power Play® prizes, then the highest set prize shall become a pari-mutuel prize. If the amount of the highest set prize, when paid on a pari-mutuel basis, drops to or below the next highest set prize and there are still not sufficient funds to pay the remaining set prizes awarded, then the next highest set prize, including Power Play® prizes, shall become a pari-mutuel prize. This procedure shall continue down through all set prize levels, if necessary, until all set prize levels become pari-mutuel prize levels. In that instance, the money available from the funding sources listed in this rule shall be divided among the winning plays in proportion to their respective prize percentages. Powerball® set prizes and Power Play® prizes will be reduced by the same percentage.

(C) By agreement with the Licensee Lotteries, the Licensee Lotteries shall independently calculate their set prize pari-mutuel prize amounts. The Party Lotteries and the Licensee Lotteries shall then agree to set the pari-mutuel prize amounts for all lotteries selling the game at the lesser of the independently-calculated prize amounts.

Prize Payment

(1) Selection of Payment Type: Grand Prizes shall be paid, at the election of the player made no later than 60 days after validation of the prize, with either a per-winner annuity or single lump sum payment. If the pay-

ment election is not made by the player within 60 days after validation, then the prize shall be paid as an annuity prize. The election to take the single lump sum payment may be made at the time of validation of the prize claim or within 60 days thereafter. An election made after validation is final and cannot be revoked, withdrawn, or otherwise changed.

(2) Share of the Grand Prize: Shares of the Grand Prize shall be determined by dividing the amount available in the Grand Prize pool equally among all winning game plays of the Grand Prize.

(3) Lump Sum Payment: Winner(s) who elect a lump sum payment shall be paid their share(s) in a single lump sum payment. (Application of the MUSL annuity factor generally is anticipated to result in the Grand Prize winner who elects a single lump sum payment receiving an amount that roughly approximates one-half of the advertised Grand Prize amount. The actual single lump sum payment amount will vary as a function of the MUSL annuity factor determined as described in subsection (4)(a) of this rule.)

(4) Annuity Payment: The annuitized option prize shall be determined by multiplying a winner's share of the Grand Prize pool by the MUSL annuity factor.

(a) The MUSL annuity factor is determined through a process as approved by the MUSL Finance and Audit Committee.

(b) Neither MUSL nor the Party Lotteries or the Licensee Lotteries shall be responsible or liable for changes in the advertised or estimated annuity prize amount and the actual amount purchased after the prize payment method is actually known to MUSL. In certain instances announced by the Product Group, the Grand Prize shall be a guaranteed amount and shall be determined pursuant to subsection (11) of this rule. If individual shares of the Grand Prize Pool funds held to fund an annuity are less than \$250,000.00, the Product Group, in its sole discretion, may elect to pay the winners their share of the amount held in the Grand Prize pool.

(5) Initial and Annual Payments: Except as may be controlled by statute, all annuitized prizes shall be paid annually in thirty payments with the initial payment being made directly with available funds, to be followed by twenty-nine payments funded by the annuity. All annuitized prizes shall be paid annually in thirty graduated payments (increasing each year) by a rate as determined by the Product Group. Prize payments may be rounded down to the nearest \$1,000. Annual payments after the initial payment shall be made by the lottery on the anniversary date of the first payment or if such date falls on a non-business day, then the first business day following the anniversary date of the first payment. Funds for the initial payment of an annuitized prize or the lump sum payment prize shall be made available by MUSL for payment by the Party Lottery or the Licensee Lottery which sold the winning ticket no earlier than the 15th calendar day (or the next banking day if the fifteenth day is a holiday) following the drawing.

(6) Lack of Available Funds: If necessary, when the due date for the payment of a prize occurs before the receipt of sufficient funds in the prize pool trust to pay the prize, then the transfer of funds for the payment of the full lump sum payment amount may be delayed pending receipt of funds from the Party Lotteries and Licensee Lotteries. The Lottery may elect to make the initial payment from its own funds after validation, with notice to MUSL.

(7) Death of Winner: In the event of the death of a lottery winner during the annuity payment period, the MUSL Finance and Audit Committee, in its sole discretion excepting a discretionary review by the Product Group, upon the petition of the estate of the lottery winner (the "Estate") or the persons identified on the winner's Beneficiary Designation form (BDF), whichever is applicable, to the state lottery of the state in which the deceased lottery winner purchased the winning ticket, and subject to applicable federal, state, or district laws, may make payment to the Estate or the designated beneficiary of the discounted present value of the annuitized prize payments. If a determination is made, then securities and/or amounts held to fund the deceased lottery winner's annuitized prize may be distributed to the Estate or the persons on the BDF. The identification of the securities, if any, to fund the annuitized prize shall be at the sole discretion of the MUSL Finance and Audit Committee or the Product Group.

(8) Low-Tier Prizes: All low-tier prizes (all prizes except the Grand Prize) shall be paid directly through the Lottery that sold the winning ticket. The Lottery may begin paying low-tier prizes after receiving authorization to pay from the MUSL central office.

(9) Rounding of Powerball® Grand Prize Payments: Annuitized payments of the Grand Prize or a share of the Grand Prize may be rounded to facilitate the purchase of an appropriate funding mechanism. Breakage on an annuitized Grand Prize win shall be added to the first payment to the winner or winners. Prizes other than the Grand Prize which, under OAR 177-085-0025(4)(c) and 177-085-0065(11), may become single-payment,

ADMINISTRATIVE RULES

pari-mutuel prizes, may be rounded down so that prizes can be paid in multiples of whole dollars. Breakage resulting from rounding these prizes shall be carried forward to the prize pool for the next drawing.

(10) Roll Over of Powerball® Grand Prize: If the Grand Prize is not won in a drawing, the prize money allocated for the Grand Prize shall roll over and be added to the Grand Prize pool for the following drawing.

(11) Minimum Powerball® Grand Prizes and Increases: The Product Group may offer guaranteed minimum Grand Prize amounts or minimum increases in the Grand Prize amount between drawings or make other changes in the allocation of prize money where the Product Group finds that it would be in the best interest of the game. If a minimum Grand Prize amount or a minimum increase in the Grand prize amount between drawings is offered by the Product Group, then the Grand Prize amount shall be determined as follows.

(a) All Winners Select Annuity: If there are multiple Grand Prize winners during a single drawing, each selecting the annuitized option prize, then a winner's share of the guaranteed annuitized Grand Prize shall be determined by dividing the guaranteed annuitized Grand Prize by the number of winning game plays.

(b) Mix of Lump Sum and Annuity: If there are multiple Grand Prize winners during a single drawing and at least one of the Grand Prize winners has elected the annuitized option prize, then the best bid submitted by MUSL's pre-approved qualified brokers shall determine the cash pool needed to fund the guaranteed annuitized Grand Prize.

(c) No Winners Select Annuity: If no winner of the Grand Prize during a single drawing has elected the annuitized option prize, then the amount of the cash in the Grand Prize pool shall be an amount equal to the guaranteed annuitized amount divided by the MUSL annuity factor.

(d) Changes in Allocation of Prizes: Changes in the allocation of prize money shall be designed to retain approximately the same prize allocation percentages, over a year's time, set out in OAR 177-085-0025(4). Minimum guaranteed prizes or increases may be waived if the alternate funding mechanism set out in OAR 177-085-0025(4)(c) becomes necessary. Approval of the Group is required to change the guaranteed minimum Grand Prize amounts or minimum increases in the Grand Prize amount. Any reduction in the guaranteed minimum Grand Prize amount or reduction in the minimum increases to the Grand Prize amount shall not become effective until after a Grand Prize win following the action taken by the Group.

(12) One Prize per Board: The holder of a winning ticket may win only one prize per board in connection with the winning numbers drawn, and shall be entitled only to the prize won by those numbers in the highest matching prize category.

(13) Claim Expires in One Year: Claims for all prize categories, including the Grand Prize, must be submitted within one year after the date of the drawing.

Power Play®

(1) General: Power Play® is an optional, limited extension of the Powerball® Game described in OAR division 85. The Lottery Director, in the Lottery Director's sole discretion and based on agreements with MUSL, is authorized to initiate and terminate the Power Play® option.

(2) Set Prizes Only: Power Play® increases the amount of any of the cash Set Prizes (the cash prizes normally paying \$4 to \$1,000,000) won in a drawing. The Grand Prize is not a Set Prize and will not be increased.

(3) Power Play® Purchase: A qualifying Power Play® option play is any single Powerball® Play for which the player selects the Power Play® option on either the game slip or by selecting the Power Play® option through a clerk-activated or player-activated terminal, pays one extra dollar for the Power Play® option play, and which is recorded at the Lottery's central computer as a qualifying play.

(4) Qualifying Play: Except as provided in these rules, for drawings held on or after October 7, 2015, a qualifying play which wins one of the seven lowest lump sum Set Prizes (excluding the Grand Prize and the Match 5+0 prize) will be multiplied by the number selected, either 2, 3, 4,

5, or sometimes 10 in a separate random Power Play® drawing announced during the official Powerball® drawing show. The "10X" multiplier will be available for drawings in which the initially advertised annuitized Grand Prize amount is \$150,000,000 or less. The announced Match 5+0 prize, for players selecting the Power Play® option, shall be \$2,000,000 unless a higher limited promotional dollar amount is announced by the Group.

(5) Power Play® Drawings: Effective for drawings held on or after October 7, 2015, MUSL will conduct a separate random Power Play® drawing and announce results during each of the regular Powerball® drawings held during the promotion. During each Power Play® drawing a single number, 2, 3, 4, 5, or sometimes 10, shall be drawn. The "10X" multiplier shall be available for all drawings in which the initially advertised annuitized Grand Prize amount is \$150,000,000 or less. The Powerball® Product Group may modify the multiplier features for special promotions from time to time.

(6) Power Play® Prize Pool for Drawings held on or after October 7, 2015: In accordance with OAR 177-085-0065(7), 50 percent of each draw's sales shall be collected for the payment of prizes.

(a) "10X" Multiplier Available: In drawings where the "10X" multiplier is available, the expected payout for all prize categories shall consist of up to 49.969 percent of each drawing period's sales, including any specific statutorily-mandated tax of a Party Lottery or Licensee Lottery to be included in the price of a lottery ticket.

(b) "10X" Multiplier Not Available: In drawings where the "10X" multiplier is not available, the expected payout for all prize categories shall consist of up to 45.934 percent of each drawing period's sales, including any specific statutorily-mandated tax of a Party Lottery or Licensee Lottery to be included in the price of a lottery ticket.

(c) Carry Forward: The prize payout percentage per draw may vary. The Power Play® Prize Pool shall be carried forward to subsequent draws if all or a portion of it is not need to pay the Power Play® prizes awarded in the current draw and held in the Power Play® Pool Account.

(7) Power Play® Pool Account for Drawings held on or after October 7, 2015:

(a) "10X" Multiplier Available: In drawings where the "10X" multiplier is available, an additional 0.031 percent of sales, including any specific statutorily-mandated tax of a Party Lottery or Licensee Lottery to be included in the price of a lottery ticket, may be collected and placed in trust in the Power Play® Pool Account, for the purpose of paying Power Play® prizes.

(b) "10X" Multiplier Not Available: In drawings where the "10X" multiplier is not available, 4.066 percent of sales, including any specific statutorily-mandated tax of a Party Lottery or Licensee Lottery to be included in the price of a lottery ticket, may be collected and placed in trust in the Power Play® pool account, for the purpose of paying Power Play® prizes.

(c) Remaining Amounts: Any amount remaining in the Power Play® Pool Account when the Product group declares the end of this game shall be returned to all lotteries participating in the account after the end of all claim periods of all Party Lotteries and Licensee Lotteries, carried forward to a replacement game, or expended in a manner as directed by the members of the Product Group in accordance with jurisdiction statute.

(8) Power Play® Payout: Except as otherwise provided in these rules, all prizes awarded shall be paid as lump sum set prizes. Instead of the Powerball® set prize amounts, qualifying Power Play® option plays will pay the Power Play® prize amounts shown in section (9) of this rule. In certain rare instances, and as determined under OAR 177-085-0025(4)(c)(B) and section (11) of this rule, the Powerball® set prize amount may be less than the amounts shown in section (9) of this rule. In such case, the eight Power Play® prize amounts will be changed to an amount announced after the draw.

(9) Expected Power Play® Prize Payout — Effective for Drawings held on or after October 7, 2015: [Table not included. See ED. NOTE.] In certain rare instances, the Powerball® set prize amount may be less than the amount shown. In such case, the eight lowest Power Play® prizes will be changed to an amount announced after the draw. For example, if the Match 4+1 Powerball® set prize amount of \$50,000.00 becomes \$25,000.00 under the rules of the Powerball® game and a 5x Power Play® multiplier is selected, then a Power Play® player winning that prize amount would win \$125,000.00.

(10) Probability of Winning: Effective for drawings held on or after October 7, 2015, The following tables set forth the probability of the various Power Play® numbers being drawn during a single Powerball® drawing, except that the Power Play® amount for the Match 5+0 prize will be

ADMINISTRATIVE RULES

\$2,000,000. The Group may elect to run limited promotions that may modify the multiplier features.

(a) When the "10X" Multiplier is Available: [Table not included. See ED. NOTE.]

(b) When the "10X" Multiplier is not Available: [Table not included. See ED. NOTE.]

(11) **Pari-Mutuel Prizes** — All Prize Amounts: Except as provided in subsection (d) of this rule, for Party Lotteries, if the total of the original Powerball® set prizes and the Power Play® prizes awarded in a drawing exceeds the percentage of the prize pools allocated to the set prizes, then the amount needed to fund the set prizes (including the Power Play® prize amounts) awarded shall be drawn from the following sources, in the following order:

(a) The amount allocated to the set prizes and carried forward from previous draws, if any;

(b) An amount from the Powerball® Set-Prize Reserve Account, if available in the account, not to exceed \$40,000,000 per drawing;

(c) Other amounts as agreed to by the Product Group in their sole discretion; and

(d) If, after these sources are depleted, there are not sufficient funds to pay the set prizes awarded (including Power Play® prize amounts), then the highest set prize (including the Power Play® prize amounts) shall become a pari-mutuel prize. If the amount of the highest set prize, when paid on a pari-mutuel basis, drops to or below the next highest set prize and there are still not sufficient funds to pay the remaining set prizes awarded, then the next highest set prize, including the Power Play® prize amount, shall become a pari-mutuel prize. This procedure shall continue down through all set prizes levels, if necessary, until all set prize levels become pari-mutuel prize levels. In that instance, the money available from the funding sources listed in this rule shall be divided among the winning plays in proportion to their respective prize percentages. Powerball® and Power Play® prizes will be reduced by the same percentage.

(e) By agreement with the Licensee Lotteries, the Licensee Lotteries shall independently calculate their set pari-mutuel prize amounts, including the Power Play® prize amounts. The Party Lotteries and the Licensee Lotteries shall then agree to set the pari-mutuel prize amounts for all lotteries selling the game at the lesser of the independently calculated prize amounts.

(12) **Prize Payment:** All Power Play® prizes shall be paid in one lump sum. The Lottery may begin paying Power Play® prizes after receiving authorization to pay from the MUSL central office.

(13) **Prizes Rounded:** Prizes, which under these rules may become pari-mutuel prizes, may be rounded down so that prizes can be paid in whole dollars. Breakage resulting from rounding these prizes shall be carried forward to the prize pool for the next drawing.

177-040-0050 Retailer Duties

(1) General: This rule contains duties to be performed by a Lottery retailer beyond those duties described in the Lottery retailer contract. The duties listed herein are not meant to be exclusive. Other duties and requirements for retailers may be contained elsewhere in OAR division 177, ORS Chapter 461, or in the Lottery retailer contract.

(2) All Retailers: All Lottery retailers shall:

(a) Stock Equipment: Keep all Lottery equipment on the retailer's premises stocked with a variety of Scratch-itSM tickets, play slips, computer-generated tickets, and any other Oregon Lottery[®] product required to be sold. Unless exempted by the Lottery, if a Lottery retailer fails to stock or replenish these items as they are made available for sale by the Lottery, or as they are depleted because of purchase or use, the Lottery may remove the equipment.

(b) Perform Minor Maintenance: Replace ribbons, ticket stock, and clear paper jams as may be required for any of the equipment provided by the Lottery for the sale of Lottery tickets or shares.

(c) Maintain Paper Stock: Install and use only approved Lottery-provided paper stock which has been specifically assigned to the selling retailer when selling Lottery tickets and shares.

(d) Obtain Permits: Be required to arrange for and obtain all necessary permits required by federal, state, and local governments for electrical installation, electrical power, telephone service, fiber optic lines and connections, and coaxial cable and connections required to sell Lottery tickets or shares at the retail site.

(e) Pay Amounts Due: Pay the amount due to the Lottery for the sale of Lottery tickets or shares by the use of an electronic funds transfer (EFT). In most instances, this EFT shall occur at the end of the fourth day after the close of each Lottery business week. When an applicant operates multiple Lottery retail sites before the effective date of this rule, the routine date of the EFT collection may be set beyond the fourth day after the close of the business week in order to accommodate the needs of the combined sites.

(3) Traditional Lottery Game Retailers: A Lottery retailer authorized to sell traditional Lottery games is required to:

(a) Scratch-ItSM Validation: Validate a Scratch-ItSM ticket presented to the retailer by a player through equipment provided by the Lottery connected to the Lottery's central computer system. The retailer is required to destroy a winning ticket after validation and payment of the prize. Any Lottery retailer who does not destroy a winning ticket after validation and payment of the prize is liable for a prize paid by another Lottery retailer who subsequently pays the ticket. The retailer is required to return a non-winning ticket to the player.

(b) Draw Game Validation: Validate a Draw game ticket through the Draw game terminal before paying a Draw game prize.

(c) Underage Play: Monitor Lottery player-operated vending machines, as defined in OAR 177-045-0000, to prevent underage play.

(4) Video Retailers: A Video LotterySM game retailer is required to:

(a) Cash Slip Validation: Validate any Video LotterySM cash slip presented for payment that was issued at the retailer's location, through the Lottery's on-site video validation terminal before paying a Video LotterySM prize, except for those cash slips required to be validated and paid at Lottery Headquarters in Salem, or other locations designated by the Director.

(b) Restrict Visibility: Restrict Video LotterySM game terminals from visibility from areas outside of the business and from view of dining areas or other areas where minors are permitted to linger.

(c) Age-Posted Area: Maintain Video LotterySM game terminals in an area of the business that is prohibited to minors. The area must be posted as such by the Oregon State Lottery or the Oregon Liquor Control Commission. This restriction against minors does not apply to minors who qualify under the exceptions permitted by the Oregon Liquor Control Commission for access to areas normally prohibited to minors.

(5) Sanctions: The Director may sanction a Lottery retailer for the loss, damage, or destruction of any winning game ticket or share. This includes, but is not limited to: Imposing a requirement for remedial training for the retailer or the retailer's employees, and any other actions for failure to perform contract duties or requirements as described in the Lottery retailer contract or OAR Chapter 177.

Designated Employees and Payment of Prizes

(1) Designated Employees: A traditional Lottery retailer must designate employees authorized to redeem winning Lottery tickets and shares. A Video LotterySM retailer must designate employees authorized to redeem Video LotterySM cash slips as defined in OAR 177-200-0005(1).

(2) Traditional Lottery Retailers: A traditional Lottery retailer must redeem winning Lottery tickets and shares during all of the retailer's designated hours of redemption.

(3) Video LotterySM Retailers: Except for those cash slips required to be validated and paid at Lottery Headquarters in Salem, or other locations designated by the Director, during all business hours of operation a Video LotterySM retailer must redeem any Video LotterySM cash slip presented for payment that was issued at that retailer's location, except as follows:

(a) In the event of exceptional circumstances, a retailer may delay validation and payment of a cash slip for a period of time not to exceed 24 hours from the time the cash slip is initially submitted to the retailer for payment. "Exceptional circumstances" means rare and unforeseen circumstances beyond the reasonable control of the retailer; and

(b) Within 48 hours from the time the cash slip is initially submitted to the retailer for payment, the retailer must submit to the Lottery a written report of the delay of payment and the exceptional circumstances that required the delay.

(c) The Director may review claims of exceptional circumstances and determine whether delayed payment was appropriate under the circumstances. Upon the Director's request, the retailer must provide the Director with evidence supporting a claim of exceptional circumstances. If a retailer fails to comply with a request or fails to adequately support a claim of exceptional circumstances, the Director shall find that the delay was not appropriate.

(d) If the Director finds that the delay was not appropriate, the retailer's delay of payment shall be considered a failure to perform contract duties or requirements, and the Lottery may take appropriate action including termination of the retailer contract. The Director's decision is final.

(4) Payment: Except as provided in section (3) of this rule, a retailer must immediately pay prizes in cash or by check, or any combination thereof, when a winning Lottery ticket or share meeting the requirements of these rules is presented for payment, including a Video LotterySM cash slip. A retailer must not pay prizes in tokens, chips, or merchandise or charge a fee for paying a prize or for issuing payment.

(5) Validation: Notwithstanding section (3) of this rule, once a Lottery retailer validates a winning ticket or share, including a Video LotterySM cash slip, the retailer must immediately pay it. The Lottery's terminal will not validate a cash slip issued for a Jackpot Prize.

Sale of Lottery Tickets and Shares

(1) General: The Director may contract with retailers for the sale of Lottery tickets and shares. Except as provided in section (3) of this rule, only a retailer under contract with the Lottery may sell Lottery tickets or shares. Nothing in this section shall be construed to prevent a person who lawfully purchases or possesses a Lottery ticket or share from making a gift of such ticket or share to another.

(2) Retailer Sales Locations: Unless authorized by the Lottery, Lottery tickets or shares may only be sold by a Lottery retailer at the location listed in the retailer contract.

(3) Lottery Sales: The Lottery may designate its agents or employees to sell Lottery tickets or shares directly to the public, either in person at Lottery Headquarters, at a Lottery kiosk, other locations designated by the Director for the sale of Lottery tickets and shares, or sales by the Lottery through electronic means. For purposes of Lottery's traditional lottery game rules, reference to a "retailer," "Lottery retailer," or "Lottery On-line retailer" includes Lottery sales unless the context or a specially applicable provision indicates otherwise.

(4) Future Drawings: A player may purchase a ticket or tickets for future consecutive drawings to the extent permitted by the Lottery for each Lottery game. The player must specify at the time of purchase that the ticket or tickets include future consecutive drawings.

(5) Sales Are Final: Unless otherwise provided in OAR chapter 177, the sale of all Lottery tickets and shares is final. A player may not return a Lottery ticket or share for a refund of the purchase price or exchange unless the specific game rule provides otherwise. The Lottery is not liable for Lottery tickets or shares that are purchased in error.

(6) Distribution: The Director is authorized to arrange for the direct distribution of Lottery equipment, ticket stock, and supplies shipped directly from the manufacturer or supplier to an authorized retailer.

Payment of Prizes

(1) General: All winning Lottery tickets or shares may be presented to the Oregon State Lottery for payment. Winning tickets or shares for prizes of \$600 or less may also be presented for payment to the appropriate Lottery retailer specified in the applicable game rule.

(2) Mailing Address: Winners who mail a winning Lottery ticket or share to the Lottery must sign the Lottery ticket or share, write the claimant's mailing address on the ticket or share, and mail it to the Oregon State Lottery, P.O. Box 14515, Salem, Oregon 97309. Registered mail is recommended.

(3) Lottery Headquarters Address: Winners who present a claim in person at the Lottery may do so by bringing the winning Lottery ticket or share to the Oregon State Lottery Headquarters, Player Services, 500 Airport Road SE, Salem, Oregon 97301 during Lottery business hours. Tickets and shares for prizes may also be presented at other locations and for such prize amounts as designated by the Director, unless the ticket or share specifies that it must be claimed at Lottery Headquarters in Salem, Oregon.

(4) Retailer Validation and Payment of Prizes of \$600 or Less: To determine whether a Lottery ticket or share presented for payment entitles the holder to a prize, a retailer must validate the claim with the Lottery by scanning the bar code or manually entering the bar code number printed on each Lottery ticket or share into equipment provided by the Lottery, and, if authorized by the Lottery, pay the player the prize amount due.

(a) Retailer Payment: A retailer is authorized to pay a prize of \$600 or less and shall pay that prize in cash or check, or any combination thereof.

(b) Lottery Payment: If a retailer's prize payment check is dishonored, the player may seek payment from the Lottery by presenting a copy of the dishonored check to the Oregon State Lottery, Player Services Office, 500 Airport Road SE, Salem, Oregon 97301 during Lottery business hours, other locations designated by the Director, or by mailing a copy of the dis-

honored check with a winner claim form to the Oregon State Lottery, P.O. Box 14515, Salem, Oregon 97309. If the Lottery determines that payment of the prize is authorized, the retailer has not paid the prize, and it is unlikely that the retailer will pay the prize, the Lottery may then issue a check to the player in the amount of the prize due less any applicable tax withholding. Lottery may require submission of the original check issued by the retailer prior to making payment to the player.

(c) Retailer Sanction: A retailer that pays a prize with a check that is dishonored may be subject to termination of the Lottery Retailer Contract.

(5) Lottery Validation and Prize Payment: Upon validation of a winning Lottery ticket or share presented to the Lottery for payment, the Director may pay the amount of the prize to the player less any applicable tax withholding. If the Director determines that the ticket or share is invalid, or a non-winning ticket or share, or the claim is invalid, the Director shall deny the claim and notify the player. An invalid ticket or share will not be returned to the player and is not eligible for any second chance or promotional drawing. A non-winning ticket will only be returned to the player if the player provides return postage and a self-addressed envelope or mailing container in which to return the ticket.

(a) Lottery Prize Payment of \$600 or Less: Payment may be made by check, cash card, or in cash, or any combination thereof.

(A) Lottery Headquarters: Cash prize payments made at Lottery Headquarters, or other locations designated by the Director, are limited to \$50 per person per day. Any prize payment balance remaining above \$50 shall be paid by check. Payment may be made in person or by mail, except that the Lottery will not mail cash.

(B) Lottery Kiosk: Cash prize payments made at a Lottery kiosk are limited to \$100 per transaction. Any prize payment balance remaining above \$100 shall be paid by cash card.

(C) Prizes by Mail: A winning ticket or share may be submitted to the Lottery by mail. If mailed, the player must sign the ticket or share, write the player's mailing address on the ticket or share, and mail it to the Oregon State Lottery, P.O. Box 14515, Salem, Oregon 97309. Registered mail is recommended.

(b) Lottery Prize Payment of Prizes Greater than \$600: A player must claim a Lottery prize of more than \$600 by:

(A) Claiming in Person: Bringing the ticket or share to the Oregon State Lottery Headquarters, Player Services Office, 500 Airport Road SE, Salem, Oregon 97301 during Lottery business hours and presenting the ticket or share to the Lottery. Tickets and shares for prizes may also be presented at other locations and for such prize amounts as designated by the Director, unless the ticket or share specifies that it must be claimed at Lottery Headquarters in Salem, Oregon; or

(B) Claiming by Mail: Signing the ticket or share, writing the player's mailing address on the ticket or share, completing a winner claim form, and mailing it together with the winning ticket or share to the Oregon State Lottery, P.O. Box 14515, Salem, Oregon 97309. Registered mail is recommended. The winner claim form may be obtained from any Lottery retailer, from a Lottery kiosk, from the Lottery Headquarters at the addresses listed above, other locations designated by the Director, or downloaded from the Lottery's website.

(c) High Tier Prize Payments: The Lottery will pay a winning ticket or share by check, or subject to OAR 177-010-0050, may pay the prize in merchandise if the prize is merchandise.

(6) Claiming Lottery Tickets or Shares Jointly: If more than one name appears on a Lottery ticket or share, or if a Lottery ticket or share is owned by two or more persons, the prize must be claimed in accordance with the following:

(a) General: All persons claiming ownership of the winning Lottery ticket or share must complete and sign the Lottery's request and release form. Each of the persons signing the form must indicate each person's proportionate share of the prize. Each person must receive at least \$1.00. At least one of the persons claiming ownership of the ticket or share must sign the ticket or share. That person's signature must also appear on the request and release form. If a winning ticket or share is mailed to the Lottery with multiple signatures on it, the Director will mail the request and release form to the claimants.

(b) Deceased Signatories: A deceased signatory who dies before signing the request and release form will be presumed to have an ownership interest equal to that of the other signatories. In the event there is a deceased signatory, the Director may withhold payment for 60 days from the date of validation to allow co-owners the opportunity to seek a declaratory ruling from a court.

(c) Relinquishment of Interest: When a person who has signed a Lottery ticket or share wishes to relinquish the person's ownership interest

ADMINISTRATIVE RULES

in the Lottery ticket or share, that person must sign the Lottery's release of ownership form relinquishing the person's ownership interest. In no event will a person be permitted to relinquish ownership interest once it is determined that the person owes money for child support or other legal attachment has taken place. Once the Lottery receives the release of ownership form, it is irrevocable.

(d) Issuance of Prize Checks to Multiple Owners: If a validated winning Lottery ticket or share is claimed by multiple owners who are sharing a single prize, the Director will issue to each person claiming a share of the prize amount, a check for the portion of the prize amount claimed by each multiple owner, the total not to exceed the total prize amount. No cash payments will be made to multiple owners. However, the Director reserves the right to issue a single prize check to an individual whose name appears on the ticket or share instead of multiple prize checks to the owners of the ticket or share if the value of each individual prize check would be less than \$50 or if the number of persons claiming a share of the prize exceeds 100 people. The Lottery shall pay multiple winners of a Lottery prize only at the Lottery Headquarters in Salem, or other locations and for such prize amounts as designated by the Director. Lottery retailers are not authorized to pay multiple winners who share a single prize.

(e) Payment to Multiple Owners at Lottery Kiosk: Notwithstanding subsection (6)(d) of this rule, the Lottery may pay multiple winners of a single Lottery prize at a Lottery kiosk if the total amount of the prize is \$600 or less. Payment shall be made as set forth in paragraph (5)(a)(B) of this rule.

(f) Conflicting Information or Discrepancies: If there is conflicting information or discrepancies between the names on a winning Lottery ticket or share and the names on a claim form, the Lottery may withhold prize payment until the owners resolve the conflicting information. Discrepancies include, but are not limited to: Names or addresses scratched out or erased, or unreadable or altered names or addresses.

(g) Investigations: At the discretion of the Director, the Lottery may conduct an investigation to aid in the determination of the rightful owners prior to payment of any prize.

(h) Determinations: The Director's decisions regarding the determination of a winning Lottery ticket or share, or the determination of the rightful owner or owners of a prize, or of any other dispute or matter arising from payment or awarding of prizes are final and binding on all parties.

(7) Payment of Prizes Donated Anonymously to Non-Profit Groups and Others:

(a) General: The Director may pay a prize according to written anonymous instructions received with a winning Lottery ticket or share. The recipient must be a natural person or a non-profit group as described in Section 501(c)(3) of the Internal Revenue Code.

(b) Adult Recipient: If the intended recipient is a natural person of majority, the Director will contact the person and make payment to the person in accordance with the anonymous written instructions.

(c) Minor Recipient: If the intended donation benefits a natural person who is a minor, the Director will make payment in accordance with the Oregon Uniform Transfers to Minors Act, Oregon Revised Statutes (ORS) 126.805 to 126.886.

(d) Non-Profit Group as Recipient: If the intended recipient qualifies as a non-profit group as described in Section 501(c)(3) of the Internal Revenue Code, the Director will make payment only as follows:

(A) Identification of Recipient: The Director will attempt to identify and contact the intended recipient. The intended recipient shall designate in writing an agent, (a natural person) to act on its behalf and to receive the prize payment on behalf of the recipient. The Director shall confirm both the written authorization and the agent. An intended recipient is encouraged to select a bonded agent.

(B) Appearance: The agent shall appear in person at the Lottery Headquarters in Salem to claim the prize payment on behalf of the intended recipient. The Director may confirm to the Director's satisfaction that the agent is authorized to accept the donation in the agent's own name on behalf of the intended recipient.

(C) Signature and Payment: Subsequent to receipt of acceptable identification, along with a completed claim form from the agent, and the Director's review and approval, the agent, in the presence of a duly authorized Lottery official, shall sign the agent's own name on the winning Lottery ticket or share in the place indicated on the ticket or share and immediately return it to the Lottery. The Director shall then make payment to the agent less any applicable tax withholding.

(D) Identification of Donor: If the Director can reasonably identify the donor, the Director shall not make payment as specified above, but shall instead contact the donor and notify the donor to retrieve the Lottery ticket

or share upon presenting acceptable proof of identification. The donor may retrieve the winning ticket or share in person at the Lottery Headquarters in Salem upon the presentation of acceptable proof of identification. The prize, less any applicable tax withholding, will be paid to the donor upon validation of the winning ticket or share.

(e) Win for Life Prize: If the winning Lottery ticket received is a Win for Life top prize of \$1,000 a week for life, the prize paid will be the lump sum guaranteed five year payment under the Win for Life game rules.

(f) Forfeiture of Unclaimed Prize: In the event that the Director is unable to locate the intended recipient or the anonymous donor, the winning Lottery ticket or share shall be retained until the end of the prize claim period. After the end of the prize claim period, the ticket or share shall constitute an unclaimed prize as described in OAR 177-010-0085 and shall be forfeited to the public purpose.

(g) Discharge of Lottery from Liability: The State of Oregon, its agents, officers, employees, and representatives, including but not limited to, the Oregon Lottery, its Director, agents, officers, employees, and representatives, are discharged of all liability upon payment of an anonymously donated prize in accordance with this rule and any applicable game rules to the extent that they do not conflict with this rule. The Lottery is not responsible in any way for the fulfillment or completion of the agreement between the intended recipient and the agent. The Lottery's decisions regarding the determination that a Lottery ticket or share donated anonymously is, or is not, a winning ticket or share or any question or dispute arising from the payment of such a prize is final and binding on all parties. In the event a question or issue arises regarding payment of a prize donated anonymously, the Director may withhold payment until the question or issue is resolved. The Lottery, the intended recipient or custodian, if the intended recipient is a minor, or the designated agent if the intended recipient is a non-profit group, may petition a court of competent jurisdiction for judicial resolution of the matter.

(8) Second Chance Drawing Prize: Sections (6) and (7) of this rule are not applicable to a prize claim from a second chance drawing. Prizes awarded by the Lottery from second chance drawings must be claimed in accordance with the provisions of OAR 177-052-0060 and only the person who submitted the winning entry in a second chance drawing may claim and be paid the prize.

(9) Social Security Numbers: Each United States resident who is to receive a payment of winnings greater than \$600 shall furnish to the Lottery the information required on the Internal Revenue Service Form W-2G (or any other form required by the IRS,) including but not limited to the winner's name, address, and social security number. This disclosure is mandatory and the authority for such disclosure is 42 USC 405(c)(2)(C), 26 CFR 31.3402(q)-1(e), and ORS 461.715(1)(a). A winner's social security number will be used for the purpose of identifying child support obligors and submitting required documents to state and federal tax authorities.

(10) Payment Decisions: The Director shall make the final decision on whether any prize is paid or any annual prize payment is made. All prizes shall be paid within a reasonable time after they are validated, unless the Director delays a prize payment. The Director may, at any time, delay any prize payment in order to review the validity of a prize claim, or review a change of circumstances relative to the prize awarded, the payee, or the claim, or review any other relevant matter that may come to the Director's attention. Except as set forth in OAR 177-098-0060, for any prize requiring annual payments, all payments after the first payment shall be made on the anniversary date of the first payment in accordance with the type of prize awarded. Any delayed annual payment will be brought up to date immediately when payment is authorized by the Director.

Method of Determining Winners

(1) General: Winning tickets in a Scratch-itSM game are determined at the time of manufacture when winning tickets are produced at random with the aid of equipment in accordance with the payout percentage and prize structure established for the game.

(2) Determination of a Winning Ticket: To determine a winning ticket, the official bar code or bar code number printed on the ticket must be scanned or manually entered at the Lottery's Headquarters in Salem, a Lottery Kiosk, other locations designated by the Director, or at a retail site

ADMINISTRATIVE RULES

by a Lottery retailer into equipment connected to the Lottery's central computer system. If the ticket is a winner, Lottery's computer system will identify it as such based upon the official bar code or bar code number. Removing the latex covering on the playing surface of the ticket does not identify a winning ticket. The latex covering feature is offered for entertainment purposes only. The ticket holder must notify the Lottery or a retailer of the apparent winning ticket and submit it for validation as specified in these rules in order to claim a prize. The ticket must be validated in accordance with Lottery's administrative rules as may be amended from time to time before a prize may be paid.

(3) Second Chance Drawings: To determine a winner of a second chance drawing, the Lottery will follow the requirements set forth in OAR 177-052-0050.

(4) Highest Prize: Only the highest prize amount will be paid on a winning Scratch-itSM ticket, except for games which are designed to offer multiple prizes. In all events, the determination of prize winners is subject to the general ticket validation requirements set forth in OAR 177-050-0027 and any additional requirements set forth on each Scratch-itSM ticket. If the terms on a ticket conflict with the Lottery's administrative rules, then the rules are the controlling authority.

(1) Prizes of \$600 or Less: Prizes of \$600 or less from winning Scratch-itSM tickets shall be claimed by one of the following methods:

(a) Retailer Prize Payment: The player may present a winning Scratch-itSM ticket to a Lottery retailer. The retailer shall determine whether the ticket entitles the holder to a prize, validate the claim with the Lottery by scanning the bar code or manually entering the bar code number printed on the ticket into equipment provided by the Lottery, and, if authorized by the Lottery, pay the player the prize amount due. A retailer that is authorized to pay a prize of \$600 or less shall pay that prize in cash or by check, or any combination thereof.

(b) Lottery Prize Payment of \$600 or Less: Upon validation of a winning ticket under OAR 177-050-0027, the Lottery will pay the amount of the prize to the player. Payment may be made by check, cash card, or in cash, or any combination thereof. If the ticket is determined to be invalid or a non-winning ticket, or the claim is invalid, the claim shall be denied and the claimant notified.

(A) Lottery Headquarters: Cash prize payments made at Lottery Headquarters, or other locations designated by the Director, are limited to \$50 per person per day. Any prize payment balance remaining above \$50 shall be paid by check. Payment may be made in person or by mail, except that the Lottery will not mail cash.

(B) Lottery Kiosk: Cash prize payments made at a Lottery kiosk are limited to \$100 per transaction. Any prize payment balance remaining above \$100 shall be paid by cash card.

(C) Prizes by Mail: A winning Scratch-itSM ticket may be submitted to the Lottery by mail. If mailed, the player must sign the ticket, write the player's mailing address on the ticket, and mail it to the Oregon State Lottery, P.O. Box 14515, Salem, Oregon 97309. Registered mail is recommended.

(2) Prizes Greater than \$600: A player must claim a winning Scratch-itSM ticket prize of more than \$600 by:

(a) Claiming in Person: Bringing the ticket to the Oregon State Lottery Headquarters, Player Services Office, 500 Airport Road SE, Salem, Oregon 97301 during Lottery business hours and presenting the ticket to the Lottery. Tickets and shares for prizes may also be presented at other locations and for such prize amounts as designated by the Director, unless the ticket or share specifies that it must be claimed at Lottery Headquarters in Salem, Oregon; or

(b) Claiming by Mail: Signing the ticket, writing the player's mailing address on the ticket, completing a winner claim form, and mailing it together with the winning ticket to the Oregon State Lottery, P.O. Box 14515, Salem, Oregon 97309. Registered mail is recommended. The winner claim form may be obtained from any Lottery retailer offering traditional games, from a Lottery kiosk, from the Lottery Headquarters at the addresses listed above, other locations designated by the Director, or downloaded from the Lottery's website.

(c) Lottery Prize Payment: Upon validation of a winning ticket under OAR 177-050-0027, the Lottery will pay by check the amount of the prize to the player, less any applicable tax withholding. If the ticket is determined to be invalid or a non-winning ticket, or the claim is invalid, the claim shall be denied and the player notified.

(3) Second Chance Drawing Prizes: Prizes awarded by the Lottery from second chance drawings must be claimed in accordance with the provisions of OAR 177-052-0060.

(4) Validation and Payment of Lost, Damaged, or Destroyed Tickets for Prizes Greater than \$600: If a player of a Scratch-itSM prize of more than \$600 cannot submit an intact winning ticket because a Scratch-itSM game retailer lost, damaged, or destroyed the ticket while attempting to perform validation procedures on the game ticket, a prize claim based on the lost, damaged, or destroyed ticket may still be validated provided the claim is made before the end of the one year claim period after the end of the game as described in OAR 177-050-0100.

(a) Player Form and Affidavit: To claim a prize based on a lost, damaged, or destroyed ticket, the player must obtain, complete, and sign a winner claim form and a claim affidavit furnished by the Lottery. The player shall submit the two completed forms along with any other evidence of the validation attempt that is in the player's possession (including, but not limited to, the "This is not a Ticket" slip produced by the terminal at the time of the validation attempt) to the Lottery at the addresses listed in section (1)(b) of this rule, either by mail (registered mail recommended) or in person at the Lottery Headquarters in Salem during Lottery business hours, or other locations designated by the Director.

(b) Evidence: The evidence submitted by the player must corroborate the validation attempt including, but not limited to, identification of the Lottery game retailer or clerk who attempted to validate the prize, the time and date of the validation attempt, the ticket validation number, the terminal number, and the prize amount.

(c) Investigation: The Assistant Director for Security will conduct an investigation to determine if the claim and winning game ticket are valid.

(d) Retailer Affidavit: A retailer who is the subject of an investigation conducted under this section must complete and provide to the Lottery a retailer affidavit form explaining the events in question.

(e) Director's Determination: Based upon all the facts and information available, the Director shall make a determination whether prize payment is warranted and authorized.

(f) Payment of Prize: Upon the Director's determination that the ticket submitted under this section is a valid, winning ticket, and that the player is the proper person to whom a prize is payable, the Lottery shall present or mail a check to the player in payment of the appropriate prize amount less any applicable tax withholding.

(g) Restriction of Payment: Payments of claims submitted under this section are restricted to the prize amount.

(h) Retailer Sanctions: The Director may sanction a Lottery game retailer for the loss, damage, or destruction of a winning Scratch-itSM game ticket including, but not limited to, imposing a requirement for training for the retailer or the retailer's employees, and any other actions that the Lottery may take in response to a retailer's failure to perform contract duties or requirements as described in the Lottery retailer contract.

(i) Notification of Denial: If the ticket is determined to be invalid or a non-winning ticket, or the claim is invalid, the claim shall be denied and the player notified.

(5) Time Limit: A prize claim for a winning Scratch-itSM ticket must be made under this rule within the time limit specified in OAR 177-050-0100. A prize claim from a second chance drawing must be made within the time limit specified in OAR 177-052-0060.

(6) Invalid Tickets: Any ticket not passing all applicable validation checks is invalid and void for claims made under OAR 177-050-0025(3). A player submitting an invalid or void ticket is ineligible for any prize and no prize shall be paid for such a ticket. An invalid ticket will not be returned to the player and is not eligible for any second chance or promotional drawing.

ADMINISTRATIVE RULES

177-050-0027

Ticket Validation Requirements

(1) General: Besides meeting all of the other requirements in OAR Chapter 177 and as may be printed on each ticket, the following validation requirements apply to Scratch-itSM game tickets.

(2) Requirements: Except as provided in section (3) of this rule and OAR 177-050-0025(3), to be a valid Scratch-itSM game ticket, all of the following requirements must be met:

(a) Play Symbols: Where applicable, each of the play symbols must have a play symbol caption underneath, and each play symbol must agree with its play symbol caption.

(b) Legibility: Where applicable, each of the play symbols and play symbol captions must be present in its entirety and be legible.

(c) Specifications: Each of the play symbols and its play symbol caption must be printed according to game specifications.

(d) Completeness of Information: The game number, pack number, ticket number, bar code, bar code number, and VIRN number must be present and all information must correspond with the Lottery's computer records.

(e) Printing Order: The play symbols, play symbol captions, game number, pack-ticket number, and VIRN number must be right-side-up and not reversed in any manner.

(f) Pack-Ticket Number: The ticket must have exactly one pack-ticket number.

(g) VIRN: The VIRN number of an apparent high-tier winning ticket must appear on the Lottery's official record of winning ticket VIRN numbers, and a ticket with that VIRN number must not have been paid previously.

(h) Artwork: Each of the following must correspond to the artwork on file at the Lottery: Play symbols on the ticket, play symbol captions, pack-ticket numbers, display printing, game numbers, retailer validation code, and ticket VIRN number.

(i) Multi-Page Tickets: In the case of Scratch-itSM tickets consisting of multiple pages designed to remain intact, the individual pages must not be detached from each other. Such separated multi-page tickets will be considered damaged tickets.

(3) Lost, Damaged, or Destroyed Tickets for Prizes Greater than \$600: If a player of a Scratch-itSM prize of more than \$600 cannot submit an intact winning ticket because a Scratch-itSM game retailer lost, damaged, or destroyed the ticket while attempting to perform validation procedures on the game ticket, a prize claim based on the lost, damaged, or destroyed ticket may still be validated as set forth in OAR 177-050-0025(3), provided the claim is made before the end of the one year claim period after the end of the game as described in OAR 177-050-0100.

(a) Payment Process: When a prize payment is authorized by the Director under this section, the prize payment shall be validated as set forth in OAR 177-050-0025(3).

(b) Payment Restriction: Payments of prize claims submitted under this section are restricted to the prize amount.

(4) Damaged Tickets: Notwithstanding OAR 177-046-0090 and section (2) of this rule, the Director may pay the prize on a winning Scratch-itSM ticket that is inadvertently or accidentally damaged so that it cannot be validated either through the Lottery's central computer system or because it is missing information required under section (2) of this rule, if the ticket is readable and is validated as a winning ticket by the Lottery's Security Section. For purposes of this rule, a Scratch-itSM ticket is unreadable if there is insufficient information remaining on the ticket for the Lottery's Security Section to reconstruct and validate the ticket.

(a) Validation Process: When a prize payment is authorized by the Director under this section, the prize payment shall be validated as follows:

(A) Evidence: The player shall obtain, complete, and sign a winner claim form and a claim affidavit furnished by the Lottery. The player shall submit the two completed forms along with the damaged ticket, (including, but not limited to, all pages of a game book in the player's possession) to the Lottery at the addresses listed in section OAR 177-050-0025(1)(b), either by mail (registered mail is recommended) or in person at the Lottery's Headquarters in Salem during Lottery business hours, or other locations designated by the Director.

(B) Investigation: The Assistant Director for Security will conduct an investigation to determine if the claim and winning game ticket are valid.

(C) Director's Determination: Based upon all the facts and information available, the Director shall make a determination whether prize payment is warranted and authorized. The Director may require that such determination be made on the last day of the one year claim period following the end of the game, as described in OAR 177-050-0100. If the final date of the

prize claim period falls on a date when the Oregon Lottery Headquarters is not open to the general public, such as a weekend, Lottery holiday, or furlough closure day, the claim period will be extended until 5:00 p.m. on the next day the Oregon Lottery Headquarters is open to the general public. Following validation, the Lottery shall issue the prize payment in the usual course of Lottery business.

(D) Payment of Prize: Upon the Director's determination that the ticket submitted under this section is a valid, winning ticket, and that the player is the proper person to whom a prize is payable, the Lottery shall present or mail a check to the player in payment of the appropriate prize amount less any applicable tax withholding.

(E) Notification of Denial: If the ticket is determined to be invalid or a non-winning ticket or the claim is invalid, the claim shall be denied and the player notified.

(b) Payment Restriction: Payment of a prize claim submitted under this section is restricted to the prize amount less any applicable tax withholding.

Winner Notification and Claiming of Prizes

(1) Second Chance Prize Notification: If the entry is valid, the Lottery will notify the person who submitted the winning entry ("the winner") in a second chance drawing by e-mail. The Lottery may also notify the winner by telephone or by mailing a certified letter through the U.S. Postal Service. The effective date of notification is the date the initial e-mail notification is sent by the Lottery as noted electronically within the Lottery's information processing system.

(2) Time Limits for Claiming Prize: A winner of a second chance drawing has 60 calendar days from the date of the e-mail notification in which to claim the prize. A prize must be claimed by 5:00 p.m. on the last date to claim a prize and if not claimed by that date is an unclaimed prize. If the final date of the claim period falls on a day when the Oregon Lottery Headquarters is not open to the general public, such as a weekend, Lottery holiday, or furlough closure day, the claim period shall be extended until 5:00 p.m. on the next day the Oregon Lottery Headquarters is open to the general public.

(3) Forfeiture of Prize: If the winner of a second chance drawing is determined by the Lottery to be ineligible, the entry is invalid, or the winner fails to claim the prize within 60 calendar days as provided in section (2) of this rule, the prize is treated as an unclaimed prize and the winner forfeits the prize.

(4) Winner Claim Forms: To claim a prize in a second chance drawing, the winner must submit a winner claim form to the Lottery. To be valid, the winner claim form must contain the required information, such as name, address, signature or identifying mark, social security number (if applicable), and a valid reference number. Only the person who submitted the entry may claim the prize (the winner). A second chance drawing prize may not be claimed by multiple owners. A valid winner claim form must be received by the Lottery within the applicable time period for claiming a prize. An invalid winner claim form will not be accepted by the Lottery and will be returned to the claimant. The winner may resubmit a valid claim form as long as the time for claiming the prize has not expired.

(a) Electronic Claim Form: The Lottery may require that the winner submit an electronic winner claim form through the Internet. The electronic winner claim form is received by the Lottery when the form enters the Lottery's information processing system in a retrievable form. The electronic winner claim form will be deemed received at the time and date noted electronically by the Lottery's information processing system. An electronic winner claim form must include the winner's electronic signature that meets the requirements specified by the Lottery on the instructions for the winner claim form.

(b) Paper Claim Form: Unless specified otherwise, the Lottery may permit a winner to submit a paper winner claim form. The paper winner claim form is deemed received by fax to (503) 540-1001 or upon physical delivery to the Oregon State Lottery, Player Services Office, 500 Airport Road SE, Salem, Oregon 97301, or other locations and for such prize

(5) Verification of Identity: The Lottery may require the winner to present valid proof of identity to confirm that the winner is the registered member who submitted the second chance drawing entry. If the Lottery is unable to confirm the person claiming the prize is the registered member, the person is ineligible to receive a prize.

(6) Delivery of Prize: The Lottery may require the winner of a second chance drawing prize to claim the winner's prize at the Oregon State Lottery Headquarters, 500 Airport Road SE, Salem, Oregon 97301, or the Lottery may mail or otherwise deliver the prize to the winner's address if it is within the United States.

177-200-0020 Payment of Video LotterySM Game Cash Slips

(1) Original Cash Slip: Except as set forth in sections (7) and (8) of this rule, an original cash slip is the only valid receipt for claiming prizes or for redeeming credits remaining on a terminal. A copy of a cash slip has no pecuniary or prize value and does not constitute evidence of a cash slip.

(2) Retailer Validation Requirements: A retailer shall pay a cash slip only if:

(a) The cash slip is presented for payment at the retailer location that issued the cash slip.

(b) The individual presenting the cash slip is 21 years of age or older and authorized to play under these rules and Oregon statutes.

(c) The cash slip is presented to the retailer within 28 days of the date it was properly issued.

(d) It is intact and legible and meets all the Lottery's security requirements.

(e) It is not counterfeit, fraudulent, lacking the correct captions, altered, tampered with in any manner, or obtained from the Lottery or Lottery retailer by any fraudulent means.

(f) The information appearing on the cash slip corresponds with the computer record of the cash slip data recorded in the Lottery's central computer system.

(g) It has not been previously paid, and

(h) It is not a prize that must be validated and paid at Lottery Headquarters in Salem, such as a Jackpot Prize.

(3) Retailer Validation Exception: If a cash slip is not intact or legible, the prize or credits that would have otherwise appeared on the cash slip may nevertheless be paid by the retailer as follows:

(a) Software Validation: Upon notification by a player that a Video LotterySM game terminal issued a cash slip that is not intact or legible, the retailer shall obtain a validation number from the terminal. If the retailer is able to obtain a validation number from the terminal that corresponds to the time and amount of the credits claimed by the player, then the retailer shall validate the prize or credits that would otherwise have appeared on the cash slip through the validation terminal and pay the player.

(A) Software Validation Report: If the retailer pays the player pursuant to section (3)(a) of this rule, the retailer must complete a Retailer Software Validation Report signed by the player and the retailer. The retailer must retain the report for one year. The retailer must group the reports by month and must make them available for audit by the Lottery immediately upon request. The retailer must retain and attach the damaged or illegible cash slips to the reports.

(B) Validation Number Unavailable: If the retailer is unable to obtain a validation number from the terminal that corresponds to the time and amount of the credits claimed by the player as required by subsection (3)(a), the player may request payment of the cash slip from the Lottery as provided in section (8) of this rule.

(b) Jackpot Prize Cash Slip Not Issued, Intact, or Legible: If a cash slip for a Jackpot Prize is not intact or legible, the player and the retailer must complete a Video Problem Report form, attach the cash slip or all available portions of the cash slip to the form if available, and must submit the form and the cash slip to the Lottery for investigation. The Jackpot Prize may be paid as set forth in section (7) and (8) of this rule.

(4) Limitation on Retailer Validation and Payment of Cash Slip: A retailer must not attempt to validate, and may not pay, a cash slip for any Jackpot Prize. A retailer shall only validate and pay non-Jackpot Prize cash slips issued by Video LotterySM game terminals located on its premises.

(5) Retailer Payment of Cash Slip: Upon validation of a cash slip as set forth in sections (2) and (3) of this rule, a retailer may pay the amount due in cash or check, or any combination thereof. A retailer must not pay a cash slip in tokens, chips, or merchandise, or charge a fee for paying a cash slip or for issuing payment.

(a) Dishonored Retailer Check: If a retailer's check is dishonored, the player may seek payment from the Lottery by presenting a copy of the dishonored check to Lottery Headquarters, Player Services Office, 500 Airport Road SE, Salem, Oregon during Lottery business hours, other locations designated by the Director, or by mailing a copy of the dishonored check with a winner claim form to Lottery Headquarters, P.O. Box 14515, Salem, Oregon 97309. If the Lottery determines that payment of the cash slip is authorized, the retailer has not paid the cash slip, and it is unlikely that the retailer will pay the cash slip, the Lottery may then issue a check to the claimant in the amount of the cash slip. Lottery may require submission of the original check issued by the retailer prior to making payment to the player.

(b) Possible Contract Termination: A retailer that pays a cash slip with a check that is dishonored may be subject to termination of the Lottery Retailer Contract.

(6) Lottery Validation and Payment of Cash Slips: Payment of a cash slip may be made at Lottery Headquarters, Player Services, 500 Airport Road SE, Salem, Oregon. Cash slips may also be presented at other locations and for such prize amounts as designated by the Director, unless the cash slip specifies that it must be claimed at Lottery Headquarters in Salem, Oregon. Validation and payment of a cash slip for a Jackpot Prize must be made at Lottery Headquarters in Salem. The cash slip must be presented for payment no sooner than the next Lottery business day after it is issued, must meet all of the requirements in sections (1) and (2) of this rule, and must be delivered to the Lottery in person or by mail at P.O. Box 14515, Salem, Oregon 97309 (registered mail recommended) before 5:00 P.M. within one year of the date that the cash slip was issued. If the final day of the one-year claim period falls on a day when the Oregon Lottery Headquarters is not open to the general public, such as a weekend, Lottery holiday, or furlough closure day, the claim period shall be extended until 5:00 p.m. on the next day the Oregon Lottery Headquarters is open to the general public. Upon validation of a cash slip, the Lottery will pay the amount due less any applicable tax withholding. For cash slips of \$600 or less, payment may be made by check, cash card, or any combination thereof. For cash slips of more than \$600, payment will be made by check. Payment may be made in person or by mail.

(7) Lack of Cash Slip or Validation Number: If a player does not have a cash slip, or a retailer was unable to obtain a validation number, the Lottery will conduct an investigation of a claim presented for payment to the Lottery. The investigation will determine the reasons or causes for the failure of the terminal to produce a cash slip or to print an intact and legible cash slip, and why the retailer was unable to obtain a validation number.

(a) Payment: The Lottery may pay the claim if the Lottery can determine from its investigation that the credit was on the terminal identified by the player at the time claimed, and that no cash slip has been paid on the claim.

(b) Signed Statement: The Lottery will not pay any such claim without a signed statement by a player. The player's statement must contain game play information that can be compared to data in the Lottery's central computer system that substantiates that the player won a prize in the amount and at the time claimed, and information from which the Lottery reasonably can determine that the claim has not been paid.

ADMINISTRATIVE RULES

(c) **Jackpot Prize:** The Lottery will not pay the claim for a Jackpot Prize without receipt of a Video Problem Report form as described in section (3)(b) of this rule.

(8) **Lottery Validation Exceptions:** If a cash slip cannot be validated because the cash slip data is not recorded on the Lottery's central computer system, the Director may still authorize payment if:

(a) The Lottery conducts an investigation of the claim, and

(b) The Director concludes that the claimant was an authorized player and that the absence of a record of the cash slip data in the Lottery's central computer system was the result of either a technical problem in the Video LotterySM game terminal or a communications problem that prevented the recording of the credits in the Lottery's central computer system.

(9) **Subsequent Claims:** If a cash slip improperly paid by a retailer is later submitted for payment to the Lottery, the Lottery may collect the amount of the cash slip from the retailer's EFT account. The Lottery may conduct an investigation to determine if the Lottery properly made payment.

(10) **Withholding of Payment:** The Lottery may withhold payment of any cash slip claim presented to it until the expiration of the 28-day prize claim period at the retailer's location for prizes payable by the retailer or until the completion of any investigation by the Lottery to determine if payment is proper.

and Foster Care Provider applicants may still appeal a fitness determination by requesting a contested case hearing.

Rules Coordinator: Winifred Skinner—(503) 373-7570

416-800-0000

Purpose

(1) The Oregon Youth Authority (OYA) seeks to ensure the security and safety of the offenders in its care and custody. OYA values excellence in public service, partnerships with local communities and other agencies, openness and accountability and provision of service in a fair, respectful, and humane manner. As a state agency, OYA employees serve as public officials. As public officials, OYA employees must adhere to ethics and boundaries described in statute and agency policy. OYA expects its Volunteers, contractors, and Foster Care Providers to also maintain these ethics and boundaries.

(2) These rules control how OYA accesses Criminal Offender Information about a Subject Individual through Criminal Records Checks and its use of that information to determine whether the Subject Individual is fit to provide services to OYA as an employee, Volunteer, Foster Care Provider, contractor, or vendor. The fact that OYA approves a Subject Individual as fit does not guarantee the individual a position as an OYA employee, Volunteer, Foster Care Provider, contractor, or vendor.

Rule Caption: Provides process and procedures for the award of Veterans and War Memorial Grants.

Adm. Order No.: PRD 2-2015

Filed with Sec. of State: 10-1-2015

Certified to be Effective: 10-1-15

Notice Publication Date: 6-1-2015

Rules Amended: 736-017-0005, 736-017-0010, 736-017-0020

Subject: 736-017-0005: The rules changes required clarification of definitions to match the changes in the rule. Government entity will have the same meaning throughout the rules. Project sponsor clarifies the statute requirement of being a local or regional government, this is more specific than Government Entity. Public Property is specified for the purposes of this program.

736-017-0010: Changes the rules of the Veterans and War Memorial grant review committee to be a committee with experts in the field of veterans affairs, memorials, memorial preservation. Removes grant application review and selection from the Oregon Parks and Recreation Department Local Government Grant Committee.

736-017-0020: The rule change expands siting of Veterans and War Memorials associated with the grant to any public property owned by a government entity. Previously was limited to local or regional government owned properties. The rule now requires a 25 year agreement between the project sponsor (local or regional government) and the public property owner, if it is a different owner.
