# INFORMATION ABOUT ADMINISTRATIVE RULES

## General Information

The Administrative Rules Unit, Archives Division, Secretary of State publishes the Oregon *Administrative Rules Compilation* and the online *Oregon Bulletin*. The *Oregon Administrative Rules Compilation* is an annual print publication containing complete text of Oregon Administrative Rules (OARs) filed through November 15 of the previous year. The *Oregon Bulletin* is a monthly online supplement that contains rule text adopted or amended after publication of the print Compilation, as well as Notices of Proposed Rulemaking and Rulemaking Hearing. The Bulletin also includes certain non-OAR items when they are submitted, such as Executive Orders of the Governor, Opinions of the Attorney General and Department of Environmental Quality cleanup notices.

## Background on Oregon Administrative Rules

ORS 183.310(9) defines “rule” as “any agency directive, standard, regulation or statement of general applicability that implements, interprets or prescribes law or policy, or describes the procedure or practice requirements of any agency.” Agencies may adopt, amend, repeal or renumber rules, permanently or temporarily (up to 180 days), using the procedures outlined in the *Oregon Attorney General’s Administrative Law Manual*. The Administrative Rules Unit assists agencies with the notification, filing and publication requirements of the administrative rulemaking process.

## OAR Citations

Every Administrative Rule uses the same numbering sequence of a three-digit chapter number followed by a three-digit division number and a four-digit rule number (000-000-0000). For example, Oregon Administrative Rules, chapter 166, division 500, rule 0020 is cited as OAR 166-500-0020.

## Understanding an Administrative Rule’s “History”

State agencies operate in an environment of ever-changing laws, public concerns and legislative mandates which necessitate ongoing rulemaking. To track changes to individual rules and organize the original rule documents for permanent retention, the Administrative Rules Unit maintains history lines for each rule, located at the end of the rule text. OAR histories contain the rule’s statutory authority, statutes implemented and dates of each authorized modification to the rule text. Changes are listed chronologically in abbreviated form, with the most recent change listed last. In the history line “OSA 4-1993, f. & cert. ef. 11-10-93,” for example, “OSA” is short for Oregon State Archives; “4-1993” indicates this was 4th administrative rule filing by the Archives in 1993; “f. & cert. ef. 11-10-93” means the rule was filed and certified effective on November 10, 1993.

## Locating Current Versions of Administrative Rules

The online version of the OAR Compilation is updated on the first of each month to include all rule actions filed with the Administrative Rules Unit by the 15th of the previous month. The annual printed OAR Compilation volumes contain text for all rules filed through

November 15 of the previous year. Administrative Rules created or changed after publication in the print Compilation will appear in a subsequent edition of the online Bulletin. These are listed by rule number in the Bulletin’s OAR Revision Cumulative Index, which is updated monthly. The listings specify each rule’s effective date, rule-making action, and the issue of the Bulletin that contains the full text of the adopted or amended rule.

## Locating Administrative Rule Publications

Printed volumes of the Compilation are deposited in Oregon’s Public Documents Depository Libraries listed in OAR 543-070-0000. Complete sets and individual volumes of the printed OAR Compilation may be ordered from the Administrative Rules Unit, Archives Division, 800 Summer Street NE, Salem, Oregon 97301, (503) 373-0701.

## Filing Administrative Rules and Notices

All hearing and rulemaking notices, and permanent and temporary rules, are filed through the Administrative Rules Unit’s online filing system. To expedite the rulemaking process, agencies are encouraged to file a Notice of Proposed Rulemaking Hearing specifying hearing date, time and location, and to submit their filings early in the submission period. All notices and rules must be filed by the 15th of the month to be included in the next month’s Bulletin and OAR Compilation postings. Filings must contain the date stamp from the deadline day or earlier to be published the following month.

## Administrative Rules Coordinators and Delegation of Signing Authority

Each agency that engages in rulemaking must appoint a rules coordinator and file an Appointment of Agency Rules Coordinator form with the Administrative Rules Unit. Agencies that delegate rule-making authority to an officer or employee within the agency must also file a Delegation of Rulemaking Authority form. It is the agency’s responsibility to monitor the rulemaking authority of selected employees and keep the forms updated. The Administrative Rules Unit does not verify agency signatures as part of the rulemaking process.

## Publication Authority

The Oregon Bulletin is published pursuant to ORS 183.360(3). Copies of the original Administrative Orders may be obtained from the Archives Division, 800 Summer Street, Salem, Oregon, 97310; (503) 373-0701. The Archives Division charges for such copies.

The official copy of an Oregon Administrative Rule is contained in the Administrative Order filed at the Archives Division. Any discrepancies with the published version are satisfied in favor of the Administrative Order.

## EXECUTIVE ORDER 15 - 17

### PROCLAMATION OF STATE OF EMERGENCY REGARDING EFFECTS OF WILDFIRE AND DELEGATION OF AUTHORITY TO SUSPEND ADMINISTRATIVE RULES THAT PREVENT, HINDER OR DELAY MITIGATION OF THE EFFECTS OF WILDFIRES

Pursuant to ORS 401.165, I find that a state of emergency exists in areas of the State ravaged by wildfires with respect to the removal of debris, disposal efforts and septic systems of repairs.

I have previously invoked the Emergency Conflagration Act for the following counties:

On July 30, 2015, I issued Executive Order 15-12 for the Stouts Creek Fire in Douglas County;

On August 13, 2015, I issued Executive Order 15-13 for the Cornet and Windy Ridge fires in Baker County;

On August 14, 2015, I issued Executive Order 15-14 for the Canyon Creek Complex fire in Grant County;

On August 20, 2015, I issued Executive Order 15-15 for the Grizzly Bear Complex fire in Wallowa County; and,

On August 25, 2015, I issued Executive Order 15-16 proclaiming a state of emergency due to imminent threat of wildfire in Oregon.

In consultation with the Department of Environmental Quality (DEQ), I have determined that debris removal and disposal efforts and septic system repairs or replacements in the above-described counties affected by wildfires are being inhibited by certain state permitting requirements, and that this inhibition has occasioned a state of emergency in these counties. Based on the information I have received from DEQ and Oregon Emergency Management, and in accordance with my authority under ORS 401.168(2), I find that strict compliance with certain DEQ rules would prevent, hinder or delay mitigation of the effects of this emergency.

### NOW, THEREFORE, IT IS HEREBY DIRECTED AND ORDERED:

1. Pursuant to ORS 401.035, I delegate to the Director of DEQ the authority conferred under ORS 401.168(2) to issue emergency orders that temporarily suspend such DEQ rules as the Director determines to be necessary in order to make possible or to expedite DEQ-approved operations in response to the wildfire damage in the above-named counties, and to protect public health, safety and the environment during those operations.

The Director of DEQ shall consult with the Governor's Natural Resources Office prior to issuing any order temporarily suspending a DEQ rule pursuant to the authority provided in this Executive Order. The Director of DEQ shall provide a written report to the Governor's Natural Resources Office and to the Environmental Quality Commission concerning the nature and basis of any emergency order issued pursuant to this Executive Order.

The authority delegated by this Executive Order will automatically terminate January 1, 2017, unless otherwise extended or terminated by supplemental Executive Order.

Done at Salem, Oregon, this 10th day of September, 2015.

## EXECUTIVE ORDER NO. 15 - 18

### ADOPTING THE OREGON SAGE-GROUSE ACTION PLAN AND DIRECTING STATE AGENCIES TO IMPLEMENT THE PLAN IN FULL

Whereas the U.S. Fish and Wildlife Service (USFWS) determined in 2010 that listing the greater sage-grouse (sage-grouse) under the federal Endangered Species Act (ESA) was "warranted but precluded";

Whereas the USFWS will make a new listing determination for sage-grouse in 11 western states later this year;

Whereas it is plainly in Oregon's best interests to ensure that the significant investments that Oregon ranchers, communities, tribes, non-governmental organizations, and others have made in sage-grouse conservation are supported, such that economic prosperity and a healthy environment occur hand-in-hand in Eastern Oregon;

Whereas the principal threats to sage-grouse habitat in Oregon are wildfire, invasive weeds, and the spread of juniper;

Whereas the Harney County Soil and Water Conservation District (Harney SWCD) and other SWCDs, local governments and landowners have developed candidate conservation agreements with assurances (CCAA), which provide for ranching operations on non-federal lands to continue in ways that provide for both long-term economic stability and sage-grouse conservation;

Whereas the Oregon Cattlemen's Association has developed a candidate conservation agreement (CCA) for grazing allotments on Bureau of Land Management (BLM) lands that supports the CCAAs developed for non-federal lands, and the federal Natural Resources Conservation Service (NRCS) has committed substantial funding for the conservation measures contained in CCAAs including strategic removal of juniper;

Whereas the CCAAs and the CCAs ensure that grazing operations in Oregon will be managed in a way that is consistent with sage-grouse conservation;

Whereas the Oregon Watershed Enhancement Board has committed to investing at least ten million dollars in priority Sage-Grouse conservation measures over the next ten years, including juniper management;

Whereas Oregon has a long-standing system of Rangeland Fire Protection Associations (RFPAs) that are often first responders to rangeland fires, and the number, enrollment and geographic extent of RFPAs continues to grow and now covers most sage-grouse habitat;

Whereas the Oregon Legislature has appropriated new funding to improve the capacity and effectiveness of RFPAs, along with other investments that address wildfire in sage-grouse habitat;

Whereas the Oregon Legislature also has appropriated significant new funding to help manage invasive weeds and reduce juniper encroachment in sage-grouse habitat;

Whereas ranching is the major economic base for the area of Oregon occupied by sage-grouse, and mining and renewable energy development present important long-term opportunities for economic development and job creation in this area of Oregon;

## EXECUTIVE ORDERS

Whereas significant outdoor recreation including hunting, wildlife viewing, and hiking occurs in and depends on high-quality habitat in the areas of Oregon occupied by sage-grouse, and these activities provide additional economic, social, and other public benefits to Oregonians;

Whereas a federal ESA listing of the sage-grouse in the absence of a state plan likely would interfere with opportunities for future economic development in Eastern Oregon and could threaten the ranching industry in ways that would have significant adverse economic and social effects on Oregon citizens, businesses, and communities;

Whereas the Oregon Department of Fish and Wildlife has established population and habitat goals for the sage-grouse in Oregon that include:

- A population goal to maintain or enhance sage-grouse abundance and distribution at the 2003 spring breeding population level, approximately 30,000 birds, over the next 50 years; and
- A habitat goal to retain at least 70% of sage-grouse range as sagebrush habitat in advanced structural stages—sagebrush class 3, 4, or 5, with an emphasis on classes 4 and;

Whereas the Oregon Department of Fish and Wildlife adopted an updated conservation strategy for sage-grouse in 2011;

Whereas the Oregon Fish and Wildlife Commission has adopted supplemental rules to guide sage-grouse conservation and compensatory mitigation for impacts to sage-grouse habitat;

Whereas the Oregon Land Conservation and Development Commission (LCDC), working closely with county governments and others, has adopted new rules designed to steer future development away from important sage-grouse habitat—supplementing Oregon's already strong land-use system that generally directs most development to urban areas;

Whereas the Oregon Sage-Grouse Action Plan has been developed collaboratively through the work of the SageCon Partnership over the last three years, involving landowners, non-governmental organizations, local governments, and state and federal agencies;

Whereas the State of Oregon has worked closely with the federal Bureau of Land Management (BLM) to align the Oregon Sage-Grouse Action Plan with many elements of the new Resource Management Plans for the five BLM districts within Oregon;

Whereas the Oregon Sage-Grouse Action Plan, the BLM Resource Management Plans, and the CCAAs and CCAs entered into by private landowners effectively align conservation strategies for sage-grouse and management of sagebrush habitats across private and public lands across all sage-grouse habitat in Oregon; and

Whereas, effective implementation of conservation strategies and actions associated with the Oregon Sage-Grouse Action Plan will require engagement, functional alignment, and coordination across state, federal, tribal and private land ownership boundaries among all stakeholders to realize the social, economic and ecological benefits of a comprehensive approach to sage-grouse conservation and rangeland health.

### **NOW THEREFORE, IT IS HEREBY DIRECTED AND ORDERED THAT:**

1. The Oregon Sage-Grouse Action Plan is adopted as the plan for the conservation of sage-grouse in Oregon.
2. All state agencies shall carry out the actions described in the Oregon Sage-Grouse Action Plan to the full extent of their authorities and funding.

3. Specifically, and without limitation to the foregoing paragraph 2, the following actions shall be taken:

A. The Oregon Department of Forestry (ODF) shall provide technical and financial support to RFPAs to improve their capacity and effectiveness in controlling and limiting the adverse effects of rangeland fire on sage-grouse habitat on both federal and non-federal lands. Working collaboratively with RFPAs and the BLM, ODF shall develop a Memorandum of Agreement to assist in the coordination of rangeland firefighting and to protect the safety of those participating in such efforts.

B. The Oregon Department of Land Conservation and Development (DLCD) shall maintain a central registry of development on all lands within sage-grouse habitat in coordination with the BLM and county governments that both establishes the baseline level of development within each Priority Area for Conservation (PAC) and that tracks the location and geographic extent of new development in each PAC over time.

C. DLCD shall have the responsibility to coordinate the actions of Oregon agencies in implementing the Sage-Grouse Action Plan, under the supervision of my Natural Resources Office (GNRO).

D. All state agencies that carry out, fund, or permit actions within sage-grouse habitat—including but not limited to the Oregon Water Resources Department, the Oregon Department of Transportation, the Department of State Lands, the Department of Geology and Mineral Industries, the Oregon Department of Energy (ODOE) and the Energy Facility Siting Council, the Oregon Watershed Enhancement Board (OWEB), the Oregon Department of Agriculture, the Oregon Parks and Recreation Department, and the Department of Environmental Quality shall adopt or update their state agency coordination plans and agreements with DLCD pursuant to ORS 197.180 and OAR Chapter 660, Division 30 to ensure that such actions comply with the LCDC Sage-Grouse Conservation Rules (OAR 660-023-0115) adopted to implement LCDC Goal 5 (Significant Natural Resources). State agency actions affecting land use also shall be consistent with the ODFW Sage-Grouse Mitigation Rules adopted at OAR 635-0140-0000 thru 635-140-0025. To the extent that an agency's regulatory program needs to be updated to be consistent with the LCDC and ODFW rules, the agency shall complete that updating by no later than July 1, 2016.

E. ODFW, working with the BLM and other federal, state, and local entities, shall have the responsibility to coordinate mitigation for impacts to sage-grouse and sage-grouse habitat in a manner consistent with the Sage-Grouse Action Plan and the agency's mitigation rules at OAR 635-140-0000 thru 635-140-0025. ODFW shall also work with ODOE, OWEB, Business Oregon, and other relevant state, federal, local, private and non-governmental entities to evaluate approaches and mechanisms for funding advance mitigation, with the intent of ensuring sage-grouse mitigation credits are available in the State's in-lieu fee program and facilitate responsible economic development in the range of the sage-grouse.

F. DLCD, in cooperation with ODFW local governments and the counties shall prepare a report on at least a biennial basis beginning on July 1, 2016, providing information regarding the status and trends of work to reduce threats to sage-grouse and sage-grouse habitat, including but not limited to work to reverse the spread of juniper and invasive plant species, work to improve pre- and post-fire resilience, the amount of direct development in each PAC over the preceding two years, the amount and types of compensatory mitigation, the results of surveys of sage-grouse population and habitat condition and trends, areas and/or elements where the Sage-Grouse Action Plan is and is not functioning as

# EXECUTIVE ORDERS

intended, and recommendations for improving the efficacy of the Sage-Grouse Action Plan. DLCD also shall include in the report an evaluation of the economic effects of implementation of the Sage-Grouse Action Plan on communities within sage-grouse habitat.

G. OWEB shall work with the NRCS, ODFW, and my Natural Resources Office to assure that its funding commitments are directed to supporting actions that reflect the priorities identified in the Sage-Grouse Action Plan, and that monitoring of the effectiveness of these investments is sufficient to evaluate overall Plan effectiveness and adapt the Plan as appropriate.

H. DLCD and ODFW, working with my Natural Resources Office, in cooperation with other participants, shall develop by July 1, 2016 one or more memoranda of agreement between federal agencies, state agencies, local governments, and other partners that establish:

i. How the BLM, DLCD and the counties will coordinate their administration of the central registry of large-scale development within sage-grouse habitat;

ii. How ODFW will coordinate administration of the landscape-level mitigation program for sage-grouse with the BLM, USFWS, counties, and other partners;

iii. How ODFW will ensure early, efficient and constructive participation of its staff in local permit reviews of projects subject to Oregon Administrative Rules, Chapter 660, Division 30, or other applicable local ordinances where a county has adopted its own land use regulations implementing that rule; and

iv. How state and federal agencies will align their conservation investment priorities and programs for sage-grouse in cooperation with local governments, tribes, landowners, conservation organizations, and other stakeholders.

I. Every two years, beginning in May of 2016, DLCD, ODFW and OWEB shall prepare a proposed budget for the coming biennium that identifies and prioritizes resources required to continue the successful implementation of the Oregon Sage-Grouse Action Plan.

J. In the event of any inter-agency disputes regarding the administration of the Sage-Grouse Action Plan or this executive order, the agencies involved shall first attempt to resolve the dispute at the line staff level. If line staff are unable to resolve the dispute, the matter shall be elevated to the directors of the agencies. If the agency directors are unable to resolve the dispute, the matter shall be elevated to my Natural Resources Policy Advisor for resolution.

K. In the event that the USFWS determines that a listing of sage-grouse as threatened under the ESA is warranted, ODFW, DLCD, and my Natural Resources Office shall work with the USFWS to develop and implement a federal protective regulation under section 4(d) of the ESA (16 U.S.C. § 1533(d)) such that the "take" prohibition of the ESA will not apply to the sage-grouse-related impacts in Oregon from specified activities addressed by the Oregon Sage-Grouse Action Plan so long as Oregon is fully implementing Action Plan provisions specific to those activities.

This Executive Order shall remain in effect until it is otherwise modified, amended or terminated.

## EXECUTIVE ORDER NO. 15 - 19

### DETERMINATION OF A STATE OF DROUGHT EMERGENCY IN MARION COUNTY DUE TO DROUGHT, LOW SNOW PACK LEVELS, AND LOW WATER CONDITIONS

At the request of Marion County (by Resolution No.15R-46, dated September 3, 2015) and based on the recommendations of the Drought Council and the Water Availability Committee, and pursuant to ORS 401.165 and ORS 536.740, I find the continuing dry conditions, low snowpack, and lack of precipitation have caused a severe, continuing drought to exist in Marion County, which have led to natural and economic disaster conditions in Marion County.

Projected forecasts are not expected to alleviate the severe drought conditions, and the drought is having significant economic impacts on agricultural and natural resources in Marion County.

The dry conditions present hardships for communities: recreational investments are impacted; agricultural investments are at risk; animals and plants that rely on Oregon's surface water supplies are threatened; and the risk of wildfires across the state is greatly increased. Current conditions are being monitored and analyzed by state agencies including the Department of Agriculture, the Department of Water Resources, and the Oregon Office of Emergency Management.

A timely response to the severe drought conditions is vital to the safety of persons and property and economic security of the citizens and businesses of Marion County; I am therefore declaring that a severe, continuing drought emergency exists in Marion County, and directing the following actions.

#### IT IS HEREBY ORDERED AND DIRECTED:

I. The Oregon Department of Agriculture is directed to coordinate and provide assistance in seeking federal resources to mitigate drought conditions and assist in agricultural recovery in Marion County.

II. The Department of Water Resources and the Water Resources Commission are directed to coordinate and provide assistance to water users in Marion County as they determine is necessary and appropriate in accordance with ORS 536.700 to 536.780.

III. The Office of Emergency Management is directed to coordinate and assist as needed with assessment and mitigation activities to address current and projected conditions in Marion County.

IV. All other state agencies are directed to coordinate with the above agencies and to provide appropriate state resources as determined necessary to assist affected political subdivisions and water users in Marion County.

V. This Executive Order expires on December 31, 2015.

### **DETERMINATION OF STATE OF EMERGENCY IN BAKER AND GRANT COUNTIES, DUE TO WILDLAND FIRES BEGINNING AUGUST 10, 2015**

Pursuant to ORS 401.065, I find that severe wildland fire damage, which began August 10, 2015 and continues to this day, has created a threat to life, safety and property in Baker and Grant Counties. Extensive wildland fires, exacerbated by heat, high winds, and drought, resulted in significant damage to the state roads on the federal-aid highway system. Damage may have also occurred on the local federal-aid roads within these counties. The current estimate to the state highway system in these counties totals \$2,500,000.

### **NOW THEREFORE IT IS HEREBY ORDERED AND DIRECTED:**

The Oregon Department of Transportation shall provide appropriate assistance and seek federal resources to effect repair and reconstruction of the federal aid highway system in Baker and Grant counties.

## OTHER NOTICES

### REQUEST FOR COMMENTS PROPOSED AMENDMENT TO PROSPECTIVE PURCHASER AGREEMENT FOR TROUTDALE REYNOLDS INDUSTRIAL PARK

**COMMENTS DUE:** 5 pm, Monday, Nov 2, 2015

**PROJECT LOCATION:** 5100 NW Sundial Road, Troutdale

**PROPOSAL:** The Department of Environmental Quality seeks comments on its proposed amendment to the consent judgment prospective purchaser agreement with the Port of Portland for real property located at 5100 NW Sundial Road, Troutdale, Ore. The amendment 1) clarifies that land under a portion of the Sundial Road right of way is part of the agreement; 2) specifies that notice to occupants and workers is to be accomplished by providing a copy of the Contaminated Material Management Plan; 3) expands the scope of liability release from the allowed by the original 1995 statute (ORS 465) to also include protections afforded by statutory amendments passed in 2011 (ORS 466 and 468B); 4) clarifies that DEQ and Port intend the consent judgment be construed as a judicially approved settlement, adding language from the current consent judgment template that was developed subsequently to entry of the original agreement.

DEQ created the prospective purchaser agreement program in 1995 through amendments to the state's Environmental Cleanup Law. The prospective purchaser agreement is a tool that expedites the cleanup of contaminated property and encourages property transactions that would otherwise not likely occur because of the liabilities associated with purchasing a contaminated site.

The proposed amendment to consent judgment prospective purchaser agreement will expand the Port's release from liability for claims by the State of Oregon under ORS 465.200 to 465.545 and 465.990 to also include protection under 466.640 and 468B.310, regarding existing hazardous substance releases at or from the property. The proposed amended consent judgment will also expand the Port of Portland's third party liability protection.

**HOW TO COMMENT:** Send comments to DEQ Project Manager Erin McDonnell at 700 NE Multnomah, Suite 600, Portland, OR 97232 or [mcdonnell.erin@deq.state.or.us](mailto:mcdonnell.erin@deq.state.or.us). For more information contact the project manager at 503-229-6900.

### DEQ PROPOSES CONDITIONAL NO FURTHER ENVIRONMENTAL ACTION WEYERHAEUSER — BLY SHOP, BLY, OREGON

**COMMENTS DUE:** October 30, 2015

**PROJECT LOCATION:** Tax Lot 100, Bly, Oregon

**PROPOSAL:** DEQ proposes to make a conditional no further action determination for petroleum contamination found in shallow soil and groundwater from a truck fueling and maintenance shop that occupied the site until 1992.

**BACKGROUND:** The Oregon Department of Environmental Quality recently reviewed information about petroleum contamination on the former Weyerhaeuser Bly Shop property. The site was operated as a truck fueling and maintenance shop. Petroleum lubricants, fuels, and limited chlorinated solvents were used and incidentally spilled at the site. Site cleanup spanned three years, between 2011 and 2013. Soil was removed from the former shop and fuel storage areas and treated on site.

A small amount of petroleum contamination remains in shallow soil and groundwater at the site, and off-site migration of contaminants is unlikely. DEQ has concluded that residual contaminant levels are low and do not threaten human health or the environment.

DEQ believes that cleanup efforts at the Bly Shop have been adequate and no further action is needed to investigate or clean up this property. To ensure that future development of the former Bly Shop property does not lead to unanticipated contaminant exposure, DEQ will impose the following conditions on current and future owners of the property:

1. Current property owner has recorded a DEQ-approved Easement and Equitable Servitude against the deed on the property.

2. Current and future property owners will refrain from use of shallow groundwater on the property.

3. Current and future property owners will maintain fencing around the property.

4. Current and future property owners will follow the DEQ-approved Contaminated Media Management Plan for any excavation work performed on the property.

The basis for DEQ's findings is provided in a memorandum that can be downloaded by entering site ID #661 into DEQ's online database at <http://www.deq.state.or.us/lq/ECSI/ecsi.htm>.

DEQ also proposes to list this site on its Inventory of contaminated sites to document the long-term implementation of an institutional control for final remedial action.

**HOW TO COMMENT:** Written comments must be received by October 30, 2015. Comments should be submitted to DEQ's Eugene office, 165 East 7th Street, Eugene, Oregon 97401 or by e-mail at [aitken.greg@deq.state.or.us](mailto:aitken.greg@deq.state.or.us). Questions may also be directed to Greg Aitken by phone at (541) 687-7361.

**THE NEXT STEP:** DEQ will consider all public comments before taking final action on this matter. A public meeting will be held to receive verbal comments on the proposed cleanup action upon written request by ten or more persons, or by a group with ten or more members.

### REQUEST FOR COMMENTS DETERMINATION THAT CONTAMINATED SOIL GENERATED DURING REMEDIATION IS A CORRECTIVE ACTION MANAGEMENT UNIT (CAMU) ELIGIBLE WASTE FOR MERCER INDUSTRIES

**COMMENTS DUE:** 5 p.m., October 30, 2015

**PROJECT LOCATION:** 10760 SW Denny Rd, Beaverton

**PROPOSAL:** the Department of Environmental Quality (DEQ) requests public comment on its proposed decision regarding soil at the property located at 10740 SW Denny Rd, Beaverton, Oregon (Mercer Property). The soil remedial action would be subject to a corrective action management unit (CAMU) determination for treatment and disposal of the contaminated soil at the Chemical Waste Management (CWM) Subtitle C landfill in Arlington, Oregon.

CAMU-eligible wastes are defined in 40 Code of Federal Regulations (CFR) 264.552(a)(1)(i) as: "all solid and hazardous wastes, and all media including groundwater, surface water, soils and sediments and debris, that are managed for implementing cleanup." The DEQ Regional Administrator with regulatory oversight where remediation is taking place may approve placement of CAMU-eligible wastes in a hazardous waste landfill provided the waste meets the appropriate

## OTHER NOTICES

treatment standards. The proposed treatment would involve stabilization of the soil to reduce the leachability of contaminants to regulatory thresholds, if feasible, or the lowest feasible leachate concentrations. The treated soil would then be landfilled at the CWM facility in Arlington, Oregon.

**HIGHLIGHTS:** Mercer Industries manufactured wooden windows and some were treated in an above-ground dip tank containing 95% mineral spirits and 5% pentachlorophenol between approximately 1970 and 1985. The ground surface immediately surrounding the dip tank drained to a shallow dry well nearby and caused subsurface soil and groundwater contamination.

### REQUEST FOR COMMENTS PROPOSED NO FURTHER ACTION FOR PECO EAST PLANT AND SOUTH LOT

**COMMENTS DUE:** 5 p.m., Monday, Nov. 2, 2015

Project location: 4784 SE 17th Avenue and 4855 SE 18th Ave., Portland, Oregon

**PROPOSAL:** DEQ is soliciting public comments on the proposed no further action determination for the East Plant and South Lot parcels of the PECO site. DEQ has approved cleanup actions at the East Plant, and determined that contamination at the South Lot does not pose a risk. This proposed determination meets the requirements of Oregon Administrative Rules Chapter 340, Division 122, and Chapter 340 Division 122, Sections 010 to 0140 for Cleanup Sites; and ORS 465.200 through 465.455.

**HIGHLIGHTS:** The East Plant and South Lot parcels are located in an industrialized area of southeast Portland. East Plant is approximately two acres in size, and occupied by a large industrial building. South Lot is 1.4 acre and contains a 3,000 square foot office/warehouse. Both parcels have been owned and used by PECO since the 1960s. DEQ identified soil, soil vapor, and groundwater contamination beneath the East Plant from historical solvent releases. Under a 2012 DEQ Record of Decision, soil vapor extraction and in-situ groundwater treatment were completed to address the contamination. Treatment was effective, and residual contaminant concentrations are below cleanup values for industrial exposure. Sampling of soil and groundwater at the South Lot in 2004 did not identify significant soil or groundwater contamination, and the parcel was not included in the 2012 Record of Decision. Based on this information, DEQ proposes a no further action determination for both parcels.

**HOW TO COMMENT:** Send comments to DEQ Project Manager Daniel Hafley at 700 NE Multnomah St., Ste. 600, Portland, Oregon or [hafley.dan@deq.state.or.us](mailto:hafley.dan@deq.state.or.us). For more information contact the project manager at 503-229-5213.

### REQUEST FOR COMMENTS PROPOSED CONDITIONAL NO FURTHER ACTION FOR FORMER BARON BLAKESLEE (BBI) SOIL

**COMMENTS DUE:** 5 p.m., Monday, Nov. 2, 2015

**PROJECT LOCATION:** 5920 NE 87th Ave., Portland, Oregon

**PROPOSAL:** DEQ is soliciting public comments on the proposed conditional no further action determination for soil at the former Baron Blakeslee site. DEQ has approved remedial action activities implemented at the site, which are consistent with the selected remedy, and post-cleanup data verify that residual soil contamination is below acceptable levels. Remedial action at the site to address soil contamination is complete, and no further action is needed provided the site will be used for non-residential purposes. This proposed determination for soil meets the requirements of Oregon Administrative Rules Chapter 340, Division 122, and Chapter 340 Division 122, Sections 010 to 0140 for Cleanup Sites; and ORS 465.200 through 465.455.

**HIGHLIGHTS:** The property is roughly triangular, approximately 0.7 acre in size, and located in an industrial park consisting of light industrial facilities. Releases resulted in soil contamination from volatile organic compounds, commonly known as VOCs, which extend offsite to the adjacent property eastward, Superior Tank Wash. DEQ issued a Record of Decision for cleanup in 2008 selecting excavation and offsite disposal of soil to reduce soil concentrations to below the most conservative screening levels for protection of site workers and leaching to groundwater. The proposed determination does not include groundwater, which is presently undergoing cleanup. Excavation activities were implemented in several phases beginning in October 2011 and completed in November 2012. A total of 3,044 cubic yards of soil were removed from both onsite and off-site excavations and disposed of at Oregon hazardous and non-hazardous waste landfills.

**HOW TO COMMENT:** Send comments to DEQ Project Manager Anna Coates at 700 NE Multnomah St., Ste. 600, Portland, Oregon or [coates.anna@deq.state.or.us](mailto:coates.anna@deq.state.or.us). For more information contact the project manager at 503-229-5213.

### DEQ PROPOSES CONDITIONAL NO FURTHER ENVIRONMENTAL ACTION, FORMER JONES OIL COMPANY SITE, SALEM, OREGON

**COMMENTS DUE:** 5 p.m., October 31, 2015

**PROJECT LOCATION:** 650 15th St. SE, Salem, Marion County

**PROPOSAL:** DEQ proposes to make a conditional no further action determination for gasoline and diesel contamination found in shallow and deeper soil and groundwater from a fuel distribution facility that operated at the site until early 2009.

**BACKGROUND:** For detailed project information please see a copy of the final report prepared by the property owner's consultant on DEQ's website at: <http://www.deq.state.or.us/Webdocs/Forms/Output/FPCController.ashx?SourceIdType=11&SourceId=209&Screen=Load>

The property has a long history of use as a fuel storage and distribution facility between 1921 and 2009, with above-ground storage tanks, underground storage tanks and distribution lines that leaked diesel and gasoline products.

Petroleum product was found on the groundwater table in one groundwater monitoring well. Dissolved petroleum contamination in shallow groundwater extends off-site in a southeasterly direction. There are no water supply wells within ¼-mile of the property and it is not reasonably likely that groundwater will not be used in this area in the future given availability of municipal water.

Targeted excavations in three areas of the site removed the highest levels of contaminated soil. Confirmation sampling indicated that petroleum hydrocarbon contamination remains in the deeper soil and groundwater.

Petroleum hydrocarbon levels in soil and groundwater do not pose a risk to human health or the environment with current uses of the former Jones Oil Company site. In its current state, most of the property is capped with asphalt and/or concrete, and it is used for commercial purposes.

DEQ concludes that the residual petroleum contamination in soil and groundwater from past use of the former Jones Oil Company site will not pose a risk to human health and the environment if the following conditions are met:

- No use of groundwater extracted from the site;
- No excavation in areas of known contamination without notification to DEQ and adherence to a DEQ-approved Contaminated Media Management Plan; and
- No use of the site for residential or agricultural purposes.

To document these conditions for current and future property owners, DEQ will record Easement and Equitable Servitudes on the Jones Oil property at 650 15th Street SE in Salem.

DEQ proposes to make a conditional No Further Action determination for the site after deed restrictions are recorded for the site. DEQ also proposes to list the former Jones Oil site on its Inventory of contaminated sites to document the long-term implementation of an institutional control for final remedial action.

**HOW TO COMMENT:** Written comments must be received by 5 p.m., October 31, 2015. Comments should be submitted to DEQ's Eugene office, 165 East 7th Avenue, Suite 100, Eugene, Oregon 97401 or by e-mail at [turnblom.susan@deq.state.or.us](mailto:turnblom.susan@deq.state.or.us). Questions may also be directed to Susan Turnblom at the Eugene address or by calling her at 541-687-7464.

**THE NEXT STEP:** DEQ will consider all public comments before taking final action on this matter. A public meeting will be held to receive verbal comments on the proposed cleanup action upon written request by ten or more persons, or by a group with ten or more members.

**Summary:** To adopt rules that allow the Board to continue processing applications for registration as a professional engineer, land surveyor, photogrammetrist, and for certification as a water right examiner. Although the qualifications for registration or certification have not changed, SB 297 eliminated the two-step application process. The proposed changes allow the applicant to submit an application for registration or certification once the applicant meets the minimum requirements, which include passing the required examinations and obtaining the required experience. Applicants may still gain additional years of experience instead of graduating from an approved curriculum. The proposed changes allow an applicant to complete these requirements in any order prior to submitting an application. Other housekeeping changes were made to reorganize rules. Over the years, rules that did not apply to licensure were filed under division 10 — Licensing, such as the Board's budget, fees, and refunds and charges. These rule proposals adopt new division 80 — Fees. In addition, the qualifications for the Board Administrator and the procedure for requesting new branches of a profession were also in division 10 — Licensing. The proposal includes moving them to division 1 — Procedural Rules, while moving the rules for civil penalties to division 15. Further, the definitional rules are proposed to be adopted in the new division 5 — Definitions.

**Rule Caption:** Proposed amendment to conform language of OAR 839-005-0125 with ORS 659A.030(1)(f) and ORS 659A.001(9).

**Stat. Auth.:** ORS 659A.805

**Stats. Implemented:** ORS 659A.001(9) & 659A.030(1)(f)

**Proposed Amendments:** 839-005-0125

**Last Date for Comment:** 11-03-15, 5 p.m.

**Summary:** ORS 659A.030(1)(f) provides:

“(1) It is an unlawful employment practice:

\*\*\* (f) For any person to discharge, expel or otherwise discriminate against any other person because that other person has opposed any unlawful practice, or because that other person has filed a complaint, testified or assisted in any proceeding under this chapter or has attempted to do so.”

ORS 659A.001(9) provides:

As used in this chapter:

\*\*\* (9) “Person” includes:

(a) One or more individuals, partnerships, associations, labor organizations, limited liability companies, joint stock companies, corporations, legal representatives, trustees, trustees in bankruptcy or receivers.

(b) A public body as defined in ORS 30.260.

(c) For purposes of ORS 659A.145 and 659A.421 and the application of any federal housing law, a fiduciary, mutual company, trust or unincorporated organization.”

Currently OAR 839-005-0125 provides:

“Discrimination in Retaliation for Opposing Unlawful Practices

(1) This rule interprets ORS 659A.030(1)(f).

(2) An employer will be found to have unlawfully retaliated against an employee if:

(a) The employee has engaged in protected activity by:

(A) Explicitly or implicitly opposing an unlawful practice or what the employee reasonably believed to be an unlawful practice, or

(B) Filing a charge, testifying, or assisting in an investigation, proceeding, or lawsuit under ORS 659A, or attempting to do so;

(b) The employer has subjected the employee to any adverse treatment, in or out of the workplace, that is reasonably likely to deter protected activity, regardless of whether it materially affects the terms, conditions, or privileges of employment; and

(c) There is a causal connection between the protected activity and the adverse treatment.”

The proposed amendment to OAR 839-005-0125 would replace the word “employer” in the rule with the word “person,” so that the rule uses the exact language of ORS 659A.030(1)(f), which it interprets. ORS 659A.030(1)(f) applies to “persons” which, as defined by ORS 659A.001(9) for purposes of ORS chapter 659A, includes but is not limited to individuals and many named types of entities. It is not necessary that these individuals and entities be employers, to be found in violation of ORS 659A.(1)(f).

**Summary:** The primary purpose of these proposed rule amendments is to update the administrative rules for the Self-direction of Public

# NOTICES OF PROPOSED RULEMAKING

Purpose Charges by Large Retail Electricity Customers (LECPPP) program to align with current Oregon Board of Accountancy guidelines and current agency practices. The proposed amendments would change the rules to require that a certified public accountant “attest” that project costs are accurate, rather than creating a “statement of compilation.” The proposed amendments would also update the requirements for providing proof of qualified expenditures. With regard to cost recovery, the proposed amendments would eliminate the fixed annual deposit of \$1,200 paid by LECPPP participants, while retaining the per-project deposit of up to four percent of project costs. As program costs have declined over time, the department no longer requires participants to pay an annual deposit. The proposed amendments would also modify the process for comparing deposits received with the department’s cost of services, eliminating the current true-up process in favor of an annual review to assure that costs of operating the program are recovered.

The rules will become effective upon filing. Text of the proposed rules and hearing details can be found on the department website: <http://www.oregon.gov/energy/Pages/Rulemaking-LECPPP.aspx>.

**Summary:** The proposed rules for the Residential Energy Tax Credit program make program updates and implement changes provided in Oregon Laws 2015, chapter 701, sections 26 through 37 (HB 2171). HB 2171 places an incentive cap of 50 percent of device eligible cost for all category one alternative energy devices. The bill provides the Oregon Department of Energy with rulemaking authority to provide for a lesser amount of incentive by rule based on market conditions for all category one alternative energy devices and wind devices. The bill also increases the incentive for solar radiation for domestic water heating and solar radiation for swimming pool heating devices, and those changes were implemented in a prior RETC rulemaking focused on solar thermal.

This rulemaking proposes overall rule updates to assist and improve program administration. Rule updates include reducing the electric heat pump water heater incentive based on market conditions, reducing the solar photovoltaic incentive, other than solar radiation for domestic water and swimming pool heating, based on market conditions, increasing the Heating Seasonal Performance Factor (HSPF) requirement for ducted and ductless heat pumps eligibility, updating solar radiation for domestic water heating requirements, allowing more than one tax credit for separate loop systems in one year and updates for water heating appliances and updating inspection requirements. There are also general updates to the tax credit rate chart. Lastly, the proposed rules include amendments to correct terminology, simplify language and update statutory references. The

department plans for the rules to be effective January 1, 2016. The department requests public comment on these draft rules.

A call-in number is available for the public hearing, please see website for details and other materials: <http://www.oregon.gov/energy/CONS/Pages/Rulemaking-RETC.aspx>

The department requests public comment on whether other options should be considered for achieving the rule’s substantive goals while reducing the negative economic impact of the rule on business.

**Proposed Amendments:** 340-200-0040

**Last Date for Comment:** 11-12-15, 12 p.m.

**Summary:** LRAPA proposes to amend Title 15 — “Enforcement Procedures and Civil Penalties” to align with the 2013 Oregon Department of Environmental Quality (DEQ) adoption of new civil penalty matrix amounts in December 2013, becoming effective January 6, 2014.

The proposal includes adopting the enforcement civil penalty amounts as DEQ adopted through the Environmental Quality Commission (EQC). LRAPA does not have the authority to have a different civil penalty structure than the EQC adopts for DEQ. Therefore, LRAPA must follow suit and update Title 15’s civil penalty structure to correspond with the DEQ’s civil penalty amounts. This proposal is for that purpose and will incorporate changes requested by EPA along with housekeeping that includes eliminating duplicative text, cleaning up typos and formatting.

**Summary:** Revisions to OAR 632-030-0016 are required due to the creation of Exclusion Certificates, which are required for all formerly total exemption sites. The application form for an exclusion certificate requires the operator to report their name and location of the site, land ownership and proof of land owner permission for the mining activity, date of commencement of activity, explanation of all mining activities for the previous 60 months, and an explanation of why the site qualifies for an exclusion certificate. Exclusion certificates shall be renewed annually.

# NOTICES OF PROPOSED RULEMAKING

Revisions to OAR 632-030-0017 clarify that exclusion certificates shall be issued only when all mining activities on a parcel, or contiguous parcels are less than the exclusion certificate limits.

Revisions to OAR 632-030-0022, update the rule to include operators that hold both a limited exemption certificate and an operating permit on the same property, or contiguous properties that are operated as a single mining activity, shall pay a single annual renewal fee pursuant to ORS 517.800, based upon the total reported production from all sites within the parcel or contiguous parcels.

**Summary:** Chapter 577, Oregon Laws 2015 (SB 397) places new requirements on providers of ignition interlock devices (IIDs) to submit negative reports to those specified in law or to provide a certificate of no negative report at certain times. A person with a requirement to have an IID installed will continue to have the requirement unless a certificate of no negative report for the period prescribed in law is received by DMV. Chapter 577, Oregon Laws 2015 authorizes DMV to define by rule a test violation that would be considered a negative report. The law also requires that DMV prescribe by rule what form the report and certificates will take. DMV proposes to amend OAR 735-118-0000 to include definitions for tampering, unauthorized removal, lockout and test violation. DMV proposes to amend OAR 735-118-0050 to designate when and on what form reports required by Chapter 577, Oregon Laws 2015 must be made and to specify what constitutes a "negative report."

DMV proposes to amend 735-064-0070 to clarify that a person who is eligible for a hardship, probationary or hardship/probationary permit may need to install an IID if the requirement for the device is continuing indefinitely as the result of DMV not receiving the necessary report to end the requirement that the person has had no negative report for 90 consecutive days.

DMV also proposes to amend OAR 735-070-0080 and 735-070-0082 for two reasons: 1) To align those rules with the law changes and changes to OAR 735-118-0040 effective January 1, 2015; and 2) To indicate that when DMV or the court issues a medical exemption from the requirement to install an IID, that the granting of the

## NOTICES OF PROPOSED RULEMAKING

exemption may be used to terminate the requirement at the end of the period specified in law.

Other changes are for clarity.

**Summary:** Chapter 455, Oregon Laws 2015 (SB 494) amends ORS 807.110 to authorize DMV to issue a driver license without a photograph to a person in the military who is stationed outside of Oregon and does not have a photograph on file with DMV that meets the requirements to issue a license using the previous photo. Therefore, DMV proposes to amend 735-062-0120 to coincide with the law change.

As DMV currently issues replacement driver licenses or identification cards using the previous photo on file, DMV proposes to amend OAR 735-062-0110 to allow a replacement driver license, driver permit or identification card with a new photograph if the person realizes that at the time of the next renewal that he or she will be outside of Oregon and will need an updated photograph at the time to qualify for a renewal license using the previous photo in accordance with OAR 735-062-0125. DMV proposes to further amend OAR 735-062-0110 to issue a replacement driver license, driver permit or identification card with a photograph when a person between the ages of 21 and 27 requests a replacement. Such a replacement will update the driver license, driver permit or identification card so that the wording "Under 21 until" or "Under 18 until" will no longer be present, plus the photograph will be contemporary. This change will make certain that a photograph taken when the person was a minor is not used on a license or identification card issued when the person is an adult. DMV also proposes to issue a replacement driver license, driver permit or identification card with a new photograph when a person is changing his or her name as part of transitioning to a different gender. There are also a few situations where a person may need a new photograph on a replacement driver license, driver permit or identification card when a suspension is rescinded or reinstated and those are specified in the proposed amendments to OAR 735-062-0110.

DMV proposes to amend OAR 735-062-0005 as DMV learned that the Social Security Administration does not issue a letter stating that a person is not eligible for a social security number, and to specify that DMV will not accept proof of ineligibility for a social security number from a person who presents proof of being a citizen or lawful permanent resident of the United States or proof of being legally present with authorization for employment in the United States.

**Summary:** Chapter 716, Oregon Laws 2015 (HB 2465) amends ORS 807.066 so that a parent or legal guardian of an applicant under 18 years of age can certify that the applicant attends school, rather than the applicant needing to provide a form that must be completed by a representative at the school. Many teens apply for driving privileges during the summer months and often are unable to complete the process as there is no one at the school available to provide the necessary proof of school attendance. Allowing a parent or legal guardian to certify that the applicant is attending school is much more efficient for both DMV and the applicant. However, if DMV suspends the driving privileges of a person under 18 years of age based on notice from a school that a student has withdrawn from school, DMV will not accept a certification from a parent or legal guardian to reinstate driving privileges. Because of the change in ORS 807.066 DMV must amend OAR 735-062-0035 to align with statute.

**Summary:** ORS 822.015 as amended by Chapter 111, Oregon Laws 2015, changes the requirements for who can buy and sell vehicles in a vehicle auction held by a certified Oregon vehicle dealer (dealer-only auction) without holding an Oregon vehicle dealer certificate.

Prior to the legislative change, ORS 822.015 provided an exemption from Oregon vehicle dealer certification requirements for dealers licensed in other jurisdictions and their authorized representatives when participating in a dealer-only auction. Under amended ORS 822.015, only certified Oregon vehicle dealers or dealers licensed in another jurisdiction or their employees may participate in a dealer-only auction.

DMV is amending its vehicle dealer rules to conform to the law change. Other non-substantive changes clarify or simplify rule language.

**Proposed Amendments:** 735-150-0055, 735-150-0140

**Last Date for Comment:** 10-21-15, Close of Business

**Summary:** Currently, ORS 822.043 authorizes vehicle dealers to charge a fee to prepare DMV documents necessary to issue or transfer title and registration on behalf of a vehicle purchaser. The fee limit is set by DMV under OAR 735-150-0055 at \$100, if the dealer uses an integrator (a third party independent contractor); or \$75, if the dealer does not use an integrator.

Chapter 708, Oregon Laws 2015, amends ORS 822.043 to repeal DMV's authority to set the fee amount by rule and establish a new statutory document-processing fee of \$150, if the dealer uses an integrator; or \$115, if the dealer does not use an integrator.

# NOTICES OF PROPOSED RULEMAKING

The proposed amendment of OAR 735-150-0055 and 735-150-0140 removes reference to the fee to prepare documents, formerly set by rule, and updates rule text to conform to the legislation.

**Proposed Adoptions:** 735-032-0070

**Last Date for Comment:** 10-21-15, Close of Business

**Summary:** ORS 801.040, 801.041, 802.042, 802.110, and 803.445 authorize Oregon counties and districts to charge vehicle registration fees that are in addition to state vehicle registration fees after meeting certain statutory requirements. This includes entering into an intergovernmental agreement with DMV to administer the collection and disposition of registration fees on behalf of a county or district.

For purposes of confidentiality, Oregon law authorizes eligible public employees, including police officers, to use their employment address in place of their residence address on DMV records. Currently, when an eligible employee registers a vehicle to an employment address in a county that charges a registration fee, the employee must pay a county registration fee for each vehicle registered to the employment address—even if the employee resides in another county.

In part, Chapter 404, Oregon Laws 2015 amends ORS 801.041 to prohibit counties from imposing a vehicle registration fee on vehicles registered to an employment address, when the registered owner is an eligible employee or household member who resides in another county.

Proposed OAR 735-032-0070 establishes the procedure to notify DMV when an eligible employee or household member's residence address is not within the county of the employment address as provided by ORS 801.041, as amended by Chapter 404, Oregon Laws 2015.

**Summary:** The 2015 Legislature adopted House Bill 3044 and the Governor signed the Bill into law. The new law maintains that a school district must receive permission and now requires a public charter school to notify the school board of any other school district, and the school board of the charter's sponsor district, if the charter school uses real property in a school district that is not the district of the sponsor school. The public charter school does not need permission, but State School funds may be withheld if they do not provide appropriate notice. **Summary:** ORS chapter 403 provides for 9-1-1 services and the operation of the emergency communications system in the State of Oregon. House Bill (HB) 2426 (2015), amended ORS chapter 403 to authorize the Office of Emergency Management (OEM) to adopt standards for the emergency communications system by rule. Previously the statutes set forth the standards for the basic 9-1-1 and enhanced 9-1-1 system. OEM proposes to amend, or repeal and adopt, its rules to set out standards for the emergency communications system. OEM is also proposing to amend its rules to reflect the change in statute now authorizing OEM to pay for certain emergency communications services on behalf of a 9-1-1 jurisdiction in addition to reimbursement to a 9-1-1 jurisdiction.

OEM proposed rules also reorganize OAR 104, division 080.

OEM is amending OAR 104-080-0000 to clarify the purpose statement with the statutory requirements for support of statewide 9-1-1 service.

OEM is proposing to repeal 104-080-0010, 104-080-0020, 104-080-0021, 104-080-0022, 104-080-0023, 104-080-0024, 104-080-0025, 104-080-0026, 104-080-0027, 104-080-0028, 104-080-0030, 104-080-0040, 104-080-0050, 104-080-0060, 104-080-0070 due to the number of proposed amendments to those rules. OEM is proposing to adopt new rules with new numbers to address the subject matter of those rules.

OEM proposes to repeal and adopt new rules for the emergency communications systems to reorganize OAR 104, division 080, and

clarify the substantive content. Specifically, OEM proposed changes relate to the following:

- OEM's requirements for collecting and maintaining contact information for 9-1-1 jurisdictions and public safety answering points (PSAPs).

- Requirements for a 9-1-1 jurisdiction's operation of a primary PSAP.

- Procedures for obtaining Automatic Number Identification (ANI) and Automatic Location Identification (ALI) information and performing reverse lookups.

- Processes for official reports and use of non-published ANI and ALI information.

- Requirements for utilities and providers.

- Requirements for a 9-1-1 jurisdiction plan, including disaster plan, and the submission and review processes.

- Standards for the emergency communications system.

- Requirements for provision of services for the deaf or hard of hearing and speech impaired communities including Telephone Typewriter (TTY) services and text-to-9-1-1 services.

- Database requirements.

- Customer premises equipment.

- Funding the emergency communications system, including authorized expenditures from the Emergency Communications Account and the 9-1-1 Subaccount.

- Variance from the OAR 104, division 080, rules.

These proposed new rules would allow for a primary PSAP to provide text-to-9-1-1. All primary PSAPs must have a TTY in order to communicate with individuals with hearing or speech impairments. However, other devices for receiving these emergency calls are now available. Text-to-9-1-1 is defined as a way to communicate with individuals with hearing and speech impairments and is clarified within these proposed rules.

These proposed new rules would define and clarify the requirements for a secure IP network required for the transport of ANI and ALI, Primary PSAP madding data, management information systems, and netclock synchronization for all primary PSAPs in the state of Oregon.

These proposed new rules would also define the use of Geographic Information Systems (GIS), along with the ALI database and the Master Street Address Guide (MSAG) database, in the primary PSAP mapping platform to assist with identifying the location of the emergency caller.

**Summary:** Senate Bill 80 (Chapter 767, Oregon Laws 2015), became effective July 27, 2015. Section 2 of SB 80 abolishes the Oregon University System as of July 1, 2015. Each of the seven public universities now has an independent governing board. The rule modifications reflect this change in reference to the universities' Optional Retirement Plan (ORP).

**Stats. Implemented:** ORS 238.350

**Proposed Amendments:** 459-011-0500

**Last Date for Comment:** 10-30-15, 5 p.m.

**Summary:** Senate Bill 454 (Chapter 537, Oregon Laws 2015), which becomes effective on January 1, 2016, requires Oregon employers to provide a minimum rate of accrual of "sick time" to employees (up to 40 hours per year), whether paid or unpaid. ORS 238.350 allows employers to elect to participate in the unused sick leave program, which affects the calculation of Final Average Salary for Tier One and Tier Two members.

Under that program, employees may accrue sick leave at the lowest rate in effect for the covered group. Staff received many questions from employers regarding the effect of SB 454 on the unused sick leave program. Employers represented that the types of positions expected to be covered by SB 454 (part-time, seasonal, or temporary workers) would not be in PERS "qualifying positions" and, therefore, not be covered by the unused sick leave program.

In addition, the language of SB 454 specifies that this law is not to be construed to "preempt, limit or otherwise impact any employer policy . . . that provides for greater use of paid or unpaid sick time." This language indicates that the legislature specifically intended not to interfere with any similar, existing policy or program. Therefore, construing "sick time" in SB 454 as limiting the "sick leave" used for purposes of ORS 238.350 could have a limiting effect with respect to the number of hours accrued under the PERS program, contrary to the legislative intent.

For these reasons, PERS staff concluded that SB 454 does not impact the unused paid sick leave accrual available to Tier One and Tier Two members under ORS 238.350. The proposed amendments to OAR 459-011-0500 confirm this understanding by specifically stating that "sick time" (the term used by SB 454) does not constitute "sick leave" for PERS purposes.

This bill amends the "contribution start date" for new OPSRP and IAP members, such that employer contributions to fund the pension benefit and employee contributions to the IAP will be due for wages attributable to services performed by the employee during the first full pay period following the new member's six-

month waiting time. The modifications to OAR 459-080-0150 implement this change for new members as of January 1, 2016.

**Proposed Amendments:** 459-010-0012

**Last Date for Comment:** 10-30-15, 5 p.m.

**Summary:** PERS membership is based on employment in a "qualifying position," which generally requires 600 hours of employment in a year. ORS 238.074 provides specific conditions for determining whether an academic employee of a community college has worked 600 hours for all purposes under ORS Chapter 238 (.375 Full Time Equivalent (FTE) on a 12-month basis or .50 FTE on a 9-month basis). The modifications to OAR 459-010-0012 clarify that, for academic employees of community colleges, a year shall be the 12-month period beginning July 1 and ending the following June 30, also known as an "academic year." Under PERS administration of the statute and rule, PERS uses an academic year rather than a calendar year as the standard of measure when determining qualifying position for academic employees of community colleges under OAR 459-010-0003, including during a partial year of employment.

**Proposed Amendments:** 459-013-0060, 459-013-0310

**Last Date for Comment:** 10-30-15, 5 p.m.

**Summary:** ORS 238.372 prohibits PERS from paying "tax remedy" increases under SB 656 (Chapter 796, Oregon Laws 1991), or HB 3349 (Chapter 569, Oregon Laws 1995) if the benefits are not subject to Oregon personal income tax because the recipient is not an Oregon resident (as provided in ORS 316.127(9)). ORS 238.378 requires PERS and the Department of Revenue (DOR) to share information necessary to determine whether a member's benefit is subject to Oregon income tax. OAR 459-013-0310 explains how PERS uses the information provided by DOR, and residency status information provided by the recipient, to make residency status determinations.

One scenario the current administrative rule did not take into account is how to determine residency when a person files a partial year return (40P) for the tax year in which they submit a residency status form to PERS. The proposed rule modification in new paragraph (2)(a)(G) clarify that, if a person filed a 40P according to DOR data query information and that person also submitted a residency status certification between January 1 and December 15 for the same calendar year, PERS will base residency on the recipient's form,

## NOTICES OF PROPOSED RULEMAKING

since the form requires the recipient to certify under penalty of perjury that they are an Oregon resident for income tax purposes. In addition, a new section (4) has been added to provide further clarification that all residency status information received by PERS between December 16 and December 31 of a calendar year will be treated as received the following calendar year.

The modifications to OAR 459-013-0060 are housekeeping edits to conform the administrative rule to current business practice. In section (1), a new subsection was added to clarify that when the first day of the month falls on a weekend or a PERS holiday, retirement benefits processed through electronic funds transfer must be issued no later than the previous business day. A new section (3) was added stating the only exception applies for retirement benefits payable on January 1, which must always be paid in the month of January to avoid exceeding 12 monthly payments in a year.

In 2008 the Bend Parks and Recreation District (BPRD) completed a district wide trails plan which identified the need for such a bridge in that segment of the Deschutes river. **Subject:** To adopt rules that allow the Board to continue processing applications for registration as a professional engineer, land surveyor, photogrammetrist, and for certification as a water right examiner. Although the qualifications for registration or certification have not changed, SB 297 eliminated the two-step application process. The proposed changes allow the applicant to submit an application for registration or certification once the applicant meets the minimum requirements, which include passing the required examinations and obtaining the required experience. Applicants may still gain additional years of experience instead of graduating from an approved curriculum. The proposed changes allow an applicant to complete these requirements in any order prior to submitting an application.

Other housekeeping changes were made to reorganize rules. Over the years, rules that did not apply to licensure were filed under division 10 - Licensing, such as the Board's budget, fees, and refunds and charges. These rule proposals adopt new division 80 - Fees. In addition,

The following definitions and guides have been adopted by the Board to assist registrants and the general public in their interpretation of specific portions of ORS 672.002 to 672.325.

(1) "Board" means the Oregon State Board of Examiners for Engineering and Land Surveying provided by ORS 672.240.

(2) "Practice of engineering" refers to ORS 672.005 and 672.007.

(3) "Technician work" means the time spent on work where the personal responsibility and technical knowledge required are small; that is, where the individual performance of a task, set and supervised by others, is all that is required. It shall also include all time spent in work before an applicant is 18 years old "Technician work" does not include engineering work as described in section (4), land surveying work as described in section (7) or photogrammetric work as described in section (10). Engineering "technician work" includes, but is not limited to, work as an inspector, a laboratory assistant, a design assistant, a survey technician, or a draftsman. Land Surveying "technician work" includes, but is not limited to, work as a survey technician, a draftsman, an instrument plotter, or computation work under close supervision and not requiring the exercise of judgment in survey or map design, or decisions on boundary location. Photogrammetric mapping "technician work" includes but is not limited to, work as a photogrammetric mapping technician to perform technical photogrammetric or remote sensing tasks to extract spatial data from photographic imagery, digital imagery or other remotely-sensed data under close supervision and not requiring the exercise of judgment in project design or decisions related to authoritative photogrammetric measurements.

(4) "Engineering work," is work performed after a person is 18 years old and involves work of a higher grade and responsibility than that defined as "technician work." Credit for engineering work will only be given for time worked such that persons performing work for more than one entity during a given period of time will not receive multiple credit for dates worked. Time spent in engineering teaching subsequent to graduation shall be listed as "engineering work." Work performed in conjunction with a

# ADMINISTRATIVE RULES

course of study provided by a community college, college, university, or any other educational program, for which tuition or similar payment is made, credit is earned, or as a requirement of the program, will not be considered “engineering work.”

(5) “Responsible charge,” as used in ORS 672.002(9), means to have supervision and control over engineering work as defined in 672.005(1), land surveying work, and photogrammetric mapping, as evidenced by performing substantially the following:

(a) Establishing the manner or method by which services are rendered;

(b) Establishing quality controls for the services rendered;

(c) Communicating with clients;

(d) Reviewing designs, calculations, plans, surveys or maps;

(e) Supplying deficiencies found in or correcting errors contained in designs, calculations, plans, surveys or maps;

(f) Making changes to documents, including but not limited to, designs, plans, plats, surveys or maps; and

(g) With respect to land surveying, reviewing field evidence and making final decisions concerning the placement of survey monuments and surveyed lines.

(6) “Supervision and control,” as used in ORS 672.002(10), means establishing the nature of, directing and guiding the preparation of, and approving the work product and accepting responsibility for the work product, as evidenced by performing the following:

(a) Spending time directly supervising the work to assure that the person working under the licensee is familiar with the significant details of the work;

(b) Providing oversight, inspection, observation and direction regarding the work being performed;

(c) Providing adequate training for persons rendering services and working on projects under the licensee;

(d) Maintaining readily accessible contact with the person providing services or performing work by direct proximity or by frequent communication about the services provided or the work performed. Communications between the licensee and persons under the licensee’s supervision and control include face-to-face communications, electronic mail, and telephone communications and similar, other communications that are immediate and responsive; and

(e) Applying the licensee’s seal and signature to a document.

(7) “Practice of land surveying” refers to ORS 672.005(2) and 672.007.

(8) “Land surveying work” is work performed after a person is 18 years old and involves work of a higher grade and responsibility than that defined as “technician work”. Engineering work, not related to the practice of land surveying, is not land surveying work. Credit for land surveying work will only be given for time worked such that persons performing work for more than one entity during a given period of time will not receive multiple credit for dates worked. Work performed in conjunction with a course of study provided by a community college, college, university, or any other educational program, for which tuition or similar payment is made, credit is earned, or as a requirement of the program, will not be considered “land surveying work.”

(9) “Practice of photogrammetric mapping” or “practice of photogrammetry” refers to ORS 672.002(7).

(10) “Photogrammetric work” is work performed after a person is 18 years old and involves work of a higher grade and responsibility than that defined as “technician work.” Credit for photogrammetric work will only be given for time worked such that persons performing work for more than one entity during a given period of time will not receive multiple credit for dates worked. Time spent teaching photogrammetric mapping after graduation is “photogrammetric work.” Work performed in conjunction with a course of study provided by a community college, college, university, or any other educational program, for which tuition or similar payment is made, credit is earned, or as a requirement of the program, will not be considered “photogrammetric work.”

(11) Professional Development Hour (PDH) — A contact hour (nominal) of instruction or presentation. The common denominator for other units of credit.

(12) Continuing Education Unit (CEU) — Unit of credit customarily used for continuing education courses. One continuing education unit equals 10 hours of class in an approved continuing education course.

(13) College/Unit Semester/Quarter Hour — Credit for course work in an approved program or other related college course approved in accordance with article (e) of this section.

(14) Course/Activity — Any qualifying course or activity with a clear purpose and objective which will maintain, improve or expand the skills and knowledge relevant to the licensee’s field of practice.

(15) Multiple Registrant means a person who is registered as both a land surveyor and an engineer or is registered as an engineer in two or more disciplines.

(16) “Digital signature” means a type of electronic signature, as allowed by the ORS 84.001 to 84.061, that transforms a message through the use of an algorithm or series of algorithms that provide a key pair, private and public, for signor verification, document security and authentication.

(17) “Certificate Authority” is the trusted third party that issues and manages digital certificates (private and public keys) for digital signatures.

(18) “Digital certificate” is required to affix a digital signature, for the recipient to verify the identity of the signor, and for the recipient to verify that the contents of the document have not been altered since the signature was affixed.

(19) The words “branch” and “discipline” are synonymous as used in OAR chapter 820 divisions 10 and 40.

### Educational and Experience Qualifications to Take the Fundamentals of Engineering (FE) Examination for Enrollment as an Engineering Intern (EI) and Applications Based on Non-Accredited Degrees

(1) An applicant that does not qualify pursuant to OAR 820-010-0225 may apply for admission to the FE examination based on a combination of education and experience in the practice of engineering. Applicants will be allowed to submit as qualifying work experience that work experience obtained based on employment up to the date of the FE examination.

(2) Degrees from educational programs not identified in OAR 820-010-0225(2)(a), (b), or (c), may be considered as qualifying if they are evaluated by NCEES Credentials Evaluations, and the Board determines that the degree or course work is substantially equivalent to the educational degrees or courses required for degrees for those programs listed in 820-010-0225(2)(a), (b), or (c), or equivalent to the educational degree plus experience listed in 820-010-0225(2)(e). The cost for such evaluation will be borne by the applicant.

(3) Military training or experience may be considered as qualifying if it is evaluated by the Joint Services Transcript (JST), and the Board determines that the military training or experience is considered substantially equivalent to the educational degrees or courses listed in OAR 820-010-0225(2)(a), (b), or (c), or equivalent to the educational degree plus experience listed in 820-010-0225(2)(e).

(4) Course work from programs that are identified in OAR 820-010-0225(2)(a), (b), or (c), may be considered as qualifying if the coursework involves engineering principles or was obtained by the applicant while enrolled in an engineering program.

(5) Where an applicant applies for admission to the FE examination on the basis of sections (1) through (3) of this rule, the applicant must also demonstrate that the applicant's years of education when combined with the applicant's years of engineering work total at least 8 years. (1) An applicant that does not qualify pursuant to OAR 820-010-0226 may apply for admission to the FLS examination based on a combination of education and experience in the practice of land surveying. Applicants will be allowed to submit as qualifying work experience that work experience obtained based on employment up to the date of the FLS examination.

(2) Degrees from educational programs not identified in OAR 820-010-0226(2)(a) through (f) or (i), may be considered as qualifying if they are evaluated by NCEES Credentials Evaluations, and the Board determines that the degree or course work is substantially equivalent to the educational degrees or courses required for degrees for those institutions listed in 820-010-0226(2)(a) through (f) or (i). The cost for such evaluation will be borne by the applicant.

(3) Military training or experience may be considered as qualifying if it is evaluated by the Joint Services Transcript (JST), and the Board determines that the military training or experience is considered substantially equivalent to the educational degrees or courses listed in OAR 820-010-0226(2)(a) through (f) or (i), or equivalent to the educational degree plus experience listed in 820-010-0226(2)(h).

(4) Course work from programs that are identified in OAR 820-010-0226(2)(a) through (f), may be considered as qualifying if the coursework involves land surveying principles or was obtained by the applicant while enrolled in a land surveying program.

(5) Where an applicant applies for admission to the FLS examination on the basis of sections (1) through (3) of this rule, the applicant must also demonstrate that the applicant's years of education when combined with the applicant's years of land surveying work total at least 8 years. Work experience in excess of that needed to satisfy this requirement may be included by applicant in a subsequent application to apply for admission to the PLS examination.

(6) The Board may give credit for qualifying course work in proportion to the amount of course work completed relative to the degree towards which the course work would apply. For example, completion of one year of a two-year Surveying Technology program may be considered equivalent to one year of education, requiring 7 years of surveying work experience, in accordance with section (5). Qualifying course work includes classes in land surveying ethics, fundamentals and application.

(7) An applicant may qualify for admission to the FLS examination on the basis of 8 years of land surveying work without any qualifying degree or course work.

(8) Applicants for admission to the fundamentals of land surveying examination on the basis of experience or combined education and experience will be required to provide a minimum of three references with knowledge of land surveying technician or photogrammetric mapping technician work gained as defined in the OAR 820-010-0010.

(a) At least one of the three references must be registered in a NCEES jurisdiction.

(b) Qualifying experience accrued by the applicant must be accompanied by a reference that supervised the work as meeting the definition of land surveying technician or photogrammetric mapping technician work as defined in the OAR 820-010-0010.

(c) References must be submitted on the Board approved Reference Details form. The Reference Details form must be received by the Board office in a sealed envelope.

### Procedures for Classifying Young Male Registrants, Female Registrants, and Category B Registrants

(1) These procedures apply to offenders for whom the Static-99R is not an appropriate assessment methodology as outlined in OAR 255-085-0020.

(2) With the cooperation of the Department of Corrections, the Board will identify young male registrants, female registrants, and Category B registrants sentenced to a term of imprisonment in a Department of Corrections institution for a sex crime.

(3) The Board will notify young male registrants, female registrants, and Category B registrants of the registrant's obligation to participate in the assessment and evaluation processes, the registrant's option to request a review of the assessment and evaluation, as well as the Board's final review of the review and evaluation report.

(4) Subject to the risk assessment methodology set forth in these administrative rules, the Board will classify young male registrants, female registrants, and Category B registrants based on the LS/CMI and findings from an independent sexual offense-specific evaluation performed by a qualified provider who is certified by the Oregon Sex Offender Treatment Board to conduct sexual offense risk assessments. The independent evaluator will provide the Board with a written report stating the recommended sex offender classification and notification level, and will provide information regarding the registrant's risk for sexual re-offense. The evaluator should weigh the LS/CMI score when recommending a sex offender classification and notification level based on the sexual offense-specific evaluation.

(5) The Board will provide the registrant with a copy of the completed LS/CMI assessment and the independent sexual offense-specific evaluation report, the Notice of Rights form (Exhibit SO-1L or SO-2L), and the Written Objections form (Exhibit SO-3L).

(6) Following the notification in subsection (5), the following time-lines apply for a registrant to waive objections:

(a) If the registrant is supervised or in custody of the Department of Corrections and waives the right to submit Written Objections to the

(b) If the registrant is not supervised or in custody of the Department of Corrections and waives the right to submit Written Objections to the LS/CMI score and evaluation report, the registrant will forward the Notice of Rights form (SO-2L) indicating the registrant's waiver to the Board within 60 days after the mailing date on the Notice of Rights.

(d) Refusal to participate in the notice of rights process will be considered a waiver of objections to the LS/CMI score and evaluation report.

(7) Following the notification in subsection (5), the following time-lines apply for a registrant to submit written objections.

(a) If the registrant is supervised or in custody of the Department of Corrections, the registrant must submit the LS/CMI, evaluation report, Notice of Rights (SO-1L), and any Written Objections (Exhibit SO-3L) to the assessment and evaluation findings to the Board within three business days after receiving the Notice of Rights.

(b) If the registrant is not supervised or in custody of the Department of Corrections, the registrant must submit any Written Objections (Exhibit SO-4L) to the assessment and evaluation findings within 60 days after the mailing date on the Notice of Rights.

(c) Objections that are not submitted within these timelines will not be reviewed, and the Board will proceed to final classification.

(8) Upon the Board's receipt of the Written Objections (Exhibit SO-3L), a Hearings Officer will complete a review of the LS/CMI score, evaluation, and supporting documents. The review will verify the information, and the Hearings Officer will prepare a memo responding to the written objections, detail the finding of the evaluator, and make a determination as to whether the registrant's LS/CMI score is accurate or should be changed.

(a) If the score places the registrant in Level I or Level II, the Hearings Officer will provide this memo to the Board along with any information considered.

(b) If the score places the registrant in Level III, the Hearings Officer will schedule a hearing with the registrant. The following procedures shall apply:

In making the determination, factors to be considered include:

(a) The duration of risk;

(b) The nature and severity of potential harm;

(c) The likelihood that potential harm will occur; and

(d) The imminence of potential harm.

### Direct Threat to Health or Safety: Places of Public Accommodation

(1) Notwithstanding other provisions of these rules, places of public accommodation may refuse to permit an individual with a disability to participate in or benefit from the goods, services, facilities, privileges, advantages and accommodations of the public accommodation if the individual with a disability poses a direct threat to the health or safety of others. (a) The duration of risk;

(b) The nature and severity of potential harm;

### Discrimination Theories: Discrimination against Individuals with Disabilities by State Government or Places of Public Accommodation

(1) A violation of discrimination laws against individuals with disabilities may involve either intentional or unintentional discrimination. Discrimination against individuals with disabilities need not be intentional to be unlawful. Unintentional discrimination may occur, for example, in situations involving adverse impact. To be protected from discrimination based on disability, an individual must have a disability, as defined in ORS 659A.104 and the relevant rules.

(2) Substantial evidence of intentional unlawful discrimination against an individual exists if the investigation of the Civil Rights Division ("division") reveals evidence that a reasonable person would accept as sufficient to support the following elements:

(a) The respondent is a respondent as defined by ORS 659A.001(10) and OAR 839-005-0003(14) of these rules;

(b) The individual has a disability;

(c) The individual was harmed by an action of the respondent; and

(d) The individual's disability was the motivating factor for the respondent's action. In determining whether the individual's disability was the motivating factor for the respondent's action, the division uses whichever of the following theories applies:

(A) Specific Intent Theory: The respondent knowingly and purposefully discriminates against an individual because that individual has a disability.

(B) Different or Unequal Treatment Theory: The respondent treats individuals with disabilities differently than others who do not have disabilities. When the respondent makes this differentiation because of the individual's disability and not because of legitimate, non-discriminatory reasons, unlawful discrimination exists. In establishing a case of different or unequal treatment:

(i) There must be substantial evidence that the individual was harmed by an action of the respondent under circumstances that make it appear that the respondent treated the individual differently than comparably situated individuals who do not have disabilities. Substantial evidence of discrimination exists if the division's investigation reveals evidence that a reasonable person would accept as sufficient to support that an individual's dis-

# ADMINISTRATIVE RULES

ability was a motivating factor for the respondent's alleged unlawful action. If the respondent fails to rebut this evidence with evidence of a legitimate non-discriminatory reason, the division will conclude that substantial evidence of unlawful discrimination exists.

(I) Pretext: If the respondent rebuts the evidence with evidence of a legitimate non-discriminatory reason, but there is substantial evidence that the respondent's reason is a pretext for discrimination, the division will conclude there is substantial evidence of unlawful discrimination.

(II) Mixed Motive: If the respondent presents substantial evidence that a legitimate, non-discriminatory reason contributed to the respondent's action, but the division finds the individual's disability was also a substantial factor in the respondent's action, the division will determine there is substantial evidence of discrimination.

(ii) The individual with a disability at all times has the burden of proving that the individual's disability was the motivating factor for the respondent's unlawful action.

(3) Adverse impact by a place of public accommodation or by state government on the basis of disability: Substantial evidence of adverse impact discrimination does not require establishment of intentional discrimination as provided in (2) of this rule. Adverse impact discrimination exists if the division's investigation reveals evidence that a reasonable person would accept as sufficient to support the following elements:

(a) The respondent is a respondent as defined by ORS 659A.001(10) and OAR 839-005-0003(12) of these rules;

(b) The respondent has a standard or policy that is applied equally.

(c) The standard or policy has the effect of screening out or otherwise affecting members of a protected class at a significantly higher rate than others who are not members of that protected class; and

(d) The complainant is a member of the protected class adversely affected by the respondent's standard or policy and has been harmed by the respondent's application of the standard or policy.

(4) Harassment by a place of public accommodation or by state government on the basis of disability:

(a) Conduct of a verbal or physical nature on the basis of disability is unlawful when substantial evidence of the elements of intentional discrimination, as described in section (2) of this rule, is shown and:

(A) Such conduct is sufficiently severe or pervasive to have the purpose or effect of creating an intimidating, hostile or offensive environment; or

(B) Submission to such conduct is made either explicitly or implicitly a term or condition of receiving services, accommodations, advantages, facilities or privileges from a place of public accommodation or services, programs or activities of state government; or

(C) Submission to or rejection of such conduct is used as the basis for decisions affecting that individual.

(b) The standard for determining whether harassment is sufficiently severe or pervasive to create a hostile, intimidating or offensive environment is whether a reasonable person in the circumstances of the individual against whom the harassment is directed would so perceive it.

### Assistance Animals in Places of Public Accommodation or of Access to State Government

(1) "Assistance animal" means a dog or other animal designated by administrative rule that has been individually trained to do work or perform tasks for the benefit of an individual.

(2) "Assistance animal trainee" means an animal that is undergoing a course of development and training to do work or perform tasks for the benefit of an individual that directly relate to the disability of the individual.

(3) "Assistance animal trainer" means an individual exercising care, custody and control over an assistance animal trainee during a course of training designed to develop the trainee into an assistance animal.

(4) A place of public accommodation or of access to state government services, programs or activities may not:

(a) Ask an individual about the nature or extent of a disability that the individual has or may have;

(b) Require an individual to provide documentation proving that an animal is an assistance animal or an assistance animal trainee; or

(c) Notwithstanding any fee or admission charge imposed for pets, require that a person with a disability or an assistance animal trainer pay a fee or admission charge for an assistance animal or assistance animal trainee.

(5) A place of public accommodation or of access to state government services, programs or activities may:

(a) Ask whether an animal is required due to a disability; and

(b) Ask about the nature of the work or task that an animal is trained to do or perform or is being trained to do or perform, unless it is readily apparent that the animal performs or is being trained to perform work or a task for the benefit of a person with a disability.

(6) If a place of public accommodation or of access to state government services, programs or activities customarily charges a person for damages that the person causes to the place, the place may charge a person with a disability or an assistance animal trainer for damages that an assistance animal or assistance animal trainee causes to the place.

(7) A person with a disability or an assistance animal trainer must maintain control of an assistance animal or assistance animal trainee.

(a) Except as provided in this subsection, control shall be exerted by means of a harness, leash or other tether.

(b) If the use of a harness, leash or other tether would interfere with the ability of the animal to do the work or perform the tasks for which the animal is trained or is being trained, control may be exerted by the effective use of voice commands, signals or other means.

(c) If an animal is not under control as required in this subsection, a place of public accommodation or of access to state government services, programs or activities may consider the animal to be out of control for purposes of subsection (8) of this section.

(8)(a) Except as provided in this subsection, a place of public accommodation or of access to state government services, programs or activities may not deny a person with a disability or an assistance animal trainer the right to be accompanied by an assistance animal or assistance animal trainee in any area of the place that is open to the public or to business invitees.

(b) A place of public accommodation or of access to state government services, programs or activities may require a person with a disability or an assistance animal trainer to remove an assistance animal or assistance animal trainee if:

(A) The animal is not housebroken; or

(B) The animal is out of control and effective action is not taken to control the animal.

(c) A place of public accommodation or of access to state government services, programs or activities may impose legitimate requirements necessary for the safe operations of the place of public accommodation or the services, programs or activities. The place of public accommodation or of access to state government services, programs or activities shall ensure that the safety requirements are based on actual risks, not on speculation, stereotypes or generalizations about persons with disabilities.

(9) A place of public accommodation or of access to state government services, programs or activities shall make reasonable modifications as necessary to allow an opportunity for a person with a disability who is benefited by the use of an assistance animal to obtain goods, services and the use of the advantages, facilities and privileges of the place or the advantages, facilities and privileges of the state government services, programs or activities. For purposes of this subsection, except as provided in subsections (5) and (7) of this section, in addition to any other applicable accommodation requirement, allowing the presence of the assistance animal is a reasonable modification.

(10) If a place of public accommodation or of access to state government services, programs or activities requires a person with a disability to remove an assistance animal under subsection (8) of this section, the place or state government shall give the person with a disability a reasonable opportunity to obtain goods, services and the use of the advantages, facilities and privileges of the place or the advantages, facilities and privileges of the state government services, programs or activities without the assistance animal's presence.

(11) A place of public accommodation or of access to state government services, programs or activities is not required to provide care or supervision for an assistance animal or assistance animal trainee.

(12) The protection granted under this section to a person with a disability or an assistance animal trainer does not invalidate or limit the remedies, rights and procedures of any other federal, state or local laws that provide equal or greater protection of the rights of a person with a disability, an assistance animal trainer or individuals associated with a person with a disability.

### Applying the Employment Preference

(1) A public employer shall grant a preference to a veteran or disabled veteran who applies for a vacant civil service position or who seeks promotion to a civil service position with a higher maximum salary rate and who:

(a) Successfully completes an initial application screening or an application examination for the position; or

(b) Successfully completes a civil service test the employer administers to establish eligibility for the position; and

(c) Meets the minimum qualifications and any special qualifications for the position.

(2) At each stage of the application process a public employer will grant a preference to a veteran or disabled veteran who successfully completes an initial application screening or an application examination or a civil service test the public employer administers to establish eligibility for a vacant civil service position.

(3) For an initial application screening used to develop a list of persons for interviews, the public employer will add five preference points to a veteran's score and ten preference points to a disabled veteran's score.

(4) For an application examination, given after the initial application screening, that results in a score, the public employer will add five preference points to a veteran's and ten preference points to a disabled veteran's total combined examination score without allocating the points to any single feature or part of the examination.

(5) If a public employer uses an application examination that consists of an evaluation method of ranking an applicant that does not result in a score, the public employer will devise and apply methods by which the public employer gives special consideration in the public employer's hiring decision to veterans and disabled veterans.

(6) When an interview is a component of the selection process for a civil service position or for an eligibility list for a civil service position, a public employer shall interview each veteran:

(a) Whom the public employer determines meets the minimum qualifications and special qualifications for the civil service position or eligibility list; and

(b) Who submits application materials that the public employer determines show sufficient evidence that the veteran has the transferable skills required and requested by the public employer for the civil service position or eligibility list.

(7) A public employer is not required to comply with subsection (6) of this rule if the employer's practice is to generate an eligibility list without conducting interviews of possible candidates.

(8) A public employer may consult with the Oregon Military Department and the Department of Veterans' Affairs to determine whether

certain military education or experience produces a transferable skill. To evaluate a veteran's transferable skills from a transcript of military training, a public employer may consult the American Council on Education's website, "A Guide to the Evaluation of Educational Experiences in the Armed Services," at <http://www.acenet.edu/news-room/Pages/Military-Guide-Online.aspx>

### Discrimination Based on Uniformed Service

(1) For purposes of this rule:

(a) "Service" means the performance of duty on a voluntary or involuntary basis in a uniformed service that may involve active duty, active duty for training, initial active duty for training, inactive duty for training, full time duty in the National Guard, funeral honors duty or an examination to determine fitness for service in a uniformed service; and

(b) "Uniformed service" means the Armed Forces of the United States, the Army National Guard and the Air National Guard when engaged in active duty for training, inactive duty training or full-time National Guard duty, the commissioned corps of the United States Public Health Service and any other category of persons designated by the President of the United States in a time of war or national emergency.

(2) It is an unlawful employment practice for an employer to discriminate against a person because of the person's service in a uniformed service by:

(a) Denying a public officer or public employee the status or rights provided by ORS 408.240 to 408.240 and 408.290, if the employer is a public body.

(b) Discharging, expelling, disciplining, threatening or otherwise retaliating against the person for exercising or attempting to exercise the status or rights provided by this section.

(c) Denying any of the following because a person is a member of, applies to be a member of, performs, has performed, applies to perform or has an obligation to perform service in a uniformed service:

(A) Initial employment;

(B) Reemployment following a leave from employment taken by reason of service in a uniformed service;

(C) Retention in employment;

(D) Promotion; or

(E) Any other term, condition or privilege of employment, including but not limited to compensation.

(3) An employer does not commit an unlawful employment practice under this rule if the employer acted based on a bona fide occupational requirement reasonably necessary to the normal operation of the employer's business and the employer's actions could not be avoided by making a reasonable accommodation of the person's service in a uniformed service.

(4) The federal Uniformed Services Employment and Reemployment Act, 38 USC 43 (USERRA) provides that an employee reemployed following a period of uniformed service is entitled to the seniority and seniority-based rights and benefits that the employee had on the date the uniformed service began, plus any seniority and seniority-based rights and benefits that the employee would have attained if the employee had

remained continuously employed. Federal Department of Labor regulation 20 CFR 1002.210 provides that in determining entitlement to seniority and seniority-based rights and benefits, the period of absence from employment due to or necessitated by uniformed service is not considered a break in employment. The rights and benefits protected by USERRA upon reemployment include those provided by the employer and those required by statute.

(5) To the extent possible, this rule shall be construed in a manner that is consistent with similar provisions of the federal Uniformed Services Employment and Reemployment Rights Act of 1994, 38 USC 43.

(6) Protections for spouses and domestic partners of uniformed service members may be found under the Oregon Military Family Leave Act, ORS 659A.090 to 659A.099 and OAR 839-009-0370 - 839-009-0460.

## Department of Consumer and Business Services, Division of Finance and Corporate Securities Chapter 441

**Rule Caption:** Deletes references to debt management service provider counseling fee due to statutory sunset.

**Adm. Order No.:** FCS 6-2015

**Filed with Sec. of State:** 9-15-2015

**Certified to be Effective:** 9-15-15

**Notice Publication Date:** 8-1-2015

**Rules Amended:** 441-910-0099

**Subject:** In 2009, the Legislature adopted House Bill 2191 to consolidate debt settlement, debt consolidation, credit counseling and credit repair activities under a single debt management service provider title. The Legislature adopted limits on the amount of fees that a debt management service provider could charge, including for counseling clients. HB 2191 contained a temporary, additional counseling fee that sunset on January 1, 2012. The department repealed OAR 441-910-0092 and amended OAR 441-910-0090 to reflect the provision's sunset. During that rulemaking the department inadvertently neglected to delete references to OAR 441-910-0092 and amend the accompanying appendix A, which provided an example of allowable fees. Because the underlying authority for the fee included in the appendix is no longer allowed by law, and to remove obsolete references, DCBS is proposing to amend the appendix.

The forms must be updated immediately to allow insurers to submit requisite documents on the correct forms. Failure to update the forms immediately will result in harm to consumers and insurers because filings will be in error resulting in delay of company transactions.

(b) A brief summary, which is not part of the insurance contract, of uninsured and underinsured motorist coverages;

(c) A statement of the price for coverage per insured vehicle with limits equal to the named insured's bodily injury liability limits and the price for coverage per insured vehicle with the lower limits requested by the named insured;

(d) A statement to the effect that the statement shall remain in force until rescinded in writing by a named insured or until such time as motor vehicle bodily injury liability limits are changed; and

(5) The form may include one or both of the following statements in addition to the items required under section (2) of this rule:

(a) A statement to the effect that the form is required by Oregon law or specifically by ORS 742.502; and

**Rules Amended:** 836-071-0355, 836-071-0370, 836-071-0380

**Subject:** Existing rules of the Insurance Division establish the steps that a rental company with a limited license to sell rental insurance must take to educate and monitor employees selling insurance under the limited license. House Bill 2958 now allows a rental company to allow a “designated agent” to sell rental insurance under the limited license of the rental company. The rental company must provide the same training and oversight to a designated agent as it provides for employees. The rules must be amended to add “designated agents” to the description of the individuals who must be educated and monitored to sell rental insurance under the limited license of the rental company.

The provisions of HB 2958 take effect on September 22, 2015, so these rules must be amended by that date.

### Request for Review before the Director

(1) General.

(a) Administrative review before the director:

(A) Except as otherwise provided in ORS 656.704, the director has exclusive jurisdiction to resolve all disputes concerning medical fees, non-payment of compensable medical bills, and medical service and treatment disputes arising under ORS 656.245, 656.247, 656.248, 656.260, 656.325, and 656.327. Disputes about whether a medical service provided after a worker is medically stationary is compensable within the meaning of ORS 656.245(1)(c), or whether a medical treatment is unscientific, unproven, outmoded, or experimental under ORS 656.245(3), are subject to administrative review before the director.

(B) A party does not need to be represented to participate in the administrative review before the director.

(C) Any party may request that the director provide voluntary mediation or alternative dispute resolution after a request for administrative review or hearing is filed.

(b) All issues pertaining to disagreements about medical services within a managed care organization (MCO), including disputes under ORS 656.245(4)(a) about whether a change of provider will be medically detrimental to the worker, are subject to ORS 656.260. A party dissatisfied with an action or decision of the MCO must first apply for and complete the internal dispute resolution process within the MCO before requesting an administrative review of the matter before the director.

(c) Except for disputes regarding interim medical benefits under ORS 656.247, when there is a formal denial of the compensability of the underlying claim, or a denial of the causal relationship between the medical service or treatment and the accepted condition or the underlying condition, the parties may file a request for hearing with the Hearings Division of the Workers' Compensation Board to resolve the compensability issue.

(d) The director may, on the director's own motion, initiate a review of medical services or medical treatment at any time.

(e) If the director issues an order declaring an already rendered medical treatment or medical service inappropriate, or otherwise in violation of the statute or medical rules, the worker is not obligated to pay for such.

(2) Time Frames and Conditions.

(a) The following time frames and conditions apply to requests for administrative review before the director under this rule:

## ADMINISTRATIVE RULES

(A) For MCO-enrolled claims, a party that disagrees with an action or decision of the MCO must first use the MCO's dispute resolution process. If the party does not appeal the MCO's decision using the MCO's dispute resolution process, in writing and within 30 days of the mailing date of the decision, the party will lose all rights to further appeal the decision unless the party can show good cause. When the aggrieved party is a represented worker, and the worker's attorney has given written notice of representation to the insurer, the 30-day time frame begins when the attorney receives written notice or has actual knowledge of the MCO decision.

(B) For MCO-enrolled claims, if a party disagrees with the final action or decision of the MCO, the aggrieved party must request administrative review before the director within 60 days of the MCO's final decision. When the aggrieved party is a represented worker, and the worker's attorney has given written notice of representation to the insurer, the 60-day time frame begins when the attorney receives written notice or has actual knowledge of the dispute. If a party has been denied access to the MCO dispute resolution process, or the process has not been completed for reasons beyond a party's control, the party may request director review within 60 days of the failure of the MCO process. If the MCO does not have a process for resolving a particular type of dispute, the insurer or the MCO must advise the medical provider or worker that they may request review before the director.

(C) For claims not enrolled in an MCO, or for disputes that do not involve an action or decision of an MCO, the aggrieved party must request administrative review before the director within 90 days of the date the party knew, or should have known, there was a dispute. When the aggrieved party is a represented worker, and the worker's attorney has given written notice of representation to the insurer, the 90-day time frame begins when the attorney receives written notice or has actual knowledge of the dispute. For purposes of this rule, the date the insurer should have known of the dispute is the date action on the bill was due. For disputes regarding interim medical benefits on denied claims, the date the insurer should have known of the dispute is no later than one year from the claim denial, or 45 days after the bill is perfected, whichever occurs last. A request for administrative review under this rule may also be filed as prescribed in OAR chapter 438, division 005.

(b) Medical provider bills for treatment or services that are under review before the director are not payable during the review.

### (3) Form and Required Information.

(a) Requests for administrative review before the director should be made on Form 2842 as described in Bulletin 293. When an insurer or a worker's representative submits a request without the required information, the director may dismiss the request or hold initiation of the administrative review until the required information is submitted. Unrepresented workers may ask the director for help in meeting the filing requirements. The requesting party must simultaneously notify all other interested parties and their representatives, if known, of the dispute. The notice must:

(A) Identify the worker's name, date of injury, insurer, and claim number;

(B) Specify the issues in dispute and the relief sought; and

(C) Provide the specific dates of the unpaid disputed treatment or services.

(b) In addition to medical evidence relating to the dispute, all parties may submit other relevant information, including written factual information, sworn affidavits, or legal argument, for incorporation into the record. Such information may also include timely written responses and other evidence to rebut the documentation and arguments of an opposing party. The director may take or obtain additional evidence consistent with statute, such as pertinent medical treatment and payment records. The director may also interview parties to the dispute, or consult with an appropriate committee of the medical provider's peers. When a party receives a written request for additional information from the director, the party must respond within 14 days.

(c) When a request for administrative review is filed under ORS 656.247, 656.260, or 656.327(3)(c), the insurer must provide a record packet, at no charge, to the director and all other parties or their representatives as follows:

(A) The packet must include a complete, indexed copy of the worker's medical record and other documents that are arguably related to the medical dispute, arranged in chronological order, with oldest documents on top, and numbered in Arabic numerals in the lower right corner of each page. The number must be preceded by the designation "Ex." and pagination of the multiple page documents must be designated by a hyphen followed by the page number. For example, page two of document 10 must be designated "Ex. 10-2." The index must include the document numbers,

description of each document, author, number of pages, and date of the document. The packet must include the following notice in bold type:

We hereby notify you that the director is being asked to review the medical care of this worker. The director may issue an order that could affect reimbursement for the disputed medical service(s).

(B) If the insurer requests review, the packet must accompany the request, with copies sent simultaneously to the other parties.

(C) If the requesting party is not the insurer, or if the director has initiated the review, the director will request the record from the insurer. The insurer must provide the record within 14 days of the director's request as described in this rule.

(D) If the insurer fails to submit the record in the time and format specified in this rule, the director may sanction the insurer under OAR 436-010-0340.

(E) Except for disputes regarding interim medical benefits, the packet must include certification stating that there is an issue of compensability of the underlying claim or condition or stating that there is not an issue of compensability of the underlying claim or condition. If the insurer issued a denial that has been reversed by the Hearings Division, the Board, or the Court of Appeals, the insurer must provide a statement regarding its intention, if known, to accept or appeal the decision.

(4) Physician Review (E.g., appropriateness). If the director determines a review by a physician is indicated to resolve the dispute, the director, under OAR 436-010-0330, may appoint an appropriate medical service provider or panel of providers to review the medical records and, if necessary, examine the worker and perform any necessary and reasonable medical tests, other than invasive tests. Notwithstanding ORS 656.325(1), if the worker is required by the director to submit to a medical exam as part of the administrative review process, the worker may refuse an invasive test without sanction.

(a) A single physician selected to conduct a review must be a practitioner of the same healing art and specialty, if practicable, of the medical service provider whose treatment or service is being reviewed.

(b) When a panel of physicians is selected, at least one panel member must be a practitioner of the same healing art and specialty, if practicable, of the medical service provider whose treatment or service is being reviewed.

(c) When such an exam of the worker is required, the director will notify the appropriate parties of the date, time, and location of the exam. Examinations will be at a place reasonably convenient to the worker, if possible. The parties must not directly contact the physician or panel unless it relates to the exam date, time, location, or attendance. If the parties have special questions they want addressed by the physician or panel, the questions must be submitted to the director for screening as to the appropriateness of the questions. Matters not related to the issues before the director are inappropriate for medical review and will not be submitted to the reviewing physician(s). The exam may include, but is not limited to:

(A) A review of all medical records and diagnostic tests submitted,

(B) An examination of the worker, and

(C) Any necessary and reasonable medical tests.

(5) Dispute Resolution by Agreement (E.g., Alternative Dispute Resolution).

(a) A dispute may be resolved by agreement between the parties to the dispute. The agreement must be in writing and approved by the director. The director may issue a letter of agreement instead of an administrative order, which will become final on the 10th day after the letter of agreement is issued unless the agreement specifies otherwise. Once the agreement becomes final, the director may revise the agreement or reinstate the review only under one or more of the following conditions:

(A) A party fails to honor the agreement;

(B) The agreement was based on misrepresentation;

(C) Implementation of the agreement is not feasible because of unforeseen circumstances; or

(D) All parties request revision or reinstatement of the dispute.

(b) Any mediated agreement may include an agreement on attorney fees, if any, to be paid to the worker's attorney.

(c) If the dispute does not resolve through mediation or alternative dispute resolution, the director will issue an order. If the dispute is not resolved by agreement and if the director determines that no bona fide dispute exists in a claim not enrolled in an MCO, the director will issue an order under ORS 656.327(1). If any party disagrees with an order of the director that no bona fide medical dispute exists, the party may appeal the order to the Workers' Compensation Board within 30 days of the mailing date of the order. Upon review, the order of the director may be modified

# ADMINISTRATIVE RULES

only if it is not supported by substantial evidence in the record developed by the director.

(6) Director Order and Reconsideration.

(a) The director may, on the director's own motion, reconsider or withdraw any order that has not become final by operation of law. A party also may request reconsideration of an administrative order upon an allegation of error, omission, misapplication of law, incomplete record, or the discovery of new information that could not reasonably have been discovered and produced during the review. The director may grant or deny a request for reconsideration at the director's sole discretion. A request must be mailed to the director before the administrative order becomes final.

(b) During any reconsideration of the administrative order, the parties may submit new material evidence consistent with this rule and may respond to such evidence submitted by others.

(c) Any party requesting reconsideration or responding to a reconsideration request must simultaneously notify all other interested parties of its contentions and provide them with copies of all additional information presented.

(d) Attorney fees in administrative review will be awarded as provided in ORS 656.385(1) and OAR 436-001-0400 through 436-001-0440.

(7) Hearings.

(a) Any party that disagrees with an action or administrative order under these rules may obtain review of the action or order by filing a request for hearing as provided in OAR 436-001-0019 within 30 days of the mailing date of the action or order under ORS 656.245, 656.248, 656.260, or 656.327, or within 60 days of the mailing date of an action or order under ORS 656.247. OAR 436-001 applies to the hearing.

(b) In the review of orders issued under ORS 656.245, 656.247, 656.260(15) or (16), or 656.327(2), no new medical evidence or issues will be admitted at hearing. In these reviews, an administrative order may be modified at hearing only if it is not supported by substantial evidence in the record or if it reflects an error of law.

(c) Contested case hearings of sanctions and civil penalties: Under ORS 656.740, any party that disagrees with a proposed order or proposed assessment of a civil penalty issued by the director under ORS 656.254 or 656.745 may request a hearing by the Hearings Division of the Workers' Compensation Board as follows:

(A) A written request for a hearing must be mailed to the administrator of the Workers' Compensation Division. The request must specify the grounds upon which the proposed order or assessment is contested.

(B) The request must be mailed to the administrator within 60 days after the mailing date of the order or notice of assessment.

(C) The administrator will forward the request and other pertinent information to the Workers' Compensation Board.

(8) Other Proceedings.

(a) Any party seeking an action or decision by the director, or any party aggrieved by an action taken by another party not covered under sections (1) through (7) of this rule, may request administrative review before the director.

(b) A written request for review must be sent to the administrator of the Workers' Compensation Division within 90 days of the disputed action and must specify the grounds upon which the action is contested.

(c) The administrator may require and allow such input and information as it deems appropriate to complete the review.

### Medical Advisory Committee

The Medical Advisory Committee members are appointed by the director of the Department of Consumer and Business Services. The committee must include one insurer representative, one employer representative, one worker representative, one managed care organization representative, and a diverse group of health care providers representative of those providing medical care to injured or ill workers.

The director may appoint other persons as may be determined necessary to carry out the purpose of the committee. Health care providers must

comprise a majority of the committee at all times. When appointing members, the director should select health care providers who will consider the perspective of specialty care, primary care, and ancillary care providers and consider the ability of members to represent the interests of the community at large.

### Attending Physician, Authorized Nurse Practitioner, and Time-Loss Authorization

(1) An attending physician or authorized nurse practitioner is primarily responsible for the patient's care, authorizes time loss, and prescribes and monitors ancillary care and specialized care.

(a) No later than five days after becoming a patient's attending physician or authorized nurse practitioner, the provider must notify the insurer using Form 827. Regardless of whether Form 827 is filed, the facts of the case and the actions of the provider determine if the provider is the attending physician or authorized nurse practitioner.

(b) Type A and B attending physicians and authorized nurse practitioners may authorize time loss and manage medical services subject to the limitations of ORS Chapter 656 or a managed care organization contract. (See Appendix A "Matrix for Health Care Provider Types")

(c) Except for emergency services, or otherwise provided for by statute or these rules, all treatments and medical services must be approved by the worker's attending physician or authorized nurse practitioner.

(2) Emergency Room Physicians. Emergency room physicians may authorize time loss for no more than 14 days when they refer the patient to a primary care physician. If an emergency room physician sees a patient in his or her private practice apart from their duties as an emergency room physician, the physician may be the attending physician.

(3) Authorized Nurse Practitioners.

(a) In order to provide any compensable medical service, a nurse practitioner licensed in Oregon under ORS 678.375 to 678.390 must review a packet of materials provided by the division and complete the statement of authorization. (See [www.oregonwcdoc.info](http://www.oregonwcdoc.info)) Once the nurse practitioner has completed the statement of authorization, the division will assign an authorized nurse practitioner number.

(b) An authorized nurse practitioner may:

(A) Provide compensable medical services to an injured worker for a period of 180 days from the date of the first visit with a nurse practitioner on the initial claim. Thereafter, medical services provided by an authorized nurse practitioner are not compensable without the attending physician's authorization; and

(B) Authorize temporary disability benefits for a period of up to 180 days from the date of the first nurse practitioner visit on the initial claim.

(4) Unlicensed to Provide Medical Services. Attending physicians may prescribe services to be carried out by persons not licensed to provide a medical service or treat independently. These services must be rendered under the physician's direct control and supervision. Home health care provided by a patient's family member is not required to be provided under the direct control and supervision of the attending physician if the family member demonstrates competency to the satisfaction of the attending physician.

(5) Out-of-State Attending Physicians. The worker may choose an attending physician outside the state of Oregon with the approval of the insurer. When the insurer receives the worker's request or becomes aware of the worker's request to treat with an out-of-state attending physician, the insurer must give the worker written notice of approval or disapproval of the worker's choice of attending physician within 14 days.

(a) If the insurer approves the worker's choice of out-of-state attending physician, the insurer must immediately notify the worker and the physician in writing of the following:

(A) The Oregon medical fee and payment rules, OAR 436-009;

(B) The manner in which the out-of-state physician may provide compensable medical treatment or services to Oregon workers; and

(C) That the insurer cannot pay bills for compensable services above the Oregon fee schedule.

(b) If the insurer disapproves the worker's out-of-state attending physician, the notice to the worker must:

(A) Clearly state the reasons for the disapproval, for example, the out-of-state physician's refusal to comply with OAR 436-009 and 436-010,

# ADMINISTRATIVE RULES

(B) Identify at least two other physicians of the same healing art and specialty in the same area that the insurer would approve, and

(C) Inform the worker that if the worker disagrees with the disapproval, the worker may request approval from the director under OAR 436-010-0220.

(6) If an approved out-of-state attending physician does not comply with OAR 436-009 or 436-010, the insurer may withdraw approval of the attending physician. The insurer must notify the worker and the physician in writing:

(a) The reasons for withdrawing the approval,

(b) That any future services provided by that physician will not be paid by the insurer, and

(c) That the worker may be liable for payment of services provided after the date of notification.

(7) If the worker disagrees with the insurer's decision to disapprove an out-of-state attending physician, the worker or worker's representative may request approval from the director under OAR 436-010-0220.

### Choosing and Changing Medical Providers

(1) The worker may have only one attending physician or authorized nurse practitioner at a time. Concurrent treatment or services by other medical providers, including specialist physicians, must be sufficiently different that separate medical skills are needed for proper care, and must be based on a written referral by the attending physician or authorized nurse practitioner. The referral must specify any limitations and a copy must be sent to the insurer. A specialist physician is authorized to provide or order all compensable medical services and treatment he or she considers appropriate, unless the referral is for a consultation only. The attending physician or authorized nurse practitioner continues to be responsible for authorizing temporary disability even if the specialist physician is providing or authorizing medical services and treatment. Physicians who provide the following services are not considered attending physicians:

(a) Emergency services;

(b) Insurer or director requested examinations;

(c) A Worker Requested Medical Examination;

(d) Consultations or referrals for specialized treatment or services initiated by the attending physician or authorized nurse practitioner; and

(e) Diagnostic studies provided by radiologists and pathologists upon referral.

(2) Changing Attending Physician or Authorized Nurse Practitioner. The worker may choose to change his or her attending physician or authorized nurse practitioner only twice after the initial choice. When the worker requests a referral by the attending physician or authorized nurse practitioner to another attending physician or authorized nurse practitioner, the change will count as one of the worker's choices. The limitation of the worker's right to choose attending physicians or authorized nurse practitioners begins with the date of injury and extends through the life of the claim. The following are not considered changes of attending physician or authorized nurse practitioner initiated by the worker and do not count toward the worker's two changes:

(a) When the worker has an attending physician or authorized nurse practitioner who works in a group setting/facility and the worker sees another group member due to team practice, coverage, or on-call routines;

(b) When the worker's attending physician or authorized nurse practitioner is not available and the worker sees a medical provider who is covering for that provider in their absence; or

(c) When the worker is required to change attending physician or authorized nurse practitioner due to conditions beyond the worker's control. This could include, but is not limited to:

(A) When the attending physician or authorized nurse practitioner terminates practice or leaves the area;

(B) When the attending physician or authorized nurse practitioner is no longer willing to treat the worker;

(C) When the worker moves out of the area requiring more than a 50 mile commute to the attending physician or authorized nurse practitioner;

(D) When the period for treatment or services by a type B attending physician or an authorized nurse practitioner has expired (See Appendix A "Matrix for Health Care Provider Types");

(E) When the authorized nurse practitioner is required to refer the worker to an attending physician for a closing examination or because of a possible worsening of the worker's condition following claim closure;

(F) When the worker becomes subject to a managed care organization (MCO) contract and must change to an attending physician or authorized nurse practitioner on the MCO's panel;

(G) When the worker who, at the time of MCO enrollment was required to change attending physician or authorized nurse practitioner, is disenrolled from an MCO; or

(H) When the worker has to change because their attending physician or authorized nurse practitioner is no longer qualified as an attending physician or authorized to continue providing compensable medical services.

(3) Insurer Notice to the Worker. When the worker has changed attending physicians or authorized nurse practitioners twice by choice or has reached the maximum number of changes established by the MCO, the insurer must notify the worker by certified mail that any additional changes by choice must be approved by the insurer or the director. If the insurer fails to provide such notice and the worker later chooses another attending physician or authorized nurse practitioner, the insurer must pay for compensable medical services rendered prior to notice to the worker. The insurer must notify the newly selected provider that the worker was not allowed to change his or her attending physician or authorized nurse practitioner without approval of the insurer or director, and therefore any future services will not be paid. The insurer must pay for appropriate medical services rendered prior to this notification.

(4) Worker Requesting Additional Changes of Attending Physician or Authorized Nurse Practitioner.

(a) If a worker not enrolled in an MCO has changed attending physicians or authorized nurse practitioners by choice twice (or for MCO enrolled workers, the maximum allowed by the MCO) and wants to change again, the worker must request approval from the insurer. The worker must make the request in writing or by signing Form 827. The insurer must respond to the worker within 14 days of receiving the request whether the change is approved. If the insurer objects to the change, the insurer must:

(A) Send the worker a written explanation of the reasons;

(B) Send the worker Form 2332 (Worker's Request to Change Attending Physician or Authorized Nurse Practitioner); and

(C) Inform the worker that he or she may request director approval by sending Form 2332 to the director.

(b) When the worker submits a request to the director for an additional change of attending physician or authorized nurse practitioner, the director may request, in writing, additional information. If the director requests additional information, the parties must respond in writing within 14 days of the director's request.

(c) The director will issue an order advising whether the request for change of attending physician or authorized nurse practitioner is approved. On a case-by-case basis the director will consider circumstances, such as:

(A) Whether there is medical justification for a change, e.g., whether the attending physician or authorized nurse practitioner can provide the type of treatment or service that is appropriate for the worker's condition.

(B) Whether the worker has moved to a new area and wants to establish an attending physician or authorized nurse practitioner closer to the worker's residence.

(d) Any party that disagrees with the director's order may request a hearing by filing a request for hearing as provided in OAR 436-001-0019 within 30 days of the mailing date of the order.

(5) Managed Care Organization (MCO) Enrolled Workers. An MCO enrolled worker must choose:

(a) A panel provider unless the MCO approves a non-panel provider, or

(b) A "come-along provider" who provides medical services subject to the terms and conditions of the governing MCO.

### Medical Services and Treatment Guidelines

(1) Medical services provided to the worker must not be more than the nature of the compensable injury or the process of recovery requires. Services that are unnecessary or inappropriate according to accepted professional standards are not reimbursable.

(2) If the provider's chart notes do not provide evidence of frequency, extent, and efficacy of treatment and services, the insurer may request additional information from the provider.

(3) All medical service providers must notify the patient at the time of the first visit of how they can provide compensable medical services and authorize time loss. Providers must also notify patients that they may be personally liable for noncompensable medical services. Such notification should be made in writing or documented in the patient's medical record.

#### (4) Consent to Attend a Medical Appointment.

(a) An employer or insurer representative, such as a nurse case manager, may not attend a patient's medical appointment without written consent of the patient. The patient has the right to refuse such attendance.

(A) The consent form must be written in a way that allows the patient to understand it and to overcome language or cultural differences.

(B) The consent form must state that the patient's benefits cannot be suspended if the patient refuses to have an employer or insurer representative present.

(C) The insurer must keep a copy of the signed consent form in the claim file.

(b) The patient or the medical provider may refuse to allow an employer or insurer representative to attend an appointment at any time, even if the patient previously signed a consent form. The medical provider may refuse to meet with the employer or insurer representative.

(5) Request for Records at a Medical Appointment. The medical provider may refuse to provide copies of the patient's medical records to the insurer representative without proof that the person is representing the insurer. The provider may charge for any copies that are provided.

(6) Requesting a Medical Provider Consultation. The attending physician, authorized nurse practitioner, or the MCO may request a consultation with a medical provider regarding conditions related to an accepted claim. MCO-requested consultations that are initiated by the insurer, which include an exam of the worker, must be considered independent medical exams under OAR 436-010-0265.

#### (7) Ancillary Services — Treatment Plan.

(a) Ancillary medical service providers include but are not limited to physical or occupational therapists, chiropractic or naturopathic physicians, and acupuncturists. When an attending or specialist physician or an authorized nurse practitioner prescribes ancillary services, unless an MCO contract specifies other requirements, the ancillary provider must prepare a treatment plan before beginning treatment.

(b) The ancillary medical service provider must send the treatment plan to the prescribing provider and the insurer within seven days of beginning treatment. If the treatment plan is not sent within seven days, the insurer is not required to pay for the services provided before the treatment plan is sent.

(c) The treatment plan must include objectives, modalities, frequency of treatment, and duration. The treatment plan may be in any legible format, e.g., chart notes.

(d) Treatment plans required under this subsection do not apply to services provided under ORS 656.245(2)(b)(A). (See Appendix A "Other Health Care Providers.")

(e) Within 30 days of the beginning of ancillary services, the prescribing provider must sign a copy of the treatment plan and send it to the insurer. If the prescribing provider does not sign and send the treatment plan, the provider may be subject to sanctions under OAR 436-010-0340. However, this will not affect payment to the ancillary provider.

(f) Authorized nurse practitioners, out-of-state nurse practitioners, and physician assistants directed by the attending physician do not have to provide a written treatment plan as prescribed in this section.

(8) Massage Therapy. Unless otherwise provided by an MCO, when an attending physician, authorized nurse practitioner, or specialist physician prescribes ancillary services provided by a massage therapist licensed by the Oregon State Board of Massage Therapists under ORS 687.011 to

687.250, the massage therapist must prepare a treatment plan before beginning treatment. Massage therapists not licensed in Oregon must provide their services under the direct control and supervision of the attending physician. Treatment plans provided by massage therapists must follow the same requirements as those for ancillary providers in section (5) of this rule.

#### (9) Therapy Guidelines and Requirements.

(a) Unless otherwise provided by an MCO's utilization and treatment standards, the usual range for therapy visits is up to 20 visits in the first 60 days, and four visits a month thereafter. This is only a guideline and insurers should not arbitrarily limit payment based on this guideline nor should the therapist arbitrarily use this guideline to exceed medically necessary treatment. The medical record must provide clinical justification when therapy services exceed these guidelines. When an insurer believes the treatment is inappropriate or excessive, the insurer may request director review as outlined in OAR 436-010-0008.

(b) Unless otherwise provided by an MCO, a physical therapist must submit a progress report to the attending physician (or authorized nurse practitioner) and the insurer every 30 days or, if the patient is seen less frequently, after every visit. The progress report may be part of the physical therapist's chart notes and must include:

(A) Subjective status of the patient;

(B) Objective data from tests and measurements conducted;

(C) Functional status of the patient;

(D) Interpretation of above data; and

(E) Any change in the treatment plan.

(10) Physical Capacity Evaluation. The attending physician or authorized nurse practitioner must complete a physical capacity or work capacity evaluation within 20 days after the insurer or director requests the evaluation. If the attending physician or authorized nurse practitioner does not wish to perform the evaluation, they must refer the patient to a different provider within seven days of the request. The attending physician or authorized nurse practitioner must notify the insurer and the patient in writing if the patient is incapable of participating in the evaluation.

#### (11) Prescription Medication.

(a) Unless otherwise provided by an MCO contract, prescription medications do not require prior approval even after the worker is medically stationary. For prescription medications, the insurer must reimburse the worker based on actual cost. When a provider prescribes a brand-name drug, pharmacies must dispense the generic drug (if available) according to ORS 689.515. When a worker insists on receiving the brand-name drug, and the prescribing provider has not prohibited substitution, the worker must pay the total cost of the brand-name drug out-of-pocket and request reimbursement from the insurer. However, if the insurer has previously notified the worker that the worker is liable for the difference between the generic and brand-name drug, the insurer only has to reimburse the worker the generic price of the drug. Except in an emergency, prescription drugs for oral consumption dispensed by a physician's or authorized nurse practitioner's office are compensable only for the initial supply to treat the worker, up to a maximum of 10 days. Unless otherwise provided by an MCO contract, the worker may choose the dispensing provider.

(b) Providers should review and are encouraged to adhere to the workers' compensation division's opioid guidelines. See <http://www.cbs.state.or.us/wcd/rdrs/mru/ogandcal.html>.

(12) Diagnostics. Unless otherwise provided by an MCO, a medical provider may contact an insurer in writing for pre-authorization of diagnostic imaging studies other than plain film X-rays. Pre-authorization is not a guarantee of payment. The insurer must respond to the provider's request in writing whether the service is pre-authorized or not pre-authorized within 14 days of receipt of the request.

(13) Articles. Articles, including but not limited to, beds, hot tubs, chairs, and gravity traction devices are not compensable unless a report by the attending physician or authorized nurse practitioner clearly justifies the need. The report must:

(a) Establish that the nature of the injury or the process of recovery requires the item be furnished, and

(b) Specifically explain why the worker requires the item when the great majority of workers with similar impairments do not.

#### (14) Physical Restorative Services.

(a) Physical restorative services include, but are not limited to, a regular exercise program, personal exercise training, or swim therapy. They are not services to replace medical services usually prescribed during the course of recovery. Physical restorative services are not compensable unless:

# ADMINISTRATIVE RULES

(A) The nature of the worker's limitations requires specialized services to allow the worker a reasonable level of social or functional activity, and

(B) A report by the attending physician or authorized nurse practitioner clearly justifies why the worker requires services not usually considered necessary for the majority of workers.

(b) Trips to spas, resorts, or retreats, whether prescribed or in association with a holistic medicine regimen, are not reimbursable unless special medical circumstances are shown to exist.

(15) Lumbar Artificial Disc Replacement Guidelines.

(a) Lumbar artificial disc replacement is always inappropriate for patients with the following conditions (absolute contraindications):

- (A) Metabolic bone disease — for example, osteoporosis;
- (B) Known spondyloarthropathy (seropositive and seronegative);
- (C) Posttraumatic vertebral body deformity at the level of the proposed surgery;

(D) Malignancy of the spine;

(E) Implant allergy to the materials involved in the artificial disc;

(F) Pregnancy — currently;

(G) Active infection, local or systemic;

(H) Lumbar spondylolisthesis or lumbar spondylolysis;

(I) Prior fusion, laminectomy that involves any part of the facet joint, or facetectomy at the same level as proposed surgery; or

(J) Spinal stenosis — lumbar — moderate to severe lateral recess and central stenosis.

(b) Lumbar artificial disc replacement that is not excluded from compensability under OAR 436-009-0010(12)(g) may be inappropriate for patients with the following conditions, depending on severity, location, etc. (relative contraindications):

(A) A comorbid medical condition compromising general health, for example, hepatitis, poorly controlled diabetes, cardiovascular disease, renal disease, autoimmune disorders, AIDS, lupus, etc.;

(B) Arachnoiditis;

(C) Corticosteroid use (chronic ongoing treatment with adrenal immunosuppression);

(D) Facet arthropathy — lumbar — moderate to severe, as shown radiographically;

(E) Morbid obesity — BMI greater than 40;

(F) Multilevel degenerative disc disease — lumbar — moderate to severe, as shown radiographically;

(G) Osteopenia — based on bone density test;

(H) Prior lumbar fusion at a different level than the proposed artificial disc replacement; or

(I) Psychosocial disorders — diagnosed as significant to severe.

(16) Cervical Artificial Disc Replacement Guidelines.

(a) Cervical artificial disc replacement is always inappropriate for patients with any of the following conditions (absolute contraindications):

(A) Instability in the cervical spine which is greater than 3.5 mm of anterior motion or greater than 20 degrees of angulation;

(B) Significantly abnormal facets;

(C) Osteoporosis defined as a T-score of negative (-)2.5 or more negative (e.g., -2.7);

(D) Allergy to metal implant;

(E) Bone disorders (any disease that affects the density of the bone);

(F) Uncontrolled diabetes mellitus;

(G) Active infection, local or systemic;

(H) Active malignancy, primary or metastatic;

(I) Bridging osteophytes (severe degenerative disease);

(J) A loss of disc height greater than 75 percent relative to the normal disc above;

(K) Chronic indefinite corticosteroid use;

(L) Prior cervical fusion at two or more levels; or

(M) Pseudo-arthritis at the level of the proposed artificial disc replacement.

(b) Cervical artificial disc replacement that is not excluded from compensability under OAR 436-009-0010(12)(h) may be inappropriate for patients with any of the following conditions, depending on severity, location, etc. (relative contraindications):

(A) A comorbid medical condition compromising general health, for example hepatitis, poorly controlled diabetes, cardiovascular disease, renal disease, autoimmune disorders, AIDS, lupus, etc.;

(B) Multilevel degenerative disc disease — cervical — moderate to severe, as shown radiographically;

(C) Osteopenia — based on bone density test with a T-score range of negative (-)1.5 to negative (-)2.5;

(D) Prior cervical fusion at one level;

(E) A loss of disc height of 50 percent to 75 percent relative to the normal disc above; or

(F) Psychosocial disorders — diagnosed as significant to severe.

### Medical Records and Reporting Requirements for Medical Providers

(1) Medical Records and Reports.

(a) Medical providers must maintain records necessary to document the extent of medical services provided.

(b) All records must be legible and cannot be kept in a coded or semi-coded manner unless a legend is provided with each set of records.

(c) Reports may be handwritten and must include all relevant or requested information such as the anticipated date of release to return to work, medically stationary date, etc.

(d) Diagnoses stated on all reports, including Form 827, must conform to terminology found in the appropriate International Classification of Disease (ICD).

(2) Diagnostic Studies. When the director or the insurer requests original diagnostic studies, including but not limited to actual films, they must be forwarded to the director, the insurer, or the insurer's designee within 14 days of receipt of a written request.

(a) Diagnostic studies, including films, must be returned to the medical provider within a reasonable time.

(b) The insurer must pay a reasonable charge made by the medical provider for the costs of delivery of diagnostic studies, including films.

(3) Multidisciplinary Programs. When an attending physician or authorized nurse practitioner approves a multidisciplinary treatment program for the worker, the attending physician or authorized nurse practitioner must provide the insurer with a copy of the approved treatment program within 14 days of the beginning of the treatment program.

(4) Release of Medical Records.

(a) Health Insurance Portability and Accountability Act (HIPAA) rules allow medical providers to release information to insurers, self-insured employers, service companies, or the Department of Consumer and Business Services. (See 45 CFR 164.512(l).)

(b) When patients file workers' compensation claims they are authorizing medical providers and other custodians of claim records to release relevant medical records including diagnostics. The medical provider will not incur any legal liability for disclosing such records. (See ORS 656.252(4).) The authorization is valid for the life of the claim and cannot be revoked by the patient or the patient's representative. A separate authorization is required for release of information regarding:

(A) Federally funded drug and alcohol abuse treatment programs governed by Federal Regulation 42, CFR 2, which may only be obtained in compliance with this federal regulation, and

(B) HIV-related information protected by ORS 433.045(3).

(c) Any medical provider must provide all relevant information to the director, or the insurer or its representative upon presentation of a signed Form 801, 827, or 2476. The insurer may print "Signature on file" on a release form as long as the insurer maintains a signed original. However, the medical provider may require a copy of the signed release form.

(d) The medical provider must respond within 14 days of receipt of a request for progress reports, narrative reports, diagnostic studies, or relevant medical records needed to review the efficacy, frequency, and necessity of medical treatment or medical services. Medical information relevant to a claim includes a past history of complaints or treatment of a condition similar to that presented in the claim or other conditions related to the same body part.

(e) Patients or their representatives are entitled to copies of all medical and payment records, which may include records from other medical

# ADMINISTRATIVE RULES

providers. Patients or their representatives may request all or part of the record. These records should be requested from the insurer, but may also be obtained from medical providers. A summary may substitute for the actual record only if the patient agrees to the substitution. The following records may be withheld:

- (A) Psychotherapy notes;
- (B) Information compiled for use in a civil, criminal, or administrative action or proceeding;
- (C) Other reasons specified by federal regulation; and

(D) Information that was obtained from someone other than a medical provider when the medical provider promised confidentiality and release of the information would likely reveal the source of the information.

(f) A medical provider may charge the patient or his or her representative for copies at the rate specified in OAR 436-009-0060. A patient may not be denied summaries or copies of his or her medical records because of inability to pay.

- (5) Release to Return to Work.

(a) When requested by the insurer, the attending physician or authorized nurse practitioner must submit verification that the patient's medical limitations related to their ability to work result from an occupational injury or disease. If the insurer requires the attending physician or authorized nurse practitioner to complete a release to return-to-work form, the insurer must use Form 3245.

(b) The attending physician or authorized nurse practitioner must advise the patient, and within five days, provide the insurer written notice of the date the patient is released to return to regular or modified work.

- (6) Time Loss and Medically Stationary.

(a) When time loss is authorized by the attending physician or authorized nurse practitioner, the insurer may require progress reports every 15 days. Chart notes may be sufficient to satisfy this requirement. If more information is required, the insurer may request a brief or complete narrative report. The provider must submit a requested progress report or narrative report within 14 days of receiving the insurer's request.

(b) The attending physician or authorized nurse practitioner must, if known, inform the patient and the insurer of the following and include it in each progress report:

- (A) The anticipated date of release to work;
- (B) The anticipated date the patient will become medically stationary;
- (C) The next appointment date; and
- (D) The patient's medical limitations.

(c) The insurer must not consider the anticipated date of becoming medically stationary as a date of release to return to work.

(d) The attending physician or authorized nurse practitioner must notify the patient, insurer, and all other medical providers involved in the patient's treatment when the patient is determined medically stationary and whether the patient is released to any kind of work. The medically stationary date must be the date of the exam and not a projected date.

(7) Consultations. When the attending physician, authorized nurse practitioner, or the MCO requests a consultation with a medical provider regarding conditions related to an accepted claim:

(a) The attending physician, authorized nurse practitioner, or the MCO must promptly notify the insurer of the request for the consultation and provide the consultant with all relevant medical records. However, if the consultation is for diagnostic studies performed by radiologists or pathologists, no such notification is required.

(b) The consultant must submit a copy of the consultation report to the insurer and the attending physician, authorized nurse practitioner, or MCO within 10 days of the date of the exam or chart review. The consultation fee includes the fee for this report.

### Form 827, Worker's and Health Care Provider's Report for Workers' Compensation Claims

- (1) First Visit.

(a) When the patient has filed an initial claim or wants to file an initial claim, the patient and the first medical service provider must complete and sign Form 827. The provider must send the form to the insurer no later than 72 hours after the patient's first visit (Saturdays, Sundays, and holidays are not counted in the 72-hour period).

(b) Form 3283 ("A Guide for Workers Recently Hurt on the Job") is included with Form 827. All medical service providers must give a copy of Form 3283 and Form 827 to the patient.

(2) New or Omitted Medical Condition. A patient may use Form 827 to request that the insurer formally accept a new or omitted medical condition. If the patient uses the form to request acceptance of a new or omitted medical condition during a medical visit, the medical service provider may write the claimed condition or the appropriate International Classification of Diseases (ICD) diagnosis code for the patient in the space provided on the form. After the patient signs the form, the provider must send it to the insurer within five days.

(3) Change of Attending Physician. When the patient changes attending physician or authorized nurse practitioner, the patient and the new medical service provider must complete and sign Form 827. The provider must send Form 827 to the insurer within five days after becoming a patient's attending physician or authorized nurse practitioner. The new attending physician or authorized nurse practitioner is responsible for requesting all available medical records from the previous attending physician, authorized nurse practitioner, or insurer. Anyone failing to forward the requested information to the new attending physician or authorized nurse practitioner within 14 days of receiving the request may be subject to sanctions under OAR 436-010-0340.

(4) Aggravation. After the patient has been declared medically stationary, and an exam reveals an aggravation of the patient's accepted condition, the patient may file a claim for aggravation. The patient or the patient's representative and the attending physician must complete and sign Form 827. The physician, on the patient's behalf, must submit Form 827 to the insurer within five days of the exam. Within 14 days of the exam, the attending physician must send a written report to the insurer that includes objective findings that document:

(a) Whether the patient has suffered a worsened condition attributable to the compensable injury under the criteria in ORS 656.273; and

(b) Whether the patient is unable to work as a result of the compensable worsening.

### Elective Surgery

(1) "Elective surgery" is surgery that may be required to recover from an injury or illness, but is not an emergency surgery to preserve life, function, or health.

(2) Except as otherwise provided by the MCO, the attending physician, authorized nurse practitioner, or specialist physician must give the insurer at least seven days notice before the date of the proposed elective surgery to treat a compensable injury or illness. The notice must provide the medical information that substantiates the need for surgery, and the approximate surgical date and place if known. A chart note is considered "notice" if the information required by this section is included in the note.

(3) When elective surgery is proposed, the insurer may require an independent consultation (second opinion) with a physician of the insurer's choice.

(4) The insurer must respond to the recommending physician, the worker, and the worker's representative within seven days of receiving the notice of intent to perform surgery that the proposed surgery:

- (a) Is approved;

(b) Is not approved and a consultation is requested by using Form 3228 (Elective Surgery Notification); or

- (c) Is disapproved by using Form 3228.

(5) If the insurer does not complete Form 3228 (e.g., no specific date or consultant name) or communicate approval to the recommending physician within seven days of receiving the notice of intent to perform surgery, the insurer is barred from challenging the appropriateness of the surgery or whether the surgery is excessive or ineffectual. The attending physician and the worker may decide whether to proceed with surgery.

# ADMINISTRATIVE RULES

(6) If the insurer requests a consultation, it must be completed within 28 days after sending Form 3228 to the physician.

(7) The insurer must notify the recommending physician of the consultant's findings within seven days of the consultation.

(8) When the consultant disagrees with the proposed surgery, the recommending physician and insurer should attempt to resolve disagreement. The insurer and recommending physician may agree to obtain additional diagnostic testing or other medical information, such as asking for clarification from the consultant, to assist in reaching an agreement regarding the proposed surgery.

(9) If the recommending physician cannot reach an agreement with the insurer and continues to recommend the proposed surgery, the physician must either send the signed and dated Form 3228 or other written notification to the insurer, the patient, and the patient's representative. If the insurer believes the proposed surgery is excessive, inappropriate, ineffectual, or in violation of these rules, the insurer must request administrative review before the director within 21 days of receiving the notification. If the insurer fails to timely request administrative review the insurer is barred from challenging whether the surgery is or was excessive, inappropriate, or ineffectual. The attending physician and the worker may decide whether to proceed with surgery.

(10) A recommending physician who prescribes or performs elective surgery and fails to give the insurer the seven day notice requirement may be subject to civil penalties as provided in ORS 656.254 and OAR 436-010-0340. The insurer may still be responsible to pay for the elective surgery.

(11) Surgery that must be performed before seven days, because the condition is life threatening or there is rapidly progressing deterioration or acute pain not manageable without surgical intervention, is not considered elective surgery. In such cases, the attending physician or authorized nurse practitioner should try to notify the insurer of the need for emergency surgery.

### Independent Medical Exams (IMEs) and Worker Requested Medical Exams (WRMEs)

#### (1) General.

(a) Except as provided in section (12) of this rule, "independent medical exam" (IME) means any medical exam (including a physical capacity or work capacity evaluation or consultation that includes an exam) that is requested by the insurer under ORS 656.325. A "worker-requested medical exam" (WRME) is an exam available to a worker under ORS 656.325. An IME or WRME is completed by a medical service provider other than the worker's attending physician or authorized nurse practitioner. The insurer may obtain three IMEs for each opening of the claim. These exams may be obtained before or after claim closure. For the purpose of determining the number of IMEs, any IME scheduled but not completed does not count as a statutory IME. A claim for aggravation, Board's Own Motion, or reopening of a claim when the worker becomes enrolled or actively engaged in training according to rules adopted under ORS 656.340 and 656.726 allows a new series of three IMEs. A medical service provider must not unreasonably interfere with the right of the insurer to obtain an IME by a physician of the insurer's choice. The insurer must choose the medical service providers from the director's list of authorized IME providers under ORS 656.328. The IME may be conducted by one or more providers of different specialties, generally done at one location and completed within a 72-hour period. If the providers are not at one location, the IME must be completed within a 72-hour period and at locations reasonably convenient to the worker.

(b) The provider will determine the conditions under which the exam will be conducted.

(c) IMEs must be at times and intervals reasonably convenient to the worker and must not delay or interrupt treatment of the worker.

(d) When the insurer requires a worker to attend an IME, the insurer must comply with the notification and reimbursement requirements found in OAR 436-009-0025 and 436-060-0095.

(e) A medical provider who unreasonably fails to provide diagnostic records for an IME under OAR 436-010-0240 may be assessed a penalty under ORS 656.325.

(f) The worker may complete an online survey at [www.wcdimesurvey.info](http://www.wcdimesurvey.info) or make a complaint about the IME on the Workers' Compensation Division's website. If the worker does not have access to the Internet, the worker may call the Workers' Compensation Division at 503-947-7606.

#### (2) IME/WRME Authorization.

(a) Medical service providers can perform IMEs, WRMEs, or both once they complete a director-approved training and are placed on the director's list of authorized IME providers.

(A) To be on the director's list to perform IMEs or WRMEs, a medical service provider must complete the online application at [www.oregonwcdoc.info](http://www.oregonwcdoc.info), hold a current license, be in good standing with the provider's regulatory board, and must have:

(i) Reviewed IME training materials provided or approved by the director found at [www.oregonwcdoc.info](http://www.oregonwcdoc.info); or

(ii) Completed a director-approved training course regarding IMEs. The training curriculum must include all topics listed in Appendix B.

(B) By submitting the application to the director, the medical service provider agrees to abide by:

(i) The standards of professional conduct for performing IMEs adopted by the provider's regulatory board or standards published in Appendix C if the provider's regulatory board does not have standards; and

(ii) All relevant workers' compensation laws and rules.

(C) A provider may be sanctioned or removed from the director's list of authorized IME providers after the director finds that the provider:

(i) Violated the standards of either the professional conduct for performing IMEs adopted by the provider's regulatory board or the independent medical examination standards published in Appendix C;

(ii) Has a current restriction on his or her license or is under a current disciplinary action from their professional regulatory board;

(iii) Has entered into a voluntary agreement with his or her regulatory board that the director determines is detrimental to performing IMEs;

(iv) Violated workers' compensation laws or rules; or

(v) Has failed to complete training required by the director.

(D) A provider may appeal the director's decision to exclude or remove the provider from the director's list within 60 days under ORS 656.704(2) and OAR 436-001-0019.

(b) If a provider is not on the director's list of authorized IME providers at the time of the IME, the insurer may not use the IME report and the report may not be used in any subsequent proceedings.

#### (3) IME Training.

(a) The IME provider training curriculum must be approved by the director before the training is given. Any party may submit a curriculum to the director for approval. The curriculum must include:

(A) A training outline,

(B) Goals,

(C) Objectives,

(D) The method of training, and

(E) All topics addressed in Appendix B.

(b) Within 21 days of the IME training, the training vendor must send the director the date of the training and a list of all medical providers who completed the training, including names and license numbers.

(c) Insurer claims examiners must be trained and certified in accordance with OAR 436-055 regarding appropriate interactions with IME medical service providers.

#### (4) IME Related Forms.

(a) When scheduling an IME, the insurer must ensure the medical service provider has:

(A) Form 3923, "Important Information about Independent Medical Exams," available to the worker before the exam; and

(B) Form 3227, "Invasive Medical Procedure Authorization," if applicable.

(b) The IME provider must make Form 3923 with the attached observer Form 3923A available to the worker.

#### (5) IME Observer.

(a) A worker may choose to have an observer present during the IME, however, an observer may not participate in or obstruct the IME. An observer is not allowed in a psychological examination unless the examining provider approves the presence of the observer.

(b) The worker must sign Form 3923A, "IME Observer Form," acknowledging that the worker understands the IME provider may ask sensitive questions during the exam in the presence of the observer. An observer must not participate in or obstruct the exam. If the worker does not sign

# ADMINISTRATIVE RULES

Form 3923A, the provider may exclude the observer. The IME provider must verify that the worker signed the "IME Observer Form" acknowledging that the worker understands:

(A) The IME provider may ask sensitive questions during the exam in the presence of the observer;

(B) If the observer interferes with the exam, the IME provider may stop the exam, which could affect the worker's benefits; and

(C) The observer must not be paid to attend the exam.

(c) A person receiving any compensation for attending the exam may not be a worker's observer. The worker's attorney or any representative of the worker's attorney may not be an observer.

(6) Invasive Procedure. For the purposes of this rule, an invasive procedure is one that breaks the skin or penetrates, pierces, or enters the body using a surgical or exploratory procedure (e.g., by a needle, tube, scope, or scalpel). If an IME provider intends to perform an invasive procedure, the provider must explain to the worker the risks involved in the procedure and the worker's right to refuse the procedure. The worker must check the applicable box on Form 3227, "Invasive Medical Procedure Authorization," either agreeing to the procedure or declining the procedure and sign the form.

(7) Record the Exam. With the IME provider's approval, the worker may use a video camera or other recorder to record the exam.

(8) Objection to the IME Location. When a worker objects to the location of an IME, the worker may request review before the director within six business days of the mailing date of the appointment notice.

(a) The request may be made in-person, by telephone, fax, email, or mail.

(b) The director may facilitate an agreement between the parties regarding location.

(c) If necessary, the director will conduct an expedited review and issue an order regarding the reasonableness of the location.

(d) The director will determine if travel is medically contraindicated or unreasonable because:

(A) The travel exceeds limitations imposed by the attending physician, authorized nurse practitioner, or any medical conditions;

(B) Alternative methods of travel will not overcome the limitations; or

(C) The travel would impose undue hardship for the worker that outweighs the right of the insurer to select an IME location of its choice.

(9) Failure to Attend an IME. If the worker fails to attend an IME and does not notify the insurer before the date of the exam or does not have sufficient reason for not attending the exam, the director may impose a monetary penalty against the worker for failure to attend.

(10) IME Report.

(a) Upon completion of the exam, the IME provider must:

(A) Send the insurer a copy of the report and, if applicable, the observer Form 3923A, the invasive procedure Form 3227, or both.

(B) Sign a statement at the end of the report acknowledging that any false statements may result in sanctions by the director and verifying:

(i) Who performed the exam;

(ii) Who dictated the report; and

(iii) The accuracy of the report content.

(b) The insurer must forward a copy of the signed report to the attending physician or authorized nurse practitioner within 72 hours of the insurer's receipt of the report.

(11) Request for Additional Exams.

(a) When the insurer has obtained the three IMEs allowed under this rule and wants to require the worker to attend an additional IME, the insurer must first request authorization from the director. Insurers that fail to request authorization from the director may be assessed a civil penalty. The process for requesting authorization is:

(A) The insurer must submit a request for authorization to the director by using Form 2333, "Insurer's Request for Director Approval of an Additional Independent Medical Examination." The insurer must send a copy of the request to the worker and the worker's attorney, if any; and

(B) The director will review the request and determine if additional information from the insurer or the worker is necessary. Upon receiving a written request for additional information from the director, the parties have 14 days to respond. If the parties do not provide the requested information, the director will issue an order approving or disapproving the request based on available information.

(b) To determine whether to approve or deny the request for an additional IME, the director may consider, but is not limited to, whether:

(A) An IME involving the same discipline(s) or review of the same condition has been completed within the past six months.

(B) There has been a significant change in the worker's condition.

(C) There is a new condition or compensable aspect introduced to the claim.

(D) There is a conflict of medical opinions about a worker's medical treatment, medical services, impairment, stationary status, or other issues critical to claim processing or benefits.

(E) The IME is requested to establish preponderance for medically stationary status.

(F) The IME is medically harmful to the worker.

(G) The IME requested is for a condition for which the worker has sought treatment or services, or the condition has been included in the compensable claim.

(c) Any party who disagrees with the director's order approving or disapproving a request for an additional IME may request a hearing by the Hearings Division of the Workers' Compensation Board under ORS 656.283 and OAR chapter 438.

(12) Other Exams — Not Considered IMEs. The following exams are not considered IMEs and do not require approval as outlined in section (11) of this rule:

(a) An exam, including a closing exam, requested by the worker's attending physician or authorized nurse practitioner;

(b) An exam requested by the director;

(c) An elective surgery consultation requested under OAR 436-010-0250(3);

(d) An exam of a permanently totally disabled worker required under ORS 656.206(5);

(e) A closing exam that has been arranged by the insurer at the attending physician's or authorized nurse practitioner's request; and

(f) An exam requested by the managed care organization (MCO) for the purpose of clarifying or refining a plan for continuing medical services as provided under the MCO's contract.

### Insurer's Rights and Duties

(1) Notifications.

(a) Immediately following receipt of notice or knowledge of a claim, the insurer must notify the worker in writing about how to receive medical services for compensable injuries.

(b) Within 10 days of any change in the status of a claim, (e.g., acceptance or denial of a claim, or a new or omitted medical condition), the insurer must notify the attending physician or authorized nurse practitioner, if known, and the MCO, if any.

(c) In disabling and nondisabling claims, immediately following notice or knowledge that the worker is medically stationary, the insurer must notify the worker and the attending physician or authorized nurse practitioner in writing which medical services remain compensable. This notice must list all benefits the worker is entitled to receive under ORS 656.245(1)(c).

(d) When the insurer establishes a medically stationary date that is not based on the findings of an attending physician or authorized nurse practitioner, the insurer must notify all medical service providers of the worker's medically stationary status. For all injuries occurring on or after October 23, 1999, the insurer must pay all medical service providers for services rendered until the insurer provides notice of the medically stationary date to the attending physician or authorized nurse practitioner.

(2) Medical Records Requests.

(a) Insurers may request relevant medical records, using Form 2476, "Request for Release of Medical Records for Oregon Workers' Compensation Claim," or a computer-generated equivalent of Form 2476, with "signature on file" printed on the worker's signature line, provided the insurer maintains a worker-signed original of the release form.

(b) Within 14 days of receiving a request, the insurer must forward all relevant medical information to return-to-work specialists, vocational rehabilitation organizations, or new attending physician or authorized nurse practitioner.

# ADMINISTRATIVE RULES

(3) Pre-authorization. Unless otherwise provided by an MCO, an insurer must respond in writing within 14 days of receiving a medical provider's written request for preauthorization of diagnostic imaging studies, other than plain film X-rays. The response must include whether the service is pre-authorized or not pre-authorized.

(4) Insurer's Duties under MCO Contracts.

(a) Insurers who enter into an MCO contract under OAR 436-015, must notify the affected employers of the following:

(A) The names and addresses of all MCO panel providers within the employer's geographical service area(s);

(B) How workers can receive compensable medical services within the MCO;

(C) How workers can receive compensable medical services by non-panel providers; and

(D) The geographical service area governed by the MCO.

(b) Insurers under contract with an MCO must notify any newly insured employers as specified in subsection (4)(a) of this rule no later than the effective date of coverage.

(c) When the insurer is enrolling a worker in an MCO, the insurer must provide the name, address, and telephone number of the worker and, if represented, the name of the worker's attorney to the MCO.

(d) When the insurer is enrolling a worker in an MCO, the insurer must simultaneously provide written notice to the worker, the worker's representative, all medical providers, and the MCO of enrollment. To be considered complete, the notice must:

(A) Provide the worker a written list of the eligible attending physicians within the relevant MCO geographic service area or provide a Web address to access the list of eligible attending physicians. If the notice does not include a written list, then the notice must also:

(i) Provide a telephone number the worker may call to ask for a written list; and

(ii) Tell the worker that he or she has seven days from the mailing date of the notice to request the list;

(B) Explain how the worker may obtain the names and addresses of the complete panel of MCO medical providers;

(C) Advise the worker how to obtain medical services for compensable injuries within the MCO. This includes whether the worker:

(i) Must to change attending physician or authorized nurse practitioner to an MCO panel provider; or

(ii) May continue to treat with the worker's current attending physician or authorized nurse practitioner;

(D) Explain how the worker can receive compensable medical treatment from a "come-along" provider;

(E) Advise the worker of the right to choose the MCO when more than one MCO contract covers the worker's employer, except when the employer provides a coordinated health care program. For the purpose of this rule, "coordinated health care program" means an employer program providing coordination of a separate policy of group health insurance coverage with the medical portion of workers' compensation coverage, for some or all of the employer's workers, which provides the worker with health care benefits even if a worker's compensation claim is denied; and

(F) Notify the worker of his or her right to appeal MCO decisions and provide the worker with the title, address, and telephone number of the contact person at the MCO responsible for ensuring the timely resolution of complaints or disputes.

(e) When an insurer enrolls a worker in an MCO before claim acceptance, the insurer must inform the worker in writing that the insurer will pay for certain medical services even if the claim is denied. Necessary and reasonable medical services that are not otherwise covered by health insurance will be paid until the worker receives the notice of claim denial or until three days after the denial is mailed, whichever occurs first.

(f) When a worker who is not yet medically stationary must change medical providers because an insurer enrolled the worker in an MCO, the insurer must notify the worker of the right to request review before the MCO if the worker believes the change would be medically detrimental.

(g) If, at the time of MCO enrollment, the worker's medical service providers are not members of the MCO and do not qualify as "come-along providers," the insurer must notify the worker and providers regarding provisions of care under the MCO contract, including continuity of care as provided by OAR 436-015-0035(4).

(h) Within seven days of receiving a dispute regarding an issue that should be processed through the MCO dispute resolution process and a copy has not been sent to the MCO, the insurer must:

(A) Send a copy of the dispute to the MCO; or

(B) If the MCO does not have a dispute resolution process for that issue, notify the parties in writing to seek administrative review before the director.

(i) The insurer must notify the MCO within seven days of receiving notification of the following:

(A) Any changes to the worker's or worker's attorney's name, address, or telephone number;

(B) Any requests for medical services from the worker or the worker's medical provider; or

(C) Any request by the worker to continue treating with a "come-along" provider.

(j) Insurers under contract with MCOs must maintain records including, but not limited to:

(A) A listing of all employers covered by MCO contracts;

(B) The employers' WCD employer numbers;

(C) The estimated number of employees governed by each MCO contract;

(D) A list of all workers enrolled in the MCO; and

(E) The effective dates of such enrollments.

(k) When the insurer is disenrolling a worker from an MCO, the insurer must simultaneously provide written notice of the disenrollment to the worker, the worker's representative, all medical service providers, and the MCO. The insurer must mail the notice no later than seven days before the date the worker is no longer subject to the contract. The notice must tell the worker how to obtain compensable medical services after disenrollment.

(l) When an MCO contract expires or is terminated without renewal, the insurer must simultaneously provide written notice to the worker, the worker's representative, all medical service providers, and the MCO that the worker is no longer subject to the MCO contract. The notice must be mailed no later than three days before the date the contract expires or terminates. The notice must tell the worker how to obtain compensable medical services after the worker is no longer subject to the MCO contract.

### Determination of Impairment/Closing Exams

(1) When a worker has received compensation for time loss or it is likely the worker has permanent impairment and becomes medically stationary, the attending physician must complete a closing exam or refer the worker to a consulting physician for all or part of the closing exam. If the worker is under the care of an authorized nurse practitioner or a type B attending physician, other than a chiropractic physician, the provider must refer the worker to a type A attending physician to do a closing exam.

(2) The closing exam must be completed under OAR 436-030 and 436-035 and Bulletin 239. (See Appendix A "Matrix for Health Care Provider Types".)

(3) When the attending physician completes the closing exam, the attending physician has 14 days from the medically stationary date to send the closing report to the insurer. When the attending physician does not complete the closing exam, the attending physician must arrange, or ask the insurer to arrange, a closing exam with a consulting physician within seven days of the medically stationary date.

(4) When an attending physician or authorized nurse practitioner requests a consulting physician to do the closing exam, the consulting physician has seven days from the date of the exam to send the report to the attending physician for concurrence or objections. Within seven days of receiving the closing exam report, the attending physician must state in writing whether the physician concurs with or objects to all or part of the findings of the exam, and send the concurrence or objections with the report to the insurer.

(5) The attending physician must specify the worker's residual functional capacity if:

(a) The attending physician has not released the worker to the job held at the time of injury because of a permanent work restriction caused by the compensable injury, and

# ADMINISTRATIVE RULES

(b) The worker has not returned to the job held at the time of injury, because of a permanent work restriction caused by the compensable injury.

(6) Instead of specifying the worker's residual functional capacity under section (5) of this rule, the attending physician may refer the worker for:

(a) A second-level physical capacities evaluation (see OAR 436-009-0060) when the worker has not been released to return to the job held at the time of injury, has not returned to the job held at the time of injury, has returned to modified work, or has refused an offer of modified work; or

(b) A work capacities evaluation (see OAR 436-009-0060) when there is a question of the worker's ability to return to suitable and gainful employment. The provider may also be required to specify the worker's ability to perform specific job tasks.

(7) When the insurer issues a major contributing cause denial on an accepted claim and the worker is not medically stationary:

(a) The attending physician must do a closing exam or refer the worker to a consulting physician for all or part of the closing exam; or

(b) An authorized nurse practitioner or a type B attending physician, other than a chiropractic physician, must refer the worker to a type A attending physician for a closing exam.

(8) The closing report must include all of the following:

(a) Findings of permanent impairment.

(A) In an initial injury claim, the closing report must include objective findings of any permanent impairment that is caused in any part by an accepted condition, a direct medical sequela of an accepted condition, or a condition directly resulting from the work injury.

(B) In a new or omitted condition claim, the closing report must include objective findings of any permanent impairment that is caused in any part by an accepted new or omitted condition or a direct medical sequela of an accepted new or omitted condition.

(C) In an aggravation claim, the closing report must include objective findings of any permanent impairment that is caused in any part by an accepted worsened condition or a direct medical sequela of an accepted worsened condition.

(D) In an occupational disease claim, the closing report must include objective findings of any permanent impairment that is caused in any part by an accepted occupational disease or a direct medical sequela of an accepted occupational disease.

(b) Findings documenting permanent work restrictions.

(A) If the worker has no permanent work restriction, the closing report must include a statement indicating that:

(i) The worker has no permanent work restriction; or

(ii) The worker is released, without restriction, to the job held at the time of injury.

(B) In an initial injury claim, the closing report must include objective findings documenting any permanent work restriction that:

(i) Prevents the worker from returning to the job held at the time of injury; and

(ii) Is caused in any part by an accepted condition, a direct medical sequela of an accepted condition, or a condition directly resulting from the work injury.

(C) In a new or omitted condition claim, the closing report must include objective findings documenting any permanent work restriction that:

(i) Prevents the worker from returning to the job held at the time of injury; and

(ii) Is caused in any part by an accepted new or omitted condition or a direct medical sequela of an accepted new or omitted condition.

(D) In an aggravation claim, the closing report must include objective findings documenting any permanent work restriction that:

(i) Prevents the worker from returning to the job held at the time of injury; and

(ii) Is caused in any part by an accepted worsened condition or a direct medical sequela of an accepted worsened condition.

(E) In an occupational disease claim, the closing report must include objective findings documenting any permanent work restriction that:

(i) Prevents the worker from returning to the job held at the time of injury; and

(ii) Is caused in any part by an accepted occupational disease or a direct medical sequela of an accepted occupational disease.

(c) A statement regarding the validity of an impairment finding is required in the following circumstances:

(A) If the examining physician determines that a finding of impairment is invalid, the closing report must include a statement that identifies the basis for the determination that the finding is invalid.

(B) If the examining physician determines that a finding of impairment is valid but the finding is not addressed by any applicable validity criteria under Bulletin 239, the closing report must include a statement that identifies the basis for the determination that the finding is valid.

(C) If the examining physician chooses to disregard applicable validity criteria under Bulletin 239 because the criteria are medically inappropriate for the worker, the closing report must include a statement that describes why the criteria would be inappropriate.

## 436-010-0290

### Medical Care After Medically Stationary

(1) A worker is found medically stationary when no further material improvement would reasonably be expected from medical treatment or the passage of time. Medical services after a worker's condition is medically stationary are compensable only when services are:

(a) Palliative care under section (2) of this rule;

(b) Curative care under sections (3) and (4) of this rule;

(c) Provided to a worker who has been determined permanently and totally disabled;

(d) Prescription medications;

(e) Necessary to administer or monitor administration of prescription medications;

(f) Prosthetic devices, braces, or supports;

(g) To monitor the status of, to replace, or to repair prosthetic devices, braces, and supports;

(h) Provided under an accepted claim for aggravation;

(i) Provided under Board's Own Motion;

(j) Necessary to diagnose the worker's condition; or

(k) Life-preserving modalities similar to insulin therapy, dialysis, and transfusions.

(2) Palliative Care.

(a) Palliative care means that medical services are provided to temporarily reduce or moderate the intensity of an otherwise stable medical condition. It does not include those medical services provided to diagnose, heal, or permanently alleviate or eliminate a medical condition. Palliative care is compensable when the attending physician prescribes it and it is necessary to enable the worker to continue current employment or a vocational training program. Before palliative care can begin, the attending physician must submit a written palliative care request to the insurer for approval. The request must:

(A) Describe any objective findings;

(B) Identify the medical condition for which palliative care is requested by the appropriate ICD diagnosis;

(C) Detail a treatment plan which includes the name of the provider who will provide the care, specific treatment modalities, and frequency and duration of the care, not to exceed 180 days;

(D) Explain how the requested care is related to the compensable condition; and

(E) Describe how the requested care will enable the worker to continue current employment, or a current vocational training program, and the possible adverse effect if the care is not provided.

(b) Palliative care may begin after the attending physician submits the request to the insurer. If the insurer approves the request, palliative care services are payable from the date service begins. However, if the request is ultimately disapproved, the insurer is not liable for payment of the palliative care services.

(c) Insurers must date stamp all palliative care requests upon receipt. Within 30 days of receiving the request, the insurer must send written notice to the attending physician, worker, and worker's attorney approving or disapproving the request.

(d) If the insurer disapproves the request, the insurer must explain the reason why in writing. Reasons to disapprove a palliative care request may include:

# ADMINISTRATIVE RULES

(A) The palliative care services are not related to the accepted condition(s);

(B) The palliative care services are excessive, inappropriate, or ineffectual; or

(C) The palliative care services will not enable the worker to continue current employment or a current vocational training program.

(e) When the insurer disapproves the palliative care request, the attending physician or the worker may request administrative review before the director under OAR 436-010-0008. The request for review must be within 90 days from the date of the insurer's disapproval notice. In addition to information required by OAR 436-010-0008, if the request is from the attending physician, it must include:

(A) A copy of the original request to the insurer; and

(B) A copy of the insurer's response.

(f) If the insurer fails to respond to the request in writing within 30 days, the attending physician or worker may request approval from the director within 120 days from the date the request was first submitted to the insurer. When the attending physician requests approval from the director, the physician must include a copy of the original request and may include any other supporting information.

(g) Subsequent requests for palliative care are subject to the same process as the initial request; however, the insurer may waive the requirement that the attending physician submit a supplemental palliative care request.

(3) Curative Care. Curative medical care is compensable when the care is provided to stabilize a temporary and acute waxing and waning of symptoms of the worker's condition.

(4) Advances in Medical Science. The director must approve curative care arising from a generally recognized, nonexperimental advance in medical science since the worker's claim was closed that is highly likely to improve the worker's condition and that is otherwise justified by the circumstances of the claim. When the attending physician believes that curative care is appropriate, the physician must submit a written request for approval to the director. The request must:

(a) Describe any objective findings;

(b) Identify the appropriate ICD diagnosis (the medical condition for which the care is requested);

(c) Describe in detail the advance in medical science that has occurred since the worker's claim was closed that is highly likely to improve the worker's condition;

(d) Provide an explanation, based on sound medical principles, as to how and why the care will improve the worker's condition; and

(e) Describe why the care is otherwise justified by the circumstances of the claim.

### Requesting Exclusion of Medical Treatment from Compensability

If a worker or insurer believes that any medical treatment is unscientific, unproven as to its effectiveness, outmoded, or experimental, either party may initiate a request for exclusion of the medical treatment from compensability under ORS 656.245(3). The request must include documentation on why the medical treatment should be excluded from compensability for workers' compensation claims. The director will request advice from the licensing boards of practitioners that might be affected and the Medical Advisory Committee. The director will issue an order and may adopt a rule declaring the treatment to be noncompensable. The decision of the director is appealable under ORS 656.704. Request for administrative review of an individual worker's treatment under ORS 656.327 does not initiate review under this process. Excluded treatments are listed in OAR 436-009-0010.

### Medical Arbiters and Physician Reviewers

(1) The director will establish and maintain a list of arbiters. The director will appoint a medical arbiter or a panel of medical arbiters from this list under ORS 656.268.

(2) The director will establish and maintain a list of physician reviewers. The director will appoint an appropriate physician or a panel of physicians from this list to review medical treatment or medical services disputes under ORS 656.245, 656.260, and 656.327.

(3) When a worker is required to attend an examination under this rule, the director will provide notice of the examination to the worker and all affected parties. The notice will inform all parties of the time, date, location, and purpose of the examination. Examinations will be at a place reasonably convenient to the worker, if possible.

(a) Reprimand by the director;

(b) Non-payment, reduction, or recovery of fees in part or whole for medical services provided;

(c) Referral to the appropriate licensing board;

(d) Civil penalty not to exceed \$1,000 for each occurrence. In determining the amount of penalty to be assessed, the director will consider:

(A) The degree of harm inflicted on the worker or the insurer;

(B) Whether there have been previous violations; and

## Department of Corrections Chapter 291

**Rule Caption:** Program for Inmates to Obtain Driver License or Identification Card Prior to Release

**Adm. Order No.:** DOC 10-2015

**Filed with Sec. of State:** 8-21-2015

**Certified to be Effective:** 8-21-15

**Notice Publication Date:** 5-1-2015

**Rules Amended:** 291-207-0100

**Subject:** Need for the Rule(s): ORS 802.087 requires DMV and DOC to jointly adopt rules and enter into interagency agreements necessary to assist offenders in obtaining a driver license or identification card prior to an offender's release from a correctional institution. The current interagency agreement expires on June 30, 2015. In an effort to increase efficiencies in the program, DMV and DOC met to determine if there were changes to the agreement or the rules that should be made. A couple of small changes were identified that needed to be made in rule as follows:

1. Refer to DMV's administrative rule regarding the renewal of a driver license or identification card rather than stating that the card can be renewed up to 14 months in advance. This change is proposed because DMV's policy regarding renewal is being evaluated and that time period may change shortly after these amended rules take effect.

2. Allow DOC to complete an application packet for an eligible inmate up to 180 days in advance of release date rather than 90 days. This is an effort to be able to provide the service to more inmates.

3. Remove the requirement that a photo of the inmate that contains the state identification (SID) number be part of the application packet. This is because DMV reviews the photo electronically at the time of the initial screening of the inmate's eligibility.

### 291-207-0100

#### DMV/DOC Program for an Inmate Obtaining a Driver License or Identification Card Prior to Release

(1) The Oregon Department of Transportation, Driver and Motor Vehicle Services Division (DMV) and the Oregon Department of Corrections (DOC) have established, through interagency agreement, the following program to help an inmate obtain a driver license or identification card prior to his or her release from custody.

(2) For purposes of this rule, the term "inmate" means any person under the supervision of the DOC and who is not on parole, probation or post-prison supervision status.

(3) Notwithstanding OAR 735-062-0016, DMV may issue a renewal or replacement driver license or an identification card containing the last photograph of the inmate on file with DMV. The photograph on file must not be older than nine years and two months. DMV will issue as follows:

(a) A replacement driver license to an inmate whose driving privileges are valid or are reinstated at the time of issuance;

(b) A renewal driver license to an inmate whose driving privileges are valid or are reinstated at the time of issuance and whose driver license is within the allotted time for early renewal as described in OAR 735-062-0090(4) or has been expired for less than one year; or

(c) An original, renewal or replacement identification card to an inmate:

(A) Who is not eligible for driving privileges under sections (4), (7) or (8) of this rule;

(B) Whose previous driver license has been expired for more than one year;

(C) Whose driving privileges are suspended, revoked or cancelled; or

(D) Who has never been issued or does not currently qualify for a driver license under ORS 807.040.

(4) DMV will make an inquiry to the National Driver Register/Problem Driver Pointer System (NDR/PDPS) and the Commercial Driver License Information System (CDLIS), to determine if the inmate's driving privileges are suspended, revoked, cancelled or otherwise not valid in any other jurisdiction. An inmate whose driving privileges are not valid in any other jurisdiction is not eligible to replace or renew driving privileges in Oregon.

(5) DOC may complete an application packet for each eligible inmate within no more than 180 days prior to the inmate's date of release from DOC custody. The application packet must include:

(a) A completed Valid with Previous Photo DL/ID Card (VWPP) Application, DMV Form 735-171C, signed by the inmate. The application must include the inmate's Social Security Number (SSN). DMV must verify, or have previously verified, the SSN with the Social Security Administration, as required by OAR 735-062-0005;

(b) Proof of legal name as required by OAR 735-062-0014;

(c) Proof of legal presence as required by OAR 735-062-0015 and the interagency agreement; and

(d) Proof of date of birth and identity as required by OAR 735-062-0020.

(6) On the application DOC must certify:

(a) That the copies of the documents submitted to meet the requirements of section (5) of this rule are true copies of the original documents and that the documents pertain to the inmate for whom DOC is submitting the VWPP application; and

(b) That the inmate will be living in Oregon when released and the address provided on the application meets the requirements for residence or mailing address as outlined in the interagency agreement.

(7) An inmate is not eligible for driving privileges, under ORS 807.060(4) or (5), and DMV will not replace or renew a driver license, if on the VWPP Application the inmate:

(a) Answers yes to the question "Do you have a vision condition or impairment that has not been corrected by glasses, contacts or surgery that affects your ability to drive safely?";

(b) Answers yes to the question "Do you have any physical or mental conditions or impairments that affect your ability to drive safely?"; or

(c) Answers yes to the question "Do you use alcohol, inhalants, or controlled substances to a degree that affects your ability to drive safely?"

(8) An inmate who is eligible to renew his or her driving privileges, and is or will be 50 years of age or older at the time his or her driving privileges expire, must meet the requirements of OAR 735-062-0060. As the inmate will not be at a DMV field office for the vision screening, DOC must provide a vision examination form, Certificate of Vision, DMV Form 735-24, completed by a licensed ophthalmologist or optometrist with the VWPP application. If no Certificate of Vision form is included or the inmate does not meet the vision standards set forth in OAR 735-062-0050, the inmate is only eligible for an identification card.

(9) When an inmate's driving privileges are valid (not suspended, revoked, cancelled or expired more than one year) the inmate must surrender driving privileges in order to be eligible for an identification card. A completed Surrender of Driving Privilege(s), DMV Form 735-7206, must be included with the VWPP application of any inmate who is surrendering driving privileges. A person who surrenders driving privileges must pass all

# ADMINISTRATIVE RULES

tests and pay all fees associated with an original driver license to regain driving privileges at a later date.

(10) DOC will pay the fee listed in ORS 807.370 or 807.410, as appropriate, for each inmate issued a driver license or identification card in a manner outlined in the interagency agreement.

(11) When an inmate's driver license or identification card issued pursuant to this rule is renewed or replaced, he or she must provide proof of citizenship or permanent legal residency as required by OAR 735-062-0015, unless DMV records show the person has previously provided such proof.

## 635-004-0275

### Scope, Inclusion, and Modification of Rules

(1) The commercial groundfish fishery in the Pacific Ocean off Oregon is jointly managed by the state of Oregon and the federal government through the Pacific Fishery Management Council process. The Code of Federal Regulations provides federal requirements for this fishery, including but not limited to the time, place, and manner of taking groundfish. However, additional regulations may be promulgated subsequently by publication in the Federal Register, and these supersede, to the extent of any inconsistency, the Code of Federal Regulations. Therefore, the following publications are incorporated into Oregon Administrative Rule by reference:

(a) Code of Federal Regulations, Part 660, Subparts C, D, E and F (October 1, 2014 ed.);

(b) Federal Register Vol. 80, No. 46, dated March 10, 2015 (80 FR 12567);

(c) Federal Register Vol. 79, No. 231, dated December 2, 2014 (79 FR 71340).

(2) Persons must consult the federal regulations in addition to Division 004 to determine all applicable groundfish fishing requirements. Where federal regulations refer to the fishery management area, that area is extended from shore to three nautical miles from shore coterminous with the Exclusive Economic Zone.

(3) The Commission may adopt additional or modified regulations that are more conservative than federal regulations, in which case Oregon Administrative Rule takes precedence. See OAR 635-004-0205 through 635-004-0235 and 635-004-0280 through 635-004-0365 for additions or modifications to federal groundfish regulations.

(4) Notwithstanding the regulations defined in section (1) of this rule, the National Marine Fisheries Service, by means of Federal Register Vol. 80, No. 107, dated Thursday, June 4, 2015 (80 FR 31858), announced in-season actions and management measures effective June 1, 2015, including but not limited to establishment of trip limits and sorting requirements for big skate.

(5) Notwithstanding the regulations defined in sections (1) and (4) of this rule, the National Marine Fisheries Service, by means of Federal Register Vol. 80, No. 160, dated Wednesday, August 19, 2015 (80 FR 50212), announced in-season actions and management measures effective

August 14, 2015, including but not limited to increases to sablefish trip limits in the Limited Entry Fixed Gear and Open Access Sablefish Daily Trip Limit Fisheries, and increases to Big Skate trip limits in the Shore-based Individual Fishing Quota Program.

## 635-042-0145

### Youngs Bay Salmon Season

(1) Chinook, coho, pink, and sockeye salmon and shad may be taken for commercial purposes in those waters of Youngs Bay described as all waters from the new Highway 101 bridge upstream to the upper boundary markers at Battle Creek Slough; including the lower Walluski River upstream to the Highway 202 bridge and the lower Lewis and Clark River upstream to the overhead power lines immediately upstream of Barrett Slough. Open fishing periods are as follows:

7:00 p.m. Tuesdays through 7:00 a.m. Thursdays, weekly from August 4 through August 20, 2015 (three 36-hour periods);

7:00 p.m. Monday, August 24 through 7:00 a.m. Tuesday, August 25, 2015 (12 hours);

7:00 p.m. Wednesday, August 26 through 7:00 a.m. Thursday, August 27, 2015 (12 hours);

7:00 p.m. Monday, August 31 through 7:00 a.m. Friday, September 4, 2015 (3.5 days); and

7:00 p.m. Monday, September 7 through noon Friday, October 30, 2015 (54 days).

(2) Gill nets may not exceed 1,500 feet (250 fathoms) in length and weight may not exceed two pounds per any fathom except the use of additional weights and/or anchors attached directly to the leadline is allowed in Youngs Bay between markers located approximately 200 yards upstream of the mouth of the Walluski River and the upper deadline at Battle Creek Slough, in the lower Walluski River upstream to the Highway 202 Bridge, and in the Lewis and Clark River from the Alternate Highway 101 Bridge upstream to the overhead power lines immediately upstream of Barrett Slough. A red cork must be placed on the corkline every 25 fathoms as measured from the first mesh of the net. Red corks at 25-fathom intervals must be in color contrast to the corks used in the remainder of the net.

(a) It is *unlawful* to use a gill net having a mesh size that is more than 9.75 inches through August 20 and more than 6 inches thereafter. Nets that are fished at any time between official sunset and official sunrise must have lighted buoys on both ends of the net unless the net is attached to the boat. If the net is attached to the boat, then one lighted buoy on the opposite end of the net from the boat is required.

(b) Nets not specifically authorized for use in these areas may be onboard a vessel if properly stored. A properly stored net is defined as a net on a drum that is fully covered by a tarp (canvas or plastic) and bound with a minimum of ten revolutions of rope with a diameter of 3/8 (0.375) inches or greater

(3) Non-resident commercial fishing and boat licenses are not required for Washington fishers participating in Youngs Bay commercial fisheries. A valid fishing and boat license issued by the state of Washington is considered adequate for participation in this fishery. The open area for non-resident commercial fishers includes all areas open for commercial fishing.

## 635-014-0090

### Inclusions and Modifications

(1) The **2015 Oregon Sport Fishing Regulations** provide requirements for the Northwest Zone. However, additional regulations may be adopted in this rule division from time to time and to the extent of any inconsistency, they supersede the **2015 Oregon Sport Fishing Regulations** pamphlet.

(2) Notwithstanding all other requirements provided in the **2015 Oregon Sport Fishing Regulations** pamphlet, the following additional rules apply to wild coho salmon angling in waters of the Northwest Zone during the period September 1–December 31, 2015:

(a) For the purposes of regulations described in section (2) of this rule, wild coho are defined as fish with an intact adipose fin.

(b) For all waters in the Northwest and Southwest zones that are open to wild coho harvest, anglers may not take more than 1 wild adult coho and 1 wild jack coho per day regardless of location. There is no seasonal limit on wild coho jacks regardless of location. The seasonal limit on wild coho adults for the Northwest and Southwest zones is 5 fish in aggregate from all waters. Harvest of wild coho salmon is allowed in the following waterbodies with restrictions as specified in sections (2)(c) through (2)(i) of this rule.

(A) No more than 1 adult wild coho may be harvested for the season from either the Nestucca River Basin or the Tillamook River Basin. Wild adult coho taken from these areas do not count towards the 2 fish limit described in section (2)(b)(B) of this rule, but do count towards the overall 5 fish aggregate limit for the Northwest and Southwest zones;

(B) No more than 2 adult wild coho in total for the season may come from any combination of the following areas: Siletz River, Yaquina River, Alsea River, Siuslaw River, Umpqua River, Beaver Creek (Ona Beach), Floras Creek/New River, Coos River, and Coquille River. Wild adult coho taken from these areas do not count towards the 1 fish limit described in section (2)(b)(A) of this rule, but do count towards the overall 5 fish aggregate limit for the Northwest and Southwest zones; and

(C) No more than 5 adult wild coho in total for the season may come from any combination of the following areas: Siltcoos Lake, Tahkenitch Lake, and Tenmile Lake (SW Zone). Wild adult coho taken from these areas do not count against aggregate limits described in sections (2)(b)(A) and (2)(b)(B) of this rule, but do count towards the overall 5 fish limit for the Northwest and Southwest zones as specified in section (2)(b) of this rule.

(c) Tillamook Bay tidewater from the jetty tips upstream to Highway 101 Bridge on Miami, Kilchis, Wilson, and Trask rivers and Burton Bridge on Tillamook River is open on Fridays and Saturdays only for wild coho salmon from September 18 through October 31. Daily and seasonal catch limits as described in section (2)(b) of this rule apply.

(B) For purse seines, sort time is defined as the elapsed time from when all rings are pursed and out of the water until the net is emptied of fish.

(h) As a condition of fishing, agency observers are required to be present at all times during fishing operations.

**Subject:** These amended and suspended rules remove previously adopted angling restrictions for trout, salmon, steelhead and sturgeon fisheries implemented around Oregon in July 2015 due to unusually warm stream temperatures. Water temperatures in the areas affected by these rule modifications have returned to near normal for this time of year and are expected to continue to improve. Fisheries managers believe the earlier restrictions are no longer necessary.

### Inclusions and Modifications

(1) The **2015 Oregon Sport Fishing Regulations** provide requirements for the Northwest Zone. However, additional regulations may be adopted in this rule diversion from time to time and to the extent of any inconsistency, they supersede the **2015 Oregon Sport Fishing Regulations** pamphlet.

(2) Notwithstanding all other requirements provided in the **2015 Oregon Sport Fishing Regulations** pamphlet, the following additional rules apply to wild coho salmon angling in waters of the Northwest Zone during the period September 1–December 31, 2015:

(a) For the purposes of regulations described in section (2) of this rule, wild coho are defined as fish with an intact adipose fin.

# ADMINISTRATIVE RULES

(b) For all waters in the Northwest and Southwest zones that are open to wild coho harvest, anglers may not take more than 1 wild adult coho and 1 wild jack coho per day regardless of location. There is no seasonal limit on wild coho jacks regardless of location. The seasonal limit on wild coho adults for the Northwest and Southwest zones is 5 fish in aggregate from all waters. Harvest of wild coho salmon is allowed in the following waterbodies with restrictions as specified in sections (2)(c) through (2)(i) of this rule.

(A) No more than 1 adult wild coho may be harvested for the season from either the Nestucca River Basin or the Tillamook River Basin. Wild adult coho taken from these areas do not count towards the 2 fish limit described in section (2)(b)(B) of this rule, but do count towards the overall 5 fish aggregate limit for the Northwest and Southwest zones;

(B) No more than 2 adult wild coho in total for the season may come from any combination of the following areas: Siletz River, Yaquina River, Alsea River, Siuslaw River, Umpqua River, Beaver Creek (Ona Beach), Floras Creek/New River, Coos River, and Coquille River. Wild adult coho taken from these areas do not count towards the 1 fish limit described in section (2)(b)(A) of this rule, but do count towards the overall 5 fish aggregate limit for the Northwest and Southwest zones; and

(C) No more than 5 adult wild coho in total for the season may come from any combination of the following areas: Siltcoos Lake, Tahkenitch Lake, and Tenmile Lake (SW Zone). Wild adult coho taken from these areas do not count against aggregate limits described in sections (2)(b)(A) and (2)(b)(B) of this rule, but do count towards the overall 5 fish limit for the Northwest and Southwest zones as specified in section (2)(b) of this rule.

(c) Tillamook Bay tidewater from the jetty tips upstream to Highway 101 Bridge on Miami, Kilchis, Wilson, and Trask rivers and Burton Bridge on Tillamook River is open on Fridays and Saturdays only for wild coho salmon from September 18 through October 31. **Rule Caption:** Modified Angling Regulations for Rotenone Treatment in Southeast and Northeast Angling Zones.

**Adm. Order No.:** DFW 121-2015(Temp)

**Filed with Sec. of State:** 8-31-2015

**Certified to be Effective:** 9-1-15 thru 12-31-15

**Notice Publication Date:**

**Rules Amended:** 635-019-0090, 635-021-0090

**Rules Suspended:** 635-019-0090(T), 635-021-0090(T)

**Subject:** These amended rules liberalize catch limits and harvest methods for several water bodies in the Northeast angling zone and modify the angling closure date for Balm Creek Reservoir in the Southeast angling zone due to the scheduled treatment of these waters with Rotenone, a fish toxicant, in late September. These rule modifications provide sport fishers an opportunity to salvage as many fish as possible prior to this treatment, which is necessary to remove unwanted fish species.

**Rules Coordinator:** Michelle Tate—(503) 947-6044

**635-019-0090**

**Inclusions and Modifications**

(1) The **2015 Oregon Sport Fishing Regulations** provide requirements for the Northeast Zone. However, additional regulations may be adopted in this rule division from time to time and to the extent of any inconsistency, they supersede the **2015 Oregon Sport Fishing Regulations**.

(2) Boundary Pond, Goldfish Pond, Granite Meadows Pond, Keyhole Pond, Kinney Lake, Luger Pond, Peach Pond, Widy Springs Pond and Yellowjacket Pond are open to angling for all game species from September 1 through 25, 2015 with the following restrictions:

- Allowed harvest methods are by hand, dip net or angling;
- There are no daily catch or possession limits; and
- There are no minimum length requirements.

(3) Boundary Pond, Goldfish Pond, Granite Meadows Pond, Keyhole Pond, Kinney Lake, Luger Pond, Peach Pond, Widy Springs Pond and Yellowjacket Pond are closed to angling from September 26 through December 31, 2015.

(4) All other regulations as shown in the **2015 Oregon Sport Fishing Regulations** remain in effect.

### Purpose

These administrative rules establish the policy of the Commission for the protection and enhancement of Greater Sage-Grouse in Oregon. These rules incorporate and supplement portions of the “Greater Sage-Grouse Conservation Assessment and Strategy for Oregon” (2011) (“the Strategy”) which sets population and habitat management objectives, and defines and governs the Department’s core area approach to conservation of sage-grouse in Oregon. These rules also advance sage-grouse population and habitat protection through a mitigation hierarchy and the establishment of a mitigation standard for impacts from certain types of development actions in sage-grouse habitat. In the event of a conflict between the “Strategy” and these rules, these rules govern.

For the purposes of OAR 635-140-0000: Technical terms used in these sections are further defined in the glossary of the “Greater Sage-Grouse Conservation Assessment and Strategy for Oregon” adopted by the Commission on April 22, 2011 (copies of the plan are available through the Oregon Department of Fish and Wildlife).

(1) “Areas of High Population Richness” are mapped areas of breeding and nesting habitat within core habitat that support the 75th percentile of breeding bird densities (i.e., the top 25%).

(2) “Core areas” are mapped sagebrush types or other habitats that support greater sage-grouse annual life history requirements that are encompassed by areas: a) of very high, high, and moderate lek density strata; b) where low lek density strata overlap local connectivity corridors; or c) where winter habitat use polygons overlap with either low lek density strata, connectivity corridors, or occupied habitat.” Core area maps are maintained by the Department.

(3) “Development action” means any human activity subject to regulation by local, state, or federal agencies that could result in the loss of sage-grouse habitat. Development actions may include but are not limited to, construction, and operational activities authorized or conducted by local,

# ADMINISTRATIVE RULES

state, and federal agencies. Development actions also include subsequent re-permitting of existing activities proposing new impacts beyond current conditions.

(4) "Direct impact" means an adverse effect of a development action upon sage-grouse habitat which is proximal to the physical footprint of the development action in time and place.

(5) "Functionality" is the ability of habitat to meet sage-grouse seasonal and/or year round life history needs (e.g. breeding, early rearing, wintering, migratory) and sustain sage-grouse populations.

(6) "Indirect impacts" are adverse effects to sage-grouse and their habitat that are caused by or will ultimately result from implementation of a development action, with such effects usually occurring later in time or more removed in distance as compared to direct effects.

(7) "Low density" areas are mapped sagebrush types or other habitats that support greater sage-grouse that are encompassed by areas where: a) low lek density strata overlapped with seasonal connectivity corridors; b) local corridors occur outside of all lek density strata; c) low lek density strata occur outside of connectivity corridors; or d) seasonal connectivity corridors occur outside of all lek density strata." Low density area maps are maintained by the Department.

(8) "General habitat" is occupied (seasonal or year-round) sage-grouse habitat outside core and low density habitats.

(9) "Priority Areas for Conservation (PACs)" are key habitats identified by state sage-grouse conservation plans or through other sage-grouse conservation efforts (e.g., federal Bureau of Land Management plans or U.S. Fish and Wildlife Service efforts). In Oregon, core area habitats are PACs.

## 635-140-0005 Population Management

In accordance with the Wildlife Policy (ORS 496.012), the Department's primary population management goal is to restore, maintain and enhance populations of greater sage-grouse such that multiple uses of populations and their habitats can continue. Regional and state population objectives shall be identified based on the best information available.

(1) Policy: Manage greater sage-grouse statewide to maintain or enhance their abundance and distribution at the 2003 spring breeding population level, approximately 30,000 birds over the next 50 years.

(2) Objectives: Consistent with the population management policy, achieve the following regional population objectives:

(a) Baker Resource Area BLM: maintain or enhance greater sage-grouse abundance and distribution at the 2003 spring breeding population level, approximately 2,000 birds.

(b) Vale District BLM excluding Baker Resource Area BLM: maintain or enhance greater sage-grouse abundance and distribution at the 2003 spring breeding population level, approximately 11,000 birds.

(c) Burns District BLM: maintain or enhance greater sage-grouse abundance and distribution at the 2003 spring breeding population level, approximately 4,300 birds.

(d) Lakeview District BLM: maintain or enhance greater sage-grouse abundance and distribution at the 2003 spring breeding population level, approximately 9,400 birds.

(e) Prineville District BLM: restore greater sage-grouse abundance and distribution near the 1980 spring breeding population level, approximately 3,000 birds.

## 635-140-0010 Habitat Management

(1) Goals: The Department's habitat goals are to achieve the following, recognizing that such achievement is dependent upon authorities, programs, collaborative partnerships, and other factors beyond those within the Department's authority alone:

(a) Maintain or enhance the distribution of sagebrush habitats within greater sage-grouse range in Oregon;

(b) Manage those habitats in a variety of structural stages to benefit greater sage-grouse while reducing or minimizing habitat threats and promoting resilience;

(c) Avoid development actions in sage-grouse core, low density, and general habitats which adversely impact sage-grouse habitat or sage-grouse use of those habitats;

(d) Limit the extent, location, and negative impacts of development actions over time within sage-grouse core, low density, and general habitats. In core areas, direct impact levels from development actions will be limited to no more than 3% of any "Priority Area for Conservation" and a rate not to exceed 1.0% over a ten year period, as described in OAR 660-023-0115;

(e) Require compensatory mitigation for direct and indirect impacts from developments within sage-grouse core, low density, and general habitats. Ensure such mitigation provides a net conservation benefit to sage-grouse and their habitat by providing an increase in the functionality of their habitat to support sage-grouse, consistent with OAR 635-140-0025.

(2) Objective: Manage a minimum of 70% of greater sage-grouse range for sagebrush habitat in advanced structural stages, sagebrush class 3, 4 or 5, with an emphasis on classes 4 and 5. The remaining approximately 30% includes areas of juniper encroachment, non-sagebrush shrub land, and grassland and should be managed to increase available habitat within greater sage-grouse range.

(3) Objective: Maintain and enhance existing sagebrush habitats and enhance potential habitats that have been disturbed such that there is a net conservation gain of sagebrush habitat in the following regions:

(a) Baker Resource Area BLM: 82% sagebrush and 18% disturbed habitats.

(b) Vale District BLM (excluding Baker Resource Area): 70% sagebrush and 30% disturbed habitats.

(c) Burns District BLM: 68% sagebrush and 32% disturbed habitats.

(d) Lakeview District BLM: 72% sagebrush and 28% disturbed habitats.

(e) Prineville District BLM: 47% sagebrush and 53% disturbed habitats.

## 635-140-0015 Core Area Approach to Conservation

The purpose of establishing the Department's core area approach is to address greater sage-grouse management from a conservation biology perspective that identifies the most productive populations and habitats associated with meeting all life history needs related to ensuring sage-grouse viability in Oregon.

(1) Policy 1. The Department shall develop and maintain maps that identify core area habitats necessary to conserve 90% of Oregon's greater sage-grouse population, with emphasis on highest density and important use areas which provide for breeding, wintering and connectivity corridors.

(2) Policy 2. The Department shall develop and maintain maps that identify low density habitat which provide breeding, summer, and migratory habitats of the Oregon statewide greater sage-grouse population.

(3) When developing, revising, or maintaining the maps referred to in paragraphs (a) and (b) the Department will use:

(a) Local Sage-Grouse Implementation Teams to evaluate the maps and refine exterior boundaries by use of aerial imagery and local knowledge of sage-grouse and sage-grouse habitat;

(b) Best available science to further understanding of greater sage-grouse life history and conservation needs; and

(c) County governing bodies, or their designees, to provide local knowledge and input regarding changes in local land use to be incorporated in the core area maps and any related mapping changes.

## 635-140-0025 Mitigation Hierarchy of Impacts in Sage-grouse Core, Low Density, and General Habitats

Adverse impacts in sage-grouse core, low density, and general habitat from development actions must be mitigated by the developer for both direct and indirect adverse impacts to sage-grouse and their habitats. When ascertaining direct and indirect adverse impacts from development actions, the Department will use the most current and best available science related to sage-grouse biology and habitat conservation, including the Mitigation Framework for Sage-Grouse Habitats (ODFW, March 20, 2012). Mitigation is comprised, in hierarchical order, of avoidance, minimization, and compensatory mitigation.

(1) Policy 1. Mitigation for direct and indirect impacts from development actions will be required where the proposed development action:

# ADMINISTRATIVE RULES

(a) Requires a county land use permit, is a large-scale development as defined in OAR 660-023-0115, and would impact core or low density habitat,

(b) Requires a county land use permit, is a large-scale development as defined in OAR 660-023-0115, and would impact general habitat within 3.1 miles of a lek in a manner that would reduce functional sage-grouse habitat or sage-grouse use of their habitat,

(c) Requires a county land use permit but is not a large scale development as defined in OAR 660-023-0115. In this case, through consultation with the development action proponent, the Department will determine:

(A) Whether to require mitigation based on the likelihood of adverse impacts from the proposed action in a manner that would reduce functional sage-grouse habitat or sage-grouse use of that habitat;

(i) Within 4 miles of a lek in core area habitat;

(ii) Within 3.1 miles of a lek in low density habitat; or

(iii) Within 3.1 miles of a lek in general habitat.

(B) If mitigation is required based on (1)(c)(A) above, the appropriate level of mitigation will be based on the nature of the impact upon habitat functionality and the resultant risk to sage-grouse.

(C) Mitigation is not required for private land agricultural activities exempted from regulation under OAR-660-023-0115.

(d) Is located in or would adversely impact sage-grouse habitat on public lands and requires state or federal approval not otherwise exempted in OAR 660-023-0115.

(2) Policy 2. The Department may approve or recommend approval of mitigation for impacts from a large-scale development permitted by a county; or development actions permitted by a state or federal government entity on public land, within sage-grouse habitat only after the following mitigation hierarchy has been addressed by the permitting entity, with the intent of directing the development action away from the most productive habitats and into the least productive areas for sage-grouse (in order of importance: core area, low density, general, and non-habitat).

(a) Avoidance in Core Area Habitat. If the proposed development can occur in another location that avoids both direct and indirect impacts within core habitat, then the proposal must not be allowed unless it can satisfy the following criteria:

(A) It is not technically feasible to locate the proposed development activity or its impacts outside of a core habitat area based on accepted engineering practices, regulatory standards or some combination thereof. Costs associated with technical feasibility may be considered, but cost alone may not be the only consideration in determining that the development must be located such that it will have direct or indirect impacts on sage-grouse core area habitat; or

(B) The proposed development is dependent on a unique geographic or other physical feature(s) that cannot be found on other lands; and

(C) If the proposal is for a large-scale development as defined in Oregon Land Conservation and Development OAR 660-023-0115 and either (2)(a)(A) or (2)(a)(B) is found to be satisfied, the permitting entity must also find that it will provide important economic opportunity, needed infrastructure or public safety benefits for local citizens or the entire region.

(b) Avoidance in Low Density Habitat. If the proposed development action can occur in another location that avoids both direct and indirect impacts within low density sage-grouse habitat, then the proposal must not be allowed unless it can satisfy the following criteria:

(A) It is not technically or financially feasible to locate the proposed use outside of low density sage-grouse habitat based on accepted engineering practices, regulatory standards, proximity to necessary infrastructure or some combination thereof; or

(B) The proposed development action is dependent on geographic or other physical feature(s) found in low density habitat areas that are less common at other locations.

(c) Avoidance in General Habitat. If the proposed development activity and its direct and indirect impacts are in general sage-grouse habitat (within 3.1 miles of a lek), then the permitting entity may allow the activity based on satisfaction of the following criteria:

(A) Consultation between the development proponent and the Department that generates recommendations

pursuant to the approach identified in minimization subsection (d), and

(B) Incorporation by the project proponent of reasonable changes to the project proposal based on the above consultation with the Department, and/or justification as to why a given recommendation is not feasible.

(d) Minimization. If after exercising the above avoidance tests, the permitting entity finds the proposed development action cannot be moved to non-habitat or into a habitat category that avoids adverse direct and indi-

rect impacts to a habitat category of greater significance (i.e., core or low density), then the next step applied in the mitigation hierarchy will be minimization of the direct and indirect impacts of the proposed development action. Minimization consists of how to best locate, construct, operate and time (both seasonally and diurnally) the development action so as to avoid or minimize direct and indirect impacts on important sage-grouse habitat and sage-grouse.

(A) Minimizing impacts from development actions in core habitat shall ensure direct and indirect impacts do not occur in known areas of high population richness within a given core area, unless a project proponent demonstrates, by a preponderance of the evidence, that such an approach is not feasible.

(B) Minimizing impacts from development actions in general habitat shall include consultation between the development proponent and the Department that considers and results in recommendations on how to best locate, construct, or operate the development action so as to avoid or minimize direct and indirect impacts on important sage-grouse habitat within the area of general habitat.

(c) Compensatory Mitigation. If avoidance and minimization efforts have been exhausted, compensatory mitigation to address both direct and indirect impacts will be required as part of the permitting process for remaining adverse impacts from the proposed development action to sage-grouse habitat, consistent with the mitigation standard in (3) Policy 3 below.

(3) Policy 3. The standard for compensatory mitigation of direct and indirect habitat impacts in sage-grouse habitat (core low density, and general areas) is to achieve net conservation benefit for sage-grouse by replacing the lost functionality of the impacted habitat to a level capable of supporting greater sage-grouse numbers than that of the habitat which was impacted. Where mitigation actions occur in existing sage-grouse habitat, the increased functionality must be in addition to any existing functionality of the habitat to support sage-grouse. When developing and implementing mitigation measures for impacts to core, low density, and general sage-grouse habitats, the project developers shall:

(a) Work directly with the Department and permitting entity to obtain approval to implement a mitigation plan or measures, at the responsibility of the developer, for mitigating impacts consistent with the standard in OAR 635-140-0025(3) or,

(b) Work with an entity approved by the Department to implement, at the responsibility of the developer, "in-lieu fee" projects consistent with the standard in OAR 635-140-0025(3).

(c) Any mitigation undertaken pursuant to (a) or (b) above must have in place measures to ensure the results of the mitigation activity will persist (barring unintended natural events such as fire) for the life of the original impact. The Department will engage in mitigation discussions related to development actions in a manner consistent with applicable timelines of permitting entities.

(4) Policy 4. The Department shall follow the Fish and Wildlife Habitat Mitigation Policy (OAR 635-415-0000) when defining habitat categories and providing recommendations to address potential site-level impacts to species other than greater sage-grouse that occur within sage-grouse core area habitat or sage-grouse low density habitat, except that if there is a resulting conflict between OAR 635-415-0000 and this rule, then this rule shall control.

**Rule Caption:** Modified Angling Regulations for North Twin Lake due to Rotenone Treatment in October 2015.

**Adm. Order No.:** DFW 128-2015(Temp)

**Filed with Sec. of State:** 9-14-2015

**Certified to be Effective:** 9-18-15 thru 12-31-15

**Notice Publication Date:**

**Rules Amended:** 635-018-0090

**Subject:** This amended rule liberalizes catch limits and harvest methods for North Twin Lake, in the Central angling zone, from September 18 through October 19, and modifies the angling closure dates to October 20 through the end of 2015. North Twin Lake is scheduled for treatment with Rotenone, a fish toxicant, in late October in order to remove unwanted fish species. The rule modifications provide sport fishers opportunities to salvage as many game fish as possible prior to this treatment.

**Rules Coordinator:** Michelle Tate—(503) 947-6044

**635-018-0090**

**Inclusions and Modifications**

(1) The **2015 Oregon Sport Fishing Regulations** provide requirements for the Central Zone. However, additional regulations may be adopted in this rule division from time to time and to the extent of any inconsistency, they supersede the 2015 Oregon Sport Fishing Regulations.

(2) North Twin lake is open to angling for all game species from September 18 through October 19, 2015 with the following restrictions:

(a) Allowed harvest methods are by hand, dip net or angling;

(b) There are no daily catch or possession limits; and

(c) There are no minimum length requirements.

(3) North Twin Lake will be closed to angling from October 20 thru December 31, 2015.

(4) All other regulations as shown in the **2015 Oregon Sport Fishing Regulations** remain in effect.

## 635-042-0060

### Late Fall Salmon Season

(1) Salmon may be taken for commercial purposes from the Columbia River in Zones 4 and 5, the lower end of Zone 4 is defined as a straight line projected from the Warrior Rock Lighthouse on the Oregon shore easterly through the green navigation Buoy #1 and continuing to the Washington shore during the following fishing period: 9:00 p.m. Tuesday, September 15 to 6:00 a.m. Wednesday, September 16, 2015 (9 hours).

(2) For the fishing period described in section (1) above, gear is restricted to drift gill nets with a 8 inch minimum mesh size. Mesh size is determined as described in OAR 635-042-0010(3). The multiple net rule is in effect for all authorized fishing periods. Nets not authorized for a specific fishery may be onboard the vessel if properly stored. A properly stored net is defined as a net on a drum that is fully covered by a tarp (canvas or plastic) and bound with a minimum of ten revolutions of rope with a diameter of 3/8 (0.375) inches or greater.

(3) For the fishing period described in section (1) above sturgeon and chum salmon may not be possessed or sold by participating vessels. Allowable sales are Chinook, coho, pink, and sockeye salmon and shad.

(4) For the fishing period described in section (1) above, the following sanctuaries are in effect:

(a) Sandy River sanctuary; and

(b) Washougal sanctuary. The lower end of the Washougal sanctuary is extended and defined as a line originating at the USCG green marker #1 near the Washington shore due south to the downstream Fisher Quarry Channel range light on the western end of Ackerman Island (Sand Island) then from the upstream tip of Ackerman Island (Sand Island) across to the downstream (western) tip of Lady Island.

## Department of Forestry Chapter 629

**Rule Caption:** Revision of the Central Oregon Forest Protection District Boundary

**Adm. Order No.:** DOF 1-2015

**Filed with Sec. of State:** 9-4-2015

**Certified to be Effective:** 9-4-15

**Notice Publication Date:** 5-1-2015

**Rules Amended:** 629-041-0515

**Subject:** There are two changes that are being made to the Central Oregon Forest Protection District boundary. The first is within The Dalles Unit and the second is within the Prineville Unit as described below, respectively.

When Central Oregon District "The Dalles Unit" was established in the OAR's there were four isolated parcels of private ownership classified and protected by ODF within the Warm Springs Reservation boundaries located south of the "McQuinn Strip" in Wasco County. One 80-acre parcel located in the E 1/2 of the NE 1/4 of section 6, T6S, R11E was under private ownership. Since then this parcel has been purchased by the Warm Springs Tribe and as such was removed from the assessment rolls since the fire protection responsibilities were now the responsibility of the Warm Springs Tribe. Since ODF no longer protects this parcel, it is being removed from the District Boundary description of the OAR's and the subsections are being re-lettered.

On the Prineville Unit of the Central Oregon District, there is a discrepancy as to how the boundary is described in administrative rule and what is shown on the protection map. This discrepancy was discovered recently when Crook County conducted preliminary Forestland Classification of all lands within the District boundary, based on the boundary displayed on the map. Once the error on the map was found to not match administrative rule, the Forestland Classification committee in conjunction with the District Forester, proposed a modified boundary change.

With this boundary change to the Central Oregon Forest Protection District, there will be approximately 110 Tax Lots and 66 landowners affected. Approximately 92 Tax Lots and 60 landowners will be added to the Forest Protection District for a total increase of 20,746 Acres. Approximately 18 Tax Lots and 6 landowners will be removed from the Forest Protection District for approximately 6,428 acres.

Legal Permanency, Concurrent Planning, and Use of Permanency Committee

OAR 413-070-0516 - Use of Permanency Committee

- Adds section (6) to require a permanency committee be scheduled when a current caretaker requests consideration as a potential adoptive resource, but prior to the completion of an adoption home study for a child or sibling group

OAR 413-070-0518 - Composition, Scheduling, Responsibilities, and Recommendations of the Permanency Committee

- Adds section (7). Subsection (a) delineates the composition of the committee for purposes of review of a current caretaker

- (7)(b) provides that current caretaker, relative caretaker, and any other individual from the child's team can provide input and may be invited to present, but will be excused after presenting and answering any questions.

- (7)(c) specifies the considerations the permanency committee must review when considering the current caretaker or relative caregiver, such as the safety, attachment, and well-being needs of the child, and the current caretaker's or relative caregiver's history of compliance with certification standards

- (7)(d) requires the permanency committee to document and provide to the adoption worker any specific information the worker determines must be explored in the completed home adoption study for the current caretaker and relative caregiver.

OAR 413-070-0519 - Decision and Notice

- Amends (1) to exempt current caretaker and relative caregiver requests to be considered an adoptive resource from the provisions of section (1) since the permanency committee does not make a recommendation, and no decision is being made at this stage.

- Modifies definition of current caretaker in section (8) to conform with statute

OAR 413-120-0020 - Adoption Placement Selection Options

## 413-120-0020

### Adoption Placement Selection Options

When a child or sibling group has a permanency plan of adoption, the Department uses one of the three options below to make an adoption placement selection:

(1) Selection by Caseworker. After considering the input from the child’s team and following consultation with the supervisor, the caseworker may make the adoption placement selection for a child or sibling group using the process in OAR 413-120-0021 when the requirements of at least one of the following is met:

(a) An Indian child is being considered for adoption alone or as part of a sibling group and there is a single potential adoptive resource who:

(A) Meets the ICWA order of placement preference;

(B) Has been identified as the placement preference through tribal resolution; or

(C) Has been identified as the placement preference by a good cause order as provided in ICWA and OAR 413-070-0100 to 413-070-0260.

(b) The child is identified as a refugee child and the adoption placement selection complies with OAR 413-070-0300 to 413-070-0380.

(c) A relative of the child or sibling group is being considered alone as the potential adoptive resource unless subsections (c), (d), or (e) of section (3) of this rule apply. Prior to making a selection, ensure the Department has conducted a diligent search and there is no other identified relative who has expressed an interest in, or who is being assessed as a potential adoptive resource and there is no current caretaker who has expressed an interest in, or who is being assessed, as a potential adoptive resource

(d) A current caretaker of the child or sibling group is being considered alone as a potential adoptive resource unless subsection (c), (d), or (e) of section (3) of this rule applies. Prior to making a selection, ensure the Department has conducted a diligent search and there is no relative who has expressed an interest in, or who is being assessed as, a potential adoptive resource, and there is no other current caretaker who has expressed an interest in, or who is being assessed, as a potential adoptive resource.

(e) The child is under six years of age with no extraordinary needs and each potential adoptive resource is a general applicant, unless subsection (d) of section (2) of this rule or subsection (c), (d), or (e) of section (3) of this rule applies. Prior to making a selection, ensure the Department has conducted a diligent search and there is no relative who has expressed an interest in, or who is being assessed as a potential adoptive resource, and there is no current caretaker who has expressed an interest in, or who is being assessed, as a potential adoptive resource.

(2) Local Adoption Committee and ADS. The local adoption committee recommends an adoptive resource and the ADS makes the adoption placement selection when section (3) of this rule does not apply and at least one of the following applies:

(a) The child is six years of age or older.

# ADMINISTRATIVE RULES

(b) The child has extraordinary needs.

(c) A sibling group is being placed together for the purpose of adoption and each potential adoptive resource is a general applicant.

(d) The identified potential adoptive resources include the child's current foster parent, who is not a current caretaker, being considered as a general applicant with other general applicants.

(3) Central Office Adoption Committee and ADS. The central office adoption committee recommends an adoptive resource, and the ADS makes the adoption placement selection when one of the following applies:

(a) The potential adoptive resources include:

(A) More than one relative as defined in OAR 413-120-0010(16)(a)-(c);

(B) A relative as defined in OAR 413-120-0010(16)(d) and a current caretaker; or

(C) A relative, as defined in OAR 413-120-0010(16)(d) for whom an exception to the order of preference has been granted under OAR 413-120-0760.

(b) The potential adoptive resources include more than one current caretaker being considered for siblings who will be placed together in adoption.

(c) A DHS staff member is a potential adoptive resource, and the requirements of the DHS-060-002, "Conflict of Interest Policy" and the "Conflict of Interest Policy Addendum for CAF Employees" apply.

(d) A non-DHS staff member with a potential conflict of interest with the Department is a potential adoptive resource.

(e) The potential adoptive resource is an individual living outside the U.S. and OAR 413-120-0900 to 413-120-0970 applies.

(4) The caseworker, following consultation with the supervisor, may request that the adoption placement selection be made by an ADS following an adoption committee recommendation based on the complexities or dynamics of a case. The request must be approved by:

(a) The Child Welfare Program Manager or designee for the use of a local adoption committee rather than a caseworker selection; or

(b) The Child Permanency Program Manager, Assistant Child Permanency Program Manager, or designee for the use of a central office adoption committee rather than a local adoption committee.

(A) Inform them of the individuals who will be reviewing their adoption home study or other information during the adoption placement selection process; and

(B) Assure all appropriate releases of information described in OAR 413-120-0016(1) and (2) have been obtained.

(c) Confirm with the caseworker for each child who is under consideration that the potential adoptive resource is willing and available to be considered for adoption.

(4) When the caseworker has been informed that the identified potential adoptive resources are available and appropriate to be considered, the

caseworker must set a date for the adoption placement selection and notify the adoption worker for each of the identified potential adoptive resources.

(5) At least ten business days before the adoption placement selection, the caseworker must complete all of the following:

(a) Notify the following individuals of the potential adoptive resources to be considered and the date the adoption placement selection will occur:

(A) The CASA;

(B) The child's attorney;

(C) A tribal representative if the child is an Indian child; and

(D) A member of the RCWAC, if the child is a refugee child.

(b) Ensure that the individuals identified in subsection (a) of this section are sent copies of the adoption home study and any additional written information released under OAR 413-120-0016 for each potential adoptive resource, unless the individual has notified the caseworker that they do not want a copy of the materials.

(c) Notify the individuals identified in subsection (a) of this section that any input regarding the ability of a potential adoptive resource to meet the current and lifelong needs of the child or sibling group must be received at least two days before the date of the adoption placement selection to assure it will be considered.

(6) When the caseworker has provided the notifications in section (5) of this rule, an adoption selection date has been scheduled by the caseworker or committee, and a child's relative or current caretaker now expresses interest in being considered as a potential adoptive resource, the Child Welfare Program Manager must:

(a) If the newly expressed interest is from a relative, review the diligent efforts to identify a child's relatives required under OAR 413-070-0060 to 413-070-0063;

(b) If the newly expressed interest is from a current caretaker, review the efforts to determine if the current caretaker was given adequate and reasonable time to request consideration as the potential adoptive resource;

(c) Consider the impact of a delay in achieving permanency on the best interests of the child; and

(d) Make a determination whether it is in the best interest of the child for an adoption home study to be conducted with a relative or current caretaker despite the delay in achieving permanency.

(7) The Child Welfare Program Manager in consultation with the Child Permanency Program Manager makes the determination whether to consider a relative or current caretaker under section (6) of this rule.

(8) When a Child Welfare Program Manager informs the caseworker of the determination to consider a relative or current caretaker identified under section (6) of this rule, the caseworker must notify each individual in subsection (5)(a) of this rule and the adoption worker for each identified potential adoptive resource that the adoption selection process has been suspended.

(9) When the adoption selection process has been suspended, the adoption workers must notify each identified potential adoptive resource that the adoption selection process has been suspended.

(10) The timelines in this rule may be changed when the caseworker, the adoption worker for each of the identified potential adoptive resources, and each individual in section (5) of this rule agree on a new timeline.

(11) After considering the input from individuals in section (5) of this rule, the caseworker — following consultation with his or her supervisor — makes the adoption placement selection for a child or sibling group under consideration for adoption when OAR 413-120-0020(1) applies.

(12) On the day that the selection is made, the child's caseworker must notify the adoption workers for each of the identified potential adoptive resources who were considered for the adoption placement selection.

(13) By the end of the next business day following the adoption placement selection, the child's caseworker must send written notification of the adoption placement selection to each of the following individuals:

(a) The CASA;

(b) The child's attorney;

(c) A tribal representative if the child or young adult is an Indian child; and

(d) A member of the RCWAC, if the child is a refugee child.

(14) By the end of the next business day following the adoption placement selection, written notification on a form approved by the Department must be sent to each identified potential adoptive resource of whether or not they were selected as the adoptive resource by the following individuals:

(a) A Department adoption worker; or

(b) The child's caseworker when the adoption worker is a private agency employee.

### Order of Preference for Identification of Potential Adoptive Resources

(1) Except as provided in sections (2) and (3) of this rule, when identifying potential adoptive resources for a child or sibling group, the caseworker must consider the needs and the best interest of each child, and assess the knowledge, skills, and abilities of each potential adoptive resource in the following order of preference:

(a) Except when (c) of this section applies, a relative as defined in OAR 413-120-0710(12)(a)-(c).

(b) Except when (c) of this section applies, a relative as defined in OAR 413-120-0710(12)(d).

(c) When a child or sibling group has a current caretaker as defined in OAR 413-120-0710(4), the current caretaker and a relative as defined in OAR 413-120-0710(4)(a)-(d).

(d) A general applicant.

(2) For an Indian child, the caseworker must comply with ICWA and OAR 413-070-0100 to 413-070-0260.

(3) For a refugee child, the caseworker must comply with OAR 413-070-0300 to 413-070-0380.

(4) When no current caretaker is being considered as a potential adoptive resource, and when it is determined in the best interest of the child, the Child Permanency Program Manager, upon receipt of a written request from the Child Welfare Program Manager, may grant an exception to the order of preference to a relative as defined in 413-120-0710(12)(d). Within 30 days of receipt of the written request, the Child Permanency Program Manager must review the request and determine whether or not to grant the exception.

### Identification of a Child's Potential Adoptive Resources

(1) When identifying potential general applicant adoptive resources for a child or sibling group, the caseworker may:

(a) After discussion with his or her supervisor and on a case-by-case basis, consult with a birth parent to identify one to three potential adoptive resources; and

(b) Provide a birth parent with non-identifying information from the adoption home study of a potential adoptive resource who is a general applicant not known to the parent or child.

(2) When more than one relative is interested in being an adoptive resource for a child or sibling group, the Department must consult with the interested relatives to facilitate agreement on the most appropriate potential adoptive resource.

(a) When agreement cannot be reached, the Department considers relatives among both maternal and paternal family members who have expressed an interest, and may choose up to three relatives for adoption home studies.

(b) When an adoption home study has been initiated and the potential adoptive resource is not approved or withdraws, the Child Welfare Program Manager or designee decides whether the Department will initiate adoption home studies with additional relatives based upon:

# ADMINISTRATIVE RULES

(A) The best interest of the child or sibling group; and

(B) The impact on timeliness to achieving permanency.

(c) For an Indian child alone or part of a sibling group, the Department must identify potential adoptive resources and initiate adoption home studies as necessary to comply with ICWA.

(3) The child's caseworker must comply with the requirements of all of the following subsections:

(a) Make reasonable efforts to identify and place the child or sibling group with an adoptive resource in a timely manner.

(b) Request input about the knowledge, skills, abilities, and commitment a potential adoptive resource needs to best meet the current and life-long needs of the child from:

(A) Professionals who have worked closely with the child, when applicable; and

(B) The child's attorney, CASA, tribal representative, RCWAC representative, and substitute caregiver, when applicable.

(c) Receive and review adoption home studies in a timely manner.

(d) Unless section (4) of this rule applies, following consultation with his or her supervisor, identify up to three potential adoptive resources following the order of preference in OAR 413-120-0730 to be considered for adoption placement selection who:

(A) Meet the standards of an adoptive home in OAR 413-120-0246;

(B) Have the knowledge, skills, abilities, and commitment to raise each child; and

(C) Have the capacity to meet the current and lifelong safety, attachment, and well-being needs of the child or sibling group under OAR 413-070-0640.

(4) Upon the recommendation of a caseworker and supervisor, and when it is determined in the best interest of the child, the Child Welfare Program Manager may submit a written request to the Child Permanency Program Manager for an exception to subsection (d) of section (3) of this rule to increase the number of potential adoptive resources to be considered for adoption placement who are in the order of preference as described in 413-120-0730(1)(c).

(6) In consultation with the supervisor, the caseworker must determine the appropriate adoption selection process pursuant to OAR 413-120-0020.

(7) The caseworker must consult with the adoption worker for each of the identified potential adoptive resources pursuant to OAR 413-120-0021(2).

(8) The caseworker must document the actions taken under this rule in the Department's electronic information system.

## Department of Justice Chapter 137

**Rule Caption:** Adopts standards for the collection, retention, preservation and cataloging of biological evidence.

**Adm. Order No.:** DOJ 9-2015

**Filed with Sec. of State:** 8-31-2015

**Certified to be Effective:** 9-1-15

**Notice Publication Date:** 8-1-2015

**Rules Adopted:** 137-140-0010, 137-140-0020, 137-140-0030, 137-140-0040, 137-140-0050, 137-140-0060, 137-140-0070

**Subject:** Effective June 29, 2009, the Oregon legislature enacted Oregon Laws 2009, chapter 489 (Senate Bill 310) that required law enforcement agencies and other persons or public bodies charged with the collection, storage or retrieval of biological evidence ("custodians"), to preserve such evidence collected as part of a criminal investigation or criminal cases involving a "covered offense," e.g. Aggravated Murder, Murder, Manslaughter in the First or Second Degree, Criminally Negligent Homicide, Aggravated Vehicular Homicide, or a sex crime listed under former ORS 181.594 (renumbered to ORS 181.805). The legislature further required custodians to preserve biological evidence in amounts and manners sufficient to develop a DNA profile from such biological evidence. Id.

Effective June 7, 2011, the Oregon legislature amended Senate Bill 310 (2009) by Oregon Laws 2011, chapter 275 (Senate Bill 731) and enacted retention periods, processes and procedures that custodians

are required to follow for the preservation and disposition of biological evidence. Additionally, the legislature authorized custodians to seek disposition of biological evidence earlier than the statutory retention periods by using a standardized form that provided notice to the district attorney. The legislature required the Oregon Attorney General to adopt administrative rules that establish the standards for the proper collection, retention, preservation and cataloging of biological evidence applicable to criminal investigations and criminal prosecution of covered offenses. Moreover, the Oregon Attorney General is further required to adopt by administrative rule a standard form for use by custodians when providing written notice to district attorneys for early disposition of biological evidence for covered offenses.

These administrative rules implement that legislation. The rules set forth guidelines and standards for use by custodians in the collection, retention, preservation and cataloging of biological evidence. The rules further adopt a standardized form for use by custodians when they give notice to district attorneys seeking disposal of biological evidence earlier than the statutory retention time-lines.

### 137-140-0010

#### Policy and Purpose

(1) The integrity and significance of biological evidence in the detection, apprehension, and prosecution of criminal offenders, as well as the exoneration of persons wrongfully convicted of criminal offenses, is essential. The integrity, admissibility, and use in criminal cases is therefore contingent on the proper collection, preservation, retention, and cataloging of trace biological evidence. In addition, current DNA technology allows for very small amounts of biological evidence to be analyzed and tested for DNA and DNA profiling and inadvertent contamination of biological evidence is therefore possible if custodians who collect, retain, preserve, and catalogue biological evidence do not take safety and contamination prevention precautions. Accordingly, care must be taken to prevent contamination and loss of biological evidence.

(2) Effective June 29, 2009, the Oregon legislature enacted Oregon Laws 2009, chapter 489 (Senate Bill 310) that required custodians to preserve biological evidence that is collected as part of a criminal investigation into a covered offense or that was in the possession of the custodian prior to any person being convicted of a covered offense that could reasonably be used to incriminate or exculpate any person for a covered offense. The legislature further required custodians to preserve biological evidence in amounts and manners sufficient to develop a DNA profile from such biological evidence.

(3) Effective June 7, 2011, the Oregon legislature amended Senate Bill 310 (2009) by Oregon Laws 2011, chapter 275 (Senate Bill 731) and enacted retention periods, processes and procedures that custodians are required to follow for the preservation and disposition of biological evidence. Additionally, the legislature required the Oregon Attorney General to adopt administrative rules that establishes the standards for the proper collection, retention, preservation and cataloging of biological evidence applicable to criminal investigations into, and criminal prosecution for, covered offenses. The Oregon Attorney General is further required to adopt by administrative rule a standard form for use by custodians when providing written notice to district attorneys for early disposition of biological evidence for covered offenses.

(4) It is the policy of the Oregon Attorney General that the best scientific methods should be used in the collection, retention, preservation, and cataloging of trace biological evidence. However, when selecting detection, collection, preservation, retention, and cataloging methods and biological evidence processing sequences, custodians should consider the circumstances of each case, the ambient conditions under which the evidence is detected, the discriminatory power of the different detection and collection techniques, and the need to preserve or collect other types of evidence. Custodian personnel responsible for the detection and collection of biological evidence should be aware that various types of evidence might be present during the processing of a crime scene and that evidence other than trace biological evidence may be more significant to a particular case and therefore should be given higher priority. Custodians should contact the Oregon State Police Forensic Services Division with any questions regarding best scientific practices for the collection, retention, preservation, and cataloging of specific items of trace biological evidence not listed in these administrative rules.

# ADMINISTRATIVE RULES

(5) These administrative rules provide best practice scientific guidelines, procedures and techniques for the collection, retention, preservation, and cataloguing of trace biological evidence from crimes scenes, individuals, and items to be submitted to the Oregon State Police Forensic Services Division for testing, analysis, or DNA profiling for covered offenses. Therefore, a custodian's failure to follow a particular guideline or administrative rule should not be construed as rendering subject biological evidence inadmissible in any judicial or administrative proceeding. Instead, in the event of a custodian's failure to follow a particular guideline or administrative rule, it remains within the judgment of a court of competent jurisdiction to determine the relevance, admissibility and weight to be given for any biological evidence.

### Safety, Contamination Prevention, and Security of Biological Evidence

(1) Custodian personnel who routinely collect, retain, preserve, and catalogue biological evidence are encouraged to submit a DNA elimination standard to the Oregon State Police Forensic Services Division for DNA

profiling in order to be ruled out as a possible source of contamination of a particular item of biological evidence.

(2) Custodians collecting, retaining and preserving biological evidence should follow best scientific practices. Custodians should avoid:

(a) Over-handling biological evidence in order to minimize loss of evidence and exposure to possible contaminants;

(b) Touching the tips of collection swabs with any individual's fingers or other items except the substrate from which a sample is to be taken;

(c) Contaminating collection swabs by getting them dirty, talking over them, sneezing on them, or blowing on them to make samples dry faster;

(d) Touching water droppers or other bottle tips to any surface or biological evidence;

(e) Allowing tape edges of adhesive lift material from contacting any unclean or contaminated surfaces; and

(f) Licking envelope seals.

(3) Security. The security and integrity of collected biological evidence is the responsibility of the custodian and all personnel who may identify, collect, package, store, transport, or examine such evidence. Custodians shall keep all biological evidence in a secure, controlled-access area, protected from loss, damage, or contamination.

### Documentation Guidelines for Biological Evidence

(1) When a custodian initiates a criminal investigation, custodian personnel should create a written or electronic file specific for that case in order to contain case documentation of biological evidence for the length of time required by these administrative rules and prevailing law.

(2) Custodians should document the following information regarding biological evidence:

(a) The techniques used for the detection and collection of the evidence;

(b) Date of collection;

(c) Name of persons collecting the evidence;

(d) A descriptive listing of the evidence collected;

(e) A unique identifier of each item of evidence collected such as an item number and case number;

(f) The location where each item of evidence was collected which should be documented by notes, sketches, measurements, photographs, or other similar items; and

(g) Any additional information that the custodian or law enforcement agency deems appropriate.

(3) Custodians shall initiate and maintain a continuous chain of custody for each item of biological evidence from the time of evidence collection until the time the evidence is admitted into court and from a court's return of the evidence to the custodian's custody until the expiration of the retention periods specified in ORS 133.707 and these administrative rules.

### General Collection and Preservation Guidelines for Biological Evidence

(1) General collection guidelines.

(a) Custodian personnel responsible for the detection and collection of biological evidence should be aware of applicable laws governing searches, seizures, and search warrants.

(b) Custodians may assign responsibility for biological evidence detection, collection, preservation, retention, and cataloging to appropriate personnel of varying occupations and levels of expertise, for example law enforcement personnel, medical examiners, and medical personnel.

(c) Custodians shall ensure that its personnel are properly trained in biological evidence detection, collection, preservation, retention, and cataloging techniques. Training must include, but not be limited to, record-keeping protocols; crime scene search techniques; rules of evidence handling; safety concerns of biological evidence handling and detection techniques; legal aspects of search warrants, searches, and biological evidence recovery; chain-of-custody documentation and requirements; proper storage techniques for biological evidence; detection, collection, and preservation methods used for biological evidence; and contamination prevention.

(2) General preservation guidelines.

(a) Custodians shall store and preserve biological evidence in the manner set forth in ORS 133.705 to 133.717 and these administrative rules when biological evidence is either:

# ADMINISTRATIVE RULES

(A) Collected as part of a criminal investigation of any covered offense; or

(B) In the possession of the custodian and reasonably may be used to incriminate or exculpate any person for any covered offense.

(b) Custodians should, whenever possible, collect and preserve biological evidence from physical evidence in an amount and manner that is sufficient to develop a DNA profile.

(c) When physical evidence is of a size, bulk, or physical characteristic as to make preservation and retention of the entire physical evidence impracticable, custodians shall remove and preserve portions of the physical evidence likely to contain biological evidence in a quantity sufficient to permit future DNA testing. Thereafter, custodians may return or dispose of the physical evidence according to the custodian's policies and practices.

(3) General drying guidelines. In general, moisture can degrade DNA. If possible, custodians should dry wet or moist biological evidence and package it into clean and previously unused paper containers (for example envelopes, bags, cardboard boxes). If custodians cannot air dry evidence, custodians should refrigerate liquid evidence and freeze wet evidence. When drying wet or moist biological evidence, custodians should:

(a) Air dry physical evidence thoroughly;

(b) Place wet or moist evidence in a secure environment or locked room that has ventilation in order to prevent contamination;

(c) Take care not to expose physical evidence to excessive heat or sunlight; and

(d) Take steps to prevent cross-contamination.

(4) General packaging guidelines. Appropriate preservation and packaging techniques of biological evidence vary, and custodians should use appropriate clean packaging to prevent loss, degradation or contamination of biological evidence. Custodians should:

(a) Properly seal all evidence packages in a manner to prevent tampering and eliminate loss or contamination of the biological evidence through open edges;

(b) Contact the Oregon State Police Forensic Services Division for questions about appropriate techniques for unique items of biological evidence.

### Storage and Preservation of Biological Evidence

(2) Custodians should consider such factors as environmental and ambient conditions when storing biological evidence in order to ensure the isolation, security and integrity of the evidence for future DNA testing through the retention periods specified in ORS 133.717 and these administrative rules. Custodians should contact the Oregon State Police Forensic Services Division for questions about appropriate techniques for storing unique items of biological evidence.

(2) Custodians should confirm with the local district attorney whether a person convicted of a covered offense has served the person's sentence.

(3) Custodians shall use the form provided in Appendix A to seek early disposal of biological evidence.

(4) Custodians shall not dispose of biological evidence without a signed order from a court.

**Subject:** NOTE: This is a refiling of the Permanent Rules submitted on 2-23-15. It is being refiled due to a filing error.

SB 814 (2013) establishes an environmental claims mediation program that requires, in certain circumstances, participation in mediation by an insurance company when requested by their insured (policyholder.) These rules do not address environmental claims mediation generally but only the qualifications and training of program mediators and the mediation fees paid by the insured and their insurers. The rules list various combinations of subject matter expertise (i.e. expertise in environmental and insurance issues) and process expertise (i.e. experience and training as a mediator) that a mediator must have to participate in the program. The rules also allow a mediator to serve if agreed to by the parties in a specific case. The rules require the mediator's fees to be published on the Department of Justice website and that the fees will be split among the parties to the mediation.

## Department of Transportation, Driver and Motor Vehicle Services Division Chapter 735

**Rule Caption:** Gold Star Family Registration Plates

**Adm. Order No.:** DMV 6-2015

**Filed with Sec. of State:** 8-25-2015

**Certified to be Effective:** 10-1-15

**Notice Publication Date:** 7-1-2015

**Rules Amended:** 735-040-0090

**Subject:** DMV issues a veterans' recognition registration plate displaying a gold star decal and the words "Gold Star Family." The plate recognizes families of service members killed in action during an armed conflict while serving in the Armed Forces of the United States and is only available to surviving family members of a service member killed in action.

ORS 805.105, as amended by Chapter 183, Oregon Laws 2015, adds "sibling" to the list of individuals eligible to obtain a Gold Star Family plate. DMV has amended the definition of "surviving family member" under OAR 735-040-0090(3)(b)(D) to include sibling. The amendment also makes non-substantive changes for consistency and corrects a reference to US Department of Defense Form 214.

### 735-040-0090

**Veterans' Recognition Registration Plates for Veterans' Groups; Restrictions on Issuance; Proof of Veteran Status**

(1) Issuance of veterans' recognition registration plates may be restricted to certain persons as provided under Section (2), ORS 805.105(1)(c) and this rule. Conditions for restrictions are as follows:

(a) Restrictions on issuance of a particular veterans' recognition registration plate as requested by a veterans' group must relate to a person's service in the Armed Services of the United States. For example:

(A) DMV may approve a request to restrict issuance of a particular veterans' recognition registration plate to only veterans or to only those awarded a Purple Heart medal; and

(B) DMV will not approve a request to restrict veterans' recognition registration plate issuance to only veterans who are members of a particular group.

(b) A veteran's group requesting a restriction on plate issuance must do so on the initial Application for Approval of Veteran Group Plates. The group must describe the restriction(s) and the basis for the restriction;

(c) All restrictions must be approved by DMV.

(d) If a requested restriction is approved, DMV will consult the group in determining the criteria DMV will use in issuing veterans' recognition registration plates for that group.

# ADMINISTRATIVE RULES

(2) Veterans' recognition registration plates may not be issued as custom plates, or in conjunction with any other special registration or plate type.

(3) When a veterans' group approved by DMV or the Director of Veterans' Affairs requires proof of veteran status or proof of receipt of a service-related medal, or the applicant requests "Gold Star Family" registration plates, DMV will accept the following as proof of eligibility:

(a) For plates that include a decal depicting an insignia of a branch of the Armed Services:

(A) For military service 1950 or after, a US Department of Defense Form 214, Certificate of Release or Discharge from Active Duty (DD 214) or Correction to DD 214 Form (DD 215); or

(B) For military service before 1950, a separation document or form issued by a branch or department of the US Armed Services.

(b) For a veterans' group with a service-related restriction approved by DMV under OAR 735-040-0080:

(A) For military service 1950 or after, a DD 214 or DD 215; or

(B) For military service before 1950, a separation document or form issued by a branch or department of the US Armed Services; and

(C) A completed and signed Group Plate Eligibility Certification (DMV Form 735-6940) certifying the applicant is eligible to receive the group's plates.

(c) For plates that include a decal depicting a service-related medal:

(A) For military service 1950 or later, a DD 214 or DD 215; or

(B) For military service before 1950, a separation document or form issued by a branch or department of the US Armed Services; and

(C) A letter, award certificate or other document issued by the US Department of Defense showing the applicant is a recipient of the service-related medal.

(D) For plates displaying a gold star and the words "Gold Star Family," a completed and signed Group Plate Eligibility Certification (DMV Form 735-6940) certifying the applicant is a surviving family member. For purposes of this rule, a surviving family member includes a person who is a parent, sibling as defined under ORS 805.105, as amended by chapter 183, Oregon Laws 2015, spouse, partner in a domestic partnership or dependent of a person killed in action during an armed conflict while serving in the Armed Forces of the United States.

(4) A DD 214, DD 215 or separation form or document required under section (3) of this rule must have been issued under honorable conditions.

The North American Standard Vehicle Out-of-Service Criteria, as recognized by USDOT, in effect April 1, 2015, is adopted by and incorporated into this rule. Inspection violations identified in the Out-of-Service Criteria may be subject to one or more of the following:

(1) Out-of-Service Condition: When any motor vehicle by reason of its mechanical condition or loading, is determined to be so unsafe as to likely cause an accident or breakdown or when such conditions would likely contribute to loss of control of the vehicle by the driver, said vehicle must be placed out-of-service. No motor carrier shall permit or require nor shall any person operate any motor vehicle declared and marked "out-of-service" until all required repairs of violations which resulted in the out-of-service condition have been completed. If, at the discretion of the inspector, it is less hazardous to the public to relocate the vehicle, it will be towed, transported or escorted only at the direction of an official authority.

(2) Other: Violations other than out-of-service conditions detected during the inspection process will not preclude the completion of the current trip or dispatch. However, such violations must be corrected or repaired prior to redispach.

### Modification for Schools Having Separate Regional Accreditation

Effective January 13, 2015:

(1) The standards of a U.S. regional accrediting association shall be substituted for the standards in these rules for all Oregon operations of a school that has conferred degrees under the same control for five years in Oregon from at least one operationally separate unit accredited as a sepa-

# ADMINISTRATIVE RULES

rate institution by such association, provided the school submits for arbitration by the Higher Education Coordinating Commission any unresolved dispute in which a person alleges detrimental violation of a standard guaranteed by the accreditor but which the accreditor has declined to arbitrate. An "operationally separate unit" is a complete and semi-autonomous institution that has a core of full-time teachers, a separate student body, local administration for all educational functions, and academic programs comprising the totality of educational experience. The unit must be separately evaluated by the appropriate accreditor following regular procedures for the accreditation of an autonomous institution, and it must be listed as separately accredited in all regional and national directories.

(2) Upon substitution of standards, the commission will waive application requirements and apply abbreviated reporting requirements.

(3) Arbitration will be as informal as possible, including a sustained effort at compromise through mediation, and will occur only after all of the school's internal procedures for dispute resolution have been exhausted.

(4) Arbitration decisions will be based on the standards published by the accreditor as interpreted through continual consultation with the accreditor, and the commission will not substitute its judgment for that of school officials in the ordinary interpretation of factual evidence or the exercise of managerial discretion. In the absence of any obvious factual error that changes the decision record as a whole, the question for arbitration will be whether institutional procedures have been as promised and have led to an action consistent with the accreditation standards as interpreted reasonably and fairly.

(5) The commission, at its discretion, may refuse or discontinue arbitration in any case where the dispute is trivial in that it does not involve a significant question of standards, where a complaint is frivolous or indicates harassment of an institution by a complainant, where the issue is managerial judgment rather than an objective standard or of value preference rather than justice, where the matter falls within the more appropriate jurisdiction of another state agency to which appeal is readily available, or where a decision involves fundamentally the academic judgment of expert professionals on the faculty. No case that has entered litigation may be accepted for arbitration unless there is a binding suspension of litigious activities.

(6) Judicial review of an arbitration decision is available to either party under the Administrative Procedure Act, ORS chapter 183, which provides for review of agency orders in other than contested cases. A petition for judicial review of an order in other than a contested case may be made to the Circuit Court for Marion County or circuit court in the county where the petitioner resides, as provided in ORS 183.484.

### Definitions of Terms

Effective September 10, 2015. The following definitions have particular application to one or more provisions of this division.

(1) "Academic year" means approximately nine months, conventionally during fall, winter, and spring.

(2) "Accredited" means approved to offer degrees at a specified level by an agency or association recognized as an accreditor in the U.S. by the U.S. Secretary of Education or having candidacy status with an agency or association whose pre-accreditation category is recognized specifically by the U. S. Secretary of Education as an assurance of future accreditation.

(3) "At risk" means the school demonstrates one or more of the following conditions that the Commission determines may cause potential serious problems for the continued successful operation of the organization: Failure to meet the standards of financial responsibility; Misrepresentation; Frequent substantiated complaints filed with the commission; Significant decrease in enrollment from the previous reporting year; or Significant staff turnover from the previous reporting year.

(4) "Certificate" means a formal academic award that signifies, purports, or may generally be taken to signify completion of a course of instruction for which college or university-level academic credit is given but which is shorter or more limited than that leading to a degree. Certificate includes the term "diploma" if used to mean a similar award. A certificate may be at the undergraduate or graduate level.

(5) "Class hour" or "contact hour" means approximately one hour of direct communication between a teacher and one or more students, minus time for rest or change of classes. Conventionally this has been a fifty-minute period.

(6) "Confer a degree" means give, grant, award, bestow, or present orally or in writing any symbol or series of letters or words that would lead the recipient to believe a degree had been obtained.

(7) "Credit," when the full term is "postsecondary or college credit," means indication or certification by a school that a student has completed a unit of study, demonstrated achievement or proficiency, or manifested measured learning outside of school so as to have satisfied a portion of the requirements for a degree or for any other academic recognition offered by the school.

(8) "Credit hour" means one postsecondary credit resulting from one of the following intended to result from at least 2 hours of student work out of class (or in equivalent lab time) for each contact hour in class, totaling:

(a) Approximately 45 hours of student work in a semester;

(b) Approximately 30 hours of student work in a quarter;

(c) An equivalent amount of student work under an alternate term calendar schedule approved by Office of Degree Authorization; or

(d) Equivalent student work demonstrated by student performance on a nationally recognized examination or evaluation acceptable to the commission.

(9)(a) "Degree" means any academic or honorary title, rank, or status that may be used for any purpose, which is designated by a symbol or series of letters or words such as, but not limited to, associate, bachelor, master, or doctor, and forms or abbreviations thereof that signifies, purports, or may generally be taken to signify:

(A) Completion of a course of instruction at the college or university level;

(B) Demonstration of achievement or proficiency comparable to such completion; or

(C) Recognition for nonacademic learning, public service, or any other reason of distinction comparable to such completion.

(b) "Degree" does not refer to a certificate or diploma signified by a series of letters or words unlikely to be confused with a degree, clearly intended not to be mistaken for a degree, and represented to students and the public in ways that prevent such confusion or error.

(10) "Executive Director" means the executive director of the Commission, or the executive director's designee.

(11) "External degree" means a degree that can be earned mostly or entirely through correspondence, electronic recordings, or subscription telecommunications, rather than by resident instruction, except that some assistance may be provided for students face-to-face by school adjuncts in capacities such as advisor, mentor, tutor, clinic or practicum supervisor, topical speaker, occasional seminar leader, evaluator, or member of a thesis or study committee.

(12) "First-professional degree" means master's or doctor's degree conferred upon completion of a course of study for which admission into some schools may be gained with less than a baccalaureate, but for which pre-admission and professional study together invariably require more time than is required for a bachelor's degree alone, regardless of how many matriculants already have a bachelor's degree.

(13) "Full-time equivalent" or "FTE" means the number of students, teachers, or other personnel, any member of which may be engaged full time or part time, who in combined time expended would be the equivalent of one full-time unit of the kind being described.

(14) "Full-time student" means a student who is engaged in academic study as the student's primary occupation, thus ordinarily requiring 35 to 45 hours per week divided between interaction with teachers and independent preparation.

(15) "Graduate degree" or "post-baccalaureate degree" means a master's or doctor's degree conferred upon completion of a course of study for which admission can be gained only through possession of a bachelor's degree satisfactory to the school offering the graduate instruction.

(16) "General Education" is a term that includes liberal education and other nonvocational courses outside a student's major field.

(17) "Liberal Arts and Sciences courses" means courses in the following subjects:

(a) The humanities, such as language, literature, philosophy, religious thought, and fine arts (not emphasizing performance skills);

(b) The social sciences, such as anthropology, cultural geography, general history, religious history and culture, economics, political science, general psychology, and sociology; and

(c) The natural sciences, such as Biology, biological psychology, chemistry, physics, geology and physical geography, mathematics.

(18) "Limited resident instruction" means instruction by an accredited school consisting of less than 50 percent of a degree or certificate pro-

(25) "Probation" means that a school has been officially notified by the Commission that it has deficiencies that must be corrected within a specified time based upon an inspection or other investigation that reveals lack of compliance with ORS 348.606 to 348.612 or the standards of OAR chapter 583, division 30, or when the school fails to meet the requirements set forth by the Commission while on "at risk" status.

(26) "Quarter" means one third of an academic year, typically 9-12 weeks in length and divided among fall, winter and spring.

(b) "Restricted degree" does not mean a degree program that is open to all members of the general public who are qualified for admission.

(32) "School" means any person or persons and any organization or group of organizations, whether incorporated or not, engaging or appearing to engage in the activities of an educational entity or institution of learning, whether or not naming itself a school, college, university, institute, academy, seminary, conservatory, or similar term. (35) "State academic standards" for Oregon means the standards provided in OAR 583-030-0035.

(36) "Term" means a segment of an academic year, ordinarily a semester or quarter but sometimes less. Term is the preferred descriptor for degree program courses using a nontraditional calendar.

(37) "Upper-division instruction" means course content and teaching appropriate for third- and fourth-year students or others with a strong background in the subject. Upper-division instruction is not offered in associate degree programs or by community colleges.

### Exclusive Use of Term "University"

Effective January 13, 2015. The term "university" refers exclusively to a school that is authorized to offer bachelor's degrees together with graduate or first professional degrees, or to an organization that constitutes a formal consortium of schools so authorized. Any entity that calls itself "university" without authorization but with serious intent will be referred to the Department of Justice for enforcement under ORS 646.605 to 646.652, Oregon's Unlawful Trade Practices Act.

### Exercise of Office Authority

Effective September 10, 2015:

(1) A school that intends to offer to anyone from within Oregon or offer to Oregon residents from outside the state any form of instruction, lecture, training, tutoring, seminar, workshop, examination, evaluation, or other service represented as contributing credit or otherwise leading toward a specified or unspecified degree or certificate that will or might be conferred anywhere shall notify the Commission at least 6 months in advance and then promptly supply all information the Commission requests. Failure to notify the Commission in advance, or to provide information as directed, may result in permanent denial of approval for the school to offer any services in or from Oregon, as well as administrative action, up to and including assessment of civil penalties.

(2) Schools that offer no degrees in Oregon but want to offer a certificate are subject to the requirements of ORS chapter 345 and OAR chapter 715, division 45.

(3) Schools intending to apply for authorization or exemption from the commission shall provide the commission with information about the school's ownership and structure, proposed programs, and relationships to other institutions, if any. On the basis of this preliminary information, the Commission's executive director will determine whether the school:

(a) Must apply for state authorization to offer instruction or related services leading to one or more degrees under the standards of OAR 583-030-0035 or 583-030-0036;

(b) Is exempt for other than religious reasons under ORS 348.597;

(c) Is eligible for exemption under ORS 348.604 and therefore has a choice of standard state approval or religious exemption.

(4) A school that applies for degree authorization or exemption shall use forms and follow procedures determined by the Commission. Failure to comply constitutes good reason to reject an application. Such school shall be open to inspection and may be inspected at any time to verify its statements and to examine facilities. Inspection of a school and evaluation of its application will be performed by state officials or consultants at the Executive Director's discretion, and results will be utilized as the Commission considers appropriate. Information from other examiners, such as accreditors or professional licensing agencies, may accompany materials submitted by the school and may be used by the Commission at its discretion.

(5) Authorization to offer instruction or related services leading to a degree applies to specific curricula and services for specific periods:

(a) Authorization is normally given for the state as a whole, but may be limited by the Commission in order to ensure program quality or operational stability.

# ADMINISTRATIVE RULES

(b) The Commission, on the basis of judgment about the relationship between a curriculum and a degree title, may require revision of title. Degree titles may not contain the name of organizations, companies or products.

(c) Authorization is given for a specific degree for a fixed period of not less than two or more than four calendar years. The executive director may vary the length of approval periods by up to one year subject to the four-year limit in order to consolidate applications or renewals for the convenience of the school or the Commission.

(6) Authorization to offer instruction or related services leading to a degree expires at the end of the period for which it is given, without right or presumption of renewal, except that an authorized school having submitted a complete and timely application for renewal continues to be authorized until such time as a review or revocation procedure may determine otherwise. After discontinuing its offer of an authorized degree before the end of the period of authorization, a school shall not reinstate the degree without permission from the Commission. A program shall be deemed discontinued if a period of two academic years passes without any students being enrolled in the program.

(7) Authorization to offer instruction or related services leading to a degree is subject at all times to supplemental review if the school appears to be at risk or approaching probation, suspension or revocation for proper cause according to procedures described in OAR 583-030-0045.

(8) Approval of a degree by the commission does not constitute approval of the program as training for professional practice when the state licenses or otherwise regulates professional practice. Applicants must also seek approval from the appropriate state licensing entity.

### General Conditions Required for Residential or Semi-residential Degree Program Authorization

Effective January 13, 2015. All applicant schools must meet the following conditions to apply for initial or renewed authorization to offer a residential or semi-residential degree to Oregon residents or to offer any degree from within Oregon to persons anywhere.

(1) A school must appoint a responsible administrator who resides within the state and has a business address and telephone within the state, who may transact the essential business of application, and who in any case shall be made an informed party to all such business. If a non-Oregon-based school plans a small or narrowly specialized operation within this state, the executive director may permit the applicant to use an out-of-state administrator.

(2) All programs must be designed to allow all students to work toward a degree at a rate equivalent to at least half-time study.

(3) No school shall be eligible to apply for authorization to offer in or from Oregon any instruction or other services leading to a doctor's degree before it has obtained accreditation or pre-accreditation candidacy at or above the bachelor's degree level recognized by the U.S. Secretary of Education. However, offer of doctoral programs in another state by an unaccredited school will not automatically disqualify such school from authorization to offer degrees below the doctoral level in Oregon. The only exception to this provision is that a proposed school offering one or more doctoral programs leading to professional licensure in a field in which Oregon has such licensure may apply for approval from the Commission. In such cases, the school proposing to offer doctoral programs may apply for Commission approval only if the program is designed and intended to meet the standards for licensure required by the appropriate Oregon professional licensing board.

(4) A foreign (non-U.S.) school is eligible to apply for Oregon approval if it is approved to offer degrees by the appropriate agency in its home country and the Commission finds that its home country has adequate oversight of academic programs. Foreign schools are not limited to offering in Oregon the same degrees for which they have approval in their home country, but may not offer degrees at a higher level in Oregon than those for which they have authorization in their home country.

### Application Procedure

Effective September 10, 2015:

(1) A school seeking initial degree authorization should allow three months to prepare its application and six additional months for review by the Commission. Approval of exempt degrees and abbreviated reviews for certain external or semi-residential degrees or for limited or restricted residential instruction may require less time. To be considered timely, a complete application for renewal of an existing authorization must be submitted six months before the date that authorization expires, and a school seeking renewal is fully responsible for beginning the procedure.

(2) In order to be valid, application must be made by the method determined by the Commission, including completion according to instruction of any forms provided for the purpose. Modification will be allowed by explicit permission only. The applicant school shall submit any information requested by the Commission and may submit such supplemental information as it considers pertinent. The Commission will provide advice.

(3) Program approval may be made conditional on approval of employees hired after the approval date.

(4) Application for authorization to offer a degree or to provide services leading to a degree in whole or in part must be accompanied by payment of the fee described in OAR 583-030-0046 or such reduced fee as is determined by the Commission in special circumstances. Several curricula leading to the same degree may be submitted as part of a single application.

### Review Process for Degrees

Effective January 13, 2015:

(1) Review of an application to offer instruction or related services leading to a degree or certificate includes evaluation of the school and its proposed programs in relation to the state academic standards set forth in OAR 583-030-0035, or modified under 583-030-0036 for a non-Oregon school that will offer limited resident instruction in Oregon.

(2) Pursuant to OAR 583-030-0036, the Commission at its discretion may employ an abbreviated review procedure with adjusted fee for a non-Oregon school offering limited or restricted instruction in Oregon for an external degree.

(3) Review of free-standing certificate or diploma programs offered by degree-granting schools, or credit-bearing courses offered by schools that do not issue degrees in their own name will generally follow the model for associate degrees.

(4) In the course of evaluation, the Commission's staff will ordinarily inspect the facilities and records of an applicant school and interview officials, employees, or students of the school as necessary to obtain sufficient information. The staff may also interview employers of school graduates and representatives of organizations that appear closely related to the school.

(5) Where competency in a particular academic discipline is essential to an evaluation, the Commission's executive director may seek expert advice in that discipline. However, adequacy of instruction in a discipline will ordinarily be judged by faculty credentials in relation to the standards, by curricular content in comparison with similar programs of established quality, and by educational resources and student performance. Where competency in a particular occupation or profession is needed for an evaluation, the executive director will seek expert advice from the corresponding state licensing board.

(6) The Commission will not review sectarian content of curriculum for degrees with a religious title or significant religious content; the state's only concern will be to ensure that the curriculum has a reasonable structure related to credits awarded.

(7) The review culminates in preparation of findings, including explanation of any failure to satisfy a standard, which are provided to the applicant in a formal report. Approval is not granted until all standards are satisfied. If a standard cannot be satisfied in a reasonable length of time, approval will be denied.

# ADMINISTRATIVE RULES

(8) Refusal by the Commission to authorize an applicant school to offer instruction or related services leading to a degree is subject to right of review as provided in ORS 348.615 by an action brought for trial without jury in the circuit court of the county in which the school is located. A school or putative school having no physical location in Oregon at which students are served shall bring any such action in the circuit court of Marion County.

### Standards for Schools Offering Degree Programs In or From Oregon

Effective September 10, 2015. In order to receive and hold authorization to offer in or from Oregon instruction or related services leading to one or more degrees, a school must remain open to inspection at all times and continuously satisfy each of the following standard requirements as written, except where the Commission approves modification under OAR 583-030-0036 or substitution under 583-030-0011. Standards are applicable to all programs.

(1) Name. The school shall use for doing business publicly a name that is consistent with its purpose and educational programs.

(2) Control.

(a) All persons responsible for upper management policy must be individually qualified by education, experience, and record of conduct to assure effective management, ethical practice, and the quality of degrees and services offered. Boards must collectively demonstrate financial, academic, managerial and any necessary specialized knowledge, but individual members need not have all of these characteristics. Any controlling organization or owner is subject to this standard.

(b) Administrators shall be paid by fixed salary and not by commission. Commission includes monetary and nonmonetary compensation. Any portion of payment that is based on enrollment of students recruited by the administrator or the administrator's staff is considered payment by commission.

(c) Teachers shall be paid by fixed salary and not by commission. Commission includes monetary and nonmonetary compensation. Any portion of payment that is based on enrollment of students recruited by the teacher is considered payment by commission.

(d) Nonprofit Schools:

(A) Persons who control a nonprofit school shall demonstrate a commitment to the school's best interest as a public trust.

(B) A nonprofit school shall have a published policy that is followed in practice against conflicts of interest at all organizational levels.

(e) For-profit Schools:

(A) A school operated for profit shall disclose fully to the Commission the specific financial interest of any involved organization or person, except that a large group of shareholders may be described generally. Any person or entity holding at least 5 percent of voting or common shares in a for-profit school must be named and the percentage of holdings disclosed. All business activities of interested organizations or persons are subject to disclosure.

(B) All board members, administrators, or owners of five percent or more of shares of an applicant school or parent corporation must disclose with explanation the following:

(i) Any prior felony convictions.

(ii) Any known violations of federal financial aid rules by a school of which the person was a board member or employee.

(iii) Any known violations of the policies of an accreditor by a school of which the person was a board member or employee.

(iv) Any previous or current ownership or administration of a school that closed or filed for bankruptcy.

(3) Organization.

(a) The school and any parent organization shall be organized so as to distribute responsibility clearly among positions in a logical structure that is consistent with services offered and qualifications needed to fulfill the duties of the positions. An individual may occupy more than one position.

(b) The school shall satisfy the Commission that all upper executive officers and other administrators are individually qualified by education, experience, and record of conduct to assure competent management, ethical practices, and effective educational service. Unless an exception is approved by the commission's executive director because of sufficient

compensatory qualification, administrators above the entry level shall have experience related to their present duties, and all administrators with authority over academic programs shall possess appropriate degrees earned from schools that are regionally accredited or otherwise determined by the Commission to be acceptable.

(c) The school shall make available to the Commission an administrator generally responsible for school operations within the state and trans-action of business with the Office. Unless an exception is approved by the Commission's executive director because of sufficient compensatory qualification, that administrator shall possess a degree at least as high as any offered by the school in connection with operations in Oregon, together with appropriate administrative experience.

(d) There shall be an academic officer for the entire school responsible for faculty and academic programs offered in or from Oregon. Unless an exception is approved by the Commission's executive director because of sufficient compensatory qualification, that officer shall possess at least a master's degree and shall possess a doctor's degree if the school offers any graduate or non-baccalaureate professional degree. That officer shall have experience in teaching and academic administration, both experiences appropriate to the level, size, and complexity of the school.

(e) There shall be a business officer for the entire school responsible for accounting and managerial services. Unless an exception is approved by the Commission's executive director because of unusual compensatory qualification, that officer shall possess at least a bachelor's degree in a business-related field, together with appropriate administrative experience.

(4) Teachers.

(a) The school must obtain and keep official transcripts for all teaching faculty.

(b) The school shall satisfy the Commission that all teachers are individually qualified by education and experience to give expert instruction or evaluation in their specialties. Unless an exception is approved by the Commission's executive director because of sufficient compensatory qualification, teachers shall be qualified for the various levels of instruction or evaluation as described below, with degrees earned from schools that are accredited by a federally recognized accreditor or otherwise determined by the commission to be acceptable.

(c) Standards applicable to specific degree levels. A person who does not hold the appropriate level and major degree as stated in subparagraphs (B) through (E) of this paragraph may demonstrate qualification by showing at least 12 semester or 18 quarter credits in the field at a level higher than the current teaching assignment combined with appropriate professional experience in the field. Teaching experience cannot be used to replace professional experience if this option is exercised, except for teacher education programs.

(A) Teachers in programs leading to degrees in the fine arts, including but not limited to art, music, dance, cooking, theater, photography, writing and other programs involving a significant creative element, may demonstrate qualifications with a documented combination of academic and creative work.

(B) Standards applicable to associate degree programs: A teacher on a faculty offering associate's degrees ordinarily shall possess a bachelor's degree appropriate to the subject taught or evaluated, except that compensatory nonacademic qualifications will be more readily accepted by the Office in programs leading to occupational degrees leading to professional licensure or the fine arts. Where the degree emphasizes transfer courses in the arts and sciences (primarily Associate of Arts degrees), the teacher ordinarily shall possess an appropriate master's degree.

(C) Standards applicable to bachelor's degree programs: A teacher on a faculty offering bachelor's degrees ordinarily shall possess an appropriate graduate degree in the field currently taught.

(D) Standards applicable to master's degree programs: A teacher on faculty offering master's degrees ordinarily shall possess an appropriate doctor's degree and some teaching experience, except that up to half of the teachers in an occupational or professional degree program may substitute for the doctorate a master's degree together with occupational or professional licensure or equivalent certification and related work experience. More substitutions may be permitted where the terminal degree for teachers in an occupational or professional field is not generally considered to be a doctorate.

(E) Standards applicable to doctoral degree programs: A teacher on a faculty offering doctor's degrees ordinarily shall possess an appropriate doctor's degree and substantial graduate or first-professional teaching experience, including experience overseeing advanced independent study or student practice, except that the doctor's degree alone may suffice for

## ADMINISTRATIVE RULES

teaching courses at the master's level generally or at any level in the teacher's particular subspecialty.

(d) There shall be sufficient numbers of teachers and so distributed so as to give effective instructional and advisory attention to students in all programs offered by the school.

(e) A school having an undergraduate FTE student-faculty ratio of greater than 30:1 or a graduate FTE student-faculty ratio of greater than 20:1 for students taught in or from Oregon must demonstrate that students and faculty have adequate opportunities for one-to-one interaction.

(f) A school that does not have at least one full-time teacher resident in Oregon or directly teaching Oregon students in each specialty must demonstrate with specific examples the adequacy of faculty contribution to organizational integrity and continuity, to academic planning, and to resident student development.

(g) The school shall have a faculty development policy that continuously improves their knowledge and performance.

(h) The school must provide the Commission with annual data regarding turnover of full-time teachers. The Commission may limit use of part-time teachers upon finding that such turnover or use results in substandard education of students.

(i) The school shall demonstrate an effort when hiring teachers to avoid dependence on its own most recent graduates. No more than 20 percent of all applicant school teachers can hold their highest degree from the applicant school unless fewer than 10 schools in the United States offer the highest degree available in the field. Schools offering solely religious degrees are exempt from this requirement.

(j) A teacher of an academic or scientific discipline within an occupational or professional degree program (e.g., economics within a business program, psychology within education, anatomy within nursing) ordinarily shall possess the appropriate degree in the discipline rather than a non-disciplinary occupational or professional degree. Lower-division undergraduate courses may be taught by those with non-disciplinary degrees who have demonstrable and extensive acquaintance with the discipline.

(5) Credit. The school shall award credit toward degrees proportionate to work done by students and consequent upon the judgment of qualified teachers and examiners. Credits are generally expressed as either semester (SCH) or quarter credit hours (QCH). One semester credit represents approximately 45 hours of on-task student work in a semester (usually two study hours per faculty contact hour). A quarter credit hour represents approximately 30 hours of student work in a quarter. Credit hours earned through nontraditional learning schedules shall have proportionate value to credit hours based on customary term lengths.

(a) Instructional methods:

(A) Credit awarded by the school shall be based solely upon the judgment of teachers who have had extensive direct contact with the students who receive it, with the exception of methods listed in these rules if approved in advance by Commission's executive director.

(B) At least one academic year of credit toward any degree, most of it near the end, shall represent teaching or direct evaluation by faculty members employed by the school, except that the Commission may approve a lesser amount for an associate's degree.

(C) Credit may be awarded for distance learning if the school demonstrates that it has adequate methods in place to ensure that student work is sufficient both in quality and quantity to meet the Commission's requirements, courses are developed and taught by qualified faculty and there will be sufficient interaction between students and faculty and, if possible, among students. The Commission may limit or disallow credit awarded for any type of distance learning if the school cannot demonstrate adequate oversight and quality control measures.

(D) Transfer credit integral to the school's approved degree curriculum may be awarded at the corresponding degree level for academic work documented by other schools that are accredited, authorized to confer degrees in or from Oregon, or otherwise individually or categorically approved by the Commission. Such credit must be at a "C" grade or above, and converted as needed from semester, quarter or nontraditional calendar systems.

(b) Non-instructional Methods. No more than one year of an academic program can be completed using any combination of the non-instructional methods set forth in subparagraphs (A), (B), and (C) of this paragraph:

(A) Advanced Placement credit integral to the approved degree curriculum may be awarded in the lower-division up to a limit of one academic year for passing examinations constructed by testing organizations satisfactory to the commission.

(B) Challenge examination credit as an actual component of the approved degree curriculum may be awarded only for successful performance on a final course examination, or on a similar test covering all course content, given by the school in lieu of requiring class attendance. No more than 25 percent of a program may be earned through challenge examinations.

(C) Noncollegiate learning integral to the approved degree curriculum may be awarded credit only at the undergraduate level for learning validated by a student portfolio, a credit evaluation guide issued by the American Council on Education, or a similar criterion. Such learning must be formulated through sufficient contact between teacher and student, communicated competently in terms of ideas (e.g., concept, generalization, analysis, synthesis, proof) rather than mere description, and judged by faculty members or contracted experts demonstrably qualified to evaluate it. Upper-division credit of this type may be awarded only in academic fields in which the school employs its own faculty. No more than 25 percent of an undergraduate degree program may be earned through award of credit for noncollegiate work.

(6) Curriculum. The school shall assure the quality of all attendant teaching, learning, and faculty-student interaction. The curriculum shall have a structure that reflects faculty responsibility for what is to be learned overall, as well as in each course, and thus for the logical sequence and increasing difficulty of subjects and instructional levels. While requirements are sometimes listed in both semester and quarter credit hours, the commission usually states credit hours as semester credit hours. If quarter credits are not listed, colleges using the quarter system should multiply the stated credits by 1.5 to obtain the correct requirement in quarter credit hours (QCH) under quarter systems. These are the basic requirements for different kinds of degrees available in Oregon. The Commission's executive director may approve minor variations from these curriculum standards in order to allow programs to operate efficiently.

(a) Undergraduate Programs. All associate and bachelor's degrees require one year (at least 6 semester (SCH) or 9 quarter credit hours (QCH) or equivalent alternate term credit hours) of English composition or equivalent commission-approved writing courses. Students may meet this requirement by achieving a score on a nationally normed test that would permit a waiver of English composition requirements or the award of academic credit in English composition at an accredited college or university.

(b) Associate's Degrees. An associate's degree requires at least two academic years (60 semester credit hours or 90 quarter credit hours) in FTE postsecondary study. The degree requires at least 15 SCH or 22 QCH in general education courses, including the undergraduate English composition requirement.

(A) Associate of Arts. A full-transfer degree, the A.A. requires two academic years applicable to B.A. or B.S. study fulfilling baccalaureate liberal arts requirements. A major is optional. Thus, the A.A. requires 24 SCH (36 QCH) in the liberal arts and sciences, with at least 6 hours (9 QCH) each in the humanities, sciences, and social sciences.

(B) Associate of Science. A limited-transfer degree, the A.S. requires a major and two academic years applicable to professional or technical baccalaureate study. The A.S. degree requires 24 SCH (36 QCH) in the humanities, sciences and social sciences, or in non-vocational courses closely related to them.

(C) Associate, Professional or Technical. A terminal degree, the professional or technical associate's degree requires a major (Degree title examples: Associate of Applied Arts, Associate of Applied Science, Associate of Technology, Associate of Occupational Studies, Associate of Business, Associate of Religion). In addition to the major requirements, this degree requires the basic 15 SCH or 22 QCH in general education courses, including the English composition requirement.

(c) Bachelor's Degrees. A bachelor's degree, or baccalaureate, requires at least four academic years (120 SCH or 180 QCH) in FTE postsecondary study. At least 40 semester credit hours (60 QCH) shall be in upper-division courses, and no more than two academic years of instruction (no more than 50 percent of credit hours used for the degree) shall be from schools that do not offer baccalaureate degrees.

(A) General Education: The degree requires one academic year (at least 30 SCH or 45 QCH) of general education, which includes the one-year undergraduate English composition requirement.

(B) Major Field: The degree requires distinct specialization, i.e., a "major," which entails approximately one academic year of work (30 SCH or 45 QCH) in the main subject, with 20 SCH (30 QCH) in the upper division and 15 SCH (22 or 23 QCH) of upper-division hours taught by the resident faculty. A dual major simply doubles these numbers.

# ADMINISTRATIVE RULES

(C) An interdisciplinary major is also permitted. It requires two academic years (60 SCH) in either three or four disciplines, with at least 15 hours in each discipline and at least 9 upper-division hours in each. A school may offer a major or an interdisciplinary option in any field in which it has more than one fully qualified teacher if at least one teaches full time.

(D) Degrees. The following bachelor's degree names, levels and types are available in Oregon:

(i) Bachelor of Arts. An arts degree, the B.A. requires competency in a foreign language and one academic year in the humanities, i.e., 30 SCH, of which 12 can be in foreign languages. The language competency requirement is equivalent to the 12 hours, the second-year level, and ESL students can satisfy it with 12 hours of English language and literature. As general education outside the major, the B.A. requires 24 SCH in the liberal arts and sciences, with at least 6 hours in each of the three areas: humanities, social sciences, and natural sciences.

(ii) Bachelor of Science. A science degree, the B.S. requires one academic year in the social or natural sciences, i.e., 30 SCH, of which 12 can be in mathematics and state-approved computer courses. As general education outside the major, the B.S. requires 24 SCH in the liberal arts and sciences, with at least 6 hours in each of the three areas: humanities, social sciences, and natural sciences.

(iii) Bachelor, Professional. As general education outside the major, the professional bachelor's degree requires 24 SCH hours in the liberal arts and sciences, with at least 6 hours in each of the three liberal arts and sciences areas: humanities, social sciences, and natural sciences.

(iv) Bachelor, Technical. As general education outside the major, the technical bachelor's degree requires 24 SCH in the liberal arts and sciences, or in non-vocational courses closely related to them, with at least 3 semester hours in each of the three areas: humanities, social studies, and natural sciences, and a total of at least 9 in the two areas most unrelated to the major.

(d) Graduate Degrees. A graduate curriculum shall reflect a concept of the graduate school as a group of scholars, the faculty members of which have had extensive collegiate teaching experience and are engaged in the advancement of knowledge. A graduate degree must involve teaching by such qualified faculty and cannot be earned solely by testing and/or portfolio review.

(A) A master's degree shall require at least one full academic year in FTE post-baccalaureate study, except that a first-professional master's degree may be authorized for study beyond fulfillment of undergraduate requirements approved by the commission if the total period of study is at least five academic years. The curriculum shall specialize in a single discipline or single occupational or professional area and culminate in a demonstration of mastery such as a research thesis, a work of art, or the solution of a practical professional problem.

(B) A doctor's degree shall require at least three academic years in specialized post-baccalaureate FTE study, except that a first-professional doctor's degree may be authorized for four academic years of study beyond fulfillment of undergraduate requirements approved by the commission. Study for a closely related master's degree may be counted toward doctoral requirements. The doctor's degree shall represent a student's ability to perform independently basic or applied research at the level of the professional scholar or to perform independently the work of a profession that involves the highest levels of knowledge and expertise. Requirements for the degree shall include demonstration of mastery of a significant body of knowledge through comprehensive examination, unless a graduate must pass a similar examination in order to be admitted to professional practice in Oregon. The curricular program of a research degree shall be appropriately broad and shall manifest full understanding of the level and range of doctoral scholarship, the function of a dissertation and its defense, the nature of comprehensive examination, and the distinction between matriculation and degree candidacy.

(7) Learning. The school shall require each student to complete academic assignments and demonstrate learning appropriate to the curriculum undertaken.

(a) Teachers or evaluators shall inform students clearly using a syllabus or similar instrument of what should be learned in each course and how it will be measured.

(b)(A) Expectations of student performance shall be increased with each ascending step in degree level. Higher degrees must represent an increase in the difficulty of work and expectations of students, not simply an accumulation or increase in quantity of student work.

(B) Evidence of expectation (e.g., syllabi and sample exams) and performance (e.g., student grades) shall be retained for all academic courses for at least one year.

(c) The school shall require students to make continuous progress toward a degree while they are enrolled and liable for tuition and shall suspend or dismiss those who do not make such progress, except that a period of probation with guidance may be instituted in order to obviate separation of a student who can be expected to improve immediately. Continuous progress for students receiving Title IV federal student aid shall be defined according to federal Title IV standards. Students not receiving Title IV federal student aid shall meet the school's own published standards for satisfactory progress.

(d) Grading and appeal procedures shall be fair and administered equitably, and criteria of student progress shall be validated by research if not obviously valid.

(8) Recruitment:

(a) The school is responsible for ensuring that its recruitment agents are knowledgeable about the school's:

(A) History and accreditation;

(B) Programs of study;

(C) Admission and assessment requirements;

(D) Ability to assist in providing housing and/or job placement;

(E) Financial policies and procedures, including the point at which students can expect to receive financial aid disbursements;

(F) Refund policy;

(G) Graduation requirements and rates;

(H) Rules and regulations; and

(I) Placement rates if they are used in recruiting.

(b) The school is responsible for insuring that its recruitment agents are providing accurate, realistic information about the school, its policies and achievements, and its ability to assist students.

(c) A prospective student shall receive a complete description of the school and its policies, including an estimate of annual or program costs, before being enrolled. This estimate is not binding on the institution but must give prospective students a reasonable idea of their financial commitment.

(d) Where a degree or certificate implies preparation for a specific occupation, the school shall explain clearly the true relationship between its curriculum and subsequent student qualification for occupational practice, including employment rates in the field and graduates' success rates in passing licensure examinations if applicable. Employment rates in the field claimed by a particular program shall treat graduates as employed in the field only if the position in which the graduate is employed meets the following conditions.

(A) is at least half-time.

(B) is usually filled by a person with a credential of the kind offered by the program or is one in which holders of such a credential have a competitive advantage in the workplace because of training of the kind provided by the program.

(C) employs the graduate within six months of program completion in a position that is intended to be permanent, i.e. not for a defined period of time. The school has the burden of showing that the position is intended to be permanent.

(e) The school shall take precautions to avoid unrealistic expectation of housing availability and cost when the school does not provide housing and job placement, including part-time employment and practica during the student's enrollment.

(f) A claim made to attract students shall be documented by evidence available to any person on request. The school shall make no attempt to attract anyone who does not appear likely to benefit from enrollment, and no attempt to attract students on any basis other than instruction and campus life appropriate to an educational institution.

(g) Outside the regular student financial aid process, there shall be no discounting of tuition as an incentive to enroll.

(h) The school shall not contract with a third-party entity, independent contractor or corporation for the recruitment or enrollment of students where payment to the third-party is based wholly or in part on a commission basis. Commission includes monetary and nonmonetary compensation.

(9) Admission. The school shall offer admission only on receipt of evidence that the applying student can reasonably expect to complete a degree and to benefit from the education obtained.

(a) A student admitted to undergraduate degree study for the first time shall have either a standard high school diploma, a comparable credential issued outside the United States or a GED. Home-schooled students without a standard diploma or GED may only be admitted if they can demonstrate the ability to perform college-level academic work through use of an ability-to-benefit test. Modified diplomas, extended diplomas and other

## ADMINISTRATIVE RULES

kinds of K-12 leaver certificates are not considered diplomas for purposes of college admissions. Students holding such nonstandard certificates can be admitted only through use of an ability-to-benefit test.

(b) A student admitted to undergraduate degree study with undergraduate experience shall have a record of successful performance therein or else a record of responsibility and achievement following unsuccessful collegiate performance.

(c) A student admitted to graduate degree study shall have a baccalaureate degree from a school that is accredited, authorized to confer degrees in Oregon, or otherwise approved by the Commission either individually or by category.

(d) A student admitted to first-professional degree study shall have at least three academic years of accredited or Commission-approved undergraduate credit, graded average or better, including pre-professional courses specified by the school and approved by the commission.

(10) Guidance. The school shall help students to understand the curriculum and to make the best use of it.

(a) There shall be a program of general orientation for new students.

(b) Each student shall be assigned a qualified academic advisor to assist individually in planning, course selection, learning methods, and general adjustment.

(c) The school shall provide career guidance to the extent that curriculum is related to a specific prospective occupation or profession.

(11) Student Affairs. Through both services and supervision the school shall demonstrate commitment to the success of individual students and to maintenance of an atmosphere conducive to learning.

(a) Rules of student conduct shall be reasonable, sufficiently specific, fully communicated, systematically and equitably enforced, and accompanied by policy and practice of disciplinary due process, including notice and hearing and related rights.

(b) Health, counseling or psychological services provided to students must meet requirements for professional practice in Oregon.

(c) Housing where provided or endorsed by the school shall be conducive to study and adequately supervised.

(d) Financial aid services shall be provided by qualified administrators.

(e) Placement services where provided shall be described clearly to students, and the school shall take precautions to avoid unrealistic expectations of placement.

(f) Records documenting relationships between the school and a student shall be open to that student, who may request changes or enter dissenting comments, and the content of records shall be objective and fair. Records that originate with a third-party regarding a complaint against a student shall be open to the student so long as all identifying information such as names and addresses shall be redacted prior to producing the records to the student. The private notes of a counselor are not to be considered educational records and shall not be transmitted as such, either inside or outside the school. All medical records are confidential, subject to state and federal laws and shall not be released without permission of the patient.

(g) There shall be available to undergraduate students and responsible for student affairs an official who possesses knowledge, skill, and managerial experience particularly appropriate to the function, unless the Commission waives this requirement. In general, waivers are granted only for small startup schools in their first approval cycle and for schools that mainly teach people who are of nontraditional age (23 or older) or already in the workforce.

(h) Every school shall distribute a student handbook or similar publication describing services and regulations, unless such descriptions are complete in the school's main catalog.

(12) Information. The school shall be scrupulously ethical in all communication with the public and with prospective students. School publications, advertisements, and statements shall be wholly accurate and in no way misleading. Reference to state approval shall be limited to that described in OAR 583-030-0041. Reference to accreditation shall be limited to that defined in OAR 583-030-0000.

(a) The school shall publish at least every two years a catalog or general bulletin. The catalog shall contain a table of contents and adequate information concerning period covered, school name and address, telephone numbers, state approval, purpose, relationship to occupational qualification, faculty and administrators (listing position or teaching specialization together with all earned degrees and their sources, omitting unearned degrees and not confusing professional licenses with degrees), degree requirements and curricula, academic calendar, credit policy in accordance with subsection (5) of this rule, transferability of credit to other schools,

admission requirements and procedures, academic advising and career planning, academic policies and grading, rules of conduct and disciplinary procedure, student services (e.g., counseling, health, placement, housing, food, bookstore, activities, organizations), student records, library, facilities, fees and refunds, estimated total expenses, financial aid, average total student loan debt students leave the school with, and job opportunities for current students. Electronic publication meets this standard provided that the electronic catalog is provided to the Commission, is available to students upon request, and is maintained securely with the school as the official version in order to avoid confusion if electronic versions are changed. Paper copies of the school catalog shall be maintained by the school and made available to the Commission and students upon request.

(b) A school without regional accreditation shall print in a separate section of its catalog titled "transfer of credit to other schools" a statement warning students verbatim that "transfer of credit is always at the discretion of the receiving school, generally depends on comparability of curricula, and may depend on comparability of accreditation." Other comments may follow concerning the school's documented experience in credit transferability, but it must be clear that a student should make no assumptions about credit transfer.

(c) A school authorized to offer instruction or related services leading to one or more degrees under the standards in OAR 583-030-0035 shall provide students, prior to enrollment, a copy of a basic program and school fact page for each program for which a certificate or degree is offered. The fact page shall include information regarding:

(A) The total cost of the program;

(B) Programmatic and institutional accrediting bodies;

(C) Transfer of credit to other accredited institutions, listing of any transfer articulation agreements with other institutions and in an attached document make available to students the related transfer articulation prerequisite information;

(D) Program length, and the average time students take to graduate by program, and at whole school level;

(E) Graduation rate;

(F) Median borrowing (federal and private loans) amount, and median annual loan payments of students;

(G) Loan default rate;

(H) Job placement success which is defined as a percent of students who are employed in the field of study (by program);

(I) Median starting salary for graduates;

(J) Gainful employment results as outlined under U.S. Department of Education accountability metrics; and

(i) The Commission, at its discretion, may waive the requirement above for non-career/non-vocational academic programs offered by regulated Oregon non-profits.

(ii) A school authorized to offer instruction shall submit to the Commission a copy of the program fact page for each program on or before September 1 of each year commencing 2016; however, for the school year 2015-2016 the fact page documents shall be provided within 90 days of the date of the promulgation of these rules.

(13) Credentials. The school shall provide accurate and appropriate credit transcripts for students who enroll and diplomas for students who graduate.

(a) The school shall maintain for every past and present student, and shall issue at the request of any student who is not delinquent in fee payment, a current transcript of credits and degrees earned. The transcript shall identify the school fully and explain the academic calendar, length of term, credit structure, and grading system. It shall identify the student and show all prior degrees earned, details of any credit transferred or otherwise awarded at entry, and periods of enrollment. It shall include for each period of enrollment every completed course or module with an understandable title, number of credits earned, and grade received. The transcript shall note with or without explanation if the student is not immediately eligible to continue enrollment, e.g., for reasons of academic probation or suspension.

(b) Upon satisfaction of degree requirements and payment of all fees owed, the school shall provide the graduating student with a diploma in a form approved by the Commission, appropriately documenting conferral of the degree.

(14) Records. The school shall keep accurate and secure records affecting students. There shall be at all times complete duplicate transcript information kept in a location away from the original transcripts, such that duplicates and originals are not exposed to risk of simultaneous damage. In addition to transcripts, which may never be destroyed, the school shall maintain detailed records documenting the significant parts of its formal relationship with each student including: financial transactions and

# ADMINISTRATIVE RULES

accounts, admission qualifications, validation of advanced standing, instructor course records as posted to transcripts, and status changes due to unsatisfactory performance or conduct. Such supporting records shall be kept in a secure location for a period of at least three years after a student has discontinued enrollment. Instructor course records other than those posted to transcripts shall be kept for at least one year.

(15) Library. The school shall provide or arrange for its faculty and students direct or electronic access to verbal and sensory materials sufficient in all subjects of the curriculum to support instruction and to stimulate research or independent study.

(a) The school may arrange for comprehensive privileges from libraries of other organizations, provided it can prove convenient access and extensive use, but the school shall retain full responsibility for adequacy of resources available to students.

(b) Library services shall be under the direction of a person educated professionally in library and information studies, except that the Commission may waive this requirement where the range of academic fields represented is narrow.

(c) Library resources shall be current, well distributed among fields in which the institution offers instruction, cataloged, logically organized, and readily located.

(d) The school should conform to the following guidelines for library services unless it can justify a deviation on the basis of unusual educational requirements.

(A) With the exception of those in specialized associate's degree programs, students should receive direct, contracted or electronic access to a minimal basic collection equivalent to that held by accredited schools offering similar programs. The applicant school must demonstrate this capability by submitting to the Commission copies of contractual arrangements with resource providers and related resource references that will be available to students.

(B) Staff should include a professional librarian for each 1,000 students, with clerical support adequate to relieve librarians of all non-professional duties.

(C) Students should have full access to all resources for at least 40 hours per week, and all services should be available for 20 hours per week. The facility, whether provided by the college directly or by contract, should seat no less than 10 percent of the students enrolled unless the program is primarily intended to train practitioners in technical or fine arts fields, in which case a lower percentage may be requested. If the school meets the library standard largely by electronic means, electronic services must be available to a comparable portion of the student body for a comparable period.

(16) Facilities. The school shall have buildings and equipment sufficient for the achievement of all educational objectives.

(a) Buildings in general, including student or faculty housing units, shall be uncrowded, safe, clean, well furnished, and in good repair; and they shall be well lighted, heated, ventilated, and protected from noise. School grounds, where provided, shall be appropriately used and adequately maintained.

(b) Instructional facilities shall be adequate and conducive to learning. There shall be no less than 15 square feet per student station in classrooms, with at least one station for every two FTE students enrolled. Total classroom and study area, including library space for reading, shall be no less than 10 square feet per FTE student.

(c) Laboratory space and instructional equipment shall be inventoried, its use explained on the resulting report, and its adequacy defended on criteria obtained from experts and documented by the school. A laboratory ordinarily shall have no less than 30 square feet per student station.

(d) Clinical facilities and other public service areas shall be appropriate for instruction of students as well as for service to patients or clients.

(e) Faculty offices shall be sufficient to prevent crowding and to allow private conversations with students.

(17) Finance. The school shall have financial resources sufficient to ensure successful continuing operation and to guarantee full refund of any unearned tuition. There shall be competent financial planning using complete and accurate records. The school shall demonstrate satisfaction of this standard upon application, and thereafter annually, by submitting independently audited financial statements with opinion by a certified public accountant.

(a) Financial reports shall be prepared in a format acceptable to the Commission, clearly delineating assets and liabilities and informatively classifying revenues by source and expenditures by function. In some cases, the Commission at its discretion may accept an audited balance sheet with opinion, together with annual operating statements that have been

reviewed by the auditor. A school that is a subsidiary shall submit financial statements of the parent corporation on request. The Commission's Executive Director may require a special investigative audit and report.

(b) Current assets shall be entirely tangible and such that the school is not dependent for solvency on substantial increases in receivables collection rate, gifts, tuition rates, or enrollment. Prospective tuition for which a student is not legally liable is not an asset and shall not be shown as a receivable or other balance sheet asset. Tuition collected but still subject to refund shall be shown as a "prepaid" or "unearned" tuition liability.

(c) A school unable to demonstrate financial strength may be required at the discretion of the Commission's Executive Director to increase the amount of its surety bond or letter of credit in an amount equal to the largest amount of prepaid tuition held at any time. The bond or letter of credit would be subject to claims for tuition refund only.

(d) The school shall carry casualty and general liability insurance sufficient to guarantee continuity in case of accident or negligence, and it shall provide or else require by policy professional liability insurance for all of its officers and employees.

(18) Fees and Refunds. The school shall maintain fee and refund policies that are fair, uniformly administered, and clearly explained in the school catalog as well as in any contract made with students. A student shall not be enrolled without having received the explanatory material. The school shall not change its tuition or fees more than once during a calendar year.

(a) Tuition shall be charged by the credit hour or by fixed rate for instruction during an academic semester, quarter, or shorter term. No student is obligated for tuition charged for a term that had not commenced when the student withdrew or a term that was truncated by cessation of school services. The student may make a claim on a surety bond or letter of credit under OAR 583-030-0051 and OAR 583-030-0052.

(b) Except as noted below in this section, fees not included in tuition shall not exceed five percent of full-time tuition for any term in which separate fees are charged. One-time application or admission fees may exceed 5 percent of first-term tuition but shall not exceed \$200. Lab or equipment fees related to the actual necessary operational costs of specific courses may exceed 5 percent of tuition provided that the fees are made known to students prior to enrollment in the course. Nominal fees for late payments, course withdrawals and the like are acceptable.

(c) After classes begin for a term, a student who withdraws from a course is eligible for a partial refund through the middle week of the term. Refunds shall be based on unused instructional time and shall be prorated on a weekly basis for schools using a semester, quarter, or nontraditional calendar. Refund rates shall not be differentiated on the criteria of a student's source of income or loan repayment obligations except as otherwise required by law without specific Commission approval.

(d) Any fees for credit transferred, for credit attempted or earned by examination or portfolio must be based on the actual cost of service to administer such credits. This is ordinarily less than the cost of regular instruction. The mere award of credit does not justify a fee.

(e) Academic policies shall not artificially prolong the enrollment of a failing student with the effect of increasing financial obligation.

(f) Separation from the school for reason of discipline or other administrative action shall not cause forfeiture of ordinary refund amounts.

(19) Evaluation. The school shall, in order to improve programs, evaluate its own educational effectiveness continually in relation to purpose and planning, including in all aspects the opinions of students. There shall be evaluation of present curriculum and instruction, of attrition and reasons for student withdrawal, and of performance by students after their graduation. In addition to the comments of graduates, employer opinions and licensing examination records should be used in the post-graduation study.

(20) Fair Practice. Notwithstanding the absence of a specific standard or prohibition in this rule, no school authorized to offer degrees or seeking to qualify for such authorization shall engage in any practice that is fraudulent, dishonest, unethical, unsafe, exploitive, irresponsible, deceptive, or inequitable and thus harmful or unfair to persons with whom it deals.

(3) A non-Oregon school authorized to offer instruction or related services leading to one or more degrees but without resident instruction or with limited resident instruction in Oregon under OAR 583-030-0036, shall submit to the commission annually, a detailed listing of students including personal student information, such as; personal identification, demographic and program information in a form and format as directed by the Commission. In addition, in a form provided by the Commission, a brief report of activities and planning in the academic or fiscal year just ended insofar as Oregon students would be affected. In its report, the school shall describe as they might affect Oregon residents any important changes in academic or administrative policies, facilities or locations of instruction, and organization or personnel. The school shall also supply Oregon enrollment and degrees-granted data on a state form provided by the commission, together with current catalogs and the latest independent financial audit not previously submitted. Between annual reports, the school shall send to the commission's executive director immediately details of any possible or anticipated change of ownership, governance, curriculum, Oregon site coordinator, teachers or other matter having potential importance to Oregon students. This provision does not apply to a non-Oregon school authorized in Oregon through a reciprocity agreement, such as the State Authorization Reciprocity Agreement (SARA).

(5) An authorized degree-granting school shall continue during the period of its authorization to respond promptly to any requests made by the commission's executive director for general or particular information and shall supply the information as directed. Monthly reporting will be required for a school determined to be at risk.

(6) A school that ceases to offer any authorized or exempted degree or the instruction related thereto, other than during regular academic recesses, shall notify the commission's executive director immediately and may not reinstate the degree program without permission.

### At-Risk, Probation, Revocation or Suspension of Authorization

Effective September 10, 2015:

(1) While on "at-risk" status the school must notify enrolled students, staff, and prospective students (prior to enrollment) in writing that the school has been placed "at risk" by the Commission. The notification to students, prospective students, and staff shall be immediate upon the school

# ADMINISTRATIVE RULES

receiving the Commission's determination notice. A school determined to be "at risk" at any time, will be required to provide:

(a) A corrective action/school improvement plan acceptable to the Commission within 30 days after being notified by the Commission;

(b) A revised Surety Bond or letter of credit if appropriate; and

(c) A monthly report for up to 12 months. During that time the school shall demonstrate improvement or the Commission shall proceed with further action of probation, suspension, or revocation as deemed necessary.

(2) Whenever an inspection or other investigation reveals lack of compliance with Oregon Revised Statutes, ORS 348.606 to 348.612 or standards of OAR chapter 583, division 30, the Commission may determine the school is at risk. Upon such determination, or when the school fails to meet the requirements set forth by the Commission while on an "at risk" status, the Commission shall officially notify the school in writing that the school has been placed on probation and provide the school with a report of deficiencies. When deemed appropriate, the Commission may initiate immediate suspension or revocation proceedings and schools will be provided due process through the provisions allowed in sections 2 and 3 of this rule. If the Commission elects to place the school on probation, the school shall have 20 calendar days after date of notification to report on actions that have been taken to correct these deficiencies:

(a) The school's response shall indicate corrective action taken and/or a program improvement plan for correcting any remaining deficiencies;

(b) If violations cited are not corrected, or if a program improvement plan submitted to correct the violations is not acceptable to the Commission, the director shall send notice to revoke or suspend the school's authorization;

(c) The school may request a hearing within 21 calendar days of receipt of the commission's notice to revoke or suspend the school's license; and

(d) A school and program that has been placed on probation shall not engage in any advertising, recruitment or student enrollment activities, or begin the instruction of any new students during the period of probation. Until it satisfies the requirements set by the Commission, the school must notify enrolled students, employees and any prospective students in writing that the institution has been placed on "probation" by the Commission. The school must also place notice of the probation at the physical site of the school, if there is such, and on any website, social media or other official platform of the school. The notification to students, prospective students, and staff shall be immediate upon the school receiving the Commission's determination notice.

(3) The Commission, after a hearing before an Administrative Law Judge, may under ORS 348.612, revoke or suspend authorization given to a school to confer or offer to confer degrees in or from Oregon, or to offer instruction or related services in or from Oregon purporting to lead to a degree in whole or in part. Revocations resulting from a change in state or federal law or judicial ruling do not require the use of a hearing officer.

(4) A hearing to consider a proposed revocation or suspension shall be held only after the affected school has been given written notice of the time and place of such hearing 21 days in advance.

(5) Revocation or suspension of degree authorization applies to a school as a whole, inasmuch as failure to satisfy any state requirement for offer of any degree constitutes failure to satisfy all requirements applicable to the school. Refusal by a school to discontinue any substandard offer or practice, regardless of the quality of any other offer or practice, will lead the commission to propose revocation or suspension of approval and/or civil or criminal action.

(6) A school whose degree authorization is revoked shall be considered for reinstatement only after one year and only when the Commission's Executive Director is satisfied that causes of the revocation have been entirely removed. Application for reinstatement from a school in revoked status shall comply with all requirements for a new applicant.

(7) A school whose degree authorization is suspended shall be considered for reinstatement only when the Commission's Executive Director is satisfied that causes of the suspension have been entirely removed. Application for reinstatement from a school in suspended status shall comply with all requirements for a renewing applicant.

(8) Grounds for revoking or suspending the degree authorization of a school include changes in state or federal law or judicial rulings affecting the status of a school or its failure to provide services it has guaranteed to students in writing; failure to supply records and other information to the Commission as directed; falsification of any information supplied to the commission, students, or the public; failure to comply with all applicable requirements of OAR chapter 583, division 30; and failure to prove to the satisfaction of the Commission's Executive Director on request compliance

with any such requirement with respect to which the school's current performance is questioned specifically by the Commission as a result of routine monitoring or individual complaint.

(9) Revocation or suspension requires a school to immediately cease and desist from offering in or from Oregon any degree, instruction, or related services purporting to lead to a degree in whole or in part, except that the Commission at its discretion may permit a revoked or suspended school to complete an academic term already in progress on the date of the action. During such period of completion the school may not enroll new students, and it may not offer to those already enrolled any instruction or services purporting to lead to a degree that would be earned and conferred later than the immediate end of the term in progress. Completion of such term with good faith and fair dealing toward currently enrolled students or reasons for failure to so complete the term shall be factors in any subsequent consideration of a revoked or suspended school for reinstatement.

(10) A separate revocation process for schools exempted on religious grounds is listed in ORS 348.608.

(11) For schools that are part of a corporate entity, limited liability company, general partnership or similar organization, the Commission may extend the at risk, probation, suspension or revocation determination to all entities owned and controlled by the corporation, limited liability company, general partnership or similar organization in regards to their operations in Oregon. Furthermore, while on probation or suspension the Commission may opt to not review or approve any new programs or submittals from the institution, parent company or subsidiaries until all the deficiencies have been addressed to the satisfaction of the Commission.

(12) A school and program that has been placed on suspension shall not engage in any advertising, recruitment or student enrollment activities, or begin the instruction of any new students during the period of suspension. The school must notify enrolled students, employees and any prospective students in writing that the institution has been placed on suspension by the Commission. The school must also place notice of the suspension at the physical site of the school, if there is such, and on any website, social media or other official platform of the school. The notification to students, prospective students, and staff shall be immediate upon the school receiving the Commission's determination notice.

### Fees and Expenses

Effective January 13, 2015:

(1) Each application from a school seeking new or renewed authorization to confer or offer to confer a degree, or through instruction or related services to provide academic credit applicable to a degree, shall be accompanied by payment of a fee to the "Higher Education Coordinating Commission." There is no entitlement to refund of a paid fee under any circumstances. The fee is intended to recover the expenses of carrying out a review and providing services to a school during its period of authorization.

(2) The fees imposed by the Commission for reviewing applications seeking new or renewed authorization to confer or offer to confer a degree are based on the schedule established by the Legislative Assembly in ORS 348.606.

(c) Fee discounts.

(A) In reviewing simultaneous application for two or more degrees, the Commission, at its discretion, may reduce the fee for review of a degree that is closely related in type and content to one on the same level for which the full fee is paid. Such a reduction ordinarily depends on the provision of instruction by a single faculty for both degrees. Degrees on the same level using at least 50 percent of the same courses, taught by at least 50 percent of the same faculty, will be treated as one degree application for review and fee purposes.

(B) The Commission, at its discretion, may also reduce the fee when institution size, low faculty and administrative turnover, stability of ownership or board membership or other factors substantially reduce staff time required for evaluation and subsequent oversight and service. Such reductions are limited to 20 percent below the basic fee.

(C) The fee for religious-exempt schools may not exceed the lesser of the actual cost to the Commission of determining the school's compliance with the requirements for an exemption under ORS 348.604, and may not exceed \$1,000.

# ADMINISTRATIVE RULES

(3) Application from a school for authorization to offer instruction or related services providing academic credit applicable to a degree offered only by another school or schools shall be accompanied by fees proportionate to those established in the paragraph immediately above. However, such fees may be discounted at the discretion of the Commission to reflect a program of reduced dimension if and only when the necessary review analysis is concomitantly reduced.

(4) When the Commission's Executive Director finds it necessary to pay an expert outside consultant for assistance in reviewing an application, or when it incurs other unusual expenses in the course of review, all costs thus incurred may be charged to the applicant school in addition to the basic fee.

### Bond and Letter of Credit Amounts; Amount Reductions

Effective September 10, 2015:

(1) Unless otherwise provided in sections (2) or (3), or as provided in OAR 583-030-0035(17)(c), a surety bond shall be in an amount, equal to the rolling annual average of prepaid tuition.

(a) For a school that has operated in Oregon for one year or more, the rolling annual average of prepaid tuition is defined as half of the average of unearned tuition at the start of each term when tuition is due. Schools shall average the unearned tuition at the beginning of each semester or quarter for the prior year for which academic credit hours were awarded and/or authorized, and divide by two. At the discretion of the Commission the tuition income of non-Oregon based enrolled students may be part of the calculation of the rolling average. "Unearned tuition" is as is described in OAR 583-030-0035(18)(a).

(b) For a school that has operated in Oregon for less than one year, the rolling annual average of prepaid tuition will be a reasonable amount established at the director's discretion based on the school's financial projections

# ADMINISTRATIVE RULES

and estimate of the rolling average of Oregon enrollment and tuition income during the first year of operation, or \$25,000 whichever is greater. At the discretion of the Commission, the tuition income of non-Oregon based enrolled students may be part of the calculation of the rolling average.

(c) For a non-Oregon publicly owned school, the rolling annual average of prepaid tuition is the gross tuition income received from all Oregon enrolled students from the previous year divided by four, or \$25,000 whichever is less. At the discretion of the Commission, the tuition income of non-Oregon based enrolled students may be part of the calculation of the rolling average.

(2) Notwithstanding section (1), a school may obtain a bond or letter of credit in an amount less than its rolling annual average of prepaid tuition upon the approval of the Commission. Eligibility for a reduced bond or letter of credit is as follows:

(a) A school may receive a reduction in the amount of its bond or letter of credit up to 50 percent of its rolling annual average of prepaid tuition if it demonstrates to the Commission's satisfaction that it:

(A) Has received a United States Department of Education, Federal Financial Aid, financial responsibility composite score of 1.5 or greater for the last two consecutive years;

(B) Has not been sanctioned in the last two years, is not at risk, probation, suspension or revocation by the Commission or its institutional accreditor;

(C) Is not under investigation by the United States Department of Education or any other federal agency for a violation that could result in loss of Title IV aid privileges and does not otherwise have any restrictions or warning pertaining to its eligibility for federal programs;

(D) Is not under review for potential probation, suspension or revocation of its operational or degree-granting authority by any state; or

(E) It has an Oregon campus that does not participate in Federal Financial Aid, and meets the requirements set forth above in OAR 583-030-0056(2)(a)(A) through OAR 583-030-0056(2)(a)(D). The school has established a stable operation for the last two years, and demonstrates in its financial planning and audited financial statements that it has dedicated cash reserves for refunds, and demonstrates the capacity to refund unearned tuition.

(b) A school may receive a reduction in the amount of its bond or letter of credit up to 75 percent of its rolling annual average of prepaid tuition if it demonstrates to the Commission's satisfaction that it:

(A) Has received a United States Department of Education, Federal Financial Aid, financial responsibility composite score of 1.5 or greater for the last five consecutive years;

(B) Has not been sanctioned in the last five years, is not at risk, probation, suspension or revocation by the Commission or its institutional accreditor;

(C) Is not under investigation by the United States Department of Education or any other federal agency for a violation that could result in loss of Title IV aid privileges and does not otherwise have any restrictions or warning pertaining to its eligibility for federal programs;

(D) Is not under review for potential probation, suspension or revocation of its operational or degree-granting authority by any state; or

(E) It has an Oregon campus that does not participate in Federal Financial Aid, and meets the requirements set forth above in OAR 583-030-0056(2)(b)(A) through OAR 583-030-0056(2)(b)(D). The school has established a stable operation for the last five years, and demonstrates in its financial planning and audited financial statements that it has dedicated cash reserves for refunds, and demonstrates the capacity to refund unearned tuition.

(3) Publicly owned institutions located outside of this state are required to issue a letter of credit or surety bond. The letter of credit can be issued by the authorizing agency in the state where the school is located, guaranteeing that the state of origin shall provide any refunds or other financial compensation required by Oregon law in the event that the institution cannot or declines to do so.

(4) Commencing 2016, a school approved by the Commission to confer any academic degree under ORS 348.606 must obtain a surety bond or letter of credit on an annual basis on or before September 1. However for the school year 2015-2016, the documents shall be provided within 90 days of the date of the promulgation of these rules.

### Purpose and Scope

Effective January 13, 2015:

(1) This rule implements Oregon Revised Statutes (ORS) 348.594 to 348.615 and 348.992 insofar as each section therein relates to ORS 348.609, intended to protect postsecondary institutions, businesses and other employers, professional licensing boards, patients and clients of degree holders, and all citizens from any person claiming to possess a valid academic degree that in fact was issued by a fraudulent or nonexistent school, by a non-educational entity posing as a school, by a nonstandard school without the use of a disclaimer, or by any entity in violation of applicable statutes or administrative rules.

(2) In order to be valid in Oregon as a public credential usable for general academic or professional purposes, under ORS 348.609 a claimed degree must have been awarded by a school that:

(a) Has accreditation recognized by the U.S. Department of Education or has the foreign equivalent of such accreditation; or

(b) Has been approved through the Higher Education Coordinating Commission (Commission) to offer and confer degrees in Oregon; or

(c) Is located in the United States and has been found by the Commission acting through the commission to meet standards of academic quality comparable to those of an institution located in the United States that has accreditation, recognized by the U.S. Department of Education, to offer degrees of the type and level claimed by the person; or

(d) Is an Oregon school that has achieved exemption from state oversight on religious grounds; or

(e) If unaccredited, has the legal authority from a U.S. state or foreign country to issue degrees usable as educational credentials in the jurisdiction of issue.

(3) This rule applies to any claim to possess an academic degree made by any person acting within the state, acting outside the state while domiciled within the state, or acting outside the state on behalf of an organization that is located within the state.

### Definitions of Terms

Effective January 13, 2015:

(1) "Academic Standards" means those standards in 583-030-0035 or the equivalent standards of an accrediting body that relate to admission requirements, length of program, content of curriculum, award of credit and faculty qualifications.

(2) "Accredited" means accredited and approved to offer degrees at the specified level by an agency or association recognized as an accreditor by the U.S. Secretary of Education, under the 1965 Higher Education Act as amended at the time of recognition, or having candidacy status with such an accrediting agency or association whose pre-accreditation is also recognized specifically for HEA purposes by the Secretary of Education.

(3) "Claim a degree" means to present orally, or in writing or in electronic form any symbol or series of letters or words that would lead the listener or reader to believe a degree had been received and is possessed by the person speaking or writing, for purposes related to employment, application for employment, professional advancement, qualification for public office, teaching, offering professional services or any other use as a public credential, whether or not such use results in monetary gain.

(4) "College level work" required for a degree means academic or technical work at a level demonstrably higher than that required in the final year of high school and demonstrably higher than work required for degrees at a lower level than the degree in question. From lowest to highest, degree levels are associate, bachelor's, master's and doctoral. Professional degree levels may vary. College level work is characterized by analysis, synthesis and application in which students demonstrate an integration of knowledge, skills and critical thinking. Awards of credit for achieving appropriate scores on Commission-approved nationally normed college-level examinations such as those from College Level Examination Program, American Council on Education, Advanced Placement or New York Regents meets this standard.

(5)(a) "Degree" means any earned or honorary title, rank, or status designated by a symbol or by a series of letters or words-such as, but not limited to, associate, bachelor, master, doctor, and forms or abbreviations thereof, that signifies, purports, or may generally be taken to signify:

# ADMINISTRATIVE RULES

(A) Completion of a course of instruction at the college or university level;

(B) Demonstration of achievement or proficiency comparable to such completion; or

(C) Recognition for non-academic learning, public service, or other reason of distinction comparable to such completion.

(b) "Degree" does not refer to a certificate or diploma signified by a series of letters or words unlikely to be confused with a degree, clearly intended not to be mistaken for a degree, and represented to the public so as to prevent such confusion or error.

(6) "Confer a degree" means give, grant, award, bestow, or present orally or in writing any symbol or series of letters or words that would lead the recipient to believe it was a degree that had been received.

(7) "Diploma mill" or "degree mill" means an entity that meets any one of the following conditions as defined in ORS 348.594:

(a) A school against which a court or public body, as defined in ORS 174.109, has issued a ruling or finding, after due process procedures, that the school has engaged in dishonest, fraudulent or deceptive practices related to the award of degrees, academic standards or student learning requirements; or

(b) Is an entity without legal authority as a school to issue degrees valid as credentials in the jurisdiction that authorizes issuance of degrees.

(9) "Earned degree" means a degree awarded based on academic work evaluated and accepted by qualified faculty in the context of a specific degree program, based on the Carnegie credit system as set forth in OAR 583-030-0035(5) or an equivalent as determined by the commission's executive director.

(10) "Foreign equivalent of such accreditation" means authorization by a non-U.S. government found by the commission's executive director to have adequate academic standards. This determination may be made through one or more of the following methods at executive director's discretion:

(a) Direct investigation of foreign standards;

(b) Reliance on an evaluation and determination made by the American Association of Collegiate Registrars and Admissions Officers (AACRAO); or

(c) Evaluation of the transferability of courses and degrees earned in the foreign country to accredited Oregon institutions at similar degree levels.

(11) "Honorary Degree" means a credential awarded by an accredited or approved school in recognition of the recipient's personal merits unrelated to academic achievement demonstrated through course work or equivalent work taken at the awarding school.

(12) "Nonstandard School" means a degree provider that has legal authority to issue degrees valid in its authorizing jurisdiction, but which does not meet the requirements to be a standard school.

(13) "School" includes a person, organization, school or institution of learning that confers or offers to confer an academic degree upon a person or to provide academic credit applicable to a degree. The activities attributable to a school include instruction, measurement of achievement or proficiency, or recognition of educational attainment or comparable public distinction.

(14) "Standard School" means a school that meets the requirements of ORS 348.609 for degree use without a disclaimer.

(15) "Valid degree" means a degree issued by a standard school or by a nonstandard school if the disclaimer required by ORS 348.609(2) is used.

### Unaccredited Degrees

Effective January 13, 2015:

(1) Users of unaccredited degrees may use the degrees in the following ways.

(a) Unaccredited degrees that have achieved approval under ORS 348.609(1)(d) can be used without a disclaimer.

(b) Unaccredited degrees that have not achieved approval under ORS 348.609(1)(d) can only be used with a disclaimer.

(c) Degrees issued by degree mills are invalid for use, with or without a disclaimer.

(2) Process for approval under ORS 348.609(1)(d). A claimant of an unaccredited U.S. degree may submit to the Commission information indicating that the school conferring the degree has the legal authority to issue degrees in another state and could reasonably be considered for approval in Oregon under OAR chapter 583, division 30.

(a) A reasonable possibility of approval can be demonstrated by submitting to the Commission the appropriate review fee and sufficient evidence that the unaccredited institution could meet the academic standards established in OAR chapter 583, division 30 for authorization to operate in Oregon if it chose to make such an application.

(b) The Commission may, upon its own motion, evaluate an unaccredited institution and determine whether it has a reasonable chance to meet Oregon authorization standards without a degree user making such a request.

(c) If a request for evaluation under this section is not made to the Commission's executive director within 30 days of notification that an unaccredited degree is being used contrary to Oregon law, the degree user's right to such a review is waived and the commission may pursue appropriate enforcement action. Degree users may, within the first 30 days, request up to 30 additional days for the purpose of gathering material necessary to apply for an evaluation.

(3) A claimant of a non-U.S. degree issued by a degree supplier not accredited by a U.S. accreditor may submit to the commission information proving that the supplier issuing the degree has the following characteristics.

(a) The supplier is operating legally as a degree-granting institution in its host country.

(b) The host country has a postsecondary approval system equivalent to U.S. accreditation in that it applies qualitative measures by a neutral external party recognized in that role by the government.

(c) The supplier has been approved through the demonstrable application of appropriate standards by the host country's accreditor equivalent.

(d) All degrees issued by the supplier are legally valid for use and professional licensure within the host country.

### Validation of a Secular Degree

Effective January 13, 2015:

(1) Any person claiming in Oregon to possess an academic degree shall, upon request from the Commission's Executive Director, have an official transcript of the degree sent directly to the Commission from the registrar or other appropriate official of the conferring school.

(2) Where validation of a degree by telephone or electronic means seems readily obtainable from a school, the Commission at its discretion may postpone with option of waiver the requirement for a transcript upon receiving from the degree claimant the name, address, and telephone number of the conferring school. Requirement of one or more transcripts may be reinstated at any time if other methods of validation are not sufficient for a conclusive determination.

(3) Upon receipt of evidence of a valid degree, the executive director shall inform the degree claimant that a validation has been entered into the record, which shall specify any title and abbreviation that may be used to claim the degree.

(4) Honorary degrees must be distinguished from earned degrees.

(a) Any person claiming in Oregon to hold an honorary degree must label any written use of the degree using the word "honorary" or the abbreviation "hon." in order to make the public aware that the degree is not an earned credential. Any oral reference to the degree must be accompanied by a reasonable effort to ensure that listeners are made aware that it is honorary.

(b) Any person using an honorary doctorate may not use the title "Doctor" or "Dr." unless the word "honorary" or the abbreviation "hon." accompanies the claim in a clear and visible form, or is stated orally when an honorary doctorate is used as the basis for an oral use of the title.

(c) An honorary degree may not be used as a credential for employment in Oregon.

### Invalidation of a Degree, Warning, Enforcement

Effective September 10, 2015:

(1) Once the Commission determines a claimed degree is invalid or nonstandard, a person is presumed to not have knowledge of the invalidity, so as to reflect consideration for the possibility that the person was misled by the purported school or unaware of Oregon degree requirements. This presumption may be overcome by clear and convincing evidence.

(2) Failure to provide when requested a transcript or other information needed for validation of a degree is prima facie evidence under statute that the claim to such degree is invalid.

(3) Upon the failure or inability to produce conclusive evidence of a valid degree, the Commission shall notify the claimant in writing that a warning is issued and that the claimant must immediately cease and desist from making the invalidated claim.

(4) Prior to the imposition of any penalty listed in subsection (5) of this rule, a person whose degree is found invalid, or the use of whose degree may be restricted, is entitled to a hearing in accordance with ORS chapter 183. Hearings will be provided in the following way:

(a) The Commission's initial communication with a degree user will be an inquiry letter that will give the user 30 days from the date of the letter in which to address any issues regarding degree existence, validity and restriction. No hearing is provided at this stage;

(b) If a degree user contacted by the Commission under paragraph (a) of this subsection does not respond within 30 days, or provides information that is insufficient to allow unrestricted degree use while expressing intent to continue using the degree, the Commission will issue a cease and desist letter to the user, setting forth the requirements of law and how the user's degree fails to meet those requirements. This letter will also be sent to the user's attorney, if any. The user will be given 30 days to respond, agreeing to either comply with the law or request a hearing to contest the Commission's findings:

(A) If the user agrees to comply with the law within 30 days of the date of the letter, the Commission will provide the user with a standard form upon which such agreement can be stated and signed. No penalty will be imposed provided that the user carries out the agreement;

(B) If the user does not respond within the 30 days, the Commission will proceed with a default hearing and may request the assessment of civil penalties.;

(C) If the user requests a hearing within 21 days, the hearing will be conducted by an Administrative Law Judge as provided in ORS 183.335.

(c) If a hearing is held, the Administrative Law Judge will recommend a resolution to the Commission, which will decide whether the degree use meets Oregon standards, and if it does not, whether to impose a penalty and, if so, what the penalty should be.

(5) Subsequent to such warning and in violation thereof, any renewed claim of an invalid degree exposes the violator to penalties as set forth in statute and under subsection (6) of this rule.

(6) Any violation of ORS 348.603 or 348.609 may result in any or all of the following sanctions:

(a) Prosecution for a Class B misdemeanor under ORS 348.992;

(b) Injunction against further use of the claimed degree;

(c) Civil suit for violation of Oregon's Unlawful Trade Practices Act (UTPA), ORS 646.605 to 646.652, if applicable; or

(d) A civil penalty not to exceed \$1,000 per violation.

### Disciplinary Action; Civil Penalty Considerations

Effective January 13, 2015:

(1) The Commission may assess a civil penalty for each violation of a provision of OAR chapter 583, division 50.

(2) In establishing the amount of the penalty for each violation, the Commission shall consider, but not be limited to the following factors:

(a) The gravity and magnitude of the violation;

(b) The person's previous record of compliance with the provisions of ORS 348.594 to 348.615 or with the rules adopted thereunder;

(c) The person's history in taking all feasible steps or in following all procedures necessary or appropriate to correct the violation; and

(d) Such other considerations as the Commission may consider appropriate.

(3) An "incident" for purposes of the penalty schedule means a single use of the invalid degree, or each use of an unaccredited degree without a disclaimer, in a specific venue in a specific time period.

(a) Examples of specific venues include but are not limited to publications, job applications, web sites, spoken presentations, mailings, emails, flyers, posters, advertisements, and handouts.

(b) Examples of specific time periods include one-time uses and serial uses, e.g., monthly advertisements, annual publications such as college catalogs and the like. In the case of continued usage during a period of employment, each regular pay period (e.g. one month) in which the degree is used is considered a specific time period and therefore a separate incident.

(4) The Commission may impose a civil penalty, provided that it first gives the person an opportunity for a hearing as outlined in ORS Chapter 183.

### Schedule of Civil Penalties for Violations of Laws and Rules

Effective January 13, 2015. In assessing civil penalties, the Commission desires to be both consistent and equitable and to consider and evaluate each case on an individual basis. The actual civil penalty which the commission imposes shall be based on the Commission's consideration of the factors in OAR 583-050-0027. The Commission shall impose a penalty per incident based on only one of the degree use activities listed below, i.e. a single incident cannot result in a penalty from more than one category. Civil penalties shall be imposed according to the following schedule for use after warning by the commission of a violation:

(1) When such use is related to a position in any employment sector, paid or unpaid, involving public health or safety for which a degree of the type found invalid is required for employment or licensure: \$1000 per incident.

(2) When such use is intended to induce or encourage payment of money by students, clients, customers or others for whom the degree may serve as an attractant or legitimizer related to a service provided in the business or not-for-profit sector: \$1000 per incident.

(3) When such use is in public employment not related to public health or safety for which a valid degree of the type claimed is required or is necessary based on the conditions of employment: \$500 per incident.

(4) By a teacher at any level, including K-12 and postsecondary education: \$500 per incident.

(5) When such use is likely to deceive the public as to the user's qualifications but no money is sought or received by the user as a consequence in whole or in part of the use: \$300 per incident.

(6) When in violation of any other provision of OAR 583, division 50: \$300 per incident.

(7) Repeated violations of any kind may result in a penalty of \$1,000 for each repetition occurring after a penalty is imposed by the Commission or an injunction against the usage is issued by a court.

### Inquiries and Complaints

Effective January 13, 2015:

(1) Monitoring and validating degree claims will be done by the Commission in the course of routine activities such as approving faculty members of schools seeking authorization to offer degrees in Oregon, advising employers or professional licensing boards on applicant credentials, examining backgrounds listed by candidates for public election, and reviewing telephone directories or other publications for advertisements that list degrees.

(2) Any citizen as a matter of general information may ask the Commission to discuss whether a degree encountered sounds questionable, and any citizen as a matter of public protection may ask the Commission to

validate a degree claimed by an identified individual. It is entirely optional for an inquirer unsure about a degree to make a formal complaint, because an inquiry alone does not imply that the inquiring citizen has accused the degree claimant of any deception.

**Notice Publication Date:** 7-1-2015

**Rules Adopted:** 804-022-0030

**Rules Amended:** 804-001-0020, 804-022-0020, 804-022-0025, 804-040-0000

**Subject:** For 804-001-0020: This rule was updated to ensure full compliance with the requirements of the Oregon Public Records Law. The rule now provided clear information on process and fees. The Board will be better able to ensure that it can recover the cost of responding to public records requests while also authorizing staff to provide public records without charge in some instances.

For 804-022-0020: This rule was updated to provide greater clarity about how registration can be renewed when renewal is not completed timely. The current requirements for reinstatement (i.e., when renewal is not completed within 60 days of the renewal deadline) have been reduced, thereby making the process potential easier for registrants. The rule also now addresses delegation of decision-making authority.

For 804-022-0025 and 804-040-0000: Rule 804-022-0025 has been expanded to address inactive status in addition to emeritus inactive status and was updated to provide greater clarity about how an individual is placed on or removed from an inactive or inactive emeritus status. The Board removed one of the qualifying criteria for inactive emeritus status thereby expanding the availability of this status to more registrants. The rule also now addresses delegation of decision-making authority. The Board also added in rule 804-040-0000

a new annual administrative fee for an individual on inactive status. An annual

administrative fee was previously in place for inactive emeritus status, and the administrative work associated with maintaining registration records is the same for these status types.

For 804-022-0030: This new rule provides clarity to prospective applicants and registrants

regarding the legal basis for the Board requirement for Social Security Numbers. The rule provides explanation of the requirement at a time when individuals are increasingly concerned about providing Social Security Numbers due to identify theft.

### Public Records Requests

(1) All requests for copies of public records in the custody of the Oregon State Landscape Architect Board (Board) shall be made in writing to the Board Administrator. Written requests may be delivered in person, by mail, by fax or by email. All requests are subject to disclosure according to the Public Records Law.

(2) A public records request may be submitted on a request form provided by the Board. If the form is not used, the requestor must include the following information in the request:

(a) The name and address of the person requesting the public record;

(b) The telephone number, email address, and other relevant contact information for the person requesting the public record;

(c) A sufficiently detailed description of the records requested to allow the Board to search for and identify the responsive records;

(d) The date the request is submitted to the Board;

(e) Statement as to whether the person making the request wants to inspect any responsive, non-exempt records at the Board office or to receive copies of the records, and

(f) Signature of the person making the request if the request is not made by email.

(3) A reasonable period of time shall be allowed for the staff to locate and assemble the non-exempt public records responsive to the request. The regular discharge of duties of the Board will neither be interrupted nor substantially interfered with because of time and effort required to respond to the request.

(4) The Board charges fees for responding to public records requests which are reasonably calculated to cover costs of the response and records provided. Fees are designed to cover the cost of locating, reviewing, compiling, making available for inspection, preparing copies, and delivering the response and public records. Fees are as follows:

(a) Twenty-five (25) cents per page for photocopies, where a double-sided copy equals two (2) pages;

(b) One (1) dollar for the first page faxed and fifty (50) cents for each additional page, limited to a 20-page maximum, not including the cover page;

(c) At the Board Administrator's discretion, copies of public records may be provided electronically if stored in the Board's computer system. Electronic records may be provided by email or by other means as deemed appropriate by the Board Administrator. Due to the potential threat of computer viruses, the agency will not permit requestors to provide disks, USB drives, or other electronic devices for reproduction of electronic records;

(A) The cost of records transmitted by email is five (5) dollars per email, except when (6) of this rule applies, and may contain as much information as the Board email system will handle per email.

(B) The cost of records transmitted by other electronic means is five (5) dollars per device and may contain as much information as the electronic device will hold.

(d) Estimated cost for delivery of records such as postage and courier fees; and

(e) Labor charges that include researching, locating, reviewing, compiling, editing and otherwise processing information and records responsive to the request:

(A) No charge for the first fifteen (15) minutes of staff time;

(B) After the first fifteen (15) minutes, the staff labor rate is twenty-five (25) dollars per hour, with a six dollars twenty-five cents (6.25) minimum;

(C) Actual attorney and other legal fees and costs charged to the Board for review of the request, records, redacting confidential materials from the public records, segregating the public records into exempt and nonexempt records, and response.

(f) If fees are estimated to be more than twenty-five (25) dollars, the requestor will be provided a written cost estimate by Board staff before the Board responds to the request. The requestor must then confirm to the Board in writing that the requestor wants the Board to proceed with making the records available and understands the estimated fees. The Board will not take further action on the request prior to receiving such confirmation from the requestor.

(5) Fees for public records requests must be paid as follows:

(a) Before the requested public records will be made available for inspection or copies provided. The Board Administrator may require prepayment of estimated fees before taking further action on a request.

(b) By check, money order, or any credit card accepted by the Board office.

(c) If payment is rejected by the bank or credit card company, the requesting party will be notified and be responsible for any charges incurred by the Board as a result of the rejected payment. This is in addition to the fees for response to the request.

(6) The Board Administrator may waive or reduce fees for:

(a) Responses to requests that can be provided with less than 15 minutes of staff time and in electronic format via email delivery; or

(b) Responses to requests that the Board Administrator determines are in the public interest because making the public records available primarily benefit the general public or Board registrants.

### Presumption of Degree of Central Nervous System Depression

(1) In any hearing where a question exists as to the degree of central nervous system depression a licensee has induced (i.e., general anesthesia, deep sedation, moderate sedation, minimal sedation or nitrous oxide sedation), the Board may base its findings on, among other things, the types, dosages and routes of administration of drugs administered to the patient and what result can reasonably be expected from those drugs in those dosages and routes administered in a patient of that physical and psychological status.

(2) The following drugs are conclusively presumed to produce general anesthesia and may only be used by a licensee holding a General Anesthesia Permit:

(a) Ultra short acting barbiturates including, but not limited to, sodium methohexital, thiopental, thiamylal;

(b) Alkylphenols — propofol (Diprivan) including precursors or derivatives;

(c) Neuroleptic agents;

(d) Dissociative agents — ketamine;

(e) Etomidate; and

(f) Volatile inhalational agents.

(3) No permit holder shall have more than one person under any form of sedation or general anesthesia at the same time exclusive of recovery.

(4) A licensee that does not hold a Moderate, Deep Sedation or General Anesthesia Permit may not administer, for purpose of anxiolysis or sedation, Benzodiazepines or narcotics in children under 6 years of age.

(5) A patient under nitrous oxide sedation shall be visually monitored by the permit holder or by an anesthesia monitor at all times. The patient shall be monitored as to response to verbal stimulation, oral mucosal color and preoperative and postoperative vital signs.

(6) The permit holder or anesthesia monitor shall record the patient's condition. The record must include documentation of all medications administered with dosages, time intervals and route of administration.

### Eligibility

(1) The following conditions and/or criteria must exist for a taxpayer to be eligible for the credit:

(a) A qualified community development entity that issues a debt instrument may not make cash interest payments on the debt instrument during the period commencing with its issuance and ending on its final credit allowance date in excess of the sum of the cash interest payments and the cumulative operating income, as defined in the regulations promulgated under section 45D of the Internal Revenue Code, of the qualified community development entity for the same period. This limitation shall only apply to long-term debt securities issued by a qualified community development entity that are designated as qualified equity investments and shall not apply to other debt of the qualified community development entity. Neither this paragraph nor the definition of "long-term debt security" provided in ORS 315.529 in any way limits the holder's ability to accelerate payments on the debt instrument in situations where the qualified community development entity has defaulted on covenants designed to ensure compliance with this section or section 45D of the Internal Revenue Code.

(b) A business is considered a qualified active low-income community business for the duration of a qualified community development entity's investment in or loan to the business if it is reasonable to expect that at the time of the qualified community development entity's investment in or loan to a qualified active low-income community business, the business will continue throughout the duration of the investment in or loan to the business.

(c) A qualified equity investment must be designated a qualified equity investment by the qualified community development entity and be certified by the department.

(d) Prior to January 1, 2014, the maximum amount of qualified low-income community investments made in a qualified active low-income

community business, together with all of its affiliates, that may count towards the requirement that a qualified community development entity invest substantially all of the qualified equity investment required by OAR 123-630-0010(7)(b) in qualified active low-income community businesses in this state is \$4 million, whether made by one or several qualified community development entities.

(e) On or after January 1, 2014, the maximum amount of qualified low-income community investments made in a qualified active low-income community business, together with all of its affiliates, that may count towards the requirement that a qualified community development entity invest at least the percentage of the qualified equity investment required by OAR 123-630-0010(7)(b) in qualified active low-income community businesses in this state is \$8 million, whether made by one or several qualified community development entities. Qualified active low-income community businesses that received qualified low-income investments of up to \$4 million prior to January 1, 2014, may receive additional qualified low-income investments, up to a total of \$8 million, on or after January 1, 2014, only if the community development entity first submits a project summary demonstrating that the additional investment complies with the requirements of the applicable statutes and rules.

(f) A qualified equity investment must be made before July 1, 2016. Nothing in this paragraph precludes an entity that makes a qualified equity investment prior to July 1, 2016, from claiming a tax credit relating to that qualified equity investment for each applicable credit allowance date.

(g) No more than 40% of the total project costs that are paid for by the qualified low-income community investment may be for working capital, financing and other fees and other soft costs.

(2) A taxpayer claiming a credit may not claim any other credit under ORS 315 or 285C during the same tax year based on activities related to the same qualified active low-income community business.

The purpose of these rules is to assure that the rights of patients are protected with respect to significant procedures.

## 309-114-0010

### General Policy on Obtaining Informed Consent to Treatment and Training

(1)(a) Basic Rule. Patients, or parents or guardians of minors, or guardians on behalf of legally incapacitated patients, may refuse any significant procedure and may withdraw at any time consent previously given to a significant procedure. Any refusal or withdrawal or withholding of consent shall be documented in the patient's record.

(b) Personnel of a state institution shall not administer a significant procedure to a patient unless written informed consent is obtained from or on behalf of the patient in the manner prescribed in these rules, except as follows:

(A) Administration of significant procedures to legally incapacitated patients as provided in section (6) of this rule;

(B) Administration of significant procedures without informed consent in emergencies under OAR 309-114-0015;

(C) Involuntary administration of significant procedures with good cause to persons committed to the Division under OAR 309-114-0020; or

(D) Involuntary administration of significant procedures pursuant to a valid court order.

(2) Capacity of the patient: In order to consent to, or refuse, withhold, or withdraw consent to significant procedures, the patient must have the capacity to make a decision concerning acceptance or rejection of a significant procedure, as follows:

(a) Unless adjudicated legally incapacitated for all purposes or for the specific purpose of making treatment decisions, a patient shall be presumed competent to consent to, or refuse, withhold, or withdraw consent to sig-

nificant procedures. A person committed to the Division may be deemed unable to consent to or refuse, withhold, or withdraw consent to a significant procedure only if the person currently demonstrates an inability to reasonably comprehend and weigh the risks and benefits of the proposed procedure, alternative procedures, or no treatment at all including, but not limited to, all applicable factors listed in (3)(a) of this rule. The patient's current inability to provide informed consent is to be documented in the patient's record and supported by the patient's statements or behavior; and may be evidenced in the treating physician's or psychiatric nurse practitioner's informed consent form, the evaluation form by the independent examining physician and forms approving or disapproving the procedure by the superintendent or chief medical officer;

(b) A person committed to the Division shall not be deemed unable to consent to or refuse, withhold, or withdraw consent to a significant procedure merely by reason of one or more of the following facts:

(A) The person has been involuntarily committed to the Division;

(B) The person has been diagnosed as mentally ill;

(C) The person has disagreed or now disagrees with the treating physician's or psychiatric nurse practitioner's diagnosis; or

(D) The person has disagreed or now disagrees with the treating physician's or psychiatric nurse practitioner's recommendation regarding treatment.

(c) If a court has determined that a patient is legally incapacitated, then consent shall be sought from the legal guardian.

(3) Procedures for Obtaining Informed Consent and Information to be Given: The person from whom informed consent to a significant procedure is sought shall be given information, orally and in writing, the substance of which is to be found on the treating physician's or psychiatric nurse practitioner's informed consent form. In the case of medication, there shall be attached a preprinted information sheet on the risks and benefits of the medication listed on the treating physician's or psychiatric nurse practitioner's form. All written materials under this rule will be provided in English. However, if the institution has reason to believe a patient has limited English language proficiency or the patient requests it, then the institution will make reasonable accommodations to provide the patient with meaningful access to the information, such as providing the patient with copies of the materials in the patient's native language if the materials are readily available in that language or providing the opportunity to have an interpreter orally translate written materials into the patient's native language. Specific information about significant procedures of a similar class will not be provided to or discussed with the patient.

(a) The information shall describe:

(A) The nature and seriousness of the patient's mental illness or condition;

(B) The purpose of the significant procedures listed on the treating physician's or psychiatric nurse practitioner's form, the intended outcome and the risks and benefits of the procedures;

(C) Any alternatives, particularly alternatives offering less material risks to the proposed significant procedure that are reasonably available and reasonably comparable in effectiveness;

(D) If the proposed significant procedure is medication, facility medical staff shall give the name, dosage range, and frequency of administration of the medication listed on the treating physician's or psychiatric nurse practitioner's form, and shall explain the material risks of the medication at that dosage range.

(E) The side effects of the intended medication or electro-convulsive therapy;

(F) The predicted medical, psychiatric, social, or legal consequences of not accepting the significant procedure or any comparable procedure, including any potential risk the patient represents to the health and safety of the patient, or others, which may include, but is not limited to, a consideration of the patient's history of violence and its relationship to mental health treatment if he or she does not receive the significant procedure;

(G) That consent may be refused, withheld or withdrawn at any time; and

(H) Any additional information concerning the proposed significant procedure requested by the patient.

(b) A medication educator shall assist by providing information to the patient that explains the proposed significant procedure, as described in subsection (3)(a)(B) and (E) of this rule;

(c) The treating physician or psychiatric nurse practitioner intending to administer a significant procedure shall document in the patient's chart that the information required in subsection (3)(a) of this rule was explained and that the patient, parent or guardian of a minor or guardian of a legally incapacitated patient explicitly consented, refused, withheld or withdrew

# ADMINISTRATIVE RULES

consent. The treating physician or psychiatric nurse practitioner may document this by completing the informed consent form and make it part of the patient's record.

(4) When discussing the significant procedure with the treating physician or psychiatric nurse practitioner and the medication educator, the patient may request additional information about the significant procedure pursuant to OAR 309-114-0010(3)(a)(H) and present additional information relevant to making his or her decision.

(5) Voluntary Consent: A patient to a proposed significant procedure must be given voluntarily, free of any duress or coercion. Subject to the provisions of OAR 309-114-0020, the decision to refuse, withhold or withdraw consent previously given shall not result in the denial of any other benefit, privilege, or service solely on the basis of refusing, withholding or withdrawing consent. A voluntary patient may be discharged from the institution if offered procedures are refused.

(6) Obtaining Consent with Respect to Legally Incapacitated Patients: A state institution may not administer a significant procedure to a legally incapacitated patient without the consent of the guardian, or, in the case of a minor, the parent or guardian, except in the case of an emergency under OAR 309-114-0015, where the institution has good cause to involuntarily administer a significant procedure under 309-114-0020, or pursuant to a valid court order. In order to prove good cause, the institution must prove 309-114-0020(1)(a) and (1)(d) in reference to the guardian and 309-114-0020(1)(b) and (1)(c) in reference to the patient.

(7) Reports of Progress: A patient, the parents or guardian of a minor patient, or the guardian of a legally incapacitated patient shall, upon request, be informed of the progress of the patient during administration of the significant procedure.

(8) These rules will be effective as of December 1, 2007 on all new orders for administration of significant procedures without informed consent. This includes new orders written after expiration of the previous order. This rule will be effective for existing, unexpired orders as of January 1, 2008, on a phased-in schedule that will accommodate as many new hearings as is practicable to schedule each week.

## 309-114-0015

### Administration of Significant Procedures Without Informed Consent in Emergencies

(1) An emergency exists if in the opinion of the chief medical officer or designee:

(a) Immediate action is required to preserve the life or physical health of the patient and it is impracticable to obtain informed consent as provided in OAR 309-114-0010; or

(b) Immediate action is required because the behavior of the patient creates a substantial likelihood of immediate physical harm to the patient or others in the institution and it is impracticable to obtain informed consent as provided in OAR 309-114-0010.

(2) If an emergency exists, the chief medical officer or designee may administer a significant procedure to a patient without obtaining prior informed consent in the manner otherwise required by these rules provided:

(a) The specific nature of each emergency and the procedure which was used to deal with the emergency are adequately documented in the patient's record and a form provided for emergency procedure is completed and placed in the patient's record;

(b) Reasonable effort shall be made to contact the parent or legal guardian prior to the administration of the significant procedure. If contact is not possible, notice shall be given to the parent or legal guardian as soon as possible;

(c) Within a reasonable period of time after an emergency procedure is administered, the treatment team shall review the treatment or training program and, if practicable, implement a treatment or training program designed to correct the behavior creating the emergency; and

(d) The administration of a significant procedure in an emergency situation does not allow the institution to administer these procedures, once the emergency has subsided, without obtaining informed consent.

## 309-114-0020

### Involuntary Administration of Significant Procedures to Persons Committed to the Division with Good Cause

(1) Good cause: Good cause exists to administer a significant procedure to a person committed to the Division without informed consent if in the opinion of the treating physician or psychiatric nurse practitioner after consultation with the treatment team, the following factors are satisfied:

(a) Pursuant to OAR 309-114-0010(2), the person is deemed unable to consent to, refuse, withhold or withdraw consent to the significant procedure. This determination must be documented on the treating physician's or psychiatric nurse practitioner's informed consent form and the independent examining physician's evaluation form. It must include the specific questions asked and answers given regarding the patient's ability to weigh the risks and benefits of the proposed treatment, alternative treatment and no treatment including, but not limited to all relevant factors listed in 309-114-0010(3)(a).

(b) The proposed significant procedure will likely restore or prevent deterioration of the person's mental or physical health, alleviate extreme suffering or save or extend the person's life. This factor is established conclusively for purposes of a hearing under OAR 309-114-0025 by introducing into evidence the treating physician's or psychiatric nurse practitioner's informed consent form and the independent examining physician's evaluation form, unless this factor is affirmatively raised as an issue by the patient or his or her representative at the hearing.

(c) The proposed significant procedure is the most appropriate treatment for the person's condition according to current clinical practice all other less intrusive procedures have been considered and all criteria and information set forth in OAR 309-114-0010(3)(a) were considered. This factor is established conclusively for purposes of a hearing under 309-114-0025 by introducing into evidence the treating physician's or psychiatric nurse practitioner's informed consent form and the independent examining physician's evaluation form, unless this factor is affirmatively raised as an issue by the patient or his or her representative at the hearing.

(d) The institution made a conscientious effort to obtain informed consent from the patient. This factor is established conclusively for purposes of a hearing under OAR 309-114-0025 by introducing into evidence the treating physician's or psychiatric nurse practitioner's informed consent form and the medication educator's form or progress note, unless this factor is affirmatively raised as an issue by the patient or his or her representative at the hearing. If the institution has reason to believe a patient has limited English language proficiency or the patient requests it, the institution will make reasonable accommodations to provide the patient with meaningful access to the informed consent process, such as providing the patient with the opportunity to have an interpreter orally translate written materials into the patient's native language and provide translation during the treating physician's or psychiatric nurse practitioner's attempts to obtain informed consent and the medication educator's attempt to provide information about the significant procedure. A "conscientious effort" to obtain informed consent means the following:

(A) The patient's treating physician or psychiatric nurse practitioner made at least two good faith attempts to obtain informed consent by attempting to explain the procedure to the patient and documenting those efforts in the patient's record; and

(B) The medication educator made at least one good faith attempt to provide the information required in OAR 309-114-0010(3)(a)(B) and (E) and explain and discuss the proposed procedure with the patient.

(e) Because of the preliminary nature of their commitment, the following additional findings must be made for patients under ORS 161.370 jurisdiction in order to show good cause under this rule:

(A) Medication is not requested for the sole purpose of restoring trial competency; and

(B) The patient is being medicated because of the patient's dangerousness or to treat the patient's grave disability.

(2) Independent Review: Prior to granting approval for the administration of a significant procedure for good cause to a person committed to the Division, the superintendent or chief medical officer of a state institution for the mentally ill shall obtain consultation and approval from an independent examining physician, or if a patient refuses to be examined, the superintendent or chief medical officer shall document that an independent examining physician made at least two good faith attempts to examine the patient. The superintendent or chief medical officer shall maintain a list of independent examining physicians and shall seek consultation and approval

# ADMINISTRATIVE RULES

from independent examining physicians selected on a rotating basis from the list. The independent examining physician shall not be an employee of the Division, shall be a board-eligible psychiatrist, shall have been subjected to review by the medical staff executive committee as to qualifications to make such an examination, shall have been provided with a copy of administration rules OAR 309-114-0000 through 309-114-0030 and shall have participated in a training program regarding these rules, their meaning and application.

(3) The superintendent or chief medical officer shall provide to a patient to whom a significant procedure is proposed to be administered written advance notice of the intent to seek consultation and approval of an independent examining physician for the purpose of administering the procedure without the patient's consent.

(4) The physician selected to conduct the independent consultation shall:

(a) Review the person's medical chart including the records of efforts made to obtain the person's informed consent and

(A) Personally examine the person at least one time; or

(B) If the patient refuses to be examined, the physician shall make two good faith attempts to examine the patient. If the patient refuses to be examined during these two good faith attempts, the independent consultation and approval requirement outlined in subsection (4)(a)(A) and (4)(b) of this rule shall be deemed to be fulfilled.

(b) Discuss the matter with the person to determine the extent of the need for the procedure and the nature of the person's refusal, withholding or withdrawal or inability to consent to the significant procedure. This determination as well as the supporting evidence in the form of the specific questions asked and answers given regarding the patient's ability to weigh the risks and benefits of the proposed treatment, alternative treatment and no treatment must be documented in the patient's record;

(c) Consider additional information, if any, presented prior to or at the time of examination or interview as may be requested by the person or anyone on behalf of the person; and

(d) Make a determination whether the factors required under these rules exist for the particular person or that one or more factors are not present and complete a report of his or her findings which provides their approval or disapproval of the proposed significant procedure. The written report must be provided to:

(A) The superintendent or chief medical officer; and

(B) The person to whom a significant procedure is proposed to be administered with a copy being made part of the person's record.

(5) Superintendent's Determination:

(a) The superintendent or chief medical officer shall approve or disapprove of the administration of the significant procedure to a person committed to the Division based on good cause provided that if the examining physician or psychiatric nurse practitioner found that one or more of the factors required by section (1) of this rule were not present or otherwise disapproved of the procedure; the superintendent or chief medical officer shall not approve the significant procedure and it shall not be performed;

(b) Approval of the significant procedure shall be only for as long as no substantial increase in risk is encountered in administering the significant procedure or significant procedure of a similar class during the term of a person's commitment, but in no case longer than 180 days. Disapproval shall be only for as long as no substantial change occurs in the person's condition during the term of commitment, but in no case longer than 180 days;

(c) Written notice of the superintendent's or chief medical officer's determination shall be provided to the patient and made part of the individual's record. This notice must be delivered to the patient and fully explained by facility medical staff. This notice must include a clear statement of the decision to treat without informed consent, specific basis for the decision, what evidence was relied on to make the decision and include a clear notice of the opportunity to ask for a contested case hearing with an administrative law judge if the patient disagrees with the decision. Attached must be a form with a simple procedure to request a hearing. The patient indicating in writing or verbally to any staff member a desire to challenge the institution's decision will be sufficient to request a contested case hearing pursuant to OAR 309 114 0025. The patient shall have 48 hours to request a contested case hearing after receiving this notice. If the patient does not request a hearing within the 48 hour period or the patient subsequently withdraws his initial hearing request and is not already receiving the significant procedure, the institution may involuntarily administer the significant procedure. A patient retains the right to request an initial hearing on the decision to administer a significant procedure without informed consent at any time.

(d) If the patient withdraws his or her initial request for hearing or refuses to attend the initial hearing without good cause, the administrative law judge will issue a dismissal order pursuant to OAR 137-003-0672(3). A dismissal order will allow the institution to immediately administer the significant procedure without informed consent as if the patient had never requested a hearing. If a dismissal order is issued, the patient may request a second hearing. If the patient withdraws his second request for hearing or refuses to attend the second hearing without good cause, the hearing will occur as scheduled with the institution presenting a prima facie case pursuant to ORS 183.417(4) and the administrative law judge will issue a proposed order by default. The institution will then issue a final order by default.

(e) Records of all reports by independent examining physicians of the determinations of the superintendent or chief medical officer under this rule shall be maintained by the superintendent or chief medical officer in a separate file and shall be summarized each year. Such summaries shall show:

(A) Each type of proposed significant procedure for which consultation with an independent examining physician was sought;

(B) The number of times consultation was sought from a particular independent examining physician for each type of proposed significant procedure;

(C) The number of times each independent examining physician approved and disapproved each type of proposed significant procedure; and  
(D) The number of times the superintendent or chief medical officer approved and disapproved each type of proposed significant procedure.

(f) The summaries referred to in subsection (5)(e) of this rule shall be public records and shall be made available to the public during reasonable business hours in accordance with ORS Chapter 192.

(6) When treatment is being administered without informed consent, the ward physician or psychiatric nurse practitioner will write a progress note addressing any changes in patient's capacity to give informed consent every 60 days.

(7) At any time that a patient's condition changes so that there appears to his or her treating physician or psychiatric nurse practitioner to be a substantial improvement in the patient's capacity to consent to or refuse treatment, a formal re assessment of the patient's capacity to consent shall occur as described in OAR 309-114-0010 and 309-114-0020. No order to administer treatment without informed consent in non-emergency situations shall be valid for longer than 180 days or the duration of the commitment, whichever is shorter, without re establishing the need for the order by following the procedures described in 309-114-0010 and 309-114-0020.

(8) When an individual is transferred to a state institution from a community hospital or another state institution where he or she was already being treated with a significant procedure without informed consent, the receiving institution must apply OAR 309-114-0000 through 309-114-0030 no later than 7 days after the date of admission to the new institution. A state institution can honor an existing order for involuntary administration of a significant procedure without informed consent if procedures such as those outlined in 309-114-0010 through 309-114-0030 have already been applied and all necessary documentation is in the patient's file.

## 410-121-0040

### Prior Authorization Required for Drugs and Products

(1) Prescribing practitioners shall obtain prior authorization (PA) for the drugs and categories of drugs requiring PA in this rule, using the procedures set forth in OAR 410-121-0060.

(2) All drugs and categories of drugs including, but not limited to, those drugs and categories of drugs that require PA shall meet the following requirements for coverage:

(a) Each drug shall be prescribed for conditions funded by the Oregon Health Plan (OHP) in a manner consistent with the Health Evidence Review Commission (HERC) Prioritized List of Health Services (OAR 410-141-0480 through 410-141-0520). If the medication is for a non-covered diagnosis, the medication may not be covered unless there is a co-morbid condition for which coverage would be allowed. The use of the medication shall meet corresponding treatment guidelines and be included within the client's benefit package of covered services and not otherwise excluded or limited;

(b) Each drug shall also meet other criteria applicable to the drug or category of drug in these pharmacy provider rules, including PA requirements imposed in this rule.

(3) The Authority may require PA for individual drugs and categories of drugs to ensure that the drugs prescribed are indicated for conditions funded by OHP and consistent with the Prioritized List of Health Services and its corresponding treatment guidelines (see OAR 410-141-0480). The drugs and categories of drugs that the Authority requires PA for this purpose are found in the Oregon Medicaid Fee-for-Service Prior Authorization Approval Criteria (PA Criteria guide) dated August 25, 2015, adopted and incorporated by reference and found at: <http://www.oregon.gov/OHA/healthplan/pages/pharmacy-policy.aspx>

(4) The Authority may require PA for individual drugs and categories of drugs to ensure medically appropriate use or to address potential client safety risk associated with the particular drug or category of drug, as recommended by the Pharmacy & Therapeutics Committee (P&T) and adopted by the Authority in this rule. The drugs and categories of drugs for which the Authority requires PA for this purpose are found in the Pharmacy PA Criteria Guide.

(5) New drugs shall be evaluated when added to the weekly upload of the First Databank drug file:

(a) If the new drug is in a class where current PA criteria apply, all associated PA criteria shall be required at the time of the drug file load;

(b) If the new drug is indicated for a condition below the funding line on the Prioritized List of Health Services, PA shall be required to ensure that the drug is prescribed for a condition funded by OHP;

(c) PA criteria for all new drugs shall be reviewed by the DUR/P&T Committee.

(6) PA shall be obtained for brand name drugs that have two or more generically equivalent products available and that are not determined Narrow Therapeutic Index drugs by the DUR/P&T Committee:

(a) Immunosuppressant drugs used in connection with an organ transplant shall be evaluated for narrow therapeutic index within 180 days after United States patent expiration;

(b) Manufacturers of immunosuppressant drugs used in connection with an organ transplant shall notify the Authority of patent expiration within 30 days of patent expiration for section (5)(a) to apply;

(c) Criteria for approval are:

(A) If criteria established in section (3) or (4) of this rule applies, follow that criteria;

(B) If section (6)(A) does not apply, the prescribing practitioner shall document that the use of the generically equivalent drug is medically contraindicated and provide evidence that either the drug has been used and has failed or that its use is contraindicated based on evidence-based peer reviewed literature that is appropriate to the client's medical condition.

(7) PA shall be obtained for non-preferred Preferred Drug List (PDL) products in a class evaluated for the PDL except in the following cases:

(a) The drug is a mental health drug as defined in OAR 410-121-0000;

(b) The original prescription is written prior to 1/1/10;

(c) The prescription is a refill for the treatment of seizures, cancer, HIV, or AIDS; or

(d) The prescription is a refill of an immunosuppressant.

(8) PA may not be required:

(a) When the prescription ingredient cost plus the dispensing fee is less than the PA processing fees as determined by the Authority;

(b) For over-the-counter (OTC) covered drugs when prescribed for conditions covered under OHP; or

(c) If a drug is in a class not evaluated from the Practitioner-Managed Prescription Drug Plan under ORS 414.334.

In 2012, the Centers for Medicare and Medicaid Services (CMS) approved the PDN State Plan Amendment (SPA) adjustment to reflect current practice for age limitation (not covered if the client is 21 years of age or older). These rule changes will align the rule with the SPA and current practice. The rule amendments clarify the three distinct PDN programs under the Division, DHS, and ODE; introduce and define new terminology; and provide clarifying language. These rules also update the benefit package and add coordinated care organizations (CCO)'s. These rules are being amended to reflect current practice.

for services based on the Private Duty Nursing Acuity Grid (DMAP 591). Increases or decreases in the level of care and number of hours or visits authorized shall be based on a change in the client's condition, program limitations, and the family, foster parents, or delegated caregiver's ability to provide care.

(3) "Basic tasks of client/nursing care" means procedures that do not require the education or training of a registered nurse or licensed practical nurse that cannot be performed by the client independently. Basic tasks of client/nursing care also means procedures that may be directed by the client. These basic tasks include, but are not limited to, activities of daily living. Basic tasks may vary from setting to setting depending on the client population served in that setting and the acuity and complexity of the client's care needs. Basic tasks may require the assignment and supervision of a licensed nurse. The need for supervision is at the discretion of the registered nurse. See State Board of Nursing rules that govern the practice of nursing.

(4) "Critical/fluctuating condition" means a situation where the client's clinical and behavioral state is of a serious nature expected to rapidly change and be in need of continuous reassessment and evaluation.

(5) "Delegation" means that a registered nurse authorizes an unlicensed person to perform tasks of nursing care in selected situations and indicates that authorization in writing. The delegation process includes nursing assessment of a client in a specific situation, evaluation of the ability of the unlicensed persons, teaching the task, ensuring supervision of the unlicensed persons, and re-evaluating the task at regular intervals. For the purpose of these rules, the unlicensed person, caregiver, or certified nursing assistant performs tasks of nursing care under the Registered Nurse's delegated authority.

(6) "Discharge" means the client no longer meets the Division rules and criteria of the private duty nursing program.

(7) "Habilitation" means services that are provided in order to assist an individual to acquire a variety of skills including self-help, socialization, and adaptive skills. Habilitation is aimed at raising the level of physical, mental, and social functioning of an individual. Habilitation is contrasted to rehabilitation, which involves the restoration of function an individual lost.

Assist with use, maintenance, and cleaning of in-home equipment, monitoring client's condition, and ordering and maintaining necessary supplies;

(i) Money Management: Perform or assist with budgeting, making payments for monthly expenses, and use of personal funds for desired items and activities.

(10) "Maintenance care" means the level of care needed when the goals and objectives of the care plan are reached, the condition of the client is stable or predictable, the plan of care does not require the skills of a licensed nurse in continuous attendance, or the client, family, foster parents, or caregivers have been taught and have demonstrated the skills and abilities to carry out the plan of care.

(11) "Medically Fragile Children's (MFC) program" means a Department of Human Services (Department) organizational unit that coordinates and funds appropriate services for children ages 0 to 18 years with intensive medical needs that require in-home and technological supports and meet MFC clinical criteria.

(12) "Member of the household" means any individual sharing a common home as part of a single family unit, including domestic employees and others who live together as part of a family unit, but not including a roomer or boarder.

(13) "Plan of care" means written instructions detailing how the client is to be cared for. The plan is initiated by the private duty nurse or nursing agency with input from the prescribing physician. See the "Documentation Requirements" section of the Private Duty Nursing Services administrative rules.

(14) "Private duty nursing shift care" means an RN or LPN nursing service for the client's critical/fluctuating conditions requiring the need for reassessment and evaluation with a high probability that complications would arise without skilled nursing management of the treatment program supplied in a specified block of time.

(15) "Practice of nursing" means using the nursing process under doctor's orders to diagnose and treat human response to actual or potential health care problems, health teaching and health counseling, the provision of direct client care, and the teaching, delegation, and supervision of others who provide tasks of nursing care to clients. See State Board of Nursing rules that govern the practice of nursing.

(16) "Private duty nursing visit" means RN or LPN skilled nursing services for non-critical/stable conditions requiring reassessment and evaluation with a moderate probability that complications would arise without skilled nursing management of the treatment program supplied on an intermittent per visit basis.

(18) "Responsible unit" means the agency responsible for approving or denying prior authorization.

Skilled nursing emphasizes a high level of nursing direction, observation, and skill. The focus of these services shall be the use of the nursing process to diagnose and treat human responses to actual or potential health care problems, health teaching, and health counseling. Skilled nursing services

# ADMINISTRATIVE RULES

include the provision of direct care and the teaching, delegation, and supervision of others who provide tasks of nursing care to clients. These services shall comply with the Nurse Practice Act and administrative rules of the Oregon State Board of Nursing.

(21) "Special tasks of client/nursing care" means tasks that require the education and training of a registered nurse or licensed practical nurse to perform. Special tasks may vary from setting to setting depending on the client population served in that setting and the acuity/complexity of the client's care needs. Examples of special tasks include, but are not limited to, administration of injectable medications, suctioning, and complex wound care.

(22) "Stable/predictable condition" means a situation in which the client's clinical and behavioral status is known and does not require the regularly scheduled presence and evaluation of a licensed nurse. See State Board of Nursing rules that govern the practice of nursing.

(23) "Teaching" means the registered nurse instructs an unlicensed person in the correct method of performing a selected task of client/nursing care. See State Board of Nursing rules that govern the practice of nursing.

(24) "Unlicensed Person" means an individual who is not licensed to practice nursing, medicine, or any other health occupation requiring a license in Oregon, but who provides tasks of nursing care or is taught to administer non-injectable medications. A certified nursing assistant, as defined by these rules, is an unlicensed person. For the purpose of these delegation rules, unlicensed persons do not include members of the client's immediate family. Family members may perform tasks of nursing care without specific delegation from a Registered Nurse. The terms "unlicensed person" and "caregiver" may be used interchangeably.

(25) "Visit" means nursing service supplied on an intermittent basis in the home.

(iii) The Division shall cover core buildup (D2950) only when necessary to retain a cast restoration due to extensive loss of tooth structure from caries or a fracture and only when done in conjunction with a crown. Less than 50 percent of the tooth structure must be remaining for coverage of the core buildup.

(II) Written documentation in the client's chart indicates that PFM is the only restoration option that will restore function;

(III) The dental practitioner submits radiographs to the Division for review; history, diagnosis, and treatment plan may be requested. (See OAR 410-123-1100 Services Reviewed by the Division);

(IV) The client has documented stable periodontal status with pocket depths within 1–3 millimeters. If PFM crowns are placed with pocket depths of 4 millimeters and over, documentation shall be maintained in the client's chart of the dentist's findings supporting stability and why the increased pocket depths will not adversely affect expected long-term prognosis;

(V) The crown has a favorable long-term prognosis; and

## ADMINISTRATIVE RULES

- (i) For clients through age 20, allowed only once every two years;

  - (8) REMOVABLE PROSTHODONTIC SERVICES:
    - (a) Clients age 16 years and older are eligible for removable resin base partial dentures (D5211-D5212) and full dentures (complete or immediate, D5110-D5140);
    - (b) The Division limits full dentures for clients age 21 and older to only those clients who are recently edentulous:
      - (A) For the purposes of this rule:
        - (i) "Edentulous" means all teeth removed from the jaw for which the denture is being provided; and
        - (ii) "Recently edentulous" means the most recent extractions from that jaw occurred within six months of the delivery of the final denture (or, for fabricated prosthetics, the final impression) for that jaw;
      - (B) See OAR 410-123-1000 for detail regarding billing fabricated prosthetics;
      - (c) The fee for the partial and full dentures includes payment for adjustments during the six-month period following delivery to clients;
      - (d) Resin partial dentures (D5211-D5212):
        - (A) The Division may not approve resin partial dentures if stainless steel crowns are used as abutments;
        - (B) For clients through age 20, the client shall have one or more anterior teeth missing or four or more missing posterior teeth per arch with resulting space equivalent to that loss demonstrating inability to masticate. Third molars are not a consideration when counting missing teeth;
        - (C) For clients age 21 and older, the client shall have one or more missing anterior teeth or six or more missing posterior teeth per arch with documentation by the provider of resulting space causing serious impairment to mastication. Third molars are not a consideration when counting missing teeth;
        - (D) The dental practitioner shall note the teeth to be replaced and teeth to be clasped when requesting prior authorization (PA);
      - (e) Replacement of removable partial or full dentures, when it cannot be made clinically serviceable by a less costly procedure (e.g., relining, rebase, repair, tooth replacement), is limited to the following:
        - (A) For clients at least 16 years and under 21 years of age, the Division shall replace full or partial dentures once every ten years, only if dentally appropriate. This does not imply that replacement of dentures or partials shall be done once every ten years, but only when dentally appropriate;
        - (B) For clients 21 years of age and older, the Division may not cover replacement of full dentures but shall cover replacement of partial dentures once every ten (10) years only if dentally appropriate;

(C) The ten year limitations apply to the client regardless of the client's OHP or Dental Care Organization (DCO)/Coordinated Care Organization (CCO) enrollment status at the time the client's last denture or partial was received. For example: A client receives a partial on February 1, 2002, and becomes a FFS OHP client in 2005. The client is not eligible for a replacement partial until February 1, 2012. The client gets a replacement partial on February 3, 2012 while FFS and a year later enrolls in a DCO or CCO. The client would not be eligible for another partial until February 3, 2022, regardless of DCO, CCO, or FFS enrollment;

(D) Replacement of partial dentures with full dentures is payable ten years after the partial denture placement. Exceptions to this limitation may be made in cases of acute trauma or catastrophic illness that directly or indirectly affects the oral condition and results in additional tooth loss. This pertains to, but is not limited to, cancer and periodontal disease resulting from pharmacological, surgical, and medical treatment for aforementioned conditions. Severe periodontal disease due to neglect of daily oral hygiene may not warrant replacement;

(f) The Division limits reimbursement of adjustments and repairs of dentures that are needed beyond six months after delivery of the denture as follows for clients 21 years of age and older:

- (A) A maximum of four times per year for:
  - (i) Adjusting complete and partial dentures, per arch (D5410-D5422);

- (g) Replacement of all teeth and acrylic on cast metal framework (D5670, D5671):
  - (A) Is covered for clients age 16 and older a maximum of once every ten (10) years, per arch;
  - (B) Ten years or more shall have passed since the original partial denture was delivered;
  - (C) Is considered replacement of the partial so a new partial denture may not be reimbursed for another ten years; and
  - (D) Requires prior authorization as it is considered a replacement partial denture;
  - (h) Denture rebase procedures:
    - (A) The Division shall cover rebases only if a relining may not adequately solve the problem;
    - (B) For clients through age 20, the Division limits payment for rebase to once every three years;
    - (C) For clients age 21 and older:
      - (i) There shall be documentation of a current relining that has been done and failed; and
      - (ii) The Division limits payment for rebase to once every five years;
    - (D) The Division may make exceptions to this limitation in cases of acute trauma or catastrophic illness that directly or indirectly affects the oral condition and results in additional tooth loss. This pertains to, but is not limited to, cancer and periodontal disease resulting from pharmacological, surgical, and medical treatment for aforementioned conditions. Severe periodontal disease due to neglect of daily oral hygiene may not warrant rebasing;
  - (i) Denture relining procedures:
    - (A) For clients through age 20, the Division limits payment for relining of complete or partial dentures to once every three years;
    - (B) For clients age 21 and older, the Division limits payment for relining of complete or partial dentures to once every five years;
    - (C) The Division may make exceptions to this limitation under the same conditions warranting replacement;

**Subject:** This rule provides the Division framework for CCO member enrollment for those adults and young adults receiving temporary out-of-area behavioral health treatment services. Because of integration of Substance Abuse Disorder (SUD) treatment services, referenced in OAR 410-141-3065, into the CCO behavioral health system and the commonality with services referenced in OAR 410-141-3066, the two rules have been consolidated. With this consolidation, it is the Authority's intent to repeal OAR 410-141-3065.

## 410-141-3066

### CCO Enrollment Requirements for Temporary Out-of-Area Behavioral Health Treatment Services

(1) For purposes of this rule, the following definitions apply:

(a) "Behavioral Health" means mental health, mental illness, addiction disorders, and substance use disorders;

(b) "Home CCO" means enrollment in a Coordinated Care Organization (CCO) in a given service area, based upon a client's most recent permanent residency, determined at the time of original eligibility determination or most current point of CCO enrollment prior to hospitalization;

(c) "Temporary Placement" means hospital, institutional, and residential placement only, including those placements occurring inside or outside of the service area with the expectation to return to the Home CCO service area.

(2) The Authority has determined that, to the maximum extent possible, all individuals shall be enrolled at the next available enrollment date following eligibility, redetermination, or upon review by the Authority. This rule implements and further describes how the Authority administers its authority under OAR 410-141-3060 and OAR 410-141-3080 for purposes of making enrollment decisions for adult and young adult individuals, 14 through and including 17 years of age, receiving temporary out-of-area behavioral health treatment services:

(a) For program placements in Child Welfare, Behavioral Rehabilitative Services, Oregon Youth Authority, and Psychiatric Residential Treatment Services, see OAR 410-141-3050 for program specific rules;

(b) For program placements in Secure Children's In-Patient (SCIP) and Secure Adolescent In-Patient (SAIP), CCOs shall work with the Authority in managing admissions and discharges;

(c) The member shall remain enrolled with the CCO for delivery of SCIP and SAIP services. The CCO shall bear care coordination responsibility for the entire length of stay, including admission, determination, and planning.

(3) Specific to residential settings specializing in the treatment of Substance Use Disorders (SUD), if the individual is enrolled in a CCO on the same day the individual is admitted to the residential treatment services, the CCO shall be responsible for the covered services during that placement even if the location of the facility is outside of the CCO's service area. The individual is presumed to continue to be enrolled in the CCO with which the individual was most recently enrolled.

(4) CCO assignment is based on the member's residence and referred to as Home CCO. Home CCO enrollment for temporary out-of-area placement shall:

(a) Meet Oregon residency requirements defined in OAR 410-200-0200;

(b) Be eligible for enrollment into a CCO as specified in OAR 410-141-3060;

(c) Be based on most recent permanent residency and related CCO enrollment history prior to hospital, institutional, and residential placement. If the client has no enrollment history, new enrollment shall reflect most recent permanent residence prior to hospital, institutional, and residential placement; and

(d) Be consistent with OAR 410-141-3080 when the client exercises recipient choice, where the client is able to actively participate in their own

# ADMINISTRATIVE RULES

recovery and direct their own care. If the client is unable to designate county of residence, as indicated in OAR 410-200-0200, the Authority shall designate the Home CCO as the geographic location of the client at the most recent residency and CCO enrollment prior to hospitalization.

(5) Home CCO enrollment policy for State Hospital discharges shall be implemented as follows:

(a) Upon State Hospital discharge, the Authority and the State Hospital Benefit Coordination Unit shall consult and coordinate with the Home CCO for client placement;

(b) If the client has no residency or enrollment history or no recent pre-hospitalization enrollment history, but the client's permanent residency is indicated other than temporary placement location, the Authority shall enroll pursuant to section (3) (c) of this rule Home CCO enrollment;

(c) If the client has no residency or enrollment history prior to hospitalization, the Authority shall enroll in placement service area.

(6) For new and existing temporary residential placements, CCOs shall coordinate all behavioral health care and needs including, but not limited to, medication assisted treatment, routine non-emergent physical health care, dental, and transportation when within the scope of the CCO's contract, including when member's temporary placements are outside the CCO service area. CCO's shall coordinate care for members receiving behavioral health treatment while in temporary placement and discharge planning for the return to the Home CCO. Additionally, CCO's shall coordinate all care for accompanying dependent members.

(7) Enrollment shall follow the Home CCO enrollment policy outlined in this rule, except when:

(a) The Home CCO enrollment hinders access to care or puts the client at potential harm, or the Home CCO is unable to provide needed unique services, a change in enrollment may be requested for the member to a CCO serving the service area of the temporary out-of-area placement;

(b) Home CCO enrollment may create a continuity of care concern, as specified in OAR 410-141-3080. If a continuity interruption to a client's care is indicated, the Authority shall align enrollment with the care and claims history.

(8) Pursuant to OAR 410-141-3080, if the Authority determines that an individual was disenrolled for reasons not consistent with these rules, the Authority shall re-enroll the individual with the appropriate CCO and assign an enrollment date that provides for continuous CCO coverage with the appropriate CCO. If the individual was enrolled in a different CCO in error, the Authority shall disenroll the individual from the incorrect CCO and recoup the capitation payments, pursuant to OAR 410-120-1395. Re-enrollment to the correct CCO shall occur as specified in OAR 410-141-3060.

(9) For consideration of disenrollment decisions other than specified in this rule, OAR 410-141-3080 shall apply. If the Authority determines that disenrollment should occur, the CCO shall continue to provide covered services until the disenrollment date established by the Authority, pursuant to 410-141-3160. This shall provide for an adequate transition to the next responsible coordinated care organization.

These rule amendments clarify reporting requirements for schools and children's facilities, and add requirements for reporting immunization and exemption status by vaccine for enrolled children for whom vaccine status is required to be documented. These rule amendments change the time by which a certified letter must be sent to a non-compliant school or children's facility from six calendar days to five working days. # ADMINISTRATIVE RULES

## 333-050-0040

### Statements (Records) Required

(1) The statement initially documenting evidence of immunization, immunity or exemption under ORS 433.267(1)(a) through (c) must be on a Certificate of Immunization Status form or a form approved by the Public Health Division and include one or more of the following:

(a) Evidence of immunization signed by the parent, health care practitioner or an authorized representative of the local health department;

(b) A written statement of medical exemption signed by a physician or authorized representative of the local health department and approved by an authorized representative of the local health department;

(c) A written statement of immunity documentation approved by an authorized representative of the local health department;

(d) A written statement of nonmedical exemption signed by the parent, including documentation of completion of a vaccine educational module approved by the Public Health Division or signature of a health care practitioner verifying that the risks and benefits of immunizations have been discussed with the parent; or

(e) A written statement of disease history (immunity documentation) for varicella signed by a parent, physician or authorized representative of the local health department.

(2) If age appropriate, required for the child's grade level, and the child has not claimed an exemption or immunity documentation, a minimum of one dose each of the following vaccines must be received for new enterers prior to attendance: Polio, Measles, Mumps, Rubella, Hepatitis B, Hepatitis A, Varicella, Haemophilus influenzae Type b vaccine and Diphtheria/Tetanus/Pertussis containing vaccine. (See Primary Review Table); [Table not included. See ED. NOTE.]

(3) Evidence of immunization shall include the month, day and year of each dose of each vaccine received and must be appropriately signed and dated to indicate verification by the signer.

(a) If evidence of immunization includes the month and year, but the day of the dose is not provided, the administrator shall attempt to get the day of immunization from the parent, the ALERT Immunization Information System or another source. If no day is obtainable, the administrator may use the last day of the month to assess the immunization status for the child.

(b) Pre-signed Certificate of Immunization Status forms without vaccine dates are not allowed.

(c) If a Certificate of Immunization Status form is signed but not dated, the person who receives the form at the school or facility may date the form with the date it was received.

(4) The school or facility may choose to complete or update a Certificate of Immunization Status form, by transcribing dates from, attaching and referencing on the form, one or more of the following records listed in subsections (a) through (f) of this section.

(a) A health care practitioner documented immunization record;

(b) An unsigned record on health care practitioner or clinic letterhead;

(c) An unsigned record printout from the statewide immunization information system, ALERT IIS. ALERT IIS records may be placed in the student's file without transcription onto a Certificate of Immunization Status as long as the printout represents a complete or up-to-date immunization history. If the ALERT IIS record is an update to the Certificate of Immunization Status, it may be attached to the original certificate without transcription;

(d) An unsigned record printout from a computer system approved by the Public Health Division as specified in OAR 333-050-0060(5). Record printouts for Public Health Division-approved computer systems may be placed in the student's file without transcription onto a Certificate of Immunization Status as long as the printout represents a complete or up-to-date immunization history, and includes a history of chickenpox disease if present;

(e) A written statement signed and dated by the parent; or

(f) A statement electronically mailed by the parent.

(5) The Certificate of Immunization Status form must be signed and dated by the person transcribing the information.

(6) When a transferring student enters an Oregon school, the receiving school will attempt to obtain immunization records from the previous school. If immunization records are not immediately available, the receiving school may, according to school policy, allow the student to enroll conditionally. If immunization records are not received, the school will include the student on the Primary Review Summary report.

(7) If the student transfers to a new school district, except when the move is due to the normal progression of grade levels, such as to a junior high or senior high from a feeder school, the receiving school shall ensure

that the transferred records are on a signed Certificate of Immunization Status form or another Public Health Division-approved form. The original transferred records that are not on an approved form shall be attached to a Certificate of Immunization Status form and the form shall be marked with a reference to the attached records, signed, and dated by the person transcribing the information on the form.

(8) The records relating to the immunization status of children in schools shall be transferred to the receiving schools pursuant to ORS 326.575(2) within 30 days.

(9) When a new enterer is admitted in error to a school or facility without an immunization history, immunity documentation or appropriately signed exemption, the school or facility may contact the local health department to request that an Exclusion Order for No Record be issued, or include the student on the Primary Review Summary report.

(10) When a child is determined by the facility, school or school district to be homeless and does not have a completed Certificate of Immunization Status on file with the school, the student will be allowed to enroll conditionally.

(a) If immunization records are not received the school will include the student on the Primary Review Summary report or contact the local health department to request that an Exclusion Order for No Record be issued with an exclusion date of not less than 30 days after initial attendance.

(b) School staff shall make every effort to help the family compile an immunization record for the student, including requesting a record from a previous school, ALERT IIS or a previous medical provider.

(11) Where a child attends both a facility and a school, the school is responsible for reporting and for enforcing these rules in accordance with the school and facility vaccine requirements. However, because of the need for outbreak control when school is not in session, the facility administrator will be responsible for requesting that the parent also provide an up-to-date Certificate of Immunization Status to the facility. If the parent does not comply, the facility administrator shall inform the parent that in the event of a case of vaccine preventable disease the child may be excluded until it is determined that the child is not susceptible or the local health authority has determined that the risk of exposure within the school or facility has passed.

(12) Evidence of nonmedical exemption must include documentation that the parent has completed a vaccine educational module approved by the Public Health Division or signature from a health care practitioner verifying that risks and benefits of immunization have been discussed with the parent. Information provided must be consistent with information published by the Centers for Disease Control and Prevention, including epidemiology, the prevention of disease through use of vaccination, and the safety and efficacy of vaccines.

(a) The Public Health Division will make available to parents a no-cost internet based vaccine educational module.

(A) Criteria for the vaccine educational module must include:

(i) Information consistent with information published by the Centers for Disease Control and Prevention;

(ii) Information about the benefits and risks of each vaccine for which a parent is claiming a nonmedical exemption;

(iii) Information about the epidemiology, prevention of disease through use of vaccination, and the safety and efficacy of vaccines; and

(B) A person who wishes to have a vaccine educational module approved by the Oregon Health Authority shall submit the module to the medical director of the Public Health Division, Immunization Program. For approval, the vaccine educational module must contain the substantive content of the internet based vaccine educational module made available by the Public Health Division. The medical director must review the module to determine if it meets the criteria in these rules including the requirement that a vaccine educational module present information that is consistent with information published by the Centers for Disease Control and Prevention. Approval or disapproval shall be made in writing. If the module is disapproved the medical director must explain the reasons for disapproval.

(C) An official certification receipt to provide documentation of completion of the vaccine educational module must be in a form approved by the Public Health Division, Immunization Program.

(b) A health care practitioner may discuss with the parent the risks and benefits of immunization and provide documentation for the parent to claim a nonmedical exemption.

(A) The information provided by the health care practitioner must contain the substantive content of Internet based vaccine educational mod-

# ADMINISTRATIVE RULES

ule made available by the Public Health Division. The content may be adjusted to meet individual parents' concerns.

(B) The health care practitioner will provide documentation to parents on a form prescribed by the Public Health Division that the practitioner has provided vaccine information to the parent.

(c) Parents claiming a nonmedical exemption must provide documentation of completion of a vaccine educational module or a signed document from a health care practitioner to the administrator.

(d) The administrator must keep a copy of the documentation of non-medical exemption with the child's Certificate of Immunization Status.

(13) The evidence of nonmedical exemption from a health care practitioner or the viewing of the educational module must:

(a) Have occurred within 12 months of the parent signing of the non-medical exemption; and

(b) Specify the vaccines about which information about the benefits and risks has been provided and for which a nonmedical exemption may be claimed for the child.

(14) When a child reaches the age of medical consent in Oregon, 15 years of age, the child may sign his or her own Certificate of Immunization Status and complete the process for obtaining a nonmedical exemption.

### Immunization Requirements

(1) For purposes of this section, immunization against the following diseases means receipt of any vaccine licensed by the United States Food and Drug Administration (or the foreign equivalent) for the prevention of that disease.

(2) For purposes of ORS 433.267(1), immunizations are required as follows (see Primary Review Table to determine the number of required doses for a child's age or grade):

(a) Diphtheria/Tetanus/Pertussis containing vaccine (DTaP) — Five doses must be received unless:

(A) The fourth dose was given at, within four days prior to or after the fourth birthday, in which case the child is complete with four doses; or

(B) The third dose of Diphtheria/Tetanus containing vaccine was received at, within four days prior to or after the seventh birthday, in which case the child is complete with three doses.

(b) Polio — Four doses must be received unless:

(A) The third dose was given at, within four days prior to or after the fourth birthday, in which case the child is complete with three doses of polio vaccine; or

(B) The student is 18 years of age or older. Polio vaccination at or after the 18th birthday is not required.

(c) Measles — Two doses must be received at or after 12 months of age. Vaccine doses given four days or fewer before 12 months of age are acceptable. The second dose must be received at least 24 days after first dose.

(d) Rubella — One dose must be received at or after 12 months of age. Vaccine doses given four days or fewer before 12 months of age are acceptable.

(e) Mumps — One dose must be received at or after 12 months of age. Vaccine doses given four days or fewer before 12 months of age are acceptable.

(f) Haemophilus influenzae Type b (Hib) — Up to four doses depending on the child's current age and when previous doses were administered.

(g) Hepatitis B — Up to three doses must be received. If the first dose was received at or after 11 years of age and the second dose is received at least four months after dose one, the child is complete with two doses. Vaccine doses given four days or fewer before the 11th birthday are acceptable.

(h) Varicella — Up to two doses must be received, depending on the child's age when the first dose was administered. The first dose must be received at or after 12 months of age. Vaccine doses given four days or fewer before 12 months of age are acceptable. Second dose, if required, must be received at least 24 days after first dose.

(i) Hepatitis A — Two doses must be received at or after 12 months of age. Vaccine doses given four days or fewer before 12 months of age are

acceptable. Beginning school year 2008–2009, the requirement for Hepatitis A vaccine will be phased in by grade. (See Primary Review Table.) [Table not included. See ED. NOTE.]

(j) Tetanus/Diphtheria/Pertussis booster (Tdap) — One dose must be received at or after seven years of age, unless the last Diphtheria/Tetanus containing vaccine was given less than five years ago.

(3) Interrupted series: If there is a lapse of time between doses longer than that recommended by the standard described in OAR 333-050-0120, the schedule should not be restarted. Immunization may resume with the next dose in the series.

(4) A child shall not be excluded from school for failing to receive a required vaccine if the State Health Officer has determined that there is a vaccine shortage and that is the reason the child has not received the vaccine. Any vaccine that has been waived due to a vaccine shortage will be required at the next review cycle, once the shortage has been lifted. The Public Health Division shall notify local health departments, schools and facilities of any shortages that affect their procedures under these rules.

(5) The local public health officer, after consultation with the Public Health Division, may allow a child to attend a school or facility without meeting the minimum immunization requirements in case of temporary local vaccine shortage.

(a) The local health department shall provide a letter signed by the local health officer to the parent of the affected student detailing which vaccines the student is being exempted from. The letter must state that the student will receive an Exclusion Order if the student's record is not updated with the missing doses prior to the next exclusion cycle.

(b) A copy of the letter must be attached to the student's Certificate of Immunization Status on file at the school or facility.

(c) A photocopied form letter signed by the local health officer may be used by the local health department when the shortage is expected to affect more than one child.

(d) If the vaccine is still unavailable at the next exclusion cycle, the local health department, with the agreement of the Public Health Division, will not issue Exclusion Orders for the unavailable vaccine.

(6) The following immunity documentation satisfies the immunization requirements for the specified vaccines:

(a) Immunity documentation for Measles, Mumps or Rubella vaccination due to a disease history may be certified by a physician or an authorized representative of the local health department for a child who has immunity based on a health care practitioner's diagnosis;

(b) Immunity documentation for Measles, Mumps or Rubella vaccination due to a documented immune titer may be certified by a physician or an authorized representative of the local health department;

(c) Immunity documentation for Hib vaccination may be certified by a physician or authorized representative of the local health department for a child who experienced invasive Haemophilus influenzae Type b disease at 24 months of age or older;

(d) Immunity documentation for Varicella vaccine may be signed by the parent for history of varicella. The date of the disease is not required. This immunity documentation will be automatically authorized by the local health department.

(e) Immunity documentation for Varicella based on laboratory confirmation of immunity may be certified by a physician or authorized representative of the local health department;

(f) Immunity documentation for Hepatitis B vaccination based on laboratory confirmation of immunity or confirmation of carrier status may be certified by a physician or authorized representative of the local health department; and

(g) Immunity documentation for Hepatitis A vaccination based on laboratory confirmation of immunity may be certified by a physician or authorized representative of the local health department.

(7) Children possessing the following medical exemptions are susceptible to the diseases for which they are exempt from vaccination:

(a) Exemption for Measles, Mumps, Rubella or Varicella vaccination may be certified by a physician or an authorized representative of the local health department for a post-pubertal female when she is currently pregnant or there is a significant risk of her becoming pregnant within one month; and

(b) Exemption for one or more immunizations shall be established by a diagnosis based on a specific medical contraindication certified in a letter from the physician or an authorized representative of the local health department. The vaccines, medical diagnosis, practitioner's name, address and phone number must be documented and attached to the record.

(8) Exemptions and immunity documentation submitted to the school or facility must be in English.

# ADMINISTRATIVE RULES

(9) A child may attend a school or facility under ORS 433.267(1) if the child is up-to-date and remains up-to-date and in compliance with immunization schedules for spacing between doses presented in OAR 333-050-0120.

(10) If evidence is presented to the local health department that an Exclusion Order was issued in error because a vaccine was given within the four-day grace period recommended by the Advisory Committee on Immunization Practices as published in the General Recommendations on Immunization, the local health department shall rescind the Exclusion Order. The local health department shall notify the child's school or facility when an Exclusion Order is rescinded.

(11) In situations where a child's vaccine history presents an unusual problem not covered by these rules, the local health department may use its judgment to make a final determination of the child's immunization status.

(12) A nonmedical exemption from immunization requirement is allowed for one or more of the vaccines. Parents claiming a nonmedical exemption must select which vaccines a child is being exempted from by checking the appropriate boxes on the Certificate of Immunization Status and submit the Certificate of Immunization status and the documentation specified in OAR 333-050-0040(12)(a)(C) or 333-050-0040(12)(b)(B) to the school or facility.

### Exclusion

(1) The date of exclusion shall be the third Wednesday in February.

(a) If additional exclusion cycles are conducted, the exclusion dates shall be set at no less than 14 calendar days from the date that the Exclusion Orders are mailed.

(b) Exclusion occurs when records have not been received or updated by the starting time of the school or facility on the specified exclusion day.

(2) The local health department shall use an Exclusion Order for Incomplete Immunization or Insufficient Information or an Exclusion Order for No Record depending upon the reason the child is found to be in non-compliance with ORS 433.267(1) and these rules:

(a) At least 14 days before the exclusion day, the local health department shall mail by first class mail an appropriately completed and signed order of exclusion to the parent of each child determined to be out of compliance with these rules.

(b) If a student is listed by the school as the "person responsible," the Exclusion Order will be sent to the student.

(c) In the event that the local health department has knowledge that the address of the parent provided on the Primary Review Summary form is incorrect, the local health department shall use all reasonable means to notify the parent, including inquiries to the school or facility administrator, to establish the appropriate mailing address and sending home from the school a copy of the Exclusion Order with the child.

(d) For all orders issued, one copy of the Exclusion Order shall be sent to the administrator and the local health department shall retain one copy. The local health department shall also retain copies of the records of children to be excluded until notification from the school or facility that such children are in compliance, or for one year.

(3) On the specified date of exclusion, the administrator shall exclude from school or facility attendance all children so ordered by the local health department until the requirements specified by the local health department are verified by the administrator in accordance with section (9) of this rule.

(4) The local health department shall maintain copies of immunization records of children excluded and shall maintain contact with administrators regarding the status of such children.

(5) If children whose records are not updated on the specified exclusion day arrive at their school or facility, the administrator shall make every effort to contact their parent by phone. The administrator shall place excluded children in a space away from the other children until their parent arrives to pick them up or until they are returned home by regular school district transportation.

(6) If the excluded children do not meet the requirements specified by the local health department in accordance with section (9) of this rule and do not return to school within four school days, it is the responsibility of the public school administrator, as proper authority, to notify the attendance supervisor of the unexcused absence. The attendance supervisor is required to proceed as required in ORS 339.080 and 339.090.

(7) Children who have been issued an Exclusion Order are not entitled to begin or continue in attendance in any school or facility in Oregon while the Exclusion Order is still in effect. Administrators who receive or are otherwise made aware of the records of a child from another school or facility containing an Exclusion Order that has not been cancelled shall notify the parent and immediately exclude the child until the requirements specified on the Exclusion Order are met and verified by the administrator.

(8) Students in treatment facilities or court-mandated residential correctional facilities, including but not limited to Oregon Youth Authority closed custody sites, are not subject to exclusion. The administrator of such treatment or residential correctional facilities must comply with all other provisions of these rules, including submission of the required reports as specified by these rules. The administrator must ensure that students have complete or up-to-date immunization records, a medical or nonmedical exemption or immunity documentation for all vaccines required for the student's grade.

(9) Compliance:

(a) For children excluded for insufficient information or incomplete immunizations, compliance will be achieved by submitting to the administrator one of the statements allowed in OAR 333-050-0040(1);

(b) For children excluded for no record, compliance will be achieved by submitting to the administrator evidence of immunizations that includes at least one dose of each vaccine required for that grade or age, a medical or nonmedical exemption or immunity documentation.

(c) When the administrator verifies that the required information has been provided or that an appropriate immunity documentation or medical or nonmedical exemption has been provided, the child shall be in compliance with ORS 433.267(1) and these rules and qualified for school or facility attendance.

(10) Twelve calendar days after the mandatory exclusion date, the administrator shall ensure that:

(a) The Primary Review Summary form returned from the local health department is updated by appropriately marking the current status of each child as specified (including children listed as having no record);

(b) The mathematics on the Primary Review Summary form are accurate including the number of children in the full school or children's facility, kindergarten and seventh grade with:

(A) The specified number of doses of each vaccine;

(B) Nonmedical exemptions for each vaccine;

(C) Nonmedical exemptions from each source, whether documentation from a health care practitioner or vaccine educational module;

(D) Nonmedical exemptions;

(E) Medical exemptions;

(F) Incomplete immunizations; and

(G) No record.

(c) A copy of the revised Primary Review Summary form is submitted to the local health department on that day. The administrator shall maintain a file copy of the updated Primary Review Summary form.

(11) The local health department shall review the updated Primary Review Summary form for mathematical accuracy. Any errors should be corrected by contacting the affected school or facility.

### Follow Up

(1) In the event that the local health department receives records that are original documents from a school or facility, the local health department shall return such records to the administrator.

(2) The administrator shall be responsible for updating records each time the parents, health care practitioner, or an authorized representative of the local health department provides evidence of immunization or exemption for each child.

(3) Information on disease restrictions for schools and facilities can be found in OAR 333-019-0010 and 333-019-0014. ### Administration

(1) The department may contract with subgrantee agencies to provide program services at the local level. In a service area where a community action agency exists, the community action agency has a conditional right of first refusal to serve as the subgrantee agency for the service area.

(2) The department normally will allocate program funds to subgrantee agencies for the various service areas through a formula established by the department prior to the allocation process. However, the department reserves the right to modify such formula at any time in its sole discretion.

(3) A subgrantee agency may subcontract with other organizations that meet the requirements of ORS 458.505(4) to provide program services in the subgrantee agency's service area.

(4) A subgrantee agency shall identify potential applicants, certify eligibility and provide program services to eligible households within its service area. Whenever appropriate, program participants will be assisted in accessing other services designed to meet other, longer-term needs.

(5) The department normally will fund only one subgrantee agency within any service area. However, the department may, in its sole discretion, allow two or more subgrantee agencies to operate within a common service area. In such cases, the subgrantee agencies shall enter into a written agreement with the department, satisfactory to the department in its sole discretion, in order, inter alia, to ensure full access to program services for all eligible households within the service area to the extent of available funding and to prevent duplication of services.

(6)(a) A subgrantee agency may expend up to an amount authorized by the department in writing for reimbursement of reasonable and appropriate administrative costs.

(b) If a subgrantee agency subcontracts with another organization to provide program services, that organization may expend up to an amount for administrative costs that does not exceed the subgrantee agency's proportionate share of the amount authorized by the department for reasonable and appropriate administrative costs of the funding award.

(c) The ultimate determination of reasonable and appropriate administrative costs is reserved to the department in its sole discretion.

## 813-210-0014 Administration

(1) The department will contract with subgrantee agencies to provide program services at the local level. In a service area where a community action agency exists, the community action agency has the right of first refusal to serve as the subgrantee agency for the service area.

(2) The department normally will allocate program funds to subgrantee agencies for the various service areas through a formula established by the department prior to the allocation process. However, the department reserves the right to modify such formula at any time in its sole discretion and in compliance with the CSBG state plan and CSBG Act's proportional share program requirement.

(3) A subgrantee agency may subcontract with other organizations that meet the requirements of ORS 458.505(4) to provide program services in the subgrantee agency's service area.

(4) A subgrantee agency shall identify potential applicants, certify eligibility and provide program services to eligible households within its service area. Whenever appropriate, program participants will be assisted in accessing other services designed to meet other, longer-term needs.

(5) Subgrantee agency representatives will attend and participate in department required program training made available or conducted by the department.

(6) The department normally will fund only one subgrantee agency within any service area. However, the department may, in its sole discretion, allow two or more subgrantee agencies to operate within a common service area. In such cases, the subgrantee agencies shall enter into a written agreement with the department, satisfactory to the department in its sole discretion, in order, inter alia, to ensure full access to program services for all eligible households within the service area to the extent of available funding and to prevent duplication of services.

(7)(a) A subgrantee agency may expend up to an amount authorized by the department in writing for reimbursement of reasonable and appropriate administrative costs.

(b) If a subgrantee agency subcontracts with another organization to provide program services that organization may expend up to an amount for administrative costs that does not exceed the subgrantee agency's proportionate share of the amount authorized by the department for reasonable and appropriate administrative costs of the funding award.

(c) The ultimate determination of reasonable and appropriate administrative costs is reserved to the department in its sole discretion.

(8) A subgrantee agency and its subcontractors shall comply with the terms of the funding agreement and all other program requirements, including but not limited to department directives (including deficiency notices), applicable local, state and federal laws, rules (including the (program manual) regulations, executive orders, local ordinances and codes.

(1) A subgrantee agency may use program funds to implement different strategic approaches designed to reduce or eliminate one or more conditions that block the achievement of economic self-sufficiency for low-income households. Such strategies must have measurable and potentially major impact on the causes of poverty in communities in the service area where poverty is a particularly acute problem.

(2) Program funds will be used for allowable program services and activities for eligible low-income households in compliance with program requirements. These services and activities may include, but are not limited to helping members of low-income households:

(a) Secure and retain meaningful employment;

(b) Attain an adequate education;

(c) Make better use of available income;

(d) Obtain and maintain adequate housing and a suitable living environment;

(e) Obtain emergency assistance through loans or grants to meet immediate and urgent individual and family needs, including the need for health services, nutritious food, housing and employment-related assistance;

(f) Remove obstacles and solve problems that block the achievement of self-sufficiency;

(g) Achieve greater participation in the affairs of the community; and

### Funding Application

(1) Prior to providing any program services, a subgrantee agency shall submit on a biennial basis, a funding application satisfactory to the department, including a work plan, which must be approved by the department before being operative. The subgrantee agency shall adhere to the department's requirements and deadlines for obtaining approval of this funding application. A funding application is subject to approval, including as modified by the department, or disapproval by the department.

(2) A subgrantee agency's funding application shall include details satisfactory to the department on how the subgrantee agency provided a meaningful opportunity for participation in the development of the work plan by low-income households, local service providers, advocates, clients, businesses, churches, general community members, governments and other interested stakeholders.

(3) A subgrantee agency's funding application must meet all requirements established by the department for the form and content of the funding application. In cases where a community action agency has the right of first refusal for antipoverty program administration, and the community action agency cannot meet the requirements for the form and content of the funding application, the department, in its sole discretion, may allow other eligible organizations to submit a funding application with respect to that service area.

(4) Funding applications will be evaluated by the department for sufficiency with respect to application and other program requirements.

### Compliance Monitoring; Remedies

(1) The department will conduct reviews, audits, and other compliance monitoring as it deems appropriate with respect to each subgrantee agency and its subcontractors, inter alia, to verify compliance with program requirements. Minimally, the department will conduct an on-site monitoring once every three years and immediately after the first year for newly-designated community action agencies. Subgrantee agencies and their subcontractors will cooperate fully with the department in its compliance monitoring.

(2) Subgrantee agencies shall require by contract and monitor their subcontractors' compliance with all program requirements including but not limited to, recordkeeping and retention of records and department compliance monitoring and enforcement.

(3)(a) The department may take such remedial action as it deems appropriate including, but not limited to terminating its funding agreement with a subgrantee agency and requiring repayment of partial or all program funding, if it determines that the performance of the subgrantee agency or any of its subcontractors is deficient in any manner, including with respect to the state plan and program requirements.

(b) The department will notify a subgrantee agency of deficiencies identified through the monitoring process and provide documentation for the basis of such determination and the specific deficiency or deficiencies that must be corrected.

(c) The department will require the subgrantee to correct any deficiencies in a manner and timeframe satisfactory to the department.

(d) The department may offer training and technical assistance to the subgrantee; or if the department determines such training and technical assistance are not appropriate, prepare and submit to the secretary a report stating the reasons for such determination.

(e) The department, at its discretion, may offer the subgrantee assistance in the development of a corrective action plan. If a corrective action plan is allowed, the subgrantee must develop and submit the plan to the department within sixty days after being informed of the deficiency or deficiencies. The department will review and issue a decision on whether to approve or disapprove the plan within thirty days after receipt of the plan from the subgrantee. If disapproved, the department will provide the subgrantee agency with the reasons why the plan cannot be approved.

(4) The department will provide adequate notice and opportunity for a hearing prior to a remedial action that terminates organizational eligibility for program funding or otherwise reduces the proportional share of program funding for cause.

(5) Hearings will be addressed to and held before the assistant director or designee whose decision may be further appealed to the department director. Termination of the agency's program eligibility for program funds would require termination of its CAA designation which may be appealed to the governor in accordance with OAR 813-230-0000.

# ADMINISTRATIVE RULES

(6) The subgrantee agency may request within thirty days following notification of the department's final decision, a review by the HHS Secretary.

(7) A determination to terminate the subgrantee agency's CAA designation or reduce the proportionate share of funding of the agency is reviewable by the secretary. The secretary shall, upon request, review such determination. The review shall be completed not later than 90 days after the secretary receives from the department all necessary documentation relating to the determination to terminate the agency's CAA designation or reduce its proportional share of funding. If the review is not completed within 90 days, the determination of the state shall become final at the end of the 90th day.

(8) Issuance of a deficiency notice shall not constitute a waiver of other remedies available to the department or preclude the department from exercising such other remedies available to it under the funding agreement or other program requirements, at law or otherwise.

### Purpose and Objectives

OAR chapter 813, division 220, is promulgated to accomplish the general purpose of ORS 458.505 to 458.545, specifically ORS 458.525 to 458.530, which designates Oregon Housing and Community Services Department as the lead agency to coordinate state efforts in meeting the problem of hunger that operates through a network of local service-provider agencies. The department has designated the Oregon Food Bank as the agency responsible for administering the Emergency Food Assistance Program in Oregon within OAR chapter 813, division 220. The program's objective is to provide lower-income households with food for home and congregate meal use. OHCS believes that receiving USDA foods will not create any additional barriers between clients and their need for food than is stated in statute.

### Administration

(1) The department may contract with subgrantee agencies to provide program services at the local level. In a service area where a community action agency exists, the community action agency has a conditional right of first refusal to serve as the subgrantee agency for the service area.

(2) The department normally will allocate program funds to subgrantee agencies for the various service areas through a formula established by the department prior to the allocation process. The department reserves the right to modify such formula at any time in its sole discretion.

(3) A subgrantee agency may subcontract with other organizations that meet the requirements of ORS 458.505(4) to provide program services in the subgrantee agency's service area.

(4) A subgrantee agency shall identify potential applicants, certify eligibility and provide program services to eligible households within its service area. Whenever appropriate, program participants will be assisted in accessing other services designed to meet other, longer-term needs.

(5) The department normally will fund only one subgrantee agency within any service area. However, the department may, in its sole discretion, allow two or more subgrantee agencies to operate within a common service area. In such cases, the subgrantee agencies shall enter into a written agreement with the department, satisfactory to the department in its sole discretion, in order, inter alia, to ensure full access to program services for all eligible households within the service area to the extent of available funding and to prevent duplication of services.

(6)(a) A subgrantee agency may expend up to an amount authorized by the department in writing for reimbursement of reasonable and appropriate administrative costs.

(b) If a subgrantee agency subcontracts with another organization to provide program services, that organization may expend up to an amount for administrative costs that does not exceed the subgrantee agency's proportionate share of the amount authorized by the department for reasonable and appropriate administrative costs of the funding award.

(c) The ultimate determination of reasonable and appropriate administrative costs is reserved to the department in its sole discretion.

(7) A subgrantee agency and its subcontractors shall comply with the terms of the funding agreement and all other program requirements, including but not limited to department directives (including deficiency notices), applicable local, state and federal laws, rules (including the program manual, regulations, executive orders, local ordinances and codes.

(3) A subgrantee agency's funding application must meet all requirements established by the department for the form and content of the funding application. In cases where a community action agency has the conditional right of first refusal for antipoverty program administration, and the community action agency cannot meet the requirements for the form and content of the funding application, the department, in its sole discretion, may allow other eligible organizations to submit a funding application with respect to that service area.

(4) Funding applications will be evaluated by the department for sufficiency with respect to application and other program requirements.

(C) Submit a Board Certificate of Professional Education providing primary source verification of completion of a CAPTE accredited physical therapist or physical therapist assistant program or an official transcript of completion.

(D) Must have registered and been released to sit for the NPTE.

(b) A person who holds a valid current license to practice in another state or territory of the United States may be issued a temporary permit for a period of 60 calendar days. Such applicant shall:

(2) A person who holds a temporary permit must practice under supervision as provided in this rule.

(3) A person who holds a temporary permit issued under subsection (1)(a) of this rule must practice under on-site supervision, which means that at all times a supervising therapist is in the same building and immediately available for consultation. Entries made in the patient record by a temporary permit holder must be authenticated by the permit holder and by a supervising therapist.

(4) A person who holds a temporary permit issued under subsection (1)(b) of this rule must practice under general supervision, which means that at all times a supervising therapist must be readily available for consultation, either in person or by telecommunication.

(5) As used in this rule, "supervising therapist" means an Oregon licensed physical therapist if the permit holder is a physical therapist or a physical therapist assistant. "Supervising therapist" also means an Oregon licensed physical therapist assistant if the permit holder is a physical therapist assistant. A physical therapist assistant may not supervise a physical therapist permit holder.

(6) If a physical therapist assistant is supervising a physical therapist assistant permit holder, a physical therapist must be readily available for consultation, either in person or by telecommunication, as provided in OAR 848-015-0020.

(12) In its discretion the Board may grant one 60 calendar day extension to a person who holds a temporary permit.

### Renewal of Lapsed Licenses

(1) Any license that is not renewed before April 1 of each even numbered year shall automatically lapse. No person whose license has lapsed shall practice until the license is renewed. Failure to receive a renewal notice shall not excuse any licensee from the requirements of renewal. The Board may renew any lapsed license upon payment of all past unpaid renewal fees, payment of a single lapsed license renewal fee as provided in OAR 848-005-0020(1)(e) and, if applicable, documentation of completion of the continuing competence requirements as provided in 848-035-0020(5). An applicant whose license has lapsed for non-completion of the continuing competence requirements may reinstate the lapsed license upon completion of the requirements for the immediately prior certification period. Continuing competence hours earned after March 31 of the even-numbered year to fulfill the requirements necessary to reinstate the lapsed license shall apply only to the prior certification period.

(2) Any individual reinstating a license that has been lapsed between two to five years must show evidence of completion of a minimum of 24 hours of continuing competency during the 24 months immediately prior to the reinstatement date and complete the current Board jurisprudence examination. However, a candidate for reinstatement who holds a current license in another state or jurisdiction which has a requirement for continuing competence or continuing education and who has completed that requirement, shall be exempt from the continuing competency requirements of this subsection.

(3) In the event that an applicant's Oregon physical therapy license has lapsed for five or more consecutive years, the applicant must demonstrate competence to practice physical therapy. If the applicant fails to demonstrate competence, the Board may require the applicant to serve an

internship under a restricted license or satisfactorily complete a refresher course approved by the Board, or both, at the discretion of the Board. The Board may also require the applicant to pass an examination approved by the Physical Therapist Licensing Board as provided in OAR 848-010-0015.

(4) If the applicant holds a current physical therapist or physical therapist assistant license in another state or jurisdiction and the applicant's Oregon license has lapsed for five or more consecutive years, the applicant may apply for a license by endorsement as provided in OAR 848-010-0020.

### Protective Orders

(1) Upon request by a party and for good cause shown, an ALJ may issue protective orders to limit disclosure of information that falls within the scope of ORCP 36(C)(7). Decisions by the ALJ regarding protective orders may be appealed to the Commission under OAR 860-001-0720.

(2) General Protective Order. The Commission's general protective order adopts a process for parties to avoid discovery disputes that include protected information. The order allows the broadest possible discovery consistent with the need to protect such information; it does not determine whether a particular document is exempt from disclosure. The general protective order is not included in rule text. [Order not included. See ED. NOTE.]

(3) Modified Protective Order.

(a) A party may request that the ALJ issue a modified protective order that provides additional protection beyond that provided by the general protective order by filing a motion under OAR 860-001-0420. The motion must include:

(A) The parties and the exact nature of the information involved;

(B) The legal basis for the claim that the information is protected

under ORCP 36(C)(7) or the Public Records Law;

(C) The exact nature of the relief requested;

(D) The specific reasons the requested relief is necessary; and

(E) A detailed description of the intermediate measures, including selected redaction, explored by the parties and why these measures are insufficient.

(b) The ALJ will provide expedited review of any motion for additional protection. Pending the ALJ's ruling on a motion for additional protection, the information at issue need not be released.

(c) To receive access to information that has been given additional protection beyond that of the general protective order, a party may be required to certify that it intends to fully participate in the proceedings. Fully participating means being actively involved in the docket, as appropriate, by filing testimony; participating in settlement negotiations, conferences, and hearings. If a certifying party fails to fully participate in the proceedings, the party may decertify itself or, upon the request of a party or the ALJ's own motion, be decertified as eligible to receive information under a modified protective order.

(4) A party alleging that the terms of a protective order have been violated may file a complaint under ORS 756.500, or the Commission may, on the Commission's own initiative, file such complaint. Any person that fails to comply with the terms of a protective order may be subject to sanctions. Depending upon the severity of the violation, the Commission may impose any sanction it deems appropriate, up to and including:

(a) Issuing a public reprimand;

(b) Expelling the person or associated party from the proceeding in which the protective order was violated;

(c) Prohibiting the person or associated party from appearing in future proceedings;

(d) Imposing penalties under ORS 756.990(2)(c); or

(e) Reporting any attorney that violated the protective order to the bar association in all states where the attorney is admitted to practice law.

### General Requirements

(1) All municipal corporations, as defined in ORS 297.405, are required to have their accounts and fiscal affairs audited annually in accordance with generally accepted auditing standards as promulgated by the American Institute of Certified Public Accountants (AICPA), unless they qualify under 297.435 to be reviewed in accordance with Statements on Standards for Accounting and Review Services (SSARS), or file financial reports in lieu of having an audit. The accounts to be audited and examined may include financial statements, or they may consist solely of books, records, and other financial data

(2) The independent auditor who contracts to conduct an audit of a municipal corporation must personally conduct the audit to an extent satisfactory to the Secretary of State, prepare an Independent Auditor's Report and express an opinion on the accounts in accordance with these rules. The expression of opinion must be signed by the independent auditor. The Independent Auditor's Report and expression of opinion are to be issued to the municipal corporation within six months after the close of the calendar or fiscal year unless an extension of time has been granted by the Secretary of State.

(3) Management (of the municipal corporation) has the responsibility for adopting sound accounting policies, for maintaining an adequate and effective system of accounts, for the safeguarding of assets, and for devising a system of internal control that will, among other things, help assure the production of proper financial statements. The transactions which should be reflected in the accounts and in the financial statements are matters within the direct knowledge and control of management. The independent auditor's knowledge of such transactions is limited to that acquired through the audit. Accordingly, the fairness of the representations made through financial statements is an implicit and integral part of management's responsibility. The independent auditor may make suggestions as to the form or content of financial statements or he/she may draft them in whole or in part, based on management's accounts and records. However, responsibility for the statements examined is confined to the expression of opinion on them. The financial statements remain the representations of management.

(4) Since the functions and forms of government, as well as the accounting, internal control, and management information systems, will vary greatly among municipal corporations, the independent auditor must be familiar with legal provisions applicable to municipal corporations and the accounting principles promulgated by GASB and other accounting principles considered to be generally acceptable for governmental organizations. The independent auditor shall review the information systems of accounting and internal control, develop audit programs to adequately test

# ADMINISTRATIVE RULES

those systems, and form an opinion with respect to the financial statements of the municipal corporation.

(5) Officials of the municipal corporation should make an accounting of all resources for which they are responsible. Preparation of the financial statements and notes thereto and the supplementary schedules considered necessary for full disclosure of financial position and results of operations as set forth in OAR 162-010-0050 through 162-010-0140 will be considered an appropriate accounting.

(6) The independent auditor is expected to determine if the accounts and records are maintained in a manner that will permit the preparation of financial statements that will fairly present the financial position and results of operations of the municipal corporation in accordance with legal provisions and in accordance with generally accepted accounting principles. The accounting principles contemplated are those contained in the pronouncements of authoritative bodies including, but not necessarily limited to, the Governmental Accounting Standards Board (GASB), the AICPA and the Financial Accounting Standards Board (FASB). If the municipal corporation fails to prepare and present the financial statements specified in OAR 162-010-0050 through 162-010-0140, the independent auditor must make a reasonable attempt to draft them for the municipal corporation from the accounts and records made available for audit. If the financial statements cannot be drafted with reasonable effort, appropriate comments must be included in the audit report, together with recommendations for improvements necessary to permit their preparation in the future. Wherever there is a conflict between legal provisions and professional standards setting bodies, legal provisions are to take precedence. The independent auditor shall make appropriate disclosure of such conflicts and shall be aware that a qualification of the opinion may be necessary.

(7) In addition to auditing the accounts and financial statements of a municipal corporation, the independent auditor is required to review the municipal corporation's fiscal affairs. The review shall include, but not necessarily be limited to, determining if financial operations have been carried out in accordance with appropriate legal provisions including federal and state laws, charter provisions, court orders, ordinances, resolutions, and rules and regulations issued by other governmental agencies. It is the independent auditor's responsibility to disclose in the audit report material instances of noncompliance with such legal provisions.

(8) The scope of the audit of a municipal corporation shall include programs wholly or partially funded by other federal, state, or local governmental agencies. In determining the audit procedures to be applied to such programs, the independent auditor shall consider any specific audit procedures which may have been developed for those programs by appropriate governmental agencies. The independent auditor shall also determine if financial reporting requirements applicable to such programs have been complied with.

(9) The audit report of a municipal corporation shall contain financial statements with appropriate notes, the Independent Auditor's Report containing his or her expression of opinion on the financial statements, or an assertion that an opinion cannot be expressed, and the auditor's comments relating to the review of fiscal affairs and compliance with legal requirements.

(a) The independent auditor must prepare the independent auditor's opinion in accordance with the Statements on Auditing Standards issued by the AICPA.

(b) The independent auditor's report should include either an opinion on whether the accompanying financial information is fairly presented in all material respect in relation to the basic financial statements taken as a whole or a disclaimer of opinion depending on whether the information has been subjected to the auditing procedures applied in the audit of the basic financial statements.

(c) In a GAAP presentation the independent auditor shall express an "in relation to" opinion on budgetary comparison schedules presented as required supplementary information.

(d) The independent auditor shall express an "in relation to" opinion on the combining and individual fund statements and schedules presented as supplementary information required by OAR 162-010-0050 through 162-010-140.

(e) The auditor's comments relating to the review of fiscal affairs, including compliance with legal requirements shall be in accordance with the provisions of OAR 162-010-200 through 162-010-0320.

(10) Audit reports are required to contain, immediately inside the front cover, the names and mailing addresses of officers of the municipal corporation and members of its governing body. In addition, audit reports of special districts, as defined by law, shall contain the name of the district's registered agent and its registered address. If a special district has not des-

ignated a registered agent or registered address, then the audit report shall so indicate.

(11) It is the responsibility of the municipal corporation to file a copy of its audit report with the Secretary of State. The reports are subject to review for compliance with these rules, and the Secretary of State may call for submission by the independent auditor of the work papers and audit programs covering an engagement. The work papers and audit programs must contain satisfactory documented evidence of compliance with these rules.

(12) Within 30 days after delivering the audit report, as required by law, the independent auditor shall submit a summary of the revenues and expenditures of the municipal corporation for the period covered by the audit. The summary shall be made in the manner and on forms prescribed by the Secretary of State. One copy of the summary shall be delivered to the municipal corporation. Instructions are as follows:

(a) General: The summary shall include the revenues and expenditures or receipts and disbursements presented in the government-wide statement of activities.

(b) The amounts shall also include fiduciary fund additions and deductions.

(c) Revenues and expenditures of component units and turnovers to other governments should be identified in the summary as reductions in arriving at the net totals. Those amounts are included in the separately issued financial statements of the other governments.

### Contracts

Municipal Audit Law requires audits be performed pursuant to a contract between the independent accountant and the governing body, or managing or executive officer, of the municipal corporation. Laws governing contracts are prescribed in the Oregon Public Contracting Code, ORS Chapters 279A, 279B, and 279C. If the municipal corporation does not prepare the financial statements set forth in OAR 162-010-0050 through 162-010-0140, the contract must provide for the independent auditor to make a reasonable attempt to draft them for and on behalf of the municipal corporation.

They must compare estimated with actual revenues or receipts, transfers in, expenditures or disbursements, transfers out and ending balances on the basis of the legally adopted budget. If the municipal corporation has made appropriations in a manner which differs materially from the presentation of estimated expenditures in the budget document, a separate schedule must be included which compares actual expenditures/expenses with the legally adopted appropriations.

### Definitions

The following definitions describe terms within the context of their application to Municipal Audit Law.

**Review:** A review is a service, the objective of which is to obtain limited assurance that there are no material modifications that should be made to the financial statements in order for them to be in conformity with the applicable financial reporting framework. In a review engagement, the accountant should accumulate evidence to obtain a limited level of assurance. Financial statements prepared on the cash or modified cash basis of accounting are financial reporting frameworks (special purpose frameworks) other than GAAP and are permitted under municipal audit law.

### General Requirements

(1) All municipal corporations, as defined in ORS 297.405, are required to have their accounts and fiscal affairs audited annually, unless they are exempt from audit under ORS 297.435. The following administrative rules apply to review reports prepared under 297.435(3). Review reports must be prepared in accordance with Statements on Standards for Accounting and Review Services (SSARS), which contain professional requirements, together with related guidance, in the form of explanatory material. Accountants performing a compilation or review have a responsibility to consider the entire text of SSARS in carrying out their work on an engagement and in understanding and applying the professional requirements of the relevant Standards.

(2) The objective of a review differs significantly from the objective of an audit of financial statements in accordance with generally accepted auditing standards. The objective of an audit is to provide a reasonable basis for expressing opinions on the financial statements that collectively comprise the municipality's basic financial statements. A review does not contemplate obtaining an understanding of the entity's internal control; assessing fraud risk; testing accounting records by obtaining sufficient appropriate evidence through inspection, observation, confirmation, or the examination of source documents; or other procedures ordinarily performed during an audit. A review is designed to obtain limited assurance that there are no material modifications that should be made to the financial statements in order for the statements to be in conformity with GAAP or another financial reporting framework permitted by law.

(3) The accountant who performs a review of the financial statements of a municipal corporation must:

(a) Be licensed by the Oregon Board of Accountancy to conduct municipal audits;

(b) Personally perform the review in accordance with these rules to an extent satisfactory to the Secretary of State; and

(c) Prepare a report expressing limited assurance on the financial statements in accordance with these rules.

(4) Since the functions and forms of government, as well as the accounting, internal control, and management information systems, will vary greatly among municipal corporations, the accountant must be or become familiar with legal provisions applicable to a particular government. The accountant must also be familiar with the accounting principles considered to be generally acceptable for governments.

(5) Officials of the municipal corporation must account for all resources for which they are responsible. An appropriate accounting by officials of the municipal corporation will include financial statements,

notes to the financial statements, and the supplementary information required by these rules.

(6) Based upon the review, the accountant should ascertain whether the municipal corporation's accounts and records are maintained in a manner that will permit the preparation of financial statements that fairly present its financial position and results of operations in accordance with legal provisions, and in accordance with generally accepted accounting principles or other financial reporting framework permitted by law. The accounting principles contemplated are those contained in pronouncements of authoritative bodies including, but not necessarily limited to, the Financial Accounting Standards Board, the American Institute of Certified Public Accountants, and the Governmental Accounting Standards Board. If the municipal corporation does not prepare and present the financial statements specified in these rules, the accountant should make a reasonable attempt to draft them for the municipal corporation using its accounts and records. Whenever legal provisions conflict with generally accepted accounting principles or principles applicable to another comprehensive basis of accounting, the accountant shall disclose these conflicts and modify the review report if necessary.

(7) The accountant should establish an understanding of the industry in which the municipality operates, and whether operations have been carried out in accordance with appropriate legal provisions including federal and state laws, charter provisions, court orders, ordinances, resolutions, and rules and regulations issued by other governmental agencies. If significant deficiencies, material weaknesses, or other recommendations for improvements have been communicated in a separate letter to management or the governing body, the independent accountant shall file a copy of the letter with the Secretary of State within 30 days of delivering the report to the municipal corporation.

(8) The report shall include financial statements with appropriate notes, and the accountant's review report containing limited assurance on the financial statements. If the accountant becomes aware of a departure from GAAP or another financial reporting framework permitted by law that is material to the financial statements, the accountant should consider whether modification of the standard report is adequate to disclose the departure. The accountant's review report shall include the reporting elements prescribed by the Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

(9) The municipal corporation must file a copy of its report with the Secretary of State. The report and supporting documentation are subject to review by the Secretary of State for compliance with these rules. The Secretary of State may require the accountant to submit documentation covering the review engagement for purposes of this requirement.

(10) The accountant shall submit a summary of the revenues and expenditures of the municipal corporation within 30 days after delivering the review report. The summary shall encompass the period covered by the review and shall be prepared in a manner and on forms prescribed by the Secretary of State. One copy of the summary shall be delivered to the municipal corporation.

### Contracts

Laws governing contracts are prescribed in the Oregon Public Contracting Code, ORS Chapters 279A, 279B, and 279C. Reviews shall be performed in accordance with a contract executed by the municipal corporation. The contract should clearly establish the nature of the services to be performed and shall clearly set forth the scope of work to be conducted by the accountant. The contract should include a provision for the expression of limited assurance on the financial statements of the municipal corporation. It should also provide for the accountant to make a reasonable attempt to draft the financial statements for the municipal corporation if the municipal corporation has not prepared them.
