**HB 3428 – PUBLIC HEARING**

221

Sandy Thiele-Cirka

Administrator. Summarizes HB 3428.

231

Rep. Deborah Boone

House District 32. Testifies in support of HB 3428. Reads constituent concerns that caused her to draft the bill related to access to lab tests. Notes subsequent advice from others saying the length of time is not reasonable.

266

Rep. Anderson

Wonders if a doctor might need more time to prepare to discuss the results.

273

Rep. Boone

Recognizes that possibility. Believes the doctor could call the patient.

279

Rep. Anderson

Expresses concern the results would go to the patient automatically in the mean time. Comments seven days is too long, but one day is too short.

294

Catherine Otto

Oregon Association of Clinical Laboratory Science. Submits and reviews written testimony in support of HB 3428 (**exhibit e**). Offers suggested amendments to the bill.

353

Rep. Anderson

Questions if HIV can be detected by a blood test and whether it would fit into the category being discussed.

360	Otto	Confirms, yes, but HIV has a standard that would supersede this provision.
362	Rep. Greenlick	Questions Otto's definition of a clinical lab related to reporting on past pathology.
373	Otto	Confirms her understanding.
376	Rep. Greenlick	Relates histology and cancer tests would then be included.
389	Scott Gallant	Oregon Medical Association. Submits and reviews written testimony in opposition to HB 3428 as written ( <b>exhibit f</b> ). The Association supports patient access, but believes the bill as drafted, is not in compliance with the Health Insurance Portability and Accountability Act (HIPAA). Discusses criminal penalty associated with failure to meet the requirements of the bill. Supports the development of amendments. Reviews recommended changes.

**TAPE 116, A**

005	Gallant	Continues testimony. Mentions false positives and resulting subsequent testing.
026	Rep. Greenlick	Explains his opposition to Gallant's testimony related to his interpretation of the law.
040	Gallant	Confirms their counsel's interpretation of the law.
051	Rep. Greenlick	States the bill only changes the number of days. Inquires if anyone has been convicted of a class A misdemeanor thus far.
064	Gallant	Reviews statements in statute. Believes there has not been a conviction.
087	Rep. Butler	Questions whether some lab tests require longer periods of time before conclusions can be drawn.
090	Otto	Relates that is one of the reasons for eliminating the one-day request.
094	Rep. Cameron	Questions various aspects of requesting and receiving test results.

104	Otto	Relates the details were purposely not laid out so each lab could develop their own procedures.
118	Rep. Boone	Relates the requestor's desire and frustration with the "not sooner than seven days" provision. Notes language may need to be changed to say "as soon as possible."
133	Gallant	Emphasizes a patient could be misled by lab results into believing false positives, as a lab test definition is exceedingly broad.
