Northwest Vineyard Service, Inc. is a full-service vineyard management company operating in the Yamhill and Polk County region of Oregon's north Willamette Valley.

We have assembled a team of managers and assistant managers with over 100 years of combined experience in vineyard development and management.

NVS vineyard development services include site selection, analysis, planning, permitting and construction. We will assess your site and customize a development plan that matches your vision, your business goals, and your financial realities.

NVS vineyard management services include all aspects of vineyard operations and maintenance, resulting in the harvest and delivery of your fruit to a winery. As with our development services, we will address your goals through a custom farm plan tailored to fit your vineyard philosophy and your financial requirements.

The successful completion of each vineyard development and management plan is made possible by the NVS management team in combination with our skilled labor force.

Please tour this website where you can meet our team and learn more about the complexities of vineyard development and management.

We look forward to talking with you about your current or future vineyard projects.

Robert Bailey  
President  
Northwest Vineyard Service, Inc.
