INFORMATION ABOUT ADMINISTRATIVE RULES

General Information

The Administrative Rules Unit, Archives Division, Secretary of State publishes the Oregon *Administrative Rules Compilation* and the online *Oregon Bulletin*. The *Oregon Administrative Rules Compilation* is an annual print publication containing complete text of Oregon Administrative Rules (OARs) filed through November 15 of the previous year. The *Oregon Bulletin* is a monthly online supplement that contains rule text adopted or amended after publication of the print Compilation, as well as Notices of Proposed Rulemaking and Rulemaking Hearing. The Bulletin also includes certain non-OAR items when they are submitted, such as Executive Orders of the Governor, Opinions of the Attorney General and Department of Environmental Quality cleanup notices.

Background on Oregon Administrative Rules

ORS 183.310(9) defines “rule” as “any agency directive, standard, regulation or statement of general applicability that implements, interprets or prescribes law or policy, or describes the procedure or practice requirements of any agency.” Agencies may adopt, amend, repeal or renumber rules, permanently or temporarily (up to 180 days), using the procedures outlined in the *Oregon Attorney General’s Administrative Law Manual*. The Administrative Rules Unit assists agencies with the notification, filing and publication requirements of the administrative rulemaking process.

OAR Citations

Every Administrative Rule uses the same numbering sequence of a three-digit chapter number followed by a three-digit division number and a four-digit rule number (000-000-0000). For example, Oregon Administrative Rules, chapter 166, division 500, rule 0020 is cited as OAR 166-500-0020.

Understanding an Administrative Rule’s “History”

State agencies operate in an environment of ever-changing laws, public concerns and legislative mandates which necessitate ongoing rulemaking. To track changes to individual rules and organize the original rule documents for permanent retention, the Administrative Rules Unit maintains history lines for each rule, located at the end of the rule text. OAR histories contain the rule’s statutory authority, statutes implemented and dates of each authorized modification to the rule text. Changes are listed chronologically in abbreviated form, with the most recent change listed last. In the history line “OSA 4-1993, f. & cert. ef. 11-10-93,” for example, “OSA” is short for Oregon State Archives; “4-1993” indicates this was 4th administrative rule filing by the Archives in 1993; “f. & cert. ef. 11-10-93” means the rule was filed and certified effective on November 10, 1993.

Locating Current Versions of Administrative Rules

The online version of the OAR Compilation is updated on the first of each month to include all rule actions filed with the Administrative Rules Unit by the 15th of the previous month. The annual printed OAR Compilation volumes contain text for all rules filed through

November 15 of the previous year. Administrative Rules created or changed after publication in the print Compilation will appear in a subsequent edition of the online Bulletin. These are listed by rule number in the Bulletin’s OAR Revision Cumulative Index, which is updated monthly. The listings specify each rule’s effective date, rule-making action, and the issue of the Bulletin that contains the full text of the adopted or amended rule.

Locating Administrative Rule Publications

Printed volumes of the Compilation are deposited in Oregon’s Public Documents Depository Libraries listed in OAR 543-070-0000. Complete sets and individual volumes of the printed OAR Compilation may be ordered from the Administrative Rules Unit, Archives Division, 800 Summer Street NE, Salem, Oregon 97301, (503) 373-0701.

Filing Administrative Rules and Notices

All hearing and rulemaking notices, and permanent and temporary rules, are filed through the Administrative Rules Unit’s online filing system. To expedite the rulemaking process, agencies are encouraged to file a Notice of Proposed Rulemaking Hearing specifying hearing date, time and location, and to submit their filings early in the submission period. All notices and rules must be filed by the 15th of the month to be included in the next month’s Bulletin and OAR Compilation postings. Filings must contain the date stamp from the deadline day or earlier to be published the following month.

Administrative Rules Coordinators and Delegation of Signing Authority

Each agency that engages in rulemaking must appoint a rules coordinator and file an Appointment of Agency Rules Coordinator form with the Administrative Rules Unit. Agencies that delegate rule-making authority to an officer or employee within the agency must also file a Delegation of Rulemaking Authority form. It is the agency’s responsibility to monitor the rulemaking authority of selected employees and keep the forms updated. The Administrative Rules Unit does not verify agency signatures as part of the rulemaking process.

Publication Authority

The Oregon Bulletin is published pursuant to ORS 183.360(3). Copies of the original Administrative Orders may be obtained from the Archives Division, 800 Summer Street, Salem, Oregon, 97310; (503) 373-0701. The Archives Division charges for such copies.

The official copy of an Oregon Administrative Rule is contained in the Administrative Order filed at the Archives Division. Any discrepancies with the published version are satisfied in favor of the Administrative Order.

Pursuant to ORS 401.165, I find that a threat to life, safety, property, and significant damage to the state roads on the federal-aid highway system exists due to severe winter storms that have caused and continue to cause a natural disaster in the above-identified jurisdictions. Having begun on December 07, 2015, and continuing to the date of this Order, these severe storms are causing heavy rains, high winds, flooding, landslides, and erosion at various locations within these jurisdictions, resulting in critical transportation failures, loss of power and communications capabilities, and evacuations and sheltering needs. IT IS HEREBY DIRECTED AND ORDERED:

1. The Office of Emergency Management (OEM) shall activate the State's Emergency Operations Plan, and shall coordinate access to and use of personnel and equipment of all state agencies necessary to assess, alleviate, respond to, mitigate or recover from conditions caused by this emergency. OEM shall coordinate all essential protective measures in support of disaster areas identified above.

EXECUTIVE ORDER NO. 16 - 03

GOVERNOR'S COUNCIL ON EDUCATOR ADVANCEMENT

Every Oregon student deserves a caring, competent, and culturally responsive educator in the classroom. A diverse, well-supported educator workforce is critical to ensuring that every Oregon student graduates high school with a plan for his or her future.

High-quality preparation and ongoing, effective professional development and supports for teachers and school leaders translates into better student learning and higher achievement.

Educators want and deserve specialized professional learning and ongoing support, more than current levels of federal, state, and local systems are designed to deliver. And building an effective system of professional development and support requires us to empower, connect, and tap into the expertise of current classroom teachers and leaders across the state.

New, higher standards were established in 2011 to guide and evaluate the practices of effective teachers and school leaders in public schools throughout Oregon. In 2013, the Legislature redoubled our State's commitment to advance the education profession by actively investing in and supporting excellence in teaching and learning.

A dedicated appropriation was established by the Legislature to foster a statewide umbrella of support across professional development for teachers and school leaders, known as the *Network for Quality Teaching and Learning* ("Network"). Now in its third year of implementation, a re-examination of the *Network* structure, funding, metrics of success, and leverage of resources has become necessary to address these demands:

- Greater alignment across preparation, induction, and ongoing professional development.
- A more equitable and sustainable funding mechanism to distribute funds across both rural and urban school districts sensitive to local contexts and priorities.
- Leveraging of expertise of teachers and administrators — and resources of local, regional, non-profit, and philanthropic organizations — to maximize on-the-ground supports for Oregon educators.
- Centralized coordination and quality assurance with partner input across all *Network* projects and supports such as the *Oregon Educator Network*, *TELL Oregon Survey*, and *TeachInOregon website*.

EXECUTIVE ORDERS

- A systemic approach to continuously assess needs and coordinate future priorities for resources to support Oregon educators.
- A research consortium across education agencies and institutions to analyze and identify promising practices that explain improved teacher quality and student outcomes over time.

NOW THEREFORE, IT IS HEREBY DIRECTED AND ORDERED:

1. The Governor's Council on Educator Advancement ("Council") is hereby established.
2. The Council shall consist of fifteen (15) members appointed by the Governor including:
 - a. Six or more licensed/certified educators currently practicing in Oregon public schools;
 - b. Representatives from education institutions, non-profits, professional and philanthropic organizations with expertise in the direct provision and support of high-quality preparation and professional learning for teachers and administrators, including equity and cultural competency.
 - c. Representatives of the public at-large.
3. Additional members of the Council shall include:
 - a. One member of the Oregon State Senate designated by the Senate President;
 - b. One member of the Oregon House of Representatives designated by the Speaker of the House;
 - c. The Chief Education Officer;
 - d. The Deputy Superintendent of Public Instruction;
 - e. The Executive Director of the Teachers Standards and Practices Commission;
 - f. The Early Learning System Director.
4. The Governor shall appoint the chair of the Council, who shall provide leadership and direction of the Council. The chair shall establish an agenda, work plan, and timeline for the Council. The chair may appoint and approve the creation of subcommittees of the Council. The chair may, on behalf of the Governor, convene additional advisory committees for purposes of informing Council findings and recommendations.
5. The charge of the Council is to coordinate comprehensive support to deliver excellence in teaching and learning, and enhance Oregon's ability to elevate the educator profession and advance teacher and school leadership, including:
 - a. Enhancing a culture of leadership and collaborative responsibility for learning and advancing the profession of teaching;
 - b. Strengthening and enhancing existing evidence-based practices that improve student achievement;
 - c. Attracting and retaining capable and promising new teachers by offering sustained professional mentoring;
 - d. Retaining effective teachers by providing enhanced leadership opportunities;
 - e. Promoting collaboration by developing and supporting professional development opportunities for teachers in schools and districts to learn from each other;
- f. Building a more diverse educator workforce that mirrors Oregon's student demographics and supporting the development of culturally responsive educators; and
- g. Using data on teaching and learning conditions to determine the impact of *Network* and identify where changes, resources, and supports are most needed.
6. The Council shall develop recommendations for ensuring the open access and efficient delivery of professional learning to all Oregon educators by 1) leveraging the expertise of exemplary teachers and school leaders; and 2) streamlining resources, assistance, and support from federal, state, and non-profit partners.
7. Based on these goals, the Council shall develop a coherent, transparent, and accountable governance model for programs and practices outlined in ORS 342.950 (the *Network*) and the associated fund outlined in ORS 342.953 (the *Network for Quality Teaching and Learning Fund* ("Network Fund")), with a focus on fostering:
 - a. An integrated system of supports that spans the career of an educator;
 - b. A connected educator network that maximizes teacher voice and engagement and diminishes the impact of isolated programs;
 - c. A mechanism for analyzing and sharing of practices that improve student outcomes and improve teaching and learning conditions;
 - d. Sustainable funding for *Network* priorities that adapts to districts' local priorities for educator support, assures adherence to state benchmarks of best practice, minimizes disparities between rural and urban areas, and reduces reliance on competitive grant funding;
 - e. Common outcomes and coordination of reporting on impact across the *Network*; and
 - f. Innovation and responsiveness to the changing needs of educators.
8. A quorum for Council meetings shall consist of a majority of the appointed members.
9. The Council shall report written findings and recommendations to the Governor on or before September 1, 2016.
10. The Chief Education Office and Oregon Department of Education shall provide staff support to the Council. All other state agencies shall provide assistance to the Council upon request.
11. Council members are not entitled to reimbursement of expenses or per diem provided in ORS 292.495.
12. This Order shall remain in effect until recommendations of the Council are considered and acted upon by the Oregon Legislature, unless the Governor requests that the Council's work continue beyond that time.

EXECUTIVE ORDER NO. 16 - 04

DESIGNATING SEGMENTS OF THE CHETCO RIVER (CURRY COUNTY) AND MOLALLA RIVER (CLACKAMAS COUNTY) AS STATE SCENIC WATERWAYS AND DIRECTING SCENIC WATERWAY STUDIES TO USE A COLLABORATIVE PROCESS

Oregon is blessed with a diversity of river systems that richly contribute to our quality of life. Oregonians feel connected to our rivers and value their importance to our economies, communities, and ecosystems.

In 1970, the people of Oregon voted to establish the Oregon Scenic Waterways Act. This law protects the free-flowing character of designated rivers for fish, wildlife and recreation; protects and enhances scenic, cultural and natural values along scenic waterways; and establishes a process and criteria for adding new rivers to the scenic waterway system. The state Scenic Waterways system now includes approximately 1,150 miles on 19 rivers and Waldo Lake. No new Scenic Waterway has been designated since 1988.

Stewardship of our rivers is ever more important as the population along our rivers increases and a changing climate results in low snowpack levels, high temperatures, and significantly low streamflows. These changes impact recreation, fish and wildlife, and community and economic health.

Pursuant to the provisions of ORS 390.805 to 390.025, the Oregon Parks and Recreation Department (OPRD) undertook studies of the Chetco, Molalla and Grande Ronde rivers. OPRD consulted with the Oregon Water Resources Department and other state agencies, requested input from local governments, landowners and other interested parties, and conducted hearings in the counties in which those rivers are located.

At the conclusion of its process, OPRD identified segments of the Chetco and Molalla Rivers as meeting Scenic Waterways Act criteria and described those segments in the OPRD Scenic Waterway Qualification Reports (Scenic Waterway Reports) which were approved by the Parks and Recreation Commission in April 2015. OPRD received concurrence in its identifications from the Water Resources Commission in November 2015, and these identifications were submitted to me on December 28, 2015.

I wish to ensure that the outstanding scenic, fish, wildlife, geological, botanical, cultural, and outdoor recreational values of special Oregon rivers are conserved for Oregonians today and in the future through a collaborative process that includes tribal governments, local governments, state and federal agencies, landowners, conservation organizations, recreation organizations, agriculture interests, forestry interests, and businesses.

NOW THEREFORE, IT IS HEREBY DIRECTED AND ORDERED:

1. Consistent with the recommendations of the Oregon Parks and Recreation Commission, and with the concurrence of the Oregon Water Resources Commission, I hereby designate the segments of the Chetco River and Molalla River and related adjacent land described in the Scenic Waterway Reports as Oregon State Scenic Waterways subject to the provisions of ORS 390.805 to 390.925.
2. In undertaking future scenic waterway qualification studies including scenic waterway flows, OPRD and the Oregon Water Resources Department will utilize a collaborative process that includes tribal governments, local governments, landowners, and conservation, recreation, river use, agriculture, forestry, and

business organizations, in addition to the statutorily required consultation with state agencies under ORS 390.855.

This Executive Order shall remain in effect until it is otherwise modified, amended or terminated.

EXECUTIVE ORDER NO. 16 - 05

OREGON SMALL BUSINESS ADVISORY CABINET

In 2015, more than 40,000 new jobs were added in Oregon, growth that is a full percentage point higher than the national average. The continued development of Oregon's businesses is a key to sustaining this level of growth. Seventy percent of new jobs are created when existing Oregon businesses expand; state government adds value to the overall economic enterprise when it bolsters the services available to small business owners and emerging entrepreneurs, thus fostering growth.

For the expenditures of state resources to be effective, they must reflect the ever-changing landscape of entrepreneurship in Oregon. Addressing the needs of traditionally underserved communities and geographically remote areas is imperative to laying the groundwork for a strong economy for future generations.

It is essential that Oregon's entrepreneurial and small business communities be engaged when decisions are made by the state government on how to improve services and maintain job growth statewide.

NOW THEREFORE, IT IS HEREBY ORDERED AND DIRECTED:

1. The Oregon Small Business Advisory Cabinet (the "Cabinet") is established.
2. The Cabinet consists of small business owners, state government officials, and representatives of the financial community appointed by the Governor.
3. The Cabinet shall develop recommendations on three priorities:
 - a. How state government can further the support and promotion of small business owners and prospective entrepreneurs.
 - b. How state government can increase access to capital.
 - c. How state government can streamline regulations to help small business owners and prospective entrepreneurs navigate the myriad laws and policies of state government.
4. The Cabinet will meet every other month beginning in March 2016.
5. The Cabinet will deliver recommendations to the Governor by October 1, 2016.
6. Work on projects or special assignments at the request of the Governor's Office.

EXECUTIVE ORDERS

7. Cabinet members shall receive no compensation for their services, or reimbursement for their expenses incurred in the performance of their duties.

8. This Order shall expire on October 31, 2016.

EXECUTIVE ORDER NO. 16 - 06

PUBLIC RECORDS

Upon assuming the office of Governor in February 2015, I offered a package of bills to the Legislative Assembly relating to ethics and governmental accountability. A key component of that package was Senate Bill 9, which mandated that an audit be conducted of state agencies' responses to public records requests with respect to issues of cost, timeliness and procedures. The Legislature approved Senate Bill 9 and I signed it into law on June 15, 2015.

The Secretary of State's Audits Division has conducted the audit required by Senate Bill 9, and on November, 2015, released the audit results in a document entitled "State Agencies Respond Well to Routine Public Records Requests, but Struggle with Complex Requests and Emerging Technologies." (The audit and the audit results are hereinafter referred to collectively as the "Audit.") The Audit examined a sampling of large, medium and small agencies and found that for the most part Oregon state agencies handle routine requests well and struggle with complex requests.

The Audit also revealed other issues that affect agencies' ability to respond to requests such as retention policies, changing technologies and fee structures.

The Audit included specific recommendations, including a recommendation that the Oregon Department of Administrative Services ("DAS") create standardized rates for copying and standardized rates for employee labor among state agencies in order to resolve some of the inconsistency in public records requests fees statewide.

The Audit further recommended that DAS be empowered to provide guidance to agencies regarding communication technologies as they relate to public records.

The Audit found, further, that the variation in responses to public records requests is due, at least in part, to a lack of statewide policies and guidelines with regard to record types created by emergent technology, a standardized fee structure, and automated processes and procedures that make records retention arduous and subjective.

It is also clear that as a result of the rise of modern communications technology, the volume of records subject to search and potential legal review significantly impacts the ability for an agency to respond in a timely manner and causes concern and mistrust to grow in the public's view.

The purpose of the Government of the State of Oregon is to serve the people of Oregon. State government must therefore be open and transparent. All Oregonians deserve full and complete information regarding the affairs of government and the official acts of those who represent them as public officials and employees.

NOW THEREFORE, IT IS HEREBY DIRECTED AND ORDERED:

1. DAS shall develop and promote model public records management policies, approved by the State Archivist, for use by executive branch agencies no later than June 30, 2016. All state agencies shall comply with ORS 192.018 within 90 days of DAS' promotion of model policies by either adopting the DAS policy or modifying it to meet agency-specific records management needs.

2. DAS shall improve accessibility and government transparency by fully implementing all of the recommendations outlined in the SOS audit, which are incorporated herein. DAS shall work with and report to the Governor's office in the implementation of the audit recommendations. This work shall begin immediately. The recommendations that shall be fully implemented include, but are not limited to:

a. Streamlining and standardizing state agency processes and procedures regarding responses to public records requests;

b. Working with state agencies to develop a standard protocol for tracking public records requests, and documentation related to each request;

c. Developing uniform statewide standards and guidelines on agency fee structures or charging policies; and

d. Working with agencies to develop streamlined management processes, administrative rules, and statewide policy guidance regarding internal processes and procedures for records retention and management.

3. This Order shall remain in effect until it is otherwise modified, amended or terminated.

PUBLIC NOTICE

PROPOSED PROSPECTIVE PURCHASER AGREEMENT FOR FORMER GAS STATION

COMMENTS DUE: 5 p.m., Wednesday March 2, 2016

PROJECT LOCATION: 6115 NW St. Helens Road, Portland, Oregon

PROPOSAL: The Department of Environmental Quality seeks comments on its proposed consent order for a prospective purchaser agreement with GBR Partnership, referred to as GBR, concerning the acquisition of a former gas station site located at 6115 NW St. Helens Road in Portland. The project is a joint venture between GBR and Environmental Compliance Consultants, Inc, an environmental consulting and waste management company known as ECC. GBR plans to acquire the property and ECC will decommission the existing underground storage tank system. ECC will use the property as an EPA-approved waste transfer facility.

HIGHLIGHTS: The property was developed as a gasoline station before 1960. In October 1989, 1950s-era underground storage tanks containing gasoline, diesel and marine fuel were decommissioned, removed from the property and replaced. During the decommissioning, evidence of petroleum hydrocarbon contamination in soil and groundwater near the former underground storage tank pit and dispenser island was observed. Monitoring wells were installed at the property as early as April 1990. Remedial actions historically performed at the property included soil removal in 1989 and soil vapor extraction from 1993 to at least 1997. Groundwater monitoring at the property was suspended in June 2001. During the last groundwater monitoring, benzene was detected in groundwater at a maximum concentration of 15,000 parts-per-billion. The property was vacated after June 2001 and has remained vacant.

In June 2015, soil-gas and groundwater samples were collected from the property to facilitate discussions with DEQ concerning a possible prospective purchaser agreement. Five of nine monitoring wells historically installed in the vicinity of the property were located. Three of the identified monitoring wells were re-developed and sampled. The June 2015 groundwater samples contained significantly lower concentrations of benzene and related volatile organic compounds than samples collected in June 2001. In addition, soil-gas samples collected from the building did not reveal volatile organic compounds at concentrations posing vapor intrusion risks to future occupants.

DEQ proposes to enter into a consent order with GBR, the prospective purchaser. Under the terms of the consent order, GBR agrees to decommission the underground storage tank system and remove up to 50 tons contaminated soil, if encountered. If soil containing petroleum hydrocarbons or volatile organic compounds at levels exceeding occupational worker Risk-Based Concentrations for the vapor intrusion pathway remains following removal, GBR is required to execute and record an institutional control requiring vapor mitigation controls on future buildings. In addition, the consent order requires GBR to develop and survey two monitoring wells if found to be usable, perform four quarters of groundwater monitoring and decommission the monitoring wells when authorized by DEQ. GBR also will be required to prepare a contaminated media management plan.

Due to a delay in the proposed property transaction, the consent order with GBR expired on Dec. 31, 2015. DEQ is opening an additional comment period to extend the deadline for the property transaction in the prospective purchaser agreement to Sept. 30, 2016. The scope of work for the prospective purchaser agreement remains unchanged from the original proposal.

DEQ created the prospective purchaser agreement program in 1995 through amendments to the state's Environmental Cleanup Law. The prospective purchaser agreement is a tool that expedites the cleanup of contaminated property and encourages property transactions that would otherwise not likely occur because of the liabilities associated with purchasing a contaminated site.

The proposed consent order will provide GBR with a release from liability for claims by the State of Oregon under ORS 465.200 to 465.545 and 465.990, 466.640, and 468B.310 regarding existing haz-

ardous substance releases at or from the property. The proposed consent order will also provide GBR with third party liability protection. **HOW TO COMMENT:** Send comments to DEQ Project Manager Jeff K. REQUEST FOR COMMENTS

PROPOSED PROSPECTIVE PURCHASER AGREEMENT FOR FORMER REYNOLDS METALS COMPANY SITE

COMMENTS DUE: 5 p.m., Wednesday, March 2, 2016

PROJECT LOCATION: 5100 NW Sundial Road, Troutdale, Oregon

PROPOSAL: The Department of Environmental Quality seeks comments on its proposed Stipulated Supplemental Judgment with the City of Troutdale to update the parties' existing Stipulated General Judgment relating to property within or near the former Reynolds Metals Company site, which has undergone extensive cleanup since it was listed as a Superfund site in 1994.

The update:

- Expands the scope of liability release from the release allowed by the original 1995 statute (ORS 465) to also include protections afforded by statutory amendments passed in 2011 (ORS 466 and 468B); and

- Adds to the agreement additional public improvements as contemplated and/or authorized by the original agreement.

DEQ created the prospective purchaser agreement program in 1995 through amendments to the state's Environmental Cleanup Law. The prospective purchaser agreement is a tool that expedites the cleanup of contaminated property and encourages property transactions that would otherwise not likely occur because of the liabilities associated with purchasing a contaminated site.

The proposed Stipulated Supplemental Judgment will expand the City of Troutdale's release from liability for claims by the State of Oregon under ORS 465.200 to 465.545 and 465.990, 466.640, and 468B.310 regarding existing hazardous substance releases at or from the property. The proposed judgment will also expand the City of Troutdale's third party liability protection.

NOTICE OF CONSENT ORDER NOTICE OF CONSENT ORDER WITH N. COLUMBIA BLVD., LLC

PROJECT LOCATION: 1601 North Columbia Boulevard, Portland, Oregon 97217

NOTICE: The Department of Environmental Quality has issued a consent order to implement cleanup actions at the property. In 2010, DEQ selected remedial actions and received public comments on them. The property is under new ownership and the consent order establishes an agreement between DEQ and N. Columbia Blvd., LLC to implement the remedy described in the record of decision for the property.

SITE DESCRIPTION: The property is an approximately 19-acre industrial site and is bordered to the north by the Columbia Slough, to the northeast by a ramp to Interstate 5, to the south by Old Columbia Boulevard and the Union Pacific Railroad line, and to the west by an open ravine. The site has been used for industrial purposes since approximately 1950. A former tenant sieved and reprocessed sand, some of which was used as fill in the early 1990's. In March 2015, N. Columbia Blvd., LLC, acquired the property and is now the site owner. As a result of historic activities, site soils and stormwater have been impacted by contaminants, principally metals including lead and chromium.

Metals in sandblast grit are present in fill areas in the northern portion of the site. Soil sampling in the western vegetated area indicated elevated concentrations of some metals, and stormwater and catch basin sediment have been impacted by contaminants in various sampling events.

CURRENT ACTIVITIES: N. Columbia Blvd., LLC will carry out the primary components of the record of decision for the property are:

- Containment and isolation of contaminants in soil through engineering controls
- Erosion control on the Columbia Slough bank
- Controlling contaminants from entrainment in the stormwater system
- Institutional Controls

PUBLIC NOTICE OF A RECOMMENDATION OF CONDITIONAL NO FURTHER ACTION FOR THE WILLAMETTE INDUSTRIES SAGINAW MILL PROPERTY, LOCATED AT 32941 EAST SAGINAW ROAD, SAGINAW, OREGON

Oregon Department of Environmental Quality (DEQ) is giving public notice of a proposed Conditional No Further Action determination for the cleanup of soil contamination at the Willamette Industries Saginaw Mill property located at 32941 East Saginaw Road, Saginaw, Oregon. In the January 28, 2016 Staff Report, DEQ recommended a Conditional No Further Action determination for the site.

Contamination in soil and groundwater at the site resulted from historic past practices at the facility involving lumber milling and manufacturing, the storage of petroleum hydrocarbons, and handling of waste wood ash.

Recent interim removal actions have been completed to address areas of impact that required remediation and to address upland sources that could cause future impact to the Coast Fork Willamette River through overland transport or from discharge from the existing storm sewer catch basins and infrastructure.

In September 2012, approximately 16 tons of petroleum contaminated soil was removed from two locations at the site. Soil excavated from this area was profiled and disposed of at the Short Mountain Landfill near Eugene, Oregon in November 2012.

The storm drain catch basins and pipelines at the site were cleaned, pressure-washed, and flushed in September 2013. The catch basin contents were removed with a vacuum truck. Over 3,700 gallons of the catch basin solids, drain pipeline cleaning wastes, and water wastes were appropriately disposed. In addition, 281 tons of ash were removed from the ash pile in September 2013 and taken to a permitted landfill for appropriate disposal.

A site-specific risk assessment using conservative exposure assumptions along with the limited extent of impacts to sediments was done. It showed that consumption of fish from the segment of the river likely will not pose an unacceptable risk.

Given these findings and conclusions, DEQ recommends a conditional no further action for this site conditioned upon establishment of an easement and equitable servitudes which will require the use of a contaminated media management plan to address potential future risks to occupational workers from exposure to limited areas of the soils and groundwater impacts.

If you have any comments about the proposed Conditional No Further Action determination, please send them to Norman Read no later than 5 p.m., March 1, 2015 at DEQ, 165 E. 7th Avenue, Suite 100, Eugene, OR 97401. You can also email Norman Read at read.norm@deq.state.or.us.

To access DEQ's draft Conditional No Further Action Memo and other documents in the DEQ Environmental Cleanup Site Information database, go to: www.deq.state.or.us/lq/ECSI/ecsi.htm then enter "1874" in the Site ID box and click "Submit" at the bottom of the page. Next, click the link labeled "1874" in the Site ID/Info column. To review the project file in person, call the Eugene DEQ Reception at (541) 686-7838 for a file review appointment. All comments will be addressed and considered before DEQ makes its final decision to formalize the Conditional No Further Action status for the site.

Notices of Proposed Rulemaking and Proposed Rulemaking Hearings

The following agencies provide Notice of Proposed Rulemaking to offer interested parties reasonable opportunity to submit data or views on proposed rulemaking activity. To expedite the rulemaking process, many agencies have set the time and place for a hearing in the notice. Copies of rulemaking materials may be obtained from the Rules Coordinator at the address and telephone number indicated.

Public comment may be submitted in writing directly to an agency or presented orally at the rulemaking hearing. Written comment must be submitted to an agency by 5:00 p.m. on the Last Day for Comment listed, unless a different time of day is specified. Oral comments may be submitted at the appropriate time during a rulemaking hearing as outlined in OAR 137-001-0030.

Agencies must receive requests for a public rulemaking hearing in writing within 21 days following notice publication in the Oregon Bulletin or 28 days from the date notice was sent to people on the agency mailing list, whichever is later. If sufficient hearing requests are received by an agency, notice of the date and time of the rulemaking hearing must be published in the Oregon Bulletin at least 14 days before the hearing.

The changes are necessary to reflect statutory changes made in 2013 and 2015 related to enterprise risk reporting and holding companies. The forms were updated in a temporary rule to allow insurers to submit requisite documents on the correct forms. This rulemaking will change the language of the rule to allow the division to make changes to the rules without rulemaking. Rather than being an exhibit to the rule, the forms will be available on the DCBS website at the Division of Financial Regulation webpage. - Replace the mileage reimbursement rate payable to interpreters, currently \$0.50 per mile, with the private vehicle mileage rate published in Bulletin 112; and

- Clarify that, in the matrix for health care provider types, when a provider is not, or is no longer, eligible to provide treatment as a Type B attending physician, if care is provided because it is authorized by an attending physician, physician assistants are not required to have a written treatment plan.

The agency proposes to amend OAR 436-010, "Medical Services," to:

- Require that requests for reconsideration of administrative orders be received by the director before the order becomes final;

- Replace the requirement for an insurer to forward a copy of an independent medical exam report to the attending physician or authorized nurse practitioner within 72 hours of its receipt of the report with a requirement to do so within three days; and

Summary: The proposed rules for the Biomass Producer or Collector Tax Credit program increase the application fee from \$100 plus 2.5 percent of the tax credit amount to \$100 plus 3.8 percent of the tax credit amount for tax years beginning on or after January 1, 2016. The proposed fee increase was explained and included in the Oregon Department of Energy's budget approved by the legislature as part of the 2015-2017 budget process. ORS 315.141(5)(b) directs the department to collect a fee not to exceed the cost to the department of determining the amount of certified cost. Currently, the department is not collecting fees sufficient to recover the actual cost of the program. The department plans to file the rules at the end of February, 2016, before it expects to receive applications for the 2016 tax year.

Summary: The proposed rules for the Energy Incentives Program (EIP) energy conservation tax credit implement changes provided in Oregon Laws 2015, chapter 545 (HB 2448). HB 2448 and the proposed rules make modifications to the EIP energy conservation tax credit program that allow ODOE to require performance agreements as part of the final certification process and to require in a performance agreement that energy conservation projects with \$1 million or more in certified total project costs annually recertify the tax credit.

The proposed rules provide that these performance agreements may include project requirements for operations, energy savings, timeframes, and performance. The proposed rules also provide the criteria that ODOE will use to evaluate EIP conservation projects below the \$1 million threshold for possible performance agreements when project owners apply for final certification.

HB 2448 authorizes ODOE to require performance agreements for energy conservation projects with \$1 million or more in certified total project costs to include a requirement to annually recertify the tax credit three times. The proposed rules provide the timeline, requirements, application process, and review process for recertifying the tax credit. This process will provide project owners with a five-year tax credit in portions over the five year period. The overall total amount of the tax credit remains the same, provided the project owner successfully completes each recertification. The change in law also creates a \$750 fee to cover costs associated with tax credit recertification; this fee is collected at each recertification.

The department plans for the rules to be effective upon filing and apply to applications for final certification under ORS 469B.291 submitted on or after September 1, 2015, and to tax years beginning on or after January 1, 2015. The department requests public comment on these draft rules. Last Date for Comment: 2-22-16, 4 p.m.

Summary: DEQ proposes rules to increase Title V operating permit fees by the change in the consumer price index (CPI) as authorized by federal and state law. The proposed fee increases are necessary for DEQ to provide essential services associated with Oregon's Title V permitting program.

The proposed rules would increase the fees in two phases. This approach would save administrative costs by holding a single public notice and comment period for the two rulemakings.

Phase one: DEQ will propose the phase one rules at the commission's meeting in June 2016. The proposed fee increase effective for the 2016 invoice year is 0.45 percent based on the Bureau of Labor Statistics September 2015 consumer price index for the period of September 2014 to August 2015. DEQ would apply this CPI increase to permit fees on the invoices DEQ will issue in August 2016 for annual emissions during 2015 and the operating period Nov. 15, 2016 to Nov. 14, 2017.

Phase two: DEQ will propose the phase two rules at a commission meeting between December 2016 and May 2017. The proposed fee increase effective for the 2017 invoice year is 0.45 percent based on the Bureau of Labor Statistics September 2016 consumer price index for the period September 2015 to August 2016. This is an estimate identical to the 2016 increase. DEQ would apply this CPI increase to permit fees on the invoices DEQ will issue in August 2016 for annual emissions during 2016 and the operating period Nov. 15, 2017 to Nov. 14, 2018.

Summary: These proposed rules: 1) Amend the number of limited entry permits in the sea urchin fishery from 30 permits to 12 permits; 2) Adopt new rules to disallow use of enriched air; and 3) Adopt new rules to incorporate California sea cucumbers into the permit. These modifications will increase long-term sustainability of the sea urchin fishery. In particular, the proposed rules will: 1) Reduce the total harvest potential of the fleet to better match productivity of the resource; 2) Increase the investment of active fishers by a reduction in the number of new permits allocated through a lottery; 3) Maintain the status quo in gear use which will help preserve the deep water populations that are important to productivity and the fishery; and 4) Incorporate permitting for commercial harvest of California sea cucumbers (which typically involves only sea urchin harvesters) into the limited entry system for sea urchins.

Summary: OAR 461-125-0370 about disability as the basis of need is being amended to state that an individual may request free assistance with Social Security disability applications and administrative appeals from the Department when the individual meets the requirements listed below. This will assist these individuals in meeting the requirement to pursue assets under OAR 410-200-0220 and makes permanent temporary changes adopted on October 5, 2015. To qualify for free assistance, the individual must be:

- Determined to have a disability under OAR 461-125-0370(1)(c);
- Receiving benefits from one of the OCCS Medical Programs (see OAR 461-001-0000);
- Receiving SNAP benefits; and

(Additional offices may be added when the permanent rule is adopted.)

To align with changes to the State Medicaid Plan, the Department of Human Services is changing the start date for some APD assistance programs as described below. These changes were effective December 1, 2015, and make permanent temporary rules adopted on December 15, 2015.

Currently OSIPM is not effective until the effective date for long-term care.

- OAR 461-180-0010 about the effective dates for adding a new person to an open case is being amended to state that the date benefits are requested for the individual establishes a date of request (DOR) for the individual and that the effective dates for OSIPM and General Assistance Medical (GAM) eligibility are determined in accordance with OAR 461-180-0090. Currently eligibility is effective on the DOR if all eligibility requirements are met on the DOR, and if they are not eligible on the DOR, eligibility is effective on the date that all eligibility requirements are met.

- OAR 461-180-0090 about the effective date for initial month medical benefits is being amended to state that GAM, OSIPM, and Qualified Medicare Beneficiary Disabled Worker (QMB-DW) medical benefits are effective on the first day of the month that includes the DOR if the individual is eligible on the DOR. If the individual is not eligible on the DOR, but meets all eligibility requirements within the application processing time frames of OAR 461-115-0190, eligibility is effective on the first day of the month that includes the date that all eligibility requirements are met. Limitations and exceptions to this change are included for certain residents of public institutions and state psychiatric institutions, inmates (including inmates with suspended benefits), and individuals moving to Oregon from another state. Currently eligibility is effective on the DOR if all eligibility requirements are met on the DOR, and if all eligibility requirements are not met on the DOR, eligibility is effective on the date that all eligibility requirements are met.

- OAR 461-180-0140 about the effective dates for retroactive medical benefits is being amended to state that for OSIPM the earliest date of eligibility for retroactive medical is the first day of the third month before the month that includes the DOR. NOTICES OF PROPOSED RULEMAKING

Last Date for Comment: 2-26-16, 5 p.m.

Summary: OAR 461-115-0016 about the ERDC application process and reservation list is being amended to permanently adopt a temporary rule that went into effect on January 1, 2016. The change exempts participants in the Early Head Start Child Care Partnership provider sites contracted with the Department from the ERDC reservation list. The ERDC reservation list is used to keep the ERDC case-load within the legislatively mandated cap. The list was activated on January 4, 2016.

OAR 461-150-0090 about prospective budgeting and annualizing and prorating contracted or self-employment income is being amended to clarify that the section regarding how to determine countable income when past contract or self-employment income is not representative of future income does not apply to the ERDC program.

OAR 461-155-0150 about child care eligibility standard, payment rates, and copayments is being amended to implement rate increases negotiated between the Department and child care providers and child care centers and funded in HB 5026 (Oregon Laws 2015, chapter 760). See amended rule text to see specific rate changes based on location of the provider, age of the child, and type of billing. This makes permanent a temporary rule adopted on January 1, 2016. This rule is also amended to implement incentive payments for providers who achieve a three star or higher rating with the Quality Rating Improvement System (QRIS). The payment for three, four, and five star ratings is \$54, \$72, or \$90 respectively.

In addition, non-substantive edits may be made to: ensure consistent terminology throughout self-sufficiency program rules and policies; make general updates consistent with current Department practices; update statutory and rule references; correct formatting and punctuation; remove unnecessary language; improve ease of reading; and clarify Department rules and processes.

Summary: ORS 367.800 et seq., established the “Oregon Innovative Partnerships Program,” to develop partnerships with private entities or units of local government for expedited project delivery and innovation in transportation projects. These rule revisions have been proposed to reflect how ODOT has administered the program and make certain technical clarifications intended to streamline the proposal process including:

- Elimination of the “Conceptual Proposal” step in favor having only “Detailed proposals.” ODOT’s experience showed that Conceptual proposals did not contain sufficient information to substantiate or refute the proposer’s claims.

- In recognition of ODOT’s preference for soliciting proposals for transportation projects rather than accepting unsolicited proposals, the “Solicitation of Proposals for OIPP Projects” section is moved in front of the Unsolicited Proposal section to add clarity for the reader.

- Streamline certain technical sections by referencing other ODOT policies and procedures rather than including unnecessary detail in these rules.

- Clarify ODOT’s authority to negotiate with proposers; and
- Increase fees for “Detailed” unsolicited proposals to better reflect the actual cost of processing and evaluating these proposals.

Proposed Amendments: 715-045-0007

Last Date for Comment: 2-24-16, 5 p.m.

Summary: The Higher Education Coordinating Commission (Commission) is proposing to adopt fees in rule because current fees are scheduled to sunset in statute effective July, 2015. The proposed rule change in OAR 715-045-0007 would not increase the fees but adopt the existing fees in rule. The Oregon Department of Education, where the Private Career Schools unit was previously housed, was given 2 years in statute to adopt the fee schedule in rule assuming during the two years no suggested revisions were proposed. Now under the authority of the Commission, the PCS unit needs to have the fees adopted in rule prior to their scheduled sunset.

Proposed Amendments: 715-045-0001, 715-045-0012

Last Date for Comment: 2-24-16, 5 p.m.

Summary: The Commission is proposing to amend 715-045-0012(9), 715-045-0012(11)(e), 715-045-0012(13)(a), and 715-045-0012(13)(a)(C)(c) to make non-substantive changes. The Commission is proposing to amend 715-045-0012(3)(b) and 715-045-0012(3)(c) to clarify language and define current practices in rule.

The Commission is proposing to amend 715-045-0012 (3) (d) (A) to increase flexibility for career school teachers by allowing a combination of two years of work experience, two years of education, or any combination of both in the subject that they instruct. The Commission is proposing to amend 715-045-0012(3)(d)(B) to require that new teachers work experience must have been within the last five years. This rule now allows the Executive Director to grant a waiver if the teacher does not meet the requirement. The Commission is proposing to amend 715-045-0012(3)(d)(C) to require that If a credential or qualifying examination is required for employment in the field, then the two years of experience must include one year of work experience as a certified practitioner in the subject in which they instruct. The Commission is proposing to amend 715-045-0012(3)(d)(D) to allow the Executive Director to grant a waiver from the requirements written above upon receipt of a written request from the school in limited circumstances. This rule allows the Executive Director to grant a waiver. In previous years the language allowed the Commission to grant a waiver. We are bringing back the flexibility to support schools, in industries or schools that are located in remote areas of the state. The Commission is proposing to amend 715-045-0012(3)(f) to develop adequate work experience requirements for specific industries in collaboration with specific licensing agencies instead of having to issue multiple waivers. The Commission is proposing to amend 715-045-0012(4) to remove the restriction on product representatives and allows more flexibility in enrichment. The Commission is proposing to amend 715-045-0012(5)(b) to require career schools indicate the state and end date of substitute teachers. The Commission is proposing to amend 715-045-0012(7)(c) the continuing education requirement to no longer require commission approval. In order to remove this requirement, the Commission is proposing to amend 715-045-0001 to remove the Commission approval requirement in the definition.

The State of Oregon will often experience critical fire dangers which result in evacuations and threatens critical infrastructure and physical structures. In 2015, the Authority received a request to expedite limited license reciprocity for out-of-state EMS providers in order to address these critical fire dangers. In response, a temporary rule (OAR 333-265-0055) was adopted that expires on February 16, 2016. This rulemaking will replace those temporary changes permanently.

Last Date for Comment: 3-1-16, 5 p.m.

Summary: PERS disability eligibility standards require a member be totally disabled and unable to perform any work for which qualified. When an individual receives unemployment benefits, they certify each week that they are able to work and are actively seeking work. For a member who is receiving unemployment benefits and applies for disability, this weekly certification for unemployment benefits is in direct contrast to the disability requirement that the member be totally disabled and unable to perform any work for which qualified.

The rule modifications incorporate the recent decision in the Drake case, in which the Court of Appeals upheld the PERS Board's Final Order that the member was not eligible for a disability retirement while receiving unemployment benefits for two years. The amendments establish that a member's receipt of unemployment benefits is substantial evidence that the member is not disabled. PERS will still perform a full medical review in making a final determination on disability eligibility. PERS will also be working with the Employment Department in the event a member is determined to be totally disabled and continues to receive unemployment benefits.

Medical records will continue to be collected for disability claims and ongoing disability reviews regardless of unemployment benefit payment findings.

Summary: A reservation of water for future economic development sets aside a quantity of water for storage to meet future needs. The existing OAR 690, Division 079 rules, which outline procedures to establish and extend reservations, have not been updated since the statutes governing reservations were amended in 1995 and 1997. As a result, the Division 079 rules are not consistent with changes in

NOTICES OF PROPOSED RULEMAKING

statute. A number of reservations are set to expire over the next few years; therefore, these Division 079 rules are intended to clarify the information requirements and process the Department will follow in considering requests to extend reservations.

Summary: OAR Chapter 690, Division 512 is the Malheur Lake Basin Program. In general, a Basin Program describes how water may be used in major river and lake basins and their tributaries. The Malheur Lake Basin Program currently describes that new uses may

only be established if water is available unless the use is for an instream right, permit to store water between March 1 and May 31, use of stored water, and multi-purpose storage projects authorized under OAR 690-512-0100. The Malheur Lake Basin Program also reserves water for future economic development in the Home Creek sub-basin.

Current data, comprising substantial evidence, indicate that groundwater levels are declining in areas of the Greater Harney Valley Groundwater Area of Concern. Additional allocation of groundwater within this area may exacerbate these declines. A comparison between estimated annual recharge and previously allocated groundwater volumes indicates that groundwater is fully allocated in some areas of the basin. The Department is proposing to establish the Greater Harney Valley Groundwater Area of Concern in part of the Malheur Lake Basin, which will allow some pending applications to be approved if offset water can be provided, and limit future applications from being approved while a groundwater study is completed. Exempt uses will not be limited.

The Department is also proposing to repeal OAR 690-512-0040, which describes how water availability is determined for new surface water and groundwater uses. The process described in this rule is obsolete and has been replaced by a water availability model. The determination of water availability is made consistent with OAR Chapter 690, Division 310 using the definition of "water is available" under OAR-690-300-010.

service agreement is only allowed by a pharmacy located in Oregon for a practitioner or dispenser located in Oregon for outlets and practitioners located in Oregon. These amendments are primarily related to Oregon 2015 House Bill 2028.

The division 19 Pharmacist rules establish definitions for clinical pharmacy agreements and practice of clinical pharmacy. Amendments also define the type of activities that require the professional judgment of a pharmacist. Other amendments allow a pharmacist to authorize an intern to perform the duties of a pharmacist under their direction and supervision, after the intern successfully completes his or her first academic year and only after successful completion of coursework corresponding to the specific duties. An intern may not perform final verification. State Drug Therapy Management Protocol rules are proposed for adoption. Rules are related to Oregon 2015 House Bill 2028.

Amendments in the division 19 Pharmacist rules allow a pharmacist to administer vaccines to persons who are at least seven years of age. Amendments also allow a pharmacist to prescribe immunizations, including oral vaccines, as established by written protocols approved by the Oregon Health Authority. These amendments are related to 2015 Senate Bill 520.

Amendments in the division 25 Certified Oregon Pharmacy Technician rules clarify in rule that newly licensed Certified Oregon Pharmacy Technicians do not need to complete the annual continuing education requirements prior to their first renewal. This Certificate and Order for Filing makes the current temporary rule permanent.

Amendments in the division 43 Practitioner Dispensing Rules establish a waiver clause in the Drug Delivery and Control rules. The waiver clause allows for requests for exemption of certain requirements if the waived requirements will further public health and safety. This Certificate and Order for Filing makes the current temporary rule permanent.

Amendments in the division 62 Drug Distribution Agent rules update record keeping requirements. They also identify the information that a Drug Distribution Agent who distributes product to a Wholesaler or Pharmacy must contain in their records. Amendments also reflect that a pedigree must be maintained if a Drug Distribution Agent distributes product to another Drug Distribution Agent. This Certificate and Order for Filing makes the current temporary rule permanent.

Division 90 Aerosol Sprays rules are repealed. This is because all fluorocarbon aerosol sprays which contain a medication are no longer manufactured in the United States. The rules were established in 1977 as an exception to the banned use of fluorocarbon aerosol sprays which delivered medication.

Copies of the adopted rules can be found on the Board's website at www.pharmacy.state.or.us on the Laws and Rules page.

General Responsibilities of a Pharmacist

ORS 689.025 states that "the practice of pharmacy in the State of Oregon is declared a health care professional practice affecting the public health, safety and welfare". Pharmacy practice is a dynamic patient-oriented health service that applies a scientific body of knowledge to improve and promote patient health by means of appropriate drug use, drug-related therapy, and communication for clinical and consultative purposes. A pharmacist licensed to practice pharmacy by the Board has the duty to use that degree of care, skill, diligence and professional judgment that is exercised by an ordinarily careful pharmacist in the same or similar circumstances.

(1) A pharmacist while on duty must ensure that the pharmacy complies with all state and federal laws and rules governing the practice of pharmacy.

839-020-0030

Overtime — Generally

(1) Except as provided in OAR 839-020-0125 to 839-020-0135, all work performed in excess of forty (40) hours per week must be paid for at the rate of not less than one and one-half times the regular rate of pay when computed without benefits of commissions, overrides, spiffs, bonuses, tips or similar benefits pursuant to ORS 653.261(1). Similar benefits include, but are not limited to, discretionary bonuses, gifts, profit sharing, thrift and savings program, trusts, reimbursements for expenses, holiday, or vacation pay.

(2) Definitions:

(a) "Work week" means any seven (7) consecutive twenty four (24) hour period as determined by the employer. The beginning of the work week may be changed if the change is intended to be permanent and is not designed to evade the overtime requirements of this rule. For purposes of overtime computation, each work week stands alone;

(b) "Regular rate", for purposes of overtime computation, means a regular hourly rate, but in no case will the regular hourly rate be less than the applicable statutory minimum wage rate. In the absence of an express agreement between the employer and the employee which specifies the regular hourly rate, the regular hourly rate is determined by dividing the total remuneration for employment in any work week (excluding commissions, spiffs, bonuses, tips or similar benefits), by the total number of hours actually worked in that work week for which such remuneration was paid. The division will be guided in the application and calculation of regular rate by Title 29, Code of Federal Regulations, Part 778, Subpart C, D and E except when expressly prohibited by ORS Chapter 653 or these rules.

(c) "Base rate," for purposes of computing overtime for domestic workers, means a regular hourly rate, but in no case will the base rate be less than the greater of any applicable statutory minimum wage rate. In the absence of an express agreement between the employer and the employee which specifies the regular hourly rate, the regular hourly rate is determined by dividing the total remuneration for employment in any work week (excluding commissions, spiffs, bonuses, tips or similar benefits), by the total number of hours actually worked in that work week for which such remuneration was paid. The division will be guided in the application and calculation of base rate by Title 29, Code of Federal Regulations, Part 778,

Subpart C, D and E pertaining to regular rate except when expressly prohibited by ORS Chapter 653 or these rules.

(3) Methods for determining amount of overtime payment under different compensation agreements:

(a) Compensation based exclusively on hourly rate of pay:

(A) Where the employee is employed solely on the basis of a single hourly rate, the hourly rate is the "regular rate." For hours worked in excess of forty (40) hours in a work week the employee must be paid, in addition to the straight time hourly earnings, a sum determined by multiplying one-half the hourly rate by the number of hours worked in excess of forty (40);

(B) For example, a \$10 per hour rate will bring, for an employee who works 46 hours, a total weekly wage of \$490 (46 hours at \$10 plus six hours at \$5.00). In other words the employee must be paid an amount equal to \$10 per hour for 40 hours and \$15.00 per hour for the six hours of overtime, or a total of \$490.

(b) Compensation based upon piece-rate agreement:

(A) Where an employee is employed on a piece-rate basis, the regular hourly rate of pay is determined by adding together the total earnings, (excluding commissions, spiffs, bonuses, tips or similar benefits) for the work week and dividing this sum by the number of hours worked in the week for which such compensation is to be paid;

(B) For example, an employee who has earned \$500 during a 50 hour work week must be paid an additional sum of \$50 for the ten overtime hours, or a total of \$550 (50 hours at \$10 per hour and the ten overtime hours at \$5.00 per hour).

(c) Compensation based upon weekly salary agreement for regular work week of less than 40 hours:

(A) Where the employee is employed on a weekly salary for a regular work week of fewer than 40 hours, the regular hourly rate of pay is determined by dividing the salary by the number of hours agreed to be worked in the work week which such salary is intended to compensate;

(B) For example, if an employee is hired at a salary of \$525 and it is understood that this salary is compensation for a regular work week of 35 hours, the employee's regular rate of pay is \$15 per hour (\$525 divided by 35 hours). Thus, where the employee works in excess of 35 hours in a given work week such employee must be paid \$15 per hour for each of the first 40 hours and \$22.50 per hour (one and one-half times \$15) for each hour worked in excess of 40 hours in such work week.

(d) Compensation based upon a weekly salary agreement for a regular work week of 40 hours:

(A) Where the employee is employed on a weekly salary for a regular work week of 40 hours, the regular hourly rate of pay is computed by dividing the salary by 40 hours;

(B) For example, where an employee is hired at a salary of \$600 and it is understood that this weekly salary is compensation for a regular work week of 40 hours, the employee's regular rate of pay is \$15 per hour and such employee must be compensated at the rate of \$22.50 per hour for each hour worked in excess of 40 hours in such work week.

(e) Compensation based upon weekly salary agreement for regular workweeks of more than 40 hours:

(A) If the employee is employed on a weekly salary which is the agreed compensation for a set number of hours in excess of 40, the regular hourly rate of pay is determined by dividing the weekly salary by the set number of hours which such salary is intended to compensate;

(B) For example, where an employee is hired at a weekly salary of \$675 and it is understood that this weekly salary is compensation for a regular work week set at 45 hours, the employee's regular rate of pay is \$15 per hour and such employee must be paid an additional sum of \$37.50 for such work week or a total of \$712.50 (45 hours at \$15 per hour and the five overtime hours at \$7.50 per hour). The employee must be paid an additional \$22.50 per hour for each hour worked in excess of 45 hours in such work week.

(f) Compensation based upon an agreed fixed salary for fluctuating hours (fluctuating workweek method for payment of overtime):

(A) An employee employed on a fixed salary may have hours of work which vary from work week to work week and the salary may be paid to the employee pursuant to an understanding with the employer that such employee will receive such fixed amount of compensation for whatever hours the employee is called upon to work in a work week, whether few or many. Where there is a clear mutual understanding of the parties that the fixed salary is compensation for the hours worked each work week, whatever their number, such a salary arrangement is permitted if the amount of the salary is sufficient to provide compensation to the employee at a rate not less than the applicable statutory minimum wage rate for every hour worked in those work weeks in which the number of hours worked is great-

ADMINISTRATIVE RULES

est, and if the employee receives overtime compensation, in addition to such salary, for all hours worked in excess of 40, at a rate not less than one-half the regular rate of pay. Since, under such an arrangement, the number of hours actually worked will fluctuate from work week to work week, the regular rate of the employee will vary from week to week and is determined by dividing the number of hours worked in the work week into the amount of the salary to obtain the applicable regular hourly rate for any given work week. Payment for overtime hours worked in excess of 40 hours in such work week at one-half such hourly rate in addition to the salary satisfies the requirements of this rule because such hours have already been compensated at the regular rate, under the salary arrangement. The following examples, based upon a weekly salary of \$400, are offered by way of illustration:

(i) Work week #1 — 50 hours worked; the employee's regular rate of pay is \$8 per hour and the employee must be paid an additional sum equal to one-half the regular rate times the ten overtime hours worked or \$40, making the total compensation for that work week \$440;

(ii) Work week #2 — 60 hours worked; the employee's regular rate of pay is \$6.67 per hour, which is less than the required state minimum wage rate. The employee must be paid an additional sum equal to the difference between the employee's weekly salary of \$400 and the total of the amount the employee earned at the minimum wage for 40 hours plus one and one-half times the minimum wage rate for the hours worked over 40 during the work week (40 hours X minimum wage rate + 20 hours X 1.5 X minimum wage rate).

(B) The fluctuating work week method for the payment of overtime does not apply to employers covered by the federal Family Medical Leave Act of 1993, 29 USC 2601, et. seq., who comply with the Code of Federal Regulations regarding the nonpayment of leave time authorized by the Act and the special exception pertaining to the payment of overtime under the fluctuating workweek method ([S]see 29 CFR, Part 825.206 (b) and (c)). Employers who select this method for paying overtime and who are covered by this Act but choose not to comply with 29 CFR 825.206, must comply with this rule.

(g) Fixed salary for periods other than work week: Where a salary covers a period longer than a work week, such as a month, it must be reduced to its work week equivalent. A monthly salary is subject to translation to its equivalent weekly wage by multiplying by 12 (the number of months) and dividing by 52 (the number of weeks). A semi-monthly salary is translated into its equivalent weekly wages by multiplying by 24 and dividing by 52. Once the weekly wage is arrived at, the regular rate of pay and the amount of any overtime pay is determined as provided by this rule.

(4) Notwithstanding ORS 653.020, the computation of overtime in any given work week for any domestic worker will include all "hours worked" as that term is defined in OAR 839-020-0040 through -0046.

Sleeping Time and Certain Other Activities

Under certain conditions an employee is considered to be working even though some of the employee's time is spent sleeping or in certain other activities:

(1) Less than 24 hours duty: An employee who is required to be on duty for less than 24 hours is working even though the employee is permitted to sleep or engage in other activities when not busy.

(2) Duty of 24 hours or more: Where an employee is required to be on duty for 24 hours or more, the employer and the employee may agree to exclude bona fide meal periods and a bona fide regularly scheduled sleeping period of not more than eight hours from hours worked, provided adequate sleeping facilities are furnished by the employer and the employee can usually enjoy an uninterrupted sleep period. If sleeping period is of more than eight hours, only eight hours will be credited. Where no expressed or implied agreement to the contrary is present, the eight hours of sleeping time and lunch periods constitute hours worked:

(a) Interruptions of sleep. If the sleeping period is interrupted by a call to duty, the interruption must be counted as hours worked. If the period is interrupted to such an extent that the employee cannot get a reasonable sleep period, the entire period must be counted;

(b) For purposes of this rule a reasonable night's sleep is considered sleep time of not less than five continuous hours.

(3) Employees residing on employers' premises or working at home: An employee who resides on the employer's premises on a permanent basis or for extended periods of time is not considered as working all the time the

employee is on the premises. Ordinarily, the employee may engage in normal private pursuits and thus have enough time for eating, sleeping, entertaining, and other periods of complete freedom from all duties when the employee may leave the premises for the employee's own purposes. To determine the exact hours worked, any reasonable agreement of the parties which takes into consideration all of the pertinent facts will be accepted.

(4) Notwithstanding ORS 653.020 and sections (2) and (3) of this rule, an employer must provide a domestic worker who resides in the home of the employer with both at least eight consecutive hours of rest within each 24-hour period and a space with adequate conditions for uninterrupted sleep. For purposes of this section, if the period of rest is interrupted by a call to duty, any time worked during the rest period must be paid at one and one-half times the employee's base rate regardless of the total number of hours worked in that work week.

Rules Amended: 839-009-0270

Subject: Makes changes to 839-009-0270 relating to job protection under the Oregon Family Leave Act, Under OL Ch. 323, 2015 and these rules an employer is prohibited from canceling and employee's insurance while the employee was out on OFLA protected leave.

Job Protection

(1) An employer must restore an employee returning from OFLA leave, including intermittent and alternative duty leave, to the employee's former position if the job still exists, even if it has been filled during the employee's OFLA leave. The former position is the position held by the employee at the time OFLA leave began, regardless of whether the job has been renamed or reclassified. (For example, a delivery driver must be returned to the same route, at the same rate of pay and benefits, driving the same truck, delivering the same goods, on the same shift and working from the same location as when the driver started OFLA leave.)

(2) Any worker hired during an eligible employee's leave to perform the same work that the eligible employee performed before the leave was taken is a replacement worker. When the eligible employee notifies the employer that the employee is ready to return to work, the employer must give that employee the opportunity to work any hours that the replacement worker would otherwise have been scheduled to work.

(3) The employee is not entitled to return to the former position if the employee would have been bumped if OFLA leave had not been taken.

ADMINISTRATIVE RULES

(4) If the position held by the employee at the time OFLA leave began has in fact been eliminated and not merely renamed or reclassified, the employer must restore the employee to any available, equivalent position.

(a) An available position is a position that is vacant or not permanently filled.

(b) An equivalent position is a position that is the same as the former position in as many aspects as possible. If an equivalent position is not available at the employee's former job site, the employee may be restored to an equivalent position within 20 miles of the former job site.

(5) Unless the terms of a collective bargaining agreement, other agreement or the employer's policy provide otherwise:

(a) An employee on OFLA leave does not accrue seniority, production bonuses or other non-health-related benefits that would accrue while the employee is working;

(b) Benefits an employee was entitled to prior to starting OFLA leave must be restored in full upon the employee's return to work. The benefits do not have to be restored, however, if such benefits have been eliminated or changed for similarly situated employees;

(c) An employee has no greater right to a job or other employment benefits than if the employee had not taken OFLA leave; and

(d) An employee is subject to layoff the same as similarly situated employees not taking OFLA leave.

(6) During any OFLA leave, an employer must maintain the employee's coverage under any group health plan on the same conditions as coverage would have been provided if the employee had been continuously employed during the entire leave period.

(a) An employer continuing health or other insurance coverage for an employee on OFLA leave may require that the employee pay only the same share of health or other insurance premium during the leave that the employee paid prior to the leave.

(b) If an employee cannot or will not pay such costs, the employer may elect to discontinue benefit coverage, unless to do so would render the employer unable to restore the employee to full benefit coverage. If coverage lapses because an employee has not made required premium payments, upon the employee's return from OFLA leave the employer must still restore the employee to coverage/benefits equivalent to those the employee would have had if leave had not been taken and the premium payment(s) had not been missed, including family or dependent coverage. In such case, an employee may not be required to meet any qualification requirements imposed by the plan, including any new preexisting condition waiting period, to wait for an open season, or to pass a medical examination to obtain reinstatement of coverage. If an employer terminates an employee's insurance in accordance with this section and fails to restore the employee's health insurance as required by this section upon the employee's return, the employer may be liable for benefits lost by reason of the violation, for other actual monetary losses sustained as a direct result of the violation, and for appropriate equitable relief tailored to the harm suffered.

(c) If the employer pays (directly or indirectly, voluntarily or as required by state or federal statute) any part of the employee's share of health or other insurance premium while an employee is on OFLA leave, the employer may deduct up to 10 percent of the employee's gross pay each pay period after the employee returns to work until the amount is repaid.

(d) If an employee fails to return to work — unless the failure to return to work is because of a serious health condition for which the employee would be entitled to OFLA leave or another circumstance beyond the employee's control — the employer may recover the employee's share of benefits paid by the employer. The employer may use any legal means to collect the amount owed for the employee's share of benefits paid by the employer, including deducting the amount from the employee's final pay-check.

(7) An employer may require an employee to follow the employer's established leave policy regarding periodic reporting to the employer of the employee's current status. Before restoring the employee to work after taking OFLA leave for the employee's own serious health condition, the employer may require the employee to present verification from the employee's health care provider that the employee is able to resume work, provided such requirement is applied pursuant to a uniformly applied practice or policy of the employer.

(a) Pursuant to ORS 659A.168(1), the employer is responsible for any co-pay or other out-of-pocket costs incurred by the employee in providing the verification.

(b) The employer may not require the employee to obtain a second opinion.

(8)(a) If an employee gives unequivocal notice of intent not to return to work from OFLA leave:

(b) The employee is entitled to complete the approved OFLA leave, providing that the original need for OFLA leave still exists. The employee remains entitled to all the rights and protections under OFLA, including but not limited to, the use of vacation, sick leave and health benefits pursuant to OAR 839-009-0270 and 839-009-0280, except that:

(A) The employer's obligations under OFLA to restore the employee's position and to restore benefits upon the completion of leave cease, except as required by federal COBRA law, 29 USC 1161 et seq.; and

(B) The employer is not required to hold a position vacant or available for the employee who gives unequivocal notice of intent not to return.

(9) An employer may not use the provisions of this section as a subterfuge to avoid the employer's responsibilities under OFLA.

Subject: In 1977, the Oregon legislature passed the "Products of Disabled Individuals" act or Qualified Rehabilitation Facility (QRF) law. The QRF law obliges all state and local governments, school districts and other tax supported political bodies in Oregon, to purchase goods and services from QRFs when the product or service meets their requirements. ORS 279.845 requires the Department of Administrative Services (DAS) to make rules to carry out the purposes of the QRF law, ORS 279.835 to 279.855. The Rules interpreting these statutes were revised in 2003, and again in 2010. In 2015, the Legislature made changes to select sections of the QRF law. Now, in response to the legislative changes, DAS needs to amend the select Rule listed in this filing.

Since 2005, the Department of Administrative Services (DAS) has developed and amended rules (Rules) to put into practice the Public Contracting Code, ORS 279ABC (Code). The Rules apply to state agencies subject to DAS procurement authority (Agencies). In 2015, the Legislature made changes to select sections of the Code and to ORS 279. In addition to the legislative changes to the Code, the Department of Justice and Agencies requested select Rule changes to streamline or reduce duplications. Now, in response to the legislative changes and requests for change from stakeholders, DAS needs to amend the select Rules listed in this filing.

Rules Coordinator: Janet Chambers—(503) 378-5522

General Provisions

(1) Contracting Authority. The Department and other Agencies must contract directly with a QRF for a contract to qualify for the exception from the competitive procurement requirement in ORS 279A.025 for contracts under the QRF Program. Contracts between multiple Agencies and a QRF satisfy this requirement that the Agencies must contract directly with a QRF.

(2) Contract Disputes. Contract performance issues and disputes arising out of contracts entered into under the QRF Program, such as disputes concerning timely delivery of products or performance of services or compliance with specifications, must be resolved exclusively between the QRF and the Agency that is a party to the contract, and will not be resolved by the Department (except where the Department is a party to the contract with the QRF).

ADMINISTRATIVE RULES

(3) Temporary Services for State Agencies. In each contract for the provision of temporary services entered into by a state agency under the QRF Program, the QRF must monitor the prior and current work assignments of its employees who work under the contract to ensure that no employee performs services for the state in excess of a total of 1,040 hours in a 12-month period. A QRF temporary service provider must obtain a written statement from the employee attesting to the total hours worked as a temporary employee for any state agency during the last 12 months. A state agency filling behind an employee on approved leave may continue beyond 1,040 hours in a 12-month period only when the temporary employee replaces a single employee on approved leave. The temporary appointment may not exceed the period of the approved leave.

(4) Competitive Public Contract Bidding by a QRF. If a QRF submits, to any Agency, a competitive bid, proposal, quote or other offer in a competitive procurement for a public contract that is not subject to ORS 279.850(1)(c), then regardless of whether the offer was accepted, that QRF may not, at any time during the initial term of the contract for which the QRF submitted a competitive offer, make any claim to the Agency that instituted the procurement for the contract that the product or service that was the subject of the offer should have been subject to the requirements of the QRF Program.

(5) An Agency may conduct a competitive procurement for a product or service between or among two or more QRFs under ORS 279.850(1)(c). In the procurement, the Agency may give a preference to a QRF that best demonstrates that the QRF:

(a) Complies with all applicable local ordinances and resolutions that govern labor standards; and

(b) Provides wages, health care benefits, alternative dispute resolution services, and pension or other retirement arrangements that are better, in the aggregate, than the average wages, health care benefits, alternative dispute resolution services, and pension or other retirement arrangements that private employers provide to employees performing the same or similar job duties in the relevant industry in the county in which the selected QRF will deliver the products or perform the services.

(c) The Agency may grant the preference authorized by ORS 279.850(1)(c) by using the factors described in subsections (a) and (b) of this section as criteria for which the Agency may award comparative evaluation points, percentages, or values in conducting the substantial equivalent of a request-for-proposals competition.

(d) In no event, however, may the amount or percentage preference given to a QRF proposer exceed 15 percent of the maximum number or percentage of evaluation points or values the Agency prescribes in the Agency's solicitation of offers in the competition.

(6) When an Agency terminates a QRF contract for services (as defined in OAR 125-246-0110) and enters into a new contract with a successor QRF to replace or substantially replace the terminated contract, the Agency must provide in the new contract that the successor QRF must, throughout a period that ends no fewer than 90 days after the effective date of the new contract, offer employment to those individuals with disabilities who were working under the terminated contract at the time of termination. The new contract must require the offer of employment:

(a) At wages at least as favorable as those afforded the individuals with disabilities under the terminated services contract; and

(b) For individuals with disabilities who work 28 hours per week or more, with health benefits at least as favorable as those afforded the individuals with disabilities under the terminated services contract.

(c) The successor QRF must offer employment to the individuals with disabilities who worked under the terminated services contract in good faith and without subterfuge or artificial impediments that obstruct the hiring of the individuals. However, the successor QRF may subject those individuals to its established hiring procedures and may require the individuals to complete a probationary period to demonstrate that they meet the qualifications the successor QRF applies even handedly to new hires.

(d) This section does not apply to a contract to replace a QRF contract that an Agency did not terminate, but which expired or otherwise ceased to be effective in accordance with its terms.

(7) An Agency may, under ORS 279.850(2)(b), disqualify a QRF from entering into a QRF agreement with the Agency after providing the QRF notice and a reasonable opportunity to be heard in accordance with subsections (a) and (b) of this section.

(a) The Agency must provide the QRF written notice of a proposed disqualification. The Agency shall deliver the notice by personal service or by registered or certified mail, return receipt requested. The notice must:

(A) State that the Agency intends to disqualify or suspend the QRF under ORS 279.850;

(B) State the reasons for the proposed disqualification;

(C) Include a statement of the QRF's right to a hearing if requested in writing within the time stated in the notice and that if the Agency does not receive the QRF's written request for a hearing within the time stated, the QRF will have waived its right to a hearing;

(D) Include a statement of the authority under which the hearing will be held;

(E) Include a reference to the particular sections of the statutes, rules, and contract provisions involved;

(F) State the proposed disqualification period; and

(G) State that the QRF may be represented by legal counsel.

(b) Hearing. The Agency shall schedule a hearing in response to the Agency's receipt of the QRF's timely hearing request. Within a reasonable time prior to the hearing, the Agency must notify the QRF of the time and place of the hearing and provide information on the procedures, right of representation, and other rights related to the conduct of the hearing.

(c) Notice of Decision. The Agency must provide written notice of the disqualification determination to the QRF. The Agency shall deliver the notice by personal service or by registered or certified mail, return receipt requested. The notice must contain:

(A) The effective date and period of the disqualification;

(B) The grounds for the disqualification; and

(C) A statement of any QRF appeal rights and applicable appeal deadlines.

(8) For the purposes of ORS 279.850, a record of "repeatedly violating" local ordinances or resolutions that govern labor standards means reliable documentation, supported by substantial evidence, that the QRF violated applicable ordinances or resolutions more than two times within the requisite period. The requisite period under this section either is: (i) within the then-current term of the QRF's agreement with Agency; or (ii) within the previous three years.

(9) For the purposes of ORS 279.850, local ordinances or resolutions that govern labor standards means ordinances or resolutions, duly adopted by a local government body (as defined in ORS 174.116), that regulate employee working conditions. Working conditions consist of employee:

(a) Wage rates or salaries;

(b) Hours of labor, work days, leave, and workplace safety conditions;

(c) Health insurance or health care benefits;

(d) Retirement or pension benefits; and

(e) Dispute resolution procedures.

(10) A QRF must not enter into a public contract with an Agency under the QRF Program unless the contract complies with OAR 125-055-0005 to 125-055-0040 and the products or services that are the subject of the contract are listed on the Procurement List. Any liabilities or expenses that may arise from the establishment of a contract that violates this subsection will be those exclusively of the QRF and Agency.

(11) The Department reserves the right to extend any deadline or time within which a QRF or a party to any proceedings under OAR 125-055-0015 to 125-055-0040 must take any action under those rules if the affected party applies in writing for relief to the Department and demonstrates in writing that special circumstances warrant the grant of such relief. For the purpose of this subsection, special circumstances that warrant the grant of relief include emergencies that reasonably can be regarded as imposing an obstacle to the QRF's or party's ability to meet the deadline or achieve the correction of a violation of rules. Special circumstances are circumstances beyond the reasonable control of the individual or organization including, but not limited to, the illness or other incapacity of key officers of the organization seeking relief, emergency reorganizations or replacements of the corporate structure, board of directors or executive officers of the organization, acts of God and comparable practical impediments to an individual's or organization's ability to meet a deadline or achieve the correction of a violation of rules. The grant or denial of relief under this subsection must be determined by the Department official specifically delegated that task. The Department also reserves the right to waive or to permit the correction of minor or technical violations of OAR 125-055-0015 to 125-055-0040.

Application; Commentary; Federal Law Prevails

(1) These Rules of the Department of Administrative Services (Department) are policy and procedure for the Public Contracting of Agencies subject to these Rules and all state agencies that are subject to the

ADMINISTRATIVE RULES

DAS rules adopted under ORS 279A.140(2)(h) to regulate personal services contracts (see OAR 125-246-0335 through 125-246-0353). According to ORS 279A.065(5), the Department adopts these Rules, including but not limited to selected and adapted Public Contract Model Rules. Except for those Public Contract Model Rules expressly adopted by the Department in OAR 125-246-0100, 125-247-0100, 125-248-0100 and 125-249-0100, the Public Contract Model Rules adopted by the Attorney General do not apply to the Department or the Agencies. These Department Public Contracting Rules implement the Oregon Public Contracting Code and consist of the following four Divisions:

(a) Division 246, which applies to all Public Contracting;

(b) Division 247, which applies only to Public Contracting for Supplies and Services, and not to construction services or Architectural, Engineering, Photogrammetric Mapping, Transportation Planning or Land Surveying Services, or Related Services;

(c) Division 248, which applies only to Public Contracting for Architectural, Engineering, Photogrammetric Mapping, Transportation Planning or Land Surveying Services and Related Services; and

(d) Division 249, which applies only to Public Contracting for construction services.

(2) If a conflict arises between these Division 246 Rules and Rules in Division 247, 248 or 249, the Rules in Divisions 247, 248 or 249 take precedence over these Division 246 Rules.

(3) Commentary on these Rules may be published by the Department to assist the Agencies by providing: examples, options, references, background, and other commentary. The Department's commentary is not a Rule or interpretation of any Rule and has no legally-binding effect.

(4) Federal statutes and regulations prevail and govern, except as otherwise expressly provided in ORS 279C.800 through 279C.870 (Prevailing Wage Rate) and despite other provisions of the Public Contracting Code, under the following conditions:

(Attestation).

(A) Agency may determine which Bidder or Proposer must submit an Attestation and the timing and manner of the submittal.

(B) Agency may allow the Bidder or Proposer to electronically transmit the Attestation, and Agency may maintain the electronically transmitted Attestation in lieu of the original Attestation.

(C) A Contracting Agency may exercise discretion in determining whether a particular form of attesting to compliance with the tax laws is "credible and convenient" under ORS 279B.110(2)(e), taking into consideration the circumstances in which the attestation is made and the consequences of making a false attestation. Therefore, a Contracting Agency may find acceptable forms of attestation that range from a notarized statement to a less formal document that records the Offeror's attestation. However, State Contracting Agencies may not accept the certificate of compliance with tax laws required by ORS 305.385 unless that certificate embraces, in addition to the tax laws described in ORS 305.380, the tax laws of political subdivisions.

(D) An Attestation attests to the Bidder or Proposer's current compliance with tax laws. During the period Bidder or Proposer is in compliance, a Bidder or Proposer may submit a copy of the same Attestation to multiple Agencies or for multiple Invitations to Bid or Requests for Proposals, and an Agency is not required to obtain a new original Attestation from a Bidder or Proposer for each Procurement.

(E) The Bidder or Proposer is responsible for determining whether the Bidder or Proposer is in compliance with tax laws. If applicable, compliance with tax laws may not require payment of taxes.

(2) Requirements to Transact Business in Oregon.

(a) A Contractor who is a corporation, partnership, or who has an assumed business name must be registered with the Secretary of State Office in accordance with ORS Chapters 58, 60, 62, 63, 65, 67, 70, and 648. This registration is the obligation of the Contractor, not the Agency.

(b) In addition, for Contracts requiring the services of one or more architects, engineers, and land surveyors, these Consultants must be registered with the appropriate licensing boards under the provisions of ORS 671.020, 672.020, and 672.025.

(c) The statutory requirements for contracting firms to register with the Secretary of State's Office may be subject to a limited number of exceptions under federal law. For example, national banks, when they contract with Authorized Agencies, are not subject to the registration requirement.

(d) The Contractor or Consultant must be registered at the time of the execution of the Contract and thereafter.

(3) Pay Equity Certificate. A Bidder or Proposer in any State Contracting Agency procurements must demonstrate to the Agency that the Bidder or Proposer possesses an unexpired certificate, issued by the Oregon Department of Administrative Services under 2015 Oregon Laws, chapter

454, section 2, if the Offeror employs 50 or more full-time workers at the time of the Closing and the estimated contract price exceeds \$500,000.

(a) Unless the certificate provides otherwise, the certificate shall be unexpired for a period of three years from the date issued.

Approval of Information Technology or Telecommunications Procurements

For any Procurement of Information Technology or Telecommunications with an anticipated Contract Price of \$1,000,000.00 or more, a State Contracting Agency must obtain prior Written Approval from the State Chief Information Officer. In addition, and regardless of the anticipated Contract Price, an Authorized Agency must obtain any review or approval the State Chief Information Officer may require under 2015 Oregon Laws, Chapter 807 (HB 3099).

Competitive Sealed Proposals

(1) See OAR 137-047-0260 and 137-047-0261.

(2) Regardless of OAR 137-047-0260 and 137-047-0261, Authorized Agencies must comply with the following provisions:

ADMINISTRATIVE RULES

(a) An Authorized Agency may use one or more or any combination of the procedures described in ORS 279B.060 and this Rule.

(b) In addition to the requirements in ORS 279B.060(2), the Request for Proposals must include the following:

(A) The form and instructions for submission of Proposals;

(B) A description of the procurement process, including but not limited to: optional process, evaluation, selection, and protest process.

(C) Mandatory preferences, if applicable, and any discretionary preferences, if elected; and

(D) All applicable certifications of compliance with tax laws.

(c) Interviews. If the evaluation committee conducts interviews, it must award weights, points or other classifications indicated in the Request for Proposals for the anticipated interview.

(d) Competitive Range. The Authorized Agency may decrease the number of Proposers in the initial Competitive Range if the excluded Proposers have no reasonable chance to be the most Advantageous Proposer.

(e) The Authorized Agency may continue serial or simultaneous Negotiations until the Agency has determined:

(A) To award the Contract to the eligible Proposer with whom it is currently discussing or negotiating;

(B) To conduct Revised Rounds of Negotiations; or

(C) To cancel the Procurement under ORS 279B.100.

(f) Revised Rounds of Negotiations.

(A) Process and Revisions. After publication of the original Request for Proposals, the Authorized Agency may conduct successive rounds of Proposals achieved through Negotiations to gain the best Proposal for purposes of Award. These Negotiations may concern the price, Specifications, and final terms and conditions, separately or in any combination. The Agency must treat all Proposers fairly. Before the start of each round of Negotiations, the Agency must disclose the parameters of that round of Negotiations. At that time, the Agency may revise the Solicitation's Specifications, terms and conditions, evaluation criteria and weight, and pricing structure in order to best meet the State's interests (Revisions). At each successive round, the Agency may disregard its scoring of prior Proposals and commence new scoring for the new Proposals. The Agency may eliminate any Proposal after a round because the Proposal did not meet a minimum score, or the Proposal was not susceptible to award, and then proceed with a subsequent round that requires additional Proposals based on the Revision(s). If any Revision is made by the Agency in any subsequent round, the Agency reserves the right, in its sole discretion, to permit any Proposer whose Proposal was previously eliminated to submit a new Proposal, if the reason(s) for the elimination of the prior Proposal no longer applies.

(B) Disclosures. The initial Solicitation Document must disclose that a Revised Rounds of Negotiation process will or may be used. The Agency must give notice to all initial Proposers of any Revision(s) in the Specifications, terms and conditions, pricing structure, scoring model, and award criteria, separately or in any combination. If the Agency discloses any prices, terms or conditions offered by other Proposers, the Agency must give notice of these disclosures to the initial Proposers.

Intermediate Procurements

(1) See OAR 137-047-0270.

(2) Regardless of OAR 137-047-0270, Authorized Agencies must comply with the following provisions:

(a) Amendments. If the cumulative value of the original Contract Price and all Amendments exceeds \$150,000.00, or one hundred twenty-five percent (125%) of the original Contract Price, whichever is greater, then the Authorized Agency must request and obtain prior approval of a Special Procurement in accordance with OAR 125-247-0287.

(b) Written Solicitation. Authorized Agencies are not required to use a Written Solicitation, unless an Agency's Designated Procurement Officer requires a Written Solicitation. This Written Solicitation may allow revisions to the Solicitation and opportunity for protests, at the discretion of the Agency.

(c) Documentation. Authorized Agencies must document:

(A) The method used by the Agency; and

(B) Communications between the Agency and prospective Offerors.

(d) Borderline Procurements. If an Authorized Agency's Designated Procurement Officer in good faith estimated that the Procurement would be equal to or less than \$150,000, and learned thereafter that all of the Offers were minimally exceeding \$150,000, this Procurement complies with ORS 279B.070 and this Rule upon the following conditions:

(A) The Designated Procurement Officer must document in the Procurement File the basis for the original estimate under \$150,000 and the process used; and

(B) The Agency must comply with the remainder of ORS 279B.070 and this Rule.

(e) Notice on ORPIN. The Agency must post on ORPIN a notice that it is seeking at least three Offers.

(A) The Notice must provide:

(i) A general description of the Supplies and Services to be acquired;

(ii) Contact information;

(iii) An adequate time period in accordance with the DAS COBID (formerly MWESB) Policy; and

(iv) For Intermediate Procurements exceeding \$100,000, the Time Period must be a reasonable interval of at least seven (7) calendar Days. Despite this Time Period, Authorized Agencies may determine that a shorter Time Period is in the public's interest and that a shorter Time Period will not substantially affect competition. The Authorized Agency must document the specific reason for the shorter Time Period in the Procurement File in accordance with OAR 125-246-0556.

(B) OAR 125-247-0305 (Public Notice of Solicitation Documents) does not apply to Intermediate Procurements.

(f) Negotiations. An Authorized Agency may negotiate with an Offeror.

(g) Nothing in this Rule waives the Department of Justice legal sufficiency review if applicable under ORS 291.047.

Responsibility of Offerors

(1) Determination. Before awarding a Contract, the Authorized Agency must determine that the Offeror submitting the lowest Bid or Proposal or most Advantageous Offer is Responsible. The Authorized Agency must use the standards set forth in ORS 279B.110 and OAR 125-247-0640 to determine if an Offeror is Responsible. In the event an Authorized Agency determines an Offeror is not Responsible, it must prepare a Written determination of non-Responsibility as required by ORS 279B.110 and must reject the Offer.

Appealing a Fitness Determination

(1) An SI may contest a final fitness determination outcome of a denied or restricted approval.

(2) Process for authorized agencies using Office of Administrative Hearings (OAH): To request a contested case hearing, the SI or the SI's legal representative shall submit a written request for a contested case hearing to the address specified in the notice provided under OAR 125-007-0260, within the time required by law or a reasonable time period.

(3) Confidentiality. The Department or the administrative law judge may protect information made confidential by ORS 181A.195(11) or other applicable law as provided in OAR 137-003-0570(7) or (8).

(4) No Public Attendance. Unless otherwise provided by law, contested case hearings on fitness determinations are closed to non-participants.

(5) Authorized agencies and districts that are not obligated by law to use the OAH must adopt procedural rules providing for SIs to contest fitness determinations or may elect to use the process outlined in this rule.

(6) Alternative Process. An SI currently employed by the authorized agency district or qualified entity may choose to appeal a fitness determination either under the process made available by this rule or through the process made available by applicable personnel rules, policies and collective bargaining provisions. An SI's decision to appeal a fitness determination through applicable personnel rules, policies, and collective bargaining provisions is an election of remedies as to the rights of the individual with respect to the fitness determination and is a waiver of the contested case process made available by this rule.

(7) Challenging Criminal Offender Information. An SI may not use the appeals process established by this rule to challenge the accuracy or completeness of information provided by OSP, the FBI, or agencies reporting information to OSP or the FBI. To challenge information, an SI may use any process made available by the providing agency.

(8) Remedy. When the fitness determination is performed as part of an authorized agency's hiring process or employment decision, the only remedy that may be awarded is a determination the SI is fit or not fit. Under no circumstances shall the authorized agency be required to place an SI in any position, nor shall the agency be required to accept services or enter into a contractual agreement with an SI.

(9) No delay in hiring. Appealing a final fitness determination, challenging criminal offender information with the agency that provided the information, or requesting a new criminal records check may not delay or postpone the authorized agency's hiring process or employment decisions.

Rule Caption: Amending rules governing disposition and acquisition of real property interests.

Adm. Order No.: DAS 1-2016

Filed with Sec. of State: 1-7-2016

Certified to be Effective: 1-7-16

Notice Publication Date: 12-1-2015

Rules Amended: 125-045-0200, 125-045-0205, 125-045-0225, 125-045-0235, 125-045-0245

Subject: Oregon law requires the Department of State Lands, the Oregon Department of Transportation and the Department of Administrative Services to sell surplus real property. Agencies routinely review properties to make this determination and if parcels are not needed, they are offered for sale, first to other state agencies, then to local government entities, then to the public. Properties that will be needed in the future are leased until such times they are needed. The sale and lease of these lands generates revenues that fund a variety of things such as schools and state highway investments, depending on the agency that sells the land.

House Bill 3524 directs state agencies to Offer Certain lands first to nonprofit organizations and federally recognized Indian tribes for affordable housing development. The subject property must be within an urban growth boundary, an urban reserve, a rural community, or an urban unincorporated community; not being used for a public purpose, and not needed for public use within five years.

SB224 exempts Oregon Health Authority (OHA) and Department of Human Services (DHS) from certain provisions relating to acquiring, holding or disposing of real property or equitable interest in real property or in mineral or geothermal resource right; operative January 1, 2016. Federal and state law require the Oregon Health Authority (OHA) and the Department of Human Services (DHS) to have Estate Recovery Programs for public programs such as Medicaid for long-term care recipients. DHS and OHA are required to seek reimbursement from the assets of the deceased individual, with certain exceptions, for some or all of the benefits the individual received. As part of the estate recovery process, DHS will acquire the title to residential real property, pursuant to the authority granted under ORS 410.075 and ORS 411.340. Due to the fact that the process to sell state-owned real property is time consuming and expensive, the Department of Veterans' Affairs and the Housing and Community Services Department have been granted exemptions from these requirements. SB224 grants OHA and DHS the same exemptions for the real property that the Estate Recovery Program acquires.

Purpose

These rules are adopted under the authority of ORS 184.340, 270.015 and 270.100 to 270.190 and establish the process for agencies to acquire and to sell, transfer, exchange or otherwise dispose of interests in real property. These rules also establish procedures for the operation of the Public Lands Advisory Committee (PLAC); collection of funds for the support of the Statewide Lands Inventory System (SLIS) and PLAC; and the management and operation of the Statewide Lands Inventory System (SLIS).

Terminal Disposition of State Real Property Interests (Notices — Clearing House Process)

(1) Prior to the Terminal Disposition by an Agency of a State Real Property Interest, the Agency must first declare in writing to the Division its intent to dispose of the Interest. The written declaration must include the following:

(a) A detailed description of the State Real Property Interest to be transferred, including its approximate size in square feet or acreage and its legal description;

(b) A map showing the location of the State Real Property Interest;

(c) An explanation of the reason for disposal;

(d) A completed notice using a form provided by the Division; and

(e) Any other information the Division may request.

(2) To ensure that the Terminal Disposition best serves the interests of the State and the Disposing Agency, the Disposing Agency is encouraged to create a disposition strategy for the property. The Disposing Agency's disposition strategy should consider:

(a) The highest and best use of the Real Property Interest, consistent with the local planning goals;

(b) How the Real Property Interest might be marketed most effectively, given the nature of the Interest and likely potential purchasers; and

(c) How the economic return to the State might be maximized.

(d) How to promote the public purpose of increasing housing options for low-income individuals and families in this state as provided in ORS 458.445.

(3) Whenever any agency possesses or controls real property not needed for public use, or whenever the public interest may be furthered, the agency may sell, exchange, convey or lease for any period not exceeding 99 years all or any part of the interest in the property. Except for the Department of State Lands and the Department of Transportation and where real property is set apart by deed, will or otherwise for a burial ground or cemetery or the use is restricted by dedication, agencies must offer for sale any real property in its possession or control, if the property:

(a) Is within the urban growth boundary of any city, is within an urban reserve, is within a rural community, or is within an urban unincorporated community;

(b) Is not being used for public purposes;

ADMINISTRATIVE RULES

(c) Is not needed for public use within five years of the last date the property was used for public purposes.

(4) After receipt of a declaration to dispose of a State Real Property Interest, and before a Disposing Agency may unconditionally offer to dispose of the State Real Property Interest, the Division must provide notice of the intended Terminal Disposition to all Agencies authorized by law to acquire Real Property Interests. Written notice to agencies must include the following:

(a) A request that any Agency with an interest in acquiring the State Real Property Interest notify the Division in writing of its interest;

(b) The information required to be provided under OAR 125-045-0225(1);

(c) The deadline for the Agency to provide written notice to the Division of its interest in acquiring the State Real Property Interest, which may not be less than 30 days from the date the Division issues the notice, unless the Administrator determines that a shorter period is in the State's interest; and

(d) Any other information the Division or the Disposing Agency elects to include in the notice.

(5) Notification by the Clearing House Process, will be given to agencies by at least one of the following methods:

(a) Mailed notice;

(b) Electronic mail notice;

(c) Posting notice of the intended Terminal Disposition on the Division's website; or

(d) Newspaper publication meeting the requirements defined in OAR 125-045-0235(3).

(6) The Division may dispense with notice to Agencies if the Administrator adopts written findings that in the reasoned judgment of the Division it is unlikely that transfer of the State Real Property Interest to another Agency could satisfy the Disposing Agency's needs and that as a result, notice would be a futile act.

(7) If one or more Agencies responds timely to the written notice described in this rule, the responding Agency or Agencies must negotiate with the Disposing Agency to determine if a sale, assignment, lease or other transfer can be completed. The Disposing Agency may not reject another Agency's bona fide offer to acquire the State Real Property Interest without Division approval.

(8) If two or more Agencies make bona fide offers to acquire the State Real Property Interest, the Disposing Agency must determine, in its reasonable discretion, which, if any, offer is most advantageous to the State and the Disposing Agency. Prior to making this determination, the Division may solicit the advice of the PLAC. A Disposing Agency need not use a competitive bidding process in connection with the Terminal Disposition of a State Real Property Interest to another Agency.

(9) Before a Disposing Agency may dispose of a State Real Property Interest to other than another Agency, the Division must provide notice of the intended Terminal Disposition to Nonprofit Organizations, Indian Tribes and Political Subdivisions on the condition that the entities will develop housing on the real property that will be occupied by families and individuals with an income no greater than 80 percent of the median family income for the county in which the real property is located by at least one of the following methods:

(a) Mailed notice;

(b) Electronic mail notice;

(c) Posting notice of the intended Terminal Disposition on the Division's website; or

(d) Newspaper publication meeting the requirements defined in OAR 125-045-0235(3).

(10) The Division may provide notice to Nonprofit Organizations, Indian Tribes and Political Subdivisions at the same time as it provides notice to Agencies. The Division may dispense with notice to Nonprofit Organizations, Indian Tribes and Political Subdivisions if the Administrator adopts written findings that in its reasoned judgment it is unlikely that transfer of the State Real Property Interest to a Nonprofit Organization, Indian Tribe or Political Subdivision could satisfy the Disposing Agency's needs and that as a result, notice would be a futile act.

(11) All notices to Nonprofit Organizations, Indian Tribes and Political Subdivisions must include the following:

(a) A request that any Nonprofit Organizations, Indian Tribe and Political Subdivision with an interest in acquiring the State Real Property Interest notify the Division in writing of its interest;

(b) The information required to be provided under OAR 125-045-0225(1);

(c) Agencies, Nonprofit Organizations, Indian Tribes and Political Subdivisions must provide written notice of interest in acquiring the property by the deadline indicated on the notice;

(d) A reservation of the right of the Disposing Agency to reject any offers;

(e) Notice that a Nonprofit Organization, Indian Tribe and Political Subdivision's right to acquire the State Real Property Interest is subject and subordinate to the right of Agencies to acquire the State Real Property Interest (required only if notice to Nonprofit Organization, Indian Tribe and Political Subdivisions is made concurrently with notice to Agencies); and

(f) Any other information the Division or the Disposing Agency elects to include in the notice.

(12) If no Agency indicates an interest in acquiring the State Real Property Interest, or if a sale or other transfer to another Agency cannot be finalized, any Nonprofit Organization, Indian Tribe or Political Subdivision that has made a timely response to the notice may negotiate with the Disposing Agency to determine if a sale or other transfer can be completed.

(13) A written notice of interest in acquiring the property must be received by the deadline indicated on the public notice and reference the file number and county in which the property is located for identification. Negotiations between the selling agency and respondents will take place in the following order:

(a) State agencies in the order in which they are received;

(b) Nonprofit Organizations in the order in which they are received;

(c) Indian Tribes in the order in which they are received;

(d) Political subdivisions in the order in which they were received.

(14) A responding entity is expected to enter into a pre-purchase agreement or memorandum of understanding with the offering entity within 60 days of responding to the notice.

(15) The Disposing Agency must consider any bona fide offer submitted by a Nonprofit Organization, Indian Tribe or Political Subdivision but is not obliged to sell or otherwise transfer the State Real Property Interest to the Nonprofit Organization, Indian Tribe or Political Subdivision.

(16) No Terminal Disposition of a State Real Property Interest to a Nonprofit Organization, Indian Tribe or Political Subdivision for less than the Appraised Fair Market Value may occur without the written approval of the Administrator or Director according to OAR 125-045-0245.

(17) If two or more Nonprofit Organizations, Indian Tribes or Political Subdivisions make bona fide offers to acquire the State Real Property Interest, the Disposing Agency must determine, in its reasonable discretion, which, if any, offer is acceptable to the State.

(18) The Disposing Agency may place any conditions on the transfer of a State Real Property Interest to a Nonprofit Organization, Indian Tribe and Political Subdivision it deems advisable, including but not limited to requirements that:

(a) Any State Real Property Interest sold or transferred to a Nonprofit Organization, Indian Tribe or Political Subdivision be subject to a deed restriction that the property be used solely for a public purpose or benefit; and

(b) Such State Real Property Interest not be resold to a private purchaser without the consent of the Division.

(c) Nonprofit Organizations and Indian Tribes must use the property to develop housing that will be occupied by families and individuals with an income no greater than 80 percent of the median family income for the county in which the real property is located.

(19) The Disposing Agency need not use a competitive bidding process in connection with the Terminal Disposition of a State Real Property Interest to a Nonprofit Organization, Indian Tribe or Political Subdivision.

Adm. Order No.: FCS 11-2015

Filed with Sec. of State: 12-16-2015

Certified to be Effective: 1-1-16

Notice Publication Date: 11-1-2015

Rules Adopted: 441-710-0305

Subject: Until recently, Oregon law prohibited credit unions from paying their boards of directors and supervisory committee members compensation. In the 2015 legislative session, the Assembly enacted Senate Bill 582. Among other things, SB 582 permitted the payment of "reasonable compensation." The Act did not specify what was reasonable, what would be considered (or not considered) compensation, or how to involve credit union membership in any decisions on whether to pay compensation. This rulemaking activity - undertaken under the department's general grant of authority to implement the Credit Union Act - provides definition to the inexact terms in the Act, sets up processes for bylaw change, adopting policies and procedures on compensation, and implements a public process of disclosure to keep the membership informed.

Subject: These temporary new and amended rules establish the Oregon benchmark health benefit plan and standard plans for plan years beginning on and after January 1, 2017. General Requirements for Coverage of Mental or Nervous Conditions and Chemical Dependency

(1) A group health insurance policy issued or renewed in this state shall provide coverage or reimbursement for medically necessary treatment of mental or nervous conditions and chemical dependency, including alcoholism, at the same level as, and subject to limitations no more restrictive than those imposed on coverage or reimbursement for medically necessary treatment for other medical conditions.

(2) For the purposes of ORS 743A.168, the following standards apply in determining whether coverage for expenses arising from treatment for chemical dependency, including alcoholism, and for mental or nervous conditions is provided at the same level as, and subject to limitations no more restrictive than, those imposed on coverage or reimbursement of expenses arising from treatment for other medical conditions:

(a) The co-payment, coinsurance, reimbursement, or other cost sharing, including, but not limited to, deductibles for mental or nervous conditions and chemical dependency, including alcoholism, may be no more than the co-payment or coinsurance, or other cost sharing, including, but not limited to, deductibles for medical and surgical services otherwise provided under the health insurance policy.

(b) The co-payment, coinsurance, reimbursement, or other cost sharing, including, but not limited to, deductibles for wellness and preventive services for mental or nervous conditions and chemical dependency, including alcoholism, may be no more than the co-payment or coinsurance, or other cost sharing, including, but not limited to, deductibles for wellness and preventive services otherwise provided under the health insurance policy.

(c) If annual or lifetime limits for treatment of mental or nervous conditions and chemical dependency, including alcoholism, the limits must comply with the "predominately equal" to and "substantially all" tests the federal Paul Wellstone and Pete Domenici Mental Health Parity and Addiction Equity Act, 29 U.S.C. 1185a and implementing regulations at 45 CFR 146.136 and 147.160.

(d) The co-payment, coinsurance, reimbursement, or other cost sharing, including, but not limited to, deductibles expenses for prescription drugs intended to treat mental or nervous conditions and chemical dependency, including alcoholism, may be no more than the co-payment or coinsurance, or other cost sharing expenses for prescription drugs prescribed for other medical services provided under the health insurance policy.

(e) Classification of prescription drugs into open, closed, or tiered drug benefit formularies, for drugs intended to treat mental or nervous conditions and chemical dependency, including alcoholism, must be by the same process as drug selection for formulary status applied for drugs intended to treat other medical conditions, regardless of whether such drugs are intended to treat mental or nervous conditions, chemical dependency, including alcoholism, or other medical conditions.

(3) A group health insurance policy issued or renewed in this state must contain a single definition of medical necessity that applies uniformly to all medical, mental or nervous conditions, and chemical dependency, including alcoholism.

(4) A group health insurer that issues or renews a group health insurance policy in this state shall have policies and procedures in place to ensure uniform application of the policy's definition of medical necessity to all medical, mental or nervous conditions, and chemical dependency, including alcoholism.

(5) Coverage for expenses arising from treatment for mental or nervous conditions and chemical dependency, including alcoholism, may be managed through common methods designed to limit eligible expenses to treatment that is medically necessary only if similar limitations or requirements are imposed on coverage for expenses arising from other medical

condition. Common methods include, but are not limited to, selectively contracted panels, health policy benefit differential designs, preadmission screening, prior authorization of services, case management, utilization review, or other mechanisms designed to limit eligible expenses to treatment that is medically necessary.

(6) Nothing in this rule prevents a group health insurance policy from providing coverage for conditions or disorder excepted under the definition of “mental or nervous condition” in OAR 836-053-1400.

(7) The Director shall review OAR 836-053-1400 and this rule and any other materials every two years to determine whether the requirements set forth in the rules are uniformly applied to all medical, mental or nervous conditions, and chemical dependency, including alcoholism.

Rule Caption: Election of Lower Limits for Uninsured Motorist Coverage

Adm. Order No.: ID 15-2015

Filed with Sec. of State: 12-29-2015

Certified to be Effective: 1-1-16

Notice Publication Date: 10-1-2015

Rules Adopted: 836-054-0020

Rules Amended: 836-054-0000

Rules Repealed: 836-054-0000(T)

Subject: These rules make two changes related to automobile insurance necessary as a result of passage of Senate Bill 411 (2015 Legislative Session) (SB 411). First, the amendment to OAR 836-054-000(2) changes a reference to a specific exhibit that does not correctly explain the law as it will apply to automobile policies that will be issued or renewed after January 1, 2016. The changes to the rule remove the reference to a specific exhibit and direct the reader to the website for a sample form that has been approved by the Insurance Division of the Department of Consumer and Business Services. The changes to the rule will allow the Insurance Division to respond more quickly to changes that may be necessary to the form by eliminating the need to conduct rulemaking to change the form.

Second, SB 411 changed the language related to the notice of denial of charges that an insurer must provide to medical providers when the insurer denies charges. Prior to SB 411, the statute required the insurers to give notice of denial not more than 60 days after the insurer receives from the provider notice of a claim for services for Personal Injury Protection (PIP) benefits. SB 411 changed this to a requirement that the provider must receive the notice of denial within 60 days after the insurer received the claim for services. The new rule clarifies how to prove “receipt” of the denial by using language similar to language used in the Oregon Rules of Civil Procedure that establishes a presumption of receipt through service by mail with three days added to the prescribed period.

Election of Lower Limits for Uninsured Motorist Coverage

(1) This rule is adopted under the authority of ORS 731.244 for the purpose of implementing ORS 742.502.

(2) This rule establishes in Exhibit 1 an example of the form of statement electing lower limits for uninsured motorist coverage in a motor vehicle liability insurance policy that may be used to comply with the requirement in ORS 742.502 for a statement of election. A form used by an insurer or insurance producer that is in substantial compliance with this rule is considered to be approved by the Department. A form is in substantial compliance if the form contains all of the following elements in any order: An example of a form that may be used by an insurer or insurance producer to comply with this rule is posted on the Insurance Division website of the Department of Consumer and Business Services at www.insurance.oregon.gov. If an insurer or insurance producer uses this form, or any other selection form that has been approved by the Department, the form is considered to be approved by the Department. Any other form electing lower limits for uninsured motorist coverage in a motor vehicle liability insurance policy must be approved by the Department and must contain all of the following elements in any order:

(a) An acknowledgement by the named insured that the named insured was offered uninsured motorist coverage with the limits equal to those for bodily injury liability;

(b) A brief summary, which is not part of the insurance contract, of uninsured and underinsured motorist coverages;

(c) A statement of the price for coverage per insured vehicle with limits equal to the named insured’s bodily injury liability limits and the price for coverage per insured vehicle with the lower limits requested by the named insured;

(d) A statement to the effect that the statement shall remain in force until rescinded in writing by a named insured or until such time as motor vehicle bodily injury liability limits are changed; and

(e) Provision for signature of a named insured, to be made within 60 days of the time the named insured makes the election, and for the date of signature.

(3) Regarding the summary required in subsection (2)(b) of this rule, if an insurer issuing a policy that refers only to uninsured motorist coverage because uninsured motorist coverage under the policy includes underinsured motorist coverage meeting statutory requirements, the insurer need not use the term “underinsured motorist coverage.”

(4) The statement required under subsection (2)(c) of this rule may state the term of coverage to which the prices relate.

(5) The form may include one or both of the following statements in addition to the items required under section (2) of this rule:

(a) A statement to the effect that the form is required by Oregon law or specifically by ORS 742.502; and

(b) A statement to the effect that limits for uninsured motorist coverage cannot be less than the amounts required to comply with financial responsibility requirements under ORS 806.070.

Guaranteed Issue for Eligible Persons

(1) Guaranteed issue:

(a) Eligible persons are those individuals described in section (2) of this rule who seek to enroll under the policy during the period specified in section (3) of this rule and who submit evidence of the date of termination, disenrollment or Medicare Part D enrollment with the application for a Medicare supplement policy.

Board Policy

(1) It is the policy of the Board to expedite claim adjudication and amicably dispose of controversies, while providing for access to adequate representation for injured workers. In accordance with ORS 656.012(3), these rules shall be interpreted in an impartial and balanced manner. The overriding principle is substantial justice.

(2) With respect to postponement or continuance of hearings under OAR 438-006-0081 and 438-006-0091, substantial justice requires consideration of the relative financial hardship of the parties.

(3) The unrepresented party shall not be held strictly accountable for failure to comply with these rules. Any individual who undertakes to represent a party in proceedings under these rules shall be required to comply with these rules.

(4) It is the policy of the Board to promote the full and complete disclosure of a party’s specific position concerning the issues raised and relief requested in a specification of issues under OAR 438-006-0031 and in a response under 438-006-0036. However, it is not the intent of this policy to create binding admissions on behalf of any party, but to clarify the scope of the matters to be litigated.

(5) The Board recognizes the complexity of disputed claims and the time limitations concerning the scheduling and litigation process for such claims. Consistent with this recognition, as factual, medical, and legal aspects of disputed issues evolve, the amendment of issues, relief requested, theories, and defenses may be allowed as prescribed in OAR 438-006-0031(2) and 438-006-0036(2).

(2) In ordering payment under section (1), an Administrative Law Judge or the Board may award reasonable expenses and costs that the claimant incurred as a result of the litigation of the denied claim(s) under ORS 656.386(1). If the parties stipulate to the specific amount of the reasonable expenses and costs, the Administrative Law Judge’s or the Board’s award of expenses and costs shall be included in the order finding that the claimant finally prevails against a denied claim(s) under 656.386(1). In the absence of the parties’ stipulation, the Administrative Law Judge or the Board may award reasonable expenses and costs as described in section (1), which the claimant may claim by submitting a cost bill under section (3) to the insurer or the self-insured employer, not to exceed \$1,500, unless the claimant demonstrates extraordinary circumstances justifying payment of a greater amount.

(3) If an order under section (2) does not specify the amount of a reasonable award for expenses and costs, the claimant shall submit, within 30 days after the order under section (2) becomes final, a cost bill to the insurer or self-insured employer. The cost bill, which may be submitted on a form prescribed by the Board, shall contain, but is not limited to, the following information:

- (a) An itemization of the incurred expenses and costs for records, expert opinions, and witness fees that are due to the denied claim(s); and
- (b) The claimant’s signature confirming that the claimed expenses and costs were incurred in the litigation of the denied claim(s).

(4) If the parties disagree whether a claimed fee, expense, or cost is reasonable, a party may request a hearing seeking resolution of that dispute. The resolution of disputes under this section shall be made by a final, appealable order.

(5) Unless a hearing is requested by the insurer or self-insured employer under section (4), payments for witness fees, expenses, and costs shall be made by the insurer or self-insured employer within 30 days of its receipt of the cost bill submitted in accordance with section (3) or within 30 days after the order under section (2) becomes final, whichever is later, and are in addition to compensation payable to the claimant and in addition to attorney fees.

(6) In disputes involving a claim for costs, if the claimant prevails on the claim for any increase of costs, the Administrative Law Judge or the Board shall award a reasonable assessed attorney fee to the claimant’s attorney.

Annual Reporting Requirements

(1) To determine the financial status of a self-insured employer and to evaluate the employer's continuity of operation, a self-insured employer must file annually with the director an audited financial statement or annual report with audited financial statement, including SEC Form 10K if issued, for the just completed fiscal year. A self-insured employer that is not a municipality must make the filing within 120 days of the fiscal year end and a self-insured employer that is a municipality must make the filing within 180 days of the fiscal year end. All financial statements and annual financial reports filed, as required by this section, will be retained by the director for a period of at least three years. In lieu of an audited financial statement or annual report, a self-insured employer may file a financial statement certified by the employer that the financial statement is true and accurate and presents the employer's financial condition and results of operations as of the date of the statement.

(2) Notwithstanding section (1) of this rule, the director may require an employer to submit an audited financial statement if the certified financial statement submitted is insufficient to evaluate the employer's financial status.

(3) The financial statements and reports filed by a self-insured employer group must demonstrate the group's acceptable financial viability based on criteria under OAR 436-050-0260 including, but not limited to, satisfactory financial ratios and net worth.

(4) By March 1 of each year, self-insured employer groups must file with the director:

(a) A statement certifying the amount of the group's combined net worth under OAR 436-050-0260(3)(a), as of the date of the statement; and

(b) A copy of the fidelity bond furnished to the group by the administrator or a copy of the comprehensive crime policy obtained by the group, in an amount sufficient to protect the group against the misappropriation or

ADMINISTRATIVE RULES

misuse of any moneys or securities. If the fidelity bond or policy covers more than one year, is still in effect, and a copy was provided to the director in the prior year, the group's annual filing may state that fact in lieu of providing an additional copy.

(5) By March 1 of each year, self-insured employer groups consisting of private employer members must file with the director:

(a) A statement certifying that each employer member of the group meets the individual net worth requirement under OAR 436-050-0260(3)(b), as of the employer member's most recent fiscal year end; and

(b) A list of the group's current board members and their professional affiliations.

(6) The self-insured employer must report claim loss data described in Bulletin 209 by March 1 of each year for the purposes of experience rating modification, retrospective rating calculations, and determining deposits.

(a) The report must be certified to be true and accurate by an authorized representative of the self-insured employer, and must include:

(A) A report of losses for each year in the experience rating period. The report must cover all claims incurred during the reporting period and must be valued as of January 1 of the current year. Reports must include:

(i) Contract medical expenses;

(ii) Total maximum medical reimbursement amount;

(iii) Number of claims for which the maximum medical reimbursement amount is claimed;

(iv) For claims with incurred losses at or below the National Council on Compensation Insurance (NCCI) split point published in Bulletin 209, total paid, outstanding reserves, and total incurred losses;

(v) Number of claims with incurred losses at or below the NCCI split point; and

(vi) For each claim with incurred losses exceeding the NCCI split point, worker's name, date of injury, claim number, total paid, outstanding reserves, and total incurred losses. Claims must be listed in alphabetical order.

(B) A report of losses covering the self-insured period prior to the experience rating period. The report must list all open claims and must be valued as of January 1 of the current year. The report must include:

(i) The worker's name, listed in alphabetical order;

(ii) Date of injury;

(iii) Claim number;

(iv) Total paid;

(v) Outstanding reserves; and

(vi) Total incurred losses.

(C) Identification of claims involving catastrophes, Workers with Disabilities Program, permanent total disability or fatal benefits, third party recoveries, and claims where the total incurred has or is expected to exceed the self-insured retention of the self-insured employer's excess insurance policy.

(D) The total annual paid losses for the previous four fiscal years valued as of January 1 of the current year.

(b) Bulletin 209 provides guidelines for self-insured employers and their authorized representatives to use in submitting the required data. Bulletin 209 is available on the Workers' Compensation Division's website.

(c) Each self-insured city, county, or qualified self-insured employer group that is exempted from the security deposit requirements under ORS 656.407(3) and OAR 436-050-0185 must, in addition to the above, provide the director by March 1 of each year, the procedures, methods, and criteria used in the process of determining the amount of their actuarially sound workers' compensation loss fund, including procedures for determining the amount for injuries incurred but not reported. The director may require a qualified self-insured employer group exempted from the security deposit requirements to provide an actuarial study that demonstrates its loss reserve account is actuarially sound and adequately funded under OAR 436-050-0185(2)(d).

(7) Notwithstanding sections (1) through (5) of this rule, the director may require a self-insured employer group to submit financial statements, reports, or information more frequently for reasons including, but not limited to, changes in the group's financial status or viability, private employer members' individual net worth, group membership, private employer groups' board membership, or incurred claims costs.

(8) Notwithstanding section (6) of this rule, the director may require a self-insured employer to submit claim loss data more frequently if the nature of the self-insured employer's business has changed since the last annual loss report for reasons including, but not limited to, mergers or acquisitions, changes in employment level, nature of employment, or incurred claims costs.

(9) If a self-insured employer fails to comply with the requirements of sections (1) through (8) of this rule, the director may impose any or all of the following sanctions:

(a) Require the self-insured employer to increase its deposit and premium assessments by 25%;

(b) Conduct an audit to obtain the necessary loss information at the self-insured employer's expense;

(c) Assess civil penalties of up to \$250 per day that the information is not provided beyond the deadline; or

(d) Revoke the employer's certification for self-insurance.

(10) To ensure each self-insured employer's claims are valued appropriately for use in deposit, experience rating, and retrospective rating calculations, the director will perform routine test audits. If a self-insured employer's total claims values are found to be 10 percent or more below the director's determined values, the current experience rating will be recalculated using the director's determined values and will be used in the security deposit and retrospective rating calculations. In addition, penalties may be assessed.

Department of Corrections Chapter 291

Rule Caption: Earned discharge for offenders on probation or local control post-prison supervision

Adm. Order No.: DOC 18-2015(Temp)

Filed with Sec. of State: 12-28-2015

Certified to be Effective: 1-1-16 thru 6-28-16

Notice Publication Date:

Rules Amended: 291-209-0010, 291-209-0020, 291-209-0030, 291-209-0040, 291-209-0070

Rules Suspended: 291-209-0050, 291-209-0060

Subject: These rule amendments are necessary to implement 2015 legislation (HB 3070). This revision clarifies that earned discharge applies to probation as well as local control post-prison supervision. The process for determining an offender's eligibility for earned discharge has been modified. Now earned discharge is determined by a one-time review of an offender's compliance with conditions of supervision. Previously time credits were used to calculate when an offender could be discharged.

Rules Coordinator: Janet R. Worley—(503) 945-0933

Authority, Purpose, and Policy

(1) Authority: The authority for this rule is granted to the Director of the Department of Corrections in accordance with ORS 137.633, 179.040, 423.020, 423.030, and 423.075.

(2) Purpose: The purpose of these rules is to describe the manner in which an offender sentenced to felony probation or to the legal and physical custody of the supervisory authority under ORS 137.124(2) may receive a reduction in the period of probation or local control post-prison supervision in accordance with the provisions of ORS 137.633.

(3) Policy:

(a) It is the policy of the Department of Corrections that eligible offenders be considered by the supervisory authority for a reduction in the period of probation or local control post-prison supervision for complying with their terms of supervision, including the payment of restitution and participation in recidivism reduction programs, as provided in these rules.

(b) Offenders whose supervision has been transferred to Oregon under the Interstate Compact for Adult Offender Supervision are ineligible for earned discharge under these rules.

(c) These rules apply to offenders convicted of a felony and sentenced on or after August 1, 2013, to probation or to the legal and physical custody of the supervisory authority under ORS 137.124(2).

(d) These rules do not apply to persons who:

(A) Were originally sentenced before August 1, 2013, and who are subsequently resentenced on or after August 1, 2013, as the result of an

appellate decision or a post-conviction relief proceeding or for any other reason; or

(B) Were sentenced on or after August 1, 2013, to probation or to the legal and physical custody of the supervisory authority but the supervision is under the jurisdiction of the Board of Parole and Post-Prison Supervision.

ADMINISTRATIVE RULES

Rules Amended: 330-140-0020, 330-140-0060, 330-140-0070, 330-140-0140

Subject: The rule amendments update the administrative rules for the Self-direction of Public Purpose Charges by Large Retail Electricity Customers (LECPPP) program to align with current Oregon Board of Accountancy guidelines and current agency practices. The amendments change the rules to require that a certified public accountant “attest” that project costs are accurate, rather than creating a “statement of compilation.” The amendments also update the requirements for providing proof of qualified expenditures. With regard to cost recovery, the amendments eliminate a reference to the fixed annual deposit of \$1,200 to be paid by LECPPP participants, while retaining the per-project deposit of up to four percent of project costs. As program costs have declined over time, the department no longer requires participants to pay an annual deposit. The amendments also modify the process for comparing deposits received with the department’s cost of services, eliminating the current true-up process in favor of an annual review to assure that costs of operating the program are recovered. The rules are effective upon filing.

Rule Caption: Amends requirements for including green energy technology in new construction and renovation of public buildings.

Adm. Order No.: DOE 8-2015

Filed with Sec. of State: 12-23-2015

Certified to be Effective: 1-1-16

Notice Publication Date: 9-1-2015

Rules Amended: 330-135-0055

Subject: The rule amendments make the rules consistent with statutory amendments adopted through House Bill 2987, passed by the 2015 Oregon Legislative Assembly, which revised the requirements for public bodies to spend 1.5 percent of the total contract price for the construction, renovation or major remodel of a public building. When a public body finds that green energy technology is not appropriate for a current project, the amount that would have been spent is deferred and must be added to the 1.5 percent on a future project. The bill amendments removed a requirement to deposit the deferred funds into a separate account, while preserving the requirement for contracting agencies to report to the department on the amount and eventual use of deferred funds. Therefore, the amended rules remove the requirement for public entities to report to the Oregon Department of Energy information about the account or fund where the deferred funds would be held. The bill also added a requirement for public bodies to report to the Oregon Department of Energy on the aggregate amount of funds that have been deferred for green energy technology. The rules are effective January 1, 2016.

Rules Coordinator: Elizabeth Ross—(503) 378-8534

Requirement to Report on Green Energy Technology

(1) A contracting agency must enter information about its public building project into the green energy technology database after it makes its final determination about whether green energy technology is appropriate and before the construction/renovation of the building(s) commences.

(2) The contracting agency will enter the information into the green energy technology database using an online form provided by the department and accessible from the department website.

(3) Information entered in the green energy technology database must include, but not be limited to:

- (a) Project name;
- (b) Address of public building;
- (c) Name of contracting agency;
- (d) Contact information for reporting person;
- (e) Utility companies serving the building;
- (f) Date the contracting agency first advertised or otherwise solicited a contract for the construction, reconstruction or major renovation of the public building;
- (g) Total contract price;
- (h) Total insured building value (renovation projects);
- (i) Whether the project includes previously deferred funds, the name of the previous project(s), the amount of the deferred funds, and the aggregate amount of funds to be spent on the current project;
- (j) Projected start of construction and occupation date of building;
- (k) Description of the proposed green energy technology;
- (l) Location details of the green energy technology installation;
- (m) Disclosure of non-public funds used in financing the green energy technology;

(n) Estimated annual energy production or savings of the green energy system;

(o) Contracting agency determination of whether green energy technology is appropriate at the public building site or away from the public building site, or contracting agency decision to defer the expenditure;

(p) Technical review panel recommendation;

(q) Future project to which funds will be deferred and projected start of construction of the future building, if applicable and future project is known;

(r) The aggregate amount of funds the contracting agency has deferred but not yet used for green energy technology in another project;

(s) Cost-effectiveness comparison between green energy technology away-from-the-site of the public building compared to green energy technology at the site of public building under construction or renovation, if applicable; and

(t) Evidence of additional new renewable energy generation from green energy technology installed at the away-from-the-site location, if applicable.

(4) Upon completion of construction of the new building or major renovation and at the request of the department, the contracting agency must provide to the department the actual amount spent for green energy technology and, if significant changes were made to the green energy technology system design, an updated project description and updated estimated annual energy generation or savings.

Rule Caption: Commercial Dungeness Crab Season Opens in the Pacific Ocean and Columbia River.

Adm. Order No.: DFW 166-2015(Temp)

Filed with Sec. of State: 12-29-2015

Certified to be Effective: 1-1-16 thru 6-28-16

Notice Publication Date:

Rules Amended: 635-005-0465

Rules Suspended: 635-005-0465(T)

Subject: This amended rule sets the opening of the 2016 commercial Dungeness crab season in the Pacific Ocean and Columbia River as January 4, 2016. Previously, the season opening was delayed beyond the December 1 start date set in permanent rule due to elevated levels of the biotoxin domoic acid detected in crab samples during preseason testing. Three recent consecutive rounds of testing by the Oregon Department of Agriculture have shown domoic acid levels below U.S. Food and Drug Administration alert levels. This rule also establishes regulations preventing vessels choosing to participate in Oregon's fishery from participating in California's fishery until 30 days after those areas open. California fisheries remain closed at this time due to Domoic Acid in that area. Finally, rule modifications suspend the provision in permanent rule that suspends crab permit transfers during split-area openings within the Tri-State area (WA/OR/CA) due to the indeterminate nature of the closures in California.

Rules Coordinator: Michelle Tate—(503) 947-6044

Closed Season in Pacific Ocean and Columbia River

(1) It is *unlawful* to take, land or possess Dungeness crab for commercial purposes from the Pacific Ocean or Columbia River from August 15, 2015 through January 4, 2016, 08:59 AM.

(2) The season opening for the commercial Ocean Dungeness crab fishery may be delayed in one or more fishing zones based on the results of crab quality or biotoxin testing. The Pre-season Testing Protocol for the Tri-State Coastal Dungeness crab Commercial Fishery (hereafter, "Tri-State Protocol") specifies the process for establishing fishing zones (section VI) and coordinating the opening of the fishery in Washington, Oregon, and California north of Point Arena (sections IV and V). Therefore, the following sections of the Tri-State Protocol (Revised July 2014) are hereby incorporated into Oregon Administrative Rule by reference:

- (a) Section IV – Season Opening Criteria.

ADMINISTRATIVE RULES

(b) Section V – Test Fishing and Process for Setting the Season Opening Date.

(c) Section VI – Procedure for Establishing Fishing Zones. In the event that crab quality tests do not meet the criteria for opening the season on December 1, the Director shall adopt temporary rules delaying the season in accordance with the Tri-State Protocol. In the event areas within the Tri-State area are delayed for elevated levels of biotoxins, a vessel used for fishing crab in an open zone may not be used for fishing crab in a delayed zone until 30 days after the delayed zone has opened. The fisher must declare on the pre-season hold inspection certificate the zone in which the vessel will start fishing.

(3) It is unlawful to land, receive or buy, Dungeness crab in the first thirty days of the ocean Dungeness crab fishery from a vessel that has not been certified by officials of the State of Oregon, Washington, or California to have been free of Dungeness crab before fishing in the ocean Dungeness crab fishery. In the event the area between Gray's Harbor, Washington and Point Arena, California is divided into zones with different season opening dates, the ocean Dungeness crab fishery refers to the fishery in that zone for the purposes of this rule.

(4) Upon a determination by the Department that catch in Oregon's ocean Dungeness crab fishery after May 31 is greater than ten percent of the catch in the previous December 1 through May 31 period, the Director shall adopt a temporary rule closing the commercial season until the following December 1.

(2) The Code of Federal Regulations (CFR), Title 50, Part 660, Subparts A and H, and the 2016 Oregon Sport Fishing Regulations contain requirements for sport salmon angling in the Pacific Ocean off the Oregon coast. However, additional regulations may be adopted from time to time, and, to the extent of any inconsistency, they supersede the published federal regulations and the **2016 Oregon Sport Fishing Regulations**. This means that persons must consult not only the federal regulations and the published sport fishing regulations but also the Department's web page to determine all applicable sport fishing regulations.

(3) This rule contains requirements that modify sport salmon angling regulations off the Oregon coast. The following modifications are organized in sections that apply to the ocean sport salmon fishery in general and within management zones established by the Pacific Fishery Management Council and enacted by Federal Regulations (CFR, Title 50, Part 660, Subparts A and H).

Youngs Bay Control Zone

(1) The **2016 Oregon Sport Fishing Regulations** provide requirements for the Columbia River Zone. However, additional regulations may be adopted in this rule division from time to time, and, to the extent of any inconsistency, they supersede the **2016 Oregon Sport Fishing Regulations**.

(2) The Youngs Bay Control Zone is closed to recreational angling from August 1 through September 15.

(a) The Youngs Bay Control Zone is defined as those waters southerly of a line originating on the Oregon shore at the east end of the seawall at the Warrenton Fiber log yard (approximately river mile 10.1) northeasterly through green navigation buoys 29, 31, 33, and 35A to the center of the Astoria-Megler Bridge abutment adjacent to, and north of the ship channel, and continuing southerly in line with the center of the Megler Bridge span to the Oregon shore.

(b) The Youngs Bay Control Zone includes all waters from the line defined in section (2)(a) above south to the Highway 101 Bridge.

ADMINISTRATIVE RULES

635-039-0090

Inclusions and Modifications

(1) The **2016 Oregon Sport Fishing Regulations** provide requirements for sport fisheries for marine fish, shellfish, and marine invertebrates in the Pacific Ocean, coastal bays, and beaches, commonly referred to as the Marine Zone. However, additional regulations may be adopted in this rule division from time to time and to the extent of any inconsistency, they supersede the **2016 Oregon Sport Fishing Regulations**.

(2) For the purposes of this rule, a "sport harvest guideline" is defined as a specified numerical harvest objective that is not a quota. Attainment of a harvest guideline does not automatically close a fishery. Upon attainment of a sport harvest guideline, the Department shall initiate consultation to determine if additional regulatory actions are necessary to achieve management objectives.

(a) The following sport harvest guidelines include the combined landings and other fishery related mortality by the Oregon sport fishery in a single calendar year:

- (A) Black rockfish, 440.8 metric tons.
- (B) Cabezon, 16.8 metric tons.
- (C) Blue rockfish and other nearshore rockfish combined, 26 metric tons.

(b) The following sport harvest guidelines include total landings in the Oregon sport ocean boat fishery in a single calendar year: Greenling, 5.2 metric tons.

(3) For the purposes of this rule, "Other nearshore rockfish" means the following rockfish species: black and yellow (*Sebastes chrysomelas*); brown (*S. auriculatus*); calico (*S. dalli*); China (*S. nebulosus*); copper (*S. caurinus*); gopher (*S. carnatus*); grass (*S. rastrelliger*); kelp (*S. atrovirens*); olive (*S. serranoides*); quillback (*S. maliger*); and treefish (*S. serripes*).

(4) In addition to the regulations for Marine Fish in the **2016 Oregon Sport Fishing Regulations**, the following apply for the sport fishery in the Marine Zone in 2016:

(a) Lingcod (including green colored lingcod): 2 fish daily bag limit.

(b) All rockfish ("sea bass" "snapper"), greenling ("sea trout"), cabezon, skates, and other marine fish species not listed in the **2016 Oregon Sport Fishing Regulations** in the Marine Zone, located under the category of Species Name, Marine Fish: 7 fish daily bag limit in aggregate (total sum or number), of which no more than three may be a blue rockfish, no more than one may be a canary rockfish, and no more than one may be a cabezon. Retention of the following species is prohibited:

- (A) Yelloweye rockfish;
- (B) China rockfish;
- (C) Copper rockfish;
- (D) Quillback rockfish; and
- (E) Cabezon from January 1 through June 30.

(c) Flatfish (flounder, sole, sanddabs, turbot, and all halibut species except Pacific halibut): 25 fish daily bag limit in aggregate (total sum or number).

(d) Retention of all marine fish listed under the category of Species Name, Marine Fish, except Pacific cod, sablefish, flatfish, herring, anchovy, smelt, sardine, striped bass, and offshore pelagic species (excluding leopard shark and soupfin shark), is prohibited when Pacific halibut is retained on the vessel during open days for the all-depth sport fishery for Pacific halibut north of Humberg Mountain. Persons must also consult all publications referenced in OAR 635-039-0080 to determine all rules applicable to the taking of Pacific halibut.

(e) Harvest methods and other specifications for marine fish in subsections (4)(a), (4)(b) and (4)(c) including the following:

- (A) Minimum length for lingcod, 22 inches.
- (B) Minimum length for cabezon, 16 inches.
- (C) Minimum length for greenling, 10 inches.
- (D) May be taken by angling, hand, bow and arrow, spear, gaff hook, snag hook and herring jigs.
- (E) Mutilating the fish so the size or species cannot be determined prior to landing or transporting mutilated fish across state waters is prohibited.

(f) Sport fisheries for species in subsections (4)(a), (4)(b) and (4)(c) and including leopard shark and soupfin shark are open January 1 through December 31, twenty-four hours per day, except as provided in subsections (4)(a) and (4)(d), and ocean waters are closed for these species during April 1 through September 30, outside of the 30-fathom curve (defined by latitude and longitude) as shown on Title 50 Code of Federal Regulations Part 660 Section 71. A 20-fathom, 25-fathom, or 30-fathom curve, as shown on Title 50 Code of Federal Regulations Part 660 Section 71 may be implemented as the management line as in-season modifications necessitate. In

addition, the following management lines may be used to set area specific regulations for inseason action only:

- (A) Cape Lookout (45°20'30" N latitude); and
- (B) Cape Blanco (42°50'20" N latitude).

(g) The Stonewall Bank Yelloweye Rockfish Conservation Area (YRCA) is defined by coordinates specified in Title 50 Code of Federal Regulations Part 660 Section 70 (October 1, 2014 ed.). Within the YRCA, it is unlawful to fish for, take, or retain species listed in subsections (4)(a), (4)(b) and (4)(c) of this rule, leopard shark, soupfin shark, and Pacific halibut using recreational fishing gear. A vessel engaged in recreational fishing within the YRCA is prohibited from possessing any species listed in subsections (4)(a), (4)(b) and (4)(c) of this rule, leopard shark, soupfin shark, and Pacific halibut. Recreational fishing vessels in possession of species listed in subsections (4)(a), (4)(b) and (4)(c) and including leopard shark, soupfin shark, and Pacific halibut may transit the YRCA without fishing gear in the water.

Exclusion Certificates

(1) Pursuant to 2015 Oregon Laws chapter 834 [enrolled HB 3563], an exclusion certificate is required for a surface mining operation that falls under the thresholds for which an operating permit is required. A person seeking an exclusion certificate must file an application as provided in section (2) of this rule and the application must be accompanied by the fee required under OAR 632-030-022. The application must be filed in accordance with the schedule established in section (3) of this rule.

(a) When a mining operation that is subject to an exclusion certificate loses its eligibility and is required to obtain an operating permit, all areas and operations at the site are subject to the Act and the rules adopted thereunder. When multiple mining areas are located within one parcel or contiguous parcels, the yards produced and disturbed acreage shall be calculated based on the total of all sites within the parcel or contiguous parcels.

(b) Excavation or other land disturbance operations reasonably necessary for farming include only the term “farming” as used in ORS 517.750(15)(b)(B) and means “farm use” as defined in ORS 215.203 but does not include other uses permitted in exclusive farm-use zones under ORS 215.213 or 215.283. Farm excavation or other land disturbance operations are reasonably necessary only if it substantially contributes to the profitability of the farm use and other alternatives to accomplish the same objective are significantly more expensive or otherwise impractical. Farming does not include excavation for ponds intended for recreational or aesthetics purposes or for fish or wildlife habitat.

(2) An application for an exclusion certificate must be made on the form approved by the Department. The application must include the following information:

- (a) The name of the operator;
- (b) Location of the excavation;
- (c) The ownership of the property; if the operator is not the landowner, the operator shall provide written proof of land owner’s permission to mine the site on the landowner’s property.
- (d) Size of the site;
- (e) Date of commencement of the excavation;
- (f) A detailed summary of the mining activities during the previous 60 months;
- (g) An explanation of why the activity is exempt; and
- (h) Any other information that the Department determines to be useful to determine whether an operation is properly excluded from permitting and reclamation requirements.

(3) Applications for exclusion certificates for existing aggregate mining operations must be filed no later than March 31, 2016. Applications for existing nonaggregate mineral mining operations (including metal mines) must be filed no later than June 30, 2016. Mining operations that both produce aggregate and recover metals or other non-aggregate minerals are subject to the deadline for aggregate mines. Applications for new mines must be filed within 90 days after excavation commences.

(4) The Department will review an application upon receipt and notify the applicant whether the application is complete. If an application is deemed incomplete it will be returned to the applicant with a description of the missing information.

(5) The holder of an exclusion certificate must file an annual report on the anniversary date of the issuance of the certificate. The annual report must be accompanied by the annual fee establish 2015 Oregon Laws chapter 834, Section 2 [enrolled HB 3563] and must include the following information:

- (a) Volume of minerals extracted during the previous year;
- (b) Amount of additional lands affected by mining during the previous year; and
- (c) Total number of acres affected by the operation.

Fees

(1) The fees applicable to this rule division are the maximum fees allowed by ORS 517.800 and 2015 Oregon Laws chapter 834, Section 2 [enrolled HB 3563] except as provided below.

(2) Annual Fees are due on the anniversary date of the issuance of the operating permit unless a different renewal date is established by the Department. The Department will provide the permittee with 60 days advance notice before establishing a new renewal date. The Department will prorate annual fees at the permittee’s request if a new renewal date is established.

(3) A permittee or holder of an exclusion certificate, or a limited exemption certificate must renew the operating permit, exclusion certificate or limited exemption certificate annually, on or before the last day of the month shown on the permit or certificate as the renewal month. Operators that hold both a limited exemption certificate and an operating permit on the same property, or contiguous properties that are operated as a single mining activity, shall pay a single annual renewal fee pursuant to ORS 517.800, based upon the total reported production from all sites within the parcel or contiguous parcels. The annual fee must be paid and the annual report form returned prior to renewal. A permittee or certificate holder must pay all delinquent fees owed to this Department prior to renewal of the permit or certificate;

(4) The Department will impose a late fee equal to five percent of the amount of any annual fee that is more than 60 days past due.

(5) The fees established by this rule also apply to emergency permits issued pursuant to ORS 517.832 and temporary operating permits issued under ORS 517.834.

(6) The Department may waive the fee for a minor amendment in those situations where significant administrative resources are not needed to process the amendment.

ADMINISTRATIVE RULES

Department of Administrative Services. The DAS rules (OAR 125-007-0200 to 125-007-0330) became effective 1/4/2016. The Department of Human Services is modifying its criminal records check rules to align with the DAS rules.

In addition, the statutes governing the criminal records check processes (ORS chapter 181) have been renumbered to ORS 181A. References to these statutes have been corrected.

Temporary rules are available on the Department of Human Services website: <http://www.oregon.gov/DHS/POLICIES/Pages/ss-admin-rules.aspx>. For hardcopy requests, call: (503) 947-5250.

407-007-0200

Purpose and Scope

(1) The purpose of these rules, OAR 407-007-0200 to 407-007-0370, is to supplement OAR 125-008-0200 to 125-007-0330 with guidelines and requirements specific to background checks for Department of Human Services (Department) and Oregon Health Authority (Authority) subject individuals (SIs). These rules provide for the reasonable screening under ORS 181A.195, 181A.200, and 409.027 of SIs to determine if they have a history of criminal or abusive behavior such that they should not be allowed to work, volunteer, be employed, reside, or otherwise perform in positions covered by these rules.

(2) These rules apply to evaluating criminal records and potentially disqualifying conditions of an SI when conducting fitness determinations based upon such information. The fact that an SI is approved does not guarantee employment or placement. These rules do not apply to individuals subject to OAR 407-007-0000 to 407-007-0100 or 407-007-0400 to 407-007-0460.

(3) Providers for the Department and the Authority are subject to criminal records and abuse checks. The Authority authorizes the Department to act on its behalf in carrying out criminal and abuse checks associated with programs or activities administered by the Authority. References in these rules to the Department or Authority shall be construed to be references to either or both agencies.

Background Check Required

(1) BCU shall conduct criminal records checks on all SIs through LEDS maintained by OSP in accordance with ORS Chapter 181 and the rules adopted thereto (see OAR chapter 125, division 007; and chapter 257, division 15).

(2) If a national criminal records check is necessary, OSP shall provide BCU results of national criminal records checks conducted pursuant to ORS 181A.195, including fingerprint identification, through the FBI.

(3) BCU shall conduct abuse checks using available abuse investigation reports and associated documents.

(4) Unless an SI meets a criterion under section (7) of this rule, an SI must have a background check in the following circumstances:

(a) An individual who becomes an SI on or after the effective date of these rules.

(b) The SI changes employers to a different QE.

(c) The individual, whether previously considered an SI or not, changes positions under the same QE, and the new position requires a background check.

(d) The individual, whether previously considered an SI or not, changes Department or Authority-issued licenses, certifications, or registrations, and the license, certification, or registration requires a background check under these rules.

(e) For a student enrolled in a long term care facility nursing assistant training program for employment at the facility, a new background check is

ADMINISTRATIVE RULES

required when the student becomes an employee at the facility. A new background check is not required by the Department or the Authority at graduation from the training program or at the granting of certification by the Board of Nursing unless the Department, the Authority, or the QE have reason to believe that a background check is justified.

(f) A background check is required by federal or state laws or regulations, other Department or Authority administrative rules, or by contract with the Department or Authority.

(g) When BCU or the QE has reason to believe that a background check is justified. Examples include but are not limited to:

(A) Any indication of possible criminal or abusive behavior by an SI.

(B) A lapse in working or volunteering in a position under the direction and control of the QE but the SI is still considered in the position. For example, an extended period of leave by an SI. The QE determines the need for a background check.

(C) Quality assurance monitoring by the Department or Authority of a previously conducted criminal records check or abuse check.

(5) If the SI is subject to a background check due to involvement with the foster or adoptive placement of a child and:

(a) Is subject to the Interstate Compact on Placement of Children (ORS 417.200 and OAR 413-040-0200 to 413-040-0330), the background check must comply with Interstate Compact requirements.

(b) Is subject to the Inter-County Adoption Act of 2000 (42 USC 14901 et seq.), the background check must comply with federal requirements and ORS 417.262.

(6) If QEs, Department program rules, or Authority program rules require an SI to report any new arrests, charges, or convictions, the QE may determine if personnel action is required if the SI does not report. Personnel action may include a new background check.

(7) A background check is not required under the following circumstances:

(a) A homecare worker or personal support worker, as defined in ORS 410.600, has a Department background check notice of final fitness determination dated within the recheck period according to Department program rules showing that the homecare worker or personal support worker has been approved or approved with restrictions, and listing a worksite of "various," "various clients," "statewide," or similar wording.

(b) A personal care services provider, Lifespan Respite or other respite care provider, or an independent provider paid with Department or Authority funds who changes or adds clients within the same QE, Department, or Authority district, and the prior, documented criminal records check or abuse check conducted within the previous 24 months through the Department or Authority has been approved without restrictions.

(c) The SI is a child care provider as described in OAR 461-165-0180 who changes or adds clients and who has been approved without restrictions within the required recheck period according to Department program rules.

(d) The SI remains with a QE in the same position listed on the background check request while the QE merges with another QE, is sold to another QE, or changes names. The changes may be noted in documentation attached to the notice of fitness determination but do not warrant a background check.

(e) The SI is on the background check registry maintained under OAR 407-007-0600 to 407-007-0640.

(8) Background checks are completed on SIs who otherwise meet the qualifications of the position listed on the background check request. A background check may not be used to screen applicants for a position.

Qualified Entity

(1) A QE and its appointing authority must be approved in writing by the Department or Authority pursuant to these rules in order to appoint a QED. Documentation of a current and valid license, certification, contract, or letter of approval from the Department or Authority are considered proof

of approval. Unless specifically indicated otherwise in these rules, all QEs and appointing authorities discussed in these rules are considered approved.

(4) A QE's appointing authority shall appoint QEDs as needed to remain in compliance with these rules and shall communicate any changes regarding QEDs or QEIs to BCU. BCU strongly recommends that the QE have at least one QED at any facility where clients are receiving care in order to handle any immediate responsibilities of a QED, such as removing an SI from work or placement when required.

(5) If for any reason a QE no longer has any QEDs, the QE or appointing authority shall ensure that the confidentiality and security of background check records by immediately providing all background check related documents to BCU or to another QE as determined by BCU.

QE Designees and QE Initiators

(1) All requirements in this section must be completed within 90 calendar days. To receive BCU approval, a QED must meet the following requirements:

(a) A QED must be one of the following:

(A) Employed by the agency for which the QED will handle criminal records check information.

(B) Contracted with the QE to perform as a QED.

(C) Employed by another similar QE or a parent QE. For example, an assisted living facility QED may act as QED for another assisted living facility.

(D) The licensee of the QE.

(b) A QED must be an approved SI with a record in CRIMS within the past three years for at least one of the QEs for which the QED will manage background checks.

(c) A QED must have:

(A) Competency in computer skills for accessing CRIMS online, entering data, corresponding via e-mail, and managing background check records in CRIMS;

(B) Work-related access to a desktop or laptop computer and the internet; and

(C) A work-related e-mail account.

(d) A QED must complete a certification program and successfully pass any BCU required testing.

(e) An appointing authority must appoint a QED. The applicant QED must complete and submit required documents and information to BCU for processing and registration.

(2) BCU shall deny the individual's status as a QED if the individual does not meet QED requirements. Once denied, the individual may no longer perform the duties of a QED. There are no exceptions for individuals who fail to meet QED requirements.

(3) An approved QED shall have the following responsibilities:

(a) Demonstrate understanding of and adherence to these rules in all actions pertaining to the background check process.

(b) Act as the Department's designee in any action pursuant to these rules and the background check process. A QED may not advocate for an SI during any part of the background check process, including contesting a fitness determination.

(c) Ensure that adequate measures are taken to protect the confidentiality of the records and documents required by these rules. A QED may not view criminal offender information. A QED may not view abuse inves-

ADMINISTRATIVE RULES

tigation reports and associated abuse investigation exhibits or documents as part of the background check process.

(d) A QED shall verify the SI's identity or ensure that the same verification requirements are understood by each individual responsible for verifying identity. The QE may verify identity at any time during the hiring or placement process up to the submission of the background check request.

(A) If conducting a background check on the SI for the first time or at rehire of the SI, a QED shall verify identity or ensure identity is verified by using methods which include but are not limited to reviewing the SI's current and valid government-issued photo identification and confirming the information on the photo identification with the SI, the information included in the background check request, and the information written on the fingerprint card if a national criminal records check is conducted.

(B) If an SI is being rechecked for the same QE without any break in placement, service, or employment, review of government-issued photo identification may not be necessary. The QED shall verify the SI's name, current address, and any aliases or previous names, or ensure this information is verified.

(e) Ensure that an SI is not permitted to work, volunteer, reside, or otherwise hold any position covered by these rules before the submission of the background check request to BCU.

(f) Review the SI's background check request to ensure completeness of the information, verify identity, and to determine if the SI has any disclosed criminal history. If the SI has adverse criminal history within the five year period from the date the SI manually or electronically signed the background check request, the QED may request in writing that BCU make a preliminary fitness determination requiring a weighing test.

(g) Ensure that the result of the preliminary fitness determination granting the QE to hire the SI on a preliminary basis, or prohibiting the QE from hiring the SI on a preliminary basis, is followed.

(h) Ensure that when an SI is hired on a preliminary basis, the need for active supervision is understood by each individual responsible for providing active supervision.

(i) Ensure that if an SI is removed from working on a preliminary basis, the SI is immediately removed from the position and remains removed until BCU reinstates hired on a preliminary basis or the completion of a final fitness determination allowing the SI to resume the position.

(j) Ensure that the SI has directions to complete a fingerprint capture and monitor the SI's process in getting the fingerprints taken.

(k) Notify BCU of any changes regarding an SI who still has a background check in process, including but not limited to address or employment status changes.

(L) Monitor the status of background check applications and investigate any delays in processing.

(m) Ensure that documentation required by these rules is processed and maintained in accordance with these rules.

(n) Notify BCU immediately if arrested, charged, or convicted of any crime, or if found responsible for abuse by the Department or Authority.

(4) BCU may change QED status in the following circumstances which include but are not limited to:

(a) When the position with the QE ends or when the QE terminates the appointment. The QE shall notify BCU immediately upon the end of the position or termination of the appointment and BCU shall inactivate QED status.

(b) If a QED fails to comply with responsibilities or fails to continue to meet the requirements for QED status, as applicable. After suspending or revoking the appointment, the QE must immediately notify the BCU in writing. If BCU takes the action to suspend or revoke the appointment, it must immediately notify the QE in writing.

(c) If a QED fails to recertify, BCU shall revoke QED status.

(5) Any changes to QED status are not subject to appeal rights unless the denial or termination results in immediate loss of employment or position. A QED losing employment or position has the same hearing rights as other SIs under these rules.

(6) If a QED leaves employment or position with the QE for any reason, BCU shall inactivate QED status. If the individual finds employment with another QE, BCU shall determine the requirement for reactivation of QED status.

(7) BCU shall review and recertify appointments of QEDs, up to and including a new application, background check, and additional training under the following circumstances:

(a) Every three years; or

(b) At any time BCU has reason to believe the individual no longer meets QED requirements including but not limited to indication of criminal or abusive behavior or noncompliance with these rules.

(8) With BCU approval, QEs may appoint QEs to enter background check request into CRIMS. QEs must:

(a) Be currently approved SIs for the QE;

(b) Possess competency in computer skills for accessing CRIMS online and entering background check records into CRIMS;

(c) Maintain internet access and working email accounts to access CRIMS; and

(d) Meet other criteria as determined by BCU and the QE.

Background Check Process

(1) A QE and SI shall use CRIMS to request a background check. In addition to information required in OAR 125-007-0220 the background check request shall include the following information regarding an SI:

(a) Worksite location or locations where the SI will be working;

(b) Disclosure of all criminal history;

(A) The SI must disclose all arrests, charges, and convictions regardless of outcome or when the arrests, charges, or convictions occurred. Disclosure includes any juvenile record.

(B) The disclosed crimes and the dates must reasonably match the SI's criminal offender information and other criminal records information, as determined by BCU.

(c) Disclosure of other information to be considered in the event of a weighing test.

(2) The background check request shall include the following notices to the SI:

(a) A notice regarding disclosure of Social Security number indicating that:

(A) The SI's disclosure is voluntary; and

(B) The Department requests the Social Security number solely for the purpose of positively identifying the SI during the criminal records check process.

(b) A notice that the SI may be subject to fingerprinting as part of a criminal records check.

(c) A notice that BCU shall conduct an abuse check on the SI. Unless required by program rule, an SI is not required to disclose any history of potentially disqualifying abuse, but may provide BCU with mitigating or other information.

(3) Using identifying information submitted in a background check request, BCU shall conduct an abuse check to determine if the subject individual has potentially disqualifying abuse.

(4) BCU shall conduct an Oregon criminal records check. Using information submitted on the background check request, BCU may obtain criminal offender information from LEDS and may request other criminal records information as needed.

(5) BCU shall handle criminal offender information in accordance with applicable OSP requirements in ORS chapter 181 and the rules adopted pursuant thereto (see OAR chapter 125, division 007 and chapter 257, division 15).

(6) BCU may conduct a fingerprint-based national criminal records check.

(a) A fingerprint-based national criminal records check may be completed under any of the following circumstances:

(A) The SI has been outside Oregon:

(i) For 60 or more consecutive days during the previous 18 months and the SI is a child care provider or other individual included in OAR 461-165-0180(4).

(ii) For 60 or more consecutive days during the previous five years for all other SIs.

(B) The LEDS check, SI disclosures, or any other criminal records information obtained by BCU indicate there may be criminal records outside of Oregon.

(C) The SI has an out-of-state driver license or out-of-state identification card.

(D) BCU or the QE has reason to question the identity of the SI or the information on the criminal record found in LEDS.

ADMINISTRATIVE RULES

(E) A fingerprint-based criminal records check is required by federal or state laws or regulations, other Department or Authority rules, or by contract with the Department or Authority.

(F) The SI is an employee of an agency the Centers of Medicare and Medicaid Services has designated high risk pursuant to 42 CFR 424.518.

(G) Any SI applying to be or renewing the position with regard to child adoption or children in foster care licensed by the Department or private licensed child caring agencies. Renewing SIs do not need a fingerprint-based criminal records check if BCU has a record of a previous fingerprint-based criminal records checks that is within BCU's retention schedule. Applicable SI positions include:

(i) A relative caregiver, foster parent, or adoptive parent in Oregon;

(ii) An adult household member in an adoptive or child foster home 18 years of age and over;

(iii) A household member in an adoptive or child foster home under 18 years of age if there is reason to believe that the household member may pose a risk to children placed in the home; or

(iv) A respite care provider in an adoptive or child foster home.

(H) BCU has reason to believe that fingerprints are needed to make a final fitness determination.

(b) BCU shall request a fingerprint capture for an SI under the age of 18 in accordance with OAR 125-007-0220(3).

(c) The SI shall complete and submit a fingerprint capture when requested by BCU within the time frame indicated in a written notice. BCU shall send the request to the QE and the QED shall notify the SI.

(A) BCU shall give the SI notice regarding the Social Security number as set forth in section (2)(a) of this rule.

(B) BCU may require new fingerprint capture and its submission if previous fingerprint captures results in a rejection by OSP or the FBI.

(7) BCU may also conduct a state-specific criminal records check instead of or in addition to a national criminal records check. Reasons for a state-specific criminal records check include but are not limited to:

(a) When BCU has reason to believe that out-of-state criminal records may exist and a national criminal records check cannot be accomplished.

(b) When BCU has been unable to complete a national criminal records check due to illegible fingerprints.

(c) When the national criminal records check results show incomplete information about charges or criminal records without final disposition.

(d) When there is indication of residency or criminal records in a state that does not submit all criminal records to the FBI.

(e) When, based on available information, BCU has reason to believe that a state-specific criminal records check is necessary.

(8) In order to complete a background check and fitness determination, BCU may require additional information from the SI including but not limited to additional criminal, judicial, other background information, or proof of identity.

(9) BCU may conduct a background check in situations of imminent danger.

(a) If the Department or Authority determines there is indication of criminal or abusive behavior that could more likely than not pose an immediate risk to vulnerable individuals, BCU shall conduct a new criminal records check on an SI without the completion of a new background check request.

(b) If BCU determines that a fitness determination based on the new background check would be adverse to the SI, BCU shall provide the SI, if available, the opportunity to disclose criminal records, potentially disqualifying conditions, and other information as indicated in OAR 407-007-0300 before completion of the fitness determination.

(10) All criminal records checks conducted under this rule shall be documented.

Other Potentially Disqualifying Conditions

Pursuant to OAR 125-007-0270(5), the following are potentially disqualifying conditions, if they exist on the date the Department receives the background check request:

(1) The SI makes a false statement to the QE or Department, including the provision of materially false information, false information regarding criminal records, or failure to disclose information regarding criminal records. Nondisclosure of violation or infraction charges may not be considered a false statement.

(2) The SI is a registered sex offender in any jurisdiction. There is a rebuttable presumption that an SI is likely to engage in conduct that would pose a significant risk to vulnerable individuals if the SI has been designated a predatory sex offender in any jurisdiction under ORS 181.585 or found to be a sexually violent dangerous offender under ORS 144.635 (or similar statutes in other jurisdictions).

(3) The SI has an outstanding warrant for any crime in any jurisdiction.

(4) The SI has a deferred sentence, conditional discharge, or is participating in a diversion program for any crime in any jurisdiction.

(6) The SI has been found in violation of post-prison supervision, parole, or probation for any crime in any jurisdiction, regardless of the original conviction date (or date of guilty or no contest plea if there is no conviction date) within five years from the date the background check request was electronically submitted to BCU through CRIMS or the date BCU conducted a criminal records check due to imminent danger.

(7) The SI has an unresolved arrest, charge, or a pending indictment for any crime in any jurisdiction.

(8) The SI has been arrested in any jurisdiction as a fugitive from another state or a fugitive from justice, regardless of the date of arrest.

(9) The SI has an adjudication in a juvenile court in any jurisdiction, finding that the SI was responsible for a potentially disqualifying crime that would result in a conviction if committed by an adult. Subsequent adverse rulings from a juvenile court, such as probation violations, shall also be considered potentially disqualifying if within five years from the date the background check request was signed or the date BCU conducted a criminal records check due to imminent danger.

(10) The SI has a finding of "guilty except for insanity," "guilty except by reason of insanity," "not guilty by reason of insanity," "responsible except for insanity," "not responsible by reason of mental disease or defect," or similarly worded disposition in any jurisdiction regarding a potentially disqualifying crime, unless the local statutes indicate that such an outcome is considered an acquittal.

(11) Potentially disqualifying abuse as determined from abuse investigation reports which have an outcome of founded, substantiated, or valid and in which the SI is determined to have been responsible for the abuse.

(a) For SIs associated with child foster homes licensed by the Department's DD programs, child foster homes licensed through the Department's Child Welfare Division, child foster homes licensed through a private licensed child caring agency, adoptive families through a private licensed child caring agency, or adoptive families through the Department's Child Welfare Division, potentially disqualifying abuse includes:

(A) Child protective services history held by the Department or OAAPI regardless of the date of initial report;

(B) Child protective services history reviewed pursuant to the federal Adam Walsh Act requirements, determined by BCU ADs to be potentially disqualifying; and

(C) Adult protective services investigations of physical abuse, sexual abuse, or financial exploitation initiated on or after January 1, 2010, as provided to BCU by OAAPI and APD programs based on severity.

(b) For staff, volunteers, or contractors of a private licensed child caring agency, an ISRS program, a SPRF provider, or a System of Care contractor providing child welfare services pursuant to ORS Chapter 418 potentially disqualifying abuse includes:

(A) Child protective services history held by the Department or OAAPI regardless of the date of initial report; and

(B) Adult protective services investigations of physical abuse, sexual abuse, or financial exploitation initiated on or after January 1, 2010, as provided to BCU by OAAPI and APD based on severity.

(c) For child care providers and associated subject individuals defined in OAR 407-007-0210(30)(a)(I):

(A) Child protective services history held by the Department or OAAPI regardless of the date of initial report, date of outcome, and considered potentially disqualifying pursuant to OAR 461-165-0420; and

(B) Adult protective services investigations of physical abuse, sexual abuse, or financial exploitation initiated on or after January 1, 2010, as provided to BCU by the OAAPI and APD programs based on severity.

(d) For all other SIs, potentially disqualifying abuse includes founded or substantiated adult protective services investigations of physical abuse, sexual abuse, or financial exploitation initiated on or after January 1, 2010, as provided to the BCU by OAAPI and APD programs based on severity.

(12) Child protective services investigations open or pending through the Department or OAAPI as of the date the background check request was electronically submitted to BCU through CRIMS or the date BCU conducted a criminal records check due to imminent danger. This potentially disqualifying condition only applies to:

(a) SIs associated with child foster homes licensed by the Department's DD programs, child foster homes licensed through the Department's Child Welfare Division, child foster homes licensed through a private licensed child caring agency, adoptive families through a private licensed child caring agency, or adoptive families through the Department's Child Welfare Division;

(b) Staff, volunteers or contractors of a private licensed child caring agency, an ISRS program, a SPRF provider, or a System of Care contractor, providing child welfare services pursuant to ORS Chapter 418; or

(c) Child care providers and associated subject individuals defined in OAR 407-007-0210(30)(a)(I).

(i) Indication of the SI's cooperation, honesty, or the making of a false statement during the criminal records check process, including acknowledgment and acceptance of responsibility of criminal activity and potentially disqualifying conditions.

(4) BCU shall consider the relevancy of the SI's criminal activity or potentially disqualifying conditions to the paid or volunteer position, or to the environment in which the SI will reside, work, or visit.

Hired on a Preliminary Basis

(1) A preliminary fitness determination is required to determine if an SI may work, volunteer, or otherwise perform in the position listed on the background check request prior to a final fitness determination. An SI may not be hired on a preliminary basis prior to the completion of a preliminary fitness determination.

(2) An SI may be hired on a preliminary basis only during the period of time prior to a final fitness determination and into the position listed on the background check request.

(3) The SI must provide information required for a background check request and the QED must review the information.

(4) The QED shall make one of the following determinations:

(a) If the SI makes no disclosures of criminal history, the QED may hire the SI on a preliminary basis in accordance with relevant program rules or QE policies.

(b) If the SI discloses any criminal history and all of the history occurred outside the five year period from the date the SI manually or electronically signed the background check request, the QED may hire the SI on a preliminary basis in accordance with relevant program rules or QE policies.

(c) If the SI indicates any criminal history occurring within the five year period from the date the SI manually or electronically signed the background check request:

(A) The QED may allow the SI to be hired on a preliminary basis if the disclosed criminal history has the outcome of "dismissed," "no complaint filed," "expunged," or other outcome that BCU determines is not adverse.

(B) The QED may not allow the SI to be hired on a preliminary basis if the disclosed criminal history has an outcome of "pending outcome," "diversion or conditional discharge," "convicted," "on probation," "juvenile adjudication," "unknown," or other outcome that BCU determines is adverse.

(5) The QED shall submit the background check request to BCU immediately upon verification of the SI's identity, the SI's completion of the background check request, and the QED's completion of the preliminary fitness determination.

(6) If requested by the QED, BCU may conduct a preliminary fitness determination with a weighing test pursuant to OAR 125-007-0250.

(7) The QE may not hire a SI on a preliminary basis under any of the following circumstances:

(a) Being hired on a preliminary basis or probationary status is not allowed under program rules.

(b) The SI has disclosed criminal history occurring within the past five years that has an outcome of "pending outcome," "diversion or conditional discharge," "convicted," "on probation," "juvenile adjudication," "unknown" or other outcome BCU determines to be adverse and BCU has not completed a preliminary fitness determination resulting in the QE being allowed to hire the SI on a preliminary basis.

(c) The QE or BCU determines that:

(A) More likely than not, the SI poses a potential threat to vulnerable individuals, based on a preliminary fitness determination and weighing test;

(B) The SI's most recent background check under these rules or other Department or Authority criminal records check rules or abuse check rules resulted in a denial; or

(C) The SI is currently involved in contesting a background check under these or other Department or Authority criminal records check rules or abuse check rules.

(D) BCU has reason to believe hiring on a preliminary basis is not appropriate based on circumstances or compliance with the background check process of the SI, QED, or QE.

(d) An outcome of no hiring on a preliminary basis may only be overturned by the BCU.

(8) An SI hired on a preliminary basis shall be actively supervised at all times.

(a) The individual providing active supervision at all times shall do the following:

(A) Be in the same building as the SI or, if outdoors of QE buildings or any location off the QE property, be within line-of-sight and hearing, except as provided in section (8)(b)(B) of this rule;

(B) Know where the SI is and what the SI is doing; and

(C) Periodically observe the actions of the SI.

(b) The individual providing the active supervision may be either:

(A) An SI who has been approved without restrictions pursuant to these rules or previous Department or Authority criminal records check rules; or

(B) The adult client, an adult client's adult relation, the client's legal representative, or a child's parent or guardian. Active supervision by these individuals is appropriate in situations where care is given directly to clients usually in a home such as but not limited to in-home care, home health, or care by home care workers, personal care assistants, or child care providers.

(i) The adult client may actively supervise a homecare worker, personal care services provider, independent provider, or an employee of an in-home care agency or home health agency if the client makes an informed decision to employ the provider. Someone related to the client may also provide active supervision if the relative has been approved by the Department, the Authority, the QED, or the private-pay client receiving services through an in-home care or home health agency.

(ii) A child client's parent or guardian shall be responsible for providing active supervision in the case of child care providers. The supervision is not required to be performed by someone in the same building as the child.

(9) An SI approved without restrictions within the previous 24 months through a documented criminal records check or abuse check pursuant to these rules or prior Department or Authority criminal records check rules or abuse check rules may be hired on a preliminary basis without active supervision. Twenty-four months is calculated from date of previous approval to

ADMINISTRATIVE RULES

the date of hire in the new position. This exemption from active supervision is not allowed in any of the following situations:

(a) If the SI cannot provide documented proof that he or she worked continuously under the previous approval for at least one year.

(b) If there is evidence of criminal activity or potentially disqualifying abuse within the previous 24 months.

(c) If, as determined by the QE or BCU, the job duties in the new position are so substantially different from the previous position that the previous fitness determination is inadequate for the current position.

(10) Revocation of hired on a preliminary basis is not subject to hearing or appeal. The QE or BCU may immediately revoke hired on a preliminary basis for any of the following reasons:

(a) There is any indication of falsification of application.

(b) The SI fails to disclose convictions for any potentially disqualifying crimes, any arrests that did not result in convictions or any out of state arrests or convictions.

(c) The QE or BCU determines that allowing the SI to be hired on a preliminary basis is not appropriate, based on the application, criminal record, position duties, or Department program rules.

(11) Nothing in this rule is intended to require that an SI who is eligible to be hired on a preliminary basis be allowed to work, volunteer, be employed, or otherwise perform in the position listed on the background check request prior to a final fitness determination.

(12) Preliminary fitness determinations must be documented in writing, including any details regarding a weighing test, if required.

Final Fitness Determinations

BCU shall make a final fitness determination pursuant to OAR 125-007-0260 after all necessary background checks have been received and a weighing test, if necessary, has been completed.

(1) The final fitness determination results in one of the following outcomes:

(a) BCU may approve an SI if:

(A) The SI has no potentially disqualifying convictions or potentially disqualifying conditions; or

(B) The SI has potentially disqualifying convictions or potentially disqualifying conditions and, after a weighing test, BCU determines that more likely than not, the SI poses no risk to the physical, emotional, or financial well-being of vulnerable individuals.

(b) BCU may approve an SI with restrictions if BCU determines that more likely than not, the SI poses no risk to the physical, emotional, or financial well-being of vulnerable individuals if certain restrictions are placed on the SI. Restrictions may include but are not limited to restrictions to one or more specific clients, job duties, or environments. A new background check and fitness determination shall be completed on the SI before removing a restriction.

(c) BCU shall deny an SI who the BCU determines, after a weighing test, more likely than not poses a risk to the physical, emotional, or financial well-being of vulnerable individuals.

(d) BCU shall consider a background check to have an outcome of incomplete fitness determination in the following circumstances:

(A) The QE or SI discontinues the application or the SI fails to cooperate with the criminal records check or fitness determination process, including but not limited to refusal to be fingerprinted or failing to respond in a timely manner to written correspondence from BCU. The background check request is considered closed and there are no hearing rights for the SI.

(B) BCU determines that the SI is ineligible due to ORS 443.004 in accordance with OAR 407-007-0275 or 407-007-0277. The background check request is considered completed and there are no hearing rights for the SI.

(C) The SI withdraws the application, leaves the position prior to completion of the background check, or the Department cannot locate or contact the subject individual.

(D) The SI is determined to be ineligible for the position by the QE for reasons other than the background check.

(E) BCU makes a determination under OAR 407-007-0335, in which an SI has potentially disqualifying abuse under OAR 407-007-0290(11)(d)

with no other potentially disqualifying convictions or conditions. The SI has expedited hearings rights under OAR 407-007-0335.

(2) Upon completion of a final fitness determination, BCU or the QE shall provide notice to the SI.

(a) If approved, BCU shall provide notice to the QE through CRIMS. The QE shall provide the SI a copy of the notice or CRIMS documentation.

(b) If the final fitness determination is a denial based on potentially disqualifying abuse under OAR 407-007-0290(11)(d) and there are no other potentially disqualifying convictions or conditions, BCU shall issue a Notice of Intent to Deny and provide the SI hearing rights under OAR 407-007-0335.

(c) Except as required by section (4)(c) of this rule, if denied or approved with restrictions, BCU shall issue a notice of fitness determination to the SI which includes the potentially disqualifying convictions or conditions that the outcome was based upon, information regarding appeal rights, and the notice becoming a final order in the event of a withdrawal or failure to appear at the hearing.

(d) The effective date of action shall be recorded on the notice or CRIMS documentation.

(3) BCU shall provide the QE notification of the final fitness determination when the SI is being denied or approved with restrictions.

(4) When an SI is denied, the SI shall not be allowed to work, volunteer, be employed, or otherwise perform in the position listed on the background check request. A denial applies only to the position and application in question. A denial shall result in immediate termination, dismissal, or removal of the SI.

(5) When an SI is approved with restrictions, the SI shall only be allowed to work, volunteer, be employed, or otherwise perform in the position listed on the background check request and only under the stated restrictions. A restricted approval applies only to the position and application in question. A restricted approval shall result in immediate implementation of the restrictions.

(6) BCU shall maintain any documents obtained or created during the background check process.

(7) BCU shall make new fitness determinations for each background check request. The outcome of previous fitness determinations does not set a precedent for subsequent fitness determinations.

Closed Case

If the SI discontinues the application or fails to cooperate with the criminal records check or fitness determination process, the application is considered incomplete and may be closed.

(1) Discontinuance or failure to cooperate includes but is not limited to the following circumstances:

(a) The SI fails to disclose all criminal history on the background check request.

(b) The SI refuses to be fingerprinted when required by these rules.

(c) The SI fails to respond within a stated time period to a request for corrections to the application, fingerprints, or any other information necessary to conduct a criminal records check or an abuse check and there is not enough information available to make a fitness determination.

(d) The SI withdraws the application, leaves the position prior to completion of the background check, or the Department cannot locate or contact the subject individual.

(e) The SI is determined to be ineligible for the position by the QE for reasons other than the background check.

(2) When the application is closed without a final fitness determination, the SI does not have a right to contest the closure.

(3) When a case is closed, the SI shall not be allowed to work, volunteer, be employed, or otherwise perform in the position listed on the background check request. A closed case applies only to the position in question. A closed case shall result in immediate termination, dismissal, or removal of the SI.

(4) BCU or the QED shall document the reasons for a closed case.

Contesting a Fitness Determination

(1) An SI may contest a final fitness determination of denied or restricted approval pursuant to OAR 125-007-0300 unless already granted contested case hearing rights under OAR 407-007-0335.

(2) If an SI is denied, the SI may not hold the position, provide services or be employed, licensed, certified, or registered, or otherwise perform in positions covered by these rules. An SI appealing a restricted approval may only work under the terms of the restriction during the appeal.

(3) If an adverse outcome is changed at any time during the appeal process, the change does not guarantee employment or placement.

(4) An SI may represent himself or herself or have legal representation during the appeal process. For the purpose of this rule, the term "SI" shall be considered to include the SI's legal representative.

(a) An SI who is appealing an adverse outcome regarding the position of homecare worker as defined in ORS 410.600 or personal support worker as defined in ORS 410.600 may be represented by a labor union representative pursuant to ORS 183.459.

(b) For all other SIs, the SI may not be represented by a lay person.

(5) An SI may contest an adverse fitness determination by requesting a contested case hearing. The contested case hearing process is conducted in accordance with OAR 125-007-0300, ORS 183.411 to 183.497 and the Attorney General's Uniform and Model Rules of Procedure for the Office of Administrative Hearings (OAH), OAR 137-003-0501 to 137-003-0700.

(a) To request a contested case hearing, the SI shall complete and sign the Hearing Request form.

(b) The completed and signed form must be received by the Department within 45 calendar days after the effective date of action.

(c) BCU shall accept a properly addressed hearing request that was not timely filed if it was postmarked within the time specified for timely filing.

(d) In the event an appeal is not timely by the date of receipt or by the date of postmark, BCU shall determine, based on a written statement from the SI and available information, if there is good cause to proceed with the appeal.

(e) BCU may refer an untimely request to the OAH for a hearing on the issue of timeliness.

(6) BCU may conduct an administrative review before referring the appeal to OAH.

(a) The SI must participate in the administrative review. Participation may include but is not limited to providing additional information or additional documents requested by the BCU within a specified amount of time.

(b) The administrative review is not open to the public.

(7) BCU may conduct additional criminal records checks or abuse checks during the contested case hearing process to update or verify the SI's potentially disqualifying convictions or conditions and factors to consider in the weighing test. If needed, BCU shall amend the notice of fitness determination while still maintaining the original hearing rights and deadlines.

(8) The Department shall be represented by a hearing representative in contested case hearings. The Department may also be represented by the Office of the Attorney General.

(a) The administrative law judge shall make a new fitness determination based on evidence and the contested case hearing record.

(b) The only remedy an administrative law judge may grant is a fitness determination that the subject individual is approved, approved with restrictions, or denied. Under no circumstances shall the Department or the QE be required to place an SI in any position, nor shall the Department or the QE be required to accept services or enter into a contractual agreement with an SI.

(c) A hearing pursuant to these rules may be conducted in conjunction with a licensure or certification hearing for the SI.

(9) The notice of fitness determination issued is final as if the SI never requested a hearing in the following situations:

(a) The SI failed to request a hearing in the time allotted in this rule. No other document will be issued after the notice of fitness determination.

(b) The SI withdraws the request for hearing at any time during the appeal process.

(10) BCU may make an informal disposition based on the administrative review. The Department shall issue a final order and new notice of

fitness determination. If the resulting fitness determination is an adverse outcome, the appeal shall proceed to a contested case hearing.

(11) BCU shall issue a dismissal order in the following situations:

(a) The SI may withdraw a hearing request verbally or in writing at any time before the issuance of a final order. A dismissal order due to the withdrawal is effective the date the withdrawal is received by BCU or the OAH. The SI may cancel the withdrawal in writing within 14 calendar days after the date of withdrawal.

(b) BCU shall dismiss a hearing request when the SI fails to participate in the administrative review. Failure to participate in the administrative review shall result in termination of hearing rights. The order is effective on the due date for participation in the administrative review. BCU shall review a good cause request to reinstate hearing rights if received in writing by BCU within 14 calendar days.

(c) BCU shall dismiss a hearing request when the SI fails to appear at the time and place specified for the contested case hearing. The order is effective on the date scheduled for the hearing. BCU shall review a good cause request to reinstate hearing rights if received in writing by BCU within 14 calendar days of the order.

(12) After a hearing, the administrative law judge shall issue a proposed and final order.

(a) If no written exceptions are received by BCU within 14 calendar days after the service of the proposed and final order, the proposed and final order becomes the final order.

(b) If timely written exceptions to the proposed and final order are received by BCU, the Department's Director or designee shall consider the exceptions and serve a final order, or request a written response or a revised proposed and final order from the administrative law judge.

(13) Final orders, including dismissal and default orders, are subject to reconsideration or rehearing petitions within 60 calendar days after the order is served, pursuant to OAR 137-003-0675.

(14) BCU may provide the QED with the results of the appeal.

(2) The Department, and Authority, and the QE, acting within the course and scope of employment, and an employer or employer's agent are not liable for the failure to hire a prospective employee or the decision to discharge an employee on the basis of a fitness determination or closed case if they in good faith comply with:

Variations

(1) The Department and Authority may consider variance requests regarding these rules.

ADMINISTRATIVE RULES

(a) The outcomes of a fitness determination made pursuant to these rules is not subject to variance. Challenges to fitness determinations may only be made by SIs through contested case hearing rights set forth in these rules.

(3) The QE requesting a variance must submit, in writing, an application to the BCU that contains:

(a) The section of the rule from which the variance is sought;

(b) The reason for the proposed variance;

(7) The Department or Authority shall determine the duration of the variance.

Subject: ORS 181A.215 (formerly ORS 181.547) shifts the criminal records check rules from Oregon state agencies to the Oregon Department of Administrative Services (DAS). The DAS rules (OAR 125-007-0200 to 125-007-0330) became effective 1/4/2016. The Department of Human Services (Department) is modifying its criminal records check rules to align with the DAS rules.

In addition, the statutes governing the criminal records check processes (ORS chapter 181) have been renumbered to ORS 181A. References to these statutes have been corrected. Other changes include updating rules to current processes, including the requirement for electronic submission of fingerprints (ORS 181.516) and upgrading to the Department's Background Check Unit's Criminal Records Information Management System (CRIMS).

Temporary rules are available on the Department of Human Services website: <http://www.oregon.gov/DHS/POLICIES/Pages/ss-admin-rules.aspx>. For hardcopy requests, call: (503) 947-5250.

407-007-0000

Purpose and Scope

(1) The purpose of these rules, OAR 407-007-0000 to 407-007-0100, is to supplement OAR 125-008-0200 to 125-007-0330 with guidelines and requirements specific to background checks for Department of Human Services (Department) and Oregon Health Authority (Authority) subject individuals (SIs). These rules provide for the reasonable screening under ORS 181A.195 and 181A.200 of the Department's employees, volunteers, and contractors to determine if they have a history of criminal behavior such that they should not be allowed to work, volunteer, be employed, or otherwise perform in positions covered by these rules.

(2) These rules apply to evaluating criminal records and potentially disqualifying conditions of an SI when conducting fitness determinations based upon such information. The fact that an SI is approved does not guarantee employment or placement. These rules do not apply to SIs covered under OAR 407-007-0200 to 407-007-0370.

(3) The Authority authorizes the Background Check Unit (BCU), a shared service of the Department and the Authority, to act on its behalf in carrying out criminal records checks. References in these rules to the Department or Authority shall be construed to be references to either or both agencies.

(3) Although abuse checks may occur concurrently with criminal records checks performed under these rules and may share similar processes, the criminal records check process is separate and distinct from the abuse checks that may be performed under OAR 407-007-0400 to 407-007-0460.

Criminal History Check Required

(1) The Department conducts criminal records checks on all SIs through LEDS maintained by OSP pursuant to ORS Chapter 181 and the rules adopted pursuant thereto (see OAR chapter 125, division 007; and chapter 257, division 15).

(2) If a national criminal records check of an SI is necessary, OSP shall provide the Department the results of criminal records checks conducted pursuant to ORS 181A.195, including fingerprint identification, through the FBI.

(3) SIs must have a criminal records check in the following circumstances:

(a) If an individual becomes an SI on or after the effective date of these rules.

(b) Except as provided in section (3) of this rule, if the individual, whether previously considered an SI or not, changes positions, and the position requires a criminal records check. Change in a position may include but is not limited to promotion, transfer, demotion, re-employment, job rotation, developmental assignment, restoration, layoff, or recall.

(c) If the Department has reason to believe that a criminal records check is justified. Examples include but are not limited to any indication of possible criminal behavior by an SI or quality assurance monitoring of a previously conducted criminal records check.

(4) Human Resources may determine that conducting a new criminal records check and fitness determination for an employee is not required.

(a) After submission of a criminal records check, Human Resources may consider ending the criminal records check if:

(A) The SI who has been offered a new position has completed a previous criminal records check and fitness determination with an outcome of approved; and

(B) There has been no break in employment with the Department.

(b) Human Resources may cease the criminal records check without making a new fitness determination if there is no indication of new potentially disqualifying crimes or conditions, and at least one of the following is true:

(A) The previous criminal records check identified no potentially disqualifying crimes or conditions as defined at that time and Human Resources determines that the previous fitness determination is sufficient for the new position.

(B) Human Resources determines that the new position requires the same or less responsibility or access in the duties as described in OAR 407-007-0060(3).

(5) All SIs shall notify Human Resources within five days of being arrested, charged, or convicted of any crime.

Criminal History Check Process

(1) Only Department employees, called ADs, may be authorized and approved pursuant to OAR 407-007-0230 to 407-007-0240 to receive and evaluate criminal offender information and other criminal records information. Only ADs may conduct fitness determinations.

(2) The Department shall submit the criminal records check to BCU in written form or through CRIMS. In addition to information required in OAR 125-007-0220, the background check request shall include:

(a) Disclosure of criminal history;

(A) The SI must disclose all arrests, charges, and convictions regardless of outcome or when the arrests, charges, or convictions occurred. Disclosure includes any juvenile record.

(B) The disclosed crimes and the dates must reasonably match the SI's criminal offender information and other criminal records information, as determined by the Department.

(b) Disclosure of other history required under OAR 407-007-0400 to 407-007-0460; and

(c) Disclosure of other information to be considered in the event of a weighing test if the SI discloses any criminal history or other history required under OAR 407-007-0400 to 407-007-0460.

(3) The criminal records check request, either in paper format or via CRIMS, shall include the following notices:

(a) A notice regarding disclosure of Social Security number indicating:

(A) The SI's disclosure is voluntary; and

(B) The Department requests the Social Security number solely for the purpose of positively identifying the SI during the criminal records check process.

(b) A notice that the SI may be subject to fingerprinting and a criminal records check.

(4) The Department shall verify the identity of an SI using methods which include but are not limited to asking the SI for current and valid government-issued photo identification and confirming the information on the photo identification with the SI, the information written in the criminal records check request, and the information taken for a fingerprint capture if a national criminal records check is conducted.

(5) BCU shall conduct an Oregon criminal records check after receiving a criminal records check request.

ADMINISTRATIVE RULES

(a) Using information submitted, BCU may obtain criminal offender information from the LEDS system and may request other criminal records information as needed.

(b) The Department shall handle criminal offender information obtained through LEDS in accordance with applicable OSP requirements in ORS chapter 181 and the rules adopted pursuant thereto (see OAR chapter 125, division 007 and chapter 257, division 15).

(6) BCU may conduct a fingerprint-based national criminal records check after an Oregon criminal records check is completed.

(a) A fingerprint-based national criminal records check may be completed under any of the following circumstances:

(A) The SI has out of state residency evidenced by the SI's possession of an out of state driver license or being outside Oregon for 60 or more consecutive days during the previous five years.

(B) The LEDS check, SI disclosures, or any other criminal records information obtained by the Department indicates there may be criminal records outside of Oregon.

(C) The Department has reason to question the identity or history of the SI.

(D) The SI's position is at Oregon state institutions under OAR 407-007-0010(19)(g).

(E) The SI is assigned duties involving any aspect of a criminal records or abuse check process.

(F) A fingerprint-based criminal records check is required by federal or state laws or regulations, other rules adopted by the Department, or by contract with the Department.

(G) If the Department has reason to believe that fingerprints are needed to make a final fitness determination.

(b) BCU shall request fingerprints for an SI under the age of 18 in accordance with OAR 125-007-0220(3).

(c) The SI shall complete and submit a fingerprint capture when requested by the Department.

(A) The Department shall give the SI notice regarding the Social Security number as set forth in OAR 407-007-0030.

(B) The SI shall submit fingerprint capture to the BCU within the time frame indicated in a written notice.

(C) The Department may require new fingerprint capture if previous captures are rejected by OSP or the FBI.

(7) The Department may also conduct a state-specific criminal records check in lieu of or in addition to a national criminal records check. Reasons for a state-specific criminal records check include but are not limited to:

(a) When the Department has reason to believe that out-of-state criminal records may exist.

(b) When the Department has been unable to complete a national criminal records check due to illegible fingerprints.

(c) When the national criminal records check results show incomplete information about charges or criminal records without final disposition.

(d) When there is indication of residency or criminal records in a state that does not submit all criminal records to the FBI.

(e) When, based on available information, the Department has reason to believe that a state-specific criminal records check is necessary.

(8) In order to complete a criminal records check and fitness determination, the Department may require additional information from an SI.

(a) Additional information includes but is not limited to criminal, judicial, other background information, or proof of identity.

(b) If an SI who is a represented Department employee is required to provide additional information, the process for obtaining that information through investigatory interviews shall adhere to collective bargaining agreements on investigatory interviews.

(9) The Department may conduct a criminal records check in situations of imminent danger.

(a) If the Department determines there is indication of criminal behavior by an SI that could more likely than not pose an immediate risk to the Department, its clients, or vulnerable persons, the Department shall authorize a criminal records check without the completion of a criminal records check request.

(b) If the Department determines that a fitness determination based on the criminal records check would be adverse to the SI, the Department shall provide the SI, if available, the opportunity to disclose criminal records, potentially disqualifying conditions, and other information as indicated in OAR 407-007-0060 before the completion of the fitness determination.

(10) Criminal records checks conducted under this rule shall be documented in writing.

Other Potentially Disqualifying Conditions

Pursuant to OAR 125-007-0273(5), the following are potentially disqualifying conditions:

(1) The SI makes a false statement to the Department, Authority, or Human Resources, including the provision of materially false information, false information regarding criminal history, or failure to disclose information regarding criminal history. Nondisclosure of charges classified as less than a misdemeanor such as violations or infractions may not be considered as false statement.

(2) The SI is a registered sex offender in any jurisdiction. There is a rebuttable presumption that an SI is likely to engage in conduct that would pose a significant risk to the Department, its clients, or vulnerable individuals if the SI has been designated a predatory sex offender under ORS 181.585 or found to be a sexually violent dangerous offender under ORS 144.635 (or similar statutes in other jurisdictions).

(3) The SI has an outstanding warrant in any jurisdiction.

(4) The SI has a deferred sentence, conditional discharge, or is participating in a diversion program in any jurisdiction for any potentially disqualifying crime.

(5) The SI is currently on probation, parole, or post-prison supervision for any crime in any jurisdiction, regardless of the original conviction date or date of guilty or no contest plea if there is no conviction date.

(6) The SI is found in violation of post-prison supervision, parole, or probation for any crime in any jurisdiction regardless of the original conviction date or date of guilty or no contest plea if there is no conviction date, within five years or less from the date of the criminal records check request or the date the Department conducted a criminal records check due to imminent danger.

(7) The SI has an unresolved arrest, charge, or a pending indictment for any crime in any jurisdiction.

(8) The SI has been arrested in any jurisdiction as a fugitive from another state or a fugitive from justice, regardless of the date of arrest.

(9) An adjudication in a juvenile court in any jurisdiction, finding that the SI was responsible for a potentially disqualifying crime that would result in a conviction if committed by an adult. Subsequent adverse rulings from a juvenile court, such as probation violations, shall also be considered potentially disqualifying if within five years from the date of the criminal records check request or the date BCU conducted a criminal records check due to imminent danger.

(10) A finding of "guilty except for insanity," "guilty except by reason of insanity," "not guilty by reason of insanity," "responsible except for insanity," "not responsible by reason of mental disease or defect," or similarly worded disposition in any jurisdiction regarding a potentially disqualifying crime, unless the local statutes indicate that such an outcome is considered an acquittal.

Weighing Test

If the SI has potentially disqualifying convictions under OAR 125-007-0270 or potentially disqualifying conditions under OAR 407-007-0050, Human Resources shall conduct a weighing test. The weighing test shall include consideration of factors pursuant to ORS 181A.195(10)(d) and the following if available to the BCU or Human Resources at the time of the weighing test:

(1) Circumstances regarding the nature of potentially disqualifying crimes and conditions including but not limited to:

(a) Age of the SI at time of the potentially disqualifying crime or condition.

(b) Details of incidents leading to the charges of potentially disqualifying crimes or resulting in potentially disqualifying conditions.

(c) Facts that support the conviction or other potentially disqualifying condition.

(d) Passage of time since commission of the crime or potentially disqualifying condition.

(e) Consideration of state or federal laws, regulations, or rules covering the position or the Department, regarding the potentially disqualifying crimes or conditions.

ADMINISTRATIVE RULES

(2) Other factors when available including but not limited to:

(c) Status of and compliance with parole, post-prison supervision, or probation.

(d) Evidence of drug or alcohol issues directly related to criminal activity or potentially disqualifying conditions.

(e) Evidence of other treatment or rehabilitation related to criminal activity or potentially disqualifying conditions.

(g) Changes in circumstances subsequent to the criminal activity or disqualifying conditions including but not limited to:

(A) History of high school, college, or other education related accomplishments.

(B) Work history (employee or volunteer).

(D) Written recommendations from current or past employers.

(h) Indication of the SI's cooperation, honesty, or the making of a false statement during the criminal records check process, including acknowledgment and acceptance of responsibility of criminal activity and potentially disqualifying conditions.

(3) The relevancy of the SI's criminal history or potentially disqualifying conditions to the position or to the environment of the position, shall be considered. Consideration includes the relation between the SI's potentially disqualifying crimes or conditions and the following tasks or duties in the position:

(a) Access to or direct contact with Department clients, client property, or client funds.

(b) Access to information technology services, or control over or access to information technology systems that would allow an individual holding the position to harm the information technology systems or the information contained in the systems.

(c) Access to information, the disclosure of which is prohibited by state or federal laws, rules, or regulations, or information that is defined as confidential under state or federal laws, rules, or regulations.

(d) Access to payroll functions.

(e) Responsibility for receiving, receipting, or depositing money or negotiable instruments.

(L) Access to property to which access is restricted in order to protect the health or safety of the public.

(m) Responsibility for security, design, or construction services. This includes government buildings, grounds, or facilities or buildings, owned, leased, or rented for government purposes.

Hired on a Preliminary Basis

The Department shall make a preliminary fitness determination to determine if an SI may work, volunteer, be employed, or otherwise perform in the position listed in the criminal records check request prior to a final fitness determination. The Department may not hire an SI on a preliminary basis prior to the completion of a preliminary fitness determination.

(1) The Department shall complete a preliminary fitness determination and send notice to the hiring manager.

(2) After review of the criminal records check request, the Department shall make one of the following determinations:

Contesting a Final Fitness Determination

(1) An SI may contest a final fitness determination of denied or restricted approval pursuant to OAR 125-007-0300.

(2) If an SI is denied, then the SI may not work, volunteer, be employed, or otherwise perform in positions covered by these rules. An SI appealing a restricted approval may only work under the terms of the restriction during the appeal.

(3) If an adverse outcome is changed at any time during the appeal process, the change does not guarantee employment or placement.

(4) The SI has may represent himself or herself or have legal representation during the appeal process. The SI may not be represented by a lay person. In this rule, the term "SI" shall be considered to include the SI's legal representative.

(5) An SI who is already employed by the Department at the time of the final fitness determination may appeal through applicable personnel rules, policies, and collective bargaining provisions. The SI's decision to do so is an election of remedies as to the rights of the SI with respect to the fitness determination and constitutes a waiver of the contested case process described in this rule.

(6) An SI who wishes to challenge an adverse fitness determination may appeal the determination by requesting a contested case hearing. The appeal process is conducted in accordance with OAR 125-007-0300, ORS 183.411 to 183.497 and the Attorney General's Uniform and Model Rules

ADMINISTRATIVE RULES

of Procedure for the Office of Administrative Hearings (OAH), OAR 137-003-0501 to 137-003-0700.

(a) To request a contested case hearing the SI shall complete and sign the Hearing Request form.

(b) The completed and signed form must be received by the Department within the following time lines:

(B) For all other SIs, no later than 45 calendar days after the effective date of action listed on the notice of the fitness determination.

(c) If a request for hearing is not timely, the Department shall determine, based on a written statement from the SI and available information, if there is good cause to proceed with the appeal.

(d) The Department may refer an untimely request to OAH for a hearing on the issue of timeliness.

(7) When an SI requests a contested case hearing, the Department may conduct an administrative review before referring the appeal to OAH.

(a) The SI must participate in the administrative review. Participation may include but is not limited to providing additional information or additional documents requested by the Department within a specified amount of time.

(b) The administrative review is not open to the public.

(8) The Department may conduct additional criminal records checks during the appeal process to update or verify the SI's criminal records. If needed, the Department shall amend the notice of fitness determination during the appeal process while still maintaining the original hearing rights and deadlines.

(9) A hearing representative shall represent the Department in contested case hearings. The Department may also use representation through the Department of Justice's Office of the Attorney General.

(a) The administrative law judge shall make a new fitness determination based on the evidence and the contested case hearing record.

(b) The only remedy that may be awarded is a fitness determination that the SI is approved or denied. Under no circumstances shall the Department be required to place an SI in any position, nor shall the Department be required to accept services or enter into a contractual agreement with an SI.

(10) The result of an appeal is a final order.

(a) In the following situations, the notice of fitness determination becomes the final order as if the SI never requested a hearing:

(A) Failure to request a hearing in the time allotted in this rule. No other document shall be issued after the notice of fitness determination.

(B) Withdrawal of the request for hearing at any time during the appeal process.

(b) The Department may make an informal disposition based on the administrative review. The Department shall issue a final order and new notice of fitness determination. If the resulting fitness determination is an adverse outcome, the appeal shall proceed to contested case hearing.

(c) The Department shall issue a dismissal order in the following circumstances:

(A) The SI may withdraw a hearing request verbally or in writing at any time before the issuance of a final order. A dismissal order due to a withdrawal is effective the date the withdrawal is received by the Department or OAH. The SI may cancel the withdrawal in writing within 14 calendar days after the date of withdrawal.

(B) The Department shall dismiss a hearing request when the SI fails to participate in the administrative review. Failure to participate in the administrative review shall result in termination of hearing rights. The order is effective on the due date for participation in the administrative review. The Department shall review a good cause request to reinstate hearing rights if received in writing by the Department within 14 calendar days.

(C) The Department shall dismiss a hearing request when the SI fails to appear at the time and place specified for the contested case hearing. The order is effective on the date scheduled for the hearing. The Department shall review a good cause request to reinstate hearing rights if received in writing by the Department within 14 calendar days.

(d) After a hearing, the administrative law judge shall issue a proposed and final order.

(A) If no written exceptions are received by the Department within 14 calendar days after the service of the proposed and final order, the proposed and final order shall become the final order.

Notice Publication Date: 10-1-2015

Rules Amended: 411-004-0020

Subject: To implement the regulations and expectations of the U.S. Department of Health and Human Services, Centers for Medicare and Medicaid Services (CMS), the Department of Human Services (Department) is proposing to adopt rules in OAR chapter 411, division 004 to provide a foundation of standards to support the network of Medicaid-funded and private pay residential and non-residential Home and Community-Based Services (HCBS), Home and Community-Based (HCB) settings, and person-centered service planning for individuals receiving HCBS in Oregon.

The proposed rules ensure individuals receive HCBS in settings that are integrated in and support the same degree of access to the greater community as people not receiving HCBS, including opportunities for individuals enrolled in or utilizing HCBS to:

- Seek employment and work in competitive integrated employment settings;
- Engage in community life;
- Control personal resources; and

411-004-0020

Home and Community-Based Services and Settings

(1) Residential and non-residential HCB settings must have all of the following qualities:

(a) The setting is integrated in and supports the same degree of access to the greater community as people not receiving HCBS, including opportunities for individuals enrolled in or utilizing HCBS to:

(A) Seek employment and work in competitive integrated employment settings;

(B) Engage in greater community life;

(C) Control personal resources; and

(D) Receive services in the greater community.

(b) The residential or non-residential setting is selected by an individual or, as applicable, the legal or designated representative of the individual, from among available setting options, including non-disability specific settings and an option for a private unit in a residential setting. The setting options must be:

(A) Identified and documented in the person-centered service plan for the individual;

(B) Based on the needs and preferences of the individual;

(C) For residential settings, based on the available resources of the individual for room and board; and

(D) For employment and non-residential day services, a non-disability specific setting option must be presented and documented in the person-centered service plan.

(c) The setting ensures individual rights of privacy, dignity, respect, and freedom from coercion and restraint.

(d) The setting optimizes, but does not regiment, individual initiative, autonomy, self-direction, and independence in making life choices including, but not limited to, daily activities, physical environment, and with whom to interact.

(e) The setting facilitates individual choice regarding services and supports, and who provides the services and supports.

(2) Provider owned, controlled, or operated residential settings must have all of the following qualities:

(c) The unit is a specific physical place that may be owned, rented, or occupied by an individual under a legally enforceable Residency Agreement. The individual has, at a minimum, the same responsibilities and protections from an eviction that a tenant has under the landlord tenant law of the state, county, city, or other designated entity. For a setting in

which landlord tenant laws do not apply, the Residency Agreement must provide protections for the individual and address eviction and appeal processes. The eviction and appeal processes must be substantially equivalent to the processes provided under landlord tenant laws.

(d) Each individual has privacy in his or her own unit.

(e) Units must have entrance doors lockable by the individual, with the individual and only appropriate staff having a key to access the unit.

Health and safety precautions or discretions utilized for children under the age of 18, enrolled in or utilizing HCBS, and residing in provider owned, controlled, or operated residential settings, shall be addressed through a person-centered service planning process and documented in the person-centered service plan for the child. Limitations which deviate from and are more restrictive than what is typical for children of the same age without disabilities, must comply with OAR 411-004-0040.

(4) When conditions under sections (2)(d) to (2)(j) of this rule may not be met due to threats to the health and safety of the individual or others, the person-centered service plan may apply an individually-based limitation with the consent of the individual or, as applicable, the legal representative of the individual, as described in OAR 411-004-0040.

(i) Facility-based prevocational settings that do not, at minimum, provide interaction with the general public; or

(ii) Facility or site-based non-residential day service settings that do not, at minimum, facilitate going out into the greater community.

(C) A setting that is presumed to have the qualities of an institution, as described in this section, will be subject to a heightened scrutiny process. If a setting has indicators that lead the State to question their HCBS status, the setting will be given the opportunity to rebut that presumption by submitting evidence of their compliance with these regulations. Based on the evidence, the State may determine that a setting has not overcome the presumption and HCBS funding will not be utilized. If the State determines that a setting has provided adequate evidence to rebut the presumption that it has the qualities of an institution, the State will submit the evidence to

(1) MEDICAID PROVIDER ENROLLMENT AGREEMENT.

(a) An applicant or licensee who intends to care for residents who are or become eligible for Medicaid services must enter into a Medicaid Provider Enrollment Agreement with the Department, follow Department rules, and abide by the terms of the Medicaid Provider Enrollment Agreement. The local licensing authority shall determine that the applicant, licensee, and any owner or officer of the corporation, as applicable, is not listed on either of the Exclusion Lists before approval of a Medicaid Provider Enrollment Agreement.

(b) An approved Medicaid Provider Enrollment Agreement does not guarantee the placement of individuals eligible for Medicaid services in the adult foster home.

(c) An approved Medicaid Provider Enrollment Agreement is valid for the length of the license unless earlier terminated by the licensee or the Department. A Medicaid Provider Enrollment Agreement must be completed, submitted, approved, and renewed with each licensing cycle.

(d) The rate of compensation established by the Department is considered payment in full. The licensee may not request or accept additional funds or in-kind payment from any source.

(e) An individual eligible for Medicaid services may not be admitted into an adult foster home unless and until:

(A) The Department has approved a Medicaid Provider Enrollment Agreement. The Department shall not issue a Medicaid payment to a licensee without a current license and an approved Medicaid Provider Enrollment Agreement in place;

(B) The individual eligible for Medicaid services has been screened according to OAR 411-050-0655; and

(C) The Department has authorized the placement. The authorization must be clearly documented in the resident's record with other required admission materials. (See OAR 411-050-0655).

(f) The Department shall not make payment for the date a resident moves from the home, or for any time period thereafter.

(g) The licensee must enter into a written agreement with a resident who receives Medicaid services if the licensee charges for storage of belongings that remain in the adult foster home for more than 15 calendar days after the resident has left the home.

(A) The written agreement must be consistent with the licensee's policy with private-pay residents and entered into at the time of the resident's admission or at the time the resident becomes eligible for Medicaid services.

(B) The licensee must give written notice to the resident and the resident's family or other representatives 30 calendar days before any increases, additions, or other modifications to the charges for storage.

(h) A licensee who elects to provide care for individuals eligible for Medicaid services is not required to admit more than one resident eligible for Medicaid services. However, if the licensee has an approved Medicaid Provider Enrollment Agreement, private-pay residents who become eligible for Medicaid services may not be asked to leave solely on the basis of Medicaid eligibility.

(i) The licensee or the Department may terminate a Medicaid Provider Enrollment Agreement according to the terms of the Medicaid Provider Enrollment Agreement.

(j) The Department may terminate a Medicaid Provider Enrollment Agreement under the following circumstances:

(A) The licensee fails to maintain substantial compliance with all related federal, state, and local laws, ordinances, and regulations; or

(B) The license to operate the adult foster home has been voluntarily surrendered, revoked, or non-renewed.

(k) The Department must terminate a Medicaid Provider Enrollment Agreement under the following circumstances:

(A) The licensee fails to permit access by the Department, the local licensing authority, or the Centers for Medicare and Medicaid Services to any adult foster home licensed to and operated by the licensee;

(B) The licensee submits false or inaccurate information;

(C) Any person with five percent or greater direct or indirect ownership interest in the adult foster home did not submit timely and accurate information on the Medicaid Provider Enrollment Agreement form or fails

(E) Any person with an ownership or control interest, or who is an agent or managing employee of the adult foster home, fails to submit timely and accurate information on the Medicaid Provider Enrollment Agreement form.

(I) If the licensee submits notice of termination of the Medicaid Provider Enrollment Agreement, the licensee must comply with the following requirements:

(A) Simultaneously issue the Department's Notice of Involuntary Move or Transfer of Resident form (SDS 901) to each resident eligible for Medicaid services in the licensee's adult foster home (See OAR 411-050-0645).

(B) Update Residency Agreement and submit to the local licensing authority for review.

(C) Obtain signatures of all current residents, or the resident's representative on the updated Agreement following the local licensing authority's review.

(m) If either the licensee or the Department terminates a Medicaid Provider Enrollment Agreement, a new Medicaid Provider Enrollment Agreement shall not be approved by the local licensing authority for a period of not less than 180 days from the date the licensee or the Department terminated the Medicaid Provider Enrollment Agreement.

(n) **DEATH OF RESIDENT ELIGIBLE FOR MEDICAID SERVICES WITH NO SURVIVING SPOUSE.** The licensee must forward all personal incidental funds (PIF) to the Estate Administration Unit, P. O. (B) Conditions under which the rates may be changed.

(c) The Agreement must:

(A) Not conflict with the Resident's Rights, the family atmosphere of the home, or any of these rules; and

(B) Be reviewed and approved by the local licensing authority before the issuance of a license, and before implementing any changes.

(B) The State Long-Term Care Ombudsman must be provided access to all resident and facility records. A Deputy Ombudsman and Certified Ombudsman Volunteers must be provided access to facility records relevant to caregiving and resident records with written permission from the resident or the resident's representative. (c) RECORD RETENTION. Records, including any financial records for residents, must be kept for a period of three years from the date the resident left the home.

(d) CONFIDENTIALITY. In all other matters pertaining to confidential records and release of information, licensees must be guided by the principles and definitions described in OAR chapter 411, division 005 (Privacy of Protected Information).

(8) RESIDENCY AGREEMENT. The current Residency Agreement must be given to the resident and the resident's representative, as applicable, at the time the screening and assessment is conducted. Before the resident's admission, a signed and dated copy of the Residency Agreement must be obtained and placed in the resident's record. The policies within the Residency Agreement must be consistent with the practices of the licensee, staff, occupants, and visitors of the home. (See OAR 411-050-0615).

(9) RESIDENT MOVES AND TRANSFERS. The licensee must support a resident's choice to remain in his or her living environment, while recognizing that some residents may no longer be appropriate for the adult foster care setting due to safety and medical limitations.

(a) If a resident moves, or intends to move, out of an adult foster home for any reason, the licensee must cooperate with the potential provider's screening and assessment activities as directed by the resident or the resident's representative, and submit copies of pertinent information from the resident's record to the resident's new place of residence at the time of move. Pertinent information must include, at a minimum:

(A) Copies of current prescribing medical practitioner's orders for medications, current medication sheets, an updated care plan, including the elements of any person-centered service plan, and any documentation of limitations.

(B) Documentation of actions taken by the adult foster home staff, resident, or the resident's representative pertaining to the move or transfer.

(b) A licensee must immediately document voluntary and involuntary moves or transfers from the adult foster home in the resident's record as events take place. (See sections (11) and (12) of this rule).

(10) VOLUNTARY MOVES AND TRANSFERS.

(a) If a resident eligible for Medicaid services or the resident's representative gives notice of the resident's intent to leave the adult foster home, or the resident leaves the home abruptly, the licensee must promptly notify the resident's case manager and the local licensing authority.

(b) A licensee must obtain prior authorization from the resident, the resident's representative, and case manager, as applicable, before the resident's:

(A) Voluntary move from one bedroom to another in the adult foster home;

(B) Voluntary transfer from one adult foster home to another home that has a license issued to the same person; or

(C) Voluntary move to any other location.

(c) Notifications and authorizations of voluntary moves and transfers must be documented and available in the resident's record.

(d) The licensee remains responsible for the provision of care and services until the resident has moved from the home.

(11) INVOLUNTARY MOVES AND TRANSFERS.

(a) A resident may only be moved involuntarily to another room within the adult foster home, transferred to another adult foster home operated by the same licensee for a temporary or permanent stay, or moved from the adult foster home for the following reasons:

(A) Medical reasons. The resident has a medical or nursing condition that is complex, unstable, or unpredictable that exceeds the level of care and services the facility provides.

(B) The adult foster home is unable to accomplish evacuation of the adult foster home in accordance with OAR 411-050-0650.

(E) The adult foster home has had its license revoked, not renewed, or the license was voluntarily surrendered by the licensee.

(F) The home was not notified before the resident's admission, or learns following the resident's admission, that the resident is on probation, parole, or post-prison supervision after being convicted of a sex crime defined in ORS 181.805.

(G) The licensee's Medicaid Provider Enrollment Agreement or specialized contract is terminated (pertains only to residents eligible for Medicaid).

(H) The resident engages in the use of legal medical marijuana, recreational marijuana, or both, in violation of the home's written policies or contrary to Oregon Law under the Oregon Medical Marijuana Act, ORS 475.300 to 475.346.

(b) MANDATORY WRITTEN NOTICE. A resident may not be moved involuntarily from the adult foster home, to another room within the adult foster home, or transferred to another adult foster home for a temporary or permanent stay without a minimum of 30 calendar days' written notice. The notice must be delivered in person to the resident and must be delivered in person or sent by registered or certified mail to the resident's representative, guardian, or conservator, and a copy must be immediately submitted to the local licensing authority, and to the resident's case manager, as applicable. Where a resident lacks capacity and there is no representative, a copy of the notice must be immediately submitted to the State Long Term Care Ombudsman. The written notice must:

The notice must be given in person to the resident, the resident's representative, guardian, conservator, and a copy must be immediately submitted to the local licensing authority, and to the resident's case manager, as applicable. The reasons for the notice must be fully documented in the resident's record. The licensee remains responsible for the provision of care and services until the resident has moved from the home. A licensee may give less than 30 calendar days' notice only if:

(A) Undue delay in moving the resident would jeopardize the health, safety, or well-being of the resident, including:

(i) The resident has a medical emergency that requires the immediate care of a level or type the adult foster home is unable to provide.

(ii) The resident exhibits behavior that poses an immediate danger to self or others.

(B) The resident is hospitalized or is temporarily out of the home and the licensee determines he or she is no longer able to meet the needs of the resident; or

ADMINISTRATIVE RULES

(i) In the event a resident is given notice of an involuntary move due to (11)(c)(C) of this rule, the notice may be given without reasonable advance notice.

(ii) The resident shall be given the Department's Notice of Involuntary Move or Transfer of Resident form (SDS 901) as stated in (11) of this rule.

(12) RESIDENT HEARING RIGHTS. A resident, who has been given formal notice of an involuntary move or refused the right of return or re-admission, is entitled to an informal conference and hearing before the involuntary move or transfer as follows:

(a) INFORMAL CONFERENCE. The local licensing authority must hold an informal conference as promptly as possible after the request is received. The local licensing authority must send written notice of the time and place of the conference to the licensee and all persons entitled to the notice. Participants may include the resident and at the resident's request a family member, case manager, Ombudsman, legal representative of the resident, the licensee, and a representative from an adult foster home association or SEIU if requested by the licensee. The purpose of the informal conference is to resolve the matter without an administrative hearing. If a resolution is reached at the informal conference, the local licensing authority must document the outcome in writing and no administrative hearing is needed.

(b) ADMINISTRATIVE HEARING. If a resolution is not reached as a result of the informal conference, the resident or the resident's representative may request an administrative hearing. If the resident is being moved or transferred with less than 30 calendar days' notice according to section (11)(c) of this rule, the hearing must be held within seven business days of the move or transfer. The licensee must hold a space available for the resident pending receipt of an administrative order. These administrative rules and ORS 441.605(4) governing transfer notices and hearings for residents of long-term care facilities apply to adult foster homes.

(13) CLOSURE OF ADULT FOSTER HOMES.

(a) A licensee must notify the local licensing authority before the voluntary closure, proposed sale, or transfer of ownership of the home, and give the residents and the residents' families, representatives, and case managers, as appropriate, a minimum of 30 calendar days' written notice on the Department's form (SDS 901) according to section (11) of this rule.

(b) In circumstances where undue delay might jeopardize the health, safety, or well-being of residents, licensees, or staff, written notice must be given as soon as possible, according to section (11)(c).

(c) A licensee must surrender the physical license to operate an adult foster home to the local licensing authority at the time of the adult foster home's closure.

Facility and Safety Standards

In order to qualify for or maintain a license, an adult foster home must comply with the following provisions:

(1) GENERAL CONDITIONS.

(a) INTERIOR AND EXTERIOR PREMISES. The building and furnishings, patios, decks, and walkways, as applicable, must be clean and in good repair. The interior and exterior premises must be well maintained and accessible according to the individual needs of the residents. There must be no accumulation of garbage, debris, rubbish, or offensive odors. Walls, ceilings, and floors must be of such character to permit washing, cleaning, or painting, as appropriate.

(b) ADDRESS. The address numbers of the adult foster home must be placed on the home in a position that is legible and clearly visible from the street or road fronting the property. If the home is so situated that the address number is not legible and clearly visible from the road fronting the property, such as when the home is accessed via a lengthy driveway or private access road, then the address numbers must also be posted where the driveway or private access road joins the fronting road. The address numbers must be at least four inches in height, made of reflective material, and contrast with the background.

(c) LIGHTING. Adequate lighting, based on the needs of the occupants, must be provided in each room, stairway, and exit way. Incandescent light bulbs and florescent tubes must be protected with appropriate covers.

(d) TEMPERATURE. The heating system must be in working order. Areas of the home used by the residents must be maintained at a comfortable temperature. Minimum temperatures during the day must be not less than 68 degrees, no greater than 85 degrees, and not less than 60 degrees during sleeping hours. Variations from the requirements of this rule must be based on resident care needs or preferences and must be addressed in each resident's care plan.

(A) During times of extreme summer heat, the licensee must make reasonable effort to keep the residents comfortable using ventilation, fans, or air conditioning. Precautions must be taken to prevent resident exposure to stale, non-circulating air.

(B) If the facility is air-conditioned, the system must be functional and the filters must be cleaned or changed as needed to ensure proper maintenance.

(C) If the licensee is unable to maintain a comfortable temperature for the residents during times of extreme summer heat, air conditioning or another cooling system may be required.

(e) COMMON USE AREAS. Common use areas for the residents must be accessible to all residents. There must be at least 150 square feet of common living space and sufficient furniture in the home to accommodate the recreational and socialization needs of all the occupants at one time. Common space may not be located in an unfinished basement or garage unless such space was constructed for that purpose or has otherwise been legalized under permit. There may be additional space required if wheelchairs are to be accommodated. An additional 40 square feet of common living space is required for each day care individual, room and board tenant, or relative receiving care for remuneration that exceeds the limit of five.

(f) VIDEO MONITORS. Use of video monitors detracts from a home-like environment and the licensee may not use video monitors in any area of the home that would violate a resident's privacy unless requested by the resident or the resident's representative. The licensee may not ask the resident or the resident's representative to waive the resident's right to privacy as a condition of admission to the home.

(2) SANITATION AND PRECAUTIONS.

(a) NON-MUNICIPAL WATER SOURCE. A public water supply must be utilized if available. If a non-municipal water source is used, the licensor, a sanitarian, or a technician from a certified water-testing laboratory must collect a sample annually or as required by the Department. The water sample must be tested for coliform bacteria. Water testing and any necessary corrective action to ensure water is suitable for drinking must be completed at the licensee's expense. Water testing records must be retained for three years.

(b) Septic tanks or other non-municipal sewage disposal systems must be in good working order.

(c) COMMODES AND INCONTINENCE GARMENTS.

Commodes used by residents must be emptied frequently and cleaned daily, or more frequently if necessary. Incontinence garments must be disposed of in closed containers.

(d) WATER TEMPERATURE. A resident who is unable to safely regulate the water temperature must be supervised.

(e) LAUNDRY. Before laundering, soiled linens and clothing must be stored in closed containers in an area that is separate from food storage, kitchen, and dining areas. Pre-wash attention must be given to soiled and wet bed linens. Sheets and pillowcases must be laundered at least weekly and more often if soiled.

(f) Garbage and refuse must be suitably stored in readily cleanable, rodent-proof, covered containers, pending weekly removal.

(g) VENTILATION. All doors and windows that are used for ventilation must have screens in good condition.

(h) INFECTION CONTROL. Standard precautions for infection control must be followed in resident care. Hands and other skin surfaces must be washed immediately and thoroughly if contaminated with blood or other body fluids.

(i) DISPOSAL OF SHARPS. Precautions must be taken to prevent injuries caused by needles, scalpels, and other sharp instruments or devices during procedures. The puncture-resistant container must be located as close as practical to the use area. Disposal must be made according to local regulations as stated in section (5) of this rule. (See 459.386 to 459.405).

(j) FIRST AID. Current, basic first-aid supplies and a first-aid manual must be readily available in the home.

(k) PESTS. Reasonable precautions must be taken to prevent pests (e.g., ants, cockroaches, other insects, and rodents).

(l) PETS OR OTHER ANIMALS. Sanitation for household pets and other domestic animals on the premises must be adequate to prevent health

ADMINISTRATIVE RULES

Resident access to or use of swimming or other pools, hot tubs, spas, or saunas on the premises must be supervised.

(3) **BATHROOMS.** Bathrooms must:

(a) Provide individual privacy and have a finished interior with a door that opens to a hall or common-use room. If a resident's bedroom includes a private bathroom, the door for the private bathroom must open to the bedroom. No person must have to walk through another person's bedroom to access a bathroom.

(b) Be large enough to accommodate the individual needs of the residents and any equipment that may be necessary.

(c) Have a mirror, a window that opens or other means of ventilation, and a window covering for privacy.

(d) Be clean and free of objectionable odors.

(e) Have bathtubs, showers, toilets, and sinks in good repair. A sink must be located near each toilet and a toilet and sink must be available for the resident's use on each floor with resident rooms. There must be at least one toilet, one sink, and one bathtub or shower for each six household occupants (including residents, day care individuals, room and board tenants, the licensee, and the licensee's family).

(f) Have hot and cold water at each bathtub, shower, and sink in sufficient supply to meet the needs of the residents.

(g) Have nonporous surfaces for shower enclosures. Glass shower doors, if applicable, must be tempered safety glass, otherwise, shower curtains must be clean and in good condition.

(h) Have non-slip floor surfaces in bathtubs and showers.

(i) Have grab bars for each toilet, bathtub, and shower to be used by the residents for safety.

(j) Have barrier-free access to toilet and bathing facilities.

(k) Have adequate supplies of toilet paper and soap supplied by the licensee. Residents must be provided with individual towels and washcloths that are laundered in hot water at least weekly or more often if necessary. Residents must have appropriate racks or hooks for drying bath linens. If individual hand towels are not provided, roller-dispensed hand towels or paper towels in a dispenser must be provided for the residents' use.

(4) **BEDROOMS.**

(a) Bedrooms for all household occupants must have:

(A) Been constructed as a bedroom when the home was built, or remodeled under permit.

(B) A finished interior with walls or partitions of standard construction that go from floor to ceiling.

(C) A door that opens directly to a hallway or common use room without passage through another bedroom or common bathroom. The bedroom door must be large enough to accommodate the occupant of the room and any mobility equipment that may be needed by the resident.

(D) Adequate ventilation, heating, and lighting with at least one window that opens and meets the requirements in section (5)(e) of this rule.

(E) At least 70 square feet of usable floor space for one resident or 120 square feet for two residents excluding any area where a sloped ceiling does not allow a person to stand upright.

(F) No more than two occupants per room. (See also OAR 411-050-0632 pertaining to a child's bedroom). This rule is not intended to prohibit a child five years of age or younger from occupying his or her parent's bedroom.

(b) The licensee, any other caregivers, and family members may not sleep in areas designated as living areas or share a bedroom with a resident. This rule is not intended to prohibit a caregiver or other person of the resident's choosing from temporarily staying in the resident's room when required by the resident's condition.

(c) There must be a bed at least 36 inches wide for each resident consisting of a mattress and springs, or equivalent, in good condition. Cots, rollaways, bunks, trundles, daybeds with restricted access, couches, and folding beds may not be used for residents. Each bed must have clean bedding in good condition consisting of a bedspread, mattress pad, two sheets, a pillow, a pillowcase, and blankets adequate for the weather. Waterproof mattress covers must be used for incontinent residents. Day care individuals may use a cot or rollaway bed if bedroom space is available that meets

the requirements of section (4)(a) of this rule. A resident's bed may not be used by a day care individual.

(d) Each resident's bedroom must have a separate, private dresser and closet space sufficient for the resident's clothing and personal effects, including hygiene and grooming supplies. A resident must be provided a private, secure storage space to keep and use reasonable amounts of personal belongings. A licensee may not use a resident's bedroom for storage of items, supplies, devices, or appliances that do not belong to the resident.

(e) All resident bedroom doors must have a locking device on the inside of the door, released by a single action. (See OAR 411-050-0650(5)). Providers licensed before January 1, 2016, have until September 1, 2018 to fully implement this requirement.

(f) Drapes or shades for bedroom windows must be in good condition and allow privacy for the residents.

(g) A resident who is non-ambulatory, has impaired mobility, or is cognitively impaired must have a bedroom with a safe, second exit at ground level. A resident with a bedroom above or below the ground floor must demonstrate his or her capability for self-preservation.

(h) Resident bedrooms must be in close enough proximity to the licensee or caregiver in charge to alert the licensee or caregiver in charge to resident nighttime needs or emergencies, or the bedrooms must be equipped with a functional call bell or intercom within the residents' abilities to operate. Intercoms may not violate the resident's right to privacy and must have the capability of being turned off by the resident or at the resident's request.

(i) Bedrooms used by the licensee, resident manager, shift caregiver, and substitute caregiver, as applicable, must be located in the adult foster home and must have direct access to the residents through an interior hallway or common use room.

(5) **SAFETY.**

(a) **FIRE AND LIFE SAFETY.** Buildings must meet all applicable state and local building, mechanical, and housing codes for fire and life safety. The home may be inspected for fire safety by the State Fire Marshal's Office, or the State Fire Marshal's designee, at the request of the local licensing authority or the Department using the standards in these rules, as appropriate.

(b) **HEAT SOURCES.** All heating equipment including, but not limited to, wood stoves, pellet stoves, and fireplaces must be installed in accordance with all applicable state and local building and mechanical codes. Heating equipment must be in good repair, used properly, and maintained according to the manufacturer's or a qualified inspector's recommendations.

(A) A licensee who does not have a permit verifying proper installation of an existing woodstove, pellet stove, or gas fireplace must have it inspected by a qualified inspector, Certified Oregon Chimney Sweep Association member, or Oregon Hearth, Patio, and Barbeque Association member and follow the inspector's recommended maintenance schedule.

(B) Fireplaces must have approved and listed protective glass screens or metal mesh screens anchored to the top and bottom of the fireplace opening.

(C) The local licensing authority may require the installation of a non-combustible, heat-resistant, safety barrier 36 inches around a woodstove to prevent residents with ambulation or confusion problems from coming in contact with the stove.

(D) Unvented, portable oil, gas, or kerosene heaters are prohibited. Sealed electric transfer heaters or electric space heaters with tip-over, shut-off capability may be used when approved by the State Fire Marshal or the State Fire Marshal's designee. A heater must be directly connected to an electrical outlet and may not be connected to an extension cord.

(c) **EXTENSION CORDS AND ADAPTORS.** Extension cord wiring and multi-plug adaptors may not be used in place of permanent wiring. UL-approved, re-locatable power taps (RPTs) with circuit breaker protection and no more than six electrical sockets are permitted for indoor use only and must be installed and used in accordance with the manufacturer's instructions. If RPTs are used, the RPT must be directly connected to an electrical outlet, never connected to another RPT (known as daisy-chaining or piggy-backing), and never connected to an extension cord.

(d) **LOCKS AND ALARMS.** Hardware for all exit doors and interior doors must be readily visible, have simple hardware that may not be locked against exit, and have an obvious method of operation. Hasps, sliding bolts, hooks and eyes, slide chain locks, and double key deadbolts are not permitted.

(A) All resident bedroom doors must have a locking device on the inside of the door, released by a single action. Providers licensed before January 1, 2016, have until September 1, 2018 to fully implement this requirement.

ADMINISTRATIVE RULES

(B) The lock on each resident's bedroom door must have a personalized key that locks and unlocks only the lock on the resident's bedroom door.

(C) Each Resident shall be provided a key to the lock for his or her bedroom.

(D) A set of master key to all of the residents' locked doors must be immediately available to the licensee and all other caregivers in the home.

(E) If a home has a resident with impaired judgment who is known to wander away, the home must have an activated alarm system to alert a caregiver of the resident's unsupervised exit.

(e) **WINDOWS.** Bedrooms must have at least one window or exterior door that leads directly outside, readily opens from the inside without special tools, and provides a clear opening of not less than 821 square inches (5.7 sq. ft.), with the least dimensions not less than 24 inches in height or 20 inches in width. If the interior sill height of the window is more than 44 inches from the floor level, approved steps or other aids to the window exit that the occupants are capable of using must be provided. Windows with a clear opening of not less than 5.0 square feet or 720 square inches with interior sill heights of no more than 48 inches above the floor may be accepted when approved by the State Fire Marshal or the State Fire Marshal's designee.

(f) **CONSTRUCTION.** Interior and exterior doorways must be wide enough to accommodate the mobility equipment used by the residents such as wheelchairs and walkers. All interior and exterior stairways must be unobstructed, equipped with handrails on both sides, and appropriate to the condition of the residents. (See also section (5)(q) of this rule).

(A) Buildings must be of sound construction with wall and ceiling flame spread rates at least substantially comparable to wood lath and plaster or better. The maximum flame spread index of finished materials may not exceed 200 and the smoke developed index may not be greater than 450. Exception: Buildings supplied with an approved automatic sprinkler system.

(i) **MANUFACTURED HOMES.** A manufactured home (formerly mobile homes) must have been built in 1976 or later and designed for use as a home rather than a travel trailer. The manufactured home must have a manufacturer's label permanently affixed on the unit itself that states the manufactured home meets the requirements of the Department of Housing and Urban Development (HUD). The required label must read as follows:

"As evidenced by this label No. ABC000001, the manufacturer certifies to the best of the manufacturer's knowledge and belief that this mobile home has been inspected in accordance with the requirements of the Department of Housing and Urban Development and is constructed in conformance with the Federal Mobile Home Construction and Safety Standards in effect on the date of manufacture. See date plate."

(ii) If such a label is not evident and the licensee believes the manufactured home meets the required specifications, the licensee must take the necessary steps to secure and provide verification of compliance from the home's manufacturer.

(iii) Manufactured homes built in 1976 or later meet the flame spread rate requirements and do not have to have paneling treated with a flame retardant coating.

(B) **STRUCTURAL CHANGES.** The licensee must notify the local licensing authority, in writing, at least 15 calendar days before any remodeling, renovations, or structural changes in the home that require a building permit. Such activity must comply with local building, sanitation, utility, and fire code requirements applicable to a single-family dwelling (see ORS 443.760(1)). The licensee must forward all required permits and inspections, an evacuation plan as described in section (5)(l) of this rule, and a revised floor plan as described in section (5)(o) of this rule, to the local licensing authority within 30 calendar days of completion.

(B) **SMOKE ALARMS.** Smoke alarms must be installed in accordance with the manufacturer's instructions in each bedroom, in hallways or access areas that adjoin bedrooms, the family room or main living area where occupants congregate, any interior designated smoking area, and in basements. In addition, smoke alarms must be installed at the top of all stairways in multi-level homes.

(i) Ceiling placement of smoke alarms is recommended.

(ii) Battery operated smoke alarms or hard-wired smoke alarms with a battery backup must be equipped with a device that warns of a low battery.

(iii) A bedroom used by a hearing-impaired occupant who may not hear the sound of a regular smoke alarm must be equipped with an additional smoke alarm that has visual or vibrating capacity.

(C) All carbon monoxide alarms and smoke alarms must contain a sounding device or be interconnected to other alarms to provide, when activated an alarm that is audible in all sleeping rooms. The alarms must be loud enough to wake occupants when all bedroom doors are closed. Intercoms and room monitors may not be used to amplify alarms.

(D) The licensee must test all carbon monoxide alarms and smoke alarms in accordance with the manufacturer's instructions at least monthly (per NFPA 72). Testing must be documented in the facility records. The licensee must maintain carbon monoxide alarms, smoke alarms, and fire extinguishers in functional condition. If there are more than two violations in maintaining battery operated alarms in working condition, the Department may require the licensee to hard wire the alarms into the electrical system.

(l) **EVACUATION PLAN.** An emergency evacuation plan must be developed and revised as necessary to reflect the current condition of the residents in the home. The evacuation plan must be rehearsed with all occupants.

ADMINISTRATIVE RULES

(m) **ORIENTATION TO EMERGENCY PROCEDURES.** Within 24 hours of arrival, any new resident or caregiver must be shown how to respond to a smoke alarm, shown how to participate in an emergency evacuation drill, and receive an orientation to basic fire safety. New caregivers must also be oriented in how to conduct an evacuation.

(n) **EVACUATION DRILL.** An evacuation drill must be held at least once every 90 calendar days, with at least one evacuation drill per year conducted during sleeping hours. The evacuation drill must be clearly documented, signed by the caregiver conducting the drill, and maintained according to OAR 411-050-0645.

(A) The licensee and all other caregivers must:

- (I) Have direct access to a public sidewalk or street; or
- (II) Not be in the backyard of a home unless the backyard has direct access to a public street or sidewalk.

(B) Conditions may be applied to a license if the licensee or caregivers demonstrate the inability to meet the evacuation times described in this section. Conditions may include, but are not limited to, reduced capacity of residents, additional staffing, or increased fire protection. Continued problems are grounds for revocation or non-renewal of the license.

(o) **FLOOR PLAN.** The licensee must develop a current and accurate floor plan that indicates:

(A) The size of rooms;

(B) Which bedrooms are to be used by residents, the licensee, caregivers, and for day care and room and board tenants, as applicable;

Any bedroom window or door identified as an exit must remain free of obstacles that would interfere with evacuation.

(s) **RAMP.** There must be at least one wheelchair ramp from a minimum of one exterior door if an occupant of the home is non-ambulatory. Wheelchair ramps must comply with the U.S. Department of Justice's 2010 Americans with Disabilities Act (ADA) Standards for Accessible Design (http://www.ada.gov/2010ADASTandards_index.htm, Chapter 4, Accessible Routes, Section 405, Ramps).

(t) **EMERGENCY EXITS.** There must be a second safe means of exit from all sleeping rooms. A provider whose sleeping room is above the first floor may be required to demonstrate at the time of licensure, renewal, or inspection, how the premises will be evacuated from the provider's sleeping room using the secondary exit.

(u) **FLASHLIGHT.** There must be at least one plug-in, rechargeable flashlight in good functional condition available on each floor of the home for emergency lighting.

(v) **SMOKING.** The licensee must identify the home's smoking policies in the home's Residency Agreement. If smoking is allowed in or on the premises of the home:

Standards and Practices for Care and Services

(1) **PRE-ADMISSION SCREENING AND ASSESSMENT.**

(a) Before admission, the licensee must conduct and document a screening to determine if a prospective resident's care needs exceed the license classification of the home. The screening must:

(A) Evaluate the ability of the prospective resident to evacuate the home within three minutes along with all the occupants of the home.

(B) Determine if the licensee and caregivers are able to meet the prospective resident's needs in addition to meeting the needs of the other residents of the home.

(C) Include medical diagnoses, medications, personal care needs, nursing care needs, cognitive needs, communication needs, night care needs, nutritional needs, activities, lifestyle preferences, and other information, as needed, to assure the prospective resident's care needs shall be met.

(b) The screening process must include interviews with the prospective resident and the prospective resident's family, prior care providers, and case manager, as appropriate. The licensee must also interview, as necessary, any physician, nurse practitioner, physician assistant, registered nurse, pharmacist, therapist, or mental health or other licensed health care profes-

ADMINISTRATIVE RULES

sional involved in the care of the prospective resident. A copy of the screening document must be:

(A) Given to the prospective resident or the prospective resident's representative.

(B) Placed in the resident's record if admitted to the home; or

(C) Maintained for a minimum of three years if the prospective resident is not admitted to the home.

(c) If the Department or AAA knows a person who is on probation, parole, or post-prison supervision after being convicted of a sex crime as defined in ORS 181.805 is applying for admission to an adult foster home, the Department or AAA shall notify the home of the person's status as a sex offender.

(d) The licensee may refuse to admit a person who is on probation, parole, or post-prison supervision after being convicted of a sex crime as defined in ORS 181.805.

(e) **REQUIRED DISCLOSURES.**

(A) The licensee must disclose the home's policies to a prospective resident or the prospective resident's representative, as applicable. A copy of the home's current and approved Residency Agreement identifying the home's policies shall be provided to the prospective resident and his or her representative. (See OAR 411-050-0615).

(B) **LONG-TERM CARE ASSESSMENT.** The licensee must inform a prospective private-pay resident or the prospective resident's representative, if appropriate, of the availability of long-term care assessment services provided through the Department or a certified assessment program. The licensee must document on the Department's form (SDS 913) that the prospective private-pay resident has been advised of the right to receive a long-term care assessment. The licensee must maintain a copy of the form in the resident's record upon admission and make a copy available to the Department upon request.

(2) **BEFORE ADMISSION.**

(a) The licensee must obtain and document general information regarding a resident before the resident's admission. The information must include the names, addresses, and telephone numbers of the resident's relatives, significant persons, case managers, and medical or mental health providers. The information must also include the date of admission and, if available, the resident's medical insurance information, birth date, prior living facility, and mortuary.

(b) Before admission, the licensee must obtain and place in the resident's record:

(A) Prescribing practitioner's written or verbal orders for medications, treatments, therapies, and special diets, as applicable. Any verbal orders must be followed by written orders within seven calendar days of the resident's admission. Attempts to obtain written orders must be documented in the resident's record.

(B) Prescribing practitioner or pharmacist review of the resident's preferences for over-the-counter medications and home remedies.

(C) Any medical information available, including the resident's history of accidents, illnesses, impairments, or mental status that may be pertinent to the resident's care.

(c) The licensee must ask for copies of the resident's Advance Directive, Physician's Order for Life Sustaining Treatment (POLST), and proof of court-appointed guardianship or conservatorship, if applicable. Copies of these documents must be placed in a prominent place in the resident's record and sent with the resident if the resident is transferred for medical care.

(d) The licensee must review the home's current Residency Agreement with the resident and the resident's representative, as appropriate. These reviews must be documented by having the resident, or the resident's representative, sign and date a copy of the Residency Agreement. A copy of the signed and dated Residency Agreement must be maintained in the resident's record.

(3) **SCREENING BEFORE RE-ADMISSION.** When a resident temporarily leaves the home including, but not limited to, a resident's hospitalization, the licensee shall conduct the necessary elements of the pre-admission and screening assessment requirements, and document those findings to:

(a) Determine whether readmission to the home is appropriate for the classification of the home.

(b) Determine whether the licensee can continue to meet the resident's care and safety needs in addition to those of the other residents.

(c) Demonstrate compliance with these rules.

(d) If applicable, demonstrate the basis for refusing the resident's re-admission to the home according to OAR 411-050-0645 (11).

(4) **CARE PLAN.**

(a) During the initial 14 calendar days following the resident's admission to the home, the licensee must continue to assess and document the resident's preferences and care needs. The assessment and care plan must be completed by the licensee and documented within the initial 14-day period. The care plan must describe the resident's needs, preferences, capabilities, what assistance the resident requires for various tasks, and must include:

(A) By whom, when, and how often care and services shall be provided;

(B) The resident's ability to perform activities of daily living (ADLs);

(C) Special equipment needs;

(D) Communication needs (examples may include, but are not limited to, hearing or vision needs, such as eraser boards or flash cards, or language barriers, such as sign language or non-English speaking);

(E) Night needs;

(F) Medical or physical health problems, including physical disabilities, relevant to care and services;

(G) Cognitive, emotional, or other impairments relevant to care and services;

(H) Treatments, procedures, or therapies;

(L) The ability to exit in an emergency, including assistance and equipment needed;

(M) Any use of physical restraints or psychoactive medications; and

(N) Dietary needs and preferences.

(b) Effective July 1, 2016, the licensee must identify any individually-based limitations to the following freedoms on the Department's Individual Consent to HCBS Limitations form:

(A) Support to access to food at any time;

(B) Visitors of the resident's choosing at any time;

(C) A lock on the resident's bedroom, lockable by the resident;

(D) Choice of a roommate, if sharing a bedroom;

(E) Support to furnish and decorate the resident's bedroom as the resident chooses;

(F) Freedom and support to control the resident's schedule and activities; and

(G) Privacy in the resident's bedroom.

(c) Effective July 1, 2016, a limitation to any freedom in (b) of this rule must be supported by a specific assessed need due to threats to the health and safety of the resident or others. For Medicaid-eligible residents, the person-centered service plan coordinator must authorize the limitation and the individual must consent to the limitation. The licensee must incorporate and document all applicable elements identified in OAR 411-004-0040, including:

(A) The specific and individualized assessed need justifying the limitation.

(B) The positive interventions and supports used before any limitation.

(C) Less intrusive methods that have been tried, but did not work.

(D) A clear description of the condition that is directly proportionate to the specific assessed need.

(E) Regular reassessment and review to measure the ongoing effectiveness of the limitation.

(F) Established time limits for periodic review of the limitation to determine if the limitation should be terminated or remains necessary. The limitation must be reviewed at least annually.

(G) The informed consent of the resident or, as applicable, the legal representative of the resident, including any discrepancy between the wishes of the resident and the consent of the legal representative.

(H) An assurance that the interventions and support do not cause harm to the individual.

(d) Limitations are not transferable between care settings. Continued need for any limitation at the new care setting must comply with the requirements as stated in OAR 411-050-0655.

(e) The licensee must review and update each resident's care plan every six months and when a resident's condition changes. The review must be documented in the resident's record at the time of the review and include the date of the review and the licensee's signature. If a care plan contains many changes and becomes less legible, a new care plan must be written.

(5) **PERSON-CENTERED SERVICE PLAN.** A Medicaid-eligible resident's case manager will complete a person-centered service plan, pursuant to OAR 411-004-0030. The licensee must incorporate all applicable

ADMINISTRATIVE RULES

elements identified in the person-centered service plan that the provider is responsible for implementing.

(a) The licensee must notify the resident's case manager in the event a review and change or removal of an existing limitation is warranted, and when a new limitation is supported by a specific assessed need.

(A) All attempts to notify the resident's case manager about a review to change, remove, or add a limitation must be documented, and available in the resident's record.

(B) The licensee will not be held responsible for any failure on the case manager's part to conduct a review of current limitations or to complete the person-centered service plan.

(b) Providers may assist non-Medicaid residents in developing a person-centered service plan when no alternative resources are available.

(6) REGISTERED NURSE CONSULTATION.

(a) RN CONSULTATION AND ASSESSMENT. A licensee must obtain a medical professional consultation and assessment to meet the care needs of a resident as required in these rules. A registered nurse consultation must be obtained when a skilled nursing care task, as defined by the Oregon State Board of Nursing, has been ordered by a physician or other licensed health care professional.

(b) A licensee must also request a registered nurse consultation under the following conditions:

(A) When a resident has a health concern or behavioral symptoms that may benefit from a nursing assessment and provider education.

(B) When written parameters are needed to clarify a prescribing practitioner p.r.n. order for medication and treatment (See section (7)(g) of this rule).

(C) Before the use of physical restraints when not assessed, taught, and reassessed, according to section (7)(o) of this rule, by a physician, nurse practitioner, physician assistant, Christian Science practitioner, mental health clinician, physical therapist, or occupational therapist.

(D) Before requesting psychoactive medications to treat behavioral symptoms or the use of new psychoactive medications when not assessed, taught, and reassessed according to section (7)(h) of this rule, by a physician, nurse practitioner, physician assistant, or mental health practitioner.

(E) When care procedures are ordered that are new for a resident, the licensee, or other caregivers.

(c) RN DELEGATIONS. A registered nurse may determine a nursing care task to be taught utilizing the delegation process. RN delegations are not transferable to other residents or caregivers. (Refer to OAR chapter 851, division 047).

(d) Documentation of nurse consultations, delegations, assessments, and reassessments must be maintained in the resident's record and made available to the Department upon request.

(7) STANDARDS FOR MEDICATIONS, TREATMENTS, AND THERAPIES.

(a) MEDICATIONS. The licensee and caregivers must demonstrate an understanding of each resident's medication administration regimen. Medication resource material must be readily available at the home and include the reason a medication is used, any specific instructions, the medication's actions, and common side effects.

(b) WRITTEN ORDERS. The licensee must obtain and place a signed order in the resident's record for any medications, dietary supplements, treatments, or therapies that have been ordered by a prescribing practitioner. The written orders must be carried out as prescribed unless the resident or the resident's legal representative refuses to consent. The prescribing practitioner must be notified if the resident refuses to consent to an order.

(A) CHANGED ORDERS. Changes to a written order may not be made without a prescribing practitioner order. The prescribing practitioner must be notified if the resident refuses to consent to the change order. Changes to medical orders obtained by telephone must be followed-up with signed orders within seven calendar days. Changes in the dosage or frequency of an existing medication require a new properly labeled and dispensed medication container. If a new properly labeled and dispensed medication container is not obtained, the change must be written on an auxiliary label attached to the medication container, not to deface the existing original pharmacy label, and must match the new medication order. Attachment of the auxiliary label must be documented in the residents' record. (See section (7)(f)(D) of this rule).

(B) DOCUMENTATION OF CHANGED ORDERS. Attempts to obtain the signed written changes must be documented and readily available for review in the resident's record. The resident's medications, including medications that are prescribed, over-the-counter medications, and home remedies, must be reviewed by the resident's prescribing practitioner or pharmacist at least annually. The review must be in writing, include

the date of the review, and contain the signature of the prescribing practitioner or a pharmacist.

(c) MEDICATION SUPPLIES. The licensee must have all currently prescribed medications, including p.r.n. medications, and all prescribed over-the-counter medications available in the home for administration. Refills must be obtained before depletion of current medication supplies. Attempts to order refills must be documented in the resident's record.

(d) HEALTH CARE PROFESSIONAL ORDERS (IMPLEMENTED BY AFH STAFF). The licensee who implements a hospice, home health, or other licensed medical professional-generated order must:

(A) Have a copy of the hospice, home health, or licensed medical professional document that communicates the written order.

(B) Transcribe the order onto the medication administration record (MAR).

(C) Implement the order as written.

(D) Include the order on subsequent medical visit reports for the prescribing practitioner to review.

(e) HOSPICE AND HOME HEALTH ORDERS (IMPLEMENTED BY NON-AFH STAFF). A licensee must allow a resident to receive hospice services. The licensee who provides adult foster home services to a recipient of hospice or home health services, but who does not implement a hospice or home health-generated order must:

(A) Have a copy of the hospice or home health document that communicates the written order; and

(B) Include the order on subsequent medical visit reports for the prescribing practitioner to review.

(f) MEDICATION ADMINISTRATION RECORD (MAR). A current, written medication administration record (MAR) must be kept for each resident and must:

(A) List the name of all medications administered by a caregiver, including over-the-counter medications and prescribed dietary supplements. The MAR must identify the dosage, route, date, and time each medication and supplement is to be given.

(B) Identify any treatments and therapies administered by a caregiver. The MAR must indicate the type of treatment or therapy and the time the procedure must be performed.

(C) Be immediately initialed by the caregiver administering the medication, treatment, or therapy as it is completed. A resident's MAR must contain a legible signature that identifies each set of initials.

(D) Document changed and discontinued orders immediately showing the date of the change or discontinued order. A changed order must be written on a new line with a line drawn to the start date and time.

(E) Document missed or refused medications, treatments, or therapies. If a medication, treatment, or therapy is missed or refused by the resident, the initials of the caregiver administering the medication, treatment, or therapy must be circled, and a brief, but complete, explanation must be recorded on the back of the MAR.

(g) P.R.N. MEDICATIONS. Prescription medications ordered to be given "as needed" or "p.r.n." must have specific parameters indicating what the medication is for and specifically when, how much, and how often the medication may be administered. Any additional instructions must be available for the caregiver to review before the medication is administered to the resident.

(A) P.R.N. DOCUMENTATION. As needed (p.r.n) medications must be documented on the resident's MAR with the time, dose, the reason the medication was given, and the outcome.

(B) P.R.N. ADVANCE SET-UP. As needed (p.r.n.) medications may not be included in any advance set-up of medication.

(h) PSYCHOACTIVE MEDICATIONS.

(A) A licensee is not required to request an evaluation of a resident's use of a psychoactive medication if the resident is admitted to the home and the resident has been prescribed the psychoactive medication for a condition that is currently monitored by a physician, nurse practitioner, physician assistant, or mental health professional and the written order for the psychoactive medication is in the resident's record.

(B) If a resident is admitted to a home with no documented history as to the reason for taking a psychoactive medication, or if the licensee requests medical professional intervention to address behavioral symptoms, the licensee must request a physician, nurse practitioner, physician assistant, or mental health professional evaluate the resident's need for the psychoactive medication and the intended effect of the medication, common side effects, and circumstances for reporting. The evaluation request must be documented in the resident's record and include:

(i) A probable cause of the resident's behavior.

ADMINISTRATIVE RULES

(ii) Behavioral and environmental interventions to be used instead of or in addition to psychoactive medication, if applicable. Alternative interventions must be tried as instructed by a licensed medical professional and the resident's response to the alternative interventions must be documented in the resident's record before administering a psychoactive medication.

(iii) A plan for reassessment by the resident's prescribing physician, nurse practitioner, physician assistant, or mental health professional.

(C) The prescription and order for a psychoactive medication must specify the dose, frequency of administration, and the circumstance for use (i.e., specific symptoms). The licensee and all caregivers must be aware of and comply with these parameters.

(D) The licensee and all caregivers must know the intended effect of a psychoactive medication for a particular resident and the common side effects, as well as the circumstances for reporting to the resident's physician, nurse practitioner, physician assistant, or mental health professional.

(E) The resident's care plan must identify and describe the behavioral symptoms psychoactive medications are prescribed for and a list of all interventions, including behavioral, environmental, and medication.

(F) Psychoactive medications must never be given to discipline a resident or for the convenience of the caregivers.

(i) MEDICATION CONTAINERS AND STORAGE.

(A) MEDICATION CONTAINERS. Each of the resident's prescribed medication containers, including bubble packs, must be clearly labeled by the pharmacy. All medications, including over-the-counter medications, must be in the original container. Medications stored in advanced set up containers are required to be labeled as described in these rules.

(B) OVER-THE-COUNTER PRODUCTS. Over-the-counter products such as medications, vitamins, and supplements purchased for a specific resident's use must be marked with the resident's name. Over-the-counter items in stock bottles (with original labels) may be used for multiple residents in the home and must be clearly marked as the house supply.

(C) STORAGE OF RESIDENT MEDICATION. All resident medications, including over-the-counter medications, must be kept in a locked, central location that is cool, clean, dry, not subject to direct sunlight, and separate from medications belonging to the licensee, caregivers, and all other non-residents. Medications requiring refrigeration must also be locked and stored separately from non-resident medications.

(D) STORAGE OF NON-RESIDENT MEDICATION. All non-resident medications must be kept locked and separate from resident medications. Residents shall not have access to medications belonging to the licensee, caregivers, other household members, or pets.

(j) DISPOSAL OF MEDICATION. Outdated, discontinued, recalled, or contaminated medications, including over-the-counter medications, may not be kept in the home and must be disposed of within 10 calendar days of expiration, discontinuation, or the licensee's knowledge of a recall or contamination. A licensee must contact the local DEQ waste management company in the home's area for instructions on proper disposal of unused or expired medications.

(k) DOCUMENTATION OF DISPOSAL. The disposal of a resident's medication must be documented in the resident's record and the documentation must be readily available in the resident's record.

(A) The disposal of a controlled substance must be documented in the resident's record and the disposal must be witnessed by a caregiver who is 18 years of age or older.

(B) Documentation regarding the disposal of medications and controlled substances must include:

(i) The date of disposal.

(ii) Description of the medication, (i.e., name, dosage, and amount being disposed).

(iii) Name of the resident for whom the medication was prescribed.

(iv) Reason for disposal.

(v) Method of disposal.

(vi) Signature of the person disposing of the medication.

(vii) For controlled substances, the signature of the caregiver who witnessed the disposal according to this rule.

(l) ADVANCED SET-UP. The licensee may set-up each resident's medications for up to seven calendar days in advance (excluding p.r.n. medications) by using a closed container manufactured for the advanced set-up of medications. If used, each resident must have his or her own container with divisions for the days of the week and times of the day the medications are to be given. The container must be clearly labeled with the resident's name, name of each medication, time to be given, dosage, amount, route, and description of each medication. The container must be stored in the locked area with the residents' medications.

(m) SELF-ADMINISTRATION OF MEDICATION. A licensee must have a prescribing practitioner written order of approval for a resident to self-medicate. A resident able to handle his or her own medical regimen may keep his or her medications in his or her own room in a lockable storage area or device. Medications must be kept locked except those medications on the residents' own person. The licensee must notify the prescriber of the medication if the resident shows signs of no longer being able to self-medicate safely.

(n) INJECTIONS. Subcutaneous, intramuscular, and intravenous injections may be self-administered by a resident if the resident is fully independent in the task or may be administered by a relative of the resident or an Oregon licensed registered nurse (RN). An Oregon licensed practical nurse (LPN) may give subcutaneous and intramuscular injections. A caregiver who has been delegated and trained by a registered nurse under provision of the Oregon State Board of Nursing (OAR 851-047-0000 to 851-047-0040) may give subcutaneous injections. Statement of Purpose

(1) The rules in OAR chapter 411, division 345, effectuate Oregon's Employment First policy under which the employment of individuals with intellectual or developmental disabilities in competitive integrated employment is the highest priority over unemployment, segregated employment, or other non-work day activities.

(2) For individuals who successfully achieve the goal of competitive integrated employment, future person-centered service planning focuses on maintaining employment, maximizing the number of hours an individual works consistent with his or her preferences and interests, and considering additional career or advancement opportunities.

(3) Employment services are considered and provided on an individualized basis using a person-centered approach based on informed choice and consistent with the philosophy of self-determination.

(4) These rules prescribe service standards and requirements for providers of home and community-based services in settings where employment services and other non-residential services are provided.

(5) These rules incorporate the provisions for home and community-based services and settings and person-centered service planning set forth in OAR chapter 411, division 004. These rules and the rules in OAR chapter 411, division 004 ensure individuals with intellectual or developmental disabilities receive services in settings that are integrated in and support the same degree of access to the greater community as people not receiving home and community-based services.

(6) These rules prescribe qualifications and eligibility requirements for individuals with intellectual or developmental disabilities to receive employment services and other non-residential services.

(7) Employment services are provided in accordance with these rules and Oregon's Employment First policy as described in the State of Oregon Executive Order No. 15-01 and OAR chapter 407, division 025 (Integrated Employment Services to Individuals with Intellectual and Developmental Disabilities).

Statement of Purpose

(1) The rules in OAR chapter 411, division 328 prescribe standards for providers that support individuals with intellectual or developmental disabilities in a supported living setting and the procedures for the certification and endorsement of supported living settings under the rules in OAR chapter 411, division 323.

(2) These rules incorporate the provisions for home and community-based services and settings and person-centered service planning set forth in OAR chapter 411, division 004. These rules and the rules in OAR chapter 411, division 004 ensure individuals with intellectual or developmental disabilities receive services in settings that are integrated in and support the same degree of access to the greater community as people not receiving home and community-based services.

(3) Supported living provides the opportunity for an individual to live in the residence of his or her choice within the community with recognition that the needs and preferences of the individual may change over time. The levels of support for the individual are based upon individual needs and preferences as identified in a functional needs assessment and defined in an Individual Support Plan. Such services may include up to 24 hours per day of paid supports that are provided in a manner that protects the dignity of the individual.

(4) These rules ensure that providers meet basic management, programmatic, health and safety, and human rights regulations for adults receiving services funded by the Department in supported living settings. The provider is responsible for developing and implementing policies and procedures that ensure that the requirements of these rules are met and ensuring services comply with all applicable local, state, and federal laws and regulations.

Subject: The Department of Human Services, Office of Developmental Disabilities Services (Department) is temporarily amending the rules in OAR chapter 411, division 325 for 24-hour residential settings for children and adults with intellectual or developmental disabilities. These rules are being temporarily amended to:

- Provide consistency across services by removing terms included in the general definitions rule, OAR 411-317-0000;

- Incorporate the adoption of the rules for home and community-based (HCB) services and settings and person-centered service planning in OAR chapter 411, division 004; and

- Incorporate the individual rights in OAR 411-318-0010 for individuals receiving HCB services.

The rules in OAR chapter 411, division 004 implement the regulations and expectations of the U.S. Department of Health and Human Services, Centers for Medicare and Medicaid Services (CMS) by providing a foundation of standards to support the network of Medicaid-funded and private pay residential and non-residential HCB services and settings and person-centered service planning.

Under the HCB setting standards, 24-hour residential settings meet the definition of a provider owned, controlled, or operated residential setting. A provider licensed prior to January 1, 2016 must make measurable progress toward compliance with the rules in OAR chapter 411, division 004 and be in full compliance by September 1, 2018.

By September 1, 2018, all provider owned, controlled, or operated residential settings must have all the following qualities:

- The setting is integrated in and supports the same degree of access to the greater community as people not receiving HCB services, including opportunities for individuals enrolled in or utilizing HCB services to seek employment and work in competitive integrated employment settings, engage in greater community life, control personal resources, and receive services in the greater community;

- The setting is selected by an individual, or as applicable the legal or designated representative of the individual, from among available setting options, including non-disability specific settings and an option for a private unit in a residential setting;

- The setting ensures individual rights of privacy, dignity, respect, and freedom from coercion and restraint;

- The setting optimizes, but does not regiment, individual initiative, autonomy, self-direction, and independence in making life choices including, but not limited to, daily activities, physical environment, and with whom to interact;

- The setting facilitates individual choice regarding services and supports, and who provides the services and supports;

- The setting is physically accessible to an individual;

- The unit is a specific physical place that may be owned, rented, or occupied by an individual under a legally enforceable Residency Agreement;

- Each individual has privacy in his or her own unit;

- Units have entrance doors lockable by the individual, with the individual and only appropriate staff having a key to access the unit;

- Individuals sharing units have a choice of roommates;

- Individuals have the freedom to decorate and furnish his or her own unit as agreed to within the Residency Agreement;

- Individuals may have visitors of their choosing at any time;

- Each individual has the freedom and support to control his or her own schedule and activities; and

- Each individual has the freedom and support to have access to food at any time.

(C) The applicant or the legal representative of the applicant must provide documentation of U.S. citizenship as defined in OAR 411-320-0020; and

(D) The applicant must reside in Oregon or if the applicant is less than 18 years of age, the applicant and the legal representative of the applicant must reside in Oregon.

(b) The CDDP may stop the intake process if the documents listed in subsection (a)(B) of this section are not submitted within 90 days of the date that the CDDP received the signed and dated Intake Form (SDS 0552). If the CDDP stops the intake process, written notice of the information needed to determine eligibility or a withdrawal letter must be sent to the person identified on the Intake Form (SDS 0552) as the person seeking services and the legal representative of the person seeking services.

(c) The CDDP must consider an application if the criteria in subsection (a) of this section are met. If the criteria in subsection (a) of this section are not met, the CDDP shall deny the application by sending a Notification of Planned Action (SDS 0947).

(d) Upon receipt of a completed application, the CDDP must provide an applicant the Department required Notification of Rights (form SDS 0948) within 10 business days.

(e) A new application may not be required if the file for an individual has been closed for less than 12 months following a closure, denial, or termination and the individual meets all of the criteria in subsection (a) of this section.

(f) The CDDP must identify whether an applicant receives any income.

ADMINISTRATIVE RULES

(A) The CDDP must refer all applicants not currently receiving an OHP Plus benefit package to the local Medicaid office for OHP Plus application and benefit determination.

(B) The CDDP must refer an applicant less than 18 years of age to Social Security if the CDDP identifies that the applicant may qualify for Social Security benefits.

(g) REINSTATEMENT OF ELIGIBILITY FOR CHILDREN OF SERVICE MEMBERS.

(A) WAIVER OF APPLICATION. A previously eligible child of a service member, who temporarily left Oregon due to the military service obligation of the parent outside of Oregon, does not need to submit a new application for developmental disability services upon return. Upon return to Oregon and a request to a CDDP in the county of origin, the CDDP in the county of origin shall assign a services coordinator within 10 days of the request for services.

(B) COORDINATION OF SERVICES. The services coordinator shall assist the individual in establishing eligibility for OSIPM or OHP Plus and meet face-to-face with the child and parent or guardian, within 45 days of the request for services, to provide choice advising and to review the rights of the child to a fair hearing and the service planning steps in OAR 411-320-0120.

(C) REDETERMINATION. The CDDP must follow sections (5) and (6) of this rule regarding a redetermination of eligibility. As with all redeterminations, prior to a termination of developmental disability services, the CDDP must send a notice of redetermination, afford the parent or guardian the opportunity to provide documentation that supports eligibility, and schedule a diagnostic evaluation for the child, if appropriate. Upon the reentry of the child to services, the CDDP in the county of origin shall initiate a redetermination if:

(i) The criteria used to determine eligibility for developmental disabilities services changed during the absence of the child;

(ii) There are new records related to the eligibility criteria for developmental disability services, including medical, psychological, or educational records related to an intellectual or developmental disability; or

(iii) The documents used to establish the original eligibility of the child are more than three-years-old, and medical, psychological, or educational records created during the absence of the child do not support the eligibility of the child for developmental disabilities services.

(2) ELIGIBILITY SPECIALIST. Each CDDP must identify at least one qualified eligibility specialist to act as a designee of the Department for purposes of making an eligibility determination. The eligibility specialist must meet performance qualifications and training expectations for determining developmental disability eligibility according to OAR 411-320-0030.

(3) INTELLECTUAL DISABILITY. A history of an intellectual disability as defined in OAR 411-320-0020 and significant impairment in adaptive behavior as described in OAR 411-320-0020 must be evident prior to the 18th birthday of an individual for the individual to be eligible for developmental disability services.

(a) Diagnosing an intellectual disability is done by measuring intellectual functioning and adaptive behavior as assessed by standardized tests administered by a licensed clinical or school psychologist with specific training and experience in test interpretation of intellectual functioning and adaptive behavior scales for individuals with intellectual disabilities.

(A) For individuals who have consistent and valid Full Scale IQ results of 65 and less, no assessment of adaptive behavior may be needed if current documentation supports eligibility.

(B) For individuals who have a valid Full Scale IQ or equivalent composite score results of 66-75, verification of an intellectual disability requires an assessment of adaptive behavior.

(C) A General Ability Index result must be used in place of a Full Scale IQ score to determine eligibility if a licensed clinical or school psychologist determines that the General Ability Index is a more valid measure of overall intelligence when compared to the Full Scale IQ score.

(D) A Specific Index IQ result must be used in place of a Full Scale IQ score to determine eligibility if a licensed clinical or school psychologist determines that the Specific Index IQ is a more valid measure of overall intelligence when compared to the Full Scale IQ score.

(E) If an individual is not able to participate in an intelligence test due to intellectual disability, a statement of intellectual disability must be documented by a qualified professional and an adaptive behavior assessment demonstrating a composite score of at least two standard deviations below the mean must be completed.

(b) Impairment of adaptive behavior must be directly related to an intellectual disability and cannot be primarily attributed to other conditions,

including but not limited to a mental or emotional disorder, sensory impairment, motor impairment, substance abuse, personality disorder, learning disability, or ADHD.

(c) The condition and impairment must continue, or be expected to continue, indefinitely.

(4) OTHER DEVELOPMENTAL DISABILITY. A history of an other developmental disability as defined in OAR 411-320-0020 and significant impairment in adaptive behavior as described in OAR 411-320-0020 must be evident prior to the 22nd birthday of an individual for the individual to be eligible for developmental disability services.

(a) Diagnosing an other developmental disability requires a medical or clinical diagnosis of a developmental disability by a qualified professional and significant impairment in adaptive behavior as assessed by standardized tests administered by a licensed clinical or school psychologist, or a doctor of medicine or doctor of osteopathic medicine with specific training and experience in test interpretation of adaptive behavior scales. The individual must meet the full criteria for the diagnosis of the developmental disability. Individuals with a "provisional", "partial", and "rule-out" diagnosis do not meet the full criteria.

(A) Other developmental disabilities include autism, cerebral palsy, epilepsy, or other neurological disabling conditions that originate in and directly affect the brain.

(B) The individual must require training and support similar to that required by an individual with an intellectual disability, which means the individual has a composite or domain score that is at least two standard deviations below the mean, as measured on a standardized assessment of adaptive behavior administered by a licensed clinical or school psychologist, or a doctor of medicine or doctor of osteopathic medicine with specific training and experience in test interpretation of adaptive behavior scales.

(b) Significant impairment of adaptive behavior must be directly related to an other developmental disability and cannot be primarily attributed to other conditions including, but not limited to, a mental or emotional disorder, sensory impairment, motor impairment, substance abuse, personality disorder, learning disability, or ADHD.

(c) The condition and impairment must continue, or be expected to continue, indefinitely.

(5) ELIGIBILITY FOR CHILDREN LESS THAN SEVEN YEARS OF AGE.

(a) Eligibility determinations for children less than seven years of age must be based on documentation that is no more than one year old.

(A) The documentation must include:

(i) A valid standardized-and-normed early-childhood assessment, completed by a professional with at least a master's degree and training to administer early childhood assessments, which demonstrates the functioning of the child is at least two standard deviations below the mean in two or more areas of the adaptive behavior described in paragraph (B) of this subsection; or

(ii) When a standardized-and-normed early-childhood assessment is not available or not completed within one year of the date the CDDP receives the intake form, a medical statement by a licensed medical practitioner that confirms the presence of an other developmental disability that: is a neurological condition or syndrome; originates in and directly affects the brain; and causes or is likely to cause impairment in at least two or more areas of the adaptive behavior described in paragraph (B) of this subsection.

(B) Areas of adaptive behavior include:

(i) Adaptive, self-care, or self-direction;

(ii) Receptive and expressive language or communication;

(iii) Learning or cognition;

(iv) Gross and fine motor; or

(v) Social.

(C) The impairment, condition, or syndrome cannot be primarily attributed to other conditions including, but not limited to, a mental or emotional disorder, sensory impairment, motor impairment, substance abuse, personality disorder, learning disability, or ADHD.

(D) The condition and impairment must continue, or be expected to continue, indefinitely.

(b) REDETERMINATION OF ELIGIBILITY.

(A) Eligibility for children less than seven years of age is always provisional.

(i) Redetermination for school aged eligibility for a child who was originally determined eligible as a child less than seven years of age using a standardized and normed early childhood assessment as described in subsection (b)(A)(i) of this section must be completed no later than the child's ninth year birthdate.

ADMINISTRATIVE RULES

(ii) Redetermination for school aged eligibility for a child who was originally determined eligible as a child less than seven years of age using a medical statement by a licensed medical practitioner as described in subsection (b)(A)(ii) of this section must be completed no later than the child's seventh year birthdate.

(B) Any time there is evidence that contradicts an eligibility determination, the Department or the designee of the Department may redetermine eligibility or obtain additional information, including securing an additional evaluation for clarification purposes.

(C) The CDDP must notify a child and the legal representative of the child any time that a redetermination of eligibility is needed. Notification of the redetermination and the reason for the review of eligibility must be in writing and sent prior to the eligibility redetermination.

(6) **ELIGIBILITY FOR SCHOOL AGED CHILDREN.** Eligibility for school aged children as defined in OAR 411-320-0020 is always provisional.

(a) Eligibility determinations for school aged children must be completed on children who are at least five years of age and who have had school aged testing completed.

(b) Eligibility determinations for school aged children may be completed:

(A) Up to age 18 for school aged children who are provisionally eligible based on a condition of an intellectual disability; and

(B) Up to age 22 for school aged children who are provisionally eligible based on a condition of an other developmental disability.

(c) Eligibility determinations for school aged children must include:

(A) Documentation of an intellectual disability and significant impairment in adaptive behavior as described in section (3) of this rule; or

(B) A diagnosis and documentation of an other developmental disability and significant impairment in adaptive behavior as described in section (4) of this rule.

(d) Eligibility determinations for school aged children must be based on documentation that is no more than three years old.

(f) **REDETERMINATION OF SCHOOL AGED CHILDREN FOR ADULT ELIGIBILITY.**

(A) Redetermination of school aged children for adult eligibility must be completed:

(i) Between the ages of 16 and 18 if school aged eligibility was determined based on an intellectual disability as described in section (3) of this rule; or

(ii) Between the ages of 20 and 22 if school aged eligibility was determined based on an other developmental disability as described in section (4) of this rule.

(B) The documentation of an intellectual disability or an other developmental disability must include for individuals less than 22 years of age, information no more than three years old.

(C) If school aged eligibility was determined based on an intellectual disability as described in section (3) of this rule, an intellectual functioning assessment may be used to determine adult eligibility. An adult intellectual functioning assessment completed within the last three years is not needed if the school aged child has:

(i) More than one completed intellectual functioning assessment and all full scale IQ scores are 65 or less as described in section (3)(a)(A) of this rule;

(ii) Impairment in adaptive behavior as identified in section (3) of this rule; and

(iii) Current documentation that supports eligibility.

(D) If school aged eligibility was determined based on an other developmental disability as described in section (4) of this rule, the following criteria must be met:

(i) A current medical or clinical diagnosis of an other developmental disability is required unless all of the following are met:

(I) Documentation of an other developmental disability by a qualified professional as described in section (4) of this rule;

(II) Impairment in adaptive behavior that continues to be directly related to the other developmental disability;

(III) Current documentation that continues to support eligibility; and
(IV) No other medical or mental or emotional disorder.

(ii) If an individual has additional medical or mental or emotional disorders a new assessment may be required.

(iii) An informal adaptive behavior assessment as defined in OAR 411-320-0020 may be completed if all of the following apply:

(I) An assessment of adaptive behavior is required in order to redetermine eligibility;

(II) An assessment of adaptive behavior has already been completed by a licensed school or clinical psychologist; and

(III) The school aged child has obvious significant impairment in adaptive behavior.

(7) **ELIGIBILITY FOR ADULTS.**

(a) Eligibility for adults must include:

(A) Documentation of an intellectual disability and significant impairment in adaptive behavior as described in section (3) of this rule; or

(B) Documentation of an other developmental disability and significant impairment in adaptive behavior as described in section (4) of this rule.

(A) Information no more than three years old for individuals less than 22 years of age; or

(B) Information obtained after the 17th birthday of an individual for individuals 22 years of age and older.

(c) **INTELLECTUAL FUNCTIONING ASSESSMENT.**

(A) An intellectual functioning assessment completed on or after the age of 16 may be used to determine adult eligibility.

(B) An adult Intellectual Functioning Assessment may not be needed if an individual has:

(i) More than one completed intellectual functioning assessment and all full scale IQ scores are 65 or less as described in section (3)(a)(A) of this rule; and

(ii) Significant impairment in adaptive behavior as identified in section (3) of this rule.

(C) An adult intellectual functioning assessment may not be needed if an individual has a diagnosis and documentation of an other developmental disability as described in section (4) of this rule.

(d) **REDETERMINATION OF ELIGIBILITY.**

(A) There is no evidence of head trauma;

(B) There is no evidence or history of significant mental or emotional disorder; or

(C) There is no evidence or history of substance abuse.

(b) If there is evidence or a history of head trauma, significant mental or emotional disorder, or substance abuse, then a clinical impression by a qualified professional regarding how the functioning of the individual may be impacted by the identified condition must be obtained in order to determine if the significant impairment in adaptive behavior is directly related to a developmental disability and not primarily related to a head trauma, significant mental or emotional disorder, or substance abuse.

(9) **SECURING EVALUATIONS.** In the event that an eligibility specialist has exhausted all local resources to secure the necessary evaluations for an eligibility determination, the Department or the designee of the Department shall assist in obtaining additional testing if required to complete the eligibility determination.

(10) **PROCESSING ELIGIBILITY DETERMINATIONS.** The CDDP in the county of origin is responsible for making the eligibility determination.

(a) The CDDP must work in collaboration with the individual or the legal representative of the individual to gather historical records related to the intellectual or developmental disability of an individual during intake in order to complete an application for services.

ADMINISTRATIVE RULES

(b) During intake, the CDDP must gather enough information and documentation in order to accept a completed application for developmental disability services within 90 days of the date of intake, except in the following circumstances:

(A) The CDDP is unable to obtain a complete application because the individual or the legal representative of the individual does not collaborate with the Eligibility Specialist or fails to execute an action necessary to obtain a completed application;

(B) There is an emergency beyond the control of the CDDP; or

(C) More time is needed to obtain additional records by the CDDP, the individual, or the legal representative of the individual.

(c) Upon receipt of the completed application, as defined in OAR 411-320-0020, the CDDP must make an eligibility determination unless the following applies and is documented in the progress notes for an individual:

Written verification may include documentation from the electronic payment system of the Department.

(e) If the receiving CDDP receives information that suggests the individual is not eligible for developmental disability services, the receiving CDDP may complete a redetermination. The CDDP that determined the individual was eligible for developmental disability services may be responsible for the services authorized on the basis of that eligibility determination.

(f) If an individual submits an application for developmental disability services and discloses that he or she has previously received developmental disability services in another CDDP and the termination of case management services as described in OAR 411-320-0100(3) occurred within the past 12 months, the eligibility determination from the other CDDP shall transfer as outlined in this section of the rule.

If the CDDP is not able to reasonably anticipate the need for the variance, the CDDP has 15 business days to submit the variance request to the Department. The variance request must:

(a) Document the reason the service prioritization is necessary, including any alternatives considered;

Service Planning

(1) PRINCIPLES FOR SERVICE PLANNING. This rule prescribes standards for the development and implementation of an ISP or Annual Plan. An ISP or Annual Plan must:

(a) Be developed in a manner consistent with the principles of self-determination;

(b) Be developed using a person-centered planning process as defined in OAR 411-317-0000. The person-centered planning process:

(A) Is driven by the individual;

(B) Includes people chosen by the individual;

(C) Provides necessary information and supports to ensure the individual directs the process to the maximum extent possible and is enabled to make informed choices and decisions;

(D) Is timely, responsive to changing needs, occurs at times and locations convenient to the individual, and is reviewed at least annually;

(E) Reflects the cultural considerations of the individual;

(F) Uses language, format, and presentation methods appropriate for effective communication according to the needs and abilities of the individual and, as applicable, the legal or designated representative of the individual;

(G) Includes strategies for resolving disagreement within the process, including clear conflict of interest guidelines for all planning participants, such as;

(i) Discussing the concerns of the individual and determining acceptable solutions;

(ii) Supporting the individual in arranging and conducting a person-centered service planning meeting;

(iii) Utilizing any available community conflict resolution resources; or

(iv) Referring concerns to the Office of the Long-Term Care Ombudsman.

(H) Offers choices to the individual regarding the services and supports the individual receives, and from whom, and records the alternative home and community-based settings that were considered by the individual;

(I) Provides a method for the individual, or as applicable the legal or designated representative, to request updates to the ISP, as needed;

(J) Is conducted to reflect what is important to the individual to ensure delivery of services in a manner reflecting personal preferences and ensuring health and welfare;

(K) Identifies the strengths and preferences, service and support needs, goals, and desired outcomes of the individual;

(L) May include, whether and what services are self-directed;

(M) Includes, but is not limited to, individually identified goals and preferences related to relationships, community participation, employment, income and savings, healthcare and wellness, and education;

(N) Includes risk factors and plans to minimize any identified risk factors; and

ADMINISTRATIVE RULES

(O) Results in an ISP.

(c) Enhance the quality of life of the individual with intellectual or developmental disabilities; and

(d) Be consistent with the following principles:

(A) Personal control and family participation. While the service system reflects the value of family member participation in the planning process, adult individuals have the right to make informed choices about the level of family member participation. It is the intent of this rule to fully support the provision of education about personal control and decision-making to individuals who are receiving services.

(B) Choice and preferences. The planning process is critical in determining the preferences of an individual and the family of the individual for services and supports. The preferences of the individual and the family of the individual must serve to guide the ISP team. The active participation of the individual and input must be facilitated throughout the planning process.

(C) Barriers. The planning process is designed to identify the types of services and supports necessary to achieve the preferences of an individual and the family of the individual, identify the barriers to providing those preferred services, and develop strategies for reducing the barriers.

(D) Health and safety. The planning process must also identify strategies to assist an individual in the exercise of the rights of the individual. This may create tensions between the freedom of choice and interventions necessary to protect the individual from harm. The ISP team must carefully nurture the exercise of the rights of the individual while being equally sensitive to protecting the health and safety of the individual.

(E) Children in alternate living situations. When planning for children in 24-hour residential settings or foster care, maintaining family connections is an important consideration. The following must apply:

(i) Unless contraindicated, there must be a goal for family reunification;

(ii) The number of moves or transfers must be kept to a minimum; and

(iii) If the placement of a child is distant from the family of the child, the services coordinator must continue to seek a placement that brings the child closer to the family.

(2) LEVEL OF CARE DETERMINATION

(a) A services coordinator must assure that an individual has a level of care determination prior to accessing Community First Choice state plan or waiver services. The level of care determination must be made using a Department prescribed form. An initial ISP authorizing Community First Choice state plan or waiver services must be completed no later than the end of the month following the month in which the level of care determination was made or no later than 45 days from the level of care determination.

(b) A services coordinator must assure that a level of care determination is reviewed for every individual enrolled in a comprehensive service:

(A) Within 12 months from the previous Annual Review.

(i) This review must be completed no later than 12 months from the Diagnosis and Evaluation Coordinator (D & E Coordinator) approval date.

(ii) The annual review date may be reset for a date earlier than 12 months from the D & E Coordinator approval date, but not later than 12 months from the D & E Coordinator review date.

(B) No earlier than 60 days prior to the renewal of the ISP.

(C) Any time there is a significant change in a condition that qualified the individual for the level of care.

(c) The level of care assessment must be documented in a progress note in the service record for the individual.

(d) A level of care determination may be made by a services coordinator or a personal agent.

(3) FUNCTIONAL NEEDS ASSESSMENT. A services coordinator or personal agent must complete a functional needs assessment initially and at least annually for each individual who has or is expected to have an ISP.

(a) The functional needs assessment must be completed:

(A) Not more than 45 days from the date that the individual submitted a completed application or the date the CDDP learns of the eligibility of the individual for OHP Plus or OSIPM;

(B) Prior to the development of an initial ISP;

(C) Within 60 days prior to the annual renewal of an ISP; and

(D) Within 45 days from the date an individual requests a new functional needs assessment.

(b) An adult who is enrolled in comprehensive in-home supports as described in OAR chapter 411, division 330 or a child who is enrolled in in-home supports as described in OAR chapter 411, division 308 must participate in a functional needs assessment and provide information necessary

to complete the functional needs assessments and reassessments within the time frame required by the Department.

(A) Failure to participate in the functional needs assessment or provide information necessary to complete the functional needs assessment or reassessment within the applicable time frame results in the denial of service eligibility. In the event service eligibility is denied, a written Notification of Planned Action must be provided as described in OAR 411-320-0175 and OAR chapter 411, division 318.

(B) The Department may allow additional time if circumstances beyond the control of the individual prevent timely participation in the functional needs assessment or timely submission of information necessary to complete the functional needs assessment or reassessment.

(c) No fewer than 14 days prior to conducting a functional needs assessment, the CDDP must mail a notice of the assessment process to the individual to be assessed. The notice must include a description and explanation of the assessment process and an explanation of the process for appealing the results of the assessment.

(4) INDIVIDUAL SUPPORT PLANS (ISP). Individuals enrolled in waiver or Community First Choice state plan services must have an authorized ISP.

(a) A services coordinator must facilitate and develop an ISP through a person-centered service planning process. The ISP must be authorized by the services coordinator no more than 90 days from the date a completed application is submitted to the CDDP according to OAR 411-320-0080, and at least annually thereafter.

(b) Upon the request for a new functional needs assessment by an individual, a services coordinator must revise the ISP for the individual as needed if a revision of the ISP is requested by the individual. The revision of the ISP must be completed within 30 days from the new functional needs assessment. The revised ISP must be developed with the individual, the legal or designated representative of the individual (as applicable), and other invited ISP team members.

(c) Not more than two weeks after authorization, the CDDP must provide a copy of the most current ISP to the individual, the legal or designated representative of the individual (as applicable), and others as identified by the individual.

(5) PERSON-CENTERED ISP REQUIREMENTS. The person-centered ISP must reflect the services and supports that are important for the individual to meet the needs of the individual identified through a Department approved assessment, as well as what is important to the individual with regard to preferences for the delivery of such services and supports.

(a) The written ISP must include, but not be limited to, the following:

(A) The name of the individual and the name of the legal or designated representative of the individual (as applicable);

(B) The projected dates of when specific supports are to begin and end;

(C) Home and community-based service and setting options --

(i) Based on the needs and preferences of the individual, and for residential settings, the available resources of the individual for room and board;

(ii) Chosen by the individual; and

(iii) Integrated in and support full access to the greater community;

(D) Opportunities to seek employment and work in competitive integrated employment settings for those individuals who desire to work:

(i) If the individual wishes to pursue employment, a non-disability specific setting option must be presented and documented in the ISP.

(ii) Individuals working in sheltered workshops shall be encouraged to use services in integrated settings.

(E) Opportunities to engage in greater community life, control personal resources, and receive services in the greater community to the same degree of access as people not receiving home and community-based services;

(F) The strengths and preferences of the individual;

(G) The service and support needs of the individual;

(H) The goals and desired outcomes of the individual;

(I) The providers of services and supports, including unpaid supports provided voluntarily;

(J) Risk factors and measures in place to minimize risk;

(K) Individualized backup plans and strategies, when needed;

(L) People important in supporting the individual;

(M) The person responsible for monitoring the ISP;

(N) Language, format, and presentation methods appropriate for effective communication according to the needs and abilities of the indi-

ADMINISTRATIVE RULES

vidual receiving services and the people important in supporting the individual;

(O) The written informed consent of the individual or, if applicable, the legal or designated representative of the individual;

(P) Signatures of the individual, or if applicable the legal or designated representative of the individual, participants in the ISP planning process, and all people and providers with whom the ISP was shared in its entirety, or as described below in subsection (b) of this section;

(Q) Self-directed supports; and

(R) Provisions to prevent unnecessary or inappropriate services and supports.

(b) The individual, or if applicable the legal or designated representative of the individual, decides on the level of information in the ISP that is shared with providers. To effectively provide services, providers must have access to the necessary information from the ISP that the provider is responsible for implementing. A provider identified to deliver a service or support included in an ISP must acknowledge through a signature on a written agreement receipt of the necessary information.

(c) After September 1, 2018, the CDDP must only authorize services delivered in a home and community-based setting that meets the qualities described in OAR 411-004-0020 and non-residential employment service and day service settings that are consistent with OAR 411-004-0020(1), as implemented in OAR chapter 411, division 345.

(d) A CDDP cannot authorize services for an individual from an affiliated entity. If an individual served by the CDDP was receiving services from an affiliated entity on December 31, 2015, the individual may continue to have those services provided by the affiliated entity until June 30, 2016, at which time the individual must either receive services from another service provider or receive case management from a brokerage or another CDDP. An entity is affiliated with the CDDP when the entity or the CDDP has an incident of ownership in the other.

(e) For a new or renewed ISP with an effective date of July 1, 2016 or later, the ISP must justify and document any individually-based limitations as described in OAR 411-004-0040.

(f) A services coordinator must track the ISP timelines and coordinate the resolution of complaints and conflicts arising from ISP discussions.

(g) An ISP must be developed, implemented, and authorized as follows:

(A) FOSTER CARE AND 24-HOUR RESIDENTIAL SETTINGS.

(i) A services coordinator must attend and assure that an annual ISP meeting is held for individuals receiving services in foster care or 24-hour residential settings and any associated settings for employment.

(ii) A services coordinator must facilitate the ISP with an individual receiving services through foster care or a 24-hour residential setting and any associated setting for employment.

(a) For standard eligibility, an ISP must be reviewed and revised as described in OAR 411-320-0120.
