AGENCY ATTESTS THE FOLLOWING CHANGES HAVE BEEN MADE, ACCORDING TO ORS 183.335(7):

Changing a rule title according to ORS 183.360(2)(a)

AMEND: 333-116-0610

RULE TITLE: Modification of Teletherapy Unit or Room Before Beginning a Treatment Program

RULE SUMMARY: Rule titles in OAR 333-116-0150 through 333-116-1030 are being amended to clear up confusion as to what they apply to. These rule titles were assigned specific sub-categories when subdivisions of rules were phased out during the implementation of the Oregon Administrative Rules Database (OARD). However, rules impact multiple medical modalities causing confusion to licensees and stakeholders. The statutory minor correction removes the sub-category from rule title.

RULE TEXT:

(1) If the survey required by OAR 333-116-0590 indicates that any individual member of the public is likely to receive a dose in excess of the limits specified in 333-120-0180, before beginning the treatment program the licensee must:

- (a) Either equip the unit with stops or add additional radiation shielding to ensure compliance with OAR 333-120-0180;
- (b) Perform the survey required by OAR 333-116-0590 again; and
- (c) Include in the report required by OAR 333-116-0620 the results of the initial survey, a description of the modification made to comply with subsection (1)(a) of this rule, and the results of the second survey.

(2) As an alternative to the requirements set out in subsection (1)(a) of this rule a licensee may request a license amendment under OAR 333-120-0180(3) that authorizes radiation levels in unrestricted areas greater than those permitted by 333-120-0180(1). A licensee may not begin the treatment program until the license amendment has been issued.

STATUTORY/OTHER AUTHORITY: ORS 453.635

STATUTES/OTHER IMPLEMENTED: ORS 453.605 - 453.807
