Dear Oregon Voter,

The information this Voters' Pamphlet provides is designed to assist you in participating in the May 15, 2018, Primary Election.

Primary Elections provide the opportunity for members of all major political parties to select the nominee who will represent each party in the November General Election.

The state-wide offices on the ballot this year are Governor, Commissioner of the Bureau of Labor and Industries, Judge of the Supreme Court, and Judge of the Court of Appeals. There are also races for your Congressional Representative and your State Representative. Only half of the State Senate seats are up for election this year as State Senators serve four-year terms. You will also see a number of other contests on your ballot ranging from circuit court judges and District Attorneys to county and city offices.

For the first time, every qualified political party, major and minor, in Oregon will be permitted to provide a Voters' Pamphlet statement about their party. The major political parties in Oregon—Democratic, Independent, and Republican—will use this Primary Election to select their nominees for the November Election. Minor political parties—Constitution, Libertarian, Pacific Green, Progressive, and Working Families—select their nominees in various ways according to each minor party's regulations. For the 2018 Primary Election, the Independent Party of Oregon has chosen to allow voters who are not affiliated with a political party to participate in the Independent Party's primary.

I encourage you to study the issues, make your voice heard, and participate in all elections. You can find out if you are registered to vote, or update your address or political party at www.oregonvotes.gov/myvote.

If you are not registered to vote, you must register by April 24 to be eligible to vote in the May 15, 2018, Primary Election. You can register online at www.oregonvotes.gov/register.

Beginning April 25, ballots will be mailed from every county elections office. After you have filled out your ballot, make sure it is physically received by your county elections office by 8:00 pm on May 15. Remember, postmarks do not count. You can return your ballot through the mail or take it to one of the many drop boxes throughout the state. To track your ballot or to find your nearest drop box, visit www.oregonvotes.gov/myvote.

If you have questions about voter registration, filling out your ballot, or getting a replacement ballot, please call our toll-free hotline, 1-866-673-8683 or call your county election official.

As your Secretary of State, I encourage every eligible Oregonian to register and vote in this and every election. I am committed to making voting easy, convenient, and secure.

If you have any questions please give us a call.

Sincerely,

Dennis Richardson
Oregon Secretary of State

Voters' Pamphlet

This is your official State Voters' Pamphlet for the **May 15, 2018, Primary Election**. It is designed to assist you in participating in the Primary Election. This pamphlet also includes instructions for marking your ballot, information for voters with disabilities and domestic violence survivors, and other information to assist you in the voting process.

The Secretary of State has compiled the voters' pamphlet since 1903, when Oregon became one of the first states to provide for the printing and distribution of such a publication. One copy of the voters' pamphlet is mailed to every household in the state. It can also be viewed online at www.oregonvotes.gov.

County Voters' Pamphlet

A county clerk may prepare and distribute a county voters' pamphlet. It includes information about candidates and measures from local governments located within the county.

To save on mailing and production costs a county that prepares a voters' pamphlet may insert the pamphlet into the center of the state voters' pamphlet for distribution. The county insert uses a numbering system that is different from the standard page numbering used in the state portion and each page is clearly marked with a color or shaded bar on the outside edge.

Address Confidentiality Program

Protecting Addresses for Victims

Individuals whose personal or family safety may be in danger if their home address is available as a public record may register to vote with confidentiality protections by applying for the Address Confidentiality Program (ACP).

The ACP is a free mail forwarding service. It helps survivors of domestic violence, sexual assault, stalking or human trafficking shield their physical address. Program participants are provided with a substitute address to use instead of their real address. Participants may use the substitute address for:

- the delivery of first class, certified and registered mail.
- obtaining an Oregon driver's license or ID card.
- receiving or paying child support.
- applying for a marriage license.
- enrolling dependents in public school.

To be eligible for the ACP you must live in Oregon, **and**

- be over 18 years old, **and**
- be a victim of domestic violence, sexual assault, stalking, or human trafficking, **and**
- have recently relocated (or are about to relocate) to an address unknown to the perpetrator(s) or any government agencies.

Parents or guardians may apply on behalf of incapacitated adults and minor children who are otherwise eligible for the ACP.

Participation in the ACP by itself does not guarantee anyone's safety. ACP staff do not provide threat-assessment or safety-planning and are not allowed to offer legal advice.

To apply to the Address Confidentiality Program, you must work with a victim advocate who has been designated as an Application Assistant by the Attorney General.

For more information or to find an Application Assistant near you visit <https://www.doj.state.or.us/crime-victims/victims-services/address-confidentiality-program-ACP/> or call **888-559-9090**.

Political Party Statements

In the Primary Election, designated officers of any statewide political party who intend to nominate candidates for the general election may file for inclusion in the state voters' pamphlet, a statement that argues for the success of its principles and the election of its candidates on a statewide or county basis or opposes the principles and candidates of other political parties or organizations on a statewide or county basis.

Duties and Responsibilities of Precinct Committeepersons

Precinct Committee Persons (PCPs) encourage voter registration, vote on official party business, elect county party leadership and nominate State Representatives or State Senators when there is a vacancy in one of those offices.

PCPs are only permitted for major political parties. The Democratic Party of Oregon and the Oregon Republican Party have both chosen to elect PCPs, while the Independent Party of Oregon has chosen not to utilize PCPs.

Each precinct is allotted a number of male and female PCPs based on the count of registered voters in the precinct as of January 31, 2018. Individuals can only file for (or serve in) one precinct at a time. However, the individuals can choose whether they want to file to serve in the precinct they reside in or an adjacent one.

Individuals must be registered members of the party for 180 days prior to the filing deadline in order to run as a PCP for that party. Individuals who are under 18 at the time of filing can still file if they will turn 18 on or before the date of the primary election. Only the names of filed candidates appear on the ballot, but spaces are provided on the ballot for voters to write-in as many names as there are PCP positions available in the precinct. Individuals with the highest vote totals will be elected, however, they must receive at least 3 votes (including write-in votes) to be elected.

Candidates

Oregon statute (ORS 254.155) requires the Secretary of State to complete a random order of the letters of the alphabet to determine the order in which the names of the candidates will appear on the ballot.

The alphabet for the **2018 Primary Election** is:

J, P, Q, V, U, B, Z, Y, A, O, I, D, W, X, L, E, S, T, G, R, M, H, C, F, N, K

Candidate statements included in the pamphlet are separated by office type and position and are further arranged in the same random order in which the names of candidates will be printed on the ballot. In the primary election pamphlet, partisan candidate statements are further separated by political parties.

Statements are arranged in the following manner:

- Independent candidates by position in ballot order
- Republican candidates by position in ballot order
- Democratic candidates by position in ballot order
- nonpartisan candidates by position in ballot order

Candidates pay a fee, or submit signatures in lieu of paying the fee, for space in the voters' pamphlet. The information required by law—pertaining to occupation, occupational background, educational background and prior governmental experience—has been certified as true by each candidate.

Constitution Party

The Constitution Party of Oregon maintains that our true heritage is freedom.

Constitution Party members recognize that our nation was founded by God-fearing men wanting freedom from human tyranny, so they could obey the dictates of their consciences in accordance with the Bible. They applied the principles of the Declaration of Independence when constructing the Republic spelled out in the Constitution of the United States.

We acknowledge that government derives its just powers from the consent of the governed.

We concur with those who framed the Oregon Constitution in the late 1850's. They said in Article I, Section 1, "... all men, when they form a social compact are equal in right: that all power is inherent in the people, and all free governments are founded upon their authority, and instituted for their peace, safety, and happiness..."

We will lead the way back to the foundations of America's greatness, nominating and/or supporting candidates who are committed to these foundational principles:

Our rights are inalienable, coming from the hand of the Creator. They are not given to us by ourselves or by government. These rights include the right to life from conception until natural death, the right to own property, and the right to choose how to live that life and use that property, without violating the rights of others as determined by a jury of their peers.

Government is Divinely instituted to protect our rights by punishing evildoers and encouraging righteous behavior.

Our system of laws is based on the Judeo-Christian moral code. The one known as the Father of the Constitution, James Madison, told his generation that they had staked the whole future of American Civilization and all our political institutions upon the capacity of mankind for self-government according to the Ten Commandments.

Our nation is a sovereign nation, one nation under God. We must steer clear of entangling alliances with any portion of the foreign world and we must maintain a strong national defense.

The powers of the federal government in our Republic are restricted to those specifically granted in the Constitution of the United States. That Constitution is not an instrument for government to restrain the people; it is an instrument for the people to restrain government -- lest it come to dominate our lives and our interests. The Bill of Rights appended to our Constitution has a reminder to the national government that it has only the powers delegated to it by 'We the people' through the Constitution.

This then is our heritage, a heritage that in the past has produced a moral environment with unparalleled individual liberty and economic prosperity, a heritage that has been the envy of the nations of the world. It is a heritage worthy of our efforts to rebuild.

We ask you to vote your conscience when electing new guardians for your future peace, safety and happiness. We remain convinced that voting for the lesser of two evils is still voting for evil and will not recover our heritage. We are raising a standard around which the wise and honest can rally, believing that the events of history are in the hands of God. The Constitution Party honors that heritage by nominating candidates who believe in our heritage. Look for them this fall on the General Election Ballot.

Remember, if you don't honor them with your vote, the candidates you really want can never win.

Democratic Party

The Democratic Party of Oregon is nearly one million strong, fighting for progress and helping elect Democrats from all corners of our state.

There are several core beliefs that tie our party together: Democrats believe that we're greater together than we are on our own—that this country succeeds when everyone gets a fair shot, everyone does their fair share, and everyone plays by the same rules. Our party is focused on building an economy that lifts up all Americans, not just those at the top.

That's why Democrats are working to make progress on issues like job creation, equal pay, education, health care, and clean energy.

In Oregon, Democrats have led the nation on resisting the Trump agenda, refusing to cede to his dark vision for our nation's future. We've passed legislation to support working families by increasing the minimum wage and providing paid sick leave, we've been a trailblazer on access to the ballot by implementing Oregon Motor Voter and online registration, and we continue to fight for all Oregonians, regardless of race, gender, sexual orientation, religion, class, or ability.

This election cycle, Democrats are poised to grow our majorities in Salem, return Governor Kate Brown to office, and elect Democrats up and down the ballot. Oregon's Democratic congressional delegation well represents our values in D.C. and we are proud to stand behind Senator Ron Wyden, Senator Jeff Merkley, and our Democratic representatives.

We invite all Oregonians to join us in affirming our determination that Oregon become a beacon of opportunity, tolerance, and freedom.

Independent Party

The Independent Party of Oregon (IPO) was formed 11 years ago to provide greater representation for the 50-60 percent of Oregonians who feel neglected by the Democrats and Republicans. We have grown into Oregon's third largest party, with over 120,000 members.

We believe ordinary citizens don't have enough influence over government policy. Government is not accountable, and politics has become too partisan and dominated by special interests and their money. There is not enough problem-solving.

We work to:

- Oppose spending on inefficient government programs.
- Reduce special interest and "big money" influence over all government processes.
- Increase transparency in government, especially on how tax dollars are spent.
- Protect Oregon consumers from ripoffs and abuse.
- Improve education and job training opportunities for Oregonians.
- Provide incentives for business creation and expansion in Oregon, but only if the incentives return greater public benefit than they cost.

We have led several fights in the Oregon Legislature for effective disclosure of campaign contributions, for transparency in government, and for more citizen participation in elections.

2018 PLATFORM

Our 2018 expanded platform (www.indparty.com/platform) is based on our member surveys. Our goal is to align public policies with the priorities of ordinary citizens in the areas of health care, education, campaign and ethics reform, and environmental policy. For more policies, see our past Voters' Pamphlet statements at www.indparty.com/vp.

COMMUNITY BASED CANDIDATES

We support candidates who have the backing and trust of their local communities, not the special interests that dominate the Republican and Democratic agendas. These special interests accounted for 97 percent of the \$133 million spent on Oregon political campaigns in 2016 and most of the \$31 million spent on state-level lobbying. In contrast, our small-donor democracy program provides support services for first time candidates.

WE ARE HAVING AN IMPACT

In 2017, we began urging the Oregon Legislature to strengthen regulations on industrial polluters. Neither the Republicans nor Democrats would confront large pollution emitters. 3/4ths of all industrial polluters in Oregon were operating under invalid permits that in some cases were decades old. The EPA in 2015 revealed that Multnomah County and Portland are among the 1 to 2 percent worst places in America for airborne illness – including lung cancer – due to the high levels of pollution from industrial and vehicle emissions, particularly diesel trucks.

After a 2018 audit by Oregon's Secretary of State revealed that the state's Department of Environmental Quality was failing to meet its core regulatory functions, a coalition succeeded in passing the first major overhaul of the state's regulation of industrial polluters in more than two decades.

We have also led the way in stopping the Legislature from making Oregon's campaign finance laws even worse. The Center for Public Integrity in 2015 ranked Oregon's campaign finance system as **the worst in America** – except for Mississippi.

Libertarian Party

The Libertarian Difference

Do you dislike both the Democratic and Republican parties? Did you vote for someone promising hope and change, then get more of the same? Did you vote for someone promising to make America great again, only to get coarse morals and a foolish trade war? Did you vote for someone who promised affordable housing, but then supported policies that restricted supply and subsidized demand? Are the Democratic and Republican candidates living up to their promises and your expectations? Would you vote for them again, or only against someone who seems even worse?

If you want something different, you need to support something different – join the Libertarian party, and vote for Libertarian candidates! The Libertarian Party of Oregon conducts its own primary election without taxpayer funding, unlike the major parties who use your tax dollars to benefit themselves. Our members will receive a separate Libertarian ballot to select candidates to advance to the general election.

For three elections in a row, the Libertarian Party of Oregon has nominated more candidates for public office than all other minor parties combined. We are the only political party offering you a true alternative to the Democrats who think they know how to spend your money better than you do, and to the Republicans who outlaw what they think are bad decisions. Libertarians are not right or left or center, but we stand on principle and champion your freedom to do what you want with both your life and your money.

Libertarian Party Statement of Principles

We, the members of the Libertarian Party, challenge the cult of the omnipotent state and defend the rights of the individual.

We hold that all individuals have the right to exercise sole dominion over their own lives, and have the right to live in whatever manner they choose, so long as they do not forcibly interfere with the equal right of others to live in whatever manner they choose.

Governments throughout history have regularly operated on the opposite principle, that the State has the right to dispose of the lives of individuals and the fruits of their labor. Even within the United States, all political parties other than our own grant to government the right to regulate the lives of individuals and seize the fruits of their labor without their consent.

We, on the contrary, deny the right of any government to do these things, and hold that where governments exist, they must not violate the rights of any individual, namely:

1. the right to life – accordingly we support the prohibition of the initiation of physical force against others;
2. the right to liberty of speech and action – accordingly we oppose all attempts by government to abridge the freedom of speech and press, as well as government censorship in any form; and
3. the right to property – accordingly we oppose all government interference with private property, such as confiscation, nationalization, and eminent domain, and support the prohibition of robbery, trespass, fraud, and misrepresentation.

Since governments, when instituted, must not violate individual rights, we oppose all interference by government in the areas of voluntary and contractual relations among individuals. People should not be forced to sacrifice their lives and property for the benefit of others. They should be left free by government to deal with one another as free traders; and the resultant economic system, the only one compatible with the protection of individual rights, is the free market.

Be A Libertarian

If these principles appeal to you, we invite you to switch your voter registration to “Libertarian” to join the cause of advancing liberty and freedom. There are never any dues or fees required to participate in our elections or conventions, or to be a candidate for public office, and party leadership is directly elected by our members. There are many opportunities for true grassroots activism.

Pacific Green Party

THE POLITICAL REVOLUTION CONTINUES WITH THE GREEN PARTY

In fact, it started with us. The Green Party has been at the forefront of political reform in Oregon, in the U.S., and around the world. Greens in Oregon have served as city councilors, mayors, commissioners and on the bench. Greens hold seats as Ministers and Members of Parliament around the world and have led the way on cutting edge issues such as climate change, electoral reform, health care for all, marriage equality and ending the War on Drugs. Today we call for:

Protecting Our Planet

Clean air and water. No LNG pipelines or terminals. Stop coal and oil trains. Reduce pesticide use. End destructive logging, energy extraction: fracking, tar sands, offshore drilling, mountaintop removal, and uranium mines. Enact a Carbon tax. Label and put a moratorium on GMOs. Create millions of jobs by transitioning to 100% clean renewable energy and invest in public transit, sustainable agriculture, and conservation.

Education as a Right

Abolish student debt to free a generation of Americans from debt servitude. Guarantee tuition-free, world-class public education through university level.

Health Care as a Right

Establish an improved "Medicare for All" single-payer public health care program for everyone.

Empower the People

Abolish corporate personhood. Enact electoral reforms for true democracy: public campaign financing, ranked-choice voting, proportional representation, and open debates.

Ending Poverty

Guarantee economic human rights, including access to food, water, housing, and utilities, to ensure every American a life of dignity.

Peace and Human Rights

Establish foreign policy based on diplomacy, international law, and human rights. End the wars and drone attacks, cut military spending by 50% and close 700+ foreign military bases. Lead on global nuclear disarmament.

Racial Justice Now

#BlackLivesMatter. End police brutality and mass incarceration. Create a Truth and Reconciliation Commission to eliminate the legacy of slavery that continues as pervasive racism. Give communities control over their police. Demilitarize the police.

Justice for All

Terminate unconstitutional surveillance, end persecution of whistleblowers, abolish secret kill lists, and repeal indefinite detention without charge or trial.

Housing for All

Shelter our homeless neighbors, create affordable housing, and protect neighborhoods from reckless development and gentrification.

A Just Economy

\$15/hour federal minimum wage. Break up "too-big-to-fail" banks. Develop more cooperatives, public banks and public utilities. Make Wall Street, big corporations, and the rich pay their fair share of taxes. Replace corporate trade agreements with fair trade agreements.

Freedom and Equality

Expand women's rights, protect LGBTQIA+ people from discrimination, defend indigenous rights, and create a welcoming path to citizenship for immigrants.

DON'T JUST COMPLAIN ABOUT A "RIGGED SYSTEM."

DO SOMETHING ABOUT IT! JOIN US!

REGISTER GREEN – become a member of the Pacific Green Party and join with thousands of your neighbors to build momentum for real change.

DONATE GREEN – we depend 100% on contributions from individuals. We never accept contributions from corporations. And your contribution may cost you nothing! Visit oregontaxcredit.com for details.

Progressive Party

We fight for economic justice, human rights, environmental protection, and grassroots democracy.

WE OPPOSE: the corruption of elections by big money, Wall Street bailouts, the continuing wars in Afghanistan, Iraq and Syria, “corporate personhood,” and NAFTA, WTO, and other “free trade” deals that let corporations override policies to protect labor, the environment, and consumers.

WE SUPPORT: real campaign finance reform, Medicare for All, equal rights (including same-sex marriage), \$15 minimum wage for all (now), and effective gun control.

OREGON ISSUES

Real Campaign Finance Reform: Oregon Democrats and Republicans have never enacted limits on political campaign contributions but have repealed voter-enacted limits 3 times. Campaign spending for Oregon state offices has skyrocketed from \$4 million in 1996 to over \$50 million in 2016.

The State Integrity Investigation of the Center for Public Integrity in 2015 graded Oregon an overall “F” in systems to avoid government corruption. Oregon ranked 2nd worst of 50 states in control of “Political Financing,” beating only Mississippi.

THE OREGONIAN (2010) reported that Oregon candidates spend more on campaigns for the State Legislature, per capita, than anywhere other than New Jersey. Spending on such Oregon races has increased 50% since then. The average spent in 2014 by the top 10 Oregon Senate candidates was \$750,000 each; spent in 2016 by the top 10 Oregon House candidates was \$825,000 each. Some spent over \$70 per vote.

Oregon rates low on disclosure of funders of political ads. The Corporate Reform Coalition (75 progressive organizations) concluded that only 6 states have worse systems for disclosing independent expenditures. Oregon = “F” in disclosure; Washington = “A” Now, 10 states require that political ads identify their top funders, but not Oregon.

Get Involved with State & Local Campaign Finance Reform: honest-elections.com.

Invest in Oregon: The State Treasurer should direct part of Oregon’s \$89 billion of investment funds to invest in public works and jobs for Oregonians instead of investing in vulture capitalists, corporate raiders, leveraged buyout artists, and fossil fuel corporations and vendors.

Fair Taxation: Oregon has the 4th highest income taxes of any state on lower-income working families and remains lowest in taxes on corporations—the source of most campaign contributions in Oregon.

Other Issues: See our testimony on hundreds of bills at the Oregon Legislature: progparty.org/leg

Republican Party

The Oregon Republican Party is working for all Oregonians by promoting limited government, lower taxes, and personal responsibility. We ask you to join our party and support our candidates because these basic policies improve our nation for everyone. Limiting government gives everyone the opportunity to achieve success. Lowering taxes gives you the opportunity to keep the money you earn and obtain your dreams. Personal responsibility teaches people not to be dependent on the government thereby maximizing freedom for all.

We're proud to be the majority party in many parts of Oregon, but we need your help to implement our policies statewide. Join us as a volunteer, a precinct committee person, or help us promote Republican Principles.

What is a PCP?

The 650,000 registered Oregon Republicans are the grassroots heart of the Republican Party of Oregon. Precinct Committeemen and Committeewomen are chosen from among that 650,000 to organize advocacy for Republican political principles in their Oregon neighborhoods and communities and support for Republican candidates for office.

The PCPs also control the state Republican party (ORP). They elect the office holders in their county Republican Committees, who, in turn, set policy for and elect the officials of the Oregon State Republican Party. The PCPs also select delegates to the state and national Republican conventions.

PCPs and the County Officers whom they elect are the primary organizing and directing force for the thousands of additional Republican volunteers who arise from the electorate to work on behalf of Republican principles and candidates.

What are Republican Principles?

Republican principles are timeless. They have been found to be the best way for people to live together, while exercising their fundamental individual rights to life, liberty, and the pursuit of happiness. That happiness – the pursuit of the greatest enjoyment of the blessings of a human life – requires protection for life, liberty, private property, and common sense ethical principles.

These principles are established in the founding documents of our Constitutional Republic. Individual Republicans express these principles in many ways and live their lives in a wide variety of manners that are enabled by American freedom.

Individual Republicans hold, with variations, most of the following views:

- The strength of our nation lies with the individual. Each person's dignity, freedom, ability, and responsibility must be protected and honored.
- Equal rights, law and order, equal justice and equal opportunity for all Americans, regardless of race, creed, sex, age or disability must be preserved.
- Free enterprise has made America a land of opportunity, economic growth, and prosperity.

Come join the Oregon Republican Party, be part of the political process, be part of our winning team. Please register as a Republican and become an active citizen. Join us, for a better Oregon!

Working Families Party

What is the Working Families Party?

The Working Families Party is fighting for a better future for Oregon. One where the economy works for everyone, not just the wealthy and well connected. One where politicians are accountable to working people, instead of corporate lobbyists. One where all of us, no matter where we come from, urban and rural, coast to eastern Oregon, can find a good job, get healthcare when we need it, afford a home, send our kids to good schools including a debt free college education, and have a secure retirement.

We're about improving the economy for working people.

This is our number-one, number-two, and number-three priority. We fight for new jobs, living wages, workers' rights including the right of unions to bargain collectively, affordable childcare, better education, health care for everyone, fair work schedules and a government that listens to working families, not big corporations or other high-powered special interests.

How do we make sure that politicians listen to us?

The Working Families Party is a minor political party that uses fusion voting, which allows us to cross-nominate candidates from major parties if they agree to support our values and our issues. If not, we can run our own candidates, but we prefer not to be spoilers or to waste your vote. We try to use our place on the ballot strategically. We research the records of all candidates running for office in Oregon – for city, county, state and federal offices – Democrats, Republicans or Independents. We ask them questions about specific issues. Then we support the ones with a commitment to standing up for the bread and butter economic issues that really matter to working- and middle-class families.

What does it mean when you see "Working Families" next to a candidate's name?

It means you know that they have our seal of approval – and you can vote for them with the confidence that they will do the best job of fighting for working people.

What issues will we ask Working Families Party candidates to champion while in office?

During the 2019 legislative session we are asking WFP electeds to address issues including: campaign finance reform, paid family and medical leave, to fight mandatory arbitration in employment and consumer contracts, putting Oregon's money to work creating jobs here in Oregon and fighting for fair trade policies on a federal level.

Join us!

The Working Families Party is the electoral arm of the Resistance. We are working to create a party that represents all working people, of all races, gender identification, and immigrant status. We want to work together to develop a people's platform that will bring about positive economic and social change; that will reject the false populism and racist vitriol of the Trump era. Vote for WFP-nominated candidates to send a message that these issues are important, and help us build an organization that can truly represent working people in Oregon politics.

Patrick Starnes

Independent

Occupation: Cabinetmaker for 30 years

Occupational Background: Decades of Public Service

Educational Background: Graduated from Umpqua

Community College and University of Oregon with degree in history.

Prior Governmental Experience: Elected twice to Douglas Education Service District and once to McKenzie School Board

Patrick Starnes Independent for Governor

Biography

Patrick Starnes grew up in Oregon and went to Winston-Dillard Schools while his father worked at the particle board mill to support the family.

During his young adulthood he apprenticed in fine furniture making and cabinetry and then went to college.

Starnes worked as a freelance cabinetmaker for over 30 years. Currently he and his wife make their living restoring old houses.

MORE MANUFACTURING JOBS

After decades of experience as a cabinetmaker Starnes understands the needs of regular working people. He believes that:

-We can do more with our wood products.

-We can build more finished wood products; manufactured in Oregon rather than shipping raw materials out of the state by removing barriers to, and providing incentives for, local businesses.

REAL ELECTED EXPERIENCE

Starnes has over ten years of experience as an elected school board member.

Starnes feels every politician in Salem should have school board experience: dealing with unfunded mandates, increasingly unstable school funding and the forced firing of young teachers.

He sees the degradation of our schools as a tragedy for our youth and our future.

GET BIG MONEY OUT OF POLITICS

Everyone knows that big money is corrupting our democracy.

We will not have fair and clean elections as long as large donations are allowed in our democracy. Starnes is the only candidate for governor who is limiting his donations to \$100 per person and he is challenging every politician to, "just say NO to big money!"

Campaign finance reform is Starnes number one priority.

I would like to represent Oregon, in the US 5th District. This is not a career. Term limits are very important to me. I will not run or serve more than 4 terms in the United States Congress. One of my main goals if elected, is to reduce the bureaucracy in our Federal Government. By reducing the bureaucracy in our government. We will be able to reduce the deficit of the United States government with out cutting the social programs we need. While running for this office I have found some issues that need to be changed now. We need to try to save the 260 jobs at the West Linn Paper Mill. We must get NOAA out of our rivers and return control of our navigable water ways back to state and county agencies. We must have the National Forestry Department rewrite the Wildfire regulates.

Leadership, Integrity, Character, Honor & Trust

Are you tired of the same lackluster performance, and broken promises, by your current Congressman? **I know I am.** Together, let's continue the momentum to **Make America Great Again**, by sending a **Constitutional Conservative** to Washington D.C., that will actually **Get Things Done!!** I promise to help **Make America (and Oregon) Great Again!!**

Immigration Laws Must Be Enforced

Our nation's safety and national security is under attack. I fully support efforts and actions regarding enforcing our nation's immigration laws. **I fully endorse and support IP-22, eliminating sanctuary cities** for illegal immigrants, in Oregon. **I Don't Give Up!**

Economic Opportunity for All Oregonians

Small businesses grow our economy, not a government that dictates, mandates, and over-regulates every aspect of our lives. As a believer in the free market, I will work to **Make America Economically Strong Again**, through **A Focus On Job Growth.**

Balance The Budget & Reduce Spending

With a \$20 Trillion+ national debt, our government continues to mortgage our children's, and our grandchildren's futures. As a **Fiscal Conservative** believer in **Limited Government**, I'll help reduce wasteful spending, and fight for **A Balanced Budget Amendment.**

Let's Take Our Country Back!

We will win this election, together, **as we did in May 2016**, with a **True Conservative Candidate** that will fight for American values. We will win with a **Pro-Life Candidate** that values life. **I Am That Candidate.** I kindly & respectfully ask for your vote. Thank you & May God Bless America.

Accountable – Engaged – Accessible

My campaign represents the working men and women of Congressional District 5 who don't have time for corrupt politicians like Kurt Schrader. We're tired of special interest money running Oregon politics so we're here to take our state back. We want honesty, we want access and we wanted it yesterday!

End Government Corruption

I will be the most accountable, engaged and accessible Representative from Oregon.

- I won't accept campaign funds from special interests or out of district sources
- Strengthen ban on pork barrel spending, support four term limit in Congress
- I'll be in the district regularly and personally responding to constituents. [Contact me!](#)

Kurt's office is run by special interest money.

- Over 70% of his campaign funds come from outside our district and state
- His connections to Big Energy while serving on the Energy Committee are shocking. [Kurt is the Corruption!](#)

Fixing Immigration

I stand with America's citizens.

- Fund and build the southern border wall
- Mandatory e-Verify, no amnesties
- End chain migration and pass merit based immigration reform

Kurt supports sanctuary for illegal criminals

- Kurt called the American border wall "stupid" and wants amnesty for illegals

America First

Congress must put America First

- Pursue a balanced budget amendment
- Prioritize our homeless veterans and poverty level citizens by cutting foreign aid and repurposing funds in the USA
- Cut funds supporting foreign militaries and make income tax cuts permanent

Kurt puts himself first

- He says "get money out of politics" but takes that same money every year
- His immigration votes and policies put America last

Take Our State Back!

I am going to visit every city and county to meet with our district's constituents. I am driven to restore the accountability, engagement and accessibility that you deserve!

AFTER 30 YEARS, LET'S RETIRE KATE BROWN

"I'm running for Governor to lead and fix the big problems that have been avoided, ignored or made worse by Governor Brown. Gov. Brown is fixated on national politics—I'll fix local problems. She's raised taxes—I'll veto them. She's loaded new regulations on small businesses—I'll cut red tape. She afraid to reform the budget and PERS—I'll take-on the government unions. She's indifferent to failing schools—I'll rescue them. She ignores health care waste—I'll hold the bureaucracy accountable. Kate Brown believes in the power of government—I believe in the power of people.

Together, with your vote, we can defeat Kate Brown and bring needed changes to the Oregon we love."

– Knute Buehler

A FIGHTER FOR TAXPAYERS

Knute led the charge against Brown's \$1.4 billion energy tax and \$1.2 billion in new taxes she's passed in the last two years. He called-out and opposed new fees on inner-tubes, paddleboards, used cars, coffee, beer and spirits. He voted against a new statewide payroll tax and freeway tolls for Portland commuters. Unlike Brown, Knute was outspoken against Measure 97's massive \$6.1 billion sales tax.

A DEFENDER OF SMALL BUSINESS

Standing firm against an avalanche of new government regulations, Knute has earned top ratings from small business, farming and taxpayer groups for votes against new costly, job-killing rules and mandates.

A CHANGE-AGENT REFORMER

Following the Kitzhaber-Hayes scandal, Knute forced the Salem political establishment to implement tough new policies to protect government whistleblowers who speak-out against corruption and waste from political intimidation.

A PROVEN ELECTION WINNER

Twice-elected to the legislature in tough campaigns from an 11% Democrat-majority district, Knute has taken-on powerful special interests and won by building a coalition of Republicans, Independents and Libertarians – creating the opportunity for real change.

Attracting new business while expanding existing business is critical to a stable and healthy economy.

***Restore Trust** - Restoring the public's trust in their elected officials is essential. Greg has spent a lifetime building teams and leading people. The corrupt political cronyism in Salem must end! Greg will make Salem transparent and accountable to the people.

Dave Stauffer is the **solutions** candidate—the **environmental solutions** candidate who has four new innovations that are workable, scientific solutions to the environmental problems of Oregon. He has an invention that provides fresh, clean water for irrigation, fire suppression, and drinking to eastern and southern Oregon. That same invention will also provide pollution-free electricity using the in-pipe generators developed by Lucid Energy, Inc. That same invention will provide flood control, which will eventually make it possible to restore the salmon fish runs up the Columbia. He has an invention that will use Fresnel lens and the sun to heat water for hot water heaters and to heat houses using the free heat and rays of the sun. That same invention also provides almost free air conditioning in the summer. He also has a solution for Oregon's traffic congestion problems for both the morning and evening rush hours. More importantly, he will cut down on the air pollution from cars and trucks idling in rush hour traffic jams.

I grew up on a cattle ranch north of Elgin, OR. After graduating Oregon Institute of Technology, I moved to Los Angeles to work in the aerospace industry. After working in four different countries on three different continents, I moved back to Oregon to start an aerospace manufacturing facility. I started with a bare field. I built a building, bought machines, installed machines and started manufacturing parts for the aerospace industry. Along the way, I was a careful observer of Oregon politics.

A Thinking Man's Strategy

It has been 36 years since a Republican was elected as Governor of Oregon. I have a thinking man's strategy for winning this election. You have to be competitive in Multnomah county. Most Republicans were down 150,000 votes or more in Multnomah county, and they lost. They lost because they talked about issues that most Republicans have a high priority on: things like abortion, gun rights, logging on public lands and tax cuts. Focusing on these things always leads to losing the election.

Instead of giving you a laundry list of issues, I only have one issue – **winning!** To win, you have to focus on issues that we are all suffering under. We all suffer under the heavy weight of medical bills that are too high. We pay for medical insurance that is too expensive to use. We have an education system that is ranked 43 out of 50 on academics and safety. We have the third highest dropout rate. Veterans need more help.

No matter what Republican candidate you like in the primary, if they lose the election, you will have no influence in Salem. I can beat Kate Brown. I can win this election. I need you to join the Jeff Jet and we will fly right over Kate Brown. **Vote for Jeff Smith!**

Occupation: multi-business owner, entrepreneur, consultant, author.

Occupational Background: JOB PRODUCER; founder and CEO of industry-leading telecommunications company in Bend

for 34 years; turn-around specialist working with hundreds of small businesses and multi-million dollar corporations; global philanthropist, building schools; on-the-ground management in forestry, construction, engineering, utilities, and more; author of bestselling book on business management, operation, and success.

Educational Background: New York State Ranger School, A.A. Degree.

Prior Governmental Experience: none.

REPAIRING OUR GOVERNMENT

I am a strong supporter of the Trump-Pence agenda, and not a politician. I'm a businessman and turn-around specialist – expert in quickly repairing struggling businesses.

Our system of government is failing and must be overhauled NOW – and that won't be done by yet another career politician. Career politicians made this mess!

KATE BROWN MUST GO

Governor Brown MUST be retired – and that will take a conservative Republican...not a pro-choice, anti-Trump Democrat-lite.

We WILL win control of the House and Senate – a 2018 Oregon Red Trifecta!

WHAT I BELIEVE

I am passionate about limited government, individual freedom and personal responsibility:

- Pro-life, protecting the life of the unborn.
- End Sanctuary State status.
- Get the PERS crisis under control NOW.
- Fully support the Second Amendment, as written.
- Promote public school choices, vouchers, and home schooling.
- STOP wildfires; promote healthy forests with level-headed timber policy.
- Cut taxes and slash regulations to promote statewide economic growth.
- Restore fiscal sanity to failing state agencies.
- Reduce spending and shrink the size of government.
- Cultivate a government that is small, super-efficient, and unobtrusive.
- Appoint constitutional judges and agency executives who support our conservative principles.

SUPPORTING OUR PRESIDENT

In early 2016 I was the single statewide Oregon political candidate to endorse Donald Trump. Our President really is making America Great Again – now we must Make Oregon Great Again!

Oregon needs a governor who can work together with President Trump as a partner, not an antagonist.

Please join me. Let's Make Oregon Great Again!

David C Poulson

Educational Background: BS, Civil Engineering California Polytechnic State University; MIM, Portland State University

Prior Governmental Experience: Chair, Development Review Commission; City Engineer, Petersburg, AK

Oregon faces real challenges, and it's time to roll up our sleeves and find solutions. From stopping skyrocketing healthcare costs to tackling our \$22 billions PERS liability that threatens to sink school districts and local governments, I am ready to be your voice in Salem to face these issues head-on.

Protecting Our Economy

The Great Recession is over, but too many working families still live paycheck to paycheck. Wages are stagnant while inflation rises. Instead of using our historically high tax revenues to fund already bloated state budgets, we need to invest in small businesses and help them create more family-wage jobs in our community. I pledge to protect small businesses from future tax hikes and vote no on taxes that raise the price of everyday necessities like gas, groceries, and utilities.

Better Outcomes for Students

Oregon has some of the lowest graduation rates in the country and schools that fail to prepare our students for the jobs of the future. We need more dollars in the classroom where teachers can use advances in technology and innovation to help students achieve their potential. By empowering students to learn in creative ways we can set them up for success in careers that help them prosper and give their future families the best quality of life possible.

RE-ELECT SENATOR ALAN OLSEN YOUR STATE SENATOR CREATING JOBS

In the Oregon Senate, Alan has made creating family-wage jobs a priority. As a small business owner, Alan has spent more than 29 years creating jobs for our friends and neighbors. He knows what it takes to get our economy working again.

In 2017, Alan sponsored legislation to protect business from civil penalties for minor violations. Alan is committed to providing tax certainty and equity for all Oregon businesses, not just large corporations.

IMPROVING EDUCATION

For too long, Oregon has failed our children with education policies that treat the symptoms of our failing system, rather than solving the problem. As your Senator, Alan sponsored legislation to give our children the skills and funding they need to compete with students internationally. We must continue to ensure our education dollars are focused where they will do the most good for our students: in the classroom.

MAKING GOVERNMENT WORK FOR YOU

Alan believes that Oregonians want transparency in government. Alan fought for several bills, as your Senator, to increase transparency and efficiency in Salem, including preventing legislators from submitting amendments anonymously. You deserve to know how your legislators are representing you.

SUPPORTING OUR VETERANS

As a veteran himself, Alan has worked hard to provide greater access to services for our veterans and serves on the Senate Committee on Veterans and Emergency Preparedness. Alan has sponsored and passed two bills to aid Oregon veterans, giving them access to reduced in-state tuition rates at Oregon universities and the ability to take Veteran's day off to be honored for their sacrifice. He continues to work on issues that benefit all veterans.

SOLUTIONS AND LEADERSHIP

Prior to serving as your State Senator, I had been a Hood River County Commissioner for 16 years, and had always prioritized jobs and small businesses. I ran for the Senate eight years ago because I wanted my children and yours to have the same opportunities that I enjoyed growing up in Oregon.

I have stayed true to my values, by remaining the same person in office that I was when I first campaigned. Throughout tough decisions I make in Salem, I always reflect upon why I was elected - to do the best job that I can for the people of Oregon.

As your Senator I push to ensure that schools, public safety and other core functions are funded first. We also have to balance the budget without raising taxes. I encourage responsible economic growth, and help foster a stable business climate where real family-wage jobs are created and entrepreneurs are given the opportunity to succeed.

I hope I have earned your renewed trust that I am here to serve and get the job done. With that, I humbly ask for your vote. -Chuck

Occupation: Performance Management and Financial Consultant.

Occupational Background: Performance Management Consulting; Senior Finance Roles in Global Manufacturing; General Contracting and Residential Construction.

Educational Background: B.S. Finance, Arizona State University; M.B.A., Kellogg School of Management, Northwestern University.

Prior Governmental Experience: None. Candidate for U.S. Senate, 2016.

DAN IS THE RIGHT CANDIDATE FOR DISTRICT 26

Voters did not send the current Representative to Salem expecting him to:

- Further the nanny state;
- Increase the regulatory burden on business;
- Use state government to bully specific businesses or industries;
- Trample on the 2nd Amendment;
- Regulate consumer prices; or
- Undermine the results of Measure 88, rejected within the district by a 68% to 32% margin in 2014.

PRINCIPLES MATTER

"All week long as I've anticipated this moment, I've been inclined to crawl under my desk in the fetal position," said a teary-eyed Vial, referencing pushback against the [HB 4145] bill. – *The Oregonian*, February 15, 2018.

Dan knows good governance depends on legislators whose principles provide a foundation to rely on when the going gets tough. Voters deserve a representative who won't wilt under pressure, and one who won't be intimidated into abandoning his core principles of limited government and fiscal responsibility.

STAND WITH DAN

Dan will go to Salem with a laser-like focus on:

- Improving educational outcomes;
- Fiscal sanity;
- Infrastructure and Transportation;
- Removing obstacles to economic opportunity; and
- Ensuring our Constitutional rights are not thrown under the bus for cosmetic, feel-good votes.

When you stand with Dan you'll get a finance professional who understands government's role in the economy. You'll get a legislator who casts measured, rational votes, unclouded by emotions. And you'll get a small business owner who has experienced and successfully navigated the tangle of government regulation.

Vision and Leadership

Oregon has operated for more than thirty years with a vision and leadership that did not consider the long term effects of what they were doing on behalf of the people of this State. I will find ways to stop the incredible waste, rebuild our schools, rebuild our jobs, and rebuild the trust in our Government that we all so desperately want.

Bring Logic and Sensibility to Government

We must decrease the size of Government and stop the waste of tax dollars that goes along with bureaucracy.

The Oregon Constitution has been ignored for far too long

The Oregon Constitution has specific guidelines such as dedicated revenues for our roads or Lottery Dollars for economic development. What ever happened to funding education first?

Where I Stand on a few of many issues:

- I will not allow Toll Roads in Oregon. Period
- No more light rail. We should be allowed to live and work in our communities.
- Work to get more companies located in Oregon. Why are we not building cars?
- Get our Transportation needs back on track with construction of roads in the areas of Oregon that need them instead of high density housing to force the use of light rail.
- Save our children's education from the grips of special interest.
- End "Vote by Mail" and get photo ID in place.
- Free up our Natureal Resource for the benefit of Oregonians
- Stop PERS from eating up any more of Oregon's future.

Please join Bob Niemeyer in this incredible task of getting responsibility, accountability, and trust back into the Government of Oregon.

Community Service: West Linn Chamber member, West Linn Rotary, West Linn Lions Club, Board Member – Building Excellent Schools Together

Family: Married to Colonel (ret) Mark Parrish; children, Maxwell, Tucker and Gage

Representative Julie Parrish continues to be a champion for education reform, a vibrant economy, government transparency, and smarter management of state budgets!

Julie has proven time and again she's not beholden to special interests. She continues to pass legislation focusing on complex issues for our community, and for all Oregonians.

In her fourth term, Julie passed laws to:

- Implement our new Measure 96 Oregon Veterans Lottery Bill;
- Reinstate college tuition reimbursement for Oregon National Guard servicemen and women;
- Prohibit consumer credit reporting agencies from charging fees to freeze consumer credit files after a data breach;
- Reduce poverty and increase access to housing for low-income Oregonians;
- Expand 2015 legislation aimed at ending the backlog of rape-kit testing.

Julie voted against tax and fee increases that negatively impact small business; against the new 2018 payroll tax increase, and against tolling I-205.

Moreover, in February when the Oregon Senate unanimously voted to reduce sentencing for violent criminals convicted of strangling pregnant women or children; or using deadly or dangerous weapons in the act of strangulation, **Representative Parrish was the only lawmaker who testified against the sentencing reductions**, demanding accountability for victims. As a result of her work, Oregon's sentencing guidelines for violent felons convicted of strangulation will now be tougher than ever.

"I'm proud to be your representative, and I'd sincerely appreciate your vote."

Seth is a lifelong resident of Clackamas County. He is the son of a firefighter and homeschooling mother. Seth is a mental healthcare provider who has been a champion for conservative values statewide. His career includes work with abused and autistic children. He has seen firsthand the failure of top-down bureaucratic mental health services and understands the need for cost effective community-based interventions.

Oregon Needs Leadership:

Salem Democrats recklessly tax and spend and now want another backdoor tax on small businesses. Our communities thrive when tax burdens are lifted from businesses and when family wage jobs are created. Enough frivolous special interest spending and kicking PERS reform down the road. Oregonians work hard. Their tax dollars should work hard for them too, not for Salem's politicians.

Priorities Matter -

- Restore State Funding Taken from Veterans
- Stop the 1.4 Billion Dollar State Carbon Tax
- End Excessive Investments in Light Rail and Mass Transit
- Fund the Essentials First – Education, Public Safety, and Roads

End Salem Corruption:

- Reform State Agencies
- End the Public Union Monopoly of our Legislative Process
- Stop the 10 Million Dollar Taxpayer Funding of Abortion
- Reverse Unconstitutional Anti-Gun Legislation

Send a Conservative Voice to Salem -

Servant-Leader

When I was playing football for the United States Air Force Academy and my grandparents fell ill with cancer, I had to choose what was important to me. I was honorably discharged from the United States Air Force and returned back to Oregon to care for my grandparents. I believe that Oregon needs leaders who understand what's important. I will put the priorities of our community ahead of the partisan politics in Salem.

Control Spending

Politicians in Salem have allowed spending to spiral out of control, while Oregon citizens foot the bill. This needs to stop. I believe it's time to control spending and live within our means.

Reduce Taxes

Oregon has the second highest income taxes in the country. These high taxes, hurt families and drive away jobs. That is why I will support meaningful tax reform to ease the burden on Oregon's working families.

Create Jobs

My experience working with manufacturers, logistics and distribution teams has allowed me to see how small businesses create jobs. I will use this expertise to be a champion for small businesses and working families.

Expand Affordable Housing

It is becoming more difficult to find affordable housing in our state. An absence of available lots, restrictions on buildable land, and lack of funds for construction all contribute to this problem. I will reduce the needless, counter-productive regulations keeping Oregon citizens from having affordable housing.

Improve Infrastructure

I will work to improve our roads, bridges, and sidewalks so we can attract quality new businesses and keep our families safe.

Quality Healthcare

I will work to reduce healthcare costs by empowering patients and doctors, and working to provide more transparency in healthcare billing.

Prior Governmental Experience: Mayor of Happy Valley (2010-Present); Happy Valley City Council; Region 1 Area Commission on Transportation; Happy Valley Parks Committee; League of Oregon Cities, Past Board Director; Oregon League of Minority Voters, Board Director; Institute of Metropolitan Studies through PSU, Board Director

Achieving the American Dream

I grew up in a farm community, was the first in my family to graduate from college, and worked to support my husband, Shawn, while he attended medical school. We settled in Happy Valley almost two decades ago to raise our twin daughters. Together, we founded Anesthesia Associates Northwest and grew it into one of Oregon's most respected healthcare providers.

Fiscal Responsibility

As Mayor of Happy Valley, I kept our taxes low and our budget balanced. We put over \$2.5 Million into reserves, and paid off city debts early, saving taxpayers \$900,000. I will bring that same dedication of fiscal stewardship with me to the State Legislature.

Strengthening Schools

As Mayor, I've supported bringing new state-of-the-art schools to our community. Additionally, I implemented the Happy Valley Youth Council to provide young adults the opportunity to have a voice in their local governments. I'll work to provide the same opportunities for our children in House District 51 as I did as Mayor.

Improving Oregon's Transportation

I helped lead a bipartisan effort to pass meaningful transportation reform to help ease traffic congestion, support economic growth, and improve the movement of goods and services throughout the state.

Creating Jobs in our Community

In Happy Valley, we've kept our economy thriving by supporting small businesses and cutting needless red-tape. I'll use that same approach in the legislature to help Oregon attract family-supporting jobs.

Bringing People Together. Getting Things Done.

As your new lawmaker, I have made fighting for family-wage jobs, improving our schools and protecting our environment my top priorities. These issues matter to me because they matter to you. I will always put the needs of our community ahead of partisan politics and influence of special interests.

Investing in education. As a father of two young children, I understand our kids are our future. I am proud to have sponsored a new law that will put a renewed focus on recruiting, retaining and mentoring our teachers. I will always be committed to supporting our students, parents and educators.

Supporting economic growth. Small businesses form the backbone of our economy. As a member of the House Committee on Economic Development and Trade, I have advocated for policies that will help develop and grow businesses in our community. Attracting stable, good-paying jobs to our District will continue to be a high priority.

Protecting our environment. Mt. Hood. Multnomah Falls. Some of the most beautiful sights in the Nation are in our District. We have a responsibility to preserve these wonders for future generations to enjoy. I look forward to continuing my work with local and State leaders to promote sustainability and stewardship in our communities.

Planning for emergencies. As a retired law enforcement officer and military veteran, the safety and security of communities is always on my mind. As your State Representative, I helped secure funding for the local Sheriff's offices for Eagle Creek Fire recovery training and equipment.

Prior Governmental Experience: The Dalles City Budget Committee, The Dalles Urban Renewal Budget Committee, Vice-Chair House Committees on Early Child Development and Family Supports, House Transportation, and House Energy & Environment, Paid Family & Medical Leave Workgroup, and Chair Rural Policy Workgroup.

Daniel Bonham is a happily married father of two, who runs local businesses and serves actively in our community. Whether for his family, his employees, his customer, or now, his constituents, Daniel is driven by a desire to serve everyone he encounters. Daniel understands life's financial challenges and is committed to a more prosperous future for our community.

Protecting Small Business

For years, Oregon has tried to tax its way to prosperity. It's time for the legislature to stop increasing fees and taxes that make it difficult for businesses to survive. By reducing tax burdens and allowing the economy to grow, our state's broadened tax base can support investments in our educational system and responsibly support our social services.

Supporting Stronger Education

Daniel believes that a strong educational system is the key to Oregon's future. By funding our schools first and providing consistency— Oregon can build momentum towards an elite education system. Oregon has no greater obligation than to ensure it is providing the resources necessary for a quality education. A stronger education system means greater opportunities for the future of our kids, community, industry, and our state.

Standing up for Rural Oregon

The challenges facing our rural communities are often overlooked in Salem. Daniel was a strong advocate for bringing broadband access to Maupin. He passed legislation that improves the management of our federal forestland, reduced forest fire risk, and provides additional resources to watershed management.

randbarnett.com | 4040in2020.com

My 4040 plan is for immediate action on climate change; without spending money. It calls for 40% of people to drive 40% less primarily by working from home. My proposed 4040 bill will put the power to make this change in the hands of the people.

Bills I will put in the hopper:

- The 4040 bill: A bill that mandates employers to allow employees to work from home when possible.
- Additional 10% tax on gasoline for non-commercial customers.
- 10% tax on electricity for residential customers.
- Legalize marijuana but not tax it on the federal level.

As long as those people working from home do not crank up their AC/Heating for their whole house while working, this would have a huge impact on CO2 emissions. Achieving 4040 would save a tanker ship of oil every day. It would hopefully start a movement where the other 60% of people chip in too. All the proceeds from the taxes would go to utility-grade solar programs, wind farms and fusion research.

We're not going to buy our way out of climate change. Ramping up renewable energy is necessary, but will take decades. Bickering about keeping a fragile economy together so we can all have the newest smartphone and SUV is simply missing the mark. What people do every day does make a difference, but taking our bags to the grocery store isn't enough.

Being elected to congress and putting these bills in the hopper isn't nearly enough: a movement needs to be created. The bills must be passed AND individual people must take action. We had the technology to do this 20 years ago. Let's not let yet another generation pass that did nothing about this serious issue.

National Leadership-Local Results

Over the last 16 months, my mission has been to help lead the fight in Congress resisting Donald Trump and his reckless policies. But if Democrats are going to take back control of Congress, we must do more than resist Trump and his hateful, divisive agenda.

It's past time for Democrats in Congress to stand up and be clear about what we are fighting FOR— a strong, progressive vision for America.

My vision is a "Roadmap for America". It's a vision that makes us safer, healthier, and more economically secure. It includes:

- Pass Universal Health Care (like Medicare for all)
- Make Housing More Affordable
- Lower Prescription Drug Costs
- Increase Access to Mental Health Services
- Ensure Reproductive Rights for Women
- Promote Clean Energy
- Put a Price on Carbon to strengthen Social Security
- Protect Public Lands
- Implement a National Paid Family and Medical Leave Program
- Provide Access to Debt Free College
- Enact Comprehensive Immigration Reform
- Rebuild and Renew America
- Attack Income Inequality
- Preserve Net Neutrality
- End the Failed War on Drugs
- Reduce the World's Nuclear Weapons
- Promote Animal Welfare
- Reduce Gun Violence
- Strengthen LGBTQ Rights
- Enact Campaign Finance Reform
- Reform our Food & Farm Policies

It may seem like there are a lot of ideas in the "Roadmap for America." But they are all held together by two fundamental questions - how we live and how we treat each other.

This isn't just my vision but our path forward together.

Dear Friends,

Two years ago, Bernie Sanders ran on a simple message. That the working people of this country deserve a prosperous future. That we demand health care for all. That the wealthiest one percent must pay their fair share.

Our leaders in Washington ignored that message. When our principles were in conflict with what they deemed politically expedient, our principles were brushed aside.

It's time to hold our leaders accountable.

I will fight for these principles, and work to move the country forward:

- **Fixing Congress.** We must remind our legislators that they work for us, not for their donors. We can accomplish this through term limits, strengthening voting rights, and overturning Citizens United.
- **Leadership on climate change.** Reducing emissions that contribute to climate change will also massively stimulate the economy, with investments in next-generation technology and jobs.
- **A social safety net for people with nowhere to turn.** The ultra-rich enjoy unimaginable wealth, while we're in the midst of an epidemic of homelessness and opioid abuse.
- **Building the next-gen infrastructure that our economy needs.** Our emerging clean-energy economy requires a smart electrical grid. Evolving freight and transport networks require a revamped interstate system.

I am a native Portlander. I have met thousands of people, young and old, from all walks of life. While getting to know them was often a sweet experience, I found that we also shared common ground in some bitter struggles, in trying to make ends meet, and in trying to confront injustice.

We deserve leaders that are committed to progressive ideals. The only way to achieve this is by voting for ethical, principled, and progressive candidates. Earl Blumenauer has been making the same promises for decades. We can't expect a different outcome if we keep re-electing the same people.

Kate Brown Is On Our Side

Kate Brown took over as Governor at a time when faith in state government was badly shaken. She went right to work, focusing on strong schools, good jobs, and quality health-care. She passed needed ethics reforms and is increasing transparency and accountability in state government.

Fighting for Oregon Families

- Protected healthcare for Oregonians, including 400,000 children, because everyone should be able to see the doctor when they're sick
- Passed paid sick leave, so workers don't risk losing their jobs when they're sick or caring for a sick child
- Improving graduation rates to make sure every child graduates high school with a plan for their future
- Preserving the Oregon we love by protecting clean air, clean water, and public lands
- Working to keep communities safe from gun violence by requiring criminal background checks
- Defending women's rights to make their own healthcare decisions

Helping Workers and Small Businesses

- Increased the minimum wage, because no one working full-time should live in poverty
- Signed the Oregon Promise, reducing community college tuition
- Investing in career and technical education, preparing Oregonians for good jobs that don't require a college education, and enabling small businesses to hire skilled Oregon workers

Getting Results from State Government

- After discovering disturbing results of years of neglect across state agencies, Brown brought in new leadership to increase accountability
- Saved taxpayers millions of dollars through hiring freezes, reduced spending, and lower overhead
- Making transportation improvements to reduce traffic while creating 16,000 new jobs

The Right Priorities for Oregon

As Governor, Kate Brown is working to create opportunity for every Oregonian and protect the state we all love.

Location and timing. My vision for Oregon begins with combining our revered pristine natural environment with burgeoning frontier economic opportunities that lead to Oregon prosperity and leadership nationally and globally. I invite tech companies, solar, wind and other like-kind industries to invest and thrive here. And to pay their fair share of taxes. I adamantly oppose gas pipelines digging up our land for LNG exports to benefit outside interests competing with the clean energy economy we want to grow. Oil wells in the ocean are a direct affront to our lucrative tourism industry and harm the ocean itself. Oil is last century's boon-typewriters in a computer society. I favor solid investment in education. I support a single payer health care system, Planned Parenthood and its work to ensure the health and choices of women. Equal pay with a strong minimum wage revitalizes the economy myriad ways. Oregon depends on our migrant workers and their advanced and excellent agricultural skill, and exceptional factory and service industry work. Our economy would suffer deeply without them. Immigration reform must be handled intelligently, respectfully and carefully. We are a sanctuary state in a sanctuary country. I promote train transportation for goods and commuters and tourists. We must invigorate coastal towns that have the opportunity to be ocean shipping centers. I would forcefully promote sensible gun legislation. "Cap and trade and invest" addresses global warming and health as air pollution causes lung conditions and higher medical costs. We have protected and preserved Oregon and will now turn our eyes to a more vibrant prosperity on our terms and best interests. Mutual respect, kindness and the adventuresome spirit make Oregonians who we are. We are pioneers and have much pioneering to do.

Educational Background: JD, University of Michigan; BS, BAS, University of Pennsylvania

Prior Governmental Experience: Wilsonville Transit Master Plan Citizen Task Force; Wilsonville Town Center Task Force; Oregon Law Commission Advisor

EXPERIENCE

As a Willamette professor for more than a decade, **Paul Diller** advocates for laws and policies promoting public health, economic fairness, and fair elections. Understanding the bridge between law and government helps him serve you more effectively.

BETTER TRANSPORTATION

Too many Oregonians spend too much time stuck in traffic. We need more transportation options, including improved public transit and safer roads in better condition. **Paul Diller's** experience on the Wilsonville SMART transit task force has shown him what can be done.

PUBLIC HEALTH & SAFETY

We need to expand health coverage and make it more affordable, especially for small business owners. Voters deserve a senator who will stand up to Big Tobacco and the Gun Lobby to protect our children.

IMPROVED EDUCATION

Paul Diller is the father of two boys in public school and the son of a public school teacher; he knows how hard our teachers work. They need help. Our schools deserve more money for more school days, as well as for the arts, music, and athletics.

BIG MONEY OUT OF POLITICS

Big corporations should not call the shots in Salem. We must reduce big money's influence in politics. **Paul Diller** will protect Oregon's expansion of voting rights, including vote-by-mail and easy voter registration.

PROTECT FAMILY FARMS

Paul Diller will support Oregon's land-use system to prevent out-of-control sprawl and protect family farms and vineyards.

We need new leadership.

I have dedicated my life to serving our country and community, and I am ready to be a strong progressive voice for our families in Salem.

As a former active duty military member, a caregiver, and an educator, I am no stranger to hard work, dedication, or self-sacrifice.

As a caregiver to seniors and people with disabilities, I know how important it is that Oregonians are able to retire with dignity, and how hard that can be when families have to make tough choices - like deciding between paying rent or saving for retirement. In Salem, I will fight for good, family-wage jobs, and access to affordable, comprehensive healthcare.

I know some of the biggest problems facing our families today are affordable housing and economic opportunity. I will advocate for laws that promote small business growth and equitable development locally and across the state.

As a special education assistant, I work with kids every day who are left behind when we are unable to fully fund our schools. As your next State Senator, I will advocate for stronger schools by working to find sustainable solutions to our funding challenges.

"I have had the great pleasure of working with Sarah on the Newberg Citizens' Rate Review Committee. Sarah is unfailingly prepared, involved and dedicated. Dear Voter,

I'm a fifth-generation Oregonian whose connections to Clackamas County run deep.

My brother, sister, and I were raised here by my hard working widowed mom and our grandfather, a ranger in the Mt Hood National Forest. Together, these inspiring role models taught me the importance of protecting our natural landscape, valuing quality education, and contributing to our community.

I've spent my career dedicated to improving healthcare and making it more affordable and efficient, while ensuring that patients have a strong voice in their own care.

I'm running for State Senator because it's time for someone who will fight for you in the Oregon Legislature.

We need better representation on transportation funding to solve traffic gridlock, we need to take steps to make healthcare affordable for everyone, we need to have a healthy environment, high quality education, and to protect our open spaces and family farms for generations to come.

As a former business owner, I'll bring a thoughtful, experienced approach in support of small businesses and the jobs they create.

As a former refugee, I believe in the promise of America, land of equal opportunity. Yet, the wealth gap continues to widen. Parents work three jobs and still can't make ends meet. Student debt is skyrocketing. Medical bills bankrupt hardworking families and the housing crisis is leaving more of them homeless. Neighbors suffer the livability impacts of drug addiction, a public health epidemic.

These issues are man-made. They are not permanent, and they can be solved with effective leadership and collective action.

Through co-founding Unite Oregon, Fair Shot for All, and the Oregon Health Equity Alliance, I have worked with others to develop and push for solutions, including:

- Health care for all children
- Paid sick days
- Tuition equity
- Increasing the minimum wage
- Banning law enforcement profiling

Often the leadership for these initiatives has come **from the community**, not from Salem, and the Senate has repeatedly blocked progressive legislation. The reality is that lobbyists and corporate donors have more influence over our elected leaders than constituents. **I will never take corporate PAC money.**

I'LL WORK WITH YOU TO:

- Invest in education
- Ensure health care as a human right
- Solve the housing crisis
- Champion economic justice policies that benefit all
- Win paid family leave and affordable child care
- Reform our criminal justice system
- Address climate change
- End corporate welfare

It's time for us to make our voices heard in Salem and fight for the future we deserve. **Not me, WE.**

Educational Background: The Dalles High School Lewis and

Pro-choice women are running for office in historic numbers this year to resist Trump.

I'm one of them.

As a working mom, Oregon's greatest challenges—housing, healthcare and education—are everyday realities. I'm fighting to give my kids better than I had. My mom was homeless in East Portland. My dad struggled as a single parent. Unlike career politicians who see Oregon's challenges as empty statistics, I understand the real impact on families because I am part of one.

I'm asking for your vote so we can fight together for:

Affordable Housing. Home ownership is unaffordable for too many. Homeowners are concerned about losing their homes to rising costs. Renters are worried about evictions and being priced out of their neighborhoods. I started my career as a volunteer attorney fighting to keep Oregonians housed. I'll take this fight to Salem.

Health Care for All. No family should fear bankruptcy over medical bills. I'll fight for universal health care and stand up to drug companies to bring down the cost of prescriptions.

Strong, Safe Schools. I know the power of education to change lives because Oregon schools changed mine. I'll stand up and make corporations pay their fair share to fully fund our schools. And I'll be a leader for commonsense gun safety laws.

Retirement Security: After a lifetime of hard work, seniors deserve to live with independence and dignity. That means a path to secure retirement, a safe neighborhood, and a home to share with their families.

Our neighbors are struggling to make ends meet. We deserve more than just business as usual. I'll champion the needs of real people in our community.

CANDIDATE STATEMENT

I'm not a professional politician, but I have been involved with community issues and have worked with elected officials for many years. As a committed advocate for youth, I am familiar and concerned with the issues they face, today more than ever.

WHY WOULD A NON-POLITICIAN RUN FOR OFFICE?

Today's political climate inspires me to step up. We must do more. We must shed our tired, self-serving partisanship. We must stand against ignorance and intolerance to make Oregon a healthier, safer place.

My wife, Beatrice, and I live on a little farm in Evans Valley, just outside Silverton, where we care for abused and orphaned animals. We feel Oregon – especially our little piece of it – is one of the most beautiful places on earth. We're very fortunate.

OREGON IS CHANGING AND WE MUST KEEP PACE

Yet too many Oregonians are struggling with real issues impacting their children's futures. From the opioid crisis to immigration issues affecting families and our economy. There is much that needs to be done.

I'm ready to help Oregon with compassion, common sense and hard work while standing strong for our shared beliefs. Together we can create a better Oregon for everyone.

STRAIGHT TALK ON WHY I AM RUNNING

It's time for a change. It's time to work on what really counts:

1. Providing all Oregonians access to affordable health care and healthy living.
2. Assuring our youth are treated justly and given opportunities to succeed.
3. Protecting farm land for our largest economic sector.
4. Keeping our kids safe at school.
5. Legal reform for Dreamers, our neighbors and our ag work force.

Join me in making Oregon better.

Healthcare for All Oregonians

I have been actively involved in the healthcare field for nearly ten years and believe the time has come for universal healthcare in our state. No one who gets sick or injured should have to fear bankruptcy because they lack medical coverage. For this reason, I strongly supported Measure 101 as a temporary means to provide healthcare for our state's most vulnerable citizens while we develop a permanent solution to the healthcare crisis.

A Transportation Solution for Everyone

Our region's massive growth has strained our transportation network. I will work with local officials to create an improved grid of arterials to connect our growing communities on the west side that both relieves congestion on our major highways and reflects our focus on environmental protection.

Veterans Homelessness

As a veteran, I believe our nation's veterans deserve nothing less than honor, dignity, and respect for putting their lives on the line to serve our country. In 2017, there were more than 1,200 homeless veterans living in our state. I will work with the governor, members of the legislature, and our congressional delegation to find the funding so that no man or woman who has served in our military has to worry about being homeless.

Truth, decency, and respect for all humans are under attack by the President, backed by politicians who care more about their self-interest. I ask you to share with me your ideas and lend me your support, so together we can stand up to these attacks and politicians, while advancing humane, common sense solutions for all Oregonians. Please help me to continue serving my country.

Independent Ideas that Work for Oregon

Investing in Oregon's Schools

As an advocate for our schools for 40 years and a former teacher, Margaret has never stopped fighting for our kids. As Chair of the House Education Committee, Margaret has worked hard to increase funding for our schools, so we can reduce class sizes and stop teacher layoffs. Margaret has led the charge to end childhood hunger, and she'll continue to work hard to improve graduation rates and address the rising cost of college.

Putting Working Oregonians First

Margaret has always stood up for our community because she believes every Oregonian who works hard should have a fair shot at getting ahead. Families should never have to choose between buying food and paying their rent – that's why Margaret supports policies that will lift low-income workers out of poverty and strengthen the middle class. As State Representative, she has worked to make sure all Oregonians have access to affordable housing, quality health care, and a secure retirement.

A Bold Voice For Our Values

"In Oregon, we look out for one another. When I go to work in the Legislature, I think about the kids who grew up down the street and are now headed off to college, taking out loans so they can go to their dream school. I think about my elderly neighbor, who struggles to cover the cost of her prescriptions. I think about the parents in our community that want the best for their kids, but worry about crowded classrooms and the high cost of child care. We've come so far, but there's work left to do, and I would be honored to continue to serve our community." - Margaret Doherty

Building a Healthy Community

For decades, Rachel has been at the bedside taking care of patients during some of their most vulnerable times. She's running because she's watched too many patients make hard decisions about what bills to pay or which medications to go without. As our representative, we can trust Rachel to fight for:

- Affordable, accessible health care for all
- More affordable prescription drugs
- Common sense gun safety

Strengthen Our Schools

Rachel is the advocate our kids and schools need. She understands strong schools are the key to healthy neighborhoods and a vital economy.

- Expand access to Head Start and affordable childcare
- Fully fund K-12 education
- Strengthen pathways to community colleges, universities and apprenticeships

For more than 20 years, including the past seven months serving as Oregon's House District 38 Representative, I have been on the front lines, **working to protect and pass policies that help women and children, working people, seniors and the environment.**

As a working mom to my daughter Amelia, a seventh grader at LO Junior High, I know how important a strong community plays in our children's education. When racism and bigotry in our schools made headlines in our last election, I took my ethic of hard work and led by example. **I co-founded LO for LOve** to teach our children that diversity, inclusion and kindness are values we lead with in Lake Oswego.

I know how to get things done in our state Capitol. I've worked along side our elected officials to help **provide Oregon families with a fair shot by increasing the minimum wage, fighting climate change and leading the efforts to pass the nation's most comprehensive reproductive health care bill in 2017.**

I do this work because **for too many Oregonians, the cards are stacked against them.** Wages aren't keeping up, college is becoming increasingly out of reach and health care consumes a bigger chunk of families' take-home pay and small business profits.

I'm dedicated. I'm committed. I'm a hard worker. I am proud of the amount of sweat equity I have put toward making Oregon a better state for all.

I'm ready to continue to lead as your State Representative, and doing it in a way that brings people along, leaving the door open, reaching out to lift others up and bringing more chairs to the table. This is the type of leadership we need in Oregon's State Capitol.

I ask for your vote for State Representative for House District 38.

Parklane v. Metro, etc.

Candidate Statement

The issue that drew me into public service is Metro's decision to urbanize the rural community of Beavercreek despite overwhelming community opposition. We activated our Community Planning Organization. I joined the merged lawsuits against Metro's decision; I learned how to do legal work; I rallied supporters. Through this participation the courts decided to overturn Metro's entire decision. Over 20 years, I have been protecting the interests of my community – protecting its rural nature, supporting local family-wage jobs, opposing road congestion and rural hazards. I am ready to work for HD39.

Oregonians shouldn't be priced out of the housing market nor should Oregon have among the lowest high-school graduation rates in the country. I am seeking solutions.

Our regional snowpack is declining, compromising our drinking-water supply. Drier summers have caused more wildfires and dying perennials, shortened the livestock pasturing season, and lead to overdraw on the Clackamas River. Terrible tropical mosquitoes approach. We're overdo for solutions including energy conservation and weatherization.

Since China recently stopped taking most of our recycling, Oregon must re-invent its recycling commitment.

Let's end our civic "civil war." Although my friends and family span the party divide, we share many common values – family, community, personal character, frugality, freedom from government interference, lawfulness, humanity. We can find our way forward together in unity.

When laws are made in Salem, I will make sure their impact on you – your liveability and roads, your farms and businesses, your budget, your students, your access to health care, your environment -- will not be overlooked.

Jeff Reardon: Bringing Oregonians together to build stronger communities.

Past & Present

Since beginning my service as State Representative, I have championed local and state issues. Recently, this includes my work to reduce flood insurance costs for homeowners in the Johnson Creek 100-year floodplain, sponsoring legislation so the City of Portland and the Oregon Department of Transportation could work together in addressing livability issues, and leading the effort to fund drop-out prevention and career/workforce readiness programs in our high schools.

Future

There is always more work to be done for the people of District 48, and all of Oregon. I have supported historic funding for K-12 but we must do more to give students the high-quality education they deserve, from preschool to career technical training and higher education. We need a stable revenue solution for our unpredictable tax system; ensuring corporations are paying their fair share. East Portland has the highest concentration of poverty in the state, and the Portland area has the highest housing costs in the state - I will continue working to reduce poverty and make housing more affordable.

Connecting with my Community

Being a good state representative means listening to my constituents at community forums and neighborhood association meetings. When working with local government, business, and education leaders, I constantly and energetically advocate on behalf of the people of District 48. I ask for your vote.

Janelle Bynum knows that education is the key to unlocking opportunity.

That's why she continues to work for better schools, safer neighborhoods, and economic opportunity for every Oregonian.

From East Portland, to Boring and Damascus, to Happy Valley:

it is truly an honor to serve the communities of House District 51.

As a mom of four, I know how cuts to education funding have hurt our students. I'm living proof of the opportunity a quality public education provides. That's why I've made school funding a priority, working toward solutions to raise statewide graduation rates, and preparing students for the economy of the future.

"I've seen Janelle's passion for our public schools. As a parent volunteer, she works hard to bring opportunity to her children's classrooms. As our representative in Salem, she's bringing that opportunity to every Oregon student." – Christina Bayley, Teacher

As an Oregonian, I believe families deserve paid family and medical leave, and that my daughters – and every person – should earn the same pay for equal work. In my first year as your representative, I was proud to strengthen our equal pay laws and worker protections, as well as pass legislation that ensures families have access to a safe, affordable place to call home.

"Many families like mine are faced with the rising cost of housing, and have nowhere to turn. When I called Janelle for help negotiating with my landlord, she was right there for me to the very end." – Dwayne Harris, HD 51 constituent

Now is not the time to sit on the sidelines. Watching President Trump reverse progress on education, healthcare, race, and the climate inspired me to run for state office. Oregon can lead the nation in resisting divisive policies, but we need representatives to stand for stronger and safer schools, broadened healthcare access, and bold steps to invest in renewable energy jobs and infrastructure.

I'm unafraid of hard work or powerful corporations. I led the county-wide campaign that won a 69% bipartisan victory to protect our water supply from Nestle's plans to annually export 200 million gallons. As Rockford Grange's President, I facilitate dialogue on issues relevant to rural Oregon—sustainable farming, immigration, and water security.

"She's a collaborative leader who represents our public interests."

Sannye Phillips, grandmother in Sandy

"Aurora genuinely listens to Native People."

Klairice Westley, Warm Springs/Grand Ronde member

Investing in Education

As a 20+ year teacher, I'll advocate for students to have the tools to be engaged and successful citizens. I'll work hard to increase pathways to college and career/technical opportunities.

"Aurora rallied hard to secure funding for our college. She brings people together for the common good."

I will fight to improve access to healthcare that all Oregonians deserve.

I love Eastern Oregon. I grew up here and I chose to return to raise my family. Now that my children are grown, I have more time to serve as your State Representative. It is a very important and potentially influential role, if the right person is in place. My years of experience reading and analyzing technical data, asking tough questions, and speaking up without fear - are assets that I plan to use for all the residents of District 59. I have spent years carefully cultivating personal relationships at the local, state and national level, so that someday I would be able to skillfully represent our towns and cities in the legislature. Times are changing and we need resources to help our rural areas to not only survive, but thrive. A hand up, not a hand out. We also need someone who understands how legislators from the western part of the state think, so we can help them understand why some things that work for them and their constituents are not in our best interests and that we need to be part of the equation.

I hope that you will allow me to represent your interests in the legislature. I humbly ask for your vote.

Prior to becoming a judge, she worked as a trial and appellate attorney, frequently litigating novel and complex issues.

Van Pounds

Nonpartisan

Occupation: Lawyer, licensed to practice law in Oregon and Missouri; Senior Policy Analyst, Oregon Department of Consumer and Business Services (DCBS).

Occupational Background:

Chief of Enforcement and Securities, DCBS; Managing/Senior Counsel and Special Assistant Attorney General, Missouri Department of Revenue; Adjunct Instructor of Business Law, Southeast Missouri State University; Assistant Regional Public Defender, State of Missouri; Assistant/Acting City Attorney, City of Cape Girardeau, Missouri.

Educational Background: Master of Laws (LL.M.) in Dispute Resolution and Juris Doctor (J.D.), University of Missouri-Columbia; Bachelor of Arts (B.A.) in History, Southeast Missouri State University.

Prior Governmental Experience: See Occupation and Occupational Background above.

Professional Memberships: Oregon State Bar (Administrative Law Section); The Missouri Bar (Alternative Dispute Resolution Committee); Labor & Employment Law Committee; Marion County Bar Association.

Let's Make Your Vote Count

Van Pounds is seeking a state judgeship. He also is seeking to call attention to the process by which judges in Oregon get picked.

Although the Oregon Constitution states that judges are to be elected by the voters of this state, the die is often cast long before any election. As judicial vacancies occur, the governor unilaterally fills them by appointment. Such appointed judges thereafter gain the advantage of incumbency and rarely, if ever, face an election opponent. Current judges on the Oregon Supreme Court serve as a prime example.

Oregonians deserve a more meaningful say in who gets to be judge.

Van Pounds offers voters a true ballot choice. He possesses the experience and commitment necessary to do the job. And he understands the responsibility of the Court to not only resolve disputes, but provide timely legal guidance -- to the public, the bench and the bar -- in a manner that demystifies the law and minimizes the prospect of further disputes.

Consistent with the Code of Judicial Conduct, Van Pounds pledges to perform the duties of judicial office fairly and impartially, and in accordance with the rule of law. He welcomes your vote.

Transparency. Accountability. Fairness.

In a time when our nation faces grave threats to democracy and the rule of law, our courts must be open and accountable to the people. That's why I'm running for the Court of Appeals.

Currently, the Court of Appeals decides most of its cases by "affirming without opinion." That means the court gives no explanation whatsoever for its ruling. For many civil, criminal, and administrative appeals, that non-explanation ends up being the last word.

Such a practice is far less common in the rest of the country. Many other state and federal appellate courts give at least one or two sentences to explain their rulings. That helps the parties, other courts, and the public know why the court did what it did—which keeps courts accountable.

I think Oregon deserves at least that much. And I think our appellate court can do that much. I recognize that our judges have a tough job, and I respect the efforts they're making. There are too many cases and not enough judges to give them all the attention they deserve.

But there's room for improvement. And I'm up to the task. In the last five years, I've written over 300 appellate briefs and argued before the Court of Appeals over 60 times. My work is high-quality, too—the Oregon Supreme Court has called my briefing "thoughtful." (*State v. Cuevas*, 11/13/15.) In short, I'm one of the most productive appellate attorneys in the state.

As a judge, I will bring that productivity to the court. I will work to end the "affirm without opinion" practice, without sacrificing the quality or speed of decisions. I believe that will make our courts more open, more accountable, and fairer to all Oregonians.
