VOTE BY MAIL GENERAL ELECTION, NOVEMBER 7, 2000

Compiled and Distributed by

Bill Beilby
Oregon Secretary of State

This Voters' Pamphlet is provided for assistance in casting your vote by mail ballot.

BILL BRADBURY

SECRETARY OF STATE

SUZANNE TOWNSEND
DEPUTY SECRETARY OF STATE

STATE OF OREGON
SECRETARY OF STATE
136 STATE CAPITOL
SALEM, OREGON 97310-0722
(503) 986-1500

Dear Oregonian:

This is volume 2 of a two-volume 2000 General Election Voters' Pamphlet. This volume contains information about candidates. Volume 1 with information about state ballot measures was mailed earlier. If you did not receive a copy of volume 1, please call my office at 503-986-1518.

This volume contains:

- A list of state candidates;
- Statements filed by individual candidates;
- Congressional and district maps;
- Voter registration information; and
- Political party statements.

The Voters' Pamphlet has been an important tool for Oregonians since Secretary of State Frank I. Dunbar produced the nation's first voters' pamphlet in 1903. It remains today the single most important tool that Oregonians use in deciding how to vote.

I urge you not to be turned off by the record length of the two-volume Voters' Pamphlet. Please take the time to study the candidates and measures on the ballot. The decisions we Oregonians make together in this election will have a profound effect on our state for many years to come.

With this election Oregon will make history. Ours will be the first presidential election ever conducted entirely by mail. I am challenging Oregonians to make history in another way: to have the highest voter turnout of any state in the nation this fall. We are consistently among the highest, but I want Oregon to be the highest.

To promote this effort, I have launched a web site (www.oregonvotes.com) as a clearinghouse for election information. If you need additional information beyond what is in this publication, www.oregonvotes.com is an excellent place to begin looking.

To participate in this election, there are some important dates to remember:

- October 20 to 24 is the period when ballots will be mailed to registered voters – if you are registered and you do not receive a ballot in the mail, call your county elections office for assistance; and
- November 7 at 8:00 p.m. is the deadline for your ballot to be received by a county elections office – if you do not return your ballot in the mail, return it to the official ballot drop-off site nearest you.

Thank you for taking the time to study the candidates and measures on the ballot and for participating in the election.

Sincerely,

Bill Bradbury

Information

GENERAL

Your official 2000 General Election Voters' Pamphlet is divided into two separate volumes. This was necessary because there are 26 statewide measures and 607 arguments filed in support of or in opposition to these measures. The amount of information is too large to be bound into one book in a cost-effective manner.

This is Volume 2 and contains information on candidates only. You should have already received Volume 1, containing information on the statewide measures. If you have not received Volume 1, please call the Oregon Elections Division at (503) 986-1518.

In this volume, partisan candidates appear before nonpartisan candidates. All space is purchased; statements and photographs are submitted by the candidates or their designated agents. The information required by law—pertaining to occupation, occupational background, educational background and prior governmental experience—has been certified by each candidate.

Volume 2 also includes other voting aids, such as congressional and district maps, drop site locations and a complete list of the state candidates. If your county has chosen to produce a Voters' Pamphlet in conjunction with the state, drop site locations will appear in your county Voters' Pamphlet.

The Voters' Pamphlet has been produced by the Secretary of State since 1903, when Oregon became one of the first states to provide for the printing and distribution of such a publication. One copy of the Voters' Pamphlet is mailed to every household in the state. Additional copies are available at the Elections Division in the State Capitol, local post offices, courthouses and all county election offices.

RANDOM ALPHABET

While the candidates' statements appear in alphabetical order by their last name in this Voters' Pamphlet, you will notice that they appear in a different order on your ballot.

Pursuant to ORS 254.155, the Secretary of State is required to complete a random order of the letters of the alphabet to determine the order in which the names of candidates appear on the ballot.

The alphabet for the 2000 General Election is:

Z, O, D, E, B, J, M, L, C, K, R, W, F, N, T, Y, H, S, I, P, U, G, A, Q, V, X

WEBSITE

Most of the information contained in this Voters' Pamphlet is also available in the Online Voters' Guide on the World Wide Web at <http://www.sos.state.or.us/elections/nov72000/nov72000.htm>

VOTER REGISTRATION INFORMATION

The deadline to register to vote for the November 7, 2000, General Election is October 17, 2000. If you register after that date, you will be entitled to vote only in future elections. To obtain a voter registration card for future elections, you may use the form below. You may also obtain a card at any county elections office, most banks and post offices, and many state agencies. The form is also available in some telephone books and on-line at www.sos.state.or.us/elections/other.info/vreg.htm.

PRIOR GOVERNMENTAL EXPERIENCE: US Army 1953-56, honorably discharged.

It is important to have a candidate in the race who believes the Constitution is a literal document, especially the 9th and 10th Amendments which limit the size and power of the federal government.

By obeying the Constitution we can make the federal government so small that we won't need an income tax at all, or the IRS -- and we don't need anything to replace them. I want you to be free to keep every dollar you earn -- to spend it, save it, or give it away as you think best, not as politicians deem best.

I believe we should privatize Social Security. Even the most conservative investments would produce a far better yield than Social Security. Your money should reside in an account that you own, free from political misappropriation.

I believe you should be able to live in a safe neighborhood -- free from the criminal black markets, the gang warfare and the drive-by shootings that are fueled by the Drug War. I would end drug prohibition.

The other candidates believe they can run your life -- I disagree. I don't believe I can know how much you should put aside for your retirement or what schools your children should attend. I want you to be able to live your life by your values.

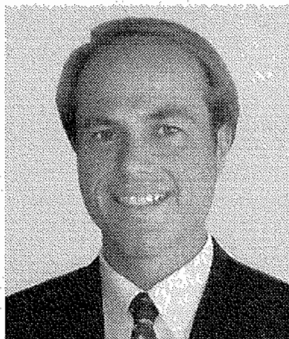

Harry Browne was born in New York City and lived most of his life in Los Angeles. He and his wife Pamela reside in Tennessee. He has a grown daughter.

Browne was a successful investment advisor for 30 years and is the author of 11 books that have sold more than 2 million copies, three of which were *New York Times* bestsellers (one going all the way to number one). He will appear on all fifty state ballots.

PRIOR GOVERNMENTAL EXPERIENCE: Mayor, City Councilman.

As a Libertarian Mayor, I made sure the taxpayers got their money's worth. Most of what people consider vital government services are paid for by the general budget of their local municipality. These include building and maintaining the city's infrastructure and law enforcement. Your local government is able to do this and more with only two to three percent of the total taxes that you pay.

The Federal budget takes about half of your tax money without providing the things that improve your day-to-day life. The Federal government has a Department of Education that educates no one, a Department of Transportation that transports nothing, a Department of Energy that produces no energy, and a Department of Agriculture that grows no food. Your money is being wasted on these departments that are not authorized by the Constitution and do nothing to improve your life.

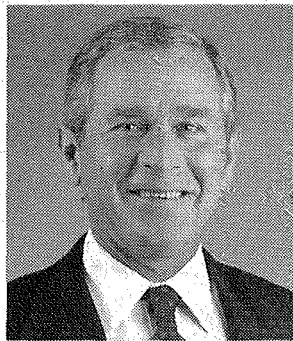

Even worse, the Federal government has laws that result in making our communities unsafe.

The biggest threat to the safety of our communities comes from the Federal government's failed war on drugs, making some of our neighborhoods war zones. Because some drugs cannot be sold at the local drug store, criminals sell them in drug houses. And because drug dealers operate outside of the law, disputes are often settled with violence. Only by putting an end to the drug war will we end this violence in our communities.

By having the Federal government follow the Constitution, there would be no need for federal income tax. People would have more of the money they earned to spend at local establishments and parents could afford to spend more time with their children. The end result will be you will have more control over your own life and our communities would be a better place to live.

EDUCATIONAL BACKGROUND: Yale University, B.A.; Harvard University, M.B.A.

PRIOR GOVERNMENTAL EXPERIENCE: Governor of Texas

Dear Oregonian:

I'm running for President because I believe our prosperity must have a purpose. The purpose is to leave no one out...no one behind. I believe government's role is to create an environment where entrepreneurs and families can reach their dreams and flourish.

As President, I will improve our schools by insisting on high standards, local control, and real accountability. There can be no second-rate schools because there are no second-rate children. I believe all children can learn. And no child should be left behind.

I will also save and strengthen Social Security for this generation and the generations to come. Under my administration, there will be no change in existing benefits for retirees or near-retirees. And for younger workers, I support giving them the option of investing a portion of their Social Security taxes into sound investments they control.

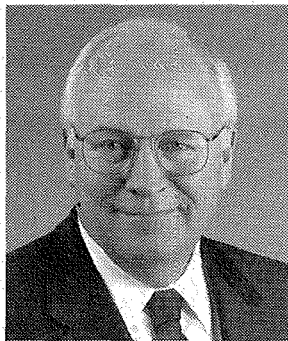

As President, I will also work to reduce taxes for all taxpayers and rebuild our military with better pay, better training, and better equipment.

I also want you to know what kind of leader I'll be as your President. I am a uniter, not a divider. I don't need polls to tell me how to think. I'm guided by principles ingrained in my heart – trust local people to make decisions for their schools and communities; understand that peace is best kept through strength, not weakness; limit government with tax cuts and spending restraint; fight for American interests and America's workers; promote strong families and personal responsibility.

Sincerely,
George W. Bush

EDUCATIONAL BACKGROUND: University of Wyoming, B.A. and M.A.

PRIOR GOVERNMENTAL EXPERIENCE: noted above

Dear Oregonian:

America is ready for new leadership: Leadership that will continue this great prosperity we enjoy – but extend it to every corner of America and use it for greater goals. Leadership that lifts our sights and makes Americans proud again.

I see in Governor Bush the qualities of mind and spirit our nation needs, and our history demands.

In a time of partisanship, Governor Bush reaches across party lines to do the people's business. In a time of bitterness, he brings people together. After an era of tarnished ideals, he will return honor and dignity to the Office of President.

As Governor of a large and diverse state, George W. Bush has kept his commitments. He said he would improve the public schools, and he has. He promised to reduce taxes and he has – twice – while keeping the budget in surplus. He pledged to reform the legal system – to get rid of junk lawsuits – and he has.

He did all these things because he is a uniter, not a divider ... someone who works with Democrats and Republicans for the common good, and shares the credit for success. That is what we need in the White House. A leader with an agenda and the know-how to get it done. Governor Bush is that leader. And I will work with him to enact his plans to improve schools, save and strengthen Social Security, reduce taxes, and rebuild the military and encourage new efforts to confront suffering and poverty.

Sincerely,
Dick Cheney

OCCUPATION: Vice President of the United States

OCCUPATIONAL BACKGROUND: Private, United States Army; Reporter, Nashville *Tennessean*

EDUCATIONAL BACKGROUND: B.A., Harvard University; Attended Vanderbilt Graduate School of Religion and Vanderbilt Law School.

PRIOR GOVERNMENTAL EXPERIENCE: United States Congressman 1977-1985; United States Senator 1985-1993; Vice President Of the United States 1993-Present

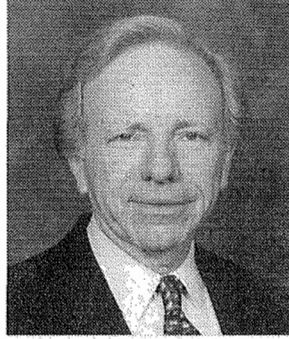

I'm running for president because I want to use our historic prosperity to benefit everyone, not just the few. To do that, I will pay down the national debt and make smart investments in health care, education, middle-class tax cuts and a secure retirement for all. If I am entrusted with the presidency, I will fight for you.

I will:

- Balance the budget every year and completely eliminate the national debt by 2012 to keep America prosperous far into the future.
- Cut taxes to help you save for college and pay for health insurance or child care. I will not go along with a huge tax cut for the wealthy at the expense of everyone else and that wrecks our good economy in the process.
- Fight for a prescription drug benefit for all 40 million Americans on Medicare.
- Push for a real, enforceable Patients' Bill of Rights to protect everyone who gets their health care through a health maintenance organization (HMO) or insurance company.
- Provide access to affordable health care for every child in America by 2005.
- Work to rebuild and modernize our crumbling schools, reduce class sizes and make high-quality pre-school available to every four-year-old, in every family.
- Strengthen Social Security and fight for a new, tax-free retirement plan to help you save and build a bigger nest egg for your retirement.
- Protect and defend a woman's right to choose. This country does not need a Supreme Court that overturns Roe v. Wade.
- Take on the polluters to clean up our nation's air and water and reverse the silent tide of global warming.

I'm running for vice president because I want to reform the way our government works, improve our public schools, help America recommit to a basic set of common values, and protect America's consumers and environment.

I have spent 30 years in public service dedicated to these causes, and as Vice President I will continue to:

- Stress fiscal responsibility by using government surpluses to pay down the national debt, meet obligations to Social Security and Medicare, cut middle class taxes, and make key investments in education.
- Stand up for the interests of consumers by fighting to reduce the costs of gasoline and home heating oil, cable television service, and consumer credit cards.
- Safeguard our natural environment by pushing cleaner air standards for smog and soot, conserve natural resources conservation and preserve open space, and lower greenhouse gas emissions to combat global warming.
- Aggressively push for comprehensive campaign finance reform to blunt the impact of special interests on our law-making process.
- Work to guarantee every child a quality education by investing in our public schools, offering more support to teaching professionals, improving accountability and performance, wiring every classroom to the Internet, helping parents afford the rising costs of college tuition, and promoting American history education.
- Expand the economic winner's circle so low-income working families have a chance to realize the promise of the American dream.

In this 2000 election, I am seeking to unite all of America's reform-minded voters to break the two-party stranglehold on our political process. I stand for crucial democratic reforms and forward-looking, prevention-oriented solutions, including

- Ending special interest control of our politics through the elimination of PACs and soft money, public sponsorship of election campaigns, and prevention of lobbying by former public servants
- Promoting a balanced, tailored trade policy that promotes the economic welfare of all Americans, provides markets for our domestic small businesses, safeguards American employment and labor standards, and ensures that imported goods meet our environmental and product safety standards
- Creating a prevention-oriented health care system, as opposed to a disease-care system bought and paid for by special interests
- Protecting the environment through the development of renewable, safe, non-polluting energy sources that will end our dependence on foreign oil and save hundreds of billions of dollars in health and environmental costs

I am honored to serve with my presidential running mate John Hagelin. I bring 20 years' experience in Silicon Valley to my campaign and offer a new mainstream voice to American politics. I have been an entrepreneur my whole life, and I am running to bring entrepreneurship to the White House, introduce proven solutions to America's problems, and break the two-party stranglehold on our democracy. Entrepreneurship is not limited to business; it is also necessary in politics. Ross Perot taught us that. Now John and I will build on Ross's foundation and, with the dedicated support of thousands of Reform Party members all over the country, we will create, at long last, a mainstream third party that will break the two-party stranglehold and take back our stolen democracy.

OCCUPATION: Consumer Advocate

OCCUPATIONAL BACKGROUND: Wrote best-selling book *Unsafe at Any Speed* exposing unsafe automobiles, which forced

changes in the industry and saved many lives. Founded numerous citizens' groups that combat corporate greed and work for consumer rights.

EDUCATIONAL BACKGROUND: Princeton University; Harvard Law School

PRIOR GOVERNMENTAL EXPERIENCE: Advocate before Congress and governmental agencies for stronger environmental and consumer protections.

Ralph Nader is a genuine American hero. He courageously stands up for the interests of common people against the most powerful institutions in our society. He is running for President as the Green Party candidate because the only way we are going to regain control of our political institutions is to build a progressive political movement that will break up the concentration of wealth and power in the hands of the few. Nader is working on behalf of all Americans who understand the urgent need to wage peace, protect the environment, end poverty and build a deep democracy that involves all citizens.

Nader seeks to end the environmental violence of air pollution, water pollution and toxic chemicals. He wants to change current energy policy, which is run by oil lobbyists, and create a new policy focusing on conservation and alternative energies. He also wants to end all commercial logging on public land and protect 60 million acres in national forests from road building.

Nader advocates a living wage, publicly-financed clean elections, universal health care coverage for all Americans, and stronger labor laws that protect workers' rights to organize. He wants to negotiate fair global trade policies with protections that pull up, rather than push down labor and environmental standards.

The Nader 2000 Campaign is taking on the Democratic-Republican duopoly and is reaching out to the non-voters who made up more than half of the eligible voters in the 1996 Presidential election. For more information, visit our website at www.votenader.org.

EDUCATIONAL BACKGROUND: Graduate of Ashland (OR) High School; B.A. from Harvard University, 1981; Master's Degree in Rural Development from Antioch University. I have also been blessed with invaluable lessons and wisdom from elders worldwide.

PRIOR GOVERNMENTAL EXPERIENCE: I have never held an elected public office. My "prior government experience" includes litigation, administrative hearing processes, testimony at Congress and the UN, all seeking to improve quality of life.

Dear Oregon voters,

I am an active human being in pursuit of a healthier self-sufficient respectful earth, and better democratic processes for our great nation.

I have worked to create organizations and tools within an atmosphere of self-sustainability and independence from the growing impact of worldwide corporate power. I have had a wide range of opportunities to present on these same, including presentations on behalf of the Indigenous Women's Network at United Nations conferences.

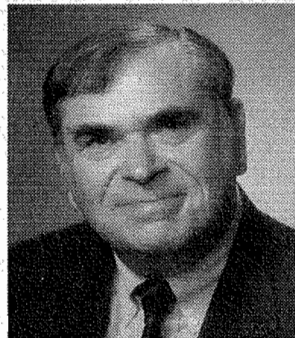

I believe that decision-making should not be the exclusive right of the privileged. That those who are affected by policy - not those who by default often stand above it - should be heard in all debates. Sign our petition at www.votenader.org/debates/index.html to help get Ralph Nader in the national presidential debates.

I am interested in reframing the debate on the issues of this society: the distribution of wealth, the abuse of power and the rights of the natural world, the environment and the need to consider an amendment to the U.S. Constitution in which all decisions made today, will be considered in light of their impact on the seventh generation from now.

If you don't vote for what you believe, you won't get what you want.

Democrats and Republicans have raised Federal taxes and spending since 1994 by \$600 billion annually.

They have bailed out the U.N., sent \$18 billion more to the IMF, voted permanent MFN status for Communist China, restricted your gun rights, and pushed government control of your health care.

They fund the National Endowment for the Arts, Planned Parenthood, and homosexual activist groups.

The U.S. Constitution requires that no person may be deprived of life without due process of law. As President, I will acknowledge that the unborn child, is, without exception, a legal person and appoint U.S. Attorneys to prosecute abortionists.

Education must be accountable to parents, not to politicians.

I will eliminate the U.S. Department of Education and terminate funding to advocacy groups.

We will abolish the IRS. Taxes on income, capital gains, gifts, inheritances, and business activity will end, replaced with a revenue tariff, plus limited excises.

Social Security will be privatized, with beneficiaries receiving what was promised. No more FICA taxes.

No more undeclared wars --- no wars at all except to defend the U.S. When our troops go to war, they will serve under no foreign commander.

The U.S. military will be strong enough to deter or defeat any adversary. We will put troops back into Panama.

It will be America's policy to be the friend of liberty everywhere, but the guarantor of ours alone.

Our Constitution vests all legislative powers in Congress. It is unconstitutional to transfer control over Federal policy and resources to the Federal Reserve, regulatory agencies, unelected bureaucrats, private organizations, the Judiciary, international organizations, or the President.

I will repeal all unconstitutional Executive Orders.

KING FOR CONGRESS WHEN ENOUGH IS ENOUGH!!!

The Environment. Corporate welfare and mismanaged public projects have made government one of the biggest polluters of the environment. Did you know that the government is responsible for more Superfund sites than anyone else? Only a Libertarian will hold government accountable when it comes to polluting our environment.

The "War on Drugs." The Drug War is a failure and everyone knows it. It costs taxpayers billions of dollars per year, feeds a black market financing gangs, fills our jails and makes government more intrusive. Only a Libertarian will end the Drug War and support laws protecting society from the effects of drug use.

Taxes. Regardless of which party has controlled congress, our tax burden has increased consistently over the past 50 years. Most Americans pay 47% of their income in taxes in one form or another. Only a Libertarian will get to the root of the problem, reducing taxes by reducing the size of government itself.

Internet Censorship. Congress has repeatedly tried to enact Internet censorship bills which would threaten the ability of service providers to function. At the same time, the FBI has begun using technologies to snoop private email. Only a Libertarian would oppose such measures and support the idea that parents, not the government, can best protect our children.

Abortion. Politicians in Washington should not be legislating moral issues like abortion. A woman should have the right to make her own reproductive choices and bear the full responsibility of those choices.

CHARLES STARR'S PLATFORM

REDUCE the Federal Government, to bring services back to Oregonians. "If states, communities or families can do a better job than the Federal Government, I believe they should.

REFORM government, to make it responsive, responsible and efficient "Reform must start with new thinking. We can not just throw money at a problem and expect it to go away - GOOD GOVERNMENT, not more government is the solution."

RESTORE THE VALUES; honesty, integrity and trust, that made America great. "Oregonians are tired of politicians who don't have the peoples interest at heart. I'm a farmer, a grandfather and a family man. I've earned the trust of the people I represent in Salem and now I ask for your support to represent you in Washington, DC."

IMPROVING EDUCATION

"Education is about kids, not funding a Federal Bureaucracy."

Charles Starr has spent his adult life working to improve the QUALITY of education. In the Legislature, Starr voted every session for increased education funding, while calling for greater accountability, parental involvement and local control.

REDUCING YOUR TAXES

Charles Starr will:

- Support an across the board tax cut.
- Eliminate the Death Tax.
- Oppose tax hikes, including tax on the internet.

SAVING SOCIAL SECURITY AND MEDICARE Charles Starr believes that money in the Social Security Trust Fund should be used for Social Security only.

Starr will also:

Allow younger taxpayers to develop a savings plan of their choice. Insure that money designated for Medicare will provide medical services only.

Support medical savings accounts.

Common Sense, Commitment and Responsibility

Patients' Bill of Rights

David Wu co-sponsored a strong, bipartisan Patients' Bill of Rights to ensure that patients can choose their own doctors and have access to emergency care.

Protecting Social Security

David Wu: "I have fought to make Social Security more secure and to preserve and expand Medicare for everyone instead of providing huge tax cuts for the few. We must use the budget surplus to make Social Security solvent for at least 50 years."

Reducing Class Size

Because students learn better in smaller classes, Congressman Wu has worked to put more teachers in schools to reduce the average class size to 18 or fewer students.

Increasing Parent Involvement in Schools

David Wu: "I know that money is not the only solution to school problems. When parents are involved in our schools, children are more successful. I show my commitment by visiting Oregon schools, students and parents regularly."

Fighting Juvenile Crime

David Wu supported strong juvenile justice legislation to prevent young, non-violent offenders from becoming violent. He believes that non-violent juveniles should have to face the consequences of their crimes by apologizing to victims and making amends.

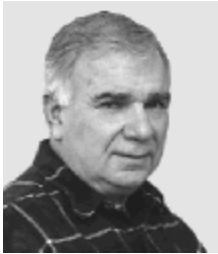

Accountability

David Wu opposed a Congressional pay raise that would go into effect before an election. The bill passed and David Wu is donating his pay raise to local education efforts.

"We're building a future guided by traditional American values of providing security for older generations and creating education and opportunity for our children." ~ **David Wu**

WALTER PONSFORD

Democrat

OCCUPATION: Farmer

OCCUPATIONAL BACKGROUND: Retired Teacher

EDUCATIONAL BACKGROUND: B.S. Western Oregon, M.S. University of Oregon

PRIOR GOVERNMENTAL EXPERIENCE: ESD member, State Advisory Council for Citizen's Review Board.

You, the voter, can choose between a self-professing conservative Republican and me, a progressive Harry Truman Democrat. I can win if people vote wisely. I will vote for no one's undeserved benefit.

I spent this summer operating my farm and traveling Second District. I have only spent a few thousand dollars while my opponent has hundreds of thousands at his disposal. When I am elected, I will owe little except to people who freely worked and voted for me.

I am concerned with greed as practiced by public and private policy makers. We pay too much for a health system that neglects over forty million working people. If we are serious, we can change the system. Everyone can have good, affordable health care. I will vote for health care change.

I believe that doctors, nurses, and their support personnel must be independent and well paid.

The public deserves to know why Americans pay the highest drug prices in the world. We must have affordable prescription medicine. If the public is being cheated, I will vote for price control. I will vote for accelerated medical research.

I will vote to make social security secure by paying back monies previously borrowed by our government.

I will vote funding for world birth control information. Abortion disturbs me, but I would not vote for any unenforceable prohibition law.

I will vote decent pay for men and women in service.

Because we spend one-half of all the world's defense funds, I will closely monitor useless, expensive military spending.

I will vote policies that stabilize small business and farm enterprises.

I will work for salaries that allow more single-wage earner families to be successful in today's economy.

I will vote for sustained timber harvest.

I will vote fair trade for jobs, agriculture and timber.

GREG WALDEN

Republican

OCCUPATION: Congressman; Small business owner.

OCCUPATIONAL BACKGROUND: Greg and his wife, Mylene, have owned and operated Columbia Gorge Broadcasters, Inc. for 14 years.

EDUCATIONAL BACKGROUND: Journalism Degree, University of Oregon; Graduate, Hood River Valley High School.

PRIOR GOVERNMENTAL EXPERIENCE: Congressman, 1999-present; Oregon legislator 1989-97.

Greg Walden...working to improve schools.

As the parent of a fifth grader, Greg is working to make sure schools have the resources they need. He's supported giving parents, teachers and local school boards more say in using federal funds. He's voted to make the federal government pay its fair share for federal mandates. To help college students, he's supported increases in Pell grants and other financial aid. He will continue to work for higher standards for all students.

Greg Walden...working to improve health care.

Greg has a strong commitment to improving access to health care. He's supported HMO reforms and is working for prescription drug coverage for seniors. He's working to make health insurance more available and affordable. He will continue to work for health care reforms that will keep our hospitals open and health care providers in our communities.

Greg Walden...working to improve our way of life.

Greg is working to open new markets for our agricultural products and to fight unfair trade practices by other countries. He persuaded three congressional committees to hold hearings in our district to learn firsthand about the unique problems we face. Greg will continue to work for Oregon-based solutions to timber, water, and natural resource issues.

Greg Walden...working to pay down federal debt, reform taxes.

Greg helped stop the "raids" on the Social Security and Medicare trust funds. He backed efforts to require a balanced federal budget and to pay down record amounts of debt--nearly \$500 billion in four years. He's working to repeal the marriage tax penalty and the death tax. Working American families deserve to keep more of what they earn.

I stand as a true voice for positive, just change. We can no longer let many of our elected officials and corporations overrun our basic rights, health and freedom while disregarding the sacredness of this planet. It's time to take back the power from the powers that be and put it back where it belongs; into the hands of the people.

Many of our elected officials remain elusive, intangible and unapproachable. Hiding behind clever wording and empty promises, when it comes time to listen to the constituents they are generally unresponsive. This country was set up by the people for the people. Yet today this country is run by corporate money and greed with the very people who are supposed to be representing the voice of the public turning their backs and allowing corporate dominance over every dimension of our lives.

The final 3% of our native forests remain. We have one of the worst education records of any industrial nation. Our prisons, landfills, and hospitals are filling up without any permanent solutions, only construction of more. Our water, air and land is latent with poisons and contaminants. Many corporations pay lower tax rates than private individuals.

We have to realize we are all an intricate part of the circle of life and we must work together to bring about positive change for this planet. Put the power back into your hands. Let your voice be heard by those who will listen. Register to vote and vote pacific green.

END POLITICS AS WE KNOW IT -- ENFORCE THE BILL OF RIGHTS

As your Representative, protecting your rights -- not bringing home pork to get reelected -- will be my top priority, in accordance with the Oath of Office to uphold the Constitution. No career politician, I will take my oath seriously. My ambition isn't power, but to return power to you and then come home.

END THE INSANE WAR ON DRUGS. US prisons now hold two million people, mostly drug prisoners. Freeing prisoners who have harmed nobody will make room for violent criminals. Limiting asset forfeitures to persons actually convicted will safeguard YOUR property and YOUR rights.

BRING THE TROOPS HOME to earn respect and security for America. No Star Wars system can shield us. The real solution is free trade with all and entangling alliances with none.

CUT THE BULL. I will work to repeal at least two bad laws for every new one passed. I will not vote for any bill I haven't read, and will oppose any bill which isn't strictly constitutional.

CUT TAXES AND SPENDING. I will expose the Big Lie of the federal "surplus," an accounting fiction achieved by raiding Social Security. Government should live within its means, tell the truth, and abide by constitutional limits. I will oppose any bill to impose new or increased taxes.

KEEP GOVERNMENT ON A SHORT LEASH. I support repeal of gun laws which empower criminals and disarm honest citizens. I support replacing the federal death penalty with REAL life imprisonment without parole.

If you do what you've always done, you'll get what you always got. Take control of your government, your money, and your life. Please send me to congress as your Representative, and Washington City may never be the same.

It's time for the people of District 4 to have a representative of the people, not a select few extremists. As a Commissioner John Lindsey is in touch with real local people with real local issues.

Education: Creativity and true local control is the only way to get results. Federal programs that reward educational failure must be replaced. John will work to remove overlapping bureaucracies and send that money home.

Taxes: Abolish the Death Tax and give it to your kids. We need to remove Social Security from the general fund and pay it back. This is a pension, not a slush fund. We need policies that encourage savings and economic growth.

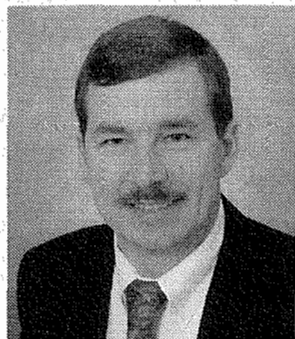

Veterans: We need to maintain our promise to the men and women who have placed themselves in harms way.

Bill Bradbury

Oregon's Secretary of State - A PROVEN OREGON LEADER

Bill Bradbury is a hands-on state executive who has a distinguished career serving Oregonians as a Legislator from the South Coast. In the past year, he has proven that he can make tough decisions in a fair, even-handed manner. As your Secretary of State, Bill has proven that he is a person of integrity who is objective and unbiased.

BETTER, SMARTER GOVERNMENT

Accountability and Efficiency

As Oregon's chief auditor, Bill ensures that **our tax dollars are not wasted.**

Fair and Honest Elections

As Oregon's chief elections officer, Bill takes a nonpartisan approach to Oregon elections. He presided over the nation's first Vote By Mail primary with the **highest turnout since 1988.**

Protecting Our Environment

As a member of the State Land Board, Bill fights to protect Oregon's natural heritage. Bill has worked hard to ensure that the owners of the New Carissa pay for clean-up costs.

Benefiting our Schools

Bill will fight to ensure that we get the highest value for our timber products to benefit schools.

A PUBLIC SERVANT OREGONIANS CAN TRUST

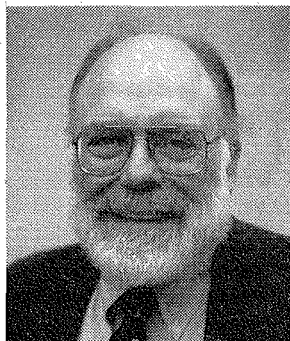

Democrats, Independents and Republicans alike are proud to endorse Bill Bradbury for Secretary of State. The following have endorsed a man who *The Oregonian* called "a political pro with a lot of integrity" (October 3, 1999) and a "quintessential consensus builder" (January 17, 1993).

PRIOR GOVERNMENTAL EXPERIENCE: 1966-1967 U.S. Navy; 1986-1994 Citizens Utility Board; 1996-2000 Clackamas River Basin Council.

A Real Choice for a Change!

We as citizens have power to make great change. In Oregon we have a history of standing up for justice, the environment and integrity in government. So why is it that over 50% of those eligible to vote are not registered, and of those who are, 23% are registered Independent? I believe this hidden majority of Oregonians have become disillusioned with the Democrats and Republicans and are disenfranchised by "the best government corporate money can buy."

It's time for real Campaign Finance Reform. It's time to take corporations out of elections. Our country was not founded on the principle "of the corporation, by the corporation, for the corporation."

When you elect me Secretary of State:

- As your chief elections officer, I will seek to enact real Campaign Finance Reform.
- I will promote using Instant Runoff in elections so we can stop voting "lessor evils" in fear, and instead vote our preferences and, by doing so, our convictions.
- As the auditor of state agencies, I will ensure that your money is spent cost effectively and services to be performed are provided.
- As one of three members on the State Lands Board, I will work to manage state owned land with stewardship and environmental sustainability.
- When addressing reapportionment, I will ensure that political boundaries are drawn respecting the integrity of our communities rather than gerrymandering districts for the benefit of Republicans or Democrats.

In this election I ask you to bring back democracy.

**ED POLE
THE ONLY TRUE CHOICE**

I will bring fresh ideas, practical management, professional attitudes, and a real concern for the taxpayer and citizen to the office of Secretary of State.

A vote for Ed Pole is:

- A vote for efficient management based on out-sourcing to private companies under competitive bids.
- A vote for real campaign finance reform with less government regulation, no tax support for candidates and parties, and real respect for the principles of the Constitution.
- A vote to stop welfare for political parties by ending tax-funded primaries.
- A vote to protect the Oregon Initiative Process from "sneak attacks", hidden agendas, secret policies, and unequal treatment.
- A vote for redistricting based on population and unity of interests not partisan politics.
- A vote to end term limits, a bad idea whose time never was, so YOU can decide who represents you.

State Treasurer

CARLOS F. LUCERO

Constitution

OCCUPATION: I am a systems analyst with a wide range of financial and computer experience.

OCCUPATIONAL BACKGROUND: Includes Dallas County until 1971

and moved to Portland, Oregon, worked for U.S. National Bank; Wells Fargo Bank; other financial institutions including various government agencies; and Tektronix.

EDUCATIONAL BACKGROUND: Includes three years at San Diego Jr. College and The University of New Mexico. I then served in the U.S. Army 73rd Transportation Division, in Europe, and the United States from 1960 to 1962. I received my honorable discharge in 1966. I joined Automation Service Center in Dallas, Texas in 1965 where I got my certificate as a computer programmer.

PRIOR GOVERNMENTAL EXPERIENCE: None, but I am deeply concerned about the lack of accountability in state government. As Chief Financial Officer of Oregon, I will concentrate on accountability to the people for the investment and expenditures of the people's money.

I am honored to be a candidate for State Treasurer of the great state of Oregon. I am a 62 year old, businessman, in Portland. Born in Antonito, Colorado, I am married to my beautiful wife Rene' and have five children, Dawn, Tina, Tony, David, and Danny. I have three grandchildren, Brittni, Blair, and Zarin.

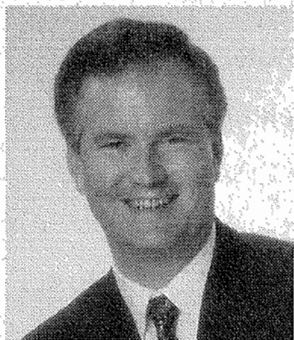

In the forefront of my convictions and beliefs are the principles of Life, Liberty, Family, Property, Constitution, State Rights, and American Sovereignty. When I read them in the Constitution Party's principles and platform, I knew I had found the party I would call my party.

I believe that we have a lot of work to do. Starting with education and bringing the country, the state, and the constitution back to the people under God. I have dedicated myself to do this, and the Constitution Party has the platform, that expresses my convictions.

What I want is clean, efficient and accountable state government. Accountability in all state agencies. Accountable to the citizens of the state of Oregon.

State Treasurer

MITCHELL T. SHULTS

Libertarian

OCCUPATION: Director, Business Development, Intel.

OCCUPATIONAL BACKGROUND: Investment and marketing professional for Intel. Co-founder of successful technology business. Senior

manager, Arthur Andersen/Andersen Consulting.

EDUCATIONAL BACKGROUND: B.A., magna cum laude, Rice University, Economics and Political Science, 1982. Wilson High School, Portland, Oregon, 1982.

PRIOR GOVERNMENTAL EXPERIENCE: Member, professional staff, Oversight and Investigations Subcommittee of the U.S. Congress' Committee on Interior and Insular Affairs, 1982.

The Best Qualified Candidate

Mitch Shults is a proven business professional with almost 20 years of experience dealing with large financial systems. He is fully qualified to work with fund managers and other personnel in a cost effective way. Mitch's campaign hasn't been bought and paid for by special interests. Close to \$55 billion of your money is held by the Treasury. If you want these assets handled by a business professional, not a professional politician, vote Mitch Shults.

Building the Common School Fund

The Common School Fund generates about \$20 million per year from about \$800 million in assets. As a member of the State Land Board, Mitch Shults will work to sell most state lands (not parks or beaches) to commercial and environmental interests. Once invested, the over \$2 billion in proceeds will generate over \$200 million every year for Oregon's children - without raising taxes. Mitch will use part of that money to finance scholarships for low-income children to attend the public or private school of their choice.

Protecting Your Money

Mitch Shults will work to:

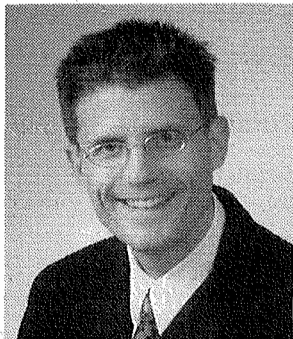

- Fully implement the tax-advantaged college savings program that the current Treasurer has failed to deliver.
- Encourage saving by eliminating State taxes on interest and dividends.
- Allow Oregonians to 'opt out' of Social Security in favor of private retirement savings accounts.
- Give Public Employee Retirement System (PERS) members the option of managing their own accounts.

State Treasurer

**LEONARD
ZACK**

Reform

OCCUPATION: Restaurant
Service

**OCCUPATIONAL
BACKGROUND:** Treasurer,
Oregon Right to Know

EDUCATIONAL BACKGROUND: Economics, University of
Oregon 1983-89

PRIOR GOVERNMENTAL EXPERIENCE: None

Oregon needs effective solutions to its problems—solutions that can be implemented on a realistic financial basis. That's why I'm running for State Treasurer as a coalition candidate for the Reform Party and the Natural Law Party. I want to unite Oregon's reform-minded voters behind crucial democratic reforms and forward-looking, prevention-oriented solutions, including

- Ending special interest control of our politics through the elimination of PACs and soft money, and prevention of lobbying by former public servants
- Cutting taxes deeply and responsibly through elimination of government waste and fraud, and through cost-effective solutions to costly social problems
- Creating a prevention-oriented health care system, as opposed to a disease-care system bought and paid for by special interests
- Protecting the environment through the development of renewable, safe, non-polluting energy sources that will end America's dependence on foreign oil and save hundreds of millions of dollars in health and environmental costs
- Safeguarding our food supply through sustainable and organic agricultural practices, and protecting family farms and our rural communities
- Promoting education that develops the full mental potential of each student

Here's how these programs can work together for your benefit. Prevention-oriented health care can cut costs by 50%, thereby saving hundreds of millions of dollars that can be reinvested in education, environmental protection, and other critical social programs. Likewise, effective crime prevention, renewable energy sources, sustainable industries, and elimination of government waste can create new revenues that will help create new jobs, build a stronger Oregon, and reestablish our reputation as a pioneer among the U.S. states. As State Treasurer, I will ensure that our present financial resources are wisely invested and that new, effective revenue-generating programs are quickly explored and implemented. Please join me. Together, we can secure a more prosperous future.

OCCUPATIONAL BACKGROUND: database architect, information management consultant,

EDUCATIONAL BACKGROUND: BA Behavioral Science, College of the University of Chicago, 1986 with honors

PRIOR GOVERNMENTAL EXPERIENCE: none.

Fully Informed Juries

Under the Oregon Constitution, every jury has the right to judge both the facts and the law of a case. Every juror has the right to vote Not Guilty if he or she disagrees with the law, regardless of the facts. This prevents the government from enforcing laws that the citizens don't believe in. I will direct my staff to inform every jury of this right.

Asset Forfeiture

My office will not pursue asset forfeiture cases except when criminal charges are filed, and will only allow forfeiture upon criminal conviction. We will only seize assets when they pose a flight risk in criminal cases, and will only seize those assets named in the criminal charges. We will prosecute any police officer or agency that seizes and confiscates property without due process, in violation of the Fourth Amendment of the Constitution of the United States.

Harm During Warrantless Searches

My office will prosecute any law enforcement officer or agency that wrongfully harms any person during any warrantless search. We will seek restitution for that harm and for any property damaged during wrongful searches.

Focus on Violent Crimes

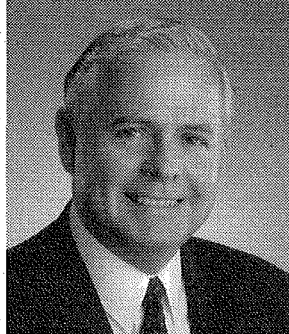

My office will set as its goal that every violent crime be prosecuted fully, and without plea bargains. Given our limited resources, we will shift all effort away from crimes that have no victim, toward crimes that threaten life and limb.

Official Corruption

I will create a continuing task force to investigate any reports of corruption on the part of the state's elected and appointed officials. It is only fair that the people who create and enforce the laws should be the first ones expected to live by those laws.

"During the legislative debate on her gun show bill, Burdick told lawmakers that if they didn't pass it she would travel the initiative route and ask voters to do what the Legislature refused to do. True to her word, she filed her initiative..."

Eugene Register-Guard, 11/13/99

"Lawmakers failed to pass a modest gun show bill, and now voters fed up with violence must take the initiative... Sponsors of the gun show bill in the Legislature, including Sen. Ginny Burdick, D-Portland, and a broad coalition of law enforcement groups, have filed an initiative..."

The Oregonian, 12/3/99

Willamette Week, 7/14/99, rated Senator Ginny Burdick, "Excellent."

Ginny Burdick's initiative -- now Measure 5 -- is supported by law enforcement officials, physicians, responsible gun owners and others. Join them in voting YES on Measure 5 to close a dangerous loophole in Oregon law -- a loophole that allows criminals and juveniles easy access to guns.

Democrat

OCCUPATION: State Senator

OCCUPATIONAL BACKGROUND: Family and Juvenile Law Attorney; Women's Rights Advocate; Portland State University Instructor

EDUCATIONAL BACKGROUND: University of Colorado, B.A.; Northwestern School of Law, Lewis and Clark College, J.D.; Environmental Law Certificate; Senior Executive Program, Kennedy School of Government, Harvard

PRIOR GOVERNMENTAL EXPERIENCE: State Representative 1991-1996; State Senator since 1997; Senate Democratic Leader since 1998; Chair Juvenile Code Revision 2000; Commission on Indian Services

KATE BROWN EFFECTIVE LEADERSHIP FOR PORTLAND

"Brown has played the role of conciliator while managing to get more done than most Republicans."

Willamette Week, July 14, 1999

Working for Stable and Adequate Funding for Schools

Kate Brown will continue to lead the charge for stable and adequate funding for Oregon's schools while working to ensure our students meet the high standards we've set for them. She supports creating a teaching environment with zero tolerance for drugs and violence so our kids are safe in their schools.

Fighting for Health Care Reform

Kate Brown sponsored a comprehensive Patients Bill of Rights. Kate believes health care decisions should be made by patients and their doctors, not insurance company bureaucrats. Her bill would have given patients who are unfairly denied coverage options to make sure they get the treatment they need.

Ensuring Equality and Civil Rights for All

Kate Brown will speak out against all forms of racism and discrimination. She will make sure all Oregonians continue to have access to reproductive freedom.

Protecting our Environment while Working for a Strong Economy

Kate Brown will balance the need for jobs and a strong economy with preserving our beautiful natural environment. A long-time advocate for responsible use of natural resources, Kate will work hard to ensure businesses can thrive without sacrificing our quality of life.

WHITNEY SMITH

Pacific Green

OCCUPATION: Asbestos Removal

OCCUPATIONAL BACKGROUND: Asbestos Remover 12 years

EDUCATIONAL BACKGROUND: GED, Trade School

PRIOR GOVERNMENTAL EXPERIENCE: None

Corporations pay lower tax rates than most human beings do. They fund our elections with some of the money they save, then get the politicians to dole out millions of dollars in corporate welfare and to set unfair tax rates after taking corporate campaign contributions. **This cycle corrupts the democratic process** and has to change for social justice to take place on numerous other issues. A new system of progressive State income taxes, public financing of elections, and eliminating corporate welfare subsidies will make Oregon a better place to live. Exposing this vicious cycle and the way to end it is the main reason I am running for office, but I want to do more.

As your State Senator, I will also work to

- Make the minimum wage a **LIVING WAGE** of at least \$10.00 an hour.
- End old growth logging. Replace clear-cutting with selective thinning to help protect our forests and preserve jobs. Use industrial hemp to reduce the demand for pulp fiber from trees. **SAVE EAGLE CREEK!**
- Promote Universal Health Care. Make the HMO's pay back money they got from overcharging the State and use it to help expand the Oregon Health Plan.
- Stop funding our schools by turning the working poor and middle class into compulsive gamblers with State-sponsored video poker. Use progressive property taxes to help fund our schools instead.
- Create police accountability. I favor a strong elected civilian review board with subpoena powers, the ability to conduct independent investigations, and the final say in cases of misconduct.

If you want a progressive **pro-labor, pro-environment, anti-corporate welfare** State Senator that speaks in clear terms about real solutions to real problems, **please vote for Whitney Smith.**

ROY BURKETT

Constitution

OCCUPATION: Pastor and Hearing Aid Consultant

OCCUPATIONAL BACKGROUND: Sales; Field Service; Design Engineer; Production Tech

EDUCATIONAL BACKGROUND: Portland Public Schools; BA, California Baptist College; BSEE, Portland State University

PRIOR GOVERNMENTAL EXPERIENCE: Chairman of Board for NE Portland HomeSchoolers, and for OCEANetwork (a statewide home education assoc.); lobbyist in Salem and Washington, DC

Roy Burkett: an independent thinker with an open mind

on Campaign Finance Reform: Limited Government attracts no great manipulations (big government and high taxes excite "self-preservation" and groups wanting "their share").

No dollar vote without a ballot vote.

Only eligible voters may contribute. No contributions from Corporations or Unions.

Full & Timely Disclosure of all contributions.

on Taxation: Families must be allowed to keep more of their earnings
-to invest wisely -to be generous to those in need
-and so the economy can grow.

Abolish the most regressive of all taxes: the Lottery. Government-sponsored gambling blights our good state, taking most from those who have least.

on Welfare:

Oregonians (like all Americans) are generous. Why confiscate money from honest citizens to give only a fraction to those in need? Ramp down and abolish state-funded welfare. **ESPECIALLY CORPORATE WELFARE.**

Encourage private and faith-based options.

on Education: The sorry state of school funding and the continual political tug-of-war on curriculum and extra-curricular issues give ample indication that the Union of School and State is ill-conceived. None of the men whose faces adorn Mt. Rushmore attended state-run "public school."

Let's rethink our assumptions about education, and encourage private vouchers.

Freedom is NOT an Easy Discipline; with rights come responsibilities.

Are we still capable of governing ourselves as a free people?
Will we stand on our own two feet and meet our own needs?
Or will we be enthralled by politicians playing Santa Claus?

There is NO SUCH THING as a FREE LUNCH.

EDUCATIONAL BACKGROUND: B.S. Administration of Justice, Portland State University; Program for Senior Executives in Government, Kennedy School of Government, Harvard University; Pacific Program, University of Oregon; Senior Fellow, American Leadership Forum

Dear Citizens,

We have the potential to be "one state, one beloved community" that embraces and takes care of all its people. Yet what happens when whole communities, our most vulnerable citizens, and especially our children are left out of Oregon's prosperity? No one should be left behind. We are better than that.

As a citizen legislature, bipartisan cooperation is required to adequately address Oregon's needs. Old-style partisan politics cripple our efforts to address budgeting and human needs. We have begun to bridge the rural-urban divide through economic and community development partnerships. We must have public servants who serve the greater good and include those voices that have been historically marginalized or ignored.

I will continue to advocate for a quality, non-racist education for ALL Oregon public school students; to work for equity in distribution of taxpayer dollars to urban and rural economically distressed communities; to ensure that state agencies are more aggressive in achieving affirmative action progress; and work to achieve access to justice for all.

We must reject initiatives on this November ballot that keep us from being a beloved community. We cannot afford to do less than this for the sake of ALL Oregonians.

It is an honor to serve you in the Oregon legislature.

CHRIS GORSEK: DEDICATION TO ISSUES WE CARE ABOUT MOST

SAFER SCHOOLS AND NEIGHBORHOODS

"As an educator and former police officer, Chris understands that reducing crime means a smart blend of prevention and toughness. He believes we should do more to keep guns out of the hands of criminals and children; that's why he supports common sense gun safety measures like requiring criminal background checks at gun shows. He has my full support." Sergeant Mark Schrake, Police Officer

AFFORDABLE HEALTH CARE

"Chris will fight to increase access to health care and supports a Patients' Bill of Rights to put healthcare decision back in the hands of doctors and their patients, not insurance companies. He'll work to make prescription drugs more affordable to seniors." Helen Otto

JOHN MINNIS

Republican

OCCUPATION: Detective Sergeant

OCCUPATIONAL BACKGROUND: Jet mechanic, U.S. Air Force and Oregon Air Guard; Apprentice machinist; Reserve Deputy Sheriff, Multnomah County; Police Officer; Detective Sergeant, Portland Police Bureau

EDUCATIONAL BACKGROUND: Madison High; Attended Portland State University; Portland Bible College and Eastern Oregon State University

PRIOR GOVERNMENTAL EXPERIENCE: State Representative, District 20; Appointed 1985, elected 1986, 88, 90, 92, 94 and 96; Co-Chair, Ways and Means committee, 1993 and chaired Judiciary 97. Served on Rules, Housing, Emergency Board, Transportation, and Public Safety subcommittees of Ways and Means. Elected precinct committeeman.

John Minnis on Education:

Education is the single largest budget the Legislature funds. Taxpayers deserve to know their money is spent wisely. Our children deserve a quality education. While serving seven terms in the House of Representatives I fought for adequate funding, educational choices, and a system of accountability that measures our schools' strengths and weaknesses.

John Minnis on Protecting Our Community:

As a veteran police officer, child abuse and homicide detective, I know well the devastating effect crime and violence has in our communities. We must work together with every community to provide safety for our children, senior citizens and domestic assault victims. I have voted consistently to reduce the incidence of crime through legislation that preserved victims rights and keeps violent criminals and repeat offenders behind bars, that's why Crime Victims United of Oregon has endorsed me.

John Minnis on Safeguarding Tax Dollars:

Like families, government must live within its means. As Co-chair of Ways and Means in 1993 I made difficult choices under tremendous pressure from bureaucrats. I learned to establish priorities, remembering that taxpayers have an enormous tax burden. I will continue to make responsible decisions about our state budget and insure funding of necessary programs.

John Minnis is endorsed by: Councilor Rod Park, Mayor Chuck Becker, Mayor Rodger Vondaharr, State Senator John Lim, Reynolds School Board member Bob Neibert, Sheriff Dan Noelle and Sheriffs of Oregon

Board membership: Juvenile Service Commission; Student Retention Initiative; Governor's Children Task Force; Oregon Correction Association.

People (voters) need a choice.

The 1999 Republican legislature passed more laws than any in the history of Oregon. Their motto "less government" rings false when the majority were directed toward controlling the individual and anti-environment. I want to aid the Governor in his fight to protect our way of life.

Schools

Stronger school support from local and State government. Public schools are an integral part of the total emotional system of the community support of the family and child.

Environment

Stop any more restriction of State land use regulations.

Transportation

Statewide first priority - public transportation.

Family law

Funds are needed for early intervention not detention. Criminal justice should encourage preventive programs.

Oregon Health

I support funding which provides care for the poor, elderly, and children.

Doctor assisted suicide and pro-choice

I believe in the right of the individual to make decisions on these issues.

As a Senator, Vern Cook was always one of the strongest supporters of the welfare and rights of working men and women as well as small business people, farmers and ranchers! He will continue to do so if elected again! He will fight for more and better jobs and improved health care for our people.

Unlike his opponent, VERN COOK is not hiding his positions on the issues nor is he beholden to major corporate interests!

EDUCATION is a top priority of VERN COOK. 'We must improve the quality and teaching skills of our teachers and the methods used to teach; and reduce class sizes. Money is only a part of the problem. We must have dedicated teachers so that our children have the best education possible!'

VERN COOK is a strong supporter of the Initiative and Referendum but he opposes Measures 91, 93 and 8 which tie the hands of the people and the legislature in matters relating to taxation and spending. Supreme Court Justice Oliver Wendell Holmes said 100 years ago, 'Taxation is the price of civilization.' Those measures must be defeated.

VERN COOK supports the Oregon Health Plan. He supports price regulation of prescription drugs to cure the abuses of the Drug Industry.

VERN COOK supports the people's right to use our ocean beaches and the beds and banks of navigable streams! 'We must encourage sustained yield forest practices in our federal forest lands. We must protect Oregon's air quality, particularly in the Columbia Gorge and our wildlife and salmon through improved management practices and habitat enhancement.'

Dear District 29 Voters;

In this first election of the new century, your vote will determine the future of our district. It saddens me to know there are many who will not vote in this election. It further saddens me that there are those who are not even registered to vote. With obvious apathy, we are forsaking our rights, our heritage and our futures.

We must change this state of mind. I have made a vow to myself and make a promise to you: that your vote will always count; that your voice will be heard; and that you will be treated with dignity and respect.

The truest power a citizen has is their vote. The truest power a legislator has is the trust and confidence placed in him by those he or she serves. Common sense and integrity are the tools that legislators must use in representing their constituents. If we are to renew our faith in our country and its leaders, we must have leaders that embody the views of the citizens they represent.

The 21st century holds a new start, a way and a hope for a return to honest politics, common sense solutions and bold creative leaders. There are no unsolvable issues. There are no insurmountable tasks. I will find the keys that will unlock the gridlock in our legislature because I believe those keys are common sense, moderation and, above all, integrity. You have my solemn promise. All I need is your voice, your support and your vote.

Sincerely,

Bill Duncan

STEVE HARPER

Republican

OCCUPATION: Small business owner, XL Dry Cleaners.

OCCUPATIONAL BACKGROUND: Executive Vice President Klamath County Chamber of Commerce 1994-1996; Commander Kingsley Field, Oregon Air National Guard, 1984-1993; United States Air Force, 1963-1984.

EDUCATIONAL BACKGROUND: Bachelor's degree, Rural-Urban Studies, University of Nebraska, USAF Command schools.

PRIOR GOVERNMENTAL EXPERIENCE: State Legislator, 1997-2000.

Harper's experience as commander of the Air National Guard base in Klamath Falls capped a military career that included two combat tours in Vietnam. He chose to live in Eastern Oregon for the reasons you live here - the land and the people.

Harper's years of military service helped hone his **LEADERSHIP** skills. Harper proved his abilities in the private sector by revitalizing the Klamath County Chamber of Commerce. Republican peers elected him to serve as Majority Leader in the 1999 session demonstrating his ability to "get things done". Our District deserves the superior leadership he can deliver.

Harper wants our district to **PROSPER** by preserving and expanding our jobs and business base. Our natural resource based economy is under assault from people that don't live here. Harper knows we can have a sound economy and a healthy environment. That's what he will fight for.

Harper believes **GOOD GOVERNMENT** is effective, efficient, responsive and responsible. A civilized society demands certain functions be provided public safety and welfare, education, infrastructure, etc. Most government provided services should be subject to free market competition, with appropriate oversight and monitoring. Only then will we have the confidence those services are provided in the most effective and efficient manner possible.

"Steve Harper has served two terms in the Oregon House of Representatives and has been elected Majority Leader by his peers. He is well qualified to represent agriculture, small business, and every citizen in District 30. I would urge you to make Steve Harper your choice for Oregon State Senator."

Former Congressman Bob Smith

Debra James-Let Your Voice Be Heard In Salem!

Working to bring the issues that concern the residents of District 30 to Salem. She's not a lawyer or a politician, just someone wanting the best for the citizens of Oregon.

She wants education to be a top priority. The children are our future and deserve the best education we can provide them. She will work to reduce the over crowding of the classroom, purchase updated books, and push for more funding for higher education.

She believes that dental health care is lacking among the citizens of Oregon. Statistics show that 51 million school hours are lost and 164 million work hours are loss each year in the U.S., all related to dental disease. She will work to bring total health care and dental care to Oregonians.

She believes crime prevention cannot be purchased with gun control. The threat of harsh punishment should be the deterrent of crime. Firearm related crimes should carry maximum sentencing.

OCCUPATION: Service Manager THE DOOR WORKS CO.

OCCUPATIONAL BACKGROUND: Small business owner, Hotel/Restaurant Management

EDUCATIONAL BACKGROUND: Middlebury College BA Economics

PRIOR GOVERNMENTAL EXPERIENCE: Columbia County Charter Committee

Community Service: Nursing home visitation 24 years, Boy Scout Committee 1992 - present, Sponsor Little League 13 years, St. Helens Lions 1995-present, Columbia County Taxpayers United - Executive Board, Scappoose 'City of Character' project - Chairman

As a husband, father, and grandfather, I care deeply about the condition of society. I want to improve life in Oregon for all individuals and families.

As your State Representative I will -

DEFEND OUR FREEDOMS

The **Constitution Party** recognizes that true Liberty comes from God and real Freedom is born of self-government. The choice is ours - sturdy individualism or dependency. I will strongly defend property rights and gun owner rights.

IMPROVE OREGON SCHOOLS

I will advance legislation called the **Community Schools Act** that will free-up and empower our local School Boards by allowing them to opt out of the Oregon School Reform CIM, CAM, and other mandates. Locally directed education puts responsibility where it belongs - on the parents. The real winners will be our children.

PROTECT OUR PRIVACY

New information technologies allow unprecedented invasions of our privacy by those who buy and sell personal information - credit history, buying habits, medical records, financial status, etc. Powerful commercial interests want to continue this profitable 'peeping Tom' activity. We can stop them.

DISCIPLINE STATE BUDGETS

I will dare to look into the belly of the beast, apply efficiency analysis to state programs, and get more mileage out of your tax dollars.

KEEP RESPECT FOR HUMAN LIFE

Abortion is the ultimate child abuse and if there is any justice, a day of reckoning will come. You can trust me to de-fund this disgrace.

I WILL MAKE IT A PRIORITY TO HELP MY CONSTITUENTS RESOLVE THEIR PROBLEMS WITH STATE AGENCIES.

OCCUPATION: Aviation Executive

OCCUPATIONAL BACKGROUND: VP, Legislative Affairs, Oregon Pilots Association; Manager, Aeronautics Division, ODOT; Owner/President, Transwestern Helicopters, Inc.

EDUCATIONAL BACKGROUND: Public Elementary School, Redmond, Oregon; St. Helens Hall, Oregon Episcopal Schools, Portland, Oregon; Carleton College, Northfield, Minnesota (BA, History); Northwestern School of Law, Portland, Oregon (JD)

PRIOR GOVERNMENTAL EXPERIENCE: Commissioner, Port of St. Helens; Former Director, Federal Reserve Bank of San Francisco; Former Director, Columbia County Health District Board; Past President, Columbia County Economic Development Committee; Former Member, Citizen's Planning Advisory Committee

For many years I have been involved in numerous local civic, community, and political activities. I believe working on practical solutions to community problems and ways to capitalize on opportunities has given me the experience to effectively serve the people of Columbia and Clatsop Counties in the Oregon House of Representatives.

For nearly twenty years I owned, operated and flew for a small helicopter company in Scappoose, so I know what it means to have employees, meet a payroll, and deal with the taxes and regulations that apply to a small business.

After the helicopter business was sold, I was selected to manage the State Aeronautics Division of the Oregon Department of Transportation, where I learned and practiced public budget-making, planning, hiring and directing public employees and dealing with the legislative process.

Negotiating with other agencies, legislative committees, local governments and a variety of citizen groups gave me real world experience in making government work. I've learned first-hand what government does well. I've also observed areas where government could and should improve.

Oregon faces serious challenges that require thoughtful consideration, not the least of which is how to restore confidence in our state government. I have the experience, the energy and the integrity to make a worthwhile contribution to the State of Oregon. With your vote, I will do my best to be an effective voice for you as your Representative in the Oregon Legislature.

DON MCDANIEL

Libertarian

OCCUPATION: Accountant and College Instructor

OCCUPATIONAL BACKGROUND: Electronics and Training duties in the U.S. Air Force and with the Iranian Air Force; established and operated a successful tax practice; operated a motel; and have taught college business, accounting and economics courses.

EDUCATIONAL BACKGROUND: BA, Univ. of Maryland; Bachelor of Accounting Science and Master of Business Administration, Univ. of Puget Sound, Tacoma, Wash. Graduate of various military electronics, management and instructor courses.

PRIOR GOVERNMENTAL EXPERIENCE: Commissioner, Port of Astoria; member Clatsop County Economic Development Council, Northwest Oregon Area Commission on Transportation and Northwest Oregon Economic Alliance; and participant in the Business & Management Certificate of Advanced Mastery project.

In the Air Force I dealt with problems familiar to us now such as budgeting for the operation of large organizations, upgrading complex communications systems, training and educating personnel, and coordinating projects with people of diverse backgrounds.

For too long voters have had no real choice. Although the two major parties display some differences, they both have imposed more and more taxes on us and have increased the scope of government to such an extent that we have lost many of our personal freedoms. They have reduced our ability to make personal choices and discouraged the exercise of personal responsibility. It is time to shrink government programs back to those enumerated in the U.S. Constitution.

As to local and regional issues, my main priorities will be in the areas of preservation of the environment, improvement of our educational system, upgrading our transportation infrastructure, and economic development and job creation by encouraging the development of small businesses and the relocation of high-tech businesses to our district while protecting our remaining traditional jobs.

With my extensive experience in both government and business I feel I have an excellent background to represent the people of this district.

COMMUNITY SERVICE: Tillamook Chamber of Commerce Board Member; Confederation of Oregon School Administrators; American Association of School Administrators; School Funding Coalition; Rotary; Tillamook County Juvenile Services Consortium.

A LIFETIME OF ACHIEVEMENT A VISION FOR THE FUTURE

EDUCATION: Elaine believes passionately in public education and its impact on the future of all of our lives. She has the experience to understand the system, support programs that lead to student achievement and success, and identify the changes that need to occur.

NATURAL RESOURCES: Our communities depend on natural resources, and must live with the products of our land and waters while maintaining their viability for continued production for the future. Elaine knows that to balance these two takes constant scrutiny and adjustment to changing conditions, and she will work to maintain that critical balance.

SENIORS: Elaine will work hard to protect seniors and provide them with healthy living. Whether it's public safety or keeping health care costs in check, she will support the folks who have given us what we now enjoy.

PERSONAL STATEMENT:

I have been honored to serve the citizens of District 2, and I believe that I have established a record of experience, knowledge and integrity. I weigh and evaluate information from all sides to make balanced and informed decisions. As your representative, I will continue to work tirelessly with a wide variety of interests to find common ground and resolve the difficult issues that are facing us.

FAMILY: Married 29 years to trucker/farmer Allen Waldron; 5 grown children; 9 grandchildren, member First Baptist Church.

DIANE WALDRON OPPOSES RIPARIAN SETBACKS Landowners are being told they should voluntarily give up control of 20 to 75 feet adjacent to any waterbody or stream on their property. This is called "Riparian Setback". Supposedly the N.E.P. (National Estuary Project) has given us "specific direction" to do this, based on the assumption that lack of brush along water is causing the decline in salmon. There is no supportive data. County and state officials should demand proof, and should claim tenth amendment rights (powers not delegated to the "Feds" are left unto the states), and fifth amendment rights (just compensation for taking of land.)

DIANE WALDRON SUPPORTS THE 2ND AMENDMENT

DIANE WALDRON SUPPORTS "KICKER" Taxes raised that exceed the budget should ALWAYS be returned to the people.

DIANE WALDRON OPPOSES ADDITIONAL FUEL TAX ODOT (Oregon Department of Transportation) needs no further funds when they are spending only 1/4 of the \$ they receive on roads. The rest goes for a bloated staff of 5,000 who do NOT build roads, and for such frills as bike paths.

DIANE WALDRON ON EDUCATION Curriculum should be subject to local control, not state or federal. It is time to do away with the costly experiment of OBE (Outcome Based Education), the failed social experiment by our Oregon legislature in 1991.

DAVID HINTZ

Libertarian

OCCUPATION: President, Pacific Outpost, Inc. (1998-present).

OCCUPATIONAL BACKGROUND: Service industry sales and management (1990-present). Sgt., US Air Force, (1984-90).

EDUCATIONAL BACKGROUND: Benson Union H.S., Benson, AZ (1982). Coursework in Earth sciences taken at various military facilities.

PRIOR GOVERNMENTAL EXPERIENCE: State Committee, Libertarian Party of Oregon (1997-99). Vice Chair, Libertarian Party of Washington County (1998-99).

DAVID HINTZ - A RATIONAL APPROACH TO GOVERNMENT

Education. Government Schools are one of the few things in our society where costs have gone up while quality has gone down. Any school system run by politicians on tax dollars will ultimately be driven by politics more than education. In our pluralistic society, government schools have proven less and less able to meet the education needs of our diverse children. It is parents, not politicians, who should determine the course of a child's education. Oregon's charter school bill didn't go far enough. David Hintz will work to unleash the creative energies of the free market and parents, with respect to education.

Economy. Small businesses bring prosperity to the common man and woman. They create jobs, enable people to control their lives and make up the working fabric of our communities. As your state representative, David Hintz will fight to lower taxes and reduce crippling regulations which can stifle small businesses.

Public Safety. David Hintz would return police officers to their primary duty of stopping violent criminals who prey on you and your loved ones. This would be accomplished without raising taxes by shifting existing resources toward fighting real crime. An undue emphasis is currently placed on fighting so-called consensual crimes, driven by politicians and social engineers. This strategy has proven to be ineffective and it undermines our personal freedoms.

David Hintz supports an approach to government which respects the ability of people like you to live your life according to your desires and goals - not those of government.

"I have looked carefully at both candidates, and **Charlie Ringo** is the best candidate to ensure the highest quality education and results for our students and our schools." **Marlene Payne, Beaverton Education Association.**

- Cut costs of prescription drugs for seniors on fixed incomes.
- Ensure available, affordable health care for all.

"**Charlie Ringo** will join me in fighting for affordable health care for Oregonians." **Senator Ron Wyden**

Protecting our Quality of Life

- Support common sense safety measures to keep guns out of the hands of kids and criminals, like criminal background checks at gun shows.
- Make sure developers pay their fair share for new schools and roads, rather than leaving taxpayers with the bill.
- Enforce the laws that protect our clean air and clean water.

PRIOR GOVERNMENTAL EXPERIENCE: State Representative 1999-Present, Member- Revenue, Commerce and Judiciary Committees; Republican Nominee US Congress- 1994, 1996.

As your representative, I have used my business and community experience to work for common sense, non-partisan solutions to challenges facing Oregon.

- **PROMOTING EDUCATIONAL EXCELLENCE**

I have been a leader in increasing funding for our schools while also increasing accountability in how dollars are spent. I support smaller class sizes, charter schools, and stronger funding for K-12 and higher education.

- **IMPROVING OREGON'S HEALTH CARE SYSTEM**

I passed a bill to provide a tax credit of up to \$500 for long-term care insurance. I support policies to reduce drug costs for seniors and protect the viability of the Oregon Health Plan.

- **REDUCING THE TAX BURDEN**

I fought to return the kicker to taxpayers, to bring tax relief to middle class taxpayers and to force government agencies to eliminate wasteful spending.

- **ADDRESSING CRITICAL TRANSPORTATION NEEDS**

I support immediate efforts to widen the Sunset Highway and Highway 217. We need to invest now in building up our road system.

- **ENHANCING OREGON'S ENVIRONMENT**

My efforts led to Oregon's first pesticide reporting system, designed to provide information needed to clean our streams and rivers. The Oregon League of Conservation Voters

awarded me the highest ranking of all 51 legislators from my party.

- **DEFENDING OREGON'S FAMILIES**

We need to protect families from excessive taxes, preserve parental rights and responsibilities, and respect the values that made America great.

I am endorsed by a broad cross section of business, labor, health care, and professional organizations.

I will continue to seek non-partisan common sense solutions to Oregon's problems.

COMMUNITY INVOLVEMENT: Beaverton Chamber of Commerce; Beaverton Chamber of Commerce Education Committee; Sunset Presbyterian Church

"Some people are lucky because they're born into wealth and raised with all the privilege money can buy. Others, like me, are lucky because we were raised in Oregon with all the values money just can't buy. Values like clean air and clean rivers, strong families, and a strong education make Oregon what it is. And they are worth fighting for in the legislature."

-- Mark Hass

Mark Hass believes the Oregon values he grew up with have been eroded and that the state's once nationally recognized education and transportation systems are drifting backwards.

Education

Our children need a solid education from pre-school through college. That means stable funding and accountability for how our money is spent. Mark has demonstrated his commitment to education by founding one scholarship program and serving as a trustee on another.

Livability

Mark grew up hiking and biking around Washington County. He values an Oregon of clean air and clean water. Mark will work for a highway system that moves families and products safely and efficiently.

Economy

Oregon's economy is strong and we need to make sure it stays that way. That means keeping tax rates down and keeping businesses strong. Mark has been working to link Washington County technology companies to schools. He believes a strong economy and a quality educational system go hand in hand; you can't have one without the other.

OCCUPATIONAL BACKGROUND: Board of Directors: Portland Baroque Orchestra, Artquake, UO Chamber Music Series, volunteer: Portland Rose Festival, NARAL, Oregon Tax Payers for Choice

EDUCATIONAL BACKGROUND: BA Oregon State University; San Francisco State University; Lewis and Clark

PRIOR GOVERNMENTAL EXPERIENCE: U.S. State Department; Peace Corps Volunteer, Nicaragua

Optional Information: 5th generation Oregonian; Resident of District 11 for ten years.

It is the private, productive economy, it is not government that is the key to Oregon's prosperity and future. The new economy demands progressive, non-partisan decisions that benefit and protect all Oregonians.

Oregonians are concerned about the recent performance of our elected officials. Fragmented, unfocused and partisan, we must elect representatives that can provide solid leadership and produce measurable results.

The state of Oregon has a history of seriously underfunding education. Complacency on this issue cannot continue. Oregon spends about \$91 per person on its universities while the rest of the nation spends an average of \$122. We cannot afford to lag behind other states in making a deliberate commitment to investment in Oregon public schools- K-16. For the last 20 years I have raised money for diverse, not-for-profit organizations. In the last 5 years as a fundraiser I have been responsible for raising over 7 million dollars to enhance funding for public education from the private sector. I support restoring sufficient levels of state funding for schools K-16.

Oregon government's should tax no more than necessary to provide for the important investments (education, highways, and the environment) that the private market cannot provide.

What is important to the state doesn't have to do with "Republican" or "Democrat," but with protecting individual rights and liberties, strengthening our schools, preserving our natural resources, and making decisions which protect and support our children and families. I will be a moderate, non-partisan voice to work on issues important to you.

This time, elect a citizen. www.joangardner.com

- Invest urban infill funds before further expanding the Metro urban growth boundary.
- Reclaim misappropriated voter approved Measure 66 funds to expand our state parks system.

LEGISLATION FOR BETTER LIVING

Improve Livability. Portland's pollution problems are caused by density, a consequence of Oregon's land use laws which prevent sales of rural land to ease over-crowding. Let's remove these laws and discourage ticky-tacky apartment developments without green space (This kills local ecosystems).

Efficient Mass Transit. In Curitiba, Brazil, ten private bus lines serve 75% of the population. TriMet serves only a few percent. Let's improve transit efficiency and air quality by removing laws forbidding competition.

Better Schools. Competition and diversity will improve the quality of education, without hurting public schools. An incentive plan is needed for education providers and a tax credit plan is needed for families who seek school choice.

Family-Friendly Law. Push legislation to reduce legal adversity in family law, with joint custody in divorces. Children need the love and wisdom of both parents. Systematically decrease funding to agencies that disrupt good families.

Civil Rights. Legislators should eliminate bad laws that imprison good citizens for victimless crimes. By eliminating bad laws, we say "NO" to special interests, "NO" to social engineering agendas, and "NO" to more prisons.

YOUR TWO CENTS WORTH

Let's push for a 2 percent tax deduction for active voters in order to promote voting and dissuade apathy against our state and country.

WHAT TO EXPECT

As a Libertarian, I will also oppose the War on Drugs, fight for your right to self defense, and work to cut taxes. Phase out welfare as charities become prepared.

ADVOCATE FOR YOUR RIGHTS

If elected, I would warmly welcome all voters' views. However, I would be a living nightmare for politicians or agencies violating your Constitutional rights. I'm on your side!

JEANNE SCHOEL

Republican

OCCUPATION: Executive Director,
Metropolitan Business Association

OCCUPATIONAL BACKGROUND: 35 years of business experience, the last 14 in organization management.

EDUCATIONAL BACKGROUND: B.S., University of Oregon; Graduate, Institutes for Organization Management, Stanford University/US Chamber

PRIOR GOVERNMENTAL EXPERIENCE: None

I believe most Oregonians share my goals of a healthy economy based on private enterprise, a conscientious approach to a well rounded education for all our young people, and citizens who are free to make their own choices and are able to take responsibility for their own lives without dependence upon government programs.

- We must support private enterprise. In a healthy economy, private industry is the primary provider of jobs; people with jobs have the opportunity to move away from dependence upon government programs. Therefore, private industry must be permitted to operate without undue governmental interference so it can continue to provide jobs and benefits for its employees.
- We must recognize there are limits to government's ability to provide services and programs. It cannot and should not attempt to be all things to all people. Government should only be called upon to provide services the private sector cannot.
- We must lock in funding to provide education for our young people that not only ensures effective teachers, but includes creative and character building curriculum, health education, and critical thinking along with traditional reading, writing and math skills.
- We must guarantee the right to individual choice without government control.
- We must make tough decisions to preserve our environment while maintaining economic stability.

My goal as your representative will be to set aside political partisanship and work with fellow legislators for solutions to these and other issues. I look forward to taking an active role in our government, emphasizing personal responsibility and accountability, in order to insure that the positive future we see for our State is secured.

Creation of citizens and constitutional law are the two major issues which affect the fabric of our communities today.

Our current educational system turns out Oregonians who lack critical thinking skills and the basic tools for gathering information. If my assertion seems inaccurate, scan this voters pamphlet. It is filled with ballot measures and candidate mission statements which promise to dismember the Constitution. Without an accurate knowledge of history, well meaning individuals are attempting to destroy the very safeguards which protect us all.

I do not advocate the destruction of public education in America. The system is already breaking down under its own politically correct weight. The best and brightest teachers are being driven out of the profession by administrative impediments. It is time to recruit the forces of home schooling, charter schools, etc., to advance models of education which are working.

We must stop our legislators from creating a miasma of ill conceived and unconstitutional statutes. The Oregon Constitution has become cluttered with verbiage which belongs in the Oregon Revised Statutes. The Oregon Revised Statutes have become incomprehensible. Enigmatic law baffles citizens and administrative authorities attempting to determine appropriate behavior. Unclear ordinances allow dangerous criminals to walk the streets, while those accused of victimless crimes and innocent citizens are put at risk. Statutes must be clear in order for citizens to cooperate with their intent. Statutes must provide executive authorities with unambiguous guidance.

Before voting for me, please read The Constitution, and The Bill of Rights.

PRIOR GOVERNMENTAL EXPERIENCE: None

My name is **David Tillemans** and I am a candidate for **State Representative District 16**.

I am running mainly on these three issues:

- 1) **More Funding for the Schools** in my District.
- 2) **Affordable Health Care for All Oregonians.**
- 3) **Campaign Finance Reform.**

As a father of two young boys, I am very concerned with the first issue mentioned above. Last year there was talk of ending such programs as music and physical education in our school district. This kind of talk shouldn't be happening in the era of video poker revenue.

This is the first time I have ever run for public office and although I don't have all the answers to my districts problems at this time, **my opponent**, who is the **incumbent**, well educated, and has been in politics for close to twenty years, also **does not have the answers**.

So it is with the passion of my convictions and an eagerness to find solutions that I ask for the chance to represent District 16 in the Oregon State Legislature.

To the Voters of District 17:

Thank you for your past support. The next session of the legislature has important work to do in education, mental health, the Oregon Health Plan and tax reform. I will provide leadership in these areas, and I count on your support. However, there are several ballot measures in this election that will prevent the legislature from solving problems. Here are my views on some of these:

The Good (Vote Yes)

- **1, 4, 83, 84, 99:** All good.
- **3:** Guarantees your day in court before your property can be seized as penalty for criminal activities.
- **5:** Closes the gun show loophole.
- **94:** Allows fairer sentencing of Oregon kids.

The Bad (Vote No)

- **7:** Another way for wealthy property owners and their high-priced attorneys to pick the taxpayers' pockets.
- **85, 86, 87, 88, 89:** Referred by Republicans last session to avoid governor's veto and will tie the hands of your future representatives.
- **93:** Another bad Sizemore idea. Retroactive; undoes some voter-approved measures; requires numerous expensive elections.
- **92, 98:** Tells unions and employers how to conduct their own business.
- **95:** Unworkable, probably illegal, waste of court time.

The Ugly (Really Vote No!)

- **8:** Badly written; could cost Oregon hundreds of millions of dollars in lost federal funds. Uses the most deceptive advertisement I've ever heard.
- **9:** A bad answer for a non-existing problem. How many times do we have to vote on this stuff?
- **91:** The worst of Sizemore's long list of initiatives. Even he admits he doesn't know what it says! Could cause massive cuts to schools and needed social programs.
- **96:** Prohibits legislature from fixing fatal flaws in initiatives, paralyzing government.

ROGER SHIPMAN

Constitution

OCCUPATION: Owner, Aslan Computing, Inc.

OCCUPATIONAL BACKGROUND: Business owner and software engineer;

EDUCATIONAL BACKGROUND: Everett High School; BS, Portland State University;

PRIOR GOVERNMENTAL EXPERIENCE: none.

We live in a monarchy.

God created and sustains our republic. He also rules over it: He enforces His law. We must keep that law, lest our all-powerful King rise up in rage against us, as He does against all those who disdain morality.

To the extent our laws are not in keeping with His--to defend innocent life, to preserve the freedom and dignity of every individual, to encourage the family, to protect property ownership, to limit government to those powers specifically granted by God for the preservation of good--those laws must be changed. Those laws in accordance with God's must be enforced.

Our country's constitution was based on these principles, and the Constitution Party, unlike the Democrats and Republicans, recognizes that these fundamental truths are not negotiable. This is true in Salem, just as in Washington.

As the father of seven children, and owner of a small software development business; I am not a politician, but a citizen concerned with law. I have been in jail to defend the unborn; I would just as uncompromisingly uphold these principles, and, as representative, work to restore right government.

Let's work together to give parents choices over their children's education, to encourage home schooling and alternatives such as charter schools. Let's get the government out of our pockets by reducing taxes and waste. Let's protect our privacy from groups who would profit from the information.

This November, in House District 18, vote for Roger Shipman, Constitution Party.

"Stull's not a career politician posturing for your vote; he fearlessly tackles government and racist police corruption head-on." - William Conde

"It's criminal when patients suffer without the medicine that helps them. Barry Joe Stull has changed that and continues his vital work." - Madeline Martinez, retired peace officer

CREATE JOBS AND SAFEGUARD OUR ENVIRONMENT: RELEGALIZE HEMP!

Oregon's State Seal features a hempen-covered wagon and ships with hempen sails and rope. Hemp, essential to the development of our culture, is illegal to grow in Oregon, so the food, fiber and tree-free paper sold in Oregon must be imported, and local jobs are denied. We cannot ethically continue to refuse our society the benefits of hemp agriculture and industry, as the incumbents do.

"long-time hemp activist." - Patty Wentz, *Willamette Week*, 01/19/00.

REDUCE TRANSPORTATION CONGESTION AND POLLUTION-

Livable urban neighborhoods reduce the need for automobiles, build relationships and protect wildlife habitat. Dedicated bikeways encourage healthy alternatives to parking and highway congestion and will end the bicyclist deaths from automobiles that discourage commuter bicycling. Electric buses can restore trolley lines to our neighborhoods.

EDUCATION NOT INCARCERATION- College students are being forced to subsidize prison construction. Prison costs have doubled while schools go underfunded. We must employ realistic alternatives to expensive incarceration.

Police accountability!

Drug treatment on demand.

Tax pollution, reward conservation.

AN AMERICAN SUCCESS STORY

These words appear on the **Statue of Liberty**:

"...Give me your tired, your poor
Your huddled masses yearning to breathe free..."

My parents, Janis and Marta Bitans, fled from their small farm in Latvia in 1944 as Russian Communist troops overran their country. After five years as refugees, the Lutheran Church sponsored us to come to America. I was two. My parents worked hard to repay our immigration costs. We spoke no English, and owned only the clothes on our backs. Marta cleaned houses and John was a gardener, janitor and handyman. They worked harder and smarter; and they saved their money. My folks had goals and they were realistic. They didn't complain about their lack of entitlements or blame others for their problems. And in just 20 years they became homeowners; and I graduated from college because of their expectations and encouragement. Life was tough, but they relied on God, the family, and their own hard work--**not government programs.**

STOP TRUTH DECAY!

Some people say that you can't make it without government programs. **THAT'S JUST NOT TRUE!** My parents did! I have! You can!

Government should only do for people what they cannot do for themselves.

WHAT CAN ONE PERSON DO?

I'm one person. I want to serve in the Oregon State Legislature so my kids and yours can live free and have a chance to prosper.

As a state legislator, I will work hard to

Reduce government intrusion

Reduce taxes

Reduce the government monopoly in education

WHAT CAN YOU DO? YOU CAN GIVE ME YOUR VOTE.

Karen Minnis on Education:

I fought hard to provide a 10% increase in K-12 education funding last session. I also advocated for better funding for Oregon's college students and voted to freeze college tuition. Our educational system needs adequate funding, educational choices and accountability that measures performance. I will continue to make certain education is a high priority.

Karen Minnis on Caring for the Community:

Our community deserves to be heard when decisions about neighborhood priorities are being made. That's why I fought to keep the traffic signal at 207th and Sandy. I sponsored legislation to protect children from abuse, supported legislation to reduce senior fraud and worked to protect those who need our help.

Karen Minnis on Government Spending:

As a member of the Joint Ways and Means Committee, I gained first-hand experience in learning the needs of Oregonians. State government must live within its means and still meet the needs of those in our community who are most vulnerable. I will continue to establish priorities that make responsible decisions about our budget that will still provide important necessary services to Oregonians without excessive taxation and fees.

It has been my privilege to represent you in this last legislative session. I am committed to serving you and working just as hard to earn another term. I will continue to make certain your voice is heard!

I have been working with you and for you for over 25 years to build our neighborhoods and provide a better quality of life. This legislature has lost the respect, and trust of the people, it is seen as politically self-serving, ineffective, and indebted to deep pocket special interests. There is a demonstrated need for change.

I have the experience and proven ability to work effectively to resolve the issues that are important to you, issues not addressed by the current legislature:

-Quality education K through 12, Community Colleges, and University system. The petty bickering must stop if we are to give our children the tools necessary to be successful in the 21st Century.

-With 34 years in the criminal justice system, I will work to make our communities safer by advocating for criminal background checks at gun shows (to keep guns out of the hands of criminals), adequate prison space for dangerous offenders. Save your tax dollars, get the non-dangerous mentally ill out of prisons and into treatment.

-Provide affordable health care for senior citizens. They should not have to choose between paying their bills and purchasing their medication.

EXPERIENCED LEADERSHIP FOR OUR FUTURE

Schools

Teaching for 24 years has taught me the importance of improving educational opportunities for rural Oregon's children. Class sizes must be reduced, program cuts reversed and funding stabilized to provide students with the quality education they deserve.

"Working side by side with Mike for years, I know he is committed to our most precious resource - children."

Natural Resources

As Mayor I have seen the urban sprawl of Portland and Salem encroach on our way of life. I have fought to restore the timber economy, help our local businesses and expand our economic base. Taxes

To protect our standard of living we must fight against high taxes and large increases in government spending. We must better manage resources, keeping in mind the interests of the people, not big money and special interest groups.

COLBY MCCORMICK - COMMITMENT TO COMMUNITY

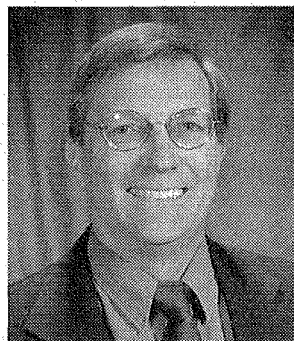

- **EDUCATION**-Is the foundation of our future. We must provide the best possible learning environment for our children today, so they can gain the leadership skills to make the decisions for our communities tomorrow.
- **CRIME**- Citizens in Oregon have the right to feel safe and secure in their own homes. I have seen how crime affects the health and safety of our community. Crime must be battled at the root of the problem, not just building prisons but targeting prevention.
- **URBAN GROWTH & DEVELOPMENT**- Growth is inevitable. Responsible growth management is necessary. It is in the best interest of communities that the impact of development be regulated so that current residents don't have to hold the financial burden of the increased demands.
- **HEALTHCARE**- Every Oregonian has the right to quality healthcare. Each patient has the right to be given the appropriate treatment for healing. Patient treatment plans should be between the patient and physician, not insurance bureaucrats. And establishing a true Patient Bill of Rights is a must for the next legislative session.
- **FAMILY VALUES**- The most sacred responsibility of every parent is to cherish our children and strengthen our families. Families are the foundation of American life. We can reinforce the foundation of the family by creating greater educational and economic opportunity; and requiring greater responsibility from individuals, businesses, and government.

Dear Friends & Neighbors:

I've been honored to represent you in the Oregon Legislature. If you re-elect me, I will once again work for the priorities we all share.

I'll continue to advocate for school programs and funding, with smaller class sizes and improved technology. This last session we were able to appropriate a record level of school funding.

I will continue to advocate keeping the state budget within its means without new or increased taxes. I am very concerned; however, with the possible effects of several ballot measures we will face this fall.

I'll continue to advocate for accountability for criminals. I will introduce legislation to require a DNA sample at the time of arrest just as we require fingerprinting now. If we can develop better evidence, we can improve our justice system.

And most of all, I will continue to advocate for open and fair government, for recognition of what is good in society, and for a common sense, low-partisan approach to legislation.

Thanks your for your support.

COMMUNITY SERVICE: Board of Directors, Philomath Community Foundation; Teen Pregnancy Prevention Task Force; Junior Great Books Instructor; Leadership Corvallis Graduate; past President, Parent Teacher Organization

MARILYN SLIZESKI - PUTTING WORDS INTO ACTION

QUALITY EDUCATION

I believe that for our children to succeed in the future, we must invest in them today. That's why I will fight for stable and adequate funding for our schools. And that's why I am supported by the **Oregon School Employees Association**. I do not support charter schools because I feel it undermines the public education system by taking away needed funds.

LIVABLE COMMUNITIES

We can build a safer and stronger community by keeping guns out of the hands of children, requiring criminal background checks at gun shows, and having adequate jail space for repeat offenders. I support community-based programs to **prevent crime before it starts**. We need responsible economic development and a fairer tax system.

NATURAL RESOURCES CONSERVATION

We must preserve our rural communities by protecting our natural resources. I support smart land-use planning that **protects our farmland from urban sprawl**. An investment in clean air and water is an investment in our future.

HEALTHY FAMILIES

All Oregonians deserve access to quality, affordable health care. I support a **Patients' Bill of Rights** that would return medical decisions to doctors and patients, not HMO bureaucrats. I believe reproductive health care decisions should be made by women and doctors, not by the government. I also believe we must **provide for seniors** by offering property tax relief for senior citizens on fixed incomes.

"That government is best which governs the least, because its people discipline themselves." - Thomas Jefferson

Life

The Creator is the Author of human life, thus it is absolutely sacrosanct. The first duty of civil government is the protection of innocent human life from conception until natural death.

Family

Since the family is the first Divine institution of government, it is the duty of civil government to recognize and protect the authority of the family unit.

Liberty

True liberty comes from God and real freedom is born of self-government.

Property

Individuals have the God-given right to own and steward their own property. I am opposed to the forced transfer of one's wealth to others by the state.

Education

God has entrusted parents with the responsibility to train and educate their children. Thus locally controlled, or private, or home schools are most effective at meeting the educational challenges we face.

Constitution

The Constitution established a representative federal republic making the people sovereign under God and over the state. Our founders purposed that the Constitution would limit the power and scope of the federal government, not the people.

States Rights

The 10th Amendment strictly limits the federal government to those jurisdictions specifically stated within the Constitution. It was the plan of our founders that civil government always be operated at the most local level.

LORI WORKMAN - WORKING FOR YOU, WORKING FOR LINN COUNTY

I have seen firsthand the needs of young people in our community. As a single mom of three and through my professional and volunteer work with troubled youth, I have learned that **supporting education must be our top priority** in Oregon. Not only do our schools need the funding and the tools to teach to today's higher academic standards, but our education system must also provide the necessary programs so students can go on to college or career.

I have seen firsthand what happens when people in our community can't meet their basic needs: seniors who can't afford prescription medications; families who have no choice in health insurance. We must work to **make health care in this state benefit the people** not the insurance industry. That's why I support a Patients' Bill of Rights.

I have seen firsthand how important it is to have safe neighborhoods. We must come together to build a stronger and safer community by keeping guns out of the hands of children and criminals. We must focus our efforts on **juvenile crime prevention as well as punishment** for dangerous criminals.

KARL G. SORG

Socialist

OCCUPATION: Retired practicing attorney

OCCUPATIONAL BACKGROUND: The candidate is a graduate of the Georgetown University College of Law, Class of 1949. Practiced in the State of Virginia and in the District of Columbia, specializing in civil rights racial discrimination cases, having one successful appeal to the United States Supreme Court. He also specialized in child custody cases in matrimonial causes.

EDUCATIONAL BACKGROUND: AB, Dartmouth College; JD degree from Georgetown University. Served as full professor of law, Northern Illinois University 1975-1982.

PRIOR GOVERNMENTAL EXPERIENCE: Staff attorney for the U.S. Department of Labor, in the Black Lung Disease Section of that Department from 1988 until his retirement in 1991.

Goals Sought

Mr. Sorg asserts that a vast revision of the electoral process is necessary to restore democracy in this country, beginning with campaign finance reform. He also feels that corporate power should be substantially limited including the denial of the right to do business in the State of Oregon for such corporations that violate Federal and State environmental laws, minimum wage and maximum hours laws and those corporations which deny women equality in the workplace.

He also would reinstitute a more progressive income tax system for the state, reducing taxes for those persons in the lower and median income levels, but raising those persons or corporations with incomes in excess of \$100,000 per annum.

He advocates a reduction in the power given to prosecutors, contending that the current system allowing the State prosecutor to reduce a felony to a misdemeanor and a misdemeanor to a simple violation, violates the separation of powers provisions of the Constitution. It is his contention that after an arrest is made, especially after over-zealous police activity, that it is for the judge or jury to determine guilt or innocence of the crime charged.

JEFF KRUSE

Republican

OCCUPATION: Co-owner Kruse Farms

OCCUPATIONAL BACKGROUND: Farmer, construction worker, laborer

EDUCATIONAL BACKGROUND: Roseburg High School, BS. degree Willamette University

PRIOR GOVERNMENTAL EXPERIENCE: Chairman Douglas Soil and Water Conservation District, President Oregon Association of Conservation Districts, Douglas County Planning Advisory Committee, State Representative 1997 to present.

JEFF KRUSE IS EXPERIENCED AND KNOWLEDGEABLE

Kruse has served on the committee responsible for Oregon's Salmon Recovery Program, on the committee responsible for funding the State Police and justice system, on the committee responsible for water, land use and environmental issues, as well as others.

Kruse is currently co-chairing both the interim Health and Human Services Committee and the Mental Health Task Force as well as serving on the Governor's Mental Health Work Group.

JEFF KRUSE IS CONTINUING TO WORK HARD FOR DOUGLAS COUNTY

Kruse: "When I first ran for this office I made a commitment to do what I could to get more control of government programs back to the local level, and we are being fairly successful in that effort. I want the people of Douglas County to be in control of their own lives and will continue to work towards that objective."

JEFF KRUSE WILL CONTINUE TO WORK FOR REASONABLE ENVIRONMENTAL PROTECTIONS

Kruse: "It is time to take a reasonable approach to salmon recovery and place the blame where it belongs, which is mostly in the ocean. Our resource based industries are doing a better job of protecting the environment and shouldn't be held accountable for things beyond their control."

JEFF KRUSE WILL CONTINUE TO BE A STRONG VOICE FOR YOU

Kruse: "I am a member of the leadership group in the House of Representatives and will continue to make sure that the interests of rural Oregon are not over run by Portland's agenda. CHARLES LEE

Democrat

OCCUPATION: Partner in small law firm, representing individuals and small businesses in divorce, custody, criminal defense, land transactions, administrative proceedings, and trials.

OCCUPATIONAL BACKGROUND: Served Douglas County 12 years as Deputy District Attorney, previously strawberry picker, medical receptionist, dishwasher, busboy, delivery truck driver, security guard, newspaper box sales route, gopher for Portland District Attorney, legal intern.

EDUCATIONAL BACKGROUND: Reed College, 1971; University of Oregon, 1974.

PRIOR GOVERNMENTAL EXPERIENCE: Eastwood School Site Council; elected twice to Roseburg School Board.

Charles Lee and Susan Tanabe celebrated 25 years of marriage this summer. Their three children have excelled at Roseburg schools. Charles Lee is active at Faith Lutheran Church, is Chair of Umpqua Homes for the Handicapped, and secretary of the Umpqua Model Railroad Club.

Charles Lee works to meet your children's needs. The last legislature disgracefully ignored its own report on schools' needs, and decided funding with name calling and bickering. In contrast, the Roseburg School Board provides effective leadership without wrangling. Charles Lee worked hard with others to draft a teacher evaluation program that solves the difficult problem of fairly assessing teachers' skills, without political grandstanding. We need Charles Lee's commitment and leadership style to represent us in Salem.

Charles Lee is in touch with YOUR Needs. Charles Lee works every day with Douglas County residents struggling with their problems. Working families and seniors struggle to pay outrageous prices for prescriptions. The legislature deregulated utilities and now our rates are going up, while our communication service remains poor. Douglas County struggles with 8% unemployment while the rest of the state booms. Glide schools struggle. Meanwhile, the drug makers Glaxo-Wellcome, Novartis, Schering-Plough and Merck, as well as Phillip Morris, Idaho Power, and AT&T contribute to the incumbent's campaign. Big businesses know who their friends are. **The incumbent pleases out of town, big money interests, at the expense of Douglas County residents.**

EARL CALHOUN A SEASONED ADVOCATE FOR JACKSON COUNTY

Families are the cornerstones of our community. We can help Oregon families to be healthy and productive by...

- providing **greater access to quality health care**. Soaring medical costs shouldn't make seniors choose between medication and food. Working families shouldn't have to choose between health insurance and paying the mortgage. We must reform the health care industry to help families not HMOs and insurance companies.
- expecting **fair wages and safe working conditions** from our corporate neighbors. Families in Oregon must have the opportunity to earn a living wage.
- creating greater educational opportunities for our children by **providing students with the tools they need to reach the highest academic standards**. We must also work to reduce class sizes so teachers and students alike can focus on learning. And we need to invest in our children's future by updating crumbling classrooms and stabilizing education funding.
- expecting government to be both **responsive to our needs and responsible with our tax dollars**. Corporate tax breaks funded with our tax dollars should be linked to job creation, responsible community development and investment in our schools.

OCCUPATION: College Instructor (Social Sciences) for Southwestern and Linfield College.

OCCUPATIONAL BACKGROUND:

EDUCATIONAL BACKGROUND: Providence High School. Southwestern and Marylhurst College. Master's Degree, Interdisciplinary Studies in Social Sciences, 1997.

PRIOR GOVERNMENTAL EXPERIENCE: Governor's Food Stamp Advisory Committee, 1977-1979; Citizens' Review Board, 1990-1991

COMMUNITY INVOLVEMENT

Founding member of Coalition for Community Vision; member of Human Rights Advocates of Coos County, Coos Art Museum Exhibition Committee; former board member Governor's Food Stamp Advisory Committee (as Child Advocate); Pacific Child Center; Coos Head Food Store; CARE after school program.

"Working with these agencies gave me a real-life understanding of the challenges and opportunities in our coastal communities. How we choose to address them is critical for our future."

MY PRIORITIES IN THE LEGISLATURE WILL BE:

- Promoting appropriate economic activity that enhances our assets, not sells them out.
- Listening to the people of the region and encouraging their participation in the setting of policies affecting their communities.
- Stabilizing funding for schools, especially in communities faced with declining enrollment.
- Enforcing laws that protect Oregon's quality of life, including clean air and clean water.

As a resident of this area for over 26 years, I have watched with dismay as entrenched interest groups continue to make economic policy choices that threaten our quality of life. For me, the challenge a legislator faces can be summed up in one word: vision. Without a vision that includes sustainability, that values natural capital over resource extraction and supports local, small businesses over outside industries (and the public subsidies they demand), we are doomed to repeat the boom and bust cycles and environmental depredations of the past.

I have a vision of livability of economics as if people mattered. My plan is based on a model that values social, economic and environmental capital equally.

BARBARA DAVIDSON: WORKING FOR YOU AND OUR FUTURE

Medford is a special place and I want to help keep it that way. I will work to keep government accountable and responsive to the needs of everyone in our community--not just a select few.

GREATER EDUCATIONAL OPPORTUNITIES is a top priority. As a teacher, I know that reducing class sizes and providing appropriate texts, tools, and resources is a must to help all students meet benchmarks and reach their potential. We must also include support for our community colleges and our universities as part of the educational system.

QUALITY AFFORDABLE HEALTH CARE is a must for healthy families. Whether a single parent, a veteran, or a senior on fixed income, access to affordable health care is essential. Citizens should not have to choose between paying the bills and paying for medical treatment.

STRONG AND SAFE COMMUNITIES are necessary as Medford deals with growth. Encouraging family wage jobs that will let our kids stay and raise their families here is one of my main concerns. I will work to recruit good corporate citizens who will promote economic development while respecting the natural resources that make our community special.

ENDORSEMENTS: I am proud to have a broad base of supporters, including US Senator Ron Wyden, Governor John Kitzhaber, Secretary of State Bill Bradbury, Representative Judy Uherbelau, Sue Densmore, Lou Hannum, Mary Jamison, Jean Maack, Milo Salgado, Medford Education Association, Oregon Nurses Association, NARAL, and Southern Oregon Labor Council.

I am honored to be running for State Representative. I would appreciate your vote and the opportunity to serve you.

Providing opportunities for our children's future As a teacher, I know children will do better if we make greater educational opportunities a priority. We must provide the tools students need to reach higher academic standards and reduce class sizes so students and teachers can focus on education. Strengthening community programs for youth will help them become responsible citizens. Access to an affordable college education will be a top priority.

Promoting prosperity and livability Oregon natural resources and quality of life attract residents, tourists and business. Working to protect livability while increasing economic prosperity helps all the people in our region. Let's make sure our economic needs and our desire to preserve Oregon's natural beauty march into this new century hand in hand.

Healthy families for strong communities Seniors shouldn't have to choose between buying medication after buying food. Working families shouldn't have to choose between paying the mortgage or having health insurance. I support the Oregon Health Plan and improving coverage for Oregon's children.

Working for responsible government I'm retired on a fixed income and know the financial burden of taxes and how to live within a budget. I will listen to the people

of my district to set responsible priorities for our tax dollars. State government should strengthen families and communities by helping them find local solutions.

Doug Dunlap - working together for stronger communities

A quality education for every Oregon student is my highest priority. As the son of a timber faller from southwestern Oregon, I know the benefits of a small class size and increased teacher availability. As a graduate of a community college and a university, I understand that both play important roles in higher education

Oregon's strength is drawn from its families. Strong families make strong communities, so we must support them by providing quality, affordable health care, and provide opportunities to earn a fair wage and guarantee their safety on the job.

As council member and mayor of a small city, I believe that government can be responsive to the needs of its constituents and responsible for investing wisely in its future. This same experience has galvanized my belief that the government closest to the action is best suited to provide for peoples' needs.

Central Oregon is known around the world for its clear water, clean air and the beauty of its forests. In order to leave this heritage of natural beauty for future generations, we must insure that natural resources are used as they are best suited while still holding strong against the pressure to weaken Oregon's land use laws.

"With his involvement with local and regional issues he is prepared - I believe that Doug represents my interests and the interests of the voters of District 55."

I am committed to put the "public" back into public administration. If I am given the honor of being your state representative, I will need your support and assistance. **Your** voice needs to be heard in the legislative process and you need the appropriate support from your representative to make **your** voice heard.

The voices I hear are concerned about access to health care; education funding formulas and local control; respecting agriculture as a vital component of the economy and as a cornerstone of our community's culture; "growth" as a complement to our communities, not growth for the sake of growth; concerns that natural resources not be treated as an isolated topic, but integrated into our discussion of economy, our communities and culture; our towns be honored as the hubs of each of our communities. Rural Oregon has not shared in the prosperity of the State in the '90s. In the 21st century we need to bring Oregon together on the prosperity wagon, and while getting on the wagon, we need to support efforts to restore Amtrak to our District.

You and your neighbors are the keys to preserving and building upon our unique heritage. I will work with all that can contribute to building our future.

District Attorney | Josephine County

CLAY JOHNSON

Nonpartisan

OCCUPATION: Josephine County District Attorney, November 1999 to present.

OCCUPATIONAL BACKGROUND: custodian; construction; gas pipeline installation; car sales; car/truck rental rep; active duty and reserve Naval Officer; private law practice; Deputy District Attorney for Josephine County.

EDUCATIONAL BACKGROUND: Madison High School (Portland, OR--1965); University of Oregon (Bachelor of Arts in history with minor in Russian--1969); University of Oregon Law (Juris Doctor--1975); University of Oregon (accounting--1976).

PRIOR GOVERNMENTAL EXPERIENCE: retired Lt. Commander Naval Reserve, intelligence officer (21 years); Deputy District Attorney for Josephine County from August 1977, until November 1999; Board of Directors for the Children's Advocacy and Treatment Center.

EXPERIENCED PROSECUTOR

Clay Johnson has prosecuted criminal matters ranging from minor traffic matters to complicated sexual assaults and murders. He has chaired the child sexual abuse team and was one of the persons responsible for bringing a children's advocacy center to Josephine County. He managed the child support division of the District Attorney's office and significantly increased child support collections. Clay Johnson will use his experience to hold criminals accountable.

INTEGRITY

The district attorney is an individual who has significant influence on the lives of the citizens of Josephine County. Clay Johnson accepts that responsibility. He will discharge the duties of the office as fairly as humanly possible. Clay Johnson will not allow "politically correct" pressures to dictate prosecution policies.

DOLLAR AND CENTS

Clay Johnson believes government officials should be as careful in spending the public's money as they would be in spending their own (maybe even more careful). The funds the citizens provide for prosecutor's office must be used to provide the most service for every dollar.

VICTIMS

Serving victims of crime is one of the core duties of the district attorney. Clay Johnson knows nothing can right the wrong inflicted upon a victim, but he pledges to use his office to make victims as financially and emotionally whole as the law allows.

Constitution Party Statement

The Constitution Party of Oregon maintains that our true heritage is freedom.

Constitution Party members recognize that our nation was founded by God-fearing men wanting freedom from human tyranny, so they could obey the dictates of their consciences in accordance with the Bible. They applied the principles of the Declaration of Independence when constructing the Republic spelled out in the Constitution of the United States.

We acknowledge that government derives its just powers from the consent of the governed.

We concur with those who framed the Oregon Constitution in the late 1850's. They said in Article I, Section 1, "... all men, when they form a social compact are equal in right: that all power is inherent in the people, and all free governments are founded upon their authority, and instituted for their peace, safety, and happiness..."

We will lead the way back to the foundations of America's greatness, nominating and/or supporting candidates who are committed to these foundational principles:

Our rights are inalienable, coming from the hand of the Creator. They are not given to us by ourselves or by government. These rights include the right to life from conception until natural death, the right to own property, and the right to choose how to live that life and use that property, without violating the rights of others as determined by a jury of their peers.

Government is Divinely instituted to protect our rights by punishing evildoers and encouraging righteous behavior.

Our system of laws is based on the Judeo-Christian moral code. The one known as the Father of the Constitution, James Madison, told his generation that they had staked the whole future of American Civilization and all our political institutions upon the capacity of mankind for self-government according to the Ten Commandments.

Our nation is a sovereign nation, one nation under God. We must steer clear of entangling alliances with any portion of the foreign world and we must maintain a strong national defense.

The powers of the federal government in our Republic are restricted to those specifically granted in the Constitution of the United States. That Constitution is not an instrument for government to restrain the people; it is an instrument for the people to restrain government -- lest it come to dominate our lives and our interests. The Bill of Rights appended to our Constitution has a reminder to the national government that it has only the powers delegated to it by 'We the people' through the Constitution.

This then is our heritage, a heritage that in the past has produced a moral environment with unparalleled individual liberty and economic prosperity, a heritage that has been the envy of the nations of the world. It is a heritage worthy of our efforts to rebuild.

We ask you to vote your conscience when electing new guardians for your future peace, safety and happiness. We remain convinced that voting for the lesser of two evils is still voting for evil and will not recover our heritage. We are raising a standard around which the wise and honest can rally, believing that the events of history are in the hands of God. The Constitution Party has honored that heritage by nominating candidates who believe in our heritage.

Remember, if you don't honor them with your vote, the candidates you really want can never win. Please vote for your Constitution Party candidates this election and take a step in the direction of restoring our heritage. Check out our presidential candidate Howard Phillips and our other candidates for various offices around our state listed in this voters' pamphlet.

Libertarian Party Statement

The Libertarian Party stands for individual freedom and personal responsibility. We believe these twin pillars of a civil society are inseparable; undermining one impairs the other. The only legitimate purpose of government is to protect the life, liberty and property of its citizens.

The LPO State Committee urges you to vote on the following measures:

- MEASURE 83 - NO** The government should not be in the business of loaning money to anybody.
- MEASURE 84 - YES** When the state requires a city or county to do something, the state should bear that cost.
- MEASURE 85 - YES** A few things have changed since 1857. Let Oregonians form counties that represent their interests in this century.
- MEASURE 86 - YES** Any surplus taxes belong to the taxpayers.
- MEASURE 87 - NO** Zoning should not become a tool for censoring unpopular speech.
- MEASURE 88 - neutral** Vote for Measure 91 instead.
- MEASURE 89 - neutral** This money was extorted from tobacco companies. We won't suggest how to spend the fruits of blackmail.
- MEASURE 90 - neutral** We may as well be rearranging deck chairs on the Titanic. This dilemma stems from excessive government entanglement in the energy markets.
- MEASURE 91 - YES** Expect honesty from the government. You should not pay taxes for wages you never received.
- MEASURE 92 - YES** Union members can be trusted to choose where to send their political contributions.
- MEASURE 93 - YES** Oregonians deserve a chance to veto excessive taxes.
- MEASURE 94 - YES** Let judges prevent injustice. Replace them at the ballot when they fail us.
- MEASURE 95 - neutral** Whenever government provides a service, it should strive for specific results. This measure demonstrates a desire to make public education results-oriented and accountable, which is great, the problem is that the results sought (increase of appropriate knowledge) seem vaguely defined.
- MEASURE 96 - YES** The Initiative is our best defense against an unresponsive legislature. Protect the Initiative from special interests.
- MEASURE 97 - NO** People have the right to protect their families and livestock from predators. This will measure will be less appealing when cougars begin eating kindergarteners.
- MEASURE 98 - YES** Public resources should not be used for private political purposes.
- MEASURE 99 - NO** An additional layer of regulation is unnecessary. This will make it more expensive to receive and provide home care.
- MEASURE 1 - NO** "Adequate funding" is a vague and meaningless term that does not belong in our Constitution. This amounts to a public-works project for lawyers.
- MEASURE 2 - YES** Give Oregonians the right to petition the legislature to reject burdensome regulations.
- MEASURE 3 - YES** People are innocent until proven guilty in a trial by jury. Police departments should not profit from seizing the property of Oregonians.
- MEASURE 4 - neutral** See Measure 89.
- MEASURE 5 - NO** Favored by gun shops, this will limit private gun sales between citizens. It increases the cost of defending yourself, but will not prevent criminals from getting guns.
- MEASURE 6 - NO** This is political welfare. Forcing us to subsidize the political speech of others is an insult to our freedom of speech.
- MEASURE 7 - YES** When we strip a land of value through regulations, it is only fair to compensate the landowner.
- MEASURE 8 - YES** The best way to limit the growth of government is to limit its ability to spend our money. This will make sure that government spending cannot outpace changes in our personal income.
- MEASURE 9 - NO** Public schools should not be burdened with "religiously correct" speech codes.

The Libertarian Party of Oregon is the third largest political party in the state. Libertarians are fiscally conservative and socially tolerant, we believe that government should be limited to protecting our freedoms while ensuring personal responsibility.

We stand up for your rights before government.....All of your rights.

Pacific Green Party Statement

ON FRIDAY, AUGUST 25, PORTLAND'S MEMORIAL COLISEUM WAS ROCKING. Nearly 11,000 people from across Oregon and the Pacific Northwest paid at least \$7.00 to attend. They cheered until they were hoarse. They clapped until their hands hurt. And they left feeling empowered.

What event caused this reaction? A rock concert? A hometown team victory? A religious extravaganza?

It was none of these. Thousands of people poured in to hear Ralph Nader, Winona LaDuke and other Pacific Green Party candidates urge citizens to take back this country and state from out-of-control corporations and their handpicked politicians.

DEMOCRACY FOR ALL

The Pacific Green Party (PGP) is unlike any other party in Oregon. While the RepubliCrats bathe themselves in special interest money and do the bidding of only the wealthy, the PGP is driven by the dedication and activism of people from all walks of life.

In his speech at the Coliseum, Ralph Nader remarked, **"You saw the Democratic and Republican conventions. They were marinated in corporate money....It was like legalized bribery meeting legalized extortion."** (*The Oregonian*, 8/26/00)

The PGP embraces a radically different vision. We believe democracy should serve ALL the people and the rights of our communities should be protected alongside the rights of each individual.

MAKE YOUR VOTE COUNT

Despite the fact that many of you are tired of corporate-driven politics and having to choose between the "lesser of two evils", you are worried that voting for a PGP candidate might throw a race to the "greater" evil. You genuinely want to vote your conscience, but the media and the RepubliCrats have scared you into thinking that any vote outside the two-party system is a wasted vote.

Our candidates don't necessarily have to win to bring about a revolution in Oregon. If Ralph Nader or Lloyd Marbet tallies 15% of the vote, the PGP will clear the first and biggest hurdle to achieving major party status. The media will then cover the PGP and our **pro-environment, pro-worker, pro-social justice, pro-citizen and anti-corporate control** agenda. Progressives will find they have the loudest, clearest voice in their lifetime. The political landscape in Oregon will be forever changed.

BE PART OF HISTORY

You can play a critical role in changing the tide of history and Ralph Nader knows it. **"Right here in this arena [Memorial Coliseum] are the votes that will carry the state of Oregon for the Green Party ticket,"** said Nader. **"Our goals are realizable. They're long overdue. We have the resources for them. The constitution enables it, the majority of the people want it, and we're going to go for it!"** (*The Register Guard*, 8/26/00)

Reform Party Statement

The Natural Law Party and the Reform Party have merged into a historic coalition forging itself into a viable, alternative movement that can break the two party duopoly that the Republicans and the Democrats hold in our country and in Oregon.

The REFORM PARTY is YOUR REASON TO VOTE.

The Natural Law Party has a platform based on commonsense solutions with "Best Practices" as its foundation such as:

- The Natural Law Party--America's fastest growing political party--offers voters forward-looking, prevention-oriented, scientifically proven solutions to the nation's problems, including
- Creating a true health care system (as opposed to a disease care system) by adding cost-effective, prevention-oriented health care programs scientifically shown to prevent disease, promote health, and save money in the best possible way--by keeping people healthy
- Education that develops the student's full potential through curriculum innovations proven to increase intelligence, creativity, and academic performance
- Preventing crime--not warehousing criminals--through effective criminal and drug rehabilitation programs, and through proven programs to reduce high levels of societal stress
- Cutting taxes deeply and responsibly through cost-effective solutions to crime, spiraling health costs, and other social problems--not through cutting essential services
- Protecting the environment through energy efficiency and the use of renewable, safe, nonpolluting energy sources such as wind, solar, and biomass
- Safeguarding America's food supply through sustainable, organic agricultural practices proven to produce healthy, high-quality food without hazardous chemical fertilizers and pesticides
- Mandatory labeling and safety testing of genetically engineered foods, and a moratorium on the release of these experimental life-forms into the environment until proven safe
- Ensuring a strong economy by (1) more effectively harnessing our greatest national resource--the unlimited creativity and intelligence of our 270 million citizens, and (2) implementing powerful, pro-growth tax and fiscal policies
- Promoting more prosperous and harmonious international relations by shifting our foreign policy away from the export of weapons towards the export of U.S. know-how and technical assistance in key areas, such as business, entrepreneurship, education, sustainable agriculture, and environmental technologies
- Ending special interest control of our politics through (1) elimination of PACs and soft money, (2) public sponsorship of election campaigns, and (3) prevention of lobbying by former public servants on behalf of domestic and foreign interest

The Reform Party brings with it a party based on foundational government reforms. The Reform Party of Oregon's Principles begins with support of the Constitution of the United States of America. We believe in the Constitution as written by our forefathers. Our elected leaders must have the utmost integrity and be fully accountable to the people of Oregon. We demand that due process of the Law be available to every citizen of this state. To this end the Reform Party of Oregon's principles are:

- Upholding the Constitution - We expect our members to uphold the Constitutions of Oregon and the United States.
- Integrity - We expect honesty, ethics, and integrity from each of our members at all times.
- Accountability - We demand legislative oversight of all state agencies. Administrative rules shall not be enforced as Law.
- Justice - The courts of Oregon need to be opened to provide Justice for all the people. Due process and equal protection under the Law shall be accorded to all citizens. No person should be made immune from responsibility and accountability for their actions.
- Service and Community - We believe that citizens should be of service to the community by participating in the political process. We encourage all people to demonstrate responsibility to their families and their communities and to reduce the volume of demand upon government for services. We believe our government should not legislate social and moral issues, but become more involved in managing the infrastructure of the state of Oregon.
- Election Reform - The Reform Party of Oregon supports election reforms that increase voter participation. We demand equality and fairness in the election process through voting reforms such as SDVR (Same Day Voter Registration) and de-linking ballot access from state-wide elections, and by reducing taxes through moderation of services provided, and by maintaining government actions locally whenever possible.
- Principles - The people of the Reform Party of Oregon expect our candidates to embody these principles. The motivations for decisions of our elected servants should be in the people's best interest as opposed to special interest.

Please join our party, REGISTER TO THE REFORM PARTY OF OREGON. Please keep in mind that when a political party changes its name PARTY AFFILIATION is not transferred! Please Re-register REFORM PARTY! Let your voice be heard! Be INVOLVED. This is a unique opportunity to really affect change in the political landscape. Our party can be anything we want it to be! And with your involvement and participation we can succeed.

Socialist Party Statement

If we are going to achieve a real equality, the U.S. will have to adopt a modified form of socialism." (Martin Luther King, Jr. (1965), *In These Times*, 2/9/83)

- A STRONG FOUNDATION. We represent a worldwide demo-cratic political movement founded 150 years ago to expand democracy in both the voting booth and workplace. The term "socialist" was first used in the *Cooperative Magazine* (Nov. 1827) to describe the efforts of Robert Owen, a Welsh mill owner, "to develop co-operative societies of people who would produce goods for their common good." The Socialist Party USA was founded in 1901 by a diverse group of Americans. Philip Randolph, "Father of the Civil Rights Movement".
- WHO'S WHO. Some great Americans have been socialists: Eugene Victor Debs (American Railway Union founder), Mary "Mother" Jones (Steelworkers organizer), Helen Keller (deaf & blind lecturer), Susan B. Anthony (woman's-suffrage leader), Margaret Sanger (birth-control leader), Emma Lazarus (poet, "Give me your tired, your poor, your huddled masses yearning to be free"), Jack London (author, *Call of the Wild*), W.E.B. DuBois (African-American leader), Upton Sinclair (author, *The Jungle*), Michael Harrington (author, *The Other America*), Congressman Meyer London (chief sponsor of first workers' compensation law passed by Congress), Carl Sandburg (Lincoln author), Albert Einstein (physicist).

A. Philip Randolph, "Father of the Civil Rights Movement", founder of the Railway Pullman Porters Union, and the first African-American Vice President of the AFL-CIO, received the Presidential Medal of Freedom from President Johnson in 1964.

- SIGNIFICANT SUPPORT. Since 1901 millions of Americans have voted Socialist. Thousands of Socialists have held public office, several in the U.S. House of Representatives. In an earlier day, in Oregon's "rural areas, a popular Socialist could count on a vote of 15 to 25% without much campaigning." (*Northwest Magazine*, 12/19/76) In the 1998 general election David W. Gillette, Socialist Party candidate in State Representative District 7 received over 25% of the votes cast.
- SOCIALIST "ROOTS". Consumer co-operatives like Recreation Equipment, Inc., mutual insurance companies and savings banks, credit unions, people's utility district, rural electric co-ops, and city lighting departments all have socialist "roots". Their primary goal is to serve their owner-consumers. Under capitalism, the "bottom line" is profits, not people.
- NO TOTALITARIAN TIES. We don't support communism, fascism, or other any form of despotism. We oppose the Federal Government our taxes to arm, aid, or comfort any dictatorship anywhere. It has been the Democratic and Republican administrations in Washington, D.C. -- more concerned for corporate profits than for human rights -- which have championed giving "Most Favored Nation Status" to Communist China, the dictatorship which has raped and pillaged Tibet and imprisons religious and political dissidents, even those seeking to organize free labor unions.

IMPORTANT CONTRIBUTIONS.. For nearly 100 years Socialists have advocated much of what's best in America. "It was the Socialist Party that first advocated creation of a Social Security system. It was the Socialists who demanded that the federal government guarantee workers the right to bargain collectively, set a minimum wage and a limit on working hours" (Dick Meister, *Oregonian*, 9/4/91)

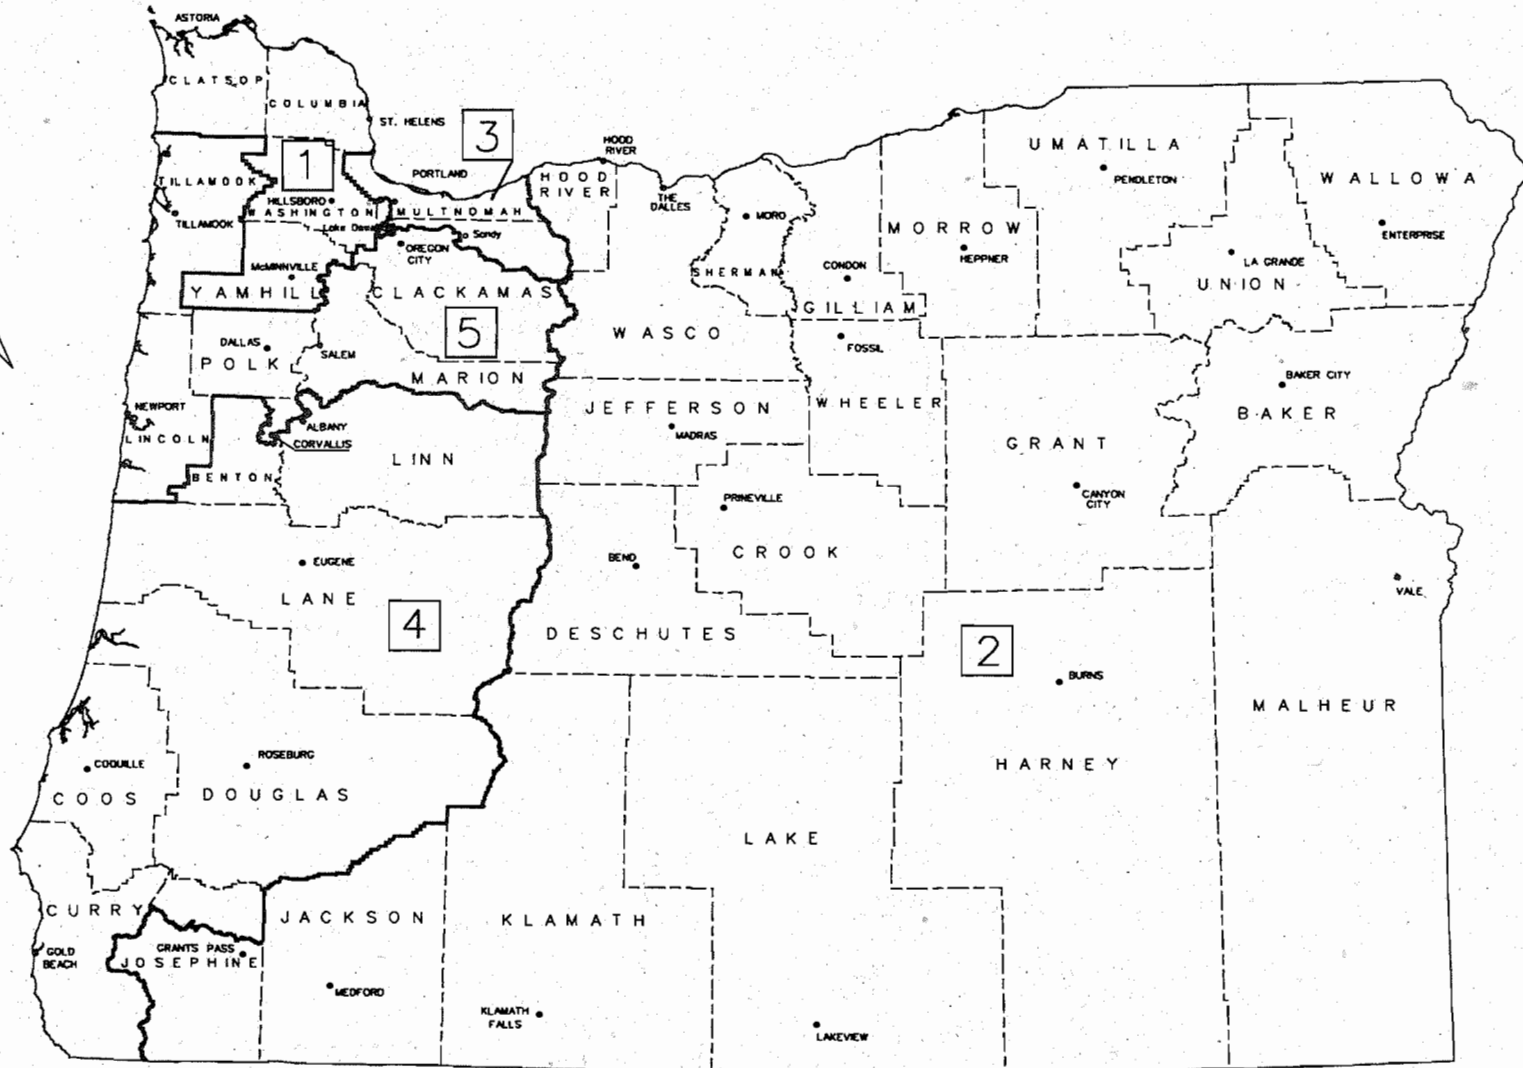

VOTE SOCIALIST. There will be nearly a dozen Socialist candidates on the general election ballot around the State. Don't waste your vote on a Republican candidate who will really not represent you! Also, write in our national presidential candidates: David McReynolds (retired Executive Director, War Resisters League) for President, Mary Cal Hollis (special education teacher) for Vice President.

REGISTER SOCIALIST. If "SOCIALIST" isn't on your Voter Registration Card, check "Other party" and print in "Socialist".

JOINT THE SOCIALIST PARTY.
