Re: Amendment to LC

Please draft changes to the LC 166 or subsequent bill that:

- Strikes: Independent office of the executive department on lines 6 and 7.
- Adds back stricken language from lines 8 through 12.
- Add back stricken language in Section 2, lines 14-18.
- Amend section 2 to require that PRAC elect co-chairs, one from the requesting community and public and one representing public agencies.
 - Make the Public Records Advocate and ex-officio member of the PRAC and its executive director.
 - Strike language authorizing the PRAC to support or oppose legislation and request its introduction and replace it with language granting the PRAC to review, vet or endorse legislation proposed to it.

The intent is to reform the PRAC to approximate the process contained in ORS 655.790, the enabling legislation for the Management and Labor Advisory Committee. Please make whatever other changes are necessary in the draft to accomplish this objective. I am available for consultation at your convenience.
