vote!

Oregon votes by mail. Ballots will be mailed to registered voters beginning April 29.

BEV CLARNO
SECRETARY OF STATE

ELECTIONS DIVISION
STEPHEN N. TROUT
DIRECTOR
255 CAPITOL ST NE, SUITE 501
SALEM, OREGON 97310
(503) 986-1518

Dear Oregon Voter,

The information this Voters' Pamphlet provides is designed to assist you in participating in the **May 19, 2020**, Primary Election.

Primary elections serve two main purposes. The first is for all voters to be able to cast ballots for candidates for nonpartisan offices like judges and some county and other local offices. The second is for the voters registered with a major political party to select their nominees for partisan office like US President.

Those registered as not affiliated with a political party, or registered with a minor party (Constitution, Independent, Libertarian, Pacific Green, Progressive, Working Families) will receive a ballot that includes only nonpartisan offices. The US Supreme Court has ruled that political parties get to decide who votes in their primaries so unless you are registered as a Republican or Democrat you will not have candidates for President or any partisan office on your May Primary ballot. You will have them on your November 3 ballot.

The biggest threat we have to elections today is misinformation. It can be found in many sources – social media, mainstream media, email lists, text message chains and mailers. Misinformation can even be spread through candidate statements in this voters' pamphlet. Candidates pay a fee to have the statements printed and they are not fact checked. In fact, Oregon courts have ruled they cannot be fact checked.

We recognize that with unlimited sources of information it can be challenging to find information that is accurate and trustworthy. Fortunately, there are some simple questions you can ask yourself to help identify misinformation: 1) Is there any data or evidence presented to support the information? 2) Does this information seem designed to push my political buttons? 3) Is there something about this information that doesn't seem right or too bizarre to be true? 4) Who is sharing this information? 5) Does this individual or group have an agenda? Be an informed voter and don't believe everything you see or hear.

Ballots will be mailed beginning April 29. After you have filled out your ballot, you can return it by mail or take it to any official drop box. If returning by mail, no stamp is necessary because, under a new law, the postage has been pre-paid by the state. Remember your ballot must be physically received at a county elections office or in an official drop box by **8 pm May 19**. Postmarks do not count! To track your ballot or to find your nearest drop box, visit oregonvotes.gov/myvote.

My goal as Secretary of State is to maximize voter participation and access while ensuring election integrity so that our democracy can be strong and vibrant. You can have confidence that our elections are secure and accurate and that every vote counts. I encourage you to study the issues, make your voice heard and participate in all elections.

Sincerely,

A handwritten signature in black ink that reads "Bev Clarno". The signature is written in a cursive, flowing style.

How do I vote in Oregon?

In Oregon, we vote by mail. There are no polling places. Instead you can complete your ballot anywhere you choose. There are privacy booths available at your county elections office.

Your county elections office will automatically mail you a ballot packet for every election that you are eligible to vote in. Inside the packet, you will find the ballot and instructions on how to complete and return the ballot. [Follow the instructions!](#)

What if my ballot doesn't come?

For this election your ballot packet will automatically be mailed to you between **April 29** and **May 5, 2020**. If you have not received your ballot packet by **May 8**, call your county elections office.

What if I've moved?

Ballots are not forwardable. If you were registered to vote by **April 28** but now have a different address, call your county elections office for instructions on how to update your registration and receive a ballot.

How do I get a ballot if I will be out of town when ballots are sent?

Absentee ballots are available 45 days before the election. You must complete the Absentee Ballot Request Application at oregonvotes.gov/myvote or call your county elections office.

Can I vote online?

There is no online voting in Oregon. A ballot may be emailed to a military or overseas voter, but there is no website where you can cast a ballot.

Why are there no Presidential Candidates on my ballot?

If your ballot does not include candidates for US President it means you are not registered to vote as a Republican or Democrat. Oregon law allows major political parties to decide who can participate in selecting the candidates who will represent the parties at the general election.

For the 2020 Primary only registered voters of the Republican Party or Democratic Party may choose that party's nominees. Candidates for US President will appear on the ballot you receive for the general election.

Do I have to vote on every office or measure?

No. You don't have to vote on every contest. Those you do vote on will still count.

What if I make a mistake, damage or lose my ballot?

If your ballot is lost, destroyed, damaged or you make a mistake in marking your ballot, you may call your county elections office and request a replacement ballot.

Can I change how I voted?

If you have not yet returned your ballot, you can change how you voted. Follow the instructions included with your ballot. Once you have put your ballot in the mail or official drop box it is considered cast and cannot be changed.

How do I return my ballot?

You can return your ballot by mail or take it to any county elections office or official drop box. You can find the nearest drop box, along with a map of how to get there, at oregonvotes.gov/dropbox or by contacting your county elections office.

Do I have to pay postage?

If returning by mail, no stamp is necessary because the postage has been pre-paid by the state.

What is the deadline for me to return my voted ballot?

Your voted ballot must be physically received by a county elections office or be in an official drop box by **8 pm, Tuesday, May 19**. **Postmarks do not count!** County elections offices are open election day from **7 am to 8 pm**.

Will my ballot be counted if I forgot to return it in the secrecy envelope or sleeve?

The county elections office will maintain the privacy of your ballot if you forget the optional secrecy envelope or sleeve and your ballot will still count.

Why do I have to sign the outside of my ballot return envelope?

Your signature is a security measure used to verify identity. County personnel who have received training in forensic handwriting analysis compare it to signatures in your voter registration record. Your ballot may only be counted if the signatures match.

If your signature does not match the county will notify you. You will have until 14 days after the election to prove you were the one who signed the envelope.

Can I ask a family member to sign the envelope for me?

Only the voter may sign the ballot return envelope. Power of Attorney documents do not apply to voting. If you cannot sign your name you may use a signature stamp or other indicator as your signature. Contact your county elections office for more information.

What if I forget to sign the return envelope?

If you forget to sign your ballot envelope the county will notify you. You will have until 14 days after the election to sign the envelope.

Is my vote really kept secret?

Yes, how you voted is secret, but whether or not you returned your ballot is public record. To ensure your vote remains a secret, your ballot is separated from the return identification envelope before it is reviewed. County elections officials only review and count your ballot after verifying your signature.

How can I track my ballot?

As a registered voter, you can track the status of your ballot at oregonvotes.gov/myvote.

What is a Provisional Ballot and why do I need one?

If there is a question about your eligibility as a voter or you need to vote at a county elections office in a county other than the one you live in, you will be issued a provisional ballot. In order to obtain a provisional ballot, you need to fill out a Provisional Ballot Request Form in person at the county elections office. Your provisional ballot will not be counted until it is determined that you are eligible to vote.

When will election results be known?

Initial results are released at **8 pm** election night and will continue to be updated through election night. Final certified results will be available 30 days after the election.

How do I file a complaint?

Any registered voter may file a written complaint alleging that a violation of an election law has occurred. The complaint should provide evidence showing a violation. The complaint must be signed by the elector. Anonymous complaints will not be accepted. The complaint should be sent to:

Secretary of State, Elections Division
255 Capitol St NE, Suite 501
Salem, OR 97310

Would you...

give someone going door to door your ballot to put in a drop box for you?

Not safe. In 2018, 97 people did this and had their vote not count because the ballot was turned in after Election Day. Don't be fooled.

believe a talk radio personality who says your political party is changed when you go to DMV?

Not true. The political party you are registered with never changes because of a DMV transaction. If you are not already registered you will be registered as not affiliated. Don't be fooled.

believe a story that non-citizens are registered to vote when they get a driver's license?

Not true. Only individuals who show proof of citizenship at DMV are automatically registered to vote. Don't be fooled.

believe a social media post, phone call or text message that your voter registration has been cancelled?

Not true. Anytime your voter registration is updated, you are sent a confirmation of the changes. Don't be fooled.

register to vote on a website you saw on social media instead of registering at the official Secretary of State site, [oregonvotes.gov/register](https://www.oregonvotes.gov/register)?

Not safe. In 2018 many people used third party sites thinking they were registering to vote. But the information was never sent to the Elections Division and they could not vote. These sites can also steal your personal info. Don't be fooled.

trust election information like deadlines, drop box locations and results from any website other than the official Secretary of State site, [oregonvotes.gov](https://www.oregonvotes.gov)?

Not safe. Only use official information located on the Secretary of State's website or your county elections website. Don't be fooled.

believe a social media post that says your ballot can be rejected without you knowing about it?

It can't. If your ballot is rejected you will be notified and may have the chance to fix it. Plus you can view the status of your ballot at [oregonvotes.gov/myvote](https://www.oregonvotes.gov/myvote). Don't be fooled.

believe a social media post that says because of record high voter turnout, Democrats vote on Tuesday and Republicans vote on Wednesday?

Not true. All ballots are due by 8 pm, Tuesday, May 19, 2020. Don't be fooled.

believe a picture on social media with the same candidate listed twice and another candidate missing?

Not true. People have photoshopped ballot images before. Don't be fooled.

believe a headline that says it is too late to secure the upcoming election?

Not true. Election security in Oregon has never been stronger and is continually being improved. Don't be fooled.

Don't Be Fooled

Ensuring the Accuracy of Your **Vote!**

Oregon elections are secure. They're secure, not because there aren't any threats, but because we have detailed processes and procedures in place that are continuously evaluated to identify improvements and to develop contingency plans, ensuring our systems and our votes are secure.

Some security measures you may be more familiar with than others. For example the signature on your ballot return envelope is compared to the signatures in your voter registration record and your ballot is only counted if the signatures match. Another security feature is that all elections in Oregon must be conducted using a paper ballot.

Other security features which you may not be as familiar with include:

- Every county elections office files a security plan with the Secretary of State every year that details the tools and processes they use to secure elections in their county.
- Each day a copy of the voter registration database is backed up and saved to ensure accurate information is preserved should a bad actor gain access.
- All voting systems (machines and programs) used to count ballots in Oregon have been certified by a federally accredited voting system test laboratory and have been further analyzed to ensure the system is secure before the Secretary of State approved of their use.
- The Department of Homeland Security has been conducting onsite physical and cyber threat assessments at each of Oregon's 36 county election offices.
- All ballots are counted in secure rooms at each of Oregon's 36 county election offices. Security cameras are in place to record 24 hours a day. No voting systems are connected to the internet.
- The Oregon TIGER (Threat Information Gathering and Election Resources) Team identifies threats and vulnerabilities to Oregon's election system and applies the resources of federal, state, and local governments to mitigate those threats and vulnerabilities. Members of the TIGER Team consist of the Oregon Elections Division, US Cybersecurity and Infrastructure Security Agency, Oregon Emergency Management, Oregon Chief Information Officer- Cyber Security Services, Oregon National Guard, Oregon Titan Fusion Center, and FBI.
- Prior to any ballots being counted, counties test voting systems for logic and accuracy. This testing entails marking test ballots and running them through the vote counting machines to ensure results produced by the voting machines match how the test ballots were marked. This same process is followed after the election to confirm there was no change to the programming.

The US Department of Homeland Security and the FBI have confirmed that no vote tally systems in Oregon, or anywhere else in the US have been hacked. You can have confidence that your ballot will be counted as you mark it and that there will be no tampering with the ballot at any step in the election process. Voting in Oregon has never been more secure or more accurate.

Am I qualified to register to vote in Oregon?

You are qualified to register to vote in Oregon if you can answer yes to the following questions:

- Are you a resident of Oregon?
- Are you a US citizen?
- Are you at least 16 years of age?

If you are not yet 18 years of age, you will not receive a ballot until an election occurs on or after your 18th birthday.

How do I register to vote in Oregon?

To register to vote you can complete a registration card or use the online process available at oregonvotes.gov/register.

Registration cards are also available at any county elections office, the Secretary of State's Office, and some state agencies such as the DMV. Contact the Secretary of State's Office for a large print version of the registration card.

What identification do I provide?

You must provide your valid Oregon Driver's License, Permit or ID number. A suspended Driver's License is valid, a revoked Driver's License is not valid.

If you do not have valid Oregon ID, provide the last four digits of your Social Security number.

If you do not have a valid Oregon ID or Social Security number you can find a list of acceptable alternative identification online at oregonvotes.gov.

What is the deadline to register to vote for this election?

To vote in the **May 19, 2020**, Primary Election, your completed voter registration card must be:

- postmarked by Tuesday, **April 28**; or
- delivered to a county elections office or voter registration agency (e.g., DMV) by Tuesday, **April 28**.

If you register to vote online, your registration must be submitted by 11:59 pm on Tuesday, **April 28**.

When do I need to update my voter registration?

You should update your registration if you move, change your name, signature or mailing address, or want to change or select a political party.

You can provide the new information online at oregonvotes.gov or by completing and returning a voter registration card to your county elections official.

Do I have to register with a political party to vote?

No you do not. However, by joining a political party you are able to select the party's candidates either by voting in a party's primary election or by participating in other nomination processes.

If you do not select a political party you will still receive a ballot for every election you are entitled to vote at. However, the ballot you receive for a primary election will only include nonpartisan offices and ballot measures.

Address Confidentiality Program

Individuals whose personal or family safety may be in danger if their home address is available as a public record may register to vote with confidentiality protections by applying for the Address Confidentiality Program (ACP).

The ACP is a free mail forwarding service. It helps survivors of domestic violence, sexual assault, stalking or human trafficking shield their physical address. Program participants are provided with a substitute address to use instead of their real address. To be eligible for the ACP you must live in Oregon, **and**

- be over 18 years old, **and**
- be a victim of domestic violence, sexual assault, stalking, or human trafficking, **and**
- have recently relocated (or are about to relocate) to an address unknown to the perpetrator(s) or any government agencies.

Parents or guardians may apply on behalf of incapacitated adults and minor children who are otherwise eligible for the ACP.

Participation in the ACP by itself does not guarantee anyone's safety. ACP staff do not provide threat-assessment or safety-planning and are not allowed to offer legal advice.

To apply to the Address Confidentiality Program, you must work with a victim advocate who has been designated as an Application Assistant by the Attorney General. For more information or to find an Application Assistant near you visit <https://www.doj.state.or.us/crime-victims/victims-services/address-confidentiality-program-acp/> or call **888-559-9090**.

Political Party Statements

In the Primary Election, designated officers of any statewide political party who intend to nominate candidates for the general election may file for inclusion in the state voters' pamphlet, a statement that argues for the success of its principles and the election of its candidates on a statewide or county basis or opposes the principles and candidates of other political parties or organizations on a statewide or county basis. The Working Families Party did not submit a statement for the 2020 Primary Election.

Duties and Responsibilities of Precinct Committeepersons

Precinct Committee Persons (PCPs) encourage voter registration, vote on official party business, elect county party leadership and nominate State Representatives or State Senators when there is a vacancy in one of those offices.

PCPs are only permitted for major political parties. The Democratic Party of Oregon and the Oregon Republican Party have both chosen to elect PCPs.

Each precinct is allotted a number of PCPs based on the count of registered voters in the precinct. Individuals can only file for (or serve in) one precinct at a time. However, the individuals can choose whether they want to file to serve in the precinct they reside in or an adjacent one.

Individuals must have been registered members of the party since September 12, 2019, in order to run as a PCP for that party. Individuals who are under 18 at the time of filing can still file if they will turn 18 on or before the date of the primary election.

Candidates

Oregon statute (ORS 254.155) requires the Secretary of State to complete a random order of the letters of the alphabet to determine the order in which the names of the candidates will appear on the ballot.

The alphabet for the **2020 Primary Election** is:

T, R, B, H, M, S, J, F, W, P, O, G, L, U, X, Z, E, D, K, Y, N, C, I, V, A, Q

Candidate statements included in the pamphlet are separated by office type and position and are further arranged in the same random order in which the names of candidates will be printed on the ballot. In the primary election pamphlet, partisan candidate statements are further separated by political parties.

Statements are arranged in the following manner:

Republican candidates by position in ballot order

Democratic candidates by position in ballot order

nonpartisan candidates by position in ballot order

Candidates pay a fee, or submit signatures in lieu of paying the fee, for space in the voters' pamphlet. The information required by law—pertaining to occupation, occupational background, educational background and prior governmental experience—has been certified as true by each candidate.

Disclaimer

Information provided in statements or arguments by a candidate, a political party, an assembly of electors, or a person supporting or opposing a measure have not been verified for accuracy by the State of Oregon.

Constitution Party

All our nominees are pledged to defend the following three Principles, (1) The Creator God in heaven, made known to us through the Holy Scriptures, rules in the affairs of men and is the ultimate King, Lawgiver, and Judge of all mankind. He is to be honored and His Word is to be heeded if we expect to receive His blessing on the works of our hands individually or corporately; (2) the Family is the first and highest civil institution designed by God to propagate, educate, and nurture human life. Both Church and State are to support and defend that institution; and, (3) God has assigned the first priority of civil government to protect innocent human life from conception to natural death, to protect freedom of conscience, and to protect private property.

We are pleased to offer you a true choice in the candidates we present to you.

No longer do you need to vote for the incrementally lesser of two evils. When you see one of our candidates on your General Election ballot, you can know that they stand for what is right, not what is just politically expedient. They are all committed to restoring the Constitutional Republic that our Founders gave us. Our candidates are not backed by moneyed interests. Typically, you will see them on the ballot only, not here in the voter's pamphlet, which would cost each candidate lots of money.

To provide you this choice we must satisfy Oregon ballot access requirements. This forces us to run at least one statewide partisan candidate each election cycle and achieve a minimum percentage of the vote or we must have a minimum number of voters registered with our party. Please help us avoid the unfortunate need to run our good candidate against another party's good candidate, by registering with us to meet the other requirement. Do it immediately after the Primary Election.

The Constitution Party of Oregon maintains that our true heritage is freedom.

God-fearing men founded our nation. They wanted freedom from human tyranny. They wanted to obey the dictates of their consciences in accordance with the Bible. Oregon's history as a state is rooted in the desire of Native Americans to have the truth of the Book of Heaven, as they called the Bible. There are memorials on the capitol grounds of Oregon reminding us of the part that missionaries had in the formation of our state's civil and educational institutions. We know that the first missionary to Oregon, Jason Lee, was truly the Father of Oregon, assisting in the drafting of our state constitution and founding Willamette University that began as a mission school for Native Americans.

Government derives its just powers from the consent of the governed.

Oregon Constitution, Article I, Section 1, "... all men, when they form a social compact are equal in right: that all power is inherent in the people, and all free governments are founded upon their authority, and instituted for their peace, safety, and happiness..."

Our rights are inalienable, coming from the hand of the Creator.

Our system of laws is based on the Judeo-Christian moral code.

The powers of the federal government in our Republic are restricted to those specifically granted in the Constitution of the United States.

Vote your conscience; don't vote out of fear or greed!

You rarely hear from us, because it takes money to do mailings and we don't have your email address or phone number. If you pay Oregon income tax you can make a refundable gift of \$50 (couples can give \$100) to the Constitution Party of Oregon every year, even if you are unable to volunteer in any other capacity. Please consider doing this. Call for details. Hope to hear from you soon...

Democratic Party

The Democratic Party of Oregon is nearly one million strong, fighting for progress and helping elect Democrats from all corners of our state.

Democrats believe that we're greater together than we are on our own—that this country succeeds when everyone gets a fair shot, everyone does their fair share, and everyone plays by the same rules. Our party is focused on building an economy that lifts up all Americans, not just those at the top.

That's why Democrats are working to make progress on issues like health care, good jobs for Oregonians, equal pay, education, and clean energy.

Oregon Democrats have led the nation on resisting the Trump agenda, refusing to cede to his dark vision for our nation's future. This election year gives us the opportunity to take back our nation and continue making progress here at home.

In Washington, D.C., and in Salem, Democrats are passing legislation to support working families, are trailblazers on expanding access to the ballot, and are fighting for all Oregonians, regardless of race, gender, sexual orientation, religion, class, or physical ability.

Oregon Democrats Stand For:

A right to health care for all
 Quality public schools
 Protection for labor unions and workers' rights
 Action to respond to climate change
 Humane immigration reform policies
 Racial and gender equality
 Protecting Social Security and expanding access to pensions
 Growing good jobs for Oregonians
 Criminal justice reform
 LGBTQ+ rights
 Gun safety measures
 Campaign finance reform
 Voting rights for all
 Civil rights for those living with disabilities
 Reproductive freedom

NOTICE OF ELECTION

INDEPENDENT PARTY OF OREGON (IPO)

WILL HOLD ITS 2020 PRIMARY ELECTION FOR OREGON STATEWIDE OFFICES AND PRESIDENTIAL PREFERENCE POLL

ONLINE: APRIL 28 - MAY 12, 2020

INDEPENDENT PARTY MEMBERS AND NON-AFFILIATED VOTERS CAN VOTE AT:

>>> WWW.INDPARTY.COM/VOTE <<<

In 2020, the *ONLY* way for Independent and non-affiliated voters to cast primary votes for partisan statewide offices or express their preferences for President of the United States is to VOTE in the IPO statewide primary election.

The Independent Party's 2020 Primary Election for Statewide Offices and Presidential Preference Poll is not part of the state's May Primary election and is not paid for by taxpayers.

Voters who would like to pre-register to vote and provide verification information can go to www.indparty.com/register.

The Independent Party is Oregon's third-largest political party, with over 124,000 members. Our mission is to represent the interests of Independent and non-affiliated voters by promoting public policies that have broad support but have difficulty gaining traction in government.

Voters who are interested in learning more should visit our web site: www.indparty.com

INDEPENDENT PARTY OF OREGON (IPO):

- is the fastest growing party in Oregon, adding over 124,000 members since 2007.
- is not a fringe party (about 6.5% of all local office holders--city council members, commissioners, mayors--are IPO members.
- supports policies that are good for all citizens, even when it means we share in some sacrifice.
- is fiscally responsible, environmentally aware, and anti-corruption
- is fighting to stop big money from buying government policy at all levels of government.

**If you agree, send a message: CHANGE YOUR REGISTRATION TO INDEPENDENT PARTY.
Search: "Oregon voter registration" and click on "Update"**

We work to:

- Oppose spending on inefficient government programs.
- Reduce special interest and "big money" influence over all government processes.
- Increase transparency in government, especially on how tax dollars are spent.
- Improve education and job training opportunities for Oregonians.
- Protect the environment from all types of insult, including emission of climate-changing gases.
- Protect Oregon consumers from ripoffs and abuse, including medical billing.
- Provide incentives for business creation and expansion in Oregon, but only if the incentives return greater public benefit than they cost.

We have led several fights in the Oregon Legislature for effective disclosure of campaign contributions, for transparency in government, and for more citizen participation in elections.

2020 PLATFORM

Our 2020 expanded platform (www.indparty.com/platform) is based on our member surveys. It aligns public policies with the priorities of ordinary citizens in the areas of health care, education, campaign and ethics reform, and environmental protection.

COMMUNITY BASED CANDIDATES

We support candidates who have the backing and trust of their local communities, not the special interests that dominate the Republican and Democratic agendas. In contrast, our small-donor democracy program provides support services for first time candidates.

WE ARE HAVING AN IMPACT

In 2018, we printed and distributed the main piece of literature to Portland voters in favor of the campaign finance reform measure on the November ballot. It won with a "yes" vote of 87.4%. It limits campaign contributions and requires that political ads name their largest funders.

At the Oregon Legislature, we have led the effort for real campaign finance reform--not the ineffective bills passed by the Democratic majority. Still, The Center for Public Integrity (2015) ranked Oregon's campaign finance system as the worst in America – except for Mississippi.

We have for years urged the Oregon Legislature to strengthen regulations on industrial polluters. Neither the Republicans nor Democrats will confront them. EPA in 2015 revealed that Multnomah County and Portland are among the 1 to 2 percent worst places in America for airborne illness – including lung cancer – due to the high levels of pollution from industrial and vehicle emissions, particularly diesel trucks.

VOTE. THINK. BE. INDEPENDENT.

Libertarian Party

The Libertarian Difference

When you vote for someone, do you typically support what the candidate says, or are you more often voting against someone you think will make things worse?

Did a promise for “hope and change” become more of the same? Did a promise to “make America great again” mean forgetting civility? Does it seem like government isn’t listening to the calm voices explaining that well-meaning policies have real, serious, undesired consequences? That they might make things worse, not better?

If you want something different, you need to support something different – join the Libertarian party, and vote for Libertarian candidates! The Libertarian Party of Oregon conducts its own primary election without taxpayer funding, unlike the major parties who use your tax dollars to benefit themselves. Our members will receive a separate Libertarian ballot to select candidates to advance to the general election.

The Libertarian Party of Oregon has nominated more candidates for public office than all other minor parties combined. We are the only political party offering you a true alternative to the Democrats and Republicans who think they know how to spend your money better than you do and who outlaw what they think are bad decisions. Libertarians are not right or left or center, but we stand on principle and champion your freedom to do what you want with both your life and your money. We want to compassionately unravel our overbearing government while minimizing the pain to those who have been made dependent on it.

Libertarian Party Statement of Principles

We, the members of the Libertarian Party, challenge the cult of the omnipotent state and defend the rights of the individual.

We hold that all individuals have the right to exercise sole dominion over their own lives, and have the right to live in whatever manner they choose, so long as they do not forcibly interfere with the equal right of others to live in whatever manner they choose.

Governments throughout history have regularly operated on the opposite principle, that the State has the right to dispose of the lives of individuals and the fruits of their labor. Even within the United States, all political parties other than our own grant to government the right to regulate the lives of individuals and seize the fruits of their labor without their consent.

We, on the contrary, deny the right of any government to do these things, and hold that where governments exist, they must not violate the rights of any individual, namely:

1. the right to life – accordingly we support the prohibition of the initiation of physical force against others;
2. the right to liberty of speech and action – accordingly we oppose all attempts by government to abridge the freedom of speech and press, as well as government censorship in any form; and
3. the right to property – accordingly we oppose all government interference with private property, such as confiscation, nationalization, and eminent domain, and support the prohibition of robbery, trespass, fraud, and misrepresentation.

Since governments, when instituted, must not violate individual rights, we oppose all interference by government in the areas of voluntary and contractual relations among individuals. People should not be forced to sacrifice their lives and property for the benefit of others. They should be left free by government to deal with one another as free traders; and the resultant economic system, the only one compatible with the protection of individual rights, is the free market.

Be A Libertarian

If these principles appeal to you, we invite you to switch your voter registration to “Libertarian” to join the cause of advancing liberty and freedom. There are never any dues or fees required to participate in our elections or conventions, or to be a candidate for public office, and party leadership is directly elected by our members. There are many opportunities for true grassroots activism.

Pacific Green Party

Here we go again with the false choices presented by the two party system! By the time Republicans and Democrats are done stacking the deck, too many Oregonians will be left voiceless in November, with no candidate who truly represents their views and interests.

Elections fail from the start if they don't offer choices for all the voters. That's why so many choose not to vote. But giving up is not the answer - fight back and find your voice!

The Pacific Green Party is Oregon's choice for the Four Pillars of the global Green movement:

Peace

- Democrats and Republicans believe Congress has unrestricted authority to wage wars, that US interventions benefit other countries, and that western values are inherently good for other people. Both have a long track record of enacting criminally aggressive foreign policy whenever they have controlled government.
- The PGP knows authority over war, sanctions and other acts against national sovereignty is vested only in the UN Security council. Under Article VI of our constitution, we must abide by our treaties and adhere to the UN Charter and Declaration of Human Rights. We will end the wars, coups and aggressive sanctions against Syria, Afghanistan, Libya, Russia, Iran, Yemen, Venezuela and elsewhere. We oppose colonialism and support the BDS movement and Palestinian right of return. These are our responsibilities as US citizens!

Social Justice

- Democrats and Republicans love incremental changes that allow a very few oppressed people to share wealth and power, while the vast majority receive lip service but no tangible result.
- The PGP seeks to end discrimination based on class, race, gender orientation, disability, age, spiritual belief, and all other forms of cultural fragmentation. We understand that this means dismantling the systemic institutions which perpetuate these ills. We support single payer, respect for Native sovereignty, free in-state college tuition, and the rights of all marginalized people. We oppose income inequality, mass incarceration, the drug war, ICE breaking up families, and regressive taxation. We should all be treated fairly and share in the wealth!

Ecological Wisdom

- Democrats are acting like they invented the Green New Deal. Greens introduced that to US politics ten years ago; all Democrats did was water it down. Their pretense is no alternative to the disastrous policies of the Republicans. We don't have time to fool around!
- The PGP is unequivocal in our strong support of sustainability. We oppose LNG infrastructure, coal transport and export, and aerial spraying. We advocate state regulation of greenhouse gas emissions from all sources, including carbon taxes with no cap-and-trade loophole and aggressive new fuel efficiency standards for automobiles. We call for the closure of all remaining nuclear reactors in Oregon. Ban clearcutting and keep our beautiful state forests public!

Grassroots Democracy

- Democrats and Republicans use money as a substitute for the popular will. That's why they love a system where the wealthy and powerful can sidestep weak campaign finance regulation and lavish millions on candidates representing their interests. Other candidates amount to token opposition, allowed to make a show of protest with little chance of assuming power.
- The PGP is not a "protest" party! By giving the voters more choices, we are working to fix the system at its foundation. We don't take corporate money. We use grassroots organizing with the goal of getting the people out of the margins and into control. We were instrumental in circulating the successful ranked-choice-voting initiative now being implemented in Benton County. We are serious about achieving our goals!

Do these sound like your goals too? Join us! We don't need big money, but we do need you. Get started at our website, pacificgreens.org, and @pacificgreens on Facebook and Twitter. Register Pacific Green, find your local chapter or start a new one, and get involved! Your power is in what YOU do.

Progressive Party

We fight for economic justice, human rights, environmental protection, and grassroots democracy.

WE SUPPORT: real campaign finance reform, Medicare for All, equal rights (including same-sex marriage), and \$15 minimum wage for all, now.

WE OPPOSE: the corruption of elections by big money, Wall Street bailouts, the continuing wars in Afghanistan, Iraq and Syria, "corporate personhood," and NAFTA, WTO, and other "free trade" deals that let corporations override labor, consumer protection, and environmental policies.

As a "minor" party, we are not allowed to use the state-run primary election to nominate candidates. We nominate them at Oregon Progressive Party meetings over the summer (3rd Mondays). But we do endorse these candidates in the primary election:

OREGON ISSUES

Real Campaign Finance Reform: Oregon Democrats and Republicans have never enacted limits on political campaign contributions. **Campaign spending for Oregon state offices has skyrocketed from \$4 million in 1996 to \$50 million in 2016 to \$71 million in 2018.** Winning a contested race for the Legislature (about 14,000 votes needed for a House seat) now typically costs over \$750,000 and sometimes over \$1 million per candidate.

The State Integrity Investigation of the Center for Public Integrity (2015) ranked Oregon 2nd worst of 50 states in control of "Political Financing" to avoid corruption, beating only Mississippi.

Get involved at honest-elections.com.

Invest in Oregon: Oregon's \$103 billion of state investment funds should be invested in public works and jobs for Oregonians, instead of being sent to vulture capitalists, corporate raiders, leveraged buyout artists, and fossil fuel corporations.

Republican Party

Oregon is in decline under Democrat leadership

Upon her election Governor Kate Brown promised to increase state government transparency and represent the needs of all Oregonians. Instead, with the help of key Democrat legislators, she has blocked access to public information and repeatedly exhibited a blatant disregard for the will of the voter, even to the point of denying voters their right to vote on issues.

When she does not get her way legislatively, she bypasses the legislative process with executive orders to implement policies that destroy the lives and livelihoods of 10s of thousands of Oregon families, such as happened with Cap and Trade, which does nothing to improve the environment, but will cost Oregonian's dearly every year. Meanwhile, pressing issues like homelessness and the PERS crisis go unaddressed.

Her style is that of a corrupt dictator looking after their own special interests while pursuing a highly partisan agenda driven by out-of-state interests that allows for no compromise. This arrogance and overreach has resulted in eroding freedoms and opportunity for Oregonians and has earned her the rating of 4th most unpopular governor in the U.S. This long line of abuses and toxic political environment can no longer be tolerated by Oregonians.

It is time to replace the governor and her enablers in the legislature.

Help restore Oregon by becoming a PCP in your county

Over 700,000 registered Republicans make up the grassroots of the Oregon Republican Party. Precinct Committee Persons (PCPs) are chosen from among those Republican voters to organize and advocate for Republican principles in their own neighborhoods and communities. They volunteer to help elect Republican candidates to office.

The PCPs also control the Oregon Republican Party. They elect the office holders in their county Republican party, who in turn set policy for and elect the officials of the state party. The PCPs also select the delegates to the state and national Republican conventions.

PCPs, and the county party officers they elect, are the primary organizing and directing force for the thousands of additional Republican volunteers who rise up from the electorate to work on behalf of Republican principles and candidates.

Principles that will allow Oregon to prosper again

- The strength of our nation lies with the individual. Each person's dignity, freedom, ability, and responsibility must be protected and honored.
- Equal rights, law and order, equal justice and equal opportunity for all Americans, regardless of race, creed, sex, age or disability must be preserved.
- Free enterprise has made America a land of opportunity, economic growth, and prosperity. A free market economy is required for a free people.

As a registered Republican we invite you to join us in restoring Oregon!

Fellow Americans,

Nothing is more important to me than putting America first, fulfilling the promises I made when I first announced my candidacy over four years ago.

Under my administration, Congress passed historic tax cuts and relief for hard-working Americans. The Tax Cuts and Jobs Act is the first major tax reform signed in 30 years, providing tax relief for 82% of middle-class families and doubling the Child Tax Credit.

Since you elected me to be your President, our administration's pro-growth policies have generated 6 million new jobs, the unemployment rate has fallen to its lowest point in 50 years, and wages have grown at more than 3% for 10 months in a row. The manufacturing industry created nearly half a million new jobs, with 625,000 new construction jobs being created since I took office.

With my leadership, we also launched Women's Global Development and Prosperity (W-GDP) Initiative, the first-ever whole-of-government approach focused on advancing women's full and free participation in the global economy and allocated \$50 million for the fund.

My administration is also ensuring our Veterans get the services they need and deserve. This started by signing the Veterans Accountability and Whistleblower Protection Act to allow senior officials in the Department of Veterans Affairs (V.A.) to fire failing employees and establish safeguards to protect whistleblowers

One of my proudest moments in office was in August 2017, when I signed the Harry W. Colmery Veterans Educational Assistance Act, this funded the post-9/11 GI Bill, which provided educational benefits to veterans, service members, and their family members, including tuition, fees, books, housing, and additional costs.

It has been a privilege and an honor to serve as your President, and I look forward to serving you for the next four years.

Keep American Great!

I'm an "America 1st, Oregon 1st" candidate. I support the Republican Party platform, 2nd Amendment, right-to-work, legal immigration, medical freedom, right-to-life, term-limits, Social Security repair and campaign contribution reform. All Oregonians are feeling the same pain and together we can build on common ground.

Growing up in Oregon since the 5th grade I know what we want and need. I've worked my entire life. No easy road but plenty of hard honest work. As a single parent of five, I understand its struggles and difficulties and will actively engage in social issues. Jobs and affordable housing, while cutting regulations and over-taxing of businesses, are survival imperatives to help Oregonians and reduce our homeless population.

Our timber industry must become a restoration priority supporting properly managed lands. I have knowledge and a plan for doing so.

The current Socialist agenda in the Oregon Democratic Party is chipping away at our freedoms and liberties one Progressive law after another. This being a Presidential election year is the last best hope for Oregon to return to a true Participatory Democracy - Not a one party state.

My race alone will not secure all we want. We must bring balance back to Oregon. I actively help candidates through the Resurgent Republican movement in every Legislative race.

I will support our President and Party while adhering to our Constitution, Bill of Rights, and the Rule of Law. Only in unity can we restore Oregon as a state of the people, by the people, and for the people!

DO YOU WEAR SANDALS ?

Sadly, this pamphlet satisfies the **weak minded** who crave liberal **virtue signaling** given by people like **hyper-partisans Kate Brown** and **Jeff Merkley** who both prefer **selective meaningless outrage** to actual problem solving.

OR BOOTS?

An example of **working hard** are the **#timberunity** folks who sacrificed time to drive to Salem and straighten things out. Thanks guys, **we owe you.**

Firearms:

I worked legislatively with **Derek LaBlanc** (google Derek LaBlanc Oregon), founder of the **Kids S.A.F.E. Foundation**. Derek designed legislation teaching Oregon 1st graders **safety** around unsecured firearms.

Portland legislators killed the bill because it lacked mandatory trigger locks. **Amazingly irrational reasoning.**

Type 2 Diabetes:

An **epidemic** and food stamps pays for soda. That's **utterly ridiculous on every level** and should **disqualify federal legislators** from any health care policy making. It's one example of **colossal governmental ignorance** that disproportionately **punishes low income children.**

7 Billion food stamp dollars spent on **soda** in 2016. In return, people get **diabetes, obesity, tooth decay,** and massive **health care expenses.** **GOVERNMENT STUPIDITY AT ITS MOST INVINCIBLE,** like many other policies of **Brown and Merkley.**

Some people don't like me, the same ones who call my neighbors white privileged fascists because they enjoy firearms, attend church and don't step over the homeless to drink \$6 lattes every morning (that's you **Portland**). Get yourself together, **your embarrassing us.**

Democrat history is **pro-slavery, pro-KKK, anti women's suffrage,** etc. You shouldn't be surprised that today's **Democrats** want **gun confiscation, socialism and legally enforced random pronoun usage.** We deserve explanations but between using **arbitrary pronouns** and not knowing **what "food" means** they are obviously **struggling with words.**

Anyone who's put on work gloves to clean up a mess knows you tackle the big things first.

- **Natural Resources:** They are vital to creating/sustaining Opportunities for Oregonians. We must support, rebuild and grow our Timber, Fishing, Mining, and Farming industries to increase family-wage job Opportunities for Oregonians.
- **Veterans:** I support programs to provide more Job Opportunities for our Vets. Veterans must be allowed to choose their own medical care provider(s) with all services completely covered by their VA benefits.

I'm running as an "America 1st, Oregon 1st Candidate." I support the Constitution, the Republican Party Platform, religious freedom, 2nd Amendment Rights, medical freedom, right-to-life, legal immigration, term limits, right to work, Social Security repair, campaign finance reform, and a balance budget.

Living in Oregon from the age of 12, I have a strong connection to the community. We need a candidate that can protect us from power grabs that seek to take away our rights. We need someone, in Washington, D.C., who will fight for everyday families, will not back down, and will listen to the people.

I will fight to end sex trafficking and to assist the victims. I will work for logical solutions for affordable housing and the homeless crisis. I will fight to make the tax cuts permanent. I will fight to stop the practice of "let it burn" forest management that has allowed fires to go unchecked threatening the lives of our citizens, their livestock, and land.

Members of Congress shouldn't be insulated from the consequences of their decisions. I'll work to end the special perks and benefits that have made our elected representatives feel like they're above the law. I will introduce legislation to make congressional retirement and health insurance options the same as private citizens.

I will support and defend our Constitution, the President, the Rule of Law and Justice for All. We can bring common sense back to Washington, D.C. and let our voices be heard. But it will take your vote. VOTE Joanna Harbour for Congressional District 3.

I AM A 4th GENERATION OREGONIAN, GREAT GRANDSON OF PIONEERS.

CONGRESSIONAL TERM LIMITS AMENDMENT: 12 years is long enough for any job including Congress. 6 terms as a Rep, or 2 as a Senator, or any combination equaling 12 years. Pay for a Rep should equal that of an E-8, Senators 0-5, WITH NO PENSION!

ECONOMY : The Economy of the U.S is BOOMING, but you wouldn't know it here. Because of Oregon Socialists like Schrader and Brown, we haven't moved forward with the rest of the country. If elected I will put forward a bill banning the export of raw logs from the U.S. I will push for larger fishing grounds, and for the expansion of hydro power.

VETERANS AFFAIRS: If elected I won't have a Veterans Rep. working for me. I will have a special phone line that will go directly to me. I will personally handle Congressional Inquiries MYSELF.

2ND AMENDMENT: During the time that the Constitution was written, there existed deadly weapons that had nothing to do with hunting: hand grenades, grenade launchers, pistols, and blunderbuss'. NONE of these weapons were restricted by the Founding Fathers when they wrote the Constitution. There is a move today to restrict all manner of the things related to firearms. These restrictions are usually put forward by people who have never read the Constitution or fired a weapon.

I WILL SAY NO TO SOCIALISM, COMMUNISM, AND SHARIA LAW! I've been to East Germany and Iraq. I have seen with my own eyes the total destruction caused by these evil ideologies.

"RIGHT TO LIFE, LIBERTY, AND THE PURSUIT OF HAPPINESS": I will always fight for the right of every citizen to be born, to worship their God, and to educate their family in any way that they feel appropriate.

ENSURING WE PRESERVE

ACCOUNTABILITY, TRANSPARENCY, AND INTEGRITY FOR THE PEOPLE OF OREGON

Kim Thatcher will carry on and strengthen reforms enacted when Oregon voters elected Secretary of State Dennis Richardson in 2016 to restore **Accountability, Transparency, and Integrity** to state government. Republicans, Democrats, and Independent voters heard the call that our Secretary of State should:

- Be effective and impartial in administering fair elections where everyone who has the right to vote has the opportunity to vote, and that citizens seeking to change their government have the support they need to access their constitutional right of the initiative and referendum process.
- Use the power of the Audits Division to identify critical financial and performance concerns at every level of government, from Cities and School Boards to State Agencies, and use the findings to make recommendations that ensure critical services are delivered, and taxpayer dollars are well-spent.
- Promote the success of Oregon's 400,000+ businesses and provide the technical assistance they need to grow and thrive.
- Preserve the public record in a manner to create transparency for citizens and the media, so government operations and the funding used for those public programs are understood by the public.

"As our next Secretary of State, you can expect that I will work to preserve and expand upon Dennis' legacy, which voters from all parties now expect and deserve from that office." – Kim Thatcher

Occupation: Financial Analyst, Investor

Occupational Background: Treasurer, Controller

Educational Background: MBA in Finance and Management,

Wharton School of Business, University of Pennsylvania; BA in Economics, Pomona College

Prior Governmental Experience: Lake Oswego City Council, Lake Oswego Budget Committee

Community: Past Treasurer of the Legacy Emmanuel Hospital Foundation, Past Treasurer of USA Olympic Swimming, Past Chair of Northwest Pilot Project, Past Chair Financial Executives International Portland Chapter.

Why You Should Care

Oregon can do more with revenue we already have – without raising anyone's taxes. How we manage our finances determines what we can afford; roads, schools, bridges – even PERS. As an experienced treasurer and analyst, I can offer reliable management of our state's finances to help put our state back on strong financial footing.

A Track Record of Success

As a Lake Oswego City Councilor, I established myself as a budget hawk. With my fiscal leadership, we were able to fund our priorities **without raising anyone's taxes**. We dramatically reduced our unfunded liability for road maintenance, rebuilt our operations and maintenance center, and rebuilt city hall and the police station – **All without asking for a dime.**

Real World Experience

I have been Treasurer of the Legacy Emmanuel Hospital Foundation, USA Olympic Swimming and two subsidiaries of Northwest Natural Gas. I've also worked as an analyst and investor for more than thirty years.

Not a Career Politician

I've spent my entire career in finance for private industry, utilities and non-profits. I've also spent just enough time as a public servant to understand the system without having been corrupted by it. **For me, the Treasurer's position is not a stepping-stone for higher office – it's a way to give back to the state that has given me so much opportunity throughout my life and career.**

"As State Treasurer, I won't just count the money – I'll make your money count."

Protecting Oregon's Families

About Harmony Mulkey

A native Oregonian, and Washington County resident for over 12 years, Harmony Mulkey is a work-from-home mother and active community volunteer. Mulkey is a passionate volunteer, board member, and foster care advocate. As Senator, she will represent Oregonians from all backgrounds and bring a fresh voice to the Legislature. She and her husband live in Aloha with their three children.

Focus on Foster Care Youth

As a former therapeutic foster parent, Harmony is passionate for families. She will fight for Oregon's foster care youth and work to ensure that Oregon's most vulnerable children are cared for. She understands the value of early life skill development.

Real Options

Choice is critical for all Oregonians. Freedom in how we choose to live cannot be stymied by overregulation. This applies to many pressing statewide issues. Harmony has proven to be a well-spoken advocate for two of those choices: medical freedom, and choosing life.

Quality of Education

Harmony believes the process to balance our State Budget must begin with education. K-12 funding cannot keep getting bumped to the end of session by the majority.

As a parent of children in elementary school, Harmony is dedicated to preventing comprehensive sexual education (CSE) curriculum, which pushes a progressive agenda and indoctrinates small children in the public-school system. As your Senator, Harmony will work with families and educators to maintain choice in education.

"Super majority control by one party is bad for Oregon because other voices are ignored. Oregonians like me are not represented in the legislature, and I want to change that." – Harmony Mulkey

Prior Governmental Experience: None

Community Involvement: Mt. Hood Community College Foundation; Mt. Hood Medical Center Foundation; Gresham Chamber of Commerce; Gresham Rotary; Korean War Memorial Association; Korean Society of Oregon

A LEADING VOICE FOR IMMIGRANTS AND THEIR FAMILIES

As a first-generation immigrant, Justin will ensure all immigrants have access to the resources they need to thrive in our community. Justin will lead the way in Salem and oppose any legislation that may harm immigrants and their families.

STANDING WITH WORKING OREGONIANS

As a small business owner, Justin understands the negative impacts of heavy taxation and regulation on small business. Mandated taxation makes it difficult for mom and pop shops to stay open; when businesses close their doors, jobs go too. Justin will fight any unnecessary tax hikes on small businesses and individuals, keeping jobs in East County.

EDUCATION PRIORITIES

Recently, Mt. Hood Community College was forced to cut seven technical programs; programs crucial in kick-starting our children's careers. MHCC is a beacon of hope in our community and their technical and career programs are the backbone of East County. As a graduate from a career and technical program himself, Justin will be a leading voice in Salem for those who pursue an unconventional education path and for comprehensive education funding.

ADVOCATING FOR THE HOMELESS

Homelessness is a multi-faceted issue and throwing taxpayer dollars at a complex problem is not a sustainable long-term solution. If elected, Justin will address key issues contributing to homelessness such as Oregon's restrictive land use system, property tax rates for homebuyers, and access to mental healthcare.

Occupation: Self Employed Mechanical Engineer

Occupational Background: Business Owner, Engineer, Scientist, Inventor, Entrepreneur

Educational Background: Oregon State University, BS in Mechanical Engineering. Professional Engineer

Prior Governmental Experience: None. Just what we desperately need.

Oregon has operated for more than forty years with a short term vision of Oregon's future. "Spend now, pay later, tax now, children can pay tomorrow" has been Salem's mantra for more than a generation. Tomorrow is here. We must replace those who can't see past today with people with logic, sensibility, and long term goals that match what the People want for Oregon's future.

Issues:

PERS: The Government has NO business doing unnecessary projects, such as light rail, until the PERS debt is taken care of. \$Billion projects have got to be placed on hold. The government must cut back instead of the People of Oregon.

No Toll Roads in Oregon. Period: We have paid for our roads. The government will only use tolls for unknown projects that we will pay for fore many years to come.

High Density Housing-Cost of Living: Cost will continue to rise as long as our government continues to prevent us all from living and working in the same communities.

Homelessness: Oregon has a growing problem. We are NOT far behind LA and Seattle. We must admit that the problem is addiction and mental health. Programs have been developed to bring the homeless back to society.

Trump Tax Cuts: Give back to business and the People the Trump Tax Cuts. Keep jobs in Oregon!

Cap and Trade: I am an Engineer, Scientist, Business Owner, Inventor, and Entrepreneur. Cap and Trade makes no sense in every way. The Government has NO right to buy-sell-and-trade the Earth's atmosphere.

Privatized Prisons: Prisons are Government's responsibility. Privatized Prisons turn people's life into a commodity items that just gets forgotten about.

Schools: Vouchers. Let Parents decide what kind of education our children get.

Bring logic, responsibility, and sensibility back into our government by voting for Bob Niemeyer. The People of Oregon are far smarter than the government obviously think.

Educational Background:

Corban University – Bachelor of Science | University of Oregon – Master of Business Administration

Prior Governmental Experience: US Army Officer - achieved rank of Captain | Multnomah County Republican Party Precinct Committeeperson | Bonus Delegate to the Oregon Republican Party

ABOUT JAMES BALL: James Ball is an Oregon native and US Army Combat Veteran with three tours of duty in Afghanistan. James is highly active in his community including sitting on the board of his HOA, volunteering at church and assisting in local political campaigns. With experience as a financial analyst for corporate America and as a small-business owner, James understands the problems we face and is uniquely qualified to represent HD36 as State Representative.

HOMELESSNESS: James will partner with local non-profits and push for common-sense legislation that will address the mental health crisis, provide opportunities for re-entry into society, and create incentives to get people into long-term housing.

FISCAL RESPONSIBILITY: Cover Oregon and the Columbia River Crossing are two recent examples of our current leadership's irresponsibly with Oregon taxpayer money, with almost \$750 million wasted. Money that could have been spent on schools, infrastructure, and programs that benefit Oregonians. James believes we need to get back to being responsible with our resources.

HIGHWAYS AND TOLLS: Oregon's highways should expand as necessary, be well maintained, and remain toll-free. Our State has forgotten the need to protect this vital piece of infrastructure. James believes it's time we got back to caring about our roadways.

ENVIRONMENTAL STEWARDSHIP: Climate change is a real threat facing the world today, but our current leadership wants to solve the problem with regulation that will hurt Oregon's economy and drive industry out of the State. Oregon needs creative thinking that will reduce our carbon footprint without overly burdening the economy with regulation.

OUR BEAUTIFUL STATE needs a change. One-party rule has caused Oregon to lose its way. High taxes, manipulative politicians, low transparency, disrespect for the rule of law, incompetent administration, mistreatment of children, heavy debt, educational failure, healthcare mismanagement, and many other issues plague our political environment. Here is a look at what I will change:

- Heavy taxation causes poverty. Part of the reason Oregonians see tragic cases of debilitated people on our streets is due to the high cost of living. The current tax nightmare is an open attack on the poor and the middle class. The solution is to repeal the worst of the tax damage inflicted by the last legislature.
- "Revenge is a dish best served cold and slowly." This embarrassing comment by our Governor has no place in Oregon politics. I pledge to act with decorum and class.
- Had it not been for the integrity of Ginger McCall, Oregon Public Records Advocate, we would not know how the governor wanted to control one of the few bipartisan agencies in Oregon. Keep the one-party state away from public records.
- Disrespect for the rule of law has infected Oregon government. I promise a new day so that Oregonians get first call on the state's resources.
- Governor Brown announced her fourth leader in four years to head the Department of Human Services. Appointments need to be ratified by the Oregon Legislature.
- Oregon's children should not be abused by government agencies. The solution: review all agencies for competence, seek non-ideologic action, provide the funding necessary.
- PERS debt will destroy the state. Employees must share the burden.
- Educational failure is not an option. Find success elsewhere, and repeat.
- Healthcare can be supported without financially breaking Oregonians. Work with healthcare professionals for comprehensive treatment.

As a MEDEVAC helicopter pilot who served in Syria in 2017, and the Pendleton flooding in 2020, I have answered the call of public service. I'm ready to answer again as your next State Representative.

A Local Candidate Focused Your Priorities

I've lived in Milwaukie my entire life, from being born here to raising our diverse family. As a fourth generation Milwaukie resident, I understand our neighborhoods and want your family to enjoy them with the same inclusion and opportunity I've experienced.

Compassionate Solutions for Houseless Oregonians

We must have a compassionate reaction to help with addiction and mental illness to bring the disenfranchised to self reliance. There are successful programs being implemented - but most are triggered when someone commits a crime. We need to expand recovery options for those plagued by addiction to get off the streets before they commit a crime.

"My opponent has an agenda driven by special interests and extremists. It's time for a change in the Legislature if we want to see fewer sleeping bags on the pavement, more funding for education, and real solutions for traffic congestion."

AMELIA SALVADOR

OREGONIANS DESERVE BETTER

ABOUT AMELIA SALVADOR

Amelia is a first generation, native Oregonian who will fight to restore balance and inclusion to our state legislation and advocate for affordability for all Oregonians. She's a life-long community activist and as a single mother of five grown children, expecting her first grandchild, she will prioritize and protect the best interest of her community.

HOMELESSNESS

I refuse to condone the problem, but would rather be proactive to find positive solutions. Third-world conditions, overnight camping in streets, unsanitary heaps of garbage is unacceptable and inhumane. I'd work collaboratively with Local City, County & State jurisdictions to resolve this issue, but not at the expense nor at the penalty of our citizens.

ECONOMIC DEVELOPMENT

I know the importance of effective community and economic development and the positive impact it has on our community. We truly thrive and prosper when we create new opportunities for our citizens by offering vital resources, bring new amenities, provide more housing, and bring more job opportunities into our region.

AFFORDABILITY

I want to continue to live in Oregon and it's worth fighting to keep the cost of living here affordable. I will not allow the trickle effects of over-taxation to affect our daily living expenses as Oregonians. I will protect to keep our gas and groceries affordable.

ACCOUNTABILITY

The answer is not to ask more money from our tax payers to resolve financial issues. The answer is to appropriately allocate and budget what the Government currently receives from Us. I will advocate for a more efficient, effective checks & balances system in Salem.

Today's high levels of taxation burden society, reflected in rising homelessness, crime, trash, and drugs. Many of our neighbors are losing their homes and many more cannot afford to provide their families with nutritional food—not to mention a nice vacation. Owning a company is not even in the picture.

We continually tell our elected officials in Salem that we do not want any more taxes, but our cries go unheard and they continually vote for more taxes. Oregon needs leadership that will give hope to its constituents. As an elected official, I will not vote for any more taxes. I'll work to get spending under control and bring back Oregon's tax rates when society was thriving.

Transparency will be a must in my office, because you deserve to know how your taxed dollars are being spent. Oregon has got to stop spending millions on transportation planning projects that never produce more vehicle capacity, and stop closing traffic lanes all over Portland.

There is government-owned land all over Portland that can hold the homeless in orderly, economical ways, reducing problems with crime and garbage. Public funds should not go to assist foolish leaders who hamstringing our police from maintaining law and order.

I will work to repeal multiple layers of redundant laws that are driving up housing costs. The time has come to see that in Oregon, many of our problems don't need more law and regulation. Instead, we need to prune back the tree of Oregon government to get the fruit of good government.

Bringing People Together. Getting Things Done.

As your State Representative, I fought for family-wage jobs, improving our schools, and protecting our environment. Those are still my top priorities because they matter to us all. I'll always put the needs of our community ahead of partisan politics and influence of special interests.

Investing in education: As a father of two young children, I know it's critical we fund education first, and make sure public schools offer robust choices, including career-technical education. In the Legislature, I sponsored legislation that focused on recruiting, retaining and mentoring teachers. My commitment lies with supporting our students, parents and educators.

Promoting economic growth: Without small business, Oregon's economy suffers. As a House Economic Development and Trade Committee member, I advocated for policies to help develop and grow businesses in our community. Attracting stable, good-paying jobs to our District continues to be my focus.

Protecting our environment: Mt. Hood. Multnomah Falls. Some of the most beautiful sights in the nation are in our District. We have a responsibility to preserve these wonders for future generations to enjoy. That's why I sponsored legislation and voted for additional funding to protect air quality in Oregon. I look forward to working with community leaders to promote sustainability and stewardship.

Planning for emergencies: As a retired law enforcement officer and military veteran, the safety and security of communities is always on my mind. As our State Representative, I helped secure funding for the local Sheriffs' offices for recovery training and equipment.

President

Joseph R Biden

Democrat

Occupation: Candidate for President of the United States

Occupational Background: 47th Vice President of the United States (2009-2017); U.S. Senator from the State of Delaware (1973-2009)

Educational Background: University of Delaware, Syracuse University College of Law

Prior Governmental Experience: 47th Vice President of the United States (2009-2017); U.S. Senator from the State of Delaware (1973-2009); New Castle County Council (1970-1973)

Former Vice President Joe Biden believes we are in a battle for the soul of this nation. The stakes in this election couldn't be higher.

Joe's parents instilled in him that when you see an abuse of power, it's your obligation to stand up to combat it. That's motivated him his entire life - as Senator from Delaware for 36 years and President Obama's Vice President for 8 years.

Joe stood shoulder to shoulder with President Obama to pass the Affordable Care Act, expanding health care for 20 million people. He wrote and passed the Violence Against Women Act, when domestic violence was considered a family matter. He took on the NRA and won - twice - including passing the assault weapons ban. And, he started talking about climate change as a moral issue of our time far before it was a mainstream issue.

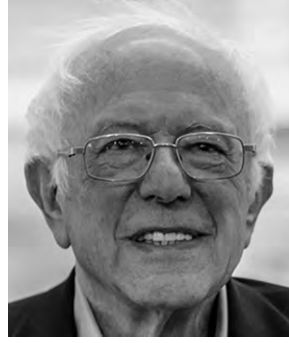

His vision for America is based on equal opportunity for all. Treating everyone with dignity. A middle class where everyone - regardless of race, gender, sexual orientation, or disability - comes along.

As president, Joe will expand on the historic progress of the Obama-Biden administration and rebuild a strong, inclusive middle class. He'll protect and build on Obamacare with a public option. He'll restore our standing in the world.

Joe has a proven ability to bring people together and to deliver for the middle class. At this defining moment in our nation's history, it's going to take Joe's strong leadership to unite America and move our country forward.

Bernie Sanders

Democrat

Occupation: United States Senator from Vermont

Occupational Background: Bernie worked as a carpenter and documentary filmmaker before being elected Mayor of Burlington.

Educational Background: Bernie attended Brooklyn College and the University of Chicago, where he was a leader in the fight against housing discrimination.

Prior Governmental Experience: Senator Bernie Sanders served Vermont in the House of Representatives for 16 years, and in 2018 he was re-elected to his third term in the U.S. Senate. He first ran for President in 2016, and together with millions of people, started a political revolution.

I am running for president as part of an unprecedented grassroots campaign to not only take back the White House, but to build a movement to finally make the progressive change we need.

Our campaign is about taking on the powerful special interests that dominate our economic and political life, including Wall Street, health insurance corporations, the fossil fuel industry, the military industrial complex, and the private prison industry. Our campaign is building a movement to end racism, sexism, homophobia, religious bigotry and all forms of discrimination. Our campaign is about the humane and just treatment of immigrants. Our campaign is about transforming our country and creating a government based on the principles of economic, social, racial and environmental justice. Our campaign is about creating a government and an economy that work for the many, not just the few. Our campaign is about guaranteeing health care as a human right.

Make no mistake about it. Special interests with extreme wealth have unbelievable power and they want to maintain the status quo. The only way we will win this election and create a government and economy that work for all is with a grassroots movement - the likes of which has never been seen in American history. They may have the money and power. We have the people.

And together we will defeat Donald Trump.

Elizabeth Warren grew up in Oklahoma on the ragged edge of the middle class. Her dad sold fencing and carpeting at Montgomery Ward, and ended up as a janitor. She has three older brothers who served in the military. When Elizabeth was twelve, her dad suffered a heart attack, putting him out of work. The medical bills piled up and they had lost the family station wagon, when her mom got a minimum wage job answering the phones at Sears. That job saved their home, and it saved their family, but now the minimum wage can't support a mama and a baby.

Elizabeth has spent her career studying why America's middle class has been hollowed out. She fearlessly takes on giant corporate special interests like big banks and credit card companies that cheat consumers and undermine small businesses. She goes after shady for-profit schools that rip off students, veterans, and taxpayers. She relentlessly fights to end the influence of big money in politics. And her plans target California's biggest issues, like investing in affordable housing, fighting climate change, cancelling student loan debt for millions, and creating a pathway to citizenship for families.

Elizabeth got to become a teacher, a law professor, and the senior senator from Massachusetts because America invested in kids like her. She is in this fight to build an America that works for everyone.

Elizabeth and her husband Bruce have been married for 38 years and have three grandchildren and a golden retriever named Bailey.

The son of a union mechanic, Jeff attended public schools, was the first in his family to go to college and still lives in the same blue collar neighborhood he grew up in. He never needs to be reminded who he's fighting for.

But the fights keep getting harder, because the privileged and powerful have rigged our economy and democracy to enrich themselves. Here's how we fix it:

Take on political corruption so the people are in charge – Put an end to dark money, partisan gerrymandering, and voter suppression.

Create good-paying jobs – Build modern infrastructure and rural broadband, nurture manufacturing, end tax breaks for corporations that ship jobs overseas.

Invest in thriving families – End the outrageous gouging on drug prices, tackle the mental health crisis, and provide seamless coverage for everyone. Massively increase affordable housing. Lower class sizes and make college debt-free.

Meet the climate chaos challenge – Rapidly build a renewable energy economy with union labor to quickly stop carbon pollution. Re-assert US leadership to make sure other countries step up to meet this global emergency.

Create opportunity in all of Oregon – Jeff fights for all of Oregon, delivering dredging for coastal ports, disaster assistance for farmers and ranchers, and investments in rural broadband; saving rural post offices; and catalyzing collaborative solutions to timber and water challenges to create jobs and improve ecosystems.

From exposing Trump's evil policy of locking kids in cages, ending Wall Street's worst predatory mortgages, introducing the Equality Act to outlaw LGBTQ discrimination, Jeff never shies away from taking on the powerful to deliver opportunity, justice, and a brighter future for all.

POLICY. PASSION. HUMANITY FIRST.

POLICY

I support universal basic income, universal healthcare, and human-centered capitalism. We need to change the measurements of our economy to include mental health and well-being, freedom from substance abuse, and clean air and water. I promise to focus on policy over politics and put our people first.

PASSION

I grew up in Southern California in a middle-class suburb. In my life, I've been a legislative aide in Sacramento, a student, and an activist. I've also been an English teacher in Taiwan and South Korea. Most importantly though, I've struggled in this current economy like so many of us have. I graduated from college as the recession was just beginning. I know what's happening, and I know what we need to do to fix it. It's now time for working people like me to step up and help usher in a new era of politics where we value people over profit. I recently moved to Hillsboro with my wife, and I am excited about the opportunity to represent my new home and enact policies that will help my neighbors and the whole country.

HUMANITY FIRST

Our country is going through what experts call the Fourth Industrial Revolution. Many common jobs are subject to automation and we need leaders in Congress that understand what is happening with technology. I've worked in factories, call centers, and in the gig economy. I know that these jobs are subject to loss via automation. I have lived the struggle of the normal person, and I will fight each day for the people in my district to have a universal basic income, universal healthcare, and to be valued inherently as humans as our economy rapidly changes.

Taking On Our Biggest Challenges

For the last three years, this administration has reversed progress on our nation's biggest problems, turning them into crises. The good news is this election will give us the chance to tackle them head on. I've been organizing at home, around the country, and in Congress to do just that. My top priorities are:

Climate Crisis

We need to declare a climate emergency and pass a Green New Deal. I helped write both these critical plans.

Healthcare

I support a strong universal health care system that will lower costs, provide better health care, and cover everyone!

We must also tackle the high cost of prescription drugs. Last year, I led the historic and successful effort to defeat the big pharmaceutical companies, breaking their anti-competition stranglehold that locks in high prices.

Housing

We have a housing crisis across the nation and especially in Oregon. It is time to get the federal government back in the game.

I have developed a detailed, comprehensive housing plan to solve the housing crises and have organized a growing coalition to get it done.

While these are the most critical issues, they are far from all that I am working on to move America and Oregon forward. Of course, in order to do that, we must protect our democracy and rebuild our institutions – starting with requiring paper ballots and getting big money out of politics.

Working together we will get this done. We have no other choice.

Get the details on these plans, other critical issues and how you can join the fight at EarlBlumenauer.com/priorities

A sixth generation American and an immigrant at the same time, Albert Lee was born in South Korea, where his African-American Army dad met his Korean mom during the Vietnam War. Raised in working-class suburbs of St. Louis, next door to Ferguson, his family endured domestic violence and subsequent homelessness. He attended five high schools in three States. With the help of many people, he became a first-generation college & law school graduate. He served in the US Army & selected into the Old Guard at Arlington National Cemetery. He worked in international trade before moving to Portland in 2005.

An Oregonian by choice, he is standing up to represent the people of the Third District of Oregon because democracy requires choice, something missing here for more than a generation. We face a series of crises that have been allowed to fester and grow, including homelessness, the lack of living wages & affordable housing, and the climate emergency that require bold action now. Lastly, it is time that we replace this oligarchy, this plutocracy of elite, career, multimillionaire politicians with citizen representatives, who know the struggle, who won't take corporate contributions, and who will truly fight for and represent the people. Oregon, America, moving forward

My name is Blair Reynolds, an entrepreneur, veteran, and family man, and I am ready to represent you in Congress.

I am running because I am done watching our democracy crumble in front of our eyes, torn apart by cravings for power. Our Congress would rather grandstand for soundbites than put the work in to pass legislation. Progressive change is seen as outlandish, while our national values are pulled further into Conservatism.

We have been seeing the same struggles between Democratic centrists and Republican conservatives happening for too many decades. Our country needs to move forward, and prepare for the future. A future where your value and right to livelihood isn't determined by your employer.

I am running for everyday people, with a platform of three basic principles.

Universal Basic Income: \$1,000 for every American over 18 every month. This will lift the floor of poverty, help families pay for unexpected expenses, help launch small businesses, and truly give Americans what we cherish most, freedom.

Universal Health Care: We are tied to our employers whims, and insurance agencies that determine whether our medical maladies are covered. Even the well-insured can find themselves bankrupted when insurance doesn't cover emergencies that happened out of network. The very nature of insurance is to reduce risk for their business. We need healthcare. For all. NOW.

Democratic Reforms: Our incumbents stay in power with corporate PAC funding, corrupt parties, and voter suppression. I would champion legislation to require mail-in paper ballots nationwide, and work to dismantle the big money two party system from the inner workings of the House and Senate.

I am not a career politician backed by Big Pharma and Corporate PACs, I am a man determined to make this country a better place for all, for YOU.

This is the way, forward.

Kurt Schrader: Oregon Values. Real Progress

Better Healthcare, Lower Costs – Kurt has worked for universal healthcare, defended and strengthened the Affordable Care Act and passed legislation to lower prescription drug costs.

Fighting Climate Change – As an organic farmer, Kurt understands first-hand the devastating impact of climate change here in Oregon. That's why he is pushing to rejoin the Paris Climate Accords and is sponsoring a plan to drastically reduce carbon emissions from the nation's power plants.

Strengthening Education, Building Opportunity – Kurt has been a leader in strengthening career and technical education, increasing funding for Head Start, Pell grants, and special education and working to reduce the cost of student loans.

Endorsed by Oregon Education Association

Compassionate, Fair Immigration Policy – Kurt believes no child should be separated from their family. He sponsored legislation to end the President's cruel family separation policy and reunite migrant children with their parents. Kurt supports protecting those undocumented Dreamers brought to the U.S. as children.

"Congressman Schrader believes health care, including reproductive health, is a fundamental right and no politician should come between a person and their doctor. That's why we need Kurt in Congress." –Alexis McGill Johnson, acting President and CEO, Planned Parenthood Action Fund

Kurt is always accessible, holding community meetings and town halls throughout the 5th district. And he puts people first, cutting through red tape and returning over \$5 million in stalled Social Security payments, delayed IRS refunds, and denied VA benefits for Oregon's warriors.

"I am honored to serve as your voice for Oregon. I will continue working hard to turn our values and priorities into real progress in Washington D.C. I appreciate your vote"

- Former Secretary of State and Governor Barbara Roberts

Mom. Civil Rights Attorney. Fighter.

Growing up poor in rural Oregon, Dufur and The Dalles, opportunity seemed out of reach. Oregon’s public schools changed that. I’ve worked every day to deliver for the Oregonians who have given me so much.

As State Representative and Senator, I have:

- **Increased investment in our public schools,**
- **Raised wages and passed paid family leave,**
- **Made housing and healthcare more affordable, and**
- **Expanded voting rights.**

While Oregon has made progress, Trump’s attacks on working people, foreign governments attacking our democracy, and Republican politicians walking out on the Oregonians they represent is putting opportunity out of reach for too many.

Oregon’s next Secretary of State will face challenges unlike any we’ve seen. She must be prepared to fight threats to our democracy today and build defenses against those of tomorrow.

I’m ready.

As your Secretary of State, I will protect the integrity of:

- **Our elections,** ensuring **every vote counts**, every voter has faith that it does, and elected leaders show up for work and honor your votes.
- **Our public records,** closing the **“secret ballot” loophole** in Salem and making government transparent and accountable.
- **Our public investments,** using audits to ensure public services serve marginalized communities and mitigate climate change’s impact.

- Marc Abrams, Former Chair of the Democratic Party of Oregon
Portland Tribune, 2/27/2020

Ben's Priorities:

Get Big Money Out of Politics and Combat Income Inequality. We need to pass campaign finance reform now to curb corporate power, and we need to make sure corporations pay their fair share in taxes.

Experience and Commitment

As your State Senator for District 21 I have successfully passed critical progressive legislation and am proud to continue to serve our community in Salem.

Strengthening Public Schools

I served on the committee that traveled across the state to forge consensus around a historic increase in school funding through the Student Success Act. I will continue to ensure that schools have the necessary resources to create opportunities for all.

Protecting Working Families

Working families are the foundation of our communities and deserve leaders who ensure they thrive. I led the fight to provide fair workweeks for workers and to create the first Paid Family and Medical Leave program in Oregon.

A Healthy Environment

Climate change is the issue of our time. I fought to address greenhouse gas emissions and will continue to fight for the health of our air, water, and ecosystems, and safety in our schools and workplaces.

Opportunity, Equality, Choice

Amid the current backdrop of partisanship, I won a unanimous vote in the Oregon Senate to establish the Equal Pay Act, the most progressive equal pay law in the country. I will continue to advocate for the vulnerable, work to remove barriers to ensure opportunity for all, and fight for a woman's right to choose.

Accountability, Efficiency, Transparency

I will work for greater efficiency and transparency in government, as well as campaign finance reform to give everyone a voice in elections, not just large donors.

Thank you for your trust and support. It is an honor to serve you in the Oregon Senate. I respectfully ask that you vote for me in the May Primary.

The future provides potential and challenges. I plan to contribute to the optimism- the sense of hope that Oregonians have as our civic DNA. We know how to work together. Our present flaws are not forever with us. Our social contract does not expect everyone to agree. It does expect everyone to show up.

I am especially proud of my work in the Senate to bring stability and extra focus to Oregon Schools. For the first time since 1991, we provided significantly more resources for a comprehensive education and targeted systems for vulnerable children in the 2019 Session.

Long and intense discussions helped us pass legislation:

1. "Hate Crime" now includes individual to individual assaults
2. Track who police encounter to see if ethnic profiling is occurring
3. Psychological evaluations and Wellness programs for all Oregon law enforcement officers
4. Simple expungement system for those with cannabis convictions, that would no longer be crimes.

I continue my effort (unanimously passing the Senate twice) to provide certainty to discipline decisions of law enforcement officers by prescribing arbitrators to follow contract guidelines.

We must directly address Greenhouse Gases.

Housing's many challenges require innovation and compassion.

Recognition is needed for Oregon's colleges and universities
Mental Health support capacity must increase.

Underlying all of this: How do we keep ALL Oregonians healthy and safe?

I plan to be a part of decisions about how our 2021 political redistricting map is drawn.

I ask, again, Please vote for me.

COMMITTED TO COMMUNICATION

It's more important than ever for legislators to be reaching out to constituents continually. Through monthly constituent coffees, town halls, newsletters, one-on-one meetings, and social media, I remain committed to keeping you informed, helping you engage in the process, and seeking your advice.

A CHAMPION FOR CLIMATE ACTION

Oregon MUST step up, be a leader, and pass comprehensive climate legislation that works for ALL of Oregon, holds polluters accountable, creates new pathways for low-income Oregonians, and contains strong labor protections. As the Legislature's leader on climate action, I know that young people everywhere are counting on us to keep fighting for their futures.

AN ADVOCATE FOR JUSTICE FOR ALL

Those who have made mistakes need a second chance to be productive members of our communities. Leading legislative efforts on reentry, juvenile justice, and prison education, I'm working to implement research-based policies that promote fair treatment AND make our communities safer. I will always advocate for our immigrant communities, LGBTQ Oregonians and reproductive equity for all.

FIGHTING FOR HEALTH CARE FOR ALL

I have repeatedly introduced legislation to create a universal health care system for Oregon, leading to the creation of the new Task Force on Universal Health Care. I will keep fighting to rein in the cost of insurance and prescription drugs, shift our focus toward preventive medicine, and train the health care professionals that we need.

STRENGTHENING PUBLIC EDUCATION

I know first-hand that public education can transform lives and build communities. We need affordable pathways to higher education, apprenticeships, and good jobs. It's time to support higher education and put a lid on student debt.

I am honored to represent the people of House District 31. I will continue to provide strong leadership and be the effective voice we need in the Legislature.

Affordable Housing

I will continue to use creative solutions such as my abandoned house legislation to answer the need for low cost homes for Oregonians.

Education

The students of today truly are the leaders of tomorrow, which is why I support legislation that provides for a strong K-12 foundation, and gives students both Career Vocational and Higher Education options.

Healthcare

All Oregonians should have access to decent, affordable healthcare. I voted to extend Medicare benefits and will continue to support all efforts to make Oregon a leader in offering cost-effective healthcare.

Economic Security

Family wage jobs and a vibrant business community are the bedrock of a strong economy, which is why I support Connect Oregon and voted to protect Oregon's Apprenticeship Program.

We need more ACTION – I take ACTION

Everything affects health. Poor housing, bad air quality, stress at work and childhood trauma. I've heard the stories from thousands of families – and that's why I take action.

I FIGHT FOR PEOPLE: I am a doctor who champions health-care for all. I advocate for patients with their families, schools, insurers and hospitals. I see firsthand that housing is healthcare. I provide reproductive health services, including sexual health and contraception. I know the climate crisis disproportionately affects the health of vulnerable Oregonians, and call for aggressive action on climate change.

I GET STUFF DONE to save lives: As a leader in Moms Demand Action for Gun Sense, I have recruited and trained hundreds of everyday people to pass laws that reduce gun violence. I am the founding Chair of State of Safety Action, a gun violence prevention group. I am a chief co-sponsor of the 2020 ballot measure requiring that guns are locked when not in use.

I DO MORE than talk: I founded Indivisible Oregon to fight the Trump agenda. I helped flip the US House in 2018 by organizing canvasses, fundraisers and phone banks.

I am not a career politician. I bring a new perspective. I have lived my life taking care of people - a calling that requires relentless advocacy on behalf of Oregonians. I will bring my fighting spirit to Salem.

ROB FULLMER: STRONG VISION. STRONG VALUES.

I know the hardships Oregon working families face. Raised by a single mom, I attended 10 different schools in three states but found opportunity in the classroom.

At PSU, I've worked to **strengthen public education**, and **pushed for better pay** and fair workplaces for Oregonians.

I'll lead on:

COMBATING CLIMATE CHANGE

I'm committed to maintaining the livability of our neighborhoods while creating a green energy future, and **I won't take corporate money - now, or ever.**

FIGHTING INEQUALITY

I'll act to strengthen workers' wages, lower the costs of healthcare and quality childcare, fund affordable housing, provide resources for mental health and addiction services, and protect the rights of all Oregonians against bigotry and exclusion.

STRENGTHENING SCHOOLS

On Oregon's Higher Education Board, I advocated for stable funding to reduce tuition costs and promoted career and technical education. As your representative, I'll prioritize equity and inclusion and investments to make college more affordable.

Occupational Background: Government Affairs

Educational Background: University of California,

Berkeley, BA

Prior Governmental Experience: Co-Chair Oregon Complete Census Count Committee; PEBB Board Member; Oregon Commission on Hispanic Affairs; Willamette Falls Locks Commission; District Aide, U.S. Congresswoman Darlene Hooley

For more than 20 years, Andrea Salinas has been on the frontlines of policies that protect women and children, working people, seniors, and the environment. As a first-generation American, she brings the spirit of hard work and determination, instilled in her at a young age, to her efforts in the legislature. She knows that a quality education and fair employment opportunities provide the building blocks for stronger communities.

Universal Access to Health Care

As the Chair of the House Health Care Committee, Andrea has learned that health care costs increasingly consume a larger portion of families' take-home pay and small business profits. That is why in her first year, **Andrea championed and passed bills to lower the price of prescription drugs and to expand access to quality care for all Oregonians.**

Keeping Families Safe

Domestic violence, sexual harassment, and gun safety issues are at the forefront of Andrea's work. Ninety-four percent of women who experience harassment at work do not file a complaint, and of the who do report harassment, seventy-five percent experience retaliation. Last session, **Andrea championed efforts to protect Oregonians from workplace harassment as well as gun violence, and passed the nation's strongest Paid Family and Medical Leave policy.**

Climate Protection

Protecting Oregon's abundant natural resources is foundational to our state's future sustainability and economic development. **Andrea is committed to reducing greenhouse gas emissions in Oregon and investing in clean energy technologies and family-wage jobs** needed to leave a healthy legacy for our children.

Karin Power: A Champion for Our Community Values

Safer Communities and Better Schools. Following decades of disinvestment in our public schools, Karin fought to pass the Student Success Act, landmark legislation that will invest \$1 billion a year in early education and K-12 programs. Karin also supported significant criminal justice reform measures in 2019, to increase public safety and address systemic racism. This included strengthening hate crime laws and reforming youth sentencing to give deserving kids a second chance. In 2021, Karin will continue to advocate for common sense gun safety measures and fight back efforts to chip away at funding for our schools.

Fairer Workplaces. As the youngest parent in the Legislature, Karin has led bipartisan efforts to modernize laws for working families. She championed new pregnancy protections in 2019, and expanded workplace breastfeeding laws so all new parents have the right to feed their babies. Karin voted to pass the nation's most inclusive statewide Paid Family and Medical Leave Insurance program, so no Oregonian will have to decide between paying their bills and taking care of a sick loved one or new baby.

Addressing the Climate Crisis. In 2019, Karin led the way in passing bipartisan legislation to phase out older, polluting diesel truck engines in the Portland Metro area. Karin will continue to fight for urgent and comprehensive climate action to help Oregon transition to a cleaner energy future. She championed this work in 2019, and will continue to hold our largest polluters accountable and lead efforts to clean up our air and water.

This year, women across this country are standing up to resist Trump and corporate influence.

I'm one of them.

Unlike the incumbent:

I won't cut anyone's pension

because I value every teacher, nurse, firefighter, and public servant.

I won't take a dollar from the fossil fuel industry

because we only have one planet.

I'm not funded by the landlord lobby

because I know what it is like to rent.

I'm running to fight just as hard for Oregonians as I fought as the first woman to serve in the US Army Indirect Fire Infantry. After a deployment to the Middle East, I was forced out of the military by Trump's trans military ban. I'm the first trans woman to run for the state legislature in Oregon's history, but I'm not just running to be the first trans representative. I'm running to fight for all Oregonians. That's why I fight for:

OREGON GREEN NEW DEAL

We can meet our climate goals, while centering justice and equity for workers and front line communities.

COMPREHENSIVE CAMPAIGN FINANCE REFORM

We won't get the big structural changes we need until we get corporate money out of politics.

AFFORDABLE HOUSING

Homeowners and renters have a common goal: to live in a stable, affordable, safe home, and raise our families with dignity.

DEFENDING PUBLIC EMPLOYEES AND UNIONS

Unions deserve representatives who fight for them just as hard as they fight for our community.

It is my honor to represent inner SE and NE Portland. Our district deserves leadership that's willing to lead the way on progressive change that improves peoples' lives, and that's what I've done.

"Model Oregon progressive Democrat"

- Willamette Week, June 26, 2019

I am proud of the progressive change we've made including:

- **Ending no-cause evictions** and making it easier to build **affordable housing** units;
- Passing the country's strongest **Paid Family and Medical Leave** policy, ensuring every worker has time to care for themselves or a loved one;
- **Raising our minimum wage, passing a tough equal pay law, guaranteeing paid sick leave and a secure retirement;**
- **Keeping guns out of the hands of domestic abusers, children, and people who are a danger to themselves;**
- **Investing an additional \$1 billion a year in pre-K-thru-12 schools from corporate taxes,** helping lower class sizes, ensuring every child has a nurse and counselor, and bringing back art, music and PE;
- Making it easier for **transgender and gender-nonconforming Oregonians** to change their legal documents.

But our work is not done. I'll keep championing progressive priorities including:

- **Rent control and rental assistance** for working families and more funding for homelessness services;
- **Eliminating racist approaches to criminal justice;**
- **Universal, single-payer healthcare and lower prescription drug costs;**
- **Eliminating tuition** at Oregon's public colleges and universities;
- **Bold action on the climate crisis;**
- A tax system that's fair, where **corporations and the wealthy pay their fair share.**

Only a short time ago, it may have been difficult for many of us to imagine the struggles and realities we currently face across our Nation. In the face of this adversity, it is ever more important, in my opinion, to continue to push here at home for the shifts and changes that we wish to see in our own communities.

My office remains committed to lifting up unheard voices and speaking truth to power, and our work will continue to reflect these values.

TINA KOTEK:

**A PROGRESSIVE LEADER WE CAN COUNT ON,
A FIGHTER ON OUR SIDE**

FIGHTING FOR OUR KIDS AND FAMILIES

- Passed the historic Student Success Act, creating a new tax on big corporations to strengthen early childhood education and K-12 schools.
- Established a paid family and medical leave insurance program to help workers take care of themselves or family members during tough times.
- Increased protections to fight discrimination or harassment in the workplace.

FIGHTING FOR HOUSING AND HEALTH CARE

- Protected renters from excessive rent increases and established just-cause standards for evictions.
- Prioritized the housing crisis by allocating millions to increase the supply of affordable housing and support local emergency assistance and shelters.
- Stabilized funding for the state's Medicaid program, set new guidelines for hospitals to provide charity care, and increased resources for mental health services.

FIGHTING FOR FAIRNESS AND JUSTICE

- Reformed our juvenile justice system to make sure youth offenders have a path to rehabilitation and are held responsible.
- Allocated new resources to the public defense system to ensure adequate legal defense to anyone who can't afford it.
- Made it easier to expunge previous marijuana offenses that have disproportionately impacted communities of color.

FIGHTING FOR A SAFE AND HEALTHY FUTURE

- Led the charge to reduce the state's carbon emissions and be better prepared to respond to climate change.
- Passed new diesel pollution regulations for the Metro area to improve air quality.
- Created new protections for trains carrying hazardous materials and auto-dismantling companies that endanger the community.

Now, more than ever, we must stand up for our values and for the future we want to leave our children and grandchildren.

It's an honor to fight for you." – Tina Kotek

Like many of you, I'm horrified by the current president's continual assault on our institutions and our democracy. From mishandling public health, to eviscerating environmental protections, to ever more dehumanizing attacks on immigrants and refugees - these are not our values. And these tactics are trickling down to Oregon: Republican legislators repeatedly abandoned their responsibilities by walking out in the last two legislative sessions, putting Oregon's democratic process at stake. Despite Republican obstructionism, I am proud of all we have accomplished together, including this in the 2019 legislative session:

INVESTING IN STUDENT SUCCESS

After decades of chronic underfunding, I led the passage of a \$2 Billion investment in public education, the Student Success Act. This policy builds a model public education system through sustainable, accountable investment that ties funding to outcomes and closes opportunity gaps for historically underserved students. Funded by a tax on large corporations, it will create unprecedented investment in early childhood education, support students' mental and behavioral health, and build a more equitable education system.

SAFE AND AFFORDABLE HOUSING

We established critical protections for Oregon renters by establishing a just-cause eviction standard and prohibiting extreme rent increases. The legislature continues to invest in affordable housing, programs to lift people out of homelessness and provide more "missing middle" and less expensive housing options.

MORE JUSTICE FOR ALL

Every Oregonian deserves the same fundamental rights, regardless of race, religion, gender expression, age, or sexual orientation. I've helped pass drivers licenses for all Oregon residents, reforming mandatory minimum sentences so juvenile offenders have a chance at redemption and rehabilitation, strengthening our hate crimes laws, and investing in our public defense system.

I am honored to represent the people of Northeast Portland and Maywood Park, and I ask for your vote so we can continue moving Oregon forward.

I'm proud of the unique perspectives and experience I'll bring to the legislature, where I'll be a proven, progressive voice for all of us.

For the past four years I led Impact NW— a leading provider of services to our homeless population, support for vulnerable seniors and families, and critical early learning opportunities for low income kids.

As County Chair I helped establish one-stop mental health and addiction services for people in crisis and survivors of domestic violence, and invested in roadway and bridge improvements.

I've been appointed by two governors to lead electric vehicle infrastructure work, and make sure that clean transportation options are both affordable and equitable.

I'll bring this progressive, solutions-oriented focus to Salem, where I'll build on my record:

- Bring homeless services and housing affordability to scale with additional state resources; this isn't simply a "Portland problem";
- Be a champion for our schools and teachers, and make quality early learning affordable for all;
- Make climate change a real priority by immediately putting more electric buses and cars on our roads and fighting for clean, renewable energy;
- Be an outspoken advocate for health care. Three years ago I suffered a stroke following an accident. It took nearly two years to recover. I was fortunate to have good insurance, but too many lack access to affordable, quality care, and even more risk falling into poverty when faced with a debilitating medical issue.

Together, we can do great things for our communities. I'd be honored to earn your vote.

I'm Diego Hernandez and I would like to continue to represent you in the Oregon House.

I was raised in East Portland and am a product of the David Douglas, Parkrose and Reynolds School Districts. My mom was a single parent who raised 4 kids under poverty. She taught us that hard work, perseverance and helping people was the key to survival and success. I took her sacrifices and hard work to heart and worked my way through college and found a road to helping people. My family faced many of the adversities that people in our community still face today and I am running again to change that because I believe everyone deserves a fair shot.

That is why, as your representative, I will continue to:

- Champion **Public Education:** Prioritize stable funding for education to lower class sizes.
- Stand up for **Working Families:** I will continue to stand up for workers rights.
- Build **Safer Communities:** Standing up for East Portland and its fair share of infrastructure investments.
- Advocate for **Affordable Housing:** Fighting for stable, secure and affordable housing.
- **Combat Climate Change:** Continue to champion bold climate legislation.

Jeff Reardon: Bringing Oregonians Together to Build Stronger Communities.

Past & Present

Eight years ago I first asked for your vote, promising to champion Education and the Environment. During that time I have delivered for our communities. I hope that you again will trust me with your vote so that I can continue advocating for you in the Legislature.

Effective legislators find ways to bring people together to collaborate on challenging issues. I led a task force on pollinator health, spearheaded efforts to promote career technical education, passed legislation to restructure the workforce development system, and participated in a wide variety of Natural Resources committee work. When community college funding was at risk, I formed the Community College Caucus that successfully fought for funding to avoid devastating budget cuts. I also formed the bipartisan Clackamas Caucus to advocate for projects that will benefit all who live, work and play in Clackamas County. I do this while also fighting for democratic values, so that all Oregonians have a fair shot at leading prosperous lives and being treated respectfully.

Future

In 2019 the Student Success Act created landmark funding for K12 education. There is still more work to be done to address the needs of our community colleges and universities, and I intend to lead efforts to improve our Higher Education system and reduce the cost of attendance. And I've already begun work to ensure we always have plentiful, clean and affordable water.

State Representative, 49th District

Zach Hudson

Democrat

Occupation: Teacher, Reynolds High School

Occupational Background: Adjunct Instructor, Mount Hood Community College; Teacher, Corbett High School; Teacher, Gresham High School

Educational Background: M.Ed, Portland State University; MA, King Alfred's College; BA, King Alfred's College

Prior Governmental Experience: Troutdale City Council, 2017 - present; Troutdale Budget Committee, 2010 - 2016; Troutdale Citizens Advisory Committee 2010 - 2016

I am a high school teacher and a Troutdale City Councilor. I have been teaching in local schools for 14 years. I am passionate about investing in our kids and protecting our future. I want to work for all Oregonians to promote equity and community, and to make the system fairer and more effective.

Education

Our young people are our biggest and most important investment. We need to support them with high-quality schools and teachers, as well as librarians, nurses and mental health specialists. We need to support post-high education so that students can pursue stable, well-paying careers.

Environment

Climate change is real, and we must act quickly to reduce carbon emissions. We also need to promote clean air and water and to develop energy sources that are healthy and sustainable. I oppose the development of fossil fuel infrastructure and I support incentives to develop green energy technology.

Civil Rights

Discrimination should have no place in Oregon—not in housing, employment, the legal system or anywhere else. I will work to make sure people of all races, backgrounds, abilities, genders and identities have equal access and equal protection.

Smart Government

Legislators should be responsive to the voters, not to donors and lobbyists. We need campaign spending limits to decrease the influence of mega-donors and corporations. We also need to continue outreach to voters and to lower barriers to voting so that everyone's voice can be heard.

Janelle Bynum: Fighting for every opportunity, for every Oregonian.

As the daughter of public-school teachers, I grew up learning the value of education and its ability to unlock opportunity for working families.

In Salem, I have dedicated my work to restoring and **strengthening opportunities for all**, from our local schools to working families to local businesses. Our work is far from done, but I'm proud of what we've been able to accomplish, including:

- Working through bipartisan action to pass **historic investments to Oregon schools** through the Student Success Act, which infuses our schools with the funding to keep kids engaged and graduating on time.
- **Building a more family-friendly economy** by passing the Paid Medical Family Leave act and decreasing income taxes for every working family.
- **Protecting the 1.1 million Oregonians on Medicaid** and requiring increased transparency from pharmaceutical companies to reduce prescription drug costs.

As a mother and small business owner, I am committed to building a brighter future for our families and community.

In Salem, I'll work to address the rise of homelessness, expand affordable housing for all income levels, and build an economy that works for working families and small businesses.

Judge of the Supreme Court, Position 1**Thomas A
Balmer**

Nonpartisan

Occupation: Associate Justice, Oregon Supreme Court**Occupational Background:** Chief Justice, Oregon Supreme Court; attorney in private practice; Oregon Deputy Attorney General**Educational Background:** Portland Public Schools; B.A., Oberlin College (1974); J.D., University of Chicago (1977)**Prior Governmental Experience:** Oregon Deputy Attorney General (1993-97); Trial Attorney, U.S. Department of Justice (1979-80)**Re-Elect Justice Tom Balmer to Oregon's Supreme Court**

Since 2001, Tom Balmer has served on Oregon's Supreme Court with distinction, exhibiting fairness, intelligence, and an extraordinary work ethic.

In 2012, Tom Balmer's colleagues on the Supreme Court showed their confidence in his judgment, leadership, and legal skills by selecting him to serve as Chief Justice for a six-year term. In that role, he led the Oregon courts through a difficult budget climate by carefully managing limited resources, adopting technology innovations, and improving court efficiency.

Justice Balmer traveled the state to visit local trial courts and seek ways to improve access to justice for all Oregonians -- while carrying a full workload of opinions and rulings on the Supreme Court.

Experience

The foundation of Justice Balmer's success is his hands-on experience in the key areas the Supreme Court deals with every day. He has tried jury cases, argued before the U.S. Supreme Court, advised individuals and business clients on a wide variety of matters, and counseled elected and government leaders on constitutional and public law. As Deputy Attorney General, he argued criminal, election, and constitutional law cases in Oregon and federal courts.

Tom Balmer's reputation as a thoughtful scholar and practical problem-solver is well known. His broad, well-rounded experience and integrity have earned widespread support from all parts of Oregon's legal community.

Part of the Community

Tom has served as a volunteer for legal aid, the Classroom Law Project, local arts and park organizations, and Portland Homeless Family Solutions.

Broad Support

It is a mark of Tom's fairness and integrity that he has won support from around the state and from across the political spectrum.

Judge of the Supreme Court, Position 1**Van
Pounds**

Nonpartisan

Occupation: Lawyer and Senior Policy Analyst.**Occupational Background:** Oregon: Chief of Enforcement and Securities, Department of Consumer and Business Services. Missouri: Managing/

Senior Counsel and Special Assistant Attorney General; Adjunct Instructor of Business Law; Assistant Regional Public Defender; Assistant/Acting City Attorney.

Educational Background: Master of Laws (LL.M.) in Dispute Resolution and Juris Doctor (J.D.), University of Missouri-Columbia; Bachelor of Arts (B.A.) in History, Southeast Missouri State University.**Prior Governmental Experience:** See Occupation and Occupational Background above.**Professional Memberships:** Oregon State Bar (Alternative Dispute Resolution Section); The Missouri Bar (Alternative Dispute Resolution Committee; Labor & Employment Law Committee); Marion County Bar Association.**LET'S MAKE YOUR VOTE COUNT**

Although the Oregon Constitution states that judges are to be elected by the voters of this state, such voters are routinely relegated to the role of a rubber stamp. As judicial vacancies occur, the governor unilaterally fills them by appointment. Such appointed judges thereafter gain the advantage of incumbency and rarely, if ever, face an election opponent.

Every current Oregon Supreme Court judge got there by means of gubernatorial appointment. Five of those seven judges have now been appointed by one person -- the current governor. If the Position 1 incumbent is re-elected and then resigns mid-term (as anticipated), the governor will be afforded yet another opportunity to unilaterally hand-pick a replacement.

Oregonians deserve a judiciary that functions in an independent and non-partisan manner. Sadly, however, the prevailing process for picking judges provides little reassurance in that regard.

Van Pounds offers voters a voice for positive reform, as well as a meaningful choice for judge. He will continue to be an ardent advocate for improvement of the judicial selection and retention processes -- to promote greater transparency and to reduce the likelihood of undue partisan political influence.

Consistent with the Code of Judicial Conduct, **Van Pounds** pledges to perform the duties of judicial office diligently, fairly and impartially, and in accordance with the rule of law. He welcomes your vote.

"Thoughtful"

–Oregon Supreme Court, 11/13/15

"Incorruptible"

–Eugene Register-Guard, 4/26/18

In a time when our nation faces grave threats to democracy and the rule of law, our courts must be open and accountable to the people. That's why I'm running for the Court of Appeals.

I'm running because I believe that judges should explain their decisions. Right now they don't. In most cases, the Court of Appeals "affirms without opinion." That means the judges give no explanation whatsoever for their ruling.

They do it in easy cases. They do it in hard cases. Big cases and small cases. Cases where they think the lower court was right. Cases where they think the lower court was wrong. Sometimes they even do it by mistake.

The Court of Appeals affects all of us. It decides when the police can pull you over. What you're owed if you're hurt on the job. Whether the state can take away your children. Many people lose their liberty, their livelihood, or their family, without ever being told why.

Oregon deserves better. Many other courts give at least one or two sentences to explain each of their rulings. Our court can do at least that much. That would let everyone know why the court did what it did—and keep the court accountable.

We can make it happen. As a public defender, I've represented hundreds of individuals before the Court of Appeals. In any of their cases, a single judge could make the court explain its ruling. With your support, I will be that judge.

I can't promise you'll agree with every decision I make. No judge could make that promise. But I will explain every decision I make. No other candidate will do that.

ABOUT ME:

I was born and raised in Oregon, spending my earliest years in Scappoose and later graduating from Aloha High School. As an attorney, I have devoted my professional life to public service, and it is a privilege that I have been able to continue to serve as a judge.

In my courtroom, we handle both civil and criminal matters. Although trials are by their very nature adversarial, it is my hope that every party leaves my courtroom feeling heard and respected, regardless of the outcome of their case.

Outside of work, I am a wife and mother. I have enjoyed volunteering as a mentor with Minds Matter, as a board member for Camp Rosenbaum, and as a board member for Lincoln Youth Football.

Thank you for considering my candidacy and for your support of the judiciary. My goal every day is to meet the mission of our courts set forth by Oregon's Supreme Court Chief Justice Martha Walters: *to provide fair and accessible justice services that protect the rights of individuals, preserve community welfare, and inspire public confidence.*

Credibility and Experience We Need

A lifelong public servant, Ethan defends our values on the frontlines of our justice system. He sees what is working and what can be improved. We can trust Ethan to strengthen community partnerships and programs to promote livability, stop human trafficking and domestic violence, make the system more equitable, and pursue alternatives to incarceration.

Proven Record in Our Justice System

Improving a system requires knowing how it works and the people who work in it. Ethan has been protecting our community for two decades:

- Successfully prosecuted anti-government extremists, drug traffickers, spies, violent criminals, and environmental polluters
- Serves as President of Oregon Law Foundation, a nonprofit promoting justice through free legal services and diversity in the law

Supporting Our Undocumented Neighbors

Ethan will fight to ensure we are welcoming to immigrant communities, prioritizing pathways to citizenship, legal aid and resources, and ensuring crime survivors can come to our courthouses without fear.
