Need for the Temporary Rule(s):

Oregon Administrative Rules establishing tag numbers for 2017 controlled deer and pronghorn hunts were adopted June, 2016. Tag numbers adopted at that time did not anticipate the extremely severe weather of the 2016-2017 winter. These rule amendments are needed to reduce the maximum number of tags that may be issued for the purpose of hunting deer and pronghorn during specific 2017 controlled hunts.

These amended rules authorize the Department to issue the following maximum number of tags for the purpose of hunting deer or pronghorn in each of the following controlled hunts.

Documents Relied Upon, and where they are available: 2017 Oregon Big Game Regulations found on ODFW website, at Point-of-Sale license agents, and ODFW Offices; draft rules are available from the division's rules coordinator, located at 4034 Fairview Industrial Drive, SE; Salem, Or 97302. Rules are also on the ODFW website at <http://www.dfw.state.or.us/OARs/index.asp>.

Justification of Temporary Rule(s):

This temporary rule is needed to reduce tag numbers for controlled hunts in areas where deer and pronghorn survival was most reduced by harsh weather during the 2016-2017 winter to keep from exceeding appropriate harvest levels in the hunt areas. Reducing controlled hunt tag numbers will provide the intended level of harvest. Failure to amend the rules before the controlled hunt drawing would result in serious prejudice to hunters participating in these deer and pronghorn hunts because fewer animal will be available for harvest than anticipated when tag numbers were initially adopted in June 2016.

DIVISION 75 LANDOWNER HUNTING PREFERENCE AND OUTFITTERS AND GUIDES TAG ALLOCATION

635-075-0022

Landowner Hunting Preference Tags for Mule Deer

(1) This rule further implements HB 2027A whereby the 2013 Legislative Assembly directed the Department through the commission to specify a formula that bases the number of landowner preference tags available for mule deer on the management, research, and habitat needs set forth in the wildlife management plan for mule deer.

(2) For purposes of this rule, the population management objectives (MOs) for each wildlife management unit that were adopted by the commission in August 2016 are considered representative of the management, research, and habitat needs for mule deer.

(3) The formula to determine the number of landowner hunting preference tags available for buck deer in a unit is as follows:

(a) In those wildlife management units where the estimated mule deer population is less than 60% of the established population management objective, the number of landowner hunting preference tags available for buck deer in that unit may be limited to five tags or 10 percent of the total controlled buck tags authorized for the public for each hunt in that unit by the commission, whichever is greater.

(b) In those wildlife management units where the estimated mule deer population is equal to or more than 60% of the established population management objective, but less than 80% of the established population management objective, the number of landowner hunting preference tags available for buck deer in that unit may be limited to five tags or 15 percent of the total controlled buck tags authorized for the public for each hunt in that unit by the commission, whichever is greater.

(c) In the Biggs, Columbia Basin, and Mount Emily wildlife management units, and in the NE Owyhee 167A hunt area, and in those wildlife management units where the estimated mule deer population is equal to or more than 80% of the established population management objective, the number of landowner hunting preference tags available for buck deer in that unit may be issued based upon a landowner's acreage as set forth in 635-075-0005(8).

(d) If conditions such as but not limited to disease or harsh winter weather occur, resulting in adoption of a Temporary OAR to reduce 100 Series mule deer tags by equal to or more than 25% from the number authorized by the Commission in areas listed or described in 635-075-0022(3)(c), Limited Landowner Preference mule deer tags in those areas may be limited as described in 635-075-0022(3)(b).

(4) If landowner preference tags remain from the controlled hunts described in 635-075-0022(3)(a) or (b) after the game mammal controlled hunt drawing, the Department will issue remaining tags to qualified landowners as described in 635-075-0024

(5) Landowner Hunting Preference Tag numbers for mule deer in 2016 and 2017 are listed in Table 1 and are adopted and incorporated in OAR Chapter 635, Division 075 by reference.

(a) Implementing 635-075-0022(3)(a)(b)(c)(d) to adjust controlled hunt tag numbers in response to harsh weather during the 2016-2017 winter, Landowner Hunting Preference Tag numbers for mule deer in 2017 are changed as follows in Table 1:

Stat. Auth.: ORS 496.012, 496.138, 496.146, 496.151 & 496.162
