Discrimination Complaint Procedures for Employees

(1) Purpose. These rules state the policy of Portland State University which prohibits discrimination in employment, and specifies procedures for filing and resolving related complaints. These rules apply to all classified and unclassified employees, and are intended to provide another complaint resolution option for employees in addition to other options provided generally in the university or through collective bargaining agreements.

(2) Policy. Portland State University prohibits discrimination in employment on the basis of race, color, disability, national origin, age, marital status, religion, sex, sexual orientation, or veterans status. Because of the collegial nature of the University informal resolution of complaints will be attempted first wherever possible. When informal resolution is not possible, formal resolution procedures will be undertaken.

(3) Definitions.

(a) Complaint of Discrimination: An allegation of differential treatment based upon those prohibited categories stated in paragraph 2 above.

(b) Cognizant Executive Officer: The Provost, Vice President, or another Portland State University officer who reports directly to the President but does not carry the title of Provost or Vice President who is in the direct reporting line of the individual(s) being complained about.

(c) Days: In the context of the time limits for this policy, "days" means a day when classes or examinations are scheduled and held in accordance with the official academic calendar of the university, excluding Saturdays and Sundays. Summer session days will not be counted for those individuals not employed during summer session.

(d) Formal Complaint resolution: The process of problem resolution which involves investigation of an allegation, followed by a recommendation for final action to be referred by the Director of Affirmative Action to the cognizant executive officer of the University.

(e) Informal complaint resolution: The process of problem resolution through gathering information and mediating a dispute without a formal investigation.

(4) Procedures.

(a) A representative of the Affirmative Action Office will discuss the complaint with the complainant to determine first whether informal resolution is possible. Efforts will be made to resolve the complaint at the lowest possible level consistent with the desires of the complainant and the nature of the complaint. If informal resolution is not possible, or is attempted and fails, the complainant may request formal resolution of the complaint.

(b) The complainant will complete the Portland State University Discrimination Complaint form. The complaint must be filed within 180 days of the alleged discriminatory act.

(c) The Affirmative Action Office will acknowledge the receipt of the complaint in writing. This letter will inform the complainant of other internal resolution options including general grievance procedures for faculty, student employment grievances procedures, and grievance procedures and timelines contained in relevant collective bargaining agreements. This letter will also inform the complainant of his or her right to file a complaint with state and/or federal agencies. Copies of this letter will be sent to the respondent and cognizant executive officer of the university.

(d) The Affirmative Action Office will conduct an investigation of the complaint within 30 days. Should there be a need for additional time for investigation, the complainant will be notified of the extension.

At no time shall the investigation extend beyond 60 days from receipt of the complaint without agreement of both parties.

Students will be notified in writing of any complaint submitted for documentation purposes only. This documented allegation does not constitute a finding of responsible for any violation of the Code. If the complaint is submitted for documentation purposes only, a conduct record is established and the Respondent is sent written notification to that effect. If more than one complaint of academic dishonesty is received for a student the procedures outlined in OAR 577-031-0140 (Procedures for Complaints Against Individuals) must be followed.

(6) Faculty submitting a complaint alleging academic dishonesty will be notified of the outcome of this complaint.

Appeals

(1) The Dean is the final appeals body and responds to any appeal of a decision made by the Senior Conduct Officer or the Committee. All appeals must be in writing and filed within five (5) days following notification to the Respondent of the hearing’s outcome. A finding of responsible or not responsible may not be addressed as part of the appeal. If information is presented that indicates substantial rights of the Respondent were impacted due to errors in procedure or new information is available that was not available when the initial hearing occurred, the Dean may determine that the case should

be heard again by the Committee or Senior Conduct Officer. The request for an appeal must include at least one of the following:

(a) Specific allegations of improper process that denied the Respondent a fair hearing; or

(b) Rationale for modifying sanctions imposed.

(2) If the Respondent who has submitted the appeal has been properly notified and fails to appear, the Dean will dismiss the appeal.

(3) During the appeal hearing, the student submitting the appeal may be accompanied by an advisor of the student's choice as long as the availability of this advisor does not interfere with the timeliness of the hearing. The student may elect to have an attorney serve as advisor. However, the advisor does not represent the student in the hearing and the student will be expected to speak for him or herself at all times.

(4) The student submitting the appeal has the opportunity to offer information and to review and respond to all information presented.

(5) The Senior Conduct Officer or the Chair of the Committee is present for the hearing and may offer information on behalf of the hearing and may respond to all information presented.

(6) The Dean may ask questions of any person present during the hearing. The Dean may invite questions and comments from advisors or others present. If the Dean decides an essential person or piece of information is missing, the Dean may decide to reconvene the hearing at the earliest practical time that the missing information will be available.

(7) After the Dean has determined that all the necessary information has been presented and questions answered, the appeals hearing will be closed. The Dean will determine, based on a preponderance of evidence, whether or not the appeal is warranted, and, if so, what subsequent actions may be appropriate.

(8) The Dean may dismiss the appeal, mandate that the case be heard again by the Committee/Senior Conduct Officer, or modify the sanction imposed.

(9) The Dean's decision will be in writing to the student with copies to the Senior Conduct Officer and/or Chair of the Committee.

(10) Pending resolution of an appeal, the student is entitled to all rights and privileges of a student in good standing except as provided in OAR 577-031-0140(6).

Sanctions

Students or student groups and organizations whose behavior violates this Code may be subject to one or more of the following sanctions:

(1) Mediation. Participation in a facilitated discussion with the Complainant.

(2) Assessments. Completion of an evaluation(s) and following the recommendations of a qualified professional for treatment and/or education.

(3) Restitution. Those responsible may be required to make monetary restitution, return any stolen or misappropriated property, or provide services to the University or a Member of the University Community in accordance with the nature of the violation and in an amount not to exceed the actual expenses, damages, or losses incurred.

(4) Educational Assignment. Complete specific assignments or render a designated number of hours of specified service to the University or the community.

(5) Reprimand. Written notice that the conduct in which the student(s) engaged is inconsistent with the requirements of the Code and that the student is reprimanded for that conduct. Such notice will also indicate that future violations of the Code may result in the imposition of additional sanctions.

(6) Disciplinary Probation. Constitutes a period of time during which additional violations of the Code will result in sanctions of increased severity. Upon expiration of the period of probation and

fulfillment of other sanctions imposed, if any, the student's disciplinary probation will be lifted.

(7) Loss of Privileges. Denied specific privileges normally associated with student status, such as participation in recognized activities or use of University facilities or services.

(8) No Contact. An order of "no contact" with another student, faculty member, staff or University Official. In this case, students may be required to organize their on-campus activities in order to avoid contact with designated individuals.

(9) Suspension. Loss of the right to be a student at the University for a specific period of time. Suspended students are not eligible for the privileges and services provided to currently enrolled students, including but not limited to residing in University-owned student housing, registering, attending class, or using other University services or facilities. The suspension may be specified for any length of time.

(a) If a student is suspended, fees will be refunded in accordance with the refund schedule adopted by the Oregon State Board of Higher Education.

(b) The conditions of suspension take effect immediately after the student has been informed of the decision and the time limit for an appeal has expired. If an appeal is filed, the imposition of the suspension will be stayed until the conclusion of the appeal process. The pending conduct hearing or appeal may result in suspension, award of the academic degree sought will be postponed pending the outcome of the hearing.

(c) Upon expiration of the period of suspension the student must submit in writing to the Senior Conduct Officer a request for the suspension to be lifted. The request should include a description of the student's activities since the suspension went into effect. If the Senior Conduct Officer certifies that all the terms of the suspension have been met and the suspension lifted, the student may register for courses through the regular process. The student's registration at this time shall be contingent on the completion and/or satisfaction of all sanctions and satisfaction of general admission and registration requirements.

(d) A notation of "Disciplinary Suspension" is entered on the student's transcript for the duration of the suspension. After the suspension period is complete and all other conditions, if any, have been satisfied, the Senior Conduct Officer will notify the Registrar's Office to lift the Registration Hold, and the notation will be removed from the transcript.

(10) Negative Notation on Transcript. Entry of information onto the student's permanent academic record regarding his or her violation of the Code and subsequent sanction. The entry may be permanent or temporary. If the notation is temporary, after the expiration of the period of time specified, the notation will be removed upon written request by the student to OSA. If the notation is permanent, "Permanent Negative Notation" on transcript will remain on the Respondent's transcript indefinitely.

(11) Expulsion. Permanent suspension from the University. (See Section (8) of this Rule). A permanent notation is entered on the transcript: "Permanently expelled for effective".

(12) Degree Revocation. A former student may have his/her degree revoked if the student is found to have engaged in academic dishonesty in courses taken leading to a degree that, if known at the time the degree was awarded, would have made the student unqualified for the degree.

(13) Registration Hold. Students who do not complete assigned sanctions within the time provided will be prevented from registering for classes until completion of those sanctions.

Informal Resolution of Grievances

A grievance alleging prohibited discrimination can often be settled without formal complaint proceedings if the parties discuss the matter with each other to resolve misunderstandings. Complainants are urged to raise grievances first with the persons who have done the acts complained of. If a complainant prefers, he or she may ask the assistance of the Grievance Counselor, to serve as a conciliator in the informal resolution of a grievance. Any member of the University faculty or staff, upon receiving information from a person which might indicate grounds for a complaint of prohibited discrimination, is urged to refer that person to the Grievance Counselor.

Duties of Grievance Counselor

(1) Informal Resolution of Grievances: In most discrimination matters the Grievance Counselor is the first person contacted by the complainant. If conciliation and informal resolution of the grievance appear possible, the Grievance Counselor should offer to assist in settlement of the matter.

(2) Formal Complaints: If a complainant or the person complained of declines to seek informal resolution, or the Grievance Counselor believes that an attempt at informal resolution would not be helpful, or informal resolution is attempted without success, the Grievance Counselor then assists the complainant, if requested, to draft a written complaint. The complaint should be brief, allege specific facts to support the complainant's charge, and include the claimant's suggestions for resolution of the matter. The complainant must sign the complaint, and the signature is his or her personal verification that the complaint is accurate and complete.

Duties of Compliance Officer

(1) Receipt of Complaints: A complainant, either individually or through the Grievance Counselor, pursues a formal complaint by submitting a written, signed complaint to the Compliance Officer. The Compliance Officer retains the original complaint and delivers copies of it to the President, the Chancellor of the Department of Higher Education and any individual respondents named in the complaint. A complaint cannot be considered unless it is submitted to the Compliance Officer within 180 days or 365 days, if the complaint alleges sexual harassment or other prohibited harassment as defined by OAR 577-032-0020(A) and (B) from the date of noncompliance.

(2) Investigation of Complaints: The Compliance Officer investigates the matters alleged in the complaint. He or she completes the investigation within 30 days of receipt of the complaint and recommends to the President action, where necessary, to correct any non-compliance found to exist or to have occurred. The 30 days period for completion of the investigation may be extended for up to 30 additional days, upon application to the Chancellor.

(3) Report to the Chancellor: The President, or the Compliance Officer at the direction of the President, sends to the Chancellor and to the complainant a report of the investigation findings and of any corrective action ordered.

DIVISION 33

ATHLETIC DEPARTMENT SUBSTANCE USE AND DRUG TESTING

577-033-0001

Introduction

(1) In the interest of the personal health and safety of student-athletes competing for and against Portland State University in its

intercollegiate athletic program and in the interest of fair and sporting competition, the Department of Intercollegiate Athletics (Athletic Department) does not condone alcohol abuse, drug and substance abuse or illegal use of such substances by a student-athlete at any time. Nor does the Athletic Department endorse or permit the use of performance-affecting substances.

(2) The Athletic Department has instituted a program of drug testing by urinalysis for student-athletes engaged in intercollegiate athletics. The testing process shall be initiated only on the basis of individualized reasonable suspicion or on the basis of failing a test previously conducted pursuant to these rules. The circumstances, conditions, or events giving rise to such reasonable suspicion and the source thereof shall be recorded in writing by the team physician who shall be the only person to authorize and initiate the drug testing process.

(3) "Reasonable suspicion" shall not mean a mere "hunch" or "intuition." It shall instead be based upon a specific event or occurrence which has led to the belief that a student-athlete has used any drugs which are specified in OAR 577-033-0010 and which could or could have an effect during a period of organized practice, conditioning, or competition or during a period of counseling for substance abuse or, in the case of steroids or other illegal performing enhancement drugs/supplements, during any period of conditioning or weight training:

(a) Such belief may be engendered by, among other things, direct observation by coaches, trainers, or the team physician of physical or mental deficiency or of medically indicated symptomatology of tested-for drug use, or of aberrant or otherwise patently suspicious conduct or of unexplained absenteeism;

(b) Such belief may also be engendered by, among other things, information supplied by reliable third parties, including but not limited to law enforcement officials, if this information is corroborated by objective facts, including but not limited to, equivocal, contradictory, or unlikely and unsubstantiated explanation by the individual about whom the report is made. Should information that leads to reasonable suspicion be provided by law enforcement, prosecutorial or probation department officials, the University will only utilize and act upon such information if it succeeds in getting a written agreement from the law enforcement source that results of a potential test will not be used by law enforcement to prosecute or revoke parole;

(c) Such belief may also be engendered by common-sense conclusions about observed or reliably described human behavior upon which practical people ordinarily rely;

(d) Such belief may also be engendered by a previous positive test under these procedures within the preceding twelve months.

(4) The Athletic Department shall not perform any drug testing solely at the request of a student-athlete.

(5) Alcohol abuse during any period of PSU supervised conditioning, weight training, practice, or competition can have severe detrimental effects on personal health, performance, behavior, and academic progress. Athletic Department and team regulations dealing with alcohol abuse therefore provide for possible counseling and/or disciplinary action for student-athletes who are abusing alcohol. The Athletic Department considers that a conviction for driving while under the influence of alcohol is evidence of a serious problem of alcohol abuse. A conviction for driving under the influence of intoxicants (DUI) which arises from an incident during any period of PSU-supervised conditioning, weight training, practice, or competition will be treated the same as a positive test for drugs, as set out in OAR 577-033-0050.

Testing Method

(1) The standard method adopted by Athletic Department for testing for drug use shall be through laboratory analysis of urine samples provided by student-athletes. Urine specimens shall be collected in the proximity of a trained monitor of the same sex who is assigned for that purpose by the Athletic Department administration in

compliance with the protocol described in OAR 577-033-0030, Specimen Collection and Role of Monitor.

(2) Results of the test shall be available only to the student-athlete, to the head coach in the athlete's sport, to the Athletic Director, and to the Team Physician. Should any challenge to the test results, consequences of the test or the test procedures be raised in relation to a particular student-athlete, other appropriate University officials may have access to the information in order to carry out their responsibilities in handling the challenge.

(3) The Team Physician shall determine, after consultation with the head coach, whether it is appropriate to inform and involve a drug and substance abuse counselor, in addition to those individuals listed in section (2) of this rule.

(4) A copy of the rules describing the Athletic Department Substance Use and Drug Testing Policy shall be included in the Student Athlete Handbook (the Handbook). This Handbook shall be given to each student athlete before the start of the playing season or when the name of the student-athlete is first entered upon the team roster, whichever is later.

(5) The substances for which the student-athlete will be tested are: recreational, prescription and performance enhancing drugs or supplements and their derivative compounds and/or substances listed on the NCAA list of banned substances (as amended).

(6) A student-athlete who refuses to provide a urine sample during the test process or within four hours of the designated time shall be deemed to have tested positive for the drug(s) in question.

(7) Adulteration of a urine sample by the student-athlete will result in and be considered as a positive test for the drug(s) in question.

577-033-0020 Testing Protocol

(1) The Athletic Department protocol for testing student-athletes shall minimize the chances of accidental error or cheating. The protocol shall not provide for visual observation of voiding.

(2) Coaches shall not be involved in the urine sample collection process.

(3) Testing of urine samples shall be performed by a designated local laboratory.

(4) If the initial test is positive and was not performed by a test at least as accurate as gas chromatography-mass spectrometry, a second test shall be performed by use of the split samples at an independent laboratory, using procedures at least as accurate as gas chromatography-mass spectrometry.

577-033-0030 Specimen Collection and Role of Monitor

(1) Specimen collection and testing shall be performed by a qualified independent laboratory, which is selected and designated by the Athletic Department. The Athletic Department may use any independent laboratory that is qualified to perform the needed tests and that meets the standards stated in these rules. The Athletic Department may change the laboratory used for testing at any time before testing begins without first notifying the student-athletes.

(2) The exact process and steps of specimen collection will be determined by the independent laboratory's standard protocol for specimen collection. However, the laboratory's protocol must include the following steps set forth by the Athletic Department:

(a) The student-athlete will report to the designated independent laboratory and check in with a laboratory employee who is trained in specimen collection and who will serve as and be referred to in these rules as the "monitor."

(b) The student-athlete will provide the monitor with photo identification. The monitor will record all needed information on the collection form. The student-athlete will verify that the information is correct. The monitor will ask if student is taking any medication and enters this information on the appropriate form.

(c) The student-athlete shall empty all pockets and shall the leave contents of any pockets, purses, backpacks, and similar containers with the monitor.

(d) The monitor will ask the student-athlete to select two sealed specimen containers and proceed into the rest room designated for specimen collection. Toilet bowls and tanks shall be filled with water containing colored dye. The monitor will instruct the student-athlete not to flush the toilet or use the sink, as only the monitor will flush the toilet.

(e) The monitor shall remain outside of the restroom. Quiet shall be maintained. After voiding into 2 specimen containers, the student-athletes shall emerge and hand the capped containers to the monitor. The monitor will test the temperature of the containers by a non-contaminating method within the full view of the student-athlete.

(f) The monitor will then remove the labels marked "A" and "B" from the collection form and use these labels to seal both specimen containers. This task shall be accomplished in full view of the student-athlete. The monitor will then record the date on each label. The student-athlete will initial each label, then read, complete and sign the bottom of the collection form.

(g) The monitor, in the presence of the student-athlete, then initiates the chain of custody by filling out and signing the proper section of the collection form.

(h) If unable to produce a specimen at all or unable to produce the necessary quantity, the student-athlete shall be asked to return to the designated waiting area. He or she may request liquids but must stay in view of the monitor at all times. The student-athlete begins the entire process anew when the student-athlete deems readiness.

(i) In the event an empty container is left standing, or an unsealed, filled container is not in close proximity and possession of the student-athlete and monitor, then the monitor shall dispose of the container.

577-033-0040 Specimen Handling and Preliminary Testing

(1) After specimens have been received by the designated laboratory, the following policies are in effect:

(a) Specimens are held in the designated laboratory according to the following schedule:

(i) One week for a negative test result;

(ii) 180 days for a positive test result;

(b) The laboratory staff communicates with only the team physician when the testing indicates a positive result. Such communication shall be made orally to the team physician personally, followed by a written report of the test results to the team physician. Split samples are used and final confirmation of positive comes only from GC-MS method (gas chromatography-mass spectrometry);

(c) Anabolic steroid tests will be conducted by a laboratory qualified to perform such tests.

(2) Test results and the fact of testing shall be treated confidentially at all times. Test results and related information shall be stored securely separately from other educational or medical records. University and laboratory employees shall not disclose or discuss the fact or the outcome of testing or the identity of the person tested except insofar as necessary to carry out their official and professional responsibilities. The phrase "official responsibilities" shall not extend to financial aid (other than determination appeals under OAR 577-033-0010(2)), student conduct, housing or campus security activities.

(3) Laboratories testing specimens shall employ secure storage and chain-of-custody/signature/name/date-time-location-purpose documentation continuously while in possession of specimens.

577-033-0050 Positive Test Results Sanctions

(1) The team physician, athletic director, and the head coach alone shall review a positive test result and shall, bearing in mind the type of tested-for drug(s) used, the recency of use, the medical, safety

and performance-enhancing effects of its use, formulate a treatment/behavior modification program for the student-athlete. Such program shall include but is not limited to, abstinence of further use and periodic retesting and may include counseling, physical therapy, reduced playing time and withholding from contact drills, scrimmages, competition, or reduction of athletic grant-in-aid.

(2) If repeated positive tests or admission reveal continuing use of tested-for drugs on two occasions beyond the initial positive test, the student-athlete shall be expelled from the team and shall lose all athletic grant-in-aid support beginning with the next academic term. If the student-athlete declines three times to provide a sample, or if the student-athlete is involved in any combination of positive tests or declinations totaling three, he or she shall similarly be expelled from the team and lose all athletic grant-in aid support. The student-athlete shall first be offered a contested-case hearing under OAR 577-001-0100 et seq.

(3) If a student-athlete refuses to provide a urine sample during the test process or within four hours of the designation time, the student-athlete shall be deemed to be in violation of these rules and shall be withheld from contact-drills, scrimmages and game competition for the next three weeks of the competition season(s) starting immediately. Except in instances of individualized reasonable suspicions of steroid use or a prior positive test within twelve months, the student-athlete shall not be tested following such refusal and withholding on the basis of the original reason for individualized reasonable suspicion.

(2) The University in conducting the testing program is not acting in aid of, or as an agent for, state or federal law enforcement officials. Nor are those administering the tests acting as, for, or on behalf of the Office of Student Affairs.

(3) Test results shall be deemed by the University as part of a student's educational/ medical records protected from disclosure under state and federal law. However, these laws do not immunize student educational records from disclosure pursuant to a subpoena or court order. In such an instance, the University will take reasonable steps to notify the record-subject in advance of compliance with any such subpoena or order. The University or the record-subject may move the court or agency to quash any portion of the subpoena which pertains to drug testing records or to withdraw or narrow any such court order.

Use of Information Contained in Faculty Records

(1) In accord with OAR 580-042-0735, only the following four kinds of information may be released, upon request, without the faculty member's consent:

- (a) Directory information (within the limitations of OAR 577-040-0005(2)), that is, information generally needed in identifying or locating a named faculty member including information as is readily to be found in published documents such as the University's catalogs and directories. A faculty member may stipulate that this information not include telephone number;
- (b) Objective evidence of a faculty member's academic achievement, limited to information as to the number of credits

earned toward a degree or in post-doctoral work, and certificates, diplomas, licenses, and degrees received;

(c) Salary information and the record of terms or conditions of employment;

(d) Records tabulated from students' classroom survey evaluations and used by students in selecting courses or instructors.

(2)(a) All other information contained in faculty records shall be considered personal and subject to restricted access, being available only to the faculty member and to the University's personnel who have a demonstrably legitimate need to review it in order to fulfill their official, professional responsibility and including those individuals and/or committees responsible for making recommendations or decisions regarding retention, tenure, promotion, and salary increases. These records may not be released to any other person or agency without the faculty member's written consent, except upon receipt of a valid subpoena or other court order or process or as required by state statute, federal law, or valid federal rules, regulations or orders, or upon a finding by the President of the University that the public interest in maintaining individual rights to privacy in an adequate educational environment would not suffer by disclosure of such personal records;

(b) In accordance with OAR 580-042-0740(2) requiring the designation of institutional officials to appear in court to test the validity of a subpoena or other court order or process relating to release of faculty records when validity is in question, the President of the University or his delegate is designated to so appear;

(c) Access cannot be limited for records of academic achievement or for records more than 25 years old.

(3)(a) The entire contents of a faculty member's personal records files shall always be available to the member. A faculty member may at any time enter into the member's personal records files such comments, explanations, or rebuttals as the member may wish;

(b) A copy of each written evaluation of the faculty member, containing or having attached to it a statement that the member may discuss the evaluation with the evaluating official, shall be given the member. A copy of the evaluation signed, by the member signifying receipt, shall be placed in the member's evaluation file. The faculty member may enter into the evaluation file such comments, explanations, or rebuttals as desired. There shall be attached to each copy of the evaluation retained by the University, school, college, or department a copy of such comments, explanations, or rebuttals;

(c) If and when statements, either oral or written, are solicited concerning the scholarship, teaching or general performance of a faculty member, it must be made clear to the person from whom the statements are solicited that the University maintains an open file and that such statements, including the identity of the authors, will be available to the faculty member;

(d) Any evaluation received by telephone shall be documented in each of the faculty member's files by written summary of the conversation with the names of the conversants. After July 1, 1975, the University or any of its subdivisions when evaluating its employed faculty members shall not solicit nor accept oral or written statements from individuals or groups who wish their identity kept anonymous or the information they provide kept confidential;

(e) If a department head or other administrative officer receives a written statement concerning a faculty member, and it is determined that the statement is significant, there must be an immediate notification to the faculty member that such statement has been received, and if it is decided that such material should be retained, it must be retained only in the faculty member's personal records files.

(4) Confidential letters and other information submitted to or solicited after July 1, 1975, by the University or any of its subdivisions prior to the employment of a faculty member are exempt from the provisions of this section. However, if the applicant is employed by the University, the confidential preemployment information shall be placed in the three authorized files. If a faculty member requests access to the member's files, the anonymity of the contributor of confidential preemployment letters and other preemployment information shall be protected. The full text shall be made available, except that portions of the text which would serve to identify the contributor

shall be excised and retained in a file other than the three designated in OAR 577-040-0005(4).

(5) Faculty members at the University who feel adversely affected by the University, school, college, or departmental personnel action or lack thereof may request from the President of the University or his delegate objective or quantitative information contained in files, which are limited as to access, concerning the personnel actions affecting categories of faculty members, where such actions appear to have relevance to the case of the faculty member making the request for information. The President or his delegate will make such information available. Such information may include: assignment, load, list of publications, and such other information as determined by the President or his delegate to be relevant, but will, in no event, include any evaluative statements concerning faculty members. Such information shall also be available to any other faculty member at the University upon request.

(6) Information about the faculty member requested for research purposes may be made available but without identifying the faculty member whose personal data or information are being included in the research. If the confidentiality of faculty records would seem in any way jeopardized by the release of requested information, the University through the President or his delegate, shall obtain the written consent of the faculty member prior to releasing information about him for research purposes.

(7) Survey evaluations by students of a faculty member's classroom or laboratory performance shall be anonymous. The record of tabulated reports of evaluations shall be placed in at least one of the files designated in section 577-040-0005(4). All survey instruments used to obtain evaluation data shall be returned to the faculty member. No other evaluative material shall be accepted from students unless they are first clearly informed that the faculty member will have access to such material and that students' anonymity cannot be preserved.

Permanence, Duplication, and Disposal of Faculty Records

(1) The individual faculty member's records shall be maintained only during the time that he is employed by the University and for one year after his employment is terminated. Thereafter, the faculty member's file shall be transferred to the office of the President or his delegate where it shall be determined whether any part of the file should be permanently retained. Only such records as are determined to be of long range value to the faculty member, to the University, or to the public shall be retained.

(2) Faculty records may be duplicated only when authorized by the President or his delegate or by the faculty member himself or his duly appointed representative.

(3) All records not retained permanently and all duplicate copies of any permanently retained records shall be destroyed as soon as their purpose is concluded as determined by the President of the University or his delegate, and said records or said duplicates shall be destroyed, in such manner as to protect their confidentiality, in accordance with the rules of the State Archivist.

DIVISION 41

FACULTY CONDUCT CODE

577-041-0005

Standards of Faculty Conduct

(1) Membership in the University community accords the Faculty member certain privileges, foremost among them the right to academic freedom; but such membership also places upon the faculty member special responsibilities:

(a) As a teacher, the faculty member by precept and example encourages the free pursuit of learning in his students; he respects

the confidential nature of the relationship between professor and student; and he makes every reasonable effort to assure that his evaluation of students reflects their true merit;

(b) As a scholar, the faculty member practices intellectual honesty, seeking and stating the truth as he sees it; he devotes his energies to developing and improving his scholarly competence; and he accepts the obligation to exercise critical self-discipline and judgment in using, extending, and transmitting knowledge;

(c) As a colleague, the faculty member respects and defends the free inquiry of his associates; he shows due respect for the opinion of others; and he strives to be objective in his professional judgment of colleagues;

(d) As a member of the University, the faculty member seeks above all to be an effective teacher, scholar, and administrator; he participates willingly in the government of the University; and he observes the stated regulations of the University, provided they do not contravene academic freedom — Although he maintains his right to criticize and seek revision of those regulations;

(e) As an administrator, the faculty member has obligations toward the students, other academic staff members, and the University which derive from his common membership in the academic community; and he seeks to carry out his duties responsibly with due regard to equitable treatment of all personnel under his jurisdiction, so that the governance of the University effectively furthers its primary educational and scholarly functions;

(f) As a member of the non-academic community, the faculty member has the same rights and obligations as any citizen; however, when he speaks or acts as a private person, he avoids creating the impression that he speaks or acts for the University.

(2) Beyond the specific responsibilities stated in the foregoing, the faculty member — singly and together with his colleagues — has a dual obligation. First, he strives to ensure that the highest ethical standards of professional behavior are realized within the University. Second, he participates in guaranteeing due process to colleagues against whom complaints are brought alleging that they have violated the Oregon State Board of Higher Education's standards of "cause" for faculty discipline, which involve the above-listed responsibilities and other institution-related activities.

Definitions

In accordance with OAR 580-041-0325 of the Administrative Rules of the Oregon State Board of Higher Education, the appointment of academic staff members, whether on indefinite tenure or not on indefinite tenure, may be terminated for cause, or other sanctions may be imposed for cause:

(1) The term "academic staff member" as used in this Division 41 shall include all staff members of the University having academic rank (graduate rank or faculty rank) as defined in OAR 580-040-0040 of the Administrative Rules, e.g., graduate teaching assistant, graduate research assistant, graduate fellow, instructor, senior instructor, research assistant, research associate, lecturer, senior lecturer, assistant professor, associate professor, and professor, whether the type of service be teaching, research, administration, or other service; provided, however, that the procedures of this division 41 for the imposition of sanctions shall not be applicable to the president of the University. Complaints alleging that the President of the University has engaged in conduct such as to warrant the imposition of sanctions for cause as set forth in this OAR 577-041-0010 shall be forwarded to the Chancellor of the Department of Higher Education.

(2) Cause is defined by the Administrative Rules (OAR chapter 580) as follows:

(a) Failure to perform the responsibilities of an academic staff member, arising out of his particular assignment, toward his students, toward his academic discipline, toward his colleagues, or toward the

institution in its primary educational and scholarly functions and secondary administrative functions of maintaining property, disbursing funds, keeping records, providing living accommodations and other services, sponsoring activities, and protecting the health and safety of persons in the institutional community. Evidence to demonstrate cause under the standard set forth in this subsection may include, but is not limited to, evidence of incompetence, gross inefficiency, default of academic integrity in teaching, research, or scholarship, and intentional or habitual neglect of duty;

(b) Conviction of a felony or of a crime involving moral turpitude during period of employment by the Department of Higher Education (or prior thereto if the conviction was wilfully concealed in applying to the Department for employment);

(c) Engaging in conduct proscribed by OAR 580-042-0410 of the Administrative Rules (the proscriptions in the following list apply to all persons in the University, not just academic staff members):

(A) Obstruction or disruption of teaching, research, administration, disciplinary procedures or other institutional activities, including the institution's public service functions or other authorized activities on institutionally owned or controlled property;

(B) Obstruction or disruption which interferes with the freedom of movement, both pedestrian and vehicular, on institutionally owned or controlled property;

(C) Possession or use of fire arms, explosives, dangerous chemicals or other dangerous weapons or instrumentalities on institutionally owned or controlled property, in contravention of law or without University authorization;

(D) Dentention or physical abuse of any person or conduct which is intended to threaten imminent bodily harm or endanger the health of any person on any institutionally owned or controlled property;

(E) Malicious damage or misuse or theft of institutional property, or the property of any other person where such property is located on institutionally owned or controlled property, or, regardless of location, is in the care, custody, or control of the University;

(F) Refusal by any person, while on institutional property, to comply with an order of the institutional executive or appropriate authorized official or officials, to leave such premises because of conduct proscribed by the Administrative Rules (OAR chapter 580) when such conduct constitutes a danger to personal safety, property or educational or other appropriate institutional activities on such premises;

(G) Unauthorized entry to or use of institutional facilities, including buildings and grounds;

(H) Illegal use, possession, or distribution of drugs on institutionally owned or controlled property;

(I) Inciting others to engage in any of the conduct or to perform any of the acts prohibited herein. Inciting means that advocacy of proscribed conduct which calls upon the person or persons addressed for imminent action, and is coupled with a reasonable apprehension of imminent danger to the functions and purposes of the institution, including the safety of its students, faculty, and officials, and the protection of its property.

(3) Sanctions for cause include oral or written warning or reprimand, written censure, removal from an assigned post and reassignment, suspension for a period not to exceed one year, and termination.

Procedures for the Imposition of Sanctions

Complaints alleging that an academic staff member has engaged in conduct such as to warrant the imposition of a sanction or sanctions for cause shall be filed with the President of the University or his deputy. (Hereinafter the word President shall be understood to refer to the President of the University or his deputy.) Such complaints shall be in writing and shall state specifically the facts believed to constitute the grounds for the imposition of such sanction

or sanctions. Upon receiving such written complaint, the President shall promptly refer it to an appropriate administrative officer and shall also have a copy of the written complaint delivered to the academic staff member in person or sent by certified mail to his last known address. The administrative officer shall explore to his satisfaction the possibility of a settlement mutually acceptable to the academic staff member and himself. Sanctions of Oral Warning or Reprimand

Sanctions of oral warning or reprimand may be imposed at the discretion of the appropriate administrative officer if, in his judgment, the preponderance of the evidence supports the complaint. But if an administrative officer desires to enter a notation of the imposition of such sanction in the academic staff member's personnel record or other records, he shall promptly submit the matter for review to a special *ad hoc* Warning and Reprimand Committee. The Committee, consisting of at least three members, shall be chosen in a manner to be determined by the Faculty Senate. The Committee shall review the complaint and, in accordance with the preponderance of the evidence, shall recommend, by agreement of at least a majority of its members, to the President whether such notation should be made. If the President authorizes the notation, he shall promptly give the academic staff member written notice of his decision and of his reasons therefor. No notation of the imposition of a sanction of oral warning or reprimand shall be made in the academic staff member's personnel record, or shall at any time be made a matter of record in any other manner, unless authorized by the President after he has received the recommendation of the special *ad hoc* Warning and Reprimand Committee.

Sanctions of Written Warning or Reprimand

If, in the judgment of the administrative officer to whom the complaint has been referred, the preponderance of the evidence supports the complaint against the academic staff member, he may determine that the imposition of a sanction of written warning or reprimand is warranted. If so, he shall promptly inform the academic staff member in writing of his decision to impose such sanction and of his reasons therefor, and such notification shall be delivered to the academic staff member in person or sent by certified mail to his last known address. Within ten days, or such longer period as may be approved by the administrative officer upon showing by the academic staff member that he was unable to respond within ten days, after the personal delivery or mailing by certified mail of such notification to him, the academic staff member shall state in writing to the administrative officer whether he desires a review, by a special *ad hoc* Warning and Reprimand Committee consisting of at least three members and chosen in a manner to be determined by the faculty Senate, of the decision to impose a sanction of written warning or reprimand. If the academic staff member does not request such review, the sanction shall become effective at the end of the ten-day or approved longer period. But if the academic staff member does request a review by the Warning and Reprimand Committee, that committee shall promptly review the matter and, in accordance with the preponderance of the evidence, recommend, by agreement of at least a majority of its members, to the President whether a sanction of written warning or reprimand should be imposed. If the President determines that such sanction shall be imposed, he shall promptly give the academic staff member written notice of his decision and of his reasons therefor.

Sanctions More Severe than Oral or Written Warning or Reprimand

577-041-0030

Screening Panel and Preparation of Formal Charges

(1) If a complaint against an academic staff member has been referred to an administrative officer as provided for in OAR 577-041-0015 above, and a mutual settlement of the complaint has not been effected, the administrative officer shall promptly prepare and transmit to a special *ad hoc* Screening Panel a preliminary statement of charges if, in his judgment:

(a) The conduct alleged is such that it could warrant the imposition of a sanction or sanctions more severe than oral warning or reprimand, or written warning or reprimand; and

(b) He finds probable cause that the academic staff member did engage in such conduct;

(c) The preliminary statement of charges shall be in writing and shall state specifically the facts believed to constitute the grounds for the imposition of such sanctions. No institutional officer responsible for evaluating such charges shall participate in their preparation.

(2) The special *ad hoc* Screening Panel, composed of at least three members, shall be chosen by the Advisory Council in a manner it shall determine. It shall be the duty of the Screening Panel to recommend to the President within 14 days of the date of its selection whether there should be further proceedings before a hearing committee.

(3) The Screening Panel shall recommend that there be further proceedings before a hearing committee, if, in its judgment:

(a) The conduct alleged in the preliminary statement of charges is such that it could warrant the imposition of a sanction or sanctions more severe than oral warning or reprimand, or written warning or reprimand; and

(b) There is probable cause that the academic staff member did engage in the conduct alleged in the preliminary statement of charges.

(4) If the Screening Panel, by agreement of at least a majority of its membership, determines that there should be further proceedings before a hearing committee, it shall transmit the preliminary statement of charges to the President with a recommendation that a hearing committee should be selected to hear the case as provided for in OAR 577-041-0040 and 577-041-0045.

(5) If the President agrees with the Screening Panel's recommendation that there should be further proceedings before a hearing committee, he shall authorize the selection of a hearing committee as provided for in rules 577-041-0040 and 577-041-0045, and shall have delivered to the academic staff member in person or sent by certified mail to his last known address a written statement informing him of the President's agreement with this recommendation of the Screening Panel, and enclosing a copy of the Screening Panel's recommendation and of the statement of charges.

(6) If the President disagrees with the Screening Panel's recommendation that there be further proceedings before a hearing committee, the charges against the academic staff member shall be dropped.

(7) If the Screening Panel determines that there is not probable cause to impose sanctions more severe than oral or written warning or reprimand, and recommends that there should not be further proceedings before a hearing committee, and the President disagrees with this determination, he may order preparation of formal statement of the charges. If the President orders preparation of a formal statement of the charges, the procedure followed shall be as set forth in OAR 577-041-0030, except that the Screening Panel shall be bypassed. Within ten days after the President's decision to require a hearing, or after preparation of the amended statement of charges, a copy of the statement of charges shall be delivered to the academic staff member in person or sent by certified mail to his last known address.

(8) For the purposes of these procedures and in connection with the notation in an academic staff member's personnel file of formal charges brought against him (see OAR 577-041-0080), the bringing of formal charges against an academic staff member shall be constituted by:

(a) The delivery to an academic staff member in person, or the sending by certified mail to his last known address, of a written statement from the President informing him of the President's agreement with a Screening Panel's recommendation that there be further proceedings before a hearing committee; or

(b) The delivery to an academic staff member in person, or the sending by certified mail to his last known address, of a statement of the charges against him; or

(c) The delivery to an academic staff member in person, or the sending by certified mail to his last known address, of a statement of charges against him the preparation of which was authorized by the Board of Higher Education as provided for in OAR 577-041-0070.

If the academic staff member requests in writing that he not have a formal hearing, the President may impose an appropriate sanction or sanctions upon the academic staff member to be effective as the President determines, and he shall promptly give written notice thereof to the academic staff member; provided, however, that the appointment of an academic staff member shall not be terminated sooner than one month nor later than one year from the end of the ten-day period (or as it may have been extended), and provided further, however, that an academic staff member having indefinite tenure whose appointment is terminated for cause other than misconduct shall receive his salary for one year from the end of the ten-day period, or as it may have been extended.

Committee members shall be selected in the following manner: The Advisory Council shall appoint one or more permanent panels each consisting of ten faculty members: from one, or if necessary, two, of the permanent panels, the Advisory Council will name five to serve as the hearing committee. If the academic staff member so requests, the Advisory Council may provide that the hearing committee be composed of at least three members having the same contractual status, i.e., indefinite tenure or not indefinite tenure, as he does; or, if he so requests, that the hearing committee be composed entirely of members having indefinite tenure. The academic staff member and the administration are each allowed one peremptory challenge. A committee member so challenged will then be replaced by the Advisory Council from the same panel or panels of ten members each. The

Conduct of Hearing

(1) The committee shall set a date for the hearing, giving sufficient time to the academic staff member to prepare his case. The committee shall promptly send written notification of the time, place, and date of the hearing to the academic staff member, either by delivery to him in person, or by certified mail to his last known address. The notification shall specify the authority and jurisdiction under which the hearing is to be held. The academic staff member and the administration shall have the option of assistance by counsel, both in preparing for and at the hearing. No less than one week before the hearing date, the academic staff member shall file with the committee any such written statement of his case as he elects to file. The committee shall review the charges and the academic staff member's statement, if any, prior to the hearing. During the period between the filing of the complaint and the President's action on the committee's report, the academic staff member shall enjoy the same academic freedom, rights, and privileges as other academic staff members, unless suspended as provided in rule 577-041-0035.

(2) If the academic staff member has neither requested in writing that he have a formal hearing nor requested in writing that he not have a formal hearing, the committee shall consider the case on the basis of the obtainable information and decide what, if any, sanction or sanctions it will recommend be imposed upon the academic staff member. The academic staff member shall have the option of a public or private hearing except that the hearing committee, for cause, may require that the hearing be limited to a few observers; the observers shall include representatives of the press if they request to be present. The conduct of the hearing shall be under the control of the committee chairman, subject to the procedure of the committee.

(3) A verbatim record of the hearing shall be kept. The verbatim record shall be held in the custody of the Vice President for Academic Affairs until final disposition of the case has been made by the President or by the Board if there is an appeal to or review by the Board. Thereafter, it shall be sent to the President to be held in his safe keeping until a year after the final disposition of the case by the President, the Board, or the appropriate court of law, and then destroyed as soon as permitted by law. At the hearing, the testimony of witnesses, upon oath or affirmation, and other evidence concerning any disputed facts shall be received by the committee. The administration shall have the burden of proving the formal charges against the academic staff member and the committee findings shall be according to the preponderance of the evidence.

(4) The academic staff member shall have the right to appear, and to participate in the hearing and to present relevant evidence to the committee, and he may be represented by counsel with or without the presence of the academic staff member. If an academic staff member who has requested a formal hearing fails to appear at the time set for the hearing, and no explanation acceptable to the committee has been given, the committee shall proceed with the hearing without the presence of the academic staff member. The academic staff member and the administration shall have the right to confront and cross-examine all witnesses. The administration shall issue subpoenas for the attendance of witnesses upon request of the hearing committee on good cause being shown, including a showing of relevance and reasonable scope, by the academic staff member. The academic staff member and the administration shall be given a reasonable opportunity to submit rebuttal testimony or other evidence. At the conclusion of the testimony, the committee shall permit each side a reasonable time, not to exceed two hours, to submit an oral or written summation. When the committee is satisfied that all pertinent and available evidence has been received, and that all summations intended to be offered have been presented, the hearing will be adjourned. When the committee is satisfied that all pertinent and available evidence has been received, and that such summations as

it deems appropriate have been presented, the hearing will be adjourned. The committee will then go into executive session for the purpose of deliberation.

Action by the President

The President may, if he deems it necessary, refer the matter back to the committee for further findings of fact. If the President reviews the entire record, including the verbatim record of the hearing, he shall, promptly after receipt of the committee's report and after having had a reasonable opportunity to consult with the Chancellor and others, give the academic staff member and the Chancellor written notice of his decision. If the President decides adversely to the academic staff member solely upon the basis of the committee's report, without reviewing the full record, he shall prepare a proposed order, including findings of fact and conclusions of law, and provide an opportunity to the academic staff member to file exceptions thereto and present argument. The President shall personally consider any portion of the record cited in the academic staff member's exceptions and argument. The President's decision, whether or not upon the full record, shall be accompanied by findings of fact and conclusions of law on each contested issue. A copy of the decision, including findings of fact and conclusions of law shall be delivered to the academic staff member in person or sent by certified mail to his last known address. If the decision is to impose a sanction or sanctions upon an academic staff member, the notice shall state when it is to be effective; provided, however, that the appointment of an academic staff member shall not be terminated sooner than one month nor later than one year from the date of the written notice, and provided further, that an academic staff member having indefinite tenure whose appointment is terminated for cause other than misconduct shall receive his salary for one year from the date of the written notice of the President's decision.

The Board may on its own initiative review any case involving the question of the imposition of a sanction or sanctions upon an academic staff member. (b) The verbatim record of the hearing, and any exhibits;

(c) The committee's findings and recommendations; and

(d) A copy of the notice of the President's decision, including his findings of fact and conclusions of law.

(2) The Board may:

(a) Review the case on record only;

(b) Return the case to the University for the receipt of further evidence or testimony;

(c) Conduct such hearings as it deems proper for its review;

(d) Refer the matter to a committee of Board members for consideration, including possible hearings, and recommendations; or

(e) Refer the matter to a hearing officer for hearings and recommendation. The Board shall make such determination of the case, pursuant to the Administrative Rules (OAR chapter 580), as it deems just.

Board's Initiative in Bringing Investigation or Charges

On any occasion when it appears to the Board that there is probable cause to impose a sanction or sanctions upon an academic staff member, the Board may direct the President to determine whether he finds there is probable cause to impose a sanction or sanctions upon the academic staff member. In determining the existence of probable cause, the President shall refer the question to a Screening Panel described in OAR 577-041-0030 for its recommendation. The subsequent procedures shall be the same as provided for in OAR 577-041-0030(2) through 577-041-0065. If the finding of the President is that there is not probable cause to impose a sanction or sanctions upon the academic staff member, the President shall transmit such report to the Board, including a full statement of his reasons for such a finding. If the Board, after receipt of the report, deems that the facts of the case warrant the filing of formal charges, the Board shall provide the President with a statement explaining its exceptions to his findings, and it may direct the President to have formal charges prepared or, upon the request of the President, the Board may direct some person within the Department of Higher Education to prepare the formal charges. Following the President's authorization of preparation of charges, no institutional officer responsible for evaluating the charges shall participate in their preparation. Within ten days after the President's authorization of preparation of the charges, they shall be filed with the President, and a copy personally delivered to the academic staff member or sent by certified mail to his last known address. The personal delivery or sending by certified mail to the academic staff member of the charges whose preparation was authorized by the President or prepared within the Department of Higher Education, shall constitute the formal filing of charges for the purposes of this OAR 577-041-0070. The subsequent procedures shall be the same as provided for in OAR 577-041-0035 through 577-041-0065.

DIVISION 42**FACULTY GRIEVANCE PROCEDURE****577-042-0005****Purpose and General Explanation**

(1) The purpose of this procedure is to provide the faculty of Portland State University with a means for prompt and efficient handling of grievances. The procedure covers a broader range of grievances than those grievable under current collective bargaining agreements between Portland State University and various bargaining agents.

(2) The emphasis is on solving problems in a collegial manner with members of the University community confronting each other directly as peers seeking to resolve conflicts in a way that embodies mutual respect and fairness. The procedure encourages settlement of disputes at the lowest possible level by direct communications between the conflicting parties. In filing grievances, grievants are expected to do so in a timely manner so that subsequent events do not make adjustments of grievances impossible or highly impractical.

(3) Peer review and an opportunity for peer hearing are provided. The grievant is also assured of an opportunity to appeal to the President of the University, Appeal from the decision of the President is governed by the Administrative Rules of the Oregon State System of Higher Education.

A grievance that has not been formally presented and that is not resolved by confidential mediation must be presented as described in OAR 577-042-0015 within 30 days of the conclusion of confidential mediation.

CENTER FOR POPULATION RESEARCH AND CENSUS

577-050-0005

Authority

Under ORS 190.610 the State Board of Higher Education in 1965 established a Center for Population Research and Census (CPRC) at Portland State University and delegated to it the state census responsibilities set forth in ORS 190.510–190.610.

Purpose

These rules govern the procedures by which a county or city may obtain review of a population estimate made by the CPRC.

Stats. Implemented:

Hist.: PSU 4-1978, f. & ef. 6-26-78

577-050-0015

County Estimates

(1) Population Estimate: Under ORS 190.520, the CPRC annually estimates the population as of July 1 of each county in the State of Oregon.

(2) First Review Period: Preliminary county estimates are mailed to the designated county official by November 15th of the estimate year for review by the county. Since under ORS 190.520 the CPRC is required to certify county estimates by December 15th of the estimate year, the county has one month for review, questions, and challenges. If differences regarding the estimate are not resolved during the first review period, the CPRC will certify the preliminary estimate to the Secretary of State on December 15th of the estimate year.

(3) Second Review Period: A second review period is from December 15th of the estimate year to March 31st of the following year. This period is to allow counties to assemble and present data to the CPRC that could not be assembled during the initial review period. If differences between the county and the CPRC are resolved during the second review period the CPRC will issue a revised certificate of population for the county retroactive to December 31st of the estimate year.

(4) Review Data: Counties may supply the CPRC with data that can be used to evaluate the population estimate in question. Acceptable data are:

(a) Housing Data. To be considered in a CPRC review, housing data must reflect all additions to a county's housing stock from the last decennial federal census through the date of estimate. The data must meet the following criteria:

(A) All housing units constructed are identified by year and month of construction and type of unit. Specifically, the data show number of single units, number of units contained within multiple units (i.e., apartments, condominiums, townhouses, etc.), and mobile homes that are occupied and used as permanent residences;

(B) Building activity reports must exclude commercial construction and permits issued for home improvements or modifications, unless the modification involves conversion to another type of unit (i.e., single family unit modified to a multiple unit). Data for each year must also show demolitions, removals, or housing units lost (fire, etc.), conversions, and abandonments or existing housing stock;

(C) Differences between numbers of permits issued and numbers of actual completed units must be reported. Only completed units can be added to the housing stock;

(D) Counties must differentiate between permits issued in incorporated cities within the county and permits issued for units in the unincorporated areas of the county. Additionally, all units reported for construction in the unincorporated areas of a county must be accompanied by a map (of such scale as to be easily identified) showing the location of such construction.

(b) Group Quarters Data. Counties should also report all persons not living in households (i.e., group quarters). These are defined as persons living in college or other educational institution dormitories; inmates of federal and state prisons, but only those serving term of more than one year; inmates of long-term care facilities; members of religious orders; and members of the armed forces living in military barracks;

(c) Utility Data: If the county chooses to supplement housing data with utility data the following criteria apply:

(A) The utility boundaries must be entirely comparable to the county boundaries;

(B) The coverage of the population by the utility must be evaluated against the last decennial census household count, i.e., the number of housing units serviced by the utility in the last decennial census year should be in general congruent with the number of occupied housing units enumerated in the last decennial census;

(C) Master meters must be accounted for — The meter in use for an entire building misrepresents the number of residential units; in addition, conversions from master meters to individual meters must be reported;

(D) Vacant units that do not disconnect power between occupants (such as rental units and recreational units) cannot be reported as occupied residences.

(5) Enumeration or Survey: At any time during the first or second review period, the county may request that the CPRC conduct a complete enumeration or a sample survey of housing units and number of permanent residents to determine the population of the county. The enumeration or survey is performed at the cost of the requesting entity. If the census or survey is conducted before March 1 of the year following the December 15th certification, this population count is certified to the Secretary of State and to the Federal Bureau of the Census, and it is retroactive to December 31st of the estimate year. The CPRC determination is final. A census or survey is recognized as a final figure of the county's population by both state and federal governments.

City Estimates

(1) Population Estimate: Under ORS 190.520, the CPRC annually estimates the population as of July 1 of each incorporated city or town in the State of Oregon.

(2) First Review Period: Preliminary city estimates are mailed by November 15 to the designated city official in each incorporated city for review. Since under ORS 190.520 the CPRC is required to certify city estimates by December 15 of the estimate year, the city has one month in the first review period for questions and challenges. Unless resolution of differences between a city and the CPRC occurs during the month of the first review period, the CPRC will certify the preliminary population estimate to the Secretary of State on December 15 of the estimate year.

(3) Second Review Period: A second review period ensues from the December 15 certification date to March 31 of the following year. This period allows the cities to assemble and collect data which could not be assembled in the first review period. The CPRC will review additionally submitted data and notify the city whether their population estimate will be changed. If the CPRC changes the city's annual estimate, the revision will be certified March 31 retroactive to December 31 of the estimate year.

(4) Review Data: Cities may supply the CPRC with additional data that can be used to evaluate the population estimate in question. Acceptable review data are:

(a) Housing Data:

(A) Since incorporated cities provide the CPRC with annual building and demolition data by type of unit, these annual data may be reviewed by the city and by the CPRC. If the city has originally submitted incorrect building and demolition data, it must resubmit all building and demolition data broken down by month from the date of its last official census (either Federal or CPRC). The CPRC will

then reevaluate the city's estimate and determine if an adjustment is to be made;

(B) Mobile home inventories may be reexamined and resubmitted for the estimate year in question if errors are found in city submitted data. The CPRC will reevaluate the city's estimate based on corrected mobile home input as of March 31 of the estimate year in question.

(b) Group Quarters Data: If a city has originally submitted incorrect data on group quarters population, it may resubmit a detailed summary of all group quarters facilities within the incorporated limits of the city, and their respective populations as of March 31 of the estimate year in question;

(c) Annexation Data: Since cities provide annexation data to the CPRC on a quarterly basis, these data may be reviewed by the city and the CPRC. If city-submitted annexation data are incomplete, the city may submit annexation questionnaires for each omitted annexation and schedules for each housing unit involved in each annexation. If there are more than 125 housing units in any single annexation, the CPRC must conduct the census of the annexation area at the city's expense. This additional population data will be used to reevaluate the city's estimate;

(d) Utility Data: If a city chooses to supplement housing data with utility data, the following criteria apply:

(A) The utility boundaries must be entirely comparable to the corporate limits of the city;

(B) The coverage of the population by the utility must be evaluated against the last decennial census household count, i.e., the number of housing units serviced by the utility in the last decennial census year should be in general agreement with the number of occupied housing units enumerated in the last decennial census year;

(C) Master meters must be accounted for; one meter in use for an entire building misrepresents the number of residential units; in addition, conversions from master meters to individual meters must be checked;

(D) Care must be taken not to count vacant rental units that do not disconnect power between occupants.

(5) Enumeration or Survey: At any time during the first or second review period, the city may request that the CPRC conduct either a complete enumeration, or, for cities with populations greater than 5,000, a sample survey of housing units. The enumeration or survey is conducted at the expense of the requesting entity. The population determined by either the enumeration or survey will then be certified to the Secretary of State and to the U.S. Bureau of the Census. It should be noted that the U.S. Bureau of the Census recognizes CPRC conducted censuses and surveys and accepts CPRC figures for their Federal Revenue Sharing estimates. Censuses or surveys conducted before March 1 of the year following the December 15 certification will be certified March 31 retroactive to December 31 of the estimate year in question. The CPRC determination is final.

Use Restrictions

The parking structures and parking lots are for the use of faculty, staff, student, guests and visitors of the State System of Higher Education; parking by other persons is subject to availability of parking spaces and the policies as established by the administration of Portland State University. All persons — faculty, staff, students, visitors, and commercial representatives — who park in University-owned parking lots, structures, University controlled street access areas, campus grounds or other no parking zones, must obtain and display a permanent, temporary, contractor, or service permit. Vehicles cited for failure to display such permits are subject to penalty as assessed by the University. The PSU Parking office reserves the right to enforce all parking areas, from 8am to 7pm Monday through Thursday and 8am to 5pm on Fridays and Saturdays, including breaks between terms. Restricted parking areas, including drive lanes and fire lanes, disabled spaces, loading zones and lots marked as reserved 24 hours per day and all campus grounds may be enforced at all times.

Permits and Fees

(1) Permits: Parking permits are required to park in any University parking facility except on Sundays and legal holidays when the

University is closed. To be eligible for a permit, applicants must provide the University Transportation and Parking Office with their vehicle license number (or VIN# in lieu), make and year of the vehicle(s) on which the permits will be displayed. Applicants registering vehicles with the Transportation and Parking Office may be required to provide proof of registration that said vehicles are registered in DMV to them or members of their immediate family, and/or leased by applicant. Faculty/Staff permit applicants must provide proof of current employment at the University. Emeritus will receive, upon written confirmation from the Office of Academic Affairs, a complimentary parking permit, renewable yearly. Alumni may purchase an afternoon or evening permit by presenting proof of their status via a current alumni card. Student applicants desiring full time permits must show registration at the University, for at least twelve (12) credit hours. Masters and Doctorate students desiring full time permits, must show registration for at least nine (9) credit hours. On campus student housing residents must show registration for at least six (6) credit hours, and be identified on a housing list or have a current lease agreement or current rent receipt, to be eligible for a “West Hall Housing” permit or an “Ondine Housing” permit. Student applicants desiring afternoon or evening permits must show registration at the University, for at least one (1) credit hour. Student applicants desiring Tues./Thurs. or Mon./Wed. permits must show registration at the University, for at least six (6) credit hours. All permit holders must maintain their eligibility requirements throughout the term or surrender their permit for applicable permit exchange and/or monetary adjustment. All students will be required to pay for all outstanding fines, prior to purchasing a current term permit. The University may require that before a quarterly or yearly parking privilege for any vehicle is granted to any full-time or part-time student to use university property, students must show that the vehicle is operated by a student holding a valid driver’s license, that the vehicle is currently registered and that the student driving the vehicle is insured under a motor vehicle liability insurance policy that meets the requirements described under ORS 806.080 or that the student or owner of the vehicle has provided the Motor Vehicles Division with other satisfactory proof of compliance with the financial responsibility requirements of this state. Transportation and Parking Services reserves the right to waive any of these requirements.

(2) University parking permits are valid only when purchased from the Portland State Transportation and Parking Office. Permits not purchased through the Parking Office are subject to forfeiture and may be considered stolen. Permits are to be displayed in a manner prescribed by the University. Permits which are static cling or stickers are to be adhered inside of vehicle, on the lower left rear window, left rear side window, or if vehicle has a canopy, or a convertible top, driver’s front side window. Motorcycle permits are to be displayed in a conspicuous place. Movable permits are to be hung on rear view mirror facing toward front windshield, and clearly visible through the windshield. Permanent permits are not transferable except as provided in rule 577-070-0020 and must be displayed on vehicle registered to permit holder.

(3) The following types of permits are available at the Parking Office to faculty, staff, students, alumni, guests and visitors of the State System of Higher Education. A customer may only receive one physical permit.

(a) Faculty/Staff permits allow the applicant to park one vehicle at any time, during the day or evening, in any space designated as a permit parking area, except spaces marked reserved or restricted. Institutional accounts are not to be charged for parking space furnished to employees for personally owned automobiles. A charge may be made against a department, however, where parking space is furnished to a person with a privately owned vehicle when that person is rendering service for the benefit of the department with no compensation. (see OAR 580-040-0025)

(b) Day and Evening permits allow only one vehicle at any time to be parked in any space designated as a permit parking area, except spaces marked as reserved or otherwise restricted.

(c) University Reserved permits allow an assigned vehicle to be parked from 6:00 a.m. to 7:00 p.m., Monday through Friday in their assigned reserved space, unless otherwise posted.

(d) Carpool permits allow one vehicle at any time from a carpool registered with the Parking Office to park in one of the preferred carpool parking spaces on campus. Preferred carpool parking spaces are non-assigned and reserved for carpool members until the time designated at each parking space or lot. If the carpool spaces are full, carpool permit holders may park in general permit parking spaces. A carpool shall be defined as two (2) or more University staff, faculty, or full-time students, who have compatible schedules, allowing the car-poolers to ride in together, and have agreed to occupy a single preferred carpool space. Individuals in carpools must ride together a minimum of three days per week. Individuals who carpool must come into the parking office together to sign a carpool agreement and carpool contract to receive their carpool permit. A copy of PSU's carpool policies can be obtained at the Transportation and Parking Services office in Neuberger Hall.

(e) A Disabled vehicle which displays a State Disabled plate or placard may park in any non-assigned disabled space, providing the appropriate PSU parking permit is also displayed or the parking meter is fed. A disabled person is one who meets at least one of the following criteria as stated in ORS 801.235 and in Oregon Administrative Rule (OAR) 735-080-0010:

(A) A person who has severely limited mobility because of paralysis or the loss of use of some or all of the person's legs or arms;

(B) A person who is affected by loss of vision or substantial loss of visual acuity or visual field beyond correction; or

(C) A person who has any other disability that prevents the person from walking without the use of an assisted device or that causes the person to be unable to walk more than 200 feet, including but not necessarily limited to:

(i) Chronic heart condition.

(ii) Emphysema;

(iii) Arthritis;

(iv) Rheumatism; or

(v) Ulcerative colitis or related chronic bowel disorder.

(D) A licensed physician must certify that you are disabled, as defined above, and whether your disability is temporary. If the disability is temporary, the physician also must give the date you are no longer expected to need the disabled person parking placard or disabled parking space.

(E) Temporary disabilities such as fractured limbs that impair mobility can be accommodated on a temporary basis, with approval from parking administration.

Students must carry a minimum of six (6) credit hours.

(i) Motorcycle permits allow motorcycles and power scooters, including mopeds, to be parked at any time but only in areas designated as "Motorcycle Parking." This excludes spaces identified as bicycle parking.

(j) A complimentary temporary permit may be issued by the Transportation and Parking Office to a University student, faculty or staff member who has driven a vehicle other than the vehicle for which the permit was issued, provided that both the registered vehicle and the additional vehicle are not parked in University permit parking areas at the same time. A temporary permit may be issued for a fee to a University student, faculty, staff member, or alumni, only if the issuance of the temporary permit does not displace a University permit holder who has purchased permits under OAR 577-070-0015.

(k) Special Event Parking permits may be made available to visitors attending on-campus events such as athletic contests, concerts, meetings, and workshops, only if the issuance of the Special Event

Parking permit does not displace a University permit holder who has purchased permits under OAR 577-070-0015. Special event parking requires a PSU parking permit designed and/or approved by Parking administration. Parking availability and charges for special event parking will be the decision of the Manager of Transportation and Parking, or designated staff. Some events will require contractual agreements that will be drafted by parking administration and negotiated with event sponsors. On campus special events that impact parking space require at least a two-week notice in writing to PSU Parking.

(l) The use of the University parking meters is restricted to University students, faculty and staff members, alumni and visitors having business with the University. Metered parking requires payment from 8 am to 7 pm Monday through Thursday and from 8 am to 5 pm Friday and Saturday, including breaks between holidays. PSU meters are operational all days PSU is open, including holidays PSU does not observe.

(m) Restricted Extended Studies Parking permits allow University employees, whose University responsibilities necessitate daily travel to and from locations in the Portland Metropolitan area, access to the restricted Extended Studies permit parking lot, or any general permit facility, to include, but not be limited to the hours of 7:30 a.m. to 7:00 p.m. Monday–Thursday and on Friday until 5:00 p.m. The Vice President for Finance and Administration shall determine which University employees meet the minimum criteria for eligibility for a Restricted Parking permit.

(n) Student Housing permits allow a vehicle to be parked in any space designated as a Student Housing permit parking area, except for spaces marked reserved or otherwise restricted. Student Housing permits are available to those individuals with proof of on campus student residency, and proof of registration at the University for at least six (6) credit hours. Permits have lot and eligibility restrictions.

(o) Tenant Parking permits are provided at the discretion of the Manager of Transportation and Parking Services or designated employee, and managed through contractual agreements with the tenants and PSU administration. Parking access cards, if necessary, will be distributed through the PSU Parking Office and tenants will be charged a non-refundable fee for the card.

(p) Emeritus and VIP permits allow the vehicle to be parked any time during the day or evening in any space designated as a permit parking area, except spaces marked as reserved or otherwise restricted. No other persons may use the Emeritus or VIP permit, including members of the individuals household who are employed or attending classes at the university. An exception will be made for the spouse of an Emeritus permit holder if the Emeritus faculty is deceased.

(q) Monday, Wednesday, permits are good all day on Monday, Wednesday, Friday, Saturday and Sunday. Students must hold a minimum of six (6) credit hours to get this permit.

(r) Commercial Representatives, Delivery Vehicles, Contractors and Departmental Service permits:

(A) Commercial representatives (vendors i.e., business, company or individual), engaged in providing service under contract to the University, may purchase a service permit, and are entitled to park in any general permit parking area. Vendors will be required to pay all outstanding parking fines. Failure to comply may result in the vendors parking permit being revoked.

(B) Departmental Service permits may be requested by departments to be issued by the Parking Office, to be used by faculty and staff permit holders for loading and unloading in no parking zones for up to 30 minutes.

(C) Contractor permits shall be made available to a company or individual engaged in providing service, under contract, to the University, in any general permit parking areas; only if the issuance of the Contractor permit does not displace a University permit holder who has purchased a permit under OAR 577-070-0015. Arrangements for contractors, construction employees and construction maintenance personnel must be made prior to beginning work on campus. Permits arranged through PSU Facilities Management require a completed signed contractor agreement with project

accounting codes identified on the agreement at the time the permit is issued.

(D) Contractors requiring parking next to the job site must arrange parking and staging through the City of Portland. Any exception to this policy, due to extenuating circumstances, must be authorized and permitted by the University Transportation and Parking Office.

(E) Commercial Delivery vehicles may use any designated loading zone for up to 30 minutes, while conducting business with the University without a vendor permit.

(s) Oversized permits allow oversized vehicle access to spaces and areas designated by Transportation & Parking personnel based on availability.

(c) Interest Charges. Portland State University charges interest on account balances not paid within the grace period.

(A) Interest will be charged at an annual interest rate of 12 percent (.0003288 daily rate).

(A) Registration will be denied.

(F) Accounts will be referred to the Oregon Department of Revenue for state tax refund offset.

(e) Collection Costs. Accounts referred to collection will be assessed all costs and charges incurred in the collection of any amount unpaid when due, including, but not limited to, Oregon Department of Revenue charges, collection agency charges, reasonable attorney's fees, including attorney fees on appeal, and court costs.

(f) Address Updates. Until all outstanding account balances are paid in full, the student is solely responsible for immediately notifying the Office of the Registrar of any change in address or name.

(g)(A) Repayment Through Financial Aid. It is the policy of Portland State University to use any financial aid, including but not limited to, Stafford, SLS or Perkins Loan Proceeds to pay in full all accounts receivable debts and other current term charges BEFORE releasing any remaining financial aid to the recipient. Students wishing to decline the automatic crediting of Title IV aid to prior terms' unpaid institutional charges or to current charges other than tuition and mandatory fees must communicate their declination in writing to the Accounts Receivable Department in the Office of Business Affairs no less than 21 days before the first day of classes for the new term.

(h) Billing rights Summary. In case of errors or questions, a student may challenge a charge within 60 days after the first billing statement on which the suspected error or problem appeared, by directing his/her inquiry to the office initiating the charge. If an error occurred, affected charges will be adjusted.

(i) Notification of Changes. Portland State University may amend these Terms and Conditions without securing a new agreement.
