State Criminal Records Check and Fitness Determination

(1) The purpose of these rules is to provide for the reasonable screening of applicants and licensees in order to determine if they have a history of criminal behavior such that they are not fit to be granted or hold a license that is issued by the Board.

(2) These rules are to be applied when evaluating the criminal history of an applicant or licensee and conducting fitness determinations based upon such history. The fact that an applicant or licensee has cleared the criminal history check does not guarantee the granting or renewal of a license.

(3) The Board may require criminal history of all applicants for an initial or renewal license as an optometrist; licensees applying to reinstate or reactivate a lapsed license; and licensees under investigation to determine the fitness of an applicant or licensee. This information will be provided on prescribed forms made available by the

Board. The Board will submit information to the Oregon Department of State Police Law Enforcement Data System to conduct an Oregon Criminal History Check.

(4) The Board determines whether an applicant or licensee is fit to be granted a license based on the criminal records background check, any false statements made by the applicant or licensee regarding the criminal history of the individual, any refusal to submit or consent to a criminal records check, and any other pertinent information obtained as part of an investigation. If an applicant is determined to be unfit, the applicant may not be granted a license. If a licensee is determined to be unfit the licensee's license may not be renewed, reactivated, or reinstated. The Board may make a fitness determination conditional upon applicant's or licensee's acceptance of probation, conditions, limitations, or other restrictions upon licensure.

(5) Except as otherwise provided in section (2), in making the fitness determination the Board considers:

(a) The nature of the crime;

(b) The facts that support the conviction or pending indictment or that indicate the making of the false statement;

(c) The relevancy, if any, of the crime or the false statement to the specific requirements of the applicant's or licensee's present or proposed license; and (d) Intervening circumstances relevant to the responsibilities and circumstances of the license. Intervening circumstances include but are not limited to:

(A) The passage of time since the commission of the crime;

(B) The age of the applicant or licensee at the time of the crime;

(C) The likelihood of a repetition of offenses or of the commission of another crime;

(D) The subsequent commission of another relevant crime;

(E) Whether the conviction was set aside and the legal effect of setting aside the conviction; and

(F) A recommendation of an employer.

(6) All requested background checks include Oregon data. In some circumstances, national criminal data collection may be required.

(7) In order to conduct the Oregon Criminal History Check and fitness determination, the Board may require additional information from the licensee or applicant as necessary, such as but not limited to, proof of identity; residential history; names used while living at each residence; or additional criminal, judicial or other background information.

(8) Criminal offender information is confidential. Dissemination of information received under ORS 181.534 is only to people with a demonstrated and legitimate need to know the information. The information is part of the investigation of an applicant or licensee and as such is confidential pursuant to 676.175(1).

(9) The Board will permit the individual for whom a background records check was conducted to inspect the individual's own criminal offender records and, if requested by the subject individual, provide the individual with a copy of the individual's own criminal offender records.

(10) The Board may consider any conviction of any violation of the law for which the court could impose a punishment and which is in compliance with ORS 670.280. The Board may also consider any arrests, court records, or other information that may be indicative of an individual's inability to perform as a licensee with care and safety to the public.

(11) If an applicant or licensee is determined not to be fit for a license, the applicant or licensee is entitled to a contested case process pursuant to ORS 183.413-183.470. Challenges to the accuracy or completeness of information provided by the Oregon Department of State Police, Federal Bureau of Investigation and agencies reporting information must be made through the Oregon Department of State Police, Federal Bureau of Investigation, or reporting agency and not through the contested case process pursuant to ORS 183. If an individual successfully contests the accuracy or completeness of information provided by the Oregon State Police, the FBI or other reporting agency, the Board will conduct a new criminal history check upon submission of a new request.

(12) If the applicant discontinues the application process or fails to cooperate with the criminal history check process, the application is considered incomplete.
