Date: Friday, August 7, 2020 7:54:17 AM

Dear Leaders:

The COVID crisis has impacted my community enormously. While I understand the steps we took to control the spread of the virus, sales at businesses have taken a steep dive because of the government-ordered actions that were taken. This has impacted our community, friends and even family members as well as their staff and their families. We are all struggling.

Disconnecting from the federal CARES Act will only make it worse. This is a time when I need to count on you for help, not harm. I can't believe you are considering something like the CARES Act disconnect in LC 2, which will cost so many when they need it most. The CARES Act is bipartisan, and this partisan move by the Legislature is not right.

Sincerely,

Jessica Davidson
