Subject: Oppose Surprise Tax Increase in LC 2
Date: Friday, August 7, 2020 10:10:07 AM

Dear Chair Nathanson,

My name is Lauri Huxoll, I am the controller at Swain Motors , Inc in Hermiston,OR.

The COVID-19 crisis has impacted not only my business, but ALL businesses in Eastern Oregon enormously. Sales are down because of the government-ordered shut down. I understand why we did that, but the truth is that everyone is struggling to keep staff and recover from the shut down. Disconnecting from the federal CARES Act will only make it worse for my family, my business and my community.

Congress passed the bipartisan CARES Act to help struggling businesses, those who adhered to shut down orders or saw a steep decline in sales. This partisan move by the Oregon Legislature isn't right, and it will make it harder for businesses to put people back to work.

Like many businesses, my biggest issue right now is liquidity, and disconnecting from the CARES Act harms businesses like mine who are just trying to make ends meet. What I need right now is help from leaders like you. I can't believe you are considering something like the CARES Act disconnect in LC 2, which will cost so many the cash when it is needed most.

Please support local businesses, and maintain the integrity of the federal CARES Act relief in Oregon. My ability to recover from this pandemic depends on support from the state legislature, and LC 2 will only make it harder to come back from this crisis.
