Dear Chair Nathanson,

This just another Democrat plan to steal hard earned money from hard working small businesses that will cause some of them to not be able to stay open! And of course the Oregon legislators have never run a business of their own so what do they care about those that do run a business!

Congress passed the bipartisan CARES Act to help struggling businesses, those with a steep decline in sales. This partisan move by the Oregon Legislature isn't right, and it will make it harder for businesses to put people back to work.

Sincerely,
